State Hikes County Tax

County Funds Banked

Over \$400,000 will be added to time deposits in Hereford this week as Deaf Smith County Commissioners moved to keep the county's surplus money drawing interest.

To be placed on time deposit at the First National Bank is \$400,000 which was received by the court Monday from sale of bonds. The money, to be used for construction of 30.6 miles of Farm-to-Market roads in Deaf Smith County will not be needed until requested by the state.

Although the first segment of the road building is expected to get underway in the near future, it was felt that the bulk of the money would not be needed until after the first of the year.

In view of this, the court ordered \$100,000 placed on a 90 day recall basis with the local bank while the remaining \$300,000 will be placed on deposit also, and will be left until needed.

This action was taken Monday as the Deaf Smith County Commissioners Court toyed with an unusually light agenda.

In other action the court officially accepted a gift of \$265 from the Hereford Business and Professional Women's Club, designated for the purchase of a refrigerated drinking fountain for the county's Bull Barn; authorized the payment of annual dues to the state Judges and Commissioners Association and approved the appropriation of \$500 to be used for historical markers in the county.

Five Cent Raise Is First Change In Taxes Within Fifteen Years

Hitting county tax payers a double punch, the state upped ad valorem taxes 5 cents on each hundred dollar evaluation this week. This raise coming on top of the 25 cent raise announced by the School Board earlier this month puts a sting into the tax bite on Deaf Smith County citizens.

The raise is the first since 1951. In 1951 the state tax was lowered 30 cents giving relief from the previous 72 cent rate. Nell Miller, tax collector, said. It ups taxes collected through the county office to \$1.62 for each hundred dollar evaluation. Taxes in the county are assessed at 22 per cent of each hundred dollar value.

The state had been getting 42 cents of each \$1.57 collected by the county office. Now the citizen will fork over \$1.62 and the state gets 47 cents.

This fall, statements will reflect this raise, the tax collector said.

The county tax rate is 95 cents on each \$100 evaluation. Added to this 95 cents is a ten cent road tax and five cents for the special county tax that goes into a right-of-way fund.

Out of the 95 cents the jury fund gets 2 cents, the road and bridge fund, 25 cents; the general fund 45 cents; hospital (two sinking funds) 5 cents; permanent improvement fund (this includes such items as the parking lot and some costs connected with acquisition of the museum property) 1 cent; road and bridge machinery warrant fund, 5 cents; courthouse interest (remodeling and sinking fund) 5 cents and the jail, 7 cents.

Automobile registrations account for a sizeable chunk in the

Refund Builds Coffers

Deaf Smith County Commissioners were notified this week that the county will receive \$29,336.27 refund from the state's gasoline tax fund to be used for construction or improvement of the county's lateral roads. The money will be divided equally among the four county precincts.

The \$29,000 plus represents the county's share of the state surplus as of August 31. The money, now credited to the county, will be returned around September 1.

county coffers. The county gets the first \$50,000 and then the state gets half of amounts exceeding this first \$50,000 but un-

Dinner Honors Credit Manager

A Hereford woman long respected in the eyes of local business and professional circles is to receive special honor in the area Saturday night.

Mrs. Dyalitha Benson, Treasurer-Manager of the Hereford Texas Federal Credit Union, will be honored by the Amarillo Chapter of Credit Unions at a testimonial dinner.

Mrs. Benson, a director of Texas Credit Union League, has served as a director of the local credit union since its organization in 1936. There are three chapters in Mrs. Benson's district. Amarillo is one of the chapters and it has chosen to honor her, the first time in the history of credit union that a Panhandle director has been so honored.

She will be recognized for her credit union work and achievements on the local, state and national levels.

Known throughout the state as a true credit union pioneer, Mrs. Benson served as a director of the Texas League for ten years. When elected to

that groups Executive Committee, she also served as a national director of the Credit Union National Association, Inc. for four years.

A resident of Hereford since 1919, Mrs. Benson has seen the local credit union experience ex-

Propeller Injures Hereford Youth

Arm injuries were suffered by Ken Stark early yesterday morning when the moving propeller of a dusting plane struck his left shoulder, arm and hip. His condition was not known at press time.

Stark, 17, was working with Bill Coffin and Dwaine Pitten-

ger near Hart dusting potatoes when Stark stopped to pick up a sack of dusting compound to load. The prop apparently struck him as it was coming up. Coffin took him to Emmitt where he received emergency treatment and then was transferred by ambulance to Northwest Texas Hospital in Amarillo where he was in surgery four hours. Muscle, nerve and blood vessel damage was extensive according to Wayne Stark, father of the injured boy. Elbow bones were broken and the arm just above the wrist was broken, Stark said.

Attending doctors said that nerve damage was not as extensive as first feared, but that nerves to the little finger on the left hand would have to have repair work later.

Lacerations extended down the left arm from the shoulder into the hand. The hip laceration was not considered serious.

The injured boy had worked all summer with the dusting service. He will be a senior student at Hereford High School and has played guard on the Whiteface football team.

LIGHTNING STRIKES CATTLE

Scattered Showers Raise County Farmers' Spirits

Rain over the week-end filled lots of area lakes and dam reservoirs but at least one rancher looks at the results with a baleful eye — Roger Brumley lost 12 head of steers on his ranch 22 miles west of Hereford.

Tabulating the benefits of a 4.5 inch rain, against the cash

loss of the 750 pound steers valued at \$150 each, Brumley decides in favor of the rain. The area needed rain and even the benefits on his own crops far out weighed the steer loss, he said.

Moving toward Hereford, amounts dwindled until the in-town measure was well under

an inch. Phillip Miller, located 18 miles west received 1.45. A mile north of the Millers, the rain measured 1.6 and two miles north there was 1.7 in.

Apparently the Bootleg corner was the center of the drenching rains as only 2.5 was measured seven miles north of Friona.

Westway reported four inches of torrential rains with no damaging, wind or hail. Herb Schmidt commented that it was "the most water I've seen."

The Jim McCabe home, south of Dawn, received 1/2 inch. Five miles north of the McCabes, there was 1 1/2 in. and seven miles

north and two west, there were 3 inches measured over the two day drizzle.

Summerfield, Milo Center and Easter had only light rain while Wildorado reported two inches.

Places that didn't receive much in the way of moisture did receive a good dose of encouragement since the break in the dry spell may finally have come.

TEXAS SPENDS TOO LITTLE

Farmers Are Demanding More Help From Austin

Panhandle agriculturists were quick on the draw when they came face to face with members of the state Interim Committee on Agriculture in Amarillo yesterday.

State legislators met a volley of shot as West Texans told them that the State of Texas is lagging behind — far behind — in the field of agriculture. Area agriculturists clearly stated their intentions to the committee: West Texans want more positive action from the state capitol concerning agriculture.

The meeting, eighth of the committee, is one of a series being held throughout the state, in

an effort to obtain information concerning needed legislation for agriculture. The committeemen will be in 12 hearings before "closing shop" as legislators prepare to open their session in Austin in January.

Representatives from the West Texas area pointed a finger at state government in the hearing when they pointed out that Texas spends less for promotion of its second largest source of income as compared to every other agricultural state in the nation. Agriculture is second only to gas and oil in income figures in Texas.

Loyan H. Walker, manager of

the agriculture and ranching department of the West Texas Chamber of Commerce, said Texas was lagging behind all other states in the nation in promoting its agricultural interests.

The State of Texas had products equaling both Iowa and California in dollar volume in 1949, he pointed out; the picture is greatly changed today, as Texas is behind both states in gross agricultural business.

Walker cited figures showing Texas at the bottom for agricultural research in 1965 and also in dollars appropriated for agricultural research on a per capita

Rainfall Comes As Rodeo Event

Hereford farmers can prepare for a good rain, Thursday, Friday and Saturday, as the 15th annual Hereford Riders Rodeo swings into action.

Not that the Riders want it to rain, but after last year's performance when it rained, and in 1964 when they were completely rained out they have come to expect a cloudburst any time now.

Weather permitting, the Riders have once again planned a big time for area rodeo fans.

Registration books opened Wednesday at 8 a. m., and by press time, 96 contestants had entered the seven divisions in rodeo competition. Bare back riding, Saddle Bronk riding,

Bull riding, Calf roping, Team roping, Bulljogging and Barrel races will be the main events of the rodeo, and a new added attraction, a wild Mare race will be on the schedule. Registration books close today at noon.

A parade at 4 p. m. down main street will kick-off the event, with Riding clubs from Amarillo, Canyon, Dalhart and many other Panhandle cities participating.

A Rodeo dance on Friday and Saturday evening beginning at 9 p. m. at the Little Bull Barn will feature the music of C. R. Brandon and the Cow Towners.

Last year the rodeo attracted 200 contestants from a three state area. Entry fees for the various divisions include: \$26.00

Discard Empty Bottles Today !!

The answer to the problem of avalanching mounds of pop bottles is simple. Call Paisano. Lions and they will clear out your garage, from under your sink, out of the back yard.

Any old type of pop bottle will be picked up by the club today. Proceeds from the project go to the Hereford Good Will Center and specifically to the kindergarten section of that worthy project.

Bottles will be picked up by a Paisano Lion if the donor calls any of three numbers and gives their name and address. One bottle — but who

See DISCARD Page 13

Youths Admit Burglary Spree

A series of burglaries was cleared up this week when two juveniles confessed to entering homes and also taking money and articles from several stores over the past few weeks.

Involved was cash nearing the \$300 mark and numerous items ranging from gum to transistor radios.

The twelve year old boys related a story of repeated entries into some houses during the owner's absence.

They were not sure of dates but they said that they had taken articles from Cave's or Perry's, Montgomery Ward, J. C. Penny Co. Western Auto and Duckwalls. Cash was also taken from Hi-Way Auto Sales.

Residences entered included 225 Ave. D, 21 Ave. D and 111 Bradley Drive.

Apparently all of the articles of any value were recovered.

The boys were released to the custody of their parents after their interrogation Monday evening. Hearings for the youths were held yesterday afternoon with Judge H. C. "Hank" Williams presiding.

They were placed on probation in the custody of their parents. The court mentioned that they were first offenders.

(Continued from Page 1)
der the \$175,000 mark. After registrations in the county reach the \$175,000 level, the county gets the full amount.

This year, vehicle registrations seem to be a little lower than at this time last year, the tax collector said.

Quarterly reports from the office of the County Treasurer show that Deaf Smith County has run in the black all of this year. This is a story that may not be so by the middle of next month as the coffers are depleted with salaries and general expenses.

Balances shown in the departments have to carry themselves until receipts build-up with tax payments. Usually November sees the treasury build up. Fees are added as they are taken in each month, but usually these do not account for enough revenue to greatly affect balances in the various funds, officials said.

Fees taken in the offices of the County Clerk, Justice of the Peace, attorney's office, go into the officers salary fund.

Last year the general fund was over \$18,000 in the red by June 30. This quarter's fund shows a balance of \$7,499.56.

May shows a balance of \$27,271.20 left of the \$80,935.30 placed in the general fund at the beginning of the year.

The general fund in county government is the "expense" account and has the same problems that any business or household account has.

Funds cannot be determined exactly because the expenses fluctuate.

May, 1966 financial report gives an idea of the expenses the county has to pay from the general fund. These figures are higher than eight or ten years ago because costs for government are up the same as living costs.

This year, the remodeling of the Bull Barn had to be paid out of the general fund.

This figure at the end of May was \$35,025.43. Other general fund items include printing records that can run close to a thousand a month, telephone and telegraph that ran \$2,675.70 for the first five months of the year.

4-HERS LEAVE FOR ELECTRIC CAMP — Seven 4-H'ers left Monday morning in route to Camp Scott Ave, near Cloudcroft, N.M., to attend the annual electric camp sponsored by the Southwestern Public Service Co. They are, (top row), Charles Aichey, Steven Hoffman, Gerald Wikowski, Donald Vosek, (Bottom row), Judith McBride, Cynthia Hanna, Jane Wikowski, Dorothy Marnell, and Rita Huckerl. (Staff Photo)

Individuals think their utilities are high — the courthouse being extremely large as far as Hereford office space goes is tabbed between \$500 and \$1,000 a month for fuel, lights and water.

May was a light month for miscellaneous expenses, but a startling expense was \$614.08 for fire prevention.

An interpreter for juvenile court has cost county citizens \$30,000 for this year.

Texas Historical Foundation has received \$200 of county monies this year.

Courthouse employees have to have social security withheld. Taxes and insurance are payable complications for the county. Between 80 and 85 employees are under the social security plan at the courthouse. The county home demonstration and county agent, being employees of paying social security or not.

The general fund has these varied expenses, but taxpayers keep their eye on this fund since

it is an indication of what it is costing to keep county government moving — too, it is about the only place where county spending can be trimmed if necessary before budgets are worked out.

Salaries, bond retirement, (jail, hospital, etc.) all are fixed expenses and do not offer much area for contention.

This time of year, when the general fund is in the black, has been in the red for so many years, county projects are being considered in the light of cost.

Revenue of course is heaviest in October and November as people pay taxes early to get the 2 and 3 per cent discount. The tax office said that most weeks, they send around \$1,500 dollars in tax revenue to the treasurer.

When a deficit does occur in the general fund, the county can use funds from two other accounts that are backed with the general fund. This is an easier way to take care of the matter than would be transferring of funds from another account. This keeps the true financial picture in focus, the treasurer said.

Officer salary fund, has its problems too, apparently. Last year, the fund had to be built up twice according to one courthouse official.

Receipts from the tax collector, county clerk, sheriff, district clerk, justice of the peace, and several other small items add to the officer salary fund. If these receipts are lower than expected, the deficit has to be made up from a fund that is carrying a heavy balance, such as the road and bridge fund.

Not all salaries are paid completely by the county however, some are shared by the state. Another fund that becomes destitute after a few months of the year is the law library. Fees are not enough usually to keep this fund in the black. Transfers from other funds keep this one built up according to officials.

One item that raises receipts this time of year is the licensing of trucks to haul heavy loads. Trucks for potato harvest brought fees up \$4,000 and beet harvest will bring in a few more dollars. Many truck operators

Walcott School Budget Accepted

County Commissioners accepted the budget estimate for the Walcott school district for the school year 1966-67.

The \$81,325 budget had previously been passed on by the board of trustees, J. V. Perrin, president. Also serving on the board are W. R. Duggan and Jim Monroe.

Serving the northwestern portion of the county, the Walcott district is under the jurisdiction of the County with the County Judge, H. G. "Hank" Williams as superintendent.

Personnel at the school, consists of four teachers. There is no principal because of the size of the school but one teacher is considered the head teacher and serves in an administrative capacity. The cafeteria and custodial service are usually handled by a couple. A house is furnished for these people.

Items responsible for upping the coming year's budget include teachers' salaries, up about \$3500. Bus operation has been upped nearly \$2,000.

Furniture and equipment are really pushing the budget up. The 1965-66 budget used \$873.18, while the up-coming year calls for \$3,000.

Janitorial supplies take a big chunk of the proposed expenditures — \$1,000 as compared to \$470.95 this past school year.

Tax rate for the district is based on 22 per cent of actual evaluation, the same percentage as county evaluation. The Walcott rate is \$1.65 per hundred dollar evaluation, with local maintenance grabbing the bulk, or \$1.45 and leaving 20 cents for bond retirement.

Library facilities are being expanded with \$500 being allocated for library almost a hundred per cent increase over this past year.

Student activities fund is scheduled for \$300 this year, last year used only \$16.

The 1966-67 budget calls for just under \$10,000 more than the approximate estimate for the 1966-65 school term. The 65-66 term budget is considered an

estimate until the end of August when the year ends.

Fresh Water Fishing Holding Good

Summer fresh water fishing is holding up unusually well this year over most of the state, according to reports to the Texas Parks and Wildlife Department.

A SPOKESMAN said the unusually cool weather extending into the time when heat already has arrived became a major factor in the favorable 1966 angling picture.

Black bass fishing reportedly has been holding up well because of the weather break, and the old reliable catfishing likewise has been producing good results.

Regardless of the weather, the

spokesman noted, panfish are popular with the summer trade.

SUNFISH, in addition to being the sweetest and best tasting of all fresh water fish, are available in amazing numbers, he said. Besides they cooperate with the angler and bite readily.

The spokesman qualified his encouragement to the sunfish addict by suggesting that some research or on location observation be made as to the feeding times of the sporty panfish.

HE SAID they usually bite in the early forenoon and in the late afternoon and are inclined to be fussy about dining in between. He pictured the perfect summer vacationer as one with a cane pole, some tiny hooks, a can of worms and a shady place to drop his line around some weeds, a log, brush, or beneath an overhanging limb.

Lakes having white bass provide good night fishing with lights. Sports interested in attracting crappie might try sinking some green willow brush

since the speckled fighters are attracted by the fresh leaves.

Above all, the spokesman cautioned anglers to preserve their fish and suggested a loose woven burlap bag hung over the side as an excellent way to keep fish alive.

Sometimes when cream is served with coffee at a party, there's cream leftover in the refrigerator. You may want to whip it, sweeten it to taste and flavor it with a dash of salt and a little vanilla, and freeze it to have on-hand-to-serve-with-a-dessert. At serving time, offer the cream frozen or let it defrost.

Company coming? To give that tossed green salad epicurean flavor, cook-a-package of frozen artichoke hearts according to package directions, then chill. Toss the artichoke hearts along with the greens and French dressing — at serving time, of course.

AREA COUPLE ELECTED — Mary and Jack Flynn, Dimmitt, were welcomed home Tuesday night with a police escort and 150 proud friends. They were elected State President and Department Commander for the American Legion Sunday, and created a first for the state. They are the only man-wife team ever to be elected to both Legion offices at the same time. Flint has a 710 post territory with 72,000 members while his wife's area contains 450 units with 20,000 members. Master of ceremonies for the occasion was Grant Hanna who, until recently, served as District Commander of the American Legion. (Staff Photo)

Park Is Named Prime Project

Bill Thompson, Manager of the Chamber of Commerce, was the featured speaker for the Rotary Club Monday. He illustrated activities of the Chamber using a flip chart.

Thompson stressed the fact that it is the members themselves who govern the actions of the Chamber, and that the Chamber's goals represent those of its members.

Each Rotarian present received a list of proposed projects of the Chamber. The list included twenty-one suggestions. Each member was asked to rate the top ten in the order of their desirability as projects for the community.

The project receiving the highest rating from the token poll was the development of Veterans Park. The Chamber according to Thompson feels that a well developed park will attract more tourist trade to the Hereford area.

Rating second on the poll was a comprehensive building code. An area vocational school rated third.

Creation of an industrial development foundation was rated fourth. This would attract more industry as well as help the present industry of Hereford — it was further explained in an editorial in the June 12 edition of the Sunday Brand.)

A Hereford Industry recognition week, which closely relates to the number four rating was rated ninth. It is strongly felt that industry needs more local encouragement and support, the Chamber Manager said.

FIFTH AND sixth ratings were a fourth-south bus or express package service and the creation of a railroad underpass near the junction of Park and dams on Tierra Blanca and the development of an effective farm truck by-pass route that will not detour tourist traffic.

were rated seventh and eighth respectively.

Adult vocational training programs for migrants and others and sponsoring an Action Course in Practical Politics and other group-economic-political discussion courses tied for the tenth rating.

The results of the poll can be used by the Chamber as a basis for further planning, Thompson explained.

He stated that the Chamber has a twelve man board, with four men being elected each year for three year terms. The Board hires a manager who then hires the staff. The membership appoints department heads and the President appoints Committee Chairmen, with the approval of the board, who then choose the committee from among the members.

Some of the goals of the Chamber include: strengthen the markets of crops and livestock, offer leadership and support to projects designed for better living in Hereford, develop and expand retail and wholesale trade territory, seek to improve transportation and communication facilities; make Deaf Smith County more widely known, promote and develop tourist and convention industry, encourage participation in and study of the government at all levels.

The Chamber offers a number of services to businesses, tourists, and students who write for information. They receive 15-20 letters per day and strive to send replies within 24 hours.

Thompson stated that the Chamber now has a Zerex machine which is available to the public for a charge of 15 cents per copy.

Large capers are particularly delicious. You can usually find them in jars in a supermarket or other food shop that stocks Spanish-type foods.

NEW SYSTEM — Hereford Fire Chief, J. P. Dickerson and Terry Hale fire marshal, hook-up one of the four new pre-connect soft suction systems, recently acquired by the city. (Staff Photo)

House Serves On Pavilion Planning

Dean House of Hereford has been named, through recommendation of the County Agent, as county chairman in the Texas campaign to build a Texas Pavilion at the Agricultural Hall of Fame at Bonner Springs, Kansas.

The county campaign is one of more than 200 such campaigns planned throughout Texas this summer.

Honorary state chairman is Governor John Connally, who launched the Texas drive in May with a statement and proclamation strongly supporting the national agricultural center.

State co-chairmen are Harold H. Hogue, prominent wheat rancher from Dalhart, and Charles G. Scruggs, editor of The Progressive Farmer, Dallas.

Mr. Scruggs said, "The Agricultural Hall of Fame and National Center is the only institution in the country which is devoted to memorializing the greatness of American agriculture since pioneer days." He explained the National Center is administered by a board of volunteer agricultural and business

leaders drawn from every state in the Union and that the Center is a private, non-profit, tax-exempt corporation having no government support.

Comprising 275 acres of rolling farm land at one of the highest points in Eastern Kansas, the Agricultural Hall of Fame today has assets of more than \$700,000.

An exhibit hall of 9,500 square feet with an administrative wing of 3,100 square feet were opened to the public last June. A second building will have more than 18,000 square feet of exhibit area and will be the largest of its kind in the world given over exclusively to the exhibit of antique farm power machines.

Funds to launch the Agricultural Hall of Fame have been received from more than 20 states, Kansas and Missouri contributed the largest share to initial purchases of land and construction of buildings.

CYO Meeting Set At Local Church Sunday

Approximately 250 youngsters will be in Hereford Sunday for an Atharillo Diocesan Catholic Youth Organization Rally which will be held at St. Anthony's Catholic Church.

"GUIDELINES to Ecumenism" will be the theme for the rally and Father Elmer Albracht, from St. Elizabeth's parish in Lubbock, will be the featured speaker for the event.

The meeting will begin with Father Albracht's talk which will be followed with group discussions. The group will celebrate Mass at 5:25 p. m. and then will be served dinner.

A HOOTENANNY and a dance will climax the day's activities for the group.

Father Alexander Beaton, moderator of the local CYO and Gerald Witkowski, youth president, will be making all the arrangements for the meeting.

HEREFORD JUNIOR RIDERS

PICTURES AND STORY
By TYLER VANCE

Gone are the days of the purple sage, and a life built around good horsemanship. These are things of the past, memories of a past era. Or are they?

Ask any Hereford Junior Rider's opinion about a love of horses or a western style barbecue, or maybe even an old fashioned trailride. You might be surprised by the answer.

Organized in 1959 by two members of the Senior Riding Club, Nell Spradly and Harold Beauchamp, the Junior Riders have inscribed a colorful picture of the Old West on a life filled with the fast moving automobile and a busy social schedule.

The club had a total of 15 interested young people for its original membership but by the end of the first year the number had grown to 25.

The Juniors have a good safety record, with the most serious injury being a broken leg. As can be imagined, these young riders are taught how to take a fall, and also learn how to handle horses safely, two things responsible for such an outstanding safety record.

"We learned as we went along," says Harold Beauchamp one of the founders of the club.

And learn they did.

One of the first things taught the new members was the care of their horses. Under the guidance of the two sponsors, they were taught the art of riding and how to take a spill, valuable in preventing serious injury to the young riders.

ALTHOUGH RIDING technique and "horsemanship" are important to the rodeo performer, sportsmanship is the number one quality stressed by the Junior Riders Club.

Performance of the club at the various events entered over the years has always been outstanding. Since the first, the Junior Riders have participated in the National Finals, the highest ranking event for the club. The privilege of representing this district at the finals is earned by the club scoring the highest points in district games held the second Sunday of each month at Canyon and at the district finals. The Hereford club has, for the past seven years, been the representative of this area at the National Finals. Hereford has also been represented in the all-round high point division, one of the highest honors of the annual event. The club competes with clubs from a four state area in the finals.

THIS YEAR the finals will be held in Dallas on October 7, 8, and 9. Since Hereford is again high point club in district competition, it will represent dis-

trict 2 at the National Finals, and will send a team of approximately 15 members to compete. Transportation is provided by the Hereford Riders Club.

The Juniors have set aside Thursday evenings to practice the different games they participate in at play days at Canyon. Spectators are welcome at the Riders Arena each Thursday evening beginning at 7:30 p. m. to watch the members of the club guide their horses through a course of barrels, or stab, a slice of potato from the ground while on a swift moving horse and riding against a time clock.

THE JUNIOR Riders, although associated with and sponsored by the Hereford Riders Association, also have their own club officers, and queen, elected by the members of the club. Cliff Johnson and Sylvia Brooks are presently the sponsors for the Junior club, and one of them is present at each of the practice sessions and meetings held by the club. Any serious problems that arise are brought to the attention of the sponsors, who then help the members work out a solution. One of the main highlights of the year for the Juniors is their annual rodeo, held May 6, 7 and 8.

The members do all the planning for their rodeo, and each member has a certain function in the event. Proceeds from the rodeo are used for playday and transportation expenses.

BUT THE Juniors are not left out of Hereford Riders activities. Junior members play a large part in the production of the annual Hereford Riders Ro-

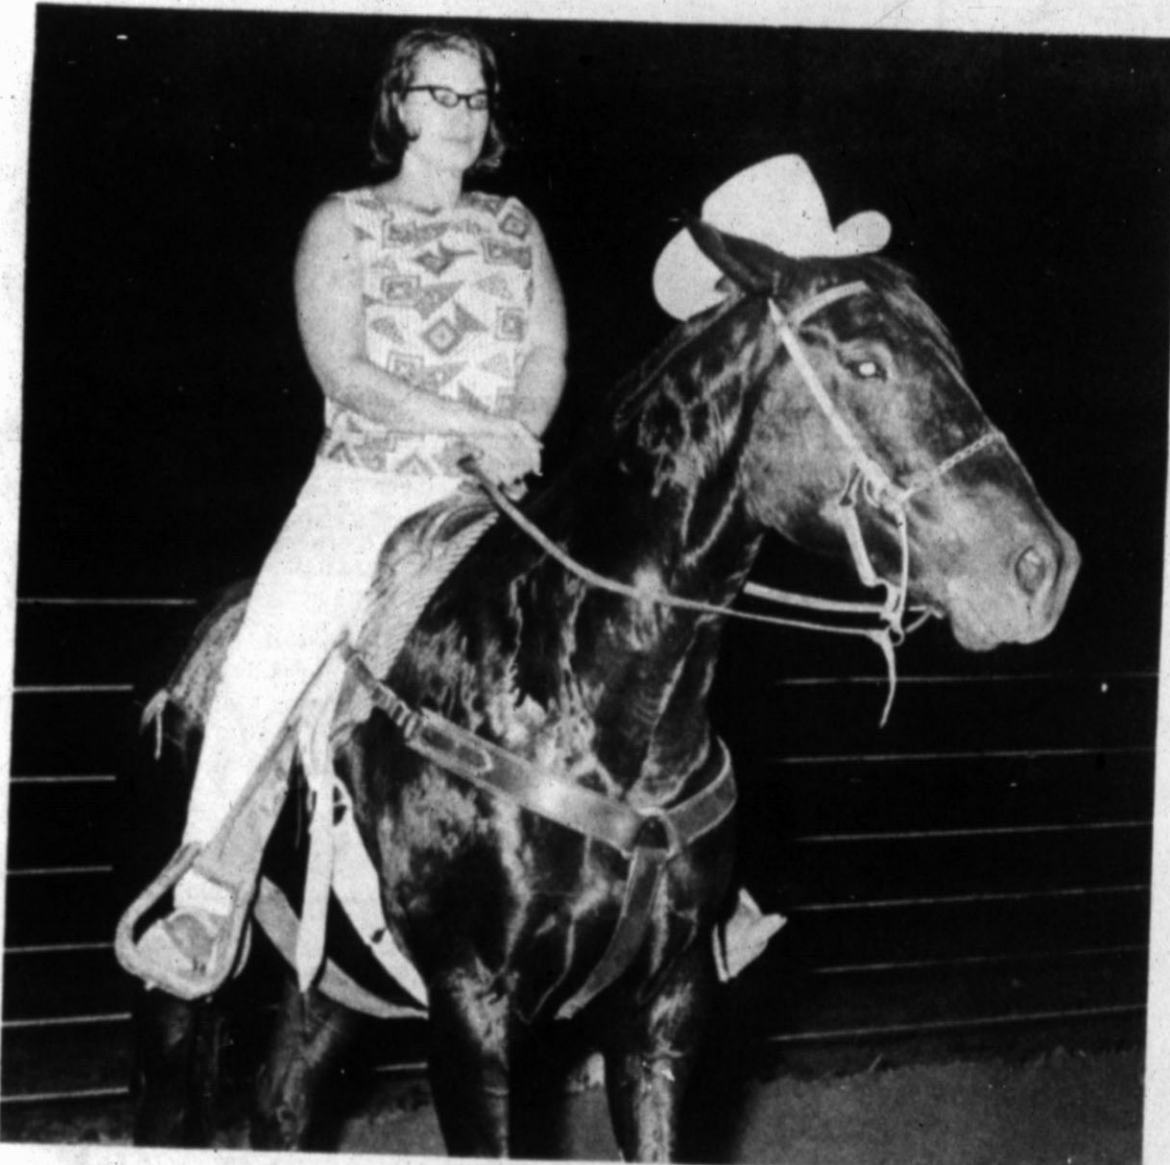

deo. The Juniors also ride in most parades with the senior club, and sometimes have their own section following the Hereford Riders in parade line-up. The Junior members are responsible for preparing their own horses for a parade.

Hereford Junior Riders also have many activities in which the only purpose is to have a good time. Watermelon feasts and an occasional trailride and camp-out are just a few of the things that a member comes to look forward to. The club has recently returned from a trailride in Romero, Texas, where they stayed overnight and did their own cooking.

One of the more recent activities of the club is Palmetto Polo. The Hereford Riders Arena was built to regulation size for the sport. Although the Junior Club has not played an official game as yet, the members seem to be enjoying the regular Polo practice sessions every Friday evening.

THERE IS NO limit to the number of members of the club. Each member is expected to maintain his own horse and attend the meetings and practice sessions regularly. Dues are \$7. There are no restrictions on the type of horse used by the members in the games and parades, as long as it is well groomed and properly outfitted.

At the age of 16, Junior Riders must decide whether to stay in the junior club until they are 18, or join the Hereford Riders Association. Many riders prefer to remain in the junior club, which has been the starting point of their riding career.

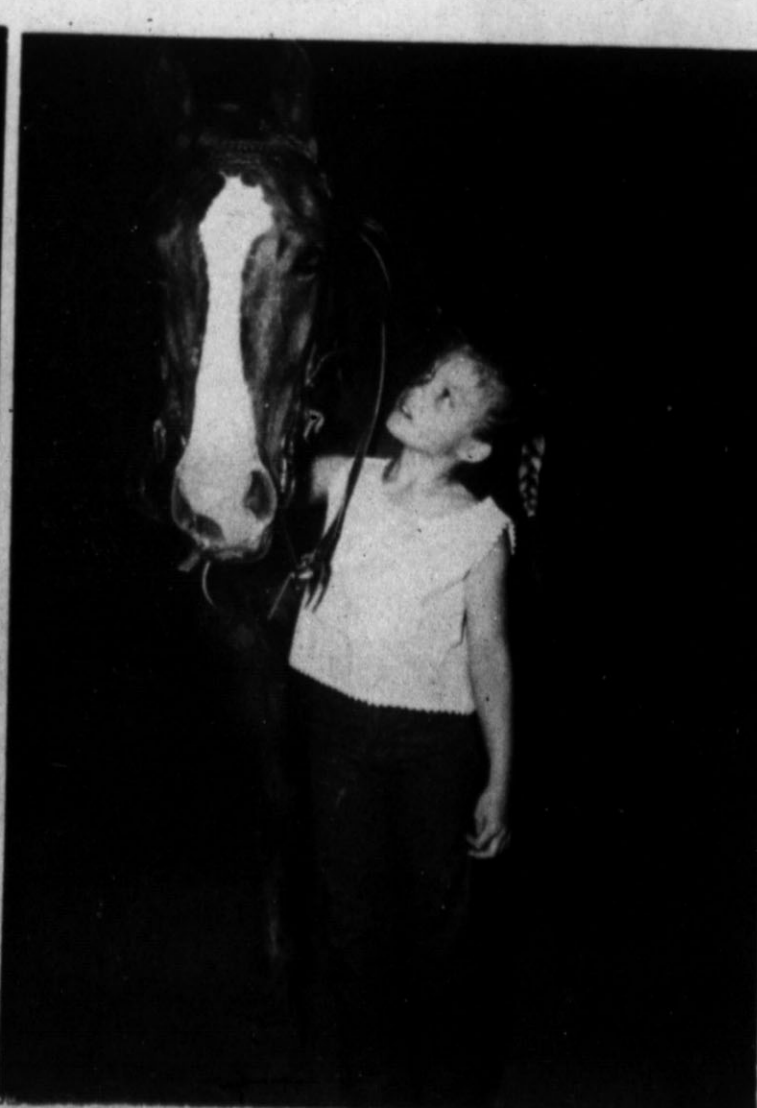

Toni Beachamp's horse, "Larry's Magic", has recently aquired that "educated" look.

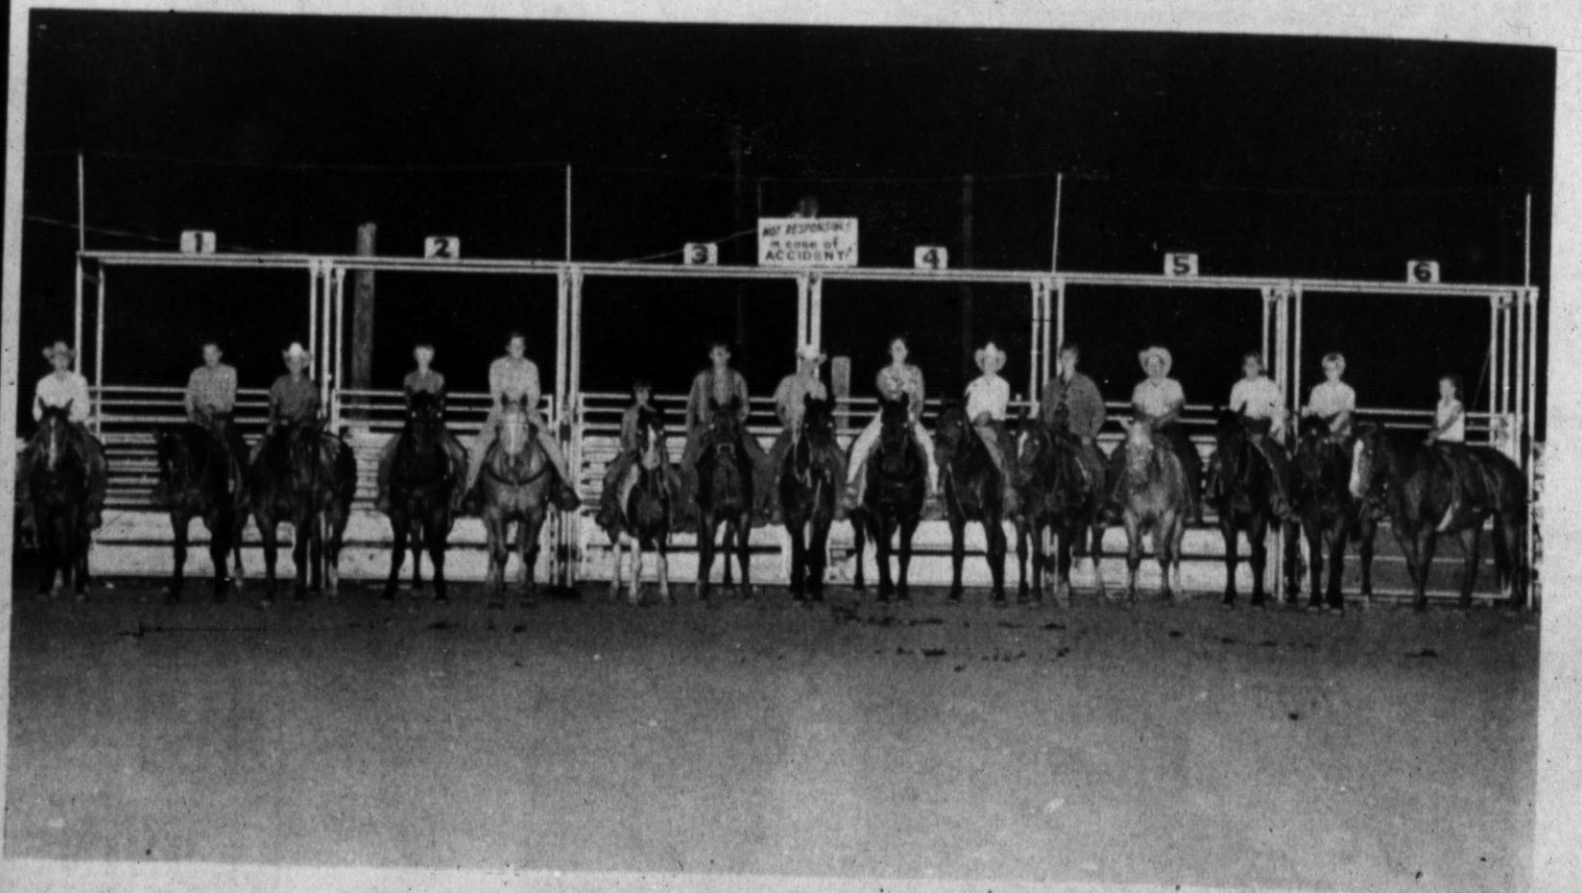

Pat Cooper, Hereford Junior Riders Queen.

Rodney Brooks guides his horse through games played by the Junior Riders.

Candy Poarch, in one of club's many games. Renee Poarch, is the youngest member.

The Hereford Junior Riders Club

Glad's Garden

"The summer hot sun looks out from her brazen tower. Through the flashing bars of July," Francis Thompson.

Last week, in our discussion, we spent the early morning hours in the garden meeting new garden friends. This week we are going to make our garden visit at Hi-noon.

In the OLDEN DAYS, (as my grand-daughter Beverly would say) the gardens were not used or enjoyed, and all work was stopped during the mid-day hours. All the women folk were cautioned to stay in, out of the heat and the sun-shine. They would ruin their complexion, and their hair would become burned and lifeless, and oh! horrors they would have freckles. If by chance they did venture out they wore a sun-bonnet, long gloves. They were really protected from the hot-sun rays.

Not so, in MODERN DAYS. Now we spend much time in the sun shine and have given up shelter of walls, shades, house protection, sun-bonnets, ect. Instead we seek ways to capture the sun's glow without its growl and heat.

Man has always wooed the golden light, then just as consistently sought protection against its ardor. Today the general trend is to have a sun-tan.

All ages and sexes want to be in style by having a glowing, burnished sun-tan. Sun bathing is a very popular hobby, and Hi-

noon is an ideal time. Many also acquire a sun-tan by working in their gardens or fields, when the sunshine is the hottest and brightest.

Much as we delight in the sun we often prefer to enjoy it from the partial protection of a latticed roof, an overhead sun-shade, sturdy plastic roof or lawn parasols. These offer some obstruction—and filter the heat of hi-noon. Other features of the homes today are, patios, terraces, out-door living rooms, walled in spaces or protected areas, all of these add much to summer comfort and pleasures. Any week in the year when the weather is right for out-door living you'll find people enjoying these facilities. To receive the greatest benefits, and most enjoyment they should be attractive and inviting. This can be accomplished by furnishings, accessories, plants and flowers.

It is possible today to shop for furnishings and accessories for these in much the same way you shop for furnishings for the living room, or any other room of the house. The remarkable difference is that you can furnish an entire out-door room or other areas in the garden with plants at about one-third the cost of a good piece of furniture.

Any week in the year, when the weather conditions are conducive to plant growth, you can find plants, shrubs, or flowers at the nurseries ready and wil-

PATIO SHRUB — Bottle brush makes a lacy pattern on the patio of Mrs. Roy Smith, 112 Star. Combined with wrought iron furniture and accessories, the texture contrast of ivy and the bottle brush have a cooling effect. (Staff Photo)

ling to add their matchless touch color and excitement to the scene.

Gardening is a many sided, fascinating thing. If you are a horticulturist, an explorer or collector at heart and have an inquiring mind there are many possibilities awaiting you for decorating and beautifying the terrace, patio or out-door room.

The list of plants groomed to decorate these areas grow longer and richer each year. In increasing volume you can plant shrubs and train them in the fashion of a tree rose. These are intended to serve for small placements as "patio trees," or entrance plants. Some of the small shrubs recommended by azalea, small photinia (pho-

cause insects are not a problem with these. Don't stint with water as they like to be drenched during the hot summer days. These are highly recommended for hanging baskets or potted plants. (the baskets do not do too well here unless completely protected from the wind.)

The best potting medium is one-third garden soil, one-third peat moss, one-third sand, this is also a good mixture for rooting cuttings.

The following grow exceedingly well here: Sedum Sieboldi (Pink chain), Sedum Morganianum (burro's tail), Sedum Spectabile (House Leek), the last named does not winter-kill. good for ground cover, and Sedum Green rose.

Some of the succulents which are grown in this area are: Aquave Americana (Century Plant) Sempervivum, (Hen'n chickens) this does not winter kill. Echeverias, which is very colorful, Aeonium decorum (Mock cabbage) Sanserviereae (snake plant or mother-in-laws tongue) and Crown of Thorns, this has brilliant red flowers.

Do grow some of these, they are most satisfying.

Colorful flowers are an invitation to relaxation, and express a welcome. For the patio, terrace, or an out-door room, many flowers do well in planters, or boxes, brick built-in planters, redwood, or cedar containers, and many other attractive containers. Petunias are adaptable to all of these. They are lovely by themselves and also combined with other plants. Pictured is a patio box in which appleblossom petunias, white satin petunias, trailing vincas (V. Minor) both the variegated leafed and the green, pink cloud geraniums, and sedum acre are combined.

For a variety of plantings the following have been proven; colorful, trailing geraniums, Martha Washington Geraniums, Lemon and Mint Geraniums, geum, daisies, tuberose begonias, fibrous rooted begonias, and foliage begonias, lobelia, French marigolds, asters, marguerettes, annual phlox, Gypsophila (baby's breath) ranunculus, lantana, (L. sellowiana) Nelela (Ground Ivy) Nebescastra (wandering jew, Moses in the Basket) is an especially beautiful plant) and lantana. The later comes in many lovely colors, and the foliage texture adds interest.

In planning your plantings for the boxes, be sure and include several foliage plants, these combined with white flowering plants makes a striking picture and tends to create a cooling atmosphere.

Surround yourself with out door furniture. In this modern do-it-yourself age, you can make your own furniture. That is styled to fit your kind of living. Materials should be selected to combat climate wiles and at the same time provide built-in comfort for reading, sun-bathing, relaxing, napping, and entertaining. In the 'GOOD OLE SUMMERTIME,' hospitality really moves out doors.

Choose bright singing colors, or more subtle earth shades — olive, ocher, natural wood and linen tones, keeping in mind always the architecture of your house and the design and mood of your garden, when selecting furniture, plants, shrubs, flowers, and the accessories. Straw hats symbolize sultry weather. So can straw accessories. Soften the effect of too many straight lines with a shallow basket or two, or make a wall arrangement with natural straw palm leaf fans, or panels. A single touch of incandescent white is all it takes to add a cool dimension to a shimmering day. Plain clay pots in sharp white, or fresh-washed bud green can tone-down a siz-

Sewer Contracts Let Monday For Rush LaPlata Project

Hereford City Commissioners came in under the wire Monday when they let the contract for a sewer to La Plata Junior High School. The contract was let to H. B. Jordan Inc. of Amarillo with work to be finished in 30 days.

This means that if the contractors can work with no complication due to weather they will finish the job only five days before the beginning of school in the building.

If there is a delay in the work it could possibly mean that the building would not be supplied with sewage facilities in time for school to begin.

Bids were considerably lower than commissioners had anticipated for the construction.

Commissioners were expecting bids to be at least \$34,000 and maybe as high as \$38,000 for the job, but the low bid of \$31,528.30 was submitted by the Jordan company of Amarillo.

Other bids were submitted by Panhandle Construction Company of Lubbock, J. T. Brodie Inc. of Amarillo and Foran Construction Company Inc. of Amarillo.

City engineer, Bill McMorris said that he anticipated complications in laying the line and expects work to go right on schedule.

McMorris said that the line would connect to present sewer lines at Ave. F and about where 18th St. would intersect. The line will go west from there to Hwy. 385, under the highway and then turn south to 15th St. The line will then go west on 15th St. to Ranger Drive and then be connected to the school.

The bid includes 13 manholes at \$150 each or \$1,950 for all of the holes, 420 linear feet of clay sewer pipe which will be laid eight to 10 feet deep. The cost for this part of the job is \$2.76 per foot or a \$949.20 total.

A 59 vertical foot extra depth man hole will also be required in the job. The cost is \$30 per foot or \$1,770 for the total job.

Next is 230 linear feet of eight-inch clay pipe to be laid at a 10-12 foot depth. Cost for laying this part of the line will be \$2.56 per foot or a total cost of \$588.80.

One of the more expensive items in the bid is \$2,750 linear feet of 12-inch clay pipe to be laid at a depth of six-eight feet. This part of the job will cost \$3.38 per foot or \$9,240 for the complete portion.

Four hundred thirty-three linear feet of 12-inch pipe will be laid at a depth of eight-10 feet and will cost \$3.66 per foot with a total of \$1,584.78.

This line will then go deeper requiring 1,070 feet of 12-inch pipe to be laid at depths of 10-12 feet. Cost for this portion of the job is \$3.96 per foot or a total of \$4,237.20.

Requirements call for 1,467 feet of clay pipe at depths of 12-14 feet. Cost for this portion will be \$4.36 per foot of \$6,396.12 for the complete portion.

Seven hundred fifty feet of 12-inch pipe will be laid at depths of 14-16 feet costing \$4.76 per foot or \$3,570 for the total job.

The pipeline will cross under Hwy. 385 and 68 linear feet of boring under the highway will be required. Cost for this portion of the job will be \$9 per foot or \$612 for the total job.

Cast iron pipe will have to be used under the highway instead of clay pipe. This 12-inch pipe which will be 92 feet long will cost \$6.85 per foot or \$630 for the complete cast iron pipe line.

Card of Thanks

We, the family of C. E. Carney, wish to express our gratitude for all the help and kindnesses given during the lengthy illness and at the death of our husband and father.

We want to thank everyone for the food, cards, flowers, masses, prayers and visits that made this burden easier to carry.

Mrs. Carney
Mr. and Mrs. Werner Koelzer
Mr. and Mrs. Robert Van Vleet
Mr. and Mrs. Jack Travers

422 ONE-ROOM SCHOOLS

FRANKFORT, Ky. (AP) — The one-room school is fading fast in Kentucky, dropping from 3,278 to 42 in the past 17 years. All but nine are in mountainous Kentucky.

Look Who's New

Mr. and Mrs. Epifanio Ortiz are the parents of a daughter, Rosemarie, born July 25. She weighed 8 lbs.

Mr. and Mrs. Vincent Garcia are the parents of a daughter, Dora Elba, born July 24. She weighed 8 lbs. 1 oz.

The State of Texas TEXAS WATER DEVELOPMENT BOARD TEXAS WATER POLLUTION CONTROL BOARD

Notice is hereby given to all interested parties of a public hearing to be conducted by the Texas Water Development Board pursuant to Acts 1965, 59th Legislature, Chapter 297, page 587 on August 22, 1966, at 9:00 a. m. at the Hamilton Building Auditorium, Wichita Falls, Wichita County Texas at which hearing a proposed plan of water development for the Upper Red River Basin will be presented and evidence for or against the plan will be heard.

Notice is hereby given to all interested parties of a public hearing to be conducted by the Texas Water Pollution Control Board relating to the development and adoption of water quality criteria for the Upper Red River Basin in compliance with the Federal Water Quality Act of 1965 P. L. 89-234. The hearing will be held on August 22, 1966, at 9:00 a. m. at the Hamilton Building Auditorium, Wichita Falls, Wichita County, Texas, immediately following the above scheduled hearing of the Texas Water Development Board. The Texas Water Pollution Control Board will be guided by the requirements of the Federal Water Quality Act of 1965 and the Guidelines for Establishing Water Quality Standards for Interstate Waters, promulgated pursuant to said Water Quality Act by the U. S. Department of Interior. The Board will consider views, comments and recommendations on the development of a plan for implementing and enforcing the water quality criteria, including a timetable for compliance.

All interested parties are invited to be present or represented at the hearings, including representatives of federal, state, county, municipal agencies, and those of commercial, industrial, civic, highway, railroad, and water transportation and flood control interests, and property owners concerned. They will be given full opportunity to express their views concerning the character and extent of the desired developments and criteria and the need and advisability of execution. The Texas Water Development Board and the Texas Water Pollution Control Board are particularly anxious that the views of all persons, both opponents and proponents, become part of the record of the hearing. To insure equal opportunity for all, either oral or written statements or both, are encouraged and will be accepted. FOUR COPIES of all written statements will be required. Joe G. Moore, Jr. Executive Director of the Texas Water Development Board and Chairman, Texas Water Pollution Control Board T-30-1c

Wyoming ranks second among the states in uranium production, fifth in oil and ninth in natural gas. Its coal deposits could supply the entire United States for 300 years.

The uneven halves of Pakistan be separated from each other by nearly 1,000 miles across India. West Pakistan has 85 per cent of the nation's land but only 45 per cent of its people.

PAISANO REBELS BALLTEAM — Paisano Lions Club Rebels took second place in the Panhandle City Local Ballteam Organization Sunday when they were defeated by the Amarillo Indians 2-1. They are, back (l-r), Jimmy Moreno, assistant coach; Lynn Cook, Savino Suires, Longo Cuellar, Nacho Gonzales, Robert Chavarria and Julian Valdez, coach; front, Paul Moreno, Gilbert Moreno, Al Salinas, Charlie Moreno and Freddie Moreno. (Staff Photo)

IN 2-1 DECISION

Rebels Drop To League Leaders

Hereford Rebels dropped two games behind the Amarillo Indians into second place in Panhandle City Local Ballteam Organization when the Amarillo team defeated the locals by a 2-1 score. RUBEN Renoza was the winning pitcher for the Indians, allowing the Rebels five hits throughout the game. Charlie Moreno led the Rebels in hitting with two hits for three times at bat. Moreno scored Hereford's only run of the day. Rebel players will clash with the Amarillo team again Sunday at Whiteface Field at 1:45 p. m. This will be the third time for the two teams. In the first game the Amarillo team downed the locals 6-5. The game will give the Rebels a chance to narrow the two game lead.

Both teams were scoreless until the third inning when Amarillo connected for two base hits and one run. Hereford was unable to come up with a run in the bottom of the third. In the bottom of the fourth inning the Rebels tried for a rally when Charlie Moreno sent the ball over the left field fence for a home run, tying the score at 1-1. AMARILLO came back in the fifth inning to score their second run of the day for a 2-1 lead. No other threats were made by either of the teams until the ninth inning when Hereford got two men on base, but were unable to get them on into home. Alex Diaz handled the pitch-

Hustlers Win In Softball League

The Hereford Hustlers downed the Comics 11-5 in women's action in the Hereford Softball League Monday evening. IN THE second game of the evening the men's team number six defeated team number one 12-3. Tuesday evening team number six took the lead in the league with a 11-0 win over team number two. The win gave the team a 3-0 record for the season. Team number one pulled a 10-3 win over team number four in the second game Tuesday. THIS IS the second week of the six week session and teams are still open to players who would like to play in the softball league during the summer. Women's teams have been completed and the teams are as follows: TEAM 1 TROYCE KELLY Coach, Joy Morton, Lestia Aguirre, Nadine Kearns, Kay Neill, Naomi Merrick, Marlene Daugherty, Doris Davis, Clea Weemes, Julie Soto, Betty Davis, Marie Cline, Jean Bryant, Laverne Kimbell, Janet Smith, Zula Arney and Anita Knox. Coach Jack Meredith will be leaving early for the event and will be joined by the remainder of the coaches later.

LL All-Stars Eliminated In Tournament

Hereford Little League All-Stars were eliminated from tournament play Tuesday evening at Sunray when they were defeated by Borger South, 5-4. LOCAL players defeated Carson County Monday in their first round of play in Sunray, 1-0. The Monday game was scoreless until the bottom of the final inning when Frank Bezner singled to first, worked his way around to third and then stole home for the only run of the game. Earlier in the game the local team scored one run, but it was called back by the umpire because of interference on the part of the Hereford player. Sammy Ramirez was the winning pitcher for the all-stars in the first game out. Tuesday the Hereford team dropped to Borger by a heartbreaking 5-4. Frank Bezner scored on a home run by Rudy Gonzales in the six inning. Gonzales hit the third home run of the evening after Borger players scored on two homers in the third inning. Eugene Suttle and Bob Gage scored for the local team in the second inning, beginning the scoring for the Hereford team. Bob Hardin was the coach for the all-stars and Charlie Duvall was the assistant coach.

Byers, Dawson Take Lead In Local Speedway Races

Bobby Byers and Jim Dawson held the lead Sunday at the Hereford Speedway and will be presented trophies at the mid-season championship races Sunday Aug. 7. BYERS is leading the field in the fast car competition with 48 points and Dawson is leading in slow car competition with 28 points. No races will be held this Sunday, giving the drivers time to get their cars in shape for the mid-season races set for Aug. 7. Byers met his match Sunday when he came up against his brother Duane from Amarillo. The two brothers made a duel out of the fast car main event Sunday with Duane winning the race by only about one car length. BILL PAETZOLD, in number 555, was the winner of the trophy dash and was presented a trophy by Miss Katrina Presley of Odessa.

Marsh placed second. Robert Williams, a new man out Sunday, and Jim Dawson placed third and fourth. Duane Byers won the first main for fast cars in a close race with his brother Bobby, who placed second. Jim Culppepper won third place and Johnny Watsford won fourth. Dog Loafman was fifth. IN THE final race, which was the main event for slow cars, Jim Liner, new man out Sunday, won first place. Coy House was the second place winner. Keo Kokomoto, new man out Sunday, won third and Joe Warren won fourth. Bill Bates was the fifth place winner. Gate prizes went to Cheryl Hanna, who won a free chicken dinner at the Red Rooster; Ray Williams, who won 10 gallons of gasoline from Troy Moore's Drive In and to Mrs. Charlie Rigin, Ed Robinson and Mary Castillo who all won free passes to the championship races.

Miss Presley is the niece of Don Presley of Hereford. She was presented a gift certificate from J. C. Penney's Company, Hereford. The trophy car was furnished by Stephens-Hudson Motor Company of Hereford. IN THE first heat for fast cars Duane Byers took first place in number 44, Johnny Watsford, in number 87 and Bobby Byers in number 8 placed second and third. Jim Dawson, in number 66, was the winner in the second slow heat for slow cars: Bill Bates in number 88 and Bill Paetzold won second and third. Duane Byers took another first place in the first semi for fast cars. Don Loafman won second place in number 90 and Jim Culppepper in number 58 and Bobby Byers took third and fourth places. IN THE second semi for slow cars. Bud Godwin in number 84 won first place and Jerry

BROTHERS DUEL FOR LEAD — Bobby and Duane Byers duelled for the lead in the first main event for fast cars Sunday with Duane tying the final win. Bobby will receive the trophy Sunday Aug. 7 for the top man in the fast car competition. No races will be held Sunday at the local Speedway. (Staff Photo)

Dove Prospects Good For Fall Hunting Season

Excellent prospects for both mourning dove and white-winged dove hunting this fall were reported by E. A. Walker, director for Wildlife Services of the Texas Parks and Wildlife Department. FIELD surveys from the Rio Grande Valley, indicate one of the highest whitewing breeding populations in the last eleven years with more than 800,000 nesting birds. The mourning dove count was described as equally favorable with the Texas population and eight percent and that of the Central Flyway up nine percent over last year. And 1965 was generally good for Texas mourning dove hunters. A FACTOR in the promising reports from the Valley, said Walker, has been the rapid recovery of citrus groves damaged by a 1962 freeze. He said the breeding population in that area has increased one-third over last year and nesting success should be assured as the nesting facilities in the citrus trees have substantial improved. Walker said citrus acreage utilized by nesting whitewings increased from 10,500 in 1965 to 18,700 in 1966. Ordinarily the whitewing season is held in early September. Likewise, the north zone for mourning dove hunting usually opens September 1.

Fountain With Lights Given To King's Manor

Latest addition to the landscaping plan at King's Manor Retirement Home is a lighted fountain, recently completed at the Sunset Street entrance to the main building. It is in operation now and will be formally dedicated Sept. 19. Dr. Don

Davidson, director of the Manor, announces. Lights in three colors play on the water, changing colors and forming three different patterns. The fountain is a gift from Mrs. Mary Gillespie of Levelland as a memorial to her husband, the late E. M. Gillespie. Total cost of the installation was \$3,000. Dr. Davidson said. The public is invited to drive by the Manor between 8 and 10:30 p. m., when the lights show most effectively, the Manor director added.

Rites Conducted For Ex-Resident

Claude R. Higginbotham of Crosbyton, who had resided for a short time in Hereford and visited here often in the home of his son, Raymond Higginbotham, 832 West Park, died Saturday morning in Crosbyton. Mr. and Mrs. Raymond Higginbotham attended funeral services, held in First Methodist Church of Crosbyton Monday

morning, and Masonic graveside rites that afternoon in the Chillicothe cemetery. Burial was at Chillicothe, where Mr. Higginbotham had formerly lived.

The newly dedicated National Geographic Society Laboratory in Nairobi, Kenya, will provide additional facilities for the study of archeological specimens recovered by Dr. Louis S. B. Leakey, whose investigations into prehistoric man have been supported by the society since 1959.

AUSTIN HIGHLIGHTS

Funds Allocated By State For Palo Duro Development

By — VERN SANFORD
AUSTIN. — A \$10,000,000 state bond sale has launched a new "opportunity plan" designed to bring college educations within the financial reach of all qualified Texas youth. "Never again will students of this state be denied higher education because of lack of funds," commented John E. Gray of Beaumont, chairman of the Coordinating Board, Texas College and University System. Initial bond sale was awarded to a Chicago bank. Action by the Coordinating

Board set in motion the loan plan approved by Texas voters as a Constitutional amendment last year. Amendment authorized a total of \$85,000,000 in bonds to provide funds for students unable to continue education beyond high school without financial assistance. Initial \$10,000,000 sale is believed to be more than adequate to carry the program through the first year. Ceiling on available loan is \$1,000 a year for undergraduates and \$1,500 for graduates. Although a six per cent interest rate is authorized, the U. S.

government will pay all interest while a student is in school — and half of it afterward for borrowers eligible for federal interest subsidy. A borrower's family income must be less than \$15,000. Loans are limited to the difference between available resources, and reasonable expenses. Money will be available for the 1966 fall semester. Interested students are advised to contact the financial assistance officer at the school of their choice. Applicants must be accepted for enrollment and have two recommendations. In other action last week, Coordinating Board:

Approved request for legislative \$56,100,000 for the 1968-69 fiscal period, most of which would go to an adjustment fund to meet financial needs due to enrollment increases at public colleges, universities and junior colleges. Authorized election for Angelina County Junior college but rejected request for Rains, Van Zandt and Kaufman Counties junior college. **OIL ALLOWABLE CUT** Railroad Commission has reduced the August oil allowable for the third straight month. August production factor of 3 per cent of potential will allow top production of 3,138,611 barrels a day. This compares with present allowable of 3,118,042 barrels daily under 33.3 per cent factor. **HUNTING SEASONS SET** State Parks and Wildlife Commission set November 12-December 31 deer hunting season in most major hunting counties under its regulatory powers. Opening date is earliest on record. Season in general-law counties — those fixed by specific general statute — is November 16-December 31. Shortened seasons were ordered for counties of the Trans Pecos and Panhandle — 16 days starting November 26 for the Trans-Pecos and November 12-November 29 for the 32 Panhandle counties. Antelope season in these areas will run from October 1-9 and October 1-4, respectively. Turkey and javelina season generally remain the same. Commission allowed special bow and arrows hunting seasons in some counties October 1-31. **PALO DURO FUNDS OKAYED** Federal Bureau of Outdoor Recreation approved \$271,494 in matching funds for the development of facilities at Palo Duro Canyon State Park. Total cost of the project will

ATTORNEY GENERAL RULES

A divorced husband cannot claim a \$3,000 homestead tax exemption when he continues to reside alone in the family home after the divorce decree. Atty. Gen. Waggoner Carr has held that. In other opinions, Carr ruled that:

Texas Liquor Control Board is not authorized to issue a U. S. Bonded liquor export permit, since courts have ruled the law authorizing such permits is unconstitutional.

Trailers used to convey horses to and from rodeos are not exempt as farm trailers and must be licensed under state law.

Harrison County commissioner court can pay \$8 a day to jurors and \$4 to prospective jurors summoned and excused after questioning, but nothing to those summoned but excused without examination.

SHORT SNORTS

Governor Connally has approved a grant under the Economic Opportunity Act for planned parochial centers in Crystal City and Carrizo Springs at a cost of \$25,432.

Texas retail sales jumped five per cent last month — to \$1,200,000,000 — reports UT's Bureau of Business Research.

Department of Public Safety is seeking a \$51,100,000 budget for 1968-69. Director Col. Homer Garrison Jr. says Texas should have 2,200 highway patrolmen, instead of present 901, to meet federal standards.

Governor appointed Mrs. Travis B. McNair of Bandera to the State Board of Tuberculosis Nurse Examiners and Bill A. Martin of Newton as district attorney of Jasper, Newton, Sabine and San Augustine Counties. Sen. Tom Creighton, chairman of the State Election Law Study Committee, has called an August 12 meeting in Austin to discuss suggested statutory reforms and to schedule future activities, including public hearings.

Texas Water Pollution Control Board wants to expand its operations from 10-12 employees and a budget of \$62,528 in 1967 to 86 employees and \$1,402,159 in 1968 — and 194 employees with \$2,675,910 in 1969.

The recipe for Eggs Benedict usually calls for toasted English muffins topped with sauteed slices of cooked ham, poached eggs and Hollandaise Sauce. Instead of using the ham, you can substitute slices of Canadian bacon.

Vocational Nurse's Course Is Offered

A new class in Vocational Nursing will begin Sept. 1 in Deaf Smith County Hospital, and enrollment is open now.

Interested residents between the ages of 18 and 55 are invited to see Mrs. Frances Carver, vocational educational director, or Mrs. Joyce Seigler, director of nurses, at the hospital between 9 a. m. and 3 p. m. Mrs. Carver will be instructor for the class.

Deaf Smith County Hospital and the Texas Education Agency work in a cooperative program to train vocational nurses, to offer worthwhile career preparation to local residents and at the same time supply trained personnel to meet the nursing shortage which is a severe problem over the nation.

The course continues for a year, with classes and practical work in various hospital areas. A student who completes the course satisfactorily may take State Board Examinations to be-

come a Licenses Vocational Nurse.

Upon graduation a vocational nurse may be employed by physicians, hospitals, health agencies, industries, custodial homes or the lay public.

Entrance requirements, in addition to age limits, include two years of high school or its equivalent, good mental and physical health, good moral character and an interest in nursing. The applicant must pass pre-entrance examinations.

Students must pay an admission fee and the cost of uniforms, textbooks and classroom supplies. After two weeks of school a student begins to receive a small amount of pay, a stipend which increases as training progresses.

Discard . . .

(Continued from Page 1) has just one extra bottle; extra pop bottles come by cartons, by cases, by dozens! Call 364-4067; 364-4832, 364-1379 and help will come.

If you want to deliver those pesky empties, drop them off at the pick-up station, Dameron Park, after 7 p. m.

This is the first project of the club to be devoted to the Good Will Center. Previous projects, a car wash and cake sale, were channeled to the club scholarship fund.

Call one of those numbers and someone on Alex Torres and Noe Salinas committee will be out to get those bottles and with the cooperation of the local Coca-Cola company, they will convert them into materials and supplies needed by the pre-school Spanish children.

The eye of Horus, an Egyptian falcon-headed god, was reputed to safeguard health and protect vision. It also warned off the "evil eye."

PRESIDENTS HONORED — Past presidents of the Hereford Lion's Club were honored at the Lions' weekly luncheon yesterday. Those honored included J. W. (Jim) Robinson, Sr.; D. C. Kinsey; Wayne Edwards; Roy Cowser; Don Zimmerman; J. W. Robinson, Jr.; Earnest Langley; Neil Cooper; D. C. Martin; Labry Ballard; Ed Skypala; J. T. Martin; Raymond White; O. Z. Golden. The presidents were presented with special badges which they will wear to each regular meeting. (Staff Photo)

Hereford Party Views Special 'Texas' Show

Mr. and Mrs. Russell E. Carver were host and hostess to friends Monday night at the Paul Green production of "Texas" which was attended by Lynda Bird Johnson, Dr. and Mrs. H. A. Cavness, Cindy, and Patty Roach were at the production with the Carvers, whose son Randy, is in the cast of "Texas."

Mrs. Carver spoke with Lynda and asked her to sign the guest register. She very graciously complied with the request, even though she said that she was a "Texan" and shouldn't really sign the out-of-state register.

During the intermission, Lynda was presented with the miniature triangle, which is presented at each performance to the guest coming the greatest distance to see it. Eddie Thomas, star of the show, presented the gift to her and, when asked if he had any comment to make, replied that he would like to tell her "what I tell all the little girls . . . come back and bring your mommy and daddy."

Spectacular fireworks, donated by Miss Johnson's escort, Joe Batson of Amarillo, added a special feature to the performance. Following the performance the cast stood ready to receive congratulations from Lynda. She was then hustled away by her constant companions, the Secret Service men.

Renson . . .

(Continued from Page 1) cellent growth and progress. Thirty years ago, when the credit union was organized and Mrs. Benson was elected to the board, ten members had assets of only fifty dollars. Today 4, 100 people are members of the credit union, and assets now total \$3½ million.

Mrs. Benson has been instrumental in the organization of six credit unions in the area, and is a member of the founders club, an honorary membership organization sponsored by CUNA International. In 1957, she was recognized for her volunteer credit union work and presented the "Brothers Keeper Award" by the Texas Credit Union League.

The testimonial dinner will be attended by credit union dignitaries. R. C. Morgan, past president of Texas Credit Union League and CUNA International, will give the testimonial address. L. Phil Davis, manager of Dallas City Employees Credit Union, will be master of ceremonies. Mrs. Gladys Braly, Hereford, will preside at the guest register and Mrs. Pauline Howard, Hereford assistant manager, will be in the receiving line with Mrs. Benson.

Others from Hereford planning to attend, include Mrs. Irene Boman, Mrs. Dorothy Barkley and Mr. and Mrs. A. J. Schroeter.

ing the laws relating to agriculture and receive testimony of farmers and ranchers and others interested in agriculture to determine whether or not legislative action is needed to improve the well being of farmers in such a way that the people as a whole will benefit." Appointed by House Speaker Ben Barnes the committee functions under the chairmanship of W. W. Lynch. In the absence of Lynch yesterday Delvin Jones, state representative from Lubbock, was acting chairman.

Appearance before the committee was voluntary. Thirteen area men gave testimony, and about thirty attended the hearing.

Farmers . . .

(Continued from Page 1)

Texas is at the "rock bottom" in per capita spending on agricultural research; every state within the continental United States spends more than the \$92 figure for Texas, his figures revealed.

A number of states, including California, New York, Florida, Louisiana, Iowa, and Kansas, spent more in research in 1965. Texas, lowest on the list of 18 states, spent \$2,475,293 for research, compared to California's \$17,771,691, the peak figure.

Leo Witkowski, Hereford area farmer well known in wheat circles asked legislators to consider enabling legislation for the promotion of Texas grains.

Witkowski pointed out that nine agricultural states already have enabling legislation, leaving only Montana, Wyoming, and Texas without it.

"Montana has been working on theirs and if we are not careful we might be able to brag about getting ours last," he explained.

He said that voluntary promotional and research programs have not been effective in the past. He sighted the Southwest Screwworm Eradication Foundation committee program as an example.

"It took lots of arm twisting to meet the county program quota for this project," he said. Elbert Harp, representing the Grain Sorghum Producers Association, also asked the state legislators to consider enabling legislation. He pointed out successes in grain sorghum research and promotion, which have helped increase grain sorghum exports about one thousand per cent.

A Friona farmer, Bruce Parr, charged Texas Employment Commission as being an 'instigator' for making unemployment "a

year round occupation."

Using his own farm as an example, Parr said that he had never gotten a competent worker through the Texas Employment Commission.

He asked that the Texas Employment Commission re-evaluate its methods and make an effort to send only qualified people to farmers.

Records of the Employment Commission have been too flimsy to help curb the unemployment problem, he said.

Also reporting on transportation problems, Parr said Texas is one state that is avoided by truckers if at all possible. Truckers will not come into the area because they cannot get a state permit without going to undue expense, he said. He cited California and Florida as examples of states that have improved transportation facilities by removing undue red tape processes from their books.

Texas requires a public hearing for a trucking permit and an application to the Texas Railroad Commission. This action requires the aid of an attorney and takes 30 to 45 days to complete.

The process has been simplified in other states where \$1 to the utility commission gets a trucking permit "on the spot," Parr said.

Parr recommended that the Motor Carrier Act be amended to take out portions concerning items other than safety. The common carrier system now in use is not adequate, he said.

J. W. Buchanan, Dumas farmer, told committee members that Texas should make every effort to clear up its water pollution problems without federal interference. The "amen" was unanimous.

Also speaking on needed research on water problems, Buchanan sighted five recommendations:

1. More research finding the

best economical use of water.

2. Soil research in an effort to curb evaporation.

3. Plant research in finding genetic varieties for conserving water.

4. Possibilities of recharging the Ogallala formation with storm and flood water, and

5. Maximizing use of rainfall.

The Texas water plan was not mentioned at the meeting.

Hereford seed dealer and producer George Warner asked the committee to watch its step in limiting the number of cotton varieties on the market. "It is certainly not within my reach of vision to see how limitation of varieties by legislation would be of any advantage to the Texas farmer," he asserted. "To the contrary, limitation of varieties by legislation would be a severe blow to the presently existing challenge to plant breeders that there will be a place for new varieties if they win farmer acceptance."

Warner also said that a guarantee of protein content of forage could not be made by a seedman because factors beyond the control of the dealer are more important in determining nutritional value. Concerning present seed laws, he said, "It is our observation that the effectiveness of the Department of Agriculture in administering the seed laws as they apply to the commercial seed industry is at a high level, and deserves the commendation of all who have an interest in better seed quality. We are satisfied that enforcement of existing seed laws, plus education where appropriate, will best serve Texas agriculture."

Committee response is being withheld. The purpose of the hearing is to determine problems most vital to each area's farmers.

Interim Committee on Agriculture was appointed in May 1965 with the purpose of "study-

Library Facilities To Be Extended

Librarians from Deaf Smith County are planning to attend a workshop in an effort to extend library facilities for local patrons.

Mrs. Lee Newman, county librarian and Mrs. Baxter London, assistant, will close the library Friday, August 5, to attend a workshop in Amarillo. While there they will receive instruction on the proper procedures for the exchange or lending of books between li-

braries. Hereford has had some interchange of books and materials with the Amarillo library, the librarians said, but the future plans call for extended services to meet patron needs.

The extended service will be inaugurated by the local library just as soon as possible following the workshop.

The interchange will mainly be between area towns and will

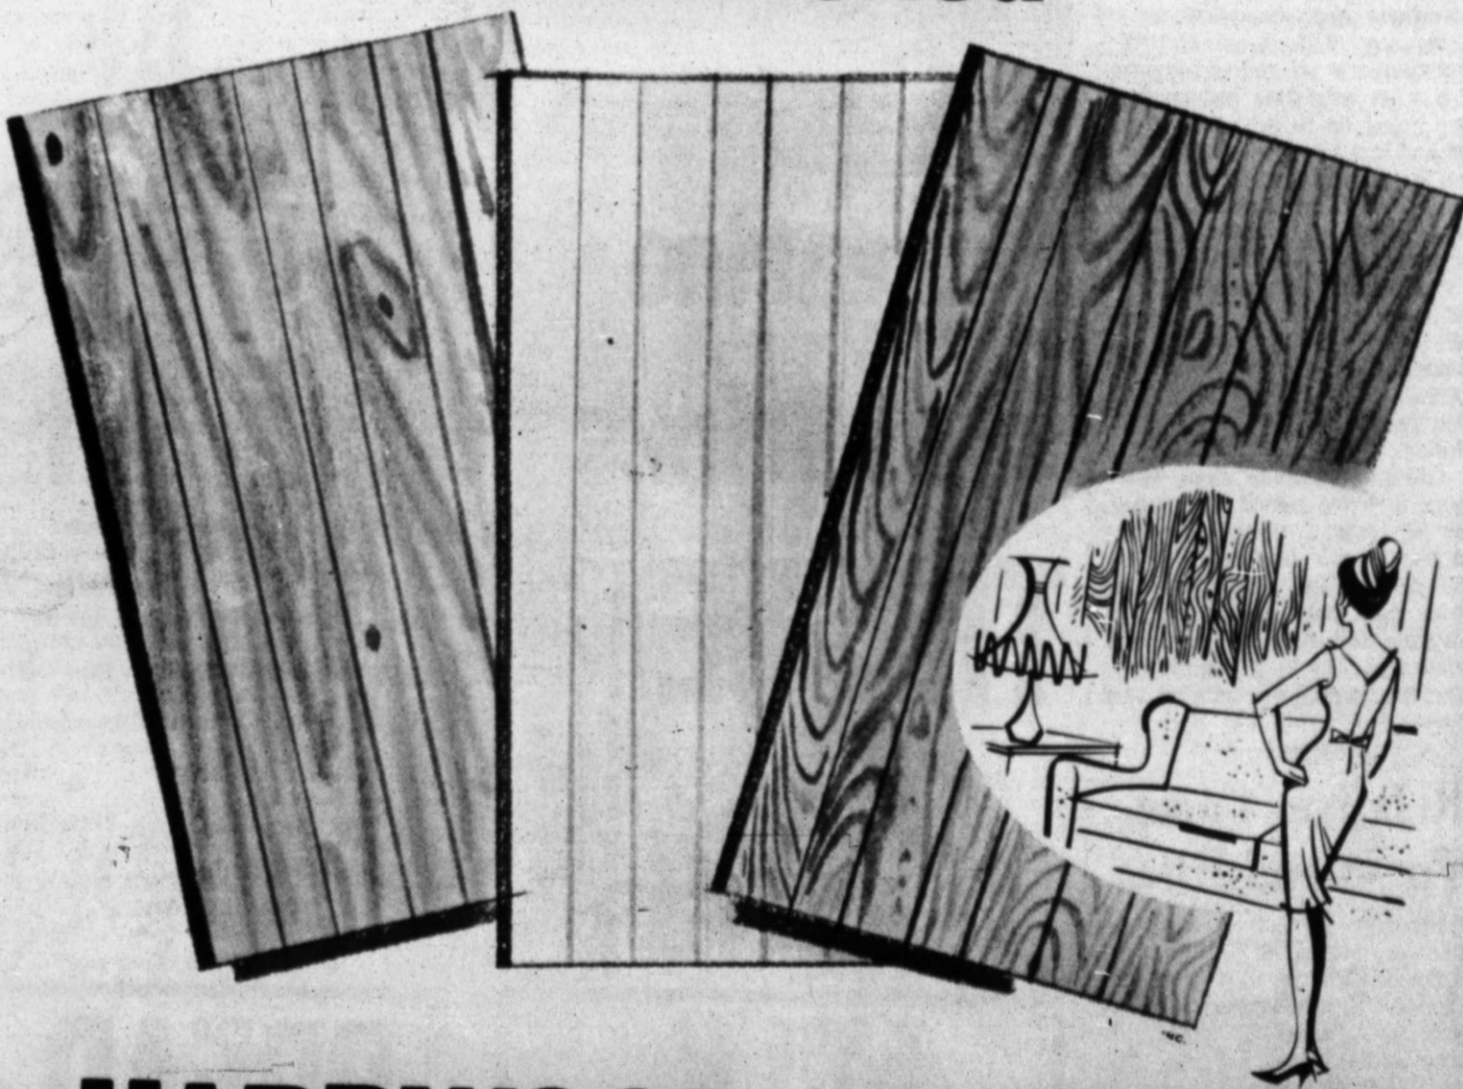

fill a need that has been felt since the state library extension service was discontinued. The state service made material available through the local library with the responsibility for locating and returning the material in the hands of the librarian. Individuals have experienced difficulty in obtaining material because of limited exchange, the librarian said.

A local patron will soon be able to obtain material from nearby any source by contacting the local library, Mrs. Newman said.

Further details on procedure will be available to the public after the August workshop said.

First Aid Class Starts Monday

A Standard Red Cross First Aid class will begin at 7 p. m. Aug. 1 in the Flame Room of Pioneer Gas Co., open to any interested resident of the area. John Gilliland, first aid chairman for the Deaf Smith Red Cross Chapter, will be the instructor.

Sessions are scheduled at 7 p. m. Aug. 3, 5, 8, 10 and 12. The course is offered to persons who wish refresher lessons before going on to advanced first aid and instructor training which will be given by the Red Cross Chapter here in the fall, as well as to those who have not had previous first aid training.

Prospective enrollees are asked to get the standard textbook at the Red Cross office, 319 Sampson, and read the first three chapters before the course begins. Price of the book is a dollar.

Gilliland reminds class members to bring pencil and paper, or at least a pencil to make notes in the textbook for reference at test time. Persons who pass this course will be eligible for advanced first aid, which in turn is a requirement for the instructor training that has been scheduled here.

Relatives Come To Attend Rites

Relatives here from other cities to attend the funeral of John D. Philipp last week included Mrs. Margaret Geray and son, James, Thomas Philipp and daughter, Peggy, Mr. and Mrs. Charles Cornett of Wichita Falls, Mrs. C. J. Childers of Corpus Christi, Mrs. Roger Foster of Denison, Mrs. Lee Philipp, Mrs. L. O. Wolcott and daughter, Linda, of San Antonio.

Also Mr. and Mrs. L. L. Hiltbrunner, Mrs. Nora Hiltbrunner and Mrs. Tom Montgomery of Shamrock, Mr. and Mrs. Ed Rogers, Mrs. Bobby McKee and daughters, Mrs. Dorothy Craig and daughter of Amarillo.

HEREFORD, TEXAS 79045, THURSDAY, JULY 28, 1966

Farmers Harvest Hay

Alfalfa, Cane, Sudan Grown In Hereford Area

By DAVID BUTLER
Staff Writer

Farmers in the Hereford area have learned through the years that it pays to grow their own feed for cattle. Some of the farmers are raising alfalfa while others grow sudan grass, cane, various sorghums and corn.

Most of the farmers growing the sorghums and feed use it for silage while the alfalfa, cane and sudan are used for bales.

Wheat straw is also used to winter cattle. It does not contain much protein, but is used mostly to supply the bulk required by cattle.

ALTHOUGH the crop is not considered a cash crop in the Hereford area, there are sev-

Custom Cutter Is Moonlighter

Area custom cutters can truly be called moonlighters, because many of them do the cutting on the side and most of the work is done during the late evening and early morning hours.

FARMERS IN the Hereford area do not raise enough hay to merit purchasing the necessary equipment to cut and bale the hay so custom cutting has sprung up as an excellent business opportunity.

A relatively small investment can get one into the custom hay cutting and baling business and returns will easily pay for the equipment in two to three seasons of cutting according to custom baling crews.

A NEW baler, priced by a local implement dealer, will cost the custom cutter about \$2,750. The baler is not self-propelled and must be pulled by a tractor. A used tractor is capable of pulling the baler will cost approximately \$1,500.

To complete the equipment for the custom cutting a swather is required to cut the hay before it can be baled. The self-propelled model which is the most popular in this part of the country costs approximately \$3,500.

SINCE much of the work is done in the early morning or late evening many of the cutters are doing a small amount of business on the side.

To others, the custom cutting is a big business. Some of these operators own several swathers and balers and keep them in operation during the bigger part of the summer.

Cutting Critical

Hay cutting time is vital to the quality of the crop, hay farmers say. If the hay is cut too early the chance of mold and mildew is high. If the hay is cut too late then the protein and palatability is cut in the finished product.

ESTABLISHED stands of alfalfa should be cut in the one-tenth to one-fourth bloom stage. Harvest at this stage gives the best compromise between yield, quality and maintenance of stand.

A field is at the one-tenth bloom stage when flowers are present on one out of 10 stems. First cutting is usually held back until the plants are in the one-half bloom stage.

IN GENERAL, the earlier the stage of growth at harvest, the higher the quality, but the lower the yield. The later the stage of growth at harvest, the higher the yield, but the lower the quality.

Hay cut in the prebloom stage is higher in carotene or vitamin A, has a higher percentage of leaves and the stems are finer. However, continued cutting at this stage shortens the life of the stand.

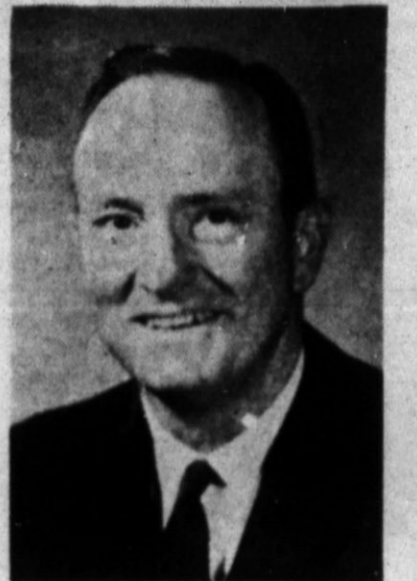

Beef Short Course Set For Hereford

A beef production short course for Hereford farmers is scheduled Aug. 1-4 at 8 a. m. at the Community Center. The event is sponsored by the Hereford High School Vocational Agriculture Department.

THE COURSE will be conducted by Frank C. Litterst, beef production specialist with the vocational agriculture division of the Texas Education Agency and the Department of Animal Science at Texas A&M University.

A \$2 enrollment fee will be charged each person taking the course.

MANY TOPICS will be covered during the short course at the center. Some of the topics are annual cow cost, testing bulls for fertility, culling dry and open cows, dwarfism, bull

Frank C. Litterst conducts short course

selection, heifer selection, winter feeding and range management.

Litterst is a graduate of Texas A&M University with a degree in Animal Husbandry. Much of his work was done in livestock production.

HE THEN served as Manager, Baldwin Land & Cattle Company, with ranchers in Travis and Shelby Counties until 1964. This included operation of a ranch consulting business in Texas and Louisiana.

He has successfully operated his own ranching and farming business consisting of both registered and commercial cattle, sheep, Angora goats, Pecans and grain farming.

HE IS a former director in the State Shorthorn Breeders Association and a member of American Angus, and Texas & Southwestern Cattle Raisers Association.

Beef Production short course certificates will be presented to each cattleman who attends all the training sessions.

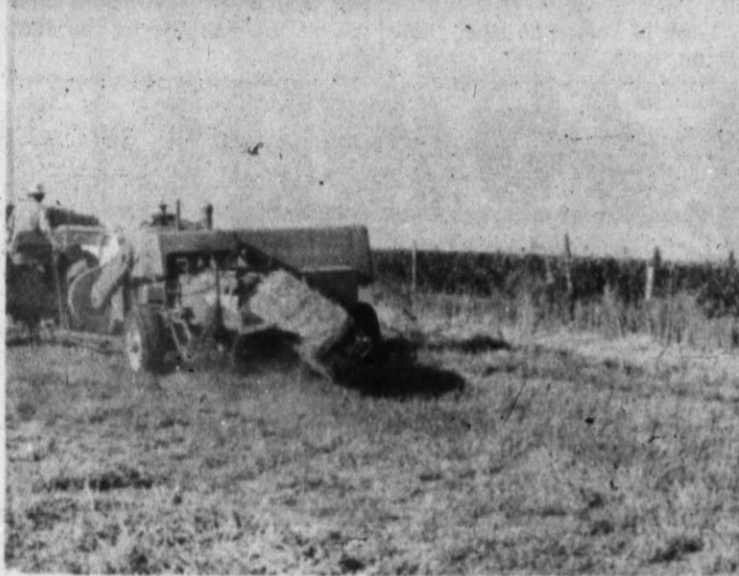

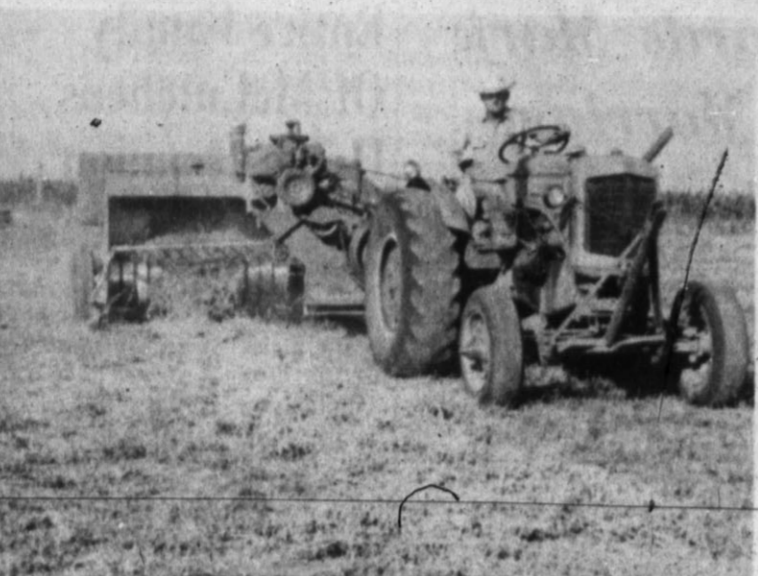

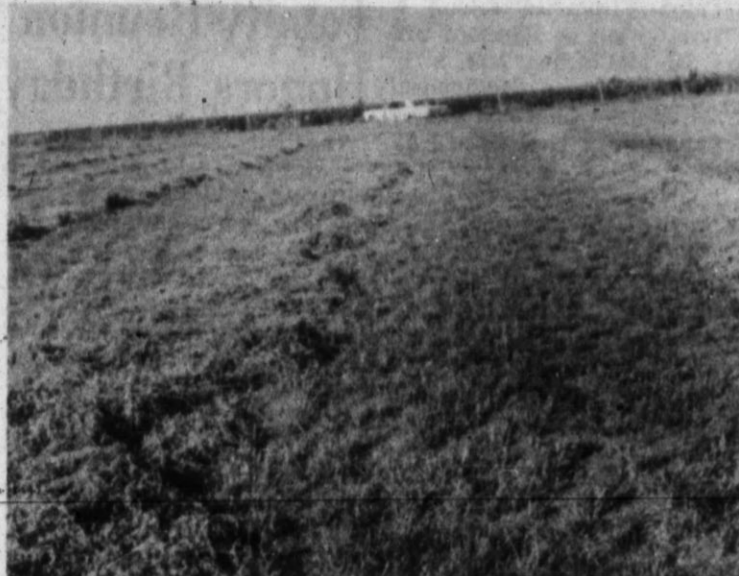

Land Potential Greater Than Present Day Use

Are we in danger of running out of land for food production and farmers and ranchers?

"No," says Extension Economist John McHaney, Texas A&M University. "We're not using all of our available land now."

SINCE 1950 land used for crop production has decreased 11 percent but crop production per acre has increased a whopping 46 percent and there's no reason to believe scientific progress in the future won't outstrip the past," he says.

Our farmers and stockmen are using science and education to push production and efficiency to new records. Our marketing system moves the products to consumers around the world.

STEPS OF HAYING — Cutting, curing and baling alfalfa is a common sight on area farms as most farmers raise

enough hay for their own use. A repeat crop, most of the haying is done by custom machines. (Staff Photos)

Hay Plays Big Part In Holly Feed Yards Beef Operation

Baled hay and wheat straw play an important role in the feeding operation at Holly Sugar Feed Yards southeast of the city. This is the only feed yard in the area which uses hay in its feeding process.

THE COMPANY uses about

Youths Attend Electric Camp

Seven youngsters and two sponsors left Hereford Monday morning for the annual electrical workshop at Camp Scott Able near Cloudcroft, N. M. The camp is sponsored by Southwestern Public Service Company.

THOSE ATTENDING were Dorothy Marnell, Cynthia Hanna, Jane Witkowski, Gerald Witkowski, Steven Hoffman, Charles Atchley and Donald Vasek who is a guest of Southwestern Public Service.

Justin McBride, Deaf Smith County Agent, and Mrs. Rita Huckert are the sponsors for the event.

Those attending the camp are selected in the annual record book competition.

DURING THE week the youngsters will attend five different workshops taught by Southwestern Public Service electrical experts. The shops give the students a better knowledge about the proper use of the vital energy.

The group will also hear a number of lectures and see demonstrations on electricity.

DURING THE spare time at the camp the youngsters compete with other youngsters from different counties in various sports.

Twenty-two counties from West Texas are represented at the camp. Three girls and three boys are attending from each county.

The group will return Friday evening from the camp.

1,000 tons of wheat straw and 15,000 tons of alfalfa annually for its operation.

Feed for the cattle is prepared from one-third wheat straw and two-thirds alfalfa. This mixture is added to a combination of beet pulp, milo barley, a protein supplement and molasses.

This mixture is all ground together in Holly's own mill at the plant and is then fed to the approximately 7,500 cattle which are fed at the feed yards.

Holly feeds about 16,000 to 17,000 cattle per year at the local installation, according to Melvin Cordray, local feed yards manager.

CORDRAY said that no noticeable difference could be found in the way the cattle at the Holly yard gain and the cattle which are fed at various other yards which use the silage for feeding.

He added that it was necessary to mix hay with the beet pulp and other supplements to provide the necessary bulk for the cattle.

Although the company has not

Cattle Eat Less In Hot Months

Ever wonder why cattle lose weight or make low gains during the summer months? The common answer is that summer pastures are not as high in quality as in the spring.

This may be true but Marvin Riewe of Texas A&M's Gulf Coast Pasture-Beef Research Station, says a good part of the blame is simply that ruminants (cattle, sheep and goats) eat less during hot weather.

His research shows that as temperatures climb, intake of ruminants decline. For example, animals eat about 19 percent more ryegrass at 60 degrees F. than they eat when the temperature is 90 degrees F.

purchased a great deal of hay this year, they have contracted a large amount of baled wheat straw from local custom cutters and farmers.

COSTS FOR the feeding operation runs about the same as the other feed yards in the area, according to Cordray.

Hay for the operation costs the company approximately \$28-\$30 per ton and the wheat straw runs about \$13-\$15 per ton. The price is f.o.b. the feed yards. After the feed is mixed at the

yards it is then fed to the cattle daily and the troughs are kept full during the day, making the feed available to the animals around the clock.

CATTLE leaving the Holly feed yards for the slaughterhouses average about 1,050-1,100 per head.

Cordray reported that the officials at Holly were well satisfied with the present feeding operation and were pleased with the gains showed by cattle at the yard.

GOOD YIELDS — Edwin Axe looks over his potato crop which is giving good yields. Hereford farmers are all reporting good yields this season, but take a dim view of low prices. (Staff Photo)

SCRATCH ONE DROUGHT

BHUBANESWAR, India (U.P.) — Food Minister Chidambaram Subramaniam had to cancel a tour of drought-stricken areas in EASTERN India because heavy rains prevented his plane from landing.

The U. S. Army Corps of Engineers will bore two penstocks 250 feet back of the precipice on each side of the American

Niagara Falls. The problem is rockslides.

Throughout the year, the U. S. Department of Interior's Bureau of Land Management auctions off thousands of small tracts unsold for public development. Vacationers buy them for fishing hunting and camping retreats. The land is within the government's 460 million acres of public-domain land mostly in 11 Western states and Alaska.

POSE THREAT — Small aphids are posing a problem to area grain sorghum crops. The sap sucking wide-spread insects are disappearing after a good rain, but appearing again during dry periods. Officials said that the attack is far enough from harvest that no damage to the grain is expected. (Staff Photo)

Mrs. Clifford Trotter
new mistress of parsonage

LET'S COOK SOMETHING!

Dessert Stars Berries

By SUE COLEMAN
Women's Editor

The new preacher's wife over at the First Methodist parsonage is Irene Trotter, slim, blonde and smiling, who has settled her family comfortably after their move from Dumas last month, and is busily making friends among members of the church and other Hereford residents.

MOVING IS A more unusual occasion for the Trotters than for families of many Methodist ministers as long-standing policy of that church calls for relatively short tenure for pastors.

The Rev. Clifford Trotter was pastor of an Abilene church five years, then of Dumas First Methodist Church eight years before the transfer to Hereford. Earlier moves were more frequent.

"Every time, we feel that we are leaving friends who sim-

ply can't be equalled elsewhere, but we soon find others as dear," Mrs. Trotter says. Wherever she lives, she wants to make people feel welcome at the parsonage.

TWO OF THE Trotter children are in school, John a high school sophomore and Marcia, who will be eight next month, ready to enroll at Central Elementary. The older daughter, Elaine, married Tony Calkins in Dumas just after the family moved here, and is living in that city.

Mrs. Trotter grew up at Kress, where her father was a farmer. The former Irene Vineyard, she attended Amarillo College after graduation from Kress High School.

Music was a favorite activity while she was in school; she sang in the chorus and often was called upon for piano accompaniments. Neglected for a

time while her children were small, piano and organ practice and playing for her own enjoyment have been resumed.

COOKING IS A pleasant part of her household work; she especially likes baking cookies and keeping the jar filled. This time of year is pickle making season in the parsonage kitchen and Mrs. Trotter enjoys the spicy odors created in preparing the home-made variety.

She likes to sew also, and to knit. The latter handwork is often done while she is riding with her husband on the numerous trips relating to his work; it's easy to knit in the car, and it assures relief from tedium on the trip.

A well-liked dessert in the Trotter family is a quickly prepared icebox treat featuring blueberries which looks pretty served for company, too. She gives this recipe:

BLUEBERRY DESSERT
Make a crust with 1 1/2 cups stick margarine and 1/2 cup powdered sugar. Mix well and press into the bottom of an 8x10 inch pan.

In an electric mixer, mix an 8-oz. pkg. cream cheese, 1 cup sugar and 2 eggs. Spread this evenly over the crust and bake in a 350-degree oven 25 minutes.

Cool, then spread 1 can blueberry pie filling in a layer over the dessert. Last, top with whipped cream 1/2 pint. Chill before serving. This dessert keeps well in the icebox.

J. R. Southwards Mark 57 Years Of Marriage

The 57th wedding anniversary of Mr. and Mrs. J. R. Southward, who have lived on their farm about 10 miles south of Summerfield more than a quarter of a century, was celebrated this week at Westgate Hospital, where Mrs. Southward is a patient.

A deprecated cake made by Mrs. Hazel Holman as a gift to the couple, was cut and served with ice cream to staff members and a few other guests Tuesday afternoon. Messages of congratulation were received during the week.

Miss Willie Lee Clinkscales

and J. R. Southward were married July 25, 1909 at Memphis and made their home in the nearby community of Lakeview until January, 1911, when they moved to Hillsboro. They came to this area in 1940.

Mrs. Southward has been a resident of Westgate since September and her husband, who still lives on the farm, visits her daily.

The couple has eight children, Marvis Southward of Hereford, Orville Southward of Tulsa, Okla., Miss Fay Southward and Melvin Southward of the home, Boyce M. Southward of Lubbock, Mrs. Maydel Hope and Harold Southward of Albuquerque, N. M., J. W. Southward of Dumas.

Guest Talks Of Charm To Secretaries

Value of attractive appearance to a secretary was the subject of a guest speaker to the Hereford Chapter of National Secretaries Association Monday evening in the Rural Electric Cooperative building.

Suggestions for grooming, wardrobe, posture and personality were given by Mrs. Jeane Campbell of Dimmitt, graduate of a Lubbock school of charm, teacher in Lubbock two years and employe in work related to fashions.

A member, Barbara McGuffin, spoke briefly on Making a Will. She told who can make a valid will, how it is made and the importance of making a will. Reports from committees and the treasurer were heard and the finance chairman announced a rummage sale to begin at 9 a. m. Saturday on the parking lot east of Taylor food store. The next chapter meeting will be at 8 p. m. Aug. 22 in the REC building.

A guest in addition to the speaker was Marn Tyler. Members present included Avis Northcutt, who presided, Faye Dirks, Florence Robinson, Thelma Lamm, Virginia Stevens, Alice Rudd, Mary Kay Everitt, Janie Victor and Jean Kennedy, who served refreshments.

WWI Vets And Auxiliary Meet

A covered dish supper and business sessions occupied World War I Veterans and Auxiliary members at a meeting in Community Center Monday evening.

A salad supper was planned for the August meeting, and reports were made of calls on members who are ill.

Present were Messrs. and Mmes. R. F. Markham, John Hamby, B. B. Breeding and E. W. Young; Mmes. H. E. Miller, Charles Hood and Frank Smith.

Surprise Party Given On Silver Anniversary

Mr. and Mrs. Shirley Garrison, whose Silver Wedding day fell on Tuesday, were honored with a surprise anniversary party Sunday at their home south of Hereford. Hosts were their children, Mr. and Mrs. Harvey Garrison of Friona, Sharon and Pam of the home.

Guests were from the Easter community, Hereford, Dimmitt, Lubbock, Levelland, Plainview, Olton, Idalou, Dumas and Friona. Miss Pam Garrison registered the callers.

Mrs. Harvey Garrison and Miss Sharon Garrison served punch from a table where silver candelabra and pink carnations made a festive arrangement.

Class Sets Date Of Family Party

Date of a family picnic for Golden Circle Class of Avenue Baptist Church was set for Sept. 16, at a recent business meeting in the home of Mrs. Jerry Landers, 218 Aspen. The picnic will be at the Charles Gresham home.

Secret pals were revealed and other class business was discussed by the dozen members present.

Osborn Named Auto Director

Appointment of Glen Osborn, Kinsey Osborn Buick Company, Hereford, as Area Director of Texas Automobile Dealers Association was announced today by H. E. NALL, Plainview, who represents this area on the TADA Board of Directors.

OSBORN has been advised that his major responsibility as an Area Director will be to work at the grass roots with other officials of the statewide franchised new car dealers association to promote a high standard of integrity among the car dealers of the state and serve the motoring public better by making driving safer, more convenient and more economical.

"Automobile dealers were particularly concerned at this time," OSBORN said, "with highway and car safety, and stress will be placed on association programs in this area with this as the aim. He said TADA planned to work with Area Directors to expand the driver education program into more Texas schools. Dealers help sponsor this training by loaning automobiles to schools.

OSBORN will serve as an Area Director until the next TADA convention in Houston, May, 1967. The Association, with headquarters in Austin, represents 1,400 franchised dealers of new automobiles and trucks of the State.

Card Of Thanks

We wish to thank the many friends for their kind expression of sympathy during our recent sorrow.

For the prayers, the beautiful flowers, cards, calls and food.

We shall ever be grateful. Mrs. John Phillip Mr. and Mrs. Stanley Phillip Mr. and Mrs. Louis Beckman Mrs. Albert Sturm Mrs. Margaret Geray

Entire Family Of McCutchens Holds Reunion

All of the children of Mr. and Mrs. O. R. McCutchen, 213 Knight, were together at a reunion Monday for the first time since they married and left the family home. Also present were all the couple's grandchildren.

Out-of-town members of the family arrived over the weekend; children who live here, with their families, gathered at the parents' home Monday afternoon for informal visiting and picture-taking.

Mrs. Jettie Lee Conley came from Lubbock, Mrs. Clinton Brevard from Carthage and J. P.

McCutchen from Galveston. Those living in Hereford are Mrs. Ike McCutchen, Mrs. A. L. Alexander, James McCutchen, Mrs. James Holmes, Conley McCutchen and Mrs. Harold Simons.

FLUNKED THAT PART

WICHITA, Kan. (AP) — The family insists on anonymity but a newspaper editor vouches for the accuracy of this yarn.

A teen-age girl had just received her first driver's license and was proudly showing it to her family.

Her younger brother took the license and read aloud his sister's height, age, weight, sex, etc.

"Look at that," he said. "She got an F in sex."

Family Reunion Honors Birthday

The 75th birthday of W. J. Thomas was celebrated with a surprise gathering of his children and their families Saturday in the home of Mr. and Mrs. O. H. Smith at Carlsbad, N. M. He was presented a watch as a birthday gift from the family.

Members who went from Hereford were Mr. and Mrs. Walter Hardin and Mrs. Billie Manning; from Summerfield, Mr. and Mrs. Kermit Christie. Also present were Mrs. H. S. Thomas of Carlsbad, Mr. and Mrs. Troy Thomas of Muleshoe.

There were 11 grandchildren and two great-grandchildren of the honoree in the family party.

Small Talk

By SUE COLEMAN
Women's Editor

Besides the temperature, something that bugs us this season is bugs. Ants in the grass, squash bugs in the garden, bagworms on the evergreens and locusts everywhere. Ugly brutes, all of them, so it's nice to look at the black butterflies with wings, making pretty patterns as they flit in the sunshine. Of course some bug expert will crop up to let me know that

they are moths, busy laying eggs to hatch out cabbage worms or something.

THE AIRLINES strike has bothered a good many people lately, and you can add Anni Brashear and her son Steven to the list. They had reservations made well ahead of time, for a flight to leave Wednesday on a trip to visit Anni's family in Germany, but after uncertainties and changes, at last report they were pretty sure of getting

off Friday.

Mrs. Brashear has a brother in Frankfurt, an aunt and uncle in a nearby town, and she hopes two other brothers who are living in Spain will be able to join them for a reunion, as she won't be able to do any extra traveling in the 21 days she has for a visit.

NO CLAIM for rain-making is being made by Opal Bookout, but she did seem to bring showers to a few dry spots on a recent trip. In Wichita Falls two weeks ago Sunday, after hearing her hosts complain about the drought, she had to borrow a

raincoat to wear to church.

The next Sunday she was in Dallas, where her hosts had mentioned the uncomfortable dry spell. She had to borrow a raincoat to wear to church. Last Sunday she was back in dry Hereford, and she had to hunt up her raincoat to wear to church.

IT DIDN'T TAKE long to find out the name of Steven Marcus' parents — the baby boy who was erroneously placed in the wrong family when his parents' name was omitted in a recent birth announcement column. He is proudly claimed by

Mr. and Mrs. Lloyd Payne; he was born July 8 and is now at home with the folks in Grand E. Trailer Park. Several of his relatives and friends called to tell us about him.

RECENT VISITORS with Mrs. John Gaetz were her son Donald, and his wife, on their way home to Wichita Falls after a ten-day vacation in Colorado, Wyoming, Idaho and Utah. They were traveling in a camper with another Wichita Falls couple, and had been fishing at various camp stops.

A pause in Salt Lake City gave them an opportunity to see

the Mormon Tabernacle with its famous organ, and they included Yellowstone Park on their route, but reported it "too crowded." Donald Gaetz has been employed a number of years at the Wichita Falls State Hospital, and the friends who made the trip with them are both employees there.

TEACHERS' SALARIES IN INDIA

NEW DELHI — An Education Commission survey showed half of India's primary school teachers earn less than 100 rupees (\$21) a month.

Travelers Are Guests At Supper

Out-of-state visitors were honor guests at an informal supper for a group of relatives Monday evening in the home of Mr. and Mrs. Roy Boyd. The Roy Boyds and Robert Boyds were hosts.

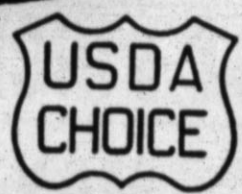

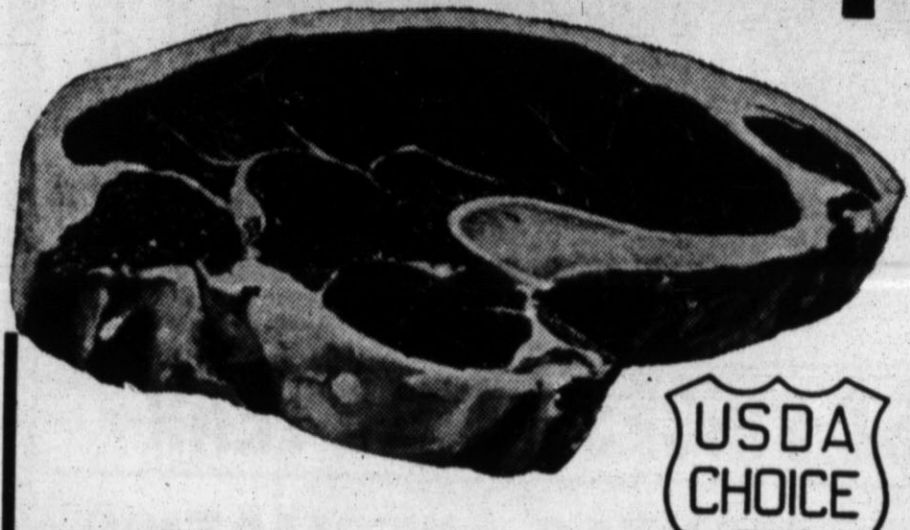

A brother of the Boyds, Clyde Boyd of Carruthersville, Mo., with his wife and daughter, Judy

also Mrs. Clyde Boyd's niece, Mrs. Charles Damron, and her husband from Yuma, Tenn., are the visitors who stopped in Hereford enroute to California to see other relatives.

Present for the supper were Mrs. and Mrs. Guy Lawrence, R. M. Gunn, Mr. and Mrs. Forrest Ricketts and family, Mr. and Mrs. Benny Cooper and family.

King Mahendra of Nepal has set aside 500 square miles in the country's tropical lowlands to protect rhinos, tigers, leopards, crocodiles and other declining species.

SHOWER-TEA IS COURTESY

Miss Karen Hughes of Friona, whose marriage to Wayne Edwards is to be solemnized August 5, was complimented by friends in Hereford at a shower-tea Saturday afternoon in the home of Mrs. Fran Battenfield.

She received callers with her mother, Mrs. P. W. Hughes of Friona, and her fiance's mother, Mrs. Calvin Edwards of Hereford, after Mrs. Battenfield had greeted them at the door. Miss

TO MISS KAREN HUGHES

Kaylanette Battenfield was at the registry table.

Miss Jan Edwards poured punch and Miss Karen Edwards served cakes decorated in white and blue, from a table covered with white cutwork over blue. White gladiolas were arranged in a silver bowl which matched the serving appointments.

In the hostess party were Mmes. Pat Robinson, Clee Me-harg, J. B. Hale, Bill Gentry,

SHOWER-TEA IS COURTESY TO MISS KAREN HUGHES

Jesse Click, L. J. Jones Jr., W. R. Hair, Ira Scott and Jimmie Gillentine.

Miss Hughes and Edwards plan to be married in the home of her sister, Mrs. John Terry, at Friona. She has been a summer student at Western Republic College in Amarillo this summer and he is employed in that city.

Mrs. Terry was a shower guest from Friona, as were Mrs. Roberts and her daughter, Mary Anne.

Mrs. Jesse Geron
... she keeps busy

MADAM PRESIDENT . . .

**History Becomes Hobby
For El Llano Officer**

A tiny brunette, Mrs. Jesse Geron doesn't mind taking on two large tasks for the coming year. In addition to being president of El Llano Study Club, she will also serve in that office for the Deaf Smith County Episcopal Church.

She says she likes to keep busy and she expects to care for her duties as a housewife and a teacher and have time left for her hobby, volunteer work for the Deaf Smith County Historical Society.

History has always interested her. It was her major subject in college and she wrote her thesis on Texas history. Naturally that led to her activity in the regional historical society and its current main project, a historical museum for Deaf Smith County.

Living in various parts of Texas she has had a chance to get same first-hand information about other regions of the state before she moved here four years ago. The Geronos came to Hereford from Marfa, and had lived in the Big Bend area six years.

Waco was her birthplace, and she grew up in Central and East Texas, graduating from high school at McGregor. The former Sylvia Ford, she did her college work at John Tarleton at Stephenville, and Sul Ross at Alpine. She met and married Geron while in college.

He is assistant principal of Hereford High School now and she teaches the fifth grade at Northwest Elementary.

Mrs. Geron has been a member of El Llano Club the past two years and served as vice president last season. She became president of the church women's group after acting as chairman of its annual Christmas bazaar the past two years.

Her contributions to the bazaar include numerous pieces of needlework done all during the year "because I like to keep my hands busy." Handwork also results in gifts for relatives and friends and she stitches up many of the smart clothes she wears.

For recreation she prefers "bridge with conversation." Sylvia Geron says gaily.

BROOKFIELD ZOO IMPROVEMENTS

BROOKFIELD, Ill. — The Chicago Zoological Society has announced a 5.5 million improvement program for Brookfield Zoo.

The program will renovate some existing buildings and create new structures for educational and administrative purposes.

ONE MINUTE, PLEASE

THE CHURCH I LOVE . . . ENJOYS FREEDOM OF CHOICE

God gave man this basic freedom of choice from the very beginning. In the garden of Eden, Adam and Eve had a choice to eat or not to eat "of the tree of the knowledge of good and evil." (Genesis 2:16-17). They were told of the consequence of eating or not eating. Since the Lord "created man in his own image," and loved him, God did not want man to eat the forbidden fruit. In spite of the fact that his disobedience brought misery to man, and caused grief to the Creator, God refused to interfere with man's power to choose.

The leader of God's chosen people Israel said, "Choose you this day whom you will serve; . . . but as for me and my house, we will serve Jehovah." (Joshua 24:15). Israel rebelled against the Lord, who delivered them from Egyptian bondage, and neglected to do his will; nevertheless, God did not deal with them arbitrarily or force them to obey. Rather he invited, "Come now, and let us reason together." (Isaiah 1:18). The Lord said, "For as the heavens are higher than the earth, so are my ways higher than your ways, and my thoughts than your thoughts." (Isaiah 55:9). Even so, the Heavenly Father "addresses you as sons, 'My son, do not regard lightly the discipline of the Lord, nor lose courage when you are punished by him. For the Lord disciplines him whom he loves, and chastises every son whom he receives.' . . . For the moment all discipline seems painful rather than pleasant; later it yields the peaceful fruit of righteousness to those who have been trained by it." (Hebrews 12:5-11).

God so loved us that he gave his only Son as a sacrifice on the cross for us. Our Creator wants man to reciprocate this boundless love. True love can only be given by a free choice. Love cannot be arbitrarily forced or demanded. "We love, because he first loved us." (1 John 4:19). "Do you not know that God's kindness is meant to lead you to repentance." (Romans 2:4 b).

DISCORDS

Oh, how important they are! No music would be sweet without them. No life can mean much until it first suffers them.

It takes discords to prove the true beauty of the finer harmonies. Without discords we have stagnation . . . no opportunity for comparison.

One must see them, concords and discords, alongside each other if one is to have the full picture. Compare the selfish with the unselfish; the cactus with the rose; the christian life with the life of the wayward.

Compare the touch of the beginner with that of the concert pianist. Ah, there it is. Now you understand. God put His church right in the middle of all this and furnished it with a pew and an altar where men might pray.

He offers His grace to sustain us in our darkest hour — when discords disrupt and darkness dulls our way. The doors of His church are ajar and He invites all men; even men of disrepute — men who still question His authority. Won't you come to church?

**YOU IN THE CHURCH
THE CHURCH IN YOU**

Church is a by-product of the church. It is here that the heart and influence for a better citizenship and a more meaningful religious character. Men and women are the affairs of every day in these parishes. They are with our children should go to the church of our choice on Sunday. You in the Church and the Church in you. Come a contribution for good. Be a regular CHURCH-GOER and a daily BIBLE READER.

REP. ROGERS REPORTS

Packaging Law Being Considered

WASHINGTON D. C. — Congressman Walter Rogers said Saturday the House Committee on Interstate and Foreign Commerce, of which he is ranking majority members began hearings Tuesday on so-called "truth in packaging" legislation.

Congressman Rogers said the proposal is one that "must be weighed very carefully because its provisions could constitute an absolute encroachment into the free enterprise system — and could measurably jeopardize manufacturing progress and

opportunities for young people and small businessmen."

Congressman Rogers said the bill to be considered would delegate decisionmaking powers affecting one-fourth of all consumer protection is in reality a further effort by federal regulators to expand their power to regulate this country's economic life and future."

Congressman Rogers said. As initial witnesses, Secretary of Commerce John T. Connor and officials of the Federal Trade Commission and Food and Drug Administration will appear before the Commerce Committee.

In Monday's session of the Committee, Congressman Rogers said, a final decision is expected to be made on provisions to be included in auto safety legislation to be recommended to the House. Congressman Rogers said the controversial, highly-publicized issue of auto safety had been handled by the Committee "in an extremely responsible manner" and that the bill to be reported will be "more practical and workable" than similar legislation passed recently by the Senate.

In the Interior and Insular Affairs Committee, on which Congressman Rogers serves as second ranking majority member, deliberations will continue

Red Cross Unit To Be Host At Party At AAFB

Host at a bingo party for re-trainees at Amarillo Air Force Base this evening will be Deaf Smith County Red Cross Chapter. The Gray Ladies unit of the chapter, of which Mrs. Mar-

vis Southward is president, will supply refreshments and help with the party.

Plans were made at the Gray Ladies lunch last week in the Hickory Log Restaurant. Mrs. Southward will take a decorated cake for the re-trainees who are celebrating birthdays and Mrs. Art Lewis will supply door prizes and game prizes. Some 75 to 100 re-trainees are expected to be present.

At the luncheon, time for a capping ceremony for new Red Cross Volunteers here was set for 7:30 p. m. Aug. 18. Members were reminded that the designation, Gray Ladies, is to be superseded by the name, Red

Cross Volunteers.

Guests for lunch included Mrs. Frances Carver, vocational education director at Deaf Smith County Hospital who told of plans for a new class to begin this fall; Mrs. Larry Haney of Amarillo, Mrs. Bill Wall and Mrs. James Martin. Nine volunteers and the chapter-executive secretary were also present.

Father Of City Resident Dies At Big Spring

Funeral services for William Claude Barber, 74, of Lorraine, father of Harlan Barber, Hereford, and brother of E. C. Barber, were conducted at 10 a. m. Wednesday in a Big Spring funeral home chapel, followed by graveside rites at 4 p. m. at Munday.

His death occurred Monday afternoon in a Big Spring hospital after a long illness. He had been a resident of Lorraine several years and was a member of the Church of Christ there.

Born Dec. 14, 1891 in Mississippi, he married Mattie Amis in Scott County, Miss. in 1911 and the family moved to West Texas in 1923. Mrs. Barber died in 1944.

In addition to the Hereford relatives he is survived by two daughters, Mrs. Paul Barron of Lorraine and Mrs. E. P. Madison of Stanton; another son, James Barber of Big Spring; a brother, E. L. Barber of Dodge City, Kan.; two sisters, Mrs. Clyde Shuford of El Paso and Mrs. Edward Badouh of New Braunfels; five grandchildren and six great-grandchildren.

HARMAN'S WE GIVE S&H GREEN STAMPS

Farmers Urge Use Of Shields

AUSTIN — Col. Homer Garrison, Jr., director of the Texas Department of Public Safety, has joined the Texas Farm Bureau in urging operators of "slow-moving vehicles" such as farm tractors, combines and road construction and maintenance equipment to display special luminous "SMV" warning emblems on the rear of the equipment.

developed as the result of extensive research at the University of Ohio, are available through all county Farm Bureau offices and a number of farm equipment dealers, gins, elevators and warehouses.

He emphasized that the emblem is not designed to replace other warning devices such as lighting, which are required by law, but to supplement such devices.

"While this emblem is not required by law in Texas, we feel, as does the Texas Farm Bureau, that it can make an important contribution to the safety of operators of such equipment as well as other motorists sharing the streets and highways," Garrison said.

"We would like to urge all motorists to familiarize themselves with this warning sign and watch for the bright orange emblem with the red border and the triangle shape which identifies slow-moving vehicles."

The DPS Director said that "slow-moving vehicles" are described as those designed to travel not more than 25 miles per hour. Purpose of the emblem

on the rear of such vehicles is to identify them at distances allowing operators of faster moving vehicles to slow down in time.

The emblem, made of lightweight aluminum materials, has a solid center triangle of fluorescent orange with a 1 3/4-inch outer border of red reflective material. The orange material has been proven to be highly visible to approaching motorists at distances exceeding one-fifth mile. At night, the reflective border glows brilliantly in the path of oncoming headlights — producing a hollow, red triangle which immediately identifies a slow-moving vehicle. The overall dimensions are 16 inches

News About Area Men On Duty

Fort Carson, Colo. — Army Pvt. James A. White, 24, son of Mr. and Mrs. James R. White,

wide and 14 inches high. It should be mounted at the rear of the vehicle, three to five feet from the ground. The symbol is endorsed by the National Safety Council, American Society of Agricultural Engineers, Automotive Safety Foundation and other groups.

222 Avenue B, Hereford, Tex., was among members of Fort Carson's 5th Infantry Division who took time out from military training July 6 to fight a raging fire that swept across nearby Cheyenne Mountain.

Men of the division joined forestry fire fighting crews in a 48-hour battle that was won only after the blaze destroyed more than 400 acres of valuable watershed timber. The fire, fanned by stiff winds, darted across the road from Fort Carson's main gate.

The division provided hundreds of men, plus bulldozers, power saws and backpack extinguishers. By the afternoon of July 7, the fire was brought un-

der control, but troops maintained watch and patrolled fire breaks throughout the night.

White, a mechanic in Company C of the division's 5th Signal Battalion, entered the Army in December 1965 and completed basic training at Fort Polk, La. He was graduated from Spring Lake High School, Earth, in 1960.
