PEACE RUMORS FLY AS BOMBERS APPEAR

CISCO CLUB RATES HIGH IN DISTRICT

President Ernest Hittson today announced to the Rotary Club that June had been a month of perfect attendance thus far and expressed the wish of the membership that it would wind up in the 100 per cent column. Reading from the district governor's bulletins, Mr. Hittson said that in March the club led all others of the district in attendance, and that for the 10-month period just passed, the club had been in the upper ten bracket for the district.

In the announcements, the president also said that 11 new Rotary clubs had been organized by International recently, and further announced that Rotarian R. N. Clark himself would attend the district night program at Rotarian tomorrow night.

The program was in charge of President Hittson, and it was the expectation of all members that Jack Cisco of Dallas, would be the speaker, but Mr. Cisco could not be present, so W. H. Calhoun was asked to pinch hit for the occasion. This Mr. Calhoun did by speaking on the meaning of Rotary International, and elaborating on some of the principles for which Rotary stands.

After the business session, Rotarian Calhoun moved that the price of the Rotary meal be raised to \$1.00 beginning July 1. Members voted aye, and it was so ordered by President Hittson.

Secretary G. R. (Pete) Nance asked that his books be audited before the beginning of the new year in July. Edward Lee suggested that Cisco Rotarians donate to the fund for the convalescing officers' entertainment at Camp Bowie, since it was Cisco's turn to provide the funds. Members donated to the fund after the close of the session.

SAN JACINTO VET'S WIDOW DIES AT BAIRD

BAIRD, Texas, June 17.—Mrs. Mary Catherine Berry, 90, widow of Andrew Jackson Berry, who fought in the Battle of San Jacinto in 1836, died Wednesday of a broken hip received in a fall Monday.

A native of Hempstead, Ark., Mrs. Berry had lived in Callahan county since 1881. Her husband was killed in 1897 when mules pulled him out of a wagon.

She married Berry in 1871 when she was 17 and he was 55.

GERMAN PRESS ADMITS NAZI ARDOR COOLING

NEW YORK, June 17.—Increasing signs of war-weariness are appearing in the German press, the British radio reported Wednesday, according to CBS.

Marshal Goering's newspaper, the Essener National Zeitung, was quoted as saying: "The enthusiasm of the first year of the war has considerably cooled following our reverses on certain fronts and the continued air bombardments which are growing in fierce intensity."

REAMES AWARDED MEDAL

Raymond E. Reames, aviation radioman first class U. S. navy, is in Cisco visiting with his wife, father, mother and sister. Mrs. Reames, the former Miss Marian Jacobs is working in a defense project at Camp Hood, but is spending a few days here while her husband is in the home of his parents, Mr. and Mrs. P. T. Reames, 1853 D avenue.

The Daily Press is in receipt of the following communication from eighth naval district zone public relations office at Dallas.

"For courage and fine marksmanship which resulted in his shooting down at least one enemy fighter, Raymond E. Reames, aviation radioman, first class USN has been presented the air medal.

"The Texas aviation radioman won the air medal while participating as a radioman gunner of a scout bomber attached to a group of the USS Enterprise. This unit was in combat against Japanese naval air forces in the battle for the Solomon Islands, last November 12 and 13."

HALEY VICTIM OF PAINFUL CAR ACCIDENT

Fay Haley, who is employed at the West Texas Utilities company ice plant on E. Fifth street, received painful but not serious injuries yesterday evening about 7 o'clock, while loading ice into the back of a customer's car.

A woman customer, next in line who lives in the country south of Cisco, was driving down to be loaded, but her foot slipped on the clutch and the car struck Mr. Haley between the knees, crushing the legs between the two bumpers.

Mr. Haley was immediately rushed to the hospital as a precautionary measure where they pronounced the injuries as not serious. Mr. Haley was then taken to his home at 613 W. Eleventh street.

BANDIT PRELIEVED

AUSTIN, June 17.—Acting Governor A. M. Aikin Jr. Thursday granted a 30-day stay of execution for Rex Beard, the West Texas paper sack bandit, who had been sentenced to die in the electric chair Aug. 3.

The new execution date is Sept. 2.

Aikin, acting governor in the absence of Governor Stevenson and Lieutenant Governor John Lee Smith, authorized the stay because it has been Governor Stevenson's policy to permit one 30-day reprieve in every capital case.

JAPS REBUILD ALLIED HEADQUARTERS IN AUSTRALIA, June 17.—Despite the destruction caused by 209 tons of Allied bombs in eight recent raids, the Japanese persistently are building up their air might at Rabaul, New Guinea, and Wewak, New Guinea, as well as in the Northern Solomons.

IF AXIS WANTS GAS—They'll get it! So President Roosevelt warned enemy powers. That U. S. wasn't bluffing and is ready to act is attested to by these tanks, at an eastern arsenal, ready to be filled with the deadly stuff at short notice.

FAMILY GROUP OF 12 GIVEN NICE BIBLE

Mr. and Mrs. N. E. Brown of 510 West 5th street were awarded a family Bible at the First Baptist church revival last night for being present with the largest family group. There were 10 children—five boys and five girls, ranging in ages from five months to 16 years, none of them being twins.

Mr. Brown maintains a home for his family in Cisco, while he works as carpenter in a defense project in Harvard, Neb. He is at home now for a few days visit with his family.

Investigation of the size of families out of which came people who were present last night found that Smaier Joe Russell came from a family of 22 children. Other representatives of families of 12, 13 and 17 children were discovered.

At this evening's service the Training Union will be recognized. Large crowds have been attending both morning and evening services and a good spirit has been manifested with 25 additions to the church, according to Rev. Cooper Waters, pastor.

The Friday morning service will be dedicated to old people and shut-ins and transportation will be provided for all who wish to attend if they will notify Pastor Waters.

DEMORALIZED TROOPS MOVED FROM SICILY

NEW YORK, June 17.—A Moscow radio broadcast recorded by CBS said Thursday that several incidents among the Italian garrisons at Sicily, Sardinia had led the Italian high command to start withdrawing "its demoralized troops from the islands under the pretext it is regrouping its forces."

Headquarters of the commander of the German air force in the Mediterranean were declared to have been moved from Sicily to the Southern Italian province of Calabria.

CHURCH NOTICE

Rev. Robert E. Bowden of Sweetwater, Texas, will speak at the Church of God tonight. Services will begin at 8:30 o'clock. The public is invited to attend this service and the members are especially urged to be present. Rev. C. S. Moad, pastor.

TIME ON HIS HANDS—Commander of world's largest bombardier school, at Midland, Texas, appealed for old clocks to construct super-size bombsights for classroom demonstration. Boy Scouts got busy and Col. John P. Kenny has time enough.

ANYBODY HOME?—If there is, he can come out and test the feel of an American bayonet. Americans are looking for Jap snipers, at Holtz Bay, on Attu Island. This Jap tent and other structures were well stocked with food and ammunition.

FORCES MOVE FOR INFLATION BATTLE LINES

WASHINGTON, June 17.—The administration moved against congressional opposition on three fronts today in its fight to hold the line against inflation.

Price Administrator Prentiss M. Brown went ahead with his program to roll back retail meat, butter and coffee prices through subsidies despite a challenge by Sen. Robert A. Taft, Republican of Ohio, that he has no legal authority to do so.

The Defense Supplies corporation announced meat subsidies ranging from 0.95 cent to 1.3 cents a pound, live weight to reimburse packers for a 10 per cent rollback in retail prices.

The Commodity Credit corporation began releasing 10,000,000 bushels of corn it already holds and planned to acquire still more even to the extent of seizure, in an effort to break a virtual "freeze" in the corn market without disturbing price ceilings.

These developments came amid increasing signs that neither the administrator or congress is ready or willing to "give" even a little on their opposite views on food, price and rationing problems.

President Roosevelt has stated most emphatically that he will not appoint a single food administrator—a post demanded by congress. Farm state Congressmen have hinted that they will "legislate" one.

The plan to distribute government-owned corn and seize additional supplies was revealed by J. B. Hutson, director of the Commodity Credit corporation, late yesterday to a meeting of angry corn-state senators, many of whom insisted on a break in corn ceilings.

Hutson disclosed that CCC loans on 47,000,000 bushels of the 1942 corn crop are being terminated, requiring growers to pay up by July 15 or surrender the corn. He also said CCC has in mind "requisitioning" at present ceiling prices approximately 25,000,000 bushels of privately-owned corn now stored in grain elevators.

RUSSIANS HOLD ALL NEWLY WON BATTLE FIELDS

MOSCOW, June 17.—Ceaseless waves of German troops, bolstered by tanks and planes, attacked Soviet lines northeast of Orel today under orders to recapture four lost towns at all cost.

The battle, northwest of Mtsensk, 30 miles northeast of Orel, at the hinge of the southern and central fronts, was in its fourth day with territory that served as a springboard for the abortive German push on Moscow in 1941 at stake.

Field reports indicated that the Red Army was holding all newly-won positions in the face of fierce enemy attacks. Three German battalions suffered heavy losses in manpower and equipment during yesterday's fighting. Five tanks and three German planes were destroyed by gunfire.

Some 80 miles northwest of Orel, an estimated 1000 German infantrymen dislodged Soviet troops from their forward positions near Zhdidra. A Soviet counter-attack restored the situation, however, and at least 160 enemy officers and men were killed in the fighting.

Soviet long-range bombers, striking in support of ground forces, smashed many trains and touched off large fires at explosions in raids Tuesday night on four railroad junctions through which Axis supplies and reinforcements must move for the Bryansk-Orel-Smolensk area.

German planes raided Saratov, 200 miles up the Volga from Stalingrad, the Russians said, but only a few explosive and fire-bombs were dropped on the city. Two raiders were shot down.

ITALIANS SAY ALLIES MOVING VAST TROOP UNITS, SWARMS OF PLANES IN INVASION ARMY

LONDON, June 17.—Radio Rome said today that invasion barges were moving in a steady stream from Africa to Pantelleria, only 60 miles southwest of Sicily, and estimated that the Allies have massed 5000 planes and more than 1,000,000 troops around the southern rim of the Mediterranean for an assault on Europe.

(A London broadcast quoted "reliable reports from Berne" that peace demonstrations have broken out in southern Italy, already under heavy Allied aerial bombardment).

Virginio Gayda, authoritative Fascist editor was quoted by the Italian Radio as writing that the Allies have sent more than half the British fleet and thousands of tanks, as well as 5000 planes and over 1,000,000 of their best troops, to the Mediterranean theater for the coming offensive.

The Italians, to meet the anticipated onslaught, were believed by Allied observers to have mustered a poorly-equipped army of probably no more than 2,000,000 men and a largely outmoded air force of some 1500 planes. Both the army and air force, however, are supported by German contingents.

While main interest remained centered on the Mediterranean theater, the Daily Mail added fresh fuel to the theory that the Germans may attempt to disrupt Allied invasion plans with commando or air-borne troop raids on Britain.

Quoting reports from the "German frontier," the Daily Mail said the Nazis recently moved several armed vessels of a "special type" from the Baltic to the North Sea and Atlantic and had collected many hundreds of high-speed boats—such as might be used for an invasion—at Rotterdam and Antwerp.

Submarines were being concentrated in South Danish ports, the Daily Mail said, possibly to help repel any British invasion thrust toward Norway, Denmark or northwestern Germany.

Gayda's estimate of the Allied armed forces in the Mediterranean theater was contained in a dispatch transmitted by the Italian Stefani Agency claiming that Italy was contributing to the Axis war effort by "immobilizing and destroying a great mass of Anglo-American men and arms."

The Axis reports of Allied invasion plans were renewed following reports from Turkey that the Axis satellite state of Rumania was putting out peace feelers.

The Turkish reports asserted that the Rumanians had inquired as to the possibility of recovering lost territory if the Bucharest government attempted to make a peace settlement now.

FLIER GETS CAKE. A 22-year-old private at Fort Worth Army Air Base received a birthday cake yesterday from his mother in Denver, Colo., thanks to the American Red Cross. Mrs. J. H. Rosenberg wired the Red Cross Chapter here \$5 and asked that they see that her son, Pvt. Quentin Rosenberg, be sent a cake on his birthday.

MORE TIRES PROMISED. LOS ANGELES, June 17.—The California Synthetic Rubber Corporation will produce enough buna S for 16,000,000 passenger automobile tires when its \$15,000,000 government-owned polymerization plant in the Los Angeles Harbor district reaches full capacity.

HOUSE OF CARDS

The "planned economy" this nation is living under has promoted high production costs while demanding low prices for consumers. The formula reads well but it doesn't work. You can't arbitrarily boost the cost of production and hold down the cost of living.

This is being illustrated once more in the falling off of new oil discoveries. Without drilling camps to be carried on with out aid. It takes money—more money than it did before the "war boom." OPA suggests a "government subsidy" (money from every taxpayer's pocket in lieu of a necessary crude oil price increase, to encourage the search for new oil reserves which will soon be desperately needed by this nation.

Petroleum Administrator Ickes has recommended an average increase of 35 cents a barrel, instead of a subsidy. Oil men do not want subsidies—which mean taxpayer-financing of wildcatting. Many producers feel that the subsidy proposal is an attempt to put the government into the oil business.

A subsidy dodges the basic issue of allowing prices that will pay for production costs. The people pay either way, but there will be less waste and less inflation in production financed with reasonable profits than with production financed with taxation.

EATING

Normally, Americans are rather noncommittal about their food. They expect good food and take it for granted, whereas the French not only expect good food but talk about it, and the English expect poor food and get it.

There is a great change now. The French under German rule, are half-starved, with the Germans taking all their wine and meat of their land. The British have settled down to a scant and dull menu which sustains life and keeps them going but has no other merit. And at last Americans are deprived of so many things, and subjected often to such inferior quality, that they are very set about it.

They should bear in mind, however, that this is still the best fed nation on earth. There should be vicious substitution, realizing that if all American groups, probably the best fed now, are the men in the armed services. They deserve the best there is, and they get it, both in quality and quantity. The results are evident, when they come up against enemies not so well nourished.

AIR TRAVEL

Anyone who thinks this is an uncomfortable world just now may be consoled by the prospect of great changes for the better after the war.

One such change, according to the office of war information, will be in air travel. As many as 20,000,000 passengers a year within the next decade are forecast. Considering the increase just before the war, this is not improbable. In 1939, figures of the civil aeronautics administration show, less than 1,900,000 passengers were carried; in 1940 the number jumped to 2,295,000 and in 1941 to 4,060,000. This rate of increase, if continued, would bring air rates within the reach of almost everybody's pocketbook.

Some things, however, the plane is not likely to do. One is to carry large quantities of freight. Flying from New York to Europe, a clipper could carry only eight and one-half tons, even if it returned in Newfoundland. On the other hand a 10,000 ton freighter could not only haul fuel and stores for the round trip, but 6,000 to 8,000 tons of freight besides.

LIFE-SAVERS

A shipwrecked sailor on a raft or lifeboat need no longer die of thirst or starvation. All sailors now know how to get food or drink, even in the middle of the Pacific. For this, thanks are due to ex-Governor Gifford Pinchot of Pennsylvania, who has thus capped a long and useful public service. Raw fish, he found, contains a fluid which can be squeezed out

and working their crops and the housewives are coming all the way. Long Branch has some fine victory gardens, but the fruit of it is not good this year.

Mr. and Mrs. Baette visited Ben and Patsy from Baytown. Mr. Baette attended Sunday school here Sunday.

Mr. and Mrs. G. W. Seaborn were dinner guests in the home of Mrs. L. Miller at Romney Sunday. Mrs. Isone Adkinson spent the week-end in the home of Mr. and Mrs. Brett Dudley.

John Williams drove over from Carbon Sunday and brought Mrs. Minnie Ferguson to visit in the home of Mr. and Mrs. Mason Cooper.

and made a good substitute for water. This discovery has been officially tested and approved.

It fishes contain water, they also provide food. The next step was to give all sailors emergency fishing kits. With them are fishing instructions printed on waterproof paper, containing also advice on how to get along if stranded on uninhabited islands. The latest addition is a small kit of chemicals which render sea water fresh and safe to drink. From now on all this will be standard equipment for life boats, including the sail-possible ones carried on aircraft. It is hoped that a gruesome chapter in sea history will thus be closed.

SHIPPING

The production of ships in this country today is almost incredible. They slide into the water so fast that it is impossible to keep count. Many hundreds of warships and carriers have been launched since this country entered the war, and the total will be many thousands before the war is over.

What then? Will all that good shipping be crammed up in harbors, to rot from disuse and neglect, as was done after the last war? Uncle Sam decided to crawl into a hole and pull the hole in after him. For well valuable vessels be used effectively for the purpose of peace?

There will be enormous shortages of all kinds of things in all the countries when this war ends. The sensible thing would be to use available shipping for the widest possible distribution of goods and materials, so as to build up a prosperous world in whose welfare all right-minded people could share.

BETHEL

-CAN'T SLEEP-
No need to be in a hurry, worry and fret because CONSTIPATION or GAS PRESSURE won't let you sleep. SURE—get up, take a dash of ADLER-1-KA

as directed, to relieve the pressure of large accumulations of wastes and gases in the digestive tract. Adlerka assists in food wastes and gas through a mild, safe, laxative movement so that wastes return to normal volume and the effects of pressure cease. You know, if you are awake, morning finds you feeling fresh, refreshed and ready for a good day's work or fun. See Adlerka at your drug store or Moore Drug Co. and Dean Drug Co.

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention. The kidneys are Nature's chief way of taking poisons out of the blood. They help most people pass about 2 pints a day. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up habits, swelling, a flushed glow to the face, headache and dizziness. Frequent or scanty passages with stinging and burning when you urinate are also warning signs. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.
