FLIERS FORCED DOWN BY FOG BANK TODAY

VACATIONISTS REACH NEW DANGER AREA ON JAPAN HOP

(By The Associated Press)

NEMURO, Japan, Aug 19.—Landing in the treacherous waters off Ketoi island on being forced down a second time in their attempt to fly 897 miles over the stormy Kurile islands from Petropavlovsk, Kamchatka, to Nemuro, Colonel and Mrs. Charles A. Lindbergh today ran into a new danger area.

A few minutes after leaving Petropavlocsk their motor developed trouble and they were forced to descend at Avatcha bay, Kamchatka. Two hours later they were off again, and got as far as Shimushiru island, a little over half way to Nemuro, when they ran into a fog bank 1,000 feed deep.

Appeals For Aid

Turning with the intention of landing at Muroton bay, Shimushiru, the Lindberghs evidently found the harbor there enshrouded by fog and were unable to effect a landing. Mrs. Lindbergh appealed to Ochiishi wireless station here for the postion of two ships, the Kokusai Maru and the Shimushiru Maru, both of which she knew were in her vicinity.

Finally the fliers brought their plane safely down on the lee of the rockbound island of Ketoi, 15 miles from Muroton bay. Whether they would be able to reach shore was not clear in the reports.

Strong currents swish about most of the Kuriles and vessels approach them with the utmost caution.

That the Lindberghs themselves were somewhat apprehensive of the dangers was indicated in the messages asking the positions of nearby

HOUSE TO END PRICE CASE

TESTIMONY ENDED IN TRIAL OF BASTROP DISTRICT JUDGE

(By The Associated Press)

AUSTIN, Aug. 19 — The house hoped to conclude today its week old investigation of J. B. Price, district judge at Bastrop accused of negligence in approving alleged excessive mileage charges of sheriffs.

Testimony was finished yesterday and arguments were all that remained. Each side was allotted two and one-half hours.

A vote on the 13 misconduct charges against Judge Price was expected after completion of arguments, tentative agreement having been made to dispense with debate on the part of house members. Should the house impeach Judge Price he would be tried by the senate.

The venerable jurist himself was the main defense witness yesterday. He was asked about accounts submitted by Sheriff J. J. Burtschell of Lee county. Sheriff Clint D. Lewis of Burleson county, Sheriff Woody Townsend of Bastrop county and the late John T. Carlisle, former sheriff of Lee county.

Judge Price said he believed the accounts were correct when he approved them or he would have withheld his signature. He stated a district judge was forced to rely almost entirely on the honesty of the sheriffs.

Body Of Flier Is Found In Fuselage

CALSHOT, England, Aug. 19 (AP)—The body of Flight Lieutenant O. L. Brinton, Schneider cup pilot, who plunged to his death while testing his seaplane yesterday, was found today in the tailend of the fuselage.

It was believed at first that he had been lost at sea but when his wrecked plane was taken into the hangar and examined thoroughly, his body was found apparently having been forced back by the impact of the crash.

Former Athlete Is Drowned Yesterday

TAHOE, Calif., Aug. 10. (AP)—Stricken, apparently by a heart attack while swimming in Emerald bay here, Eric Krens, 34, former Stanford athlete and holder of the world's discus record, drowned yesterday.

Krens had gone boating with a girl. He decided to take a swim, lowered himself from the end of the boat, swam a few strokes, then disappeared.

The girl tried to go to his assistance too, being unfamiliar with rowing, only got farther away.

CUBA BOTTLES UP NEWS OF UPRISING

DECISIVE BATTLE IS BREWING; REBELS DERAIL TRAIN

(By The Associated Press)

HAVANA, Aug. 19—Authoritative news of the Cuban revolt was effectively bottled up by government censorship today but reports indicated decisive battles were brewing in several provinces.

A rebel expedition comprising 500 men and scores of machine guns landed at Gibrari in upper oriente from the German vessel Frederick II. The palace admitted unofficially that the report was true but said the force was surrounded by federal troops.

Train Derailed

Another expeditionary force was reported to have landed on the upper Santa Clara coast and rebels were said to have derailed the Fomepto-Trinidad train south of Santa Clara.

Army headquarters announced that Colonel Aurelio Hevia, his son and two other rebel leaders were captured in Colon, Matanzas province and would be imprisoned.

President Gerardo Machado remained in Santa Clara attempting to quell the movement but little news of his success reached here. He expected to return several days ago but the tenacity of the insurgents delayed his departure.

Fear that the insurrection might spread to Havana led the government to take stringent precautions. Ten armored trucks remain in front of police headquarters at all hours. The house-to-house search for arms and ammunition was suspended after the government found that great quantities were stored in well-barricaded dwellings.

A report from camp Columbia on the outskirts of Havana said the bodies of 180 federal troops killed in action had been brought there although official sources said only six had lost their lives. The gov-

MAYORS TO TALK UTILITY RATES

SAN ANGELO, August 19 (AP)—Mayor Brown F. Lee vice president for this area in the Texas League of Municipalities, today issued a call for mayors and representatives of city government in this area to meet here August 27 for a discussion of utility rates and problems.

Lubbock Man Breaks Jail At Victoria

VICTORIA, Aug. 19.—6—Three prisoners escaped from the Victoria county jail last night after sawing the bars of their cell.

They were Sheridan Bradley, 26, Buffalo, Mo.; Fred Coulter, 24, Lubbock, and Leon Galaska, 18, Beaumont. Bradley and Coulter were held on car theft charges. Glaska was charged with theft over $50.

Texas Population 70 Per Cent Native White Born; Mexicans Lead 4 Cities

LONE STAR STATE GIVEN 5,824,715 TOTAL; MAJORITY OF MEXICANS IN 21 COUNTIES

(By The Associated Press)

WASHINGTON, Aug. 19—Texas was credited today by the census bureau with 71.9 per cent native born white population, although 21 counties and four cities registered a majority of Mexicans as inhabitants.

The Lone Star state was given a total population of 5,824,715, of which 4,185,095 were native born white.

Andrews county led in percentage of native white to total population with 736 inhabitants of whom 734 were native white. The other two were foreign-born white. Hamilton county, with 13,523 population, registered 13,333 native white, with 181 foreign-born white, no negroes and nine Mexicans.

Dallas county, with 262,829 native white out of a total population of 325,691, had the largest number. Harris county, with 359,328 total population, was shown to have the most negroes, 72,603. Bexas county, with a Mexican population of 98,901 out of 292,533, led in the race.

The counties with a majority of Mexicans and total population compared with Mexican, follow:

Brewster, 6,624 and 3,411; Brooks, 5,901 and 3,878; Dimmit, 8,828 and 6,222; El Paso, 131,597 and 77,389; Frio, 9,411 and 5,869; Hidalgo, 77,004 and 41,522; Hudspeth, 3,728 and 2,589; Jeff Davis, 1,800 and 1,046; Jim Hogg, 4,919 and 2,561; Jim Wells, 13,456 and 7,137; Karnes, 23,316 and 11,808; La Salle, 8,228 and 5,492; Maverick, 6,120 and 4,721; Presidio, 10,154 and 6,774; San Patricio, 23,836 and 12,413; Starr, 11,409 and 8,822; Val Verde, 14,924 and 9,542; Webb, 42,128 and 29,601; Willacy, 10,499 and 5,895; Zapata, 2,867 and 1,459; Zavala 10,349 and 8,660.

Mayor Says Gas Cut 'Unsuitable'

MAN FALLS TO HIS DEATH

NINE-STORY PLUNGE AT AMARILLO IS FATAL TODAY

(By The Associated Press)

AMARILLO, Aug. 19—David E. Mead, 52, fell to his death from a fire escape on the ninth floor of the Fisk medical and professional building here today. He was in the office of a physician, apparently seriously ill, having difficulty in breathing. As the physician stepped into the laboratory, Mead apparently went to the fire escape for a breath of fresh air. His body was found in the alley behind the building.

The coroner's verdict was accidental death.

Mead, who was credit manager for a local stationery company, was the father of Ben Carlton Mead, San Antonio artist who illustrated J. Frank Dobie's "Coronado's Children." Another son, David Mead, in the state auditing department at Austin. A daughter, Mrs. Granville T. Bruce of Dallas, is the wife of an artist. Besides the three children, his widow survives.

POLITICAL LEADER ILL

DALLAS, Aug. 19. (AP)—Murphy W. Townsend, 54-year-old attorney and political leader, was gravely ill at a Dallas hospital today. Physicians held little hope of his recovery from heart disease.

DECREASE FOR WINTER MONTHS ANNOUNCED BY COMPANY HERE

Partial rate reductions, covering a five-months winter period and made public this morning by West Texas Gas company headquarters here, do not come up to the expectation of the city administration, Mayor J. J. Clements said at noon.

The Mayor said the schedule had been presented to the commission a week ago and company officials were at that time advised that the reduction was not as great as hoped for.

"Had Seen Proposal"

"The proposal was studied by the commission," Mayor Clements said, "and was rejected as unsuitable because the administration did not feel that it helped the citizen we wanted helped most—that being the 'little fellow'. You may say for me that myself and commissioners have studied the gas situation thoroughly and will continue to work for a lower rate, more conclusive in its reductions."

The Mayor pointed out that he was mindful that the reduction will benefit the large gas users but declared that "I didn't start out to help the big fellow—it was the little fellow I was working for."

Covers 42 Points

The reduction, made public by R. F. Hinchey, vice-president and general manager of the gas company, includes service to both domestic and commercial users as well as to gas consumed by schools and colleges. It covers 42 West Texas towns and cities—the total served by the company at the present time. Points affected include practically every community between Canyon and Hereford on the north, and Midland and Odessa on the south.

Reduction Explained

According to the new rate schedule, a cut of approximately 15 per cent will be made to domestic and commercial customers after the first 6,000 cubic feet of gas have been burned each month. Where domestic users have been paying 67 1-2 cents per 1,000 cubic feet up to 50,000 cubic feet, they will pay this year 67 1-2 cents per thousand for the first 6,000 feet and 57 1-2 cents for each additional thousand up to 50,000 cubic feet. The new rate goes into effect after the read-

Counselor Of Noted LaFollettes Dies

WASHINGTON, Aug. 19 (AP)—Mrs. Belle Case LaFollette, widow, mother and counselor of noted progressive leaders, died here late yesterday of shock after an abdominal operation.

Both Senator Robert LaFollette, jr., and Governor Philip LaFollette of Wisconsin, sons, and a daughter, Mrs. Ralph G. Sucher of Washington, D. C., were at the bedside.

MINER USES SOLDIERS' BONUS CHECK TO BUY ARMS, AMMUNITION FOR REDS

(By The Associated Press)

HARLAN, Ky., Aug. 19—William M. Gibbs, unemployed coal miner who said he would prefer Russia to the Harlan county coal fields and was proud of being a member of the communist party, was in jail here today awaiting grand jury action on a charge of criminal syndicalism.

He was arrested in one of a series of raids conducted by Sheriff J. H. Blair since circuit court opened Monday to take up murder indictments against 31 men and scores of lesser charges against others growing out of a long drawn out labor controversy.

Gibbs, who said he was 35 years old and a World war veteran, said he had used his soldiers bonus check to buy arms and ammunition found when he was arrested at his home. Sheriff Blair's deputies brought into court several rifles, about 1,000 rounds of ammunition and a communist party card made out in Gibb's name.

"I wish there was a cattle boat going to Russia now," Gibbs told Circuit Judge D. C. Jones. Judge Jones said he wished it were possible to ship Gibbs to Russia.

CITY DADS TO REQUEST FOR REDUCTION

NO NOTIFICATION YET MADE TO TELEPHONE COMPANY HERE

A formal request for reduction of rates for telephone service in the city of Lubbock is to be made of the Southwestern Bell Telephone company within the next few days by the Lubbock City commission, it was learned at the City hall today.

The request was authorized by the commission in its last meeting and will be drawn up for presentation to company officials in the near future, it was said. W. H. Rodgers, acting city manager, is out of town for a few days and it is likely that the request will not be presented until he returns.

Company Not Advised

Tom A. White, local manager of the company, had nothing to say regarding the request except that he had received no notification from the commission.

Present straight rates charged by the company are $2.25 for residence telephones on party lines, $2.75 for private lines and $6 for business telephones.

Wright's Birthday Is Observed Today

DAYTON, O., Aug. 19 (AP)—An air minded world, steeped in nearly three decades of aviation's big parade, remembered today the birthday of one who pioneered the air—Orville Wright.

At a quiet summer retreat on the shores of Georgian bay, Canada, Wright observes his sixtieth birthday anniversary.

Ever a subscriber to things simple, the co-inventor of the first heavier-than-air craft 28 years ago was scheduled to pass the day quietly in the company of a few close friends and relatives.

SEEK TO AVERT KANSAS SHUTDOWN

TOPEKA, Aug. 19 (AP).—Although state officials expressed hope a shutdown of oil production in Kansas would be averted through an increase in crude prices, the public service commission had under consideration today the first formal complaint seeking enforcement of the new Kanasas oil proration law.

Determination within three days of a date for hearing of the complaint, filed late yesterday by W. H. Lassen, vice president of the Aladdin petroleum Corp., Wichita, was promised by Thurman Hill, member of the commission.

Hill said if a "satisfactory" price was posted "there will be no necessity for a shutdown."

State Rests Today In Luke Lea Trial

ASHEVILLE, N. C., Aug. 19 (AP)—The state formally rested its case today in the trial of Colonel Luke Lea, Nashville, Tenn., publisher and financier and three men accused of conspiring with him to defraud the Central Bank and Trust company here of $1,300,000.

Additional records of the bank, which failed last November were entered in evidence just before the state rested.

Beer Confiscated In Raid Tuesday

Eighty-eight bottles of beer, about 36 empty bottles, a 15-gallon jar, and a bottle-capper were found in a residence raided late Tuesday in the 600-block of Avenue C, police reported.

Bottles of beer and the jar were broken, except for five bottles retained as evidence, according to police. A man arrested at the place was released on his own recognizance to return to police headquarters today. No charges had been filed against him at noon.

FIELD CLOSED TIGHTLY AS DRUMHEAD

PLANES DRAFTED INTO SERVICE TO SEARCH FOR VIOLATORS

By WILLIAM S. WHITE
Associated Press Staff Writer

KILGORE, Aug. 19 (AP).—The far-flung East Texas oil field was closed tightly as a drumhead today. Oil production—the "enemy" in this friendly offensive—had been met and defeated along all fronts in the 600-square mile area of operations by Texas militiamen at the "front" under martial law.

At brigade headquarters here the general staff awaited the reports of 400 cavalrymen riding in details of four in outlying sections, seeking any wells remaining on production in violation of the martial law shutdown order issued by Brig. Gen. Jacob F. Wolters. Headquarters officers believed only a handful of recalcitrants would be found.

Rain Covers Area

The entire area was grey with rain and the militiamen's mounts plodded over hills made slippery and valleys standing in water.

Two airplanes piloted by Captains W. K. Ennis and J. F. Aldridge with Lt. Col. Walter B. Pyron and Major C. E. Parker as observers landed at Tyler today from Houston. They will be used to make an aerial survey of the area. The unfavorable weather was believed to have interfered with General Wolters' plan to have them scout for wells hidden by rough terrain which still were producing but were inaccessable to the cavalrymen.

General Wolters was in Tyler and efforts to reach him by telephone proved unavailing for several hours.

The scene here was reminiscent of wartime days. Army trucks lurched about on muddy roads leading to general headquarters, a mile and a half from town. Staff cars carried bedraggled majors. Enlisted men were bringing water supplies by trucks. The whole area still was quiet.

Drilling Continues

Drilling operations continued apace and new drilling permits

HUNDREDS DIE IN FLOODS

CHINESE DYKE BREAKS TO ADD TO CHAOS OF DISASTER

(By The Associated Press)

HANKOW, China, Aug. 19—Flood waters of the Yangtse river today broke through the big Chiakow dyke protecting Hankow's western suburb, inundating the native industrial district and taking several hundred more lives.

Adding to the chaos of the last three weeks, in which flood waters have robbed some 30,000,000 persons of their homes and left 10,000,000 of them destitute, the renewed onslaught of the river covered the highest ground in Hankow under five feet of water and the lower areas ten to twenty feet.

Epidemics Serious

Epidemics became more serious among the refugees, who had nothing to drink but flood water. Typhoid, cholera and dysentery raged unchecked among the Chinese.

Industry in Hankow was demoralized. Big flour, cotton and silk mills were flooded. Such confusion prevailed that it was impossible to count the casualties.

All foreigners were reported safe. The majority of foreign women had left or were leaving on every available steamer. Chinese were moving out by all other useable channels of travel.

THREE ESCAPE PRISON

THOMASTON, Maine, Aug. 19.—(AP)—Willam Merrill, of Galveston, Texas, and two other inmates of the state prison escaped today after slugging a guard and taking his revolver.

FACES CHARGES

It was in the New York apartment of Miss Ruth Jayne Cranmer, below, that State Senator Roy T. Yates of New Jersey was shot and dangerously wounded following an intoxicated quarrel. Investigators learned that the girl was on the New Jersey state payroll, having been employed by Yates for "dependency research work." She was held on suspicion of felonious assault in connection with the shooting.

FOUR BIRDMEN ARE KILLED IN CRASH

RESCUE PARTY MEETS DEATH IN HUNT FOR LOST AVIATOR

(By The Associated Press)

RAINY LAKE, Ont., Aug. 19 — Four members of an airplane rescue party from the provincial forestry service were killed yesterday just as they learned that the airman they sought was safe.

The accident, in which a large metal cabin plane of the Ontario forestry department plunged into Rainy River lake, was the aftermath of the wrecking of two provincial planes in a storm Monday.

The dead were: Phillip A. Hutten, Toronto, pilot; R. V. Greer, Sault Ste. Marie, Ont., mechanic; J. V. Stewart, district forestry department chief, Stratford, Ont., and A. J. Runciman, Stratford, co-pilot.

The party was searching for George Delahay, pilot of a flying boat wrecked in the storm Monday.

Flying over the lake, the rescue plane sighted a signal from an island where Delahay had been taken by a party of American campers who rescued him after his plane sank.

As the large plane banked to land, Delahay and others on the island saw it drop into the lake from 200 feet. Two of the bodies were recovered.

Services Held On Man's Anniversary

LAMESA, Aug. 19—(Special)—Forty-nine years from the day he was married, J. A. Sumpter, about 77, was buried here following funeral services at 3:30 o'clock Monday afternoon. His wife died two years ago.

A long-time resident of Lamesa Sumpter was a member of the Methodist Episcopal church and an officer in the Woodmen of the World lodge here. He died Saturday morning at Wilson, Okla., where he was visiting some of his children. He had been ill prior to going there. Six children survive.

Sumpter was a brother-in-law of J. W. Burleson and Mrs. F. D. Stockridge, both of Lubbock.

The children are three sons, James of Lamesa, Earl and Love Sumpter, and three daughters, Mrs. Effie Clinton of Gainesville, Miss Ruby Sumpter of Lamesa, and Mrs. Pearl Ware.

FIVE DROWNED

MEXICO CITY, Aug. 9 (AP)—Floods and storms, which during the last month have taken numerous lives and caused much property damage in Mexico, added five victims to their toll yesterday when Yuriria lake, in the state of Guanajuato, overflowed and inundated a large farming district near the town of Jaral.

HARDY TO ASK EXPLANATION OF ACTION

IMPEACHMENT HINTED IN STATEMENT BY HOUSE MEMBER

(By The Associated Press)

AUSTIN, Aug. 19.—Representative Bailey Hardy of Breckenridge said today he had prepared a resolution for introduction in the house calling upon Governor R. S. Sterling to explain his authority and his reason for closing down the East Texas oil field by martial law.

"If the governor is unable to offer a satisfactory explanation, impeachment proceedings naturally would follow," Hardy stated. He said, however, he was not taking any action in that direction and had not planned to do so.

Opposes Program

Hardy is chairman of the house committee on oil, gas and mining and was an opponent of the governor's conservation program.

Governor Sterling was not in the capital. His secretaries said he had gone to Houston and probably would not return until Friday.

Hardy said he planned to offer his resolution in the house as soon as the house completes its investigation of J. B. Price, judge of the 21st judicial district. This inquiry probably will end tonight.

In a statement to the press, Hardy bitterly criticized the governor's actions in calling out the troops.

"The governor let the East Texas oil field hang fire for thirty days while the legislature was in session," Hardy stated. "He waited until the legislature passed a law that evidently suited his taste because he signed it the same night it passed. He then said he would not order martial law unless the new law proved inoperative. Within 24 hours however, he changed his mind and issued the proclamation.

Overstepping Charged

"He appears to be trying to do by military rule what the people, through the legislature denied him the right to do.

"Even if there is insurrection and riot in East Texas, the governor is not justified in shutting down the wells. I don't see what connection shutting down the wells has with

(Turn to Page 9, Column 4, Please)

EARTH TREMOR FELT AGAIN

VALENTINE CITIZENS IN CONSTERNATION AT TEMBLORS

(By Associated Press)

VALENTINE, Aug. 19.—Recurrence of violent earth tremors in this section caused consternation among Valentine citizens yesterday.

Three distinct tremors were felt. Residents reported four shocks shook their homes Monday night. None was violent as the one which leveled abode houses and partially wrecked larger structures Sunday.

While yesterday's shocks were felt at other points in this sector, Valentine, as was the case Sunday, seemed to bear the brunt.

Many citizens dragged their beds outside and slept under the stars last night. They feared other shocks would hurtle adobe down upon them as they slept.

Many Mexicans went to church prayed.

Yesterday's tremors interrupted work of repairing buildings damaged by Sunday's quake.

A photographer, in the act of snapping a damaged adobe house, saw the walls of the structure crumble and fall at his feet.

The hardest shock came at 1:37 p. m. A second shock shook the town about 3 p. m. Walls creaked and groaned and plaster showered down.

No accurate estimate of the amount of damage done here had been made however residents said it probably would exceed $75,000.

Storage Tank Near Borger Is Burned

BORGER, Aug. 19 (AP)—Fire burned 35,000 barrels of gasoline in a storage tank at the Phillips Petroleum company's refinery north of Borger today. Loss was estimated at approximately $50,000.

Firemen used streams of chemicals to prevent spread of the fire to other parts of the plant.

The fire resulted from an overflow of the huge tank, witnesses saying the gasoline burst into flame as it flooded the area around the base of the tank.

Farm Girl Thrown From Horse, Killed

AMARILLO, Aug. 19 (AP)—Injuries received when she was thrown from a horse into a barbed wire fence proved fatal last night to Lottie Vern Park, 14-year-old farm girl living eight miles south of Amarillo.

A dog frightened the horse as the girl rode along a country road. She was injured internally. Services will be held this afternoon.

GOV. HUEY LONG WOULD SUBSTITUTE POTLIKKER AND CABBAGE FOR COTTON

(By The Associated Press)

NEW ORLEANS, Aug. 19.—A definite draft of his plan for a cotton crop holiday next year by legislative action in favor of potlikker, beans and cabbage was being drafted by Governor Huey P. Long for submission to his southern "people's" meeting called for Friday in New Orleans to discuss economic relief in the low price of cotton.

The governor said he would let the people talk first in the meeting and that he would ask them to "build fires under the chairs of widow women governors" in states of the south where his cotton regulation plan has met disfavor on the claim of illegality.

He wanted a "full airing" of the cotton problem that confronts the southern planter with the large crop in prospect, Governor Long said, and if a more feasible plan than this was offered he said he was willing for its adoption.

He advanced the idea that in the absence of a crop of cotton the farmers should turn to real diversification, raise turnip greens, truck and livestock for cash money.

Miss Blanche Bacon, Bride-Elect, Is Honor Guest At Early Breakfast Today

Guests Invited To Hunt For Treasure

An attractive event of the morning was the early breakfast given at the F. R. Friend home at 2005 Broadway in honor of Miss Blanche Bacon, bride-elect. Mrs. Tom Duggan, jr., and Miss Johnnye Gilkerson joined Mrs. Friend in entertaining for Miss Bacon, who is to be a September bride.

Guests upon arriving were invited to go on a treasure hunt, and after returning to the Friend residence they were served breakfast on the lawn.

The guest list included Misses Blanche Bacon, Mary Meador, Lulu Mae Cravens, Mary Lee Jameson, Anna Cecil Evans, Catherine Jameson, Mildred Street, Alma Girand, Sylva Wilson, Almeda Murray, Mesdames Charles Bacon, L. C. Bacon, Warren Bacon, S. C. Arnett, J. H. Stiles, W. H. Meador, L. C. Ellis, Lee Quillen and Lee Duggan of Houston.

Miss Vaughn And L. E. Huggins Marry

Mr. and Mrs. L. E. Huggins, who were married in Clovis, N. M., last Saturday have returned to Lubbock to make their home and are residing at the Nullmeyer apartments on Broadway. Mrs. Huggins was Miss Aurelle Vaughn before her marriage.

The couple was accompanied to Clovis by the bride's sister, Miss Stella Mae Vaughn, and by Dr. W. A. Petty. The Rev. Rogers, Baptist minister, performed the ceremony.

Mr. Huggins is employed in the plant department at the Southwestern Bell Telephone company, and Mrs. Huggins is in the traffic department.

Mrs. O.F. Baker Gives Party For Group

Members of two Sunday school classes in First Cumberland Presbyterian church attended a party in the home of their teacher, Mrs Ola Frances Baker, 1920 9th street, Tuesday evening.

Various games were played during the evening and iced watermelon was served. Guests were Evelyn DeShazo, Anna Mary Baucom, Gladys and Beatrice Johnson, Juanita Walker, Genet Howard, Meria Mae Horton, Dorothy Ford, Lillian Ruth Baker, Anna Fay Burgett, J. C. McClellan, Maurine and Denzil Quill, Fred Judd, Ray Judd, Argo Peek, and Quintin Burgett.

The hostess was assisted by Mr. and Mrs. Burgett, Dimple and Ruby Ford and Leslie Baker.

1911 Needle Club To Meet Thursday

Mesdames T. R. Prideaux and John C. Granberry are to entertain for members of the 1911 Needle club Thursday afternoon in the home of the former at 4 o'clock.

LOCALS

Mrs. Mary F. Hinton has been called to Berkeley, Calif., because of the serious illness of a sister.

Leo Allen of Brownfield is spending today in Lubbock on business.

Miss Margie Taylor, City Camp Fire executive, and Miss Ruth Stockton, county home demonstration agent, attended a meeting at Stanford Valley school in Yoakum county last night. They were dinner guests of the Rev. and Mrs. H. D. Heath.

D. P. Eaton, county agent; H. J. Bower of the department of agronomy, Texas Technological college and R. N. McClain, assistant county agent, spoke at a farmers' meeting held in Stanford Valley school in Yoakum county Tuesday night, returning to Lubbock later in the evening.

P. B. Ralls, Ralls, visited here this morning en route to Brownfield where he is to transact business.

Glen Frazier of Blue Ridge, is the guest of Mr. and Mrs. Charlie Files, 2003 1-2 Main street.

Mr. and Mrs. W. C. Garrison, 2005 9th street, have returned from Las Cruces, N. M., where they visited their daughter, Mrs. J. E. Mann and Mr. Mann.

Mr. and Mrs. L. H. Beall have returned from a visit to San Antonio and other points in Texas. They fished on the Frio river in Frio county and visited Mr. Beall's parents at Pearsall.

Mrs. H. G. Moore and daughter Geraldine, of Lott are visiting Mr. and Mrs. T. R. Prideaux, 2408 13th street. They will be joined later by their husband and father, who is on a field trip in the Davis mountains with a group from Baylor university, Waco.

MYSTERY OF SUN-CURE

Hippocrates was one of the first to recognize the powerful antiseptic and healing properties of light. He treated various diseases successfully by exposing the patients to sunlight, but the mystery of exactly how sunlight accomplishes marvelous cures has not been solved fully even today. From then until now as the employment of sunlight as a healer has increased, the use of the surgical knife has decreased. In countries such as Switzerland, where sun cures and sunlight treatments have been practiced for many years,

DR. MYERS

Doctor Myers' Daily Column On Child Welfare

BY GARRY C. MYERS, PH. D. Head Division Parental Education Cleveland College, Western Reserve University

VACATION FOR MOTHER

MANY fathers have had a vacation. It may have been a fishing trip, or a period of rest or excitement at a summer resort. If the mother of young children went along she had no real vacation. Taking little children away from home generally increases her burdens. If she visited with some of the family's relatives she had, besides the care of the children, some household duties. Not a few thousand mothers whose husbands regularly have a vacation never have known what a vacation is. It has never occurred to their husbands that mothers should have a vacation free from all family cares. Vacation-for-fathers-only is one of the relics of the days of masculine dominance and a subtle outcrop now of "masculine superiority."

Now is the time for fathers who had enjoyed a vacation to prove how large of vision and of heart they are. The father big enough to sense the task his wife has had will spare himself no sacrifice to get her off for a real vacation. If necessary he will stay home with the children and let her go alone, even if for only a few week-ends.

* * *

In these days when so many fathers are out of work it is a good time for mothers to take a brief vacation if the family purse at all permits. Let there be some family denials elsewhere for the mother's sake. A good time then for the father to take the mother's place caring for the children. Her value then will appear to increase many fold. Certainly she ought to get away from the rest of the family for a few hours of several days a week. Time will come when no father of a high degree of sportsmanship will dare to brag about his good vacation unless he can also tell about one equally as promising or enjoyable to his wife.

In some parts of the country farm bureaus and other like agencies are conducting brief camps for farm mothers. I can think of no finer service. Toiling day in and day out for weeks and months, often getting little sleep at night caring for the young children, these mothers must greatly profit from such an outing.

* * *

Those mothers religiously inclined will enjoy going to church, and where is the mother who does not enjoy her church the more when her husband goes along? Fathers who find going to church a burden can get pleasure from it just to know that going with the mother adds mightily to her happiness. The more any one of us makes what we think are personal sacrifices for our loved ones the more joy we bring to them. There probably is no greater source of joy to ourselves than in learning to make self-denials for others. I guess it is about the best proof of ones love and affection.

Any mother reading this article should be careful where she leaves it or her husband might read it. That would be [illegible] shouldn't. Then he probably will.

EDITOR'S NOTE: Two pamphlets by Dr. Myers may be obtained by sending 10 cents in coin for each and a self-addressed stamped envelope to Dr. Garry C. Myers in care of this paper, or Central Press Association, 1658 East Twelfth street, Cleveland, O. The pamphlets are "Problem Parents and Rewards and Fear."

Young People Have Picnic At Buffalo

Young people who are members of the Conference club in First Christian church went to Buffalo Springs for an outing Tuesday night. Swimming was enjoyed before the picnic supper, and afterwards the group went boating, hiking and played games.

There was an attendance of about 30 at the affair.

Young Girl Is Given Birthday Party

In celebration of her tenth birthday, Johnnye Lou Robertson, entertained Monday afternoon. Each guest was presented with a basket of candy, and the honoree fished in a miniature pond for gifts from those present.

Refreshments of ice cream and cake were served to Mary Frances and Iris Cloninger, Juanita Robertson of Seymour, Ruth Zeh, Mary Payne, Martin Gosdin, Ralph Cocanougher, E. L. Fortenberry, Doris and Marjorie Sneed, Billy Ruth Price and the honoree.

Mrs. H. R. Robertson, the honoree's mother, and her grandmother, Mrs. M. R. Heller, assisted in entertaining.

Lawn Party Is To Be Attended By Club

The home of Dr. and Mrs. G. H. Ater, 2805 Twenty-second street, is to be the scene of a watermelon feast tonight for members of the Lubbock lodge, Knights of Pythias, their wives and invited guests.

An informal entertainment program, including outside games, has been planned. The party is to start at 8 o'clock.

Mexico People Visit Relatives Here

Dr. W. Chapman, his wife, and three daughters, Guillermina, Carmen, and Geneva, of Mochis, Sinaloa, Mexico, are guests at the homes of Doctor Chapman's sisters, Mrs. Vernon Brown of 2410 Fourteenth street and Mrs. Homer L. Pharr of 2608 Twenty-second street. A brother, John Chapman of Borger, and their mother, Mrs. J. E. Chapman of Sulphur Springs, Texas, also are visiting the Lubbock women.

Plan All-Day Church Session Here

First Cumberland Presbyterian church members are to be in an all-day meeting Sunday, according to an announcement from Rev. O. N. Baucom, pastor. Gam Sing Quah, superintendent of mission work for the church in Canton, China, is to be the principal speaker. Members from Cumberland churches over the district are invited to attend.

Reservations May Be Made For Party

Those desiring to make reservations for the benefit forty-two party which is to be sponsored by members of the U. D. C. Thursday evening are asked to telephone Miss Della Wilkinson. The party is to be on the lawn at Miss Wilkinson's home at 1201 17th street.

Derby Is In Fall Motif For Hats

Smartly dressed women in New York have found in their brothers' derbies the motif for a new fall mode. The chic effect is enhanced by a tilt, making the hat particularly smart for wear with tailored togs.

Talmadge Toler, 5, Is Party Honoree

Talmadge Toler was complimented on her fifth birthday Tuesday when her mother, Mrs. T. G. Toler, 1618 8th street, entertained. Following a series of games, the guests were served refreshments of ice cream and cake. Balloons were given as plate favors.

Those present were Corrinne Kennedy, Jane and Elbert O'Neal, J. R. and Pauline Norwood, Effie Murrell Van Zant, James Doyle Howard, Loretha and Doris Evans, Doris Cage, Patty Quinlan, Roy Beth and Marilyn McCravey, Elizabeth O'Neal, Udell, Billy Jean, Jack and Junior Norwood, Ruth Toler and the honoree, Talmadge Toler.

Houston Folk Return Home Today

Mr. and Mrs. H. H. Whipp and Mrs. G. C. Medley left this morning for their homes in Houston after visiting their mother, Mrs. C. M. Whipp, 1514 Avenue J.

On Sunday Mrs. Whipp and six of her children met in a family reunion in the home of a daughter, Mrs. A. T. Kirkpatrick in Carlsbad, New Mexico. Those present other than have been named were Mr. and Mrs. J. E. Whipp and Mr. and Mrs. C. C. Whipp. Mr. and Mrs. Harry Whipp went through the famous caverns during the week-end.

Look Who's Here

Baby little Eleanor Sage, daughter of Mrs. H. W. Sage, Jr., was caught in this surprised attitude at the fashionable society beach of Southampton, L. I., as she went after her lost shovel. It's rare that one can get such a sweet lil' mite as perfectly natural as she is in this picture.

Plans For State UDC Meet Discussed

Program of entertainment, appointment of various committees the assignment of duties and other details of the state convention of the United Daughters of the Confederacy were discussed Tuesday afternoon when a committee from the local chapter met with chamber of commerce officials.

Members of the committee attending the conference were: Miss Della Wilkinson, chairman; Mrs. W. H. Meador, vice-chairman, and Mrs. Lon Mullican.

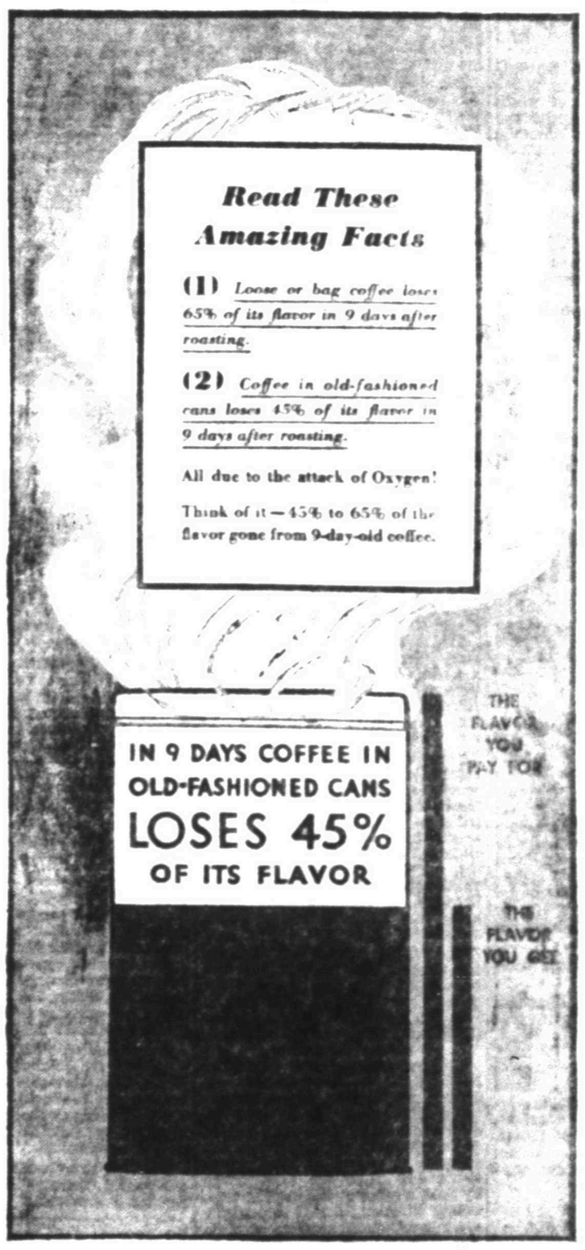

Yes!

You *can* have prettier Eyes. Just use *Murine*

Thousands and thousands of clever women have improved the appearance of their Eyes with *Murine*. This long-trusted lotion refreshes and invigorates dull, heavy Eyes—gives them new life and lustre. *Murine* contains no belladonna or other harmful ingredients.

MURINE FOR YOUR EYES

$3,000,000 for a cup of really *fresh* coffee

The Amazing New VITA-FRESH PROCESS

. . . most important advance in the history of coffee

. . . Maxwell House brings you the first completely roaster-fresh coffee—always full flavor, full value, no matter when or where you buy it

A TRULY fresh cup of coffee—how delightful—how thoroughly *satisfying*—but until now virtually unattainable.

Many people have gone through life without ever once tasting really fresh coffee. But all can enjoy it now—for Maxwell House has invested $3,000,000 in developing a new method of coffee protection. Here we tell how and why this brings you greater coffee enjoyment than you have ever had before.

Oxygen—a greedy racketeer

Coffee flavor is highly perishable. Air (Oxygen) robs coffee of its strength and flavor.

Just read these amazing facts established in the laboratories of a leading Eastern University:

(1) *Loose or bag coffee loses 65% of its flavor in 9 days after roasting.*

(2) *Coffee in old-fashioned cans loses 45% of its flavor in 9 days after roasting.*

All due to the attack of Oxygen!

Think of it! 45% to 65% of the flavor gone from 9-day-old coffee. Even vacuum packing, a definite improvement over old-fashioned methods, removes only part of the air from the can, leaving sealed in enough Oxygen to cause flavor loss and deterioration.

The new Vita-Fresh Process removes the air so *completely* that the most rigid chemical analysis reveals *no trace of Oxygen in the Vita-Fresh can after packing.*

Remember—Oxygen is the destroyer of coffee freshness and flavor. The Vita-Fresh Process *alone* gives full protection to coffee goodness. Maxwell House and Maxwell House *only* gives you this guarantee of full flavor, full value in every pound.

Your first sip will be a taste thrill

Ask your grocer this very day for a pound of Vita-Fresh Maxwell House Coffee and treat yourself and your family to the new delights of the finest coffee precisely as fresh as the moment it left the roasting ovens. Old friends, and new friends, of this famous Southern blend proclaim it a flavor revelation. You'll drink it with surprise and delight.

Try it at our risk

After trying Vita-Fresh Maxwell House Coffee, if you and your family do not agree that it is the finest coffee you have ever tasted—simply return the can with unused portion to the grocer from whom you bought it and he will gladly return the full purchase price.

MAXWELL HOUSE *Coffee*

A PRODUCT OF GENERAL FOODS CORPORATION

Good to the last drop

NOTE TO COFFEE PACKERS—*Coffee packers desiring to employ General Foods Corporation method of packing Maxwell House Coffee should communicate with the American Can Company, 230 Park Avenue, New York, N. Y., which is exclusively authorized to grant the right to use this method.*

WARNING!

If You're Told Some Other Preparation Is the Same as Genuine Bayer Aspirin

BEWARE

THIS warning is printed to put the public on guard against a deception which may be practised against those who seek genuine Bayer Aspirin for pain, headaches or colds.

We take this means of warning you, so you may be able to protect yourself and family against results of such deception.

BEWARE!

Other preparations, we are informed, have been offered at times to those who ask for Bayer Aspirin; and even represented in some cases as being "the same as Bayer Aspirin."

Watch Out! Remember that years ago doctors warned the public against "headache remedies," some of which are heart depressants and unsafe for many people to take.

Then remember how Genuine Bayer Aspirin came. And was acclaimed the world over by leading men of science as SAFE relief for pain, and was prescribed without hesitation by eminent physicians. *For genuine Bayer Aspirin does not harm the heart.*

What folly, then, in the light of these things, to dose yourself with drugs of which you know nothing. Don't gamble—KNOW.

The genuine Bayer Aspirin tablets are made by a special process, under careful supervision of scientists, in the Bayer Laboratories, with over 25 years of highly specialized experience.

So when you want SAFE relief for pain, cold or headache, ask for BAYER ASPIRIN. You have a perfect right to ask for what you want. And an equal right to get what you ask for.

Look for the name BAYER on the package. And the word Genuine in red. Insist on Genuine Bayer Aspirin and refuse to accept a substitute.

DOES NOT HARM THE HEART

TO REPORT ON ECONOMICS

RESULTS OF HOOVER'S POLICY WILL BE SHOWN SOON

WASHINGTON, Aug. 19 (AP)—President Hoover will have laid before him soon the results of the latest effort of federal departments to enforce rigid economy in government operation.

Cabinet members and agency chiefs have submitted to the bureau of the budget reports on the amount of money remaining from appropriations for preceding years and for the present fiscal year along with estimates of current needs.

Carry Out Request

In making these reports, government officials are carrying out Mr. Hoover's request to reduce expenditures where possible in view of the declining federal revenues and the large treasury district. After holding conferences with cabinet members in May and June on economy methods, the chief executive demanded in July that they postpone all activities such as may be so treated without serious detriment to the public welfare."

The reports are to be studied by Director Roop of the budget before being sent to Mr. Hoover. They are being compiled as rapidly as possible in an effort to determine how far expenditures are running ahead of treasury receipts.

President Hoover warned in his July letter that expenditures were greater during the first few days of the new fiscal year than those of last year, when a total of $4,219,950,000 was expended. He had expected that $150,000,000 would be saved as a result of his conferences with department heads but noted that as a result of increased appropriations heavy demands were being made on the treasury.

Situation Serious

Impressing the officials with the urgent need for economy, Mr. Hoover told them the government's financial situation was serious.

The government ended the fiscal year July 1 with a $903,000,000 treasury deficit. In the six weeks since then a new deficit of $340,391,150 has materialized. It represents an outlay of about $119,000,000 in excess of expenditures for the same period last year.

In the new year, the treasury has collected $161,936,341 and has expended $502,327,494. Income taxes, which fell off $550,000,000 last year, have continued their decline, with $69,613,399 being collected in the last six weeks compared with $78,087,185 in the same period last year.

NEW X-RAY CAMERA WHICH SHUTS OFF AUTOMATICALLY IS BEING DESCRIBED

BY HOWARD W. BLAKESLEE
Associated Press Science Editor

NEW YORK, Aug. 19 (AP)—A new X-ray camera which shuts off automatically when it has just the right exposure for a perfect picture was described today by a group of American radiologists returning from Europe.

They brought news of several X-ray developments. All returned as delegates from the third international congress of radiology. They were Edwin C. Ernst, M. D., of St. Louis, president of the Radiological Research institute, Bundy Allen M. D., of Tampa, Fla., president of the Radiological Society of North America, and B. H. Orndoff, M. D., of Chicago, executive secretary of the American College of Radiology.

Works Automatically

The camera has an X-ray backstop behind the picture. This backstop catches the rays after they have penetrated the film, and measures them by ionization in a partial vacuum. It is set so that when just enough rays have passed to make the film perfect, the backstop automatically switches off the electric current to the X-ray tube whereupon the exposure ceases.

The film can be set for any exposure desired. The radiologists said the device is highly valuable for treatment of diseases where success depends upon viewing internal organs with X-ray pictures. Often a slight darkening of otherwise normal shadows tells the story of the disease. There has been some difficulty in distinguishing diseases from mere uncertainties in exposure.

Another new device insulates a high-power X-ray tube of 200,000 volts or more so completely that it can be touched with bare hands without the slightest danger.

This tube, said the radiologists, makes examination of patients by X-ray easier and safer.

HOPES HUSBAND LOSES OUT AT ELECTION POLLS

SANTIAGO, Chile, Aug. 19 (AP)—Senora Graciela Fehrmann de Montero, mother of four children, hopes her husband will be defeated for the presidency at the polls.

Having had a brief taste of official position while Juan Esteban Montero was acting president, she opposed his acceptance of the nomination from the major parties and echoed his own desire to return to private life.

"We have no ambitions but to live in our secluded, happy home but that is in a state of revolution," she said. "The homelife we so liked is disrupted and will be exposed to the public gaze if he wins. Though I opposed his acceptance, the public demands it as a patriotic sacrifice and I told him if he felt he could not resist this request, then to accept but it would not make me unhappy if he were defeated."

Having resigned to wage his campaign as a private citizen, Esteban Montero today turns the reins of government over to Minister of Interior Manuel Trucco.

HUBBERS LOSE TO LEVELLAND; WILL MEET LITTLEFIELD NEXT

STEERS WIN TO HOLD SECOND PLACE

SPYING ON SPORTS

BY COLLIER PARRIS

Now if one were to take seriously the wordage of a certain Amarillo scribe one would think twice before picking the Amarillo Sandstorm to finish first in the District 1 Class A high school football race this season. The story itself is not cheerful news to Sandstorm supporters. A veteran line and a new backfield is advanced as the 1931 Sandie lineup.

• • •

Seven letter men from last season are returning for Sandstorm duty, we are informed. Six of these are linemen and one a quarter or a halfback. Captain Les Cazzell, who lettered at center last year, may be transferred to the backfield, the story alleges. John Estes and Selmer Kirby, 190-pound tackles, John Lee and David Floyd, 185 and 165-pound ends, and Ralston Talbot, 195-pound guard are back for line service at Amarillo this year. Woodrow Dunaway is a quarterback or maybe a halfback, as the occasion demands.

• • •

Amarillo has already beaten Lubbock in one department of football. The Sandies have succeeded in obtaining the services of a larger number of transfers and imports than Lubbock, furthermore, Amarillo has beaten Lubbock in getting two supposedly strong players from White Deer whereas the Westerners have only one.

• • •

The Amarillo story, which must be intended for an advance ballyhoo concerning football prospects for this season states that four transfers will probably line up at the back of Blair Cherry this fall. They are Oscar Seward, who played three years on Highland Park High school grid team at Dallas; Elmo Byrd, a 175-pound fullback from Ada, Oklahoma; Merrell Coffee and Justin Enochs of White Deer. Enochs is a 155-pound backfield man and Coffee tips the beam at 190 pounds and plays tackle. Seward, the Dallas boy, is a 165-pound guard.

• • •

The line to represent Amarillo this fall is practically the same into, over and around which the Lubbock Westerners were unable to go far last year. The Westerners were not the only club that didn't get places. That line stopped the greatest set of backs in the district and as good as any in the state. Pampa's Lard and Saulsbury were held; Lubbock's Moody Smith, Dub Lawson and Mina Watkins were held. Amarillo's line last year was one of the most important factors in the season that saw the Sandstorm advance to the state finals. It will be back this year and must work harder than ever before a slightly weaker backfield than backed it up last season.

• • •

We do not look for Lubbock to penetrate the Amarillo line this season. We do not look for any team in District 1 to beat Amarillo. Lubbock can do it, we feel, if anybody can, and Lubbock will disappoint if it does not beat Pampa. The Westerners should have downed Pampa last year. Caught off guard, not in the proper frame of mind and surprised by a really strong team, no stronger than themselves, however, the Westerners that day lost a ticket that we believe yet would have carried them to the state finals and through them. Lubbock plays in Pampa this year and Mitchell will have his boys steamed up to the best of the season.

• • •

Cliff Lindsey has been doing a good work in showing the Rockne football pictures over at his shop on the south side of Main street. It's worth anybody's ticket price just to drop in and see the old master of football sit in his armchair and point out the plays that are staged in slow motion on the gridiron. Mr. Lindsey is doing a real service in showing the Bobby Jones pictures, too.

• • •

A new name has been added to the Lubbock Hubber roster and a new players who promises to fill the second base position in a capable manner is now with the local diamondeers. He is Pat Patterson, pro at the Meadowbrook Golf club. We don't understand why Pat has been forgotten so long. We have needed a second sacker since Winfield Breedlove hauled out and Pat, though new here, is no stranger at the grand old pastime. He has played with some of the fastest semi-pro clubs in Texas and Oklahoma and besides being a first class second sacker, when in shape, he is a strong hitter. The last time he was in a ball game, until he joined the Hubbers yesterday, he approached the plate five times and slammed out five safe hits for the Texas Company team at Dallas.

• • •

Pat is doing quite well at his professional job here and has a neat class of duffers over at Slaton. He goes over each Thursday to teach the boys and girls of the Santa Fe town something new about the club game. One of his lady customers went out the other afternoon to the Meadowbrook to take what she thought was to be a lesson and what undoubtedly was supposed to be a lesson only to find that Pat was not at his desk, nor did he show up all afternoon. The patron left in a huff but in explaining it yesterday Pat said the date was for the next afternoon. If the lady is a reader of this tripe we hope she reconsiders and makes another appointment. Pat is adding to or taking from his good looks a strip of dark bristles over his upper lip nowadays.

• • •

And now they're calling Walker "Mickey Mouse"—probably because of his propensity for nibbling at cheese champions.

• • •

Wotaman Dizzy Dean emphasized his threats to go back to St. Louis and the big show when he twirled the Houston Buffs to a victory Sunday. Striking out thirteen men while winning his 23rd victory of the season for the Texas League leaders. Which reminds us to remind you that on Thursday morning there will begin a series of articles prepared by the Dizzy one for NEA service and the Morning Avalanche entitled "They Call Me Dizzy," or "I'm a Great Pitcher, and I'll Tell You Why." They're from his own soul and judging from the advance dope they'll be worth reading.

BEARKATS ARE WINNERS IN GAME HERE

TWO FORMER LUBBOCK PLAYERS ON CLUB OF VISITORS

Lubbock's Hubbers saw two of their mates turn against them last night and help the Levelland Bearkats, champions of the Wolfforth semi-pro tournament, to a 10 to 4 victory in a game that was threatened by rain and attended only by a small number of fans, most of them from Levelland.

Manager Waller will send his Hubber outfit against the Littlefield Cyclones here Friday night and after a two-day rest should be in winning form again. The Littlefield stand holds more than ordinary interest to players and fans due to the dividing of the last two games, one here and the other at Littlefield. The Muellermen won their last game here and on Sunday the Hubbers trounced the Lamb county outfit on their home court.

To Meet Vernon

On Saturday night the Hubbers entertain the Vernon Cardinals, first rate team of the lower Panhandle, in the first of a series of two contests. The second will be played Sunday afternoon.

Last night's game was a hit and run affair for Levelland, most of the hits coming off Hack Galey in the first four innings. Hack, usually a fair chunker, failed to get started and the first eight hits that resounded from his offerings brought in nine runs. A fluke home run in the third with one on started the heavy guns going and the visitors tallied three times in that inning and three in the fourth, twice in the fifth before Galey was sent to left field.

Due to the threatening weather, only a bare nine players came out to help the local cause last night. Ed Hambright took the mound after the first two batters in the fifth had tripled and held the Bearkats to five scattered hits and a single run during the rest of the game.

France With Visitors

Shorty France, outstanding infielder of the section at the present, allied himself with the home town last night and represented Levelland in a series of fine plays at short stop. Two patriotic triples and a pair of doubles, aside from a fine field day, went to his record. Pope, Hubber first sacker, was on the first corner for Levelland last night and Payne, reserve Hubber catcher, was catching for the visitors.

The locals tallied in the third when Hershel Galey opened with a sharp double, the first hit off Pitcher McWhorter, and Brother Hack followed with a single. They advanced on an out play at first and Manager Dirty singled to score Hershel.

A rally in the ninth with two out netted three runs for the local outfit. Hershel Galey singled but Hack hit into a double play to start the last go-round. Foxx drew his second walk and Dirty singled. Red Gaither doubled to center to send in Foxx and Waller and Hambright and Grisham singled to send Gaither in. Crites hit one that looked like an extra baser but it lined into the hands of Whitis in left to end the game.

American Legion To Hold Smoker Here

Allen Brothers post, No. 148, of the American Legion, will hold a smoker at the Legion home Thursday night.

Free cigars, matches and ash trays will be furnished by the entertainment committee. A special feature will be a "story telling hours." A $5 prize will be awarded to the teller of the biggest story. The prize money is to be put up by the lawyer members of the post, the announcement recited.

Further details of the trip of the Lubbock delegation to the state Legion convention at El Paso will be worked out at Thursday night's meeting, it was said.

Coal-mining concerns, operating along the Kiaochow-Tsinan Railway in China are fighting the recent 20 per cent freight rate advance.

M'LARNIN AND PETROLLE TO BOX AGAIN

FIGHTERS WHO FIGHT MEET THURSDAY FOR THE THIRD TIME

BY HERBERT W. BARKER
Associated Press Sports Writer

NEW YORK, Aug. 19 (AP)—Fighters who fight are rather scarce but boxing followers will have a chance to see two of that ilk in the same ring at the Yankee stadium tomorrow night when Jimmy McLarnin and Billy Petrolle square off for the third time in eight months.

McLarnin long has been one of the best drawing cards in the business while Petrolle's sensational comeback after a year's retirement has caught the public fancy.

Likes To Fight

Petrolle, worth something like $100,000, fights because he likes to and that characteristic is true of McLarnin.

McLarnin took the worst beating he ever suffered from "Fargo Billy" when they met for the first time last November.

A few months later they clashed again and McLarnin fought a carefully planned battle. Sticking to his left hand almost exclusively, Jimmy stopped Petrolle's mad rushes to close quarters and easily outpointed him.

Thursday's battle is slated for ten rounds but both have issued warlike statements that it will be remarkable if the duel goes half that distance.

PLAY IS UPSET BY SISTERS

PALFREY PLAYERS OF SHARON FIGURE IN TENNIS TOURNEY

FORREST HILL, N. Y., Aug. 19 (AP)—The monotonous regularity with which play has followed form so far in the women's national tennis championships has been rudely interrupted by the Palfrey sisters, Sarah and Mianne, of Sharon, Mass.

Sarah, the younger, sprang the one real upset of the tournament yesterday when she eliminated the sixth seeded player, Mrs. Marjorie Gladman Van Ryn, in the second round, 1-6, 8-6, 6-1. Mianne came within two points of accomplishing the elimination of the veteran British star, Mrs. Dorothy C. Shepherd-Barron. As it was the Sharon girl finally bowed to her older rival's superior steadiness, 1-6, 6-3, 7-5.

The other seeded star to suffer elimination was Marjorie Morrill of Dedham, Mass., who strained a muscle in her back and was forced to default after she had split two sets with Alice Francis of Orange, N. J.

All the other favorites advanced, including Mrs. Helen Wills Moody, Helen Jacobs, Betty Nuthall and Phyllis Mudford. Mrs. Moody encountered surprising opposition from Mary Greef, young Kansas City star, who went down, 6-2, 6-3. Miss Jacobs trounced Virginia Rice, 6-0, 6-2. Miss Nuthall eliminated Clara Greenspan, New York, 6-4, 6-0, and Miss Mudford put out Cecelia Riegel, Philadelphia, 6-1, 6-1.

The sixteen survivors included five Californians, four from the Atlantic seaboard and seven from Great Britain.

Using fishing-rods fitted with a lamp which lights when a fish is caught, and an automatic device which promptly reels in the line, a fisherman at Genoa, Italy, handles twenty fish lines at one time, and all he has to do is to unhook the fish and replace the bait.

SIDNEY WOOD TO MEET DOEG TODAY

NEWPORT, R. I., Aug. 19 (AP)—Johnny Doeg, national tennis champion, today faces the brilliant Sidney Wood, Wimbledon finalist and Davis cup player, in the semi-final round of the Newport casino tournament.

The top seeded titlist has been far below his usual form this season and his play against his preliminary opponents revealed nothing capable of stopping Wood's impressive advance.

Frederick J. Perry, British Davis cup star, was down for a bristling quarter-finals match with George Lott, who also saw Davis cup service this year.

In the lower half matches Elsworth Vines, sensational Pasadena youngster, was pitted against Francis X. Shields, the nation's second ranking player. Johnny Van Ryn found his passage into the second last round blocked by the unseeded Bryan Grant of Atlanta, Ga.

The doubles play started so late yesterday that several of the 32 teams were unable to play their opening matches. With only four singles on tap today, the way was open to reduce the doubles field to the quarter finals stage.

Sidney Spring Gay, an Englishman, has been presented with a medal by the Mayor of Boulogne, for having attempted to rescue a young woman who drowned at the French channel port and for trying to save the life of a man who drowned himself.

MINOGUE WINS SHUTOUT AT BEAUMONT

PAYNE WINS HIS 22ND VICTORY YESTERDAY FOR BUFFALOES

By WILLIAM A. (BILL) PARKER
Associated Press Sports Writer

Manager Happ Moore's Dallas Steers had to beat Beaumont yesterday or slip from second place and the Steers won 6 to 0 behind the four-hit pitching of Jimmy Hinogue plus some effective hitting by Al Todd, catcher. It was Minogue's twelfth victory.

A mound duel fit for two teams in dead heat for the pennant was staged at Galveston where the Buccaneers beat Wichita Falls 1 to 0. Both clubs are far out of the pennant race but Ash Hillin and Hank Thormahlen hooked up in a tight hurling duel. One allowing six hits and the other four.

Payne Wins Again

George Washington Payne will have to be ranked as the second "Dizzy" Dean of the league if he continues to win. Last night, Payne won his twenty-second game this season, beating Shreveport 5 to 0. That left Payne one game behind Dean in games won. It was Payne's forty-third game this season and his second triumph within four days.

San Antonio and Fort Worth concluded their series with the Alamo City tribe taking the final, 3 to 1. Chief Moore let the Cats down with three hits and no runs for six innings but had to retire in favor of Flinn and Estell after being hit by a pitched ball.

Grove May Equal Loop Hurling Mark

CHICAGO, Aug. 19 (AP)—Robert Moses Grove, the world champion Athletics great lefthander today was down to face the White Sox in an effort to equal the American league record of sixteen straight pitching victories.

Of Grove's twenty-four triumphs this season, the last fifteen have come in a row. Another today would tie the record set in 1912 by Joe Wood of Boston and equalled the same season by Walter Johnson of Washington.

The modern major league record is nineteen straight by Rube Marquard of the New York Giants another southpaw in 1912.

French Morocco's first dam for irrigation purposes only, just completed near Casablanca, will impound water sufficient to irrigate 1,225 acres.

HENRY LOUIS GEHRIG PLAYS THOUSAND CONSECUTIVE GAMES FOR N. Y. YANKEES AND GIVES NO SIGNS OF WEAKENING

BY HUGH S. FULLERTON, JR
Associated Press Sports Writer

Henry Louis Gehrig has played in 1,000 consecutive games for the Yanks and has not given a sign of weakening.

Only two players in the major leagues ever have beaten that mark. Everett Scott took part in 1,307 games for the Boston Red Sox and the Yankees from 1916 to 1925 and Joie Sewell, now a Yank, played 1,103 for Cleveland. About the time Scott's record was ending, Gehrig became New York's regular first baseman. He began in June 1925, won numerous honors as a star batter, as Babe Ruth's leading home run rival, and in 1927 as the most valuable player to his club.

Yankees Defeated

Gehrig took part in his 1,000th game yesterday, his 114th of the current season, without adding anything to his batting laurels. He failed to get a hit in five attempts against Earl Whitehill and Tom Bridges of Detroit and after eleven innings saw his team go down to a 5-4 defeat before the last place team of the American league. It was a nip-and-tuck contest in which a home run by Charley Ruffing, Yankee pitcher, put the New Yorkers ahead in the ninth only to have the Tigers tie the count and win but two innings later when Bridges singled and Charley Gehringer brought him in with a double of Ruffing's successor, Vernon Gomez.

Only one other American league was played yesterday and in it the St. Louis Browns turned on Washington's Senators after three straight defeats and pulled out a 4 to 2 triumph.

The Boston Braves likewise made a comeback to win one of the National league's two games. After dropping four straight to the Chicago Cubs, they staged a ninth inning rally behind the fine pitching of Fred Frankhouse and downed Chicago 3 to 2.

The Pittsburgh Pirates, although they lost their series to the Phillies, threatened Boston's hold on fifth place when they pounded out a 14 to 4 triumph in the final game. Chuck Klein hit his 28th and 29th home runs of the season for Philadelphia but his clouts had little effect against Pittsburgh's 18-hit attack.

The other teams in both major leagues had an open date.

HELD AS SMUGGLER

BEAUMONT, Aug. 19 (AP)—A. J. Goss of Port Arthur was allowed bond of $1500 by J. B. Morris, United States commissioner, on a charge of conspiracy to smuggle liquor along the gulf coast. He was arrested here. He is the sixth man charged in the conspiracy, the others being George Musey of Galveston, Joe Jamail of Houston, Frank and Anthony Jengo of Orange and O. E. Voight of Galveston.

Men's Dress Socks
. . . Are from "Cooper" and are made to stand hard wear. Of fine rayon fabric or if you prefer in all silk—each pair with heavy toe and heel. In all wanted colors and combinations. All sizes.
35c to $1

CARTER-HOUSTON

OMMITTEE TO FIGHT RATES

ECUTIVE GROUP IS NAMED AT C. OF C. MEETING HERE

n executive committee of seven mbers was named at a meeting 30 chamber of commerce officials m 11 South Plains towns here esday afternoon to outline mode attack in an attempt to remove reased carrier-rates on cotton m this section to the gulf of xico.

The new rates, increasing the rying charges on the fleecy staple m one and one-half cents to six d one-half cents per hundred unds, went into effect June 15.

Impose Penalties

The increase in rates will impose penalty of about $200,000 on the uth Plains cotton farmers this ar, Arthur P. Duggan of Littlefld told members of the group atnding the conference.

"This penalty in face of the exemely low price of the commodity ll mean financial disaster to the tton farmers this fall," Duggan ld.

Committee Named

Members of the committee med by Mr. Duggan, who ted as chairman of the conrence, are: W. W. Evans, Lamesa; M. Kendricks, Brownfield; M. A. cLaughlin, Ralls; Glenn A. Smith, lainview; H. B. Adams, Lockney, nd A. B. Davis, of Lubbock.

The committee delegated the job making a thorough study of the tuation to A. B. Davis of Lubbock nd Mr. Duggan. They are to reort to the committee the latter art of this week.

Will Seek Aid

Representatives of the chambers commerce voted to ask the West exas Chamber of Commerce to join the movement to obtain reduction of the increased rates. Maury lopkins, of Plainview, assistant anager of the regional organizaon, attended the meeting. He said he matter would be referred to the eadquarters office of the WTCC t Stamford without delay.

While the rate was materially increased from South Plains points, Dallas, Fort Worth, San Antonio nd other shipping points in South nd Central Texas were given substantial reductions, it was pointed ut by speakers at the conference.

Increases Vary

The new rate on cotton from ubbock to Gulf points was increased one and one-half cents per 100 ounds, while Plainview, Lockney nd Amarillo took an increase of ix and one-half cents, and Fergu-on, Crosbyton, Brownfield, Littlefield and Lamesa took a four and ne-half cents increase. Idalou, Abernathy, Hale Center, Ralls, Meadow, Anton, Floydada, Post and a number of other towns took the ame increase as did Lubbock.

C. E. Maedgen, president of the Lubbock Chamber of Commerce, pened the meeting which was held t the call of the Lubbock organiation. The meeting was then turned over to Arthur P. Duggan, president of the Littlefield Chamber of Commerce and former president of the West Texas Chamber of Commerce.

Talks were made by A. B. Davis, manager of the Lubbock Chamber of Commerce; Maury Hopkins, of the West Texas Chamber of Commerce; E. Kancher, division freight and passenger agent, Panhandle and Santa Fe Railway company; P. B. Ralls, Ralls; Senator George C. Purl of Dallas; William A. Wilson, Lamesa; W. W. Evans, Lamesa; E. S. Rowe, Littlefield; J. E. Shelton, Brownfield; A. S. Underwood, Athens, and C. E. Maedgen, Lubbock.

Besides the speakers others attending the conference included: H. B. Adams, Lockney; M. A. McLaughlin, Ralls; J. C. Wilson, Plainview; Taylor White, Tahoka; M. G. Hargrove, Ralls; A. V. Bullock, Ralls; R. M. Kendrick, Brownfield; Glenn A. Smith, Plainview; H. S. Hilburn, Plainview; H. S. Crews, Brownfield; J. D. Johnson, Plainview; J. P. Nystel, Abernathy; J. W. Hale, Littlefield; J. H. Harp, Lamesa; J. E. Barron, Lamesa; A. D. Repp, Littlefield; George H. Samson, Post, and J. H. Brock, Lubbock.

JAILED SECOND TIME, COUPLE LIKES LUBBOCK

"Oh well, we sorta like Lubbock anyway," one of two convicted vagrants loconically observed Tuesday on being locked in city jail to serve fines the second time in slightly more than 48 hours. The two, a man and his wife, had been assessed fines of $15 each.

After serving about a week in the city bastile on charges of vagrancy, they were released Sunday with instructions from the police department to "scram." Under the terms of the pact by which they gained their freedom the man and his wife were to shake the dust of Lubbock from their shoes before the passing of 24 hours. That was late Saturday.

Late Monday, they were picked up in a local rooming house for failure to fulfill their part of the contract. Both pleading guilty to charges of vagrancy. Police Judge J. T. Inmon fined them each $15.

COFFEE VARIES IN FLAVOR IF ROAST IS "HIGH" OR "LOW"

Hills Bros. Overcome This Variation by Their Patented Process—Controlled Roasting

There is no way to know when a big batch of coffee is perfectly roasted. One batch may be "high," another "low," with the result that there is variation of flavor.

Hills Bros. overcome this uncertainty, with their radically different and exclusive process — Controlled Roasting. As the accuracy of the hour-glass depends upon an even, continuous flow . . . a little at a time . . . so the uniform flavor of Hills Bros. Coffee is produced by this patented process that roasts evenly, continuously . . . *a little at a time*. Positive control of heat develops every berry to perfection — to the degree that insures a rich, full-bodied, unvarying flavor in every pound.

No other coffee tastes like Hills Bros. Coffee because no other coffee is roasted the same way. Controlled Roasting is Hills Bros.' own process.

Hills Bros. Coffee is packed in vacuum cans that keep it ever-fresh. Air, which destroys the flavor of coffee, is removed from cans and kept out. Coffee packed in ordinary cans, even if "air-tight," does not stay fresh. Ask for Hills Bros. Coffee by name, and look for the Arab trade-mark on the can.

Hills Bros. Coffee, Inc., Kansas City, Missouri. © 1931

RABBITS TO BE EXHIBITED

BEST RABBIT SHOW IN WEST TEXAS AIM OF FAIR OFFICIAL

The biggest rabbit show in West Texas.

A. S. Eads expects the exhibition of rabbits at the approaching Panhandle-South Plains fair here to earn that title. He is superintendent of the rabbit department.

Appropriate prizes are being offered in the department and a much greater interest has developed in the rabbit production industry in this section.

"The industry has long since passed the days of being a fad or a novelty and is now a commercial proposition in Lubbock and other South Plains towns," Mr. Eads declares, giving figures as to the every increasing demands for rabbits, both for the fur and for food.

Prizes and ribbons will be awarded on the following classifications: senior buck, senior doe, six to eight month buck and doe, junior buck, junior doe, doe and litter, best buck in show, best doe in show, best fur rabbit, and best doe and litter.

The show will be held under and governed by the latest revised official show rules of the American Rabbit and Cavy Breeders association. All awards will be made strictly in accordance with the American Standard of perfection.

PLAINS COW IS RECOGNIZED

GOLD MEDAL IS GIVEN TO MEADOW JERSEY FOR FIRST TIME

A 4-year-old cow owned by T. L. Causseaux of Meadow is the first gold medal Jersey on the South Plains. The cow so recognized is Masterman's Pearl S.

During a test recently completed over a period of twelve months, Pearl produced 13,000 pounds of milk and 675 pounds of butterfat. The test was supervised by A. L. Darnell of College Station, state superintendent of testing. The award is made by the American Jersey Cattle Association.

As a 3-year-old, Pearl won distinction as a silver medal cow after a year's test, producing 490 pounds of butterfat and something over 10,000 pounds of milk. During the recent test, a close check was kept on feed costs and showed that the cost per pound of butterfat was less than fifteen cents. The butterfat produced during the test, if sold at prevailing prices, would bring $169.

Pearl is a Plains bred cow, having been sold to Mr. Causseaux by T. L. Shepard, Jersey breeder of Lubbock. A senior yearling from Mr. Shepard's herd, sired by Lucky Nobleman, herd bull, recently won the state championship in her class, producing 640 pounds of butterfat and 13,784 pounds of milk during the year's test. This heifer was developed by her present owners, John Tarleton Agricultural College at Stephensville.

Lubbock Man Buys Hale County Agency

The Hale county agency for Oliver farm equipment has been acquired by E. K. Hufstedler, Lubbock dealer. The Hale county headquarters are at Plainview. E. K. Hufstedler, jr., has been placed in charge of the agency there.

Both dealerships will be handled under one management, the name of the firm having been changed to E. K. Hufstedler and sons. The territory now served by the organization includes Lubbock and Hale counties.

A new Oliver showroom and repair department is now being constructed by Mr. Hufstedler at 2202 Ave. H and will be occupied by the local organization about October 1.

Within a month 1,582 persons were transferred from depressed districts of England to other parts of the country after a course of training at the Ministry of Labor Center.

NOTICE! MOVED TO NEW LOCATION One Block South Courthouse 1301 Avenue H

Right after the war you got about TWO tire miles for one cent. Today you get nearer THIRTY

Why buy a Second-Choice Tire when First-Choice costs no more?

You expect bargains these days in everything you buy, but in almost no other article can you find such extraordinary value as in a Goodyear Tire.

Prices are the lowest in the history of the automobile — but, more than that, quality is the highest.

As an example, in 1918 the price of a 30 x 3½ cord (the commonest size) was $41.65. *Now*, a Goodyear balloon for the same make of car (size 28 x 4.75-19) sells for $8.55.

That's only about a fifth of the price; and it's putting it modestly to say that today's Goodyears will give three times the mileage.

HERE'S HOW TIRE VALUES HAVE SOARED IN RECENT YEARS

YEAR	29 x 4.40-21
1925	$19.90
1926	17.90
1927	12.10
1928	11.45
1929	8.25
1930	8.25
1931	7.05

Right after the war you got about two tire miles for a cent. Today you get nearer thirty for a cent from Goodyears.

And that's not saying a word about the incomparably greater comfort and style and safety of the new standard All-Weather Tread Tire as Goodyear builds it now!

Isn't it short-sighted to risk delays and danger on threadbare tires when the *first-choice* tire of the world can be bought at today's record-breaking low prices?

Of course it is! And when you buy new tires let your common sense answer the question, "Why buy a *second-choice* tire, when *first-choice* costs no more?"

NEW GOODYEAR ALL-WEATHER

The last whisper in style, mileage, value! And we put it on your car for only

$7.05

29 x 4.40-21 SIZE

UNION LABEL

Thought For Today

I have coveted no man's silver, or gold, or apparel.—Acts 20:33.

* * *

To the covetous man life is a nightmare—Henry Ward Beecher.

Still Acclaimed

The flight of the Lindberghs is far from being the most spectacular flight of the summer. The Atlantic has been spanned several times, a new round-the-world record has been set and the old nonstop mark has gone by the boards. Nevertheless, the Lindberghs are getting more headlines than all the other flyers put together.

Most of this, no doubt, is due to the magic of Lindbergh's name. The glamor of the young man's marvelous flight to Paris is still with him. It will stay with him, probably, until he dies.

But at least a part of it may be laid to the fact that the Lindberghs are doing what all the rest of us would like to do. They are making a vacation tour by air, taking their time, going where they like, and doing it all for fun. We like to think that that foreshadows what we ourselves will be able to do some day, when aviation is a little better developed—so we read every line we can get about their flight.

A Gentleman

The divorces of moving picture people are not, in most cases, subjects for editorial comment in the newspapers. A movie star hardly seems normal unless he or she has achieved at least one divorce, and the cases seem to have been, in most cases, cut out from the same pattern with monotonous uniformity.

But there is one point in connection with the John Gilbert-Ina Claire divorce that caught our eye. That was Gilbert's remark, after Miss Claire had won a decree:

"Whatever the reason and whatever the responsibility for the failure lies, one thing has been established, and that is the dignity of the lady who was Mrs. Gilbert. She has been more than fair in every way."

That remark was made by a gentleman. Would that some of our "upper class" litigants who feel the need of issuing statements after the divorce courts have done their work, could cultivate the same sense of the fitness of things.

Airmail

Among the interesting topics for speculation this summer is the question whether an America-to-Europe airmail line will be first established with airplanes or with dirigibles.

The pathfinding plane sent over the Greenland-Iceland route by the Transamerican Airlines Corporation shows that the airplane is just about ready to tackle the job. This northern route provides relatively short water hops and is said to be fairly free from fog and bad weather. Regular airmail service does not seem very far away.

On the other hand, the dirigibles have also demonstrated their capacity. The exploits of the Graf Zeppelin and the building of the Akron have drawn new attention to this type of flying machine. Negotiations for a trans-Atlantic dirigible service have gone forward.

Which kind of machine will be the first to put such a service on a regular schedule?

Dozing Aldermen

An example of the way freak legislation can be slipped through a careless city council was provided the other day by the Chicago Board of Aldermen.

The aldermen were pushing routine business through without paying much attention to it. Measures providing for tag days for a milk fund and for disabled war veterans were pushed through without comment. Then some practical jokers got busy.

Before the aldermen knew what was happening they had officially established tag days for ex-King Alfonso, the Chicago White Sox, the Board of Education, the Brewers, and Bartenders and Tom, Dick and Harry.

That Girl on Broadway says this might be a better world if there weren't so many saps in it, but it would be harder to make a living.

* * *

MR. R. F. HINCHEY, vice-president and general manager of the West Texas Gas company, has announced a winter months rate reduction which should give every user of natural gas a small saving over his winter fuel and cooking bill this year, providing he burns no more gas than he did last winter.

What is fully as important, if not more so, the schools of Lubbock and the Plains cities served by the company will reap a considerable saving by receiving service on the industrial rate schedule, rather than the commercial, as urged in this column last January. This change, of course, includes Texas Tech and the other colleges as well as the high schools and ward schools.

* * *

Frankly, the gas reduction was not as sweeping as The Plainsman expected, although he agrees with Mr. Hinckey in the latter's statement that "it is the most important reduction granted by the company since it began its operations between three and four years ago."

Still, "half a loaf is better than no bread" and the gas company must be given credit for cutting its rates without being forced to do so.

One must remember that there has been a lot of talk but no aggressive action for lower gas rates, either on the part of the City commission or the general public.

* * *

That Man on Avenue Q says couples playing the game of love should always play for keeps.

* * *

THE big trouble with this country today is that it's too much "depression conscious." Speaking by and large, the greater percentage of America's population is divided into two groups—one composed of the people who want to advertise hard times, the other composed of the optimistic boys and girls, who insist that the thing to do is to "laugh it off" with the aid of various and sundry lectures based on "Smile, Smile, Smile."

* * *

In between these two groups are the rest—the heroic few who know there is a depression, who will admit there is a depression, but who have looked carefully enough into the situation to realize that although it is with us on every hand it probably will never be as bad as it has been painted.

* * *

OF THE two large groups the most serious stumbling block in the face of recovery is the group preaching the worn out theory that "this depression is all psychological." To be sure, the pessimists are bad enough and they're not going to bring good times back by walking the streets and looking down in the mouth. But in The Plainsman's opinion they're not throwing as many monkey-wrenches into the machinery of normalcy as those who bend every effort to lull fellow humans into security by whistling in the graveyard.

* * *

Just the other day a representative group of Lubbock men held a meeting in Lubbock. One of the speakers, a man who traveled 700 miles to and from the gathering, orated for forty minutes on that ever-appearing subject, "Be Optimistic." This speaker, an engaging and intelligent fellow, made an honest effort to prove to these business people that the depression is a lot of hooey—and everyone within the sound of his voice knew that he knew the fallacy of his remarks.

They knew, as we all know, that business is not what it should be—that we're not yet out of the woods—and that happy days won't be here again until the world looks the problem in the eye (then bends every effort to solve it).

But they hope up well under the barrage of Pollyanna Phrases chiefly because they are used to the punishment.

* * *

PERHAPS it has come from long worship at the shrine of the newspaper creed, but The Plainsman has forever been of the opinion that the way to heal a sore is to get it to clean air and sunshine—not to hide it under a bushel of slush. This column believes that the best way to solve any problem is to go after it—not dodge it while trying to kid oneself into believing that no problem exists.

The same think holds good with the depression.

We can't kid ourselves—there's no use emulating the ostrich and poking our heads into the sand.

We're in an economic mess—we'd just as well start trying now to get out of it.

* * *

There is no doubt that some psychology enters into the picture. Possibly 10 to 15 percent of business downfall may be traced to the fellow who has money but who is scared to spend it.

But psychology can't be blamed for the major share. No one with judgment will argue that it can.

* * *

DON'T misunderstand. This outburst is not meant to persuade folks to wear black, cry like babies and solemnly aver that "the country has went to the bow-wows". Not at all.

It is possible for people to be serene and happy in facing a job of work and it isn't necessary to put out a lot of loose talk we don't mean to keep from being carried to the morgue.

* * *

Let's don't be silly.

Let's each accept the situation and begin doing our own little part to improve conditions. Let's say "All right. Times aren't as good as they might be but maybe we can make them better. Let's get busy!"

Whenever an appreciable percentage of the Pollyannas and a like number of Howling Henrys desert their present ranks and join the middle group things are going to start picking up. They can't help it.

Let's stop crying.

Let's stop giggling!

Let's accept conditions and go after them without so much conversation on both sides!

Let's Put Him In The Bag!

"Without-Or-With, Offense To Friends Or Foes, We Sketch Your World Exactly As It Goes"—Byron

Unemployment Insurance Being Fostered By Couzens And Others Has Excellent Chance Of Adoption By Congress

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON, Aug. 19—Senator James Couzens the multi-millionaire who use to be general manager of the Ford automobile company, is going to introduce legislation for unemployment insurance in the next Congress.

DUTCHER

Couzens is chairman of the Senate committee on interstate commerce. For years he has held that unemployment insurance systems were desirable.

But neither states nor employers have introduced unemployment insurance to any great extent and Couzens believes that it is now up to the federal government. He has been in correspondence with many experts and students who have applied themselves to the unemployment problem.

A while ago one Mr. Eugene W. Lewis, who, as president of the Morris Plan banks of Michigan had observed many persons in unfortunate straits come to the senator, Mr. Lewis, like the original Mr. Morris—whoever he may have been—had a plan. The Lewis plan was an unemployment insurance plan and it sounded at least good enough to Couzens to accept in principle as he called in other Michigan business men and queried them in an effort to arrive at some generally acceptable program.

* * *

Lewis began with the theory that this country's banking system was largely built for industry and that it was possible to build a publicly owned system designed to stabilize consumption.

The Lewis plan would be voluntary but attractive. It promises to raise a fund in each state which would equal 1.75 per cent of the state's total industrial payroll. Thirty per cent of this fund would come from the state's general taxes. Thirty per cent would be tossed in by the federal government, after being picked up from income taxes in the higher brackets. Twenty-five per cent would be contributed by the employers and 15 per cent by the employes.

The employers would be kicking in with an amount equal to two-fifths of one per cent of their payrolls and the employes one-fourth of one per cent. Lewis estimated that in 10 years the fund would amount to 70 per cent of the difference between the total of 1929 and 1930 payrolls. He suggested a sliding scale of collections and contributions for the fund which would pick up most of the money during peak years of employment.

* * *

The plan involves a presidentially appointed commission which would operate a central or general "stabilizing bank" in Washington. Each state would also have such a commission with its own state bank. The funds would go into the banks as collected and there would be no disbursements until emergencies were declared. Emergencies would be declared when employment sank below 85 per cent of the previous three-year average and would be discontinued when employment went back above 90 per cent.

Lewis suggested that 70 per cent of their monthly wage be distributed to the unemployed in such a period. If the plan is made voluntary, he believes, it will be attractive both to employers and employes because of the size of the federal and state contributions.

The Couzens proposal next December may be a modified Lewis plan or something entirely different.

Incidentally, it is believed that although under ordinary conditions unemployment insurance would stand no great chance in Congress, conditions as they are likely to be next winter offer a possibility of passage for some such plan.

A few years ago the Senate committee on education and labor, with Couzens as chairman, reported favorably for unemployment insurance, asserting that the system should be instituted by employers rather than by state or federal governments. Several large employers who had established employment stabilization systems appeared before the committee and Couzens was impressed by their unanimous testimony that the experience had been profitable because of increased employe efficiency and morale.

Diet and Health

By LOGAN CLENDENING, M.D., Author of "THE HUMAN BODY"

EDITOR'S NOTE: Six pamphlets and six articles by Dr. Clendening can now be obtained by sending 10 cents in coin for each pamphlet and 2 cents in coin for each article, with a self-addressed, stamped envelope, to Dr. Logan Clendening, in care of this paper, or Central Press Association, 1443 East Twelfth street, Cleveland, O. The pamphlets are: "Reducing and Gaining," "Feminine Hygiene," "Indigestion and Constipation," "The Care of the Hair and Skin," "Infant Feeding," and "Instructions for the Treatment of Diabetes." The articles are: "Normal Diet," "List of Books for Mothers," "Bed Wetting," "Diet of the Expectant Mother," "Ear Troubles" and "Tuberculosis."

VEGETABLES IN DIET

To repeat, the four fundamentals of a healthful diet are: First sufficiency, second cleanliness, third balance and fourth, bulk.

Milk and eggs we said starred on balance, and were deficient in bulk.

Dr. Clendening

Vegetables star in bulk. They leave a great deal of undigested residue—roughage—which stimulates the intestines and tends to overcome constipation. Of only a few vegetables is this untrue.

The infant's digestive tract is limited and entirely unsuited to bulky foods such as vegetables. Children and young adults need concentrated foods for their active vitality and must supplement their vegetables with milk, eggs, bread, meat and sweets. Children instinctively like candy; it is high-powered gasoline for them, concentrated energy. You do not have to keep the box of candy out of reach of the fifty-year-old.

So vegetables become more and more as life advances, the diet of the middle-ages. This, too, perhaps, is instinctive because many physicians believe they tend to prevent the degenerative diseases of that period of life, high blood pressure, kidney disease, heart degeneration, etc.

Dietitians stress vegetables for bulk, carbohydrates and vitamins. The carbohydrates are the fuel of the body. Not the only fuel, but the easily utilized fuel—the high-test gasoline. The carbohydrates of vegetables are in the form of starches and not so simple chemically as the carbohydrates of fruits, which are in the form of sugars. Hence they have to go through a process of simplification by digestion to make them utilizable. So their energy values is delivered to the body slowly and gradually after ingestion. For this reason they are the ideal foods for people with diabetes and for those who wish to reduce.

Few vegetables contain much protein which is an absolute essential for any diet. Beans, peas, corn, mushrooms and artichokes have the highest protein content, and must be a regular part of a strictly vegetarian diet. The vegetable diet for this reason is a good one for those patients whose kidney function is low and who cannot eliminate protein easily.

Vegetables are considered "natural" foods and so they are in the sense that Mother Earth brings them forth instinctively for our benefit. They have, however, some disadvantages. They are not economical to digest, the sense of the amount of nutriment per pound of weight. Vegetable-eating animals, the herbivores, have to spend most of their time eating. Man's digestive tract is short compared to herbivores and his teeth arrangement and single stomach indicate that he was not made for an exclusively vegetable diet. For this reason we say that an exclusively vegetable diet for man is lacking in sufficiency from the standpoint of concentration and in balance.

Al Smith is also being mentioned for the highest office in the country. He'll be a lot more comfortable in that highest building these days.

This tell us grasshoppers' mouths are under their chins. Not that it made any difference out in Nebraska and the Dakotas.

There's at least one advantage in that new Arctic air route to Europe. Bibulous travelers need not worry about cracked ice.

At that, Europeans might not be far wrong if they assume that pipe of Dawes' is symbolic of conditions here.

DAILY ALMANAC

Cloudy

WEST TEXAS: Partly cloudy tonight and Thursday.

EAST TEXAS: Partly cloudy, scattered showers in east portion tonight and Thursday. Light to moderate southeast south winds on the coast.

OKLAHOMA: Partly cloudy tonight and Thursday; warmer in west portion Thursday.

Phone 75

IN NEW YORK with Gilbert Swan

NEW YORK, Aug. 19—Life is like that! But it's also like this: For hours he had been plodding under a searing sun. Mid-Broadway had become one vast Turkish bath, steaming and stewing in its own humidity. He was a sandwich man. He needed the job—any job!

Near the corner of 45th street he limply went into a semi-collapse against a building. The two long boards he carried about his neck rested against the sidewalk, becoming odd-looking barricades which hid his body. Only his worn-looking head was visible over the top. The rest of him had disappeared as completely as a magician's assistant during a trunk-trick.

Obviously the heat "had" him.

As he lagged against the tilted rear board, the passing crowds read the ironic sign. It said:

"Keep cool! Try an ice-massage at the X— Barber Shop!"

Two blocks up street another sandwich man shuffled along on his rounds.

His appearance was almost bizarre! For he wore an old-fashioned stage wig. It was a mouse-gray and the hair touched his shoulders. He wore a sloppy hat, such as was once identified with ham actors.

Th sign he carried pleaded in part:

"Help this man make a living! Buy a wig at X's."

A bald-headed gent, standing on the corner, hurriedly mopped his damp and barren pate, and moved guiltily along.

Just who, by the way, would buy a wig these days, I wondered!

At Sixth Avenue, in one of the older, brown-fronted buildings, a window was piled high with masks.

There were monkey heads and darky faces; the huge heads worn at Madri Gras and masquerades, and the huge false-hands worn by clowns; hands that wore grotesque gloves. A strange jumble of fantastic disguise! All lumped at $1.50 each. Take your choice!

For $1.50 one could become a clown—or a monkey!

* * *

Across the street, in a cellar beer resort, an unshaved and dissolute looking little man was addressing the patrons who crowded about the bar.

"You didn't know Blinkus in Chigaco, did ya? Yes, sir, he had that dog act . . . and he was a bum! I taught his dogs all they knew! Nothing like the old circus men. Ya couldn't give a dog act away today, gentlemen . . . couldn't give it away! I oughta know. Got so tight last night that my own dog didn't know me—and we worked together these five years!"

When the harangue had ended he went to the free-lunch counter and whispered something in the ear of the attendant. A few moments later a small parcel was handed him.

What was that you gave him?" I inquired.

"Oh, just a couple of bones for his dog. I save 'em for him from the free-lunch roasts. He comes in every couple of days. Hasn't had work for months and has been drinking pretty heavy. But he always takes bones home to the dog—even when he doesn't eat himself. Funny cuss—they say he used to be out with a one-ring dog and pony show and got into cheap vaudeville. Quit the circus and began to hang around Broadway looking for bookings. Well, you can see for yourself what it's got him."

"There's lots of guys like that come panhandling in here. One old ahow-man tells another—the town's full of 'em."

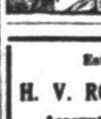

Ex-Beer Baron August A. Busch quotes Hoover as saying in 1928 that there were jobs in beer. Looks like prohibition never got the idea of beer out of the Busches.

If even your best friend won't tell you, you might as well eat those onions and have the game as well as the name.

THE PLAINSMAN GETS SOME MAIL

SUGGESTION IS MADE FOR CARING FOR POOR DURING COMING WINTER MONTHS

Dear Plainsman: The writer is an optimist of the most violent type and he has hoped all summer that labor conditions would improve, that with a good crop, with road work, federal and county building, practically everyone in this section would have a living assured this coming winter and that financial and industrial conditions would be well on the road to normalcy.

But it seems now that not only our community but the country in general, if not the entire world, is about to confront a real crisis that will "try men's souls." There are many men in this county who cannot get employment. Later, with harvest over and farming operations reduced to a minimum, unemployment will be still greater. Of course, something will have to be done. Instead of the usual charitable remedies, why not do something practical now?

There is enough green corn, peas, beans, tomatoes, okra and other produce standing in the fields of Lubbock county to take care of everyone living here who will need help this winter. Much of this produce is being canned (possibly more than ever before) but much of it, such as corn, black-eyed peas and canning tomatoes, will ruin or be dumped on the market at a price that will not pay for production plus harvesting. Then wheat, I understand, can be bought, fifty miles north of here, for about twenty-five cents per bushel. At this price, ten dollars worth will supply bread and a good breakfast food for a family for one year.

Now to get to the point — it seems to me something like this can be done. With your publication donating the publicity, with the county home demonsrration agent, county agent or some other person at the head, working with a committee of capable men and women, who are willing to give their time, with demonstration clubs, hardware stores and others furnishing canning equipment, stoves, etc., and with some one donating the use of empty buildings a little canning factory can be operated.

Next an exchange can be set up where sugar, jars, cans, rubbers, lids, produce and last but most important, labor will be received in exchange for canned products.

There are some families (I mean many) living in camps and houses and unable to pay rent a who couldn't even buy the produ to can or the cans, sugar, etc., ne cessary for saving the food. The are many people who have mon and would be glad to furnish fu sugar, lids, cans, etc., in exchan for canned goods. Then there a many farmers who have corn a other produce who would be gl to have it canned or dried but not have time or money necessa and who will dump it on the ma ket at one-tenth of what it mig be worth if saved for human foo

Wheat can be received by t exchange and given out in t same way, for work and suppli or for sale at exact cost to citize for food only.

Now another thing that m sound crazy (but it is not near so crazy or tragic as allowing w men and children to go hung and cold or as impractical as t bread line). Why can't the spindl and looms at Texas Tech be ke running full time and let the du and other finished materials furnished farmers and others on toll basis, receiving their cott which they can't sell?

One more suggestion (which wi of course, not be considered). The is no law against women and gir knitting plenty of socks and stock ings for the family for a yea This may also sound crazy but is a lot more comfortable tha doing without in winter and whole lot more honorable than bu ing silk stockings when the fami can't pay for plenty of nourishi food.

I have given this subject som seriously thought during the la few days and nights. Many detai will have to be worked out. Mo folks will say my idea is not work able but I feel sure that if you column will champion the propos tion that enough volunteers can b found to at least do lots of good.

LaVerne Kershner (The Poore Man in the County).

(EDITOR'S NOTE — **The Plainsman does not have sufficient spare time to work up this proposal or to go into a study of it. But this publication will gladly furnish needed publicity if a group of citizens care to investigate and later direct the organization. The Plainsman.**)

Druggists Find New Way To Stop Headaches

Realizing that no one drug can conquer all headaches, as they come from so many causes, two North Carolina druggists developed a combination of several ingredients which function together, giving three-minute, safe relief for any kind of headache, neuralgic, sciatic or rheumatic pain, quiets the nerves and leaves you normally buoyant, without depression or bad after effects.

This combination of pain relieving ingredients, so efficient for women also at special times, may be found at any drug store or soda fount under the name "B-C" (10c and 25c) ready for use in easing pains and quieting nerves in three minutes. "B-C" is the most amazing preparation of its kind ever discovered and is guaranteed harmless. (Adv.)

RICHER BLOOD

Greater Vitality

Elderly people especially respond to the blood-purifying and blood-building action of Grove's Tasteless Chill Tonic.

Appetite returns quickly—you feel the invigorating effects of this combination of Quinine and Iron more and more each day.

Fifty years and countless thousands testify to splendid results. Pleasant to take . . for children as well. Get a bottle today.

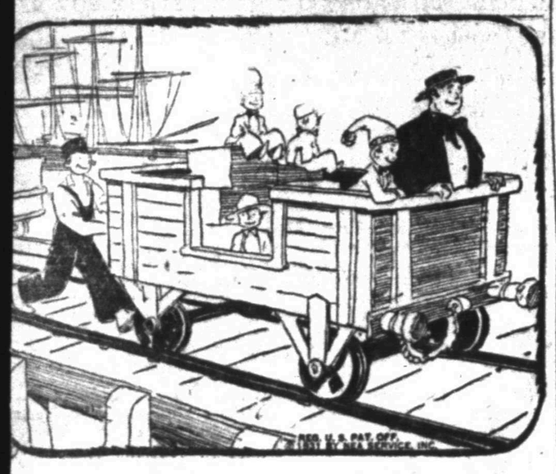

GROVE'S TASTELESS CHILL TONIC

think," said Scouty, "it would be very wisest thing if we would the lizards play alone. I do not their looks. Some sharp teeth right into sight and I don't to get a bite. I know that they dangerous. I've read of them books."

Perhaps that thought is right these but there are others, if please," replied the friendly vel Man. "Not all of them bad. Some lizards are so lazy don't even have the pep to Some day I'll show you pho- aphs of several I have had. Now, if you're tired of staying , I think I'll bring a thought cheer. I know you all are very d of riding on a ship. So, now tell you what let's do. Let's o Lima, in Peru. It's far enough y to make a very pleasant trip." Hurray! Hurray!" the Tinies d. "We're ready for just h a ride. Please lead us all to where the ship is resting at the dock. Pick out a big one. 'Twill suit me 'cause I'm as nervous as can be whene'er the sea is very rough. I like ships that don't rock."

The whole bunch shortly were aboard and, as a monstrous whistle roared, they set sail for old Lima, which was shortly to be found. The trip was very fine and they spent many hours at boisterous play, but everyone was thankful when the landed, safe and sound.

"This isn't Lima, boys. Not yet, but to that town we'll shortly get. This is the port of Callao," the Travel Man explained. "Look at those queer cars." Clowny cried. "It's my suggestion that we ride right up to Lima in them." So the whole bunch soon entrained

(The Tinymites reach Lima in the next story.)

TULIPS WITH A PEDIGREE

In many parts of England are the ins of Roman camps, built by diers of nearly 2000 years ago. All ve fallen to ruins and most are w buried under several feet of . But it is possible that flowers ch the Roman soldiers planted e and bloom year after year. ar the sites of many of the mps in the South of England tiny d tulips make their appearance ch spring. They are quite differ- t from any other tulips seen in country, and are found nowhere but in the neighborhood of oman camps. Still more curious, e bulbs from which the flowers ring are found at depths of five et and more under ground. How o they come to be so far below the surface? Such a depth is unusual even for wild flowers.

The most simple explanation is that they were planted near the surface in the ordinary way by the Romans, and with the passage of years they have become more and more deeply buried, like the ruins of the camps themselves.

British builders have delivered to the Japanese navy a flying boat designed to carry 200 persons. It is supposed to be the largest boat in the world.

Rates, Rules and Requirements of Classified Advertising Of The

Lubbock Daily Journal (Afternoon)

Lubbock Morning Avalanche (Morning)

Sunday Avalanche-Journal (Sunday Morning)

All classified advertising will appear in both the Morning and Afternoon papers—both papers counting one insertion. All classified advertising is printed in the Lubbock Morning Avalanche first and the Daily Journal of the same date, to classified originating the afternoon paper.

Classified for Sunday's issue will appear in the Avalanche-Journal counting one insertion, as this paper is sent to all subscribers of both the afternoon and morning papers.

AVALANCHE-JOURNAL

Combined Rates:

Minimum words, per insertion, 15.

One insertion, per word 4c
Two insertions, per word 7c
Three insertions, per word 9c
Seven insertions, per word 18c
Thirty insertions, per word 45c

These rates are for consecutive insertions only. Additional consecutive insertions over 30 times, of 1½c per word each.

All out of town ads, received by mail must be Cash with order. No exceptions.

PHONE 13 or 14

Our experienced ad taker will receive your ad and help you to word it, then our collector will call the following day. These accounts are "accommodation accounts" for our patrons and for one day only. No advertisements accepted on an "until forbid" order, a specified number of insertions must be given.

We reserve the right to place all advertisements under the proper classification and reject unclean or objectionable copy.

Obituaries and cards of thanks at regular classified advertising rate.

The publishers are not responsible for copy omissions, typographical errors, or any unintentional error that may occur further than to correct it next issue after it is brought to their attention. All advertising orders are accepted on this basis only.

Classified Advertising accepted until 5:30 P. M. on week days, and 5:30 P. M. on Saturdays, and all advertising received after 5:30 P. M. will be placed under "Too Late To Classify."

For classified display advertising information,

PHONE 13 or 14

TO DISCONTINUE AN AD

Notice to Discontinue An Ad must be given after 8 A. M. and before 5 P. M. to some member of the Classified Advertising Department. We cannot be responsible for notices given before or after these Hours, and to a member of some other Department.

"All the King's horses
And all the King's men"
Could not bring back
The jinrickisha again—

The monarchs of the Orient knew the greatest luxuries in their time. Their "rickshaws"—richly cushioned, upholstered in finest silk, and manned by sturdy slaves — were fashioned for restful travel. In them the Oriental prince traveled comfortably, safely and leisurely.

Today, EVERY man is a prince. In a modern, up-to-date automobile he too travels in comfort, safety, and leisure, yet propelled by a wealth of power and at a speed never dreamed of by ancient Kings.

There is a used car in today's classified ads—smart, smooth running, up-to-date—that will bring you dependable performance, at a price you can afford.

Cotton Market

NEW YORK REPORT

NEW YORK, Aug. 19 (AP)—Cotton opened barely steady today, 9 to 11 points lower, with the active months showing net losses of 10 to 13 points during the first few minutes under a renewal of liquidation and selling inspired by weakness in Liverpool.

All months made new low ground for the movement, with October contracts selling off to 6.69 and March to 7.21 under the initial pressure. The decline brought in considerable trade buying, however, and after the first flurry of selling subsided, the market became quieter. It showed very little rallying power, however, and prices were holding within 2 or 3 points of the lowest at the end of the first half hour.

Liverpool cables reported hedging and general liquidation absorbed by covering at the decline in that market and said business in cotton cloths was quieter with the decline checking demand. The Indian spot quotation in Liverpool was 10 points lower and Egyptian futures in Alexandria 15 to 32 points lower.

There were rallies of 4 or 5 points during the middle of the morning on covering and trade buying, but the demand was quite readily supplied on the bulge, and the market eased again later in the morning under another spurt of liquidation or selling. Prices at midday held around 6.70 for cotton and 7.21 for March, or about 9 to 12 points net lower.

NEW ORLEANS REPORT

NEW ORLEANS, Aug. 19 — (AP)— The cotton market had an easier opening. Liverpool cables came in considerably lower than due and first trades here showed losses of 6 to 8 points. The market continued to ease off after the start owing to lack of sustaining support, October trading down to 6.70 and December to 6.90, or 10 to 12 points below yesterday's close. At the end of the first hour the market was quiet and steady at the lows.

The market ruled easy all morning owing to considerable selling pressure partly due to hedge selling October traded down to 6.66 and December to 6.87, or 14 or 15 points below yesterday's close. At midsession the market was quiet and steady and near the lows.

NEW ORLEANS OPEN

NEW ORLEANS, Aug 19 (AP) — Cotton futures opened steady. Oct 6.72; Dec 6.96; Jan. 7.06-B; March 7.25-B; May 7.42-B; July 7.59-B.

NEW YORK OPEN

NEW YORK, Aug. 19 (AP)—Cotton futures opened barely steady. Oct 6.70; Dec. 6.92; Jan. 7.01; March 7.22; May 7.38; July 7.53.

Livestock Market

KANSAS CITY REPORT

KANSAS CITY, Aug. 19 (AP)—(U. S. D. A.)—Hogs 3,500; 280 direct; slow, steady to 10 lower; 250 lbs up off most; top 6.80 on around 200 lbs. Good and choice 140-250 lbs 6.10-6.80; 290-350 lbs 5.15-5.80; packing sows, 275-500 lbs 3.50-4.75; stock pigs good and choice 70-130 lbs 6.50-7.25.

Cattle 7,000; calves 1,700; fed steers and yearlings steady to strong, spots higher on yearlings; straight grass steers tending lower, other classes little changed. Top yearling steers 10.35. Steers, good and choice 600-1500 lbs 7.15-10.35; heifers good and choice 550-850 lbs. 7.25-9.75; cows, good and choice 3.75-5.75; vealers (milk fed), medium to choice 4.50-8.00; stocker and feeder steers, good and choice, 5.50-7.50.

Sheep 3,000; lambs steady to 15 higher; sheep steady; top Colorado lambs 7.50; lambs, good and choice 90 lbs down 6.50-7.50; ewes medium to choice 150 lbs down 1.50-2.50.

Arguments Finished In Trial Of Negro

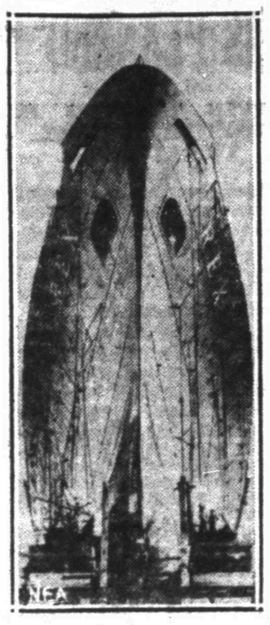

Arguments in the trial of Sullivan Carroll, Lubbock negro, for theft of a dress from his former wife, were completed shortly before noon in county court and Judge E. L. Pitts charged the jury.

Carroll also faces peace bond proceedings and a charge of disturbing the peace as a result of complaints by the woman from whom he is divorced in Justice of the Peace H. K. Porter's court.

A complaint for peace bond proceedings was filed against another man in Peace Justice Porter's court this morning.

In celebration of France's colonial glory, soldiers from Algeria, Morocco, Senegal and Indo-China were reviewed in Paris by the President of the Republic.

Eyes Front!

Looks like the head of a giant fish, doesn't it? It's the blade-like prow of the huge new Italian liner, Rex, as it appears in dry dock at Genoa. The holes through which the anchor chains are dropped give the illusion of eyes in this picture. The King and Queen of Italy will watch the launching of the great ship.

GAS RATE CUT

(Continued from Page One)

ings of October, 1931, and will continue in effect until and including the readings for March, 1932, Mr. Hinchey said.

In announcing the new commercial and domestic rate schedules, Mr. Hinchey also said that public schools and colleges would be served under the industrial rate schedule, lowest in the company's rate brackets, and under single meter computation. Here-to-fore schools and colleges have been paying on the single meter commercial schedule although efforts were made last January to secure the industrial rates for the educational institutions.

Hinchey Makes Statement

Declaring that "this is the most substantial rate reduction the West Texas Gas company has been able to offer its customers in Lubbock and surrounding towns," Mr. Hinchey pointed out that gas has not been served here for quite four years and that the company's volume is still far from the peak load. "The reduction," he said, "will effect savings to every customer using gas for cooking and heating during the part of the year when they use the most gas.

"During the months of November, December, January, February and March, which are covered in the winter heating schedule reductions, our domestic and commercial customers burn approximately 70 per cent of the entire year's consumption of natural gas," he concluded.

Minimum Bill Stands

The minimum bill for either domestic or commercial users has been $1.50 per month and is not altered by the winter reduction schedule.

Citing local figures as an example of savings passed to customers by the reduction, Mr. Hinchey estimated that Lubbock will spend approximately $20,000 less this year for the same amount of gas than it spent last year. He said that he hoped the reduction in rates would result in more persons using gas, thus increasing the company's volume.

School Saving Broad

Schools of Lubbock, including the city system and Texas Technological college, will effect a broad saving in dropping from the commercial schedule to the industrial. No figures are available for comparison, since service to schools was only made over a part of the 1930-31 school term. It is estimated, however, that the saving to the city schools and the college will run over $2,000 as based upon coal heating of previous seasons.

West Texas cities and towns affected by the rate reduction include Lubbock, Hereford, Littlefield, Lamesa, Midland, Odessa, O'Donnell, Post, Plainview, Quitaque, Ralls, Silverton, Stanton, Sudan, Southland, Slaton, Turkey, Tulia, Tahoka, Wilson, Amherst, Anton, Abernathy, Brownfield, Canyon, Crosbyton, Friona, Floydada, Happy, Hale Center, Idalou, Kress, Lockney, Lorenzo, Levelland, Seminole, Seagraves, Muleshoe, Petersburg, Shallowater, Dimmitt and Bovina.

STERLING

(Continued from Page One)

quelling a riot.

"There is no authority under the present laws to shut in wells. I cannot understand what law he is talking about when he says he called the troops out to enforce the law."

Hardy said he was aided in drafting the resolution by two East Texas members.

The resolution, Hardy said, makes no mention of impeachment.

Several members of the house said they had been invited to sign the resolution but had refused to do so.

To Obtain Signatures

Numerous signatures will be on the resolution when it is offered in the house, Hardy said.

Secretaries of Governor Sterling said he had been informed several days ago the resolution was being drafted. The governor has given no indication whether he would accede to the request, they said.

Several members of the house Monday criticized the action of Governor Sterling in calling out the troops, some of his most ardent supporters saying they believed it was an unwise move.

Opinion in the house on the advisability of the use of the troops, however, was divided, many members hailing it as a wise and practical action.

SHUTDOWN

(Continued from Page One)

were being issued steadily. Operators looked for an early increase in crude oil prices as a result of the shutdown. They expressed hope that martial law, invoked to halt waste would be remembered after the new state conservation act becomes effective late this months and serve to prevent a recurrence of the tremendous ovr-production which plunged the national oil market into almost unprecedented depths.

The planes at Tyler were part of the 111th observation squadron, Texas national guard.

Headquarters here reported that precautions to prevent sickness among the guardsmen thus far had been successful, as not one of the more than 1,200 soldiers in the entire military area has been reported ill.

The act of speaking calls into action 44 different muscles.

Love Sure Is Grand!

June Collyer and Stuart Erwin, motion picture luminaries, who were married recently at Yuma, Ariz., have returned home to Hollywood. They have gone to Erwin's home to live, but after a few months will begin house-hunting. The happy pair, with Stuart looking a bit dubious, spent their honeymoon at Del Mar, near San Diego, Calif.

CUBA REVOLT

(Continued from Page One)

ernment count showed 67 rebels dead.

William Fischer, former American and naturalized citizen of Cuba, was said by the palace to have surrendered in Santa Clara after leading insurgent forces that destroyed $15,000 worth of property belonging to Senator Carlos Machado, brother of the president. He will join the political prisoners in Cabana fortress.

At Tampa, Fla., Lieut. Rafael Reyna, exiled officer of the Cuban navy, said he had learned that President Machado and his troops had been cut off from Havana by the rebels and were in imminent danger of capture. Machado would be taken within 48 hours unless he should return by airplane, Reyna said.

Federal soldiers were joining the rebellion, he said, and rebels have captured several cities within the last three days and are within an hour of Havana.

A rebel junta of 150 men was formed to cooperate with that in New York in aiding the revolution. Eusebio Fria, veteran of the war of independence, was named president.

ROTARIANS HEAR GREER

A classification talk by E. O. Greer on office supplies and a report of the district assembly by President N. L. Peters featured the program of the Lubbock Rotary club in Hotel Lubbock today. A. F. Holt was in charge of the program.

H. W. Moore and Mrs. Violet McKnight accompanied by W. W. Rix gave two vocal selections.

President Peters announced that District Governor Tom Brooks of Waco would be here next week and appear in the regular club program.

BAUST TO RETIRE

WASHINGTON, Aug. 19 (AP) — Sergeant Major Walter E. Baust, after thirty adventurous years in the marine corps, is preparing to retire September 1 to resume the study of law at Houston, Texas.

In Cuba denims made in the United States have practically supplanted the blue hollands formerly imported from Great Britain.

LIGHTNING ACCOMPANIES RAIN STORM HERE TUESDAY NIGHT

LINDBERGHS

(Continued from Page One)

vessels. Mrs. Lindbergh repeated the request several times before landing.

In Ainu Land

At Ketoi the Lindberghs were in the realm of the hairy Ainu, a primitive people inhabiting the Kuriles. The Ainu live in caves and hunt and fish with the crudest instruments. Word of the Lindberghs' approach recently brought them out of their caves for a glimpse at the "great man bird."

Leaving Petropavlovsk at 8:45 a. m. (5:45 p. m. Tuesday C. S. T.) after two and one half days delay in their vacation flight because of bad weather, the fliers made good time down the island chain after repairing their motor. Messages from the plane indicated they had flown out in the fog enshrouded region of Shimushiru for about an hour before making the landing.

Upon turning back Mrs. Lindbergh messages that the landing would be made at Muroton bay, saying the plane was descending at 4:26 p. m. Tokyo time (1:26 a. m. C. S. T.) Some time later she reported the landing at Ketoi and said they would resume their flight to Nemuro "as soon as possible."

In flashing the information that trouble compelled them to stop, Mrs. Lindbergh did not say what was wrong with the motor.

TWO SUSPECTS HELD

Two young men arrested here at 3 o'clock this morning were being held at city jail shortly before noon as suspects in breaking of a pump-lock and theft of nine gallons of gasoline from a Magnolia Petroleum company service station at 2508 Avenue H. The gasoline was taken late last night or early this morning.

FIRES LESS SERIOUS

SPOKANE, Aug. 19 (AP)—Residents of half a dozen northwest towns breathed easier today as forest fires veered away from homes to confine their destruction to pine stands and brush. The situation was still critical as a shifting wind would send the flames back into the towns.

TWO LUBBOCK HOUSES AND FARM HOME ARE IGNITED

Crackling jags of lightning and sharp thunderblasts accompanied rain and wind here early last night, two residences being ignited and a brick chimney on the new high school chimney on the new high bolts from the sky. Precipitation was light, although it continued nearly an hour, or until about 8 o'clock.

The house on the Louis Quillen farm, about four miles northwest of Lubbock, was destroyed by fire caused by lightning. Estimate of the damage had not been made early this afternoon. No other buildings on the farm became ignited. A rumor that Quillen had died in the fire was erroneous. None was hurt in the blaze, C. L. Quillen, a brother, said.

Two Fire Runs

Fires at two Lubbock residences caused the fire department to make two runs. The fires were extinguished before much damage was done.

M. H. Duncan, superintendent of schools, said damage caused by lightning hitting the high school building was believed slight and was covered by insurance.

Lightning striking a radio antenna at 1812 Main street destroyed a radio and set nearby curtains afire, the fire department reported. The blaze was extinguished by occupants of the house.

Another bolt, following the electric wiring of the home of O. R. Copeland, 1610 Avenue K, caused a small blaze in the attic of the residence.

Last night's rain was the third here in as many days. The gauge at the state experiment station, near here showed .06 of an inch had fallen, although precipitation here possibly was greater.

The rain was not general, reports here indicated. Portions of Terry and Hockley county received heavy showers, however, the most western point of the storm area being Brownfield's city limits. Ropesville, Meadow, and Wolfforth received good rains. For about five miles southwest of Lubbock, the rain evidently was heavier than in Hockley and Terry counties. Traffic was not delayed by the rain. Plainview, Dimmitt, and Post reported showers early last night.

FEMALE POPULATION IS INCREASING MORE RAPIDLY THAN MALE IN U. S.

WASHINGTON, Aug 19 (AP).—A female population increasing more rapidly than the male was revealed today by the census bureau.

Whereas in 1920 there were 104 men and boys to each 100 women and girls, that sex ratio now stands at 102.5.

Even in virile Nevada, which had a rugged ratio of 148.4 men to each 100 women ten years ago, the males now outnumber by only 140.3 to 100. No other state even approximated the Nevada preponderance, though Wyoming, with 123.8, and Montana, with 120, brought echoes of the days when the plains chiefly heard the cowboy sing to restless herds.

Women In Lead

Women outnumbered men in eleven as against seven states, counting the District of Columbia, in the last census. New Hampshire, Connecticut Tennessee and Louisiana were added to a list which already included Massachusetts, Rhode Island, District of Columbia, North Carolina, South Carolina, Georgia and Alabama.

However, there were 1,409,114 more males than females in the 122,775,046 population of the entire United States.

The native white population of native white parentage included 48,010,145 males and 47,487,655 females, a 101.1 ratio as compared with a 101.7 ratio ten years ago.

The negro population comprised 5,855,669 males and 6,038,474 females or 97 males per 100 females, as compared with 99.2 in 1920.

Chinese, Japanese, and Mexican males far outnumbered females. The Chinese population was 22,588 males to 3,289 females, a 686.8 ratio. The Japanese ratio was 276.3, the Mexican 165.6.

North Is Average

Sectionally, the north had approximately the same sex ratio as the country at large; the south had a relatively higher proportion of females; the west a relatively higher proportion of males.

Northern negroes numbered 101 males per 100 females, western 104.1 males per 100 females, and southern 95.9 males per 100 females, indicating in migration of negroes from the south, males have been somewhat more numerous than females.

"SURE, I'M KEEPIN' KISSABLE

WITH CLEAN, CELLOPHANE SEALED "OLD GOLDS"

Maybe he says it with a twinkle in his eye. But he means it just the same! No self-respecting husband wants to salute the wife and kiddies . . . with a breath like an ash-tray . . . heavy with the reek of stale tobacco.

Two things about OLD GOLDS make them odor-clean and fragrant. FIRST, they are PURE-TOBACCO . . . free of greasy, breath-tainting, teeth-staining, artificial flavorings. SECOND, they are never stale or dry. For they come to you factory-fresh . . . sealed in Cellophane.

Whether you're a stalwart steel-worker . . . or a dainty debutante . . . you'll like PURE-TOBACCO OLD GOLDS! Their clean, sun-ripened, Nature-flavored tobacco will make "Keep Kissable" . . . a real and pleasant fact for you.

CELLOPHANE SEALED

ALWAYS FRESH

LIKE HONEY TO YOUR THROAT

NOT A COUGH IN A CARLOAD

NO "ARTIFICIAL FLAVORS" TO TAINT THE BREATH . . . OR STAIN THE TEETH

AUGUST FUR SALE

Think Of It! Real Fur Coats In This Event Cost Less Than You Would Pay For Cloth Ones

Here is your opportunity—a chance to buy real high grade fur coats at prices that are almost unbelievable.

Due to the unusual situation in the Fur market we were able to arrange for some twenty-five fine fur coats for an August Fur Event at unprescidented prices. We offer them Thursday for the first time at these unusual figures. The garments are all new this season's models with liberal lengths—The furs are all of first quality—Styles are all in semi-fitted silhouette and colorings in the skins are nicely blended—Its an offering for a limited time that represents values such as you have never seen before. Choose a fur coat now at a price even less than you would expect to pay for most cloth styles—

This Offer Holds for Ten Days Only. A Small Deposit Only Is Necessary Now. It's a Chance of a Life Time to Realize Your Dream of a Fur Coat.

A fur coat purchased in this event means a real saving on a garment you will enjoy for many seasons—a purchase you will be glad you made. Time is limited. Inspect this showing now while complete range of choice is possible.

A Silver Muskrat for $79.50

Silver Muskrat Coat with deep shawl collar—made along semi-fitted lines—a light flattering color—August Fur Sale price only ---------- $79.50

A Silver Muskrat for $79.50

Silver Muskrat Fur Coat with natural Muskrat collar—a very unusual model in well matched skins—Priced for August Fur Sale ---------- $79.50

Sport Silver Muskrat for $89.50

Silver Muskrat Coat with Jonnie collar—a semi-fitted model with diagonal fur matching—especially desirable, priced now ---------- $89.50

Hemphill-Wells Co.

FAIR EXHIBIT IS PLANNED

ELEVEN TEACHERS IN MEETING TUESDAY TO LAY PLANS

Eleven vocational agriculture teachers assembled here Tuesday voted to display a cooperative booth at the Panhandle-South Plains fair. The teachers participated in a business session at the Hilton hotel following luncheon there.

Taylor White, of Tahoka, presided. Homer Grant, president of the fair, welcomed the visitors, declaring that it was the intention of officials to make the coming exposition the best in history and asked for cooperation from the teachers. A. B. Davis, manager of the fair, spoke briefly on the work of the fair and urged the teachers to sponsor the proposed exhibit.

Mr. White led in the discussion on the exhibit and the teachers voted to sponsor the exhibit. It was decided to include such projects as soil improvement, beef cattle, poultry, dairy cattle, hogs and the live-at-home movement in the exhibit.

Another meeting of the group will be held here during the annual South Plains institute at which time final details for the exhibit will be made.

BISHOP SCORES MORALS LAXITY

FRENCH LICK, Ind., Aug. 19 (AP)—Standing before an altar built in a sylvan setting, the Right Rev. Joseph Chartrand, bishop of Indianapolis, sounded a warning against the laxity of modern morals and against greed yesterday.

Bishop Chartrand delivered the sermon at a field mass which inaugurated the forty-ninth annual convention of the supreme council of Knights of Columbus. The Right Rev. John A. Floersh, bishop of Louisville, was celebrant of the mass.

It is "colossal stupidity on the part of man" to believe that a modern code of morals has been discovered, Bishop Chartrand said. The trend, he declared, is toward barbarianism and animalism which caused civilization to crumble in the fifth century. Restoration of civilization was brought about by the church, he added.

Examining Trial Held For Mexican

Failing to post $500 bond, Ysidro Sereo, a Mexican facing a burglary charge, was in city jail this morning following examining trial in Justice of the Peace H. K. Porter's court Tuesday afternoon. The bond was set pending September grand jury sessions.

A Mexican boy arrested with Sereo by J. D. Johnson, motorcycle policeman, at quarters of the H. O. Wooten Grocery company, 802 Avenue K, probably will be called into juvenile court, Peace Justice Porter said.

The motorcycle patrolman arrested the two after hearing noises in the wholesale grocery company's building and calling to those inside to come out, authorities said.

New Pavement Gets Final Inspection

Pavement of state highway No. 9 immediately south of Abernathy underwent final inspection Tuesday by Guy R. Johnston, construction engineer for the state highway department. The Interstate Construction company has the contract for the work.

The state highway department will take over the highway from Lubbock north to the Lubbock-Hale county line for maintenance probably today, it was indicated yesterday.

The slab recently was opened to traffic from the junction of the old road north to Abernathy and the county line.

Six Unemployment Delegates Chosen

AUSTIN, Aug. 19 (AP)—Six delegates were named today by Governor R. S. Sterling to represent Texas at the national congress of unemployment relief called by Governor W. H. Murray of Oklahoma. The congress will meet in Memphis, Tenn., next Monday.

Texas delegates named were: Hubert Harrison, manager of the East Texas Chamber of Commerce, Longview; E. L. Altgelt, San Antonio; William Strauss, Houston; Robert C. Tucker, Houston; Ernest Alexander, San Antonio, and C. L. Kingsley, brotherhood of railway trainmen of San Antonio.

Swisher county, Texas, is contesting with Coleman, Jones, Crosby and Baylor to see which can first liquidate its Federal production loans advanced drouth stricken farmers. The contest is in line with the program of the West Texas Chamber of Commerce to get West Texas loans promptly repaid.

Fights Deportation

Deportation proceedings are being fought by Miss Edith Berkman, fiery ringleader of the New England textile workers. This photo was snapped in Boston, prior to Miss Berkman's surrender to immigration officials, who are seeking to deport her because of her strike activities.

Junior Champ

Although he had never previously swam more than a mile, Joe R. Hodgins (above), 17, of Baldwin, L. I., won the National A. A. U. Junior Long Distance Championship at the meet held recently at Oyster Bay, L. I. Hodgins was the junior interscholastic champion while a student at Baldwin High School, L. I., but had never essayed a long swim until he captured the A. A. U. 5 1-2 mile event.

Big Oil Merger To Be Announced Soon

TULSA, Okla., Aug. 19 (AP)—The Tulsa World says it has learned announcement will be made soon of the merger of the Prairie Oil and Gas company and the Prairie Pipe Line company with the Sinclair Consolidated Oil corporation.

The World says another large independent oil company also may be included in the new organization, forming a billion dollar concern that will be known as the Commonwealth Petroleum corporation.

High officials of the Sinclair and Prairie companies are in New York completing final arrangements for the consolidation, the World says.

The other concern mentioned in connection with the consolidation is the Tidewater Associated Oil company.

Lightfoot Held For Parole Violation

Failing to return to the state penitentiary on expiration of a parole granted so he could visit his sick father here, Ed Lightfoot was arrested Tuesday at Henderson, Texas, the Lubbock county sheriff's office was notified.

Lightfoot was sentenced to three years in the penitentiary from Lubbock county for liquor law violations. Sheriff Wade Hardy telegraphed Henderson authorities that Lightfoot was wanted at Huntsville as a parole violator.

Glasgow, Scotland, has voted down the plan that it construct the bodies of its municipal buses.

INTERESTING BITS OF NEWS GROUND FROM THE GRIST OF THE DAY'S HAPPENINGS

(By The Associated Press)

Oldest Soldier

WOLVERHAMPTON, Eng.—Troop Sergeant-Major John Stratford, 102, is Britain's oldest soldier. He joined 85 years ago. On his last birthday the king sent him congratulations.

Cheats Death

OCEAN CITY, N. J.—John N. Rigby, of Cornwells Heights, 72, a paymaster, who has been shot seven times by robbers, has cheated death again. Caught in an undertow when in swimming he was rescued by surf guards.

Auto May Fly

GLASGOW, Scotland —John McNicoll, 23, a carpenter, has built an automobile which he hopes will fly. Army air officers are to watch its tests.

Just Cautious

TOKYO—There are chances that Amy Johnson, young British aviator who is awaiting the Lindberghs, simply won't take. One of them is to ride in a taxi in Tokyo; the drivers go too fast.

Dogs At Church

LONDON —Worshippers are permitted to take their dogs to services at St. Anne's church in Soho. "What harm if no noise?" asked the rector, the Rev. Basil Bourchier. "Friendship between man and his dog is a beautiful thing."

Roll Their Own

WASHINGTON —More folks have been rolling their own. Revenue from taxes on cigaret papers has increased.

Become Homely

CHICAGO — Women smokers are becoming homely, it would seem from a size-up by Mrs. M. B. McGavran of Kansas City, president of the American Association of Cosmetics, to wit: Their faces are growing sharper, lips pallid, protruding and twitching; the corners of the mouth sag; the eyes acquire a blank stare.

New Insurance

NEW YORK—A new form of burglary and robbery insurance for store-keepers gives protection against kidnaping where storekeeper is compelled to go to the store and open his safe.

Contract for the construction of a federal building at Fort Worth costing $1,017,000 has been awarded.

Rangers Place Ban On Beach Pajamas

KILGORE, Aug. 19 (AP)—Martial law had brought an unexpected hardship to this booming East Texas oil town today.

Texas rangers had issued a decree banning beach pajamas as a street costume. Rangers are here to aid the national guardsmen in enforcement of the martial law oil shutdown.

The ban had proved effective. Among the girls who received instructions were girls employed in barbecue stands.

Shortage Of Cotton Pickers Is Offered

SAN ANTONIO, Aug. 19 (AP)—A shortage of unskilled farm labor willing to pick cotton was believed to be imminent in the San Antonio area today.

There is not now the seasonal surplus needed to pick the cotton now opening, A. W. Greene, manager of the United States department of labor employment service here said. By next week the shortage is expected to develop.

The floating supply of labor available for truck farm and cotton field work in southwest Texas has been depleted heavily this year through Mexicans returning to their native country. Last year this supply of unskilled labor has averaged in this section around 50,000, this year, however, it is hardly more than one half this number.

THESE "NIGHT CLUB GIRLS" BEING CATALOGUED BY NEW YORK POLICE

NEW YORK, Aug. 19 (AP)—These "night club girls"—who are they? Where do they come from? What is their background?

The police, canvassing the Broadway bright spots, and the not-so-bright spots, are cataloguing the women who make their livings there. More than 1,000 have been listed, and the canvass is being continued.

The survey reveals that the "night club hostess," the checkroom and cigaret girls who are so definitely "New York," are not "big town" at all, but "small town," in many cases right down to an R. F. D.

Most of the girls, the survey shows, came from the middle west and south. Many of them are chorus girls without a chorus, turning to the night clubs when the matter of eating became a serious problem.

A majority of the girls said they left home when very young, answering the lure of the stage. Almost without exception they said they had known long spells of unemployment. Their names, mostly, are assumed, the often prosaic names under which they were born being exchanged for more alliterative and alluring cognomens.

Their average age is in the low twenties.

The list is being compiled for possible use in case of trouble in the night clubs. Many crimes, Police Commissioner Mulrooney has pointed out, involve patrons and promoters of places catering to New York's night amusement seekers.

Waives Hearing In Acid Throwing Case

YATES CENTER, Kas., Aug. 19 (AP)—Ralph Sumner, 30, waived preliminary hearing and was quoted by officers as being willing to plead guilty to the charge that he blinded his estranged wife and slightly burned his infant son by throwing acid at them.

County authorities said, however, because of a legal point in the case, Sumner must await until the September term of district court to enter his plea.

Mrs. Sumner's condition was reported as still critical. The acid was thrown at her while she was asleep with her son in her father's home here.

Mrs. Brent Morgan, at whose home in Neodesha Sumner lived, pleaded not guilty at a preliminary hearing to being an accessory in an attempt to maim and kill Mrs. Sumner and her case was set for trial at the September term of district court. A preliminary hearing is scheduled to be held for her son, Leter Morgan, on a similar charge Thursday.

Because of the increasing idle funds in banks bankers of Japan are urging the government to abandon its no-loan policy.
