It's called, prosaically enough, "hand to eye co-ordination".

The skill of doing things using visual and motor skills is one of the most amazing things.

In rudimentary form it is possessed by every living creature, even without hands!

A frog eyes it's insect prey and launches a tongue, a cheetah knows the precise distance it takes before leaping onto the back of it's meal.

But in the human it is refined to a point that is truly incredible.

The simple skill that brought the awareness of this on was threading a needle.

Consider the size of a needle's eye...consider the beautiful co-ordination required to thread it!

The same goes for so many things.

The not-unusual, everyday things humans do are, in their own ways, miracles.

Think about what is required to hold a nail in one hand, pick up a hammer and drive that nail into wood. Usually, we don't even hit our thumb!

Getting into a vehicle, inserting the key, fastening seat belts, and driving off is another example.

Maneuvering a car, judging distances, it all adds up to a true wonder.

The list of simple things we do that is nearly miraculous goes on and on.

Tying shoe laces. Aiming and firing a gun. Playing sports (think about all the various movements and co-ordination required for baseball, football, etc.)

Dancing. Hanging up clothes. Jumping rope. Working on assembly lines. Using screw driver.

Have you ever watched an infant trying to catch a ball?

Their co-ordination isn't developed yet, and they may miss it by inches.

But slowly, very slowly, they become more and more adept at it.

Some people possess more natural ability at this than others, but we all have it.

Next time you go to open a lock or adjust the dial on a radio...think about it.

It's a wonderful thing...one we are blessed with, and seldom if ever think about.

## Country Cooking

By Gerrie Bankhead

I was thinking the other day as to what recipes our readers would enjoy, and I remembered Aunt Marie's famous caramel pies. Through the years, she has baked many caramel pies and taken them to the North, South, East and West of our state. I called and asked her to share this old time recipe with you and we hope you enjoy it.

While visiting in the home of Uncle Odie and Aunt Marie Watson, she

dren, 9 grandchildren and 11 great-grandchildren. It would be possible to try to count how many caramel pies she has made during the years. In remembrance of her brother, Delbert Norman, she mentioned how he loved her caramel pies and how she enjoyed so much baking them for him.

Being related to this couple for the past 25 years, I've been to their house many times to always find a buffet

Marie Watson shares her recipes for her famous Caramel Pies, with readers this week, from the weekly

Country Cooking column written by Gerrie Bankhead.

**No Cook Banana Pudding**  
1 Box Instant Banana Cream Pudding Pie Filling  
Mix it like directions on the box, put in refrigerator and let chill a while. Mix it with 8 oz. Cool Whip. Pour over sliced banana on Vanilla Wafers.

**Corn Pudding**  
2 Cans Cream Style Corn  
2 eggs, well beaten  
1 Tablespoon flour  
1/4 cup sugar  
1/4 cup fried meat grease  
Pepper and salt to taste  
Bake 35 or 40 minutes until it is golden brown at 350.

**Caramel Pie**  
3 eggs  
1 cup sugar  
1 heaping tablespoon flour  
1 1/4 cup milk  
1 teaspoon vanilla  
Mix together egg yolks, 1 cup sugar, flour and milk. Cook until it comes to a boil. Take off heat, but have this hot when you mix with other mixture. Put 1/2 cup sugar in a skillet and let brown. Pour 1/2 cup boiling water over the brown sugar. When it is dissolved, pour over the other ingredients. Cook until thick, add 1/2 stick butter and 1 teaspoon Vanilla. Mix well, pour in 1 baked ie shell, topped with meringue. (3 egg whites beaten well, add 1 teaspoon sugar and 1 teaspoon vanilla flavoring.) Bake until golden brown.

carried me back through the years reminiscing about her early childhood. While growing up, she never did any cooking, her chores were to milk the cow and wash the dishes. When she married Uncle Odie, at the age of 15, they moved away from Mom and made it impossible to get help in the cooking department. She said everything was trial and error, and a lot of error. She remembers putting buttermilk in her first cake icing instead of sweet milk (a big error).

This December Odie and Marie will be married 62 years. During these years, she has most definitely learned to cook. She cooks for every occasion at Cunningham, and is always cooking big dinners for her 3 chil-

lined with goodness. Grandchildren and great-grandchildren are always popping in and feel free to raid the refrigerator and have their sweet tooth satisfied.

Along with the caramel pie recipe, Marie has included two new recipes she received about two weeks ago from a niece in Paris. Uncle Odie wanted to share the Corn Pudding recipe and she wanted to share the No Bake Banana Pudding recipe.

In my childhood years, I remember trick or treating and always getting popcorn all as a treat. I am looking for a fast and easy recipe for popcorn balls. If you have one, please send it to me and I'll share it with the readers. Call me at 652-6032 or write to Rt. 1, Box 67A, Deport, TX.

**Patriots Can't Control Red Raiders, Fall 42-14**

By Thomas Nichols

The Prairiland Patriots walked out of Red Raider Stadium last Friday night at Winnsboro with their name posted over the low score on the board, which read 42-14.

The Patriot offense held the Red Raiders on their opening drive, forcing them to fumble the ball away on their own 40-yard line.

The Patriot offense marched out and moved the ball into the Raider's endzone in just seven minutes for six points on the legs of quarterback Michael Madewell.

The point after was no good, but the Patriots led the contest by a touchdown.

Unfortunately for the Patriots, the lead didn't last for long!

In just two plays, the Raiders moved 46-yards for a touchdown of their own. The point after was good, and the Patriots trailed by one point, 7-6.

With just 4:00 left to play in the first quarter, the Raiders lead scorer, Leon Dickerson, scored again for six points.

Three and one-half minutes later, Dickerson scored again, and with the point after good on both touchdowns, the Patriots trailed by 15 points.

By halftime, the Patriots had slipped to a trailing 35-6 score.

The Patriots came back in the third quarter. Taking the Raiders opening kickoff, Patriot Madewell set the ball up first and ten on the Patriots' own 35-yard line.

Thirteen plays later, Madewell fired a pass to Tom Pilip for the Patriots' second TD of the game.

Coach Chambers called on Madewell's arm for the two point conversion, but with Cody Bowen on the receiving end.

With 6:00 to play in the third quarter, the Patriots narrowed the margin to 35-14.

Unfortunately, though, for the Patriots, the Red Raiders raided their endzone once again before the end of the third quarter and with the point after added on, the Raiders led 42-14.

As the third quarter ended, so did the scoring in the contest, as neither team could cross the enemy goal line in the fourth quarter.

Next Friday night's battle will be fought at Patriot Stadium in Pattonville against the Mt. Vernon Purple Tigers.

## Postal Pointers

Facts From The U.S. Postal Service  
 How To Protect Your Mail

By Ann McK. Robinson,  
 Consumer Advocate,  
 United States Postal Service

Never send cash or coins through the mail—stick to checks and money orders.

Experts at the post office deliver this advice: look out for your letters.

While incidents of mail theft are rare, thieves know that items of value travel through the mails and they are ready and waiting to steal mail when the time is right. Occasionally, they break into residential and apartment mailboxes, collection boxes and postal vehicles.

The Postal Service works hard to make sure your daily mail gets to you, but needs your help to keep it safe. By following the few tips listed below, you can make life more difficult for mail thieves:

- Never send cash or coins through the mail. Always send checks or money orders.
- Make sure your mailbox is in good condition. Mailboxes in poor condition often expose mail to theft and bad weather.
- Collect mail from your mailbox promptly, especially checks and food coupons. If you cannot be home when checks or food coupons are expected, ask a trusted friend or neighbor to pick up your mail.
- Always contact the local post office to have your mail held for you during vacations or other long absences from home.
- Contact the issuing agency right away if you do not receive an expected check, food coupons, or other valuable mail.

• Notify the post office and mailers immediately if you change your address. The post office has Change of Address Cards for this purpose.

• Deposit your mail in an authorized mail collection box or give it to your letter carrier. Never place mail for your carrier to pick up in an unprotected area where it can be easily stolen.

• Address your mail properly. Always include your complete return address, street/apartment number and ZIP code.

• Post your name on the inside of your mailbox if you live in an apartment building. This will assist your carrier in getting your mail to you if residents with similar names reside in your apartment complex.

• Advise the postmaster or Postal Inspector if your mail is stolen.

By following the above tips, you will help the Postal Service reduce mail theft and get your mail to you safely.
