

## Three Powers To Discuss Atomic Energy Controls

Canada, Britain, US Heads Will Meet Here

WASHINGTON, Oct. 30 (AP)—Three-power discussions over the future of atomic energy will begin here about November 11 between President Truman, Prime Minister Attlee of Britain and Canada's Mackenzie King.

The announcement of the forthcoming talks, released in Washington and London simultaneously today, made no mention of Russian participation. The conference is in line with President Truman's previous statements that the three-power parley would come ahead of any meeting with other allies on atomic energy.

Canada, Great Britain and the United States share the secret of the development of the atomic bomb, but United States plants alone have produced it.

"Prime Minister Attlee will visit the president in Washington early next month to discuss with him and Prime Minister Mackenzie King of Canada problems to which the discovery of atomic energy has given rise," the White House said.

"The prime minister is expected to arrive in Washington so that the discussions can begin about November 11."

Attlee was in the United States last April as a member of the British delegation to the United Nations postwar security conference at San Francisco.

He and President Truman also went together at the last "Big Three" meeting in Potsdam.

President Truman recently told congress he would soon initiate discussions looking to the renunciation of the atomic bomb.

At the same time he called upon congress to create a commission to develop the domestic use and development of atomic energy.

## Migratory Camp Dedication Set

Dedication of a \$12,000 reception center for migratory farm workers is scheduled here Saturday, Nov. 3, as one of the feature attractions of the Howard County Fair. The new farm labor camp, which is being completed this week, was built by Howard county and the City of Big Spring, in cooperation with the Texas A. & M. College extension service, which is in charge of the government's farm labor program.

Although not complete, the reception center already has been used for housing Mexican laborers during a recent rainy spell of two weeks duration. It will accommodate 10 families every night and has parking space for 50 trucks. Sanitary facilities, showers, and cooking equipment are available to transient workers, and a caretaker has been employed to supervise the center.

Mayor Bob Cook and County Judge James T. Brooks will appear on the dedication program along with Pascual Villarreal, extension state migratory labor assistant. Children from the Kate Morrison Mexican school will provide entertainment. Mrs. Pauline Kibbe, executive secretary of the Texas Good Neighbor Commission, and Robert Eckhart, state coordinator for Latin-American Affairs, have been invited to attend the opening by County Agent Durward Lewter.

Migratory workers passing through Big Spring will be honored guests at the fair on dedication day, and Lewter has set up an educational booth explaining how the farm labor program works to the advantage of both laborers and farmers.

### YOUR HELP, PLEASE

Please help us give you better delivery service by calling Circulation Department, Big Spring Herald, if you fail to receive your evening paper by 6 p. m. or your Sunday paper by 7 a. m. Office closes at 7 p. m. weekdays and 10 a. m. Sunday. Please call before these hours.

## US Recognizes Caracas Regime

WASHINGTON, Oct. 30 (AP)—The United States today recognized the revolutionary government of Venezuela after consultations with other American governments. The state department issued this statement:

"The secretary of state, James F. Byrnes, announced this afternoon that the government of the United States has extended full recognition to the government of Venezuela which is now organized

JAPS AT WORK ON CORREGIDOR—Jap prisoners of war are put to work on Corregidor Island in the Philippines clearing debris from the tunnel from which Gen. Jonathan Wainwright and his staff emerged to surrender to the Japanese early in the war. (AP Wirephoto).

## Truman To Propose Increase In Wages

By HAROLD W. WARD

WASHINGTON, Oct. 30 (AP)—Authoritative persons said President Truman will propose tonight that industry pay 48 hours wages

for 40 hours without raising prices. They said he will make this request in a broadcast at 9 p. m. (Central Standard Time) as a compromise with demands by

unions that employes be paid for 52 hours while working 40.

The compromise, if accepted by industry and labor, would give workers a 20 per cent increase in pay compared with the 30 per cent the unions ask.

Exceptions to holding the line on prices would be made in cases which would work a hardship on the employer, persons informed of the plan said.

Price rise requests would be handled through the Office of Price Administration and the Office of Economic Stabilization.

If the subject comes before the labor-management conference opening next Monday some enforcement machinery conceivably could be adopted. But industry agreement might be difficult to obtain.

The president will discuss wages and prices with as many of the 18 management and 18 labor delegates as he can meet before the conference.

Today he invited AFL Secretary-Treasurer George Meany to discuss the issues with him, along with James M. Duffy, of East Liverpool, O., president of the AFL, Potters, an alternate delegate, Teamster President Daniel J. Tobin, a power in the AFL, expects to see the president next Sunday.

CIO delegates are expected to confer with Mr. Truman on Friday. John L. Lewis, president of the United Mine Workers, is believed to have been invited Thursday, although there has been no announcement.

The whole wage-price issue revolves about the fast union labor generally worked a wartime 48-hour week, getting time and a half for the extra eight hours. This meant 52 hours pay for 48 hours work.

What the unions have wanted is to get the same pay as in wartime in changing back from the 48-hour to the regular 40-hour week. Under Mr. Truman's reported proposal they would get a little less pay than in wartime but work eight hours less.

### Tax Discount To End Wednesday Evening

Tax payers have until Wednesday evening to qualify for three per cent for October payment of 1945 taxes, agencies reminded Tuesday.

Big Spring Independent School district and Howard county tax offices are open to 5 p. m., but the City of Big Spring closes at 4:30 p. m.

### Tiger In A Corner

MANILA, Oct. 30 (AP)—Maj. Gen. Basilio J. Valdes, Philippine chief of staff, today told a military commission trying Japanese Lt. Gen. Tomoyuki Yamashita on war crime charges that he found the half-cremated bodies of his older brother and a nephew in a pit filled with decomposing flesh.

Earlier, the general's sister-in-law, Mrs. Agnes Lopez De Valdes, and Mrs. Justa Guido, described how their husbands—Lt. Col. Alejo Valdes and Jose Guido—were tied up by Japanese soldiers under Yamashita's command and taken away, never to be seen alive again.

Meanwhile, the defense indicated it would seek to prove that those who fought the Japanese after the surrender of General Wainwright could be considered war criminals and that the Japanese occupying Manila found themselves in a situation where any and all civilians might be guerrillas in disguise.

## Congress Wants Share In Power To Send Troops

Senate May Amend Truman's Request For Authority

By JACK BELL

WASHINGTON, Oct. 30 (AP)—An administration request for authority to back the World Security Council with American troops encountered some reservations in the senate today.

Senator LaFollette (Prog-Wis) told a reporter he will insist that legislation defining the powers of the American delegate to the council limit the use of troops to numbers authorized by congress.

He said he is willing that the president decide when the American forces shall be used to support council action against an aggressor.

"I just want it made certain that the president can't augment these forces without the approval of congress," LaFollette said.

Undersecretary of State Deah C. Acheson agreed at a meeting of some senate foreign relations committee members yesterday to redraft the legislation to meet LaFollette's wishes.

The redraft will be presented to the full committee tomorrow.

The state department's original draft proposed that the American delegate—who will be Edward R. Stettinius, Jr., former secretary of state—be made the agent of the president on the security council. He would have the rank of ambassador, be paid \$20,000 yearly, and have a \$12,000 assistant-alternate.

Without consulting congress in advance, the delegate could vote at the president's direction for the use of force to keep the peace.

As presently drawn, the measure would not limit the use of the allocated American troops, once the council votes to enforce the peace. They could go into action anywhere in the world.

## Sheriffs' Magazine To Feature Article About Big Spring

The city of Big Spring is to be featured in the November edition of the Texas Sheriffs' association magazine.

Information for the article, one in a series on cities of the state, is being collected by C. B. Moore, associate editor of the journal. Moore arrived in Big Spring Monday to begin research for the feature.

The magazine, only edition of its kind within the state dedicated to the work of the police officer, is leading a campaign for closer cooperation of the public in combating organized crime.

According to figures released recently by the Federal Bureau of Investigation, lawlessness has increased 28 per cent throughout the nation since the end of the war.

Profits realized by the periodical's publishers go toward maintenance of the association's legislative program.

### Pilferer Changes His Mind On Way To Jail

Jack Bryant, who agreed to accompany Sheriff Bob Wolf to the county jail Monday evening in connection with a pilfering charge, changed his mind—in a hurry.

Enroute to the bastille with Wolf in the peace officer's car, Bryant bailed out without warning in the business district and darted down an alley. A search for him proved fruitless.

The fugitive has apparently decided to abandon a truck and trailer he left behind. The vehicle was driven into the courthouse yard and remained unclaimed until noon today.

# Army Deposes Brazil Leader

By CHANDLER DIEHL

RIO DE JANEIRO, Oct. 30 (AP)—Getulio Vargas, who resigned as president of Brazil last night in response to an army ultimatum, was under military guard at Guanabara palace today while the new president, Jose Linhares, deliberated on what to do with him.

The swift and apparently bloodless coup ended a 15-year rule for the short and swarthy Vargas. Linhares was inducted into the office before dawn under an army mandate in keeping with the 1937 constitution which provides that the chief justice of the supreme court succeeds any president who dies or is removed.

It was the third governmental upheaval in South America this month. The government of Venezuela, just north of Brazil, was uprooted within the last two weeks. In Argentina, on the southern border of Brazil, Vice President Juan Peron was deposed, but he reemerged with greater power than before.

Linhares, 59, is charged with heading the government of the largest republic in South America until the Dec. 2 elections which Vargas proclaimed last March. Vargas was not a candidate.

"I hope I may fulfill my duties according to the peoples' wishes," Linhares declared immediately after taking the oath at 2:30 a. m.

It is known that Linhares, who also is head of the supreme sel-

toral tribunal, is opposed to any modification of the decree providing for the December election. Gen. Pedro Aurelio Goes Monteiro, minister of war and a dominant figure in forcing Vargas from office, likewise is on record as favoring the elections.

Although the army appeared to be in complete charge of the situation, the war minister said there had been no military coup as such. He declared, however, that the army would guarantee the holding of the elections Dec. 2, which he said the Vargas government no longer was capable of realizing.

Linhares, in reply, said he would do all in his power to protect the nation until the elections were held.

# US Said Meddling In Chinese Crisis

Tension Increases, Political Observers In Capitol Report

By SPENCER MOOSA

CHUNGKING, Oct. 30 (AP)—Charges that the United States is meddling in Chinese internal affairs, today increased the tension in the Chinese capital, where political observers already tensely are watching for the possible outbreak of civil war between nationalist and communist troops.

Reports from Tientsin said the American marine garrison there had been alerted after reports spread through North China that the clash between the two armies was impending.

Presence of the estimated 60,000 marines in North China, and the transfer of Chinese nationalist troops into that area by the American air forces, were the basis of the protest against American actions which was issued by a communist spokesman. He charged the United States with "intervening in China's internal politics."

Non-communist quarters said they feared that the communists might deliberately provoke a clash with the marines with the intention of embarrassing the United States and central governments and arousing agitation in the United States for immediate withdrawal of American forces from China.

Central government troop movements into the unsettled North China regions were considerably hampered by the reported cutting of 100 miles of the Peiping-Hankow railroad by communist troops.

The Yanan forces were officially reported to have burned bridges, and stations and to have torn up tracks on the Peiping-Hankow line.

Nationalist troops continued northward along the Peiping-Mukden route, however, reportedly to take "defensive positions" along the Great Wall.

The Peiping dispatches which reported the alerting of the marines said minor clashes had been reported outside the city. Tientsin itself was quiet, but beginning to suffer food shortage, because of the breakdown of supply lines, either by communist troops or roving bandits.

The dispatch said that nationalist troops now were in Tientsin "in force" and had disarmed an estimated 1,500 officers and men of the Third advance army and arrested at least 200 irregular officers, including some generals.

### Lawdermilk Coming Home From Manila

FAR EAST AIR FORCES, Philippines—En route to the United States from the Far East Air Forces 22nd Replacement Depot, Manila, is Sgt. Lee C. Lawdermilk, son of Mr. and Mrs. C. E. Lawdermilk, 1011 West Third street, Big Spring.

Lawdermilk came to the Southwest Pacific the latter part of 1944. His tour of duty with the 91st Replacement Battalion of the 22nd Depot has taken him to an area ranging from New Guinea to Morotal, Leyte, Mindoro and Luzon in the Philippines from which he is presently returning home. Among his ribbons are the Asiatic-Pacific theater ribbon with four battle stars and the Philippine Liberation ribbon with one star.

Husband of the former Hazel Louise Yates of Stanton, and father of a daughter, Gwendolyn Joyce, Sgt. Lawdermilk was employed by Suggs Construction company before he joined the armed forces in 1942.

## Second Flare-Up In Java Halted

BATAVIA, Java, Oct. 30 (AP)—

Fighting between Indonesian nationalists and British Indian troops flared anew at Soerabaja today, but was halted at nightfall when a second truce was arranged.

A British spokesman said the situation at the naval base was very tense.

Maj. Gen. D. C. Hawthorne, allied commander, and President Soekarno of the "Indonesian republic" arranged the second truce after a day of sporadic shooting, the spokesman said.

Soekarno's truce of yesterday only lasted overnight.

Soekarno flew back to Batavia tonight for possible peace talks with the Dutch. Hawthorne returned to Batavia in a separate plane.

## Pilot Group Sent To Local Airfield

A group of 225 pilots were due to sign in at Big Spring Bombardier school before midnight today to be stationed at the local field, headquarters announced.

The officers were previously stationed at Blackland Army Air Field at Waco and are ineligible for discharges.

An authority is at Randolph Field on temporary duty to receive instructions concerning the new personnel.

The separation center previously announced to begin here after several bases were selected by the Eighth Service Command was cancelled before it began. Men who are eligible for discharges are being sent out daily from the field to the separation center closest to their home.

### Fifteen Fires Cause \$7,385 Insured Loss

Fifteen fires occurred during September with a total insured loss valued at \$7,385.87, firemen reports show.

Insured loss to buildings was estimated at \$4,685.87 and insured loss to contents was estimated at \$2,700. The Settles Hotel room fire was not settled before the report was compiled.

Unusual causes for fires during the month included; using thinner on a painted floor which ignited from the water heater, using gasoline to kill bugs, bugs in a floor lamp and a gas main bursting.

### Shive-White Rites Read By Walter Grice

Lee Shive, Big Spring, and Mrs. Lessie B. White, Colorado City, were wed at 1 p. m. today in rites read by Walter Grice, justice of the peace. Mrs. White is a former Big Spring resident. The couple will be at home here after Dec. 1.

## Witnesses Tell Of More Atrocities By Yamashita

MANILA, Oct. 30 (AP)—Maj. Gen. Basilio J. Valdes, Philippine chief of staff, today told a military commission trying Japanese Lt. Gen. Tomoyuki Yamashita on war crime charges that he found the half-cremated bodies of his older brother and a nephew in a pit filled with decomposing flesh.

Earlier, the general's sister-in-law, Mrs. Agnes Lopez De Valdes, and Mrs. Justa Guido, described how their husbands—Lt. Col. Alejo Valdes and Jose Guido—were tied up by Japanese soldiers under Yamashita's command and taken away, never to be seen alive again.

**Crucial Battles In Junior Loop Wednesday**

The West Ward Waddies and Central's Corsairs will be hard pressed to retain their respective positions atop the Junior football league standings Wednesday afternoon when they take the field for the fourth round of circuit competition.

The Cowhands tangle with the College Heights Spartans, a tribe that has displayed a potent offense, while Central Ward squares off with North Side. First game is booked for 4 o'clock.

In three outings, both the Waddies and the Spartans have scored two wins and been played to a deadlock, West Ward having been tied by East Ward while the Pirates were fought to a standstill by College Heights.

Third bout booked for Wednesday sends the East Enders into action against a weak South Side clan. The Easterners rule as decided favorites.

**Hornsby Declines Milwaukee Offer**

CHICAGO, Oct. 30 (AP)—Rogers Hornsby, one of the greatest right-handers ever to swing a bat in major league baseball, has turned down a managerial job just so he can teach boys how to play the national game. Hornsby, who had a lifetime batting average of .358 in 26 years in the majors and minors, yesterday refused a job as general manager of the Milwaukee Brewers of the American Association to continue as instructor in the Chicago Daily News' baseball school for children.

"I think I can do more with the kids in Chicago to promote baseball than I could do as a manager of a champion team like Milwaukee's Brewers," was his only comment.

**LOOKING 'EM OVER**

**WITH ANGUS LECESTER**

Perry Johnson, who helped officiate the Lakeview-Lubbock football game at Steer stadium last Friday night, was once considered to be the best guard in West Texas prep circles.

A brother to J. T. Johnson, who some time before had climaxed a great playing career at the Steer

captain, Perry was a regular in the Ward-Huggins era in the middle 20's.

At the time the younger Johnson was sporting the moleskins, the Longhorns played all their games in the old baseball park at Third and Lancaster, which has long since been razed.

Ensor Puckett, up-and-coming Steer wing, has two more years of athletic eligibility if he wants to take it but he may elect to finish his high school work and go to college in September of 1947.

Whether the youngster departs Big Spring high in '47 or '48, he's most likely to wind up at Baylor University.

An athlete who made his money and succeeded in holding onto it is Sixto Escobar, the Puerto Rican who came to the States and campaigned successfully for the bantamweight championship of the world.

Sixto fought for several big purses in and around New York, and when he realized he had reached the end of the row, retired and went into the restaurant business in his native land.

He took leave to join the service, wound up with a Puerto Rican infantry unit and later was transferred to Panama, but his estery continued to function and prosper.

As a general rule, Puerto Ricans—living in a land of haunting misery and starvation—are taught to be frugal. Most of the athletes who come from that tiny Caribbean island save their chips without much prompting.

Pedro Montanez, a great lightweight who came out of that part of the world to all but terrorize the 135-pound ranks, retreated to San Juan with an ample nest-egg, is now in business for himself.

The two Puerto Rican baseballers in the major leagues, Hiram Bithorn of the Cubs and Brooklyn's Luis Olmo, both have made good money in recent years. They probably have most of it.

In 1942, this writer was privileged to be in the vicinity of San Juan when the pair returned home after experiencing moderate success with their respective teams.

Their arrival drove the war from the front pages and the sports-mad populace mobbed them everywhere they went. Not even Babe Ruth ever captured the public's imagination as did Bithorn and Olmo.

Anglo-Saxons and Danes called Good Friday Long Friday, probably an allusion to the length of the services which marked the day.

**Abilene, Lamesa And Lubbock Talked As Entries Of Revived WT-NM League**

ALBUQUERQUE, N. M., Oct. 30 (AP)—O. E. Beck, chairman of an Albuquerque committee seeking to organize a southwest class B baseball league, said some action on the proposal may be taken at a Nov. 4 meeting in Lubbock, Texas, of representatives of interested cities.

Beck reported last night that Milton Price, president of the class D West Texas-New Mexico league which operated before the war, had written it appeared almost certain that loop would be revived.

On the basis of information from Price, Beck said cities interested in reviving the West Texas-New Mexico league were Abilene, Lamesa, Lubbock, Amarillo, Borger and Pampa, Texas, and Albuquerque and Clovis, N. M.

**Eleven Of State College Troupes Play This Week**

**By The Associated Press**

Not a Texas college playing football this year—and there are 12 of them—can boast an unblemished record.

The University of Texas fell last week 7-6 to Rice Institute to remove the last undefeated team.

Eleven of the schools have games this week. The North Texas Aggies and Allen Academy start the ball rolling Friday night at Arlington. It will be for the unofficial junior college championship of the state. The Aggies have beaten John Tarleton which Allen Academy tied last week 6-6. They are the only junior colleges playing football in Texas.

Saturday Rice plays Texas Tech at Houston, Texas A. and M. goes to Fayetteville to meet Arkansas. Southern Methodist clashes with Texas at Dallas. Baylor engages Southwestern at Waco. Texas Christian journeys to Norman to play Oklahoma and West Texas State meets Dalhart Army Air Field at Canyon.

The standings of Texas colleges:

Team	W.	L.	T.	Pts.	Op.
Texas	5	1	0	144	28
Texas A&M	4	2	0	132	77
Baylor	3	2	1	125	46
T. C. U.	3	2	0	64	70
Southwestern	2	3	1	65	92
Texas Tech	2	3	1	39	80
S. M. U.	2	4	0	58	95
Rice	2	4	0	58	115

**Reserves Oppose Odessa Friday**

Big Spring high school's varsity footballers have a break in the schedule this week and will go on siding until their Nov. 9 debate with San Angelo's Bobcats. All Steer hands will not be idle, however, for John Dibrell's reserves swing into action Friday night.

The "B" squad's opponents will be the Odessa second-stringers, a unit that could probably hold its own with any average high school eleven in this part of the state.

The Dogies, who look like a "sure thing" in the future books, invaded Odessa two weeks ago for a test with the Colts and came away on the short end of a 19-6 score.

Dibrell will build his hopes around a heavy line that outweighs the Steer forward wall plus a brace of backs that have shown to advantage in both the Dogie games. They are Georgie Worrell, who apparently can't miss as a future varsity action, and Donald Webb, a 141-pound speedster.

# Avoidance Of Eyestrain Necessary, Wilke States

Now that school has started again for nine months, the strain on children's eyes has begun again and it may now become apparent that some child may need glasses now who did not need them when school was out last spring.

Dr. George Wilke, experienced optometrist, urged all parents to not being strained unduly by not being strained unduly by bringing them into him for an examination. If the need for glasses is only slight, correction may make a great change in the child's school work, and in his personality and sense of well-being as a whole.

The child may need glasses desperately, but he may dislike to wear them so much that they are of little value. Dr. Wilke now has available all types of flattering frames both in gold and in the popular plastics, and the lens shapes can be chosen best to fit the shape of the child's face. With flattering glasses, the task of keeping them on the child may not be such a problem.

The choosing of flattering rim and lens shapes applies not only to children, but to grownups as well. Dr. Wilke says that there is no more reason why one should wear a pair of unflattering glasses than why that person should deliberately buy an unbecoming hat. He has frames in the colored plastics which are so popular now. For the first time in some months, Dr. Wilke has adequate help to meet all needs. Recently added to his staff are Juanita Campbell, and J. L. Sanders, watch repair man. He now promises much quicker service than he

**MOTOR DRESS SHOP**—Perhaps that's a fancy title but it could be applied to the Ollie McDaniel Gulf service Station, for McDaniel's force at 4th and Gregg is experienced in washing and greasing automobiles, as well as in giving them other needed servicing which makes them look their best as well as run their best. (Jack Hustle and bustle. (Jack M. Haynes Photo).

# Caterpillar Club May Set Up Local Posts, Officers

The members of the famed Caterpillar club are now voting by mail on the question of having local posts or chapters. Members from Big Spring are S/Sgt. T. E. Ferguson, A/C George Griffin, Lt. W. J. Hall and Lt. C. A. Shaw.

Founded in 1922, the club was a mythical organization until 1943. At that time, some oldtime Caterpillar members met and elected the following officers: Harold Foster, president; Marvin D. McDaniel, vice-president, and Verne Treat, treasurer.

Besides the formation of local posts of chapters, the plan calls for the promotion of safety in aviation, the issuance of a club publication and the eventual publication of a Log Book containing the emergency jump story, or stories of each member. Since there are now over 10,000 members and will be around 40,000 when all returns are in, the log book will run into several volumes of high adventure.

Prospective members should write to the Caterpillar Club, P. O. Box 1328, Trenton, N. J., for application form.

**HOMEY ATMOSPHERE**—This is one of the qualities which L. E. Coleman stresses in his Coleman Courts, which many Big Spring people utilize for apartments. Moreover, these comfortable rooms win preference of others to hotel accommodations, having all the conveniences, plus ample parking space and without downtown dustle and bustle. (Jack M. Haynes Photo).

has been able to offer in some time.

Dr. Wilke offers the best in watch repair, and has hopes of having a good stock of watches for sale very soon, what with the end of the war and the resumption of the manufacture of fine precision watch movements.

Also Wilke's is headquarters for the finest of colored glasses and goggles. There a stock of sun glasses of all types are available to meet any requirement.

An optometrist in Big Spring since 1922, Dr. Wilke has years of experience behind all of his work, and Big Spring people know that they can depend on the best of care for their most priceless possession—their eyes at the office of Dr. George Wilke at 106 W. Third Street.

# Jap Repatriates To Return Home

**NEWELL, Calif., Oct. 30 (P)**—Return to Japan of voluntary and involuntary Japanese repatriates will begin at an early date, possibly by November 15, officials of the Immigration Service announced today.

Ivan Williams, officer in charge and speaking for the Commissioner of Immigration and Naturalization Service, said a detail of men from the Department of Justice yesterday began a survey of the Japanese detainees at the war relocation authority Tulelake center here.

This survey, Williams said, will include persons whose applications for renunciation of their United States citizenship have been approved by the Attorney General, together with members of their families, whether citizens or aliens, who may desire to accompany them, alien residents who are segregated paroled under alien enemy proceedings, and alien residents who are under orders of deportation under the immigration laws.

# COMPLETE SERVICE, USED CARS AT ARNOLD'S GARAGE

A garage offering various types of service for Big Spring citizens is Arnold's Garage, located at 201 N. W. 2nd.

One of its chief features is the buying and selling of used cars within OPA ceiling prices. At present there is available at the garage a '41 Chevrolet coupe, '40 Oldsmobile Club coupe, '36 Oldsmobile Sedan, '36 Chevrolet Sedan and '37 Oldsmobile.

Joe Arnold, owner of the garage, has offered this feature since 1941.

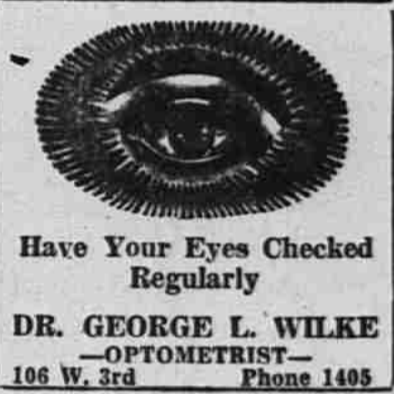

There isn't such a thing as a limit to working hours at Arnold's Garage even though employees' working hours are from 8 a. m. to 6 p. m. The garage also offers auto repair, body work and welding. Arnold says they do pick-up work outside city limits as well as inside, by phoning 1476.

Only recently was the garage stocked up with new used auto parts for almost any make of automobile.

Three experienced mechanics are employed at the shop to do their jobs efficiently. Even though some garages have been complaining about the work let up, Arnold's Garage continues to stay rushed.

Arnold has been in business in Big Spring since 1940. He secured his present location in 1944.

For complete motor tune-ups and other automobile problems, Joe Arnold is anxious to give his customers the best in the way of mechanical service.

**NEW IMPROVED PEACE TIME QUALITY COSDEN HIGHER OCTANE**

HIGHER OCTANE THAN BEFORE THE WAR!

Our Cosden Higher Octane and Cosden Premium Ethyl Gasolines are better than they were before the war—BECAUSE the war has brought out many wonderful scientific discoveries—and not the least of these is the remarkable advances in the quality of these premium gasolines.

The BEST way to prove these facts is to STOP AT THE SIGN OF THE FIRST COSDEN TRAFFIC COP, tell the station attendant to "Fill 'er Up"—then judge for yourself the improvement in Mileage!

**Cosden Higher Octane**

# Five Prep Contingents Rated On Even Terms

## Oklahoma Aggies Climb To Ninth Place Among Nation's Grid 11's

NEW YORK, Oct. 30 (AP)—Army, Notre Dame and Navy re-

tained the first three places among the country's top ten football teams as determined by the weekly Associated Press poll today but the remainder of the elite group underwent a thorough shake up.

Three new clubs were admitted to membership, three others grabbed new places and only beaten Pennsylvania kept its position.

Army, playing what the Cadet coaches said was the team's best game of the season, defeated Duke 48 to 13 Saturday and today did one of its best vote-getting jobs by snaring 91 first-places on the 106 ballots cast. Ten critics placed the team second and five rated it no better than third.

Notre Dame's unbeaten string and its 55 to 0 conquest of Iowa induced six voters to place the Irish first and Navy was the choice of three.

The Cadets, who have been on top since a year ago this week when Notre Dame relinquished the throne, gathered 1,040 points. Ohio State, Oklahoma A&M and Michigan are the new members of the top ten although it is a return appearance for both of the Big Ten clubs. Defeats suffered last Saturday by Purdue, Minnesota and Texas sent that trio out of the major ranking.

The leading ten teams determined on a basis of 10 points for each first vote, nine for second, eight for third, etc., (first place votes in parenthesis):

Army (91)	1,040
Notre Dame (6)	899
Navy (3)	798
Alabama (4)	706
Indiana	470
Ohio State	317
Pennsylvania	254
St. Mary's (2)	233
Oklahoma A&M	189
Michigan	154

Montreal, with a population of 803,007 is the largest city in the Dominion of Canada.

Before the printing press was invented, playing cards were hand painted.

## Lufkin Advances To First Place, Odessa Fifth

By HAROLD V. RATLIFF Associated Press Sports Editor

DALLAS, Oct. 30 (AP)—Ranking the high school football teams of Texas has become quite complicated. Results of the past several weeks have brought five teams virtually even with each other. Comparative scores show it as well as what has developed on the playing field.

You can rank either Lufkin, Highland Park, Waco, Wichita Falls or Odessa No. 1 and feel you are right in each instance. But here's how they look just to get something settled:

1. Lufkin.
2. Highland Park.
3. Waco.
4. Wichita Falls.
5. Odessa.
6. Goose Creek.
7. Amarillo.
8. Paris.
9. Austin.
10. Brownsville.

The second 10: Pampa, Plainview, Marshall, Brownwood, Breckenridge, Cleburne, Crozier Tech (Dallas), Milby (Houston), Galveston, Corpus Christi.

Temple in the Cotton Bowl? Right now that would look like a good bet. The Philadelphia school has as its coach, Ray Morrison, who started Southern Methodist University on the road to national acclaim. Morrison is quite popular in Texas—and Dallas.

Temple is undefeated and untied, holding victories over Syracuse, New York U., Bucknell, West Virginia and Pitt. That is not such an impressive schedule, however, none of those teams are strong. The victories over Pitt and Syracuse were by narrow margins—7-6 and 6-0. Temple plays Holy Cross which is a good team. If the Owls can come through over the Crusaders, they will be hot bids indeed for the Cotton Bowl.

Eck Curtis, coach of Highland Park, pays strong tribute to the Wichita Falls line that outplayed his stalwart Scotties last week in that 7-7 tie. "Those two big tackles (Willie Bigham, 246, and Bob James, 208) just about wrecked us," says Curtis. Curtis doesn't think Wichita Falls has a back as good as Cotton Lindloff of Waco, however, although he declared Lindy Berry was excellent.

Schoolboy football is attracting its largest crowds in history in Texas.

The biggest throng of the season was 17,000 that turned out at Houston to see Milby play. Dallas had around 14,000 at one game. The night Highland Park met Marshall in Dallas 23,000 turned out for schoolboy football here—12,000 for Highland Park-Marshall and 11,000 over at Dal-Hi field for a Dallas city race game.

Fort Worth has shown about 14,000 for a game and at Wichita Falls last week 13,000 jammed into the stadium to see the Scotties play Wichita Falls.

Odessa had a full house the night it met Amarillo, probably about 11,000. Amarillo can equal this and so on.

It's a far cry from the early twenties when crowds of 5,000 were a novelty. Coach Tyson of South Park (Beaumont) recalls that when he was coaching at Waco they had to go around town to raise \$70 to underwrite a game with Oak Cliff so it would be played in Waco. "We justified the confidence of the underwriters by making \$5,000 on the game," Tyson said.

The price of West Africa cocoa is determined in New York because the United States is the largest buyer.

## Little Planning Return To Links

CHICAGO, Oct. 30 (AP)—Lawson Little, who won both the British and U. S. amateur golf championships in 1934 and 1935, and then went on to win the U. S. open as a professional in 1940, is ready to get back into the golfing wars. Little, a lieutenant in the navy for almost three years, left here last night for his home in Monterey, Calif., and said he would be back in there swinging when the Bing Crosby tournament is held at Del Mar, Calif., late in December.

## Increases Push Oil Production Figures

TULSA, Okla., Oct. 30 (AP)—Increases in almost all sections pushed daily average crude oil production up 42,150 barrels to 4,270,000 in the week ending October 27, the Oil and Gas Journal reported today. The week's biggest increase was in California, where output rose 8,000 barrels to 845,750, but Texas climbed 10,000 to 1,711,700 and Illinois gained 6,800 to 212,350.

## Aggie Back Tops In Ground Gains In Southwest

By The Associated Press Preston Smith, Texas Aggie fullback, increased his lead in Southwest conference ball-carrying last week as he gained a net 59 yards against Baylor to bring his total to 502 in six games. Smith has carried the ball 108 times—much more than any other back in the circuit, conference statistics released today by James H. Stewart, executive secretary, show.

Sammie Pierce, Baylor halfback, stayed in second place but when he gained only 21 yards against A. and M. it widened Smith's lead. Pierce has a net of 447 on 59 runs. Big John Hoffman of Arkansas rolled up 125 yards against Mississippi to move into third place in the conference. Hoffman has carried 76 times for 325 yards.

Leon Joslin of Texas Christian still tops the passing, having thrown 61 and completed 31 for 499 yards. Jack Price of Baylor still is second with 358 yards on 29 completions out of 52 passes. Dave Moon of Southern Methodist is third with 16 out of 48 for 300 yards.

Bears have allowed only 758 yards in six games—an average of 126.3 yards per game. Texas A. and M. continues as the top defender against passing. The Aggies have allowed only 13 completions out of 54 for 196 yards. The individual punting race is a duel between Howard Maley of Southern Methodist and Jim Plyler of Texas. Maley has an average of 39.8, Plyler 38.7. Last week Maley kicked for an average of 41.7 against Tulane while Plyler averaged 41 against Rice.

MONDAY'S RESULTS At Shreveport: Wiley of Marshall, Tex., 26, Randolph Field Brown Bombers 0.

Why Buy War Bonds Now?

With The News by Dewitt Mackenzie AP Foreign Affairs Analyst

The resurgence of bloody strife between the powerful Chinese communist armies and Generalissimo Chiang Kai-shek's government forces may signal the dread civil war which long has threatened China—a disaster of the first magnitude.

A worried world heaved a sigh of relief in mid-October when the Chinese Reds and the generalissimo reached an agreement which ostensibly meant peace at long last.

You may recall that as far back as early 1943 I reported in this column, after a visit to China, that well informed observers feared the fierce quarrel could be settled only by civil war.

Whether we have now arrived at the show-down remains to be seen. We shouldn't rush to conclusions, but the situation is grave.

The trouble is that trying to make a union of the Chinese communists and General Chiang's Kuomintang dictatorship is like attempting to mix oil and water. The ideas and ideals of the two factions are as far apart as the poles.

Right here it should be pointed out that the Chinese communists claim there's no relationship between them and the Russian communists.

We'll, far be it from me to dispute the word of Chou En-Lai (who incidentally is a charming gentleman to meet). However, one may remark that what he said could be true, and it still could be equally true that the Chinese brand of communism had its origin in Russia.

In this connection it may be significant that sources favoring Chiang's government say they believe the only way to unify the nation is to eliminate the communists by force, and they think the generalissimo could do it in from three to six months.

Chanking observers are frankly pessimistic about the chances of reconciliation between the Chinese communists and Chiang's government, the atmosphere of the ancient city is heavy with gloom.

And what would civil war bring to China? There is no conflict so terrible as civil strife. It would mean that the country's five hundred millions would endure an agony far greater than anything they experienced during the Japanese invasion.

There are far more extent than living species of animals and birds. Whether parrots ever know what they are talking about is not absolutely certain.

The war is over. Why buy bonds? Whether stated openly or not, this question is raised in the minds of many people, not exactly as an excuse but as a sincere question from the minds of people who are faced with rather challenging living costs.

A few months ago one answer could have been given to such a question and that word was "war." Really, this is just as much the reason today, but it never was the basic reason for bond purchasing.

That reason was to spread the public stake in the heavy expenditures — to let the public hold a good part of the debt, if you please. It also was a means by which the excess spending power could be drained off without stifling initiative and enterprise and at the same time diminish the threats of inflation.

These are just as good reasons today as they have been for the past four years. It is still a wise policy to spread the public debt rather than deficit borrowing from financial institutions.

It makes good sense to put this money into bonds. Spent for something else now, it will buy considerably less than it will years hence and at the same time it will tend to spiral other prices upward. Moreover, it will be drawing a comfortable rate of interest.

The war is over. The after effects, including the tremendous costs, are not. What we need now is that element of ready cash in the hands of the government to keep from going to the bank to borrow. It is not, in the strictest sense to "pay for the war," for we will be doing that for years and years to come.

From The Herald's Austin bureau has come a story showing the upward trend of lease returns to the University from leasing of surface rights. One example of the increase, by which the returns have been multiplied, was in the renewal of a 10-year lease by the Scharbauer Cattle company on 106,360 acres west and northwest of here.

While the increase is desirable, we can't say it is occasion for shouting. That price is ample for a considerable expense of the land involved, but it is way below par on some of the rest. Moreover, we question the wisdom of leasing such a block of land to a single concern. Would not the returns be far greater and the public interest better served through breaking that down? Indeed, there is some of the land involved which would be practical for farming and thus be more productive.

It also might mean, as I see the picture, a further division of China. Unless Generalissimo Chiang could crush the Reds—and they are powerful—they likely would split off a huge territory in northern China and set up an independent state there.

Could this be a moment where the big three might use their influence to halt the strife?

MEXICO CITY, Oct 30 (AP) Miguel Calderon, technical advisor at the foreign office will leave late this week to assume his new post as Consul in Austin, Texas. He relieves Luis Duplan who becomes Consul General in Montreal.

Life's Darkest Moment

With The AEF: "Brain Ship" Sails For The U. S. Soon

TOKYO, Oct. 30 (AP) — The "brain ship" is sailing for home soon, after one of the most adventurous careers of any vessel in naval history.

She is the USS Ancon, 14,000-ton remodeled Caribbean passenger freighter which participated in five famous amphibious operations of World War II as the American Navy's first and chief headquarters ship.

She was known as "the admirals' go-cart," for she carried more high-ranking "brass" than any seagoing craft of this war.

This \$5,000,000 military dream ship, stuffed with costly communications equipment, was the target of repeated submarine glider bomb and Kamikaze attacks. In several operations she was the number one target for sky and sea raiders.

Yet, despite her record, she remains a comparatively unknown to the general public because she wasn't a "combat vessel" in the same sense as a battleship or a cruiser.

Washington— Dynamite, With Love, To Congress By JACK STINNETT WASHINGTON—President Truman's universal military training message to Congress takes its place with the September 21-point message as his most important public statement, and easily his most important speech.

Only a few days ago I passed along the question of whether the President might not have to abandon his back-slapping of Congress and take his issues to the people if he wanted to get any part of his legislative program enacted.

The universal military training message was the first time he publicly has abandoned the glad-handing of Congress.

What he did was put the cat squarely on the lap of the legislators. He left no loopholes for compromise. And although it was, in a name, a "message to Congress," it was President Truman's first direct appeal to the people since the hour after he took office.

It's no secret on the Hill that a good many members of Congress are sore as all get out about it. Universal military training is political dynamite. Congress felt that it had stamped out the fuse and that it wouldn't need to be relighted before next spring at least—perhaps not until after the 1946 elections.

But with no equivocating whatever President Truman said that, in his opinion, a year of military training for all of the male youth of America is necessary to the safety of the nation for some years to come and that legislation to put that into effect should be forthcoming immediately.

President Roosevelt, in the bitter days of his contentions with Congress, never stated his case more clearly. President Truman was serving notice on the legislative body that he was four-square on one side and one side only of this most controversial issue. The rest of his half-hour address was to you and you. He outlined his ideas on the issue as clearly as if he were writing the

Washington Merry-Go-Round—

Ford Will Play Ball With Labor

By DREW PEARSON

WASHINGTON—Labor Secretary Lewis Schwellenbach still is pinching himself to be sure that his recent conference with Henry Ford II, grandson of the octagenarian motor magnate and president of the Ford company, wasn't just a dream.

The labor secretary was goggled over young Ford's liberal views on labor questions and the current wage-price controversy.

Among other things, he gave Schwellenbach these assurances during their closed-door, man-to-man meeting: He declared that a new deal had been undertaken in the Ford empire, with many organizational changes planned to make friends with union labor, definitely putting an end to the company's union-baiting of the past.

Ford went flatly on record in favor of collective bargaining, declaring he would do all in his power to protect this right of labor in future wage negotiations.

Most important of all, he confided to Schwellenbach that if he was ready to agree to a 23 per cent increase in the wages of Ford auto workers, instead of the 15 per cent increase he has been advocating.

"I want to meet labor half-way," the auto chief asserted, pointing out that the United Auto Workers union has demanded a 30 per cent pay hike. He said he couldn't go the whole distance in accepting union demands, but was ready to accept a fair compromise and would play ball with the union leaders as far as he could.

Finally, while making no definite commitment, he strongly indicated to Schwellenbach that if a compromise settlement could be reached between the 15 and 30 per cent wage increase, his company would not ask the OPA for a sales price increase for its automobiles.

In this connection, young Ford said he realized clearly his company's responsibility in holding down further inflationary price trends and, he added, he was ready to play ball on this as well as wage increases.

Henry II told the labor secretary that one of his biggest problems was labor shut-downs in "feeder" plants, such as the Kelsey-Hayes plant, which supplies the Ford company with most of its wheels.

He said that if his company was to continue operations, so as to provide jobs and decent wages for union employees, the UAW would have to see to it that production kept going in these parts' plants.

Note—Story behind the organizational changes in Ford management is that the union-baiting "machine" of Harry Bennett, former personnel director, has been pretty well cleaned out. Insiders say that the guiding hand behind Henry Ford II in this move has been his mother, who has no love for Bennett because of the latter's meddlesome tactics while her husband, Edsel, was running the company.

Young Ford also has no affection for the hard-bitten Bennett, whose operatives used to guard him when a child and even made reports about his comings and goings to Grandfather Ford when Henry II grew to manhood. Edsel Ford also had to put up with Bennett's shadowing, and bitterly disliked him for it. Bennett was finally ousted from his job by Henry II and his mother, and now is operating a manufacturing sales office in Detroit, though still nominally a director of the company.

Battle of Atom The back-stage battle of the scientists over the atom bomb still rages. The scientists who

worked on the bomb have pleaded with Maj. Gen. Leslie Groves and Dr. Vannevar Bush to revise the May-Johnson bill for control of atomic energy, but without success.

American science will suffer a serious blow, they claim, and will lose future world leadership, if it is placed under arm regulation. Furthermore, scientists will be unwilling to extend themselves in order to spur an arms race which can only end in world-wide disaster, the young atom scientists argue. The pending bill, they are convinced, can only end in an arms race.

One of the leading scientists on the project—Dr. Enrico Fermi—has recalled to General Groves that German scientists led the world on the development of atomic energy until ten years ago. At that time the Nazis moved in on science, with the result that German research lagged behind and we were able to forge ahead. The present bill, the scientists claim, calls for even greater control than that imposed by the Nazis.

Senate Elder Statesmen Although many comparative youngsters are taking senate seats these days, there are still a dozen senators well over 70 years old. Some of these oldsters, like aristocratic Theodore Green of Rhode Island, sincere Jim Murray of Montana and sanctimonious Josiah Bailey of North Carolina, are as vigorous and active as any of the youngsters. Some of the others, however, are not.

Much-loved Carter Glass of Virginia has not been seen in the senate in over two years. Another octogenarian, popular Arthur Capper of Kansas, has the gleam of youth in his eye and is regularly at his office. But he misses a great many committee meetings. That is why Senator Bob Taft, Ohio republican, was so triumphant as he escorted Capper to the meeting of the senate banking and currency committee at which the final vote was taken on the full employment bill. Taft's attempt to defeat the bill in committee finally lost out, but in Capper he had one more vote for his cause.

Chairman Bob Wagner of New York, himself a youngster of only 68 years, was stumped as Taft paraded by him with Capper. "I've got Capper here," Taft said gaily. "Now let's see you get Glass."

Chairman Bob Wagner of New York, himself a youngster of only 68 years, was stumped as Taft paraded by him with Capper. "I've got Capper here," Taft said gaily. "Now let's see you get Glass."

Note—Here are the ages of the older statesmen of the senate: Bankhead of Alabama, 73; George of Georgia, 67; Thomas of Idaho, 71; Willis of Indiana, 70; Capper of Kansas, 80; Reed of Kansas, 74; Barkley of Kentucky, 68; White of Maine, 68; Walsh of Massachusetts, 73; Bilbo of Mississippi, 68; Murray of Montana, 69; McCarran of Nevada, 69; Bailey of North Carolina, 72; Moore of Oklahoma, 74; Green of Rhode Island, 78; Austin of Vermont, 68; McNellar of Tennessee, 76; Connally of Texas, 68; Glass of Virginia, 87.

Treasury Watch-Dogs They received almost no publicity for their work, but Representatives Henry M. Jackson of Washington and Herbert Bonner of North Carolina this month saved the U. S. treasury between \$250,000,000 and \$300,000,000. And they are ready to keep up their fight in order to make certain that

the senate doesn't give away the money they have saved. By a series of three amendments to the ship sale bill, the two congressmen convinced their confused colleagues—most of whom were completely unaware of what the bill contained—to write in safeguards which will prevent oil companies and U. S. shipping lines from making additional millions from the sale of the U. S. merchant fleet.

From \$100,000,000 to \$150,000,000 was saved by the Jackson amendment alone. It provides that the government sell its oil tankers at 100 per cent of cost—on the basis of pre-war construction costs—less yearly depreciation. The bill originally called for a price of 75 per cent of the pre-war cost—which would have meant the sale of hundreds of tankers to big oil companies at only about half what they cost to build during the expensive war years.

A second Jackson amendment is expected to save about \$50,000,000 for the government. It affects ships sold during the war to private firms with a provision for price adjustment after the war. The Jackson amendment prevents a shipper from having his price adjusted downward from, for instance, \$2,000,000 to \$1,500,000 unless he returns to the government the \$500,000 he received as rental from the government since he bought the boat. He is, however, permitted a 3 1/2 per cent return on the actual cash he had laid out.

About \$100,000,000 was saved by North Carolina's Bonner through an amendment limiting the trade-in allowance the government may give on an old vessel turned in as part payment for a newer ship. The government is taking many old hulls from the shippers and scrapping them. Without the Bonner amendment, ships worth only five dollars a ton might be accepted by the government on a trade-in at prices as high as \$50 a ton. The amendment limits the trade-in allowance to 10 per cent of the original cost of the ship.

These three amendments caught the shippers unaware. They had been confident that the ship sale bill would zoom through the house just the way they wanted it. But their plans were changed by the spunky young ex-G.I. from Everett, Wash., and the former secretary to Congressman Lindsay Warren, who today, as comptroller-general, is charged with seeing to it that the government does not pay out more than it legally should. Bonner, incidentally, is doing almost as good a job in congress as his old boss, Warren, which is saying a lot.

Man-In-Motion Problem Child Of Instructors

By HUGH FULLERTON, JR.
NEW YORK, Oct. 30 (AP)—The latest headache for football coaches who pour "T" for the opposition these Saturday afternoons seems to be the "back in motion" penalty. . . . They're all catching it and a couple of speakers at yesterday's hamburger and hot air emulsion protested that they wouldn't believe the officials until they had seen the game pictures. . . . Army's Herman Hickman maintained there was considerable doubt about some of the penalties called against Army because officials can't be sure when that ball is snapped right back into the quarterback's hands whether or not it is passed before the backs start moving. . . . And Am Walsh voiced a similar opinion about a costly penalty to his Cleveland Rams. . . . Maybe spherical Steve Owen had the answer for that one: "Herman," he said, "the way those boys of yours can run after they get started, I wouldn't be in a hurry to get them off."

the army against Paule Jackson at Hartford, Conn., tonight. . . . Don Faurot, heading back to his old job as Missouri grid coach, points out that the Tigers have two years to go on their interrupted contract with Fordham. But Don points out: "We don't want to resume unless Fordham has teams something like they used to have."

Cleaning the Cuff—
Dudley Jones, who set the Michigan State college one-game basketball scoring record (25 points) in 1942, will re-enter school this winter after three years in the merchant marine. . . . Virginia Tech which has been emphasizing the youth of its footballers this season, had a note in the program last week that when fall practice started "there were three candidates still awaiting their seventh birthdays." . . . After seeing Tech play Virginia, Coach Mac McEver probably claimed it wasn't a typo but they really looked like eight-year-olds.

Margie Neill Killed In Automobile Wreck

Mrs. W. E. Smith has received word of the death of a niece, Margie Neill, 20, who formerly resided here, in a car mishap in Lubbock Sunday. She was killed instantly.
Miss Neill, daughter of Mr. and Mrs. Herbert Neill, Brownfield, worked for Western Union here last winter. Services were set for 2:30 p. m. today at Brownfield.

Services Conducted For Linda Kay Baker

Final services were held for Linda Kay Baker, infant daughter of Mr. and Mrs. Sam Baker, 104 E. 7th, Sunday afternoon at the Presbyterian church. Rev. J. E. Moore officiated.
The baby girl was stillborn Oct. 27 in a local hospital.
Survivors include the child's parents and other out-of-town relatives.
Palbearers were Elmer Boatler, A. A. Porter, Lee Porter and Cecil McDonald. Eberley-Curry Funeral home was in charge of arrangements.

**Elliott Speaks To Rotary Club Tuesday Lunch**

Happiness can't be caught by chasing it, Dr. William M. Elliott told the Rotary club Tuesday noon at the Settles.

Dr. Elliott, pastor of the Highland Park Presbyterian church in Dallas, is leading in a union meeting sponsored here by the Pastors' association and held at the First Methodist church at 10 a. m. and 7:30 p. m. through Thursday.

"More frequently, the person who takes time to stand still finds happiness settling upon him, he said. The reason it is so difficult to find it is because "we look in the wrong places."

Happiness is a state of peace in the inner-self, and no self-centered person can be happy, the speaker declared. Rather, the happiest person is the one who does the most to help someone else.

He did not look upon youth "as our problem" but as "our hope," provided that they be taught the basis of happiness. "We must stay with them," he said, "for if we lose them we lose our hope." Dr. Elliott contended that the Christian spirit was a requisite to complete happiness and concluded that we "can be only as happy as we know now to be."

**Works At Killing Pace**  
**Former Big Spring Man Engineer In Charge Of Los Alamos Project**

A former Big Spring man, Jack R. Brennand, served as engineer in charge of the Los Alamos project, a key unit in the atomic bomb development.

Brennand, whose parents were pioneer residents of Big Spring and for whom the Brennan addition in southwest Big Spring is named, is a nephew of Mrs. V. Van Gieson.

The Los Alamos project has been awarded the "E" by the war department for the nation's "tribune to your patriotism and to your great work in backing up our soldiers on the fighting front."

The job was done by the Robert E. McKee Construction company of El Paso. Work was started on Jan. 7, 1944 and pushed at feverish rate until more than \$10,000,000 of outlying and technical buildings had been installed.

When Brennand led construction engineers to the Los Alamos site, they found three feet of snow on the ground, and temperatures were dropping 10 below zero. Working conditions were difficult and sometimes those on the job had to sleep on cold concrete floors. They had no information of the nature of the project but

**Curtain To Rise On 'Cover Girl' Tonight At 8:30**

Curtain goes up at 8:30 p. m. today in the city auditorium on "Cover Girl," a lively musical revue being presented here by Gordon Kibbler under sponsorship of the Lions club.

The show has toured the nation, being spotted at many AAF bases and recently was featured in a run during the West Texas Fair at Abilene. Currently, it is making a swing throughout West Texas.

"Cover Girl" stars Jean Dixon and nine other beautiful young women in the revue numbers, and Paul Neilson's Dixieland band, billed as the "greatest little band in America." The Six Adorables also are given good spots on the fast moving production. Gala costumes, comedy and catchy tunes are packed into the stage production.

Tickets will be on sale at the box office at the auditorium after 7 p. m., said Jack Smith, president.

**Fathers To Set Up 4-H Club Booths**

Fathers of 4-H boys will meet here Wednesday to begin setting up booths in the county warehouse barn for the Howard County Pig, Poultry, Food and Field Crops show, which gets underway Thursday afternoon and continues through Saturday.

Though the recent freeze hurt the vegetable crop within the county, a prominent display in that line is expected.

Judges for the annual fete will be Ted H. Roench, Colorado City; J. H. Martin, and Fern Hodge, the latter two of Stanton.

Prize money to be proffered blue ribbon winners totals \$570, according to Durward Lewter, county agent.

**Eight Volunteers Taken Into Navy**

Eight volunteers have been accepted for the Navy for immediate induction a report from the Selective Service Board shows.

Included in the group were Billie D. Allen, Hubert D. Barber, Chester L. McSwain, James E. McGlin, Don A. Cook, Billy J. Eppler, Floyd E. Young and Frank E. Hicks.

W. L. Wilson, Jr. was accepted for induction in the army during October. William Jesse Gibson enlisted in the army through a recruiter and Clifton Marle Baird, William J. Sneed, Jr. and Charles E. Ahern enlisted in the navy through a recruiting officer.

Army Rhymes and Vivian Rubles, both negroes, were accepted for induction in the army on the September call. Alvin Foster, negro, volunteered for immediate induction and was accepted by the army.

**STRIPED EFFECT FOR CURLY LOCKS**

SALT LAKE CITY, Oct. 30 (P)—A new hairdo — "skunk locks"— has been adopted by the bobby-soxers at the South high school.

Dark-haired girls use bleaching solution to turn one lock of hair blonde.

Coed Darleen Buckley admitted the result was startling, and she added: "My parents were stunned at first — but they're reconciled now."

**FALSE ALARM?**

KANSAS CITY, Oct. 30 (P)—Four fire companies complete with a hook and ladder outfit, rushed to the scene of what appeared to be a grain elevator blaze.

At least witnesses thought they were seeing smoke pouring from the cupola atop the elevator.

However firemen who clambered to the top of the 200-foot structure found—a big swarm of bees.

**Livestock**

FORT WORTH, Oct. 30 (P)—(USDA)—Cattle 5,300; calves 4,200; moderately active, uneven; most classes about steady; good beef steers and yearlings 14.00-15.25; common and medium grades 10.00-13.50; few good cows 11.75-12.25; medium largely 9.50-11.50; cutters 7.00-8.00 and canners 5.00-7.00; sausage bulls 7.50-9.50; good and choice slaughter calves 12.25-13.25; common and medium 8.50-12.00.

Hogs 75; active and steady; good and choice 15.00 lbs up 14.65; sows 13.90; stocker pigs 14.00-15.00.

Sheep 3,700; slaughter ewes steady to strong; other classes steady; medium grade fat lambs 11.00-12.00; medium grade yearlings 9.50-10.50; good ewes and aged wethers up to 6.00; medium and good ewes mixed 5.50, common and medium ewes 5.00 and 5.25; medium and good feeder lambs 11.50-12.50.

New England was once buried under 1,000 feet of ice.

**Outdoor Toilets To Be Replaced Soon**

Lawrence Wells, city sanitarian, is working on plans of installing sanitary toilets to replace all the outdoor privies within the city limits.

Because of the scarcity of plumbing materials and plumbers, city officials do not believe that the town can be rid of outdoor toilets until next summer.

**Rescue Grass Tested For Forage And Seed**

Rescue grass, although not a native to Texas, is being tested for forage and seed after proving its hardiness for nearly 100 years in the state.

The Texas A&M extension service is planting test plots and mowing for forage. Results have been generally satisfactory to excellent. One plot yielded 1,169 pounds of seed and 2,165 pounds of air-dry forage per acre. These ranged down to 20 pounds of seed and 1,353 pounds of forage per acre on the sixth test plot. This difference points to a sharp variance in ability of rescue grass to produce seed and forage. The experiment is designed to produce seed in commercial quantities by 1946. Tests are being made on seed imported from Australia.
