

TWO KILLED, DOZEN HURT IN WRECK

Revision Of New Tariff Measure Is Demanded

DEMOCRATIC FIRE AGAINST BILL GREATER

SENATOR SWANSON HAS WARNING: SAYS U. S. TO SUFFER

WASHINGTON, Aug. 4.—The Democratic fire on the Smoot-Hawley tariff law intensified today with a demand by Senator Swanson of Virginia, that the six weeks old measure be revised.

A statement by the Virginian, issued through the Democratic national committee, said American agriculture would be further depressed if the act remained in effect and warned of an eventual closing of the markets of the world to this country, in protest against the high tariff wall.

Interests Demand Revision
"The best interests of the United States," he asserted, "demand a revision of this vicious bill which is only beneficial to a very few special interests."

Since assurance was had that the Smoot-Hawley bill would become law, Swanson said, seventeen nations had increased their tariffs in retaliation.

Duties Imposed
"Italy," he said, "has imposed an almost prohibitory duty on automobiles from the U. S. which challenges all hope of expanding our commerce in this industry in that country. French tariff rates have been increased on coats, potatoes, wheat, flour and various food products and automobiles. European customs union, a group of political and industrial leaders from 13 continental states, met in Paris on June 30 to discuss tariff solidarity."

CITY IS READY FOR DRUGGISTS

BETWEEN 300 AND 500 ARE EXPECTED TO ATTEND MEET

With only a week separating them from date of the annual convention of the West Texas Pharmaceutical association, committees of the local druggists association have announced that all is in readiness for entertainment of the visiting delegations. Indications at this time are that members of the association from all sections of West Texas will be present, numbering between 300 and 500.

Committees to care for the visitors in this city have been named and consist of the following: Transportation—Morgan Dickinson and Wm. Dingus; Registration—Ester Stinson and Joe Kehl; Reception—W. R. Pickett, chairman; Dinner, Walter Myrick and J. O. Smith; golf, Morgan Dickinson and O. Smith.

Hilton Is Headquarters
Registration will be in the lobby of the Hilton Hotel, convention headquarters and a luncheon will be served at that place the second day. A banquet is scheduled to be held at Hotel Lubbock Tuesday evening and a dance for visiting delegates also will be given the first night.

A letter received here today from T. Stinson of Snyder, president of the West Texas association, states that Lubbock druggists have given the best cooperation ever received from hosts in convention cities and that he expects the Lubbock meeting to be the best in history of the association.

E. L. Robertson, president of the Lubbock Druggists association, stated today that this city is ready for visitors and will make every possible effort to give them a royal welcome and entertainment while here.

LOS ANGELES, Aug. 4. (AP)—Douglas Fairbanks' prominence as an actor is avowed three robbers who entered his beach home yesterday they overlooked jewelry valued at \$100,000 belonging to Mary Pickford, the actor's wife, he revealed later to reporters.

Fairbanks did not report the robbery to police in an effort to keep it secret.
"The robbers thrust a gun in his side, the actor said, when he started to the door which he had forgotten to lock. Fairbanks said he turned on the light, was immediately recognized by the three young bandits who became embarrassed. The bandits said they were sorry, Fairbanks told reporters, but said they had to have money.
"I gave them \$20 or \$30 and they left hurriedly. They may have been sorry but they took the money anyway. I guess we got off easy at that."

DAVIS LAD NEAR DEATH, IS FEARED

The Death Angel today again hovered over the sick-bed of John Ewing Davis, 11-year-old son of Mr. and Mrs. A. B. Davis, 1720 Main street. It is the first of May, the young son of the manager of the Board of City Development, has time and time again fought off this ravaging of heart disease but this morning attending physicians feared that he might not rally from his most recent setback.

John Ewing's life has been despaired upon several occasions since he became ill but each time he has rallied when medical men feared it was beyond the powers of human endurance to do so. A close watch was being kept this afternoon in the Davis residence, where the lad has been confined throughout his illness.

Mr. Davis, who has been close to his son throughout the illness, was called from his office in the City Hall this morning. He will remain at the bedside until the crisis has passed.

TEN PERSONS ARE DROWNED

LOUISVILLE, Ky., Aug. 4.—A Sunday outing of three related families at a fishing camp on the Ohio river near here ended in tragedy yesterday when a boat carrying nine small children and three adults capsized. Five children and the father of one of them were drowned.

Joseph Guenther, 45, his daughter, Matilda, 12, his niece, Mildred, 12, and Mary Lee Guenther, 10, his nephew, William Guenther, Jr., 9, and a cousin, Mary Louise Heichelbech, 10, sank immediately. The bodies were recovered several hours later.

GOVERNOR ROOSEVELT, AL SMITH AND JOHN RASKOB MEET FOR SOCIAL CHAT; MAY BRING ROOSEVELT AS CANDIDATE

SOUTHAMPTON, N. Y., Aug. 4.—Averredly for the sole purpose of enjoying each other's company, Governor Franklin D. Roosevelt, John J. Raskob, and Alfred E. Smith were assembled in the Hamptons today.

After a tour of the state parks along the south shore of Long Island, the governor arrived at 7 o'clock last night to visit his law partner, Basil D. O'Connor, at Westhampton.

At 10 o'clock the Democratic national chairman and former Governor Smith left Canoe Place Inn, at Hampton Bays, where they were staying, for the O'Connor residence.

"This is the truth, Billy," the former governor said solemnly to one of the newspapermen who was a friend of his in Albany days, "we're just going over there to have a nice sociable time and tell funny stories."

PEASANTS ARE USED TO HIDE THEIR MARCH

BANDIT HORDES PLACE HUMAN SHIELD IN MARCH ON CITY

HANKOW, Aug. 4.—How Communists advanced into Changsha behind a human screen to shield themselves from the fire of troops defending the city was related here today by a wounded colonel of Hunan provincial forces.

The officer, arriving here for hospitalization, said the Reds entered the city behind masses of fettered peasants. The peasants' hands were tied behind their backs.

Slaughtered Defenseless Men
Before realizing the helplessness of the peasants provincial troops opened fire, the colonel said, but held their bullets when they saw they were slaughtering defenseless persons in large numbers.

Advancing then without opposition, the Reds easily dispersed the provincial troops, inflicting heavy losses, and began their carnival of murder, robbery and arson.

Evacuation Speeded Up
Meanwhile the evacuation of Kuling, Kiangsi province summer resort, was speeded up as the Communist menace persisted there.

United States naval authorities also announced they Yangtze river patrol would be improved to cope with the situation in the Communist ridden valley.

Changsha was shelled by a Chinese gunboat last night, dispatches said. Communist machine gun crews on the northern outskirts of the city returned the fire until most of the Reds were believed withdrawn, still was in a precarious position. Communists remaining in the city were still armed.

STERLING SUPPORT TO BE ORGANIZED

Supporters of Ross A. Sterling, in his race for the Democratic nomination as Governor of Texas, will meet here tomorrow night to organize a Sterling support organization.

The session, to which all Sterling supporters are invited, will begin promptly at 8:30 o'clock Tuesday night and will be held in the Criminal court room, on the third floor of the courthouse.

Mr. Bean said Rossie Wilson, another prominent lawyer here, was aiding him in the organization of the Sterling campaign.

Two Negroes Held On Pro Law Charge

Silas Jefferson and Letha West, negroes, were arrested late Saturday night and lodged in the Lubbock county jail charged with possession of intoxicating liquors for the purpose of sale.

PASSENGER TRAIN OF FORT WORTH AND DENVER DERAILED NEAR VERNON DURING SUNDAY

HEAVILY LOADED MOTOR TRUCK KNOCKS TRACK OUT OF LINE AT UNDERPASS; BOTH VICTIMS WERE EMPLOYES OF RAILROAD COMPANY

VERNON, Aug. 4.—Two men were dead today and a dozen injured persons were being cared for in hospitals here, in Wichita Falls and Fort Worth, as a result of derailment yesterday of a Fort Worth and Denver railway passenger train at an underpass at Oklaunion, eight miles east of here.

F. P. Robinson, 65, of Wichita Falls, the engineer, one of the oldest in the railroad's service, and A. A. Vance, 40, of Amarillo, fireman, were fatally injured. Robinson died almost instantly but Vance was scalded by escaping steam from the locomotive's boiler and died in a hospital here.

The railroad tracks had been knocked out of line when a heavily loaded motor truck failed to clear the trestle as it attempted to go through the underpass on the highway.

Tried to Flag Train
Arthur Cummings, driver of the truck, heard the train approaching and ran up the embankment to the tracks and flagged it; but the train was traveling too fast to stop. The locomotive, two baggage cars and two day coaches left the rails, rolling down a 10-foot embankment. Two sleepers remained on the track. More than 300 feet of rails were torn up.

Robinson, the engineer killed, was the father of Ted W. Robinson, president of the Fort Worth baseball club and Fort Worth business man.

The injured: Virginia Clark, White Deer, Tex., twisted knee; Mrs. Clara Selby, Pampa, Tex., lacerated shoulder; Carl Echols, McPherson, Kan., hip, back and internal injuries, probably fatally injured; L. D. Bowen, Dallas, Texas, serious bruises; Miss Hazel Fry, Leonard, Texas, head injuries; Jessie Cromer, Goss, Texas, bruised chest and shoulder; J. A. Hughes, Amarillo, bruises; R. N. Franklin, Amarillo, broken ankle; T. E. Croston, Amarillo, hand cut, head bruises, taken to hospital.

FATHER SEEKS CHILD CUSTODY

J. R. BIRDWELL FILES ACTION IN COURT IN CITY

Hearing on application for a writ of habeas corpus for possession of a six-year-old child will be held in 72nd district court here before Judge Homer L. Pharr Wednesday morning at 9 o'clock.

Petition was filed in the court late Saturday by J. R. Birdwell, father of the child, who declares that W. G. Harris, living 22 miles northwest of this city, refuses to give the boy up.

Given Temporarily
The child, James Royce Birdwell, was said to have been placed with Harris temporarily due to the fact that the father, a sufferer of tuberculosis, was receiving treatment at a sanitarium in San Angelo. Birdwell, in his petition declares that he believed he was acting for the best interests of the boy but that he now learns he is being neglected and that Harris is unable financially to care for and educate him.

In his petition, Birdwell alleges that he has never surrendered his parental authority and that James Royce has never been adopted by Harris, yet he refuses to release him to his father.

MENCKEN SAYS HE IS WISER NOW

BALTIMORE, Aug. 4. (AP)—H. L. Mencken, prospective biographer after writing gibes at the tender passion for two decades, had but one comment today on the announcement of his engagement to Miss Sara Fowell Haardt, writer for magazines.

"I formerly was not as wise as I am now," he said.

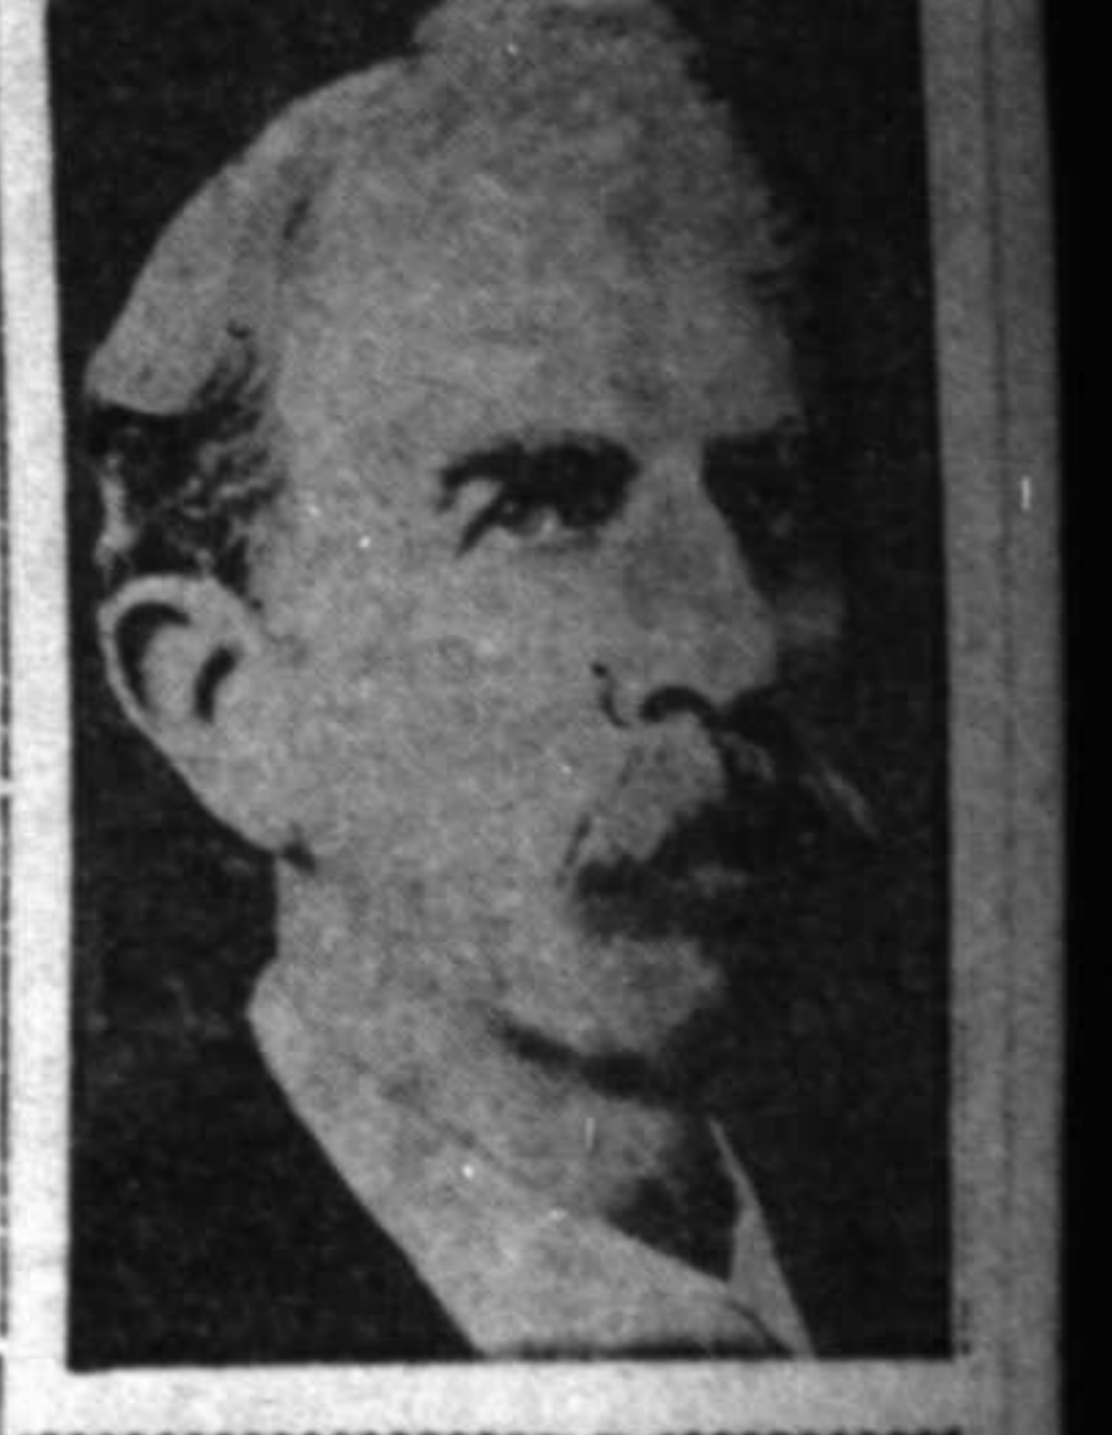

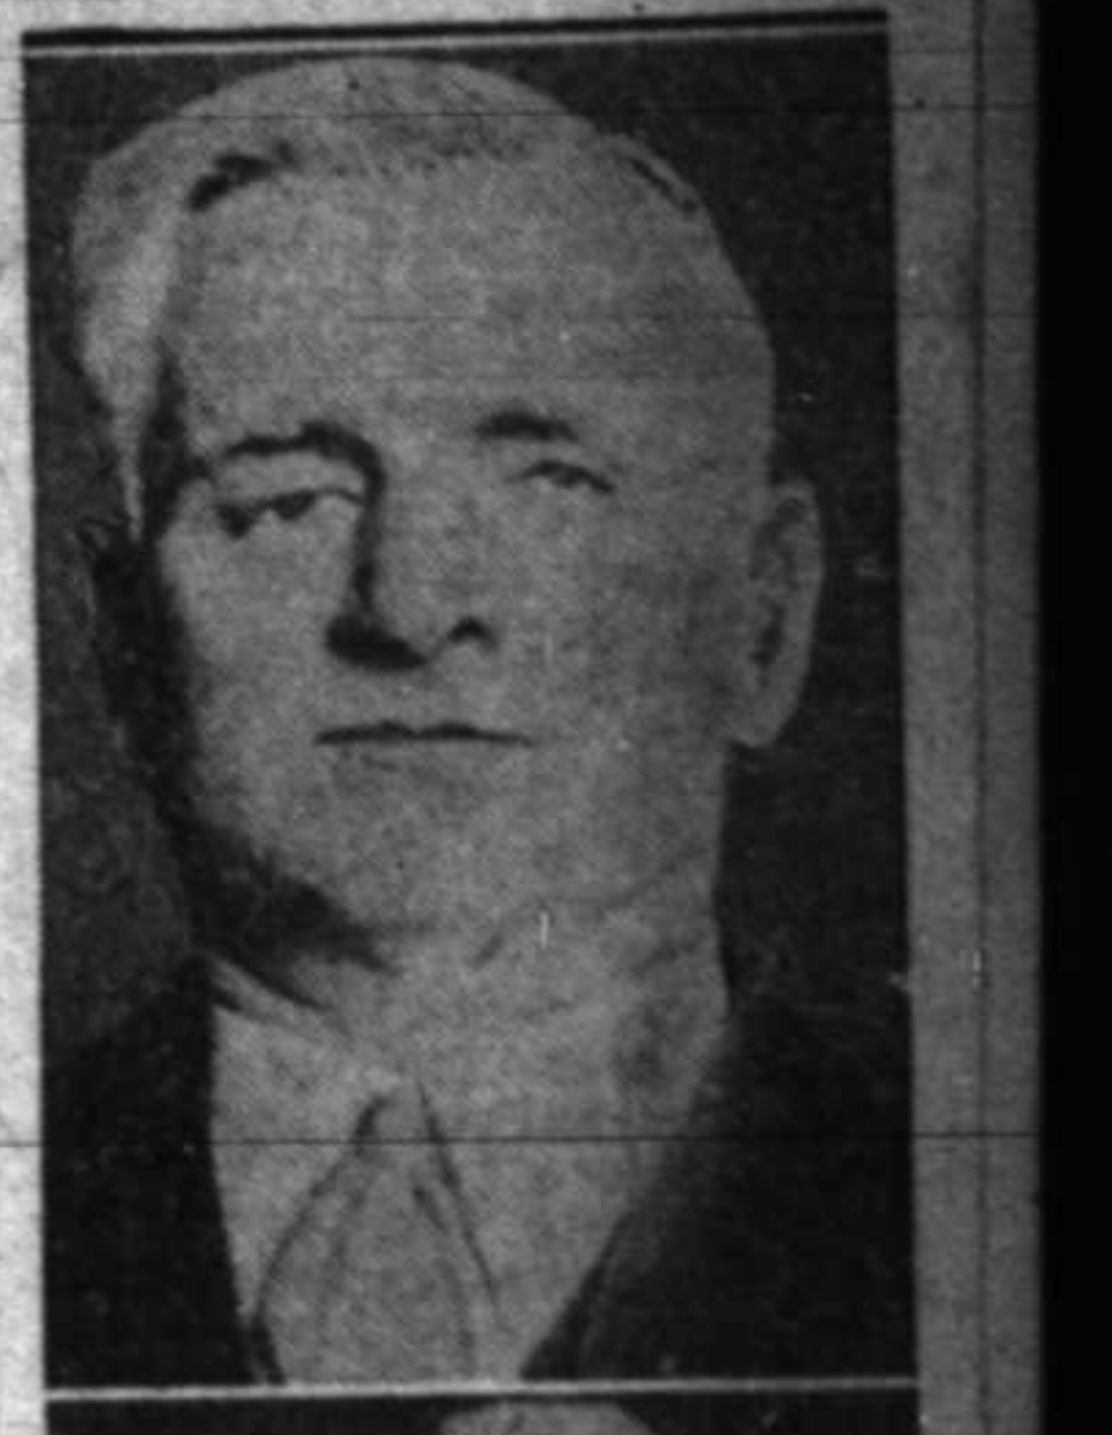

Mencken, editor and critic, said plans for the ceremony were "very indefinite."

On one point he is consistent. The man who wrote that "being married with all your friends about you is as private and discriminating as eating in the window of a restaurant" said his wedding will be very quiet.

"It will be very refined," he said with a laugh.

ENDURANCE IS IN THIRD WEEK

JACKSON AND O'BRIEN CONTINUE TO SOAR FOR NEW MARK

ST. LOUIS, Aug. 4.—With two weeks of sustained flight completed today, Forest O'Brien and Dale Jackson continued to soar on in their effort to regain the endurance record they lost recently to the Hunter brothers at Chicago.

Early tomorrow the fliers will be within 200 hours of the Hunter brothers' mark, established a month ago today after remaining aloft nearly 554 hours.

Their plane, "The Greater St. Louis," yesterday was equipped with a radio transmitter, which will enable the fliers to broadcast their wants to the ground crew. The device eliminates the necessity of the pilots swooping low over the field for the purpose of dropping notes to the refueling crew.

Stereoscopic Effect Of Vision Given The Screen

LOS ANGELES, Aug. 4.—George J. Spoor, pioneer in the motion picture industry, announced today he had perfected after fourteen years of experimentation a process by which the stereoscopic effect of natural vision is given to the screen.

The first public exhibition of the new film was announced for September 15 at a theatre here.

A camera with two lenses, both of which record impressions on film through a single aperture and new methods of development, projection and sound recording are features of the process.

The double exposure camera places its identical impressions on the film in "staggered" formation. This feature, Spoor said, gives the illusion of depth on the screen.

The new film will run through the projection machine at a speed at which the individual pictures will be seen in rapid succession.

Sound registrations are made on the edge instead of the surface of the film. By January 1, Spoor said, a process by which natural colors may be combined with depth by the new camera will be perfected.

Spoor was president of the old Essanay Film company, during its motion picture days in California.

Replicas Of Colonial Furniture Safer Than Originals

Comfort and simplicity are combined in this bedroom, furnished in replicas of early American style, and are carried out in the wall and window decoration. The hooked rug is a colorful and charming touch.

By Central Press
A complaint often made by members of households where early American originals are extensively used in the furnishings is, "There is not a safe, comfortable piece of furniture in the house." It is very often a perfectly true statement, for American colonial style pieces are very scarce, expensive and often too frail and rickety for constant use.

For this reason reproductions are more desirable than originals when colonial is the scheme of decoration. Manufacturers are now making replicas and adaptations of the early American pieces which are quite as beautiful as the originals, and much more substantial.

The hard rigorous days of early American history are reflected in the heavy, stern furniture of the period, and it is used best in a colonial home. It allows of adaptation to other surroundings, however, provided these are not so pronounced in design as the Italian Renaissance or Spanish styles.

Difference in thought, wealth and geography, perhaps, accounts for the difference in the various colonial styles. Colonial furniture is an adaptation of the styles appearing in England and France at the same time, and there are few distinct marks by which to characterize it. Usually the plain surfaces are unadorned, and most of it is of chaste proportions and great dignity.

In grouping early American pieces, care should be exercised to bring together furniture harmonizing in line so that decidedly angular furniture is not grouped with that in which curve predominates. Early American pottery, hooked rugs, pewter and colonial silhouettes are effectively used in a room furnished in colonial pieces.

Optometry ■■■

Science as a whole has advanced with rapid strides in recent years, and Optometry is one science that has added its share to this advancement. Research work has been carried on in the universities and in general practice and this knowledge thus gained, with recent inventions, enable the Optometrist to render a service heretofore unknown to the public.

Among the troubles which we are able to now take care of is found:

1. POOR VISION, brought about by lack of use due to muscle imbalance or nervous control.
2. MUSCLE IMBALANCE, caused by poor nerve stimulation,—teaching the muscles of the two eyes to work together.
3. FUSION DEVELOPMENT, making the Brain Centers recognize the pictures from the two eyes at the same time. This is the most important of these troubles and causes many people discomfort.

We find in examining the eyes of children that a great number have better vision in one eye than the other. If neglected, one eye begins to do all the seeing and the vision in the "weaker" eye gradually fades from non-use.

This is one of the conditions that causes Crossed Eyes, the weaker eye turning in or out from lack of being able to work with the other eye. The image in one eye is clear while the other image is blurred and possibly distorted. By proper procedure, the vision in the weaker eye can be built or restored thereby causing the brain centers to recognize both images at the same time.

This causes the eyes to become straight and work together normally.

Muscle Imbalance in the eyes causes more trouble than any other defect. There are six eye muscles attached to each eye on the outside which move the eyes in different directions, and unless these muscles are all working together one will have uncomfortable if not painful vision. On the inside the eye there are three muscles whose work it is to focus the light. If these muscles are defective, then we have blurred vision, causing quite often headaches, nervousness, wrinkles around the eyes, and many other troubles.

Much work and research has been done along these different lines and OPTOMETRY is able to render this service and care for the eyes so that in later years the eyes are in much better condition, thereby lasting the person much longer.

The next time your eyes are examined, be sure your eye muscles are tested, because all these muscles must be functioning properly for you to have clear, comfortable vision. Only modern equipment can accurately be used in these examinations in order to accurately measure these defects.

To see clearly is the desire and prerogative of all, wealth, culture, education, skill, strength,—all are forgotten when the need is for better vision. Every advance in the practice of Ophthalmic Optics is an added cause for rejoicing among those whose happiness depends on this vital issue. The eyes of the world are on OPTOMETRY, heralded as the "fulfillment of an ideal." It is daily proving itself more than worthy of that claim, patients, realizing that Optometrists have given them better vision, are passing the good word along. Truly the world will be a brighter place to live as Optometrists continue to bring added light to those who strive for happiness.

TAHOKA CLUB CINCHES FIRST HALF OF SOUTH PLAINS LEAGUE

IN THE REALM OF SPORTS

With Collier Parris
Journal Sports Editor

Texas Tech is going to get her field house, just like Del Morgan and the rest of us said she would. We always get what we have to have, and Tech had to have a separate dressing room for the gridiron boys. The rooms will be constructed under the present stands at the football field, and will be adequately built to care for all of the football equipment and locker service for gridlers. Coaches Morgan and Gohlighly, beginning their first season's work with Tech, go behind the proposition and threatened to build the house even if they had to do it by public subscription. Not to be outdone, the Tech athletic council, which wisely saw the need for a new building, passed resolutions and authorized the construction of same. The council is to be congratulated, and the coaches are to be congratulated for starting the move.

This battle for the top rung of the Texas league ladder has ceased to be a matter of more or less caste. The Waco Cubs, hitherto lowly in the matter of the league standing are still swatting 'em right and left to give the Spudgers something to think about. Most of the big boys blame the success of the Cubs on electric bulbs, but don't the other teams of the loop play after dark, too? True, the Cubs have been more successful in their night games than in the daylight games, while with other teams it is the reverse which holds true. At any rate, it is nip and tuck with the Spudgers and Cubs, with the other teams trailing in the rear now, five weeks before the end of the season. The Spudgers have been having a bit of hard luck recently, but they are in a position to use some of the help that will be sent down by St. Louis.

But what ho! There's another contender for the second half title and that contender supplanter Wichita Falls Saturday in the second place stand in the way of the Cats. It is a surprise if the Port Worth Cats should continue in the role of runners up. In fact, it would not be as surprising for the Cats to win the second half as it would for the Waco Cubs to feature in the play-off series for the title. The Cats have been coming right along, and their trouncing of the Spudgers gives them a boost which they are not likely to give up soon. The Cubs retained their standing at the top of the ladder because the Spudgers lost. At any rate, it would be an interesting race for the rest of the season.

It may not be this year and it may not be next, but some of these fall mornings the Southwest Conference is going to wake up to find something in the way of entertainment and opposition. Its source will be down Houston way, in the locality occupied by Rice Institute. How the Rice Owls have remained in the conference when there were other teams as much more able and strength desiring membership is a question around which some mystery has been attached. But, clinging on they do, though they remain the joke of the league. The other teams have found favor with Rice's members because when they lost to one another they found solace in the thoughts of winning at least one game, and that over Rice.

It will not be this forever. A school with the attractions offered by Rice in its day going to come into its own in an athletic way. It started last year when the Institute had the best freshman football team in the conference. This fall they will be of the variety class, and already an influx of freshman material for 1930 has started. Riceward, so prospects of a team in 1931, at least, are considerably bright. Other conference schools are not having so much luck in attracting brilliant high school players, but Rice, apparently, with all her resources and the Foundation, is willing and able to pay the price. It will be a good investment. We know of two popular players, at least, and there are others, who have signified intention of attending the Bayou school this fall. They are Fred Lauterbach and "Dutch" Rhinehold, two of the greatest tackle in the state. If their six feet and 200 pounds and tackling ability at Wesley college means anything, they'll be in the Rice line in 1931, and their presence is pretty sure to be conspicuous to other members of the conference.

Flying time of the air line between Vera Cruz, Mexico, and Panama City has been shortened approximately one day.

JACK BERG AND KID CHOCOLATE MEET TONIGHT IN WEEK'S BOXING FEATURE

(By Associated Press)
NEW YORK, Aug. 4.—The White Chapel whirlwind, Jack (Kid) Berg, battles Kid Chocolate, Cuba's spunky featherweight, in a ten round bout at the Polo Grounds Thursday night in the outstanding contest on the National boxing schedule this week.

Berg, generally regarded as the most formidable of all the challengers for Al Singer's lightweight title, will have close to ten pounds' weight advantage over the sensational Chocolate who never has been beaten, either as an amateur or a professional. Berg rates a 6 to 5 favorite at present although the fighters probably will enter the ring at even money.

SOUTHLAND DEFEATS LAMESA; LOCALS ARE VICTORIOUS

TAHOKA, Aug. 4.—(Special)—The Lynn county entry easily clinched the top position for the first half of the South Plains league schedule when they shut out the Levelland team 5 to 0 here yesterday. Three runs as a result of bunched hits in the fourth topped by a home run in the fifth by Larkin, Tahoka first sacker, proved the nemesis of the Levelland team.

Knight pitched for Levelland, going the route, but was touched for eleven hits, rather poor support in the field was a factor in the win for Tahoka. Lefty Squires went all the way for the Tahoka team, and held the visitors to four hits, keeping them well separated.

Score by innings

Levelland..... 000 000-0 4 5
Tahoka..... 001 310 00x-5 11 4
Knight and Green; Squires and Hollis.

SOUTHLAND TEAM SLUGS TO VICTORY

LAMESA, Aug. 4.—(Special)—Southland's slugging baseball team won another game yesterday when they defeated the local entry in the South Plains league by a score of 10 to 7 here. Lamesa used two pitchers in attempting to stop the heavy scoring, but McWhorter and Davis could not hold the visitors. Gregory went the route for Southland. As a result of the win, the Southland club takes possession of second place, and thus bids fair to hold that average when the first half of the season ends this week.

LUBBOCK WINS FROM BROWNFIELD, 6-3

BROWNFIELD, August 4.—(Special)—The Lubbock Hubbers tried a new pitcher here yesterday, and for seven innings the Brownfield team was held to two hits and scoreless, while the Hubbers jumped on McCann and knocked him all over the lot for six runs in the first five innings. Cummings went the route for Lubbock and held the locals to six hits, while the visitors took a dozen bingles off McCann.

Score by innings

Lubbock..... 001 110 000-6 12 4
Brownfield..... 000 000 030-3 6 3
Cummings and Deaver; Dyer, McCann and Castleberry, Coffey.

SECOND HALF RACE TURNS INTO BATTLE

CUBS AND PANTHERS IN SECOND PLACE; STONER BEATEN

BY GAYLE TALBOT, JR.
Associated Press Sports Writer

If there had been any last, lingering doubt that the head men of the Texas league acted wisely in calling for a new deal late in June, it had been effectually removed today.

What they gave away in voting for a split was a race that had died on its feet, the Wichita Falls Spudgers so far ahead that they didn't even finish. What they got in return was a race that today had assumed all the proportions of a riot, six clubs jammed in such close quarters that their breaths blended to boot, you might say, the various club treasurers were possibly 30,000 paid admissions ahead of what they would have been had the marathon not been divided.

Race Is Tight

The only similarity lay in the fact that the Spudgers were on top, just as they were when the first half ended. But, instead of the eight or nine game margin they would have had, the upstarters were a bare half game ahead of the Port Worth Cats and Waco Cubs. The Spudgers went on top yesterday by noosing out the Cats 4 to 3 in 10 innings, their first victory in their last five starts. Their evaluation light refused to leave his car, but when Officer Bowman attempted to drag him out, "Fourteen Count" jumped to the ground and assumed a fighting pose.

"FOURTEEN COUNT" BARRY GETS K. O.

CHICAGO, Aug. 4.—(Special)—Dose Barry, who gained the sobriquet of "Fourteen Count" after the Dempsey-Tunney fight in Soldiers Field in 1927, was knocked out early today by a Niles center policeman.

Barry, according to Robert Bowman, was parked along a suburban road within the village limits of Niles Center, and the automobile had no lights on.

Cycle-Racing Bowl Burns In New York

NEW YORK, Aug. 4.—(Special)—The Velodrome, its wooden cycle-racing bowl was destroyed before dawn today by a spectacular fire.

Its frame track and seating stands burned like tinder when flames, apparently from a carelessly tossed cigarette stub at last night's races, broke out near the main entrance, and although five alarms brought dozens of pieces of fire-fighting equipment to the scene the structure was reduced quickly to a charred ruin.

With seats for eighteen thousand spectators, and a landmark of uptown New York since it was erected at 225th Street and Broadway about nine years ago, the Velodrome was one of the largest cycle-racing stadia in the world.

NEW YORK AND BROOKLYN ARE RATHER FRIENDLY UNTIL GIANTS ARE TRYING TO REACH TOP; BABE HITS NUMBER 4

The Brooklyn Robins and New York Giants have done each other several good turns this season by beating their rivals from Chicago and St. Louis at timely moments. But when they go against each other, whatever friendly feeling they may have is forgotten, particularly when the Giants are trying to reach the National league.

There was great rejoicing in Flatbush yesterday when the Robins came out ahead of their rivals from the other side of the east river by a 1 to 0 score in one of the season's first pitched duels. Babe Ruth hit a home run in the eighth inning, and the Robins held a slight edge over Dazzy Vance, who had not won a game or even completed one since July 14. But Babe Herman opened the Robins' half of the ninth with a hit that he stretched into a double by brilliant base running. Moore sacrificed him to third and the Giant board of strategy ordered the move of walking Wright and Busonette to fill the bases. The plan failed and Hubbell continued to pitch balls and walked Flowers also to force in the game's only run.

Despite the report that the Robins would rather beat the Giants than win the pennant, they can get a great deal of satisfaction from today's standing, for the victory put them three games ahead of Chicago. The Cub machine went to pieces after sailing ahead of the Pittsburgh Pirates for seven innings, and Pittsburgh scored eight runs in the eighth and a 12 to 8 triumph. All used the victors by contributing his fourth home run of the year game series to the rally while Hawk Wilson hit his 25th of the year for the Cubs.

The St. Louis Cardinals improved their fourth-place position by winning two games from Cincinnati, slugging out a total of 27 hits to win by scores of 11 to 6 and 6 to 3. The one who did not play in the first game featured by hitting a homer as a pinch hitter, the second time he has performed the feat. The Phillies, after losing twelve twin bills this season and diving a few more, won their first double in the year by a 11 to 5 and 4 to 1. Phil Collins and Claude Wingo pitched the two games.

The theme of rivalry between neighbors was carried out in the American league by the New York Yankees and the Philadelphia Athletics, with the Yankees leading a six run uprising in the eighth inning to win by a 9 to 3 count. Before this assault on Rube Walberg the game had been close with Babe Ruth's fourth home run of the year as the one who did not play. The Yankees put the homer into the back-ground when he settled the argument with a triple with the bases full.

The first division results in the National league were all in favor of the Yankees for the Boston Red Sox finally broke their losing streak. Walker and Praeger, Thurman that went two extra innings before a decision was reached. Oscar Eckhardt finally broke it.

Storti Does Trick

Storti's double, followed by two sacrifices gave the Spuds the lead to lock the Cats in the tenth and square their series. Blanked by Lil Stoner for six frames, the Ollers fell on the strikeout expert for three 57ms in the seventh to square the count. Meanwhile Vance had relieved Stengraff to hold the Peines titles for the last four innings.

The exporters made a clean sweep of their home stand against Waco by coupling a double bill, 7 to 4 and 2 to 0, and incidentally lifting themselves out of the basement. Failing on Ship Cannon for five runs in the first inning, the Shippers sewed up the initial conflict early, but the second was a grand twirling duel between Jimmy

THE TINYMITES
 STORY BY HAL COCHRAN - PICTURES BY KING

READ THE STORY, THEN COLOR THE PICTURE

The vegetable girl just smiled and said, "Now watch the basket on my side. That's where I always carry it. Easy, you can see." She walked and even tried to skip. Then she shouted, "It will never slip. You Tinymites could balance one upon your side like me!"

All right, I'll try it," Scouty cried. He gave that basket quite a ride. He held it up on his head. "I will do the rest." This was no more said than done. Then Scouty and it wasn't run to hold a basket that way, though he tried his best.

Soon Clowny shouted, "Better go! I'm sure that basket's going to slip!" And sure enough, the basket did! It slipped from Scouty's head, but Carry quickly reached out and caught it by the handle. In a clever bid, he said,

I gave it to the vegetable girl with a clever little whirl she swung it to her head again. It stayed there safe and sound. And then said, "It's just a trick. If you can't, you are slick. I've practiced it and now it never falls down to ground."

and then she added, "Well, good-bye. I think I'd best be on my way." "Times are good-bye," and she went walking down the street. The vegetable man then shouted, "Come! I'll follow me and I'll find some right that you have not yet seen and it will be a treat."

Not far away they found the sign. It pleased every Tinymite. The queer-looking man sat by a peaceful as could be. The vegetable man explained that they did sometimes sit the live long and stroke their odd-shaped wapes, which all the bunch could

Erring Motorist Gets Out Light For Violation

COLLINGSWOOD, N. J., Aug. 4 (AP)—An erring motorist was freed from the clutches of the law last night by having his hair cut.

A touring car occupied by five young persons, dashed by Policeman Frank Bennett's traffic light, which was turned against them.

A blast from his whistle brought the car to a stop. The driver informed Bennett he could not see the traffic light because his hair blew in his eyes.

The minor of the law gave him the alternative of going to the station house under arrest or to a barber shop to have the offending locks clipped.

Without a word the driver parked his car at the spot and entered a barber shop.

Gaines County Oil Test Shows Water

SAN ANGELO, Aug. 4 (Special)—Humble Oil & Refining Co.'s No. 1 Carwell Gaines county wildcat, after encountering a small showing of oil from 4,675-55 feet picked up one barrel of sulphur water hourly from 4,710-25 feet, according to information reaching San Angelo Thursday morning. Drilling had progressed to 4,775 feet in time.

While the small amount of water does not condemn the test—Deep Rock Oil Co. and others No. 1 Ogden, Andrews county discovery producer had some pay below water—it was considered an unfavorable indication. No. 1 Carwell is running low structurally. It is 600 feet out of the southwest corner of section 23 parallel to the section lines of block A-47, public school land.

Electrocution Ruled "On Purpose" Death

CHICAGO, Aug. 4 (AP)—Death by electrocution is not accidental, it happens "on purpose," Federal Judge Howard has decided in the case of Mrs. Joseph Diamond of Chicago, Ind., against the New York Insurance company.

The diamonds sought to collect on 10,000 accident policy carried on her son, Harry, who was electrocuted at the Michigan City, Ind., plant for the murder of his wife.

The diamonds contended their son was put to death by unknown persons against his will, this constituting accidental death.

Judge Woodward held that although Diamond's death was against his will, his own felonious deed was venial.

No legal question of legitimacy or convert an execution into a death from natural causes," he said.

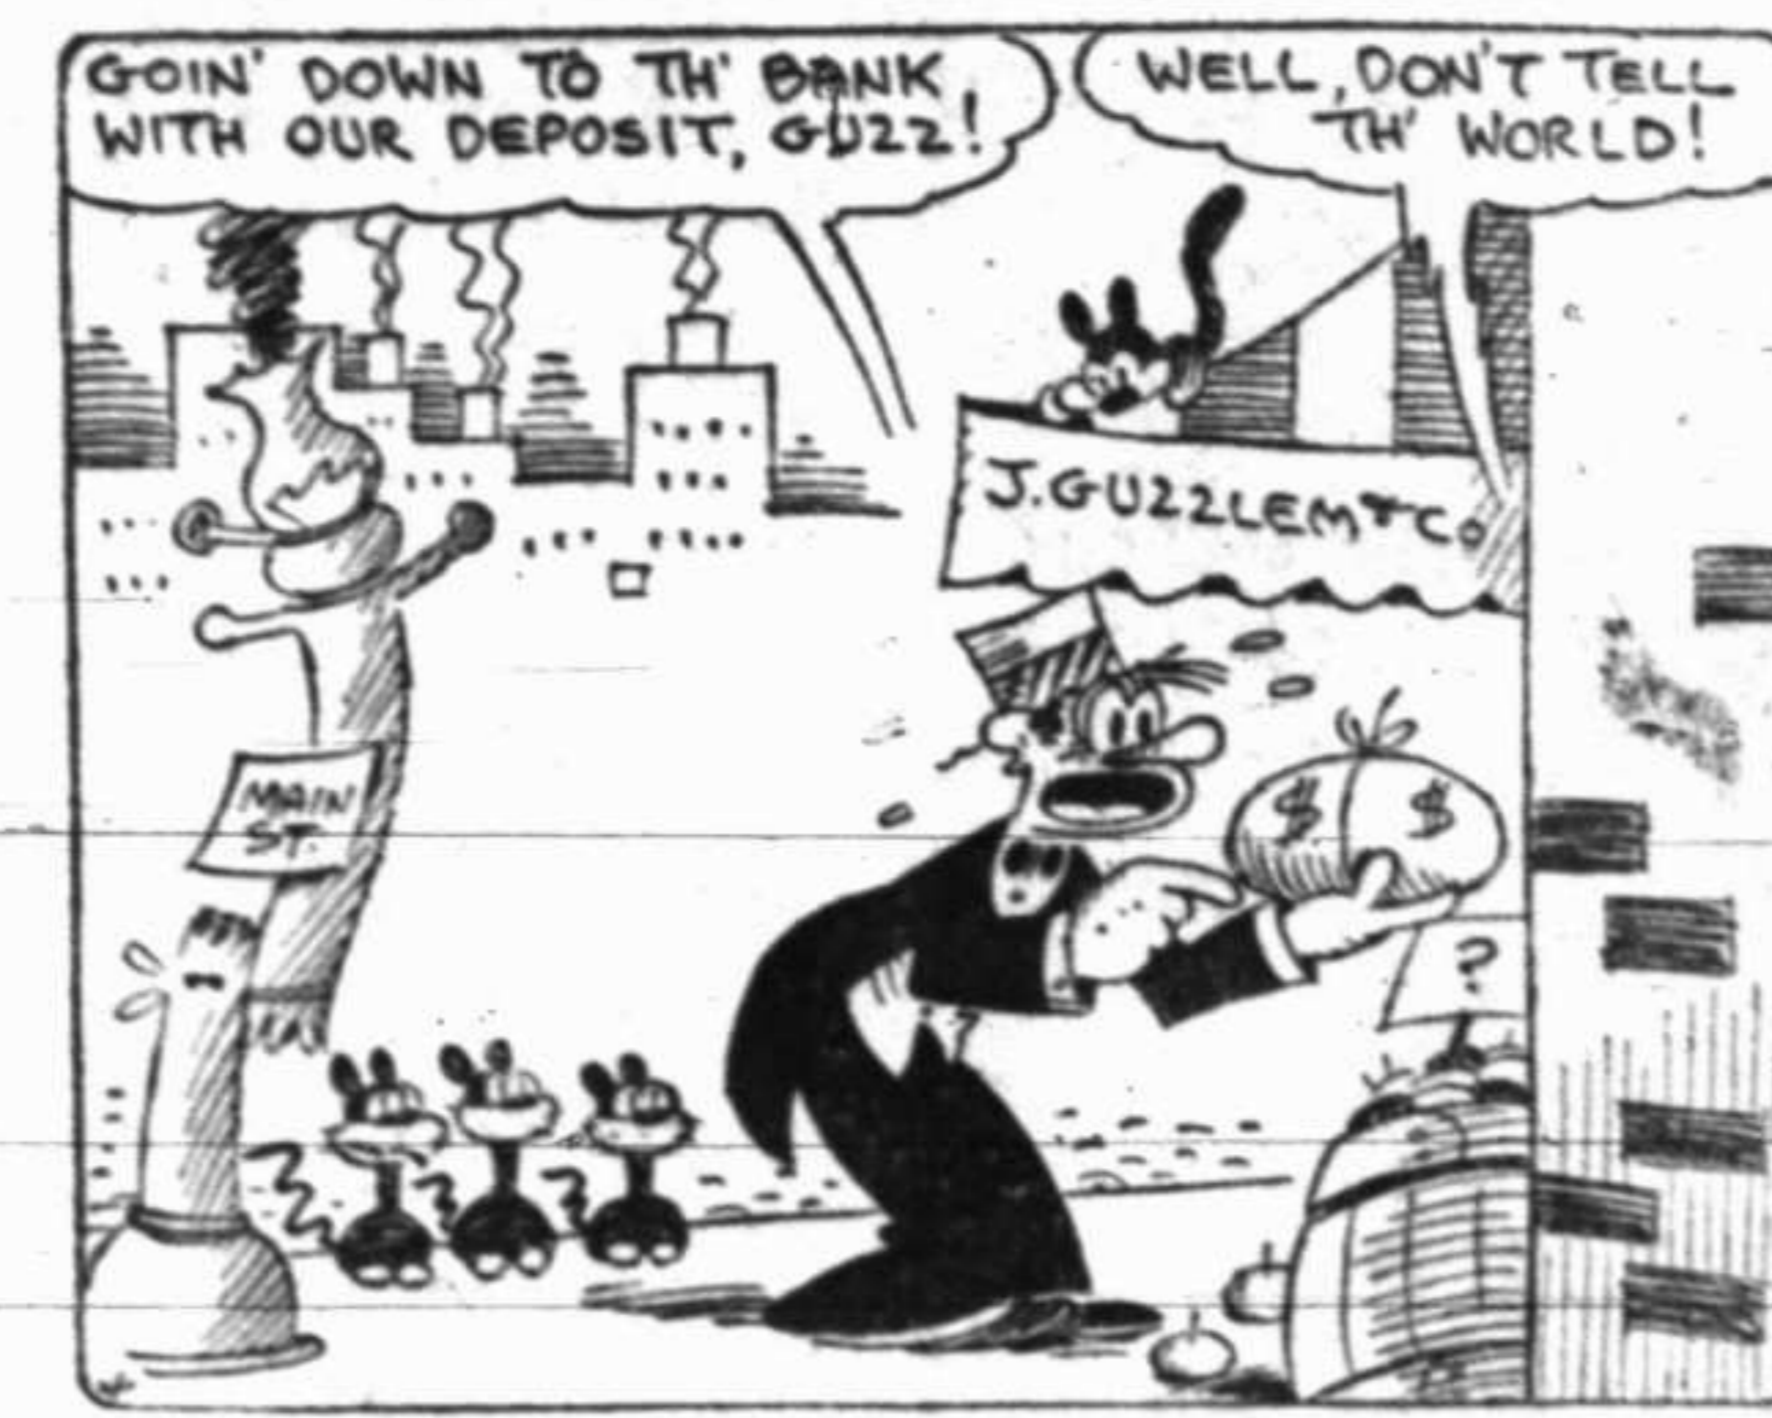

Miss Worth \$11,783, Court Decision Says

STOCKTON, Calif., Aug. 4 (AP)—She assumed the value of \$11,783 to J. A. Fitzgerald and Mrs. Myrtle McConnell as the result of judgment on the bench today. That was the sum awarded Julian Diamond for injuries suffered in automobile accident which he suffered occurred when Fitzgerald left Mrs. McConnell's invitation to kiss her.

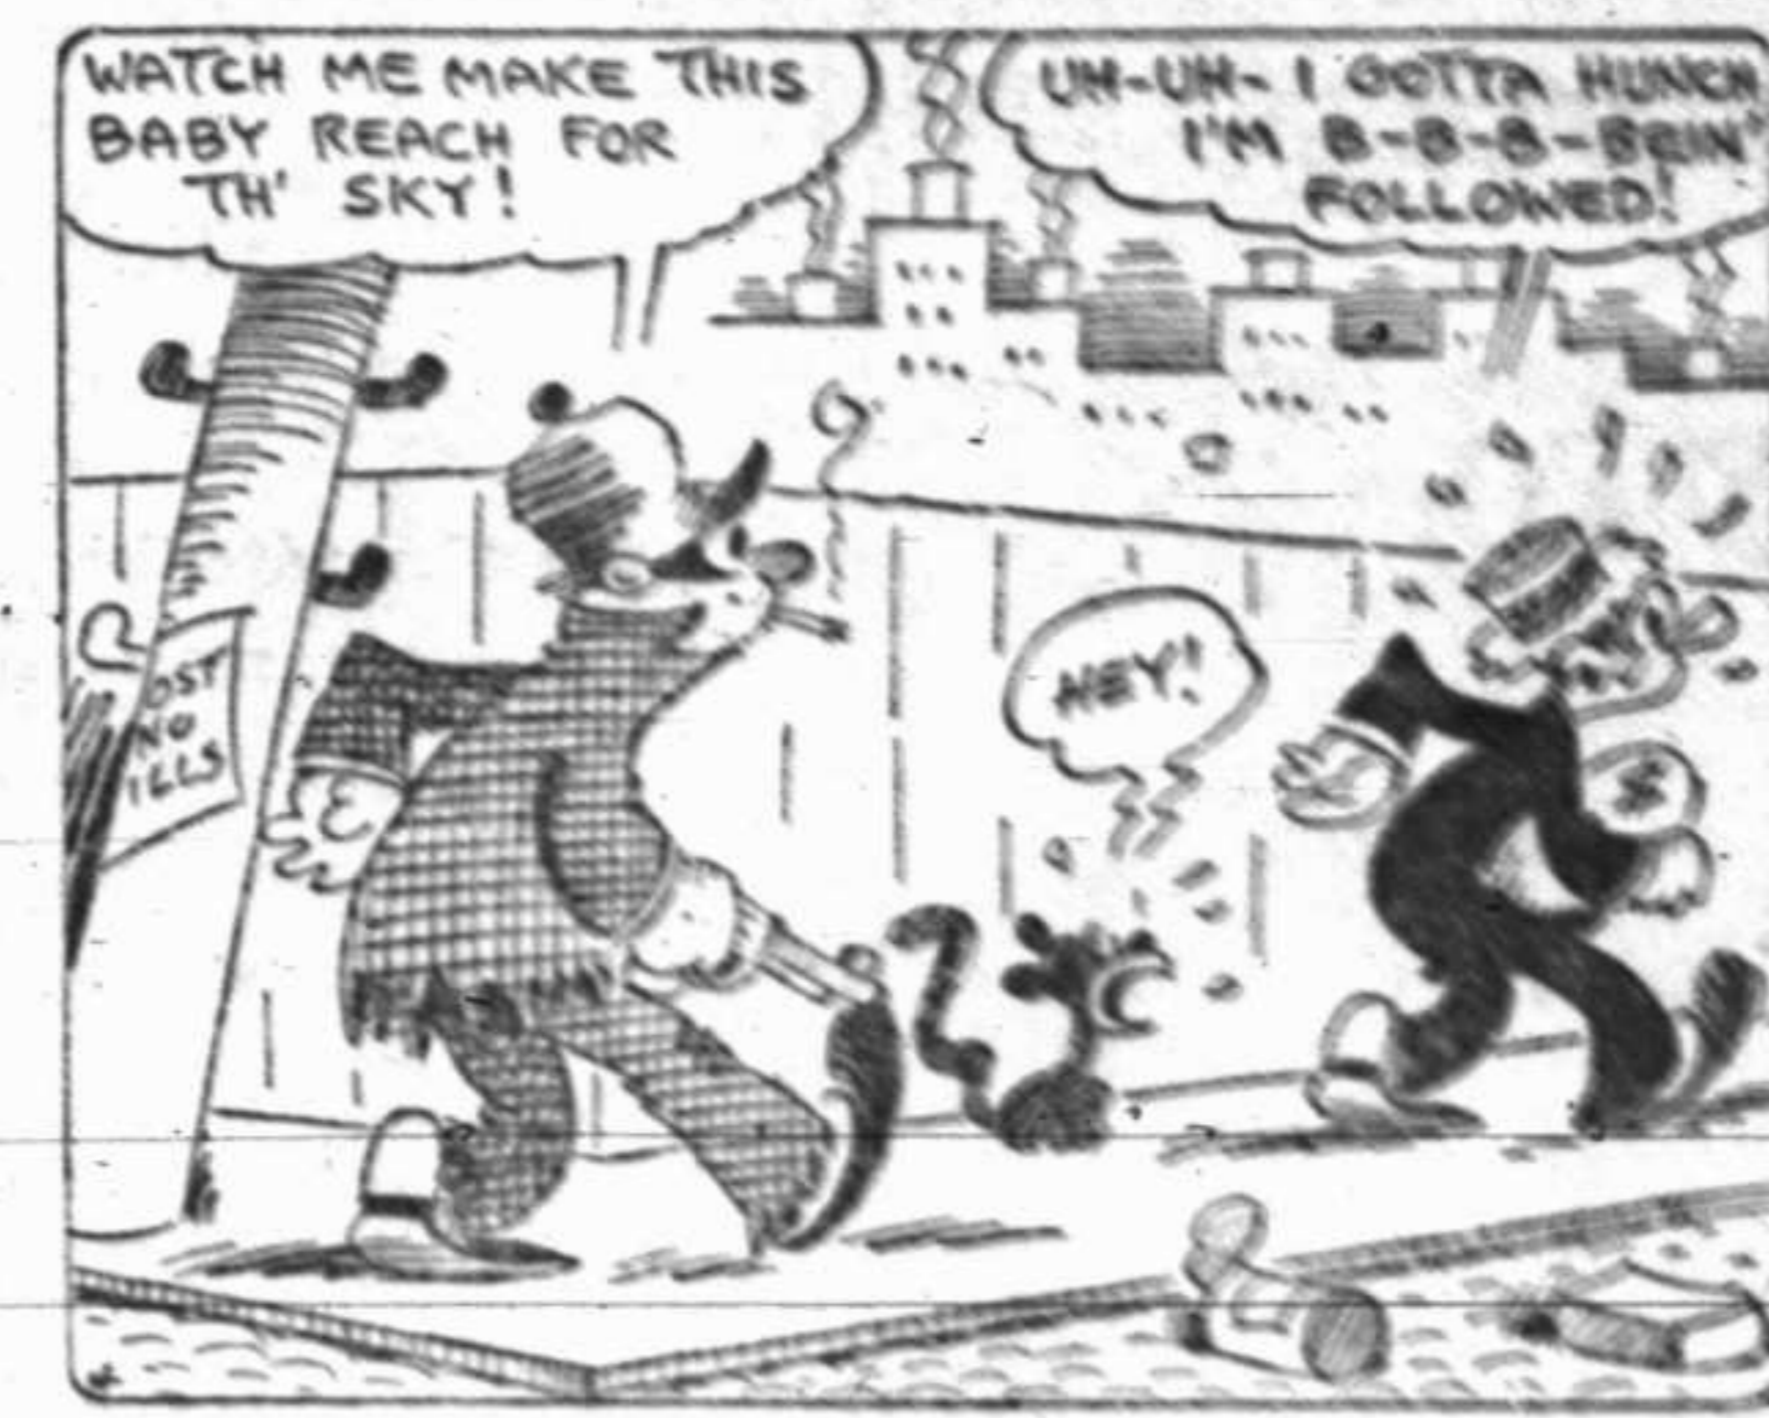

Williamson was injured when a car turned over in which Mrs. McConnell, Fitzgerald and he were riding.

GROWER MUST PAY TO MEET COMPETITION

WESTBROOK POINTS OUT
FUTURE; SPEAKERS
ARE HEARD

(By Associated Press)
COLLEGE STATION, Aug. 4.—The outlook for foreign competition looming larger and larger, market conditions should have a bigger place in guiding both the quantity and quality of farmers' production, Lawrence Westbrook, organization manager of the Texas Cotton Cooperative association, of Dallas, told the men's group at the farmers short course here Thursday.

"Premiums or penalties, as the case may be, should be credited to or assessed against the grower in order to provide the necessary incentive," he said.

Discuss Topics
Dr. E. O. Baker, of the bureau of agricultural economics, United States department of agriculture, discussed the land utilization aspects of the world's agricultural situation; and Jack Shelton, manager of the Luling foundation farm, spoke on short cuts in cotton costs.

Dr. Baker said that due to America's declining birth rate it is not certain that more farm land will be needed to feed and clothe the country.

Officers of the Texas Agricultural Writers' conference were elected as follows: R. E. Zetaki, Bellville Times, president; Henry Ansley, El Paso Times, vice president; Mrs. M. R. Bentley, Bryan Eagle, secretary.

The first three high places in the terracing contest for boys were won by Larcus Pace of Motrague county, Edridge Summers of Montague county, and Bonnie Zachary of Taylor county. They received gold, silver and bronze medals.

HOOVER PLANS TO CUT DOWN

PRESIDENT URGES HIS
MEN TO ACT FOR
ECONOMY

(By Associated Press)

WASHINGTON, Aug. 4.—Dissatisfied with the progress made in cutting down governmental expenditures for the year, President Hoover today called on cabinet members and heads of independent establishments to speed up their plans for economies.

The chief executive was said at the White House to believe sufficient progress had not been made since he discussed with the cabinet, July 18, methods for decreasing expenses to meet a possible reduction in revenues arising from slack times. As a result he requested that special emphasis be given these efforts and today conferred with Secretaries Lamont and Davis and Postmaster General Brown on the matter.

Porto Rico's imports in the first four months of this year totaled \$13,950,000, as compared with \$26,786,000 in the same period of 1929.

JONES BUYS TEXAS ROAD

PARIS-MOUNT PLEASANT
IS SOLD; TO BE
CHANGED

(By Associated Press)

PARIS, Aug. 4.—Sale of the Paris and Mount Pleasant Valley railway properties to Percy Jones, Abilene capitalist, was completed Saturday through the First National Bank of Paris, by a stockholders' committee represented by R. F. Scott, sr., president of the railroad.

The consideration involved and the value of the railway properties were not announced. Jones recently acquired through Chicago brokers who represented the bondholders practically all outstanding bonds of the road, so that the sale Saturday was reported as giving him virtually absolute control of the railroad. Jones is the son of the late Morgan Jones, pioneer Texas railroad builder.

The Paris and Mount Pleasant railway is 52 miles long. Since 1921 it has been in receivership in the 42nd district court, with R. W. Wortham of Paris as receiver. The receivership is due to terminate within about 90 days and Jones announced that at the end of that time, he expected to begin reorganization of the railroad.

DAVISON SAYS TRAINING IN BLIND FLIGHTS IS IMPERATIVE, NECESSARY

(By Associated Press)
SAN ANTONIO, Aug. 4.—The imperative and immediate need for training all airplane pilots in blind flying, regardless of their previous experience in the air, was stressed by F. Tubbs Davison, assistant secretary of war in charge of aviation, during his visit to the blind flying section at Kelly Field here Saturday.

Davison, who is himself a pilot, made a flight in one of the planes with a covered cockpit in use at the field with Lieut. L. J. Carr as safety pilot.

"When a pilot says he can fly by his instinct when his sight is cut off it's the bunk," Davison said when he had climbed out of the plane. "We are so constructed physically that we cannot maintain our equilibrium without an outside visual reference, which is what we lose in flying through fog as can be demonstrated by a few turns in a swivel chair and the instrument box.

Control of the plane was turned over to Davison, under the hooded cockpit, at about 2,500 feet. He flew a fairly straight course by means of instruments but when he was instructed to make a 180 degree turn he lost his bearings, he said, and made several turns in several directions before finally regaining control of the plane and getting it back on its course.

STANDARD SYSTEM OF MARKING NEW BORN BABES TO RESULT FROM TANGLE

(By Associated Press)
CHICAGO, Aug. 4.—Confusion over the identity of two babies born June 30 at Englewood hospital got official recognition from the Chicago Medical society today. A committee of the society was appointed to draft legislation providing a standard system of marking new born children at hospitals.

The babies whose identity became clouded in doubt were those born to Mrs. Charles Hamberger and to Mrs. William Watkins. The latter found a "Hamberger" tag on the infant she brought home and a "Watkins" tag was found at the Hamberger home. A day of scientific research revealed the babies had been mixed. A list of physicians deputed they had not the fingerprints are certain they have the right child and the Watkins are right. The case is now at a standstill pending a suit brought by the Watkins, asking a court to decide on the identity, and another suit by the Watkins against the hospital for \$10,000 for alleged "lost identity."
