PERRYTON, OCHILTREE COUNTY, TEXAS, FRIDAY JANUARY 29, 1926

NUMBER 62

THIS WEEK

By ARTHUR BRISBANE

THE MONKEYS TRIED IT. IMAGINATION'S POWER. CORN LOW, HOGS HIGH. ZERO WILL HELP.

Charles Garland, an earnest young New Englander, inherited a large fortune, refused at first to take the money, saying no man had a right to money not earned. He changed his mind and drifted into a sidetrack. Convinced, perhaps, that he was an original thinker, he decided that marriage was an unnecessary institution. Now he is arrested, because a young child born on his farm died, having for its mother an unmarried girl.

The young man should realize that his experience was tried by our alleged simian ancestors for thousands of years before man appeared, and abandoned by our human ancestors of 100,000 years ago.

Not to do away with marriage, but to make men WORTHY of it, is the task of the human race. "Away from the monkey life" is a better motto than "Back to nature."

Imagination is more powerful than fact. James Dempsey, not the Dempsey you mean, owns a restaurant. Two men entered, held him up, he delivered his money.

A policeman dashed in, arrested the man "pointing the gun" at Dempsey. The only gun was two fingers that had been pointed.

The second man, escaped, came back that afternoon, pointed one finger at Dempsey, and the latter again gave up what money he had.

Corn prices are low, "hogs are high." This puzzles farmers and packers. Corn and hog prices should go up and down together, since the pig is really corn changed into meat. There is always something to puzzle and distress the farmer. He has no sufficient national organization, and after election day he hasn't much influence in government, compared with railroads and other big financial units.

At the midday luncheon club in New York you can see eating at the same time those that control ten thousand millions of dollars. Farmers are

scattered all over the land, and if you could get them together there would n't be any hall that could hold them

Uncle Sam is riding along on velvet. Severe competition abroad in the world's markets at home is said to be ahead of our producers. But everything, including Providence, seems to be with us now.

Citizens of Minnesota get from their State University interesting information about their state. It contained the beginning of life on this planet, in the form of algae, two hundred million years ago. The first life came as soon as the earth's temperature fell below the boiling point.

One of the first real animals was an ancestor of our frogs and salamanders, living on land and in water, with a foot four inches in diameter. It is from the five toes of the salamander, you know, that we get the five fingers on each hand, according to the evolutionists.

Mathematicians wish that salamander had had six toes. That would have given us the duodecimal system instead of the decimal system, which is based on our ten fingers and thumbs. The duodecimal system would be a great improvement on the decimal, twelve having four divisors, ten having only two.

Mr. Green, of the American Federation of Labor, predicts an early end of the coal strike, now distressing the East and other parts of the country. The thermometer at zero may help. Americans are "docile," as Northcliffe said. You must pinch their fingers with the cold or pinch their pockets hard to make them take action. And, unlike mine workers and owners, the people are not organized.

Miss Trudie Garrison, who has been visiting in the home of her grandmother at Hereford for the past month, returned home last Sunday. Her father W. E. Garrison and Leroy Hartman, drove to Hereford on last Saturday. Mr. Garrison will remain at Hereford for several weeks but Mr. Hartman accompanied Miss Garrison back to Perryton.

Mr. and Mrs. W. L. Beardsley of Forgan, Oklahoma visited in the home of their son, Roy Beardsley and family of this city on last Friday and Saturday.

Lloyd Black and Leslie Willis returned last Monday from a few days trip to Enid, Oklahoma.

MUSICALE

High School Auditorium

Tickets, for the above entertainment are on sale by the Parent-Teachers Association committee, who have charge of that part of the work, and we feel sure that you will say when it is all over, that you got your money's worth.

SWEEP OUT THE COBWEBS!

By A. B. CHAPIN

TO BUILD NEW COURT-HOUSE AT GUYMON

At a recent meeting of the commissioners of Texas County, Oklahoma, a contract for the erection of a new courthouse at Guymon was let to an Oklahoma City contractor for the sum of \$150,000.00. The new structure will be of fireproof construction throughout, and will be a very beautiful building. The old Guymon courthouse is a very poor building and a regular fire trap, being just about such a building as Ochiltree County citizens point out to visitors as the "Our Courthouse."

What Texas County has just done is what Ochiltree County should do. The present building is a disgrace and a menace. While most of the county records and papers are kept in fireproof vaults and safes, there are numerous rolls, documents and papers that will some day go up in smoke if a new fire proof building is not erected. The Herald is for a new courthouse and for it strong. A courthouse can be built in Ochiltree County without increasing taxes any. Why not do it now?

HOLDING MEETING AT BETHEL MENNONITE CHURCH

Rev. J. E. Hilderbrand of Inman, Kansas is leading a series of meetings which started at Bethel Mennonite Church on last Sunday. The Bethel Church is located about fifteen miles northeast of Perryton and has a very strong membership. Services will be held each evening. A cordial invitation is extended to all to attend these services.

CARD OF THANKS

To those who by their kindly words and beautiful flowers have tried to lessen our sorrow in the loss of our daughter and sister, we tender our sincere thanks.

Mr. and Mrs. A. P. Smoak and family
Mr. and Mrs. Jas. E. Barbour

Messrs. Audie and Lloyd Black and Leslie Willis left last Tuesday for Panhandle to look over the oil fields.

Mrs. A. W. Black of this city visited in the country home of S. H. Black on last Tuesday afternoon.

Mr. and Mrs. P. F. Brickley of west of Gray were trading here last Sunday.

C. C. CARTER OBTAINS PATENT ON PUMP

In the list of patents granted last week by the United States patent office, appears the name of C. C. Carter, deputy sheriff of Ochiltree County and a resident of Perryton. Mr. Carter's patent is for a pump designed for use in deep wells, wherein the use of leather plungers and sucker rods is dispensed with. This pump was recently given a thorough test by Mr. Carter in a well in this city and it was found to work perfectly. As soon as the necessary arrangements can be made, the pump will be put on the market. According to Munn & Co., patent attorneys of Washington, D. C., 891 patents were issued last week, Texas inventors obtaining 20.

BOY SCOUT HIKE

Ernest Records and Leroy Hartman, the assistant scout masters, took nineteen of the boy scouts on a hike last Saturday, January 23. Ed Morgan loaned the boys his truck and Mr. Records drove it. They went to Horse Shoe Bend on Wolf Creek, where they spent the day in hiking, racking, cooking and other sports. There was not a cooking utensil in the crowd but the boys cooked meat, roasted potatoes and fried eggs. The boys cooked everything they ate for both dinner and supper. Key Christopher seemed to be the neatest camp cook. He had as nice an egg on toast as you order anywhere, and his potatoes were the best I ever ate.

There would not have been any accidents if Donald Shockey had not hit his head on the ice, if Joe Lawrence had not broken trough or if Records had not burnt his tongue.

—Reporter

S. R. George and son, A. J. George left on Thursday of last week, for Enid, Oklahoma in response to a message announcing that Mr. W. K. Bishop, a brother-in-law of Mr. George, was to be operated on for an emergency case of appendicitis. Mr. Bishop, who is past seventy years of age, came through the operation in good shape and they were able to return last Saturday.

R. C. Johnson, Liel Lewellen and Jas. W. Wilson of the Johnson Motor Co. of this city were in Guymon on Tuesday of this week attending a district meeting of Ford dealers and salesmen.

ACCIDENT COSTS J. H. KEY THREE FINGERS

J. H. Key, while assisting his son Stanley, in drilling a well at the Key place, northwest of town on last Wednesday morning, got in right hand caught between some cogs on the well machine, crushing it so badly that it was necessary to amputate three fingers. E. W. Witt and Stanley were present at the time of the unfortunate accident. They brought Mr. Key to town at once. Doctors Brewer and Guyton dressed his hand and it is thought that he will have the use of the thumb and little finger. Mr. Key's many friends sympathize with him in this unfortunate accident and hope that no further complications arise.

DISTRICT COURT REPORTER PASSES BAR EXAMINATION

W. R. Frazee of Canadian, court reporter for the 31st Judicial District, has just received a license entitling him to practice law in Texas. He took the bar examination at Austin the last week in October, but has just been recently notified of his success in passing. It is his intention to continue in the court reporting profession for the time being.

PALMER'S GRAVE

To know Hamlin Palmer was to love him. For a decade he directed the traffic department of the Board of City Development. Business men give him much credit for helping to make Amarillo a great jobbing center because of the favorable rate schedules which he worked out for this city.

Few men ever suffered more physical torture than Hamlin Palmer. He was a cripple for many years. He went on crutches to his office every day, but he had a "carry on" spirit that was the admiration of his friends.

Hamlin Palmer passed away three years ago. His grave in Llano Cemetery is unmarked. An informal campaign to mark his grave has been suggested by his friends. Details should be worked out to mark his grave. The News believes that his numerous friends who loved and appreciated him while living will be glad to contribute to a monument fund.—Amarillo News.

H. H. Balzer and Chas. Massey and son, Jay, made a trip to the Marwey farm near Gray, last Sunday.

COTTON CROP MAKES BIG RETURN

THAT COTTON IS A BIG PAYING CROP IS PROVEN WITHOUT A DOUBT BY L. S. SMITH

That cotton can be successfully raised in this section has been proven beyond a shadow of a doubt by L. S. Smith of the Grand Valley neighborhood. Mr. Smith is one of the many men in this trade territory that made good money from a few acres of cotton last year. John Hood, proprietor of the Perryton gin, paid Mr. Smith \$916.39 for the eleven bales of cotton which he picked off of his 17 1/2 acre patch. In addition to this amount, Mr. Smith kept the seed from five bales. Mr. Hood estimates that these seed are worth at least \$100.00, which would bring the total return to over a thousand dollars.

If two-thirds of a bale can be produced in a dry season like we had last year, then what could be raised in an ordinary year. Cotton is one of the best money crops that can be raised in this section of the Panhandle and the sooner our farmers realize that fact, the better off many of them will be.

Perryton has the best gin in the Panhandle. It is a big investment. Now let us face some cold facts, regardless of how pleasant or unpleasant they may be. Ask yourself, "Can John Hood afford to remain in Perryton and make a fair return on a \$17,500.00 investment and gin the amount of cotton, he has ginned for the past two years?" We say that he cannot. Now we are not talking for John Hood and don't know that he has ever thought of leaving Perryton but we do know that his gin is not a paying proposition with the amount of cotton he handles. Now this can be remedied. Let every farmer in this trade territory plant from five to twenty-five acres of cotton this spring. We are certain to have a good season this year. Cotton is no longer an experiment. It is just as sure and more sure than most crops. And in addition, it makes a bigger profit per acre than almost any other crop raised in the Panhandle. Let's all raise some cotton, make some good money for ourselves and keep the best gin in the country right here where it will help all of us.

NEW PRODUCE HOUSE OPENS FOR BUSINESS

W. W. McLarty of the McLarty Mercantile Co. announces that the McLarty Produce Co. will open for business today, Friday, January 29th, in the building just south of the dry goods department of the McLarty Mercantile Co. store. This new produce house will be under the management of W. M. Glasgow. They will pay the highest market price for cream, eggs, hides, poultry and other produce. The Mistletoe Creameries will be represented in this city by this new concern.

B. Y. P. U.

Following is the program for Junior B. Y. P. U. for Sunday, January 31:

- Subject—Why we should believe in Missions.
- Song—If Jesus goes with us
- Sentence Prayers
- Business
- Group in charge:
- Introduction—Opal Davis
- God believes in Missions— R. U. Game!
- God's Book is a Missionary Book—Clyde Cofer, Jr.
- Jesus was a Missionary—Charlene McLarty.
- Millions are still lost—Mary Lee Puckett
- The lost cannot be saved without Christ—Wilford Lance
- Jesus Commanded us to tell others—Laddie Tucker.
- Jesus is depending on us—Hazel Holland
- How can the Juniors be Missionaries—Velma Johnson
- Closing song
- Prayer

Red Arrow Sales Go Merrily On

LAST SATURDAY was RED ARROW DAY. The following were the winners in the auction. Mrs. Carl Ellis paid \$300.00 for the baby blanket. Miss Bernice Winfrey paid \$205.00 for the silk dress pattern; Mrs. P. S. Gidley paid \$75.75 for the stamped pillow slip; Charles Jackson bought the kit of mac kernel for \$105.00; R. Cornelius took the jar of honey at \$102.50; Mrs. Bessie Holland bought the outing for \$118.20; Mrs. Reubin Pois paid \$50.00 for the bath rug and the man's dress shirt was purchased by F. J. Koch for \$70.00.

SAVE YOUR RED ARROW COUPONS! BID! BID HIGH AND BE A WINNER.

THE PEOPLES SUPPLY CO.

W. M. S.

W. M. S. program for Thursday, January 28th, 1926, special W. M. S. Objects (Royal Service) is as follows:
 Leader—Mrs. E. G. Pennington.

 Our House Beautiful—Mrs. J. H. Key
 Prayer for Special Objects
 Questions on Program—Mrs. R. L. Keith.

T. H. Abboud, superintendent of the Blue Mound school, was a Perryton visitor last Wednesday.

NEWLYWEDS ENTERTAINED

On Tuesday evening of this week, Mr. and Mrs. John Black entertained in honor of Mr. and Mrs. Jewell Isley, who were married last week. Mrs. Isley is a sister of Mrs. Black. The earlier part of the evening was spent in playing forty-two and pitch, and then Miss Chester Carter made a presentation speech and the main topic was when Mr. and Mrs. Isley's ship came in. After Miss Carter's speech, this young couple were very much surprised to see a ship pulled into the room, laden with presents. Many and beautiful gifts were received. And after Mrs. Isley had opened up the packages, delicious refreshments, consisting of sandwiches, pickles, fruit salad topped with whipped cream and wafers, were served to those present. The favors for the evening were miniature brides, in keeping with the occasion.

P. T. A. MUSICAL ON FEBRUARY FOURTH

On Thursday evening February 4th, at 8:15, the musicale, under the auspices of the local Parent-Teachers Association, will be presented at the High School Auditorium. General admission will be adults 30¢ and children in the grades 15¢.

The proceeds from this program will be used to add new and much needed books to the school library, so when you are approached and asked to purchase a ticket do not reply that you will not be able to attend, arrange to be there. Buy a ticket or two, considering that you are thus contributing your mite toward the library, which is accessible to all the students, and what more noble companion than a good book!

The program will consist of choruses, solos, readings, drills, a pantomime and a cantata "The Gypsy's Warning", in which Miss Neufeld sings the leading role, ably supported by Mr. Jas. E. Barbour and Mrs. Chas. Whippo.

Those in charge report that all who are to participate in the rendition of this program are working hard to make the evening really enjoyable and we urge and bespeak for them a large and appreciative audience.

Mr. and Mrs. O. M. McBride of the Hardesty community were Perryton visitors on Saturday of last week. Mr. McBride informs us that they have signed up a test well in that vicinity and that drilling operations will start at once.

M. R. Coffee and J. W. Payne were Plemons visitors last Tuesday.

TO SELL ALLIS-CHALMERS TRACTORS HERE

C. J. Osborn of Booker, Texas, has recently been assigned this territory for the sale of the Allis-Chalmers Tractor. Mr. Osborn will, in the near future, open an office and sales room in this city. He has been with the Allis-Chalmers organization for a number of years and is an experienced tractor man.

He has arranged to hold a tractor school on Thursday, January 28th, at the Forbes Garage. E. G. Jameson of the Allis-Chalmers factory will have charge of this school, and he will explain just how and why tractors are built, and will tell how to take care of and maintain all makes of tractors. There will also be lectures on correct lubrication and operation of power farm machinery. This school is for everybody, regardless of the kind of tractor you own or intend to buy. In addition to the school at the Forbes Garage, there will be a free picture show at the American Theatre in the afternoon. Everybody welcome.

VERMILLION MAY BE ALLOWED BOND

The supreme court of Texas, reversing the decision of Judge Henry Bishop, has ordered that W. F. Vermillion, charged with robbing the First National Bank of Claude, be allowed bond in the sum of \$10,000.

Vermillion was remanded to the Potter county jail several weeks ago without bond after a habeas corpus hearing before Judge Bishop. This decision was appealed by Vermillion's attorney, Culwell and Culwell.

He is alleged to have held up and robbed the Claude bank of \$4,750 in a daylight robbery last November. Vermillion was arrested the following night in Albuquerque and taken to Claude where he was charged with the robbery. His wife, formerly Miss Stella Finley, daughter of J. E. Finley, who at one time lived on the place now owned by J. O. Wooten, was later taken into custody but was released.

None of the money has ever been found.

No effort will be made to make his bond until relatives arrive, his attorneys said Friday.

HORSES AND MULES

Only about 200 mules and no horses were on hand for today's auction. This situation proved a disappointment to a large number of buyers, who expected a good run of work stock. There is quite an inquiry for horses, and few horses are coming. One firm reports a standing order for four cars of horses. The small run today is selling readily at good prices.

HORSES

Drafters, 1,500 @ 1,700 lb	90 @ 140
Drafters, fair to good	.50 @ 85
Good chunks	.50 @ 75
Medium chunks	.35 @ 65
Drivers, fancy	100 up
Drivers, medium to good	.50 @ 75
Southerners, good to extra	65 @ 100
Southerners, medium	.35 @ 65
Southerners, common	.20 @ 45
Plugs	.5 @ 15

MULES

For sound, well broken mules, 4 to 10 years old, the following range of prices prevails:

Common	Good
13 1/2 @ 14 hands high	\$30 @ 55 \$55 @ 90
11 @ 14 1/2 hands high	55 @ 70 70 @ 100
15 @ 15 1/2 hands high	100 @ 110 110 @ 165
15 1/2 @ 16 hands high	110 @ 130 130 @ 180

Extra big mules at 180 @ 250.

—K. C. Drivers Telegram

Mrs. Oscar E. Blank and little son, Dean, returned last Wednesday from Galtry, Oklahoma, where she was called to attend the funeral of her grandmother.

G. A. Wilson, proprietor of the Perryton Meat Market, has been on the sick list this week. His daughter, Mrs. Rachel Holt has also been quite sick.

WANT ADS

RATE—10c per line for first insertion and 5c per line for each succeeding insertion. Figure six words to one line. No local accepted for less than 25c.

LOST—Red Roan Horse, roach mane, 3 years old. Reward. Phone 81R41, W. E. Garrison. 50-2tp

FOR SALE—Topsy stove with oil burner, and two or three joints of pipe and damper. In good condition. Call at Herald office or see Mrs. Effie Kettell at Fairview School. 50-3tc

BABY CHICKS—I am prepared to hatch your baby chicks for \$4.00 per hundred, eggs to be furnished by customer. MRS. FRED HUSTON. 51-tt-c.

METHODIST CHURCH

We had 201 in Sunday School last Sunday. Were you in the number? If not, be there next Sunday. All services were well attended. At the morning service, the Junior and Intermediate Missionary boys and girls had right of way in the opening program in honor of them winning the Conference banner. These children should have the co-operation of every one in the great work they are doing at the evening service, Bro. Lane, Presiding Elder, brought us a good message. After which he held the first quarterly Conference for the year. He seemed to think the work of the Perryton Church was progressing nicely. The pastor will be away the next two Sundays, in a meeting at Spearman. We expect, however, to have service at the morning hour each Sunday, but the night service will be called off. Rev. Wheeler Spearman will have charge of the morning service next Sunday morning at 11:00. Come and we will give you a warm welcome. —Reporter

CITATION BY PUBLICATION

THE STATE OF TEXAS

The the Sheriff of any Constable of Ochiltree County—Greeting

You are Hereby Commanded to summon John Hickman, and the Unknown Heirs and legal representatives of John Hickman, if any by mtiking publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 31st Judicial District, but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 31st Judicial District, to appear at the next regular term of the District Court of Ochiltree County, to be holden at the Court House thereof in Perryton, on the 5th Monday in March A. D. 1926 the same being the 29th day of March, A. D. 1926, then and there to answer a petition filed in said Court on the 6th day of January A. D. 1926 in a suit, numbered on the docket of said Court No. 611, wherein Nellie M. Perry is Plaintiff, and John Hickman, and the Unknown Heirs and legal representatives of John Hickman are Defendants, and said petition alleging in action in trespass to try title to all of the following described land.

In Ochiltree County, on the waters of Palo Duro Creek, a tributary of North Canadian River, about 14 miles N. 36 W. from centre of County by virtue of unconditional H. R. Cert. No. 128, issued by the Board of Land Commissioners for Bowie County January 6th, 1845.

Beginning at a mound the S. W. Cor. of a Sur in name of Thomas Tomlinson in the East line of a \$20 acre Sur. in name of Gordon F. Sage, Thence South 1344 vrs to a mound Thence East 1344 vrs to a mound Thence North 1344 vrs. to a mound in the South line of said Tomlinson's Survey.

Thence West 1344 vrs. to the place of beginning.

Bearing mark X, containing 320 acres of land more or less.

Plaintiff claims title to said land under Deed from A. M. Jines, Sheriff of Ochiltree County, Texas, dated the 7th day of August, 1900, which deed was duly filed and recorded the 3rd day of November, 1900, and recorded in Book No. 2, Page 384, the Deed Records of Ochiltree County; and she also claims title to said land under the five year statute of limitation; as well as she claims title to said premises under the ten year statute of Limitation, charging that she has had said premises inclosed by fence, holding it openly, notoriously, peaceable, and adverse possession of same and paying all taxes thereon, continuously for more than ten years prior to the bringing of this suit, and after the cause of action of defendants of any accrued.

Plaintiff prays for citation and for judgment for the title and possession of said premises, for her writ of restitution, for costs and for both general and equitable relief.

Herein Fall Not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given Under My Hand and the Seal of said Court, at office in Perryton this, the 7th day of January, A. D. 1926.

(Seal) DAVE SHANKS, Clerk District Court, Ochiltree County, Texas 50-4tc

UNION 68

As the month is nearing its close, we are very busy with our examinations.

Lorene Garner is back in school again after a week's absence.

The play, "Safety First" will be given Friday night at the Union school house. Admission 15¢ and 25¢

Opal and Dessie Eads are absent from school on account of illness.

High School

The Geometry students are planning to have a contest with Perryton Geometry students next week. The geometry students are making a practice of reading the book through every day.

The History 2 students are giving oral reports on each chapter. The work is proving to be very interesting.

The Union boys and girls cancelled the tournament at Fargo and are now planning to go to Alva.

We are learning that the only way to recite is to know the whole subject and to talk intelligently about it. Our teachers have quit asking questions. They say that high school students are not real students if they cannot recite any other way, than by answering questions.

The algebra class is having a hard time working the difficult problems given them by Prof. Wright.

The Union Orchestra is playing at the Gray church on Sunday morning and nights.

We, the students of Union High School, are very glad to have Miss Enid Barker, from Goodwell, attending school here this second semester.

Miss Arlean Pattison is back in school after being absent for almost two weeks.

The debating team is working very hard in hopes that they will be rewarded by a loving cup.

The English Literature class is getting ready to read in class the classic, "Macbeth."

The Latin 2 class has begun the study of "Caesar's Gallic War." Late in beginning but we hope to finish

Face the Facts

When you know it is up to you to pay the grocery bills, why not face the facts. Buy where you can get the most groceries for your money. We have proved our ability to save others money and we can save you money. Our grocery department is complete.

DRY GOODS — SHOES

Our dry goods and shoe department will soon be in shape to take care of your wants. We have several big shipments enroute. Come in and let us serve you.

THE STATE OF TEXAS

To the Sheriff or any Constable of Ochiltree County—Greeting:

YOU ARE HEREBY COMMANDED To cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Ochiltree State of Texas, and you shall cause said notice to be printed at least once each week for the period of twenty-eight days exclusive of the first day of publication before the return day hereof:

THE STATE OF TEXAS.

To All Persons Interested in the Estate of John N. Russell, Deceased. J. A. Russell, Administrator of said

Estate, has filed in the County Court of Ochiltree County, Texas, a petition to be discharged as administrator of said estate which will be heard by our said County Court on the third Monday in February, 1926, the same being the 15th day of said month at the Court House of said County, in Perryton, at which time all persons interested in said Estate may appear and contest said matter should they desire to do so.

Herein Fall Not, But have you then and there before said Court on the said first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Perryton, Texas, this 9th day of January A. D. 1926.

(SEAL) DAVE SHANKS, Clerk County Court, Ochiltree County,

the book.

Experiments worked out by the Science class proved that all substances have three states—gas, liquid and solids.

The debate between Union and Fargo will be held at Union, aturday night, January 30. Don't miss it.

The High School Literary Society rendered a good program Friday night. Some of the written work that we have been doing the last week was read. It proved very interesting.

We are exceedingly sorry that in some way wires got crossed and our items tated that Union boys won over Beaver Basketball team. This is a mistake. We were royally treated by Beaver when we played th two basketball teams, and we do not wish to take to ourselves honors that we have not carried.

Miss Helen Wills, America's tennis queen, is now in Europe to study art but friends say she will battle Mlle. Lenglen for the world's net crown before returning to her native shores.

FAIRVIEW ITEMS

We are glad to welcome Granvil Todder back to school after a long absence.

The Thompson sisters of Spearman helped in the meeting Saturday evening and Sunday.

Misses Venita and Ethel Collins spent the week end at home.

Lawrence Williams returned from a trip to Dalhart, Texas, last Sunday night.

Tommy Manning was Sunday guest in the W. L. Collins home.

Grady and Granvil Todder, Elmer Miller, Lawrence Handson and Robert Burns spent Sunday with George Ragsdale.

Marie Taylor and Harold Williams were absent from school Monday on account of sickness.

Charley Menke and family and Tommy Manning spent Sunday night with John Williams.

Eldon Bollinger closed his meeting Sunday night with one conversion. Eldon makes friends wherever he goes and we are all wishing him the best of luck. Mrs. Menke and Tommy Manning will continue the services until Wednesday night.

Mr. and Mrs. Wes Apple visited E. F. Davenport Sunday.

E. F. Davenport and daughter, Ellen, went to Gray Saturday.

Denzil McLain missed several days school last week on account of tonsillitis but was able to be with us

again Monday.

JUNIOR CHRISTIAN ENDEAVOR

Following is the program for Junior Christian Endeavor for Sunday January 31, at 5:00 P. M.:

Topic—The Church and Why We Should belong to it

Song—I must tell Jesus.

Song—'Tis so sweet to trust in Jesus

Scripture—Hebrews 10:25, Genece Murphy; Matthew 10:32, Pauline LaMaster; Luke 12:8, Una Coffee.

Leader's Talk—Mary Coffee.

Prayer.

The Church begun, Acts 6:1-7—Fred Nies.

Offering

Benediction

PULMOTOR OF BUSINESS

A national periodical devoted to business has completed a census of 2000 businesses on the question of "the summer slump." Seventy-six per cent of the businessmen interviewed knew of no hot weather slump in their business. Ten per cent reported fair summer business and fourteen per cent are experiencing business depressions every summer.

Until quite recent years all business was seasonal. One business was active in winter but inactive in summer. Others by the nature of their trade were prosperous in summer but had to struggle through the winter. Some time or other in every year every business had no business.

What do these 2000 modern businessmen give as the miraculous cure for the "summer slump?" They agree on 12 remedies and the first of these is increased newspaper advertising. They work on the known fact that the business is to be had if they go after it.

Some of the summer advertising suggestions offered by the 2000 businessmen for retail merchants are increased regular advertising space in the newspapers, well advertised special sales, feature advertisements, and advertising of summer bargains and seasonal merchandise. They all aid in eliminating the summer slump, but none is effective without insistent and large scale newspaper advertising.

The retail merchants in Perryton

Invents Rubber

Harry H. Calmer, chemical engineer of Chicago, claims he has invented synthetic rubber, which can be derived from various products including garbage. If true it stands to stretch the rubber industry all out of joint.

who know no business "summer complaint" are those who have learned the value of newspaper advertising and knowing the means obtain the desired results. The buying public appreciates the merchants who have something to offer them and who tell them of their offers through the medium of newspaper advertising. There is no end to the public's needs so it follows that a summer slump in business denies the public a continuous gratification of its needs and desires.

WOMAN'S COUNCIL

The Woman's Council will meet with Mrs. Chas. W. Callaway on next Thursday, February 4th, and the program for the afternoon is as follows:

Devotional Theme—Youth, Chapter 12

Aulter Songs—Mrs. Payne

Song—Near the Cross

Prayer—Mrs. Shrader

Talk: Our First Foreign Missionary Field—Mrs. Kuhn

Special Song—Messdames Records and Lilly.

Mr. and Mrs. A. W. Black were guests last week end at the home of Mr. Black's parents near Booker.

FAMOUS FORTS IN U. S. HISTORY

By ELMO SCOTT WATSON

Past It Ran the Historic "Road to Oregon"

To write the history of the great West without mention of Fort Laramie would be like playing Hamlet without the melancholy Dane. Few posts have played a more stirring part in the story of the frontier than it. From the date of its establishment in 1834 by Robert Campbell, who named it Fort William in honor of William Sublette, his partner in fur trading, down to the end of the Sioux wars, Fort Laramie was always an important center of activity in the northern plains.

The American Fur company renamed it Fort John, in honor of John Sarpy, one of the partners in that company. But even before they dismantled the post and moved it a mile farther up the North Platte, some time in the middle 40's, it became known as Fort Laramie, thus helping perpetuate the memory of a certain La Ramie, an early French-Canadian trapper who had lost his life in an encounter with hostile Indians near there.

Although Fort Laramie was one of the best known rendezvous of the old-time mountain men, the most important era in its history began in 1840 when the government purchased the fort from the American Fur company, and it became the military sentinel at the eastern foot of the Rockies. As such it saw that epic migration, the long trains of "covered wagons" go winding past along the Oregon trail, bound for Oregon or California.

The Fort Laramie of a later period was fully as important as it was in the fur trading and emigrant days. Here in 1851 gathered 10,000 Indians of the plains to make a treaty guaranteeing safe conduct for the emigrants, a treaty which was soon reduced to a scrap of paper; from Fort Laramie in 1805 was begun the road to the new Montana gold fields which brought on the Red Cloud war of 1806-07, and the next year Fort Laramie saw the signing of another treaty of peace in which the great Indian leader achieved his greatest triumph by forcing the commissioners to grant him virtually everything he asked.

When war broke out again in 1876, Fort Laramie was the center of activity for the military expeditions sent against the hostile Sioux and Cheyennes, but when that war was over the principal reason for Fort Laramie's existence ended, and from that time on its glory and importance waned.

BUCKEYE The Best Incubator Made

"Built up to a standard --not down to a price"

You'll find it in the plants of the biggest breeders in the country—and you'll find it in the piano box coops of beginners just starting. Endorsed by all Agricultural Colleges and Experiment Stations.

Anybody can hatch chicks with a Buckeye. It operates automatically and can't go wrong. You get a chick from every hatchable egg.

That's why poultrymen think "Buckeye" when they say "Incubator."

Look at this Guarantee

The Buckeye incubator is guaranteed to hatch more chicks and better chickens than any other incubator, regardless of price, or we take it back.

The fame of this guarantee has traveled from sea to sea. Over half a million "Buckeyes" are in use by big and little breeders and over 2000 leading dealers sell it.

Come in and get a copy of our wonderfully convincing book, "The Verdict of the User." We'll give it free and show you the Buckeye.

About Your Health

Things You Should Know

by John Joseph Gaines, M. D.

THE CHILD'S THROAT

Be very vigilant in caring for the child's throat in winter.

Formaldehyde in solution is the most effective, reliable of the fumigants with which I am acquainted. In epidemics of infectious disease it is a servant of inestimable value. The case of scarlet fever demands isolation and quarantine, but the rest of the family may be protected by the judicious, timely use of formaldehyde. Kept sprinkled about the bedding, clothing and rugs, it is fatal to germs which are abroad in the air. Formaldehyde is a good defense against pneumonia, small-pox, and influenza. It should be used in forty percent solution, and its use limited to a point where it gently irritates the eyes and nasal passages. It is never used in contact being too strong, but should be carefully sprinkled about the room and breathed in with the air which it purifies.

Germs that attack the throat are among the easiest to destroy, if combated early—before they become deeply imbedded in the tissues. Even a weak solution of boric acid is effective if used as a gargle, spray, or nasal douche at the first sign of disturbance. Babies and small children may be sprayed with a suitable atomizer for the nose and throat after trips through dust, or after attendance on winter gatherings where somebody coughs and thus sets free infectious bacteria. A good plan is to spray before going to bed and on rising, and the boric acid solution is one of the simplest and best preventives of trouble.

Cold, icy air is dangerous for adults as well as children. Cover baby's face with a light woollen fabric, if he is to be carried through extreme cold to a neighbor's house, no matter how short the distance.

Next Week!

"DOCTORING YOURSELF"

WHY NOT HAVE THE BEST?

As time goes on inventors and authors are improving tools that are necessary to use in life. The modern methods of doing things are far ahead of the old methods. This being a fact then apply it to systems used in commercial schools.

The commercial system that has proved to be the most successful, has built the largest commercial school in the United States. This has been done in Twenty-five years.

Ask about the BYRNE SYSTEMS and for further information for a commercial training at Shawnee Commercial College, 113 N. Bdwy., Shawnee, Okla. Woodward Commercial College, Tenth & Main Woodward, Oklahoma. L. E. Jarrell, President. 52-1tc

DID YOU EVER STOP TO THINK

By Edson R. Waite, Secretary Shawnee, Okla., Board of Commerce. W. B. Storey, President of the Atchinson, Topeka and Santa Fe Railway System, says:

THAT the settlement and development of the entire United States is due to railroad transportation which is less than 100 years old.

THAT every community desires railroad communication and that if it has one railroad it wants another, if it has two it wants a third and so on indefinitely.

THAT it takes a large amount of money—anywhere from \$25,000.00 to over \$50,000.00 to build even a single mile of railroad.

THAT the railroads must earn not only operating expenses, but interest charges on this heavy cost.

THAT the railroads pay a large percentage of the taxes, both state and national.

THAT they are the largest industry in the United States outside of farming.

When the railroads are prosperous the country is prosperous and when the railroads are in trouble the whole country suffers.

Copyright 1925

SNAKE JUMPED INTO HIS CAR

What would you do if you were riding in a car and a big twelve-rattler was to jump into your car?

Chances are you would do just what a Mr. Jenkins did last week when he was on his road to South Texas after having worked through the fall in Oklahoma—you would turn the whole "caboodle" over to the snake. He was coming from Childress. When he reached the high embankment at the north end of Pease River bridge a rattler jumped at his truck. He was driving close to the bank on which the rattler was sunning. It struck the runningboard, and then began to crawl forward toward the driver's seat. The rest of the story is easily told. Mr. Jenkins gave the snake a wide berth by turning the whole "caboodle" over to him, steering wheel and all. He killed the snake, but stated that his arms were so "wobbly" for an hour after that he could scarcely keep the truck in the road.

A number of people have reported killing rattlers during the past few weeks.

Penetrates Through the Skin Clear to the Bone

Liniment Called Mexican Mustang has Strange Power

A lame back, a strained muscle or achy joints will stop aching and become limber and natural if you will apply a little of this old-fashioned liniment known as Mexican Mustang. Druggists and other authorities agree that its great power to relieve pain is due to its magical penetrating action—it goes through the outer layers of the skin without burning or a trace of blister, right to the sore spot. It is not like the smothering, stinging burning mixtures usually known as liniments. No matter if all other outside applications have failed, you will not be disappointed with Mexican Mustang Liniment—it also heals cuts, burns and sores and so makes a valuable remedy to have in the home at all times. All druggists and wholesalers sell Mexican Mustang Liniment or can get it for you.

Jack Dodson of southeast of town was knocked down and severely injured by a mule on last Tuesday morning. His injuries, while not serious, are very painful and will keep him confined to his home for a few days.

The Walker Motor Co. of this city, who recently took over the agency for the Overland cars, have sold three new Overlands during the past week, a four door sedan going to Cam Brown, V. V. Wilson and J. O. Carter purchased two door sedans.

A SURE ENOUGH HEN STORY

This Great Moral and Religious Weekly has expounded the gospel of the cow, the sow and the hen so consistently, in season and out of season, for the past two years ye pastor has been accused on different occasions of smelling like the hen roost, the cow lot and the hog pen.

If we can get the birds and the two animals on every farm in Quay county and succeed in having them intelligently handled, as is the case with J. B. Yeakley and wife of the McAlister district, we are willing to have the accusations thrust at us, and might at times, even be willing to take on just a little of the odors of the three domiciles of these sources of constant income.

J. B. Yeakley and wife, mainly the good little wife, so we suspect, during the past year have demonstrated beyond the doubt of the most skeptical, poultry raising, growing or culture (whichever you like) can be made to pay handsome dividends.

Mr. and Mrs. Yeagley maintained a set of books on their flock of thorough bred Rhode Island Reds during the year 1925, have the figures and know exactly what their income has

been for the past 12 months from their chickens.

On January 1st, 1925, the flock consisted of 400 laying hens.

Eggs sold during the year reached the handsome figure of \$322.48.

Chickens sold amounted to \$334.79, making a total sales of \$657.27.

On hand now are cockerels which can be sold for \$100.

They also have on hand 75 large fryers that will be disposed of this week for \$56.25.

The laying hens now number 690, and \$2 each would be a cheap price for them.

No account was maintained of the amount of work attending to the chickens required and eggs and chickens used on the family table, but as Mrs. Yeakley attended to her household duties and took an active interest in church and community affairs it can be safely assumed the eggs and chickens used at home will offset the charge for work in connection with the flock.—Tucumcari (N. M.) News.

Mrs. J. H. Mynear is recovering from very painful injuries which she received when she fell down the cellar stairs at her home in this city.

Pie Eating Champ

Rep. C. McGregor of N. Y. charged that Washington cooks couldn't make good pies. To prove him wrong a pie-eating contest was staged and here is Congressman Montgomery of Okla., finishing his third pie.

Mrs. Publisher

Mrs. Gerald P. Nye, wife of the publisher Senator from North Dakota is visiting in Washington. Senator Nye gained his seat in the Senate in spite of vigorous opposition, which probably accounts for the smile of satisfaction.

OPERATING BOILERS WITHOUT HEAT

Ice on the exhaust of an engine is a strange sight. Nevertheless it's true in certain cases in West Texas.

A vast reservoir of "cold" gas, non-inflammable, has been discovered in the oil fields of the Panhandle and is being used to operate machinery and pumps. It is mystifying to see boilers producing pressure without fire. The cold gas, which analyzes 93 per cent nitrogen, has a rock pressure of more than 300 pounds, while it will produce 125 pounds on the boiler gauge. The gas when turned into the boiler is carried under pressure through the usual steam lines to the pistons of pumps of machinery.

The cold gas comes into use every day, and on several occasions has made possible the drilling and operations of small wells which otherwise would require more oil to operate their boilers than they were capable of producing.

Men in the field use the air for al-

most anything that steam would accomplish, from inflating an automobile tire to refrigeration. The release of pressure produces the effect of cold, similar to the process of manufacture of ice with ammonia under pressure, and it is not unusual to see ice instead of steam about the exhaust of engines in the fields.

A REMARKABLE RAILROAD

For a number of years the people locally have felt that the straight line of railroad from this point to Dalhart, 72 miles, was the longest tangent in the world. From the west side of Guyton townsite to Dalhart there is not a shadow of a curve, the track being as straight as a gun barrel and is an unbroken tangent. However, this line of straight track locally is a small matter when compared to a railroad in western Australia. The Australia road is 1,052 miles long and in all of that length it does not cross a single permanent stream of water and in crossing what is known as the Nullarbor plain the road runs without a curve for a distance of 300 miles, the longest single stretch of railroad track in the world or over four times the distance from Guyton to Dalhart.—Guyton Tribune.

His word is his bond!

A "personal guarantee" means very little to you unless you know the man who makes it.

Ninety per cent of the things bought for your home are selected by the lady member of the firm. She is the purchasing agent. Most men admit that she is a capable buyer, and the reason is this: She must be shown — convinced by proof — that an article is what she needs and is worth the price!

For that reason, she sees the advantage of dealing with a local merchant — a man whose "personal guarantee of satisfaction" means just what it says.

She knows that what he advertises in this paper is entitled to her consideration. Because she has confidence in her neighbor—the local dealer—she can safely invest the family funds in what he guarantees.

FARM RADIO FEATURES BY AGRICULTURAL DEPARTMENT

The vast fund of popular and scientific agricultural information that originates on the farms and in the laboratories of the United States Department of Agriculture will soon be tapped in a new place. This is the announcement made by Sam Pickard, chief of the newly created radio service in the department. Steps will be taken immediately, he said, to furnish a variety of agricultural program material to commercial broadcasting stations serving farmer audiences.

Much of the material furnished by the radio service will be prepared for presentation in a radically different manner than the present almost universal practice of reading manuscripts. Broadcasting stations cooperating will be asked to provide personalities who have unmistakable qualifications to voice the information and material which in most cases will be presented in popular style and in the form of dialogue or questions and answers. "Uncle Bert" the garden expert, one of Mr. Pickard's phantom characters, will entertain and instruct the boys and girls of the Radio Order of

Junior Gardeners with nature-study information. Some of the juniors themselves will be heard over the radio as they ask questions of Uncle Bert.

"Fifty Farm Flashes" will soon be offered as a regular farm feature on the air. The "flashes" will consist of interesting current information sought by farmers through the several thousand letters received each week by the department.

Other special feature programs are under consideration, among which are the "Housekeeper's Half-hour," and the "National Farm School." In the latter the farm will be considered as the student's laboratory. Time ly lecture courses which dovetail with the daily farm work will be developed, and laboratory assignments will be made which necessitate putting into practice the subject matter taught. These will be supplemented with a file of bulletins dealing with subject matter broadcast.

All have bodies by Fisher. The company also produces a roadster and touring car and two trucks one-half and one ton capacities.

Despite the many improvements and refinements on the Chevrolet cars, prices of all models were substantially reduced January 1.

The complete appointments and distinctive lines of the landau make this car the aristocrat of the Chevrolet closed line. The exterior body panels, disc wheels and hood are in the new Arizona gray color. The body stripes are in gold. The leather covered rear quarter with its landau windows and graceful landau bars adds a final touch to the appearance of the car. The gray of the interior harmonizes with the outside panel colors. The landau interior equipment includes dash and dome lights, roller shades, foot rest, robe rail, smoking set and door pockets.

The coupe is finished in the Arizona gray Duco, the coach in Boomfield gray and the sedan in Algerian blue. The front seat of the sedan has been given a slightly increased tilt. This affords greater comfort to the front seat passengers and increased leg room to those in the rear seat. The sedan has a foot rest similar to that in the landau.

All of the closed cars have the VV one-piece ventilating windshield, automatic windshield wiper, sun visor, parking lamps and Ternstid interior hardware.

The attractive gun metal gray Duco finish is retained on the two open models.

John Hood, proprietor of the Perryton Cotton Gin, returned on Friday of last week from a business trip to Oklahoma City.

GET THE HABIT. Use a Style Pencil Pen. Just like writing with a pencil. You can get them at Stewart Printing Co.

THE CHEVROLET IS A DISTINCTIVE CAR

A new standard of small car beauty has been established by the improved Chevrolet models which were displayed for the first time at the New York Automobile Show.

Besides the landau, latest of the Chevrolet products, the closed group includes a sedan, coach and coupe.

for Economical Transportation

Improved!

A Type of Performance Never Before Obtained In Any Low Priced Car

If you are one who has not yet been behind the wheel of the improved Chevrolet you have more than a treat in store. You have yet to experience a type of performance never before offered in any low-priced car.

A performance so effortless, so smooth, so powerful, so spirited that you will call it nothing short of a revelation!

Chevrolet's leadership has been based on giving quality at low cost. Now the

Improved Chevrolet gives another reason for an even wider margin of leadership—performance the equal of which has heretofore been unattainable in the low-price field.

Drive where you will—and as long as you like, through traffic, through sand, through mud, over hills—and over mountains, if you please. Expect something really new, really worthwhile, something really unique—and you will not be disappointed.

QUALITY AT LOW COST

FAMOUS FORTS IN U. S. HISTORY

By ELMO SCOTT WATSON

Michillimackinac, "Place of the Great Turtle."

Long before the French explorers pushed into the interior of North America, the island of Michillimackinac, (Mackinac) in Michigan, was a well-known landmark to the Indians. The first white man to visit this gateway between Lake Huron and Lake Michigan was Jean Nicolet who paddled past the island in 1634. In 1671 Father Marquette established the mission of St. Ignace near by and in 1673 the French built the first Fort Mackinac near the mission and from that time until Cadillac established Detroit in 1701 it was the principal outpost of the French in the West. Mackinac was virtually deserted after the founding of Detroit, but in 1712 it was regarrisoned and held by the French until the English took possession of the country in 1760.

The British built a second Fort Mackinac on the south shore of the straits, a palisaded structure enclosing about two acres. Here occurred one of the dramatic incidents of the Pontiac war when on June 4, 1763, the hostile Indians used a ball game as a stratagem for gaining entrance to the fort. They killed 20 of the garrison and took the remainder prisoners, among them Captain Etherington, the commander, who failed to heed advance warnings of the conspiracy.

After Pontiac's war was over the British again occupied Fort Mackinac and it again became the center of the fur trade of the Northwest. It was an important British post during the Revolution and in 1780 the garrison was transferred to Mackinac Island where it began building the third Fort Mackinac, a strong fortress of stone. Although Great Britain agreed to give up all of her western posts at the close of the Revolution, it was not until 1796 that the young republic finally gained control of this post.

The next few years saw Mackinac growing in importance as one of the principal posts of John Jacob Astor's American Fur company. Early in 1812 the British swooped down upon the place and because of their overwhelming numbers easily captured the fort. In 1814 a force of 500 United States regulars and 400 militia attempted to recapture Fort Mackinac, but their attack was beaten off and the British remained in control until the close of the war. Mackinac Island is now a state park and every year hundreds of tourists visit the historic buildings of the fort, which are still in an excellent state of preservation.

FACULTY COMMENT

About the best that we can say for ourselves at the present time is, that we are still on deck. If we were at sea that would count everything, but since we are on dry land, we don't have to worry about giving up the ship. We are very well anchored as it is.

Another thing that worries a teacher, is whether she is guilty of sins of omission rather than of commission. This has never been settled to our own satisfaction.

The climax of the P.T.A. last Monday night seemed to be hot chocolate and cookies. So far as we could tell, these refreshments were just about the right altitude.

In school work, it is hard to tell one day what another day will bring forth. It is no uncommon thing for the unexpected to happen, either in work or human conduct.

What a fine thing it would be if every student would go to school because he was in dead earnest for a good education. But after all, why should he go for any other reason? The school is maintained for only one big purpose and no one should

lose sight of that. The troubles and problems of every one concerned would be rendered much easier and simpler if only every effort were banded in the same direction.

There are many evils that beset us on every hand, but it is doubtful if any of them are more pronounced than that of "loafing." Many students have contracted this habit and apparently do not realize that it will hang to them for the remainder of their days. Too many men have the habit and younger people inherit it from them. Any one who will stop to think will do any thing else before becoming a loafer. The habit is one that eats away a young man's best days and leaves him empty handed when old age overtakes him. Also the loafer is noted in many cases for his vicious and vile habits and low level of morals in general. The finer qualities of citizenship are lacking and ambition for the future. Many cases are on record, showing that where the husband became such a loafer that his family was wrecked and ruined. The habit causes many an otherwise good man to become disregardful of his family and let it suffer. Many young men loaf away enough time to get a fine education. It is hard to realize what a feeling must come over one when he looks back over a wasted life a life loafed away. The busy life is the best, even at the cost of refusing a friend's plea to join him in loafing the time away. Loafing takes its price and the fellow who engages in it has to pay his own bill—and pay dearly, too. It is not the free ride that one might first take it to be.

A few years ago one of our presidents suggested that what the country needed was "More plain living and high thinking." Some one has aptly said that, "Judging from what we sometimes see around us, one might very well conclude that what we are having is more high living and no thinking."

PERRYTON WINS BASKETBALL GAMES

The basketball teams of Perryton High School are getting a good share

of the games we have played so far. Both the boys and girls teams have good material, and should be able to turn out winning basketball teams this season. So far, we have played Follett, Camrick, Beaver and Guymon twice in succession. Out of all these games the boys lost two and the girls none. The boys lost to Follett the first game and to Guymon the last time. This is a good record for the beginning.

When the teams get a few more games to strengthen their team work there will be some real old basketball. None of the games, so far, come under the interscholastic league rules. But soon we shall be trying for the championship of the Panhandle. Our basketball seasons look very rosy indeed.

DISTRICT FACULTY MEETING SATURDAY

Saturday morning at ten o'clock the teachers of the Perryton Independent School District will meet at the High School building for the purpose of discussing regular school matters pertaining to this district.

Plans for the Interscholastic League work will be partially made. A program has also been arranged.

HOME EC CLUB MEETS

The Home Ec Club met on last Monday afternoon at four o'clock in the auditorium. A short program was rendered and then a business meeting was conducted by Miss Alwayne Conley, president. It was decided that we buy, with our own money, the following items: One dozen and a half cocktail glasses, a large mirror on a stand, a book case and a set of good books for our cottage. We are also paying for our pictures that are being printed in the Annual. It was also decided that we have a social on February 13th, 1926. All are expecting to have a good time and those who do not attend will be missing something worth while.

After the business meeting, delicious refreshments were served consisting of several kinds of candy

and each one present was permitted to have several pieces of each kind. Those present were: Gladys Spencer Marguerite Beardsley, Roberta Murrell, Carrie King, Jewel Mears, Gladys Holland, Juanita Bales, Essie Todd, Mollie Lee Gamel, Celta Gardner, Wava McLain, Leah Holland, Fern Leatherman, Mattie Maude Guthrie, Alwayne Conley, Navis Witt and Miss Simmons. The second year class is going to beat the other class if the first year does not get busy and get their members out to the meetings.

CARD OF THANKS

The Home Economics girls wish to take this opportunity to express their sincere thanks to the mothers who so kindly co-operated with us in making the "Tom Thumb Wedding" a great success. We realize that it took much time on the mothers' part to send or bring the children to practice, also for the making of costumes. We know that these costumes cost money and appreciate all the efforts you and others put forth to help us 'put it over.'

GIRLS WIN TWO GAMES FROM GUYMON

The High School basketball team played the Guymon girls here on January 19th, and won 22 to 8, and on Friday night, January 22, our girls returned the game at Guymon and repeated the fast playing exhibition of the 19th. The score this time was 18 to 11 in our favor. Guymon has a fast, clean team, and the girls were good sports. We were treated well at Guymon. Whether we win or lose it is a pleasure to play such teams.

The Home Economics girls were given a half day to take their examinations. The other classes did not have nearly so much time.

Nearly all the grade have been given back to the students, and we realize that to pass in any subject we must really put some study on it. A large per cent of our students failed in their work for the first term. Many were conditioned in mathematics and languages. Those, who were conditioned, are going to begin studying in earnest and bring up their low grades.

We are very glad to have the following students back in school, as they have been absent for some time on account of sickness: Edward Puckett, Alfred Dowers and Eldon Rupprecht.

The picture of the "Home of the Heron" has been selected and is now being framed for the 8A room.

Last Thursday the Seniors voted to have a ribbon day. Their class colors of purple and lavender ribbons were worn. These made such a showing that several were heard to remark, "I wish I were a Senior."

INTERSCHOLASTIC LEAGUE CONTESTS

The Interscholastic League contests to be held in the spring of this year are scheduled as follows:

Arithmetic—Rural schools and the fifth, sixth and seventh grades in the city.

Athletics—Track and field events.

Basketball—Boys and girls.

Debates—Boys and girls.

Declamations—Sub Junior (local) under 10 years of age. Junior—rural and city, both boys and girls, ages 10 to 14. Senior—rural and city, both boys and girls, past 14 years of age.

Essay Writing—City and rural.

Extempore Speaking—Boys or girls.

Spelling—Sub Junior, Junior and Senior, same ages applies as to declamations.

Tennis—Singles and Doubles, both boys and girls.

NEW COURSES TAKEN UP IN HIGH SCHOOL

Some more half unit subjects have been taken up in the place of those dropped at the end of the first semester.

The Senior course of Public Speaking is being taught by Mr. G. D. Minick. The class is studying debating with a special emphasis on the Interscholastic League question, "The Child Labor Amendment." This is to be followed by special oration speeches. At present there are ten students enrolled in this class.

Economics, also a Senior half unit, has been taken up this semester. Affiliation was procured on it last year. The course is a survey of the present economic organization. It takes up two forms of economic stu-

Children Cry for

Fletcher's CASTORIA
 MOTHER—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Dr. H. Fletcher* Proven directions on each package. Physicians everywhere recommend it.

dy—production and distribution, and outlines the four elements of each, that is, the elements of production are land, labor, capital and enterprise, with their compounding elements which are rent, wages, interest and profits. Mr. Minick reports that nineteen students are taking this course.

Advanced arithmetic is also a new Senior course, but others have been admitted conditionally.

Several have withdrawn from school at the beginning of this term. We are sorry to see them go and hope that no one else follows their example. Those that have withdrawn are: Marguerite and Aline Thurman, Roe Black and Merbie Chadwick.

P. T. A.

The Parent-Teachers Association met Monday, January 25. They were entertained by the sixth grade. After the program, Mr. Irvin gave a short talk about "The Adolescent Age." Then the votes were counted, the eighth grade being winner. The first grade was second. Hot chocolate and wafers were served. A large number was present and we hope there will be more at the next meeting on Monday evening, February 8, 1926.

SENIORS ENTERTAINED

The Seniors were entertained by Misses Cearley, Abramson and Hooks at their home "Dunmovin" by a Mother Goose Reunion. Everyone came in costumes representing one of Mother Goose's children. Among those present were: Simple Simon, Little Boy Blue, Little Miss Muffett, Old Mother Hubbard, Jack and Jill, Little Bo Peep, Ole King Cole, Alice in Wonderland, Little Red Riding Hood and others. The evening was spent in playing games and working for prizes. Simple Simon won a prize for being so simple. Novel refreshments were served. The guests departed at a late hour thanking the hostesses for a wonderful evening.

FULTON ITEMS

Mr. Barker went to Goodwell last Wednesday.

Frank Leatherman took the school census last week.

Miss Enid Barker visited her brother and wife last week.

Mrs. Mary Kerns visited at Gray last Thursday.

Born to Mr. and Mrs. Bert Freeman on January 21, a baby boy.

Joe O. Kerns lost a cow Thursday.

The Fuller Gospel people will begin revival meetings at Gray, Thursday night, January 28th. Everybody welcome.

Miss Eva Kerns visited school last Friday.

The boys basketball team from Fairview came to play the Fulton boys, Friday, January 15. The Fulton boys won the game.

The Fulton boys and girls basketball teams went to Camrick to play basketball Friday, January 22. The score was 6 to 4 in favor of Fulton boys and 11 to 1 in favor of Camrick girls.

Mrs. Alvin Littleton was a guest in the home of Mrs. Pete Tomlin last Monday afternoon.

Quick Way to End Dangerous Cough

Why let a dangerous cough hang on when you can, through a simple treatment, get speedy relief and often break it up completely in 24 hours?

This treatment is based on the famous Dr. King's New Discovery for Coughs. You take just one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing it. It has a double action. It not only soothes and heals irritation, but also removes the phlegm and congestion which are the real cause of the coughing. So the worst cough quickly disappears.

Dr. King's New Discovery is for coughs, chest colds, bronchitis, spasmodic croup, etc. Fine for children, too—no harmful drugs. Very economical, as the dose is only one teaspoonful. At all good druggists. Ask for
