(By Associated Press)
GENEVA, Switzerland, June 28.—What constitutes the present danger of the tripartite naval conference, in the minds of close observers, is that it may involve or even create political animosities. Not so much danger is attached to its failing to reach an agreement on the strength of auxiliary war craft Great Britain, the United States and Japan may find themselves not to exceed.

This political peril has appeared on the horizon because of the sudden Japanese initiative which indicates Tokyo may be forced either by conviction that real economy may be achieved, or by political expediency, into backing the British line in the Far East.

The Japanese have been so successful in having planted the seeds of a new era of tranquility on the Pacific ocean—the United States, having agreed to maintain the status quo of American fortifications at Canton and in the Philippines, and Japan having accepted a ratio in tonnage considerably under that of the United States.

It is pointed out that the United States has not only stopped strength entering the bases of American warships in the Far East, but has also actively supported the successful negotiations for the creation of a four-power Pacific pact in substitution of the Anglo-Japanese alliance which went by the board.

The American "freedom" are active in recognizing the Washington treaty in any form, not only because they deem such a step judicially impossible and impracticable, but also because they have some apprehension that it might provoke a new and undesirable

LINDY TO TOUR U. S.

Aerial Foundation to Back Him in Trip Over America Flying the Spirit of St. Louis

NEW YORK, June 28 (AP)—Colonel Charles Lindbergh will make an airplane tour of the United States, the Daniel Guggenheim fund for the promotion of aeronautics, under whose auspices the tour will be made, announced tonight.

Colonel Lindbergh will fly "The Spirit of St. Louis," in which he made the New York to Paris flight. He will start in about three weeks and cover the entire country. It is expected the nation-wide flight will take two or three months, during which Colonel Lindbergh will visit most of the principal cities in the United States. The entire undertaking will be financed by the Daniel Guggenheim fund for the promotion of aeronautics.

Civil Rule Of Isles Wanted By Coolidge

RAPID CITY, S. D., June 28 (AP)—Specific recommendations to the next congress for administration of American insular possessions is open in the disclosure at the summer White House today that President Coolidge favored the vesting of control over these territories in a civil bureau of the interior department.

It was pointed out that Mr. Coolidge previously had expressed himself as disposed to look favorably upon any change which would place the insular possessions under a civil rather than a military authority and his recent visit with Governor General Leonard Wood of the Philippines has tended to strengthen the opinion that the interior department would be the logical executive branch to govern the possessions.

OLDTIMERS PICNIC AT PARK AUGUST 4

ANYONE RESIDING IN THIS COUNTY FOR PAST 25 YEARS ELIGIBLE

August 4 has been chosen as the date for the annual picnic of the Old Settlers association of Lubbock county the gathering to be at the Fair Park, beginning at 2 o'clock in the afternoon. A meeting of the association was called yesterday afternoon and at that time a constitution and rules for membership were adopted.

Any person who is now a resident of Lubbock county and who has lived in the county for 25 years previous to the date of his admission may become a member of the association, it was decided.

Members and those who wish to join the organization are being notified by mail and by other means at the annual gathering. Each family is to bring sufficient lunch for members and guests, the latter being preferably old settlers who do not eligible for membership such as those who have moved to other cities, it was stated following the meeting, which was presided over by the president, E. P. Ehrhart.

PREPARE FOR ECLIPSE

Astronomers from America and Other Nations Will View The Eclipse Of Sun Today

OSLO, Norway, June 28 (AP)—Last minute preparations of astronomers from leading countries of the world including a large delegation of Americans have been completed for the observation of the total solar eclipse tomorrow morning.

Most of the astronomers have selected Egersund, just north of Oslo for their headquarters. The American astronomers are here mostly under the leadership of Professor E. A. Mitchell of the Leander-McCormick observatory at the University of Virginia. Professor Newall of Cambridge has arrived and an Italian expedition under Professor D'Arztur has set up its operations.

Special trains were run tonight to convey the scientists and their visitors to the best vantage points. The Norwegian government has permitted foreign astronomers to bring in their instruments free of duty and a temporary observatory has been set up for the occasion.

Professor Mitchell, the American astronomer has observed seven solar eclipses which have required him to travel 50,000 miles with all his apparatus.

"APEMAN" MUST DIE

Will Forfeit His Life in Electric Chair For Slaying Of Wife At Her Sister's Home

HOUSTON, Tex., June 28 (AP)—Clifford French, Galveston's "ape-man" burglar, ex-convict and government narcotic informer, must forfeit his life in the electric chair for the fatal shooting of his wife, Gladys, on March 25, a jury in criminal district court decided Tuesday night after three hours' deliberation.

French shot and killed his wife in the home of her sister, where he had followed her after she left him. The defense was based on the fact that he was under narcotic influence at the time the deed was committed.

PERMISSION TO FISH IN COUNTY PARK IS GIVEN

WATERS FILLED WITH MANY VARIETIES SAYS WARDEN

RULES ARE STRICT

ONLY ONE POLE WILL BE ALLOWED EACH SPORTSMAN

After a four year period during which the fish have been practically undisturbed, fishing privileges in the Lubbock county park, in the Yellowhouse canyon, just east of town, will be thrown open to the public today, County Judge Charles Nordyke, through authority from the county commissioners, announced yesterday. The park will be open for 30 days or longer, it was stated.

Realizing that the lake is over-burdened with fish of various species, the commissioners decided to give the people of the county a chance to enjoy some of the privileges offered. They are opening the park in a very decidedly generous manner, Judge Nordyke said yesterday in the hope that the citizens would abide by the regulations placed on the fishing and enjoy the fascinating sport.

Fishing will be allowed every day in the week from early morning until 5 o'clock at night with the exception of Sunday, during which it is prohibited. A small fish, weighing two or twenty-five cents will be shared each individual for a privilege for the day and no one will be allowed to fish two days on the same ticket. Tickets will be on sale at the club house on the left bank of the lake.

One Pole Allowed

Quick Shifting Of Scenery Made Necessary As One Welcome Ends And Another Begun

NEW YORK, June 28 (AP)—Quick shifting of scenery was necessary at City Hall here Tuesday to get the stage for the official welcome to Governor Dan Moody and a delegation of more than 100 business men of the Lone Star state.

Mayor James Walker had just completed the official welcome ceremony for Ambassador Myron T. Herrick and as the last of the automobiles in the Herrick entourage were moving away through the west gate the Texans arrived at the east entrance. The crowd that had gathered to applaud Herrick remained to give three cheers for Texas.

The scenery was changed in the Aldermanic chamber, the tri-color of France being removed for the state flag of Texas.

The biggest city in the country is very happy to welcome representatives of the biggest state in the union," Mayor Walker said in greeting the visitors.

Governor Moody explained the mission of the "All Texas special" and pointed with pride to the number of prominent citizens Texas has sent to New York.

SAWNER, Okla., June 28 (AP)—The survey of a new railroad to be known as the Tulsa, Wevoka and Southern will be started July 5, the newly elected officers of the company said today. The new railroad company perfected at Wevoka today will have a capital stock of \$1,000,000 and the road will be 220 miles long, it was announced.

Officials announced that the road would run from Tulsa through Okemah, Wevoka to Ardmore.

Dallas "Mystery Maid" Would Fly

SHE'LL BACK ANY EASTERWOOD CONTESTANT WHO WILL TAKE HER ALONG, SHE SAYS

Described as "Senora X" the Dallas woman, pictured above, will give financial backing to any airman who wishes to contest in the \$25,000 prize flight from Dallas to Hong-Kong. The only condition of her offer is that the airman must take her along as a passenger. The flight is being promoted by Bill Easterwood, Dallas sportsman, and is the longest yet to be suggested. At the flight is Lieut. Tom Hardin, Dallas, who with Lieut. Herbert Kindred, also of Dallas, will attempt the flight—but not "Senora X's" proposition.

BORAH CALLS ON AMERICANS TO WORK AT HOME

TELLS ADMEN THAT CONSERVATION IS NEED NOW

TEARS WAR CLOUDS

SAYS U. S. MUST BE CAREFUL IN ITS FOREIGN ACTS

(By Associated Press)
DENVER, Colo., June 28.—A call to the government and the nation to turn their attention and effort to reconstruction at home rather than in Europe was made here tonight by Senator Borah, republican, Idaho.

Speaking at the twenty-third annual convention of the International Advertising Association, the chairman of the senate foreign relations committee said he was more interested in placing the Mississippi flood sufferers back in their homes in the construction of the Great Lakes-to-the-Atlantic waterway and the harnessing of the Colorado river than he was in the desultory effort to end Europe.

Referring specifically to recent over production of oil and to the Mississippi flood, Senator Borah said it was clear that the nation should turn its attention to working out an "intelligent and permanent national policy to conserve for the use of all the marvelous natural wealth" with which the country had been endowed.

Senator Borah declared the cessation of part of the public work by the European countries and the loaning of American billions to Europe served but little in reconstruction there.

Not Helping Europe
"We are not helping the people of Europe but the war makers of Europe," he warned. "The history of Europe during the past thirty days has in it every element of strife which preceded the war."

The premier of Italy in a public speech declared his aim was to create an army of five million men, to the building of a great navy and to the construction of an air force second to none in the world.

The break between Great Britain and Russia, the assassination of the Russian minister in Poland, the elections in Russia, have made Europe, mentally and spiritually, an armed camp. Last Sunday a week, the premier of France, at Lunenburg, delivered a public address steeped in bitterness and intolerance. Tearing open old wounds, summarizing the spoils of yesterday's meeting, out-of-town business men of force and follow the earth with the seeds of war.

Senator Borah asserted that the greatest domestic problem since the civil war was what should the government do and how it should execute its purpose in bringing an end to the waste of natural resources—oil, coal, timber, and water power.

HELP PRESERVE SHIP

Local Quartermaster Asks in Sale of Cards to Raise Money for Caring for Old Ironside

Working in the interest of a movement to insure the preservation of "Old Ironside," the old frigate which has much to tell the history of the United States, Pink L. Murphy, of the Quartermaster's department of the United States Navy, was in Lubbock yesterday arranging for the sale of small photos of the famed old ship, the proceeds of which will go to help maintain the ship.

The photos are to be sold at 25 cents each and Lubbock's quota is 500 photos, Mr. Murphy said. Texas is scheduled for 75,000 of the pictures.

The Hilton-Sumner Paint company were appointed as local agents of the movement by Mr. Murphy and announcement will be made soon of the sale of the pictures. The local agents are merely selling the pictures and rags nothing from the sale, all the money being turned over to the fund, Mr. Murphy said.

Lindy Won Friendship Of France

NEW YORK, June 28 (AP)—Myron T. Herrick, American ambassador to France, returned for his annual vacation today and in an address at City Hall told of the international good will created by the trans-Atlantic flight of Charles A. Lindbergh.

He said he considered it providential "that the spirit of St. Louis" brought that splendid boy out of the sky into Le Bourget field, when he was needed in France.

Ambassador Herrick was a passenger on the maiden voyage of the new French liner Le De France and brought with him a memorandum from the French government concerning outflow of war between the two countries.

"It was a 'umo,'" he said, in speaking of Lindbergh's flight, "when old war wounds were still unhealed, when both France and America sorely needed a revival of that ancient friendship, latent but never dead."

"KEMPY" PLEASAS LUBBOCK PATRONS

SPLENDID ACTING MARKS LAST PRESENTATION OF LITTLE THEATRE

Making its final bow of the season—a bow which was more than a mere gesture from a quality standpoint—Lubbock's Little Theatre closed its second successful year at the Lindsey theatre last night with the presentation of "Kempy," a three-act comedy. A cast of eight persons, five of whom were making their first appearance in Little Theatre productions here, carried their lines and characterizations well, more than pleasing the 500 patrons who filled the lower floor of the auditorium.

Directed by Donald V. Murphy, Tech English professor, who prior to last night was also a newcomer to theatrical circles here, the play ran smoothly, from beginning to end, its clever lines and actions carrying the audience with it. Throughout the play acts not a single misdeed or faltering in lines was noticeable, a remarkable feat in itself.

Characters Are Listed
Characters having parts in the play included "Ruth Henoc," Miss Haven Sawyer; "Dad Henoc," H. H. Habel; "M. Henoc," Mrs. W. C. Tyler; "Jane Wade," Miss Tyler; "Les Knight," Katherine Benec; "Miss Vernad Wilson," Ben Wade; R. C. Dickinson; "Kempy James," Gary-Ed Hopkins; and "Duke Merrill," Lettrel Heddings. Of this Little Theatre production, Mrs. F. R. Friend, as property manager, and Mrs. M. L. Price, as costume director, were also instrumental in the play's production.

Mrs. J. H. Hankins, president of the organization, in a short curtain talk following the second act, thanked various business firms and the supporters of the Little Theatre for their part in making the season just closed the success that it was. She promised that the organization would begin its work on the 1927-28 season early in October.

FIRETRUCK VISITS CITY

Levelland Citizens Motor Their New Engine Through Lubbock and Test It Here

Following in the footsteps of Lubbock, her neighboring city, Levelland citizens motored their new fire-fighting equipment through Lubbock yesterday enroute from Dallas. The new truck was rolled up to the Lubbock fire station where the members of the local department aided the visitors in putting it through a test. It was put on the track test at the county park and then on plug test in the city. The truck is a Universal machine made by W. E. Knott, of Minneapolis, and has a 500 gallon per minute pump.

Although Levelland does not have a fire department, yet the truck will be of countless service to the growing little city. The Levelland department will be organized soon.

COMMISSIONERS MEET

The county commissioners will meet in a special session this morning at 9 o'clock at the court house for the purpose of appointing special officers for the coming year. With constitutional amendments coming up before the people in August, officers must be elected for every precinct in the county.

(By Associated Press)
OAKLAND, Calif., June 28.—With more than half of the 7,400 miles of its flight from the mainland to Hawaii behind it, the six-ton army Fokker plane tonight was still winning its way westward.

At intervals from 7:35 p. m. (Pacific coast time) until 9:30, messages from the President Fleet's 60 miles off shore, declared "it could be behind it, the six-ton army Fokker plane tonight was still winning its way westward."

At intervals from 7:35 p. m. (Pacific coast time) until 9:30, messages from the President Fleet's 60 miles off shore, declared "it could be behind it, the six-ton army Fokker plane tonight was still winning its way westward."

The clock-like precision with which the army plane was prepared and departed on its attempted non-stop flight to Honolulu was the topic for comment by the thousands of spectators who witnessed the take-off. Army officials asked for a clear field at 7 a. m. They arrived at the field with Lieutenants Lester J. Maitland and Albert Hegenberger, pilot and navigator, ten minutes before that hour.

LEVELS SUCCESSFUL
Only Partially Completed Project Holds Back Floodwaters Of The Rio Grande

ATLANTA, June 28 (AP)—Only partially completed the \$2,000,000 flood control and reclamation project in Cameron and Hidalgo counties has been completed successfully with its first severe test, the present Rio Grande valley flood, which equals the one of 1925 that inundated thousands of acres, R. P. Williams, state reclamation engineer, reported here today.

Engineer Williams has just returned from a ten day inspection of the flood territory. Although several private levees were broken over, not a single levee of the reclamation project was topped, he said, declaring that Hidalgo counties has the history of the 1925 inundation would have been repeated but for the new work begun in 1925.

He reported that work is progressing satisfactorily in Cameron county on the Arroyo and that northern flood ways. All river-front levees are up from Mission to Brownsville. Along the Hidalgo county Arroyo, all levees are complete except a gap south of Mercedes and a few short gaps at High way and railroad crossings.

10 Commandments Of Child Training

Editor's Note—More about selfishness in Olive Roberts Barton's theme in this article, the fifth of a series of fifteen on The Ten Commandments of Child Training.

By OLIVE ROBERTS BARTON
Group living means being able to get along happily and successfully with other people.

Anyone can get along alone. But it is not good for the individual and for the whole, it is not good even if it were possible for us to be hermits, which it is not.

Every one must rub shoulders with the world, stand up for his own rights, recognize the rights of others, give and take, live and let live.

The ability to adjust one's self to environment must be looked after while the child is still very young. A child brought up alone and not allowed to play with other children is going to grow a shell of selfishness that will make it absolutely impossible for him to successfully take his place in the world of affairs later on.

A little boy or girl should have friends, and I recommend a variety of friends. Let them argue out their little differences alone. If a parent step in, let it be only as counsel, not as judge.

The competitive game is the ideal medium of developing group living in children, particularly outdoor games. Every game has its laws and the child learns to recognize a different kind of authority from the laws of Dad and Mother. He is learning honor of a very high sort, fairness, progress, and that most valuable thing in the world, the grade of losing without complaint. He is learning to be a "sport" in other words.

Methodist Stewards And Wives Are Entertained

The Rev. and Mrs. E. E. White were delightful host and hostess to members of the First Methodist church board of stewards Monday evening at their home, 1419 Broadway. Putting plenty of the right kind of rubber in the right place is a most important element in the building of United States Tires. This Web Cord machine soaks all the Cotton Cord for Royal Cord Balloons with pure rubber latex. Latex is the right kind of rubber to impregnate the Cotton Cord.

Get more for your money

If you were building a tire for yourself, you would not take on the rubber. Neither do we. This Company owns enormous rubber plantations including the largest producing plantation in the world. On these plantations are 10,000,000 rubber trees—pedigreed stock.

We have invented Sprayed Rubber—the outstanding process for producing rubber. Sprayed Rubber is the strongest and most uniform rubber known. It is made without the use of smoke or acids.

We have invented Web Cord, the most modern way of combining rubber and cords.

The policy of "Plenty of Rubber" plus the ability to get the rubber and the skill to put the right kind of rubber in the right place, shows itself in the quality of Royal Cord Balloons on the wheels of your car.

ELABORATE ENTERTAINMENTS PLANNED FOR MOTORCADE PARTY TO MOUNTAINS

CLAUDEHOFF, June 28.—Lunch, banquet, dance, reception, and dinners are big features of the all social program being outlined for members of the West Texas chamber of commerce motorcade party which will tour the resort section of the Davis Mountains in West Texas, and eastern New Mexico during the first twelve days of July. Elaborate entertainment will be provided in every town visited.

H. M. Whitaker, exhibit, agricultural manager of the West Texas chamber, was in Claudehoff this week in interest of the motor trip. He is completing a preliminary routing of the points to be covered by the motorcade and co-operating with chambers of commerce and town officials in their plans for entertainment of the party.

Leaves July First The motorcade leaves Sweetwater in the morning of July 1, and will spend the first night at Colorado. Lunch will be taken at Colorado, and stops in the afternoon will be made at Elk Spring and Stanton.

Points touched the second day are Odessa, Pecos, Barrow, Pecos, and Madras Springs, at which the night will be spent. A drive through the mountains with stops at Fort Davis and Lupton Canyon, will take the party to Alpine for the convention on the next day, July 4. Marfa and Fort Davis will be host to some of the party the night of July 2.

Reach Alpine July 4 July 4 will find the motorcade party in its first objective point Alpine, where the Big Bend district of the West Texas chamber of commerce will hold their annual convention in conjunction with the "Cowboys' Round-Up and Old Settlers' Reunion of the section. From Alpine, the party goes to El Paso, after stopping at Van Horn and Sierra Blanca.

To Attend Convention July 8 the party is scheduled to attend the Pecos Valley-Intermountain district convention of the West Texas chamber of commerce in Claudehoff. Following two nights and a day there, departures will be made for Ruidoso Springs and Roswell.

Entertainment in every town will be given the motorcade party, whose personnel will include many state officials and prominent leaders of the state.

The motorcade trip has been arranged so that members may either camp out or stay in the hotel at every point. Though clothes are in store, though suitable clothes for social functions will be needed in the large cities visited. Free lodging and complimentary meals will be offered the motorcade in many points, though about 50 per cent of tickets will probably be paid by the party individually.

General Massie Patrick, chief of the army of service, threw flowers from the machine, waved goodbye to friends and relatives.

and the plane taxied along the runway. It took the air with ease and quickly attained an altitude of 2,000 feet, flew out over the sea. Smith broke down and wept after it was announced his flight was postponed. He had argued hard with Carter, trying to make the latter consent to a hopoff, two hours after the plane was returned to the field. But Carter stood firm on the contention that it was too late to start, that he would not be able to make proper navigation observations and that the army plane had too great a start on them.

BYRD ORDERS CREW PREPARE FOR TRIP

ROOSEVELT FIELD, L. I. June 29 (AP)—At 1:30 o'clock this morning Commander Byrd ordered the crew of the Monoplane America to stand by for a 4 o'clock hop off for Paris. Commander Byrd's decision to start this morning was reached after he belated reports from ships at sea told of a general improvement in weather conditions over the Atlantic.

There appear to be no general areas of bad weather, although there are local conditions of unfavorable weather. Dr. James A. Kimball, meteorologist at the weather bureau reported.

Commander Byrd has been apprised of the fact that he will encounter some low clouds and low clouds. Dr. Kimball said. "There appears no prospect of any improvement over conditions as they are now, and rather than wait indefinitely he has decided to go." That there was no fog came as a surprise to his crew. T. Harlow Kinsey, motor expert for the Wright aeronautical corporation, was called out of bed this morning after he had been told before retiring that there was no chance for a hopoff today. About 11 o'clock last night Byrd had told reporters the weather reports appeared so unfavorable that a take off today would be impossible.

Grace Hopoff Uncertain HONOLULU, June 28 (AP)—Richard Grace, California aviator planning a flight from Hawaii to the mainland, alighted with his plane, the "Chickadee" at Mana, Island of Kauai, at 4:45 o'clock (7:15 o'clock San Francisco time). Grace made a poor landing, but did not damage his plane. "It's the blindest plane I ever flew," he commented but added "it's a good plane."

NAVAL PARLEY (Continued from Page 1) study of the political situation including the wisdom of adding to the strength of the American batteries at Guam and the Spicks.

The Japanese are flirting with both British and American delegations in the way some observers comment on Japan's dramatic stroke last night when the Japanese intimated the probability of a shift from their original position that Washington treaty matters should be discussed as a whole. From the British advance today came indications that W. C. Bridgeman, first lord of the Admiralty, has an idea, who-so-ever, of permitting the conference to collapse but feels that he must return to London not only with a treaty limiting cruisers, destroyers and submarines, but also with the record of an attempt, determinedly made, even though fruitless to cut down the size of battleships and cruisers. This desire undoubtedly shared by all the delegations, to avoid the collapse of the conference, has been brought forward the question of what compromise measure can be elaborated, calculated to satisfy the proponents of the two treaties concerning capital ships.

Mr. J. S. Campbell Every indication furnished at the headquarters of the American delegation today either by the spoken word or the determined appearance of the delegates themselves, was that the Americans, like General Brand, were prepared to "fight it out" on his line, if it takes all summer, and will oppose to the end any attempts to reopen the Washington treaty, whatever may be the attitude of the British and Japanese.

FISHING (Continued from Page 1) The lake must be kept clear of the lake and taken away when the party has finished fishing. Special warning was placed on the practice of cutting limbs from the small trees and using them as poles. Judge Nordvik said that any citizen of the offense will be punished in the fullest extent of the law. The county will not be responsible for any accidents befalling any children which are permitted to go near the lake or swim in it. Swimming during the fishing time must also be limited to the water around the small footbridge which crosses the lake near the bath house. According to Denver Parks, spe-

laid game, fish and oyster commissioner, the lake contains bass, crappie, perch, and catfish in large numbers. Some are of considerable size, he says.

State laws provide that a license must be bought for all artificial bait fishing and fishers with bait must limit their catch to ten of each variety in a day. Length of bass must be over 11 inches, and length of crappie over 7 inches. Any fishermen caught with fish below the required length will be fined. Mr. Parks said. The license fine is \$2.00, and each fish constitutes a separate offense. In order that the people might learn to distinguish the difference between the fish, Mr. Parks will be stationed at the lake for several days giving information concerning the regulations. All fish which are caught under size must be thrown back into the lake, Mr. Parks said and unharmed. It is advisable to wet the hands before taking hold of the bass. No limit to number is placed on the perch and catfish caught.

Licenses for fishing with the artificial bait may be obtained at the Sherrod and Merick hardware stores or from Mr. Parks.

Indications point toward a banner attendance in the first days of the fishing period, commissioners said yesterday and it was predicted that many corks will be bobbing up and down in the lake soon.

SIXTEEN ARE HURT IN RAILWAY ACCIDENT

EAST ST. LOUIS III. June 25 (AP)—Sixteen persons were injured, four seriously, when a limited train of the East St. Louis and Suburban Railway company sideswiped an special car of the same line on the Oak Hill III. siding, late today. The seriously injured were brought to a hospital here.

NAVAL OFFICER'S BODY IS WASHED ASHORE

SANTA ANA, Calif. June 25 (AP)—The body of Lieutenant Commander William S. Hactor, naval officer, attached to forces stationed at San Diego, and missing since the crash of a seaplane early last Wednesday morning, several miles out at sea, was washed ashore today at Sunset beach, near here.

Turkish Law Hits Moslem Religion

ANGORA, Turkey, June 28 (AP)—A new law of the Turkish National Assembly strikes a blow at Turkish priesthood, once the most powerful and privileged class in the Ottoman Empire. The new law orders the closing of many mosques especially in Broussa, where there are 375, and Constantinople with 250.

Several hundred priests, many of whom have officiated in mosques since the days of the empire, are to be dismissed. The government is expected to increase the salaries of those priests who are retained, the present average salary being only \$10 a month.

Another example of hard times that which the Moslem faith has fallen here is the fact that there are only 10 Turks among the 100 pilgrims going on the sacred annual pilgrimage from Constantinople to Mecca. The other pilgrims come from various Balkan states, chiefly from Bosnia.

In the old days thousands of Turks made the pilgrimage to Mecca. Upon returning they had the coveted privilege of wrapping a green cloth around their turbans and of calling themselves "hajjis."

GERMAN MILLIONS IN JAVA

SOURABAYA, JAVA — A Dutch plantation owner near here got the shock of his life on returning from a journey recently. He was told that his faithful native steward had sold the whole season's produce to a couple of visitors at very advantageous prices—millions, in fact. The steward, who had been unable to sleep because of the responsibility involved in the custody of so vast a fortune, produced a sheaf of bank notes for millions of German marks of the inflation period—now worth nothing.

RUSSIAN GENERAL DIES

SILVER LAKE, Calif. June 25 (AP)—Count La Dimitri Baranoff, 72, field marshal of the Russian Army during the Russo-Japanese war, died in his desert town Thursday from exhaustion suffered in Death Valley's torrid heat, where he was lost for twenty-four hours with two companions.

CHICAGO—Homeless cats are no number in Chicago. Medical schools may help a dollar's worth for them and a stray cat hunt in back alleys has been turned into profit by many a youngster.

PROHIBITION IN REFERENDA IN UNITED STATES

Considering the important part prohibition is likely to play in one and possibly both national conventions next year, and may play in the subsequent presidential election, it is interesting to note the public attitude on the question as revealed in various referenda since 1920.

Whereupon he biffs Amy in the head with a hammer or sticks a sharp skewer into what passes for a brain. London reporters have been as busy as bird dogs in the fall hunting season.

THE SUNSHINE CITADEL

The San Antonio Express in commenting on the erection of the Salvation Army new headquarters, which is a magnificent building five stories high quotes Captain Baldry as commenting on the name chosen as follows:

candidates who are running primarily as avowed wets or dries. The experience of recent years gives the politicians a lot to think about in contemplating the handling of this question in 1928.

THE YANKEES AND LOBSTERS

The Royal Society for the Prevention of Cruelty to Animals, feeling that it has protected horses and dogs and cats and caged birds, has just startled all London by its new slogan: "Pity the poor lobster!"

This same wise man says that, regardless of what the lobster may think, the mechanics in the kitchen departments take the poor animal and rend him limb from limb without giving him ether, chloroform or anything else to deaden his pain.

To hear them you would have thought the usual routine was this: an order comes down for Lobster. The chef, tears in his eyes, goes to the crate where the animals are kept and, his voice broken with emotion, says:

"Amy, my little crustacean friend, your number is up. You have lived happily, cozily and comfortably with me here in the kitchen for lo! these many days. But now one of those greedy rich Yankees is boarding here and has just demanded in loud tones that he will have 'homard a l'Americiene.'"

There's only one person the reporters haven't interviewed. They have overlooked the biggest story in the bunch. They have closed their eyes to the main figure in the drama.

THE SUNSHINE CITADEL

This title has been chosen, says Capt. E. R. Baldry—directing the building-fund campaign—as a compliment to San Antonio, "Where the sunshine spends the winter." The appropriateness of the name for an institution devoted to bringing cheer and revived hope into the lives of the poor, sick, unfortunate and wayward, is too obvious to call for explanation.

This action suggests that the word denoting so distinctive and valuable an asset, profitably might appear more frequently in the region's nomenclature. The group of Gonzales, Karnes and Wilson counties farm and truck-growing communities lately organized to pool and exploit their resources, recognized its value by adopting the appellation, "Sunshine Garden."

Sunshine is a life-giving force; it has power—as physicists but lately discovered—of transmitting that quality to growing plants. Fruits and vegetables are stored up sunbeams; those grown in Southwest Texas—where Phoebus reigns in full splendor during more than three hundred days of the year, on an average—are particularly rich in vitamins.

A return trip from Paris or Berlin to New York is what we have a right to expect now. You may talk of the sweet dreamless sleep of the North woods, but the woods have their nightmares—when they get on fire.

OUT OUR WAY By Williams

HEROES ARE MADE -NOT BORN.

SO THINK WE

We think the life of the trans-Atlantic flier is a hard one. Just think what will do when they have flown to all of the cities of the world, and there are no more cities to fly to.

We think the next stunt will be for some old grandmother to fly across the pond, and visit some of her ancestors' graves over there, and then come back home to tell us all about it.

We think that prohibition is something like the Golden Rule. Its greatest success is in the number of people who use it.

We think the democratic party is going to have to adjust its family falling-outs before it can be successful in making much progress with matters on the outside.

We think that even "sayings" become antiquated. For example how would this sound now: "The home is where the heart is" when we all know that the home is where the automobile is.

We think that now is the time for all citizens of Lubbock to begin boosting for the hard surfaced highways for Lubbock county. The bond section for the hard surfaced roads for the county will assist both the citizens and the owners of the county in numerous ways.

We think that many South Plains farmers are finding that the cow, sow and hen are of great assistance to them in a financial way. The great South Plains offers more opportunity for the farmer than most any section in the state.

We think that the representatives of the nations at Geneva are having much difficulty in coming to an agreement over the naval pact. Japan has sided over with the British, the U. S. is adamant.

We think that the old-timers of Lubbock county will have much to talk about in their annual get-together soon. Every person who has been a resident of Lubbock county for the past twenty-five years is requested to attend the Old-Timers Reunion that will be held within the next few weeks.

We think that the Texas Tech will be better prepared to care for an increase this fall with the completion of the new buildings recently appropriated by the last legislature. But should the enrollment jump as it has for the past two long terms the legislature will have to do more.

OPINIONS

REGULATED DEVELOPMENT:

The Rotary Club is performing a distinct service to Brownwood, in bringing Major W. J. Powell, distinguished engineer, to this city for an address before the club and his guests on the subject of city planning. For a number of years the question has been discussed here in a desultory sort of manner, and at the beginning of the present fiscal year of the Chamber of Commerce it was promised that a special committee of that organization would be designated to study it in detail.

IT IS REPORTED

That all the old-timers of Lubbock county are preparing for the annual get-together to be held within the next few weeks. All citizens that have been residents of Lubbock county for twenty-five years or more are requested to take part in the annual fete.

It is reported that down in New Orleans that upon investigation that it was no uncommon thing for three and four weeks old babies to be sold. One case that is being investigated shows that one three-weeks old baby was sold for \$75.

It is reported that many towns are planning to have big celebrations for the Independence day. The local American Legion Post will celebrate July 4th with a picnic for Legionnaires and the auxiliary.

It is reported that work is to begin on the second tunnel on the Denver-South Plains line. The first tunnel has been bored and work on the second tunnel will start within the next few days. The first tunnel on the line is the second longest in Texas.

It is reported that too much overrunning of the stop signals on the streets of this city is being done and that the local police department is attempting to find the key to success.

It is reported that numerous complaints of unsanitary conditions of the alleys have been reported to the local health officer. These conditions must not exist in the city and the officers state that the existing sanitary conditions must be looked after. The summer days with trashy conditions in the alleys is nothing but a breeder for flies.

It is reported that fair officials of the Fairhands and South Plains Fair are already making elaborate preparations for the "Show Window" of the South Plains. The officials are looking forward to a bigger and better exposition.

BRIGHT MINDS

Love is the only ray on life's dark cloud. It is the Morning Star of the Evening Star, and sheds its radiance upon the quiet tomb. It is the mother of Art, inspirer of poet, patriot and philosopher. It is the air and light of every heart, builder of every home, kindler of every fire on every hearth. It is the first to dream of immortality. It fills the world with melody, for Music is the voice of Love. Love is the magician, the enchanter, that changes worthless things to joy, and makes right royal kings and queens of common clay. It is the perfume of the wondrous flower—the heart—and without that sacred passion, that divine swoon, we are less than beasts; but with it, earth is heaven and we are gods.—Robert G. Ingersoll.

The more a man is educated, the more it is necessary, for the welfare of the State, to instruct him how to make a proper use of his talents. Education is like a double-edged sword. It may be turned to dangerous uses if it is not properly handled.—Wu Ting-Fang.

The wise man must remember that while he is a descendant of the past, he is a parent of the future; and that his thoughts as an child-born to him, which he may not carelessly let die.—Herbert Spencer.

A man is a great thing upon the earth and through eternity; but every jot of the greatest of man is unfolded out of woman.—Walt Whitman.

I do not remember that in my whole life I ever willfully misrepresented anything to anybody at any time. I have never knowingly had connection with a fraudulent scheme. I have tried to do good in this world, not harm, as my enemies would have me believe. I have helped men and have attempted in my humble way to be of some service to my country.—J. Pierpont Morgan.

Flowers have an expression of countenance as much as men or animals. Some seem to smile; some have a sad expression; some are pensive and diffident; others again are plain, honest and upright, like the broad-faced sunflower and the hollyhock.—Henry Ward Beecher.

PUMPING PLANT IS IN OPERATION:

No longer will the fair city of Bledsoe be dependent on the vagaries of West Texas winds for her water supply, but the winds will still be harnessed to do their part of the work when they are blowing hard enough. A new pump jack and electric motor were installed Monday by a group of citizens who worked until far into the night to get the new pump installed.

The new equipment will be able to supply the entire community with water, running no more than five or six hours a day. With the advantages of being able to use the windmill at times, it is hoped that the expense of running the plant will not run very high.—Cochran County News.

It was once a saying in this great South Plains country that the wind drew the water and the cows chomped the grass, but times have changed and now this "windy" country very often is so calm and still that we cannot depend upon the breezes to turn the windmills, and the gasoline engine or the electric motor is put into use, and the custom of "cranking" fuel is abandoned and now the youngsters of today have not had the pleasure of the thrill or experience of using it, as some of the old timers have.

STAR ROUTE PETITION HAS 100 SIGNERS

Although no great amount of special effort has been made to get signers on the petition for a star route out of Bledsoe, over 100 signatures appear on the petition. In all of the rounds which the petition has made, only one objector has been found. The route will serve many more than those who have had a chance to sign the petition. It is planned to establish a new post office in the Neely Ward.

Civic Achievements

Ample Recreation Facilities Are Necessary in Every City

By DON E. MOWRY Any city that does not look out for the recreational activities of its people cannot expect to grow or develop civic pride. St. Petersburg, Fla., recognized this, and floated a 1,000,000 bond issue to build a new recreation pier. Not every city is situated on the ocean as is St. Petersburg of course, but most cities have rivers, neighboring woods which can be made available for a maximum of public enjoyment.

Your Health

By DR. MORRIS FISHER

Persons who achieve success in life are distinguished in childhood, ordinarily, by behavior that indicates an unusually high intelligence. This conclusion was reached by the psychologists of Stanford university who analyzed the records of 50 eminent men and women in an attempt to find the key to success.

Voltaire wrote verses "from his cradle." The author Coleridge could read a chapter from the Bible at the age of three years. Mozart composed a minuet at the age of five. Goethe, at the age of eight, produced literary work better than that of most adults.

HERE'S TO YOU, COWBOY Here's to the man of the sun-kissed West. The cowboy on the trail Who owns his share of the old world's work. In a manly, honest way. And never forget the folks back home. When he draws his monthly pay. Here's to the man of the golden West. Whose heart is clean as the hills he roams. That none might blush to see. He takes his share of the pain and the care. And smiles when things go wrong He greets each day with a new-born faith. As he lifts his voice in song. Here's to the man of the matchless cowboy, strong and true. Who has never yet betrayed a trust Nor takes what is not due. He wants his share of the joys of life. The same as you and I. An hero's hope that his boys inherit. As he changes years to gray. SPUDDERS AGAIN FALL VICTIM TO BUFFS 4 TO 2

STEERS LOSE THIRD GAME TO CUBS AS EXPORTERS CONQUER SPORTS BEARS DEFEAT CATS

HOUSTON, June 28.—Joe Keller pitched excellent ball for the Spudders here today, but the Buffs made six of their seven bluffs figure in the scoring and defeated the Spudders, 4 to 2, to take the odd game of the series. Turgeon led the Spudder assault with three blows.

Ken Penner was tight in the pitcher and won his fifth game. Wichita Falls, 107 000—2 10 1 Houston, 002 000 25—1 7 0 Kiefer and Tobin; Penner and Warwick.

WACO, June 28 (AP)—The Dallas Steers lost to the Waco Cubs for the third time today by a score of 4 to 1. Elliott, the Cubs' elongated hurler, was airtight in the pitcher and with the exception of Ed Loring, the Steers' twirler, were unable to do much with his delivery. Loring hit a home run.

BEAUMONT, June 28 (AP)—Homer Blankenship was no puzzle today and the Exporters took the deciding game of the three-part series 5 to 2. Thompson, who succeeded him, was airtight, allowing only one hit in the six and two thirds innings he worked.

SAN ANTONIO, June 28 (AP)—Jim Lindsay was complete master of the Cats as the Bears won the final game of the series Tuesday 2 to 1 with Ray Flakammer and Frank Puffin supplying the hits.

ALREADY the local golfers have started their rounds to get ready for the open city tournament that will end up on July 4. "Doodle" Brown and Henry McClarty, president of the Lubbock Country Club, are of the opinion that this tournament will be the most interesting and best of the season with many of the local golfers ready to shoot.

Every golfer in Lubbock is eligible to take part in the contest whether a member of the Country Club or not. Should a player take part in the same and is not a member of the club a green fee of fifty cents on week days and seventy-five cents on Sunday will be assessed.

Prizes To Be Given. A cash prize of \$1.00 will be awarded to every entrant of the city open tournament. This fee will be utilized in the purchase of attractive prizes for the winners of the race.

With the veterans of golf already entered the match promises in the one of the nation's best players in the Country Club course. John Jarrett, veteran of the Country Club who has won several championships, has entered. Ben Lee Houston, recent champion of the open tournament, is expected to enter and defeat his local rival, Austin Jarrett and Houston others are entered including Floyd Bowen, Frazier Stevens, Spencer Wells, J. O. Smith, Henry McClarty, Fred Higginbotham, Clifton Buewer, Don Mitchell, O. K. Peierman, Oscar Lykes, Eric Weyer, J. B. Charles Lindbergh is again in hard luck. Recently, the "Lone Eagle" was awarded a gold pass to all baseball circuits in national baseball. That means that Lindbergh may go for the rest of his life to any baseball game played under the National Baseball Association jurisdiction.

WHITE SOX BEAT INDIANS 9 TO 7

CHICAGO, June 28 (AP)—Lena Blackburne who 12 years ago starred as a White Sox infielder, played the hero role today in defeating Cleveland 8 to 7 by a thrilling ninth inning finish.

TIGERS ANNEX TWO FROM BROWNS

DETROIT, June 28 (AP)—Detroit captured both ends of a double header from the Browns here today, taking the first game 3 to 2 and the second 6 to 3. The Tigers won the opening contest by hitting two left handers, Zachary and Falk, freely, and they annexed the second with a three run rally in the eighth at the expense of another left hander, Wingard.

YANKS WIN OFF ATHLETICS TO BOOST LEAD

NEW YORK, June 28.—The Yankees defeated the Athletics in the last game of their six game series here today by 8 to 8, giving New York an even break and enabling the Yanks to regain the ten game lead with which they started.

WOMAN CHAMPION FALLS BEFORE PLAY OF ELIZABETH RYAN

WIMBLEDON, England, June 28. (AP)—Great is Elizabeth Ryan in American tennis circles in Wimbledon tonight. She scored a great victory over Mrs. Kitty McKane Godfree, the 1926 Wimbledon champion, and was the first American woman to reach the semi-finals on a day marked by two American victories—both by women—and one defeat, which was nearly as glorious as a triumph.

SHYLOCKS WALLOP AUTO BARBERS BY COUNT OF 2 TO 1

The Bankers defeated the Auto-Barbers in their first exhibition of the second half of the loop scheduled with a score of 2 to 1. The Bankers although out hit were more careful in the manner in which they run bases. The mechanic-shaver combination rapped out six singles off of "Windy" Nicholas the dollar mound-daman. Stahlacker held the money changers to four hits but the Auto-Tonsorialists worked badly behind his work.

DAILY MARKETS

COTTON ADVANCES

NEW YORK, June 28 (AP)—The cotton market was higher today. October contracts selling up to 17 1/2 points above yesterday's closing quotation and closing at 17 1/2. The general market closed very steady at net advances of 29 to 32 points and as soon as early offerings were absorbed, the general market turned firmer. No particular news factor was connected with the advance, but indications that the notices were being very promptly stopped, seemed to have helped out near months liquidation accounting for the relative weakness of July at the start, but it soon became apparent there was a good demand for the cotton.

GRAINS ADVANCE

CHICAGO, June 28 (AP)—Grain prices took a late upward swing today, influenced by increased likelihood of black rust and because of expected failure of the Keatinger bill. Closing quotations both on wheat and corn were strong, wheat 7-8 cent in 1 1/2-cent net higher, corn 3/4 to 1-5/8 cent up, oats unchanged to 3/8 cent advance, and provisions varying from 1/2 cent decline to a rise of 7 cents. Most deliveries of provisions showed some setback.

CLOTHS DULL

NEW YORK, June 28 (AP)—The gray cloth market was inactive today. Course cloths sold moderately with little price change. Scattered sales of fine goods comprised spot deliveries and contract commitments. The burly market was tapered firmer by two to three pence in Calcutta calico and unchanged for spot and flat offerings.

COTTON OIL IRREGULAR

NEW YORK, June 28 (AP)—Cottonseed oil was active today with prices irregular. Liquidation by July, as a result of liberal tenders.

Test Answers

- 1. Walter S. Posey, J. O. Jones, A. V. Weaver and J. H. Hankins, Messrs. Hankins and Weaver are serving their first terms.
2. Floyd R. Friend.

Chautauqua Meet Is Set For Today

With a ticket sales campaign well under way and advance agents in the city telling of the program, the check-up meeting of the contract sales committee will be held this afternoon at five o'clock at the city hall.

Thursday is opening day for the Chautauqua, and at 9:30 that morning, the boy scouts and camp fire girls of the city will stage a parade through the city in the interest of the programs. Each group is asked to meet at 9 o'clock Thursday morning at the city hall to prepare for the parade.

Local participation in the Chautauqua will be featured with the play and story hours which will be conducted every morning. Miss Vera Murfee assisted by the Child Study club, will have charge of the hour at 10:30 a. m. W. W. W. president of the club, has announced that an interesting story teller will be present for each morning.

Reserve tickets for the programs will go on sale today at the Shepard-Smith drug store. Only 350 reserve tickets will be sold and only those holding season tickets will be allowed to buy the reserve tickets. Members of the sales committee have announced that they will be at the door of the theater, which will be located on Avenue L between Broadway and 13th street, during the first two nights to see that every one will have a chance to buy a season ticket.

Heart Attack Is Fatal To Dentist

Following an attack of heart disease which had confined him to his bed since last Thursday, Dr. W. S. Ferguson, local dentist, died suddenly at his home, 1518 13th Street, at 10:50 yesterday morning.

Pending the arrival of a son, Phil M. Ferguson, of New York City, the body will lie in state at the home until Thursday when it will be sent to Bartlett, Texas, for burial.

Dr. Ferguson was sixty-five years of age, having been born in Hartsells, Alabama, in 1862. He came to Lubbock in 1917 and has been actively engaged in the dental business until the time of his death. He was a prominent member of the Lubbock County Dental Association and has taken part in many civic activities.

He is survived by his widow, two sons, Howard of Ft. Worth, and Phil M., of New York; one brother and three sisters. Howard Ferguson, of Ft. Worth, arrived here last night.
