Farm Holiday Members Gathered In Clovis for Jubilee On Monday

Monday was a busy day in Clovis, when many hundreds of the Farm Holiday Association gathered in that city to celebrate the jubilee. The order on holding the jubilee was tax sale.

The crowd was orderly, and the day was spent in rejoicing, and speech making.

Good Corn Grown Planted Last of June

A. B. Cares is one of the successful farmers of the Richland community. He has made many crops on his farm and he is counted one of the oldest settlers of his community.

On being asked about the outlook for a crop Saturday he replied that "it is dry in my part of the country, however, the season is better in the sandy land."

When he was asked if it were not getting pretty late for a crop, he replied, "yes, it is getting late alright, but the best corn I had last year was planted the last day of June. I did not expect the corn to mature. We only wanted a late roasting ear patch. There is plenty of time for a crop yet."

His son, Frank, is helping with the farm this year. Mr. A. B. Cares can not handle stock as well as he could a few years back. He has a reputation for growing good corn.

Irrigation Farmer Independent of Rain

T. L. Bruce, one of the successful truck farmers of the Portales Valley is planting about 14 acres of standard boron corn this year on his land in order that his land may be rested from sweet potatoes. Bruce is only setting five acres of sweet potatoes this year despite the fact that he thinks that they will be a good price this fall. He states that he has had the best tomatoes that he has had in five years. He is not complaining about the weather very much. His pump runs every day last week but one.

He states that he is not working his farm himself but is overseeing the work. He says that his son, Barnett is doing the work and seeing to the details.

Mrs. Sydney Stone and Mrs. Luther Thomas have returned from Albuquerque where they went to consult the specialist from the shrine hospital concerning the condition of Mrs. Stone's little son, who is two years of age and has not walked. Mrs. Fred Wingo of Springfield, Mo., has arrived in Portales and will visit for a while with her parents, Mr. and Mrs. C. J. Pendergraft. Mrs. Wingo may remain during the month of June if her husband is able to leave his office for a vacation about the first of July.

LITTLE WREN IN STATE HOUSE

Mrs. Marguerite Baca, secretary of state, could fittingly be termed the little wren of the state house.

Though small in size, this little lady has the courage of the little wren fighting the hawks off her brood.

This little lady has no fear of the "big strong man" in the governor's office, and has sent out her instructions on the referendums according to the constitution.

May she be successful in fighting off the hawks from her brood, which are the people of New Mexico.

Even though she loses in her right, she will remain dear in the hearts of the people of New Mexico.

It is indeed refreshing to find a public official who is not intimidated by the party machine.

THE DEMOCRATIC PARTY MUST RE-ORGANIZE

The democratic party in New Mexico is sunk, and unless there is a complete reorganization, and the political leaders of the state are discarded, it is past hope.

The News is still democratic, but cannot countenance the high handed methods of the state administration or of the State Democratic Central Committee.

New blood is needed and a return to the principles of Thomas Jefferson and Woodrow Wilson.

Were either of these great leaders to return to earth and visit New Mexico, their heads would be bowed in shame.

The News does not intend to let the machine organization drive it out of the party, but shall continue to insist for the good of the common people that the party return to the principles of democracy, and that the leaders who have brought disgrace upon the name of democracy in New Mexico, be discarded.

The hope of the state and its future welfare is at stake, and the present misnamed democratic administration has brought disgrace upon the state.

They have pulled political stunts that would not have been attempted by the republican bosses even in the old territorial days.

RECALL NEEDED IN NEW MEXICO

The people of New Mexico should initiate a constitutional amendment providing for the recall of any public official that fails in his duty.

The constitution provides for the referendum, but this has been set aside by the Czars at Santa Fe.

Under the recall this disregard for the will of the people would be sufficient for the action of a recall.

New Mexico must modernize her form of government if she ever expects to take her place with the well governed states of the nation.

The recall is democratic and no sincere official should object to such a provision in the constitution.

WHY NOT A FEDERAL RECONSTRUCTION LOAN FOR A HOSPITAL

Under the Federal Reconstruction Finance Corporation money is available for municipalities for needed buildings.

One of the greatest needs of Portales is a hospital to care for the sick and injured of the county.

At this time there are several from this county in the Baptist hospital at Clovis, and many cases are carried from this county to the Lubbock Sanitarium.

The time saved in caring for our people at home may mean life or death.

Under this finance plan the money can be secured for such a building.

It is up to the citizens to consider this and decide if they desire to make application for this purpose.

WILL ROBERSON ADVOCATES E. N. M. JOINING STATE OF WEST TEXAS

In his column in the Current-Argus, Will Robinson in commenting on the proposed formation of a new state of West Texas, suggests that it would be a good move if some means could be contrived to add the eastern counties of New Mexico to this state.

The state of West Texas would be one of the most progressive and prosperous states in the union, and if eastern New Mexico could be included in this move, it would work to the advantage of this section of the state.

Whoop'er up Bill, and maybe you can become the governor of this new state.

EFFORTS BEING MADE TO AID THE VALLEY FARMERS

Every effort is being made to aid the Portales valley farmers in refinancing their farms.

Oce Howard has taken this matter up directly with Congressman Dennis Chavez, who has promised his aid in this matter.

County agent Will has taken the matter up with Senator Cutting, the state extension agent and the Federal land bank.

From their correspondence it seems that to secure loans on less than 220 acres in this county, that it will be necessary to form an irrigation district, so that the water supply can be controlled and prevent over development.

It seems that the Portales valley is being discriminated against, and unless some relief is given through President Roosevelt's refinancing plan that many of the Portales valley farmers will lose their homes through mortgage foreclosures.

There is no better irrigation section in the nation than this valley, and with proper safeguards to protect the farmers' investments,

it will soon become the most prosperous section in the nation.

Over in Texas, the Federal land bank has recognized pumping irrigation through the Federal land bank at Houston, and the News can see no reason why the Portales Valley should not receive proper recognition.

According to reports, Harry Stuart, right hand man of the state administration is out campaigning for the counter referenda, to kill the petitions submitted asking for a referendum on six measures. Harry, reports say, has called the revolting citizens Bolsheviks and has read them out of the democratic party. Stuart is alleged to have written some "danged" good speeches for the governor and is a fairly handsome man. We'd hate to see his countenance disfigured with some rotten eggs the farmers can't sell, the first time he makes a crack like that in this district.—Artesia Advocate.

SOCIAL ANNEX
By THE BOSS

Uncle John George is trying to ring in a fish tale of the 80's on us to win the all day sucker.

He is telling of catching a cat fish that measured 11 feet and 9 inches.

The winner in this fish story contest must bring the News a part of the evidence.

Egg frying on the concrete has not become a popular fad in Portales as yet, but last Friday was hot enough to melt the tail off a brass monkey.

Billy Barker has been promoted to the office of Federal District Attorney, and this will leave a vacancy in the State Central Committee.

The elimination of Billy Barker, Ed Swape, Byron O'Seal, and Seligman would be much to the interest of the party.

The News attitude cannot be construed that the News did not want to pay its taxes. Its taxes are paid in full for all years including 1932, but its sympathy is for the farmer who could not pay his taxes.

What has become of the democratic papers of the state that carried at the mast head, "Official Paper of New Mexico?"

That old cootie up at Maguallina is taking a crack at the News for criticizing the state administration.

The News is still democratic, but the so-called leaders have departed from the teachings of Thomas Jefferson.

The News expects to stay democratic, but will continue to condemn any administration that does not have the interests of the people at heart.

Dry land farming is no misnomer this year in Roosevelt county.

3 STARS IN "STATE FAIR"

All-Star Cast Headed By Gayner, Rogers, Ayers and Eilers

Eight stars, each playing the type of role in which he or she has won the greatest success, bring Phil Strong's popular novel, "State Fair," to the screen of the Portales Theatre, midnight show Saturday night and through Sunday, Monday and Tuesday.

Janet Gaynor, Will Rogers, Lew Ayres, Sally Eilers, Norman Foster, Louise Dresser, Frank Craven and Victor Jory are the stars of the Fox production.

Miss Gaynor and Ayres are the lovers of a romance between a little farm girl and a dashing newspaper reporter, and Miss Eilers and Foster are the principals of another affair, said to be as intense as it is unconventional.

Rogers last what is reported as the greatest comedy role of his career, that of a Midwest farmer whose great ambition is to land a grand championship for his prize hog, Blue Boy. Miss Dresser takes the part of Rogers' wife, Craven appears as a country storekeeper and Jory portrays a carnival stand barker.

The auction locales are Rogers' farm home and the grounds of a big state fair.

J. L. Harris who lives south of Portales was running his planter Saturday. His cows are holding up fine.

Ed Homra reports that his dairy cows are doing fine considering the dry weather.

W. M. Bockman who lives south of Portales says that he has not been favored so much with the partial showers. He had 30 acres of cotton that is up in spots, he said Saturday.

Ollie Powell one of the prominent citizens of Dora was in Portales Saturday afternoon attending to business and meeting his friends.

were: Sam J. Mrs. Arminda Billberry, Mrs. Millie Billberry, Mr. and Mrs. Elmer Dadds, Mrs. Letha Houston, Raymond Billberry, Mr. and Mrs. Emmett Dadds and an old-time friend, N. H. Greer, of Portales.

These relatives through Toursona desire to express their heartfelt appreciation for the kindness shown their brother, Chas., during his last illness and death and to themselves during their sad mission here.

He kept the faith, To men above and men below Richer were all who came to know His kindly smile, his stern command;

He gave both with helping hand, And as he goes to rest today The greatest tribute we can pay there was a man.

LOW PRICE CARS VS. CHEAP CARS

We do not build a low-price car: the cost to us of building our car is pretty high.

But we do sell a high quality car at a low price. Almost every new Ford V-8 car we have built so far this year, has cost more to manufacture than its selling price was. As you buy them at only \$490 to \$610, we have to depend on increasing volume to make up the difference.

The reason for this is simple: — a manufacturer who gives good value must expect to lose money on the first cars he sells because he cannot charge all his costs to the people who are first to buy.

But with the purchaser it is different — he cannot afford to lose anything on a car. It must give him full value from the first, and keep on giving him full value for years.

Two things make possible our combination of low prices and high cost quality:

1. Volume Production

2. Taking only one profit

First, we set our price at what would be fair to the public on the basis of economies we enjoy in volume production. Then, in order to justify and maintain our low price we must get volume sales.

Thus it comes that a car which is really high-cost to make, is also low-cost to buy.

There is a difference between a cheap car and a low-priced high quality car.

Ford prices are always fixed at a point which makes it profitable for a customer to buy.

Good and lasting business must produce profit to the buyer as well as to the seller. And of the two, the buyer's profit must be, comparatively, the larger one.

It pays us to sell the Ford V-8 because it pays you to buy it.

TO THE PUBLIC

In compliance with the laws of the state of New Mexico it is necessary for us to arrange the opening and closing hours of our store, and starting Thursday morning, June 15th, the United Dry Goods Store will open its doors promptly at eight a. m. and remain open until 6 p. m., on five days of the week and on Saturdays the time of closing will be 8 p. m.

We realize that this will inconvenience many of our patrons but we always want to obey the laws of the state in which we live and had our legislators not thought the eight-hour law would be a good one, they would not have enacted same. After a short time we will all find that our tardiness can be done with in these hours with as much ease as when stores remained open many hours longer.

Let us all join in enforcing the laws of this our great state.
Yours very truly,
