Austin Agency Refuses 24 Bula Student Transfers

SEASON TICKETS for the home Wildcat football games are now on sale for \$7.50 in the school tax office. Zan Stovall, left, and Loraine Hopping study the seating arrangements in the reserved sections. Those who had reserved seats last year may get their seats again this year. Tickets will be reserved until Sept. 1. Games to be played at home this year include Slaton, Sept. 22; Floydada, Oct. 6; Roosevelt, Oct. 13; Friona, Oct. 27; and Olton, Nov. 10.

By NILAH RODGERS
Nine families in the Bula community are hotter than blue blazes following disclosure from the Texas Education Agency (TEA) last week that the transfer of 24 students out of the Bula school district has been denied.

The Littlefield, Morton, Three Way and Sudan school boards have been advised by J. W. Edgar, commissioner of education, that the transfers were not approved since such sending or receiving student transfers would "reduce, impede, reinforce, renew, or encourage desegregation."

In a letter to the Littlefield school board, Dr. Edgar wrote: "We realize these four transfers would have very little effect on the desegregation process in the Bula Independent School District if they were the only transfers out. However, our records show a total of 24 transfers of this small enrollment high percentage minority student body district."

All 24 of the student transfers are white. According to a liberal interpretation of the civil rights act, by allowing the 24 Anglos to transfer out of the Bula school district this would leave a higher percentage of Spanish students.

Last year Bula's ethnic classes included 50 Anglos, 40 Spanish and 10 Negroes.

Ironically, any such desegregation would be in reverse since most of the schools the students are transferring to have almost or as large a percentage of Spanish students and more Negro students than the Bula school district.

Transferring of the students out of the Bula district into Littlefield, Morton and Three Way schools isn't something recently initiated. Most of the students have been attending the schools to which they were transferring since they were first graders. The majority have either never attended Bula or attended only a short time.

The students who have been denied transfers to the Littlefield school system are the children of Mr. and Mrs. C. K. Pierce and Mr. and Mrs. Jimmy Cannon of Bula.

Mrs. Cannon is a teacher in the Littlefield school system. Janice Cannon is a 15-year-old sophomore in Littlefield. This is her fourth year in the Littlefield school system. Before that she attended Sudan for three years. Timmy Cannon is a 13-year-old Littlefield eighth grader. This is his fourth year to attend Littlefield and before that he went to the Sudan schools three years.

The Pierce children have attended school in Littlefield all of their school years. Lisha is 11 and will be a sixth grader, and Todd is 9 and in the fourth.

At Bula, grades one through six are held two grades to a room, with the first and second in the same room taught by the same teacher. Grades three and four and grades five and six are likewise doubled.

Littlefield attorney Jerry Kirby said the two classes to a room in Bula's lower grades and lack of choice of subjects

were among the reasons listed for transferring the students out of the Bula school district.

One of the students involved went to Bula and was kept in the first grade two years and the parents weren't even informed the second year that the student had been retained. The head of the Texas Tech reading department discovered a reading problem in the child and the student was transferred to an area school which offered a special reading program Bula did not have. This is his fifth year to transfer.

Several other students are old enough to know when they are getting an education. Add to that loyalty to the school they've been attending, friendships, and a sense of belonging, then multiply the figure by all the students and parents involved for an idea of how hot the issue is.

An 11-year-old girl attended Morton schools three years and when her family moved into the Bula school district they continued to transfer her. A younger sister did go to Bula two years. She was kept in the first grade two years and this is her third year to transfer to Morton. Another child in the family is starting to school this year, and her parents want her to go to school where her sisters go.

Several other students who have been transferring to Morton for the last three years or more have never attended Bula schools. The same is true of the students who have been transferring to Sudan and Three Way.

Parents of the transferring students are the Perces and Cannons, C. K. Price, Douglas Betts, Ralph Beasley,

Harvey Blackstone, A. P. Fred, James Boleyn, and D. M. McBee.

The directive from the Austin TEA is apparently connected to some unsigned "poison letters" that have been sent to parents who have been transferring their school-aged children into other school districts.

Printed typewritten cards saying "You live in this community, why don't you send your children to this school?" have been mailed to the parents.

Apparently someone knew about the precedent set by Federal Judge Wayne Justice at Tyler and pointed out the "desegregation" aspect to the TEA. Attorneys and school administrators do not think the Bula school is behind the move.

The desegregation law on student transfers reads:

Defendants shall not permit, make arrangements for or give support of any kind to student transfers, between school districts, when the cumulative effect in either the sending or receiving school or school district will be to reduce or impede desegregation, or to reinforce, renew, or encourage the continuation of acts and practices resulting in discriminatory treatment of students on the ground of race, color, or national origin.

Although all concerned say it is education not segregation which is concerned, several feel that the vague wording left Dr. Edgar with little choice.

The TEA has not ruled a blanket "no transfers" out of the Bula district. Another irony is that Three Negroes were allowed to transfer from Bula to Morton.

Letters sent to school officials and the parents of the 24 students were dated Aug. 1 but weren't received until last week, about two weeks before the start of the fall term.

The only solution would be for the Federal judge to give the students temporary relief, and attorneys say that isn't likely. The only other recourse is to move out of the Bula school district. According to one of the parents, quite a few of those involved are in the process of moving now.

Littlefield Superintendent Paul I. Jones said the TEA informed him that those who have been transferring to Littlefield could not attend the Littlefield schools as ineligible students, on a tuition basis, nor under any circumstance as a transfer from the Bula School district.

After moving into the Littlefield school district the students can attend on an eligible basis.

Jones said he is sorry this has hit the people here. "We're taking the result of the Tyler case," he said. "It's just another case of super supervision."

Women Discuss Projects In Called Meeting Tuesday

During the called meeting of "We, The Women" Tuesday, members of the Chamber of Commerce-affiliated organization decided to donate \$10 to Girlstown U.S.A. in answer to a request from the president, Marshall W. Cooper, concerning a need for food and clothing at the home for girls, and heard reports from several persons in the city concerning projects on which the organization is working.

In a letter from Cooper, the organization was informed that Girlstown is now in its 23rd Anniversary year, and that it is funded entirely on donations from organizations and individuals.

Members of "We, The Women" decided to donate some cash now and consider a special fund drive at a later date.

Dr. Bill Armistead, co-chairman of the Community Improvement Committee, made a report on the clean-up campaign for Littlefield, and stressed that the project is to be a continued effort—not just for one special week—and that citizens should make an effort to keep Littlefield clean all the time.

Billy Tom Grant, ticket chairman for the Festivities Days prizes, reported that as of Tuesday at noon only 1,500 of the tickets had been sold and that about 3,000 more need to be sold in the near future.

Ferol Krizek and Vera Griffin, co-chairmen of the 5th Annual Sidewalk Art Festival, reported that everything is "A-OK" and ready to go. All personnel have their assigned duties for the show, the judges are selected, and ribbons have been printed.

Carrol Black presented a report on the food booth, which will be set up during the art show. She asked that all members bring two baked items, while others will bring sandwiches and make the chili for hot dogs.

Jeni D. Brunson revealed that a clean-up theme would be used on the float for the Festivities Days parade. Members decided to call it "Clean Up With A Happy Face".

City Clean-Up Effort Continues Thru Friday

"We're going to put a smile on Littlefield," he continued, "in an effort to show off for persons who come to our town for the Pioneer Reunion and Festivities Days next week."

Citizens are reminded that a few large plastic bags are available in the Chamber of Commerce office for disposal of debris.

Farmers who have tractors with shredders, and who are willing to cut weeds for the city, are asked to contact the city manager. Some funds are available to pay for the use of such equipment for a few days, and will help eliminate the problem of letting the weeds get ahead of the city machinery.

Volunteers are donating pickups, trucks and muscle power in picking up trash today and Friday, and Friday will be "show off day" when collections will be completed.

Board Adopts Budget

Littlefield school board members adopted a \$1,453,869 budget for 1972-73 Monday night, and along with the \$115,252 increase, a 10-cent maintenance tax rate increase was passed to cover the additional expense.

Littlefield's tax rate for the coming year will be \$1.90 per \$100 evaluation, up 10 cents from the former \$1.80. The Littlefield school district will still have the same value of \$27 million at 55 per cent of the actual value.

1. The 1971-72 budget of \$1,338,617 was amended.
2. Bids were accepted from Mobil for gas, from Cloverlake for milk, and from Baldrige's for bread.
3. Two new teachers were hired. Mrs. Patricia Conway was hired to teach the sixth grade, and Mrs. Margaret Thaxton was hired to teach math in junior high.
4. Cornell and Company from Amarillo was employed as school auditors.

In other action:

ARMES EQUIPMENT COMPANY will stage the grand opening of their new building on the east Highway 84 bypass all day Saturday. Assorted door prizes will be given away and refreshments will be served all day. (Staff Photo)

Wildcat Party Saturday

MR. AND MRS. J. KELTON

"I'm not a spendthrift...I just believe in re-cycling money."

Miss Francis Recites Vows With Joe R. Kelton

Miss Merrilyn Faye Francis became the bride of Joe Rodgers Kelton Aug. 4, in Parkview Baptist Church of Littlefield, with Rev. R. N. Tucker, pastor, officiating for the reading of the double ring ceremony.

Parents of the couple are Mr. and Mrs. Choice W. Francis and Mr. and Mrs. Odie Kelton, all of Littlefield.

The vows were read before an arched candelabra decorated with greenery, flanked by two spiral candelabras on either side.

Musical selections of "Whither Thou Goest", "O'erish" and "Twelfth of Never" were presented by Miss Sandra Carter, pianist and Miss Jan Sisson, soloist.

Escorted to the altar by her father, the bride wore a gown of chantilly lace and chiffon over white satin featuring a hand scalloped neckline and petal point sleeves. Her skirt was designed as a panel of chiffon and scalloped lace tiers in front and back, with the back falling into a full chapel-length train. Side panels of the gown featured the chiffon and lace also. Her elbow-length veil of tulle was caught to a floral headpiece. She carried a bridal bouquet of white stephanotis and baby's breath with streamers tied in love knots.

For "something old" the bride wore a three-strand pearl bracelet, belonging to her great-grandmother; "something new" were her shoes; "something borrowed" was her dress; and "something blue" was the traditional blue garter.

The brides attendants were Mrs. Danny R. Stuart of Levelland, twin sister of the bride; Larry D. Metcalf of Littlefield, sister of the bride; and Mrs. Jimmy D. Francis of Littlefield, sister-in-law of the bride. They were attired in floor-length gowns of lilac nylon dotted swiss underlined with white. Their long lantern sleeves tapered to a point at the wrists and were accented with white lace daisies. The Empire waistlines were designed with full gathers and accents of the same white lace daisies. They carried colonial bouquets of asters in shades of lavender and lilac and baby's breath with lilac streamers.

Keith Kelton of Plainview served his brother as best man. Groomsman were Dale Kelton and Ben Kelton, both of Littlefield.

The guests were registered by Mrs. Bob Coley of Littlefield, and escorted to their seats by Tommy Kelton, brother of the groom and

Kenny Francis, brother of the bride, both of Littlefield.

For her daughter's wedding, Mrs. Francis wore a two-piece dress of pink crepe with white accessories. The groom's mother was attired in a blue dress of dacron double knit with white and beige accessories.

A reception followed in the Willie Room of the REA Building. Serving were Mmes. Georganne Walden, Haley Reynolds, Tommy Kelton, Dale Kelton and Ben Kelton, all of Littlefield.

For a wedding trip to Possum Kingdom, the bride wore a purple brushed velvet, two piece hot pants suit with white accessories.

The bride is a 1970 graduate of Littlefield High School. She was a member of the volleyball team, FHA, Kat Klub and DECA. The groom is a 1967 graduate of Amherst High School. He served three years in the U.S. Army. While in school he was a member of the football team four years and a member of FFA.

The couple will live at 1317 W. 13, Littlefield.

Mrs. Rodgers Shower Honoree

WHITHARRAL—Mrs. Monty Rodgers was honored with a wedding shower, Tuesday evening, Aug. 8, from 7:30 to 9 p.m. in the Lions Building at Whitharral.

The serving table was covered with a pink lace cloth, centered with a pink floral arrangement. Refreshments of pink iced cookies, strawberry punch and mints were served.

Linda Wade registered approximately 50 guests.

The bride was presented a hot pink rose corsage, her chosen wedding colors.

Hostesses for the occasion were Mmes. Ervin Sadler, Robert Avery, Clifford Throckmorton, Don Reding, Ralph Wade, Carl Jones, Ed Johnson, Jack Gage, George Wade, Tom Burrus, Clinton Fagan and Lowell Herring.

The hostess gift was a set of Club Aluminum cookware in avocado green.

Couple Weds In Stegall

Double ring nuptial vows united Miss Jana Sue Lane and Albert Roscoe Bennett in marriage Aug. 5, in the home of the bride's parents at Segall, Tex.

Preston Harrison of Three Way Baptist Church, Maple, officiated for the reading of the ceremony before an archway of salal and plumious trimmed with turquoise ribbon and bows.

Parents of the couple are Mr. and Mrs. Jack Lane of Segall and John Bennett of Muleshoe. The bride is the niece of Mr. and Mrs. Emil Macha of Littlefield.

Given in marriage by her father, the bride wore a street-length dress of bonded lace with an Empire waistline, belled skirt and puffed sleeves. She wore a summer hat of white straw with a white bow and streamers, and carried a colonial bridal bouquet of daisies entwined with turquoise and white ribbon streamers tied in love knots.

Danette Lane of Segall, sister of the bride attended as maid of honor. She was attired in a street-length dress fashioned with butterfly sleeves, scooped neckline, fitted bodice and an inset midriff, accented with braid trim. She wore a wide brimmed white straw hat with a turquoise bow and streamers, and carried a single carnation surrounded by baby's breath with turquoise streamers.

Best man was Mike Bennett of Muleshoe, brother of the groom.

The guests were registered by Sandra Simpson.

For the reception, the serving table was covered with a white lace cloth over turquoise. The table was centered with an arrangement of candles and cupids nestled among turquoise and white net and baby's breath. The three-tiered wedding cake was decorated with turquoise roses and white wedding bells and was topped with a bride and groom. Crystal and silver appointments were used. Serving were Mrs. Conrad Williams and Sandra Simpson.

The bride is a 1972 graduate of Three Way High School, and the groom attended Muleshoe School. He is a Vietnam veteran and presently employed in Hub, Tex.

The couple will live in Clovis, N.M.

Fashion Merchandising Courses Slated At SPC

Mrs. Sharon Godley has recently joined the faculty at South Plains College, as instructor of the various courses in fashion merchandising at the college.

The fashion merchandising program at SPC is one in which students are prepared for employment as an assistant buyer or fashion coordinator.

Course work includes development of job skills, merchandising plans, establishment of a promotion program, coordinating of a direct sales program, and the buying and pricing of fashion merchandise.

Persons who are majoring in fashion merchandising will also be acquainted with problems in basic fashion and techniques embodying the fundamental theories in clothing design, including personalized dress, color and corrective dressing.

Students will also participate in a study of product knowledge and distribution, fiber industries, the textile fabric industry, market centers, research, trends, other materials of fashion, manufacturers of fashion, apparel and accessories, and the role of the manufacturers, retailer and consumer.

Fashion merchandising majors at SPC will also be acquainted with a course which prepares the fashion coordinator for her work in such publicity generating activities as staging fashion shows, in or out of the store; arranging clinics or demonstrations at which visiting designers or manufacturers will speak; representing the store as a speaker on fashion before consumer or business groups in the community.

Mrs. Godley received her Bachelor of Science Degree in homemaking from Texas Tech University. She has been employed at Sakowith Department Store in Dallas as assistant merchandising manager in the Women's clothing department and department manager of the gourmet section.

Prior to coming to SPC, Mrs. Godley was employed by Hemphill-Wells in Lubbock as assistant buyer in the sportswear department for women. Sharon and her husband,

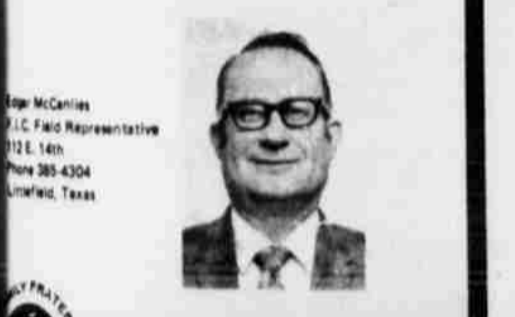

Jim, will reside in Levelland. Jim is a physical education major at Texas Tech. Interested persons may contact the Director of Continuing Education at South Plains College, phone 894-4921, for further information about the fashion merchandising courses being offered at SPC.

STATE CAPITAL Highlights AND Sidelights

by Bill Boykin
TEXAS PRESS ASSOCIATION

GOV. PRESTON SMITH is threatening a special legislative session on insurance reform.

In a statewide, televised speech, he announced he will ask the Legislature to abolish the paid, three-member State Insurance Board, which he charges is company dominated.

Angered by Senate rejection July 7 of his longtime friend, Larry Teaver, to the Board, Smith blamed the defeat on the "powerful insurance lobby."

His recommendations to "completely reorganize and reform the regulation of the insurance industry" will be delivered to a special session this year or to the next regular session in January.

In reaction to his speech, the Governor said, will determine whether he goes through with the special session call. He feels reorganization of the Board can be achieved only in a limited special session, but he isn't sure whether the public yet supports reform strongly enough to insure action.

Dallas Sen. Oscar Mauzy, a leader in the move to reject Teaver, challenged Smith to follow through and call the session immediately. He said he opposed Teaver, not because he was a consumer advocate on the Board, but for "lack of character and ability."

Smith in his TV speech announced 19 vetoes of items totalling \$6.35 million from the 1973 appropriations bill.

Among the vetoed items: funds to acquire facilities for an Add University center at Corpus Christi; a legislative scheme to thwart construction of a new highway building near the capitol by forcing creation of a state "garden park" on the site; \$1 million for a Fort Worth state school and \$1.22 million for new branch junior college in Coleman, Lubbock, Haskell and Palestine.

\$200 MILLION TAX NEED

The House Revenue and Taxation Committee received advice the Legislature may be looking at a \$200 million money shortage for the next biennium when it reports next year.

James McGrew, Texas Research League director, told the committee spending from general revenue and other key state funds will jump \$700 million over the present level next biennium. But he figured an additional \$375 to \$400 million in revenue is anticipated from present "growth" taxes, and a \$100 million federal welfare windfall is foreseeable.

The committee also was reminded repeatedly of the likely effect of a federal court decision (now on appeal) holding the present method of financing public schools by ad valorem taxation unconstitutional. And a University of Texas official suggested property, income and sales taxes are all necessary to get "maximum equity" in the tax system.

Governor Smith strongly disagreed with McGrew's forecast and said there is a strong possibility no new taxes at all will be needed next year.

COURTS SPEAK

The Supreme Court reconsidered and agreed to hear arguments next October in a controversy in which the wife of a Wichita Falls doctor was granted a divorce settlement which included a \$40,000 community property right in his medical practice.

In other cases, the High Court concluded:

"A city can cut off water service for failure of residents to pay a garbage collection fee.

"Lower court rulings should be left standing which assessed a Houston doctor \$134,150 in damages for failure to exercise proper diligence in treating a child for a broken leg. The boy lost his leg.

"Child support payments should be lowered for a once-wealthy father who lost his money on the stock market.

The Court of Criminal Appeals said criminal trials should be interrupted when it becomes apparent a defendant is mentally incompetent. The same Court said prosecutors have a right to question defendants about alleged threats to witnesses.

INSURANCE CUT URGED

An 11 per cent average statewide cut in private passenger car insurance has been recommended to the State Insurance Board.

Board member Ned Price said the rate reduction—which could save more than \$68 million—probably will be made by the Board by mid-August, effective Sept. 1.

Proposed reductions amount to an average 8.2 per cent on liability coverage and 14.5 per cent in collision and comprehensive coverage.

Industry spokesmen said the reduction—credited to lower accident claims—is amazing in view of rising medical and repair costs.

Dallas Sen. Mike McKool claimed the reduction could have been greater—"at least 20 per cent."

Board members also reviewed a modified no-fault auto insurance plan known as the "personal injury protection plan" which would add to policies additional coverage for medical bills and lost income due to accidents. Benefits would be paid without regard to who was at fault in an accident.

ALIENS SNUGGLED IN

About 412,000 illegal immigrants were deported from the U.S. last year, according to a Texas Good Neighbor Commission report.

Most of the group were Mexican citizens. The Commission said smuggling of the aliens into the country has become big business and that tougher criminal laws are needed to deal with exploitation of Mexican labor.

SHORT SHORTS

Houston may be a prime area for industrial expansion from Europe and Japan, according to Texas Industrial Commission.

Sen. Chet Brooks of Pasadena will serve as governor for a day Aug. 12.

University of Texas Bureau of Business Research reports a big swell in non-residential construction.

Twenty million dollars in state student loan bonds were sold July 20 at an effective interest rate of 4.89 per cent.

Texas Welfare Board learned a new federal regulation may force the state to pay assistance to illegal immigrants.

Sen. Lloyd Bentsen complained Texas flood victims are not getting equitable treatment from the federal government, and demanded the same helping hand as is being extended victims of Hurricane Agnes in six eastern states.

A statewide food stamp program for the needy will be put into effect this year, with stamps purchased at post office windows.

Gal With A Clout

EDITORIAL

Not Forgotten

Nearly 40 million Americans are senior citizens. These people, 55 years of age and older, often have lives more troubled than the "twixt 12 and 20" group.

No one denies that adolescence is a difficult period, but the golden years are also trying. For example, older people have a difficult time getting automobile insurance. This is only right, one might think, because their reflexes are supposedly slower, inspiring their ability to drive safely.

A condescending view of older drivers, however, is unjustified. A Philadelphia insurance company proved it when they analyzed the driving records of a half-million drivers over age 50 and found that they average fewer accidents than all other drivers. Their faith in the older driver has led the company to remove all age limits from its auto insurance policy.

Independent studies by The National Safety Council support these findings. Older drivers constitute about 30 percent of the driving public, yet they are in-

olved in only about 20 per cent of the accidents, according to the Safety Council.

Older drivers have greater driving experience, they rest more frequently, and rarely test their endurance with distance drives. Because they are rested and alert, older drivers are safer than fatigued younger drivers. Nor do older people drive swiftly or impatiently.

The insurance company was impressed with the excellent safety records of elderly drivers. It was the first company to offer guaranteed insurance to age 80. Today, the insurance is guaranteed renewable as long as the driver remains healthy enough to drive safely, does not have his license revoked, and pays his premiums.

This is an outstanding example of private enterprise meeting social needs through innovation. Colonial Penn has had good results with health and life insurance for older Americans, and expects continued success with automobile coverage for them. (From the U.S. Press Association Bulletin).

Commissioners Set Quail Hunt

Without a dissenting vote, Lamb County commissioners approved Lamb County's quail hunting for the upcoming season from Dec. 1 through Feb. 15.

Previously the commissioners' court passed a resolution which has been sent

to Rep. Bill Clayton asking that the setting of Lamb County's quail hunting season be put back under the Texas Parks and Wildlife Commission, rather than remain under the commissioners' court jurisdiction.

Other action taken during the regular meeting Monday included payment of the county monthly bills, and approval of delinquent tax records and supplemental delinquent records for the tax assessor-collector's office.

Vandalism, Theft, Break-In Offenses

City police officers are investigating vandalism, theft and break-in cases which have been reported to them early this week.

Sunday entry was gained through the west door of Littlefield Delinting Company, and the Coke machine was pried open.

Taken was about \$7 in change from the machine, and the machine was damaged.

A citizen on East 20th reported Friday that someone had gone inside his unlocked garage sometime between Wednesday, Aug. 9 and Sunday, Aug. 13, raised the hood on a 1972 Ford Pinto and cut the wiring on the car.

A citizen on West Fourth Street reported that a bag of potatoes was taken from his truck while it was parked in front of his house Tuesday.

Littlefield Man Killed In Fall From Pickup

A Littlefield man was killed in a freak accident about 11:30 Wednesday morning.

Henry McDaniel of Littlefield was dead on arrival at the Littlefield Hospital.

According to James Cox, Littlefield chief of police, the man was apparently helping some friends move. He was laying on top of some mattresses in the bed of a moving pickup when he fell off on his head just north of the Littlefield High School on W. 10th Street.

The body was taken to McCarty's Funeral Home where services are pending.

THE ABUNDANT LIFE Limit Difficulty

DIFFICULTY CAN serve useful purposes in our lives. In fact, there must be some difficulties for us to face and overcome; otherwise, we cannot grow strong.

This does not imply, however, that we can be careless and reckless, and thus cause unnecessary hardships. Such behavior will make it impossible for us to be effective and useful human beings.

IN THE WELL-PLANNED, and wisely conducted life; there will be enough difficulties to provide opportunities to grow strong by overcoming them.

"The weak sinews become strong by their conflict with difficulties. Hope is born in the long night of watch and tears."—Chapin.

WE CAN BE OVERWHELMED with difficulties, but need not be if we limit them to the normal supply. Difficulties we make for ourselves seem to be the most discouraging ones, and the ones most likely to give us the most trouble.

Therefore, we must be alert and wise in our plans, in the choices we make, in our associations with other people, and in every other part of our living experience.

SOME FORESIGHT must be exercised, and this requires forethought. Many of the mistakes we make, and some of these can be very troublesome, could be avoided.

Many of the unhappy and disturbing situations we get into could be prevented. Many difficulties will never develop, when we take the indicated

action soon enough. In this, we are on guard against self-deception.

WE HAVE A GENERAL knowledge of how the usual happenings of life. This means that we can take appropriate action at the proper time.

We may not always be aware of the ultimate result in some actions, or failure to act; but we can be sufficiently things to justify our own alertness. We can limit difficulty.

FROM OBSERVATION, we learned that "A stitch in time saves nine." We can manage many of their initial stages which become manageable after they have developed.

We can "limit difficulty" by doing what we are able to do, when first indicated. If we use the opportunity wisely, we can prevent development of many difficult problems.

WE MUST LEARN TO STOP going too far. In most situations, we are able to realize when we are on the course; when we are moving trouble.

This is the time to stop, time to course.

"THE BEGINNING OF STRIFE letting out water; so quit before quarrel breaks out."—Proverbs.

There will be difficulties when we can handle them successfully do not overload ourselves with made ones.

HONNY GRITS

By CORNBALL BLY

MY MINISTER TOLD ME that if I couldn't say anything good about someone I shouldn't say anything, at all. Thought this over for a while and find that the idea leaves me pretty pickin' short on material.

I find if I follow his advice, I'll have to quit mentionin' a bunch of people that I've commented on in this column in the past.

So, I'm tryin' to write this without mentionin' the political candidates, the Supreme Court, Justice Hughes, Angela Davis, Jane Fonda, Rennie Davis, and, a whole bunch of congressmen.

KINDA NARROWS the field!

Guess I should be like the kind old sister that frequented the country quilting parties. The rest of the gals were somewhat put-out that every time they mentioned the object of a choice bit of gossip, she managed to come up with a kind word, or a good trait of the person.

This was quite frustrating gossips.

THEY FINALLY CAME up with a name to bring up the name of at least one person that their "Well, he's couldn't compliment.

Having duly baited the trap, the girls asked our heroine, "And, do you think about Old Satan?"

The lady was silent for a short then commented: "Well, he's a WORKER!"

ANYWAY, IT'S BEEN a lot of I promise not to mention it—unless I decide to.

OBITUARIES

CORA BROWN

Funeral services for Mrs. Cora Brown, 93, of Levelland, who died about 2 p.m. Tuesday in Cook Memorial Hospital, were pending at press time Wednesday.

Mrs. Brown was a sister of George Howard of Littlefield.

Lankford of Graham. (Ford Photo)

5 Killed In Lamb County During July

The Texas Highway Patrol investigated 17 accidents on rural highways in Lamb County during the month of July, according to Sergeant Thurman Keffer, Highway Patrol supervisor of this area. These crashes resulted in five persons killed, and 21 persons injured.

The rural traffic accident summary for this county during the first seven months of 1972 shows a total of 62 accidents resulting in six persons killed, and 51 persons injured.

Region 5 of the Texas Department of Public Safety shows a total in July 1972 of 713 accidents resulting in 34 persons killed and 388 persons injured as compared to the same month in 1971 with 564 accidents resulting in 38 persons killed and 324 persons injured.

The 34 deaths for the month of July, 1972 occurred in the following counties: Archer, 7; Lamb, 5; Lubbock, 4; Cochran, 3; Parmer and Wilbarger, two each; Floyd, Hockley, Jack, Young, Castro, Childress, Deaf Smith, Donley, Hartley, Moore, Potter, and Sherman, one each.

YOUTHFUL DRIVERS
 Though representing only 22 per cent of all licensed drivers in the U.S., under 25 year old drivers were involved in more than one-third of traffic accidents resulting in death or injury.

Dear Abby
 Nudity in the home
 Just pull the shades
 By Abigail Van Buren
 (© 1972 by Chicago Tribune-N.Y. News Synd., Inc.)
DEAR ABBY: Please give me your opinion subject as it seems to be "law" with the women of Lean, Texas.
 I am new in this town and the townspeople are feeling me out. At work the other day some asked me what I sleep in, and I said, "Nothing." Well, I was told I was no lady!
 Abby, I enjoy sleeping in the nude. In fact, I am doing my housework in the nude, (privately, and the shades drawn, of course) and what is more I cook in the nude. I see nothing wrong with it. Texas women are ready to run me out of town on a I live alone, so why can't I do as I please with me?
DEAR NEW: I'm with you. But do you as when you're frying bacon. And watch the wages.
DEAR ABBY: Ho-hum. I just read the fullness in one of your columns: "You will always mother's daughter regardless of whom your father is."
 Abby, you could not possibly have committed a dous a grammatical crime, so it must have been secretary, a proofreader or printer. Regardless of it is. Call the Kulpit on the Karpet and Kastigate or it Kategorically.
TONY THE STICKLER IN CANOGA PARK
DEAR TONY: I'll take my lumps when I get, time I'm not guilty. The word was correctly "copies sent to all the newspapers carrying my column some reason, ONE newspaper (with a circulation of a million) changed my "who" to "whom." [Oh, they had changed my "whom" to "who" when erroneously wrote, "Whom shall I say is calling?"]
DEAR ABBY: My husband has been an invalid years. I have been willing to take him on trips twice a year, but he refuses to go because he has to have to go in a wheelchair, and this he refuses to do. Do you think I should give up all future travel which include travel? I have opportunities to go groups thru my husband's business associations. No panky. Just a change of scenery, which I would do. My husband would have good loving care for children, and they think I should go. I'd never be more than 10 days. Should I go or not?
CABIN FEVER IN L.A.
DEAR FEVER: How does your husband feel if he wants you to go, then go. If he doesn't, either be selfish of him, stay home. You wouldn't have time if you went and took a nagging conscience with
DEAR ABBY: Two weeks ago my 18-year-old moved out of the house, announcing that she was job and renting a room.
 At that time her 14-year-old sister moved in room, after working for three days to clean it up.
 Two weeks later the 18-year-old came home and manded her own room back, so naturally she got it. Now the 14-year-old is heartbroken. Who was right?
MOTHER OF IF
DEAR MOTHER: Not the 18-year-old. Why "naturally" get it? In the interest of fair play, you not have permitted the younger girl to be moved out
DEAR ABBY: This letter is in reply to "Teacher" who admitted that he found one of his female students somewhat tempting: Being a 34-year-old male teacher who has taught in the public schools 10 years, may I share with you and your readers the following:
 A few weeks after school began (last year) some teachers were talking about some of the girls in classes. One of them said, "I can hardly keep my my teaching because of the way some girls are doing. [I am sure this is the case in 99 per cent of the schools in America.]
 Many girls come to school wearing miniskirts. teacher must teach in full view of their undergarments which is bad enough. But try teaching with girls in class who have absolutely NOTHING on underneath. Some teachers say nothing because they enjoy it. Others are too embarrassed to say anything.
 Parents say nothing because they don't make any more like my Mom and Dad.
 So, you tell me. What is a teacher to do when he keeps his eyes off? Ha! In my opinion the girls are something ON!
CONCERNED ABOUT EDUCATION AT JUNCTION CITY
DEAR CONCERNED: Right on! And in my opinion girls should put it on and keep it on.
CONFIDENTIAL TO ALL WHO WROTE OFFERS TO GIVE ANNIE A HOME: Rest assured, that the orphan who was being abused in a foster home is a family who loves her and are taking good care of her was overwhelmed by the number of readers who offered to give Annie a home. God bless you. Truly wonderful!

FB President Attends Meet

Dean Elms, Lamb County Farm Bureau President, attended a statewide conference of county presidents Aug. 9-11 in Austin.

Issues facing agriculture and new programs in Farm Bureau were discussed by more than 125 county leaders in attendance. The presidents also heard a report on a farmer-rancher image study conducted recently in Dallas. According to the report, there is a "reservoir of good will" in metropolitan areas for agriculture in general.

Speakers included J. T. Redi Woodson of Fannin County, president of the 130,000-member state farm organization; TFB Executive Director Warren Newberry of Waco; and Jack Angell, Chicago, American Farm

Bureau Federation labor specialist.

State and national issues discussed included: farm labor transportation, environmental pollution, financing public education, taxes, property rights, and control of fire ants, predatory animals and screwworms.

Farm Bureau programs under discussion included: public relations, policy development, income tax service, and Farm Bureau's commodity approach to farm problems.

The county leaders also heard a report on how agriculture fared in the recent special sessions of the 62nd Legislature as well as an analysis of the "characteristics" of the upcoming 63rd Legislature.

DEAN ELMS, left, president of the Lamb County Farm Bureau, attended the statewide conference for county presidents Aug. 9-11 in Austin. He is shown chatting with Hub King of Brownfield, Texas Farm Bureau board member from this district. Issues facing agriculture and new programs in Farm Bureau were discussed at the three-day meeting.

Licenses Now In The Mail

Patience, Texas sportsmen, the 1972-73 hunting and fishing licenses are on the way.

The Texas Parks and Wildlife Department mailed over two million licenses Aug. 11. License sales deputies throughout the state should receive their consignments this weekend or by the first of the week.

The two million figure included 729,425 resident hunting, 218,240 exempt, 11,575 nonresident and 1,062,400 fishing licenses.

The department will also send 62,940 White-winged Dove Stamps to be used in the

coming three-day white-wing hunt.

Last year's permits expire Aug. 31, so outdoorsmen should make the purchase of a license part of the yearly preparation for the fall season.

Resident hunting licenses cost \$3.25; exempt ones for those under 17 years of age or over 65, are 25 cents. Fishing licenses are \$2.15.

Licenses are available throughout the state from authorized dealers such as sporting goods stores and other retail outlets as well as department offices.

Boys Ranch Rodeo Slated Labor Day

The only rodeo of its kind in the nation will be held over the Labor Day weekend, Sept. 3 and 4.

It will be the 28th annual Boys Ranch Rodeo at Cal Farley's Boys Ranch where approximately 10,000 people are expected for the two performances.

More than 150 boys will be riding calves, steers, Brahma bulls and bucking broncs.

Older boys will compete on professional rodeo stock with judging under R.C.A. rules.

All of the 375 boys who make their home at the Ranch will have some part in the rodeo, either as contestants or working in the many behind-the-scenes activities.

Both performances of the rodeo will begin at 2:30 on Sunday and Monday afternoons with music provided by the Boys Ranch band.

An added attraction will be big bar-be-que sandwiches that will be prepared and sold by the boys for only \$1. The rodeo is also a traditional homecoming for the more than 2,500 boys who have lived at the Ranch since it was founded by Cal Farley in 1939.

Reserve box seat tickets for \$2.50 are available at the Boys Ranch office, 600 West 11th Street in Amarillo, or can be obtained by writing to Cal Farley's Boys Ranch, P.O. Box 1890, Amarillo, Texas, 79105.

General admission will be \$1.50 for adults and 75 cents for children.

PEDESTRIANS More than 319,000 pedestrians were injured in traffic accidents in 1971. Of this toll, approximately 85,000 were injured while crossing between intersections.

Agricultural Topic Set For Field Day

The Texas A&M University Agricultural Research and Extension Center north of Lubbock will host its 63rd Annual Field Day and Open House Tuesday, Sept. 12 beginning at 1 p.m.

Detailed discussions will be presented at eight different locations in the field according to Dr. Jack Gipson, research scientist and Mr. Oliver Newton, agricultural meteorologist, co-chairmen of the field day.

Topics to be featured at the field stops include: drip irrigation, oilseed crops, cotton diseases, cotton varieties, narrow-row cotton, soil fertility, vegetable crops and sorghum breeding and insect control.

A shuttle service will depart from headquarters every 15 minutes, and visitors may disembark at the discussion site of their choice and then catch a subsequent shuttle when they are ready to move on.

This is a new innovation and was added at the request of farmers who participated in the planning sessions of this year's event, according to Gipson and Newton.

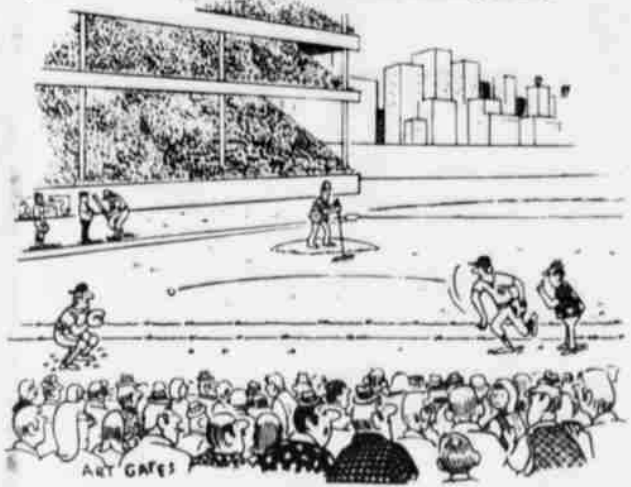

Other topics to be featured which are of vital interest to the agricultural industry on the High Plains are weed control and weather. Special "classes" will be conducted at the headquarters area on these subjects.

Displays and exhibits will also be featured for public viewing. These will include plant diseases, soil testing, plant physiology, and a large machinery exhibit.

Everyone with an interest in agriculture in West Texas is encouraged to attend the field day and open house. According to the field chairmen, it promises to be an afternoon well spent.

DANGER LEVELS

While aircraft noise can be a serious problem for people who live near major airports, many more people are exposed each day to the sounds generated by surface transportation vehicles including automobiles, trucks and motorcycles. Noise produced by surface vehicles often reaches the level of being potentially hazardous to human hearing ability.

Keith Neinast

Plays In All-Star Game

Keith Neinast, captain of the Antelope Union High Rams, at Wellton, Ariz. all-conference offense and defense, as well as all-state defensive end, was selected from a group of 17,000 high school football players to play in the 23rd Annual Arizona All-Star Football game.

Neinast played on the south team that deadlocked with the north, 19-19, and performed as the kicking specialist and defensive line backer.

Neinast is the son of Lee Neinast of Littlefield and will attend Eastern Arizona JC on a scholarship.

KEITH NEINAST

Golf Tourney Set Aug. 19-20

A 36-hole Medal play golf tournament is slated at the Littlefield Country Club Aug. 19 and 20.

The tourney is sponsored by the Men's Club of the Country Club.

Entry fee is \$7 and the entrants will qualify for flight through Aug. 18.

Prizes and trophies will be awarded to the winners. Neil Duffy of Amherst is the defending champion.

Bowling League Set-Up Slated

An organizational meeting of the Ladies' Winter Ivy Bowling League will be held at the Lamb Bowl Monday, Aug. 28 at 7 p.m.

All interested bowlers in the area are invited to attend.

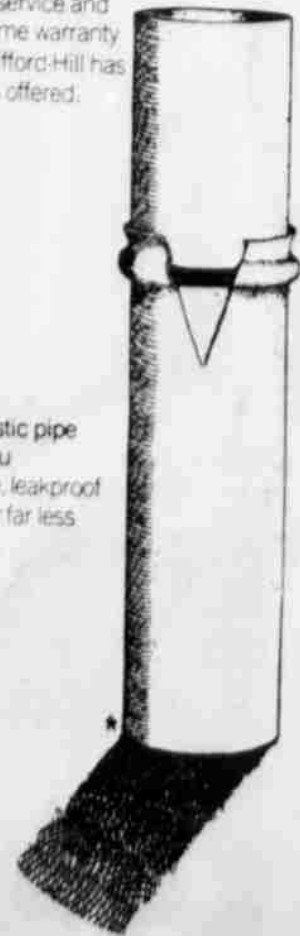

Plans will be made for the winter season of league bowling as well as naming the bowler of the week as well as the bowler of the month and the bowler of the year.

TURN ROW COMMENTS

EMIL MACHA

WAS TALKING to a farmer's wife the other day and she backed up my prediction that Lamb County up to now has one of the best crops it has ever had. She stated that their dry-land crop looked as good as that on the irrigated land. The milo was headed out and the cotton had bolls and loading up for an excellent yield. She also commented that the weeds were looking rather healthy also.

Even those of us that got hailed out in July are beginning to enjoy green fields. Some of the green is from weeds but down below the weeds are good looking crops.

IT'S BEEN A thrilling experience to notice so many of our young people shopping in Littlefield for back-to-school. When they shop at home they are also helping themselves.

As an advertising man, I call on these merchants every day, and I hear this comment almost everyday: "Sure, I know that we don't have as large a selection as the big stores in the big town, but we do the best we can for the volume of business we do." So many times the shopper has to come back from the big city to make the purchase because the big stores don't have a particular item, or the price was too high, or they could not find their size.

Back to the comment "by shopping at home they also help themselves." This pertains to the schools and organizations in the school.

When funds are needed for some project, who is contacted for a donation?

It is the local merchant. They donate hundreds of dollars each year to various school projects in Littlefield and the surrounding area. Of course let's not only say school because there are other projects during the summer months as well as various church groups raising funds.

Very seldom does a big city merchant give a donation to a fund raising project from an out-of-town solicitor.

I can begin to hear the feedback in my mind for these remarks, but really, let's give the local merchants a chance, most of you do, but still, do we really give them a chance they deserve.

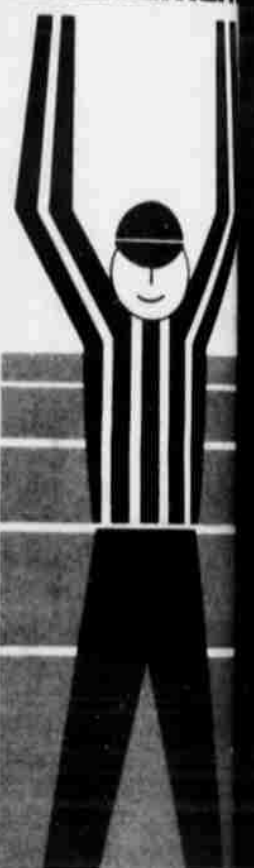

Have you ever stopped to figure what a four-dollar savings on an item in the big city costs you? First it will cost

you at least two hours of your time. Next it will cost you at least 80 miles of wear and tear on your automobile. Let's figure this at 10 cents a mile and that will be eight dollars. Now, if you get caught in a big city during noon it will cost another dollar for lunch. If you have your family with you, it will be even greater. Let's say how much you saved. 7 hours at \$1.60 is \$3.20. \$8.00 car and \$1 for a minimum total of \$12.20 spent on the \$4 savings.

SATURDAY MARKS a day for Barry Armes, he having a grand opening of a new building on the Loop of Littlefield. The new building facility will be a real aid to farmers in the area and asset to Littlefield. Armes extends an invitation to all come by Saturday for the formal opening. Refreshments will be served all day and there will be door prizes.

"MITCH" MITCHELL, providing a major attraction again this year for Littlefield Festivities Days celebration. He will have Miss Page Country here for an autograph signing party in a showroom, and then she will ride in the Festivities Parade.

Farmcast

A Weekly Report Of Agri-Business News

Compiled From Sources
Of The Texas Department of Agriculture
John C. White, Commissioner

Farm Prices Show Increase... Sheep on Feed Increases... Changes Announced in Screwworm Control... Cotton Stalk Destruction Deadline Nears... DDT to be Cancelled.

Call prices are above 100 per cent of parity, the Texas Crop and Livestock Reporting Service notes. Average price for calves received by Texas farmers as of July 15 was \$45.30 per hundredweight. Effective parity is \$44.20 per hundredweight.

Overall, the all farm products index shows prices received by Texas farmers and ranchers were at 356 per cent of the 1910-14 base. This is an increase of 20 per cent above a year ago.

Call prices are the only commodity above effective parity price. Cotton, for example, was at 28.5 cents per pound while the effective parity is 55.16 cents per pound. Hogs were at \$27.20 in Texas on the average; effective parity is \$30.60.

Beef cattle prices averaged \$35.60; effective parity is \$36.80. Grain sorghum averaged \$2.01, while effective parity is \$3.33.

Parity—that measuring stick used to compare farm income with non-farm income—is now at 75 per cent.

So even though farm prices have been increasing, total farm income is still about one-fourth below the rest of the economy.

Farm income now is estimated at \$18 billion this year. But at full parity, farm income would be about \$22 billion.

SHEEP on feed in Texas shows a six per cent increase in the number on feed a month earlier. This, however, is four per cent below a year ago.

Drylot sheep feeders with a lot capacity of 2,000 head or more had 143,000 head of sheep and lambs on feed for slaughter as of August 1.

Current intentions to market the 143,000 head are: August, 53,000; September, 56,000; and October, 34,000. September and October intentions are incomplete at this time because additional lambs could still be placed on feed and marketed during the period.

CANCELLATION OF DDT registration will take effect August 31, except for a few limited uses. The Pesticide Advisory Committee of Texas, which makes recommendations to the Texas Department of Agriculture relating to the use of pesticides, said cancellation should have little impact on agriculture production in the state.

DDT will continue to be registered for use on stored sweet potatoes, use by public health officials, in prescription drugs, and by the military in health quarantine programs.

SCREWORM regulations relating to dipping or spraying of livestock have been changed. Livestock are no longer required to be dipped or sprayed before shipment from one screwworm-infested state to another. However, all livestock shipped from or through areas where screwworms are a recurring problem must still be inspected, any wounds treated, and the shipment certified free of screwworms.

Michelin costs less in the long run. The very long run.

In fact, this Michelin steel belted radial costs less per mile of driving than any tire you can buy. Backed by Michelin's Warranty* for 40,000 miles of tread wear. (Many owners get much more. Puncture resistant Michelins give precise steering control, sure safe stops and smooth driving comfort. Stop in and start saving right now.

MICHELIN

*Michelin's Warranty for X Radial Highway Tubeless Whitewall Tires shown here covers tread life, and normal road hazards (excluding repairable punctures) for 40,000 miles, and defects in workmanship and materials, when tire is used on domestic passenger vehicles in normal service in continental United States, except Alaska. Credit or refund (at Michelin's option) is equal to current retail selling price multiplied by percentage of warranted mileage not run on tire.

GRAND OPENING IN NEW LOCATION

Armes Equipment Opens Saturday

Armes Equipment will have the completely new John Deere "Generation II" tractor on display, along with a self propelled cotton stripper for broadcast cotton, a new style breaking plow, and the 6600 and 7700 combines when the door swing wide for their gala grand opening Saturday.

The grand opening Saturday will be in the new location on the 84 by-pass. The gigantic pre-fab steel building

features lava rock across the front. The 60 x 40 display area is all paneled and sports a suspended ceiling.

There's plenty of room in the 60 x 80 shop area for better service and the parts area is 60 x 40 to allow for a complete inventory of parts.

Coffee, cold drinks, cookies and doughnuts will be served all day Saturday. Assorted door prizes including

jackets, service and parts certificates will be awarded.

Barry Armes owner and manager bought out E.B. Luce and Ralph Nelson last September. The Saturday grand opening is just short of his first anniversary.

Armes is a 1961 graduate of Littlefield High School. He attended West Texas State University two years before going into farming.

He has been farming for 20 years, and is farming 2,600 acres of time.

Armes and his wife Stacie have two daughters. Angela is 10 and Rebecca is a 2-year-old.

For a look at equipment for sale and service and parts for today's equipment, call Barry Armes. Equipment extends a cordial invitation to everyone to come out and see the new John Deere facilities.

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT NUMBER 13 ON THE BALLOT (HJR 82) General Election November 7, 1972

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article III, Constitution of the State of Texas, be amended by adding a new Section 65 to read as follows: "Section 65. Wherever the Constitution authorizes an agency, instrumentality, or subdivision of the State to issue bonds and specifies the maximum rate of interest which may be paid on such bonds issued pursuant to such constitutional authority, such bonds may bear interest at rates not to exceed a weighted average annual interest rate of 6%. All Constitutional provisions specifically setting rates in conflict with this provision are hereby repealed." This amendment shall become effective upon its adoption. Sec. 2. The foregoing constitutional amendment shall be submitted to vote of the qualified electors of this State at the general election to be held on the first Tuesday after the first Monday in November, 1972, at which election the ballots shall be printed to provide for voting for or against the proposition: "To set a six percent (6%) weighted average annual interest rate for bonds issued pursuant to constitutional authority presently having a specified interest ceiling."

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT NUMBER 12 ON THE BALLOT (SJR 29) General Election November 7, 1972

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article XVI, Section 33, Constitution of the State of Texas, be amended to read as follows: "Section 33. The accounting officers in this State shall neither draw nor pay a warrant or check on funds of the State of Texas, whether in the treasury or otherwise, to any person for salary or compensation who holds at the same time more than one civil office of emolument, in violation of Section 40." Sec. 2. That Article XVI, Section 40, Constitution of the State of Texas, be amended to read as follows: "Section 40. No person shall hold or exercise at the same time, more than one civil office of emolument, except that of Justice of the Peace, County Commissioner, Notary Public and Postmaster, Officer of the National Guard, the National Guard Reserve, and the Officers Reserve Corps of the United States and enlisted men of the National Guard, the National Guard Reserve, and the Organized Reserves of the United States, and retired officers of the United States Army, Air Force, Navy, Marine Corps, and Coast Guard, and retired warrant officers, and retired enlisted men of the United States Army, Air Force, Navy, Marine Corps, and Coast Guard, and the officers and directors of soil and water conservation districts, unless otherwise specially provided herein. Provided, that nothing in this Constitution shall be construed to prohibit an officer or enlisted man of the National Guard, and the National Guard Reserve, or an officer in the Officers Reserve Corps of the United States, or an enlisted man in the Organized Reserves of the United States, or retired officers of the United States Army, Air Force, Navy, Marine Corps, and Coast Guard, and retired
