Just Between Us

The artistic talents of the small-boys always show up at this time of year, because—for some unexplained reason—when they write to Santa Claus they can't resist the temptation to draw on the letters.

Usually, the subjects of the drawings are easily discernable. But we weren't thinking too clearly when one arrived.

It came from one young Jay DeFash, and we apparently pulled it from the envelope at the wrong angle. For there before us was a drawing of an atomic submarine.

We kept it on the desk for a few days. Then finally Wednesday we got a look at it from the correct angle. Surely enough, it was Santa Claus.

What had appeared to us to be the sub's conning tower actually was Santa's toy bag. The propeller was Santa's nose.

—jbu—

It's too bad we couldn't publish the letters as they were written, showing the drawings. You would have enjoyed them as much as we did.

—jbu—

This issue of The McLean News always is a special pleasure to publish, even though there is considerably more time involved in it than in a regular issue.

In today's News are the Christmas and New Year's greetings of a majority of McLean's business people. We hope you take time to read each one.

And let us take the opportunity to wish them and all of you a very sincere Happy Holiday season.

—jbu—

A page from the "Citizen's Guide" in Freedom vs. Communism recently completed by Jimmie Don Morris has been on our desk for some time.

The title: "How to Calculate Your Tax Dollar Goes." Jim brought it by to let us figure where our tax money is spent by the federal government, and we thought it would be interesting to let others do the same.

The formula for figuring how the dollars are spent comes direct from the Bureau of the Budget, so it is authentic.

—jbu—

To begin with, a wage-earner pays far more into the hungry government till than just income tax. Excise, corporation and other taxes you pay directly or indirectly average 82 per cent of your income tax, so this must also be added.

Now we get to the meat of the whole thing—which government function gets what amount. This is how each dollar you pay is spent.

Major national security, 57 cents; interest, 11 cents; veterans, 6 cents; agriculture, six cents; labor and welfare, six cents; commerce, housing and space technology, four cents; international, three cents; natural resources, three cents; general government, two cents; debt retirement, two cents.

—jbu—

The sidewalk superintendents really came out in force during the past few days, as Kenneth Starnight and crew worked on the front of The McLean News building.

It was something of a shock to most who drove by on Saturday after the entire front of the building had been knocked out.

Gift Presented

The Methodist Children's Home at Waco has been presented a gift by Mr. and Mrs. Kester Rippy, in memory of the late Ben Brown of McLean.

Mr. and Mrs. Rippy reside in the Haskett community.

VISIT WITH SANTA: Several local and area youngsters are shown visiting with Santa Claus in these two pictures made during the annual McLean "Santa Day" held last Saturday. Hundreds of children attended the event, sponsored by the Lions Club, and were presented treats by Santa Claus after attending a free movie at the Avalon Theatre. (McLean News Photos)

Tigers to Be Honored Jan. 8

Wisconsin Coach Banquet Speaker

Chuck Karsakoff, assistant football coach at the University of Wisconsin, will be principal speaker at the annual McLean High School Tiger football banquet on Jan. 8.

Tickets for the banquet will be \$2.50 each, and they are on sale at Master Cleaners and Parsons Rexall Drug Store.

Karsakoff is a well known banquet speaker in the Big Ten Football Conference area, and was one of the United States' coaches for the 1960 Olympics.

He plans to attend the Rose Bowl football classic on New Year's Day, and will stop here to speak at the banquet on his return trip to Wisconsin.

Honored at the banquet will be members of this year's Tiger football squad, who won five and lost five during the season completed last month, and Coaches Derral Davis and Lloyd Hunt.

HARVEST IS MOVING FAST IN THIS AREA

900 Bales Ginned In City Through Late Wednesday

Cotton has been rolling toward the McLean Gin at a faster pace than the equipment is capable of handling during the past several days.

Manager B. F. Holland said Wednesday afternoon that a total of more than 900 bales would be ginned "when we get the yard cleaned up."

"We will never catch up unless it goes to raining," Holland added.

The same is true at all area gins, with trailers loaded with dozens of bales waiting in line for processing.

Holland reported that many farmers in this area are completing their harvest operations, but he expects to gin as many as 300 more bales before all of the cotton is gathered.

2 Small Fires
Equipment breakdowns have held up work some, and two small fires have occurred in the gin. But this has delayed the ginning very little.

The only problem has been that the cotton is coming in too fast for any gin to handle.

Holland said the grade of the lint has been "holding up good."

A low grade load occasionally is brought to the gin, but most of the samples from bales ginned here have been of good grade.

K. E. Voelkel of the Department of Agriculture's cotton classing office in Memphis reported that favorable weather during the past week permitted farmers for the first time this season to get the harvest into full swing.

Around the Clock
"Gin yards are crowded with unginned cotton, and many gins are operating around the clock in the 12-county area served by the Memphis office," Voelkel said.

The quality of cotton classed this week, based on statistical estimates, is lower compared with any previous week this season. The lower quality is attributed to the weather, lateness of the crop and method of harvesting.

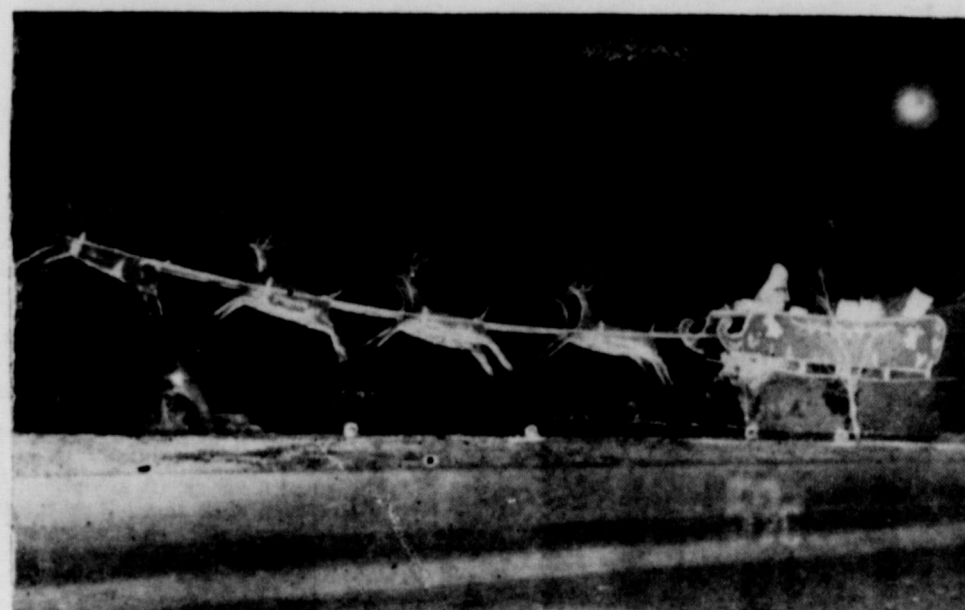

White grades represented 11 per cent of the total samples classed at Memphis. Seventy-six per cent of the grades were in the light spotted category, and 13 per cent were spotted.

The predominating grade was white low middling light spotted with 40 per cent.

Last Rites Held

Word was received here Tuesday morning of the death of Clyde L. Patton of Gorre. He was a brother of E. H. Patton of McLean.

Mr. and Mrs. Patton and son, Bob, accompanied by Mr. and Mrs. E. H. Patton and Jack Patton of Pampa, went to Gorre on Wednesday and attended the funeral services Thursday afternoon.

AT THE RANCH: Boys Ranch at Christmas-time is symbolized by Santa and his reindeer, one of the displays the boys built in front of their dorms for the annual Christmas-time lighting contest. Constructed mainly of scrap materials, 10 of the displays—one for every dorm—light up the ranch for the season.

Second Time This Year

Tough Miami Clips Tigers, Tigerettes

A semi-stall in the waning minutes of the game helped Miami to ice away its second victory of the year over the McLean Tigers.

The final score: 45-40.

In the preliminary contest, the sharp-shooting Miami girls poured it on the Tigerettes 67-36.

Haynes and Fraser Return Wednesday From Miami Trip

Mayor John C. Haynes and Cal Fraser, owner of the Marie Foundations factory here, were scheduled to return Wednesday night from Miami, Fla., where they have been checking into the possibility of relocating Cuban refugees in McLean.

Haynes left McLean early Sunday morning, while Fraser flew from Los Angeles, Calif. They met in Houston and took an airliner from there for the remainder of the trip to Miami.

While in Florida they interviewed refugees and discussed with federal officials the necessary arrangements for bringing the Cubans to McLean for employment in the Marie Foundations factory.

Standard tests given to all applicants for jobs at the factory were to be offered to Cuban women. Those interested in moving to McLean will be given an opportunity to do so, provided they are eligible for work at the factory.

Approval Given

Final approval of the plan was given last Saturday morning at a special meeting in city hall.

Attending were the mayor, city aldermen and members of the special Lions Club committee appointed to work with the city commission on the program.

Members of the committee are Ted Raines, Jimmie Don Morris, S. A. Cousins and Jewel Meacham.

Aldermen attending the meeting were Joe Burroughs, Creed Lamb Jr., Boyd Meador and Jack Shelton.

Only one more night of competition remains for the Tigers and Tigerettes before they take a rest for the Christmas holidays.

They travel to Shamrock Friday to meet the Irish, with the girls' game starting things off at 7 p.m.

No basketball games will be played next week, but Shamrock invades McLean on Jan. 8 for the first post-holiday contests.

Welch Gets 13

Miami's tough boys successfully foiled McLean ace Derrith Welch's shooting in the local gym Tuesday night. Welch ended the evening with only 13 points—his lowest effort of the season.

Jim McCarty and Eddy Windom each contributed 11 points, while Don Woods got the remaining five.

The score was tied nine times during the evening, and Miami held a narrow 35-33 advantage when it began to stall slightly more than four minutes to go in the game.

The visitors held a 10-8 lead as the first quarter closed, then the score was knotted at 17-all at halftime. After three periods Miami was ahead 29-27.

In the girls' game, Judy Connell paced McLean's Tigerettes with 16 points. Joan Flowers had 10, LaVon Watson seven and Jean Bible one.

Miami took an 18-6 first quarter lead and was in front 36-18 at intermission. At the end of the third quarter the visitors led 58-25.

Third at Samnorwood

The Tigers won third place in the Samnorwood Tournament last weekend, clipping Ron, Okla., 47-40 in the finals Saturday night.

Welch tallied 20 points in that game, but earlier in the day he tossed in 43 as the Tigers dumped Quail 71-59.

McLean lost to Samnorwood 53-35 in the first competition of the tournament on Thursday. Welch bucketed 22 points in this game.

The Tigerettes fell to Samnorwood in their opening tourney game 76-40 on Thursday, then defeated Quail 30-28 on Friday and lost to Kelton 47-33 the same day.

Miss Watson scored 18 points in the first game and 12 in the second, but relinquished high-point honors in the third game to Miss Flowers, who accounted for 16.

JOHNSTON RITES TODAY

Mrs. Scott Johnston, mother of Elton Johnston of McLean and a former resident of this community for a number of years, died Tuesday morning in Flow Memorial Hospital at Denton after a long illness.

Funeral services were held this afternoon in the Hugh Moore Funeral Chapel at Arlington, with Rev. Noel Bryant of Denton officiating.

Interment was in Park Dale Cemetery, Arlington.

Born Willie Norman in Arlington on July 5, 1881, she was married to Scott Johnston on Nov. 21, 1897, and they moved to McLean in 1908.

Moved in 1912

They resided in McLean until 1912, when they returned to Arlington and later moved to Denton.

Mrs. Johnston was preceded in death by her husband in 1957. She also was preceded in death by one son, Vernon.

She was a member of the Eastern Star in McLean, and of the First Methodist Church in Arlington.

In addition to her son here, Mrs. Johnston is survived by one other son, Norman S. Johnston of Stephenville; two daughters, Mrs. Margaret Gray, Denton, and Mrs. Shirley Myers, Wichita Falls; one brother, Lloyd L. Norman, Greenville; 13 grandchildren and 28 great grandchildren.

Mrs. Fabian Heads City Mothers March

Mrs. Harold F. Fabian has been appointed Mothers March chairman for the annual National Foundation March of Dimes to be held in McLean during January.

Charles Cousins, McLean MOD chairman, announced the selection of Mrs. Fabian this week.

No date has been set for the Mothers March, Mrs. Fabian said Wednesday, and plans will be made after the holidays.

The P-TA will be in charge of the house-to-house drive.

A film on the activities of the National Foundation is to be presented at the Jan. 12 P-TA meeting.

School Holidays Begin on Friday

McLean schools will begin the annual Christmas holidays at the close of classes Friday afternoon.

School doors are to re-open on Dec. 21 to end the holiday period.

Almost the entire City of McLean will take a holiday on Christmas Day, next Tuesday. No special activities are planned here in observance of the day, but virtually every business will close its doors for the holiday.

Business resumes on a normal schedule Wednesday.

What is there about traveling salesmen?

Well, one thing about a traveling salesman is that he gives his car hard usage. Business calls require a lot of start and stop driving. And that's when corrosive engine wear can cause serious damage.

Actually, start and stop driving is the kind of driving most of us do most of the time. So, to protect your motor under these severe conditions, your Phillips 66 Dealer recommends **Trop-Artic All-Season Motor Oil**. Trop-Artic starts protecting at low temperatures, and keeps on protecting at high operating temperatures. It's a light oil, a medium oil and a heavy oil, all in one!

To keep your car running better longer, get Trop-Artic Motor Oil at any station where you see the Phillips 66 Shield.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

While much has been claimed about the progress, or lack of progress, made by the 87th Congress, the actions of the session that ended late in the year does give some harbinger of a return of sanity along the Potomac.

Presumably, in a true, democratic form of government, no legislative body is going to be perfect, and thus the 87th Congress passed a great deal of legislation that undoubtedly will turn out to have been quite unwise.

On the other hand, the Congress, against quite stubborn opposition, did pass legislation permitting self-employed to start tax-free retirement funds. This principle was asked for by a majority of the nation's independent business and professional people, voting through the National Federation of Independent Business. Thus, there has now been recognized that the self-employed have a right to seek equality on retirement with labor and government employees. This in itself is a major forward step.

It also passed a measure which will permit a better system of depreciation for tax purposes on new equipment bought by business. While the measure as passed did not afford the full relief asked for by independent businessmen through the National Federation of Independent Business, the compromise measure as adopted was approved by the majority as a step in right direction.

© National Federation of Independent Business

And while the Congress did pass many expensive measures, it did take some negative actions which indicates the tide may be running against the trend towards socialism.

For one thing, almost a billion dollars was slashed out of the foreign give away appropriations. This was done at the insistence of the House, which is an important factor to be borne in mind.

It also turned down a request to permit any incoming president the power to name a new Chairman of the Federal Reserve Board, as it also turned down a request for presidential power to cut taxes at will. Both of these measures, it was felt, would give any president too much control of the nation's currency and economy with which to play politics.

It also turned down proposals for federal aid to schools and the plan to withhold taxes on interest and dividends, both opposed by nation's independent businessmen voting thru the National Federation of Independent Business.

The interesting aspect of all this is that relief from some past evils and from some proposed future evils was due to House action, not the Senate.

This can only be attributed to the fact that the members of the House of Representatives are much closer to Main Street, and are thus more conscious of the viewpoint of the people who are furnishing employment, operating independent enterprise. The sessions prove it is possible for the voice of reason to combat the daily flow of influence poured upon Congress by professors and other economic theorists.

Boys Rancher Visits
 Here Over Holidays

Gale Barker, a former McLean
 boy who makes his home at Cal
 Farley's nationally-known Boys
 Ranch near Amarillo, is a visitor
 for the Christmas holidays in Mc-
 Lean.

He is one of the 300 boys from
 all over the nation who are being
 cared for, trained and educated
 at this ranch at the present time.
 All of the boys are permitted to
 leave once each year at Christmas
 time to return to their home-
 towns for a visit with relatives
 and friends. The boys represent
 38 states of the nation.

Before leaving for their vaca-
 tions, all of the boys enjoyed their
 annual Christmas party in the
 Boys Ranch dining hall and special
 services were held in the non-
 sectarian chapel with most of the
 services conducted by the boys
 themselves.

Gayle Day of Amarillo visited
 her parents, Mr. and Mrs. Elmer

**Temperatures Up
 During Past Week**

Another Indian Summer inter-
 jected itself into McLean's weath-
 er picture, with a freezing tem-
 perature being recorded only once
 in the past week.

The mercury dropped to 26 de-
 grees early last Thursday, then
 climbed to a high of 64 that
 day and has stayed above the
 32-degree mark every since. But it
 dropped sharply early this morn-
 ing.

Any hopes for a white Christmas
 here appear to be fading as the
 big day draws nearer.

Highest point reached by the
 official Weather Bureau thermom-
 eter in McLean since last Thurs-
 day was a balmy 77 degrees on
 Monday.

Rain did threaten the area Wed-
 nesday, with light sprinkles fall-
 ing through the morning and early
 afternoon. But there wasn't enough
 to do anything more than slow
 the cotton harvest momentarily.

To date this year, McLean has
 received 19.57 inches of moisture
 —32 inch coming in December.

By Dec. 20, 1961, the city had a
 total of 25.16 for the year—28
 inch falling in December.

SAUNDERS ANGUS SALE

I haven't had a chance to visit with George Saunders since his sale. It appeared the sale went off fine. He didn't have any extremely high selling or low selling cattle. His top bull brought \$700. The average of the 16 bulls sold was \$561. Fifty-four cow and calf pairs brought a total of \$20,895, or an average of \$387. The entire sale came to \$29,870, or an average of \$427.

They have been used extensively in east Texas with excellent results.

We have a different type of gopher in this area and can't say whether it will get them or not. Many times gophers play havoc with alfalfa, gardens and other crops.

Ellard is making an effort to secure one to be used in this area. If you are having gopher trouble, contact me and if we can secure the device we might put a demonstration on your place.

INVESTMENT CREDIT IMPORTANT TAX CHANGE

If you have made a purchase of certain personal property during 1962, you will want to check up on a new feature in the income tax laws.

For example, it is possible to deduct from the amount of tax you owe up to seven per cent of the purchase price of a piece of equipment.

This is explained on Page 32 of the 1963 Farmers Tax Guide, which we are scheduled to receive shortly.

Drop me a card and I will see that you get a copy of this publication.

It is good business to avoid tax, but never to evade tax.
