HST Meets With Top Officials

BIDAULT SPEAKS AT PARIS MEETING—Georges Bidault, French foreign minister, is shown above as he addresses the opening session of Western Europe's second Marshall plan conference in Paris. He called on the 15 nations to join France in writing a charter for a permanent European organization, and Tuesday night, as the world awaited President Truman's message to Congress today on the foreign situation, the Western European powers seemed well on their way to mapping such an organization. Attention Of All Europe On Truman's Talk

(By The Associated Press)

THE attention of all Europe is centered on what President Truman will tell the joint session of the American Congress Wednesday.

There were plenty of guesses Tuesday night as to what his message will contain. But they were only guesses offered as Europe watched uneasily the mounting differences between the Soviet Union and the United States.

Warning May Be Given

In Washington most officials believed Mr. Truman might call for universal military training and greater speed in getting the Marshall plan for European recovery under way. He might couple this with a warning to Italian voters that they will lost heavily if they put their country in the Communist camp in the crucial April elections.

In Europe, where Soviet influence is much nearer, the guesses went a little farther. Diplomatic circles and newspapers in London anticipated a positive American warning to Russia to halt Communist expansion.

In Paris the foreign ministers of 16 Western European nations set up a working committee to draft a treaty of mutual economic aid to make themselves strong against Communism. The committee will also draft a charter for permanent European organization scheduled to receive billions under the Marshall plan.

Military Request Seen

The speculation there was that Mr. Truman would ask Congress to bulwark economic aid with military assistance. Many believed the Truman doctrine—to use military and economic weapons against Communism—had already superseded the Marshall plan, which contemplated economic aid alone.

Amidst all this talk of military measures the Soviet Union published its sixth army demobilization decree since the end of the war. A Moscow dispatch said this suggested the Russians do not believe there is going to be any im-

NATION FACES SEVERE SHORTAGE IN COAL AND MEAT SUPPLIES

400,000 Idle In Labor Disputes

(By The Associated Press)

FOUR hundred thousand coal and meat workers were idle Tuesday in labor disputes—the largest number since passage of the Taft-Hartley labor law.

A severe cut in meat and coal supplies threatened the nation.

In Washington the Bureau of Mines said the country's coal bin is at a dangerously low level. It said that as of Feb. 1 stocks of soft coal and lignite (a low grade coal) were enough to last but 29 days.

Board To Seek Facts

Full-scale use of Taft-Hartley law remedies seemed likely in a strike of 100,000 CIO packinghouse workers across the nation.

In soft coal fields about 300,000 United Mine workers left their jobs in a pension dispute.

The meat strike began despite President Truman's plea for a delay until April 1. In the two-day-old coal strike, the President was reported studying the situation but his secretary, Charles G. Ross said "nothing concrete" had been done about it.

In the meat strike, the President set up a fact finding board to investigate the dispute and report to him by that date. Under the new law, the President then could ask for an injunction which would continue work for at least 80 days. Ultimately, Mr. Truman could refer the whole dispute to Congress if it still were unsettled.

The packinghouse workers seek a 29 cents hourly wage increase. They have been offered nine cents.

The coal walkout, which began Monday, took more than 300,000 of the nation's 400,000 soft coal miners from their pits in two days.

The walkout supported demands of miners' chief John L. Lewis to use the $30,000,000 welfare fund to pay $100 monthly pensions to retired miners. The operators contend the plan is "too expensive."

In Washington, Ezra Van Horn, representing soft coal operators, asked John L. Lewis to join him in seeking court appointment of a third trustee to the welfare fund.

Van Horn and Lewis are the two present members. A vacancy was created by the resignation in January of Thomas E. Murray of New York. Murray said he quit because both Van Horn and Lewis were stubborn in their stand on disputed issues.

There was no comment from Lewis on Van Horn's proposal.

The strike of 100,000 CIO meat handlers today sliced the nation's meat output in half.

Farmers sharply cut shipments of animals to market and meat prices started moving higher in the wholesale markets.

The CIO workers left their jobs in 140 meat packing plants across the country at 12:01 a. m. today. The present supply of meat in warehouses is sufficient to meet the nation's average need for three weeks.

Some 150,000 other packing plant workers — members of the AFL or independent unions — stayed on the job.

A strike delay, the CIO maintained, would act to "the sole ben-

Nation Awaits Message On World Crisis

By ED CREAGH
Associated Press Staff Writer

WASHINGTON, March 16 — President Truman conferred with his top advisers — military, diplomatic and economic—tonight as he completed his tensely awaited state of the world message.

But he called off a meeting he had scheduled with four congressional leaders for 10 a. m. (CST) tomorrow—an hour and a half before he is to address Congress and the nation.

One of the Congress leaders, House Speaker Martin (R-Mass), said in a statement that "the constant advance of the iron curtain across Europe has created a grave crisis in our international relations."

Russia Probable Subject

The make-up of the group which met with Mr. Truman gave a fresh indication that his message will concern both Russia and American military affairs.

Besides Secretary of State Marshall, Secretary of Defense Forrestal and Secretary of Commerce Harriman, it included the State department's chief Russian expert, Counselor Charles E. (Chip) Bohlen.

Presidential press secretary Charles G. Ross, another of those present, declined to say whether Forrestal's presence indicated the President would put heavy emphasis on defense matters.

Talk To Be Broadcast

The speech, expected to run 18 or 20 minutes, will be delivered to a joint session of Congress and broadcast by major networks at 11:30 a. m., CST, tomorrow. (Both station KFYO and KCBD will carry the President's talk at 11:30 a. m. today.)

Cancellation of tomorrow morning's meeting with the Senate and House leaders apparently meant that legislative leaders will have little if any advance knowledge of what the President will say.

The White House explained that two of those invited, Senators Vandenberg (R-Mich) and Barkley (D-Ky), would be attending an important meeting of the Senate Foreign Relations committee at about that time.

Invitation Turned Down

Vandenberg's office said a short time earlier that he had turned down the White House invitation because of the foreign relations committee meeting, which is to continue hearings on Greek-Turkish aid.

The Michigan senator, who is chairman of the committee, declined to elaborate. He told a reporter previously that he had not been consulted about the President's world affairs speech.

Those who had been called to the White House, presumably to get a preview of the President's talk, were Vandenberg, Barkley,

Truman Doctrine Gains Over Marshall Plan

West Germany Voted Into European Union

(By The Associated Press)

PARIS, March 16—The foreign ministers of western Europe bowed reluctantly today to division of Germany and voted to bring the three western occupation zones into their plan for continental organization.

At the close of a two-day meeting the delegates from 16 Marshall plan nations set up a working committee to draft a treaty for mutual economic aid to make themselves strong against Communism and a charter for a permanent European organization to carry out the pact.

The United States will contribute to the organization through billions of dollars in aid under the Marshall plan. Left outside are the Soviet Union, the Soviet-occupied zone of Germany and the Communist-led satellite states, avowed foes of the European recovery program.

To Start Study Today

The conference instructed the working committee to take in delegates from the allied military governments of the French zone and the economically merged British-American zones.

The step increased the working committee to 18 delegations, and amounted to bringing western Germany back into the family of nations so far as European economy is concerned.

The committee will start its work tomorrow. British Foreign Secretary Ernest Bevin urged it to "do a thorough job and do it quickly." He added: "The fate of Europe and the world will be decided by the intensity of our work during the next few months."

TRUMAN DOCTRINE TAKES OVER MARSHALL PLAN

PARIS, March 16 (AP)—The Truman doctrine has taken over the Marshall plan, in the opinion of observers here.

The U. S. State department statement that American financial aid to Italy under the Marshall plan will end if the Communist party wins the April 18 elections is seen pointing to a significant change since the Communists captured Czechoslvakia.

A highly-placed American scource in Paris told the Associate Press today that Italy was not the only country that would be cut off from American help if it went Communistic.

Truman Doctrine Announced

Previously the Marshall plan was advanced as a menas of helping European countries who are in need to recover from the war. Russia and eastern European countries in her orbit were invited to share in it.

The Truman doctrine was announced as a plan to beat back Communism in Greece and Turkey with economic and military aid.

The Truman doctrine stemmed from a speech the President made

Popular Vote Plan Boosted

By JOHN B. OWEN
Associated Press Staff Writer

WASHINGTON, March 16.— A southern Democrat's proposal to elect presidents by popular vote got a powerful thrust forward today when the House Judiciary committee approved it.

It is a constitutional amendment. This requires a two-thirds vote in House and Senate, and ratification by 36 legislatures. Its adoption before the 1948 election is virtually impossible.

The author, Rep. Ed Gossett, of Wichita Falls, aims to whittle down influence of minorities in pivotal states.

To Keep Electoral College

Gossett pushed the measure amid southern charges that President Truman had an eye on the negro vote in several populous northern states when he took his explosive civil rights stand.

Gossett's amendment would keep the electoral college, but each state's electoral vote for President and vice-president would be divided up in proportion to the popular vote in the State.

The way it is now, all of a state's electoral votes go to the candidate receiving the most popular votes. Occasionally a president gets it without even a majority of the nation-wide popular vote.

United Front Urged

Minority groups now can hold a balance of power that swings some large state's entire electoral vote. The result, says Gossett, is that "political strategists in both parties make special appeals to these various groups."

Committee action came only 11 days after a Judiciary subcommittee had okayed the amendment. The subcommittee chairman, Rep. Chauncey W. Reed (R-Ill), says it has an excellent chance to go over.

Meantime a southern Democratic uprising againstt nomination of Mr. Truman failed to win over Chairman J. Lyter Donaldson of the Kentucky Democratic state executive committee.

Donaldson said he had an in-

ACTION IS NOT FINAL

House Okays Measure To Give Local Boards Rent Authority

(By The Associated Press)

WASHINGTON, March 16.— A "local option" bill transferring to local boards full authority to raise rents or to remove controls was approved by the House tonight.

The vote was announced as 251 to 132.

The 132 "no" votes included both opponents of any continuance of rent control and some of those who felt that the bill at hand was not strong for the job.

The measure continues rent controls for one year to April 1, 1949, wherever the 655 local boards—nominated by the various governments— want them.

Action came amid Democratic cries that such delegation of power to local boards is unconstitutional, that it is "an abdication of responsibility" by Congress, and that many local rent boards are "stacked" in favor of landlords. Some called the bill "fraud."

Joint Group To Study Bill

Republicans argued that home town people know best how to take care of local problems.

Voting for the bill were 162 Republicans and 89 Democrats. Opposing were 57 Republicans, 73 Democrats and the two American Labor Party members.

The rent legislation now goes to a House-Senate conference committee, to iron out differences. In passing a rent bill last month the Senate flatly rejected the "local option" provision.

Amendment Defeated

The Senate bill would extend rent controls to May 1, 1949; the House makes the duration one month shorter, to April 1, 1949. About 13,000,000 units housing some 50,000,000 persons are now under control.

The big House battle centered on an amendment by Rep. Monroney (D-Okla), to strike out the "local option" provision.

He sought unsuccessfully to return to the language of the Senate measure which retains authority for the federal administrator to decide whether the local boards make good cases for rent hikes or decontrol in their jurisdiction. The House turned him down 135 to 83.

Monroney compared the "local

Americans Among 14 Victims Of Plane Crash In Colombia

BOGOTA, Colombia, March 16 (AP)—Fourteen persons—including four Americans—perished yesterday when a transport plane crashed into a mountain.

The plane hit near the village of Choconta while on a flight from El Secreto to Bogota. Smoke from a farmer's chaff fire which obscured the mountain peak was blamed for the accident.

The Americans were reported to have been a Protestant minister, his wife and two children. Names of the passengers were not announced.

Commodities Up, Stocks Decline

CHICAGO, March 16 (AP)—Commodity prices jumped up but stocks slumped today in response to strikes and growing war talk.

A strike of 100,000 CIO meat handlers in packing plants across the country kept meat prices rising—on the hoof and in the wholesale markets. Receipts of meat animals dropped off sharply at major markets.

At the Chicago stockyards, hog prices went up 50 cents to $1.25 a hundred pounds. Cattle rose as much as 50 cents. In the Chicago wholesale market, beef jumped as much as $2 a hundred pounds, lamb $1 to $2 and pork cuts from $1 to $3. Wholesale meat prices also rose in New York.

Stocks on the New York exchange suffered their sharpest setback since early February. Many leaders finished down 1 to around 3 points.

The Associated Press weighted wholesale price index of 30 commodities moved up for the third day in a row. The index, which uses 1926 prices as 100, jumped .71 of a point to 186.47. A week ago it was 185.58, a month ago 187.20 and a year ago 182.54.

In a talk at Little Rock, Ark., Paul S. Willis, president of Grocery Manufacturers of America, Inc., said the peak of food prices has passed and that prices will gradually stabilize downward.

Strike's Effect Watched Here

The strike of 100,000 CIO Meat Packinghouse Workers which hit meat packing plants throughout the country yesterday will probly affect the price and supply of meat in Lubbock to a degree, but not nearly so much as in other sections of the country, it was indicated last night.

The local problem, where a problem exists, is mainly a matter of incoming supplies of meat and not personnel shortages. None of the local plants have packinghouse workers who are members of the CIO union which is on strike.

A representative of the local Armour & Company plant said last night that a prolonged strike of 10 days or more would put his company under severe difficulties, since the company's supplies are drawn from the Oklahoma City plant which is on strike with the others.

Housewives will start noticing the meat shortage about the first of next week if the strike continues, he said, and prices will probably go up. However, he stated that he did not expect the striking workers to remain away from work very long because of the danger of the government stepping into the controversy.

Other Plants Not Affected

Swift & Company plant in Lubbock provided an entirely different outlook on the strike situation. The strike would not affect the local plant to any extent, a representative said, because it draws its meat supplies mostly from the Swift plant in Fort Worth which has its own union, separate from the striking CIO workers.

Of the 42 Swift plants in the country, only 24 are affected by the strike he stated. A shortage would result only if the Fort Worth plant is forced to divert meat to other sections of the country which are normally served by plants which are now on strike. This diverting of meat would not be noticeable in Lubbock, he indicated.

Both companies indicated that sausage and other meats are supplied chiefly from local scources, and would not be affected by the nationwide strike of some meat packing workers.

2,000 WORKERS WALK OUT ON JOBS AT FORT WORTH

FORT WORTH, March 16 (AP)—The livestock market was active but receipts were light as packinghouse workers here joined a national strike.

An estimated 2,000 members of the United Packinghouse workers (CIO) are on strike here at Armour and company and the

Negro Given 15 Years In Slaying

George Brown, 54, negro, was found guilty of murder with malice by a 99th district court jury last night and was sentenced to 15 years in the penitentiary. The jury began deliberation at 4:20 p. m. yesterday and reported the verdict to Judge G. V. Pardue at 8:35 p. m.

Brown was charged in the fatal shooting of Willie Byrd, another negro, November 11, in Queen City, negro residential area.

The state presented witnesses to prove that Brown and Byrd had an argument in Brown's shoe shine parlor and that Brown went outside. When Byrd followed soon afterwards, he was shot by Brown who then followed the victim inside the parlor and shot him twice more while Byrd was gasping helplessly on a bench, the state argued.

The defense sought to prove that Byrd was drinking at the time and that he precipitated the argument and followed Brown outside with intent to do him harm.

District Attorney Lloyd Croslin and Assistant District Attorney E. G. Pharr represented the state. The firms of Campbell and Adams and Denton and Salyars represented Brown. H. P. Watkins was foreman of the jury.

The trial had commenced with selection of the jury late Monday.

Anti-Truman Demos To Call Conference

JACKSON, Miss., March 16 (AP)—A call for a nationwide meeting of anti-Truman Democrats probably on April 12, is expected to be sounded here tomorrow.

The definite date of the meeting probably will be selected at a conference attended by the chairman of the Democratic state executive committee and Governor Fielding L. Wright.

The chairman, Chancellor Herbert Holmes of Senatobia, said there today he has sent telegrams to Democratic leaders suggesting April 12 as a possible date.

In Atlanta, Ga., the state Democratic chairman, James S. Peters, said he had been advised the call would be issued tomorrow for a multi-state meeting on April 12.

Peters said a telegram from Holmes cites action of southern governors in Washington Saturday as clearing the way for the conference.

The southern governors conference voted to oppose renomination of President Truman or any candidate who supports the President's civil rights program.

Committee Kills Oleo Tax Repeal

WASHINGTON, March 16 (AP)—Butter won a 16 to 10 decision over oleomargarine today in the House Agriculture committee.

By that vote, the House group decided to pigeonhole 18 bills which had been drawn to repeal federal taxes on margarine and license fees imposed on those who sell it.

"That kills the legislation for this session of Congress," Chairman Hope (R-Kas) told reporters after the closed session. He voted with 14 other Republicans and Rep. Granger, Utah Democrat, to shelve the repealers.

But Rep. Poage (D-Tex), an opponent of the margarine tax, declared:

"The fight will go on. We are not licked yet."

He and nine other Democrats were lined up on the losing side.

Poage called the decision to pigeonhole the repeal bills "political cowardice," and said the next move is up to the Senate.

Poage said there probably will be no concerted drive at present to obtain the required 218 signatures for a discharge petition. If successful, this would bring the repeal bills to the House for a vote.

"We will wait to see what happens on the Senate side before we plan our next move," Poage said.

The present federal taxes on margarine, in addition to the 10 cents a pound on colored, include ¼ cent a pound on all margarine, $6000 a year on manufacturers, $480 a year on wholesalers of the colored product and $200 a year on wholesalers of uncolored, $48 a year on each retailer of the colored product and $6 a year on retailers of uncolored margarine.

Escaped Convict Is Indicted By Scurry County Grand Jury

SNYDER, March 16 (AP)—Harvey Lee Glass, escaped Texas convict, was indicted by the Scurry county grand jury here today on a charge of car theft.

Glass is still at large. Rollins and Davis were caught Feb. 8 in Colorado City.

Russia Charged With Seeking To Divert Italian Industry

ROME, March 16 (AP)—A foreign office statement accused Russia tonight of seeking to divert part of Italy's industry "to the sole advantage of the Soviet Union."

The statement, in effect rejected current Russian demands that payment of $100,000,000 in war reparations to Russia be arranged in advance.

Russia has insisted that the question of reparations, payment of which is scheduled to begin Sept. 15, 1949, be tied to negotiations for a commercial treaty between the two countries.

Policemen Dropped For Taking Candy

(By The Associated Press)

PALO ALTO, Calif., March 16—Five Palo Alto policemen were dismissed from the force today for stealing candy.

Police Chief Howard Zink testifying before the board of public saftey said the five had taken quantities of candy from a sweets shop in which they hid hoping to prevent an expected attempt to rob a theater across the street.

An inventory of the store showed a shortage of 125 pounds of candy.

Americans Hear Communist Guns As Chinese Reds Gain Ground

PEIPING, Wednesday, March 17 (AP)—Communist gunfire was heard by Americans today in Tsinan, and military reports said Red troops only 15 miles to the north, were advancing on the Shantung provincial capitol.

Reports reaching Tsingtao, U.S. Naval base 90 miles east of Tsinan, said Communist forces had defeated government troops at Songnan, 15 miles north of Tsinan and were proceeding southward across the Yellow river.

Woman Charged With Murder In Shooting Of San Angelo Man

SAN ANGELO, March 16. (AP)—Mrs. Gladys Partin, 37, was charged with murder here tonight shortly after the pistol slaying of Boyd James Cochran, 55.

The woman was described as operator of a hotel managed by Cochran.

The shooting occurred about 6:30 p. m. in the kitchen of an apartment in the hotel. Cochran was struck by two bullets—one that pierced the neck and the other that coursed through his left side. He died at 7 p. m. in a hospital here.

Mrs. Partin was held in Tom Green county jail.

The charge was filed by Dist Atty. Ralph Logan in Justice of the Peace J. W. Patterson's court.

Texas University Students Announce Plans For Statewide Eisenhower-For-President Campaign

(By The Associated Press)

AUSTIN, March 16—Some two hundred people met here tonight at an Eisenhower-for-President rally called by three University of Texas students.

Most of those attending the meeting were townspeople. A few students were sprinkled through the crowd.

They elected Bill Hellums, veteran of an artillery outfit in Europe, to head a Travis county "Draft Ike" movement. Hellums is manager of the State theater here.

The meeting was called by Robert Doss, Tom Long, and Carl Morris, university law students.

They said they want to expand the movement to a statewide basis, and to send a Dwight D. Eisenhower delegate to the national Democratic convention.

Mayor Tom Miller of Austin and State Adjutant General K. L. Berry were in the crowd, which met in 53rd district courtroom. They did not speak.

Long presided. When someone asked from the floor, "How do you know Ike will run?" he answered:

"Eisenhower can be drafted. A good soldier can always be drafted."

Morris acknowledged to the meeting that plans for putting the movement on a statewide basis are still incomplete.

Doss introduced John Connally, manager of radio station KVET here. He said "we must provide the party and the people the leadership to which they are entitled."

General Eisenhower, Connally said, will give that leadership.

After the meeting, Long expressed satisfaction, both with the turnout and with financial results.

Passing the hat brought $85 to the movement. One person pledged $50. A local businessman said he would provide a suite of three offices for headquarters for the movement.

Warm Temperatures To Continue In Area

Continued fair weather today and Thursday was forecast for Lubbock and the South Plains by the officials at Weather bureau station north of the city at midnight, dispelling fears of residents that Tuesday's warm readings might be just a buildup for a letdown in the temperatures.

Little change in temperatures was indicated with a maximum of 65 degrees forecast for today. Tuesday the mercury reached 62. Winds up to 16 miles an hour also were forecast.

Conditions similar to those here prevailed over most of the state Tuesday, the Associated Press reported, although a hail storm caused considerable damage at Austin. Damage was estimated at a quarter of million dollars. Winds caused some damage to cotton in the valley area.

Most Voters Think Prices Will Drop, Wages To Remain Stable

By GEORGE GALLUP, Director American Institute of Public Opinion

PRINCETON, N. J., March 16—Here is how the American people size up the economic situation facing the nation in the months just ahead:

1. The weight of opinion among adults in the country is that prices will be lower six months from now than they are today. Only one person in seven thinks that prices for the things he buys will be higher at the end of a half a year.

2. Three out of four people do not foresee any general increase in wage rates during the same period. As a matter of fact, six out of ten believe that wages will hold steady at present levels.

3. The average American definitely is not gloomy about the immediate future of his nation's economy. An overwhelming majority predict that there will be no serious business depression in the next twelve months. Only one in four think a depression will occur within the next two years.

4. As the stage is being set for a third round of wage negotiations in major industries, a majority of adults with opinions on the matter believe that a new general increase should not be granted.

In a number of previous polls conducted by the Institute the public has pointed to the high cost of living as the biggest problem facing the United States. To test today's economic hopes and beliefs of the population field reporters have just completed a survey covering all sections of the country. These were the questions they asked:

PRICES

"Do you think that prices, in general, will be higher, lower, or about the same six months from now?"

Higher	14%
Lower	39

No opinion	11

WAGES

"Do you think wage rates, in general, will be higher, lower, or about the same six months from now?"

FRESH BLOOD A MUST FOR FREE ENERGY

Do you feel like you are tied to a drag everytime you try to do something? If so, don't let a low blood count hold you down when you may release vibrant energy to every muscle, fibre, cell.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloat and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fill out hollow places. Probe Of Kaiser-Frazer Stock Sale Case By SEC Indicated

PHILADELPHIA, March 16. (AP)—James F. Masterson, Philadelphia attorney, said today a Securities and Exchange commission investigator indicated to him there will be a public hearing into the Kaiser-Frazer stock sale case.

Masterson, who filed suit to restrain the auto manufacturing firm from proceeding with a public offering of 900,000 shares of stock, named the investigator as Anthon Lund.

He said Lund, chief investigator of the SEC's trading and exchange division, visited him in Philadelphia yesterday to question him regarding the filing of the suit.

Farm Labor Program Improved In February Despite Weather

AUSTIN, March 16 (AP)—Continued bad weather in February held down employment of farm laborers, only 5,009 persons being placed on farm jobs by the Texas Employment commission.

More than half this number, 2,783, were hired in the commission's Harlingen district in the valley. Individual cities taking the greatest number of workers were Raymondville, Crystal City, Mission, Weslaco and Edinburg.

Even this small number of placements stepped up the farm labor program, jumping 70 per cent above the previous month.

Homeward Trip Of Battleship Texas De'aved Second Time

PORTSMOUTH, Va., March 16 (AP)—High winds today caused a second postponement in the final voyage of the Battleship Texas.

A spokesman at the Norfolk naval shipyard said the retired battle wagon will depart tomorrow at 7 a. m., "weather permitting." The departure originally was set for yesterday.

Two fleet tugs will tow the 34-year-old ship to San Jacinto battleground, where she will be preserved as a historical shrine.

More United Front Against Red Threat May Be Asked By Truman

By J. M. ROBERTS, JR.
Associated Press Staff Writer

President Truman is expected to ask Congress today to join with the administration in planning the next steps in what has now become a very warm war.

The suddenness of the President's decision to address the joint session suggested at first that he might have some new, serious and perhaps startling word on international affairs.

More Co-Operation Asked

The best bet now is that Mr. Truman merely intends to draw Congress more fully into the stream of swiftly moving international events, and to emphasize their urgency.

The necessity or a more complete expression of American unity with Western Europe, especially in matters of military defense, is well recognized in administration circles. That was implieit when the Benelux treaty-makers went to work. But when it comes to a display of troops or arms, or to the possibility of direct military alliances, Congress and the administration must go hand in hand.

The United States has just struck a body blow at the Italian Communists by announcing that, if they take over, the country will be excluded from help under the Marshall Plan. This has cut across party lines, will probably swing the votes of a lot of Italian leftists who have voted none-too-enthusiastically with the Communists anyway.

New Moves Studied

Congress so far has bottled up the administration program for universal military training. Military leaders have been pressing for it as the only alternative to a vastly increased professional military establishment. Recent events in Europe have handed the President some new arguments.

Renewal of the Greek-Turkish aid program is another current issue in Congress, along with Chinese aid and measures for curbing the Communist fifth column at home.

The President also might take the opportunity to discuss the U. S. position in the United Nations with regard to the debate over Russia's recent coup in Czechoslovakia. That comes up in the Security Council today.

The great issue before the United States now is how to put its military potential squarely behind its foreign policy. The object is to convince Russia that, having come up to the line of demarcation between Communism and anti-Communism in Finland and Czechoslovakia, any further expansionist moves will be a direct threat to the peace of the world.

EXPENSIVE WAY TO BEAT THE DROUGHT—Nick Sterpenig, a truck driver, waters a large estate at Santa Barbara, Calif., whose owner came up with this expensive but effective way to keep his grass green and valuable plants alive during California's current unprecedented drought. He has the water hauled into his water-rationed community by tank truck at a cost of two cents a gallon. A two-hour wetting costs him $40. (AP Wirephoto.)

Railroad Commission Hearings To Include Area Oil Fields

AUSTIN, March 16 (AP)—The Railroad commission today gave notice of the following hearings:

May 18—Application of L. W. Barrett for a discovery allowable and a new field designation for his McCall et al well No. 1, Handley field, Montague county.

May 18—Application of the Magnolia Petroleum company for its Dean "A" well No. 6 to be returned to consideration as being located in the Slaughter field, Cochran, Hockley and Terry counties instead of being in the Levelland field, Hockley county.

May 19—Application of the Atlantic Refining company for a discovery allowable and new field designation for its F. O. Masten well No. 1, Cochran county. (Postponed from March 18).

May 18—Application of Jack Little, trustee, for discovery oil allowable rights to apply to the upper sand completion of his W. F. Hackfeldt well No. 1, Farenthold field, Nueces county. (Postponed from March 18).

Plant To Conserve Natural Gas Being Built In Starr County

PHILADELPHIA, March 16 (AP)—Work has been started on a plant to conserve natural gas from oil wells in four Starr county, Texas, fields, James E. Pew, manager of the Sun Oil company's natural gas and natural gasoline division, announced today.

Pew said clearing of a 40-acre site is underway with the expectation the plant will be in full operation by April 1, 1949.

The new plant, Pew said, will recover 80 per cent of the propane and substantially all the butane and natural gas from oil well residue produced in the Sun, North Sun, North Rincon and Garcia fields.

Pew said the 10 other firms operating in the fields to be served by the new plant will be given an opportunity to use its facilities.

The plant will be located in the northeast corner of Starr county in open country about 35 miles northwest of McAllen on the Rio Grande.

Forest Service Official Says Fires Caused By 'Cussedness'

WASHINGTON, March 16. (AP)—A new cause of forrest fires has been found "pure cussedness."

So the U. S. Forrest service reports in House appropriation hearings published today. The service said it was detected in Texas.

Dr. R. E. McArdle, an assistant chief of the service, told the appropriation subcommittee about the constant campaign against careless—and purposeful—setting of forrest fires.

"There are some people who set fires deliberately," he said.

"There are some people who think fires make better forage for their cattle, eliminate ticks and so on, and some who set fires just out of pure cussedness.

"That was the situation in Texas this last year. Nine hundred fires were set there in one day."

Bishop Smith Will Hold Services Here

Services will be conducted at the First Methodist church during Holy week, next Sunday through Easter Sunday, by Bishop W. Angie Smith of Oklahoma City.

He is bishop of Oklahoma and New Mexico.

In addition to preaching at services Sunday, Palm Sunday, and March 28, Easter, he is to conduct services at 10 a. m. and 7:30 p. m. Monday through Thursday next week and will be the speaker at a three-hour service, from 12 noon to 3 p. m. Good Friday, March 26, commemorating the three hours Jesus, from 12 noon to 3 p. m. Good Friday, March 26, commemorating the three hours Jesus hung on the cross.

Baptism of infants and children will be conducted at 4 p. m. Palm Sunday by Dr. H. I. Robinson, pastor.

Classes for children interested in church membership opened Monday and will continue through Wednesday, with classes at 10 a. m. and 4 p. m. each day.

U. S. Has Ample Supply Of Oil, Industry Official Declares

LOS ANGELES, March 16. (U.P.)—The United States has plenty of oil and gasoline for the foreseeable future, Don E. Gilman, vice president of the Western Oil and Gas association, told the American machine tool distributors today.

"There is every reason to expect there will be a constantly increasing supply to meet the growing demand," he said.

Some authorities say that sources now known are enough to assure a supply for at least 2000 years, Gilman said. Despite increased consumption, oil reserves now are nearly a billion barrels above a year ago, he said.

The big news is PONTIAC

A FINE CAR MADE EVEN FINER

GM Hydra-Matic Drive optional* on all models

A Product of General Motors

A greater car... and a greater value!

A year ago today, if you had asked the owner of a new Pontiac what could be done to improve it, he would very likely have told you—"Nothing at all. I like it just as it is."

That's why, for those who have known Pontiac in the past, the 1948 Pontiac is the big news of the year. For here is a *fine* car made a *great deal finer!*

There is new beauty—beauty that starts with a refined "Silver Streak," and extends throughout the exterior and interior of the smart Fisher bodies.

There is new dependability—for the sturdy Pontiac chassis has been improved wherever possible.

And there is unbelievably fine performance—for not only have the great Pontiac engines been refined and improved—but Pontiac now offers, as optional* equipment, the sensational General Motors Hydra-Matic Drive.

With this miraculous mechanism, you just sit back and *relax!* There is no clutch pedal, and the gears shift themselves. If you wish, you can drive from sun-up to sun-down and touch nothing but steering wheel, throttle and brakes.

The new Pontiac is now on display in our showrooms, and you are cordially invited to see and inspect it. There are fifteen beautiful models—each a great car and a great value. And among them is one exactly suited to you.

AND THESE FAMOUS PONTIAC FEATURES

NEW, SMARTER SILVER STREAK DESIGN • UNISTEEL BODY BY FISHER, WITH NO-DRAFT VENTILATION • SHOCK-PROOF KNEE-ACTION, TRIPLE-CUSHIONED RIDE • SMOOTH AND ECONOMICAL SIX AND EIGHT CYLINDER L-HEAD ENGINES • SCOTCH-MIST QUICK WARM-UP MANIFOLD • GASELECTOR • VACUUMATIC SPARK CONTROL • FULL-PRESSURE METERED-FLOW LUBRICATION • MULTI-SEAL HYDRAULIC BRAKES • TRU-ARC SAFETY STEERING

*GM Hydra-Matic Drive, Bumper Guards and White Sidewall Tires optional on all models at additional cost.

The Woman's Angle
By Margaret Turner

A BIT of cynicism does to conversation what garlic does to a salad.

• • •

Sometimes we think the tendency to exaggerate our troubles is acquired very young, perhaps at birth.

• • •

THE natural impression from reading a morning newspaper is that a lot of dumb people are walking around. On one page appears a story of a men who went looking for a leak in the gas pipe with a lighted match—and found it.

On another page a woman tells how she drew her savings from the bank and let a gypsy wrap it in a cloth to double it, thus losing sight of it—and a minute later of the gypsy. On another page you read a college student's confession of stealing a car, killing a benefactor and running down a policeman or two.

What the newspaper accounts fail to reveal, as a rule, is that these persons were not typical. Often they were crackpot types, weak or perhaps drunk at the time.

And who doesn't do a dumb thing now and then, get absent-minded, or act irrationally under stress.

HIGH SCHOOL HAS LUNCHEON CLUBS

ATHENS High school has met a problem that worries many school officials for more hours than the average person would suspect—something different that will keep high school boys and girls happy in this age. They have luncheon clubs, based on the service clubs to which adults belong, with time for eating, for a short program and for business.

Such a program could not be undertaken in Lubbock High school, since cafeteria service is not available. Already several clubs meet during the noon hour, after the students have returned from lunch.

But down at Athens, the plan was so successful, all of the organizations became luncheon clubs. That did away with problems such as conflicting of various club meetings, the inability of bus students to remain after school and lack of time in each day's program.

Meetings are scheduled a semester in advance and Tuesday, Wednesday and Thursday in each week are designated as club days. When the students enter the lunch hall they find served plates in place on tables that have been decorated by a club committee.

It's said the young people feel they are the counterpart of adult service organizations.

QUIZ QUESTIONS

THE odd questions asked on radio quiz programs indicate that Americans in general believe that factual knowledge is a test of higher education. Questions include obscure points, such as when the last dinosaurs were seen in America, what colors mosquitoes dislike, how many people have died since 4000 B. C. and so on.

More important to the average man than curious oddities like these is a good sense of judgment—the ability to make wise decisions. This requires a knowledge of human nature, a sense of proportion, and good old fashioned horse-sense. Many persons who passed examinations in higher mathematics make foolish mistakes in fifth grade arithmetic.

Some folk who can discuss Shakespeare's plays cannot write a good letter or report. And thus it goes.

HANDSOME DORATI

TO GIVE an idea of how good looking is Antal Dorati, conductor of the Dallas Symphony orchestra, an out-of-town woman sent for tickets, "because the director is so handsome. I just like to sit and watch him."

Incidentally, according to press releases, the Doratis recently bought a house in Dallas' exclusive residential section, Highland Park.

The house, of Spanish architecture, is built on four different levels, the house has no central stairway, but instead is elevated by a series of steps between rooms. The maestro's studio occupies the top level and is surrounded by a tile terrace.

WHO IS HE?—To some tne above is a picture of Dallas Whaley but to the members of Asbury Methodist Mary Martha circle and to those who attend their breakfast party this morning at 9:30 o'clock at Lindsey theater, he is the guest master of ceremonies. The guest will be impersonating the M.C. of a popular morning radio show.

* * *

Breakfast Guests To Receive Prizes

Prizes to be presented at a breakfast program to be held this morning at 9:30 o'clock at Lindsey theater will include an orchid, a "wishing ring," beauty kit, underwear, one dozen red roses and a cigar. A "good neighbor" will be introduced and the most unique hat will be recognized.

Sponsoring the program is the Mary Martha circle of Asbury Methodist Woman's Society of Christian Service. The "good neighbor" will be chosen from nominations in the form of "good neighbor" letters to a committee of the circle.

Tom Breneman, whose breakfast program is the pattern for this morning's party, sent a kit, an orchid for the oldst woman present, song hits and a large picture of himself for the occasion.

Tickets may be bought at the door. Proceeds will be added to a fund for the Asbury church enlargement. Mrs. C. A. Powell is circle chairman and Mrs. Sam Batton is finance chairman.

Many Nationalities Make Up Symphony

Ticket sales are continuing for the Dallas Symphony orchestra concert to be given here Thursday night at 8 o'clock under auspices of Lubbock Kiwanis club. A ticket booth has been established at Adair Music store and reserved seats are $3 and $3.60.

Cooperation among nationalities, the likes of which would be the envy of the United Nations, has been accomplished by Director Antal Dorati with the waving of a baton. Finding a mutual interest in the international language of music, twelve different nationalities among the personnel of the Dallas Symphony produce harmony that makes the musical organization one of the greatest in the nation.

The nations represented by their musicians are Hungary, France, Sweden, Russia, Italy, Germany, the Philippines, Rumania, Greece, Mexico, England and the United States.

A majority of the personnel are veterans of the armed services.

New Members Are At Guild Dinner

New members attending a meeting of First Methodist Wesleyan Service Guild Monday night at the church were Misses Trula Maud Jetton, Ethelyn Schmidt, Doris Gates, and Mesdames L. P. Browning, Madge Berry and J. B. Morris. Mrs. R. S. Bearden, jr., Guild president, conducted a pledge service.

Mrs. William G. Dingus who spoke on "World Brotherhood" stressed that each individual should become informer about world affairs in order to be able to help build world brotherhood.

Dinner was served in the 50-50 classroom. Decorations were in the Easter motif. Forty-eight persons were present.

Children Honored On Birthdays

Reba Rogers and Yvette Reese who observed their tenth birthdays Sunday were honored at a party given by their mothers, Mrs. C. L. Rogers and Mrs. Carl M. Reese, in the Reese home.

Guests were Bob Stark, Leon Cummings, Charlie Guinn, Norma Jean and Vestine Draper, James Sawtelle, Barbara Sue Harkey, Dorothy Alice Eanes, Bayward and David Baker, Joyce, Kenneth and Donna Jean Rogers, Priscilla Trimm, Rex Bates, Linda Beth Chappell, Martha Kelly, Joan and Pat Witt, Geneva Crump, and Sherrill, Margaret and Adeline Reese.

Mothers at the party were Mesdames Calvin Markey, Walter Guinn, and O. A. Graves.

Furniture Discussed By Wolfforth Club

Seven members and five guests of Wolfforth Home Demonstration club attended an all-day meeting and covered dish luncheon in the home of Mrs. Oly Hitt recently.

Roll call was answered with some fact about furniture. Piano selections were presented by Miss Betty Hitt.

Mrs. Arnold Durham will be hostess at the next meeting which will be held in the Hitt home.

Cattlemen To Meet In El Paso Today

EL PASO, March 16 (AP)—Gov. Beauford Jester arrived here Tuesday afternoon in his private plane to address the 71st annual convention of the Texas and Southwestern Cattle Raisers' association which opens Wednesday.

More than 500 of the 1500 delegates expected to attend the convention had registered here Tuesday afternoon. A pre-conference meeting of the board of directors, one of the quarterly meetings scheduled each year, was held Tuesday afternoon.

A cocktail party and buffet dinner was given at 7:30 p. m. Tuesday for delegates. Wives of cattlemen will be guests of a local department store Wednesday morning at an Easter parade and coffee.

C. E. Weymouth, Amarillo, president of the association, will preside at the opening session Wednesday morning. The foot and mouth disease is expected to be the major topic of the meeting.

Slaton Negro Is Acquitted In Stolen Property Trial

POST, March 16 (Special)—A district court jury returned a verdict of not guilty for Willie Fantroy, a 57-year-old Slaton negro, on a charge of receiving and concealing stolen property, after trial Monday afternoon in the 106th district court of Judge Louis B. Reed of Garza county.

The verdict, signed by W. M. Kirkpatrick as foreman, was returned to Judge Reed at 11:15 p. m., after jury deliberation of an hour and a quarter.

Fantroy was defended by the Lubbock law firm of Burks and McNeil.

MATADOR, March 16 (Special)—Funeral services for William James Hoyle, 84, who died suddenly at the home of a daughter in Roaring Springs about noon Monday, were conducted at 3 o'clock this afternoon in the Roaring Springs Baptist church.

Rev. W. O. Cooley, Chickasha, Okla., officiated at the services. Burial was in Roaring Springs cemetery under direction of Bryan McDonald & Son Funeral home in Matador. Hoyle had been a resident of Motley county for about 40 years.

Survivors include three daughters, Mrs. M. S. Thacker and Mrs. E. E. Moss, both of Roaring Springs, and Mrs. J. L. Estes, Houston; and one son, Mike Hoyle of Roaring Springs.

High School Orators Will Compete In Dallas Friday

AUSTIN, March 16 (AP) — Five high school orators will compete in Dallas March 19 for a chance to move toward national honors and cash scholarships.

The orators are finalists who survived three months of elimination in the American Legion annual oratorical contest in Texas' 21 congressional districts.

Winner of the Dallas contest will represent Texas in the regional American Legion oratorical contest in Shreveport, La., April 5.

The competing Texas finalists include William Dorrill, Waco High school, and Sue Kerr, Borger High school.

National winners will receive cash scholarships, good for the college of their choice. First prize is $4,000; second $2,500; third, $1,000; and fourth, $500.

Texas DAR Opens Business Conference In Fort Worth

FORT WORTH, March 16 (AP)—Texas Daughters of the American Revolution plunged into the business routine of the 49th annual conference here today, hearing reports of state officers and state chairmen of national committees.

The 296 delegates who represent the more than 5,000 DAR's in Texas contributed $500 during the afternoon session for the refurnishing and redecorating of the Texas room in Memorial continental hall in Washington, D. C.

About half of the $5,000 needed has been subscribed so far.

Mrs. Morris Fleming of Paris reported on the national DAR project to erect a "memorial tribute grove," in honor of the dead of World War II in the California redwood tree country.

Delegates voted $160 toward the fund to bring the battleship Texas to a final resting place in the state. The Texas society is co-operating with the Texas Junior Chamber of Commerce on the project.

U.S. Officials Work On Plan To Lift Ban On Mexican Labor

DALLAS, March 16 (AP)—A procedure whereby the ban by Mexico against Mexican workers being imported into Texas for migratory farm work might be lifted was to be formulated in Dallas today by regional officials of the United States Employment service.

The USES officials are in the midst of a three-day conference relative to the movement and utilization of farm migratory workers throughout the nation's crop areas during 1948.

J. H. Bond, Dallas USES regional director, said Texas has been under a "blacklist" by the Mexican government. Mexican nationals are not allowed to work in this state, their government charging racial "discrimination" exists.

New Program Planned

"Between 60,000 and 70,000 Mexican workers are needed to help harvest and process crops on American farms this year," Bond said. "Many of these workers will be needed in Texas.

"The USES, the Immigration and Naturalization service, and farm employer associations are determined to work out some plan whereby Mexican workers can be allowed to work in Texas," he continued.

He said the USES would endeavor to work out a new agreement with the Mexican government under which every effort would be made to ease the conditions which brought about the ban.

"We have in mind bettering working conditions as soon as possible and will aim at a gradual educational program in an effort to reduce any discrimination which might exist," he pointed out.

Guarantees Said Needed

Employers of Mexican farm labor in Texas and elsewhere must provide for transportation of the workers to and from the point of contract in Mexico, their lodging and meals. Employers are required to post a bond to guarantee they carry out their portion of the contract.

The workers must be paid the prevailing wage rates prevalent in the area in which they are employed on the basis of an 8-hour day.

A preliminary plan will be worked out during the Dallas sessions, Bond said.

"Importation of Mexican workers into this country during normal crop years is an absolute necessity," he said, "doubly so in years when record crops, as expected this year, must be harvested.

"During the meeting we intend to determine the number of Mexican workers needed by individual states," he explained. Based on this analysis, future needs will be transmitted to Mexican authorities.

OFFICIALS TO MEET

DALLAS, March 16 (AP)—Administrative leaders and officers of the 36 Boy Scout councils in Region Nine, comprising the states of Texas, Oklahoma and New Mexico, will convene for a three-day meeting in Fort Worth April 7, regional Scout executive Harold W. Lewman of Dallas announced today.

Additional Newsprint To Be Available From New Plant In Alabama; Stock Is Offered

DALLAS, March 16 (AP)—Texas newspaper publishers today were offered some $5,000,000 worth of stock in a newsprint mill able to turn out 100,000 tons of paper a year.

Founders of the Coosa River newsprint company made the stock available at a meeting here.

The mill is to be built in Talladega County, Ala., at a cost of $32,000,000.

Scheduled to go into production by January 1950, the mill will be the second in the south. The Southland Paper Mills, Inc., has been operating in Lufkin since 1940.

Half Of Stock Sold

Both plants have grown out of work of the Southern Newspapers Publishers association.

The group here today was headed by Donald Comer, chairman of the board of Avondale Mills and of the paper company; Edward L. Norton, president of the paper company, and Clarence B. Hanson, Jr., publisher of the Birmingham (Ala.) News and Age-Herald and chairman of SNPA's newsprint mills committee.

Also present were members of the Kimberly-Clark corporation, which will operate the Coosa River mill.

Hanson said $14,000,000 of the amount needed to build and operate the mill has been borrowed from insurance companies. Ten-million dollars of the remainder was set aside for newspapers on a proportionate basis. Newspapers are to be allowed paper in line with their stock holdings—one ton a year for each $100 in stock.

Comer said half of the $10,000,000 in stock open to newspapers already has been subscribed.

Lower Costs Seen

M. M. Donosky, president of the Texas Newspaper Publishers association and treasurer of The Dallas News, said The Dallas News, The San Antonio Light, and The Houston Chronicle each have bought $100,000 worth of stock.

"This is only the beginning of a large scale program of newsprint production in the south," Comer told the publishers' representatives. "There is need for seven or eight mills of this size to serve the south alone.

"But," he added, "publishers are going to have to take the initiative in paying for them."

Cost of the paper will be lower than that from Canadian mills, which supply most of the newsprint used in the United States, since rail costs will be cut from $14 to $7 per ton to southern states. Ralph M. Watt, district representative for Kimberly-Clark company, said.

Drawing Power Of Flowers Is Great At Gotham's Show

By HAL BOYLE
Associated Press Staff Writer

NEW YORK — Flowers have more drawing power than muscle-bound wrestlers and six-day bike riders in the asphalt acres of Manhattan.

The subway farmers and cliff dwelling windowbox waterers are proving that this week at the Kentucky derby of the garden world—the International Flower show. Each year this big league floral extravaganza attracts about 150,000 spectators. Everybody comes but Ferdinand the Bull.

Run Special Trains

They even run special trains from New England and charter buses in Raleigh, N. C., to bring in the dogwood and rhododendron fans. And—yes, indeed!—people try to pick the flowers right out of the displays, and they've got 69 husky guards on duty just to prevent them.

This year more than 1,000 contestants are striving for prizes in 255 main events. There are more minor feuds and vendettas in the four-acre display than you'd find at a tri-family reunion of the Hatfields, McCoys and the Borgias.

But in a real emergency the people who bring the outdoors indeers really help each other. When Don Roehrs, 33-year-old Rutherford, N. J., landscape contractor, at the last moment needed some soil and a few flowers to complete his rock-walled Normandy garden display, other exhibitors generously pitched in.

Won Grand Prize

Roehrs' exhibit then won the grand prize as the best garden of the show. Its construction was superintended by Lowell Kennedy, 32, a thrice-wounded war veteran. He saw a lot of Normandy walls while doing some landscape work overseas with a machine gun.

The rabid enthusiasm of some of the elderly spectators is a source of worry to show officials, who keep a nurse handy to revive those overcome by zinnia-excitement.

A 78-year-old grandmother sneaked on a freight elevator in order to crash the show before it opened. An old man suffered his sixth heart attack the day the show opened, but as he was carried off promised: "I'll be back!" To him and many other people who come here flowers are the most important things in life.

Of the millions of flowers on display the bloom that won most interest from the women was an orchid from the wedding cake of Princess Elizabeth. It had been preserved by borax crystals.

A BARGAIN'S A BARGAIN

SANTA FE, N. M. (U.P.)—A Santa Fe drug store advertised dollar bills for sale during a two-hour period for 95 cents each. The store reported it averaged one customer a minute during the two hours.

HAD ENOUGH

Two Men Finally Satisfy Appetites

Two hungry young men walked into a local drug store yesterday noon and sat down at the lunch counter to order something to eat.

One ordered the special T-bone steak listed on the menu, while his companion called for the chicken dinner. Both asked for a glass of milk.

They polished off the dinners in short order, and astounded the unbelieving waitress by ordering ham sandwiches and another glass of milk each.

Already shaken by the unusual show of appetite, the girl couldn't believe her ears when they asked for slabs of pecan pie and more milk.

One of the diners, his appetite somewhat satiated, couldn't finish his pie, so his obliging companion ate the remainder for him.

Paying the cashier, they left the store. The waitress was left wondering if the two managed to get home in time for lunch.

MR. A. J. PARKS

HAD TO LIVE ON LIQUID DIET, BUT EATS PLENTY NOW; THANKS RETONGA

"It would be difficult to say too much for Retonga," declares Waco Cotton Man. Feels like different person, he states.

"Acid indigestion got me to where I was living on a liquid diet for months at a time but thanks to Retonga, I now eat anything set before me with a fine appetite and I don't think I ever felt better in my life," happily declares Mr. A. J. Parks, well-known warehousemen for the Waco Compress Company, who resides at 2015 Walnut Street, Waco, Texas. Mr. Parks numbers hundreds of farmers among his wide circle of friends.

"For about two years it seemed to me that everything I ate disagreed with me," stated Mr. Parks. "I had to forego most solid foods and lived practically on eggs and milk. Everything seemed to sour in my stomach almost as soon as I swallowed it. I seldom felt free of the misery of gas and bloat and refreshing sleep was almost impossible. I was forced to take powerful laxatives very often. I woke up mornings feeling tired out and depressed to start the day, and I was discouraged over my frequent failures to find relief.

"It is a pleasure to tell other sufferers of the wonderful relief Retonga gave me. I again have a real man's appetite and enjoy every meal without a thought of what I must eat or must not eat. I sleep like a top, the constipation is relieved, and I feel like a different person. It would be difficult to say too much for Retonga."

The active ingredients in Retonga are purely herbal and combined with Vitamin B-1. It is intended to relieve distress due to insufficient flow of digestive juices in the stomach, loss of appetite, Vitamin B-1 deficiency, and constipation. Accept no substitute. Retonga may be obtained at Mark Halsey Drug Stores and all other good drug stores. Adv.

House Committee Urges Slash In Agriculture Appropriations

WASHINGTON, March 16 (AP)—A 4.2 percent cut in the Agriculture department's $635,332,480 budget for next year was urged today by the House Appropriations committee.

But besides approving $543,421,453 in new cash for the department, the committee recommended $65,000,000 for the school lunch program and $400,000,000 in loan authority for the Rural Electrification administration.

Below Present Spending

The cash outlay includes $150,000,000 to pay farmers for soil conservation practices this year under the AAA program. The bill also promises a $225,000,000 appropriation for this purpose next year to cover the 1949 crop year.

The $543,421,453 total okayed by the committee is $89,105,198 below the amount the department was given for the present year.

While the cash approved is actually $91,911,027 less than President Truman's proposed budget for the department, $65,000,000 of the cut is a paper transaction.

Debate Set Later

The President had asked for $65,000,000 cash for the school lunch program. The committee instead ordered transfer of that amount from funds the department receives from customs collections on agricultural imports.

The bill will come before the house for debate late this week.

The deepest actual cut made by the committee was in funds asked for production and subsistence loans handled by the Farmer's Home administration. The President sought $75,000,000; the committee approved $60,000,000.

It granted in full the $15,000,000 requested for loans to help tenant farmers buy and improve rented land.

And the $400,000,000 loan authority approved for the Rural Electrification administration is $100,000,000 more than the President asked and $175,000,000 more than REA was given this year.

Totals Are Given

The committee said farm import duties next year are estimated at $135,000,000. After earmarking $65,000,000 of this for the school lunch program, it ordered the remaining $70,000,000 used to promote consumption of agricultural commodities.

The committee added $6,000,000 to the President's request for $38,000,000 for soil conservation operations managed by the department itself. This is in addition to the $225,000,000 authorized in payments to farmers for following conservation practices under the Triple A program.

For other major departmental activities, here's what the committee recommended:

Bureau of Agricultural economics: Requested $4,363,900; granted, $4,275,400.

Office of experiment stations: Requested $7,819,260; granted $7,481, 968.

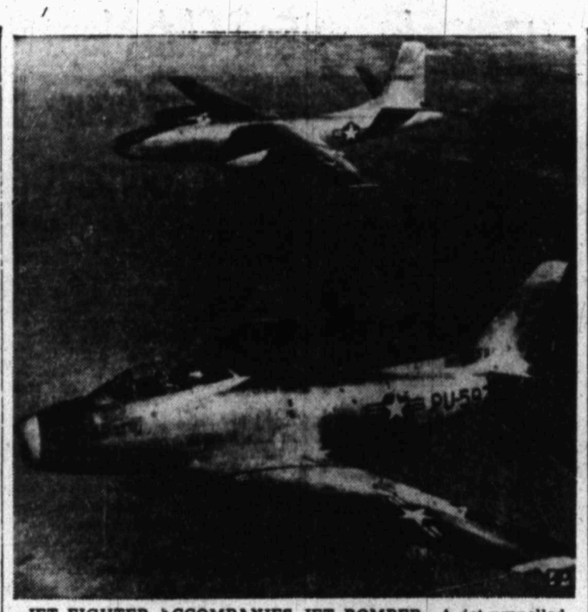

Bureau of Animal Husbandry: Requested $10,300,500; granted $10,275,500.

Agricultural Research administration: Requested, $8,250,180 granted $8,196,470.

Bureau of entomology and plant quarantine: Requested $7,818,000; granted $7,818,000.

Forest service: Requested $40,902,500; granted $40,340,675.

Forest roads and trails: Requested $15,050,000; granted, $14,750,000.

Educator Claims Teachers' Salary Boosts Inadequate

ATLANTA, Ga., March 16 (U.P.)—A National Education Association authority says that today's average teacher has less purchasing power now than in 1939, despite heavy salary increases.

Dr. Ralph McDonald of Washington told a southern regional conference of educators here that further inflation is taken for granted, in regard to teachers' pay.

As a result, he predicted, the end of the present school year might find schools in a worse financial crisis than during 1947. He charged that thousands of teachers have no real interest in the profession and take it up only during depression years.

Woman Dumps Garbage Problem Into Laps Of City Officials

BUTLER, Pa., March 1[illegible] (U.P.)—Citizens of this community have been caught in the middle in a year-long dispute between the city council and the Butler Refuse Collection Co.

Garbage complaints jumped from 37 in 1946 to 1,097 in 1947. One irate housewife solved the problem of garbage disposal, at least to her own satisfaction. She stalked into city hall council chambers, plunked down a ribbon-wrapped package and departed saying, "Maybe you know what to do with it. I don't."

The package contained garbage.

The Jerusalem cherry and ornamental pepper plants like cool temperatures, high humidity and plenty of sunshine. Smoke or gas in a room will make the leaves drop.

Permit Granted For Business Building Costing $78,000

The city building department Tuesday approved a permit for a business building costing $78,000 at Sixteenth street and Ave. K for the 555 company, a store of Beard & Stone Electric Co.

The one-story L-shaped brick and tile building is to front 80 feet on Sixteenth and 130 feet on K. Plans include a parking lot 45 by 100 feet. D. D. Humphries is contractor and James Atcheson architect.

A permit also was issued to E. L. Snodgrass, owner, and Joe Telford, contractor, for a business structure costing $11,500 at 904 Avenue H.

The permits increased construction totals for the year to $2,538,150 and for March to $548,667.

Rail Commission Order Is Upheld

AUSTIN, March 16, (AP)—The Railroad commission's fight against flaring of gas in oil fields took another successful step today with dismissal of Seeligson case by a Travis county district court.

Shell Oil Company, Inc., and 10 other oil companies had sought a permanent injunction against enforcement of a Railroad Commission order shutting down the Seeligson field in Jim Wells and Kleberg counties until flaring of gas ceased. The order was the first of its kind in the history of oil and gas regulation in Texas.

Gas Was Used

Judge Roy C. Archer of 126th district court dissolved a temporary injunction and dismissed the case on agreement of both the commission and the oil companies. His action was based on the fact that Shell oil and others have erected a plan in the past year to make use of casinghead gas.

The State Supreme court previously had upheld the authority of the Railroad commission to issue a close-down order, but had also upheld the right of the district court to issue a temporary injunction against the enforcement of the order pending a hearing of the case on its merits.

Refusal of the district court to grant the permanent injunction paved the way for similar shutdown orders by the commission in other fields where flaring continues.

An estimated one billion cubic feet of gas is flared daily at present in fields throughout the state.

Area Fields Included

Prior to issuance of the temporary injunction in the Seeligson case, the commission had ordered operations to show why they should not be prevented from wasting gas in the following fields:

North Cowden and Goldsmith fields; in Ector county; McElroy field in Crane and Upton counties; Slaughter field, in Cochran, Hockley and Terry counties; Wasson field, in Yoakum and Gaines counties; Agua Dulce field, in in Nueces county; KMA field, in Wichita and Archer counties; Anahuac field, in Chambers county; Conroe field, in Montgomery county; North Withers and Madgnet Withers field, in Wharton county; Webster field, in Harris county; Hayser field, in Calhoun county; Tom O'Conner field, in Refugio county; and West Ranch field, in Jackson county.

WAY TO TOUGHEN TEETH

CHICAGO (U.P.)—A tooth toughening treatment has been developed by a member of the Indiana University school of dentistry. Ralph W. Phillips reported to the Chicago Dental Society that tin flouride was most effective in maintaining enamel hardness. The best way to apply it is by swabbing, he said.

Increase In Cotton Exports Is Sought

WASHINGTON, March 16. (AP)—Twenty-two cotton state senators planned today to increase cotton exports and keep Japanese textiles mills going by special legislation.

Senator Maybank (D-SC), chairman of the special Senate cotton committee, reported after a closed conference that the group will introduce a bill in next next day or two to set up a $150,000,000 revolving fund for working capital to purchase cotton to go to Japan.

Senator Eastland (D-Miss), who is drafting the bill, told a reporter "the Japanese textile industry is about to shut down entirely for lack of cotton."

Henderson, Kirkpatrick Will Leave Friday For New York And Pro Boxing Careers

Gus Lesnevich's Manager Signs South Plainsmen

J. D. Kirkpatrick of Petersburg and Bill Henderson of Levelland, light heavyweight and featherweight, respectively, will leave here Friday afternoon for New York City, where they have been signed to professional boxing contracts.

The two South Plains fighters will report immediately to Lou Vella, manager of Gus Lesnevich, World's Light Heavyweight boxing champion, who will turn the local boxers into professionals.

Will Train Under Fierro

Kirkpatrick and Henderson will enter Vella's stable, where they will be under the personal attention of Trainer Fred Fierro. Fierro has trained many outstanding boxers and among his topnotch fighters are Billy Conn and Lesnevich. Vella gives full credit to Fierro for developing both Conn and Lesnevich into champions.

Bert Kahn, who was in New York for the Lesnevich-Billy Fox fight March 6, completed arrangements with the New York manager during his stay in the city.

Under Kahn, both fighters developed into outstanding amateur boxers and both gave promise during the recent Golden Glove bouts in Fort Worth of being top professional fighters.

Kahn Issues Statement

Kahn said yesterday, in announcing that the two men would join Vella, that "I feel confident Kirkpatrick and Henderson will make the grade. I selected the best possible manager and trainer in the boxing business to handle these boxers. Fierro is an outstanding trainer, probably the greatest in the business, while Vella is absolutely honest and sincere. He is a great manager. The South Plains will have reason to be proud of these two boys before long."

Henderson, who is working in the oil fields at present, was not available for comment, but Kirkpatrick declared that he was pleased at the opportunity. He said that he would do everything he could to develop into a great fighter and bring credit to Lubbock, Petersburg and the South Plains.

Kirkpatrick Works Daily

Kirkpatrick has been working out daily at Kahn's Health club under the supervision of O. C. Foster, Kahn's partner. Under his guidance, Kirkpatrick has gained weight and developed stronger muscles. He appears to be in perfect condition.

Henderson and Kirkpatrick will live at Lesnevich's home in Cliffside Park, N. J., where a complete gym is available. Kahn said that both boys probably would be given light work the end of next week, during which time Fierro and Vella will study their style.

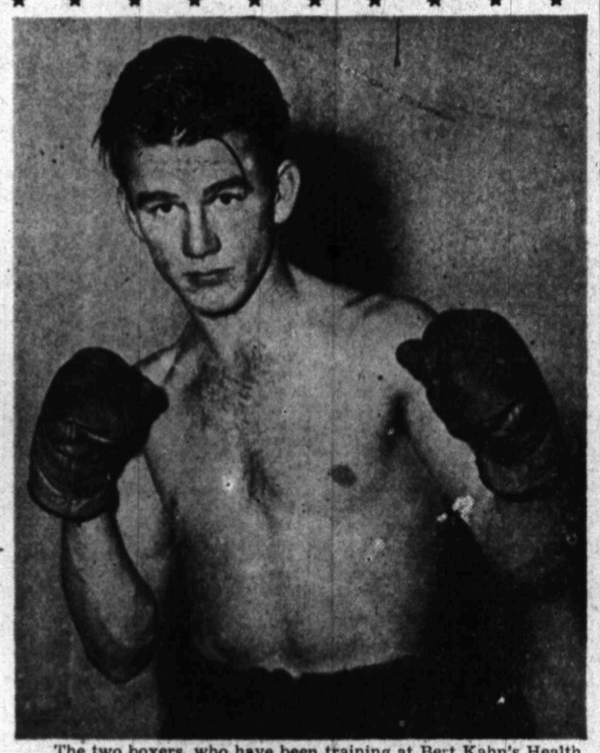

Changes To Be Made

After that, changes probably will be made to get both in condition for fighting professional bouts. Kahn believed that both would appear on cards within three or four weeks of starting training, going four rounds as preliminaries on a bigger card. Later, if they show promise of developing, they will be converted into fighting longer fights and going against better fighters until they are ready for their debuts as fighters in their own right.

Both men will leave their families in Texas until they become established.

Henderson for two years has been state Golden Gloves featherweight champion, winning his second title in Fort Worth Feb. 16. Kirkpatrick, a leading contender, was eliminated last year after his first bout because of a kidney injury and this year in the semi-finals due to a cut over his left eye.

LUBBOCK BOXERS GET BREAK—J. D. Kirkpatrick of Petersburg, left above, and Bill Henderson of Levelland, right above, have received a great opportunity to continue their boxing career as professionals. The two great South Plains ringmen have been signed by Manager Lou Vella of New York and will leave Friday for his training camp. Both had outstanding records in the ring as amateurs.

Kirkpatrick for two consecutive years was the leading contender for the Golden Gloves light heavyweight boxing title, each time losing only through injury in the ring. Henderson held the state Golden Gloves featherweight title for two years, defending his crown successfully in February in Fort Worth.

The two boxers, who have been training at Bert Kahn's Health club, are in top physical condition and eager to turn professional. Under Vella they will be developed and both might become leading contenders for world titles. Vella is the present manager of World's Light Heavyweight Champion Gus Lesnevich.

Dupree Meets 36th Street Nine Today In First Game Of Season

The 1948 baseball season will open this afternoon at 4, when the Dupree school baseball team travels to the diamond of the 36th Street School for an inter-school game.

The Dupree boys issued a challenge to their opponents of this afternoon and the challenge quickly was accepted. The Dupree Dogies are composed of boys 11 to 13 years old and the game today will be a feature of "Play Day" for the schools. Starting batteries were not known at a late hour last night.

Sports Study

By Earl Scudday

A few weeks ago when Lubbock Westerner Mentor Marlin Hayhurst said that his '48 squad was the most promising group he has coached here, he emphasized that the performance of the squad in meets would depend on two factors. "The most important thing is the weather," Hayhurst said, "but injuries and illness could prove to be a second limiting factor."

• • •

At the present time Hayhurst's worst fears about the weather have been justified. The squad has had scarcely half a dozen days when outdoor practice was possible and, in fact, has held drills in weather that would be more suitable for ice skating than jogging around a frozen track. As if that isn't enough to worry the canny mentor, illness has struck hard at the Westerner squad. At various times during the last two weeks sprinter Don Decker, 440 specialists Charles Strickland and Jim Wilson and miler Richard Johnson have been out of action with influenza, colds and sore throats.

• • •

In spite of these difficulties the Lubbock High schoolboys are making exceptional progress and should make a strong threat for a place in the top bracket in the state meet at Austin. Any Westerner fan discouraged by the second position in the Abilene Invitational meet last weekend should take a second look at the statistics. In the first place, the home team has a great advantage as a result of reserve strength and thorough knowledge of the local track. And secondly, performances in the Abilene events were extremely good. As an example, the winning time in the half-mile run at the Abilene meet was 2:01.9, while the winning time in the same event at the famed Border Olympics was 2:02.6. The first place time in the 100-yard dash at Abilene was 10.2 seconds, but at the Border Olympics a 10.4 seconds won the high school century.

• • •

That long-awaited duel of the Westerner-Odessa Bronco track teams apparently will be unreeled Saturday, March 27, in the annual Sand Hills Relays at Odessa. The Lubbock High boys will also get another crack at the Abilene squad, since the Eagles are certain to enter the Odessa meet. With such stellar performers as Byron (Santone) Townsend of Odessa, Billy Rogers and James Edington of Abilene and the Westerners' Jim Johnson slated to

Hubber Vs Softball Team Offer Renewed

A check for $500 yesterday afternoon was presented to Joe Kelly, sports editor of the Avalanche-Journal, by Ben Eskridge, co-owner of the Sunbeam-Bluebonnet Laundry company, in the newspaper offices.

The personal check according to Eskridge, is a guarantee to the Lubbock Hubbers; if the Hubbers consent to play a baseball-softball game against the laundry company's softball team, and the action draws the Hubbers a $500 fine, the check will serve to pay off the fine.

Shows Good Interest

Eskridge, dead serious about the challenge, said that the check would serve also to show the good intentions of the laundry company. He declared that he was an ardent baseball fan and didn't want to do a thing to get any Hubber player in wrong, but if the baseball team's management was worried about the fine, he was happy to meet the expense.

Business Manager Karl H. "Larry" Larsen of the Hubbers again reiterated that they appreciate the feeling of the softball management, but that the Hubbers did not believe in mixing anything with baseball.

The likeable Larsen, trying to explain the delicacy of the situation gracefully, declared that baseball was a business and that they intended to operate the Hubbers strictly as a baseball team. He pointed out that the Boys club, which was mentioned as the probable recipient of all proceeds from the game, was helped consistently by the Hubbers in other ways.

Post Season Tilt Out

Larsen pointed out that a post-season game by Hubber players, using another team name, would be all right, but Eskridge said that he would consider only a pre-season game, or a game during the season.

To this issue Larsen replied by emphasizing the importance of the pre-season work of the Hubbers as preparing for the league race, while the Hubbers would be too busy concentrating on baseball during the regular league schedule.

"The whole thing boils down to a desire on the part of organized ball to keep baseball on a high plane," Larsen declared. "We have no objections to the ball players participating in such a contest after the season, but during the season we must insist that they eat, sleep, drink and talk baseball. This is a serious business and any such diversion interrupts the mental attitude of the players."

tangle, the meet should hold the interest of every West Texas sports fan.

S. P. Cowan, superintendent of the Brownfield schools, is now accepting applications for both the head and line coaching posts of the Cubs' grid staff, according to an announcement by Cowan. Toby Greer, line coach at Brownfield for the past two years, was reportedly named as head mentor early this month after Harold Crites failed to notify the board of trustees as to whether or not he wanted the position for the 1948-49 school year. A few days later Greer accepted a post as line mentor at Tulsa university, leaving the Cub staff depleted.

Baseball Was Lively In 1916, Ruth Says

Hugh Fullerton, Jr., Associated Press sport writer, tells this story about Babe Ruth:

Ruth, who is touring the training camps and cutting up a few touches with old friends, was lunching with Phillies' officials yesterday when someone suggested that the Babe should be hitting 'em now, when the ball is livelier than ever . . . "Lively ball," growled Ruth. "Why, I hit some just as far back in 1916 as I did when I was at my peak."

Levelland High Wants Footbal Opponent For Oct. 22 Or 29

LEVELLAND, March 16 (Special)—Coach Truett Rattan of Levelland High school said today he would like to correspond with representatives of Class A high schools interested in playing the Lobos in a football game on either Oct. 22 or 29, both open dates on the 1948 Lobo grid schedule.

Seagraves First In Tri-City Track Meet

O'DONNELL, March 16 (Special)—Seagraves' powerful cinder squad took top honors in a three-way practice meet with O'Donnell and Tahoka here today by tallying 53 points, 11½ more than second place O'Donnell.

Tahoka's Bulldogs copped the third position with 38½ points and pressed O'Donnell for the runner-up spot.

Probably the outstanding performance of the meet was turned in by Joe Palmer of O'Donnell in the 100-yard dash event, when Palmer chalked up a winning time of 10.4 seconds.

HSU, NEW MEXICO MEET

ABILENE, March 16 (AP)—Hardin-Simmons will play New Mexico A. and M. in football in 1949 and 1950, Athletic Director Warren B. Woodson announced today.

Golf Club Maps Plans For Four Major Tourneys

Four major tournaments will be conducted this spring and summer by the Meadowbrook Publinx Golf club, officials reported following a regular meeting Tuesday night, with cup awards slated to be presented to meet winners.

The first tourney, the Spring Classics, will be held April 10-11 and 17-18, officials said, with 18-hole qualifying rounds for the Mayor's Cup event scheduled April 25. First round match play in the Mayor's Cup event will be held May 2, second round play is carded May 9 and the final round will be played May 16.

The McMillan Cup tourney, featuring 54-hole medal play, will be conducted on the weekends of June 13, 20 and 27, according to plans completed last night.

Lamesa Meet April 3

Final tournament of the year, the club championship meet, will open with 36-hole qualifying rounds Aug. 29 and Sept. 5, then first round play will be unreeled Sept. 12. Second round of the tourney is slated Sept. 19, with the semifinals and finals Sept. 26.

Officials also announced that a club team will go to Lamesa April 3 for a meet there, with the Lamesans returning the match later.

Next regular meeting of the organization will be held April 20 at radio station KSEL.

Tech Golfers Enter Fort Worth Matches

The Texas Tech golf team will open its season this weekend in Fort Worth in matches in connection with the Fort Worth Fat Stock show. But hopes of victory are slight.

Heading the team will be E. H. McKinney, Brownfield senior, individual champion of the Border conference and former amateur champion of New Mexico and Nebraska.

Teamed with him will be: E. C. Feagan, Hamlin senior; Ted Forsyth, Lubbock freshman, and Chick Trout, Jr., or his brother, Johnny, both Lubbock sophomores. The Trouts shot identical scores in qualifying rounds and will decide Thursday which will make the trip.

Accompanying the golfers to SMU and TCU will be the Tech tennis team composed of Jake Broyles, Lamesa sophomore, winner of second place in Border conference play last spring; Glenn Ivy, Sweetwater senior, who teamed with Froyles to win second in conference doubles; Joe Wheatley, Pittsburg, Calif., sophomore; and Carl Schmidt, Mexico City, former titlist of his home city.

Tech Quarter-Miler May Be Ineligible For Track Meet

The eligibility of Ben Wilson of Lubbock, freshman quarter-miler for Texas Tech, is questionable and this uncertainty poses a problem for Coach Maxey McKnight, who will take a team of track men to Fort Worth this week end for the Fat Stock show.

Wilson had been counted on for both the 440-yard dash and mile relay team. If he is declared eligible by Friday, Wilson will accompany the squad of nine or ten men to Cowtown, otherwise he will remain here.

Wilson May Be Ready

A strong possibility exists that Wilson, even though he may not be eligible for this meet, can make up his deficiency within the next few days. In that case, he will be eligible for the more important meets on the Red Raider schedule.

Charlie Reynolds of Odessa, Border Conference sprint champion, is counted on heavily to score in the century and possibly in the 220-yard dash, which title he also holds in the Border loop. Reynolds has run the 100-yard dash in both 9.9 and 9.8 this spring, even with bad training weather.

Others counted on for additional points include Seth Murphey of Levelland and James R. "Moon" Mullins of Ackerly, both of whom have been running the century in 10 seconds flat.

The 440-yard dash will have Costin Bufkin, Joe Wilson of Claude and Wilson, if he is eligible.

Others Look Good

Ed Clepper of Mobeetie and Charles Pinnell of Andrews are slated for action in the high hurdles and the high jump, with Pennell also due to run the low hurdles.

Henry Briscoe of Devine will be the Raider hope in the 880-yard dash.

The spring relay quartet will be Reynolds, Murphey, Bufkin and Mullins. The mile relay foursome is due to include Reynolds, Bufkin, Joe Wilson and Ben Wilson, or Briscoe, in case of ineligibility.

Ernest Hawkins of Lamesa, bothered so far with a bad leg, may join the squad as an 880-yard dash man. Hawkins, wearing football shoes and not trying hard, last week ran a 54-second quarter and should be a valuable asset to the Raider squad.

Coach McKnight, welcoming the good weather of Monday and Tuesday, is working his charges hard this week. He expects to leave here early Friday morning for Fort Worth and will return Sunday.

Eddie Gideon Makes Grapple Debut Here

Wrestling's bad boy, Karl Gray of Milwaukee, Wisc., will tangle with popular Ace Freeman in the main event tonight at Sled Allen's wrestling arena.

The Milwaukee Mauler, who has lost several matches over inferior opponents because he either refused or couldn't hear the referee's orders to break, will have to be on his toes to best Freeman, who hails from New York City.

Freeman is remembered by local fans as the lad who beat Al Getz here not long ago. Freeman has met with considerable success in his matches throughout this area.

Gideon Returns Here

In a two-out-of-three fall, 45-minute semifinal tussle, Gil Knutson of Davenort, Iowa., makes his wrestling debut here against Eddie Gideon of Montgomery, Ala.

Gorilla Pogge of Argentina is in the one-fall preliminary against Johnny Carlin of Tampa, Florida.

Cagey Graplers

One thing the fans can be sure of seeing in the preliminary bout is a pair of cagey wrestlers, who will use every trick of the trade and maybe some others not heretofore seen.

Tickets for tonight's card are on sale at Wylie's Drug store here.

Westerners To Leave Thursday For Track Meet In Fort Worth

Lubbock Westerner track candidates, drilling for the Southwestern Exposition track and field meet Friday and Saturday at Fort Worth, took advantage of perfect weather conditions Tuesday afternoon at Chapman field oval to chalk up some of the best times of the season.

The most brilliant performances of the afternoon were clocked in the 440 dash tryouts for places on the crack mile relay quartet, with ace quarter-miler Jim Johnson completing his lap in 52.5 for his best time of the season. Don Decker and Charley Williams each hit a 54 flat on their 440 attempts, with Earl Hutcherson gaining the fourth spot with 54.4 seconds.

Johnson Runs 5:01.1 Mile

The surprising showing of Decker and Williams in the 440 trials posed a tough problem for Coach Marlin Hayhurst, who has planned to enter the two sprinters in the dash and sprint relay events of the Exposition meet. Big Jim Wilson, a regular member of the mile relay quartet, was hampered by a muscle bruise and took 55.8 seconds to circle the lap.

Richard Johnson, sophomore distance specialist, turned in his best time of the year on the mile run Tuesday afternoon with a sparkling 5:01.1. Johnson, handicapped by colds earlier this year, decisively defeated other candidates for the mile post on the squad to make the trip to Fort Worth.

Charley Williams continued to hold his slight edge as the top 100-yard dash hopeful of the squad by winning the century event in a 10.3, performance although he barely nosed out rapidly-improving Don Decker. Since the performance was the fourth or fifth time this year that Williams has hit the 10.3 mark, and there was absolutely no wind when the race was unreeled, the slender speedster was established as one of the fastest sprinters on a Westerner squad in recent years. Decker, ace 220 performer, pushed Williams to the finish line and Hutcherson was only a step behind.

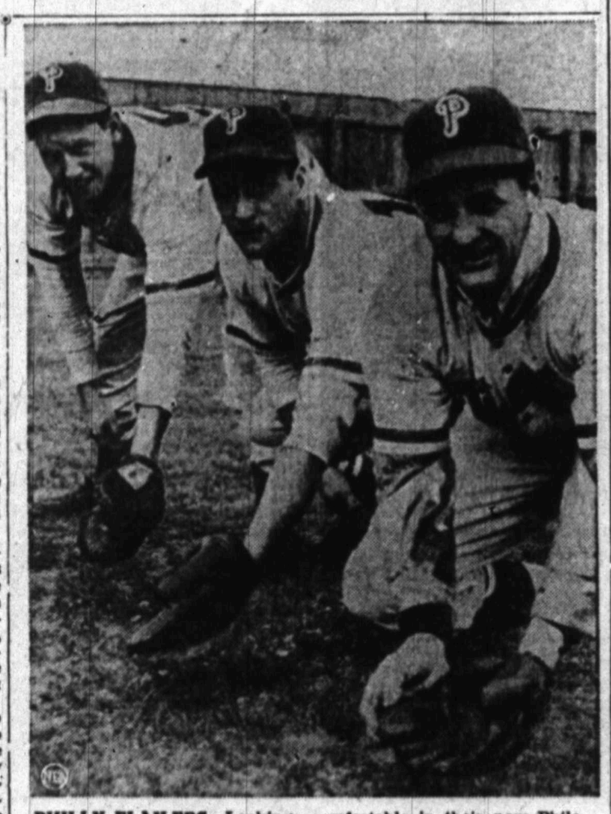

To Leave Thursday

Coach Hayhurst said last night that he plans to take a squad of 11 or 12 to the Fort Worth meet, with the group slated to leave here late Thursday afternoon by chartered bus. Preliminaries are scheduled Friday morning at Farrington field, with finals Saturday.

Seventy high school teams from all sections of the state have entered the meet, the Associated Press reported from Fort Worth last night, and approximately 1,300 contestants in all divisions are expected to battle for top honors.

GREENVILLE, Miss., March 16 (AP)—Bobby Decker, veteran second baseman of the Amarillo Gold Sox of the West Texas-New Mexico Baseball league, has been sold to the Pensacola Class B team of the Southeastern league. Decker batted .324 last season and played in the league all-star game. Sale terms were not disclosed.

Texas PGA Meet Set June 15-20

EL PASO, March 16. (AP)—The executive committee of the Texas P.G.A. meeting here tonight set June 15-20 for the annual state P.G.A. Championship and Open tournament to be played over the El Paso Country club course.

State P.G.A. President Graham Ross, Dallas Athletic club, announced that the program would open on Tuesday, June 15, with a pro-amateur event. The following day will be reserved for a pro-pro best-ball event, a feature new to the annual links meeting.

Golf Clinic June 16

Also on Wednesday, June 16 a golf clinic will be held with Byron Nelson as master of ceremonies and some 10 outstanding Texas golfers giving demonstrations.

The first 18 holes of the championship playoffs begins on Thursday, June 17, with the final round and presentation of awards Sunday.

Jack Harden, El Paso Country club pro, said that $7500 in cash for professionals, and nearly $2500 in prizes for amateurs will be awarded, making the tournament one of the richest state P.G.A. meets running.

Meeting with Graham were H. T. (Shorty) Hornbuckle, Odessa vice-president; Ralph Morgan, Tyler, secretary-treasurer; Warren Cantrill, Midland, district vice president; and L. W. (Smiley) Rowland, Glen Garden, Ft. Worth, district vice-president.

Golden Glovers Will Fight In AAU Meet

DALLAS, March 16 (AP)—Tommy Barron, Texas Golden Gloves middleweight champion in 1947, and a state finalist this year, today joined ranks of other gloves fighters who will compete in the Southwestern AAU Boxing tournament.

The tournament gets under way here at 8 p. m. tomorrow.

Barron is a resident of Sherman. Other district 1948 Golden Gloves champions who have entered include Eddie Brock, Abilene middleweight.

Teams and individual contestants have entered from Tyler, Kilgore, Grand Prairie, Longview, Mesquite, Hillsboro, Corsicana, Royse City, Sulphur Springs, Gladewater, Fort Worth and Dallas.

Western Area NCAA Has Many Problems

KANSAS CITY, March 16 (AP)—All but one major problem connected with the production of the Western Regional NCAA basketball playoffs here Friday and Saturday was solved today.

The remaining problem is that of stacking the maximum number of customers into municipal auditorium, which has a "a trained" capacity of about 9,700 for basketball.

Baylor Plays Friday

Opening the two nights of doubleheaders Friday will be Kansas State college, District Five representative, and Wyoming of the Rocky Mountain area, starting at 7:45 p. m. (CST).

Baylor, champion of the Southwest conference and Washington university, of the Pacific Coast conference, will meet at 9:30.

Only the Baylor Bears advanced to the playoffs without first having to settle one or more controversial issues. Baylor had a season record of 21-5, beating Arizona in a sixth district playoff.

Gentry Club Solves Feminine Objection To Night Baseball

PARIS, March 16 (AP)—The Jack Gentry club, organized by 35 local businessmen to get around a ban their wives placed on nightly attendance at baseball games, will bloom again this year.

Here's how it works:

For a membership fee of one dollar each, they formed the club, using proceeds to buy Gentry a season ticket to all Rocket home games. Each morning after a game here last season, club members gathered at a local barber shop to hear Jack give his eye-witness account of the contest. Members say Gentry not only is an expert on baseball but that he also offers satisfactory solutions for all arguments at the park.

Gentry never missed a game last season. Club members never missed a "morning-after" session. It worked so well that members decided to try it again this year.

Ted Williams Says AL Pitchers Will Be Harder To Hit In 1948

SARASOTA, Fla., March 16 (AP)—Ted Williams gazed fondly at his yellow-painted 36-ounce hickory bat, took a few healthy swipes at an imaginary baseball and came up with not one but half a dozen fresh observations today.

The Boston Red Sox' triple crown king in 1947 took a deep breath and voiced the following:

.350 Will Be Tops

1—American league pitchers will be tougher to hit than ever in 1948.

2—The league's leading batter probably won't hit .350.

3—Boston, New York, Detroit and Cleveland will engage in one of the closest pennant races in history.

4—Joe McCarthy can't help but be a success in Boston because he is "a wonderful manager and knows how to get the most out of his players."

5—The opposing clubs will continue to use the "Boudreau Shift" on him but he will break it up by hitting to left more than ever.

6—He should be more valuable to the Red Sox than ever because he has learned that baseball consists of more than just hitting.

"The older I get the more serious I get about baseball," Williams acknowledged.

Ted said he and McCarthy have gotten along admirably. "Why not?" he demanded. "Joe's no green hand at this managing end, you know. All he wants is hustle all the time. He'll never bawl you out if you're trying. You can bet I'll give him all I got. I'll hustle no matter who is manager."

Ted declined to guess what he would hit this year, but predicted that if he could reach his .343 batting average of last year, he probably would win the championship again.

Williams is satisfied with the way he combatted the "Boudreau Shift" last year.

Car Overturned In Chase Here

A Lubbock negro, Willie Perryman, 35, used the noon hour yesterday to test simultaneously the speed of two automobiles, although that was not his primary objective when he attempted to ditch a new police patrol car in broad daylight.

Rolling and other stunting was not the pursued man's purpose either, but the negro turned his car over 'perhaps five times' in the 2200 block of Thirty-fourth before he was forced to admit the chase was over—a chase which at times reached an estimated 'test' speed of 85 miles per hour and extended over several miles.

Not Seriously Injured

Perryman had fallen out of the car, and was lying 40 or 50 feet away when it stopped rolling, police said.

Hospital examination showed the negro suffered no serious injuries, and he was being held in city jail last night. A drunk driving charge was to be filed, police officials said.

City Patrolmen Doyle Clark and Virgil Stephens were in the prowl car and were looking for a 'reckless driver.' They chased Perryman from the negro seciton of Lubbock down Ave. A to the Slaton cutoff, over to Ave. H and westward along Thirty-fourth to where he lost control of his car.

At the intersection of the cutoff road with Ave. H, the negro 'almost hit four or five cars,' Clark reported.

Theft Reports Probed

City police were investigating several reports of theft last night and continued investigation of two cases of burglary.

Shenell Don Hipp, an employe of Furr Food stores, reported theft late Tuesday of a motor bike valued at $375 from the front of store No. 5, at 1702 Texas Ave. He told police that he had seen two boys riding away on it.

Theft of two International truck motors from the Midwest Oil and Gas company was reported by W. A. Cantwell, of 319 Waco Ave.

Investigation continued in two burglaries reported to police early yesterday. Loot was taken in only one case.

Approximately $12.50 was believed taken from Alcoholics Anonymous club house, at Sixteenth and Ave. J. A juke box had been tampered with.

Nothing was believed taken from Elmer Ray's service station, at Sixteenth and Ave. M.

Man Is Released

A Lubbock man, about 30, was held briefly for investigation into the burglaries but satisfied investigators he was innocent, Capt. Pat Davidson of police detectives said.

The sheriff's department said Robert Eddie Waller, 31, of Morton, had been returned in custody from Roswell, N. M., to face a forgery charge. Dep. Sheriff Frank Mitchell went to Roswell for the defendant.

Bond of $1,000 was set by D. W Robertson, justice of peace, for Marvin Thomas Cunningham, 18, of Littlefield, who yesterday was charged upon oath of Lee Rice, jr., city detective, with forgery of a $16.64 check signed "Jame Delaney" of Lubbock route 1 and made payable to White's Auto stores. The complaint was prepared by District Attorney Lloyd Croslin.

Bond Is Posted

The county attorney's department said Robert Edward Lee, 36, of Lubbock, posted $600 bond after pleading innocent of drunk driving.

L. G. Wilhite of 223 Ave. H reported theft from him of a pair of gloves, a pair of sunglasses, a belt, several packages of cough drops and razor blades. He described a suspect and the suspect's automobile.

Rims and hubcaps from his car were reported stolen from Lee Denny of 1820 Ave. O.

Thefts of two bicycles were also reported to police last night. A green Western Flyer, owned by C. S. Mitchell, of 1405 Ave. L, was stolen at the Arcadia theater, records showed; and a red and white Shelby Flyer, valued at $45, was stolen at the Chief theater. The Shelby was owned by Lawrence L. Wagoner, of 2109 Ave. K.

mediate war.

In Rome Vice Premier Randolfo Pacciardi predicted defeat for the Communist national front in the April 18 elections. The U. S. State department declaration that a Communist victory would end all chances of American economic aid became a campaign issue. Its effectiveness will not be known until ballots are counted.

More Czechs Escape

A leftist newspaper reported in Prague that three more Czech politicians have fled the country in the wake of the Communist march to power. The Communist coup there and the Soviet demands on Finland may be factors behind Mr. Truman's decision to go before the Congress.

A decision on the Paris conference was to bring the western zones of Germany into the western European organization. In Frankfurt a Communist legislator was suspended from the economic parliament of the merged British-American zones, and Communists opened a campaign of denunciation against German politicians who are anti-Soviet.

Constantin Tsaldaris, Greek foreign minister, told newsmen in Paris only a pan-European organization of the 16 Marshall plan nations would be strong enough to counterbalance the Soviet Union and the nations already in her sphere of influence.

W. L. Pearson Named To New Post Here

W. L. (Pete) Pearson, of Slaton, has been named industrial sales manager of Southwestern Public Service company here, it was announced Tuesday.

Pearson's work will include sales management of the Southern division of the company with headquarters in Lubbock, and embracing company activities in nine counties. Included in the division are Lubbock, Hockley, Crosby, Cochran, Gaines, Yoakum, Terry, Garza and Lynn counties.

He will continue to live in Slaton until school is out, and then will move his family here. He has been manager in Slaton since March 1943.

Born at Lorenzo, Pearson attended public and high school there, entering Texas Tech in 1926. During his time at Tech, he worked part time for the company and became electrical engineer for the company upon his graduation in 1931.

Pearson's positions with the company in the past include: power sales engineer in Lubbock, power engineer at Plainview, and managerships in Canyon, Plainview, Lubbock and Slaton.

option" set-up to the NRA which was overthrown by the Supreme court as an improper delegation of powers. He predicted that rents will shoot up by 50 percent in some areas if is becomes law.

Rayburn Assails Bill

Rep. Rayburn, of Texas, the Democratic leader, shouted that this is the most reckless abdication of legislative authority I have ever seen."

He said there is no appeal from the decision of the local boards.

House passage came after that body defeated 117 to 29 a proposal

TEXAS VOTE GIVEN

WASHINGTON, March 16. (AP)—Sixteen members of the Texas delegation in the House of representatives today voted against passage of the rent control bill. Four members from Texas voted for it.

Texas House Democrats voting against the measure were Burleson, Combs, Fisher, Kilday, Lucas, Lyle, Mahon, Patman, Pickett, Poage, Rayburn, Thompson, Wilson and Worley. Gossett was paired against the measure. Texans who voted for the bill were Beckworth, Johnson, Rogan and Thomas.

to extend rent controls to June 30, 1950, and to roll back many increased rents to their wartime-OPA levels.

This proposal in the form of a substitute for the Republican bill was offered by Rep. Helen Gahagan Douglas (D-Calif.)

It would have nullified rent hikes under "voluntary" leases agreed upon by tenants and landlords under the 1947 rent act.

In rapid order the House defeated other amendments:

1. By Rep. Fulton (R-Pa)—To substitute the entire Senate bill.

2. By Rep. Multer (D-NY)—That the House measure carry the title "the rent decontrol act." Voice vote.

3. By Rep. Javits—To rstorte control over scarce building materials used in construction of amusement places. Voice vote.

4. By Rep. Hardy (D-Va)—To require approval by a local governing body such as a city council, to put a local board rent order into effect. Teller vote 137-99.

Where local boards decide to retain control here is how the rent bill approved by the House would work:

1. Rents could be increased 15 percent where tenants and landlords agreed on a lease running through 1949. However, tenants who agreed to a 15 percent voluntary hike last year—under the present law—could not be charged another increase. But if a voluntary lease did not provide for the full 15 percent the landlord and tenant could sign a new "voluntary" lease providing up to 14 percent, if the lease runs through 1949.

2. For those tenants who signed leases good through 1948, present rents would be "frozen" from January 1, 1949, to the end of March, 1949. Then rent control would end for them.

3. In general there could be no increase before March 31, 1949 for tenants who have not already signed rent-boosting leases or who would not sign under the proposed 12 months extensions—unless the local rent board decided to decontrol the area completely or to establish a general rent increase for the area.

The House bill follows the Senate measure rather closely in the procedures under "voluntary" agreements between landlords and tenants.

4. The House bill specifically directs the federal administrator to remove hardships where landlords can prove them. The Senate measure requires rent hikes where landlords can show they are losing money.

Watson Paces Field Of Texas University Golf Candidates

AUSTIN, March 16. (AP)—Bob Watson fired a 75 today to top the qualifiers for the Texas Longhorn golf team with a 72-hole total of 283.

Watson, who has been the number-one man on Texas teams for the last two years, had a 208 for the first three rounds. He held a five-stroke lead over the field at that point.

Five others gained berths on the Texas team. They have Hugh Dahlberg, 72-285; Frank Neimeyer, 71-287; Morris Williams, Jr., 75-289; Ed Hopkins, 70-295; and Clark Hessemer, 77-295.

Marion Pfluger, who came in tied for eighth with 298, was the only one of five veterans of last year's Southwest conference championship team who failed to qualify.

Athletic Clinic Will Be Held At Southwest Texas College

SAN MARCOS, March 16 (AP)—Charles (Chuck) Cramer, nationally-known athletic trainer, will conduct a clinic at Southwest Texas State college tomorrow.

All Central Texas coaches and their staffs are invited to attend the clinic which will deal with athletic training, and specifically with athletic injuries.

Cramer, who will come to Southwest Texas with the endorsement of the Texas Interscholastic league, has been employed several times to help train American Olympic teams.

Tyler Junior College Quint To Play NJCAA Meet Tilt Saturday

SPRINGFIELD, Mo., March 16 (U.P.)—Pairings for the National Junior College Basketball tournament in Springfield March 23-27 were announced today by E. P. (Chink) Coleman, NJCAA president.

All games will be played at Southwest Missouri State college, Coleman said.

Among the pairings is the Tyler Junior College team against Fort Scott, Kan. Tuesday night.

MIAMI'S NET STAR WINS

NEW YORK, March 16. (AP)—Sid Schwartz, youthful University of Miami net star who is making his first appearance in the big time this year, paced the field today into the semifinals of the National Indoor Tennis tournament.

Schwartz, a transplanted Brooklynite who took the National Indoor junior crown several months back, upset second-seeded Irvin Dorfman of New York, 9-7, 7-5, 2-6, 3-6, 6-4.

efit of the packing companies." However, the union urged that the President determine whether the packers were willing to pay an immediate nine-cent hourly wage boost pending any period of strike delay.

Prices Show Increase

Hog prices jumped 50 cents to $1.25 a hundred pounds at the Chicago stockyards and cattle rose as much as 50 cents. In the Chicago wholesale market, beef gained as much as $2 a hundred pounds, lamb $1 to $2 and pork cuts from $1 to $3. Wholesale meat prices also rose in New York

President Truman, who intervened last night in a futile attempt to delay the strike, announced members of a three-man board he set up to investigate the dispute.

The board, named under a provision of the Taft-Hartley act, is composed of these members:

Board Is Named

Nathan P. Weinsinger, professor of law at the University of Wisconsin.

Pearce Davis, chairman of the department of business and economics at the Illinois Institute of Technology.

Walter V. Schaefer, professor of law at Northwestern university law school.

The first shortage, industry sources say, would be spotty — probably in areas the farthest away from packing plants. During meat shortages, supplies usually are more plentiful where the packing plants operate. Prices probably will go up as the scarcity grows.

Miners Are Idle

The strike was directed against 78 independent plants and 62 operated by the major packing companies — Swift, Armour, Wilson, Cudahy and Morrell. Pickets were posted at many plants throughout the country, but no violence was reported.

A half-dozen states reported that all, or virtually all, miners were not working. They were Colorado, Indiana, Utah, Kentucky, Alabama and Ohio.

West Virginia 100,000 of 125,000; Pennsylvania 69,500 out of 100,000; Kentucky, 50,000 of 54,000; Illinois, 23,000 of 23,000; Alabama, 20,000 of 22,000; Virginia, 9,000 of 15,000; Ohio, 13,000 of 16,000; Indiana, 6,000 of 7,000; Utah 4,327 of 4,327; Colorado, 6,000 of 6,000; in addition, other states reported these figures for idle miners: Wyoming 7,000; Montana 6,000; Tennessee 9,000; Oklahoma 650, New Mexico 850 out of 1,225.

THIRD PARTY QUALIFIES FOR CALIFORNIA BALLOT

SAN FRANCISCO, March 16 (AP)—A third party ticket headed by presidential candidate Henry A. Wallace today was assured a place on the California primary ballot.

Qualification of the Wallace third party movement, announced by the secretary of state, was regarded generally as a body blow to Democratic prospects in California.

This was emphasized by the size of the qualifying petitions from Los Angeles county, the Democratic party's California stronghold.

Police Write Tickets In Two Automobile Accidents Tuesday

Two cases of accidents police said were caused by carelessness were investigated Tuesday. About 8:30 p. m. a car going north on College Ave. collided with the right side of another car which was making a left turn onto Fourth street, and coming from the opposite direction. A ticket for exceeding the speed limit was given the first car, and one for failure to grant right of way was given to the second driver, officers said.

Earlier in the day, a car going south on Ave. O failed to slow up for another car going east on Ninth and plowed into the left rear fender of the first car. Tickets for negligent collision and failure to grant right of way were given to the first driver, police said.

State Sen. Fred Harris Boosted For Governor By Abilene VFW

ABILENE, March 16 (AP)—State Senator Fred (Red) Harris, Dallas, tonight was asked to run for governor by the Clayton M. Leach post, Veterans of Foreign Wars, here.

The post passed a resolution saying Harris is "in strict accord with the views of the post in regard to protection of veterans' rights."

Telegrams were sent other VFW posts asking them to support Harris.

The Abilene post said Harris will be asked to begin a campaign with a rally here.

Harris was not available for comment in Dallas tonight.

Services Are Conducted For Second Gas Poisoning Victim

MULESHOE, March 16. (Spl)—Burial services were conducted at Muleshsoe Monday for Mary Grubbs, 16, of Portales, N. M., who was the second victim of carbon monoxide poisoning there March 8, it was reported here last night. She died Friday in Green hospital at Muleshoe.

The body of Ida Mae Rogers, 16, also of Portales, was found at the home of Mr. and Mrs. Joe Ferris, near Muleshoe, in a room filled with carbon monoxide gas from a burning stove. The two girls had gone to Muleshoe to visit Mrs. Ferris, formerly of Portales.

Good Attendance Turns Out For Final Circus Performance

The largest attendance at any performance of the Clyde Bros. circus at Nineteenth and Taylor Ave. was reported last night at the final show, according to J. Holland Cox, president of Lubbock Optimist club.

He said the show had been very successful financially, and expressed the club's appreciation for public patronage.

The circus was sponsored by the Optimists, whose share of the proceeds will be given to the funds of the Junior Optimist club, a boys' group maintained by the Optimists in the 2400 block of Second street.

Germans Seek Lost Soldiers In Russia

WEIMAR, Russian Zone, March 16 (AP)—Three years after German mothers, fathers and wives still are advertising here for information about their sons and husbands who haven't returned from the war in the Soviet Union.

"Who can give me information about my only son, Heinrich Klahn, who was last heard from in February, 1945?" one mother advertised. "Even the slightest news about his unit would be gratefully received."

"What person returning from Russia can give me news about Otto Klose who last fought at Spremberg near Lausitz April 18, 1945, and presumably was taken a Russian prisoner of war there?" reads another.

The U. S. S. R. did not adhere to the Geneva convention on treatment of prisoners of war and therefore never reported the names of Germans they took prisoner.

Repatriation of prisoners of war from Russia has been very slow. In the last eighteen months, the Russians announced they had released 65,015 Germans, but Foreign Commissar V. M. Molotov declared officially in March, 1947, that the Soviet still held 800,000 Germans. German officials frequently have challenged Molotov's estimate, insisting a figure closer to two million would be more correct.

Last Rites Planned Today At Brownfield For I. M. Smith

BROWNFIELD, March 16 (Special)—Funeral services for I. M. Smith, 66, who was found dead early Monday evening at his farm home three miles northwest of Brownfield, will be conducted at 4 o'clock Wednesday afternoon in Brownfield First Baptist church.

Rev. J. M. Hale, O'Donnell Baptist pastor, will officiate at the services, assisted by Rev. A. A. Brian, Brownfield Baptist pastor. Burial will be held in Brownfield cemetery under direction of Brownfield Funeral home.

Smith was a native of Tennessee, but had lived in Terry county since 1908. Cause of his death was believed to be a heart attack.

He is survived by four sons, Manard Smith of Kansas City, Mo., Wilton Smith of Raton, N. M., Nelson Smith of Perryton and Corporal J. A. Smith of the U. S. Marine Corps; and three daughters, Mrs. Bill Burleson of Dallas, Mrs. Ester McDaniel of Dodge City, Kan., and Mrs. Joyce Barnes, Perryton.

More Than 600 Persons Attend Performance At High School

More than 600 persons attended a performance of "The Criminal," drama presenting a jury trial of a young man for killing a small boy and his mother during a drunken rage, at Senior High school Tuesday night.

The play was sponsored by the Woman's Christian Temperance union, with Mrs. C. M. Kaigler as sponsor.

Elton Plowman was presented as vocalist when Bill Lord, originally scheduled to sing, was unable to take the part.

Sound-Proof Room Checks Refrigerator Operations

SPRINGFIELD, Mass., March 16 (U.P.)—The Westinghouse Electric Corp. has a completely sound-proof room called a "quietorium" in the middle of its refrigerator factory.

The room "floats" on 50 steel springs set in a bed of cinders and was constructed to test electric refrigerators.

A sound technician, undisturbed by outside noises, can listen to each refrigerator and tell by its "music" whether it is operating properly.

Any unit that doesn't sound right because of excessive or unusual noise is sent back to the production floor for repair.

Nation Awaits Truman's Talk

(Continued From Page One)

Martin and House Democratic leader Rayburn of Texas.

Martin's statement spotlighted the April 18 Italian elections as the coming test between Communism and western Democracy.

The House speaker declared that "the fate of civilization is at stake." And he declared this country must become "absolutely supreme" on land, on the sea and in the air.

"There is no reason," Martin said, "for the American people to be other than perfectly calm."

Tax Hearing Postponed

The world's attention was focused on President Truman's scheduled speech. The President cancelled a number of appointments to work on it.

Despite some predictions that the President would confine himself to reviewing international affairs, rather than making any sensational pronouncements, Congress held itself ready for anything that might come.

The Senate postponed until Thursday the beginning of debate on a $4,700,000,000 income tax cutting measure. Barkley said the Truman message "might present a situation that would make it utterly futile to attempt to reduce taxes."

Two Questions Posed

And in the House, Rep. Cox (D-Ga) said he hopes Mr. Truman will tell Congress that "one more act of aggression by Russia means war."

Congressional leaders hope the Chief Executive will answer two grave questions of the hour:

Just what phase of the conflict between Russia and the West has led Mr. Truman to say that his confidence in world peace is somewhat shaken, and Secretary of State Marshall to declare that a "world crisis" exists.

Just what does Mr. Truman want the United States to do about it?

They look for a statement on U. S. policy toward Italy, the current no man's land between Communism and western Democracy, in particular.

Haste Urged On Aid

Congress itself dug into world problems with a speed unusual in peacetime as it waited for the President to speak.

The House Foreign Affairs committee called the second night session in a row in the hope of having its "omnibus" foreign aid bill ready by the time Mr. Truman reaches Capitol Hill.

This bill is based on the $5,300,000,000 European recovery measure already passed by the Senate. But it also is to include economic and military aid to China, Greece and Turkey.

The Senate Foreign Relations committee met to consider the administration's request for $275,000,000 in military aid to Greece and Turkey.

The House Republican steering committee met to draff a timetable for hurrying foreign aid legislation.

Universal Training Studied

The Senate Armed Services committee scheduled a meeting tomorrow, after the President's address, to consider universal military training. Secretary Marshall is to be the first witness.

Secretary of Defense Forrestal announced, meanwhile, that "general accord" was reached by Army, Navy and Air Forces chiefs meeting at Key West, Fla., last weekend to iron out disagreements over which branch should do what in the national defense program.

Against this background, most of official Washington thought Mr. Truman in tomorrow's speech might well:

1—Call for still greater speed in getting foreign aid programs started, particularly the vast Marshall program for European recovery.

2—Declare that Italy has much to hope for if she stays in the western camp—and warn of the consequences if she goes Communist in the April 18 elections or otherwise.

3—Call again for universal military training, which is stuck at the moment in the House Rules committee despite the Senate's serious consideration of it.

Philippines Ask U. S. For Power Development Funds

MANILA, March 16 (AP)—The Philippines Republic is asking U. S. banks to put up $88,000,000 for power development in the islands.

President Manuel A. Roxas believes the self-liquidating program will put his young nation well on the road to industrialization.

The first objectives are to increase the power supply for Manila and to begin developing untapped resources of Mindanao.

The program, drafted by U. S and Filipino engineers, calls for installing three large power plants, diversion of a river and construction of an electrically-powered fertilizer works within five years.

Georgia Moonshiners Take To River Bottoms, Agents Say

MOULTREE, Ga., March 16 (U.P.)—Georgia revenue agents must have virtually a naval rating to compete with illicit whiskey-makers today.

J. O. Stewart, alcoholic tax unit officer, reports that moonshiners in the river bottoms are carrying on their trade, high water or no high water.

The moonshiners build "island" platforms above the high-water mark, cover the floors with sand and set up their kettles and coils.

To reach the islands in the flooded bottom lands, the moonshiners use boats or rafts. The most practical method of running them to earth, according to Stewart, is for revenuers to spot a boat hidden in the bushes along the bank and wait until the unsuspecting 'shiner returns with a load of "white lightning."

Hong Kong Similar To War-Time Lisbon As Intrigue Center

By VICTOR KENDRICK
United Press Staff Writer

HONG KONG, March 16—This British colony is assuming rapidly all the aspects of war-time Lisbon as a listening post, espionage center, trading post and focal point of political intrigue.

Taking advantage of its comparatively liberal administration, strategic geographical location and economic and political stability, operators from various countries are at work.

They are engaged in spying, counter-spying, buying, selling, propagandizing, plotting and counter-plotting, or just plain "observing."

Most active and largest of the groups are the Chinese, both pro- and anti-Generalissimo Chiang Kai-shek. Next are the Indo-Chinese, and then in lesser degree the French, Russians and Americans.

British Check Up

Trying to keep pace with it all are the British, who after all own the place and consider it part of their job to keep a check on the various activities.

The Chinese political delineations are fairly simple. There are the pro's and the anti's, although each side has several factions and splinter groups. At the moment there are five anti groups and two pro's.

The Chinese anti groups are most open about their activities. Taking full advantage of a tolerant and liberal government, they hold frequent press conferences, issue statements and publish newspapers and magazines. They make no secret of the fact that their avowed aim is to overthrow the Nanking regime.

It is when you get among the Indo-Chinese that your head begins to swim. The only thing they have in common is their hatred for the French and their desire for independence, but each one wants to achieve it in a different way.

Many Factions

There are Annamites, Tonkinese, Cochin-Chinese, Laotians and Cambodians. There are Vietnamese, Vietminese, National Democrats, Democratic Socialists, Caodaists, The People's Movement and the Christian League.

Counteracting the Indo-Chinese are the French Surete and military intelligence, who have the full cooperation of the British intelligence. Their especial interest is watching the activities of Bao Dai, former emperor of Annam, who hopes to return to his abdicated throne.

The Russians have only a small group who, operating as Exportleb (Soviet Purchasing Commission), ostensibly are interested only in buying wolram, tin, chemicals, rubber and similar strategic materials. They keep strictly to themselves, profess no knowledge of English and get rid of nosy callers as quickly as possible.

The Americans are only "observing." In adjacent Canton, however, are a naval attache and an officer of the U. S. Army Aid Group in China.

British Automobile Output Marked For Export Market

LONDON, March 16 (AP)—British factories produced 287,000 passenger automobiles and 158,000 commercial vehicles in 1947, says the Monthly Statistical Review of the Society of Motor Manufacturers and Traders.

Although the number of autos was 54,000 fewer, the total output reached the pre-war figure of 445,000 units attained in 1938.

Exports amounted to 46 per cent for cars and 30 per cent for commercial vehicles at the beginning of 1947, and during the last three months the proportions were 64 per cent and 37 per cent respectively.

Mercedes Chamber Of Commerce In Cotton-Growing Business

MERCEDES, Tex., March 16 (U.P.)—The Mercedes Chamber of Commerce is growing cotton this year.

The chamber bought 45 acres as a site for the Rio Grande Valley Livestock Show, only to find it couldn't get a building put up in time for its 1948 show.

So members decided to postpone building for a few months while they put the land into cotton. Proceeds from the cotton will go towards paying for the building.

Man Who Heard Lincoln-Douglas Debates Celebrates Birthday

STEILACOON, Wash., March 16 (U.P.)—George Hull, one of the few persons still living who heard the famous Lincoln-Douglas debates, celebrated his 103 birthday at Western State Hospital.

ARRESTED AT NIGHT CLUB

Federal Charges Filed Against Suspect In Buffalo Bank Holdup

WACO, March 16 (AP)—Federal bank robbery charges were filed here today against Bernice Lee Franklin, 31, of Corsicana and Texas City in connection with the holdup of the Citizens State bank at Buffalo last February 27.

The charges were filed with U. S. Commissioner J. Walter Cocke by FBI Agent Dick Johnson, who said Franklin has a prison record.

Franklin was arrested early today in a Texarkana, Ark., night club as he danced with an unidentified blonde. He was picked up by Deputy Sheriff Frank Riley of Texarkana.

Statement Made

Sheriff Ben Lee of Leon county, in which Buffalo is located, quoted Texarkana officials as saying Franklin had $867 on him when arrested. He said the man made an oral statement.

A removal hearing was set for tomorrow. Lee said officials of the bank would go to Texarkana for the hearing.

A lone robber held up the bank about 2 p. m. on February 27. The man escaped with $2,350.

Prison Record Given

Johnson said his records showed Franklin was sent to the Texas penitentiary in 1941 from Palo Pinto county for two years on a charge of swindling. He also was given four years on charges of forgery from Navarro county, the FBI agent said.

Johnson said the man was given a conditional pardon in 1944, and in May, 1945, was convicted in Harris county on charges of theft by bailee.

Chief of Police M. Burton of Waco said Franklin came into his office about three months ago and said he had been released from prison. A charge of theft of over $50 is on file in justice court here in connection with the renting of a travel bureau car which was not returned.

In Texarkana, Deputy Sheriff Riley said Franklin also was wanted for car theft at Longview and was out on bond on a similar charge at Fort Worth.

Forest Memorial To Slain Jewish Children Planned

BOSTON, March 16 (U.P.)—Despite Arab-Jewish conflict in the hills of Galilee, the American Christian Palestine Committee has begun planting a memorial forest near Nazareth honoring 1,250,000 Jewish children killed by the Nazis.

Dean Howard M. LeSourd of Boston University, director of the committee, said donations for 4,000 trees have been received.

"We hope to memorialize the tragic deaths of the European youngsters by beautifying the hills where Jesus played as a child," Dean LeSourd said.

"We have no specific goal for the project, though we would like to have a tree for every child who was killed."

Dean LeSourd said the idea originated with Mrs. Ruth Abernathy of St. Paul, Minn., who came forward with the plan when the Christian Palestine Committee began searching for a "concrete and specific project which would show America's feeling over the death of the children.

Cedar, cypress, fig and carob trees are being planted, as well as other trees mentioned in the Bible.

Farmer And 12-Year Old Girl Reveal Kentucky Wedding

ASHLAND, CITY, Tenn., March 16 (AP)—Twenty-year old Elmer Boyd beamed proudly at his 12-year-old bride today and said, "she's perfect."

Elmer, a farmer, and his bride, Cozette Morris Boyd, a grammar school seventh-grader, were at home here with her farmer-parents. They were married in nearby Franklin, Ky., March 6.

The wedding was a surprise, but neither family objected when they found out about it.

Cozette, a pretty red-head who looks older than her age, was rather shy, and had little to say.

But not Elmer.

"She's perfect," said he. "She can cook and sew. One of these days we'll have a home of our own.

"It wasn't easy to win Cozette's hand," he continued, "I had to beat two rivals—But I finally got her."

Elmer said he first met Cozette at church last October.

Elmer said when he told Cozette's mother about the wedding, she said, "I had no idea you were going to do that."

Cozette is going back to her seventh - grade classes here. Elmer is helping her father, Dudley Morris, on the farm.

Women Taking Over New Duties In 'Man's Domain' Out West

LAS VEGAS, Nev., March 16 (U.P.)—Out here in the West, where men are men women are beginning to move in and take over, despite a three-to-one preponderance of males in some places.

Both the city and county clerks in this county seat are women, as are the court reporters for the two municipal judges. Two members of the fairer sex recently passed the Nevada bar examination and have hung out their shingles in Las Vegas.

The latest blow to male supremacy came with the candidacy of a member of the Business and Professional Women's Club of Las Vegas to the board of directors of the chamber of commerce.

Creager Denies He is Exerting 'Pressure'

BROWNSVILLE, March 16 (AP)—Republican national committeeman R. B. Creager said here today he is not using pressure in his support of Senator Robert Taft for the presidency.

He issued his statement in reply to charges made yesterday at San Antonio meeting in which a Dewey-for-President organization in Bexar county was perfected.

W. C. Briggs of Paducah was quoted as saying Creager told him he would see that only Taft delegates would go to the Philadelphia convention.

"He has attempted to enforce this through local leaders," Briggs said.

To this Creager replied:

"It is no secret that I am supporting Taft and I have gone on record as saying that I intend to ask every political friend I have in Texas to support his candidacy.

Will Bans Stalin Sharing In Estate

PHILADELPHIA, March 16 (U.P.)—Kazimir Shirvainis, 63, wanted a sister in Lithuania to share in his $10,000 estate, but he wanted to make sure that none of it went to "Uncle Joe Stalin."

Skirvainis' will, filed for probate here, directed that his estate be divided between his sister, Anna, in Lithuania, and a brother and another sister here. However, the will provided that if Anna "resides within any political subdivision of Soviet Russia," the estate would be divided between the brother and sister living here.

Charles S. Cheleden, attorney and executor, said that "so far as we have been able to ascertain, the sister, if alive, is now in Lithuania and under Russian control." He added that it would be up to the orphans court here to decide whether any of the money would go to her.

HONORS PILE UP

ITHACA, N. Y. (U.P.)—Clifford L. Morgan was elected to three different offices in one day. Attending a meeting of the Fire Underwriters Association in Albany, he was elected to his fourth term as president. The same day he was chosen a director of a real estate holding company, and that night, after driving home to Ithaca, he was elected a Knights Templar commander.

Slowdown In Postal Service Is Denied

WASHINGTON, March 16 (U.P.)—Postmaster General Jesse M. Donaldson denied today that there is any general "slowdown" in mail deliveries.

He conceded, however, that there have been "instances of slow deliveries." He attributed these to the "unprecedented" volume of mail now being handled by the postal service.

Donaldson, the first postal career worker to head the Post Office department, discussed his problems in answer to recent protests over slow deliveries.

He said the current fiscal year ending June 30 will set an all-time record for volume of mail handled by the nation's post offices.

Donaldson said he has enlisted the aid of every post office employe in a drive to eliminate delays.

Just two weeks ago, he said, an official order was sent to all postal workers reminding them of their "grave responsibility to the people of this country to keep the mails moving quickly and on schedule at all times."

Assurances of whole-hearted co-ooperation have been received from every segment of the post office organization, he said.

Although mail volume has outgrown present postal facilities, Donaldson said, "an efficient and regular mail service" must be maintained until additional equipment and buildings can be provided.

Shepherd Dog Lives Because Canine Pal Summons Help

SANTA MONICA, Calif., March 16. (AP)—Silver, A German shepherd dog, is alive today because his canine pal, Dusty, summoned help.

Joe Von Slomski is alive today, too, but for a while he wondered why he volunteered to rescue Silver from a ledge 150 feet above Roosevelt highway, overlooking the Pacific ocean.

Dusty saw that Silver would never make it off the tiny ledge. He barked. He ran back and forth at the base of the cliff. A motorist stopped, saw Silver's plight, called an animal shelter.

Enter Joe Von Slomski. He took of his shoes, climbed up the cliff, but, after he reached Silver he couldn't get back down or the rest of the way to the summit.

A power company truck extension ladder helped get Joe down.

U. S. Crude Oil Production Hits Decline During Week

TULSA, Okla., March 16 (AP)—The nation's crude oil production fell off sharply during the week ended March 13, losing a daily average of 103,990 barrels, the Oil & Gas Journal reported today.

The Journal attributed the decline to a daily average of 5,275,630 barrels for the week to generally adverse weather conditions. It said the decrease "does not mean loss of production but rather only deferment."

Kansas accounted for most of the loss, dropping 92,150 barrels to 19,300 barrels.

Louisiana was down 550 at 476,100, Mississippi was down 1,450 to 112,460.

Texas production of 2,400,675 was unchanged. Oklahoma was down 200 to 407,100. New Mexico was unchanged at 128,950.

Inauguration Of Dr. White At Baylor University Is Slated

WACO, March 16 (U.P.)—Dr. W. R. White's formal inauguration as president of Baylor university has been scheduled for April 13, school officials announced today.

Dr. Robert A. Millikan, Nobel prize winning physicist (1923), will be the principal speaker.

The ceremony of installation for the former Austin Baptist minister will be complete with faculty processional in full academic costume.

Maid Of Cotton Off On Tour Of France

NEW YORK, March 16 (U.P.) — Beautiful Matilda Nail, 19-year-old University of Texas co-ed who is 1948's "Maid of Cotton" left La Guardia airport for France shortly after noon today. She will act as a fashion ambassador for the American cotton industry.

The tall, blue-eyed blonde beauty will go to several French cities, visiting dress designers, and manufacturers.

"I'm in a daze, I'm so excited," Miss Nail said before boarding her Paris-bound plane.

She said she had a message of greeting from Secretary of Agriculture Clinton P. Anderson which she would deliver to France's Secretary of Agriculture upon her arrival.

On March 22, Miss Nail is scheduled to fly from Paris to Manchester, England, where she is to be the guest of the Manchester cotton board.

During her trip, the "Maid of Cotton" will select outstanding French and English cotton fashions and bring them home for display.

Last Bend Is Made By Crooked Railway

RAPID CITY, S. D., March 16 (AP)—The railroad with a succession of names almost as long as its track has wormed its way 32 miles up Rapid Canyon from here for the last time.

In other words, the Rapid City, Black Hills and Western line has been abandoned by authority of the Interstate Commerce Commission.

Its track winds across 101 bridges.

So crooked was the line that engineers claimed they could shake hands with passengers in the coach which followed several freight cars.

Started in 1891 as the Dakota, Wyoming and Missouri line, the road was completed in 1906 as the Missouri River and North Western. In 1907 it became the Rapid City, Black Hills and Western, but natives called it the Crouch line, after a pioneer resident.

There are at least 600,000 kinds of insects, according to entomologists, who add that only a few thousand are pests.

Provocation Of Red Coup In Czechoslovakia Is Denied

WASHINGTON, March 16. (U.P.) —The State department said today there is "no basis" for Henry A. Wallace's charges that the United States ambassador to Czechoslovakia provoked he Communist coup.

The Wallace charges was made at a press conference in New York yesterday. He said U. S. Ambassador Laurence A. Steinhardt provoked Czech Communists by becoming involved in a "rightist" plan for a similar coup.

"There is no basis for any such charges." State department spokesman Michael J. McDermott told a press conference. "We know nothing about it."

McDermott said that Steinhardt was in the United States during December, January and part of February. He did not return to Prague until 5 p. m. on February 19. The former Czech cabinet resigned on February 20.

"From then on, you know who was running things in Czechoslavakia," McDermott said.

Austin Man Succeeds Woods As Head Of Texas Odd Fellows

HOUSTON, March 16. (AP) — Texas Odd Fellows and Rebekahs today concluded their annual meetings with installation of new officers.

Frank R. Rundell, Austin, was elevated to grand master of the Grand Lodge of Texas, while Mrs. Gene Lawless, El Paso, became head of the Rebekah Assembly of Texas.

Rundell succeeds Clarence E. Woods, Lubbock. Mrs. Lawless succeeds Mrs. Louise Reinicke, Houston.

Other officers named at the Grand Lodge's 106th annual meeting were C. A. McLaughlin, Tyler, deputy grand master, and Ted Jasperson, McAllen, junior grand warden; secretary, S. M. Williams and treasurer, J. W. Bampton, both of Dallas, were reelected.

The Rebekahs, during their 54th annual convention, also elected Mrs. Bessie Carter, San Angelo, vice president, and Mrs. Mabel Patterson, Paris, warden.

Mrs. Maude Bussard, Houston, was elected to the home board, and Mrs. Vivian Killebrew, Paris, was named to the advisory board.

Lubbock, Texas, Wednesday, March 17, 1948

Former General Given Backing

By BO BYERS
Associated Press Staff Writer

AUSTIN, March 16—Gov. Beauford H. Jester and Bob Calvert, the two top leaders of the Texas Democratic party, today beat the drum for Dwight D. Eisenhower for president.

Neither Jester nor Calvert flatly endorsed Eisenhower for the Democratic party presidential nomination, but the implication was clear. Both indicated "Ike" is their personal choice, but they would not "speak for the party." Jester is the titular head of the state Democratic party. Calvert is chairman of the Texas Democratic executive committee.

Eisenhower Tops List

Said Jester at his press conference:

"I think Eisenhower on any ticket would be hard to lick."

He followed up with this strong boost for the former Army chief-of-staff:

"Eisenhower heading the Democratic ticket would immeasurably improve the chances of electing a Democratic president."

In Hillsboro, Calvert said he fully agreed with the governor that Gen. Eisenhower tops the list of potential Democratic presidential nominees.

Calvert Favors "Ike"

Commenting on Jester's statement, Calvert declared that Eisenhower is the strongest candidate that could be available to the Democratic party at the present time.

And Eisenhower must make an even stronger statement than he previously made about not running if he intends to stop all speculation in his direction, Calvert added.

He said he personally favors Eisenhower but will remain on record as advocating an uninstructed delegation from Texas to the national convention.

Third Leader Speaks

Asked his attitude toward a Texas delegation's being instructed for Eisenhower, the governor replied, "no comment."

Jester said he knows of no other man with "such potentialities" as those of Eisenhower.

A third prominent leader in the Texas Democratic party, Wright Morrow of Houston, said earlier in the day he is for a national convention delegation uninstructed as to candidates but instructed as to principles for which candidates must stand.

Strong Man Urged

Queried on his reaction to the statements of Calvert and Jester, Morrow said:

"I think Eisenhower has been regarded generally as a very

TODAY'S THE DAY FOR FAIRIES—GOOD, BAD AND IRISH

Irish-Americans Recall Old Memories

By JAMES P. HACKETT
Associated Press Staff Writer

For some 30,000,000 Americans of Irish extraction St. Patrick's Day means a brief, sentimental reunion with the colors, the folklore and the broguish language of their forefathers.

Their innate good will flows boisterously in all directions as they march along Fifth Avenue in New York or crowd around banquet tables in most of the nation's cities and towns.

Tears well in their eyes as eloquent Irish orators review the history of Erin. Their laughter rushes up from the pits of their stomachs to greet the jokes that are told. They listen with knowing nods to one another when they hear stories of the little people—the fairies that inhabit the Green Isle's hills.

For many Irish-Americans and non-Irish, fairies are lepricauns. The lepricaun, however, is just one of the fairies. He's the little shoemaker, the miser who has stored great wealth. Anyone who catches a lepricaun can make him deliver crocks of gold. But, catching him and holding him are two different matters. Take your eye off him for a second and he vanishes like smoke.

The lepricaun wears a red coat with two rows of seven buttons. On his head he sports a cocked hat. On its point he sometimes spins like a top. In one part of Ireland—Donegal—the lepricaun goes about in a great frieze coat.

There are two main groupings of fairies—the solitary ones and the sociable ones. The lepricaun is a solitary fairy.

Shake hands with the other solitary fairies:

The Cluricaun is a little guy who goes about at night robbing wine. Once he gets his fill he rushes into the fields to ride the backs of sheep and the shepherd's dogs. By morning the shepherd will find his sheep and dogs panting and covered with mud.

The Gonconer is a lady's man. He looks something like a lepricaun, but he's a ne'er do well. He has a fondness for milkmaids. But any young woman who finds her popular man and as having done a splendid job as Army chief of staff.

"I want to see a man nominated for president who will deal strongly with Russia. Kind or soft-self walking in a lonely valley may meet a gonconer. He smokes a pipe constantly. He'll try to make love as soon as he meets a girl.

The Far Darrig is a mean little cuss. He's a practical joker. And he's in league with the Devil himself. The Far Darrig's specialty is to preside over evil dreams.

The Pooka is worse than the Far Darrig. The Pooka loves to plague a drunkard. He'll appear as an elephant, a horse, a goat or some other animal. If he can get someone onto his back, he'll rush over ditches and rivers and up mountains until dawn. When it rains in Ireland while the sun is shining it's a sure sign the Pooka will be out that night.

The Dullahan is the messenger of death. He either has no head or he carries it under his arm. He drives a black coach drawn by headless horses. If he comes to your door and you open it, he'll throw a basin of blood into your face.

The Far Gorta is an emaciated fairy who begs for food. Give him something to eat and you'll have good luck.

★ ★ ★ ★ ★ ★ ★ ★ ★ ★

The Banshee is a sociable fairy grown solitary through sorrow. She wails over the death of any member of an Irish family.

The Leanhaun Shee is a fairy that seeks a man's love. If he refuses her, she is his slave. If he gives in, he is hers and can escape only if he finds someone to take his place. Her lovers waste away because she lives on their life.

The sociable fairies are of two kinds. They are the land fairies or the Sheoques, and the water fairies or Merrows.

The Sheoques live in fields or thorn bushes. They try to entice mortals into their midst with music. Anyone they catch may become a great musician or poet That is anyone who pleases them. To be disliked by the Sheoques means death in a year and a day.

The most colorful fairy is the Merrow. He sometimes comes out of the sea in the shape of a little hornless cow. But in his regular shape, he wears a red cap. He has green teeth, green hair, pig eyes and a red nose.

Those who believe in fairies must also accept the existence of Tir-nan-og, the land of the young, where happiness can be bought for a penny.

Shamrocks Prove To Be Scarce In City, Survey Discloses

Shure, and you would think there would be at least one Shamrock in the city . . .

But whether it was from a lack of demand, whether the demand had been too heavy or perhaps the Irish were confining their 'wearin' o' the green' to some other bit of finery, a survey of several stores in Lubbock late Tuesday revealed there was not one Shamrock to be found.

It long has been a custom among the Irish to break forth on this day o' days with a sprig of green, a bow of green, a tie of green, but preferably a Shamrock. The Shamrock is the traditional clover leaf long identified with the Irish.

Muleshoe To Conduct Show

MULESHOE, March 16 (Special)—The annual Muleshoe fat stock show for Future Farmers of America and 4-H club boys will be held here on Friday, March 19.

Fat barrows will dominate the show as far as numbers are concerned, with about 55 barrows to be shown in heavy and light divisions.

Bailey county boys have done well in shows at Amarillo and Fort Worth this year with their barrows. At Amarillo, all Bailey county swine shown finished in the money.

Plan High Premiums

High premiums again will be the rule in the local show. Top place calves in light and heavy divisions will win for their owners $35. Top barrows will bring premium money of $12.50. Business men of Muleshoe have already contributed the money to be paid in premiums. There will be no public auction of the animals following the show.

Many of the better calves and barrows will be taken to the Littlefield show Saturday and then to Lubbock for exhibition in the fat stock show beginning there Monday.

Area Manufacturers' Group To Meet Here

Tax, industrial relations and other problems of manufacturers will feature discussions at a dinner meeting sponsored by the South Plains chapter of the Texas Manufacturers association in the Hilton hotel at 7 o'clock Thursday night, Edgar Lewis, chairman, said Tuesday.

Speakers are to include Victor F. Grima, of Dallas, industrial relations manager of TMA, discussing, "A Pattern for Industrial Peace," and James E. Taylor, of Kerens, public relations director of the organization, whose topic will be, "State Finance."

Also expected to attend and speak is R. E. Clements of Amarillo, president of the Superior Manufacturing Co., and a director of both the state and national manufacturers' associations.

An invitation to "everyone interested" in the topics to be discussed to make reservations by calling Lewis at Lubbock Steel works was extended by the arrangements committee.

THIEVES COMPROMISE

PHILADELPHIA (U.P.) — The Germantown district of Philadelphia was thick with thieves. Detectives told Magistrate John C. Morlock that two thieves broke into a drug store to find another about to haul away his loot. A fight ensued. It became so noisy they were afraid neighbors would be awakened. They settled the dispute amicably by dividing the "take" three ways.

Cotton Exchange Names Officers For Year In Election In City

The "rightists" won, 36 to 10, over the "leftists" in Tuesday's first annual election of officers and directors of Lubbock Cotton exchange.

The "rightists" and "leftists" terms are used without further significance than the positions of the two rival tickets on the ballot sheets.

Others Also Named

On the right side of the ballot was this winning ticket:

C. L. Dean, president; M. C. Robertson, vice president; Don L. Mitchell, V. O. Gennings, G. W. Cochran, W. D. Massey, W. M. Ryan, R. S. Tapp, and Clarence Young, directors.

The losing ticket, on the left side of the page, was:

E. T. Kelly, president; C. L. Dean, vice president; and Don L. Mitchell, G. W. Cochran, K. N. Clapp, Fred Parham, P. E. Roddy, J. H. Shirley, and T. D. Stuart, directors.

The election was not like any other newsmen had reported here.

There were no advertised platforms.

Campaign pledges, if any, were discounted as little more than good-natured vapouring.

Everybody had a good time without getting serious.

To Take Office Today

The only thing disappointing about the campaign and election was the failure of Cotton Row, where a mutliple-million dollar cotton business is annually transacted, to agree that those supporting the losing ticket would play hosts at a dinner or something to the winners, cotton men said.

The exchange's members, totaling 61, live at Memphis, Tenn., Dallas, Lamesa, Levelland, Plainview, Shamrock, Abilene, Little-

Plans Are Pushed For Stock Show In City

The South Plains Junior Fat Stock show at the fairgrounds here Monday through Wednesday of next week will be substantially larger than last year, General Chairman Vernice Ford announced Tuesday after entry lists had been completed.

Twenty-four of the 29 South Plains and New Mexico counties in the area served by the show are represented among the 601 animals entered, the final tabulations showed. The entries were an increase over the 564 contenders last year despite a sharp reduction in the number of lambs.

The biggest increase is in the pig division, where 341 entries for the approaching show compare with 295 last year. In the calf department, 216 entries have been received this year as compared with 201 in the 1947 show. In the lamb division, the figures are 44 and 68.

U. S. Reaching Point Where Oil Demands May Surpass Supply

WASHINGTON, March 16 (AP)—The United States is fast reaching the point where its supply of oil in the ground won't be enough to meet its needs.

Today's acute shortage may prove temporary. The petroleum industry could probably meet current demand if it could obtain the steel products to expand its activities in oil fields and refineries and distribution lines.

But by 1954 we shall be using daily about 7,000,000 barrels of oil—and it is unlikely that we can rely on a domestic output of more than 5,000,000 barrels a day. This is the estimate of W. C. Schroeder, chief of the office of synthetic liquid fuels of the Bureau of Mines.

Peak Production Seen

We probably shall never be able to produce much more oil than we are now, in the opinion of Interior Department fuels experts. There may be occasional upward spurts, but the general trend is likely to be downward, says Max W. Ball, director of the Oil and Gas division.

The reserve supply depends on the amount of new oil discovered each year—new fields and old fields found to contain more oil than previously estimated.

The total known present reserve amounts to only about 22,000,000,000 barrels.

At the current rate of production, 1,750,000,000 barrels a year, this would be used up in about 12 years if it could be drawn out of the ground as fast as you wanted it.

Only 244,434,000 barrels were discovered in 1946; in 1937 the oil explorers discovered 926,742,000 barrels. In 1947's first ten months 87.7 percent of the holes drilled were dry. Eighty-one percent were dry in 1944.

SOUR NOTE SOUNDED

NEW YORK (U.P.)—Oliver Simms, organist of the Day Star Baptist Church, arrived to find the keyboard cover of his organ had been screwed down by a faction trying to oust him. He got a screw driver, loosened the cover, and played a discord every time the minister tried to speak. Police were called to halt the ensuing scuffle.

Effects Of Fluoride Water To Be Studied By Health Service

A survey in Lubbock and Amarillo is being made by the U. S. Public Health service through the National Institute of Health to determine just what the physical effects of fluoride drinking water are, other than mottled teeth enamel.

Dr. S. J. McClure and Dr. H. B. McCauley arrived in Lubbock Tuesday, planning to x-ray the carpal bone—bone in the right hand—of different age groups of Lubbock school children. The carpal bone was chosen for the study because there are well established standards for the degree of carpal bone calcification in relation to the age of the child, it was explained.

Mimeographed forms were sent Tuesday to parents of a group of Dupre children, asking parents' consent for x-ray of the right hands of the children.

Children native born and living here continuously are chosen for the project. Some in other elementary schools are to be chosen later.

The plan is to x-ray the hands of about 200 to 250 children in the following age groups: 7 1-2 to 8 1-2; 9 1-2 to 10 1-2; 11 1-2 to 12 1-2, and 12-1-2 to 13 1-2.

The survey is being made under direction of H. Trendley Dean, dental director of the U. S. Public Health Service.

Edward Taylor, director of dental health of the Texas State Health department, is cooperating with the USPHA in the project.

Dr. McClure and Dr. McCauley are to remain about 10 days.

Additional Meetings On State's Water 'Problems' Are Planned

AUSTIN, March 16 (AP) — The water problems of East, South and Southwest Texas will be discussed at conferences to be called soon.

Gov. Beauford H. Jester said today the common watershed problems of rainfall, runoff and stream drainage will be studied as soon as coordinators can be named and conferences scheduled at Tyler, Waco, and Corpus Christi.

The Tyler meeting will draw representatives from 66 counties in the northeast and South Texas area.

Meeting Set At Waco

Forty-seven counties are included in the north central South Texas region which will send delegates to Waco, and 48 counties have similar problems to be investigated at the Corpus Christi conference.

Jester said a fourth meeting may be scheduled later to discuss the Gulf industrial area's water needs. A general statewide conference will follow these regional studies, he added.

One regional meeting was held recently at Big Spring to survey West Texas water problems.

The need for such conferences was indicated today when the United States geological survey reported stream flow 57 percent below normal in far West Texas, and 890 percent above the average in central East Texas for the month of February.

Projects Are Asked

The 57 percent figure in the El Paso area was the lowest stream flow ever recorded for February in that part of Texas.

To improve flood control and water conservation in Texas, the Texas Water Conservation association has requested the United States Senate to add two projects totalling $1,750,000 under the bill covering Texas rivers and harbors and flood control projects now before Congress.

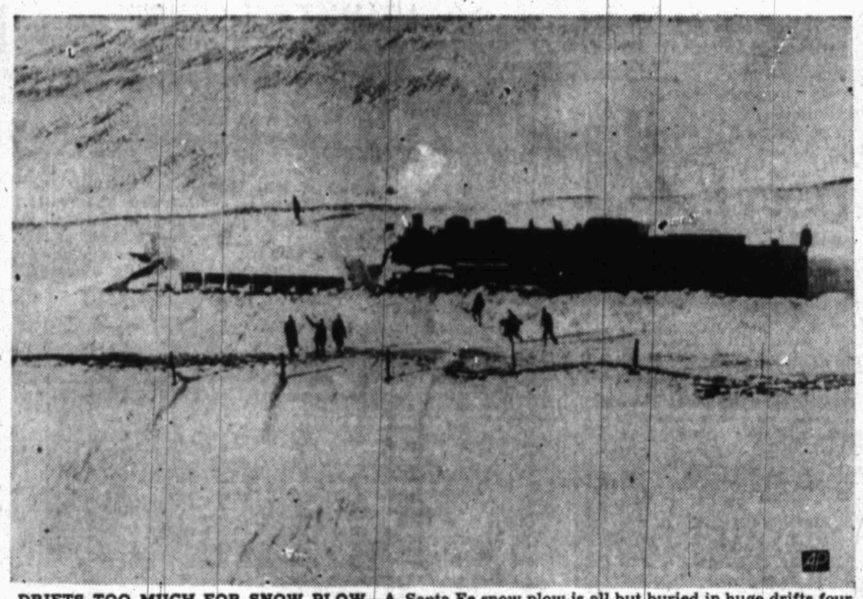

Officials of the association said today the request was presented yesterday by J. E. Sturrock, general manager, to the Senate subcommittee studying the bill.

Sturrock asked $750,000 to begin construction on the Garza-Little Elm reservoir (Trinity river system), and $1,000,000 for the Belton reservoir of the Brazos river system.

He also asked restoration of cuts made by the House in six other projects, Brazos island harbor (cut from $325,000 to $175,000); Texarkana reservoir (cut from $4,350,000 to $3,350,000); Benbrook reservoir Lavon reservoir, Grapevine reservoir, and Whitney reservoir (the latter cut from $5,175,000 to $4,000,000).

Waco Man Will Head State Baptist Group

DALLAS, March 16 (AP)—Dr Forrest Feezor of Waco today was appointed chairman of the State Baptist executive board, succeeding Dr. W. R. White, who has been elected president of Baylor university.

The appointment was made at a meeting of the board here today.

Dr. White officially tendered his resignation today although it actually went into effect when he was elected president of Baylor.

At its business session the board also approved the expenditure of $100,000 for a Baptist student center at Austin, in connection with the University Baptist church there, and $50,000 for a similar center at Texas A. & M. college.

Dr. White spoke on "My Country Abroad" at a noon meeting of the Kiwanis club. He emphasized the need for fairness and, at the same time, firmness in our relationship with other countries, especially those whose ideologies are different.

"We have a choice between the service and savagry of science," he said. "We can be a 'big brother' or a 'big bully.'"

Bomb Squadron To Fly Again At Lubbock Field This Week

Capt. Cecil E. Jennings, assistant operations officer, announced Tuesday that members of the 707th Bomb squadron of the Air Force reserve will fly again at Lubbock Army Air field on Friday, Saturday and Sunday.

Six Planes from Hensley field, Dallas, will fly to Lubbock for use of the reservists, Jennings said. They will be AT-6 and AT-11 model planes.

All members of the squadron eligible for flight training were urged to call Capt. Jennings at 6632 for flight reservations.

A meeting of the squadron will be conducted in the courthouse at 7:30 o'clock Thursday night to complete plans for the flight training, Jennings said.

One Of O'Daniel's Original Backers To Support Peddy

DALLAS, March 16 (AP)—Carr P. Collins of Dallas, one of W. Lee O'Daniel's original political supporters, called today for the senator's defeat.

Collins said in a statement that he would throw his full support to George Peddy, Houston lawyer and veteran of two World Wars, in the coming Senate campaign.

Collins was prominent in the first O'Daniel campaign for governor in 1938.

O'Daniel has made no announcement, but it is generally assumed that he will be a candidate.

"O'Daniel's position in the United States Senate has much to do with our foreign relations and he has repeatedly shown he is an isolationist in an extreme sense," Collins said.

"I don't think a man of that viewpoint can properly represent Texas under present conditions."

Collins said he had informed Peddy of his active support.

"Colonel Peddy appears to be the only candidate who has a proper conception of world conditions today and the United States' relation to those conditions," Collins said.

Beware Coughs Following Flu

After the flu is over and gone, the cough that follows may develop into chronic bronchitis if neglected. Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

ON THE POLL TAX:

A Fraudulent Attack

DURING discussions attending the President's "civil rights program," nothing has been more absurd, nor further from fact, than the implications that the poll taxes levied in seven Southern states, including Texas, discriminate against negroes, or people of any other race or creed.

This misapprehension is one which unquestionably has been encouraged deliberately by many of the supporters of anti-poll tax legislation. They encourage the idea, which is widespread in the North and East, that it is more difficult for some racial groups, particularly negroes, to get poll tax receipts in the South than for others.

Actually, no such condition exists. Poll tax laws do not discriminate against any group, race or creed. Exactly the same qualifications apply to all persons, regardless of color, or of religious beliefs. A negro can get a poll tax receipt, or an exemption certificate, just as easily, and under exactly the same conditions, as a white person.

A poll tax is not a discriminatory measure. It is strictly a revenue device. In Texas, $1 of the $1.75 tax goes to public schools. It is one of the most important sources of school revenues. Some states use portions of that tax to pay old age pensions. All allot some portions of the money to schools.

The pretense that the average citizen —white or negro—can't afford such a tax is ridiculous. Anyone knows from personal experience that persons are extremely few who are of such limited means they could not scrape $1.75 together once a year for the privilege of voting, if they really wished.

If a citizen opposes the poll tax because he believes the right of franchise should not be subject to tax, he has grounds for argument.

If he argues that the poll tax should be done away by action of the majority of the citizens of the state in question—rather than by action of back-seat drivers in states unaffected—he has even better grounds for argument.

But:

There is no color, or religious, line involved in the poll tax. Those who pretend otherwise either are incredibly ignorant, or they attempt to practice a deliberate fraud.

Why A Delay?

UNLESS the proposition contains hidden objections, it is difficult to see why Congress could delay approval of a proposed research program into the foot and mouth disease.

This contagion is one of the worst threats which hang constantly over the livestock industry. It can and has wiped out vast cattle herds, practically overnight. The feared spread of the disease from Mexico recently has provided one of the most serious crises the industry has faced in years. Science knows little about it.

Systematic research cannot be started too soon. If the proposed program would attack the problem in that manner, Congress should get it under way without loss of time.

I have lived to be 100 because I have always eaten as much of anything I liked whenever I wanted to," a centenarian told reporters. If there aren't less expensive ways of becoming a centenarian, we'll never be one.

At age 68 an officeholder says he is too old to seek reelection. He is a rare exception. The age at which the average politician becomes too old to seek reelection is the one carved on his tombstone.

"The late, famed dodo bird died of stupidity sometime in the 17th century." If stupidity brings about extinction, how can it be explained that the earth is cluttered up with millions of people?

A man swallowed a thousand yards of string the other day. It was not stated in the news story whether he mistook the string for midget spaghetti, or if he is slightly eccentric.

"These days and times, politicians would play politics in hell!" snorts a columnist. Yes, and a lot of them will some day have the opportunity of doing so.

If we are so all-fired ingenius in this country, why can't we arrange to have prosperity without inflation?

Murder At My House

XXXII

IT didn't need Madge's startled "Mother!" to complete the picture. It was there for all to see as the revealing lights beat down on them—the same honey brown hair, the same light golden eyes, the same incredibly fine white skin of mother and daughter. Their identity of coloring which had made me feel that I had already seen Madge Narney somewhere the very first time I laid eyes upon her. The day I came directly from my appointment with Ravella to Sound Set Three where Madge was playing the part of the secretary.

"I wouldn't want you to use a dead woman's lipstick . . ." Ravella was saying hoarsely.

"No, I guess you wouldn't. Not that particular dead woman's lipstick, anyway," Bob Leiphan said and stepped out into the glare of the lights. It was then we knew how great an actress Rachel Ravella would have been. For a fleeting second terror tortured her face, and then it was gone and the mask of composure that was her professional face slipped into place. She turned and walked toward Leiphan—she met him half way across the stage. Her voice was low but clear. "I'll go with you," she said. "I'll go with you. Only, please, no scene here. . . ."

That was what fooled Bob. Her composure. He was unprepared for the capsule of poison she slipped out of her purse and swallowed on the way downtown. She was dead when they reached the hospital.

• • •

I DON'T know how long Ravella had been carrying that capsule of poison with her. Maybe from the beginning for she must have known that the poisoned lipstick was a menace to her. Maybe from the day she learned that I had gone back to her shop for a refill for my own lipstick and it had seemed to her guilty conscience that I must know something. When she had decided that it was necessary to kill me.

Most certainly she had carried it with her from the moment when she read in the newspapers of Marie Maloney's death—from poison. She knew then it was only a matter of time until the police would have the poisoned lipstick in their possession, and she knew its analysis would point [illegible] her. For after all atropin sulfate, commonly called belladonna, is a common stock-in-trade with any cosmetician who manufactures eye wash. What Ravella couldn't have known about was the mass of evidence that had piled up against me—because I had possessed the same poison.

There were still a couple of puzzling points about the crime when we gathered in Bob Leiphan's office at headquarters and talked it over. One was why Ravella had reacted so violently to Jeff's decision to bleach Madge's hair and use her as a double for Avis. We had guessed sketchily at something like the reality but only Madge was able to fill in the details.

"The same thing happened to Mother, when she was young," Madge said through her tears. "She was just an extra at Massive studios when Lila Hampden died —remember? There were only a few scenes of Lila's last picture uncompleted and the studio wanted to finish it. Someone discovered how much Mother looked like Lila and they faked the rest of the picture with her. She was thrilled—she thought it meant stardom. Instead of that it was the end of her film career. No studio wanted to use her after that—the girl who looked like a dead star. You know Hollywood, always looking for someone new, someone different.

• • •

"MOTHER made up her mind then that I should have the chance she had missed. She spent her life and all the money she made preparing me to be a star. She even kept [illegible] secret at the studio because she didn't think it would help my chances to be known as the daughter of the head of the make-up department. I don't think anybody knew about us, only Jimmy Peters. He met Mother at our house one night.

"When I told Mother that Mr. Haverson was going to take the part of the secretary away from me and have me play a double role for Avis—she acted like a crazy woman. She said it would not happen to me, the same thing that had happened to her. She said she would not let it happen!"

Madge looked blindly in my direction. "That was why I came to see you, Miss Donn. I—I thought mother must have been there, too, that evening. I thought she must have done something to have caused what happened. It was too obvious, Avis dying immediately like that. . . ."

The other missing sequence I supplied. The reason Art Cleves had died. "They sat there in his parked car below my window a long time . . . making love, I suppose. And of course, Avis would put on fresh lipstick afterward. In the dark she took out her new lipstick instead of the one she had used earlier. And then Art must have kissed her again."

"There was enough atropin sulfate in that lipstick to have killed half a dozen people," Bob Leiphan said.

It was Jeff, of course, who persuaded Madge that she should go on as the star of my picture, regardless of what had happened. It was even her duty to go on, Jeff insisted, since her mother had literally given her own life to give Madge this chance.

"And that's the end of that," Bob Leiphan remarked when the others had left us alone.

And then he looked at me. He came across the room and took me in his arms. And for us it was the beginning.

THE END

LETTERS TO THE EDITOR

Hospital Tax Exemption Upheld

Editor, The Avalanche: That public attention has been directed to the greatly discussed question of the Lubbock hospital shortage in your Sunday editorial "Will Action Follow?" is a matter of great satisfaction to the people at large. Capt. Vincel Larsen and The Avalanche-Journal have both done Lubbock a public service in bringing forcefully to the attention of our residents the local shortage of hospital facilities and practicing physicians alike. No one can also deny that at present there are no adequate provisions made for hospital and medical care for charity cases.

However, it is unfortunate that by statement and implication, the captain and The Avalanche-Journal have foisted a large share of the responsibility for this situation upon the existing hospitals of Lubbock. Statements have been made which are contrary to the facts, and misrepresentations. One of the responsibilities incurred by any public speaker or newspaper is to make sure that charges made to the public jibe with the known facts before they are released as truth.

You make much of the fact that a "non-profit" institution such as St. Mary's hospital accepts no more responsibility for charity cases than its privately-owned competitor which does pay taxes. It goes on to say that this institution is "not a charity institution in any sense of the word." does not pay taxes, and "does a capacity business at rates higher than the average charged in Lubbock and over Texas."

Misconception Claimed

This statement not only evidences a misconception as to what a "non-profit" institution is, but completely misrepresents the facts. Your assertions that St. Mary's rates are "higher than the average" in Texas and that St. Mary's has a cost of $18.37 per patient per day are in error. The actual fact is that St. Mary's has an average cost per diem per patient (all patients) of $10.67, according to the last computation made, embracing 1946-1947.

As to the statement that St. Mary's is not a "charity institution in any sense of the word," it would seem that a "charity institution" is one that practices charity. That St. Mary's has done steadfastly in the past and will continue to do in the future. Its records show that hundreds of dollars worth of charity have been dispensed every month to those unable to pay, at times running to over $1,000 a month. In January of this year, for example, charity hospitalization totalling $424.16 was handled, and in February, $914.80. One homeless baby was hospitalized and treated free of charge for a period of five months.

Finally, it should be clearly understood that a "non-profit" institution is one that does not pay taxes because no group of individuals profit from the organization, but whatever profits accrue are, as it were, "plowed back" into the institution, and not handed over to the bank account of any individual.

Certainly St. Mary's with a capacity of only 40 beds cannot assume responsibility for all the indigent in a city of Lubbock's size; it can only do what it has done in the past—handle those it can while still keeping on an operating basis. The problem of providing adequate hospital care for the indigent is a grave and pressing one in Lubbock, but it will not be solved by a baseless attack upon an institution that is doing what it can to meet the problem. Rather should the blame for the lack of proper facilities be placed where it belongs, and as Captain Larsen suggested, "the people of Lubbock by their votes (should) order them to do something about the situation."

Sincerely,
(Rev.) William F. Blakeslee,
St. Elizabeth's Catholic church.

(Dear Father Blakeslee: Thanks for making available to us your thoughts in connection with our Sunday editorial. Shedding light on both sides of any public question is good for all concerned. There was nothing in our editorial which claimed that St. Mary's does no charity work. I'm sorry if you, or others, read that into the comment. I was aware that St. Mary's has always cared for some charity patients along with both other hospitals, which also do. The difference of opinion between you and me in this particular is that I am opposed to tax exemption of any and all church properties except those properties actually used in worship; any and all lodge properties save those used in actual lodge operations; any and all buildings save those of a purely public nature, such as public schools, city halls, courthouses, etc. Cordially yours, The Editor.)

AGAINST FBI, COURT

GOP Launches Attack

BY RAY TUCKER
Special Correspondent

WASHINGTON — Two federal institutions ordinarily immune from partisan attack have drawn fire on Capitol Hill because of Republican leaders' belief that they have engaged in politics in this turbulent presidential year. They are the Supreme Court of the United States and the Federal Bureau of Investigation. They may soon figure in an old-fashioned, knock-down, drag out battle on the House floor.

Chief Justice Fred Vinson's black-gowned family has been criticized because of its handling of a case involving anti-segregation clauses in real estate covenants. Several petitioners have asked that they be declared unconstitutional and that the high tribunal order government agencies to eliminate them from rental, lease or sale documents.

TUCKER

The argument on this politically controversial subject was heard by the court more than two years ago, and, as it simply involved a review of lower bodies' rulings, in the normal routine Mr. Vinson's unit would have reached a decision by now. Several more involved cases have been argued and settled since the segregation matter was considered.

• • •

POLITICAL: In view of the southern revolt over President Truman's civil rights program, politically minded G.O.P.-ers maintain that the Supreme Court is deliberately stalling on this issue.

They predict that there will be no action until after the November election, or certainly until after the Philadelphia convention. They point out that an anti-segregation decision in the midst of the Dixie uprising might prove disastrous to the President.

Lest these partisan shots at the highest court in the land shock the public, it must be noted that this institution does not command the same respect that it did before F.D.R.'s court-packing bill and his subsequent appointments. Every Roosevelt and Truman appointee has had a lengthy background of practical politics and was named to the tribunal direct from a political post.

Anyway, G.O.P. orators are preparing speeches which will ask the embarrassing question: "How long is the Supreme Court going to pigeonhole this important, anti-segregation question?"

The Republican strategists admit frankly that it is political rather than judiciary curiosity which impels them to propound that embarrassing query.

• • •

ROLE: J. Edgar Hoover's F.B.I. has already been raked over the senatorial coals for the alleged aid it gave the Administration in whitewashing Kansas City election frauds committed by the Pendergast machine which gave President Truman his start in public life.

Attorney General Tom Clark has admitted that his investigators simply interviewed Kansas City Star reporters who had uncovered the alleged defiling of the ballot box. Now that the votes have been stolen from the local courthouse, there is no evidence on which to indict the guilty.

In an attempt to exonerate Mr. Clark and Mr. Hoover, a subordinate has assumed full responsibility for any official negligence. He is Edward Tamm, Mr. Hoover's No. 3 man, who had charge of the vote inquiry. He has since been nominated by President Truman for the federal bench in the District of Columbia, to the amazement of Democratic politicians and lawyers.

The appointment has been opposed almost unanimously by the D. C. Bar Association. And his role in the election fraud inquiry has so far prevented the Senate Judiciary committee from reporting favorably on his nomination.

• • •

GANGSTERS: The parole of four Capone gangsters has also threatened to make the Department of Justice an issue in the coming campaign. The parole was made possible only after the government's request for dismissal of a mail frauds indictment over the protest of the former U. S. Attorney who obtained the true bill.

Although Attorney General Clark says that he did not discuss the matter with the U. S. Parole Board, members of that body are appointed by him. The parolers now admit that they may have acted hastily in giving the gangsters their freedom.

In both of these sallies, the Republicans are hitting at President Truman. Although they may not be able to make their charges stick against the S. C. or F.B.I., they aim to create the same sort of impression that the Democrats stirred up when Harry Daugherty headed the Department of Justice under Presidents Harding and Coolidge—namely, that there is something politically and basically wrong with the two institutions.

• • •

COAL: John L. Lewis will not call a nationwide coal strike when his present contract expires on June 30, although he has certified to the operators that a dispute exists over detailed administration of the pension fund for incapacitated miners or families of casualties. (Many miners have walked out over this particular point, however.)

It is not generally known, but the present contract provides for pensions for retired workers and for the families of men killed at their work, to be paid out of the ten-cent-a-ton royalty. Only matters in disagreement are of an actuarial nature, and it is expected that they will be worked out without too great difficulty. In fact, it is not believed that any increase in the royalty will be necessary.

Already the survivors of mine victims have begun to benefit from the retirement fund. Widows receive immediately a check for $1,000, which is in addition to state compensation and payments due under federal Social Security. Letters of gratitude received almost daily by John L. show that his people regard these benefits as one of the greatest victories he has won for them as head of the United Mine Workers.

• • •

DEFAULT: "A few years ago," writes W.T.N. of Casper, Wyo., "some Congressman reported that about six billion dollars had been borrowed by South American countries from the United States. Were such loans made by the government or by private investors? Has anything been done toward liquidating them?"

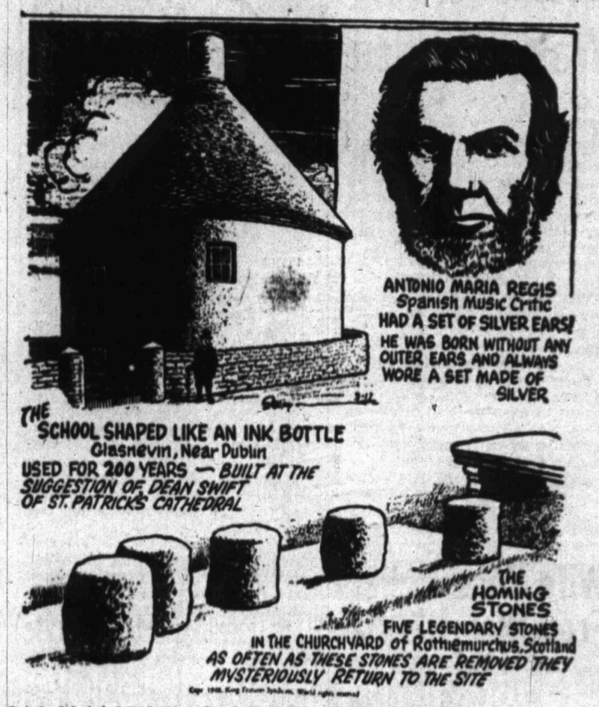

Answer: Those were private loans by some of New York's leading banking houses. During the Johnson investigation of foreign lending, it was charged that the money was foisted on South American governments as a bribe for certain favors, principally oil concessions.

I am informed that these loans are still in default. Thousands of small investors throughout the United States still hold worthless pieces of paper as a result of these 1920-1930 deals in high, international finance.

You can tell an old-time baseball fan. He doesn't think any of the modern players are as good as the favorite star of his youth.

The cave dwellers should have been happy. There was no wallpaper for which the children to leave their fingerprints.

Believe It Or Not-By Robert Ripley

ON HANDLING OF UN MEETINGS

Voice Of People Has Its Say

By THOMAS L. STOKES
Special Correspondent

WASHINGTON — Byron Price started this, or rather some very pertinent things he said that were quoted here recently.

Which opens the way to transmit a message from a farm woman in Iowa provoked by what he said back to the United Nations and to our diplomats and politicians. Byron Price is a part of the United Nations as its business manager or, by proper title, assistant secretary general for administrative and financial services. He also was a newspaperman for many years, and all this has too do with newspapers, too.

STOKES

But for the story. It begins with an address here recently by Mr. Price on the work of the United Nations. In it he said: "These are critical and possibly decisive days for the United Nations" — and concluded that it is up to the people of the world, who were responsible for creating it, to save the UN and make it what it ought to be.

• • •

Speaks For Others

The story now jumps out to the woman who lives on a farm in Iowa. She read excerpts of his speech carried in this column and sat down and wrote a most interesting letter. She unquestionably speaks for millions of people, men and women.

"The heading of your column today 'People not politicians must make the UN succeed', will undoubtedly impress itself on a great many minds of your readers just as it impressed me, but it will be forgotten in a few days or weeks in the press of everyday living," she wrote.

• • •

Digressing a bit, she then goes on:

"I know very few families in the Middle West who fail to take a daily newspaper. The newspapers plus two or three radio newscasts a day keep them pretty well informed on what is going on in the world. We also have a pretty good idea of the character and personalities of the people running our country and the world in general."

"However," she says, "I believe some of our politicians still live in the world of the past, as if," she adds, "there were no radios, few newspapers, and an uninformed public to be swayed by a fiery speech and baby kissing, but that is another story."

"To get back to the UN," she continues, "I do not think the newspapers or radio give the UN good coverage. The people do not know what goes on from day to day. If there is a good fight concerning Russia, Palestine, etc., the publicity goes to the sensationalism, not the everyday routine.

"Why couldn't the UN be covered by newmen and reported on in an interesting and, enlightening way? Surely no part of an organization for maintaining peace is uninteresting. The discussions, the fine personalities and otherwise, the great issues surely can be presented for daily reading. Each day must hold any number of great stories.

• • •

Can Speak Through Vote

"Most of us sit back and think 'we can't do anything about it.' We have to leave the government to the politicians, but we can vote occasionally to show our feelings. If the UN is an organization of the people, give it to the people in a daily diet. What the people would do with it might be a pleasant surprise, that is, if all the gilt, traditionalism, and great powers surrounding the UN could be broken through.

"I am not taking issue with you. It just seems to me this thought is a seed that could really grow if it were put into the hands of the right person who might know where to plant it.

• • •

"I am one of those 'what can I do' little people, a farmer's wife with a seven-year-old son. Having a son calls for a little future planning. Plenty of other women are waiting for a chance to do something, but very few of us have any idea what to do."

This feeling of helplessness and futility is widespread and also the vague fear of war, judging from the mail and other signs. It should say something to our leaders, world and national, and to our newspaper publishers and editors.

Gentlemen—the witness is yours.

Actress Bounces Off Glass In Movie Scene; Star Hurt

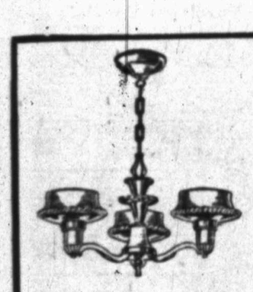

HOLLYWOOD, March 16. (AP)—To paraphrase the old saw, people who work in studios shouldn't try to throw blondes through glass windows.

Actor Glen Strange, playing the monster in a "Frankenstein" film, was only following the script when he attempted this today. But the window frame didn't break, and Actress Lenore Aubert bounced back into his arms. Strange fell and broke a bone in his foot.

DEFIANT CZECH REFUGEES ENTRAIN FOR DP CAMP—Czechoslovakian men and women who fled their Communist-dominated country stand at the doors and windows of a train at Moschendorf in the U. S. zone of Germany, on March 12, as they prepare to leave for displaced persons camp at Schwabach. The side of the train has a caricature of a Czech policeman with the inscription: "Yet we escaped." Another slogan reads: "Totalitarism will be beaten." These Czechs evaded border patrols to enter Germany. (AP Wirephoto).

MARKET IN SHARP SLUMP

NEW YORK, March 16. (AP)—Foreign and domestic news put a chill on today's market and leaders suffered their sharpest and fastest spill since early February.

Offerings, relatively heavy in the forenoon, tapered later and recoveries cropped up here and there. Prices again skidded in the final hour and many pivotals finished down 1 to around 3 points.

Transfers of 940,000 shares compared with 890,000 Monday.

Liquidation was blamed mainly on growing talk, spreading labor disputes and skepticism regarding the business outlook.

Numerous customers trimmed or shelved accounts pending tomorrow's congressional address of the President.

The Associated Press 60-stock composite was off .9 of a point at 60.5, widest reaction since Feb. 10. The industrial average lost 1.1 points at 83.3, a bottom for the year. Of 1,031 issues registering, 780 fell and only 94 advanced.

Lows for 1948 were touched by U. S. Steel, General Motors, Goodrich, Montgomery Ward, Illinois Central, Baltimore and Ohio, and American Telephone.

Coca-Cola conceded 3 points at 160. Down 1 to 2 or so were Bethlehem Steel at 30½, Chrysler 53⅝, Studebaker 16⅝, Phelps Dodge 41⅝, Twentieth Century-Fox 20⅛, Mission Corp., 49¾, Southern Pacific 46½ and Northern Pacific 18. Railway bonds backed away.

Cotton

NEW YORK REPORT

NEW YORK, March 16 (AP) — Cotton futures turned firm today, following initial weakness, as mill buying and scattered outside demand met only limited offerings.

Early liquidation was prompted by the issuance of 131 additional March transferrable notices, prior to expiration of trading in that month at noon today. Nervousness over the foreign situation also accounted for some selling.

The March, 1948, contract expired at traded prices of 33.98 and 33.67 cents a pound, or 40 cents a bale higher to $1.15 lower.

Buying in the new crop deliveries was attracted by lateness in crop preparations and the belief among some traders that this might curtail expected cotton acreage in some areas this year.

Cotton closed very steady.

Grain

CHICAGO REPORT

CHICAGO, March 16 (AP) — Moderate gains were made in the grain future pits at the board of trade today. Buying, said to reflect removal of hedges against sales of cash grain to the government strengthened the market after an irregular start.

Later profit cashing reduced the day's best prices.

Wheat closed ¾ to 3½ cents higher than the previous finish, May $2.41½-¾. Corn was ⅜ lower to 1 cent higher, May $2.20¼-½. Oats were 1½ lower to 1½ higher, May $1.13⅜-½.

FORT WORTH REPORT

FORT WORTH, March 16 (AP) — Wheat No. 1 hard 2.54½-62½.
Barley No. 2, 2.09-12.
Oats No. 2 white 1.46½-47½.
Corn No. 2 yellow 2.54¼-56¼; No. 2 white 2.97¼-99¼.
Sorghums No. 2 yellow milo per 100 lbs. 3.85-90.

Retiring officers, named last year in conection with chartering of the non-profit organization, are: Mitchell, president; Perry J. Leverett, vice president; Jennings, secretary-treasurer, and the following directors: L. D. Stevens, J. B. Booth, Frank Bass, T. D. Stuart, J. R. Bragg, Parham, Mitchell, Jennings, and Leverett.

The new ticket will take office Wednesday, in accordance with exchange by-laws, Mitchell said.

The nominating committee for the winning ticket was composed of B. Raines, chairman, Kelly and Watson Carlock. The losing ticket's nominating committee was made up of Massey as chairman, Robertson and J. B. Marion.

Pacific Coast Rail Line Is Strategic Link With Arctic

VANCOUVER, B. C., March 16 (UP)—The Pacific Great Eastern Railroad is a white elephant. It has cost British Columbia taxpayers nearly $100,000,000 since it was born in 1912.

However, the 45-mile railroad connecting Vancouver with Quesnel, B. C., may become one of great strategic interest in the Pacific Northwest.

If present plans go through, the PGE may become a vital land link between Seattle and Alaska. It would shorten by 1,000 miles the Alcan overland route between Washington State and Alaska.

The event which has brought the PGE into the forefront of interest is discovery of large deposits of anthracite coal at Prince George, a $5 bus ride from Quesnel.

Deposits Called Large

Provincial mining officials say the extent of the deposits may be judged from estimates that they will be able to provide 1,000,000 tons of coal annually for an unspecified number of years.

Negotiations are now nearing the final stage between the British Columbia and Canadian federal governments for extending PGE into the coal area.

That means running the railroad nearer to Alaska. The Pacific Northwest wants a railway through to Alaska. The British Columbia government has had nibbles from American interests to make use of the PGE as part of a connection with Fairbanks, Alaska.

Officials said if the PGE was extended to Prince George it would provide American interests with a suitable starting point for the Alaskan extension—running along the so-called Rocky Mountain Trench up through the Northwest Territory, the Yukon and into Alaska.

American interests headed by the Canadian-American Railroad Development Company, incorporated in Delaware two years ago, reportedly have put forward a $200,000,000 development plan for the extension of the PGE.

Sen. Warren G. Magnuson, D., Wash., has said the U. S. War Department has authorized him to express "its entire willingness toward construction of such a railroad."

If the Prince George links goes through, however, it will be a boon to the Pacific Northwest. It will make it possible for trucks to leave Seattle for Vancouver, be hauled by rail to Prince George and from there speed along the "Little Alaska Highway," to be opened to traffic this year to Dawson Creek, on the Alcan, and then on to Alaska.

Oklahoma Woman Puts Cash In Trash Box, Found At Dump

OKLAHOMA CITY, March 16 (UP)—Mrs. P. C. Smith was ready to believe in miracles after garbage collectors hauled off $800 she had placed temporarily in a trash box in the Smith grocery store.

Then, forgetting the money, she helped garbage collectors haul the box out of the store.

An hour later she remembered, and her husband dashed after the garbage truck. He enlisted five workers to help him at the city dump and after an hour's search, the money turned up. Smith took home the $800 minus the $5 bills he gave to each helper.

SUGAR BEET RECORD SET

TOPPERNSH, Wash. (UP) — Sugar beet production in Washington during 1947 broke all previous annual records. The harvest from approximately 18,000 acres of beets showed an average yield of 22 tons per acre.

FORRESTAL REPORTS TO HST

Joint Chiefs Of Staff Reach Agreement On Defense Duties

WASHINGTON, March 16 (U.P.)—Defense Secretary James Forrestal said today the joint chiefs of staff have reached "general accord" on plans for the nation's defense.

Forrestal and the joint chiefs of staff met at Key West, Fla., last weekend.

"General accord was reached . . . and a number of basic discusions affecting the assigned functions, duties and responsibilities of the three services were reached during the meetings," Forrestal said in a statement.

Military Attitude Secret

He said the joint chiefs discussed their disagreements over "who does what with what weapon," under the unification act.

He said they reached major decisions right down the line.

"The substance of these decisions will be made public when they have been formalized . . . and approved by the President," Forrestal said.

Forrestal said he reported orally to Mr. Truman last night on the Florida conference.

Informed defense quarters said the entire attitude of the military toward the changing defense picture is being kept secret until after President Truman addresses Congress tomorrow on the foreign situation.

Universal Training Planned

Other defense sources said the Army is considering the possibility of asking Congress to revive the draft. This proposal reportedly would involve drafting only those youths between 18 and 25 who did not serve in World War II.

The army also is planning to push its urgent request for universal military training.

No official army statement on these questions is expected until after the President makes his foreign policy speech.

Ransom Demand For Marines Reported

SHANGHAI, March 16 (AP)—An American source said today the Communists want $120,000 ransom for four marines captured last Christmas, but the U. S. embassy in Nanking said it had no information on the report.

The marines were seized in Shantung province while on a hunting trip not far from Tsingtao, U. S. naval anchorage.

Navy sources here said they could neither confirm nor deny the ransom story.

It was reported authoritatively that the marines and the navy have had a number of additional meetings with a Communist gobetween on the beach near Redheld Haiyang, 60 miles northeast of Tsingtao.

It was at one of these meetings, the American informant said, that the Communists put a price of $30,000 each on the marines.

Full Pardons Are Granted Three Men By Gov. Jester

AUSTIN, March 16 (AP) — Gov. Beauford H. Jester today granted full pardons to three men, two of whom served sentences on convictions of rape and the third on conviction of incest.

The full pardons also carry restoration of citizenship. The clemencies were granted the following men:

I. R. White—sentenced to 15 years for rape in Dallas county in 1938 and released on reprieve in 1942.

Warren Owings—sentenced to 10 years for incest in Jones county in 1937 and discharged from prison in 1944.

Ray Proffitt — sentenced to 10 years for rape in Travis county in 1940 and discharged from prison in 1947.

A conditional pardon was granted to Julian R. Fernandez, sentenced to 20 years for murder in Bexar county in 1945.
