Caudle Taken Off OPA Case By Tom Clark

WASHINGTON, Sept. 18 (AP)—T. Lamar Caudle testified today that Tom Clark ordered him to drop prosecution of an OPA case against a North Carolina lumber dealer in 1944 after the lumber man retained Clyde R. Hoey as his attorney.

At that time, Caudle was the district U. S. attorney in North Carolina.

Clark, now a justice of the Supreme Court, was the chief of the Justice Department's Criminal Division.

Hoey, now a senator, was North Carolina Democratic national committeeman, and had just won his party's nomination to the Senate.

In the witness chair of a House Judiciary Committee investigating the Justice Department, Caudle said his own view was that the facts of the case did not warrant its going to a grand jury.

However, attorneys for the then Office of Price Administration "believed they had a strong case," he said.

Caudle related that a price violation charge had been brought against T. C. Coxe of Wadesboro, N. C., Caudle's home town, on orders of Clark.

He said he advised Coxe's brother that he had been ordered to present the case to a grand jury.

Coxe retained Hoey, who telephoned him and said he would seek a conference with Clark.

And a few days later, Caudle said, orders to drop the case came directly from Clark by telephone.

"They concluded the facts of the case were not sufficient to present to a grand jury," Caudle said.

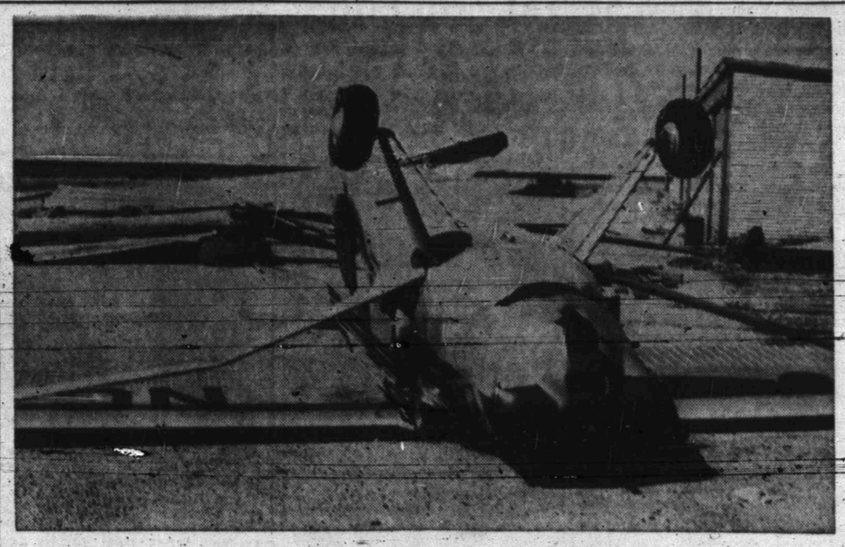

"Did you object?" asked Committee Counsel Robert A. Collier.

"I did not," replied Caudle. He added then that he reached the same conclusion himself although OPA attorneys "believed they had a strong case against Mr. Coxe."

Clark later became attorney general and brought Caudle to Washington as one of his assistant attorneys general.

Last November, President Truman fired Caudle on grounds his outside activities were incompatible with his official duties.

J. Howard McGrath, former attorney general who was himself ousted from the Truman administration last May, told the House group yesterday that Caudle was "wrongly treated."

PLANE UPSIDE DOWN HERE

This Luscomb plane was almost a total loss yesterday afternoon to M. W. Pilcher, employe of G. S. Taylor Drilling & Construction Co., when freak winds ripped the small hanger from around it and overturned the plane. Pilcher said that only the motor could be salvaged. Pictured in the background is debris from the hanger, which was owned by Sam Joyce. A Beechcraft Bonanza owned by the Odessa Natural Gasoline Co. was also toppled over the runway.

Rain Storm Destroys Aircraft and Buildings Yesterday Afternoon

Freak winds during yesterday afternoon's rain hit in a path along the west side of town, causing damages in about a two-mile long strip. The rain measured only .38 of an inch.

The winds hit at about 4:30 o'clock, striking first about one-quarter mile north of the Tumbleweed Courts and a mile west of the city limits at the home of Arthur (Booger Red) Townsend, then moving to strike at the Elmer Hansen Trailer Sales on the Lamesa Highway, and finally hitting at Winston Field, more than a mile due south.

At Townsend's home, the wind topped a sturdily constructed steel windmill tower and took the top off a barn. The tower fell toward the house, and the windmill wheel broke off in a large tree at the side. The tree caught the wheel between forks of limbs, where it remains.

LUCKY ESCAPE

Inside the house and directly under the tree was a bedroom where Mrs. Townsend was asleep in a bed when the mill fell. Only the tree saved the windmill from crashing into the house.

Mrs. Townsend, bedfast since the first of the year, said "God must not want me yet; he has been trying all year but still hasn't taken me."

The wind lifted the tin roof and rafters off a barn just a few yards behind Townsend's house and scattered debris in a line from there to almost a half mile away, with several pieces of tin landing about 200 feet from radio station KSNY.

CARS NOT DAMAGED

Inside Townsend's barn were a 1951 Lincoln car and a trailer truck. Neither was damaged, except for a small dent on the left door of the car.

Although the wind easily uprooted the windmill tower, it did not move a water tank beside the tower which sits at the top of a tall, rickety wood tower. Also standing and undamaged was a tall standpipe water tank.

OFFICE DEMOLISHED

At the trailer sales lot, the wind demolished a small office building and damaged a 1950 Ford sedan and three trailers. The floor of the office was left on the site, along with a sofa and office furniture, which remained in the places where they were sitting. Hansen estimated damage at $2,000. No one was in the building when the wind struck.

At the airport, the wind overturned two small planes and demolished a small hangar.

One plane, a Beechcraft Bonanza owned by the Odessa Natural Gasoline Co., was sitting on the runway and was blown over. Earl Rodman of Odessa, pilot of the plane, called the damage "considerable."

RIPS HANGER

About 200 yards south of the plane on the runway, the wind ripped the tin sides off a small hangar owned by Sam Joyce and overturned a Luscomb craft owned by M. W. Pilcher, employe of G. S. Taylor Drilling & Construction Co. Pilcher said his plane, except for the engine, was a total loss. He estimated damage at $700.

The trail of debris near the Townsend home indicated that the wind was traveling in a southeasterly direction, but the line of damaged property at the three different sites would indicate its traveling due south. Some witnesses said they saw trees swinging in opposite directions, and that they believed the freak wind was a twister. However, no witness reported seeing such a twister.

Union Wants Hike Even Though Contract Is Good Until 1955

DETROIT (AP) — Bound by contract until 1955, the CIO United Auto Workers are asking General Motors to go beyond their historic cost-of-living pact and grant immediate wage and pension benefits.

If G. M., the industry's pattern setter for years, agrees, the union presumably will ask Ford, Chrysler and other auto companies with similar contracts to do likewise.

The UAW disclosed yesterday that informal discussions on the subject, as secret at the contract negotiations themselves, have been held recently. But the talks reportedly have been brief so far. General Motors declined comment on their nature.

The union's National General Motors Council, representing some 350,000 G. M. workers throughout the country, touched off the drive for contract improvements.

Emphasizing that it was not attempting to reopen the non-reopenable contract, the council said additional benefits were needed to bring the contract, signed in pre-Korean May, 1950, abreast of current living conditions. So it adopted a resolution asking the industry's biggest producer to "implement" the agreement by:

1. Boosting the guaranteed annual 4-cent hourly raise — the so-called annual improvement factor — to 5 cents.

2. Adding 21 of the 26 cents an hour gained in cost-of-living adjustment since the pact was signed to base pay. This would mean that only 5 cents could be taken away if the cost-of-living dives sharply between now and May, 1955.

3. Adjusting pensions of G. M. workers who have retired under the contract to give them the same purchasing power they had when the agreement was signed. The union did not say how much of a raise would be needed in the current maximum of $125 a month, including social security.

General Motors and the UAW first negotiated the now much-used escalator system hitching wages to living costs in 1948. That was a two-year pact. In 1950 they revised it somewhat and extended it for five years.

Now virtually all the industry's million workers are covered by cost-of-living agreements, providing a 1-cent pay boost or cut for each 1.14 rise or fall in the Bureau of Labor Statistics' consumers price index. They also are covered by the 4-cent "improvement" clauses and similar pension arrangements.

The UAW G. M. Council pointed out that the G. M. contract had been widely copied in other industries and that in some of them cost-of-living gains had been added to base pay.

The council said the 1-cent increase in the improvement factor was needed to keep that factor at a ratio of 2 1-2 per cent of the average worker's pay — which it was in 1950 but is not now that the average has gone up to roughly $2 an hour.

For some time now there have been rumors that the UAW would seek to put its pension system on some kind of an escalator. The G. M. request was the first move in that direction.

Italians May Hit Orphanage In Next Move

ROME, Sept 18 (AP)—Italian police turned their attention today to the little Frascati Orphanage of the American-led Church of Christ, which has been ordered to stop its Sunday religious services in 22 cities.

Cline R. Paden, head of the Church of Christ in Italy, said he went to police headquarters this morning in answer to a summons.

"They questioned me about our property at Frascati," he said afterward, "although I have no idea why our orphanage there should be a concern for the police."

The police gave no indication what they planned to do about the home for 20 or 25 children, mostly war orphans, which is financed largely by the Brownfield, Tex., Church of Christ.

The orphanage has been under fire from government authorities, the Communist press and groups of youths in the Frascati area since it began operating three and a half years ago.

Biggest flare-up in the Frascati dispute was when three American evangelists of the denomination said groups of youths stoned them out of Castel Gandolfo, where the Pope has his summer home, and three other Alban Hill castle cities near Frascati.

Less than a month later, Rome's big Communist newspaper, L'Unita, carried a lengthy story strongly implying the Protestant evangelists were here as capitalist spies.

In an article headed "a strange orphanage of Texas pastors," the writer said: "If I could have peeked in through a window, would I have seen those pastors at prayer . . . or, rather, deciphering secret messages."

Push-Button Warfare Starts Missile Launching Off Korea

WASHINGTON (AP) — American in long-range flights, have sought robot planes, untouched by man out and destroyed Communist targets in Korea—heralding the explosive birth of push-button warfare.

The Navy, which developed the new secret weapon, withheld many details but revealed it as:

An outmoded airplane, carrying a 2,000-pound bomb and guided from carrier-deck launching to on-target crash entirely by electronics. A television camera is perched in its cockpit to send back pictures of its flight.

Associated Press staff photographer Fred Waters, aboard the 27,000-ton aircraft carrier Boxer, cabled an eye-witness account of the new missile's first use on Sept. 1 in Korea waters.

Navy censors delayed Waters' story until yesterday, cleared it and then said in an announcement:

"A number of guided missiles have been launched successfully against Communist targets in North Korea from the USS Boxer."

Waters, in an additional dispatch, placed the number already launched at from four to six. His eye-witness account said the pilotless "suicide" plane he watched was a World War II Grumman, headed to its target by a guide plane. Its progress into the combat zone, he said, was watched on a television screen in a secret room aboard the Boxer, 150 miles from the target.

The Navy announcement lacked many of the details in Waters' account, but gave this description:

1. The new missile, armed with a powerful warhead, is sent aloft from a catapult aboard the carrier.

2. There are two guide planes, one on the carrier and one in the air. Both are equipped with special electronic equipment.

3. The first guide plane sends the missile roaring skyward. At a pre-determined altitude, the airborne guide plane takes over and directs the missile to the area of its target.

4. By the time the missile goes into its payoff dive, the guide plane is miles away out of anti-aircraft fire.

5. All during its flight, from the carrier deck to the target, the missile records its progress via telecast in a specially equipped electronics room aboard the ship.

The Navy announcement said the Boxer has been using an AD2 Skyraider (Douglas attack plane) as the guide craft in its first such attacks.

The first operational team—five officers and seven enlisted men headed by Lt. Comdr. Lawrence A. Kurtz of Washington, D. C.—is Guided Missile Unit No. 90. The unit trained at the Naval Air Development Center, Johnsville, Pa.

The Navy would neither identify the targets nor assess the damage inflicted.

Waters was struck with the way electronics "eye" on board the carrier "rode with the missile, mile by mile, through wondrous electronic instruments."

On the television screen, he said, the men crossed the Sea of Japan and watched the jagged peaks of Korea loom larger. He said tension in the room mounted as the target neared.

Then the target—"an enemy concentration in a valley between two shadowy hills." And then:

". . . The instruments suddenly went blank. The screaming dive had ended, squarely on target, and the missile had crashed to oblivion."

Vote Canvass Held Yesterday

The city council yesterday afternoon voted unanimously to seat John P. DeShazo after a canvass of the votes in Tuesday's Ward No. 1 election to fill a vacancy on the council.

DeShazo was elected with a total of 22 votes, the canvass showed

In the brief meeting the council also discussed purchase of new police patrol cars, and police department salaries, but took no action on either.

John Wilson, of the engineering firm of Ash & Wilson, met with the council to present a bill for some engineering projects, but Wilson was asked to postpone presenting his bills till the next regular meeting of the council.

In the election Tuesday Johnny Hoyle, and Walter Hales were defeated by DeShazo. Hoyle received 15 votes, and Hales 13.

It was reported at the council meeting that copies of the proposed charter for the city of Snyder have been printed and are ready to be mailed to all voters of the city whose names appeared on the city tax rolls Jan. 1 this year.

The charter election will be held Oct. 21.

"If the charter passes we (present councilmen) will be without council seats about Dec. 1," R. B. Sears, mayor pro-tem, said yesterday.

Sears acted as mayor in the absence of Forest G. Sears, mayor, yesterday.

South Koreans Win New Ridge

SEOUL, Korea, (AP)—South Korean soldiers drove the Chinese Communists from the bitterly-contested southern arm of Finger Ridge in a pre-dawn battle today.

The Republic of Korea (ROK) infantrymen rooted out the Reds with bayonets and hand grenades and recaptured the Central Front positions they lost nearly two weeks ago.

U. N. fighter bombers had softened up the tunneled-in Communists with bombs, rockets and fiery gasoline. Then two columns of South Koreans stormed the ridge in the chill of early morning. Aided by thundering artillery fire, they captured it three hours later.

In Tokyo, the Navy reported five men missing and seven seriously injured when an explosion shook the U. S. Destroyer Barton Tuesday nearly 100 miles off northeast Korea. Presumably a Communist mine, probably blown far out to sea by typhoon weather, caused the waterline blast, the Navy said.

U. S. B26 bombers destroyed 84 Red trucks Wednesday in a sixth straight night of attacks against Communist supply lines, the Air Force said. It brought the six-day score to about 600 Red vehicles destroyed.

WEATHER

WEST TEXAS: Partly cloudy Thursday, Thursday night and Friday. Widely scattered afternoon thundershowers Del Rio-Eagle Pass area Thursday. No important temperature changes.

EAST TEXAS: Cloudy to partly cloudy Thursday, Thursday night and Friday with scattered thundershowers and locally cooler south portion Thursday. Moderate southerly winds on the coast.

SOUTH CENTRAL TEXAS: Partly cloudy Thursday, Thursday night and Friday. Widely scattered thundershowers Thursday, locally cooler north portion Thursday. Moderate southerly winds on the coast, occasionally fresh in thundershowers.

Borden County Wildcat Staked As Miss. Well

Bill Roden and associates of Odessa have staked location for an 8,750-foot Mississippian wildcat in Northeast Borden County as their No. 1-532 Belew.

It is to be 660 feet from east and 1,980 feet from south lines of section 532-97-H&TC, about two and one-half miles west of the Fluvanna - Mississippian field. The drillsite is a farmout from Texaco.

Operations are to start in the near future.

The Superior Oil Co. and Intex Oil Co. have staked location for a south offset to the No. 13-536 Florance Lanham, recently completed as a Mississippian producer and east extender to the Fluvanna field.

It will be the No. 2-517 E. H. Lemons, located 660 feet from north and west lines of section 517 - 97 - H&TC, about two miles northwest of Fluvanna. Contract depth is 9,000 feet.

CORRECT LOCATION

A corrected location has been reported for a Nolan County wildcat location announced yesterday.

The project will be Alex Hickey and C. B. Drilling Co. No. 1 DeWitt T. Haden, to be located at the center of the southwest quarter of the southeast quarter of section 30-23-T&P. It is contracted to drill to fluid in the Ellenburger, with dry hole money contributed by Texas Gulf Producing Co., Cities Service, and Sunray Oil.

A location near this was reported in error for Hickey No. 1 Elton Johnson.

FISHER COUNTY

C. L. Norsworthy, Jr., No. 1 J. C. Stripling has been spotted as a 6,850-foot wildcat seven miles southwest of Roby in Fisher County. Location is 660 feet from south and west lines of section 193-3-H&TC, about five miles northeast of the Claytonville field.

General Crude has staked location for the No. 1 Sara A. Neel in the Claytonville field. It is to be 1,354 feet from north and 660 feet from east lines of section 211-3-H&TC, 11 miles west of Longworth.

MITCHELL WELL

L. H. Armer and J. M. Leonard of Midland have staked a 3,200-foot wildcat in Northwest Mitchell County as the No. 1 E. E. Erwin.

Location is 330 feet from south quarter of section 3-5-H&TC. That and west lines of the northwest is about three and one-half miles east of Vincent.

ABANDON WELL

Stephens Petroleum No. 1 Simpson, extreme North - Central Borden wildcat, has been plugged and abandoned on total depth of 7,944 feet in reef lime.

The final drillstem test run on the project covered the interval from 7,94-944 feet. Recovery was 180 feet of slightly oil and gas cut mud with 180 feet of slightly oil and gas cut salt water and 210 feet of salt water.

DRILLING REPORT

Stephens Petroleum No. 1 Bacon, South Borden wildcat, is at total depth of 7,205 feet in the Pennsylvanian reef and preparing to run casing for production tests.

Superior and Intex No. 14-598 R. H. Jordan is drilling below 7,110 feet in shale.

Wilshire Oil No. 24-182 Spires, Nolan wildcat, is drilling in shale below 6,396 feet.

Juvenile Cases Disposed Of In Closed Hearing Yesterday

Two Snyder boys were committed to the state youth development council yesterday and are to be sent to the council's home for boys at Gatesville, two others were committed to the Boy's Ranch at Abilene, one was paroled to his parents, and two others were paroled to their adult brothers.

Disposition of cases against the nine boys, whose ages ranged from 14 to 16 years, was made after an all-day session of the juvenile court, presided over by Edgar Taylor, county and juvenile court judge.

Appearing in the closed court session were parents of the juveniles; Ben Ritchey, supervisor of the home at Abilene; and Bill McCade, an officer of the state council. The council was given the Gatesville home, formerly the state reformatory for boys, recently.

The home at Abilene is operated by Taylor County, Judge Taylor said, but it accepts juveniles from neighboring counties when parents are willing to pay the county $50 a month for care of the children. Judge Taylor said that in the cases of the two committed to the home yesterday, the parents were given their choice of agreeing to pay to have the boys cared for at Abilene or allowing them to be sent to Gatesville.

There were 10 boys to be brought before the court, but one had not been apprehended, Judge Taylor said. They had been arrested on numerous counts of burglary, petty theft, and several other misdemeanor charges, and three of them had been arrested in connection with theft of a pickup truck. Most of them had been in trouble several times previously.

Most of the boys had associated together as a single gang with headquarters at a Snyder pool hall. Their offenses were in Snyder and several other West Texas towns and some out-of-state cities.

Telephone Service Is Fouled For 3 Minutes

Snyder residents couldn't get their telephones to ring or got wrong numbers for about three minutes today due to a power failure.

The emergency machine which ordinarily automatically goes on was being cleaned when the regular machine failed, according to the plant department of the Southwestern Bell Telephone Co.

Long-sought Bootlegger Caught And Starts Year's Jail Term

Luther Tucker, Snyder Negro bootlegger, was arrested last night and imprisoned in the county jail where he is to serve a sentence of one year assessed nearly a year ago.

The sheriff's department announced this morning Tucker was arrested here last night after being at large since his conviction was upheld by the court of criminal appeals in June.

Tucker left Snyder about the time his conviction was upheld, and his whereabouts had not been known to officers here until his arrest last night, it was reported. He was convicted last Oct. 4, in a jury trial on a county court charge of illegal liquor possession. The jury assessed his punishment at a year in the county jail and a fine of $1,000 plus court cost of $28.50.

Tucker appealed the case to the court of criminal appeals in Austin, but the higher court dismissed the appeal on grounds it had not been perfected. The appellate court issued a mandate commanding that his sentence be started, but Tucker then had disappeared.

No action toward forfeiture of his bond was ever started by the court here.

The sheriff's office reported today that Tucker's fine of $1,000 had not yet been paid. If it is not paid, he will be required also to serve additional time in jail at the rate of a day for each $3 of the fine and cost.

The only person convicted by court here who has not yet served the time assessed him is Anderson Davis, Jr., another Snyder Negro. Davis is under sentences totaling five years in jail, $2,750 in fines, and $85.50 in court costs, but he is free on appearance bonds pending outcome of the cases which are currently on appeal.

Davis's last conviction gave him a four-year sentence. This case was upheld by the court at Austin, but a rehearing was granted, and the case is to come up again when the court reconvenes Oct. 18. The rehearing was granted about the time the summer adjournment of court was made.

Selective Coal Strike Is Set By Lewis To Start Next Week

By NORMAN WALKER

WASHINGTON (AP)—John L. Lewis tucked a hard coal royalty boost into his trophy belt today and began trying to win over soft coal owners one by one to his contract terms.

Lewis, head of the United Mine Workers, was reported dangling an exemption from next Monday's expected Northern soft coal strike in front of some big Illinois operators.

Most of the soft coal industry, however, seemed to be steadfastly set against bowing to the union chief's money demands.

Lewis has charged a selective strike, ordering his men to (1) quit mines belonging to the Bituminous Operators Association—representing most Northern mines—next Monday, and (2) halt work in the Southern Coal Producers Association's mines on Oct. 1.

The diggings represented by the two associations produce about 70 per cent of the nation's soft coal. Most of the mines west of the Mississippi River are to keep working. And a number of important mines belonging to neither of the big employer associations, including the Big Ben Coal Co. of Illinois are also strike-exempt.

Lewis says these exempted mines have agreed that, in return for being allowed to keep open while the bulk of the industry is shut down, they will accept whatever new soft coal contract terms are finally negotiated.

The union reached an interim agreement yesterday with the anthracite (hard coal) operators to boost that industry's welfare fund royalty — financing miners' pensions and other benefits—from 30 to 50 cents a ton.

This assures that the hard coal industry will keep on working without a strike but will be called upon to negotiate further contract terms, including new wage rates, probably patterned after what happens in soft coal.

Lewis was reported trying to extend his strike exemption plan to some major Illinois producers—trying, that is, to win them away from the Bituminous Operators Association with promises they won't be struck provided they agree to take any eventual settlement.

The union's demands are reported to be for a $1.80 pay boost for miners now receiving $16.35 a day; a 10-cent boost in the present 30-cent welfare royalty, and shorter working hours.

Yesterday, Joseph E. Moody, president and chief negotiator for the Southern Producers Association, told newsmen acceptance of the Lewis terms would mean "economic suicide" for an industry which he said was badly strapped by poor market demand, low prices and fierce competition from other fuels.

"His demands are so high that it wasn't any use of my even holding a hand in that poker game," Moody said.

Moody disclosed that he has proposed a number of counter suggestions to Lewis, including penalty payments in the event of wildcat, or unauthorized, strikes, and provision that employes share in pension costs now financed entirely by the mine owners.

WIND TOPPLES WINDMILL

Arthur (Booger Red) Townsend, above, is shown looking at the wind wheel of the windmill which wind lodged in the works of a tree beside his house yesterday afternoon. Mrs. Townsend was lying on a bed just inside the window by the tree. Heavy tower of the windmill is shown at Townsend's feet.

Rough Winds Over State As Showers Fall

(By The Associated Press)

Marauding thunderstorms loosed in Texas Wednesday continued Thursday after apparently breaking the back of the dying summer.

Temperatures fell about 20 degrees in the wake of the storms which brought disappointing amounts of rain to the parched regions of the state.

High winds accompanied the towering thunderheads as they moved across Texas and caused storm-conscious Carswell Air Force Base at Fort Worth—almost wrecked by a storm a fortnight ago—to evacuate some aircraft. Precautions were taken with the B-36s at the field but the huge bombers were not evacuated.

Gusty winds that reached 55 miles per hour knocked out telephone lines between Austin and Dallas and disrupted teletype service into San Antonio. Heavy winds and rain lashed the state capital.

The squall line churned up just north of Wichita Falls Wednesday afternoon and by early Thursday morning had passed deep into South Texas.

Scattered showers and thundershowers, the Weather Bureau said, were to continue today east of the Pecos Valley, over much of South Central, and East Texas, and in the southeast portion of North Central Texas.

Deportation Hearing Brings Story Of Communist Terror

SAN ANTONIO, Sept. 18 (AP)—A story of Communist torture and forced marriage to a bandit chief's sister has resulted in a suspension of deportation proceedings against an airman here.

The airman, Italian Pasquale Sciortino, 29, is wanted in Italy for a series of crimes alleged to have been committed while he was a member of the bandit's gang.

Sciortino also told Immigration Examiner David L. Carter that he had been denied sacraments of the Catholic Church and was not allowed to read newspapers, while being held in the Bexar County Jail on charges of illegally entering the United States.

The punishment here, he said during the five-hour hearing, was inflicted because he would not reveal how he smuggled a written newspaper interview out of the jail to a San Antonio Express reporter, Charles Ross.

MARRIAGE ANNULLED

Sciortino jumped ship in New York, Sept. 7, 1947, and after nearly five years in this country joined the U. S. Air Force in June. Meanwhile, he had heard that his marriage to Bandit Chieftian Salvatore Guiliano's sister had been annulled and he had married Rose Luso of South Bend, Ind., July 31, 1951.

He told Carter that he was arrested and tortured by a police official at Palermo, Italy, who was a member of the Communist Party.

"They laid me down on a small table and bent my back until they tied my hands and legs together behind me. A handle twisted the ropes tight. They also put salt in my mouth and poured water down my throat with a hose until I passed out.

"When I awoke I was on the floor and they tied me up again and cut my chest with a bayonet. When I tried to protect myself, they cut me on the hands and wrists."

TORTURES TOLD

Sciortino said the Communists put vinegar and iodine on his wounds and that "I went out of my head."

The airman who disclaims the crimes of which he is accused and contends that he is a political refugee, explained that he was jailed by the Communists because he was a member of a Sicilian movement which campaigned against the Communists and sought to make Sicily independent of Italy.

Of his forced marriage to the sister of Guiliano, Sicilian "Robin Hood" bandit king, Sciortino said that he had never met the woman until she visited him in the Palermo jail in the spring of 1947. After he was released, Guiliano demanded that the marriage take place.

MOTHER IS RICH

The prisoner explained that his mother, now living in Sicily, owns several wineries and has land valued at $400,000 in addition to house and livestock and that marriage into the family would be profitable.

"If I would not have married his sister he (Guiliano) would have killed me," Sciortino said.

He related that one afternoon as he was working on one of the family farms six men forced him into a car at gun point and took him to the hills. His mother and sister were also picked up and forced to attend the ceremony which took place at Monte Lapre on April 24, 1947, Sciortino said.

The priest who performed the ceremony was forced to do so at 1 a.m. on that date, the prisoner testified.

ARRESTED AGAIN

He said he lived with his wife 21 days and was then again captured by the police. Sciortino testified that after his arrival in the United States his wife told him in a letter that she was having the marriage annulled. He said his mother later verified this.

When questioned by Immigration Investigator Joseph Reed as to how he came to the United States, Sciortino said that he escaped the Palermo jail after 19 days incarceration and made his way to Genoa, Italy.

There, he said, he made contact with an English-speaking sailor who signed him aboard a passenger ship as a member of the crew for $1,400.

Sciortino said that last week he was given some questions by an "unknown" person in the jail and after reading them understood that it was a newspaper interview. He said he answered the questions and the next night the same person picked up the paper.

CONFESSION

Sciortino said that he did not know whether the person was an employee of the jail or not.

Because of this, the prisoner testified, he has been denied the right of confession to a Catholic priest and also not allowed to send newspapers.

To a question as to whether he feared he would be killed if returned to Italy, Sciortino said:

"If I return to Italy they will kill me because they are very angry with me. The Communists . . . they are the same as the old Fascists . . will not give me a fair trial."

At the conclusion of the hearing, Maury Maverick, attorney for Sciortino, asked that deportation proceeding against the prisoner be suspended for a period not to exceed 90 days. The request was granted.

Maverick said he would seek to obtain certain letters and papers which would prove that Sciortino was not guilty of the crimes of which he is accused and that he would ask for "political asylum" in the United States.

One Pleads Guilty To Drunk Driving Here

John Harvey Holt, 66, who listed his address as route No. 1, Snyder, was assessed $73.50, including court cost, when he pleaded guilty this morning to a county court charge of driving while under influence of intoxicating liquor.

Holt was arrested yesterday by city policemen. His driver's license was suspended by automatic operation of law when he pleaded guilty to the charge.

Galveston City Workers Are On Strike Today

GALVESTON, Sept. 18 (AP)—Some 600 municipal employees were to vote today on a tentative agreement reached last night between union representatives and city officials.

The men walked off the job here Tuesday morning and garbage was piling up in the business district last night.

If the agreement is approved, the men were expected to return to work today at 4 p.m.

Hamburg Train Wreck Kills At Least Eight

HAMBURG, Germany (AP) — A German commuter express train jumped the tracks today as it approached the main Hamburg railway station, killing at least eight persons and seriously injuring more than 30 others.

Three hours after the accident, rescue crews still were combing the wreckage in which more victims were believed trapped.

The cause of the accident was not immediately determined.

No Hay Ordered Here

The number of tons of hay ordered through the Production and Marketing Administration office dropped to 33 tons yesterday.

"This was not enough to order any carloads from the state office," a representative of the local PMA office said. The reason was thought to be that farmers who needed the hay most had already ordered.

Senator Nixon Draws Cheers

Aboard Nixon Campaign Train (AP)—Sen. Richard M. Nixon traveled into the San Joaquin Valley of California today, cheered by an enthusiastic sendoff for his cross-country campaign for the Republican presidential ticket.

The GOP running mate of Dwight D. Eisenhower drew warm applause last night in his kickoff speech at Pomona, Calif., near his hometown of Whittier.

The California senator's special train will carry him through California's farm-rich interior, Oregon and Washington during the next week. He flies to Reno, Nev., from Sacramento tonight for a speech, then heads up the Sacramento Valley and into Southern Oregon tomorrow.

Police estimated 7,500 to 10,000 heard his trainside attack against the Democratic administration and his promise that Eisenhower's election would "restore American integrity."

He was introduced briefly by Gov. Earl Warren.

The 39-year-old GOP vice presidential nominee said the aim of the Republican ticket is to clean out what he called the "scandal-a-day Truman administration."

He described the Democratic presidential nominee, Gov. Adlai E. Stevenson of Illinois, as "the handcuffed, handpicked captive of the Truman administration" and he said "a vote for Stevenson is a vote for Truman."

Drinking Of Mother Told

HOUSTON, Sept. 18 (AP)—Sheppard W. (Abdullah) King III and his sister Patricia heard about their mother's drinking habits in court yesterday.

A nurse who attended Mrs. Bonner King before her death June 15, 1952, said the woman drank two fifths of whiskey daily.

Sheppard and his sister contend their mother was of unsound mind when her will was drawn. But the nurse, and a doctor who also witnessed the will, said Mrs. King was sober and rational when it the will was signed.

One fourth of the estate was left to the playboy who gained international publicity when he married Egyptian dancer Samia Gamal. Samia was in the courtroom yesterday as a spectator.

Sheppard and Patricia have agreed to a 50-50 split of the estate, but they want to break the part which would make them wait until he was 35 and she 40 before they could get the full inheritance.

Mrs. King's estate has been variously estimated at amounts between $500,000 and $2,500,000.

Doesn't Think Wife Would Take His Life

ALBUQUERQUE, Sept. 18 (AP)—"I still don't believe Wanda would have gone through with it," says the husband whose youthful w[illegible] pleaded guilty to plotting to h[illegible] him.

"I love her and want her back," William White, 41, said yesterday.

He made the remark to a reporter after his wife, Mrs. Wanda White, 20, and Army Cpl. William K. Oliver, 24, entered formal pleas of guilty to conspiring to murder White.

Dist. Judge R. F. Deacon Arledge told them sentence would be passed next Monday "if your plea is still the same after conferring with your attorneys."

Police said an anonymous tip led them to arrest Oliver and thwart the plot to hang the British-born White from a tree in a city park. They quoted Oliver as saying the hanging was intended to make it appear White had committed suicide. Mrs. Whtie was taken into custody later.

White is an administrative employe of the private corporation handling civilian affairs at Sandia Special Weapons Base here—the assembly point for the atomic bomb. Oliver has been a military policeman there.

Oliver gave police a statement that he hoped to marry Mrs. White, wed three times previously, once she was free of her husband. Mrs. White stated that she backed out on the hanging plot, however, and "I still love my husband." Oliver also is married and his wife is expecting their second child.

White told a reporter he and his slim, blonde wife were wed last October at Sherman, Tex.

U. S. Checking Buried Gold

LOS ANGELES (AP)—The government dug deeper today into the tale of 20 million dollars in buried gold.

At least four more Southern California men have been subpoenaed for a federal grand jury investigation of the cascinating case. Proscutors declined to disclose their identity.

But Ray Kinnison, assistant U.S. attorney, said one of them is supposed to have seen the gold and to hold a power of attorney in connection with the owner's efforts to dispose of the cache.

The story under investigation is that years ago a Mexican national brought the gold across the border during unrest in his own country and buried it somewhere in the Southwest. It would have been legal then. But since 1933 gold hoarding has been prohibited in the United States.

The authorites have heard reports that someone now is trying to sell the gold to the U. S. Mint and at the same time avoid hoarding penalties.

A number of steam-driven automobiles were built before 1800.

The first Negro slaves arrived in Jamestown, Va. in 1619.

MISPLACED PERSON?

William Green (left) was all smiles as he greeted Gov. Thomas E. Dewey of New York at the opening of the American Federation of Labor convention in New York. In spite of the Republican governor's presence, the convention heard a bitter attack on the Taft-Hartley labor law, which has been endorsed by the GOP platform and Dwight Eisenhower. Gov. Dewey, in his talk to the convention later, said he wondered if he wasn't at a "Democratic clambake."

Little Interest In Disaster Loans For Farmers In County

Only four farmers in Scurry County have made application for disaster loans for 1953 cropping operations, and they were reminded this week that they must apply soon if they want the loans.

Robert E. Deaton, Jr., County Farmers Home Administration supervisor, issued the remainder with the warning that the present designation of this county as a disaster area will expire Dec. 31.

Of the four applications submitted since the beginning of the 1953 fiscal year July 1, three have been approved by the county committee, and the fourth will be processed next week. The three applications, which total $4,685, have been sent to the state office for funds.

Additional funds to meet the disaster need in this area have been allocated, Deaton said.

During the 1952 fiscal year, 24 loans were made for a total of $25,000.

No applications have been recorded for funds available through the water facilities program, Deaton said. The funds are provided for those who wish to improve their existing water supply on farms or to develop and install new facilities. Loans are made under the same conditions as are the disaster loans.

Deaton said about 12 farmers have inquired about making application under the water facilities program for loans to install irrigation systems, but he said the program does not include irrigation projects in this county. Before farmers could secure loans here for irrigation purposes, the county would have to be declared an irrigation area. Under the water program here, farmers can secure loans only for home and stock supplies.

Before loans can be made through the FHA office, the county committee must approve the applications. Members of the committee are Martin S. Murphy, Doyle M. Pogue, and J. W. Greene.

Rancher Says He Has Killed Indian Witch

PHOENIX, Ariz. (AP) — A cattle rancher has confessed the strange killing of a Yaqui Indian woman suspected by her neighbors of being a witch, Sheriff Cal Boies said today.

Boies identified the rancher as Joe S. Chaves, 42, Mesa, Ariz.

"Sure I killed her," Chaves was quoted as saying.

"She was a witch.

"She sprinkled powder on my wife in 1942 and she started to go blind. Doctors, healers and all the others couldn't help her. I spent a lot of money and traveled many miles trying to get her cured, but she just got worse."

The dead woman, Mrs. Maria Estrella Miranda, 41, was found last Friday sprawled over a chair in her home on the fringe of Guadalupe, tiny Yaqui village some 10 miles southeast of Phoenix. She had been shot through the neck and arm and a bullet had grazed her head.

Chavez, jailed without bond, claimed there had been marked improvement in his wife's condition since the slaying.

Mrs. Chavez told reporters she could now distinguish between dark and light for the first time since she was struck blind.

John J. Flynn, assistant Maricopa County attorney, said first degree murder charges would be filed.

Cabot Is Named As Ambassador To Pakistan

WASHINGTON (AP) — President Truman has named John M. Cabot, State Department career officer from Massachusetts, as ambassador to Pakistan.

The appointment was announced yesterday after a White House ceremony at which Pakistan received a 15-million-dollar loan for the purchase of American wheat.

Cabot, a 51-year-old resident of Cambridge, Mass., has been American minister to Finland since Feb. 2, 1950.

Assistant Secretary of State Jack McFall has been named to take Cabot's place in Finland. Avra Warren, who has been ambassador to Pakistan, is being given another assignment.

Twentieth Century Club Holds Opening Luncheon

Mrs. J. E. LeMond, Mrs. B. M. West, Mrs. Ernest Sneed and Mrs. Adlai M. Ewing were hostesses Tuesday for a luncheon meeting of the Twentieth Century Club. Mrs. LeMond's home was the scene of the luncheon.

Fall flowers decorated the home.

During the business session Mrs. John Hamblen was elected treasurer of the club.

Mrs. R. E. Gray, club president, gave the welcoming address and outlined points which she urged club women to carry out in the year's program. The five-point program as given by the president of the National Federation of Women's Clubs included Americanism, religion in the homes, national defense, teaching of American history in high schools and censorship of lewd literature.

Holland was the subject of the program, with Mrs. H. W. Cargile discussing "Women of Holland Yesterday." She told of the Dutch town of Staphorst which has maintained a medieval atmosphere by sealing itself off from the life of the Netherlands.

Mrs. W. P. Thurmon's topic was "Women of Holland Today." She discussed the Dutch woman's mode of living and told of conditions of average families in Holland.

Eighteen members and one guest, Mrs. Fred Walton, were present.

PERSONALS

Mr. and Mrs. J. B. Smith, Clairemont Route, returned Sunday from a two-week vacation in Kanas and Missouri.

Mr. and Mrs. A. I. Davidson, Clairemont Route, visited relatives in San Angelo over the week end.

Returning this week from McAllen were Mrs. D. R. Young and son, Leslie, and Mrs. Norma Reeves, all of 1803 Avenue T, and Miss Pearl Bullock, 2511 Avenue X. The group visited Mrs. Young's son, Donald Young, and went hunting.

Mr. and Mrs. E. E. Woolever and their grandson, Teddy Jo Floyd, of west of town, were in Ralls, Tex., Monday visiting relatives.

Rapid Recovery From Summer's Steel Strike

WASHINGTON (AP) — Industry's rapid recovery from this summer's two-month steel strike was underlined in a Labor Department employment report today.

The department's Bureau of Labor Statistics said non-farm employment hit a record level of 45,900,000 persons in jobs in mid-August.

This was an increase of 900,000 from mid-July and 200,000 over a year ago.

Douglas Finds Democracy In Asian Nation

MANDALAY, Burma (AP) — The tall, earnest American in a rumpled seersucker suit glanced out of the window at the golden pagoda spires shimmering in the hot sun. Then he looked back at the brown faces around him and began to talk:

"It's an inspiring thing to find in your great country of Burma an atmosphere of true democracy. It is particularly inspiring here because Communists all over Asia are trying by bloodshed to impose a system that denies the human rights you are protecting."

The speaker was William O. Douglas, associate justice of the U. S. Supreme Court.

This year he visited Burma for the first time on a tour that included The Philippines, Malaya, Thailand, Indochina, Formosa, Japan and Korea.

The main objective, aside from his love for travel, was to get material for the latest in a series of books and magazine articles. But Douglas finds himself spending more time as a salesman for America.

His audience here was the local bar association. It was obvious that Douglas was quite a surprise to lawyers in Mandalay Schooled in the English traditions of the law, their mental picture of a "high court" judge is an aloof man with stern dignity. Like most Burmese, they are flooded with Communist propaganda depicting Americans as fat, crude capitalists.

Douglas steals Communist thunder by reminding these newly independent people that the United States started this revolution business long before Marx grew a beard. He points to the Roosevelt New Deal era as an example of peaceful evolution instead of bloody revolution to improve the lot of the farmer and working man.

He got applause and chuckles from the Burmese, who won independence from Britain only four years ago, by saying the U. S. has a friendly interest in Burma "because we too broke away from a foreign power."

Discussion On Cold War Tactics Is Set

WASHINGTON (AP) — Undersecretary of State David Bruce will meet with top American diplomats from all over Europe at London next week to confer on major cold war strategy problems.

He and a group of aides will leave by plane Sunday for the meeting, which opens Wednesday.

Senator Douglas Will Help Adlai Campaign

WASHINGTON (AP) — Democratic party leaders said today Sen. Paul Douglas of Illinois will be one of the big guns in the drive to elect Adlai Stevenson as president.

Sen. A. S. Mike Monroney of Oklahoma, chairman of the party's Speakers Bureau, told a reporter, "Douglas is much in demand and we now have arranged speeches in 14 states."

General Is Promoted

WASHINGTON (AP) — Maj. Gen. Paul W. Kendall, in command of the 1st Corps in Korea since June, has been promoted to the rank of lieutenant general.

...d your questions to "Helps for ...emakers", Snyder Daily News, ...r call 3-8486.

Could you tell me how to pick up a dropped stockinette stitch in knitting? L.

Pick the stitch up on the right side of the work. Insert a crochet hook in the dropped stitch and draw the yarn to the row above through the loop, forming a new loop. Continue this until you reach the row being worked on, being careful not to twist the stitches.

* * *

What other ways besides salad can you suggest for using tuna? We like it but are getting tired of salad. M. R.

You might like tuna turnovers which are made as follows:

2 cups sifted all-purpose flour
1 teaspoon salt
two-thirds cup shortening
¼ cup cold water
1 7-ounce can solid-pack tuna
1 tablespoon butter or margarine
3 tablespoons all-purpose flour
1 cup milk
½ teaspoon worcestershire sauce
2 hard-cooked eggs, chopped

Sift flour and salt; cut in shortening with pastry blender until pieces are size of small peas. Add cold water and mix well. Gather up dough to form a compact ball. Chill while preparing filling.

In a saucepan, pour oil drained from tuna. Add butter or margarine; melt over low heat. Stir in flour and blend. Add milk and cook until thickened, stirring constantly. Add tuna which has been broken into pieces with fork, Worchestershire sauce and chopped eggs; mix thoroughly.

Divide pastry into four parts. Roll out ¼ of pastry at a time cut into 4-inch squares. Place two tablespoons of tuna filling on each square; fold over to form triangle. Press edges together; cut gash in top. Bake in hot oven (400 degrees 20 minutes, or until turnovers are golden brown. Serve hot or cold.

Mr. and Mrs. J. H. Stracener, 2901 Avenue I, are parents of a son born Friday in a Snyder hospital. The baby weighed eight pounds, six ounces. Mrs. Stracener's mother, Mrs. G. S. Rawlins, of Rogers, Tex., is attending her.

West, Central PTA Units Hear School Superintendent

Two Parent - Teacher Association units heard Cecil Yarbrough, superintendent of schools, speak at opening meetings Tuesday.

West Elementary School's PTA unit had an open house and program, with Silas Devenport, school principal, giving the welcoming address to guests and parents. The Rev. E. K. Sheperd, pastor of the First Baptist Church, gave the invocation. Mrs. Waldo Montgomery, president of the unit, introduced officers. The superintendent spoke on parent and teacher responsibility in solving educational problems.

Mrs. Claude King was elected secretary of the unit in a brief business session. The Mothers Singers provided musical numbers.

About 150 persons were present. Refreshments were served following the program.

A closer parent - teacher fellowship was the theme of Mr. Yarbrough's address at the Central PTA afternoon meeting. Mrs. L. A. McClanahan presided at the meeting, which was the first of the year for the unit composed of Central Primary and Central Elementary parents and teachers. The Mother Singers were included on the program.

Refreshments were served to about 60 persons.

Breakfast Is Opening Event For AD Club

Mrs. R. C. Miller, Jr., and Mrs Charles H. Cooper were hostesses for a breakfast yesterday morning at the Country Club for the Altrurian Daughters' Club. This was the opening meeting for the club year.

Asters and other fall flowers decorated the tables.

Mrs. P. W. Cloud gave the program on "Club Institute," telling what federated club members were to do.

Twenty members and one new member, Mrs. Robert Wasson, attended.

PTA Meeting Here Yesterday

Mrs. J. L. Prichett of Abilene, district chairman of Parent-Teacher Association city councils, directed a parliamentary procedure course for the council here yesterday.

About 20 members of the council attended, along with two representatives of study clubs. O. N. Clark and Frank Wilson represented faculty interests at the meeting.

Written examinations based on the course are to be mailed to the Texas PTA Congress in Austin by Feb. 19 before the course is considered to have been completed. The course is required study matter for all city council members.

TALK OF THE TOWN

By SUE HOLMES

Astounded at all the meat at a recent barbecue was MISS BETTY WATSON, who came last week from England where meat and almost everything else is closely rationed.

The London visitor is a guest in the home of her brother W. A. (JOHNNY) WATSON, of the Humble Camp. He flew her here in his plane Friday and the family has been making flying trips over the area. Tuesday night they were in Stanton for Humble's annual district barbecue and yesterday the visitor and her brother flew to El Paso. Miss Watson is renewing her friendships she made during a visit here 12 years ago.

* * *

Another of today's trends toward casual living is shown in furniture on sale locally. The furniture is named "Golden Harvest" and is modernized Early American. It's of solid ash and as a different touch the pieces have solid brass hardware bearing a medallion design reproduced from an antique pin.

Mrs. Underwood Honored At Stork Shower

Mrs. Billy Underwood was named honor guest at an anticipation shower yesterday afternoon in the home of Mrs. Edwin Minor, 3006 Forteith Street.

Hostesses with Mrs. Minor were Miss Pauline Yandell, Mrs. Travis Rhoades, Mrs. Marcus Underwood and Mrs. J. T. Crouse.

Refreshments were served from a lace-covered table centered with an arrangement of periwinkles.

Those attending were Mrs. Gus Sterling, Miss Annie Sterling, Mrs. Evelyn Holladay, Mrs. Lee Holladay, Mrs. Luna Holladay and Miss Doris Holladay, all of Ira; Mrs. J. B. Duncan, Mrs. K. C. Hathaway, Mrs. Don Aucutt, Mrs. Jack Caperton, Mrs. Bill Underwood, Mrs. Ford Caperton, Mrs. Glen Holladay, Mrs. Frank Yandell, Mrs. Jesse Koonsman, Mrs. J. N. Beautiful Lady Wrestler Found Dead; Suicide

HAVANA, Cuba (AP) — A preliminary court today listed the death of 19-year-old Robaina Morejan, a beautiful Cuban lady wrestler, as a suicide.

The shapely, 105-pound girl died shortly after she was found in a gas-filled room yesterday. Police said she left a letter saying she felt "very much alone and disappointed in love."

Wake Up
To More Comfort
Without Nagging Backache
Nagging backache, loss of pep and energy, headaches and dizziness may be due to slowdown of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages.
Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

YOU CAN'T FOOL A BUSY SKILLET!
When it comes to frying, experienced "pan handlers" pick MRS. TUCKER'S pure vegetable shortening. It's never "out of the frying pan into the fire" with this finer shortening ... for there's no pop ... no spatter ... no hold-over odor or flavor, either; so you strain and use MRS. TUCKER'S over and over again for frying-high results.

Commission Plan Abandoned AS United Control Is Sought

by RICHARD S. CHILDS
Chairman of the Council, National Municipal League

More and more cities are abandoning the commission form of municipal government and substituting the Council - Manager plan. Frequently the change is made at the instance of the city commissioners without any political excitement or upset of municipal personnel, simply because as transient amateurs trying to administer a modern city, they have been overloaded.

Civic groups, impressed by the achievements of the manager plan in other cities, often find the city fathers more than ready to join the effort for change.

Businessmen trying to attract new industries may buck up against the greater efficiency of a competing town under the Council-Manager plan.

Commission governments are steadily declining in number (of cities over 5,000 in population, from 328 in 1942 to 312 in 1947), and no new charters of this type are being written. The reason is the commission plan just is not a sound structure. It may work for a while as it did in Galveston and Des Moines when it was a novelty in 1900 and 1906, but the design is inherently wrong.

The commission plan attempts to find departmental administrators by popular election, but it is no disparagement of American voters to say they are in no position to appraise the relative professional capacities of men for executive and technical positions.

The five elected department heads are expected to meet together as a council. This gives the commissioners two functions which conflict: they act together to adopt the budget for all departments and levy the taxes, and then each spends a part of the money within his department in his own way.

To get the money he wants for his own department, he had better be mighty polite and uncritical in considering the budget requests of the other commissioners. Each commissioner is apt to develop a fierce, and doubtlessly sincere, loyalty to his own departmental projects, and if all the commissioners do that, they get careless of the total bill.

Many cities under the plan have become five separate little mutually - jealous, governments, Logrolling develops — "You vote for my list and I'll vote for yours."

One of the first cities to adopt the commission plan was Des Moines—in fact for a while it was called the "Des Moines plan." In 1947 a Des Moines Tribune editorial said: "It is this division of municipal government into five little dependent 'kingdoms' that destroys all possibility of intelligent co-ordination of city government, and makes it a chaotic, wasteful, inefficient jumble."

Or listen to Roy N. Towl who has served 18 years on the seven-member commission of Omaha: "We have seven different governments. Each of the seven commissioners heads a separate department. They say 'You leave me alone and I'll leave you alone.' We do not have a board of directors running one government, as it should be."

Able citizens can't be induced to run for commissionerships that demand putting in regular working hours in City Hall as active department heads, because, being able, they have good business or professional interests of their own which are too valuable to interrupt for a few brief years of service in the municipal government. And if an able man takes a commissionership and learns as fast as he can, he probably goes out of office soon after he feels at home in the job. Another transient amateur takes his place.

Charles Edison, ex-Governor of New Jersey, says: "I have seen the weaknesses of commission government in New Jersey. Experience proves that any commissioned governed city should benefit by a change to the Council-Manager plan which combines efficiency with democratic control."

Under the Council - Manager plan the five (or more) elective councilmen are simply the supreme board of directors of the municipal corporation, like the board of education in school systems. They do not interrupt their private careers to occupy a working desk - job in City Hall, and they need not be masters of municipal techniques.

The council hires from anywhere in the country a city manager, quite commonly a man who has made a success as manager of a smaller city and seems to deserve promotion.

He develops orderly public works programs and prepares the first draft of the budgets for council consideration. Presently the council, assembling for weekly meetings, finds its agenda well prepared and the city manager on hand with supporting data.

The council's job is to check him if he goes too fast and too far, for the council members are in a position to know what their fellow townsmen and old neighbors will stand for and what they won't. And the council must take responsibility in the end for everything, since they selected the manager and, having power to fire him, are responsible for what-ever they let him do.

Wake Islanders In Tents Again

HONOLULU (AP)—Some 200 essential workers, housed in tents, stayed on stricken Wake Island today to clean up after one of the worst storms in Pacific history.

A Military Air Transport plane left for Honolulu last night carrying the last group of more than 500 evacuees.

Winds of more than 160-mile-an-hour velocity Tuesday flattened nearly every building on the tiny U. S. coral atoll 2,300 miles west of Hawaii.

Only four persons were reported hurt, but unofficial damage estimates ran to 10 million dollars.

AP correspondent Stan Carter reported from Wake that "only two women are left—a nurse and a doctor's wife, who are needed to give injections and bandage cuts and bruises."

Carter said it probably would be three or four months before Wake is fully restored as an important stop on the Korean airlift and on commercial trans-Pacific routes.

Authorities said the island once more had an adequate food and water supply.

Completion In Sharon Ridge 1700 Reported

Coffield & Guthrie have reported completion of the No. 11 W. A. Wade in the Sharon Ridge 1700 field.

The project pumped 24 hours for a potential of 40.99 barrels of 26 gravity oil. Production is from pay at 1,754-784 feet which had been acidized with 5,000 gallons.

The No. 11 Wade is 990 feet from east and 330 feet from south lines of the northwest quarter of section 115-97-H&TC, about a mile south of Ira.

Must Let Go Atom Monopoly

SAN FRANCISCO (AP) — Gordon Dean, chairman of the Atomic Energy Commission, says the United States must release part of its monopoly of non-military uses of atomic energy if peaceful uses are to be developed fully.

Perhaps, Dean told the American Bar Association yesterday, the 1953 Congress "will have to decide whether to end the monopoly, and if so, how."

He said the day will arrive in the "not unforeseeable future" that that U. S. will have stockpiled all the atomic weapons "we would possibly need to destroy not only the industrial ability of an aggressor to make war, but also his forces in the field."

"Our atomic enterprise, however, is big enough to accomodate both an atomic energy program for defense and an atomic energy program for peace," he said.

LIVE SHELLS FROM DEEP — A diver hands a live shell to co-worker on Berlin, Germany, canal, during removal of live ammunition dumped by German SS. units in 1945.

Get Anything You Want In This Campaign

By JAMES MARLOW

WASHINGTON (AP) — The presidential campaign is beginning to look like a variety store.

You can get an assortment of "main" issues, problems and topics.

If you don't like Gen. Eisenhower's "main" display, just step over to Gov. Stevenson's counter.

There may be a little delay in this department since the general and the governor seem to shift their stock around a bit.

You'll notice that the general appears to be a little freer in picking "main" issues than the governor while, at the same time, the governor, who is credited with being extremely lucid, isn't always lucid.

Eisenhower—

June 6. He said the great issue of the campaign is peace and security.

Aug. 20. He said durable world peace was the over-riding issue.

Sept. 2. A slight change seemed to be setting in, for he announced corruption in government was the "over-riding moral issue in the campaign."

Sept. 3. Returning to the peace theme, he said the one great underlying issue in the whole campaign is success or failure in developing a peace program.

Sept. 4. He settled on corruption, saying: "I have said and will say again and again that there is only one issue in this campaign. That issue . . . is the mess in Washington."

Stevenson —

Aug. 28. He said the "transcendent problem before us and the great unfinished business of our generation is peace in the world."

Sept. 6. He said, "the main issue in the campaign is whether the nation is going ahead with the policies to solve the great political complexities that confront our country."

Sept. 9. He said "foreign policy is the most important topic for the nation today."

Potential Test Run On Kent County Well Shows 214 Barrels

The Superior Oil Co. No. 1-195 A. Wood and others, Kent County field test, has reported a 24-hour potential flow of 214 barrels of 36.9 gravity oil.

The No. 1-195 Wood, drilled outside production in the Salt Creek-Canyon field, is producing from perforations at 6,613-628 feet. Top of the pay was at 6,613 feet, with seven-inch casing cemented at total depth of 6,693 feet. Elevation is 2,090 feet. Perforations were washed with 500 gallons of acid.

Drillsite is 467 feet from north and 2,100 feet from west lines of the lease in section 195-G-W&NW.

Colorado City Man Is Found Shot To Death In His Home There

COLORADO CITY — S. N. Palmer was found dead of a gunshot wound two inches below the left breast in his home here yesterday afternoon.

The 77-year-old man was found on a quilt spread at the side of his bed. The gun, a .32 calibre Harrison and Richardson revolver was on the bed about four feet from his hand with one shell snapped and another discharged. The holster was in an open trunk at his feet.

A doctor said he had been dead about four hours. The body was found by two eight and nine-years-old boys who ran up on his porch to escape the rain. Jimmy Royce Laurens, looking through a window, called to the man and receiving no answer went to his mother who said Palmer was probably asleep. The boy went back to the Palmer home and seeing the gun called a neighbor who notified the police.

Guilty Plea In Conspiracy

ALBUQUERQUE (AP)—A military policeman and his girl friend pleaded guilty in District Court yesterday to charges of conspiring to hang her husband so they could marry.

Cpl. William K. Oliver, 22, and Mrs. Wanda White, 20, are charged with conspiring to hang William White, 41, Mrs. White's third husband, in a public park.

An anonymous telephone call tipped police to the plot and they hid in ambush as Mrs. White drove up to the park last Thursday. Oliver didn't show up at all, but in a statement shouldered the blame for the whole thing.

District Judge R. F. Deacon Arledge will pass sentence Monday.

In their written statements to police, they said they decided to hang the husband to a tree after forcing him at gunpoint onto the fender of a car.

Mrs. White said she still loves her husband.

FOR BIG STEAKS—All Leo A. Oulette, of Torrington, Conn., needs is a steak to go with 8½-pound mushroom his nephew found recently. He says it's an edible variety.

TCU and Texas Picked For Winners In Saturday's Games

NEW YORK (AP) — Football crashes the sports pages this week with a speeded-up program that lists a half-dozen conference games and intersectional contests which would have been mid-November attractions five years ago.

As a result, football forecasters are on the spot at the very start. There is no warmup period of picking breathers. Here's how the major games should come out this weekend:

Southern California over Washington State: State's surprising sophomores of last year are experienced now and the Trojans have just completed the shift back to the single wing. A weak nod to Southern California in the Friday night affair.

Texas Christian over Kansas: This is the game you can see on your TV set Saturday afternoon. The Texans are the defending champions in the Southwest Conference and Kansas is rated one of the Big Seven's best.

Maryland over Missouri. The split-T attack was invented by Coach Don Faurot of Missouri. Now his squad will be devoured by the system's most noted disciple.

Georgia over Vanderbilt: Vanderbilt reported having quarterback problems.

Texas over Louisiana State: The pre-season dope lists Texas among the "haves" and LSU among the "have nots" this year. A Saturday night game.

Kentucky over Villanova: A squeaker that could go either way but Kentucky's sophomores are the pick Saturday night.

Duke over Washington and Lee: Duke's roster lists an even two dozen returning lettermen. That's too much experience for the generals.

Skipping over the others in a hurry:

Friday Night

Denver over Colorado College, Alabama over Mississippi Southern, Furman over Newberry.

Saturday

East: Syracuse over Bolling Air Force Base, Yale over Connecticut, Penn State over Temple.

South: Clemson over Presbyterian, Richmond over Randolph-Macon, Florida over Stetson, Georgia Tech over The Citadel, Virginia Tech over Davidson, South Carolina over Wofford, Virginia Military over William & Mary.

Midwest: Kansas State over Bradley, Boston, University over Wichita, Nebraska over South Dakota, Iowa State over South Dakota State.

Southwest: Arkansas over Oklahoma A & M, Houston over Texas A & M, Baylor over Wake Forest.

Far West: California over College of Pacific, Washington over Idaho, UCLA over Oregon, Utah over Oregon State, Stanford over Santa Clara, Montana over Utah State, Arizona over Hawaii.

Snyderites In Top Foursome At Meet Here

Four amateurs, two of them from Snyder, made up the foursome to beat out 56 other professionals and amateurs and win the pro-am tourney at the Country Club yesterday.

The group, captained by W. W. Fowler of Snyder, tallied an 11-under-par 59 in the 18-hole match. Other members of the team were Ned Butler of Snyder, Otto Spratt of Breckenridge, and Bob Henderson of Sweetwater.

Second place was also taken by amateurs with a score of 61. They were John Howell and Earl Fish of Snyder, Bill Craig and A. Dalman of Colorado City.

J. T. Hammett, pro-manager of the club here, took low score and first place in the pro division with a score of 67, while Bill Keith, pro from Calsbad, N.M., ran second with 69. Others were John Lively of Eastland, George Hannon of Breckenridge, and Bob Hen-San Angelo, Bill Oliver of Odessa, and Shanty Hogan of Snyder.

Hammett said not enough professionals entered the tourney to go around for each foursome, so half the groups were made up entirely of amateurs. A total of 60 men entered.

Three teams tied for the third place spot, with scores of 62 with only one of them led by a pro. Keith, Jim Brannes, Fritz Smith, and Max Dyer made up that team. Another third place team was made up of W. S. Dow, Russ Yorgesen Wayne Boren, and Kelton Green. The third team in third place consisted of Charles Townes, P. W. Cloud, R. V. Carey, and Leon Younger.

Tigers Take On Heavy Fort Worth Team There Tonight

Northside, a Class 4-A Fort Worth squad which calls itself "injury ridden" will be the opponent of the Snyder Tigers at 8 o'clock tonight in Fort Worth's Farrington Field.

The spirited Tigers, ready for the game after last week's 21-0 victory over Thomas Jefferson of El Paso, another 4A school, is outweighed about 23 pounds to the man.

Last week, Northside dropped its first game 13-0 in a scrape with Weatherford, but Snyder's scouts call Weatherford's victory only luck.

Northside's injuries reportedly have sidelined three lettermen, Guard Allen Gover, Center Calvin Harmon, and Back LeVene Hughes. Hughes, who may see limited action tonight, is a defensive hotshot for the Northside Steers.

Richard Finney, 155-pound quarterback for the Steers, is reported to be a fair passer, although he did not have a chance to use his passing stick much in the team's opening game last week. His best receivers are Ends Fred Maples, 160, and Waynon Ryon, 185.

In Jack Webb, 200-plus pound fullback, the Steers have one of the fastest backs in Fort Worth. Despite his weight, Webb placed last year in the 220-yard dash in Cowtown's city track meet. In the Weatherford game, Webb gained a total of 58 yards in 13 carries, 52 yards of that in the first half. He does most of the team's punting, averaging about 37 yards to the punt.

Coach Speedy Moffett made little change this week in his starting offensive lineup. Gerald Crawford, speedy and small halfback, replaced Alan Snead, freshmen who will probably double with Burney Hagin tonight on the quarterbacking slot.

Gail Plays In Loop Tomorrow

Gail High School will run a team on the field for the first time at 2 o'clock tomorrow afternoon in Loop, about 25 miles northwest of Lamesa.

Coach Cliff Prather of Gail is confident his team will win the tilt in six-man football, basing his prediction mostly on Loop's 53 - 6 loss last week to Petitt in a non-conference game.

The squabble tomorrow will be one of Gail's District 7 tilts. Prather's squad averages about 150 pounds.

Probable starters for the game are E. L. Franklin, 155, and Donald Reddell, 155, ends; Lonnie Doyle, 175, center; Larry Smith, 125, quarterback, Errol Farmer 155, Brent Murphy, 135, halfbacks.

The only boys on the squad who has any experience is Franklin, who played junior high school ball at Snyder.

Calls Marciano Good Puncher To Mid Section

GROSSINGER, N. Y. (AP) — "I guess the thing I'm proudest of about Rocky Marciano," said Charlie Goldman, the little man who trains the challenger, "is the way he has developed into a great body puncher.

"You've got to realize that when I took him over he didn't know what a body punch was. In the first 10 fights I handled him he didn't throw a single one—and I mean not a single one.

"So I hired a sparring partner for Rocky, and for weeks I had him go in there and not punch once to the head. The earnest way he went about learning it was what first convinced me, I think, that I had a really great prospect on my hands.

"Now body punching is Rocky's best weapon. It's how he wears them down and sets them up for the finisher. It's how he compensates for his rather short arms. When he digs into a fighter's middle it really hurts, though it might not be obvious to the spectator.

Educated Fists Of Davey Rip Graziano

CHICAGO (AP) — Rocky Graziano demonstrated last night that he still has great powers.

He personally took charge of air conditioning Chicago Stadium.

The wind he stirred up missing Chuck Davey was from wild swings born of desperation.

Rocky was completely outclassed, a spectacle of bewilderment, like a bull skewered by a matador but still pawing the ground in a blind rage.

The phantom-like Davey piled up a tremendously lopsided victory to continue unbeaten through 37 fights since turning pro after graduating from Michigan State. Graziano weighed 158, Davey 150¼.

Through 10 rounds, welterweight Davey sawed into Graziano, the ex-middleweight champion, with left hooks to the body and face and a jabbing, cuffing right. At the end, the sensational southpaw was awarded a 61-39 edge on points by Judge Edward Klein, 58-42 by Judge Harold Marovitz and 56-44 by Referee Frank Sikora.

Seldom has a major fight that lasted the distance been won so unanimously. Only Sikora gave Rocky a single round, scoring the last in his favor 6-4.

The nationally - televised and broadcast bout drew a ringside crowd of 11,970 that paid a gross of $83,630. The net was $64,331 of which Graziano received 30 per cent and Davey 22½. Television receipts for each fighter was kept a secret.

Davey is now in line for a crack at the welterweight title.

The date, depending on the outcome of Champion Kid Gavilan's title match with Billy Graham in Havana, Cuba., Oct. 4, is tentatively set for February. It probably will be in Davey's home town of Detroit.

It is unlikely that Kid Phantom, who holds a masters degree in education and is rapidly becoming one of the nation's most eligible bachelors, will have another fight before the big one.

Husbands! Wives! Want new Pep and Vim?

Soviet Delegate Gets New Long Island Home

MINEOLA, N. Y. (AP)—A 38-room mansion built at a cost of a million dollars for a former governor of New York will be the home of Vabarian Zorin, newly named chief Soviet delegate to the United Nations.

The Long Island estate at Upper Brookville was bought by the Soviet government for $80,000, according to the deed recorded in the Nassau County clerk's office, it was revealed yesterday.

The two-story red brick Georgian-type mansion once was owned by Nathan L. Miller, who was New York governor from 1921 to 1923.

Another Train Wreck In Korea Fatal To 20

SEOUL, Korea (AP)—Army authorities today reported an unofficial toll of 20 killed and 159 injured in a wreck of a Korean passenger train near here yesterday.

At least 50 additional injured were treated at the scene.

Most of the casualties were school children.

Junior High Game

While the Tigers are battling tonight with Northside in Fort Worth the eighth and ninth grade junior high squad will remain here to meet Hamlin at 8 o'clock.

Tonight's tilt in the Tiger Stadium will be the fist tilt of the year for Coach Gene Gibson's squad.

Admission is 50 and 25 cents.

SERVE CRAB MEAT AU GRATIN IN EARTHENWARE CRAB DISHES. Nautical decoration lends eye-appeal to fish dishes

Bahamas, Caribbean Islands Are Rich Gourmet's Paradise

The vacation visitor to the Bahamas and the West Indies returns with pleasant memories of happy experiences and a new appreciation for a cuisine that makes the most of native dishes and at the same time reflects a definite European influence.

Fish of every conceivable variety is served in a galaxy of interesting ways. Many of the dishes have evolved into tradition that smacks of both history and legend of the isles of the Caribbean waters; and an out-of-the-ordinary flavor that lingers in the visitor's recollections is quite often achieved by a subtle infusion of island rums with other seasonings.

Native Bahaman dishes can and do compete with the French flavor. The native is somewhat limited in his kitchen equipment cuisine for tastines and unusual and his range of condiments, but he makes the most of the foods at hand.

Conch, which is sometimes scorned as a tough, unpalatable moluse, becomes the epitome of sea food when minced and fried to a brown crusty oval and eaten hot from the fat kettle.

Guava duff, a blending of tart and sweet, is a dessert experience. Peas and rice, in one form or another, are eaten almost the world over, but the Bahaman version adds variety.

BAHAMA PEAS AND RICE

1 large onion
¼ pound salt pork, diced
1 cup canned tomatoes
2 cups pigeon peas
2 cups rice
fresh thyme
1 small pod hot red pepper

Soak peas overnight then put on to cook in clean water. When peas are almost cooked, in separate pan fry diced pork and onion together until brown, add tomatoes and thyme and red pepper. Put boiled peas in pan large enough to contain both them and two cups rice. Put peas on bottom and uncooked rice on top. Cover with 4 cups water. When water boils, add combined pork, onion and tomatoes and cover pot. Let cook, without stirring until rice is done and liquid is dried out.

Black-eyed peas or any other almilar peas may be used where pigeon peas are not available.

Ferguson, a Nassau cab driver almost all the tourists meet, insists that of all the native dishes, guava duff is the best. He has a guava tree in his own yard, so guavas are not the problem they are to a West Texas housewife. However, she can find them canned on some fancy food shelves.

FERGUSON'S GUAVA DUFF

½ cup butter
1 cup sguar
1 egg
½ cup milk
1 cup sliced guavas
½ cup flour
1 tablespoon soda
¼ teaspoon salt

Cream sugar and butter, then add egg and milk. Combine flour, soda and salt, then add to creamed mixture. Have the mixture stiff enough so that it holds its shape.

There are two ways of cooking duff. You can either drop the ball of dough into boiling water, as you would cook dumplings, or steam it in a can or steamer.

Steamer method: Put half the dough in the can, lay the sliced guavas on top and add the second part of the dough. Seal can and steam for one hour.

Boiled method: Drop dough into water boiling rapidly to cover your dough, into which guava has been folded. Drop dough into water and let stay until fork stuck in balls comes out with no dough sticking to it.

Serve hot with a hard sauce made from butter and powdered sugar creamed together and flavored with rum.

Another native dish of the Bahamas is fish stew. Because Blackbeard and his pirate crew may have eaten such a dish in the days they were in Nassau, it is Stew, or Pirate Stew.

BLACKBEARD'S FISH STEW

3 or 4 pieces of bacon or ¼ pound of salt pork
1 medium sized onion
1 cup canned tomatoes
1 small green pepper
¼ teaspoon thyme
pinch red pepper
2 pounds uncooked fish

Brown diced onion and pork together. Then add tomatoes, green pepper, thyme and red pepper. Cook slowly for fifteen minutes. Add fish and cover pan. Let cook slowly for twenty minutes, or until fish is well done. This is excellent if cooked ahead of time and then warmed up, letting the fish fully absorb the stew flavors. A little water should be added if tomatoes boil down too much. Stew should be slightly juicy.

Either as hors d'oeuvres or a main dish, conch fritters are one of the favorites in the Bahamas. Native waiters at Nasasu hotels serve these hot from warming trays which they carry slung from their shoulders. Outdoor cocktail parties have open - air grills on which a kettle of fat fried conch fritters and, guests gather around and eat them hot from the kettle.

One of the Nassau calyposos is 'Conch Ain't Got No Bone." Conch is one of the natve staples. But since it is not available here, diced shrimp or lobster or scallops can be used just as effectively if one wishes to do a seafood fritter the Nassau way.

NASSAU CONCH FRITTERS

½ cup flour
¼ teaspon salt
1 egg yolk beaten with
1 tablespoon oil
½ cup flat beer
1 cup finely diced conch
1 egg white

Mix together ingredients and put aside in a warm place so that the batter becomes fluffy. Beat egg whites stiff, then fold into batter. Add raw chopped conch, (shrimp lobster or scallops.) Drop batter on a spoon into hot fat and fry until golden brown. Serve hot on toothpicks.

Puerto Rican Glamour

Two glamour hotels in San Juan, the Condado Beach and the Caribe Hilton, include unusual fish dishes among their attractions for tourists to Puerto Rico.

One of the Caribe Hilton's fish dishes is named for a fisherman's legend. Called San Geronimo, it is red snapper simmered in butter, seasonings and rum.

The story is that an old fisherman, who was always accompanied to the water's edge by a faithful dog, went fishing in a raging sea and never returned. On the jutting rocks at a point near Fort San Geronimo, the loyal dog kept watch for his master through the night. At dawn, he had turned to stone and the stone canine of natural rock formation is one of San Juan's landmarks. Here is the elegant namesake dinner dish that can be a landmark too, in eating enjoyment.

RED SNAPPER SAN GERONIMO

4 lb. red snapper
½ lb. butter
1 sliced onion
2 large tomatoes
1 bay leaf
Queen olives (six cut in halves)
½ green pepper
6 oz. gold rum

Simmer red snapper in the butter for about ten to fifteen minutes. Add onion, tomatoes, bay leaf, green pepper, and rum. Simmer about 20 minutes more until onion and pepper are cooked. Season with salt and pepper and serve.

A delicious lobster creole at the Condado Beach is prepared with fresh rock lobster which abounds off the Island of Puerto Rico, but frozen lobster tails make an equally outstanding dish.

LOBSTER CREOLE

Boil 2 lobster tails (1 lb. each) until tender. Remove shells and cut into bit sizes. Prepare 2 cups of a good creole sauce with green pepper, onions, celery, tomatoes and 1 clove of chopped garlic. Mix with lobster meat, season to taste and reheat. Just before removing from fire, add 1 oz. of gold rum, and serve in heated casserole dish.

A big bass or anny other large whole fish, stuffed and baked, makes a hearty and majestic dinner dish for a special occasion.

BAKED FISH WITH STUFFING

Clean and wash any large, whole fish. A four-pound fish makes six servings.

For the stuffing, flake enough of any well - boned, inexpensive white fish to obtain one cup, and force the fish through the food chopper. Combine it with one cup of bread crumbs, soaked in milk. Sauté ½ chopped small onion in ½ cup butter and combine. Add 1 oz. of rum. Season to taste. Force through the chopper once again and gradually add one slightly beaten egg white.

Fill bass with the above stuffing. Place in well-buttered baking dish. Add 2 cups of water, one carrot, one small stalk of celery and one smal sliced onion. Top fish with melted butter and cook in moderate oven for 40 minutes basting occasionally. Remove fish to a hot platter. In the baking dish blend 1 tbsp. corn starch and 1 oz. of rum to fish sauce, reheat and pour over fish. Garnish with wedges of lemon parsley.

Deserts

Caribbean desserts frequently make use of both coffee and rum. Barbados pudding is a dessert to try for special occasions, and it can be made with rum instead of rum extract, replacing a part of the liquid. But the extract and coffee achieve a good flavor blend. This recipe serves eight persons.

BARBADOS PUDDING

3 cups milk
1 cup strong coffee
2 cups soft bread crumbs
2 eggs slightly beaten
½ cup of sugar
½ teaspoon salt
1 teaspoon rum flavoring
2 tablespoons melted buter or margarine
Nutmeg, chocolate sauce

Combine milk and coffee; scald and pour over bread crumbs. Combine eggs, sugar and salt, add bread mixture slowly to egg mixture and add flavoring and butter. Pour into custard cups and sprinkle with nutmeg. Set cups in pan of hot water and bake at 325 degrees, moderate oven, for 1 hour or until custards are firm in center.

Chill and serve with this hot or cold chocolate sauce: Melt 2 squares chocolate; add ½ cup sugar and 1 tablespoon margarine. Add slowly 1 small can evaporated milk and cook over hot water until thickened.

Tropical blend

West Indian whip is a real taste of the tropics, with bananas added to the rum and coffee flavor blend. This is a recipe that will serve six persons, and it is a delightful climax for a company meal or an enjoyable sweet with coffee when guests drop in.

WEST INDIAN WHIP

1 envelope unflavored gelatin
¼ cup cold water
1 cup strong, hot coffe
½ cup sugar
1 cup ginger ale
½ to 1 teaspoon rum flavoring
1½ cups diced ripe bananas

Soften gelatin in cold water and then dissolve in hot water. Add sugar and stir until dissolved. Add ginger ale and rum flavoring to taste. Chill until consistency of unbeaten egg white. Whip with rotary egg beater until fluffy. Fold in bananas. Spoon into lightly-oiled one-quart mold. Chill until set. Serve with sweetened, rum flavored whipped cream.

Corn contains more oil than any other cereal.

save up to 25¢ per pound

. . . yet enjoy the richest coffee of all.

Smart housewives know that the **true** cost of coffee is measured by the **number of cups** a pound of coffee makes . . . not by the price they pay for it in the store. Yes, the **cost per cup** is the thing that counts with women who know how to buy.

That's why more and more folks are switching to MARYLAND CLUB Coffee . . . the coffee that can make 10-15 more cups per pound* . . . the coffee that, in actual use, can save you up to 25c a pound!

No wonder Maryland Club is called the richest coffee in the world . . . no wonder less of it is required to make a flavorful cup of coffee . . . for Maryland Club is the brand that possesses exactly the perfect ratio of rare coffees, matchlessly blended.

Try Maryland Club and discover for yourself how really good coffee can be . . . and how economical, too! Buy coffee the **smart** way and save up to 25c a pound . . . buy Maryland Club! Maryland Club . . . the coffee served by famous restaurants and celebrated hostesses throughout the Southwest.

ADLAI AT BIRTHPLACE

Gov. Adlai Stevenson (left center), making a sentimental journey to the house where he was born in Los Angles, points to the master bedroom at upper right where the birth occured in 1900. The two-story frame house, in a once fashionable district, is now a 13-room boarding house, operated by a republican. At his left are his two sons, Borden (center) and John. Man at extreme left holds a gold copy of the Democratic presidential nominee's birth certificate.

BUSINESS OUTLOOK

Nation Fast Getting Away From Government Controls

NEW YORK, Sept. 17 (AP)—The nation is fast wriggling out from under the controls imposed after the Korean War started a big defense build-up.

Price controls have disappeared from most items in common use because increased output brought their prices below the ceilings.

Wage ceilings have been pierced several times. And many businessmen regard wage controls as no longer effective.

Consumer credit and mortgage controls have been scuttled.

Material controls are being relaxed as more and more raw materials move into abundant supply. For example: zinc and lead.

Copper has come off the critical shortage list. Northwestern aluminum output has been cut by drouth which pares electrical power production. But many users of aluminum think this metal, too, will soon be in ample supply.

STEEL BALANCE SEEN

Steel output, increasing steadily, is expected to reach a balance of supply and demand early next year.

Recognizing this, Secretary of Commerce Sawyer says that the need for most economic controls will be over by the end of next year—barring a new or stepped-up war.

But many businessmen take the view that the need for most economic controls is already past. About the only one they concede is still needed is a priority system that sees to it that defense producers get first crack at any materials they need.

Industry leaders see little need any longer for controls over civilian production.

Most businessmen feel that arms production—delayed by such things as slow military ordering, frequent changes in plans and blueprints, and strikes in metal industries—won't hit its full stride before next summer and probably won't slip off much for a year after that.

PRIORITIES TO CONTINUE

Until this military hardware is provided, some sort of a priority system for getting materials to defense factories will likely continue on the books.

Much of the tooling-up of factories for defense production, and the expanding of industrial capacity to produce, has already been done. But there are still disputes between businessmen and government officials over some of these plans.

Various schemes for expanding aluminum production capacity, for example, are still being debated.

And now and then someone in Washington questions whether the steel industry's expansion program will prove big enough—despite fears in the steel industry that it may soon find demand for its product smaller than its swollen capacity to produce.

Quakers Come Up With Peace Plan; Asking Churchill To Use It

LONDON (AP) — British Quakers day they have sent Prime Minister Winston Churchill a four-point plan for peace in Korea.

The plan announced by the 20,000 strong organization calls for an immediate cease-fire based on agreements so far reached in the truce negotiations. The thorny prisoner-of-war question would be taken over by either "a commission representing a few Asian governments in which both sides have confidence or a mixed commission of two appointed by each side."

The plan called also for "full use" of India's good offices in all peace negotiations and for each side to stop press and radio statements "imputing evil motives to the other side."

Less Cheese And Chicken On 1953 Table

WASHINGTON (AP)—Current production trends point to a slimmer diet of dairy products, eggs, poultry and pork next year.

Beef may be the only livestock food that will hold its own with this year's supply.

This general outlook is drawn from several recent Agriculture Department reports showing that the production of milk, chickens, and hogs is declining.

These downturns were said to reflect the fact that rising costs are discouraging many producers.

The fall pig crop—which will become the pork supply next spring and summer—is expected to be 9 per cent smaller than last year's.

Milk production during the first eight months of this year was down 1,300,000,000 pounds from the 82½ billion pounds produced in the corresponding period last year. Production in August was the smallest for the month since 1940.

Commercial hatchery production of baby chicks during August was 15 per cent smaller than in the same month last year. For the first eight months of the year, hatchery production was down 3 per cent from the corresponding period last year.

The main cause of these downward production trends is an advancing cost of livestock and poultry feeds that is not being matched by corresponding increases in producer prices of hogs, eggs, poultry and milk.

On the other hand, supplies of most food crops—such as breadgrains, rice, dry beans, sugar, peanuts, and most fruits and vegetables—are likely to be as plentiful as this year.

Long-time Lebanon President Resigns After General Strike

BEIRUT, Lebanon (AP) — Lebanon's President, Bechara el Khoury, resigned early today and the Army's commander, Gen. Fuad Shehab, took over the presidential functions pending election of a new chief executive by Parliament.

Khoury's resignation came after a three-day general strike in Beirut the capital, called by opposition groups pressing for a cleanup of government "corruption."

President El Khoury was the first and thus far the only President of Lebanon. He was elected in 1943 after France ended its League of Nations mandate over the country and proclaimed its independence. He was re-elected for a six-year term in 1948.

Though an old-time patriot and fighter for Lebanese independence, El Khoury lost support in 1948 when he induced Parliament to amend the Constitution to permit his re-election. Since then, his once vast popularity has faded under charges of scandals and corruption leveled against him and his family.

The general strike culminated a lengthy opposition campaign, spearheaded by Socialist leader Kamal Jumblatt, to limit the President's powers and institute electoral, social and economic reforms. Since June the Socialists and other factions have demanded openly that El Khoury go.

The Army coup in Egypt which toppled King Farouk from his throne in July produced widespread rumors that similar action would be taken here. Opposition leaders openly called for a coup to unseat "corrupt" government officials.

Amid the mounting opposition Premier Sami Solh on Sept. 9 failed to get a vote of confidence from Parliament and resigned.

The climax came shortly after Premier-Designate Saeb Slam last night gave up a futile four-day attempt to form a coalition reform Cabinet.

Yesterday, members of a normally pro-El Khoury bloc in Parliament announced they felt the President's resignation was the only possible solution to the crisis.

Later, a general meeting of all opposition groups issued a communique that the general strike would continue until the President resigned and that all persons collaborating with El Khoury would be considered plotters against the will of the people.

A delegation of opposition leaders also called on Gen. Shehab to demand that the Army withhold support from the President.

Boy Scouts In Red

LONDON (AP) — Britain's Boy Scouts — nearing the half-million mark in membership — are 30,000 pounds ($84,000) in the red, the organization's annual accounting revealed today.

McCarthy Hit By New Yorker

NEW YORK (AP) — Sen. Herbert H. Lehman (D-NY) said today that "McCarthyism" is endangering this nation's civil liberties and destroying the people's faith in freedom and Democratic principles.

In a speech prepared for delivery before the AFL National convention, Lehman also said the Taft-Hartley Act "must and will be" repealed.

"Civil liberties include the freedom to think, write and speak as one pleases," the senator said, ". . . and above all to worship God as one chooses. . . .

"Today, the greatest and most immediate danger to our civil liberties is from what we call McCarthyism. The deadly and infectious quality of this danger was never so clearly demonstrated as by the results of the Wisconsin primary election last week."

Although Lehman never mentioned him by his full name, he was referring to Sen. Joseph R. McCarthy (R-Wis) who last week was overwhelmingly chosen as GOP nominee for re-election to the U. S. Senate.

Lehman said "the McCarthyites unquestionably have an appeal. They come before the people as super-patriots. . . . They thrive on fear, they revel in it."

Another speaker at the convention today will be Sen. Wayne Morse (R-Ore).
