

Area Farmers Form Bindweed Control Group

Approximately 25 county farmers in a weed control meeting recently organized the Collingsworth County Bindweed Association to fight that noxious weed in the area.

Jim Wood was elected chairman and James Sullivan secretary.

"The weak point in our efforts to stamp out bindweed in the past has been that we don't follow up our first application, whether it is 2-4-D or soil sterilants," County Agent J. W. Thomas, who is helping with the work, explained.

"The failure of those fellows who attempted to use soil sterilants is that they are either blown away, washed away, or they don't get enough on," he continued. "In your 2-4-D, it's lack of follow-up, because you can't get bindweed with one application."

From the point of organization, Mr. Thomas indicated that the program will be carried by the Association. If members in a vicinity get together and begin a cooperative program to get rid of bindweed, they probably will ask the railroad, if it goes through the area, and the commissioners court to work with them in cleaning out the weed on right of way.

In addition to setting up the bindweed organization, the group attending the recent meeting heard discussions of the various methods of combatting bindweed and of experimental work being done in that direction.

County Fires Keep Department Busy

The Wellington Fire Department was kept busy Sunday and Tuesday when they were called out for five fires.

About 10:30 Sunday morning the truck was called to the Raymond Ross home, four miles north of Quail where a pile of burs caught fire. The department was able to keep the home from catching on fire. Raymond Terry drove the truck to this fire.

At 12:30 they were called to the Farmers Co-op Gin where approximately 15 to 20 bales of cotton had caught fire. The bale where the fire actually started was the only one destroyed while the other bales were just damaged. Raymond Terry also drove the truck to this one.

The third fire which took place Sunday was a home three miles north of Dodson. It was the farm of Elmer Hightower but little damage was reported. J. L. Warrick drove the truck.

Two fires occurred Tuesday, one in the morning at the Lutie Gin, when a pile of burs caught on fire and no real damage was reported. The second fire occurred at the airport at 12:30 when a grass fire started near a hangar. Terry drove the truck to the Lutie Gin and Jim Williams to the airport.

Fire Dept. Asks Help In Reporting Fires

The Wellington Fire Department is asking the help of rural areas in reporting fires outside of the city, Lawrence Warrick, assistant chief, said following a meeting of department members Monday night, November 28.

"We often have trouble finding a rural fire that has been reported, and we are making this request:

"When you turn in a rural fire alarm, state the location of the fire and how to get to it as clearly as you can. Then if it is at all possible, have someone

meet the rural fire truck where it is to turn off the pavement and lead it to the fire. Or if it's not along a paved road, have someone stationed where we are to turn off the main road in your community.

"Most of the members of the Department do not have the opportunity to get out over the county and know where everyone lives. It will help us, and it may save your home or other valuable property if you will do this," Mr. Warrick declared.

He cited one of the fires Sun- (continued on page 12)

Legion Sets Boxing Program For County Boys

The Frank King Post of the American Legion will sponsor a boxing team from Wellington to include boys in both the high school and open divisions of Golden Gloves, O. C. McMinn, commander, announced today.

Jimmy Thompson, who fought twice in state Golden Gloves competition in Fort Worth, has been selected to coach the team and will be in complete charge of it.

McMinn also announced that plans are being considered to hold a Golden Gloves tournament here, with winners competing in the regional tournament at Amarillo.

This is not connected with the athletic program of Wellington high school, however, the school is co-operating by lending equipment it has on hand, McMinn pointed out.

A meeting of the American Legion Committee in charge of the boxing program and of all boys who wish to participate has been called for the Legion Hall Friday night, December 2, at 7:30. This will be a short meeting and those who want to do something else during the evening can do so, McMinn said.

Boys unable to attend the Friday night meeting can come by the Legion hall at 10 a. m. Saturday.

This program is for all boys of the county, McMinn emphasized.

"It is one of the Youth programs of the American Legion, but at the same time it is a community project, planned to give the boys something to do in the way of wholesome supervised entertainment. We need the co-operation of the entire community in putting over our boxing program," the Legion commander declared.

The boys will be under the complete supervision of Coach Thompson at all times, although there will be several Legionnaires or other interested men on hand at all times to assist.

A complete insurance program is being worked out to cover any injuries the youngsters might receive.

Fights will be matched with similar boys clubs throughout the Panhandle, since none of the schools in this area are offering boxing as a sport. These will include matches with Amarillo, Borger, Pampa, Dumas and others.

Weights will start at 60 pounds and there will be a division for every boy up through heavy weight.

The boys will train in the American Legion building, but matched fights will be held in the community building.

Many of the boys fighting in the high school division will be participating in the sport for the first time, but the open division will draw some of Wellington's (continued on page 12)

"The show will be good entertainment for all. Come and bring the whole family," the sponsors urge.

A small admission will be charged.

THIS HUNTER BAGGED HER DEER

One of the more successful hunters this deer season has been Mrs. John Robert Henard, who is shown with the 4-point buck she killed recently near Wimberly, in Hays County. The hunt came on one of the bitter mornings after a cold front had gone down through Texas, and Louise Henard remarks that she was wearing two sweaters, a shirt, a field jacket, two pair of trousers, wool socks, shoes and overshoes. This didn't affect her accurate aim.

Burton Love, 36, Area Rancher, Dies Friday

Burton Love, 36-year-old Wellington rancher, died in St. Joseph's Hospital Friday night, November 25, about 11:30 P. M. He had been in desperately ill health most of the time for about eight years, and had undergone surgery numerous times during the period.

Mr. Love had lived here since he was a youth, moving to Wellington from Abilene with his family.

Funeral services were held at the First Baptist Church Sunday, November 27, with the Rev. Bill Thomas, pastor, and the Rev. Delmar Freeman, pastor of the First Christian Church officiating. A large crowd of friends from every walk of life gathered to pay final tribute.

(continued on page 12)

"We can give anybody much keener competition than we were able last year. We have more experience among players on both the boys and girls teams, and in our playing recently, we have been showing up good.

"Samnorwood is coming down with full backing from their fans, who are noted for their support of the Eagles and Eaglettes. This should be one of the best games, either conference or non-conference, on the Rocket court this year," Clement continued.

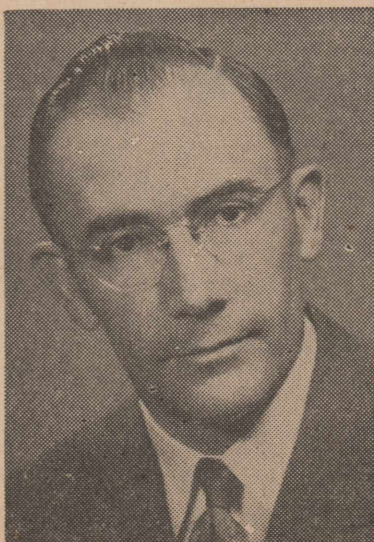

The doubleheader starts at 7:30 p. m.

Dr. Lindell O. Harris To Speak At Baptist Church

Dr. Lindell O. Harris, chairman of the H-SU Bible Department will be guest speaker Sunday, December 4, at the First Baptist Church, Homer Peden, Music Education Director, announced this week. Dr. Harris will be here for both morning and evening services. The morning services begin at 10:50 and the evening service at 7:30. All members are urged to attend and all visitors are welcome.

Dr. Harris served as president of the Baptist Bible School in Honolulu, Hawaii and as pastor of the Honolulu University Baptist Church for six years, being appointed president by the Southern Baptist Foreign Mission Board.

He also served as chairman of the Hawaiian Baptist Mission for a year, and as treasurer for four years. During his time in Hawaii, a building for the Bible school, located across the street

from the University of Hawaii, was donated by the Texas Women's Missionary Society. Dr. Harris is a graduate of (continued on page 12)

Approximately 24,000 bales of cotton has been ginned in Collingsworth county this season and the crop is now approximately 90 per cent out, County Agent J. W. Thomas estimated Wednesday morning.

This means that Collingsworth likely will make the mid-season estimate of 27,000 bales, far above what was expected when cotton harvesting began.

The county lost a lot of bolls because they were not completely developed when the early frost hit, and especially was this true in the irrigated fields.

"We really got hurt on our late planting and early frost, and that's what hurt our pay-off on irrigation this year," the county agent commented. "But we do know we've got the pay-off on irrigation for the future."

Mr. Thomas estimated that in some fields, as many as half the bolls will never do more than crack.

All of these will be gathered, it is believed although the grade will be low.

Most of the cotton is being machine gathered now, and this has down-graded the sample, ginners from over the county report. Much of the cotton is bringing from 25 to 28 cents, although it is still going into the loan.

Mr. Thomas estimated that the entire crop probably will be out by the first of the year, one of the few times this has happened in recent years.

Mustard Can't Stop Growing

A mustard plant that didn't know when it should stop growing was reported this week by Mrs. W. C. Killingsworth, who lives at 1504 11th Street.

Growing in a patch planted about September 1, the plant measures 54 inches across. The largest leaves, those near the bottom, measure 27 inches in length and from 20 to 22 inches wide. There are 17 of these large leaves.

Mrs. Killingsworth keeps the plant covered at night and so far it has not frozen, although the covering has flattened the plant.

"I never saw anything like it and I've been growing mustard a long time," Mrs. Killingsworth said.

Mrs. Moody Buys Hazel's Laundry

Announcement was made last week that Mrs. Waymon Moody has bought Hazel's Laundry from Hazel Shefflet, and will operate it in the future as Moody's Laundry.

Mrs. Moody said that the employees of the laundry will be retained, Virgie Peeks, Mrs. J. D. Gibson and Mrs. Dave Brewer.

In addition, her parents, Mr. and Mrs. L. A. Wall, who have been living at Hereford several years, are returning here and will be associated with her in operation of the laundry.

"We have sincerely enjoyed serving you," Mrs. Shefflet said, "and we ask that you give Mrs. Moody the same fine patronage you have given us."

NO-NOX

Gulf No-Nox burns clean

Here's proof: Note the black deposit on plate at left, caused by the "dirty-burning tail-end" of gasoline—the part Gulf refines out in making New Super-Refined NO-NOX. But see how clean new NO-NOX leaves the plate at right. Now—in your own new 1956 car—see how clean-burning NO-NOX can give you more miles per gallon in the short-trip, stop-and-go driving you do most.

Gulfpride Select works clean

Here's why: Most conventional oils are refined only to the stage shown in A. But New Gulfpride Select is further refined by the Alchlor Process—removing up to 15% more of the carbon-formers, in B... C contains the new super-refined oil that gives you more miles per quart because it has natural viscosity (body)—contains no artificial thickeners that break down in service.

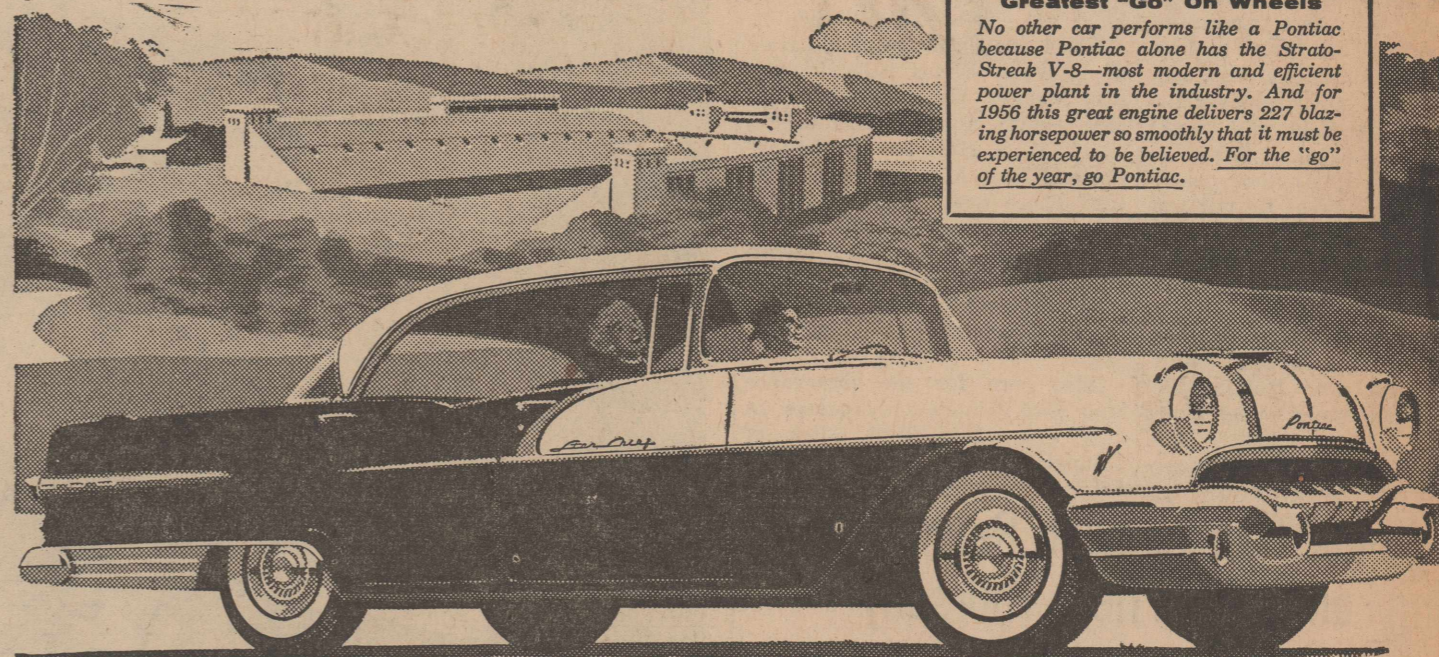

REMEMBER: No gasoline alone can give you today's finest performance...no oil alone can give you today's finest protection. Get the new super-power GAS-OIL TEAM...

Mr. and Mrs. E. S. Hale Observe Golden Wedding Anniversary Sunday

Mr. and Mrs. E. S. Hale, 1305 East Avenue, observed their golden wedding anniversary with an open house Sunday, November 27, when their daughters and daughters-in-law were hostesses.

The couple has been Collingsworth County residents since 1940 and for seven years they have made their home in Wellington. Their wedding anniversary was Friday, but for the convenience of friends, the entertainment in their honor was held Sunday.

Two daughters, Mrs. Lester Scott of Sacramento, Calif., and Mrs. Alva Hall of Amarillo, greeted the guests and presented them to their parents, who were seated in decorated chairs. A daughter-in-law, Mrs. Elmos Hale of Kermit registered the visitors in a book made specially for the occasion, of gold and velvet with intricate trim.

Flowers in shades of gold, sent by friends decorated the rooms.

The serving table was covered with a lace cloth and centered with an arrangement of yellow carnations, holding a golden "50". On either side were tapers of silver and gold in crystal holders.

The three-tiered anniversary cake decorated with white flowers and golden bells was served by a granddaughter, Betty Jo Hale of Lubbock. Another granddaughter, Sue Hale of Kermit was at the crystal punch service. Mrs. George Hale of Childress and Mrs. E. S. Hale Jr., of Wellington assisted.

Both Mr. and Mrs. Hale were born in Tennessee, he near Smithville and she near McMinnville. They met as students in Short Mountain College. Later, Mr. Hale was a star route mail carrier and boarded with her parents, Mr. and Mrs. Franklin Pierce Jones.

Mr. Hale and the former Claudia Jones were married November 25, 1905. They moved to Texas in 1908, settling at Ennis. Three years later they returned to Tennessee for a year, then came back to Texas, this time settling near Quanah. They lived at Kirkland a number of years before coming here.

He has been a farmer and livestock raiser, and for the last seven years he has grown registered Angus cattle. He is vice-president of the Lower Caprock Angus Breeders Association, and a member of the state and national associations. He served two terms as road overseer in Hardeman County.

Mr. and Mrs. Hale have been members of the church of Christ about 50 years.

They remarked on the occasion of their 50th anniversary that they had wanted to come here for years before they moved, for they liked the looks of Wellington.

There are 6 children, Fred Hale of Lubbock, Elmos Hale of Kermit, George Hale of Childress, Mrs. Lester Scott of Sacramento, Calif., E. S. Hale Jr. of Wellington and Mrs. Alva Hall of Amarillo. There are 11 grandchildren and one great grandchild. All of the children and 10 grandchildren were present for the reunion. The other grandchild, Mrs. Troy Billingsley, lives at Fairbanks, Alaska.

Also here for the observance was Mrs. Hale's only cousin in this area, Mrs. Will Allen of Quanah.

The cotton harvest seems to be drawing to a close; but most of the ginner still think that we will approach the 27,000 bale mark—a remarkable record considering how dark things looked in August.

Hayden Williams has been down to see the blind man again. This time he told him that his next grand child would be a girl, and that turned out to be a fact for little Ramona Ann was born to Mr. and Mrs. Raymond Ford Sunday. The blind man also told Hayden where to drill his next test well, and Mr. Williams is going to try the test hole right there. I can't say how much I believe in the predictions of the man from Roaring Springs; but I do believe in these test wells. Richard Carter has an advertisement in this issue that I believe everyone who is interested in irrigation should read.

Goat Hopper is holding a big farm sale at his place on December 7. Here is hoping that he has good weather for his sale. However, there is one thing he may not know—when a farm sale is called off due to the weather—we run the ad again with the new date at half price. The circulars reprinted from the advertisement remain the same. Up in the snow country of Nebraska, Ohio, Wisconsin etc., the newspapers have a different plan. They have an insured ad costs 50 per cent more than the non-insured ad. If a farmer takes the insured ad, he gets his re-dated advertisement run free of charge. Our plan works out the same way in dollars and cents. We never did find any buyers for the insured ad here in the ordinarily beautiful weather of the Golden Spread.

Last spring Jones Singley ran a series of Purina ads advising people to keep their laying flocks and saying that the demands for eggs would be tremendous this fall. This was at a time when eggs were low in price. Now, it has happened. It is almost impossible to buy country fresh eggs in Wellington today, and it is difficult to get really first quality eggs at the grocery stores. The price for the best quality eggs is liable to go higher.

Basketball should prove to be interesting at Wellington this year. Coach E. W. Clement has a lot of fine talent on both boys and girls teams. Basketball is now the number 1 game of the nation far surpassing either football or baseball in attendance. One of the great needs of the Wellington schools is a more adequate gymnasium. Just how this can be financed under the present conditions is something I do not know.

Zook Thomas is starting another drive to raise money for the Wellington Cemetery Association. Great progress in improving the two cemeteries has been made in the last few years, and the work that has been done should be continued with an increased tempo.

More attention should be paid to the efforts that are being made to control bindweed in this county, and to the efforts of the newly set-up bindweed community. I had experience with this pest on a farm I once owned in Swisher County and it cost a lot of money to get rid of it. The cheapest remedy is get rid of it entirely while it is still a small plot.

Mr. and Mrs. Mike Crouch and daughter of Borger were here during the week end visiting his sister and brother-in-law, Mr. and Mrs. Cal Sugg, and to attend the funeral of Burton Love. Mr. and Mrs. Crouch lived here before moving to California several years ago. Later they returned to Texas, locating at Borger.

Mrs. G. J. Gilles of Midland is visiting in the home of her parents, Dr. and Mrs. C. B. Jones. Their son, Frank Jones, a freshman architecture student in Texas Tech, Lubbock, was here for the Thanksgiving holidays.

Dale Pedigo, a student of West Texas State College, Canyon spent the week end as a guest in the home of Mr. and Mrs. George Scott.

Mrs. Floyd Hood, who is attending San Jacinto Beauty School, Amarillo, was home for Thanksgiving, while Floyd Marvin Hood, a freshman in Texas Tech, Lubbock, joined his parents for the holiday.

Personal

Ed Bawcom and Walter Keisling, students in Ranger Junior College, Ranger, were here for Thanksgiving. Bawcom visited his parents, Mr. and Mrs. Gene Bawcom. Keisling enrolled at Ranger after completing his Army service.

Guests in the home of Mr. and Mrs. Hugh Longino and their daughter, Mrs. Robert Roark and family during Thanksgiving, were another daughter, Mr. and Mrs. Jimmy Stacey and daughter,

Mary Nella, of Amarillo; a sister-in-law, Mrs. Eula Hicks of Odessa; and an aunt of Mrs. Roark's; Miss Lillie Roark of Burkburnett.

Mrs. Tot Parker of Odessa returned to Wellington during Thanksgiving to visit friends and attend to business.

Mr. and Mrs. Cameron Beam spent the Thanksgiving in Phillips with Mr. and Mrs. Vernon Ratzlow.

Jesse Davis, student in West Texas State, Canyon, visited his parents, Mr. and Mrs. G. O. Davis and friends here during Thanksgiving.

Visitors in the A. Y. Bell home over the holidays were Henry Crain and Mr. and Mrs. Newton Crain and their two daughters of Canyon; Mr. and Mrs. B. F. Wolford and daughter of Dublin; Mr. and Mrs. Earl Arthur of Wichita Falls; and Mr. and Mrs. Julius Haralson of Corsicana.

Mrs. J. D. Aaron and Mary Beth and Mr. and Mrs. Cal Aaron visited over the Thanksgiving holidays with Jo Ann Aaron and Maxine Uselton. Jo Ann and Maxine accompanied them to Fort Worth where they visited Mrs.

J. D. Aaron's brother and sister. Mrs. Aaron's mother, Mrs. L. S. Keller of Burelson met them in Fort Worth for a visit

Mr. and Mrs. Fletcher Curry spent the Thanksgiving holidays visiting with her sister, Mr. and Mrs. Tom Blake of Lefors.

Patsy Patton of Hardin Simmons University in Abilene spent the holidays with her parents, Mr. and Mrs. Raymond Patton. Misses Rose and Marie Shadid and George Shadid visited during Thanksgiving with Mr. and Mrs. William Shadid and family of Anadarko, Oklahoma.

Mr. and Mrs. W. A. Coleman visited Sunday with a cousin, Harmond Lassiter, who is in the veteran's hospital in Amarillo.

Irrigation Wells In Collingsworth, Hall, Childress & Donley Counties

It appears to me some people are still confused about test holes for irrigation wells. Every few days some one asks me if you can really tell anything about test holes. No driller can tell you the exact amount of water you can get but if he has had the experience, and has the equipment he ought to be able to tell you whether you have enough water to pay off or not. There are men who come through the country every year that drill test holes and some have told the farmer that he had a 6 or 8 inch well and the farmer would believe this and spend several hundred dollars to get the hole drilled out and have nothing. Naturally he will say you can't tell anything about test holes, and you can't blame him. I know of some large holes being drilled lately in the vicinity of some good wells that were dry, and they spent above a thousand or so dollars to find out they were dry, and they could have gotten them a competent test hole driller and found out the same thing for two or three hundred dollars. We are working for irrigation in this county or any other county, because we know what it will do for the farmer and the community. We actually refused to drill a big hole for a farmer last year until he had the test hole drilled and he did not have irrigation water. Some people might say they are after the drilling, but did you ever stop to think how much it hurts to say, "Well, it was a dry hole". I am enclosing a list of holes that we drilled out since January 1, 1955 until now. I have recommended drilling out thirty-six holes and thirty-five have made as good or better than I told the man it would make.

The following were drilled by us in this trade area.

- Albert Oldham, 6", Samnorwood Community
- Sidney Elmore, 6", Wellington, Texas
- Cliff Camp, 4", Kelley Community
- Cliff Camp, 5", Kelley Community
- Fred Cox, 8", Loco Community (This man was told you couldn't tell about test holes.)
- Barney Glenn, 4", Wellington,
- Zook Thomas, 6", Wellington
- Mrs. Vernon, 8", Buck Creek Area (Lives in Amarillo)
- Hubert Mauldin, 6", Loco Community
- Paul Bell, 4", Quail Community

The following test holes were drilled but the big hole drilled by someone else.

- Claude Caison, 6", Wellington,
- Raymond Ward, 5", Wellington,
- A. F. Wischkaemper, 4", Samnorwood,

The following holes were drilled by Carter Drilling Co. in the joining Counties after first drilling the test hole.

- Ottie and Oran Jones, 4", Memphis,
- Lem Weaver, 6", Silvertown, Texas
- Doc Fowler, Had forty feet sand gravel but was dry hole. This is the one missed.
- Doc Fowler, 8", Memphis, Texas, (Lesley Community)
- Bryan Adams, 5", Memphis, Texas (Lesley Community)
- Doolie Wingham, 4", Lesley, (Mr. Fitzgerald in Amarillo owns well)
- I. E. McDaniel, 6", Memphis, Texas, (Water was bad)
- J. W. Revell, 6", Lesley, Texas
- J. W. Driver, 5", Lesley,
- Clyde Fowler, 6", West Lesley
- Clyde Fowler, 6", West Lesley
- Clyde Fowler, 6", West Lesley
- Clyde Fowler, 5", West Lesley, (Water was bad)
- R. D. Revell, 5", Lesley
- Q. N. Clark, 4", Lesley
- Johnie Fowler, 5", Lesley
- Carrol Fowler, 4", Lesley (Black Sisters in Memphis owns well.)
- George Craft, 6", Lesley
- George Craft, 6", Lesley,
- Oran Jones, 6", Lesley,

The following were not drilled by Carter but the test holes were:

- Ed Thompson, 6", (Thompson Hdw., Memphis, Texas)
- S. A. Ellis, 6", (Memphis, Texas)
- Jack Moreman, 5", Hedley, Texas
- Jim Valance, 5 or 6" (test hole drilled by me, big hole was drilled by another driller and this hole was overlooked from the number I mentioned above.

I would be glad for you to talk to any of these people, and if you can find one I over looked that I recommended drilling and if it did not make as good or better than I told them it would I will drill you a test hole free of charge. That is what I believe in test holes. I left Wellington in 1937 and have been associated with Brown & Root Inc., Houston, Texas, and The Texas Company, Houston, Texas, in the drilling end with both companies since that time and I believe in my experience.

We also have five big holes to drill out at the present time in Collingsworth and Hall Counties.

Highlights and Sidelights FROM YOUR State CAPITOL

By VERN SANFORD
Texas Press Association

AUSTIN — Pieces of the Texas political puzzle begin to fall into place. Who will run for what may be largely developed by the end of the year, months ahead of the usual schedule.

State Sen. Jimmy of Angleton held a press conference Monday in Austin to announce formally his candidacy for governor.

Interested observers also are watching for an announcement from Atty. Gen. John Ben Shepperd. But chances are it won't be of a political nature. Reports have it that Shepperd may announce his retirement from politics at the end of his present term, to accept a position in West Texas.

For now, Shepperd said "no comment," when asked his plans, but promised an announcement "later." At present he says he has plenty to do, filling his job as attorney general. "I've got some hot potatoes cooking, and I intend to finish cooking them," he commented.

Another possibility is that former University of Texas Chancellor James P. Hart would announce his gubernatorial plans in mid-December.

Supreme Court Justice Will Wilson is being talked more and more as a candidate for attorney general. State Sen. Searcy Bracewell of Houston is considered a prospect for this post, or for lieutenant governor.

And a one-sentence card in the mails prophesies: "Obie Jones will be your next state treasurer." Jones is a state representative from Travis County.

DANIEL DRIVE GROWS
Movement to persuade U. S. Sen. Price Daniel to run for governor apparently are breaking out over the state.

In Navarro County, Democratic leaders who split over Shivers and Yarbrough and over Eisenhower and Stevenson united in signing a petition endorsing Daniel. A similar situation developed in Childress.

A poll of the heavily conservative Dallas County Democratic Executive Committee by the Dallas Morning News showed Daniel a strong favorite.

Observers felt this increasing activity indicated Daniel has given his supporters encouragement.

LINDSEY TO LEAVE POLITICS
House Speaker Jim Lindsey apparently has rejected the lure of higher political office.

He is to succeed Gen. Ike Ashburn as executive vice president of the Texas Good Roads Association on Jan. 1. Ashburn, retiring from that position, will take over as chairman of the board.

Lindsey will complete his present term in the legislature, he said, but will not seek elective office next year. Elected speaker before his 28th birthday, he had been considered a possible candidate for attorney general.

TAX PORTION FOR SCHOOL ASKED

Texans attending the White House Conference on Education this week planned to plug for a new school-financing idea developed in a report on the preliminary state conference held in Austin recently.

Their goal: "A percentage of all federal income taxes collected in each state should be left in the state for school support."

Another possibility suggested in the report was to extend the tax-supported educational period for all students from 12 to 14 years.

LABOR POLL TAX DRIVE

A drive to get a half-million union labor members to buy poll taxes is in high gear, says one of its leaders.

Poll taxes of union members are up as much as 70 per cent in some areas, said Jerry Holleman of Austin, executive secretary of the Texas Federation of Labor.

CIO, railroad brotherhood and Federation groups are working together on the project, according to Holleman.

TEACHER RETIREMENT PUSHED

Some 8,000 Texas teachers bypassed traditional turkey dinners to spend their holiday studying professional objectives.

Topping their convention agenda were plans for an organized campaign to gain voter approval for the teacher retirement constitutional amendment which will appear on next November's general election ballot.

Passage of the amendment is necessary, said the Texas State Teachers Association resolution, "to insure teachers for the flood of additional pupils enrolling in Texas public schools."

CITIZENS ARREST UPHELD
Sometimes even a private citizen can legally make an arrest, says the Court of Criminal Appeals.

One such instance involved an Air Force captain who stopped a weaving car and detained the intoxicated driver until police arrived.

A 2-to-1 court decision affirmed the resultant jail sentence and fine against the driver.

NEW LAWYERS SWORN IN
State Sen. Johnnie B. Rogers

of Austin, after six years as a lawmaker, now has the right to practice law. He was one of 81 new attorneys who passed the fall bar examination and were sworn in by Chief Justice John E. Hickman of the Supreme Court.

In the same ceremony, Dr. J. L. Walker of Austin became the second physician in Texas to be admitted to the bar.

SHORT SNORTS: Architects contracts on a new state courts and state office building have been awarded, and final plans are to be turned over to the State Building Commission within nine months...To show they mean business about "no cars for freshmen," the University of Texas officials have taken disciplinary action against a group of violators, some of whom lost the privilege of maintaining a car in Austin for an additional year...If present trends continue, Texas construction for 1955 will exceed 1954 by 12 per cent

Don Roy Raburn of West Texas State College visited over the week end with his parents, Mr. and Mrs. O. B. Raburn.

Jack Boverie of Amarillo visited over last week end with his mother, Mrs. A. C. Boverie, and aunt, Miss Katherine Boverie.

THIS IS TOUCH TACKLE?—Looks more like "clutch" tackle. North's Joan Smallman tries to bring down Chris Stilwell, who's making 20 yards on a punt return for South during the annual Coed Clash at University of Southern California at Los Angeles. North won, 12-0, before the ladies retired to the sidelines until next season.

Two Volunteer In Air Force

Two Wellington men, Larry B. Jesse and William L. Burkhart, volunteered in the Air Force and reported for duty November 9.

Jesse is the son of Mr. and Mrs. Thomas Jesse of Wellington.

Burkhart's parents are M-Sgt. and Mrs. Ivan Burkhart. Sgt. Burkhart is now stationed with the Army in Korea, and his family is remaining here while he is on that assignment.

Both young airmen are stationed at Lackland Air Force Base, San Antonio. Their families may write them at these addresses, Mr. Jesse said:

Sheriff Reports Quiet Weekend

Sheriff John Rainey reported a quiet week, with only five arrests, all for being drunk.

This is probably the lightest week all fall, he added.

The sheriff said he considered the county has been fortunate this fall, as there has been little law violation among the transient workers here for cotton picking.

Mrs. C. S. Needham is visiting with two sisters, Mrs. C. M. Bolton and Mrs. J. A. Gollighugh, both of Longbeach, California. She has been there for three weeks and plans to return home sometime in the spring.

LOOKING AHEAD

by Dr. George S. Benson
DIRECTOR - NATIONAL EDUCATION PROGRAM
Searcy, Arkansas

EDUCATION'S GREAT RESPONSIBILITY
American education, as an institution, is confronted with a great immediate challenge. It can be the means of carrying forward Christian civilization and human welfare, or through its failure it can be charged with turning the world backward to another dismal era such as The Dark Ages. Will it rise to the challenge, or will it fail as have the institutions of education in 20 preceding civilizations now dead? This question commands the attention of not only every educator and public official but every citizen.

The primary problem in American education today is that of public support—or, rather, the lack of it. It cannot meet this challenge; it cannot resolve its first obligation to the nation unless it has widespread support. The press of the nation, going back for at least a generation, indicates the chronic nature of the problem: The most persistent news stories over this period have been those concerned with the plight of education.

NO AGREEMENT

Why hasn't the citizenry of America provided adequate financial resources and widespread, active support for education? The basic reason is that there has been no universal understanding and agreement, among educators and the public generally, as to the institution of American education. There are many ideas regarding the objective and some are in sharp conflict. This conflict should be settled. Undoubtedly it is being agitated by forces working secretly to undermine our nation.

The No. 1 purpose or objective of American education today—in the midst of a world crisis—must be: To prepare people for citizenship in our own American Republic. There are, of course, a number of secondary purposes and objectives; but until this basic one is achieved, with the awareness and support of the entire citizenry, the great challenge to American education has not been met and the structure of human freedom will continue to be in jeopardy.

dom will continue to be in jeopardy.

LONG RANGE STAKE
The broader and loftier quest of education—for knowledge; for truth—is at stake too, in the fulfillment of the immediate challenge. If American freedom were to be destroyed, because of a generation's failure to understand freedom and the elements which safeguard it, mankind's quest for knowledge would be smothered for perhaps centuries. President Eisenhower has expressed apprehension because of (as the New York Times reported) "the meager education given our people as to what their obligation is to a free form of government, what it means to support it and what it takes to keep it and pass it on."

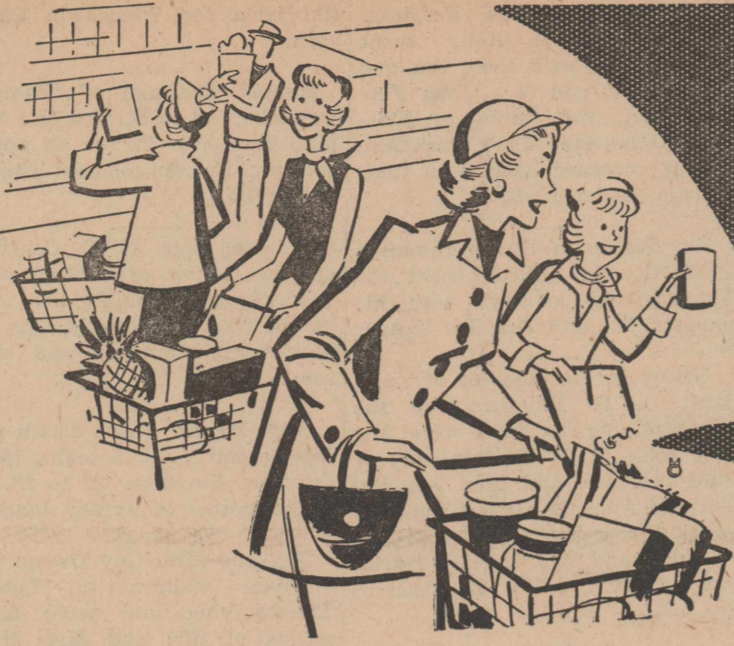

Without question the United States today is the foremost nation in the world. But are we likely to continue to hold this leadership? On the basis of history—No. Throughout recorded history no nation has remained on top long. Moral, political and economic decay has always set in to undermine the strength and bring about the fall of every nation or civilization that has reached the pinnacle. Moral, economic and political decay are conditions governed by intellect and character—the products of citizenship education.

AWAKENING NOW

The institution of American education has begun to awaken to the realities of the immediate challenge. Many Americans have been slow in recognizing the true nature of Communism and its false-face twin, Socialism; and this was a factor in the unpreparedness of education when the Red menace created a world crisis nearly 10 years ago. It probably will require another 20 years for adequate citizenship textbooks, materials and techniques to reach all the schools and colleges.

Meantime the fundamentals of citizenship education can be emphasized. These are: an awareness of God as revealed through Christ; development of such virtues as honesty, humility, courage, economic self-reliance, patriotism, and a sense of civic responsibility. Equipped with these elements of character, and aware of the great political and economic advantages of the American way of life, the new generation can accept its great heritage of freedom and deal with any crisis threatening it. And this education's responsibility. The American public will, I think, agree.

Fire Dept.—

(continued from page one)

We got a call saying there was a fire at Mr. Hightowers at Dodson. The truck went to the Bob Hightower place northwest of Dodson, but he didn't have a fire. Then we went to the Elmer Hightower farm and he didn't have a fire either. By tracing the call, we finally learned it was at the Elmer Hightower rental place several miles away. The rural fire truck traveled approximately 25 miles getting to the blaze and by the time we arrived it had been put out. Had it been a bad fire, the building would have been destroyed before we could get started on it."

Mr. Warrick reminded that half the fire calls answered last year were to rural fires, and that four of the five fires during the week-end were outside the Wellington city limits.

Crossroads Report

December 1, 1955

Dear Editor:

I see where the people who don't have much to do, so they keep statistics on such things, have that we are eating 92 million pounds more hamburger this year than in 1954.

On account of hardly anybody would eat hamburger if he could afford meat, this would indicate that our national prosperity boom is showing more in our garages than it is on our belt lines.

Anyhow, it looks like, around here, that in the next generation, nobody will believe that steak is real meat, on account of it don't taste like pickles and onions.
