The SDN Column

Nearly everybody is concentrating so much on "equality" that much of the fun and variety of everyday living may be spoiled some day.

The Texas Research League has come up with a recommendation that all tax support for public junior colleges should come from the state level. That would have the effect of putting everyone in the state in a junior college district and assuring that every property owner in the state would share in financing the buildings for junior colleges (the state already pays most of the actual instruction costs for junior colleges). It also could have the effect of making each junior college virtually a carbon copy of all other public junior colleges in the state.

And, the fact still exists that tax money which goes out and then returns via Austin has a way of declining in value en route, and even more so when it goes via Washington, D.C.

Equality is a popular word, but, as the old saying goes, some things still are more equal than others.

★ ★ ★

The women's "lib" proponents, who also dwell at length on equality, may have too much opposition in their own ranks to accomplish all of their avowed objectives. Our girls here at the newspaper office jokingly (I think) discussed the Wednesday "strike," "layoff," or whatever it was supposed to be, but someone promptly remembered that Wednesday was pay day and that ended it. Nobody wanted to be absent on pay day. And then there are some of them who go so far as to suggest that only those who are unable to make it as girls are really serious about this "lib" business.

★ ★ ★

Our town's Frankie Grimmett was moved up promptly to the No. 1 tight end position on TCU's football team following John Beilue's injury. Beilue, a junior letterman from Andrews, is expected to be out of action for at least two months. He will have surgery to correct a knee injury. WACIL McNAIR.

Today In History

Today is Thursday, Aug. 27, the 239th day of 1970. There are 126 days left in the year.

Today's highlight in history:

On this date in 1945, American troops began landing in Japan at the end of World War II.

On this date:

In the year 55 B.C., forces under Julius Caesar invaded Britain.

In 1776, the British were victors in the Revolutionary War battle of Long Island.

In 1859, the first oil well in the United States was drilled near Titusville, Pa.

In 1939, Nazi Germany demanded Danzig and the Polish Corridor.

In 1949, a hostile mob broke up a concert by the black singer, Paul Robeson, near Peekskille, N. Y.

Ten years ago - the United States complained to Kuwait that a boycott against Israel resulted in unwarranted interference in the business of firms operating in Kuwait.

Five years ago - Natchez, Miss., civil rights leader George Metcalfe was seriously injured by a bomb that went off in his car when he turned on the ignition.

One year ago - about half the staff of lawyers in the Justice Department's civil rights division agreed to protest the Nixon administration's desegregation policies after a delay in intergrating Mississippi public schools.

THE WEATHER

SNYDER TEMPERATURES: High reading Wednesday, 94 degrees; low reading, 61 degrees; reading at 7 a.m. today, 63 degrees.

Northwest Texas: Fair tonight and Friday. High Friday 92 to 98. Low tonight 58 to 68.

North Central Texas: Fair tonight and Friday. Hazy. Warm afternoons and cool at night. High Friday 92 to 99. Low tonight 60 to 69.

Northeast Texas: Fair tonight and Friday. Hazy. Warm afternoons and cool at night. High Friday 92 to 97. Low tonight 62 to 68.

Southwest Texas: Fair with warm afternoons and cool at night through Friday. High Friday 88 to 98. Low tonight 58 to 71.

Southeast Texas: Fair with warm afternoons and cool at night through Friday. High Friday 65 to 94. Low tonight 62 to 75.

South Central Texas: Clear to partly cloudy with warm afternoons and cool at night through Friday. High Friday 87 to 98. Low tonight 64 to 77.

West of the Pecos: Fair with warm afternoons and cool at night through Friday. High Friday 86 to 98. Low tonight 50 at higher elevations to 70 in south.

Coast: Light northeast wind, becoming southeast tonight increasing to 6 to 15 knots Friday.

SNYDER AN ALL-AMERICA CITY

32 AMERICANS BELIEVED DEAD

US Helicopter Shot Down

By GEORGE ESPERK
Associated Press Writer

SAIGON (AP) — Thirty-two Americans were believed dead today in one of the worst helicopter crashes of the Vietnam war, but the U.S. Command announced that American battlefield casualties last week dropped to their lowest level in 4½ years.

The weekly casualty report said 52 Americans were killed in action last week and another 358 were wounded. A spokesman said it was the lowest casualty total since the week ending March 5, 1966, when 61 Americans were killed and 177 wounded.

Enemy and South Vietnamese casualties also were down. The U.S. Command said allied forces killed 1,055 North Vietnanese and Viet Cong last week, the lowest in more than three years, while the Saigon government reported 247 of its troops killed, the lowest in a month, and 745 wounded.

The American report did not include the casulaties in the shooting down Wednesday of a 50-foot-long, 14-ton Chinook helicopter. Two bodies were recovered, seven men were injured, and 30 other Americans were listed as missing and presumed dead.

The big U.S. Army helicopter was hit by an enemy rocket grenade as it was coming in for a landing at Fire Base Judy, in the northern part of the country. It was transporting troops being withdrawn from Kham Duc, a base 13 miles east of the Laotian border which allied forces abandoned Wednesday.

The chopper crashed just outside the artillery base, spraying wreckage in several directions. A rotor blade hurtled into the base, killing two soldiers stationed there and wounding five others.

There were 32 Americans aboard the twin-rotor craft and only the co-pilot and a passenger, an infant, were rescued.

Home Policies Reviewed

SAN CLEMENTE, Calif. (AP) — President Nixon called in key Cabinet members and budget officials today for a meeting of the Domestic Council and invited them all to stay for evening at the theater in Los Angeles.

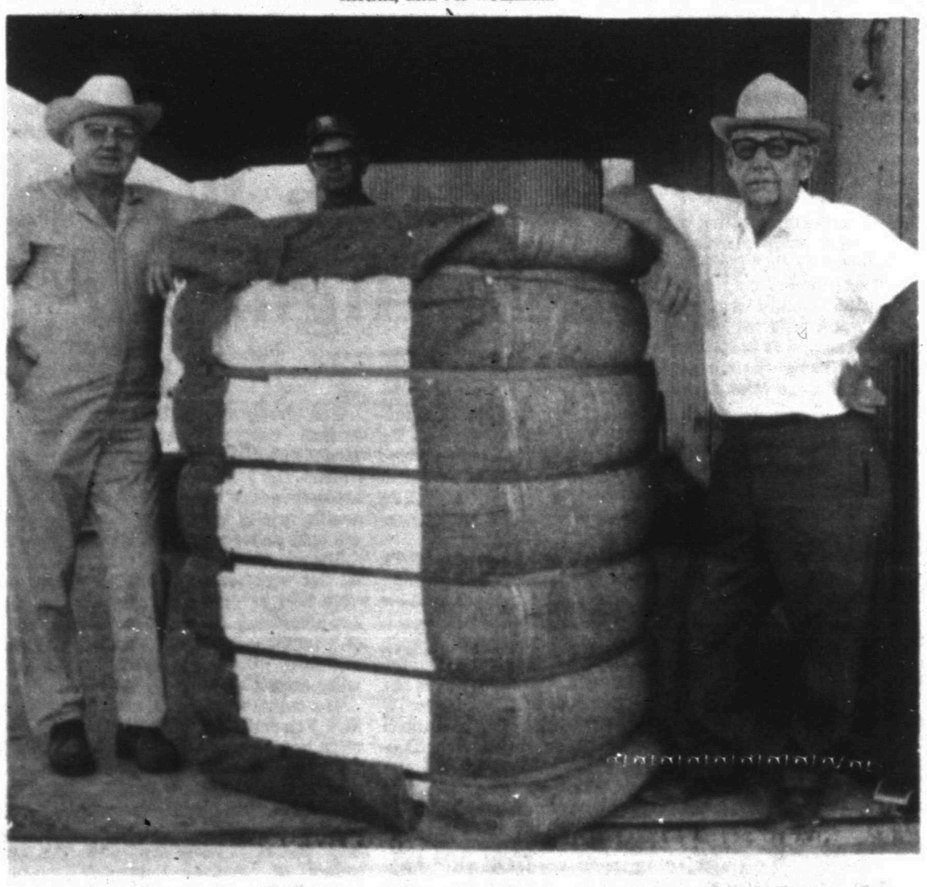

Nixon is reviewing policies on the home front, including the fight against inflation and sharing of federal revenues with state and local governments.

George Shultz, director of the Office of Management and Budget, among those attending today's meeting, said news Wednesday of a decline in the government's wholesale price index was a "fairly dramatic" sign that the administration's program to control inflation was taking hold.

The preliminary report on August prices said a sharp drop in food prices caused the index to decline five-tenths of one per cent. It was the first time the Bureau of Labor Statistics has reported a decline in the index since August 1968.

Talking to reporters Wednesday, Shultz said the administration was "still struggling" with the fiscal 1971 budget. He declined to speculate on its final total or reports that there might be a $10 billion to $15 billion deficit.

The officials, their wives and other White House officials were invited to join the President and Mrs. Nixon in the evening for a black-tie dinner and concert at the Los Angeles Music Center.

FIRST BALE — From left, D. T. Pierce, manager of the Paymaster Gin, and Bob Sutton, an employe, offer congratulations to W. A. McGlaun, Snyder businessman-farmer, who brought in the first bale of cotton for 1970 late yesterday afternoon. The bale weighed 605 pounds with the seed totaling 820 pounds. It was hand-picked off a 3½-acre dryland patch north of town.

Kathleen Working "In The System"

NEW YORK (AP) — Kathleen Kennedy, 19, eldest of the late Sen. Robert F. Kennedy's 11 children, says she would "much rather work with Indians or Eskimos—with people—than with ecology."

Because of environmental pollution, "slowly everything's dying out," the Radcliffe College freshmen said in an interview in the current issue of Seventeen magazine. "But I think the people suffering and dying right now are awfully important."

Interviewed before the end of the spring semester, Miss Kennedy spoke of her plans to work with Eskimos this summer. She worked with Indians on a reservation two summers ago.

Head Start Funds Okayed

Federal funds for operation of the Head Start program by Snyder Public Schools for Scurry County children have been approved, Congressman George H. Mahon advised this morning.

The Department of Health, Education and Welfare approved funds amounting to $45,542 for Head Start here, according to a telegram from Congressman Mahon.

E. D. Flynn, Snyder Public Schools Business Manager, said this was the amount that had been sought and the amount that had been anticipated in the school district's 1970-71 budget for that purpose.

To this amount will be added $27,829 in local funds to provide nine months of training for 90 pre-school aged children, including medical, dental, social and psychological services on a part-time basis.

First Bale Of Cotton Ginned

W. A. McGlaun, who says he has been farming all his life, brought in the first bale of cotton in Scurry County for 1970 late yesterday afternoon to the Paymaster Gin.

"This is sort of a hobby with me," said McGlaun - "I've had the second bale of the year for each of the past three years."

McGlaun's first bale came off a 3½ acre patch north of town. The total weight was 2,150 pounds of bolls with the bale ginning out 605 pounds and the seed weighing 820 pounds. It came out 28.13 per cent of lint to the amount of bolls on the trailer.

Of Western Prolific variety, the cotton was planted April 11 and 12, and it took 126 days to produce. Produced without irrigation, the cotton went 73 days at one stretch without water.

D. T. Pierce, manager of the Paymaster Gin, said McGlaun's first bale looks like "good cotton."

McGlaun said he also has a "big garden" with black-eyed peas, okra, tomatoes, etc. He is the local Texaco distributor but always has had an interest in farming and growing vegetables.

The first bale this year came in a little later than the average first bale.

Peacekeeping Idea Outlined

By THE ASSOCIATED PRESS

SAN CLEMENTE, Calif. (AP) — High administration officials say the United States would seriously consider agreeing to have U.S. and Soviet units join in a peacekeeping force for the Middle East.

The administration spokesmen say they have in mind a physical presence of the two powers, perhaps as an observer force, under a United Nations umbrella.

The concept was outlined to 48 newspaper and broadcast executives from 13 Western states Monday. Release of the information was withheld for 48 hours. Ground rules of the session forbid direct quotation and identification of the sources.

The officials said Israel, in particular, wants on-the-ground security arrangements for assurance it is agreeing to a real, not a paper peace. They said U.N. involvement would not mean mere recourse to the Security Council, which the United States considers loaded against Israel.

Administration strategy for the Middle East is being built around the possibility that the United States and the Soviet Union may be enmeshed there indefinitely in on-the-scene peacekeeping, the briefers said, and that both powers will have to agree to any settlement terms.

Whether the two would have to become involved in practical details of peacekeeping activities is still an open question, they said, but the United States never has precluded such an assignment and apparently does not intend to do so now.

The briefing was the third in a series of five that will cover all regions of the country. In large measure it was repetitive of one earlier in the month at New Orleans for the South.

On other points, the briefers said:

—Vice President Spiro T. Agnew is underscoring the "Nixon Doctrine" on his current Asian trip, promising support but encouraging Asian nations to help themselves.

—As a result of the Cambodian sanctuary operations, the chances of survival of the current Lon Nol government in Cambodia are better than 50-50, compared to about one in four before that move.

—The strategic arms limitation talks, viewed with continued cautious optimism, are considered to be the best arms control negotiations the United States has ever engaged in with the Soviet Union. And, the Russians are described as taking a more sober approach than ever before.

—On dissent in the United States over Vietnam policy, the administration was described as conscious of the concern of some of the country's most dedicated people. But one of the briefing officials commented that the people do not forgive leaders if they produce disasters—even if these disasters carry out the wishes of the people.

Amended Budget Gets Approval

Snyder School Trustees, in special session Wednesday, approved the amended school budget for 1970-71 in a total amount of $3,994,458. The proposed budget had been approved earlier, but the state requires that an amended version .. including exact ending balances as of the end of August be approved each year.

Also okayed by the board was installation of a facility to hoist students confined to wheel chairs from the first to the second floor of the high school. The school maintenance department will install the elevator-type hoist.

Reservations For Bush Luncheon

Persons interested in attending a luncheon at noon this Saturday honoring Congressman George Bush of Houston have been urged to make reservations by calling 573-5776 or 573-5182 as soon as possible.

The buffet luncheon at the Steak House will cost $1.65 per person. Congressman Bush, a candidate for the U. S. Senate, will stop here during a campaign tour through this area. He will go from here to Lamesa, then to Brownfield and on to Lubbock for a barbecue Saturday night. Gene Dulaney, his campaign manager for Scurry County, is handling arrangements for the luncheon here.

WTC Plans Go To Contractors

Plans have been checked out by 11 prospective bidders for the general contract on the Western Texas College construction project, it was announced this morning.

Dr. Robert L. Clinton, college president, said that a set of plans and specification has been provided at the college business offices at Thirty-seventh and Avenue S and that anyone interested may inspect them in the offices. These plans cannot be moved from the office, but those interested in general contracts or sub-contracts may order plans from the architects if they desire.

Dr. Clinton said that a number of prospective bidders on subcontracts have inquired about addresses of general contractors planning to bid.

General contractors who have checked out plans so far include the following:

J. W. Cooper Construction Co., Inc.; P. O. Drawer 3947; Odessa, Texas 78760, telephone 915 FE 7-7162.

Cates Construction Co.; P. O. Box 20258; Dallas, Tex. 75220; telephone 214 FL 2-1715.

Kasch Bros. Inc.; P. O. Box 1472; Big Spring, Tex. 79720; telephone 915 267-5286.

W&S Construction Co.; P. O. Box 231; Lovington, N.M.; telephone 505 396-4415.

H. C. Lewis, Gen. Contractor; P. O. Box 3131; Lubbock, Tex.; telephone 806 747-2511.

B-F-W Construction Co., Inc.; P. O. Box 628; Temple, Tex., 76501; telephone 817 778-8941.

Manhattan Construction Co.; 620 Noel Page Bldg.; 6400 North Central Expressway; Dallas, Tex. 75206; telephone 214 369-9226.

Avery Mays Construction Co.; 20300 Proctor Street; Dallas, Tex.; telephone 214 FL 2-4846.

Area Builders; P. O. Box 872; Odessa, Tex.; telephone FE 7-1723.

McCann Construction Co., P. O. Box 788; Fort Worth, Tex. 76101; telephone 336-4841.

W&S Construction Co.; P. O. Box 8505; Albuquerque, N. M. 87108; telephone 505 299-9566.

Slaying Victim's Body Found Here

The body of Abel Garcia Barrientez Jr., 30, was discovered by a brother, Manuel, in a culvert west of the Clairemont Road near Huffman Avenue about 6:30 p.m. Wednesday.

Justice of the Peace J. P. Billingsley ordered the body to be sent to Abilene for an autopsy.

The results of the autopsy indicated Barrientez had died as the result of six stab wounds, officers said. He is believed to have died Sunday.

Sheriff's Authorities, who are investigating the killing, said a warrant will be issued today for the arrest of a suspect. Several parsons have been questioned in connection with the death.,

Barrientez was born Sept. 6, 1939 in Snyder. He was a roofer.

Funeral service was set for 5 p.m. today at Templo Bautista, with the Rev. Leonard Gallegos officiating. Burial was to be in the Snyder Cemetery, under direction of Bolger Funeral Home.

Surivivng are the parents, Mr. and Mrs. Abel Barrientez Sr. of Snyder; his wife, of Lubbock; two daughters, Melinda and Melissa Barrientez; a son, Abel Barrientez III; three sisters, Mrs. Carolina Yuarra, Mrs. Nellie Martinez and Miss Marguerita Barrientez, all of Snyder; six brothers, Besente Barrientez of Lubbock, Manuel Ernesto, Gregorio, Necholas and Samuel Barrientez, all of Snyder.

Agnew Due In Cambodia

PHNOM PENH, Cambodia (AP) — Vice President Spiro T. Agnew, who is scheduled to arrive here Friday for a hurried visit with Cambodian leaders, will get a firsthand look at the rapidly expanding American role in Phnom Penh.

Six months ago, before Prince Norodom Sihanouk was deposed as head of state, the U.S. Embassy's staff numbered only 11 people, including secretaries.

The embassy now has a staff of more than 60 and is about to move into a new four-story building.

Xuan Thuy Fails To Show Up

PARIS (AP) — North Vietnam's chief delegate to the Paris peace talks, Xuan Thuy, failed to show up today for the 81st session of the talks, continuing an 8½-month boycott. But his deputy told newsmen he would be present next Thursday.

Thuy returned to Paris Wednesday after a 3½-month trip home. His deputy, Nguyen Minh Vy, said: "After a long trip, he is taking a little rest."

The American delegation was represented by Ambassador David K. E. Bruce, who missed last week's session, and the South Vietnamese by chief delegate Pham Dang Lam. The Viet Cong sent their delegation's third man, Nguyen Van Tien.

Thuy on his return to Paris indicated he brought no new peace proposals. But he said he would consider resuming secret talks with the Americans now that the United States is represented by a chief delegate instead of the previous acting delegation chief, Philip C. Habib.

Surprise visit turns into soupy tale

By Abigail Van Buren

[c 1970 by Chicago Tribune-N. Y. News Synd., Inc.]

DEAR ABBY: Last month I started to work in a large insurance office, and right off the bat I became attracted to a good looking young department head. Not bragging, but I've got a lot going for me, too. I'm 24, single, and a well-built redhead who never lacked for attention.

Well, "Department Head" and I started seeing each other a lot, but always at my place. [He was sort of secretive about where he lived.]

Yesterday he called in sick with a chest cold, so I decided to surprise him with some chicken soup. [I got his address from the office files.]

When I rang his bell, I was the one who got the surprise! A tall, skinny blonde about my age answered his door in a bath towel. At first she wasn't going to let me in, but I pushed her aside and went right to the bedroom to see my sick friend. He was sick all right, and he got sicker when he saw me. The bedroom looked plenty "lived in," if you know what I mean. Her stuff thrown all over the place along with his.

"Department Head" said Blondie was a childhood chum who had come to town to hunt a job, was low on funds, so he was putting her up temporarily. Now, Abby, how does this story sound to you? RED

DEAR RED: Fishy. "Department Head" could have helped the blonde by giving her a few dollars for a pad of her own. [P. S. Too bad you didn't know in advance that you were going to cook his goose. You could have skipped the chicken soup.]

DEAR ABBY: I know a woman who goes to "A. A." meetings all the time, and she's not an alcoholic. This is the truth, Abby. She told me so herself, but she asked me not to tell anybody. She has never had a drinking problem, but she says she goes there because she's "lonesome" and nobody asks her any questions.

She says she has met a lot of very nice men that way—and women, too. What do you think of such a person?

JUST WONDERING

DEAR JUST: She must be very lonesome. [And clever, too.]

DEAR ABBY: My mother in law isn't really a mean person, she's just ignorant. How else can you describe a person who introduces me and my children this way?

"This is my daughter in law and her two adopted children."

Abby, I have to bite my lip to keep from crying when I hear her say this.

My children are only one year old and two and a half—still a little too young to know what "adopted" means, but as soon as they are old enough to understand, I intend to tell them. But in the meantime, what can be done about such a stupid woman? YOUNG MOTHER

DEAR YOUNG: Someone should tell her in a nice way to disengage her mouth until she's sure her brain is in gear.

DEAR ABBY: My heart goes out to that poor mixed up teen-aged girl whose father called her a tramp because she slept with different boys. I was in that girl's shoes when I was in my teens and my father never called me a tramp. He helped me all the way because he knew I was a troubled, mixed-up kid.

I am now a happy wife and mother and I hope my father is proud of me now because I am very proud of him.

Girls who are called tramps by their fathers usually stay tramps all their lives. God bless my dad.

DADDY'S GIRL

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

Letter writing can be a breeze. For Abby's booklet, "How to Write Letters for All Occasions," send $1 to Abby, Box 69700, Los Angeles, Cal. 90069.

Temple Ordered To Accept Plan

AUSTIN (AP) — Temple schools have been ordered to accept a federal desegregation plan, and U.S. Dist. Judge Jack Roberts takes up the case of Austin schools today

Austin officials say they have been unable to reach agreement with Health, Education and welfare Department representatives over how to desegregate Austin schools.

Roberts has ordered desegregation plans for Hearne, La Vega, Calvert and Temple this week.

He issued the order on Temple Wednesday.

Predominantly Negro Crestview Junior High School in Temple will be changed to an elementary school, and mainly black Crestview Elementary School will be converted to an administrative center.

Three large attendance zones are created under the order, with a formerly white and a formerly black elementary school in each. Children in grades 1-3 will attend one school, and grades 4-6 will be taught in the other.

Metallic Pollution Serious

WASHINGTON (AP) — Pollution by toxic metals presents "a much more serious and...insidious problem" than environmental damage from pesticides, weed-killers and nitrogen oxides, an expert has told a Senate subcommittee.

"Those metallic and elemental pollutants we have with us now are here to stay for a long time," Dr. Henry Schroeder said Wednesday in urging senators to make every effort to slow the buildup of elements which are toxic and can cause degenerative diseases.

Schroeder, a physiology professor at Dartmouth Medical School, said there is "little doubt in my mind that cadmium pollution is a major factor in human high blood pressure, of which 23 million Americans suffer."

In testimony inserted in the record by the Senate panel's chairman, Philip A. Hart, D-Mich., Schroeder added: "There is little doubt that at the present rate of pollution, diseases due to lead toxicity will emerge within a few years."

"Cadmium in air can be minimized or virtually abolished by abatement of zinc, from which it comes," while lead in air can be wiped out by eliminating alkyl lead additives to gasoline, he said.

Meanwhile, toxic problems of arsenic, lead and cadmium were reviewed by Carl L. Klein assistant secretary of the Interior for water quality and research, who reported 4,800 pounds of lead and 98 pounds of arsenic are being discharged daily into the lower Mississippi River.

Louisiana authorities plan to hold hearings to ask offenders the same questions raised in mercury pollution cases, Klein said: "What are you going to do about these heavy metals?" and "When are you going to take action?"

The federal officials also said they will not tolerate after six months any detected amount of man-made mercury pollution. "As long as we can detect it," explained Klein, "we want to eliminate it."

Klein urged passage of President Nixon's proposal for setting precise effluent requirements so state and federal water pollution control agencies can regulate discharges carefully.

But Hart suggested action against polluters now under the 1899 Refuse Act. Sen. Howard H. Baker Jr., R-Tenn., contended, however, that this law is not effective in this situation and cannot be relied upon in fighting such pollution in sewers and streams.

Andre And Mia To Wed

LONDON (AP) — Andre Previn, composer and conductor of the London Symphony Orchestra, and actress Mia Farrow, mother of his twin sons, have reportedly driven to Scotland where they will be married in a few days.

NY March Was Strike Highlight

By THE ASSOCIATED PRESS

Women activists around the country, marking the 50th anniversary of their winning the vote, have begun a new drive for equality. They marched in the streets, chanted at rallies and held symbolic demonstrations.

High point of Wednesday's "Women's Strike for Equality" was a mass march down New York's Fifth Avenue that drew a police-estimated crowd of more than 20,000 persons, including some men. Parade officials put the figure as high as 50,000.

Other major demonstrations were held in Washington, Boston, Chicago, Indianapolis and San Francisco but there was also activity in cities the size of Missoula, Mont., and Paramus, N.J.

Betty Friedan, founder of the National Organization For Women—NOW—and originator of the idea for the strike, said the scope of the activity was "beyond our wildest dreams."

Major goals of the demonstration were equal job opportunities and pay, free abortions and 24-hour child care centers. Women were urged to stay home from their jobs and not perform menial household tasks.

Business communities reported little absenteeism, however, and the largest crowds were for those events timed for the lunch hour or after work.

The New York parade drew thousands of homebound office workers as spectators—most of them friendly. Others stared or snickered or shouted disapproval.

One group of antiliberation women carrying pink signs identifying them as members of "Men Our Masters—MOM," crossed police barricades to scuffle briefly with the marchers until police separated them.

The mood was generally jovial but with serious overtones. "It's both serious and fun, but not something to be made fun of," commented one woman marcher. "There is a feeling of unity among us."

At a rally following the march Mrs. Friedan declared: "This is not a bedroom war, this is a political movement. Man is not the enemy, man is a fellow victim."

Kate Millett, acknowledged chief theoretician of the women's liberation movement and author of "Sexual Politics," said, "Today is the beginning of a new movement. Today is the end of milenniums of oppression."

About 2,000 people turned out for a noontime rally in Boston where Mrs. Florence Luscomb, who worked for women's suffrage 50 years ago, told the audience that at the start of the feminist movement "it was immoral for a woman to speak in public like this."

Salt Water Project Progressing

Good progress is being made on the project to furnish brackish well water to the SACROC unit in southwest Scurry County.

The last of five supply wells should be down to total depth by the end of this week, said O. H. Ivie, general manager.

Panhandle Construction Co., contractor for installing 4½ miles of supply line from the well field to the point of delivery for SACROC, is moving in machinery. Pipe is being strung on the right of way.

Bids will be opened in Big Spring Sept. 2 for well pumps and one transmission pump, along with proposals for supplying 12,000 feet of asbestos gathering lines.

Last week, the bid of Black, Sivals and Bryson for constructing a storage tank was accepted in the amount of $28,500.

Ivie said that the wells, drilled to approximately 600 feet, have indicated ample production to meet district commitments to SACROC. Every effort is being made to complete the project in October.

Fire Put Out

City Firemen extinguished a grass fire south of the county barn at Dermott at 10:45 p.m. Wednesday.

Ex-Resident In Lubbock LawFirm

Harold P. (Bo) Brown, Jr., a 1959 graduate of Snyder High School, has become an associate of the law firm Evans, Pharr, Trout and Jones, according to information received here. Offices of the firm are located on the 9th floor, Citizens Tower, Lubbock.

Brown was assistant to the county attorney in Lubbock prior to joining the law firm. He attended Tarleton State College earned a BA degree from Texas Tech and a law degree from the University of Texas. He is married to the former Lady Falls of Snyder.

LUNCHEON HELD — A salad luncheon was held in the home of Mrs. Guy Sullivan, Wednesday in honor of the Travis Junior High cheerleaders. Mothers of the girls were invited along with Miss Melva Jones, their sponsor. Pictured seated (from left) are Mary Ann Richardson, Waynann Monroney, alternate, Sue Jane Sullivan, head cheerleader, Audrey Brown, blue devil, standing, are Pam Buchanan, Vicki Murray, and Terri McCormick.

The Weeders Guide

By EARL ARONSON
AP Newsfeatures

Indoor plants are among the favorite things of cockroaches, which delight in tender leaves and juicy roots.

The plants in winter obligingly generate humidity that is comforting to the roaches. Moisture, in fact, is a fundamental requirement and it has been reported that these insects can survive for two full months on water alone.

Apparently these indiscriminate feasters aren't apt to bypass any type of plant in a pinch. They aren't very fussy anyway, and will nibble on a wide variety of items ranging from book-bindings to carpets and leather. They are so adaptable they have been found prospering far below the earth's surface in gold mines of South Africa and coal mines of India. They dislike light and noise but can live with both.

Roaches can make a shambles of an indoor garden or potted plant by pinking leaves and killing roots by burrowing into soil.

A pressurized spray may be applied directly to the roaches' habitat and to their travel routes. An effective spray (Warpath, a non-toxic killer by the d-Con Co.) remains active for seven months. It contains Pyrethrins (the knockdown agent) and Silica Gel, a sand-like substance that acts as an abrasive and removes the protective wax on the insect. Once the shield is lost, the roach is exposed to a quick and painless death by evaporation and dehydration.

Pyrethrins comes from a variety of African daisy. Warpath, the maker says, is not a poison, but a mechanical killer and can be used safely around the house.

Spray the plants directly or spray around the bases of containers.

The insecticide is clear and colorless when sprayed, then becomes white and slightly powdery but does not spread. It adheres to wood metal or other surfaces. Outdoor plants containers also may be treated in summer, when insects leave their winter hideouts.

Flaked coconut tastes delicious when added to a cornstarch pudding.

Robbs Move Into New Home

CHARLOTTESVILLE, Va. (AP) — Charles Robb and his wife, former President Lyndon B. Johnson's daughter Lynda Bird, have moved into a 10-room, $59,500 house so Robb can be nearer the University of Virginia where he will begin law school this fall. Real estate sources said the Robbs signed a contract to buy the home June 23.

Nazi Germany's Chief Builder Details Events Of Third Reich

INSIDE THE THIRD REICH. By Albert Speer. Macmillan. $12.50.

In the most fascinating account published so far of the inner workings of Hitler's regime, Albert Speer strips himself naked before the world and with incredible honesty accuses himself of frivolity, thoughtlessness and power intoxication.

It is this ring of honesty which lends authenticity to the diary of a man who started as an obscure architect, became Hitler's chief builder and eventually, as armaments chief, the most vital link in Nazy Germany's war effort.

Speer's analysis of Hitler must be judged as one of the most important contributions to contemporary history, in fact so should the entire book.

He pictures Hitler as the genial and relaxed leader during the early years of his reign, but by 1937 had turned into a "forbidding despot with few human relationships."

Speer believes the hysterical scenes, which have been reported during the early years, probably were carefully staged. "In general," he writes, "self-control was one of Hitler's most striking characteristics."

He says that Hitler, during the later war years, involved himself in details which he should have left to subordinates. He did this to the point of exhaustion with resulting inability to grasp the big picture. He even bothered himself with the inventory of munitions down to rifle rounds, constantly memorizing figures which he would use to show up his field marshals.

Speer's detailed, first-hand accounts of some of the most important events during the Third Reigh—Austria's annexation, the attack on Poland and Russia and numerous others—are spell-binding.

As important as his analysis of Hitler, is Speer's treatment of the Nazi leader's henchmen, focusing on strengths and weaknesses and on some of the immoral and decadent behavior which never have been so well documented.

Most enlightening is his story about Germany's plans for an atom bomb and how this project was scuttled by the autumn of 1942, contrary to the popular belief that Germany's atom bomb research was in high gear until the end of the war.

In describing himself, Speer relates how, at the age of 26, he joined the Nazi party in 1931 after listening to one of Hitler's speeches. He called it an "utterly undramatic decision" and never got around to reading Mein Kampf.

The son of a wealthy architect, who had been a liberal even before the First World War, Speer said he was impressed by Hitler's cry against the erosion of morals in the big cities.

In recounting the descent of the Third Reich, Speer says one dangerous flaw in Hitler's system was that, unlike the democratic regimes, there could be no public criticism," ... no demand could arise that (Hitler's) abuses could be corrected."

All the important ex-Nazis claimed that they were themselves tools of Hitler's terror. Speer doesn't say that. When he describes how, in desperation at the end, he thought of ways to kill his boss, one cannot help but accept his word.

For his role as one of Hitler's top assistants, he was sentenced to 20 years imprisonment. He was released in 1966.

John O. Koehler

Snyderite On VFW Council

Mrs. Shelby Surratt of Snyder has returned from Miami, Fla., where she was elected a National Council Member of the Veterans of Foreign Wars Ladies Auxiliary.

Mrs. Surratt, who has been active in the VFW Auxiliary for a number of years, recently moved back to Snyder with her husband, who is employed by Amoco (formerly Service Pipeline) from Bowie where they lived for several years. They lived in Snyder previously from 1950 to 1953.

Mrs. Surratt was elected to the national office at the VFW and Auxiliary convention in Miami.

Parelman Jests About English Snobbery

BABY, IT'S COLD INSIDE. By S. J. Perelman. Simon & Schuster. $6.50.

Somehow the veteran jester Perelman keeps spinning out his yarns about wacky people (including himself) for year after year. This book is a collection of 32 magazine pieces of recent years, tuned to the aberrations of the so-called human race.

He loves the offbeat anecdote. Often it is a tale of the theater or the films; some of the narratives are about sgage concoctions with which he was associated, often with disastrous results; others reflect, with ludicrous effects, his experiences in Hollywood.

He also is a wanderer who makes games of his own downfalls as a tourist. For examples, an account of a dreary boat trip in Florida and a soggy visit to an Irish castle. He also has a sly piece about a Dubliner trading on the legend of James Joyce.

Perelman has a good many jibes about the English. Part of them deal with ignorant snobbery, and one item pokes fun at the studied insolence of English clerks, salesmen, waiters and other service personnel.

A few of these pieces fall flat and seem contrived, as though the author's comic muse had been suffering from a hangover.

Yet Perelman is in there pitching, and he has a good percentage. He deals in farce and folly, and his tangy style makes it all amusing.

FALL FASHION — Cloud-like poufs of soft, silken hair mark this Poufed Elegance Coiffure as one of the newest looks for Fall. It is from the collection of Gentle Elegance hair styles of the Official Hair Fashion Committee of the National Hairdressers and Cosmetologists Association. The hair moves forward to form a light and airy pouf that turns into a bang. At the crown, another pouf is held high with a postiche braid. Hair at the back and sides is molded into softly sweeping curves. For longuette effects, midi and maxi falls, dressed into softly flowing curves, are used at the back crown area. Professional haircutting and permanent waving are vital style supporting requirements.

Senate Rewrites End The War Amendment

By LAWRENCE L. KNUTSON
Associated Iress Writer

WASHINGTON (AP) — In a last-minute effort to gain votes, Senate critics of White House Vietnam policy have offered President Nixon new flexibility under their "amendment to end the war."

Their inclusion of a 60-day period in which the President could suspend the total withdrawal of troops from Vietnam came as Secretary of Defense Melvin R. Laird declared U.S. air power will be used in Cambodia as long as it results in reducing U.S. casualties in South Vietnam.

As the stop-the-war amendment underwent its third rewriting the Senate voted, in effect, to allow continued use of herbicides in Vietnam—despite any adverse effects on the environment—and to approve more spending for the C5 transport, already burned by a $2 billion cost overrun.

Sen. George McGovern, D-S.D., announced the new version of the amendment he is sponsoring with Sen. Mark Hatfield, R-Ore., would lock the President into his announced goal of reducing troop levels in Vietnam to 280,000 men by April 30, 1971.

The amendment still calls for the orderly end of military operations in Indochina and "the safe and systematic withdrawal of remaining forces by Dec. 31, 1971."

But the new version would allow the President to suspend that deadline for up to 60 days, without the consent of Congress, "upon a finding American troops were subjected to clear and present danger."

McGovern said if additional time were needed, the President could submit a revised timetable and other recommendations to Congress for approval within 10 days after his first action.

Meanwhile, Laird told newsmen: "If we can destroy enemy troops and supplies with the minimum casualty rate, I'm for it and I will authorize it."

He agreed with Vice President Spiro T. Agnew that the United States will do all it can to help the Lon Nol regime governing Cambodia.

The Hatfield-McGovern amendment would restrict the U.S. spending to expenses of withdrawal, to secure release of prisoners of war, to provide asylum for any Vietnamese endangered by U.S. withdrawal and to aid the Republic of Vietnam.

In Senate votes Wednesday, an amendment by Sens. William Proxmire, D-Wis., and Richard S. Schweiker, R-Pa., requiring an outside judgment on the necessity of a $200 million C5 production contingency fund was defeated, 48 to 30.

An amendment by Sen. Gaylord Nelson, D-Wis., to ban use of herbicides as defoliants in the Vietnam war zone because of their potentially damaging effects on the environment was rejected, 62-22.

Jewell Sentenced In Murder Trial

DENISON, Tex. (AP) — A jury of nine men and three women took only one hour Wednesday to return a guilty verdict in the murder trial of Michael W. Jewell, 23.

Jewell was sentenced to death for the May 25th slaying of grocer Fred Wright.

A second man charged in the killing, James R. Ferris, escaped three weeks ago from the Grayson County jail and is still at large.

Coot Plans Disclosed

DALLAS (AP) — Plans to build a four-wheel-drive vehicle which operates over rough terrain or in water were disclosed Wednesday by Frigiking, Dallas manufacturer of automobile air conditioners,

Production of the vehicle, named the Coot, will start here by the end of this year, Robert E. Schroeder, vice president and general manager, said.

Frigiking purchased the Coot, including about 100 finished models, from Coot Industries, Inc., of San Francisco, which retained other lines of leisure products, Schroeder said.

The consideration was not disclosed.

Production and service parts, assembly and test equipment, and some fabricating machinery also were sold by Coot Industries. These are being moved to Dallas from Chico, Calif.

The Coot, three feet high and seven and one-half feet long, claims a top land speed of 20 miles per and is not designed for highway use. It moves in water at 2 m.p.h. if propelled by the wheels and 5 to 6 m.p.h. if a propeller is attached.

Schroeder said the Coot's 12-horsepower Tecumseh engine will drive it up a 55-degree incline and even into a pickup truck.

The largest shrimp beds in the world, discovered in 1948 off Narssaq and in Disko Bay, Greenland, are fished night and day during the summer months, until ice blocks the fishing grounds.

Tower Escapes Injury In Wreck

WASHINGTON (AP) — Sen. John Tower, R-Tex., escaped injury Wednesday as the car he was driving hit a parked auto on an avenue in the city's northwest sector, police said.

A fender was damaged on each vehicle. Tower was not charged, pending an accident hearing Sept. 10.

He was involved in another minor collision several weeks ago.

OKAY MEN, LET'S GET TO WORK — Coach Ara Parseghian, of the University of Notre Dame, introduced his 1970 edition of the Fighting Irish to the news media yesterday, picture day. Some 100 candidates turned out for session. The Irish open the season against Northwestern at Evanson on Sept. 19th. (AP Wirephoto)

Merritt Wins 20th Game

By TOM SALADINO
Associated Press Sports Writer

Jim Merritt must have known something. Why else would the slick Cincinnati southpaw stash away nearly a case of champagne in his locker ... before the game?

"You don't win 20 games every day," said the 26-year-old hurler, referring to the 10 bottles of champagne, after he became the first left-hander in 45 years to win 20 for the Reds.

Merritt didn't last all the way, going 6 2-3 innings before Wayne Granger came on to save the memorable victory as the Reds edged Philadelphia 6-5 Wednesday night.

"It was a nice win," said the slender Merritt. "I would have liked to have gone all the way but I got tired. Wayne came on through and slammed the door for me." It was Granger's 29th save of the year.

Merritt, who has lost 10 decisions, became the National League's first 20-game winner this season although he gave up 15 hits before Granger bailed him out. Dave McNally of Baltimore has 20 victories in the American League. The last Cincinnati lefty to win 20 was Eppa Rixey, who was 21-11 in 1925.

In other NL action, Atlanta dropped New York 9-7, San Diego edged Pittsburgh 2-1, Los Angeles beat Chicago 8-5, Houston topped Montreal 5-4 and San Francisco edged St. Louis 8-7.

In the American League, New York blanked Kansas City 3-0, Minnesota trounced Boston 7-0, California whipped Detroit 6-3, Cleveland ripped Milwaukee 7-2, Baltimore topped Oakland 5-1 and Chicago downed Washington 3-1.

Merritt, 17-9 last year after being obtained during the winter of 1969 from Minnesota for Leo Cardenas, was given a 6-2 edge before the Phils unloaded for three runs in the seventh, knocking the lefty out.

Tony Perez slammed his 39th homer of the year and Bernie Carbo had a three-run shot for the Reds, his 21st. Don Money cracked a two-run homer for the Phils.

Hank Aaron slammed his 35th homer of the year, triggering a three-run Atlanta ninth inning that overcame a 7-6 Mets lead. Aaron's two-run shot and No. 589 of his career capped an uphill battle by the Braves, who at one time trailed 7-1.

Orlando Cepeda, Clete Boyer and Bob Tillman added homers for Atlanta while Art Shamsky and Wayne Garrett had two-run blasts for New York.

Ed Spiezio drilled a two-run homer in the seventh inning, sending the Padres to their second straight victory over the Pirates. Despite the loss Pittsburgh still remains three games in front of the Mets in the East.

Freddie Patek fumbled Ivan Murrell's leadoff bouncer before Spiezio connected for his 10th homer of the year off rookie right-hander Fred Cambria, spoiling his major league debut.

Pat Dobson, 10-13, allowed 12 hits but the Pirates scored only in the sixth on John Jeter's single, stolen base and Roberto Clemente's run-scoring single.

Jim Lefebvre clouted a three-run homer and Claude Osteen captured his 14th victory with relief help from Jim Brewer as the Dodgers stopped the Cubs, who trail the Pirates by 4½ games. John Callison had a two-run homer for Chicago.

Denis Menke drilled a three-run homer in the ninth inning, helping the Astros to their triumph. Cesar Cedeno added a homer in the ninth for Houston. Jim Gosger had put Montreal ahead 3-1 in the eighth with a three-run shot.

Jim Ray Hart greeted reliever Frank Linzy with a run-scoring single that gave the Giants their victory over the Cards. Lou Brock, who stole three bases, slugged a homer for the Cards while Willie Mays had a two-run shot and Willie McCovey ripped his 33rd of the year.

Rookie Handles Success Like Vet

By RALPH BERNSTEIN
Associated Press Sports Writer

PHILADELPHIA (AP) — John Bench, the sensational young Cincinnati Reds' catcher wants only one thing more than success—the ability to handle it.

"It's important that you remember where you came from, your parents and the basics of life they taught you," said the 22-year-old Bench as he awaited the start of Wednesday night's 6-5 victory over Philadelphia.

Bench is having a fantastic season with the runaway Reds in the National League West. He has 42 home runs, 126 runs batted in and is hitting .297. As a catcher, baseball experts will tell you the 195 pound Oklahoman has no peer.

"I am trying to accept things that come with success in the right way," Bench explained. "Talking wih the media, giving people autographs, this is part of the position I'm in. I'm trying to remember I'm from a little place like Bangor, Okla., and my parents taught me what was right."

Bench's 42 home runs this season break the record of 41 by a catcher set in 1953 by Roy Campanella of the Brooklyn Dodgers. Some purists belittle the mark, because Bench has hit six of the homers while playing the outfield and one as a first baseman.

"If they want to put an asterisk alongside it, okay," says Bench. "A certain number of games at a position should count. This is qualifying as a hitter, not a fielder."

Bench admits, however, that hitting is easier when playing the outfield or first base. "It's a different attitude. You think more of your hitting and what the opposing pitcher is throwing. You're more offensive minded. When you leave the dugout to go behind the plate your thoughts are on your pitcher and the hitters coming up."

As for the kudos he's receiving now as the top young star of baseball, Bench says, "I just hope they can say it 10 years from now. That's when it will really mean something. That's when you know you really have done something. You have to progress, can't dwell on the present."

Little Leaguers Fire No-Hitters

WILLIAMSPORT, Pa. (AP) — Little League World Series fans here are still talking about back-to-back no hitters they saw Wednesday. In each case the secret was a well-rested pitcher.

In the first game of the first-round doubleheader. Brian Paluga pitched Highland, Ind., to a 2-0 victory over a U.S. armed forces dependents' team from Wiesbaden, Germany. In the nightcap, Steve O'Neil hurled his Wayne, N.J., teammates to an easy 10-0 victory over Valleyfield, Que.

Today's semi-final game will match Chinandega, Nicaragua, against Campbell, Calif., and Highland against Wayne.

Race Driver Dies In Crash

BONNEVILLE SALT FLATS, Utah (AP) — A California race car driver was killed Wednesday when he crashed at 325 miles an hour while attempting to break a land speed record on the Bonneville Salt Flats.

Noel Black, 34, of Sacramento, died in a Sale Lake City hospital about five hours after his streamliner went out of control and flipped end over end.

Officials of the Bonneville Racing Association said Black had just finished a timed mile when his vehicle suddenly swerved out of control.

There was no immediate indication what caused the crash but drivers on the Salt Flats Tuesday complained of high, gusty winds.

Cincinnati Acquires New Field General

By KEN RAPPOPORT
Associated Press Sports Writer

Virgil Carter, who recently shuffled off to Buffalo, has been shuffled on to Cincinnati.

The Cincinnati Bengals, sorely in need of quarterback help, picked up the signal caller from the Bills for an undisclosed future draft choice Wednesday.

Carter, a Brigham Young star, played two years with the Chicago Bears before going to Buffalo during the off-season.

The Bengals, who lost No. 1 quarterback Greg Cook to injury recently, also picked up Bob Davis from the New York Giants. Davis, placed on waviers by the Giants, had been a reserve quarterback for the Houston Oilers for three years.

Carter completed 36 of 71 passes for 343 yards in a little-used role last year. In 1968, he passed for 769 yards while starting seven games.

Elsewhere in the National Football League, the Detroit Lions traded rookie guard Bob Parker to the Philadelphia Eagles for veteran receiver Chuck Hughes. Hughes, a four-year veteran, was a fourth-round draft choice of the Eagles in 1967.

The Baltimore Colts acquired running back Eugene Moore from San Francisco on waivers and announced the retirement of reserve linebacker Butch Riley.

The Minnesota Vikings cut defensive back Seth Miller, wide receiver John Spinks, kicker Les Perry and tackle Andy Kolstad.

Washington asked waivers on veterans Carl Kammerer, a defensive end, and Tom Brown, a strong safety, and named Floyd Peters as player-coach on the defensive line.

The Atlanta Falcons later claimed Kammerer.

The Dallas Cowboys traded an undisclosed draft choice to the New Orleans Saints for veteran safety Bobby Thompson.

Boston placed two players on the injured waiver list—quarterback Aaron Marsh and Ed Toner, a defensive tackle.

Receiver Willie Richardson returned to the Pittsburgh Steelers camp after three days' absence because of a contract hassle.

Coach Chuck Noll spoke with Richardson by phone in Baltimore and suggested he try to solve the problem in camp, a Steeler spokesman said.

Richardson, obtained by the Steelers from the Colts last week, had left the Latrobe, Pa. site over the weekend when he asked to have his contract renegotiated and the club refused.

Seven players with the flu missed their second straight day of practice at the San Francisco 49ers' camp. Coach Dick Nolan said he expected the sick players, including starters Dick Witcher and Charlie Krueger, to be ready for Saturday night's game against Denver.

Chicago announced that Jack Concannon would be the starting quarterback Saturday night against St. Louis. He supplants Bobby Douglass, who started the first three pre-season games.

SWC Teams Flex Offensive Muscles

By THE ASSOCIATED PRESS

The offensive units at most of the Southwest Conference football camps flexed their muscles Wednesday as the eight SWC teams continued the countdown for their season lid-lifters.

Texas Tech held a one-hour controlled scrimmage and quarterback Charles Napper's passing and Mils Langehenning's running highlighted the affair.

Napper hit 10 of 14 passes including touchdown shots of 22 yards to Langehennig and 60 yards to Robbie Best. Defensive halfback Marc Dove got into the act with a 72-yard interception return.

Rocky Self, converted from quarterback to halfback, dominated Texas A&M's first game-condition scrimmage with 172 yards rushing in 15 carries and three touchdowns. The TDs were for 23, 5, and 60 yards.

"You couldn't help but see Self out there," said Aggie head coach Gene Stallings. "He made some good runs and I also thought (Brad) Dusek ran well and (Lex) James did a good job at quarterback."

At Southern Methodist, footballs filled the air—as usual—with the first two offensive teams completing 20 of 36 passes for 329 yards. Chuck Hixson led the parade with 12 of 16 completions for 177 yards.

Following the scrimmage, head coach Hayden Fry said "We were much improved over the first scrimmage. We got a lot accomplished. Our players certainly received a great deal of exposure. I saw a lot of good things including consistency in running and passing."

The University of Texas Longhorns hit the field for the first workout and head coach Darrell Royal said he was pleased with the first drill.

"I didn't see many bobbles out there," Royal said. "It looked like everybody knew pretty much what he was doing."

The Longhorns are holding two-a-day workouts, one in the morning and the other at night.

The Baylor Bears lost two starters Wednesday. Sophomore guard Harold Rodgers underwent an emergency appendectomy and rover Tommy Brabrick was hospitalized for diagnosis on his injured knee.

TCU head coach Fred Taylor closed the doors on the Frogs' workouts and slated a heavy contact workout today. Taylor said the Frogs would have a scrimmage on Saturday.

The Arkansas Razorbacks went through their final noncontact drills and got set to put on the pads today. Head coach Frank Broyles said the Hogs' first three days of practice had been better than he expected.

Coach Bo Hagan put his Rice Owls through their first contact drills after three days of conditioning.

Cowboys Acquire Safety

By MICHAEL A. LUTZ
Associated Press Writer

DALLAS, Tex. (AP) — Dallas Cowboys head coach Tom Landry is singing the blues and his favorite these days is "A Good Man Is Hard to Find."

While admitting that the Cowboys would be glad to trade for an experienced hand to help fill gaps in the Pokes' porous defensive secondary, Landry says it's not that easy.

"I'll tell you this," Landry said, "with the expansion to 26 teams, the days of depth are pretty well gone. The teams with really front line players are going to keep them. They'll maybe give up a draft choice but not their top players."

The subject came up Wednesday at the Cowboys' weekly luncheon in a discussion of Dallas' wheeling and dealing to get a solid defensive secondary.

Tuesday, the Cowboys released 13-year veteran Dave Whitsell—a strong candidate for starting safety—and announced they were going with youth at the position. Then Wednesday, Landry said the Pokes had acquired 7-year vet Bobby Thompson from New Orleans.

Thompson, who'll get a look-see at safety, reported in time for Wednesday's workouts.

In explaining the muddle, Landry said "It was strictly a judgement call. We'd love to have a lot of experience back there, but there's no use having someone back there if you don't feel he'll fit into your club."

But the defensive secondary isn't all that's wrinkled Landry's brow this pre-season. The Cowboys take a 1-2 record into Saturday's battle in the Astrodome against the Houston Oilers and Landry places part of the blame on the offense.

"I'm concerned about the whole offense at this stage," Landry said. "We have not progressed as far as I had hoped we would. We aren't getting the production out of any of our offensive people and this is critical at this stage of the game."

Landry hopes the Cowboys can get something rolling offensively against the Oilers although several key people are hobbling. Rookie of the year Calvin Hill still is having problems with his toe, tight ends Pettis Norman and Mike Ditka are slowed by injuries and guard Ralph Neely is unlikely to play because of a knee injury.

Landry said he would start No. 2 quarterback Roger Staubach again this week in place of starter Craig Morton. Staubach started last week against Green Bay but was knocked out early in the game.

"He didn't stay in there too long last week," Landry said. "Maybe he'll stay in the pocket this week."

Home Runs Sink Blues

By THE ASSOCIATED PRESS

The Memphis Blues' struggle to overtake Arkansas in the Texas League's Eastern Division race crumbled once again Wednesday before the home run barrage of Guy Rose and Joe Ferguson.

Rose and Ferguson each clubbed two-run homers in the first inning to lead Albuquerque to a 7-6 victory and keep the Blues one-half game behind the Travelers, who lost to Amarillo 5-1.

In other games San Antonio whacked Dallas-Fort Worth 8-2 and El Paso completed a five-game sweep in beating Shreveport 6-1.

The home runs by Rose and Ferguson came off starter and loser Don Rose.

Amarillo supported Hal Jeffcoat's four-hitter with a late-inning splurge that included two runs in each of the seventh and ninth innings.

Arkansas starter Steve Evans, the loser, didn't allow shit until the sixth when Chris Arnold got Amarillo started with the first of two homers for the game. Arnold's sixth inning blast was a solo and he smacked a two-run shot in the ninth.

San Antonio jumped to a three-run edge—all unearned—in the first inning and never looked back in whacking the Spurs. Adrian Garrett's 28th homer, triples by Bill Huisman and Ron Matney highlighted the Mission's 12-hit attack.

El Paso's Joe Henderson and Jim Englehardt held Shreveport batters to five hits after the Sun Kings had taken a 4-0 lead in the first inning.

'Futurology' Is Added To List Of 'Ologies'

By JACK SHOLL
AP Business jwrier

NEW YORK (AP) — To the growing list of "ologies," add this one: futurology.

An imprecise science that has increasingly come into vogue among decision makers in business and government, it simply refers to the study of the future.

For some practicioners it is little more than phantasizing what tomorrow may bring. For others, it's become a sophisticated method of determining what the problems of the future may be and preparing for them today.

"Many of today's acute problems—among them, core city deterioration, transportation overload, and air and water pollution—might have been forestalled if better forecasts had been devised 20 to 30 years ago," states a futuristic study just published by the National Industrial Conference Board, an independent business research organization.

The study, or experimental forecast, is based on the responses of 66 leaders in business, government, labor and education who were asked to identify emerging trends which would almost certainly create public problems in the 1970s and 1980s.

Conducted two years ago, the board says publication of the study now was urged by a number of "important institutions and individuals" who had learned of its existence. Among those participating in the forecast were General Motors Corp. Chairman James M. Roche, American Telephone & Telegraph Co. Chairman H. I. Romnes, and Westinghouse Electric Chairman Donald Burnham.

Basically, the forecast found that the United States is moving through what it called a period of unusual political-economic "power activity."

"New patterns of power are in the making; the ultimate design is not clear. Traditional powers are breaking out of confining channels, regulations and controls and are shifting ..." the study found.

"For example," it says, "manufacturing is yielding important political-economic powers to service industries; smaller and medium-sized businesses, to conglomerates; cities and states, to the federal establishment; the legislative branch, to the executive branch; the influence of teachers and politicians, to mass media; adults over 40, to those in their 30s and younger; generalistists, to specialists; men, to machines."

Heading a list of 20 major areas of future concern outlined by the panel was "divisions in society." It said these included divisions between rich and poor, young and old, black and white, and those who understand the language of technology and science and those who don't.

Unusual Plant Was Marijuana

CARSON CITY, Nev. (AP) — Dan Andrae wondered what that seven-foot-tall plant growing in the front yard of his new home might be.

It was an "unusually large marijuana plant," Sheriff Robert Humphrey said after authorities uprooted and hauled it away. He said the plant was growing there when Andrae moved in recently.

Dormouse Is Damaging Trees

LONDON (AP) — If you hear complaints from a voice that is "squeaky with a snuffling 'woofle-woofle,' " it will be a glis glis, better known as the fat or squirrel-tailed dormouse.

The Country Landowners' Association, disturbed by damage to trees credited to the glis glis, has mounted a campaign against them. As the association delicately put it, the snuffling creature will be "subject to approaches of official bodies."

The poetic description of the dormouse's voice comes from the Handbook of British Mammals, which doesn't give the remedy when the dormouse stops snuffling and starts chewing bark.

Tina Gets Alimony

SANTA MONICA, Calif. (AP) —Tina Louise, who starred in he television series "Gilligan's Island," will receive $5,000 in temporary alimony and child support monthly from television moderator Les Crane.

The red-haired actress received the award in Superior Court Tuesday, pending a divorce hearing in November.

Miss Louise is expecting a child in October. The couple has been married four years.

It Would Be Better World If...

By HAL BOYLE

NEW YORK (AP) — It might be a better world if—

Smog would go back where it came from.

Girls wore crew haircuts so we could tell them from the boys.

Now that women appear to be liberated, they'd start picking up men's luncheon checks.

They'd lower the price of hot dogs—and charge you extra for the mustard.

Someone made a movie without a bedroom scene.

Monday was turned into a payday, so at least we'd have some reason to look forward to the first day of the work week.

Convalescent people were taken from hospitals and put up in hotels, where employes could sleep off the effect of long lunches.

Men's new wide neckties were so constructed that after being worn all day they could be taken off at night and used as table cloths.

The prophecies of Gypsy fortune tellers really came true.

No drug could be called a wonder drug until it did something wonderful.

A way could be found to get trains, planes and wives to their destinations on time.

Garlic and onions could be made breathless.

Churches had "standing room only" signs on their front doors.

There were four Julie Andrews—each with a voice lovelier than the others.

Ed Sullivan would learn to do card tricks on television—and perhaps a few bird imitations.

Teen-agers hibernated during their querulsome years and emerged as well-adjusted, companionable adults.

College students found something to riot for instead of against.

Cigars would automatically self-destruct five minutes after going out.

Beggars could be choosers.

Dandelions smelled as sweet as roses.

The American bald eagle could be made more stylish by being fitted with a new wig or toupee.

Everybody issued his own credit cards.

Hangovers became un-American.

Rock 'n roll music would simply roll away.

All folk ballad and country music singers were compelled by law to have their adenoids removed.

Every baby arriving in this vale of tears was born laughing out loud instead of crying.

Zsa Zsa Shies Away From Thief

NEW YORK (AP) — Zsa Zsa Gabor, recent victim of a $600,000 jewelry holdup, and Willie "The Actor" Sutton met in a television studio, and the glamorous actress immediately shied away from the former master thief.

"Don't you know who it was?" Miss Gabor demanded. She clutched a heavy rhinestone necklace and edged away from Sutton, 69, after they were introduced Tuesday night at a taping of the Merv Griffin Show to be aired tonight.

"I'll try and find them for you," answered Sutton, who is reputed to have stolen more than $2 million during his lifetime. He was freed last year after spending more than 30 years in four prisons and escaping from three of them.

Miss Gabor lost two rings, one a 38-carat diamond, and a set of earrings to two holdup men in an elevator of the Waldorf Towers last week.

Willie told her he thought the job was the work of professionals.

Junior Editors Quiz on BOBCATS

QUESTION: *Do mother bobcats bob their kittens' tails?*

* * *

ANSWER: No, we are happy to say they do not. Our upper drawing is just made to show how absurd such an idea is. Very well, you will say, just why then do lynxes and bobcats have bobbed tails? Scientists which we have consulted about this do not give us an exact answer. However, they have an interesting suggestion to make. Certain animals, they tell us, spend much of their time in trees, and many of them have long tails. It seems they are better able to balance with a long tail. Leopards and pumas like to crawl out on tree trunks, wait for animals passing below, and then spring, their long tails helping to balance them. But bobcats and lynxes creep through dense thickets where other animals conceal themselves. Under these conditions, probably a long tail would be in the way. If something doesn't work, nature seems likely to abandon it. Perhaps that's why the bobcat lost his tail: he was better off without it. Squirming through dense thickets, a bobcat or lynx needs to be stripped for action.

8-27

(Sandra Poppell of Hickory, N.C., wins a prize for this question. You can win $10 cash plus AP's handsome World Yearbook if your question, mailed on a postcard to Junior Editors in care of this newspaper, is selected for a prize.)

Widow Will Rebuild

ROCKPORT, Tex. (AP) — For three days and three nights after Hurricane Celia battered the South Texas Coast, a feisty widow sat on her front porch with an ancient .410 shotgun in her lap.

She was protecting what was left of her flock of chickens from the foraging of a "couple of bobcats wandering around over there in the brush."

Eleanor Tanksley, 70, owner of a small chicken farm near Rockport, is among an estimated 50,000 families who suffered losses from the storm.

She shares her farm with four dogs, unnumbered cats and a flock of chickens and guinea hens.

Celia's winds, topping 160 miles per hour, "just blew my chickens away," Mrs. Tanksley said.

Her small house was damaged, the coop fence broken and tangled, and the windmill toppled. When the chicken house and brooder were knocked down, they crushed part of the flock along with three kittens.

After the winds and heavy rains passed, she walked outside to survey the damage.

"I'd pick up a chicken from under a piece of tin or a board, and he's be squashed flat," she said. "I'd just sit down and squall a bit, then go after another.

"But I'll build myself back 70—don't you worry about that."

While guarding her flock she fired two rounds at the marauding bobcats.

"This old gun wouldn't kill anything," she said, "but it sure did scare them off.

Thin, gray-haired and with skin a deep brown from years under the South Texas sun, Mrs. Tanksley lost her husband last February after 50 years of marriage. His sight failed more than 20 years ago and she has run the farm ever since.

The farm brings in about $60 a month to supplement her social security check.

Last week the Red Cross heard of her plight and sent case worker Don Hannah with food. He figured her immediate needs would cost about $1,126, but she declares she doesn't need that much.

She said, "I can get along on a lot less than that. There are other people who got hit harder than me and they can use the money more."

Nevertheless, the Red Cross sent out a man to rebuild the coop fence and to replace the broken windows and screens in her house.

Public Notice

ADVERTISEMENT FOR BIDS
Project No. 7 00483
SCURRY COUNTY JUNIOR COLLEGE DISTRICT
Owner

Sealed bids for construction of the Western Texas College for the Scurry County Junior College District in Snyder, Texas, will be received by the Board of Trustees in the Community Room of the Snyder Savings and Loan Building, Snyder, Texas, until 3:00 P.M. CDST, September 24, 1970, at which time they will be publicly opened and read aloud. Mailing or telegraphic proposals shall be addressed to Scurry County Junior College District, P.O. Drawer D, Snyder, Texas, and shall be received prior to bid opening. The project will be bid under one General Contract.

The information for Bidders, Form of Bid, Form of Contract, Plans, Specifications, and Forms of Bid Bond, Performance and Payment Bond, and other contract documents may be examined at the following:

Parker Croston Associates, Architects Engineers Planners, 606 Bailey (P.O. Box 1927), Fort Worth, Texas, 76107

General Contractors may secure three (3) sets of plans and specifications at the office of the Architect or at the Pre Bid Conference upon deposit of $500.00. Qualified Mechanical and or Electrical Contractors may secure two (2) sets of plans and specifications upon deposit of $250.00. Under the conditions of the Information to Bidders, any unsuccessful bidder will be refunded his deposit. Subcontractors and Material Suppliers may secure plans and specifications at cost noted in the Information to Bidders.

The Owner reserves the right to waive any informalities or to reject any or all bids.

Each bidder must deposit with his bid, security in the amount, form and subject to the conditions provided in the Information to Bidders.

Attention of bidders is particularly called to the requirements as to conditions of employment to be observed and minimum wage rates to be paid under the contract.

No bidder may withdraw his bid within 30 days after the actual date of the opening thereof.

M. L. Broman, Chairman
Board of Trustees
Scurry County Junior College District

Hickel Says Chevron's Fine Is A Landmark

By GENE ORMSBY
Associated Press Writer

NEW ORLEANS (AP) — Interior Secretary Walter J. Hickel says the $1 million fine imposed on the Chevron Oil Co. for a massive oil spill in the Gulf of Mexico is "a landmark for the public."

Commenting after the judgment in U.S. District Court here Wednesday, Hickel said in Washington: "It is my hope—and surely the hope of industry—that this will serve as an example that we must be responsive to the public."

Judge Alvin B. Rubin imposed the maximum fine of $2,000 each on 500 counts against Chevron after the firm changed its plea to no contest. Previously, Chevron had pleaded not guilty to all 900 counts filed against it in the first prosecution brought under the 1953 Outer Continental Shelf Lands Act.

U.S. Atty. Gerald Gallinghouse and his assistant, Richard Olsen, agreed to dismissal of the last 400 counts against Chevron. The no contest plea meant the company was submitting to the charges but not admitting guilt.

The original 900 counts charged Chevron with failing to install storm chokes on 90 of its offshore oil wells in the Gulf for 10 days each. A storm choke is a safety and antipollution device required by the Interior Department. It is installed in the well pipe and shuts off the oil flow if the platform is damaged.

The indictment was returned May 5—five weeks after the capping of the last of a cluster of wells that ran wild after a fire.

Hickel said the spill "never should have occurred."

"We will continue to address ourselves," he said, "to making the public environment more acceptable, and the administration will continue to prosecute those who pollute."

At the time of the oil spill, Hickel said, that safety devices, such as the storm choke, would have prevented it.

After flying over the Chevron platform in March, Hickel said the pollution exceeded that which damaged the California coast at Santa Barbara in 1969.

The spill followed a fire and explosion Feb. 10 on an automated platform controlling 12 wells.

The explosion left some of the wells blowing wild in the worst offshore oil spill on record. The final well was capped seven weeks after the blast.

About 35,000 gallons of oil per day spewed into the Gulf. The spill did little damage to land although at one time a slick 15 miles long menaced oyster beds and game refuges along the Louisiana coast.

Drinking Calculator Developed

NEW BRUNSWICK, N.J. (AP) — A Rutgers University scientist says he has developed a simple calculator that will tell a driver how much alcohol he can drink and still drive safely.

Dr. Leon Greenberg, executive director of laboratory research at the Rutgers Center of Alcohol Studies, says it's naive to assume that most people will follow the precaution, "if you drink, don't drive."

"A more realistic approach," he said, "is to educate people by providing guidelines about what is appropriate and inappropriate drinking if a person is going to drive."

He therefore fashioned what he calls the "Alco Calculator" to help a driver know his alcohol limit and decide when he is safe to drive.

It's a simple slide rule that carries data about body weight, number of drinks and drinking time.

Here's how he said it works:

A couple goes to a cocktail party and stays four hours. The man who weighs 190 pounds, drinks four martinis. The woman, whose weight is 120, drinks three.

Which one should drive home? Answer: He should.

The fellow's blood contains .04 per cent alcohol, the girl's .06 per cent. The legal minimum for being "under the influence is .05 per cent. If, having taken the same number of drinks, they had decided to leave after only three hours, the fellow's blood would have contained more than the legal minimum of .05 per cent.

Greenberg said the gadget is particularly useful for people who drink in moderation. They make up 95 per cent of the 90 million drinking Americans, he said.

As to heavy drinkers, Greenberg said, "the problem with them is not drinking and driving, their problem is drinking."

Clubs' Motto Brings Laugh

SAN CLEMENTE, Calif. (AP) — Terence Cardinal Cooke of New York got a laugh when he told President Nixon about his new golf clubs inscribed with the motto in Latin: "Lord, have mercy on me."

The President responded that comedian Bob Hope suggested that the same motto should be on his clubs.

The Roman Catholic cardinal was visiting the Western White House Wednesday to report on his recent tour of U.S. military bases in Europe. A third golfer, orchestra leader Lawrence Welk, also was there to discuss the problems of youths and drugs.

Heart Computer Devised

WALNUT CREEK, Calif. (AP) — Three scientists have created a computer about the size of a deck of cards that they say may save thousands of lives by warning heart-care patients of possible trouble.

The device, called VIDA—Ventricular Impulse Detector and Alarm—gives off a loud beep when a patient's heart produces "ectopic" beats, a sure sign of usually fatal heart fibrillation that causes the heart to stop pumping.

Once the alarm sounds, patients have about three days to seek medical attention, the incentors say.

Creators of the shirt-pocket computer are Dr. John W. Gofman of San Francisco, and two California electronics specialists, Robert L. Chapman of Danville and Richard D. Lawhorn of Castro Valley, who have set up offices in this San Francisco-Oakland suburb.

"It's really tragic to realize that many people die from temporary heart fibrillations," Chapman said in an interview.

He said the device is attached by two electrodes to the chest. A special circuit protector prevents possible false alarms.

A prototype model has been developed, and a dozen more are being built for testing before marketing, possibly in 1971, the men say.

The idea for the device was born several years ago when Dr. Gofman suggested it to Chapman, who evolved the basic electronic concept.

They patented VIDA in 1964.

The normal number of a patient's heart beats is set in the computer beforehand, and as long as the heart functions normally no sound is made.

Three Killed In Drilling Accident

ATLANTA, Tex. (AP) — A water-well drilling accident killed three men near here Wednesday.

The men were identified as Cecil Dotson, 43, and his son Bennie, 19; and Rodney Towns, 20, of Ringgold, La. The accident occurred one mile east of Queen City.

Witnesses said the elder Dotson went down into the well to release a cable that had snagged as the crew was placing concrete casings.

When he failed to surface, his son went in after him.

Towns descended into the well when the young Dotson became stranded. Witnesses said Towns yelled "gas" when he reached the 60-foot depth.

Emergency crews retrieved the bodies some three hours later.

Piazza Applauded

MEMPHIS, Tenn. (AP) — Opera singer Marguerite Piazza has won applause but lost a battle to block construction of 48 townhouses near her fashionable home.

Miss Piazza, mother of six and widow of industrialist William J. Condon, told a Memphis zoning board Wednesday that "all the people who are here fighting for this blight, this pimple, this boil on the face of our neighborhood—they don't live here."

The board refused to reject the townhouse proposal despite the applause for Miss Piazza's speech.

Five Boys Killed In Collision

CORPUS CHRISTI, Tex. (AP) —A collision of a car and a pickup truck killed five boys Wednesday night near the west edge of Corpus Christi. Two other persons were injured.

Police said the car went through a stop sign, brushed the rear of one pickup and then slammed into the side of a second pickup.

All those involved in the accident were Corpus Christi residents.

Officers listed the dead as three sons of Mr. and Mrs. Homer Kinney Jr.—Homer, 8, Michael, 11, and Ronnie 12—and two sons of Mr. and Mrs. Johnny Compton—Johnny Glen, 5, and Stephen, 9.

Injuries were suffered by the elder Compton and Doward Kinney, 12.

All the dead were hurled from the back of a pickup driven by Compton into the grassy median of a route known as the old Highway 9.

The fathers of the boys and Doward Kinney were riding in the cab.

Officers identified the other drivers as Willie Bradford, 62, in the car, and Gene Schillings, 38, in the other pickup. Both escaped injury.

Unnecessary Insurance Is Revealed

AUSTIN (AP) — Eighty-six Texas school districts have reported they were required to take out unnecessary insurance policies in order to get bodily injury liability, Sen. Oscar Mauzy says.

Mauzy said Wednesday the State Insurance Board should take "immediate action" to make insurance companies refund premiums totaling about $30,000.

His statement was in a letter to insurance board member Charles Mathews.

Mauzy said the Senate committee to study the Texas Tort Claims Act had been informed by some 86 districts that they were required to buy property damage insurance as a condition to getting bodily injury coverage. The 1969 Tort Claims Act allows suits against government units for injuries resulting from the negligent use of motor-driven equipment.

"These replies indicate that these school districts have been required to expend in excess of $30,000 for coverage which provides no protection, since there is no liability for property damage under the Tort Claims Act." Mauzy said.

"In my opinion, the tax payers of these districts are being required to 'pay tribute' to an insurance company in direct violation of your regulation and state law. The school children of these districts are consequently being deprived of this tax money for educational purposes."

AGNEW NEAR KOREA DMZ — Vice President Spiro T. Agnew inspects an M-16 rifle with "starlight" sniperscope during a trip to Camp Wagner, a few miles south of the demilitarized zone in South Korea, Wednesday. Before his departure from Korea to Formosa, Agnew told U. S. troops near the DMZ not to listen to reports from the United States about "a few opportunists who may wish to see us bug out." (AP Wirephoto via radio from Seoul).

Citrus Crop To Be Smaller

WASHINGTON (AP) — Supplies of most fresh and processed fruits other than citrus varieties are likely to be substantially smaller through the fall and winter, because production prospects for 19 major crops are about 12 per cent below last year levels.

Processed citrus supplies have remained larger through the summer than they were last year but the fall-winter stocks will depend largely on the size of the 1970-71 crop, which now looks to be a good one, the Agriculture Department reports.

Remaining supplies of oranges are less than they were at the same time in 1969, but the new citrus crop has developed excellently in Florida and prospects are good in Texas. In the meantime, processed citrus supplies are plentiful with Florida frozen orange juice stocks substantially above last year's and canned juice supplies at about what they were last mid-August.

If it could be tamed, a prolonged thunderstorm might create enough electricity to power a large city for several days.
