BOVINA

WEDNESDAY, JUNE 23, 1965

Bovina, Texas

VOL. IX, NO. 51

WHITTLIN'

BY DOLPH MOTEN

A sign hanging in a Bovina office:
"Business is like a wheelbarrow. It doesn't move until someone pushes it."

For years now we haven't seen anything in print about how Bovina businesspeople and their employees park their cars in front of their businesses, making it inconvenient for potential customers to have easy access to their stores.

Maybe it's not important that many of the choice parking places are taken up by store people in the downtown section. But it appears to us that shopping, and trading, would be encouraged if no parking problem existed.

No problem would exist if the businesspeople parked elsewhere and left the handy parking places for their customers. Nobody asked us, you understand, ...

From here it appears that someone is missing a business opportunity by not offering to build concrete walks in Bovina yards.

Someone with a little knowledge of how to finish concrete could line up several days work of extending too-short walks in the front yards of Bovina homes. Almost all the front walks which were put down B. P. (before paving) are too short. And just about everybody who has a walk like that would be glad to pay to have it extended on out to the curb if all they had to do to get it done was say "O. K." and sign a check for a reasonable price.

Here again, we're out of our line because we don't know much about concrete work except that the finished product is hard. Still, we think there's an opportunity here for a fellow with a little imagination, initiative and a willingness to sell a little and work a lot. A Blade ad might do the selling and then all that would be left to do would be the work.

However, that work part has let a lot of good opportunities go begging.

Earlier, we mentioned paving in Bovina. And this town has a pretty good slug of paved streets, all with curbs and gutters. But there's still need for more. Maybe if we had twice as many paved streets as we do now, that would be sufficient.

The community has had two paving programs and the second was easier to get over with the people than was the first. We think that the third will be still easier. People now understand that paving is one of the best investments they can make for their property. Couple that with an easy-pay plan and another good-sized paving program shouldn't be hard to get in gear.

We're ready for it. The town needs it.

Willie Williams, who watches local boys' baseball games, as well as predicts the weather, was wondering recently at the ballpark why more people don't turn out for the ballgames. "Why, these people who aren't seeing these games don't know what they're missing," he allowed one night last week. "They'd enjoy them if they'd come out and watch a few."

He's right, of course. And there's another good feature to the ballgames played here -- they don't cost anything. You don't even have to have a ticket. And not only that, but there's no hat passed, no collection taken.

How can you beat a deal like that? Understand we're not complaining about attendance at the ballgames. It's been adequate, but there are, like Willie says, a lot of people who just don't know how much fun their missing.

As a matter of fact, at times we think there are too many people at the ballgames. Those times, invariably, are when our favorite team is being defeated and what sounds like hundreds of auto horns are blowing in applause for the opposition.

COST \$23,000--

New City Building Nearing Completion Structure Has 6440 Sq. Ft.

SEVERE WEATHER WARNING--

Series Of Short Siren Shrills

Bovina's fire siren warning for severe weather is a series of four or more short blasts, Fire Chief Pat Kunselman reminded this week.

The series of short blasts will be repeated if time permits, he pointed out.

To signal a fire in town, the siren gives out two blasts. Three blasts signifies a fire in the rural area around town. One blast from the siren means a fire meeting or other non-emergency gathering of firemen.

Summer Shower Monday

Rain clouds moved into the area Monday about 7:30 and deposited a summer shower on the area.

Totals amounts of the moisture ranged from one-tenth of an inch to four-tenths across the area. Blowing dust preceded

the rain.

The moisture brought a temporary halt to wheat harvest but combines were back at work in the wheatfields Tuesday afternoon. The moisture caused less than a 24-hour delay in the harvest.

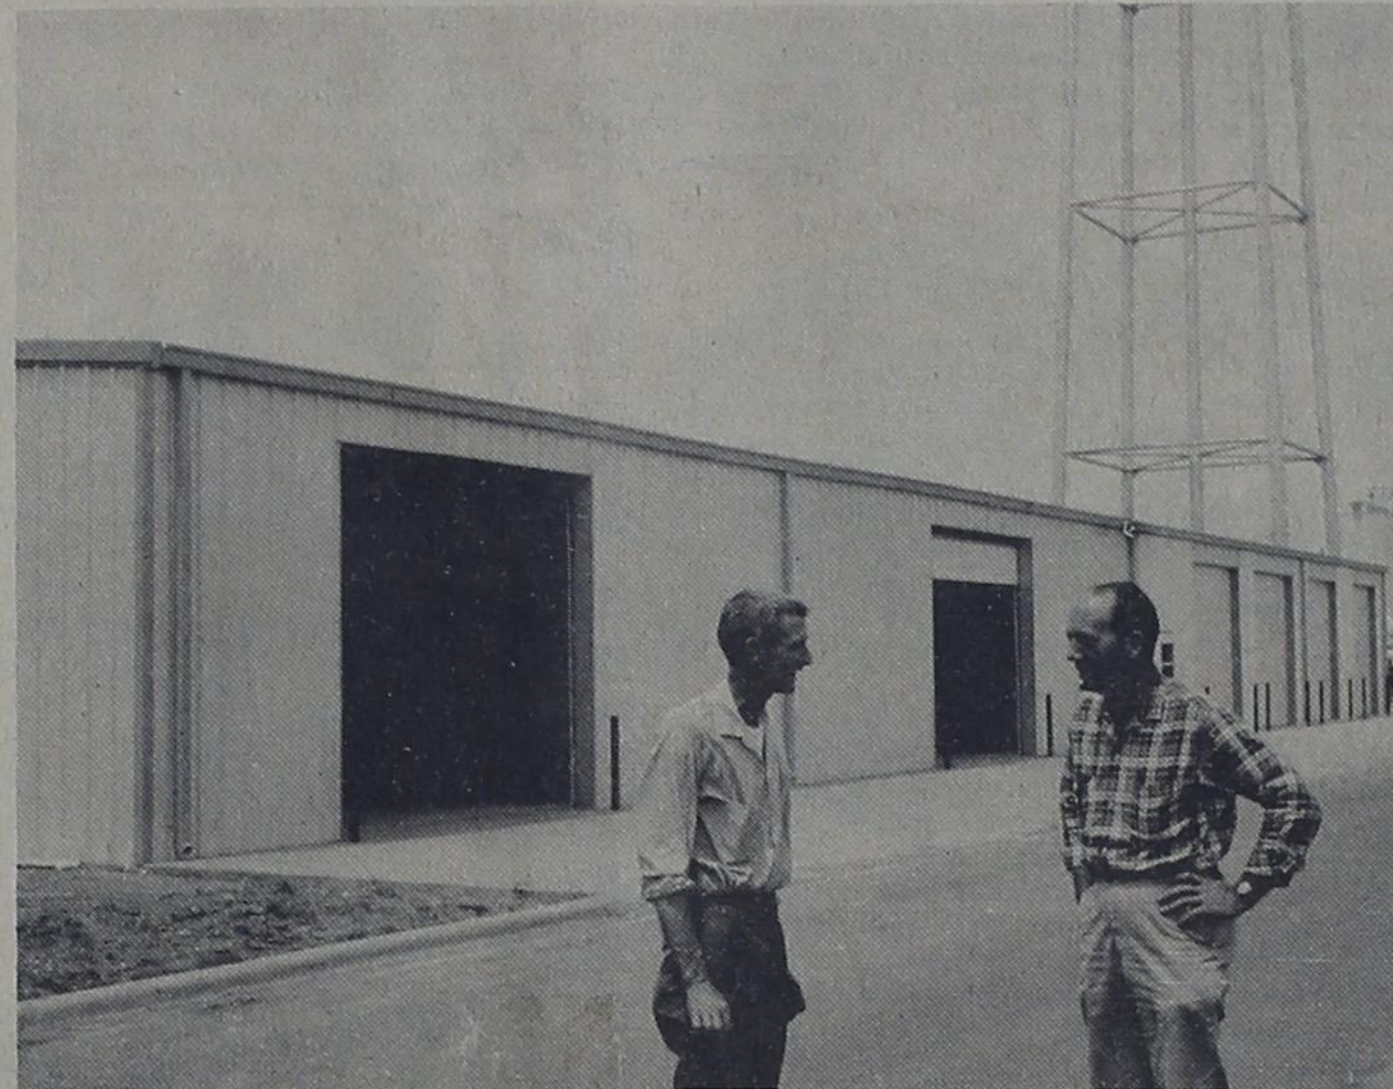

Make-Up Ball Game Saturday

There will be a Little League baseball game here Saturday night at 7, according to Gary Cox, coordinator of the program.

It will be a make-up of the

Monday night game between First National Bank-Lawlis Gin which was rained out in the second inning.

The game will be played over from the beginning.

ALMOST READY -- Shown in front of new city warehouse-fire station which is almost completed are Mayor Boyd Gilreath, left, and Jack Kesler, electrical contractor for the structure. Gilreath says the building is expected to be ready for use by next week.

KIRKPATRICK, CARSON GET PREMIUMS--

Wheat Harvest In Full Swing

First wheat of the 1965 harvest season was delivered to elevators here Wednesday of last week -- the 16th.

J. D. Kirkpatrick brought the first load of wheat to town. It was delivered to Sherley Grain Co. about 6:30 p. m. Wednesday and was of high moisture content.

Ray Verner delivered the first load to Bovina Wheat Growers later the same day. Verner's wheat had a moisture content of 17 per cent.

M. H. Carson had the first "dry" load of wheat at the co-op, 14 per cent or less moisture. Carson's tested 13.3 per cent. He received a \$25 premium from the elevator.

Wheat Growers' policy is to pay the premium on the first

load which registers 14 per cent or less moisture.

Kirkpatrick received the premium from Sherley and will be entitled to annual first load

award from Bovina Chamber of Commerce and Agriculture.

Jack Nelson delivered the second load to Sherley about 7

(Continued on page 2)

IN LITTLE LEAGUE--

Tie For First Place Between Two Teams

A two-way tie for first place

had developed in Bovina's Little League. With a pair of wins in as many games, First National Bank-Lawlis Gin came all the way from third place to tie Bovina Wheat Growers-Bovina Insurance for the top spot.

The two wins by Bank-Lawlis were over Oklahoma Lane Thursday, 23-4, and over Bovina Gin-Generalgas, now in third place, in Saturday's make-

up game, 7-3.

Oklahoma Lane Eagles picked up their second decision of the season Tuesday of last week by doubling Bovina Gin-Generalgas, 10-5. In Saturday's make-up game, the Eagles put up a good fight before falling to the BWG-BI team, 14-13.

In Friday night's tilt, Bovina Gin-Generalgas blasted the league-leading Wheat - Insurance boys easily, 9-1.

Monday night's tilt was rained

out in the second inning with Bank-Lawlis leading Gin-Gas by a slight margin.

Forthcoming Little League games:

Thursday, June 24 -- Bank-Lawlis vs. BWG-BI;
Friday, June 25 -- Oklahoma Lane vs. Gin-Gas;
Monday, June 28 -- Bank-Lawlis vs. Oklahoma Lane;
Tuesday, June 29 -- Gin-Gas vs. BWG-BI

(Continued on page 2)

FOR EIGHT MEN'S TEAMS--

Plan Slow-Pitch Softball League

Plans are being completed for an eight-team men's slow-pitch softball league to get underway here July 19.

This will be the first time for slow-pitch to be played here as such. The league, which will last for four weeks, will begin when the boys baseball program is completed. The boys' program ends July 15, a Thursday. The field will be available for make-up games on Friday and Saturday if they are needed.

Teams expected to enter the softball league are Lions Club, Jaycees, Firemen, Oklahoma Lane, high school and college boys, a team managed by Benny Shelby, a team managed by Mike Barraza and a team managed by Billie Sudderth and J. T. Hammonds.

A doubleheader will be played Monday, Tuesday, Thursday and Friday nights with each team

playing twice a week for a total of eight games per team over the four-week stretch.

The league will be sponsored by Bovina Lions Club which will present a trophy to the winning team.

First game will begin at 7 each night of play with the second game slated to begin about 9.

Present plans for the Lions Club committee in charge of the league call for each team to turn in a roster of 15 players by July 9. Teams won't be allowed to make additions to their roster without approval of the committee. Members of it are Vernon Estes, Wendol Christian and Jim Russell.

Each team will furnish one new ball for each game it plays. In addition each team will pay an entrance fee of \$15 which will be returned at the end of

the league if the team has not forfeited a game due to a lack of players.

Also, each team will be expected to furnish one umpire to work the opposite game on the same night his team plays.

The 10-run rule will be in effect at the end of four innings, according to present plans.

Ten players are on a slow-pitch team. Bedford Caldwell will manage the Lions team. James Taylor will be in charge of the firemen. Harold Carpenter will head the Oklahoma Lane entry. The Jaycees have yet to name a manager.

Individuals interested in playing in the league may contact one of the managers or a member of the Lions Club committee in charge of the program.

Letters To The Editor

(Editor's Note--The following letter is from Heidi Jonasdottir of Iceland, who was exchange student here during '63-'64. She lived with the Robert E. Wilson family.)

June 16, 1965
 To All Friends In Bovina:
 Although the time has passed by very fast it seems to be so long since I was in Bovina among you.

I have been having a very good time and worked hard since I came home.

We are expecting a good summer this year and I hope we will not have any disappointment because we never know how the weather is going to be from one day to another. The daylight is now all night long and it will be that way until the last part of July or August.

My family and I are all very well and they are so grateful for how nice all of you were to me when I stayed in your town. I want to thank everyone of you, and especially the members of the Methodist Church, for making my stay in Bovina possible and so much fun.

I truly hope that I will be able to visit you again and send all of you my best wishes with my love.

Hale Center's debt of gratitude can never be repaid. This was the conclusion of the Chamber of Commerce and Agriculture Board as they surveyed the list of those who came to our aid following the June 2 tornado disaster.

To the extent possible a register was maintained of the hundreds of cities, communities, business concerns, organizations and individuals that gave so much and worked so hard during those horrible days of havoc and ruin. By their many contributions of sharing what they possessed, giving of their time and ability and rendering their many services, our burdens and sorrow and suffering was made much lighter.

Reflections

From
The Blade

SIX YEARS AGO,
 JUNE 24, 1959

A small but severe thunderstorm with fine hail, high winds and heavy rains roared out of the sky Saturday afternoon damaging crops and flooding highways. Up to five and a half inches fell in the storm's path.

Bovina Wheat Growers and Macon Elevator reported their first loads of wheat last Tuesday. Vernon Estes delivered Macon's first load. Stevenson and Steelman delivered the first load to Bovina Wheat Growers.

Mrs. Daniel Jones, the former Frieda Downs, was honored with a bridal shower Thursday afternoon in Baptist Church annex.

Miss Cella Barraza, daughter of Mr. and Mrs. Marcell Barraza, became the bride of Sonny Brito, son of Mr. and Mrs. S. A. Brito Saturday.

The family of Joe Head gathered for a picnic dinner at the Clovis City Park to celebrate Father's Day Sunday.

Summer homemaking course will end Friday when the group goes to Clovis for a picnic and tour some Clovis business establishments.

Mrs. Vernon Estes left Sunday by train for California to visit her sister, Mrs. Mary Kaminski and family.

Lions Club will again sponsor a Fourth of July picnic and celebration at city park. This year's Independence Day activities will be patterned after past Lions-sponsored celebrations.

THREE YEARS AGO
 JUNE 20, 1962

Bovina's Babe Ruth league-age baseball team picked up its first win of the season here Saturday night.

City of Bovina has new people in its two most important appointive posts this week. Mrs. Mary Ruth Martin is new city secretary and Paul Holcomb is water superintendent.

Bovina Chamber of Commerce and Agriculture is having five signs constructed to be erected on highway entrances of Bovina. Jack McCracken, manager, announces.

Miss Dyalitha Bradshaw, daughter of Mr. and Mrs. Bill Bradshaw, will tour Europe this summer on an educational tour.

Mr. and Mrs. Robert Calaway were honored with a surprise party Saturday night noting their Silver Wedding Anniversary.

The Farmer County Commissioners' Court, sitting as a board of equalization in their meeting last week, set the tax rate for the county at \$1.25 per \$100 valuation.

St. Ann's Catholic Church has scheduled vacation summer church school classes June 25 through July 6 at the church.

Concession stand at ballpark is now open nightly. The stand is being operated by mothers of boys who are participating in baseball program.

Wheat Harvest--

(Continued from page 1)

p. m. Wednesday, some 30 minutes later than Kirkpatrick. Nelson's load tested 15 per cent moisture.

Starting with the aforementioned loads, wheat harvest continued on a limited basis until late Saturday afternoon when it began to hit full swing and continued at top speed until Monday evening's shower. Cutting was expected to be back on schedule by this (Wednesday) morning.

The harvest is expected to be finished in a matter of days now, barring more wet weather. Recent rains delayed the beginning of harvest by as much as a week in some cases. Then when the wheat was ready to be cut at once. Under those circumstances, the harvest won't last many days and will, barring additional rain, be over as quickly as it started.

HOMEMADE BAT -- Lawrence Gray, who does not work with wood as a hobby, is shown with a baseball bat he made recently. The bat is of black walnut wood and was made on Gray's lathe. This is the second bat he has made this year. The first one is in use by one of Bovina Little League teams.

SENATOR

Dear Fellow Texans:

I have recently introduced a bill which would compensate the innocent victims of crime.

Everybody, we read about some innocent citizen who has been brutally attacked, a woman or girl assaulted, or the sole support and wage earner in a family killed. The shocking thing is that the victims of these crimes are in no way compensated for the injuries they received. The survivors of a murdered wage earner, or the assaulted girl, or the innocent injured child are the ones who must suffer from the crime -- yet there is no way they can be compensated.

While our laws say the criminal must be warned of his legal rights to have an attorney, the victim must pay his own hospital bills. Then if the criminal is held beyond a short while before being taken before a magistrate, his conviction would be reversed on constitutional grounds.

While society is striving to protect the criminal's rights, it is showing no concern for the victim of his crime, who might be dying, penniless, or disabled beyond the capacity to work. Society is more cruel to the victims of crime than to the actual person who commits the crime.

Under my bill, the government would compensate the victims of crimes of violence for injuries to the person, not for loss of property. It provides only for those cases in which the injured person was in no way responsible for the injury -- the innocent victim of crime.

PEEWEE LEADERS -- Coach Frank Wilson is shown with his peewee league-leading team, Cicero Smith Lumber Co., which now has an 8-1 record through nine games. Kneeling, left to right, are Dee King, Joe Clay, Butch McCain, Rush Looney and Joe Steelman. Standing, left to right, Roy Hartzog, Terry Sherrill, Benny McCain, Ted King and Johnny Caldwell.

"Not Everyone Belongs To A
 Co-Op But Everybody Benefits"

This law has worked well in New Zealand and in Britain, and it would be limited only to areas where the Federal government exercises general police power. It would in no way impinge on the rights of the several states, although I would hope that they would follow with a similar law for their own areas.

It is time that the government of this nation shows as much concern for the victims of crimes of violence as they do for the person who commits the crime.

Billy Marshall Winner Of FFA Award

Billy Marshall, Bovina High senior FFA member, will receive the Lone Star Farmer Degree at the State FFA convention in Houston June 14-16.

Announcement of Marshall's award has been made by John Paul Jones, FFA advisor here. This award is the highest made by the Texas Association of Future Farmers of America. Marshall will be one of 785 members to receive the degree at the Houston convention.

A meeting of the chapter here has been set for Monday night at 8 in the vo-age department at school. Delegates to the state convention will be elected. Also,

chapter officers for next school year will be named, Jones says.

All chapter members are urged to attend the meeting and '65-'66 freshmen are invited to attend the meeting.

Dean Hastings Has Surgery

Dean Hastings, Santa Fe agent in Bovina, underwent a sinusotomy in the Santa Fe Hospital in Albuquerque last week.

He is expected to be released some time this week.

WITH 8-1 RECORD --

Cicero Leading Peewee League

The Cicero Smith Cats are running away with Bovina's peewee league.

Managed by Frank Wilson, they picked up four wins last week and this and now have an 8-1 season record.

The Cats began their four-game winning streak Tuesday of last week with a 10-5 verdict over Oklahoma Lane's Eagles, who are now in second place in the league. Friday, they blanked Bovina Blade-Bovina Welding, 7-0. In Saturday's makeup game, which was rained out June 10, they blasted Sudderth's Giants, 13-2. Then Monday night, they continued to dominate league play with another decision over Sudderth's club. This time the score was 13-5.

Blade-Welding slipped into third place by dropping two games during the past week. In addition to the whitewashing from Cicero, they also lost to Oklahoma Lane in a Saturday game, which was a make-up from the June 11 washout, 4-1.

In moving into second place with an even 4-4 mark, Oklahoma Lane won two and lost one in their last three playing dates. They lost to Cicero, won from Blade-Welding and blanked the Giants, 4-0, in Thursday's tilt. The Giants are now 1-7 for the season.

Forthcoming peewee schedule:

Thursday, June 24 -- Sudderth vs. Blade-Welding;
Friday, June 25 -- Oklahoma Lane vs. Cicero;
Monday, June 28 -- Sudderth vs. Oklahoma Lane;
Tuesday, June 29 -- Cicero vs. Blade-Welding;

(The following standings do not include Tuesday night's game.)

PEEWEE STANDINGS			
Team	W	L	Pct.
Cicero Smith	8	1	.888
Oklahoma Lane	4	4	.500
Blade-Welding	3	4	.428
Sudderth	1	7	.125

Bobby Webb Promoted To Staff Sergeant

Bobby H. Webb, whose mother Mrs. Bessie Webb resides in Bovina, has been promoted to staff sergeant in the U.S. Air Force at Laon AB, France.

Sgt. Webb is an aircraft mechanic in a unit that supports the U.S. Air Forces in Europe mission of providing the major air contribution for the defense of the NATO countries.

The sergeant who is married to the former Tempey Willis of Bovina attended school in Banville, Ark.

Chamber Meet--

(Continued from page 1)
are invited to attend the session and directors are urged to be present, Stone says.

Highlighting the meeting will be discussion and planning for Bull Town Days, Bovina's annual celebration, which is scheduled for August 19-21.

Steelman Sells--

(Continued from page 1)
Davis, a native of Bovina, has lived in Friona for the past two years.

The business is located on First Street in Bovina.

Steelman purchased the meat processing facilities from Earl Richards in November of '63 and has operated it since that time.

Steelman has announced no future plans but indicates that he will continue to live in Bovina.

OL Club Has Annual Dinner

Oklahoma Lane Variety Club met in the home of Mr. and Mrs. Bill Foster of Farwell for its annual chicken fry

Kim Gober Has Birthday Party

Kim Gober, 11-year-old daughter of Mr. and Mrs. Lloyd Gober, recently celebrated her birthday with a party.

The girls went swimming and had a hot dog supper and then went to the movie.

Those attending the party were Debbie Gober, Twila Hutto and Barbara Griffith.

86 Attend Party Friday For Teenagers

Some 86 young people attended the party in the American Legion Hall Friday night.

"The Tyrants" from Friona furnished the music for the evening.

The young people were served sandwiches and chips for refreshments.

Parents sponsoring the party were Mr. and Mrs. Ed Hutto, Mr. and Mrs. Earl Dean Boyd, Mr. and Mrs. Lloyd Gober, Mr. and Mrs. Bill Hutto and Mr. and Mrs. Elton Venable.

Another party is planned for the young people in approximately one month.

Tim Monk Has Birthday Party

Tim Monk, 11-year-old son of Mr. and Mrs. T. N. Monk, celebrated his birthday Tuesday afternoon with a swimming party in Friona. After the youngsters went swimming they returned to Bovina for refreshments of cake and ice cream.

Those attending the party were Sherry Vaughn, Brenda Dyer, Calvin McCutchan, Donnie Grissom, Hugh Rogers and Danny Monk.

Spring and Summer Tea Drinks Call for Family-Sized Pitcher

By Wilma Dobie

While the sky becomes a steadier blue and there's a marvelous new magic taking place outdoors as Spring swings into Summer, it's time to work a little magic into the family menus.

There are new fruits and vegetables available now to whet jaded appetites and brighten the beverages we serve. The perennial family favorite, iced tea, is still the best all-around thirst quencher and flatters any menu under the Spring or Summer sun.

Like a good man, a good, family-sized iced tea pitcher is hard to find. However, just as the iced tea season is getting underway, Thomas J. Lipton, Inc. is offering a two-and-a-half quart glass pitcher and set of six 14-ounce glasses in colorful assortment. Pitcher and glasses are permanently coated with a glacier-like plastic finish—green in the case of the pitcher—that actually keeps iced tea colder and helps make all pieces break-resistant.

To order, simply send your name and address along with a Lipton boxtop from any size package of tea or Flo-Thru tea bags, plus \$3.50, and mail to:

Lipton Tea
Box #810
Spring Park, Minn.

Either pitcher or set of glasses is available separately for \$2.00 and Lipton Tea boxtop.

The Lipton Kitchens have developed three family-size recipes for Spring and Summer tea drinks — "Strawberry Festival Tea," "Rhubarb Spring Tea" and "Mint Cooler"—that can be easily made and kept on hand in the new Lipton premium pitcher.

STRAWBERRY FESTIVAL TEA

1 pint fresh strawberries
½ cup sugar
1½ quarts Lipton Tea, cooled
1 6-ounce can frozen lemonade concentrate

Clean and hull strawberries. Slice in half and stir in sugar. Add to tea with lemonade concentrate. Makes about 2 quarts Strawberry Festival Tea. Serve over ice in tall glasses.

RHUBARB SPRING TEA

1½ quarts Lipton Tea

Thursday night.

Those present were Mr. and Mrs. Dan Sides and Mr. and Mrs. Lloyd Battey of Hereford, Mr. and Mrs. George Lindop, Mr. and Mrs. C. C. Christian, Mr. and Mrs. M. C. Roberts, Mr. and Mrs. Thad Watkins, Mr. and Mrs. L. M. Grissom and Lola, and Mrs. J. R. Caldwell.

Special guests present were Mr. and Mrs. Freddy Lykes and son, Freddy, of Galveston, Mr. and Mrs. C. W. Grissom, Peggy and Kathy of Tiabon, N.M., and Jeanne and Donna Jo Jones, of Bellview.

Shower Honors Mrs. Willard

Charity Circle of Bovina Methodist Church honored Mrs. Vernon Willard and son, Karl Brent, with a shower Thursday morning in the parlor of the church.

Those present were Mrs. Oakley Stevenson, Mrs. Milt Fitts, Mrs. A. M. Wilson, Mrs. Jimmy Ware, Mrs. Harold Snell, Mrs. Jimmie Clements and Mrs. Edward Issac.

The group was served coffee and cinnamon rolls.

Sorority Has Houston Meet

Annual convention of Alpha State, the Delta Kappa Gamma Society, teachers' sorority, held its annual convention in Houston June 10-13.

Several teachers in Bovina are members of Delta Xi, a chapter of the state organization.

The president of Delta Xi, the area chapter, Miss Hazel Merritt of Dimmitt, was honored at the presidents' dinner at the convention. Other members of the area chapter attending the convention were Mrs. Gladys Legg and Mrs. Leta Kaul of Hereford.

Kathy Spurlin has been visiting in Boulder, Colo. for the last two weeks with Mr. and Mrs. Jack Spurlin.

Of Interest To THE WOMEN

Patsy Lloyd, Larry Webb Exchange Wedding Vows

Miss Patsy Lloyd, daughter of Mr. and Mrs. Travis Lloyd, became the bride of Larry Webb, son of Mrs. Bessie Webb, in a double ring ceremony Sunday, June 13, in First Baptist Church of Bovina.

Rev. Ralph Aday, pastor of the church, officiated.

The candlelight ceremony was performed before an altar of palms and baskets of white gladioli and stock. A third candelabra awaited the couple in the back of the church with three candles in it, two were burning and the third candle was lighted as the couple left the church to signify they came in as two and left as one.

The bride, given in marriage by her father, wore a formal gown of bridal satin with a bateau neckline. The bodice was enhanced with re-embroidered lace appliques and seed pearls.

The bride's veil of illusion was secured by a seedpearl crown. She carried a white orchid surrounded by feathered carnations atop a white Bible given to the bride by YWA.

The traditional something old new, borrowed, blue and a penny in her shoe completed her wedding apparel.

Barbara Lloyd, of Friona, cousin of the bride, served as maid of honor. She wore an apricot dress of embossed peau de sole and a veil attached to a crown of pearls.

Bridesmaids Lynn Looney and Dorothy Bowman wore identical dresses of apricot embossed peau de sole and each carried a long stemmed rose, their hats were apricot flowers with a veil attached.

Candlelighters, Miss Carissa Engant, cousin of the bride, and Miss Patty Mills, niece of the groom, wore dresses of embossed peau de sole, and a head band of white roses and wristlets of apricot roses.

Kenneth Webb of Lariat, nephew of the groom, served as best man. Groomsmen were Donald Lloyd, Canyon, brother of the bride, and John Sikes Jr., of Abilene, brother-in-law of the groom. Ushers for the wedding were Milton Hargus of Friona and Jackie Dane, Bovina.

Traditional wedding selections were played by Mrs. Weldon Moody, organist, and Miss June Gay Douglas, pianist. The soloist, Miss Tonya Ivy sang, "Because" and "Twelfth of Never." The groom sang the "Wedding Prayer."

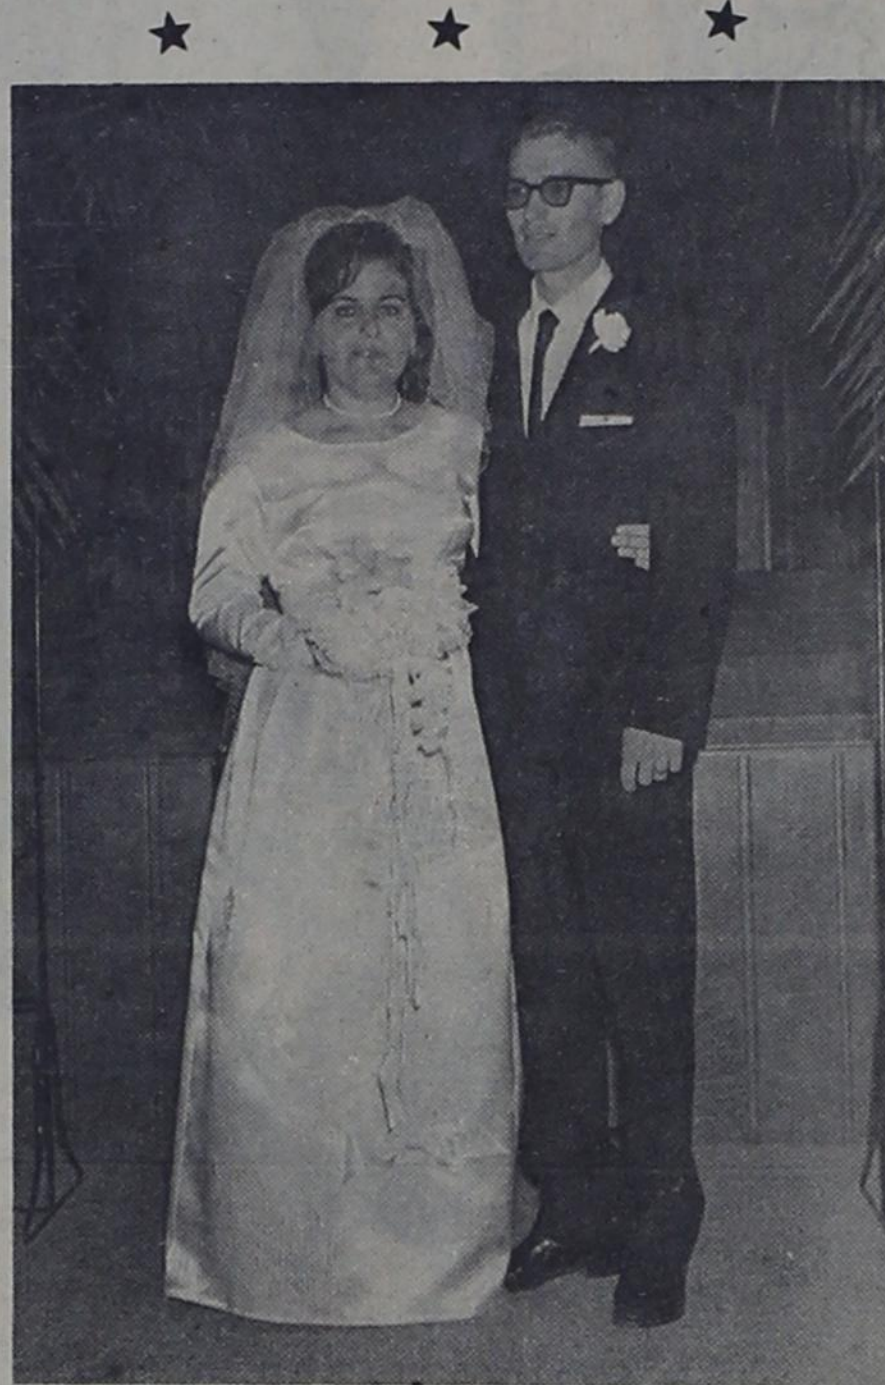

Mrs. Lloyd selected for her

Methodist Youth To Ceta Glenn

Ten Junior High Youth of the Bovina Methodist Church and Pastor J.B. Fowler, spent last week at Ceta Canyon.

Those attending were Candy Wilson, Suzanne Wilson, Pam Grissom, Nancy Mitchell, Denise Clements, Bobby Redden, Ronnie Dyer, Tommy Spears, Bruce Caldwell and Robert Fowler.

Mrs. Robert Harris has been released recently from the Farmer County Hospital. Mrs. Harris was confined for approximately one week.

MR. AND MRS. LARRY WEBB

daughter's wedding a beige dress, tapestry bag, shoes and apricot accessories.

The groom's mother chose a blue dress and white accessories.

Following the ceremony, the bride's parents hosted a reception in the church Fellowship Hall.

The bride's table was laid with a white lace tablecloth over apricot. An arrangement of flowers and candles centered the table with silver and crystal appointments.

Miss Pam Webb and Judy Strawn served for the reception, Miss June Webb registered the guests.

When the couple left for a wedding trip to Colorado Springs, Colo., the bride wore a white knit suit with blue accessories.

The bride is a 1965 graduate of Bovina High School.

Webb is a graduate of Bovina High School and is employed by Wilsons Super Market.

The couple will make their home in Bovina.

Wedding Vows Read In England

Mr. and Mrs. W.A. Smith of Nottingham, England, wish to announce the marriage of their daughter, Constance Ann Smith to Cpl. Max Gilreath of Bovina.

The couple were married March 13 in Kingsweigh House by Navy Chaplain, Commander Olgisbs.

A reception was held following the ceremony in the U.S. Marine Depot Club.

Cpl. Gilreath is the son of Mr. and Mrs. Boyd Gilreath of Bovina and is in the Marine Corps stationed in London England.

Mr. and Mrs. Wilbur Charles are visiting their son and family, Mr. and Mrs. Jimmie Charles and children in Parsons, Kan.

Texas Tech plays seven home games this fall, the first time that many have been scheduled for Lubbock since 1938, when Tech went to the Cotton Bowl. Jones Stadium will be the site for games with Kansas, Texas A&M, Texas Christian, Oklahoma State, Rice, New Mexico State, and Baylor.

Allan Wassom Visiting Here

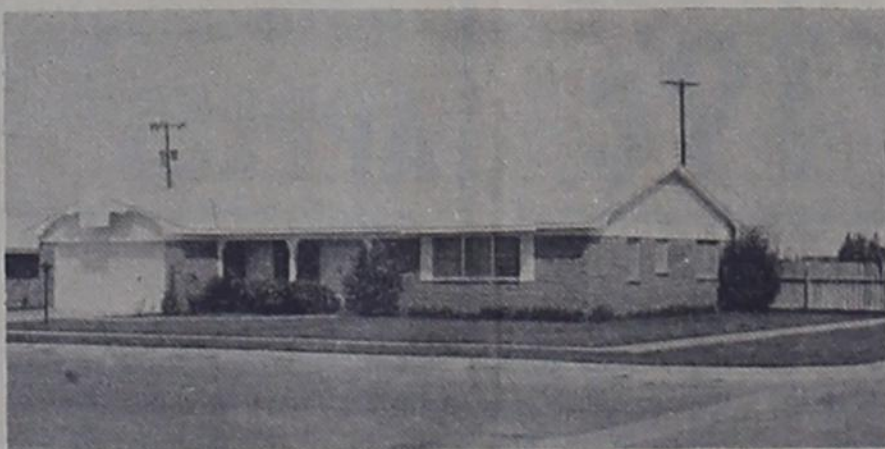

Mr. and Mrs. Allan Wassom of Oxon Hill, Maryland have been in Bovina visiting his mother, Mrs. Helen Wassom, for the past two weeks.

While here Mrs. Wassom, Doyle, and Mr. and Mrs. Allan Wassom visited Carlsbad Caverns and spent the night with Mr. and Mrs. Dennis Johnston, in Hobbs, N.M.

Mr. and Mrs. Allan Wassom left Monday to return home.

Eddie Redden was admitted to St. Anthony's hospital in Amarillo last Monday for treatment for encephaloma. He is improved and is expected to be released sometime this week.

Bridal Shower Set July 1

Miss June Gay Douglas, bride-elect of Gerard Bradford of Clovis, will be honored with a come and go shower Thursday, July 1, in the home of Mrs. Earl Ware, 600 Ave. D, from 3 o'clock to 5.

All friends of the couple are invited to attend.

LOCALS

Mrs. Jack Woltmon was released from Clovis Memorial Hospital Monday morning. Mrs. Woltmon was confined to the hospital last week.

Jan Edwards, daughter of Mr. and Mrs. Andy Edwards, was graduated recently from Jarvis Christian College. Miss Edwards is a native of Hughes Springs. The college is in East Texas.

Mr. and Mrs. Cecil Sisk, Royce and Judy, spent Sunday in Lamesa visiting her parents, Mr. and Mrs. L. P. Mayfield.

Mr. and Mrs. J. M. McMillan are in Alexandria, Va. for nine weeks ROTC camp. Mrs. McMillan is the former Nickie Woelfel.

Mr. and Mrs. Leon Ware spent the weekend in Goodland, Kan. visiting friends recently.

Mr. and Mrs. Phillip Lloyd have moved to Canyon where he has enrolled in West Texas State University.

Mrs. James Lawlis has been in Bovina visiting her parents, Mr. and Mrs. Paul Lloyd, while her husband is in camp in Fort Hood.

Cecil Boothe enrolled in Hardin College at Searcy, Ark. for the summer session. Boothe is a '65 graduate of Bovina.

Mr. and Mrs. Dick Martin and children were here over the weekend from Odessa visiting their parents, Mr. and Mrs. Lester Rhinehart and Mrs. Mary Ruth Martin.

Mr. and Mrs. Arnold Krieger recently moved from Lubbock he has been attending school in Dallas where he is employed.

Mr. and Mrs. Carl Rea returned Monday from Jacksonville, Fla. where they attended the Supreme Session for The Daughters of the Nile.

Rev. and Mrs. Dick Horn of Spur are vacationing in Idaho for two weeks. While they are vacationing, Mr. and Mrs. Gene Ezell are keeping their youngest child.

PAT'S TER

By Pat Hawkins

Harvest time is here again. Guess everyone will be pretty busy trying to beat those ever-nagging storm clouds that seem to loom just far enough away to keep you nervous.

From the eye of a farmer's wife who knows very little about crops, the general appearance of all the wheat fields looks good. Hope this is a good year for every one.

Read a article the other day that just proves that if the U. S. Department of Agriculture runs out of anything else to do they try to figure out an easier way to keep the housewives of America happy.

It seems that scientist have finally found a cure for muddy tracks on the living-room rug. They're matching the rug to the mud.

Soil specialists for the USDA are helping carpet manufacturers find the exact shades of dirt in various parts of the nation. The manufacturers hope to weave the dirt colors into rug patterns so that, wherever you live, tracked-in grime will blend neatly into the background.

According to the USDA soil surveys have already been made for over 822 million acres of American land -- so the rug men can start building their mud pile anytime now.

Guess now the only problem for the housewives is: What happens if you buy a Mississippi-mud-color carpet -- and then move to Oklahoma?

Did you know that the Gonk dolls are gonk, and the Dawk is the next outrageously silly collectors' item for the way "in" crowd.

A Dawk is a nine-inch plastic non-person, with long sheep-doggy hair, sunglasses and beatnik sandals. It won't talk and can't walk, but will register silent protest -- for or against anything. It comes with a picket sign and whole kit of ready-made messages such as "Help Teach Old Dawks New Tricks."

There will also be a Dawk song, a Western Union Dawkogram and a Dawk dance, to be known also as "The Protest." This calls for the dancer to stand still and gently sway his upper torso, with his right hand waving an imaginary protest sign. Now this one is appropriate for the times!

ONE PATTERN LOOK—Monogrammed and coordinated cottons for the bed and bath show new elegance with Swiss embroidery. Shown here are shower curtain, towels, face cloths, bath mat, sheets, pillowcases, and basket cover-ups.

Kathy Sikes is in Abilene visiting Mr. and Mrs. Johnny Sikes. She intends to stay for another week.

Mr. and Mrs. Billy Bob Harris of Ft. Worth spent last weekend with his parents, Mr. and Mrs. Robert Harris.

Church Chuckles by CARTWRIGHT

"Your father is reading the Bible. I'm not sure whether to offer up a prayer of thanksgiving or call the doctor!"

HEY YOU! HOW ABOUT WRITING A ...
RELIGIOUS THEME!

June theme: "Benefits of Church Attendance."
All ages may enter. Theme should be about 250 words.
Cash prizes of \$5, \$4, \$3, \$2 and \$1. Themes will be published in July on the church page.

BIBLE QUIZ

...by Don Stone

June prize: ARCHAEOLOGY AND THE NEW TESTAMENT, by Merrill F. Unger (\$4.95 value). Consolation prizes will be awarded.

Send your completed quiz to: Box 422, Bovina, Texas

The history unfolded in the Bible is a pageant of people, places and events.

Where? Was Paul let down in a basket from the city wall by night?

... did Paul see a vision of a man of Macedonia?

... did Jesus rest at a well?

... did John see his vision of the ages?

... did James serve as a "pillar of the church"?

Who? ... was the individual called, "Thou child of the devil"?

... was rebuked to his face by a fellow apostle because of his dissimulation?

... was the man whose prayer rose as a memorial to God which effected the admission of the gentiles to the church?

... was the man whose optimistic report of the promised land gained him entrance into and a possession in that place?

What? ... happened at Zeraphath?

... happened in the coasts of Caesarea Phillippi?

... happened at Nain?

... happened at Lystra?

... happened at Telabib?

... happened at Dothan?

Bonus question: Who am I? I illustrate the truth, "the love of money is the root of all kinds of evil." I loved what my master did not want, but I got what another man loathed. My name begins with "G."

Winners will be announced in the second issue of the month of July.

GARDENING TIME -- "Charlie Gray, who lives south of Bovina, is shown in his garden which is one of the many fine ones in the area this year. An abundance of rainfall has aided in making this year a better-than-usual one for gardens. A variety of vegetables are growing in the large Gray garden, some of which found their way home with the photographer after this picture was taken.

65 Enroll In St. Ann's Sessions

St. Ann's Summer Session in Religion began Monday and will continue for two weeks. Brother Justin, spokesman for the church, reports 65 enrolled for the first day. However it is expected for the final total to reach 80 in mid-week. Classes start at 8:30 beginning with mass. Following are religious classes, programed recreation, and picnic lunch. The day ends at three.

Those helping with the session are Bro. Justin, Bro. Martin, Bro. Gerard and Bro. Andre, all of the Graymore Seminars from the Atonement Seminary of Washington, D.C. Also helping are Mrs. Gil DeLeon and Miss Arsenia Cano.

McCutchans Have Weekend Guests

Visiting in the home of Mr. and Mrs. Jack McCutchan over the weekend have been Mr. and Mrs. Everett McCutchan of Blue Lake, Calif., Mrs. Cuma Frochen of Ukiah, Calif., Mr. and Mrs. Dan Smith of Manteca, Calif., Mrs. Helen Guss and children of Carson City, Nev., Mrs. Beula

Pumroy of Hurst, Mr. and Mrs. Clyde Pumroy of Grapevine, Mr. and Mrs. Don McCutchan of Dallas, Mr. and Mrs. D. A. Hartley, Mr. and Mrs. Charlie Rauh of Friona, Mrs. Edmonson of Clovis, Mr. and Mrs. Roach of St. Varian, N.M., and Ricky Kunselmann of Bovina. Most of this group will go to Lefores Wednesday to help the Rev. Powell to celebrate his 100th birthday. Rev. Powell is the father of Mrs. Everett McCutchan.

Woltmon Grad Of Okla. Tech

Mr. and Mrs. Conley Woltmon are in Bovina this week visiting his parents Mr. and Mrs. Jack Woltmon.

Woltmon was recently graduated from Oklahoma State Tech in Okmulgee, Okla., and plans to work for Southwest Engine Co. in Albuquerque, N.M.

My Neighbors

Two of Texas Tech's back-field candidates for this fall are the sons of former Southwest Conference gridders -- junior safety David Baugh, son of Texas Christian's Sam Baugh, and sophomore quarterback-safety John Scovell, son of Texas A&M's Field Scovell.

By-Vern Sanford

A college football coach may have the biggest, fastest, smartest boys in the country. He may have the cleverest formation anywhere... "I", "A", "T", or what have you. But if his team can't block and tackle he might as well play Podunk High.

That's why he's constantly teaching fundamentals. Fishing is the same way! You may have the best bait-casting rig on the market. You may be able to put a practice plug in the bucket at 30, 40, and 50 feet... nine times out of nine.

But if you don't know more than that about the fundamentals of fishing, you'll never catch a black bass except by accident.

You've got to know THE FISH!

As often stated the black bass is an ornery critter.

He doesn't move around much except to forage for food. And he doesn't do that often because he homebreds in a place where he can hide and lie in wait for something edible to be washed to him by the current.

So look for him under an overhanging willow tree, close to the bank, and where the water is deep. All kinds of goodies come falling out of the tree: caterpillars, baby birds, and mice.

If there are lily pads there, so much the better. It will be a home for frogs.

If the bank is muddy, that's fine. Crawfish will live there. If there is a weed bed, that's wonderful. In that hideaway will be small bream and minnows that the largemouth can catch.

Point is if you want to catch fish, you have to put the lure where they are. You have to think like a fish. You have to figure out where he is at what time of day or season, and fish accordingly.

Let's take a lesson from the experts. They contend that most of the bass, and the biggest bass, are deep.

Yep, you can look at the color photographs in the outdoor magazines, and you can see the big blacks jumping after the topwater lures. It's spectacular! In fact, there's nothing else quite like it.

But if you want to catch bass -- big bass and lots of them -- don't concentrate on topwater lures. Fish deep! This year the most bass and the biggest bass have been caught in deep water on black jigs. Sometimes a fisherman puts on a pork rind or a pork chunk, or a plastic worm. There's no doubt about it, they add to the efficiency of the lure.

Remember the rule about not hurrying? Take it slow and easy! That's the way to fish the jig if you expect results. It must go to the bottom and sit there while the big

bass looks it over. After awhile move it about two inches. The bass will inspect the jig with more interest. He thinks it might be something alive. But he's not likely to commit himself yet.

Remember you've got all day. Relax. Move the jig another couple of inches... then look out!

If you are in a likely spot, you may get action any minute. The largemouth bass is both cantankerous and ornery. But he is not entirely unpredictable. He takes a lure for three reasons. He is either hungry, angry, or protecting his nest.

That's right, I said his nest. It's the male of the species who makes the nest, fanning out a clean place in the sand or gravel.

He drives the female into this place, where she lays her eggs. He deposits his milt on them and then acts as watchman until the little bass hatch out.

He resents any intrusion and he will pick up any foreign matter and move it out of the nest by picking it up in his mouth.

If that's your lure, you've got a bass.

Other than during nesting time, the bass, male and female, will hit a lure from anger anytime it intrudes upon their peace and quietude.

Bass have no regular eating habits like you and I. They eat when the opportunity presents itself.

A bass will lie in wait in the deep until something to eat comes along. Then he smashes it! He doesn't know what time it is. He doesn't eat by the clock. But he does know when he's hungry... which is most of the time.

Lo, I am with you always

—(Matt. 28:20)

We do not need to work hard in our meditations to reach God. He is right with us all the time. It is not necessary for us to tell Him what we need or want, because He knows our requirements. We give thanks that our highest good is already on the way straight from the hand of the Father who loves and cares for us.

Besides co-captains Texas Tech's 1934 basketball team, Polk Robinson, now Tech athletic director, also was player-coach of the tennis team.

BRING US YOUR TIRES FOR RECAPPING

Wheat harvest in Parmer County is off to a sputtering start, with many combines stopped by the current rains almost as soon as they have begun cutting. However, many farmers believe that if the elements cooperate wheat harvest will be two thirds to three fourths completed by end of the present week.

Delbert Lingnau, operator of the combine, pulls up to unload his precious cargo (wheat) into a waiting truck on the Joe McWilliams farm in the Lariat vicinity. McWilliams estimates that the crop will make a yield of 50 bushels per acre.

ASCS News Release

PROTEIN CONTENT - TEST WEIGHT AND NEXT YEAR'S WHEAT PROGRAM CAN EFFECT PRICE OF CURRENT CROP OF WHEAT.

Any of the above mentioned items can influence the price the grower may receive for this year's crop of wheat. If a producer places his wheat under CCC loan he will receive a premium for high protein content wheat and will receive a premium for heavy (test weight in excess of 62 lbs. per bushel) wheat.

In the event congress should pass new wheat legislation within the next couple of months that indicated a higher price for the 1966 crop of wheat than offered for 1965 crop, this could very well cause an increase in the market price for this year's wheat crop. These are things that the grower should consider when deciding whether to sell his wheat now, hold it in storage or hold it under CCC loan.

Below is a chart from which a grower may compute the amount of loan available for the quality of wheat he may have on hand. It is suggested that he figure the loan rate, find out what the current market is and estimate what he thinks the market might rise up to between now and next April. Then, do as he pleases in disposing of his wheat on hand.

THE HIGH PLAINS FARM AND HOME

On The Farm In Parmer County

By JOE VANZANDT
County Agent

CHEMICAL WEED CONTROL

I suspect there has been more talk, questions asked and only partially answered about weed control chemicals this year than ever before. I would also guess that Parmer County is one of the largest users of weed herbicides this year. There are a lot of things we are all learning about these chemicals due to such widespread use. The chemical residue in our soils and how this affects future crops is the main area that we don't know a lot about yet.

PRECAUTIONS ON 2,4-D

Herbicides can be useful tools for controlling weeds if they are properly applied. Improper application can cause crop damage and lawsuits from neighbors.

The use of 2, 4-D can usually stir some quick comments, either pro or con, depending on your past experience with it.

Several farmers are about ready to start using 2, 4-D to control weeds in their grain sorghum. Extreme care should be followed when spraying with 2, 4-D. Follow directions on the label exactly.

Use only amine salt or low volatile formulations as they are less likely to vaporize and drift. Spray only when wind is less than 10 miles per hour.

2, 4-D formulations may be used at 1/2 pound per acre to control broadleaf weeds once sorghum is 6 inches tall but before flowering. Hybrids containing Wheatland parentage should not be treated with 2, 4-D because serious yield reduction and lodging may occur. Best and most profitable results will be obtained if weeds are treated before they are 6 inches tall.

In Parmer County, farmers must obtain an application permit from the field representative of the State Department of Agriculture, Gene Cupp, 1924-34th Street, Lubbock, Texas, for applying any herbicide on plots of 10 acres or more. On smaller plots, the operator must notify the same office of his intent to spray before making application.

The State Herbicide regulations outline that when the wind is 7 to 10 miles per hour and when 1 pound of 2, 4-D is applied, the distance to susceptible crops must be 4 miles, downwind, and 250 feet, upwind. If 1/2 pound is used then these distances could be reduced one-half.

Farmers should watch the wind and quit when it gets close

IN PARMER COUNTY

Wheat Harvest Swings Into First Gear

After getting off to a sputtering start, due to the recent rains, with many combines halted almost as soon as they had begun cutting, wheat harvest in Parmer County was finally thrown into first gear this week.

Farmers in the western and southern sectors of the county predict that if the dry weather holds, most of the wheat in their areas will be harvested by end of the present week.

However, harvest in the Friona and Rhea areas will be later since combines are still not able to get into many fields due to the recent heavy rains in those areas. The Rhea elevator had received some wheat early this week.

First load of wheat in the Farwell area was brought in to State Line Grain Company on June 9, by Otto Lingnau of Lariat. The wheat, possibly of the Comanche variety, weighed 61 pounds per bushel and had a moisture content of 13%. It averaged a yield of 55 bushels per acre, according to Lingnau, who had predicted that it would make approximately 50 bushels.

The second load was brought to Shirley Anderson Pitman elevator on June 11 by Wilbert Kalbas. His wheat also averaged 55 bushels per acre.

According to Prentice Mills, manager of the Parmer County ASC office, all of the wheat in the county is yielding well over 40 bushels per acre.

"This is the best wheat crop we have ever had in Parmer County," said Mills adding that all of the wheat he has received reports on has had above average protein content.

Most of the 78,000 acres of wheat in the county is irrigated, however, a few farmers have some dryland wheat. It is also making a better yield than had been expected since little mois-

ture had been received during the growing season.

First load of wheat in Bovina was received by Shirley Grain Company on June 16. Elevator managers in that area agree that the yield is well above average this year, with many farmers reporting yields of 60 bushels per acre. A few have reported yields as high as 70 bu. per acre.

Vernon Symcox Elected To Angus Association

Vernon Symcox, Farwell, has been elected to membership in the American Angus Association.

A summer-time food favorite with many families is fried chicken. It's good served hot or cold. Chicken also is a good budget stretcher, emphasizes Mrs. Gwen Clyatt, Extension consumer marketing specialist with Texas A&M University.

Persons faced with decisions of what to give the new homeowner can make use of this basic kitchen equipment list prepared by Mrs. Wanda Meyer. The Texas A&M University home management specialist says that equipment most often used in the kitchen include one set of measuring cups, a set of measuring spoons, and a set of mixing bowls. For multi-purpose use, select oven glass mixing bowls.

Other cereal grains, including oats and barley, are also being harvested at this time. They are also making above average yields.

John Aldridge reports that the barley crop recently harvested by John Christian produced a yield of 105 bushels per acre. The crop was located three miles east of Farwell, on the Oklahoma Lane road.

At St. Joseph, Mo., announces Glen Bratcher, secretary.

This membership was one of 385 issued to breeders of registered Aberdeen-Angus in the United States during the past month.

NEW CASE.
10 and 12 HP
GARDEN TRACTORS
with
Hydra-Static Drive

More than fun to drive — they **WORK** like tractors!

They look like tractors and they work like tractors. Ideally powered and sized for all the part time gardening chores of small acreage operators. Engineered with big-tractor thinking — more usable horsepower and Hydra-Static Drive, new hydraulically driven, all-gear transmission. Infinite speed selection and instant reverse for fast maneuvering. Plenty of power for the heavy work — use full engine power even at creper speeds.

Full line of attachments available.

The big muscles of a Case garden tractor work for you all year — mowing with rotary or reel type mowers, gardening, dozing, hauling, plowing snow.

COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

LUBBOCK, Friday, June 18, 1965 - Cotton producer and producers representatives from areas in which more than 80 per cent of all cotton farmers operate have endorsed a re-phrased policy statement through the Cotton Producers Legislative Committee.

The re-statement of producer policy followed the second presentation of CPLC testimony before the House Agriculture Committee, which closed out open hearings in Washington June 15. Observers on the scene report that growers, generally, remain united on the basic objectives they consider indispensable. However, some grower organizations failed to agree with the methods whereby these objectives are to be accomplished, and several organizations, including Plains Cotton Growers, declined to have their names attached to the latest CPLC testimony. Hence the new draft of producer policy to further promote producer unity.

The only serious crack in the producers' wall came when Western Cotton Growers of California presented separate testimony offering to accept either a direct payment or government loan as a means to supplement producer income. In addition, the Western plan would support prices on only that cotton consumed domestically and would leave individual producers the option of producing without acreage controls if he chose to forego all federal supports.

Western is based in Fresno and represents growers whose cotton has been selling in the market at substantial premiums over loan value. For this reason that group feels less apprehension over the possibility of limitations on direct payments and has a less specific interest in whether the loan is set at a low or high level.

Excepting this group, Donald A. Johnson, Executive Vice President of Plains Cotton Growers, says producers are more convinced than ever that direct compensatory payments to producers in cotton legislation would lead to the downfall and the eventual collapse of cotton as a major industry.

The latest expression of producer philosophy, point Number Two of which bears out Johnson's observation with regard to direct payments, is currently approved by 13 grower organizations across 12 cotton belt states. It reads:

1. The negative approach to cotton exports has resulted in our cotton having lost its fair share of world markets. It must be abandoned. A positive effort in keeping with the spirit and the letter of Sec. 203 of the Agricultural Act of 1956 would achieve a 6 million bale offset with opportunities for increases as world markets expand, accompanying gains in population and levels of living.
2. Direct payments, in lieu of non-recourse loans as basic cotton farm income supports, are unacceptable to an overwhelming majority of cotton farmers.
3. The 16 million acres, national allotment, must be retained as a base for any

adjustments in production by individual farmers.

4. Major reductions in government costs cannot realistically be taken out of net incomes of cotton growers. Net incomes of producers have been drastically reduced and in some instances eliminated during the last two years. Further cuts through Congressional or Administrative actions will be protested by a vast majority of cotton farmers -- intensively, and persistently. These protests will reflect deterioration of the financial structure of the rural economy everywhere cotton production is a significant enterprise.

5. Recognizing the necessity of future reductions in government costs growers propose changes in level of price supports through adjusting non-recourse loan rates in keeping with relative changes in costs of production.

6. In this Nation, dedicated to economic growth and stability, it is unthinkable that our virile economy in rural areas will be cut to pieces with big acreage reductions, disappearing net farm incomes, low-pressure local activities and the elimination of job opportunities for people associated with cotton production and allied lines of business.

The House Committee on Agriculture is set to begin the task of drafting its cotton recommendations to Congress early in the week of June 20. Senate Agriculture Committee hearings on the omnibus farm bill got underway June 16 and the committee will probably get around to discussing a cotton law by June 22 or 23. Cotton Producers Legislative Committee is scheduled to appear before the Senate Committee on June 23, and the testimony of that group will be built around the above policy statement.

The Administration in Washington, big-city editors, columnists and in many instances the general public continue to blow out the cost of farm programs out of all proportion to their true significance.

These would be able to see the picture in better perspective if they would look seriously at figures recently compiled by Florida's Representative Edward Gurney, who has broken down the ways in which an average \$1000 paid in federal income taxes is spent. Of the \$1000, Gurney states, only \$44 goes to agriculture and farm programs. By contrast, \$64 is used for health, labor and welfare; \$54 for veterans' services and benefits, and \$114 for interest on the public debt. The remainder he says goes to national defense, \$528; education \$16; international affairs and finance \$40; space \$48; commerce and transportation \$28 and \$36 for "general movement."

Winners Named For Parmer County Horse Show

The first Parmer County 4-H Horse Show was held Wednesday, June 16 in the Bovina Roping Arena. There were 38 horses entered by 30 contestants in the show.

The judge for the show was Herb Howell of Bovina.

The Show climaxed 6 months work by the 4-H members and Horse leaders in this program. There were 16 members who earned points in the show and they are eligible to attend the District 4-H Horse Show to be held in Dumas on July 10.

The District show is held to determine the members who are eligible to go to the State 4-H Horse Show. The State Show will be held in the State Fair Park Coliseum, Dallas, on August 12 and 13.

Members eligible to attend District and the points they won are: Letha Templar, 1 point; Loy Dale Clark, 3 points; Royce Sisk, 3 points; Darlene Denney, 3 points; Derek Garner, 3 points; Dexter Garner, 1/2 point; Milton Walling, 1/2 point; Kenny Carter, 1/2 point; Loy Christian, 1/2 point; Brad Jordan, 1/2 point; Mike Buchanan, 1/2 point; Dennis Fallwell, 1 point; Joe Fallwell, 1/2 point; Danny Carthel, 1 point; Rusty Linderman, 2 points; and Joe Mark Malloy, 1 point.

The show results follow: Class 1, Registered Quarter Horse Mares, 4 years of age and over - first, Loy Christian with Cheyenne Beal; second, Letha Templar with Donna's Bando; third, Dennis Fallwell with Miss Quinn Ann.

Class 2, Registered Quarter Horse Mares, under 4-first, Dennis Fallwell and Miss Hub, second, Randy Kirkpatrick with Lidy Ford; third, Nancy Hutto with Maybe Sixteen; fourth, Randy Barrett with Bartender's Luck; fifth, Deborah Hawkins with Miss Gray Van.

Class 2A, Registered Thoroughbred Mares - first, Joe Fallwell with E. E. Pride; second, Dennis Fallwell with Sudden Panic, Class 3, Grade Mares under 14-1 hands - first, Danny Carthel with Ginger; second, Bruce McCuan with Grey

Sight; third, Al Kerby, Jr. with Dolly; fourth, Linda McVey with Babe.

Class 4, Grade Mares, 14-1 hands and over - first, Kenny Carter with Miss Kitty; second, Wesley Harris with Betsy. Class 5, Registered Geldings 4 and over - first, Brad Jordan with Bar Bid; second, Milton Walling with Pruner; third, Derek Garner with Joe Nelson.

Class 6, Registered Geldings, under 4 years - first, Dexter Garner with Bud's Hunk; second, Ernestine Templar with Brave Dave; third, Dennis Fallwell with Quinn's Jo. Class 7, Grade Geldings under 14-1 hands - first, Joe Mark Malloy with Skeeter; second, Loy Dale Clark with Billy Buck; third, Milton Lee Walling with Pepsi; fourth, Manuel Quintana with Rusty; fifth, Howard Denney with Tex; sixth, Royce Sisk with Duke, seventh, Mike Buchanan with Jughead.

Class 8, Grade Geldings 14-1 hands and over - first, Rusty Linderman with Shorty; second, Milton Walling with Duntle; third, Dexter Garner with Whistle Bitches; fourth, Brad Jordan with Baldy; fifth, Raymond Quintana with Brownie; sixth, Loy Christian with Froty; seventh, Galen Carson with Brownie; eighth, Darlene Denney with Ginger; ninth, Christie Trimble with Smoky. Class 9, Showmanship Class - first, Milton Walling; second, Dennis Fallwell; third, Randy Barrett; fourth, Loy Dale Clark; fifth, Dexter Garner; sixth, Joe Fallwell; seventh, Christie Trimble; eighth, Kenny Carter; ninth, Danny Carthel.

Class 10, Western Pleasure, Sr. - first, Letha Templar; second, Milton Walling; third, Manuel Quintana; fourth, Bruce McCuan; fifth, Dennis Fallwell; sixth, Raymond Quintana; seventh, Danny Carthel.

Class 11, Western Pleasure, Jr. - first, Loy Dale Clark; second, Darlene Denney; third, Royce Sisk; fourth, Nancy Hutto; fifth, Howard Denney; sixth, Mike Buchanan; seventh, Joe

Malloy; eighth, Loy Christian; ninth, Brad Jordan; tenth, Al Kerby, Jr. Other participants were: Christie Trimble, Rusty Linderman, Derek Garner, Kenny Carter, Randy Barrett and Wesley Harris.

Class 12, Reining, Sr. - first, Milton Walling; second, Dennis Fallwell; third, Manuel Quintana; fourth, Linda McVey; Class 13, Reining, Jr. - first, Mike Buchanan; Class 14, Pole Bending, Sr. - first, Milton Walling; second, Raymond Quintana; third, Manuel Quintana; fourth, Dennis Fallwell; fifth, Bruce McCuan; sixth, Danny Carthel.

Class 15, Pole Bending, Jr. - first, Royce Sisk; second, Derek Garner; third, Randy Barrett; fourth, Brad Jordan; fifth, Wesley Harris; sixth, Loy Christian; seventh, Galen Carson; eighth, Christie Trimble; ninth, Howard Denney. Class 16, Barrel Racing, Sr. - first, Milton Walling; second, Manuel Quintana; third, Raymond Quintana; fourth, Danny Carthel; fifth, Bruce McCuan; sixth, Letha Templar.

Class 17, Barrel Racing, Jr. - first, Derek Garner; second, Darlene Denney; third, Royce Sisk; fourth, Wesley Harris; fifth, Brad Jordan; sixth, Rusty Linderman; seventh, Randy Barrett; eighth, Loy Christian; ninth, Nancy Hutto; tenth, Christie Trimble. Also participating was: Galen Carson.

Adults who helped run the show included Mr. and Mrs. Delbert Garner, C. E. Trimble,

Homer Linderman, Mr. and Mrs. Wendol Christian, Jess Walling, Robert Calaway, Mitz County Agent, Joe VanZandt, reports he was pleased with the show results. The members displayed good sportsmanship and horsemanship throughout the show. Those attending the show could see what the members have learned through the horse program.

VanZandt said he was glad to see several younger members competing in the show, just give them a few more years and we will be able to see some good results of the 4-H horse educational program.

There were 5 members who tied with 3 points for high individuals in the show. However, as the show rules stated that ties would be broken on the basis of total performance points. If a tie still exists the horse that placed in the greater number of classes would be declared the winner.

The senior division, 13 years and over, winner was Milton Walling with Pruner. Milton won three first place awards and two second places and in addition the showmanship class for which no points were given.

Winner in the junior division, 12 and under, was Royce Sisk on Duke. Royce had one first place, two second places and a sixth place. Royce was tied with three other juniors with three Walling, Tommy Williams, James Calaway, Jack Templar, Pike Jordan and Mrs. Wayne Clark.

points but he won out because he placed in a greater number of classes.

These two high point winners are eligible to use a free stud breeding service that was donated to County 4-H Horse Program by Jess Walling of Bovina. These members have until January 1, 1966 to decide if they wish to use this stud service.

ice. If they don't, then the award will be passed down to the next members in line.

of the arsenicals. One is disodium methanearsonate and the other is monosodium methanearsonate.

The disodium is a wettable powder and the monosodium is a liquid. Most of the research done with DSMA has been with the disodium form and is fully recommended for use on cotton after it has reached a height of three inches or more. The monosodium is more toxic than the disodium. It is probably a little more effective on weed control but a little "hotter" on cotton. Monosodium has caused some leaf burning and plant stunting on young cotton but it seems to recover and make a normal yield. Both the disodium and the monosodium forms have been cleared for use on cotton, both materials are cleared for two applications.

The first application should be made after the plants measure three inches in height. The last application should be made before the first blooms drop. These materials work better during high temperatures, above 85 degrees F., and dry weather. Follow directions and precautions on label as these are arsenic compounds.

BINDWEED CONTROL

Recent rains have helped furnish bindweeds with needed moisture for good growth. Bindweeds are a costly weed to everyone. They reduce crop

production and one patch of bindweed can infest neighboring areas.

Field Bindweed is most susceptible, therefore most readily controlled by the following herbicides: Fenac (2, 3, 6-Trichlorophenylacetic acid) at 20 pounds per acre; Trilac (2, 3, 6-Trichlorobenzoylpropionyl) at 20 pounds per acre; Tordon (picloram) at 3 pounds per acre; PBA, Benzac 354 or Zobar (polychlorobenzoic acid) at 40 pounds per acre; 2, 3, 6-TBA, Benzabor, Benzac 1281 or Trysben 200 (trichlorobenzoic acid) at 20 pounds per acre; Sodium Chlorate at 960 pounds per acre in 500 to 1000 gallons of water.

All of the above herbicides, except sodium chlorate and Tordon, should be applied with 50 to 100 gallons of water per acre for liquid applications. Some of the above herbicides also are available in dry formulations. Tordon which is a newly approved herbicide needs to be applied only with enough water to wet the foliage at the rate of 3 pounds of material per acre. The above herbicides can be applied any time to field bindweed.

Adequate control can be achieved with the following herbicides, but control with this group of chemicals will require two to five applications and possibly as many growing seasons:
