BAYNE BLANKENSHIP HAS STATEMENT FOR VOTERS

Voters of Coryell County:

Old Age Assistance is one of the
most important problems facing
our State today and it will con-
tinue to be such for this reason:
in 1940 there were 347,495 persons
in Texas 65 years of age or older;
in 1960 it is estimated that this
figure will rise to 650,000 or al-
most double the 1940 figure. Ac-
cording to statistical analysis the
number of people over 65 years of
age will almost double every twenty
years.

At present 48.9 percent of the
people 65 or older are on the pen-
sion rolls which means that if
this percentage is maintained, the
amount paid for any given pension
will become less and less. If
a person now receives \$40 per
month, he will receive less three
of four years from now, say, \$35
a month. This is true because an
amendment was added to the State
Constitution last year setting an
upper limit of \$35,000,000 on the
amount which can be spent an-
nually by the State. Obviously, as
the Old Age rolls increase, the
pension paid to the individual will
decrease, since only so much a
year can be paid to old age per-
sons as a whole.

As you can see, then, this is
one of the bigger problems facing
our State and, more especially,
our State Representatives and
Senators. It calls for understanding
on the part of your Representa-
tive in the legislature and for
more comprehensive measures
dealing with this problem.

Since coming back from over-
seas I have devoted a great deal
of my time to finding out the facts
of the situation and to trying to
find a suitable solution to the
problem.

In the first place I have found
that some \$644,000 each year is
used to pay for the admini-
tration of Old Age Assistance in this
state. If this amount could be used
to pay Old Age pensions, about
16,000 more persons would receive
the full amount of \$40 per month;
or, to put it another way, each
county of the State would receive
about \$26,000 more per year to
pay pensions.

Of course, it would be impos-
sible to cut out entirely the cost
of administration; however, it
could be cut down a great deal by
placing the administering agency
in each county, say, the Commis-
sioners Court. This would do away
with the necessity of a central
agency in Austin and make it
easier to determine the needs of
each old person.

DB'S BACK IN MILL AFTER EXCITING NIGHT HERE

Four DB's from North Camp
Hood are back in the jug after an
exciting night in Gatesville when
an army of GI's and all the local
cops cooperated to bring them
back.

Sheriff Joe White and Deputy
Sheriff Eric Sharp picked up two
of them in Mrs. Edgar Britains
garage after she phoned they were
there and asleep. They had pre-
viously gotten on a taxi, which
was delivering a hamburger to a
"hello" girl, but the doors were
locked and they couldn't get in the
car.

Chief of Police Rufus Burleson
and C. O. Wilson, got the other
two at the Dan E. Graves home,
west of Gatesville, after they had
been advised they were near there.

SECOND GRADERS ENJOY TRIP TO WACO

Twenty-five boys and girls in
the Second Grade of Gatesville
Elementary school recently took
an all-day sightseeing trip to Waco
and interesting places there.

Going by bus at 9 a. m. they
took a street car ride lunched and
played in Cameron Park, visited
the Baylor University Bears and
visited in a bakery where they
each received a souvenir of their
visit.

Accompanying them on the trip
were their room mothers, Mes-
dames Earl Heath, Bill Nesbitt
and George Wier, and also their
teacher, Mrs. Jap Laird, and Miss
Margaret Nesbitt went too.

Ernest McCorkle Gets Super-Colossal Bass At Buchanan

Ernest McCorkle, implement
dealer and fisherman, got a nice
one, they tell us.

It was a 7½ pound bass and
was snaked out of Buchanan Dam
on a recent trip over there. Fish
that size, they tell me, ought to
be photographed as a permanent
record.

7½ pounds of bass, they say, is
some catch, if all in one piece.

Mr. and Mrs. E. T. Mayes, Sr.,
Miss Louise Mayes, and Mr. and
Mrs. E. T. Mayes Jr., and daughter
visited in Waco Sunday with Mrs.
Mayes Jr., mother, Mrs. Simpson.

AGGIE EASTER MUSTER

Aggies, all over the USA, and elsewhere "mustered" Easter to celebrate, or rather commemorate the part A & M played in World War II. And, we'll admit, it was a right smart! There can be no disparagement of what these men did.

But, all heroes were not Aggies, as we might be led to believe. An editorial in the Ft. Worth Star-Telegram said 7,000 were reserve officers and were in this last one. Let's figure. "Since 1918" as the editorial says. Well, that's 28 years of ROTC training which they "volunteered" for (at, we're positive, partial government expense, and, without compulsion for the individual). Well, 28 years of A & M graduates OUGHT to produce that many reserve officers, if not more, since the school has around 5,000 students each year.

Maybe, it should have produced more, because many, many Aggies are not so military minded, especially, where there's a government job in view, and our guess is, that if the "government job count" was made, the "military" wouldn't look quite so large.

Then we might be reminded of the "static" which was created by the brass hats during the last war, which was at least new in military circles. Just seemed like a terrible lot of officers were not "in the groove" so to speak.

We imagine, almost any school which enrolled as many boys as Texas A & M, could show an equal, if not greater percentage of men who did their part for their country, and the percentage in many smaller schools might be even larger.

A & M of course, did a good job, during the war, but they can rest assured, it was not exclusively, "an Aggie job".

BLANKENSHIP—

(Continued from page 1)

In the second place the amendment placing the limit on the amount that can be spent by the State must be repealed if the pensions are to be increased or even kept the same. This action must be initiated by a member of the Legislature. At present even though the maximum that any old person can receive is \$40 per month, the great majority of persons are getting less than \$30. Here, again, it is up to your Representative to remedy this in the legislature by introducing a bill to submit to the people for vote an amendment changing the limit of \$35,000,000.

With adequate study and action on the part of your Representative the problem can be solved as it must be. Whoever represents you in the State Legislature must be aware of all the aspects of the problem.

If you think that the problem does exist and that some concerted action must be taken to remedy it, I will appreciate your support in the Democratic Primary.

Sincerely,

Bayne Blankenship
Candidate for Representative

THE WAY TO MODERN HEALTH

KEEP VEGETABLES GARDEN-FRESH AND VITAMIN RICH

DOCTORS AND DIETICIANS SAY — Eat plenty of fresh vegetables daily—Because garden fresh vegetables are rich in vitamins so essential to health.

But all too frequently the vegetables and food you get are far from garden fresh because they have not been sufficiently protected with ice.

Recent laboratory tests have proved that this vitamin loss in some of our favorite vegetables takes place at an alarming rate during the first few hours after harvest unless they are constantly protected with ice.

Ice is more economical and better for all vegetables and foods.

We have the following routes and dealers who will be glad to serve you with ice. An ice card placed in your window early every morning will bring you daily delivery of ice. Should your ice card be overlooked a telephone call in the afternoon will bring you a special delivery of ice. City deliveries are daily.

Have you seen the handy and inexpensive Ice Chests? Mighty useful for relieving crowded Refrigerators, keeping bottled drinks and great for parties, costs very little. Ask the Gatesville Ice Company about this modern convenience.

Be sure to see the Post-War Ice Refrigerators. Ice in a modern Air Conditioned Ice Refrigerator—insures fresh foods and vegetables. It not only guards foods and vegetables against spoilage but also against the exchange of flavors and against rapid drying for which there is no substitute for ice. Be sure to investigate all the advantages of the new Post War Ice Refrigerators.

In the event you are not receiving the proper ice service write us a card or telephone. It is our sincere desire to give you the best service possible, with the best food and vegetable preserver—ICE, with a price of only 30 cents for 50 lbs. delivered.

Rev. Ollie Williams filled his regular appointment here Saturday night and delivered a wonderful Easter sermon.

Rev. Siler as an extra service was with us yesterday afternoon and also gave us a grand message for Easter. After the service we had an Easter egg hunt for the children. Our prayer meeting was rained out.

Well, there hasn't been any news lately and I have not been home from California so very long. I spent a very pleasant month out three with my daughter, Katheryn and her husband Jess Lockwood and the precious little granddaughter, Linda Carrel. But I am glad to be back at home and in Texas.

THINGS TO CHECK

—before calling an electric refrigerator serviceman

Sometimes a needless service call can be avoided if a few simple checks are made first. Not infrequently the cause of unsatisfactory refrigeration is a simple thing that can easily be corrected. If trouble develops, check these points before calling a refrigerator serviceman:

IF REFRIGERATOR UNIT DOES NOT RUN:

- 1 Check to see if plug is making contact in wall outlet.
- 2 If plug is making contact in outlet, check outlet with light cord and bulb to see if current is on.
- 3 If current is not on at outlet, check for blown fuse in house fuse panel.

IF MECHANISM RUNS TOO MUCH:

- 1 Make sure door seal is tight.
- 2 Clean the condenser.
- 3 Temperature control may be set for too cold a temperature.
- 4 Refrigerator may need defrosting.

IF MECHANISM RUNS . . . but there is little or no refrigeration:

- 1 Stop mechanism by turning off switch or removing wall plug.
- 2 Allow all frost to be melted off cooling unit.
- 3 Start once more and see if cooling unit gets cold.

IF IT TAKES TOO LONG TO MAKE ICE:

- 1 Check temperature control. It may be set on warm position.
- 2 Too much frost on freezer unit may be retarding cold-making.

If your check-up fails to relieve the trouble, then call a serviceman without delay. Servicemen are busy now and will be extra busy during the midseason rush. You'll save possible inconvenience and food spoilage later by having needed repairs made now.

Mr. and Mrs. Joe Farr received word that their son John Henry had landed in Seattle and would be home soon with his discharge.

WITH THE ARC

Mr. Bert Davis, chapter chairman, wishes to advise the public that the Red Cross offices have been moved from the City Hall to the rooms above the Foster Drug Store. They are set up to continue services as usual.

Mrs. Horace Galloway, chairman of sewing, advises that cutters are urgently needed. The Red Cross has beautiful woolen material for seventy-five garments, woolen capes, for children in war torn areas. Any persons here who can help to cut the material, please contact Mrs. Galloway. Any persons in any other community who can help to cut, please contact the Red Cross office. The quota must be finished before June.

Mrs. Hurl McClellan, chairman of knitting, requests that all women who can knit, please call for yarn at the Red Cross offices. The Coryell County quota has not been completed, and knitters are urgently needed.

Mrs. Pat Holt, chairman of production, requests that all ladies

who worked on surgical dressings during the war years, and have dresses or uniforms in the Red Cross offices, please call for them; otherwise there is a possibility that they might be misplaced. Mrs. Holt suggests that this be done immediately.

The amount reported, to date, for the 1946 Red Cross Fund Campaign is \$6,980.56. There are still several communities which have not reported.
