TO JAYCEES AND LIONS

Burkhalter and Worley Explain '61 Feed Grains Program Here

The new Feed Grains Program recently put into effect was explained to both Colorado City's Junior Chamber of Commerce and Lions Club here this week.

Mitchell County Agent Jack Burkhalter and Wayne Worley, office manager of the Mitchell County Agriculture Stabilization and Conservation office, presented the program in an effort to better familiarize county residents with the new program.

The highlights of the program, as explained by the 2 are:

The objectives of the program are to assume consumers fair and stable prices; in-

crease farm income; stabilize feed costs; reduce risk of over-production of meat, milk and eggs; stop buildup of stocks; reduce government costs; and to eliminate the serious storage problems in certain areas of the nation.

The voluntary program requires a reduction in corn and grain sorghum acreage in order to participate. The base is the average of corn and grain sorghum (combination) for 1959-60 — but is subject to adjustment by the county ASC committee.

The minimum reduction to apply for price support is 20 per cent of the base. The maximum reduction can be (1) base if not less than 20 acres; (2) 20 acres plus 20 per cent of the base, but not in excess of the base if base is 20 to 100 acres; or (3) 40 per cent of the base if the base is 100 acres or more.

Exceptions are that diverted acres must be devoted to conservation uses except those planted in eastern beans, soybeans, sesame and alfalfa. Diverted acres planted to these crops will not qualify for payment but will

qualify farm for price support on feed grains.

The national average on the price support under the program for the 1961 crops are:

Corn, \$1.20 bushel, 74 per cent of parity, 14c more than in 1960.

Grain sorghum, \$1.93 per 100 weight, 78 per cent of parity, 41½¢ above 1960.

Barley, 93c bushel, 74 per cent of parity, 16c above 1960 support.

Oats, 62c bushel, 74 per cent of parity, 12½¢ above 1960.

Rye, \$1.02 bushel, 12c more than 1960.

Soy beans, \$2.30 bushel, 45c above 1960.

Flaxseed, \$2.80 bushel, 42c above 1960 support.

Cotton seed, \$49 per ton on farm storage and \$45 per ton on district purchase — both \$11 over 1960 support.

Conservation uses may be permanent — type or rotation cover of grasses and legumes; temporary cover of grasses, legumes or small grains; water storage; wildlife food or habitat plantings; trees or shrubs; or cropland in volunteer natural cover or in protected summer-fallow if approved by county committee. No blanket approved will be given, stated the 2 speakers.

There are 2 payment rates. The first is based on 50 per cent of normal production for the first 20 per cent of base diverted. The second is based on 60 per cent of normal production for additional acres diverted, up to 40 per cent. If diversion is above 40 per cent, the 50 per cent rate become automatic.

An example using Mitchell County rates is:

Farm makes maximum corn acreage reduction of 32 acres using 100 as base. Twenty per cent of the diverted acres at \$10 per acre, additional 20 per cent diverted acres at \$12 per acre. \$10 per acres for above 40 per cent diverted acres would then give this total: twelve acres at \$10 or \$120; an additional 12 acres at \$12 or \$144 and 8 acres above 40 per cent diversion at \$10 per acre or \$80. Totaling \$344 in payment.

Payments will be made by negotiable certificate which may be exchanged for grain or cash equivalent of grain. Cash equivalent is advanced through ASC office or marketing of the certificate.

Farmers may receive as much as 75 of his estimated payment upon signing up for the program at the ASC office.

The big advantages of the program, stated Burkhalter and Worley are:

Price support available for feed grains;

Diverted acres protected from crop failure;

More net income from diverted acres; and

One half of the payment at the time of signing up for the program.

ELECTRIC CO-OP MEMBERS

A BILLION DOLLAR APPLIANCE MARKET

The member-owners of the electric cooperatives of the nation represent a fabulous market for electric appliances. Allowing two feet in depth for each refrigerator that will be purchased by electric cooperative members this year the above parade would be 114 miles long.

Measured in the same way, the electric ranges purchased this year by the electric cooperative members would make a parade more than 200 miles long. Electric cooperative members will spend one billion dollars this year with main street merchants for electric appliances and equipment.

This good business was created by the electric cooperatives. Yes, the electric cooperatives have been good for everybody.

Leading Clothing
Manufacturer Recommends
SANITONE Dry Cleaning

For the first time in dry cleaning history a major clothing manufacturer recommends a specific dry cleaning process for their garments.

All Weatherlane suits, tailored by Handmacher-Vogel, Inc., world's largest maker of suits, will carry string tags, recommending that the suit be Sanitone Dry Cleaned "to keep the original shape, texture and freshness of the suit."

Mr. Handmacher, company president, said that he decided to use the tags "only after exhaustive tests proved to my complete satisfaction that the Sanitone Process did these things."

Our SANITONE dry
cleaning keeps you
looking wonderful all
the time

Our Sanitone Soft-Set® Dry Cleaning does more than get garments thoroughly clean. It actually restores the original look and feel to the fabric. Colors glow. Patterns sparkle. And your clothes always come back as soft and fresh as the day you bought them.

We invite you to compare our Sanitone Service with any other dry cleaning to prove that you can really see and feel the difference.

Why not call us today.

IN BLACKFOOT CHURCH

Miss Linda Brooks Becomes
Bride of Stanley Yoakum

Miss Linda Brooks became the bride of Stanley Yoakum May 5 at the Sixth and Second Ward Church of Blackfoot, Idaho.

The bride is the daughter of Mr. and Mrs. Elmer Dawson, 1228 Shilling St. in Blackfoot.

The groom is the son of Mr. and Mrs. Del Yoakum of Colorado City.

Bishop Merrill Packer read the double-ring ceremony. The church was decorated with baskets of red carnations and white gladioli.

Presenting traditional wedding music was Mrs. Lynn Bales.

The bride wore a ballerina

length gown fashioned of lace over satin. The fitted bodice featured a squared neckline with scalloped edges and long sleeves which tapered to a point at the wrist. A tiered effect was created by the lace of the bouffant skirt.

Her shoulder-length veil of illusion net was held in place with a crown of seed pearls. She carried a colonial bouquet of a large white orchid surrounded by white carnations and red rosebuds.

Mrs. Bonnie Loges served as matron of honor. She wore a white satin dress with a red carnation corsage.

Bridesmaids were Misses Gloria and Faye Brooks, sis-

ters of the bride and Miss Thella Leavitt. Miss Sandra Brooks, another sister, was flower girl. Bridal attendants wore two-piece ensembles of blue-green.

Serving as best man was Bill Loges.

For her daughter's wedding, Mrs. Brooks chose a rose-colored suit with beige accessories. She wore a pink carnation corsage.

A reception, honoring the newly weds was conducted in the home of the bride's parents following the ceremony. Mrs. Ann Yorgensen and Mrs. June Underwood took charge of the guest book and Misses Gloria and Faye Brooks and Miss Dawson accepted and arranged the gifts.

The two-tiered wedding cake decorated with red and white roses was displayed on a table covered with a white lace cloth.

For their secret honeymoon trip, the bride changed to a dress similar to that of the bridesmaids with white accessories.

Following their honeymoon trip, the couple now make their home at the Y Motel in Blackfoot. The bride is attending school at Blackfoot High School and Yoakum is serving in the Navy at the National Reactor Testing Station there.

The bride and groom will visit here in the home of his parents shortly after June 8.

By The Way...

By PAULINE CORNUTT

Better send your Bon Voyage greetings to MRS. C. L. ROOT and MRS. J. F. QUINNEY, who are leaving Wednesday for California.

The two will fly west from Midland Air Terminal. Mrs. Root will visit with her daughter and family, Mr. and Mrs. Jimmy Cook in Fillmore, Calif., and Mrs. Quinney will be a guest in the home of her daughter and family, Mr. and Mrs. H. L. Crout of Santa Anna.

Seniors expressed their appreciation to BARBARA LEE, daughter of Mr. and Mrs. H. P. Lee, Thursday after a practice session for graduation night, by presenting her a gift for her hard work and the effort she put forth to make this senior year an active and enjoyable one for the whole class.

W. H. COX, owner of Cox Insurance Agency, has finally admitted to himself that it's a woman's world. He proved his point, too.

Cox... a bit grudgingly... told us that the women have finally won out and he has the following explanation.

When a baby boy is born... Cox related... everyone asks, "how is the mother?" When he gets married, everyone says, "oh, what a beautiful bride." When he dies, everyone says, "what did he leave his widow?"

Well, with evidence like that, it looks like the men don't have a chance!

I know of quite a few women enemies Mr. Cox made this year, too... so he better watch out!

Seems as if all the hard feelings came about when the women lost out a few added luxuries, like a new dress or something of that order... when Mr. Cox handed back the little slip a few months ago showing how much income tax they would have to pay for last year.

Seriously, we are just kidding Mr. Cox. Thought this would be a good way to test his reputation of having a good sense of humor!

 waterflood all of its wells. "I didn't want to do that," Wallace commented.
 Wallace and his wife, she is a native of Pennsylvania, were married in Oklahoma in 1909. The old-time oil man is proud of his 52 years of married life and says his wife is still the active one of the two.

The Wallaces have 2 sons, who spent most of their young life in Colorado City. Don and J.W. J.W. is still known by the nickname his father gave him as a little boy when he had the mumps at the same time as his mother and Wallace nursed both of them. The appropriate nickname is "Mummy."

W. J. is presently working for the California Company, a division of Standard, in Mississippi and Don, a graduate

of SMU, is a geologist and works for his father.
 An era has ended, but the name of R. J. Wallace will long live in West Texas oil circles.

Rees also has a record of a previous conviction on the same charge in Nolan County. Gomez had no record of previous convictions, but had had charges of transporting filed on him and later dropped — also in neighboring Nolan County.

The \$700 fine is the second highest ever assessed in this county for transporting, according to County Attorney Frank Ginzler. He stated that a fine of just over \$700 had been assessed here in 1951 on the same charge.
