County Oil Output Increases In 1974

Since discovery of oil in Mitchell County in 1920, an average of 13,958 barrels of oil per day, 5,094,682 total in 1974, have amounted to a total crude oil production of 82,469,618 from the county.

The county's daily averages up 115 barrels per day over last year's 13,958 daily.

The year's total is also up 41,810 over last year's 5,052, 872 production.

The increase reflects increased drilling, technological changes and more oil leasing in the county in the past two years.

Texas' production last year continued to set the pace among the nation's oil producing states, representing about 39.4 per cent of total U.S. production, according to statistics compiled by Texas Mid-Continent Oil & Gas Association.

The statewide output of less than 1.3 billion barrels of crude in 1974 was almost 32.5 million barrels below the 1973 figure and over 38.7 million barrels short of Texas' all-time

record production year of 1972. In 85 years, Texas' oil fields have produced over 39.1 billion barrels of crude oil, about 36 per cent of total recorded U.S. production.

Scurry County led in production in 1974, producing 94.2 million barrels, compared to its 1973 production of 91.8 million barrels.

The top seven counties, all

with production in excess of 51 million barrels are listed below:

- Scurry, 94.2 million in 1974, compared with 91.8 in 1973.

- Yoakum, 77.6 in 1974, 66.0 in 1973.

- Ector, 71.2 in 1974, 72.6 in 1973.

- Gaines, 57.8 in 1974, 61.3 in 1973.

- Andrews, 56.2 in 1974, 60.4 in 1973.

- Gregg, 51.6 in 1974, 53.2 in 1973.

- Hockley, 51.3 in 1974, 49.6 in 1973.

Gregg County, the only Texas county to produce more than two billion barrels of oil in the history of recorded production, remains the all-time leader with

a cumulative production total through 1974 of almost 2.5-billion barrels. Other counties with cumulative production in excess of one-billion barrels include:

- Ector, 1.9-billion barrels.

- Andrews, 1.7.

- Rusk, 1.5

- Scurry, 1.2

- Crane, 1.1

- Harris, 1.1

Revealing & Feeling Young

Scenes from the rehearsal of "The Silver Whistle," the forthcoming Playhouse production scheduled for June 9-14 at Colorado City Opera House, promise an enjoyable evening for theatre-goers. At left above, Marie Jackson in the

part of the tipsy Miss Hoadley, reveals her stash. Midge Ledbetter and Tandy Curlee, playing the roles of Mrs. Sampson and Mr. Beebe, are feeling the effects of a youth elixir.

City Borrows \$25,000

The City Council of Colorado City in a special meeting Friday afternoon authorized the city to borrow some \$25,000 and sold a tilt-bed trailer for \$4,000 to Treanor Equipment of Abilene.

The trailer was purchased a year ago and has not been used. City Manager James Campbell told the council that the city has no use for the trailer.

The \$25,000 will be borrowed against revenue sharing monies the city will receive either late this month or early in July.

The money is needed now to add to existing funds to pay the city's part of a paving project on the street and curb and gutter in front of the new high school.

The bulk of the \$260,000 project is being paid by state and federal monies but the city must contribute about \$44,000 in advance of bid letting.

Of the money borrowed, \$14,000 was for the paving project with the additional \$11,000 to pay for pipe the city has ordered to replace a water line at the west river bridge.

Most of these expenditures had been budgeted but payment is needed sooner than expected, which is the only reason the city is needing to borrow the money, city officials explained.

Range Field Day Tuesday

A Range Field Day has been set for Tuesday on the Wylie Estate Ranch near Bronte.

Tour begins at 9:30 a.m. on the ranch located about six miles from Bronte or 45 miles south of Roscoe.

Various forms of brush management and several short-duration-high intensity type grazing systems will be inspected during the tour.

Van Mills, local range conservationist with the Soil Conservation Service, said that a Dutch-treat barbecue lunch is planned and for more information about the tour, phone the SCS office, 728-2541.

Rep. Mahon Applies For Water Permit

Representative George Mahon of Lubbock, who owns farmland in the Loraine area, has applied for a permit to divert and use 30-acre feet of water annually from a 15-acre foot reservoir to irrigate 75 acres in Mitchell County.

The reservoir is located on North Champion Creek, tributary of Champion Creek and part of the Colorado River system. A hearing before the Water Rights Commission has been set for 10 a.m. July 22 in the Stephen F. Austin State Office Building in Austin.

Anyone opposing the application should file written protests with the Commission at least five days prior to the hearing.

Farmer's Market To Open In 2 Or 3 Weeks

Mitchell County will have a farmer's market within the next two to four weeks, it was decided Thursday night at organizational meeting.

The Farmer's Market is a project of the Horizons Committee of the county's Bicentennial organization. Chairman of the committee is George Womack with Carolyn Smith as head of the project.

Some 30 persons were on hand for the meeting during which a number of ideas regarding the Farmer's Market were discussed.

"It is the intention of the committee to provide the marketplace, rent spaces to farmers, groups, clubs, etc., with all proceeds from the rent going toward advertising market items available," Mrs. Smith explained.

It is possible that the Farmer's Market will go into operation at the county's fair grounds with a large building to be donated and moved to the spot. Mrs. C. C. Thompson told the group. Mrs. Thompson is chairperson of the Mitchell County Bicentennial Commission.

Many of those present said they preferred that the market be held in a covered area, possibly with lighting and water available.

Those present also noted that produce will be coming out of fields and gardens within the next few weeks with the prime production time to be in late June, July and early August.

The market will be operated one day a week and possibly two days a week during the prime production time, Mrs. Smith told those present after that seemed to be the desire of those present.

Mrs. Smith also pointed out that there is a great deal of interest in having items other than produce for sale at the market. Such items include crafts and a variety of handmade articles.

Volunteers were asked to serve on a committee to draw up rules and regulations for operation of the market.

Mrs. Smith said after she checks into several questions raised by those present, she will call a meeting of the committee to finalize details of the market.

The meeting probably will be held Thursday or Friday, she said.

The only charges that will be made to those participating in the market will be a small fee for rental of stalls. How much

the expense will amount to has not yet been determined so charges cannot yet be set, Mrs. Smith pointed out, adding that it will not be very much, probably only about \$3 for the use of a stall.

Trials Slated 9 a.m. Monday

Jury notices have been sent out and nine cases are set for trial in 32nd District Court in Colorado City, beginning at 9 a.m. Monday.

Indians Take Lead

The White Sox remained undefeated this past week in Junior League baseball action while in the Little League, the Indians won to take the lead in the league as the Giants lost, dropping back to second place.

Thursday night in the Little League, one game ended in a tie when time ran out and not enough innings were played for a complete game in another contest. The game that ended in a tie between the Dodgers and Pirates was to be continued Saturday and the game between the Tigers and Yankees was to be replayed Saturday. Farm League teams played Saturday night.

Friday night, the Giants lost 8-13 to the Astros while the Indians won 8-7 over the Rangers. In the Junior League game Thursday, the White Sox with Bobby Rivera pitching won over the Braves 10-5 with the second place Colts winning over the Lions 11-7 behind the pitching of Johnny Garcia.

Monday night in the Jr. Teenage League, the first and second place teams, White Sox and Colts will play at 6:30 p.m. followed at 8:30 with the game between the Lions and Braves.

In Little League Monday, Astros play the Tigers at 6 p.m. with the 8 p.m. game between the Rangers and Dodgers.

Tuesday, the Pirates and Giants play at 6 followed by a contest between the Indians and Yankees at 8.

Probably the best known case slated is that of the state vs. Anthony Tomas Baldi Jr., Bruce A. Mettler and Roy T. Boyd, charged with possession of marijuana with intent to sell.

The three men were arrested following the seizure of an airplane and pickup truck with camper, both loaded with marijuana, at the city-county airport.

Sheriff's Deputies L. M. Newby and Mike Stutts fired on the plane as it had unloaded and was trying to take off.

Attorneys for the three men are Warren Burnett of Odessa and Charles F. Baldwin of Fort Worth.

"Silver Whistle" Opening Night Set

The setting is an old folks' home for the upcoming Playhouse production of "The Silver Whistle."

Box office in the Colorado City Opera House opens Wednesday for season ticket holders--open to the general public Thursday afternoon. All seats are reserved.

The box office number is 728-3491, hours from 1-5 each afternoon.

Tuesday, June 10 through Saturday, June 14, tickets are \$2 each and curtain time is 8 p.m.

Director of "The Silver Whistle" is Trina Taylor of Snyder, well remembered in Colorado City for her performance last fall as the Mother Abessin in "The Sound of Music."

The cast includes the following:

--Mr. Beebe played by Tandy Curlee.

--Mrs. Hanmer, Martha Bissette.

--Miss Hoadley, Marie Jackson.

--Miss Tripp, Micah Mitchell.

--Mrs. Sampson, Midge Ledbetter.

--Mrs. Gross, Ada Womack.

--Mr. Cherry, Porter Richardson.

--Oliver Erwerter, Carl Bery Moore.

--Emmett, Mark Reynolds.

--Mr. Beach, George Womack.

--Policeman, Bill Vest.

--Reverend Watson, Paul Hunter.

--Reddy, Joe Vincent.

The story revolves around the two tramps, played by Moore and Reynolds, and the way they come to the old folks' home and change the lives of the inhabitants.

There is romantic interest between the Rev. Watson, played by Hunter, and the attractive Miss Tripp, played by Micah Mitchell. Though temporarily romantically inclined toward Moore's swashbuckling Erwerter, the conflict is, as usual, resolved at the conclusion.

Lots Go Up For Sale Tomorrow

About 200 lots in Colorado City and about 175 lots in the city of Loraine will go up for public auction Tuesday, between the hours of 10 a.m. and 4 p.m. at the courthouse.

The lots are almost all vacant and will be sold at the public Sheriff's Sale for delinquent taxes owed the county, the two cities and the two school districts involved.

Starting bids have been set on the properties and if the starting bids are not met, the property reverts to the county as trustee, to be disposed of at the county's discretion and with the consent of the taxing bodies involved.

The properties have been foreclosed by the county because of varying amounts due for a varying number of years in delinquent taxes.

Winning purchasers will get a Sheriff's Sale Deed for the property they buy. The former owner has two years in which to redeem the land but must reimburse the new deed holder for any improvements made in the two year period from the date of the sale.

Most of all of the properties have been vacant for a long time and owners live in other areas.

The starting price, in many cases, has been set at an amount even lower than the amount of outstanding taxes due.

When the property is sold at the public auction, the action clears all outstanding taxes against the property and the purchase price is split proportionately among the county, city and school district where the property is located, less the cost of holding the sale.

Action on the property has been initiated by McCreary and Huey law firm in Austin, employed by the county, city and school district to collect delinquent taxes.

How kids can help save energy.

You'll be surprised how easy it will be for you to conserve energy. Put an X in the box in front of each way you think you can help.

PS. Parents: Have your children seen this message? If not, you may want to call it to their attention. Cut it out and use it to remind your children that they can help you and all of us conserve energy in many ways.

☐ Don't keep the refrigerator or freezer door open any longer than necessary.

☐ Turn off the lights when you leave a room.

☐ Turn off the TV set when no one is watching it.

☐ Turn off the radio or record player when no one is listening.

☐ Be sure the hot water is turned off after you've used it. Remind your mom or dad when a faucet leaks and needs repairing.

☐ Don't turn on more lights than you really need.

☐ If the furnace or air-conditioner is running, keep the doors closed. And don't make unnecessary trips in and out of the house.

☐ Ride the bus whenever you can, rather than asking your parents to drive you.

☐ Ride your bike or walk to the store for your parents. If they don't run the car, they will save gasoline.

☐ Help plan family errands that require the car so they can all be done at one time.

☐ If you're a little cool, don't ask your parents to turn up the thermostat. A sweater will warm you up.

☐ Tell your parents if heating or cooling ducts are blocked by furniture or draperies.

☐ If no one uses a particular room, close the heat registers and keep the door shut.

☐ If you're helping with cooking, use an element that is about the same size as the pan. And don't be an oven-peeper.

☐ If the sun is shining on a cold day, open the drapes so the sun can help heat up your house.

☐ If you have a fireplace, be sure the damper is closed when there is no fire. Otherwise, heat will escape up the chimney.

Write down any other energy conservation methods you can think of on these extra lines. Mark those boxes too.

THE WHOLE TRUTH AND NOTHING BUT THE TRUTH

Jesse Hodge
Pastor
St. Luke Methodist Church
Colorado City

The 4th Chapter of John's Gospel lists an account of a conversation between Jesus and a Samaritan woman. The content of their conversation was that the Samaritan woman said that she and her people worshipped God in Mt. Gerizim (Det. 11:29) and that Jesus and the Jews worshipped God in Jerusalem and that was the only place God could be worshipped. Jesus in John 4:23 settles what I believe to have been a doctrinal difference, and I quote him as follows: "But the hour cometh and now is when the true worshippers shall worship the Father in Spirit and in Truth: for the Father seeketh such to worship him. God is a Spirit and they that worship him must worship him in spirit and in truth." That is a pretty dogmatic statement for someone to make when we Christians believe that persons make dogmatic statements about the Christian faith such as this are narrow minded. I don't believe Jesus was being narrow minded or dogmatic, he was only speaking the truth as he received from His Father.

I believe that Jesus meant what he said and said what he meant and that I can place my faith in it as being truth. He was speaking God's truth when he said that the only worship that God accepts is worship in Spirit and in Truth and that the Father seeks only those who will worship him in Spirit and in Truth. I'm convinced that not everything we do for God in Jesus' name is acceptable in his sight.

Every Church in Colorado City somehow believes that in their church the ultimate Christian truth is being presented so we spend most of our time trying to get some one else's church members and running down all the other denominations from our pulpits on Sunday. And most of us believe that if it is not happening at our church then it's not worth attending or that it is not Christian.

The truth of the matter is that not one of our churches has reached or captured that ultimate truth as we wo-

uld like to have someone believe and those who claim to have reached it are probably the farthest from God's truth.

There are some churches that have a vision of God's purpose for his church and are moving in the right direction according to the teachings of the New Testament but not many. Concerning the truth Jesus tells us in John 8:31-32 that if we continue in His word then are we His disciples and we shall know the truth and the truth shall make us free. How can we who spend much of our time explaining away the relevancy of scripture and taking it out of context to make it mean what we want it to and not what it really means ever come to the knowledge and the truth?

How can we know the truth when it is we Christians who have changed the meaning of God's word? How can we worship God in spirit and in truth when we are teaching, preaching and practicing the truths in the church? Jesus says that he is the way and the truth and the life in John 14:6.

I believe that for a Christian, if Jesus is not our way and our only way, our truth and only truth, our life and only life then we have and are still missing the truth that God so painstakingly has revealed to those who desire to know the truth in the person of Jesus of Nazareth.

We have a lot of rights and freedom in the United States that are not Christian and that go directly against the teaching of God's Holy Word and specifically the New Testament. It is my understanding that we are to live in this world and yet not be a part of it, it is also my understanding that God, the Holy Spirit, and Jesus words are the only criteria by which a Christian ought to gauge his actions and guide his life by. We may have other choices and freedoms but if they are not the "Jesus Way" then they are not for a Christian who has been born of the very spirit of God.

Before Jesus was crucified

he told his disciples (it was his disciples who were called Christians in Acts 11:26) that he would send them a comforter one who would be called along side (gr. para-kletos) John 14:16. Jesus then addressed his comforts as being the spirit of truth and told his disciples that the world would not be able to receive him because the world could not see him neither could the world know him, but that we could know him for he would dwell with us and be in us.

Jesus also tells us that when this Spirit of Truth, who is the comforter, who is the Holy Spirit comes and takes up residence in our life that he as the Holy Spirit will then guide us into all truth. He shall not speak of himself, but whatsoever he shall hear, that shall he speak, and he will show us things to come.

He shall glorify Jesus for he shall receive of him and show it unto us, John 16:13-14. It seems to me we are in the dilemma the Samaritan woman was in "which is right." For a church to operate on half truths and by that I mean not believing that the entire New Testament and its teachings are relevant for today's church is really the same as not having any truth at all when you believe you have arrived at the ultimate truth.

Jesus in John 17:17 as he prayed to the Father, He asked the Father to Sanctify his followers through the Father's truth because he said that word is truth and I believe he was talking about the entire word of God and not just that which we accept to be the truth in our day.

I believe that if we do not desire the whole truth, God's truth and nothing but the truth then we miss the mark of God's call on our lives. I believe that the teachings of Jesus Christ, his promises and provisions, his way of doing things and the reality of it all, and the manifestations of his Holy Spirit are for today's Church more than for the early church.

I don't know about you but I desire to know him in all of his fullness. Praise God!!

Farabee Against School Bill

State Senator Ray Farabee was one of several rural Senators opposing Senate passage of a new school finance plan. The measure, known as the Revised Foundation School plan, has passed the Senate. Farabee said he voted against passage of the bill because portions of the legislation would cause increases in the amounts local school districts have to raise. School districts under the present plan are required to raise at least 20% of the cost to participate in the Foundation Program.

Under the new plan, districts would be required to contribute approximately 30%. "Under this new program," Farabee said, "it is estimated Colorado City ISD would have to increase its local payment by \$166,000. In return, it would receive a \$183,000 increase in State aid."

During Senate debate, Farabee and other West Texas Senators attempted to amend the bill to insure that no school district would lose teachers over the number they presently employ. At first, the amendment was not accepted; however, it was later included in a modified form.

New rates for long distance calls within Texas.

With Discount Periods and a new One-Minute Rate, you may be able to save money.

Rates for Long Distance calls within Texas have just changed.

For you—the telephone customer—it means most rates are going up.

But you may be surprised to learn that rate changes won't necessarily bring higher telephone bills.

Because with our new discount for dialing your own calls, you can better control your Long Distance costs.

In some cases, you may be able to save money on your Long Distance bill by taking advantage of these rates.

For example, there's a new one-minute rate on all calls that you dial yourself—without the operator's help.

Under the old rate, the initial rate period was for three minutes. Now on One-Plus dialed calls the initial rate period is one minute.

That means you can save by reducing the length of your call.

Nights and Weekends there will be a 35 per cent discount.

So, if you call later in the day or night, or on weekends, you're going to get the lowest rates possible.

But if you place calls through an operator, rates for these Zero-Plus calls will be higher, at any time—night or day. These include calls from a coin phone, collect, credit card and calls billed to a third number.

The initial rate period of three minutes will continue for these and other operator-assisted calls.

And, person-to-person calls will cost more than any other type call.

*DISCOUNT RATE PERIODS FOR ONE-PLUS CALLS WITHIN TEXAS							
	Mon	Tues	Wed	Thurs	Fri	Sat	Sun
8 a.m. to 5 p.m.	Day Rate Period Full Rate						Eve. 25% Dis- count
5 p.m. to 11 p.m.	Evening Rate Period 25% Discount						
11 p.m. to 8 a.m.	Night and Weekend Rate Periods 35% Discount						
NOTE: The Evening rate applies all day on the following holidays: New Year's Day, July 4, Labor Day, Thanksgiving and Christmas Day, except in instances where the holiday falls into Night/Weekend period. In this case, the lower rate applies. *On operator-assisted calls, the same rate applies at all hours on all days.							

NOTE: The Evening rate applies all day on the following holidays: New Year's Day, July 4, Labor Day, Thanksgiving and Christmas Day, except in instances where the holiday falls into Night/Weekend period. In this case, the lower rate applies.

*On operator-assisted calls, the same rate applies at all hours on all days.

Also, for the first time we are offering flat percentage discounts for Evening, Night and Weekend One-Plus calls.

Using the Day rate as the base, the Evening rates will be 25 per cent less. And, on

EXAMPLE OF NEW RATES FOR MAXIMUM DISTANCES		
	#One-Plus	Each Additional One-Plus Minute
DAY RATE	50¢ or less	42¢ or less
EVENINGS* 25% Discount	38¢ or less	32¢ or less
NIGHTS AND WEEKENDS 35% Discount	33¢ or less	27¢ or less

*One-Plus charges for 1 minute.

NOTE: One-Plus rates also apply on station-to-station calls placed with an operator where One-Plus facilities are not available. *Rates quoted do not include taxes.

Simply put, if you dial the call yourself, you are going to get a lower rate. If you place your call through an operator, it will cost more.

Now our new rates offer you a choice.

By dialing your own calls and by taking advantage of our discount rate period, you can still get low rates and fast service.

- (3) When possible, call Nights and Weekends the One-Plus way. You'll be getting a 35 per cent discount from the Day rate.
- (4) If you call Evenings, you will save 25 per cent from the Day rate on One-Plus calls.

Two Additional Teachers Resign

Two additional teachers have submitted their resignations to Colorado ISD superintendent Lloyd McKee, subject to action during the next session of the board.

The two teachers are: Mrs. Betsy Aycock, third grade teacher at Hutchinson and Glenda Fincher, high school English teacher.

Mrs. Aycock has taught in the

city's school system for the past 17 years and gave as her reason for resigning the family's projected move to Oklahoma where her husband is expanding in the machine contracting business.

McKee said that Oklahoma's gain is Colorado City's loss, adding "Although the school hates to lose an outstanding teacher, the administration wishes her and her family the best of luck in their new location."

McKee also congratulated Miss Fincher on winning a full one-year scholarship, all expenses paid, to the University of Texas, where she will work toward an administrator's certificate. She had taught English in the school system here for the past five years.

Four teachers in the city's schools submitted their resignations last week, bringing the total to six teachers who have resigned.

The other four are: Mrs. Mary Lou Griffin, Mrs. Rhonda Gilum, Mrs. Patsy Edens and John Paul Matthews. Mrs. Griffin and Mrs. Edens will be moving from Colorado City. Matthews intends to return to school in San Angelo and Mrs. Gilum has obtained a job with a local Certified Public Accountant.

The school board's next meeting is 8 p.m. June 9, at which time action will be taken on the resignations and any hirings that may have been completed before that time, as well as open bids for classroom furniture for the new high school.

Texas Taxes

By BOB BULLOCK, State Comptroller

Austin--When we talk about energy in Texas we are talking about oil. And when we talk about big money in state taxes.

But despite oil's importance to Texas, the future and the fortunes of our oil tax revenue depends on the actions and situations at the national and international levels.

This is why President Ford's energy programs--and whatever the Congress does about them--will have a drastic effect on our state treasury.

In the first place, the President has announced that effective June 1 he was putting a \$1 a barrel import tax on all foreign oil coming into America. Congress gave him authority last year to order such import taxes up to \$3 a barrel. He levied \$1 of the \$3 in February.

The net result of raising the price of imported oil \$1 a barrel is to raise the price of oil produced in the United States also. The result of price increases is an increase in tax revenue because Texas' oil production tax is figured at 4.6 per cent of the oil's market price.

Based on price increases we saw when the first dollar's worth of import tax was put on in February, we estimate that the new increase will bring in an additional \$32.5 million in tax money--above

the \$1.1 billion oil production taxes will produce in the next two years.

The President also wants Congress to phase out price controls on what we call "old oil". This is just a name--and not a very good one--given to the amounts of oil produced by each producer in 1972. Today oil produced up to the 1972 level is under a federal price ceiling of \$5.25 a barrel. Oil produced above the 1972 level is considered "new oil" and is not under price controls. It now sells for about \$11 a barrel.

Obviously, if the \$5.25 price ceiling is removed--altogether or by phases--the price will rise and as it does the revenue from the 4.6 per cent tax will increase.

We estimate that taking off the price lid would bring about a fantastic tax revenue increase of between \$175 million and \$225 million because about 60 per cent of the oil produced in Texas is under the price control.

But again, it may be several months before Congress finally acts on this and we know where we stand. Whatever gains we get from whatever federal action is taken comes too late for use on this year's budget. By early next year the picture will be in focus and if we had annual budget sessions of the Legislature the money could be used then.

But as it stands, whatever dollars we gain will just have to build up in the treasury as a surplus for use in the 1977 budget session--a situation very similar to the past two years when we built up a billion dollar surplus from oil prices skyrocketing during the Arab embargo.

Texas runs on oil--as far as the federal government lets it.

Survivors include his wife of the home; two sons, Charles Buckner of Big Spring and Tommy Buckner of Dalhart; one brother, Boe Buckner of Big Spring; four sisters, Mrs. Annie Wilson, Mrs. Macie McTier, Mrs. Ola Jacobs and Mrs. Alma Wilson, all of Big Spring; two grandsons, three granddaughters; one great-grandson and several nieces and nephews. Fifteen Planes

At Fly-in

A total of 15 planes arrived at the T. L. Finley ranch Saturday morning for the fly-in.

Free breakfasts were given to Monty McClendon for best sport landing; to Dick Dickerson for the oldest plane there and to Earl Zimmerly for most unusual plane.

A "bombing" contest was held being won by Finley himself. Runners were Felix Thomas and Randy Becton in second and Woodrow McClendon in third.

The object of the contest is to hit a barrel from an altitude of about 100 feet with a packet of flour. Finley came within 6 1/2 feet; so did Thomas and Becton, McClendon dropped his packet within 10 feet of the barrel.
