VOL. 30 NO. 251 SNYDER, TEXAS (79549) SUN., FEB. 18, 1979 3 SECTIONS 44 PAGES 30c

Iran Evacuated

TEHRAN, Iran (AP)-About 800 Americans flew out of Tehran airport aboard three jets today as the United States government launched a four-day operation designed to get nearly 5,000 U.S. citizens out of this strife-torn country.

Tehran Radio reported a widespread return to work in the oilfields, meanwhile, and said Gen. Iraj Moghaden, a former energy minister, had committed suicide.

Vietnam Invaded

TOKYO (AP)-Chinese forces backed by tanks, fighter planes and artillery launched a "large scale invasion" of Vietnam today, Radio Hanoi reported. Japan's Kyodo news agency said in similar reports from Hanoi and Peking that Chinese troops crossed the Vietnamese border before sunrise and engaged Vietnamese forces.

Radio Hanoi said the Chinese invaded four northern provinces of Vietnam and that "the Vietnamese troops fought back and killed at least 250 Chinese troops, according to a preliminary survey."

The Hanoi broadcast said at least eight Vietnamese tanks had been destroyed.

Kyodo said in a dispatch from Peking that the Chinese Communist Party had formally decided to launch an organized "attack of self defense" against Vietnam "in retaliation" for incursions by Vietnamese troops into China.

Bi-District Tilt Set At Abilene Thursday Night

The Snyder High School Tigers and the Mineral Wells Rams will play their bi-district basketball game Thursday night in the Taylor County Coliseum at Abilene. Tipoff time has been set for 7:30 p.m.

Arrangements for the playoff were made at a meeting Saturday morning held at the Snyder Public School Administration Building.

The Tigers won the right to represent District 3-AAA in the playoffs by defeating the Lamesa Golden Tornadoes in a playoff game Friday night at Big Spring, 51-49. Lamesa had won the first round of play during the regular district season, while Snyder won the second half.

Mineral Wells, ranked No. 1 in the state in Class 3A for several weeks, won the district 4-AAA title in a breeze.

Snyder was ranked No. 3 in the state in the latest ratings compiled by the Fort Worth Star-Telegram and distributed by the Associated Press.

Tickets to the bi-district game at Abilene will be priced at $2 each for adults and $1 each for students. Tickets will go on sale Monday at the Snyder School Administration Building.

The bi-district clash will be the second meeting of the season for Snyder and Mineral Wells. The Rams took a two-point victory, 71-69, in the championship finals of the annual Canyon Reef Tournament last December in the Scurry County Coliseum.

Plenty of good seats will be available for the bi-district game, since the Taylor County Coliseum has seating for more than 5,000 for basketball games.

DON'T FOUL! DON'T FOUL!--Snyder High Basketball Coach Jack Stephenson, gesturing in the foreground, yells instructions to his Tigers after they went ahead with two seconds to play in Friday night's playoff game with Lamesa. Players on the Snyder bench and hundreds of Tiger fans in the stands were on their feet as the clock ticked off the final seconds in the Dorothy Garrett Coliseum at Big Spring with the Tigers ahead, 51-49. They will face Mineral Wells in bi-district play. See game story and other pictures on Page 8A. (SDN Staff Photo)

Ask Us

Q--Recently my daughter was given a speeding ticket in another Texas county. She was driving 72 mph in a 55 mph speed zone. The patrolman told her to mail $4.50 to the justice of the peace. Have you ever heard of a speeding ticket for such a small amount?

A--No, we have never heard of one before, but it is within the law. The fine for a speeding ticket may range from $1 to $200 at the discretion of the justice of the peace in whose jurisdiction the violation occurs. Most patrolmen are informed as to the usual amount of the fine in their territory.

The SDN Column

Primary election dates are an issue down at Austin. If we could dictate the rules, the primaries would be held not more than six weeks prior to the general election. Then, perhaps the voters would be spared the long, drawn-out campaigns.

It has become so expensive to run for office that the ordinary citizen doesn't have a chance to make a serious race, unless, of course, he wants to sell commitments to special interest groups or otherwise arrange for big financing.

It is ironic that economists should be talking about "downturns" and "recessions" when there are those already cranking up programs to raise millions, or even billions, of dollars to finance political campaigns.

One would think that with modern communications technology there would be no need for the prolonged campaigns that we are subjected to in these times. You can understand why candidates of yesteryear needed several weeks to cover the state, or their districts. Pat Neff covered the state in a Model T Ford when he campaigned for governor before the days of the Lear Jet and television and when radio was in its infancy and newspapers had less circulation than they do today.

Now, a candidate for state office can cover the state within days. The problem is, they are not content to cover it. They try to pile layer upon layer until they exceed mere monotony.

We think shorter, more concentrated campaigns represent the merciful course, so far as the voters are concerned, but the politicians are not likely to agree so long as they can raise a few million here and obtain an airplane there.

★ ★ ★

Things are beginning to happen out at the Diamond M Museum where Terry Gilbreth has made a remarkable start as the institution's full-time director. And probably nobody is happier over the situation than Jean McLaughlin Kahle, daughter of the Diamond M. Foundation's founders. She has been spending considerable time in Snyder in recent months in efforts to stimulate new interest in the museum.

"Finding Terry is the best thing that has happened," said Mrs. Kahle. "It was just impossible for me to find enough time to operate the museum as it should be."

Gilbreth said traffic at the Diamond M has picked up considerably and he hopes it will continue. Such a museum would be a credit to Fort Worth or Dallas, and it undoubtedly would attract throngs of visitors there, Gilbreth said. But his objective is to draw visitors into Snyder, and he expects this to happen as the word gets around that there really is such a fabulous collection of art right here in West Texas.

Harrell Sisters Exhibit Top Two Scurry Lambs

Sisters Kathy Harrell and Becky Harrell won top honors in lamb judging and Matt Cross, a 12-year-old who showed a 1,080-pound steer, took championship honors in steer judging as the annual Scurry County junior livestock show came to a close Friday night.

The county show began Thursday with hog judging, and it was preceded by Snyder, Hermleigh, and Ira community shows Monday and Tuesday. An auction Saturday afternoon concluded the week of farm livestock shows.

The top spot in lamb judging went to Kathy Harrell, 17, who showed a heavy weight crossbred, and reserve championship honors went to her 14-year-old sister, Becky, who showed a heavy weight finewool lamb. They are the daughters of Mr. and Mrs. Sonny Harrell.

Also in lamb judging, Maxann Preston was awarded showmanship honors for the 4-H, and Future Farmers of America showmanship honors went to Tana Springer. Jimmy Beck and sons were named top lamb breeders.

One hundred-twenty-two lambs were shown at the agriculture annex of the Scurry County Coliseum Friday night, along with about 50 steers.

In steer judging, Matt Cross, the son of Mr. and Mrs. Fred Cross, showed a half-Hereford, half-Simmental cross that won top honors for him. Reserve honors went to a straight Hereford shown by Cotton Merritt, 10, the son of Mr. and Mrs. Craig Merritt. His animal weighed 1,025

Change In Controls Expected...

Turmoil In Iran Could Hike Scurry Oil Prices

By WACIL McNAIR

Can the turmoil in Iran result in some benefits for America?

Or, to localize the speculation, can the Iranian problem give Scurry County a boost?

At present, it is pure speculation, but there is an undercurrent sifting through the oil industry that the loss of oil from Iran might very well be the catalyst that percolates some radical changes in this country's pricing system for domestic crude oil.

Keep your eyes on the month of May. The present oil price control authority expires at the end of that month. What happens then may well determine whether domestic production continues to decline with a minimum of research and exploration, or a flurry of activity evolves as efforts are mounted to improve recovery techniques from existing oil fields and to discover new production.

Key oilmen and persons closely associated with related activity, such as servicing firms are reluctant talk about it above a whisper. But there are reports that when the old price control authority expires, it will be replaced with one which ties the price of "old" domestic crude oil to the price of foreign oil at a percentage far above the present rate.

OPEC nations the past week announced a new price of $15.12 per barrel. At present, so-called "old oil" produced here is priced at $5.98 per barrel. One rumor is that the new price for domestic oil after May will be 80 percent of the price for foreign oil. This would be a tremendous increase--from $6.01, which is scheduled to be the price in April, to around $12 per barrel.

Harold Lacik, unit manager for the R.E. Smith production unit here, said that Houston sources recently had speculated that the Carter administration might even let oil price controls fade away entirely when they expire at the end of May. This in effect would let the price

why trust losers?

If Energy Secretary James Schlesinger is trying to make the efforts of his Department seem worth the $10 billion budget by periodic pronouncements, it all may be in vain. His record for guessing wrong is starting to catch up with him.

He gave a low priority to buying natural gas from Mexico where it is being wasted for lack of a market. Mexico is drilling many oil wells and where gas is mixed with the oil, it has to be moved to market or it is lost by burning if off. Schlesinger's forecast of a natural gas shortage in many parts of the nation has turned into embarrassing surplus.

The secretary presided over the strategic petroleum reserve which is far behind schedule and currently unusable. He told industry to burn coal instead of oil and now changes his mind by saying that he meant "burn gas, not coal."

Schlesinger favors a gas pipeline from Alaska and he fears that use of Mexican gas will make financing the Alaska pipeline difficult. Our long term best interest is to pipe gas from Mexico, Canada and Alaska as well as developing all we can within the lower states. Use of Mexican gas would help spur all petroleum production in that nation and give us another source near at hand.

If this nation wants to be considered first in line for Mexican oil, we must do all we can to assist our neighbor to the south. We have seen nothing that would indicate that our energy agency head has changed his position.

A new pronouncement by the energy secretary reveals that he is still looking for a good excuse to bring about gasoline rationing. He says that if Iranian oil production is not restored by this summer, then "tough action may be needed."

Schlesinger told the Senate Energy Committee, "If Iranian production does not come on stream by the summer, we could be in trouble next winter." Asked if the administration was prepared to impose gasoline rationing if necessary, Schlesinger testified, "Yes sir, that would be a measure taken only as a last resort."

The administration drafted a standby rationing plan last year, but congressional approval is needed before it can be used. This is all to the good because guessing wrong and hasty action could bring about chaos if the administration could put rationing in effect without the approval of Congress.

It is almost certain that if the energy agency keeps looking for that "last resort" an emergency is bound to crop up, or would be dreamed up, to provide an excuse to try out the rationing plan which has been drafted.

Down through history governments have failed where private enterprise has succeeded. Why should we put any trust in politicians and their bureaucracies?

Our need for energy is far too important to be trusted to known losers. If we can just get the regulators off the backs of industry, we can win.

priorities tested

The unheaval in Iran came at a bad time for those who are trying to increase the speed limit on Texas highways from 55 mph to 70 mph.

Gov. Bill Clements said the other day that common sense should be applied when considering this issue. Then he said he doubted that legislation hiking the speed limit had a chance in the legislature and that if it should happen to reach his desk a veto was likely.

Many Texans feel that the federal government is blackmailing the states by threatening to withhold federal road funds if they do not limit speed on their highways to 55 mph. Moreover, the federals now say that the 55 mph must be enforced to a greater degree than some states, including Texas, have been able to do in the past.

Gov. Clements said that the state stood to lose some $350 million in highway funds if it abandoned the 55 mph speed limit. It would cost considerably more than is being expended now if the Department of Public Safety should attempt rigid enforcement. You simply cannot put enough patrol cars on the road to intercept all of the violators, and there are not enough to catch more than a small percentage at present.

Some think it would cost nearly as much as the $350 million to catch a majority of the speeders.

Nevertheless, the Iranian situation may be the most important factor. Back in 1973-74 when virtually all vehicle owners actually feared that we might run out of gasoline, they proved that cars use considerably less fuel at 55 mph than they do at 70. They also proved that traffic fatalities decline dramatically when a preponderance of the drivers hold their speed to 55 mph or lower. This definitely bolsters the case for 55, unless our priorities have gone awry.

star wars era

War is going out of style.

Big wars have become too devastating to contemplate, and we have learned on both sides of the world that small wars--like Korea and Vietnam--are too debilitating to tolerate. So now, like it or not, the great nation states are going to have to figure out some more civilized means of resolving inter-nation differences.

This presupposes, of course, that we will keep our technological fist in the face of potential adversaries; we must keep them "at arm's length" perhaps indefinitely, certainly until we are certain they have learned their table manners.

We must pursue any SALT talks with our eyes open, because without weapons of mass destruction in our arsenal--forced to resort to foot soldier war--our six percent of this planet is no match for the limitless hordes of Asia.

President Carter's proposed budget included increases for the military. How those dollars will be allocated is most significant; "quality" rather than "quantity" of weapons is needed.

Fortunately for us, in our projected arsenal are some "star wars" weapons which should deter any potential enemy from taking us on.

On the desk of Defense Secretary Harold Brown is one proposed 10-year billion-dollar project for a "particle beam" weapon theoretically capable of hitting hundreds of targets in a single second.

A panel of 53 scientists agree that this Buck Rogers "death ray" weapon--fired at the speed of light against intruders on the ground or in space--would frazzle them.

And that is just one proposed weapon which promises eventually to render tanks and planes and artillery and foot soldiers impotent.

Dr. William Perry, in charge of research and engineering for the Pentagon, says the new "precision guided munitions have greater potential for revolutionizing tactical warfare than did the introduction of radar in World War II."

There are artillery shells which sprout wings and scan the landscape for the target.

Bombs with TV cameras in them to home-in on anything.

Bombs that sprout wings and fly directly into a target.

Projectiles that trail aiming wires, aiming artillery by remote control miles from the battlefield.

In the future, an investment of $1 billion promises to minimize or eliminate further need for million-dollar tanks, $24 million aircraft and carriers that cost $2 billion each.

We know that the Russians are also emphasizing technology in weaponry and have added more than 1,000 strategic missiles with nuclear warheads just in the last year.

Some of our weapons research, including the proposed "death ray," is designed to defang their offensive capability.

Fixed-base ICBMs are already obsolescent.

And the congressional committees concerned are assured that our military has weapons upcoming more sophisticated, more decisive.

Ground wars in Korea and Vietnam ended in a standoff cease-fire. Star wars may be checkmated before they start.

my turn

by roy mcqueen, publisher

The feller on Deep Creek says, "Considering the number of product callbacks, we must also lead the world in mess production."

Representatives of the local chapter of Eagle Forum brought to our attention a piece of legislation introduced in Austin that must be put on the list of ridiculous.

It's not the only unusual bill to be dropped in the hopper, but it is one that would rival any contender. This one in particular is House Bill 281, introduced by Rep. Arnold Gonzales of Corpus Christi.

The bill is "an act relatint to social psychotherapeutic, psychological, and psychiatric treatment and counseling for minors." It would allow a child of age 10 and older to give consent on his own for above mentioned treatment and counseling.

In other words, the bill would allow the child to give consent on his own without regard to parental wishes or consent. Only the child need consent, the mother's or father's desires have absolutely no impact.

The bill, if passed would allow, not require the counselor or person providing treatment or testing, to inform a parent or guardian of the nature and extent of the testing.

The real kicker, however, is that the person providing treatment is not required to inform anyone about the patient or the particulars of the case.

The sponsor has attempted to rush through the legislation with an emergency clause. What local members of the Eagle Forum are wanting is for interested citizens to speak up concerning the loss of parental authority.

"There is entirely too much apathy," one spokesman told us this week. "They are trying to take our children from us." Eagle Forum members view the proposed legislation as another subtle step to erode the concept of the family.

We doubt the legislature will allow this type of legislation to progress, but Eagle Forum members think a letter to legislators is in order, and it couldn't hurt anything.

letters to editor

To The Daily News

Last week I heard more than one news commentator say, when my grandfather farmed, he farmed with mules. Well let me say here, his grandfather was modern for his day, and I can imagine what his grandfather would have told someone that said he should be farming with oxen and a woodstock (wooden plow).

How could one farm with mules and pay the taxes on his land today. The farmer must educate himself and his family, which costs lots of money. He must keep abreast with the times. How else could he fill out the long forms from the bureaucracy?

Yes, the farmer drives very expensive equipment that is mortgaged and by the time it's payed for it is worn out. It would only sell for junk.

Most of the farmers, to get started, if they didn't inherit the farm and then usually there is so many taxes to pay it's like starting out from nothing) hold a full time job and farm the other sixteen hours. And often his wife has a job other than the farm also. Little by little he can farm more, or else he farms thousands of acres in order to make a small profit, and his wife usually has a public job.

Why? Because farm products are imported and no tariffs (as we were promised). The farmer sells way below wholesale, and buys at retail. The money goes to the middleman. He gets raises but not the farmer.

Many people ask why are the farmers in Washington. They are there to be heard. Many communities made up money to send someone to represent them, as the elected ones are failing to do this. Most of the tractors in Washington are mortgaged. There may be some farmers fortunate to either have made money earlier in life or inherited money, but they didn't make it in the last decade farming, but the farmers are thankful someone could go represent them.

George Washington was also a farmer. I'm sure there was flack when he went against the bureaucracy of England.

Farmers work twenty-four hours a day many, many times. Few young or middle-age take vacations unless the trip is really necessary. Why do they butt their heads against a stone wall? Well there is the call of the land.

Maggie Barnes

P.S. Of all the ones was listed as farmers from small to large farmers there is around 355,000 less farmers in 1979 than there was in 1978, and it is predicted there will be one-third of a million farmers forced off the farm because they are so far in debt in 1979, even if prices were to improve. It's already too late for many. You see the depression hit the farmers first two or three *times* before it hit the rest of the population during the depression.

***

To The Daily News:

May I take a little time to express my love of Snyder? When I moved to Snyder in 1962, it was a fulfillment of a desire of my heart. I had always wanted to be able to raise my children in Snyder. Mike and Jal both graduated from Snyder High and attended Western Texas College. Sure, there are many things wrong in Snyder, just as there are everywhere, but the exception to this is the fact that our community holds up a high standard. Praise the Lord. The person that desires a good life is able to fly as high as the sky.

Our two museums are exceptional. If there is anyone that has not toured them, I would like to urge you to do so. It is free and it will leave you with a high sense of pride for your community. It is almost unbelievable to think we have this.

Also, we have such a beautiful college. Hooray for Snyder. We have exceptional public meeting rooms, such as West Texas State Bank community room, Snyder Savings and Loan, etc. Have you checked other towns to compare?

The coliseum is so beautiful. Where else could women of all faiths come together and hear such a beautiful testimony and music as Betty Jean Robinson gave at the Woman's Aglow Fellowship.

I love the church and my pastor, Joe Stansell. Where else could I find this but Snyder.

There is hope for tomorrow in Snyder because we learn from yesterday and definitely live for today.

Pat Dennis
W. 30th Snyder

P.S. I am glad my grandson Jared has this town for his home.

Dear Abby

How the Other Woman Sees The 'Other Woman'

By Abigail Van Buren

1979 by Chicago Tribune N.Y. News Synd. Inc.

DEAR ABBY: Several years ago you had some advice in your column for a woman who was in love with a married man. It started out: "Never expect to see him on Sundays or holidays."

I cut it out and stuck it in a book, but now I don't remember which book it was, and it's driving me crazy. (My husband is a college professor and we have at least 10,000 books in our library!)

I need that letter to show to my daughter who is in love with a married man. Can you locate it and print it again, please?

L. IN NEW HAVEN

DEAR L.: Here it is:

Dear Abby: May I give your readers the benefit of my very valuable experience? I address this to any woman who is "in love" with a married man:

Never expect to see him on Sundays or holidays.

Never call him at home.

Don't ever expect him to take you out in public, but be prepared to entertain HIM at your place. He may bring a bottle or the steaks occasionally, but in actual dollars and cents you will spend more on him that he'll spend on you.

Never depend on him in times of personal crisis.

Don't believe him when he tells you his wife is a shrew, cold, homely, too fat (or too thin) and she hasn't slept with him for 10 years.

Don't ever expect his wife to divorce him — even if she catches him. She knows you are not his first, and won't be his last. Also, she is not about to give up her social status, financial security and retirement income because of you.

However, her discovery will probably terminate his affair with you, so be prepared to get some new clothes, circulate, and find another married man whose wife is a shrew, cold, homely, too fat (or too thin) and hasn't slept with him for 10 years. Sign me . . .

His Wife

DEAR ABBY: I want to thank you for turning me on to what I consider the best place for a young man to meet a nice young woman. In church!

I wrote to several local churches, asking if they sponsored any social groups for young adults. The response was amazing. Within a month I had become involved in three different groups. Lutheran, Methodist and Nazarene — all interesting and well attended.

Now my evenings are filled with a variety of activities — potluck dinners, dances, Bible studies, to name a few. I have met several eligible, intelligent and beautiful young women. (And they're not prudes, either.)

For every lonely man reading this, there are probably two lonely women wishing they could meet him. No more singles bars for me. I've got all I can handle now. In case you're wondering, I'm a 27-year-old physician.

DOC: K.C., MO.

DEAR DOC: **Your prescription will send a lot of people to church. (Especially those who never had a prayer.)**

Getting married? Whether you want a formal church wedding or a simple do-your-own-thing ceremony, get Abby's new booklet, "How to Have a Lovely Wedding." Send $1 and a long, stamped (28 cents) self-addressed envelope to Abby: 132 Lasky Drive, Beverly Hills, Calif. 90212.

FBI Seeks Applicants

The Dallas office of the FBI, through its special agent in charge, James A. Abbott, is seeking applicants for the positions of clerk, typist and stenographer at bureau headquarters in Washington, D.C.

Young people at least 16 years old, who are U.S. citizens and have at least a high school education may apply.

The entrance salary for a clerk is $7,422 per year with a raise in 30 to 90 days to $8,366 if work is satisfactory. To qualify for the clerk position, a series of aptitude tests must be successfully completed.

A typist starts at $8,366 per year and must type at 40 words per minute and pass a series of aptitude tests.

As openings occur, applicants for clerk and typist positions my be considered for fingerprint clerk position. It starts at $8,366 and may advance to $11,712 per year after two years experience in fingerprint work.

A stenographer starts at $9,391 and applicants must pass a three-minute dictation test at 80 words per minute, a typing test at 40 words per minute and a series of aptitude tests.

Information may be obtained by calling the special agent in charge at 214-741-1851 or by writing him at 200 Mercantile Continental Building, Dallas 75201.

ASTRO-GRAPH

Your Birthday

Bernice Bede Osol

February 18, 1979

This coming year you may have more opportunities than usual to exercise your splendid leadership qualities. Don't be afraid to take the reins when it is offered to you.

AQUARIUS (Jan. 20-Feb. 19) You're lucky today competitively, particularly if the stakes are of real value. Take no foolish risks, but envision yourself as a winner. Learn more about yourself by sending for your copy of the all-new Astro-Graph Letter for 1979. Mail $1 for each and a long, self-addressed, stamped envelope to Astro-Graph, P.O. Box 489, Radio City Station, N.Y. 10019. Be sure to specify birth sign.

PISCES (Feb. 20-March 20) Your sphere of influence is greatly expanded at this time. Benefits could come from least-suspected areas through persons who hold you in high esteem.

ARIES (March 21-April 19) Respond with a smile today if a friend needs your assistance in helping her; you could also benefit yourself.

TAURUS (April 20-May 20) Your tact and consideration makes you a charming companion today. Friends who have an opportunity to share your company will be fortunate indeed.

GEMINI (May 21-June 20) Even though this is a day of rest, some extraordinary assistance may be requested of you. Your efforts, however, will be properly appreciated.

CANCER (June 21-July 22) Do something fun today that gives you an opportunity to exercise both your mental and physical faculties. Some type of team sport would be perfect.

LEO (July 23-Aug. 22) This is a good day to exercise your do-it-yourself impulses and take care of that creative change you've been wanting to make around the home.

VIRGO (Aug. 23-Sept. 22) Seek some active social outlet today if you hope to gratify your restless urges. You'll be happiest whiling away the hours with fun-loving friends.

LIBRA (Sept. 23-Oct. 23) Two unrelated situations might develop today that could help add to your financial security. If opportunity knocks, be ready to move with alacrity.

SCORPIO (Oct. 24-Nov. 22) Involvements with political overtones that you find yourself in today should turn out much to your liking. Everyone wants to get on your bandwagon.

SAGITTARIUS (Nov. 23-Dec. 21) Accept favors today as graciously as you granted them in the past. Allow others the same joy of giving that you experienced yourself.

CAPRICORN (Dec. 22-Jan. 19) In group activities today, your friends will look to you to get the show on the road. You shouldn't have any problems coming up with crowd-pleasing suggestions.

February 19, 1979

You'll have greater opportunity this coming year to team up with many new and different persons who could be quite lucky for you. Several long-lasting friendships should result.

AQUARIUS (Jan. 20-Feb. 19) Don't let yourself be pressured by an acquaintance into doing something against your better judgment today. Abide by your decisions. Like to find out more about yourself? Send for your copy of the all-new Astro-Graph Letter for 1979 by mailing $1 for each and a long, self-addressed, stamped envelope to Astro-Graph, P.O. Box 489, Radio City Station, N.Y. 10019. Be sure to specify birth sign.

PISCES (Feb. 20-March 20) Be tactful and considerate and you'll get exactly what you want today. If you attempt to use pressure tactics you won't even get to first base.

ARIES (March 21-April 19) You're likely to spend so much time today trying to fix the blame for something, that you could ignore those smart ideas that come your way.

TAURUS (April 20-May 20) It's a mistake to look to team up with outsiders today. Check your own backyard first. You'll find people who love you make the best partners.

GEMINI (May 21-June 20) Your attitude will determine the kind of response you get today. Be friendly and others will react warmly. Be cranky and you'll receive cold shoulders.

CANCER (June 21-July 22) You are fortunate today and can accomplish many things. However, you should do your own thing and ignore suggestions made by well-meaning friends.

LEO (July 23-Aug. 22) An unpleasant social experience can be avoided today if you excuse yourself from the presence of one with whom you've had run-ins before.

VIRGO (Aug. 23-Sept. 22) You are a loner today and can get much done if left to your own devices. If at all possible, try to avoid being involved with others.

LIBRA (Sept. 23-Oct. 23) Your overall plans should run smoothly today so long as you don't hesitate to tackle your big ideas. Thinking small makes roadblocks to progress.

SCORPIO (Oct. 24-Nov. 22) One who is jealous of you could try to put a damper on your high achievements. Let his sour notes go in one ear and out the other.

SAGITTARIUS (Nov. 23-Dec. 21) An acquaintance who can't carry her own weight might try to climb up on your horse today. She's a millstone around your neck, but drop her as gently as possible.

CAPRICORN (Dec. 22-Jan. 19) It'll be difficult to fool you today. Someone who is not your friend may try to pull a fast one on you. Be alert.

(NEWSPAPER ENTERPRISE ASSN.)

Snyderite Is On Honor List

ABILENE — Katherine D. Howell, daughter of Ray Atkinson of Rt. 3, Snyder, has been named to the honor roll at Hardin-Simmons University for the 1978 fall semester.

To qualify for the honor roll a student must have taken a full course load and maintain at least a 3.7 grade point average on a scale of 4.0.

Through 1978, the New York Yankees were far and away the top World Series champions, with 22 titles.

Pack 177 Has Banquet

ATTEND BANQUET-These cub scouts of Pack 177 attended a banquet Thursday celebrating the founding of the cub scout organization. From left to right on the front row are, Brian Robinson, Todd Browning, Mike Campbell, and Don Hurt. On the back row are J.D. Smith, Brad Vincent, Bryan Bruns, Anand Rao, Lee McCathern and Manuel Espinosa. (SDN Staff Photo)

Cub Scout Pack 177, sponsored by Stanfield PTA, met Thursday in the Stanfield cafeteria for its Blue and Gold Banquet. The banquet was held in celebration of Cub Scouts founding in 1930.

A covered dish dinner, followed the invocation given by Doc Griffin. The flag ceremony was performed by Den 3 which includes Lee McCathern, Anand Rao, Brad Vincent, Bryan Bruns and Manuel Espinsoa.

The cubmaster, Sandra Campbell, welcomed everyone and recognized the following businesses for donating items to the banquet: Snyder Janitorial Supply, Spanish Inn, Piggly Wiggly, The Sunshine Shoppe.

Special guests were introduced as follows: Larry Miller, district executive; Mr. and Mrs. Doc Griffin, district commissioner; Thelma Deere, district cub chairman and her mother Mrs. Thelma Thorpe; Mr. and Mrs. Joel Griffin, principal of Stanfield Elementary.

Miller accompanied himself on the guitar to provide the evening's entertainment.

The pack is forming a Webelos den to be led by Glen McCathern and assisted by Fred Moseley. McCathern explained the requirements for becoming a Webelos and various activities that will be planned.

Cubs receiving awards were: Don Hurt, bobcat badge and pin; Todd Browning, Brian Robinson and J.D. Smith, wolf badge and pin, Mike Campbell, wolf gold arrow point; Bryan Bruns and Manuel Espinosa wolf badge and pin; Lee McCathern, bear badge and bear gold arrow point; Brad Vincent two wolf silver arrow points; Anand Rao, one-year pin.

Den leaders received certificates of appreciation. They are Janet Mosely, Kaye Holley, Judy Robinson, Donna Browning, Anita Felan. Also receiving a certificate of appreciation was Doug Webb, den chief for Den 1.

Special recognition was given Mrs. Browning who is moving to Majorca, Spain. Also, Todd Browning and Mike Campbell received special awards for recruiting new boys for the pack.

The next pack meeting is March 8 at 7:30 p.m. in Stanfield Cafeteria. Pack 177 is a participating United Way agency.

Wrist Watch Thin As Nickel

NEW YORK (AP) - Watchmakers have combined the world's smallest battery and the world's thinnest motor to make the world's thinnest wristwatch, according to an industry executive.

Gedalio Grinberg, president of North American Watch Corp., says the quartz watch, dubbed the Concord Delirium I, is as lean as a nickel.

HEALTH TIP from DEAN

Why eat an apple instead of candy? Comparing one large apple with 1 oz. of chocolate creams (each approx. 110 calories) we find 4 grams of fat in candy, less than 1 in the apple. But look - the apple has 12 mg. of calcium, 20 mg. phosphorus and .6 mg. of iron, while the candy has none of these essential nutrients.

The apple has vitamin A and C, thiamine, niacin, and riboflavin - the candy has none.

Pawnshop Bill Stirs Reacton

By JOHN LONG

A state senator's bill to have future pawnbrokers prove "good moral character," have $50,000 in net assets, and pay up to $2,500 for investigation fees for a license from the state consumer credit commissioner has Ken Minyard, a local pawnshop manager, fighting mad.

"It's ruffling my feathers," said an unamused Minyard, the manager of Timely Pawnshop.

Sen. Tati Santiesteban of El Paso, who introduced the bill, said he hoped it "will make pawnshop owners sophisticated, first-class citizens." The bill has passed the Senate 29-0, and will go before the House.

"My response is that if it takes $50,000 to be a good citizen, I've had it," said Minyard.

Minyard also questioned the need to pay $2,500 for investigation of a pawnbroker's character "when you can find out from five or six chaps around town if you're worth a durn."

"This is one first-class citizen," he said, "who does not think you have to be worth $50,000 to be one."

An outspoken man, Minyard admitted he found himself in agreement with the senator on one point. "I agree with the senator that known felons or people who have served time in the clink shouldn't be pawnbrokers," he said. It was their only point of agreement.

"I can live with it either way, personally. It's just his thought of what makes a first-class citizen that makes me mad," said Minyard.

The Senator's sophistication comment also drew a sharp response from Minyard.

"There's nothing sophisticated about being a pawnbroker," Minyard mockingly said in a cultured English accent. "You just loan a guy some money and he pays you back."

"A pawnbroker," Minyard believes, "is a good citizen of a community who makes personal loans 95 percent of the time to people who can't get a loan at a bank."

Why does Minyard believe the bill was introduced? "To keep little people from being a pawnbroker. Period. It's simple," said he.

Argentina Plans To Build Solar Plant

BUENOS AIRES, Argentina (AP)-Plans have been announced for the construction of an experimental solar plant to distill brackish water near the capital of Argentina's La Rioja province.

COORDINATORS -- The volunteers shown above help coordinate avtivities at the Senior Citizens Center. Seated (left to right) are Madaylene Reese, Outreach Coordinator; June Deen and Frances Martin, Host-Hostess Coordinators, and Virginia Whitson, Program Developer. Standing are Rita Dowdy, Registry Coordinator; Dean Cochran, Communications; Andy Deen, Host-Hostess Coordinator, and Mildred Lewis, Assistant Program Developer. All the volunteers except Mrs. Reese are members of RSVP and are assigned to the Senior Center as a work station.

Weather Modification Project Is Geared Up

BIG SPRING—Participants in the HIPLEX weather modification research project have geared up for the 1979 field work based at Big Spring.

Representatives from the U.S. Bureau of Reclamation, the Texas Department of Water Resources, Texas Tech University, Texas A and M University and Colorado River Municipal Water District firmed plans this week for operations and for installation of new equipment for studies.

Bill Harrison, Denver, Colo., of the U.S. Bureau of Reclamation, made a presentation of the capabilities of the Enterprise 5 radar unit which will be moved to the area on a short-term basis from Miles City, Mont. It will be used to assess radar date in the development of cloud seeding technology. Using this more sophisticated radar, technicians will seek to establish a cause and effect comparison between seeded and unseeded clouds. In connection with the unit, 25 additional recording rain gauges will be installed to intensify precipitation measurement within the primary target area of the radar.

The 1979 program also will call for the installation of cloud physics equipment in the turbo-charged Navajo plane of the CRMWD, and this will mean that a cloud physicist will fly missions through clouds. Instruments in the plane will record in-cloud and ambient-cloud data at the minus 10 degrees centigrade temperature level. This includes temperatures, dew-point temperatures, moisture content, both on larger drop particles as well as total moisture volume, flight direction, speed and time. The date will be recorded and may be printed out.

Dates for the HIPLEX program are May 15 through July 15, but the CRMWD will operate its weather modification program from March 1 through Oct. 31.

Taking part in planning for the season were Lloyd Steubinger and Harrison of the Bureau of Reclamation; Dr. Don Haragan, Dr. Jerry Jurica, Dr. Colleen Leary of Texas Tech; Dr. James Scoggins and Steve Williams, Texas A and M University; John Carr and George Bomar, TDWR; John Girdzus, R. A. Schooling, Richard Halfmann and O. H. Ivie of the CRMWD.

Rebate On City Sales Tax Up

Snyder's city sales tax rebates for the period ending Feb. 1 amounted to $32,832, a whopping 42 percent increase over the corresponding payment for last year, State Comptroller Bob Bullock has reported.

Bullock said the city rebates state-wide are up 36 percent over the same month a year ago.

The latest rebate pushed Snyder's total for the year so far to $46,786, compared to a total of $32,769 for the same period in 1978.

Figures for other area cities, with this month, the total for the year and the total this time last year: Sweetwater, $26,916 and $39,936-$28,543; Brownfield $23,301 and $32,949-$22,930; Lamesa, $18,436 and $29,915-$28,747; Levelland, $18,010 and $35,048-$27,929; Colorado City, zero and $5,254-$11,370; Post, $3,641 and $10,591-6,139; Rotan, $1,622 and $1,622-$1,475; Roscoe, $1,376 and $1,376-1,336; Roby, $916 and $916-zero.

HEATH GARDNER

Local Scout Makes Trip To Capital

Heath Gardner of Boy Scout Troop 61 has returned from Austin where he represented the Lone Buffalo Scout District in Boy Scout Month activities at the state capital.

He was selected for the honor as the result of his work in scouting, his high grades in school and his regular attendance in church services.

Heath and scout representatives of four other districts in the Buffalo Trail Council were accompanied to Austin by Larry Miller, district executive.

They had breakfast with U.S. Attorney General Griffin Bell and marched in a parade to the capitol where there were taken on a tour of the building. While there, they met with Gov. Bill Clements and talked with him and had their pictures taken with him.

Boy Scout Troop 61 is sponsored by Calvary Baptist Church and any boy interested in scouting may contact Ed Doss, scoutmaster. Boy Scouts of America is a United Way agency.

Dinner Theatre Tickets Going On Sale

Tickets for the Western Texas College dinner theatre production of "Never Too Late" will go on sale tomorrow at West Texas State Bank, Snyder Drug and the Fine Arts Division office on campus.

The show is scheduled for March 2-4 and 9-11. Evening performances are planned on March 2-3 and 9-10, with 2 o'clock matinees on March 4 and 11.

Tickets are $8 each, which includes dinner and the show. Dinner will be served in the Student Center cafeteria, with performances in the comfortable Fine Arts Theatre just across the courtyard in the Fine Arts Building.

"Never Too Late," written by Sumner Arthur Long, provides chuckles, chortles, tummy tickles and just an overall good feeling inside, Jeanne Kobuszewski, director, says. The show was first produced on Broadway in 1962 and was an instant success.

Long himself is the unsung hero of the play, wrote one critic. As unassuming as his play, Long, a father of two, admits he was not prepared for the success of the play and even less prepared for a flop.

"I wouldn't have dared to go home to Los Angeles," he said. "The children give you such a send-off you hate to sneak back tarred and feathered!"

A long-time TV writer, Long got the idea for "Never Too Late" from watching a pretty gray-haired woman walking down Wilshire Boulevard. She had the only happy face in sight, Long said. "And I wondered what happened when she first told her husband and what happened when her marriageable children heard of it."

Long took this curiousity and combined it with wit and humor in "Never Too Late."

The play itself is based upon a woman in her middle forties who for 30 years has washed clothes, cooked, cleaned and, in all actuality, been a slave to her husband Harry, king of the household. She turns their home into chaos with the words "I'm going to have a baby," and she becomes a new Eve.

Harry, once overly proud and overbearing, melts into a puddle of apologies as the situation progresses. He groans, "I'll be 40 when the child gets out of college!"

Reservations for the dinner theatre may be made by calling the Fine Arts Division office at 573-8511, extension 240. Tickets must be paid for in advance.

Workshops In Sewing Set At WTC

Learning to alter and fit patterns will be the subject of an afternoon workshop scheduled from 1-5:30 p.m. on Feb. 27 at Western Texas College.

A separate workshop, scheduled from 6:30-9 p.m. at WTC on Feb. 27, will concentrate on Sewing Shortcuts. These techniques are easy to do when the seamstress understands the use of "finger skills" and of the sewing machine, Shirley Van Eschen, workshop director, says. Ms. Van Eschen is Home Economist for the Sew-Fit Co. of LaGrange, Ill.

Fees for the afternoon session will be $5 per person. Fees for the evening session will be $3 per person. Those who wish to attend both sessions are welcome to do so and will pay fees totaling $8.

Persons who wish to register for one or both workshops or to obtain further information are to call the Community Services office at 573-8511, extension 240.

Activities Scheduled At Senior Center

Special activities in the Senior Citizens Center week will include a guest speaker and the 42 Tournament on Tuesday.

R. C. Eoff from Snyder Nursery will speak on Plants and Plant Care preceding the Tuesday luncheon.

The 42 Tournament will follow the Tuesday meal. Persons who wish to play in the tournament are asked to register on Monday.

Other activities in the Center this week will include square dancing on Thursday afternoon, Senior Center Choir practice on Friday afternoon, quilting on Monday and Wednesday afternoons, exercise classes on Tuesday and Thursday mornings, and table games each day. All Scurry County residents 60 or above are invited to visit the Center and to participate in the activities there. The Center is located at 2703 Avenue M.

Oil Price Changes Expected In May

(Continued From Page 1)

for oil produced in the United States sell at the world market price.

What would happen in Snyder and Scurry County if the price of oil produced here should be allowed to rise to $10 per barrel or more?

"There would be more activity than we have seen in a long time," said Lacik.

Why?

For the simple reason that the oil producers would be able to workover oil wells, maintain more efficient servicing schedules and do some exploration without going in the red.

Charlie Lantrip, SACROC Unit Manager for Chevron, said that under present pricing regulations it is becoming more costly to get oil out of the ground in the huge unit which at its peak supplied more than two percent of the nation's needs.

Carbon dioxide, which SACROC has been injecting in its secondary recovery operations for several years, may be nearing the stage when it is no longer economically feasible under present pricing, Lantrip said.

Yet, when all of the crude that present methods can recover is produced, about half of the original supply will still be inbedded in the reef formation. At $5.98 per barrel, the producing companies can't justify huge expenditures in efforts to develop new techniques required to recover the remainder. At $15 per barrel, or even $10 to $12 per barrel, local observers believe there would be a trememdous upsurge in activity in Scurry County fields. Recovery of the remaining oil in place in the Canyon Reef field would be the same as discovering a new field with production equal to that already taken from the field.

What would that mean to Snyder and Scurry County residents?

For one thing, it would eliminate some sticky tax problems faced by local schools and other agencies under present conditions. Over-all valuations have fluctated due to a sharp decrease in oil production. If the oil price should double, however, valuations would surge and tax rates could be lowered.

For another thing, it would mean a sharp increase in oilfield work, which in turn would mean more payrolls, more business activity. Some believe that $12 per barrel oil would bring a veritable boom.

Some observers doubt that the Carter administration would have given much consideration to a substantial change in the pricing of domestic oil if the supply from Iran had not been cut off. Now, the country not only faces the prospect of having to do without supplies from Iran, or at best a small percentage of the amount it was buying there previously, but also it has seen first-hand one of the pitfalls of depending on foreign supplies for significant portions of our needs. What happened in Iran could happen in other OPEC nations.

For that reason, some oilmen think the administration might be willing to let domestic controls quietly fade away when they expire.

If it should happen, it is not likely to be quiet in the Snyder area. But the best we can do now is keep our eyes on the calendar and our ears tuned to Congress.

REV. AND MRS. CHARLES BRIDGES
...with their printing press

Ira Minister And Wife Publish Own Magazine

By DOROTHY COX

Have you ever lived in a town with a population of 250 that published its own monthly Christian magazine? Or have you ever started such a publishing project and have it surpass anything you ever thought possible? If you haven't, don't despair. It can happen. It did to Rev. and Mrs. Charles Bridges of Ira.

As pastor of the Ira Baptist Church, Rev. Bridges, along with his wife, LaVon, saw the need for reaching out beyond the local congregation to others in this area with a publication that would encourage, strengthen, and refresh - one that a person of any faith could be comfortable reading. Knowing that there were no such Christian publications printed in this area, they felt that this would be a great missionary effort.

With this point of view in mind, the Bridges began the project, which as apart from his work as pastor. With the financial help of a few concerned Christians, Bridges was able to purchase enough basic printing equipment to start publishing. He was a novice, except for a minimal amount of printing he did while he and LaVon were missionaries in Lebanon.

Done by trial and error, by tedious hours of hard work, by prayer and perseverance, the first edition of The Altar came off the press in November. It had a circulation of 700. The second edition more than doubled at 1500, and now in its fourth printing has a circulation of 2000 - some as far away as Hawaii and Canada.

As the circulation increased in numbers, so did donations, which were used to buy more printing equipment needed to carry on the increasing work load. With this extra equipment the Bridges' home is beginning to look like a printing office throughout the house, and LaVon says when volunteers come in to help with the typing, paper cutting, etc. the house becomes somewhat crowded, but the work goes on nevertheless.

The Altar is a non-profit publication existing solely for the purpose of exalting Christ through the printed page, said Rev. Bridges. It's a beautifully illustrated, high quality publication. It's contents include sermons, short stories, poems and devotionals written by ministers and laymen, many of whom are from this area.

You may receive the magazine simply by sending your name and address to The Altar, Box 45, Ira, Texas 79527.

EXPO TICKET SALE-Wednesday kicks off the ticket sale for the Lone Wolf District Scouting Exposition set for April 7 in the National Guard Armory. All scouts and scout leaders will be selling tickets. One feature of the expo will be a pinewood derby race for the cubs. From left above are Thelma Deere, expo ticket chairman; Doug Webb, Troop 107; Michael Campbell, Pack 177; Larry Miller, district executive; Larry Miller Jr. and Doc Griffin, Expo Chairman. All scout leaders may pick up tickets at the Dunn Community Center, Tuesday at 7:30 p.m. (SDN Staff Photo)

Aviation Ground School Slated

Aviation Ground School will be offered as a Community Services course at Western Texas College in classes starting March 1 and continuing through April 23.

Dr. Gene McClurg, Dean of Occupational Education and Technology, will be instructor for the course. Students will pay fees of $45 and will purchase books costing about $25. Classes are to meet from 6:30 to 8:30 on Monday and Thursday nights except on March 19 and 22 when the WTC campus will be closed for Spring Break.

Persons wishing to register or to obtain further information about the course are to call the Community Services office at 573-8511, extension 240.

Pool Rewards Crew Chiefs For Outstanding '78 Safety Record

$1,000 AWARD WINNERS--On the front row are Luis Alaniz, Ramon Valadez and Joaquin Marcop, $1,000 award winners at Pool Well Servicing's safety awards banquet, and on the back row are District Manager W.D. Birdwell, General Manager Gene Butts; Terry Collins, another $1,000 award winner, Regional Manager J.B. Warren and Pool Well Servicing President George Loch. Not pictured is Aubrey Ingram, another $1,000 award winner. Marcon also received an engraved watch for completing two years in a row with a perfect safety record. (SDN Staff Photo)

Sixteen Pool Well Servicing Company crew chiefs operating out of the Snyder District received safety awards totaling $8,494 at a dinner meeting held at K-Bobs Steak House in Snyder.

Crew chiefs Louis Alaniz, Jack Alarcon, Terry Collins, Aubry Ingram and Raymond Valadez were presented with a special $1,000 award each for 240-point perfect safety records achieved under the company's 1978 Safety Achievement Awards Program. To achieve a perfect safety record, a crew chief must have no lost time injuries to crew members assigned to his rig during the calendar year. He must also earn 240 points through a series of unannounced safety inspections made during the year on his rig, equipment and vehicle.

Jack Alarcon was recognized for completing two years of service ina row with a perfect safety record and was presented with an engraved wristwatch valued at $200.

District Manager W.D. Birdwell also received a plaque commending all employees of the Snyder District for having worked all of 1978 with an accident frequency rate below seven, an outstanding achievement considering the industry average is above 60. Gene Butts, General Manager of Central U.S.A. Operations, presented the plaque and also recognized Birdwell's safety leadership by giving him an engraved wristwatch commemorating the achievement.

Wayland Cody, Van Goswick, James Halbert, Doug Morris and Kenneth Redding received 190-point $300 third-year distinguished safety achievement awards.

David Brecheen, Robert Creel, Willie Garcia and Dale Ward received 190-point $180 one-year distinguished safety achievement awards.

Charlie Vansickle received a $60 meritorious safety achievement award for earning 155 points.

Burnave Martinez received a personalized pen and pencil set for having ended the year with 120 points.

Also receiving safety awards were gang pushers Ray Murphy and Richard Logston, spooler operators Clark Farrar, Tommy Arnold, Lawrence Barnes and Raymond Johnson, and swab unit operator Tommy McBroom.

George S. Loch, President of Pool Well Servicing Co., commended the award winners for the fine safety record set in the District during 1978 and encouraged them to improve it during the coming year.

"Safety is our Number One priority", he said. "We can never place too much emphasis on the importance of safe operating practices and safe working conditions, or for the responsibility of the crew chief to look out for his people. Safety leadership begins on the rig floor.

"We are proud of our crew chiefs. Pool Well Servicing Company probably has the finest, best trained group of crew chiefs in the industry, and we believe we may have the best safety record.

Also participating in the awards program were South Plains Regional Manager J.B. Warren from Levelland and Safety Representative Bill Snead from Odessa.

DISTINGUISHED SAFETY AWARDS--W.D. Birdwell, district manager, left, and Regional Manager J.B. Warren, right, presented $300 distinguished safety awards to this group at Pool Well Servicing's safety banquet. From left are Birdwell, Wayland Cody, Van Goswick, James Halbert, Doug Morris, Kenneth Redding and Warren. (SDN Staff Photo)

DPS Office To Take Holiday

The Department of Public Safety Driver License office will be closed Monday in observance of George WAshington's birthday.

The driver license office is now located in the new Scurry County Jail building at 1300 26th St. It is off the hall to the right from the front door of the building.

It will resume its regular hours of 8:30 a.m. to 5 p.m. on Tuesday.

In The Oil Patch...

Field Opener In Howard Finals

Florida Gas Exploration Co., operating from Midland, has completed its No. 1-32 Stella Petty as a Strawn oil discovery in Howard County, four miles southwest of Big Springs.

The new field opener completed for a 24-hour flowing potential of 270 barrels of 41-gravity oil, no water, through a 17-64-inch choke. Gas-oil ratio is 1,041-1.

The pay section, opposite perforations from 9,336 to 9,353 feet and 9,360 to 9,370 feet, was treated with 500 gallons of acid.

Hole was drilled to 10,219 feet, 5.5-inch casing was set at total depth, and the plugged back depth is 9,843 feet.

The Strawn was topped at 9,330 feet on killy bushing elevation of 2,527 feet. Other tops include the Yates 1,743 feet; Mississippian lime 9,664 feet; Woodford, 9,870 feet; Siluro-Devonian, 9943 feet; Fusselman, 10,020 feet; Sylvan, 10,131 feet, and the Ellenburger at 10,152 feet.

The wellsite is 2,080 feet from north and 660 feet from west lines of section 32, block 33, T-1-S, T&P survey. It is ⅞ miles southeast of Moore pool.

Fort Worth Production Co. of Fort Worth requested permission from the Railroad Commission of Texas to drill its No. 1 E.F. Dunn as a wildcat in the Allen Holliday (Pennsylvanian) area of Scurry County, 10 miles southwest of Ira.

The project is scheduled to drill to 7,400 feet, 467 feet from north and 660 feet from east lines of section 74, block 20, Lavaca Navigation Co. survey.

Campana Petroleum Co. of Midland No. 3 Read is a new well in the Coahoma, North (Fusselman) pool of Howard County, five miles northeast of Coahoma.

The operator reported a 24-hour flowing potential of 98 barrels of 48.8-gravity oil and no water, through a 12-64-inch choke and perforations from 8,858 to 8,862 feet. The gas-oil ratio is 1,653-1.

The pay was acidized with 1,000 gallons.

Total depth is 8,910 feet and 4.5-inch casing was cemented on bottom. The plugged back depth is 8,884 feet.

The well is 1,980 feet from south and west lines of section 28, block 30, T-1-N, T&P survey.

Tigers Win 3-AAA Representation Rights...

Snyder Squeaks Past Lamesa, 51-49!

BIG SPRING—Snyder's Tigers squeaked out District 3-AA representation rights here last night, coming up with a last-minute 51-49 victory to edge the Lamesa Tornadoes in loop playoff action.

The game was near carbon copy of the team's first two meetings, the first won by Lamesa 51-50 and the second taken by Snyder, 43-41.

Snyder now advances to bi-district competition aainst the No. 1 ranked Mineral Wells Rams. That game will be held 7:30 p.m. Thursday in Abilene's Taylor County Coliseum. Snyder will be the visiting team.

If there was a key figure in the game here it had to be Snyder's Richard Crayton.

The 5-8 guard churned off nine assists but much more importantly, basketed a pair of pressure-packed, game winning free-throws with two seconds remaining.

If not Crayton, maybe it was Brad Richardson, who tied the game on a 10-foot jumper, then raced downcourt and pulled away a missed Lamesa shot to keep it deadlocked.

Or it could have been senor Greg Hinton, who scored 23 points and grabbed 13 rebounds for the Tigers.

Whatever - whoever - it was a victory shared by the entire squad, coaches Jack Stephenson and Jim Carson, and about half of the estimated 2,050 vocal fans in attendance at Dorothy Garrett Coliseum.

Snyder took an early lead in the ballgame and except for a brief 39-39 tie in the third period, kept it until Pepe Lucio sank a trio of freethrows to lock the score at 47-47 with 2:36 left in the game.

Both teams took a turn winding down the clock, but with 54 seconds remaining Lamesa star Ruben Steinbronn accepted a pass under the hoop, spun around and made his shot good, to give the Tornadoes a go-ahead 49-47 advantage.

Snyder took the ball down, moved around the key for position, and with the clock showing 29 seconds, made it 49-all as Richardson snapped the laces from just over three yards out.

The 6-2 sophomore did double duty moments later when he snared an awry Lamesa shot off the backboard and sent Snyder back up court.

Crayton took control of the situation and worked up the middle in an attempt to break the tie. The Lamesans immediately closed on the senior playmaker, but Lucio was charged with a foul in the process, and with two seconds left, Crayton was sent to the paystripe.

Amidst the almost deafening roar of the crowd, the three-sport letterman took a deep breath, cocked back and sailed the roundball through the hoop to clinch the victory.

He made the second attempt good too, giving Snyder a 51-49 lead with only two ticks left. Lamesa used the time to throw a long pass to Steinbronn, but the seconds ticked away too fast, and the Lamesan was unable to get the Tors back into the game.

Snyder opened the contest with two quick Sid Everton baskets from 15 feet out. Lamesa knoted the total moments later, but the Tigers came out on top at the end of the first period 18-12. The second quarter was a near repeat of the first, with Hinton pacing the Tigers and Steinbronn guiding the Tors. Hinton scored nine of his 23 points in the second set while Kyle Short got three and David Jackson accounted for two.

The solid performance by Snyder accounted for a 32-35 halftime lead, and it wasn't long in the third period before the designated visitors found themselves ahead by 11, 38-27.

Snyder's previous style of intense play began to wear in the mid-third quarter however, and Lamesa picked up its second wind. Hinton scored on a tip-in for two points, and Richardson accounted for the remainder of Snyder's 11 switches in the scoreboard.

Steinbronn was a telling actor in Lamesa's third quarter success. He opened his show with a sweeping hook shot, and accounted for eight points in the quarter. With only seconds remaining, the 6-4 senior grabbed a rebound and stuck it back up, locking the totals at 39-39 as the Tors scored 10 unanswered points.

Snyder sparked again however, as it had often in the first half, and assisted by passes from Crayton, Richardson scored two quick, back-to-back baskets under the rim to put the Tigers in front 43-39 at the buzzer.

Lamesa trailed most of the final quarter, jockeying back and forth from a point to three points behind until Lucio scored three free throws to lock the score at 47-47 and adrenalize the down to the wire heart-stopper.

Steinbronn, no doubt on several college scouts' checklist, scored 21 points for the evening, hitting a phenomanal 8 of 10 shots from the floor. He also garnered eight rebounds.

Hinton's figure led Snyder, followed by 11 from Richardson and 7 from Crayton. Lucio scored 15 most from long distance for the Tors.

Lamesa, which concludes the season with a co-championship 7-1 district record, hit 18 of 34 from the field (52 percent) and 13 of 20 from the stripe (65 percent).

Snyder was 20 of 38 from the floor (53 percent) and 11 of 19 from the line (58 percent).

Duo Grabs First As Gymsters Vie Odessa Permian

Snyder gymnastics team lost by four-tenths of a point to Odessa Permian High School here Friday, concluding a streak of three straight at-home meets.

Snyder girls pointed 98.70 while Permian came up with a winning 99.10 to take the compulsory meet.

Snyder boys scored 103.7 while Permian finished with a 124.8.

The Tigers did take first place in the all-around in both boys' and girls' competition. Pam Blankenship won first in girls' action with a 33.3. Teammate Rita Black was third with a 32.70.

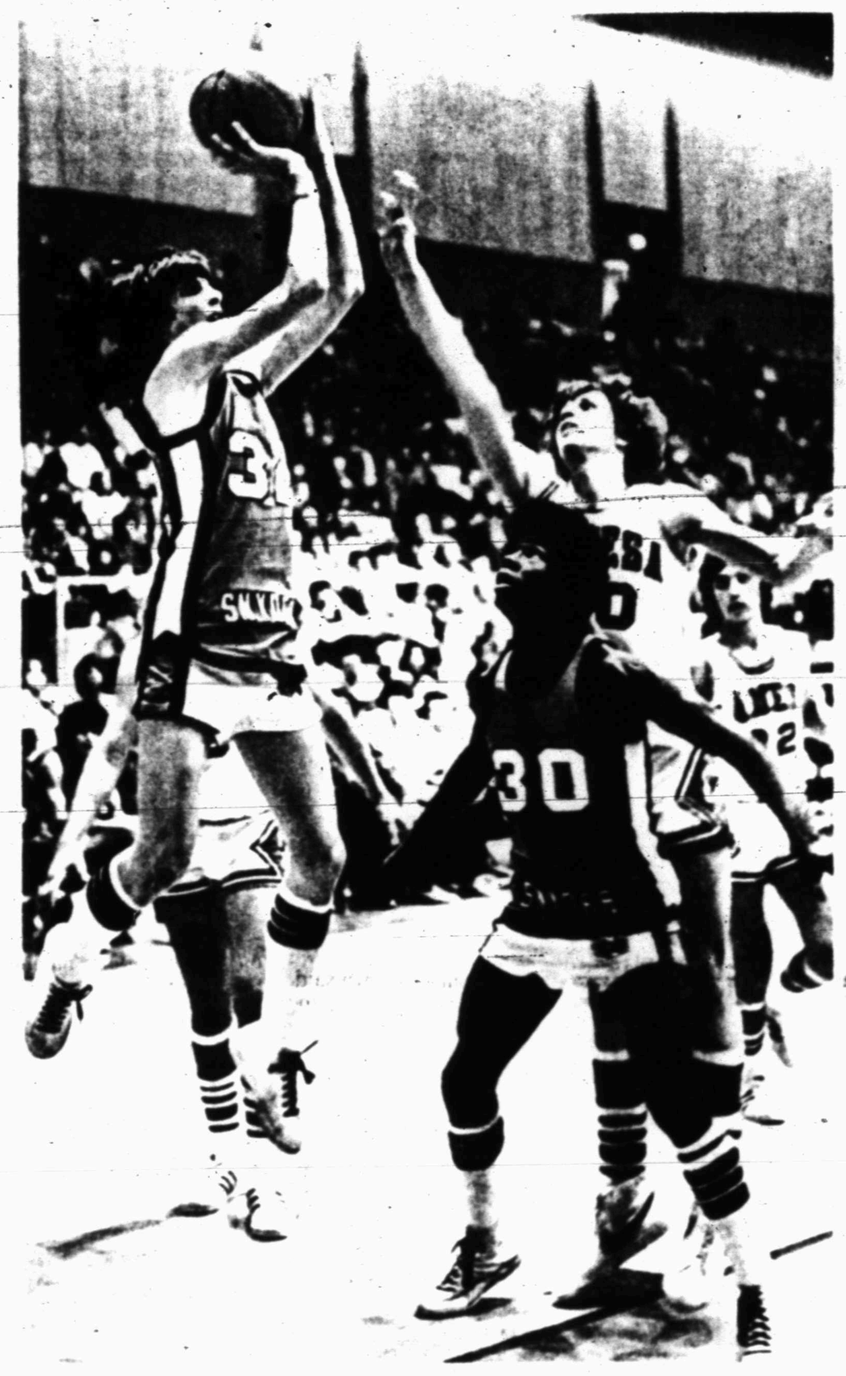
Bobby Overhulser was first in the boys' all-around with a 43.5. Hunter Crawford was third with a 36.6.

In other individual events, Blankenship placed first on balance beam, second on uneven bars and third in vaulting. Carrie Ainsworth was first in vaulting and third on balance beam, and Black was second in floor exercise and third on the uneven bars.

Overhulser took second places in floor exercise, high bar, vaulting and still rings and placed third on the parallelbars. Crawford was second on pommel horse and third in vaulting.

"Winning the all around is something these kids have really worked hard for. It was a very close meet and we're pleased with our progress," relayed Coach Doug Fitzjarrell. "We're getting better every meet."

In two weeks, the team will travel to Dallas for two meets. Opponents will be Trinity and L.D. Bell High Schools.



SNYDER SCORES—Snyder's Greg Hinton utilizes a block from teammate Brad Richardson (30) to execute a 10 foot jumper for the Tigers during Friday's 3-3A playoff game. Hinton and Richardson were two of the key players in the game, as were Lamesa's Ruben Steinbronn (behind Richardson), and Pepe Lucio (behind Steinbronn). Snyder won, 51-49. (SDN STAFF PHOTO By Bill McClellan)

WTC To Try Frank Phillips

BORGER—Western Texas College basketball teams are scheduled to vie against Frank Phillips College here Monday.

Both WTC teams, the Dusters and Westerners, come into the games in good form. The Dusters, who begin the show here at 6 p.m., were 6-2 in conference play before hosting South Plains in the WTC Gym on Saturday.

Odessa was leading the girls' conference with an 8-2 record. The Dusters had held the lead earlier in the week before losing to Amarillo Junior College in Badger Gym.

The Dusters could give Odessa a lot of competition for the conference championship in their three remaining games. A victory Saturday would have put the WTC team at 7-2, and a win here Monday would make them 8-2.

The squad, under direction of Coach Joe Cushing, will host tough Howard County College of Big Spring on the 22nd, and travel to Levelland to play South Plains as the season concludes.

Coach Nolan Richardson's Westerners took a 12-2, two-game lead over the rest of the WJCAC pack by winning both of their games last week.

The Westerners come into Monday's 8 p.m. game with a 24-3 season record, one of the best in the nation.

WTC will host Midland on the 22nd, travel to Levelland on the 26th and close the regular season by hosting New Mexico Military on March 1.

Mats Defeat Dunbar, 74-65; Represent 1-3A

LUBBOCK—Estacado basketed 20 freethrows here last night while Dunbar came up with 13, and that proved to be the major difference in Friday's 1-AAA decider here.

Led by Winston Gipson's 21 point effort, the Matadors pulled out a 74-65 victory and won the right to play Odessa Ector in bi-district competition early this week.

The playoff will be held Tuesday evening in Lamesa. Winner of the game will advance to regional play against either Snyder or Mineral Wells sometime before Sunday, the 25th.

Rams Cop Warmup Victory Over GP

GRAND PRAIRIE—The Mineral Wells Rams, champions of District 4-AAA and bi-district foe of the Snyder Tigers of District 3-AAA, warmed up for their bi-district game Friday night with a 67-63 double over-time victory over Grand Prairie, champions of District 9-4A.

The score was tied, 55-55 at the end of regulation play, and was still knotted at 61-61 at the conclusion of the first overtime period. The Rams then outscored the Class 4A team by 6-2 in the second extra period.

In three consecutive World Series, 1948-49-50, the first game ended with a 1-0 decision.

IBM
ANNOUNCING AN IBM SEMINAR ON SMALL COMPUTERS
If you're in charge of any kind of business, you've probably thought about how a computer could help with your expanding information needs.

Well, now there's a free IBM seminar designed for businessmen just like you. It features a discussion of the applications and benefits of IBM's small computers.

Small computers can handle a wide range of important jobs, including order entry, invoicing, receivables, payroll sales analysis, and inventory management to name just a few.
There are small, easy-to-use, low-cost IBM computers for the first-time user, available with programming already written for over twenty different industries. And there are small IBM computers that can be programmed specifically for your use.

But whatever your data processing requirements, the IBM seminar on small computers can help you with the kind of basic information you need to make an informed decision about the role of a computer in your business.

If you'd like to attend this free IBM seminar, call your Lubbock-IBM General Systems Division office.....Ask for Ronna Davis to reserve a seat.

Golfers Take 19th In Odessa Meet

ODESSA--Snyder High School golf team resumed season play here Thursday and Friday under ideal weather conditions.

By Friday the temperature for the Odessa Invitational Tournament had dropped to 26 degrees and a brisk north wind zipped over Odessa County Club course.

The Tigers finished 19th in a field of 21 teams - 19 of which were AAAA schools.

Snyder shot a 339 Thursday on the par 70 Golden Acres course. Lance McMillan led with a 76 followed by Mike Wolf with an 87, Randy Wolf with an 89 and Joe League with a 92.

Friday, the Tigers fired a 388 on the par 72 Odessa Country Club course. Again McMillan led with an 87, followed by Mike Wolf 92, Randy Wolf 100 and League 109.

Medalist at the meeting was Amarillo's Steve Russel who had a 66-79 for a total of 145. Abilene's Vic Villarreal was second with a 72-76, 148.

McMillan finished in the top ten with a 158.

Daytona Set For Sunday; Petty 13th

DAYTONA BEACH, Fla. (AP)-"We've changed about everything but the driver," struggling Richard Petty said on the eve of Sunday's 21st annual Daytona 500 stock car classic. "And I'm sitting in the seat all I can to keep them from changing that."

Petty, who has won the race a record five times, did not sound like one of the confident hopefuls for the $600,000 chase, but he held out hope that fate might smile on him as it did Bobby Allison last year.

"We're behind on speed for sure. But maybe that won't make that much difference. Bobby won here last year and he wasn't really that strong on horsepower," explained Petty, who starts a distant 13th in his new Oldsmobile 442.

Petty's qualifying speed was a decisive five miles an hour off Buddy Baker's record-breaking pole-position effort of 196.049 mph.

"We're still in the changing stage," continued Petty, still looking for the right combination after failing to win his last 45 consecutive starts - a record for the driver with 185 career victories. "Our problem in the 125-mile qualifying race was handling. We're trying to correct that. We've changed just about everything."

Baker and Donnie Allison start in the front row. Cale Yarborough and Darrell Waltrip are in the next line. Of that group only Yarborough, winner of the last three straight national championships, is a former Daytona 500 champ.

"It looks like those three or four front cars can really go - Buddy, Donnie, Cale and Darrell. Then comes Benny Parsons and several others," Petty said.

Parsons seems to be just slightly behind the front four in speed, but a little better off than Petty, Bobby Allison, David Pearson, A.J. Foyt and a few others. But Parsons wouldn't bet his money on anyone but Baker.

Dominate Weekend Track Meet...

Arkansas 'Hogs' SWC Championships

FORT WORTH (AP)—The University of Arkansas made history in Southwest Conference track and field Friday night and there's every indication that the best is yet to come.

The Razorbacks of second year coach John McDonnell ran away from the field in the sixth annual SWC Indoor Track and Field championships in Tarrant County Convention Center. It was the first indoor title for Arkansas, which has never won an outdoor championship other than cross country in the 50-odd years of competition in the league.

The 39-year-old McDonnell, a native of Ireland, served a five-year apprenticeship as cross country coach before he succeeded Ed Renfrow in 1977.

McDonnell had lead the Razorbacks to five consevutive SWC cross country titles.

Long distance races were the Razorback's forte Friday although they showed good balance in piling up 92 points compared with 71 for runnerup and defending champion Houston.

Mike Clark, the only senior point maker on the team, won the mile and anchored the first place medal winning two-mile relay and distance medley relay teams.

Clark was the high scorer in the meet with 15 points although freshman Tony Kastle of Blue Mound, Kansas brought the house down with a meet record 7-2 high jump.

McDonnell wasn't surprised by the victory.

"Really, I thought we would win," said the Irishman. "I figured we'd score 104 points."

McDonnell added "Our big problem in the past was that the runners on the team that didn't run cross country felt inferior to Texas teams. Well, we brought in some new blood and now they've got it in their heads that when they can get on the track they are the best."

Arkansas won seven first places while no other team could claim more than two first place ribbons.

Arkansas won three relays, the mile run, the 440, the three-mile and the 880-yard dash.

Texas A&M finished third with 62 points followed by Baylor at 61, Texas 59, SMU 46, Rice 35 and TCU and Texas Tech with 16 points each.

Houston had won the last two indoor meets and was favored.

CELEBRATION--Thomas Selmon lifts senior guard Sid Everton off the court as Snyder celebrates a two-point victory over the Tors immediately following Friday's playoff game against Lamesa. The Tigers will play Mineral Wells in bi-district competition on Thursday. (SDN STAFF PHOTO)

Felines Host Lake View Maids

Snyder High School girls varsity and junior varsity cage teams are scheduled to conclude their seasons here Tuesday, hosting San Angelo Lake View.

The Tigers, who won their first district tilt of the season last week with a four-point victory over Sweetwater, are 1-3 in loop play.

Lake View has already won the 3-3A district, taking a record of 5-0 in action so far.

Action will begin at 6 p.m. with a junior varsity game. The varsity contest will follow.

Brown Wants NFL Changes

CINCINNATI (AP)—Paul Brown, vice president and general manager of the Cincinnati Bengals, wants the National Football League to change rules to reduce penalties and abuse of the injured reserve clause.

Brown, a member of the NFL competition committee, said he will take up the issues at the league's upcoming winter meetings in Hawaii.

"One thing I'm really pushing for is to cut down on the fouls," Brown said. "There are entirely too many as far as I'm concerned."

Brown said numerous team officials have indicated they would like to see something done to reduce the number of penalties.

He said problems were created by one of last year's liberalization of the pass-blocking rules to permit extended arms and open hands by blockers.

"I'm sure they'll try to standardize run-blocking rules," Brown said, "but you can't allow a guard to go out there with his arms extended and push the cornerback up into the stands."

Brown said there will be a strong push to change the injured reserve rules to permit players injured early in the season to be replaced temporarily on the roster without having to sit out the remainder of the year.

The present rule was created to prohibit stockpiling of players by teams willing to carry extras on their payroll.

Brown said the solution might be to make teams pay with furture draft choices for players reinstated from the injured reserve list during the season.

Rose Named In Paternity Suit

CINCINNATI (AP)-Pete Rose, who signed a multi-million dollar contract with the Philadelphia Phillies, has been named in a paternity suit by a Tampa, Fla., woman who said she is seeking support for her child.

"I have no comment," said Rose, contacted at his Cincinnati home on Friday.

Rose was named in the suit by Terryl L. Rubio, 25, which was filed Tuesday in Hamilton County Juvenile Court in Cincinnati on behalf of her 10-month-old daughter.

8th Cagers End Season

Snyder's eighth grade boys' basketball teams concluded their season earlier this week and both finished with winning records.

Curtis Gafford finished the season with a high average of 13.2 for Snyder Black, while Brent Roemisch's 8.8 was tops for the Gold team.

The Black team concluded the season with a 14-1 mark, while the Gold team went 8-6.

8th Gold

Roemisch 8.8, McWilliams 1.9, Durrick 4.9, R. Johnson 4, Hicks 2.3, Nicholson 6.8, Caldwell 4.3, David 5.8, LaPointe 2.7, Gambel 5, Miller 3, Bowcum 1.7. Others-Lopez, Wimmer, Von Roeder, Castillo, Jones, Courtney, Ball, D. Johnson, Foust, Lynch and Fuentes.

Totals for the season 225-125-985. Opponents 589.

Season record: 8-6.

8th Black

Gafford 13.2, Parham 10.7, Kitching 5.8, Parks 4.7, Herrley 4.5 Gee 3.8, Vincent 2.3, Davis 1.7, Peterson .8. Others-Yrungas, Cypert, Lyon, Fowler, Welch.

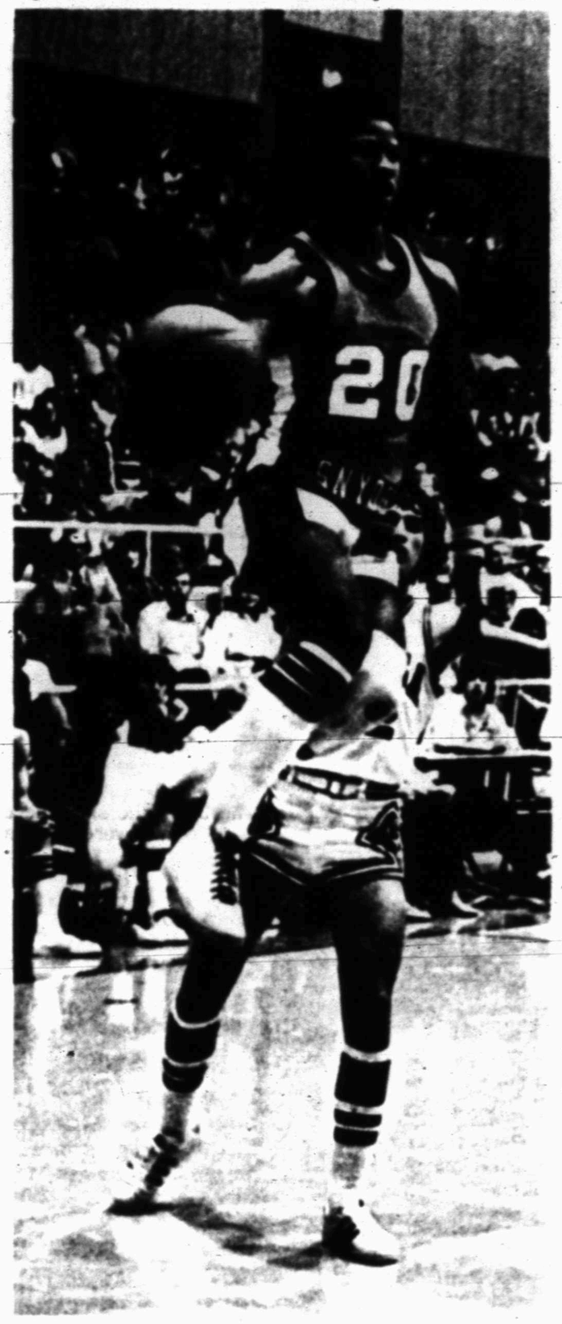
Scoring average 49.5 points. Opponents, 27 points.

Season record: 14-1.

Duster Game Is Postponed

A basketball game between the Western Texas College Dusters and the South Plains College women's team scheduled for Saturday was postponed because of weather conditions.

The game has been rescheduled for Feb. 24 in the WTC gym.



FLYING FAKERY--Snyder's Richard Crayton leaps up apparently headed for a basket, but passes off at the last second to an unseen teammate who scores two points for the Tigers. Crayton accounted for nine assists Friday, and sank two tie-breaking freethrows as Snyder defeated Lamesa High School 51-49 in 3-3A playoff action. (SDN STAFF PHOTO)

Finley Clear To Sell Two Players, Says Kuhn

NEW YORK (AP)-Score one for Charley Finley in his continuing war of words with Commissioner Bowie Kuhn.

Finley received clearance from the commissioner Friday to sell two minor league players to the New York Yankees for half a million bucks - but it wasn't easy.

It took a 2½-hour hearing in Kuhn's offices before the commissioner agreed to allow George Stinbrenner's Yankees to purchase catcher Bruce Robinson and pitcher Greg Cochran from Finley's Oakland A's for $500,000.

It marked the first time Finley has come out on top in one of these hearings. Previously, Kuhn had voided Finley's attempted sales of Joe Rudi and Rollie Fingers to Boston for $2 million and Vida Blue to the Yankees for $1.5 million in 1976 and Blue to Cincinnati for $1.75 million 18 months later. This time, however, Kuhn gave Finley the green light to ring up the Oakland cash register and deposit the Yankee dollars.

Gartland's Work Still On Exhibit

Paintings by Robert Gartland continue as the featured exhibit in the Scurry County Museum at Western Texas College.

Gartland, a native of New York has made his home in the Southwest since 1968 and presently lives in Lawton, Okla.

The Gartland exhibit will remain in the museus through Feb. 25. It will be followed by an exhibit of photographs by Bill Wright of Abilene.

Museum hours are 9-12 and 1-5 Monday through Thursday, 9-12 and 1-4 on Friday and 1-5 on Sunday.

Museum To Honor Its Volunteers

RSVP members who give volunteer hours at the Scurry County Museum will be honored at a coffee Tuesday morning in the Senior Citizens Center from 10-11:30 a.m.

Certificates of appreciation will be presented by Sharon Sutton, museum director.

All RSVP members are invited to the coffee. Men and women 60 or older who are interested in giving volunteer time to community projects are invited to join RSVP and to be guests for the coffee Tuesday.

Two Cases Are Cleared

Two complaints filed earlier this week have been cleared, reported police, and a minor traffic accident was investigated Friday.

Cleared, said officers, was Opal Loveall's criminal mischief report in which she said an apartment she rents was vandalized and that a restitution agreement had been reached.

The other complaint dealt with a report of a stolen gun from the home of J.D. McKinney. Officers said the gun was eventually found in the house and that no other investigation is being conducted in the case.

The minor traffic accident was reported at 10:15 a.m. Friday in the 1800 30th St. and involved a 1978 Chevrolet driven by Helen Bowen of Hermleigh and a flat bed trailer driven by Woody Gene Negley of Crane. Only minor damages were reported.

THE SNYDER DAILY NEWS

SECTION B, SUN., FEB. 18, 1979

Meynig, Lamb Wed

Marriage vows were exchanged between Suzan Rae Meynig of Colorado City and Michael Don Lamb of Westbrook on Jan. 20 at 7 p.m. in the First Baptist Church, Colorado City. Rev. Bob Manning officiated.

The bride's parents are Mr. and Mrs. Dale Meynig, 1130 E. 17th, Colorado City. parents of the groom are Mr. and Mrs. Donald Lamb of Onalaska, Texas.

The double ring vows were said before an altar decorated with two candelabra covered with greenery, located at the bottom of the stairs, white gladioli and burgundy carnations adorned the altar.

The bride was given in marriage by her father as she wore a floor length white velvet dress with straps trimmed in white ostrich feathers. Matching floor length, hooded cape of white velvet lined with white satin, trimmed in white ostrich feathers completed her attire. The dress was designed and made by the bride's mother. Her bouquet was cascading cara mia roses, baby's breath and greenery.

The bride's sister, Mrs. Cary Coffee of Snyder, served as matron of honor. She wore a floor length dress of burgundy disco satin trimmed in white lace with a wide flounce at the hemline. She carried a white fur muff.

Bridesmaids, Doris Hines and Vicki Lamb, the groom's sister, wore identical gowns fashioned like the matron of honor's.

The bride presented her mother with a rose and a kiss as she approached the altar. She presented the mother of the groom with the same as the couple left the altar following the vows. The couple lit the memory candle at the conclusion of their vows.

The bride's mother wore a floor length dress of rose quiana knit and the groom's mother wore a floor length dress of navy quiana knit. Both wore corsages of burgundy carnations.

The bride, in keeping with tradition, carried an old handkerchief belonging to a great grandmother, Mrs. Vida Russell. She carried a new, white Bible, a gift from the groom's mother. She borrowed and wore a 60 year old necklace from Mrs. Jewel Wimberly. Her garter was blue. She carried pennies minted in the years of the couple's births in her shoes.

Ringbearers were Calyn Coffee, the bride's nephew, Chad and Cody Casey, the groom's nephews. They were attired in blue velvet tuxedos with burgundy carnations boutonnieres.

Candelighters, Jeff and Greg Skelton, the groom's nephews, wore blue tuxedos.

The groom was dressed in a white tuxedo, white shirt with ruffles edged in burgundy, and a burgundy cara mia rose boutonniere.

Best man was Rodney Moore. Groomsmen were Roger Crawford and Cary Coffee. All wore black tuxedos. Ushers were Larry Casey and Lanny Skelton, both brothers-in-law of the groom.

A reception followed the ceremony in the fellowship hall of the church. The three tiered cake was decorated with burgundy roses and topped with two cupids kissing under an archway. Pineapple punch and German chocolate cake and coffee were served at the groom's table.

The houseparty included Mrs. Jim Anderson and Mrs. Kenneth Lain, Doris Hines and Vicki Lamb.

Following a wedding trip to Midland and San Angelo, the couple will reside at Westbrook where the bridegroom is employed with Riley Drilling Co. and the bride is employed with Montgomery Wards. For the trip, the bride chose a light green blouson dress with a cara mia rose corsage from her bouquet.

The groom graduated from Westbrook High School in 1974 and the bride graduated from Colorado City High School in 1978.

Out of town guests registered from Snyder, Garden City, Midland, Onalaska and Dallas.

The rehearsal dinner was hosted by the groom's parents Jan. 19 in the C. C. Thompson room of Citizens National Bank Bldg.

FISH COOKERY NEEDS 'TLC'

"Tender Loving Care" is a "must" in cooking fish--whether today's home chefs follow an old English proverb on the subject or create their own techniques.

Some seafood epicureans agree with the old English proverb that "fish must swim thrice"--in water, in a sauce, and then in wine in the stomach, while others say only delicate seasonings are necessary to enhance seafood's natural flavor, a treat in itself.

However, cooking seafood lightly and serving it at once are the real secrets because seafood has little connective tissue and requires only minutes for its protein to coagulate.

To cook fish, apply full heat for only a few minutes until the outside is cooked--to seal moisture and flavor inside.

Then lower the temperature to a moderate heat and complete cooking for only a few minutes more.

Test fish for doneness slightly before the prescribed cooking time is up--to prevent it from drying out. Use a fork to test it.

When the fish flakes easily at the thickest part and the flesh is white, stop the cooking process.

These cooking steps help maintain the delicate flavor and flakey texture of seafood, and they keep the natural juiciness from cooking out.

Fish does not require the slow cooking that meat does--even at every low temperatures, because fish muscle fibers are short and they soften quickly when heat is applied.

When buying fresh water fish, such as catfish, consider making steaks instead of preparing the entire body. This will insure not burning the tail.

AARP To Meet Monday

American Association of Retired Persons (AARP) will meet Monday, Feb. 19 at 2 p.m. in the Senior Citizens' conference room with Mary Faver, president, presiding.

Donna Gray from the Snyder Book Store will bring the program.

All members are asked to be present and guests are welcome.

Turmeric can be used in yeast breads and coffee cakes to give them a lovely golden color. But use the spice cautiously because just a dash or two goes a long way.

ENGAGEMENT ANNOUNCED-Mr. and Mrs. C.J. Jinkins Jr., 2907 W. 23rd St., announce the engagement and forthcoming marriage of their daughter, Cathy Cheryl, to Jim D. Waltz, son of Carolyn Waltz, 3209 Ave. A, and Lyle Waltz of Selma, Ala. The wedding is set for April 7 at Colonial Hill Baptist Church. (Photo By Christi Jinkins)

Eighth Grade Parents Set Meeting

A meeting of eighth grade parents will be held at 7:30 p.m. Feb. 22, in the community room of Snyder Savings and Loan.

All parents interested in planning the end of school party for this class is urged to attend.

The Academie Francaise was founded in Paris in 1653.

Opening lead: ♥4

By Oswald Jacoby and Alan Sontag

South played his ace of hearts on East's king and studied the hand carefully. There were all sorts of finesse possibilities and he would have to lose all he took in order to fall short of his four-spade contract. South, a natural pessimist, asked himself what would happen if all finesses were wrong and finally came up with a line of play that required no finesses at all.

At trick two, he led back his jack of hearts.

West won and led a diamond, but South just hopped up with dummy's ace. Then he led a third heart from dummy. East discarded and South ruffed.

Next came a club to dummy's ace and the ruff of another heart to set up dummy's fifth heart as a winner.

Now South cashed his ace of trumps and led a third club. If West ruffed high, South would discard the queen of diamonds from dummy so West just chucked a diamond.

South ruffed and led dummy's last heart in order to discard his last diamond. He still lost two trump tricks and the heart lost earlier, but he had avoided any diamond losers.

Ask the Experts

Your left-hand opponent has opened one diamond. After a spade overcall by your partner, you find yourself on lead against a four-heart contract.

A Colorado reader asks which spade you lead from queen-8-4.

The standard lead is the four.

MR. AND MRS. SANDY LAND
(Photo By Sharon Puschmann)

Couple Weds In Home

Catherine Joan Domen became the bride of Sandy Wayne Land in a 3 p.m. Jan. 26 ceremony in the home of the groom's sister, Mrs. Patricia Shands, 2106 40th St. Father Thomas Jordan of Our Lady of Guadalupe Church, officiated the double ring ceremony.

The couple's parents are Mr. and Mrs. Frank Domen of Sharon, Ont., Canada and Mrs. Juanita Land of 304 23rd St. and the late Stanford Land.

A friend of the bride, Orville Anderle, presented the bride in marriage. She was attired in a long, full length polyester dress of colors of blue and brown lace with a ruffle cape. She carried a bouquet of blue carnations with white baby's breath.

Matron of honor, Mrs. Patricia Shands, wore a full length royal blue chiffon dress and carried a nosegay matching the bride's bouquet.

Rocky Land of Levelland served his brother as best man.

A reception was held following the ceremony. The wedding cake, three tiered and featuring a flowing fountain in the center, was served by Marion Hendry and Sharon Mallory.

The bride wore a beige pantsuit on the couple's wedding trip to Ruidoso, N.M.

The couple will be at 2206 29th St. The bridegroom is employed with Equipment Renewal here.

The bride is a graduate of Huron Heights High School, Ontario, Canada, and received her nursing degree from Niagara College, Canada. The groom is a Snyder High School graduate.

Out of town guests were from Midland, Odessa, Hobbs and Levelland.

Miss Velez Presents Program

Evelyn Boone hosted the Altrurian Club at the Martha Ann Woman's Club recently. Attending were 12 members and two guests, Mrs. Marcene Holt of Arlington and Miss Cindy McCormick, American sister of Patricia Velez.

Miss Velez presented the program using slides and soft music of her native country, Ecuador.

Mrs. C. C. Miller conducted the business meeting. The club will make a donation to the Mesquite District Scholarship fund for a needy student.

The next meeting is scheduled for Feb. 28 with Mrs. T. W. Pollard as hostess.

EAKINGS PORTRAIT

NEW YORK (AP)-The painting "Archbishop William Henry Elder" by American artist Thomas Eakins was recently acquired by the Cincinnati Art Museum from the Coe Kerr Gallery here, Kerr Gallery here.

Warren Adelson, director of Coe Kerr, said the 1903 portrait "is indeed one of Eakins' masterpieces and a painting which the artist himself termed 'one of my best.'"

KING AND QUEEN-On Valentine's Day, Stanley Camp and Mary Ryan were crowned king and queen of Snyder Oaks Care Center by Clara Haskins, right, activities director. They were selected by votes cast by residents. They were presented gifts of candy and flowers. (SDN Staff Photo)

Nuptial Vows Exchanged

Eva Geanene Martin and Jerry Bloyce Dever were united in marriage Jan. 5 at 7 p.m. in the 37th Street Church of Christ Gary Lowe, Bible Chair Director at WTC, officiated the double ring ceremony.

Parents of the couple are Mr. and Mrs. Irvin E. Martin, 2603 35th St., and Mr. and Mrs. E. H. Dever Jr., 3734 Avondale.

The bride's father presented his daughter in marriage.

Maid of honor was Cindy Lales of College Station. She was attired in a floor length apricot satin dress topped with a floral cape. She carried one long stemmed apricot rose. Bridesmaid Lois Gordon of Dickson, Tenn., was dressed like the maid of honor.

Henry Dever served his brother as best man. Chuck Stephens of Abilene was groomsman. Gerald Borolin, brother-in-law of the groom and Daniel Sharp of San Angelo were ushers.

Singers Arlie and Barbara Eicke, Ronnie and Jana Mayfield, Jeanne McCornick, Cindy McCormick, Marca Parham, Stephen Ham and Robert Huddleston presented wedding selections.

A reception was held in the bride's parents home following the ceremony. The three tiered white wedding cake decorated with apricot roses was served by sisters of the bride, Roseanne Graham and Kay Allen.

Melinda Masters registered guests.

The bride chose for her going away attire a winter ensemble including a brown velvet jacket and skirt, an off white blouse and suede boots.

MR. AND MRS. JERRY BLOYCE DEVER

The couple will live in San Angelo where the bridegroom is attending Angelo State University as a psychology major. The bride is a graduate of Lubbock Christian High School and attended Western Texas College. the groom is a Snyder High graduate and attended WTC.

Consumer Food News

COLLEGE STATION--Best food buys at Texas grocery markets this week include potatoes, poultry items, canned fruits and vegetables and items "on special." Also, pork values appear in some markets, reports Gwendolyne Clyatt, a consumer marketing information specialist.

Mrs. Clyatt is with the Texas Agricultural Extension Service, The Texas A&M University System.

This week's price-quality trends are the following:

FRESH VEGETABLES--Potatoes are an "A-1" bargain with excellent quality and big supplies--from the largest crop in U.S. history. Their prices are lower than last year's.

Dry onions have "feature" prices in some markets although overall prices are up.

Green peppers and cucumbers from Mexico have excellent quality and low prices.

Cabbage and carrots are economical choices in spite of a price increase.

Good-quality broccoli has moderate prices. Lettuce prices are high, and prices on rutabagas are up since many were frozen in storage.

FRESH FRUITS--Look for values on apples, pears, bananas, avocadoes and pineapple. Grapefruit reflects adequate supply levels, but oranges and tangerines are limited. Freezing weather conditions have sent many oranges to the juice plants.

POULTRY--Some whole fryers have lower prices and eggs are an economical protein choice. Look for scattered features on chicken hens and turkey parts.

DAIRY--Features are milk, yogurt, margarine and several cheeses.

PORK--For shoppers with freezers, good values appear on family packs of ribs and loin halves of pork loin. Boston butts and liver may have feature prices.

BEEF--Specials appear on chuck roasts and steaks, ground beef, rib steaks and liver.

COMMUNITY CALENDAR

MONDAY

AARP; Senior Citizen's conference room; Donna Gray from Snyder Book Store, program; 2 p.m.

Hope For Tomorrow Weight control Class; Western Texas College Ac. Science Bldg. C, room 103, 6 p.m. New Members enroll 5:30 p.m.

SUNDAY

Duplicate Bridge Club; Country Club; 1:30 p.m.

Scurry County Museum; WTC campus; 1-6 p.m.

Choose Ground Beef Say Nutrition Experts

COLLEGE STATION--Consider use when choosing ground beef, Frances Reasonover recommends. Miss Reasonover, a foods and nutrition specialist, is with the Texas Agricultural Extension Service, The Texas A&M University System.

Ground beef is marketed at three different levels of lean, she explains.

Ground beef with not less than 70 percent lean, which constitutes the regular grind, is a favorite for beef burgers, sloppy Joes, chili and spaghetti.

Ground beef with not less than 75 percent lean is selected for meat loaf, meat balls tamale pie, noodle and rice casseroles.

Lean ground beef with not less than 80 percent lean is excellent for low-calorie diets, beef patties and combination dishes.

Waist watchers will want to choose the leaner ground beef in order to lower the dietary fat in meals, the specialist suggests.

Team ice cream with sherbet for desserts for calorie watchers. One good combination is vanilla ice cream with lemon sherbet; another, chocolate ice cream with orange sherbet. Make the scoops small!

Mrs. Cheatham spent Sunday in the home of her daughter and son-in-law, Mr. and Mrs. Howard Harrington and family. They were celebrating Mrs. Cheatham's birthday.

Residents express their sympathy to Clayburn Waters in the recent loss of his sister at Moran, Texas.

Mrs. O. D. McGlaun and Joy McGlaun visited Mrs. Minnie Whatley Wednesday.

Ethel Patterson visited her mother, Vardie Highstower, Thursday afternoon.

Mr. and Mrs. John Eaker and Polly Autry visited residents in the home this week.

Rev. Vernon Parnell presented the Sunday church services to a large crowd of residents. He is pastor of Morningside Baptist Church.

Airy Fabrics In For Spring

Soft, airy and sophisticated is the word for spring fabrics. Sheer, airy see-throughs give the body an ethereal look.

Lightness plus texture is an important trend as in lacy weave open work knits, loops and nubby knits, soufflelike effects.

Shimmering shiners give a new gentle luster, see it in pearlized iridescent looks, the soft gleam of silk, a silvery design on a sheer matter ground.

The texture play is the most important fabric game. Pattern is layered on pattern in soft colors for a new dimensional look. Jacquards and dobbies in florals and geometrics, pique terry, slubby linen are the new texture components.

Prints combine with textures or add a soft polish of their own. Multi-patterns, spaced Victorian looks, Provence florals, foulard prints, small menswear patterns and loads of stripings in soft new colors are all part of the game.

The color story's been cleaned-up, freshened-up for spring. There are four chapters the naturals, the sophisticated pales, the spicy tones and the sizzlers.

Soft and sweet are the palest peach, cool blue and lavender.

Spicy cinnamon, nutmeg, toast prelude the high adventure of black and white, fireworks red, violet, sunburst yellow, peppermint, fuchsia and turquoise.

Warming To Spring

By Judy Love

Weekends are meant for lots of fresh air, walking, relaxing and fun.

This sprihg straight-legged pants are fashion's new look for fun and topping them off will be lots of pretty sweaters. If you're a smart needleworker, boot toppers add a warm, welcome new look. So, if you're heading outdoors, you'll want to look as great on the weekend as you do during the week.

Pick up a pair of Bernat-Aero straight knitting needles (No. 5) and one Bernat-Aero circular knitting needle (No. 7) and get busy on this colorful striped pullover. Or, use any size needle that will give you the correct stitch gauge.

The lightweight yarns work best for this style. Try Bernat Danish Bulky's little sister, Danish Petite. It's available in primary colors — deep blue is perfect with jeans. Alternate with stripes of yellow and red for brightness or to match up with your favorite cords.

If the sweater is too much to tackle this weekend; work the boot toppers. You need two balls of yarns, 1¾ ounces each, for the main color and one ball each for colors A and B. You can use the same needles: one pair each of Bernat-Aero straight knitting needles, Nos. 5 and 7, or any size needle that will give the proper stitch gauge.

For instructions on this dynamite duo, send 50 cents to Stitchin' Time, Box 503, Radio City Station, New York, N.Y. 10019. Ask for booklet S519 and make sure you've included your name, address and zip code.

KNIT KNACKS

Dear Judy Love: I have worn my favorite sweater so many times that the elbows are now wearing out. Is there anything I can do to save the sweater? — J.K., Omaha, NE.

Dear J.K.: How about making a sleeveless sweater? All you have to do is take out the sleeves and stitch around the armholes to keep them from stretching. Then use matching or contrasting yarn to crochet a row or two around the opening. No need to discard a favorite! Best, Judy Love.

NEWSPAPER ENTERPRISE ASSN

SPARK your spring weekend with a bright pullover and matching boot toppers.

Popular shawl collars are flattering to persons with broad shoulders and full bustlines, says Becky Culp, clothing specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

4-H Winners Share Recipes

"Scurry County 4-Hers have worked very hard trying to make recipes in their Food Projects that would tickle your taste buds, says Blanche Chisum, county extension agent (HE). The recipes that went to District 2 Food Show competition are really the best "ticklers" anyone could make, she added.

The 4-Hers enjoy foods meetings because they learn correct nutrition, unusual dishes, food safety, food storage and many more techniques to help make a healthy body and happy home.

In order to belong to 4-H the youth in Scurry County must be between the ages of 9 to 19 years. The many opportunities of which youth are involved includes four main food fields which are Food Science, Food Preservation, Food Safety and Food Preparation.

The Scurry County 4-Hers share their recipes.

SAUSAGE BALLS
Mary Garza,
608 34th Street
Sr. Division

1 lb. sausage, uncooked (hot or medium)
1 lb. Longhorn Cheese
2 ½ to 3 cups of Biscuit Mix

Have sausage at room temperature. Mix cheese, sausage and two cups of biscuit mix. Add more biscuit mix as needed to form medium sized moist balls. Bake at 350 degrees for 15 to 20 minutes. These can also be made up and frozen uncooked. After freezing bake in oven for about 20-25 minutes at 350. Delicious hot or cold.

STUFFED PORK CHOPS
Connie Essery,
Route 3, Box 257,
Sr. Division

6 pork chops (1 to 1½" thick are best)
½ cup uncooked rice
1 small onion chopped
1 small green pepper chopped
1 can cream of mushroom soup
1 can cream of celery soup
1 cup water
salt and pepper to taste

Lightly fry pork chops in skillet until brown. Combine remaining ingredients and cook in skillet for 15 minutes. Lay prepared pork chops on top of rice mixture or slice chop on the side toward bone and stuff rice mixture in between meat layers. Cover meat and rice mixture, then bake in over at 350 for 1½ hours, until tender.

RUBY SLIPPER
Teresa Sauceda,
413 31st Street
Jr. Division

1 box 2 layer yellow cake mix
1 cup sour cream
¼ cup water
2 eggs
1 small box Strawberry Gelatin
Powdered sugar

Combine cake mix, sour cream, water, and eggs in a large bowl and blend at medium speed with electric mixer until well blended. Pour 1-3 of mixture into prepared bundt pans and sprinkle in ½ gelatin. Alternate remaining mixture with gelatin until all of mixture has been used. Bake in 250 oven for 40 to 45 minutes. Cool for 5 or 10 minutes. Remove from pan and sprinkle with sugar.

CHEESE BALLS
Martha Beavers,
2607 36th Street
Sr. Division

3 ounce package of cream cheese
8 ounce package Cheddar cheese
Garlic salt, Worchestshire sauce, iodized salt to taste
1-3 cup bacon bits, parsley, or pecans or peanuts

1. Beat cream cheese with a little mayonnaise until smooth and fluffy.
2. Shred Cheddar cheese and beat into above mixture. Season with garlic salt, Worchestshire sauce, and iodized salt. Knead well. Form into big marble-sized balls.
3. Roll Balls in bacon bits, parsley, or pecans or peanuts
4. Arrange in a round pattern on doilies.
5. Serve with small crackers.

MACARONI SALAD
Carmen Rios
411 31st Street
Jr. Division

1 package of macaroni
1 tablespoon sweet relish
½ chopped red pepper
1 cup of mayonnaise
½ tablespoon vinegar

Boil the macaroni until soft, drain. Add chopped peppers and relish, then the mayonnaise. Add vinegar. If too hot, let chill. Makes 6 to 8 servings

SEVEN UP SALAD
Mavis Browning
3011 Avenue Y
Sr. Division

1 package lemon jello
1 package orange jello
2 cups hot water to dissolve jello
2 cups cold 7-Up
3 or 4 bananas, diced or sliced.
1 large can chunk pineapple, drained
2 cups minature marshmallows

After jello sets, add topping of:

1 egg
½ cup sugar
3 tablespoons flour
1 cup pineapple juice

Cook over low heat until thick, let cool, then add package of dry whipped topping mix to mixture and spread over jello.

FRUIT SALAD
Rosemary Rios
Route 2, Box 295

2 cans fruit cocktail
1 cup marshmallows
1 cup coconut
1 cup pecans
1½ cups whipped cream

Combine all ingredients in a large bowl. Mix lightly. Put in serving bowl and chill until ready to serve.

Fashion And Beauty Tips

Shorten an old tweed hacking jacket to the hip-bone for the new short jacket look. But try it on beforehand to make sure the proportions are right.

Rainwear should be big and lightweight enough to go over as many layers as you want — with a belt to finish off the look.

Learn to love drinking water if you're dieting. Have an 8-ounce glass before your meal. It's calorie-free and will cut your appetite.

A bright, sexily bared shoe will really make people notice your feet, ankles and long lovely legs.

FUNNY BUSINESS By Roger Bollen

PRISCILLA'S POP

CAST AND CREW—The cast and crew of the Hermleigh one-act play, "Mooncalf Mugford," from left, include (seated) Kelly Robbins and Curtis W. Tate, (standing) Michael Castillo, John Williamson, Ann Fletcher, Anthony Tate, Julie Roemisch, Jackie Williamson and Mrs. Phyllis Smith, director.

Hermleigh Highlights...

Play Cast Completed

By CURTIS W. TATE

HERMLEIGH - Casting has been completed for "Mooncalf Mugford," the Hermleigh High School entry in UIL One Act Play competition.

Cast members include Curtis W. Tate, a senior; Jackie Williamson, a freshman; Julie Roemisch, a junior; Kelly Robbins, a sophomore; and Michael Castillo, a sophomore.

Members of the stage crew that will be responsible for lighting, sound effects, and set design are Anthony Tate, a freshman; John Williamson, a junior; and Ann Fletcher, a freshman.

The play will be entered in zone competition with plays from Roby, Hobbs and McCaulley at Sweetwater High School on March 27. Two winners will advance to district competition in Snyder on March 29.

The play will be presented to the public before the zone contest, according to Phyllis Smith, the director of the play, but no date has been set.

Smith indicated that "Mooncalf Mugford" is a serious drama unlike anything the school has produced in the past. She also stated that exposure to this type of dramatic production will be a valuable learning experience for the students.

The school has done well in previous competition, winning in their zone in 1976. The Hermleigh entry last year won in district competition and qualified for the area contest.

Cotton Acreage May Increase

WASHINGTON (AP) - Led by an expected increase in the United States, world cotton plantings could increase 2.8 percent from last year, according to the Agriculture Department.

Last month a survey indicated that U.S. producers are planning to boost their 1979 cotton acreage by 6 percent from last year.

Spotlight On Schools...

Groups Enhance Skills At Central Elementary

Editor's Note: This is another article in a series prepared by the Scurry County Teachers Association.

Children in grades four, five and six at Central Elementary have been grouped recently within each grade for learning communicative arts skills. These groups were scheduled after numerous meetings with reading consultants and as a result of the school's five-year priorities plan, according to Charles Anderson, principal.

Dr. Virginia Sowell, reading consultant from Texas Tech University, and Barbara DaBoll, Snyder Schools Reading Specialist, have worked with teachers and administrators on this program. Teachers have also spent many hours of extra time gathering materials to supplement the basic programs in order to meet the needs of the children.

Materials being used along with the basic textbooks are the SRA Reading Laboratory, Economy Reading, and Reader's Digest. Teachers work with children in ability grouping, and they concentrate on the skills each child needs the most. Every child is placed into a program where he can show progress with minimal frustration.

Anderson states that parents and others interested in Central Elementary are invited to visit at any time. He notes that teachers have had excellent participation in parent conferences this year.

The Task Force for Gifted and Talented Education devoted most of its January meeting to looking over instruments selected for the screening and identification of gifted and talented students. This Screening - Identification Model, which stresses the use of the regular classroom teacher as the primary identifier of these children, should be finalized at the February meeting, according to Grace LeMonds, coordinator of the program.

Seventy-one students at North Elementary School received perfect attendance certificates from Jim Irwin, principal, for the first quarter this year. Now that the weather promises a possible few sunny days, children at North are looking forward to playing on new playground equipment currently being installed.

Members of the Snyder Schools News Team who are working on the current Spotlight on Schools articles are the following: Anniece Baker, Sue Eiring, Betty Courtney, Jo Nell Smylie, Jeanne Liner, Debbie Black, Dianne Morton, Jerry Worsham, Carole Haynes, Billie Hartsfield, Verona Gilstrap, and Roger McCulley. Members of the Public Relations Committee working on this project are Stanley Cozart, Margie McNair and Marge Mathis, chairman.

Blames Weak CIA

ATLANTA (AP)-John Connally says the United States was caught off guard by the Iranian revolution because of a weakening of the CIA's international spy network.

A candidate for the Republican presidential nomination, Connally told reporters Wednesday the United States "should have been aware" of the impending revolution as early as 18 months ago.

The revolution came as a surprise to the administration, Connally said, "Because, once again, we have destroyed the counter-intelligence capabilities of the CIA, and this is one of the prices we pay for foolhardy treatment of our intelligence capabilities throughout the world."

Trygve Lie, 49, of Norway became secretary-general of the United Nations in 1946.

Genius Einstein Was A Failure In High School

EDITOR'S NOTE—Seven years after Albert Einstein dropped out of school he was at work on his theories of relativity. Little more than a decade after a teacher told him he would never amount to anything, he startled the world. Here, on the centennial of his birth, is a reflection on the man, the irony in his life, and his extraordinary vision.

By JOHN BARBOUR
AP Newsfeatures Writer

He looked at his teachers resentfully as sergeants and lieutenants. True, he was brilliant. But he could not bend to the discipline of the lecture room and leaned on a close friend for class notes.

Years later he compared himself with that dutiful friend.

"He was the irreproachable student. I myself disorderly and a dreamer. He on good terms with the teachers and understanding everything. I a pariah, discontented and little loved. Then the end of our studies — I was suddenly abandoned by everyone, standing at a loss on the threshold of life."

It hardly sounds like the man who would open the eyes of the world to a new notion of space and time, to the idea that energy and mass cannot be created or destroyed, but only transmuted from one form or another. Nor does it sound like the man whose thoughts would reach deep into the subatomic world and the universe at the same time.

This is the 100th anniversary of Albert Einstein's birth. More than 50 celebrations are planned from Ulm, Germany, his birthplace and were he was once excoriated, to India, from New York to Switzerland. He died at 76 and was cremated.

Einstein resented authority. He preached beyond the conclusions of others to the experimental work that led to those conclusions. Then he leaped far ahead to new theory. His genius may have been as simple as rejecting past prejudice. Or it may have been as complicated as seeing beyond common reality to abstractions hardly anyone else could see.

Einstein's school record reflected his attitude toward the pedants who did the teaching. One teacher told the 15-year-old Einstein, "Your very presence spoils the respect of the class for me." He preserved that respect by dropping out.

He applied without a high school diploma to the Federal Institute of Technology in Zurich, Switzerland, and failed the entrance examination. But he acknowledged there was a price to be paid for pursuing his curiosity in physics and mathematics, and enrolled in a high school to catch up. At length he graduated from high school and the Federal Institute.

After a few odd jobs, he became an examiner of applications in the Swiss patent office in Bern. It was not exactly what he wanted, but it provided him with a lot of free time to examine his ideas about wave theories, light and the relationship of energy to mass.

He would later remember the patent office as "that secular cloister where I hatched my most beautiful ideas."

Those beautiful ideas did not find instant acceptance when published in 1905. As late as 1916, he wrote a colleague:

"Although for the moment the theory has many opponents the following fact consoles me: the general thinking capacity of its supporters entirely eclipses that of its opponents."

Church Scene Of Shooting

LUFKIN (AP)—A man gunned down his estranged wife in front of a church Wednesday night as the horrified congregation stood by, said police who wounded the woman's husband.

Police said Robert Spears, 51, of nearby Huntington went to a Church of Christ armed with a .38 caliber pistol and confronted his 46-year-old estranged wife, Barbara, in the church driveway shortly after services ended. The woman's daughter called police.

Patrolman Doug McClary ordered Spears to drop his gun and then shot Spears twice when Spears began firing at his wife. Mrs. Spears, struck at least three times, was dead on arrival at a Lufkin hospital. Spears, wounded twice by McClary, was hospitalized in stable condition, officers said.
