Air Force To Shoot For Moon In August

MILWAUKEE (AP)—Lt. Gen. S. E. Anderson, director of Air Research and Development Command, said today that the Air Force will "shoot for the moon" in August.

Anderson said in an interview that the Air Force would fire three "lunar probes" this year. The others are scheduled for September and October, he added.

He declined to disclose the size or weight of the payload the Air Force hopes to deliver. It will not be instrumented and will be intended simply to crash on the moon, he said, giving "some indication" of its arrival.

Three stage rockets whose main power plants at takeoff will be modified Thor missiles will propel the projectiles over a 278,000 mile course to the moon in two and one-half days, Gen. Anderson said.

The vehicles will be modifications of military missiles, he added.

The Thor is a 1,500 mile range weapon. At least 13 have been test fired and of these at least five have been successful.

Gen. Anderson said that even if the rockets miss the moon, they will become "real interesting scientific satellites" because their eliptical orbits will carry them far out into space and possibly around the moon and earth in a sort of figure-eight.

Anderson said the first attempt to fire an Atlas over its full designed range of 6,000 miles also would be made in August. "We have fired the last" of the overweight, heavily instrumented a series intended for engine tests of the Atlas, he said.

An Atlas missile, or a Thor with appropriate later stages, would be capable of hoisting in to orbit a 3,000-pound artificial satellie like the Soviet Sputnik III, Anderson said.

Given sufficient funds, the United States could be second to nobody in space, he declared, adding. "We are doing about 40 per cent of what we think we should be doing."

Anderson was in Milwaukee to confer with technicians at the AC spark plug division of General Motors where the gyroscopic guidance system for the military version of the Thor is built.

Insurgents In Algeria Defy Gen. De Gaulle

By GEORGE MCARTHUR

PARIS (AP) — French insurgents in Algeria threatened a break with Premier de Gaulle today as he strove to untangle France from a snarl of domestic and foreign problems.

A communique from the All-Algeria Public Safety Committee opposed his plan for local elections in Algeria within a month and demanded a housecleaning of political parties in France.

The communique was met with official silence here, but it was unofficially reported to have stirred up a deep suspicion that the Algerian right-wingers want nothing less than one-party rule in France.

The committee was formed after the May 13 revolt in Algiers.

The committee still pledged its support to De Gaulle personally, but that was about the only concession.

De Gaulle was reported earlier to favor cutting the French Parliament in two—with a weakened National Assembly for continental France alone and a more powerful Senate for all of the French union.

De Gaulle won the power last week to draft a virtually new constitution for France and submit it directly to the voters. He is known to favor making the Senate the strong body and limiting the Assembly's power—the opposite of the present French system.

He discussed his views on constitutional reform with a delegation of the French Catholic Union of Christians today. He assured them he wanted workers to have a larger voice in the legislative system, Secretary General George Levard reported.

As De Gaulle talked with workers' representatives, his government announced that wholesale prices continued the inflationary rise which is one of his main problems, with food prices rising 8.8 per cent in May.

Economic affairs were the topic of one Cabinet meeting which De Gaulle called.

Paris buzzed with rumors that a meeting of De Gaulle, President Eisenhower and British Prime Minister Macmillan was in the offing, but diplomats generally discounted them. The rumors were touched off when U.S. Ambassador Amory Houghton called on De Gaulle prior to leaving for the United States, where Eisenhower is conferring with Macmillan.

De Gaulle's proconsul for Algeria, Gen. Raoul Salan, claimed a bright spot in the North African troubles. He said in an interview that about 18,000 rebels have defected to the French since the nationalist rebellion for independence began in Algeria 43 months ago.

French authorities said 591 rebels were killed last week and 123 were captured. For three days last week, De Gaulle toured Algeria calling for reconciliation of the rebels and the French.

TRAGEDY ON MADISON AVENUE—Irving Wolman, 70, cries as he stands by the blanket-covered body of his wife, Bessie, on New York's Madison Avenue. Mrs. Wolman, 68, was walking with her husband when an auto plunged out of control and hurled her against a pile of lumber at a construction site. (AP Wirephoto)

Inspection Posts In China Seen As Test Ban Request

WASHINGTON (AP) — Secretary of State Dulles said today the United States probably would want international inspection posts within Communist China as well as elsewhere to police any agreement to ban nuclear weapons tests.

U.S. scientific experts have advised him that an adequate system to supervise test suspension would have to cover such areas as Communist China, Australia and the Sahara desert, Dulles told a news conference.

The meeting with newsmen came within an hour of the release of a letter from President Eisenhower to Soviet Premier Nikita S. Khrushchev proposing that technical talks on how to police a test ban begin July 1 in Geneva.

Scientists from the United States, the Soviet Union and four other nations would take part in the talks under arrangements apparently nearing final agreement.

The other four would be Britain and France on the Western side and Czechoslovakia and Poland on the Soviet side.

Dulles said he had conferred with the experts who would represent this country at Geneva, all top-flight physicists, and told them their job was completely technical and not in any way political. The experts are Dr. Ernest O. Lawrence of the University of California; Dr. James Brown Fisk of Bell Telephone Laboratories and Dr. Robert F. Bacher of California Institute of Techhnology.

Dulles also told his news conference:

1. The United States will deal with anybody—including Communist East Germany—to obtain freedom for Americans who have been in a sense kidnaped. This was his answer when he was asked whether he would negotiate with the Red government in East Germany over the crew and passengers of a U. S. helicopter which strayed into Red territory. Dulles said no recognition of the East German regime would be implied.

2. Khrushchev apparently has asked the United States to grant Russia long-term credits so Russia can more successfully wage economic warfare against the United States. This was the essence of Dulles' comment on a letter from Khrushchev last week suggesting that the U. S. government finance expanded sales to Russia.

3. The United States has irrefutable evidence that the United Arab Republic has been inciting rebellion against the government of Lebanon, and increasing evidence that the U. A. R. has actually supplied arms to antigovernment elements in Lebanon.

4. The United States and Britain agree that they need to start new enterprises to promote the economic health, financial well being and international trade of the free world. Dulles spoke of the possibility of expanding the resources and duties of the World Bank and the International Monetary Fund, and possibly other steps such as setting up a supplementary lending institution to assist soft currency countries.

Grand Jury Returns 10 Indictments

The Scurry County grand jury for the June-July term completed its first session yesterday afternoon and reported 10 bills of indictment against five men.

Four of those indicted are in custody, the other out on bond.

Two men were no-billed by the grand jury, according to Wayland Holt, district attorney. They were V. L. Lewis and J. H. Trammel both of whom had been charged with swindle by worthless check.

Willie Ray Calvert, the one man out on bond, had three of the indictments, one for making and passing a forged instrument, one for passing a forged instrument, and one for theft. Bond was set by District Judge Sterling Williams at $750 in each case.

Freddy Owen McKinley, who is in jail here, also had three indictments, the same as those against Calvert. His bond was also set at $750 in each case.

Earnest James was indicted for robbery by assault, and his bond was set at $1,000. He is in jail here.

Clarence C. Price, Jr., also in jail here, was indicted for assualt with intent to rape and for burglary in connection with the breakin of a west Snyder residence and attack against a housewife several weeks ago. His bond was set at $1,500 in the assault case and $1,000 in the burglary case.

D. W. Black was indicted for making and passing a forged instrument, with bond set at $1,000. He is in jail in Midland on a similar charge.

Finds New Trouble

WASHINGTON (AP)—A 14-year-old boy got into new trouble on his way to see a Juvenile Court officer about some of his past actions. Police said he admitted stealing a car to get to the appointment.

Macmillan Calls For Gradual Discarding Of Big Weapons

BALTIMORE (AP) — British Prime Minister Harold Macmillan called today for a start toward building world peace through a "little by little" approach to discarding all big weapons—atomic and others.

Macmillan's speech was delivered at commencement exercises at Johns Hopkins University, where President Eisenhower was to introduce him as "a great free world leader." Both were given honorary degrees by the school.

Macmillan said the Western world alliance has served its purpose well and must be continued as a shield against Communist aggression.

"But I am not without hope," he said, "that we may succeed little by little, if not all at once, in making some progress toward the relaxation of tensions in the world."

Macmillan said it would be foolish to expect any summit meeting to bridge the gap between East and West.

He added, however, that "if conditions are favorable and if the will is there they might make, first, a little progress here, and then a little there and so bring us out of a condition of stalemate into one of negotiation."

But he said it can be done "only if both sides are willing. We on our side certainly are willing."

Macmillan said both the United States and Britain have rightly held that a beginning can be made in controlled disarmament of both nuclear and conventional weapons.

"Control is really the essence," he said.

"Once both sides agree to experiment in this we shall have really made a start. We will have established a beginning of confidence. And confidence means peace."

As he did in an address Sunday at De Pauw University, Greencastle, Ind., Macmillan urged lowering of trade barriers which restrict the flow of goods between countries.

Eisenhower, in his brief introductory remarks, said Macmillan "is respected and admired in all the countries of the world that are freely permitted to know the facts of today's world and personalities."

Presiding over the ceremony was the President's brother Dr. Milton Eisenhower, president of the university.

Regime Says Labor Bill 'Ineffective'

By JOHN H. AVERILL

WASHINGTON (AP)—The Eisenhower administration, in an unexpected attack, contends a proposed Senate bill aimed at corruption in labor unions is studded with loopholes and on the whole "completely ineffective."

The administration stand was set forth yesterday in a statement by Secretary of Labor Mitchell, who said, in effect, the bill is worse than no bill at all.

"We need legislation that will add to, not subtract from the existing protections which the law now provides for union members, individual workers and the public," he said.

Senators John F. Kennedy (D-Mass) and Irving M. Ives (R-NY), two of the bill's principal sponsors, promptly challenged the administration attack. They denounced it as stemming either from ignorance of the bill's provisions or from political pressure.

In releasing Mitchell's statement, the Labor Department said it represented the administration's views. Mitchell himself is attending a meeting in Switzerland.

Mitchell said the bill, approved last week by the Senate Labor Committee and now awaiting Senate action, follows some of the "carefully developed, reasonable proposals" recommended by President Eisenhower.

But he added: "The proposals as a whole would provide completely ineffective legislation, which would delude the workers of this country and the American public into believing they had protection they did not in fact have."

He said the bill would require him to inspect the books and records of a union suspected of law violation, but would give him no authority to compel testimony, hold hearings or issue subpoenas to get the information.

Mitchell's statement was expected to give new impetus to announced plans by Sen. William F. Knowland (R-Calif) and others to seek a more restrictive bill providing greater government control over union affairs.

New Doctor Makes His First Delivery

SOUTH KINGSTON, R.I. (AP)—Sixteen hours after he received a medical degree, Dr. Lawrence S. Higgins, 26, delivered his first baby—quite by chance.

Mr. and Mrs. Jacques H. Delaporte of Hope Valley were on their way Monday to South County Hospital, Wakefield, when it became evident a doctor was needed in a hurry.

They stopped at Higgins' home and he helped in the delivery of a 7-pound, 15-ounce boy. Mother and son are reported doing fine.

Dr. Higgins, who received his degree from Tufts Medical School, Boston, will begin his internship at Rhode Island Hospital July 1.

Mercury Hits 107 Degrees Here Monday

Yes, it was plenty hot in Snyder yesterday. The mercury zoomed to a reading of 107 degrees, the highest mark of the year, and it was expected to top the century mark again today.

Meanwhile, the weather bureau reported that more scattered showers could be expected over most of Texas today. A low pressure area centered in northern Oklahoma and extending south into the Abilene-San Angelo area promised to touch off some more rains.

The weather bureau said that thunderheads would be scattered widely and that rain could not be expected before mid-afternoon. The low pressure area was drifting slowly eastward where winds were brisk and warnings were issued on Texas lakes.

A few showers built up northwest of Dallas around dawn today. Another hot day was in prospect with early temperatures ranging from 54 at Dalhart to 82 at Presidio. Clouds gathered over San Antonio, Austin and Tyler.

Monday night was a different story, however, as heavy rain, hail and dust hit various parts of West Texas. Monday afternoon saw temperatures of 109 degrees at Presidio and 107 at Childress.

Hail as large as eggs and 2.10 inches of rain hit Winters, 40 miles south of Abilene, Monday night.

Blowing dust west of Anson, 24 miles north of Abilene, was blamed for a six-car pileup several hours earlier. Seven persons were injured.

Monday was the hottest day of the year so far over much of Texas.

Beaumont had 1.90 inches of rain in the 24 hours ending at 6 p.m. Monday. Waco had .25.

Ike Wants Talks To Begin July 1

WASHINGTON (AP) — President Eisenhower today proposed to Soviet Premier Nikita S. Khrushchev that technical talks begin July 1 in Geneva on methods of policing any possible future ban on nuclear tests.

The White House made public a letter from the President stating that the Swiss government has agreed to the Geneva site, which Eisenhower said would be preferable to Moscow.

Khrushchev, in agreeing to such talks, had suggested they be held in his own capital.

Eisenhower told the Russian Premier this government would not object to the inclusion of experts from Czechoslovakia and Poland on the Soviet side.

The Western Powers participating, he said, would be the United Kingdom, France, and possibly other countries in addition to the United States.

Eisenhower noted that Khrushchev has indicated the Soviet Union would not object to the inclusion of additional Western nations having experts in the field of nuclear test detection.

With respect to neutrals, Eisenhower told the Soviet Premier that "We have no objection in principle to their joining later in the discussions if it is agreed during the course of the talks that this is necessary or useful."

That might let such countries as India into the talks.

Eisenhower suggested that provision should be made for the talks to continue slightly longer than the three or four weeks which Khrushchev had suggested.

The presidential letter said: "These talks would be undertaken without commitment as to the final decision on the relationship of nuclear test suspension to other more important disarmament measures I have proposed."

Eisenhower's letter proposed that further details for the meeting be handled through normal diplomatic channels, thus terminating the top-level exchange of notes.

Politics Shifts Into High As Candidates Begin To Stir

By WHITEY SAWYER
THE ASSOCIATED PRESS

Texas politics shifted into high gear Monday with both parties and dozens of candidates in action.

State Sen. Henry Gonzalez, a candidate for governor, assailed Gov. Price Daniel's administration. In his televised formal campaign opening at San Antonio, Gonzalez outlined what he called the state's needs.

Earlier, he appeared briefly at Austin at the State Democratic Executive Committee meeting.

Daniel started the meeting off with a speech rallying all voters on his side to repudiate the (Democrats of Texas) and line up for what he called majority rule.

The committee voted to certify the name of W. Lee O'Daniel as a candidate for governor. O'Daniel had been challenged on the grounds he deserted the democrats after losing the nomination in the 1956 primary.

The State Republican Executive Committee met at Dallas and certified candidates for seven offices. Republicans were urged to "stay out of democratic party primaries and vote with the Republicans."

William A. Blakley of Dallas, who is running for the U. S. Senate, spoke at Beaumont.

Sen. Ralph Yarborough, the man Blakley wants to unseat, campaigned in the Galveston area.

Gonzalez promised to develop a "sustained (water) program with the required degree of flexibility to satisfy the needs of all sections of the state."

He hit the lobby control law, saying: "What we have now in Texas is a watered down lobby bill and a lobbied down water bill."

He added: "We here and now declare our unalterable opposition to a general state sales tax.

"We advocate a reorganization and restatement of the present (tax) law in a clear, orderly and precise manner."

Gonzalez also called for a youth conservation program, what he called an adequate veterans program, a state atomic energy act, and protested the recent hike in tuition at state-supported schools.

Daniel asked some members of the DOT, who are also members of the executive committee, to join him in seeking to "bring about unity and harmony among Democrats — to help close our ranks to fight the Republican Party rather than to fight amongst ourselves."

O'Daniel confirmed by letter he is now a democrat and expects to abide by the primary results this year, and that satisfied the committee.

Later Gonzalez was asked to come to the platform, but was not introduced. After a protest by E. D. Salinas of Laredo, who said Gonzalez had been invited to speak, the San Antonio official was extended a special invitation.

He said "I just wanted to say howdy and to thank you for certifying me. I am not going to demand equal time," referring to Daniel's 30 minute speech. "There are no hurt feelings nor any feeling of slight. I thank you."

Miss Bertha Adkins, assistant chairman of the National Republican committee, told the GOP at Dallas they should vote in the Republican Primary July 26. She said too many republicans voted for conservative democrats in their primaries. This, she said, gave the republican candidates opponents "which are harder to beat in the general election."

Say Visit To Hurt Talks

MOSCOW (AP) — Izvestia, the Soviet government newspaper, said today the United States was using the visit of Prime Minister Macmillan of Great Britain to sabotage prospects of a summit meeting.

The paper said, in a London dispatch that one aim of Macmillan's trip was to get a dollar subsidy for agreeing to turn the British Isles into an American rocket base.

But Secretary of State Dulles, according to the British press, told his guest that what is expected of him is an agreement on American tactics of sabotaging the summit conference," the paper added.

WEATHER

SNYDER TEMPERATURES: High Monday, 107 degrees; low, 73 degrees; reading at 7:30 a.m. today, 75 degrees.

North Central, South Central and East Texas: Partly cloudy and warm through Wednesday with isolated mostly afternoon and evening thundershowers.

West Texas: Partly cloudy and warm through Wednesday, widely scattered afternoon and nighttime thunderstorms mainly Pecos Valley northeastward.

Grasshopper Invasion May Ruin Colorado Wheat Crop

By GENE FOSTER

DENVER (AP)—Eastern Colorado's 110-million-dollar bumper wheat crop faces ruin by the state's worst grasshopper invasion in 10 years.

Nearly nine million acres of rangeland and cropland in 16 counties are already infested. The blight extends into western Kansas, Nebraska, Oklahoma, Wyoming and Montana.

The crisis is nearing rapidly in Colorado's eastern plains where hungry hoppers already have gorged on 10 per cent of the land's wheat.

"A horde of full-grown hoppers could clear an acre of wheat in 36 minutes," State Agriculture Commissioner Paul W. Swisher said today. "The insects have been working on some of the fields for a week.

"When you figure seven hoppers per square yard it becomes a critical problem."

Young grasshoppers now number from 50 to 400 to the square yard in Colorado. Soon they will develop wings and begin to migrate.

Officials of the states affected are pressing for swift action, both by the federal government and landowners.

Farmers have been urged to go ahead with spraying programs and not wait for government disaster help.

Experts say that if the hoppers aren't exterminated by mid-June it may be too late to save the crops.

Many harried Colorado farmers are already spraying crops and the State Agriculture Department starts commercial operations on about 300,000 acres today. The initial program is state-financed.

The governors of Colorado, Kansas and Oklahoma have asked President Eisenhower for federal funds to help carry out spraying programs. Kansas was advised that the U. S. government will supply a third of the cost in the form of spraying material. Counties will have to provide the other two thirds.

In 22 western Kansas counties the infestation averages about 30 to 50 migratory grasshoppers per square yard.

The Federal Crop Pest Control Office for Oklahoma estimates 1,525,000 acres are affected. Spraying is in progress there.

Wyoming's grasshopper invasion is termed mild by state officials. Hoppers run about 15 to 20 per square yard in approximately 25,000 acres of Goshen County. In Niobrara County, the only other area seriously affected, about four sections are involved.

Patterson Service Set Here Today

Funeral services were to be held at 4 p. m. today for James William Whitefield Patterson, 68, who died late yesterday morning in Cogdell Memorial Hospital after an illness of several weeks.

Mr. Patterson, a well-known Snyder barber, had lived here 34 years. His residence was at 3111 Avenue Y.

A barber since 1909, he had followed that profession in Oklahoma prior to moving to Snyder. He was born July 17, 1889, in Kansas. Married in 1913 at Wetonga, Okla., the Pattersons came to Snyder from Comanche, Okla., in 1924.

Mr. Patterson was a member of the First Baptist Church and a Mason.

The Rev. W. F. Ferguson of Lubbock was to officiate at services at the First Baptist Church, assisted by the Rev. G. M. Cole, pastor there, and the Rev. Jack Dean, pastor of the Northside Baptist Church. Burial was to be in the Snyder Cemetery under direction of Bolger Funeral Home. A Masonic service was to held at graveside.

Pallbearers were to be Weldon Perry, Eldon Perry, Renald B. Rosson, Jess Everett, Charles Longbotham, George Lee, Arthur Roberts, J. W. Burleson, Jr., Johnny Dyer, and Jim Gardner.

Survivors include the widow, Mrs Addie Patterson, and one brother, E. E. Patterson of Mullhall, Okla. A son, Corwin Patterson, preceeded him in death in 1937 at the age of 22.

The Thompson submachine gun Calibre .45 — one of the most effective weapons used by the U.S. Infantry in World War II — weighs 10.8 pounds.

Man Is Injured In Oilfield Accident

A. C. (Buddy) Kidd of Cuthbert suffered a broken leg yesterday in an oilfield accident southwest of Snyder.

Kidd, an employe of the Colorado City Well Servicing Co., was working on a well service truck, and his leg was run over by the truck.

The accident occured at about 2:45 p. m. yesterday on the Huddleston lease three miles south of the Lion Diamond M Camp.

He was taken to Root Memorial Hospital in Colorado City by Bell ambulance.

Probation Officers Set Session Here

Probation officers in the northwest region of the Texas Probation & Parole Association will hold a meeting in Snyder on June 25.

Bill Zimmerman, county juvenile probation officer here, is program chairman for the meeting, which will be held in the country courtroom.

Speakers for the meeting's workshops will include Dr. James Turman of Austin, head of the Texas Youth Council; Vince O'Leary of Austin, head of the state probation system; and Robert R. Patterson of Snyder, state representative.

Zimmerman said some 40 probation officers, who work with both juveniles and adults, are expected at the meeting here. Included in the meeting will be Bill Ballard of Wichita Falls, president of the Texas Probation & Parole Association. Ballard is former Scurry County juvenille probation officer.

The meeting will open with registration at 9:30 a.m. with workshops to start at 10 a.m. Following the workshops, there will be a luncheon at the Village Restaurant at 12:15 and the business session will be held from 2 to 3 p.m.

BIRTHS

Mr. and Mrs. Richard Blakey, 1204 Twentieth Street, are parents of a son weighing seven pounds, 10¼ ounces, born at 8:21 a. m. yesterday in Cogdell Memorial Hospital.

Born at 3:27 p. m. yesterday in Cogdell Hospital was a seven-pound, three-ounce son to Mr. and Mrs. James Collins, Lamesa highway.

An eight-pound son was born at 8:52 p. m. yesterday in Cogdell Hospital to Mr. and Mrs. Dennis Lane, 2306 Avenue K.

Frogs Are Grounded

CHEYENNE WELLS, Colo. (AP)—The hordes of grasshoppers in eastern Colorado have grounded jumping frogs.

Jim Read, Cheyenne County agent, said the frogs have eaten so many of the insects that they can scarcely waddle, let alone jump.

Taken To Hospital

Andrew J. Jones, 3005 Thirty-ninth Street, was taken to Cogdell Memorial Hospital yesterday by Bolger ambulance from Thirty-fifth Street near Calvary Baptist Church.

Jones was reportedly suffering from a possible heart attack.

Portrait Of Mrs. Cogdell To Be Unveiled At Club House

A portrait of Mrs. D. M. Cogdell will be unveiled in Martha Ann Women's Club at 4 o'clock Sunday afternoon

Mrs. C. V. Thompson Sr., who is chairman of the Woman's Club committee said that a brief program will be held in conjunction with the unveiling of the portrait.

It was done by Joseph A. Fleck, Taos, N.M., artist who is equally famous for his portraits, landscapes and other art works.

Fleck began the portrait several weeks ago, and completed it last week. He brought it to Snyder Monday morning, and it was hung in the Martha Ann Women's Club on the south wall of the auditorium where it will be directly opposite the main entrance to the auditor and will overlook the club piano when it is in its usual position.

The artist was commissioned to do the portrait by members of the Women's Club to show club members appreciation to the Cogdell family for the Cogdell's benefactions to the clubs, and to Martha Ann Woman's Club.

The portrait is done in heavy oils and captures the dainty personality of the subject.

Minute detail and life-like qualities of the portrait reflect the effort and abilities the famous artist put into the work.

County Judge Edgar Taylor will give the unveiling address during the ceremony Sunday afternoon.

The invocation will be by the Rev. Elton Wyatt, pastor of the Trinity Methodist Church and special songs will be by Mrs. Jane Casebier.

Unveiling of the portrait will be done by Mrs. C. V Thompson Jr., who was first president of the Martha Ann Women's Club.

PORTRAIT COMPLETED—Artist Joseph A. Fleck, Taos, N. M., is pictured above with a portrait of Mrs. D. M. Cogdell which he painted for the Martha Ann Woman's Club. It will be unveiled in special ceremonies at 4 o'clock next Sunday afternoon. The portrait was paid for by members of Martha Ann Women's Club. (Lee Watson photograph)

Hoyle Family Reunion And Birthday Fete

A family reunion and birthday party were held in the honor of Mrs. R. C. Hoyle, 1900 Avenue I, last Sunday, with all seven of Mrs. Hoyle's children being present.

The birthday party at 8 o'clock Sunday night marked Mrs. Hoyle's sixty-ninth birthday.

Her children and families present were: Mr. and Mrs. Johnny Hoyle and two sons of Snyder; Mr. and Mrs. Roberty Hoyle of Colorado City; Mrs. Morris Slone, Debbie, and Sandra of Colorado City; Mr. and Mrs. Cecil Butts of San Angelo; Mr. and Mrs. E. L. Newsom, Delta and Vernon of Big Spring; Mr. and Mrs. J. B. Patterson, Renea and Retha of Snyder; Mr. and Mrs. Henry Hoyle, Nathan, Linda and Randy of Colorado City; and Mr. and Mrs. Carlos Ford, Carl, Ronnie, Sharlot, Carolyn and Rockey of Lamesa.

Friends attending the reunion were Mrs. Ernest Ford and Don of Polar and Mrs. Savana Thompson of Blackwell.

Begin eye care by bringing eyebrows under control. Use a small brush and brush them up and in the opposite direction from which they grow. Then smooth them. If you prefer not to use an eyebrow pencil; try a touch of Vaseline.

The most costly hailstorn in history hit the vicinity of Wichita, Kan., in 1951. Property damage was estimated at 14 million dollars.

ABUNDANT BERRY CROP—Mrs. G. G. Gohlke, who lives three miles east of Snyder on the Sweetwater highway, is shown above picking black berries in her berry patch. She has already picked 45 gallons of ripe berries from just a small patch, and the vines are still loaded. She freezes, cans or sells the berries. The ones she does not keep for her family's own use, are sold for $1.50 per gallon. "It keeps me busy just picking the berries as fast as they ripen," she said. (Lee Watson photograph)

A. F. Graham Family Reunion

Relatives of A. F. Graham held a reunion picnic in Towle Memorial Park Saturday.

Attending from Snyder were Mr. and Mrs. A. F. Graham, Leslie, Linda, Wanda, Michael and Ricky, Mr. and Mrs. Claude Graham, Mr. and Mrs. Gene Graham, Judy Nelda and Lois; Mr. and Mrs. A. A. Behringer Sr.; Mr. and Mrs. A. A. Behringer Jr., Donna and Cynthia; and Mr. and Mrs. Glendon Bynum and Harley.

Guests from Fort Worth were Margaret Ann Graham, Mr. and Mrs Gaylon Graham, and Mr. and Mrs. Elmer Branum, Mary, James and Gary.

AFTERMATH OF CYPRUS RIOTING—Police and soldiers work amid smoking ruins of a Greek-owned building in Nicosia, Cyprus, after it was destroyed in clashes between Greek and Turkish Cypriots. The Turks bitterly oppose the Greek demand for independence from Britain and union with Greece. The Turks want the island partitioned between the two communities. British rulers have had to renew a curfew on the island. (AP Wirephoto via radio from London)

Water Plentiful In Texas

AUSTIN (AP)—Almost every city in Texas will have plenty of water this summer, the State Board of Water Engineers said today.

It's a far cry from two years ago," said R. M. Dixon, engineer board member. "About 75 per cent of the cities—because of supply or distribution troubles—were rationing water in the summer of 1956."

The report showed Texas' 34 major reservoirs filled to 94 per cent of their usable water storage space. The 9,588,620 acre feet of water held back by dams almost would be enough to take care of the state's annual needs from surface supplies.

Two summers ago, the reservoirs were 59 per cent full with 5,973,340 acre feet of water. This compared to a 74 per cent total of 7,460,610 acre feet in May 1955, showing the unpredictable power of Texas thundershowers during subnormal rain periods.

The Trinity, Rio Grande and Guadalupe River basins have shown the most gain since the summer of 1956, when the drought was at its height in Texas.

Two years ago reservoirs in the Trinity basin held only 395,100 acre feet of water in conservation storage—water which can be used by municipalities and for agriculture and industry. This May the reservoirs held more than 1,350,040 feet of water or what the board calls 100 per cent capacity.

At Falcon Dam, Texas' share of the international water is 1,218,000 acre feet, also 100 per cent capacity, as compared to 105,000 acre feet in May 1956. That was only 8.6 per cent capacity.

The break in Texas' water supply drought came last spring with heavy rains and flooding which have continued spasmodically through this year.

The board said heavy late April rains caused flooding from Sulphur River in northeast Texas to the Guadalupe River in Central Texas. The flooding also caused above normal discharges on the lower reaches of the main rivers when it joined upstream releases from flood control pools in other reservoirs.

Besides the 9,588,620 acre feet of water Texans could drink immediately, another 3,041,300 acre feet are in flood control pools which could be used to supplement the usable supply.

The total amount of water in the major reservoirs now makes the 34 lakes 59 per cent full.

In the past two summers, Texas also has increased its total flood control and usable storage by 2,574,280 acre feet to 21,467,800. However, the major increase went primarily to flood control pools with usable space gaining only 121,090 acre feet.

In May 1956, heavy thunderstorms hit Texas to add 289,900 acre feet of water to reservoirs. This May 250,000 acre feet were added.

Rain continued below normal for the third straight month in Texas. Spotted heavy thundershowers provided the runoff.

Water levels in observation wells at San Antonio, in the Winter Garden area near La Pryor, Uvalde and near Buda showed rises from 1.6 to 3.8 feet. Declines of from 0.5 to 3 feet were noted in El Paso, Alief, Pasadena and near Poteet.

Two summers ago, the observation wells were on the decline dropping 0.2 of a foot at Buda and 3.1 feet in El Paso. Most wells were at all time lows and recharging has been slow.

How To Hold FALSE TEETH More Firmly in Place

Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little FASTEETH on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy, gooey, pasty taste or feeling. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH today at any drug counter.

Business Figures Looking Better

WASHINGTON (AP) — Secretary of Commerce Weeks today reported that recent business statistics "have looked better than at any time since the decline started last year."

"The field day of the hand-wringing pessimist is about over," Weeks said in a speech to the 43rd National Conference on Weights and Measures.

"If public confidence continues to grow, if business continues to spur the upturn, if government continues to keep away from gumming the works by unsound legislation, the economy should continue to improve."

Weeks acknowledged that the economy "still has some months to go before it recovers complete health," but added, "The outlook is bright for better times later this year."

The secretary noted that business inventories were reduced by 800 million dollars in April. This suggests that many companies must soon go back to the market for new stocks, Weeks said.

He cited these other statistics:

Steel mill operations have advanced from a low of 47 per cent of theoretical capacity in April to 61 per cent last week. Construction activity rose 1 per cent in May over April. Employment in May climbed 1,200,000 while joblessness dipped by 200,000.

In a related development, the Associated General Contractors of America, Inc., reported a majority of its chapters across the country have noted an improvement or a levelling-off of the business recession.

Results of a telegraphic survey indicated that building construction is normal or better in 57 of 83 areas reporting; that highway construction is normal or better in 50 of 59 areas reporting, and heavy construction is normal or better in 38 to 50 areas.

Deborah Kerr Is Seeking A Divorce

SANTA MONICA, Calif. (AP)—Deborah Kerr, 36, is seeking a divorce.

Her 12-year marriage to producer Tony Bartlett, 38, ended in separation last March 27, she said.

The red-haired actress charged extreme cruelty.

Recently Bartlett filed a writ of enticement in London against screen writer Peter Viertel, charging that on a movie location with Miss Kerr in Vienna Viertel enticed her away from him.

Viertel later termed the charge "absurd and ridiculous."

Airliner Put In Dive To Avoid Plane

ST. LOUIS (AP)—An American Airlines pilot said he was forced to dive his airliner yesterday when an unidentified military plane bore down on it.

The DC7 airliner had 48 passengers and five crewmen aboard.

Four passengers and two stewardesses were taken to a doctor's office after the plane landed at Municipal Airport but were not thought to be seriously injured. They apparently were thrown to the floor when the plane dived.

Capt. Don Regan of Chicago said he was flying over Staunton, Ill., about 35 miles northeast of St. Louis, when the other plane, which he said looked like a C47 trainer, approached from the left. Regan said the planes seemed to be on a collision course so he dived the airliner.

A Civil Aeronautics Administration officer said the incident was being investigated.

The Staunton area is used for training flights of Military Air Transport Service planes. MATS headquarters is at nearby Scott Air Force Base. Officials at Scott declined comment.

Daily Crude Flow Increases Slightly

TULSA (AP)—An advance of 72,000 barrels in Texas output managed to lift the daily average crude production the week ended June 7 by 8,025 barrels to 6,225,750, the Oil and Gas Journal said today.

Texas daily average for the week was 2,700,000 barrels. Oklahoma was down 17,000 to 524,700.

Pre-School Set Aug. 11

Plans are now underway in the Snyder schools for the annual pre-school to be held in August for children who will begin the first grade in the fall."

Materials are being mailed out to parents of the new first graders to explain the pre-school.

Pat Falls, director of instruction, said today that names of prospective first graders are taken from the census list. Probably some were missed in the census, and some have moved here since that time.

Those who do not receive a letter from the schools concerning pre-school and who have children who will enter the first grade in the fall have been asked to call the school administration building at HI 3-5401.

Pre-school has been tentatively set to start Aug. 11.

Tokyo's War Prison Now Stands Empty

By FRED SAITO

TOKYO (AP) — In a congested area of western Tokyo stands a desolate, three-story building in a 17-acre compound surrounded by a 20-foot stone wall.

This is Sugamo Prison, which once housed nearly 4,000 Japanese war criminals and suspects, including the present Prime Minister and his state minister for atomic affairs. Sixty-three inmates were hanged inside the compound for crimes against Allied soldiers.

Now it is empty. The last 18 Japanese sentenced to Sugamo by Allied authorities were paroled and released May 30.

The prison has reverted to its original name of Tokyo Detention House. In about six months it will again be used to hold those awaiting trial.

To those living near the prison, it has become an object of hate and detestation. There has been a growing demand that the government demolish the ugly building.

The victorious Allies took over the prison in November 1945 and turned it back to Japanese authorities in April 1952, when there were 927 inmates left. Release of prisoners began late in the occupation.

The Japanese government, as part of its peace treaty obligations, released prisoners only after they had been pardoned by the Allied nations which reviewed their cases. Those who had served a third or 10 years of their prison terms with good behavior were screened by the Allies for possible parole and clemency.

Former prisoners never found themselves discriminated against in Japan. But there has been no noticeable effort to make heroes of the released war criminals.

Prince Has Birthday

LONDON (AP) — Prince Philip celebrated his 37th birthday today at Buckingham Palace.

Democrats In S. Carolina Voting Today

COLUMBIA, S.C. (AP) — South Carolina Democrats vote in primaries today for a gubernatorial candidate and for six nominees to the U.S. House of Representatives.

Election officials anticipated 300,000 of the 539,000 registered party members would ballot. Its results, barring runoffs, are considered tantamount to election in this overwhelmingly Democratic state.

Contending for the nomination to replace Gov. George Bell Timmerman Jr. are Lt. Gov. Ernest F. Hollings, Mayor William C. Johnston of Anderson and Donald Russell, former president of the University of South Carolina.

Timmerman is ineligible to succeed himself under a one-term rule.

Five incumbent congressmen have no opposition, but Rep. John J. Riley of Sumter is opposed in the 2nd District by Pat Lindler of Lexington.

Republicans, who have yet to offer candidates, could enter the November general election through special convention action.

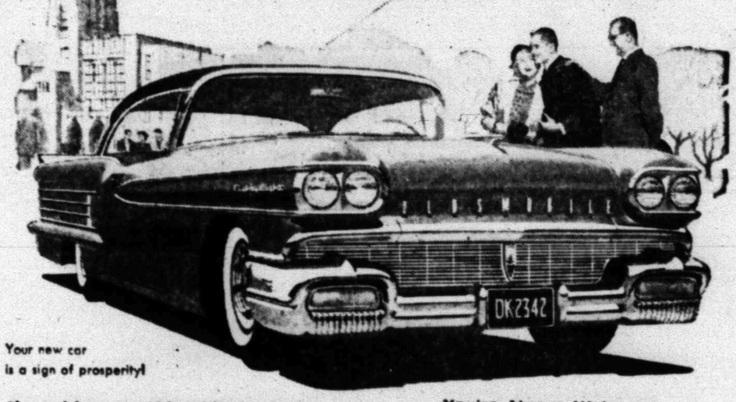

Other races will be for 148 seats in the state legislature and for one prosecutor's post.

Detroit Fires Manger Tighe

DETROIT (AP)—Jack Tighe today was fired as manager of the Detroit Tigers, Bill Norman was named to succed him.

The Tigers currently are in last place in the American League standings. They finished fourth under Tighe last season.

Tighe was dismissed on the recommendation of General Manager John McHale. The board of directors approved the move immediately.

The team is in Boston.

Tighe was offered a job in the Detroit Tiger organization. But the 44-year-old sophomore manager delayed a decision and said he would return to his home in Spring Lake, Mich.

Norman, 47, has been manager of the Tigers' Charleston farm club in the triple A American Assn. for the past year and a half. He will take over the club with tonight's game.

Neither Tighe nor McHale was immediately available for comment.

McHale went to Boston Monday and Monday night saw the Tigers lose a 9-4 decision to the Red Sox. That defeat put them in last place, 12½ games behind the league-leading New York Yankees.

The Tigers indicated that coaches Tommy Henrich, Bill Hitchcock, Willis Hudlin and Don Lund will be retained.

Norman's Charleston club currently is in second place in the American Assn. He Managed Terre Haute and Augusta farm clubs for the Tigers in 1956 and had the Little Rock club in 1954. He also has been a scout for the Detroit organization.

Although there have been grumblings among Tiger fans about the club's lack of success, the move to replace Tighe came as a surprise. Many felt the popular, talkative manager might not be retained after the 1958 season.

Several weeks ago there were published reports that Tighe was on shaky ground. But at the time club president Harvey Hansen gave the manager a vote of confidence.

At the same time Tighe said he would never resign. "They'll have to fire me," he explained. "I worked too hard and waited too long for this job."

BUD MORGAN
. . . choses North Texas

Bud Morgan To Attend North Texas

Bud Morgan, two-time state 180-yard low hurdle champion, has signed a letter of intent to attend North Texas State on a track scholarship.

The Tiger track star, sought by colleges throughout the southwest, signed the North Texas letter last weekend before departing for Oklahoma to work this summer.

Morgan won the state low hurdle crown in May for the second straight year. His winning time this year was 18.8, just two-tenths of a second off the state record of 18.6.

Morgan's 18.8 was the fastest low hurdle time recorded in the state during the past two years.

Bud was also an outstanding football player at Snyder High School as a halfback. Morgan climaxed his brilliant grid career at SHS by being chosen as the "Outstanding Tiger" for the 1957 season.

At North Texas, though Morgan will participate only in track.

Pop Noah, one of the finest track coaches in the country, is the North Texas cinder coach.

Morgan's hurdle mate, Rex Wilson, still hadn't decided upon a college at this writing so far as is known. Wilson, like Morgan, is a state champion, he having won the high hurdles in this year's state meet in 14.1, which is just one-tenth of a second off the state record.

INDIANS SNAP STREAK, 7-6

White Sox Lose First LL Game

The Trinity Methodist White Sox last of the undefeated teams in the Snyder Little Leagues, suffered their initial loss of the season last night at Little League Park.

Administering the first defeat on the Sox were the Von Roeder Seed Indians who rallied for two runs in the bottom of the sixth inning for a 7-6 victory.

The Indians victory snapped a six-game win streak of the Sox and moved the Tribe into sole possession of second place in the standings.

In the National League game last night, the Quarterback Club Giants stayed in contention for the league title with a 11-3 triumph over the Kiwanis Club Braves.

Blake Roberts and Robert Thomas split mound chores for the Indians in their upset victory over the White Sox. Thomas, who came on in the fourth, received credit for the win.

Tony Emerson went all the way for the White Sox.

Ronnie Bennett supplied the plate punch for the Indians with two booming homeruns. Bennett homered in the second with one on and hit another roundtripper in the fifth with the bases empty.

Gary Rains scored the tying run and Thomas the winning run in the sixth inning for the Indians.

Rains with three hits, shared hitting honors with Bennett for the Indians. Jimmy and Jerry Wilson were the leading White Sox batsmen with two hits apiece.

The Giants turned a close game into a rout with a six-run explosion in the fourth against the Braves. Up until the fourth the Giants were leading by only two runs, 4-2.

J. D. Allen led the Giant attack with three hits in three trips followed by Z. B. Rinehart with two-for three and Kenneth Gay with two for four.

Benny Minor got two hits in three trips to lead the Braves offensively. Ronnie Detrich went the route for the Giants to pick up the win on a six-hitter.

In tonight's games, the Athletics and Yankees play at 7 to be followed by the Cardinals and Cubs.

Willie Cools Off; Hitless In 12 Trips

By ED WILKS

Holy smoke! Lookit Willie!

Just four days ago nobody could get Willie out. He was 7-for-7, and 16-for-19, gaining 26 points and taking the National League batting lead at .433.

He hasn't had a hit since, going 0-for-12, losing 25 points and tumbling back to .408, almost where he was when the spurt started.

Willie didn't do the San Francisco Giants much good yesterday, going 0-for-4 in a 3-0 defeat as once-beaten Bob Purkey won his eighth for Cincinnati in the only game scheduled.

The defeat, their ninth in 13 games, trimmed the Giants' first-place edge over Milwaukee to half a game and .003 percentage points while the Redlegs took full charge of third place, 3½ games back.

In the American League, Boston moved within .003 percentage points of second-place Kansas City by whipping Detroit 9-4. Baltimore defeated Cleveland 5-2. Rain postponed the only other game scheduled, with the Chicago White Sox ahead 7-1 in the fourth inning at Washington.

Purkey, a right-hander who never has had a winning season in the majors, won his fifth in a row with a six-hitter. He walked none and struck out three.

A two-run homer by Steve Bilko, his fourth, wrapped it up for the Redlegs in the fourth against southpaw Johnny Antonelli, now 5-4. The Reds also had six hits.

Mays, once again second to St. Louis' Stan Musial (.418) in the bat race, left four runners stranded.

It was Purkey's second shutout of the season, third in the majors and second over the Giants.

PHILLIES, TIGERS WIN

Two Close Games In Pony League

Both games in the Pony League last night were decided by one run, the Lions Club Phillies edging the Scurry Butane Dodgers, 2-1, and the Courthouse Tigers nipping the Von Roeder Red Sox, 5-4.

A single by Max Shaw drove in Bob Pena with the winning run in the bottom of the seventh inning for the Phillies. Pena had gotten aboard via an error and had swiped second and third base prior to Shaw's game-winning rap.

Pena went the route for the Phillies and tossed a three-hitter at the Dodgers. Freddie Miller hurled almost equally as well for the Dodgers by hurling a four-hitter.

Weldon Ware of the Phillies was the only player in the game to get more than one hit. Ware singled twice in three trips. Ware scored the first Phil run in the first inning when he singled and sped home on a double by Pena.

The Dodgers tied it up in the sixth at 1-1 on a single by Miller and double by Dalton Walton.

The Tigers led all the way in the second game after erupting for three runs in the first inning on a smashing triple by Bubba Fleming.

The Red Sox closed the gap to 4-3 in the third but the Phils staved off the Von Roeder nine down the stretch.

Abe Gonzales of the Red Sox and Steve Free of the Tigers went the distance for their respective teams. Both yielded eight hits.

Spencer Dyer of the Red Sox and Jerry House, Ed Carl Foree and Fleming were the leading batsmen of the game with two hits apiece.

No Pony League games are scheduled tonight.

Sackers, Cats Win GPL Openers

The Rainbow Sackers and Optimist Club Cats captured season opening victories in the Graduate Pony League last night on the high school diamond.

The Sackers outlasted the Furr Yankees, 9-6, in the first game with the Cats coming back to down the Snyder Savings and Loan Braves, 8-1, in the second game.

Rainbow staged a 7-run rally in the third inning to erase a 4-2 Furr lead and then held on for the victory.

Skip Franklin went the distance for the Sackers and picked up the win on a four-hitter.

John Weaver went the route for the Yankees and although he issued only five hits, he was in trouble most of the time because of loose defensive play of his teammates.

Tommy Minton and Charles Popnoe led the Sackers with two hits apiece. Larry Patterson struck the biggest blow for the Yankees, a run-scoring triple in the fourth.

Benny Greenfield and Ruben Gonzales combined to pitch the Cats to victory over the Braves. Greenfield pitched the first two innings and gave up no hits, struck out the side in each inning and issued two walks.

Gonzales finished up by hurling three-hit ball the remaining distance. The Braves averted a shutout with their lone tally in the fifth.

Larry Smith, Reg Scarborough, Jerry Walker and Greenfield each collected two hits to lead the Cats at the plate.

In tonight's games, last night's two winners, the Cats and Sackers, will clash at 6:30 with the Yankees and Braves following at about 8:30.

14 Tigers Win Letters In Baseball

Fourteen members of the Tiger baseball squad, district, bi-district and regional champions for the second straight year, will be awarded letters for the past season, coach Speedy Moffett announced today.

Only four of the 14 lettermen will be lost by graduation.

The senior lettermen are shortstop Gary Vice, third baseman David Hale, and outfielder, Neil Boyd, all regulars, and reserve outfielder Carroll Wylie.

The other 10 lettermen are made up of four juniors, five sophomores and one freshman.

Junior lettermen include pitchers Tim Roberts and Terry Lee, and outfielders Richard Mahan and Johnny Drake.

Sophomores earning letters were catcher Coleman John, pitchers Norman Gladson and Dick Hayes, reserve outfielder Barry Walker, and reserve infielder Jerry Fleming.

The lone freshman winning a letter was reserve first baseman Mike Moffett.

The Tigers, playing one of the toughest schedules in the school history, posted a 18-17 record over the 1958 season. The Bengals played in the state tournament for the second straight year last week and wound up as the 4th top 3A team in the state.

Ted Overshadowed By 'Golden Boy'

BOSTON (AP)—The Boston Red Sox were within percentage points of second place today with a six-game unbeaten streak sparked by the booming bat of "Golden Boy" Jackie Jensen

The one-time University of California football star is assuming the role of Boston's No. 1 power hitter with Ted Williams' bat comparatively silent. Jensen has hit 14 homers and driven in 44 runs to trail Kansas City's Bob Cerv by only one in each department for the American League leadership.

Tigers Return To City Play

The Tigers will return to City League activity tonight when they meet Hermleigh at Towle Park.

Game time will be 8 p.m.

Because of the playoffs in high school competition, the Tigers have not played a City League game since opening night, May 5.

The Tigers won their lone start in City League play with a 10-5 victory over the Blue Sox.

The Tigers finished play in schoolboy competition last weekend by participating in the state tournament at Austin.

Amateurs Are Open Threats

TULSA, Okla. (AP) — It has been 25 years since an amateur won the U.S. Open Golf Championship and it is unlikely one will come through this year on a course that Billy Joe Patton calls "a monster."

But the 31 amateurs in the field of 162 plaers scheduled to start Thursday on the 6,907-yard Southern Hills Country Club course constitute a strong threat to the pros.

One qualified observer thinks three or four could bring back the days of Bobby Jones and Johnny Goodman.

The last amateur winner was Goodman in 1933, five years after Jones gave up his habit of licking the pros.

The observer is Bill Kaiser, a veteran pro from Louisville, Ky., who barely missed qualifying or the tournament.

He thinks it would be good or golf to have an amateur win or at least come thrillingly close as Ken Venturi did in the 1956 Masters.

"It would encourage a lot of young fellows who are getting discouraged when they see the pros take everything," Kaiser said.

The four Kaiser mentioned as having the potential are Patton, Harvie Ward and two youngsters, Jack Nicklaus, Columbus, Ohio, and Bobby Nichols, Midland, Tex.

He had a good chance to observe Nicklaus, an 18-year-old Ohio State University student, when they played in the same qualifying section at Cincinnati. Nicklaus shot 136 for 36 holes there.

Aikins, Jones Bout In The Making

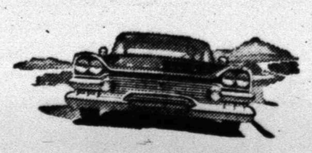

ST. LOUIS (AP)—Welterweight champion Virgil Akins' manager said Monday that Akins has been offered a $40,000 guarantee to defend his title against Harold Jones.

Eddie Yawitz said the offer was made by matchmaker Jack Laken of Los Angeles. The proposed fight would be in Los Angeles late in August.

Liquidation Division Rift Breaks Into Court Inquiry

AUSTIN (AP)—An intra-departmental squabble broke into an open court inquiry yesterday. Dist. Judge Charles Betts said he wanted to "find out what's wrong with the state liquidation division."

Betts accused the State Board of Insurance and the attorney general with hampering the work of his 98th District Court in handling insurance company receiverships.

And as surprisingly as Betts started his probe late Friday, he ended it late yesterday.

"I think we have enough information," he said, not elaborating or announcing what his next step would be.

During a recess in the inquiry of the Insurance Board's Liquidation Division, Betts told reporters his court could not take action concerning about 22 receiverships of insurance companies.

"I have not gotten and have been unable to get information," Betts said. "The Insurance Board and the attorney general are supposed to be the ones holding up this court, but they're taking up the time of my attorneys to defend themselves in the supreme court.

"We are hampered and hog-tied by reason of their attempts against us," Betts continued. "I'm not commenting on anything which may be of issue in the supreme court."

Several Liquidation Division employes testified liquidator James Williamson was responsible for dissatisfaction, low morale and unsatisfactory progress.

Betts said the court should appoint the attorneys. The board has said it has the same power. Efforts to seek clarification in the supreme court apparently have failed. However, another suit is now pending which would test whether pay raises can be given by the court without the board's approval.

First Asst. Atty. Gen. Jim Ludlum said "Our duty is to enforce the law as we understand it and to obtain a determination by the supreme court as to who has ultimate control in receivership cases. So far as this office is concerned, there are no personalities involved."

Atty. Gen. Will Wilson was in Chicago, as was Insurance Commissioner William Harrison and the Board of Insurance members. Williamson yesterday was out of the city.

Betts said the Insurance Board and the attorney general have not tried to work out anything with the courts, which he said are responsible for appointing receivership attorneys. In the liquidation of bankrupt insurance firms, efforts are made to salvage the assets for stockholders and policyholders.

Betts' court is responsible for receiverships involving the once-mighty U S. Trust and Guaranty Co. of Waco and the also-defunct ICT Insurance Co. of Dallas.

His attorney for the receiver in these companies, Renne Allred Jr., examined the witnesses appearing yesterday.

C. H. Langdeau, chief deputy liquidator, said Williamson could not make a definite decision and held up the office work.

"I couldn't get a definite answer," he testified. "I thought I would have to resign. It appeared to be we were in a hopeless situation because of the activity or lack of activity by Mr. Williamson."

Others testified that:

1. Langdeau and special 98th district court receivership attorney V. F. Taylor had been approached by an Insurance Board member with the question "Would you take Williamson's job?" Taylor said he would under certain conditions. Langdeau, former employe for the state auditor, would not comment.

2. State Board of Insurance Chairman Penn Jackson asked complaining employes and attorneys to try and work out their troubles in a 90-day trial period. Cecil Rotsch, chief attorney for the liquidator, said "it is my honest opinion it won't work."

3 Attorneys appointed by Betts and other judges and attorneys appointed by the Board of Insurance agreed they were working together, but expressed dissatisfaction with Williamson.

Williamson took office March 1, succeeding J. D. Wheeler. Wheeler said he resigned because of differences of opinion over the extent of the liquidator's authority.

Permanent Pipe Line Recommended

WASHINGTON (AP) — Tennessee Gas Transmission Co., Houston, heard yesterday a Power Commission examiner held it should be granted permanent authority to build and operate $169,329,263 worth of natural gas pipeline facilities already under construction.

In three 1957 actions, the commission gave tennessee temporary authority to build the facilities to increase its average system delivery capacity to 405,599,000 cubic feet of gas per day.

The decision by examiner Francis L. Hall will become a final commission order if no review is started within 30 days.

However, it appeared likely the commission would defer final action on Hall's decision since the agency had consoliated Tennessee's application with 19 other applications by eight other companies.

Only last Friday the commission announced it was deferring action on another decision by Hall involving five of the 20 applications.

Hall's earlier decision held in part that Permian Basin Pipeline Co., Omaha, and El Paso Natural Gas Co., El Paso, Tex., should be given permanent authority to build and operate $2,264,000 worth of facilities which are already in service under temporary authority.

Two Children Die In Runaway Auto

CAMERON, Ariz. (AP) — "We didn't have a chance."

Those words were repeated over and over yesterday by Frank Qualls, a vacationing Brownsville, Tex., schoolteacher.

Qualls, 29, and his wife Katherine only moments before had watched helplessly as a runaway automobile plunged their two small sons to death in the Little Colorado River Gorge.

Coroner James Brierley said the children's parents apparently had failed to engage the parking brake when they stopped at a viewpoint and stepped out of the car to look at the scenery.

Seconds later, the car rolled about 25 feet, dropped off the sheer cliff and plummeted 600 feet to the bottom of the gorge.

The victims were James, 5, and Harold, 15 months.

Qualls and his wife dashed toward the car but were too late.

The car plunged down the sheer cliff, bouncing from protruding rocks and ledges, crumbled and caught fire.

The children's bodies were found some distance from the wreckage by a steeplejack and three other men who climbed down the bluff. The bodies were lifted to the top of the gorge with ropes and taken to a Flagstaff mortuary.

Members of the family said the Qualls' car and another, driven by Qualls' brother-in-law, D. H. Hull, pulled onto the viewpoint parking area about eight miles northeast of Cameron on Highway 34.

The adults and Dull's son, Kenneth, 10, got out of the cars and walked over for a peek into the gorge.

Kenneth walked back to the Qualls' car to get a camera. As he reached inside, he said he felt the car move. He screamed a warning.

Another tourist, Norman Carr of St. Louis, heard Kenneth's scream, saw the car rolling toward the edge and ran toward it—too late.

Almost hysterical, the parents were taken to a Flagstaff motel by a highway patrolman.

The coroner said it had not been decided whether there would be an inquest.

State Rep.—90th District:
RENAL B. ROSSON
RAY HOUPT

Auto Workers Negotiations At Standstill

DETROIT (AP)—The auto companies and the United Auto Workers Union appeared today to have adopted a wait-and-see attitude in their negotiations on new contracts.

The union scheduled bargaining sessions again at General Motors, For dand Chrysler. No progress was reported from talks at all three companies yesterday.

The union indicated it was waiting for the companies to come up with some kind of an offer. The companies seemed to be in no hurry to make one.

GM's original proposal was to extend the wage formula of the 1955 contract for two years.

Similar proposals were made by Ford and Chrysler. But they were withdrawn when the old contracts expired Memorial Day weekend without a settlement. The companies say they now have no proposals on the bargaining table.

Operations were described as normal yesterday at plants of all three companies as the industry moved into its second week of producing cars without contracts to cover 500,000 workers.

Saucer On Display

KANSAS CITY (AP)—Exhibits at the Hobby Industry Assn. of America's annual trade show include a flying saucer complete with a pilot whose complexion is a deep green.

LSU President Must Explain Opposition To Racial Bills

BATON ROUGE, La. (AP) — Louisiana State University's president and deans must explain to the State House of Representatives Wednesday why 59 faculty members oppose segregation bills to close public schools.

The House 2nd graf TA 36, 119

The House by a 70-0 vote last night demanded the public hearing because the 59 were among 600 who signed a Louisiana Civil Liberties Union petition opposing the joint legislative segregation committee's plan to close schools threatened with racial integration.

Two LSU professors appeared before the House Education Committee earlier in the day to protest the eight segregation bills before they were approved by the committee.

The bills would authorize the governor to close any public schools ordered to integrate, provide for continued pay for school personnel, provide a system of education expense grants to children attending private schools set up as education cooperatives by parents and prohibit local school boards from approving budgets for racially mixed schools.

They also set up a pupil assignment law patterned after the Alabama law upheld recently by a three-judge federal court, provide malfeasance charges against any school official guilty of efforts to bring about integration and eliminate a section of the state constitution held unconstitutional in the New Orleans school segregation case, in an effort to offset federal court rulings.

The House directed LSU President Troy Middleton to bring the college deans to the hearing.

In a resolution, representatives said they were "entitled to know how far reaching such activities are with respect to the LSU faculty and administration."

One member of the State Segregation Committee, Rep. Ford Stinson, said he favored holding up the LSU budget for next year until "this mess is straightened out."

Waldo F. McNeir, LSU English professor, and Dr. Charles Reynard, law professor, protested the bills before the education group.

Under questioning, McNeir admitted: "Yes, I'm in favor of integration."

Reynard, who teaches constitutional law, was asked, "Are you for integration?" He replied he didn't say that, "but I am for the supreme law of the land."

Barbara Burns Is Given Minimum Term

LOS ANGELES (AP)—Barbara Ann Burns, convicted of dope addiction, has been sentenced to the minimum mandatory term, 90 days in jail.

But her attorney appealed the sentence and she was released on $1,000 bail.

The 19-year-old daughter of late comedian Bob Burns was arrested in a Hollywood apartment last January. Municipal Judge Harold C. Sheppard said he believed her a "victim of circumstances" and bad companions.

Missile's Guidance Systsm Fool Proof

HOLLOMAN AIR FORCE BASE, N.M. (AP)—Repeated attempts to "jam" or confuse the Air Force's guided missile Mace have failed.

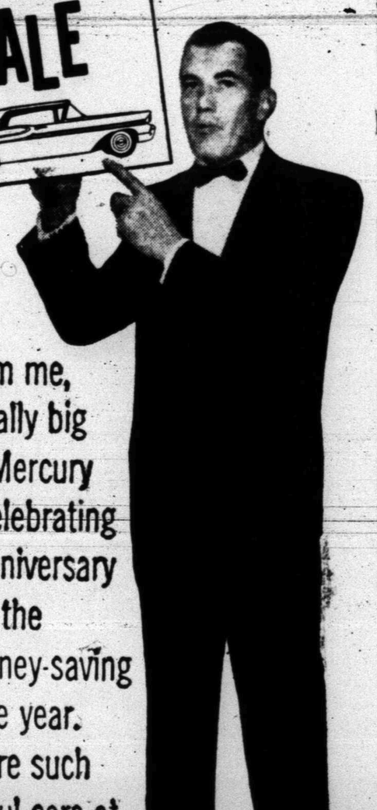

The Air Force said the Mace, using a new guidance system called Atran, was tested in a series of 650-mile flights from Holloman to Wendover Air Force base, Utah.

"In no case was the guidance system 'confused' and the vehicles continued on course with a high degree of accuracy," Air Force officials said.

The Mace is a jet-powered 650-mile-an-hour tactical missile capable of carrying a nuclear warhead. The Atran guidance system does away with the need for ground control.

Husbands! Wives!
Get Pep, Vim; Feel Younger
Thousands of couples are weak, worn-out, exhausted just because body lacks iron. For new younger feeling after 40, try Ostrex Tonic Tablets. Contain iron for pep; therapeutic dose Vitamin B1, to increase vigor, vitality. 8-day "get-acquainted" size costs little. Or get Economy size, save $1.67. All druggists.

SPECIAL MERCURY SALE

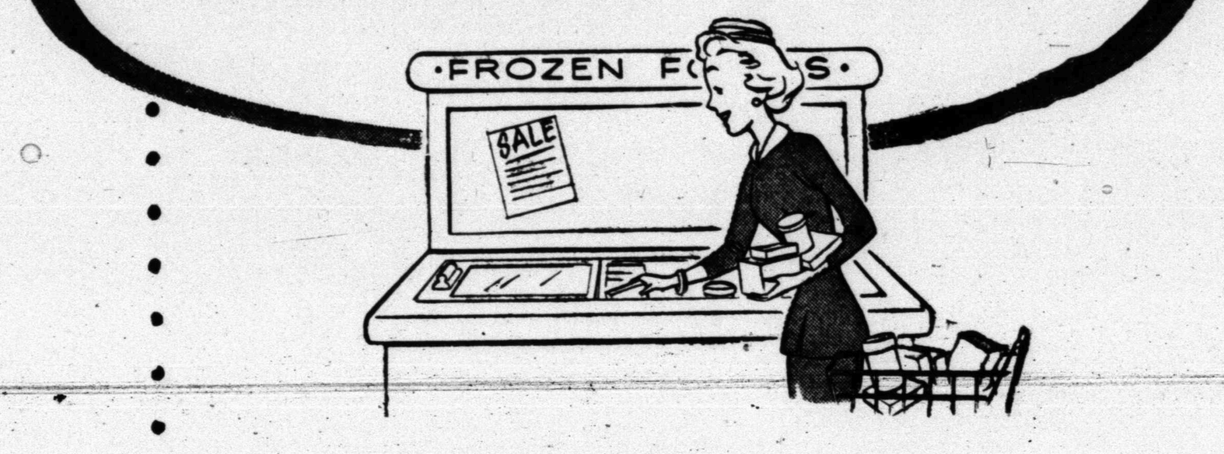

"Take it from me, this is a really big one! Your Mercury dealer is celebrating my 10th Anniversary on TV with the biggest money-saving event of the year. Never before such big, powerful cars at such low prices. But there isn't too much time left to cash in—to the end of June only—so don't miss it."

E. Sullivan

P.S. And don't forget our special 10th ANNIVERSARY TV SHOW, Sunday, June 22nd.

FURR'S

OUR VIEW

The Political Wilderness

Gov. Price Daniel has come out swinging in the Texas Democratic Executive Committee's battle with the Democrats of Texas (DOT) for control of the party machinery.

This skirmish, with the governor taking his place as leader for the official committee, shows signs of pepping up a political campaign that heretofore has not been able to get off of the ground.

Gov. Daniel says the DOT proposal for a code of ethics in party conventions would enable minorities to control party machinery. On the other hand, a plan approved by the official committee would virtually assure that the majority would be in the saddle.

Although the governor's own suggestion that lower-level conventions as such be eliminated in favor of a conventional ballot system for naming local delegates has been scuttled, he served notice Monday that he does not intend to stand on the sidelines in the battle with the DOT.

We still believe that Democrats of any hue should be willing to rely upon the ballot box to name convention delegates, but the proposal has gone down the drain, and the battle is being fought on other issues.

Regardless, most people in the state apparently are fed up with factionalism and they will welcome the day when the party can reassemble itself in some semblance of unity, at least on the major issues.

If matters continue on present trends, the time may be near when the party will be virtually crying out for some knight in shining armor to appear on his white horse and lead the aggregation from the wilderness of confusion.

Athough the governor may be depended upon to take the lead in a spirited fight on the DOT issue, nobody appears ready this year to play the role of the knight.

Plastics Industry Expects Good Year

By SAM DAWSON

NEW YORK (AP)—The plastics industry busily raiding markets once served by metals and other materials thinks some new plastics and new uses will assure it another year of rising sales.

The Society of the Plastics Industry, after a survey of leading makers of molds and tools, reports today that 1958 sales so far are either keeping pace with 1957 or exceeding last year's figures by as much as 40 per cent in some companies.

Another segment of the industry, plastic pipe, which has seen sales boom from 500,000 pounds in 1947 to 58 million pounds in 1957, predicts it will sell 60 million pounds this year for around 50 million dollars.

SPI credits much of the gain in plastic sales to the last two years of research and production progress, which are now bearing fruit.

But part of the gain in use of plastics has been sparked outside the industry of late by manufacturers seeking ways in the recession to cut costs, both of materials and of production processes, and to bolster retail sales by redesigning old products or introducing new ones.

Plastic pipe makers have found a big field in the irrigated sections of the West, in water lines around the farm or home, including the new boom in swimming pools, and in some industrial processes where corrosion can be a big cost factor.

This pipe costs about as much as metal ones but salesmen say it's much easier and less expensive to install.

Here is what some mold manufacturers say about new demand for both new and old products:

General American Transportation Co., Chicago: "New business booked in February was a new high for the month, and, most important, largely for end applications in industries we were not supplying two years ago."

Capac Industries, Capac, Mich.: "Increased demand from the automotive industry for molded housings for heaters and duct couplings, and heavy demand for plastic packaging and special heavy wall plastic products."

General Industries, Elyria, Ohio: "We are molding plastic parts for a greater number of different industries and in fields we never thought would be the substantial users of plastics they are."

Erie Resistor, Erie, Pa.: "New processes for metalizing plastic are winning important acceptance in appliance and automotive fields."

Columbia Engineering, Newark, N. J.: "First quarter output was 40 per cent above last year and dollar volume was up 75 per cent."

Shaw Industries, Franklin, Pa.: "Sales are up 10 per cent and a spurt of new orders is being received."

Newark Die Co., Newark, N.J.: "We have a larger amount of government work for the missile program this year and a considerable pickup in civilian merchandise inquiries."

Standard Tool, Leominster, Mass.: "New plastic materials and new designs will stimulate the mold business."

A. L. Hyde Co., Grenloch, N.J.: "New designs capable of molding highly complex parts at lower cost is increasing dollar volume."

Victory Manufacturing, Chicago: "One national company has turned to mold plastics for five products formerly made in steel."

Norton Laboratories, Lockport, N. Y., and Boonton Molding Co., Boonton, N. J., both report customers asking for help in cutting costs and a great deal of customer interest in redesigning products.

Dulles Looks At The Bright Side

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — Secretary of State Dulles—the driver of our foreign policy bus — likes to stay on the sunny side of the street that leads to happy boulevard.

He wears optimism like a vest, buttoned tight. True, he has some gloomy moments. But they don't last long. And he seldom finds anything wrong with his own roadmanship.

It was a rather sunny account of our foreign policy that he gave the Senate Foreign Relations Committee last week. He listed a number of things we're doing to make our problems come out right.

"I see," he said, "a prospect that provides good ground for hope. We are not being tossed about rudderless on a sea of change. We are guiding and influencing the character of change..."

He conceded "our record is not perfect" and added: "We have no doubt done some things we should not have done and not done all that we should have done." But he didn't mention any errors by name.

And he didn't say anything about such recent setbacks as the stoning of Vice President Nixon in Latin America, or the growing anti-Westernism in the Middle East, or the fact the Soviets are out in front with missiles.

Instead he turned to what he called the "Communist balance sheet" and found it didn't balance because the Soviet problems are simply "insoluble."

Only six of the committee's 15 members were in their seats to hear Dulles' comforting thought that things look pretty good for the West, pretty sour for the Soviet Union. And only four of the six sat thrugh the whole explanation.

Dulles has had some unpleasant moments with this committee whose members have heard him say one thing one time and what appeared to be just the opposite the next time.

For instance he must have been having one of his gloomy periods back in December 1955, when he said:

The Soviet zigzag policy seemed ended; they were opening dangerous new roads in the cold war; there was a rebirth; and they might be getting more confident because they were stronger.

But two months later, in February 1956, he said the Soviet leaders had to ditch Stalinism; their policy of "intolerance and violence" had failed because of free world firmness; and the Soviets were in a "very bad way."

This so angered Sen. William Fulbright (D-Ark) — or maybe it was because of the switch from December — that he complained Dulles was "treating us as children, ready to clap in delight at every fairy story, no matter how fanciful."

Dulles seems a little more relaxed now. Back in those days the word "panic" was on his mind. He repeatedly warned this country not to be "panicked" by what the Soviets were doing although to others the country seemed perfectly calm.

He hasn't used the word "panic" in a long time. What's been bothering Dulles, with his long training in diplomacy, is Soviet propaganda and the way they use it for diplomatic purposes.

But he acknowledged recently we're getting a little better at propaganda ourselves.

Signs Indicate Suslov Is Fading

By THOMAS P. WHITNEY
AP Foreign News Analyst

Signs from Moscow indicate that Nikita Khrushchev may have pulled the rug out from under his chief Kremlin rival Mikhail Suslov preparatory to purging him.

Suslov is a secretary of the Soviet Communist party's Central Committee, outranked only by First Secretary Khrushchev himself. He is also a member of the Presidium of the Central Committee, the group of top committee members which wields the real power.

At least until recently he headed all the propaganda and cultural work of the Kremlin, was a leading party theoretician and had charge of the Kremlin's relations with foreign Communist parties.

Some evidence indicates that Suslov on occasion has managed with some success to organize opposition in the Central Committee to policies of Khrushchev.

The signs that Suslov may be on the way out are too clear to be missed:

1. He has been absent from public appearances of the Kremlin leadership since May 16.

2. Particularly important was Suslov's absence from the recent Communist summit meeting, which demonstrated beyond any doubt that he had been removed from his former task of conducting relations with foreign Communist parties.

3. On May 17 it became known that the head of the Central Committee's Section on Propaganda and Agitation, F. V. Konstantinov, had been replaced by L. F. Ilyichev. Since this was the key Central Committee section under Suslov and Konstantinov was Suslov's protege, this indicated a fall in Suslov's authority.

4. Khrushchev, speaking in Bulgaria June 3, made an all-out attack on theoreticians and an equally vigorous defense of the practical politicians. Ostensibly the vitriolic condemnation of empty theoreticians was directed at Yugoslav President Tito. But the real target may have been Suslov, the theoretician, as contrasted with Khrushchev, the practical politician.

5. The Central Committee on June 8 took the seemingly unnecessary step of rehabilitating the already rehabilitated leading composers — Dmitri Shostakovich, Aram Khachaturian and others—who were attacked as formalists in February 1948. This may well be a veiled attack on Suslov, since Suslov under Andrei Zhdanov was largely responsible in 1948 for the implementation of Stalin's policy of putting Soviet creative artists in a steel vise of Communist party control.

Junior Editors Quiz on BIRDS

QUESTION: How high can birds fly?

• • •

ANSWER: Nearly all of the birds in the world can fly although a few, such as ostriches, penguins, kiwis, emus and cassowaries, have lost this ability.

The speed and altitude at which birds fly vary greatly. Common small birds such as robins, doves and sparrows can fly 30 to 40 miles an hour. The black swift of the western United States hits over 100 miles an hour, and a duck hawk diving out of the clouds may reach 180 miles an hour.

Most birds seldom fly higher than 3,000 feet, but strong, large-winged birds such as the eagle, condor and wild geese attain altitudes of 10,000 feet flying over mountains. A plane once collided with a condor at a height of 20,000 feet over South America. The highest flying altitude recorded is that of a flock of wild geese going over India's Himalaya Mountains at 29,000 feet — more than five miles up.

• • •

FOR YOU TO DO: Here is an eagle flying high over a mountain range. Paste the picture on cardboard, color it and cut it out.

• • •

(A prize of $10 goes to Susan Olssewski of Oak Ridge, Tenn., for this question. Do you have a good one? Send it on a postcard to Violet Moore Higgins, AP Newsfeatures, in care of this newspaper. Tomorrow: Does the moon affect seed plantings?) 6-10
