

Cut In January Gains Support—

Republican Heads Renew Efforts For Tax Slash

WASHINGTON, June 25 (AP)—Senator George (D-Ga.) threw his support today behind a Republican move to re-pass the vetoed \$4,000,000,000 tax slashing bill, revised only to make the cuts effective next January 1 instead of next week.

Chairman Knutson (R-Minn.) of the tax-framing house ways and means committee reintroduced the bill yesterday, and speaker Martin (R-Mass.) said it will be taken up by the house "at the first favorable opportunity."

Asked if this meant action before congress adjourns in July, Martin replied: "We certainly are not closing the door to that." He added: "Since the tax veto was sustained last Tuesday a lot of Democrats who voted to sustain have come to me and said they were sorry that they have changed their minds. We are sure we have the two-thirds in the house. It's entirely up to the senate."

Standard Arms Need Seconded By Eisenhower

US Defense Is Hemisphere Task Army Head Says

WASHINGTON, June 25. (AP)—Gen. Dwight D. Eisenhower told Congress today that if the United States has another war one of the first things the enemy will do is strike through the air at the industrial centers near the Great Lakes.

Capital Faces New Coal Mine Problem

Worker Protest May Result In Full Shutdown

Justice Dept. Investigating The Walkout

WASHINGTON, June 25. (AP)—Walkouts by nearly half of John L. Lewis' soft coal miners today stirred a Justice department investigation and an apparently futile congressional move to revive expiring federal seizure powers.

The prospect that the stoppage to protest the Taft-Hartley labor bill may develop into an indefinite shutdown arose as the government prepared to give the mines back to private owners in another five days, when its authority to run the pits lapses.

There was no sign of revived contract talks between Lewis and the operators, although Secretary of Labor Schwellenbach or some other federal official was expected to invite them to get together quickly. The miners traditionally follow a "no contract, no work policy."

A ten-day mine vacation is due to begin Friday at midnight. The miners receive \$100 and can lay off from June 27 to July 7 without being on strike.

The number of those who had jumped the gun stood at 175,000 last night. Those who would talk said they acted to protest passage of the labor bill.

A United Mine Workers official at Harlan, Ky., said, "I've never seen the miners so aroused before. Government officials are seeking to determine whether the miners went out of their own free choice or whether they had some sort of leadership."

Both in the Justice department and Congress, however, the feeling seemed general that the Taft-Hartley law would be inadequate to halt a coal shutdown at this time.

The act provides for appointment of a board of inquiry by the president in case of a strike affecting the national health or welfare. After the board reports its findings, Mr. Truman could instruct the attorney general to seek an injunction. The whole procedure might take weeks.

But for the next five days the government can act quickly and without outside advice. That is because (A) the government still is in control of the mines and (B) the Supreme Court left the way open for another federal injunction against Lewis and the union if a strike occurs while the government contract is in effect.

That pact was made by Lewis and Secretary of the Interior Krug, ending the 59-day strike of the spring, 1946. Lewis and the operators have been at odds ever since. The government has been unable to give up the pits without danger of another strike.

Rep. Howard Smith (D-Va.), one of the sponsors of the Smith-Connally war labor disputes act which gave President Truman his power to seize the mines, introduced legislation yesterday to extend that authority beyond June 30.

He said the Taft-Hartley bill could stop a coal strike only for a short time.

But Speaker Martin (R-Mass.) said that group certainly would not be inclined to adopt plant seizure now and thereby "admit that our labor law is no good."

However, Senator Taft (R-Ohio), co-sponsor of the new act, and several other proponents have acknowledged uncertainty whether the statute will be able to stave off a July coal shutdown.

County Scholastic Total Is Lower

Howard county scholastics for the 1947-48 term had a decrease of 180 from the 1946-47 school year, a census started last March and released this week shows. The aggregate dropped from 5,487 to 5,307.

Of all the districts within the county, only the Big Spring independent school district showed an increase, jumping from 3,793 to 3,812. Knott's potential slumped from 329 to 248. The Coahoma district was down from 364 to 337 while the common pool districts declined from 999 to 910.

Midwest Still Harassed By Flood Waters

OMAHA, June 25. (AP)—The turbulent Missouri river set a new record level in Southeast Nebraska today as residents of Nebraska, Iowa and Missouri braced for new floods expected to follow widespread rains.

OMAHA, June 25. (AP)—Residents of Iowa and Nebraska primed themselves for new floods today in the wake of widespread rain. The new precipitation came even before the old flood waters had run their downstream course.

The heaviest downpour was recorded in northeast Nebraska, where the rain measured four inches in the Neligh area. Much lighter rain fell over the rest of the two state area.

With the rain came more difficulties for flood stricken towns engaged in cleanup and reconstruction work.

At Cambridge, Nebr., the hardest hit town in Sunday's deluge, Mayor Lloyd C. Richardson declared: "Our need is getting greater all the time. It is raining here again. It is not a hard rain, but adds to our misery."

Richardson said the entire flooded area of Cambridge might have to be evacuated again if the rains did not stop. He explained that last Sunday's flood left the Medicine creek bed so badly silted up that a very little rainfall might mean a repetition of the week end holocaust. The rain also made the mud wet and slimy underfoot.

Similar conditions prevailed in virtually every other flooded section. In Iowa, a new flood struck Adel, in the south central part of the state, last night. The Raccoon River, rising at the rate of one foot an hour forced some residents to seek higher ground.

U. S. May Offer Italy Ships

WASHINGTON, June 25. (AP)—Secretary of State Marshall said today the United States wants to turn over 31 merchant vessels to non-communist Italy in an effort to speed reconstruction of that country.

Marshall made the statement at a news conference when a reporter asked whether turning over such ships is not an unusual act of talks toward a former enemy country.

The secretary said it most certainly is, but that the main consideration is to do something to help rehabilitate Italy. He added that Americans are a bit more generous and forgiving than most people.

Marshall said that under legislation pending before congress 18 vessels proposed to be handed over to the Italians are surplus American liberty ships. They would replace Italian ships lost during the war while under American control.

Army Officer Will Talk Here

Chaplain (Major) Glenn M. Harbin, recently assigned to the Fourth Army with duty in the Military Personnel Procurement section, arrives in Big Spring Thursday to fulfill two speaking engagements.

Using good-will between various civilian agencies and the Army as his theme, Harbin will address radio audiences over KBST from 7:15 to 7:30 Thursday night, then make a personal appearance before the ABC club at that organization's regular weekly luncheon Friday in the Settles hotel.

Ordained a Baptist minister in Cullman, Ala., in 1936, Harbin participated in the Normandy invasion.

GOP Wants Boost In Minimum Wage

WASHINGTON, June 25. (AP)—Republican congressional leaders—under sharp attack from organized labor because of the new Taft-Hartley law—will push for speedy enactment of a 50 per cent minimum wage boost.

Hearings on bills to raise the current pay floor from 40 cents an hour will be started Friday by House labor subcommittee, with indications that 60-cent minimum will be recommended.

The tip-off that such a bill would be put on the "must" list for this session was given by House Republican Leader Halleck of Indiana at a GOP political rally in Wisconsin last week when he said: "We are turning our attention to legislation dealing with protection of our workers in the minimum wage brackets."

"I understand the leadership will accept 60 cents," Rep. Landis (R-Ind.) told reporters today as the Labor committee announced its hearings. "We are going to pass a bill this year."

Landis, author of one of the many pending bills dealing with minimum wages, is second man on the labor committee.

"We will put this thing through within the next few weeks," one of Halleck's aides said. Although few, if any, union members would benefit directly from a minimum wage hike, organized labor has plumped for it and President Truman has advocated a boost to as high as 75 cents an hour.

Veto Urged On Wool Measure

WASHINGTON, June 25. (AP)—Rep. Cooley (D-NC) called at the White House today to recommend a veto of the wool price support bill and reported afterward that President Truman did not "frown" at this advice.

Cooley told reporters he urged a veto "because of the bill's import duty provisions." The measure, which Congress sent to the White House last week, continues present government supports for wool prices and authorizes tariff boosts, or restrictions on imports, in event imports of foreign wool tend to depress prices.

Presidential Press Secretary Charles G. Ross told reporters Mr. Truman will act on the bill tomorrow or Friday.

Ross said the president will send a message to congress whether he signs or vetoes the bill. A veto added that action on another measure extending rent control will come early next week, but he does not know whether there will be a message in connection with that action.

Trains Isolated By Floods In Mexico

MONTERREY, Mex., June 25. (AP)—Floods have isolated two trains and washed out 60 miles of track between Monterrey and the U.S. border at Nuevo Laredo, Mexican National Railways reported last night.

Charter's Second Anniversary

United Nations Will Celebrate A Birthday

LAKE SUCCESS, June 25. (AP)—Two years that have changed the world end tomorrow—the second anniversary of the signing of the United Nations charter.

Since the charter was signed in San Francisco the world has seen: 1. The defeat of Germany and Japan. 2. A start on the road to outlaw war. Last-minute preparations were made by U. N. officials here today for observing Charter Day throughout the world.

At noon tomorrow, 2,600 members of the U. N. Secretariat headquarters staff will assemble in front of the administration building for a solemn ceremony marking the charter signing. Short addresses will be made by Secretary-General Trygve Lie and Assistant Secretary-General Byron Price.

During the afternoon the U. N. radio division will broadcast a half-hour program in the five official languages, including recorded messages from President Truman, Premier Ramadier of France, Prime Minister Attlee of Great Britain, Generalissimo Chiang Kai-Shek of China, and Deputy Foreign Minister Andrei A. Gromyko of Russia.

Premier Stalin had been invited to participate in the program but declined.

Fire Sweeps Cargo Vessel

JERSEY CITY, N. J., June 25. (AP)—Fire spread through two holds of the U.S. President Lines' 10,780-ton cargo ship, the S. S. Marine Flier, today as longshoremen loaded the vessel for sailing Friday to the Far East.

A heavy pall of blue-gray smoke rose from the ship and drifted across the Hudson river over downtown Manhattan. Two Coast Guard boats including the fireboat Sauk, the New York City fireboat John Harvey, 10 railroad tugboats, and 12 fire companies joined in subduing the blaze that broke out at 11:10 a. m. and was not under control until an hour and a half later.

When Jersey City firemen arrived at the scene they were told that eight longshoremen had been trapped in No. 2 hold of the Marine Flier. Fire Chief Frank J. Ertle said. He added that the report was soon discounted when firemen, wearing masks, went down into the hold and found no evidence of anyone being trapped.

Denison Defeats Charter Changes

DENISON, June 25. (AP)—Denison voters yesterday rejected almost two to one proposed amendments to the city's charter.

The amendments, first attempted on the 40-year-old charter, included a tax increase of 49 1-2 cents and changes in city government to include a five-man council serving without pay.

A vote of 2,000 was cast, a substantial total for city elections here.

US-British Oil Pact Criticized

WASHINGTON, June 25. (AP)—Sen. Tom Connally (D-Tex.) told a foreign relations committee meeting here yesterday that the Anglo-American oil agreement awaiting senate ratification contains language "so flexible and elastic and nebulous that I'm a little leary of it."

The Texans said, "You get a bunch of smart Brits around a table and they say a clause means one thing and we say it means another, and you've got a row."

Council Hears Protests From Runnels Paving

A heavy agenda kept Big Spring city commission in session for more than two hours and a half Tuesday evening.

At the outset of the meeting, commissioners heard a complaint registered by several residents on Runnels street regarding paving which was constructed there last fall. City Manager H. W. Whitney and E. L. Killingsworth, city engineer, explained to commissioners and the complainants that paving work on Runnels between 11th Place and 18th street has not been completed. The city plans to wait until late July to give the asphalt ample opportunity to absorb the gravel, they said. If a lengthy period of warm weather does not solve the problem, additional asphalt will be added to insure a satisfactory seal coat and a smooth surface, they assured the complainants.

Second reading of the city zoning ordinance headed the formal agenda. In connection with the zoning, Harry Stalcup, who appeared before the commission to request a permit for constructing a warehouse and bottling plant on Main street was referred to the zoning commission.

Two bids were opened for furnishing aviation gasoline at municipal airport, but both were tabled for further study by the city manager and the airport manager. Both bids quoted regular tank truck prices for the gasoline.

Whitney made a formal report on a conference he attended several days ago in Fort Worth, where a proposed instrument landing system at the Municipal airport was discussed with Civil Aeronautics Administration officials. The city manager said he had other proposals to make the CAA, which he explained to commissioners, and definite action will depend upon the new negotiations.

Pioneer Airlines submitted a landing fee proposal which was rejected. The airline proposed to pay a fixed rental for office space at the airport administration building and a percentage of gross revenue originating in Big Spring for each landing made by its ships at the Muni port.

The commission authorized the city manager to rent a warehouse at the airport to the Shell Pipeline Corp.

A brief study of the annual audit of city funds concluded the meeting.

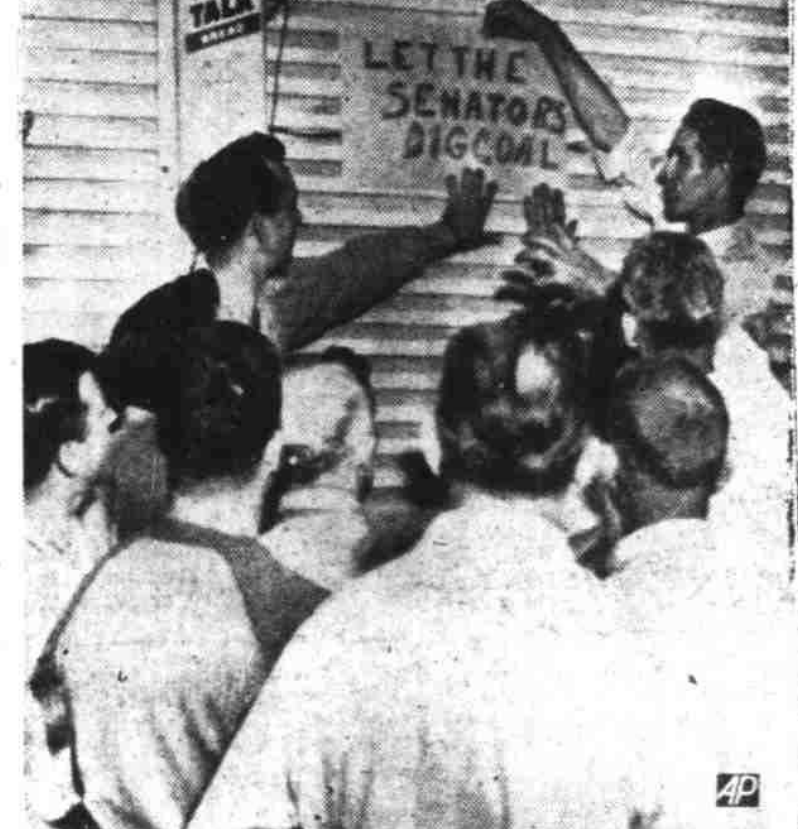

Air Safety Program Changes Are Asked

WASHINGTON, June 25. (AP)—The senate appropriations committee has recommended several changes in the government's air safety program, including the suggestion that the civil aeronautics administration close down the airport traffic control tower at Texarkana, Tex., the recommendations came as the senate group approved funds for operation of the CAA.

Romanian Arrests Draw U. S. Protest

WASHINGTON, June 25. (AP)—The United States protested sharply to the Romanian government today against the "arbitrary arrest without warrant or charge" of "hundreds" of opposition party members and others.

A note said that the arrests appeared to represent "a deliberate effort at the suppression or terroristic intimidation of democratic elements" opposing the present communist-dominated regime.

The State department made public the note which Roy M. Melbourne, acting United States representative at Bucharest, has been instructed to deliver to the Romanian foreign minister.

The note said that the arrests appeared to violate formal assurances given by Romanian officials that public liberties would be safeguarded. It said further that "such elemental human rights and fundamental freedoms" conflicted with terms of the Romanian peace treaty.

This treaty has been signed by the Romanian government and ratified by the United States.

President-Succession Issue Flares Up Again

Politics got all mixed up on Capitol Hill today as Senate Democratic leaders organized a fight against presidential succession legislation requested by President Truman.

Senator Hatch (D-NM) told a reporter he and a number of his party colleagues are going to do everything they can to defeat the measure which would make House Speaker Martin (R-Mass.), next in line for the presidency.

The senate has agreed to vote on the bill tomorrow and Senator Wherry (R-Nebr.), its author, conceded that if reports he hears are true, the Democrats might sink the proposal, with some Republican help.

Mr. Truman first made it to the Democratic congress last year. With Rep. Rayburn (D-Tex.) as vice president.

Democrats Against Bill Now

Mr. Truman renewed his recommendation to the new Republican controlled Congress, and Senate GOP leaders took the matter up in their policy committee and decided to try to enact it.

There were clear indications this decision was made with the thought that it might be more convenient for the Republican party in 1948—if anything should happen to Mr. Truman in the interim—to have Martin instead of Secretary of State Marshall in the White House.

Under present law, Marshall is next in line because there is no speaker, the House liked it enough to pass it but the Senate just sat on the bill. Some said there might have been legislative jealousy involved.

The CHIROPRACTOR-and You

No. 10 of a series of articles published in the public interest to explain and illustrate the practice of Chiropractic

HOW LONG WILL IT TAKE TO GET WELL?—No one can tell exactly how long it will take a peach to ripen, nor can a Chiropractor say with any degree of certainty how long it will take you to get well. The healing process is like the growing of corn: It is an effort of Nature, and we cannot dictate to her how long she must take.

The Chiropractor by adjustments opens the door which was closed against this healing process, and then Nature gets to work. The time she takes depends upon the amount of repairing that has to be done. The forces within your own body necessarily govern the process of getting well. If you take reasonable care of your spine while taking adjustments you will get well much quicker. One should avoid heavy lifting, straining or twisting, etc., to preserve and increase the benefit he may have received from adjustments. The majority of cases start to improve

in a few days. Some after the first adjustment.

CASE HISTORY No. 2006. A man 70 years old who for 25 years—one third of his life—had been under treatment for diabetes. He had been told repeatedly "Once a diabetic always a diabetic." Hearing about Chiropractic through a friend, his curiosity prompted him to visit a Chiropractor's office. He agreed to have spinal X-rays taken and in them it was shown a misaligned vertebra which the Chiropractor declared was the cause of his trouble.

Spinal adjustments were commenced and two months later a urinalysis and blood test showed complete freedom from diabetic indication.

WHAT GIVES 'ROUND TOWN

By Leatrice Ross

There was a lot of scuttling back and forth on vacations over the weekend. And all come back with much to relate of their travels.

Laverne and Jeanette Kinman are in from a two-week stay in Los Angeles. One of many places they like to tell about is Ken Murray's "Black Outs" night club in Hollywood, where lights blink off whenever the emcee or an entertainer pulls a funny.

Marie Wilson was guest star at the "Block Outs", and others of the cinema seen were Dennis O'Keefe, June Allyson, Dick Powell. . . Jeanette and Laverne also made a day of it at their first horse race.

Strangely enough Murph Thorp and Harold Jones come back from a weekend of fishing with none of the proverbial fish stories. Seems they caught only three fish—small ones, too—and don't care. Murph and Harold had the Thorp motor boat on Lake Nasworthy at San Angelo, and camped out nights.

Lillian Tamsitt and Scooter Terry got in Saturday from four days looking over El Paso and Juarez. . . Due to return today from a fishing trip to Brownwood are Patsy Ann Tompkins, Beverly Stulting and Dorothy Satterwhite. They had picked up Patsy Sue McDaniel in Abilene for the excursion.

Jo Nell Sikes has spent several days in Midland and Seminole.

Latest Electrical Appliances To Be Seen In Three-Day Show

The Texas Electric Show of '47, presenting practically every type of modern household electric appliance and electrical equipment, opens for a three-evening stand at 6 p. m. today in the high school auditorium.

There is no admission charge, and thousands are expected to view the maze of appliances, couched in attractive settings this evening until 11 o'clock and at the same hours Thursday and Friday.

Tuesday afternoon and this morning truckloads of gleaming white electric appliances, newest model

radios, home coolers, automatic laundries and dozens of other pieces of electrical equipment were moved to the auditorium.

Decorations are in Western motif and feature multi-colored illuminated posts profusely decorated with famous cattle brands. There also is a rich setting of purple and red drapes, colored lighting, and glistening mirrored columns supporting large revolving figures of Reddy Kilowatt.

Visitors will be given Reddy Kilowatt buttons, a cartoon book on the life of Thomas A. Edison and

other useful pamphlets.

For 15 minutes on every hour, a five-girl band, "The Texas Sweethearts," plays popular and swing music.

By nightfall most people within a radius of 20 miles of Big Spring will know that a big event is underway, for two army-type searchlights of 800 million candlepower each will sweep the skies above the high school auditorium.

Show visitors also will find the farm and ranch exhibit, housed in a large tent immediately west of the auditorium, of great interest. Latest kinds of electrical equipment for agricultural uses—such as walk-in freezer, milk coolers, water pumps and many other labor-saving devices—will be on display. A soil conservation exhibit is being featured this year.

A Hereford heifer is on display there along with three pigs, 50 baby chicks and an electric roaster to be given away on the final day of the show to some 4-H club boy or girl or FFA member.

Approximately 20 local dealers are displaying scores of items made by 38 manufacturers. Last year 10,000 people viewed the displays when presented here.

White Man Denied Property Left By His Negro Wife

JACKSON, Miss., June 25. (AP)—Chancellor V. J. Stricker ruled here yesterday that a white man who married a Negro in Chicago can not inherit her property in Mississippi.

The ruling was made in the suit of Alex D. Miller, who married Pearl Mitchell in Chicago in 1939. The suit sought property she had owned here. The property, estimated to be worth \$25,000, included a business building, two residences and several smaller structures.

The chancellor held that the property which belonged to the Negro woman before her death should go to her relatives here.

He gave as the reason for his ruling a Mississippi law which holds that any marriage is illegal if one of the participants is white and the other has blood which is at least one-eighth Negro or Mongolian.

Bollworms Attack Valley Cotton Crop

WESLACO, June 25. (AP)—The ordinary cotton bollworm, sometimes known as the tomato fruit worm, threatens to cause serious damage to the Rio Grande Valley's cotton crop, according to W. H. (Bill) Friend, superintendent of the state experiment station near here.

Friend said the worm was the plain and ordinary variety and not the better known pink boll worm, which the valley has been fighting the past 10 years. He advised farmers to check their fields to determine whether the worms are attacking their crops. He said the worms, which often invade tomato fields, attack bolls and squares.

Health Officials Meet At Laredo

LAREDO, June 25. (AP)—State health officials from California, Arizona, New Mexico and Texas will hold an international conference in Laredo from June 30 through July 2. Dr. F. A. Musacchio, director of the Laredo-Webb county health unit, said.

Delegates from three federal health agencies conducting international programs will participate. These are the U. S. Public Health Service, Pan-American Sanitary Bureau and Institute of Inter-American Affairs.

Palomino Group Names Inspectors

SAN ANGELO, June 25. (AP)—Twenty-three officials inspectors for the Texas Palomino Exhibitors' Association have been named by officials. Mrs. D. L. Haralson, secretary-treasurer, here has announced. The inspectors will serve for one year.

Production Of Home Laundry Line Set

Production of a home laundry line, representing the culmination of 10 years research, has been launched, Elton Taylor reported today on his return from Fort Worth where he attended a one-day session of Frigidaire dealers Monday.

H. L. McGurk, branch manager, explained the new line and said that washers, dryers and ironers would be available through a limited number of dealers after July 1. The washer involves a new "live-water" principle and a new "pulsator" which affords an up-and-down movement of 330 times a minute, said Taylor. The machine is full automatic, washing, rinsing twice and damp drying clothes in 30 minutes with a single dial setting. The 30-inch ironer and the electric dryer are equally fast.

Governor To Make Report To People

AUSTIN, June 25. (AP)—A report to the people on legislation passed by the 50th legislature will be presented by Gov. Beauford H. Jester over a statewide hookup early next week.

Time and stations will be announced later.

Congressional Immunity Keeps Solons From Stand In May Trial

WASHINGTON, June 25. (AP)—Prosecution and defense attorneys said today congressional immunity has blocked efforts to have Senator Barkley (D-Ky) and Rep. Buckley (D-NY) testify at the May-Garsson bribe conspiracy trial.

William A. Paisley, special assistant attorney general, said the Justice department has been unable to locate Buckley either here or at his home or office in New York.

Defense Counsel Charles J. Margiotti told a reporter he wants to call Barkley, the Senate Democratic leader, but that Barkley's office described the senator as too busy to testify.

The attorneys said a constitutional provision against detention of members of Congress while a session is in progress prevents enforcing any subpoena to require them to appear at the trial.

The two congress members were sought as concluding witnesses in the ten-week-long trial of Andrew J. May, wartime chairman of the House Military committee, and Munitions Makers Henry and Murray Garsson.

May, former Democratic house member from Kentucky, is accused by the government of taking more than \$50,000 in bribes from the Garsson brothers to perform favors for their \$70,000,000 munitions combine.

May has testified he borrowed \$5,000 from Buckley as an "accommodation" for Murray Garsson when Garsson needed the mon-

ey in 1941 to buy a lease on a Greenbrier county, West Virginia, manganese mine.

Transit Strike In Two Texas Cities Is Postponed

DALLAS, June 25. (AP)—A. R. Hardesty, CIO regional director for Texas, said today that a transportation strike in Sherman and Denison had been stalled until Friday. A strike has been voted by CIO union employees of the City Transportation System, Inc.

Hardesty said he arranged for a "final" conference with the company Friday at Sherman in an attempt to settle a demand for reopening of the wage contract clause in the contract. The company and the union have been negotiating for about two weeks.

Dallas Developer Buys Valley Land

EDINBURG, June 25. (AP)—The Rio Development Company, headed by Lloyd M. Bentsen of Mission, has sold 1,000 acres of Hidalgo county land to Leo F. Corrigan, Dallas developer, at an indicated price of \$200,000, according to records on file today with the county clerk.

Revenue stamps attached to the deed indicated the figure involved in the transaction.

The tract is located in the San Salvador Del Tulo Grant north of here.

May Ask Extension Of Cotton Plowup

MERCEDES, June 25. (AP)—A meeting of the Rio Grande Valley Cotton committee will be held at the Valley Farm Bureau office here today to discuss the valley cotton situation and a proposal to extend the plowup deadline.

Growers in dry land areas, where the crop is expected to be late, have asked the extension. Under present state and federal regulations all cotton must be picked and stalks plowed up not later than Aug. 31.

Red Blood Cells Must Be Kept Up If You Want To Feel Alive

Thousands Now Regaining Old Time Pep, Vigor and Drive By Releasing Vibrant Energy To Every Muscle, Fibre, Cell

Overwork, undue worry, and lack of certain foods often reduce the red-blood strength—and starved, weak, puny blood just hasn't the power to keep up your energy and drive.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that 888 Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the 888 Tonic formula which contains special and potent activating ingredients.

Also, 888 Tonic helps you enjoy the food you eat by increasing the gastric digestive juices when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloating and give off that sour taste.

Don't wait! Energize your body with rich, red-blood. Start on 888 Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get bottle from your drug store. 888 Tonic helps Build Sturdy Health.

Supervisors To Obtain Seed For Soil-Enriching Crops

Hard-to-get seed for cover and soil enriching crops are being arranged for by the supervisors of the Martin-Howard Soil Conservation District. At their called meeting last week they received an incomplete report on seed needs, for Abruzzi vetch, hairy vetch, Madrid and Hubam clover, Austrian and Dixie wonder winter peas, which indicates a strong demand for fall planting.

Information furnished the supervisors by technicians of the Soil Conservation Service point toward considerable acreage of these crops to be planted as a part of a coordinated soil management program designed to control erosion, improve soil fertility and improve the permeability of soils by adding organic matter.

The need for soil building measures was emphasized by wind erosion damage to cotton and feed crops last week. A number of fields "blew out during the strong winds on Saturday, while fields which had an adequate amount of organic matter in the soil from use of cover crops and crop residues suffered no damage.

With approval of their conservation plans by the district supervisors, thirteen farmers and ranchers became cooperators with the district soil conservation program. Included in the plans covering 17,749 acres were the farms and ranches of F. L. Bass, J. B. Calverley, C. V. Hewett, Mrs. Etta Wade, J. B. Stevenson and W. T. Barber.

Richard C. Thomas is one of the district cooperators who believe it is necessary to have a

so that each pasture will have a three months rest every five months. The three month rest period will give the grass a chance to mature seed and increase in vigor which is necessary for range improvement.

"I follow a system of rotation grazing on another ranch, Collins said. The stock are in better condition and the range is improving from use of this system of grazing."

H. H. Wilkinson is another cooperator using deferred grazing of his pasture land on his ranch in

the Hartwell Ranch Group, to improve the condition of his range. Binie White is constructing a 1500-cubic yard stock pond on his ranch in the Vincent Ranch Group to provide better distribution of water for his livestock. Soil Conservation Service technicians assisted White with the location and designed and staked the stock pond.

The Thames River in England reached high levels not equalled since 1894 during the spring floods of 1947.

Section 2. It shall be the duty of the Health Department or any of its duly authorized representatives to investigate the premises and determine whether said premises are suitable for use as a combined automobile tourist court and tourist court and/or tourist court or the site selected therefor complies with such requirements of this ordinance, the rules and regulations of the Health Department and the laws of the State of Texas, and the City of Big Spring, Texas, and to issue a permit to use such premises as a combined automobile tourist court and/or tourist court.

Section 3. Revocation or Suspension of Permit. Any permit granted hereunder shall be subject to revocation or suspension by the Health Department in the following manner: to-wit: A notice shall be served on the person holding said permit specifying him to appear before the Health Department on a certain date, therein specified, not less than five (5) days after the personal service of said notice on such permit holder, requiring him to show cause at said time and place why said permit should not be revoked or suspended. At the time and place mentioned in said notice, the person holding said permit shall have the right to appear in person, or by counsel, and to be heard by the Health Department and the Health Department may at its discretion revoke or suspend the permit.

Section 4. Permit Not Transferable. A permit granted hereunder shall be valid only for the person named therein, and shall expire at the end of the year in which it was issued, unless previously renewed. No permit is transferable.

Section 5. Signs to be Posted in Conspicuous Place. It shall be unlawful for any person, firm or corporation to establish, maintain, conduct or carry on any automobile tourist court or combined automobile tourist court and/or tourist court unless there shall be posted in a conspicuous place on said automobile tourist court and/or tourist court a sign or signs, the content of which shall be as follows: "This is an automobile tourist court and/or tourist court, and the permit holder is responsible for the maintenance and safety of the premises and the conduct of the guests."

Section 6. Scope of Ordinance. The provisions of this ordinance shall be applicable to every automobile tourist court or combined automobile tourist court and/or tourist court located within the incorporated area of the City of Big Spring, Texas, and it shall be unlawful for any person, firm or corporation maintaining, operating, conducting, or carrying on any automobile tourist court or combined automobile tourist court and/or tourist court, for any person living or sleeping in any house car located in any automobile tourist court or combined automobile tourist court and/or tourist court, or any other person, to violate or contribute in any manner to the violation of any of the provisions of this ordinance.

Section 7. Responsibility of Owner or Operator. Every person owning an automobile tourist court or combined automobile tourist court and/or tourist court shall maintain such automobile tourist court and/or tourist court in a clean and sanitary condition, and shall provide and maintain in a state of good repair:

(a) Adequate drainage and access to the street, and/or tourist court, hereinafter established, shall be laid out and maintained by the owner or operator of said automobile tourist court and/or tourist court, and shall provide available unoccupied space of not less than ten (10) feet in all directions for each house car, and such available unoccupied space shall not be occupied by any structure, vehicle, or any portion of any house car. House cars shall be arranged in rows abutting or facing on a driveway of clear unoccupied space of not less than twenty (20) feet in width, which space shall have unobstructed access to a public street or alley.

(b) Drainage of Premises. Every automobile tourist court and/or tourist court shall be provided with adequate drainage and access to the street, and shall provide available unoccupied space of not less than ten (10) feet in all directions for each house car, and such available unoccupied space shall not be occupied by any structure, vehicle, or any portion of any house car.

(c) Removal of Debris or Similar Matter. Every automobile tourist court and/or tourist court shall be provided with adequate drainage and access to the street, and shall provide available unoccupied space of not less than ten (10) feet in all directions for each house car, and such available unoccupied space shall not be occupied by any structure, vehicle, or any portion of any house car.

How full is your reservoir?

When the streams shrink to trickles and it just won't rain, it's mighty comforting to know that there's a full reservoir of water to see you through the dry spell. But when your income shrinks to a trickle, or stops, what then? How full is your reservoir of dollars? Unless it's full to overflowing—unless you have all the money you'll ever need—it isn't full enough. And in that case, it's up to you to keep on saving! Today, that's a cinch if you save the easy, automatic way... buying U. S. Savings Bonds on the Payroll Savings Plan. These regular, systematic Bond purchases are a fool-

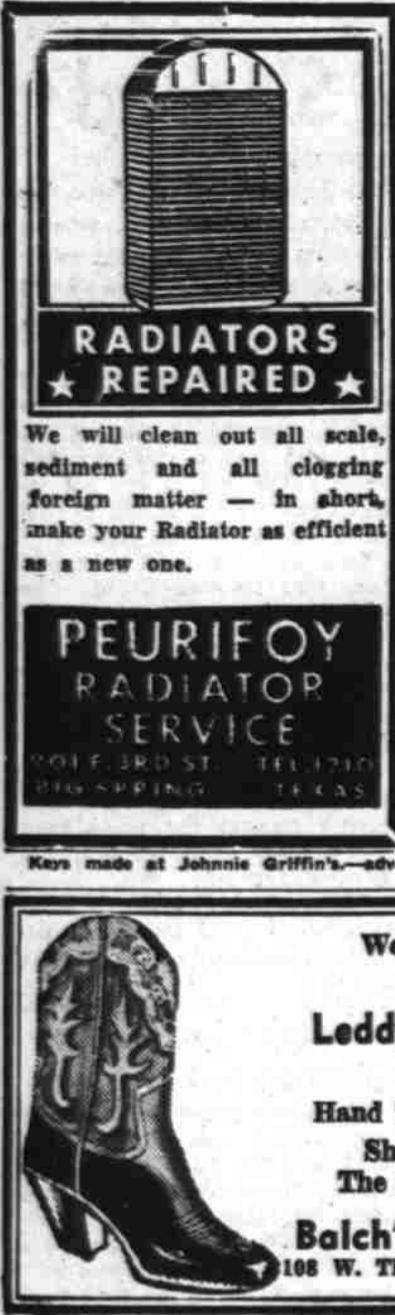

proof way to build an emergency fund. They're the safe, sure way to reach the financial security and independence you're working for. And remember, every dollar you put in Bonds is a double-duty dollar. It helps keep your country financially strong, and it makes more money for you. Every \$75 you save will grow to \$100 if you hold the Bond to maturity. So hold every Bond you buy... and buy every Bond you can. Get them at any bank or post office, but if you really want a full reservoir of dollars fast, get on—and stay on—the Payroll Savings Plan.

New Zealander Hitch Hikes To Texas— Foreign Lad Hunts Cowboys

PERRYTON, June 25. (P)—Eighteen-year-old Roy Lakey came a long way to work in the harvest fields of the Lone Star State—from the city of Christ's Church in New Zealand.

He left home about six months ago and headed for the United States because "I wanted to see Texas."

Now that he's here, he wants to work in the harvest fields.

Young Lakey got a job as cabin boy aboard a British oil tanker at \$10 a week to get to America. Three weeks ago the ship landed in San Francisco.

Lakey said knowing no one in the west coast city wasn't any bother—he just asked which way led to Texas and started out.

Hitch-hiking, a la American, came easy for him. "I just started walking and pretty soon someone would stop and pick me up. The first time I was nervous because I knew the man was going to ask me for his fare for the ride, and I didn't have much money. But he didn't ask me for a cent."

When he reached Amarillo last week he found out about the big wheat harvest getting set to start in Perryton. And immediately he started out, hoping to land a job.

So far he hasn't found a harvest job but he expects to soon.

He said he doesn't know a lot about the farm machinery used in the United States.

"Your trucks have too many gears," he said. "I'd get all confused trying to shift them. Our trucks are much simpler and less powerful than yours."

Except when it rains, he sleeps out in the open, using the blankets in a bed roll he brought with him.

His present plans are to work during the harvest and then tour Texas.

Only one thing seems to bother him: "Where're the cowboys?"

TS&GRA To Have Quarterly Parley

DEL RIO, June 25. (P)—Members and directors of the Texas Sheep & Goat Raisers' Association are to have their second quarterly meeting here Friday. Principal speakers will include Coke Stevenson, Junction, former governor of Texas, who is a member of the joint commission on the foot-and-mouth disease campaign in Mexico, and Dr. E. W. Laake of the entomology station at Kerrville.

Directors will select dates for the annual TS&GRA Convention which is to be held in El Paso early in December.

Man Gravely Hurt In Butane Blast

PERRYTON, June 24. (P)—A 20-year-old truck driver was reported in a critical condition today after a butane gasoline truck caught fire and exploded here yesterday, destroying three automobiles and two trucks and damaging a nearby lumberyard.

The driver, Charles J. Huntoon, was attempting to extinguish the fire when the explosion occurred.

Austin College Is Given \$250,000

SHERMAN June 25. (P)—Austin College received an unrestricted gift of \$250,000 from M. B. Hughey, Charlotte, ranchman, it was announced today.

The gift was said to be the largest received by Austin College in its 98-year history. Use of the money will be decided by college trustees.

Wool, Mohair Show Has 300 Entries

SONORA, June 25. (P)—The 10th annual Sonora Wool & Mohair Show, to be held here June 25-26, has attracted around 300 entries of wool and mohair fleeces from club boys and FFA members of 16 West Texas counties.

Ailing Curley Rests Before Hearing Fate

WASHINGTON, June 25. (P)—James M. Curley, ailing 72-year-old mayor of Boston, rested here today for his federal court appearance tomorrow to learn whether he must serve a sentence of six to 18 months for mail fraud.

"He's fallen apart at the seams," said a neighbor who made the train trip to the capital with Curley. "He knows the only thing that can save him is for the judge to give him a suspended sentence or for the president to pardon him."

The neighbor, William F. Killian, was one of a retinue of about 20 who accompanied the aged veteran of the political wars on his trip. Curley arrived last night.

The supreme court has turned down his final appeal from conviction a year ago on charges that he profited in a fraudulent \$80,000 war-contract brokerage scheme.

He was sentenced last Feb. 18, a month after he took the oath for a fourth term as mayor of Boston.

Curley has announced his intention to run the office of mayor from behind bars if necessary. However, James V. Bennett, director of federal prisons, said prison regulations would not permit any such outside activity.

Local Diseases Decline Noted In

The number of communicable disease cases in Big Spring and Howard county declined sharply during the past week, according to the regular report of the city-county health unit.

Total cases for the week amounted to five of all types, as compared to 22 during the previous week. Reported cases of venereal diseases dropped from six to four, while one case of tuberculosis was on the list again.

Diseases included on the previous weeks report which were missing from the latest tabulation were cases of pneumonia, measles, dysentery and one case of polio.

Adm. Noble Named To Ordnance Bureau

WASHINGTON, June 24. (P)—President Truman today nominated Rear Admiral Albert G. Noble to be chief of the Navy's Bureau of Ordnance for four years.

Noble's appointment is subject to confirmation by the senate. He would succeed Vice Admiral George F. Hussey, Jr., of Brookline, Mass., who is retiring this fall.

Noble, a native of Preston, Tex., makes his home officially at Ardmore, Okla. He formerly was assistant chief of naval operations for Ordnance.

Drowning Victim's Body Sent To U. S.

W. H. Cardwell received notice Tuesday morning that the body of his grandson, Lt. Elmo Nichols, victim of drowning in the Weiser river in Germany, had reached New York.

Lt. Nichols drowned when the boat in which he was riding capsized. His body was found approximately two weeks later six miles downstream in the mouth of the river. Burial will be in Arlington national cemetery, but Mr. Cardwell will be unable to make the trip to Washington, D. C. Date for the committal rites has not been set.

Wheat Exchanged For Corn Shipments

WASHINGTON, June 24. (P)—The Commodity Credit corporation said today it has agreed to accept about 1,000,000 bushels of wheat in place of corn which it contracted for delivery at Gulf ports for shipment abroad.

The swap is being made, officials said, because corn is currently scarce in the Southwest while there are large quantities of new crop wheat available there.

Jester Has Check-Up

AUSTIN, June 25. (P)—Gov. Beauford H. Jester will fly to Galveston today for what he described as his annual routine physical checkup.

He plans to spend most of tomorrow and Thursday fishing in the Gulf, then he goes to Fredericksburg Thursday night for a chamber of commerce dinner. Friday he will be in Rockport for the annual press party there.

Hosses Rack Up Fourth Win In Row Behind Patterson

Stasey Clouts 16th Homer

ODESSA, June 25.—Sparked by Pat Stasey's 16th home run of the season, the Big Spring Broncs smashed the Odessa Oilers, 11-3, here Tuesday night to protect their game and a half lead over the second place Midland Indians.

Lloyd "Pat" Patterson snapped his personal losing streak at three straight games by setting the Refiners down with nine scattered safeties. Only Tommy Perez touched him for more than one blow.

Stasey, who collected his round tripper in the first inning with Orle Moreno on base, went on to pick up four hits in four trips. He had a double and two singles in addition to the four master.

Jake McClain hit a three run triple for Big Spring in the seventh and garnered two singles, as well.

The victory was the Hosses' fourth in a row and Patterson's eighth win of the campaign. He struck out seven and issued but three walks.

Joe Embrey, who started on the rubber for Odessa, lost in third game in three starts against the Cavuses.

The two nines close out their series with a single game tonight. Gerry Rodriguez is booked to go to the rubber for the Big Springers.

Spahn And Sain Gunning For New National League Pitching Mark

By The Associated Press

Pitchers Warren Spahn and Johnny Sain, Mr. Left and Mr. Right of the pennant-starved Boston Braves threatened today to eclipse the modern National league record number of victories hung up by two pitchers of the same club in one season.

With 20 wins already in the bag, Spahn and Sain, upon whom Braves followers are depending to bring them their first flag in 33 years, stand a fighting chance to better the mark of 52 garnered by Bucky Walters and Paul Derringer of the 1938 Cincinnati Reds. Walters won 27 and Derringer 25 that pennant winning year.

standard is held by Hal Newhouser and Paul (Dizzy) Trout of the 1944 Detroit Tigers. They copped 56 that year.

Spahn, a 25-year-old sophomore from Buffalo, N. Y., nabbed his 11th triumph against two defeats last night when he pitched the Braves to a 9-6 victory over the climbing Cardinals in St. Louis. He allowed only eight hits, but three of them were home runs to account for five St. Louis runs.

In pitching his ninth complete game of the campaign, Spahn tied his teammate Sain in that department.

Spahn's victory enabled the Senators to retain their one game lead over the Brooklyn Dodgers in the torrid National league pennant race. The Dodgers nipped the Pirates 4-2 in a night game at Pittsburgh. The New York Giants protected their third place hold against the Cubs by slugging the Bruins 11-0 in a day game in Chicago. The Reds edged up on the fifth place Cardinals by knocking off the Philadelphia Phils 4-2 in a night game at Cincinnati.

Looking 'Em Over

WITH TOMMY HART

Odessa school officials are going to make another major effort to wrangle permission from the CPA to build a huge new football stadium. According to the Odessa newspaper, the American, title for the proposed site has already been cleared and Supt. Murray Fly has been instructed by the school board to begin writing letters to government construction agencies, seeking authority to go ahead.

From all indications, Fly Field will be used by the Bronchos again this fall but the seating capacity of the stadium will be upped from something like 10,000 to 15,000. Collapsible bleacher seating is already being added to the park.

Mr. and Mrs. Harold Canning, who made a trip to Carlsbad, N.M. last weekend were occasioned to see a spectacular pileup of machinery which climaxed a series of midget auto races held in that city.

The speedsters waited until the seventh and final race of the afternoon to start the fireworks, then three of them crashed. One of the vehicles wrecked was driven by Roland Hayes, a San Angelo boy, who escaped injury despite the fact that he turned a complete flip.

The other two—Charles Griffin and Ronald Holland—were not so lucky. Both were hospitalized.

Pepper Martin's home run against Vernon in the North Texas city last week—his 15th of the campaign—was the first one he has been able to hit over a right field barrier this season.

According to Pepper, Mario "T-Bone" Varona is finally coming down as a hitter. What kept him down so long remains a mystery but his slump hurt his popularity with the fans very little. The colorful Cuban always gets a tremendous hand when he goes plateward.

Alton Bostick, the former Big Spring and a brother to the Broncs' Leamon Bostick, will shortly get a tryout with the Odessa Oilers.

Alton played a thumping good game with the Texas university Steers some years back, since has turned to softball. He's a catcher and may be able to help the Odessa team.

Dick Allinder, the catcher who was pink-slipped by the Ballinger club recently, is now performing for the San Angelo Colts. C. West's semi-pro team. His skipper is a former team-mate of his, Clyde Hutto.

First man Johnny Kieck, the Angelo high school coach-turned-baseball-pitcher, threw to after John joined the Lamesa Lobos hit a home run with the bases loaded. However, reports insist Johnny is earning a place on Geo. Sturdy's roster.

Tanner Laine, the Midland scribe includes five Big Spring men on his version of an all-star nine made up of the Longhorn league's "Western" teams—Big Spring, Midland and Odessa.

He would use Tony Traspueto behind the dish, Gaspar Del Toro at short stop, Jose Cindan and Bert Baez as pitchers and Pat Stasey as a reserve outfielder.

Besides Del Toro, his infield would be composed of Jim Prince (Midland) at first base; Rex Pearce (Odessa), short stop; Johnny Alvis (Midland), third base. Laine prefers Harville Jakes, (Odessa) over Stasey and picks Arnold Davis (Midland) and Henry Ramsdell (Midland) to round out his outfield.

The stricken fighter was still unconscious and attendants at the hospital said his condition remained critical. Oxygen was being administered to aid his breathing. The Rev. James W. Nagel, hospital chaplain, administered the last rites of the Catholic church.

The operation was performed by Dr. Spencer Braden, noted Cleveland brain specialist.

Doyle was carried from the arena ring on a stretcher and rushed to the hospital after weight champion Ray (Sugar) Robinson flamed him with a vicious left hook in the eighth round of a scheduled 15-round championship bout before 11,275.

First Baptist swamped West Side Baptist, 16-3, and East Fourth Baptist nudged First Christian, 10-7, in Church Men's softball league play at the city park Tuesday evening.

Justin Holmes hit a home run for the losers in the latter go while Buck Tyree and Garrett Patton teamed up to pitch the Christians into submission.

Forsan First Half Play To Be Wound Up Tuesday

Magnolia Edges Grocers, 5-2

FORSAN, June 25.—Held scoreless until the fourth inning, the Magnolia softballers scored five runs in that inning to defeat Moores Grocery, 5-2, in the feature Forsan Community league contest here Tuesday night.

Bobby Cowley, J. Pike and H. E. Johnson hit home runs in that round to enable to Magnolia gang to come from behind. Cowley limped the Grocers to two safeties but Moore picked up both its runs in the top half of the fourth and appeared on its way to a triumph.

Continental, batting completely around in the first round, went on to smash Ross City, 19-3, in the evening's other debate.

LeRoy Dolan, the only man who failed to hit in the initial frame, went on to clout a home run in the third while Stan Porter had a round tripper in the fifth as well as a double.

Burl Griffith picked up a double and triple off Klein, Ross City hurler, while D. Anderson, W. Miller and J. Seward all had two basers.

Continental tangles with Moore and Forsan opposes Lees in make-up games Thursday while Continental squares off with Lees and Ross City meets Forsan in Fridays bouts. First half schedule will draw to a close next Tuesday when Moore is pitted against Lees and Forsan ties into Magnolia.

First game:	W	L	Pct.

Lees	3 3 .500
Moore	2 4 .333
Ross City	1 6 .143

Shreveport and Fort Worth are battling second place in the Texas league around like a ping pong ball.

Shreveport traded places with Fort Worth again last night, the third straight that the position has changed hands. And Fort Worth was getting uncomfortably close to fourth place Dallas.

The Sports regained the runner-up spot with a 5-1 decision over Fort Worth. Dallas continued to press forward by blanking Beaumont, 8-0, while the league-leading Houston Burfs bowed again to Oklahoma City, 7-6 in ten innings. Tulsa swept it series with San Antonio, 13-7.

Clarence Gan Held Fort Worth to four hits for his ninth victory of the year. The Sports pushed over two runs in the sixth and three more in the seventh. The Cats picked up a run in the final inning.

All Rosen, the league's leading batter, singled in the tenth inning and romped home with Oklahoma City's payoff on Jess Newman's double. Al Pappi yielded 12 hits to the Indians, but came through with a home run and two singles for three of Houston's nine.

In blanking the Beaumont Exporters Dallas figured in its fourth consecutive shutout game. Three of them have gone on the win side of the Rebels' ledger.

An eight-run spree in the last of the third inning sank any hopes San Antonio had of stopping Tulsa. Thirteen Oiler batters went to the plate this inning and the spurge broke a 3-3 deadlock.

The Missions collected four home runs — by Jimmy Grant, Pete Lewis Tom Jordan and Bill Seintosh.

There is a general switch in playing sites today. Dallas starts a nine-day road trip by stopping off at Fort Worth. Oklahoma City moves over to Tulsa, and Shreveport drops down to San Antonio. The two south Texas nines — Houston and Beaumont get together at the latter's park.

Ferrier Sacks Up PGA Crown, 2-1

Red-Hot Putter Decides Duel

DETROIT, June 25. (P)—Tall, stoop-shouldered Jim Ferrier, Australian-born chip and putt master from San Francisco, ruled as the match king of professional golf today after whipping home-bred Melvin (Chick) Herbert, of Northville, Mich., 2 and 1, in the "Battle of Plum Hollow" for the American PGS championship.

Ferrier, who hadn't won a major national championship since he left Australia in 1939 after four triumphs in the Australian Amateur and two in the Australian Open, zoomed into fourth place in the pros' 1947 money parade by pocketing the \$3,500 top prize here for his first tournament victory of the year.

In running his tournament earnings to \$9,669.16 since the first of the year, the gum-chewing, club-wagging Ferrier played approximately 12 rounds in a week over Plum Hollow golf club's long, tricky, 6,922 yard layout at an aggregate of 27 strokes under par for 264 holes.

If anybody ever won a championship with one club Ferrier did it with his putter. He dropped in a 60-foot putt on the 36th green to carry his third round match with Claude Harmon into extra holes, winning on the 37th, and "putted" Herbert right out of the championship in yesterday's finals.

Ferrier required just 54 putts for the 35 holes his match with Herbert went, dropping six of them at distances ranging from 15 to 35 feet.

Chick, meanwhile, missed a total of eight putts of seven feet or less in the finals, five of them to win and three to tie, and used 62 putts during the day's doings.

"He really murdered me with that 35-footer on the 23rd hole," Herbert said after the match. "We were all square at the time and I honestly was looking for him to take three to get in when he slapped it into the back of the cup for a deuce. I never could catch him after that."

A number of steamers on the Great Lakes are now equipped with radar, making it possible for them to proceed safely under conditions which in prewar days would have caused them to anchor.

Second Husband is Killed in Crash
HAVERHILL, Mass., June 25. (P) Mrs. Anthony F. Walker was left widowed for a second time today by the crash of airplanes.
 Her 22-year-old husband died yesterday in a crash which also took the life of Arthur C. Belmer, 22, student pilot of this city. Her first husband, T-Sgt. Bernard O'Donnell was killed in a crash in Florida during the early stages of the war.
 Belmer, a veteran, had arranged to take flying training under the GI bill of rights. Walker and the former Miss Doris Brooks were married last April 16.

Must Forestall Fluctuations In Economy, Hoffman Asserts

WASHINGTON, June 25. (AP)—Paul G. Hoffman, president of Studebaker Corp., said today the income of most Americans could be "doubled within 25 years" by "wise action" to smooth out the national economy.

The industrialist cautioned that "We cannot live with fluctuations such as that which took place between 1929 and 1932, when business volume dropped more than 50 per cent."

Hoffman said "Another collapse of that magnitude might cost us our free economy."

Hoffman is chairman of the board of the Committee for Economic Development, a group of businessmen organized to study the problem of maintaining a high level of productive employment.

He expressed his views in a statement prepared for the joint congressional committee on the economic report. This group is considering ways and means of "preventing depressions so that substantially full employment may be continuously maintained."

Hoffman, in laying down a blueprint for government and business to follow toward this objective, told the committee:

"If through wise action we can make our economy operate more effectively, the real income of most of our people can be doubled within 25 years. We can largely realize the age old dream of abolishing poverty."

More Bids Taken On Highway Projects

AUSTIN, June 25. (AP)—The state highway department today resumed opening of bids on 53 highway construction and improvement projects, low bids on 24 of which yesterday reached a \$2,842,960 total.

Estimated cost of the entire 53 projects is approximately \$6,400,000.

Activation Of Naval Reserve Unit Is Set

Authority to use the bomb sight training building at the former bombardier school, which was granted Tuesday, has assured early activation of a Naval Reserve unit in Big Spring, Wayne Williams, who has been designated commanding officer, said today.

Williams appeared before the city commission Tuesday afternoon to make formal request for use of the building. The Navy plans a unit composed of about five officers and some 40 enlisted men, he said. Large quantities of specialized equipment, including radio sending and receiving sets, radar installations for sending and receiving and underwater sound equipment will be shipped here by the Eighth Naval District Headquarters in New Orleans.

The bomb sight training building is among the structures already turned over to the city by the Federal government as airport property. City officials said they had been informed that the building could be used by the Naval Reserve without violating any terms of the building's acquisition contract.

Meetings Called On Latin-American Legion Program

Persons interested in organizing a Latin-American chapter of the American Legion have been invited by Gene Salazar, acting commander, to attend a meeting at 8 o'clock this evening in the Rosales building in the northwest section of the city.

At that time, applications for membership will be accepted and dues set. Permanent officers will probably be elected Salazar stated. The proposed chapter would be organized as an independent organization, Salazar stated.

Returned Here To Face Theft Charge

E. C. Parker, accused of stealing several hogs from the Big Spring State hospital two months ago, was returned here Tuesday from Amarillo by deputy sheriff Tracy L. Kupper.

Parker, who has waived \$2,000 bond, is already facing a 15 year prison term, which he received in Canyon recently upon conviction of a statutory charge.

John Cantrell, Parker's alleged accomplice, has been in the county jail here for several weeks.

Curb And Gutter Work Started For Paving Of West 17th St.

Street department workers began pouring concrete this morning for the first 300 feet of curb and gutter, installations on the West 17th street paving project, city officials announced.

The preliminary work on that project will be speeded in every way possible, officials said, and arrangements already have been made to receive the initial order of base materials on Monday.

The city plans to complete the 17th street work and then move to the 100 block of West 16th street, where curbs and gutters already have been installed. When work at the latter site is finished, it is hoped that other potential projects will be at a stage where actual construction can begin.

Next in line are projects on Washington Blvd. and Bluebonnet street, where efforts are being made to complete financial arrangements this week.

CC Solicitors Canvassing For Members

A group of 18 workers launched a chamber of commerce membership drive this morning at a special breakfast meeting held by the chamber's Round-up club in City park.

Brief talks were made by V. A. Merrick, chairman of the chamber membership committee, E. P. Driver and Matt Harrington, group captains for the Round-up club, and J. H. Greene, chamber manager.

Groups headed by Driver and Harrington were divided into teams of two men each, and each team pledged to solicit memberships for the chamber during the next few days. The number of new memberships during the drive will be feated at a dinner on a date to be announced later. At the dinner, winning team combinations and runners-up will also be accorded special recognition.

Soil Conservation Money Cut Is Hit

WASHINGTON, June 25. (AP)—A. E. Ruhmann, Waco, representing the southern seed industry, appeared before a senate appropriations sub-committee yesterday to recommend that a \$150,000,000 cut by the house in soil conservation payments be restored.

Ruhmann said it is "A breach of faith with our farmers to at this late date refuse to provide the full \$314,246,000 for soil building practices."

J. J. Phillips Family Has Reunion Picnic

More Study About Americanism Urged

LONGVIEW, June 25. (AP)—A movement seeking to encourage "The American Way of Life" among adults and public school students is underway in east Texas.

The East Texas Chamber of Commerce activated the program, which calls for a committee, composed of businessmen and educators, to promote extensive instruction in civics, economics and American history in public schools and more discussion of these subjects by adults through their clubs.

Rio Grande Brings Welcome Waters

RIO GRANDE CITY, June 25. (AP)—Farmers were jubilant in this area today as 50,000 cubic feet of water a second tumbled down the Rio Grande toward the lower valley—the river's biggest rise of the year.

The International Boundary and Water commission said the new rise developed from rains near Laredo.

NEW YORK, June 25. (AP)—Noon cotton prices were 10 cents a bale lower to 25 cents higher than the previous close. July 30.85, Oct. 31.89 and Dec. 30.85.

WALL STREET

NEW YORK, June 25. (AP)—Spirited stock prices pushed into the recovery zone of the market despite persistent bearishness in Wall Street over the labor situation.

Selling dried up after a downward opening and buyers began to appear for favorites before midday. While many leaders were short on less confident, and gains relatively light, gains of fractions to 2 or more points predominated near the month's close.

On the rising side were Texas Pacific and Union Pacific. Telephone, Bethlehem, Youngstown Sheet & Iron, Steel, Chrysler, General Motors, Montgomery Ward, U. S. Rubber, Drexel International Harvester, Public Service of N. J., Kennecott, American Smelting and Refining, Parham, American Texas Co., Standard Oil (N.J.), Santa Fe, Southern Pacific and Nottick & Western.
