Highway Stop
Signs Will Be
Placed Soon

In an effort to further control
local traffic and reduce accidents,
plans have been made to place stop
signs on all streets entering high-
way 83. The signs have been secur-
ed, and will be placed within a few
days, stated Mayor G. T. Leather-
man.

Stop signs were placed along the
main east-west through street,
Fifth avenue, several weeks ago and
have been quite effective in reduc-
ing accidents along this thorough-
fare.

The Chamber of Commerce has
contacted State Highway Depart-
ment officials in Amarillo regarding
the placing of an electric stop light
at the intersection of highways 117
and 83. If such a light can be se-
cured, all maintenance and cost of
installation will be borne by the
city. Stationary stop signs are now
at this intersection, but in recent
years the flow of traffic has in-
creased to such an extent that an
electric traffic light is considered
necessary.

Three Killed in
Auto Collision

Three persons were killed and
three were injured, two critically,
in an automobile accident eight
miles south of Spearman slightly
after 8 o'clock Saturday evening.

The dead are Ray Isenbower, 37,
DeWay Paus, 30, and Dave Laws, 63,
all of Spearman. The injured were
Mr. and Mrs. W. C. Tyler and J. D.
Bailey, also of Spearman.

Two Patrolmen in
Perryton Now

Two State Highway Patrolmen
now make their headquarters in
Perryton. Patrolman R. W. Hovie
arrived last week as assistant to
Patrolman H. W. McFarling.

Hovie, who comes to Perryton
from Big Spring, Texas, has been
with the department since 1941, ex-
cept for a 3 1/2 year period spent in
the U. S. Coast Guard. He formerly
did drivers license work in El Paso
and has recently completed a re-
freshers traffic school at Austin.

He and patrolman McFarling
have a territory consisting of
Hemphill, Lipscomb, Ochiltree,
Hansford, north Hutchinson and
east Moore counties.

Red Cross Drive Nets \$503 During First Two
Weeks; Farnsworth Community Gives \$211.50

A total of \$503.00 has been given
to the Red Cross during the first
12 days of the 1947 drive. Otis Burk,
chairman of the local membership
and fund raising committee, an-
nounced this week. Of this amount,
nearly half, or \$211.50 came from
Farnsworth, Burk stated.

Ochiltree county has a quota of
\$746 this year, less than a third of
the \$2,690 which was met last year.
The 1947 quota will go towards na-
tional Red Cross needs, as there are
sufficient funds on hand to meet
local Red Cross needs for the com-
ing year.

Donor are ask to mail or bring
their checks to the First National
Bank, Stewart Printing Co., Burk
Drug Co., or to F.B. Sumpter,
Ochiltree county chapter chairman.

With the end of the war, and the
great lessening of the number of
service personnel, Red Cross activi-
ties for which the Red Cross will
need funds during the coming year
are disaster relief, first aid and ac-
cident prevention, medical services,
nursing services, foreign and domes-
tic relief.

Farmers to Be
Davis Guests
On Wednesday

A general invitation to farmers of
the Perryton community and nearby
towns to view the color motion pic-
ture "Men with a Mission," has
been given by Delbert Davis, Min-
neapolis-Moline dealer of Perryton.

The picture will be shown on
Wednesday, March 19 in the Davis
Implement Co. building as a feature
of an all-day program for farmers
of this area.

Opening the day's program will be
a demonstration of gasoline and bu-
tane tractors at 10 o'clock Wednes-
day morning just east of the com-
pany building. A comparison of the
power of GTA Minneapolis-Moline
tractor will be made with that of a
standard tractor burning butane.

At noon a free luncheon will be
served in the implement building,
followed by the film "Men with a
Mission," at 1 o'clock.

The picture tells the story of a
boy and a girl who at first seem

Schools Close
Friday While
Teachers Meet

The Perryton schools, along with
all other schools in the Panhandle
will be closed all day Friday, March
14, while teachers and administra-
tors hold their annual Northwest
Texas Conference for Education in
Amarillo at the Municipal Auditor-
ium. From the 26 counties com-
prising District 9 of the Texas State
Teachers Association will come some
2300 members.

Theme of the convention is "Edu-
cation of Tomorrow's Citizenship,"
and five outstanding authorities on
education will speak on various
phases of this theme.

Perryton officers of the organiza-
tion are Glen Anderson, treasurer,
and Gilbert Mize, president of the
Ochiltree county unit.

Devers Sale Postponed
Until Monday, Mar. 24

Because of the snowstorm, the
public farm sale which is being held
by A. E. Devers has been changed
from Monday, March 17 to Monday,
March 24, one week later.

The advertisement appearing else-
where in this issue of the Herald
gives the date of the sale as March
17. This sale was printed when word
already been received of the postponement.

THRILL BURGLARS' LOOT—Cameras, rifles, a radio, electric razors and nearly four cases of whiskey, stolen by bottle, was the cache acquired by four Southern Methodist University students who told Dallas police they committed a series of burglaries just for the thrill. Looking over the goods is Detective T. S. Connelly, who estimated the value at \$3,000. The students are out on bond. (U.P.) Photo

Street Markers Are Ordered;
Delivery Within Six Months

An order was placed this week by
the City of Perryton with the Lyle
Sign Co. of Milwaukee for 200 street
markers, announced Mayor G. T.
Leatherman.

The signs are of porcelain coated
metal construction, and will be
shipped complete with bracket as-
sembly ready for fitting on a two-
inch metal pipe base.

It is planned to put one of these
four-way street signs on each block
in Perryton, both business and resi-
dential.

U. S. Chamber of
Commerce Man is
Perryton Visitor

H. J. Dollinger, assistant manager,
southwestern division of the U. S.
Chamber of Commerce was in Per-
ryton Tuesday afternoon and visited
briefly with members of the local
Chamber of Commerce.

Dollinger is currently on a tour
of cities in Kansas, Oklahoma and
Texas, lecturing and displaying col-
or slides on the theme "Education
is an Investment in the American
People." He was scheduled to speak
in Borger Tuesday night.

The southwestern division of the
U. S. Chamber of Commerce, of
which Dollinger is assistant man-
ager, includes the states of Colorado,
Kansas, Missouri, New Mexico, Ok-
lahoma, Arkansas, Louisiana and
Texas, with headquarters in Dallas.

Legion Holds
Birthday Party

Legionnaires, Auxiliary members,
and veterans of both World Wars
have been invited to the Legion
birthday party which will be held
in the Legion Hall on Monday
night, March 27.

Legion posts over the nation are
observing the 28th anniversary of
the founding of the American Leg-
ion. Present membership in the
Legion is over 3,000,000.

Supper at the birthday party will
be a potluck affair, followed by
special entertainment arranged by
Dick Gugliotti, Arch Talley and
Charles Peckenpaugh.

Hostesses for the party are Mrs.
S. L. Brillhart and Mrs. Jack Allen,
co-chairmen; Mesdames O. O. Cox,
Van W. Stewart, Mark Boehning,
Sibley Jines, Howard Holt, Wilford
Lance, Sidney Jines, Walter LaMas-
ter and L. T. Tucker.

More Sugar Becomes
Available on April 1

More sugar for both home
use and canning needs will be
available to housewives on
April 1, with the OPA an-
nouncement that spare stamp
11 in ration books will become
good on that date for 10
pounds of sugar. Stamp 53,
now good for five pounds of
sugar, expires on March 31.
OPA has stated that it is ex-
pected to make another 10
pound stamp valid on July 1,
part of the 35 pounds of sug-
ar to be allotted to housewives
this year. Sugar stamp 11 will
be valid until Sept. 30.

Balko Play to
Be Presented
Friday Night

A three-act comedy play will be
given by the Balko community in
the Balko high school auditorium
on Friday, March 14. Proceeds of
the play will go to the high school
gymnasium fund.

Title of the play is "Bolts and
Nuts," and Mrs. Marie McGlamery,
director, says despite the title, the
play has nothing to do with hard-
ware. A few of the characters could
be called "nuts" however, she added.

Characters in the play include
Mrs. Elsie Pugh as Miss Rebecca
Bolts; Claude Saunders as Dr. Hip-
pocrates Joy; Kenneth Beckwith as
Twink Starr; Mrs. Kenneth Beck-
with as Benita Bolt.

Mrs. Irvin Naylor as Miss Fleg;
Mrs. Oliver Renfrow as Mrs. Gertie
Glossop; J. V. Pearson as Henry
Gooper (colored); Mrs. Charlie
Zimmerman as Martha Grubb;
LaRoy Morehead as Cadwallader
Clippy; Earl Wood as Phineas
Plunkett; Franklin McGlamery as
Dr. Jack Gordon and Iris Powell as
Lutie Spinks.

Perryton Quota for
Girl Scout Area
Work is \$750

"Is each of the 100 girls of Per-
ryton now enrolled in Girl Scouting
worth an investment of \$7.50 each
in area supervision for a 16 month
period?" This was the question that
was answered with an emphatic
"yes" by the group of men and
women who gathered at the Meth-
odist Church Tuesday evening.

With an estimated area budget of
\$15,000, Perryton Girl Scout leaders
set \$750 as their part of the finan-
cing. Details of the area plan were
explained by Miss Norma Ewing
and her assistant, area executives.
There are 19 counties in this area
which includes 18 Texas and one
New Mexico counties. Amarillo and
Pampa, both in the area, have their
own professional Girl Scout work-
ers.

Examinations Opened to Fill
Perryton Postmaster Position

An open competitive examination
to fill the vacancy of postmaster in
Perryton has been announced by
the United States Civil Service
Commission at the request of the
Postmaster General.

The successful applicant will fill
a position left vacant since Nov. 1,
when M. R. Coffey resigned. Since
that time, Arvie Hale has been act-
ing postmaster of Perryton and will
continue in that capacity until a
permanent postmaster is selected.

In order to be eligible for the ex-
amination, an applicant must be a
citizen of the United States, must
have actually resided in Perryton
for at least one year prior to April
3, 1947, must be in good physical
condition, and must be between 23

Rain Turns to Wet, Heavy Snow
That Starts Falling Wednesday
Morning Driven by High Wind

A light, misting rain which began Tuesday night suddenly turned into
a driving snowstorm at approximately 10 o'clock Wednesday morning,
covering Perryton and the Plains country with a blanket of white, stall-
ing automobiles and cutting pedestrian traffic down to a bare mini-
mum.

Phone Men to
Meet Council
Tuesday Night

After a two week lull, at least on
the surface, telephone activity be-
gins anew Tuesday night when rep-
resentatives of the Southwestern
Associated Telephone Co. confer
with the city council, Chamber of
Commerce and other interested in-
dividuals and groups in the City
Hall.

For the past two weeks, members
of the Chamber of Commerce have
been contacting Perryton telephone
subscribers to determine the ex-
tent of their dissatisfaction with
the telephone service. Subscribers
have been given a chance to express
their views through the signing of
a petition which states, in substance
that the subscriber desires an im-
provement in the type of telephone

Boxing Meet
To Be Held on
March 21-24

Date for the annual intramural
boxing tournament at the Perryton
schools has been set for March 21,
22, 23 and 24, coach Floyd Murry
announced this week.

The tournament, which ran for
three successful nights last year,
has been expanded to a four-day
affair this time. Over 100 boys have
entered this tournament, as com-
pared with 70 contestants in 1946.

Weights range from an 85 lb.
class to the heavyweight, 175 lbs.
and over. Final weighing and classi-
fication of the boxers has not been
completed.

Two divisions, high school and
junior high school, will make up the
cards of the tournament, with
champions to be determined in each
weight class.

Senior boys are being coached
and trained by Floyd Murry and
Lewis Emerick, while junior boys
are being handled by Melvin Craw-
ford.

Rev. Nations Pastor of
Full Gospel Church

Rev. and Mrs. Virgil S. Nations of
Denver, Colorado are now in charge
of the regular services at the Full
Gospel church of Booker. They have
preaching extensively in gospel work
traveling in various denominations
and doing some missionary work
among the Indians.

Both are graduates of the Open
Bible Institute of Des Moines, Iowa.

Library Board in
Tri-Annual Meeting

With Mrs. W. B. LaMaster, presi-
dent, presiding, the executive board
of the Perryton Public Library met
Tuesday evening for their regular
tri-annual meeting. The session de-
voted to routine business was held
at the library.

Present were Mrs. LaMaster, Mrs.
Dave Shanks, Mrs. P. L. Garrett,
Mrs. A. J. Kelly, Mrs. Van W. Ste-
wart, Mrs. A. P. Spicer, Mrs. Hattie
Granstorf and George M. Parker.

Mrs. Granstorf is now serving as
librarian while the regular lib-
rarian, Mrs. W. C. May, is on leave
due to illness.

There are now more than 3,000
volumes in the library with more
books being added every month. Use
of the library is increasing and it
appears that the time is near when
one librarian will not be able to
handle the work.

Rain started falling Tuesday
night, accompanied by thunder
which made people think of a
spring shower. A light drizzle fell all
night Tuesday and continued until
the sudden snow Wednesday morn-
ing.

The snow, driven by a strong
north wind, began as sleet, quickly
turning to large, wet snowflakes
which not only covered the ground,
but plastered automobiles and the
sides of buildings as the flakes
stuck where they happened to light.

Streets soon became slushy with
the moisture laden snow.

At approximately 4 o'clock Wed-
nesday afternoon, the temperature
dropped below freezing and the
snow became swept into drifts by
the wind which reached an esti-
mated velocity of 30 miles an hour.
Visibility was reduced to a few hun-

Streets were dotted with stalled
cars late Wednesday afternoon, and
business was at a standstill as peo-
ple preferred to remain indoors ex-

were made exceedingly hazardous
for travel by the snowstorm, and
hotels were crowded Wednesday
night with people caught by the
storm.

Wreck Victim to
Be Buried Here

Funeral services for Dave Laws,
60, who was killed Saturday night
in an automobile accident near
Spearman, will be held in the Box-
well Brothers chapel Friday after-
noon at 3 o'clock.

As far as can be learned, Mr.
Laws has no living relatives, al-
though he made a large number of
friends in Ochiltree and Hansford
counties in the years he has lived
in this area. He first came to Ochil-
tree county in 1905 and has worked
on various farms in both counties
since that time.

'Cross My Heart' Says Betty, But She Doesn't Mean One Thing She Says!

Two of Hollywood's favorite stars are teamed in Paramount's new comedy, "Cross My Heart," which arrives next Sunday at the Ellis Theatre. They are Betty Hutton and Sonny Tufts, and report has it that their talent for making people laugh has never been displayed to better advantage.

"Cross My Heart" tells the uproarious story of a girl who can't help lying when she gets into any sort of trouble, and, somehow, she's always getting into trouble. Betty plays the girl, unloved by a struggling lawyer, portrayed by Tufts, whose excessive honesty interferes with his career.

To help launch him in a big way, Betty "confesses" the murder of a wealthy showman just so Sonny can defend her in court and win a name for himself as the brilliant lawyer she knows him to be. But the little lying lady bites off more than she can chew, for once and such unexpected things happen fast and furiously that she hurriedly tells the truth—but to no avail. How the real murderer is finally apprehended is said to make very funny movie-telling.

TEXANS IN WASHINGTON

BY TEX EASLEY

(AP) Special Washington Service

WASHINGTON, Mar. 4 (AP)—The chairman of the 23-man Texas congressional delegation for the next two years is Rep. George Mahon of Colorado City.

It is the duty of the friendly 46-year-old, Sunday school teaching legislator to get his fellow Texans together whenever anything arises affecting Texas and on which they may wish to take action as a body.

It also is his duty to preside at the regular Wednesday luncheons of the delegation in the House restaurant.

At the first of these luncheons over which he presided a situation arose which caused the always agreeable Mahon a moment of embarrassment—to the amusement of his colleagues.

It was a matter of little interest except here in a city where people become accustomed to all the niceties of rank and protocol.

The entire delegation was pres-

ent, including both senators. It was the first time in two years that Senator W. Lee O'Daniel had shown up. And it was the first time in six years that Bonham's Congressman Sam Rayburn had appeared in a role other than that of Speaker. On hand also were several visiting Texans as guests of their congressmen.

At the head table with Mahon were Senators Tom Connally and O'Daniel and Rep. Rayburn. In the last six years there would have been no question whom he should introduce first. The Speaker's rank tops that of a senator.

Without hesitation, Mahon introduced Connally, asking him to say a few words of welcome to the four new members of the delegation. Then came the question: Should he introduce the other senator next, or Rayburn?

He picked Rayburn.

Mahon's selection as chairman came from the fact that he had seniority (he entered congress Jan. 3, 1935) over all other members of the delegation except those who previously served as chairman. Every two years a new chairman is selected, and the man with the most seniority who has not served previously takes over.

Before he came to Congress—he emerged first in a field of candidates when a new district was created—he served as district attorney for seven years. His first elective job was that of County Attorney of Mitchell County. The next year, 1927, then Governor Dan Moody appointed him district attorney.

Mahon holds a high spot on one of the two most important committees in the House—the Appropriations Committee. The other is the Ways and Means, or tax-making body.

Considering the ages of the three Democrats who outrank him on the committee, the tall Texan stands a good chance of heading the committee two or four years hence—If (1) he is reelected and (2) the Democrats regain control of the House.

Mahon was one of the three members of the Appropriations subcommittee on military affairs who were entrusted with part of the secret of the atomic bomb before the first one was dropped on Japan. The War Department had to take some of the congressional leaders into its confidence in order to get the billions of dollars required for the bomb's development.

Married and the father of a 19-year-old daughter, Daphne, who is in Duke University, Mahon teaches a mixed class of young adults at the Mount Vernon Place Methodist Church in downtown Washington. His substitute teacher, when he goes home during recesses, is another Texan—Talma Smith of Clarendon. Smith is one of the official reporters assigned to take verbatim transcripts of committee hearings.

His colleagues describe the 6-foot, 2-inch Colorado City representative as a "swell guy" who manages to keep on friendly terms with all kinds of groups. By reason of his position he sometimes finds himself in cocktail parties and receptions at which liquor is served, but he does not drink. His favorite sport is golf.

Born Sept. 22, 1900, at Mahon, La.—a country community named after his family—Mahon moved with his parents to a farm in Mitchell County when he was seven years old. His 66-year-old father, J. K. Mahon, still lives on the same farm.

While a senior in Loraine High School, Mahon began dating a classmate, Helen Stevenson. She later became Mrs. Mahon.

Upon graduation from high school in 1918 he took a course at Tyler Commercial College, was graduated from Hardin-Simmons University in Abilene and then en-

tered law school at the University of Texas. Meanwhile, Miss Stevenson had become a school teacher at Tahoka. During the Christmas holidays of 1923, while he was a law student and she a teacher, they were married.

In the summer of 1925, before receiving his law degree from Texas U., Mahon attended the University of Minnesota while his wife worked in a department store in Minneapolis.

He might have finished his law course there but for the fact that it would have meant buying for both of them a whole new outfit of clothes suitable for 40-below-zero weather. It was cheaper to go back to Austin.

The Mahons live here in an upper floor of a fine apartment house in northwest Washington. The congressman sometimes drives his car the five miles across town to the Capitol, sometimes rides with friends or goes by street car or bus.

Mr. and Mrs. Edd Terhune, Eddie and Teddie, left Saturday for their home in Winfield, Kansas.

Fight Fire Loss with

STRAN-STEEL "QUONSET" BUILDINGS

Last year the property loss through fire in the United States was \$500,000,000. On farms alone the damage was \$100,000,000. And both those figures leave out the fearful cost of lost production, lost time, worry.

Stran-Steel "Quonset" buildings are framed with steel and covered with steel to help combat this destruction on the farm, in industry, in commerce. There are no inflammable beams, studs or joists to spread fire from one section to another . . . no inflammable siding or roofing to "go up in smoke."

When you need a new building, take advantage of the modern Stran-Steel "Quonsets" to get one that is fire-resistant. See your Stran-Steel dealer for complete information on the "Quonset 20," "Quonset 24" and "Quonset 40." They are adaptable to all sorts of building needs.

"Quonset" buildings are products of Great Lakes Steel Corporation, a unit of National Steel Corporation

President of Good Roads Association Explains Past, Present, Future of Farm-to-Market Road

Thursday regarding the Texas program for local roads. In view of proposed legislation which would increase the gas tax and applying that income, less one-fourth cent to the School Fund, for farm-to-market road construction, the Herald is publishing his statement for the interest of those concerned with better local roads in Texas.

The farm-to-market road or local service road has been so widely publicized as to create universal interest in that program. This much discussed road is somewhat of a newcomer in the public field, especially insofar as its method of financing

is concerned. Since the pioneer days in Texas, when roads were hewed out of the forest and the earth by those who were to traverse them, the local service road has always been a local road problem.

It was either supported by volunteer efforts on road working days or by a "road tax" paid by the individuals involved. Then came the era in which counties levied taxes on properties in the county known as Road and Bridge Levies. In more recent years these county funds were supplemented by a grant from the state of a part of its income from automobile license fees. Through the generations this type of road has been financed for construction and maintenance from local sources.

In planning for the postwar road building era, the various Highway Departments and Road Associations throughout the United States joined in supporting the Public Roads Administration of the United States Government in proposing to the National Congress a program for farm-to-market roads supported jointly by the Federal and State Governments.

Thus it was that \$60,000,000 are now being utilized in the building of farm-to-market roads in Texas for the three years beginning January 1, 1946. The State Highway Department of Texas was able to match these Federal funds without additional taxation due to the savings that it had accumulated during the war period when construction work could not be executed.

The Highway Department of Texas had its plans ready, its locations agreed upon with the counties for the execution of a three year program of \$60,000,000 of these farm-to-market roads when the war was over. This expenditure provided over 7,500 miles of such roads. More than 2,500 miles are already under contract. These will be two-lane, dustless, all-weather facilities, with bridges capable of carrying loaded 15 ton trucks.

They will be taken over for state maintenance as the improvements

are completed. The projects were selected by the State Highway Commission, after consultation with the various County Judges and Commissioners' Courts and a detailed study of traffic to be served.

The mileage selected for improvement under this program, together with the primary highway system, will carry an estimated 78 per cent of the state's total motor traffic and will bring 62 per cent of all Texas rural dwellings within one mile or less of a paved road, while 74 per cent of all Texas rural dwellings within two miles.

The local county roads today are receiving 45 per cent of the total net motor vehicle user tax collections from state sources that are spent on roads. Here are the figures: In Texas, the total net motor vehicle revenues collected, which included the license and weight fees and the gasoline tax, were \$83,400,000 in 1946. Of this total amount, \$13,850,000 went to public schools; and \$40,600,000 went to State Highways; \$13,850,000 to public schools; and \$13,850,000 to retire old county bonds through the County Road Bond Indebtedness Board, with a total of \$15,000,000 of the license and weight fees distributed to the counties for county road construction.

Motor vehicle revenues that go to schools and to retire the old county bonds are not actually used in the construction and maintenance of roads; therefore, we should deduct from the total collection an amount of \$27,700,000 used for these two purposes. Therefore, a net amount of \$55,700,000 of state motor vehicle revenues is actually used on roads.

Some of the highway revenues go for Highway Patrol and other miscellaneous building roads, but we disregard these in this calculation. The State Highway Department is now spending at least \$10,000,000 per year from its state fund revenue for county roads under this program of work. The counties are spending the \$15,000,000 that they get from the license fees on county roads. The sum of these two figures is \$25,000,000 per year now being spent on county roads in Texas from motor vehicle revenues. Thus 45 per cent of the total net collections from state sources (\$55,700,000) is spent on county roads.

This figure is increased when consideration is given to the fact that one half of the surplus from the County Road Bond Assumption Fund is distributed to the County Commissioners' Courts for local road construction. It is estimated that approximately \$3,000,000 will be distributed this year for this purpose. This indicates the rather remarkable trend of transferring local road support from ad valorem levies to motor vehicle levies, since it was only a few years ago that local roads were almost totally supported from property taxes.

It appears from these figures that the State of Texas through its Highway Department and the Texas Good Roads Association has certainly shown good faith and a real interest in the local road problem by projecting and financing such a vast program of local road construction.

It is time to take a serious look at the entire picture of the financing of road building in Texas from road user taxes. At the close of the current postwar road building program in 1948, the system of roads under the State Highway Department will be not less than 33,000 miles.

This is more mileage than all of the railroads combined have in the State of Texas. It takes money to maintain such a system of roads. 29% of the total income in 1946 was expended for maintenance, even though maintenance was below average due to the scarcity of manpower and materials. Every mile that is added to the state system for maintenance leads nearer to the point where maintenance costs and income must meet on even ground, at which time no finance would be available for additional construction.

The Highway Department's only chance in preventing this impasse lies in its ability to increase its revenue by adding additional motor vehicle miles of travel to its vast system of roads. To do this it must keep its main revenue producing roads in first class condition to invite and accommodate the heavy traffic that really produces the revenue from motor vehicle levies.

Bread and butter producers such as the Dallas-Fort Worth highway, which pays the Department a net amount of \$357,000 per year and the Galveston-Houston road which produces a similar amount of revenue, must be kept in first class condition and up to modern standards in order that these revenues may continue to flow into the treasury to produce funds with which the light traffic or local roads constructed.

The Texas Good Roads Association is firmly convinced that for the three year period from January, 1946, to January, 1949, the balanced program of road building in Texas now in operation, including a tremendous volume of farm-to-market roads, is the most advanced step yet taken by our state in road building over the same period of time and will go a long way toward curing the ills of our system of roads. It is

a program of which Texas should be justly proud. Moreover it is a pattern of long-range planning which should be supported and encouraged.

We are convinced that our current motor vehicle user tax structure is sound and adequate to accomplish this great objective. We are convinced that supporters of good roads throughout the State of Texas should be constantly alert to the various dispersals in the current motor vehicle tax structure and corrections should be made as early as possible.

The entire surplus accruing from the County Road Bond Retirement Fund should be allocated to the construction of farm-to-market roads. It is estimated that this will amount to approximately \$6,000,000 in 1947. Misuse in the refund system on gasoline tax for gasoline used on the farm, in marine motors, aviation, and other activities, if properly corrected, would add several million dollars more to such a fund. Such dispersals as these, if properly corrected and redirected into the channel of farm-to-market road construction, would add to the already sizable total amount being utilized for local service roads without additional taxation.

Pierce Rites Held Saturday

Funeral services for W. N. Pierce, Santa Fe Agent at Booker, were held Saturday afternoon in the Booker Methodist Church. The services were conducted by Rev. J. A. Land, assisted by Rev. H. L. Thurston of Perryton.

Mr. Pierce had been suffering from a heart ailment for the past month and was taken to the Clinic, N. M. hospital several weeks ago. He died there Wednesday afternoon at 4 o'clock.

OBITUARY

William Nelson Pierce was born Oct. 3, 1888 at Hillsboro, Texas and passed away March 3, 1947 at the Santa Fe Hospital, Clovis, New Mex.

He was married on October 14, 1922 to Miss Thelma Huff and to this union were born three children, W. N. Jr., Clois, and Peggy Ann.

For 27 years he was an employee of the Santa Fe Railroad, serving since 1920 as agent in Booker.

He was converted and united with the Methodist church in 1938.

He had been the station agent at Booker since 1938 and was a loved and respected member of the Booker community. He was an active member of the Booker Booster club, was a member of the Methodist church, and was active in all civic enterprises.

Survivors besides his wife, Thelma, include a son, W. N. Pierce, Jr., of Wynoka, Okla.; and two daughters, Mrs. Leo Korns and Peggy Ann Pierce, both of Booker; two brothers, B. C. Pierce of Fort Worth and H. D. Pierce of Waco; three sisters, Mrs. Henry Stanley, Thermo-

polis, Wyoming; Mrs. Vernon Evans, Waco and Mrs. Byron Fyfe of Kilgore.

Funeral services were held at 2 p. m. Saturday at the Santa Fe Hospital, Clovis, N. M.

Interment was in the Hart cemetery.

Jim Bray was in Wichita Falls last Wednesday to bring his wife and son, Bob, home. Bob recently underwent an emergency appendectomy in Wichita Falls and will stay with his parents in Perryton until he is able to return to his work on the editorial staff of the Pampa News.

Mr. and Mrs. Gene Cudd were in Borger and Amarillo Tuesday transacting business.

Mr. and Mrs. A. R. Turner, who left Perryton two months ago to tour the Eastern States have been located at Melvindale, Michigan, where they will make their home. Mrs. Turner was formerly Miss Robbie Jo Ridge.

Miss Virginia Oood of Amarillo visited last week-end in the home of her parents, Mr. and Mrs. W. M. Good.

Mr. and Mrs. Bill Buckland, Liberal, Kans., visited Wednesday evening with their son, Billy Buckland, who is staying with his grandparents, Mr. and Mrs. G. L. Krogge. Mrs. W. A. Khea, Mrs. Krogge's mother, returned to Liberal with the Bucklands after having spent ten days visiting in the Krogge home.

Mrs. B. L. Barnds and Mr. and Mrs. Lester Barnds returned last Wednesday night from a three week's vacation in South Texas.

War Waif Signs Payroll as "G. I. Joe" and Gets His Money

CIVILIAN FEATURES

WESBADER, Germany—"G. I. Joe" has been doing his own as a bona fide signature. And it's Mr. G. I. Joe, to you—if you don't know him well.

He's a fourteen-year-old war waif who signs the Army payroll with the familiar initials and name. Now on the ATO roster as assistant first chief, G. I. Joe has also served as a three-way interpreter in quarters-master supply, the carpenter shop and the Post Engineer's office.

When he was picked up during the fighting in Tripoli in 1943, he could speak three languages, but he didn't know his name, or what had happened to his family. He has been an adopted "Army brat" ever since, with his own choice of name—"G. I. Joe."

Joe's parents are believed to be dead.

After two years with the Air Transport Command Joe has added English—a GI version—to his list of Arabic, French, and Italian.

When Joe first arrived at the Tripoli ATO installation and put his signature on the payroll, he was scratched and eyebrows raised all the way from Africa to the Finance Office in Rome.

"What's the gag?" the Army bookkeepers wanted to know.

Official letters went forth explaining it was no gag—G. I. Joe had to be paid. He was a valued member of the Air Transport Command which now has the job of flying the mail to and from the occupied zones; transporting VIPs (very important people); and carrying high priority, critical materials by air.

Joe was first picked up by men of the 86th MP Squadron of the

DRUMMING SWING. G. I. Joe learns from Cpl. Eugene Mills, left.

Ninth Air Force while fighting was still going on in Tripoli. He gave up his title of assistant first sergeant with the MP's to transfer his allegiance to the men of the Air Transport Command when they opened the Tripoli airbase two years ago.

Some of G. I. Joe's wartime experiences are legend at the Tripoli airbase. Joe won't admit it officially but there is a story of a trip he made to the fighting front in Italy on a B-25. Joe liked Italy

and he stayed for five months working at the PX in a frontline fighter-bomber field. When the war ended, he went home—to his buddies at the Tripoli airbase.

He has the title of honorary sergeant and the stripes to go with it on his made-over uniform, which he got from Quartermaster salvage. Not cut out to be a very big guy, Joe stands scarcely four feet tall. A government employee since he was eleven, at fourteen Joe has an ambidextrous—and he's saying his pay for that—to go to school in America.

Frank Hobbs, who is attending a higher school in Amarillo spent the week-end in the home of his parents, Mr. and Mrs. W. G. Hobbs. Mrs. Frank Hobbs has been visiting for several days in the parental home.

Mr. and Mrs. Harold Ray Murray of Hugoton, Kansas are the parents of a daughter, Trudy Ray, born on February 22 at Mercy Hospital in Independence, Kansas. Mrs. Murray and the baby have returned to their home in Hugoton and are doing fine.

Bill Taylor, Los Angeles, Calif. came in Sunday night to visit in the home of his parents, Mr. and Mrs. W. F. Taylor.

Miss Lucille Jackson spent Saturday afternoon in Goodwell, Okla.

B. L. Barnds left Thursday morning for Russell, N. Mex., where he is receiving medical attention.

Mrs. John McIlarty, Fort Worth, was a Monday guest of Mrs. Anna F. Wilson.

Mr. and Mrs. Otto Fisher of Philadelphia, Texas, stopped in Perryton Monday.

S. P. Whipple left Saturday for Oklahoma City, where he is transacting business.

Band Participates In Borger's 21st Birthday Party

The Perryton high school band, under the direction of J. D. Davis, participated in Borger's 21st Birthday Party, held Saturday, March 8. The Perryton band members were guests of the Borger American Legion post, sponsors of the celebration.

Members who made the trip were Helen Little, Sonny Phelps, Claudine Carmichael, Richard Littlefield, Bonnie Vaughn, Lloyd Egan, James Hale, Billy Connor, June Perry, Duane Bell, Curtis Leach.

Donald Cook, Esther Bowen, Dickie Hall, Doug Cunningham, Glenn Callahan, Clay Perry, Max Fisher, Lela Brown, Lynn Bell, P. L. Gendall, Bobby Clark, Shaver McLean, Robert Dyer.

Marion Scott, Gertrude White, Mary Selig, Mary Sumner, Wynona Allen, Cyril Tice and Donald Merriman.

AA Announce New Meeting Schedule

The Perryton Alcoholics Anonymous group have adopted a new meeting schedule. Open meetings will be held every two weeks on Monday evening in the district court room. The next meeting will be at 8 p. m. Monday, March 17. The public is invited and welcome.

Closed meetings for members and their invited guests will be held each Friday evening at eight o'clock. The first closed meeting will be tomorrow night, Friday, March 14.

A very good crowd was present on Monday night of this week. A leading South Plains physician and surgeon had been engaged as principal speaker but due to the flu epidemic and other critical cases under his care, he was forced to cancel his engagement. He will be here at a later date. Guests from Spearman, Booker and Canadian were present.

Local leaders are very anxious to secure suitable quarters for a club-room so that social activities can be carried on.

Miss Pauline Colner spent the week-end with her parents, Mr. and Mrs. W. C. Colner of the Nolia community.

Herbert D. Meadows left Tuesday on a business trip to Oklahoma City, Dallas and Ft. Worth.

Mrs. Helen Thurston, Liberal, Kans., visited over the week-end in the home of her parents, Mr. and Mrs. J. W. Cayler and with her sister-in-law, Mrs. W. R. Cayler.

Delos D. Pugh, who has been in Tientsin, China, for several months, will be transferred to Guam and will sail for that island in the near future. His address is P.O. Box 13, Pugh, U. S. M. C., Supply Co., 1st Service Bn., 1st Marine Division, P. M. F., care Fleet Postoffice, San Francisco, Calif.

Mrs. Dale Kerns and son, Larry, of Guymon, Okla., visited relatives in Perryton and Gray, Okla., Monday.

Earl Walde, who has been in Washington, D. C., transacting business the past week, returned home Sunday.

L. E. Rorabough of Gray Okla. visited in Perryton Saturday.

Mr. and Mrs. W. D. McMaster returned Sunday night from a month's vacation trip spent in Louisiana, Texas and Alabama.

Mrs. H. W. McParling visited in Amarillo on Saturday and Sunday with Mrs. John Nunn.

Mr. and Mrs. A. C. Witt were week-end guests of friends in Tulsa.

If concrete is kept moist it will continue to get harder for many years.

Dr. and Mrs. Vincent Hobbs of Quanah, Texas, were week-end visitors of his parents, Mr. and Mrs. C. V. Hobbs.

Mystery of the Rocking Chair

Ma Hoskins has a favorite rocking chair that's worn and shabby, with a noisy creak. Pa Hoskins has listened to that squeak for thirty years... and he decided to do something about it. So he bought a new rocker, and hid the other in the barn.

Ma allowed as how grateful she was... but when Pa missed her one afternoon, he heard a familiar sound that led him to the barn. There was Ma rocking happily in her old chair—squeak... squeak. No need to tell you how Pa felt.

Quick as a wink he hid the rocker and then brought Ma's chair back to the house. Now he hears that squeak, he looks the mellow glass of beer he's drinking and says to himself: "She's as entitled to her small pleasures as I am."

From where I sit, that's the reasons the Hoskinses are the happiest, oldest-married, funnest folks in our town.

CHEVROLET

Again in 1946...

FIRST IN SALES!

FIRST IN CAR SALES—FIRST IN TRUCK SALES
FIRST IN COMBINED CAR AND TRUCK SALES!

The final registration figures are in, and again in 1946 America purchased more Chevrolet cars—more Chevrolet trucks—more Chevrolet cars and trucks combined—than any other make, despite the fact that Chevrolet was out of production entirely during the first three months of the year! A magnificent tribute to Chevrolet production efficiency, as well as to the dollar value of Chevrolet products! It's the best proof you can possibly

have that you're wise to choose Chevrolet, the only cars giving BIG-CAR QUALITY AT LOWEST COST, and the only trucks rating as THRIFT-CARRIERS FOR THE NATION! True, there still aren't enough new Chevrolets to go around, but highest popular demand means higher dollar value, just as highest production means quicker delivery of your new car or truck. Place your order—today!

preside at a club assembly meeting to be held at the Perryton Hotel on the evening of Wednesday, March 25. All committee members, officers and members of the Perryton Rotary Club are urged to attend the assembly.

The district governor heads 62 Rotary clubs in West Texas, and is one of the 157 district governors who are supervising the activities of some 5,800 Rotary clubs with more than a quarter of a million members in 73 countries and geographical regions throughout the world.

Stephenson is professor of Government and assistant dean at Hardin-Simmons University.

Purpose of the visit is to advise and assist the president and secretary of the local Rotary club on matters pertaining to club administration and Rotary service activities.

It would no longer maintain that price. Immediately, the CCC was deluged with wheat by sellers who figured prices would drop without the supporting effect of the government.

In a two-day period, well over 30,000,000 bushels of wheat were sold to the CCC. Not all of this wheat was in terminal elevators. Some of it was in the country. This meant that the sellers had to go out and bring in the wheat for the CCC. While the CCC did not buy any additional wheat in February, much grain coming to market has been applied to previous sales to the government agency.

Meanwhile, the PMA has continued to purchase flour from mills. This meant that the mills had to buy wheat. With grain at terminals going to the CCC, mills had difficulty in finding this wheat.

Not only cash wheat, but new crop futures have taken a sharp rise in spite of the fact that the outlook for this year's winter wheat crop generally is excellent. Explanation of this paradox is based in part on high parity prices.

Parity is a theoretical price calculated to give a bushel of wheat the same purchasing power it had in 1904-14. The government must support wheat through loans at 90 per cent of parity until Dec. 31, 1948. National wheat parity on Feb. 15 was \$1.95 a bushel, highest on

record and up 37 cents from a year ago. Parity is increasing steadily as the price of things farmers buy advances. As parity goes up the "floor" under wheat also goes up.

In addition, the prospect of a low carry-over of grain and evidence that the export program will be carried into the new crop year beginning July 1. Added to these factors is the almost assured fact that the winter wheat crop in Europe has sustained a good deal of damage and that the world crop of 1947 will fall short by a long measure to fill world demand for food.

Ex-president Hoover, after his European trip, forecast that import requirements for wheat might be heavier next season than during this current season. In 1946, with the biggest crop in the history of the country, it was extremely difficult to furnish about 350,000,000 bushels of wheat. To furnish more to Europe and at the same time take care of the increased domestic demand seems almost impossible, even with a record harvest.

And with a supply that can't take care of the demand, wheat prices must necessarily rise. The only thing that could cause a sharp drop at present, in the opinion of grain experts, is the sudden discontinuing of the government food shipment program, an event that hardly seems likely.

Faus Rites Held in Spearman Tuesday

Last rites for Dewey Faus, who was killed Saturday night in an automobile accident south of Spearman, were held Tuesday afternoon in the Union Church at Spearman. Brother Leonard Turner conducted the services, assisted by Rev. Donald Dibbins.

Mrs. Faus once lived in old Ochiltree and lived all his life in Beaver, Hansford and Ochiltree counties. Pallbearers were William Martin, L. D. Pierce, J. H. Martin, Leon Rowland, Perry Roberson and Guy Jones.

He is survived by three brothers; Sam, William and Rueben, all of Spearman; and three sisters, Mrs. Effie Cox, Weiser, Idaho, Mrs. John Buschman, Spearman and Mrs. J. W. Melton, Los Animas, Colo.

Interment was in the Ochiltree cemetery.

"Satisfied with their life on a farm and do not appreciate the highly interesting role farmers are playing today in producing the essential needs of humanity and of industry. By a series of amusing incidents they are convinced in the end that modern farmers are men with a mission that challenges the imagination."

In inviting farmers to attend this farm day, Davis said, "Agriculture has always been a big business with that at no time in the history of the world has this mission been so critically important as it is today. I believe that every farmer who is interested in becoming a better farmer will enjoy this program."

system here and that if the present company refuses to secure one, support will be given to another telephone company.

Less than one percent of those contacted have failed to sign these petitions, according to Chamber of Commerce reports.

In the Tuesday meeting, the city council is expected to press demands for better telephone equipment and seek a definite answer from the company as to whether or not they plan to install equipment. The validity of the present telephone franchise will be discussed also.

Dissatisfaction with the antiquated "crank-boxes" which have been evident among local people for years, was brought to a head this year when the Chamber of Commerce questionnaire poll revealed that this was number one on the list of civic projects that needed to be accomplished.

dential districts. Cost of the signs is \$5.75 each, which does not include the pipe base, concrete and labor of installation. It has been estimated that the total cost of each sign, installed will be \$8. The Junior Chamber of Commerce will solicit property owners in the city to help pay for these signs and will furnish the labor required to erect them.

The Lyle company estimated that it will take approximately six months to make delivery on the signs.

Erection of adequate street markers is a requirement by the Postal Department before city mail deliveries can be expanded. A committee composed of Walter LaMaster, Leroy Hartman and Dean McCutcheon has been working with the city council since last fall in planning for the purchase and erection of these markers.

on what it says and then if you feel as we do, let your congressman and senators know that it's not right. If the National Maritime Union gets away with this, then the defense workers, farm workers and the millions of others who were deferred will be after the same benefits you now enjoy as the privilege and right of a war veteran.

The National Maritime Union which is the Merchant Marine, does not have a good American record. Check on their history and you'll find that it is and has been dominated by Communists who went down the line just as Russia dictated. We'll admit that they did get a buildup as glamour boys during the early days of the war... that is when they were engaged in the risky business of getting supplies through to Russia.

During the war the NMU got draft deferment; civilian rights; a choice as to when and where to sail; good pay, plus overtime pay, plus bonuses; good chow, some of which was sold to GI's at black market prices; white bedding, mandatory.

Here's what the GI got: greetings from the President; discipline and a fully regimented existence; orders telling them when and where to go; pay far below the Merchant Marine scale; no overtime, no bonuses; army chow, 'nuf said; straw mattresses, fox-holes.

Members of the Merchant Marine were civilian workers. They were not in the military service. They are not entitled to GI benefits. Let's shoulder arms and smother this brazen attempt to class them as veterans.

There is no question but what that under present high and inflated costs of living, that school teachers are underpaid, but the same unbalanced rate of pay for most all so-called white collar workers exists. The ramifications of the educational lobby, the largest and most powerful in the land, reaching down from the high college press to the little one-teacher unpainted schoolhouse on the forks of the creek, is really going to town for higher salaries for school teachers.

We say teachers are entitled to better salaries... and we think they're going to get them. Then we are wondering if those salaries will be reduced when living costs go down. We can remember not so many years ago, that school teachers were making just pretty good wages when compared with what most of the rest of us folks were drawing. This condition can happen again.

There is an alarming shortage of teachers and the educational leaders say that one of the great contributing factors to this shortage is the fact that young men and women are not preparing themselves for the teaching profession because of poor pay. They cite the ever decreasing number of students in teacher schools.

From our observation we believe that teachers do and have been doing for years just about the finest job possible in running down their profession. Is it any wonder that their pupils fail to choose the teaching profession? In our opinion this vocal and written wail by the teachers of their own poorly paid and unappreciated profession is paying off

in selling their pupils on never to take up school teaching.

Along these lines we would like to quote a Texas teacher from her letter in a recent issue of "Texas Week."

"Little do we think when we make such varied unfavorable remarks in regard to our profession that we are discouraging our fellow teachers. Unfortunately we do not stop here, for we leave untarnished spots along the way with the youth who come within our sphere. It is not surprising to me that we have so few really choosing the teaching profession. I believe if we, as teachers, were more satisfied with our jobs and what we have to sell, we could make better sales."

As Lynn Landrum said, much to my interest, in a recent radio address, "If our teachers want a bigger piece of cake, it is entirely up to them to make a bigger cake."

"Why can't we speak of our profession as something satisfying; something well worth striving for; something that grows bigger and better with age and use?"

"Why can we not feel that in teaching we are constantly acquiring knowledge as well as imparting it? In our valuable contact with youth, our education becomes more vital, and we are many times guilty of exchanging our views for theirs."

"All hail to the teacher who loves his profession and chooses to teach because he has a keen desire to play a small part in the lives of the children of our nation... and for the enrichment of his own life as well."

SING WHILE YOU DRIVE—At 45 miles per hour, sing "Highways are Happy Ways." At 55 miles per hour, sing "Nearer My God to Thee." At 75 miles per hour, sing "When the Roll is Called up There, I'll Be There." At 85 miles per hour, sing "Lord, I'm Coming Home."—Overland Life.

The Civil Service has announced that applications to take examinations to fill the position of postmaster in the Perryton office will be held soon. Arvie Hale has been serving in this office since the resignation of M. R. Coffee. At the present time most postmaster positions are on a civil service basis with the postmasters holding the office for life or until time to retire under civil service. This rule was put in effect shortly after the Democrats took over the country under the leadership of Roosevelt. It is expected that the Republicans will change this and put the jobs back on a political basis, thus throwing a lot of Democrats out of jobs.

Without any consideration as to political angles, for after all there's little difference between the two major parties except that one's in and the other wants in, we think this country has entirely too much civil service. When most persons land a civil service job, they cease to be free thinking citizens... they are transformed into yes-men for the centralized government at Washington. Most of them lose any sense of obligation to their community, their fellow citizen (who by the way pays the taxes that pays their salaries), they become imbued with the "public be damned" attitude of the bureaucrats. Their main thought is to get in good with their superiors; their only goal a better job with more pay and shorter hours and less actual work. What this country needs is to fire about one-half of its civil service employees... but what in the world would they do if they were fired... most of them have become so used to loafing, stalling and watching the clock, being high and mighty to the public, that they just wouldn't fit into private industry.

Anderson Goes To Educators National Meet

Superintendent J. A. Anderson returned Sunday from the annual convention of the American Association of School Administrators, held in Atlantic City, N. J.

Theme of the convention was "Education and Development of Human and Natural Resources." School men from over the nation were present for this convention, reported Anderson, and Texas had the second largest group, following New York.

A special train of Texas school administrators was formed in St. Louis and took the delegates to Atlantic City.

Among the principal problems of the profession which were discussed at the convention was the dwindling supply of the nation's teachers and possible steps that could be taken to remedy this situation, said Anderson. It was pointed out that economic status of a people depends upon their degree of literacy and that neglect of education of children could lead to deterioration of the adult population.

One car of the special Texas train was composed entirely of Panhandle educators, of which Anderson was a member.

Mrs. Watson is Returned as Auxiliary Head

Mrs. Joe Watson was re-elected president of the VFW Auxiliary for another year at the annual election of officers held in the Legion Hall Tuesday, March 4. Mrs. Watson is a charter member of the organization and was elected first president when the Auxiliary was organized last fall.

Other Auxiliary officers elected for the coming year are Mrs. Alvin Koehn, senior vice-president; Mrs. Bill Wilson, junior vice-president; Mrs. Martin Metcalf, secretary-treasurer; Mrs. Walter LaMaster, chaplain; Mrs. Ford Koehn, conductress; Mrs. Wallace Sharpless, guard; Mrs. Bud Edmondson, Mrs. O. C. Watson and Mrs. Kenneth Balzer, trustees.

Mrs. Watson announced that plans are being made for a pot luck supper to be held at the Legion Hall on March 25. All veterans of foreign wars are cordially invited to attend this affair whether they are members of the VFW or not, she

stated. Card games will follow the supper.

Mr. and Mrs. Gene Cudd were in Spearman Sunday visiting her parents, Mr. and Mrs. Sheets.

R. L. Keith, who has spent the past four months in the home of his daughter, Mrs. Ribby Clark at Pharr, Texas, returned to Perryton Saturday night.

Marriage License

Wayne W. Qualls and Elen Epp, both of Perryton, issued a marriage license at the city clerk's office on March 5.

Rev. and Mrs. Chas. Pharr, Texas, were visiting in Perryton Monday.

Clothing Needed for
Emergency Closet

If you have children's clothing or bedding which you can spare, give it to the local Red Cross chapter for their emergency closet. Mrs. R. T. Correll, production chairman, states that there have been numerous calls for bedding and clothing for children up to 16 years of age, which the chapter has not been able to supply through their usual channel. There is also a need for clothing for adults, but no shoes are being accepted. The foreign relief quota work is nearly completed, and work is being begun on sewing for the Perryton hospital. The Red Cross room is open each Tuesday, Wednesday, Thursday and Friday from two until five o'clock in the afternoon.

Why freight rates are going up...

Since 1938, railroad employees have had three general pay raises totaling 52 1/2%, and the prices of fuel, materials and supplies have risen 51 1/2%.

But when the war ended in 1945, the railroads were still hauling freight at rates no higher, and in some cases lower, than when the war began.

Without increased revenues, railroads could not meet these costs and also provide improvements in equipment and facilities—improvements that are essential for the low-cost freight and passenger services which are necessary to America's high standard of living.

Under these circumstances—and almost a year after the last major wage increase—the Interstate Commerce Commission recently approved an average increase in freight rates of 17 1/2%.

Of all the price increases in America

today, few have been so little and so late as that in the price of railroad transportation.

How important are healthy railroads to a prosperous country?

Only when the railroads are financially healthy can they provide the new equipment, improved road beds, and better terminal facilities needed for still better service to you.

The defense of the nation depends upon the continuance of the efficient transportation which served the nation so well in the last war.

The railroads are among the largest employers of labor. They buy over

100,000 different products. They pay big taxes—taxes which are spent not only for public schools, public health, and police and fire protection, but even for highways, airways, airports and inland waterways.

Railroads are America's lifeline—keeping goods flowing among the 48 states day and night in all weather.

They can continue to do this only if there is a reasonable balance between income and outgo. Like yourself, the railroads must make ends meet!

We are publishing this and other advertisements to talk with you at first hand about matters which are important to everybody.

Christian Science

"Substance" is the subject of the
Lesson-Sermon which will be read
in all Churches of Christ, Scientist,
on Sunday, March 16.
The Golden Text is: "God is able
to make all grace abound toward
you; that ye, always having all suf-
ficiency in all things, may abound
to every good work" (II Corin-
thians 9:8).
Among the citations which com-
prise the Lesson-Sermon is the fol-
lowing from the Bible: "But Jesus
said unto them, They need not de-
part; give ye them to eat" (Mat-
thew 14:16).
The Lesson-Sermon also includes
the following passage from the
Christian Science textbook, "Science
and Health with Key to the Scrip-
tures" by Mary Baker Eddy: "In
the scientific relation of God to
man, we find that whatever blesses
all, as Jesus showed with the loaves
and the fishes, Spirit, not matter,
being the source of supply" (page
206).

SUNDAY SLEEPER

There is little justification for the habitual Sunday morning sleeper. Man's creation was such that it is necessary for him to gain his strength and encourage for the battles of life from the influence of the church and the teachings of Jesus.

Jesus said that "Man shall not live by bread alone, but by every word that proceedeth out of the mouth of God."

A comfortable bed on Sunday morning with radio, cigars and a newspaper, wonderful as they are, cannot tone up and sweeten a life like an hour of worship in the church of your choice. You need something luxuries cannot give.

There is a certain reassurance that comes from the toll of the church bell and singing of the choir. Be a worshiper in the pew every Sunday. You need the church. The church needs you. You'll find her doors ajar.

Veterans' NEWS

A total of 28,548 war veterans were admitted to Veterans Administration hospitals in Texas, Louisiana and Mississippi during the calendar year 1946, VA reported this week.

Although comparable statistics for the preceding year are not available for the Southwest, the area's increase in veteran hospitalization probably parallels the national figure of 61.3 per cent.

During the same period, beds available for treatment of veterans in VA hospitals in the tri-state area increased 44 per cent to 7,743 beds at the end of 1946.

The number of VA hospitals increased 38 per cent from eight to eleven. Dallas branch area hospitals are at Dallas, McKinney, Timpie.

Amarillo, Legion and Waco, Texas; New Orleans and Alexandria, Louisiana; and Jackson, Gulfport and Biloxi, Mississippi.

The greatest number of veteran patients—about 82 per cent—were general medical and surgical cases. Next were neuropsychiatric patients amounting to 12 percent. The smallest group was tuberculosis patients, comprising 6 per cent of the total.

At the end of the year, 2,797 neuropsychiatric cases in these VA hospitals were classified as psychotic. Another 411 were veterans with neuropsychiatric disorders other than psychosis, such as psychoneuroses, character and behavior disorders and organic conditions of the nervous system.

The disparity between the comparatively small number of neuropsychiatric patients admitted to VA hospitals and the large number under treatment at the end of the year results from the long periods these patients must spend in hospitals under treatment.

The number of loans guaranteed for veterans in the Southwest increased nearly 13 per cent during February over the preceding month, the Veterans Administration reported this week.

A total of 48,908 loans representing a value of approximately \$250,000,000 have been guaranteed by the Veterans Administration in Texas, Louisiana and Mississippi.

Texas Champion Farmers Visit Capital

Champion Farmers of America, including 100 of the nation's leading agriculturists from 27 states embracing every phase of farm work, recently held their fifth national conference in Washington, D. C. Leonard K. Firestone, President of The Firestone Tire and Rubber Company of California, was their host at the meeting in the nation's capital. The group spent a day at the Research Center of the U. S. Department of Agriculture at Beltsville, Md., and were addressed by the Hon. Clinton P. Anderson, Secretary of Agriculture, and Harvey S. Firestone, Jr., President of The Firestone Tire and Rubber Company. They are, left to right, front row—Mrs. Frank Cornelius, Harvey S. Firestone, Jr., and Mrs. F. C. Bishopp. Back row—Frank Cornelius, Plainview; F. C. Bishopp, U. S. Department of Agriculture; Rep. George H. Mahon, Sen. W. Lee O'Daniel, and Leonard K. Firestone.

Loans guaranteed to date for Texas veterans number 38,237. Louisiana veterans have received 7,128 guaranteed loans and Mississippi veterans 3,443.

Q. Does the name "United States Government Life (converted) Insurance" include "National Service Life Insurance?"

A. No. "United States Government Life Insurance" is insurance issued to World War I veterans or to persons who applied for same while in active service before October 8, 1940.

"National Service Life Insurance" is insurance provided for World War II veterans. Each is sometimes referred to as "Government Insurance" and each is administered by Veterans Administration under authority granted by Acts of Congress.

Q. How many offices does the Veterans Administration have and where are they located?

A. The Veterans Administration

MOTHER AND DAUGHTER—The woman on the right is the mother of the young lady on the left, though people often find it hard to distinguish between them. Nancy Carroll, screen star of a few years ago, is the mother of Pat Kirkland, left, now stage actress on Broadway.

has a central office in Washington, D. C., and 13 branch offices located in strategic centers of population. In addition it has one or more regional office field stations or sub-regional offices in each state. Some of these are larger and have wider activities than others but all are charged with the duty of assisting veterans and their dependents.

Q. What identification data should I give in writing about my claim for benefits administered by the Veterans Administration?

A. If you are making application you should give your full name, grade, organization, serial number, date of entrance into service, date of discharge, and date and place of birth. After the claim is filed it will be assigned a claim number which should be mentioned in all subsequent communications.

FLY YOUR KITES Safely

Away from Electric Lines!

Kite flying is great fun but danger lurks when kites are flown near electric lines. Many a child has lost his life using wire for a kite string or climbing a pole to get a tangled kite. Play safe by following these rules:

1. Use only dry, cotton string to fly your kite.
2. Do not use metal kite sticks.
3. Do not climb a pole to get a tangled kite.
4. Fly your kite only in open fields away from power lines or busy highways.

If your kite becomes entangled in electric wires, don't risk injury by trying to get it down yourself. Call our office and we'll send a man to remove it for you safely.

Dombey, Okla.

The Dombey Club met for an all day meeting at the home of Mrs. Frank Hightower. A bountiful dinner was served at the noon hour. Club met in the afternoon and six members and four visitors were present.

The lesson was on clothing. Mrs. Sally Foster led the program. Roll call was answered by naming some new fabric. Delicious refreshments were served to the following members: Mesdames Chas. Miller, Sally Foster, Lela Randless, J. K. Ray, J. R. Kulow and Mrs. Hightower. Guests were: Mrs. Lena Miller, Becky and Linda Lee, Linda Mitchell and Mr. Hightower.

The club was happy to welcome Mrs. Miller, a new member, and sorry to lose Mrs. Hightower as a mem-

ber and neighbor. The Hightowers are moving to Cardo City, Okla., to make their home. The club is presenting Mrs. Hightower a large picture as a farewell gift.

Linda Lee Mitchell has been staying at Dombey with her grandparents. Mr. and Mrs. J. R. Kulow and James Lloyd have been staying with his aunt, Mrs. Edwin Neill and family while their mother was in the hospital.

Mr. and Mrs. Lloyd Mitchell have named their new son, Gary Lee.

Wm. Kulow visited Friday evening at the J. R. Kulow home.

Mrs. Tillie Neill will go to Halstead Wednesday to visit her daughter, Miss Lois Neill, for a few days.

Mr. and Mrs. J. R. Kulow visited Friday evening with Mrs. Tillie Neill and Perry.

LONGFELLOW'S HOME—The 188-year-old Henry Wadsworth Longfellow home in Cambridge's exclusive Brattle street has turned into a rooming house because of the housing shortage. Longfellow wrote much of his poetry in the study of this house, notably the popular "Children's hour." His grandson Henry Wadsworth Longfellow Dana, is a tenant in the house now.

NOTICE

RE: GUARDIANSHIP OF RUTH WADE, A MINOR IN THE COUNTY COURT OF OCHILTREE COUNTY, TEXAS. TO ALL PERSONS INTERESTED IN THE ABOVE MINOR OR HER ESTATE:

Notice is hereby given of a hearing before the County Court of Ochiltree County, Texas, on the 22nd day of March, 1947, at the Court House of Ochiltree County, Texas, in Perryton, Texas, on the application of Pearl M. TEX. March 11 (AP)—The senate today is operating on the theory that time and place to disposing of bills is after the floor of the legislature. In the session, senate members have recommended favorably on 75 bills or joint resolutions, but only one at this writing has been passed.

HOMES FOR AMERICANS

This typical, modern ranch-style house, designed by W. H. Schumacher, Oklahoma City Architect, as his Plan No. A-505, provides for three bedrooms, two baths, a 14 by 30-foot combination living room-dining room, a study, and a large kitchen with adjoining utility area. The over-all dimensions of the house are 75½ by 38 feet. The architect estimates the building cost between \$12,000 and \$16,000, exclusive of land, and depending on the quality of plumbing fixtures and interior equipment, as well as local building conditions.

ing oil and gas orders. This is a measure bound to provoke stiff opposition. The oil industry is watching its legislative progress closely.

Other important legislation awaiting senate action includes:

The bill by Sen. A. M. Aiken, Jr., of Paris setting the per capita apportionment for schools at \$55 and the minimum salary for school teachers at \$2,000.

A proposal by Sen. Grady Hazelwood of Amarillo providing airport zoning rules and another on regulation of airports.

Sen. Pat Bullock's chiropractic regulation bill and Sen. Walter Tynan's basic science bill.

Sen. Kyle Vick's fireman's and policeman's civil service bill.

Sen. Hazelwood's bill providing for statewide, rather than municipal, control of plumbing regulations.

Sen. Howard Carney's bill setting up a real estate commission and re-

moving control of real estate dealer licensing from the secretary of state.

Sen. R. B. Cousin's oil field unitization bill.

These are classified as controversial measures, and if senate committees follow the trend to date, they will load the calendar with many more before the end of the current 30-day period.

Still in the process of writing are the bills which usually prompt long debate—the big money measures for higher education, state departments, eleemosynary institutions and the judiciary. House and senate committees are slaving over them almost every day, with hearings running far into the night.

If You Really Want
To Avoid Colds,
Become a Hermit

AUSTIN, Texas, March 11—What causes colds? Colds are caused by germs too small to be seen under a powerful microscope. They are known as "Filterable Virus." They are present in discharges from nose and throat. They are spread from person to person by sneezing, coughing, spitting, or on any freshly contaminated article, as a drinking glass, which will pass on the infected saliva. A cold is not likely to be passed on during the first 24 hours.

If we could each live like a hermit, apart from others, we would probably never "catch cold." People

tested from those who have colds. Children with colds should be kept home from school, and if rest and light food do not help the cold to disappear shortly, then the family physician should be called. This may not be a cold but even more serious, as most of the communicable diseases start with some of the symptoms of a cold.

What can we do to avoid colds

that cause more loss of time from industry and schools than all the other diseases combined? Have your own cup and glass at home and elsewhere; dress for the weather; eat a balanced diet; get plenty of rest; keep away from persons with colds.

Colds are costly. Prevent them if possible.

No More Visits To Perryton by VA Contact Man

There will be no more regular visits of Veterans Administration contact representative to Perryton. Itinerant contact services throughout the West Texas region has been suspended due to curtailment of Federal funds, Robert W. Sisson, regional manager, stated.

Veterans will be served only in an extreme emergency by VA contact representative. Otherwise, veterans should go to the nearest contact office, which is at Borger in the case of Perryton veterans.

Formerly, a VA representative visited Perryton every two weeks, with headquarters in the Chamber of Commerce office.

Seabee, Blinded on Iwo Jima, Runs His Own Dude Ranch in New Mexico

By SANKY TRIMBLE

(AP) Newsfeatures

CHAMA, N. M.—The story of the 4 Tumble F dude ranch in this remote mountain region of northern New Mexico is the tale of a seeing eye dog, a dream, a little cash and an option.

The seeing eye dog is "Missie," a new pair of eyes for Monroe L. Fox, 32, who was blinded by a bomb explosion while a member of a naval underwater demolition team at Iwo Jima. The dream was that of himself and his wife that someday—somehow—they'd own and operate a dude ranch.

The little cash came from Fox's disability pension; and the option was one taken by Mrs. Fox to purchase a ranch house, six cabins and 30 acres of land.

Now, after a year and a half in permanent darkness, the former Seabee figure he has done "fairly well."

"Considering that I had no capital with which to begin, and that I was newly blind, I'm satisfied with my progress," he says cheerfully. "I've got the 4 Tumble F ranch in my own name. I've fed and clothed my family and I know how

I'm going to make payments on my property."

Fox's other accomplishments since he became blind are also "not too bad." His book "Blind Adventure" (Lippincott) is selling well. He milks his own cow twice a day, using the sound of the milk to judge direction and distance—and processes his own butter, cream and cheese.

He saddles his own horse, and guides parties to remote trout streams.

He fly-fishes a great deal, has done a lot of fence building, ditch digging and rough carpentry. Fox painted his house "with someone to touch up after me, as I seem to miss an occasional spot now and then." He handles a hay fork like an old-timer. He does his own typing and bookkeeping.

A native of Trinidad, Colo., Fox attended the University of Colorado after high school at Walsenburg.

He gives most of the credit for his rapid rehabilitation to his wife, the former Shirley Dagget, member of a pioneer New Mexico family, and to his 7-year-old son, Arthur.

HEARING THE SIGHTS from his wife and son Arthur, 7, Monroe L. Fox, center, rides through the San Juan mountains.

Six Counties Got Their Money's Worth

RICHMOND, Va. (AP)—In Virginia, where there is much legislative contention over division of public revenues between the state and its political subdivisions, the report of the comptroller was a real bombshell.

Six counties failed to ask reimbursement for the cost of electing delegates to a constitutional convention in April, 1945.

Eve Curie Now In America as New Publisher

By TED FARAH

NEW YORK—Eve Curie, chic, dark-haired daughter of the discoverers of radium, has arrived in America for her first post-war visit with a new feather in her cap. She has become a newspaper pub-

lisher in Paris. Miss Curie, in partnership with Philippe Barres, son of the French

author Maurice Barres, has been serving as publisher, editor and sometimes special writer for Paris-Press, an afternoon paper with a circulation of 400,000—second largest in France.

In doing so, she enters a new phase of a career that has seen her in the guises of concert pianist, music critic, play adapter, lecturer on French problems, war correspondent, member of the Fighting French forces and author of a biography of her famous mother.

"Paris-Press is completely independent," she explained in an interview. "We are not tied to any political party. We have no big banker behind us."

The French press, she said, started from zero after the liberation. The old newspapers had been destroyed through collaboration. It was possible to establish a newspaper without needing "an enormous amount of capital." By a coopera-

tive arrangement, publishers became "clients" of the printers' cooperative. They were able to use the old newspaper plants without great initial outlay.

Although there still is governmental licensing and control of newsprint, Miss Curie said this is due to scarcity. She believes the controls will vanish with increased supply.

She said, as far as she could observe, the government has not used this power to suppress opinion.

"There are papers of all shades of political opinion in France now, completely without censorship. They do not hesitate to say what they like about the government."

Nazi-Banned Books In Mobile Library

BERLIN (AP)—The first mobile library for the use of German school children in Berlin has been put into operation by the American-run German Youth Activities Section of Tempelhof Air Base.

The library contains 2,500 books in German, many of which were banned during the Nazi regime. Among the authors included are Dickens, Tolstoy, Verne, Twain, Schiller, Rousseau, Walpole, Grimm, Anderson, Balzac, Cervantes and Thoreau.

The books were donated by the Swiss Book Aid organization.
