COMPLETE NEWS AND ADVERTISING COVERAGE OF THE GREAT TALCO OIL FIELD

THIRTIETH YEAR

TALCO, TITUS COUNTY, TEXAS, THURSDAY, APRIL 28, 1966

ZIP CODE NO. 75487

NU

Austin. — Candidates for statewide offices are getting set for the final week of their campaign. Democrats will vote at their May 7 primary for seven statewide offices.

Spotlight has been on the race for attorney general. Candidates are Galloway Calhoun of Tyler, Crawford Martin of Hillsboro and Franklin Spears of San Antonio.

Spears pledges efforts to improve law enforcement. Martin is emphasizing his 27 years' experience as a lawyer and his long service as state senator and secretary of state. Calhoun identifies himself as the "only real conservative" in the race.

All three candidates are eying the large number of voters who apparently still are undecided despite their long campaigns.

Gov. John Connally, seeking a third term, virtually has ignored attacks on his administration by Stanley Woods of Houston. The third candidate for governor, Johnnie Mae Hackworth of Brenham, has not actively campaigned.

Bill Hollowell of Grand Saline, running as Woods' ticketmate, is opposing Lt. Gov. Preston Smith.

Baul B. Haring of Galia is waging a spirited campaign against incumbent Railroad Commissioner Byron Tunnell of Tyler.

Atty. Gen. Waggoner Carr is opposed by political newcomer John R. (Jack) Willoughby of Houston for the U. S. Senate nomination.

Land Commissioner Jerry Sadler has opposition from Fred Williams of Del Rio.

Only contested statewide judicial race is between incumbent Court of Criminal Appeals Judge W. T. McDonald of Bryan and District Judge John F. Onion of San Antonio.

Light voter interest is expected to be reflected in a predicted 50 per cent voter turnout.

POLLUTION—Population growth essentially is to blame for growing problems of stream pollution. For example, the State water plan, soon to be released, predicts that Fort Worth and Dallas will be discharging 750,000 acre feet of waste water a year into the Trinity River.

This prediction has the Texas Water Pollution Control Board looking for ways to require cities and industries to treat their wastes so they will not cause pollution. Board must adopt a plan for maintaining good quality water in all Texas streams by June 30, 1967, or Federal agencies will take over the job.

Coordinating Board, Texas College and University System, has appropriated \$25,000 to be used, with matching money from the Pollution Control Board, to devise a work plan for a \$4,000,000 study

of how to keep the Galveston Bay System clean.

COLLEGES—Population growth produces more college students. Coordinating Board forecasts that enrollment in 17 state colleges and universities will double by 1978—from 115,015 to 260,097.

This determination was made for the purpose of splitting up the \$156,000,000 Texans will pay in the next 12 years on the 10-cent per \$100 ad valorem tax to finance college buildings at the 17 schools. Schools in the University of Texas and Texas A&M Systems get their building money from their permanent fund endowment.

A \$20,000,000 bond issue to finance the first two years of student loans under an overall \$85,000,000 state program was approved by the Board.

TOURISTS—Texas Highway Department reports that 12,688,000 tourists visiting Texas by car in 1965 spent \$613,148,000—16.4 per cent more than in 1964.

Governor Connally, pushing for tourism, pointed out that when air, train and bus visitors are added to the total, it shows that \$907,000,000 was spent by the visitors.

He also emphasized the need for more recreational facilities at major reservoirs during the dedication of Canyon Dam on the Guadalupe River.

AG RULINGS—Only the territory that was in Justice Precinct No. 2 of Denton County, when voters legalized sale of beer in 1935, legally is wet. Precinct was enlarged in 1948, taking in part of a dry precinct.

Lamar County Hospital District has no authority to convey any of its land to the county as site for a building to house welfare agencies.

OIL OUTPUT BOOSTED AGAIN—Texas Railroad Commission raised the limit on oil production to 35 per cent of potential—highest point for the month of May in seven years.

Allowable was boosted due to increasing demand and decreasing stocks on hand.

New allowable is an increase of 75,700 barrels a day over April.

SHORT SNORTS

Grayson County officials received a Highway Department survey recommending a new route for U. S. 75 from Sherman to the Red River.

Texas veterans are paying up well on their farm and ranch loans, with only 4.44 per cent of the 28,199 active accounts, due November 1, late on their payments, reports Land Commissioner Sadler. State Health Department advised local health units of the new Federal aid policy making birth control information available to all who seek it.

Wright Patman's Weekly Letter

First Congressional Dist. of Texas
"Heart of the Gulf Southwest"

The United States is the wealthiest and most powerful nation in the world. Without diminishing the truth of this statement, which has often been documented in this Weekly Letter, it should be clear to all of us that wealth and authority do not in themselves produce a nation of contented people. In my opinion, the serious decline in regular church attendance is greatly responsible for the social maladjustment of many individuals, notably our young people. But the problem begins with the fathers and mothers—of whom far less than half regularly attend church services in our urban centers. Contrast this fact with the situation in the Armed Services, where as I was recently told by a member of the Defense Department's Board of Chaplains, the majority of servicemen are deeply faithful to their religious convictions.

The Seeding of Clouds is now well accepted as a means of producing rain. Seeding is also important as a technique to disperse fog at airports, to increase the snowpack at higher altitudes which means more water storage for the following year, to reduce forest fires by suppressing lightning which is the frequent cause of these wasteful holocausts, and also to suppress hailstorms which every farmer knows can mean swift destruction for his crops. Seeding for these other purposes is still undergoing study and experimentation, but may be proved successful sooner than we think. The next big problem is how to move water-laden clouds about in the heavens so that they can be seeded for rain where it is needed. And all of these activities and plans bring with them a host of legal problems—who can rightfully say where rain should be diverted, and where it should fall?

Loyalty Day. In 1958 Congress designated May 1 of each year as Loyalty Day, and this coming Sunday most Americans will again have the opportunity to reaffirm their belief in and adherence to the United States of America, in appropriate ceremonies throughout the country. We should also give thought at this time to the many thousands of Americans overseas who are demonstrating their loyalty at the risk of their lives, not just on May 1, but on each and every day of the year.

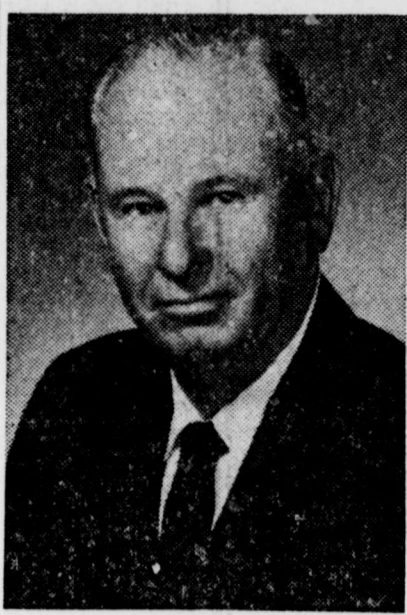

Your Druggist is a very special type of businessman. He must make a profit to continue to operate in our free enterprise society, and he frequently carries numerous items not directly connected to the business of purveying drugs, but he is also a highly trained and skilled professional, a pharmacist, and in this department his overriding consideration is service to his community. If I were to be asked—what small business do you think is most typically American, combining the strong independence of the individual with a highly developed sense of customer responsibility, I would unhesitatingly name your neighborhood Druggist.

Moonlighting is the term applied to the practice of working at more than one job. About one in every 20 employed Americans is a moonlighter, mostly because the extra money is needed to support the family or to provide a better education for the children, but another important consideration is that this is a good way to upgrade skills, to break into a new field of employment, or to establish a new small business. I have always felt that holding a second job is not a significant element in the problem of unemployment as some people have claimed. The road to self-improvement should always be kept open in this country to those who are willing to take it, and I see no valid reason to ration jobs.

A Total of 14 of the 17 Counties in the First Congressional District have received official designation as Redevelopment Areas eligible for assistance under the provisions of the Economic Development Act (EDA)—three counties, Hopkins, Lamar, and Titus have not yet been so designated as of April 20 either for lack of a request to EDA by proper local authority, or because an Overall Economic Development Program has not been established.

Fish Hooks and Viet Nam. Years ago I heard a minister discuss truth and falsehood. He said that a lie became more effective if there was some truth in it, that this element of truth was like the barb on a fishhook, it was the part that made the lie stick. When I hear some of the statements made about our involvement in Viet Nam, I remember this story and that the more truth a lie contains, the more effective it becomes as a propaganda weapon. We owe it

Name C. L. Cooke CPS President

C. L. Cooke, executive vice-president of Community Public Service Company, was elected president of the power company by Community's board of directors at their meeting in Fort Worth on April 22.

Cooke, a 39-year veteran of the utility company, succeeds N. R. Parsons, who retires from active duty. The new president also was named to the board of directors filling the seat held by Parsons for several years.

Election of the new president was announced by R. L. Bowen, board chairman and chief executive officer, following the board meeting and the annual meeting of the company's stockholders.

Cooke joined Texas-Louisiana Power Company, Community Public Service Company's predecessor, in 1927 as a member of the General Office accounting department. Following service with the military during World War II, Cooke returned to the company as assistant treasurer and office manager, and in 1950, was given additional responsibilities as assistant secretary.

In 1962 the utility executive was elected vice-president and treasurer of the company. Last November, Cooke was elevated to the position of executive vice-president.

Rivercrest Has Big 15-AA Year

The Rivercrest and Cooper athletic teams, thanks to outstanding showings by their girls' squads this past school year, have finished in a tie for second in the District 15-AA sweepstakes on the basis of their overall showings in sports the past campaign.

Using a scoring tabulation of six points for first place, five for second, etc., the Rivercrest and Cooper teams tallied 23 points during the season.

Rivercrest, Winnsboro and Commerce each won two championships in the conference.

The Rebelettes took the girls' track and basketball titles, furnishing Rivercrest 12 of their 23 points. Other than the girls' strong showing, the big factor working for Rivercrest and Cooper were their participation in all but one sport each.

The Rebels didn't have a golf team, and Cooper missed out in tennis. Each fielded six teams in the various sports.

The Rivercrest girls not only dominated the conference this year in each of their sports, but have also secured for the league some of the top prestige available in the state.

The Rebelette cages won the cage title, and went on to finish third in state.

And the track team swept every title in the 15-AA meet, and now goes to regional where the Rebelettes are expected to finish.

Rivercrest had a third place finish in tennis, landing two of net teams in the finals of the conference event.

Rivercrest had a fourth place finish in boys' track, and was fifth in football and boys' basketball.

This was Rivercrest's first year of participation in District 15-AA. The Rebels and Rebelettes are expected to be even stronger next year than the one just passed, with most of the rosters composed of underclassmen.

Sunday guests of Mr. and Mrs. Vernon McConnell were his sisters, Mrs. Monnie Reed and Mr. Reed of Kilgore, Mrs. A. W. Harrell and Mr. Harrell of Cuthand and Mrs. D. C. Williams and family of Bogata.

to ourselves to get the actual facts. A set of six publications on the Viet Nam issue published by our Department of State will be sent to you free upon request to my office.

Heavy Rains Lash Area Overflowing Creeks and Rivers

Violent thunderstorms and heavy rains lashed this area since Friday. The downpour sent streams, creeks and rivers overflowing their banks following the most rainfall in several months.

A Deport a total of 12.73 inches has been recorded for the month of April, according to Jack Nixon, local weatherman. Of this amount 9.89 inches were measured since Friday. Breakdown figures show 2.93 inches measured early Saturday morning; 2.67 inches on Sunday; .87 on Monday; 2.50 Tuesday and .92 Wednesday. Heavier precipitation was measured in different localities. On Wednesday unofficial measurement, north of Deport on Mustang Creek watershed was 2 1/2 inches, which sent water overflowing into lowland.

Friday's thundercloud was accompanied by a heavy hail about the size of marbles that covered the ground at Deport, damaging young, tender gardens and beating leaves from trees.

Northeast Texas was placed under a severe weather alert Saturday and again Monday, but no report of tornadoes touching the ground in this vicinity.

The rains have replenished water supplies in rural and city areas. For the first time in several months water went over the spillway at Deport's city lake.

Highway 37 between Bogata and Mt. Vernon was closed Tuesday because of high water on Sulphur River.

From Friday night until 8 o'clock Tuesday morning, 10.1 inches of rainfall was measured at Bogata. Texas Power & Light Company's Rivercrest plant reported 9.24 up to 5:30 a. m. Tuesday. Some damage was reported from an electrical storm Saturday.

About 7:30 Saturday evening electric service was temporarily interrupted at Talco. Service was restored about twenty-five minutes later at approximately 9:30 p. m.

Titus Co. Sheriff Department notified Talco city officials that a tornado which had been located on the radar screen, was moving toward the Talco area. The siren was sounded to alert the people. Then the city officials and other volunteer workers, Milton Carroll, Bill Via and David Hill, used their ham radio and walkie-talkie equipment to follow the path of the tornado, which lifted and disappeared before reaching the Talco area. Approximately 5 inches of rain has fallen here Monday and Monday night.

Thunderstorms Wednesday night brought an added 2.9 to Bogata, making a total of 13 inches.

Mrs. Dobbs Rites Held Sunday

Mrs. Donnie Savage Dobbs passed away Thursday evening at a Terrell hospital after a lingering illness. She was the daughter of Tobe and Blanche Savages, long time residents of this community.

Turner Funeral Home in Mt. Pleasant brought the body to Mt. Pleasant and had charge of arrangements. Services were held at Piney Baptist Church, Sunday afternoon at 2:30 with burial in a nearby cemetery.

She is survived by two sons, A. D. Dobbs of Talco, O. B. Dobbs of California and one daughter, Ruby Lee Hines of Talco; five brothers, Buck Savage of Ft. Smith, Ark., Rube Savage of Commerce, Bill Savage of Sulphur Bluff, Bud Savage and Leroy Savage of Talco; five sisters, Allie Monday, Letha Brown, Shawnee Savage, Linnie Norman and Kathleen Savage; nine grandchildren and four great-grandchildren.

Smackover Test Well Is Staked

Smackover production will be the objective of an East Texas exploration field for drilling Friday in northeast Franklin County four miles southwest of Talco and a mile south of the Talco Paluxy field.

The 10,500-foot hole will be drilled by Ray E. Bradshaw and John G. Champion, working from Tyler as No. 1 B. O. Shurtleff estate. Drillsite is 467 from the north and 2875 from the east lines of the N. K. Alston survey, A-4 and on a 120-acre tract.

Numerous Smackover tests have been drilled on both sides of and inside the Talco field area, but all have been failures. Nearest Smackover production is west along the fault in the Sulphur Bluff field.

Rivercrest Girls Sweep Dist. Meet

The Rivercrest Rebelettes swept the first place medals, and completely overwhelmed the opposition in the District 7-AA girls' track and field meet Friday afternoon on the Rivercrest High School cinders.

Rivercrest amassed 220 points to more than double the other two teams in Division II of the meet. Atlanta had 88 points and Clarksville 48.

Queen City, likewise, had an easy time winning Division I. The Queens had 224 points, Avinger 54 and Ore City 51.

The Rebelettes scored one-two sweeps in four of the events, as they qualified for 16 spots in the regional meet in Kilgore Friday.

The first two finishers in each event qualified for regionals.

The romp by the Rebelettes was one of the most decisive in the district meets around the state.

At regionals, the Rivercrest girls will be seeking berths in the state meet at Waco Midway in two weeks.

Lana Sloan, sophomore Rebelette, was the individual standout in the meet, scoring 40 points. She won the broad jump, hop-step jump, 220-yard dash and was on the winning 440-yard relay and 880-yard relay teams.

Nancy Harper was a double winner for the Rebelettes. She took the high jump and was also first in the shot, and Sandy McCall was first in the 100-yard dash.

This was Rivercrest's first girls district meet. Last year, however several members of the team competed in the Class A district with Talco and Bogata.

The Trojanettes qualified several individuals for state, and went to Waco.

Following are the Rivercrest finishes in the district meet:

DIVISION II

Team points: Rivercrest 220, Atlanta 88, Clarksville 48.
High jump: 1. Nancy Harper Rivercrest; 2. Glenna Grayson, Rivercrest. Height: 4-4.
Broad jump: 1. Lana Sloan, Rivercrest; 2. Sandy McCall. Distance: 16-3/4.
Hop, step, jump: 1. Sloan; 2. McCall. Distance: 33-7/2.
Discus: 1. Katy Fry, Rivercrest.

By MRS. MORRIS BLALOCK
Saturday guests of Mr. and Mrs.
A. T. Blalock were Mr. and Mrs.
Ben Burrow and children of Clar-
endon.

Mrs. Alvin Blalock and Mrs.
Morris Blalock visited Mr. and
Mrs. Buddie Lenox and family in
the Liberty Hill community and in
Mt. Pleasant. They visited Mrs.
Wesley Leake in Nevills Chapel
community a wheel Thursday even-
ing.

E. C. Elder is ill in Memorial
Hospital.

Mr. and Mrs. Pleas Anschutz
were Saturday evening guests of
Mr. and Mrs. W. H. Duran of Pine
Hill.

Little Donna Kay Buchanan of
Dallas, is spending a few days
with her grandparents, Mr. and
Mrs. C. A. Dyke. Mr. and Mrs.
Charles Pearson of West Memphis,
Ark., also spent the week end with
her parents, Mr. and Mrs. Dyke.

Mr. and Mrs. C. G. Phillips, Mr.
and Mrs. James Bergin and Mrs.
Charles Phillips went to Dallas
Sunday to meet Pvt. Charles Ver-
non Phillips at Love Field.

Pvt. Tommie Easley is here
spending a few days with his wife,
Mrs. Judy Easley and his parents,
Mr. and Mrs. Melvin Easley.

Mrs. E. W. Dyke and son, Thom-
as, visited her sister, Mr. and Mrs.
Joe Thompson and family in Mt.
Pleasant, Sunday.

Sunday guests of Mr. and Mrs.
John Smith were their son, Mr. and
Mrs. Kelton Smith and children of
Maple Springs.

Dinner guests Sunday of Mr. and
Mrs. C. A. Dyke were their daugh-
ter and son-in-law, Mr. and Mrs.
Glenn Goets, of Mt. Pleasant.

Rev. and Mrs. Ray Jobe spent
the week end in Ft. Worth, visit-
ing his father, who is ill and also
their daughter and family.

Mrs. Claud Derick of Mt. Pleas-
ant, visited her raunt, Mrs. E. W.
Dyke and her parents, Mr. and
Mrs. Allen Dyke, Thursday.

Mr. and Mrs. Ben Burrow and
family of Clarendon, were visitors
of Mrs. Burrow's sister, Mr. and
Mrs. Wesley Blalock, Saturday.

Vacation Topic Of Club Program

"How to get the most out of your vacation" was appropriately discussed by Mrs. Ivy Smith Friday when the Book Lover's Club met in the home of Mrs. Thelma Kelley for their last meeting before adjourning for summer vacations. Roll call was answered by eleven members with telling of their most enjoyable vacation, which included trips over most of the United States as well as Hawaii and Canada. Mrs. Smith's program featured the importance of proper preparations for an enjoyable, care free trip. She also gave some tips from an experienced traveler, Paul Schubert, that will add zest and richness to your next holiday trip.

Mrs. J. L. Cato, president, conducted the business session during which a report was made by the Cemetery committee that the upkeep funds were coming in very satisfactorily.

During the social hour, Mrs. Smith directed games on vacation spots in which Mrs. H. O. Williams and Mrs. Ollie Jones, excelled and were awarded prizes. Assisted by her granddaughters, Peggy and Gloria Kelley, the hostess served a refreshment plate. The door prize was won by Mrs. O. B. Hopwood. Arrangements of spring flowers were placed at vantage points thru-out the living and dining room.

The Peace Corps is a long way from Des Moines.

In fact, it's a long way from everything you ever knew before. Mom. Home. College. Dates. Recruitment teams from Giant Corporations. The old 9 to 5. Everything.

The long way could be Tanzania, or 45 other Peace Corps countries. You'll probably learn a new language, like Swahili. (In Des Moines, hardly anybody can speak Swahili.) You'll

learn to eat new foods and dance new dances. Do new jobs and play new games. You'll see most of your preconceptions challenged, like what is good or bad, beautiful or ugly.

You'll use every skill you've got, and every ounce of guts. You'll work harder than you ever thought you could, and maybe find out you're more of a man (or woman) than you

ever thought you could be.

And when you come back from two years in Peace Corps country, you just may leave the world a little better than you found it.

One thing is sure; you'll never be the same.

Mr. and Mrs. R. G. Hood visited
Mike Reed, a patient at Wadley
Hospital, Sunday. Mike is continu-
ing to improve.

Miss Gartman Is Shower Honoree

Miss Rosemary Gartman, bride-
elect of A3c Richard Virgil Rob-
erts, was complimented at a per-
nuptial shower Monday evening at
Calvary Baptist Church in Talco.

The refreshment table was cov-
ered with a blue cloth, overlaid
with lace and centered with a bou-
quet of blue flowers, and tall blue
tapers. Misses Dianne Hendricks
and Judy Morse served blue punch
and white decorated cake squares
with nuts and mints.

The register table was covered
with white net with a blue bouquet
of flowers. Miss Rhonda Roberts
had charge of the guest book and
Miss Martha Neugent assisted
Miss Gartman with the gifts.

Hostesses were Mrs. Elton Bel-
cher, Mrs. Lola Taylor, Mrs. Rich-
ard Parrish, Mrs. Boyd Horton,
Mrs. Larry Tucker, Mrs. Charlene

Forecast

**SUMMER
SIZZLE
JUST
AHEAD**

Time to have your electric air conditioning equipment checked

For extra comfort and economy this summer, have a quali-
fied air conditioning serviceman check your electric air
conditioning equipment. He'll see to it that your equipment
is properly lubricated and adjusted and has just the right
amount of refrigerant. He'll clean clogged filters, too, to
assure the free air flow needed for maximum operating
efficiency. Your electric air conditioning equipment will
soon be working longer and harder to keep you cool, so it's
a good idea to have that maintenance check now. And
now's the time, if you need additional cooling equipment,
to see your air conditioning dealer.
