

THE JUNCTION EAGLE

Volume 45

Junction, Kimble County, Texas, Thursday, January 24, 1929

Number 41

GEORGE DURST FARMER FOUND DEAD SATURDAY AT 6 A.M. NEAR HOUSTON

JUNCTION HIGH SQUAD IS DEFEATED 13 TO 12 BY LONDON QUINTETTE

The Schreiner High School basketball team played London last week and were defeated by the score of 13 to 12. The score indicates that the battle was a close one and it was anybody's game until the final shot was fired.

The Junction boys were handicapped because of ineligibility. Three of the players were forced to remain on the bench because of technical ineligibility. Coach Earl Bowers stated Tuesday that more of the men were eligible at the present, and he also added that it is probable that the local team would encounter London again but this time on the home court. The game is expected to be played some evening this week.

The line-up for the game last week was: Leonard Dunbar and "Buckshot" James, forwards; Lavelle, center; and Fred Beasley and Marvin Blackburn, guards. Substitutions were: Carleton Wright for James, and Wilbur Jeter for Blackburn.

Coach Bowers has two able goal tappers in Leonard Dunbar and "Buckshot" James. Dunbar has a good eye for the basket and makes some well-angled shots. James is quick and fairly accurate at making his heaves out.

The local basketball court has been put in fair condition, and the lighting system has been completed. It is now possible to play games at night, and Bowers stated that the majority of the games would be played at night in order to permit more of the business men to attend who would be unable to do so in the afternoons. Seven large electric lamps are arranged over the court, and a flood light is streamed over the court, making night playing quite as easy as playing in the afternoons. The goal posts and backboards have been painted white by the coach and his assistants.

The men are working out daily now and are quickly rounding out into fair shape. The contenders for the forward position are: Dunbar, James, Newman and Wright. For guards, Lavelle, Jeter, Jones and Beasley are working out. There are two contenders for the center position, Lofton Little and Sherman Hendricks. Both of these men range over six feet tall and are good prospects for this season.

Since the Junction boys played London, Menard, Mason and Rocksprings have written to Coach Bowers attempting to arrange a match.

J. T. HULL DIES

Mr. J. T. Hull, of the Sycamore community, died Wednesday, January 23, and the funeral will be held at the Junction Cemetery at 2:00 o'clock this afternoon. Brother Milton F. Hill, pastor of the First Methodist Church of Junction, will conduct the funeral services.

Mr. Hull was 82 years old at the time of his death. He was born in Pennsylvania on January 19, 1847.

MARRIAGE LICENSES

County Clerk U. D. Kindrick and his deputy are wondering why the young people do not buy more marriage licenses. They have each issued one. Mr. Kindrick issued one to Wylie C. Clark and Miss Annie Larkin, and Miss Dunk issued license to Bennie Grubbs and Miss Elva Collier.

Meets Tragic End While Serving R.R. Company

Mr. George Durst Farmer, son of Mr. and Mrs. A. G. Farmer of this city, was killed Saturday morning at 1 a. m. as a result of a fractured skull when he presumably fell from a fast moving freight train as it was passing through Hockley, a little station close to Houston. Mr. Farmer was in the employ of the Southern Pacific Railroad Company and was working in the interest of the company when he was killed.

Mr. Farmer was 23 years old at the time of his death. He was an alumnus of the University of Texas, and attended the Schreiner High School, as well as a business college in Abilene. He was a member of the Church of Christ, and was held in high esteem by those who were associated with the youth when he lived here. His class mates at Schreiner High School spoke of him highly.

The details of the tragedy appear below as written by a reporter for the Houston Press: "D. Farmer, 23, Southern Pacific special agent, was killed by a fractured skull and Willie Butler, negro, about 35, was shot to death when they fought in, and fell from, a freight train that passed through Hockley about 1 a. m. Saturday.

This was determined when it was learned that a fractured skull, and not a pistol wound, caused Farmer's death. It was first reported that Farmer had been shot through the head but this was found to be in error when Leo Woodcock of Houston Undertaking Company examined the body.

The bodies were found on the sidetrack at Hockley, lying across the tracks with their heads on opposite sides. A cocked automatic pistol lay between them.

District Attorney's Investigator Reneau reconstructed the double killing thus:

Farmer and the negro struggled inside an empty box car as a freight train sped through Hockley. Farmer shot the negro through the chest.

The negro grappled with the white man, toppled from the box car and pulled the agent with him. In addition to the fractured skull, Farmer received a broken nose and several bruises. Justice W. T. Stokes of precinct 6 held an inquest and Sheriff Binford, Deputy Sheriff Andrew and District Attorney's Investigators and Reneau went to the scene. Houston Undertaking Company took charge of the bodies.

There were four cartridges left in the pistol, which had a capacity of eight. However, only one exploded shell was found.

Down the track about 50 feet the hats of the men were found and nearby were spots of blood and a fountain pen that belonged to Farmer. The negro seemed to have been beaten over the head, another thing that led officers to believe that a fight had taken place.

The negro was seen about the Hockley station Friday afternoon by a negro who is employed in carrying mail from the station to the post office. The negro said he talked to the man for a few minutes.

Farmer left Houston on a Southern Pacific freight train about 10:30 p. m. Numerous attempts to rob freight trains had been reported along the line recently, S. P. officials said, and agents were guarding every train that left Houston.

The train arrived at Hockley (Continued on page 2)

NEW BAPTIST CHURCH BUILDING IS RAPIDLY NEARING COMPLETION

Construction on the new First Baptist Church building is rapidly progressing and according to Mr. E. D. Porter, contractor, the building will be turned over to the congregation before the month of February ends. Plans for the formal opening ceremony have not been announced as yet.

The new building is fifty feet wide and eighty feet in length facing the east. It is being constructed of concrete and hollow tile and is to be fireproof throughout. The concrete floors inside the building are being laid now, and most of the masonry has been completed.

According to statements made by Mr. Roy Reynolds, the wiring system in the church is one of the most complete to be found anywhere. A spacious auditorium with seating capacity of over five hundred, is one of the best features of the building. A ceterex ceiling is being installed in order to aid the acoustics. This ceterex ceiling is supposed to absorb sound and prevent echoes.

Instead of the slate roof which was first planned to be used, a standard seam sheet metal roof will be placed on the building. The men in charge of installing this roof are here now and working on it.

The outside walls will be covered with a selected stucco, and the inside walls will be plastered. Inside lavatories for men and women are desirable features of the new building.

According to Brother G. W. Crabb, pastor, Mr. E. D. Porter, the contractor, is working faithfully, and is getting the building constructed in rapid time.

Prize to be Awarded For Best Pecan Recipe

If you are adept at the science of concoction, you have a chance to win \$10.00 between now and the last day of February, according to Dr. J. Fred Burt. The Ramsey Pecan Company of Brownwood is offering this prize for the best pecan recipe which is submitted at the Executive Committee meeting of the West Texas Pecan Association which is to meet in Junction in the last week in February.

A local committee will formulate the rules governing the contest, and take charge of the judging and awarding of the prize. If this contest is successful and creates some interest, the Ramsey Pecan Company will renew this offer from time to time. Several recipes have already been received by Dr. Burt and many more are expected before the meeting of the committee here in February.

Football Players Are Awarded Letters Here

Last week the members of the Schreiner High School football team were awarded letters, according to Head Coach Earl Bowers. Mr. Bowers presented the men with the sweaters. The sweaters are light weight, closely woven and are colored gold with a black "J" on the left side.

The players receiving these letters were: Fred Beasley, Frank A. Hubbell, Jack King, H. T. Richardson, Oscar Duderstadt, Louie Ragland, Warren Braley, Russell Lavelle, Lemuel Jones, Wilbur Jeter, Arl Taylor, Leonard Dunbar, Columbus Allison, Herbert L. Newman, Lawson Johnson, and Marvin Blackburn.

CHURCH OF CHRIST

The Bible classes of the Church of Christ will meet at 10 o'clock Sunday morning at the regular meeting place. Preaching will start at 11:00 o'clock. The evening service will begin at 7:00 o'clock.

P. T. A. MEETING NEXT MONDAY WILL OBSERVE NATIONAL THRIFT WEEK

The Parent-Teachers' Association of Junction will meet Monday afternoon, January 28, at 4 o'clock in the Schreiner High School auditorium, according to Mrs. W. P. Riley, president of the organization. Mrs. Riley will preside over the meeting.

The meeting will open with a prayer led by Brother Milton F. Hill, pastor of the First Methodist Church. Following the prayer, Elder J. S. Newman, minister of the Church of Christ, will deliver the scripture reading. A reading, entitled "The New Year," will be given by Miss Mabel Hodges. The combined girl students of the eighth grade will sing "Thrift for a Rainy Day." Bill Barnes presents to the audience an article entitled "The Habit of Thrift." Following this article, Miss Mary Hubert will read an essay entitled "Benjamin Franklin as the Father of Thrift." The closing prayer will be given by Brother G. W. Crabb, pastor of the First Baptist Church.

After perusing over the above program, the reader will see that the program centers about thrift and how to be economical. The program was arranged in commemoration of Thrift Week. Incidentally the slogan of the National Congress of Parents and Teachers is, "Thrift every day, in every way." It must be remembered that "Thrift" means will power, self-denial, courage, backbone and character. These sentiments will be thrust in the foreground during the meeting of the P. T. A.

"Every mother is to be an encouragement to her children and the teachers, and is urged to lend her presence at the meetings of the P. T. A. and help her child win the book which is donated at each meeting to the grade that has most parents present at the meeting," stated Mrs. Sam Pepper.

Local Merchants Make Buying Trip to East

Mr. and Mrs. Philip Joseph of Junction left Sunday for points north and east on an extended shopping tour to obtain goods for the spring and summer season for the Joseph Dry Goods Store. Mr. and Mrs. Joseph went from Junction to San Antonio, thence to St. Louis and Chicago. They are expecting to go to New York also.

The buying trip will take about two weeks time for the completion of all their purchases. While on this trip, Mr. Joseph will secure goods for the new Men's Furnishings store which he intends to open soon.

The entire trip is being taken via the train route. This trip is made annually by Mr. and Mrs. Joseph.

MRS. JOE TURNER WILL BUY NEW SPRING LINE

Mrs. Joe Turner will leave for Dallas Sunday where she will purchase a complete line of new spring dresses, ready-to-wear, millinery and novelties for the Vogue which has been moved back into the Bissett building next door to the Awbrey-Bell Drug Store.

Mrs. Joe Turner and Mrs. Luthie McDonald are again in charge of the Vogue and ask their customers to come to see them, and extend a cordial invitation to new customers. A complete line of goods will be kept in stock.

WEATHER REPORT

Warmer with much cloudy weather and no rain tells the story of the past week. A good rain would be beneficial as there has been very little rain the past three months.

REPRESENTATIVES OF O. S. T. HOLD MEETING IN JUNCTION JAN. 19

REPRESENTATIVE COKE R. STEVENSON "ELECTED" "GOVERNOR" OF TEXAS

Another great honor has come to Junction through one of its successful citizens. Representative Coke R. Stevenson of Junction was "elected" Governor of Texas, and several "important bills" were passed by a "rump" session of the Legislature which met in Austin during the past week-end. The only thing wrong with the proceedings of this "rump" Legislature is that they are not legal and therefore cannot be made binding.

The humorous farce session was indulged in by the Representatives who did not make the junket trip to Houston during the week-end. Speaker of the House W. S. Barron of Bryan, unable to make the trip to Houston, spent Saturday in Austin working, but did not participate with his colleagues in their droll session.

The junket trip to Houston was led by Governor Dan Moody and Lieutenant-Governor Barry Miller. This caravan of state officials, legislators and members of the press returned to Austin Sunday morning after passing the entire week-end in the Bayou City.

News dispatches from the Capitol City did not state when the newly "elected" Governor of Texas would take the oath of office since one Governor or just took the oath a few days ago.

School Situation Here Approaching a Crisis

Six new pupils entered school this week and several who have been ill have returned to school. With the attendance again reaching the normal stage the faculty and others interested are reminded very forcibly of the crowded condition of our schools. Every available room is occupied and the "goat shed" on the school ground is occupied. Junction is growing rapidly and the people realize that the schools need more teachers and more rooms. Practically all the rooms are overcrowded.

Junction has always taken care of her schools and will not desert them in this crisis. When the beautiful building now housing our children was built many thought that it would be all the school would ever need. No provision has been made to give the girls training in any phase of vocational training. There is no room for expression and other subjects in which our children are interested. Another building is needed now and with our normal growth it will be only a few years until another building as large as the present building will be full of children.

A crisis in school affairs confronts us. Let us not fail the children.

NEW AWNINGS BUILT

A sheet metal awning is being constructed on the new Bissett and Blackburn buildings this week. These two buildings are located on the west side of the square and have just recently been completed. They are strictly modern and fireproof throughout, even to the windows.

This awning is built to extend over the walk to the curb, and will serve to keep the sun and rain off pedestrians as well as protect the shops from the early morning sun.

Mrs. R. H. Loeffler and daughter, Janice, and Miss Selma Loeffler were Menard visitors Tuesday.

Banquet Given by Local Chamber Commerce

Representatives from San Antonio, Center Point, Kerrville, Sonora, Ft. Stockton and Balmorhea were present at a meeting held in the Fritz Hotel last Saturday evening to discuss ways and means for the immediate construction of tarviated roads in the few spots existing on the Old Spanish Trail Highway which are not in as good condition as the representatives of these cities desire, according to J. B. Stevenson, secretary of the Kimble County Chamber of Commerce. The meeting was called by the Kimble County Chamber of Commerce and the representatives were entertained with a banquet.

Mr. W. H. Furlong, manager of the Highway Department of the San Antonio Chamber of Commerce was one of the principal speakers of the evening. He outlined a plan whereby more traffic could be routed over the O. S. T. Highway, and a better spirit of co-operation could be attained by the cities on the highway between San Antonio and El Paso. The two chief points of Mr. Furlong's speech were: The construction and maintenance of a first class all-weather highway; and better advertising directed through channels which would bring the maximum of results at the least cost.

Brief condensed statements of the things to be accomplished were made by Mrs. Walker, of Center Point, Mrs. Amy Wallace of Kerrville, Mr. Boone of Balmorhea, Mr. Rose of Fort Stockton, Mr. Mosty of Center Point, Mr. Prescott of Kerrville and Messrs. Emil A. Loeffler, W. P. Riley, Judge Weaver H. Baker, and Captain H. W. Rieck, all of Junction.

At the suggestion of Judge Weaver H. Baker a committee was appointed consisting of members of each of the Chamber of Commerce organizations between San Antonio and the Davis Mountain Filling Station, to act as a permanent committee to adopt a plan of action for promoting travel over the Old Spanish Trail Highway. Mr. Emil A. Loeffler was elected permanent chairman of the committee with the authority to appoint his own secretary. The chairman was given power to call a meeting of the committee as often as he thinks necessary to carry out the work of the committee.

Throughout the meeting the representatives urged that each seek the unqualified support of all the Chamber of Commerce organizations on this highway and that each organization adopt a resolution pledging co-operation in all matters.

After the banquet, the meeting was adjourned by Mr. Conrad T. Hokekamp, president of the Kimble County Chamber of Commerce.

THE METHODIST CHURCH

Make Sunday your "Go-to-Church-Sunday!" There is surely some church in our town that you can attend.

It will help you and help others. It will bring you inspiration, benefit and real pleasure. So Let's Go!

All the regular services at the Methodist Church. Don't forget the evening service, 7:00 o'clock.

This service will include: selection by the Quartette, reading, Mrs. A. W. Loeffler. Fine song service. A message practical and to the point. Everyone invited.

Air Ports and Air Mindedness

It was the privilege and pleasure of the Secretary of the Kimble County Chamber of Commerce to be present at Fort Worth at one of the most instructive aviation short courses that has been put on in the State of Texas. Through the courtesy of the Texas Air Transport Incorporation all the Secretaries of the Chambers of Commerce of the State of Texas, together with many newspaper reporters were invited to participate, free of charge, in this air school.

The purpose of this short course in flying was to create a definite impression in the minds of those present a necessity in recognizing the airplane as a modern means of transportation which has come to stay. It is the popular belief of the people throughout the country that aviation is still very dangerous, and as yet, has no place in our national scheme of commercial transportation. The lecturers and instructors at the T. A. T. School removed any doubt from the minds of assembled students in regard to unsafe navigation of the air. The T. A. T. and N. A. T. Companies carry both night and day mail as well as many passengers. The N. A. T. is flying more than 2,000,000 miles, or equivalent to 80 times around the world, have had only six casualties, these being chiefly caused by the extremely heavy fog in the eastern part of the United States. The T. A. T. which operates principally in Texas, have flown over half a million miles, or equal to 20 times around the world, with the loss of not one person or cargo. The planes of both these companies operate steadily night and day, through rain, sleet and snow.

The T. A. T. headquarters at Beacham Field in Fort Worth is a model of aviation engineering. They have a work shop in which a Wright whirlwind motor can be thoroughly overhauled and repaired in a very short time. Any other part of the plane can also be repaired or rebuilt quickly. They have hangars to accommodate about thirty to forty modern planes. Their lighting system is one of the most approved type which consists of red light markers for outside of the field, and one giant beacon light which revolves, pointing skyward, at the rate of about six times per minute. Along the top of the hangars are giant flood lights which are adjustable and can flood any part of the field with a white light, which enables the pilot to alight with no difficulty on a dark and foggy night.

In connection with this complete equipment is an able personnel composed of some of the best airmen pilots in the world. Some of them are instructors at the T. A. T. School and some are engaged in actual transport work. Mr. Jerry Marshall, who is in charge of the T. A. T. School, is not only an accomplished flier but an aeronautical expert in every sense that the term implies.

The T. A. T. work together with the Association of the Fort Worth Chamber of Commerce intend to see, if possible, that each and every town throughout Texas secures and maintains an airport of some description. It will be only a matter of a short time when people are bound to acknowledge the position that aviation holds in American Commerce. At this time there are over \$300,000,000 invested in aeronautical equipment in the United States alone.

GEORGE DUREST FARMER

(Continued from page 1)

between midnight and 1 a. m. The bodies of the slain men were found at 6:30 a. m. by members of a section crew. They reported the discovery to Station Agent J. L. Neelley, who called officers. Mrs. Neelley, wife of the station agent, said that only one shot had been heard during the night. Mrs. P. L. Burton, who lives a quarter-mile from the station heard it.

Farmer's home was in Junction, Texas, but his headquarters during the two years he had been employed by Southern Pacific was at Giddings. He was unmarried and is survived by his parents, Mr. and Mrs. A. G. Farmer.

EXPERTS STUDY HOW TO KILL LOCO WEED

College Station—Discovery of some way to eradicate the poisonous loco weed or means to abate its baneful effect on cattle is one of the objectives of the research program of the Experiment Station, A. & M. College of Texas, for the next two years. Director A. B. Connor of the station has pointed out. The effects of the loco weed on cattle is to make them emaciated and eventually "loco" or crazy with death resulting in many instances. The weed is found throughout the range country and causes heavy losses annually to cattlemen, the loss of twenty-eight ranchers alone from this plant having been announced recently as \$300,000 for one year. Request for aid in this matter was received more than a year ago from cattlemen and citizens of the Trans-Pecos region of Texas and \$30,000 a year for two years has been asked of the Legislature for research work in this field by the Experiment Station.

Every county in Texas is organized except one—Loving County.

WHAT AN AGE!

Floyd W. Parsons starts off an article in the Gas Age-Record as follows:

"What an age! Photographs by radio. Machines that think. Lights that pierce fog. Gas made from water. Vending machines to replace salesmen. Horns that can be heard 40 miles. Beacons that are visible 250 miles. Crewless trains, and five-million volt guns built to smash atoms.

"Locomotives that pull trains two miles in length. Street lights controlled by clocks. Cameras that record the path of lightning bolts. Electric shovels that lift 24 tons. Electric lamps of 50,000 watts, and invisible motion-picture apparatus to catch burglars.

"Machines to measure the smoothness of roads, record nature of accidents, strip telephone cables, put news in type direct from wire, administer an anaesthetic, transcribe phone calls, shoot cement, bury power wires, and repair stockings.

"Devices that will measure the billionth of an inch, register earth tremors, freeze fire, identify delicate color tints, grade cotton, control entire systems of traffic lights, provide secrecy in radio speech, exert pressures so enormous as to render possible the manufacture of diamonds, and that will hear light and see sound."

Truth has never been, can never be, contained in any one creed or system.—Ward.

BIRTHDAYS AT TEXAS CHRISTIAN UNIVERSITY

Fort Worth.—Students at Texas Christian University favor August 4 as the date on which to be born, according to information collected from the registrar's office at T. C. U. the records showing ten birthdays on that date.

The favorite month happens to be August also, revealing 138 student birthdays, while January is the least popular month with only 79 birthdays. More students are born on the twenty-third of the month than on any other date, fifty-one students claiming the twenty-third of some month as the date of their birth.

There are three students in T. C. U. who started the new year off right by being born on New Year's Day, and four who celebrated Christmas as their birthday. Only one student was found to have been born on April Fool's Day, although three confess to June 19th birthdays. One T. C. U. student has to be content with only one birthday every four years, it having been his fortune to have a Leap Year birthday on Feb. 29th.

The various holidays come in, too, for their share of birthday celebrations at T. C. U. Armistice Day is the most popular with eight students celebrating Nov. 11 for another reason than because it is the date of the signing of the Armistice.

Washington's birthday is the birthday of four T. C. U. students and July 4 is the birthday of three. Several students help to celebrate the Texas holidays, four by having birthdays on Texas Independence Day, March 2, although only one student was born on April 21, San Jacinto Day.

SYCAMORE SAYINGS

We regret to chronicle the serious illness of Grandpa Hull. He was first attacked with flu and it developed into pneumonia. He has been quite ill for more than a week. We hope for him a speedy recovery.

Our school at the Hull school house was discontinued last Monday for two weeks on account of the flu raging in the community.

Miss Evelyn Calhoun, the teacher, returned to her home in Blanco on Tuesday.

Most every family on the creek have had cases of flu.

Mr. and Mrs. A. Miller and son, Milton, were visitors in Junction Saturday.

Lane and Jim R. Hodges went to Telegraph Tuesday on business.

Dr. Standifer and wife were in our midst Monday.

Mr. and Mrs. L. M. Rathbone of Junction spent last Friday at the F. M. Hodges home.

The pipe line is progressing fast. They are moving daily down the line. Ten to twelve cars are passing our way daily.

We have good prospects for rain and it would be very acceptable just now, as we are in need of it.

IVY ECHOES

School is moving along nicely, however, we have a few pupils who have been absent some lately on account of sickness.

Mr. and Mrs. Albert Smitherman have just returned from Johnson City where they went to see Albert's mother who has recently undergone an operation.

Our basket ball boys journeyed to London Friday afternoon and played the London boys an interesting game of basketball. At the end of the fourth quarter, the game showed a tie. London played us a fair game, and we appreciate their good sportsmanship and hospitality.

Mr. and Mrs. G. N. Walker spent the week-end visiting at the J. W. Coffey ranch on Devil's River.

Mr. and Mrs. John Kane and baby visited at the Kane ranch Sunday.

Leslie and R. V. Hight visited their cousin, Earl Hight, on Saline Saturday night.

Paul Kane was a pleasant visitor at school Monday. If you're looking for pleasure my brother.

Just ahead on the Highway of life.

You may never be able to reach it.

If you fill all the present with strive.

Don't spend all your time by just looking.

For the good things that are ahead.

The curve in the road may be dangerous.

And sadness may greet you instead.

LONDON LOCALS

Our boys won the ball game between London and Junction on Thursday evening, tied the Ivy school on Friday evening and were defeated by Menard the same evening.

Prompt—Careful SERVICE

Modern laundry machinery, skilled workers and scientifically prepared soaps and soft waters insure the safeguarding of the finest fabrics. Punctual service and moderate charges are our watchword. Those who try us once always become regular patrons thereafter.

HAZELWOOD LAUNDRY

Miss Eunice Green of London school and Miss Mayo of Ivy school spent the week-end with relatives and friends at Mason.

Mrs. Anna Mae Wooten informs us she is no longer a citizen of Junction but will get her mail at London.

Miss Marie Bruce, daughter of the late J. L. Bruce, was visiting friends in London Tuesday.

Aunt Maggie Cummins is very poorly but we hope to see her recover and be up and around again.

R. F. Cannon has become a regular egg peddler. He brings them in the 3-gallon bucket full but he sells them by the dozen and not by the gallon.

We are sorry to note that Miss Lila Goodman in now in the Brownwood sanitarium for treatment. Haven't heard how she is getting along.

The lagrippe continues to rage in this community, but so far no serious cases.

Our Shell Pipe Line surveying crew of fourteen men left us Monday, leaving addresses from Houston, Texas, to Tulsa, Okla.

These boys are a jolly, friendly bunch of boys, and so far as the writer knows they were a nice, quiet bunch. They informed us it would not be long until the actual work of laying the pipe would begin. Well, let the good work go on. From these lines our county and schools will derive taxes, besides the demand for laborers to keep them up.

It appears to the writer that the newspapers of our county and many individuals are devoting too much time and space in boasting about our prosperity and national power. They seem to be intoxicated with the fact that the great war left us in position to dictate financial terms to other countries and that in being thus situated we can also dictate other terms. Also I would say that every loyal citizen of this nation should be humbly proud of our national power and influence, but none should be disposed to boast over other countries, but we should strive to use that influence to help other countries and other people to a higher human plain. I believe the U. S. should prepare to defend herself against any other nation or as for that against a combination of national powers, but I do not think it wise to brag about what we can do. That boasting spirit has such a bad effect even in everyday life: so it does in national life. Let's urge our Congress for an ample preparation of defense, then let's tell the world that we are a people who love peace and

strive to prove that we are by every kindness and assistance in our power, but at the same time let the world know we are a nation of honor and that we are prepared to defend that honor. I believe this would be a better way.

CHEVROLET SERVICE

We Are Just Aching to Get at That Car of Yours

If you were acquainted with the quality of work we have been doing for others perhaps you would be aching to get your car to us. Let's get together, Mr. Chevrolet Owner, and eliminate these troubles.

An ordinary mechanic can doctor a car up and make it run, but it requires an expert mechanic to keep it in that high class condition that insures the maximum of perfect service.

Our mechanics have been trained in Chevrolet Service Schools and are capable of rendering efficient and expert service and advice.

This is the garage that gives you maximum service at minimum cost.

McDONALD-CHEVROLET CO.

THERE MAY BE 70,000 ERRORS TO THE COLUMN

We do not like to make mistakes, but try as hard as we do they just do get by us. Every now and then we find "is" spelled "si," "the" shows up as "hte," and Bill Jones' initials get in as "M. W." whereas all know they are "W. M."

Don't think for a moment that we are not sorry. We truly are. With the help of our correspondents and our readers we want to make just as few of these breaks as is possible.

But when one of these slips get by, please remember that in the ordinary newspaper column there are 10,000 pieces of type, there are seven wrong positions in which a letter may be put, and there are no less than 70,000 chances to make errors, besides millions of chances for transpositions.

In the short phrase, "To be or not to be," by transposition alone it is possible to make 2,759,022 errors. So you can see the perils that beset the printer.

DUKE LEAVES MILLION TO VARIOUS CHARITIES

New York, Jan. 20.—Benjamin N. Duke, retired tobacco manufacturer and philanthropist, made charitable bequests of about \$1,000,000 in his will, filed for probate.

Mr. Duke, who died here Jan. 8, left \$580,000 to the Angier B. Duke Memorial, Inc., of Durham, N. C., and bequests totaling \$585,000 to Southern religious and charitable organizations. The bulk of the estate was left to a daughter, Mrs. A. J. Drexel-Biddle, Jr., of New York.

All cards of thanks, resolutions of respect,
mourning notices, where there is a
money consideration, will be run only at
usual matter at regular rates.

Any erroneous reflection upon
the character of any person
or firm appearing in these col-
umns will be gladly and
promptly corrected upon call-
ing the attention of the man-
agement to the article in ques-
tion.

Love life
Fear God
Aid friends
Live nobly
And demand respect.

An inferior attitude some-
times pays dividends.

To man the life of the gaudy
is ephemeral; to God the life of
man is like a faint flash of
light momentarily visible.

Sometimes it puzzles us how
the English learned the mean-
ing of some words before Dr.
Samuel Johnson compiled the
first English Dictionary.

If life loses its glamor to you,
then hope has died within your
breast. The vital fuel which
keeps the fires of the world
kindled is that abstract qual-
ity—Hope.

Don't give up a struggle just
because the water gets up to
your armpits; wait until you are
completely submerged. After
that there is a chance still.
Maybe the water will subside.

War is not the only dreaded
and destructive thing which
looms as an insoluble problem
today. This malady called the
Influenza is a bigger problem
than the abolition of wars. It's
one that cannot be checked or
loosened by the acts of man.
And its ravages are more severe
than a single war.

The Old South must be dis-
appearing. Anyway it's on the
wane. Glancing casually through
a newspaper of a small Fannin
County town we see where a
negro, Dave Johnson, has been
empaneled for service on the
Grand Jury for Fannin County.
The negro will serve in conjunc-
tion with eleven white men.

One of the fine arts today is
the ability to live harmoniously
with your associates, whether
they be your wife, husband,
children, or business associates.
A slovenly, indisputable, per-
petual grouch could not live
harmoniously with anyone. A
touch of mutualism or commun-
ism goes a long way in aiding
persons to live together without
undue friction.

Rip is dead. Eastland Coun-
ty's much-touted horned toad
has passed away. Zoologists
and barber shop parleys com-
bined have not definitely settled
whether Rip really lived 31
years in a cornerstone of a court
house or not. But that's im-
material. The point is that
these sanguine Americans will
honor anything or any person
that does the unusual. We ap-
preciate the extreme either way.
Mediocrity is merely tolerated
in these United States. You
have to either be mighty great
or mighty trivial to get any
recognition. The man that goes
his way and lives a normal life
is never noticed, but the man
who balances the longest on a
tack head or talks the longest
gets his picture on the front
page of the daily papers thru-
out the country. That's purely
American. We can't help it.
We have to grow up first. We're
just infants now, so to speak.

The ideal life, the life of full
completion, haunts us all. We
feel the thing we ought to be
beating beneath the thing we
are.—Brooks.

ORIGIN OF SPEECH

How do we talk? Why do we
talk? Man through superstition
and imagination has at-
tempted to solve this puzzling
problem of how we learned to
speak.

Of course the answer can be
found in the Bible because God
created man a speaking creature
and gave him names of objects
and upon seeing these objects
he was able to recall the names.
But man has always been a
conjecturing, experimenting
paradox and he has gone on
and figured out three (or possi-
bly more) theories of speech.
Some of them after much study
become ludicrous.

The first theory must have
been conceived by a poet or a
naturalist. Its substance is:
Man listened to falling water,
sighing of the wind, whistling
of the wind through trees and
the sound of water dashing over
cascades, and tried to imitate
these sounds to his fellow travel-
ers.

The second theory consists of
droll fancies. Humans were
easily frightened by animals,
and to imitate them, men tried
to repeat the sounds. Maybe
it was for protection that they
tried to imitate the animals of
the forests.

A third theory embodies cer-
tain Biblical readings. Man was
created with the ability to cre-
ate words on sight of objects
and upon the necessity of the
word he could apply it.

Some of them are pretty the-
ories. The alliterative qualities
in some of them make the read-
ing pleasant, but withal they
are still theories.

A FAMILY AFFAIR

Three of the five men
who comprise the first
string of the Olney High
School basketball team
are brothers and a
fourth brother is a sub-
stitute on the team. All
four of the brothers
played on the foot ball
team during the past
season.

The names of the boys
are: Comer, Braxton,
George and W. Gilmore.
The basketball team
should be called the Gil-
more team instead of the
Olney team, if the box
scores represent anything
and sport followers be-
lieve in them.

BIBLE MARATHON

The contenders that argue
that there is nothing new under
the sun, forget that there is a
twenty-four hour day which is
mantled with darkness.

Recently a Bible Marathon
was conducted at Ranger, Tex-
as. Since there have been num-
erous dancing, eating and talk-
ing marathons, a pastor at
Ranger conceived the idea of
conducting a Bible Marathon to
read the complete Book without
stopping.

It took just seventy hours for
the readers to cover the stretch
from Genesis to Revelation. The
"Scriptural Scoot" which start-
ed last Thursday night at 9
o'clock ended Sunday night at
7 o'clock. The Sunday morning
services at the church were
postponed in order for the mar-
athon to continue.

No man is in true health who
can not stand in the free air
of heaven, with his feet on
God's free turf, and thank his
Creator for the simple luxury
of physical existence.

Patience is bitter, but its
fruit is sweet.

Uncle John's Josh

A WOMAN WHO KNOWS
HOW TO MANAGE A
MAN, NEVER LETS
HIM KNOW IT.

Little Gems

It requires greater virtue to
sustain good fortune than bad.
—Rochefoucauld.

Write it on your heart that
every day is the best day in
the year.—Emerson.

In company guard your
tongue; in solitude guard your
heart.—Spurgeon.

The man who has lived for
himself has the privilege of be-
ing his own mourner.—Beecher.

Experience keeps a dear
school, but fools will learn in
no other—and scarce in that—
Franklin.

Religion is the tie that con-
nects man with his Creator, and
nods him to His throne.—Dan-
iel Webster.

He who cannot forgive others
breaks the bridge over which
he must pass himself.—George
Herbert.

Prayer will make a man cease
from sin, or sin will entice a
man to cease from prayer.—
Bunyan.

DURST FARMER

It was a terrible shock to the
family and the many friends
of Mr. George Durst Farmer
when they learned of his tragic
death that occurred at Hockley,
near Houston, Saturday morn-
ing at 1 a. m. George Durst
Farmer, son of Brother and Sister
A. G. Farmer, of Junction,
was born February 23, 1905.

Died at 1 a. m., January 19,
1929. He would have been 24
years old in one month and
four days from the day of his
death.

Brother Durst was born and
reared in Junction and was a
fine young man. The many
sorrowing relatives and friends,
and the tremendous floral offer-
ing was indeed an expression of
the love and esteem in which
he was held by them. Young
Brother Durst was indeed a
Christian. He gave his heart
and life to the Lord when he
was a small boy, and lived a
Christian until the end. He
had secured a position with the
Southern Pacific Railroad Co.
and had been promoted the
third time while he was in the
service. He had been promoted
to take effect the next day after
his tragic death occurred, and
therefore was on his last trip.

He would soon have been placed
in a higher position had the
tragedy not happened. It is
sad indeed when we have to
admit the price of good and
faithful service rendered in de-
fending that which is just and
right that it often costs the
life of the truest and best. The
ruthless hand of the assassin
and the highwayman often falls
heavily upon the pure and the
good. The enormous crime
wave that is now and has been
sweeping our country by men
who make their livelihood by
taking the life and property of
good and honest men is a blight
upon our modern civilization. It
is a fearful thing to think that
he who assumes the position of
an officer to uphold the majesty
of the law must pay such a
price.

To the bereaved father and
mother and the many relatives
let me say, "Weep not as those
who have no hope." On Sunday
afternoon at 3 p. m. the many
sympathizing friends gathered
at the residence of Brother and
Sister Farmer where the writer
tried to speak words of comfort
and consolation to the bereaved.
Young Brother Durst was a
member of the Church of Christ
and the entire church extends
its prayers and sympathy to
the family.

Those from out of town who
attended the funeral were: Mr.
and Mrs. Ray Bradshaw, Mr.
and Mrs. W. C. Bradshaw, of
San Angelo; Mr. and Mrs.
Brown Epperson, Rocksprings;
Mr. and Mrs. S. H. Guthrie,
Mr. and Mrs. John Guthrie, Mr.
and Mrs. Frank Guthrie, of
Rocksprings; Mr. Ed. Cowser,
Miss Jessie Cowser of Noxville;
Mr. Hoenig, of Houston; Mr. G.
E. Martin of Austin.

J. S. Newman.

Silence and modesty are very
valuable qualities in conversa-
tion.—Montaigne.

BREAKING INTO THE BIG LEAGUE

By A. B. CHAPIN

A Real Shock

"Yes," said the old man, "I
have had some terrible dis-
appointments, but none stand
out over the years like the one
that came to me when I was
a boy."

"Some terrible shock that
fixed itself indelibly in your
memory, I suppose?"

"Exactly," said the old man.
"When I was a boy I crawled
under a tent to see the circus,
and I discovered that it was a
revival meeting."

The present constitution of
Texas was ratified by the people
in 1876.

A man is an animal that
wines.—Homer.

HOOVER GETS 1 VOTE

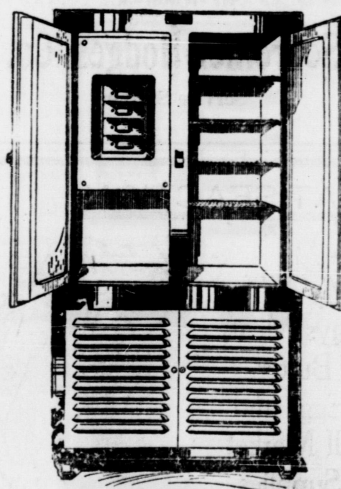

Herbert Hoover has
friends among the Amer-
ican Angora Goat Breed-
ers' Association. At the
annual meeting of that
organization held in Junc-
tion last Tuesday, an of-
ficial ballot was prepared
with names of candidates
for the position as Di-
rectors of the association.
There were blanks left
for voters to place the
names of their choice.
Herbert Hoover, presi-
dent-elect of the United
States, received one vote
on this ballot. He wasn't
elected.

Your sole contribution to the
sum of things is yourself.

The only way to regenerate
the world is to do the thing
which lies nearest us, and not
hunt after grand, far-fetched
ones for ourselves.—Kingsley.

There are eight major United
States legal holidays. The list
comprises: New Year, Wash-
ington's Birthday, Decoration
Day, Independence Day, Labor
Day, Armistice Day, Thanks-
giving and Christmas.

The Red Cedar tree commonly
known as the Juniper usually
grows between 40 to 50 feet
tall. The maximum height of
the tree is 100 feet. The tulip
tree sometimes reaches 200 feet
in height.

FRIGIDAIRE MEANS
HEALTHFUL FOODS!

Pay as You Use

Telephone or write for photographs and

plies plenty of pure, clean
ice for table use.

LOCAL HAPPENINGS

Mrs. Carl Wolf is visiting relatives in San Antonio.

Carlos Taylor was a Kerrville visitor Sunday.

A. W. Loeffler was a Sonora visitor last week.

Mr. C. G. McDonald was business visitor in Menard Tuesday.

We clean right and right now. 41c Junction Tailor Shop.

Mr. and Mrs. J. F. Horton of Eden visited relatives here the past week-end.

Mrs. W. W. Chaison is in Cisco where she was called by the illness of her sister.

Misses Tottie Martin and Mary Spiller are spending a few days in San Antonio.

Mr. Dick Curtis, who has been ill with pneumonia, is reported as improving.

Mr. and Mrs. L. M. Rambo are entertaining a 10-pound daughter born January 18.

Messrs. W. B. May and C. H. Branton were Tuscola visitors last Sunday.

Mr. and Mrs. Alton Burleson of Mason visited Mr. and Mrs. Edgar McLendon Sunday.

Miss Lola Abbott, who has been teaching in Wichita Falls, has returned home on account of illness in her family.

Mr. O. W. Cardwell returned Tuesday from Georgetown where he has been visiting his family.

Mr. and Mrs. S. P. Woodward visited their mother, Mrs. M. A. Woodward in San Angelo last week.

For Road Service call 51 and count the minutes. 40c Powell Motor Co.

Last week Mr. and Mrs. Edward Whittle and children of Rocksprings were guests of his parents, Mr. and Mrs. D. T. Whittle.

Mrs. A. L. Mudge left Saturday for Houston, Texas, where she is visiting Mrs. John Molesworth and Miss Charlotte Molesworth.

Mr. W. W. Buck has been confined to his home several days on account of illness. His friends hope to see him out soon.

Mr. and Mrs. Joe Bissett and Mrs. A. E. Bissett left Monday for San Angelo where Mrs. A. E. Bissett's sister, Mrs. Zumwalt, is critically ill.

E. A. Loeffler, Walter Tinsley, W. M. Taylor and H. T. Richardson returned Wednesday from Houston with four Ford cars for the Loeffler Motor Co.

L. F. Cowser left Thursday morning for Houston, Texas, where he will attend a meeting of Chevrolet service managers. He will be gone for several days.

Powell Motor Company has the right kind of anti-freeze for your radiator. Let them service your radiator during the winter months. 41c

The Vogue is again in the Bissett building and the buyer will replenish the stock next week with a full line of new spring goods. 41c

We have the best equipped cleaning plant in town. Give us a trial and be convinced. 41c Junction Tailor Shop.

Mr. M. Huffman of Center Point, formerly a citizen of Kimble County, was here this week looking after business interests.

An ounce of prevention is worth a pound of cure. Let us repair your car before it is too late. 41c McDonald-Chevrolet Co.

Mrs. Jas. Taylor returned last week to her home in Nacogdoches after a visit with her parents, Mr. and Mrs. H. G. Hubert. She was accompanied as far as Austin by Mrs. Hubert.

BRIDGES-JONES

Wednesday afternoon, at three-thirty Miss Doris Jones and Mr. Guy Wilson Bridges of Houston were united in marriage at the home of the bride's parents, Mr. and Mrs. T. S. Jones.

The rooms were decorated with cut flowers and pretty pot plants. Rev. G. W. Crabb, pastor of the Baptist Church, read the marriage lines.

The bride was charming in a gown of navy blue georgette trimmed with tulle. She wore blue slippers and hose completed the costume. She carried an arm bouquet of pink carnations, sweet peas and fern with a cascade of ribbon and fern.

Immediately after the ceremony Mr. and Mrs. Bridges left for their home in Houston. Mr. Bridges is employed by the Humble Oil Co.

Besides the immediate family those in attendance at the wedding were Messdames Roy Williams, J. D. Lucas, Misses Crystelle Reid and Marie Brown. The bride is a Junction girl and she carries with her the best wishes of her many friends for a life of happiness and prosperity.

COLD WAVE REPORTED

Mayor E. Hokekamp received a message this morning that a very cold wave will reach this section before many hours.

Mr. and Mrs. Ovie Buster and son, Lloyd, attended the funeral of Mrs. Buster's grandmother, Mrs. Lottie Williamson, in San Marcos Sunday.

Mrs. Gussie Searles of Plainview is in attendance at the bedside of her daughter, Mrs. Miller Oliver, who has been ill for several weeks.

Miss Mary Ellis Blackburn spent the week-end in San Antonio. While there she attended the performance of the Fritz Lieber Shakesperian players.

Miss Stella Whittle and brother, Mr. Wilfred Whittle, of Rocksprings, returned Sunday from a visit to San Antonio.

Mr. Whittle remained here for a visit with Miss Stella and Mr. and Mrs. D. T. Whittle.

Mr. and Mrs. C. Hultgren of Ingleside, and their daughter, Mrs. McCampbell of Corpus Christi are spending a delightful vacation at Kimble Courts. They are especially pleased with the accommodations afforded travelers and tourists.

ENGINE FOR SALE

Ex-Kaiser's 70th Anniversary Will Have All Color Of Old

Berlin, Jan. 17.—Monarchists who have survived the 10 years of German republicanism will be in their glory Jan. 27 when the 70th birthday of ex-Kaiser Wilhelm II is celebrated with the pomp and ceremony of pre-war days.

Faithful monarchists will make the pilgrimage to Doorn manor, in Holland, where the former ruler has been living in exile. An entire week will be given over to receiving deputations, culminating in a family reunion in exact imitation of those brilliant ceremonies which took place at the imperial palace.

"Gala uniforms and decorations" is the word which has passed and, as the list of the faithful includes much of Germany's nobility, the scene should be colorful. Women attending the reception will wear the ordered court costume with elaborate trains and everything possible will be done to reproduce the scenes of other days.

Monarchists over the republic have set aside Jan. 27 for proper observance of the former ruler's anniversary. Plays have been written for the occasion and a number of village festivals have been arranged.

Doorn manor, where the ex-kaiser has been quartered since his flight from Germany, is too small an establishment to house the vast number of relatives attending the reunion and Dutch officials have been sorely

pressed to provide accommodations for the visiting nobles.

Hotel rooms have been reserved and private houses at Doorn have been urged to release their available rooms. More than 40 members of the ex-kaiser's immediate family are expected to make the pilgrimage.

Originally, it was planned to limit the celebration to January 27, but so many former officials in the royal household applied for permission to pay their respects that an entire week was set aside.

The Dutch officials have only praise for the manner in which the former ruler has conducted his affairs since taking up residence within their borders. They are particularly eager that nothing occur during the coming ceremonies to disturb the friendly relations between their own country and Germany. The same desire is expressed by the ex-kaiser, who has issued a request that demonstrations of loyalty be omitted at the public receptions.

The republican government of Germany is not perturbed by this flare-up of monarchistic sentiment. The republic is regarded as being so firmly established that the policy has been adopted of letting the "diehards" blow off steam rather than press them into martyrdom by forbidding the birthday celebrations.

SEVENTEEN YEARS AGO

Little Audrey Blackburn is very sick with typhoid pneumonia.

J. N. Hodges returned from Kerrville Wednesday, accompanied by Mrs. Hodges and little Miss Dorothy, who were returning from San Antonio where Miss Mabel is teaching in the San Antonio Female College.

Our honorable representative J. B. Randolph sent word yesterday that he was returning home from Austin on account of being ill. Mrs. Randolph has now gone to Kerrville to meet him.

Robert Wilson returned home from A. & M. College Wednesday.

Bud Hodges was in from the ranch Saturday circulating among friends.

Miss Nona Ramsey came in Wednesday from San Antonio, called here by the serious illness of her father, J. J. Ramsey.

O. B. Fleming is having his house painted this week.

Miss Gertrude Hunger and her brother, Robert, were in Junction Monday.

Mr. and Mrs. B. B. Reece are now located in their comfortable new home.

TEXAS TECH ENROLLS ITS 2,000TH STUDENT

Austin, Jan. 20.—Texas Tech at Lubbock enrolled its 2,000th student Tuesday and his registration fee was paid by the Lubbock Avalanche, according to information received here by President Paul W. Horn of that institution. Three years ago the enrollment was 1,000.

J. S. YATES DIES IN KENAWA, OKLAHOMA

Word has been received in London of the death of J. S. Yates, which occurred at Kenawa, Oklahoma, on December 24, 1928. Interment was made in the Kanawa cemetery on December 26 with Masonic honors, the deceased having been a member of that body for many years. Mr. Yates was well known to many of our citizens, having resided near London for some years. The postoffice at Yates, eight miles south of London, was named for him. Besides his wife he is survived by one son and four daughters. He was a good man, honorable and upright, and was held in high esteem by all who knew him, and his death is deeply mourned. To the bereaved family The Graphic extends condolence and sympathy.

—London Graphic.

IMAGINE THIS THIRTY YEARS IN THE FUTURE

In thirty years time the United States will rule the waves and Europe will have dropped to second or third rank; practically all of South America will be under Washington's control; women will wear trousers; love will have disappeared; it will be difficult to tell men and women apart. They will dress alike and affect the same coiffure. In workshops, offices, government bureaus and airplane activity, women will be the equal of men in every phase of human achievement. Many women will drop feminine names and will be known as Charles, John, Frank, etc., in order to wipe out every single distinction.

It will be impossible in a quarter of a century for a pedestrian to walk the streets of New York, Paris, or Berlin. Several cities will have to build elevated platforms to accommodate the streams of traffic going in opposite directions.

New Yorkers will attend the theatre in Paris at nights and will be back in their offices the next morning on time to start the daily routine of business. Luxuriously fitted airships will be hotels that go whirling through space at 1000 miles an hour. Not a corner of the earth will be unexplored.

Power from Niagara and the great waterfalls of Africa, the Zambesi and Victoria will be supplied by wireless to industries all over the world. Television will have become an accomplished fact and when telephoning from America to Europe the faces of the conversants will be as clear on a small screen immediately above the mouthpiece as if they were speaking to each other seated in the same office.—Paul Morand (France).

AMERICAN MASONS BUILD TEMPLE IN SHANGHAI

Shanghai, China.—After the old Masonic Temple at No. 26 The Bund was sold and disposed of by the lodges owning it, the American Masonic Bodies in this city were compelled to obtain other quarters. As a result the American Masonic Temple Association was organized and a temple has been completed and is now in use by the Masonic Bodies. It is interesting to note that the temple was erected without going into debt and the Scottish Rite Bodies in this city contributed a large part of the funds which were used for the erection of the temple.

A well selected pure-bred dairy bull coupled by care, management and selection means "Not More, But Better Cows."

AUTO FATALITIES GAIN

Automobile fatalities in Texas numbered 41 with 312 injured during the week of December 24 to 31, according to the Texas Council of Safety, whose energies are devoted to the prevention of street, highway and railway grade crossing accidents. The following summary is given:

Cause	Injured	Killed
Automobile	312	41
Railway train	41	4
Interurban car	0	0
Street car	15	1
Aeroplane	0	3
Other vehicles	9	0
Falls	17	9
Burns	19	8
Drowning	0	3
Firearms	15	5
Explosives	22	3
Other causes	16	8
Total	476	85

Of these 25 were injured and 10 killed in home accidents and two injured and five killed in industrial accidents.

HERE ARE SOME OF THE BEST SIMILES OF 1928

The best similes of 1928, the eighth annual crop have been harvested by Frank J. Wiltach, author of "A Dictionary of Similes." The following selections, culled from several hundred give an idea of present trends in figures of speech:

The authors of these similes are varied, but are not given here:

Short as a microbe's shadow.
Indispensable as dots to a Greenwich Village poet.
I slept like a cornerstone.

Characterless as a restaurant lemon pie.

About as much visibility as a fly in a bottle of ink.

As nonchalant as the driver of a scenic railway car.

The Hollywood telephone book is beginning to read like a Lihuanian time table.

As empty as an Elk's Club library.

As out of place as a mammy song writer in Dixie.

Mentally three pounds lighter than a straw hat.

As rapid as the glass eye of a stuffed fox.

Low as the instep on a duck.

As monotonous as the second visit to a night club.

About as pale as a bucket of soot.

She is as thin as a mailchute.

Alone as a Methodist in Bavaria.

Flattery is like peroxide—turns many a woman's head.

As weak and helpless as a subway guard.

As safe from arrest as a New York gangster.

Dry as a three-time widow's handkerchief.

As noisy as an eel gliding through a pool of oil.

Truth at all times has a ring of its own like that of a good coin.

She is as popular as a suppressed novel.

The public mind is like a baby's stomach; you must feed it one thing at a time and a little of that.

A beautiful procession of clouds like a flock of sheep.

Common as pickles in a delicatessen.

Sank slowly back in his chair like a balloon coming to rest.

As impressive as the religious advertisements in a tabloid newspaper.

The terror of old words and traditional associations choke him like a nursery nightmare.

Steady as the Leviathan in drydock.

Hampered as a subway sweeper during rush hour.

Inseparable as a commuter and his newspaper.

He plods heavily and with a childlike complacency through the dance, his partner swaying like a watchfob before him.

Scarce as a stenographer with cotton stockings.

Responds to good nature like a turnstile to a nickle.

As out of date as a rustle of a skirt.

Sounded like the sea-lion pool when fish are served.

Long as a wait for Mayor Walker.

Vague as a Bronx dweller's idea of Brooklyn.

The play runs into a happy ending as serenely as a taxi into a pedestrian.

Our heavy car slid and lurched about like a drunken mastodon.

About as necessary as another leg to a centipede.

KNOW TEXAS

Gen. Sam Houston defeated Santa Anna in command of a Mexican army at the battle of San Jacinto April 21, 1836 and Texas thereupon became an independent Republic.

Texas remained an independent Republic from 1836 to 1846 under the successive administrations of Presidents David G. Burnett, Sam Houston, Mirabeau B. Lamar, Sam Houston (second term) and Anson Jones.

On Feb. 16, 1846, Texas was annexed to the United States and President Anson Jones retired in favor of Gov. J. Pinckney Henderson.

Texas then included the present eastern half of New Mexico, the portion of Oklahoma today lying north of the Texas Panhandle, Southwestern Kansas, a large portion of Central Colorado, and a section of Wyoming.

FARM RADIO PROGRAM FOR JAN. 28-FEB. 1

The most complete statement of the agricultural outlook report of the Department of Agriculture ever sent by radio will come during the week beginning January 28 to the audience of 16 stations associated with the National Broadcasting Company which send a 15-minute broadcast by the Department of Agriculture direct from Washington each week day except Saturday.

During the week this audience will hear reports from the chairman of committees which draw up the Outlook reports for the 18 most important farm commodities of what they consider the prospects for these commodities to be.

The audience of the noon-hour network stations will not be alone in hearing the reports of 8 of these committees, for these will be transmitted in a special one-hour broadcast through an extended network covering the entire United States on Monday, January 28, starting at 1:45 p. m., Eastern Standard Time. On succeeding days of the week broadcasts summing up the outlook in 10 other lines of farm production will be sent through the usual network at the usual hour, 1:15 p. m., Eastern Standard Time.

Details of the special one-hour broadcast over the extended hook-up will be announced in the very near future. The National Broadcasting Company and its associated stations are supplying the broadcasting facilities. Secretary of Agriculture Jardine will speak, and other national figures in agriculture also will appear on the program. The United States Marine Band will play.

Preceding this special program on Monday, the department will send its regular 15-minute program through the 16 stations associated in the noon-hour network. Dr. A. F. Woods, director of scientific work, will describe the corn borer research program just drawn up by the department and the agricultural colleges. C. E. Gopen, chief of the Department's Press Service, will give listeners a glimpse at the doings of the Nation's agricultural scientists.

Besides the Outlook reports on a variety of agricultural commodities, including sugar, tobacco, hay, the feed grains, fruits, vegetables, and horses and mules, the week's program will include a summary of the 1929 livestock inventory, which shows just how many animals Uncle Sam owned on his six million farms at the opening of the year.

The complete program of the regular noon-hour network broadcast follows:

Monday, Jan. 28—"Science vs. the Corn Borer." Dr. A. F. Woods, director of scientific work; and "Farm Science News of the Month." C. E. Gopen, chief, Press Service.

Tuesday, Jan. 29—"The Outlook for Sugar." Dr. O. C. Stine, in charge of statistical research; "The Outlook for To-

bacco." C. E. Gage, senior crop estimator; and "The Outlook for Sheep." C. V. Whalin, in charge, division of livestock, meats, and wool, Bureau of Agricultural Economics.

Wednesday, Jan. 30—"The Outlook for Rye." W. F. Callendar, chairman, Federal Crop Reporting Board; "The Outlook for Oats and Barley." W. A. Wheeler, in charge, feed, seed, and hay division, Bureau of Agricultural Economics; and "The Outlook for Hay." E. C. Parker, in charge of hay marketing investigations.

Thursday, Jan. 31—"The Outlook for Vegetables." E. C. Torrey, in charge of market news on fruits and vegetables; and "The Outlook for Fruits." F. G. Robb, in charge of fruits and vegetable inspections.

Friday, Feb. 1—Summary of the 1929 Livestock inventory report, by C. L. Harland, senior livestock statistician; and "The Outlook for Horses and Mules." C. F. Sarle, senior research statistician, division of crop and livestock estimates, Bureau of Agricultural Economics.

These talks are broadcast at 1:15 to 1:30 p. m., Eastern Standard Time, or 12:15 to 12:30 p. m., Central Standard Time, or 11:15 to 11:30 a. m., Mountain Standard Time by the following stations associated with the National Broadcasting Company:

WRC, Washington; KFKX, Chicago; KDKA, Pittsburgh; KSTP, St. Paul-Minneapolis; WOW, Omaha; WOC, Davenport; WDAF, Kansas City; KVOO, Tulsa; KWK, St. Louis; WFAA, Dallas; WOAI, San Antonio; WSB, Atlanta; WMC, Memphis; WSM, Nashville; WLW, Cincinnati; and KOA, Denver.

NOTICE TO BIDDERS

The Commissioners' Court of Kimble County, Texas, will receive bids at Junction, Texas, on February 11, 1929, for the purchase of one or more 5 or 10 ton road tractors, and one or more road graders, 12 feet.

Bidders will have to consider in trade 1-4-40 Monarch tractor and one 10-foot Adams grader in deal.

The county reserves the right to reject or accept any or all bids.

R. W. FISHER, County Judge, Pro Tem, Kimble County, Texas, At Junction, Texas, January 2, 1929. 40-4c

For Road Service call 51 and count the minutes. 40c Powell Motor Co.

AN AMAZING RECORD

The outstanding leadership of the United States in mineral development is shown by statements of Scott Turner, director of the Bureau of Mines.

In 1850, we produced less than one per cent of the world's copper. Between 1890 and 1900 our production jumped to 52 per cent of the world total. Since then we have maintained our premier position. According to Mr. Turner, we have produced 19,500,000 tons of copper since 1800, 48 per cent of the world's supply, in spite of the fact that our production was negligible until 1850.

There is a direct connection between our general prosperity and progress made in mining development. Metals are so essential to modern industry that the nation without an adequate supply is foredoomed to mediocrity.

Safety, silence and simplicity are features of the new Ford six-brake system

ONE of the first things you will notice when you drive the new Ford is the quick, effective, silent action of its six-brake system.

This system gives you the highest degree of safety and reliability because the four-wheel service brakes and the separate emergency or parking brakes are all of the mechanical, internal expanding type, with braking surfaces fully enclosed for protection against mud, water, sand, etc.

The many advantages of this type of braking system have long been recognized. They are brought to you in the new Ford through a series of mechanical improvements embodying much that is new in design and manufacture. A particularly unique feature is the simple way by which a special drum has been constructed to permit the use of two sets of internal brakes on the rear wheels.

A further improvement in braking performance is effected by the self-centering feature of the four-wheel brakes—an exclusive Ford development. Through

this construction, the entire surface of the shoe is brought in steady, uniform contact with the drum the instant you press your foot on the brake pedal. This prevents screeching and howling and makes the Ford brakes unusually silent in operation.

Another feature of the Ford brakes is the ease of adjustment.

The four-wheel brakes are adjusted by turning a screw conveniently located on the outside of each brake plate. This screw is so notched that all four brakes can be set alike simply by listening to the "clicks."

The emergency or parking brakes on the new Ford require little attention. However, should they need adjustment at any time, consult your Ford dealer for prompt, courteous, and economical service. He works under close factory supervision and he has been specially trained and equipped to help you get the greatest possible use from your car over the longest period of time at a minimum of trouble and expense.

Junction Trade Notes

The Texas Senate has passed a resolution favoring a "fair and adequate tariff on all products of farm and ranch." The Texas House joined the Senate in the resolution, which will be presented to Congress asking that ranch and farm products be favored with an increased tariff. Important hearings on the agricultural tariff schedules are soon to be held in the National Congress.

Three grades of mohair based on diameter of the fiber, kid, yearling and grown hair, were recommended to the U. S. Department of Agriculture at a meeting of representative mohair growers held in Kerrville last week. Adoption of the suggested grades will depend upon action of the Agricultural Dept. It was pointed out that the acceptance of mohair standards does not mean that grading of the clip in the ranch country is compulsory, but buyers stated that if growers would separate their mohair into the suggested grades they would get around two cents a pound more.

In stock: White Bermuda and Crystal Wax onion plants. Season is now right for transplanting. Gann Grocery Company. Also in stock, assortment of flower seeds.

Pickled pigs feet, salt mackerel, smoked herring. Gann Grocery Company.

E. A. Bode recently disposed of his ranch west of Junction to Propst & Bruntz and has acquired a ranch lease eight miles southwest of Boerne, onto which he moved last week. All the Bode livestock, sheep, goats and horses, were moved to the Boerne ranch by truck.

B. W. Warren of Houston recently purchased suburban acreage fronting the South Llano near Junction and will build a summer home of cobblestone. The tract adjoins the site of Judge and Mrs. W. H. Baker, who recently started construction of a fine suburban home.

Boyd Jetton, formerly in the dairy business at Junction, will take over the Baker Dairy February 1st and operate it from the Jetton ranch where dairy sheds are now under construction.

Bill Hamer of Rocksprings is directing sales at Joseph's store while Mr. and Mrs. Joseph are away to markets.

While the epidemic of influenza has abated to considerable extent in Junction community, there is yet considerable sickness. Messrs. J. W. Boone and W. W. Buck, veteran citizens of the community, are confined to their home with illness. Friends are hoping for their early recovery.

"Everybody's Store"

PLANS FOR BAYLOR U. FOUNDERS DAY PROGRAM

Baylor University's eighty-third birthday anniversary will be celebrated from 9:15 to 10:15 on the night of February 1 with the broadcasting of the seventh annual Founders Day program over radio station WJAD, Waco, and WBAP, the Fort Worth Star-Telegram station according to recent announcements from Baylor officials.

John K. Strecker, Baylor librarian and museum curator, will act as official announcer of the program which includes speeches by Dr. S. P. Brooks, president of Baylor; Dr. E. H. Carey, dean of the Medical Schools at Dallas, and Jack Little of Waco, president of the Baylor "B" Association, who will make a talk on the athletic situation at Baylor. The Baylor Bear Band, under the direction of Everett McCracken, will play several Baylor songs and a quartet, under the direction of William Morrow, '08 will sing several Baylor numbers.

Following the program, the letters, phone calls and telegrams that have been received from friends and exes will be acknowledged.

There are 106 daily and 662 weekly newspapers in Texas.

County News

NOXVILLE NOTES

It was with deep emotion that we received the sad news of the death of little Richard Hull, the six year old son of Mr. and Mrs. James Hull, who died in Junction Tuesday, January 15, after a brief illness followed by an operation. He was born August 15, 1922. During his few brief years here he had become the pride of his parents, the idol of his sisters, and the joy of all who knew him. He was just another one of those little cherubs that make life sweet on earth. We will miss his angelic smile and childish prattle, but we realize that God knows best, and that "these severe afflictions not from the ground arise but at times celestial benedictions assume this dark disguise." Richard's little life had just begun to unfold on earth when it was called to adorn God's mansion above, for "of such is the kingdom of Heaven." We pray that our Heavenly Father may assuage the grief of the heart broken relatives and leave them only the cherished memory of their darling child. "That afternoon they laid their dead Beneath the sunburnt sod. Struggling to reconcile their hearts To the strange, deep ways of God. They opened their treasured book of faith, Submitting to be led, And found, when Christ was laid in the tomb, He, too, was cold and dead. A comfort deep as the grave was theirs. To hearten them there and then, For the one they had lost had lived with Christ, And with Him should rise again."

Geologists who are working in the employ of J. B. Collett of Fort Worth have been making investigations in this vicinity for some time and have leased considerable land here with a view to putting down a test well.

Miss Allene Whetstone who has spent the last two years in Austin is visiting her parents, Mr. and Mrs. A. T. Whetstone. Mr. and Mrs. B. H. Whaley of the Divide visited relatives on James River Saturday and Sunday. Mr. and Mrs. John Fleming of Mason spent the week-end with relatives at Knoxville. Mr. Silas Self sold his ranch consisting of 1700 acres to Mr. John Fleming of Junction for a consideration of \$13.25 per acre. We are sorry to lose these good people from our community. They have endeared themselves to us all during their brief stay here. We understand that Mr. Fleming's son will manage the ranch for his father. The Flemings came very highly recommended and we welcome them to their new home.

A. T. Whetstone and family returned last week from a visit with relatives at Brownwood. Mr. and Mrs. Walton Whetstone were transacting business in Junction one day last week. There is a great deal of blasting going on in this section of the country as a result of two pipe lines being built from the McKamey oil fields to the coast. Mrs. Tom Phillips has been sick the past few weeks. We are glad to report her well at the present writing. William Parker has just completed a new line of fence on his ranch.

SEGOVIA SIFTINGS
We are glad to report that most of the people are getting over the flu. Mrs. Allen Davis who was reported seriously ill is better also.

Mr. R. R. King and son, Max made a business trip to Austin Friday. Mrs. Chas. Fairchild and baby returned home Saturday after a short visit with relatives in Junction. Junction visitors Saturday were: Misses Naomi Knowles, Julia, Lula Belle and Cora Lee Fairchild, Messrs. John and Bryan Keithley, Justus Rouse, Walter Blackmon, Frank Rembold, Harold Dee Priest, Charlie Fairchild, Mr. and Mrs. J. B. Murray and Mr. and Mrs. Allen Davis and baby.

Miss Naomi Knowles spent Friday night with Miss Gussie Burris at Telegraph.

The party given by Miss Knowles Saturday night was enjoyed by a number of young folks. At a late hour hot tea and wafers were served to the guests.

Misses Gussie Burris and Margaret Hubbell spent Saturday night and Sunday with Miss Knowles.

Mr. Albert Marshall left Sunday for his home in San Antonio after an extended visit on the Dixon ranch. He was accompanied home by Mrs. J. B. Dixon.

Mr. and Mrs. Ned Estes and children of Mountain View visited with the W. N. Hatch family Sunday.

Mr. and Mrs. J. B. Murray visited friends in Segovia Tuesday night.

Mr. and Mrs. Doug. Jones and daughter, Miss Opal, were Junction visitors Tuesday.

Mr. W. N. Hatch made a business trip to Kerrville Wednesday.

ROOSEVELT ROUNDUP
The Roosevelt school is progressing nicely since Christmas, as most all the pupils are in school again.

The Roosevelt school has improved her library with several new books. We are glad to hear that Mrs. J. A. Parker is improving nicely.

The "Barthust Family" from Iowa, entertained at the school house last Wednesday and Thursday night. Everyone enjoyed it very much.

Miss Ethel Roberts spent the week-end visiting in Junction. Miss Alice Walker has been absent from school several days on account of illness.

POINTERS ON HOW TO PRUNE FRUIT TREES

Declaring that many a Texas orchard is kept from bearing fruit by allowing trees to choke up with useless and often dead timber, J. F. Rosborough, Extension Horticulturist, A. & M. College, calls attention to the fact that now is a good time to prune. "If people realized," he says, "that pruning a tree is not a cruelty but a positive benefit to the health and bearing of the tree more folks would wield saws and pruning shears every winter."

"It doesn't take an expert to prune a tree, although like all arts it has its tricks. Certainly the first attempt of an amateur is better than allowing the tree to choke itself to death, provided the beginner follows a few simple rules and uses common sense. If the first place all dead wood, large or small, should come out, for it does no good, induces further decay, and may harbor insects. Wherever limbs and twigs rub each other or cross closely, one or the other of the offenders should be removed. When only these two general operations are performed a great improvement may often be noted."

"But this is not enough. A fruit tree should not have more than four or five main branches issuing from the lower part of the trunk. Neglected trees often have more and enough should be cut out to leave a well balanced tree. Finally the limbs and laterals ought to be cut back to keep the tree from going too high in the air and to force the development of more new fruit buds throughout the tree."

"All of this," Mr. Rosborough points out, "increases the bearing surface, induces more new growth and new buds, and helps to put the tree on a vigorous, healthy basis. Most county agents are demonstrating pruning and spraying of home orchards this winter and the majority of people will not have to go far to observe a demonstration."

NOTICE

The First National Bank of Junction, located at Junction, in the State of Texas, is closing its affairs. All note holders and others creditors are hereby notified to present their notes and claims against the association.

W. P. Riley, President.

41c Junction Tailor Shop.

SIDEWALK IS COMPLETED

Work of laying a six foot concrete walk along the west side of the Junction Hardware Company has just been completed and is sufficiently hardened for use now. A two foot curb was also constructed in conjunction with the walk. With the completion of this new piece of concrete walk, just that much better will be walking for the pedestrian when the weather is bad and the streets muddy. Concrete sidewalks from the business section to the High School building would be a great benefit to the children who have to trudge over the dirt walks several times daily.

ST. CLAIR-MCGRIFFIN

Mr. Joe St. Clair surprised his friends Saturday by slipping off to Eden for his bride. He and Miss Myrtle McGiffin drove to Menard where they were united in marriage Saturday afternoon by the Rev. Joe W. Bickley, pastor of the Methodist Church of that city. They came to Junction where they will make their home.

Our new spring hats have arrived. Look them over.
