NEW PROSECUTOR WILL BE CHOSEN

GOVERNMENT WILL PROCEED IN SAN FRANCISCO WHITE SLAVE CASES

WASHINGTON IS RELIEVED

Question One of Most Interesting With Which President Has Had to Deal

By Associated Press. Washington, June 25.—President Wilson and Attorney General McReynolds had an early conference today to select a prosecutor for the Capone trials while slave cases and the Western Fuel indictments in the San Francisco federal court.

With the wheels of the department of justice grinding again in that celebrated case, officials made no effort to conceal their relief. Official Washington reflected that feeling. Probably no issue with which President Wilson has had to deal since his inauguration has attracted such widespread attention.

Late yesterday some of the correspondence in the case was made public.

Correspondence Made Public.

First the president telegraphed Mr. McNab as follows: "Washington, D. C., June 24.—John L. McNab, Esq., San Francisco, Cal.—I greatly regret that you should have acted so hastily and under so complete misapprehension of the actual circumstances, but since you have chosen such a course and have given your resignation the form of an inexcusable intimation of injustice and wrong-doing on the part of your superior, I release you without hesitation and accept your resignation, to take effect at once."

"WOODROW WILSON."

Attorney General McReynolds' statement that he ordered a postponement of the cases as an ordinary procedure in criminal trials, without anticipating that "any fair minded man" would attribute "a malign motive" to him was acknowledged by the president in his letter:

"Washington, June 24.—My Dear Mr. Attorney General:—Allow me to express my sincere appreciation for your letter of today, giving me a full account of the way in which the Department of Justice has dealt with the Diggins-Cammetti and the Western Fuel Company cases, pending in California, and transmitting the documents connected with the two cases necessary for their elucidation."

"I am entirely satisfied that the course you took in both the cases was prompted by sound and impartial judgment and a clear insistence for what was fair and right."

"I approve your course very heartily and without hesitancy. But I agree with you that what we may think of what has been done does not relieve us of the obligation to press these cases with the utmost diligence and energy."

"I approve very heartily of your suggestion that in the circumstances special counsel be employed, the best that we can obtain."

"I will be very glad to confer with you about the selection. I hope that you will do this without delay. I am very glad, indeed, that you are giving your personal attention to the immediate and diligent prosecution of the cases, which I agree with you in regarding as of serious importance from every point of view. Sincerely yours."

"WOODROW WILSON."

McReynolds submits history. Besides the attorney general's letter to the president, the White House gave out a letter written to Mr. McReynolds by Secretary Wilson of the department of labor, in which the latter declared that Anthony Cammetti asked for leave of absence to attend the trial of his son before he took the oath of office as Commissioner General of Immigration. Furthermore, Secretary Wilson stated that neither Mr. Cammetti nor any one else suggested that he ask for the postponement of the cases, but that he did it of his own volition so as to keep Mr. Cammetti in Washington for the work of organizing the immigration bureau.

In a letter to the president, Attorney General McReynolds recited the history of the two cases and submitted the files in each case.

Responding to instructions from the attorney general for a detailed report of the Diggins and Cammetti cases and to take no affirmative action until further advised by the department of justice, the attorney general said United States Attorney McNab sent a report, received on May 27. In this report, he added, McNab "details a version of the acts with his inferences therefrom and expresses the opinion that the case was aggravated and should be vigorously prosecuted; also that there might be attempts to interfere with the due course of justice by improper influences."

On the day the report was received, the attorney general telegraphed McNab as follows:

"I think the proper course to follow is for you to set the cases and proceed with them as planned and you are so directed."

The question that is agitating the people of today is, 'Why Must Leave Home.' Come to the Lamar Theatre tonight.

PROBES AFFAIRS OF SECURITY OIL

STATE ATTEMPTS TO SHOW ITS CONNECTION WITH THE STANDARD

SECRETARY IS WITNESS

Courtesy Marshall Still on Stand Today—Hearing Adjourns to Galveston

By Associated Press. Beaumont, Texas, June 25.—Investigation of the Security Oil Company was again taken up by the State this morning when the hearing in the \$39,000,000 oil case was resumed.

The Security Oil Company was the property bought by John Sealy and Company 1909 together with the Navarro Refining Company which later became the Magnolia Petroleum Company. Courtney Marshall, secretary of the Magnolia, who also was secretary of the Security Company resumed testimony today. The State had shown yesterday the ownership of all but three of the \$15,000 shares of the Security Oil Company by the London Commercial Trading & Investment Company which the State contends is the English branch of the Standard Oil. The fact that the Security Company rendered monthly trial balances to the London firm was established and these balances down to 1909 were introduced in evidence.

Rendered Weekly Reports.

The State introduced documents to show that since December, 1909, weekly reports of the company's condition were sent to Howard Baine and S. G. Baine, continuing the State charges, its relations with the Standard Oil Company after it had been added a trust and sold to the State. After September 16, 1911, these regular reports were sent to H. C. Folger Jr., 26 Broadway, New York City. It was in September, 1911 that the Magnolia was organized from the property bought by John Sealy and Company.

The stock book of the Magnolia was put into the record to show that John D. Archbold and H. C. Folger Jr., own about ninety per cent of the Magnolia's stock. The only additional fact brought out by the defense was that reports such as were furnished Mr. Baine and Mr. Folger went to several other persons and officers of the Magnolia Petroleum Co.

Adjourns to Galveston.

Questions about the purchase of tank cars and other supplies by the Magnolia and its predecessors did not develop much. The State tried to show that the Magnolia bought its supplies from Standard Oil sources. The hearing will adjourn this afternoon to Galveston tomorrow where John Sealy and R. Waverly Smith, treasurer of the Magnolia will be the principal witnesses.

Courtesy Marshall, the secretary of Magnolia, is an interesting Irishman, who has beautified the grounds around the Magnolia refinery offices with Irish roses and other flowers. He, like Mr. Maury of State's counsel, is quick at repartee, and, like most Irishmen, he has the knack of answering one (Continued on Page 3)

EIGHT PERSONS KILLED ON CANADIAN PACIFIC

Four Cars Roll Down Embankment Near Ottawa and Fatalities Result

By Associated Press. Ottawa, Ont., June 25.—Eight persons, possibly more, were reported killed on the Canadian Pacific, Western Express near here. Four cars rolled down an embankment into the Ottawa river, and two were wrecked on the track.

PRESIDENT WILSON TOO BUSY TO TAKE VACATION.

Washington, June 25.—President Wilson intends to take no vacation while Congress is in session and is determined to share any discomfort the hot season may bring. While he will leave Friday to take his family to Cornish, N. H., he will return the following Monday, unless Congress recesses over July 4. The ice refrigerating plant underneath Mr. Wilson's office is no longer in operation and the temperature of the president's workroom does not differ from that in any other part of Washington. Mr. Wilson says he is prepared to stand the heat and looks forward to a long session with currency legislation as the ultimate object.

TRAINLOAD TEXAS OATS SHIPPED FROM TEMPLE

Goes to New Orleans—Said to Be One of Largest Consignments on Record in State

By Associated Press. Fort Worth, Texas, June 25.—A local grain concern today received word that a special trainload of oats has been shipped from Temple, Texas, to New Orleans. This is said to be one of the largest oat shipments ever made from Texas.

PURE GRIT ENABLED ARCHDEACON STUCK TO REACH TOP OF NORTH AMERICAN CONTINENT

New York, June 25.—"Leading an expedition to the top of Mount McKinley, the highest mountain in North America, is not the first unusual thing the Rev. Hudson Stuck, archdeacon of Alaska, has done," said Eugene M. Camp of New York, a personal friend of the missionary of some years' standing. "He has the fighting spirit, and I believe pure grit enabled him to win. Mr. Stuck, an Englishman by birth, came to America as a young fellow and went to the University of the South. He became an Episcopal clergyman in 1892, serving under Bishop Johnston in Western Texas. Two years were enough for him to be discovered that distant field, and in 1894 he became dean of St. Matthew's cathedral at Dallas under Bishop Garrett. After a service there of ten years he went in 1904 to Alaska where he has been since. Dallas sent him in 1901 to San Francisco, a deputy to the Episcopal general convention. Young and unknown, he won his spurs in that eventful convention. The late Rev. Dr. William R. Huntington of New York, one of the most brilliant debaters any church in America has ever produced, then at his height, led a five day debate. Young Stuck successfully met him and over and over again carried the whole convention with him against the famous New York debater. People began to ask who the Texas might be. They found out before the convention was over. Ever Dr. Huntington paid him the highest compliment as a fighter in the forum. Three years later Mr. Stuck astonished his friends by giving up his position at Dallas and going to Alaska. The bishop of Alaska, the Right Rev. Dr. Peter T. Rowe, is one of the best known bishops in the Episcopal church, brought into prominence at first by the late J. Pierpont Morgan of New York, who financially helped him. Becoming his archdeacon, Mr. Stuck did the difficult thing of remaining perfectly loyal to Bishop Rowe, not taking a single laurel from him, and yet himself attaining a world-wide fame as a daring missionary. From distant Alaska, without once leaving it, but for eight years giving service of the church and later put up a six foot cross on the summit. The archdeacon and his three followers left Fairbanks the middle of March. Their equipment was supplied from the outfit of Professor Parker, which was used last year. Supplies had been taken to the foot of the mountain last fall.

ORDINARY BETTING NOT GAMBLING, SAYS JUDGE

Releases Men Arraigned at Race Track Because No Bookmaker Was in Evidence

New York, June 25.—Horse racing, as recently revived at Belmont Park, is free from betting in the eyes of the law, according to a decision of Judge James P. Neumann, sitting as a committing magistrate here. He threw out of court today the proceedings brought by the district attorney of Nassau county, based on the allegations by private detectives that they had placed bets with bookmakers. The court held that it was not shown that the men with whom bets were placed were bookmakers within the meaning of the law. It was plain, he said, that there was gambling. But, he added, ordinary betting carried on from day to day is not bookmaking. It would have to be shown that men with whom bets were made were common gamblers, and designation of the defendants as such by the detectives is a mere conclusion.

GOVERNMENT GOOD ROAD EXPERT COMES TO TEXAS

Will Conduct School of Instruction at Convention at Corpus Christi in July

College Station, Texas, June 25.—Dr. L. T. Howes, chief of economics and maintenance of the United States office of good roads, will be a visitor at the Texas Good Roads Congress at Corpus Christi July 10, 11 and 12. This announcement was made today by Professor R. J. Potts of A. & M. who will direct the school of instruction for the Congress. Prof. Potts expects the federal department to send its good road exhibit also.

BORDER FORCES GO TO EL PASO

WILL PROTECT AMERICANS IF MEXICANS HAVE BATTLE AT JUARE

West Texas Congressman Assured that Protection Will be Afforded if Battle Starts

By Associated Press. Washington, June 25.—After Representative Smith had appealed to President Wilson today to see that Americans in El Paso did not suffer in the threatened battle between Mexican federalists and constitutionalists at Juarez, the Secretary of War that two regiments of cavalry could be assembled on the Texas border within twelve hours.

Brigadier General Bliss has full authority to concentrate his forces whenever necessary for protection of American lives. Already opposite Juarez there are five troops of second cavalry in addition to the machine gun platoon of that regiment.

EXPLOSION IN MINE BUT NO ONE INJURED

Fort Smith, Ark., June 25.—An explosion in mine No. 17 at Jenny Lind, Ark., twelve miles south of here, occurred today. The mine rescue car was called from the McAlester, Okla., station.

Luckily there were no men in the mine at the time of the explosion. The mine is on fire and badly wrecked. The officials do not know when they will be able to restore it to working condition.

WEATHER FORECAST
Tonight and Thursday, generally fair.

BOOT-LEGGING CARAVAN CAPTURED NEAR TULSA

Eleven Men and Seven Wagon Loads of Beer Taken by Enforcement Officers

By Associated Press. Tulsa, Okla., June 25.—Twelve United States enforcement officers led by H. A. Larsen of Denver, ambushed a caravan of wagons laden with liquor southeast of Tulsa early Tuesday capturing eleven men and seven loads of alleged beer. Although most of the men were heavily armed, no resistance was made. The officers got the drop. Five six-shooters and one repeating rifle were taken from the prisoners.

FEDERALS HAVE BROKEN THROUGH REBEL LINES.

By Associated Press. Douglas, Ariz., June 25.—A telegram to the constitutional junta here today said that the federalists under General Ojeda have broken through the rebel cordon and are retreating rapidly toward Quaymas. No details were given, except that the Sonora state troops are in full possession of Santa Rosa and Ortiz.

HOMING PIGEON MAKES FORTY EIGHT DAY TRIP

By Associated Press. Jeannette, Pa., June 25.—The record flight of a homing pigeon from Rio Janeiro, Brazil, is reported by Stephen Krupa. He shipped "Sunny Jim" and two other racing pigeons to Rio Janeiro, and they were liberated there on May 8. "Sunny Jim" arrived here yesterday after forty-eight days' flight. It is said a pigeon never before homed from a point below the Equator on account of the extreme heat.

TWENTY-SIX MAY HAVE MET DEATH

THAT MANY BELIEVED TO BE KILLED IN EXPLOSION AT BUFFALO

ELEVEN KNOWN VICTIMS

Several Other Bodies Believed to be in Ruins—Property Loss is \$250,000

By Associated Press. Buffalo, N. Y., June 23.—Official checking of the list of employees of the Huested Milling Company, whose elevator was blown up by a dust explosion yesterday shows that besides the eleven known victims, twenty-six men are still unaccounted for and are believed to be in the ruins. Two bodies can be seen by firemen in the milling company's tower.

It is believed some of the men took refuge in this tower after the explosion and were trapped there.

Sixty were taken to hospitals, some in a serious condition, from burns and broken legs and arms. That many of the injured can not survive and that the ultimate death list may number fifteen is an estimate reached by a canvass of the hospitals.

The explosion was caused by the puffing of dust accumulations in the feed house and was of frightful force tearing out one wall of the wooden structure and breaking windows for a quarter of a mile around.

John Conroy, engineer of a switch engine, was blown from his cab.

Body Blown Fifty Feet.

The body of Henry Vetter was blown fifty feet and was found under a box car near by badly burned.

A boy, while running to the fire, was run down by an automobile and killed.

The elevator concern employed 150 men and, according to Vice President Huested of the company, four are not accounted for. Employees who escaped declare, however, that many of their fellow-workmen were cut off by the flames and perished.

A dozen box cars loaded with grain were destroyed. The elevator had a capacity of 500,000 bushels. Half the building was of old wooden construction and with its contents was destroyed.

Officials of the company estimated their loss at \$250,000, covered by insurance.

TEXAS CONGRESSMAN IN FIGHT WITH CONDUCTOR

Martin Dies Black's Eye of Street Car Employee Following Trouble Over Window

By Associated Press. Washington, June 25.—Representative Martin Dies of Texas had a row with a street car conductor last night. The conductor came out of the fracas with a black eye, the car came out with a smashed window and Mr. Dies came out unscathed, but with a ruffled temper. Railway company officials said today they were inclined to support the conductor. It is said Mr. Dies found it difficult to open a window and punched the pane out with one swipe of his glove. When the conductor remonstrated the congressman virtually repeated the movement, but on the conductors' eye with his first.

APPOINTMENT OF NEW SERVIAN CABINET LIKELY.

Belgrade, June 25.—King Peter has intrusted M. Pasitch, the Premier who recently resigned, with the reconstruction of the Cabinet. Only the holders of the portfolios of war and justice will be changed in the new combination.

This victory of Premier Pasitch is taken in influential circles here to mean that Serbia is ready to accept arbitration in the Balkan dispute in spite of the activities of her army, and that war will thus be averted.

SERVIANS ARE ATTACKED BY BULGARIAN TROOPS

Unprovoked Assault Is Made in Macedonia and Battle Is Still in Progress

By Associated Press. Belgrade, June 25.—A strong force of Bulgarian troops attacked the Serbian positions at two points in Macedonia at one o'clock this morning. The attack, according to the official report here, was unprovoked. Fighting was still in progress at a late hour.

PROPRIETOR OF ROOMING HOUSE IN UNDER ARREST

By Associated Press. Dallas, Texas, June 25.—Ed Martin was arrested today when he picked up a decoy package placed on a railroad bridge in answer to a black hand letter demanding \$500 from Edward Tyche, one of Dallas' wealthiest merchants.

The letter ordered Mr. Tyche on pain of having his house blown up to place the money beneath the rail between the second and third ties of the bridge at 11 o'clock last night. Police watched until six this morning when Martin came along and picked up the package. He said he knew nothing of the black hand demand but had picked up the package merely because he saw it in passing.

ALLEGED JOKER IN AMENDMENTS

EFFORT TO STOP IMPORTS OF CHILD-LABOR GOODS IS OPPOSED

WOULD MEAN PROTECTION

Plant to Give Appeals Court Jurisdiction into Customs Cases Also Meets Objection

By Associated Press. Washington, June 25.—Two far-reaching amendments to the administrative provision of the tariff bill aroused opposition in the democratic Senate caucus today.

One was that prohibiting importation of any goods except immediate products of agriculture, forest or fisheries, wholly or in part manufactured by children under fourteen years old. That provision was described by many senators to be the most drastic protective measure any manufacturer could ask for, greater as a protection against foreign competition than high tariff rates.

The amendment to grant the United States court of appeals concurrent jurisdiction in customs cases involving more than \$100, with the customs court, also aroused opposition. Some democrats thought the proposal an entering wedge toward elimination of the customs court.

Under the proposed new form of the income tax an additional exemption of \$1,000 would be allowed to married men or married women with dependent wives or husbands, not taxable under this law, and \$500 would be added for each dependent child living with and dependent upon the taxable parent. In case of both parties being taxable, however, no exemption for children would apply.

Other important changes in the plan include the exemption from taxation of that portion of the premiums collected by the mutual life or marine insurance companies which may be returned to policy holders in the form of dividends. The taxation of this portion of their income had been bitterly opposed by the insurance companies. The Underwood bill has exempted only mutual fire insurance companies on this basis.

Chambers of commerce, civic bodies and cities, counties and states are added to the class of organizations whose incomes will not be taxable.

To secure the payment of a tax "upon coupons, checks or bills of exchange," collected from foreign residents, a provision was added requiring all firms collecting such funds to secure a license from the commissioner of internal revenue so the amount of their collections might at any time be inquired into.

Many Reforms Eliminated.

The revision of the administrative features eliminates many of the reforms proposed in the Underwood bill as it passed the House. The Senate committee proposes an amendment, however, providing for a "joint" committee to investigate the revenue administration laws with the view to "simplifying, harmonizing, revising and codifying them."

This committee would consist of three senators to be appointed by the vice president and four members of the ways and means committee to be appointed by the speaker and their recommendations would be required to be reported not later than Feb. 1, 1914. An appropriation of \$15,000 for the investigation is recommended.

The specified articles and rates to which the authority of the president to make retaliatory increases in duties would extend, is as follows: Fish, all kinds, 1 cent per pound; coffee 3 cents per pound, tea, 10 cents per pound.

On the following articles, one and one-fourth times the rates specified in the bill:

Earthenware, stone and chinaware, expressed oils, lemons, cheese, wines of all kinds, malt liquors, knitted goods, silk dresses and silk goods, leather gloves, laces and embroideries, of whatever material composed and articles made wholly or in part of the same; toys, jewelry and precious semi-precious and imitation precious stones, suitable for use in the manufacture of jewelry.

MAN WHO FINDS DECOY PACKAGE IS ARRESTED

Letter Written to Dallas Merchant Demanding \$500 Is Answered by Dummy—Officers Watch

By Associated Press. Dallas, Texas, June 25.—Ed Martin was arrested today when he picked up a decoy package placed on a railroad bridge in answer to a black hand letter demanding \$500 from Edward Tyche, one of Dallas' wealthiest merchants.

The letter ordered Mr. Tyche on pain of having his house blown up to place the money beneath the rail between the second and third ties of the bridge at 11 o'clock last night. Police watched until six this morning when Martin came along and picked up the package. He said he knew nothing of the black hand demand but had picked up the package merely because he saw it in passing.

WILSON READS MESSAGE ON CURRENCY, WANTS ACTION

Urges Congressmen To Lay Aside Personal Considerations-Indirectly Indorses Glass Bill

By Associated Press. Washington, June 23.—Bearing a personal plea for immediate action by Congress to revise the banking and currency laws in order business may be aided in meeting tariff revision, President Wilson for the second time today submitted a message. Although shorn of some of the novelty that attended his first appearance, today's visit took on a deep significance. On his first visit he delivered a message long anticipated, carrying out the party's pledge for immediate tariff revision. His address today was an appeal to every member of the House and Senate to lay aside personal considerations and sacrifice comfort and even health, if necessary, to secure at once a reform of the nation's banking system.

Benefits of Revision.
Only in that way, he said, could the country secure the benefits of the tariff revision soon to be completed. The president gave no direct endorsement of the Glass currency bill which is to form the basis for the democratic revision of banking laws, but indirectly he made it known this bill has been limited to one goal and approval. There were many statements among the House members when the message was read: Mrs. Wilson and two of the president's daughters were in the executive gallery.

President Wilson motored to the capitol through a steady rain accompanied only by Secretary Tumulty and secret service men. Galleries and the floor arose as he entered the chamber. In a low even voice which penetrated clearly to every corner of the chamber, the president began reading his address. Not a stir from the audience interrupted. It took him a little more than nine minutes to read his address and at his conclusion he was greeted by a round of applause.

Many Seek Admission.
As he left the chamber he shook hands with Speaker Clark and Vice President Marshall. The speaker dismissed the joint session immediately and the senators returned to their own chamber. The House adjourned until Tuesday. Long before the capitol doors were opened today hundreds of people lined up in a steady rain in the hope of getting in to hear President Wilson deliver his address to Congress on currency reform. Although the attendance has been limited to one card of admission for each member of either house, with provision for the president's family and the cabinet circle, hundreds clamored for admission.

Necessity For Changes.
"Mr. Speaker, Mr. President, Gentlemen of the Congress: It is under the compulsion of what seems to me to be a clear and imperative duty that I have a second time this season sought the privilege of addressing you in person. I know, and you know, that the heated season of the year is upon us, that work in these chambers and in the committee rooms is likely to become a burden as the season lengthens, and that every consideration of personal convenience and personal comfort, perhaps, in the case of some of us, considerations of personal health even, dictate an early conclusion of the deliberations of the session; but there are occasions of public duty when these things which touch us privately seem very small; when the work to be done is so pressing and so fraught with big consequences that we know that we are not at liberty to weigh against it any point of personal sacrifice. We are now in the presence of such an occasion. It is absolutely imperative that we should give the business men of this country the banking and currency system by means of which they can make use of the freedom of enterprise and of individual initiative which we are about to bestow upon them.

"We are about to set them free; we must not leave them without the tools with which they are free. We are about to set them free by removing the trammels of the protective tariff. Ever since the Civil War they have waited for this emancipation and for the free opportunities it will bring with it. It has been reserved for us to give it to them. Some fell in love, indeed, with the selfish security of their dependence upon the government; some took advantage of the shelter of the nursery to set up a mimic mastery of their own within its walls. Now both the tonic and the discipline of liberty and maturity are to ensue. There will be some readjustments of purpose and point of view. There will follow a period of expansion and new enterprise, freshly conceived. It is for us to determine now whether it shall be rapid and facile and of easy accomplishment. This it can not be unless the resourceful business men who are to deal with the new circumstances are to have at hand and ready for use the instrumentalities and conveniences of free enterprise which independent men need when setting on their own initiative.

The Credit Field.
"We are not to attack the shackles from business. The duty of statecraft is not negative merely. It is constructive also. We must show that we understand what the new needs are and that we know how to supply it. No man, however equal and superficial his observation of the conditions now prevailing in the country, can fail to see that one of the chief things business needs now, and will need increasingly as it grows in scope and vigor in the years immediately ahead of us, is the proper means by which readily to vitalize its credit, corporate and individual and its origination. What will it profit us to be free if we are not to

DENTIST HELD ON SERIOUS CHARGE IS RELEASED

By Associated Press. Beaumont, Texas, June 23.—After a thorough investigation of the charge of criminal assault against N. A. Hughes, a dentist of Houston, the court ordered the case against him dismissed here today. The court said he doubted the sincerity of the prosecution and that there were motives inspiring the prosecution other than to see justice done.

SPANISH WAR VETERANS

By Associated Press. Galveston, Texas, June 23.—Spanish war veterans of Texas today completed their three days' meeting and adjourned to meet in Paris in 1913. W. C. Lathrop of Galveston was elected department commander.

TEXAS BOY HELD AS SPY IS FREE

By Associated Press. Dallas, Texas, June 23.—A boy held as a spy by the Constitutionalists in Mexico was released this forenoon and escorted to Eagle Pass. Investigation failed to show that he had carried messages to the present trip while under the law of nations he could not be held for carrying dispatches from the federalists, as he had acknowledged on a previous trip. After his arrest, every effort was made to induce him to accept a fine and be released. He refused, however, and was taken to the camp and held for a few days. He was then released and returned to his home.

THREATS PROVE USELESS

By Associated Press. Rippeters Firing Squad But Maintain Innocence On Bomb Planting Charge.

By Associated Press. Eagle Pass, Texas, June 23.—C. H. Rippeters, the Dallas boy held as a spy by the Constitutionalists in Mexico, was released this forenoon and escorted to Eagle Pass. Investigation failed to show that he had carried messages to the present trip while under the law of nations he could not be held for carrying dispatches from the federalists, as he had acknowledged on a previous trip. After his arrest, every effort was made to induce him to accept a fine and be released. He refused, however, and was taken to the camp and held for a few days. He was then released and returned to his home.

ROTHSCHILD IN WATERS-PIERCE?

By Associated Press. St. Louis, June 23.—The Post-Dispatch says in a late edition today that the Waters-Pierce Oil company is being reorganized. Its capital is being increased from \$400,000 to \$1,000,000. The European banking family of Rothschilds is understood to have invested heavily in the organization and the new company is expected to become a rival of the Standard Oil company in the United States.

ST. LOUIS REPORT SAYS IT IS RE-ORGANIZING WITH EUROPEAN AID

By Associated Press. St. Louis, June 23.—The Post-Dispatch says in a late edition today that the Waters-Pierce Oil company is being reorganized. Its capital is being increased from \$400,000 to \$1,000,000. The European banking family of Rothschilds is understood to have invested heavily in the organization and the new company is expected to become a rival of the Standard Oil company in the United States.

OPPOSITE OF STANDARD

By Associated Press. St. Louis, June 23.—The Post-Dispatch says in a late edition today that the Waters-Pierce Oil company is being reorganized. Its capital is being increased from \$400,000 to \$1,000,000. The European banking family of Rothschilds is understood to have invested heavily in the organization and the new company is expected to become a rival of the Standard Oil company in the United States.

REYNOLDS ASKED FOR EXPLANATION OF ACTION

By Associated Press. Washington, June 23.—Reynolds called today on General McReynolds for an explanation of the reasons for the postponement of these cases.

PREACHERS WHO SMOKE

By Associated Press. Fort Worth, Texas, June 23.—Anti-cigarette Sunday was featured here by an attack upon preachers who smoke by S. B. Mayfield, superintendent of the Sunshine Mission and a prominent church man. Incidentally Mayfield toured the city, taking tobacco and cigarettes away from boys and finally building a bonfire on East Front street.

THE WICHITA SOUTHERN LIFE INSURANCE CO.

WICHITA FALLS, TEXAS

Solicits Business from the Insuring Public on the Following Grounds:

- 1st. We are in a position to furnish sound protection for those who need it.
- 2d. The protection furnished by the WICHITA SOUTHERN is equal to the best furnished by the United States.
- 3d. The company is required by law to carry the same amount of reserve in proportion to amount of insurance in force as the largest company in the world.
- 4th. We find by comparison that our assets in proportion to liabilities, which is the real test of strength, are much greater than many of the companies who are much older and larger.
- 5th. The company loans its funds in the communities from which it receives its business, and in the ordinary channels of business drifts back to you.
- 6th. If you are not directly interested in the company, many of your associates are. If you are a professional man, banker, merchant or farmer, many of your patrons and friends are doubtless stockholders in the company.
- 7th. YOUR FAMILY NEEDS THE PROTECTION WE HAVE TO OFFER.

RIVER COMMISSION IS PROVIDED FOR IN BILL

Would Consider Flood Prevention, Stream Pollution, Water Power and Other Subjects.

By Associated Press. Washington, June 23.—Gifford Pinchot's plan for a national rivers commission was introduced in Congress today by Representative Egan of Pennsylvania, as a Progressive party measure. Senators, representatives, governors, heads of waterways improvement and conservation organizations and various government officials would compose it, all serving without pay.

Flood prevention, stream pollution, water power and similar subjects would be taken up by the commission.

DR. COOK SAYS STUCK'S STORY VINDICATES HIM

By Associated Press. Oklahoma City, June 23.—"I see in Archbishop Hudson Stuck's account of his ascent of Mount McKinley, June 7, complete vindication of the account of my own ascent of the top of the continent in 1906. It gives me great comfort and solace." This statement was made by Dr. Frederick A. Cook, claimant of the first North Pole discovery, in an interview here.

BIG ADVANCE IN PRICE OF NEW POTATOES TODAY

By Associated Press. Kansas City, June 23.—New potatoes jumped from forty to forty-five cents over the prices of Sunday to day on account of the dry weather interfering with crops. Prevailing prices today are one dollar and \$1.50.

DEATH COMES TO POLICE CAPTAIN WHO CONFESSED

By Associated Press. New York, June 23.—Thomas W. Walsh, the ex-police captain whose confession led to the conviction for grafting of Inspectors Murtha, Thompson, Hussey and Sweeney, now serving time in the penitentiary, died at his home in Harlem early today. He had been in poor health for months, and the fear of death was brought about by his confession. He rallied and was able to testify at the graft trials but never was himself again.

CATHOLIC SISTER MAY LOCATE HOSPITAL HERE

Said To Be Considering Establishing Sanitarium-Inducements Are Offered.

Negotiations are under way here by one of the orders of Catholic Sisters may establish a sanitarium in this city, and while no definite agreement has been reached, it is considered quite likely that the sisters will come here. Inducements have been offered them and a site will probably be donated.

OFF PENALTY HEARING IS POSTPONED

By Associated Press. Austin, Texas, June 23.—State Superintendent of Public Instruction announced the state summer normal board of examiners for 1913 today. Among its members are W. K. Niles of Wichita Falls. The board will meet at Edna July 22.

ANTI-CARRIAGE PLATTER PUT TO DEATH SUNDAY

Major Alfredo Valdez Is Tried by Constitutional Court Martial and Executed.

By Associated Press. Eagle Pass, Texas, June 23.—Major Alfredo Valdez, formerly a captain in the constitutionalist army, who was degraded for disobedience of orders, was executed at Monclova yesterday after trial by court martial on a charge of plotting to assassinate Governor Carranza. He pretended to desert with twenty-five men from the federal army recently, but after joining the constitutionalists he was watched with the result that a charge of plotting was made against him.

CATO SELLS IS BUYING CATTLE FOR THE INDIANS

By Associated Press. Fort Worth, Texas, June 23.—Cato Sells, commissioner of Indian Affairs in Fort Worth today, conferring with representatives of cattlemen over the purchase of cattle for Indian reservations. The government proposes to use these cattle in places where formerly private owners held big leases and where the Indians were deprived of their use. The first shipment will be made to a reservation in Montana.

CHICAGO SUNDAY SCHOOL USES MOVING PICTURES

By Associated Press. Chicago, June 23.—A three months' "successful experiment" of teaching the Bible by moving pictures ended last night at the University Congregational Church. The pastor of the church, after releasing the summer school, said he believed the children learned faster by eye than by ear. The only criticism was that the films had not been all the church people desired.

RAILROADS MUST SHOW BOOKS TO COMMISSION

Washington, June 23.—Nothing short of actual book accounts of railroad receipts and expenditures in interstate business, will be accepted by the Supreme Court of the United States as a basis of annulling State rates as confiscatory, according to the written opinion of Justice Hughes in the Arkansas rate cases, completed today.

Justice Hughes announced the mere decision of the court that the two-cent passenger rates in the State were not confiscatory on the basis of last decision day, June 16 and has been engaged in writing the opinion in the cases since that day. He pointed out the opinion that the railroad in attacking the rates failed to sustain their case because of too general methods employed in separating interstate operations from interstate business on a gross revenue basis.

WITH GUARDS AT DOOR PASS BILL OVER VETO

Tennessee Democrats Employ Severe Methods To Regain Control of Election Machinery.

By Associated Press. Nashville, Tenn., June 21.—In the Tennessee House of Representatives a number of extra sergeants-at-arms were appointed, the entrance guarded and the bill amending the election law called up and passed over the governor's veto, 51 to 18. The effort to pass the bill was undertaken by the "regular" democrats during the absence of a quorum in the House. The amendment in that shape is now pending in the supreme court.

WICHITA IS MEMBER OF EXAMINING BOARD

By Associated Press. Austin, Texas, June 23.—State Superintendent of Public Instruction announced the state summer normal board of examiners for 1913 today. Among its members are W. K. Niles of Wichita Falls. The board will meet at Edna July 22.

CONTRACTOR FROM WACO PUT UNDER ARREST HERE

James B. Lush Is Held on Charge of Disposing of Mortgaged Property.

Deputy Sheriff Hawkins today arrested Jas. B. Lush of Waco at an apartment house in this city. Sheriff Fleming of Waco, is here today to take the prisoner back to Waco for trial on a charge of disposing of mortgaged property. Lush was in the contracting business at Waco and had the confidence of the Waco Lumber Co. and a bank of Waco to the extent that they would not believe there was anything wrong even after Lush had disappeared and complaint had been filed against him.

B. A. Fields, a former Wichita Falls man, filed the complaint. Fields is in the second bid business. He bought \$200 worth of furniture of Lush for \$30 and when Fields went to remove the stuff he found that it was mortgaged, it was said.

COAST TO COAST STRIKE THREATENED IN CHICAGO

By Associated Press. Chicago, June 21.—Threats of a coast to coast strike in connection with the Chicago union men locked out by the Building Construction Employers' Association was made today by Simon Odonnell, president of the Building Trades Council, who says union men in cities throughout the country are awaiting his word to tie up the construction work of the nation.

"However," said Odonnell, "we will hold until the last minute before taking any such action."

MILITANTS BELIEVED TO HAVE ATTEMPTED WRECK

Ties Found on Track Where Express Train Was Soon To Pass in Tunnel.

By Associated Press. London, June 23.—What is alleged to have been a militant attempt to wreck an express train from London to Plymouth in a tunnel near Davenport on Saturday, was reported today. A motor belonging to the London and Southwestern railway while proceeding through the tunnel struck a heavy obstacle. Two wooden ties were found wedged between the rails over which an express train was due to pass.

BANKERS OFFER CURRENCY VIEWS

COMMITTEE OF ASSOCIATION SUBMITS NUMBER OF SUGGESTIONS

CENTRAL BANK FAVORED

General Plan Outlined by Aldrich Commission Seems to Meet With Approval

By Associated Press. New York, June 21.—Methods which should be pursued in reforming the currency system of the country, according to the views of the American Bankers' Association, were outlined today in a detailed statement issued by the Currency Committee of that organization. The statement which answers thirty-three questions formulated by a subcommittee of the committee on banking and currency of the United States Senate was prepared by the committee which recently conferred at Atlantic City.

The committee endorsed the currency plan devised by the National Monetary Commission of which Senator Aldrich of Rhode Island was chairman. It made no reference to the bill recently prepared at Washington with the co-operation of President Wilson. Its recommendations, in fact, were framed before the publication of the administration bill.

The committee urged that whatever system is adopted shall be put out of politics. The committee made no attempt to formulate a complete currency system, its recommendations being guided by the questions put to it by the subcommittee of the Senate. It did state its belief, however, that a central banking institution should be established under government control. No reference was made as to methods to be employed in the regulation of such an institution or the appointment of election of its managing heads.

In expressing its ideas about the establishment of a central bank, the committee while not declaring for the creating of an institution similar to the great central banks of the principal European countries points out that "the experience of commercial nations is that results can be better accomplished by the creation of a privately owned central organization dominated and controlled by the government as for instance, the Imperial Bank of France. It serves to take the matter out of politics."

Question of Branches. In answer to the direct question whether there should be a central reserve association with branches, or a number of reserve associations with or without central control, the bankers replied:

"In our opinion, one central reserve association, with branches would best serve our present necessities. Failing that, a small number of regional reserve associations, also with branches, might be organized to serve the purpose. The smaller the number of reserve associations, the more effective the reserve control. If there are to be a number of regional reserve associations, they should be under some kind of control in which both the government and the various associations should have representation."

The commission does not favor the continuance of bond secured currency, the objection being that the volume of currency is thus arbitrarily fixed. The bankers do not commit themselves to any definite statement whether there should be any changes in the present requirement of the law, that twenty-five per cent of deposits shall be held as reserve. The advisability of such a change in their opinion would depend upon the manner in which the reserves are to be controlled and protected.

Favors Elastic Currency. One of the most important recommendations is made in reply to the question, "Should an elastic currency be authorized by law?" The answer reads:

"We believe that such a currency should be authorized by law, the amount to be controlled by the gold reserve against it. Such reserve should be ample, not less than fifty per cent as a recognized minimum. A special tax might be levied upon any deficiency of the reserve below a stipulated amount, this tax to be increased as the deficiency increases; such provision would, in our opinion, prevent over-expansion of the currency."

Replying to the question whether all currency should be based upon the gold the commission says:

"Reserve money should preferably be gold, but the proportion of green backs or silver now included in our so-called lawful money, if not increased, is of diminishing importance, and if continued as eligible for reserve, will not cause embarrassment."

WHITE SLAVERY CASE IS HALTED

McREYNOLD'S ORDERS CAUSE FRISCO FEDERAL ATTORNEY TO RESIGN

Members of Two Leading California Families Under Indictment For Alleged Mann Act Violation

AFFECTS PROMINENT MEN

By Associated Press. San Francisco, June 21.—United States District Attorney John L. McNab announced today he has resigned. In a long telegram to President Wilson, McNab said he felt forced to resign because of orders from the attorney general tying his hands in the prosecution of the Diggins-Caminetti white slave cases, and the indictments against officials of the Western Fuel Company.

Maury Diggins, a former state architect and Andrew Caminetti, son of former State Senator A. Caminetti, who recently was appointed commissioner of immigration by President Wilson, were among the defendants in the case.

McNab said in part in his letter to Wilson:

"I am ordered by the attorney general over my protest to postpone until autumn the trial of Maury Diggins and Andrew Caminetti indicted for a hideous crime which has ruined two girls and shocked the moral sense of California, and this after I have advised the department of justice that attempts had been made to corrupt the government witnesses and friends of the defendants are publicly boasting that the wealth and political prominence of the defendant's relatives will cause my hands to be stayed through influence at Washington. In these cases, two girls were taken from cultured homes, belittled and frightened into going into a foreign State and were ruined and debauched by the defendants, who abandoned their wives to commit these acts."

"I SHOULD WORRY" IS McREYNOLD'S ATTITUDE.

By Associated Press. Baltimore, June 21.—"A Republican district attorney has resigned and I am shedding no tears," was the only comment Attorney General McReynolds would make when told of the San Francisco dispatch that United States District Attorney McNab had wired his resignation to President Wilson.

Building Permits. S. H. Hodges, one-story brick business house addition, \$6,000, lot 9, block 162. H. R. Houck, 1-story frame residence, lot 3, block 13, \$1500. J. E. Childress and R. M. Darnell, one-story frame residence, \$1600, E. A. Austin survey No. 425, city. J. C. Cook, one-story frame residence, lot 25, block 262, \$1700. Carrie Simons and Mrs. Emma Bachman, one-story frame residence, lot 5, block 4, \$1250. Geo. Lawler, Jr., and Sr., one-story frame business house, lot 20, block 19, \$325. Mrs. L. F. Anderson three-story rooming house, lot 3, block 200, \$4500.

FISCAL SYSTEM REFORM URGED BY FITZGERALD.

By Associated Press. Washington, June 24.—Radical reform in the government's fiscal system to give the House committee on appropriations control of the big supply bills instead of having them distributed among eight committees as at present, was urged in the House today by Representative Fitzgerald. His speech for a fore-runner of the budget discussion in democratic caucus tomorrow.

question by asking another. There were several good-humored clashes between himself and Mr. Maury during the examination, much to the edification of the listeners. At the conclusion they shook hands over the stenographer's table.

Security's Stock. Mr. Marshall is a nephew of S. G. Bayne, president of the Seaboard National Bank. He worked in a bank at Salina, Kan., in which his uncle is interested, before coming to Texas in 1899 to work for the refinery then under construction and which was afterward known as the Security refinery and is now owned by the Magnolia. It was shown by the stock ledger that the Security stock was originally issued as follows: One share each to Marshall and L. W. Weller and 14,988 to S. G. Bayne. On Aug. 13, 1903, the Bayne shares were released and the London-American Commercial Trading and Investment Company, Limited, of London. It was shown from the records that Bayne had built the refinery and sold it to the Security company when formed for \$4,500,000, receiving as part payment \$2,500,000 of bonds and that these bonds were released Aug. 10, 1903, to the London company.

Witness testified that in 1903 a counselor named Jacks from England came here and went over the plant, for what purpose he did not know. Mr. Maury called attention to the fact, as he claimed, that pages 26 to 31 of the Security company's minute book had been torn out.

Mr. Marshall objected to this statement, saying the pages were missing but had not been torn out. An examination of the book, he said, would show that these pages had never been in the book.

Mr. Maury also emphasized the fact that the meeting from January, 1905, to February, 1911, showed the transaction of no business save the election of officers and he wanted to know why this was. Mr. Marshall said the minutes showed for themselves. He declared that no meetings had been held other than those recorded.

Mr. Marshall has been asked to produce the bank accounts showing the cost of the Security plant and other information.

DEMOCRATS IN TARIFFS CAUCUS

PRACTICALLY NO CHANGES MADE IN BILL AS REPORTED BY COMMITTEE

AUTOS AS NECESSITIES

Lower Rates On Cheaper Grades of Cars Sought—Harmony Seems Assured

By Associated Press. Washington, June 21.—The Underwood-Simmons tariff revision bill, as agreed upon by the Senate Democrats, went through a full day's session on the Senate democratic caucus today, with practically no change and with harmonious support for most of the alterations the finance committee members had made in the original Underwood bill.

The tariff duties on chemicals, oils and paints on earthenware and glassware and on two-thirds of the articles comprised in metal and machinery schedule, had been disposed of when the caucus adjourned late this afternoon.

Democratic members of the finance committee met tonight to finish drafting the income tax section of the bill. The important changes to be made in this section, reducing the exempted incomes from \$4000 to \$3000 probably will be completed Monday and the income tax and administrative features of the bill then will be turned over to the caucus for consideration.

For Cheaper Automobiles. Criticism of the tariff in the party conference was limited to a few specific rates and a half dozen of the items were sent back to the finance committee for further investigation and report. The committee report putting cement on the free list was sustained after some debate. The duties referred back to the finance committee were those proposed on certain carbons, on stained glass, certain glasses, optical and surgical instruments and photographic lenses.

Cheap automobiles as necessities of business and farming life were debated a long time. The finance committee Democrats already had cut the rates of the Underwood bill from forty-five per cent ad valorem to thirty-five per cent ad valorem at less than \$1500. Several Democratic senators urged a further cut and recommended that the tariff be only ten to fifteen per cent on machines valued at less than \$1000.

This demand was made on the ground that cheap automobiles are now commercial necessities. The caucus did not settle the automobile question. Chairman Simmons said his colleagues on the finance committee were asked to investigate further. Advocates of the lower duty claim the government would lose little revenue, as the high priced machines pay most of the tariff.

Harmony Anticipated. Harmony was predicted by the democratic leaders today after the caucus broke up. None of the bitter fought sections of the bill had been reached, however, and no effort has been made thus far to assert the independent authority of the party caucus. In individual senators, Senator Kern said the caucus would bind all its participants upon all features of the bill, except where they had made pledges to their constituents or felt that they could not conscientiously abide by the action of the majority.

PROBES AFFAIRS OF SECURITY OIL

Mr. Marshall said the minutes showed for themselves. He declared that no meetings had been held other than those recorded.

Mr. Marshall has been asked to produce the bank accounts showing the cost of the Security plant and other information.

COST OF LIVING STILL CLIMBING

COMPARISON OF PRICES OF STAPLES IN RECENT YEARS IS PRESENTED

INCREASES ARE GENERAL

Range From 4.6 Per Cent On Sugar To Over 100 Per Cent On Hog Meat

By Associated Press. Washington, June 21.—Of the fifteen staples representing approximately two-thirds of the expenditure for food by the averaging laboring family, every one except sugar showed a decided increase in retail price on February 15, 1913, compared with the ten year average from 1890 to 1899. Sugar was 4.6 per cent, smoked bacon 111.6 per cent higher. Increases in other foods were:

Stripped steaks, 60.4 per cent; round steak, 84.5; rib roast, 62.7; pork chops, 89.4; smoked hams, 69.1; hens, 66.6; wheat flour 27.4; corn meal, 68.3; strictly fresh eggs, 56; creamery butter, 63.5; white potatoes, 23.6; fresh milk, 40.1.

The prices were collected in comparison of the index number in which one fifth of the total number of people in the continental United States.

PLAN HOTEL ON EIGHTH STREET

THREE-STORY BUILDING ON SITE OF RECENT BIG FIRE HERE

TO COST ABOUT \$40,000

Messrs. Marchman, White and Jackson Have Reached Agreement as to Structure

It is now an assured fact that a three-story hotel building will be erected on the corner of Eighth and Ohio streets, where several brick business houses were recently destroyed by fire.

Messrs. Marchman, White and Jackson have entered into a partnership agreement and Judge Hodges, who owns the adjoining lot, may yet be included in the plan. The hotel building will be 30x150 feet, will be built of brick, will be three stories high and will cost in the neighborhood of forty thousand dollars. The building has practically been leased but the names of the lessees can not yet be given.

Work will begin on the building as soon as possible. Mr. Fields, the Fort Worth architect, is now preparing the plans, and the completion of this work will require ten days time. Home contractors will be asked to make bids on the construction work, and this will require ten more days time before the contract can be let. H. B. Hines, who has been representing some of the property owners in the negotiations, said today that he thought actual construction work would begin in about three weeks.

WOODMEN READY FOR LAKE PICNIC

FESTIVITIES START TOMORROW MORNING WITH PARADE DOWNTOWN

MANY VISITORS EXPECTED

Competitive Drills To Be Feature of Occasion and Local Hope To Win Prize

Tomorrow is the first of the big W. O. W. picnic days at Lake Wichita. Some visiting Woodmen from neighboring towns have arrived to day and many more are expected tomorrow.

The local camp, under the supervision of John F. Stillwell, district organizer, have made elaborate arrangements for the entertainment of the visitors. There will be boating, bathing and fishing at the lake, ball games, competitive drills and a ball at night.

Drill teams to the number of five are expected to be here to participate in the contest. The local team has put in many hours in rehearsal, so that they now stand a fair chance of winning one of the prizes.

The program for tomorrow follows: 9 a. m.—Parade by band and uniform rank through business section. 9:45 a. m.—Band concert at Lake Wichita.

10 a. m.—Address of welcome by Mayor J. M. Bell, followed by music. 10:30 a. m.—Response to address of welcome by Rev. George of Vernon, followed by music. 11 a. m.—Fraternal address by Judge Fitzgerald, followed by music. 12:30 p. m.—Dinner. 2:30 p. m.—Band concert. 3:30 p. m.—Drill contest by Woodmen of the World uniform rank. 4 p. m.—Baseball, Archer City vs. Olney. 8 p. m.—Dance at pavilion.

Friday's program will be announced tomorrow. The Woodmen are expecting from three to four thousand visitors here for the events, and many arrived on this afternoon's trains, reduced rates being secured on the roads.

The ball game tomorrow between Olney and Archer City promises to be an interesting feature, as a local team will play the winning team on Friday.

AVIATOR HURLS BOMB IN BATTLE

AEROPLANE IS USED BY CONSTITUTIONALISTS IN BATTLE AT ORTIZ

FIFTY-TWO MEN KILLED

Fight Which Started Thursday Is Resumed and Huerta Commander Cut Off

By Associated Press. Donaluz, Ariz., June 21.—An official message from Governor Pesquera of Sonora today stated the battle of Ortiz, begun Thursday, had been resumed.

The rebel war aeroplane piloted by Vidler Mascon the French aviator did much execution among the federalists. Pesquera asserted that the Huerta commander could not get away unless he cut through the rebel line.

Masson, according to the message dropped one bomb that killed fifty-two men. The and a hundred other federal dead, together with seventy rebel dead and seventy wounded, were brought to Hermosillo.

PLANS TO EXTERMINATE CONSTITUTIONALIST FORCE.

By Associated Press. Laredo, Texas, June 21.—A campaign of extermination was announced against the constitutionalists of Northern Mexico by Central Teller who arrived yesterday with a thousand men to relieve the federal garrison at Nuevo Laredo.

General Teller entire command, he said, consists of four thousand men of whom two thousand are south of Monterrey with orders to march to the border and the remaining one thousand stationed at points south of Nuevo Laredo. At Busatenanta on his march north, Teller said he was attacked by rebels and killed ninety of them, losing but two federalists killed. At Rodriguez he was again attacked and he said, his forces killed fifty rebels.

AMERICAN HELD AS SPY RELEASED BY CARRANZA.

By Associated Press. Eagle Pass, Texas, June 21.—A constitutionalist private soldier who was rude to Henry Crumpler, an American, arrested near Columbia, Mexico on suspicion that he was a Huerta spy and who was later released, was promptly executed by order of the rebel commander. Crumpler brought this report here today. He was discharged on Carranza's orders after United States Consul Ellsworth had made representations. A message to Carranza from the state department at Washington today said the lives of Americans are in grave danger and he was instructed to use every means to protect them.

PRETTY SOFT FOR EXPRESS AGENT

R. D. HORTON HAS OFFICE, DESK, SAFE AND SALARY, BUT NO WORK

REPRESENTS THE EMPIRE

Company Whose Affairs Are Still in Litigation Keeps Him Here With Nothing To Do

The man who is absolutely satisfied with his job has been found. He is R. D. Horton of this city. He has his office in the rear of the Joline building.

Mr. Horton is local agent for the Empire Express Company, and he is getting paid for it. The only work attached to Horton's job is the making out of his monthly report, and his monthly report reads like this: "Nothing doing all month—mail pay check to me at Joline building."

Horton has a brand new fireproof, burglar-proof safe in his office, with wind shield, fender and self starting attachment. He doesn't even have to open that safe, and hasn't opened it since he opened his office on June 2.

Position, But No Work. Horton is not a lazy man, nor disloyal to his employers. If the boss had any business for him to look after he would look after it carefully and prayerfully. And he wouldn't knock down a cent, either. But Horton's boss hasn't any business. They hope to have some day—but not yet.

The Empire Express Company was born in Dallas. It came near dying there. They wanted to do business over the Katy. The Katy said what they thought was a hog-tight exclusive contract with the American Express Company and paid no attention to the pleadings of the Empire Company. The Empire went into court with their troubles and spent a lot of money. The Katy was finally ordered by the court to abrogate that exclusive contract with the American Express, or anybody else, and to give the Empire a look-in.

Affairs Not Settled. This provided that the Empire company with certain requirements. One of these requirements is that they get a chance to do any business with the Katy at all in Texas, that they would do at least \$10,000 worth per month. This \$10,000 has been put up by the Empire, but the Katy still has until the 25th of June to say what they are going to do about it. The Katy has in the meantime appealed to the highest court that could be located in Austin, and asked for permission to appeal from the decision of some other court. So the affair is not yet entirely settled.

But in the meantime R. D. Horton is local agent, and he is drawing his salary, and he is whooping her up for

Convenient Investments

Are you aware that a large number of people place their money on interest with us as an investment?

You can invest your money here at any time and in any amount.

We pay 4 per cent interest on time deposits. The interest is payable regularly. Your money is always available.

The man identified with a bank as a depositor is better prepared to seize business opportunities presented than one who has no banking credit established.

Please bear in mind we want your business.

The Texas & Pacific is to discontinue the plan of having auditors take up and punch tickets on its passenger trains, and it is said will save about \$10,000 per month by so doing. To us it looks like the right kind of move. As understood by the general traveling public the auditors were put on to relieve the conductors of handling the

An irrigation ditch, instead of a marble monument, as a memorial to the dead hero, does not particularly appeal to one's sense of the artistic. Yet the report of the American commission now studying farm credits in Europe tells of a section of Italy, where instead of commemorating the deeds of some chieftains in bronze, they took

"Whatsoever a man soweth, that shall he also reap" is as true today as it ever was. The father who thinks he can sow all manner of evil in other peoples' fields and not reap it in his own family is sadly mistaken. One sowing generally comes back with interest. It is right that it should.—Abelene Reporter.

[illegible]

government gets no revenue. But the people pay in increased prices. The Underwood bill, so distasteful to farmers, would raise rates on blankets and flannels down to 25 per cent. By placing the tax on woollens at the lowest competitive rate, and having regard for needed revenue, the framers of the Underwood bill anticipate large income to the government. They also foresee that the farmer will be able to wear, dress, and furnish his family in active and healthy competition with the products of our American mills. Millions of dollars will go into the public treasury and the farmer will have goods at the low prices which arrangements not at all satisfactory to the former junior Senator from Texas.

"If the farmers of this country," says Mr. Bailey, "must sell what they produce in competition with the products of other countries, it is not their fault; what the farmers do not sell is their fault. The principal crops, for they are exporters, and, to export price is the gov-

can proceed without limit to issue bonds for any and all of the existing State institutions; or can logroll and trade, section with section, city with city, lobbyist with lobbyist, or member with member, and create a dozen or so of a hundred new State institutions and bond the people for them, wholly without let or limit!

Nobody will deny that such is the case. Governor Colquitt recognizes the scope of this dangerous provision when he says that bonds for the A. M. College can be issued under it; and that stores President Messes in his recent contribution to the press.

This very bad and extremely dangerous provision must be voted for if the rest are voted for. To add it to the Constitution is to invite for Texas the old revel in extravagance and bankruptcy which Reconstruction legislation brought down upon Texas.

to pass during the present session of congress. If it can be done without specific legislation, the wonder is that resort to such an issue has not been made. The fact, since the small sums of public money drawn from the banks during times of stringency have never given the public ample relief.

• No one will complain if the secretary of the treasury finds he cannot catch a statute sufficiently to enable him to issue the money to save the people the multiplied millions they lose when a money famine overtakes the country. Of course Wall Street will have to be watched. Speculation may take a dangerous course if the secretary of the treasury is not kept in touch with the treasury, will control the money situation when needed. He has made it plain that his proposal has nothing to do with Wall Street, but is designed to enable the banks to do their part in moving the crops so that the producers will not be made at victims of a money famine.

EX-WICHITAN IN HAWAII ISLANDS

O. J. PICKLE WRITES INTERESTINGLY OF HIS EXPERIENCES

AMERICANS IN MINORITY

Japanese Question and Sugar Tariff Are Problems in the Islands

An interesting letter on conditions in Hawaii, written by Oda J. Pickle, former manager here for the Western Union, appears below. It was written to Judge Edgar Rye and follows:

Dear Mr. Rye: I have been in the "south sea islands" for the past year and will do so this morning. I did not get to bid you good-bye before I left which I wanted to do but was so busy in my hurry to get away. We left Wichita Falls late part of November and went to Kansas for a visit with my people and while there I accepted the Hawaiian ship of this concern for the Hawaiian Islands.

We left Elk City, Kansas, January third and took the northern route via Pueblo, Salt Lake and Feather River Canyon to San Francisco. I never experienced so much cold weather and snow in all my life as on that trip and so lonesome. Travel west during the winter months is light and you may be surprised to know that we were the only occupants of the sleeper from Wichita, Kansas, to Pueblo, then we took on two more people at that place and arrived in San Francisco. We were to stop off at Salt Lake and take in the Temple, etc., but when I looked out and saw snow knee deep and the town without water on account of freeze-up we decided to spend the extra time in California. If you ever decide to go to California go to Pueblo and take the Salt Lake and Feather River Canyon route. It is the most picturesque of any line I ever traveled and service is splendid. We came down into California just when they were having their awful drought which was cold to the Californians it was really pleasant to us. It was foggy and misty all the time we were in Frisco and we did not enjoy much of its scenery and took in most of the shows, etc.

On January 15th we sailed on the Wilhelmina for that place and arrived here one week later. We had a passenger list of some 170 people and twenty-three steerage, and after getting accustomed to keeping our balance ourselves very much. Mr. Gamonts, son of the moving picture concern of Paris was on board and took several pictures of deck games, etc.

Experiences On Board.

We never passed a boat of any kind the entire trip over and just gazed at water the whole time. One old German lady from Milwaukee was coming over to see the flower parade and had a deck chair next to ours. She was the only amusement I had and I surely enjoyed her chatter. We were sitting on deck one morning after breakfast and I said water was getting mighty monotonous to me and she said, "Yes, just water, water, water. I wish I was in dear old Milwaukee just now again." I told her they had a small Milwaukee on board the boat where she could get all the Milwaukee brew she wanted and she said, "Well, I know but I cannot hold it down, just wasting money."

Coming into Honolulu we saw thousands of flying fish and our first gaze was of the Chinese fishermen catching them in their unique way. Presume you are aware how they catch them without bait but use a mirror and it takes two boats to fish for them.

After passing quarantine and having the doctors examine us to see that we were all right I told him we were all right that we were from Texas and he replied that we might have "boll weevil" but we passed of course, and next stop was customs officers who went through our luggage looking for opium. It was first time I knew that the U. S. government enforced inspection between two of its territories, but opium smuggling has been so bad it had to be enforced.

We arrived in Honolulu during the tourist season and everything in the way of accommodations were taxed to the limit. We had to go over to Kaimuki, a suburb six miles out until the rush was over and are now domiciled two blocks from the Palace in a six room furnished house which we get for thirty dollars per month. This place reminds me so much of the Colorado Springs and other tourist points that I wonder why it didn't appear in the Dallas sheet but afterwards found out that I failed to state the nigger was arrested. That ended my career as a correspondent and I felt quite peeved to think the Dallas News did not consider my efforts worth publishing.

Have often thought of my arrival in Honolulu and the eight years of my residence there with the many acquaintances made and feel as though I missed it in leaving but there's always a satisfaction of knowing you can "come back" if you want to. Trust this finds you enjoying the best of health and doing well. Mrs. Pickle joins me in very best regards to you and our other friends.

MISSOURI RAILROADS WILL MAKE NEW RATES EFFECTIVE

By Associated Press.

Kansas City, June 24.—Railroads in Missouri affected by the recent United States supreme court decision upholding the Missouri two-cent passenger and maximum freight rate laws, will put the rates in force at the earliest practical date "while the courts are still in session," it is expected, in thirty days.

BLOODHOUNDS AFTER FOX IN ARKANSAS MOUNTAINS.

Little Rock, Ark., June 24.—Officers of Pulaski and Lonoke counties with bloodhounds today are still pursuing James Fox, who fatally shot Patrick Phillips, near Kerr's Station Saturday.

Has Been Homesick.

If you ever take another vacation

and do not hike back to old Kentucky again. It would pay you to come out here. The climate is ideal, the range for last ten years being from 55 to 85 but since we have been here it's only been around 81 to 85. The mountains here afford excellent climbing and very exciting as some of the trails take you up where you can look down some 2000 feet and just stand on a small path about a foot and half wide. The beaches here afford the best bathing year around and the surf board riding and canoeing is a sight you will never forget.

We have had spells of genuine homesickness for Wichita Falls and expect in time will come back to Texas even if not to dear old Wichita. However, we are getting more accustomed to the place and being young can adjust ourselves much easier than an older person but our greatest drawback is the schools. We have such a motley of Orientals and they predominate in business, schools, public gatherings, etc. until the place takes on an Oriental look.

Being California is agitating the anti-Asian law I might give you a few pointers what the people of the west are up against. The Hawaiian Islands have a total population of 200,000 and out of this there are over 85,000 Japanese. Governor Freese's last report gives the following: Japanese pupils now form the most numerous element in the Hawaiian schools and they are increasing at a more rapid rate than any other race. The Japanese now have a considerable lead in the school population, with over thirty-one per cent of the total. Portuguese follow with a little less than seventeen per cent; the Hawaiians come next with fourteen per cent; part Hawaiians comprise fourteen per cent; Chinese eleven per cent and all other nations and races twelve per cent.

In the last percentage the Americans are in the minority as it includes Germans, Irish, Philippines, Austrians, etc. So from my observation Uncle Sam is doing sort of a missionary stunt over here or the people's school tax is helping to educate the Japs who in turn will properly earn and give us a good return for our money. To my notion California is doing just right and if Wilson and Bryan will take the stand they are now doing, California will escape the Orientalism that is now overrunning these islands. Opinion is greatly divided over here as the main thing is to keep the money controlled by a few big interests and they want this Oriental labor and of course frown on anything that is detrimental to their interests. However, in fighting the sugar tariff they make their big argument on the fact that if free sugar is put into effect that will practically take the entire islands over to the Japs.

You can count on your fingers the number of Americans in business here and I had no idea we were getting into such an Asiatic country. The Japs are hard competition, in fact Americans cannot compete with them on account of their cheap methods, cheaper cost of living and on the job day and night, Sundays and holidays. They are pretty cute all right in that they will buy a piece of property in a good neighborhood and are either bought out at a big profit in order to sell it practically, turn the entire adjacent sells out at their price and move out which is generally done.

Queen Lil Living.

We still have an abundance of old time royalty around us. Old Queen Lil lives here on a good pension which each legislature appropriates for her upkeep. She is now getting old and stays at home most of the time but most all of the noted visitors to the islands pay her a visit. Quite a number of former Princes, Princesses, Dukes, etc., all live here and some have intermarried with whites and others stuck to their own race. The Hawaiians are a pretty good race and in fact it is to their credit as an open heartedness that they are not in power today of their own land. They are fast dying off and tuberculosis is making inroads among them and in a few years a full blooded Hawaiian will be more of a curiosity than an Indian in America.

Well, Judge, I will not consume any more of these old time legends, but you are a idea of the islands. While my ideas may be somewhat biased they are given as seen from the eyes of an adopted Texan and who will always consider Texas as home for although born north of the Mason-Dixon line. I will never forget and will treasure the little chats and arguments we had in the little office of the Western Union on Seventh street when I was the whole cheese and you were the Dallas News correspondent. Neither have I forgotten the time I covered the "nigger shooting" for you and we wondered why it didn't appear in the Dallas sheet but afterwards found out that I failed to state the nigger was arrested. That ended my career as a correspondent and I felt quite peeved to think the Dallas News did not consider my efforts worth publishing.

LINDSEY WRITES ON FARM CREDIT

ITALIAN METHODS AND IDEAS ARE DISCUSSED BY TEXAS

HOW SOIL IS MAINTAINED

Systematic and Scientific Upbuilding of Farms is Kept Up and Results Are Evident

Naples, May 19.—In my first article, I showed how the farmers of Italy enjoyed better markets for their wheat, corn, potatoes and other products of their farms, than we of Texas, and I described a small Raiffeisen Credit Association, commonly called a rural bank.

The lands of Italy average better than ours, due to methodic and continuous upbuilding of the soils. This practice is universal throughout the country. Ninety per cent of the lands are cultivated. Hill and mountain sides and narrow valleys are cultivated the same as the broad level black lands and are made to yield as bountifully. As lands are valuable, it is cheaper to build and rebuild soils than to purchase other lands. This is true of Texas lands, but our people do not realize it yet. When our people shall have learned how to farm, and at the same time build up their soils, Texas lands will excel those of Italy by greater odds than do the lands of Italy now excel our Texas lands. But Texas lands will not be properly farmed under present conditions. Two things stand in the way, namely, our system of tenantry and the credit system of our farmers. No man, whether Italian or Texan, is going to conserve, build and rebuild soil to which he has the right of occupancy from only year to year. It requires means to farm properly and profitably. There must be well thought out plans in order to farm successfully, but what is the use to make the plans when there is not the means available with which to execute them?

Country Has Changed.

But first let me say the Italy of today is not the Italy of twenty years ago. The farmers of Italy produce about six hundred years ago, more than twenty years ago. You ask what brought this change? Several things, but the one that lies at the base and is the most potent of all is co-operative credit. The Raiffeisen and the Schulze-Delitzsch system of credit had their origins in Germany about fifty years ago. After they gained popularity among the people of Germany, they were adopted by the farmers of northern Italy in 1883. In time these institutions spread and became established throughout the northern portion of Italy, which was then a backward and proved of such excellent benefit to that section, regenerating and accelerating farming operations and quickening all lines of business, that efforts were made to introduce them in southern Italy by the government.

For this purpose, the State began in 1907 to enact a series of laws to assist in establishing these credit associations and rural banks in southern Italy and the islands. It first authorized the savings bank of the Bank of Naples to engage in the rural credit business in the southern provinces of Italy and in Sicily, and in 1909 an act was passed creating a special rural credit section of the Bank of Sicily. These banks are very large and powerful financial institutions. They send out men to organize local rural credit banks, assist in organizing and starting the bank right, and then examine them from time to time. If a farmer wishes to purchase seed, fertilizers, farm machinery or cattle, he may have a loan, but not so because he may have had bad luck and needs money to buy food, clothing, medicines, etc. Again, loans will only be made within certain prescribed limits as to both amount and time. The farmer may borrow \$200 on one year's time for cultivation, harvest and the purchasing of seeds, manures and fungicides; he may borrow \$400 on three years time to buy livestock; and \$600 on three years time for the acquisition of farm machinery.

THE THREE TYPES.

This completes the three types of rural banks in Italy, one the Raiffeisen type, the other the Schulze-Delitzsch type, and the state bank which loans money to these small banks on the basis of their members.

Perhaps I should explain that the Raiffeisen bank is merely a number of farmers who associate themselves together as a credit society without material capital, and borrow as a society from the state bank members, while the Schulze-Delitzsch bank is a share bank with limited liability and has capital. Usually the shares are small in amount, about \$3. Both these banks receive savings and other deposits of members and non-members, to whom they pay about four per cent. After a short time these deposits are usually sufficient to supply all the funds required by

the bank for lending to its members. Besides these banks are the land credit banks of Italy, which I shall describe at another time, and perhaps I shall not devote an article to them as all institutions are conducted on much the same principles and quite simple in plans and operations. It must be borne in mind that what I have written is the merest outline of these rural credit associations. The details of organization are not numerous, but their manner of making loans to members, associating themselves together for mutual aid and support are quite full of detail, and the telling will require a paper of greater length and exactness than is possible at present. When I have more time to devote to writing, I shall probably prepare a report for the Texas Farm Life Commission, which will give exhaustive detail.

ENERGETIC AND ACTIVE BUGS INVADE THIS CITY

Make Life Miserable For Sunday Night Crowds and Prove To Be Unpleasant Visitors

BUGS INVADE THIS CITY

Bugs of an energetic and active breed invaded Wichita Falls last night and made their presence known in all of the hundred or so ways that a bug has of announcing that he is on the job. There were grasshoppers and the little green ones that smell like distilled essence of hamburger when you mash them, but these were weak and amateurish compared with the little brown "black ones."

The latter seemed to be of an exploring turn of mind, as you discovered. If you were at church or some other place where you couldn't take the most natural methods of relief, you could feel them exploring around in a way that made the efforts of Dr. Cook seem like a piker. When you sat down to supper, it was pretty near an even break between the bugs and what you were eating. And if baby's mouth happened to be open while it slept, well.

The bugs were worst on the street cars, but were in evidence everywhere that a light was burning. It was annoying to sit and watch other people squirm and grab and it was all right to laugh, because you had a squirm and grab coming yourself in short order. The popular means of entrance so far as could be learned, was by way of the ankle, so that you didn't know they were there until they broke between the bugs and what you were eating. And if baby's mouth happened to be open while it slept, well.

How Does It Happen

That Wichita Falls?

Here Is The Answer

Why did Wichita Falls? Because Heli-Etta Anselma Arrow and Bowtie knife. Then she saw Dick Worshamself while in Scotland on the way to Sey Moul of Benjamin, having stopped to look at the new castle in Scotland. While on Tuesday, she expected her friends May Belle and Allen Dale, intending to make a holiday of it. Then again brother Harold and sister Electra, who were on the way from Florida (where they went to get a Plavium of a Mator near Cuba), were due to arrive on Monday while on Tuesday, she expected her friends May Belle and Allen Dale, intending to make a holiday of it. Austin, Texas, June 24.—Over 140 applicants presented themselves today for examination for licenses to practice medicine in this state. Those applying included six women, five Mexicans and six negroes.

TELLS HOW DREAM INFLUENCED LIFE

HON. R. E. TAYLOR OF HENRIETTA SPEAKS AT BAPTIST SERVICE

OTHER NEWS OF CHURCHES

Morning Service To Begin at 10:30 at Baptist Church—Endeavor Delegates Report

The story of how a dream changed the current of his ways and made him an active worker in the church was told yesterday morning by Hon. R. E. Taylor, an attorney of Henrietta, who spoke at the First Baptist Church. The Baptist convention, the story of the laymen in this section and the address by Judge Taylor was the first of a number that is expected to have.

"A Wasted Life" was the subject of Judge Taylor's address and he drew an inspiring and forceful lesson from his theme. The dream of which he spoke, he seemed to be passing through a long canyon whose steep walls afforded no means of egress; finally, when he came to the end, he heard music and found a meeting in progress. This dream, he declared, had been the cause of his life had not been as useful as he could have made it, and since that time he has taken an active and unselfish part in church work.

Men were wasting their lives, said Judge Taylor, by remaining away from regular church services and failing to enlist in religious work, when their services were constantly needed. He spoke of many of the sins of the times and of the necessity for resisting the temptations that beset men on every side. The story of Lazarus and the rich man was recounted by the speaker, who showed the analogy in the lives of many men of the present day.

Judge Taylor said that without the co-operation of the laymen, the church could not gain ground; there were many things, he declared, that a layman could do were a pastor ministered to by the church. An appeal to the laymen to enlist actively in the work of the church. The address was heard with much interest and was deeply appreciated.

The Sunday school of the First M. E. Church will have its annual picnic tomorrow at Lake Wichita and the young people are looking forward to a pleasant time.

Dr. J. W. Hill, pastor of the M. E. Church, South, is in Georgetown in connection with Southwestern University affairs, and Dr. J. L. McKee of the First Presbyterian Church preached at both services yesterday. Two large congregations heard forceful sermons dealing with the crucifixion of Christ.

At the morning service, Miss Elden of Seymour sang a solo and Miss Mabel Simpson sang in the evening, both numbers being very pleasing.

The Baptist Church has changed the hour of its morning service from 11 to 10:30, so as to enable members of the congregation to get home before the heat of the day is at its worst. It is expected that other congregations will follow the Baptist's example.

Chairs for the primary department of the First M. E. Church were purchased last week, and the young people are now in more comfortable quarters.

The M. E. Church, South, is planning to install electric fans to make the auditorium more comfortable during hot weather. The Baptist church has already installed fans.

Jones Found Guilty

The jury in the E. J. Jones case brought in a verdict of guilty at 9 o'clock Sunday morning, after having had the case under consideration for sixteen hours. Jones was charged with pandering. This conviction is one of the first in the State under the new law which makes pandering a felony.

The minimum penalty as fixed by law is five years in the penitentiary. The maximum is one thousand years. In the E. J. Jones case the jury prescribed the minimum penalty.

The Jones case has attracted considerable attention locally. This is the second trial of the case, the jury in the first trial disagreeing, being ten for acquittal and two for conviction. At the first trial, however, the State's chief witness had refused to testify, and this left the prosecution practically without proof of the guilt of the defendant. At the second trial, however, the State's witness, Lillian Powell, showed that she had undergone a change of heart, and her testimony convinced the jury of the guilt of the laymen in this section and the address by Judge Taylor was the first of a number that is expected to have.

The defendant's father, a barber of Elk City, Okla., has done all in his power to secure the acquittal of his son and save him from the pen. The father Jones has been married recently to a woman from the State of Oklahoma. The bride is a woman of Elk City. Mr. and Mrs. Jones are stopping at the Rhodes rooming house on Scott avenue, formerly the Scott avenue rooming house.

Attorneys have been retained to make a motion for a new trial and in the event of the denial of that motion the case will be carried to the appeal court, according to the elder Jones who made a statement concerning the case this morning.

SEVENTY-THREE IRISH MEN IN WICHITA COUNTY

Census Bureau Figures Show That Many Sons of Erin Are in This Section

Every day the Texas spirit of independence is being augmented by the immigration of denizens of the Emerald Isle to the State. And the Irish are generally accredited with making pretty good citizens.

Since the agitation began several years ago in regard to revision of the foreign immigration laws, Uncle Sam has been making a study of the question. He has hired some expert statisticians to ascertain just who was coming to this country and how they "stacked up."

These experts have made reports showing to what states this immigration is mainly directed and what class of immigrants is seeking each particular locality.

The Irish are coming to the Lone Star State at the rate of five per day. They have come to realize the opportunities offered in this State for the thrifty and industrious.

In Wichita county there are now seventy-three of Irish descent, and of this number thirty-one were born in Ireland and forty-one have parents who are Irish all the way through. In 1910 there were 5,355 Irishmen living in Texas, and 7,022 residents of the State had fathers and mothers who are Irish.

JAR-PLANT IS DESIGNED FOR ADDITIONS LATER ON

E. J. Ball of Muncie, Here to Look Things Over, Says Increases Will Be Easy

E. J. Ball, one of the firm of Ball Bros., of Muncie, Ind., which firm is building a big glass plant here, was in town yesterday and today, looking after his interests here.

Mr. Ball expressed himself as highly gratified with the work already completed at the site, and said that Sunday afternoon he had brought the work to a point that would warrant the statement that the plant would begin operations by August 1.

"You certainly have a live town here," said Mr. Ball, "I am surprised at the building activity noticeable every hand. We designed every department of our plant with the idea in mind of making additions later, and since I have seen the town again I am very glad that we did. I believe that our business will soon warrant increased investment in our plant. I was down to the state capitol the other day, and in conversation with some of the state senators I learned that all of them had heard of Wichita Falls and many of them had kind words for her citizens and her evidences of progressive ness."

NOTICE

In re the estate of J. T. Nelson, deceased.

Pursuant to an order of the probate court of Choctaw county, Oklahoma, I will sell at private sale the following personal property belonging to the estate of J. T. Nelson, deceased, to the highest bidder for cash:

Twenty (20) shares of the capital stock of the First State Bank and Trust Company of Wichita Falls, Texas, of a par value of \$100.00 per share. Sealed bids will be received by me up to and including the hour of 1 o'clock p. m., July 5th, 1913, to be opened in the office of County Judge W. T. Glenn.

Bids must be accompanied with a certified check for 10 per cent of the amount of the par value of said stock. The right is reserved to reject any and all bids.

A dividend of \$100.00 will be due on the above stock in August, 1913.

J. J. NELSON, Administrator.

RIVER BED SAND RIGHTS DECIDED

FEDERAL COURT DECISION GIVES LAND OWNERS CONTROL OF IT

WICHITA NOT NAVIGABLE

State Law, Federal Court Decides Stream Is Not Used for Navigation Purposes

The Big Wichita River has been officially declared a non-navigable stream. All steamboat pilots and captains are hereby warned that if they attempt to make the passage they do so at their own peril. Also, all sand dealers are hereby notified that if they want any sand hereafter they will have to pay some land owner for it unless they confine their digging strictly to that part of the river which lies directly in a street or other public highway. A decree to this effect has been issued out of the federal court at Dallas.

Had Asked Injunction.

The decision is in the case of Mrs. Nettie C. McIntyre vs. J. A. Woods, J. C. Oats and W. L. Johnson. The suit was brought by the plaintiff to establish her right to the sand in the river extending from her property line out to the middle of the stream. She sought an injunction restraining defendants from taking sand from the bed of the river without paying "abutting" property owners for same. The injunction was granted. The decision is of wide importance. Nearly all of the sand used in building in Wichita Falls is sand taken from the Big Wichita River bed. Heretofore it has been the custom of those wanting sand to go down to the river and get it without asking any questions, except as to the way to the river had to be granted.

Laws in Conflict.

Texas has a state statute declaring the Big Wichita a navigable stream. This is because the Big Wichita is more than thirty feet wide. But this law was passed more as a means of guiding surveyors in their work than in anything else. The intent of the statute is apparent in that it uses the stipulation as to width only, and not to depth. A stream might be as wide as from here to the depot and yet not deep enough to float a raft with a five inch draught, so of course would not be literally navigable. The federal court takes a different view of the matter. According to federal laws a stream is not navigable unless it is literally navigable, and will permit the passage of freight and passenger bearing steamers. Were it a navigable stream, the sand would be open to anyone wanting it.

But, insofar as the sand is concerned, that part of the street or other public highway extending into the river is public property, and they are not allowed to shoot at you for digging the sand and hauling it away. W. F. Weeks was attorney for Mrs. Nettie McIntyre in the suit.

STAMPFLI FOUNTAIN, OPENS; LITTLE FOLKS ARE GUESTS.

Several hundred boys and girls were guests of the Stampfli at the Cream Bakery yesterday and each enjoyed a dish of the cream of the fountain, as his or her fancy dictated. The occasion was the formal opening of the fountain for the little folks, and that they enjoyed the occasion was evidenced by the happy smiling faces that gathered around the soda fountain. A little later Mr. Stampfli expects to have an opening for the men and women of the city.

Deaths Filed for Record

Darlie Blair to O. A. McWhorter, tracts of land adjoining townsite of Burk Burnett, \$2800.
T. S. Ford to John R. Mackochney, one-half lot 1, block 4, Bellevue addition, \$1825.
Clay Britte to Fred Carter and Fred Morris, lot 13, block 21, Floral Heights, \$2250.
W. W. Hall to J. W. Nicholson, Arlan Nicholson and Kelly Nicholson, lot 10, Bellevue addition, \$2000.
N. C. Fitch to H. P. Parrish and O. L. Parrish, part of lot 7, block 18, B and J addition, \$1500.

FIRE FACILITIES TO BE MATERIALLY INCREASED

Purchase of Another Engine is to be Made in Finance Permit—Number of New Hydrants

At least ten additional fire hydrants and probably another fire engine, will be added to the city's fire fighting facilities, if plans are carried out. The fire hydrants are to be installed in connection with the new water mains which the water company is now putting down and are being located this afternoon by a committee which includes Mayor Bell, Aldermen Bradley and Reed, and Driver McClure of the "Bubble." It is probable that other fire hydrants will be provided for later by the council and water company.

Plans for the purchase of another fire engine, to be stationed somewhere in the western part of the city where it can readily reach residences fires are taking form and the equipment will be purchased if the council can figure out how to finance it. The finance committee of the council now has this matter in hand. Some of the estimates that the new machine would not be delivered before the first of next year and that by that time the city will be getting in enough tax collections to pay for it.

SUKEY'S DEPREDACTIONS CAUSE MUCH COMPLAINT

Cows With Insufficient Escort, Doing Damage to Lawns in Floral Heights

Residents of Floral Heights in particular and of the city in general have complained recently of the depredations of cows which are now being kept under sufficiently strict surveillance, it is claimed. "The city is looking into the matter and will probably make some arrests if it is found that the ordinance is being violated. Under the city's ordinance, stock is not running 'at large' as long as there is one attendant to every five cows. The trouble is that the attendant who takes Sukey home from pasture is usually a smart boy whose mind is so intent on next week's Sunday school lesson or some other pressing matter, to notice whether his cows are helping themselves to somebody's rose bushes.

It is possible that the ordinance will be amended so as to limit the number of cows still more, in the hope of putting an end to the damage. One Floral Heights man lost a pair of peach trees through the activities of a neighbor's cow. The neighbor being a good friend of his and a considerably larger man, he took his complaint to the city authorities.

HENRY CONFERS WITH WILSON ON CURRENCY.

By Associated Press. Washington, June 25.—Representative Henry of Texas, who recently made a speech proposing that the money trust inquiry be renewed, had a conference today with the president. Mr. Henry would not discuss his bill, but White House officials said he and the president had reached an understanding on the currency question.

OFFICERS INSTALLED BY MASONS TUESDAY NIGHT

Blue Lodge, Chapter and Council Induct New Officers into Their Positions

Three branches of local Masonry held installation exercises last night. The following officers were installed by Wichita Falls Lodge No. 635 A. F. & A. M.: J. O. Smith, W. M.; N. M. Clifford, S. W.; W. Y. Hammon, J. W.; J. D. Davis, treasurer; C. R. Frier, secretary; W. A. McCarty, S. D.; H. G. Dakan, J. D.; S. W. Jonte, Tiler; J. W. Carithers, S. S.; G. W. Lawler, J. S.

Wichita Falls Chapter No. 202 Royal Arch Masons installed the following officers:

R. C. Smith, H. P.; W. A. McCarty, E. K.; S. W. Jonte, E. S.; W. Lee Moore, treasurer; E. V. Frier, secretary; Frank Collier, C. O. H.; J. O. Smith, P. S.; N. W. Self, R. A. C.; E. W. Chin, S. V.; N. Henderson, S. V.; W. J. Garner, I. V.; J. W. Walkup, guard.

New officers of Wichita Falls Council No. 140, R. A. M., also installed last night are: J. W. Walkup, T. I. M.; Frank Collier, I. D. M.; C. W. Richolt, I. P. C.; W. W. Lee Moore, treasurer; E. V. Frier, recorder; W. W. Gardner, C. O. G.; G. W. Lawler, C. O. G.; W. J. Garner, Steward; J. D. Davis, Sentinel.

CONSTITUTIONALISTS ON THEIR WAY TO LAREDO.

By Associated Press. Eagle Pass, Texas, June 25.—Constitutionalist troops began moving south by train from Piedras Negras this morning, their destination ostensibly being Laredo. About 1500 men, including an artillery battery, will go from Piedras Negras. Later Governor Carranza will take personal command.

STATE APPROVES POLICY CREDITS

WICHITA FALLS POLICY HOLDERS OF 1913 WILL GET REFUND

BASED ON LOCAL LOSSES

Premiums Paid Here in Past Three Years Fare in Excess of Policies Cashed

If you have paid \$100 premium on an insurance policy taken out since January 1, 1913, you can get nine dollars of it back, by simply reminding your insurance agent of the fact. Also if you take out any insurance between now and January 1, 1914, you will get a reduction of nine per cent.

This rebate is a result of the good fire record of Wichita Falls during the past three years. A state law makes provision for such refund where the receipts in premiums paid to insurance companies exceed the losses and operating expense to a certain percent. Local agents have received a bulletin approving of Fire Marshal Ward's figures as follows:

Bulletin Is Received.

A statement showing that the loss ratio of Wichita Falls for the years 1910, 1911 and 1912 is .431, has been filed with, and has been checked and approved by the State Insurance Board. Under amendment No. 25 to the Texas General Basis Schedule this record entitles Wichita Falls to a credit of nine per cent which local agents are to deduct from the final rate on all policies written on, or after January 1, 1913, to December 31, 1913 only, and covering property located within the corporate limits of Wichita Falls.

"Policies taking effect prior to January 1, 1913, are not affected, or to be distributed, except by cancellation in strict accordance with the terms and conditions of the policy."

"This credit does not apply to policies written on or after January 1, 1914."

Fire Marshal's Figures.

The figures compiled by Fire Marshal Ward, and which have now been approved by the State Insurance Board, show that the amounts paid in premiums in Wichita Falls during the last three years, was as follows:

1910—\$19,020.49.

1911—\$57,538.85.

1912—\$83,123.02, this being a total of \$159,782.35.

The losses during three years were:

1910—\$20,210.53.

1911—\$41,289.64.

1912—\$29,374.18.

Total—\$90,874.35.

Excess in premiums—\$107,799.46.

BRIDE MISSING, POLICE CALLED, THREE ARRESTS

Groom Asks Officers to Find His New Wife, Who is Located With Another Man

A bridegroom of a day put in an appearance at the police station last night and, excitedly, demanded that the officers locate his wife. He said that she had gone with another man. She had. The officers finally located the three principals, the bride and the mysterious stranger being in the company of each other. The husband finally induced his "spouse" to return to his embrace, but so much of a row was kicked up in accomplishing this happy end, that all three were arrested. Boozie had figured in the affair to a large extent.

PRESIDENT'S NOMINATION OF NICHOLSON WITHDRAWN.

Washington, June 25.—President Wilson will withdraw his nomination of Meredith Nicholson, the Indiana novelist, to be Minister to Portugal. When objections were raised to the nomination on the ground that Nicholson was not a "good democrat" the novelists urged the president to withdraw his name if it embarrassed him politically, but the president declined to do so. Mr. Nicholson has insisted on the ground that he cannot take his family abroad.

CHARLIE SWAIN AND HER WARDEN APPEAR IN COURT

Local Negress Who Makes Specialty of Adopting Pickaninnies Is Witness

When the witnesses gathered for a case in police court yesterday afternoon the gathering looked like the overflow meeting of a colored revival. It all happened as a result of "Charlie" Swain being summoned as a witness. She is a negress who is considerable of a philanthropist among her own people. Her specialty is the care, support and uplift of abandoned pickaninnies. Whenever the number of arrivals in a family has reached the point that makes the cost of the pork-chops equal the wages of the head of the family, some of this surplus is turned over to Charlie. And sometimes she picks up wandering pickaninnies who are like Tommy—had no parents but just grew up.

All of these are taken under her sheltering wing and given as much of a home as she can afford to give them. And wherever she goes those pickaninnies are sure to go. If the leaves them at home they may burn the house down or throw rocks through white folk's windows, so she has to take them all with her. And she now has half a carload under her care. The whole outfit followed her to police court today and when they began to "arrive" everybody else began to vacate, not knowing the nature of the event, and not desiring to take any chances until they did know.

VERDICT OF GUILTY IN ORTH CASE IS RETURNED

"Persecution, Not Prosecution," Says Defendant—Will Carry It To Higher Courts

After having had the case under consideration for about fifteen hours, the jury in the T. R. T. Orth case brought in a verdict of guilty at 11 o'clock this morning.

The defendant was charged with knowingly permitting a bawdy house to be conducted on premises owned by him. The law fixes only one penalty, a fine of two hundred dollars and twenty days in jail. To a Times reporter this afternoon, Mr. Orth said: "This is a case of persecution, not prosecution. I am innocent and will fight the case to the finish. Mr. Huff, one of my attorneys, became ill during the trial and Mr. Baillington had to step into the middle of the case and carry it through. I was denied a continuance in order that I might get Mrs. Carson, one of my most important witnesses, here from the hospital. We will file a motion for a retrial and in the event of its refusal will carry the case to the supreme court."

The case has been on trial for more than a week. Nearly every police and county officer was called in as a witness.

RAILROAD INTANGIBLE VALUES ARE INCREASED

Wichita Falls Railway—Increased from \$475,940 to \$598,000.

Wichita Falls & Northwestern—Increased from \$171,000 to \$601,500.

Port Worth & Denver—Increased from \$9,536,940 to \$9,991,980.

Wichita Valley—Increased from \$1,445,161 to \$921,600.

The above changes in the intangible values of the railroads entering Wichita Falls have been announced by the State tax board. The Katy properties are heavily increased, the Denver slightly advanced and the Valley properties decreased. The increases and decreases are ordered as the net earnings of the roads gained or declined during last year. The total intangible value of railroads of Texas is \$163,092,026, an increase of \$5,502,248. There were a number of roads whose values decreased, but the most notable increase in the entire list being in the Northwestern and the Wichita Falls Railway, both Katy properties.

PHONE SERVICE TO BE IMPROVED

DIVISION SUPERINTENDENT HENDERSON MAKES THAT PROMISE TODAY

HAVE HAD MUCH TROUBLE

Says That Many Circumstances Have Combined to Impair Service Recently

"The telephone service in Wichita Falls will be improved at once. We have had much to contend with in the past three months. I do not say this in extenuation of any poor service the people of this city may have had, but I say it in explanation of the impaired service. We have now completed the major portion of the work which has been hampering us and I can promise a betterment of the service at once."

The above statement was made today by J. F. Henderson, division superintendent of the Southwestern Telephone Company. Mr. Henderson had come to Wichita Falls to confer with Councilman Bradley, who was recently appointed a committeeman of the council to make complaint to Mr. Henderson about the local telephone service.

Mr. Bradley had been called out of town and Mr. Henderson was unable to see him but said he would make another trip to this city in the near future and that he hoped to be able to talk with the directors of the Chamber of Commerce and with councilmen at that time.

Has New Equipment.

Mr. Henderson said that new cables had been laid recently, new and additional equipment added in the central station, and that the work of installing these improvements had necessarily impaired the service.

"The thing we have to contend with is this," said Mr. Henderson, "the average number of calls daily from each telephone is ten. That gives each subscriber ten opportunities a day to feel the poor service. If the service be poor, yet he can never see past the telephone and understand the conditions under which we are striving to give good service. When a man goes into a restaurant and has to wait an hour for his order to be served, he can understand why the service is poor—he can see that every waiter is being rushed to the limit. If he has to wait three hours for a train, he takes it philosophically as he knows the bridge has been washed out."

"But when he has trouble getting 'central' he cannot see how busy she is and what adverse conditions she is contending with. Hence he has no patience with poor telephone service. Since March 1 we have put in 300 new phones, have taken out 120, have moved 448, and have changed 55, making a total of 932 changes. Since May 1 we have put in 105 and so far in June have put in 59 new phones. All of this means work and a temporarily affected service. But the service will be improved from now on."

SEEKING REMOVAL OF YOUNG COUNTY SHERIFF

Judge Martin Will Hear Evidence at Newcastle July 2—Several Charges Made

Judge P. A. Martin will hear on July 2 the trial of Sheriff A. H. Brown of Young county, who is charged with drunkenness, incompetency, and assaults upon citizens. His immediate removal is asked in the petition. The trial will be held at Newcastle.

If sufficient evidence to sustain the allegations is introduced, Judge Martin will remove the sheriff from office and appoint an officer to act until final disposition of the case.

Mineral Wells—The commissioners of Palo Pinto county have set aside \$2,500 for post roads, making \$5,000 in all against \$5,000 raised by the city of Mineral Wells.

"MAN HIGHER UP" IN ROOMING HOUSE NABBED

Alleged Robbery of Some of the Guests Results in Arrests by Police

Through some clever work on the part of Night Officer Somerville, there is now every indication that a "higher up" will soon have to answer for some of his operations in Wichita Falls, and in which some innocents have become victims.

Suspecting some time ago that all was not as it should be in a downtown rooming-house, Policeman Somerville began some investigations on his own hook and elicited a little outside aid to carry on his investigations.

As a result, when a "job" in the way of a high-handed robbery was pulled off not more than three days ago, Somerville not only had the "dope" on the guilty parties, but so managed his end of the business that he secured confessions from those who have been used as tools and implicating the man at the top.

The evidence he has in his possession and which was turned over to the district attorney this morning, it is said, will look mighty strong when laid before a jury.

The officers feel that Somerville's work has at least put a stop to the high-handed operations and with the information in their possession which today's case brought to light, they will be enabled to cope with any further attempts at such business in the same quarter.

LESS THAN \$10,000 LIFE INSURANCE PAID HERE

Figures For 1913 Show No Large Policies Cashed in This City During the Year

Less than \$10,000 was paid to life insurance policy beneficiaries in Wichita Falls by old-line companies during the year 1912, according to figures furnished by the Life Insurance Press of New York. This is considered an unusual showing for a town this size and would indicate either that Wichitans do not die very regularly or that they do not carry much insurance when they do. In the list of towns in which over \$10,000 was paid to beneficiaries are many towns smaller than Wichita Falls.

The figures for the larger cities of the state follow:

Dallas \$406,750

San Antonio 387,750

Houston 308,750

El Paso 295,500

Galveston 174,500

Austin 169,250

Fort Worth 134,000

Waco 105,750

The same publication gives figures based on the physical descriptions of its policy holders, showing that the average man in the United States and Canada is five feet, eight and a half inches tall and weighs 157 pounds; the average woman is five feet and a quarter inches tall and weighs 136 pounds.

"According to the compilations," said the Press, "the human race on the North American continent is not increasing in weight nor changing in stature materially."

HARVESTS DEPOPULATE CONSTRUCTION CAMPS.

Chicago, June 25.—Hundreds of section hands and men employed in construction camps have quit to accept more lucrative jobs in the harvest fields of Kansas and Oklahoma. It was learned today at the offices of western railroads.

Many contractors had anticipated the stampede of their men to the fields and had placed electric planes and dancing floors in camp, but this scheme has not stopped the exodus.

Notice.

The Farmers' Institute will meet on the 28th inst. at 2 o'clock p. m. at the Chamber of Commerce rooms; for the purpose of electing delegates to Farmers' Congress to convene at College Station July 31, 1913.

Southwestern Telephone and Telegraph Co., DALLAS, TEXAS.

THIS IS CERTAIN

The Proof That Wichita Falls Readers Cannot Deny

What could furnish stronger evidence of the efficiency of any remedy than the test of time? Thousands of people testify that Doan's Kidney Pills have brought lasting results.

Home endorsement should prove undoubtedly the merit of this remedy. Years ago your friends and neighbors testified to the relief they had derived from the use of Doan's Kidney Pills. They now confirm their testimonials. They say time has completed the test.

P. W. Nolen, 1100 Indiana St., Wichita Falls, Texas, says: "I got Doan's Kidney Pills at Harrington's Drug Store and was relieved of pains across my kidneys that had made every move one of misery. In the morning the trouble was worse. Doan's Kidney Pills relieved me and I consider them a fine remedy for regulating the kidney action and removing trouble with the kidney secretions. I willingly confirm the testimonial I gave some years ago."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

CAUCUS TO RUSH WORK ON TARIFF

CLOTURE RULE IS ADOPTED LIMITING DEBATE ON THE MEASURE

PLANS FOR RETALIATION

President Will Have Authority to "Hit Back" in Matters of Countervailing Duties

By Associated Press. Washington, June 27.—Senate democrats put the cloture rule to a vote today. They are determined to complete consideration of the tariff bill for the report to the Senate next week.

Having spent hours yesterday on one paragraph which was not completed when adjournment was taken, it was evident that the caucus would be prolonged unless discussion was checked. Resolutions were adopted to limit debate on each item and deny any senator the right to speak more than once on any subject.

Countervailing Duty. Aspin today the countervailing duty on wheat and flour was first taken up with the general countervailing duty amendment to give the president power to retaliate against all nations for discrimination against the United States on any commodity.

It was at yesterday afternoon's session that the urgent desire to arm the president with a tariff "big stick," one of stronger and greater proportions than provided in the amendment suggested by the finance committee majority, developed in the caucus.

Discussion of the proposed countervailing duty on wheat and flour which the committee recommended, led to a general debate on retaliatory and countervailing tariff rates and Senator Hoke Smith of Georgia urged the adoption of an amendment that would give the president power to enforce countervailing tariff rates on any nation refusing to deal with the United States on a reciprocal tariff basis.

Payne-Aldrich Improvement. The amendment proposed would in many respects take the place of the maximum and minimum clause of the Payne-Aldrich tariff law, but Senator Smith advocated a provision that would be broader than that one that would give the president the authority at any time to impose against any nation which might discriminate against the products of the United States the same tariff rates exacted on American goods. Such a clause in the tariff bill, it was argued, would place the United States in a position to defend the country against any unreciprocal action or attempt to shut off its foreign trade.

Discussion of the proposal was spirited, strong opposition developed at once. Among the senators who attacked the idea were O'Gorman, Wood and Marine. Debate was waxing warm when the caucus was forced to recess for the afternoon session of the Senate. The amendment recommended by the committee is not a countervailing proposition in the strict sense, providing only that the president should proclaim certain fixed rates against foreign nations on a limited number of specified commodities in cases of discrimination against this country. This Senator Smith and others did not consider comprehensive enough.

SUES OFFICERS FOR "ILLEGAL" IMPRISONMENT. Hillsboro, Texas, June 27.—Suit has been filed in the district court by E. L. Smith, who formerly resided near Blum, against C. E. Pease, constable, his bondsmen J. W. Freeman, wood sheriff and his bondsmen for \$15,000. Smith charges that he was illegally arrested as a fugitive from justice from Georgia. He claims that the officers could have found out the truth of his statements at the time of his arrest by telegraphing to his old home at Marietta, Ga.

He was arrested March 25, 1913 and held in jail until April. The case will be tried at the next term of court.

HAILSTORM DAMAGES CROPS IN NEBRASKA

Lincoln, Neb., June 27.—A hail and windstorm swept over Central Nebraska last night, damaging crops. Telephone and telegraphic lines are down and meager reports reaching here estimate the damage at \$100,000. The storm was followed by general rains over southern Nebraska, benefiting crops where no hail fell.

PERIOD OF SEVERE HEAT IN SIGHT FOR CHICAGO

Middle West Has Some Intensely Hot Weather Coming: Says Weather Bureau

By Associated Press. Chicago, June 27.—Intense heat with no relief in sight for several days, is predicted for Chicago and the Middle West in a special bulletin issued today by the weather office here. The temperature was eighty-eight at 9 o'clock this morning.

JAPAN HAS NEW GRIEVANCE NOW

DRIVING OF KOREANS FROM CALIFORNIA TOWNS MEANS MORE REPRESENTATIONS

JUSTICE WILL BE ASKED

State Department Will Ask Governor Johnson to See That Proper Action is Taken

By Associated Press. Washington, June 27.—Just a small incident in itself, but very disturbing nevertheless is the preliminary official estimate of the affair at Hemet, California, yesterday involving the forcible expulsion from the community of a band of Korean pickers. It is expected that the incident will be the subject of future representations by the Japanese ambassador as soon as he has been advised by the acting consul general at San Francisco of all the facts. Then it will be incumbent on Mr. Bryan to transmit any complaints to Governor Johnson with the information that the president looks to him to see that justice is done.

Beyond that it is scarcely possible to go at this stage at least. Secretary Bryan said that the State Department would make an important investigation for itself.

By Associated Press. Hemet, Cal., June 27.—Officials of this place were worried today as to the probable outcome of the incident yesterday when the Koreans were driven out of town by white field laborers who resented the employment of the foreigners. The Koreans were imported, it was said, by fruit growers, because they offered to pick fruit for two to three cents a box cheaper than white men.

The Asiatics were engaged by ranchers near Hemet. After they had been driven out, the employing ranchers told the Hemet men that the Asiatics were Koreans. The exclusivists replied that Hemet wanted neither race within its borders.

Business men joined Mayor H. G. Shaw in a statement deploring the action of the citizens who drove the Koreans out of town. While prominent citizens of the place declared they were not in sympathy with the Japanese, they asserted that the expulsion of the Koreans was illegal, therefore to be condemned.

In a communication from Los Angeles P. A. Wakabayashi, secretary of the Japanese Association of Southern California said Japanese would avoid any place where they were not wanted and that the Koreans would not have precipitated the incident had they known of the feeling in Hemet.

Official Program for Reunion at Gettysburg

OFFICIAL PROGRAM FOR REUNION AT GETTYSBURG

List of Speeches and Other Features of Veterans Meeting is Made Public

Pittsburg, Pa., June 27.—The official program of the celebration of the fiftieth anniversary of the battle of Gettysburg was completed today. Principal ceremonies as apportioned to the several days were:

Veterans' Day July 1.—Col. J. M. Schoenmaker, chairman of commission, presiding; opening prayer by Rev. George Edwards Lovelock, chaplain in chief of G. A. R.; address by Secretary of War Garrison; address by Alfred B. Beers, commander in chief of G. A. R.; address of welcome by Gov. Tener; address by H. Young, commander in chief of U. C. V.; prayer by Rev. Hamill, chaplain general of U. C. V.

Military Day Wednesday, July 2.—Col. Andrew Cowan, Louisville, presiding; address by Major General John H. Brooke of Pennsylvania in the battle; address by Northern forces in the battle; address by Sgt. John Scarborough of North Carolina, representative of Southern forces in battle; reading of Lincoln's Gettysburg cemetery dedication speech by Mr. Bulkeley; address by Gen. John C. Black.

Governor's Day July 3.—John K. Tener, Governor of Pennsylvania, presiding; address by Gov. Tener; address by Gov. James B. McCreary, Kentucky; reunion of Philadelphia brigade and Pickett's division at the Bloody Angle.

No set program has been arranged for the Fourth of July.

CONVERTED TABLE SPOON INTO KEY AND ESCAPED

By Associated Press. Fort Worth, Texas, June 27.—The mystery of the escape of eight women prisoners from the city jail was solved this morning when one of the fugitives was captured. She told how an ordinary table spoon was converted into a key with which the cell door was unlocked. Only one of the women has been captured.

LIVESTOCK CONVENTION OPENS AT ST. JOSEPH

St. Joseph, Mo., June 27.—Livestock men from all over the country were here today for the opening session of the Twenty-fifth annual convention of the National Livestock Exchange, which began with the address of the president, Abel F. Daley of this city.

"DON'T GIVE UP THE SHIP!" PERRY'S FAMOUS FLAG PLAYS BIG PART IN 100TH ANNIVERSARY TOMORROW

Toledo, O., June 27.—After 100 years Commodore Oliver Hazard Perry's battleflag has been brought back to Lake Erie's shores. Secretary of the Navy Daniels ordered it sent to the Perry Centennial exposition which is scheduled to open at the Toledo Museum of Art June 28.

On the field of the flag are the words "Don't give up the ship," the last command of Captain Lawrence of the Chesapeake. Perry carried the flag from his demolished flagship to the Niagara in a hall of British shot and under it turned the tide of battle. The Rhode Island Historical Society of Providence, R. I., has sent the coat worn by Perry in the battle and among the many other historic relics brought together at the Toledo museum are the sword, medals, the silver services and other gifts presented to Perry by congress, by Boston Philadelphia and other cities. There will be four notable portraits of Commodore Perry in the exposition—one by Gilbert Stuart, lent by O. H. Perry of Lowell, Mass. (shown in the accompanying illustration); the one from the Hall of Records, Manhattan, painted by Jarvis in 1814, and those which have hung in the Smithsonian Institution, Washington, and

the Naval Academy, Annapolis. Many notable portraits of those prominent in the war of 1812 have been brought together, including those of Commodore Decatur, Hull, Bainbridge, President Madison, James Monroe, their secretary of peace commission and others. Many historic paintings of the Battle of Lake Erie are to be shown, including the one by Powell from the capitol at Columbus, Ohio, and the famous painting of Perry leaving the Lawrence by Thomas Birch. Many other notable American painters past and present will be represented in the exposition, including Gilbert Stuart, John Vanderlyn, John Wesley Jarvis, Thomas Sully, Samuel Finley Breese Morse, Samuel Waldo and Carlton T. Chapman. Exhibits have been lent by the city of New York, the Metropolitan museum, the Smithsonian Institution, the Army and Navy club, Washington; the navy department, the Naval Academy, the Rhode Island Historical society, the Larchmont Yacht club, the state of Ohio and from the private collections of Hon. Elihu Root, Hon. Seth Low, James Barnes, Charles Harbeck, H. L. Pratt, Max Westendorp and the various descendants of Commodore Perry.

DOCTOR SAYS CITY NOISE CONDUCTIVE TO INSANITY

MEXICAN RECEIVERSHIP REPORT MEETS DENIAL

National Railways Not in Any Financial Difficulties That Wall Street Knows of

By Associated Press. Chicago, Ill., June 27.—Strenuous, high-pressure life of the cities accounts to an extent for insanity in this country, according to Dr. Jno. A. Lewis of Reno, Nev., who spoke at the National meeting of alienists here.

"Take a rustic who is mentally deficient and let him drift along in the simple life of the country and nothing unusual will be observed in him," said Dr. Lewis. "Place him in the hurly-burly of the city and the dormant elements of insanity will develop rapidly."

A resolution was adopted calling on State Legislatures to make sterilization of the feeble-minded, epileptics and criminally insane compulsory.

The incessant noise of the downtown district of Chicago has a distinct effect on Chicagoans. Dr. Chester King of Atlanta, Ga., last night told the conference.

"The downtown portion of this city within the radius of the elevated loop is a quagmire of more noise and longer continued noise than any similar area in the world," declared Dr. King.

The discussion of this subject by the alienists was welcomed by the council health committee, which now is studying means of suppressing needless noises.

EIGHTY SOCIAL CLUBS ARE REPRESENTED AT GALVESTON

By Associated Press. Galveston, Texas, June 27.—Delegates from about eighty social clubs of Texas numbering 10,000 began a two days' convention here this morning. They plan to adopt measures for the protection of the "legitimate" clubs against adverse legislation and to promote the higher interests of the organization.

WOODMEN CLOSE PICNIC TONIGHT

LARGE CROWDS IN ATTENDANCE AT TWO DAYS' CELEBRATION

BARBECUE SERVED TODAY

Many Visitors From Neighboring Towns Here for Events and are Well Entertained

The first annual celebration of lodge number 3001, Woodmen of the World, will come to an end tonight and practically all of the visiting Woodmen will leave for their homes. Three days have been spent by the local Woodmen and their friends from nearby towns in picknicking and enjoyment, and the success of this year's affair insures that a similar holiday will be taken by the members of the lodge each year in the future.

Following dinner yesterday afternoon, the Woodmen and their friends attended an exciting ball game participated in by Olney and Archer City, and although the final score resulted in a victory for Olney to the tune of 12 to 0, the game was not as uninteresting as the count would seem to indicate. Olney and the Wichita Clerk's team will fight it out this afternoon for the championship, which involves a cash prize.

Following the ball game a competition was scheduled to be held for the purpose of selecting the best drilled team among the Woodmen. The reputation of the Wichita Falls team had spread to the visitors, however, and it was conceded that the local team was entitled to the medal. All doubt concerning the superiority of the respective teams having been settled, the Woodmen were entertained for some time by wild west stunts that were staged for their benefit by a wild west show at the lake. Among the most interesting events were "cigar races," bronco busting, fancy roping, etc. Some of the same stunts will be repeated this afternoon, and some new events have been promised that are said to be thrillers.

Large Crowd Last Night. Street car men stated today that one of the largest crowds that has been out to the lake this season was there for the dance last night.

Speeches will be made at the lake on the picnic grounds this afternoon by Hon. R. E. Taylor of Henrietta and several others and the Olney-Clerk's ball game, in connection with the swimming pool, boats, and other things will furnish diversion enough for all who attend.

Barbecue along with the usual trimmings was served for dinner today, and the presence of several cold drink booths and novelty stands testified to the large number of people who have been attending. It is probable that in all more than five hundred Woodmen have been present at one time or another and practically all of the brought along their wives and children.

John F. Stillwell, district organizer, has been in charge of arrangements for the three days celebration, and he and his assistants should be well pleased with the success of their efforts in the matter. The dance to-night at the pavilion will bring the celebration to a close and it is expected that enough people will attend to keep the floor filled until a late hour.

Visitors have been in the city from Henrietta, Olney, Archer City, New Castle, Byers and practically every town surrounding Wichita Falls. Local Woodmen have worked hard for the success of the celebration and their efforts have not been in vain.

ORGANIZE NEW OIL COMPANY AT HILLSBORO

By Associated Press. Hillsboro, Texas, June 27.—The Hillsboro Petroleum Oil & Gas Company has been organized here, with the following officers: J. C. Hale of Houston, president; V. L. Shurtleff of Hillsboro, vice president; H. W. Marshall of Hillsboro, secretary.

The company has a lease on 140 acres of land in the Electra field and a well has already been sunk to a depth of 200 feet.

With the exception of that owned by Mr. Hale, all of the stock is held by Hillsboro parties.

ARREST DREW CAMINETTI ON NEW INDICTMENT

San Francisco, June 27.—Drew Caminetti, son of Immigration Commissioner Caminetti, whose escape after a long prison term on a bench warrant issued after his indictment on a charge of having deserted his minor children. He gave bond of \$2,500.

MOTOR LAUNCH UPSETS: SIX PERSONS DROWN

By Associated Press. Edmonton, Alberta, June 27.—Six persons were drowned when a motor launch upset in the river here last night.

SHOOTING NEAR CLARKSVILLE, ONE ARREST IS MADE

By Associated Press. Clarksville, Texas, June 27.—A white man named Barber running a store north of Clarksville, was shot and killed this morning. Jessie Welch, a farmer, was arrested.

STATE KNEW OF REORGANIZATION

JOHN SEALY IS WITNESS TODAY IN OIL PENALTY CASE HEARING

DAVIDSON GAVE ADVICE

Attorney General Informed That Standard Oil Men Would be Stockholders in Concern

By Associated Press. Galveston, Texas, June 27.—The Galveston end of the Texas oil penalty hearing began today when John Sealy of Galveston, president and trustee of the Magnolia, on the stand.

No Objection To John D. Rockefeller, Mr. Sealy said he was told, provided he held as an individual.

Mr. Sealy testified that he bought the properties of the Security Oil Company and the Navarro Refining Company from the latter of which the Magnolia Petroleum Company was evolved on the assurance of Attorney General Davidson and Assistant Attorney General Lightfoot, that the laws of Texas were not being violated. Mr. Sealy said he was told several persons would be interested in the new company including Standard Oil men and he agreed to buy the property only on condition that such stockholders come in as individuals and not as representing the Standard interest.

This assurance was given orally and the fact was laid before the State legal department which found no objection. Not satisfied with oral assurance, Mr. Sealy, it appeared from the testimony and letters read demanded a written statement from H. C. Folger Jr. and John D. Archbold that they did not hold their Magnolia stock in trust for the Standard Oil Company. Mr. Folger wrote at one time that he doubted whether such statement could be secured from Mr. Archbold. "Because a man naturally is cautious about such things" but such letters were actually secured later.

Mr. Sealy said he is president of the following companies: Galveston Wharf Company, Galveston Gas Company, Texas Land and Loan Company, Texas Guarantee and Trust Company and vice president or treasurer of more than a dozen others. He described how the purchase of the Navarro Refining Company and the Security Oil Company had been proposed to him by E. R. Brown after the companies had been ousted.

He refused to have anything whatever to do with the proposition, he said, until he had the assurance of Attorney General Davidson and Assistant Attorney General Lightfoot that the deal would be legal and satisfactory to the State. He said a partnership had been formed to buy and operate the property and the State's real department was informed that some Standard Oil men would be interested as individuals. This would be satisfactory, the attorney general said, and if the company did anything wrong, the attorney general's department would be there to stop it.

MANY AND VARIED VIEWS ON CURRENCY QUESTION

Those Preparing Bill Receive Widely Differing Suggestions as to Country's Needs

Washington, June 27.—Officials engaged in the preparation of the new currency reform bill are convinced that Americans have more varied ideas upon the monetary question than any other before Congress. Floods of letters have come to the House and Senate currency committees and the executive departments since the general scope of the bill has been made known. The writers propose various ways to add to the Nation's "stock of money and to make easier for the public to get hold of it."

A representative of the "people's power league" recently proposed to a senator directly to citizens non the value of land and other property an individual might own. Another proposition was that building and loan associations should be taken in under the new currency plan and have the same right as National and State banks, to secure the proposed new currency.

Many suggestions have been made for the establishment of some sort of farm land values—upon which the government could advance money. One scheme offered calls for a direct issue of currency under proper safeguards upon farm land values. Loans by the government to farmers at four per cent upon their land was proposed by another man.

SQUALLS ON TEXAS COAST PREDICTED FOR TODAY

By Associated Press. New Orleans, June 27.—Squalls along the Texas coast from Corpus Christi to Brownsville are forecast for today and tonight in a special warning issued by the local weather bureau. A disturbance now off the mouth of the Rio Grande probably will move northward accompanied by dangerous winds.

WOMAN WHO KILLED HER HUSBAND IS ACQUITTED

Mrs. Margaret L. Shieber is Acquitted—Found Husband in Another Woman's Apartments

By Associated Press. Memphis, Tenn., June 27.—Mrs. Margaret L. Shieber accused of murder in the second degree in connection with the death of her husband, Augustus Schieber, a wealthy lumberman, was found not guilty today. Mrs. Shieber shot her husband when she found him in another woman's apartment.

IMPERSONATIONS OF CONGRESSMEN

WALL STREET MEN SUMMONED BEFORE LOBBY INVESTIGATING COMMITTEE

NAMES OF MEMBERS USED

Representatives are Quoted in Alleged Attempts to Secure Influence With Financial Interests

By Associated Press. Washington, June 27.—Subpoenas will be issued by the Senate lobby investigating committee for Lewis J. Ledyard and Paul Cravath, New York attorneys, and for David Lamar, a Wall Street man, to appear next week in connection with the investigation of the charge that the names of congressmen are being used to secure influence with financial men.

Mr. Ledyard and Mr. Cravath are understood to have additional information that they are willing to give to the committee.

Late last night the story of an effort to sell a gold brick to Wall Street and how it was sold was told in part to the Senate lobby investigating committee at one of the most sensational-producing sessions it has held in its stormy career. It was a tale of how influence was to be exerted in the seats of the mighty in Washington to prevent unfavorable investigations into the doings of Wall Street, of how lawsuits, that the committee believed in New York would not like were to be prevented and of how the gold brick seller was generally to protect the interests of the clients he sought in the political game in the capital.

Palmer a Witness. Representative A. Mitchell Palmer of Pennsylvania, told the story, and Edward Lauterbach, a New York lawyer, and Representative Daniel J. Rorabach of New York gave the committee some light on its details.

According to Mr. Palmer, Lewis Cass Ledyard, another New York lawyer was the man who was largely instrumental in fanning the plot. The name of the man who proposed to do all these things in Washington was not given to the committee, although Mr. Palmer acknowledged that he had strong suspicions of his identity.

Mr. Palmer told the committee that representations of influence in Washington had gone so far as to bring in the names of the Speaker of the majority leader in the House and of at least two other prominent congressmen whose names he did not give. He said that after Mr. Ledyard had engaged in many telephone conversations with the men who had all these goods for sale in Washington he had met Edward Lauterbach, a New York attorney, under the supposition that Lauterbach was representing the user of the telephone.

Lauterbach Enters Denial. Lauterbach was in the committee room and listened to all the testimony of Mr. Palmer, who spent nearly two hours on the stand. Later he denied that he had tried to secure employment with the big interests in New York on the strength of supposed power in the capital. He swore that his only interest was "to restore the entente cordiale" he had previously enjoyed with Morgan & Co. and which he thought had been broken because of his friendly relations with David Lamar whom he described as a "Wall Street operator" who usually operated on the "bear side of the street."

As a result of Mr. Lauterbach's testimony the committee will call Lamar, George F. Baker of the First National Bank of New York, Paul D. Cravath, Francis Lynde Stetson and Mr. Ledyard, all New York attorneys, and Charles Steele of Morgan & Co.

PRECEDENT BEATS CLERKS OUT OF HALF HOLIDAY

Washington, June 27.—Half-masted flags over the government buildings were not necessary to symbolize the gloom that settled over the several thousand clerks and employees when it was learned that President Wilson had declined to grant them a full holiday July 5.

Petitions had been filed with the president setting forth that as July 4 was a holiday and the following day, Saturday, inaugurating the Saturday half-holiday summer schedule, it would be appreciated if the chief executive would make Saturday a complete holiday, thereby giving the clerks three full days in which to enjoy a vacation.

The president's declination was due to the fact that he did not care to establish a precedent.

WOMAN WHO KILLED HER HUSBAND IS ACQUITTED

Mrs. Margaret L. Shieber is Acquitted—Found Husband in Another Woman's Apartments

By Associated Press. Memphis, Tenn., June 27.—Mrs. Margaret L. Shieber accused of murder in the second degree in connection with the death of her husband, Augustus Schieber, a wealthy lumberman, was found not guilty today. Mrs. Shieber shot her husband when she found him in another woman's apartment.

DRILLERS TAKE DURANT OPENER

DRIVE ADAMS FROM THE BOX BY HARD HITTING AT THE START

SCOGGINS IN GOOD FORM

Allows Few Hits After Second Inning—Locals Land Heavy on Durant Pitchers

Special to the Times.
Durant, Okla., June 27.—The Drillers took kindly to Adams' benders in the first two innings of yesterday's game and while Chapman, who replaced the Titan-haired slabsman in the third, fared some better, the visitors already had the game won and clinched things by a brace of counters in the final aspm.

Scoggins was in fine fettle, apparently, and steadied—down after the first inning or two with such good effect that the two runs counted by the locals were unimproved; one of these was a homer by Woodward which Brown duplicated in Wichita Falls' half of the second. Workman was out of the game for Wichita Falls, but was not needed. Chief Jones is still playing second and breaking into the air column with sickening regularity. He got three hits yesterday, one being a double, and Lawson was also there with the hickory.

The game rocked along for six innings after the second, with Wichita Falls only one run to the good, but the locals strove in vain to get a man around the circuit. Scoggins was pitching stinky ball and was hard to reach with men on bases. In the ninth, Wichita Falls blighted all hopes of a rally by adding a couple more to her score. The score:

Wichita Falls	AB	R	H	P	O	A	F

GOSSIP HERE AND THERE

IN THE BASEBALL WORLD

Texarkana's franchise is now facing

a transfer and Hugo, Oklahoma, still

has her hat in the ring. Poor patron

age in the East. The city is given as

the cause, but it is thought the fran

chise will be retained.

McIver, Austin's new manager, start

ed off by winning the first two games

under his leadership, pulling Houston

out of first place and letting Dallas re

sume the lead.

Some of the local fans are wonder

ing why Morris used Jones against

Denison and saved Scoggins for the

Durant series.

New York looms up more than ever

as a contender in the National League

race; the Giants won two games yester

day and the Philadelphia team lost

a couple, which puts the McGraw squad

perilously near the percentage of the

Phillies. The latter are fighting hard,

but they are not playing the consist

ent ball that is featuring the Giant's

race.

Brooklyn in the first division doesn't

look any more out of place than Wash

ington did last year.

The Texas League race is one of the

prettiest ever. The tight clubs are

bunched in a way that makes it im

possible to count any of them out of

the running and four teams are fight

ing for the lead right now.

DANGEROUS CALOMEL

GOING OUT OF USE

A Safer, More Reliable Remedy Has

Taken Its Place in the Drug

Store and in the Home

A few years ago, men, women and

children took calomel for a sluggish

liver and for constipation. They took

risks when they do so, for calomel

is a dangerous drug. Your family doc

tor will be the first to tell you this if

he discovers you dosing yourself with

calomel.

But the drug trade has found a

safer, more pleasant remedy than calo

mel in Dodson's Liver Tone.

Miller tells us that their drug store

sells Dodson's Liver Tone in practi

cally every case of biliousness and

liver trouble where calomel used to

be taken.

Dodson's Liver Tone is a vegetable

liver tonic that is absolutely harmless

for children and grown people. It

sells for 50 cents a bottle and is guar

anteed by Miller's Drug Store who

will refund your money with a smile if

it does not give quick, gentle relief

without any of calomel's unpleasant

after-effects. Miller's Drug Store.

NEW FIRE EQUIPMENT IS PURCHASED BY COUNCIL

Leaders and Life Net are Bought—New Engine is Planned for Next Year

The dangers of loss of life and property by fire in the three and five story buildings in this city is to be considerably lessened as a result of the action of the city council last night in ordering equipment which will make it easier to fight fires in the taller buildings. This equipment includes fifty feet of extension ladders and a nine foot life-net. This last would be an urgent necessity if fire were to break out in any of the larger hotels, and the purchase will be a precaution that may be found very wise some day.

The council ordered a quantity of other equipment which Fire Marshal Ward and Driver McClure thought necessary. This includes nozzles, coupling expanders, automatic couplers, shut off nozzles and other minor paraphernalia. At its session last week, the council ordered a quantity of fire hose, so that the equipment is being materially improved.

There is little doubt that another fire engine will be ordered for delivery next year, to be stationed in the western part of the city. A site for the station has been tentatively selected already, though no definite action has been taken. Mayor Bell favors employing someone as fire chief who can give his full time to the work, so that he could familiarize himself with the floor plans, openings and arrangement of every downtown building. He also favors creating the combination office of fire marshal and sanitary officer and believes the extra expense of the officers would be found to count for little in the long run.

COLORADO-GULF PARTY ARRIVES AT TRINIDAD

President Williams and Others Reach Colorado After Auto Trip up the Line

Trinidad, Colo., June 27.—O. L. Williams and his party, president of the Colorado to Gulf Highway Association, and A. W. Read of Memphis, Texas, secretary, arrived here on a trip of inspection of the route from Clayton, N. M. President Williams and his party started out to learn the route from Trinidad to El Paso to a connection with the famous scenic highway from Raton to Trinidad and on to Denver.

Great enthusiasm was shown in all the towns along the line and the party was induced to come on here and confer with the Chamber of Commerce, and the Denver Chamber of Commerce, has asked the party to come to Denver and consult as to plans of co-operation. This is regarded as a very important project, and

the people of New Mexico and Colorado are alike anxious to cooperate with their Texas neighbors.

BOY KITE-FLYER IS

VICTIM OF AVIATION.

New York, June 27.—James Con

sins, a boy of 14, is probably the

youngest victim in the long list of

fatal aviation accidents. He was ex

posed to death yesterday while flying

a kite. He was on the roof of a six

story tenement building on the west

side, when a gale from the East river

caught his kite and pulled him to the

IN THE SPHERE OF WOMANKIND

GRAPES OF ESCHOL

I have not entered in; across my way,
Shining and deep, a silent river lies;
But sometimes, in the dawning of the
day,
I see visions of its vineyards rise.

I have not entered in; I fear to go;
Thick is my tongue, and I am
mighty dry;
But I can see the bar, and well I know
That collars on the beards are much
too high.

I have not entered in; I must abstain
A little while at least, to keep my
vow;
I will not "savage" my thirst, but suffer
pain,
E'en though the devil whispers, "Do
it now!"

I have entered in; I fear the trip
That comes to those of us who cross
the bar,
The outward journey's short—a simple
slip,
But, O, the voyage back is very far.

I have not entered in; the bunch is
there;
And they are buying rounds, in turn
about;
I've just the price of one, and street
car fare,
And if I entered in I would be out.

I have not entered in; at the door I
stood
With key in hand—2 a. m., perhaps
twas more,
But the keyhole was lost—simply
couldn't be found;
So I sat on the step and blubbered
and swore.

**HEAD-BULLDOCH WEDDING AT
SHERMAN LAST WEDNESDAY**
Last Wednesday evening at Sher-
man, in the Travis Street Methodist
Church, Haydon W. Head of Sherman
and Miss Ruth Bulloch of Wichita
Falls were united in marriage. Bishop
J. S. Key officiating. The wedding
was one of the most elaborate in the
social history of Sherman and was of
a nature appropriate to the joining of
the two lives of the two excellent
young people who were the principals.
Mrs. Key, principal of Kidd-Key Col-
lege with which Miss Bulloch has been
connected for the past eight years,
attended the bride a smatron of hon-
or, and Miss Selma Couch of Magnolia,
Arkansas, and Miss Vivian Mathis of
Wichita Falls were maids of honor.
The groom was attended by Lawrence

Mills of Oklahoma City as best man
with E. E. McInnis of McAlester and
Henry Moore, Jr., of Texarkana as
groomsmen. Flowers were scattered
in the path of the bridal party by Mack
Merle Hoard, Margaret Gulick, Hugh
Thompson and Lawrence Mills, Jr.,
while the little brother of the bride,
Nolan Bulloch, was ring-bearer. The
ushers were George Chapman, W. C.
Eubank, William Bomar of Fort Worth
and Henry Rountree. A solo by Miss
Jennie Hill Barry preceded the en-
trance of the bridal party, she being
accompanied by Pettis Pipes on the
piano and Miss Helen Harvey on the
violin. Miss Louise Boyd Rankin of
Dallas played the wedding march. At-
ter the ceremony there was a recep-
tion in the parlors of the Kidd-Key
school. Mr. and Mrs. Head leaving for
northern and eastern points on their
wedding trip. The ceremony was at-
tended by many out-of-town guests, at-
testing the popularity of the contract-
ing parties, and the esteem in which
they are held was further evidenced
by many beautiful gifts. The groom
is a prominent young attorney of Sher-
man, while he is but little known in
Wichita Falls, those of this who do
know him declare him a most estimable
young man. The bride has called
Wichita Falls her home for six years,
but her duties at Kidd-Key, where she
was college secretary, have kept her
in Sherman most of the time. She is
the talented and winsome daughter
of Mrs. Hoyt L. Baker and a young
woman of many lovable attributes. Her
many friends in this city extend to
Mr. and Mrs. Head the sincerest good
wishes.

MISS LILLIAN MCGREGOR IS THURSDAY LUNCHEON HOSTESS

The famed McGregor hospitality
shone for the first time in the hand-
some new McGregor home on Tenth
street, Thursday, when Miss Lillian
McGregor was hostess to fifteen of her
friends, complimenting Miss Olive
Edwards of New York, who is
visiting Miss Kathleen Blair, and
Miss Mae Weeks of Arlington
who is the guest of Miss Lillian
Avis. The color scheme was
pretty carried out in pink and white,
carnations being the flower principally
employed, and the dining room pre-
sented a scene appropriate to the bevy
of pretty girls who gathered there for
the six-course luncheon. The excel-
lence of the repast may be judged from
the fact that the young ladies remained
at the table from 1:30 to 4:30 before
full justice had been done. After the
luncheon, music was the diversion, vo-
cal and instrumental numbers being
rendered. The luncheon was perfectly
planned and was a genuine treat to
the lucky ones who were bidden to the
festive board. These were Misses
Olive Edwards, Mae Weeks, Lillian
Avis, Anne Carrigan, Obie Featherlee,
Eddie Carver, Genevieve Carver, An-
nie Freer, Bess Kell, Kathleen Blair,
Agnes Reid, Kathryn Hindman, Ber-
tha Mae Kemp, Mabelle Jackson, Ma-
bel Simpson.

Miss Kathleen Blair and Wiley
Blair, Jr., will entertain with a mas-
querade lawn party tonight in honor
of their guests, Miss Olive Edwards
and Powers Smith, both of New York

CITY COUNCIL SESSION HELD THURSDAY NIGHT

Postmaster Bacon Wants Pound Re-
moved—Several Other Matters
Receive Attention

Request for the removal of the
city pound from its present location to
some point where the strays will
not be such snug neighbors of Uncle
Sam's employees was presented to the
city council last night by Postmaster
Bacon. The pound is located just
south of the postoffice and the post-
master thought it would be easier to
move the pound than the government
building. Councilman Bradley, Gard-
ner and Young were designated a
special committee to look into the
matter.

J. O. Bentley petitioned for partial
refund of the saloon license of R. H.
Martin, deceased, saying that the
Martin establishment had been closed
before the license expired; action on
this was deferred.

Figures on sewer tax collections
were presented, showing that only
\$288.50 was collected out of over
\$5000, that was due on January 1.
Curiously enough, most of the delin-
quents are large property owners
better able to pay than many of those
who settled promptly. The city at-
torney was instructed to endeavor to
collect the amounts outstanding, and
to cut off the connections and file
suit where payment was not forth-
coming.

The mayor said that on his trip to
Dallas, he got a new idea for the
sign posts at street intersections, the
Dallas sign being a cross-shaped wooden
post, four feet in diameter at the base,
with the two street names meeting
each other at right angles. This
could be much cheaper than the iron
posts originally planned for this city,
he said.

MAYOR BELL TALKS WITH DALLAS CITY OFFICIALS.

Mayor Bell returned yesterday
from Dallas, where he went with
Aldermen Al Richott and City En-
gineer Hinckley to look at paving
material. Messrs. Richott and Hinck-
ley went on to South Texas to see
work done in some of the cities in
that section of the State.

The mayor is fond of the cross-
ed block paving, but it is thought
the expense, which is from \$2.50 to \$2.65
per square yard, is too great for the
work on Tenth street, and it is con-
sidered more likely that some cheap-
er method will be adopted. In this
connection, there is a rumor in the
city that if asphalt is decided upon,
the city will do the work itself instead
of by contract, as outlined recently in
The Times, this would be much
cheaper and would permit the city to
extend the work to other streets as
it saw fit.

Dr. Bell saw the mayor and com-
missioners at Dallas and talked over
a number of municipal problems with
them.

The city is planning to get in be-
hind several non-resident property
owners who have failed to put in
cement sidewalks in front of their
buildings. In some cases, con-
siderable neighborhoods are prevent-
ed from getting mail delivered be-
cause there is a stretch of unpaved
sidewalks in front of some non-resi-
dent's property.

FARM HAND KILLS HIS EMPLOYER AND HIMSELF.

Quincy, Ill., June 27.—A man be-
lieved to be J. W. Benning (Gree-
ory, Mo., shot and killed Theodore
Pogue and then killed himself at
West Quincy, Mo., today.

A workman on the Pogue farm
heard several shots, and running into
the house, saw Pogue staggering to-
ward the door. Benning followed and
man shot me," pointing toward each
other room, and then collapsed. In the
adjoining room a man was found
with a bullet through his body.

Pogue was a bachelor, 75 years old,
a Confederate veteran, and owned
1,000 acres of valuable bottom land.
Benning worked for Pogue and had
threatened to kill his employer.

San Benito.—The Commercial Club
of this city is desirous of securing
the addresses of parties who have
strawberry plants for sale. The
farmers here are in the market for
several million plants.

To Prevent Blood Poisoning
apply at once the wonderful old reliable DR.
PORTER'S ANTISEPTIC HEALING OIL, a sur-
gical dressing that relieves pain and heals at
the same time. Not a liniment. 25c, 50c, \$1.00.

ASK STATE FOOD INSPECTOR HERE

MAYOR INVITES COMMISSIONER
ABBOTT TO COME AND AID
AUTHORITIES

SOME REFORMS PLANNED

Careless Methods in Handling Food to
be Looked Into and Proper
Remedy Sought

The state department of food and
dairy inspection has been invited by
the city authorities to send either its
chief, Commissioner Abbott, or a rep-
resentative to aid the city in handling
the situation in this city. Members
of the council feel, and some citizens
will doubtless agree with them, that
there is considerable work of this
kind here, and Mayor Bell has writ-
ten the commissioner, inviting him
or a representative of the department
to come here.

One thing which it is felt should
be remedied is the manner in which
ice for soda fountains is handled.
This ice is crushed in a machine
which is attached to the side of the
downtown ice wagons and the receipt
ack is kept open to the dust and
other impurities of the street; when
ice is delivered at a fountain the dust
and other foreign matter is mixed
with it and goes into the fountain,
thence into the lime-sides and other
concoctions which the jerker dis-
penses.

There are several other methods
employed in handling food in this city
which the councilman feel require
correction and the state authorities
will be asked to help. Some months
ago proprietors of two restaurants
were fined \$25 each for selling spoiled
meat and complaints of similar prac-
tices recently have been made to
members of the council. The co-
operation of the state department will
be enlisted in dealing with the situ-
ation and it will be ascertained just
how far the city can go.

Some of the conditions as explained
to the council last night were re-
volting in the extreme and the need
for some action was made quite evi-
dent.

K. C. UNIONS CONSIDER SYMPATHETIC STRIKE.

Kansas City, June 27.—Agreement
by representatives of all the 117
trades unions of Kansas City to call
a general strike in compliance with
the request of the local building
trades council for aid in their con-
flict against the lockout of about 400
members of building trades unions
was reached today.

At a meeting of the Industrial
council tomorrow night, definite ac-
tion will be taken. If a general
strike is called, about 10,000 work-
men will be affected.

Don't Put Up a Lot of Fruit Until You See Me

PHONES
432 AND 232

AUTO
DELIVERY

It is a little late I know to bring up this subject
again but there are a lot of women that I know
who have not yet put up all the fruit they will
need for the winter and probably they are figuring
on rush work to get up the list of what they want.

If you are one of these women I want to urge
you once more to come and see me before you do
that for I believe I can help you save a lot of hard
hot work and considerable money and at the same
time help you select a larger and better variety of
fruits ready for use than you can get in any other
way.

Ask me to tell you about my winter fruit propo-
sition.

Wichita Falls, Texas, June 27, 1913.

The proposed amendment to the constitution, better known as Senate Joint Resolution No. 18, gives a permanent right to the legislature to issue bonds in any amount and at any time that law-making body sees proper and should be adopted next month. It will become a part of the constitution, and the power thus taken from the people and bestowed upon the legislature cannot be repealed except by a two-thirds vote of the body enjoying this most extraordinary power. For that reason if for no other, The Times is of the opinion that the proposition should be turned down, and from present indications that is just about what is going to happen to it.

Speaking of the social evil, the St. Paul, vice commission, authorized by act of the Minnesota legislature, in reply to an argument that it was "a necessary evil," says: "If it is evil, it is not necessary; if it is necessary, then it is not evil." That is a neat way to put it. Anything that is necessary should not be regarded as an evil. There are many of the opinion that it is an evil that we have tolerated for the early ages up to the present time, and perhaps must continue to tolerate, because no man yet has been found who can solve the problem of how it can be gotten rid of, or who has proposed a remedy that has ever yet proved a successful remedy. But to say it is a necessary evil is going to a little strong. The material has to be renewed every few years, and if it is to be regarded as a "necessary evil," then who among us is to be relied upon to replenish the material? That's a question every decent man should put to himself just before he goes on record proclaiming that "social evil is a necessary evil."

Newspapers, especially the dailies, are to have better consideration at the hands of the post office officials hereafter. By order issued, postmasters will give immediate attention to the distribution of daily papers after the first-class mail is handled. The position is taken that the daily paper is a business message to many of the people, serving as a medium of communication and information, with the necessity for quick delivery being important. Hereafter the subscriber to a daily paper will not have to hang about the post office awaiting the sweet pleasure of the distributing clerks in the placing of same in boxes or the carrying of the bundles out on the routes the very first delivery made after the mail is received. Daily papers will go out on the first delivery and will go into the boxes first out after letters. May it be explained that the order from headquarters does not materially affect the Temple post office. They have been giving that kind of service in this town all along. It is not so in many other places, however, and the ruling will be much appreciated by the many who receive their papers by mail. Therefore, subscribers who do not get their daily papers in a reasonable time after they have been mailed, should make a vigorous kick, and if

such an order has been passed it will be a fine opportunity to determine whether it was intended to be carried out.

More trouble for Joe Taylor. Not content with foisting off upon his wife shoulders the weary troubles of a suffragette resolution, the "gentleman" now have made trouble for Jim Lowry by taking an appeal to the Texas Press Association on the judges' decision in the buttermilk-potlicker debate at Dallas the past week. The suffragette business is bad enough, goodness knows, but when those respective adherents of potlicker and buttermilk again meet arrayed for battle, there is no forecasting the outcome. In the meantime Wichita falls, where the 1914 meeting is to be held, should proceed on the theory that "forewarned is forearmed," and begin now swearing in sufficient special policemen for the proper handling of the meeting next year. —Denton Record and Chronicle.

Bill Long has already tendered his services to Jim Lowry, which of itself a sufficient guarantee that no violence will be done the great buttermilk-potlicker. As for Col. Green, who champions potlicker, he will find plenty of volunteers.

OUR BOB AND THE PRESIDENT.

We can't say in truth that our Mr. Henry yielded his position as to currency legislation in Beau Brummel style. But he did yield, and that's the main consideration. True, he goes on insisting that the chance of the Money Devil be not given over, but that's a harmless pastime—at least let us so believe. When we get the right sort of tariff and currency legislation, the claws of the Money Devil will be effectually clipped, and we won't have to waste our time pursuing the beast. "Our work is a work of restoration," said President Wilson in his inaugural address, and that's the demand of the hour. Restore to the people their trade rights, and no power on earth can keep them from going on the fullest measure of prosperity. We shall hope to get reports from time to time that our Mr. Henry is lending active help to our Uncle Woodrow in the effort to restore to the people their rights, is the only cure for the evils to be encountered on every hand. —Waco Times-Herald

CLAY COUNTY LOSES ITS CASE AGAINST BREWERY

Supreme Court Sustains Trial Judge in His Decision in Suit for Penalties

Breweries and liquor dealers are not subject to penalties if they solicit orders in a dry county, according to a decision rendered this week by the Supreme court at Austin. The decision was handed down in the case of Clay county vs. Texas Brewing Company and sustained the holdings of Judge P. A. Martin in the case.

In this suit Clay county sought to collect several thousand dollars from the brewery because it had solicited orders for beer through use of the mails. The county claimed that this made the company liable for the occupation taxes assessed by the State. Judge Martin held that the law did kind in the State and the final result sustains the right of liquor concerns to use the mails in their quest for orders. The decision was handed down Tuesday, when the state law covering shipments into dry territory goes into effect.

HIGHER COURT RULING FAVORS LIQUOR DEALER

Civil Appeals Decision Holds That Action is Reviewable Affirming Lower Court's Verdict

Austin, Texas, June 27.—The Third Court of Civil Appeals has held that the action of the controller in forfeiting a liquor dealer's license is not

reviewable by the courts. But that independent suits to reinstate the license are entirely separate from the controller's findings and testimony may be admitted like in any other civil action. As a result, the court affirmed the case of Lane, controller, against Volz & Falwell, from Travis, where judgment was entered reinstating the license after Lane had forfeited it.

There is an implied intimation at the conclusion of the opinion, which was written by Chief Justice Key, that the courts might hold unconstitutional so apply and he was sustained Wednesday. If the brewery had sent a representative to Clay county to take orders in person, the occupation tax would have become due, but solicitation by mail was held to be different.

The case was one of the first of its kind in the history of the law authorizing the controller to forfeit a license without judicial ascertainment. As to this the court said:

"As the validity of the provisions of the statutes which authorize the controller to forfeit liquor dealers' licenses and provide for a suit to reinstate the license has not been questioned, we dispose of the case upon the presumption that the provisions providing for such forfeiture are constitutional, and that the one authorizing a suit to reinstate the license is

reviewable by the courts. But that independent suits to reinstate the license are entirely separate from the controller's findings and testimony may be admitted like in any other civil action. As a result, the court affirmed the case of Lane, controller, against Volz & Falwell, from Travis, where judgment was entered reinstating the license after Lane had forfeited it.

Two university students testified that they bought drinks in Volz & Falwell's saloon, and after a hearing before a notary the license was declared forfeited. Suit was brought and the district court ordered it reinstated, holding that the testimony showed that students were not known; that they did not appear youthful; they had on no uniforms and were unknown personally. The court says the sale was not knowingly made.

The controller insisted that no new testimony could be admitted, but that the court could only say whether or not the controller had acted within the law, and not arbitrarily. The court says the Legislature intended, under Art. 7, 443, to "authorize an original suit to be tried as other civil suits are tried."

It says Lane made a better case before the court than he did before the notary, but not sufficient. If Lane claims his act a judicial one it would violate Sec. 1, Art. 11, State Constitution, which separates the legislative, judicial and executive.

NEAR DEATH BY SMOTHERING

But Husband, With Aid of Cardui, Effects Her Deliverance.

Draper, N. C.—Mrs. Helen Dalton, of this place, says: "I suffered for years with pains in my left side, and would often almost smother to death. Medicines patched me up for awhile but then I would get worse again. Finally, my husband decided he wanted me to try Cardui, the woman's tonic, so he bought me a bottle and I began using it. It did me more good than all the medicines I had taken. I have induced many of my friends to try Cardui, and they all say they have been benefited by its use. There never has been, and never will be, a medicine to compare with Cardui. I believe it is a good medicine for all womanly troubles."

For over 50 years, Cardui has been relieving woman's sufferings and building weak women up to health and strength. If you are a woman, give it a fair trial. It should surely help you, as it has a million others. Get a bottle of Cardui to-day. Write to: Chattanooga Medicine Co., Ladies Advisory Dept., Chattanooga, Tenn., for literature on your case and 64-page book, "How Treated for Women," in plain wrapper. R. C. 15

4,734 CHILDREN OF SCHOOL AGE

WICHITA COUNTY SCHOLASTIC CENSUS SHOWS MATERIAL INCREASE

GIRLS OUTNUMBER BOYS

Seventy-five Germans, Twenty-four Bohemians and a Russian—No Negroes Outside City

Wichita county has 4734 children between the ages of seven and seventeen, according to the school census just completed for the entire county, the results of which were announced today by County Superintendent R. M. Johnson. This is an increase of about 900 over last year, which is considered a remarkable gain. Most of this increase is in the Wichita Falls district, the figures for which were published in The Times of yesterday.

Besides the 2539 children in the Wichita Falls district, there are 510 at Electra, 313 at Burkburnett, 202 at Iowa Park and 1170 in the rural districts. Electra has 252 boys and 258 girls, Burkburnett 149 boys and 164 girls, Iowa Park, ninety-five boys and 107 girls, and the rural districts 593 boys and 577 girls, the totals outside this district being 1085 boys and 1106 girls.

The 170 negroes in the Wichita Falls district are the only ones in the county, none being found in the other districts. In the rural districts there are seventy-five German children, two at Iowa Park; one Russian and twenty-four Bohemians are also included in the numeration of foreigners.

The figures by ages, outside of the Wichita Falls district, are as follows: Seven years, 294; eight years, 247; nine years, 239; ten years, 318; eleven years, 207; twelve years, 241; thirteen years, 178; fourteen years, 210; fifteen years, 200; sixteen years, 257.

The new state law extending the age limit to twenty-one makes no difference in the enumeration; in the first place, it is not yet in effect and in the second place, it simply gives young men and women sixteen the right to attend school without paying tuition; this right is accorded them already in many places, where trustees admit them without tuition.

NEW RECORD EXPECTED IN RAILROAD'S REPORTS

Fiscal Year Ends June 30 and Figures Will Probably Show New Operation High Mark

Austin, Texas, June 27.—The fiscal year in railroad accounting closes on June 30, or less than a week away. It will be several weeks after that before the figures are available for the twelve-month period. Numerous reports have to be made and traverse proper channels before the compilation can be had showing results from operation.

From the figures of preceding months it is easily seen that the year about to close will be a record-breaker in results from operation. Gross earnings, or operating revenues, will reach "high-water mark," as will operating expenses. The income from operation may be about the same or slightly increased over last year. The operating expenses appear to increase at a greater ratio than do the earnings, as large as the latter may be, hence the reason for the absence of a large increase in net earnings or "income from operation," as it is now designated by railroad accounting officers.

The gross revenue last year was \$102,781,530 and this year it is expected to go above \$110,000,000. Last year the passenger earnings totaled \$70,828,128, freight earnings \$71,519,980 and other earnings \$423,412. The operating expenses aggregated \$81,718,122, leaving an income from operation of \$21,063,408.

All of the foregoing figures are almost certain to be exceeded. Some of the roads which fell behind last year, as compared to the year previous and competing lines, will show marked increases this year, due to the adjustment of the causes which created a slump in earnings and an increase in cost of operation. This is particularly true on the Katy and Sunset-Central lines, which roads had labor troubles.

Cleburne—Twenty cars of fat cattle were loaded at Cleburne, on the Santa Fe, last week for shipment to Chicago. Also fourteen cars were loaded at Parsons and four at Godley. Big shipments were also made on the same road at Sanger and Marietta.

Dallas—The commissioners' court has appropriated for Dallas county \$20,000 to be used in the building of a post road, in order to secure from the state \$10,000 for the same purpose. The fund will probably be used on the Fort Worth-Dallas pike.

You can take your choice in shoes;

YOU do it every time you buy a pair. You mean to choose good shoes. Do you know a good shoe when you see it?

There's a way to know; here's a simple rule

Find the name **Selz** on the sole; a sure sign that you'll get comfort, style and good shoe service.

The best reason for buying Selz Royal Blue shoe is that it's made to fit human feet; to wear and look right wherever you go; to last a long time.

It will cost you \$3.50 to \$5.00; and you'll never spend shoe money to better advantage than in Selz Royal Blue.

THOSE UP TO \$4.00 VALUES FOR \$2.50

In both men's and women's shoes shown this week in our windows certainly is the "last word" as to price. Better take a look at them.

DR. J. W. HILL BACK FROM VISIT TO SOUTHWESTERN

Says Ex-Wichita Pastor, Now President of University, is "Making Good" Splendidly

Dr. J. W. Hill, who returned this morning from Georgetown, where he has been lecturing for the past ten days before the Southwestern University, had this to say about his trip: "Notwithstanding my weakened condition when I left here for Georgetown, I steadily improved every day I was gone. And this, too, in face of the fact that I did double work at the University, lecturing twice a day—once before the fourth year class of the undergraduates and once before the postgraduate department. Added to this I heard from two to three lectures from other men each day. So you see, I ate no idle bread. "I heard Dr. Brown of the Union Theological Seminary of New York; Bishop Lambuth, who is in charge of our African work; Dr. Chappell, editor of our Sunday school publications; Rev. F. S. Onderdonk, our superintendent of missions in North Mexico; and Rev. A. J. Weeks, who until recently was one of our chief secretaries of the same mission department. These gentlemen are all experts in their several lines and their deliverances constituted a feast of fat things. "We were all gratified at the splendid showing made by the University under the able management of Dr. C. M. Bishop. On all lines the session of that school just closed was characterized by unprecedented prosperity. As Dr. Bishop was my immediate predecessor as pastor of the church at Wichita Falls, his many friends here will no doubt be glad to learn of his wonderful success in university work. He and his wife have charge of the 'annex'—the young ladies' dormitory—and it was

here that I, along with 150 or 200 other preachers, was entertained during my stay at Georgetown. It goes without saying that the entertainment was all that could have been desired; and the praise of our host and hostess was upon every lip.

"By the unanimous request of the postgraduate department, I am to be continued in the chair of church history for another four years term. "It is hardly necessary to say that I did not fail to boost Wichita Falls. I catalogued all of our good things and prudently locked the closet-door on our skeletons. It is the burden of my life that these skeletons exist; and I hope that the day is not far distant when their number will be reduced, if not entirely blotted out. If all the Christian people of this city and every man and woman who stands for decency will 'march one way,' a consummation so devoutly to be wished can be achieved.

"I am glad to be home again; for to me, where my family is and where my pastoral work is—that is the dearest place on earth.

"I desire in this public way to express my thanks to Dr. McKee for looking after my pulpit and people in my absence. When the time comes for him to go away I shall be only too glad to requite him for his kindness in the same way.

"Last, but not least, I am thankful to our Heavenly Father for His kindness to my loved ones in their sickness during my absence. It seems now that we are all on the road to health and to better things. I sincerely pray for all who are in distress and hereby tender my services to them as far as in me lies."

EXCURSION TO MINERAL WELLS EVERY SATURDAY

Week-End Round Trips To Health Resort—Made Possible Over the Southern

Commencing tomorrow week-end excursions to Mineral Wells will be inaugurated over the Wichita Southern and Gulf, Texas and Western railways. The fare will be \$3.80 for the round trip and tickets will be good going on the Wichita Southern train leaving here Saturday afternoon at 2:30 and returning Monday at noon. The rate will be in force during the entire summer, thus giving the people of Wichita Falls and vicinity an opportunity to spend Sundays at the health resort and return to time to attend to business on Monday. The rate will be proportionately low from the different stations on the line.

Fort Worth—Over 1,500 visitors are expected here August 7-8 and 9th the occasion being the annual conventions of the county judges and commissioners, district and county clerks, county and district attorneys and the county tax collectors. One of the many features arranged for the entertainment of the guests is an inspection of the good roads work in Tarrant county.

ESTIMATES WHEAT CROP AT 13,000,000 BUSHEL

Frank Kell Revises Former Figures on Texas Production—Local Crop Better

The Texas wheat crop will reach thirteen million, possibly fourteen million bushels this year, according

to Frank Kell, whose estimates are generally accepted in the grain business. Several weeks ago, Mr. Kell's estimate was eleven million bushels, but he has had reason to change his figures.

"I would not be surprised to see a twenty-bushel average for the State," said Mr. Kell, "that would be about fourteen million bushels. Wheat is making little or nothing in the plains country, but is showing up well in other parts of the State. In Wichita county the crop will average seventeen bushels, the best since 1904

and it will grade and test unusually high. Last year, much of the Wichita county wheat did not test over fifty-eight, but it will be much better this season."

Mr. Kell's information is that while the oat crop in this section is poor, the acreage had been reduced to such a point that oats are hardly a factor anyhow. In the state at large, the oats yield will be smaller than 1912, he believes, but there will be more oats in sight on account of the fact that the black land farmers are much better stocked up on feed and

will market a larger part of their crop this year.

Kodak Finishing

By one who knows how, Eastman and Ansco films on sale. Also a line of Ansco cameras.

HADDIX STUDIO,
710 1-2 Ohio Avenue.

Springer Springs—The postoffice building under construction here is nearing completion. The contractor is now working on the second story. The structure will cost \$60,000.

NEW YORK BANKERS HANDLE TENNESSEE LOAN.

New York, June 27.—The State of Tennessee has succeeded in raising money to meet its bonds of \$5,000,000 maturing July 1. New York bankers it was announced, have purchased the state's one-year 5 per cent notes issued to discharge the indebtedness. The purchase price was not made known, but in view of the money stringency, it is understood that the notes were marketed on a basis which will yield more than 5 per cent to holders.

TRUNKS TRUNKS

Your summer vacation trip will be more pleasant if you take along a good trunk

The Famous Virginia Three-Ply Trunks

"Come through" showing less wear than all others. They are handsome, strong and light, but because of their superior construction, the hardest use makes little impression on them. We are showing trunks in all sizes, styles and grades, **\$4.00 to \$25**

We will take pleasure in showing them to you

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots, How to Remove Easily.

Here's a chance, Miss Freckle-Face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles, while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength—from any first-class druggist, and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine, as this is the prescription sold under guarantee of money back if it fails to remove the freckles.

PERSONAL MENTION

Dee Lightfoot returned this morning from a trip to Panama, where he inspected the big ditch from one end to the other. He stopped on the way back at his old home in Kentucky, where his family has been visiting, and they returned with him.

Misses Lyda and Emma Parks of Weatherford, arrived this afternoon to visit Miss Lena Millican.

Mr. and Mrs. Reese Allen and Regie, Jr., left this afternoon for Fort Worth Dallas on another point.

H. M. Frank went to Vernon this afternoon.

Mr. and Mrs. Charles Wendt have been called to Dallas by the news of the illness of Mr. Wendt's father.

Mr. and Mrs. W. W. Brown of Dallas passed through early today in their car en route to visit relatives at Electra.

Leon Loeb returned this afternoon from the Retail Merchants' meeting at Beaumont.

The Trail of the Lonesome Pine

By John Fox, Jr.

The poetic side of life in the Kentucky mountains is most beautifully portrayed in this novel. The "Lonesome Pine" from which the story takes its name, was a tall tree that stood in solitary splendor on a mountain top. The fame of the pine lured a tuckey to catch the trail, and when he finally climbed to its shelter he found not only the pine but the foot prints of a girl. And the girl proves to be lovely, piquant, and the trail of these girlish foot prints led the young engineer a madder chase than the "trail of the lonesome pine."

THE WRONG MEDICINE

The mistake in bottles or in the drugs used in filling a prescription never happens with us. In our prescription department every prescription we fill is checked and re-checked so there is no possibility of a mistake. We do not leave out one drug or substitute another, for we give your doctor credit for knowing what ought to go into a prescription better than we do. Our system is too well perfected to permit of any bungling accuracy. Positive accuracy and perfect purity; that only properly describes our prescription department.

A fare of one and one-third has been announced by the M. K. & T. to all Texas points and by the Wich-

ita Falls Route to points in Texas and Oklahoma, for the Fourth of July. The rates are good going on the third and fourth, with a return limit July 7th.

The Denver Colts of Fort Worth will play the Cleve's team of this city at the City Park Sunday afternoon at 3:30. This is the second game between the two teams, the first resulting in a score of 1 to 0 in favor of the Colts. A good game is anticipated Sunday, as both teams are on their mettle to win. The Colts will also play here on July 4th.

Just from the wheat farm: Nice large Plymouth Rock frying chickens. Phones 15, 62. J. E. Bond. 39 tte

SERVICE

Good business in any line is only service. We exchange service with our neighbors and friends for a numeral sum that we may obtain in service of some one else.

This exchange of service brings about business, and the more exchanges the better the business. The banker, the merchant, the day laborer, or the farmer, in fact the human race is one mighty family, where each has his or her chance to assist in this beautiful happy game of life.

We are playing our part in this great game to the very best of our ability. We have the best plant of its kind in the state, our employees are all faithful and efficient, and we are here to serve those who may need any service we can give.

Let us forget, your cemetery plot needs beautifying. We are leaders and are always at your service.

MOTION FOR NEW TRIAL IN ORTH CASE REFUSED

Case Now Goes to Higher Court at Austin—Several Errors are Alleged

The case of T. R. T. Orth, convicted in the county court of permitting improper use of premises owned by him, will now go to the court of criminal appeals at Austin, County Judge Feltner having overruled the defendant's motion for a new trial.

The motion for new trial of the case recited a number of alleged errors in the case, among them being the failure to continue the case, failure to grant postponement when Attorney C. C. Huff was ill, admission of testimony relative to the defendant's opportunity to inform himself of conditions, admission of Mayor Bell's testimony and failure to give the special instructions asked by the defendant. Particular stress was laid upon the failure to give the special instruction on the offering of a \$50 reward by the defendant for conviction of some of the tenants of his property.

Continuance of the case was sought on account of the absence of a woman whom the defense contends was a material witness. Postponement was sought when Attorney C. C. Huff of the defense became ill, and his partner, Orville Bullington, was forced to take up the case.

"The Dead Secret." 39 tte

Beaumont—This city is enjoying a building boom and at present there are fifty residences under construction. Rent houses are scarce and contractors and architects are kept busy preparing suitable living quarters.
