REPORT THAT COLOMBIA IS OUT OF GAME

Negotiations With the United States Not to Be Resumed

REYES' VISIT WILL BE OF NO PURPOSE

Panama Is Recognized and Dealings Will Be With the New State

COLOMBIA HAS NO CONTROL OVER CANAL

Secession of Panama Removes All of Its Obligations to Colombia—Fierce Rioting in Bogota

WASHINGTON, D. C., Nov. 11.—It is stated on good authority that it is too late for Colombia to make an effort to resurrect the canal treaty with the United States and beyond preventing a hostile clash between Colombia and the republic of Panama, the proposed visit of General Reyes to Panama will be without result. The same authority points out that the United States, having recognized Panama as an independent state, cannot proceed to negotiate with Colombia on any terms for canal rights in a state over which Colombia exercises no political control. Any future negotiations will be between the United States and the government of Panama.

MARTIAL LAW IN BOGOTA

WASHINGTON, D. C., Nov. 11.—The state department has received a cablegram from Minister Beaupre, dated Bogota, November 9, in which the minister states large crowds were parading the streets on the 7th, crying, "Down with Marroquin."

There was a mass meeting, denouncing the president and calling for a change of government. Hundreds gathered at the palace and the orator, a prominent national general, called for the resignation of the president. The gathering was dispersed by troops, several people being wounded, but there were no fatalities. The city is under martial law and well guarded by soldiers. The location of the United States is under protection of the government, but there are no indications of any hostile demonstration. The residence of Lorenzo Marroquin (believed here to be a senator and a son of the president) has been attacked with stones.

CAMPAIGN OF DEVEREY

His Votes Cost Him at the Rate of \$13.63 Apiece

NEW YORK, Nov. 11.—Deverev spent \$40,000 on his mayoralty campaign. He got 2,535 votes. That made each vote cost him \$15.62. His official report as to his expenditures does not confirm these figures, but they are correct. They were furnished by one of his confidantes. Of course, the "philosopher of the pump" never had an idea that he could be elected, but that doesn't soften his chagrin. He did expect to make a good thing of it.

SALOON DUEL IN SHERMAN

Jim Paul Is Dead and Joe Kilgore Is in the County Jail

SHERMAN, Tex., Nov. 11.—As a result of a pistol duel which occurred in a saloon in East Lamar street last evening shortly after 6 o'clock, Jim Paul, one of the former proprietors of the place, is dead, and Joe Kilgore, one of the present owners, is in the county jail with a painful wound in his head. Paul ran about half a block after the shooting and was picked up where he fell and in a few minutes carried to St. Vincent's hospital, where he died, despite efforts to save his life. There are three wounds on his body, one in the pit of the stomach, one in the back of the head and another through the left wrist.

Both men are married and have families.

showing, and he would have wagered a fortune that more than 25,000 ballots would be cast for him. There's a lot of self-conceit in the "chief," and it was a shock to him when he realized that he, who knew so much about "graffs," had been milked by a lot of grafters who took his money, shouted and hurrahed for him and then voted for Tammany.

Devery realizes also that he is nothing but a joke. He took himself seriously for a long time, but those 2,535 votes awakened him to the truth.

PECANS TAKE A TUMBLE

Present Price at San Angelo Is Lower Than Opening

SAN ANGELO, Texas, Nov. 11.—The price of pecans has taken a tumble. When the market opened here \$4.50 to \$5.00 per 100 pounds was paid. Last week they got down to \$3.50. Today the market is \$3.50 for the ordinary run. The drop in price is said by the dealers to have been caused by some very small pecans being sent out from here at the opening of the season as samples to the wholesalers, but the crop has proven to be of good average size nuts, much better than the samples first sent out.

LIQUOR MEN TO KEEP HANDS OFF

Democratic Anti Prohibitionists Send Petition and Warning

DALLAS, Tex., Nov. 11.—The campaign interests of the eighth congressional district were presented in Dallas today in an interesting form. Phil C. Travis, member of the Dallas county democratic executive committee, started the circulation of a petition for the signatures of wholesale liquor dealers, brewery managers and leading saloon men, asking anti-prohibitionists—particularly the liquor sellers of the Houston and other towns in the eighth district—to "keep their hands off the fight in the district, as far as attempting to defeat John M. Pinckney, the democratic nominee, is concerned."

Travis said to the Telegram correspondent: "If the anti-prohibitionists do not wish to precipitate a sure enough contest for outright state prohibition, they had better see to it that Pinckney shall not be defeated. If he shall be defeated, the chances are that state prohibition will be one of the weapons used to avenge him."

MAY MOVE THE EXHIBIT HERE

Williamson County Display May Join World's Fair Collection

GEORGETOWN, Tex., Nov. 11.—(Special.)—Regent R. S. Hyer and Professor C. C. Cody of the Southwestern university, Presiding Elder J. S. Chapman, Revs. W. L. Nelms, Sam C. Vaughan, Dan P. Wilson and others left for Fort Worth last night to attend the Northwest Texas conference. Drs. Hyer and Cody have the report of the Southwestern university, the educational institution of the conference, in splendid form to present.

There is a movement on foot to remove the Williamson county agricultural exhibit, which won the \$250 premium at the San Antonio fair to Fort Worth and add it to other Texas products and take the combined exhibit to the St. Louis fair in 1904 as a Texas exhibit. The original exhibit of Williamson county, under the management of Captain W. P. McNeill, aggregated nearly two carloads and it is stated by experts the whole state, corn, barley and seeds in the exhibit are almost perfect. The Williamson County Institute will meet at Georgetown on November 21 to receive the report of Captain McNeill and take action on the important matter.

KANSAS CLUB WOMEN

MANHATTAN, Kan., Nov. 11.—The Kansas Fifth District Federation of Women's Clubs began its fourth annual meeting here today. The delegates present represent the counties of Cloud, Republic, Ottawa, Saline, Washington, Clay, Marshall, Riley, Geary and Dickinson. The officers in charge are: President, Mrs. Alden F. Hulse of Manhattan, president, and Mrs. Evelyn Bradford of Concordia, secretary. An interesting program of papers and discussions has been arranged for the sessions, which will last three days.

FLOWER SHOW AT ST. PAUL

ST. PAUL, Minn., Nov. 11.—The flower show for which the Woman's Auxiliary of the Northwestern Manufacturers' Association has been preparing for several months opened auspiciously today. The exhibits come from all parts of the northwest and in many respects the show is the biggest affair of the kind ever held in this section of the country. The exhibits of chrysanthemums and orchids are especially notable for the number and variety of the specimens on display. The show is to continue through the remainder of the week.

THIRTY-EIGHTH ANNUAL SESSION OF THE NORTHWESTERN TEXAS CONFERENCE MEETS

Bishop W. W. Duncan of Spartansburg, S. C., Presides at Sessions—Reports From All Branches of the Work Show Gains—City Hall Place of Meeting An Aged Minister Pathetically Bids the Conference Farewell

It was a touching scene this morning when Rev. T. W. Rogers, of this city, now nearly 70 years of age, bade farewell to the conference, saying he never expected to live to see another. For fifty years he has been a preacher in Texas.

The thirty-eighth annual session of the Northwest Texas conference of the Methodist Episcopal church south assembled this morning in the auditorium of the city hall, Bishop W. W. Duncan of Spartansburg, S. C., presiding. There is a large attendance.

After a song and prayer, Bishop Duncan read the fourth chapter of Paul's Second Epistle to the Corinthians.

The bishop then spoke of Paul's intense personal familiarity with the truth. He looked through it, understood it and feeling it, he impressed it not upon the feeling of the people, but upon their conscience. It is a mistake that the word is given to men to entertain the people. Eloquence and rhetoric are not the things needed, but use it so that it takes hold of the conscience, get the conscience right and all else will take care of itself in daily life. Any young man who starts out to please the people and leaves out some of the truth while entertaining them will be a mistake.

Preach the truth, and impress it upon your hearers, and if some of them leave your church because of it, then you have the power to cast out devils. Our business is to commend the word of God to the conscience of the people. These are the sheep skins in their hands and another on their backs, who expect to use their rhetoric, are worse than the plague of Egypt. There are some who think we can outgrow our fathers, but I suppose we can—until we have another presidential election.

The publishing house of the M. E. church at Nashville submitted a report showing total assets March 31, 1903, \$14,527.22; total liabilities same date, \$15,592.22, leaving a capital, as per ledger, of \$898.50. The report shows profits at Nashville, \$3,684.50, and at Dallas, \$6,503.94, making total profits \$10,188.44, from which is to be deducted \$4,827.52, losses on publications, leaving a net gain of \$5,360.92.

The board of missions reported: "Our forces have been increased; our membership in foreign lands is larger than ever before and the contributions of the home church in excess of any former year. One hundred and seventy-five men and women now represent us in the foreign field and in co-operation with these are ninety-five native pastors and seventy local preachers of the native church. Our membership when the last reports were made was 12,595. These figures do not include the workers employed by the woman's board.

"The increase in the church's contributions for missions is encouraging. During the year the collections have been more

than \$22,000 in advance of the preceding year."

The following report was submitted:

TO THE BISHOP AND MEMBERS OF THE ANNUAL CONFERENCE OF THE METHODIST EPISCOPAL CHURCH SOUTH:

Dear Fathers and Brethren: It is with profound gratitude that we report that the work of securing an endowment fund for the superannuated, deceased and widows and orphans of deceased preachers has, under Almighty God, been attended with signal blessing. Phenomenal success has been attained. In the prosecution of the great cause much enthusiasm has been shown, liberal responses made and the action of the general conference inaugurating the special work has been approved by the membership of the church. The measure seems opportune, and the times propitious for the achievement of great things.

The agent, selected by the trustees of the church, the Rev. Dr. A. F. Watkins of the Methodist conference, has been diligent and efficient in the prosecution of the sublime task assigned him. He is worthy of all commendation.

It is but a little more than a year since his work was projected, and yet a subscription to the fund has been obtained to the amount of about \$10,000, and the subscription there is cash in hand to the amount of \$12,500. The money in hand is being invested as rapidly as loans, with ample securities, can be made. Collections are made as notes mature. Large cash collections are confidently expected at the next sessions of the annual conference.

It is respectfully requested that by conference action you renew your pledges to promote, by every legitimate means, this cause which promises so much to the itinerant servants of the church. The preachers in charge of stations, circuits and missions, and the lay members, may consider their relations and their duties to this work committed to them. Let a collection be made in every congregation.

Dr. Watkins, the agent, should receive the heartiest sympathy and the most unflinching co-operation of all preachers and people. Let the good work go on to a grand consummation.

In order that this commendation of the endowment fund may have undivided attention and universal support, it is thought that the conferences should designate, for a time being, one or more efforts to build up conference endowment funds.

Committing ourselves to the protection and guidance of a superintending Providence, we are, fraternally yours,

ANSON WESPE, President.
D. C. SCALES, Sec. and Treas.
Board of Trustees, M. E. Church, South, Nashville, Tenn., August 12, 1903.

The board of church extension reported as follows:

The payments for church extension during the fiscal year ending March 31, 1903, amounted to \$7,831.56, and the receipts for the same period, \$5,755.48, and the highest figure attained since the organization of the board and yet \$2,165.99 short of the assessment. Ninety-five churches have been added, with donations amounting to \$33,629, and six churches with a total of \$67,787, by the general board.

The conference boards added 349 churches with donations amounting to \$37,560. The Northwest Texas conference has been assessed \$5,763 and paid \$3,664.40.

In the twenty-one years of the history of the board of church extension, the Northwest Texas conference has contributed \$47,822.48 on assessments, \$1,015.57 on special collections and during the same period has received in donations \$37,748 and in loans \$25,250. The board reports that of the 14,872 churches now owned, 5,269 have received aid. The property in churches increased \$2,050 during the past year.

The board reports 3,025 societies without houses of worship, of which 305 are in the Northwest Texas conference.

The joint board of publication made a report on the Advocate published at Dallas, saying: "The tendency of the general press is to abandon the religious press. It is a serious problem which confronts all papers of this character." The report compliments Editor George C. Rankin and announces his re-election. It also recommends the re-appointment of Rev. G. W. Owen as financial agent.

The general secretary of the Epworth League shows an increase of forty-nine league chapters and 2,480 league members. The number of league chapters chartered since the league movement began is 7,079. The number chartered during the past year is 556, which is an increase of eighty-two over the number last year. The general minutes indicate \$20,000 was last year given to the cause of missions.

The board of managers of the Methodist

orphanage reported the institution to be in a gratifying condition.

The board of trustees of Clarendon College reported the institution in a prosperous condition. During the past term 263 students were enrolled. Nine teachers are employed. The school property consists of a three-story brick school building. During the past year \$2,500 has been expended in improvements. The property is valued at \$18,000.

SORE THROAT

Should not be neglected for an instant as it may lead to asthma, bronchitis, grippe, pneumonia and consumption. As soon as you feel that tightening sensation in the throat take a dose of Dr. Bull's Cough Syrup and you will get quick relief. There is nothing else so good for all diseases of the throat and lungs as

DR. BULL'S COUGH SYRUP

THE ONE THAT CURES

My boy had a very severe sore throat and cough. I tried many different cough medicines for him but he found no relief. I was advised to use Dr. Bull's Cough Syrup. After taking half a bottle, he was completely cured. When anyone has a cold accompanied by a cough, I immediately give him a dose of the famous Dr. Bull's Cough Syrup. I recommended it to my friends, and those who tried it were well pleased with the results. Mrs. Mary E. Weatherly, 1719 Snyder Ave., Philadelphia, Pa.

AVOID SUBSTITUTES. Many unscrupulous dealers are trying to substitute cheap and worthless imitations for Dr. Bull's Cough Syrup. Insist on the genuine which has cured coughs and colds for fifty years, and look for the "Bull's Head" trade-mark on the wrapper. Price 25c, 50c, and \$1.00. A. C. Meyer & Co., Baltimore, Md.

TO CHECK REINFORCEMENTS

WASHINGTON, Nov. 11.—Upon receipt of advices yesterday that several British vessels were to be chartered to transport Colombian troops from Buena Ventura to the isthmus, the navy department ordered Boston to proceed to Buena Ventura and in event of troops starting for the isthmus to notify the commanders so that they will be prevented from landing. The navy department announces that no attempt will be made to interfere with British vessels on the high seas.

Buena Ventura is on the west coast of Colombia and is the nearest seaport to Bogota. In order to reach it, government troops would be compelled to march over the mountains from Bogota (there are no railroads) a distance of 200 miles. From Buena Ventura to Panama by water is about 400 miles and it is estimated that it would require one month to move any considerable body of soldiers from Bogota to the isthmus.

BOCAS DEL TORO CAPTURED

COLON, Nov. 11.—The steam launch sent to Bocas Del Toro to capture that place in the name of the new republic of Panama, has returned and reports that no difficulties were encountered. The majority of the population of Bocas Del Toro are natives of Panama and gladly accept the change. Bocas Del Toro is almost the extreme western point on the northern side of the isthmus and is about 200 miles west of Colon.

METHODIST MISSION

General Conference of Northern Church in Omaha
OMAHA, Nov. 11.—The General Missionary committee of the Methodist church, north, met in Omaha today to review the work of the last year and to discuss plans for the future. The committee is composed of the bishops of the church, the officers of the missionary society, and fourteen representatives each of the general conference and the board of managers of the missionary society.

Reports to be presented to the meeting shows the past year to have been the most successful financially, through which the society has passed since its organization in 1825. The increase in missionary contributions during the year over those of the previous year was more than \$150,000, a showing that is regarded as remarkable, in view of the fact that the receipts of the last fiscal year were \$112,000, ahead of those of two years ago. The increases of the past few years are credited to the educational policy of the society, which systematically

JOHN W. GATES WINTERS IN TEXAS

CHICAGO, Ill. Nov. 11.—At the first flurry of snow John W. Gates, the magazine financier, has taken his departure for a milder climate.

He has left on his private yacht Roxana, starting from La Salle, Ill., and his destination is Port Arthur, Tex.

He has a winter-home at Port Arthur, and he will there seek to recuperate his health and find freedom from the cares of the world of finance for a number of weeks.

His son, Charles G. Gates, accompanies him, coming from New York for the purpose of taking the trip on the Roxana.

HER BURDEN TOO HEAVY

Little Girl Tries to Kill Herself Because Overworked

SOUTH NORWALK, Conn., Nov. 11.—Lily Seet, 14 years of age, the foster mother of her uncle's five children—the oldest about her own age—and the housekeeper and guardian of her uncle's house, tried to kill herself by swallowing Paris green because she said she was tired of being overworked.

For more than a year Lily has been the housekeeper for her uncle Richard Fay, who is a widower with five small children, and the whole care of the house and her infant charges fell on her young shoulders. She may recover.

GUTHRIE IS WORKED UP

Prospect of Securing Missouri Pacific Extension Is Good

GUTHRIE, Okla., Nov. 11.—The citizens of Guthrie are much worked up over the visit here during the latter part of the week of a number of Missouri Pacific railroad officials. It is known that the Missouri Pacific for some time has been

planning to enter Oklahoma, and that a line southwest from Coffeyville, Kan., has been surveyed through this city toward Kikland, Tex. The chartered southwestern terminus. The fact that Attorney Doolittle of the Missouri Pacific at Coffeyville was with the party here, has had sufficient effect to arouse the people to new hopes of securing a Missouri Pacific extension. The proposed line was surveyed and chartered under the direction of R. S. Hall of Stillwater.

RECEIVING VALUABLES

Pacific Express Company Sends Notice to Austin Agent
AUSTIN, Tex., Nov. 11.—(Special.)—Agent Pat Leachridge of the Pacific Express company was advised yesterday from headquarters to accept money and other valuables for transportation, the same as prevailed before the strike, which ended a few days ago.

When the strike was inaugurated the offices situated in all towns affected by the strike were notified not to accept money or other valuable packages for transportation, as it involved too much risk, and then the few men who took the places of the strikers were not bonded, as is generally required.

Chief Clerk Basford of the local office here stated last evening that all of the new men had been properly bonded and the transportation of money and other valuables would be received as before the strike. He also stated that quite a number of the associations to encourage this feature and eventually make these "safe days" general along the line where associations have been organized.

Mr. Hill says that the Santa Fe is going to assist the Texas farmers in these associations and will offer a cheap rate to the breeders in the north to bring their stock to Texas and exhibit them on these safe days, and if possible induce Texas farmers to buy this stock for the purpose of breeding up a higher grade of stock of all kinds.

In order to assist in the work there is now a plan on foot to give a series of country fairs along the Santa Fe, beginning at Galveston and extending them to El Paso and Navajo. The first fair is to be held early next fall and will continue about two months. The Santa Fe expects to give the northern stock breeder a cheap low rate so that he can bring his stock to Texas and exhibit them at these fairs. An effort will also be made to induce World's Fair visitors to come to Texas at this time on a low rate that it is hoped can be secured from all the railroads.

ARRANGING FOR PACKER EXCURSION

Santa Fe Plans Another Trip.

Road Is Encouraging Farmers to Raise Fruits, Vegetables and Alfalfa

L. C. Hill, horticultural and industrial agent of the Gulf, Colorado and Santa Fe Railroad Company, is here today on his way to Kansas City to arrange for the second annual excursion to Texas of the Kansas City packers' excursion, similar to the one which came to the state last season, carrying about 100 of the whole-sale dealers in fruits, vegetables, etc., at various northern market centers. Mr. Hill has information that leads him to believe that the coming excursion, which will be run during next month, will be very much larger than last year.

"The conditions along the line of the Santa Fe are very fine," said Mr. Hill, "and I feel very much encouraged over the prospects of being able to locate many prosperous farmers in Texas on our road who will engage in fruit and vegetable growing, besides raising blooded stock, particularly hogs."

Mr. Hill says that new farmers' associations are being organized at various points along the Santa Fe as a result of that company's efforts to settle up the state. He says that associations have been formed at different places beginning at Purcell, and covering an area extending as far as the southwest in Texas as Bronson. These associations have a total membership of from 4,000 to 5,000, and are rapidly growing. The members are being encouraged by the railroad company to grow fruits, vegetables, alfalfa and hogs. The associations this year will set out about 4,000 additional acres in peaches. The variety to be used is the Elberta, which does well in Texas.

Mr. Hill says that the present estimate of seed potatoes to be planted by the associations along the Santa Fe this year will reach more than 100 car loads. Last year the number used was about forty car loads, showing that the average of seed potatoes to be planted this year will be more than doubled.

Another innovation to be introduced by the Santa Fe company among the farmers along its line this season will be the introduction of registered thoroughbred hogs in an effort to breed up the stock with the native hogs. Mr. Hill thinks that with the assistance of the railroad the farmers will be able to very much improve hog conditions in Texas, especially along that road. The Santa Fe desires to encourage the breeding up of hogs in the territory through which that road runs and will give every encouragement to the farmers who wish to engage in this business.

Another feature in which the Santa Fe is interested is the holding of sale days at the various county seats along that line. The first one to be held occurred at Navasota a few days ago and the attendance was in the neighborhood of 3,000, says Mr. Hill. He says that there were on display second growth potatoes that were very fine. Pears that weighed two pounds and measured fifteen and a half inches in circumference were also shown at Navasota. The merchants of the town offered prizes for the best displays which is intended to encourage the farmers to bring their stuff to town. It is the intention of the association to encourage this feature and eventually make these "safe days" general along the line where associations have been organized.

Mr. Hill says that the Santa Fe is going to assist the Texas farmers in these associations and will offer a cheap rate to the breeders in the north to bring their stock to Texas and exhibit them on these safe days, and if possible induce Texas farmers to buy this stock for the purpose of breeding up a higher grade of stock of all kinds.

In order to assist in the work there is now a plan on foot to give a series of country fairs along the Santa Fe, beginning at Galveston and extending them to El Paso and Navajo. The first fair is to be held early next fall and will continue about two months. The Santa Fe expects to give the northern stock breeder a cheap low rate so that he can bring his stock to Texas and exhibit them at these fairs. An effort will also be made to induce World's Fair visitors to come to Texas at this time on a low rate that it is hoped can be secured from all the railroads.

TO STANDARDIZE ALL LINES

All Harriman lines are to be standardized, making interchangeable the different parts of the equipment of the Chicago and Alton, Union Pacific, Southern Pacific and Oregon Short Line railroads.

The scheme is said to have long been a pet one with President Harriman, and he has determined to begin the work immediately. Plans and specifications for this work are now being prepared at Omaha which will require many months to complete. When completed any part of any piece of rolling stock of each road can be duplicated at any shop on each road. Much time and work will be saved in the difference

ent shops when the changes are completed.

GROSS RAILROAD EARNINGS

The gross earnings of twenty-five roads were for the four weeks of October \$10,553,490, against \$9,901,055 for the fourth week of October, 1902, an increase of \$652,435. Twenty-one roads show increases and four decreases. Since July 1 the roads referred to above earned \$112,817,298, an increase of \$10,203,757 over the \$102,613,541 reported for the corresponding period last year. For the longer period twenty-three roads show increases and two decreases.

For the month of October twenty-six roads earned \$31,240,512, an increase of \$1,803,776 over the \$29,436,736 reported for the month of October, 1902.

PASSENGER AGENTS MEET

The general passenger agents of the country are all gathered at New Orleans this week to attend the national convention. Fort Worth is well represented. The meeting is largely social and about the most important matter to consider will be the next meeting place. There are three cities after the 1904 convention—St. Louis, City of Mexico and El Paso with chances largely in favor of the World's Fair city.

QUICK TIME TO ST. LOUIS

The Washburn railroad company has made preparations for running trains between Chicago and St. Louis during the World's Fair in six hours, or two hours less than the running time of the fastest train now in service. The company has already received twelve locomotives, guaranteed to haul a train of twelve of the largest and heaviest passenger cars at a speed of eighty miles an hour. These engines will be used also between Chicago and Detroit.

To avoid loss of time from stopping at water tanks, the Washburn will construct a number of tanks in the road between Chicago and St. Louis. The new engines were designed to take water from track tanks. When these tanks are finished the Washburn will run trains from Chicago to St. Louis with only one intermediate stop, at Decatur.

It is claimed that the new Washburn engines are the heaviest bringing passenger trains to Chicago. Each weighs 300,000 pounds, not counting twelve tons of coal and 6,000 gallons of water. The driving wheels are seven feet in diameter and the weight on the drivers is 90,000 pounds, which may be increased 5,000 pounds at the will of the engineer. The engines cost \$15,000 each.

HARRIMAN SYNDICATE EXPANDING

The Harriman interests are now planning to build railroads in China, and already a syndicate with great capital behind it is negotiating for railroad concessions in that kingdom with the intention of constructing a number of important lines. One agent of the syndicate has gone to China to secure concessions and make other arrangements.

There is said to be one very grave obstacle in the way of building roads in China and that is the reverence of the Chinese for the graves of their ancestors, but this is discovered to be a mistake, as the Celestials are always willing to move graves for consideration as was shown for the line from Han Kow to Peking.

FAST LETTER SERVICE

When it comes to sending a letter 3,200 miles and getting a reply within two weeks it is necessary to fall back on American ingenuity and brains. This fact has just become known through the change in the sailing schedule of Uncle Sam's only trans-Atlantic passenger company, the American Line, from Wednesday to Saturday. The United States postal authorities desired speedier mail facilities between New York and London, and the American Line officials solved the problem. They changed the sailing day and decided to take four weeks for the round trip voyage instead of three, so as to allow a week in each terminus for overhauling.

Here is the tale of a letter.

Posted in the New York postoffice early Saturday morning it leaves on the speedy American liner at 9:30. Early in the morning of the seventh day following it is delivered in London. By answering on the same day, the English correspondent can get his reply onto the return boat at Queenstown, so that in two weeks from the time the original message was posted in New York, its reply is received.

During the past year the American liners plying between New York and Southampton have been entirely refitted, making them the fastest quartet of ocean flyers afloat. Patriotic Americans will rejoice in this renewed evidence of the prosperity of this good old line.

With the addition of everything which naval architects can devise for the comfort of passengers, including a lively newspaper, The Trans-Atlantic American, which publishes the latest news received on board by Marconi wireless telegraph, the American Line offers inducements to ocean travelers excelled by no other company.

HOME REFUSES MONEY

Territorial Institution Unwilling to Accept Proceeds of Carnival

GUTHRIE, Okla., Nov. 11.—The Eagles' street carnival began here Monday and continues until November 14. There are many attractions booked and the features are arriving on every train. Close to the business portion of the city the management has secured a tract of several acres, where the features will be bunched. Balloon ascensions, horse racing and football games will be special attractions. The Eagles announced the proceeds would be given to the Territorial Rescue Home, located here, but in the pulpits of the churches Sunday the home management announced its refusal to accept the offer, because of the money being raised through a street fair.

THE GIRL'S SECRET,

Or the Right Message.

BY V. MOTT.

It's an awful thing to do, but I simply couldn't help it, said Nora. "My feelings ran away with my judgment. But I must go back and start from the beginning. That summer I began 'sour apples' but I could make play with my eyes. Afterward I received beautiful letters from him, but when he came to see me this winter I was feeling miserable, tired out and nervous; I suppose some people would call it irritability, or just plain ennui, but any way I felt cross enough to bite a ten-penny nail in two, and when Tom came around—well, I just couldn't stand him, and so I told him he'd better not call any more. Then Aunt Cassie came to visit us and she saw I was nervous, had the fidgets all the time, and she asked me many questions, and finally said: 'Why, you dear, sweet girl, it's not your temper that's bad, it's your constitution that's out of kilter. You sit right down now and write a letter to Dr. Pierce, at Buffalo, N. Y., tell him all your symptoms—and so I did. It was long before I had a long reply, carefully going over my case and telling me just what to do. I date my present happiness and little Cupid's return to the very day I sat down to write that letter to Dr. R. V. Pierce, for his advice was so good and his 'Favorite Prescription' worked such a complete change in me that now my former cheerfulness and good health—not to say anything of good looks—are restored to me—I have summoned Tom back to my side and we are to be married in June."

WOMAN'S WISDOM.
Experience is our best teacher, and it is only through experience that women generally gain a knowledge of themselves—from maidenhood to womanhood. The change involves the whole body and the future health, yet during these epochs many a woman is left without the necessary medical advice she should have. Dr. R. V. Pierce, a specialist in the diseases of women and the head of the famous Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., says that many a woman traces back a prolonged existence of invalidism to exposure and lack of care during the period of her early life. Too much brain work and little exercise out-of-doors also predispose to womanly diseases. The woman who neglects her health is neglecting the very foundation of all good fortune. For without health love loses its lustre and gold is but dross.

There is no alcohol in "Favorite Prescription"—from maidenhood to womanhood, cocaine, and other narcotics. It establishes regularity, dries weakening humors, heals inflammation and ulceration, and cures female weakness. It cures backache, headache, nervousness, sleeplessness and other consequences of weak womanly diseases which undermine the general health.

A book which every woman should have—whether married or single—is the "People's Common Sense Medical Adviser," by R. V. Pierce, M. D. Nearly two million copies have gone into the hands of women. The cost of mailing is 21 one-cent stamps, for paper-covered volume, or 31 stamps for book in cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

OFFERS AID IN FORMING SOCIETY

W. W. Dexter, President of Humane Society of Houston is in the City

W. W. Dexter, president of the Houston Humane Society, and an active state worker in the cause, who is in the city, says he notices the most flagrant violations of the humane ordinances in Fort Worth.

In speaking to a representative of the Telegram today Mr. Dexter said: "I am surprised to find no well organized society in Fort Worth for the prevention of cruelty to children and animals. Nearly every town in the state is taking up this important work. You might pave your streets with gold and they would appear hideous with the practice of cruelty and brutality such as I have witnessed upon them. Dallas, San Antonio, El Paso, Beaumont, Austin and many other places have active organizations. 'At Houston all the civic clubs, even to the kindergarten, co-operate with our society. The police and the chief

are in full accord with us, and it is seldom you see any phase of cruelty in our city. The chief lectures his men frequently on enforcing humane ordinances. The city attorney has just created an extensive ordinance in our behalf. 'I am here in the interest of your wonderful city and attended the annual meeting of the Board of Trade last night. The thought occurred to me during the speech making in behalf of commercial greatness, what a grand and noble step this body could take in behalf of humanity. 'I stand ready to co-operate with any number of good people who desire to organize a humane society in this city, and will give them the benefit of all I know. I organize a society wherever I go, if possible. Will meet any one interested in the work and lay the plans for action. My residence while here (for a few days) is the Worth hotel."

Market Quotations

The quality of cattle offered on the market today was only fair, but with a moderate run trading began early and a brisk movement to the scales was kept up all the morning. Ten or twelve loads of common to fair quality steers were offered at the northern division and sold at prices ranging from \$2.00 to \$2.50.

The cow run fell below the average both in quality and receipts. With the exception of a few small sales of choice range cows at \$2.25 to \$2.50, the best carload lots sold at \$2.15, with the bulk of sales at \$1.50 to \$2.00. The usual light run of calves sold at unchanged prices. One good bunch of 31 head brought \$5.50, with some of the extremely common stuff selling as low as \$1.15. There was some improvement in the bull market today and the moderate supply sold steady and active. One heavy fat bull, weighing 1,250 pounds, brought \$2.00, with the bulk of sales at \$1.65 to \$1.75.

The local hog market today opened 5 to 10 cents lower, but the feeling among the buyers and sellers was better and the entire run changed hands on the morning market. The quality was good, though nothing extra choice was offered and the usual run of territory butchers of medium weight sold largely at \$4.50 to \$4.75, with an extreme range in sales from \$4.75 to \$4.90.

The local market today sold in line with Kansas City; top hogs at the market being around \$4.90 and the bulk at \$4.75 to \$4.85. The demand for choice pigs this week has been good, but the proportionate run of this class of stuff has been light, hardly enough coming in to give the market a fair test. Choice sorted Oklahoma hogs weighing from 200 to 250 pounds are quoted at \$4.90 to \$4.95, mixed and butchers of good quality at \$4.75 to \$4.90 and pigs and lights at \$4.75 to \$4.90.

SAN ANTONIO, Texas, Nov. 11.—No new cases of fever and no deaths were reported up to noon. There was a brisk northerly this morning. Frost is predicted for tonight.

HITCHCOCK MAY BE FORCED TO QUIT

WASHINGTON, D. C., Nov. 11.—(Special.)—Secretary Hitchcock has appointed the legal firm of Pitzkeburg & Nagel of St. Louis to distribute \$4,000 now in the United States treasury to the Cherokee of the Indian Territory. As the case has been in court and judgments rendered, there is practically no work to be done and the attorneys' fees are estimated at from \$125,000 to \$150,000. The appointment is looked upon as a handsome gift to relative Nagel being related to Hitchcock by marriage.

It was learned today Secretary Hitchcock had decided on his relative several months ago, and had always pretended that the place was vacant to candidates. Missouri and Kansas politicians are indignant and are after Hitchcock's scalp. It looks as if he will be obliged to step out.

ARMY REPORT IS MADE PUBLIC TODAY

WASHINGTON, D. C., Nov. 11.—The annual report of Acting Adjutant General Hall of the army was made public today. It deals with every phase of the military establishment. The actual strength of the army Oct. 15, 1903, was 2,681 officers and 55,500 enlisted men. There were lost to the army during the year ended June 30, 23,275 men, including 138 officers, of whom 65 were killed in action or died of wounds or disease. The remainder represented discharged men for expiration of the term of service or disability.

The total number of militia, including officers, is given as 116,542.

BECHIN

Mrs. Christina Bechin, wife of John Bechin, died last night at her home near the stove factory. Mrs. Bechin was 58 years of age and was born in Germany. She had lived in Fort Worth six years. Besides her husband, she leaves eight children. The funeral will be held at 9 o'clock tomorrow morning from the house and service will be held in St. Patrick's church at 10 o'clock. Burial will take place at the Catholic cemetery.

DENVER, NOV. 11.—Based on the decision of the court of appeals that railroad corporations can be forced to pay taxes assessed against them through receivership proceedings, an application has been made in the district court for a receiver for the Rock Island railroad. The complaint alleges that the railroad owes the county of Arapahoe \$12,335 in taxes, making a total of over \$15,000.

ANDERSON TELLS WHAT FEED FARMERS WANT

Editor Fort Worth Telegram.

In your issue of Friday, Nov. 6, in an interview concerning the marketing of Panhandle calves in the older upper states, the "type" makes it read that there is "no pedigreed stuff" in the Panhandle. What should have been said was that we have the largest and best bred herd of non-pedigreed cattle bred along beef lines in the world. We also have many pedigreed herds of all the beef varieties, both on the plains and in the Pecos valley, of such degree of excellence as to compare favorably with any other section. These cattle, both of the pedigreed and non-pedigreed kinds, have had the peculiar advantage of having been fed for the last quarter of a century exclusively along beef lines, while nearly all other portions of the country have combined their efforts along milk, butter and cheese lines. Hence environment favors the beefing qualities. Peculiarly favored Texas nature in establishing on a wholesale basis a greater number of pure bred herds than any other section of America. Land laws regarding ownership and collateral influence have all tended to bring about these results. This is why Texas bred cattle are sought by the "feed farmers" of the older states, who appreciate that early maturity, with the most flesh in the smallest, superficial, with the least number of days for age, giving the greatest average gain per day, is the most profitable animal to feed for beef. It has been demonstrated that a pure bred Texas calf weighing 400 pounds will double its weight in six months, weighing at 12-months-old on full feed, 800 pounds; at 18-months-old, 1200 pounds. Thus maturing with an 800-pound gain on less feed than it takes to put 400 pounds on a 4-year-old steer. Colonel C. C. Slaughter has on feed at Rushville, Indiana, fifty head of steers that weigh now upward of 1500 pounds at an average of seventeen months. They were intended to be prepared for the show of 1904, but owing to the fact that there will be no class of car lot exhibits at the Louisiana Purchase Exposition, I understand they will go into the yearling class at the International show this fall.

Thanking you for your kindly attention in the promotion of the public spirited cattle interests of Texas, I am Respectfully yours,
W. P. ANDERSON.

PENITENTIARY BOARD MEETS AT AUSTIN

AUSTIN, Texas, Nov. 11.—The court of civil appeals has affirmed the case of the International Railway vs. R. S. Kilgo, from McLennan. It refused a re-hearing in the case of the Santa Fe vs. A. F. Brown, from Bell county, and dismissed the second motion for a re-hearing filed by the appellant in the case of the Santa Fe vs. J. L. Roane, from Bell.

SENSATIONAL OIL SUIT IS PROMISED

BEAUMONT, Texas, Nov. 11.—(Special.)—Litigation arising from the discovery of oil at Batson's Prairie was filed in the Beaumont Federal court and will probably develop a sensational case. The plaintiff is H. A. Phillips of Pittsburg, the defendants, the citizens of Liberty and Houston. The plaintiff claims the right to develop the land under an old lease. The defendants say the action is prompted by the Guffey company and announce that intention of filing suit against that concern in the state court and to prove it a creature of the Standard Oil Company.

DELEGATION VISITS SECRETARY

WASHINGTON, D. C., Nov. 11.—The Texas delegation to the annual meeting of the National Association of Secretaries of State, which was held at the Hotel Hamilton, was here today. The delegation was composed of Messrs. J. W. Adams, C. P. & T. A., and J. T. Whalen, G. W. P. The delegation was met by the secretary, Mr. J. W. Adams, and the members of the delegation were shown the various exhibits of the association.

STRIKE IN COLORADO

DENVER, Colo., Nov. 11.—Reports from all coal camps where the miners are on strike are to the effect that good order is maintained. The Trinidad union headquarters received a request from the coal districts for 500 men and Iowa has asked for 150. These will likely be furnished. The number of miners on strike in the southern field of this state is estimated at 7,000 and all told 10,000 men are out.

DO YOU WANT SEEDS?

The annual distribution of seeds by the government is about to begin, and constituents of all members of congress are soon to receive these courtesies.

For years the department of agriculture has been cultivating a taste among its rural citizens for garden and truck vegetable seeds, and it is now reaping the benefit in the form of an appetite for seeds that seems almost unquenchable. Now that "the frost is on the pumpkin and the fodder is in the shock" the farmer has begun to turn his attention to next year's garden. He looks to Uncle Sam to supply him with the necessary seed. Year by year he has grown more exacting, until now the government at Washington finds that it will require 1,000 tons of seeds to meet the demand.

One thousand tons of seeds! If every one were planted and escaped the much hated insects and blackbirds, what a harvest there would be! The cost of supplying the demand this year will be \$70,000, which amount has been appropriated by congress. Every senator, representative and delegate will have the festival of 12,500 packages. What an opportunity to get solid with the country vote! The department itself will send out 700,000 packages to correspondents and about 800,000 packages to weather bureaus, experimental stations and agricultural colleges. The city constituents will receive flower seeds, and the rural constituents will get their allotment of vegetable seeds.

The history of this annual seed distribution would make an interesting study. It began years ago in a small way, when the favored few friends of the department and of the senators and congressmen were supplied with small quantities of seeds. Each year the amount of seeds distributed has increased, until now the day of arrival of the consignment of government seeds is made a holiday by the country people.

The country postoffice is generally the country store. The country store is the loafing place for those from miles around, and when the seeds arrive at these rural precincts there is a holiday. The farmers talk about their prospects, they discuss the seeds they have received, they call the congressman by his first name, and wonder if he has personally picked out the best for them, and finally they decide he is one of the best fellows in the world. If the seed do not mature satisfactorily, they cuss the fellow who sent them. If they do mature, he is praised. Send on your seeds.

THE BOLL WEEVIL

The Evening Wisconsin of Milwaukee discusses the boll weevil convention held last week in Dallas, and brings in a case of the destruction of silk culture in France. The Wisconsin says:

When silk culture in France was threatened by the disease of the silk worm known as perle, the French government engaged Prof. Pasteur to make researches into the cause of the blight and to devise a method for its cure. He studied the subject for years, and found that the disease was due to a minute plant organism, propagating itself within the bodies of the silk worms, and destroying them by thousands, as cholera destroys human beings. He also found how to put a stop to the ravages of the plague. His method was adopted, and the French silk industry was saved. It must be as practical to circumvent the boll weevil as it was to diagnose and conquer perle. The experts at the department of agriculture have worked before them worthy of their utmost keenness and energy.

The Wisconsin may not know about it, but the state of Texas has done that very thing. There is today a standing reward by method by which the boll weevil is exterminated. The prize is \$50,000, and whether it be a chemist or a farmer who discovers the method, he will receive him. This is as good as a reward.

One of France were to who can find such a reward will be as good as a reward.

tive, this state will welcome the solution of a difficult problem. Let scientists the world over study the question, and they will have every opportunity for a proper competition.

WHY FREE TRANSPORTATION?

The Telegram does not subscribe to the policy suggested by some of the newspapers that the legislature pass a bill requiring the railroads to provide the members of the legislature with free transportation. Why should such be the case? By what reasoning can it be figured that it is right to compel the roads to give of their source of revenue to elected officers of the state?

The Terrell Transcript says:

Commenting upon some of the talk that is being had about the giving of railroad passes to legislators, the Transcript remarked a few days ago that it might be a good plan to make the giving of passes to legislators compulsory, and then the transaction would not be open to the imputation of a species of bribery. A number of newspapers have commented upon the suggestion with favor. The proposition looks good, provided it can be accomplished. The Transcript has no constitutional lawyer in its employ, and is not prepared to say whether such a plan would be constitutional—that is, whether the railroads could be forced to provide legislators with transportation. It would result in no pecuniary loss to the railroads, since they provide the transportation of their own accord.

The Telegram makes the argument that a law should be enacted which will prohibit the members of the legislature and other officers of the state, together with officers of counties, from accepting these "courtesies" from the railroads. The origin of the custom may have been a very proper use of it, but the time has come when it is being abused, when legislators and others take advantage of the positions they occupy, and railroads are made to suffer by it. Therefore the best thing to do is to stop it altogether. Legislators get mileage and per diem, they accept the positions knowing that mileage and per diem only is allowed them, and they should be satisfied. There is no more reason why they should have free transportation than free newspapers, free soap, free towels or free bread. Take from them the temptation of free transportation, let them weigh argument for and against the railroads, and he not influenced by the courtesies which they ask of the railroad companies, and then the state will be better off and so will the railroads.

The Transcript argues that the railroads provide free transportation of their own accord. Not always. There are demands upon these roads by officers of counties, cities and the state which the managers of large interests are afraid to refuse, and they do not refuse.

Brownwood has a carnival on this week and the people from the surrounding country are attending. Brownwood never does things by halves, and the prospects are it will be one of the biggest things in West Texas.

At Brenham Stephen Felchak and Miss Annie Koepchinski were married, and the ceremony was performed by Father Sczymanski. These names could never live a day through a school in which phonetic spelling had been adopted.

If you don't think Fort Worth will have one asphalt street, just watch the work being done on Houston. The Telegram kept at it until the contractors commenced.

The railroad commission does not need a literary bureau. Commissioner Coquitt supplies the demand and is generally in the papers.

SHORT STORIES

ONLY A FRIGHT

Andrew Carnegie, at the opening of the autumn conference of the Iron and Steel Institute at Barrow-in-Furness, England, told an old little story from his vast collection of Scottish anecdotes, says the Evening Post.

"A Scot," he said, "was unhappy because he had lost his money. He borrowed a loaded gun, and with a desperate look started toward a dismal fen. The owner of the gun, a little anxious, bawled after him to know if he was going to commit suicide. He bawled back: 'Not just that. I'm only thinkin' o' gaein' down to the fens to gie myself a confounded fright!'"

DOCKSTADER ON MORGAN

Lew Dockstader tells the following story on J. Pierpont Morgan: "Once upon a time," said Mr. Dockstader, "Mr. Morgan took a notion into his head that he wanted to own a New York newspaper, and as he usually wants the best, he called to James Gordon Bennett in Paris: 'Cable quick lowest price, New York Herald.' 'The answer that came was both short and direct: 'Three cents daily and five cents Sunday.'"

NO GETTING AROUND IT

George Bruce Cortelyou, while secretary to President McKinley, one morning sat before an assessment of money, getting ready to reduce its proportions. Secretary Long, passing through the room at the time, extended the sympathy of a man familiar with the contents of so many letters.

"Mr. Cortelyou, are you sitting enraptured before an Egyptian pyramid?" asked the head of the navy.

"The Egyptian pyramids have an advantage," answer the former Cortelyou, "You can go around them, but there's no getting around the one on my desk. You have to go through it."

MISS KENNEDY'S STORY

Elizabeth Kennedy, who was in Mobile last week, tells a very good story about an old gentleman who lives at Bensonhurst, where she has her summer home. "This old gentleman, whom I will call Mr. X," said Miss Kennedy, "wrote a very bad hand. One day he sent a note to his grocer, asking him to send around some provisions. He waited until nearly dinner time, and as the supplies did not come, he put on his hat and went around to see what was the matter. When he arrived at the grocer's he found that he had been unable to decipher the letter and had put it in his desk. Mr. X took it up, exclaiming as he did so: 'What, are you unable to decipher my writing?'"

"He then adjusted his spectacles and started to read it, but after a few words he stuck, completely baffled. He was, however, equal to the occasion. With a smile, he returned the letter to the grocer, saying: 'Well, this letter is addressed to you, anyhow. It is your business to read it, not mine.'"

WAS A GOOD PROPHECY

The novelist, Thomas A. Janvier, has lived for a number of years in France, and has collected many folk tales and anecdotes of the French peasantry, says the Kansas City Journal.

"I heard a story of a physician the other day," Mr. Janvier said, recently. "He was a physician of Providence, and one morning, stopping his rig, he entered into condescending talk with a tombstone maker.

"While the talk went on, the tombstone maker did not cease to work. He had a chisel in one hand and a mallet in the other. He was carving upon his tombstones the words, 'Sacred to the memory of —' and the rest he would leave blank.

"This proceeding, for some reason, amused the physician. Watching the stonecutter, he laughed heartily.

"Why," said the other, "do you laugh?" "Because your way of work amuses me," the physician said. "Do you always cut upon your headstones the beginning of the obituary, and then wait?" "No," said the stonecutter, "not always. When there is some one sick, and you are treating him, I keep right on."

IF YOU WOULD MANAGE HIM

(Home Notes.)
When you marry him, love him.
After you marry him, study him.
If he is honest, honor him.
If he is generous, appreciate him.
When he is sad, cheer him.
When he is cross, amuse him.
When he is talkative, listen to him.
When he is quarrelsome, ignore him.
If he is slothful, spur him.
If he is noble, praise him.
If he is confidential, encourage him.
If he is secretive, trust him.
If he is jealous, cure him.
If he cares naught for pleasure, coax him.
If he favors society, accompany him.
If he does you a favor, thank him.
When he deserves it, kiss him.
Let him think how well you understand him; but never let him know that you "manage" him.

FEDERATION OF LABOR

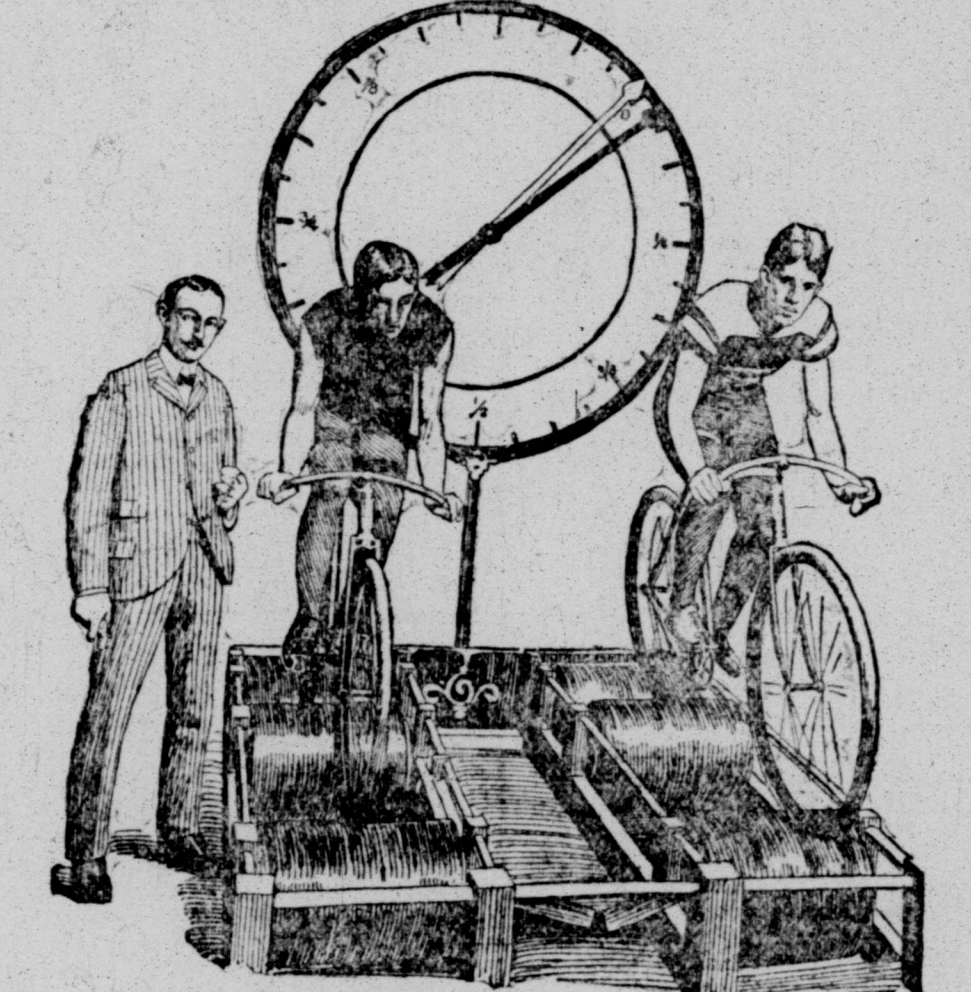

President John Mitchell of United Mine Workers Presided Yesterday

BOSTON, Mass., Nov. 11.—John Mitchell, president of the United Mine Workers of America, presided for a time yesterday afternoon at the convention of the American Federation of Labor, and he received a greeting from the delegates which was as sincere and spontaneous as it was enthusiastic. Cheer after cheer resounded through Faneuil hall, the place of meeting, both from delegates and spectators. It was Mr. Mitchell's first appearance as a speaker at the convention. The day was largely devoted to receiving reports from committees and disposing of the cases of protested delegates. The report of the executive council, a review of which the board had considered during the year, occupied the greater part of the forenoon session. The report declared the jurisdiction disputes between affiliated unions. It contained all the correspondence with President Roosevelt in the Miller case at Washington, but refrained from all comment on the matter.

The feature of the afternoon session aside from Mr. Mitchell's appearance as presiding officer, was the general discussion of the report of the committee on

NERVE AND POWER

Messrs. Walthour and Bill, World's Champion Roller Cyclists, Credit Their Power of Endurance and Nerve to DUFFY'S PURE MALT WHISKEY. They Say It is Their Only Stimulant and Tonic.

MESSRS. WALTHOUR AND BILL

While in Boston, on September 17, 1903, these gentlemen were interviewed by a newspaper correspondent as to what they used to give them power of endurance and keep up their nerve. Both replied: "We use Duffy's Pure Malt Whiskey, and nothing else. It is a great stimulant and tonic, it gives us more endurance than any food we ever tried; we do not know what we would do without Duffy's Pure Malt Whiskey, it keeps us from contracting colds and coughs when we are overheated."

DUFFY'S PURE MALT WHISKEY

is an absolutely pure, gentle and invigorating stimulant and tonic, builds up the nerve tissues, tones up the heart, gives power to the brain, strength and elasticity to the muscles and richness to the blood. It brings into action all the vital forces, it makes digestion perfect, and enables you to get from the food you eat the nourishment it contains. It is invaluable for overworked men, delicate women and sickly children. It strengthens and sustains the system, is a promoter of good health and longevity, makes the old young and keeps the young strong.

7,000 doctors prescribe, and 2,000 hospitals use Duffy's Pure Malt Whiskey exclusively. CAUTION—When you ask for Duffy's Pure Malt Whiskey be sure you get the genuine. Unscrupulous dealers, mindful of the excellence of this preparation, will try to sell you cheap imitations and so-called Malt Whiskey substitutes which are put on the market for profit only, and which, far from relieving the sick, are positively harmful. Demand "Duffy's" and be sure you get it. It is the only absolutely pure malt whiskey which contains medicinal, health-giving qualities. Look for the trade-mark, "The Old Chemist," on the label.

The genuine Duffy's Pure Malt Whiskey is sold by all druggists and grocers, or direct at \$1.00 a bottle. Write for free medical booklet containing symptoms and treatment of each disease and convincing testimonials to the Duffy Malt Whiskey Co., Rochester, N.Y.

ROBINSON IS APPOINTED

News That He Will be New Postmaster of Dallas Confirmed

The reports published in The Telegram last night from Washington to the effect that Captain D. A. Robinson, and not Acting Postmaster Joyce, would be recommended by the president for appointment, were confirmed last night. The appointment came as a great surprise in Dallas, where it had been regarded as almost certain that Joyce would be selected. Following is a sketch of Captain Robinson's life:

D. A. Robinson was born in Belmont county, Ohio, June 21, 1848, and there he spent his boyhood days and was given a good public school education. In 1866 he made Brookfield, Mo., his home, studied law and was admitted to the bar. After a residence there of seven years, he went in 1873 to St. Louis, and remained in that city until he came to Dallas in 1876. Here he was made chief clerk to the contractor who was constructing the Dallas and Wichita railroad, and when the road was in operation he was its superintendent.

Having lived in Dallas for three years, he went to Denton and engaged in the real estate business. Though a republican in politics, he was elected mayor of Denton, and while in that office, the only

political office he has ever held, he had the honor of erecting in Denton the first school building in Texas for the building of which bonds had been issued under the law allowing that manner of providing the necessary funds. Soon after the close of his term as mayor he returned to Dallas in 1888 and has since made that city his home. He has been chief deputy of the office of the United States marshal for the Fourth district of Texas for a little more than four years.

GOVERNMENT SATISFIED

With Present Status of Affairs in Panama—No Troops Will Be Sent

WASHINGTON, Nov. 11.—For the first time since last June all the members of the cabinet were present yesterday at a formal meeting.

The Panama situation was practically the sole topic of discussion. While Secretary Hay had little in the form of new developments to present, the situation with respect to the revolution, out of which has grown the republic of Panama, was considered thoroughly. Considerable approval of the president and Secretary Hay in the matter was given by the members of the cabinet. It is understood that further statements concerning the organization in the new republic, or the negotiations between Panama and the United States regarding the construction of the isthmian canal will not be made at this time. The situation, so far as American interests are concerned, are regarded to be in excellent shape.

The status of M. Philippe Buncue Varilla the representative in this country of the republic of Panama, was considered, but no statement concerning the matter was made at the conclusion of the meeting. If no change in the present situation should occur it is not regarded as likely that any additional naval force would be ordered to the isthmus. Certainly no land forces would be ordered to Panama unless the revolution should take a serious turn.

BEAUTIFUL MUSKOKA

The Grand Trunk Railway System has the advantage of having one of the most beautiful lake districts in the world, for by its line alone can the delightful Muskoka Lakes be approached. Notwithstanding this, the best of accommodations as to train service, comfort and convenience of passengers, are to be found.

The journey to Muskoka is one of the most beautiful imaginable. Every inch of the way offers scenes of picturesque beauty, from the smiling farm lands outside Toronto, to the emerald shores of Lakes Simcoe and Couchiching and later to the rugged and wild stretches of land on this side of Muskoka Wharf.

TAX PAYMENTS ARE BIG

Yesterday the Banner Day Since Mr. Gilvin Took Office

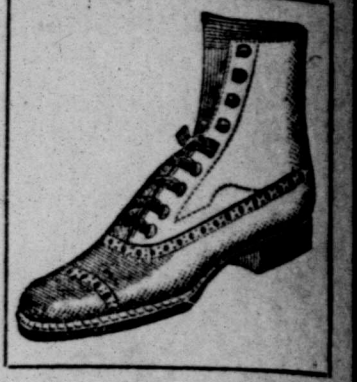

Yesterday was the banner day for city tax collections since Assessor and Collector Gilvin took office. It was the last day on which tax payers could take advantage of the 2 per cent reduction offered to them and the office force was kept busy all day stacking up the cash of prosperous Fort Worth. In the evening a hasty footing was made which showed that the day's receipts were \$21,951.06. The receipts of Monday were over \$18,000. The total collected since Oct. 10 is about \$90,000. The city is rapidly liquidating all debts accumulated during the money famine of last summer.

A collection of paintings valued at more than \$50,000, and a collection of trinkets and souvenirs gathered during a two years' sojourn in the far East, were destroyed recently by a fire in the studio of J. Ambrose Prichard, an artist of Boston.

Dear Madame

It seems only a few days since the children began going to school, or does it seem a long time? Of course it all depends upon the children. But they will have to go to school, and will want "SHOES," likely. Which leads us to say that all things considered, the very "BEST" place to buy them is at "THE FAMOUS." The Girls' Shoes we sell at \$1.24 for 8 to 11, and the Misses' for \$1.48. We want you to try. Also the BOYS' Shoes at same price. You may say "every store has shoes at that price," but the difference between theirs and ours has built up the big business "THE FAMOUS" does in SCHOOL "SHOES." And if you will try us, you will soon see the point. We sell another line—"SEAL WELT SHOES," and the best made shoe ever brought here. They cost 25c and 50c a pair more, but are worth it twice over. Hoping to see you at "THE FAMOUS" this week, we are,

WASHER BROS. BOYS'
LIBRARY MAKES HIT

That Fort Worth has about the most
wideawake set of boys in Texas has
been demonstrated to the complete sat-
isfaction of at least one man in the
last few days. The man thus enlight-
ened is Jacob Washer. He may have
suspected the fact before but since he
established the boys' library at Washer
Brothers' store it has been borne in
upon him until he no longer has reason
to doubt it.

Mr. Washer calls it the "American

Boys' Library" and the books have
been carefully selected and are by the
best writers of boys' stories. They are
calculated to impart manliness and ap-
preciation of the good in literature as
opposed to the dime novel blood and
thunder stuff; they inculcate love of
the right sort of adventure and ro-
mance and the works of G. A. Henty,
perhaps the greatest writer of boys' books,
are prominent in the list. In the list
is to be found much designed to
inspire patriotism in the hearts of
the boys and it is put up in the form of
adventure, with the scenes laid at his-
torical periods so that the young
readers may obtain information as well
as entertainment.

In addition to the works of Henty,
among the authors who appear promi-
nently in the list are: Oliver Optic,
Horatio Alger, Jr., W. H. G. Kingston,
Captain Mayne Reid, Lieutenant Freder-
ick Garrison, U. S. A.; Ensign Clarke
Fitch, U. S. N.; William Murray Graydon,
Frank H. Converse and Captain
Ralph Bonelli and many others.

Mrs. May Elzli has been installed as
librarian and the library is conducted
on a system similar to the one in vogue
at the public library. Every boy whose
parents are customers at the store is
entitled to a card. One hundred and
sixteen cards were issued in the first
four days. Some of the boys are
averaging more than one book a day,
so fast do they read.

Washer Brothers also have in-
stalled a key ring check identification
system. Every male caller at the store
can have a ring and check for the
asking; his name and address will be
taken and if he ever should lose his
keys the finder may leave them at
Washer Brothers, or ascertain the
name of the owner by calling there.
This is similar to a system now in
vogue in many cities, which is con-
ducted by trust companies, the only
difference being that the trust com-
panies charge a fee while Washer
Brothers do it free.

PAWKETT DECLINES OFFER
After considering the proposition
for several weeks of becoming secre-
tary of the Galveston Chamber of Com-
merce, U. S. Pawkett has declined to
accept it and has notified the presi-
dent of that body. The proposition was
offered Mr. Pawkett some time ago,
and after investigating the proposition
he decided not to accept it, pre-
ferring to remain with the Internat-
ional and Great Northern railroad as
commercial agent.

In view of the refusal of Mr. Paw-
kett to accept the position, J. H. John-
son, who has held the place for a year,
and who was under contract with the
Chamber for three years, decided to
remain. It is stated that several other
names for the matter under consid-
eration and there may yet be a change in
the secretaryship of the Chamber.
Nothing definite could be learned here
today as to whether Edward Bead,
commercial agent of the Denver road,
has been tendered the place.

NOTES AND PERSONALS
S. G. Crowley has accepted a posi-
tion in the local Katy office as assist-
ant city and ticket agent. Agent E.
T. McDonald, Mr. Crowley came to
Fort Worth from Denison where he
was connected with the Katy.
The Katy has authorized a cheap
round trip rate to the State Floral show
which is to be given in Waco this week.
The rate will be \$2.55 from Fort Worth
for the round trip.

ELLIS COUNTY COURTS
WAXAHACHIE, Texas, Nov. 11.—
Bill Taylor, colored, is on trial in the
district court on an indictment charg-
ing him with an attempt to criminally
assault Lillian Jackson, a 9-year-old
negro girl.

A verdict was rendered Monday night
by the jury in the last civil case tried
in the district court. The style of the
case was Mrs. Margie Partain against
the Houston and Texas Central railroad
company, suit being brought to re-
cover damages in the sum of \$20,000.
The jury has been out since last Friday
night. A judgment for \$750 was award-
ed the plaintiff.

At yesterday's session of the com-
missioners' court an order was passed
transferring \$3,000 from the general
fund to the jury fund. This is the
third transfer made since local op-
tion became effective in Ellis county
one year ago.

Music and Drama

Friday and Saturday nights—Eliza-
beth Kennedy in "As You Like It."

"Her Only Sin" was presented at
Greenwall's last night and at a mat-
inee yesterday, on each occasion to a
very fair audience. The company, how-
ever, was not up to its usual stand-
ard, as changes in the cast were made
necessary at the last moment. At noon
yesterday two members of the com-
bination, the leading man and the in-
genue "jumped" their engagements,
and it was necessary to provide against
the condition immediately. Frank
Durant was called upon as an under-
study, the lead, to take the part
and he proved equal to it, under the
circumstances, and showed plainly that
he will be capable of handling the part.
There was no understudy, however, for
the ingenue, among the members of the
company, but Miss Lella Walton of
this city, a student of dramatic art,
accepted the task and was soon suf-
ficiently "up in the lines and busi-
ness" to take the part, and gave a
credible interpretation of the char-
acter of Gabrielle de Blois. The
scenic effects of the play were very
good, and altogether a creditable per-
formance was given.

A TELEGRAM FROM AUSTIN
Manager Phil Greenwall received a
telegram this morning from Manager
George H. Walker of the Hancock
opera house at Austin, which reads:
"Elizabeth Kennedy in 'As You Like
It' is the best company, performance
production of the season. Miss Ken-
nedy makes a bigger hit than she did
last season in 'Captain Hinks of the
Horse Marines'."

Manager Greenwall is pleased to get
this information regarding the show,
and he is satisfied the performance
will be just "as you like it" in every
particular.

ELIZABETH KENNEDY
Miss Elizabeth Kennedy, a charm-
ing young Southern actress who cap-
tured our hearts last season in her
artistic portrayal of Madame Tren-
ton in Clyde Fitch's clever comedy
"Captain Hinks of the Horse Marines,"
will show us a new Rosalind in "As
You Like It." She will bring us an
entirely new and elaborate scenic
equipment and has surrounded herself
with an exceptionally strong support-
ing company. John Webster will play

Orlando. Mr. Webster formerly played
leading roles with the late Stuart Rob-
son. Miss Fanchon Campbell assumes
the role of Celina, she formerly played
the leading role of Princess Flavia
with James K. Hackett in "The Pris-
oner of Zenda." Miss Nora Donley, a
nice of James Bowles, inventor of the
famous "Bowles knife," plays Phoebe,
a role she played in Henrietta Cros-
man in her revival of "As You Like It."
Charles B. Kelley, he played this role
for ten years with Madame Modjeska
and others. Mr. Kelley wrestled with
Maude Barrymore at the Madison
Square theater, New York. Others
prominent in the large supporting
cast.

FIVE YEARS FOR
THOMAS TRIPLET

Man Who Plead Guilty to For-

to Prison

VINITA, I. T., Nov. 11.—Thomas W.
Triplet was placed in the United States
jail here yesterday awaiting the knowl-
edge of the famous Katy prison car know-
as Ten Spot for Fort Leavenworth, Kan.
Triplet, who was a deputy clerk, pleaded
guilty last week to eleven indictments for
forgery and uttering forged papers in
the United States court at Tahlequah. He
was brought before Judge Gill, and many
pleas of mercy were made and Judge Gill
finally gave him five years in the United
States penitentiary at Fort Leavenworth,
Kan. The sentence was for five years in
each of the eleven cases, but the terms
are to run concurrent, which means five
years, and then Triplet is free.

The offenses with which Triplet is
charged are forgeries in connection with
the work in the Cherokee auditor's office
as a result of which the Cherokees lost
\$151,000.

Triplet's friends plead for mercy for
him on the theory that he had tuber-
culosis, and they urged that if he was given
a long term he could not survive it. Triplet
is almost a full blood. He was ab-
solute to be at work when his bondsmen sur-
rendered him to the prison officials. He
has been working for some time as trans-
lator for the Cherokee Advocate.

NEW PRESS
ALMOST READY

The Telegram's new three roll press is
rapidly getting into a state of perfection
so far as the matter of erection is con-
cerned. It is a slow process to put one of
the big machines of the kind that graces
the floor of The Telegram's press room
into perfected condition. There are a
thousand parts to fasten on the machine
and after that comes the limbering up
process. Yesterday it was consumed in
"blanketing" (for they blanket a press,
too), the press and late last evening the
first sheet of paper was run through the
machine. Everything worked smoothly.
Today the ink rollers are being put into
place and a few days a visit to the press
room about 4 o'clock in the afternoon will
give an opportunity to see the machine
in operation.

The Telegram's new building at the

ONE ROMANCE IN
CANNON'S LIFE

Present Speaker of the House
Lost Sweetheart in
Indiana

WASHINGTON, Nov. 11.—There is at
least one romance in the life of Joseph
G. Cannon, the next speaker of this
house. When he was a youth in Indiana
before he moved to Illinois he was in
love with a fair country maiden named
Sadie. One night he took her to a coun-
try dance. As they were walking home
she said:

"Joe, I am going away."
"My heart stood still," says Uncle Joe,
in telling the story. "I loved that girl.
We stopped there under the winter stars."
"Where?" I asked, solemly. "I have been
scaled to the Mormons."

"I protested wildly. I said she must
not go, that I would not let her go, and
there I was, working for my board. I
hadn't a dollar in the world. She went.
I heard nothing more from her, but I al-
ways remembered her."

"Years after, when George Q.
Cannon of Utah, was in congress, he
brought me a petition. He asked me to
read it. It was a petition from the women
of Utah defending polygamy. I read the
petition and glanced at the names. One
name struck me as being that of a
lady who had the same first name as my
early love—Sadie. I took the paper over
to Cannon and said: 'Do you know that
lady?'"

"I do," said Cannon.
"Was her maiden name So and So?"
I asked, with a strange feeling in my
throat.

"It was," he said.
"Then," I almost shouted, "tell me, is
she No. 1 or 6 or 17?"

"She is No. 3, I believe," said Cannon.
"I wrote to that woman and told her
how pleased I was that she was happy
and in good circumstances. I found that
she was a doctor and one of the brightest
women in Utah. Years later I saw her
when I went to Utah."

Cannon stopped and took a meditative
chew of tobacco.
"Say," he said, "what do you suppose
would have happened if I had been work-
ing for more than my board?"

JAPANESE EXPERT
ON SILK INDUSTRY

He Says Japan Is Making Ar-
rangements to Further
Extend Its Trade

The Japanese government recently sent
L. Ichikawa, a Japanese silk merchant of
Yokohama, to the republic of Mexico for
the purpose of making a report on the
silk importations in Mexico. He was
commissioned by his own government to
investigate this matter and to also
gather such other information as will
lead to a betterment of this industry.

Mr. Ichikawa has just completed his
mission and is now on his way home,
and discussing the matter, he says: "I
found in my investigation that silks are
consumed in Mexico annually to the ex-
tent of \$250,000. Most of the silk is
however, imported through American and
German merchants. If you will examine
the official statistics on the subject, pub-
lished both in America and Japan, you
will see that importations from Japan
direct to the republic of Mexico to the
extent of \$100,000. You can readily see
that it behooves Japan to get into closer
commercial relations with Mexico, and I
think that when I make my report to my
government, arrangements will be made
by which more attention will be given to
looking after this market for our greatest
product. I have made arrangements for

conducting the principal amount of the
silk business direct with Mexico, and after
I return home I will make the same kind
of an expedition to South America."

Asked what he thought of a conflict
between Russia and Japan, he replied: "I
am of the opinion that the crisis in this
controversy has passed. I do not look
for a war between Japan and Russia,
for the simple reason that it would be
too expensive to both countries. Japan
I know, needs her money for improve-
ments. However, if war must come, Rus-
sia would much rather see it come than
two or three years later, for she is now
prepared."

"The results of such a conflict in-
volve more doubt than the world gener-
ally admits. The disparity in the size
of the two countries naturally gives un-
informed people the idea that Japan
would be readily crushed by her gigantic
antagonist. The people of the world
thought that when Japan first became
embroiled with China, yet the result
proved that the battle is not always to
the strong." Since Japan so effectively
whipped the great Chinese empire, the
people of the world have a better idea
as to her military potency, and it is far
from preposterous to say that we think
that we can cope with Russia in a fight,
large and powerful as she is."

OTTO KOEBER IS FINED

Man Who Tortured Horse to Death
Pleads Guilty at Lawton

LAWTON, Ok., Nov. 11.—Otto Koerber
of Sterling, Ok., pleaded guilty today
to having tied an unruly horse by the
feet and beat it to death. He was
fined \$50.

It was alleged that Koerber became
enraged at a balky horse in a field
and after tying it securely with the
help of his brothers, placed fire near
the animal and tortured it until it
died from the pain.

FORT WORTH BOARD OF TRADE ANNUAL REPORTS ARE HEARD

Meeting of Members Last
Night Largely Attended and
Six New Directors Are Elect-
ed—Directors Meet Today

There was much enthusiasm in the annual meeting of the Board of Trade last night and the attendance was quite large. Six new directors were elected to succeed J. W. Spencer, Dr. J. L. Cooper, W. B. Harrison, F. G. McPeak, W. G. Newby and W. T. Maddox. They were: W. C. Stripling, H. A. Judd, D. T. Bomar, John Weeden, William James and E. H. Carter.

The board of directors, it was announced, will meet tomorrow afternoon at 4 o'clock in board headquarters for the purpose of electing a president to succeed J. W. Spencer, who declines to be a candidate for re-election. A secretary will also be elected. R. B. Paddock, while he has never sought the office, will probably be re-appointed, as he has demonstrated that he is the right man in the right place. His efforts during the past year have shown that he has done much good for Fort Worth in the way of inducing business firms to investigate the advantages of this city. Besides this, he has filled the position acceptably to the board, and his re-appointment is certain.

The reports of the president and the secretary were read showing a very satisfactory condition of the affairs of the board during the year just passed. The reports also suggested the work to be accomplished during the next twelve months. Both reports were received with applause, and ordered given to the press. After this the election of a board was taken up, resulting as above stated.

During the time that the committee was selecting members to fill out the board of directors, Paul Waples, R. B. Paddock and W. W. Dexter, the latter of Houston, and formerly a citizen of Fort Worth, addressed the meeting. The drift of the talks was along the lines of "needs" in Fort Worth and what the citizenship should do to assist in building up the city.

Secretary Paddock especially dwelt upon the importance of securing a larger membership for the Board of Trade, and suggested that special efforts be made to secure additional members.

When the business of the board had been transacted a light repast was served.

PRESIDENT'S REPORT
President Spencer's report, in part, is as follows:
In approaching the close of my term of office as president of the Fort Worth Board of Trade, I desire to thank you sincerely for your patient and courteous support in the many measures undertaken for the up-building of our beloved city of Fort Worth. These measures are, too numerous to enumerate at this time, but many of the most important ones are stated herein. Nothing short of your personal aid or genuine sympathetic support could have made possible the accomplishment of these results. The ultimate good of which measure in dollars and cents time alone will tell. It is undeniably true that they are worth far more to the citizens of Fort Worth than they cost the contributors to the Board of Trade fund. During the last year the directors held twenty-seven meetings and seven special meetings, and five meetings of the full board. The latter, which I regret to say, were only poorly attended.

I can not refrain from making the statement that no similar free fund has ever been guarded against wastefulness more closely than this one.

It is by the united, harmonious effort of a general citizenship that enterprises necessary to the growth of a modern city can be secured. The Board of Trade, which keeps abreast of the times and places her advantages properly before the investigating public is the one that will harvest the rich rewards. Fort Worth has done well, but she should and must do better.

There should be at least 400 prompt paying subscribers to the Fort Worth Board of Trade. There are now 285. Can't more people of Fort Worth be induced to join the movement for the year 1933-4, and by their money and counsel assist in placing Fort Worth's many business advantages before the investigating public? In my opinion the time is now peculiarly propitious for the move to begin in earnest. The financial flurry of the North and East caused by flooding their business centers with inflated industrial stocks and bonds has disgusted and alarmed investors in that kind of securities, and now since the calcium light of truth has exposed these stupendous frauds, new fields of investments are certain to be looked for.

"Let the GOLD DUST
TWINS do your work."

There is quite as much
virtue in knowing "how
to work" as in working.
Housework without
GOLD DUST
is drudgery—with it a pleasure. Why slave
when Gold Dust will lighten the way?
GENERAL USES FOR GOLD DUST:
Scrubbing floors, washing clothes and dishes,
cleaning woodwork, silverware and
tinware, polishing brasswork, cleaning bath
rooms, pipes, etc., and making the finest soft soap.
GOLD DUST MAKES HARD WATER SOFT

Now is Fort Worth's opportunity.
What shall we do?

A mighty, united effort of the Board of Trade is the proper answer to this most important question. This costs time and money, and the strictly economical and conservative use of these funds should commend the Fort Worth Board of Trade to the public most heartily.

The receipts for the past year were reported to be \$7,097.74; disbursements \$5,933.27, leaving a balance on hand of \$2,064.37.

SECRETARY'S REPORT

Secretary Paddock's annual report was quite lengthy and covered the transactions of the board minutely from the beginning of the year to the close. The report in part follows:

Fort Worth has arrived at a stage in its development when its best energies should be devoted to the acquisition of industrial enterprises. Its railway facilities are all the most exacting could desire. With such unusual facilities for distribution it becomes the most desirable point in the Southwest for the location of factories. To secure these will require unabated activity and persistent effort. The manufacturing centers of the Northeastern and Middle states appreciate the importance of enlarged industrial facilities and are vigilant and active in extending assistance to those who desire to engage in manufacturing. As an illustration of this Fort Worth had an active competitor in a Pennsylvania town for the location of a manufacturing company, recently secured to this city. With this active competition it will be no easy task to dot the hills around this city with factories and mills. Our experience justifies the continuation of our efforts in this direction. Every business in the city is benefited directly or indirectly by the addition of every wage earner to the population of our city. It is in the producer that the hope of commercial supremacy lies. Every new enterprise does not benefit every citizen alike, but all can afford to assist in the accomplishment of that which promotes the general welfare, for it is the general welfare, at least, which makes a community prosperous.

It is greatly to be desired that a more general and individual interest be manifested in the work before your organization. Most of the membership have paid their monthly dues promptly and cheerfully, but the number who have been willing to go further and devote some of their time and effort for the good of the city have been too few. In too many instances the work has been performed by the same members. They are entitled to your unstinted praise and highest commendation for their patriotic action.

A few who have enlisted as members of the board, at the solicitation of the membership committee, have felt that they were under no legal or moral obligation to pay their dues and have refused to do so. I am pleased to say they are not very numerous.

Our finances are in excellent condition. No extravagances have been indulged in and the resources of the board have been carefully husbanded.

During the year there have been sent out from this office over 12,000 letters and 4,000 pieces of printed matter. Of this about 36,000 pieces have been prepared under the supervision of your directors. The remainder consists of newspapers and pamphlets furnished by the railway companies entering Fort Worth.

The financial strength of the organization is not commensurate with the proportions and business of the city. There should be not less than 500 members of this board. The dues are light. Thirty dollars per year is not a burdensome tax on any citizen of the city. With increased resources the work of the board could be greatly enlarged and its activities widened.

MISSOURI MULE THE BEST AUTO

According to the Recommendation
of the Macon
Postmaster

MACON, Mo., Nov. 11.—Since the experiment with an automobile to carry the mail on the ten mile rural route near here, S. J. Wilson, postmaster of this place, has received many letters from rural route carriers, seeking for details. One is from the government's servant who works out of Hunker Hill, Ill. He wants to know "What kind of roads do you have in Missouri? Have you any bad clay hills and swamps? Will the thing run all right through mud and water up to the bed? How much does it set a man back financially? How many horse or mule power is it? My route is twenty-five and a half miles; has fifty-three clay hills and four swamps, almost impassable."

In reply the Macon postmaster wrote: It is true that one of our carriers made an experimental trip over his route with a fourteen horse power gasoline automobile, but the roads were in good condition. Our roads are mostly earth and in muddy weather they're bad, to put it very mildly. Under such conditions it seems to be necessary for a driver to have something to which to express his opinion. If his automobile stuck in the mud he might "reason" with it all day, and it would have no effect in relieving the man's feelings. With a mule it is different.

I note with interest that there are fifty-three clay hills and four swamps on your route. If that is the situation, I should advise a flying machine, with a rowboat attachment. You might tunnel under your route, in which case an "auto"

STORY OF A HAPPY MOTHER

Before my baby was born I was in great misery. I hardly felt able to walk when I would have to get out of bed in the morning and would be so dizzy that everything would be black before me for several minutes. When I would have the most terrible backaches. I was just able to be about but just as soon as I began to take Wine of Cardui, which had been recommended to me, I felt much better. In fact I feel that if it had not been for this medicine I would not have been strong enough to live through childbirth. But that was made comparatively easy by taking your medicine for four months before baby came. Wine of Cardui restored my health as I took it for two months afterward. I cannot speak too highly of Wine of Cardui and I am glad to endorse it.

WINE of CARDUI

This is only one of the sad stories of young mothers which have been blessed with a happy ending by the use of Wine of Cardui. It is no wonder that a wife suffering from menstrual irregularities, bearing down pains, ovarian troubles and other symptoms of female weakness should finish from motherhood. But nature never intended a mother to suffer great pain while giving birth to children. Wine of Cardui is a powerful tonic which acts on the generative organs of women, regulating menstruation and giving tone and strength to the organs which inflammation and weakness have affected. It cures nineteen out of every twenty cases of bearing down pains or ovarian trouble and has often been known to completely cure chronic and so-called incurable cases.

Wine of Cardui cures barrenness and aids the mother in conserving her strength for the ordeal of childbirth. After that event the Wine prevents dangerous flooding and helps mothers to quick recovery. Wine of Cardui is the one medicine a mother should use before and after childbirth.

MERCHANDISE and Prices are important at Augusts'. They devise no adroit method of dodging the price point. They advertise the detail of goods and state a definite price. Augusts' ask not to entertain a customer at his own expense, but furnish the goods—the best that can be had—and these at prices that you'll know are to your interest in a saving way.

DISASTROUS EFFECT OF TWO BOTTLES BEER

"I was drunk if two bottles of beer will make a man drunk, your honor," said Owen McGraw in the police court today.

"One dollar and costs," said the court. It is not known whether Judge Prescott believes from experience that two bottles of beer will have the disastrous effect described by McGraw, or whether he took it for granted that the prisoner lost count.

"I don't get drunk very often, your honor," said "Mack" Murphy, "but I'm guilty of fighting. I guess I don't remember anything about it."

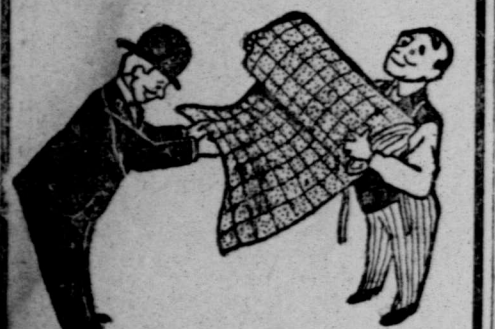

"If you prefer to get witnesses and introduce testimony in your defense I'll pass the case till tomorrow," said Judge Prescott.

"Oh, I don't doubt I'm guilty of fighting if I was drunk. The trouble is, I don't remember being drunk."

"One dollar and costs," was the edict. **AN EBON-HUED LASS**

The next was a lady of ebou hue who wore her kinks pompadour, surmounted by a picturesque hat. She was ensnared in a pearl gray rags which was as flowing as Niagara Falls. Her name was Willie Sassy.

"Tuh say yuh seen me circumstint' in duh alleys in duh Aech to nights?" she said, addressing Officer Clarke, who was testifying against her in support of a vagrancy charge.

A week ago we told about an out-of-the-ordinary purchase of novelty suitings, fresh from the looms.

And now we know what "the smile that won't come off" is.

It's the grin of appreciative delight that anchors on a man's face the minute we begin showing him the new arrivals.

The assortment consists of fifty rich styles that have made the hit of the season in the East.

We'd like every wearer of tailoring in town to come and have a good look at these unusual woolsens; there's not the least bit of obligation incurred by looking.

If you insist on ordering, we'll make you a suit that will bring you back when you need more clothes.

WAS ALMOST WHITE

Rhody Garrison, who is almost white, and whose hair in consequence of being denied its usual peroxide coating, this morning was kaleidoscopic in its color changes, evidently considers her reputation to be immaculate.

She was charged with disturbing the peace and with vagrancy.

"Ah ain't disturb no peace and Ah ain't no vagrancy," she said truthfully.

"Every officer who knows this woman to be a vagrant stand up," asked Officer Clark, who was responsible for her appearance in court.

Practically every policeman present arose.

Nevertheless the case against her for vagrancy was filed. She was fined for disturbing the peace.

Officer Clark testified that she was threatening to cut some "blankety-blankety-blank" into ribbons when he took her up.

Officer Gabbis testified that she made some "broad assertions."

E. Miller, an aged sinner with patriarchal whiskers, was charged with intoxication. He was instructed to leave town.

DAUGHTERS OF CONFEDERACY

CHARLESTON, S. C., Nov. 11.—Charleston has thrown her gates wide open for the army of fair invaders gathered from every part of the South for the general conference of the United Daughters of the Confederacy.

Arriving trains night and this morning brought scores of delegates from Texas, Louisiana, Mississippi, Arkansas, Missouri, Tennessee, Florida and other states and all indications point to an exceptionally large attendance.

Ever since the New Orleans convention of last year the women of Charleston have been preparing for the gathering with the result that the arrangements for the reception and entertainment of the visitors are pronounced perfect. Today was given over largely to welcoming the arrivals and the completion of the final details of the conference program.

A small fraction of an ounce of radium, properly employed would provide a good light sufficient for several rooms, and would not require renewal during the present century.

RAILROADS NOW BEING BUILT IN TEXAS

Interesting Summary of Lines Under Construction in the State—Other News of the State Capital

AUSTIN, Texas, Nov. 11.—(Special.)—From records in the office of Engineer Thompson of the railroad commission, and from an article prepared by Mr. Thompson for the Engineering News, the following interesting summary of railway construction and enterprises now under way in Texas is made:

The charter of the Wichita Falls and Oklahoma railway filed with the secretary of state provides for a road from Wichita Falls northeast to Sevier, a distance of about 30 miles. The incorporators are among the owners of the Wichita Valley railway extending from Wichita Falls southeast to Seymour, and it is thought the new line is to be a northern outlet for the Wichita Valley railway. G. W. Dodge of New York, Morgan Jones of Denver, J. G. Jones of Wichita Falls and D. T. Bomar of Fort Worth are the incorporators.

Surveys are being made for the Rice Belt from Linton northeast via Refugio, Victoria, Bay City, Angleton and Alvin to Houston with a branch line to Galveston. The chartered line is 200 miles long. Contract is reported to be let for entire construction. The principal office is at Port Lavaca.

It is stated that track laying on the St. Louis, Brownsville and Mexico now under construction from Linton to Brownsville, will begin immediately. Contracts have been let for main line from Linton to Brownsville, about 175 miles, to be completed in two years.

The Brownsville extension of the San Antonio and Aransas Pass from Alice to Brownsville, about 150 miles, is under construction and contracts have been let for the entire line. Practically the entire line has been ballasted and is to be completed in two years.

R. H. Baker of Austin, vice president and general manager of the Trinity and Brazos Valley, says that the southern Construction Company of Hillsboro and Orange has completed the line from Cleburne to Mexia, 73 miles, and is now at work running a line to Beaumont. The capital for construction was secured without bonding the road.

Mrs. Jane Mullen of National City, Cal., wrote Governor Latham from that place under date of November 4, that she now possesses General Santa Anna's captured at the battle of Buena Vista where he fled and left all his baggage, including his wooden leg.

The vest, Mrs. Mullen says, was presented to her father, Henry L. Arnold, quartermaster sergeant of the Fifth Indiana regiment, by his captain, Clinton Rich.

The vest is described as old gold silk quite elaborately woven in bright tinsel, with gold buttons. She states in the letter that she would like to dispose of the relic.

The state treasurer registered yesterday 299 warrants amounting to \$14,575.52. Total warrants registered to date, 2,040, aggregating \$220,455.42.

The sum of \$4,219 was received as interest on land notes held by the permanent public school fund.

The treasurer announced that warrants from 1 to 160 inclusive registered against the general revenue fund amounting to \$72,160.40 would be paid on presentation.

A contract has been let to the Taylor Signal Company of Buffalo, N. Y., for the interlocking plant ordered by the railroad commission to be constructed at the crossing of the Texas and Pacific, Gulf, Colorado and Santa Fe, Houston and Texas Central and Missouri, Kansas and Texas railways in Fort Worth. The plant will be all electrical and will comprise about 125 functions.

Up to October 30, 1903, the railroad commission had ordered the construction or approved plans of sixty-seven interlocking plants, at railroad crossings. These plants are to be completed by June 30, 1904. At present twenty-eight have been completed and are in operation under authority of the commission, aggregating 600 levers. Of these plants completed, sixteen are mechanical and twelve are electric.

J. H. Walker, assistant financial agent of the state penitentiaries, arrived in town last night to attend a meeting of the board of managers tomorrow. Other members of the board are expected tonight.

C. K. White, county clerk of Bell county, and J. W. Aycock, member of the commissioner's court, were visitors to the state house today on business with the comptroller and other departments.

The Acme Cement Plaster Company, a foreign corporation with headquarters in East St. Louis, Ill., filed an amendment to its charter today increasing its capital stock from \$800,000 to \$1,000,000.

The new hearing room recently built for the railroad commission in the capitol is being prepared and temporarily furnished for the big hearing on the 12th. Elegant furniture has been ordered, on the style of that in the court of criminal appeals, but this is not expected to arrive for some little time, and hence the temporary furnishing for the approaching occasion.

The charter of the Consumers' Ice and Cold Storage Company of El Paso was so amended by articles filed in the state department and approved as to authorize the company to manufacture beer in addition to its original purpose.

Senator Douglas and A. B. Cogdell of

THERE IS BUT ONE RED HOT CHILE CON CARNE. THAT'S WALKER'S.

Covington, Hill county, and Dr. D. A. Simmons of Sherman visited the attorney's office and other state departments today.

These gentlemen report conditions in their portions of the state as very good, with an encouraging future outlook.

Mrs. G. P. Barlow, Mrs. M. L. Golden, W. N. Vilas, Charles T. Race, S. L. Bean, K. B. Holman, A. B. McKie, E. E. Stephenson, J. M. Cannon, J. H. Nations, J. C. Peyton, J. Stolaroff, C. E. McBean, G. L. Hoyt, E. V. Berrien, F. J. Feldman, J. J. Mundy, S. C. White, J. W. Fisher, J. H. Pollard, C. M. Newman, E. C. Pew, A. A. Howard, H. B. Charwan, N. P. Roy, M. E. Williams, M. Porener, J. J. Longwell, W. E. Sharp, J. E. Williams, W. T. Hixon, M. E. Davis, H. R. Wood, W. S. Smallwood, E. F. Hammet, Edna C. Phelps, W. E. Ferguson, T. H. Springer, J. W. Levy, S. G. Horless, Miss Allen Berg, Zach Lamar Cobb, Mrs. Mary Rogers and H. W. Allen are the incorporators of the El Paso Society for the Prevention of Cruelty to Children and Animals, the charter of which has been filed for record with the secretary of state.

The society has no capital stock and its purpose is the protection of women and children and the prevention of cruelty to animals. Societies of this kind are by no means common. There are quite a number chartered for the prevention of cruelty to animals, but only two or three in the state which propose to prevent cruelty to women and children.

Secretary of State J. R. Curl deposited in the state treasury yesterday \$4,812.25 cash receipts for October.

Judge F. E. Dycus of Fort Worth was in the state capitol yesterday on business with the attorney general's department.

WEATHER CONDITIONS

FORECAST

For Texas east of the 100th meridian, issued at New Orleans—Tonight and Thursday, fair; colder except in extreme northwest portion; frost tonight except near coast. Warmer Thursday in north and west portions.

WEATHER CONDITIONS

The storm that controlled the weather conditions west of the Mississippi moved eastward to the lake regions where it is centered this morning, attended by rain, thunderstorms and high wind. Clear and colder weather now prevails throughout the north-west, middle west and Rocky Mountain states extending southward into Texas.

The freezing line extends a little farther south this morning, crossing the Texas Panhandle and Southern Kansas.

The weather continues cloudy in the eastern cotton states, but is clear or clearing in all districts west of the Mississippi; the precipitation was light and unimportant.

NORTH SIDE AND ROSEN HEIGHTS

City Council Passes Two New City Ordinances—The Trac-tion Company Putting Down a Double Track

Nash Furniture company.

The North Fort Worth city council met last night in regular session at their hall in the Frazier building. All members answered the roll call except Mayor Farmer, who was absent on account of sickness. Alderman B. C. Smith was elected mayor pro tem.

An ordinance authorizing the working of convicts on the streets was passed, but the matter of the appointment of a street commissioner and convict overseer was deferred until the next meeting of the council. A new ordinance creating a tax of \$3 per capita, or five days' labor on the streets for citizens of North Fort Worth between the ages of 21 and 45 years was passed. The tax collecting was turned over to the city marshal's department and deputies will begin the work of collecting in the near future.

The question of the appointment of a civil engineer was discussed, but no definite action was taken. However, several names were suggested and it is likely that the appointment will be made at the next meeting of the council. A committee was appointed to contract for the necessary pipe and equipment for the piping to be laid from the Brown Inn well to the new water tank on Main street and Ellis avenue.

Outstanding bills to the amount of \$125.15 were ordered paid and the secretary instructed to draw warrants for same.

TO USE DOUBLE TRACKS

A large force of men are at work excavating on Main street north of the bridge over Hermann Park for an additional street car track which will be laid from Trinity bridge to Marine. The rails on the old stock yards line from Main street east on Central avenue will be used on the new track.

M. P. Eiker, who was married to Miss Kate McCleskey of Harbin last week, has removed to the North Side and will make this his future home.

The North Side Pleasure Club met Monday evening at the residence of Rev. Walter T. Hillsman. The next meeting will be held next Monday week at Mr. and Mrs. Walter Newton's.

The hog butchers of North Fort Worth will meet tonight at Frazier's hall. A full attendance is requested.

Work on the new well which is being bored on Clinton avenue, between Twenty-fourth and Twenty-fifth streets, has been suspended awaiting the arrival of new machinery.
