THE JUNCTION EAGLE

Volume 46

Junction, Kimble County, Texas, Thursday, September 12, 1929

Number 22

RECORD RUN TO BE MADE ON O. S. T.

Messrs. A. J. Estes and Ken Goodson of Jacksonville, Florida, were in Junction late Saturday afternoon soliciting funds for a complete map of the Old Spanish Trail. They had been to San Diego and were on their return trip to San Augustine, Florida. Mr. Goodson stated that when he reached San Antonio, he would take an airplane for Jacksonville to be ready to make a run from San Augustine to San Diego in an effort to establish a new record.

His schedule calls for him to leave San Augustine at midnight September 20. According to the schedule he has outlined, he will pass through Junction about 8 a. m. on the morning of September 22. He has been over the Old Spanish Trail on previous occasions and since the highway has been improved and straightened each year, he may not be able to follow his schedule, but hopes to make a new record ocean to ocean automobile run.

Mr. Goodson did not give out the make of car that he would use as that would not be released until his return to Florida. He has been in many record runs and races and hopes to bring the Old Spanish Trail to the front as an all weather highway.

This run by Mr. Goodson is made as a forerunner of the O. S. T. Motorcade which will leave San Augustine, Florida, on October 2. The plan now is for Junction to entertain the motorcade on the night of October 8. It is believed that 400 or more people will make this trip over the O. S. T. which is scheduled to reach San Diego on October 12. Everybody in Junction is urged to co-operate with the chamber of commerce in taking care of this motorcade. If there should be as many as 500 in the motorcade, the camps and hotels would not be able to take care of them and the assistance of private residences would be needed.

Paramount News Man Visits Kimble County

Mr. Fred Bockelman, staff cameraman for the Paramount News of Dallas, Texas, was here this week taking some pictures of goat scenes in the interest of his association. A fine goat with hair measuring 21 inches was filmed at Mr. N. H. Skaggs' place. Some younger goats were filmed which showed the older goat as the proud parent. Mr. Bockelman was then accompanied to the Mudger Ranch by Mr. Emil Loeffler, County Agent, R. E. Homann, and Everett Stewart. Shearing was going on here and several thousand goats were seen.

Next spring Mr. Bockelman is coming back to Kimble County for more scenes. He stated that the next time he came that he would have a Movietone and that he was going to make Kimble County his official place to take scenes relative to the goat industry, and that he would be here twice a year from now on and make Kimble County as famous for its goats as Brady is with her Turkey Trot.

WEATHER REPORT

The Eagle is glad to give a very pleasing weather report this week. Last Thursday and Friday about four inches of rain fell in Junction and Kimble County which will insure fall grazing. The cotton acreage in Kimble County is always limited and rains do not hurt as much as in other counties. The good rains will help everybody and the cool weather following has been very acceptable.

Weldon Williams Is Owner of "Speed Car"

Weldon Williams is the winner of the Shaw Sport Speedster that sold for one dollar Wednesday afternoon. An immense crowd was present in front of the Schreiner-Hodges Company to witness the distribution of the car and several other items.

The following items given by the Schreiner-Hodges Company, Heyman Drug Store, Junction Tailor Shop, and Texan Theater may be secured by bringing in your tickets to the Schreiner-Hodges Company.

The following tickets will get the prizes:
Flash light, 30.348; box of candy, 21.023; sack sugar, 495; pass to Theater, 29.997; pass to Theater, 8.619; pair of sox, 10.805; inner tube, 7.242.

FOOTBALL BOYS WORKING FOR PLACES

Thirty boys are on the gridiron each afternoon fighting for places on the football team of the local high school. Many of them are big husky fellows, but they are going to have to fight to keep some of the smaller ones from getting their places. There is good material for a winning team if the boys will put the proper punch into the game.

Frank Hubbell, who is playing his fourth year, has been selected as captain. He is playing full back and makes a good one. In addition to Frank there are eight other old men on the field—H. T. Richardson, Louis Rayland, Leonard Dunbar, Oscar Dunderstadt, Lawson Johnson, Orrell Taylor, Wilbur Jeter and Marvin Blackburn. Among the new men are Blake Chenault, L. E. Dunbar, Harry Witt, Jack Ake, Jake Beasley, Roy Cockran, Harrell Ramsey, James Hodges, Gordon King, J. B. Dunbar, S. L. Jeter, Richard Cockran, Ira Knox, Sherman Hendrix, Joe Roberts, Raymond Schneider, John Lee Weaver, Sloan Davis, Don Curtis and Audrey Winkel.

The first game will be played here with Del Rio on September 21. The success of the team will depend in a large measure to the support given by the school and the town. Coach Bowers has the material to make a good team, but it takes co-operation to put out a winning team.

The first conference game will be played at Sonora on September 28. One good way for the town to co-operate with the team is to see that every boy who comes out regularly for practice has an opportunity to go to Sonora on that day. The finances of the squad is limited and it takes cars for thirty boys to make a trip. Let some of the supporters of wholesome athletics take their car full of boys to Sonora on the 28th.

All together for a winning team this season.

COURT HOUSE INSPECTED

Mr. S. R. McCoy, State Building Inspector, was in Junction Tuesday at the invitation of members of the Commissioners' court to inspect the Kimble County court house. Judge J. B. Randolph spent considerable time with Mr. McCoy in going over the court house, making a thorough inspection, a full report of which will appear in the Junction Eagle next week as he did not have time to get the report ready for this issue. By watching for the report next week the people of Kimble County will see what the inspector thinks of our court house as a place to keep the county records and for the officers to spend several hours each day.

Mesdames C. T. Holokamp and Vann Martin attended a bridge Thursday in Rockspurs, given by Mrs. Ben L. Wheat.

PAGEANT OF PROGRESS AT SAN ANGELO FAIR

Miss Vivian James is Duchess and Miss Blix Hankins Maid of Honor; Escorts, Jack King and Dillard Motley

From the fair edition of the San Angelo Times we learn that West Texas Royalty will pass in review before the grandstand of fair patrons the evening of Friday, September 20, as the queen of West Texas Exposition, accompanied by duchesses of fifty West Texas towns, is crowned by the king as a fitting climax to the Pageant of Progress.

Misses Vivian James, duchess, and Blix Hankins, maid of honor, escorted by Jack King and Dillard Motley, will represent Junction. Miss Elizabeth Summers and Louie Ragland will not be able to represent Junction as Miss Summers leaves for college before that date and Louie Ragland will be engaged in a conference football game. Their places will be filled very acceptably by Miss Blix Hankins and Dillard Motley.

The pageant is to open with a parade of progress, in which the Spirits of Yesterday, Today, Progress, Religion, Defense, Training, Mirth and Charity march in front of the throne. While the parade is passing the visiting duchesses and maids of honor are to be presented to the court, after which the queen is to make her appearance and receive the crown acclaiming her as queen of the West Texas Exposition, to rule during the ensuing year.

Clean-up Campaign Needed After Rain

Following the good rains last week there will be need for another clean-up campaign to keep the weeds down. The weeds and grass are growing rapidly and before many days weeds, flies and mosquitoes will be plentiful unless efforts are put forth to clean up. It has been very noticeable that Junction has been almost a flyless town since the last clean-up. The chamber of commerce has a number of fly traps ordered during the last clean-up. They may be secured at 25c each by applying to the secretary of the organization.

Junction is now one of the cleanest towns in Texas and free of disease. If there is a case of contagious or infectious disease in Junction, it has not been brought to our attention. Keep the town free of disease by keeping it clean, and the best way to keep it clean is to cut all weeds, haul off all rubbish and destroy the breeding places of flies and mosquitoes. Unless the cans are hauled off a crop of mosquitoes may hatch out in a few days. Keep Junction Clean.

SHEEP AND GOATS SELL

Mr. Jim Carpenter states that Browning and Carpenter delivered to Mr. Cowick, Stephenville, Texas, Monday of this week 500 nannies, and on Tuesday delivered 1,000 head of mutton goats to Mr. McMain at Center Point. Mr. Carpenter says that his firm has handled large numbers of livestock the past few weeks.

The Eagle will be glad to get reports on the sale of goats, sheep and cattle, as the movement of large herds of livestock make interesting news items.

W. T. C. C. CONVENTION

The dates for the West Texas Chamber of Commerce convention have been set for Oct. 24-26 at El Paso, postponement from the usual time being due to the expected visit of President Hoover to Texas at that time. An even larger attendance than usual is expected, and the organization's annual conventions have drawn tremendous crowds for these many years.

Junction Fisherman Uses Soap For Bait

Fish stories are common and some are true, but many are untrue. Judge Weaver H. Baker was in our office Saturday and says that he could vouch for the statement that he had caught one of the best fish of the season using laundry soap for bait.

As his story goes, he went in home one afternoon too late to dig bait or catch minnows, but remembering that Sod Durst had told him that he could use soap as a bait effectively, he took his hooks down to the river and put them out baited with soap. To his surprise when he went back to his hooks he had a large catfish on one of them.

Judge Weaver H. Baker will verify this fish story.

COUNTY AGENT ORGANIZING 4H CLUBS

The green and white club colors are coming to the front. Embedded in each leaf of the four leaf clover stands the stern "H" indicating the principle for which the boys and girls of the national organization live—"Health," the one outstanding factor of any community or organization is the foremost principle of the club. "Heart," for the earnestness and faith manifested by the boy or girls belonging to the club. "Hand," the implement of manual labor by which boys and girls learn to do by doing. "Head," last but not least the boy or girl, man or woman, must use ones head to achieve the success that comes to them through a wholesome life, health of their family; a heart of desire and a hand of applied effort. There is no reason why Kimble County should not cope in numbers and quality with other counties in Texas. There are 170 county agents employed in Texas and 7500 in the U. S. Let's put Kimble County on the map in club work, boys and girls, and if you are between the ages of 10 and 18 and live on a farm or ranch you should be a member of this organization. It costs nothing to belong; you have everything to gain and nothing to lose. Remember the \$225.00 premium list offered by the Kimble County Chamber of Commerce. Come in and get acquainted. Your county agent, R. E. Homann, is here to serve you and he cannot be of service if the people are unwilling.

Debate Is Feature Men's Bible Class

On Thursday, September 5, the regular business and social meeting of the Heart of the Hills Bible Class was held in the Sunday-school room of the Methodist Church. Twenty-two members and friends were present and a most enjoyable and profitable evening was spent by all. Mr. Olive Buxter, president of the class, called the meeting to order and business matters were taken up. Interesting and inspiring talks were made by Mr. Henry Bierschwaile, Rev. Milton F. Hill, and Mr. Henry Hodges. Mr. Hodges spoke of the splendid work being done by the Men's Class in Brady, and urged wholehearted support of the class as a Christian influence in the community.

The next feature was a debate on the subject of great importance: "Resolved, that policemen are more necessary for the human race than auto mechanics." The policemen were defended by Mr. Alton Miller and Mr. Walter Tinsley, while Messrs. Ben Neal and Frank Patterson upheld the rights of the humble auto mechanic. The judges were Messrs. Ed. Lowgren, Geo. Smith and Boy Hodges, and the decision favoring the auto mechanic or negative side may have been due to the superior arguments presented but it is darkly hinted that several threats of personal violence made by one of the debaters had something to do with the decision. Fuel was added to the flames by the criticism which was officially delivered by Rev. Mr. Crofoot and which pointed out gently but definitely the mistakes made by the debaters.

Peace and harmony were restored, however, by the announcement of refreshments, ice cream cones and cake, and the meeting dispersed under the gathering clouds of the season's first rain.

Mr. Palmer McInnis and family are moving into the Captain Rieck home across the South Llano. He has bought the A. W. Bell Drug Company and took charge of same Monday. Junction welcomes Mr. McInnis and family as citizens.

HELP SOME BOY OR GIRL WIN A PRIZE

Secretary E. V. Stewart has been assisting County Agent R. E. Homann organize 4H clubs in various parts of the county. In order to encourage the 4H Club work, the Kimble County Chamber of Commerce is giving away \$225 worth of prizes as listed in the Eagle the past two weeks. Mr. Stewart says that the campaign is creating interest in every part of the county and boys and girls between the ages of 10 and 18 years are interested in winning one of the prizes that are given for paid memberships in the Kimble County Chamber of Commerce.

The work of the chamber of commerce is for the advancement of Kimble County and every person should become a member. All the money secured through these memberships that the boys and girls secure will be spent for the development of the county. The prizes that will cost \$225 will be distributed among the boys and girls of the county. The Chamber of Commerce sponsors the extension work in which Mr. Homann is engaged and contributes to the expenses. In fact the chamber of commerce could spend wisely twice as much money as it gets and not have as much as is needed.

London Farmer Will Begin Feeding Lambs

Mr. John Fritz of London is starting immediately in co-operation with County Agent, R. E. Homann to feed 300 lambs. Mr. Fritz is a progressive farmer and this year produced approximately 40 tons of grain sorghums and an abundance of sudan grass hay and corn. The above he plans to market through lambs which he believes is a paying proposition. Mr. Fritz will feed rations worked up on home grown feeds and is building a systematic feed lot.

In a few months we shall have available data on this feeding project which we hope will be helpful to many more of our Kimble County ranchers and farmers. Walton Rothmann also plans to feed a large number of lambs.

"TWISTER" ON RANCH

Mayor T. B. Phillips returned last week from his ranch and stated that a cyclone came down on one of his ranches out of a clear sky. It was a real twister. A Mexican about the place noticed it and ran and cut off the windmill and in a few seconds the "twister" struck a goat shed taking about half of it away. It was a well built shed and Mr. Phillips says that the part destroyed was scattered over a large part of the ranch.

Tea Cup

At a very lively meeting held in the Tea Cup school on Wednesday night of last week the younger generation indicated that they were back of an agricultural and livestock program for Kimble County and so enthusiastic were they that the following indicated eligibility and a desire to join: Boys—Don O. Wootan, Frank Wootan, J. D. Wootan, Robt. Fisher, Joe Dell Fisher, Alton Fisher, Brown Fisher and Roy Robbins. Girls—Dorothy Jarvis, Fay Jarvis, Ellen Reese, Lotta B. Fisher and Vera Mae Fisher. The good people of this community turned out in a group to greet their county agent and this is indeed

(Continued on page 4)

DON'T LOSE YOUR PLUCK

When things are running crosswise, and the engine's out of gear. When the road is rough and rocky, and the sky is far from clear.

Most anyone can travel on a road that's smooth and clear. And anyone can get there if he only has to steer.

There's no thrill in easy sailing when the skies are clear and blue. There's no joy in merely doing things that anyone can do.

So when everything's against you and your plans are going wrong. Just face the situation and keep moving right along—Don't sit down and wall and whimper, even though you may be stuck.

FRONTIER TIMES

The September number of Frontier Times was issued this week and mailed out to its thousands of readers all over the United States.

BAPTIST CHURCH NOTES

Last Sunday morning the pastor preached to our members and visitors from the Methodist Church on the subject of "A Living Christ."

WRITE IT ON WATER

- Say it with flowers, Say it with sweets, Say it with kisses, Say it with hugs, Say it with jewelry, Say it with drink, But always be careful, Not to say it with ink.

THE METHODIST CHURCH

The Fourth Quarterly Conference will be held next Tuesday night at the church. The Presiding Elder, Rev. Sterling Fisher of San Angelo, will be present and preach.

Sunday morning—Sunday School meets at 10. Let the splendid attendance and fine interest continue. Don't fail to be present.

An exchange Telegraph dispatch from Berlin says that the next flight of the Graf Zeppelin will be a non-stop trip around the world, with the necessary refueling accomplished in the air.

LONDON LOCALS

W. C. Jones of Yates was a pleasant caller last week. Always glad to see Bill come to town.

E. I. Cummins, C. E. Weaver, and O. D. Price were business visitors to Mason last week.

Several of our citizens went to Mason last week in the interest of the deeper test for oil in the McLean well.

It is a matter of real interest to see how liberal the people of Mason are in assisting London in a deeper test for oil. This interest and material help on the part of the Mason people should not and will not be forgotten.

Mr. Ed Cummins and family left Wednesday last week for Fort McKavett where he is employed as teacher for the precinct school term.

Mr. Jack Dayton, one of our fine young boys, left Sunday for Memphis, Tenn., where he will spend the school year with his aunt, Mrs. Bowser. George May Amaon left Saturday for Tahoka where he will enter school for the term. His father and mother, Mr. and Mrs. W. L. Amaon, and Pat, and Mr. and Mrs. G. T. May accompanied him.

Mr. and Mrs. O. D. Price took their son, Jack, to Mason Monday to enter him in school there. Jack is one of a number of our fine young boys that we are justly proud of and we expect to hear more of him and others later on.

Our interests go with these boys who try to make good. They are a credit to our community and will continue to reflect credit on honor.

The boy of today who makes real effort to qualify himself will be the leader of our community affairs of tomorrow and that includes town, county and nation.

Mr. Marvin Hunter, Jr. and his entire Graphic force attended the Bandera barbecue last week. All report a wonderful time.

J. P. Jones and wife made a trip to Burnet last week, returning Wednesday. Miss Virginia returned home with them.

Mrs. E. F. Amaon and children are spending their vacation with Mrs. Amaon's father on the Big Canyon ranch near Sanderson. Ernest resembles one who was sent for and couldn't go since they went away.

Mrs. Thelma Thiers is spending the week with her husband's mother near Roosevelt who is quite sick.

The incorporation of our school district into an Independent School District, carried by a vote of 16 to 1. We felt sure the proposition would carry but had no idea it would be so near unanimous. This proves our people are wide awake to the school interest and are almost if not entirely a unit in the matter of schools.

Our board of trustees have proven that they are men of progress and forethought and deserve much credit for bringing this matter before our people and our people proved that they appreciate them by re-electing them to take charge of this Independent School District. This is a forward move. Let us continue to move forward until our school is what it should be.

The fine rain has made our people forget the short cotton crop and rejoice together over the wonderful blessing poured out so bountifully.

This is one wonderful day after the intense heat of the summer. It is now cool and pleasant, Sept. 10-29.

TEA CUP TIPS

The people of Tea Cup were made happy by the fine rains that fell on last Thursday and Friday nights. In some places the rain amounted to eight inches. The rain will be of much value to the ranchmen and farmers.

School opened Monday, Sept. 2. Quite a number of the patrons were present at the opening exercises. The teachers for this year are: R. D. Kothmann, principal, and Mrs. G. R. Kothmann, primary. The enrollment is twenty-five. The trustees met last Friday and decided to order desks for the High School, chairs and tables for the beginners, and playground equipment.

Mr. Homana, the county agent, and Mr. E. V. Stewart, secretary of the C. of C., visited our community last Wednesday night, Sept. 4. They discussed and outlined the work of the 4H club. The boys and girls are interested in this work, and are anxious to become members.

Mr. and Mrs. W. T. Jarvis visited their daughter, Mrs. Gove of Austin, last week.

Miss Alberta Wootan spent the week-end with her sister, Mrs. W. L. Kothmann.

Mr. John Robbins and daughter, Lily, and Mrs. Lily McCaleb made a business trip to Junction Monday.

Most all the goats in our community have been sheared, and some have started shearing their sheep.

Mr. Marvin Langs, speed cop of Yates, has been helping Howard and Goodall Kothmann with their shearing.

NOXVILLE NOTES

Our community was visited by nearly two inches of rain Thursday night which was certainly welcomed by all stockmen and the wind has blown sufficiently since to guarantee an abundant supply of water.

Word was received from the medical-sergical hospital at San Antonio that Col. J. W. Coffey underwent a very serious operation Monday. He is reported to be doing nicely at the present writing. His many friends are praying for his speedy recovery.

A thousand head of nannie kids were sold off the James River ranch last week at a consideration of \$4.65 per head.

Bart Whaley of the reservation sold a bunch of mutton kids to Mr. Seagraves last week for \$4.35 each and also a number of yearling muttons at a consideration of \$5.85 per head to the same party.

We wish to take this opportunity to express our appreciation to our commissioner, Mr. H. W. Bierschwale, for the successful way in which he is handling our road construction on the road between Segovia and Harper. We have heard many comments from visitors who are in every way capable of judging and they marvel at the speed and efficiency with which this work is progressing. Noxville people are enthused

THE EDUCATED MAN

He keeps his mind open on every question until all the evidence is in. He always listens to the man who knows. He never laughs at new ideas. He cross-examines his day dreams. He knows his strong point and plays it. He knows the value of good habits and how to form them. He knows when not to think and when to call in the expert to think for him. You can't sell him magic. He lives the forward-looking, outward-looking life. He cultivates a love of the beautiful. —Kerrville Mountain Sun.

The 23,000 carloads of vegetables and fruits shipped out of the Valley this year netted growers more than \$10,000,000, according to the Donna News.

BUILDING MATERIAL

When in need of any kind of building material, such as lumber, cement, lime, tile, etc., call or see Dan St. Clair. 48fc

with it. There has been only \$14,000 spent on the road so far and it is nearly half completed, so with the money available, we are assured a road of which we will be justly proud. Every man in public life encounters difficulties and our commissioner is no exception, but, so far, he has stood foursquare to the world and thrashed them out and I think I can speak for the people of Noxville and our precinct in general that we are backing him to a man. We are also appreciative of the assistance of the Junction Chamber of Commerce and to all who have assisted us in any way with our road. Junction people in general have put forth every effort in their power to help us and when a road is completed that will make Junction easy of access, she will reap a rich reward in ranch trade which is her just deserts. Junction has a commissioner's court which is second to none in the state and when they undertake a thing we can rest assured it will be completed.

YOUR HEALTH

NEWS NOTES

The Texas wool crop this year is estimated at 33,000,000 pounds, the largest ever produced in Texas. Prices have ranged around 34c or better.

Laredo citizens are to vote on a \$225,000 bond issue for school buildings.

Gillespie County, where the people are so law-abiding that the ex-officio salary of the sheriff had to be raised to give him a living wage, voted \$360,000 in road bonds and all main roads in the county are to be hard-surfaced.

Grapeland, Houston County, road district voted \$50,000 in bonds for building the last link in a Dallas-to-Houston highway via Huntsville, Trinity, Grapeland, Palestine, Athens and Kaufman.

RANCHES FOR SALE

920 acres, good, improvements, plenty running water, rich field; on highway, close to school; \$10.00 per acre.

800 acres watered by four springs; 25 acres in field, small improvements, close to school; \$10.00 per acre.

1700 acres, good, field watered by river and springs; good improvements, close to school; price \$13.00 per acre.

1600 acres, good field, plenty water, on highway, good improvements; \$8.00 per acre.

See or write Henry Meager, Marble Falls, Texas. 21-2p

Comanche County turkey crop will fall far short of last year's according to N. N. Durmah who is in touch with the turkey situation. Many growers say they are suffering the heaviest losses from disease in their experience.

355 MILES AN HOUR

Three hundred fifty-five miles an hour and not satisfied is the record of two British fliers. They plan to make an attempt today to reach 375 miles an hour. In the flight Tuesday they could see only five miles ahead and they believe that when the visibility is better they will make a better record. What speed has the future in store?

Vic Hardeman Buys More Fine Sheep

Mr. Vic Hardeman received another shipment of registered ewes from Ohio last Saturday. This shipment of 34 ewes, bred to George Helder's registered buck, was topped from three of the best Ohio herds and are among the best ever brought to Texas.

This shipment gives Mr. Hardeman 104 registered ewes from the best stock to be found anywhere. He is feeding them daily and giving them the very best of care. He says that they are looking fine and that when the Kimble County Fair is opened he will have some of the best sheep in the United States to put on exhibition.

HELP SOME BOY

(Continued from Page 1) encouraging for us believe he can be of great worth to the county if people will assist him in the undertakings. Rankin Kothmann was chairman of the meeting and under his leadership the club shall surely make things interesting for other clubs of the county.

London Because of threatening weather the London H Club meeting was not as strong as had been hoped for, however, another opportunity will be given boys and girls in the London section to become members of this fine boys' and girls' club. Milton Laville, Charles Fritz, Alton Banowsky, J. T. Gibbs, Woodrow Kothmann, Neal Lammerseth, Elmo Dodd and Leo Dodd were boys who signified their intentions of becoming a member. Eunice Brewer was the only London girl to enroll. We hope more girls will soon join. Eunice has a sister that won five trips to the Farmers' Short Course at A. & M. College while she was a club girl under the direction of Mr. W. Marshall, county agent of Mason County, Segovia

"Blue Monday" was very much dead at one of the liveliest meetings to be held so far in Kimble County Monday morning at the Segovia school. Mrs. E. E. Stockard conducted a short program for the opening of this school year. The Rev. Mr. Bierschale, father of Mrs. Stockard, opened the meeting with a short prayer. The club was told of the activities of the C. of C. by Secretary E. V. Stewart and their position in offering the \$225.00 worth of premiums. The club work was explained by the county agent and the following were found eligible for the work: Boys—Woodrow Bowers, Altus Davis, Nobel Jones, Mac, Lefseste, Robt. Neal, Phelps Bishop, Howard Davis, William Wootan, Tom Wootan, Luther B. Stockard and Harold McDonald. Girls—Lula Bell Fairchild, Julia Fairchild, Cora Lee Fairchild, Louise Keithley, Lola Davis, Edith Davis, Nell Phillips, Maxine Jones, Eloise Jones and Josephine Stockard. Many patrons of the school were present and results are bound to come from this school and community under the splendid leadership of Mrs. Stockard and Mrs. Gilliam. Mr. Ben F. Neal made a short talk.

Noxville It is not often that one is privileged to attend the Noxville school for it seems that for a number of years these people have not had good road communications, but now with the new highway nearing completion folks can visit their friends more easily. The one teacher school at Noxville, under the leadership of Miss Sofge, promises to have a good club even though the enrollment may be small. Boys—Wayne Calentine, Dean Whetstone, Elton Archer, Leroy Archer. Girls—Elenore Saggiher, Marjorie Whitworth.

Club organization is proving very interesting to those who are active in the organization work. Motto: "To Make the Best

GINNING REPORT

Mr. C. W. Atchison reports about forty bales of cotton ginned. The acreage is small and the yield is light and he is not expecting a heavy ginning season. He has everything in fine running condition and is prepared to gin a farmer's cotton without any delay.

WEST TEXAS UTILITIES TRANSFERS BILL MAY

Bill May, local manager of the West Texas Utilities Company, has been transferred to Mason, Junction people rejoice in his promotion, but regret to lose him. He is everybody's friend and works for the interest of the company and at the same time the interest of the people he is serving in such a way that everyone is pleased. He leaves Junction with the best wishes of every citizen, as far as we can learn, for his continued success. He is a man that will make friends wherever he goes.

Bill is succeeded here by Mr. V. P. Emmons of Abilene, who has been with the company for some time. Mr. Emmons will move his wife and baby to Junction as soon as the company house is vacated by Bill and his family. Mr. Emmons is a man of pleasing appearance and he will find the people here willing to co-operate with him in carrying on the work of his company. Junction welcomes him and his family.

ANNOUNCEMENT important to all HOME LOVERS

As always... one may find the very finest in lighting equipment for their homes in our extensive array of fixtures.

Keeping this in mind we have recently secured a nationally-known line of lighting fixtures made by Mos-Bridges.

These beautiful fixtures, together with our already complete selection, offers home owners correct lighting equipment for every decorative and lighting purpose.

You are cordially invited to inspect our new and beautiful display of artistic fixtures, which you will agree are exceptional.

See these Fixtures in our Show Rooms Today

Beautiful Fixtures Which You Are Certain To Like

West Texas Utilities Company

SCRUB VERSUS PUREBRED RAMS

(By R. E. HOMANN, County Agent)

Breeding season will soon be here. Breeders, ranchers and sheep keepers should begin to look to the future and consider the problems with which they are confronted after having produced a crop of lambs. There will come a time in the near future when feeder and breeder lambs will be graded and classified before a sale can be found; the same is true of the product that is produced, that is, the wool produced by these sheep.

The use of purebred sires on grade flocks and herds has long been advocated by agricultural colleges, and men progressive in the livestock world. Some of the arguments that have been advanced in favor of better sires are: 1—Quicker maturity. 2—No more cost with greater returns, hence more profit. 3—Greater returns for unit of feed eaten. 4—More value for pound when marketed.

There has been considerable work done in various sections in demonstrating the value of purebred bulls in grading up beef and dairy cattle herds and the time is at hand when certainly it must be done in the sheep and goat world. Many are believing they are making a steady increase but no facts and figures are available and observation methods are never altogether or in part nearly correct.

The following is an experiment conducted by the Oklahoma Animal Husbandry department:

To compare the purebred with the scrub ram as sires of market lambs.

1. To compare gains made by lambs sired by a purebred ram with gains made by lambs sired by a scrub ram.
2. To compare the selling price (value) and profit from lambs sired by a purebred ram with price and profits of lambs sired by a scrub ram. Nineteen head of grade ewes were purchased in the fall of 1922. These ewes were plain and showed no signs of any line of pureblood but were of a mixed blood.

These ewes were divided into two lots, great care being taken

to insure as much uniformity as to type, etc., as possible. A purebred ram was placed with the lot of nine ewes and a scrub ram with the lot of ten ewes and remained with the ewes until Nov. 20th. The eyes in both pens had access to pasture and were not fed previous to lambing until January 9th, at which time they received 1/4 pound grain mixture of oats, 2 to 2 1/2 pounds silage and 1 to 1 1/2 pounds alfalfa hay, daily.

The ewes bred to the purebred ram averaged 104 pounds in weight and those bred to the scrub ram averaged 104.7 pounds in weight. The first lamb was dropped March 17 and the last April 13th. There were 14 lambs born in each lot. The average weight of lambs at birth was 8.1 pounds for those sired by the scrub and 8.85 for those sired by the purebred. The weights were as follows:

	Scrub	Purebred
May 18.....	35	37
June 20.....	40.4	39.5
August 8.....	57.1	60
November 16.....	71	75.5
March 14.....	95	103.2

The ewes and lambs were all run on permanent pasture during the summer without grain feed. Lambs were weaned August 8. They were run on pasture until put on feed in November. The lambs were gradually put on grain feed of shelled corn after Nov. 16 and also alfalfa until March at which time they were marketed in Fort Worth at 103.2 for purebred ram lambs and brought \$15.50 per hundred as compared to 95 pounds at \$14.75 per hundred. A difference of \$1.98 per head in favor of the lambs sired by the purebred ram. These lambs were slightly overweight and did not command the top price.

From the difference in selling price of the purebred and scrub lambs, it is readily seen that a purebred ram with a flock of grade ewes will more than pay for himself with one crop of lambs. Cull your low shearers for increased wool. Use good bodied, good woolled rams. Let your county agent help you select your rams.

COTTON GROWN AS EARLY AS 1500 B. C.

Cotton has had a notable history. It belongs to the mallow family of plants and its scientific name is gossypium, while the word cotton is derived from the Arabian word "batan."

Cotton was probably grown in India as early as 1500 B. C., and as far back as 800 B. C. the records show that the art of cotton manufacturing was well known in India. The dark-eyed Egyptian women wore cotton in the time of Pharaoh. The Greek made use of it for saddle blankets several hundred years before the coming of Christ. The Hindus burned cotton wicks in their temples, while their priests knelt on pillows of cotton and the armies of Xerxes and Alexander the Great wore uniforms of cotton.

Cotton was brought from the Old World to Jamestown in 1607. When the American settlers moved into the south cotton seen found lodgment in the soil of Dixie. King Cotton exerted its real prominence as the South began its task of clothing the world. But cotton did not reach its real prominence as a world commercial crop until after Whitney took out his patent for a cotton gin in 1792.

Cotton was first grown in Dallas in 1851. The first crop netted 22 bales and was floated on a hand-made barge down the Trinity until the river lowered and the cargo had to be transported by wagon to Galveston.—Dallas Times-Herald.

CHASED BY BEAR, SAVED BY COW

Straight, Pa.—Being chased by a bear and rescued by a cow was experienced by Mrs. Fred Howard. She was fishing near her home when a bear and her four cubs appeared. Mrs. Howard's screams attracted her husband and also a cow, which gave chase to the bear. The cubs made no effort to escape and climbed an apple tree.

Let's pave Junction streets.

FARMER NOW FEELING FIT FROM HEAD TO TOE

"The Sargon treatment built up my whole system and I feel better and stronger than I've felt in years."

"My health had been going back on me for three years, mainly from a bad case of stomach trouble. I couldn't eat a meal that didn't make me suffer from dyspepsia and indigestion pains. Even the lightest foods soured on my stomach, and bro't sharp pains that almost took my breath. I was bothered all the time by constipation and biliousness and was always having headaches."

"I have used two bottles of Sargon now and am keeping up the treatment. Almost as soon as I started it the pains in my stomach disappeared and I never have indigestion. I can eat anything I want and never have those headaches any more. The Sargon Soft Mass Pills completely rid me of constipation and biliousness without the slightest upsetting. I'm in such fine health now in every way that I want to tell everybody about this wonderful treatment."—W. T. Farmer, 3951 Capital St., Dallas.

J. A. Heyman, agent.

NOT CHRONIC

Willie was dejectedly walking home from school and his woe-begone appearance attracted the attention of a kind-hearted old lady.

"What is troubling you, my little man?" she asked.

"Dyspepsia and rheumatism," replied Willie.

"Why, that's absurd," remarked the old lady. "How can that be?"

"Teacher kept me in after school because I couldn't spell them," was Willie's dismal answer.

If a business man expects to hold his job he must please his customers just as a congressman must satisfy his constituency if he hopes to be returned to office.

Let's pave Junction streets.

City conveniences on the farm

Running water piped to farm kitchens and bathrooms means that the liquid wastes must be piped out to a place of safe disposal. Build a concrete septic tank to handle these dangerous wastes safely. Costs nothing to operate—requires no attention.

NEW \$10 BILL CARRIES PHOTO OF FORD SEDAN

The latest Ford joke is the new ten-dollar bill.

The new-sized greenbacks, as they now appear, show the massive treasury building at Washington, and in the foreground, apparently about to round the corner, a standard Ford sedan. Examination with a microscope shows unmistakably the "Little Lincoln" lines and the peculiarly rounded radiator.

Bankers declare that already the unconscious Ford joke has caused the government to take steps for the recalling of this series. No more issues of the new bills will advertise Henry's Model A, it was said.

And on the reverse side of the bill the likeness of Alexander Hamilton, exponent of "big business," seems to smile in green derision.

Henry's latest jest is believed to have been due to the carelessness of the photographer, who snapped the plate just as the sedan drove into view. It is the only car in sight.

"17-YEAR LOCUSTS"

The periodical cicada, or "17-year locust," is not a locust, although the sudden appearance of the insect in great numbers after long periods of absence suggested a "plague of locusts" to the colonists of New England. It does not eat foliage, as do the true locusts, or grasshoppers, but the female cicada punctures the tender growth of trees when depositing her eggs. These punctures weaken and often kill twigs and small branches, and cause many of them to break off. Young fruit trees suffer particularly and are sometimes killed. As the year of the cicada's return is always advertised in advance, allowance for this "pruning" should be made by omitting the regular pruning the previous winter and, after the insect has done its work, by cutting out the badly punctured parts and burning these with what has broken off and fallen to the ground, thus destroying the eggs. Avoid setting out nursery stock for orchards in years when the cicada is due.

Humility does not shout—it is quiet.

Sacrifice furnishes the key to other hearts.

THE New BUICK

New Controlled Servo Enclosed brakes

unrivalled for smooth, sure, silent operation in any weather . . .

To Buick, pioneer of four-wheel brakes, now falls the distinction of another major achievement in this same vital field: the development and introduction of Buick Controlled Servo Enclosed Brakes—the most effective four-wheel braking system ever devised for any automobile!

Buick's new brakes are of the highly efficient internal-expanding type. They are fully enclosed—fully protected against dust, dirt and water—and thus assure maximum braking effectiveness under all weather conditions.

They represent the highest development of the self-energizing principle, which makes the car's own motion provide part of the braking effort. They reveal unmatched responsiveness to the slightest pedal pressure. And they are so perfectly controlled that "grabbing" is entirely unknown! When you apply these brakes, you obtain the most positive, as well as the smoothest and most silent action you have ever experienced in any automobile!

Drive the new Buick! Test not only its matchless new brakes but its brilliant all-round performance, riding comfort and driving ease—all of which combine to establish the new Buick as the greatest value ever offered in the fine car field!

FARMER MOTOR COMPANY

SURE ANTIDOTE FOR COTTON PESTS

From the Katy Magazine

The Cow (By Walt Mason)

The dairy cow's a thing of charm, she lifts the mortgage from the farm, and makes the farmer's life more sweet, and sets him down on easy street. When'er the dairy cow is queen, a country prosperous is seen, and dairy men, in joyful ranks, are packing bullion in the banks. Why plug along the old sad way, producing nutmegs, corn and hay, and putting up a bankrupt wall if one year's crop should chance to fail? There is a better method now—the method of the dairy cow; this critter always earns her keep, and piles up riches while you sleep and pays the taxes and the rent, and here along the Katy, gents, we have the climate and the feed, and all conditions dairies need. So let us boost the Holstein cow which beats the old breech-loading plow; the Guernsey and the Jersey, too, as smooth as any cow in view. Let's talk up dairies, milk and cream, the safest money-making scheme.

The Sow (By T. M. Jeffords)

The brood sow is a useful beast; her offspring furnish welcome feast of toothsome meats for folks to eat, from spareribs baked to pickled feet. There is no better breakfast fare, for hobo or for millionaire, than bacon crisp or juicy ham, along with buttered toast or jam. Where farms are stocked with hens and cows, with pigs galore and big brood sows where grow alfalfa, oats and corn, no mortgage long such farm adorn. Come seasons wet or seasons dry, such farmer folks will not apply for credit nor a job in town, because they shake the shekels down each week from sale of cream or eggs or big fat hens with yellow legs, or country sausage, ham or lard at prices town folks must regard. So here's to cow and sow and hen, all winners for good farmer men. Who stakes his fortune on these three, a farmer prosperous will be. Of them the sow will rank ace high; her motto is: "Root hog or die."

The Hen (By T. M. Jeffords)

The barnyard hen's a good old bird; she supplements the dairy herd, and makes the farmer's wife more mon' than hubby earns from sun to sun. Where'er this queen of birds is found, delights of rural life abound, and farmer folks in touring car bring chicks and eggs from near and far. Along the Katy Bid-die thrives; she works each day till dusk arrives. She disregards all labor law, and pecks away to fill her craw; she lays an egg in tufted nest. Then cackling forth to work with zest. She thus a good example sets to folks who labor with regrets. Her eggs and chicks are sold for pelf to buy some chow for pantry shelf. No better food has e'er been tried than eggs on toast or chicken fried. 'Tis said a chicken dressed just right, imbues even preachers with delight. In every clime the hen is met; her sun in truth does never set. So here's to Bid-die, barnyard hen, the greatest bird God gave to men.

WHAT COUNT WILL THE CENSUS OF 1930 GIVE UNITED STATES?

GROWTH OF U. S.

Year	Population
1790	3,929,214
1800	5,308,483
1810	7,239,881
1820	9,638,453
1830	12,866,020
1840	17,069,453
1850	23,191,876
1860	31,443,321
1870	38,558,371
1880	50,155,783
1890	62,947,714
1900	75,994,575
1910	91,972,266
1920	105,710,620

U. S. Census Figures

Before many months a stranger will step upon your front porch, ring the doorbell and begin asking you some very personal questions.

And you'd better answer, for he will be one of 100,000 official "nose counters" who are now being recruited for the coast-to-coast job of enumerating Uncle Sam's ever-increasing family.

To this army of doorbell ringers will be entrusted the stupendous task of obtaining information with more than 120,000,000 persons within 30 days after the census taking starts on April 1. The work will be under the direction of William M. Stewart, director of the U. S. Census Bureau.

Uncle Sam's family is multiplying at a tremendous pace. The last federal census in 1920 listed 105 million people in continental United States and it is believed the forthcoming enumeration will show between 123,000,000 and 125,000,000.

Gain 1,400,000 Yearly

In the three minutes it takes you to read this story, the population will have increased eight persons, or at the rate of one person every 23 seconds—which is 1,400,000 persons a year. This increase is made up of the annual excess of births over deaths which amounts to 1,750,000, plus the excess of immigration over emigration which adds 240,000 more.

While many of the questions you will have to answer pry deeply into your personal history, you may feel safe to give the correct answers. For Uncle Sam, or his agents, will not break a confidence. Even another government bureau will not be allowed to see your card.

The most important questions you will be asked are:
Your sex; color or race; age at last birthday; single, married, widowed or divorced; ability to read and write; home owned or rented; if owned, free or mortgaged; does family live on farm; place of birth of person being enumerated; also place of birth of that person's father and mother; if not native of United States, year of immigration, naturalized or alien; does person being enumerated speak English; occupation, industry or business in which engaged; veteran of U. S. military or naval forces in any war or expedition, and if so, which.

The census takers must com-

plete their work in the urban centers in two weeks and in the rural communities in one month. However, the job seems highly desirable, judging from the deluge of applications, which seem all out of proportion to the pay received. On a per capita basis, this will yield the precinct enumerators from \$70 to \$120 for their work.

A Few Plums

There are, however, a few real plums—the jobs of 500 supervisors—with a basic salary of \$2,000 each, plus additional compensation according to the population and the number of farms in each district. They will require stenographers and clerks.

Besides the large group of 100,000 enumerators, who actually take the census, there will be approximately 7,000 extra employees required in Washington. These will come from the civil service lists and some of them will have to work for three years compiling, correlating and arranging the census figures and facts for statistical publication.

The 100,000 field workers will receive about \$10,500,000, but other expenses will bring the total cost of the 1930 census to approximately \$40,000,000.

Machines Tabulate Figures

A visit to the census bureau is enlightening. The place hums with highly perfected mechanical devices almost as intelligent as humans and decidedly more accurate.

Your name and information is filed on punch cards, which are run through electrical tabulating machines to correlate facts. In the 1920 census 300,000,000 cards were used. One machine can count 15,000 cards an hour.

Your history can be struck off while you take a breath, but you could not read an item on

your card, as it is all in signs and symbols and must be interpreted by an expert.

The United States' population today is 30 times as great as when the first federal census was taken in 1790. The first enumeration listed 4,000,000 people; only six cities had as many as 8,000 inhabitants.

Today there are 3,100 counties, 17,000 incorporated cities, boroughs and villages, ranging in size from a mere handful of inhabitants to the great metropolis of New York, which has more than 6,000,000.

CARD OF THANKS

We wish to thank our many friends for their acts of kindness to us during the illness and at the death of our dear son and brother, Green Andrews.

Also we thank them for the lovely flowers. May God bless each one.

Mr. and Mrs. W. G. Andrews, and Children.

LISTENS TO ORDERS

The editor of a newspaper wheeled his chair around and pressed a button on his desk. The office boy entered.

"Here," said the editor, "are a number of directions from outsiders telling us how to run our paper. See that every one is carried out."

And the office boy, gathering them all in a large waste basket, did so.

Renew Your Health By Purification

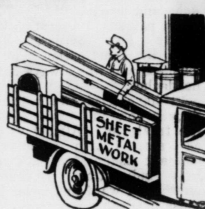

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Colatabs, —once or twice a week for several weeks—and see how Nature rewards you with health.

Colatabs are the greatest of all system purifiers. Get a family package with full directions. Only 35 cts. at drugstores. (Adv.)

MEXICAN WAR'S LAST SURVIVOR, 98, IS DEAD

Washington, Sept. 5.—Owen Thomas Edgar, only surviving veteran of the Mexican War, died Tuesday at the age of 98. The distinction of being the last survivor of the Americans who had part in the war of 1846 came the day before his ninety-eighth birthday, June 17, with the death of William Fitzhugh Thornton Buckner, 101, at Paris, Mo.

Mr. Edgar was born at Philadelphia in 1831. In the war with Mexico he served on board the frigates Potomac and Allegheny. Prior to the war he had worked as a printer. He had been a resident of Washington for more than fifty years.

Seed oats, barley and wheat for sale at Skaggs' Grocery.

There is a "Death Chamber" in the FLY-TOX factory. This chamber is about the size of a box and is used to test the quality of FLY-TOX as a spray to kill flies, mosquitoes, and other insects. During the process, although the insects are placed inside the chamber, they are raised in incubators for testing purposes. While the insects are flying and crawling around in the "Chamber of Death," FLY-TOX is sprayed inside. Less than a teaspoonful is used. Instantly there is a change. Within five minutes not a buzz is heard. All insects are dead. To make sure they are really dead, the insects are carefully removed from the "Chamber of Death" and placed in incubators in an effort to revive them. If a wing flutter, the FLY-TOX has never been in the factory. This test is your guarantee of FLY-TOX quality. It does what you want it to do—kill insects in and about your home. Yet, FLY-TOX is positively harmless to people. FLY-TOX was developed at Mellon Institute of Industrial Research by the Res. Research Fellowship. It will not stain. Has a delightful perfume-like fragrance. There is only one FLY-TOX insect upon the genuine in bottles with his label. Ad.

BARGAINS in USED CARS

If you are interested in a second hand car we have the following bargains to offer which we consider worth the money:

- 1-1928 Buick Sedan price.....\$750.00

WATCH HOW THE NEW FORD HOLDS THE ROAD

NEW FORD TUDOR SEDAN
\$525 (F. O. B. Detroit, plus charge for freight and delivery. Bumpers and spare tire extra.)

THE new Ford is a great car to drive because of the way it holds the road even at high speeds. This roadability is due to the low center of gravity, the semi-elliptic transverse springs, the Houdaille hydraulic two-way shock absorbers, and the low ratio of unsprung weight to sprung weight.

Come in and arrange for a demonstration. You'll find this roadability feature of the new Ford as outstanding as its beauty, speed, comfort, safety, reliability and economy. Perfect balance is a great thing in a motor car.

Loeffler Motor Company

SPILLER FAMILY HOLDS THREE-DAY REUNION ON SAN SABA RIVER

The children, grandchildren and other relatives of M. Spiller and Martha Anne Spiller, deceased, who settled in McCulloch County in 1865 just after the war, held a three-day reunion and camp down on the San Saba river near Voca on Wednesday, Thursday and Friday of last week.

All the children of the above mentioned couple were present at this time, the eldest being 79 years of age and the youngest 57. In all there were over 100 present.

T. J. Spiller, retired Brady citizen; Mrs. Mary Wooten, Brady; J. L. Spiller, Brady grocery merchant; W. F. Spiller, McCulloch County stock farmer; G. A. Spiller, McCulloch County ranchman; Mrs. Jennie McKnight, Odessa; R. H. Spiller, ranchman, near Menard; W. W. Spiller, operating a produce house in Brady; J. E. Spiller, McCulloch County stock farmer.

ILLITERACY

"The appalling amount of illiteracy in the United States is a challenge to every city and state, and to the Federal Government," declares an editorial in the Washington Herald.

"Only by more schools and better schools, by more teachers and better teachers, and by the compensation for teachers, can the nation give to every child that education to which it is entitled and which it must have to assume the obligations of citizenship."

"A Federal Department of Education is needed, and badly needed, to co-ordinate education throughout the country. It is strange that education which next to defense is the nation's most vital business, is not even represented in the Cabinet of the Chief Magistrate of the United States."

"Such a department would rescue hundreds of thousands of children and grownups who are now adrift on the sea of ignorance. Let the nation throw out the life-line to these unfortunates."

BUSINESS SCHOLARSHIP

The Junction Eagle has for sale a scholarship in Byrne's Business College in San Antonio, Houston or Dallas. Anyone interested in attending this good business college should ask about the scholarship for sale covering a full course.

The new airport at San Antonio, designed to be the aviation West Point, will represent an initial investment of about \$14,000,000 and a probable ultimate outlay of around \$50,000,000. It includes 800 buildings for housing the 2,200 officers and men and their families.

FORTY-TWO KILLED IN TEXAS ACCIDENTS

The Texas Council of Safety, Austin, furnished the following summary of accidents, their character and result for Aug-16 to 23:

Table with 3 columns: Cause, Injured, Killed. Rows include Automobile (94, 18), Railway train (1, 5), Interurban car (1, 0), Street car (1, 0), Other vehicles (3, 0), Falls (17, 7), Burns (13, 2), Drowning (1, 2), Firearms (6, 1), Explosives (7, 0), Other causes (29, 6).

Total, 188 injured, 88 killed. Of the above number, eight were injured and ten killed in home accidents and six injured and four killed in industrial accidents.

From Jan. 1, 1929, to date, 7,252 were injured and 1,720 killed in accidents of all kinds and for the corresponding period 1928, 3,576 injured and 1,142 killed.

CHURNING DIFFICULTIES

The inexperienced butter maker sometimes fails to get butter after churning the usual length of time (from 30 to 40 minutes) and continues the operation for several hours. There are several causes for difficult churning, says the U. S. Department of Agriculture.

The churning temperature may be too low; in exceptional cases it is necessary to have it as high as 65 to 70 degrees F. The cream may be too thin, too rich, or too sweet; it should contain about 30 per cent butterfat and be ripened to medium acidity. The churn may be too full. It should not be more than one-third full. All the utensils should be sterilized; otherwise there may be a rovy fermentation of the cream that will prevent its churning properly.

SNAKE STORY

Snake stories and fish stories are always in order, especially when vouched for by local citizens. Blackstone Smith tells the latest snake story. Last week when riding his pasture he heard a rattlesnake and upon investigation found a large one. He noticed a hole in the ground not far away and before attacking the snake placed rocks in the hole. He soon noticed that the snake was sluggish and could only strike with about twelve or fourteen inches of his body.

Mr. Smith realizes that this is a big snake story, but he has a witness to the incident. The snake had only recently completed the task of swallowing the rabbit as decomposition had not begun.

For a tire guarantee that counts, go to the Powell Motor Company and buy a Brunswick. No better tire made for the money and a guarantee that counts.

Search for authority ends in a Supreme Being

BIG SPRING READY TO OPEN ITS NEW AIRPORT

Big Spring, Sept. 9.—More than 10,000 visitors and fifty airplanes from all over Texas and surrounding States are expected here Wednesday and Thursday to attend the air fete with which Big Spring will celebrate the opening of its new airport.

Free hotel accommodation will be given all visiting flyers and free gasoline and oil will be given all those who do not "joy-hop" passengers from the field. C. T. Watson, manager of the Chamber of Commerce, announces.

The Mayors of El Paso, Juarez and of various neighboring towns have promised to attend the two-day fete, as have Reg Robbins and Jim Kelly, the Fort Worth boys who started the recent epidemic of endurance flights.

There will be a complete card of aerial contests, in which \$2,000 will be given as prizes.

OLD BAND BOYS

The claim to being the oldest musical organization in the United States, both in respect to its continuous existence and the age of its members, is made by the Silver Grey fife and drum corps of Logan, Utah. It is not likely that any will dispute its claim. The present members and their ages are:

Fifers—H. F. Liljenquist, leader, aged 72; Michael Johnson, 74; Julius Sorenson, 74; W. I. Sorenson, 58. Snare drummers—John Johnson, 77; Albert Savage, 76; A. J. Hansey, 58. Bass drummer—Thomas P. Smith, 73. Flag bearer—Uriah Benson, 62.

The organization was formed in 1870 and has maintained an unbroken history during all the 59 years since. John Johnson, the veteran snare drummer, was a charter member.

If all the noise those old boys have made in their time could be turned loose at once it would drown out several Nigaras.

Texas has more land in cultivation than any other State and also has more good raw land available for future cultivation than any other state.

That new Ford is a Good car. Low FIRST cost, Low UPKEEP, Low DEPRECIATION. Try one and SAVE the DIFFERENCE. Loeffler Motor Co.

GREEN ANDREWS DIES

The passing of Green Andrews on September 4, 1929, in the bloom of young manhood is another one of the many mysteries of life that we are unable to understand.

Green Andrews was born in Bandera County, February 15, 1904. In 1910 he moved with his family to Junction where he has made his home since that time. On July 25, 1925, he united with the Junction Baptist Church. The funeral services were conducted by the Rev. G. W. Crabb Thursday afternoon, September 5, and the body was buried in the Junction Cemetery.

He was working on the W. W. Allen ranch when he was taken ill. He was brought to his home in Junction and after a few days was taken to a hospital in Kerrville, but disease had such a hold on his body that he was relieved of his suffering on September 4.

He is survived by his parents, Mr. and Mrs. W. G. Andrews, Junction; four brothers, Willie, Joe, Jake and Johnnie, of Junction, and one sister, Mrs. Bill Chapman of Ozona.

Top-worked pear trees on the place of Charles Meurer, near Fredericksburg, raised the price of the nuts from 9 and 10c a pound to 35c a pound. The five acres in proportion to time and labor spent paid him better returns than any other five acres of his farm.

Haskell County Road District No. 7 voted road bonds by a majority of 211 to 65 and a paved road through the southwest part of the county toward Spur will be built.

Floresville has shipped 25 to 30 carloads of roasting ears this season, according to the Floresville Chronicle.

The New York World says a movement has been started to place former Governor Alfred P. Smith in the United States Senate and thus keep him in the national political limelight for eventualities.

McCarroll Lumber Co.

Where can you duplicate the style, comfort and convenience of America's finest medium-priced automobile?

Oakland combines a long wheelbase with a short turning radius—giving greater handling ease. Its bodies by Fisher provide such convenience and comfort features as drivers' seats adjustable as you drive, clear-vision easily-regulated VV windshields and side cowls ventilators. Foot-controlled headlights—automatic spark control assuring correct spark occurrence at any speed—spring covers which add to riding ease by keeping springs permanently lubricated and free from mud, rain and dust.

Facts Which Prove Oakland Supremacy. The following facts were obtained from a comparison of the Oakland All-American Six with 20 other medium-priced automobiles. All told, 87.8 individual comparisons were made. Of these Oakland proved to be distinctly superior in 41.1 or 51.3 per cent. The 20 cars compared were at least equal to Oakland on 38.9 or 43.3 per cent. And 13 of the 20 were higher priced than Oakland.

Oakland All-American Six, \$1135 to \$1275, f. o. b. Pontiac, Michigan, plus delivery charge. Spring covers and Jersey Hydraulic Shock Absorbers included in list prices. Bumpers and rear fender guards extra. General Motors Time Payment Plan available at minimum rate.

Powell Motor Company advertisement for Oakland All-American Six, Product of General Motors. Includes image of the car.

Special Rates to Vacation Land advertisement. Includes table of rates from Junction to various locations like Los Angeles, El Paso, Corpus Christi, Dallas, Chicago, and a daily schedule for bus services.

Fight Fans Roar Approval of Giant Campolo

Devoted followers of the fast sport are going loco over the 28 year old champion from Buenos Aires, Victorio Maria Campolo. The crowd whippers that followed his smashing knockout of gallant Tom Hooney have grown to delicious yells of approval. The suspicion that the giant Argentine in the Champion fight world is seeking has become a certainty to some excited fans.

SPORTSMEN AND HUNTERS

The shotguns are coming out of closets these days and receiving the attention that the first touch of Fall demands. Our hardware dealers are mindful of the season and are filling their windows with displays that make the sportsman stop and look if only in curiosity.

Before long many of us will be headed for the woods, the marshes, and the plains in quest of a good time, a little exciting shooting and incidentally a bag of game.

We use the term incidentally above because it expresses the attitude of the true sportsman. The man who really loves the out-of-doors and the pleasure one can have tramping through the fields with a gun on his shoulder, is not primarily interested in how large his bag is at the end of the day. He knows only too well that there's fun in the sport for its own sake. He has nothing but contempt for the game hog and the pot hunter.

But alas, there are many hunters who cannot be classified as sportsmen. They are inter-

ested solely in the outcome of the trip rather than in the pleasure to be derived from going. They want to come back with a loaded bag in order to boast and brag and they are rather careless over the methods they employ to accomplish the desired end.—Boerne Star.

Beeville is to have a combination milk and sweet cream butter plant to cost \$200,000, according to announcement there. It will handle the output of 7,500 cows and 2,500 cows are necessary before the plant will be instituted.

Work has started on a 230-mile steel gas pipe line by the Magnolia Gas Co. from Bruni, Webb County, to San Antonio and New Braunfels. It will have a daily capacity of 125,000,000 cubic feet.

Junction, year-round playground.

HOW MANY MILK GOATS IN TEXAS?

The modern milk goat industry is, in this State, almost in infancy, but fast growing as people learn of the wonderful value of goats' milk and the small maintenance cost of these useful little animals.

The industry is very large and important in California and a few other States, and we desire to ascertain, if possible, approximately, at least, the number of milk goats of the four popular breeds—Toggenburg, Saanen, Nubian, and Alpine—now in the State of Texas, as statistics furnished by the United States Government only give the total number of goats under one head, including Mexican, Angora, and all other varieties.

We, therefore, invoke the aid of the press, through which medium we would ask every Texas owner of one or more modern milk goats to send the undersigned a postal card stating number and breed of milk goat owned by him or her.

A full response to this request will be very agreeable, enabling us to determine, with some degree of accuracy, at least, the number of modern milk goats now in the State of Texas, and compile a record accordingly.

Thanking you in advance for publication of this letter and earnestly urging milk goat owners to furnish the desired information, we are,

Very truly,
Texas Milk Goat Breeders' Association, Inc.
Ft. Worth, Texas.

Chocolate that appears white on the outside has been kept in an overwarm place, so that some of the fat has melted and come to the surface. It is not injured in any way for use.

Try Magnolia gasoline and oils. They are good. That's why we sell it.

THE BIBLE

This book contains—The mind of God, the state of man, the way of salvation, the doom of sinners, and the happiness of believers. Its doctrines are holy, its precepts are binding, its histories are true and its decisions are immutable. Read it to be wise, believe it to be safe, and practice it to be holy. It contains light to direct you, food to cheer you. It is the traveler's map, the pilgrim's staff, the pilot's compass, the soldier's sword and the Christian's character. Here paradise is restored, Heaven opened and the gates of Hell disclosed. Christ is its grand subject, our good its design and the glory of God its end. It should fill the memory, rule the heart and guide the feet. Read it slowly, frequently, prayerfully. It is a mine of wealth, a paradise glory and a river of pleasure. It is given to you in life, will be opened in the judgment and be remembered forever. It involves the greatest responsibility, gives the greatest reward for labor and condemns all who trifle with its holy contents.

WORK AND NO PAY

Little Joe—"Daddy, do the teachers get paid?"

Daddy—"Certainly! Why shouldn't they?"

Little Joe—"I don't see why they should—the pupils do all the work."

Junction Trade Notes

(By G. G. Co.)

Ranchmen radiating in and out of Junction last Saturday reported fine rains, ranging from two inches up, or down. Who said there isn't a Santa Claus?

Local poultrymen who have young laying hens may have a profitable season ahead. Egg prices in San Antonio have advanced to \$10.50 and \$11.00, candled basis, which is around 36c a dozen in case lots. Locally eggs are scarce, and Christmas coming on.

New crop evaporated apples and apricots, turnip seed in bulk. Gann Grocery Company. Seed wheat in stock.

Found: Workman's lunch kit and thermos bottle. Owner can have it by applying to Gann Grocery Company.

Jonathan apples from the orchard of W. A. Bannowsky, Bear Creek, are attracting a great deal local attention due to superior quality. Mr. Bannowsky has 7-year-old apple trees growing along his irrigation ditch; they have been bearing three years and the fruit is as fine as can be grown anywhere.

Mrs. Sam Bowers is on vacation this week, visiting her mother in San Marcos. The fleet of twelve airplanes that passed over Junction Wednesday landed in Big Spring where an air fet was held Wednesday and Thursday. A. R. Burgess, recently of Ballinger, with Mrs. Burgess has taken an apartment at Kimble Courts. Mr. Burgess is an oil-well driller and his firm is under contract to drill a block of acreage between Junction and Sonora.

Miss Gussie Burris of Ballinger arrived early in the week to resume her school work as teacher of Evergreen school, which she has taught the last three years. Miss Burris has a comfortable apartment with Mrs. Guy Wynne.

Campbell's assorted soups, including bean, pea, celery, mock-turtle, consommé, pepper-hot, mulligatawny. Gann Grocery Company. The local market is being supplied this week with home-grown green beans, okra, squash, tomatoes, sweet and hot peppers.

Ira G. Yates, San Saba ranchman, has posted a reward of \$1000 for the apprehension of persons stealing livestock from his ranch. Recently 145 goats were stolen from the Yates ranch. It is stated that 140 of the goats have since been returned to the ranch.

Business change: P. C. McInnis, recently of Brownwood, is successor to the Awbrey-Bell Drug Company in Junction. The family arrived Wednesday and are domiciled in a comfortable cottage near Kimble Courts. Mr. McInnis and family will be pleased with Junction. Everybody else is.

Gann Grocery Company "Everybody's Store."

ROOSEVELT ROUND-UPS

Mrs. Miles and daughter visited at Sonora last week. Mrs. Liefeste has returned to her home in Mason after a visit to her children here. Mrs. Sanford Roe and family spent Monday at Camp Wagoner.

The Davis and Oltie families spent Sunday in Llano. Fred Franks and family were Del Rio visitors last week. Mrs. McCully of Del Rio was here last week looking after business matters.

Quite a lot of leasing and drilling plans are heard in this section now. The little child of Lloyd Dahrsh drank coal oil and was quite ill for a time.

Some cases of small pox at Bruns' ranch and a quarantine has been put on.

The Holder family who farmed on the Barker ranch left Monday for Brady.

Mrs. Sam Pearson and Mrs. Sid Cade were business visitors to San Angelo Friday.

The magnificent rain put new life into everyone and broke the severe summer heat. Considerable hail fell in this vicinity. Dave Goblen is moving his family to Junction.

ROOSEVELT SCHOOL NEWS

Roosevelt is going on her second week of school. We have twenty-seven pupils enrolled. Everyone seems to be rather enthusiastic about his work and we hope to make this one of the best school years for Roosevelt. The pupils had to walk to and from school in the mud Friday, but they did not mind it, for they were so glad to get to school.

Everything seems to have taken on new life since the good rain that fell here last Thursday and Friday night.

Ilee Simon was absent from school Monday and Tuesday. Burt Allison has been out of school all this week on account of his fingers being sore. He had them lanced Monday. We hope that he will soon be able to return and be in our midst.

Mrs. Thelma Thiers, our last year's teacher, is visiting friends in Roosevelt.

Mrs. John Davis visited the primary grades Tuesday morning.

The men of this community moved Miss Georgia Allison's windmill Saturday. This will enable the school children to have plenty of fresh water to drink.

Mr. E. V. Stewart, secretary of the Kimble County Chamber of Commerce, and Mr. R. E. Homann, the County Agent, visited the Roosevelt school Tuesday afternoon. They both made very interesting talks to the pupils. We hope to have an enthusiastic club of boys and girls organized in a few days. We invite these two good men back to visit our school at any time.

DR. BLACK, SPECIALIST. LOCATES IN KERRVILLE

A. J. Black, B. S. M. D., has located in Kerrville at 920 Water St., where he has an office with operating room facilities for the medical and surgical treatment of diseases of the eye, ear, nose and throat.

He is prepared also for the scientific fitting of glasses.

Dr. Black has taken courses in both American and European universities, and comes highly recommended in his special line. He came to Kerrville from Okmulgee, Okla. See his ad in this issue.

S. A. COLLEGE OF MUSIC HONORS MRS. MCCARROLL

Last Sunday's San Antonio Express carried a half page advertisement recognizing the prominent musicians of San Antonio and vicinity, sponsored by the San Antonio College of Music, John Steinfeld founder, giving them affiliation with this school. These teachers passed rigid national examinations to fulfill the demands of our educational institutions. Leading high schools are now giving credit to a student studying with these affiliated teachers of music using the Progressive Series.

Among the prominent music teachers listed by the San Antonio Express was Mrs. C. W. McCarroll of Junction. Mrs. McCarroll feels honored to be given this distinction by the San Antonio College of Music.

Society SURPRISE PARTY

Tuesday afternoon a group of friends called on Mrs. Luther McDonald and on arriving asked her to help carry some packages in from the car. These packages were then presented to Mrs. McDonald, who opened them and found they contained pretty and useful gifts for her home.

Bridge provided the medium of entertainment. Pecan pie and hot tea were enjoyed at the close of the afternoon. Rosebud nut baskets filled with Jordan almonds were used as plate favors.

Those present were Mesdames L. E. Standifer, Alton Childers, C. R. Stevenson, Irvin Jarvis, Clifford Hamer, Brown King, L. D. Borden, Pierce Hoggett, Van Martin, Ollie Fleming, Misses Josephine Urban and Inez Warren.

ENTERTAINS

Friday evening Mrs. Joe Fritz complimented Mrs. L. Chamberlain of Galveston, with a bridge at the Fritz Hotel.

The tables were placed in the dining room where bowls and vases of cut flowers provided a note of color.

A beautiful bulb bowl of Weller ware went to Mrs. Hy. Taylor who made high score. The honoree received a lovely vase of Weller ware.

Tuna fish salad, lemon butter sandwiches, orangeade and spice cake were served to Mesdames Hy. Taylor, Mabel Kindrick, H. G. Hubert, Sam Woodward, Clay Secrest, J. M. Livingston, M. E. Hollern, John Martin, A. J. Hamer, W. E. Hokekamp of San Antonio and Mrs. L. Chamberlain of Galveston.

NEWS NOTES

Six San Angeloans are facing federal charges following a 10-day visit in the city by R. A. Richards of San Antonio, federal narcotic inspector, and other members of his department. A San Angelo physician is charged with using narcotic prescriptions illegally; two other white men are charged with violation of the Harrison Narcotic Act, and three negroes are charged with possession and sale of morphine and cocaine and with conspiracy to violate the anti-narcotic laws. The other two white men charged with violation of the act have not been arrested.

Junction streets need paving.

WINTER PASTURES

Just mind, folks, cold weather is coming, feed will surely be short and an acre or two of some winter pasture will certainly pay for itself many times over. If you cannot secure small

grain seed call at the Chamber of Commerce for information. Canadian field peas or Hairy Winter Vetch are mighty good to sow with small grain and make an excellent feed and pasture and will also fertilize your land.

TWO TRUCKS

Leave Junction for San Antonio Sunday, Monday, Wednesday and Thursday. Return from San Antonio Monday, Tuesday Thursday and Friday.
