AMARILLO PAPER SUSPENDS AFTER SIX MONTHS RUN

(By Associated Press) AMARILLO, Nov. 28.—The Amarillo Sun, afternoon daily, which started on May 29, this year has discontinued publication...

Approximately \$10,000 of the stock was subscribed in Amarillo. The Sun's telegraphic news was obtained from the International News Service.

FLOODS EXACT HEAVY TOLL IN NORTH AFRICA

ALGERIERS, Nov. 28.—Floods which swept the coastal region of the French territory of Algeria, in north Africa after a 46 hour rain today were believed to have claimed hundreds of lives...

The brief message of an engineer over a hurriedly repaired telephone line saved hundreds of lives when a dam a third of a mile long broke at Perrégaux.

The dam is breaking, ring the town, warn the population," the engineer shouted over the telephone to the authorities at Perrégaux.

The warning that millions of tons of water were threatening the city spread rapidly. Ten thousand inhabitants fled to the hills.

Two trains were held up by the flood between Algiers and Oran. Airplanes dropped food in sacks to the passengers.

The initial exhibit of the Panhandle-Dairy association promulgated by one of the best ever held in the state according to David F. Eaton, president of the association...

The executive committee will meet here December 5 for the purpose of outlining the territory, character of the show and other details which will be submitted for the association's approval at their meeting in Tulsa, December 16.

The judge was selected in an hour and a quarter. Mrs. Reavis died about 7 o'clock Sunday morning.

Funeral services for Mrs. Henrietta Reavis, 81, mother of Mrs. J. J. Chaucery, 124 1/2 street, were held yesterday afternoon at the residence with Rev. Jack M. Lewis, pastor of the First Presbyterian church, in charge.

Josephine Haldeman-Julius, 18, Defends Her "Companionate Marriage" To Penniless Youth

HEIRESS AIRS HER VIEWS ON WEDDED BLISS

DISCIPLE OF LINDSEY BELIEVES VENTURE WILL BE SUCCESS

GIRARD, Kas., Nov. 28.—Josephine Haldeman-Julius, the 18-year-old high school girl who has startled the country with her announcement of a companionate marriage with a young man she has known since childhood...

"Why should we young people be expected to wait for marriage until we have reached economic independence?" "When we are ready to make our home together like other married people we shall have children."

"Companionate marriage in my viewpoint means happiness—when life is still rosy and filled with laughter." "I believe that if many of the boys and girls I know were to do likewise there would be fewer tragedies."

The girl is the daughter of E. Haldeman-Julius, famous book publisher of this little Kansas town, and in taking this ultra-modern step, she will be testing the naive marriage theory of one of her father's closest friends—former Judge Ben Lindsey of the Denver juvenile court.

The conviction and sentences of A. E. Lewis, former president, and W. L. Lewis, former vice president of the Liberty National bank of Tulsa, Okla., in connection with the wrecking of the bank, were upheld today by the United States circuit court of appeals.

The two bankers were convicted in federal court at Ardmore, Okla., a year ago last spring of making false entries in the bank's books and were sentenced to five years each in the federal penitentiary and assessed fines of \$5,000 each.

The false entries, the government alleged, were made to cover misappropriation of \$800,000 of the funds of the bank. The Security National bank of Tulsa, the government alleged, was deceived in the purchase of the Liberty National when it was in an insolvent condition.

Spurious notes, which wiped out the capital of both banks were discovered two days after the purchase of the Liberty National.

Funeral services for Mrs. Henrietta Reavis, 81, mother of Mrs. J. J. Chaucery, 124 1/2 street, were held yesterday afternoon at the residence with Rev. Jack M. Lewis, pastor of the First Presbyterian church, in charge.

'Companionate Marriage' Principals

MR. AND MRS. AUBREY CLAY ROSELLE (Story in Next Column)

LITHUANIAN ARMY ASSEMBLES FOR EMERGENCY WHILE POLAND DENIES PLANNING ANY AGGRESSIVE STEPS

(By Associated Press) BERLIN, Nov. 28.—All the higher officers of the Lithuanian army assembled today at the war office in the presence of President Smetona, and declared that they have unshakable faith in the government and are willing to sacrifice their lives for the independence of Lithuania...

JUNKERS CREW GIVES UP PLAN TO FLY TO U. S.

PROPELLER IS BENT IN HORTA TAKEOFF; TRIP IS ABANDONED

(By Associated Press) HOJITA, Island of Pinal, Azores, Nov. 28.—The Junkers plane D-1230 enroute from Germany to the United States, bent its propeller in an attempt to take off for Harbor Grace, Newfoundland, at 4 o'clock this morning.

"Now, it's all over," Lilli Dillena, Viennese actress who is a passenger aboard the plane, said as she stepped ashore.

The plane did not succeed in rising from the water despite good sea and wind conditions.

Trip Called Off By Supporting Company BERLIN, Nov. 28 (AP)—The crew of the Junkers plane D-1230, now at Horta, Island of Pinal, Azores, has decided to give up their attempt to fly to America this year...

The crew which failed again this morning to take off for Newfoundland, found the sea swell too strong, it was explained.

Stalked by Ill Luck Ill luck has attended the efforts of the Junkers tri-motored hydro-airplane D-1230, since it tried to continue its flight from the Azores to the United States.

On November 14 while the Junkers plane was preparing to hop off the Heinkel plane started off its 1,600 mile flight to Harbor Grace, Newfoundland. It crashed with a few seconds, its heavy pontoons catching in the waves and causing the ship to plunge into the ocean.

The wreckage of an airplane in a thickly wooded section of the Fayette mountain region, discovered today by observers from the air, was believed to be the army plane, missing with two airmen, since Friday.

YOUTH IS HELD AFTER SUICIDE OF YOUNG WIFE

(By Associated Press) CHICAGO, Nov. 28.—For "guiding his wife to death" 26 year old Kendall Cowgen, was held today on a charge for manslaughter.

Although Cowgen did not return to his home until three hours after his wife, Viola, 18, had taken her own life by gas, police blamed him for her death, saying that an argument during which he became bitter was what led his young wife to suicide.

The Cowgens came here from Kansas City, agreeing to a married life somewhat similar to the "companionate" union advocated by former Justice Ben Lindsey of Denver. Both were to work, and there were to be no children.

Here, however, Cowgen said his wife often yearned for a home and children; this precipitating discord which ended in tragedy.

APRIL TERM OF COURT SET AS DATE OF TRIAL

RANCHER WILL FACE MURDER CHARGE IN AUGUST

(By Associated Press) LAMESA, Nov. 28.—The inability of a number of material witnesses to appear at this time brought continuance in the murder case against Will 'Dutch' Luman, Garza county ranchman, which was called here this morning in 106th District court.

The decision for the continuance was announced shortly after one o'clock this afternoon by Judge Gordon B. McGuire, presiding, who set the new date as April 23.

Immediately after the case was called this morning defense counsel entered the continuance plea and most of the morning was consumed in this manner.

Luman's case was brought to Lamesa on a change of venue from Post. The defendant stands charged with the fatal shooting of Marvin Breeding, 33-year-old restaurant employe, in a Post city theater on the night of August 5, this year. Breeding was taken to Lubbock where he died several days later.

The bodies of two army aviators who met death when their plane crashed in a mountain forest Friday, were found by a party of rescuers in the dense woods on Chestnut Ridge today.

The body of Pilot E. R. Emory was found some 250 feet from the plane. Nearby lay the body of Mechanic William D. Vollman. Both aviators had on their parachutes.

One was partly opened while the other was strapped tight to the victim's back, indicating that the aviators had but a few moments to jump before the plane crashed in the woods.

The wreckage of an airplane in a thickly wooded section of the Fayette mountain region, discovered today by observers from the air, was believed to be the army plane, missing with two airmen, since Friday.

Whitehead and Campbell Here In C. of C. Work

Seeking to maintain the same standard of service which has been rendered to this section through the work of the organization, E. H. Whitehead, publicity director and L. B. Campbell, field representative of the West Texas chamber of commerce, are in Lubbock today to start the annual drive for members in the city. They expect to be here for two or three days.

Lubbock's quota of members in the organization for the coming year has been set at 300 and local chamber of commerce officials feel that the mark can be easily made in a short time. The membership for the past year has been about 250. A letter asking for membership renewals was sent out Saturday from the chamber of commerce office, by W. S. Possey, a vice-president and Mr. W. R. Rix and E. A. Wells, directors of the West Texas chamber of commerce.

Mr. Whitehead reports that towns all over the region are responding heartily to the membership drive and that in each case the mark can be easily made during the drive.

Membership in the organization guarantees the individual or firm representation in all of the important industrial and governmental questions affecting the territory.

Many Candidates Seek Masonic Work

WACO, Texas, Nov. 28 (AP)—More than 100 candidates from all over Texas began study of Esoteric work at 9 a. m. at the Masonic Temple here today. They were meeting with the committee on work for the Grand Royal Arch Chapter. The committee will continue every day of the week through Saturday.

F. N. Shesley of Commerce is chairman of the committee. Other committeemen are Walter Griffith of Thrall; W. C. Teague, of Carlsbad; John C. McDonald, of Hillsboro; H. L. Hrey, of El Paso; T. M. Bartley, secretary, was registering the candidates this morning.

Housewife Is Named Beach Jury Foreman

MAYS LANDING, N. J., Nov. 28 (AP)—Mrs. Carrie L. Calkins, an elderly Atlantic City housewife, was selected today as the foreman of the jury that will decide whether or not Mrs. Margaret Lillendahl and Willis Beach murdered the woman defendant's aged husband.

Colorado Man Dies In Street Argument

COLORADO, Texas, Nov. 28 (AP)—John Smith, garage owner here, was shot and killed and his brother, Bill Smith was wounded early today in an altercation on the street. A Colorado man surrendered after the shooting but no charges have been filed against him yet. The brothers are said to have had trouble with the man before.

Marines Attacked By Band Of Rebels

MANAGUA, Nicaragua, Nov. 28 (AP)—Aviators with the joint command of United States marines and national guardsmen operating near El Chipote were fired at Sunday by 200 rebels. The aviators flew low, dropped bombs, raked the rebels with machine gun fire, killed four of them and wounded several. The planes then returned safely to their base at Ocotul.

NEW BAND STAND IS DEDICATED IN CANYON PROGRAM

CANYON, Nov. 28.—Canyon has recently dedicated a brick band stand erected through the efforts of the City Federation of Women's clubs. The Chamber of Commerce and private citizens of Canyon assisted in raising the money for the band stand which is of the most modern type and cost \$1,500.

Speakers at the dedication were: Mrs. C. R. Fisher, president of the federation; O. W. H. Cook, president of the Chamber of Commerce; J. A. Hill, president of the West Texas State Teachers college, and County Judge B. F. Fronberger. They were followed by a band concert under the direction of C. E. Strain.

WESTERNERS PREPARE FOR POST SEASON GAME AT PLAINVIEW

CLUBS MEET IN BULLDOG PARK FOR DECISION

ANCIENT RIVALS WILL PLAY OFF TIE OF THANKSGIVING

The westerners will go into training this afternoon at the Merrill park for the post-season contest with their ancient and honored rival, the Plainview Bulldogs, which will be played in Plainview on Friday. The Westerners and Bulldogs played a 6-6 tie game here on Thanksgiving day, but the coaches of the two schools arranged to play the game off since there never has been a season passed without either of the teams taking victory over the other.

No Stiff Workouts
"We are not going to put the boys through a series of hard workouts, but run them through signal practice steadily until the day of the game," Henry Frnka, coach of the high school team told the journalists this morning. Even though defeated by the Lions in the Thanksgiving game at Vernon the Westerners are pleased with the showing their machine made with the highly heralded Lions, and but for a break of the game, which came in the last seven minutes of play the Lubbock eleven handled the Lions cautiously and on an even basis.

Eleven Westerner players make their debuts in high school football performance in the Plainview clash and they will all be given an opportunity to rise to heights in the weeks with the Bulldogs. The eleven passing stars are: Leslie Smith, Al Black; Raymond Ater and Leanne Dollahite, halfbacks; Luther Williams, quarterback; Parkinson and Dickinson, guards; Kerr, Whitesides and Campbell, ends; Curtis Allen and Buckingham, centers.

Running Attack Relied On
Del Morgan, handler of the Westerner backs, hopes to have his machine running smoothly and effectively for the All-American Friday. The change of the homelings has broken loose with more danger in their more recent games. Quannah and Vernon, than previously. The running attack will be relied on more in the Bulldog scrap than the passing, although smoothly the Westerners resort to passing. Les Smith, one of the best passers in the South Plains-Panhandle class A conference, will be on hand accurately hurling the oval to ready receivers, Kerr, Whitesides, Campbell, Dollahite and others that might be used in the contest.

One of the largest attendances for the 1927 season is expected at the Plainview-Lubbock tilt, as the mix-ups of these two schools bring hundreds of fans from both Lubbock and Plainview territory for the games.

Canadian Fighter To Try For Title

TORONTO, Nov. 28 (AP)—Whether Canadian fighter will step up into the ranks of world title contenders will be determined tonight when Albert "Frenchie" Belanger of Toronto fights Frankie Genaro for the right to meet Ernie Jarvis, English champion, in a bout for the world's flyweight title. The fight is under the auspices of the National Boxing association. The local boxer has defeated Newbury Brown, one of the outstanding flyweight battlers.

MAN ACCUSED ON KIDNAP CHARGE BANDIT LEADER

(By Associated Press)
NEW ORLEANS, Nov. 28.—Police announced today that Jesse H. Smith arrested here Friday night after two girls had told officers that he and another man had abducted them on November 8 and held them virtual prisoners since that time, had confessed to being an experienced counterfeiter and the leader of a gang of bandits who had committed holdups in several southern cities.

Meanwhile the girls, Cecelia Beatty, 18, and Betty Donaldson, 17, were enroute to Atlanta from where they said they were abducted by the two men. They left here last night after J. Beatty, father of Miss Beatty, arrived to take them in charge.

Accomplices Sought
Officers today continued their search for E. R. Ross, alleged to have been a confederate of Smith and the other man who abducted the girls.

Smith, officers said, told them he was experienced in the business of raising \$5 currency notes to \$20 and that a number of such "doctored" bills had been passed by himself or some of his companions in Atlanta, Memphis, Jacksonville, Baton Rouge, Chattanooga and Miami.

Norway Gets Woman Envoy From Soviet

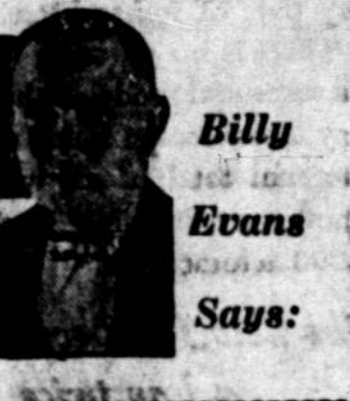

OSLO, Norway, Nov. 28 (AP)—Mme. Alexandra Kallantay, who recently returned to London after living as a soviet, Russia's envoy to Norway for about a year, today resumed her post as soviet minister to Norway, the position she had held before going to Mexico.

Won't Be Long

JACK KEARNS

IT won't be long now before Jack Kearns will know whether he is to collect the \$323,332.32 he is asking the courts to make Jack Dempsey pay him. The case is due for settlement soon.

Billy Evans

Says:

No Breathing Spells
It is doubtful if there ever was a season in the history of collegiate football that compares with the present one for upsets.

Every Saturday since late September there have been anywhere from four to a dozen games that have resulted directly contrary to the predictions of the experts. Recently I had the opportunity to discuss this unusual condition with a former all-American star of football, who has been offered a rather logical explanation of the many form reversals in football.

"Too hard a schedule, necessitating that the coach point his team for too many consecutive games without having a breathing spell, in between," was the solution offered by the all-American star.

"Football is a strenuous sport and you can't ask too much of the youthful athletes who play it. The strain is such they are bound to go stale unless they have a chance to taper off, relax a bit. It strikes me that the all-American star who has been through the mill and knows what he is talking about, just about hit the nail on the head.

Michigan is Example
Take the Michigan schedule for instance. After two preliminary games to get the boys hardened up, the Wolverines playing Ohio Western and Michigan State as conditions, the trouble began for the Ann Arbor boys.

From that time until the close of the season Michigan's schedule called for such formidable opposition as Wisconsin, Ohio State, Illinois, Chicago, Navy and Minnesota on successive Saturdays. That's six tough ones in a row.

Michigan had to be on edge to beat Wisconsin, was at top form against its traditional rival, Ohio State, but slumped badly against Illinois and, minus Gilbert, suffered his most unexpected defeat, 14-9. The team seemed dead on its feet, in no way resembling the brilliant aggregation that swamped Ohio State.

Few teams are able to weather six tough games in succession without having the athletes go stale, despite the most careful conditioning upon the part of coach and trainer.

Not Like Old Days
In the old days when there was no huge overhead because of the big stadiums, two or three big games would draw more than enough people to make the season a success financially.

The modern stadium has changed this condition entirely. There must be from four to six big home games with a couple on the road. Incidentally, the coach must turn out a good enough team to attract a patronage that will pack the stands.

The case of Michigan is merely one of perhaps 25 that could be named. Consider Yale. In the second game of the season the Blue look on the strong Georgia team. The southerners pointed for Yale, started work early in September, while Yale used Georgia as a conditioner. The result, Yale suffered an early reverse, 14-10.

One can find a similar happening in the records of a majority of the leading teams because there is a spot in most of them where the team is stale and suffers.

However, since winning isn't everything from the collegiate angle, and since the huge stadiums must be filled to take care of the overhead and look after the expense of other sports, hard schedules will continue and upsets will occur.

With a population of only 55, the island of Tavolara in the Mediterranean is an independent republic.

MAJOR LEAGUE MANAGERS SEE MORE CHANGES

APPOINTMENT OF TRIO OF NEW BOSSES IS A BAD OMEN

NEW YORK, Nov. 28.—Three changes having already been made in the list of National League managers, baseball fans are now wondering what shifts will be made in the American.

Jack Hittory recently appointed manager of the Boston Braves, should be popular there. He is a Bostonian by birth and has been very successful in handling the baseball teams of Harvard and Boston College.

The selection of Bert Shotton to manage the Phillies is simply the annual move of President Baker in changing pilots. The passing of Bob O'Farrell was rather unexpected. While not possessing the supposed managerial necessities, fight and tact, the Cardinal catcher, in finishing second with his team, seemed to be deserving of another chance.

In the American League, a new leader at Cleveland is certain. When Jack McCallister took charge of the second place Indians of 1926, he accepted the toughest job in the majors. He was a failure, his team finishing sixth.

There is nothing certain about the Chicago situation. The White Sox under Ray Schalk disappointed shoulder all the blame. Even though his club finished seventh, Comiskey is strong for Schalk and may use him for another year.

While Stanley Harris has been a big success at Washington, he isn't popular there. He is accused of being a "high-hatter," but just why no one seems to know.

AGGIES LED TO FIFTH VICTORY IN TEN YEARS

BIBLE FINISHES A FIVE YEAR CONTRACT WITH SAILING COLORS

COLLEGE STATION, Nov. 28.—Thanksgiving Day's victory for the Texas Aggies over the Texas Longhorns, by adding another Southwest Conference championship to A. and M.'s belt, gave A. and M. its fifth conference championship during the ten years that Deane X. Bible has been head coach at the college.

This is the fifth year of a five year contract as head coach at A. and M. signed by Bible in 1923 and the championship this year is the second during that five year period.

Much To Compliment
In reviewing the season just closed, Bible finds much to compliment not only in the support of the college administration, the alumni and other friends of A. and M. but in the spirit of the players as well.

"The boys have had a keen desire to become better football players," Bible said. "They have been very diligent in their work. They have gone at full speed in practice. The reward for any team that will work as hard as our boys have this year will be success. And there has been the finest sort of cooperation from every one interested in A. and M. the faculty, the alumni, officers of friends and supporters."

Bible took occasion to pay tribute to the fine sportsmanship of players in the Thanksgiving day game, victory in which was the last needed to assure the championship. "Sportsmanship is traditional with Texas," he said, "and it is a pleasure to play such an opponent."

Winner in 1917
Bible's first year here as head coach was in 1917 and that year he put out the conference winners. War clouds were dark on the horizon at that time and after the Thanksgiving day game he entered the air service of the army and was with the colors for eighteen months. He returned to A. and M. in 1919 after the war and repeated his performance of 1917 by putting out another championship team in 1919.

A. and M. repeated as conference winners in 1921 and 1925. With the conference championship this year, Bible has scored five championships out of ten years as head coach. Fans will recall that the 1921 champions added to their laurels by defeating Centre College and grabbing off the Southern championship. Centre College that year had defeated the Southern flag defeating Harvard and winning on the West Coast. "This came the game with the 1921 Aggies and Centre tasted defeat."

Ten thousand automobiles, 3,000 auto-buses and 120 excursion trains conveyed 150,000 people to Blackpool, a resort near London, to view the illuminations on a recent Saturday night.

Challenger

ALLEN HALL

Allen Hall of St. Louis, generally regarded as one of the three leading three-cushion carom billiard players in the southwest, has issued a deft to Champion Otto Roiselt for a title match. Hall finished fourth in the last tournament and has improved his game so much this season that his many supporters believe he can knock off the champion.

Crosbyton Closes Good Grid Season

CHOSEYTON, Nov. 28.—The Crosbyton high school closed its football season Friday, November 25, in a game with Matador, Crosbyton. A hearty record of the fact that its team has lost only two games out of eight played. A great future is expected, since intense training was started only this season.

Mr. Smith, leading jeweler of Crosbyton, presented a beautiful trophy to the high school which was to be given to the football player judged the most valuable for the team. It was voted that Roy Karr receive the medal. Three other players, Allen, Callahan and Leatherwood, were given honorable mention. This is Karr's first year to make the team. He yet has three years to play on the high school football team.

The center of the negro population of the United States is in the northwestern corner of Georgia. More than four million copies of the song, "A Perfect Day," have been sold.

AGGIELAND TO LOSE SEVEN OF 15 LETTER MEN

JOEL HUNT ONLY MAN IN BACKFIELD LOST FOR NEXT YEAR

COLLEGE STATION, Nov. 28.—Of the fifteen members of the 1927 Southwest conference championship Texas Aggie football team awarded the varsity letter at the close of the season, eight are expected to wear the maroon and white again next year. The other seven have played their last game on the A. and M. team, due to being seniors this year or by reason of having played three years in the Aggie lineup.

15 Men Given Letters
The fifteen members of the 1927 team awarded the varsity T by the athletic council at a meeting following the final game are: Captain Joel Hunt, Walter O. D. Alabonok, Chase Z. W. Barlett, Marlin H. E. Burgess, Hale Center, W. E. Davis, Stephenville; J. A. Deffebach, Fort Worth; R. R. Dorsey, Fort Worth; E. E. Figari, Galveston; J. G. Holmes, Trroup; W. S. Lister, Livingston; T. W. Mills, Groesbeck; S. J. Petty, Decatur; C. E. Richter, Laredo; J. V. Sikes, Leonard; A. C. Spritt, Livingston.

This year's letter men who will be lost to the team are Captain Hunt, Deffebach, Figari, Holmes, Lister, Sikes and Spritt. The maroon and white will also lose through graduation two other good players who were letter men of 1926 and were on the varsity squad this year but did not letter. They are H. P. Wylie, Dallas, and J. A. Rektork, Violet. "Of this year's letter men Hunt is the only one of the backfield who will be lost to the team next year."

Barlett Leads in Time
Barlett with 444 minutes of playing time to his credit leads the Aggie letter men in time played during the season. Hunt is next with 425 minutes, and Petty third with 361 minutes. These totals are for the nine games played.

The 1927 varsity letter men will receive miniature gold footballs by reason of the championship record. The silver football trophy from the conference goes to the college.

The captain for the 1928 team will be elected at a meeting of the players to be held December 5.

Review in Railroad Case Refused Today

WASHINGTON, Nov. 28 (AP)—The supreme court refused today to review the reorganization of the Chicago, Milwaukee and St. Paul railroad which was approved by the lower courts.

REALTORS MEET TO TALK PLANS OF ADVERTISING

Firing the first gun in the proposed national advertising campaign of Lubbock and the South Plains, the Lubbock realtors will meet at 7:30 tonight in the city hall to consider the campaign plans. It was announced this morning from the Chamber of Commerce. The meeting is to be held to discuss with the realty men the worth of the campaign and to make arrangements for their part in the work.

Every real estate dealer in the city is given a special invitation to be present to hear the outline of the proposed plan.

Tonight's meeting will be an advance meeting of the series which will be held when V. M. Wallace, director of community advertising for the Southwest Advertising company of Dallas, arrives. He will address the Rotary club on Wednesday and a general mass meeting of all interested parties at the city hall on Wednesday night. On Thursday he will speak to the Kiwanis club.

FORD HAS FOUR WHEEL BRAKES AND WILL DO 65

(By Associated Press)
DETROIT, Mich., Nov. 28.—The first official announcement that the new Ford car will be equipped with four wheel brakes was made today by the Ford Motor company. The announcement also said that the new car, to be placed on display for the first time Friday, December 2, "has actually done 65 miles an hour in road tests."

The price and other details of the new machine were withheld.

All Models Ready For Friday's Show

NEW YORK, Nov. 28 (AP)—Edsel B. Ford expects that all models of the new Ford car will be ready for the initial public showing on Friday, he said at the opening of the automobile salon yesterday. A few months later, he said, it is planned to add a roadster to the models. Only the two door sedan was displayed to dealers at a private showing at Long Island City last week.

BRENNHAM BANKER DIES
BRENNHAM, Texas, Nov. 28 (AP)—Funeral of the late D. C. Giddings, 64-year-old banker and prominent citizen of Brenham, who died here Sunday, was scheduled for 4 o'clock Monday afternoon at the family home.

While a yellow fringe on official flag is customary, there is no law forbidding or requiring it.

Reunion At Tubbs Home Here Planned

The Isham Tubbs farmhouse, 6 miles west of town will be the scene of reunion and merriment Christmas Day when Mr. and Mrs. Tubbs celebrate their Golden Wedding anniversary. They were married on December 25, 1877. They have lived on the Plains for 33 years.

Included in the reunion which will be attended by every child of the family will be some 500 relatives and friends from all over the state. Open house will be held from 2 to 4 in the afternoon.

Children of Mr. and Mrs. Tubbs are: W. G. Tubbs of Dallas; S. P. Tubbs of Dallas; R. I. Tubbs of Amarillo; J. L. Tubbs, C. H. Tubbs, J. A. Tubbs, T. T. Tubbs, Mrs. F. P. Hevler and Mrs. Olive Pluke, of Lubbock.

SALVATION ARMY SEEKING BETTER QUARTERS HERE

Larger and more convenient quarters for downtown services, and possibly addition to the corps of workers, is one of the objects of the annual Salvation Army drive for funds from December 1 to 15. It was announced here Monday by Rev. E. L. Whiddon, special representative of division officers in Dallas, who is here to assist in the campaign.

Rev. Whiddon reported today that he has found the local part of the Army has been very liberally supported through the tabernacle collections, and that the unit is now out of debt for the first time in a long while. It is the hope of Rev. Whiddon to have a Colonel and Major from division offices here the latter part of the week to aid in starting the campaign, he said.

Plans for the campaign have met hearty endorsement of the Advisory Council, has full co-operation of the Red Cross secretary, and is endorsed by ministers of the city, who made public announcement of the campaign from their several pulpits Sunday, he said.

THORNTON AMONG FIRST DOZEN IN CLUB CONTESTS
COLLEGE STATION, Nov. 28.—Two Texas farm club boys, Herman Henderson, of Kurten, Brazos County, and I. J. Thornton, of Slaton, Lubbock County, were among the first twelve in the National 4-11 Club leadership contest conducted by the Farm Journal, of Philadelphia, according to advices received by Sterling C. Evans, state boys club leader, Extension Service, A. & M. College of Texas.

The contest involved more than

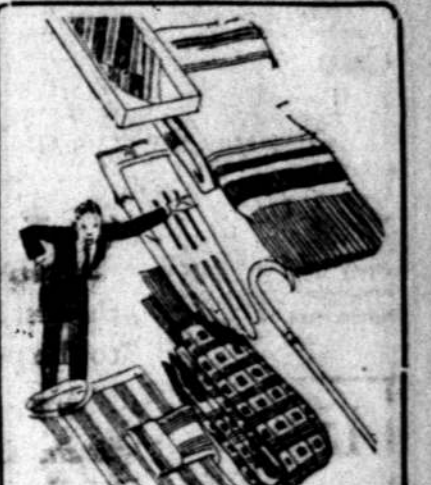

500,000 farm club members of the United States and prizes awarded winners totaled \$500. Henderson and Thornton stood first in the Texas aggregation of club boys and won places among the first twelve of the whole contest. Farm club boys in Texas number 18,400.

Second Barrage On Motor Law Levelled

AUSTIN, Nov. 28 (AP)—Another attack on the constitutionality of the new state law regulating motor bus traffic was launched Monday in Dallas courts proceedings ready for filing in the court of criminal appeals by Mateo S. Sepulveda, motor bus operator of Webb county.

Sepulveda is appealing from a district court decision denying him relief from the charge of operating a motor bus without a license.

THE NEW FORD CAR

An announcement of unusual importance to every automobile owner

NINETEEN years ago we made and sold the first Model T Ford car. In announcing it to the public we said:

"We will build a motor car for the great multitude. It will be large enough for the family, but small enough for the individual to run and care for. It will be constructed of the best materials, by the best men to be hired, after the simplest designs modern engineering can devise. But it will be so low in price that no man making a good salary will be unable to own one."

"If I were starting in business today, or asked to restate my policy, I would not change one sentence or one word of that original announcement. In plain, simple language it gives the reason for the very existence of the Ford Motor Company and explains its growth.

IN THE last nineteen years we have made 15,000,000 Ford cars and added to the world nearly 300,000,000 mobile horse-power. Yet I do not consider the machines which bear my name simply as machines. I take them as concrete evidence of the working out of a theory of business which I hope is something more than a theory of business—a theory that looks toward making this world a better place in which to live.

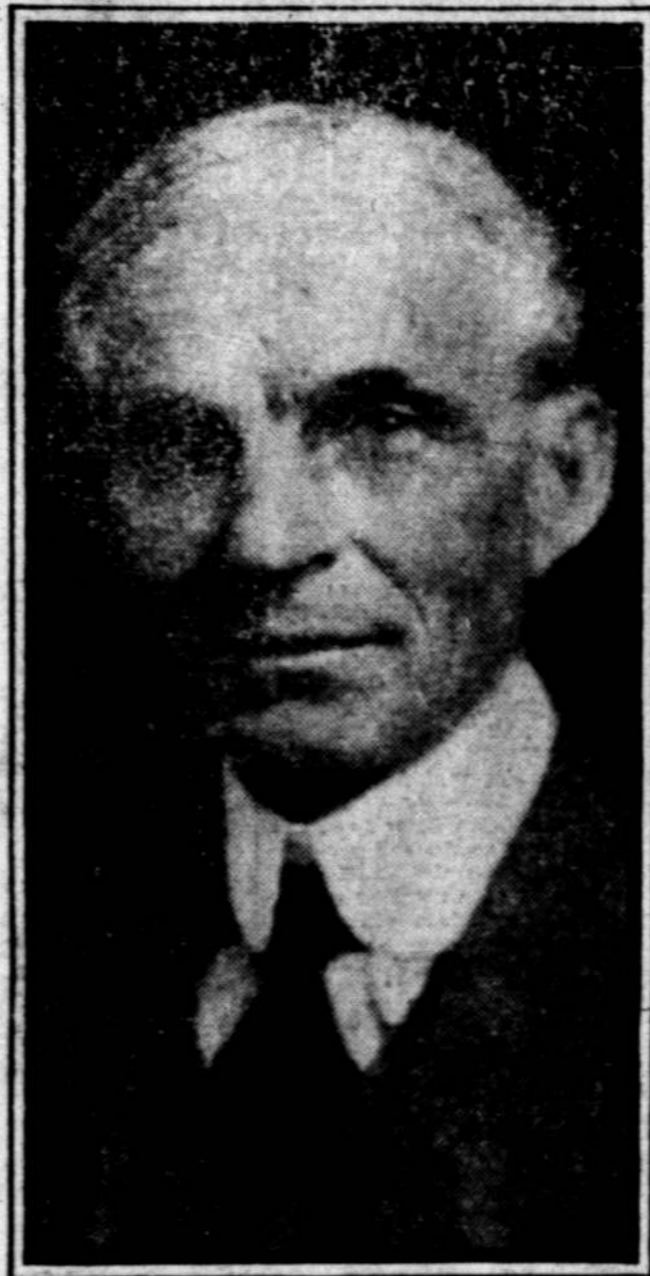

"The Model T Ford car was a pioneer. There was no conscious public need of motor cars when we first conceived it. There were few good roads and only the adventurous few could be induced to buy an automobile.

"The Ford car blazed the way for the motor industry and started the movement for good roads. It broke down the barriers of time and distance and helped to place education within the reach of all. It gave people more leisure. It helped people everywhere to do more and better work in less time and enjoy doing it. It did a great deal, I am sure, to promote the growth and progress of this country.

"We are still proud of the record of the Model T Ford car. If we were not, we would not have continued to manufacture it so long. But 1927 is not 1908. It is not 1915. It is not even 1926.

We have built a new car to meet modern conditions

"We realize that conditions in this country have so greatly changed in the last few years that further refinement in motor car construction is desirable. So we have built a new car. To put it simply—we have built a new

and different Ford to meet new and different conditions.

"We believe the new Ford car, which will be officially announced on Friday of this week, is as great an improvement in motor car building as the Model T Ford was in 1908.

Smart new low lines and beautiful colors

"The new Ford is more than a car for the requirements of today. It goes farther than that. It anticipates the needs of 1928, of 1929, of 1930.

"The new Ford car is radically different from Model T. Yet the basic Ford principles of economy of production and quality of product have been retained. There is nothing quite like the new Ford anywhere in quality and price.

"The new Ford has exceptional beauty of line and color because beauty of line and color has come to be considered, and I think rightly, a necessity in a motor car today. Equally important is the mechanical beauty of the engine. Let us not forget this mechanical beauty when we consider the beauty of the new Ford.

by HENRY FORD

"The new Ford has unusual speed for a low-price car because present-day conditions require unusual speed.

"The world moves more quickly than it used to. There are only so many hours in the day and there is much to be done.

"Fifty and sixty miles an hour are desired today where thirty and forty would have satisfied in 1908. So we are giving you this new speed.

Quiet and smooth-running at all speeds

"The new Ford will ride comfortably at fifty and sixty miles an hour. It has actually done sixty-five miles an hour in road tests.

"Since modern conditions demand more speed, they also demand better brakes to balance this speed. So we are giving you four-wheel brakes in the new Ford.

"The new Ford will be quiet and smooth-running at all speeds and you will find it even easier to handle in traffic than the old Model T Ford.

"The new Ford has durability because durability is the very heart of motor car value. The Ford car has always been known as a car that will take you there and bring you back. The new Ford will not only do that, but it will do it in good style. You will be proud of the new Ford.

THIS new Ford car has not been planned and made in a day. Our engineers began work on it several years ago and it has been in my mind much longer than that. We make automobiles quickly when we get in production. But we take a long time planning them. Nothing can hurry us in that. We spent twelve years in perfecting our former Model T Ford car before we offered it to the public. It is not conceivable that we should have put this new Ford car on the market until we were sure that it was mechanically correct in every detail.

"Every part of it has been tested and re-tested. There is no guessing as to whether it will be a successful model. It has to be. There is no way it can escape being so, for it represents the sum total of all we have learned about motor car building in the making of 15,000,000 automobiles.

The new Ford will sell at a low price

"The price of the new Ford is low in accordance with the established Ford policy. I hold that it is better to sell a large number of cars at a reasonably small margin of profit than to sell a few cars at a large margin of profit.

"We never forget that people who buy Ford cars are the people who helped to make this business big. It has always been our policy to share our profits with our customers. In one year our profits were so much larger than we expected that we voluntarily returned \$50 to each purchaser of a car. We could never have done that if this business had been conducted for the sole benefit of stockholders rather than to render service to the public.

"No other automobile can duplicate the new Ford car at the Ford price because no other manufacturer does business the way we do.

"We make our own steel—we make our own glass—we mine our own coal—we make virtually every part used in the Ford car. But we do not charge a profit on any of these items or from these operations. We would not be playing fair with the public if we did so. Our only business is the automobile business. Our only profit is on the automobile we sell."

"WE ARE able to sell this new Ford car at a low price because we have found new ways to give you greater value without a great increase in our own costs.

"We did not set out to make a new car to sell at such-and-such a figure. We decided on the kind of car we wanted to make and then found ways to produce it at a low price.

"The new Ford car, as I have said, will be officially announced on Friday of this week. In appearance, in performance, in comfort, in safety, in all that goes to make a good car, it will bear out everything I have said here. We consider it our most important contribution thus far to the progress of the motor industry, to the prosperity of the country, and to the daily welfare of millions of people."

REPORTS ON VITAL PROBLEMS IN SCHOOL ADMINISTRATION GIVEN BY RESEARCH COMMITTEE OF TEACHERS

(By Associated Press) CORSIANA, Nov. 28.—Vital problems in school administration have been studied at length by the Research Committee of the Section of Superintendents of the Texas State Teachers' Association, and a report of the findings of this committee were presented in pamphlet form at the annual meeting of the section in Houston, November 27.

The reports on the various problems have not resulted from a summary examination of the available material by the entire group, but each subject has been studied in length by some member and the result is a careful analysis of the problem and some suggestion as to its remedy. In a majority of the cases the problem has been a portion of the post-graduate work of the author at some institution of higher learning.

Committee Members. Members of the research committee are: H. D. Filmer, superintendent of the Corsicana public schools, chairman; Dr. B. F. Pitzer, Dean of the School of Education at the University of Texas; O. Clough, professor of education in Southern Methodist University; H. H. Flinn, professor of education, East Texas State Teachers College, Commerce; and J. W. Dorsey, district superintendent of the Dallas public schools. Those compiling the report of the research committee are: Lee E. Johnson, College of Industrial Arts; A. L. Day, superintendent of the Commerce public schools; S. Holland, superintendent of Stamford public schools; H. D. Filmer, Corsicana; Leonard Power, district superintendent of the Dallas public schools; and Julius Dorsey, Dallas.

First among the problems considered is "Selecting the School Superintendent in Texas," by Lee Johnson. The importance of the problem is clearly stated by the author in the importance of the teachers and pupils will never grow higher than those of the superintendent and for that reason, the school board should use much care in selecting a head for its educational system.

Study of this problem resulted in four conclusions: A code of ethics for school superintendents is badly needed; there is a surplus of superintendents of a certain type and the "violent scramble for positions cheapens the profession; the higher the place in the superintendency profession, the stronger competition and the school superintendent is not educating his mind in the methods of selecting competent successors."

These conclusions were made from 146 questionnaires sent out last year in their position, superintendents that had served several years, and to secretaries of school boards having superintendents leaving their first year. All of the reports were sent to schools having less than fifteen teachers in their high schools.

Included in the reports are many suggestions made by these parties, the majority of them proposing that a committee from the school board should investigate the applicant, visiting in his community if possible.

High School and College. Many of the problems centering around high school graduation re-

quirements and college entrance regulations are covered in "The High School Graduation Requirement and Its Significance," by Superintendent A. L. Day of the Commerce schools, a summary of a master's thesis in Southern Methodist University in 1927.

In an effort to find out the necessity of requiring high school graduation in order to enter college by certificate, the author sent out a questionnaire to all the schools in Texas where sixteen or more accredited units are offered in high school, asking for definite information on the points usually offered in opposition to the justice of the college requirements. A number of significant conclusions were derived from the answers received. It was learned that about 84 per cent of the schools of the state require sixteen units for graduation, with at least fifteen accredited units. Also a large majority of those who failed to graduate with their classmates did so because of indifferent work, and the majority of these returned to school the following year, hoping to make up their deficiencies, refuting the argument that a graduation requirement drove students from school.

Cause of Dropping Out. A large per cent of those who did drop out would have done so had there been no graduation requirements as marriage or lack of interest in school work of any kind was usually the cause.

It was suggested in the answers that these students who lacked only one or two units of graduation should be given credit for the work done, since the majority of them had completed their work in less than the required four-year period.

Among the points brought out in opposition to the abolishing of the regulation was that fact that the abolition would necessitate a duplication in the college work done in the schools under state supervision and thus destroy the progress made in educational lines for many years; furthermore it was established that the abolition of the rule would cause the graduation requirements of the majority of high schools to be lowered until they could be more easily obtained and that at the same time two classes of undesirable students would be admitted to institutions of high learning, those who ranked with the poor students and those who were too young and immature to receive many of the benefits of college work.

Third among the problems presented is "Survey Plans for a Small School System" by Superintendent N. S. Holland of the Stamford public schools, representing graduate work done in the department of education administration in Teachers' College, Columbia University.

The practice of allowing the small school system to move along without checking up by known standards is taken to task. Organization of the school board and its relationship to people, superintendent, principals and teachers, and the systematic methods of procedure are included in the treatise.

Outstanding in the list of suggested improvements is a change in the school law which would bring about a majority of the board being absent out of office at one election.

A study should be made of the

Wed 5000 Feet Above New Airport

With minister bridesmaid Mr. and Mrs. John Pearce of Portsmouth, O. were married 5000 feet above the new Raven Rock Airport during the opening ceremonies for the new field. This photo shows the bride and groom just after their plane landed.

enrollment figures and the census figures over a period of several years, in order to determine the extent of retardation and also to plan for the future building program.

Subjects and Time Needed. Among the problems for intensive study in a survey connected with the curriculum of a school system should be the subjects taught and the time allotted for each; the inclusion of contribution from teachers who have stood out in the teaching in all or a part of one subject; the adaptation of instruction to meet the needs of various groups of children.

The feasibility of the use of intelligence test and the grouping of students along lines laid down by the results of the tests is also discussed as a part of the proposed survey. A prominent feature of this plan is the elevation of backward students to their proper grade and instruction given in such a way that the pupil will receive the greatest benefit.

"Objectives in High School" is the contribution of Superintendent Herbert E. Filmer of the Corsicana public school system, prepared by groups of high school principals, teachers and superintendents in Teachers' College, Columbia University, in the summer of 1927.

Various Other Subjects. Various major subjects of the high school curriculum are included in the report and the objectives in each course are presented, breaking away from the old order in that the prime motive in the

study of the majority of the subjects is not so much the material covered as the effect that the study will have in forming character and habit for the later life.

In the study of history, the motive should be the enrichment of individual experience through contact with people of all ages, and the development of a better understanding of the present social order and its problems, and the relations of history to geography.

The motive behind the study of mathematics should be exercised in and appreciated for the fundamental mode of thought which this subject best represents. Other subjects treated in a similar way include: English, English composition, general science, Latin, commercial training, industrial arts, biology, physical science, modern languages, music, fine arts, and physical education.

Continued complaints from teachers of the second grade that children promoted to them know few words out of context gave rise to a master's thesis on "First Grade Word Recognition" by Leonard Power, district superintendent of the Dallas public schools, and a brief of the thesis is included in the report.

Based upon actual tests, a table was constructed showing the most difficult words for the children to retain. This table shows that the word "there" was missed by 385 children out of 1,000 in the low first grade; and that "things" was missed by 273 out of 1,000 of the children of the high first grades.

Rating of principals stands now about where the practice of rating teachers stood fifteen years ago, according to Julius Dorsey, district superintendent of the Dallas public schools, in his report on "Rating Scales for Principals."

Not only is a rating scale needed for determining the salaries of the principals, but the need of rating is found in the problems of selection where the qualifications of each applicant should be known; another need is in the proper placing of the principals according to their ability and the requirements of the schools; another need is presented in the value of the scale to the principal in the improving of his work.

Elaborate arrangements are being made for the public reception here. City officials and prominent business men of Lubbock and vicinity have been invited and preparations have been made to give every caller at the show a thorough understanding of this car which is expected to make a new chapter in automobile history.

Woman Leader at Canyon Is Honored. CANYON, Nov. 28.—Mrs. J. A. Hill of Canyon has been for two years chairman of the department of American citizenship of the sev-

enth district Federation of Women's clubs. Recently at the state meeting at El Paso this district was awarded a loving cup for the best work in this department.

Mrs. W. B. Price of Lubbock, the retiring president of the district, has forwarded the loving cup to Mrs. Hill who will have the privilege of keeping it for a year. Members of Mrs. Hill's committee were Mrs. W. P. Averitt, Lamasa; Mrs. J. T. Whitmore, Snyder, and Mrs. E. J. Bailey, Quanah.

NEW FORD WILL BE ON DISPLAY IN CITY SOON

PUBLIC RECEPTION FOR FRIDAY PLANNED BY LUBBOCK AUTO CO.

The full story of the new Ford automobile, described by Henry Ford as being "superior in design and performance to any now available in the low price, light car field," will be told first in Lubbock next Friday, December 2, according to announcement today by local dealers.

A public reception is to be held here simultaneously with similar district superintendent of the Dallas public schools on his report on "Rating Scales for Principals."

Not only is a rating scale needed for determining the salaries of the principals, but the need of rating is found in the problems of selection where the qualifications of each applicant should be known; another need is in the proper placing of the principals according to their ability and the requirements of the schools; another need is presented in the value of the scale to the principal in the improving of his work.

Elaborate arrangements are being made for the public reception here. City officials and prominent business men of Lubbock and vicinity have been invited and preparations have been made to give every caller at the show a thorough understanding of this car which is expected to make a new chapter in automobile history.

Woman Leader at Canyon Is Honored. CANYON, Nov. 28.—Mrs. J. A. Hill of Canyon has been for two years chairman of the department of American citizenship of the sev-

enth district Federation of Women's clubs. Recently at the state meeting at El Paso this district was awarded a loving cup for the best work in this department.

Thought For Today

Watch and pray, that ye enter
 not into temptation.—Matthew
 xxvi: 41.
 We like slipping, but not falling;
 our real desire is to be tempt-
 ed enough.—Hare.

A Vast Reserve

Government geologists, who have
 been measuring Wyoming's coal
 resources, announce that in the
 field, the Gillette, there are more
 than 14,000,000,000 tons in work-
 able seams.

That is almost as much coal as
 has been mined in the United
 States to date from all mines a
 total of about 17,500,000,000 tons.

Over this vast coal domain are
 scattered here and there several
 country mines and "prospects"
 from which small quantities of
 coal have been mined for domestic
 use.

Over this vast coal domain are
 scattered here and there several
 country mines and "prospects"
 from which small quantities of
 coal have been mined for domestic
 use.

A considerable part of the coal
 in the Gillette field is owned by
 the United States and is subject
 to development under government
 lease.

After the fields now being ex-
 ploited have been exhausted, there
 will be a rush to this huge un-
 tapped coal resource. With a
 diminishing United States resource
 a general thing today, knowledge
 of this vast tract comes as a
 astonishing information.

Something New

From Yale university comes news
 that surprises us, and should prove
 not a little disconcerting to those
 who think youth's main ambition
 today is to drink gin, wear a rac-
 coon coat and ride in a sport road-
 ster.

Figures from the secretary's of-
 fice show that a total of \$592,678.67
 was earned in 1927 by the one-
 third of the student body
 which is self-supporting either in
 whole or in part. Of this sum
 \$250,856.17 was earned while the
 balance was in session; the bal-
 ance, during the summer time.

The ways students earn money
 now are interesting. At Yale there
 is the student laundry agency, with
 22 men, which earned \$4,357. This
 group collects and delivers laundry,
 having its own automobile truck.
 The student pressing agency, with
 56 students employed, and operat-
 ing its own plant earned \$11,328.

By waiting on table in the uni-
 versity and other dining halls 1100
 students earned about \$100,000.
 They had represented an outlay of \$122,
 249. By selling neckties seven stu-
 dents earned \$1,509. Rain coats,
 shoes, furniture, flowers, football
 programs and other lines employed
 still more. During the year one
 earned more than \$4,000 in his spare
 time.

The cigarette holder, the raccoon
 coat, the tin flask and the sport
 roadster? Certainly! But from this
 report it looks as if the students
 are selling them to people who don't
 go to school at all!

A Thrill

Ralph Scott, Oklahoma robber, is
 a man we feel sorry for. We feel
 sorry for him because the tangle of
 adventure is in his blood and it has
 led him astray.

Ralph Scott won the croix de
 guerre and other citations for val-
 or in the World War. The other
 day he was sentenced to a term of
 ten to twenty years in the Kansas
 penitentiary for helping to rob a
 jewelry store.

He has adventured across the
 line and he must pay. We are sorry
 for him because he couldn't keep
 that daring spirit on this side of
 the law, where it might have led
 him to the heights. Misdirected
 courage is a sad thing.

THE PLAINSMAN

That Girl on Broadway says the
 stars are starting to get into
 promiscuity before beauty dies.

Many men forget their civility
 for you when they find out you can
 do something for them.

From all indications the iron
 horse of the rails will soon be driv-
 ing its way over another section of
 the plains area. There is a section
 northwest of Lubbock which prom-
 ises much—that section across
 Lamb county, north of Littlefield
 and Andrews, east of the Black
 county line, of which Otton is the
 center. Otton, county seat of Lamb
 county, is 20 miles from a railroad at
 the nearest point and the center
 of a productive territory, one from
 which much will be heard agricul-
 turally as soon as the population
 increases.

With the coming of the Den-
 ver lines into the South Plains,
 railroad competition is destined to
 become aggressive. Feeder
 lines for both the Santa Fe and
 Denver systems are in prospect
 and officials of both companies
 have "weather eyes peeled" for
 likely expansions. The Plainsman
 would not be bit surprised
 to see an announcement that a rail
 line is to be laid into Otton. J. C. Burton of Sla-
 ton, division superintendent of the
 Panhandle and Santa Fe lines,
 recently looked over that
 fertile section of Lamb county
 surrounding Otton and Earth
 and when in attendance at a
 Chamber of Commerce banquet
 at Otton recently, seemed to be
 greatly impressed when speak-
 ers quoted figures concerning
 auto shipping from Otton and
 the surrounding country into
 Plainview, Littlefield and Muleshoe.

Included in the figures of the
 speakers was the fact that a two-
 ton truck, running from Otton to
 Plainview twice daily, could not in
 a year's time transport all of the
 products sent out from that town.
 If such is the case some railroad
 will butter its bread by extending
 its lines across that fertile area.

Mr. and Mrs. Carter DeHaven,
 after 21 years of wedded life
 under the most trying of cir-
 cumstances—the movies and
 stage—are facing a break in
 home life. You remember Mr.
 and Mrs. DeHaven if you were
 a movie fan some ten years ago.
 They played together in what
 are the high class comedies
 of the early days of the
 home life and congeniality of
 Mr. and Mrs. DeHaven. They
 were pictureland's ideal mar-
 ried couple.

Now however, after more than a
 score of years, Mrs. DeHaven is
 suing to dissolve the bonds which
 held them together when they were
 struggling for fame and fortune be-
 fore the Kluge and, to the Plain-
 sman at least, it seems a shame
 Mr. and Mrs. DeHaven are in
 Broadway light now—stars in mus-
 ical comedy and ever since their
 wholesome fun found its way to
 the hearts of the American public
 in those early movie days their ef-
 fort has been rewarded with many
 contracts and fat salaries. Now
 however, it is all for naught. Mr.
 DeHaven, his wife says, pays too
 much attention to a chorus girl
 and she can't go on in keeping with
 the vows she made before that al-
 tar 21 years ago. Three children,
 are to be deprived of comradeship
 with their father and the dream
 mansion which the DeHavens look-
 ed to in the days before their af-
 fluence has come tumbling down
 about their ears.

The ordinary run of movie
 divorces roll off The Plainsman
 like water from a duck's back.
 But somehow or other he can't
 help but cast a sigh for Mr.
 and Mrs. DeHaven and hope
 that some, somehow, they
 can patch up the wreck of their
 lives together and continue
 their smiling way through life
 which they started—so many
 years ago.

That man on Avenue Q says
 they've changed the liquid measur-
 ing to read "Two gills make one pint
 two pints make one quart, one quar
 makes one wide!"

They had a family picnic right
 out in the open air.
 No uncles could attend it, but
 a lot of ants were there.

This country seems to be full of
 dignified, self-contained politician
 who will refuse to accept the pres-
 idency unless they are elected.

Oh, what is so rare as a day in
 November, in the Arctic zone?

A headline says: "California Gir
 Runs 26 Miles." But the story does
 n't tell whether the man got away.

A woman is suing for divorce
 because her husband plays poker; an-
 other is suing because her husband
 won't play bridge. Men, you can
 win.

Meddle the Boys Think It's Still Hallowe'en

"Without-Or-With, Offense To Friends Or Foes, We Sketch Your World Exactly As It Goes."—Byron

Capital's Best Newspaper Woman—Congressman's Radio Set—Old Plane Burned Are Subjects For Rodney Dutcher

SEE-SAWING ON BROADWAY
 NEW YORK, Nov. 28.—If your
 little daughter, Mary-Ellen-Eliza-
 beth, insists on tooting her big
 mother's saxophone—don't dis-
 courage her!

THE RAGE
 The rage led on along Broadway
 by a pretty young maid who can
 compete with their brother jazz
 auditors.

THE RAGE
 A couple of seasons ago the
 higher education of this land be-
 gan to turn out young men who
 appeared on the "main stem" with
 skeletons under their arms. Be-
 fore he had fallen, one hand of
 college syncopators after an-
 other came on the scene.

THE RAGE
 The good news spread. Every
 young university "jazz-bound" who
 could bring harmony out of a
 ratty piano began to descend
 upon New York. Two or three
 had appeared at the end of their
 last season in bright lights and
 they are looked upon as the lead-
 ing collaborators on musical com-
 edy—I refer in particular to the
 case of Rogers and Hart.

THE RAGE
 This season the records have
 caught on. A cast number is one
 of the big hits of the latest Zig-
 field show. It's a good old new-
 fashioned jazz band number.

THE RAGE
 Glimpsing down the program my-
 self across the list of names of
 lovely young ladies who thum-
 p mean banjo or moan a mean-
 saxophone.

THE RAGE
 Here, if you please, was Miss
 Genevieve Brown, of Hardinburg,
 Ky., who is the daughter of State
 senator Brown and who graduated
 a jazz banding from the Uni-
 versity of Kentucky.

THE RAGE
 And here was Lucy Westcott,
 graduate of Lawrence College, in
 Appleton, Wis. Her father, so they
 tell me, is a prominent doctor.

THE RAGE
 And here was Frances Garten,
 from Kokomo via the University of
 Indiana—and she the grand-daugh-
 ter of the late T. U. vice pres-
 ident in the Hoosier state.

THE RAGE
 THERE was a long list of oth-
 ers—of which these three names are
 typical.

THE RAGE
 But it goes to show you that
 here, Kentucky, Wisconsin, Indi-
 ana and way states get together
 on Broadway, the combination is
 hard to beat.

THE RAGE
 For that is Broadway, where
 the "jazz" is a "jazz" and Apple-
 ton meet to add to the galaxy of
 nations.

THE RAGE
 THE lost art of gallery whit-
 e-wash has returned to the scene.
 "Somebody" reported it de-
 cided. Years had passed since good
 gallery whitewash had come from
 the superstitious of the top section,
 only in the little "out" of the way
 corners could their survivors of a
 brand old custom be found.

THE RAGE
 Time was when no actor could
 consider himself a truly popular
 performer until the gallery whitewash
 had been applied to his person.
 The other day, Manhattan news-
 papers carried the information that
 our new Broadway shows had
 rawn whitewash from the gallery
 and it would be quite too bad
 if we completely lose this
 perfectly well custom of another
 day.

THE RAGE
 GILBERT SWAN.
 The story of the 52-year-old
 old-world man who was killed in
 an accident caused by his attempt
 to kiss the lady driver is just one
 more proof that driving should be
 done in the back seat.

With Our West

BY
JAMES L. DOW
 Contemporaries

SERMON LENGTHS
 Bishop Sam R. Hay, former Abilenean,
 gave seven young preachers
 and a good many old ones some ex-
 cellent advice down at Fort Arthur
 the other day.

It is the bishop's contention that
 no sermon should be long. "Some
 preachers," he remarked, "are diffi-
 cult in terminal facilities. They
 don't know when to cut off their
 sermons. A long sermon, usually is
 an unprepared sermon."

The bishop urged that all sermons
 be limited to twenty minutes. No
 talk from the pulpit, he insists,
 should exceed thirty minutes.

"And don't pray all morning," he
 concluded. "Long prayers have
 made folks just kneeling to pray.
 I know some preachers I wouldn't
 dare kneel on. A good, reverent,
 three minute prayer is best."

Thus the bishop sums up the ob-
 servations of a good many years in
 the pulpit. A good many church
 goers will feel like emitting a fer-
 vent "Amen!"

No less sagacious was his advice
 to preachers to "quit talking
 science," because "you don't know
 anything about science." He said
 this in speaking of efforts to recon-
 cile science and religion.

Preachers for religion, scientists
 for science. The scientist doesn't
 know anything about theology, and
 the preacher doesn't know anything
 about science. There is always a colli-
 sion when the scientist tries to ex-
 pound deep theological questions,
 or when the preacher undertakes to
 say the "last word" on scientific
 subjects.—Abilene Reporter.

The bishop possibly had in mind
 the kind of sermons that stum-
 ble preachers, and we might say
 the majority of preachers, are capable
 of producing, but we are of the
 opinion, and we do not mind ex-
 pressing it, that it is not so much
 the number of minutes that the
 minister puts delivering his mes-
 sage, but it is the message he is
 trying to put over or the manner
 in which he is delivering it.

It is a well known fact that some
 preachers can preach ten minutes
 and tire his entire congregation out,
 while on the other hand some
 preachers can talk for two hours
 and no one will be thinking of the
 time. We do not believe that a
 well rounded sermon can be spoken
 in less than twenty minutes, and
 while we are not for long sermons,
 we believe that it takes as much as
 thirty or possibly forty minutes to
 put the message over that the av-
 erage text is entitled to.

The bishop, we think, could have
 taken more time to have urged that
 the preachers be sure they have a
 call from God to preach, and that
 they spend more time in their knees
 in prayer for wisdom, and ability to
 give the people the message that
 they should have, preach the gospel
 and spend much time in prepara-
 tion. When they do that no pastor
 will have time to play golf, forty-
 two, bridge or anything else. He
 will be all taken up regarding the
 souls of visiting his people, com-
 forting the sick, burying the dead,
 praying with his membership and
 looking after the work of the king-
 dom.

The sermons will take care of
 themselves so far as length is con-
 cerned, if the pastor is inspired by
 God, and gives a red hot message
 right off the altar.

Farm Club Work In Mexico Is Planned

COLLEGE STATION, Nov. 28—
 Mexico is planning to inaugu-
 rate farm club work in that coun-
 try and has requested all avail-
 able information regarding this
 work in Texas which is carried
 on under the direction of the Ex-
 tension Service, A. & M. College
 of Texas. This request was con-
 tained in a letter received from
 the Department of Agriculture of
 Mexico, the request being signed
 by Juan A. Gonzalez, chief of the
 division of extension and director
 general of agriculture in Mexico.
 Farm club system similar to that
 employed in Texas is planned, it
 was set forth.

Flapper Fanny

The farmers are at odds over
 what sort of relief they want to
 protect them from the laws of sup-
 ply and demand. More proof that
 the farmer is a poor business man
 —somebody ever heard of large cor-
 porations squabbling in Washing-
 ton over the tariffs and other pro-
 tection in they desired.

"Fulcrum," said Mayor Jim-
 my Walker, to Ruth Elder, "is no
 bar to courage." Nor to anything
 else that we can think of.

Perhaps President Coolidge ac-
 tually derived a thrill from having
 all the transoceanic liners in to
 lunch but it's a good bet that the
 idea was Mrs. Coolidge's.

If a presidential boom could only
 sweep the country like a new jazz
 dance the problem of some polli-
 cians would be considerably sim-
 plified.

Ball, attended by quite a few
 guests from remote parts who ar-
 rived by plane. The feature of the
 party was a bonfire made from
 stumps or old "Jenny" planes, around
 which the officers held a war
 dance.

The girl who smokes the most
 has the prettiest hands.

GEORGIA ASKS FOR ADVICE ON WEST TEXAS C C

STAMFORD, Nov. 28—A state
 chamber of commerce for Georgia,
 incorporating operative plans of
 Texas' own West Texas Cham-
 ber of Commerce, is contemplated,
 according to a letter received from
 "The BB" Edwards, former Texas
 now with the Atlanta (Georgia)
 Georgian American.

Georgia people are clamoring for
 information about Texas' great
 social chamber of commerce
 with the possible view of perfect-
 ing a similar organization within
 their own state, Edwards writes.

The former Texas editor has been
 asked to prepare an extended ar-
 ticle on the regional chambers of
 commerce in Texas and has made
 special request of Manager Hom-
 erson of the history and develop-
 ment story of the West Texas
 Chamber of Commerce.

The territory embraced by Tex-
 as' regional chambers is well
 known to Edwards, who has
 traveled over much of it during
 the past year when he served as
 a district Rotary governor, and
 he is well acquainted with activ-
 ities of the organizations due to his
 press affiliations when in the
 Lone Star State. He is well equip-
 ped to "sell" Texas to Georgia
 readers.

Edwards for years was editor of
 the Deaton (Texas) Record Chroni-
 cle paper, and was prominent in
 press circles over the State. He
 resigned his post recently to take
 up editorship of a Washington,
 D. C. paper but was shortly af-
 terwards transferred to Atlanta,
 Georgia.

The former Texas editor, in pre-
 paring his article on the West
 Texas Chamber of Commerce, will
 be describing to Georgia an or-
 ganization that has already served
 as a model for various sec-
 tional chambers, now successfully
 functioning in two states. Both the
 East Texas and South Texas
 Chambers of Commerce are pat-
 terned after the West Texas
 Chamber of Commerce incorporat-
 ed many features of the West
 Texas body in its operation.

Canyon To Receive Paving Bids Soon

CANYON, Nov. 28—On Decem-
 ber 3, the city of Canyon will re-
 ceive bids for ten blocks of pav-
 ing on third avenue of the city.
 The paving is to be brick.

The bond election will be held
 on December 31. The amount of
 bonds has already been contracted
 for at a 3-4 percent interest at
 par and with accrued interest.

Canyon expects to be busy dur-
 ing most of the months of 1928
 with nearly forty blocks of street
 paving, the paving of the high-
 way to Amarillo, and the build-
 ing of the new Education Build-
 ing on the college campus. All
 require a large force of men dur-
 ing the spring and summer
 months.

Fear is implanted in us as a
 representative from evil.—Dr.
 Johnson.

Which Plan is Yours?

PLAN 1
If the Life Insurance Company carries the insurance
WHAT WILL HAPPEN
The way the loss will be paid:
1. Current debts paid.
2. A comfortable home.
3. Sufficient good food.
4. Warm and decent clothing.
5. Education for the children and a chance for their future.
6. Their heads erect before their friends.
7. A never-dying memory of the outward and visible expression of the great love and affection of the husband and father who made the first six provisions possible.

PLAN 2
If the Family Carries the Insurance—
WHAT MAY HAPPEN
The way the loss will be paid:
1. Unpaid current debts.
2. Loss of a comfortable home.
3. Insufficient food.
4. Shabby and second-hand clothing.
5. Lack of education.
6. The need of accepting charity and heads down before their friends.
7. A never-dying memory that the blank wall of despair and the weary footsteps of the mother were caused by a husband and father who was unwilling to make the small sacrifice necessary to prevent such a tragedy.

Bringing Christmas to the Home

So That You May Know More Of Us
The Amarillo Furniture Company is not only able to take all discounts when buying furniture but occupies the fortunate position of being financially able and always willing to extend assistance to you in buying furniture on our liberal credit plan.
Our experience in this business has learned us that people who take most pride in the furnishing of their homes—are mighty good credit risks.
We also believe that CREDIT helps in making home life more livable and happier—and that in the encouragement of those things we serve in a most useful way.
That's why Your Credit is Good Here.
Most items we handle are bought as jobbers—not through them.
You are not penalized by using your credit here. You only pay the customary charge for time.

HALDEMAN-JULIUS

(Continued from Page 1)

Continue her school work and eventually hopes to become a professional dancer.

Not a Trial Marriage

At the outset, she emphasized the fact that this marriage is in no wise a "trial marriage."

"My most enduring hope is to make our marriage a lasting one, to decrease the immorality of modern youth.

Miss Haldeман-Julius intends to find it in my aim, as I know is the case with Aubrey, to have this life for the rest of our lives."

"At the age of 18 I find myself filled with ideas and impressions of the emotional life I see on all sides. Why should we young people be expected to wait for marriage until we have reached economic independence? Why should we let our best years slip by? Why cannot parents help us solve this problem so that we may avoid the pitfalls that so often cause tragedy?

"In our own case we have been fortunate. Father and mother have co-operated with us, have studied our heart problems from the viewpoint of youth, and as a result we are receiving help instead of discouragement in living normal lives. I shall, though I am married, continue with my school work and Aubrey will continue his. We will meet often—as often as we really desire. We will live in a healthy way instead of leaving the burden of puritanical inhibitions.

Will Face the Facts

"We shall try to make it last, but if it doesn't we shall face the facts fully and admit a mistake in-

stead of continuing to live a lie.

"When we are ready to make our home together like other married people we shall have children. We certainly want children eventually, but not until we are ready for them.

"That is what companionate marriage means to me, and I shall strive to uphold my part of the contract. I sincerely believe that if many of the boys and girls I know were to do likewise we should have fewer tragedies. Companionate marriage, to my viewpoint, means happiness and the full life—not in some distant future, when youth is gone, but now when life is still rosy and filled with laughter.

"I know that countless hundreds of thousands of young people feel as I do, but they are bewildered by the conventions of an older generation. Those parents serve their children best, I believe, who are willing to take into consideration the new and great difficulties youth must surmount before they are able to take their formal places in the community.

"Life is short. Why postpone happiness when you may sensibly achieve life's fullness without waiting for youth to pass? It is ridiculous to tell us young people of 18 and 20 that we are not men and women. I am as much a woman today as I shall be of 15 years from now. This means, to me, that the intelligent and civilized thing to do is so to arrange one's life that its best and noblest expressions may be taken before youth is passing.

"Life is short. Why postpone happiness when you may sensibly achieve life's fullness without waiting for youth to pass? Was the President Weary When He Chose Not to Run Again?

Deepening lines in President Coolidge's face, as remarkably shown above in his newest picture, seem to indicate that when he said he "did not choose to run" in 1928, he was a tired man, speaking his feelings. The stern worried expression in the central picture of the group contrasts strikingly with that of 1920, when he was elected chief executive. The pictures tell their own story.

U. S. NAVY MAN GIVEN DIVORCE IN MEXICO CITY

(By Associated Press) NEW YORK, Nov. 28.—Captain Frank Taylor Evans, U. S. N., son of Admiral Robby D. (Fighting Bob) Evans, has been granted a divorce from the former Gertrude Pullman of Aurora, Mexico. It was announced by his attorney, Arthur Del Toro, who was back from Mexico today looking for business. The decree was authorized by Captain Evans. He said Mrs. Evans had signed a power of attorney authorizing the jurisdiction of that court and accepted that the divorce for that reason could not be contested anywhere.

Captain Evans, the attorney said, made a settlement of half his annual income and "other interests" on Mrs. Evans. The bulk of the income amounts to \$2,000 a year. The divorce was granted on the grounds that the couple had not been living together for six months.

Crosbyton Hotel Recently Enlarged

CROSBYTON, Nov. 28.—Hotel business in Crosbyton has increased until the Smith House, the leading hotel, has been compelled to add several more rooms to their present building. Mr. and Mrs. Smith are excellent hotel people, and have enjoyed a splendid patronage from the traveling men who make this part of the South Plains. For the past several months they have been busy with the building of the addition they hope to be able to take care of a greater number of the traveling public.

Extraction of helium found

Extraction of helium from natural gas does not affect the properties of the gas for domestic use.

One way to restore the lustre of pearls, experts have found, is to immerse them in honey.

One way to restore the lustre of pearls, experts have found, is to immerse them in honey.

Legally Married

"Of course, we are legally married—license, minister, two rings and the rest. There is no other way while we are waiting for changes in our laws to allow complete companionate marriages.

"I know that that will sound ex-

Flashes Of Life

(By The Associated Press)

Cruel Old World

NEW YORK—Abel G. Warshawsky, American born artist who passes most of his time in Europe, believes that American women are losing their beauty and charm because they are rapidly succumbing to their headless race toward masculine clothing, masculine hair cuts, masculine manners and masculine morals, while American men are tending to become effeminate.

Willin'g To Help

BUFFALO, N. Y.—If there is the slightest difficulty in getting an executor to function in the case of Mrs. Snyder, James D. Crooks, unmarried, salesman, has offered his services. In a letter to Governor Smith, saying too many women about their way out of marital contracts, he said he is willing to enforce strict equality of the sexes.

Hopeful, Anyway

NEW YORK—Dr. Adolf Lorenz of Vienna, 72, here to practice, has brought a play dealing with the rejuvenation of himself. It is based on his own experiences with the Steinach process, and he describes it as highly moral. If it is not accepted for the stage, he says he intends to have it published in book form.

Incriminating

SMITHVILLE FLATS, N. Y.—The discovery of a dismantled still on Pussfoot Johnson's farm, where he spends the summer—has led state police on a hunt for bootleggers. Fourteen 200 gallon copper boilers, coils and other apparatus were hidden in a clump of trees.

Thing Of Mystery

NEW YORK—Nobody seems to know whence it came, but the Splendor, a monoplane which is after a record, was christened at Curtiss field with champagne. The sponsor was Miss Elizabeth Robinson, daughter of Theodore Douglas Robinson, assistant secretary of the navy. Beria Acosta is to use the plane in an attempt to beat the endurance record.

100 Percent Bobbed

EATONTOWN, N. J.—The town is now 100 per cent bobbed. Grandma Demarest, 90, made it unanimous when she went to her grandson's shop and said: "I want the same as all the girls get."

Careful Drivers

NEW YORK—Deaf and dumb drivers of automobiles are more careful than those who hear, in the opinion of Marcus J. Kenner, vice president of the National Association of the Deaf. Protecting against the statements of Chief City Magistrate McAdoo that a deaf driver might be a wild thing running at large, Kenner wrote that he had been a passenger in the cars of nearly 100 deaf and dumb drivers touring thousands of miles and there are no more careful and conscientious men and women at the wheel.

A business concern founded in 1168 still flourishes at North Walsham, England.

The steamship Leviathan uses 60,000 pounds of potatoes on a summer trip.

FUNDS DONATED FOR CLUB TRIPS TO WASHINGTON

COLLEGE STATION, Nov. 28.—Funds have been donated by the Texas Bankers' Association for two free trips for Texas farm club boys to the club training camp for boys and girls to be held in Washington, D. C., next June. C. S. F. Holland, Houston, chairman of the agricultural committee of the bankers' association, has advised Sterling C. Evans, state boys club leader, Extension Service, A. & M. College of Texas. The boys to make the trip will be selected Jan. 1 on records for outstanding work as farm club members for the last three years. They will be graded on basis of 1925, 1926, and 1927 reports, participation in club activities, leadership and stories of their experiences as 4-H Club members.

Similar trips were sponsored by the bankers' association last year and Mr. Holland has written that the association was so pleased with the results that it was decided to repeat the offer.

Cane Grinding At Texas Mill Starts

SUGARLAND, Nov. 28.—The cane sugar mill of the Imperial Sugar company at Sugar Land has commenced operation for the season's grinding of some 40,000 tons of cane. The mill has a capacity of 500 tons a day and during this operation, visitors will have the opportunity of seeing the complete process of the refining of sugar from the time the cane stalks enter the mill until the refined product enters the cars for shipment.

The raising of sugar cane commercially in Texas is being revived on a large scale and it is believed that it will assume the position it once held as being one of the leading crops of Texas.

Highest Priced Car In Salon \$20,208

NEW YORK, Nov. 28.—The highest priced car at the automobile salon, which opened yesterday at the Hotel Commodore, is listed at \$20,208. Artists are said to have studied precious stones, flowers, birds, butterflies and deep sea fish to give some of the striking color effects at this exhibition of the best custom body work of American and foreign coach builders.

LEGAL NOTICE

NOTICE TO BIDDERS Sealed bids and proposals addressed to the Honorable Mayor and City Commission of the City of Lubbock, Texas, will be received at the office of the City Secretary, City Hall, Lubbock, Texas, until 10:00 a. m. Thursday, December 8, 1927, for the construction of a new fire station on lots 1 and 2, block 49, McCarroll second addition to Lubbock; and for the hauling off of garbage in the business and residential sections of the City of Lubbock.

The City Commission reserves the right to reject any and all bids, to waive formalities and to accept the bid which seems to be most advantageous to the city's interest.

Full information will be furnished by the City Secretary upon application.

Given under my hand and seal of said city, this 25th day of November, A. D. 1927.

(Seal) PINK L. PARRISH, Mayor. Attest: G. W. McCLEARY, City Secretary.

OBREGON WARNS PUBLIC AGAINST REVOLT LEADERS

(By Associated Press) MEXICO CITY, Nov. 28.—A warning to his followers to be on the alert and not to permit reaction to hinder the development of the aspirations of the Mexican people has been sounded by General Alvaro Obregon, sole remaining Mexican presidential candidate.

Speaking at Toluca, state of Mexico, he declared: "When an anti-bites us we do not go after that particular ant but we pour a tubful of boiling water on the ant-hill."

Notice should be taken that the revolutionary leaders at present were directing their campaign against the government from abroad, he said. They, therefore, cannot be reached. They continued, but punishment should fall upon the reactionaries in Mexico. This, he explained, was the purpose for which the league for the defense of the revolution was created.

The "reactionary" faction will threaten revolution forever, he declared, the struggle lasting until the end of the world. Efforts to exterminate reaction must therefore be unceasing, he said.

Haitian farmers still transport their products by burro-back.

The octopus is prized as food in the Channel Islands.

Agent Is Busy With Culling Of Chicks

CANYON, Nov. 28.—Poultry raisers of Randall County have been keeping County Agent W. H. Upchurch busy the last few weeks culling flocks. He has examined about 1,000 hens and has eliminated approximately one third from each flock culled. The culls are then sold

at once, reducing the feed bills the poultry farms.

There are a large number of farms in Randall County where poultry yard is furnishing a large part of the money necessary for current expenses of the household.

Sailfish such as frequent gulf stream can swim at the rate of 70 miles an hour.

An oyster can lay 60,000,000 eggs.

More For Your Money In Douglas Shoes

Smart style and comfort that give pleasure in wearing them. The price does not do justice to the quality.

\$5.50

More for your money because of the excellency of their construction and the quality of the leather that adds months to their wear.

Lots - corner lot on 8th, \$650; on 14th \$750; on 19th \$750; on 20th street \$150. Terms.

Have several houses where \$200 to \$200 cash will make cash payment, balance easy. Why pay more?

A business lot on Broadway with pavement paid for \$4000; it's a dandy. Other business lots that are good buys.

O. V. BAGWELL Avenue G Phone 254 Avenue G Phone 254

AN ATTRACTIVE BUSINESS DEAL

I want to call your attention to some attractive points about that home my client authorizes me to exchange for Lubbock county lands.

First, it is on the corner of two of the prominent streets in town, and real good corners are scarce.

Second, the property contains four 26-foot lots, and the home can be moved on the inside lots, and you would have a home worth \$5000.00 and the remaining two lots would be worth, for suburban grocery and filling station another \$5000.00, or a total of \$10,000.00.

This is one of the valuable properties of Lubbock, and is certainly worthy of your careful consideration at an exchange price of \$10,000.00.

JNO. L. RATLIFF Room 1 Brown Building.

We can sell or trade your real estate.

Allen and Hooker 412 Ellis Bldg. Phone 1711

400.00 CASH Buys 5-room new brick veneer, and \$400.00 month. Interest included. Price only \$2750. Near the Brown school. Why pay more? Ask A. H. Martin or Chas. F. O'Neal, Phone 236.

A REAL BARGAIN—3 lots 50x150, new garage, chicken house, chicken yard and city water, one block from high school building in Brownfield, Texas. See or write J. R. Bridges, 510 Avenue K, Lubbock, Texas.

ALL READY FOR C OF C SESSION ON WEDNESDAY

SWEETWATER HOST TO GATHERING AND BANQUET MEETING PLANNED

Special To The Journal
SWEETWATER, Nov. 28.—Everything is in readiness for the Central District Convention of the West Texas Chamber of Commerce scheduled to meet in this city Wednesday Nov. 30th.

The people of Sweetwater are planning to be the hosts to the largest district convention ever held in West Texas and one that will be participated in by some of the most prominent men of the state including Gov. Dan Moody, who is scheduled to speak at the Municipal Auditorium at 2:30 in the afternoon.

Plans Great Meeting
 Sweetwater, through the Board of City Development and other civic organizations is putting forth every effort available in perfecting plans to make the coming convention the greatest district meeting in the history of the West Texas Chamber of Commerce.

All towns in the central district have already given notice that they will have large delegations at the meeting and owing to the fact that the program includes so many prominent speakers and other attractions of town and country people will be in attendance.

An extraordinary feature of the convention will be the music furnished by the Sweetwater Gold Medal Band which is the principal band of the West Texas Chamber of Commerce; the Gold Medal Band; and the 1926 official band; and the 1926 official band; and the 1926 official band.

This is probably the first time that three official bands have given a mass concert at any C. of C. convention and this feature is being arranged in honor of Governor Dan Moody, who will be the principal speaker at the convention in this city next Wednesday.

Following is the program which has been arranged for the occasion by the program committee:
 9:30 a. m. Massed Bands Concert—Municipal Auditorium.
 10:00 a. m. Call to Order—L. R. Thompson, Presiding officer.
 10:00 a. m. "America"—Audience.
 10:00 a. m. Invocation—Rev. A. L. Darnell.
 10:00 a. m. Address of Welcome—Hon. J. P. Majors, pres. R. C. D.
 10:15 a. m. Response—C. L. Hamilton, Bronte.
 10:25 a. m. Object of District Conventions—Homer D. Williams, manager, West Texas Chamber of Commerce.
 Appointment of Resolutions Committee.
 10:40 a. m. "How West Texas can have 12 pay Seasons Annually"—R. M. Simmons, Sweetwater, Texas.
 11:00 a. m. "Our Highway System"—Hon. W. R. Ely, State Highway Commissioner.
 11:30 a. m. "What Central Texas Needs Most" (Short Discussions not over 7 minutes) Chas. E. Eppes, Ballinger; Hon. E. S. Cummins, Abilene; Hon. Bowen Pope, Hamlin; Houston Harte, San Angelo; Walter S. Pope, Anson; John Q. McAdams, Winters; H. M. Colbert, Sweetwater; Col.

L. L. Fenick, Stamford; Guy Patterson, Fortan.
 12:30 Luncheon—Wright Hotel.
 Toastmaster—Judge Chas. E. Coombs, Stamford.
 Spiritual Blessings—Rev. Chas. T. Whaley, Sweetwater.
 "Our Opportunities"—Hon. R. W. Haynie, Pres. W. T. C. C.
 Music—Sweetwater's Musical Gypsies.
 2:30 p. m. Afternoon Session—Municipal Auditorium.
 Address—Hon. Dan Moody, Governor of Texas.
 Report of Resolutions Committee.
 Selection of the Next Meeting place.
 Adjournment.

MRS. CRAWFORD ENTERTAINS
LORENZO, Nov. 28.—Mrs. J. F. Crawford entertained members of the younger set with a four table bridge party Friday evening holding her house guest, Miss Edith Childress of Canyon. The entertaining suite, was attractively decorated with a profusion of autumn flowers. In addition to the interesting series of games, radio music was enjoyed throughout the evening.

Miss Edith Payne Holland and Christine Hodson held high scores, while the honor was also present of a dainty gift.

The hostess served chicken salad, waffles, omelet, hot chocolate and stewed cake to the following guests: Misses Cannon, Johnson, Pearson, Woodward, Holland, Childress, Henry, Stobough, Rhodes, Pridmore, Higgins, Mr. and Mrs. T. S. Smith, Mr. and Mrs. Nix of Cone.

P. A. L. CLUB
 Wednesday afternoon Mrs. LeRoy Hunkley was hostess to the P. A. L. club in her home in West Lorenzo. Forty-two was the disposition of the afternoon with Mrs. Peyton Fullington scoring high. A salad course was served to the members present and the following guests, Mrs. Ernest Thornton, and Miss Elba Bedingfield.

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Persistent coughs and colds lead to serious trouble. You can stop them now with Cromulsion, an emulsified crocus that is pleasant to take. Cromulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, crocus is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Cromulsion contains, in addition to crocus, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the crocus goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Cromulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

Announcing

The growth of our business is based on one primary purpose—to supply motorists and other oil users with the best petroleum products obtainable.

The products we offer have been selected after most thorough investigation and careful test, to establish their superiority.

We have secured the distribution of DIAMOND MOTOR OILS, products of Mid-Continent Petroleum Corporation, because our tests have confirmed the opinion of thousands of users throughout the country, that DIAMOND MOTOR OILS are superior to all others.

Through this connection we are able to offer you the finest, most modern lubricants, exactly adapted to the requirements of present day motors.

 Your customers will be asking for DIAMOND MOTOR OIL. Be prepared to supply the demand. Phone, wire or write us for full particulars of our DIAMOND MOTOR OIL proposition for dealers.
HUB OIL COMPANY

are processed—not "blended"—and are made from 100 PER CENT PARAFFIN BASE crude, in one of the world's largest, best equipped refineries.

DIAMOND Motor Oil is guaranteed to be of the scientifically established quality required by the Society of Automotive Engineers. It is the one nationally known and distributed lubricant made and sold in the six grades required by S. A. E. to meet the lubricating requirements of all standardized motors and lubricating systems.

The faster, hotter type motors of today presented lubrication problems different from those of recent years. DIAMOND Motor Oils were developed especially to meet these new requirements—and more—to anticipate the needs of motor development for at least five years hence. These oils possess an EXTRA factor of safety and stamina; they possess the toughest, yet smoothest lubricating film possible to attain.

DIAMOND Motor Oils are practically DECARBONIZED—they reduce carbon deposits to a minimum. They retain full body under extreme temperatures and do not suffer from excessive dilution.

GUARANTEED

DIAMOND MOTOR OILS are guaranteed to properly lubricate any motor when the grade recommended in the Diamond Lubricating Chart is used.

Try these super lubricants—put them to any test—compare them with the best you have used heretofore. DIAMOND Motor Oils must win your approval on their merits.
