NUMBER 14

Range, Farm Areas Helped By Rainfall

North, West Central
Portion of State Are
Thoroughly Dampened

By Associated Press.

Farmers and ranchmen were heartened Saturday by a heavy rain in the north central portion of Texas and moderate precipitation elsewhere that conditioned soil for planting and revived ranges, filled drying tanks.

Wichita Falls reported 1.81 inches of rain that broke a long drought and salvaged the wheat crop. Amarillo reported no rain but Chardon, Childress and Shamrock reported showers.

Twisters struck in the region of Lubbock but no injury was reported. A hailstorm at Seymour did an estimated \$25,000 damage.

Vernon, Electra, Colorado, Brownwood, Haskell, Eastland and Brady received beneficial rains. Denton reported 1.11 inches.

A twister struck Hamilton City, northeast of Fort Worth, destroying several outbuildings and leaving the area without electricity for two hours.

Heaviest rain was reported in the Red river district. Vernon, Crowell and Wichita Falls received 2 inches. Quanah reported 2.16 inches and Chillicothe had 1.13 inches.

Most of the immediate territory received heavy showers ranging from half an inch to an inch.

The rain was of untold value. Not only did it break a drought that was on the verge of becoming acute, but it stimulated small grain, put out stock water and brightened planting conditions. The range likely will be benefited most from the showers.

Rain as reported in West Texas: Menard .75, Mason .75, Winters 1 3/4, Albany .37, Munday .53, Baird 1, Cisco 1 1/2, Ozona 1/4, Anson shower, Stamford sprinkle, Roby light sprinkle, Eastland .75, Sweetwater .55, Childress .62, Wellington .6, Memphis 1/2.

Colorado received 1.31 inches with some hail, while 20 miles south in Mitchell county there wasn't a sprinkle.

Lake Trammell, southwest of Sweetwater, caught a foot of water in a 125 inch rain and Lake Sweetwater, southeast of the Nolan county town, caught water in a 1 1/2 inch downpour. That was the third day of the week in a small section south of Sweetwater.

Jobless Check of "Tarzan" Will Go To Wyoming State

CODY, Wyo., March 25. (P).—The state of Wyoming, footing a bill of \$20,000 for the pursuit of Earl Durand, Rockies Tarzan killed yesterday, will get back an unemployment compensation check he failed to call for this last week.

The state employment service, which said Durand failed to call during the nine-day chase he led the posse, said he had been receiving jobless checks several weeks.

Republicans Align With Democrats to Try Defeating Bill

WASHINGTON, March 25. (P).—Republican parliamentary strategy threatened today to eliminate \$250,000,000 for parity payments from the agriculture department appropriation bill.

When the house resumed consideration of the bill, Representative Tarter, Georgia, told members republicans were planning to vote with democratic proponents of an amendment to boost the parity payment fund to \$500,000,000.

Only 5 Days Left to Buy New Auto Tags

Only five days left and then it will be a 25 per cent penalty plus the price of new tags for the automobile owners who do not have 1939 plates on their cars.

Deadline for purchasing 1939 plates is Friday and the penalty is placed upon all drivers of automobiles still bearing the 1938 plates.

Officials of tax-collector's office Saturday reported only 1450 passenger car plates—about half what will be sold in the county—have been purchased so far and urged drivers to come in as soon as possible and purchase new tags.

There has been a total of 244 commercial and 54 farm truck license plates sold in the county since February 1.

Rain and Hail Fall on Strip North of Midland

Light rain and hail fell along a mile-wide strip of ranch land eighteen miles north of Midland late Friday. The precipitation was in Martin county, crossing the Scharbauer Cattle Company's North Curtis place and neighboring ranches.

As Midlanders Saw the Winner

Shannon Davidson, Matador cowboy, had a lot of distance ahead of him when a Reporter-Telegram staff photographer took this picture five miles west of Midland, March 5, shortly before Davidson dismounted from Ranger and rode off from Sloan field bareback on Rocket. But he stood the gruelling ride in strong condition, finally reaching Oakland, Calif., early Friday afternoon to win the \$750 cash prize in the Nocona to Oakland pony express race. When the above picture was taken, Davidson was second to T. J. Sykes of Devo, Okla., but passed him before El Paso was reached. Later Sykes had to drop out when one of his horses became sick. Davidson, 23-year-old cowboy, never relinquished the lead position and was 100 miles ahead of King Kerley of Quanah when the race ended. He rode on to Treasure Island where he is the honor guest of the Golden Gate Exposition.

2 Elections of Interest Are Slated in Midland During April

Two elections of interest to Midland voters will be held early in April, the first being for the election of two school board members, scheduled Saturday, April 1, and the second for city officials, set for Tuesday, April 4. With two to be elected, the trustee ballot has the names of only two candidates, W. R. Upham, appointed several months ago to fill a vacancy, and now seeking his first elective term, and N. B. Larsh, to succeed a retiring member who did not seek re-election. Upham is district geologist for the Sinclair-Prairie Oil and Gas Co. Both have lived in Midland for more than ten years and both have children in the schools.

In the city election, three aldermen, a city secretary and a city marshal are to be elected. Only three candidates are on the ticket for aldermen, including R. M. Barron and D. H. Roettger, up for re-election, and Tom Sealy, for the place vacated by Foy Proctor, not a candidate for re-election. J. C. Hudson is candidate for re-election as city secretary.

For the marshal's post, Andrew J. Norwood is candidate for re-election, opposed by Blakely Wingo and Henry Thomas.

The school election next Saturday will be held at the high school auditorium and the city election on April 4 at the city hall.

Midland Clubwoman Named to Position

Mrs. A. N. Hendrickson, well-known Midland clubwoman, has been appointed captain of Midland county for the Women's Field Army to the Control of Cancer, state headquarters announced.

The appointment was made by Mrs. Volney Taylor, Brownsville state commander for the Army. Mrs. Hendrickson will have charge of Midland county during the Army's April membership campaign.

She will appoint a lieutenant in each city in the county, and also will name a county executive committee composed of members of the local medical association.

The Women's Field Army is a volunteer organization of clubwomen and others, and its chief duty is to spread calm and accurate knowledge concerning cancer.

Its slogan is "early cancer is curable; fight it with knowledge." The Field Army was organized in 1936 as part of the American Society for the Control of Cancer.

Since then, it has spread to 46 states and the District of Columbia. Although the Army's chief objective is enlightenment of a large number of people on cancer, it hopes eventually to build several free cancer clinics in Texas.

PLAN COMMUNITY PARTY

Clubwomen of Valley View will sponsor a community party at the schoolhouse Tuesday evening.

Games will be played and refreshments will be served. There will be no charges of any kind and the public is invited to attend.

Confession Is Made in Death Of Socialite

Oklahoma City Man
Guides Officers to
Body of His Wife

OKLAHOMA CITY, March 25. (P).—The body of socially prominent Mrs. Eudora Cunningham was dug by flashlight from a deep sewer grave early today after her husband broke a stubborn 19-day silence with a dramatic last minute confession.

Just a few hours before a scheduled habeas corpus hearing officers said would have ended in freedom for 33-year-old Roger Cunningham, he broke, admitted he strangled his wife March 6, and directed searchers to her body with a crude map.

With a firm, neat hand, the bearded and haggard Cunningham sketched the diagram to show officers where the body was buried, then retired to his jail cell for the first sound sleep jailers said he had had this week.

Headed by Sheriff George Goff and Assistant County Attorney E. W. Brown, weary searchers who had toiled many hours in a hunt for the 30-year-old Mrs. Cunningham, sped to the spot indicated by her FHA inspector husband.

There, toiling in the red earth by the light of flickering signal flares, the searchers dug almost eight feet into the ground.

Then, quietly, Brown signalled to officers to herd back a crowd of 100 curious and announced:

"I struck her. There she is."

His shovel had bared the head of the missing woman.

Carefully, the searchers removed the earth mounded by recent rainfall, from around the body of Mrs. Cunningham, employed as a librarian at Foster high school. Fully clothed, even to a pitifully jaunty little blue hat, trim brown sport shoes and a tan swaggar coat, the body was lifted into a waiting hearse.

"I strangled my wife Eudora and buried her in a partly filled sewer," Cunningham said in a signed statement to Co. Atty. Lewis R. Morris, who questioned him in a dramatic midnight end to a 44-hour isolation period.

"May God have mercy on my soul."

Morris said Cunningham made and signed the confession after three hours of questioning, then sketched the diagram showing where he had strangled his wife and painstakingly dug an eight-foot deep grave while her lifeless body lay nearby on the ground.

All this, Morris said took place within 20 or 30 feet of several occupied houses.

Morris conferred with Cunningham in a last chance effort to find some clue that would form the basis for charges against Cunningham, so the latter could be held while searchers hunted his wife's body.

He said no motive had been developed.

She long since had been given up for dead because she had no money when she disappeared and left no possible indication she was leaving.

After Cunningham signed the statement he called Morris back to say:

"I'm sorry I did it."

Proposal to Ease Social Security Tax Is Favored

WASHINGTON, March 25. (P).—Secretary of Treasury Morgenthau's proposal to ease the social security tax schedule today met approval of leaders of both major parties, every indication congress would translate the suggestion into law.

Senator Wagner, New York, co-author of the social security act, told reporters he thought the treasury proposal would pave the way for a system whereby the government would share the cost of old age pensions from general revenue.

Nephew of Midland Man Illness Victim

Word of the death of Wm. Benjamin Harrison, 19, Brownwood, was received here early Saturday morning by James P. Harrison advertising manager of the Reporter-Telegram.

Known as "Billie" to friends, the youth succumbed to pneumonia that developed as an aftermath of an attack of influenza, and his death was sudden. He died about three o'clock yesterday morning.

His parents, Mr. and Mrs. W. B. Harrison, Odessa, left for Brownwood immediately after being notified of the death of the youth. James P. Harrison was unable to leave because of illness.

Funeral services will probably be held in Brownwood this afternoon.

Deceased is survived by his parents and two brothers, Jimmie and Bobby Harrison, both of Odessa.

IS ADMITTED.

Miss Christine Rotan was admitted to a Midland hospital Saturday.

WORLD WAITS FOR TALK BY DUCE

They Guard the Safety of Fellow Students

On duty every day at John M. Cowden Junior High School, these Junior Safety Patrol members aid in traffic safety to prevent accidents to school children. At noon and after school in the afternoon, they go to their respective posts on streets near the school building, directing automobile, bicycle and pedestrian traffic in orderly manner. Remarkable cooperation from the public has been given. Sponsored by the Midland Safety Council and actively directed by Principal A. L. Gilbreth and City Traffic Officer Franklin Manning, the members of the patrol, comprising sixth and seventh grade boys, are changed every few weeks in order to give experience to a large number. Shown in the above picture are, left to right: BACK ROW—Gene Hayes, Jerry Hudson, Kenneth Taylor, Leon York, Manning, Billy Baldrige, Gilbreth, Sergeant Frank Troseth, Captain John Perkins, Calvin Daughtry and Herschel Parks; MIDDLE ROW—Billy Graydon, Thomas Booth, unknown, Billy Ponder, Guy McMillan, Ed Stephens, Sonny Goggans, Charles Roripaugh, Glenn Parrott; BOTTOM ROW—Logan Kelly, John Sindorf, William McReynolds, Lewis Wingo, Billy Wells, H. G. Bedford, John Pittman.

Oil Interest Turns to Osage and Everest Wildcat In Northwestern Gaines as High Yates Encountered

By FRANK GARDNER

Midland Bidders Heavy Buyers Of Stock at Sand Hills Show

Midland bidders aided greatly in setting prices for the Sandhills Hereford Show at Odessa Saturday. Friday, O. B. Holt, Chumley Cowden, 4-H club boys being bought by local men.

Alexander and McReynolds Packing Co. bought five of the animals, exhibiting them on the streets here Saturday afternoon, to be butchered through their plant and sold through local men.

George D. Phillips of the Hotel Scharbauer Coffee Shop bought one choice calf, raised on the Scharbauer Cattle Co. ranch and fed by a Martin county boy, and will serve the meat at his cafe.

George Glass, registered Hereford breeder and ranchman, bought a calf which he had raised and which was fed out by a Martin county boy.

Among Midland residents attending the Sand Hills Hereford Show in Odessa Friday were: J. B. Kelly, Fred Fromhold, Houts Lamar, Bob Scruggs, R. O. Smith, Clay Floyd, Hunter Hunley, Angelo Smyrle, Ed Blacher, Blake Wingo, Edwin Garland, Luther Tidwell, Spurgeon Blackburn, Carl Uffers, George Bennett, Nivk Davis, Mrs. Hugh Miller.

Mrs. Crabtree, Casey Jones, Roy McKee, Minter King, Eugene Reichman, Pete Gates, Marguerite Wadling, Jerry McMillan, Gene Rich-

ley.

Picturesque General To Address Midland Town Hall Club

General Snedley D. Butler, picturesque veteran of a hundred campaigns in many of the world's troubled spots—and of the campaign to keep America from becoming involved in another war—is to be the guest speaker at the meeting of the Midland Town Hall club, on April 5, it was announced Saturday.

General Butler is without question the most colorful fighting man in America today. His record of forty years with the "soldiers of the sea," carrying out orders of many different administrations in Washington, his fearless habit of wading into difficulties regardless of consequences, his virulent vocabulary which he never spares, combine to make him one of Uncle Sam's outstanding nephews—and, frequently one of his annoying ones, some folks think.

Entering the Marine Corps at seventeen, he shot up thru the ranks to become a brigadier general during the war, later rising to the commission as Major General. He was given the Congressional Medal of Honor for action in Hayti in 1917 and the Distinguished Service Medal in 1919 for his services in the World War. In 1924, he was granted a leave of absence to become Director of Public Safety in Philadelphia—and did such a thorough job that in eighteen months he was abolished.

He returned to active marine duty and retired in 1931, since which time he has been devoting his time to writing and lecturing for a policy of American isolation from foreign imbroglios.

General Butler, known as "The Fighting Quaker Marine", has announced that his subject here will be "Americans, Don't Shoot Till You See the Whites of Their Eyes."

The British-French leaders are not very hopeful of a mild speech from Mussolini, but they will be alert for any hint of willingness for a reconciliation of long-standing differences with France.

The British premier, Neville Chamberlain, delayed further efforts to form an anti-Hitler bloc until Mussolini has spoken.

man, Jack Moore, Clint Lackey, C. L. Coles, Tom Nolen, Mr. and Mrs. L. W. Stice, Lum Daugherty, George Friday, O. B. Holt, Chumley Cowden, J. E. Hill, J. C. Miles, E. B. Dickenson, Elmer Bizzell, Mr. and Mrs. Clarence Scharbauer, S. A. Debnam, Mr. and Mrs. Fred Middleton, R. E. Hardy, Mrs. H. J. Summy, L. A. Brunson, Clint Dunagan, Elliott Cowden, Bob Preston, Homer Inglish, Bill Gollyns.

Many of the above mentioned group participated in the Midland junior chamber of commerce sponsored motorcade to Odessa Friday morning, the motorcade being the largest to leave Midland in recent years. More than 35 cars comprised the procession which was led by a motorcycle escort. The group hit Odessa with horns honking and sirens screaming, considerable attention being attracted as the procession proceeded directly up crowded Grant Ave., to the high school upon its arrival there. The entire motorcade participated in the mammoth parade which was staged at ten o'clock Friday morning.

R. O. Smith, vice-president of the local junior chamber of commerce, was chairman of the motorcade committee, other members of the committee being P. A. Nelson, Butler Hurley, Carl Uffers and J. B. Kelly.

Showing 56 feet of thinning between anhydrite and Yates sand over a dry hole a mile and a quarter to the southwest, Osage Drilling Company and A. S. Everest No. 1 Dr. E. H. Jones, northwestern Gaines wildcat, commanded top interest in the West Texas Permian Basin at the week's close.

The Osage and Everest prospect found first frozen quartz grains in the Yates zone at 3,030 feet, datum of plus 595. According to some correlations, it is 25 feet higher on that marker than Continental Oil Company No. 1 Jones, well drilled two years ago which showed some oil in the Yates zone. The new test had been 31 feet low in the Conoco failure on anhydrite, topped at 2,065. At last reports, it was drilling ahead below 3,710 feet in anhydrite. Location is 1,980 feet from the north and west lines of section 20, block A-7, public school land.

In the Semmer pool of central Gaines, Shell Petroleum Corporation No. 1 Mann, second well to penetrate to the deep pay recently found by Amerada Petroleum Corporation No. 2 T. S. Riley, stopped drilling at 5,248 feet in lime and ran 2 1/2-inch tubing to 5,248. Drilling water was displaced by circulating with oil, and the well is now preparing to swab. At old total depth of 5,064, No. 1 Mann had flowed 490 barrels daily when completed two years ago. On test last week after deepening to 5,174, it gauged 1,102 barrels of fluid in 24 hours, with 4,877,000 cubic feet of gas. It is 660 feet out of the north-west corner of section 20, block G, W. T. R. survey.

Denver Well Flows Heavily

Shell No. 3-C George Baumgart, on the east side of the Denver pool in southern Yoakum, showed sizeable natural yield by flowing by circulating with oil, and the well is now preparing to swab. At old total depth of 5,064, No. 1 Mann had flowed 490 barrels daily when completed two years ago. On test last week after deepening to 5,174, it gauged 1,102 barrels of fluid in 24 hours, with 4,877,000 cubic feet of gas. It is 660 feet out of the north-west corner of section 20, block G, W. T. R. survey.

In the Denver pool, Sun Oil Company No. 5-A J. H. Lynn set daily potential of 1,542.16 barrels of 32-gravity oil, with gas-oil ratio of 85-1. It was shot with 360 quarts in pay section from 4,860 to total depth at 5,112.

An east side test, Magnolia Petroleum Company No. 1 R. M. Kendrick, is drilling at 4,150 in anhydrite and lime. Texas-Pacific Coal & Oil Company No. 1 A. M. Brownfield, extending the eastern area a mile and a half north, is cleaning out shot cavings, employing the Beekman process. T. P. No. 1 Cecil Bloomer, bottomed at 4,515 feet in lime, cemented whipstock at 4,951 feet with 50 sacks and is preparing to drill by three joints of drill-pipe lost in the hole.

Two miles northeast of the Bennett pool in southeastern Yoakum, Shell No. 1 Waples-Platter Company is drilling unchanged below 5,090 feet in lime. In the southwestern extension of the pool, Honoluli Oil Corporation and Cascade Petroleum Company No. 2-741 N. W. Willard is drilling lime at 4,919 feet. It will start circulating oil at 4,975. Shell No. 1 W. S. Hodges is drilling lime past 4,572. T. P. No. 20 Bennett is standing after cementing 7-inch casing on bottom at 4-635 feet with 200 sacks.

Texas Company No. 1-C Mallett Land & Cattle Company, southwestern Hockley wildcat two and a half miles southwest of the farthest west producer in the Slaughter pool, Saturday had drilled to 2,993 feet in anhydrite and red rock. It is understood that operators have (See OIL NEWS, page 6)

Hitler Gives Full Support To Mussolini

Fuehrer Concludes
New Trade Pact With
Netherlands Chiefs

By Associated Press.

While the world awaited Premier Mussolini's speech tomorrow (Sunday) for a clue to his intentions in the Mediterranean, Adolf Hitler Saturday night pledged Italy "shoulder to shoulder" support and strengthened the Nazi position of the Fuehrer in Europe.

Hitler sent Mussolini a telegram assuring his axis partner "German people stand shoulder to shoulder" with Italy in defending two peoples against attempts to restrict their "will for living."

Italians meanwhile expected a conciliatory speech from Mussolini at the celebration of fascism's twentieth anniversary, for which thousands were gathering in Rome.

Germany and the Netherlands, it was announced meanwhile, reached a trade agreement after ten days of negotiations. No details were given.

WASHINGTON, Mar. 25. (P).—Charging Great Britain with encouraging Germany to swallow up Austria and condoning dismemberment of Czechoslovakia, Senator Borah (R-Idaho) tonight asserted Hitler had "no better friend" than England.

In a radio address Borah made it clear he thought there was no reason for the United States to aid European democracies. "What they (democracies) are contending for is realization of their imperialistic scheme, not the destruction of fascism," he said. The speech was considered a prelude to the neutrality policy debate in the senate next week.

The agreement, added to the Rumanian pact and dominance of the Balkans, made Germany more impervious to economic blockade in case of war.

The rapidly-expanding reich also reported it was nearing a possible agreement with Japan for a defensive pact against Russia.

A Japanese spokesman said Japan might agree to support Germany if Russia "attacks Germany without provocation."

German sources meantime reported "more than 10,000" Polish troops took positions in the Polish harbor city of Gdynia on Danzig's western frontier.

Growing tension was reported developing in Nazi-dominated Danzig between Germans and Polish officials.

Britain's "stop Hitler" drive apparently was stalemated.

Midland Bids for 1940 Convention of District 2-T Lions

Letters formally announcing Midland's bid for the 1940 convention of District 2-T Lions International, were Friday mailed to each Lions Club of the District by the Midland club, the letters being signed by John P. Butler, convention chairman. The district is comprised of 48 clubs, extending from Amarillo on the north, El Paso on the west, Iraan on the south and Colorado on the east. Additional letters will go out from the local club early in April, according to Butler.

Plans are also being made to have more than 25 members of the Midland club in attendance at the district convention in El Paso, May 5-7, to further Midland's chances for the 1940 convention city.

Good Will Trippers Of El Paso to Spend Night Here April 12

El Paso Good Will Trippers, on their annual tour over this section of the state, will spend Wednesday night, April 12, in Midland, according to information received Saturday by the local chamber of commerce from Lloyd Bloodworth, assistant manager of the El Paso chamber of commerce and chairman of the tour. The good will trippers from El Paso have made Midland an over night stopping place on their annual tours for the past two years.

More than 70 persons will comprise this year's group, the trippers traveling in two buses. Ten special entertainers will accompany the good willers, according to the information received.

Special entertainment will be arranged for the visitors during their stay here, the type of entertainment not having been decided upon by chamber of commerce officials yesterday.

GARAGE FIRE EXTINGUISHED.

Firemen Saturday were called to the F. A. Stacy residence at 402 N. D street to quell a fire that broke out in the garage. The blaze was under control upon their arrival, and damage was slight.

Stop Mourning a Market Lost Forever

By WILLIS THORNTON.

We might as well face it.

The great European market, which took off our hands vast surpluses of farm products in the 1920s, is gone forever.

It never did exist, really, because during the World War the need was abnormal, and afterward the trade was largely supported by huge loans.

Ever since the war, men have been dreaming of the return of this market to a "normal" which never was normal. Desperate moves toward self-sufficiency by all European countries, the rise of new and competing producing areas, the walling up of trade areas by totalitarian countries—all these have combined to destroy a market which once took the products of 50,000,000 acres of American farm land.

Secretary Wallace admits that this market is gone forever. The present trade difficulty with Germany, while it will cut down German imports here, will also further reduce export of cotton, for which Germany was a good customer. Overwhelming surpluses of cotton will continue to pile up.

There are two ways of facing this problem. One is to develop, insofar as possible, markets in the western hemisphere to replace those lost in Europe. Secretary Wallace is hard at work on this, and it is possible that some good can be accomplished in this way. But it will take time, planning, and government money.

Another approach is more immediate and more direct. Farmers in one-crop areas are beginning to realize that the great European export market is lost for good.

There is not, and cannot be, any permanent future in producing for a market that is gone, despite any generosity the government can muster. More and more such farmers, directed by wise and forward-looking local leaders, especially in the south, are turning to crop diversification, raising vegetables, or dairying, to supply things now generally missing from the diet of the people.

A manufacturer who stubbornly went on building 42-cylinder automobiles that nobody could buy, and piling them up in a warehouse, would be considered cracked. But a farmer who continues to raise cotton and wheat that nobody can buy is just unfortunate.

More and more of them are thinking hard about raising things that people can buy. The soy bean has gone from a novelty into an important staple within 10 years. Many a farmer has found that well-tended woodland on his farm yielded him more than fields in unwanted crops. The domestic need for vegetables and dairy products in many regions has never been supplied at all.

Before the problem can be solved it must be faced. Realization that the European markets of the 1920s are gone forever is the first step.

Tris Speaker Sees Sandlot Baseball as Check to Crime

As sandlot baseball increases in a community, its juvenile crime rate decreases, Tris Speaker, former big-league player, points out in the current Rotarian Magazine.

The man regarded by many as baseball's greatest outfielder, now gives much of his time to spreading interest in the national pastime by teaching schoolboys its fundamentals. With Lew Fonseca, former White Sox star, and other players he has conducted baseball schools in Chicago, Boston, and other cities—and few of the lads ever cut classes.

"Nobody, of course, will ever be able to say just how much those boys learned from us about baseball," comments Speaker. "But this we do know: their interest was stimulated to a high degree, and the police told us that juvenile delinquency decreased as much as 35 per cent in some of the neighborhoods where we conducted our schools."

For further evidence of preventing crime through vacant lot ball games, Speaker cites his home city Cleveland, Ohio, where similar schools have been held. He reports that Eliot Ness, the city's safety director, once told him that if amateur baseball did not occupy such a large place in the thoughts and activities of Cleveland boys, the work of the police department would be tripled.

• SO THEY SAY

Don't Take Chances

(Pecos Enterprise.)

The Traffic and Safety Division of the Texas Highway Department has just issued a summary of accidents for the month of January. This summary includes only such accidents as are reported to the Department, and while 100% of the fatal accidents are reported, only 15% of the non-fatal are reported. There were:

1,287 accidents, a reduction of 68 over January, 1938,
131 persons killed, a reduction of 13 deaths, and
1,218 persons injured, a reduction of 160 injuries.
While the reduction over January 1938 is encouraging, there were actually 41 accidents, 4 deaths and 39 persons injured every day. They occurred at all hours of the day and night, with a low of 19 accidents between 5 and 6 p. m. and a high of 95 between 6 and 7 p. m. and 95 between 7 and 8 p. m. Wednesdays were low with 115, and Sundays high with 290. Saturdays ran second with 241. More accidents occurred in daylight than in darkness, and 56% of all accidents were in clear weather. Twilight is a very dangerous period.

Passenger cars were involved in 70% of all accidents, and head-on collisions and angle collisions top the list in manner of collision. Male drivers involved outnumbered female drivers nearly 8 to 1, and 77% of all drivers were white. The age of drivers varied from 17 drivers under 14 years to 493 from 19 to 25 years.

Many accidents were caused by passing on hills; passing on right-hand side; drivers not having right-of-way; and a large number showed no improper driving—they just happened. The driver may have been dialing his radio, looking at an advertising sign, or trying to avoid hitting a chicken or animal crossing the road.

The majority of accidents occurred when the drivers were apparently normal; 176 had been drinking, 41 were fatigued or asleep, and 38 were blinded by glaring lights. In 21% of all fatal accidents, the driver had been drinking, and 21% of the fatal accidents were head-on collisions with another vehicle.

No matter how good a driver you are, you may be involved in an accident through no fault of your own. So be careful—don't take chances; respect the other fellow's rights; dim your lights at night; see that your car is under control; and don't try to mix drinking and driving.

"And How Are You Boys Doing?"

The
Capitol Jigsaw
By
Howard Marshall
Associated Press Writer

By HOWARD MARSHALL

AUSTIN. (AP)—Texas' state flower, the bluebonnet, is beginning to peep out in the coast country, says the state highway department.

Soon it will be painting highway rights-of-way, fence rows and pastures in other parts of the state a glorious blue. The flower usually appears in South Texas in early March and in west and north portions a little later.

According to the highway department, which annually gathers and distributes many tons of wild flower seed as a means of spreading floral beauty, this year should be a normal one for bluebonnets and will flowers of all types.

Although the winter was rather dry, which was not favorable, it also brought no extremely low temperatures, which was a good thing from the standpoint of wild flowers.

Railroad Commissioner Jerry Sadler has a new walking stick of which he is very proud.

It could be more than a walking stick, if Sadler elected to make it so, for it is a shillelagh, and encyclopedia says:

"... The cudgel of blackthorn or oak carried by the conventional Irishman, with which he is supposed to delight to play on the heads of his friends on occasion. The name is borrowed from the once famous oak forest of Shillelagh in the southwest corner of County Wicklow, 17 miles southwest of Aughrim. There are about 12 ways of spelling the word."

The shillelagh received by Sadler is a wicked-looking sprout tipped with a steel point and a knob, apparently a briar, about the size of a man's fist on the big end. Between the ends is an assortment of jagged spines about half an inch long.

James Gillede, 80-year-old uncle of James E. Kilday, director of the motor transportation division of the railroad commission, was the donor of the unusual gift, which came straight from Gillede's home at Cronroads, parish of Kilcar, County Donegal, Ireland.

Kilday explained that when his folks came to the United States from Ireland the family name was changed from Gillede to Kilday. In the Gaelic language, he said there is no K or Y.

A chart prepared by the state planning board to show all the more than 100 boards and agencies in the state government started a committee of the house of representatives.

The specific thing that caused eyes of members of the state affairs committee to pop was the listing of the Texas "naval board."

A committee asked Rep. DeWitt Hale of Farmersville, who was examining a bill by which he hoped to effect a sweeping reorganization of the government, what he would do with the state "naval board." Hale thought a moment.

Other committee members indicated that was the first time they had known Texas had such an agency. One asked if its duties were to look after the "Texas Navy."

A check at the state department, where records of all state boards are kept, disclosed that the "naval board" no longer exists. At some time in the past, it had been composed of the governor and one other, and its duties included, actually, looking after the Texas navy.

Possibly with the passing of the navy maintained by the Texas Republic the board also became extinct.

Texas does, however, have an ad-

Ten Years Ago in Midland

Announcement of an Easter-egg hunt for Sunday, March 31, was made by the Lions club, M. M. Seymour being chairman of the committee in charge. Prizes were offered by merchants for the children finding certain marked eggs.

Pilot Jimmie James of the Western Air Express made a forced landing in the Gist pasture, south of town, with a tri-motored Fokker plane, "out of gas."

Local bankers, commenting on a gloomy prophecy by a British economist that a great international financial catastrophe was staring the world in the face, agreed with his reasons for current market fluctuations, but said they did not see any appreciable tightening of money here.

W. R. Smith, newly appointed district attorney, moved to Midland from Odessa.

Petition for paving South Main street was being circulated by W. F. Scarborough among property owners on a nine block segment.

Forty steers shipped by F. F. Elkin to Fort Worth topped the market, weighing 975 pounds and bringing 12 cents per pound. Ten cows weighing an average of 940 pounds sold for 11 cents per pound. Elkin pointed out that not only the additional pounds on "fed cattle" were necessary, but also a better price per pound than the purchase price, to make a profit.

miral. She is Admiral Ginger Rogers, the movie dancer-actress. Admiral Rogers received a commission from Gov. James V. Alfred when Texas was courting national publicity in connection with its Centennial celebration in 1936.

When feelings of a legislator have been hurt he has a right, under rules of the house and senate, to get on his feet and "speak on personal privilege."

So important is the privilege considered a member of the legislature may interrupt any ordinary business of a session to exercise it.

The principle on which the privilege is based is that the reputation and conduct of legislators in the representative capacities are fundamental matters of good government and may be brought up for discussion at any time.

An example occurred in the house the other day. Rep. Homer Leonard of McAllen had been presiding in the temporary absence of Speaker Emmett Morse of Houston.

Rep. DeWitt Hale of Farmersville spoke critically of the way Leonard was conducting the voting on amendments to the pension-tax constitutional resolution under consideration.

Lter Rep. E. H. Thornton, Jr., of Galveston, speaking on personal privilege, took Hale to task for his remarks, declaring Hale had accused Leonard of discrimination.

Rep. Hale then replied he was

• BRUCE CATTON IN WASHINGTON

EDITOR'S NOTE: This is the second of five special columns by Bruce Catton, Reporter-Telegram NEA Service correspondent in Washington telling, for the first time, just what U. S. foreign policy is today—and why.

By BRUCE CATTON

WASHINGTON. — The average American is apt to be a bit confused about his country's foreign policy in respect to Europe.

He knows vaguely that the administration is "for" the European democracies and "against" European dictatorships. He does not understand just how far that "for" and that "against" may carry him. Nor does he always see just why his government feels obliged to take any stand at all on European problems. Why, he sometimes asks,

accommodation with totalitarianism, which denies the individual's worth and freedom and implies choice from above followed by coercion.

It follows, hence, that democracy is not concerned with either anti-Fascism or anti-Communism as such, but rather with the clear-cut line between democracy, with its glorification of the undefeated individual human spirit, and totalitarianism, with its denial of that spirit's right to a free existence.

NOTHING NEW IN U. S. STAND

This does not mean that America wants to regulate any nation's internal affairs. It is no part of our responsibility to suggest the form of government any people should have.

But if a nation's ideals and methods threaten the existence of a world in which other people can live freely, or if they violate the laws of common humanity, then we must take a stand.

Long before this post-war era, America vigorously protested the brutal and inhuman treatment of human beings wherever it occurred. It protested against the program of Czarist Russia, for instance, and against the Armenian massacres of pre-war Turkey. To protest the mistreatment of racial or other minorities today implies nothing new in American policy.

But the present situation goes beyond that. If a nation adopts a program which includes the doctrine of world subjugation, either by force or by a propaganda attack on our democratic social system, then we must adopt defensive measures. And if a group of nations joins in a policy which has that effect, we must consider whether simple defense of our own institutions may not require us to aid those other nations which, desiring peace as we do, are menaced.

That explains our present course in regard to Europe. It explains why, for instance, the administration is desirous to help the French rebuild their air force, and why it has announced its wish to help the democracies against the dictatorship bloc.

JUSTICE, GOOD FAITH ARE BASIC

Once again the administration returns to its insistence that permanent peace can come only in a relatively prosperous and stable world, a world in which changes in the international situation come by negotiation and are based on justice and good faith. To get that kind of world, the administration feels that America must work for a freer flow of international commerce, for recognition of the sanctity of treaties and the principle of peaceful settlement of disputes.

It is because the totalitarian bloc is taking the world di-

What would Kemper Kimberlin, Paul Jones, Johnson Phillips or Bum Cowden think if I dealt with them as harshly as Editor Jim Kelley of the Stanton Reporter does with his fishermen. In his last paper, a headline about some returning fishermen said: "The Same Old Story, Plenty Fish To Eat But None To Bring Home."

Never let it be said that I failed to give Editor Ralph Shuffler of the Odessa News-Times his due credit. Writing about the Sand Hills Hereford show in his Friday paper he said:

"Citizens from all over the Sand Hills country were with us, and they were enjoying themselves. Midland

rectly away from that kind of set-up that American foreign policy today calls for co-operation with the democracies. Not the state Department insists, because we dislike dictatorship itself, or because we dislike the men who happen to be dictators, but because the policies of the dictatorships are creating the sort of world in which the democratic ideal cannot be realized.

It is for this reason that the administration dislikes the existing neutrality legislation. It sympathizes with that legislation's aim—to help the country out of war—but it asserts that in practice the legislation gives aid to the very forces which our foreign policy calls on us to resist.

So, too, with the proposed war-referendum plan. The State Department feels that that well-intentioned law would hamper us tremendously in conducting foreign relations. The present system, laid down in our Constitution, has worked well for 150 years; the department feels that the new system would not work well at all.

NEXT: American foreign policy in the Orient.

can't Uncle Sam stay home and tend to his own knitting?

That, as a matter of fact, is what the administration wants to do. The key point of our whole foreign policy is a desire for peace. America wants to be able to develop and perfect its own democracy. But no country can exist in a vacuum.

For out of this desire to stay at peace an improve conditions at home arises the conviction on the part of the administration that America cannot be successful in those efforts if the rest of the world is torn by war or suffers a general deterioration.

Democracy can be denied in many different ways; but essentially, it is based on a conviction of the worth and freedom of the individual. Since that is true, democracy can have no

Miss Daphne Friday and Melvin Wallace Wed in Home Ceremony Here Saturday

Miss Daphne Friday, daughter of Mr. and Mrs. Horace Friday, and Melvin Wallace, son of Mrs. Lillie Wallace, were married at the home of Mr. and Mrs. J. D. Rodgers, 400 S. Pecos, Saturday morning at 11:45 o'clock.

Rev. H. D. Bruce read the ceremony in the presence of about 30 friends and relatives.

The couple had no attendants.

For her wedding dress, the bride chose a blue crepe frock with trimming of white lace. Her accessories were blue.

Mr. and Mrs. Wallace will live here, where they plan to build a home.

The bride came to Midland a little less than a year ago, with her parents.

Mr. Wallace has lived here about seven years. He is in the employ of the state highway department.

Four-Table Bridge Party Is Courtesy To Club, Guests

Three guests, Mrs. K. S. Ferguson, Mrs. A. P. Shirey, and Miss Mary Pemberton, played with members of the Jole de Vie club when Mrs. J. M. Speed Sr. was hostess to the group at her home, 301 North P street, Friday afternoon, with a bridge party.

Pink cornflowers decorated the party rooms where four tables were appointed for the bridge games. Mrs. Geo. Glass held high score and Mrs. Chas. Brown second high for club members, while prize for high score among guests went to Mrs. Shirey.

A refreshment course was served at tea time to guests and the following club members: Mmes. P. F. Bridgewater, Brown, R. C. Conklig, Hugh Corrigan, John Dublin, Frank Fulk, Glass, Wade Heath, O. B. Holt, Chas. L. Klapproth, J. R. Martin, Roy Proctor, Frank Williamson, and the hostess.

announced later by the sponsors. The review is set for 4 o'clock, tentatively, and tickets will be 25 cents each.

Auxiliary Plans For Book Review

Plans are now under way for a book review to be sponsored by the Presbyterian auxiliary.

Tentative plans are for the review to be held on April 21 with Robert Moore of Vernon, teacher of dramatics in the Wink school, presenting "The Patriot" by Pearl Buck. If any changes are made in the tentative schedule, they will be

Belmont Bible Class Elects New Secretary-Treasurer

Mrs. C. G. Murray was elected secretary-treasurer of the Belmont Bible class in the weekly meeting for which Mrs. D. E. Holster was hostess and Mrs. A. B. Stickney co-hostess at the home of the former, 206 South A street, Friday afternoon. Mrs. Murray was elected following resignation of Mrs. J. H. Trickney who will leave soon for Fort Worth.

Mrs. W. L. Fickett presented the lesson, concluding study of the Book of Revelations. Announcement was made that the Book of Daniel will be studied next.

Two visitors, Mrs. Joyce P. Bradberry and Mrs. Cloyd West, were present.

The hostesses served a refreshment plate at the close of the study to the following class members: Mmes. C. O. Fredregill, C. E. Nolan, Fickett, Harvey Kiser, S. L. Alexander, H. D. Bruce, C. A. Travelstead, A. W. Lester, Herbert King, W. L. Sutton, C. G. Murray, J. A. Mead, J. L. Kelly.

Next Friday the class will meet with Mrs. A. W. Lester at the Magnolia Tank Farm, with Mrs. C. E. Nolan co-hostesses. The lesson will open the study of Daniel.

Two Present Topics At Meeting of Child Study Club

"Expression Through Art" was the subject of the program presented at the regular meeting of the Child Study club at the home of Mrs. W. L. Brown, 1707 W. Holloway, Friday morning.

Mrs. P. A. Nelson presented a paper on "Art in the Public Schools."

Mrs. Overton Black discussed "Pictures That Appeal to Children at Different Age Levels."

Mrs. R. W. Patterson led a round-table period after the topics given by Mrs. Nelson and Mrs. Black.

Roll call was answered with the names of favorite pictures of children.

Mrs. O. J. Hubbard presided at the meeting in the absence of the president, Mrs. Jack Rankin.

Present were one guest, Mrs. Meriweather, and the following members: Mmes. H. A. Hemphill, Hubbard, Nelson, Black, Patterson, S. P. Hazlip, and the hostess.

Easter Motif Features Party for Lucky Thirteen Club

An Easter motif was carried out in tallies for games and in the party plate served when Mrs. O. H. Jones entertained members of the Lucky Thirteen club and their husbands with an evening party at her home, 2011 W. College, Friday at 7:45 o'clock.

Three tables of 42 furnished amusement for the evening. Winners in the games were: Mrs. S. P. Hall who held high score for women; L. F. Joplin who held high score for men; Mrs. Ellis Conner who held low score for women; W. F. Hejl who held low score for men.

Present were: Mmes. and Messrs. W. N. Cole, Ellis Conner, J. C. Hubbard, W. F. Hejl, S. P. Hall, L. F. Joplin, and the host and hostess.

Hayride and Picnic Amusement for P. E. P. Club and Guests

A hayride to Cloverdale in an honest-to-goodness wagon, followed by an evening of games, roasting weiners, and eating an outdoor meal furnished amusement for girls of the P. E. P. club and their invited guests Friday night.

Mrs. Glenn Lewis and Mrs. Hayden Miles chaperoned the group.

Present were the following: P. E. P. members, Dorothy Sue Miles, Mary Sue Cowden, Jessa Lynn Tuttle, Geraldine Griffith, Jean Lewis, Nell Ruth Bedford, Freda Fae Turner, Pullanan Cowden, Jeanne Davis, Barbara Jean Harper, guests, Jim McHargue, Harry Sindorf, J. M. White, John Walker, Paul Anderson, Bobby Walker, John Dublin Jr., Jack Nobles, Elbert Leggett, Roy Perry.

Present were the following: P. E. P. members, Dorothy Sue Miles, Mary Sue Cowden, Jessa Lynn Tuttle, Geraldine Griffith, Jean Lewis, Nell Ruth Bedford, Freda Fae Turner, Pullanan Cowden, Jeanne Davis, Barbara Jean Harper, guests, Jim McHargue, Harry Sindorf, J. M. White, John Walker, Paul Anderson, Bobby Walker, John Dublin Jr., Jack Nobles, Elbert Leggett, Roy Perry.

Refreshments were served at the tea hour to: Mmes. L. M. Hedges, Chas. Ward, Fred Klatt, E. L. Reagan, C. W. Ramsey, F. D. Reven, Farra Hedges, one guest, Mrs. C. Moore, and the hostess.

Next Friday the club will meet with Mrs. L. M. Hedges, 406 E. Tennessee.

Large Attendance Marks Story Hour Saturday Morning

Stories, riddles, and jokes presented by the children were features of the program at the Story Hour in the courthouse Saturday morning. Stories were told by Billy Pate and Gordon Reigle, riddles by Jerelen Jowell, Billy Pate, Mary Nell Casselman, and Bobby Drake, and jokes by Carol Casselman and Peggy Riley.

Mrs. W. Bryant, conductor of the Story Hour, told four stories. They were: "Meg and Moe;" "The Disappointed Peacock" by Idella Prunell; "The Straw, the Coal, and the Bean" by Carolyn S. Bailey; and "Pinocchio" by Colodi (continued).

Children attending were: Billie Katherine Huckaby, Betty Sue Huckaby, Rosa Leggett, Waldo Leggett, Billy Mims, Billy Erskine, Rita Merle Dunlap, LaJuan Dunlap, Bobby Harris, Ginger Harris, Vance Morris Bridges, Patsy Ann Charlton, Jerelen Jowell, Betty Hayes, David Waldron, Dianne Waldron, Mary Nell Casselman, Carol Casselman, Martha Jo Handy, Mary Nell Cook, Cora June Cook, Billie McKee, Mary Jane Wilson, Billie LaJean Piga, Valda Dee Pigg, Geneva Merrill, Audie Merrill, Carolyn Reigle, Gordon Reigle, Margaret Ann McCarty, Janice Jones, Don Gray Smith, Martha Ann Smith, Doris Nell Smith, Peggy Riley, Helen Golladay, Charles Orville Fredregill, Gloria Fredregill, Peggy Joye Minear, Barbara Ann Boring, Bobby Alexander, Bobby Hunter, Bobby Drake, Billy Pate, Shirley Ann Cooper, Betty Jansen, John D. Jansen, Duane Lynn Dorsey, George Woody.

Mrs. Gray and Mrs. Hunter were visitors.

Mrs. Harry Adams Hostess to Easter Bridge-Luncheon

Entertaining with an Easter bridge-luncheon at one o'clock Mrs. Harry Adams was hostess to the Escondido club and a trio of guests at her home, 806 N. Marienfeld, Friday afternoon.

Pansies and other spring flowers were house decorations.

Easter tallies and prize wrappings marked the bridge games which offered amusement for the afternoon. High score prize for club members went to Mrs. Daniel H. Griffith and lucky prize to Mrs. A. M. East.

The hostess presented guest prizes to Miss Laura Van Sicken and to Mrs. John Lee McCrary of Hobbs, N. M.

Present were the three guests, Miss Urs Sicken, Mrs. McCrary, and Mrs. Berquist of San Angelo, and the following club members: Mmes. Peck Cunningham, Bill Collins, East, E. C. Hitchcock, Griffith, Butler Hurley, S. S. Stinson, and the hostess.

Diana Daugherty Is Honoree at Party On Fifth Birthday

Diana Lynn, daughter of Mr. and Mrs. J. L. Daugherty, was honored with a party at her home, 212 S. Big Spring, Friday afternoon on occasion of her fifth birthday anniversary. Party hours were from 4 o'clock until 6 o'clock.

The house was decorated with peonies and tube roses.

Indoor games were played with some of the mothers present assisting Mrs. Daugherty in entertaining the group.

A pink and green color scheme was carried out at the refreshment hour. The birthday cake was iced in green and lighted by pink candles. It was served with pink ice cream. Favors were little lanterns filled with pink and green candies.

Present, besides the honoree, were: Her grandmother, Mrs. J. W. Braswell, her aunt, Mrs. Annie McKenzie, another aunt, Mrs. Jane Sumpter and daughters, Betty, Peggy, and Jimmie, and Billie and

Let's talk Price

FORD "60" COUPE

Lowest delivered price for any car with more than four cylinders

\$584

DELIVERED IN DETROIT, TAXES EXTRA

You expect Ford prices to be low. They always have been—always will be. But it's what you get for what you pay that makes Ford prices so amazing.

Take equipment. Ford delivered prices include—without extra charge—more dollars' worth of equipment.

Look at materials. No better steels go into any car at any price than are used in the Ford V-8. And Ford cars are built to the highest standards of precision known to mass-production industry. Working to fine limits takes time, costs money, but it pays you. It reduces wear and makes new-car performance last thousands of miles longer.

Ford gives you the V-8 engine—the smoothness of eight cylinders, with the economy of small

cylinders. To get a V-8 engine in any other car you have to pay far more than the Ford price. And that's also true of the improved hydraulic brakes with bigger braking surfaces—the full torque-tube drive—the semi-centrifugal clutch, and other features.

In the streamlined design of the 1939 Fords you have unquestioned style leadership—the smartest cars in America are in the Ford-Lincoln group.

All these things add up to bigger value—and that means lower price. In no other car do you get as much for your money as you do in a Ford V-8.

See Your Ford Dealer for Easy Terms Generous Trade-in Allowance

FORD V-8

Piano Solos Are Feature of Club Program Saturday

Five piano solos featured the meeting of the Treble Clef Junior Music club at the Watson studio, 210 W. Ohio, Saturday morning. Most of the selections were numbers that the students will play in the piano tournament.

Selections were: "Rigoletto" — Wilma Dee Vaughn.

"Rose in My Garden"—Barbara Ann Ellis.

"In Good Humor"—Norma Jean Hubbard.

"Fairlyland Music"—Dora Jeanette Alkire.

"Halloween"—Royce Ray McKee.

Birthday greetings were extended to Barbara Ann Ellis.

Bobby Drake presided and Norma Jean Hubbard was secretary.

Approximately 14 children were present.

Ray Braswell, all of Lamesa, and the following children from Midland: Ronnie Nance, Peggy Nance, Jimmie Brewer, Troyce Eiland, Rosalind Leggett, Marcelline Howard, Billie Mims.

Mrs. Graham and Mrs. Bill Nance were also present.

Mothers Group to Be Special Guests At PTA Meeting

Mothers of seventh grade pupils are invited to be special guests at the meeting of the High School PTA in the high school auditorium Tuesday afternoon at 3:30 o'clock.

A three-fold schedule of business meeting, program, and social hour will be followed.

Mrs. J. Howard Hodge will talk on "The Movies."

Mrs. Wilmer B. Stowe will present a reading, "Mary White."

All members of the PTA, especially-invited guests, and others interested are urged to be present.

PTA officials wish to make this meeting the largest of the year.

Dollar items will be featured at Allene's Gift Shop opening Tuesday. (Adv.)

The Dominion of Canada is larger than the United States proper and Alaska combined.

Real special on miniature finishing through April 4; ask us about it. Prothier Studio, phone 353. (Adv.)

With Home Demonstration Clubs

Pearl Wilson of Warfield and Helen Herrin of Stokes were selected to go to a meeting at Sterling City April 1 with Miss Alpha Lynn, county home demonstration agent, and Mrs. E. A. Livingston, chairman of the 4-H sponsors committee.

The girls were selected at a meeting which was held Saturday for 4-H club presidents of the county.

Stokes and Valley View clubs were represented.

The meeting at Sterling City will be a district 6 meeting to plan for a 4-H club show to be held in Lamesa late in August.

Helen Herrin and Bonnell Brunson were selected to assist an appointed member of the county home demonstration council to select the 4-H girl for 1938. Each club in the county will select its most outstanding club member of 1938 as contestant for the Gold Star honor.

Each county in the state will select a Gold Star girl for 1938.

BASEBALL FANS TO GET FIRST LOOK AT MIDLAND TEAM TODAY

Workout Slated At the Park by Manager Kerr

Midland baseball fans will get their first look at some of the youngsters that will make up this year's team this afternoon at two o'clock when Manager Jimmy Kerr will put them through a hitting and throwing workout at City Park.

Manager Kerr and 15 hopefuls arrived Friday night from East Texas, where most of the boys have been in training for the past three weeks. Most of the boys are in condition to start the season today but they must wait until the time from now until April 25 when league play starts.

Including Kerr, there are 19 players at the clubhouse now and a half-dozen others are expected to arrive this week. All will be given an opportunity to stick on the roster to 16 men by opening day. For ten days he will be allowed to carry two men, then get inside the playing limit of 14 players. Since Kerr will be a playing manager, it means that he will carry only 13 other players.

A possible indication of the style of play Kerr will advocate during the season is seen in the fact that nine of the 20 men under contract at the present time are listed as pitchers. Kerr will probably carry five infielders, three outfielders, including one gardener who can relieve him behind the bat, and five pitchers.

Most of the players signed by Kerr, while still youngsters, do not lack for size. Realizing that it is the big boys that have the most power at the bat, Kerr has picked the large ones where there was no outstanding difference in their play and that of smaller players.

It is possible but not definite that the players will be allowed to participate in an intra-squad game this afternoon. With a full month in which to get down to the playing limit, the manager wants to give every member of the squad a thorough chance to make the team. Snap decisions on the ability of any of the boys will not be necessary.

It was pointed out to the players by Kerr Saturday that not all of them could stick and he emphasized that the non-hustlers would be the first to go. Training rules for the next three weeks were issued by Kerr and players warned to obey them.

Players signed by Kerr who are already in camp include: Pitchers—John Steffin, right hander; Bernard McLaughlin, left hander; Flori Bartell, right hander; Harold Gross, right hander; Lee Snyder, right hander; Joe Murphy, right hander; Paul Peacock, left hander; Earl Patterson, right hander; infielders—Wm. Vlaske, first baseman, right handed all the way; Fred Pietras, second baseman, right hand thrower and batter; Bob Petrol, second baseman, throws right, bats left; Evert Deneff, third baseman, right handed all the way; Ellis Childers, short stop, right all the way; Sam Malvia, short stop, right all the way; outfielders—Walter Glowicki, right all the way; Lynn Everson, right all the way.

Signed contracts have been received from Joe Piet, Chicago, an infielder who plays any position on the infield; Virgil Burefield, a catcher-outfielder, and Jim Heffington, left hand twirler. Piet, a brother of Tony Piet, veteran major league infielder, has written that he was bringing along a younger brother to try out for the club.

Other players will also probably be reporting as Kerr has announced he is willing to look over any youngsters who think they have a chance to make the club.

Participate in Odessa Show

Above are pictured two of the drivers and midget cars that will participate in midget car races at the Odessa baseball park, located just off the old Odessa-Midland highway in the east part of town, next Sunday afternoon at 2 o'clock. In the picture above, the cameraman was on the job to catch Dude Gemoets crashing into Johnny Parker. Both drivers are entered in the Odessa show. Weighing between 600 and 1,000 pounds, the cars are raced at a speed of around 70 miles an hour and spills are frequent. Fifteen entries have been received for the Odessa show.

The PAYOFF

BY JESS RODGERS.

If pre-season interest in the Midland baseball club holds up during the coming season there is no doubt about whether or not the club will use more black than red ink. It will all be black.

It is extremely doubtful if there has ever been as much interest in a Midland club, even in mid-season, as there is at the present time.

Failure of the club to arrive here Thursday night—following announcement the club would be here—elicited more inquiries than usually comes after a football game. If the season were to open today Midland fans would be ready.

This afternoon will be the first chance to see a bunch of the boys that will be here all season. There won't be any admission to get in at the gate and "rail birds" are highly welcome to the preview.

Jimmy Kerr isn't predicting any pennants but he does avow he has some likely looking prospects on the club and some that will be heard from later. Main worry, of course, is over the pitching staff but Kerr feels that he is just about set for the year in that department. More than one of the flingers have been

Sports Editor, Midland Reporter-Telegram.

Please enter the name _____

_____ as my choice for the

Midland West Texas-New Mexico League team.

(Signed) _____

(Address) _____

showing plenty of talent.

A glance at the boys in "civies" makes one think the Yankees have come to town. Most of the boys are in the light heavyweight and heavy-weight divisions and appear able to throw or hit with a lot of power.

Charley Wilson, the business manager, has practically been raised in baseball and will be able to take a lot of worries off the shoulders of Kerr. Both are comparatively young and should be able to form a winning combination. Most of the boys on the club are from middle western and northern states and they really got an eye full of weather on the trip from East Texas to West Texas. From sultry Longview they ran into a rain and hailstorm at Colorado, then

Badminton Exhibition Slated With All-Star Basketball Game

Added interest in the Midland Drug-All Star basketball game here Wednesday night was created yesterday when officials announced four well known badminton players from Abilene Christian College would present demonstrations before the first game starts.

Professor Dowell of the college and Kendall Jones, runner-up in the state badminton singles last year and a member of the doubles team that copped the state title will probably appear in the first game.

Professor Dowell has also promised to bring two girl badminton players to participate in the demonstration here. The girls will take part in a singles match, then in a mixed doubles match with the teacher and Jones.

The first basketball game of the evening will start immediately after the badminton matches—at approximately 7:45. Participants will be members of the Petroleum Pharmacy and Gulf teams, plus nominees for the all star team who failed to receive enough votes to be numbered in the first nine.

Feature game of the evening will find the championship druggists meeting the all-stars. The game will start at approximately 8:30.

All money realized through the sale of tickets to the games will go to the Midland Athletic Association and will be used to help defray expenses of a fall training camp for members of the Midland high school.

Tickets are on sale now at the high school and by students of the school. Adult tickets are priced at 40 cents, student tickets 25 cents.

You are invited to the opening Tuesday of Allen's Gift Shop; special prices. Scharbauer Hotel, first door north KRLH. (Adv.)

Policeman in 44 Years Makes Just One Arrest

GRAFTON, Mass. (U.P.) — During his 44 years on the town police force, James (Uncle Jim) Harding, 71, has made only one arrest—and in that instance he himself paid the fine.

About 15 years ago the veteran officer nabbed a youthful Hollown celebrator who "was having himself a time" by smashing windows in a factory. The following day in district court, Uncle Jim paid the boy's fine and gave him a lecture.

London's Talking Clock Soon to Be Millionaire

LONDON. (U.P.) — Tim, London's talking clock, is now earning more than many movie stars. Telephone subscribers in London alone are paying \$450,000 a year for the privilege of hearing Tim's golden voice saying "At the third stroke it will be . . ."

Since its inauguration two years ago the mechanized voice has told the time more than 33,500,000 times.

Before long Tim's voice will be heard all over Great Britain. Already its success has led to services Glasgow and Manchester, being established in Edinburgh.

Indian Mounds Studied

CLEVELAND, O. (U.P.) — The Cleveland Archeological Society is studying the mounds of northern Ohio with the hope of finding a clue to the mystery of how the ancient mound builders were exterminated. The tribes lived in this section about 20,000 years ago.

Teaching Rookie Where to Put 'Em

Paul Kritchell, right, New York Yankee coach, explains the new canvas pitching target to Rookie George Washburn at St. Petersburg. The device is to help hurlers develop control. The two holes at the batter's shoulders and the two at the knees represent the corners. The fifth hole is in the center of the catcher's glove.

Swiss Guards Placed On German Border

BERNE, Switzerland, March 25. (U.P.) — Orders calling up frontier reserves to guard Switzerland's German border were executed swiftly today after the Swiss government announced all border posts would be reinforced.

Mines at tunnels and bridges and passes were being charged on all frontiers.

Hungarians, Slovaks Will Study Dispute

BUDAPEST, March 25. (U.P.) — The Hungarian government announced tonight Slovakia had accepted its proposal to send a commission to Budapest to settle the Slovak-Ruthenian frontier dispute.

15 Workmen Killed In French Avalanche

TOULOUSE, France, March 25. (U.P.) — Fifteen of the 50 workmen caught in an avalanche on the banks of Lake Isour, in the Pyrennes foothills, were reported today to have perished. Rescue squads reported saving 35 men.

MRS. FLOYD HOME Mrs. W. B. Floyd has returned from Mineral Wells where she spent several days.

ILL IN HOSPITAL

Thomas Barber is in a Midland hospital suffering from a ruptured appendix.

Greedy Bluejays Tricked With Counterfeit Nuts

MANCHESTER, Conn. (U.P.) — Republican registrar of votes Robert N. Veitch has solved the problem of preventing bluejays from stealing the peanuts he scatters in the yard each day for his pet squirrel.

Reds in If Pitching Means as Much as Critics Declare It Does in National

By HARRY GRAYSON
NEA Service Sports Editor

TAMPA.—If it is true that pitching is 75 per cent of baseball, the Cincinnati Reds have 125 per cent the best of it at the outset of the National League race.

With Lee Grissom a dead loss and Johnny Vander Meer out of it for a month, the Reds finished fourth in 1938, with a six-game margin blanketing the first four clubs.

Lefty Grissom again is making the ball look like a pea. The tall Californian gave the mighty Yankees just one measly hit the other afternoon.

But Vander Meer has been bothered this spring first by influenza, which had nine Redlegs down at one time, and then by an inflamed appendix. It was an ear infection that incapacitated the double no-hit hero last summer.

If Bill McKechnie can get all his highly-geared pitchers going together, it will be just too bad for the other selling platters making up the National League.

In addition to Grissom and Vander Meer, terrifying left-handers, the Reds have established stars in Paul Derringer, who bagged 21 games last trip, and Bucky Walters.

McKECHNIE HOLDS HOPES FOR ROOKIE BARRETT

Then they have pitchers of great potentialities in Lloyd Moore, Gene Schott, and Peaches Davis. Big Jim Weaver also is capable of hitting high spots.

Joining the imposing array is Charles Henry Barrett, red-headed right-hander who authored two victories in the Reds September drive after winning 16 games for Syracuse and topping the International League with an earned run average of 2.34.

Gene Thompson, who copped 16 games for Columbia of the Sally League last season, helped Whitey Moore hold the Brooklyn Dodgers hitless in an early exhibition game. The Reds have catching to match their pitching.

McKechnie gives huge Ernie Lombardi much credit for his staffs many low-hit pitching performances.

Township's Treasurer Takes Robin Hood Role

WINDSOR, Ont. (U.P.) — Aptly termed a "20th century Robin Hood," Robert Wales, 61, for four years Mersea township treasurer, pleaded guilty to taking \$7,229 from the township treasury.

Wales explained that he took the money to establish poor citizens on farms so they would not have to go on relief.

"What I did was not right from a legal standpoint, but it was right from a humane standpoint. I did time an Ellenville man as its personal use," Wales said.

Students Curb Jitterbugs

TOLEDO, O. (U.P.) — Reform has struck the students at the University of Toledo and, according to the students themselves, it's fun. Jitterbugs, strong drink and up-to-date hair dresses are taboo at El Abodo, new student night club, operated by students for students.

Real special on miniature finishing through April 4; ask us about it. Prothro Studio, phone 363. (Adv.)

Here Is Complete List of Names in Fans' Contest

Baseball fans, watch this list to see if anyone else has turned in the name you would give to the Midland nine in the West Texas-New Mexico League. This list will be added to as new names are submitted in the contest. (Entry blank for voting in the contest is printed elsewhere on this page.)

formances. The veteran Jimmy Wilson will be restored to the active list to assist the National League batting champion in back of the plate, and capable Willard Hersberger is around as the third man.

With Bill Werber covering more ground at third base than Lew Riggs, the infield is good enough. Werber will help the attack, too.

Deals like the ones sending Werber from the Athletics to the Reds and Zeke Bonura from the Senators to the Giants almost gives you the idea that there is a deliberate plan in the American League to bring the first division of the National up to its standard.

OUTFIELD SHAPES UP AS STRONG UNIT

Buck McCormick gives the Reds plenty of first basing and made more hits than any other athlete in the elder wheel last season.

Billy Myers at shortstop has one of the finest throwing arms in the game, and if Eddie Joost, up from Kansas City for a third trial, does-

n't make good at second, McKechnie can fall back on Linus Frey, who played that position satisfactorily.

The ancient Nolen Richardson an accomplished fielder is around to spell Myers. Another infield reservist with a menacing war club is Les Scarsella, the large Italian first sacker recalled from Newark.

In the outfield, speedy Harry Craft will be flanked by Wally Berger and the home-run hitting Ival Goodman. Lee Cramble and Frenchy Bordagaray are around as extra men, and Antonio Bongiovanni hit .321 for Syracuse.

Lefty Grissom, who appeared to be on his way to becoming one of the great pitchers, promises to stay hitless on the bases. It will be recalled that after soreness disappeared from his arm last summer, he broke his ankle attempting to steal for no reason at all.

McKechnie has impressed Grissom that the club purchased Bill Werber to steal bases.

Grissom and Werber easily can be the difference between fourth place and a world series.

"Moonlight and Roses" Choice of Dairy Cows

GLOUCESTER, Mass. (U.P.) — "Music for moody moo-ers" is the slogan at the Babson dairy farm.

At milking time, a radio in the cow-barn emits waltz music and hillbilly songs. The greatest inspiration to sometimes-lackadaisical cows is "Moonlight and Roses."

Pensively chewing their cud, the girls are put in a generous frame of mind by the soothing strains of violins.

Widow Beats Adversity As Sawmill Operator

HATTIESBURG, Miss. (U.P.) — Twenty-nine years ago, Mrs. Q. E. Hinton was left a widow with two small children when her husband was drowned attempting to break a log jam in the Bogalusa river.

The woman sawmill operator says that she is not interested in what happens in Hollywood or the new fangled hair styles. But she can look at a pine tree and tell you accurately how many feet of lumber it will yield.

Wife Preaches For Pastor
 SEATTLE (U.P.) — The Rev. J. Warren Hastings, pastor of the University Christian church, has an unusual solution to the problem of where to find a substitute when he must be out of town. Mrs. Hastings steps to the pulpit and preaches for him.

Church Pews Formerly Attached for Judgment

BOSTON. (U.P.) — Even church pews could be attached a century ago, the Historical Records Survey of the WPA reports.
 Back in 1846, a pew in the First Universalist Society, on Hanover Street, was attached to satisfy a claim brought against a member of the congregation.
 The attachment was discovered on the back of a writ found in the manuscript collection of the Universalist Historical Society at Tufts College.

Five seconds is the length of the average dream.

FEMININE FANCIES

By Kathleen Eiland

Minor temptations for the bud-get-minded; New shell necklaces; soft-colored spring sweaters; brownies, those delicious-looking squares of fudge-topped cake; every new perfume that merchants advertise; palest of pale pink nail polish; magazines that tell you how to develop a charming personality; movies with names that sound of the tropics; just any movie that features airplanes and fliers; novelty cottons and rayons that simply cry out for a needie and scissors.

Nets may seem a trifle pre-seasonal when one still wears a jacket outdoors, but we've just been reminded how sultry they are for summer by seeing an advance model for the warm days. The dress itself was of dark brown net but the jacket was of net that was striped in colors gay as a Roman holiday. This colorful jacket lighted up the somberness of tone and made the ensemble a pleasing one.

Their country may no longer offi-

cially exist, but the Czecho-Slovakians still have an exhibit at the Golden Gate International Exposition in California, we are told. Moreover they say they are going to keep it there, under the Czech flag, no matter if German officials do try to take it over.

Poor Czechs
We'd like to wake up a hundred or two hundred years from now, when the mists of prejudice have scattered, and read what the histories have to say of the events of the last year—what they say of Chamberlain, particularly a and his wishful conferences with Hitler.

Shannon Davidson, Matador cowboy who lived up to the tradition of Texans for getting things done by winning the Pony Express Rider race to Oakland, California, also lived up to the cowboy's reputation for being shy.

He blushed when Miss Enid Justin of Nocona kissed him on the cheek after presenting him with the \$750 prize money.

When some of the photographers missed the scene and asked her to repeat it, she kissed him again, three times. The cowboy kept right on blushing and when the fourth kiss was over his face was "fiery red," the sedate Associated Press report said.

After all, a little shyness does not come amiss in a man who can do what he sets out to do as Mr. David-

son has proved he can.
Maybe there's a girl back home and thought of what she'd say about those kisses was part of his embarrassment. There usually is a Girl-Back-Home, you know.

Announcements

MONDAY.
Circles of the Baptist WMU will meet for mission study Monday afternoon at 3:30 o'clock as follows: Glenn Walker circle with Mrs. John Hix, 102 South G street; Martha Holloway circle with Mrs. H. S. Collins, 511 W. Louisiana; Annie Barron circle with Mrs. J. M. White, 702 W. Storey; and Kara Scarborough circle with Mrs. Eula Mahoney, 614 W. Tennessee.

Methodist women's missionary society will meet Monday afternoon at 3:30 o'clock in circles as follows: Belle Bennett circle with Mrs. N. G. Cates, 610 N. Main; Mary Scharbauer circle with Mrs. Bill Wyche, 311 S. Main; Laura Haygood circle with Mrs. Ellis Conner, 301 N. Marienfeld; Young Women's circle with Mrs. Gene Reischman, 911 S. Main. Presbyterian auxiliary will meet at the church Monday afternoon at 3:30 o'clock for the monthly inspirational meeting.

Final Surrender of Madrid Slated Today

HENDAYE, France.—(At the Spanish Frontier) March 25. (P)—Final negotiations for surrender of Madrid to the Spanish nationalists and for peace in the 32-months-old Spanish civil war were said today to be nearly completed.

Some dispatches from both Burgos and Madrid, the nationalist and republican capitals, indicated a plan for the almost unconditional surrender was so far advanced Generalissimo Francisco Franco's troops might march into the besieged city today or tomorrow.

(The correspondent of the Rome newspaper Il Messaggero, on the Madrid front, forecast that Franco's troops would attack Madrid in full force "within the next few hours" unless attack orders already issued were countermanded).

According to advices reaching the frontier, terms of the surrender were simple.

The national defense council will remove all mines from fortified and civilian area, demobilize the republican army and publish a declaration recognizing the nationalist government as the only legitimate government of Spain.

Illustrated Bible Lectures Open Today

A series of pictured Bible lectures will begin Sunday night in the new Seventh-Day Adventist church, located on the corner at the intersection of West Pennsylvania and Lorraine.

Pastor Lee Carter will be assisted in the series of lectures by Harold Cullen, who has recently completed his college course at the Washington Missionary College, Washington, D. C. Mr. Cullen will also have charge of the music. Mr. Carter says that the public is invited to attend these meetings.

The subject for Sunday night is, "The Land of Eternal Peace." Song service will start at 7:45 and the lecture at 8 o'clock. To reach the church go south of the depot four blocks and then turn west one block.

Judy Zennick Sketches Anew

CLEVELAND, O. (P)—Judy Zennick, 21-year-old WPA artist who lost her left eye when she fell into the cage of a polar bear she was trying to draw, is continuing her sketching. The girl artist was clawed severely by Silver, giant polar bear at Cleveland's Brookside Zoo.

For Easter Parade

An Easter rabbit corsage of fragrant white carnations is shown on a chic twill suit with black shirt and ruffled jacket. A smaller bunny, also made of carnations, is on the large black patent leather bag.

Oil News--

picked top of anhydrite at 2,270; others had called it at 2,230.

Lovington Well Swabbing
The first five hours of swabbing through tubing failed to lower fluid below 1,500 feet from the top in Stanolind Oil & Gas Company No. 2-E State, latest prospect in the Lovington pool of Lea county, N. M.

The well also was reported showing a little gas. It is bottomed at 4,938 feet in lime, and 2 1/2-inch tubing is set at 4,936. Swabbing was still underway at last reports. No. 2-E State showed the thickest pay section of any well yet drilled in the pool, having logged porosity and saturation at intervals between 4,621 and 4,926 feet. It is in the center of the southeast of the northwest of section 1-17s-36e, a half-mile north of a producer.

Repollo Oil Company No. 2-A State, Lease No. 182, a quarter-mile north of the farthest east producer in the Lovington pool, spudded and is drilling below 250 feet in red rock.

Fred Turner, Jr. No. 1 Lea County State Bank, northeastern Lea wildcat 14 miles northeast of the town of Lovington, yesterday was reaming hole preparatory to running 10 3/4-inch casing, bottomed at 2,290 feet in anhydrite. It is said to have topped anhydrite at 2,190 feet, datum of plus 1,618, reportedly 72 feet low to a failure nearly seven miles to the northwest.

T. P. No. 15-A State, Account No. 2, short west outcrop to production in the South Eunice area of Lea, is drilling below 2,350 in anhydrite.

Shell No. 1 Harwood permit, southern Roosevelt county deep test two miles north of Milnesand, had drilled to 7,415 feet in lime and

Six Military Planes Land Here Saturday

Landings at Sloan Field Saturday included arrivals and departures of six military planes and departure of a seventh after an overnight stay. The latter plane was an O-47, flown by Pilot Walsh. It came from Biggs Field, El Paso, and left for Fort Sill, Oklahoma, Saturday morning.

Other ships arriving and departing were: A C-33, flown by Pilot Ertwine, coming from Tucson, Ariz., and going to Duncan Field, San Antonio; an O-47, commanded by Pilot Eaton, which came from Biggs Field and went to Hensley Field, Dallas; an O-47 under Pilot Boyd, who arrived from Biggs Field and went to Hensley Field; an O-46A flown by Pilot Gimble, who came from Brooks Field, and went to El Paso; an EC-1, commanded by Pilot Hill, from Hensley Field, en route to Biggs Field; and an O-47A, with Pilot Stockdale at the controls, which came from Biggs Field and went to Brooks Field, San Antonio.

Germany Moves to Pay for Conquests

BERLIN, March 25. (P).—Germany, with a unique plan of borrowing on the future, gave urgent attention today to paying for a year of conquests without battle.

Chancellor Hitler himself was resting from the strenuous activity he underwent the past ten days.

As one German phrased it, building of the Hitler empire—by acquisition since last March of Austria, Sudetenland, Bohemia, Moravia and Memelland, the fathering of Slovakia and the far-reaching Rumanian economic treaty—put "great problems" before those who shape Germany's financial policy.

The scheme evolved yesterday, in order to release cash provided for payment of all federal, state, municipal, postal service, federal railway and highway orders on a 60-40 basis—60 per cent in cash and 40 per cent in non-interest bearing "tax credit" bills.

The bills are to be used to pay off future taxes—one type of draft after seven months, the other after three years. The possibility exists

of 4,200, and was acidized with 2,500 gallons.

M. B. K. Drilling Company No. 1-B John M. Gist, Ector test a quarter-mile north of the easternmost Foster pool producer, is under-reaming 10-inch pipe, bottomed at 1,440 feet in red beds.

anhydrite streaked with red shale.

Dansby Well at 1,970

Ben Dansby, Jr. No. 1 L. C. Lessenrich, closely watched wildcat in northern Pecos, yesterday noon was drilling at 1,970 feet in hard brown lime. It is in section 45, block 3, H. & G. N. survey.

Seeking Ordovician production in the Masterson pool of Pecos, Anderson-Prichard Oil Corporation and Monte Warner No. 1 M. I. Masterson was reported drilling in the shallow pay horizon of the pool, at approximately 1,400 feet. The well is being drilled "tight," it is reported.

British American No. 13 Payton, on the Pecos side of the Payton pool of Ward-Pecos, flowed 184.01 barrels on 24-hour gauge after shooting with 78 quarts in pay sand from 1,899 to 2,074, the total depth. Oil is 36.3-gravity and gas-oil ratio 810-1.

Crockett's Ordovician wildcat, Humble No. 1 Ozona-Barnhart Trap Company, is drilling below 5,943 feet.

In the Ordovician area of western Crane, Gulf No. 10 Waddell is drilling below 5,778 feet in lime and is scheduled to start coring Monday. Gulf No. 16 Tubb, which has reached 5,547 in lime, also will start coring on that day. Sinclair-Prairie Oil Company at No. 3 Tubb-Community had progressed to 4,236 in lime. Farther northeast, Gulf No. 5 McKnight, deep Permian test, is drilling below 3,077 in lime.

In the Dune pool, eastern Crane, Magnolia No. 3-6 University is drilling below 1,590 feet in anhydrite and salt.

Emperor Outpost Resumes.

C. V. Lyman, of Midland, announced yesterday that his No. 1 Brown-Altman, short east outcrop to the Emperor pool of southern Winkler, had finished rigging up standard tools and was drilling plug from 7-inch casing set at 2,748 feet.

In the lime production area of Winkler's Keystone pool, Richardson No. 2 Bashara flowed 367 barrels of 36.1-gravity oil daily following 245-quart shot at 3,400 feet. Gas-oil ratio was 1,500-1.

Conoco No. 1 Munger, Borden wildcat nine miles south of Gail, is drilling unchanged at 3,225 feet in lime.

Moore Brothers No. 7-A O'Daniel, in the Snyder pool of eastern Howard, pumped 303.60 barrels of oil in 24 hours for completion at 2,812 feet. It has gas-oil ratio of 475-1, and oil tests 30-gravity. Pay topped at 2,590 received shot with 600 quarts.

Fuhrman Test Staked.
New location for the west edge of the Fuhrman pool in southern Andrews is Fuhrman Petroleum Corporation No. 16 W. T. Ford, 2,310 feet from the north and west lines of section 20, block A-42, public school land. It is slated to start drilling with rotary immediately.

Osage No. 1 University, in the north part of the Emma pool of extreme southern Andrews, is drilling below 1,000 feet in red beds, while Sinclair-Prairie No. 5 Mrs. Emma Cowden, east side test, is standing after cementing 7-inch casing on bottom at 4,130 feet with 200 sacks. It will rig up cable tools to drill into the pay.

Magnolia No. 1 TXL, northwestern Ector wildcat, cemented 10 3/4-inch casing on bottom at 341 feet in red rock and is waiting for cement to set. Farther southeast, in the Goldsmith pool, Landreth Production Corporation No. 4—P. Clarence Scharbauer rated potential of 397 barrels of 37-gravity oil per day, with gas-oil ratio of 634-1. It topped pay at 4,165, reached total depth

Collins Selected As Lions Official

Bill Collins, president of the Midland Lions club, yesterday received notification from Omar Burleson, Governor of District Two-T, Lions International, that he had been appointed as a member of the resolutions committee for the annual District Two-T Lions convention in El Paso, May 5-7. Other members of the committee are: J. P. Pond, Big Spring, chairman; V. H. Moore, Lubbock; Dr. Green, Crosbyton, and D. A. McClatchy, Wink.

Cause of Cavalier Disaster Is Found

WASHINGTON, March 25. (P)—Carburetor trouble, on account of icing, caused the loss at sea Jan. 21 of the Imperial Airways boat, Cavalier, Wing Commander Brown, chief inspector of accidents of the British air ministry, reported today.

The Cavalier sank after a forced descent about 285 miles southeast of Long Island, New York, on a flight to Bermuda. Two passengers and one crew member lost their lives.

Parts Assigned Students in Play "Spring Dance"; Rehearsal Monday

Jessa Lynn Tuttle and John Turner have been cast by Mrs. Bob Johnston in the leading parts of the senior play, "Spring Dance," which goes into rehearsal Monday night. John has starred in several one act plays presented in assembly this year and Jessa Lynn, though better known as a singer, had a part in "Growing Pains," last year's junior play.

The girls in the cast include veterans of the high school stage: Freda Fae Turner, who has won honors in League Dramatic Contests and who has appeared in one-act plays and in the junior play last year; Jeanne Davis, remembered in the comic part of "Growing Pains" in '33; Julianan Cowden, the sister in "The Tangled Web"; Joyce Beauchamp, district winner as a junior declaimer in '36; Barbara Harper and Kitty Gene Ellis, both members of the "Growing Pains" cast.

The experienced players among the boys in the cast are: Fred Gordon Middleton, outstanding comedy

Students to Compete in Latin Tourney at Lamesa, April 1

On Saturday, April 1, Miss Ina Mae Vaughn, Latin teacher, will accompany her contestants to Lamesa where the annual district Latin tournament is to be held.

Those entering the Latin contests from Midland are: Elma Jean Noble and Hilda Vogel, first year Latin; Kenneth Williams and Roger Sitwell, second year Latin; and Billy Noble and Donald Griffin, 4th year Latin. They are all strong teams, however, Miss Vaughn states that her greatest expectations are for the first and fourth year teams.

The schools entering the contest are Lubbock, Slaton, San Angelo, junior high, San Angelo senior high, Big Spring, Eagle Pass, Lamesa and Midland. All of these schools have very strong teams; however, Miss Vaughn, says she expects the strongest opposition from Eagle Pass.

The tournament, which is in the nature of examinations, also includes essay contests in which one student from each year in high school may compete. The subjects are taken from Roman and Greek customs and, myths, government, culture, and many other things peculiar to them.

Three essay writers, there being none for third year, will represent the Latin classes from Midland. For first year, Elma Jean Noble; second year, Virginia Ford; and writing for fourth year, Julianan Cowden.

These have already written their essays and have sent them in to be judged so that it will not be necessary for them to attend the tournament itself.

Hejl, Ford Enter Track Meet at El Paso Sat.

Goodrich Hejl and "Rocky" Ford were chosen by Coach Taylor to compete in an invitational track meet held in El Paso last Saturday morning at 10:30 o'clock.

Both boys have been working hard all season and have added much to the track team this year.

Goodrich entered the 880 yard dash, and "Rocky" competed in the mile run.

The El Paso meet is one of the highlights of the track season and is looked forward to by every boy interested in track in this section of the country. This meet boasts of having the best athletes both professional and amateur of any track meet held in Texas. The meet was held in the Sun Bowl stadium.

Lanham Places First in Tennis Tournament

In a round robin tennis tournament held here the past two weeks, Wayne Lanham came through as the undefeated winner. This tournament was to select the four top singles players who will play again next week to see who will represent Midland in the district meet, April 14 and 15.

The eight players and their standings are as follows:

	Won	Lost
Wayne Lanham	7	0
Horace Brown	1	1
Duffey Stanley	4	3
Cedric Ferguson	3	3
Jack Simpson	3	4
Bobby Walker	2	4
Marvin Park	2	5
Bobby York	0	7

One more match, between Cedric Ferguson and Bobby Walker is to be played. In case Bobby wins over Cedric there will be a three way tie between Cedric, Bobby and Jack Simpson for fourth place, making it necessary for those three boys to play again. But if Cedric wins the winning boys will be Wayne, Horace, Duffey and Cedric.

The top four players will meet again the last part of next week in order to decide who will represent Midland in singles in the League contest.

Midland Band Awarded Third Place in Odessa Marching Contest

Fifty band members, the five twirlers, Fred Gordon Middleton, drum major, and Odessa M. A. Armstrong went to Odessa Friday morning to compete with other bands of West Texas in a marching contest in connection with the Odessa Fat Stock Show, the local band winning third place. Fred Gordon Middleton tied for second place in the drum major contest.

The Kermit band took first place. Monahans, second, and Midland was adjudged third. However, the lowest grade was on uniforms which were graded 80 per cent.

All grading was based on a possible 100 per cent. Midland made 95 per cent in seven requirements, 92 per cent in one, 98 per cent in cadence, and 80 per cent in appearance which was brought down on account of uniforms.

Had the rating been based on national requirements all three bands would have fallen in class A.

Ex-Student News

Clark Leggett, an ex-Midland high school boy, has transferred his studies from Texas Tech to T. C. U.

George Watford spent the week-end in Midland with his family.

Mrs. Addison Whitworth, the former Neva Rea Drake, and a graduate of '38, has moved to Odessa.

Russell Wright was home from N. M. I. last week-end.

Betty Morrow, former student of Midland high, is now attending school in Big Spring.

Foreign Food, Dress Is Topic of Talk By Miss Carden

Miss Ruth Carden, who traveled with Miss Annie Frank Stout in Europe last summer, gave a talk to the Home Economic club Tuesday at their regular meeting on "Foods and Dress in Foreign Lands."

Miss Carden began her very interesting talk by telling the number of meals served a day, which was six on the ship going across. "Of course," she expected, "We didn't get down to all of them." A light breakfast was served a heavy lunch, coffee at four o'clock, dinner at six, and coffee and sandwiches at 10 p. m. The farewell dinner, given just before the ship landed, was elaborate and delicious. A beautiful doll was given to the one finding a silver horse (miniature one of course) in his or her ice cream, which was the dessert served; neither Miss Carden nor Miss Stout was lucky enough to be the winner.

In discussing the foods of England, Miss Carden said that she was served, contrary to the popular belief, with excellent food at Cambridge. The English always serve a fish course at lunch and dinner, supplemented by roast, lamb, or other meats. Too, potatoes, boiled and served with no seasoning, was a dish at both lunch and dinner. For desserts, puddings rank first, topped with sauce, and sometimes flavored with brandy.

The English women, Miss Carden thinks, are poor dressers, often looking drab; however, the men are always immaculately and correctly dressed, usually wearing silk top hats and flowers on their coat lapels.

Holland, cheese—good cheese, is served at breakfast, with some kind of sweet bread resembling our fruit cake. Switzerland, too, is famous for the good cheese it serves; after the desert is finished, cheese is served in huge slices, according to the kind the customer desires. The Italian spaghetti, long and stringy, served with a sauce and grated cheese, was most difficult to eat, Miss Carden related, until they became accustomed to it.

Probably the best food encountered during the entire trip was in Paris, France; the food there is similar to American food, but customers are not served with water (the Frenchmen drink wine with their meals) unless they request it, and when it arrives it often appears unsanitary.

In Germany because fruit was rather scarce, Miss Carden had a trying experience when she made an effort to purchase some of same. She saw a large cluster of purple grapes on a fruit stand that was conducted by a German woman who did not and could not speak English just as Miss Carden could not speak German. However, an understanding was finally reached where Miss Carden would purchase the grapes for 40 cents, but also, when she drew out her money to pay the woman she demanded 90 cents. Miss Carden bought the grapes, but learned her lesson; do not buy fruit in Germany.

In some of the small obscure villages in Holland, a few of the inhabitants still wear the native dress, including the white caps and wooden shoes. Also, in Switzerland and Bavaria some native costumes, such as the shorts, leather jackets, and Alpine hats for men, and the full gathered skirts with a velvet basque were worn.

In conclusion, Miss Carden remarked that the smartest dressed people were seen in Rome and the summer resorts along the Mediterranean Sea, and that an American can be distinguished in Europe by the shoes and hose which are much better than those manufactured in Europe.

Entertainments, Clubs Hold Spot Light Of Social Whirl

The Gata Afa Tah club gave a surprise birthday party for Joyce Beauchamp, now seventeen, at the home of Jane Bounds, Wednesday night. They discussed club affairs and served cake and pineapple juice. Those present were Joyce Beauchamp, Nina Stovall, Margaret Murray, Dorothy Mauldin, and the hostess.

P. E. P. Club Has Weiner Roast

The Phi Epsilon Phi club entertained their dates Friday with a hayride to Cloverdale, where they had a weiner roast. Those present were Jessa Lynn Tuttle and John Turner, Freda Fae Turner and Bobby Walker, Jeanne Davis and Jack Nobles, Barbara Jean Harper and Johnny Dublin, Julianan Cowden and Elbert Leggett, Jean Bedford and Roy Terry, Doris Sue Miles and Harry Sindorf, Mary Lee Cowden and J. M. White, Geraldine Griffith and Paul Anderson. Mr. and Mrs. L. G. Lewis were chaperones.

Miss Smith Entertains Guest

Miss Merle Smith entertained her guest, Miss Lura Lee Hawk, home economics teacher at Brownwood, with a bridge party Friday night. The guests were Misses Jo Hestand, Ruth Carden, Iva Butler, Sudie Muirhead, Tommie French, Helen Miley, Gladys Plun, Theresa Klaproth, Jean Logan, Mrs. De Lo Douglas, Mrs. Neibhur, and Mrs. P. M. Gist.

V. R. V. Picnics at Cloverdale

V. R. V., a popular freshman club, gave a picnic at Cloverdale, Friday evening, and each member invited a boy. Those present were as follows: Elma Jean Noble and Bill Summy, Margaret Ann West and Grady Jennings, Charlotte Kimsey and Hugh Corrigan, Frances Ellen Link and Gene Estes, Hilda Vogel and Joe Haygood, Mary Lee Sindorf, Frances Braselton and Pat Corbett, Marilyn Sidwell, Doris Jean Shockey and Gerald Noble, Emily Kathryn Francis.

DIFFERENT

from all others

The **SERVEL** ELECTROLUX Gas Refrigerator

IT'S PERMANENTLY SILENT because it has no moving parts in its freezing system

Since the Servel Electrolux refrigerator operates on gas, a single burner takes the place of moving, wearing parts . . . a tiny flame circulates the refrigerant, without wear or noise.

These are important advantages in themselves, but equally important are the other results that you get in refrigeration freezing without moving parts . . . the fact that the low operating cost is never increased, that Servel gives you more years of service, and actually can save enough in food alone to pay for itself.

Ask your friends and neighbors who own Servels what they think of gas refrigeration . . . then, before you decide on any make, get all the facts about Servel Electrolux "the gas refrigerator you hear about but never hear!"

YOU GET these advantages:

- ▶ NO MOVING PARTS in its freezing system
- ▶ PERMANENT SILENCE
- ▶ CONTINUED LOW OPERATING COST
- ▶ MORE YEARS OF DEPENDABLE SERVICE
- ▶ SAVINGS THAT PAY FOR IT

COX GARAGE

201 East Wall—Phone 454—Midland

Cheerful Cherubs

It looks as if the same arrow shot Jessa Lynn and John. The seniors and freshmen were well mixed at the supposedly exclusive picnics of two clubs.

Johnny and Bobby are back from the city very little changed after a hayride with cute cowgirls and city "gals."

All boys who have dated Patty Griswold lately had better beware. She has the mumps.

Did lipstick disappear Thursday or was it just the senior girls taking a dare? At any rate Barbara Jean made the boys eat their words and then quickly hid behind the mask.

We really think Julianan might accept a date nowadays being as she asked Elbert for one Friday night for the picnic given by the P. E. P.

It is said that in the Mary Lou Pat crack-up, Mary Lou has named Margie as correspondent.

"Seabiscuit" Ford got enurely too fast for Mrs. Douglas during Glee Club practice Thursday morning.

It seems that sophs will go with sophs. At least it's that way with Marjorie Ann and Russell Wright!

The boys changed their minds about lipstick when some of the senior girls came without it Thursday. One boy has decided he won't ever marry because it would disillusion him to see his wife before breakfast.

"Loves me?" "Loves me not?" has become Sudy's theme song. Which is it, J. M.?

Jane Lamar, Joyce Strong and Kathryn Francis.

Hand-Ball Tourney Reaches Semi-Finals; To Continue Monday

Members of Mr. Myer's fourth period physical education class have reached the semi-finals in a hand-ball contest to pick a class representative who will later compete against representatives from the sixth and seventh period classes in a winner's tournament. Elimination contests in the other two classes will start Monday.

In the first eliminations Stookey defeated Standley 11-0, 11-0; Summy drew a bye; Bucks whipped Alsobrooke 11-0, 11-0; Roberts defeated McCormick 11-4, 11-0; Cledemen defeated Hall 11-0, 11-6; Nobles drew a bye; Brown defeated Bratton 11-5, 11-4; Lester defeated Schabauer 11-3, 11-7; Anderson defeated Smelling 11-10, 11-7; Sidwell drew a bye; Williams won 11-3, 11-1; Davis defeated Norman 11-0, 11-3; Wald picked a bye; Kelly defeated Turpin 11-3, 6-11, 11-3; C. Smith smacked Culberson 11-10, 11-6; Simpson defeated D. Smith 11-4, 11-7.

In the second eliminations Stookey defeated Summy 11-2, 11-6; Roberts defeated Burks 11-7, 11-9; Cledemen defeated Nobles, forfeit; Lester defeated Brown 11-4, 0-11, 11-6; Anderson defeated Sidwell 11-4, 11-2; Davis defeated Williams 11-7, 11-5; Kelly was defeated by Smith 10-11, 9-11.

The semi-finals will be played Monday, March 29. Those in the semi-finals are Stookey-Lester; Anderson-Smith. The winners of this class will play the winners of the other classes.

And L. M. Freels. The cast is now memorizing the script. The same procedure as was used successfully last year has been planned for this year. The parts will be thoroughly memorized before rehearsals start, and the play will be in rehearsal only one week.

"The Youngest" will be presented the latter part of April.

Another play, "The Youngest," by Philip Barry has been substituted for "The Torchbearers" formerly chosen for this year's faculty play, Mrs. Bob Johnston, director, states.

The cast for the three-act comedy includes Misses Freda Yarbrough, Louise Latham, Pauline Murray, Madeline Hagler, and Ruth Anderson, and Messrs. M. A. Armstrong, Bob Myer, Frank Lambert,

Personals

Barbara Jean Harper was absent from school Monday because of illness.

Cleo Tidwell was out of school due to a severe cold.

Joyce Beauchamp spent the week-end in San Angelo.

Jim Turpin is out of school due to illness.

Helen Armstrong was absent last week with a cold.

Juliana Cowden was absent from school Monday.

Coach Taylor spent last week visiting schools to prepare for football training.

Patty Griswold was absent from school with the mumps.

Billie Rene Spaulding returned to school Wednesday after missing several weeks due to a case of influenza.

James Frank Johnson hurt his leg at football practice Wednesday afternoon.

Jay Francis was absent from school Wednesday because of illness.

Eula Ann Tolbert was absent from school Tuesday because of illness.

This Week's Special

Charlie Dodson, who was recently chosen senior favorite, was born in Stephenville, Texas. He moved to Midland in 1934, his freshman year. Charlie is an ardent basketball fan, and as he displayed to us this year, is an excellent basketball player. His favorite food is any kind of good meat and he has a tremendous aversion for spinach and lup (See SCHOOL NEWS, page 9)

Midland High Day by Day

I never took it upon myself to be an advertising agent, it's a good business sometimes, especially if you are trying to sell Florida to tourists by photographing bathing beauties in night clubs and then going on and oh—oh, yes, I once tried to sell myself on the idea of going fishing but I just couldn't be hooked. That was when I was a "fish."

A good salesman is always polite to his customers, even on the road, I don't mean he tips his hat to them, why even the other day I overheard one salesman talking to a naturally brown-haired, recently turned black, young prospect during a vicious standstill. Dust was in the sand.

Courteously he said, "Madam, have you gotten any sand or dust in your hair yet?"

"Not yet," replied the one with locks of pure Pennsylvania coal.

"Well, if you do, you had better have it Simonized."

Back to my original subject, I never took it upon myself to be an advertising agent, (just ask Dorothy Sue) but I will say this—that you have signed up for an annual and you who would like to get one can pay the money for same before April 1 and save 50c; and to a newspaper man that is a lot of money. Before April 1, you have the chance to pay only \$2.50 instead of \$3.00 regular cost of the annual.

The way John Dublin, Bobby Walker, and Bobby Martin looked after they returned from their trip to Fort Worth and Dallas, where they visited every thing worth seeing except the Fat Stock Show, they certainly must have had a rip-roaring time of it. Johnny looked like a hangerover with capital letters even till Tuesday, but, after all, lessons are pretty hard to get.—But Bobby Walker was back in the running pretty quick, kidding Miss Carden as usual.

Somebody said that Miss Carden's name didn't get in the high school news enough, so I decided I would mention it. Of course, since she reads the copy, the articles couldn't say much about her extra-curricula activities.

Classified Ads
WANTED: A new place for the freshmen to picnic so they won't conflict with the seniors.

FOR SALE: A good M. O. S. book; that senior English is really getting hard.

FOUND: A senior play cast. Most every part has an understudy. That's something different.

STRAYED: But not far, Is Bobby really going to be true to Jean Walpole or is it a line he has?

WANTED: Some guy that is brazen enough (such as John Dublin) to tell some girls how they look without any make-up.

WANTED: A new place for Skippy (King and certain other parties) to dance besides the corner of Missouri street.

Practice Debates Scheduled Between Girls, Boys Teams Monday Night, 7:30

Mrs. Bob Johnston has announced that a practice debate will be given between the boys debating team, Jim McHargue and Bill Ferguson, and the girls debating team, Elinor Hedrick and Lois Mae Lynch, on Monday, March 27, at 7:30 p. m. in room 109 at the high school. Cedric Ferguson will act as chairman.

The question for debate is the Retail Sales Tax.

The debate is open to the public.

Junior Eng. Students Turn Poets—Compose Original Sonnets

The Junior English classes of '38-39 have just completed writing sonnets. After studying the two types of sonnets, English and Italian, the number of lines in a sonnet, and the rhyme scheme of it, the juniors under the direction of Miss Nonene Kirby were informed that they were to write a sonnet on anything and about anything they wished. The general reaction of the class was that they were pleased and the students found the work very interesting, according to Miss Kirby. The following sonnets were the ones that Miss Kirby considered the best after reading half of the sonnets.

MY HOME

By Lois May Lynch

I took my savings, though they were so small,
 And bought a little house upon a hill.
 Where Heaven is close, and all the earth is still.
 These lovely things I paid for not at all:

The blooming flowers, and trees which grow so tall,
 The sweet bird songs, which seem my heart to fill
 With music, which no care or fear can kill.
 All these I have within my garden wall.

Let all who come to see my lovely place
 Find courage, and new hope, and friendliness,
 Find peace, and rest from troubles large or small.
 For here we find no money-madened race,
 But Nature at her best; you must confess
 On things God gave, He put no price at all.

LIFE IS STRIFE

By Frank Wade Arrington

As on there came the men in suits of gray
 Straight to the bulwark of the Union force,
 With strength they charged on their uncertain course,
 What strength had they, these men, that August day;

Although defeat came swift along their way
 With courage high from an undying source
 These men came back to overthrow this force,
 And proved that strength of mind will win the way.

Just as the pain and cares of life do come,
 As do the joy and joyful things befall
 All those belonging to the human race,
 As dreams and hope and strength are gained by some,

So in your life let this be said by all
 That you were never one of common place.

BE YOUR OWN CHEMIST
 As does the chemist from his shelf take down
 The substances with which to do his toil,
 And tries to rise above the great turmoil

Of ignorance, to see what may be found,
 As does he from his many shelves around
 Take down the implements with which to boil
 And render: failure does not ever fail,

And his good works surrounding as abound.
 Take from your worldly opportunity
 The chemicals with which to do your life,
 Take from your heritage the implement

With which to mix so very carefully
 The materials to build against the strife,
 A substance, lasting, useful, like cement.

Putting a Famous Umbrella to Work

Now Mr. Chamberlain's umbrella covers a new dancing fad. Here's a demonstration, executed by Mardi Gras celebrators at Rouen, France. Idea: the umbrella man can book his favorite partner with the bumbershoot—in which case, the girl just can't refuse.

School News—

(Continued from page 8)

stick. Ice tea is Charlie's most enjoyable beverage.

As a past-time Charlie likes to see a good picture show or just "doodle" around. His hobbies are collecting pictures of girls and "buying good looking clothes." He also likes to collect basketball premiums, both for himself and for the school.

When asked what he disliked for a girl to do most he answered, "I hate for a girl to talk to other boys when she is with me." He likes for a girl to be a good conversationalist, and prefers brunets with brown or black eyes. He doesn't like to go with girls taller than he is, and doesn't like to go steady.

History is Charlie's favorite subject and he plans to major in it in a junior college. His ambition is to be a professional basketball player and from the looks of things at present, Charlie will some day reach his ambition.

Bargain Rates on Annual Remain at \$2.50 Only Until March 31

Whether you pay \$2.50 or \$3.00 for your "Catoico" this year is strictly up to you. Of course the annual is well worth \$3.00 or more but then to save 50 cents is nothing to laugh about, and I don't mean maybe! The drive, to sell more annuals is definitely to your advantage and not ours, so why not cooperate and buy one now!!!

The 1939 "Catoico" is a change from the former conventional type annual; therefore, you have a surprise, and may I say a pleasant one, in store for you. Practically every student in Midland high school is represented in the immense candid snapshot section, not to mention the collection of portraits and action pictures. Sport pictures and class pictures are also profuse.

Take a tip from the staff and the business committee—the Catoico will be good, so buy one now. The

Soda Jerking Denied Status as Vocation

PITTSBURGH (U.P.)—The Pittsburgh board of education doesn't recognize soda jerking as a vocation, hence, future mixer-uppers will not be able to display a diploma as proof of their technical ability to whip up a double frosted malted chocolate.

The decision to keep soda jerking outside the realm of trades occupied by bricklaying and plumbing was made by the board when it was asked to appropriate \$14,555 to equip a soda fountain classroom in the city's new vocational school, soda jerking class an unnecessary "frill" when they turned thumbs down on the appropriation.

Thief Traps Himself While Eating Turkey

CLEVELAND, O. (U.P.)—His taste for turkey led to the arrest of Charles Calloway, 26. Calloway couldn't resist eating turkey tidbits from a bar because of \$75 in merchandise. Consequently, he left a greasy fingerprint on a cigarette machine.

Captured while trying to enter another place, his prints were found to match the one on the vending machine.

Calloway talked turkey with the judge, admitting everything, including taking home with him what remained of the 16-pound turkey.

Australia Will Have Its First Dude Ranch

SYDNEY, Australia (U.P.)—Australia is to have its first dude ranch, Lance Skuthorne, champion Australian bronco buster, will sponsor the new venture.

All visiting dudes to the ranch will be required to dress as cowboys or cowgirls, choose their own mounts and engage in an active ranch life.

price after April 1 will be \$3.00. Jeanne Davis, Editor of "Catoico."

Approval of 15 WPA Projects Announced By State Officials

SAN ANTONIO.—Approval of fifteen Works Progress Administration projects, involving expenditures of \$247,872 in Federal funds and \$115,426 supplied by local governmental agencies, was announced today by Stearns S. Tucker, deputy state administrator.

Projects approved, with amount of Federal funds, sponsors' and number of workers to be employed, follow:

BELL COUNTY

HOLLAND. — Gravel streets throughout city; Federal funds, \$10,855; sponsor's funds, \$4,740; workers, 54.

BEXAR COUNTY

SAN ANTONIO.—Asphalt streets throughout Alamo Heights; construct 34,175 feet of concrete curbs and gutters; Federal funds, \$21,070; sponsor's funds, \$9,559; workers, 67.

—Clean, grub, drain, grade, gravel streets through Pasadena Heights subdivision; Federal funds, \$15,740; sponsor's funds, \$6,878; workers, 59.

CALDWELL COUNTY

LOCKHART. — Grade, fill and resod golf course at Lockhart State Park, and construct service drive; Federal funds, \$6,217; sponsor's funds, \$3,250; workers, 27.

HARDEMAN COUNTY

COUNTY. — Clear, grub, fence, drain, grade, gravel 29.7 miles of farm-to-market roads in Precinct 3; Federal funds, \$22,427; sponsor's funds, \$16,939; workers, 86.

HOUSTON COUNTY

WELDON. — Construct school gymnasium, tennis and volley ball courts, playground equipment, fences and flagpole; Federal funds, \$18,084; sponsor's funds, \$6,301; workers, 45.

HOWARD COUNTY

BIG SPRING. — Grade, drain and landscape grounds of Big Spring State Hospital; Federal funds, \$6,252; sponsor's funds, \$2,292; workers, 79.

JEFFERSON COUNTY

BEAUMONT. — Malaria control by drainage of swamps, ponds and low place throughout city to eliminate mosquitoes; Federal funds, \$29,818; sponsor's funds, \$11,738; workers, 92.

LAMAR COUNTY

COUNTY. — Clear, grub, drain, grade, asphalt 6 miles of Blossom-Fairfax Road; Federal funds, \$24,026; sponsor's funds, \$7,476; workers, 124.

LIMESTONE COUNTY

COUNTY. — Clear, grub, fence, drain, grade, clay-surface Kosse-Headsville Road; Federal funds, \$9,998; sponsor's funds, \$4,811; workers, 40.

MATAGORDA COUNTY

COUNTY. — Drain, grade, shell surface 1.06 miles of farm-to-market road near Wadsworth in Precinct 2; Federal funds, \$3,253; sponsor's funds, \$1,280; workers, 29.

MONTAGUE COUNTY

MONTAGUE. — Asphalt court-house square; construct walks, and landscape grounds; Federal funds, \$14,814; sponsor's funds, \$3,705; workers, 71.

SAN SABA COUNTY

COUNTY. — Clear, grub, fence, drain, grade, gravel farm-to-market roads throughout Precinct 3; Federal funds, \$42,798; sponsor's funds, \$21,649; workers, 126.

TRINITY COUNTY

COUNTY. — Construct drainage structures on farm-to-market roads in Precinct 3; Federal funds, \$5,175; sponsor's funds, \$2,338; workers, 33.

WILLIAMSON COUNTY

Elimination of unsanitary devices in rural and suburban areas where sewer systems are impractical; Federal funds, \$17,395; sponsor's funds, \$12,470; workers, 43.

Midland and Odessa One-Act Players Win University Trophy

On March 23 at Texas University, the one act play entry of the Midland-Odessa Club was awarded the winning trophy. This is the first time in the history of the Inter-City Council One Act Play Contest, that an entry from one of the smaller clubs has been awarded the victory cup. Dallas has been the winner of the cup many times. The play was "George," an ultra modern one-act farce by Van H. Cartmel.

The scene of the play was a summer house on Cape Cod. The cast included three persons who took an active part in the public speaking activities of Midland high school. They were Anna Beth Bedford who played the part of Elizabeth. She gave her role the interpretation of a Billie Burke characterization. Miss Bedford was given much praise by all who saw the play presented. La Moine Sindorf played the role of Sue, a sophisticated young society woman who never failed to say exactly what she thought regardless of the consequences. Miss Sindorf was commended particularly for her fine stage presence. C. A. Goldsmith played the title role of George. He made George a decided Englishman

What Price this Glory? Less than You Think!

The model illustrated is the Buick SPECIAL model 41 four-door touring sedan \$996 delivered at Flint, Mich.*

YES, it looks like a million—and if you've ever put hand to this brisk beauty's wheel, you know that it handles and travels and behaves the same way!

And it rides like a cloud, serene and buoyant, with the rough road's hard realities gentled by the "full float" action of Buick Coil Springing.

It's roomy too—and open to the light and the air and the view; it's fitted throughout with the convenient thoughtfulness you might expect in a custom-built job.

But is this trim Buick the premium-priced package you might expect just from looking at it? Quite the opposite!

ONLY BUICK HAS IT! This sure-fire direction signal that flashes warnings of turns at a flip of a switch! Shows day or night. Standard on all models!

NO OTHER CAR IN THE WORLD HAS ALL THESE FEATURES

- ★ DYNAFLASH VALVE-IN-HEAD STRAIGHT-EIGHT ENGINE
- ★ BUICOIL TORQUE-FREE SPRINGING
- ★ GREATER VISIBILITY
- ★ HANDSHIFTS TRANSMISSION
- ★ ROOMIER UNISTEEL BODY BY FISHER
- ★ TORQUE-TUBE DRIVE
- ★ TIPTOE HYDRAULIC BRAKES
- ★ CROWN SPRING CLUTCH
- ★ "CATWALK-COOLING"
- ★ OPTIONAL REAR AXLE GEAR RATIOS
- ★ FLASH-WAY DIRECTION SIGNAL
- ★ SELF-BANKING KNEE-ACTION FRONT SPRINGING

When better automobiles are built Buick will build them

This year you can drive a great straight-eight—a Dynafash straight-eight with gas-saving cyclones in each cylinder—for actually less than some sixes would cost!

This year you can ride in Buick's staunch steadiness—at lower cost than prevailed even a year ago.

This year you have a car that's complete with all the little things—dual windshield wipers, dual sun visors, Flash-Way direction signal, Handshift transmission, lighted luggage compartments, locks on both front doors, even Knee-Action that banks the curves for you—and spend less, when all that's counted, than for some cars with lower advertised prices!

So open up your mind,

in his characterization, and the accent was not lacking.

Odessa was represented very ably by Bill Maddagh who portrayed the character of Philip. Elizabeth's husband, Middagh gave the play a character who was rather suave and nonchalant in manner.

The cast of four with their stage manager, who was Jack Carroll,

gave several performances of the play, and each time the performance was described as a brisk, and cleverly portrayed drawing room comedy.

Members of the club will celebrate their victory Sunday afternoon by having a picnic at Zilker Park.

Ritz Today Through Tuesday

Frederic March and Joan Bennett give you thrills and laughs galore in their latest comedy hit, "Trade Winds."

Many WPA Workers to Be Dropped in Area

SAN ANGELO, March 25.—Possibility that 831 persons will be released from Works Progress Administration projects in Field 19 by April 3 was disclosed today by John C. Burnside, Administrative Officer for this district.

Burnside made his estimate following information from H. P. Drought, State Administrator that Texas fared a quota reduction over the nation standing at 400,000, unless additional funds are appropriated by Congress.

The quota reduction for the State of Texas will be made from an employment total of 104,000 and Mr. Burnside estimated quota reductions for this district would correspond in ratio with the general reduction over the state. That would mean a quota reduction of 831, or approximately 13 per cent. of the present quota of 6400. Employment of the 6400 workers is spread over 29 counties comprising this field office territory with headquarters in San Angelo.

Burnside stated there were 1615 persons awaiting assignment in this district due to current quota restrictions and unavailability of projects on which these persons could be assigned.

Any quota reduction put into effect will be made generally on a basis of project cost and efficiency, according to Burnside.

Horseshoes Silver-Plated

COLUMBUS, O. (U.P.)—A collection of 37 silver-plated horseshoes, believed to be the only such collection, is owned by Mr. and Mrs. Charles A. Thomas, Sr. They were made by his father, the late T. J. Thomas of Springfield, as a hobby.

April 15 Is Deadline To Participate in AAA

The AAA has set April 15 as the last date on which Texas farmers and ranchmen can sign "work sheets" and thereby indicate that they intend to apply this fall for payment in connection with the '39 Agricultural Conservation Program, according to County Agent S. A. Debnam.

Set according to a recommendation by the State Agricultural Conservation Committee, the deadline is a month earlier than last year's final sign-up date, and applies mainly to operators who did not receive payments in connection with the programs of 1937 or 1938, E. N. Holmgren, state administrator of the AAA, explained.

Holmgren said the advanced deadline is possible because acreage allotments this year were distributed much earlier than ever before, this being the first time in the history of the farm program that allotments are reaching Texas producers, generally, ahead of planting time.

Quick Thinking Denied As Speech Clarity Aid

STATE COLLEGE, Pa. (U.P.)—Woman's age-old ability to change her mind "rapidly and often" has nothing to do with the purity of her diction, according to Dr. Herbert Koepf-Baker, head of Pennsylvania State College's speech clinic.

Scouting the old theory that rapid mental manipulations make for speech clarity, Dr. Koepf-Baker declared the fact that only a third as many women as men are "stutterers" has a physiological basis and is "probably due to some subtle sex link."

Colonel Abel Pargiter, a retir-

York, and that after her next picture she'll stop off in Reno on her way east.

All the studios are furious about a new outbreak of sensationalism in the movie magazines.

First there was an article about "the unmarried couples" of Hollywood; then a pictorial indiscretion involving Clark Gable.

The Hays Office has promised discipline and rigid control.

The bare-knuckle route to screen virility will be followed by Bobby—pardoned me, Bob—Breen. Executives thought it would be a good idea to have him whip a villain, so in "Way Down South" he'll have a fight with John Wilkes Booth! The time is back in 1947, though, when Booth was a kid.

Sydney Chaplin, co-director of "The Dictator," also will impersonate Hitler's propaganda minister, Goebbels, in the picture. He had the role of Kaiser Wilhelm in "Shoulder Arms." Mae West has abandoned plans to produce her own pictures here and wants to go back to Broadway to star. Charlie McCarthy is a \$75,000 corporation now, but you can't buy any stock. In Joan Crawford's new flicker, "Ice Follies," both her songs and her skating sequences were deleted after preview travails.

Scafering actors, extras and technicians have been mobbing Metro for jobs in "Maiden Voyage," only to learn that the locale is the Swiss Alps. Man who rented dozens of birds for a pet shop sequence in "Street of Missing Men" insisted that the studio would have to pay \$25 a day for each parrot if any talked. That's the rate for extra players who have lines to speak. Thelma Raye conducts a novelty shop here and identifies herself as "The Original Mrs. Ronald Colman."

ed army officer; his wife who dies early in the story; their daughters, Eleanor, Rose, Della, and Milly; their sons, Edward, Morris, and Martin; several cousins; and a faithful servant make up almost the entire cast of characters.

Time passes, the year is 1891. Cousin Kitty is now Lady Lassawade, Milly is now Mrs. Hugh Gibbs, Edward a professor, Morris a barrister, Martin is in the wilds of Africa, Della is leading a questionable life in a remote part of London, and Eleanor is housekeeper and business manager for her aging father.

It is 1907, 1908, Colonel Pargiter has suffered a stroke. Rose has become a radical political worker, 1910, 1911, Colonel Pargiter is dead. The old home is sold, the servant cast adrift. The years tick off 1913, 1914, 1917, 1918, present time. The family has grown farther apart. The years have changed their characters, their habits, their lives. Eleanor is an old woman, forgetful, unable to complete her sentences; there are grown nephews and nieces in the family, Della is a woman with a past, Rose is stout and deaf. All have aged, all have changed. As each successive year has gone by, they are seen in new situations, new habits formed, old associations broken. Nearing the end of their lives, one can look back through the years and feel as if it were one's own life passing in review. Does this book attempt to answer the question "What is Time?" That it does cause reflection I know, yet to explore fully the depths of Mrs. Woolf's work is beyond my ability. There are questions of thought, associations of thought with speech, and many others.

London itself does not change; the wind, the rain, the fog. Virginia Woolf knows her people of whom she writes and she knows her London which she describes in so many beautiful passages.

A veil of mist covered the November sky; a many-colored veil, a fine meshed that it made one density. It was not raining, but here and there the mist condensed on the surface into dampness; moistened the country roads and made pavements greasy. Here and there on a grass blade or on a hedge leaf a drop hung motionless.

"Time the Everlasting"—perhaps you will receive a new idea of it from "The Years." Certainly you will see the English people from a new viewpoint. If you are a person who will like this book, you will read it more than once.

—Jack DeForest.

Fishermen use a leaf from an automobile spring to pry abalones from their wave-swept rocky homes.

Refuses to Be Caught Napping

Back to first base in a cloud of dust goes Augie Galan, Chicago Cubs' left fielder, to beat a Pittsburgh attempt to pick him off the bag in an exhibition game at Los Angeles. Gus Suhr awaits the throw. The Cubs won, 9-6.

New Orleans Schedules Construction of 1500 Houses With the Aid of the FHLB

NEW ORLEANS, La., March 25.—New homes for thousands of families of small and moderate incomes, with complete elimination of shoddy construction and new standards of design, is the goal of a new campaign under way here today—one of the most significant housing drives ever launched in the country and backed by every element of the building industry.

Erection of 1500 homes, three times as many as were built in 1933, is the immediate objective. Cold facts were laid before the participants in the drive through a general survey which showed that 17,000 new families have moved to New Orleans since 1930; that only 1,000 rental units now are vacant, and practically all of those in poor repair, with a consequent vacancy ratio of less than 1 per cent, as compared to a north of 5 per cent; that ample home financing funds are available at interest rates which permit a campaign slogan of "Build your home now for less than rent."

The New Orleans Association of Commerce has called for city-wide co-operation, declaring that only 1,500 homes at \$4,000 each will mean a total business of \$6,200,000. A fund of \$15,000 is being raised to be used over a 13-week period to publicize the campaign. Stress is laid on the fact that a new state law gives small home builders tax exemption for the next three years.

The New Orleans campaign already has been taken as the model for the United States Chamber of Commerce in organizing "Build Your Home Now" drives in communities throughout the United States. The chamber's program is being backed by the National Retail Lumber Dealers' Association, with 23,000 active members, and other leaders of the building industry.

The homestead associations of New Orleans—comparable to the savings and loan associations of other sections of the country—are backing the campaign here. The building trades, the Electrical League and similar organizations are contributing their full support; the Southern Pine Association is do-

nating the services of expert inspectors to insure the use of the proper grade of lumber; the Cement Manufacturers' Association is aiding in establishing building standards and model specifications.

The campaign is an outgrowth of the Federal Home Building Service Plan, sponsored by the Federal Home Loan Bank Board, which has laid a pattern for co-operation of lending agencies, architects, lumber dealers and all other factors in the building industry. The board will offer technical assistance and aid in promotion of the campaign, while providing the means for registering every home built under proper supervision—thereby increasing investment security and resale value for every home builder.

The Central Appraisal Bureau, established by the homesteads, is providing a portfolio of original home designs—the strictly approved work of approved architects, as contrasted with ordinary stock plans—which are on display in home offices. It will provide cost estimates and specifications of materials, alter plans to suit individual needs, advise on suitability of home sites and neighborhood values, and inspect and supervise construction. Contractors co-operating under the plan will offer evidence of their ability to adhere to construction standards, furnish bond and carry necessary insurance; provide labor and materials as specified; cooperate with supervisors, materials men and subcontractors, and provide facilities for proper inspection and tests.

Listing the concrete benefits to accrue to all elements of the building industry, from materials dealers and contractors to firms supplying plumbing and heating supplies, the association of commerce declared: "Since 1930 approximately 17,000 families have been added to the city's population. In that same period, 2475 new living units—single houses or apartments—have been built. That is the reason people, principally in the lower rent brackets, are desperate today to find a place to live. That is the reason there is much doubling of families

"By actual count there are only who would like to have separate homes.

approximately 1000 empty houses or apartments in the city, many of them in such poor repair they are practically uninhabitable. There are nearly 120,000 families in the city.

"In 60 to 90 days the Housing Authority of New Orleans must evict between 1600 and 1700 families from their homes so that the houses can be demolished to make way for the two slum clearance projects. When that occurs the city faces a problem of housing these people for at least a year until the new structures can be built.

"In the last five years the most favorable home financing terms ever known have been developed. It is possible now to obtain a 25 year, 90 per cent loan on a new home. This means that the monthly cost of acquiring ownership of a new home—after a nominal down payment—is actually less than the same kind of a house can be rented for. Fire room, modern houses have actually been built and sold at a monthly cost of less than \$25. The same house, if it could be found, would rent for \$35.

"The state has granted three years exemption from taxes for a new home. This gives the home owner an advantage over renting, for the owner of the rented house has to pay taxes.

"Many of the difficulties which faced the prospective home builder in the past have been removed by the Federal Home Building Service Plan offered by the homestead associations which provide economical, long lived plans and designs, specifications, prompt estimates on long terms, and, most important of all, strict supervision to see that the owner gets full value for his building dollar.

"All these factors combine to create almost a guaranteed market for building materials and services. The need is here. The facilities are here. All that is needed to develop a huge volume of business is to whet the desire and inform people how they can easily, economically and profitably own their own new, modern and convenient home."

Stylish Makeup Seeks to Give an "Un-made-up" Look

By ALICIA HART
NEA Service Staff Writer

Little girl suits and dresses with voluminous skirts, tight bodices and round, childlike necklines call for a natural, fresh, completely un-made-up look. This is a spring to strive for a clear-eyed, scrubbed, fresh-as-a-daisy appearance.

Clean your face and throat oftener and use a flimsy, light-colored foundation. Choose powder matches exactly or is one shade darker instead of a shade lighter than your natural skin tones. Substitute a lighter, pinkish lipstick for the deep scarlet or wine one you've been using. Matching rouge will give your cheeks a youthful, natural glow. Your hair ought to be off your neck. It needn't be piled high in an upswep, but it ought to be shorter. You can have it cut very short and brush the little curled ends upward. Or you can simply go in for a short bob, dressed on the neckline instead of below the nape of the neck and cut to reveal the shape of your head.

Your neck must be smooth and white and unlined. Cleanse it as carefully and as often as you cleanse your face. Massage night cream into it every night. And always apply foundation cream or lotions and powders from base of the throat upward. You can't look your best if your face is powdered and your neck isn't.

Hands must be immaculate, too—smooth, soft and white and meticulously groomed. In a season when femininity is the keynote of smartness, blotches, rough skin and chipped polish just won't do. Use a small brush once a day, rub callouses with wet pumice during your weekly manicure and don't ignore the importance of cuticle cream or oil.

Pupil in Study Hall Sets Off Blasting Cap

PAINESVILLE, O. (U.P.)—Fifteen-year-old Arthur Moss, neglecting his academic pursuits in eighth-grade study hall here, amused himself by prodding a small metal object with the point of his draw-

STORIES IN STAMPS

Young Vancouver Sets Pace on the Pacific

THE intrepid explorer, Capt. George Vancouver, first saw the site for the city which today bears his name when he entered its beautiful harbor in the late years of the 18th century. But hardly could he have visualized the metropolis that was one day to rise as his monument. Vancouver itself, for that matter, scarcely saw its full future when it had its corporate beginning back in 1886. In 1901 it was only 29,432 in population. Today it numbers roughly 250,000.

This humming modern city is really Canada's gateway to the Orient. Through its exceptional port pass Canadian wheat, flour, copper, lead, zinc, paper, pulp, lumber, sealskins, canned and salt fish. Vancouver's grain elevators could accommodate the whole wheat crop of Alberta at one time. Such is the gauge of this port's facilities.

But Vancouver is not merely a shipping point. It is important for its metal foundries, shingle, saw, paper and pulp mills, for its sugar refineries, clothing and food factories and for its shipbuilding. It is, moreover, British Columbia's largest city and therefore its axis of trade at the end of the trans-continental railways.

Its harbor is one of the most beautiful in the world. Across the harbor from Vancouver is Victoria, the capital of the province. The harbor is shown above on a current Canadian stamp, one of four pictorials portraying the history and significance of the Dominion. (Copyright, 1949, NEA Service, Inc.)

Twins, Triplets and Quadruplets to Meet At Baylor University

WACO—Twins, triplets and quadruplets only will have places on the program of the Texas College Twin Convention at its initial session on the Baylor university campus Friday and Saturday. It was announced today by C. E. Bryant Jr., manager of the Baylor twin club which called the statewide gathering. No single born individual will perform.

Seventy five sets of twins from 14 colleges and universities, two sets of quadruplets—the Keys of Oklahoma City and the Perinones of Beaumont, and three sets of triplets—the Herrills of Waco, the McCauleys of Hillsboro, and the Lancasters of Mount Calm, all have expressed definitely their plans to attend the unique session.

Ross and Doss Hardin, state representative and senator respectively, will be featured speakers at the session addressing the multiple births briefly at an informal banquet Friday night. The bulk of the program will consist of variety performances demonstrating special abilities of the twins in attendance, with each school responsible for 10 minutes. These acts will be judged by the convention at the closing session and the winning college club presented with a loving cup.

A unique experience contest in which the doubles will relate the most unusual and interesting things that ever have occurred to them because they are twins will be conducted Saturday morning. The winner in this also being presented with an award.

The convention will open Friday morning at 10 a. m. with the twin guests being featured in the Baylor chapel services. President Pat M. Neff presiding. Featured on the program will be Leota, Mary, Mona and Roberta Keys, who graduated from Baylor in 1937; Anthony, Bernard, Carl and Donald Perricone, accordion players and vocalists of Beaumont; Victor and Stephen Randall, pianist and violinist; Victor F. and Virgil F. Robertson, air minded students at Randolph Field; and Joy and Joyce, and Aurelia and Eliska Stamm, two sets of twins of the same family who look like quadruplets.

Mothers of both sets of quadruplets and both parents of the famous radio Stroud twins will be present also.

Helping engineer the convention are scientifically interesting Lois and Louise Bailey, identicals who were separated from birth until enrollment in Baylor as freshmen last fall.

Psychological tests will be given the multiple births during the convention by Dr. Iva Cox Gardner, a sponsor of the club and head of the Baylor psychology department who is a student of multiple births. Results of these tests will be valuable to science, she said.

Suddenly the silence of the study hall was shattered by an explosion and screams.

Arthur was rushed to a hospital with four severely burned hands, while five of his classmates were treated for less severe burns.

Principal M. E. Blough, going through the pockets of other boys in the class, found more of the objects—dynamite percussion caps which the boys had found on a dump.

Soda Through Candy Tube
SAN JOSE, Cal. (U.P.)—Eros Savage, instructor at San Jose Technical High School, has just taken out patents on a candy tube, which when placed in a glass of ordinary water, and sucked through, gives the drinker a flavored carbonated drink like soda water.

Hold Everything!

Young man, I want you to stop exaggerating. . . . This makes forty million times I've told you about it!

Back of Britain's Resolve

Britain's recent promises to put up to 300,000 soldiers on French soil in case of attack by Fascist powers may have been based on self-confidence in her own capacity to resist air-raids at home. The new 4.5 inch anti-aircraft gun shown above uses an especially large and destructive shell. In the foreground an artilleryman carries one.

Policeman Embarrassed, Tagged Stolen Auto

CLEVELAND, O. (U.P.)—Patrolman Ralph Taylor's friends still are reminding him of the parking ticket which he issued last fall—and which bounced back embarrassingly.

Mrs. Della Glick, the automobile's owner, didn't appear, and was notified that she must come in and pay for the ticket.

She protested that the car was not in her possession at the time. Patrolman Taylor, thinking fast and consulting his notebook, discovered to his mortification that at the time he ticketed the car it was listed in his notebook as stolen—a car for which all police had been ordered to watch.

Fourteen days after he issued the ticket the car was recovered.

Club's Trained Pigeons Ready for Army Use

CINCINNATI, O. (U.P.)—There are 2,000 homing pigeons groomed and trained by the 40 members of the Greater Cincinnati Racing Pigeon Club which are ready to go to war if the country needs them.

The birds now are flown as a hobby by their owners, who meet once a month to discuss ways and means of improving their flocks. In the summer, races are held at least once a week in which the pigeons compete from distances as far as Topeka, Kans., 600 miles from here. The club was formed with the understanding that the birds would be at the disposal of the army in the event of war, and the Federal government has given its official sanction to the members' activities.

Plenty Of Time For

Hot Breakfast
WITH A
MAGIC CHEF
GAS RANGE

HOT BREAKFAST helps Dad and the children resist cold and colds. With Magic Chef you prepare appetizing breakfasts in a surprisingly few minutes. Make coffee, cocoa, and cook eggs your favorite way on the fast, non-clog, self-lighting top burners. Broil bacon in the convenient, smokeless Swing-Out Broiler. Even serve freshly-made biscuits. Magic Chef's High-Speed Oven bakes them in only 12 minutes from a cold start. Let us show you how Magic Chef helps you give your family the extra health advantage of a hot breakfast. Drop in the next time you go shopping.

The President's Gadget Shop

The desk of the President of the United States. 6:35 p. m., says the clock—and Mr. Roosevelt has gone for the day, leaving behind him a litter of knick-knacks, Statuettes, ash trays, writing tools, timepieces, cigaret-butts, water pitcher—just a few items collected along the way.

Physical Condition of Student Is Vital To His Success in Making Most of School

BY W. E. MARSHALL,
Executive Secretary Equalization
Division, State Department of Education.

(This is the first of a series of articles relating to Texas Public School Education, as authorized by the Public School Laws of Texas, Article 2658.)

In keeping with the avowed policy of the State Department of Education to cooperate with the various agencies of government, both state and local, for the advancement of education in Texas, Dr. L. A. Woods, State Superintendent of Public Instruction, and Dr. George W. Cox, Texas State Health Director, have appointed a joint committee to correlate the work of both departments to the end that our children might become more perfectly physically as well as mentally.

The following members of the Departments of Education and Health were appointed: Mr. T. M. Trimble, First Assistant State Superintendent; Mr. W. A. Stigler, Director Division of Curriculum; Miss Edgar Ellen Wilson, Second Assistant State Superintendent and Director Elementary Education; Dr. Van C. Tipton, Field Director, Division of Maternal and Child Health; Dr. D. B. Harmon, Consultant in Mental Health Education; and Mr. W. E. Bodine, Health Education Consultant.

As is well known, the child must be in good physical health in order to be able to do his best mental work. And according to both Dr. Woods and Dr. Cox, the best manner in which to accomplish this is for the Education and Health Departments of Texas to work in close cooperation. As a result of this cooperation in recent years the schools of Texas have established Physical Education Departments, many have instituted Health officers and give instruction in various phases of health protection and prevention of disease, and the Texas Safety Program and instruction today ranks among the top four in the United States.

In taking up these phases of education, it is my intention to handle them in four installments: first, Physical Education; second, Health Education; third, Mental Health Education; fourth, Safety Education. The balance of the series are to deal with school administration, school finances, Radio education, the curriculum, the part the state and the local communities should play in the education of Texas youth, Equalization Aid, Crippled Children, Vocational Aid, and so on.

We know that education is the process of becoming more and more effective in meeting life situations. Physical education attempts to

create and develop deeper and wider interests in activities that will be of recreative value in later life. It is known, of course, that the health and vitality of the visceral organs depend upon the muscular system. And without the efficient functioning of these organs it would be impossible for the individual to live with any degree of efficiency. And it is the purpose of Physical Education to develop the child in all his physical organs in order that he might devote much more concentration effort on his mental faculties.

With the above in mind, it is interesting to note that the law provides that "instruction in physical education shall be established and made part of the course of instruction and training in the elementary and secondary school of the State. The State Superintendent of Public Instruction shall prepare courses of instruction for the public schools of the State," and so on. THIS HAS BEEN DONE.

As a result, adequate indoor spaces are rapidly being provided to take care of classes during inclement weather, sanitary and adequate dressing room space is being provided, first-aid rooms are becoming common in most schools, mirrors and waste disposal cans are being provided.

Also, health examinations are being recommended at least twice a year. And before a student can participate in any sport it is recommended that he have a doctor's certificate stating that he or she is physically able to participate.

It is clear, therefore, that no boy or girl will be allowed to take part in a sport for which he or she is not physically able. And the semi-annual health examinations will undoubtedly disclose physical handicaps which should and would be immediately remedied if knowledge of them were known.

Of course, it is impossible to expect every school in Texas to attain perfection in all forms of physical education, but the result of health examinations, regular physical education activities, such as basket ball, soft ball, hand ball, badminton, ping pong, horseshoes, and other interschool and intramural activities, will of necessity bring about good sportsmanship and correct any physical defects.

And then for corrective physical education many classes are devoted to correcting functional conditions of the child. Those children who have certain functional disorders, such as round shoulders, poor posture in general, flat feet, scoliosis, lordosis, and so on, may have these conditions remedied through correct physical training in the school.

It is to be seen from the above brief discussion that physical education in our public schools is not for the purpose of developing purely

Let Your Coiffure Wave Away Square Lines of Face

By ALICIA HART
NEA Service Staff Writer

The woman whose face is rather broad and quite square ought never to go in for small tight curls or narrow waves or tiny round splashes of rouge in the center of her cheeks.

Such effects only serve to make her face appear wider and squarer than it actually is whereas wide waves, big curls and the like will, by contrast, make her face seem smaller and her facial contours less square.

Joan Blondell, pretty Hollywood star whose face comes in this square and rather broad category, never parts her hair too low or in a perfectly straight line, and she manages to create softness by wearing a thin fringe of bangs.

Her makeup advisor, Perc Westmore, slants the parting of her hair and wouldn't consider letting her wear heavy bangs or brush her hair straight back with no hint of softness at all.

Mr. Westmore advises Miss Blondell and other actresses with square faces never to pluck their eyebrows into thin, delicate lines. He likes them arched a bit, because a definite upward curve in the center of brows makes the face appear to be longer.

Miss Blondell places her rouge in a circle under the eye and carries it back toward her ear and downward almost to jawline. She makes her mouth up to look as wide as possible, creating a graceful curve which slants upward at corners.

No square-faced woman should apply lipstick in such a way as to make an exaggerated arch in her upper lip or the lower one too full. Cupid bows and round, rosebud lips are out, too.

Spring Short Cake Satisfies Yen for New Dessert

By MRS. GAYNOR MADDOX
NEA Service Staff Writer

Spring makes its official bow today. Let's return the courtesy with a spring dinner ending with this delicate new cake created for the occasion.

It's made in one of the brand new layer cake dishes, 8 5/8 by 2 inches, of heat-resisting glass, with large convenient handles.

Spring Short Cake (6 servings)

One-quarter cup butter or other shortening, 1-2 cup granulated sugar, 1-2 teaspoon almond extract, 2 egg yolks, 3-4 cups cake flour, 2 teaspoons baking powder, 1-4 tea-

MENU
BREAKFAST: Tomato and grapefruit juice, French toast, honey, bacon, coffee, milk.
LUNCHEON: Tomato and cheese sandwiches, raw vegetable salad, frosted cup cakes, applesauce, tea, milk.

DINNER: Casserole of lamb shoulder with vegetables steamed rice, spring salad bowl, spring shortcake, mint-milk, pineapple sauce, coffee.

spoon salt, 1-2 cup milk. For topping use two egg whites, 1-2 cup granulated sugar.

Cream butter. Add the 1-2 cup of sugar gradually, then add extract. Cream thoroughly. Add egg yolks one at a time and beat after each addition. Sift and measure the cake flour. Then sift together the flour, baking powder and salt and add to creamed mixture alternately with milk. Blend thoroughly.

Pour into a well greased glass athletes, but rather any physical weaknesses in the child and correct them if possible through proper exercises and lessons, or if the condition be serious to point it out and have the condition promptly corrected by competent Doctors of Medicine. And further it is for the purpose of developing a spirit of good and pleasant sportsmanship among all students—which, if properly directed, will continue through life to the advancement of clean and sportsmanlike conduct of one's life and business.

Location of Field Offices for 7 Water Facilities Projects Set

FORT WORTH, Tex., March 25.—Location of field office headquarters for seven new Department of Agriculture water facilities projects approved for operations in West and Southwest Texas counties were announced today by Paul H. Walser, state coordinator for the Soil Conservation Service.

Headquarters for the Toyah Creek Watershed project in Reeves, Pecos, and Jeff Davis counties will be located at Balmore, Texas.

Pleasanton, Texas, has been selected as the place for the field office of the Atascosa River Watershed project in Frio, Medina, Bexar, Wilson, Karnes and Live Oak counties.

The field office for Elm Creek Watershed project in Maverick, Kinney, Uvalde and Zavala counties will be established at Uvalde, Tex.

Spring and Dove Creeks and the South Concho River Watershed project headquarters will be at San Angelo. This project will operate in Irion, Tom Green, Crockett and Schleicher counties.

Headquarters for Brady Creek Watershed and Mustang, Salt, Elgin, Cedar and Cory Creek Watershed project in Concho, McCulloch, Menard and San Saba counties will be established in Brady.

Field office for Big Elm, Mulberry, Noodle, Bitter, Dean Man's and Cedar Creeks Watershed project in Taylor, Jones, Shackelford and Callahan counties is being set up at Abilene.

The Dockum, Duck and Croton Watersheds project in Dickens and Kent counties has been set up at Spur.

Work of assisting farmers in the installation, construction or development of small water facilities, such as ponds, spreaders, reservoirs, wells, dams, springs, pumping works, windmills, stock water tanks, flood irrigation and small irrigation systems for single farms or groups of farms will get underway as soon as field establishments can be completed and personnel transferred into the new work areas.

The establishment of the new projects will increase the number of such projects in operation in Texas to 12, since five are already operating.

The water facilities program in

Texas is a cooperative enterprise being carried on jointly by the Bureau of Agricultural Economics, the Farm Security Administration and the Soil Conservation Service under authority granted by the Pope-Jones Water Facilities Act of 1937.

General responsibility for the operations phase of the program especially in planning and installing water facilities and conservation farming practices has been assigned to the Soil Conservation Service.

The Farm Security Administration has supervision of financial arrangements by which the farmer may receive federal assistance in installing his facilities. The farmer may receive a cash loan to be used in the purchase of materials or the government may furnish materials and labor needed to install facilities for which the farmer agrees to pay. Technical assistance without cost to the farmer. The farmer obligates himself only for materials and labor required for the development of his facilities.

The Bureau of Agricultural Economics is charged with the responsibility for overall or sectional planning for water facilities in specified agricultural areas. This agency is not concerned with the planning of facilities for individual farms.

Working cooperatively with the farmer, technicians of the Soil Conservation Service and representatives of the Farm Security Administration will work out complete plans covering three points, namely:

(1) A plan for location, construction or installation, utilization and maintenance of water facilities.

(2) A plan for establishment and maintenance of a complete soil and water conservation farming system.

(3) A farm and home management plan.

These plans will provide for the adoption of good land use practices designed to conserve soil and water and at the same time enable the farmer to produce adequate food and feed to supply family and livestock and cultivate those cash crops that will best enable him to repay his obligations and meet operating expense.

Movies Replace Sermon In Cape Town Church

CAPE TOWN (AP)—Rev. Norman H. Pike, of the Redeemee Methodist church in Cape Town, has installed talking-film projectors to attract people who do not normally go to church.

"This is a cinema-minded age," he explained. "And, after all, it must be admitted that church services have remained the same for a hundred years—prayer, lessons, prayer, sermon. Many people have found it boring even though they may be religious at heart. The sermon will be replaced by a film."

Negro Laborer Gets 24-Hour Bodyguard

ST. LOUIS (AP)—Louis Lee Baker, a negro laborer whose testimony largely was responsible for the conviction of a former Egan gangster charged with bombing a cleaning shop, will have a two-

Present Called Best Era for All Babies

AUSTIN.—One often hears about the good old days when grandfather was a boy but according to Dr. Geo. W. Cox, State Health Officer, now are the good days for babies. A baby born today can expect to live until he is 62 years of age. This is almost twice the expectancy of babies born 100 years ago. There has been a gain of 14 years since 1900.

While still somewhat below the biblical promise of "three score and ten" Texans can look forward to reaching that goal within a few years.

The fact that a child born in 1938 who weathered the infantile storms of the first year could expect to live 62 years in contrast to the boy born in 1850, who could live only 38 years is a tribute to the American Medical Profession and the preventive technic of public health, Dr. Cox believes.

Vaccination is a preventive measure that saves thousands of lives annually. Prophylactic measures against typhoid, diphtheria and smallpox have greatly reduced the incidence of these diseases in Texas. Widespread sanitation efforts safeguard the water we drink, the food we eat and our environmental surroundings to lessen the spread of communicable disease germs.

Semi-annual physical examinations which have become a health habit for many of our citizens check illnesses at their onset and allow for simpler cures.

Science has provided us with effective drugs to combat the spread of syphilis and gonorrhea, diseases which takes an annual toll of blindness, insanity, locomotor ataxia, bone infections, enlargement of the arteries and deformity of infants. Tuberculosis and Cancer have been brought into the curable classification of diseases. All and all the last twenty years have seen the Medical and Public Health professions make this a safer nation in which to live and at the same time a nation in which we live longer.

Man police guard 24 hours a day. Six negro patrolmen have been designated to protect Baker from possible reprisals. Baker was shot and left for dead shortly before he testified for the state against the former gangster. He recovered and was given nearly \$3,000, raised by donations, and a job at the negro city hospital "for his public service."

Real Mexican foods; orders taken and delivered for special parties. Joe's Spanish Cafe, 900 Block East Highway, phone 9554; Joe Ochoa, Owner. (Adv.)

Nothing Subtle About Pitt Students

Expressing their feelings with banners and placards, University of Pittsburgh students left classes and staged a one-day demonstration against alleged school bundling which led to resignation of Football Coach Jack Sutherland. The "Iowa Ivy" and "Scotch Heather" sign is taken to refer to Sutherland, a Scotsman, and Chancellor John G. Bowman, who originally came from Iowa.

Blocks in the Spanish Rebel Blockade

Their activity covered by a smoke-screen that almost obscures the planes accompanying them, these Spanish rebel destroyers off Tarragona have orders to torpedo ships of any nationality found within three miles of the Loyalist-held coast. Determined to deprive the Loyalists of war supplies, Generalissimo Franco proclaimed a blanket blockade.

Baby Begins Fight for Life

Will medical science be able to save 2-year-old Harold Holt of Monongahela, Pa., pictured with his mother at New Rochelle, N. Y., hospital, after air dash from Pittsburgh? The superintendent offered the hospital's facilities in battle to check internal tumor which has already forced removal of one kidney, now affects the child's liver.

READ THE CLASSIFIED ADS DAILY

The Proof Is On The Scales!

The scales—show that one quart of milk has the food value of one pound of steak, five pounds of spinach, or seven oranges! That is why it's such an essential food in baby's daily diet.

The proof will be on Baby's scales, too, when the pounds mount, showing normal, healthy growth. Because our milk is pasteurized under the most sanitary conditions, because it has standard cream content, and our new sanitary Aluminum Hoods cover the bottle top, keeps the lip absolutely clean. No contamination when you pour your milk.

ADMINISTRATION COULD AID BUSINESS ON FIVE FRONTS, FLYNT DECLARES

What can the present Administration do to speed the machine of business along the road to recovery? In this, the second of two articles, John T. Flynn, noted writer on business topics for NEA Service and the Reporter-Telegram, points out the five keys to recovery.

By JOHN T. FLYNN
(Copyright, 1939, NEA Service, Inc.)

WASHINGTON, D. C.—What the business community and the conservative groups want to know is how much can be done by this administration for business in its present "turn to the right."

This concern centers around certain key subjects so far as business is concerned.

One of them is taxes. The other is government regulations. The third is the anti-trust laws. The fourth is labor. The fifth is the question of money and the dollar. Whether the administration can actually do anything for them or not, at least one thing is quite possible. It can stop frightening them. It can also declare a moratorium upon reform. That, of course, is what the business man wants.

The liberal groups feel pretty bad about this. They insist that actually few of the great major reforms required by the country have been carried through.

Can the administration balance the budget next year? The answer is "no." Can it reduce taxes? Well, the President has announced that he will not raise taxes. That is as much as any business man can expect. But while there can be no decrease of taxes, he may hope for some change in the type of taxes.

The business man does not want the undistributed profits tax on corporations and he wants the rates mitigated in the upper brackets. But if the upper brackets are relieved then they will have to be shifted to the lower brackets. At least business leaders believe that they have gotten over to the administration in a big way their demand for the elimination of those taxes which tend

"Private investment is the oil that turns the wheels of industry."

to hinder investment. And private investment is the oil that turns the wheels of industry.

What can the administration do about the railroads? Secretary Hopkins said in his Des Moines speech that a solution of the rail problem must be found. But he gave an inkling of what he would recommend. One thing is certain; not a great deal can be done about this quickly. The solution of the railroad problem should have

been tackled in 1933.

What of construction? Of course, construction is affected by so many factors outside the power of the federal government that it is very hard to know what it can do quickly to start building now. The building industry runs from top to bottom is tied up in price-fixing and production control combines and agreements—labor, dealers, manufacturers, sub-contractors all leagued to keep prices up. The government

certainly has no plans on this front.

One thing the President can do of inestimable value as a political move and that is to deliver himself into the hands of the sound money groups in his party. Uncertainty as to money has caused a great deal of trouble. Fear of devaluation and other apprehensions aroused by the President's talk about money and managing the dollar, etc., have been responsible for no end of hesitancy in investment.

Skin Tests Valuable In Helping Fight On Tuberculosis

Editor's Note: The following article on prevention of tuberculosis is particularly timely as skin tests for school children are to be started here on Wednesday of this week. Miss M. Elizabeth Wilson, county health nurse, has announced that children will be notified on what days to visit their physicians. Rural school will be notified later. The article was written by J. B. McKnight, M.D., superintendent and medical director of the State Tuberculosis Sanatorium.

Tuberculosis has been a public health scourge among the inhabitants of the earth for hundreds and hundreds of years. In all probability tuberculosis is as old as man. But until 1882 we did not know the exact causes of the disease nor that it was produced by germs. Since the discovery of this germ tuberculosis has been known to be a "germ disease," and it is not inherited as was previously believed.

Tuberculosis may affect any organ of the human body, but the disease usually manifests itself in the bones and joints or in the lungs, the latter being known as pulmonary tuberculosis. The disease is no respecter of age, sex or race. It may affect the rich or the poor. Unfortunately it today remains the leading cause of deaths among persons between the ages of 18 and 45, the most productive years of life. Considerable progress has been made during the past thirty years by anti-tuberculosis workers who have been responsible for reducing these deaths more than one-half, yet 70,000 lives are still being sacrificed each year in the United States. And what is more important, these lives are being lost because of a disease which can be prevented.

If it were possible to vaccinate each and every one against tuberculosis, thereby creating immunity, such as is possible in smallpox, the matter of preventing tuberculosis would be a simple problem to solve. Although medical research is constantly working to discover a vaccine to produce this immunity, as yet we do not have an Edward Jenner in the field of tuberculosis. Today it is generally accepted

WINNING PACE! WINNING PRICE!

Buy Chrysler... ONLY \$975*

FOR THE ROYAL 7-DOOR SEDAN

CHRISTIAN SCIENCE SERVICES.

"Reality" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, March 26.

The Golden Text is "Whatsoever things are true, whatsoever things are honest, whatsoever things are just, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report; if there be any virtue, and if there be any praise, think of these things" (Philippians 4:8).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Is not God in the height of heaven? And behold the height of the stars, how high they are!... Acquaint now thyself with him, and be at peace; thereby good shall come unto thee" (Job 22:12, 21).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Life is reflected in existence, Truth in truthfulness, God in goodness, which impart their own peace and permanence" (page 516).

GRACE LUTHERAN CHURCH
T. H. Gaalman, Pastor.

Services are held every second and fourth Sunday at the Midland Episcopal Church at 2:00 p. m. You are cordially invited.

The teachers are Marvin Ulmer and Judge Charles L. Klapproth. There is a singing service of

FHA Adopts Training Plan For Underwriting Personnel

Recognizing that the continued success of the Insured Mortgage System depends largely upon the maintenance of high standards of risk rating and valuation, the Federal Housing Administration has adopted a coordinated training program for its underwriting personnel.

The formal training program, which places the underwriting staff on a permanent career service basis, is an outgrowth of the "underwriting schools" which employees have attended in the past. In addition to establishing a merit system for present personnel, the program also will build up a reserve list of approved and qualified men who may be appointed to fill vacancies in the staff.

As a first step in the formal training program, 1,300 underwriting employees took a comprehensive examination on February 25, covering every phase of underwriting procedure. Besides annual written examinations, the program includes direct instruction in Washington and regional schools, routine training meetings of underwriting staffs in field offices, and personal instruction in the field by underwriting supervisors.

Wide Objective.

The objective of the training program is to secure (1) a uniform point of view with regard to valuation and risk-rating techniques, (2) soundness and consistency in underwriting decisions, (3) effective application of prescribed procedures, and (4) full development of the capacities of employees looking toward advancement in the organization.

In-service training of employees also will be encouraged by promotion examinations which will be given to all personnel recommended for advancement. Competence of the underwriting organization will be promoted also by the establishment of candidates' examinations, which must be passed by all applicants for employment in the underwriting organization.

Because of the specialized technical knowledge required for the application of risk-rating, valuation, and inspection procedures, applicants will be examined to determine their general technical qualifications. Examinations for existing personnel will cover not only FHA procedures but certain

11:00 a. m. Preaching service.

7:30 p. m. Evening service.

specialized technical knowledge in the fields of valuation, architecture, etc.

Training Program Important.

In view of the growing volume of mortgage insurance business handled by the FHA and the increasing pressure on its underwriting staff, which must pass on applications, it is considered important to establish sound long-range training programs for personnel. The new program of employee selection and training is designed, according to officials, to assure the continuance of FHA's high standards, which they say are evident from the favorable comment of lenders, builders, and buyers, as well as from the low rate of foreclosures on properties covered by FHA mortgages.

FHA officials point out that the present training system is subject to changes and improvements as conditions dictate.

MIND Your MANNERS

T. M. Reg. U. S. Pat. Off.

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. Does a woman have truly good manners who isn't cordial to her friends her children bring home?
2. Does it show a lack of manners to let your dog annoy your neighbors?
3. Should a grown-up be as courteous to children and as considerate of their feeling as to grownups?
4. Is it a good idea to be a constant borrower?
5. If you are a member of a group where cars are used occasionally, should you try to offer yours often as other members offer their cars?

What would you do if—
Someone starts criticizing a person of whom you think well—
(a) Put in a good word for him?
(b) Agree with whatever the person says?

(c) Try to turn the conversation toward something else?

Answers

1. No.
 2. Yes.
 3. Yes.
 4. No.
 5. Yes.
- Best "What Would You Do" solution—(a) and then (c).

Mobile Jails to Serve Australian Hinterland

CANBERRA, Australia (U.P.)—As crime in Australia is so sufficient to justify the construction of jails in every town and hamlet, mobile police stations are to be used instead.

These will consist of mobile police patrols, the truck being fitted with camping gear, extra water and gasoline tanks, handcuffs for the prisoners and all of the facilities of a permanent police station. They will be sent to the place where a crime has been committed, and once the prisoner is caught, the truck will be used as a police station and prison until the time is up and the services of the station are needed elsewhere.

The U. S. aircraft carriers are: Lexington, Caratoga, Ranger, Yorktown, and Langley.

Loretta Young and Richard Greene supply the heart interest in that glorious epic in technicolor, "Kentucky."

You'll look as smart as your suit

WHEN YOU DRESS UP FOR EASTER

**NEW STYLE
MORE COLOR**

One look in the mirror will convince you of how much better you look in one of our just arrived spring hats.

- Borsalino
 - Dobbs
 - Berg
- \$3.95 to \$10.00**

Color Adds Smartly to Man's Ease

The big news about men's clothes for this spring and summer is that they're lighter in weight, more colorful, and designed for greater comfort.

That "comfort first" idea is probably the main reason there is so much more color in the new spring clothes. They are cut generously with plenty of space for the chest and movement of shoulders, no feeling of tightness or pressure—something most welcome when the thermometer heads for the higher altitudes.

There is discernible also a strong movement toward more color and informality in men's suits. The arrival of warmer weather, the use of lighter fabrics, and the use of plain, unfinished worsteds and flannels in browns, blues and the darker shades of gray. These solid color suits, incidentally, make an excellent background for the man who likes to celebrate the changing of the seasons by donning some particularly radiant ties which might clash with the patterns in his other suits.

Hand tailored ties in crepe and foulard **\$1**

Custom detail shirts, white or colored . . . **\$1 to \$2.50**

Genuine cowhide belts with metal buckles . . **\$1**

Liste hose in the new spring colors **25c to \$1.00**
