Ford, UAW Come To Terms On Guaranteed Wage Plan

COUNTY BOAT CHRISTENED—Mrs. Edgar Taylor, wife of the county judge, is shown above breaking a bottle of water taken from Lake J. B. Thomas over the bow of the county-fire department rescue boat put in the water for the first time yesterday. Watching from left are T. B. Knight, Pat Moore, county commissioners, Taylor, N. W. Autry, fire chief, and Mr. and Mrs. Roland Bell, Jr. Bell is president of the Downtown Lions Club, which sponsored the Lake Thomas boat race jamboree held yesterday. (Lee Watson photograph)

3,000 Spectators Watch 50 Boats Compete In Jamboree

A crowd of more than 3,000 persons saw about 50 boats compete in ideal boat racing weather at the second annual Lions Club Boat Racing Jamboree on Lake Thomas yesterday afternoon.

The crowd jammed the north shoreline of the lake along the 400-yard racing course.

A highlight of the event his year was awarding of a $10 prize to Bill Bowlin, 3109 Thirty - ninth Street, for the name he submitted for the new county-fire department rescue boat. Bowlin submitted the name "Guardian Angel" which was officially given to the 21-foot craft in christening ceremonies at the lake in which Mrs. Edgar Taylor officially christened the boat by breaking a bottle of Lake Thomas water on the boat's bow.

The crowd of spectators at the races yesterday saw their share of spills and boat crack-ups during the high-speed events. In one race, event No. 5 of the class B hydroplane boats, eight drivers started the race but only three finished leaving no fourth place winner in the race.

Three of the boats in the race piled up at the tight west turn of the race course, another engine conked out in a straightway, and another driver spun out of the race on the east turn. None was injured.

Doyle Yancy, Wichita Falls, one of the top contenders yesterday, won third place in the first heat of the class B runabout race, and fourth place in the event's second heat before receiving a badly bruised elbow when another boat plowed across the top of his boat in a later race.

Doyle Raines, Corpus Christi, won both heats of the class A runabout race. Other winners of the first heat were: Harold England, Irving, second; Jimmie Epperson, Fort Worth, third; and Jarrell Newton, Fort Worth, fourth. Winners of the second heat in this order were: Raines, Epperson, England, and Newton.

Lynn Warren of Fort Worth placed first in the first heat of the class B runabout race, and placed third in the second heat. First heat winners in this order were: Warren, George Esser, Lubbock; Doyle Yancy, Wichita Falls; and Billy Thomas, Lubbock. Second heat winners in this order were: Doyle Raines; Dr. Estelle Ramsey, Freeport; Lynn Warren, and Doyle Yancy.

Class A hydroplane winners placed in the same order in both heats with Deanie Montgomery, Corsicana, winning first place; Harold England, Irving, second; Jerrell Newton, Fort Worth, third; and Richard McCullough, Fort Worth, fourth.

Earl McGill, Corpus Christi, won first place in both heats of the class D runabout race. Other winners in order in the first heat were: Raymond Owens, Fort Worth; Bonnie M. Kelley, Corpus Christi, and Raymond Jefferies, Pampa. Second heat placings were: McGill, Kelley, Owens, and Richard McCullough.

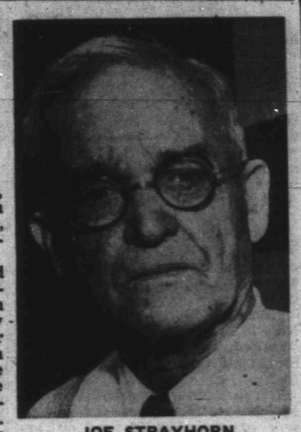

Ben Turpin of Fort Worth won first place in both heats of the class B hydroplane race, and was one of the three racers to finish the second heat in which eight drivers started, but five fell by by the wayside during the race. C. B. Norton, Jal, N.M., placed second in the first heat: Earl McGill, third; and Bill Holmes, Corpus Christi, fourth; Deanie Montgomery second in the second heat, and Doyle Raines third.

The class D hydroplane race, fastest of the day, was won by Raymond Owens of Fort Worth who took both heats. Other first heat winners in this order were: C. B. Norton, Jal., N.M.; Earl McGill, and Bill Holmes, and Bob Kimball, Borger, in that order.

Roland Bell, Jr., president of the Snyder Downtown Lions Club which sponsored the event, said "everybody enjoyed themselves and the club made enough money to buy a few pairs of glasses for needy children in Snyder schools."

In addition to advance ticket sales, the members of the club manning the gates yesterday sold more than 1,600 spectator tickets.

Joe Strayhorn, First Snyder Mayor, Dies

JOE STRAYHORN

Joe Strayhorn, 86, resident here for 67 years and the first mayor of Snyder, died at 9:15 o'clock this morning in Cogdell Memorial Hospital after a long illness.

Funeral service will be held at 4 p.m. Tuesday, with Bolger Funeral Home in charge. Details of arrangements had not been announced at noon today.

Mr. Strayhorn lived at 2111 Thirtieth Street. He and his wife, married at Hico in 1892, moved to Snyder three years later. When they first came here, Mr. Strayhorn was in the sheep business. Later, he operated a grocery store, gin, mercantile business, and an implement business. For some time, he was the Ford automobile dealer here.

Active in many business and civic affairs here during his residence, Mr. Strayhorn served in various capacities for the county Democratic organization each year for a number of years. He was a Presbyterian and member of the Masonic Lodge. Two years ago, the lodge presented him a 50-year button for his work in Masonic orders. He had received a 50-year button in 1950 for work in the Blue Lodge. He had been a master Mason since 1900.

Mr. Strayhorn was born May 20, 1869, in Tennessee. Survivors include the widow, two sons, J. R. Strayhorn of Rotan and J. P. Strayhorn of Snyder; four daughters, Mrs. J. W. Templeton of Houston, Mrs. Walter Cork of San Angelo, Mrs. Phil Bouchier of Post, and Miss Neoma Strayhorn of Snyder; three sisters, Mrs. R. C. Grantham and Mrs. Willie Farmer, both of Snyder, and Mrs. Frank Cole of Fort Worth; 12 grandchildren and six great-grandchildren.

Pact Due To Halt Walkout

By GLENN ENGLE

DETROIT (AP)—Ford Motor Co. and the CIO United Auto Workers reached agreement today on a historic guaranteed wage plan and other contract terms.

The settlement was expected to halt immediately widespread walkouts that idled 68,000 of Ford's 140,000 workers across the nation in the past 12 hours.

The guaranteed wage plan is the biggest ever negotiated in American industry.

It may set the pattern for the entire automotive industry and perhaps other basic industries.

Armed with the Ford agreement, the UAW went back to the bargaining table with General Motors today to press for a contract settlement there. The GM contract expires tomorrow.

Walter Reuther, president of the CIO United Auto Workers Union, emerged from a conference grinning and told reporters:

"Well, we've got an agreement, fellows. It's a good agreement."

Reuther called it "the largest economic package we've ever negotiated." He said the "package" was worth in excess of 20 cents per hour per employe.

The average auto worker now earns about $2.10 an hour.

Reuther said the agreement provides a boost in Ford pensions to a maximum of $241 a month, including social security. It also provides better hospital-medical benefits, he added.

"The Ford package," he said, "contains the principles upon which we are going to build a guaranteed annual wage."

In a joint news conference, Reuther and John S. Bugas, Ford vice president for industrial relations, congratulated each other and shook hands.

Bugas said the Ford Company had agreed to go along with the guaranteed wage plans only after "a considerable internal debate" within the Ford Company.

"We think it is significant," Bugas said. "We think our plan will be particularly useful in the automobile industry."

Reuther was asked when he intended to enter the negotiations with General Motors Corp.

"Well, boys," he said, "I'm going to get a day's rest and then go over to GM."

Bugas said he was particularly "proud" that the Ford agreement had been reached without a strike. He apparently meant a full strike, because some Ford plants had experienced walkouts.

"This has been one of the roughest and most complex bargaining sessions I've ever been in," Bugas said, "but I think it was well worth it."

Service Set Today For A. A. McMillan

Funeral services were to be held at 2:30 p.m. today at the Central Baptist Church in Hermleigh for Alech Andrew McMillan, 82, who died at 10:30 p.m. Saturday in Young Medical Center at Sweetwater after being stricken earlier that evening by a heart attack.

Mr. McMillan, who lived near Hermleigh, had been a resident of Scurry County 32 years. He was a retired farmer. Born Oct. 4, 1872, in Arkansas, he was married to Mary Alice Powers in 1897. Mrs. McMillan preceded him in death in 1953. Before moving to Scurry County, he had lived in Fisher County five years.

Mr. McMillan had been an active member of the Masonic Lodge since 1901 and had been in the Hermleigh lodge since 1923. He was a member of the Baptist Church.

The Rev. Bob Creswell, pastor of the First Baptist Church at Hermleigh, was to officiate in services, assisted by the Rev. H. P. Bishop, pastor of the Central Baptist Church. Burial was to be in the Hermleigh Cemetery under direction of Bell Funeral Home.

Pall bearers were to be James Davidson, Ralph Parrott, Alton Barfoot, Jim Farr, Bill Lea, and Dave Hess.

Survivors include seven daughters, Miss Velma McMillan, Miss Inez McMillan, Mrs. Geral Greene, and Mrs O. B. Jackson, all of Hermleigh, Mrs. F. B. Hodges of Arlington, Mrs. Van Voss of Roscoe, Mrs. Don Baremore of Midland; seven sons, Arlie McMillan, Teddy Joe McMillan and Lorene McMillan, all of Hermleigh, Walton McMillan of Snyder, Wylie C. McMillan of Lubbock, and Dorris and Dulane McMillan, both of Los Angeles, Calif.; four brothers, Allen McMillan, Henry McMillan, and Arthur McMillan, all of O'Donnell, and Luther McMillan of Lubbock; and 22 grandchildren.

High Court Rules Peters Firing Unjust

WASHINGTON (AP)—The Supreme Court ruled today that Dr. John P. Peters was wrongfully fired as a government consultant on loyalty grounds.

Chief Justice Warren wrote the court's majority opinion which ordered the Civil Service Commission to strike from its records a finding by the old loyalty review board that there was a reasonable doubt as to Peters' loyalty.

The court also ordered the Civil Service Commission to expunge from its records any ruling that Peters is barred from federal employment because of the board's finding.

The court did not pass on the constitutional question of whether the government may fire on loyalty grounds without allowing an employee to face and cross-examine witnesses.

Peters, senior professor of medicine at Yale University, was fired as a special consultant to the U. S. Public Health Service in May 1953.

His case was handled under the loyalty program set up during the Truman administration, but today's ruling could have had an important bearing on the present security program for government employees.

Midland Woman Is Victim Of Crash

A 29-year-old Midland woman was killed at 1:40 o'clock yesterday morning in a head-on collision near here which also injured six other persons, two seriously.

Helen (Mrs. J. E.) Bloodworth, 502 Mineola Street, Midland, was pronounced dead on arrival at Cogdell Memorial Hospital here, where she was taken by Bell ambulance.

The accident occurred 15.1 miles southwest of the city limit of Snyder and on Texas Highway 350.

Mrs. Bloodworth was a passenger in a 1955 Chevrolet coach driven by Herman Robert Clair, 28, Midland, and also occupied by Mrs. Edna Earl Thomason, 39, Odessa. These were all brought to the hospital by Bell ambulances.

Four persons in the other vehicle were injured and hospitalized. This car, a 1952 Chevrolet coach, was driven by Murl Malone Wharton, 25, Odessa, and occupied also by his wife, Virginia, 24, and their two daughters, Donna Ruth, five, and Sandra Lynn, three. This car was towing a 1955 Ford and was traveling southward toward Big Spring.

The accident was investigated by Bill Zimmerman, highway patrolman from here, and Homer Whisnand, sheriff. Both said the wreck occurred on westward half of the pavement on a curve just southwest of the Colorado River bridge. The Clair car was traveling toward Snyder.

Mrs. Thomas and Clair were believed most seriously hurt. She was taken by Bell ambulance this morning from the hospital here to one at Midland.

After the accident, Nolan Watson of Snyder, a passerby, brought Wharton to Snyder for hospitalization. Others passing by took Wharton's wife and children to a hospital at Big Spring. Wharton was not seriously hurt and was released from the hospital here later yesterday morning. A person contacted at the hospital in Big Spring said the other Whartons were not seriously hurt either.

Clair suffered a broken shoulder and compound fracture of an arm.

Among other injures, Mrs. Thomason was said to suffer a severe head laceration and hip injuries.

Mrs. Bloodworth, the former Helen Aline Leverett, was born Feb. 12, 1926, at San Saba. She married Joe Emory Bloodworth Jan. 30, 1947, at Henrietta. She was a member of the Christian Church. Her husband is employed by Carl Ham Well Service Co. of Andrews. They had resided at Andrews from 1951 until they moved to Midland about six months ago.

Besides her husband, she is survived by two daughters, Patsy Joan and Teresa Joyce; her mother, Mrs. George Hamilton of Olney; her father, Leslie Leverett of Houston; and a sister, Mrs. Leroy Shilling of Olney.

Funeral services are to be held at the First Christian Church at Olney sometime tomorrow afternoon with the pastor of the South Side Baptist Church of Olney officiating. Burial is to be at Olney under direction of Bell Funeral Home.

Boys' Swim Class Starts

Applications were still coming in at a rapid pace this morning for free swimming lessons for both boys and girls, according to Jack Dillon, operator of the Snyder Swimming Pool.

The first day of lessons started today for a part of the boys. Two class periods of four periods each are being conducted at the pool each morning this week for 120 boys. About that many more remain to be placed in classes. The boys' lessons are being sponsored by the Boys Club of Scurry County, and the club is continuing to register boys for membership and all its members interested for free swimming lessons.

Boys Club registration is being held at the club's summer headquarters in the stock barn in Towle Memorial Park. In addition to sponsoring the swim lessons, the club will have numerous other recreational activities for boys this summer. Guy Sullivan, recreation director, will head up the program.

Girls interested in taking the free swimming lessons under sponsorship of the Daily News are registering at the swimming pool. This is the deadline day for registration. The pool will close at 9 p.m. Girls 6 through 14 are eligible for the lessons.

Norma McArthur, Grant Teaff, Bernie Hagins, and Hal Battle are Dillon's instructors. After conducting this week's classes, the pool will announce another class schedule for next week, including those for girls.

The swimming lessons are designed to teach the beginner to swim. Each pupil will be given six one-hour lessons.

Thunderstorms Hit Central Texas Area

By The Associated Press

Storms that lashed Central and South Texas Sunday night growled away into the Gulf before dawn Monday. But nature was mixing up more.

Hardest hit was the South Texas ranch town of Encinal, where a bouncing tornado shattered buildings and damaged homes. Luckily, nobody was hurt.

Earlier, 60 m.p.h. winds howled through Florence, some 40 miles north of Austin, uprooting trees and snapping power lines. No injuries were reported there either.

Hail and high wind rocked nearby Salado. The hail reportedly wiped out crops.

Four inches of rain and heavy hail pounded Jarrell, also near Florence. Crops were badly damaged in that area, too. High wind and rain damaged F. M. Harrison's feed shop, loaded with newly harvested grain. Harrison estimated damage at $20,000.

At least six persons died in weekend traffic accidents blamed on weather. Three persons were injured in a windstorm which damaged Brady Saturday night.

Early Monday a line of thunderstorms that unleashed the turbulent weather unloaded showers on Lufkin, Beaumont, Houston and Galveston. Then they drifted out into the Gulf.

More afternoon and night showers were forecast for all sections of the state at least through Tuesday. A stalled low barometric pressure trough was setting them off.

The rare South Texas tornado dipped into Encinal about 8:50 p.m. It lifted the roof from the school auditorium and slammed it to the ground. The interior of the auditorium was demolished, yet not a window was broken.

The twister then "jumped" to an area by a railroad track, severely damaging the Stokes Lumber Co., part of the A. E. Schletze warehouse and loading platforms.

It hopped again and touched down on the Rodriguez garage, blasting the corrugated metal structure to bits seconds after three men fled it. The twister rammed a 2x4 through the wall of a cafe next to the garage. Several persons in the cafe escaped injury.

Chato Reyes, operating the cafe, said the twister "came down making a big noise and hit the garage."

The twister then rose and vanished in the east.

Several other buildings and homes were damaged. Power line poles were toppled, and the town of about 600 was thrown into darkness. An inch of rain and some hail fell.

Encinal is 40 miles north of Laredo.

Frank Manuel of Laredo radio station KVOZ said he's lived in that South Texas area since 1928 and it was the first "real tornado" he could recall.

There was no official damage estimate, but Manuel said, "If I had to make a guess I'd say it would cost $200,000 or more to replace this property."

Egg-size hail clattered down on Brenham for five minutes, disrupting electrical service in some areas. J. W. Stufflebeme, county agent, said corn and cotton may have suffered.

Heavy hail was reported at Gainesville, and Kilgore also reported a thunderstorm. Brady-area ranchers reported good rains after Saturday night's violent weather.

Rainfall included Dallas 1.29 inches, Fort Worth 1.65, Austin .37, San Antonio .37, Waco .30 and Sherman .09.

Agreement Reached In Streetcar Strike

DALLAS (AP)—Union and company officials met today to sign the agreement keeping streetcars and buses of the Dallas Railway and Terminal Co. in operation.

Employes voted 652-129 Saturday to accept the company's offer of a nine-cent per hour wage hike, with the city paying half the increase. The vote halted a strike scheduled to start last night.

One Injured In Accident

One man was slightly injured in a three-vehicle accident at the corner of Twenty-fifth Street and Avenue V about 10:30 o'clock this morning.

The injured man is Thomas C. Scarborough, 58, of 2107 Avenue S.

Scarbrough was stopped at the stop sign on Avenue V preparing to enter Avenue S from the south when two other vehicles collided in the intersection and then banged into his parked car. He was taken to a hospital by Gene Best, owner of Caprock Materials Co., which owns a cement mixer truck which was involved in the accident.

The truck was being driven east along Twenty - fifth Street by Charles Dean Sutton 25, of 2707 Twenty-sixth Street.

The third vehicle involved in the accident was a 1954 Plymouth driven by Cyrus Fletcher Landrum, 74, of Fluvanna. Landrum was attemping to make a left turn off Twenty-fifth Street into Avenue V, and his vehicle which was going west on Twenty-fifth Street, was in collision with the cement truck which was traveling east. The impact knocked the Landrum car up on the curb and almost into the plate glass window of Barrow Furniture Co., located in the southeast corner of the intersection.

Extent of Scarbrough's injuries had not been determined by noon, but he was believed not seriously hurt, and after the accident he remained at the scene for about a half-hour before being taken to the hospital.

Dulles Doubts Talks To Help

COLUMBIA, S.C. (AP)—Secretary of State Dulles expressed doubt today that the top level Big Four meeting by itself would relax international tensions.

"It will take more than words," Dulles said, "and more than one meeting, to create conditions which will justify relaxing the efforts which we have been making."

Dulles spoke out in an address before the graduating class of the University of South Carolina.

The Big Four "summit" conference will bring together President Eisenhower and the premiers of Russia, Britain and France, perhaps beginning July 18. The United States has agreed to Geneva as the site.

Dulles said the meeting would "serve to identify the present causes of tension and set a course which may lead to eliminating threats to peace and freedom."

Soviet rulers, he noted, have described the conference as "designed to relax international tensions."

"But I am doubtful," he said, "about the 'relaxing' part of the Soviet formula."

Filibuster Threat Pops Up As Adjournment Nears At Austin

By MAC ROY RASOR

AUSTIN (AP)—A new filibuster threat popped up in the Senate today with final adjournment of the 54th Legislature just around the corner.

Sen. Doyle Willis of Fort Worth launched a delaying action against a conference committee report on a bill designed to keep used car dealers from peddling new automobiles. Willis, taking the floor at 11 a.m., said it would run Texas' used car dealers out of business.

He refused to yield to any member unless he had a promise from the chair that it would not take him off the floor. Usually that's a good sign of a budding filibuster.

The bill that Willis oposed would license all automobile dealers. It has been passed in different forms by the House and Senate and Willis fought a conference committee report on it.

In the House, the Appropriations Committee recommended passage of seven bills requiring expenditure of roughly 1½ million dollars. The House then quickly passed one of them—appropriating $494,345 for pay raises authorized for 51 constitutional district attorneys last session but not then financed. It also would raise salaries of Supreme Court and Court of Criminal Appeals judges and provide for judicial retirement. It was approved 117-17.

Only two major jobs faced the lawmakers as they started what everyone expected to be the final week of the session. One was a water conservation measure. The other job dealt with veterans land program legislation.

The key measure in a long-range water saving program urged by Gov. Shivers as a top-priority legislative task was still stalled in the House. It calls for issuing of 100 million dollars in bond to help pay for local conservation projects.

The House has balked at accepting a property tax method of financing bonds, standing firm for a water users' tax.

Action was also incomplete on proposals to plug loopholes in the veterans' land program administration. Both houses have voted to submit a constitutional amendment to the people in November to extend the program with another 100-million-dollar bond issue. But legislation to make sure the money is well spent and to thwart possible efforts to profit fraudulently from it is not yet agreed upon.

There could be a last-minute battle over loan shark legislation, and it conceivably could delay the final closing of the session. But the outlook was that legislators coming back from weekend recess would be ready to quit soon.

The House has already voted Tuesday at 6 p.m. as the certain hour for adjournment. To make it stick, the Senate would have to concur. The Senate went home Friday without acting on the adjournment resolution, and there was talk a considerable block of senators favored a Wednesday or Thursday quitting hour.

A mountain of clerical work remained to be done to get bills passed last week into final form for formal approval in the House and Senate, where measures must be signed by the presiding officers before they can go to the governor.

Among them were the voluminous 1½-billion-dollar spending bill and a tax bill to raise about 98 million dollars. Both were passed last week as the session finished up its biggest "must" assignment.

WEATHER

NORTH CENTRAL TEXAS: Scattered mostly afternoon and evening thunderstorms mostly in southeast portion this afternoon, tonight and Tuesday. No important temperature changes.

WEST TEXAS: Partly cloudy this afternoon, tonight and Tuesday with widely scattered afternoon and evening thunderstorms in the Del Rio-Eagle Pass area. No important changes.

EAST and SOUTH CENTRAL TEXAS: Scattered mostly afternoon and evening showers and thunderstorms this afternoon, tonight and Tuesday. No important temperature changes. Moderate to fresh southeast to south winds on the coast.

British Railmen Reject Plea Of Eden To Return To Work

LONDON (AP)—Britain's striking railwaymen today rejected Prime Minister Eden's broadcast back-to-work plea.

Their leaders accused the Conservative chief, returned to power in a general election less than two weeks ago, of getting a lot of his facts about the strike wrong. They said his appeal did nothing to change the situation.

Eden warned in a nationwide broadcast last night that the nine-day-old strike of 67,000 locomotive engineers, firemen and cleaners is pushing Britain toward an economic smashup.

He appealed to the strikers to go back to work and then start negotiations again on their claim for more pay.

But Noel Pinches, president of the Associated Society of Locomotive Engineers and Firemen, told newsmen today that Eden's appeal "will find no favor" with his union executives.

Pinches claimed his union had already called off one threatened strike on the promise of wage talks which did not reach agreement.

Meanwhile, leaders of the striking stevedores union called a conference in London today to consider their next step in the costly walkout by 20,000 men which has partly tied up seven seaports for two weeks.

The dock strike stems from a jurisdictional squabble for bargaining rights involving the stevedores and the giant Transport Workers Union. Close to 200 freighters are idle.

A third strike by stewards on four liners prevented the sailing of 2,000 passengers for the United States and Canada. Many of them are Americans. Tied up by this strike are the 35,674-ton Mauretania, the 27,666-ton Britannic, the 19,379-ton Empress of Australia and the 14,440-ton Ascania.

In his fireside chat yesterday, Eden appealed to the striking railwaymen to go back to their jobs and end their "disastrous" walkout.

"If we go on like this," he said, "we shall smash up our hard earned prosperity."

"There is little unemployment as yet, but you cannot stop most of the trains in a land like ours without soon bringing some factories to a halt," he warned.

"As the output of one factory drops or stops, others are affected in turn. The longer the strike lasts, the more unemployment there must be in spite of all we can do."

Eden warned that the walkout was also endangering Britain's vital export trade.

"When you lose export orders, you lose future markets too," he said. "That is how the stoppages are weakening the nation—just when it is getting strong and prosperous again."

Giving an up-to-date summary of the situation, Eden said:

1. More than 7,000 trains are running each day. This is about one sixth the normal day's run.
2. "Essential traffic" has been kept moving by falling back on road, air and canal transport.
3. Essential supplies are being kept rolling. Food, milk and mail have been delivered and power supplies have been maintained.

The 67,000 striking members of the Associated Society of Locomotive Engineers and Firemen are demanding a raise if $1.12 a week over their present base of $27.50.

AREA OIL ROUNDUP

New Well Starts Near Discovery

Sun Oil Co. has completed an Ellenburger discovery at the No. 1-D Shannon Estate and begun operations on a new Ellenburger prospector in the same area of Scurry County.

The new well is the No. 1 H. J. Flournoy, located 660 feet from north and east lines of 329-97-H&TC, about 12 miles northwest of Snyder. It is one and a quarter miles west and three-quarters of a mile north of the No. 1-D Shannon. The rig used to drill the No. 1-D Shannon was skidded to the new location Saturday and operator is now drilling below 1,500 feet in anhydrite and salt.

The No. 1 Flournoy is projected to 8,600 feet, unless it finds the Ellenburger at a lesser depth.

The No. 1-D Shannon flowed 522.33 barrels of oil through a 12-64th-inch choke on the 24-hour potential test. Gravity of the oil was 40.5 degrees. Production is through perforations at 8,117-142 feet which had been washed with 150 gallons of mud acid to clean out.

Flowing tubing pressure on the test was 875 pounds, with casing pressure 725 pounds. Gas-oil ratio was 417-1.

FINDS SHOWS

Ashmun & Hilliard No. 1 Root, southwest Scurry wildcat, is drilling ahead below 7,696 feet in dark brown lime after a drillstem test from 7,567-590 feet.

The tool was open 90 minutes, with gas at the surface in 50 minutes. Recovery was 40 feet of highly gas-cut and slightly oil-cut mud and 160 feet of heavily oil and gas-cut mud with a trace of salt water. The recovery was from a lower Pennsylvanian formation which is not now identified.

FISHER WILDCAT

Texas Pacific Coal & Oil Co. has spotted a one and a quarter-mile southeast outpost to Ellenburger production in the Pardue field of northeast Fisher County.

The well will be the No. 1 Lion Oil Co., 330 feet from north and west lines of the southeast quarter of 203-1-BBB&C. It is four miles northwest of Hamlin and on the north side of the Toler-Swastika field. It is projected to 6,500 feet.

FAILURES QUIT

Wildcat failures in Stonewall and Mitchell Counties have been abandoned and plugged. Neither found any shows of commercial production.

Russell Maguire of Wichita Falls No. 1 Kennedy, 12 miles southwest of Aspermont in southwest Stonewall County, drilled to 6,316 feet.

It ran a two hour drillstem test at 6,229-316 feet. Recovery was 180 feet of gas, 180 feet of oil and gas cut drilling mud and 1,440 feet of sulphur water. That zone is reported to have been in the Ellenburger.

None of the upper formations logged any shows. The drillsite was 660 feet from south and west lines of 164-1-H&TC.

In west Mitchell County, J. K. Wadley and K. E. Jennings No. 1 Rex T. McKenney bottomed at 2,875 feet in lime.

The location was 2,310 feet from south and west lines of 29-29-1ts-T&P. It was five and one-half miles southwest of Iatan.

IN STATE COMPETITION—The three Ira 4-H Club girls above are demonstrating a six-minute skit depicting an argument between the pitcher, batter, and catcher in a colored baseball game which they will put on in the football stadium at Texas A & M College this week. They are from left Margaret Clinkenbeard, Darla Bryant, and Barbara Martin. They have already won first place in the Scurry County, and district skit competitions, and hope to be chosen at College Station as one of the skit teams to go to national competition. They will leave early tomorrow and return late Saturday (Lee Watson photograph)

Report Men Who Quit Smoking Reduce Risk Of Lung Cancer

By ALTON L. BLAKESLEE
AP Science Reporter

ATLANTIC CITY, N.J. (AP)—Men who quit smoking cigarettes probably cut their risk of dying of lung cancer compared with men who keep on smoking, the American Cancer Society reported today.

Its study finds the cancer death rate among a group of ex-smokers was only half that of smokers.

But society officials said that due to the small numbers of smokers and ex-smokers involved, it cannot be "proven beyond reasonable doubt" that quitting reduces the risk of lung cancer. They declared more evidence is needed.

This is a main finding in the latest report of a continuing society study of nearly 190,000 men, aged 50 to 70, and their smoking habits and what they die of.

Criticizing the statistics, Timothy V. Hartnett, chairman of the Tobacco Industry Research Committee, said the study "does not establish any cause and effect relationship."

Just a year ago the first report, indicating cigarettes play a role in lung cancer, was announced by Doctors R. Cuyler Hammond and Daniel Horn, director and assistant director of the society's statistical research, at the annual meeting of the American Medical Assn.

That first report covered 20 month's time and deaths of nearly 5,000 men.

Today's report at the opening of the AMA's 1955 session covers 32 months and studies of deaths—whether from cancer or other causes—among more than 8,000 men.

Some of the conclusions of Hammond and Horn:

Lung cancer is rare among men who have never smoked.

The death rate from lung cancer increases with the amount of cigarettes smoked. The rate is appreciable even among men who smoke less than 10 cigarettes daily.

Regardless of whether men live in big city or rural areas, the rate is high among smokers, and low among nonsmokers.

Among men who smoke two packs or more daily, heart disease is the most common cause of death, and lung cancer is second. In these men, lung cancer accounts for one in eight deaths.

In the general male population of this same age lung cancer accounts for 1 in 30 deaths. Among these heavy smokers, lung cancer outranks accidents, brain strokes and other causes of death to take second place.

Pipe smoking "appears to be associated with lung cancer" but far less than cigarettes. Last year, little evidence had been found in this study to point to any danger in pipe smoking.

Cigar smoking still does not show any significant association with lung cancer in this study.

Speaking for the tobacco industry committee, Hartnett said, "Statistical experts point out that this study ignores important environmental, geographical, occupational, physical and emotional factors that affect disease and longevity."

He said that in his opinion "it is obvious that cancer authorities realize no link has been proven and do not accept this study in statistics as the answer to the lung cancer problem."

Cotton Is Lauded As Texas Cash Crop

SAN ANTONIO (AP)—Cotton is the most important cash crop in Texas today, C. B. Spencer, Dallas, agricultural director of the Texas Cottonseed Crushers Assn., declared today.

Spencer addressed some 400 delegates to the 2-day convention of the association.

He told them cotton had accounted for 40.9 per cent of the total cash income from sale of all agricultural commodities in Texas during 1954.

In the last six years, he added, cotton yields have been higher than in any comparable period in the cotton-growing history of the state. Acre yields and income are increasing largely as a result, he said, of increased irrigation and improved farm methods.

He reported approximately one-third of the harvested cotton acres in Texas will receive the benefit of irrigation this year.

Three Freed Pilots Start Trip Home

HONOLULU (AP)—Three of the four U.S. jet fighter pilots freed by the Chinese Communists at Hong Kong last Tuesday leave for home today with their families aboard a special Air Force plane.

They are Capt. Harold Fischer, Swea City, Iowa; Lt. Lyle Cameron, Lincoln, Neb.; and Lt. Roland Parks, Omaha.

The fourth, Lt. Col. Edwin Heller, of Wynnewood, Pa., and his wife will stay here 10 or 12 days. He is to take physiotherapy treatment for a leg injury incurred when he bailed out of his plane over North Korea.

The four Korean War veterans, held by the Reds more than two years, were reunited with their families here Thursday.

Fischer, a double jet ace of the Korean War, said in an interview yesterday he tried to pass himself off as a Russian pilot when he was captured.

"It was just a bluff, but it darn near worked," he said.

"When they grabbed me, I made out like I was outraged. I told them, in what I thought was a thick Russian accent—'You can't do this to me.'

"Some of the Chinese swallowed it and looked like they wanted to let me go. Then they found my plane."

He parachuted when fragments of a MIG fighter he shot up disabled his plane south of the Yalu River boundary between Manchuria and North Korea April 7, 1953.

In an earlier interview, Fischer said he hoped to remain friends with his divorced wife Mrs. Dorothy Van Bank Fischer, "but it will be nothing more than that."

Mrs. Fischer, working now in San Antonio, Tex., said Saturday she plans to "contact him the moment he gets back home."

HOSPITAL NOTES

The following admissions and dismissals at the two Snyder hospitals are only those whose names have been released by the hospitals.

BATTENFIELD-JONES

Admissions: Ida Dorsey, Snyder; William Robert Bramble, route 3; Miles Eckert, Fluvanna; Alma Adkins, Snyder; Hubert Jones, Claremont route; Mrs. Douglas Vineyard, Hermleigh; Mrs. Elma Callis, 1101 Twenty-sixth Street; Donald J. Boyd, Snyder; Mrs. J. T. Carey, 3704 Austin; Eva Kolar, Waller, Tex.

Dismissals: Mrs. C. O. Bennett, 801 Twenty-seventh Street; Don Teague, Snyder; Robert Motley, Cabin Courts; Donald Jeffress, route 1; James Rogers, 420 Thirty-second Street; Charles Ingerson, Snyder; Mrs. Clyde Yost and baby, 405 Thirty-third Street; Dianne Yost, 405 Thirty-third Street; Mrs. Vitoria Ybarra and baby, Snyder; Mrs. Lena Green, Arah route; Mrs. Kenneth Henson, Snyder; Eva Kolar, Waller, Tex.

COGDELL MEMORIAL

Admissions: Mrs. W. E. Lee, 1303 Twentieth Street; Herman Clair, Odessa; Mrs. James Thomason, Odessa; Daniel Faniel, 3413 Avenue M; Alice Faye Thomason, Odessa; Floyd Glenn Upton, Coleman; James Gordon Horst, 409 Twentieth Street; Mrs. Fickas Bell, Snyder; William A. Disheroon, Snyder; Mrs. G. W. Bigham, Snyder; Mrs. John L. Martin, 2503 Twenty-seventh Street.

Dismissals: Mrs. W. E. Lee and baby, 1303 Twentieth Street; Mrs. James Thomason, Odessa; Alice Faye Thomason, Odessa; Glenn Upton, Coleman.

TODAY'S MARKETS

BIRTHS

Mr. and Mrs. G. W. Bigham of Snyder are the parents of a six-pound, seven-ounce daughter born at 10:34 p.m. yesterday in Cogdell Memorial Hospital.

Mr. and Mrs. S. H. Ator, Jr., 3725 Sunset, are the parents of a boy weighing eight pounds, nine ounces, born at 5:15 p.m. Saturday in Cogdell Memorial Hospital.

Mr. and Mrs. W. E. Lee, 1303 Twentieth Street, are the parents of a daughter born in Cogdell Memorial Hospital at 12:50 p.m. Saturday. She weighed eight pounds, 10 ounces at birth.

Sheriff Auction Set

Several vehicles are to be sold at auction at 10 o'clock tomorrow morning by the sheriff's department at the east steps of the courthouse.

The vehicles are being auctioned on order of the district court of Howard County in which the federal government as an intervener was awarded judgment against Ralph E. Powers. The original suit was brought by Lone Star Chevrolet Co., of Big Spring.

The vehicles are an Allis Chalmers tractor with bulldozer, a 1948 Willys jeep with post hole digger, a 1948 Dodge truck tractor, and an American 32-foot tandem semitrailer.

Bill Love, chief deputy sheriff, will be auctioneer.

The value of U.S. farms including land, buildings, crops livestock and machinery was estimated at 135 billion dollars in 1953.

Sicily Counts Heavy Vote

By JAMES M. LONG

PALERMO, Sicily (AP)—Sicilians counted a record flood of ballots today. Other NATO nations awaited the outcome as an indication of which way Italy's political currents are running.

The turnout of nearly 2,400,000 voters in yesterday's election was expected to favor the democratic center parties, which man Italy's national government also.

Yesterday's voting was to elect the island's semiautonomous Regional Assembly. Of those eligible, 86.89 per cent voted. This was 5 per cent higher than in the last regional election, four years ago.

Most observers expected the final results to show a drift away from the Communist left.

American voices played a big part in the election.

On the island where almost everybody has a relative in the United States, thousands of letters from the immigrant kinfolk urged the defeat of communism.

American dollars were another factor. During the campaign Italy received more than 120 million dollars in aid or loans to be spent in Sicily or other regions of Italy's poverty-strapped South.

Ceremonies Set By Knights Of Pythias

The rank of Esquire, second rank in the Knights of Pythias Lodge, will be conferred at 7:30 o'clock tonight in ceremonies conducted by a team from the Big Spring Lodge.

Twenty-eight members of the local lodge will receive the rank. That group last week and the week before received the rank of Page. The ceremonies will be held in the Clark Building, across from Ezell Motor Co. on Twenty-fifth Street.

Dr. Paul Campbell of Bonham, extension director for the Grand Lodge of Texas, who helped organize the local lodge recently, will be here to address the candidates.

Woman Robbed While Receiving Degree

BOSTON (AP)—While Mrs. Helen V. Rose was receiving an honorary degree from Emerson College yesterday a thief was busy stealing $3,000 worth of her jewelry from a nearby cloakroom.

The Newton housewife, a graduate of Emerson who is active in its speech clinic, had worn the jewelry but was advised it was customary not to wear any while receiving a degree.

She placed the jewelry in a hatbox in the cloakroom. After receiving a master of arts degree, she discovered the jewelry and a handbag containing $24 had been stolen.

Mt. Pleasant Rites For Charlie Ford, 59

Funeral services for Charlie Ford, 59, the brother of Mrs. J. C. Wall, Sr., were held yesterday in Mount Pleasant. Mr. Ford, who lived here at one time, died Friday afternoon.

Attending the funeral in addition to Mrs. Wall were Mr. and Mrs. Grover Wall, Mr. and Mrs. Milton Wall, Mr. and Mrs. Ab Boyd, Mr. and Mrs. Pete Sterling, Mr. and Mrs. James Wall, Walter Wall and Mr. and Mrs. J. C. Wall, Jr.

BURGERS WITH TOMATO SAUCE
. . . for outdoor cookery

Helps For Homemakers

Send your questions to "Helps for Homemakers," Snyder Daily News, or call 3-5486.

Vary the hamburger meal and still have it quick and easy for summer eating.

Want to cook hamburgers over an outdoor fire? Put them in a skillet and brown the meat. Then add a can of meatless tomato sauce — an eight-ounce can designed for use with spaghetti is one good kind. Add a small onion cut into rings and a quarter cup of pickle slices, then finish cooking. Ladle onto buns toasted over the grill.

For a porch buffet, wrap the hamburgers with bacon. Serve with the usual pickles and olives and a big salad. If you would like a casserole to use at the same time, here is a fondue.

SWISS CHEESE - HAM FONDUE
2 tablespoons butter or margarine
2 tablespoons flour
1 teaspoon salt
1½ cups milk
1 cup grated Swiss cheese
2 eggs, separated
3 slices enriched bread
¼ cup deviled ham
2 tablespoons minced parsley

Melt the butter over low heat in a medium-sized saucepan, blend in flour and salt, then add milk all at once. Cook until thickened, then stir in the cheese until it melts. Beat the egg yolks slightly and gradually stir in the sauce. Spread one side of each bread slice with deviled ham and cut the slices into half-inch cubes. Add the cubes and parsley to the sauce. Beat the egg whites until stiff, then fold into the cheese mixture. Pour into a one-quart casserole and place in a pan of hot water. Bake in a slow oven (325 degrees) one hour. Serve at once. Makes six servings.

222 Descendants

BAKERSVILLE, N. C. (AP)—Mrs. Hattie McKinney Pitman, 92, died Saturday leaving 222 direct descendants—10 children, 82 grandchildren, 120 great-grandchildren and 10 great-great-grandchildren.

WHAT'S GOING ON

Mr. and Mrs. Perry D. Harris, southwest Thirty-fifth Street, recently returned from Las Vegas, Nev., where they vacationed for a week. They saw many interesting shows including one with the Dorsey Brothers. They also saw Rosemary Clooney, Jeff Chandler, and Marilyn Maxwell.

Mrs. Bamma Davis, 801 Twenty-ninth Street, has had as guests her daughter, Mrs. N. C. Howell and children, Becky and Mike, of Almagordo, N.M.

Mr. and Mrs. Neilan Bemis and children, Pat and Suzie, of Texarkana of visiting in the home of her parents, Mr. and Mrs. Ralph Geisenhoner, 3702 Dalton Drive.

Perry Bolger, 3100 Hill Avenue is in Waco visiting friends and relatives.

Mrs. Weldon Brooks, 3200 Avenue A, visited her parents, Mr. and Mrs. George Daniels, in Big Spring Friday.

Mrs. Ed Shultz, 3108 Fortieth Street, was in Lubbock Saturday on business.

Mrs. Donnie McCormack, 1911 Avenue O, recently returned from a business trip to Dallas.

Mr. and Mrs. James E. Boyd, 316 Thirty-second Street, are newcomers to Snyder. They moved here from Hobbs, N.M. He is with Raines Construction Co.

Guests in the E. M. Houston home over the weekend were Mr. and Mrs. Fred Greer of Decatur, Mr. and Mrs. Sam Houston and Jay of Hermleigh, Mr. and Mrs. Richard Harding and Jerry, Mr. and Mrs. Fred Keyser, Mr. and Mrs. Carl Greer and childen of Midland and Mr. and Mrs. Jessel Bailey and baby of Sunray.

Coffee Honors Mrs. Broaddus

Mrs. John O. Broaddus was honored Friday morning in a coffee given at Mary Lynn's Tea Room.

Mrs. Broaddus and her husband, a physician, are moving to Albany, N.Y., where he will continue studies toward a specialty in surgery.

Hostesses were Mrs. E. A. Brooks, Mrs. W. B. Lee, Jr., and Mrs. Harry Ward. Dawn Lee of New York City, who is here visiting her grandmother, Mrs. W. B. Lee, Sr., gave two readings, one a takeoff on Henry Wadsworth Longfellow's "Legend of Hiawatha," and the other "Friends, Old and New."

Guests were Mrs. R. E. Patterson, Mrs. John Battenfield, Mrs. Ray Cockrell, Mrs. Robert Wasson, Leah Davis, and Mrs. W. F. Shiflett.

SLIMMING SHIRTWAIST

Smart casual shirtwaist dress with notched cap sleeves, skirt with gentle, figure-enhancing flare.

No. 2344 is cut in sizes 14, 16, 18, 20, 36, 38, 40, 42, 44, 46, 48. Size 18: 4½ yds. 35-in.

Send 30c for PATTERN with Name, Address, Style Number and Size. Address PATTERN BUREAU, Snyder Daily News, Box 42, Old Chelsea Station, New York 11, N.Y.

Patterns ready to fill orders immediately. For special handling of orders via first class mail include an extra five cents per pattern.

Season cream sauce with grated Parmesan or Romano cheese and serve over broiled or panned chicken breasts for a company dish. The poultry may be fresh or frozen. The frozen breasts may be had in a pound package — enough for two or three servings. With the chicken and its sauce, serve rice mixed with butter and lots of finely chopped parsley and a big salad. Hot biscuits or rolls are a pleasant accompaniment, too.

Second Speed Sewing Study Is Scheduled

A second workshop in speed methods of sewing for adults is being held tomorrow and Thursday at the high school, and plans will be made Thursday evening for classes in a beginners' sewing course.

Mrs. Joel Hodges, who will conduct the worskhop, said the speed method sewing will be studied at sessions at 9 a.m. tomorrow and Thursday. Straightening of material, shrinking, pattern alteration, laying on material, cutting and marking will all be covered in tomorrow's demonstration. The group in the workshop will also work on stay stitching, darts, interfacing, buttonholes, necklines, and shoulder seams.

At 7 p.m. Thursday, all persons who are just beginning to sew or who wish to learn will meet to plan classes, which will be held next week beginning at 9 a.m. each day. Actual garments will be made in this course, and a play school will be provided for children whose mothers take the course.

Thursday night's meeting will be held in the home economics department at the high school, and those enrolling will plan what material and patterns they will need. Any persons interested should contact Mrs. Hodges or T. D. Wiman, high school principal.

WOMEN'S CALENDAR

TUESDAY

Evening Circle, Presbyterian Women's Organization, 7:30 p.m., with Mrs. George Killam, 3766 Dalton Drive.

Couples Duplicate Club, 7:30 p.m., Country Club.

THURSDAY

High Travelers Bridge Club, 2 p.m., with Mrs. M. L. Galloway, 3104 Forty-first Street.

Town and Country Garden Club, 2 p.m.; Mrs. E. G. Weyel hostess at the Hilander.

Friendly Fellows 42 club, 8 p.m., with Dr. and Mrs. R. D. English, 2304 Thirtieth Street.

FRIDAY

Ladies Day, Country Club; golf tee off, 9 a.m.; duplicate bridge, 9:30 a.m.

Opti-Mrs. luncheon, 12 noon, Manhattan Coffee Shop.

Mrs. and Mrs. L. Chaney of Eunice, N.M., recently visited in the home of Mr. and Mrs. Archie Chaney, Peyton Avenue. The Archie Chaneys returned home with them for a visit.

NEWS FROM CANYON

By MRS. MARGARET RILEY

Max Sumruld was honored with a party Sunday afternoon on his ninth birthday at the home of his parents, Mr. and Mrs. Alton Sumruld. Guests were Ronnie and Kent Shepherd, Joe and Elilda Wall, Carolyn Walls, J. N. and Sidney Wall, Riley Sterling, and Janet Ann and Don Kimbrell.

• • •

Mr. and Mrs. Bill Labenske honored their daughter, Deborah Sue, with a party Friday afternoon on her fourth birthday.

Children who attended were Stevie and Perry Neal Henderson, Martha and Charles Brite, Jeff and Paula Younkin, Vickie Minor, Elaine Teale, Larry Lofton, and Norman and Wayne Hoffman. Mrs. Labenske was assisted in serving by Mrs. Henry Lofton, Mrs. A. N. Hoffman, Jr., Mrs. Percy Younkin, Mrs. Dillard Teale and Mrs. Edwin Minor.

• • •

Visiting Mr. and Mrs. Alton Sumruld and sons have been Mr. and Mrs. Milton Wall, Mr. and Mrs. James Eddy Wall, Mr. and Mrs. Pete Sterling, Mrs. Annie Sterling, Mrs. Gus Sterling, Mrs. Leon Sterling and Mrs. Ilene Kruse of Snyder.

Mr. and Mrs. J. A. Fowler of Snyder visited Mr. and Mrs. John Layne Sunday. They attended the fifth Sunday singing at Ira. Also visiting the Laynes have been Mr. and Mrs. C. W. Kimbrough and sons of Snyder and Mr. and Mrs. Buck Layne of Ira.

Mr. and Mrs. Bill Labenske and Debby spent the weekend in Bronte.

Guests of Mr. and Mrs. Ed Taylor during the weekend have been Bobbye Taylor and Betty Taylor of Lamesa and Roy Taylor and Patsy Taylor of Andrews.

Peggy Taylor accompanied Baleria Eubanks and her parents of Ira on a weekend fishing trip to Coleman.

Mr. and Mrs. Henry Layne and Lorita Stirling attended a Little League baseball game in Ira Tuesday.

Joy Stirling, Darla Moore and Kay Ford are attending Girl Scout day camp on the Newton farm near Snyder.

Jim Stirling and Bob Stirling attended a Boy Scout meeting in Ira Monday night.

Mrs. Margaret Riley and Kenny and Mrs. J. S. Golden attended church services in Lubbock Sunday night. The speaker was a missionary from Brazil. They also visited Mr. and Mrs. J. L. Birdwell in Lubbock.

Mr. and Mrs. Elma Cummings of Canyon visited Mr. and Mrs. L. F. Stirling and Mr. and Mrs. Jim Stirling and family recently.

Mr. and Mrs. W. C. Kerley of Hermleigh recently visited Mr. and Mrs. Bruce Kerley.

Mrs. J. S. Golden has been visiting Mr. and Mrs. J. E. Birdwell and family in Post. Mrs. Ray Brown of Rotan met her there. She also visited Mr. and Mrs. Roy Golden in Brownfield.

Mrs. Ed Taylor and Mrs. L. F. Stirling visited Thursday with Mrs. Ed Grant and Mrs. Leslie Boatman in Ira.

Mrs. Margaret Riley and Kenny spent several days last w[illegible] with Mr. and Mrs. Tom Ford at Welch and Mr. and Mrs. Pete McNell in Brownfield.

Mr. and Mrs. Howard Myers of Snyder visited Mr. and Mrs. Grady Moore and daughters Thursday.

Ruby Matlock of Westbrook spent the weekend with Billye Ridley.

Mr. and Mrs. Gene Carlisle of Ira visited Sunday with Mr. and Mrs. R. E. Adams. Mrs. Adams and Mrs. Pherigo went to Colorado City Tuesday on business.

Sharon and Cherry Rollins spent several days last week with their grandparents, Mr. and Mrs. J. H. Wiggins, in Colorado City.

Visiting Mr. and Mrs. Houston Kimbrell and family have been Mr. and Mrs. L. C. Kimbrell and family of Seminole.

Mrs. T. M. Pherigo returned home Monday after visiting Mr. and Mrs. Bruce Ainsworth and son and Mr. and Mrs. J. C. W[illegible] and family in Grand Prairie. She also visited her sister, Mrs. Roy McCollum, at Blue, Okla.

Jimmie Pat Woosley of El Paso visited Mr. and Mrs. Alton Sumruld Friday night.

Mrs. J. S. Golden, Mrs. Margaret Riley and Kenny, Mrs. L. F. Stirling, Mrs. R. E. Adams and Mr. and Mrs. Judd McGaha attended the wedding of Bobbie Kerley and Frank Taylor in Snyder Friday night.

$450.00 CASHWORD PUZZLE

If You Have the Correct Solution and Your Entry Is On a Postcard or Card the Size of a Postcard, You May Win $475.00.

EXTRA BONUS
If Winning Entry Is Deposited With One Of Merchants Below!

Read These EASY Instructions
Send In Your Completed Puzzle!

Here's How To Play It....

CHOOSE from each clue the word you think best fits the definition.
LETTER the answers in the blank spaces provided in the puzzle until all the white squares have been filled in.
SOLVE the clues across and down as you would any other crossword puzzle.

Here Are The Rules:

(1) Anyone may enter except employes of The Snyder Daily News and members of their family.

(2) Entries must be made in crossword puzzle form. They can be on the form printed here for your convenience or on a hand-drawn facsimile the same size.

(3) A cash prize of $450.00 will be paid for the correct solution. If more than one correct solution is received, the prize will be equally divided among the winners. If no correct solution is received, the week's prize will be added to the award for next week's contest.

REMEMBER: There is only ONE correct solution and only a correct solution can win. There is only one answer that in the decision of the judges is the BEST word fitting the definition in each clue. The decisions of the judges shall be final and all contestants taking part agree to accept those decisions as a condition of entry.

(4) After you have filled in the puzzle, clip it evenly and deliver to The Snyder Daily News to arrive before 5:30 P.M. Wednesday or post marked midnight Wednesday.

Any entries received after the deadline, whether by mail or hand delivery, will be declared ineligible.

This Week's $450.00 Clues

CLUES ACROSS:

4. Female pigs.
6. Wanting to ——— a will, it's best to seek legal help.
8. Busy insect.
9. If not satisfactory, may put a golfer right off his game.
10. Are associated with mice, of course.
11. The prospect of having one may keep a youngster's mind occupied.
12. Successful circus artists need to have it, of course.
14. No particular one.
15. Smoking a cigarette while you're doing so is a bit tricky.
17. Wish good upon.
20. Involved, perhaps, in a dispute over money.
22. Constant ——— will depress the most light-hearted person.
23. Girl's name.
24. There's always a demand for really good ———.

CLUES DOWN:

1. If it leads to a quick settlement, so much the better.
2. If a witness ———, it can certainly complicate a case.
3. Apt to grow higher in some places than others.
4. ——— workers can certainly help production along.
5. It's necessary in the garden.
7. Short for "veterinary."
11. Girl's name
13. Fish eggs.
14. Part of your leg.
16. A little child has a tiny one.
18. One would hesitate before allowing an inexperienced actor to play it.
19. Only after an emotional upheaval would a man decide to renounce his ———.
21. If you felt like a snack, a ——— sandwich would be better than nothing.

Bible Thought

For now we see through a glass, darkly; but then face to face: and I know in part; but then shall I know even as also I am known. (I Cor. 13:12)

EDITORIALS

Summerfield's Alibi

Texas and New Mexico were both astonished the other day when a Post Office Department press release placed the New Mexico cities of Roswell and Hobbs squarely in the State of Texas.

Governor Simms of New Mexico acted promptly. He alerted the New Mexico National Guard to "preserve the integrity of our borders," and instructed his Department of Education to "send Postmaster General Summerfield a map of the State of New Mexico with the communities of Hobbs and Roswell circled in red."

Rep. Rutherford of Texas moved in on the situation with admirable celerity. He wrote the postmaster general that if the Post Office Department wants Roswell and Hobbs in Texas, the Lone Star State would be big enough and generous enough to accept them. True to his Texas instincts, the Odessa congressman managed to get in a plug for his home town and a request for better postal facilities.

Well, the funny part of it is Roswell and Hobbs are both in Texas. The Texas Roswell is in Bosque County and is credited with a population of 50. The Texas Hobbs is in Fisher County and is credited by the Texas Almanac with 70 souls.

So, if Postmaster General Summerfield is looking for an alibi, he can claim it was a natural mistake. Trouble is, the Almanac credits neither with having a postoffice.

Looking further into Texas lore, we find that Bell County also has a Hobbs—a station on the Katy Railroad. The Fisher County Hobbs, says the Handbook of Texas, was settled by J. P. Martin, J. M. Wilhite and R. A. Brown, and a post office was established in the Robert Martin home in 1888 and was later replaced with rural delivery from Rotan. As for Roswell, Texas, the Handbook says merely that it had two stores in operation in 1950 and a population of 50 in 1940.

There is, or was, even a Summerfield, Texas—in Castro County, with a population of 75 in 1940.—and a Simms, Texas, in Bowie County, which at one time had a post office. Besides, much of New Mexico was once part of Texas, but was sold to Uncle Sam.

Matter Of Capability

A top Canadian airman said Friday that the Western powers are "keen, anxious and willing" to take on the Russians "any time they attack us."

He was Air Vice Marshal J. L. Plant, top adviser on materiel to the Canadian Air Force, and onetime chief of staff to U.S. Gen. Lauris Norstad as commander of the NATO air forces of Central Europe.

"And we will knock aitch out of them," the marshal told 300 U.S. and Canadian aviation writers at a dinner in Toronto. He declared that even without weapons of mass destruction "we could lick the Russians hands down, and why we should be scared, I'm d - - - - if I can see. We do have weapons of mass destruction, and we are going to plant them on them the minute they kick over the traces."

But there are a few reservations in the Canadian air marshal's old-fashioned forthrightness which took some of the steam out of his boasting. He said that as long as the West has a greater military capability and a larger stockpile of war material, the Russians won't take offense when other nations disagree with them.

"But the minute we have equality, therein lies the danger of somebody losing his temper," he added.

This somewhat cryptic remark presumably means that as soon as Russia has equality with us militarily speaking, she will go on the prod.

The danger to the West apparently is not imminent, for it is certain Russia will want to be absolutely certain of her superiority before risking war. She is going about gaining this superiority in two ways: 1. She is maintaining and even increasing her high rate of military production at the cost of consumer goods, and 2. She is making moves calculated to induce the West to cut down on its own military production.

These two deadly goals are coming closer and closer, and unless reversed Air Marshal Plant's remarks at Toronto may eventually go down in history as sheer bombast.

Ad Columns

BELEN, N.M. (AP)—Commented Bill Gardner and Dick Curtiss in print: "Neither of us got shot after the first column hit the street . . . merchants of Belen must need target practice."

The two recently started a column in the weekly Belen News Bulletin called "Down Ad Alley," an invasion by the advertising men of the traditional editorial sanctum. Editor Carter Ward says it is a popular feature.

Those Russian Farmers

Activity In Most Business Lines Still Holding Pace Near All-Time Record Level

By WALTER BREEDE JR.

NEW YORK, June 6 (AP)—Auto production dropped last week to its lowest level of the year, but activity in most other lines held close to record peaks.

Things still hummed in such key areas of the economy as steel production, coal mining, heavy construction, rail freight traffic and electric energy consumption.

Businessmen sizing up the outlook for the summer had plenty of reason for optimism. Some slowdown in over-all activity was inevitable, many felt, but the dip would be a mild one, and it wouldn't last long.

The trend was apparent in the nation's basic industry, steel. Mills, going full blast at nearly 97 per cent of capacity, were still unable to keep pace with the flood of new orders; some would soon shut down for long-overdue repairs.

"The terrific pace is an eye-opener even to the most optimistic," commented the trade weekly, Iron Age. "More steel producers are thinking in terms of a possible record production year in 1955. If production continues at about the present pace—and there is a good chance that it will—1953's record of 11,600,000 tons will be broken."

Cutbacks in auto production reflected sporadic walkouts and the Memorial Day holiday, but it was evident that most of the automakers would have slashed their output anyway. Ward's Automotive reports estimated the week's production at 132,774 cars and 26,243 trucks. In the previous week, U.S. factories turned out 167,455 cars and 39,727 trucks.

While strike jitters may have contributed to the slowdown, Detroit sources said most manufacturers had scheduled June-July cutbacks long before company-union talks on the guaranteed annual wage reached the crisis point.

So far this year, U.S. automakers have built more than 3,709,000 cars, against only about 2½ million at the same time last year. Inventories are at an all-time high of 800,000. At least seven manufacturers are expected to shut down in the next two months. The reason: To get an early start on production of 1956 models.

Economists who had predicted dire results from curtailed auto output sang a different tune this week. Now the consensus seemed to be that brisk activity in other fields would offset the auto decline. Retail trade was on a high plateau. Department store sales for the week ended May 29 were a hefty 10 per cent higher than in the comparable week of 1954; total retail sales for the week through Wednesday, Dun & Bradstreet said, ranged from 4 to 8 per cent higher than a year ago.

Total retail volume for June was headed for the 15½-billion-dollar mark, a record for the month. Trade observers pointed out that any decline in auto purchases this summer would free vast sums of consumer dollars for other purposes, and that vacation resorts might get the lion's share. Hotels, motels and tourist camps were getting set for the biggest vacation season in history.

Once again, economists and businessmen argued the pros and cons of selling consumer goods on easy credit. On-the-cuff purchases of automobiles sparked a whirlwind rise of more than half a billion dollars in the total installment debt of the American people during April. At month's end, installment indebtedness stood at 23½ billion dollars, a record. Were Americans too deeply in hock? Opinion was divided.

Briefly over the business scene: General Electric Co. expects its 1955 sales to match the record $3,100,000,000 achieved in 1953, says Ralph J. Cordiner, president. Sheraton Corp. of America, which operates a chain of plush downtown hotels, will build a $2,225,000 motor court at Tarrytown, N. Y., astride the New York State Thruway. A restaurant man in Northampton, Mass., has revived the nickel cup of coffee.

Helen Keller Grieves For Victims Of Self-Sympathy

By HAL BOYLE

NEW YORK (AP)—The Oddity Almanac:

Feel sorry for yourself?

Here's some advice from Helen Keller, who will be 75 years old this month.

"I often feel deeply grieved for those who suffer from self-sympathy. They allow themselves to be tied in a knot instead of looking around for new things to keep them busy. I find life an exciting business — and most exciting when it is lived for others."

Miss Keller, who lost the powers of sight, speech and hearing in infancy, became one of the most inspiring examples of victory over personal handicaps in human history. A famous author, teacher, and speaker, she mastered seven languages, found her own road to happiness.

At 74 she made a 40,000-mile tour in behalf of the world's 14 million blind people. Still busy with new projects to aid the handicapped, she says:

"When people say I ought to retire, it makes me mad."

Still feel sorry for yourself?

Passing the time can get to be quite a problem with a modern company executive, who may spend up to six months or a year on the road.

To foil boredom, Harry Rolnick, a hat firm president from Garland, Tex., kept a diary of his activities in five years of train travel. The diary shows (he says) that in those five years he opened a train window unaided 88 times; read 113 books; counted 9,516 telephone poles; completed 93 crossword puzzles and left 184 unfinished; wrote 11 poems, 7 of which he tore up because he didn't like the rhymes; played 318 games of solitaire (he lost 290 times, cheated 8 times); and ate 804 sandwiches.

An even more interesting diversion is to look out the train window and yell "beaver" every time you see a red-haired girl. The type of fellow who does this, however, rarely trusts himself to keep a diary.

Almanac Editorial: A Senate subcommittee recently announced it would launch an inquiry to find out why so many poor people remain poor.

A member of this Almanac's staff, seeking a quick answer to this problem, interviewed a number of poor people hanging out in a nearby pool room, and came up with this report:

"Four out of five said they remained poor because, unlike Congress, they lacked the power to vote themselves a 50 per cent increase in salary whenever funds sank low in their piggy banks."

Perhaps Congress in the course of its inquiry can also investigate another matter: Why some poor legislators remain poor — instead of getting better.

(Editor's Note: Opinions expressed in Boyle's Alamanac editorials do not necessarily reflect the views of this paper, Boyle himself—or Marilyn Monroe, so far as we can determine).

Decline of The Human Race Note: A leading New York hotel says that martinis now outsell manhattan cocktails 6 to 1 in its men's bar — only a few years ago it was the other way around. Vodka mixtures are in rising favor with quaffers who hold to a lurid theory that the Russian national beverage leaves no trace on the breath. But aren't they confusing it with chlorophyll?

Mighty thoughts from mighty minds for you to brood over:

Liberace — "The public has a right to invade my privacy. I make my living in the public eye."

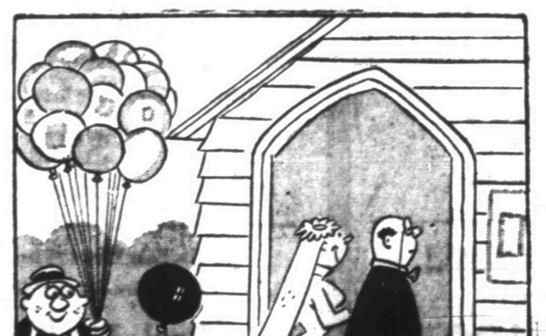

Maxie Rosenbloom — "My psychiatrist has a sign in his waiting room that says, 'Sure cure or your mania back.'"

Raymond Massey — "Love is like a well. The more you use, the more there is."

Anonymous Marriage

SAN DIEGO, Calif. (AP) — Court Clerk Al Fern has this request from an ex-GI in Maryland, who had lost his divorce papers and wanted new copies: "The case was entitled Foster Vs. Foster. I do not remember the girl's name."

BUCKLEY

Despite Naive Talk, Nobody Really Believes Germany Can Be Ruled By Foreign Coalition

By WALTER LIPPMANN

The Bonn government is very much exercised by the talk about German neutrality. The talk was set off by Mr. Molotov's speech at the signing of the Austrian treaty and it has been greatly promoted by the President's remarks at last week's press conference. What with the trial balloons, the protests and the denials, there is now considerable confusion inside the Western Alliance.

The confusion is due, I believe, to this: that all the governments who are vocal — Bonn, Moscow, and Washington — are talking about the superficial, indeed the unreal notion, of neutralizing Germany by the decision and force of the victors of the World War. But these governments are thinking about what the German nation, now sovereign, may do in order to obtain its own unification within frontiers that are acceptable to the German people. The notion of a neutralized Germany is a fantasy. The notion of a Germany taking the initiative and acting with growing independence is a reality.

* * *

Mr. Molotov, to be sure, has talked as if he believed that the Big Four could and should, in the manner of Yalta and Potsdam, impose a neutral regime with strictly limited armaments upon a reunited but controlled and supervised Germany. Mr. Molotov knows better than that. Mr. Molotov has let it be known in a dozen different ways that he is expecting ultimately to deal directly with the Germans. He is talking for the innocent and naive, and so are we when we protest. There is no serious person who believes that the strongest nation on the European continent can be ruled now by a coalition of foreign powers, divided among themselves by a cold war.

It ought not to be necessary to say that the United States would not agree to such a "settlement" even if it were not a practical absurdity. It may also be said that if the real question about German "neutrality" dealt with an imposed settlement of the Potsdam type, Dr. Adenauer would not be so much concerned. He knows quite well that the time is long past for such things. The real question about German neutrality is not what the Allies might impose on the Germans but what the Germans themselves may insist upon for themselves. The denials and assurances from Secretary Dulles, the speeches of Ambassador Conant, are addressed to the Germans who are thinking about what kind of peace treaty they, or more specifically the government that would succeed Dr. Adenauer's, may be able to negotiate with Moscow.

* * *

We may, I would guess, go farther than this and assume that the practical issue is not whether West Germany will negotiate with Moscow but when it will negotiate and under what circumstances. Is the negotiation to take place now before Germany is armed, or two or three years hence? If negotiations are to take place now, the price the Germans might be asked to pay for unification would probably be not only to remain virtually disarmed, not only to renounce their alliance with the West, but also to renounce all claims to territory beyond the Potsdam Armistice lines. But in a few years, if all goes well in Germany according to Dr. Adenauer's calculation, the Germans may be able to negotiate, having an army, having the support of the Allies, for a revision of the Eastern frontier.

The political question inside Germany is whether Dr. Adenauer can persuade the Germans to be patient and to gamble on this longer future. Much depends on what Mr. Molotov is now in fact willing to offer the Germans. Will it be the half-loaf which Dr. Adenauer will wish to reject, which many Germans will wish to accept? Or might Mr. Molotov do what he did with Austria: might he pay what he has to pay to get a settlement now? In how much of a hurry is he? In how much of a hurry are the German people? It is, we must remember, within the power of the Kremlin to offer terms which no German government can refuse.

If we look ahead to the coming negotiations, trying to foresee the concrete issue about Germany, may not the live alternatives be these: either a Soviet coup in the form of an offer that the Germans cannot and will not reject, or a five-power agreement for a new modus vivendi — or one which calls for a reduction in foreign troops, for a re-deployment away from the center of Germany of the troops that remain, for some slow-down in the rate of Germany rearmament, and for various arrangements and accommodations between the two Germanys.

There is much to be said for the view that the German problem is insoluble except by stages — that it is impossible to pass suddenly from a divided, occupied, and dismembered Germany to an evacuated, united, and satisifed Germany.

* * *

It is impossible among other reasons because none of the governments, except possibly the Soviet, is able to put its signature to all of the conditions that a sudden settlement will entail. It is at least a doubtful question whether the Soviets themselves are now at the point where they will offer Germay the terms — including revision of the Potsdam frontier lines —which a settlement would require. For if the Soviets offer the Germans sufficient to get a settlement, they run grave risks of alienating the Poles.

All this argues in favor of preparing the way for an intermediate settlement — for one which makes clear progress toward the union and evacuation but does not go all the way. For to go all the way is to come face to face with the problem of Polish-German frontier.

All this argues too for something like a moratorium on declarations for Bonn and from Washington about these generalizations and abstractions and absolutes which, when they are put to the practical test, mean so many different things to so many different men.

Vacationers Hit New York At Hottest Season Of Year

By INEZ ROBB

Any resident of New York knows that he lives in the biggest, best, most exciting, glamorous, challenging, beautiful, diverse, momentous and all-round interesting city in the Western Hemisphere.

He will also readily and modestly admit that it is the national center of art, theatre and finance. Only one facet of the city's innumerable charms completely baffles him: he finds it incredible that New York continues to be the nation's favorite and largest summer resort.

In the good old summertime, the native or adopted son spends all his waking hours trying to get out of the city; it beats him that hundreds of thousands of other Americans rush for the sidewalks of New York when the concrete is at its meltingest.

No matter how many hundreds of thousands of Americans go to Europe this summer, more will come to New York by boat, train, plane and jalopy. By the time the city's Summer Festival gets under way officially on the 21st of this month, everybody and his kids and his dog will already be here and in command.

The million visitors expected here in 1955 will find the natives friendly and eager and willing to trade. The exchange rate is pegged to the 49-cent dollar, as in all other parts of the country. And almost everyone speaks some form of English, so there should be no language difficulties.

New Yorkers are a gullible lot, and it is not regarded as sporting on the part of visiting firemen to try to sell them Boulder Dam, the Grand Canyon or the riparian rights to Old Faithful. The visitor who meets a shy native is probably encountering a local boy who bought uranium stock last summer from a Canadian tourist or a part of the Petrified Forest the summer before from an Iowa shill.

There is so much to see and do in New York that it would take a lifetime to live it up. However, the city's Convention and Visitors Bureau has discovered that of all the city's sights, five are a MUST on the agenda of every vacation. They are, in order of popularity, the Statue of Liberty, Rockefeller Center, the Empire State Building, the United Nations and Times Square.

Landmarks come and go in popularity as the city changes, but Miss Liberty retains her popularity year and year out. She is just as much a shrine today as she was when Grant's Tomb, the Woolworth Building and the old Aquarium, now gone but not forgotten, were other tourist favorites.

The average vacationer spends [illegible] and [illegible] in New [illegible], proving that one doesn't have to be a millionaire to have fun here, although it would be nice.

Many of the city's greatest beauties and treasures are free. This list includes Riverside Drive and the wondrous George Washington Bridge, one of the great art works, as well as engineering feats of the first half of the 20th Century.

For the kids, there are the Bronx and Central Park Zoos and the American Museum of Natural History. The Hayden Planetarium will take space cadets of all ages right out of this world on a trip to the moon from July 1 to Sept. 30.

And remember, anyone trying to sell a visitor a slice of Brooklyn Bridge is undoubtedly another visitor. New Yorkers wouldn't dream of parting with the stock they constantly buy in it.

Two Godfreys Now Appear On Shows For Same Hookup

By WAYNE OLIVER

NEW YORK, June 6 (AP) — CBS now has two Godfreys.

One, of course, is Arthur who's an institution on the network. The other is his younger sister, Kathy, who has a new Sunday afternoon show on CBS radio.

Being on the same network with her brother is the realization of a long-held dream for Kathy, no novice at broadcasting herself with more than 20 years in radio and considerable experience in TV.

"Just to hear the letters CBS is a most wonderful thing," says Kathy, who began her new show last Sunday.

Miss Godfrey, 10 years younger than Arthur, 51, freely admits her big brother helped her get the show.

"He arranged for me to see Lester Gottlieb (CBS radio program vice president) and after that, bless him, he left me on my own," she says.

Kathy's new show is a pleasant interlude of music, news on the cheerful side, interviews and her own commentaries.

She has a warm, friendly voice and is a charming personality in her own right without copying Arthur's style or mannerisms. In fact, she says, it's often a source of embarrassment that many people expect her to emulate his humorous, pithy banter.

As Arthur comments, Kathy is in radio at about as unlikely time as could be chosen for reaching large audiences. The only direction she can go is up. But he adds: "She'll make this a time when people will listen."

The slender, hazel eyed Miss Godfrey is a wife and mother in private life. She has been married since early 1937 to Dr. Robert Ripley, a pediatrician, and they have a daughter, Nancy, 17, and a son, Robin, 11.

The Ripleys, who met and married in New York, have made their home in Phoenix, Ariz., the past several years. With Kathy's new program originating in New York, members of the family keep airlines and long distance circuits busy between Phoenix and New York.

But Kathy's radio experience goes all the way back to her late teens when the family lived at Hasbrouck Heights, N.J. Her career was interrupted by an attack of polio that kept her on crutches four years and she still walks with a cane.

GUIDEPOST LITERARY

THE LAND THEY FOUGHT FOR. By Clifford Dowdey. Doubleday.

The Civil War was a hot war for four years, from 1861 to 1865. It was a cold war for 30 preceding years and for 12 ensuing years in the broad concept which Clifford Dowdey brings to flower in "The Land They Fought For," fourth volume of the "Mainstream of America" series.

In Dowdey's view, the cold war began with South Carolina's Ordinance of Nullification, by which the state sought to nullify a federal tariff law. The first bloodshed was Nat Turner's Rebellion, in Virginia, an episode obscure in history but which Dowdey believes exerted tremendous influence upon Southern thinking. He would not close the book on the war until the end in 1877 of the Reconstruction era.

Dowdey does not concern himself with the postwar years. His story is that of the South and the Confederacy, and the Confederacy died when the fighting ended. For all practical purposes, it was dead long before that. "The last chance the Southern states had really to win independence" was gone when the Antietam campaign failed in 1862.

The Confederacy never had much of a chance and what it had was dissipated in the bureaucratic maze of Richmond where Jefferson Davis presided.

In the main, though, the Confederacy failed because its government — chiefly, Davis — could not see that independence had to be fought for. Their policies were defensive, static, where they should have been aggressive, mobile. Dowdey advanced the same reasoning in his admirable "Experiment in Rebellion," a study of the Confederate government. He applies it here, convincingly and with splendid craftsmanship, to the whole fabric of the war.

WASHINGTON LETTER

Many Things Better Than Dollars, Treasurer Says

By JANE EADS

WASHINGTON (AP) — Ivy Baker Priest, Treasurer of the United States, says all the money in the Treasury could not buy the treasures that most enrich this country.

In an article written for the weekly religious magazine, Signs of the Times, she says all of the country's dollars, even if taken together, could not buy the dedication and devotion of our people to the principles of freedom.

"The irresistible, relentless progress that has given the United States the highest standard of living in the world was not purchased with money," she says. "Money cannot buy patriotism, progress or security. These are primarily spiritual things that live in the hearts of a people and cannot accrue to a government because of money, or any material objects it gathers around it."

Indeed, she emphasizes, our American way is more than a treasure, it is a "treasure chest of treasures," composed of not one but a multitude of related rights and freedoms, the right to worship God according to the dictates of one's conscience, the freedom to experiment, to change, to seek knowledge wherever research leads.

"Happy homes, education, character, confidence, self-respect, kindness, generosity and peace — these different forms of worthwhile treasures, money cannot buy," she says.

Mrs. Priest, who was named first woman treasurer of the United States by President Eisenhower, has written numerous articles and is in constant demand as a speaker. These demands take her all over the country to address women's clubs, civic groups, banking organizations and the like.

In Washington, the attractive, witty and vivacious wife of wealthy, retired businessman Roy Baker Priest of Bountiful, Utah, is also much in demand at social functions. She is in fact, one of officialdom's busiest persons.

The mother of three, she is currently involved in preparations for her eldest daughter Patricia Ann's forthcoming marraige. Pretty Pat, 18, a popular member of the capital's younger set, who made her debut last year, will be married in August to White House aide Lt. Comdr. Pierce Jensen, of Oskalossa, Ia., a graduate of the U. S. Naval Academy at Annapolis.

Durocher Is Losing His Golden Touch

By JACK HAND
The Associated Press

These are hard days for the New York Giants: Leo Durocher, the master strategist, has lost the golden touch. The daring leader who always called for the right pitcher and the pinch home run in 1954 has misplaced the combination.

Take yesterday, for instance. It seemed like old times when Dusty Rhodes hit a pinch single to win the opener from Chicago 3-2. Even if it wasn't a homer, like Dusty always produced last year, it was enough to please the 18,431 customers.

But the things that happened in the second game seldom happened in 1954. Jim Hearn was rolling along with a 1-0 lead, thanks to Bobby Hofman's homer, and seemed on the way to becoming the first Giant to pitch a shutout this season.

With two out in the ninth, Hearn slipped. A single by Ernie Banks and a walk to Dee Fondy meant trouble. When Manager Stan Hack sent up Frankie Baumholtz to bat for his catcher Clyde McCullough, Durocher's bullpen men were warming up. Leo let Hearn throw two balls to Baumholtz and then decided to take him out, shutout or no. Marv Grissom, who always got him out of jams last year, came to the rescue.

Baumholtz hit Grissom's first pitch into the right field seats and that was the ball game, 3-1.

"I booted it," said Durocher. "It was all my fault. Hearn was strong and probably would have won the game but I just felt like he should come out. I take all the blame."

Because Brooklyn also split two with St. Louis, dropping the first in 10 innings 9-4 and bouncing back to win the second 10-6, the Giants [illegible] 12 [illegible] of [illegible] percentage points for homers.

It was a day of splits in both leagues. Everybody played two and everybody split, except Milwaukee and the Phillies. They probably would have finished all even too, except for the Pennsylvania curfew. Milwaukee won the first game 5-4 but the Phillies were on top 4-0 in the seventh inning of the "suspended" second game. They'll finish that game Monday night before their regularly scheduled contest.

Pittsburgh shaded Cincinnati 7-6 on Ramon Kejias' ninth-inning single but the Redlegs grabbed the second game 5-1 with little Jackie Collum going all the way.

After the heavy firing was over in the American League, Casey Stengel's New York Yankees still were four games in front of Cleveland. Billy Hunter's inside-the-park homer in the 10th enabled the Yanks to square matters with Chicago in the second game 3-2 after Jim Rivera's grand-slam home run and Dick Donovan's five-hit pitching won the first for the White Sox 5-3.

Washington used Cleveland errors to thump Bobby Feller 6-4 but the Indians finally caught up with the Senators in the second game 6-3.

Rookie Duke Maas of Detroit shut out Baltimore with three singles 10-0 in the first game. The Orioles snapped a seven-game losing streak in the finale 6-5 as Cal Abrams rapped a two-run homer and a triple.

Kansas City won 5-4 and then lost to Boston 4-3 in a doubleheader. Hector Lopez' single in the 10th gave the A's the first game. Jackie Jensen threw out the tying run at the plate to save the decision for the Red Sox in the ninth inning of the second game.

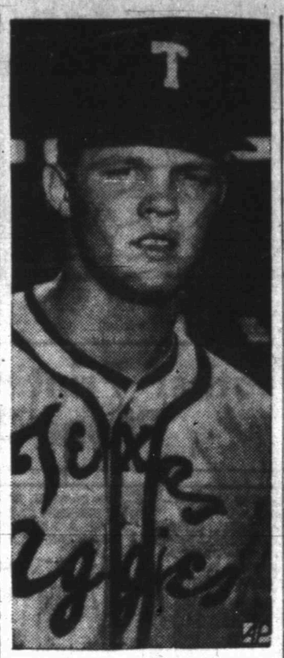

In that double-header at the Polo Grounds, Sal Maglie won his seventh straight by scattering seven hits in the opener.

Rookie Ken Boyer tied the first game at Brooklyn with a homer in the ninth and hit another homer with two on in the 10th when the Cardinals sewed it up with five runs off Jim Hughes. Eleven Dodgers went to bat in the fourth inning of the second game to score six runs.

Eddie Mathews hit a pair of homers off Robin Roberts for Milwaukee in the opener at Philadelphia and Ernie Johnson pitched fine relief ball.

Home runs accounted for all but one of the day's runs in Chicago. Andy Carey, Mickey Mantle and Hunter homered for the Yanks in the second game and Chico Carrasquel for the Sox. In the first game Rivera and Lollar of Chicago and Carey and Gil McDougald of the Yanks connected for homers.

Vic Wertz hit two and Bobby Avila one for Cleveland in their losing first game when a leaky defense proved costly to the Tribe. Al Smith's triple with the bases full featured their winning rally in the second game.

BRAVES SIGN AGGIE — The Milwaukee Braves have announced that Gerald Nelson, 6-foot-3 Texas A&M College player, has been signed to a contract with the Toledo baseball club in the American Association. The 205-pound Texan is to report immediatey.

Giants Set To Try For Third Place

The last place team in the National Little League will try for a tie for third place tonight, and the last place team in the American Little League will attempt a win in a meeting with the first place nine.

In the National League, which is scheduled for the first game at 7 p.m., the Quarterback Giants, now last place with an 0-4 record, will meet the Kiwanis Braves, who are third with 1-3. A Giant win would tie the two for third place.

The American League game will match the West Texas Bank Athletics, whose record is 0-4, with the American Legion Yankees, 4-0.

Pampa Holds Better Lead

By The Associated Press

Pampa used slam-bang hitting and seven-hit pitching Sunday to move out to a two-game lead in the West Texas-New Mexico League.

The Oilers counted 14 hits, including a pair of homers, in bashing Lubbock 13-2. Jack Venable spaced seven hits for his seventh pitching victory of the campaign.

Abilene beat Plainview 4-3 for its sixth straight decision. That pushed the Blue Sox to within ½ game of second-place Plainview.

Albuquerque slugged Clovis 18-6, and El Paso nipped Amarillo 3-2.

Jack Martin slugged a grand slam homer and Sonny Tims had a two-run blast to pace Pampa's attack. Venable helped his own cause by driving in two runs on a single.

Shortstop Scooter Hughes' homer in the seventh broke a 3-3 tie and handed Abilene its ninth decision in its last 11 starts.

Another homer, by John Watson, boosted El Paso past Amarillo 3-2.

Every Albuquerque player scored at least one run and had at least one hit as the Dukes bombarded Clovis. The Dukes racked up 26 hits off four pitchers.

Louise Suggs Takes Easy Eastern Title

READING, Pa. (AP) — It didn't take too much good golf to win the 1955 Women's Eastern Open Golf Tournament — Louise Suggs managed to make one good round earn her the $1,000 first prize.

The Sea Island, Ga., professional trailed Faye Crocker of Montevideo, Uruguay, throughout the first three rounds of the 72-hole tournament but when the chips were down yesterday she sank a 12-foot putt to close out the final 18 with a two-under-par 69 and capture the $5,000 tourney.

Miss Suggs' total was a fair 291, five strokes over par for the 72 holes. Miss Crocker, after three fine rounds, sank to a 77 yesterday, missing a long putt on the 18th that would have tied her with the Georgia lass.

Britons Watch Their Golfers Lose Out

ST. ANNES, England (AP)—Twice in the past three weeks wet, cold and miserable groups of British golf fans have gone home from a tournament quietly convinced they will continue to see Americans win and their own players lose for many years to come.

First it happened at St. Andrews when the Americans won the Walker Cup, 10-2. Then it happened again Saturday at Royal Lytham and St. Annes when Britain's last hope—36-year-old Alan Slater—fell before little Joe Conrad, a 25-year-old from San Antonio by 3 and 2 in the finals of the 60th British Amateur championship.

British golf fans, officials and writers both at St. Andrews and St. Annes would tell you quickly that it is not getting beat again and again that bothers them the most.

It is the future.

The supply of young golfers does not appear to be anywhere near big enough to cope with the youth-emphasizing Americans.

Only four lefthanders have won 20 or more games for the Pittsburgh Pirates. They were Frank Killen, Jesse Tannehill, Al Leifield and Wilbur Cooper. Tannehill and Cooper did it four times each.

Rookie infielder Hector Lopez of the Kansas City Athletics is a native of Colon, Panama. Last season he played for Ottawa in the International League.

CONRAD WINS BRITISH AMATEUR—Joe Conrad of San Antonio, Tex., kisses the trophy emblematic of the British Amateur Golf Championship after defeating England's Alan Slater, 3 to 2, for the title at St. Annes, England. The shy 25-year-old Air Force officer, who has never won a single match in the U.S. Amateur, defeated Slater in match played in an angry wind, hail and rainstorm.

Hermleigh Tries To Move From Bottom

Hermleigh continued its attempt to move from the bottom place in City Baseball League standings Saturday night by edging the third place team, Sun, 8-7.

This put the Hermleigh team only half a game behind Sun. At 7:30 o'clock tomorrow night, Hermleigh will meet the Tigers, who are now in second place. Hermleigh could move to third place by winning, and the Tigers could move into a tie with Tri-Service for first place by winning.

Two runs in the bottom of the seventh inning, both of them coming in on errors, won the Saturday game for Hermleigh. Errors had brought in two for Sun in the top of that frame to put the Sun team ahead after the teams had ended the sixth inning with Hermleigh leading by one run.

Sun had the first lead in the game, scoring two runs in the first inning. Don Ballard's single and a sacrifice for Kirby brought those two home. Hermleigh tied it up in the fourth, the first run coming in by error and the second on Knight's double. Sun ended the fifth inning one run ahead. It had scored two runs, one on McKinney's double and the other walked home. Hermleigh had scored once when Bill Houston, who had doubled, got in on a single by Grady Gafford.

McKinney doubled again in the sixth to drive in another Sun run, but Hermleigh scored three times in the bottom of that inning to get one run ahead. Clarence Minton drove in two with his double, and Minton got home on D. Greene's single.

Pitching the win was Bill Voss, who gave up seven hits, walked 11, and struck out nine. Don Ballard, the loser, allowed seven hits and fanned six. He walked none.

Big State Loop May Be Cut To Six Teams

GALVESTON (AP)—The Big State League will continue as presently constituted for at least another week. Galveston, in financial trouble, will determine in that period if it can go on.

If Galveston has to quit, the league will be cut to six clubs, Howard Green, president of the circuit, said yesterday after a league meeting.

Which club would be dropped was not named, but league directors said it would be the club with the next lowest attendance.

Over the weekend, the Galveston club raised $6,000 of the $10,000 needed to finish the season. Louis Menotti, owner of the White Caps, said he was hopeful the remaining $4,000 would come in by the end of the week.

SPORTS

Sam Improves With New Putt Technique

By WILL GRIMSLEY

GREAT NECK, N. Y. (AP)—Sam Snead has adopted a new putting technique which may crush his long-time jinx in the National Open Golf Championship.

"I'm not making any predictions about San Francisco but I'm putting better than any time I can remember," the hard-luck West Virginian said today. "I feel real good."

Putting, once the source of all of Sam's golfing woes, plus brilliant iron play carried Snead to a runaway victory in the Round Robin Golf Tournament yesterday at Deepdale—his fourth title in the event.

He climaxed the five-round weekend with a course-record-breaking 65 for a total of 46 points. His closest pursuer in the 16-man field, Johnny Palmer, finished with plus 22.

Only once did his putter fail him. That was on the final hole when he three-putted from 30 feet, missing a simple three-footer which would have given him a 64. He sank birdie putts of 12 and 25 feet and left two other long, snaking rollers hanging at the cup, but his real mastery was over the five and six-footers—the kind he used to miss.

He had six birdies and four of them came of putts of this length.

"I've changed my way of putting," Snead explained. "I now forget the hole entirely. I spot putt. That is, I pick a spot a few inches in front of my ball and aim for that instead of the hole."

Snead's first place prize was $3,000 with $2,000 going to runner-up Palmer. Peter Thomson of Australia, the British Open champion, was third at plus 19, followed by Marty Furgol, plus 11, Doug Ford, plus 2; and Masters champion Cary Middlecoff and Ted Kroll, even.

Other players were on the minus side in the unique scoring system in which each score is matched with that of each of the others in a foursome.

Top Teams Try To Keep Their Places

The Pony League's two top teams will both be trying to stay on top tonight as they meet the league's other two teams.

The Von Roeder Red Sox and Scurry Butane Dodgers are tied for the lead in the league with 4-1 records.

In tonight's 7:30 o'clock game, the Red Sox will meet the Courthouse Tigers, who stand in third place with a 2-3 record. The Dodgers will take on the last-place Lions Club Phillies, who have a record of 0-5, in the second game.

Corpus Lead Is Now Up To 10½ Games

By The Associated Press

Corpus Christi's Clippers hold a 10½-game lead in the Big State League, and there is no indication they can be beaten out of the first half championship.

The Clippers play 14 more games before the season is split on June 19.

Corpus Christi beat Texas City 7-4 Sunday night in the only league game and boosted its lead by ½ game over second-place Port Arthur.

Larry Burgess won his seventh pitching victory of the season as he tamed the Texans on eight hits.

Corpus Christi scored five runs in the first inning with a 4-hit outburst, including home runs by Jack Wilkinson and Keith Little. The Clippers got two more in the second and chased Fred Bench in favor of Neil Roberts, who gave up only three hits the next seven innings.

Port Arthur at Austin, Harlingen at Tyler and Galveston at Waco were postponed because of bad weather.

Halfback Bob Hoernschemeyer of the Detroit Lions in the NFL completed three passes in seven attempts in 1954. All three were good for touchdowns.

Rookie pitcher Luis Arroyo of the Cardinals hurled two no-hit games in the minors.

Touring Reds Return Home

By STANLEY JOHNSON

MOSCOW (AP) — The Kremlin's touring leaders came home yesterday with promises from four of the Soviet bloc nations to join the Russians in bettering relations with Yugoslavia.

Foreign Minister V. M. Molotov and other top officials were at Moscow Airport to greet party chief Nikita S. Khrushchev, Premier Nikolai Bulganin and First Deputy Premier A. I. Mikoyan on their arrival from Belgrade.

En route home the Soviet bosses stopped in Sofia, Bulgaria, and Bucharest, Romania.

Moscow radio yesterday broadcast a communique saying Hungary, Czechoslovakia and Romania had approved the agreement on "active coexistence" Bulganin signed last week in Belgrade with Yugoslav President Tito.

The communique said Russia's thre allies "expressed the hope and conviction that friendly cooperation would be established between their countries and Yugoslavia in the interests of the further consolidation of peace and socialism."

An earlier communique after the Soviets' visit to Sofia said Bulgaria also would seek improved relations with the Yugoslavs. It also expressed hope for improvement of relations with Greece and Turkey, Yugoslavia's allies in the Balkan Mutual Defense Pact.

Yesterday's communique disclosed that Khrushchev, Bulganin and Mikoyan had conferred in the Romanian capital with top Communist party and government officials of Romania, Hungary and Czechoslovakia. The announcement said "unanimity . . . on all international questions" resulted.

Houston, Fort Worth Play Better Baseball

By The Associated Press

They were closing in on the faltering San Antonio Missions Monday in an enlivened Texas League race that has seen Houston and Fort Worth playing the kind of baseball that ends in the top places.

San Antonio dropped its sixth game in the last 10 Sunday night, falling to Fort Worth 6-5, while Houston won its eighth in 10 starts to move within one game of the leading Missions. It was the narrowest margin between first and second since May 21.

Houston licked Dallas 5-2 with a 4-run splurge in the ninth and it meant the Eagles, three days ago in the runner-up spot, had lost eight of their last 16 and had fallen to fourth. The flying Fort Worth Cats took over third, just two games back of San Antonio. Fort Worth has won 10 out of 15, the last seven in a row.

Fort Worth literally walked to its crucial victory over San Antonio. A 2-base error by Jim Pisoni got Mission pitcher Bill Diemer in a jam in the ninth. He walked Dick Gray, forcing in the winning tally with only one out. Mel Waters, who relieved Rudy Paynich in the third, received credit for the victory. He gave up only two hits in seven innings.

Dallas thought it had the game in the bag with Houston when Ray Murray clouted his 14th homer of the season in the sixth inning to put the Eagles ahead 2-0. The Buffs got one back in the seventh, and then came that wild uprising in the ninth that handed Dallas its second defeat in a row.

Tulsa tumbled Shreveport 2-1 on Mike Lutz' 12th homer of the season. Lutz slammed it in the 10th inning to break up a pitching duel between Bill Tremel of the Sports and Glenn Harshbarger and Al Widmar of Tulsa.

Beaumont and Oklahoma City played a stand-off in the battle to see which stays out of the cellar. Beaumont won the first game of a doubleheader 4-2 with Phil Paine allowing only seven hits and fanning eight. Clem Koshorek led a 12-hit Beaumont attack with a double and two singles. Oklahoma City took the second game 4-1 with the brilliant Al Papai twirling a 5-hitter.

Longhorn League Is Crowding Up At Top

By The Associated Press

It's getting crowded on top of the Longhorn League.

Roswell beat leading Midland 11-5 Sunday night and climbed to within one game of the front-runners. But the Rockets are still in fourth place.

Artesia and San Angelo are in a neck-and-neck battle for second, each ½ game back of Midland.

San Angelo beat Carlsbad 8-7. Artesia got past Big Spring 6-3 and Odessa scored a 7-3 verdict over Hobbs.

Dean Franks sweated through a 13-hit Midland attack for his 12th victory of the year. Roswell backed him with 12 hits.

San Angelo came from behind to whip Carlsbad. The Colts were trailing 7-4 going into the final frame.

Joe Giel smashed a two-run homer in the second as Odessa got out in front early for an easy victory over Hobbs.

Two-Year-Old Driver Of Auto In Smashup

EAST PROVIDENCE, R. I. (AP)—The driver of a car involved in a two-car smashup yesterday was a 2-year-old boy, police discovered.

Police Lt. John Vitacolonna said this is what happened:

The infant son of Thomas H. Carney spotted the keys to his father's car on the kitchen table. He carried them to the car, turned on the ignition and stepped on the starter.

The car, apparently left in reverse gear, backed out of the driveway and into a parked car owned by Raymond E. Brouillard. The youngster was not injured.

GOP Head Challenges Truman To Campaign

WASHINGTON (AP) — Republican National Chairman Leonard Hall has informally challenged Democrats to put former President Truman "on the campaign train" in 1956. He suggested this would help the GOP cause.

Democratic Chairman Paul Butler, appearing with Hall in a television debate yesterday, replied that Truman "certainly" will be on the train and will help bring a Democratic victory.

"When we come to 1956," Hall said, "the people are going to look at what we have here in this (Eisenhower) administration and they're going to compare it with what we had under Mr. Truman. They have memories. There isn't a doubt in my mind that they'll want to continue this administration."

No Club Ready For Challenging Shawnee

By The Associated Press

Shawnee is playing a "catch us if you can" game with the rest of the Sooner State League, but there doesn't seem to be a club ready for the challenge.

The Hawks took a doubleheader from Ardmore Sunday 2-1 and 6-4, widening the gap to 4 games over Muskogee, which was rained out at Paris.

McAlester fell 6-2 to last-place Seminole. Lawton jumped into third place by pounding Ponca City 10-1 and 13-6.

Shawnee used the home run to sweep both games. Fred Minton's ninth inning clout provided the margin in the opener, and Tom Sleeper cracked a two-run shot in the nightcap.

The Braves collected 22 hits in their twin-bill with the Jets. Southpaw Dale Hendrickson limited Ponca City to three hits in the first game. Bob Dudley captured the afterpiece when Lawton came up with two big innings—five runs in the third and six more in the fifth.

George Barnet stopped McAlester on seven hits and chipped in with a homer and single to drive across three runs.

Morrow Works For National AAU Meet

ABILENE, Tex. (AP)—Bobby Morrow, Abilene Christian's fabulous freshman, starts working for the big time in track this week.

The 19-year-old San Benito, Tex., sprint star who last week equalled the great Mel Patton's feat of running 100 yards in 9.1 gets his showdown competition three weeks hence in the National AAU.

At Boulder, Colo., where the AAU will be held June 25-26, Morrow runs against Jim Golliday, Dean Smith and the other top sprinters of the nation. Bobby will enter both the 100 and 220-yard dashes with an eye on the 1956 Olympic games.

Such track experts as Al Duer, secretary of the National Assn. of Intercollegiate Athletics think Morrow, although virtually untested in the big time, will beat Golliday, whose 9.3 to tie Patton's world record caused a sensation recently.

Morrow is too young, scholastically speaking, to run in the National Collegiate Athletic Assn. meet. He's a freshman, and first-year men can't compete in the NCAA. So the only meet left for the tall youngster is the AAU.

Morrow has run 9.1, 9.3, 9.4 and 9.5 (three times). He was aided by the wind on the 9.1 and 9.3 efforts so they didn't count. But his 9.4, with only three mph (4.473 is the limit) in the NAIA here last weekend, was a meet record.

He also did 20.6 around a turn in the 220, and that tied the fastest time ever recorded for a similar race — Andy Stanfield's 1951 effort.

The son of a wealthy Rio Grande Valley farmer, Morrow drives a Cadillac around the campus at Abilene Christian College.

NEW YORKER DELUXE NEWPORT

"Where are you going with my Chrysler?"

He's like any normal husband with a new Chrysler in the family. He's learning why more wives "borrow" it than any other car!

It seems that once a wife or husband gets to know the ease and control of Chrysler's Full-time Power steering, any *semi*-power steering feels clumsy and heavy-handed. They both prefer Chrysler's smoother-acting Power Brakes . . . and the *elite* feeling of unlimited power in Chrysler's great new V8 engines!

They like the utter smoothness and silence of PowerFlite Automatic Drive . . . *and most of all they enjoy being seen and admired in America's most smartly different car!*

Now two Chryslers would really keep a family like this happy. Nevertheless, they'd be the first to tell you that *one* is a thousand times better than none at all. That's why we urge you to come in for a personal look-see, and a drive.

It's a truly wonderful experience. And . . . Sir or Madam . . . we suggest you bring your spouse!

'Little Inch' Asks To Switch From Gas

By CHARLES HASLET

WASHINGTON, June 6 (AP)—A different sort of question was put up to the Federal Power Commission this week—shall Texas Eastern Transmission Corp. be permitted to change the "Little Inch" pipeline from natural gas to petroleum products?

As part of the question, the FPC must pass also upon the application of Texas Eastern to continue to move its gas from the Southwest to the East by extending pipelines between Connellsville, Pa., and Kosciusko, Miss., to the Beaumont, Tex., area.

The company contends its present gas customers would not suffer because the Connellsville - Beaumont line would carry as much gas as now is transported by the Little Inch.

FPC Examiner Emory Woodall has recommended to the commission that it grant the applications.

Attorneys for barge lines which carry oil, gasoline and other petroleum products from southwestern producing fields to the Mississippi and Ohio valleys and the East Coast vigorously opposed the project in arguments before the commission this week.

Harold Leventhal, an attorney for the barge lines, argued Texas Eastern was attempting to "capture" the entire petroleum transportation market and displace the barge lines.

Under its proposal, the company would take the major part of the Little Inch line—the stretch from Beaumont to Moundsville, W. Va.—out of natural gas service and use it for oil products.

American Pipeline Co., which itself wants to build a new petroleum products line, also opposed the proposal. The City of Pittsburgh, represented by Assistant Solicitor Robert Engel, argued the "Little Inch" is a "consumer's asset, rendering service at a depreciated cost which is reasonable."

J. Harry Vulhern, attorney for Public Service Electric & Gas Co., Newark, N. J., urged the commission to grant the applications. He said Texas Eastern thus would be better able to maintain transportation of gas to its customers in event of a national emergency.

The government built the "Little Inch" and "Big Inch" pipelines in World War II for movement of gasoline and oil to the East Coast. Enemy submarines at the time were sinking many American tankers bound up the Atlantic Coast with oil and gasoline from Gulf of Mexico ports. After the war Texas Eastern bought the lines and converted them to transportation of natural gas. It plans to retain "Big Inch" as a gas carrier.

Vulhern asserted the company's proposals are designed to achieve "greater flexibility," permitting increased purchases of low cost gas in Texas and excess gas in the Texas-Louisiana area.

Texas Eastern contended consumers would benefit from the plan. The company also said there would be less delay if it became necessary to convert the "Little Inch" to defense emergency use.

Soldier Who Joined Reds Changes Mind

OLYMPIA, Wash (AP)—A 24-year-old American soldier who, as a prisoner of war, chose to remain behind the Iron Curtain rather than return to his young wife and daughter in Olympia, Wash., has had a change of heart.

Now he wants to come home.

Mrs. Otho G. Bell says she is encouraging her husband to return. "And if he's sent to prison, I'll get a job near the prison so I can see him from time to time," she says.

The status of Otho G. Bell is beclouded, legally. He was one of 21 American prisoners of war who refused repatriation, but stayed with Red China.

Mrs. Bell said his letters indicated that he apparently had been told that two American POWs who at first declined to return to the United States, then did, had been executed. Actually, the pair was sentenced to prison.

Mrs. Bell is living at Olympia with their 4-year-old daughter Paula, whom Bell never has seen. He shipped overseas with the 2nd Infantry Division in 1950 before the daughter was born.

Mrs. Bell said her husband intended to get a passport to return to the United States. She said she had been informed the State Department would aid and issue documents for his return if he reaches Hong Kong.

In Washington, military officials said that if Bell should be given a passport, it might amount to recognizing him as a U.S. citizen.

Mrs. Bell said her most recent letter from him was dated April 15. In it, he said he was leaving for a new job. He didn't say where. But Mrs. Bell says she was told by relatives of another POW that Bell was going to a collective farm in south China.

Graham Begins Paris Crusade

PARIS (AP)—Some 8,500 Parisians flocked to a sports arena last night to hear Billy Graham launch his five-day back-to-the-Bible crusade in the French capital.

The 37-year-old North Carolina minister said the opening session in the great Velodrome d'Hiver went "beyond all expectation." A total of 623 persons walked down the aisles to make "decisions for Christ."

The Veldrome, Paris' Madison Square Garden, can seat between 15,000 and 20,000, but the huge stage and podium set up for Graham, plus a curtained-off area, cut sharply into the seating space.

Preaching from a podium draped in red and gold cloth, Graham spoke for half an hour. He paused at the end of each phrase while the Rev. Jacques Blocher relayed his message in French through a battery of microphones.

Behind the blond American were a grand piano, an electric organ and a 400-voice French choir.

Basing his sermon on the third chapter of John, 16th verse, Graham declared:

"The whole world is hungry for spiritual reality. The answer is back to the holy Bible. I believe a spiritual awakening in Paris will have a tremendous impact on the entire world."

Graham said he had not come to ask his hearers to join any particular church but to "give your life to Jesus Christ."

The French Evangelical Alliance is sponsoring Graham's revival campaign.

Man Who Discovered Spindletop Field Dies

SAN ANTONIO, Tex. (AP) — A heart attack yesterday killed 92-year-old Pattillo Higgins, who discovered and promoted the famed Spindletop oil field near Beaumont.

Virtually penniless during the Spindletop expioration from 1892 to 1901, Higgins later sold his holdings in it for more than three million dollars.

Many oilmen said he had an uncanny ability to spot potential oil fields.

Higgins was one-armed as a result of an accidental shooting during his youth. He quit school in the fourth grade but studied geology and related subjects throughout his life.

VACATION AHEAD?—If you are planning a summer vacation, and almost everyone is, one of the most important things to do before the vacation is be sure your car will give comfortable and dependable service throughout long drives necessary to reach most popular vacation lands from Snyder. One of the best ways to insure pleasure while motoring on your vacation is to own and drive a new Studebaker or Packard automobile. Packard's new torsion suspension system makes the Packard the easiest riding car on the road, says Bill Boyd, owner of Boyd Motor & Implement, shown above. (Lee Watson photograph)

New, Modern Automobile Adds To Enjoyment Of A Vacation

"The annual family vacation is one of the most highly anticipated family ventures of the year, yet many persons lose much of the pleasure of the vacation trip because they travel in a car which they feel unsafe in, or are unsure whether it will make the trip without giving trouble," Bill Boyd, owner of Boyd Motor & Implement, located on the East Highway said.

"Saving money for the vacation is part of the build-up for the vacation, and many persons believe that they can't afford a new car to make the trip in because it will take part of their vacation money to make a trade for a new car," he said.

"But usually that is not true because most persons can trade for a new car without being out any actual cash at all if they own a substantial equity in their old car," Boyd said.

"And usually the payments on the new car will be no greater than the payments they were or are making on their old car," he added.

Boyd is owner and operator of the Studebaker and Packard automobile agency here and during the vacation season he helps make many families' vacations a greater pleasure for them by putting them in a new, safe and comfortable car — which incidentally not only makes their vacation a greater pleasure, but provides better everyday motoring throughout the years ahead.

Most of the popular vacation spots are located several hundred miles from Snyder in any direction you take, and often two or three days of continuous driving is required both going and returning on a vacation, he said.

"Besides the confidence a new car gives the driver, the entire family enjoys and appreciates the added ease of the ride in a new Packard with the revolutionary new torsion suspension system which completely eliminates the old fashioned leaf-type or coil springs formerly used in Packard and still in use on all other American-made cars," Boyd said.

"The torsion suspension system is a system of steel bars which connects the wheels and a springing effect is obtained by the bars twisting and untwisting when a bump is hit by a wheel," he said.

And because the bars connect the wheels instead of each spring connecting a wheel directly and individually to the car body, the entire suspension system absorbs and smooths out each bump or dip in the road.

When one wheel passes over a high place or low place in the road that corner of the car does not "chug or bounce" but the entire car rides gently and smoothly over the uneven place in the road, Boyd said.

Boyd offers demonstration rides in the new Packard in which he or the customer drives the car over the roughest roads in this vicinity, even over curbs, to show that the entire car maintains a level and smooth ride.

Another feature of the new torsion suspension ride is an automatic stabilizer which compensates for adding weight to the rear seat or luggage compartment of the car. As more weight is added the compensator raises the car body back to its original level instead of letting it sag toward the ground as conventional springing systems do.

"Even rapid starts where the back end of the car usually dips down while the car is being accelerated are made smoothly and without the usual dip of the back of the car," Boyd said.

An entirely new V-8 engine is another feature of the new Packard, and the engine was proven by driving it more than 25,000 miles at an average speed of more than 100 miles per hour before it was adopted for use in the new Packard, Boyd said.

"The new engine is the most powerful offered in the stock models of American-made family-type cars," he added.

Before starting preparations for your vacation trip this year, Boyd invites you to drive by his place and try out the new Studebakers and Packards, and let him explain how you can own one easily and without sacrificing your vacation budget to get it.

Complete service and parts are offered for the two makes of cars at Boyd Motor & Implement so that if your present car is good for many more miles of dependable service, it can be put in tip-top driving condition quickly and easily by giving it a thorough, but inexpensive, check.

Chickens Are Prepared For Pan Quickly

Do you raise chickens for the family table, but still deplore the chore of cleaning and dressing them before cooking or putting them in a freezer?

If you are a usual person, you probably detest the unpleasant chore of ceaning and dressing the chicken.

Eliminating this chore for the chicken raiser is the job of a new business firm here, the Snyder Feed & Seed Store located at 402 Twenty-seventh Street on the East Highway.

An automatic cleaning and dressing plant has been installed at the Snyder Feed & Seed Store to quickly and efficiently do the job of cleaning and dressing chickens, Billy Greenfield, owner, said.

Cost per bird runs only about 25 cents for chickens, or slightly more for turkeys, Greenfield said.

The Snyder Feed & Seed Store specializes in the sale of Paymaster and Golden Oak feeds for all types of livestock, poultry, and pets, and all types of field, garden, and lawn seeds.

One of the most popular field seeds with farmers this spring has been cane which is apparently being planted by many farmers to yield a crop of bundle feed for livestock this summer or fall, Greenfield said.

Running second in popularity is maize, which many farmers are planting in anticipation of harvesting a cash crop of combine milo for sale, he added.

In addition to the sale of seeds and feeds, Snyder Feed & Seed Stote also offers all types of insecticides for crops, gardens and lawns.

Sex Appeal Is Used Now By Crustaceans

CRISFIELD, Md. (AP) — Maryland's centuries-old crab industry has put the even older idea of sex appeal to a new use among the crustaceans.

For decades watermen have been using fresh fish bait to attract peeler—female—crabs into crabpots. But the fish also attracted eels, toadfish and other undesirable passers-by.

Now, say watermen, male crabs used as live bait bring the peelers swarming to the crab pots, or traps. From there they go to packing houses, where they shed their shells and become soft crabs.

Meanwhile, the male crabs remain in the crab pots, still luring them in.

The gorilla and chimpanzee are among the few mammals which cannot swim.

King Idriss Weds, Hopes For Prince

CAIRO, Egypt (AP)—Libya's 66-year-old King Idriss made preparations today for a honeymoon he hopes will give him a crown prince. The monarch's other spouse, Queen Fatima, was reported sulking in a village 115 miles northwest of the Egyptian capital.

The King was married yesterday to Alia Abdel Kader Lamloum, daughter of a wealthy Egyptian cotton planter of Libyan origin. Before the ceremony Idriss paid a dowry of 10,000 pounds ($28,700) to the bride's family.

The honeymoon starts Thursday. Until then Queen Alia is staying with her brother, who represented her at the all-male portion of the Moslem rites yesterday.

"This union is a realization of the people's wishes to get an heir to the throne," the Libyan Embassy in Cairo said in announcing the marriage.

Fatima is 40 and has been married to the King 22 years. All five of their children have died and relations between the couple have been strained for several years.

Moslems are allowed four wives. However, Fatima and her family were so opposed to the King's marrying that one of her nephews last year assassinated the court minister arranging the match. The killer later was tried and executed.

The new queen's age was described as a family secret but she has been variously reported between 30 and 38. The King had not met her until the ceremonies yesterday.

The wedding included a call by the King at the home of Alia's brother, where the couple exchanged rings. Then, after a ceremonial round of drinks, the men in the party drove to the Libyan Embassy to sign the marriage contract.

Hundreds of years may pass before a total eclipse of the sun is visible from any one place on earth.

PAYMASTER CAGED EGG PROJECT—Just as proof of the pudding is in the eating, proof of good chicken feeds are in the egg laying results they get. Billy Greenfield, left, owner of Snyder Feed & Seed Store on the East Highway, and Jim Norred, owner of the Jim Norred Chicken House on the Lubbock highway, are shown above in Norred's caged hen building where Paymaster feeds are fed exclusively to the more than 600 hens in the project. Daily laying records are kept on each hen, and Norred says that the egg production of the hens fed the Paymaster way is exceptionally high. The Norred project is one of several caged hen projects in Scurry County using Paymaster feeds from Snyder Feed & Seed Store. (Lee Watson photograph)

SNYDER BUSINESS NEWS

New Series Of Stamps Is Announced

WASHINGTON (AP)—Twelve subjects for the stamps still to be issued in the new ordinary postage stamp series were announced today by Postmaster General Summerfield.

The selections complete preliminary work on a change-over which will limit regular stamp issues to 18 denominations and cut out 14 others. The change is the first since 1938, when 32 denominations were issued.

Six of the new stamps already have been issued—the 1 through 5-cent ones, 1½-cent and the 8-cent two-colored Statue of Liberty stamp, the first of the new series to be put out. Descriptions and dates of issuance for the remaining 12 will be announced later.

Summerfield said inclusion of a 40-cent stamp in the group would make possible any mailing up to 60 cents with not more than two stamps.

The new 18-stamp series will include six with pictures of former presidents, six of other famous Americans, and six of historic shrines.

Discontinued, under the new plan, will be 14 stamps which Summerfield said account for less than 1 per cent of sales. They are the 4½-cent, 11 through 19-cent, 21, 22 and 24-cent and $2 denominations. No more of these will be printed after present supplies are exhausted.

The 12 new additions will show Theodore Roosevelt on the 6-cent stamp; Woodrow Wilson, 7-cent; Mount Vernon, 1½-cent; the Alamo, 9-cent; Independence Hall, 10-cent; Monticello, 20-cent; Benjamin Franklin, ½-cent; Robert E. Lee, 30-cent; John Marshall, 40-cent; Susan B. Anthony, 50-cent; Patrick Henry, $1; and Alexander Hamilton, $5.

Stamps already issued show George Washington on the 1-cent; Thomas Jefferson, 2-cent; Abraham Lincoln, 4-cent; James Monroe, 5-cent; the Statue of Liberty, 3-cent; and the Statue of Liberty in two colors, 8-cent.

The United States built about 2½ billion dollars worth of public schools in 1954.

Water pressure in the ocean is about one ton per square inch for every mile of depth.

Only One In Class

BLOCK ISLAND, R. I. (AP)—Elizabeth May Swanscott was the entire graduating class at the high school here last night. Principal speaker at the baccalaureate service was her father, the Rev. Lew Swanscott, pastor of the First Baptist Church.

Fish Causes Mishap

GREAT FALLS, Mont. (AP)—Mrs. Rose Bryant said she lost control of her car when she tried to retrieve a goldfish which flipped out of a bowl on the seat when she turned a corner. Although she saved the fish, her car smashed into a parked auto. Damages to Mrs. Bryant's car totaled more than $300.

In Sweden 61 infants out of 1,000 died in their first year in the early 20s compared to less than 19 today.
