

GOP Offers New Income Tax Cut Plan

WASHINGTON (AP)—Senate Republicans today decided to offer a general income tax cut plan of their own in an effort to head off a broader reduction amendment sponsored by Senate Democrats.

Sen. Millikin (R-Colo.) told newsmen the new proposal is to increase personal exemptions for each taxpayer in the lower and middle brackets by \$100 a year. That would mean a minimum annual tax cut of \$20 for an individual or \$40 for a couple. The exemption boost would not apply to other dependents such as children.

Marfin Jury To Hear Report

STANTON (SC) — The Marfin County Grand Jury has been called to meet at 10 a. m. Thursday to receive the report of a special committee appointed early this month to make a study of the county's financial affairs.

District Judge Charlie Sullivan conferred with the committee this morning. He said members of the group indicated they were ready to make at least a partial report. The judge then ordered the grand jury back at 10 a. m. Thursday.

Steel Wage Pact Inked

PITTSBURGH (AP)—The CIO United Steelworkers had pen and ink ready today for basic steel producers to follow the lead of U. S. Steel and sign contracts giving 600,000 men a 5-cent-an-hour pay boost, higher pensions and improved insurance programs.

Truman's Condition Is Reported Better

KANSAS CITY (AP)—Harry S. Truman's condition was reported as "better" last night although he was described as somewhat tired after a restless day.

Ike Explains Peace Views; Pleads For Farm Program

WASHINGTON (AP)—President Eisenhower said today the hope of the world lies in peaceful coexistence with the Communists, but declared: "I will not be a party to any agreement that makes anybody a slave."

Dean Acheson was responsible for the loss of China, Korea and led to the crisis in Indochina.

WASHINGTON (AP)—President Eisenhower pleaded anew today for congressional approval of his flexible farm crop price support program. He said that terrible defects in the present system of rigid, 90 per cent supports on basic crops are damaging the farmers and the country.

The rigid support system, Eisenhower told his news conference, is causing excess production of foods which already are in such great surplus that the government has no place to store them.

Guatemala War Appears At End; Commies On Run

By JACK RUTLEDGE
GUATEMALA (AP)—The fighting was over today in Guatemala's 12-day civil war, and the U.S. embassy hailed the outcome as a victory over communism.

The new military regime called on all civilians to surrender any arms in their possession. It prepared for talks with the anti-Communist insurgents on the future course of this Central American republic.

Col. Carlos Castillo Armas' rebel forces announced that a cease-fire would remain in effect pending formal armistice negotiations.

Water For Lake Thomas

The Colorado River, normally a mere trickle or dry at this point, was rampaging Tuesday afternoon. About 15 miles to the east the stream empties into Lake J. B. Thomas.

Rio Grande Completely Encircles Laredo Today

The Colorado River, normally a mere trickle or dry at this point, was rampaging Tuesday afternoon. About 15 miles to the east the stream empties into Lake J. B. Thomas.

Showers Vary In Area; Lake Thomas Level Up

Recurrent thundershowers waded over Howard County and surrounding area Tuesday, pouring out from a quarter to as much as four inches of water.

Lake J. B. Thomas had increased by 5.3 feet early Wednesday morning and was rising at the rate of 1 foot every two hours.

At Garden City the total was .21 of an inch. However, at St. Lawrence, 15 miles to the south, there was as much as two inches.

Truman's Condition Is Reported Better

KANSAS CITY (AP)—Harry S. Truman's condition was reported as "better" last night although he was described as somewhat tired after a restless day.

Glasscock Rainfall In Varying Amounts

Hundreds Feared Dead In Mexico

LAREDO (AP)—Foaming brown waters of the Rio Grande's mightiest flood completely isolated Laredo today, and 100 miles upstream 20 were known dead at the Mexican town of Piedras Negras.

—"but I can't confirm any of them." "We just don't know. We haven't been able to get over there yet," he said, "and I don't know when we can make it."

Highways and railroad tracks north of Laredo were under water, and it was impossible to reach Rio Grande because of high water.

Where water has receded, he said, only a thick layer of silt can be seen from the air and it is very difficult to distinguish objects on the ground.

Backwaters from the flooding river threatened to surge down a creek and encircle the city.

Ten or 12 helicopters patrolled constantly up and down the river after an air survey upriver almost to the head of the Devil's River and the Pecos River.

Another victim of the cloudbursts reported today was Pvt. Roy Christianson, drowned when a bridge over the Pecos River west of Del Rio went out.

The commission listed some of the major losses: The Southern Pacific railroad bridge near the mouth of the Devil's River.

At Eagle Pass, across from Piedras Negras, highway patrolman R. B. Goodrum said there were hundreds of rumors about the situation in the Mexican town of about 35,000.

Neither here nor at Nuevo Laredo were there any reports of loss of life.

AS RIVER ROSE Most Of Laredo Ignores Flood To Get Good Sleep

LAREDO, Tex. (AP)—Most of Laredo's 60,000 residents shrugged off the worst flood threat in history and slept soundly last night with the hungry Rio Grande gurgling at their doorsteps.

In downtown Central School yesterday, bringing only some of their furniture. Benigno works in a tortilla factory, his father is jobless, and their adobe (mud brick) home has been devoured by the river.

There was little sandbagging or moving of goods from downtown business houses because most of the store owners were gambling that the river would not rise the five or six feet it would take to put muddy water in the downtown streets.

While most of Laredo slept, a smooth-working combination of local officials, state police, the military and state defense workers stayed on guard all night.

Versatile Machine

Mrs. R. R. Fields, left, demonstrates to Mrs. Leonard Rooks some of the operations that may be performed on the Necchi sewing machine without the need of bothersome attachments. The Necchi machines, in a variety of sizes and cabinet stylings, are on display at the change, 120 E. 2nd Street. Gilliland also distributes Elna portable and Domestic "straight-stitch" machines in this area.

Freezer Lockers May Be Rented

Approximately 11,000 lockers are provided for customer use at Big Spring Locker Company, 100 Gold. The facilities are also used by local grocery firms for food storage. For sale at the locker company are all types of meats, produced on the locker company farms. The meats are sold both wholesale and retail. Lockers are available for rental. Persons who rent lockers may obtain all necessary freezer supplies at the locker plant. Included in these supplies are freezer bags, jars, paper, and tape; and frozen food containers. Amana refrigerators with "stor-mor" doors, home food freezers, upright food freezers, and air conditioners also are available. With the purchase of a home food freezer a person is given the right to buy food at quality discount prices, sales manager Levi Russell says. The locker company also maintains a stock of all types of frozen foods and fruit juices. Canned meats, soups, barbecue sauce, shortening, frying oil, napkins, paper cups, paper plates, and kitchen tissues are for sale. Big Spring Locker Company is owned by Jim Kinsey and Marvin Sewell. Kinsey manages the locker and Sewell is stock farm manager. European types of earthworm are often more vigorous than those in other areas of the world and when introduced into such areas, frequently displace native species.

Specialty Of Glen Brown Grocery Is Free Delivery

Free and quick delivery is a specialty of Glen Brown Grocery, 904 West 3rd. Orders are delivered whenever and wherever the customer desires. Brown points out that the delivery service extends to any point within the city. Of course, purchases are delivered during business hours, 8 a.m. to 7 p.m. If the housewife finds herself without an automobile for the day she can always phone the order in. Brown or a store clerk will fill that order to specification and have it at her house in time for meal preparation. The store number is 4-7811, and Brown says that the housewife should not hesitate to call if she just has a small purchase. Deliveries of all sizes are made. For those who do have automobiles but hate to look for parking space, there is no problem at Brown's. There is plenty of space around the store for customers to park their vehicles. The Glen Brown Grocery has a complete stock of groceries. The housewife can find anything on the store shelves that can be found in other establishments. In addition to regular items, Brown handles drugs and sundries. And Brown, who is the store butcher, points out that his prices are "right." All types of meat selections, including luncheon cuts, can be found in the store cooler. Vegetables, dairy products and staple grocery items are plentiful.

Motorcycles Safe, Thixton Points Out

Quoting from a recent interview famed sports announcer Bill Stern gave recently to the magazine American Motor Cycling, Cecil Thixton—owner and manager of The Harley-Davidson Shop in Big Spring—gives facts and figures to show that the motorcycle is a safe vehicle and motorcycling a safe sport. Most people who look at a motorcycle think they are not safe, according to Stern. On all sides, you hear such remarks as "Riding a motorcycle is fool-hearty" and "Too many people get killed." People who make such claims are badly misinformed, according to Bill. The famed announcer pointed out that there are four million automobiles in this country, compared to only 270,000 motorcycles. From 1949 through 1953, he pointed out, there was one automobile accident for every 49,000 miles driven. In the same period, there was one motorcycle accident for every 330,000 miles driven! In other words, said Stern, there are six times as many automobile accidents as there are motorcycle accidents. Stern uses another basis of comparison—using the same years from 1949 to 1953. There was an average of 31,700 deaths per year by automobile drivers compared to an average of nine deaths per year by riders of motorcycles. Again comparing the two, motorcycle safety record per mile, per vehicle was 89 per cent better than automobile drivers. Last year, automobiles travelled 330 billion passenger miles, killing 36,300 drivers. At the same time, motorcycle drivers in the US covered 218 million miles and killed but six riders. Stern attributes the safety of the motorcycle to the fact that a motorcyclist at all times has unrestricted visibility, has a constant flow of fresh air on his face at all times, keeping him mentally alert; has his hands and his feet on the controls at all times; and most motorcyclists fall within the age group where their responses are the quickest.

motorcyclist at all times has unrestricted visibility, has a constant flow of fresh air on his face at all times, keeping him mentally alert; has his hands and his feet on the controls at all times; and most motorcyclists fall within the age group where their responses are the quickest.

Information dealing with dry lot and milk fed steers, sheep-lambs, capons, pigs, cotton patch, and grain sorghum is being sent all persons eligible to enter the show and contest. It will serve as a guide throughout the year in regards to the show and sale.

Riding

THE GRUB LINE

With Franklin Reynolds

For a time Tuesday afternoon it looked as if there might not be any Grub Line today.

One more inch of rain in the right places in Borden County and this writer might not have been back in Big Spring yet, for most of Borden County, the parts we saw, got a real soaking. Water was over the highway between Gall and Big Spring, well down into Howard County, at all the low places, and by the time we got home we had begun to think that everything that wasn't as high as the highest places could be considered a low spot.

There was no way to actually tell but from below the Cap Rock, just east of Key on Highway 180 and on toward Gall, there appeared to have been more rain than caused all that excitement in Lamesa. Every draw was running full and water was standing in the pastures. The lake on the Jim York Ranch was covering a whole lot more ground than it had covered, with water, for a long, long time. As far as water on the ground is evidence of a hard rainfall that section from about two miles west of Gall back toward the Cap Rock, toward the west, appeared to have gotten the hardest rainfall of any in the area.

South of Gall on the Big Spring road, Paul H. Logsdon, who looks after the affairs of the State Highway Department in Borden County, waved us to a halt, and warned of a draw that was eating at the paving about four miles farther south. He said that a carefully operated passenger car could get through the water there all right, but that he was afraid that if a heavy loaded truck came along it might break through. He had staked the spot out with flags as a warning and said he might have to blockade it.

We also found another draw where a little of the paving had been washed out. The rain was continuing and it was raining hard, too. Right in Gall there hadn't been so much rain.

The Dorward Drug Store faces south. There, Mr. Sam Kean, Mr. Davis Dorward and the Grub Line

Rider watched the heavy black rain clouds build up down toward Luther and Big Spring.

Our greatest concern was not the Borden and north Howard County draws that were spilling water out across the highway, and washing sand and sticks and stones across it, but wondering about how we were going to get into Big Spring.

From what we had been through at Lamesa and then across to Gall, and from what we could see ahead to the south, toward Big Spring, we expected to find water at least eight feet deep at both ends of the viaduct. Imagine the surprise, therefore, when starting down the hill to the East Viaduct we found the paving dry at the bottom, and this in spite of the fact that after we turned off the Gall Highway on to the Snyder Highway we drove in one of the hardest downpours we had seen all day. A couple of miles to the north water was standing in the pastures and fields, while the viaduct was as dry as a freshly-changed baby.

It's things like that that make some people wonder about this West Texas weather.

Four or five years of drought and then there's never been such a flood as rolls down the Rio Grande. When I heard, early Tuesday morning, that Lamesa was about to be floated off, and that Sheriff Roy King was looking for a mooring place where he could tie up the Court House, I wasn't inclined to doubt it, after just getting a weather report from Ozona and Del Rio.

The Colorado River was up to within a few feet of the floor of the bridge on the Gall-Big Spring Highway by the middle of yesterday afternoon. She was rolling bank-full, angry and red. Doubtless it later got much higher headed for Lake Thomas, and eventually Big Spring bath tubs and coffee pots.

Word had been passed around in Gall an hour earlier that the Colorado was actually up to the floor

of the old steel-and-wood bridge several miles downstream.

Sam Kean, who has been a Borden County rancher for more than 30 years, had remarked that he wouldn't want to cross that old bridge until the water ran down and he could see what was still holding the structure up.

Mr. Kean, who is being welcomed home after having been under the care of a physician in Snyder, then recalled the time he was waterbound in Big Spring for 10 days during the 1902 flood.

He said he wondered for a while, then, if he'd ever be able to find the water low enough to allow him to get out of Big Spring. All the while we were watching the clouds down this way and I was wondering if I would be able to get into Big Spring yesterday afternoon.

Around Key, between Lamesa and Gall, the reports that came in on rains in that area varied considerably.

Mrs. C. H. Williams said residents over that area coming to the Williams store had reported rainfalls ranging all the way from one and a half inches to four or five inches, maybe even more.

But everywhere the rain seemed to have fallen somewhat gently, even if in a tremendous volume. And certainly it has helped the ranges and the feed crops and most of the cotton. It will probably require a few days, even days of warm sunshine, to determine what damage, if any, this unusually heavy rainfall has done to cotton, here and there. Lots of cotton rows had water standing in them, but in only a few isolated instances was there any evidence of bad washing to be observed in the fields. The great amount of water, plus the apparently small amount of water erosion in cultivated fields over the area, is a puzzle. Maybe closer inspection will reveal a greater amount of water damage than first appeared.

Miss Sadie Smith is back home in Borden County, and back at work in the office of Sheriff Sid Reeder, and she says she is glad to get back. She had to go to Kansas City to learn that Gall is the best town in the world.

For six weeks she attended an airlines school in Kansas City and she says that the main thing she learned is that she is not a big city girl.

Sadie, incidentally, is the only deputy Sid has ever had during his many years as Borden County's only peace officer, and she was appointed last year, while he was ill, so that the affairs of the

office could be kept going. She is also well known as barrel race rider in the rodeos.

We're glad to have you back, Sadie!

While many Dawson County guar crops are in bloom, the first farmer we've found with beans formed on his guar stalks is Johnnie Jones, a mile east of Punkin Center.

He planted the guar on April 25 and the good crop of well-developed beans was noticed June 23.

Drive For 4-H Center Closed

County 4-H Club contributions to the National 4-H Club Foundation's 4-H Club Center at Chevy Chase, Md., ended today.

County Agent Durward Lewter says that all county 4-H members have given 10-cent contributions. Agents gave \$1 to the fund.

The center was purchased in 1951 at a cost of about \$375,000. Contributions will be used for a \$125,000 repair and remodeling program and partial payment of the primary cost.

A fund of about \$200,000 is expected to result if all 82,000 4-H chapters contribute. The fund drive was begun last year.

Eventually, as planned, the center will have lodging, dining, and conference facilities for groups of up to 300 persons. It will be operated the year around on a non-profit basis.

The National 4-H Club Center will have a permanent maintenance and management staff, but conference groups may develop program features that meet their own special needs. The wooded grounds, large and small meeting rooms, health wing, and other facilities will be used by youth groups interested in rural life, annual National Assembly of 4-H leaders, conferences and meetings of extension workers, Home Demonstration Councils, and other groups.

The center now has a 12 1/2 acre campus with five buildings.

Film Stunt Man Loses Bout With Shark In Pacific

SANTA MONICA, Calif. (AP) — Movie stunt man Frank Donahue has been busy all week catching sharks. Finally one caught him. With his bare hands he caught more than 60 sharks off Santa Monica Bay, only to find that they were too small. He teased them all back since he needed a fish at least seven feet long as a wrestling partner in a movie scene.

Yesterday he jumped off his boat and swam around. Sharks swam close as usual. Donahue grabbed the tail of the nearest one and flipped it onto the boat deck. Then he climbed aboard for a look.

The boat rocked, Donahue slipped and fell against the flopping shark. It bit deep into his right elbow and forearm.

He went to a hospital for treatment.

Nashville Catholic Schools To Permit Negroes To Attend

NASHVILLE, Tenn. (AP) — The Most Rev. William L. Adrian, bishop of the Catholic Diocese of Nashville, has ordered all parochial schools in the city opened to both Negro and white students.

The Rev. Charles M. Williams, chancellor of the diocese, which includes all of Tennessee, said the order applies only to Nashville. He said decisions on segregation elsewhere in the state will be made later.

The decision, he said, was taken in accordance with the recent Supreme Court decision banning segregation in public schools.

Fields per acre of American farms have increased more since World War II than in the previous 60 years, according to a study made by the Twentieth Century Fund.

CUSTOM NOTE! Twin-Turbine Dynaflo and Safety Power Steering are standard equipment on every Buick ROADMASTER of no extra cost.

It makes you feel like the man you are

YOU must know, of course, that a fine car is more than merely a means of fine travel.

It is, as the psychologists tell us, an extension of a man's own personality.

It reflects what you feel, what you like, what you are.

So we ask you to take the wheel of a Buick ROADMASTER like the one shown here—for it is, we have found, the automobile chosen more and more by those who are definitely moving ahead in the world.

You will find it a car that fairly breathes success.

From its size and its breadth and the magnificent modernity of its styling, you know it is a car of custom stature—and so does the watching world.

The wondrous windshield is a pride in itself. You don't just see the view—you command it.

You will find it, too, a car of luxurious obedience.

From the moment you ease your foot down on the pedal, you take immediate mastery of the road and of distance.

And you know it—in the silken whip of Twin-Turbine Dynaflo, the might of

Buick's greatest horsepower, the magic cushioning of coil springs on all four wheels, the exhilarating ease of Safety Power Steering at your hand.

But with all this, you buy with prudence when you buy a ROADMASTER.

For—though it is, and looks, custom production—it sells for the lowest price-per-pound in the fine-car field. And so wise an investment makes you feel even more like the man you are.

Drop in, or phone us this week, and we'll gladly arrange a demonstration.

BUICK SALES ARE SOARING!

Latest figures for the first four months of 1954 show Buick now outselling every other car in America except two of the so-called "low-price three." Better look into Buick if you want the beauty and the buy of the year.

Gay, New Fad To Be Found In Corsages

A new fad that is destined to take over Big Spring is that of wearing ear screw corsages. Every ear screw seems to already be having their field day with the already popular artificial flowers.

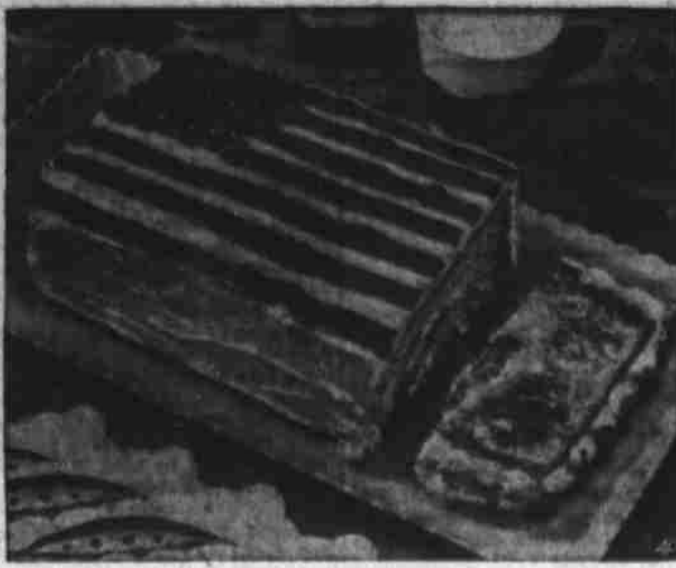

A new and pleasant diversion from the shoulder, wrist, or hair corsage, this new fashion-first can be assembled at the florists from a regular pair of hoop ear screws plus two to four carnations or other smaller flowers.

Another reason that this new type of feminine decoration will soon be on its way to popularity is that it is especially becoming to the new short hair trends. Ideal for a formal or semi-formal date, the gay, flowery accent near the face seems to make lovely young misses resemble oriental moon maidens.

Daughter Is Born

Mr. and Mrs. C. M. Phelan announced the birth of a daughter, Mary Elizabeth, on June 29, at Big Spring Hospital. She weighed 6 pounds 14 ounces. Grandparents are Mr. and Mrs. Lee Hanson, 1401 Runnels, and Mrs. M. Phelan of Fort Worth.

Mr. and Mrs. Earl Davis, who have moved to Irving were honored before they left with a surprise farewell party in their home. About 25 attended the party or sent gifts.

FLAG TOPPED DESSERT For July 4 Dinner

Independence Day Flag-Topped Cake

By CECILY BROWNSTONE Associated Press Food Editor

Treat your family to a red, white and blue dessert for that Fourth of July dinner. They'll like the attractive way it looks and the spanking-new way it tastes.

For this masterpiece, blueberries are pureed and used with white-cake mix to achieve a marbled effect. Then the dessert is frosted in white and decorated with red frosting stripes and a corner of blueberry "stars." Accompany your work of art, if you like, with a blueberry sauce made by heating the berries in a light sugar and orange-juice syrup just until they are cooked through.

BLUEBERRY MARBLE DESSERT

Ingredients: 2 cups fresh cultivated blueberries or 1 package frozen blueberries, 1/4 cup water, 1 1/2 packages white cake mix.

Method: Put blueberries and 1/4 cup water in saucepan; bring to a boil. Drain off juice and save. Press berries through a food mill or strainer. Measure combined juice and strained pulp and add enough water to equal half of liquid called for on package of white cake mix. Heat oven to 375 degrees. Grease 10 by 6 by 2 inch oblong baking dish; line it with waxed paper; grease paper. Prepare 1 package white cake mix following package directions. In separate bowl, mix the remaining 1/4 package white cake mix using blueberry mixture instead of liquid called for on package. Pour white batter and blueberry batter alternately into pan. Cut through several times with knife to swirl mixtures slightly. Bake 40 to 45 minutes.

utes or until cake tester inserted in center comes out clean. Remove from oven. Cool 10 minutes and remove cake from pan. Frost with Flag Topping.

FLAG TOPPING

Ingredients: 1-3 cup butter or margarine, 3 cups sifted confectioners' sugar, about 1/4 cup milk, 1 teaspoon vanilla, few drops red food coloring, about 1/4 cup fresh cultivated blueberries or 1/4 cup well-drained frozen blueberries.

Method: Cream butter. Add sugar gradually. Add enough milk to make of spreading consistency. Blend in vanilla. To one-half cup of this frosting add a few drops of red food coloring. Frost cake with white butter frosting. Arrange blueberries in one corner to resemble the blue of the flag. With a pastry tube filled with red frosting, press red stripes across cake.

Converted Curtains

Oiled silk shower curtains worn out? Before you throw them away, cut out the usable parts and make them into waterproof aprons or make-up capes.

Mr. and Mrs. James Skalicky, Dale and Bruce of Ingewood, Calif., are guests in the home of his parents, Mr. and Mrs. J. L. Skalicky, and his brother, Mr. and Mrs. Ray Skalicky.

THIS IS GOOD EATING

OPEN-FACE WAFFLE SANDWICHES

Ingredients: 1 1/2 cups chopped cooked chicken, 1/4 cup finely chopped onion, 1/4 cup finely chopped sweet pickle, 1 cup mayonnaise, 2 cups pancake mix, 2 cups milk, 1-3 cup shortening (melted), 2 eggs, 4 slices American cheese (cut into strips).

Method: Mix chicken, onion, pickle and mayonnaise. Put pancake mix, milk, shortening and eggs in medium-sized bowl; beat with rotary beater until fairly smooth; do not overbeat. Pour batter onto hot waffle iron; bake waffle until steaming stops. Spread chicken mixture over waffles; arrange several cheese strips on top. Broil until cheese melts. Makes 5 servings. Serve with the following supper menu.

Scotch Barley Broth
Open-face Waffle Sandwiches
Vegetable Relishes
Pickles
Lemon Sherbet with Raspberries
Beverage

(Clip this for future use. It may conveniently be pasted on a recipe file card.)

Mrs. Horton Surprised On Birthday

ACKERLY — Mrs. Tommy Horton was surprised with a birthday supper recently at the Ed Hall home. Supper was served in the yard. Those doing the surprising were Mr. and Mrs. Tom Horton and Dana Ruth, Mr. and Mrs. Darrell Smith and Sylvia Ann, and Mr. and Mrs. Ed Hall, Jerry and Larry.

Mrs. Arthur Blagraves was a patient in the Medical Arts Hospital several days last week.

Mr. and Mrs. P. J. Griggs of Love and Mr. and Mrs. Cecil Mackey of Colorado City were visiting the Clifton Griggs family, the Donald Griggs family, and the Jack Griggs family over the weekend.

Antia and Billie La Fon of Wichita Falls are visiting Mr. and Mrs. Norman Cluck.

Sunday guests of Mr. and Mrs. Joe Moore were Mrs. Pat Farrell and grandson of Carlsbad, N. M., Mr. and Mrs. Wade Bartlett of Lamesa, and Mr. and Mrs. Travis Russell and Beverly.

Guests of Mrs. J. I. Crass recently were her daughters and sons-in-law, Mr. and Mrs. Thurman Baum of Lenora and Mr. and Mrs. Jim Motley of Knott.

Mrs. S. D. Lewis and Ruby Lewis of Seminole were visiting Mr. and Mrs. A. J. Lewis over the weekend.

BLF&E Social Club

Mrs. C. L. Richardson and Mrs. J. L. Skalicky were hostesses recently to the Social Club of the BLF&E. Games were played and prizes were won by the following: Mrs. J. T. Anderson, Mrs. Felix Jarratt, Mrs. C. B. Sullivan and a guest, Mrs. Holderby of Fort Worth. Mrs. L. M. Brooks won a special prize. Nineteen members attended.

Willing Workers Meet

Eleven members attended the meeting of the Willing Workers Circle of the East 4th Baptist Church Monday afternoon in the home of Mrs. Clyde Wood. Mrs. F. L. Ashley brought the study from the mission book, "This is Africa." Prayers were offered by Mrs. Ashley and Mrs. W. H. Lindley.

Before Their Time

VIRGINIA CITY, Mont. (U)—Historic Virginia City's courthouse was built years before Montana women served on juries. Therefore, it still has accommodations for but

one sex. When seven women were seated for the first murder trial jury in 19 years, the courtroom was cleared each night and the five male jurors slept there in portable beds. The women slept in the jury quarters.

Light Thieves

Don't let dust collect on lamp bulbs and shades, advises the U. S. Department of Agriculture, if you want full value for the light you pay for. When bulbs and diffusing bowls collect a film of dust and grease, they should be removed and washed like any other glassware.

Flowers For Milady

Peggy Hogan models one of Big Spring's first pair of ear screw corsages. She wore these to the DeMolay formal dance held at the Country Club recently.

Kitchen Colors

Yellow, green and pink are the favorite kitchen colors, according to a chemical company's color consultant. In houseware sales, dominant colors are yellow, flame red, bright green, vermilion, gray and lime, with pink rapidly coming up in popularity.

Greatest demand in upholstery fabrics is for greens, then tan, brown and beige.

Colors for fashions and home furnishings in cotton yard goods show red, green, navy and pink on top. Tablecloths are wanted in emerald green, red, yellow, lime and gray, but bath towel favorites are yellow, pink, black, gray, red and blue.

Pink, yellow, green, gray and blue are sellers in plumbing fixtures, while an inversion, — gray, yellow, green and pink—are favorites in wall tile.

Mary Margaret McBRIDE SAYS

A well-known lecturer said to me impatiently not long ago that the great Florence Nightingale became insufferable as she got older.

Insufferable, maybe, to those whom she badgered in her effort to get better sanitary conditions, but a hundred years ago when this extraordinary woman went to the Crimea to care for wounded soldiers the hospital death rate dropped in five months from 42 per cent to 2 per cent. She nursed all the worst cases herself. In the course of one winter she stood beside 2,000 deathbeds. At night she wrote reassuringly to the families of the sick soldiers and then slept a few hours in an uncomfortable bed behind a screen in the storeroom. Because the stove wouldn't work, her breath congealed and the ink froze as she tried to write. Rats raced about in the walls, the food was unclean but this woman who had been used to every luxury never thought of giving up.

Hospitals in 1845 when Florence Nightingale broke the news to her socially prominent family that she intended to become a nurse, were places of indescribable filth and

squalor. Miss Nightingale wrote years later that nurses were preferred who had lost their characters and so many drank to excess that one who did not was regarded with amazement. Most of the windows in the wards were boarded up in the winter and the stench became so dreadful that workmen brought in to wash and scrape the walls became sick and had to leave.

Like Joan of Arc, Florence Nightingale believed she had been called. On Feb. 27, 1837, she wrote in her diary: "God spoke to me and called me to His service." Four decades later, according to her biographer Cecil Woodham-Smith, she recorded that her "voices" had spoken to her four times.

Answering the calls, she gave up luxury, love and marriage. A dedicated woman, she felt impatience with those who didn't understand that her work was important. Like Sister Elizabeth Kenney who came many years after her, she wasted no time on humor and palaver. She knew what she had to do and went straight to it.

She lost her health, she suffered rebuffs and insults that she would have shattered a lesser person. But practically alone she lifted nursing to the level of a profession and accomplished miracles for the sick.

On second thought, maybe she did become a little insufferable, for she was a perfectionist and often disappointed. But perhaps the world needs a few insufferable people to get important things done. It could be that nowadays we put too much emphasis on charm and never antagonizing anybody. All I know is that the world she left is a better place because Florence Nightingale lived in it.

In Order To Keep Cool—Sleep Cool

By JOY MILLER AP Newsfeatures Writer

You don't have to live in an igloo to sleep cool in summer.

When the hot and humid nights close in, says a sleep expert, you can keep cool by observing three basic rules.

The rules, enumerated by Norman Dine, who heads the sleep shop of a New York specialty store, are:

1. Keep heat out of the bedroom.
2. Move out heat already inside.
3. Sleep in a bed that absorbs heat from the body.

"Heat can be kept out if windows are shielded by trees, awnings, venetian blinds or double shades," says Dine. "Double shades are black and white. The black absorbs heat and the white, next to the window glass, reflects it."

As for moving heat out, Dine says, an air conditioner is the simplest way. Less expensive is the exhaust cooling fan that fits windows and takes out the humid air.

"The bed is the most important factor of all," Dine insists. It should be located in the airiest part of the room and have enough space under it for the air to circulate freely.

Bed fans that fit under a bed have been developed recently, Dine says, to move air without producing drafts. A regular electric fan can be used if it will fit under your bed or if it is placed beside the bed with the air shot downward and not on you.

Dine says a good way to get the most air circulation from an electric fan is to face it toward a wall about 30 inches away and let the air bounce.

"The coolest beds are porous," our expert explains, "and the most porous beds are foam latex." He recommends the new porous nylon sheets — now in an open wave — foam latex pillows and—if you've them—blankets of porous nylon and sheer wool.

Summer Drama

Velvet hats are making the headline news of the season. Left, a dramatic scoop bonnet in yellow velvet elegant and new for afternoon wear with dressy summer costumes. Right, a summer charmer in velvet that perches over the chignon.

Velvet Hats Top Fashion For Summer

By DOROTHY ROE
Time was when the well-dressed woman wore a velvet or felt hat in winter, changed to straw in summer.

But times have changed. One of the top fashions of this season is the summer velvet hat. So popular have these flattering velvets become that hat manufacturers are thinking of reversing the seasons, and trying out straws for winter.

The little black velvet hat for August and early fall has been gaining ground for several years, but this is the first season when velvet hats of all sizes, shapes and colors are seen in mid-summer.

You'll find them in all price ranges, from the expensive Paris imports and custom made models at \$45 and up, to little hat bar numbers that can be bought for 25c.

Whatever their price, these new summer velvet hats are smart and new-looking, especially in color. You'll be seeing them in yellow, violet, silver gray, raspberry pink, tangerine and white, in addition to the traditional black. You'll find them in dramatic cartwheels and little chignon twists, to fit over the bun at the back of your head.

If you want to be ultra-smart, add velvet gloves to match.

Safe, Pretty Suntan Not Yours In A Day

By VIVIAN BROWN
It can take only a few minutes in the summer sun to make you look—and feel—like a boiled lobster.

When you're suffering through the blisters, it will be little consolation to know that you have lots of company. Every summer a high percentage of bathers ignores all the advice of the American Safety Council, the U. S. Public Health Service and other sources.

As a result, more than eight million days will be lost through sunburn absenteeism and the same number of days will be spent in misery by broiled humans.

Here are some suggestions by sun authorities for a safe and pretty tan:

1. There is no exact time limit for safe sunning because skin types differ in their sensitivity to ultraviolet. As a rule, however, fair skins are quicker to burn than olive skins, but the individual is the final judge of his own skin tolerance. Some will find their maximum exposure is 15 minutes. Others may tolerate as much as 50 minutes.

2. A good effective sun lotion can help double the time you may safely stay in the sun. Screening ingredients used in these lotions ration ultraviolet rays without impeding those that stimulate the tanning process.

3. Even with a suntan lotion you can't hope to acquire a tan the first day. Prolonged exposure to sunlight may result in a painful and serious burn or a tan that will peel away quickly.

4. You can take less sun at the beach where reflection by sand and water doubles the intensity of ultraviolet than you can take near grass or trees. You'll need to wear lotion on cloudy or hazy days, too.

5. Oiliness has nothing to do with the effectiveness of a sun preparation, so be wary of picking up just any oil from pantry or medicine chest to use as a sun screen.

6. Be sure to coat yourself with sun lotion after each swim and whenever your skin begins to feel dry. Sun allergy creams are available, which are said to block out all sun rays and if applied to sensitive areas such as nose, lips, shoulders, back of the knees will help insure safe sunning.

7. Ointness has nothing to do with the effectiveness of a sun preparation, so be wary of picking up just any oil from pantry or medicine chest to use as a sun screen.

8. Be sure to coat yourself with sun lotion after each swim and whenever your skin begins to feel dry. Sun allergy creams are available, which are said to block out all sun rays and if applied to sensitive areas such as nose, lips, shoulders, back of the knees will help insure safe sunning.

9. Ointness has nothing to do with the effectiveness of a sun preparation, so be wary of picking up just any oil from pantry or medicine chest to use as a sun screen.

10. Be sure to coat yourself with sun lotion after each swim and whenever your skin begins to feel dry. Sun allergy creams are available, which are said to block out all sun rays and if applied to sensitive areas such as nose, lips, shoulders, back of the knees will help insure safe sunning.

11. Ointness has nothing to do with the effectiveness of a sun preparation, so be wary of picking up just any oil from pantry or medicine chest to use as a sun screen.

12. Be sure to coat yourself with sun lotion after each swim and whenever your skin begins to feel dry. Sun allergy creams are available, which are said to block out all sun rays and if applied to sensitive areas such as nose, lips, shoulders, back of the knees will help insure safe sunning.

13. Ointness has nothing to do with the effectiveness of a sun preparation, so be wary of picking up just any oil from pantry or medicine chest to use as a sun screen.

14. Be sure to coat yourself with sun lotion after each swim and whenever your skin begins to feel dry. Sun allergy creams are available, which are said to block out all sun rays and if applied to sensitive areas such as nose, lips, shoulders, back of the knees will help insure safe sunning.

15. Ointness has nothing to do with the effectiveness of a sun preparation, so be wary of picking up just any oil from pantry or medicine chest to use as a sun screen.

16. Be sure to coat yourself with sun lotion after each swim and whenever your skin begins to feel dry. Sun allergy creams are available, which are said to block out all sun rays and if applied to sensitive areas such as nose, lips, shoulders, back of the knees will help insure safe sunning.

17. Ointness has nothing to do with the effectiveness of a sun preparation, so be wary of picking up just any oil from pantry or medicine chest to use as a sun screen.

18. Be sure to coat yourself with sun lotion after each swim and whenever your skin begins to feel dry. Sun allergy creams are available, which are said to block out all sun rays and if applied to sensitive areas such as nose, lips, shoulders, back of the knees will help insure safe sunning.

19. Ointness has nothing to do with the effectiveness of a sun preparation, so be wary of picking up just any oil from pantry or medicine chest to use as a sun screen.

20. Be sure to coat yourself with sun lotion after each swim and whenever your skin begins to feel dry. Sun allergy creams are available, which are said to block out all sun rays and if applied to sensitive areas such as nose, lips, shoulders, back of the knees will help insure safe sunning.

Missions Are Studied By Baptists

Mrs. J. D. Kendrick was the guest teacher for the Kate Morrison Circle of the East 4th Baptist Church when they met in the home of Mrs. W. O. Leonard yesterday afternoon. Her study was given from the mission book, "Backside of Nowhere." Mrs. Bessie Wooten and Mrs. L. O. Johnston gave the opening and closing prayers. Eight members attended.

Study for the Mollie Phillips Circle was from the mission book, "Japan's New Day," which was given by Mrs. J. B. Clifton. Mrs. W. E. Mann was the hostess for the group, and she gave the closing prayer. Mrs. G. C. Ragdale gave the opening prayer for the five members who attended.

Mrs. Robert Ragan Is Given Shower

Mrs. Robert W. Ragan, the former Nell Engle, was honored recently with a shower given in the home of Mrs. O. L. Rush. Co-hostesses were Mrs. C. M. Weaver, Mrs. Don Crittendon, Mrs. Chubby Jones, Mrs. Allen M. McClendon and Mrs. Joe Blum.

An arrangement of blue majestical daisies and baby's breath entwined around a five-branched candelabra centered the tea-table, where Mrs. Crittendon and Mrs. Jones served refreshments. Others in the house-party were Lynette Blum and Mary Hamilton, who presided at the register. The flower arrangement on this table was a white gladiola.

Five Hostesses Honor Miss Banks At Shower

A come-and-go bridal shower honoring Shirley Banks, bride-elect of J. T. Rogers, was held in the home of Mrs. James Holmes recently. Hostesses were Stella McBeth, Wanda Gortney, Ruth Holmes, Dorris Banks, and JoAnn Hughes.

Cake and punch were served from a table laid with a white lace cloth. Written on the cake was "Shirley and Sonny." Approximately 50 attended.

Rebekahs Have Gifts From Leader

Noble Grand Alma Pye presented ceramic jewel boxes to all her officers at the meeting of the John A. Kee Rebekah Lodge, Tuesday evening at the Carpenters Hall.

Vice-Grand Violet Jarrett was given a ceramic slipper for her perfect attendance. All gifts were made by Mrs. Pye.

Members of the lodge were given handkerchiefs by Mrs. Pye, who made an address to the group. She ended her talk with a poem on "Rebekahship." Mrs. Orfay Nevins, who is moving to Mesquite on July 1, was given a farewell gift. "May the Good Lord Bless and Keep You" was sung by the group of 23 members. The monthly project for making money was announced as that of taking subscriptions to the "Oddfellow News."

Stowes Honored By Airport Baptists

The Rev. and Mrs. Warren Stowe and daughters were honored at a farewell party Monday night at the home of the L. E. Yaters. Mrs. D. M. Osborne and Mrs. L. D. Herrington were co-hostesses.

Gifts were presented to the honorees. Refreshments were served to approximately 40 guests.

The Rev. Stowe, who served as pastor of the Airport Baptist Church for nearly six years, has accepted the call of the Calvary Baptist Church in Brownfield.

Officials Talk Of Additional Counsel For Tax Suit Trials

Possibility of obtaining additional legal counsel for pending tax suits against Howard County Hospital Foundation and Malone-Hogan Hospital was discussed in City Commission meeting last night.

Three Cars Involved In Traffic Collision

A three-car accident was reported Tuesday evening along with two other automobile collisions. Officers said there apparently were no injuries.

Negro Is Held

A Negro man was being held in county jail this morning in connection with knife injuries received by another Negro in northwest Big Spring. Sheriff's officers said the man probably will be charged with assault.

\$100 Fine Assessed

Earnest Hamilton Stroud was fined \$100 and costs in County Court this morning when he pleaded guilty to charges of driving while intoxicated. Complaint against Stroud was made by city police.

Services Set Today For Loraine Woman

COLORADO CITY - Mrs. Jon W. Wilson, 66, of Loraine, died suddenly in a hospital in Big Spring on Tuesday.

Hub Caps Stolen

Theft of hub caps has been reported to police by J. R. Jones Jr., 1610 Avion, and C. B. Arnold, 303 West 18th. Jones told officers all four of the hub caps from his 1950 Studebaker were stolen Monday night. Arnold said one hub cap was taken from his Plymouth.

Scientist

work faithfully to preserve and strengthen this country." And he praised Dr. Henry D. Smyth, the only commissioner to recommend reinstatement of his security clearance, as having rendered a "fair and considered statement."

Charges Grow Out Of Damage To Car

Charges of injuring personal property without the consent of the owner were filed in Justice Court Tuesday against A. D. Smith.

Stranded Youths Return To City

The 10 Big Spring youths stranded in Villa Ahua, Mexico, Sunday by the flooding Rio Grande returned to their homes last night.

O'Brien Child Rites Are Set In Lamesa

Rites are to be held in Lamesa at the First Baptist Church at 3 p.m. Thursday for Deborah O'Brien, daughter of Mr. and Mrs. Teddy O'Brien of route 4, Lamesa.

Knott Man Hurt When Horse Falls

Homer Harrison, Knott Road, Big Spring, remained in a serious condition this morning at Malone & Hogan Hospital where he is under treatment for injuries received when he was fallen on by a horse.

Charges Grow Out Of Damage To Car

Charges of injuring personal property without the consent of the owner were filed in Justice Court Tuesday against A. D. Smith.

UNCLE RAY'S CORNER

Rocket planes will carry passengers to view future eclipses.

The total eclipse of the sun may make it interesting for me to answer this question:

"Can we depend on the coming of an eclipse as surely as we can depend on the return of Halley's Comet?"

Among all the long-term comets, Halley's is the most reliable. It comes back once in about 76 and a half years. Roughly we can expect it to appear in the sky at about the time of Thanksgiving Day 32 years from now.

Halley's Comet is fairly regular, but it falls far short of eclipses. An astronomer may miss the time of the comet's return by several months. On the other hand he can tell the exact date of an eclipse which is due 50 or 100 years from

now! On the 29th day of March in the year after Halley's Comet is expected to return, there will be a very short total eclipse of the sun. This eclipse will be total for hardly one third of a minute!

Most eclipses are total for a longer time than that. Next year, on the twentieth day of June, a solar eclipse will be total for seven minutes. This eclipse will make a dark pathway from the island of Ceylon to the Philippines.

I have spoken about a Florida woman who felt that her state should enjoy the total eclipse this year. If she is patient, and will wait for 16 years, she will be rewarded with a total eclipse in Florida. The path of darkness also will run through Georgia during that (somewhat distant) event.

During August, in the last year of the present century, there will be a solar eclipse. The dark pathway will run through Europe, and will touch the British Isles.

Anyone in North America at that time should be able to watch the eclipse without trouble. By getting on a rocket plane, he probably will be able to reach Europe in 60 minutes or less. After viewing the solar eclipse, he may return in time to have dinner in his own home on the same day.

Tomorrow: Approach of Mars.

DATE DATA

Too Dressed Up? Best To Ignore It

Have you ever felt out of place? Have you ever been caught up in the madness of an inescapable situation and wished frantically that you could disappear beneath the floor or evaporate in a cloud of mist?

That's how Helen Marshall felt just a few nights ago. But let's go back to the beginning. Bob Hershfield invited her to a dinner-dance at one of the town's nicer restaurants. Having never been to such an affair with his crowd before, she telephoned a couple of the other girls to ask what kind of dress would be proper.

Joan and Nancy both said a cocktail dress was just the thing, so Helen took her savings and an advance on her next three week's allowance and bought herself one that would make a debutante envious.

Behold! Saturday night came

Holmes Raps Opponents As 'Little Boys'

By The Associated Press
J. J. Holmes, candidate for governor, says the people of Texas are "tired of the slander and mud-slinging" of his two opponents.

They are Gov. Shivers and Ralph Yarborough, Austin attorney making a second attempt to unseat Shivers.

Holmes referred to his opponents as "two little boys who want a big job."

Holmes spoke in Lufkin and Nacogdoches Tuesday and continued his campaign through East and Southeast Texas.

Shivers told a Clarksville audience he has asked the Highway Commission to call a meeting of all interested parties to study the highway problems created by huge increases in city traffic.

"I will not be satisfied," the governor said, "until we have all the highways, expressways, farm roads, and traffic facilities inside our cities that are needed for both the convenience and safety of the people of Texas."

Ike Supports Court Ruling On Schools

DALLAS (AP)—President Eisenhower says the recent Supreme Court ruling outlawing segregation in public schools reflects social and political maturity.

The President's statement was contained in a message read yesterday at the opening session of the National Assn. for the Advancement of Colored People convention.

"We must have patience without compromise of principle. We must have understanding without disregard for differences of opinion which actually exist," he said.

"We must have continued social progress, calmly but persistently made, so that we may prove without doubt to all the world that our nation and our people are truly dedicated to liberty and justice for all."

Dr. Channing H. Tobias, NAACP board chairman from New York, told the opening session:

"We are not going to stand idly by while enemies of the democratic process in the person of public officials whose salaries are paid from funds derived from taxes of all the people hold closed-door conferences for the purpose of devising ways and means of evading the court's ruling."

when she and Bob strode up to the others at the party and, to her amazement, on the other side of the glow her rhinestones cast she spied the incredible. There was a room full of girls in simple, little, washable, cotton dresses. A mixture of embarrassment and fury hits a girl at a time like this.

Helen lost no time in getting to Joan and Nancy to scold, "I thought you told me you were going to dress up!"

"But we are!" came the stammering reply.

Of course everyone is entitled to his or her idea of what dressed up is, but generally speaking a cocktail dress is something that requires cleaning instead of washing and cannot be worn as anything else without attracting considerable attention.

If you had been Helen, what would you have done? Like her, you probably would have turned red under the stares of so many people, but like a debutante right out of an etiquette book, you should neither criticize nor explain except briefly to your date and those who specifically bring the matter up.

For the happiest ending to this unfortunate beginning, you should forget the difference in dresses and put your best foot forward personally-wise.

Knowing you are dressed properly even though you stand alone should be enough. Be prepared for such an emergency as Helen Mitchell faced so your mind can tell your pounding heart, "No, no, no. I won't say a thing about it and thus draw more attention to myself. I'll handle it smoothly no matter how miserable and awkward I feel."

Few people are poised both outwardly and inwardly as well. (Got a problem? Write it to Beverly Brandow in care of the Herald. She'll be glad to answer you personally.)

Growers Deny Full Coffee Price Blame

MIAMI, Fla. (AP)—Fifteen cents per cup of coffee gives restaurants more than 300 per cent gross profit, says Dr. Roberto E. Canessa, minister of foreign affairs of El Salvador.

Dr. Canessa told the Chamber of Commerce of the Americas here yesterday that the public shouldn't blame coffee producers for these prices and said government leaders "have leaped on the coffee price bandwagon."

He said 1 cent per pound increase in the price of coffee costs American consumers \$7 million dollars, but four-fifths of this remains in the United States.

Bobby Dykes Tries Holly Mims In 10

By WILLIAM O. VARN
WASHINGTON (AP)—Holly Mims, currently second-ranked contender for the world middleweight title, gets an acid test tonight against rangy and ringwise Bobby Dykes.

JAY (LEFT) AND ZAY LEFEVRE

HAVE 3-1 RECORDS LeFevre Brothers Both Pitchers

The Yankees are resting in their usual spot atop the National Little League standings and are a good bet to remain there as long as the LeFevre twins, Jay and Zay, remain healthy.

Jay and Zay are the 11-year-old sons of Mrs. Zarah LeFevre of 306 W. 18th Street, a radio operator for the City Police Department.

Jay, the taller of the two boys, has been a pitcher with D. R. Gartman's Yanks the past three years. Zay turned to pitching this year after playing the outfield.

Each has a 3-1 won-lost record this season. In three years, Zay has won something like 15 games, compared to only two losses.

Jay has pitched two shutouts this season. Zay has 34 strikeouts this year. Jay, in three years, has compiled a total of 220.

When Jay isn't pitching, he plays first base. Zay goes back to the outfield or to first base.

Zay is the better hitter, with a .346 average. Jay boasts a .222 average at the present time.

Gartman has no worries for this season or next, because the twins will be eligible for Little League play again in 1955. After that, they will go into Pony League ball.

The two also play basketball—they performed for the Park Hill grade school team last season.

The two are the sons of the late Richard (Moose-Jaw) LeFevre, the tallest player in the history of Big Spring High School. Richard stood about 6-feet-10 and used it to good advantage around the basket.

MOSCOW (AP)—The world champion shotputter, America's Parry O'Brien, has become quite a boy in the Soviet press.

Perhaps it's because they like strong athletes here—men who can out-strut their own.

That is probably why O'Brien is given a two-column headed story and picture in the latest issue of Soviet Sport, leading sports paper of the Soviet Union.

The article stated that twice in a young season O'Brien broke his own world record and pointed up that Soviet track and field athletes must make haste to catch up with the Americans.

This was made especially pointed in a few paragraphs attached to the O'Brien article and dealing with Texan Charles Holding, who has been threatening high jumping records.

Moscow Press Lauds Holding

Says Soviet Sport, talking about Holding: "He started his preliminary jumps at 2.03 meters (6 feet 8 inches) . . . and went on up from there."

The implication was plain—Soviet high jumpers please note!

The Devils and the Reporters meet in today's Pony League action, scheduled for 5 p. m. on the HCCJC diamond.

In T-shirt League games tonight, Condon meets the Record Shop in the first game while Seven-Up opposes Reed Oil Company in the second game.

In City League action, Tennessee High has it out with Service Center and Cook Appliances tries to out the Webb Air Base team down to size.

The best record ever compiled for a Dallas University basketball team was in 1953 when the Blue Devils won 22 of 24 games.

NOT ASLEEP AT SWITCH

DALLAS (AP)—Fans at a Tulsa-Dallas game got a giggle when the lights went out just after Willard Brown of the Eagles singled.

When the arcs came on after a brief interval, Brown was on second base. He was sent back.

Solly Hemus, now of the St. Louis Cardinals, pulled the same stunt in Houston several seasons ago.

Artesia Loses Two Players

ARTESIA, N. M. (SC)—The Artesia Numexers, who have had trouble all season holding onto their stars, lost two more players to parent Dallas Tuesday.

They are Mickey Sullivan, former batting champion of the Southwest Conference, and Charley Watts.

Sullivan is an outfielder, Watts a third sacker. Watts opened the season with San Angelo but was returned to Dallas and then was sent to Artesia.

Weaver To Speak To Tech Alumni

LUBBOCK (SC)—DeWitt Weaver, athletic director and head football coach at Texas Tech, will address a gathering of Tech alumni in Houston Friday night.

Stephen A. Brooks is in charge of arrangements, according to L. C. Walker, executive secretary of the ex-students association.

Missions Blow One, Other Teams Move Up In Race

By The Associated Press
The Texas League race, never very loose, was tighter than ever today as the pack, narrowly headed by San Antonio, pushed toward the magical July 4 when, baseball tradition says, the champion will most likely be determined.

Diamond lore claims that the club leading the league on Independence Day will win the pennant.

San Antonio's lead was sliced to one game Tuesday night as the Missions took a 7-0 trimming from Beaumont while runnerup Shreveport was winning an 11-inning battle from Houston, 2-1.

Jim Ackeret singled in the winning run at Shreveport from the top only Sunday.

Howe Phillips stole home in the ninth to give Houston a tie with the Sports and force the game into extra innings.

Howie Anderson, who couldn't win for Dallas and was sent to

Turpin And Bratton Are Dropped From Ratings

NEW YORK (AP)—Two former champions, Middleweight Randy Turpin of England, and Johnny Bratton of Chicago, are out of the first ten ranking for the first time in years in the latest Ring Magazine ratings of boxers.

Veteran light heavyweight Danny Nardico also was dropped out of the elite group as Editor Nat Fleischer gave every one of the eight divisions a good going-over today.

Turpin, ninth a month ago, and Philadelphia's Gil Turner, who was tenth, were dropped to make room for Argentina's Eduardo Laussa (10th) and Germany's Gustav Scholz (9th). France's Pierre Langlois jumped from sixth to fourth.

In the welterweight class, Bratton was removed and Al Andrews of Superior, Wis., joined the group in ninth.

Nardico, of Tampa, Fla., lost out when he was stopped in four rounds by flashy Paul Andrews of Buffalo, N.Y. The 24-year-old Andrews leaped from seventh to fourth. Oakland Billy Smith took over Nardico's No. 8 spot.

Among the heavyweights, Tommy Harrison was replaced in the Big Ten by veteran Harry (Kid) Matthews of Seattle, and Earl Walls of Toronto and Dan Bucceroni of Philadelphia traded the No. 7 and 8 berths with Walls now seventh.

Percy Bassett of Philadelphia once again became the No. 1 contender as the result of his 11th round TKO of Lulu Perez and Carmelo Costa's upset of Mexico's Baby Ortiz.

Hardin-Simmons Schedules 12 Intersectional Games

ABILENE (SC)—Twelve intersectional games and a like number of Border Conference clashes make up the 1954-55 Hardin-Simmons University Cowboy basketball schedule, according to E. W. (Bill) Ledbetter, athletic director.

Opening with Texas University in Austin, December 1, Coach Bill Scott's Pokes meet Baylor in Waco, Southwest Missouri State at Springfield, Mo., Howard Payne at home, Pepperdine and Texas A&M in Canyon and Midwestern in Abilene before opening conference play against New Mexico A&M, Jan. 8.

The complete schedule: Dec. 1—Texas University at Austin
Dec. 2—Baylor at Waco
Dec. 6—Southwest Missouri State at Springfield
Dec. 16—Howard Payne at Abilene

Dec. 21—Pepperdine at Canyon
Dec. 22—Texas A&M at Canyon
Jan. 4—Midwestern at Abilene
Jan. 8—New Mexico A&M at Abilene

Piersall Leads Yankees' Bauer

CHICAGO (AP)—Fleet Jim Piersall of the Boston Red Sox today captured the American League right field spot from Hank Bauer of the New York Yankees in the balloting for the July 13 All-Star game at Cleveland.

Piersall moved ahead of Bauer, 346,788 votes to 344,319, in the poll which started June 11 and closes Saturday night.

With four days left, the total vote in the poll to select the starting American and National lineups has reached 1,375,802. Several contests in each league may not be decided until 11th hour votes have been tabulated.

Bailon Books Two Games For Tribe

The Big Spring Indians, managed by Elias Bailon, will prep for their Sunday game in Eastrow by playing a practice tilt with the VA Hospital employees at the North Side Park at 8:30 o'clock Thursday evening.

Gus Fierro will pitch for the Indians tomorrow and again on Sunday.

Carlsbad Moves In Front Of Midland In Standings

By The Associated Press
Carlsbad moved into third place ahead of slumping Midland as the major development of an abbreviated schedule in the Longhorn League Tuesday night.

Leading Rowell edged Midland, 8-7, to make Carlsbad's move possible. The latter was crushing Sweetwater, 13-3.

John Hartridge, just acquired from Pocatello, Idaho, made his debut with Carlsbad and set Sweetwater down with seven hits.

Carlsbad was winning its 12th game in the last 15 starts and was only 5 1/2 games out of first place. Goldie Glosion hit a two-run homer among the Potashers' 17 hits.

Stubby Greer was the hero as Rowell noosed Midland. Greer drove in the tying and winning runs with a single in the eighth. Rowell had to come from behind.

At one time the Rockets were down, 7-2. Bud Hull of Midland hit his 34th home run of the season.

Artesia stayed firmly in second place with a 12-7 victory over San Angelo. The Numexers blasted five runs across in the ninth to whip the Colts and ruin a strong rally stint by Russ Agne. He held the Colts to a single hit from the second inning through the seventh but Artesia pushed two across in the eighth, then came the San Angelo collapse in the ninth before the big bats of the Numexers.

Big Spring at Odessa was postponed because of rain.

RHODES QUIT BEEFING TO UMP- GOT HIT THAT BROKE UP GAME

NEW YORK (AP)—"Leo told me to stop fighting the umpires. He said if I had to get mad at anybody, I should get mad at the pitcher. So I did."

A jubilant Jim Rhodes was stretched out on the rubbing table in the clubhouse last night trying to explain to reporters how he won the game for the New York Giants over the Brooklyn Dodgers.

It was Rhodes' pinch hit with the bases loaded and two out in the bottom half of the 13th inning that scored two runs and gave the Giants their thrilling 4-3 victory that increased their league lead over their interborough rivals to two games.

"Loss (pitcher Billy Loos) threw me two fast balls, both way in," he said with gestures, "but the ump (Plate Umpire Frank Secary) called 'em both strikes. The second one missed the plate by the length of this Coca Cola bottle."

"Sure, I was mad, and I guess I told him a thing or two. That's when Leo (Giant Manager Leo Durocher) came out to talk to me. 'Forget the umpire. Get ready for the next pitch,' he said as he was walking back to the dugout. I sure was ready. It was a real good fast ball, real good. It was the most important base hit I ever got in my life."

Ardmore Blasted By Pace Setters

By The Associated Press
First division clubs continued to show their mastery in Sooner State League games Tuesday night.

The strong Shawnee Hawks blasted 19 hits for a 13-0 shutout over the Ardmore Cardinals and continued at the head of the pack by 6 1/2 games over the Gainesville Owls.

The Owls scored all their runs in the fourth inning to defeat the McAlester Rockets, 4-2. Lawton's Braves used two middle-inning rallies for a 3-7 decision over the Pauls Valley Raiders and the Ada Heretofords had two big innings in setting down the Seminole Oilers, 11-5.

Shawnee's shutout was pitched by lefty Joe Roberson, his third of the season as he allowed but two hits. He struck out 12, walked but three to boost his record to 7-2. He also got four singles in five trips.

The same teams play again tonight.

The Winner and "Typical Texas Beauty"

...As selected by Mrs. Herman Jones Austin, Texas

One of America's finest artists painted a series of "Typical Texas-Type Beauties" for Budweiser newspaper advertising in Texas but our art director couldn't decide which ONE he liked BEST. So, we left the decision up to you.

All entries listing a choice and explaining "why" in fifty words or less were judged by John Randolph, author of "Texas Brags."

J. Mabel Clark of the Austin American Statesman, and Bill Reddell of the San Antonio Express News.

The winning entry, chosen by the panel, is Mrs. Herman Jones of Austin, Texas, who picked this beauty as her favorite.

Our congratulations, Mrs. Jones! Your favorite recognized charity will receive a check for \$1,000.

Giants Pull Another Out Of Fire, 4-3

By BEN PHLEGAR
AP Sports Writer

The New York Giants apparently are going to stay in first place until they run out of miracles. So far their supply has seemed almost unlimited.

They pulled another one out of the hat last night, beating their bitter rivals, the Brooklyn Dodgers, 4-3, in 13 innings when Dusty Rhodes delivered a two-out, pinch-hit single with the bases loaded and the Giants a run behind.

It was the 10th time this season that the Giants have won in their last chance at bat.

Three weeks ago yesterday a ninth-inning double by Monte Irvin drove in two runs for a 6-5 victory over Milwaukee. Two days later, still in Milwaukee, rookie Bill Taylor delivered a pinch homer in the 10th for a 1-0 victory that moved the New Yorkers into a first-place tie with Brooklyn.

Nineteen games later they are two lengths in front of the Dodgers. During that time they've won 16 and lost 3, and six of those victories came in the final inning.

Brooklyn twice tried to steal the script last night. Trailing 2-0 after eight innings, the Dodgers kept the game alive as Jackie Robinson singled with one out in the ninth and rode home on Roy Campanella's two-out homer over the left-field grandstand. In the top of the 13th rookie Don Hoak sliced a homer into the nearby right-field seats.

But in their half of the 13th the Giants sandwiched three walks around two outs and Rhodes turned the crowd of 51,484 into a bedlam with his hit up the middle.

Elsewhere in the National League the Chicago Cubs lost their 11th in a row, 7-0, to Milwaukee; Philadelphia whipped Pittsburgh, 4-0; and Cincinnati crushed St. Louis, 11-4.

Cleveland picked up half a game on Chicago in the American League and now leads the White Sox by two games. The Indians beat Baltimore, 5-1, but Chicago had to settle for a split in a twin bill with Detroit, winning, 5-0, after losing, 10-3. The New York Yankees stayed three games back with a 14-5 triumph at Boston. Philadelphia shaded Washington, 3-2.

Art Houtteman of the Indians broke a five-game Baltimore winning streak with a five-hitter. One of the Orioles' hits was a single by Dick Kryhoski, who stretched his streak to 19 games, longest in the majors this season.

Detroit jumped ahead of the White Sox in the first game as Harvey Kuenn opened with a home run and the Tigers added a dozen more hits in piling up their seven-run winning margin. Sandy Consuegra checked them on three safeties in the nightcap, which was shortened to eight innings by the league curfew.

Mickey Mantle paced the Yankee assault on the Boston pitching corps with four hits in five times up, including a triple. Harry Byrd, unaccustomed to such robust support, weakened in the closing innings and needed help from Tom Gorman.

Arnold Portocarrero, a likely looking rookie, won his fifth straight for the Athletics with the help of a Washington error by Mickey Vernon and a triple by Bill Renna.

Jim Wilson of the Braves, who was on the market for \$10,000 with no takers until he pitched a no-hitter earlier this month, turned in his fifth victory without a loss and his third shutout in beating the hapless Cubs. Eddie Mathews hit his 14th homer.

An inside-the-park home run by Richie Ashburn with two mates on base broke a scoreless tie in the eighth inning at Pittsburgh as Herman Wehmeier pitched a seven-hit shutout.

Stan Musial hit his 24th home run, tying Willie Mays of the Giants for the league lead, but the Cardinals continued to sink deeper into second division. Gus Bell led the Cincinnati attack with a home run and two singles and the Redlegs took advantage of two errors and three hit batsmen.

Observers around the Longhorn League are very pessimistic about Sweetwater's chances to go the distance in the Longhorn League.

From here, it appears the club is not thinking in terms of day after tomorrow, desperately hoping that things will take a turn for the better and knowing they will not.

The other teams have already had to help Sweetwater and reason they will probably have to again but feel it will be throwing good money after bad.

It's the old story of the chain and the weak link again.

How are the Big Spring Broncos doing afield? They find it hard to gain on the first division clubs because the teams below them in the standings have become palsies for the top four teams.

At the same time, they're playing winning ball here, which is what counts most.

Any day now, they should pass the victory aggregate of the ill-fated 1953 Big Spring club, which won only 25 games all told before throwing in the towel in late July.

Long ago, they shaded the home win record of the 1953 club, which could claim only 16 victories before the home folks while losing 36 times.

Last year's Bronco team was a fair-to-middlin' road team. It stayed ahead of the opposition until August reared its head, after which it hit the skids. Still, it won 19 decisions away from home while losing only 21, not a bad record for any team.

The Steeds could use more business at the gate, but what team couldn't? If the locals could average 700-plus per game, as they did during the recent Midland series, then Martin would have no worries, financially, at least.

Business has picked up recently, just as Martin thought it would. He figures if he can find the necessary strength to climb into the first division, his turnout will get even better.

San Angelo is far off the pace but the club officials there are not running up the white flag, as they so emphatically showed when they acquired Bob Hobbs from Carlsbad recently. Hobbs strikes out a lot but he also hits the long ball in the clutch.

The team's biggest mistake during the winter was peddling Glenn Burns to Abilene, a fact which probably everyone down there will admit now.

True, Burns was being paid too much money but salary limits, even as low as they are now, will permit teams to carry one high-salaried individual (by Class C standards), if he is a 'money' hitter or a real stopper as a pitcher.

Joe Bauman isn't the only Longhorn League baseballer who's gone into the filling station business to supplement his income.

Two local players are doing it, along with Al Valdes, the ex-Big Spring catcher who was in pro ball until recently.

Valdes, Bert Baez and Tito Arenchiba are taking over the management of the Shell Station at Third and Gregg Streets tomorrow. They're planning to call it the Bronco Service Station, honoring the local club.

Baez and Arenchiba will work at the station when they're not on road trips with the Steeds.

Medal Is Obviously Still To Be Won In July 4 Meet

From all indications, the medal is still to be won in the annual Fourth of July Golf Tournament booked at the Big Spring Country Club.

Only five linksters had completed their qualifying rounds Tuesday and no one had been able to shoot less than 81.

Champ Rainwater reported the lowest score, an 81. Speedy Nugent and Charles Long III each had an 85, George Grimes an 88 and Bucky Grimes a 91.

Some of the entries have played nine holes and must complete their rounds between now and Friday, the last day for qualifying. Match play in the annual meet, in which members of the club only compete, gets under way Saturday and continues through Monday.

In years past, match play has been limited to two days. Expansion of the meet to three days means that no one will have to play more than one round of golf a day. Each flight will be limited to eight players.

Jake Morgan is the defending champion and one of the favorites to repeat.

A barbecue for entries in the tournament will be held at the club house at 8 p.m. Saturday.

C. A. DeWees, pro of the course and tournament starter, said he is still expecting at least 60 entries in the tournament.

Red Dial Saves Win For Clovis

By The Associated Press

Wily Grover Seltz, manager of the West Texas - New Mexico League-leading Clovis Pioneers, took no chances with the third-place Albuquerque Dukes in the ninth inning of their game at Albuquerque Tuesday night.

Seltz, nursing a slim one-run edge with two out and the bases empty, yanked his starting pitcher Ruben Phillips and sent veteran Red Dial to the hill to face the last Duke batter. Dial promptly fanned Duke pitcher Ernie Bartolome for the 5-4 victory.

The Pioneers needed the victory to protect their 2½-game lead over second-place Pampa. The Oilers posted an 11-3 victory over last-place Lubbock.

Amarillo beat Borger, 4-3, and Plainview nipped Abilene, 3-2, in the other games.

Sooner State Loop Loses Gainesville

GAINESVILLE (AP)—The Gainesville baseball club has decided to drop out of the Sooner State League.

Dr. W. H. Locke, executive vice president of the Gainesville Owls, says Gainesville's responsibility to the club will end on July 3, when enough funds probably will be available to pay most of the final expenses.

In Ada, Okla., Sooner State League president Ucal Clanton said Paris, Tex., was negotiating for the Gainesville franchise.

Skeet Shoot Ace Is Found Shot

FORT WORTH (AP)—Clayton Ditto, 51, nationally known skeet shooting enthusiast, was found shot to death last night in his home.

Justice Whit Boyd ruled suicide. Mrs. Ditto told Detective Grady Halre she heard a shot and found her husband seated in a chair, an automatic in his hand.

Cayuses, Odessa Tangle In Twin Bill Tonight

The Big Spring Broncos will play their second double header in three nights this evening, meeting Odessa in Odessa. The first game is down for 7 p.m.

The two teams were booked to open their series last night but the engagement was called off due to heavy rains in the Odessa area.

Prior to leaving town, Manager Pepper Martin of Big Spring called Odessa and was told it was cloudy. He called again from Midland after the team had progressed that far and could get no one at the ball park, so he had no choice but to go on to Odessa, where he learned it was too wet to play.

Tommy McKeena will probably pitch the first game for the Steeds today. Martin did not know who he would use in the box in the afterpiece but it could be Gil Silva, who recently rejoined the locals.

Bobby Feller and Jack Lagan will probably see mound action for Odessa.

Trabert Upset By Rosewall

WIMBLEDON, England (AP)—Australia's Ken Rosewall upset top-seeded Tony Trabert of Cincinnati, 3-6, 6-3, 4-6, 6-1, 6-1, to enter the men's singles final of the Wimbledon Tennis Championships today.

Rosewall, last surviving Australian entry, was seeded third. He was Australian champion in 1953. Trabert's game collapsed completely in the last two sets as his racket hand, badly blistered a week ago, began to trouble him again.

Rosewall, 19, forced Trabert to abandon the power game he likes by feeding him soft shots—chops, lobs and angled volleys. Only in the first and third sets could Trabert come to the net consistently.

Before the match Trabert had seven blisters on his hand and during the second set he began rubbing his hand on his shorts and inspecting it after many shots.

In the final Rosewall will play the winner of the match between Budge Patty of Los Angeles and Jaroslav Drobný of Egypt, which followed.

Grubbs And Curtis Head For Meeting

DALLAS (AP)—Howard Grubbs, executive secretary of the Southwest Conference, and Al Curtis, supervisor of officials, left today for Colorado Springs, Colo., to attend the annual meeting of the National Association of Collegiate Commissioners.

The meeting opens July 3 and will include 11 conferences. Eligibility rules and rules of officiating will be the principal topics of discussion. This organization seeks to standardize the rules in all conferences.

Fabian is a limited service outfit and was leading the Oilers in hitting when he quit following a salary dispute. Fabian's whereabouts is not known, however. He could have returned to his native Cuba.

Big Spring returns Thursday to launch a four-game home stand. They meet Carlsbad here on Thursday and Friday, after which Rosewell moves in for two games.

Albert Hill, a rookie hurler sent down by Tyler of the Big State League, is due to join the Broncos Thursday or Friday.

Hill has been with Tyler all season but has been used principally in relief. He has no won-lost record.

Duncan Is Named Rosebud Coach

ROSEBUD, Tex. (AP)—Bill Duncan, former end coach at Texas A&M College, has been named head coach and athletic director of Rosebud High School.

Duncan, who left A&M during the winter when the new coaching regime came in there, will succeed Don Stephens as head coach of Rosebud. Stephens is going to Edna as coach.

Duncan formerly coached at Wichita Falls, Belton and French of Beaumont.

LOOKING 'EM OVER

With Tommy Hart

East is East and West is West—everywhere, obviously, but in the Longhorn League.

Big Spring, one of the easternmost cities in the wheel, is aligned with Roswell, Carlsbad and Artesia in the league's all-star game next month.

The elite of those four teams will be meeting the best on the Midland, Odessa, Sweetwater and San Angelo clubs—unless Manager Pepper Martin of Big Spring can get something done about it.

As it stands now, Big Spring will be aligned with the favorites but that's not what interests Pepper most.

Martin wants as many of his boys nominated as possible, figures their chances to land on the team are better with the East's club.

Athletes who perform in all-star games and are named to all-league teams have a better market value.

Pepper reasons Big Spring should be teamed with Midland, San Angelo and Sweetwater with Odessa exchanging places with the Broncos. The geography books would ordinarily help his argument, but for the logic of some of the Longhorn League executives.

Observers around the Longhorn League are very pessimistic about Sweetwater's chances to go the distance in the Longhorn League.

From here, it appears the club is not thinking in terms of day after tomorrow, desperately hoping that things will take a turn for the better and knowing they will not.

The other teams have already had to help Sweetwater and reason they will probably have to again but feel it will be throwing good money after bad.

It's the old story of the chain and the weak link again.

How are the Big Spring Broncos doing afield? They find it hard to gain on the first division clubs because the teams below them in the standings have become palsies for the top four teams.

At the same time, they're playing winning ball here, which is what counts most.

Any day now, they should pass the victory aggregate of the ill-fated 1953 Big Spring club, which won only 25 games all told before throwing in the towel in late July.

Long ago, they shaded the home win record of the 1953 club, which could claim only 16 victories before the home folks while losing 36 times.

Last year's Bronco team was a fair-to-middlin' road team. It stayed ahead of the opposition until August reared its head, after which it hit the skids. Still, it won 19 decisions away from home while losing only 21, not a bad record for any team.

The Steeds could use more business at the gate, but what team couldn't? If the locals could average 700-plus per game, as they did during the recent Midland series, then Martin would have no worries, financially, at least.

Baez and Arenchiba will work at the station when they're not on road trips with the Steeds.

Pirates Keep Winning Ways

By The Associated Press

Waco's dashing Pirates now look like they might make it an easy race in the Big State League.

The Pirates Tuesday night won their 12th straight victory and moved four games out front.

Second-place Tyler took an 11-5 drubbing from Austin.

Waco walloped Temple, 15-5, having 11 unearned runs in its total. Temple made seven errors and Waco also pounded 17 hits and the combination was much too much for the Eagles.

Ray Mejias of Waco ran his hitting streak to 23 straight games.

Austin was snapping a 7-game slump in blasting Tyler. The Pioneers slammed seven runs across in the sixth with Earl Hochstatter pitching in with a two-run homer as the feature.

Third-place Corpus Christi took a humiliating 18-0 trouncing from Galveston which blasted 19 hits, featuring Bill Cearley who got five and batted in an astonishing 11 runs. He had two home runs in his collection.

Bob Skelton doubled in the ninth to drive in the tying and winning runs as Harlingen licked Bryan.

7-2. Skelton's payoff blow came with the bases full.

Tigers Seek Game Following Rainout

Ynez Yanes, manager of the Big Spring Tigers, is seeking to arrange a game with either Snyder or Lamesa for Sunday.

The Bengals were booked to meet the Big Spring Panthers last Sunday but the contest was called off due to showers.

Now you can protect your car against both friction and acid—the two major causes of engine wear

NEW CONOCO Super MOTOR OIL

America's First Double-Duty Oil!

Protection 1
OIL-PLATING*
conquers friction wear because this exclusive discovery actually fastens a thin film of lubricant to moving engine parts for full-time protection.

Protection 2
ACID-PROOFING
conquers corrosive wear because this exclusive new discovery gives Conoco Super up to twice the cleansing power of other premium oils!

Automotive engineers have long known that friction and corrosion are the two major causes of engine wear. Now, from the laboratories of Continental Oil, comes America's first Double-Duty motor oil. It combines two exclusive discoveries (Oil-Plating and Acid-Proofing)* to conquer both major causes of engine wear.

The unique Oil-Plating additive conquers friction wear by actually fastening a thin film of protective oil to engine parts. Unlike ordinary motor oil, this film won't drain down even when your engine has been stopped overnight. Thus you get full-time protection against damaging wear due to friction.

Exclusive Acid-Proofing additive conquers corrosive wear three ways—it neutralizes acids, prevents rust, and gobbles up tiny particles of dust, dirt, and water and seals them safely in spheres of oil until the oil is drained. ACID-PROOFING actually gives new Conoco Super twice the cleansing power of other premium oils!

New Conoco Super Motor Oil is on sale at Conoco dealers everywhere. Drive in and ask for it today!

Your Conoco dealer will recommend the right grade of new Conoco Super Motor Oil for your car, your climate, your driving conditions:

Ex-Gov. Moody

Re-Enters Duval Courtroom Fight

ALICE OS - Former Gov. Dan Moody has re-entered the Duval County legal battles.

The tall, spare Moody said yesterday he would represent Judge Maxwell Welch in a proceeding over who has a right to prosecute whom in George Parr's political domain.

Asst. Dist. Atty. R. G. Gonzales of Duval County has asked permission to a mandamus with the state Supreme Court to force Welch to allow him to prosecute a number of politically-tinged cases in which Gonzales' superior, Dist. Atty. Raeburn Norris, has been disqualified.

The Supreme Court issued a restraining order yesterday which will postpone cases involving Parr and several past and present Duval County officials.

Parr faces an assault to murder charge growing out of the beating of a member of the Freedom Party, his opposition.

Welch was to leave today for Austin to prepare his case. He has until July 5 to file his answer to Gonzales' petition. The New Boston jurist was called in several weeks ago to assist Judge A. S. Broadfoot with a crowded docket.

Braniff, TWA Plan For Through Service

WASHINGTON (AP) - The Civil Aeronautics Board has approved a temporary plan allowing Braniff Airways and TWA to join in providing through air service between Texas and California on one daily trip.

The "tentative decision" was issued in place of a proposal that Eastern, Braniff and TWA join in an interchange plan for through air service between California Texas and Florida.

The proposed interchange would be at Amarillo.

Another One Goes

Another of the series of bridges on the Rio Grande has gone out as the swollen river sweeps everything before it. This bridge is the one connecting Eagle Pass, Texas, and Piedras Negras, Mexico. The picture was made looking toward Mexico. (AP Wirephoto).

Top Part Of World Eyes Solar Eclipse

By The Associated Press

A spectacular total eclipse of the sun swept across the top third of the world from the farmlands of Nebraska to the plains of India today.

The sun was a fourth eclipsed when it rose and within 15 minutes, the moon shadow had blotted half the sun from view.

At 5:07 Central Standard Time, the moon shadow completely obscured the sun and an eerie dusk fell across a path 70 miles wide.

Light jutted during totality as the corona or outer halo of the sun spilled out to two extended points like two stems from a giant onion.

Millions watched the celestial spectacle as the sun broke from behind the moon. The first razor-thin crescent of sunlight splashing an astounding amount of light on the path of totality.

Within 55 minutes after totality, the phenomenon was over.

The shadow of the moon passing between the earth and the sun spread the trail of darkness from northeastern Nebraska across parts of South Dakota, Iowa, Minnesota, Wisconsin and Michigan.

In other parts of the nation a partial eclipse was visible where weather conditions were favorable.

After the shadow swept across Lake Superior, it spread across Canada, Greenland, Iceland, Norway, Sweden, Russia, the

Court Asked To Keep Dead Man's Name Off Ballot

AUSTIN (AP) - The Supreme Court refused today a motion asking it to keep the name of a dead district court judge off the ballot in the July 24 Democratic primary.

The court rejected the motion shortly after it was filed by E. B. O'Quinn of Marfa, a candidate for judge of the 33rd District.

O'Quinn tried to secure a court order that would have prevented the name of the late Judge John Epperson from going on the ballot.

O'Quinn said Epperson had filed for re-election but had not paid his filing fee when he died at Alice June 5.

Epperson's filing fee has since been paid by friends and has been accepted by the Democratic Executive Committee chairmen in the six counties of Brewster, Presidio, Jeff Davis, Pecos, Upton and Reagan.

O'Quinn contended the election code makes it unlawful to place a dead man's name on the ballot.

Texas Gets Federal Road Aid Allotment

WASHINGTON (AP) - Secretary of Commerce Weeks announced today the apportionment of \$52,578,101 in federal highway aid to Texas.

It was part of an allotment through the nation of \$75 million dollars for what Weeks said would be "the greatest surge in highway construction in the history of America."

The money will go to the states in the fiscal year starting one year from tomorrow as they put up matching funds and make road improvement expenditures.

New York got the biggest amount, 56 million. Oklahoma got \$16,580,881 and New Mexico \$11,309,801.

Six Turkish Airmen Of Webb Marooned

A triple-country international incident was in the making Monday as a result of the raging Rio Grande floodwaters at Del Rio - Ciudad Acuna.

Capt. Mahir Aekalin, Turkish liaison officer at Webb Air Force Base, came to his office Monday morning to discover that six of his student officers in training at Webb had not reported for duty.

"I knew that the officers had left the base Friday evening to visit Turkish friends of theirs stationed at Laughlin AFB near Del Rio," Capt. Aekalin said. "Since they were missing from duty, I called all the Mexican border stations to see if anything had happened to the men."

The captain was not long finding out the whole story because his officers, who had just escaped maroonment in one foreign country, crossed the international boundary into a second foreign country - the United States - and telephoned their whereabouts.

The six Turkish officers were 2nd Lt. Niyazi Tastan, Hamdi Sozer, Mevlut Ugru, Altin Celal, Nusayin Kutukov, and Kemal Okkuzlu.

City Commissioners Approve Stop Signs Requested By CTC

City commissioners last night approved several CTC traffic sign recommendations, agreed to a water lease on South Howard County land, and accepted a proposal to repair the roof on the Fire Department sub-station.

They also voted to meet only twice a month instead of every Tuesday night.

Requests from a property owner on Canyon Drive and several on Ryon Street were taken under advisement, and three tax adjustments were considered. Commissioners also talked about creating a Lake and Fishing Commission to formulate rules for Moss Creek Lake.

The five recommendations from the Citizens Traffic Commission which were approved included installation of yield-right-of-way signs on Settles at 15th and 16th

Streets and on 17th at Scurry. A stop sign will be placed on 17th near the Alyford intersection, and the stop sign on 1st at Gregg will be changed to yield right-of-way.

A five-year water lease on section 33, block 32, township 1-south, was approved. Commissioners agreed to pay the Ray McDowell Estate \$600 a year for the four wells on the land and one cent for every thousand gallons used in excess of the first 12 million gallons. An option to renew the lease is to be included in the contract for this auxiliary water supply.

Hall damage to the roof of the Fire Department sub-station has been appraised at \$1,053 by the West Texas Roofing Company. The insurance company holding the city policy agreed to pay this sum, and commissioners approved repairs.

City Commission sessions in the future will be held on the second and fourth Tuesday evenings of each month, it was agreed. City Manager H. W. Whitney was instructed to call special meetings whenever pressing problems occur.

Vernon Baird, 109 Canyon Drive, asked commissioners if they can do something about speeding traffic in front of his house. The road is a main thoroughfare between town and Webb, he pointed out, and it has turned into a regular "speedway." He explained that the speedsters were not necessarily alrmen.

A delegation from Ryon Street—Sam Goldman, Joe Burnam, and Dewie Stevenson—again asked the commissioners for pavement in front of their homes. All agreed for their share of the cost on the recent paving program, but the VA Hospital was prohibited from paying a part because of government regulations.

The property owners were inquiring as to the possibilities of a delegation from Ryon Street—Sam Goldman, Joe Burnam, and Dewie Stevenson—again asked the commissioners for pavement in front of their homes. All agreed for their share of the cost on the recent paving program, but the VA Hospital was prohibited from paying a part because of government regulations.

The Uptown Garage, where the fire started, was destroyed, although its walls were left standing. It was a three-story brick building. Flames damaged the Uptown Center Building, the Phoenix Furniture Co. Building and a building housing the offices of the Houston Transit Co. and several others.

Two theatres in the block, the Uptown and the Iris, were cleared, with no injuries.

An incomplete estimate of the damage totaled about \$150,000, or \$75,000 to the garage and \$75,000 to the uptown center.

Rep. Bentsen Says Flood Shows Need For Additional Dams
WASHINGTON (AP)—Rep. Bentsen (D-Tex.) said today the Rio Grande, reaching record flood heights, underscores the need for more dams on the river.

He said Falcon Dam below Laredo, is expected to harness the water, conserving it for irrigated farm lands in Texas and Mexico.

"The proposed Diablo dam above Del Rio," Bentsen said, "would have prevented the disastrous floods which have swept cities and towns on both sides of the border."

He said the Budget Bureau recommended a half million dollars planning money for Diablo in the bill now pending in a conference committee but that the amount had been cut to \$300,000. Diablo has an estimated total cost of 70 million.

Through her attorney, Miss McDonald, 30, pleaded innocent yesterday and requested the jury trial, which was granted by Municipal Judge Henry Drueger.

The attorney, G. Bentley Ryan, introduced an affidavit from the shapely actress' physician that said: "She has been ill for a number of years, suffering from an active duodenal ulcer and a neuro-muscular condition."

Miss McDonald was arrested June 21 after an auto accident. She told police she had taken two Ambuland and four second tablets which her physician had prescribed.

Incumbent Leads In Dakota Voting
FARGO, N.D. (AP)—Gov. Norman Brundage, seeking a third term, today led his Nonpartisan League-backed opponent, Wallace E. Warner, in North Dakota's GOP primary election contest.

With ballots counted in 875 of 2,337 precincts Brundage had 33,421 and Warner 23,384.

Brundage, a Mayville N.D. banker, has Republican Organizing Committee endorsement. Warner, a Grand Forks lawyer and former state attorney general, has a strong Democratic background despite his NPL, Republican faction, endorsement. He was elected attorney general as a Republican, however.

Edward G. Robinson Jr., Wife Make Up
LOS ANGELES (AP)—Edward G. Robinson Jr., 21, and his wife Frances, 24, have decided to give their 2 1/2-year marriage another chance.

They kissed yesterday after a reconciliation session with Superior Judge Elmer D. Doyle just before a scheduled support hearing on her separate maintenance action.

Plane Crash Kills 14

This is a view of part of the burned wreckage of an Air Force KC87, Strato Tanker plane, in which 14 Air Force men were killed. The wreckage lies on the side of Box Springs Mountain near March Air Force Base, Calif., where it crashed and burned. (AP Wirephoto).

Vow To Dying Mother Puts Marlon Brando In 'Desiree'

By BOB THOMAS
HOLLYWOOD — Marlon Brando says he is doing another film role because of a vow to his dying mother.
 The actor has reported to 20th Century-Fox to portray the young Napoleon in the film version of the best seller "Desiree." He has returned in glory to the studio where his name was mud only a few months ago.
 When he failed to report for shooting of "The Egyptian," the studio replaced him with Edmund Purdom. Then it sued Brando for two million dollars. The suit was canceled when Brando agreed to appear in "Desiree" opposite Jean Simmons.
 Brando told me the deal came about because of his mother. He explained:
 "She was very ill when the whole thing happened. She was very upset by the innuendo and sniping at me after I left the picture. She made me promise to patch up the trouble. So I agreed to do "Desiree."
 "She's dead now. But the deal is still on."
 While making "The Wild One,"

he had told me he planned to work in only one more picture. This could be it.
 "I'd like to do a play," he said. "Maybe I'll direct one. I've always wanted to see what it's like on the other end of the stick. After that, I don't know what I'll do."
 Is he interested in television?
 "Nah! Are you?"
 I asked him about his treatment of Napoleon, whom he much resembled in the wig. He wore a Napoleonic vest over his inevitable T-shirt, but all the buttons were buttoned. He won't stick his hand inside, he declared.
 "It's too much of a cliché," he said. "The minute I stuck my hand in my vest the audience would start to snicker. Besides, this deal with earlier years when he may not have had the habit."
B47's in Hawaii
HONOLULU — Three B47 atomic bombers which flew non-stop from California to Japan last week landed tonight at Hickam Air Force Base. A spokesman said the planes would remain here for several days.

There's Lots Of Debate Over Results Of Rain-Making Tries

By FRANK CAREY
 AP Science Reporter
WASHINGTON — The debate over whether to renew a contract with a rain-making firm was getting hotter and hotter at a meeting of officials in San Diego County, Calif.
 Mayor Lloyd Harmon of Coronado threw in this comment: "A day of prayer would be more effective and would save taxpayers money."
 His honor later qualified the remark to some extent, but it underscores the mixed reactions turned up in an informal Associated Press survey of rain makers and rain making.
 Commercial cloud-seeding firms have been in operation since shortly after Dr. Vincent Schaefer succeeded in producing man-made snow in a laboratory experiment at Schenectady, N. Y., in 1946.
 Some of the firms are manned by top-flight scientists. They have been hired by local communities, farmers' organizations, public utilities and others. The firms generally claim they're able to produce—through seeding clouds with dry ice or silver iodide—increases in precipitation up to 50 per cent above what might normally be expected. One of them claims a more than 300 per cent increase during a job in Dallas, Tex.

The AP survey shows the reactions of clients vary. Most are simply undecided as to whether they got their money's worth, but of these some still are stringing along. In other instances rain-making firms have been rehired for several seasons.
 Property owners who suffered damage from excess rainfall insist upon taking the rain makers' claims at face value. Suits totaling two million dollars have been brought against cloud seeders by some residents of New York state who claim they were hurt by too much rain. Three damage suits are pending against a prominent Western cloud seeder as the result of a flood in El Reno, Okla., in 1953.
 On the bouquet side for the rain makers, the survey turned up such remarks as this one by President A. S. Cummins of the California Oregon Power Co., the first power company in the nation to launch an organized long-term plan of cloud seeding in hope of raising water levels in its reservoirs:
 "We have had three good years. We think we've seen definite results. We can't prove it statistically, but we're satisfied. We expect to continue the experiment for another two years."
 In the Sacramento area of California the number of farm groups sponsoring rain-making ventures has dropped from eight to four since 1951. But all three major power companies in the area are continuing full-scale rain-making efforts.
 In several Wyoming counties drives are under way to raise funds

for cloud-seeding projects. So far the farmers don't appear to be so interested as in past years.
 Arizonians farmers have spent several hundred thousand dollars on such projects in the past but can't make up their minds whether benefits resulted.
 In New Mexico there was great enthusiasm several years ago, but no projects are under way now. Ranchers and farmers say they think rain making might work but that they see no immediate hopes.
 Farmers in Yakima and other counties of Washington, organized as the Horse Heaven Water Development Corp., have given a commercial cloud seeder a new contract lasting until June 1958. Rain-making ventures have been under way every year since 1950 in Horse Heaven. A spokesman for the group told The Associated Press:
 "Statistically, I presume, it would be impossible to prove the success or failure of the operation at this time. However, we have had four good crops in a row, and the farmers in the territory seem to be satisfied."
 One commercial operator, William J. Hartnett, president of the Weather Corp. of America, St. Louis, says he believes cloud seeding "has been overrated for farm purposes."
 But he contends that utility companies, through increased water levels in reservoirs, can increase kilowatt hours without building new plants.
 Dr. Irving P. Krick of the Water Resources Development Corp., of Denver—easily one of the world's busiest cloud seeders—says that since 1950 he has conducted more than 150 projects in the United

States and six foreign countries. Areas of operations have ranged in size from 500 to 32,000 square miles.
 He says expectable increases in rainfall vary with the operational season and the geographical area (in general, the colder the clouds, the more rain which can be made by dry ice or silver iodide seeding). He says his firm has achieved rain increases ranging from 20 per cent in the southern United States, Mexico and Central America in the springtime to between 70 and 80 per cent in mountain snow operations in the United States in the wintertime.
 Among a group of five of Krick's clients contacted by The Associated Press, three indicated faith in the techniques, another said there was "convincing evidence of some benefits," and the fifth said "no clear-cut evaluation was possible."
 The city of Dallas, Tex., accepts Krick's claim that he and his associates increased the water in the Dallas watershed by 363 per cent in 1952-53.
 North American Weather Con-

sultants of Altadena, Calif. report about 20 commercial jobs since 1950, involving areas of about 4,100 square miles each. Average rainfall increase claimed: 33 per cent.

On the East Coast, Wallace Howell Associates of Cambridge, Mass., reports "we feel we have succeeded" in increasing rainfall on a number of jobs in the United States, Canada, Peru and Cuba.

Aged War Veteran To Be Buried In His Slanting Tomb

ONARGA, Ill. — A war veteran's body will be buried tomorrow in a slanting tomb and packed with cement but no one in Onarga knows why.
 Frank Grove, 69, a soldier in the war with Spain, the Mexican border expedition and World War I, died yesterday in a soldiers home in Washington.
 A decade ago he built a tomb standing at a 45-degree angle. He often showed the tomb with pride to his friends but none of the elderly Onarga residents recalls why he built it on an angle.
 Elmer Natterstad, Onarga mortician, said he has been instructed to remove the body from the casket, wrap it up in canvas and encase the body in fresh cement. He said he will carry out the instructions.
 The tomb has this inscription: "He was well born and is sealed in cement beneath."

Navy Changes Its Carrier Catapults

NEW YORK — The Navy will modify the plane-launching catapults on all but two aircraft carriers as a result of the May 26 explosion aboard the carrier Bennington. The disaster cost more than 100 lives.
 A Navy official said yesterday all carriers affected by the modification plan have catapults operated on a hydraulic principle, except the Intrepid and the Hancock, which have steam catapults.
 Although no official cause for the Bennington disaster has been announced, the Navy believes the explosion and the fire started in the catapult.

Versatile Walt Disney Not Typical Moviemaker

By JACK QUIGO

HOLLYWOOD — In this film capital everyone is supposed to be a specialist.

De Mille makes epics, nothing else. Arthur Freed makes wonderful musicals; why waste his talent on horse operas? Pete Smith makes short subjects, never a feature.

One man, however, is defying tradition. He specializes in versatility.

Walter Elias Disney, who built a better mouse and watched the

WALT DISNEY

Settlement To Trieste Dispute Expected Soon

BELGRADE, Yugoslavia — An Italian-Yugoslav settlement of the long and bitter Trieste dispute is expected momentarily by responsible diplomats here.

Barring a last-minute hitch, they say, announcement of agreement should come within the next two weeks.

A settlement would end one of Europe's thorniest postwar problems. Coming at this time, it also would realize a desire of the United States and Britain to put the Italian-Yugoslav feud aside before Yugoslavia, Greece and Turkey conclude a proposed Balkan military alliance. The "Little Three" foreign ministers are scheduled to sign the alliance in Yugoslavia's summer capital of Bled between July 15 and 18. Final negotiations on terms of the pact are now under way in Athens.

Trieste Free Territory, an area about the size of metropolitan New York City, was set up in 1947 under terms of the peace treaty with Italy. At the time the Allies were unable to determine whether it should be given to Italy or Yugoslavia.

For administrative purposes it was divided into two zones. Zone A, including the big port city of Trieste, was placed under British-American control and is occupied by 7,000 British and American troops.

Zone B — about two-thirds of the whole territory but only one-third of the population of 300,000 — was placed under Yugoslav control.

Both Italy and Yugoslavia claimed the whole territory.

In an effort to settle the dispute, the United States and Britain announced last Oct. 8 they would withdraw their troops from Zone A and turn it over to Italy.

The decision provoked strong protests, riots and saber rattling on both sides of the Adriatic. The troops stayed.

When agreement comes, it is expected to parallel closely—territorially at least—the Allies' Oct. 8 decision. However, there will be two major differences so far as Yugoslavia is concerned.

The solution will be the result of negotiations and consultations in which Yugoslavia was included — not the case before Oct. 8. Yugoslavia leaders learned of that decision only two hours before it was announced.

And the settlement would recognize Yugoslavia's claims to Zone B. The present border also may be redrawn slightly to give Yugoslavia a few small Slovene communities in Zone A.

Thief Sabotages Civil Defense Plans

PITTSBURGH — The civil defense program was pretty well sabotaged today.

CD authorities purchased 47 two-way radios, the walkie-talkies of World War II fame.

Thirty-one were taken to a shop for adjustments. Now the radio shop operator says someone broke into his establishment and stole the entire lot, valued at \$15,000.

Letter Containing Check Travels Far

OWOSSO, Mich. — The Coruna Milling Co., three miles away, sent a letter containing a \$100 check to Dr. H. M. Allhouse, an Owosso dentist two months ago.

The letter was received yesterday—after traveling 7,000 miles to Italy and back.

A brief note in Italian accompanying the letter said it was found in a newspaper mailed to Dr. Vincenzo Spatore by his parents in Owosso.

Chou Returns To Red China

HONG KONG — Premier Chou En-lai returned to Communist China today after attending the Geneva conference on Asia and meeting with top officials in India and Burma.

The Red leader's plane stopped for an hour at this British crown colony for refueling before flying on to Canto and Peking.

Concluding their Rangoon talks, Chou and Burmese Premier U Nu issued a joint communique last night pledging to "strive their utmost for promotion of peace."

They expressed hope, particularly, that peace can be restored satisfactorily in Indochina.

The communique also announced that Burmese-Chinese relations would be guided by the same principles agreed upon by Red China and India to cover their relations on Tibet and reiterated by Chou and Indian Prime Minister Nehru at the end of their weekend conference in New Delhi.

These, the communique said, are "mutual respect for each other's territorial integrity and sovereignty, nonaggression, noninterference in each other's internal affairs, equality and mutual benefit and peaceful co-existence."

Western observers have viewed Chou's visits to India and Burma as part of a campaign to draw South Asian neutrals into the Peking orbit under the pretext of uniting against "colonialism."

Because the resistance of nickel to electrical currents increases as it gets warmer, it often is used to control the temperature of electric blankets.

Red 'Humor' Gets Caustic

NEW YORK — Even humor in the Soviet Union is supposed to have "social content."

Soviet cartoonists, humorists and satirists find almost all their employment in propaganda work for their government. They get pretty caustic too.

This was underlined by a recent Krokodil cartoon lampooning former U.S. Defense Secretary James Forrestal's suicide following a nervous breakdown. It showed him

bound in a straitjacket and landing on his head.

The U.S. government protested the cartoon. The Russians returned the protest note to the American Embassy in Moscow, refusing to accept it as "unworthy."

In the foreign affairs field the chief target is always the United States. A cartoon in Komsomol Pravda showed a Soviet version of Uncle Sam unloading a large box on the shore of a country labeled Guatemala. The box bore the legend "United Fruit Company" and was half tipped over, with bombs, grenades and little saber-brandishing Guatemalan "rebels" all rolling out of it. It was intended to

Big Spring (Texas) Herald, Wed., June 30, 1954

illustrate the Communist thesis that the United States started the Guatemalan uprising.

Six-Legged Frog Goes On Display

BALTIMORE — A new guest was on display today at the Baltimore Zoo—a six-legged frog.

Schoolboys James D. Francis and Reid MacCallum of Pheenix, Md., discovered the unusual specimen on the golf course of the Hillendale Country Club yesterday.

Statistical Debate On Smoking Of Cigarettes Will Rage Long

In an interview with U. S. News & World Report this week Dr. E. Cuyler Hammond, director of statistical research of the American Cancer Society, said that "the death rates among regular cigarette smokers are about the same as the death rates among nonsmokers—people who never smoke—who are five years older."

Another good way to take all the remaining years of life away in the twinkling of an eye is to drive your car at 90 miles an hour into a bridge abutment, or another vehicle.

Statement Not Complete But It Indicates Some Policy Accord

The Eisenhower - Churchill preliminary joint statement issued Monday and supplemented by a further statement Tuesday. In the very nature of things both these statements together will not constitute the full, detailed understanding of the two chiefs of state reached in the White House parley.

regarding the long delay in ratifying the European Defense Community pact. Any further delay in EDC will "damage the solidarity of the Atlantic States."

AEC Declares Dr. Oppenheimer Failed To Live Up To His Vast Responsibility

WASHINGTON (U—) Dr. J. Robert Oppenheimer will bear until he dies — as if he wore it as a mark on his forehead — the government verdict that he is a security risk who cannot be trusted with his country's secrets.

There would have been no doubt he was a security risk and he wouldn't be a problem for the AEC then. His case would be before a grand jury.

The majority of the commission decided Oppenheimer was a security risk because of "defects in his character" — they pointed to his lying — and to his association with Communists, not before he was entrusted with secrets, but afterwards.

Notebook — Hal Boyle

Dislike At First Sight Later Turns Into Love

NEW YORK (U—) The marital romance of movie star Laraine Day and Leo Durocher, manager of the New York Giants baseball club is a victory of later love over dislike at first sight.

Leo sat down and did most of the talking. "I looked over at him after a while," said Laraine, "and suddenly I thought to myself, 'This is the man I'm going to marry.'"

GRIN AND BEAR IT

'Goodbye And Good Luck'

British Prime Minister Winston Churchill says "Goodbye and good luck" as he gives President Eisenhower a final handshake just before leaving the White House at the end of their weekend of conferences on international problems. (AP Wirephoto).

Churchill Meets In Ottawa With Canadian Statesmen

OTTAWA (AP) — Prime Minister Churchill meets today with Canadian government leaders to describe his Washington conferences and to explain disagreements over policy between Britain and the United States.

Any policy differences between the two major Western allies are of supreme importance to Canada. For while this country is a member of the British Commonwealth and strongly tied to Britain in many ways, it also is powerfully influenced by the pull of American policy. Hence Canadians hope at all costs to avoid a situation which might force them to choose between widely divergent British and American policies.

Perhaps recognizing this, Churchill said yesterday, "Canada is the master link in Anglo-American-unity."

He made the statement as he

landed at a military airport in Ottawa, coming from Washington.

The capital gave him a 19-gun salute and full honors at the airport and in front of the hotel where he spent the night. He looked tired, but smiled and flashed his V gesture.

On the whole, Churchill will probably find considerable Canadian support for the positions he took in Washington.

Canadians say their government would not favor a Southeast Asian counterpart of the North Atlantic Treaty Organization—at least not now — because they do not feel Canada can undertake any more military commitments. Canadian troops are serving both in Korea and in Germany.

On the question of recognizing Red China, too, Canadian opinion, as described by officials in Ottawa, runs closer to the London line than

to Washington's.

Canadian officials, like the British, tend to take the view that the Communists are in fact in control of China, governing it now, and likely to stay for the foreseeable future. Hence they generally believe the Red regime should be recognized officially.

In the same way, they tend to favor further attempts at what Churchill called in Washington "a patient, cool, friendly examination of what the Russian intentions are."

Wants Sheep To Chew Grass Away

WARREN, R. I. (AP) — The Rev. Arthur M. Dunstan, president of the Massachusetts Historical Society, is looking for about four sheep to do the work of men.

North Burial Ground is so overrun with tall grass, he said last night, that no one is anxious to take on the clearance job. Thus, the possible use of sheep to chew the grass away.

Few Hints Are Seen Of New Asia Effort

WASHINGTON (AP) — Lawmakers found few tangible signs today in a statement by President Eisenhower and Prime Minister Churchill of any immediate new American-British effort to save Indochina and her neighbors from the Reds.

Churchill said here on his departure for Ottawa yesterday that his five-day talks with Eisenhower had shown the unity of English-speaking peoples is "unbroken and unbreakable."

"I am sure that if we hold together, with all those who come to help us from every land and clime, then we shall be able not only to save ourselves but also to preserve the cause of freedom in the world," he declared.

There was in Congress general agreement with this and approval of the Eisenhower-Churchill statement of principles issued shortly before Churchill left. But some senators professed to see more importance in the remark of British Foreign Minister Eden that the conference of leaders had laid the foundations "for the work we have yet to do."

Sen. George of Georgia, senior Democrat on the Senate Foreign Relations Committee, said in an interview he believed that "some good was accomplished by the conference, but the British haven't changed their minds."

George added he thinks the British remain unconvinced that united action is possible or desirable in Southeast Asia and are resigned to French concessions to the Communist-led rebels in Viet Nam.

Sen. Gore (D-Tenn) commented that the Eisenhower-Churchill statement of principles "leaves completely unanswered the pressing problem of the developing fall of Viet Nam behind the Iron Curtain."

Churchill and Eisenhower said in a statement Monday they had agreed to "press forward" with plans for a free nation alliance in Southeast Asia. But indications were that this would be preliminary planning only, and that the

British were sticking to their position that no formal steps should be taken until the outcome of French-Communist peace talks on Indochina.

The United States had taken the position that an international conference to draw up such an alliance should be called at once.

Further discussion on plans for a Southeast Asian anti-Communist alliance was expected at a meeting of the Anzus Council—an organization created by the 1951 Mutual Defense Treaty among Australia, New Zealand and the United States. The meeting was

Interest Grows In Western Montana As Oil Possibility

DENVER (AP) — A sharp upward trend in oil exploration is shaping up in northwestern Montana, following recent recovery of oil in the lower Mississippian formation in Glacier County.

Petroleum information described the area as north of the Sweetgrass Arch and east of the Mountain front, not far south of the Canadian boundary.

A large section of the area lies in the Blackfoot Indian Reservation and is well removed from previously drilled regions.

Another sale of leases on the reservation will be held July 21. There was strong interest in the last sale May 26 with Union Oil of California making the high bid of \$149.42 per acre.

The No. 1 Tribal-544 well drilled by Union and Carter Oil in Glacier County recovered 41-gravity oil in a 58-minute test of the lower Mississippian at 5,754-501 feet.

A number of oil men look for considerable deep drilling in this section of Montana in coming months. It is west of the Cut Bank Field.

Somewhat farther east, Amerada Petroleum has announced locations for four Montana wildcats, two in Hill County and two in Liberty County.

requested by Australia's minister of external affairs, Richard G. Casey, whose government is pressing for speed in bringing a Southeast Asian alliance into existence.

Secretary of State Dulles was due to attend for the United States. New Zealand Ambassador Leslie Knox Munro is the New Zealand member of the council in the absence of his foreign minister.

In their statement yesterday, Eisenhower and Churchill said their two countries will continue "in intimate comradeship" to work for a just world peace. They held out "the hand of friendship" to nations which by "solemn pledge and confirming deeds" show they want peace.

Promising not to entertain any treaty which would prolong the

bondage of captive states, the two leaders pledged "every peaceful means to secure the independence of all countries whose people desire and are capable of sustaining independent existence."

Eisenhower and Churchill said the cause of peace would be advanced by "general and drastic reduction, under effective safeguards, of world armaments of all classes and kind."
