If there's a community job that needs to be done, or a civic duty to perform, we know just the man to call on!

So often, a man's excuse for not serving in some capacity is "I'd like to, but I just don't have time."

But Alton Fitzgerald seems to find time . . . and no wonder he walks in a half-trot!

Alton has a full time job with West Texas Utilities Co., and sometimes he's called out after his regular hours . . . but he is somehow finding time to serve as a member of the school board, chairman of the board of stewards of the Methodist Church, president of the Knox City Volunteer Fire Dept., post commander of the American Legion—and is taking on the job of tail twister in the Lions Club!

Besides that, he has a wife, two children and a Bermuda grass lawn!

We don't usually apologize for such a simple mistake as switching names in a story, but it's Patsy Robinson who will attend Blue Bonnet Girls State in Austin, instead of Patsy Denton.

We've mixed the two girls' names up before, and will probably will do it again sometime, so we hereby apologize for all the mistakes we have made in the past, and all the mistakes we will make in the future!

After watching clouds and listening to weather warnings Thursday night, Saturday night and Monday night, we were about ready to start accepting bids for digging a cellar at our back door.

But all the cellar-diggers were too busy digging cellars already!

The North Central Texas Municipal Water Authority has been authorized by the legislature and the governor, and it will soon be up to Knox Citizens to say whether they want in or out of the Miller Creek Lake project.

Before we vote, we hope everyone looks well into the future. Because engineers say that in the not-too-distant future, Knox City will have to have some other source of water.

The only alternative to a lake might be to buy the water rights on some land that has plenty of water . . . and how would you like to be on a committee that approached a prosperous irrigation farmer and asked him to sell his water rights to the city?

We'll bet even Alton Fitzgerald couldn't find time for that assignment!

The affair, sponsored by the senior class, was scheduled to include members of the lower grades in school, FHAgirls, and members of the 1946 Study Club, but at the end of the pre-school portion the show was cancelled because of threatening clouds. Among those pictured here are Betsy Ross, Robanne Greer, Gwen Angle, Pam Pack, Tesa and Tina Frazier, Lynn Clarke, Kim Blackwell, Mary Jo Campbell, Don Hawkins, Zena Bolin, Judy Rushing, Colleen Averitt, Sherill Bruce, Janis, Yarbrough, Gary Rushing and Kathi Richardson. Among the pre-schoolers here are Sharon Elledge, Marla Knight, Leslie Fitzgerald, Sam Tankersley, Vonnie Brooks, Bessie Large, Jalene Browning, Jim Wann, Tommy Reed and Evelyn Reed. Area Receives Beneficial Rains

Clouds and storm warnings sent many Knox Citizens to their cellars several times during the past week, but the area fortunately missed the hail, wind storms and tornadoes that struck elsewhere, and received only beneficial rains.

According to the official measurement, rains since last Thursday were 0.25 inch, 0.53 and 0.64, a total for the week of 1.42. The total for the year now stands at 6.38 inches, as compared to 1.43 for the same period last year, and farmers with small grains have strong hopes for a bumper crop.

The cloud last Thursday night kept many people away from the Easter parade at the local high school, and the program was cancelled after the first division, because of increasing storminess.

Monday night an approaching squall line caused cancellation of the city council meeting and other activities. At the height of the rainstorm two cars collided at the intersection of Waco and 3rd streets. Milton Simmons, driver of one car, was injured and hospitalized several days. Driver of the other car, Bennett Royce McNulty, was not injured.

The School of Agriculture of Texas A & M College will conduct a five-day short course on "Soils and Fertilizers" at the high school in Munday beginning May 27, according to Roy England, county agent.

The State Highway Department will extend the curb-to-curb paving on Main Street (the Munday Highway) as far out as Roy's Motel if property owners will agree to curb and gutter their property, it was announced this week by Herbert Cunningham of Munday, resident highway engineer.

Only attendants were Miss Betty Hooker of Knox City, student in McMurry College, and Edgar Bateman III of Benjamin.

The bride chose for her wedding dress an off-white imported cotton and silk, fashioned with a deep decollete neckline. She carried a bouquet of white roses and split carnations.

Miss Hooker's dress was similar in design and of a soft powder blue. She carried an old fashioned bouquet of white carnations.

After a short week end trip, the newlyweds are at home in the Bill Clonts apartments in Knox City.

A & A Contractors of Olney was awarded a contract this week for widening and seal-coating Farm-Market Road 143 from Knox City to the King

The firm's bid was \$78,475. Herbert Cunningham of Munday, resident engineer for the State Highway Department, said the paving will be widened from 18 to 24 feet, and the paving will receive a seal coat. Work should begin about June 1, Cunningham said.

The King County portion of FM 143 will also receive a seal coat. Contract has already been let and the work should begin right away, according to the engineer.

Governor Price Daniel Tuesday signed a bill authorizing organization of the North Central Texas Municipal Water Authority, effective immediately, the Herald was notified by Sen. George Moffett.

Moffett introduced the bill in the Senate and Rep. Ed Cloud introduced a companion bill in the House.

The Authority is designed to furnish seven area towns—Knox City, Munday, Goree, Seymour, Haskell, Rochester and Rule—with abundant municipal water by constructing a dam on Miller Creek 16 miles southeast of Munday.

It is expected that elections will be held soon in each of the seven towns, to determine if all will take part in the project. If the voters in any community fail to give their approval, that community will be permanently dropped from the project.

Another factor in the safety program, the speaker said, is farm accident prevention. She urged a clean-up campaign to eliminate danger spots.

During a business session, members voted to sponsor a free blood typing program.

Mrs. Elton Carroll, delegate, gave an enlightening summary of the District THDA meeting held in Vernon recently. Others

who attended from the Gilliland club were Mmes. O. R. Miller, Homer Martin and Charlie Groves.

Members expressed appreciation for the new clubroom curtains, given by W. H. Burris.

Others which have accepted invitations include the Choir-Teers Quartet from Abilene, Happy Rhythm Boys of Lubbock, Ray Spradlin Quartet of Caddo and the Campbell Quartet of Lubbock.

Farm and Ranch Notes

By Roy England, County Agent

About 200 ranchers, farmers, and 4-H and FFA boys attended the root plowing and range re-seeding demonstration at Benjamin Thursday, April 18.

A D-8 Caterpillar equipped with a root plow, furnished by Darr Equipment Co., plowed an eight-acre plot of heavily infested mesquite pasture and distributed Blue Panic grass seed at the rate of 6 pounds per acre.

Otis Curry, Range Conservationist from the Vernon office of the Soil Conservation Service, discussed the advantages of this type operation and showed pictures of results obtained in other areas.

Mr. Brunner, FFA district supervisor, discussed the FFA Soil & Water Program, through which loans are made to farmers and ranchers for brush eradication.

Plowing depth on the demonstration plot averaged 13 inches and, while leaving the present turf on top of the ground, left the land in condition to receive and utilize a much larger amount of rainfall than it normally will absorb.

A periodic report on the progress of this demonstration will be made and compared to the adjacent area.

Streams In Desert Places

By Ozelle Stephens

"This is my commandment, That ye love one another, as I have loved you." (John 15:12)

We see in Christ's sacrifice the great spirit of love. Love is one of His own inherent, transcendent attributes. That love is also a quality He bestows upon him who loves and believes in Him.

In His prayer of decision in the garden, we felt His grief.

Grief springs from a relationship of love. Grief is an element of the heart. Where there is no love, there is no grief, and the deeper the love the more painful and distressing the grief. It was the stabbing pains of sin that broke the great loving heart of the Master for you and me. Let us obey His command and love Him as He has loved us. Not only that, but be a channel through which His love can stream to others.

Mr. and Mrs. Bert Swaner and girls of Garland and Mr. and Mrs. Penny Meinzer and daughter of Childress were visitors in the home of Mrs. Myrtle Meinzer during the week end.

Mrs. Fay Jones and children of Colorado City spent the week end with her mother, Mrs. W. E. Ryder Sr.

There's more to be proud of in this one!

You'll be proud of Chevy's sweet, smooth and sassy way of going. And you'll take extra pride in Chevy's look of substance and character, its careful construction, its fine finishing touches you don't find in other low-priced cars. For one thing, the others don't have Body by Fisher. For another, they can't hold a candle to

Chevy when it comes to performance. Chevrolet, you know, won the Pure Oil Performance Trophy at Daytona Beach as "best performing U. S. automobile." Automotive experts decided that. Bet you agree with them once you stop by your dealer's and drive a new Chevrolet yourself! Soon maybe?
