CHARGE JURY TAMPERING AT DALLAS

Big Purchasers Advance Crude

NEW PRICES MEAN ADVANCE OF FROM TWO TO THREE CENTS A BARREL ON CRUDE OIL HERE

Following the Humble Oil and Refining company's announcement of an advance in Mid-Continent crude, effective Tuesday at 7 a. m., the Texas, Magnolia and Prairie companies revised their schedules to conform to the Humble prices. The Gulf, Continental and other major companies in the district are expected to meet the new prices before the end of the day.

An advance averaging from two to three cents per barrel for 38 to 40 gravity oil, the bulk of the Wichita Falls district's production, and varying prices for oils in other Texas fields were made in a new chedule posted by the Humble Oil and Refining company at its headquarters in this city Tuesday.

While the advance is meager and does not come up to what the fraternity would call a real boost, nevertheless it was welcome news to producers and operators alike, who look upon it as a forerunner of further and a more substantial raise to come.

That the industry in general will benefit by the advance from the refining to drilling end is predicted by the fraternity. Operators who have been waiting only a sign showing the market in an upward trend will now go ahead with their drilling campaigns already planned. Wildcatting by the trail blazers of the industry will also receive an impetus to resume drilling on a number of wells which have been shut down, as low prices are a poor incentive to this class of development.

The advance had been expected since the first of the year, but came later than several sources predicted. One of the factors in the decision to boost the light oils is found in the gradual decline of this grade of production, the Wichita Falls district itself registering a drop of close to 20,000 barrels daily in its runs since the first of the year. The district as a whole is now only producing 80,000 barrels daily compared with 100,000 at the beginning of 1928. Another "little" pool in Oklahoma which is decreasing as each day passes, also has a bearing on the mid-continent situation. With the gradual decline in the older pools, and the uncovering of new production an uncertain gesture, a scramble is under way by the various purchasing companies for these connections, and in several instances the demand for the local crude has brought a premium over the posted prices.

LOCAL REALTORS NAME FARM LAND DIVISION HERE

NEW DEPARTMENT TO DISPOSE OF LANDS IN WICHITA VALLEY

COMMITTEE APPOINTED TO RECEIVE WISCONSIN MEN

Plans for Development Perfected At Weekly Luncheon of Real Estate Board.

A resolution creating the farm land division of the Wichita Falls Real Estate board was unanimously adopted Tuesday noon when members of the local board held their regular weekly meeting at the Kemp hotel.

The function of this division will be to dispose of Wichita Valley lands whenever possible and to assist in every way in the further development of the irrigated district.

The first function of the division will be to entertain the party of 50 or 60 Wisconsin farmers and dairy men who will make a tour of the Wichita Valley in March.

Members of the real estate board adopted the resolution creating the farm land division after J. W. Chatham, traffic and industrial manager of the chamber of commerce, announced that all arrangements for the special train to bring the Wisconsin party here have been completed.

HAWAIIAN IN JAIL AT AMARILLO AFTER SLAYING OF BRIDE

AMARILLO, Texas, Feb. 2. (AP)—James Kekahaloa, 27, native Hawiian entertainer who shot and killed his wife, formerly Lillian Clayton, 18, an American girl from Salt Lake City, Utah, in a tourist camp here Sunday, today was transferred from a hospital to the county jail, apparently recovered from self-inflicted wounds.

Tourists at the camp were endeavoring to raise funds to send the baby daughter, aged 14 months, of the couple to Salt Lake City to be cared for by Mrs. Lillian Liddell, mother of Mrs. Kekahaloa.

Kekahaloa, shot his wife during a quarrel and then fired a bullet at his own head. Physicians declared they thought the bullet had lodged in his brain and were unable to explain his recovery. Mrs. Kekahaloa died instantly when a bullet struck her beneath the left eye.

Miss Vesta Jorenson, another occupant of the tourist camp cottage at the time of the shooting, was wounded in the left ear. She lay still on the floor until the shooting had ceased and then fled to safety with the baby, she said. Her injuries are not serious. She had been accompanying the Kekahaloa's on a tour.

OIL BARON'S FATE IN CONTEMPT TRIAL TO BE KNOWN TODAY

WASHINGTON, Feb. 21. (AP)—With the possibility that Harry F. Sinclair, William J. Burns, Henry Mason Day and W. Sherman Burns would know whether they will be punished for criminal contempt of court before the sun sets, defense counsel yesterday entered upon their final effort to convince the court their clients were not guilty.

The contempt trial started last December 5 after the Sinclair case. The prosecutors, anxious to end it, were willing to cut short the arguments by the defense wishing to submit briefs, wished to delay the final decision until Thursday.

Famous New York Scientist Tells Whopper Frog Tale as Illustration That He Believes Texas Toad Story

NEW YORK, Feb. 21. (AP)—The story from Eastland, Texas, that a horned toad was found alive in the cornerstone of the courthouse where it had been entombed for thirty years, has a supporter here.

Dr. William T. Hornaday, former director of the New York Zoological gardens, who has explored many parts of the world including the southwest of the United States, thinks the incident quite possible and recalls an experience of his own to support his views.

"I was in Ceylon," said Dr. Hornaday, "digging for elephant bones and tusks in sand which was packed so hard it had almost the consistency of rock. So far as could be observed that sand had been lying there for a thousand years.

"In this impermeable mass, about two feet beneath the surface, we uncovered a frog which was absolutely entombed there. Fortunately it escaped spades and pickaxes and was lifted out alive. Its stomach was full of water, which it ejected and then hopped away. It opened my eyes to the possibilities of things at which the scientists are prone to scoff. It was impossible for that frog to have entered the excavation after it had been dug; it was uncovered by a shovel in part of the soil which had not been touched. There was no fissure or burrow anywhere in that indurated mass."

TEXAS MUST LEAD COTTON REDUCTION SAY OTHER STATES

LONE STAR PLANTERS HOLD KEY TO SITUATION IS SPEAKER'S PLEA

CONFERENCE AT JACKSON CLOSES WITH HARMONY

Governors and Lay Delegates Go On Record as Favoring Acreage Reduction.

JACKSON, Miss., Feb. 21. (AP)—The resolutions committee of the conference of governors and representatives of cotton growing states now in session here in an effort to restore cotton prices to a "profitable standard" is on record as in favor of a 10 per cent acreage reduction as a means toward the desired end, but is opposed to legislative action.

Disregarding the plea of State Senator W. B. Roberts of Bolivar county, Mississippi, that his resolution memorializing state legislatures to enact laws prohibiting planting of more than 50 per cent of a farmer's acreage in cotton, either be adopted or replaced by an equally strong document the committee last night adopted a resolution which urges the 10 per cent reduction among other reforms.

Committee Works Late.

Denying themselves the opportunity of attending a banquet at which the visiting governors, Dan Moody of Texas and Bibb Graves of Alabama, were honor guests, the resolutions committe met in night session after a few minutes for dinner and continued deliberations far into the night.

OVERRULE MOTION IN CORSICANA CASE ASKING NEW JUDGE

CORSICANA, Texas, Feb. 21. (AP) District Judge Hawkins Scarborough at noon today overruled a motion by attorneys for L. J. Woods to disqualify the judge to sit in the trial of Woods, county attorney, in an attempt to oust him from office.

Woods' attorneys had contended that Judge Scarborough was a personal and political enemy of Woods; that he had taken active part in the investigation by a grand jury which returned six indictments against Woods; that while their client did not fear trial in Navarro county, he believed he could not get a fair trial under Judge Scarborough.

In overruling the motion, Judge Scarborough said he had no desire to try the case, but since he had no personal interest in it he felt the defendant's motion should be overruled.

He then recessed court until 2 p. m. Defense attorneys were expected to file a motion for change of venue at that time.

ANTI-CREAGER FORCES ORGANZING IN TEXAS

DALLAS, Feb. 21. (AP)—Anti-Creager Republicans in half the counties in Texas have been organized to further the cause of sending an uninstructed delegation to the Kansas City convention and to wrest control of the party in Texas from R. B. Creager, Republican national committeeman, it was said at a conference here today. Harry M. Wurzebach of Seguin headed the group. Others at the conference which will extend through Wednesday were C. C. Littleton of Fort Worth temporary chairman; F. E. Scobey of San Antonio, Carl Wurzebach of San Antonio, Clinton Bailey of Dallas, Tom J. Darling, Temple, postmaster; and J. M. O'Hara, of Fort Worth.

SEVENTH DISTRICT CONVENTION TEXAS BANKERS ASSOCIATION BRINGS OVER 500 FINANCIERS

J. C. Anderson Jr., chairman, seventh district.

The vanguard of the 500 or 600 bankers who are expected to attend the convention of the Seventh District Bankers' association here Wednesday began arriving in the city Tuesday afternoon.

The majority of the visiting bankers were expected to arrive in Wichita Falls early Tuesday evening and by 10 o'clock Wednesday morning, when the convention will be called to order in the Majestic theater, at least 500 are expected to be present.

The "Flying Squadron" of bankers, which has visited all district meetings in the state during the past two weeks, will arrive in Wichita Falls at 7 a. m. Wednesday on a special train from Coleman, where a district conference was held Tuesday.

Following the business session of the convention Wednesday morning, the bankers will have a luncheon at the Kemp hotel at which W. M. McGregor, president of the First National bank of this city, will be toastmaster. The ladies will have a luncheon at the Woman's Forum.

Visiting bankers will have an opportunity to play golf during the afternoon, be the guests of local motion picture theaters or visit interesting points in Wichita Falls and the Wichita irrigated valley.

Wednesday night, starting at 9 o'clock, there will be a dance at the Kemp hotel.

Following is the business session program:

BURGLARS GET $1600 LOOT IN EIGHT THEFTS

Eight robberies in four days have netted thieves household goods and clothing valued at $1600, according to the official reports on the police records, it was revealed Tuesday.

Two of the robberies were added to the list Monday. Mrs. R. C. Honea, 1652 Ardath street, reported the theft of a leather bag valued at $16.50. J. M. McDonald, 1108 Travis street, reported that thieves had stolen a three-piece suit and pair of shoes from his home.

The most costly burglary on the list was that of the Charles P. McGaha home, 1800 McGregor, on February 18 when clothing and jewelry valued at $1,000 was stolen.

A list of the articles taken in this robbery is as follows: One cape with fur collar, one fur coat, one evening dress, one sport coat, one silk coat, one leather jacket, six pairs of silk pajamas, two overcoats, one field coat, one sweater, one tuxedo suit, one leather field jacket, a watch chain, a cigarette lighter, three pairs of cuff links, three sets of shirt studs and miscellaneous articles of jewelry and underwear.

The Up-to-Date Cleaners, 811 Ninth street, reported on February 17 the theft of clothing valued at $300. The list included four overcoats, four complete suits of clothes and two pairs of trousers.

Johnnie McMahon, 2004 Taylor street, reported the theft of a $65 overcoat on February 19. Miss Gladys Smith of the Joline hotel suffered the loss of a 15 jewel gold wrist watch, which was stolen February 18.

A Mr. White of 1410 Bell street reported the theft of an overcoat and pair of gloves from him on February 18. Thieves took an auto horn and license plates valued at $30 from the automobile of H. C. Johnson, 1616 Eleventh street, on February 19.

Good planes and good pilots, its safer and more gratifying than running for a persidential nomination, which seems to be the other popular fad nowadays.

LINDBERGH'S PLANE BRINGS MAIL CARGO INTO SAINT LOUIS

ACE OF ATLANTIC HOP FAME RETURNS TO AIR MAIL SERVICE FOR DAY

BUT FLIER FORGETS TO ARRANGE FOR HIS PAY

Blond Young Aviator Admits He Never Once Thought of Asking For Salary.

ST. LOUIS, Feb. 21. (AP)—Flying a big Douglas mail plane ahead of schedule, Colonel Charles A. Lindbergh landed at Lambert-St. Louis field at 9 a. m. today, completing a round trip over his old air mail route, between St. Louis and Chicago in an effort to advertise the postal air service.

The response of the public to his appeal was far beyond the fondest dreams of air line operators. From St. Louis alone yesterday afternoon, Lindbergh and five other fliers carried 1997 pounds and 10 ounces of mail matter. Approximately half a ton additional was picked up at Springfield and Peoria.

After a quiet night with his fellow pilots in the apartment of a flier at Chicago, Lindbergh was at the Chicago flying field shortly after 5 a. m. today, at 6:12 with the cockpit of his plane filled to the top with mail, the flying colonel took the air.

He landed at Peoria at 7:25 a. m. Within five minutes Peoria sacks had been unloaded and he was on

CHANGE VENUE BARNETT TRIAL TO HENRIETTA

Trial of Bob Barnett, under indictment charged with theft, was transferred to Clay county on the motion of Judge E. G. Thornton, when the case was called in the 30th district court at Archer City Tuesday, according to information supplied the Times by Judge Thornton.

The change of venue was an expected action, due to the fact that a previous trial on a charge of murder against Barnett had been transferred from Archer to Young county for trial.

Although district court is now in session in Clay county, court attendants at Archer City were of the opinion that the case probably will not be called there until summer. Judge Vincent Stine presides over the district court in Clay county.

Barnett has twice been convicted on a charge of murder growing out of the death in a gun battle two years ago of Sheriff Harrison Ikard of Archer county. Each time he was sentenced to life imprisonment. Both convictions were set aside by the court of criminal appeals. The second reversal, ordered recently, was followed by the announcement of Ben Allred, district attorney, that no further effort will be made to try Barnett on that charge.

The charges of murder and theft followed the alleged theft more than two years ago of a quantity of tobacco goods from the J. M. Radford wholesale house at Olney. Sheriff Ikard was killed in a gun battle while attempting to seize a quantity of the alleged loot found in Archer county. Two men who were accused of having been guarding the property also were slain.

Barnett admittedly was not at the scene of the shooting but the state sought to prove that he was an accessory before the fact. The charges still pending against him, however, accuse him of having participated in taking the property from the Olney establishment.

INDIANA KLAN FIGURE FEARS VIOLENCE IN JAIL

INDIANAPOLIS, Ind., Feb. 21. (AP) Transfer of D. C. Stephenson, former Ku Klux Klan grand dragon, from the state prison at Michigan City, Ind., to the reformatory at Pendleton for "humane reasons" was asked today in a petition filed with Governor Ed Jackson by two of Stephenson's attorneys. It was alleged that Stephenson fears physical violence at the hands of "servants of the chief executive" because of testimony given by the former klan leader at the recent bribery trial of the governor.

COMPLAINT CHARGES CONTEMPT OF COURT IN LAWRENCE TRIAL; HEARING FOR ACCUSED MONDAY

DALLAS, Feb. 21. (AP)—Charges of jury tampering in the trial of John Lawrence, a former Mesquite Texas, mayor, for the murder of Jack Kimbell, were explained here today when District Attorney William McCraw field contempt proceedings against J. J. Elam, upon completion of testimony.

The complaint charges that Elam "did unlawfull, wilfully and corruptly and in contempt of this honorable court, seek to influence the action of T. J. Lawler as a juror."

Judge Grover Adams cited Elam to appear in his court Monday and show cause who he should not be held in contempt.

The complaint declares that Elam approached Lawler, one of the veniremen awaiting to be examined, and said: "There is $50 in it if you can get on the jury and hang it or give Lawrence a suspended sentence, or split it $25 each if you have another friend who gets on the jury."

Both Judge Adams and District Attorney McCraw explained the petition was in no wise to be considered as casting any suspicion on Lawrence.

Judge Adams was expected to deliver his charge to the jury at 4 o'clock p. m. as he recessed court until that time to allow attorneys time to study his charge and prepare any exceptions.

The first witness today in the state's rebuttal testimony was T. K. Irwin, who was Mrs. Kimbell's attorney in a suit for a divorce against Kimbell. When Irwin's name was called yesterday he could not be located, and a bench warrant was issued for him.

The state was to ask the death penalty for Lawrence in closing arguments. Lawrence yesterday told of having met Mrs. Kimbell at a local hotel at her request to discuss her troubles. While they were in a hotel room, where they had gone to avoid a crowd in the lobby, Kimbell, accompanied by a detective, came into the room. Kimbell said as he left Lawrence declared:

"John, I'll settle with you later."

Lawrence said there was nothing irregular in his meeting with Mrs. Kimbell and declared that after a street battle in Mesquite with Jack Kimbell and his two brothers, he had shot Kimbell because he feared the man was going to kill him.

Two Wichitans Placed Horned Toad Eastland

Two Wichita Falls men, John White and Henry Cobb, helped place the famous horned toad in the cornerstone of the Eastland courthouse 31 years ago, it was revealed Tuesday by W. H. Day, Tulsa barber, who was also present at the time.

John A. White, a Wichita Falls contractor at the time the Eastland courthouse was built, later moved to Vernon, where he died in 1921. Henry Cobb, a Wichita Falls building superintendent, has not been heard from since he left here many years ago.

According to W. H. Day's story, he, his brother, Eugene Day, now a wealthy Eastland oil operator, Cobb and White placed the horned frog in the cornerstone.

Eastland Man Hauled Stone

EASTLAND, Texas, Feb. 21. (AP)—Eugene Day of Eastland, one of those present when the cornerstone of the old courthouse was opened Saturday and who vouches for a horned frog being found in the stone which supposedly had been there for about 31 years, today said that he hauled the corner stone to the courthouse site but was not present when it was laid and closed. He said that his brother, W. H. Day of Tulsa, Okla., was employed to work on the building, but his own work was a teamster and he did not have opportunity to see for himself whether a frog was enclosed in the stone.

PETITION ASKS RECALL DALLAS CITY OFFICERS

DALLAS, Feb. 21. (AP)—Petition asking the city commission to call an election to recall the present commissioners and mayor from office were filed here Monday with the city secretary by D. R. Jamerson, manager and other members of the Recall club, organization sponsoring the movement.

Members of the city commission declined to comment.

Approximately 10,000 signatures of qualified voters are on the petitions, according to Recall club members.

The movement to recall the present administration was started last September.

FIVE JURORS IN EASTLAND TRIAL OF HELMS CASE

EASTLAND, Texas, Feb. 21. (AP)—The third juror to try Henry Helms on a charge of robbery with firearms was chosen this morning but so slow was the progress of selection that court attaches expressed the opinion that examination of veniremen would be prolonged through tomorrow.

Charged with participating in the holdup of the First National bank of Cisco, which last December 23 cost the lives of two peace officers and a bandit, Helms sat stolidly today in the midst of his family as counsel wrangled over the fitness of veniremen to decide his fate. His father, wife and five children, all from Oklahoma City are in the court room.

Two additional jurors bringing the total to five were selected shortly before the court recessed at noon.

RAINFALL GENERAL TO SOUTHWEST AND SOUTH OF WICHITA

A light misting rain started falling in Wichita Falls about 8 o'clock Tuesday morning. Cloudy skies and fog had prevailed here since late Monday night.

At 1 p. m. the precipitation was .02 of an inch.

At 1 p. m. the mercury stood at 52 degrees, with a light breeze barometer registered 29.42.

Rain was general to the south and southwest. The Wichita Valley reported light rain and mist all along the line to Abilene. The Wichita Falls and Southern reported rain at Breckenridge, with cloudy skies at other points.

The Fort Worth and Denver and the Katy reported the weather clear and calm in the Panhandle and southern Oklahoma.

Police Investigate Attempt to Burn Woman Alive as Patient Remains Critically Near Death in Hospital

MORRISTOWN, N. J., Feb. 21. (AP)—State police today were investigating what seemed to be an attempt to burn a woman alive. Shortly after midnight an unidentified woman was found with her clothing ablaze on a lonely stretch of road near here.

The flames were enveloping the head and shoulders when she was discovered by Enow Campbell of Bernardsville, a passing motorist. He beat out the flames and took the unconscious woman to the All Souls' hospital here. She was in a critical condition.

State Trooper Leon said the woman's clothing had been saturated with gasoline and that there were several pools of gasoline near the spot where she was found. He held the theory that she had been brought to the spot in an automobile by companions, her clothing saturated and then set afire.

The woman was about 35 years old, of medium build, slightly gray hair, and she wore tortoise shell glasses.

The spot where the woman was found is about a mile from Bernardsville on the road to Morristown. A gasoline filling station is located about 100 feet from the scene, and two roadhouses, both closed for the winter, are nearby.

The only marks of identification found by the police were a label in her hat reading "Bedell of Paris."

FAMOUS SCIENTIST TELLS FROG LEGEND

(Continued From Page One)

widely separated points in the country that such a thing is impossible, the inhabitants of this West Texas town today gleefully affirmed that a horned frog, member of the lizard family, can live 31 years without food or water and, possibly, without air.

They pointed to the undoubtedly live specimen in the window of a store here which was removed Saturday from an ancient box in the cornerstone of the Eastland county courthouse in process of demolition as reason for their belief.

Old timers assert that the frog was sealed in the box more than

SHERMAN, Texas, Feb. 21. (AP) Prentess E. Reid, head of the biology department at Austin college, said today he believed it was possible that the horned frog removed from the cornerstone of the Eastland county court house after having been placed there 31 years ago, was alive.

Professor Reid said that although he knew of no case of this kind on record, horned frogs are dormant animals, and he believed they probably would be able to live for a long period of time if there were some dampness on the inside of their tomb.

31 years ago, along with coins, a newspaper, and other mementoes of life at that time, and spectators of unimpeachable integrity declare that a frog was taken from the box Saturday.

County Judge Ed Pritchard in a statement yesterday said "The frog was in the cornerstone at its opening and the stone gave no evidence of having been opened prior to that time."

H. A. Parks, superintendent of the construction company tearing down the courthouse, asserted that the "stone had not been tampered with."

Roy Whatley, construction company employe, added that he opened the stone with a pick, that he knew "the stone had not been previously opened," and that the frog was in the stone.

One of the first persons to see the frog lying in the dusty box was the Rev. F. E. Singleton, a Baptist minister.

Nevertheless, authorities on lizard life assert it just couldn't have happened. Dr. W. D. Hamlett, zoology professor at the University of Indiana, was quoted as saying that he had kept horned frogs without food or water for several months, that one might live for a longer period in a state of suspended animation, but that "thirty-one years is about twenty-nine too long."

Dr. William M. Mann, director of the national zoological park, Washington, said a horned frog is a "surface creature" and could live only a "short time" without food or water. Similar expressions of doubt were voiced by Dr. Peter Frandsen, zoologist at the University of Nevada, and Dr. Albert M. Reese, head of the department of zoology at West Virginia university. The latter said he had known such frogs to live "a couple of years without food or water."

The frog is in charge of county officials, who say it will be carefully preserved. As yet it has not taken food, and its mouth is said to have grown together. However, it is crawling about the display window with ever-increasing animation. Large sums are said to have been offered for its possession.

B. M. U. PROFESSOR TELLS HIS STORY ABOUT FROGS

DALLAS, Texas, Feb. 21. (AP)—Two Southern Methodist university professors disagree as to whether it would have been possible for the horned frog imprisoned in the Eastland county courthouse nearly 31 years ago to have been alive when taken out recently.

Dr. F. W. Geiser, head of the biological department, declared that "a frog would die in nine or ten months for lack of sustenance if incased without food. All the fat in its body would be used up in that length of time."

H. M. Law, instructor in geology, says on the other hand that "it can be done."

"When I was a small boy," he said, "I found a bull frog in the state of basal conglomeration 15 feet beneath the surface. After it had been in the air for several minutes it began to move. It lived for some time."

NEW PRICES MEAN ADVANCE IN CRUDE

(Continued From Page One)

above 37 gravity. In Gray county they were slightly increased for the higher gravities, and in Wheeler county, where the former price was 75 cents for all grades, crude was placed on a gravity basis.

Accompanying the schedule was a statement from President W. S. Farish.

"In posting this new schedule of crude prices," the statement said, "applying to mid-continent grades of crude, we are attempting to interpret in terms of crude values the present market value of fuel oil and gasoline.

"In posting the new schedule of Panhandle we have increased the posted prices because we are no longer adding to storage crude in the Panhandle. Nor are we shipping any of this crude by tank car."

The new posted prices for mid-continent are:

Below 25 gravity, 76 cents and five cents degree differential up to and including 32.9, $1.16.

33 to 33.9, $1.19, with a three-cent differential up to and including 44 and above, $1.52.

New posted prices in Gray county will be: Below 27 gravity, 60 cents, with five cents difference up to and including 32.9, which will be 90 cents; 33 to 33.9, 93 cents, with a differential of three cents for each degree of gravity up to 44 and above, $1.26.

In Wheeler county the posted prices are:

Below 29 gravity, 60 cents, with a five-cent differential on that and up to 32.9, 80 cents; 33 to 33.9, 83 cents, with a three-cent differential up to and including 44 and above, $1.16.

Below is the new schedule posted by the Humble Oil and Refining company at its headquarters in this city Tuesday morning.

Effective 7 a. m. and until further notice, Humble Oil and Refining company will pay the following prices for crude oil delivered into the lines of the Humble Pipeline company.

For Ranger, North Texas, Mexia, Powell, Richland, Wortham, Lytton Springs, Currie, Moran and Nocona crudes:

	Old	New
Below 25 gravity	.80	.76
25 to 25.9 gravity	1.06	.81
26 to 26.9 gravity	1.08	.86

Prairie Posts New Prices

INDEPENDENCE, Kan., Feb. 21. (AP)—The Prairie Oil and Gas company announced a new schedule of crude oil prices in the Kansas, Oklahoma and Texas fields, effective today.

The price simply meets the new schedule posted today by the Carter and Humble companies, which followed the changes in price made by the Magnolia company a few days ago.

The new price schedule is higher on the better grades of oil and lower on the low gravity grades. On 38-degree gravity the price is the same, but above 38 degrees there is a spread of 3 cents per degree gravity upward.

Below 38 degrees and above 32 the new price schedule is a 3-cent spread downward and below 32 degrees the spread is 5 cents per degree gravity for all grades on a downward schedule. The change in prices for the low grades is made necessary because of the low grade oils of western Texas, the Gulf coast region and imports from Venezuela and other low grade oil-producing areas, it is explain locally.

LINDBERGH'S PLANE BRINGS MAIL CARGO

(Continued From Page One)

his way again. He landed at Springfield, his second stop at 8:05 and took off again within the five minutes provided by the postal schedule.

Just 50 minutes later less than a hundred watchers at the flying field heard the drumming of his motor to the north. The Douglas, driving through the smoke pall at more than 100 miles an hour, shot across the field a moment later. Climbing slightly, Lindbergh swung his ship off to the west and, settling easily, landed in front of the national guard hangar.

Lindbergh taxied his ship to the waiting mail wagon, and, leaving the plane in charge of mechanics, quickly doffed his fur lined flying suit, stopped a few minutes to talk to newspapermen and prepared to leave the field for the day.

In reply to questions as to his future plans, he said he intended to fly to Albany, N. Y., next week, for a conference on February 29, at which a state aeronautical code would be discussed. On the following day he is scheduled to appear at an educational convention in Chicago. He said he did not think he would fly the "Spirit of St. Louis."

Thomas P. Nelson, Cleveland-New York air mail route flier and an old-time flying mate of Lindbergh, left Chicago at 6:25 a. m. with another load of mail and arrived here at 9:20 a. m. Other pilots were held at Chicago awaiting mail from New York and the Pacific coast.

LINDY GETS NERVOUS AS MAIL IS DELAYED

CHICAGO, Feb. 21. (AP)—The Chicago-St. Louis airmail started south at 6:04 a. m. today, with Col. Charles A. Lindbergh at the controls. The start, scheduled for 5:50 a. m., was delayed by failure of the outgoing mail to reach the airport from the downtown postoffice.

Lindbergh's Douglas biplane rode west with the Dawn, to swing southward a short distance out of Chicago. Following it closely was another Douglas, with Thomas Nelson as pilot and Phil Love, who piloted one of the six planes from St. Louis yesterday, as passenger. Two other planes awaited the arrival of the San Francisco and New York mail planes before following.

In the Lindbergh plane were 17 sacks of mail weighing approximately 900 pounds and filling the ship.

The average time required for the Chicago-St. Louis flight is three hours and 20 minutes, but Col. Lindbergh anticipated delays at Peoria and Springfield, where regular stops were scheduled.

A reporter asked the flier if he slept much last night. Colonel Lindbergh smiled as he placed the query in the "personal question" category which he makes a practice never to answer. Fellow airmen, however, said Lindbergh slept about three hours, although he appeared fresh when he reached the field.

The long wait for plane time visibly affected him. He sat in the offices of the Robertson corporation which handles the St. Louis airmail, picking up magazines, glancing at them a moment, and then putting them aside. He consulted his watch frequently.

Just before taking off he posed for cameramen, this being the first chance the photographers had at him since he landed from St. Louis last night.

In a short interview before the takeoff Colonel Lindbergh told the Associated Press that his hurried departure from the landing field last night was due to his desire that the mail be not delayed by any demonstration.

The reporter asked him if, in going back for a single round trip on the air mail route he used to travel regularly, he was to receive the regular pilot's pay. To this the colonel replied that he had "never thought to make those arrangements."

and one in her dress giving the maker's name as Louis of Buffalo.

The spot where the woman was found is about two miles from the point in Bernard township where the unidentified body of a well dressed man was found about two weeks ago. The man had been strangled.

County Prosecutor Francis L. Bergen stated today that he believed the woman had been drugged or rendered unconscious before she was placed behind the roadside stand where she was found. Fresh tracks of an automobile led to the rear of the building. The automobile had been backed away from the scene.

The theory of suicide was scouted because no containers in which the gasoline might have been transported were found in the vicinity. The woman, also, isc not believed to have moved after her clothing was ignited.

Coroner R. D. Totten, of Morris Plains, after a cursory examination, said that he could discover no marks or violence on the body. He has ordered an autopsy.

TEXAS MUST LEAD COTTON REDUCTION

(Continued From Page One)

appointed Clarence Ousley of Dallas to prepare a resolution from the mass of proposals before it.

This was quickly passed after defeat of Senator Roberts' measure.

Reforms recommended in the resolution were that the governors in the cotton growing states, through cooperation with bankers and credit men, lay down credit policies based upon restricted cotton acreage and production of food crops. Urging congressional delegations to prohibit issuance of the department of agriculture of price forecasts; support from congressional delegations for measures looking to control of surplus crops; revision of tariff schedules to provide more liberal protection to cotton planters against importation of foreign-grown cotton and adoption of stringent laws extending rural school terms and making it mandatory for children between the ages of eight and fifteen to attend full school terms.

Ousley Expects Change.

Mr. Ousley said he expected several of the recommendations incorporated in the resolutions to be altered materially before final passage of the complete document by the entire conference.

In defense of his resolution calling for legislative action, Senator Roberts turned to the Texas delegation and declared full responsibility of results of the conference rested with them. He said that since Texas produces one-third of the nation's supply of cotton, efforts to curb production in other states would meet with less success unless Texas took stringent action.

The conference adjourned sine die at noon today after adopting with only minor revisions recommendations unanimously presented by its resolutions committee. The conference ended its sessions begun yesterday with a spirit of harmony and optimism prevailing, contrasting sharply with the wrangling over proposals and counter proposals that marked sessions of its resolutions committee.

The controversial proposal of State Senator W. B. Roberts of Bolivar county, Mississippi, for cotton acreage reduction through legislative enactment was skirted by concessions from both sides. It was appended to the general resolution, but will not come up for discussion before state legislatures until next October 15 at the earliest, and then only if cotton quotations are at "an unprofitable figure," to the grower.

are expected to be members of the party and it is very probable that a greater number will make the trip, Mr. Chatham said. The special train bringing the party to Wichita Falls will leave Milwaukee at 7:17 a. m., Tuesday, March 27, and will arrive here at 2:45 p. m., Wednesday, March 28. The train will leave Wichita Falls on the return trip at 2:30 p. m., Friday, March 30, and will arrive in Milwaukee at 10:05 p. m., Saturday, March 31.

Committees Named

The following committees of the farm land division of the real estate department have been appointed and will function when the Wisconsin party arrives here:

Itinerary and entertainment: Mrs. P. A. Welty, chairman; P. S. Richardson, J. M. Baber and Roscoe Staton.

Listing: Henry Welch, chairman; Otto Stehlik, J. R. Monroe and J. R. Bachman.

Statistical and publicity: W. S. Curles, chairman; W. B. Hamilton, Homer Karrenbrock and A. L. Huey.

Clarence Dodge is acting as chairman of the new division.

J. T. Harrell, vice president of the City National bank and chairman of the chamber of commerce agricultural committee, told members of the real estate board that it is the desire of his committee to cooperate with the realtors in every way possible in any colonization plan.

Mr. Harrell urged that definite plans be made by the realtors to entertain the Wisconsin party.

"The opportunities in Texas for the development of the dairy industries are greater than in Wisconsin," Don Curtis, former manager of the Producers Creamery company, declared when he addressed the realtors on the dairy industry.

Mr. Curtis traced the history of the cow and told how the various breeds were introduced in the United States.

There is no danger of the dairy ing industry being overdone because there are being constantly found more uses for milk, other than for human consumption, Mr. Curtis declared.

OVERWEIGHT

Overweight is dangerous—not only in itself, but as a condition indicating certain organic diseases. That's why insurance companies bar people of marked overweight. If you want to keep your weight at a safe figure, watch your diet, and above all, your liver!

A sluggish liver lets the system fill with poisons formed in food waste, and this toxic condition is a common cause of overweight. The liver needs a little help occasionally, especially after the age of 35, and there's nothing better for this, as doctors agree, than a little ox gall. Ox gall is a splendid natural stimulant for the liver, promoting its normal functioning, so essential to real health.

Dioxol tablets are genuine ox gall in dainty and tasteless form, each tablet representing 10 drops of pure ox gall. They cost less than 2c each at good druggists, and a few prove a revelation. To be sure of getting the genuine ox gall, ask for Dioxol.

REED ACCUSES G. O. P. AS CLAN OF 'BOODLERS'

MISSOURI SENATOR FLAILS COOLIDGE AND COHORTS AS PLUNDERERS

SOLON URGES HARMONY IN DEMOCRATIC RANKS

Dallas Address Has No Mention Of Reed's Candidacy as Presidential Hope.

TULSA, Okla., Feb. 21. (AP)—Democrats have "bigger fish to fry than prohibition," Senator Reed of Missouri declared here today in naming "the return of honesty in government" as the campaign issue.

Greeted by friends upon his arrival here early today to continue the presidential campaign he opened last night at Dallas, the Missourian was asked by a newspaperman if he considered prohibition an issue.

"Well, certainly there is a lot of interest in it," he replied. "But the party has bigger fish to fry. We must get the government out of the control of those interests using it for their own interest. Then there is the abortive tariff and the demand for internal improvement and a host of other issues."

DALLAS, Feb. 21. (AP)—In the fight for the "united and militant democracy" which he demanded here last night to bring about "the return of honesty in government," Senator James A. Reed of Missouri set out today for Tulsa, Okla., and the far west to spread his doctrine of harmony.

Opening his western campaign, the Missouri Democratic presidential candidate told his party that first of all it must be united. He set out the platform on which he believed the Democratic party can unite and win.

"The most important question before the American people," he said, "is to drive the Republican party from power; to take this government out of the hands of boodlers, grafters and lobbyists and to place its control once more in the hands of the American people."

Urges Party Harmony

Emphasizing the necessity for party harmony, the Missourian declined to discuss presidential candidacies, "including my own," as he talked here with some of the Texas Democratic leaders yesterday. With the award of their 40 votes in the Democratic convention still in doubt and involved in factional strife, most of the Texans who streamed into the senator's hotel room were easily steered by him from political discussions.

The veteran silver-haired campaigner who is making his first bid for the presidency, centered his opening attack on what he described as the "public plunderers" and "corruptionists" of the Harding and Coolidge administrations. He called for the "swift and sure punishment of all public plunderers, bribe-givers, election corruptionists and other malefactors." He departed from his prepared address to declare for law observance and to denounce racial and religious prejudices.

First Speech of Trip

Speaking last night at a meeting of the Democratic leaders of Texas, the Missourian outlined the platform upon which he seeks the Democratic presidential nomination, although even in this prepared address he did not formally announce his candidacy. It was the first of a series of speeches which is to take him to the Pacific coast.

"I appeal for a return of honesty in government and for the reestablishment of the old Democratic doctrine," he said.

"I speak for the inalienable right of the citizen to liberty of conscience without coercion, criticism or obloquy.

"To the preservation of the right of freedom of the press, peaceful assemblage, trial by jury and the reestablishment of local self-government and the sovereignty of the states.

"For bringing the federal power within the limits not only of the letter, but the spirit of the constitution.

Bureaucracy Opposed

"For the abolition of government by boards and bureaus.

"For the equalization of the burdens of taxation; the repeal of all laws creating special privilege; and the dismissal of a vast army of spies, snoopers, sneaks and informers.

"For the liberation of honest business from oppressive interference by governmental agents.

"The prosecution and punishment of those who by criminal conspiracy in restraint of trade make war on honest business.

"For the swift and sure punishment of all public plunderers, bribe-givers, election corruptionists and other malefactors.

"These are the great issues" Senator Reed declared. "Upon many other problems we may be in division, but here is a field on which the Democratic party may plant its banners; here is the ground where all Democrats may assemble and where Democratic victory may be achieved."

Urges United Democracy

Calling for "a united and militant democracy," Senator Reed declared at the outset of his address that "the most important question before the American people is to drive the Republican party from power; to take this government out of the hands of boodlers, grafters and lobbyists and to place its control once more in the hands of the American people."

Reviewing then the Republican administration since Woodrow Wilson left the White House, the Missouri senator adverted to the naval arms treaty, the settlement of foreign debts, the 1926 Pennsylvania senatorial primary and the oil scandal, and assailed President Coolidge, Secretary Mellon, Albert B. Fall, former interior secretary, and Harry M. Daugherty, attorney general in both the Harding and Coolidge administration.

Daugherty Case Aired

The president was attacked for keeping Daugherty in the cabinet after the exposures by the Teapot Dome and Daugherty investigations, and for failure to "lift a hand" while the senate committee was disclosing the leasing of the naval oil reserves under conditions of "frauds which have since been judicially declared by the supreme court of the United States."

Senator Reed asserted that Mellon had been appointed to the treasury portfolio by President Harding despite the inhibition of a federal statute against naming to that position any man engaged in trade, and that Mellon in his administration of the treasury not only had favored the wealthy in the matter of tax reduction, but had approved debt settlements costing the American taxpayers billions of dollars. Finally, he said, Mellon had joined with his brother and nephew to organize "the scheme to raise $2,000,000 to corruptly secure the renomination of Senator Pepper" in the Pennsylvania primary in 1926.

Charges Robbery Plot

Charging that President Harding had been selected as the Republican presidential candidate in 1920 in a room "where a few wealthy men or representatives of wealthy men consorted with Harry M. Daugherty, then beyond doubt formulating the conspiracy of robbery and theft which has since disgraced the republic," Senator Reed said Fall, as interior secretary, had "accepted the bribes of the conspirators; did their bidding, and corruptly transferred to certain of them the vast oil reserves of the republic."

Describing Daugherty as "a creature covered with the leprosy of corruption," the Missourian declared that this official "paralyzed the department of justice so that its arm was not stretched forth to apprehend Fall and his fellow conspirators."

Attacking the Republican administration also for enactment of the Fordney-McCumber tariff law and for what he said was a concentration of power in Washington, Senator Reed asked how stood the case at this time.

Reed Assails Coolidge

"Trusts multiply and the president does not 'choose' to interfere," he said.

"Monopoly grows fat, and the president does not 'choose' to act.

"Combinations are formed and arrogantly pursue their methods under the protection of the government, and the president 'chooses' to approve.

"Commissions are packed by interested parties and their attorneys, and the president 'chooses' to do the packing."

"In all the long years of the Coolidge regime not a single great trust has been dissolved by operation of law," the senator added. "Not a single effective blow has been struck in favor of the liberation of the commerce of the nation from the control of those who have conspired in the teeth of the statutes of the land.

"Mr. Coolidge does not 'choose' to act."

HER FRIEND HAD THE RIGHT IDEA

Told Suffering Kentucky Lady to Drive Out Poisons Resulting From Constipation By Taking Black-Draught.

CORBIN, Ky.—Mrs. Mabel Reagan, of this city, has given the following interesting account of her use of Thedford's Black-Draught for a very common ailment:

"I have been taking Black-Draught at intervals, for 19 or more years. My health has grown better since taking Black-Draught.

"For many years, I suffered with constipation. I could not sleep at night. I would have a dull, aching feeling in my limbs, up my back, and in my head.

"I suffered with gas pains, and had such a bitter, slimy taste in my mouth.

"A friend, one day, asked me why I did not do something for this. She said, 'Get some Black-Draught; it will drive out that poison.'

"I began to take Black-Draught then, and found it just as she had recommended it to be. After I had taken a few doses, I rested at night, and felt much better, rested, and full of life. I would not be without it.

"From then on to now, I have used it, whenever I had the least sign of constipation or sluggishness."

Constipation dams up poisons in the bowels, where they are absorbed into the general system, causing many serious symptoms.

Be sure to try Black-Draught.

Swift & Company's Cattle Dollar

A thousand pound beef steer will yield on an average of 550 pounds of beef and 150 pounds of hide and other finished by-products.

Swift & Company, at its various packing plants, buys thousands of cattle each week, transforms them into beef and by-products, sells the beef to retail dealers and the by-products to various kinds of manufacturers to be worked up into forms which the consumer desires.

From every dollar which Swift & Company received in 1927 from sales of beef and by-products an average of 85 cents was paid to the producer of live stock for his animal; 14 cents was required to pay manufacturing, freight and selling costs, and one cent remained as earnings. Out of his 85 cents the farmer has to pay the cost of the animal and the expense of feeding and marketing before he makes any profit.

The story of beef is an interesting one. Something of this, as well as many other details of the packing industry, are told in the new Swift & Company Year Book for 1928.

OFFICIALS CLEARED TAKING $5600 LOOT FROM BANDIT CACHE

COURT DISMISSES CHARGES AGAINST TWO LOVE COUNTY OFFICERS

BANDIT SUSPECT FAILS TO SUBSTANTIATE CHARGE

Prisoner Refuses to Testify Unless Given Immunity As His Reward.

BOMAR, Okla., Feb. 21. (AP)—Charges of appropriating a portion of the $9,700 stolen from the Love County National bank late in January, made against County Judge James C. Mathers and County Attorney Wes Croy, were dismissed here late Tuesday by O. A. McCage, justice of the peace, who presided over their preliminary hearings.

Fred Hansen, assistant attorney general, who prosecuted the two officers, said he would carry the prosecution further if citizens of Love county will present a petition for a grand jury.

No defense testimony was presented. The justice of the peace ended the case abruptly after sustaining objections to what the state considered the most vital part of its evidence—testimony of two young girls that they saw a large amount of money in two glass jars in Croy's attic at Marietta.

Girl Saw Some Money

One of the girl witnesses, Willie Jim White, testified that on two occasions she and Croy's daughter, Marguerite, had found dirt and sand on the kitchen table in the Croy home after the county attorney and the youthful judge had been there. Croy and Mathers admitted accompanying Claude Andrews, confessedly implicated in the bank robbery, to the spot where they found a bag of money buried in the ground. They returned $3,179 to the bank and were accused of retaining $5,600.

Andrews, who has been held in the Carter county jail at Ardmore, refused to testify today after Hansen had declined to guarantee him immunity if he gave self-incriminating testimony.

Miss White and Mary Birch, a girl friend, were not allowed to testify whether they saw money in Croy's attic. Hansen had said that Miss White, in a previous statement, had told of seeing rolls of bills in two jars, and of counting more than $2,000 in one jar, shortly after the two county officers had returned a portion of the loot to the bank.

Bank Refused Reward

J. D. Davis, cashier of the robbed bank, testified that Croy and Mathers had attempted to bargain with him for a reward, saying they knew a man who could lead them to the spot. They returned with the bar containing a portion after he had told them he was without authority to offer a reward, he said.

A formidable battery of volunteer attorneys represented the two accused officials. It was headed by James H. Mathers of Oklahoma City, father of the young judge. Ben Williams of Norman, former president of the state bar association was another of the nine members of defense counsel.

Judge Mathers, who is not yet 26, was the youngest county judge in Oklahoma at the time of his election in 1924.

LOVE COUNTY BANDIT SUSPECT GIVEN BOND

MARIETTA, Okla., Feb. 21. (AP)—John C. Liddell, charged with murder and robbery with firearms as a result of the robbery of the Love County National bank here late in January, was ordered released on $5000 bond on each of the charges after a habeas corpus hearing today before District Judge Asa E. Walden.

Vernon Liddell, a brother, was denied bond. No application for bond was made by Claude Andrews, a third man held in connection with the robbery.

Attorneys for Vernon Liddell indicated they would institute a habeas corpus action in the criminal court of appeals at Oklahoma City later this week.

Murder charges against the three men grew out of the death of Sheriff Sam C. Long, who was fatally wounded in a gun encounter in which he killed Oscar Harrison of Goose Creek, Texas, one of the bank robbers. Haney Liddell, a third brother, is a fugitive from justice on the same charges and a federal indictment charging him with using the mails to defraud.

NO CLUE FOUND OF ROBBERS OF DALHART STORE

DALHART, Feb. 21.—A 24-hour search by officers here has not revealed any clues concerning the robbery of the Ely Hesse Grocery company here Sunday night. Twenty-one cases of cigarettes valued at $1500 were taken by the thieves, who broke into a window and escaped with the big supply of cigarets. The robbers used a large and small car, according to car tracks made beside the building, in carrying the loot away.

What Has Happened So Far

Emily Day, daughter of very poor parents, has a great yearning to make a success. She finds it impossible to mingle with the socially elect of the little town where she lives owing to her poverty and the fact that her father is a factory worker. She loses her heart to Kent Rossiter, a rich young man, who is supposed to be engaged to Marlee Grainger. One moonlight night at a party, Kent kisses Emily and calls her beautiful. He goes away to study law but she never forgets him. Meanwhile, Marty Nolan, whose father keeps a "speakeasy," tells her he too is going to be a lawyer and that some day he intends to marry her. She gets a job with Mrs. Frances Halden, a wealthy interior decorator, who tells her the only aristocracy is that of work. Mrs. Halden introduces her to Kingdon Coles, a dramatic critic, who proposes to her in vain. Meanwhile, Kitten, Emily's younger sister, is wildly seeking for thrills. She meets Ted Lanier on the sly, Rosita Brent, a school girl friend of Emily's finds herself deserted by Skeets Bradley, reckless son of a rich family. Kitten goes on a wild party with Ted without letting her sister know.

Emily gets a raise. Kitten climbs in a window late at night to elude her sister.

Kent comes home for the wedding of his sister Avis, who has thrown herself at Marty Nolan. Fearing her father's wrath, she marries a man she does not care for.

Now Go On With the Story

CHAPTER XXXV

Life took on a luminous charm. Each day came softly, like a splendid new adventure, bearing magic gifts. Emily moved in radiance, proud as a young queen, happier than ever she had been before.

She did much of the work now that Frances had cared for. When there was a job to be executed it was Emily who made inspection and recommendation subject, of course, to her partner's approval. A big movie theater which came to Lyall and called in the firm was handled by Emily practically unassisted.

A great triumph this was for her and her share of the commission went a long way on the amount owing for the third interest.

Greenery out the River road grew dark and dusty and lawns were strewn with yellow leaves; the Hudson took on the look of running sapphire and the air held wistfulness, like a lingering caress, which is summer's farewell.

It was nearing election time and every day now the opposing newspapers waged bitter and wordy wars with each other over candidates for office. The Item continued to back up Kent Rossiter and, strangely enough as it seemed to Emily, the Star did not oppose him.

Marty, now established in Judge Morrow's office, grinned when she mentioned this.

"What about it?"

"But I thought the Judge owned the Star? You mean he wants Kent for the place? I sort of thought—you see, I imagined—well, I guess maybe the Judge isn't unreasonable as some people say."

"Clever, aren't you? But not so clever with your own affairs." He said it lightly but there was a curious expression in the tawny eyes.

"What affairs, Marty. I thought I was managing very well."

"I'll say just this; better keep an eye on that kid sister. She'll stand watching."

The quick fear Emily had known once before clutched her; she put a shaking hand on his arm. "What do you mean? Marty—"

"I mean that and nothing else but," he snapped. And walked out of the shop.

Emily kept an eye on the kid sister but saw nothing amiss. Kitten had grown quieter, perhaps, and rather more amiable but the air of secrecy she threw around herself was no greater than it always had been. She had learned to sew a little and she spent much time with her clothes, cleaning and pressing and making them over.

She had a natural knack for striking effects and by the mere placing of a buckle or the twisting of an end of velvet managed to give an exotic look to the simplest frocks.

Dottie still was held to the house; if she went out at all it always had to be with some member of the Brent family. Flossie Gaines had drifted to New York and into a beauty chorus.

So the trio of flappers was broken up, to Emily's relief. And Kitten didn't seem to care for rushing down to the ice cream shop now for her going out in the afternoon.

Emily wondered about this. Thinking over what Marty had said she would plunge into a panic of worry and finally, snatching her hat, hurry up the hill and come bursting into the house.

But her sister nearly always was there, curled up in the porch swing with a book or studying fashion plates.

Once at night when she was almost asleep she was siezed with apprehention. Getting up quietly, she felt her way along the hall to Kitten's room. It appeared to be dark but Emily caught the sound of movement and pushed open the door.

All in black velvet Kitten stood before the mirror, preening herself like some gorgeous, tropical bird. The gown was a new one, fashioned in a slender, sooty sheath that revealed every graceful line of the small figure.

The red hair was brushed back and fluffed so it framed the beautiful face in a blaze of ringlets no less bizarre than the brightly painted lips. Great jet loops hung at the little ears.

"Why, Kitten!"

"Oh, for goodness' sake! Can't even try a dress on without your snooping. No crime to try a dress on, is it?"

"But so late, dear." Emily saw then that the keyhole had been stopped and a blanket hung over the cracks of the door. "All you need is the rope ladder," she added, smiling. "Why all the secrecy?"

Kitten gave her a sharp glance and turned sullen. "Have to be secret around here where no one ever lets you alone." She began to remove the earrings, watching her sister in the glass. "Seen enough, Em? Or did you come for the night?"

So little and so lovely she looked and so at variance with all the world, Emily's eyes filled; she stood there vaguely, touching the dusky velvet.

"Can't we be friends, Kitten-cat? I don't want to hurt you. If only you'd love me a little!"

The younger girl hung her head—flung herself into her sister's arms, sobbing.

"I do love you, Emmy. Oh, I do! But things are so—so kind of awful. Living up here on the Hill—well, we don't stand much show, do we? That isn't fair, always to be out of things because we're poor.

"You've got Frances, but that doesn't help me. I want good times too. And you always act as if I'm a c-criminal—" A specially big sob with this.

Emily put her hands against the ringlets, snuggling the bright head as she had done when they were children.

"Dear little Kitten-kid. I hadn't any idea—but of course I used to feel that way. Harder for you; I always could pretend. I'll take you with me after this and you'll love Frances and her friends. And it doesn't make any difference really, whether we live on the Hill. It's what we are that counts. You'll see."

Later she wondered if she really believed this herself.

Kitten often went out with her after this. She never was the sensation in the salon at Great View that Emily had been. The younger girl, after all, was true to type—the new generation type. And she had no wish to pose as a good listener.

Kingdon Coles seemed to admire her at first but he soon wearied of her arrogance. And of course Frances' friends seemed old to her and woefully unexciting.

It wasn't long before she began to refuse Emily's invitations, pleading this excuse or that for remaining away.

And soon the window and the kitchen roof and the grape trellis came back into her life.

Nicky would park his car on the dark corner a block up the street and wait till she could get out. Sometimes it was nearly midnight, but he always waited.

Once, after a long run down through Jersey, they rolled into Lyall early in the morning, boldly going through the River road which should have been deserted.

But there had been a ball at the Yacht club and guests were leaving; Nicky had to pick his way through traffic. He was held for a long moment directly under a light. In her place beside him Kitten saw a woman staring from another car. Black eyes oddly a-light, little white teeth jammed into a red lip.

"Look, Nicky. Who's that watching so?"

He glanced up and whispered "Damn!"

Kitten went cold. The woman, she knew, was Nicky's wife.

FENCE IS BEING PLACED AROUND NEW WATER TANK RECENTLY BUILT BY CITY

Posts have been set for the fence to be built around the city's new 500,000 water tank constructed recently at the west end of Ninth street, according to an announcement Tuesday by Dr. A. H. Douglass, superintendent of the Wichita Falls city water department.

The wire for the fence is expected to arrive here the latter part of this week. The fence will be seven and one-half feet high and three barbed wires will be placed at the top.

The fence is being built in order to keep children from playing on the tank.

CITY FILTER PLANT IS BEING PLACED IN SHAPE FOR BIG SPRING DEMAND

Work of regrating the sand and gravel in the seven filter beds of the Wichita Falls city filter plant has been started, Dr. A. H. Douglass, superintendent of the city water department said Tuesday.

The work is being done at this time in order to place the filter plant in the best of condition for the spring and summer rush, Doctor Douglass said.

ASPIRIN

Most people know what to do for headaches; many declare nothing is quite so good as a Bayer Aspirin tablet. Nor does anything else seem to break a cold so quickly. But it's things like lumbago that show what Aspirin can really do! Neuralgia and neuritis. Rheumatism. When your very bones ache; that's when you're grateful for Aspirin! Get the genuine Bayer Aspirin, though, with Bayer on every tablet and on the box, with proven directions inside. All druggists.

Star Salesman

THIS man's commission check is always bigger than any other salesman's on the staff. He's a wonder! When he breezes into town after a gruelling business trip—with a bunch of orders in his pocket for the boss—he's always as fit as a fiddle. And just rarin' to go off again.

How does he do it—living on trains—snatching hasty meals at railway station counters and small town restaurants? Forever on the jump.

If you could see him pack his bag for a trip, you'd know. A bottle of Nujol always goes in. Nujol keeps body functions normal, even under abnormal regime. Keeps hasty meals and indifferent food from upsetting you. Wards off the bad effects of change of water and climate. For Nujol not only prevents any excess of the body poisons (we all have them) from forming, but also aids in their removal.

Whatever *your* job is—you need health and energy to ride it. Take a tip from this star salesman and take Nujol regularly. You'll be amazed to find how much more clear-headed and all 'round efficient you feel. Keep up this treatment faithfully for 3 months and you'll feel like a million dollars. And you will have taken the first step toward getting it.

Isn't Nujol worth trying? It was perfected by the Nujol Laboratories of the Standard Oil Company (New Jersey). It couldn't possibly hurt you, anyway. (Nujol contains no drugs or medicine.) And if you're like other people it will do you a world of good.

Be sure you get the genuine.

Lone Star Gas Co.'s 3,500-foot Gas Pipe Line Suspension Bridge Across Red River

BRIDGING THE GAP

Between the Gas Fields and Your City---To Serve You!

LONE STAR GAS COMPANY is a producer, purchaser, pipe line transporter and wholesaler of natural gas. It bridges the gap between the gas field and your local gas company's city distribution lines and thus serves you by backing up the service of your local company.

Symbolical of Lone Star Gas Service is the 3500-ft. suspension bridge shown above, that was built at great cost to carry Lone Star's large Southern Oklahoma pipe lines across the Red River, near Byers, Texas. As this marvel of engineering skill bridges one treacherous "gap" in Lone Star's pipe line system---so does Lone Star's system of over 2000 miles of main pipe lines bridge the gap between the gas fields and you, the gas consumer.

The erecting of this gas pipe line bridge to make a dangerous river crossing safe---and the erecting of a similar bridge 2100 feet in length across the Brazos River near Granbury to carry our main pipe lines from West Texas---are merely typical of the lengths to which Lone Star Gas Company goes to insure continuous gas service to dozens of communities dependent on its lines for natural gas.

"Bridging the gap"---yes this may well be applied to Lone Star Gas Company's entire function of delivering natural gas from many gas fields to many distant communities. It embraces not only mile after mile of main pipe lines, but large compressor stations costing millions of dollars and a trained and experienced organization.

We want the gas consumers we serve---three-quarters of a million people---to know that while Lone Star Gas Service may be in the background and seldom seen by our customers, we're always on the job, working to deliver to each community a constant supply of gas---winter and summer, in good weather and bad.

FORDS ACCUSED FRAUD IN DEAL LINCOLN PLANT

$6,000,000 DAMAGES ASKED BY STOCKHOLDERS OF DEFUNCT CONCERN

FORD FAILED TO CARRY OUT PROMISE, CHARGE

Purchase of Company's Property At Receiver's Sale Not Legal Is Claim.

PONTIAC, Mich., Feb. 21. (AP)—The charge that Henry and Edsel Ford obtained the Lincoln Motor company by fraud, is contained in briefs filed in the Leland-Ford $6,000,000 damage suit in circuit court here.

The accusation was made in documents entered in the record yesterday by attorneys for Henry and Wilfred Leland, who are bringing the action against the Fords on behalf of 2000 other former stockholders of the Lincoln company. It follows in part:

"The Fords obtained the Lincoln property by virtue of their promises to us. To retain these properties and to break their promises to us, is a species of fraud. And charged with that fraud, they now seek to perpetrate it against these 2000 plaintiffs by resort to technicalities that are not even specious; rather than, as would an innocent man, demanding a prompt trial that they might be exculpated of the serious wrong we charge."

Briefs were asked of both sides by the presiding judge before passing on a motion by attorneys for the Fords to void the bill of complaint, which alleges that at the time the factory was purchased, at a receivership sale in 1922, the Fords verbally agreed to reimburse the stockholders for losses incurred.

In the defendants' briefs, also filed yesterday, it was asserted that the alleged verbal contract was entered into by the plaintiff Lelands to procure special advantages for themselves. It continues:

"The alleged oral contract is a contract to answer for the debt, default, or misdoings of the Lincoln Motor company, a Delaware corporation and is void under the statute of fraud of the state of Michigan."

Presiding Judge Covert will take up the briefs for consideration Wednesday. If the court holds the Fords must answer the bill, a long drawn out legal battle is anticipated.

TEXAS U. VOTES ON SIX PRETTIEST GIRLS

AUSTIN, Feb. 21. (AP)—Texas university students Tuesday began balloting to select the six most beautiful girls in school from among the 49 nominated.

For the past two years, artists have done the choosing, but popular suffrage was deemed a better method.

The women finally chosen will make up the beauty section of the "Cactus," university year book.

EPIDEMIC OF MEASLES CLOSES TEXAS SCHOOL

SAN ANTONIO, Feb. 21. (AP)—A slight epidemic of measles, which has caused the closing of several school rooms here is well in hand, although the mortality rate of the disease has increased slightly since January, Dr. W. A. King, city health officer, announced today. Dr. King believes that several deaths from bronchial pneumonia have had measles as the contributing disease.

HELP KIDNEYS BY DRINKING MORE WATER

Kidney and bladder irritations often result from acidity, says a noted authority. The kidneys help filter this acid from the blood and pass it on to the bladder, where it may remain to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread; the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it because they can't control urination. While it is extremely annoying and sometimes very painful, this is often one of the most simple ailments to overcome. Begin drinking lots of soft water, also get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast. Continue this for two or three days. This will help neutralize the acids in the system so they no longer are a source of irritation to the bladder and urinary organs, which then act normal again.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by acid irritation. Jad Salts causes no bad effect whatever.

Here you have a pleasant, effervescent lithia-water drink which may quickly relieve your bladder irritation.—Adv.

SOCIAL AND HOUSEHOLD ITEMS OF INTEREST TO WOMEN

Large Audience Hears Symphony Orchestra in First Performance

One of the largest and most appreciative audiences ever assembled in Wichita Falls for a musical program jammed the junior college auditorium to capacity Monday evening to hear the first performance of the Wichita Falls Symphony orchestra, which appeared in concert jointly with the Woman's Choral club, sponsors of the orchestra.

Ethel Allen Nelson, director, composer and soloist, shone in all three fields Monday evening. That he is a director was proven by the beautifully harmonious blending of the 50 performers, in spite of the fact that there have been weekly rehearsals for the only six weeks. He delighted the audience as a composer, both with his "American Poem," already well known to Wichita Falls music lovers, and in his "The Opium Dreamer," which was played for the first time to a Wichita Falls audience Monday evening. "The Opium Dreamer" is rather fantastic and exotic, and yet dismally shrouded with miasmic clouds—in fact, a picture of the opium eater's dreams and fantasies. And as a soloist, the same beautiful tone, exquisite expression and deep feeling that has characterized all of Nelson's solo work was manifest in "Canzonetta" (A. d'Ambrosio.)

"Caprice No. 28" (F. Fiorillo), the piano accompaniment of which was arranged by Mrs. Harwood Stacy, was not given as scheduled because Mrs. Stacy was not able to appear on the program because of a death in the family.

The Woman's Choral club, directed by Mrs. Luella B. Thompson, has never performed better than in their numbers on the program. Dressed in the daintiest of white costumes, with pink shoulder roses the only touch of color, the 40 singers were as attractive in their appearance as their tones were beautiful.

In "Une Parole d'Amour" (Savino), played by the orchestra, a solo part taken by little Miss Mozelle Lundy, one of Mr. Nelson's pupils was well received, the little soloist already showing signs of remarkable talent as a performer.

The personnel of the orchestra is as follows: violins, Mrs. J. E. Hall, Joseph Rabinowitz, Mathilde Donnell, Fred Smyers, Mozelle Lundy, Homer Donehoo, Mrs. C. E. Hill, Mrs. Dallas Childers, Thurman Conrey, Mrs. J. V. C. T. Christensen, Edna Rhader, Mrs. H. H. Haggard, William Donnell, Carlisle Norwood, Harriet Bradley, Roberta Lincoln, Aaron Kruger, Merril Strong, Roy Pendergraft, Allen Nash, Minerva Price Rhoads, Maydiel Hill, Bernice Ewing, May Bartlett, C. W. James, R. A. Brollier, L. V. Lawler, F. A. Malacord; flutes, Martin Dunning; oboes, Dr. H. S. Brevoort and Ralph Anderson; trumpets, Jerry Schneider and Ira L. Uttz; French horn, E. D. Williams; trombones, M. Muehlberger, Frank Parrish and Fred Green; timpani, W. H. Coucier; piano, Mrs. E. J. de Montel; harp, Mrs. Gose Waggoner.

Mrs. Luella B. Thompson is director of the Woman's Choral club and Miss Elizabeth Cole is accompanist. Singers in the club are as follows: Mesdames M. J. Adams, C. H. Aldrich, Kenneth Bebb, C. E. Beavers, B. L. Bryans, L. A. Buzby, William Block, M. M. Bates, C. C. Cabiness, Earl Clayton, Harry Cohen, P. M. Cordell, Paul Colvert, N. M. Clifford, J. B. Dotson, John Ebner, C. H. Evans, L. A. CALLED MEETING IS ANNOUNCED POSTPONED

Announcement is made that the call meeting of officers of the Parent-Teacher associations of Wichita Falls and community scheduled for Wednesday morning, 10 o'clock, at the Y. W. C. A. has been postponed until Wednesday, Feb. 29, the time and place to be announced later.

At this meeting Mrs. Ira L. Cain, state chairman of juvenile protection and a member of the state board of managers of the Texas Congress of Mothers, who has recently returned from a conference with the state president of the organization, will speak at the meeting and explain the plans of the state executive board for the new district in the congress with Wichita Falls as the center.

The postponement of the meeting has been made in order that more publicity may be given it and that opportunity may be given to those interested to attend.

MRS. PARKER TO GIVE OPERALOGUES SUNDAY

Mrs. Lois Parker will give the operalogues of "Aida" and "Resurrection" Sunday afternoon at 5 o'clock at the parish house under the auspices of the Musicians' club, instead of at the open program to be given by the club Tuesday evening, it was announced. The operalogues will be open to the public, including prospective patrons of the grand opera.

Due to the illness of Mrs. Shepherd, who was to play accompaniments, Mayor Shepherd and Mrs. Parker will also not be able to sing arias from the operas as announced.

SARTIN TELLS AD CLUB ABOUT CITY OF FUTURE

"The City of the Future" was described Tuesday noon by Judge B. D. Sartin in an address to the Advertising club, referring to the members of the club as "those who are given the opportunity to make this city, this community and this irrigated valley an ideal one and a model for others."

"The city of the future," said Judge Sartin, "will be intelligently planned before a single house is built, or lot sold. It will be absolutely cooperative. The common good will rule. The land will be owned in common.

"All taxes will be levied upon what values a citizen receives from the common good, such as location, electricity, gas, water and transportation. There will be no taxes on individual wealth. The iniquitous element in taxation is the idea of taxing the results of a man's efficiency, that is, taxing the prosperous. Taxes ought to be simply the price one pays to the community for what he gets from the community.

"The city will get its heat, electric power, gas, transportation, water and the like from municipally owned works. Every house, small or large, must be beautiful, built under the city's direction, to harmonize with the city plan. There will be no vacant lots. Every foot of ground must be used for beauty and profit. The business district must be as beautiful as the residence district.

"The city will own and operate its schools, theaters, concert and amusement halls, parks and playgrounds. There will be enough hospitals for the care of the sick, all owned by the city. All physicians and nurses shall be employed by the city. Their main duty will be the prevention of disease. They will be public officers just as are the policemen.

"It will not be a communistic nor a socialistic city, as each citizen will earn his own living, but all matters of the common good will be controlled by the city.

"Its aim will be to attract workers, craftsmen, business men, professional men, all kinds of workers, and to give to the poorest of these all the advantages accruing from the communal life. The city will operate its own bank. There will be no private banks.

"The city will be a joint stock corporation, its shares selling at $5 each, to be held by the citizens. All profits over six per cent will revert to the city.

"The principle governing the city will be 'the largest liberty in personal affairs, and all communal affairs managed by the city government.'"

"This idea," said Judge Sartin, "may seem a bit idealistic, yet the trend in the last 50 years points to this actuality. Cooperative marketing is one of the big problems of the nation. We today must turn to the study of cooperation in order to find the solution of the problems now confronting the irrigated valley."

A report of what the Advertising club plans to do in order to help the publicity department of the chamber of commerce advertise Wichita Falls was made by A. E. Kelly. The attendance prize, ice cream, was furnished by Colvert's Ice Cream company and was awarded to M. B. Whatley.

J. W. Pyland was in charge of the program. A short talk was made by Claude Miller, who has just returned from New York and other eastern markets.

Rich Girl Hires Out as Servant To Find Peace

NEW YORK, Feb. 21. (AP)—Catherine Elizabeth Tierney, 22, missing Conecticut college girl who ran away from luxury to make her own way in the world, has been found working as a housemaid.

The girl, daughter of Mr. and Mrs. George H. Tierney of Middleton, Conn., was reported by Harry A. Lovsenz of New Gardens, Long Island, as working in his house as a maid under her own name.

She had been missing since February 3, when she left Marymount college at Tarrytown, N. Y., ostensibly to come to New York to visit her grandmother, Mrs. Martin Rogers. A quiet search had been carried on since then by the girl's relatives, but the aid of police was enlisted yesterday. Word of her whereabouts came in a few hours.

Her relatives in this city said they believed sensitiveness over her size—she is five feet eight inches tall—caused her to leave the school. She was in the freshman class there and had passed all examinations except chemistry.

Lovsenz said the position she held in his home for three weeks was really that of a governess for his two children.

YOUTH WILL BASE SLAYING CASE ON DEFENSE OF LIFE

FORT WORTH, Feb. 21. (AP)—Testimony began Tuesday morning in criminal district court in the trial of Robert McKinley, 18, charged with killing his step-father, William Lewis Holloway, 38, farmer, who was shot to death at his Mansfield home last August.

The defendant will ask for a suspended sentence in the event he is convicted of manslaughter. It is expected the state will recommend the death penalty, inasmuch as all jurors accepted by the state said they would inflict the supreme penalty in a "proper case."

It is the state's contention that the youth shot his step-father while he was asleep in the back yard.

Bob Shropshire, named by the court to defend the youth said that an attempt will be made to show that Holloway abused his step-son, accused him of theft and also abused the youth's mother.

FORGED WILL CITED MOTIVE IN KILLING CALIFORNIA WIDOW

LOS ANGELES, Feb. 21. (AP)—A defense admission that Dr. Charles M. McMillan had forged a will in the name of Mrs. Amelia Appleby, for whose murder he is on trial here, was singled out by the prosecution today as the chief motive in the case.

The admission—that Dr. McMillan wrote the "will," which bequeathed to him the property of the wealthy widow—was made yesterday when the defense announced it would make a stipulation to that effect and would put the accused man on the stand to tell why he did it. McMillan, who acted as Mrs. Appleby's business adviser, stoutly maintains he did not kill the woman.

The will, dated August 6 last, was found in McMillan's possession when he was arrested. He declared to sheriff's deputies it was written by Mrs. Appleby, but the deputies declared it a forgery. The district attorney's deputies later declared the will, which gave the physician the entire Appleby estate and its sole control, was the principal evidence of a motive. It specifically stated that none of the woman's relatives were to receive anything upon her death, except a brother, who was willed $1.

STATE SEEKS GAS TAX ON SALE TO U. S. ARMY

AUSTIN, Feb. 21. (AP)—First Assistant Attorney General D. A. Simmons argued before the supreme court's commission "A" Tuesday that the Grayburg Oil company of San Antonio cannot legally refuse state gasoline tax payments on gasoline sold and delivered to agencies of the United States government within the borders of Texas.

He was submitting the state's case in the so-far successful suit against the oil company for judgment of $12,014 and eight per cent interest, representing unpaid one cent gallonage tax on 1,021,400 gallons of gasoline sold to military camps around San Antonio from June, 1923, to December, 1924.

ELECTRA MEN LEAVE FOR INTERNATIONAL SCHOOL CONFERENCE

ELECTRA, Feb. 21.—B. M. Dinsmore, superintendent of the Electra public schools and B. V. Magee, president of the school board left Tuesday morning for Boston, where they will attend the international conference of public school superintendents and presidents of school boards, which will be held the latter part of this week and next week. As far as is known, they are the only representatives from Wichita county who will attend. Delegates from all over the world are expected to be present.

Messrs. Dinsmore and Magee expect to be gone about 15 days, visiting New York, Niagara Falls and Cincinnatti before they return.

STATE WILL MAKE SURVEY OF ROADS THROUGH CHILDRESS

AUSTIN, Feb. 21. (AP)—The state highway commission announced Tuesday that it will authorize the selection of a resident engineer to make surveys for location of state highways four and five through Childress county which is seeking $1,300,000 state aid funds to match $650,000 county funds for a high type hard surface treatment.

The commission had not acted on the request for aid. Highway number four runs from the Collingsworth county line to the Cottle county line and number five from Hardeman county to Hall county line.

Home-made Remedy Stops Cough Quickly

Finest cough medicine you ever used. Family supply easily made. Saves about $2.

You might be surprised to know that the best thing you can use for a severe cough, is a remedy which is easily prepared at home in just a few moments. It's cheap, but for prompt results it beats anything else you ever tried. Usually stops the ordinary cough or chest cold in 24 hours. Tastes pleasant—children like it, and it is pure and good.

Pour 2½ ounces of Pinex in a pint bottle; then fill it up with plain granulated sugar syrup. Or use clarified honey, instead of sugar syrup. Thus you make a full pint—a family supply—but costing no more than a small bottle of ready-made cough syrup.

And as a cough medicine, there is really nothing better to be had at any price. It goes right to the spot and gives quick, lasting relief. It promptly heals the inflamed membranes that line the throat and air passages, stops the annoying throat tickle, loosens the phlegm, and soon your cough stops entirely. Splendid, too, for bronchitis, hoarseness and bronchial asthma.

Pinex is a highly concentrated compound of Norway pine extract and palatable guaiacol, famous for healing the membranes.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with directions. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

WITH THE AID OF HIS ENEMIES.

This paper remarked, quite a while back, that if Al Smith were the Democratic nominee, it would be due more to the nature of the fight that was made against him, than to any political maneuvering of his own.

Time and again, we have observed things to confirm us in that view.

Such a statement as that uttered Sunday night by a local minister, that anyone who supports Al Smith for the presidency is not a good citizen, is a specimen of the things referred to.

We are beginning to wonder if the tactics of Smith's enemies, having already made him the leading contender for the nomination, will not result in his election, if he is nominated and if such tactics are pursued.

TERSENESS.

President Coolidge's reputation for terseness is already secure, but it can do no harm to cite some additional evidence of it. This one comes to us via the Christian Science Monitor, which records that an autograph collector wrote Mr. Coolidge, telling the president that his collection included the autograph of every president except that of the present one, and asking that the president make the collection complete. He got this answer:

"Dear Sir:—Your letter has been received and your request is hereby granted. Yours very truly, Calvin Coolidge."

Mr. Coolidge's reputation isn't going to suffer as long as he can make it as snappy as that.

THE CHANCE FOR CONGRESSIONAL REAPPORTIONMENT

The renewal of the effort to reapportion the membership of congress holds small promise of success, on the basis propoeed. On that basis, congressmen from fourteen states would have to put themselves in the position of perhaps voting themselves out of jobs, for there are that many states whose representation would be reduced. The congressmen from the ten states whose representation would be increased are probably not too enthusiastic about it, personally, for such an increase involves redistricting by the legislatures, and the individual congressman never knows how he will fare when the lines are re-drawn.

It is to be doubted if reapportionment can be effected without increasing the membership of congress to a figure that will not necessitate reduction of any state's representation. That would mean about 50 additional congressmen. Texas would gain three, perhaps four, congressmen, if such a measure were to be passed. On the basis of the present membership, Texas would gain two.

There are grave objections to making the house of representatives any larger than it already is, with a membership of 435. It will be found easier to overcome those objections than to persuade congressmen to agree to reduce the representations of their respective states, and thereby risk their own jobs. It is clearly the duty of congress to effect reapportionment, but a sense of duty does not always operate effectively when a man is confronted with the loss of his pay-check. In the end, we shall probably see the house with a membership of nearly 500, without any of the states having to lose a congressman. It is idle to expect reapportionment on the present basis of membership.

CREATING SENTIMENT FOR CENSORSHIP

Protests are being made by civic bodies in Oklahoma against the showing of a film based on the Hickman case, and purporting to show pictures of the accused youth himself. The film has been shown in some Texas towns without any protest being made, so far as we are aware. There is no movie censorship system in either state by which the showing of this film can be prevented.

The movie manager who permits such a sordid thing to be shown at his theater is within his legal rights, but he is speeding the day when his business will be under such a censorship as already exists in Pennsylvania, Kansas and other states. Such pictures can have no appeal except to the baser emotions. It can do no good to exhibit them; it may do real harm.

If theater-owners themselves do not take the matter in hand, they are standing in their own light. They are creating sentiment for a state censorship that will cost them far more than the profits they make on pictures like that above mentioned. They ought to have the wit to see that they are breeding trouble for themselves by not refusing to show such pictures. If theater owners can't control such a situation, the public can furnish the means for such control.

MARKETING EGGS

A cooperative marketing association is being formed by the poultry raisers of a number of South Plains counties, in which poultry and egg production has increased enormously in the past few years. The counties of Swisher, Motley, Briscoe, Floyd, Lamb and Hale are included in the association.

Poultry-raisers in these counties have been complaining that there is too much of a spread between what they receive for eggs and what the consumer pays in the retail market. They have sold, during the warm weather of this winter, thousands of dozens of eggs at less than 20 cents a dozen—and eggs sold at less than 25 cents a dozen are sold at a loss. On the other hand, many of those same eggs have brought 45 cents and higher, at retail.

It should be well worth the while of Northwest Texas poultry raisers to watch the workings of the South Plains organization. In general, the same problems are to be solved in this section. Poultry raisers here have suffered from haphazard marketing; perhaps our neighbors to the westward can show us a better way.

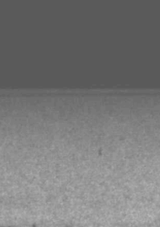

MIAMI AND THE GAMBLERS

The ban on gambling in Florida is costing Miami and other resort cities millions of dollars this winter, according to dispatches. There is no horse-racing and no dog-racing, because the pari-mutuel machines have been put out of commission by legislation. The game of jai alai, to which the gambling fraternity had begun to devote considerable attention, is no more. Mayor Sewell of Miami estimates that $2,500,000 less money will be spent in Miami during this winter season as a result of the stopping of gambling. The "big spenders" are going on to Havana.

Miami may find it cramping to have to do without the gamblers, but if its prosperity is based upon such an unstable foundation as that, it might as well know it now, and build accordingly. If it can't survive without gambling, its right to survive at all is in question.

ANOTHER DAY

Another day to toil and play
Another day with life to cope!
And whether skies be blue or gray
Another day to dream and hope.

Another day and none can say
What shall be learned before it ends,
What need shall call us from the way
To stop with strangers or with friends.

Another day and down the way
Sweet laughter shall be ours to share
Or grief or hurt or trouble may
Add to the burdens we must bear.

Another day! and oh, I pray
That when shall chime the midnight bell,
I may look back upon the day
And have no deep regrets to tell.

HORSE SENSE FROM NIETZSCHE

By GLENN FRANK
President of University of Wisconsin and Former Editor of the Century Magazine

Each day this week I am dipping into the books of some author who is not the darling of the best-seller audience, but who does not deserve to be monopolized by the high-brows, and setting down sample cuttings from his books as a bait to lure readers who still know him only as a name.

Today I turn to Henrik Johan Ibsen, and record these readable entries of sound sense and insight:

"Friends are a costly luxury; when a man has invested his entire capital in a calling or mission he cannot afford to keep them. The costliness of keeping friends does not lie in what one does for them, but in what, out of regard for them, one refrains from doing."

The man who has sought to hew to the line in politics or in journalism will realize the biting truth of this seemingly harsh saying about friends.

"The ignorant can never adjust themselves to the unaccustomed."

"One should never put on one's best clothes when one goes out to fight for liberty and truth."

And here is one of those powerfully stated half-truths that we need to ponder as we watch the tendencies of American democracy:

"It's a lie that truth belongs to the majority! What kind of truths to the majority rally round? They are truths so old that they are positively decrepit with age! When a truth is hoary with years it is in a fair way to become a lie. A normally constituted truth will live, say, about seventeen to eighteen, at the very outside twenty years, seldom longer.

"The majority is never right. Never, I say. That is one of society's lies against which a free, thoughtful man must rebel. Who are they that make up the majority in a country? Are they the wise men or the foolish?

"My fundamental principle in every field and domain of thought is that the minority are always in the right."

Obviously this cannot be taken literally, but just now, when America is facing the danger that Alexis de Tocqueville foresaw, the danger of the tyranny of the majority, we may well ponder Ibsen's glorification of the minority.

"I tell you no man has a right to enjoy until he has proved himself strong enough to abstain from all enjoyment. Yes, he should not touch pleasure even with his finger-tips before he has learnt to trample it under foot."

As a starter read his "Ghosts" in which this occurs:

"I almost believe we are all of us ghosts! It is not only what we have inherited from our father and mother that haunts us. It is all sorts of old, dead ideas, all kinds of old, dead beliefs, and so forth. They have no life, yet they cleave to us, and we cannot shake ourselves free of them—and then we are all so pitifully afraid of the dark."

SAVING the PIECES

(Expressions from other publications appearing in this column are chosen for the information they give on subjects of interest. They do not necessarily reflect the editorial viewpoint of The Times.)

Those 90,000 lariats which the government has ordered sold at auction must be surplus stock from the Black Hills vacation.—Detroit News.

A murder was committed every 40 minutes in the United States last year. Even at that, it's pretty hard for most of us to get used to it.—Akron Beacon Journal.

If they announced that Jack Dempsey was dead and showed us the actual burial certificate, we suppose we'd still have a lingering suspicion that it was just part of the ballyhoo.—Ohio State Journal.

Civilization and the Specialist.

Will the cathedral of St. John the Divine and the Pennsylvania station be all of New York that will remain to posterity? We moderns take pride in our civilization, having advanced farther in a single century than our forebears did in 2000 years, but what will posterity know of our achievements? Our accomplishments in art, science and literature may vanish forever, for they are recorded only on paper—most fragile of materials. We move upon the surface of an earth covered with dead civilization, and all that is left to us are a few monuments of unconquerable stone. Why should we expect to escape this unalterable rule which permits life to develop only on tombs of its ancestors?

Technical progress, in and of itself, is not enough to preserve civilization. The machines by which we get our living must be controlled by specialists and technicians. On the day when these specialists have disappeared, the day when we no longer know how to repair these machines, they will be no more than so much iron. Our means of destruction are still more highly developed, still more efficacious, than our means of construction. The war has given us overpowering proofs of that.

Civilization exhausts itself, destroys itself day by day. It requires a ceaseless stream of new inventions to keep going, and there is some reason to ask whether the resources of our soil and the fertility of our wits are adequate to insure a constantly new supply of the materials we consume in a quantity which grows greater every day. Think, for example, of oil. The authorities assert that within less than 20 years the subsoil of the United States will be exhausted. If our engineers do not devise some sensational invention what will become of our internal combustion engines then? One shudders to think of civilization's resulting relapse.—William Martin in the Forum.

There was a Scotchman, of course. He was terrible annoyed when his latest heir turned out to be twins, but he kinda settled down to be resigned about it when he heard the office force was going to make him a present of something.

So they had quite a celebration, and presented Sandy with a big

silver loving cup, just to sort of celebrate him as the father of these here twins.

Sandy made a speech, too, and he says, "Now I'm verra glad, my lads, that this cup has two handles, since it's only one cup for the two bairns. They'll both get their oats out of it somehow. But I notice that it's inscribed with a big blank space, like they do the golf cups, and I'm trustin' ye that ye'll nae require this cup to be won three times to become the property of the winner."

VOICE OF THE PEOPLE

SAYS MR. WARMUTH IS BLIND TO BENEFITS OF PROHIBITION

Editor of The Times:

In a letter to your paper, published Sunday, a Mr. John Warmuth earnestly asks if there has been any helpful results to society resulting from prohibition, "the moribund child of fanatics and intolerants."

A blind man sat beside a road one day in Judea. Being blind, Mr. Warmuth, he could not see. I make this point slowly that your self-confessed bewilderment may not increase—. He could not see because he was blind. In the same book that speaks of the blind man the statement is made, "Hearing ye shall hear, and shall not understand; and seeing ye shall see, and shall not perceive." Matt. 13:14. There is a reason they cannot hear and see. It is found in the succeeding verse: "For my people's heart is waxed gross, and their ears are dull of hearing, and their eyes they have closed; lest at any time they should see with their eyes, and hear with their ears, and should understand with their heart, and be converted."

May I ask you, Mr. Warmuth, do you really want to see the results of prohibition?

In your well written and carefully studied letter you deplored "that an association of gospel messengers should delve into politics." Mr. James Ferguson and Mr. Joseph Weldon Bailey have regretted that for a good many years. It may have been overlooked in the labor of writing your letter, as it has been overlooked by advocates of the open saloon with its ruin of broken homes, hungry children, squalor, filthiness and vice, that the prohibition cause is first and foremost a moral question, and any preacher worthy of his salt will stamp every crawling snake of drunkenness, debauchery and vice that raises itself as a moral issue. If that is entering politics, Mr. Warmuth, you will find preachers in politics.

In closing your letter you state that you are not in favor of the pre-war saloons. Are you in favor of post-war saloons? You also state, "For every saloon closed you see 10 boys carrying a flask on their hips." I do not know where your figures were gotten, but for 10 who carry flasks now, before prohibition a hundred carried pay envelopes to the saloon keeper. I am willing to accept your percentage.

Your letter published in The Times was published word for word in the morning paper, but signed by another name. Was that a typographical error or a strange coincidence?

Thanking The Times for this courtesy,

PATRICK D. MORELAND.

GOREE MAN SUGGESTS PLAN FOR TEXAS DRY DEMOCRATS

Editor The Times:

I am not a politician. I've never held office. I've never aspired to shape the political affairs of my own county, let alone my own state. I am onl yan old farmer, on the shady side of 45. But I've watched politics for some time, and my judgment is that the way things are shaping, Al Smith is going to be the Democratic nominee and Texas is going to give its electoral votes for him.

Texas don't want to support Al Smith. It don't want him for president. But the men who have led Texas politics don't seem to know what to do about it. Almost anyone, I presume, will concede that the overwhelming majority of Texas is politically dry, and I know the prohibition forces of Texas don't want Al Smith for the party nominee. But the dry forces of Texas are beinf maneuvered into a place where Texas will cast its vote for Al Smith in the national convention. If you don't think so, remember that just a few years ago politics in Texas got in a shape where Texas took Jim Ferguson, through Ma, in spite of the fact that Texas prohibitionists were in the majority and that Texas prohibitionists did not want Jim.

And if Al Smith is nominated, he will be elected president. He will carry the big cities of the nation because he is wet, and down here in the South most of the prohibitionists will stay at home on election day and the antis will give Al the electoral votes of the southern states.

James H. Gerard, erthwhile ambassador to Turkey, in Mr. Wilson's administration, said the other day that the only obstacle in Al Smith's road to the presidency was the fact that Al was a Catholic. Joe Bailey, in a speech in Oklahoma, said practically the same thing. I do not believe that the statement is true. I hope it is not. But I do believe that unless the prohibition forces of Texas can convince the people of Texas and the nation, by some concrete evidence, by some unanswerable argument, that they are not against Al because he is a Catholic, the Texas delegation will eventually vote for him in the national convention and Hexas will eventually give him her votes in the electoral college. Religious intolerance is not a good thing to win with, even in Texas.

Now I am not not a Catholic. Neither am I in the accepted sense a prohibitionist. But I want the Democratic party to nominate a dry, because I want to see the South and West make a try at uniting politically like they did under Mr. Wilson, and only a dry can unite the South and the West. I don't want the northeastern Democrats to have control of the important committees in congress. I'm a free trader theoretically, but I don't believe in a tariff for revenue only, with its incidental protection on manufactured goods for the North and East and free raw materials for the South and West. I can dimly remember Mr. Cleveland's administration. He was a New York Democrat.

I don't want Al Smith for the nominee, and so I am going to have the tenerity to offer a program for the drys to follow in Texas, in the precinct, county, state and nation conventions.

Here it is: Instruct for Thomas B. Walsh of Montana for president, and Dan Moody for vice president. Favor the McMastney resolution for a tariff plank. Be benedry. But let the principal plank, the plank we step on the hardest, be, "Throw the rascals out; they've got Harry Daugherty and Insull's brand on them."

Walsh will make a great leader on that kind of a platform. He is the one who proved they were rascals. Dan Moody needs no recommendation on that kind of platform. He has already demonstrated what he can do.

Then we can go into the national convention and the national campaign absolutely clear of the charge that we are religiously intolerant and klan-ridden, for Walsh is a Catholic, as well as a prohibitionist.

Then we can compromise if best, and have some chance to make a good bargain. Or if Al Smith is the nominee, we can even bolt with a dandy good chance to win.

Besides, Walsh deserves to be president. He is competent, and he has served and can serve well his party and his nation.

J. ROSS BATES, Goree, Texas.

COWART GIVES REASONS OPPOSING MANAGER PLAN

Editor the Times:

The question of the managerial form of city government is plausible on its face and would be an ideal form of government if it could be put into effect and handled as a private corporation is handled, but, there is so much difference between a private corporation and a city that it seems to me that there are no comparisons to be made in their management; a man qualified to direct the affairs of a private corporation might not be in any sense of the word qualified to handle the affairs of a public corporation run for the benefit of the general public.

A private corporation is run for profit and gain only and without taking into consideration whether or not it would suit the wishes of the public, and some times at a great expenditure of money and by taking advantage of the general public; you take a cold blooded banker or a public service corporation who has successfully fleeced the general public and acquired a vast fortune by shrewd manipulation and oppression of the general public as is so often done throughout our country, would not be a suitable man to place at the head of a city to run and manipulate its affairs.

A city is like unto one big family struggling for to better its condition and our commissioners are its guardian, and should be men that are honest, sympathetic and charitable, ever looking about for the welfare of the city, and the people at large are the only ones that are qualified to select such men; it is not so with the big private corporations, they are looking for men that take advantage of every opportunity to make money for their corporation just so long as they can escape and defeat the laws and stay out of the penitentiary their salaries are raised and they are applauded by the directors of such corporations; you don't have to take my word for it, but read the newspapers and find out for yourself, and I believe that you will agree with me that it is dangerous to concentrate too much power in any one man or body of men and when you adopt the manager form of city rule you are departing from that sacred principle of letting the people rule.

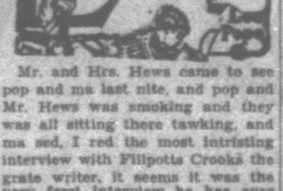

Well, some will say that we elect the commissioners and they appoint the manager of the city and they have the right to discharge him at any time he does not suit them, but you see that amendment to the charter says the manager shall have full power of the affairs of the city and in order for the commissioners to get rid of him they would have to prefer charges against him and give him a public hearing and it would be very difficult to discharge him after he assumed power over the city; and by the amendments offered to the charter only men of large affairs could afford to take the job of commissioner of the city, and that is dangerous as you well know we are human and prone to yield to selfish motives and thereby use their power and influence over a manager of the city to further their own interest instead of the public; my plan of city management is to elect five commissioners and make each one of them manager over their respective departments and pay them a salary sufficient for them to give their entire time and attention to their duties just as a one-man manager would have to do, and as there are five departments to be looked after and managed, we need five managers, and in my opinion if this was done we would get results and value received for our tax money.

Don't get in your head that one man knows it all, it is better to have five heads than one when it becomes necessary to consider just how millions of dollars should be spent for the best interest of the city.

Divide the city into five districts and elect a commissioner from each district and let the whole city be represented. How could a manager handle five separate departments without delegating some of his power to subordinates? So, if we have commissionérs and they give their entire time and attention to the duties of their office we can expect to see economy practiced and satisfaction guaranteed to the people.

Yours respectfully, J. O. Cowart.

Your Boy and Your Girl

By ARTHUR DEAN, SC. D.
The Parent Counsellor

Dr. Dean will answer all signed letters pertaining to parents' problems with their boys and girls. Writers' names are never printed. Only questions of general interest answered in the column, but all letters will be answered by mail if written in ink and a stamped, self-addressed envelope is enclosed. Address Arthur Dean, in care of this paper.

Self-Analysis

Can a person honestly examine himself? Isn't he prejudiced in his own favor? "Am I honest" I ask myself. "Surely," comes the response. "Am I full of initiative?" "You just bet," is the pat I give myself. "Am I painstaking?" "That's my middle name," rolls off my tongue. "Am I really a liar?" I should say: "not intentionally, but every one over-estimates his good qualities and understates his inferior ones."

Under certain conditions self-analysis has definite value. "Do I read the newspaper?" Your answer truthfully might be "Yes." The value of such a question is quite negligible and the answer even less so. But, add to this question: "Make a list on a piece of paper, without looking up back editions, of those items which have interested you in the past two weeks and then you actually test the value of reading a newspaper."

Again, "Am I aggressive?" "Surely," you say and then you stop. But just how are you aggressive? If you, as a boy, were looking for a job in an office would you have the nerve to take down the sign "Boy Wanted" and walk up to the boss with it. And when he said: "Whatayoudoingwithat," reply "You won't need it up after you hire me." Or if your girl threw you down would you pout and eat fuzzy green worms? Or would you rebait and cast again?

Through the courtesy of this newspaper the column offers you any one of the following analysis charts. Draw a circle around the number which appeals to you as a mother or a daughter, a father or a son. Clip and enclose with S. A. S. E.

1. "Self-Analysis" with reference to school work and your vocational outlook. This analysis chart is useful to the boy or girl who sits on the fence dividing his known past from his or her unknown futures. It shows how to score one's personal qualities and to analyze present and possible achievements and situations.

2. "Parental Analysis of Child."—With this anaylsis chart a parent can make an analysis of his child's temperament, school attainments, hobbies, physical and mental conditions. It asks no offensive questions which might call forth the comment: "It's none of your business."

3. "Your Desirable Characteristics."—What are they? What are your social characteristics? Are you sociable or snobbish? Full of affection? What are your physical characteristics? Grace of figure? Impressive, impassive or dull? Voice? Working characteristics? Cooperative, procrastinating, persistent?

The information you give on any one of these analytical charts is confidentially treated. My word for that.

OUR CONVERSATION CORNER.

Wataru.

I am a junior at high school and have fallen desperately in love with a girl one semester ahead of me. I have no car to take a girl to amusements and no money. How can I show her my love? I feel jealous when I see her talking to some other boy. Should I forget her?—SEVENTEEN (11B).

Answer: If you are letting the lack of four wheels and five dollars stand in the way of using your wits, you had better drop her. Remember Wataru is speaking and not Watyougot. It is possible you have nothing to offer except some things outside of yourself?

But What Can We Do?

The youngster is six and restless as any healthy youngster who has to be cooped up all day in a school room. Naturally he has to have some outlet for his energy. When he breaks loose in school he is kept after hours for punishment. It this right?—PROTESTING MOTHER.

Answer: When a teacher has 35 or 40 youngsters who must "cover the course of study" in a given length of time, she has little time to devote to meeting the individual idiosyncrasies of her pupils. Therefore if one of them breaks through the traditional proceedure the simplest thing to do is "Stay after school." And there he stays until the teacher feels as though she would like to go home and then calls him up to the desk saying, "Now memember to be a nice boy tomorrow, or I will keep you after school again."

Some people seem to think the whole blooming school system is wrong. They say: "Children are all alike, all normal ones are restless, they are growing very fast in ways other than physical, the years around six are very impressionable and individual needs are great." Yet we tie them in cells called "desks," teach them to write with their finer muscles when their whole desire is to use the larger ones, have them study about birds when they desire to go out and catch them, discuss maps of rivers when they would like to play in them, and so on.

But there is no use kicking, we can't do any better until we have still smaller classes, less school room machinery and study moretho results of experiments now being made in education.

But in defense of the present school may I say there isn't a school superintendent in America who has the price of a ticket to the great N. E. A. meeting in Boston this month who isn't just as much alive to the weakness of the "system" as are his critics.

EARTHQUAKE DISTURBANCE JAPANESE NATIONAL ELCTION

TOKYO, Feb. 21. (AP)—Ballot boxes throughout the empire were opened today, but the result of yesterday's general election is not expected to be made public until Thursday.

The only disturbance during the election was an earthquake centering at Yonago in the Shiman province. This caused confusion at the polling places and stopped clocks. People ran from their homes. No casualties were reported.

Mahanay's Cafeteria to Open With Formal Reception Tuesday Evening Following Its Complete Remodeling

Mahanay's cafeteria, 717 Eighth street, will reopen with a formal reception from 7:30 to 9:30 o'clock Tuesday evening, preceding the resumption of business Wednesday morning, according to an announcement by W. E. Mahanay, owner of the concern.

The cafeteria has been closed three months because of a fire which practically destroyed the Stringer and Robertson building in which the business was located.

Guests of the cafeteria at the reception will find the new place much superior to the former cafeteria. The new plant is equipped with the latest cafeteria equipment and has a Nu-air electric ventilation system. Transoms and other lighting arrangements will provide pure fresh air and light.

The kitchen and dining rooms are finished with the very best of new equipment. The dining room is attractively arranged. A white tile effect, with dark woodwork, has been used to good advantage throughout the cafeteria.

Seating capacity of the cafeteria is 110 persons; 36 on the balcony and 74 on the main floor. The balcony floor spaces are 6 by 64 feet and 8 by 25 feet. The main floor space is 25 by 97 feet.

Mr. Mahanay has been in the cafeteria business in Wichita Falls for three years, but he has had considerable experience in the business before the establishment of his cafeteria here.

Trinket Given Martha Washington by George In 1759 Owned Here

Lady Martha Washington, first "first lady" of America, has been noted all through the score of years for her daintiness and beauty, and there has been an essence of romance and charm in the very mention of her name. Everyone has thrilled at the story of Washington's courtship of the young widow, Martha Custis, and even Rupert Hughes, in his attempt to tear down some of the traditions of virtue that have surrounded Washington, admitted that Madame Martha Custis Washington was beautiful and interesting.

A bit of jewelry that testifies to the dainty-spick-and-spanness of Martha Washington is in the possession of a Wichitan, Mrs. E. C. Hall, 1201 Burnett, through a relationship to the wife of the first president. A tiny gold ring, made for Martha Washington's little finger, with a slender gold chain attaching a sort of sugar-tongs arrangement, is rather puzzling at first, but its usefulness is soon explained. The sugar-tongs part of the contraption opens up to catch the corner of a pretty handkerchief, then closes again, by means of a slide, and holds the handkerchief there—in other words, it is an old-fashioned handkerchief holder.

Inside the ring is the inscription "George to Martha Custis 1759." George and Martha were married in January, 1759, so the handkerchief holder may have been a betrothal gift or a wedding gift.

Only one glance at the picture of Lady Washington and at the dainty little handkerchief holder is sufficient to justify the statement that the handkerchiefs held in that piece of jewelry were not the brilliantly colored, gaudy, bandanna type that every flapper possesses today—nothing but a lacy, white bit of daintiness would be consistent with what we know about Martha Washington and what we can see from examining the valuable trinket.

Mrs. Hall's great great grandmother was the aunt of Martha Washington, and it was through this line of the family that the jewelry was passed down to Mrs. Hall.

FIVE WICHITA TEACHERS LEAVE WEDNESDAY FOR N. E. A. MEET IN BOSTON

A number of teachers in the Wichita Falls public school will leave Wednesday for the annual convention of the department of superintendence of the National Education association, which will be held in Boston, Mass., according to Dr. J. W. Cantwell, superintendent of schools here.

Dr. Cantwell, Miss Kate Burgess, principal at Ben Franklin; Miss Bess Stewart, principal at Austin; Miss Esther Berry, principal at Huey, and W. E. Walker, principal at Travis will go to the Boston conference, leaving here Wednesday and joining the Texas special train at Dallas.

A number of educational features, including a few hours in New York and a trip to Niagara Falls have been planned for entertainment.

MAYOR SHEPHERD WILL GIVE ALL COUNCILMEN DINNER SATURDAY EVE

Members of the Wichita Falls city council, City Clerk W. E. McBroom and City Attorney Thelbert Martin will be guests of Mayor and Mrs. R. E. Shepherd at a dinner at 6 o'clock Saturday afternoon. The dinner will be at the home of Mayor and Mrs. Shepherd, 1650 Pearl.

All members of the council have notified the mayor that they will be present.

HIGH SCHOOL GIRL AT BRENHAM SHOOTS SELF CONDITION IS SERIOUS

BRENHAM, Texas, Feb. 21. (AP)—Sixteen-year-old Dolores Felchak, high school student, who was found mysteriously shot in her parked automobile near here Monday has only a small chance of recovery, Brenham hospital attendants said Tuesday as physicians prepared to make an X-ray examination of the wound in her left temple.

Sheriff H. L. Reese said he had abandoned all theories of the shooting except attempted suicide. The girl was found in the car three miles from here on the Burton highway, a pistol lying near her. She had bought it here Monday at a hardware store. Her mother thought she was in school. No one could account for the shooting.

The girl is the daughter of Pete W. Felchak, Chappel Hill farmer. She was a freshman in Brenham High school and had been driving back and forth to school.

FOUR TEAMS DRAW UNLUCKY PLACES IN DISTRICT PAIRINGS

COYOTES AND ELECTRA CLASH IN FIRST GAME OF TOURNEY; NINE GAMES IN ALL SLATED

Wichita Falls, Electra, Petrolia and Woodson High schools came out "through the little end" of the drawings for first round pairings in the district interscholastic league basket ball tournament to be played at the junior college Friday and Saturday. Each of these four teams must win four games to walk off with district honors, while the remaining six entries face only three games to cop top honors.

The Coyotes and Electra drew a decidedly tough pairing in that they must meet in the first round; in fact, in the very first game of the tournament, at 9 o'clock Friday morning. Each team is considered a strong contender for the district title, so one of the leading teams of the ten in the scramble will be eliminated before the tourney is fairly well under way.

Drawings were made by B. M. Dinsmore of Electra, district athletic director; S. H. Rider, Wichita Falls principal, and H. R. Wilson, former district judge.

Climax Early.

For many the Electra-Wichita Falls skirmish will be the big game of the tournament, though it is the first, for these schools are rivals of long standing and a victory for either will be little less cherished than a district championship.

The Tigers won the Wichita county title last week in the tournament on their home court by winning close games from Iowa Park in the final and Clara in the semi-final. Coach Walker has built his team around the sterling scoring qualities of Sylvan Cloninger, center, and Hall, forward, and the defensive ability of Captain Brown.

The conference of district officials Monday resulted in a decision to play all but one game the first day of the tournament, leaving only the final for Saturday. Nine games will be required to determine the championship, eight of which will be played Friday, six in the morning and afternoon and the semi-finals Friday evening.

Complete Schedule.

Monday's drawings resulted in the following schedule:

Friday: Game No. 1—Wichita Falls vs. Electra.
No. 2—Petrolia vs. Woodson.
No. 3—Harrold vs. Megargel.
No. 4—Olney vs. Seymour.
No. 5—Nocona vs. No. 1 winner.
No. 6—Jacksboro vs. No. 2 winner.

Friday night: Game No. 7—Winners of games Nos. 3 and 4.
No. 8—Winners of games Nos. 4 and 6.

Saturday night: Game No. 9—Winners of games Nos. 7 and 8.

To reach the final round Wichita Falls, Electra, Petrolia and Woodson will be faced with winning three games Friday, while Harrold, Megargel, Olney, Seymour, Nocona and Jacksboro can advance to the title round by winning two games, a decided advantage for the latter six teams.

Real Bargain.

Seekers of basket ball bargains may look no further than the district tournament. The scale of prices announced Tuesday by Principal Rider places season student tickets on sale at 50 cents and for others $1. Purchasers of these tickets are entitled to attendance at all nine games. Single game admittance will be 25 cents, except Saturday night for the final when a 50-cent admission will be in force. Season tickets will be on sale at the junior college during the tournament.

Coach Bud McCallum said Tuesday his team was ready for the tournament to start and in as good condition as could be expected. While the Coyotes are among the favorites to win, the team hardly has rated an outstanding position on its practice game record. Electra, Harrold, Olney and Megargel all are considered strong candidates for the crown, while Jacksboro and Woodson are rated as "dark horses."

Mantell Again Winner After Uphill Battle

Waters is Aggressor in Deciding Fall, But Dutch Pulls Through; Henry Beats Meyers.

By LOUIS T. HAMLETT

Dutch Mantell of Amarillo, 147 pounds, took two falls out of three from Teddy Waters of Childress, 151 pounds, at The Gym Monday night and once again proved his uncanny ability to turn victory into defeat when to win seemed impossible.

Dutch won the first fall in 18 minutes with a jack-knife hold. Teddy downed Mantell in four minutes with a series of headlocks for the second fall.

Dutch launched a vicious attack when the two men came back to the ring but Teddy took the lead away from him and punished Mantell with scissors, toeholds and headlocks.

Consecutive headlocks finally had the Dutchman so groggy that he was unable to pull his old stall of staggering into the corner and then kicking an opponent out.

With one final burst of energy Dutch punched Waters in the stomach while the latter was applying a headlock and Teddy dropped to the mat an easy victim. The fall required 20 minutes.

Dutch Henry, home and weight unknown, took two falls out of three from Lee Meyers of Houston, 153 pounds.

Meyers forced Henry to concede the first fall in 20 minutes with a Japanese toehold. The referee disqualified Meyers and gave the second fall to Henry after three minutes of wrestling when Lee applied the third consecutive strangle hold.

Henry was apparently beaten for the third fall when Meyers waxed careless and Dutch put on a reverse double armlock and pinned Lee to the mat after six minutes of wrestling.

TEXAS SCRAPPER IN MATCH WITH WALKER

SAN FRANCISCO, Feb. 21. (AP)—Mickey Walker, middleweight boxing champion, and Jack Willis of Texas will meet here Wednesday in a ten-round non-title fight.

Both fighters announced themselves as in the best of condition after a light limbering up process Monday.

The odds are heavily in favor of Walker, despite the fact that Willis' friends pointed out that he has never been knocked out and that he carries a heavy punch in either hand.

SOONERS HAVE CHANCE TO SEW UP CAGE TITLE

KANSAS CITY, Feb. 21. (AP)—Oklahoma Tuesday night has a chance to capture the valley basket ball title—provided the Sooners beat the Oklahoma Aggies and Kansas avenges a recent trimming at the hands of Missouri.

The undefeated Sooners were favored to win from the Oklahoma Aggies at Stillwater, but Missouri claimed the advantage of the home court in addition to a 39 to 22 victory over Kansas this season. Oklahoma recently beat the Aggies, 41 to 21.

FORT CLARK ELIMINATES AUSTIN CIVILIAN TEAM

SAN ANTONIO, Feb. 21. (AP)—Fort Clark eliminated the strong Austin polo team from the annual Southwestern polo tournament here Monday, beating the riders from the state capital 12 to 11, while Camp Wood was defeating the ninth infantry, 11 to 8.

The Austin team spotted the Fort Clark riders nine goals and all but made up this handicap. Austin is rated at 15 goals and Fort Clark 11.

Camp Wood played under a four-goal disadvantage.

EAGLES FORCED TO BOW TO EAST TEXAS QUINT

DENTON, Texas, Feb. 21. (AP)—For the first time in the history of the two schools, the North Texas State Teachers college Eagles of Denton bowed in defeat to the East Texas State Teachers college Lions of Commerce, in a basket ball game here Monday night, 30 to 29. The Eagles led, 15 to 10, at the half, but Gardner, Lion guard, with three long shots from near mid-court, put his side ahead at the beginning of the second half.

EASTERN ENTRIES WIN.

OAKLAND, Calif., Feb. 21. (AP)—Eastern entries fared well at the Oakland national horse show Monday night. Among the winners was Mrs. Loula Long Combs of Kansas City, who took first honors in the event for single harness horses with Ovation.

Lewis Wins Decisively Over Nebraska Scissors Expert

OUT OF KEELER'S GOLF BAG

A DOUBLE HAZARD

Written Exclusively for the Associated Press.

By O. B. KEELER

Mr. P. G. Hanahan, of the Atlanta Athletic club, is a square and determined-looking golfer, and his looks do not in any particular belie him. Mr. Hanahan took up the elusive game of golf at—well, call it forty-odd years of age. And in an astoundingly few seasons he became good enough to reach the finals of the Atlanta city championship with no less a personage than Perry Adair.

Mr. Hanahan gave Perry a hard battle, too, for more than half the match at East Lake, and while he ended as runner-up, he won the respect and admiration of a big gallery, and in particular he captured, and retained, from this correspondent a genuine esteem based on a golfing incident that I shall always regard as nothing less than heroic.

Even Through Morning

Playing with his short, compact swing, Mr. Hanahan had held the famous Perry Adair on even terms all through the morning round of a 36-hole match, and the gallery for the afternoon round was hastily augmented by a number of fans who had heard that the "old man" was giving the great Perry a tremendous battle and had a good chance of beating him.

For the first few holes in the afternoon the chance remained, but it was fading. Perry, as game a golfer as ever stepped in a hob-nailed shoe, was too good for the gallant old boy who took up the game when his son was at the zenith. His steady, accurate game gradually began to beat down the man who had come up so far in so short a time. The erstwhile "boy wonder" of Dixie simply was too good for him.

But "P. G." stuck to his guns. He was still sticking to them at the long ninth hole, with a second shot—a brassie—across an arm of the lake. And in the gallery was Mr. Hanahan's family, including his wife and an offspring of about four years, with his negro nurse.

Mr. Hanahan had outdriven Perry slightly from the tee and Perry had laced a perfect wood shot across the lake, up to the front of the green. Mr. Hanahan, now a couple down, stood up to his own shot with care and great deliberation.

On the hillside, the gallery held its composite breath. And out of the gallery, escaping his nurse—toddled a tiny figure in rompers—the Hanahan youngster—and assumed a position in the most damaging place possible, some fifteen yards directly behind the ball and in line with the shot.

Intent upon the play, Hanahan, pere, concentrated with all his power waggled; waggled again; waggled yet again; looked at the green, some 250 yards away; waggled one more time; swung—and topped the ball cleanly and decisively into the lake.

Out of a sepulchral silence emerged a small, thin, and excessively penetrating voice:

"Oh, Daddy," it said, "it went right in the water!"

And P. G. Hanahan said:

"I know it, Son!"

And that was all he said, and he said it kindly, and gently.

Now, I maintain there are greater things in golf than championships.

BIG TEN CAGE LEADERS CONTINUE WINNING PACE

CHICAGO, Feb. 21. (AP)—Purdue and Wisconsin, the two front runners in the Big Ten basket ball race, kept their strides even Monday night by respective victories over Michigan and Iowa. Purdue, on her own floor, walloped the Wolverines, 55-53, one of the most conclusive scores of the year, while Wisconsin at Iowa scored a 31-21 victory.

The tie for top lace, however, will be broken before the week is ended, inasmuch as the two leaders meet each other twice—Thursday at Wisconsin and Saturday at Purdue.

TEXAS TECH SMOTHERS BUFFALOES BY 39-29

LUBBOCK, Texas, Feb. 21. (AP)—Meeting the heralded offensive of the T. I. A. A. cage race leaders with a superior defense and following up with a dazzling offensive of their own, the Texas Tech Matadors defeated West Texas State Teachers college, 39 to 29.

Of the bell bulls of the Buffalo five, Lowes, Crump and Hale, only the first named managed to give a plausible scoring account of himself, counting five of his team's 10 goals made from the floor.

Captain Al Jennings of Tech led in scoring with 19 points.

Frank Lockhart Gets Up to 200 Miles in Trial

White's 36-Cylinder Machine Goes Above 253, But Slight Accident Spoils Test.

DAYTONA BEACH, Fla., Feb. 21. (AP)—Possessed of a new mark to shoot at, automobile racing drivers here Tuesday had redoubled their energies toward surpassing all previous speeds at which four-wheeled vehicles have traveled along the ground.

Frank Lockhart of Indianapolis and J. M. White of Philadelphia were seeking the proper combination of motor temperament and beach condition which would permit them to challenge the new time of 206.956 miles an hour set Sunday by Malcolm Campbell of London in his monster Napier "Blue Bird Special."

Lockhart spun his comparatively tiny Stutz "Blackhawk Special" over the sands against the wind Monday at an officially timed rate of 200.22246 miles per hour, but did not make the return trip, which would have made his an official try for the record. A trip in each direction over the mile course, for an average speed, constitutes an official mile.

Ray Keech likewise unlimbered the gigantic 36-cylinder machine belonging to White Monday, but was forced from an official attempt by a minor accident which resulted in slight injuries to Keech. White said Monday night the machine attained a speed of "more than 253 miles an hour" during its run, but that its average over one way of the charted mile was cut to 186 miles per hour by the motor trouble, which sent a spray of live steam flying back over the pilot.

White's machine is at present under the ban of the American Automobile association because it is not equipped with a clutch or reverse gear and its attempts will not be officially recognized until it has been made to conform to that body's standards.

Campbell is not expected to make an immediate assault on his own record until one or the other of the drivers now here betters his mark. Campbell's record supplanted the former high speed of 203.6 miles per hour attained last year by Major H. O. D. Segrave, also of England.

REYNOLDS WINS WHILE GRIP AND YAQUI LOSE IN LOUISVILLE BOUTS

LOUISVILLE, Ky., Feb. 21. (AP)—Jack Reynolds, claimant of the world's welterweight wrestling championship, defeated Bert Willard, Fort Worth, Texas, challenger in straight falls here Monday night. Reynolds won the first fall in 50 minutes with a headlock and took the second fall in 40 minutes with a slam. A crowd of 4,000 persons witnessed the match.

In a semi-final match Charley Grip of New York lost to Gus Kallio of Columbus in two falls out of three.

Bobby Chick, Waco, Texas, took two falls out of three from Joe Parelli of New York and Johnny Carlin of Huntington, W. Va., defeated Yaqui Joe, Sonora, Mexico, in a one fall preliminary.

NEW SPRINT STAR IS UNCOVERED IN UNSUNG HOLY CROSS ATHLETE

NEW YORK, Feb. 21. (AP)—Unheralded and unsung, J. F. Quinn of Holy Cross college, has sprinted into the forefront of America's dash men.

Competing against a crack field in the special 60-yard sprint at the New York A. C. games Monday night, Quinn captured his heat in record-equalling time, won the semi-final and final.

Arrayed against the Holy Cross star were Al Miller of the Boston A. A., Karl Wildermuth, Georgetown, Roland Locke, of the University of Nebraska, Folwell Scull, of the University of Pennsylvania, Jackson Scholz of the New York A. C., Frank Hussey of the same club and Quinn's teammate, Jimmy Daley.

After clearing 13 feet six inches to win the pole vault, Sabin Carr of Yale failed in three attempts to clear 13 feet 10 inches, a fraction above his own world's indoor record.

Lloyd Hahn, competing against a mediocre field, won the Baxter mile under wraps in the comparatively slow time of 4 minutes, 21 4-5 seconds.

TRACK ATHLETES IN PHILADELPHIA MEET

PHILADELPHIA, Feb. 21. (AP)—A host of America's speediest steppers will launch a four-hour drive on indoor track and field records at the thirteenth annual Meadowbrook club meet here Tuesday night. More than 500 athletes are entered.

Topping the list of brilliant performers on the cinder path and tanbark track are Lloyd Hahn, America's star middle distance runner, and Ray Conger, Illinois Athletic club flash.

Hahn is programmed to show his stuff in the Overton mile event and he believes he has a good chance to set a new indoor record. The record over the boards is 4:12, held jointly by Paavo Nurmi and Joie Ray.

STECHER ON DEFENSE ALL WAY SELDOM THREATENING IN BOUT DREARY FROM START TO FINISH

By CHARLES W. DUNKLEY
Associated Press Sports Writer

ST. LOUIS, Feb. 21. (AP)—Ed "Strangler" Lewis of Kansas City, reigns Tuesday as undisputed champion of the wrestling world.

By defeating Joe Stecher of Dodge, Neb., claimant of the title, in a three-fall match at the Coliseum Monday night, Lewis ended the quarrel that has existed between them for seven years; since the time the "Strangler" defeated Stecher in New York in 1920.

Lewis won the first fall after more than two hours of dreary wrestling, pinning Stecher's shoulders to the mat with a bar arm, half Nelson and scissors hold on the arm, in 2:16:32. He captured the third and deciding fall in 12 minutes 50 seconds with a bar arm, or perhaps a double wrist lock. Nobody was clear on the exact hold, because of the excitement in the dramatically sudden finish.

Stecher Wins Second.

Stecher won the second fall in a dizzy maze of quick action, lasting only 56 seconds. Lewis, in a moment of carelessness, fell victim to a double wristlock and was pinned in such astonishingly quick time that he was dumbfounded.

In winning the second fall, Stecher, who had only lost two matches in 14 years previous to Monday night's defeat, showed the only flash of aggressiveness that he displayed during the entire contest. He was outgamed, outmaneuvered, outtricked and outwrestled. Lewis, although past the 35-year-old mark, carried the battle to Stecher from the start. He displayed superwrestling ability, trickiness and courage. He won fairly and decisively, never leaving a doubt as to the outcome after the men had been on their feet for an hour.

The contest was dull and dreary to all concerned. It was dreary for Promoter Tom Packs because the gate receipts failed to come up to his expectations. The attendance was around 5,000 with the receipts, according to Packs, around $50,000—perhaps $60,000. The prices of $5 to $25 for a ticket was the barrier to more customers.

Dreary for All.

For the spectators the match was disappointing because it lacked thrills of the usual wrestling exhibition. There were no trick falls—no wild exciting moments. Both Stecher and Lewis, cool and collected, wrestling cautiously, were "leveling" this time, neither taking any chances to produce a situation that would entertain the spectators. They were "shooting" Monday night, which in the language of the wrestling world means that they were taking no chances and giving their best. Wrestling men from all over the country, the boys with the thick necks and cauliflower ears sat at the ringside viewing the spectacle of two wrestlers in an honest effort.

From a wrestling standpoint in the matter of holds exhibited, science and thought displayed, Lewis is entitled to the laurels. Stecher gave no evidence of being in the match except defensively. His famous scissors hold was not employed once to an advantage and was attempted only twice during the contest. Lewis made attempts to clamp on his famous headlocks, and succeeded in punishing Stecher with them.

It was the second and third falls which gave the crowd its only thrills of the match which did not end until nearly 1:30 o'clock Tuesday morning. The second fall came after a 20 minute rest and the men had hardly started to wrestle when it was all over. Stecher grabbed Lewis by the left arm with both hands clamping on a deadly double wristlock. He carried Lewis to the floor, sprawling all over him, and awkwardly forcing him to the mat.

Unexpected Finish.

The third fall came unexpectedly and without warning, but when Lewis is forcing the issue. He vainly tried to clamp on a few headlocks, then switched his attack to the arms and upset Stecher with a bar arm or a double wristlock. He viciously applied the leverage while Stecher, seeking to escape, moved his body to the edge of the ring and tangled his feet in the ropes. Harry S. Sharpe, the referee, was lying flat on his stomach on the canvas, watching for Stecher's shoulders to touch the mat. He did not hear the yells from Tony Stecher, brother of the Nebraska wrestler, calling upon Sharpe to order the men to the center of the ring. When convinced that Stecher's shoulder blades were on the canvas, Sharpe patted Lewis on the shoulders, signifying him as the winner.

Billy Sandow, manager of Lewis, when the last fall became history, rushed over the ropes and yelled:

"Don't say that Lewis regained his title! Say that he retained it! You know he never lost it!"

Sandow referred to the fact that Lewis three years ago wrestled Wayne Munn in Kansas City when Munn tossed the Strangler out of the ring, and claimed the championship. Sandow maintained that Munn was guilty of a foul and should never have been declared the winner. Lewis subsequently defeated him but only after the veteran Stanislaus Zbyszko had pinned Munn's shoulders in Philadelphia.

Lewis was jubilant over his victory. His admirers gave him a tremendous ovation. He promised to wrestle any outstanding contender at any time suitable inducements were offered.

VAN WIE AND ORCUTT DIVIDE MEDAL HONORS

PALM BEACH, Fla., Feb. 21. (AP) Installed as favorites before the tournament opened, Miss Virginia Van Wie of Chicago and Miss Maureen Orcutt of Englewood, N. J., justified the faith of their backers by dividing medalist honors in the Florida women's championship now under way, with a brace of 77's.

Only one stroke behind this pair was Mrs. O. S. Hill, Kansas City, with 78.

Baseball Fever Hits In Big League Camps

Giant Players Begin Showing Up Ahead of Schedule; Shocker Reaffirms His Retirement; Braves, Hornsby and All, at Work

NEW YORK, Feb. 21. (AP)—The baseball fever is breaking out into an epidemic with the Giants, news from the training camp at Hot Springs, Ark., Tuesday indicating that players from various sections of the country are reporting for practice ahead of schedule.

Mel Ott couldn't wait for the Giants to advance on the regular training grounds at Augusta, so he joined the batterymen at Hot Springs. George Harper and Travis Jackson also have put in appearance and Jackson formally accepted the captaincy of the club, offered by Manager McGraw.

The pitchers worked out between showers Monday with McGraw on the sidelines.

Shocker Through

OKMULGEE, Okla., Feb. 21. (AP)—Urban Shocker, veteran pitcher of the champion New York Yankees, declared here Monday night that he has quit baseball for good and is considering taking up aviation, in confirming the announcement he sent officials of his club last week.

Shocker is a flying enthusiast, and intends to enter a flying school, he said. He is here with his wife visiting friends and taking a rest.

Koenig Signs Up

NEW YORK, Feb. 21. (AP)—Mark Koenig, shortstop of the New York Yankees, has signed a two-year contract with the world's champions.

Waite Hoyt, pitcher for the Yanks, is still a holdout although he is training at Hot Springs. At the present time he is paying his own way.

Hogan Speaks

NEW YORK, Feb. 21. (AP)—Frank Hogan, the big song and dance man of the New York Giants, is running up against opposition in Jack Levy, recruit pitcher John McGraw is trying out at Hot Springs.

McGraw told the ponderous catcher to tell the pitchers anything he wanted Monday.

"Make yourself at home and tell the pitchers about their failings," the master mind advised.

"I'd like to tell that guy Levy a few things that are wrong with him," Hogan muttered.

"Go ahead, why don't you?" came back McGraw.

"Oh, it isn't about his pitching, though," Hogan answered. "It's about that fiddling he does."

Braves at Work

BOSTON, Feb. 21. (AP)—Rogers Hornsby and other Braves have started training at St. Petersburg, Fla. Batterymen monopolized most of Monday's practice.

Practically the only member of the club now considered to be a holdout is Luke Urban, who recently returned his contract with a plea for more salary.

Vance Still Out.

NEW YORK, Feb. 21. (AP)—Dazzy Vance, the speed ball king, is still at odds over the salary arrangements offered by the Brooklyn Robins, dispatches from Wilbert Robinson's rendezvous at Dover Hall, Ga., disclose.

With five days left for the batterymen to report at Clearwater, Fla., it was reported Robbie had made an offer of $18,500 to induce Dazzy to come to terms.

Vance wants $20,000 per annum and a contract of two years. In view of the recent procedure of the Robins in distributing one year contracts to players, Vance's case has created speculation.

New Ruling

CHICAGO, Feb. 21. (AP)—American league umpires meeting with President Barnard last week, adopted a ruling permitting base runners to advance only one base when a player fails into the grandstand or dug out with a foul fly in his hands. The case arose in the New York-Philadelphia memorial day game last year, and the umpires then decided to let one base runner score and the other advance to third. Under the new rule made public today neither player could have scored.

Philadelphia protested that both runners should have scored but President Ban Johnson upheld his umpires. The Yankees eventually won the game in the eleventh inning.

Browns Trade Pitchers

MILWAUKEE, Wis., Feb. 21. (AP) Ed Strelecki, pitcher obtained by the Milwaukee American association club from Lincoln, Neb., via Brooklyn in the trade which sent Harry Riconda from Milwaukee to the National league club has been traded to the St. Louis Americans for Win Ballou, also a pitcher, it was announced Tuesday.

STRONG FINISH WINS FOR TRINITY BENGALS

WAXAHACHIE, Texas, Feb. 21. (AP)—Two goals in quick succession by Hill and Elms saved the bacon for Trinity university here Monday, giving the Tigers a 32 to 29 victory over the Simmons university cagers. Trinity led, 20 to 13, at the half, but subsequently fell behind the Cowboys.

Elms and Binnion of the Tigers were tied for point honors with 12 each. Smith's work at guard for Simmons stood out.

ROCHESTER LOSES.

ROCHESTER, Texas, Feb. 20.—The Rochester grammar school quint was defeated by the O'Brien team in a close game played here Friday afternoon, the score being 9 to 8.

Pelicans Again Loom Strong in Southern Chase

Spudders' Dixie Series Victims Bank on Newcomers Taking Places of Departed Stars.

NEW ORLEANS, Feb. 21. (AP)—With a majority of his veterans ready for another season of campaigning and a wealth of new material available to recruit from, Manager Larry Gilbert of the New Orleans Pelicans is optimistic over prospects of his 1927 pennant winners making it three flags in a row. Gilbert has three pennants to his credit one in 1923, his first year, as pilot, and others in 1926 and 1927.

The Pels have until the latter part of April to trim to the allotted number of players from 31 candidates. They are faced with that perpetual bane of bolstering batteries to take turns with returning old timers.

"Daring Dave" Danforth, called by many the mystery ball artist; "Oyster Joe" Martina and Bennie Karr, veterans, are expected to share the bulk of the pitching burden. The most likely looking candidates to become their assistants are Carl Yowell, southpaw from Cleveland; Eddie Williams of Elmira, N. Y., and Slim Caraway of the Rock Island, Ill., club.

Veterans of the infield returning to the club this year include Wilbur Davis, first sacker, whose batting average of .379 topped the circuit, and Ray Gardner at short. Then in the outer works, Joe Wyatt and Sam Vick will be back.

A cheering note recently came to the Pelicans in the announcement that Ollie Tucker will return to his old position in the outfield after a year with Washington.

Then too, while Gilbert has been directing mostly from the bench of late, his 15 years of baseball experience with the Braves, Kansas City and here serve him in good stead.

Candidates for positions on the team include among others: Turlich, a New Orleans semi-pro player; Cessres, outfield; Morris, pitcher; Miner, outfielder; Akers, infielder; Padgett, infielder; Segrist, third baseman; Eichrodt, outfielder; Murray, infielder; Osborne, pitcher; Wuerstling, infielder; Shuman, pitcher; Caldwell, catcher; Powers, outfielder; Mitchell, catcher; Murphy, catcher. Aside from two or three of these having had college playing experience and a couple coming from Cleveland, the others were secured from various minor leagues.

PORKERS EASY WINNERS OVER AGGIES, 42 TO 18

COLLEGE STATION, Texas, Feb. 21. (AP)—Playing in championship form again, Coach Francis Schmidt's Arkansas Razorbacks clinched their hold on their third successive Southwest conference basket ball title by defeating the Texas Aggies, 42 to 18, here Monday night.

ABILENE CHRISTIANS CRUSH BILLIES' HOPES

BROWNWOOD, Texas, Feb. 21. (AP) Abilene Christian college all but smashed Daniel Baker's hopes for a T. I. A. A. championship here Monday night by defeating the Billies, 43 to 41. Hendricks' goal in the last minute of play gave the Abilene team their first victory over the Billies in several seasons.

Miller for Daniel Baker was high scorer with 23 points.

THALIA WINS CROWN IN FOARD COUNTY TOURNEY

CROWELL, Texas, Feb. 21.—Thalia High school won the Foard county championship by defeating Crowell, 13 to 12, in an extra period basket ball game at Crowell. The game was by far the best that has been played in the Crowell gymnasium this season and ended with the score tied 10 and 10, but in an extra five minute period, Mason of Thalia scored both a field and foul goal as the result of a play in which he was personally fouled at the time he made a field goal, to overcome the lead that Crowell gained in the extra period.

MEXICO CITY SILENT AFTER ARREST CATHOLIC PRELATES

MEXICO CITY, Feb. 21. (AP)—The bishop of Tamaulipas and three other persons, including a priest, were under arrest today. The charges against them were somewhat of a mystery, because of official silence.

(Continued on page 2)

The championship title among clubowners of the minor leagues goes to Alexander Julius Caesar Heinemann, colorful little Jewish man, whose New Orleans clubs have won many championships and have never finished out of the first division in his long rein at the Pelican helm. All of which comment is occasioned by a glance at the New Orleans roster and a realization that if Heinemann's team doesn't win the Southern league pennant this year, it is not likely to lose its enviable record of never having finished below fourth.

The Pelicans were badly trounced by the Spudders in the Dixie series, but we can't hold that against them, and it is a well known fact that the Southern champs of 1927 were a much better team than Dixie series scores would lead one to believe. The Pels lost quite a few cogs from their winning machine of last year, but Heinemann has lost no time in gathering replacements. The outstanding additions to the team are Ollie Tucker and Fred Eichrodt, outfielders obtained from Cleveland, and Ernie Padgett, National league infielder.

The Pelicans lost their two outstanding performers, Eddie Morgan and Pinky Whitney. To take Morgan's place the club has both Tucker and Eichrodt, and this pair, along with Sam Vick, makes up a nifty outfield. Eichrodt was in this league with Shreveport for awhile a few years back, but he has developed since then and had quite a neat record in the majors. Tucker will be at home in the Southern league, where he was a leading swatter for several seasons.

If the Pelicans should happen to manage for the return of Whitney, the club will have undoubtedly one of the greatest infields in the minor leagues. Wilbur Davis at first, Padgett at Second, Gardner at short and Whitney at third would form a powerful quartet. Art Ewoldt, who alternated at second with Murray last year, has been disposed of. The Pels also have Kal Segrist, a well known veteran of the Texas league, for infield duty, and he'll probably be at third in place of Whitney. In the Dixie series Whitney looked like a big leaguer and Spudder fans may well be expecting him to stick in the majors.

The Pels haven't done so much in a pitching way, but they will. Heinemann long has been noted for his enthusiasm for winning pitchers. His clubs seldom have been weak in this department. He has Danforth, Martina and Karr of his big winners of last year and it may be taken for granted that he'll have some help for this trio before the season is far along. Listed among the Pel pitchers is Pat Caraway, southpaw youngster whom the Spudders brought out of the sticks two years ago and later released. It seems that Caraway has developed considerably since his short stay here, and is listed as a bright prospect to make the Pelicans a winner.

The Spudder roster continues to grow. Prexy J. Alvin Gardner is signing up rookies so speedily it is fast to keep track of them. At 9:43 o'clock Tuesday morning the roster included 43 names. By the time this is read, the total may be up to 50 or so. Monday the prexy announced the signing of a rookie battery, Arthur Galeria is a southpay flinger from the California sandlots, whom Milt Steengrafe is bringing in. Bill Nelson is a catcher from the Panhandle. He played with Shamrock and Wellington last season and was signed on his own recommendation.

Beginning Thursday of next week when the training grind opens at Athletic park, athletes are going to be pouring out of camp almost as speedily as they come in. With 43 men scheduled to report, it may be taken for granted that quite a few are going to get the pink slip before they have their feet well planted under the training camp table. Disappointments await most of these semi-pros and amateurs who have signed Spudder contracts, for the squad is so big that

Clothiers and Guards to Meet Tuesday Night

Opening Contest Is Feature Event Of Commercial League Cage Program.

The opening game of Tuesday night's Commercial league cage program at the junior college will provide the feature of the evening, if the dope runs true to form. Hub clothiers and national guardsmen are scheduled in this contest and it promises to be a real battle. The guards have won their first two games in the second half titular scramble, while Hub is sailing along on a 50-50 basis, having won one game and lost one.

The clothiers still have their eyes on the second half title, according to Captain Gibson McLarry, and are out to stop the guards Tuesday night. Curly Walkup, the guards' forward and leading scorer in the entire league, presents the biggest problem for the clothiers. If they can quiet Walkup's scoring, they will have an excellent chance of winning.

Landon-Hill company-Texas Electric Service company, the other undefeated second half leader and champs of first half play, should have easy sailing against Draughon Business college. However, the business college boys have taken on new strength with the addition of Moore, a heavy scoring forward who made his first appearance of the season last week.

The third game on the card matches Continental Oil company and Wichita Falls Junior college. On past results the Conocos are heavy favorites, but the Indians may prove capable of springing an upset.

The first game starts at 7 o'clock.

Skipper Carl Williams is going to have to keep 'em moving out to make room for the incoming line.

There's no doubt about the kind of wrestling that fandom wants. Joe Stecher and Ed Lewis scrapped at St. Louis Monday night (and Tuesday morning) and reports indicate there was never a more serious match. But it wasn't the kind that went over with the customers. The fans were not satisfied. They ought to come to Wichita Falls. Alec Ross' boys would give 'em some real entertainment. There's no doubt but that your average wrestling fan wants the side play more than wrestling. Alec's boys are well versed in it.

$500,000 Fire Loss

FREEPORT, Ill., Feb. 21. (AP)—An explosion in the basement of a clothing store early today caused a fire which destroyed four large business buildings in the heart of the city with an estimated loss of $500,000.

20 Years Ago TODAY

From the Files of THE WICHITA DAILY TIMES

February 21, 1908

Track laying was begun on the Henrietta Southwestern railway on Wednesday morning, the tools having finally arrived after long delays. The ties and steel rails are here and arriving to carry the work forward as fast as a strong force of men can put it through, and the Little Wichita valley will soon be ornamented by the parallel rails and hear the roar of the iron horse. Engine No. 1 arrived yesterday to assist in the work, and is a good machine. Jerry Johnson, experienced and capable, has gotten busy as foreman of Section No. 1—and Henrietta's southwestern suburbs is making a noise like a new railroad. —Henrietta Review.

The following officers were elected in the organization meeting of the Wichita Falls lodge No. 1105 B. P. O. E.: C. W. Bean exalted ruler; H. M. Hughes, esteemed lecturing knight; W. J. Bullock, esteemed loyal knight; A. Marcus, esteemed leading knight; W. A. Reid, secretary; V. E. Stampfli, tiler; T. B. Noble, W. M. McGregor and N. Henderson, trustees.

SEYMOUR MAN DIES AS RESULT OF INJURIES HE SUSTAINED LAST FRIDAY

SEYMOUR, Feb. 21.—J. A. Daniel, 60, died Sunday morning in the local hospital from injuries sustained last Friday when an automobile truck backed into him on North Washington street while he was standing in front of a building undergoing repairs. The truck, which was loaded with sand knocked him to the sidewalk, breaking several ribs and an arm and causing internal injuries.

Funeral services were held from the First Christian church here Monday afternoon, Rev. I. H. Teal, officiating. His wife and a son, C. M. Daniel survive.

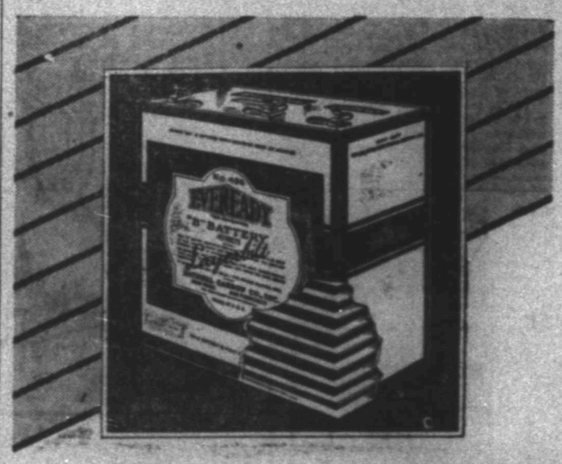

EIGHT PERSONS DROWNED AS TRAWLER, STEAMER COLLIDE

GRIMSBY, England, Feb. 21. (AP) Eight persons were drowned when the trawler Petunia collided with the steamer Ylva in the North sea yesterday. The trawler sank within a few minutes. The crew took a life boat which capsized and only one of them was saved.

RADIO IS BETTER WITH *BATTERY* POWER

This is the patented Eveready Layerbilt, the unique "B" battery that contains no waste spaces or materials between the cells. No other battery is made like it.

Layer construction produces more current

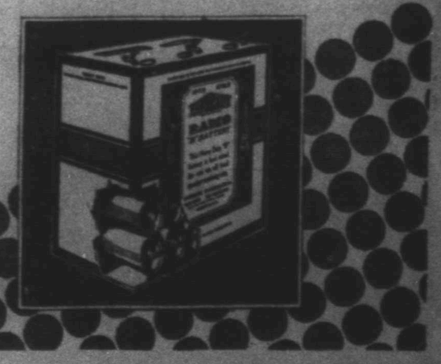

THE Eveready Layerbilt "B" Battery No. 486 has proved that flat dry cells are more efficient than cylindrical cells. In "B" batteries made up of cylindrical cells there are large holes between the cells—no matter how closely they are packed. Usually these waste spaces are filled with pitch or other substances to prevent the cells from moving with a possible breakage of the connecting wires. Not only are these holes eliminated from the Eveready Layerbilt, but from a given amount of active materials the flat cells produce more current—and this power is pure Direct Current, the kind that is silent, uniform and hum-free. Radio engineers and scientists know that Battery Power, Direct Current, is the only form of electricity that enables a radio set to receive programs at their best. For that kind of reception, for true battery economy and satisfaction use the Eveready Layerbilt on all loud-speaker sets.

EXPECT ANNUAL BAR DINNER TO DRAW HEAVILY

With the election of new officers to be the principal matter of business, preparations are going forward for the annual banquet at the Wichita club here Saturday night of the Wichita County Bar association. The meeting will be called to order by W. E. Fitzgerald, president, at 7:30 o'clock.

Indications are, it was announced that it will be the most largely attended annual banquet in the history of the local association. Members of the bar associations of nearby counties have been invited to attend, and responses indicate that all will be represented.

Milburn E. Nutt and Walter Nelson Jr., members of the program committee, announced Tuesday that a varied program of unusual excellence will be provided. The principal speakers will be the Hon. Claude Pollard, attorney general, and Judge James C. Wilson of Fort Worth, of the federal court of the northern district of Texas. Their presence will attach more than ordinary importance to the program, it was explained.

In addition, there will also be a musical program, members of the committee announced.

Youths Accused Of Forgery Get Suspended Terms

Two youths, one 18 and the other 19 years of age, escaped with suspended sentences when they pleaded guilty in the 78th district court Tuesday to charges of forgery.

Each declared he had violated the law in the effort to obtain money with which to relieve the distress of penniless relatives. Each was given a two-year sentence.

The evidence against one consisted of several fragments of paper pieced and pasted together so as to complete a check for $30 he is alleged to have attempted to pass at a local department store. Arrested some time after he offered the check, he was said by officers to have led them to a laundry chute in which the fragments were found. He was seeking money, he said, with which to buy food for the family of a brother who was in the hospital.

The other admitted that he passed a check for $21 to obtain money to be sent to his mother, who, he said, was sick in Kansas.

FUNERAL W. E. LINDSEY TO BE HELD WEDNESDAY

Funeral services for W. E. Lindsey, 56, local plumber, who died from a heart attack while working in a house at 311 Lake street Monday morning, will be held from the Hines mortuary chapel at 3:30 o'clock Wednesday afternoon, with Dr. Nat F. Grafton, pastor of the First Presbyterian church, officiating. Burial will be in Rosemont.

FRENCH MERCHANT DIES AT HOME IN PARIS, FRANCE

PARIS, Feb. 21. (AP)—Theodore Ernest Cognacq, probably the wealthiest merchant in France as well as the most picturesque, is dead at the age of 89.

With his wife he founded a department store many years ago in the Samaritaine department and built up an enormous fortune. Before the war this reached at least $120,000,000 and has become even larger since then.

Washington Essay Contest Arranged By McElreath Co.

An essay contest having for its subject "The Life of George Washington" and open to any local high school student, will be held in conjunction with the special all-day celebration of Washington's birthday to be held February 22 in the show rooms of the McElreath Motor company, Oakland all-American six and Pontiac six dealers, at 609 Scott street, according to Mr. McElreath, manager of the company.

"We are undertaking this contest with the approval of the principals of the local high schools," said Mr. McElreath. "We believe that controversies concerning recent biographies of Washington have made it more important than ever that our young people should form an accurate appraisal for themselves of the life and character of George Washington—our greatest American—and his rightful place in our history.

"Judges of the contest will be announced later, and the winners of the contest, upon whom they will decide, will be given a cash prize of $15 to first and $5 for second. The essays are to be limited to not more than 1500 words, and may deal with any phase of the life or work of America's first president.

"Due to the time necessary to examine and appraise the essays, it is necessary that they be submitted not later than March 1. It will be necessary for entrants in the contest to call at our sales rooms on Washington's birthday, during our special celebration, for full information on details of the contest. The awarding of the prize will be made as soon as possible after decision has been reached by the judges."

"WORLD-WIDE MISSION FIELD" DISCUSSED BY DR. WALTER J. JOHNSON

Dr. Walter J. Johnson, presiding elder of the Wichita district, was the principal speaker Monday evening at the "Missionary Cultivation Week" program at the Floral Heights Methodist church. Dr. Johnson spoke on the world-wide mission field and some of the present tasks in regards to mission work.

Mrs. R. J. Claypool led a round table discussion, during which short talks were made by W. E. Wilson, Milton Johnson and Judge P. A. Martin.

R. E. Schoolfield entertained with several harmonica solos and R. D. Ford sang two solos. A play period following the program was led by Lester Jones, and refreshments were served by the Woman's Missionary society.

Walter S. Curlee will speak Tuesday evening on "America Preparing for Its Responsibility," at 7:30 o'clock. Mrs. Austin F. Leach will lead the round table discussion and Mrs. S. A. Barnes will direct the play period. Refreshments will be served by the Wesley Girls class.

NATIONAL RECREATIONAL REPRESENTATIVE TO BE IN WICHITA FALLS SOON

John Martin of New York, representative of the National Recreational association of America, will be in Wichita Falls on Thursday, Friday and Saturday of this week in the interest of local recreational work, it was announced Tuesday by C. C. Bunnenberg, superintendent of the city park department.

While in this city Mr. Martin expects to confer with teachers and officials of the local school system and Boy Scout and Camp Fire Girl officials and workers.

TAX COLLECTIONS INDICATE BETTER BUSINESS IN CITY

If a good collection of taxes means good business conditions, then conditions are much better at present than at the corresponding time in 1927, according to W. R. Hyer, Wichita Falls city tax assessor and collector.

Through February 19 a total of $458,017.22 of the city's 1927 current tax roll had been collected. This represents an increase of $89,043.46 over the amount that had been collected on the 1926 roll at the corresponding time last February.

The city's 1927 current roll totals $702,325.54 which means that 65 per cent of the amount has now been collected. The 1926 current tax roll for the city was $586,300.78.

Mr. Hyer believes that collections are better this year than last because of two principal reasons. One is that the roll for 1927 is larger than for 1926 and the other is that the taxpayers have more money this year with which to pay their city taxes.

New Officers to Be Elected by L.O.B.B. Tuesday

Officers will be elected, delegates to the grand lodge chosen and candidates initiated at the monthly meeting of Noah lodge No. 784, I. O. B. B., in the basement of Temple Israel at 7:30 o'clock Tuesday evening, it was announced Tuesday by Rabbi S. J. Schwab, president. As this meeting is particularly important, all members are urged to attend.

Optimists Plan For Annual Martha And George Party

Optimists and Opti-Misses of Wichita Falls are preparing for their annual "Martha and George" party, which is to be given this year at the Woman's Forum Thursday evening at 7:30. Tom Glass, chairman; E. L. Boulow, Jim C. Hanks and Py Pyland, the entertainment committee for the Optimists, have arranged for a dinner, program, dancing, bridge and other games and all kinds of entertainment for the occasion.

District Governor Bert King will be master of ceremonies, and the Rev. Alvin F. White will deliver the invocation. B. D. Sartin, president of the club, will welcome the visitors, and a response will be given by one of the visitors. A number are expected to come from the Fort Worth club.

The "Black Girls" will add some spice to the program with their "Cracks at the Crowd," directed by Py Pyland. Mayor R. E. Shepherd will sing, accompanied by Mrs. Shepherd. Jimmie Allred is scheduled for some kind of mysterious political speech, which is to be dedicated to Judge B. D. Sartin. Joel MacGregor will sing some Scotch songs, with Mrs. MacGregor at the piano. The program will end with a play, "Beau Nash" (Dar'cy McKay,) which will be directed by Mrs. Nydia J. Young. Parts in the play will be taken by J. D. Donovan, S. H. Willis and Mrs. J. Truman Stevens.

Dancing will follow the program, and bridge and other games will be played in the dining room. Music will be furnished by Gordon Shay's orchestra.

GENEVA, Switzerland, Feb. 20. (AP)—Soviet Russia, which recently proposed the complete abolishment of armament, today deposited the text of a draft disarmament convention with the League of Nations.

PATTON SUGGESTS ONE YEAR'S TRIAL CITY MANAGER PLAN

A suggestion that the city manager plan be given a year's trial, without amending the charter at this time, and then submitted to the voters, is offered by J. H. Patton, former city commissioner, now a candidate for public utilities commissioner, in a letter to The Times.

Mr. Patton states that he will vote against the city-manager amendment to the charter at the April election, but that he would support the manager if the appointment of one is authorized. Mr. Patton's letter follows:

To the public:

I appreciate the kind offer of the Daily Times to publish the views of all candidates for city office on the city manager plan. I am a candidate for the office of public utilities commissioner, election April 3. I think every man offering for a public office should publish his standing on all public questions.

I am an old-fashioned Texas Democrat; my motto is, "let the majority rule."

I suggest a solution to the manager plan agitation as follows: That we give the manager plan a trial of one year without making a change in our charter, making it mandatory for the council to employ a manager. If I am correctly informed, the majority of the council favor a manager, and I am sure all candidates for a place on the council will pledge their support to employ a city manager for one year at a reasonable salary of say $500 or $600 a month. Let the present council draw their same salary one more year; after one year's trial, call a mass meeting and see what the taxpayers say about the manager plan, and abide by their decision.

Personally, I shall vote against the amendment of the charter making it mandatory for the council to employ a manager at this time. Since the agitation of the manager plan I have not talked with any man as to his standing on this question. I shall not solicit anyone to vote for or against the manager plan, and I say further that in case the election is ordered and the voters say they favor a manager, that I will gladly submit and support the manager in his administration with all my influence to make it a success, whether I am a member of the council or a private citizen.

I am for the upbuilding of our splendid city. Let the majority rule.

J. H. PATTON.

MISS KATHERINE HENRICLE TO LEAD SESSION CHILD WELFARE MEETING DALLAS

Miss Katherine Henricle, secretary of the Children's Aid society of West Texas, will lead one of the sessions of the southwest regional conference of the child welfare league of America to be held in Dallas Friday and Saturday, according to word received from Dallas Tuesday.

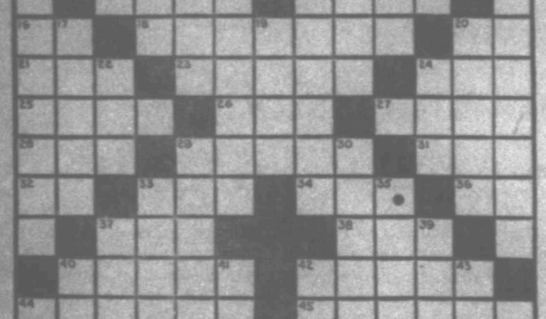

Harry Lee Virden, president of the Texas conference of social welfare, will be chairman of the conference. Other chairmen for the meet besides Miss Henricle are as follows: Mrs. F. W. McAllister of San Antonio; Mrs. Jesse Daniel Amos of Georgetown; Mrs. Katherine Gibson of Little Rock; Miss Gaynell Hawkins of Dallas and Miss Margaret Woodson of Kansas City.

TRASH FIRE TUESDAY CAUSES NO DAMAGE

Firemen were called to Eighth and Bluff streets to extinguish a trash fire about 7:40 o'clock Tuesday morning. No damage was reported by fire department officials.

GEORGE REMUS HAS FIVE ALIENISTS IN HIS BEHALF

LIMA, Ohio, Feb. 21. (AP)—Through five alienists George Remus today sought to establish his sanity in the circuit court of appeals and thus gain release from the Lima state hospital for the criminal insane. He was committed to the institution after his acquittal, on the ground of insanity, of the charge of killing his wife, Imogene, in Cincinnati.

MRS. SLAUGHTER LEAVES MILLION TO CHILDREN

DALLAS, Feb. 21. (AP)—Excepting personal belongings, the major part of an estate valued at more than $1,000,000 was left by Mrs. Carrie Slaughter, widow of the late Col. C. C. Slaughter, who died January 1, to her four children, C. C. Slaughter, Alex A. Slaughter, Mrs. Carrier Slaughter Dean and Mrs. Nellie Slaughter de Loache.

Her will, filed for probate here today named Henry C. Coke and J. W. Slaughter as executors.

COTTON ADVANCES ON FOREIGN NEWS SLIGHT REACTIONS

NEW YORK, Feb. 21. (AP)—Early advances in the cotton market were checked today by heavy realizing and further near months liquidation but offerings were absorbed on setbacks to about yesterday's closing quotations. Trading later was comparatively quiet, with prices steady on renewed covering. Trade buying also was in evidence, accompanied by reports of a steady spot situation. The mid-afternoon market was about net unchanged to 5 points higher.

The market opened steady at an advance of 8 to 14 points on higher Liverpool cables, an advance in the Egyptian market attributed to unfavorable crop reports, and covering and trade or commission house buying.

May contracts sold up to 18.40 and October to 18.26, but the advance was checked at these figures by pre-holiday realizing and a continuation of March liquidation in anticipation of probable notices on Friday. March seemed relatively easy as there was some widening of the differences between months, and this may have had some effect on sentiment. Demand tapered off somewhat and the market showed reactions of 5 or 6 points from the best by the end of the first hour.

Private cables reported continental buying and trade calling in Liverpool owing to an improved spot demand and a scarcity of contracts.

Subsequently there was further switching from March into later deliveries and scattered realizing, which was absorbed by covering or a little trade buying on scale-down orders. Prices worked off to 18.28 for May and 18.17 for October and the market at midday was easier, with prices back to about yesterday's closing quotations.

TRADING EXTREMELY HESITANT ON BONDS AS HOLIDAY NEARS

NEW YORK, Feb. 21. (AP)—Trading in the bond market was extremely hesitant today as commitments were limited, owing to the approach of the holiday. Prices were steady, with a firm undertone, although the few federal government issues changing hands in the early dealings were a shade lower.

High grade domestic corporation issues figured very slightly in the day's transactions. Moderate selling of Pennsylvania Railroad 4s (1965) developed, but the Seaboard issues showed a tendency to rally from their recent weakness. Hudson Coal 5s were accumulated in moderate amounts, and the convertibles gave a better account of themselves than in recent sessions when they were adversely affected by declining stock prices.

Few changes were noted in the foreign group. A few German bonds were slightly higher.

RUSSIAN MARKET HELPS WHEAT PRICE TO HIGHER FIGURES

CHICAGO, Feb. 21. (AP)—All deliveries of corn rose today to the highest prices yet on the present movement, July quotations touching a new top record for the season. Broadening out of demand for corn, together with relative scantiness of offerings was largely responsible for the strength which the market displayed in the late dealings. Speculative bulls appeared to be adding steadily to their holdings and today's trade toward the last was on a big scale.

The wheat firmness reflected a continuation of yesterday's estimate of the news from Russia and this, coupled with weather conditions over the winter wheat belt overcame the fact that Liverpool was slightly lower than due. The initial buying, however, was scattered and offerings increased on each fractional advance. The first noticeable buying put May up to $1.34 where it halted as orders came out.

Corn was easier in the absence of outside inquiries, local trades being in the majority at the start. The volume was moderate and offerings to arrive were not numerous. Prices ranged from ⅛c lower to unchanged.

Oats at the start were unaffected by corn, seeming rather to be inclined to follow wheat.

Provisions reflected the slow hog market, July and May lard starting 2½c lower with September unchanged.

FORT WORTH, Feb. 21. (AP)—A light supply of cattle with a fair demand for most classes with trading about steady featured Wednesday's livestock market.

Slaughter steer values easy on most sales and 15c to 25c lower than last week's quotations. A five-load string sold on a bid of $10.15, another load made $9.75, and some of the best cattle offered Tuesday in the hands of the seller at noon.

The supply of bulls was limited to odd lots that sold about steady. Thin bulls $5.50@6.00, heavier ones $6.00@6.50, more desirable ones in the $7.00 level.

Calf trading was limited to mixed lots with a very small total on hand for the day's trading. Packer buyers paid up to $11.00 for lots of heavy calves and a few veals sold at $12.00. Straight car lots of slaughter calves practically lacking. Stocker calves received steady bids.

Cows active at Monday's advance. A short car of fat cows sold at $8.00, other car lots sold at $7.50 and a five-car lot of cows that carried considerable flesh sold to a stocker buyer at $7.75. Canner cows steady $4.50 to $5.00; cutters $5.00@5.50.

Yearlings and heifers fully steady with a fair supply of the better kind. Top for the day $12.35, other lots in the $11.00 range and others in the $10.00 level.

A very light supply of sheep included for the day. Values considered steady.

Hogs sold steady to 10c lower. Top for the day $8.10. A load of heavy butchers a little under 300 pounds sold at $7.65.

Hogs—1500; market steady to 10c lower; top $8.10 to both rail and truck divisions; bulk good to choice $7.50@8.10; load butchers around 265 pounds $7.65; packing sows and pigs steady; bulk packing sows $6.75@7.00; pigs mostly $6.00@6.50.

Sheep—200; no car lot shipments on sale. Few good wooled slaughter lambs in truck division $14.50; feeders $13.00, strong; other classes nominal.

Sugar and Coffee

NEW YORK, Feb. 21. (AP)—A steadier tone prevailed in the raw sugar market early today and while prices were unchanged at 4.71 for Cuban duty paid, offerings were light. The only sale reported was 21,000 bags of Philippines, due March 10 to an outport refiner at the quoted prices.

Raw sugar futures were irregular during the forenoon session. The market opened unchanged to 1 point higher on covering and a little Cuban buying, influenced by the steady spot market and the favorable London market, but met increased liquidation and trade selling and at one time showed net losses of 2 to 4 points. Shorts covered on the decline due to advices from Cuba stating that notwithstanding the agitation by some producers in the Cienfuegos province to have the restriction lifted, there would be no altering of the decree restricting the present crop to 4,000,000 tons. Rallies followed, with the market at midday net unchanged to 1 point lower.

There were no changes in refined sugar prices which were listed at 5.60 for fine granulated, but a better inquiry was reported.

NEW YORK, Feb. 21. (AP)—Coffee spot firm, demand moderate; Rio No. 7, 15¼; Santos No. 4, 22¼; Rio futures steady; sales 46,000 bags; March 14.85; May 14.25; July 13.95; September 13.66; December 13.48.

Santos futures steady; sales approximated 25,000 bags; March 20.95; May 20.65; July 20.20; September 19.83; December 19.23.

Plane to Bring Okla. Bankers to Convention Here

W. A. Brownlee and F. M. Sowle, vice presidents of the Exchange National bank of Tulsa, and J. F. Matchett, assistant cashier, will come by airplane to Wichita Falls Wednesday to attend the convention of district No. 7 of the Texas Bankers' association, according to a telegram received by the Times Tuesday.

The plane is scheduled to arrive here about noon Wednesday.

SWEATERS AWARDED TO FOOTBALL LETTERMEN OF LOCAL HIGH SCHOOL

"The Significance of the W" was the topic of a speech Tuesday morning by Coach A. Y. "Bud" McCallum, high school athletic director, preliminary to awarding sweaters to the football lettermen for 1927 of the high school, at the regular assembly exercises of the high school and college.

Announcement was made of the Mardi Gras, or French club carnival, which is to be held at the school Monday, February 27, the proceeds going to the Wai-Kun, junior college annual.

Ticklers from Ticker

NEW YORK, Feb. 21. (AP)—Stockholders of Texas Gulf Sulphur Co. have been informed by Walter H. Aldridge, president, that a very large tonnage of sulphur has been proven on Boling Dome by extensive core drilling and it is estimated the life of the company, including reserves in all properties it now controls, at the present rate of more than a million tons annually, will be more than 40 years. Acquisition of the right to new property and its development to date, have been financed from earnings and the new plant probably would be financed in the same way, he stated.

Vulcan Detinning company earned $10.31 a share on the preferred and preferred A stocks in 1927 on which there is an accumulation of unpaid dividends, against $16.47 a share in 1926. Net profit declined to $249,569 from $398,511.

Demand for machinery was fairly active the past week, taking the country as a whole, with sales well distributed over a wide area, American Machinist reports. New England reported increased activity in aircraft engine operations. Buying of tools by the railroads has improved.

Timken Roller Bearing company earned $7.95 a share in 1927 against $7.05 a share in 1926.

Lehigh Coal & Navigation company earned $5.01 a share in 1927 against $7.14 a share the year before.

Net income of Borden company for 1927 was $7,164,445, equal to $10.32 a share, against $6,853,740, or $10.86 a share on a smaller amount of stock outstanding in 1926. In addition to the year's profit, the company reported a gain of $1,591,840 on property and securities sold, and a premium of $625,180 realized from the sale of capital stock, both items being credited to profit and loss surplus, which totaled $20,224,164 on December 31 against $16,357,960 the year before.

Work of reconstruction and reorganization of the field forces of Remington Rand, Inc., is making headway and the situation is more satisfactory than at any time in the fourth quarter of 1927, B. L. Winchell, chairman, stated after a meeting of the board. Net profit for the last quarter of 1927 was $692,742 against $579,949 in the second quarter. Consolidated net profit for the nine months ended December 31, was $2,113,437.

Surplus of the New York, Chicago & St. Louis (Nickel Plate) for January was $154,477 after charges, against $278,812 in January, last year. Net operating income was $570,425 against $464,842.

Ohio Bell Telephone company earned $22.32 a share on the 7 per cent preferred in 1927 with net income of $6,299,588. This compares with $6,131,383 in 1926, or $21.72 a share on the preferred.

The Chicago, Rock Island and Pacific has distributed orders for 50,000 tons of steel rails, 42,500 tons going to Illinois Steel and the rest to Inland Steel.

Iron Age says steel production is holding its recent gains and is perhaps a shade higher than a week ago. In most districts output and shipping orders are virtually on a parity, so that mill backlogs have ceased to expand. Operating schedules of steel corporation plants are unchanged at about 90 per cent of capacity, but some of the independent mills, notably at Youngstown, have increased production. Operations in the Pittsburgh-Youngstown area now average fully 80 per cent compared with 75 per cent at the close of January.

Both of the Iron Age composite prices are unchanged this week. Pig iron remaining for a second week at $17.75 a ton and finished steel for a second week at 2.364 cents a pound. The finished steel composite is almost precisely the same as the 2.367 cents one year ago, but Pig Iron is $1.21 below the $18.96 a year ago.

Grain Pit Notes

CHICAGO, Feb. 21. (AP)—Talk was current among wheat traders that there is a slumbering short interest in March wheat, partly for foreign account and with a fair holding in strong hands some close observers expressed the belief that March would have to advance to a point where grain would be attracted here from other markets to satisfy the demand. Sentiment in regard to the deferred deliveries was rather mixed, but it was noticeable that there was no material pressure even on the advance.

Trade in corn has fallen off somewhat with sentiment still largely in favor of the buying side, especially on the breaks. Commission houses would like to see further reaction in the market in order to reinstate sold out lines.

CURB DOES LIGHTER BUSINESS ON EVE MARKET HOLIDAY

NEW YORK, Feb. 21. (AP)—The volume of business on the curb market today was much smaller than it had been for a long period but this was due to absence of offerings around recently prevailing prices and indicated that the floating supply had been materially depleted at the low levels reached in the past few days. An oversold condition was shown, observers said, in many of the usually active stocks, including those that had sustained the greatest losses in the period of market unsettlement and buying orders for substantial amounts could only be executed at material advances.

There was a special movement in the oil stocks as a group, nearly all those issues making good gains on small dealings. This was due to the advance in Mid-Continent crude ranging from 1 to 16 cents a barrel which was construed in some quarters as foreshadowing a coming advance in gasoline. It also was in line with strength in the London market where oil stocks were strong features because of a belief reported to prevail there that a turn had come in the industry. Venezuela which was under pressure for some days past, rose over 3 points and Prairie Pipe Line advanced 6 points. Prairie Oil and Standard Oil of Indiana were among other especially strong features.

Tubize Artificial Silk continued its upward movement, making a further gain of 6 points, and Sparks Withington rose 2 points in the early trading, continuing an advance that has been in progress for some time.

Utilities were strong, although business was on a small scale in that group. American Gas & Electric moved up over 3 points and Electric Bond and Share rose more than 2 points. United Gas & Improvement, after a sharp advance in the early trading, lost part of its gains.

Deere and company rose nearly 5 points before midday and Firestone, which was one of the recent weak features, recovered 2 points. Bancitaly recovered 2 points and Celanese rallied after an early decline. Newmont Mining had an advance of 3 points.

GRAIN EXPORTS OF U. S. SHOW LARGE INCREASE

WASHINGTON, Feb. 21. (AP)—Grain exports last week from the United States were 2,533,000 bushels against 2,021,000 the previous week. Commerce department figures today gave the following comparisons between last week's exports and those of the week before: Wheat, 193,000 bushels against 730,000; rye, 252,000 against 44,000; oats, 80,000 against 154,000; corn, 1,122,000 against 954,000; barley, 186,000 against 139,000.

STOCK PRICES GIVE SHOW OF STRENGTH IN TRADE VOLUME

NEW YORK, Feb. 21. (AP)—After three days of sharply declining prices, the stock market turned upward today as buying orders poured in for a side variety of stocks. Express shares and a few other specialties developed weakness, but many of the standard rails and industrials moved up 1 to 3 points, with gains twice as large in some of the pool favorites. Trading started at a brisk pace, but had slowed down considerably by early afternoon. The rally was generally characterized as a correction of a temporarily over-sold position.

Call money opened unchanged at 4½ per cent, but dropped to 4 by early afternoon. There was no change in the other monetary accommodations. Receipt of $5,000,000 in Russian soviet gold attracted considerable interest.

The weekly steel trade reviews stated that the industry was holding its recent gains, and that prices remained steady. A downward revision of crude oil prices was reported from the Mid-Continent field, giving further evidence of continued overproduction.

U. S. Steel common and General Motors received good support, but the gains were only nominal. The sharpest advances took place in the high priced industrials and pool specialties. International Business Machines, Dupont, A. M. Byers, Reynolds Tobacco B, Chesepeake & Ohio, Canadian Pacific, Standard Milling, General Railway Signal, Montgomery Ward and Vanadium being among the many issues to sell 3 or more points above yesterday's final quotations.

Weakness of the express shares was believed to represent the tradition "selling on the good news" following publication of reports that banking interests had acquired control, as part of a plan to have those properties taken over by the railroads.

Prices gave an impressive demonstration of strength at the opening of today's market, with trading in large volume. Initial gains of a point or more were recorded by General Motors, Western Maryland, Radio, Freeport, Texas and several others. American Railway Express opened 1⅝ higher at 138⅝, a new high record, on reports that a banking group had acquired control, and Goodyear recorded a similar gain in reflection of a splendid 1927 earnings report.

Buying orders were distributed over a broad list of industrials, with rails taking little part in the forward movement. Accumulation of stocks was influenced by the speculative belief that the reaction had run its course, at least temporarily, and that a rally was justified on technical grounds. "Bear" traders also showed a disposition to cover some of their commitments over the holiday.

Public utilities, motors and non-ferrous metals gave the best demonstrations of group strength. Montana Power quickly soared 7 points on unconfirmed reports that merger negotiations were pending with Electric Bond and Share, tentative plans calling for 2 shares of bond and share for one of Montana Power. Dupont moved up 4 points before the end of the first half hour and Kennecott, Greene Cananea Copper, American Zinc common and preferred, A. M. Byers, Gold Dust and American Express all sold 2 or more points above yesterday's final quotations. Further weakness developed in International Nickel, which sold down 2 points to a new low on the current movement at 78⅛ or 20 points below the year's high. Brooklyn Edison and Interboro Rapid Transit also were conspicuously heavy.

Foreign exchanges opened steady with cables on London ruling around $4.87¾.

Some of the express issues which had been soaring crashed badly, but prices of several other stocks seemed to be making a serious effort to go through the roof. American Express dropped from 194 to 189, and American Railway Express from 138⅝ to 130. Accumulation of Montana Power lifted it 9 points. Greene Cananea Copper got up 6½. Midland Steel Products preferred 6, International Harvester, National Biscuit, Detroit Edison and American Zinc preferred 5, and Gold Dust, Houston Oil, Borden and Calumet and Arizona, 4 to 4½. Chesapeake & Ohio and Canadian Pacific with gains of 3 points or more featured the railroads. The renewal rate for call money was unchanged at 4½ per cent.

The closing was strong. The retreat of the shorts was more precipitate in the final hour, when the advance in many specialties reached spectacular proportions. Standard Plate Glass preferred jumped 12 points, City Stores B 7, and Case Threshing Machine, Cluett Peabody and Warren Brothers 5 or more. Well known stocks like Montgomery Ward, Radio and Cudahy were 4 points or so higher. Total sales approximated 2,000,000 shares.

WICHITAN HONORED NATIONAL SHRINE MEETING PEORIA

Sydney Gaines, ceremonial director of Maskat temple, was reelected a member of the board of directors of the Shrine Directors Association of North America at the annual convention held last Thursday, Friday and Saturday in Peoria, Ill.

Mr. Gaines was elected to a two-year term.

The Maskat temple Shriners who left on Sunday, February 12, for Peoria, and who were headed by Mr. Gaines, returned home Monday afternoon.

Besides Mr. Gaines, others in the party were Ed Tschabold, Claude Williamson and Herman Munden, assistant directors of Maskat temple; Mr. and Mrs. Ed Peterson; Guy Rogers, immediate past potentate, and Albert Ellis, Maskat temple recorder, of this city, and Charles Richardson and George Stinnett of Olney.

The next meeting of the national association will meet next March in Grand Rapids, Mich.

A medicine dropper was used to feed a London baby that weighed only one pound and six ounces at birth.

WILLIAMS MAY JOIN IN REQUEST FOR BANK PROBE

(Special to the Times)

WASHINGTON, Feb. 21.—The proposal to investigate alleged arbitrary methods pursued by the governor of the federal reserve bank at Dallas by the senate committee on banking and currency, called for under resolution introduced by Senator Earl B. Mayfield, may be followed by like action in the house. It is known that Representative Guinn Williams has been making a quiet study to determine what methods should be followed to bring about the thing called for under the Mayfield resolution. Congressman Williams' brother led the fight against Governor Talley at the meeting of member banks in December and Congressman Williams consulted with him when home shortly before the holidays.

It is likely that Congressman Williams will confer with Senator Mayfield with a view of making it a joint resolution so that the investigation, if ordered, may be conducted by members of the banking committee from both senate and house. In the event this is not agreed to the congressman plans to introduce his own resolution in the house at an early date.

Witnesses in Trial Chicago Doctor Claim Intimidation by Defense and Refuse to Give Evidence Before Jury

CHICAGO, Feb. 21. (AP)—An inquiry into charges that witnesses have been intimidated in the murder trial of Dr. Amante Rongetti, was under way today simultaneously with the selection of jurors.

The trial, which opened yesterday, was halted by Judge Comerford long enough to order a thorough investigation.

"I regard this investigation as even more important than the question of the guilt or innocence of the defendant," the court said. "If thuggery is going to be a factor in the administration of criminal justice we might as well close our courts now."

After the noon recess, the prosecution presented evidence to show that Miss Lorraine Irwin, one of the state's principal witnesses, had been approached by Louis Painter, formerly an investigator for the state's attorney's office.

In answer to the court's inquiry, Miss Irwin said: "I'd rather commit perjury and go to jail than to testify against Dr. Rongetti."

Pressed for a reason, she replied, "Just because."

"Have you been intimidated?"

She hesitated, then answered, "Yes." The witness said she had received threatening letters and had been threatened with guns on the street by two men.

Dr. Rongetti is on trial for the deaths of Miss Loretta Enders and her infant child, following an operation last November in a private hospital of which he was proprietor.

Mrs. Angelina Enders Kemp, mother of the girl, yesterday filed the praecipe of a $10,000 damage suit against Dr. Rongetti.

20 RESERVATIONS FOR BANQUET OF RAINBOW DIVISION

Approximately 20 will attend the banquet for veterans of the Rainbow division to be held at the Kemp hotel Wednesday evening at 7 o'clock, according to an announcement by Milton Gaines, sponsor of the affair.

The gathering will be the first here since the armistice of men who served during the world war in the 42nd division. The unit was known as the Rainbow because of the large number of states represented in its ranks. Few divisions saw more active service.

Mr. Gaines asked that any former members of the division who will be able to attend telephone him at the Gaines Motor company, No. 2-1145. If unable to get in touch with him, however, he urges that the veteran be present at the dinner anyhow.

Deliver 12,000 Pounds of Milk Kraft Tuesday

With more than 12,000 pounds of milk delivered to the Kraft cheese plant Tuesday morning, the factory reported the largest day since its opening last week.

A new record was set Monday when 10,200 pounds of milk were brought in and this record was bettered by approximately 2000 pounds Tuesday.

PRODUCTION IN MID-CONTINENT FIELDS INCREASES BY 7522

TULSA, Okla., Feb. 21. (AP)—Daily average of oil production in the mid-continent fields increased 7322 barrels during the week ending February 18, the Oil and Gas Journal will say today. Total daily production for the area for the week was 1,365,513 barrels as against 1,257,091 barrels for the week ending February 11.

The greatest gain was registered in the West Texas field, where the daily production was hiked 10,799 barrels. The West Texas production for the week was 299,250 as against 288,451 for the previous week.

Seminole suffered a slight loss, dropping from 323,695 during the week ending February 11, to 318,740 for last week.

Around Town

W. P. Thurman, employe of the Times, who was seriously injured when struck by an automobile several weeks ago, has been removed to his home at 1513 Tenth street from the Clinic hospital.

H. D. Johnson, formerly of Dallas, has accepted a position as draftsman and estimator with the Texas Lumber company, located at Sixteenth and Lamar avenue, it was announced Tuesday. Mr. Johnson was formerly connected with the Watson Construction company and the Inge Construction company of Dallas. He is prepared to give free advice to anyone having building problems.

J. A. Kemp, president of the City National bank, went to Austin Monday afternoon on a short business trip. He expects to return home Wednesday morning.

Optimists will meet for their regular luncheon at the Grace Methodist church, Seventh and Lamar, instead of at the Kemp hotel as usual Wednesday noon. The Kemp dining room is to be used by the bankers' convention.

Cliftine Butler Leading College Beauty Contest

After trailing Miss Mary Jane Nelson all morning, Cliftine Butler was boosted into first place about 1:30 o'clock Tuesday afternoon in the junior college beauty contest, the leading point of interest at the college right now.

Running a strong race, with evidence of some hitherto unused strength, is Miss Marjorie Hines and Elna Stovall, who led for some time Monday, is now in fourth place.

Possibilities of dark horses in the race were also indicated by those conducting the contest and excitement is running high.

The contest will close at 4 o'clock Wednesday afternoon, and the results will be announced as soon as the votes are counted. The beauty will be featured in a full page photo in the Wai-Kun, junior college annual, which is sponsoring the contest.

Harrison L. Beach

CHICAGO, Feb. 21. (AP)—The body of Harrison L. Beach, former superintendent of the central division of the Associated Press, was buried at Rose Hill cemetery today. Beach died in San Antonio, Texas, last week.

Accompanied by the widow and Major General Lansing H. Beach, retired, Los Angeles, a brother, the body reached Chicago this morning and was taken directly to the cemetery.

Charles F. Cotton.

SAN ANTONIO, Feb. 21. (AP)—Charles F. Cotton, 65, prominent in Texas Masonic circles and secretary of Burleson chapel York Rite Masons died in his office at the temple here Tuesday morning.

Mr. Cotton came in complaining he was sick and soon afterward was found dead in his chair with his feet propped in the window. He had evidently seated himself near the window for fresh air. J. R. Reynolds, custodian of the building was the first to discover him.

Miss Annie H. Martin

CARSON CITY, Nev., Feb. 21. (AP)—Miss Annie H. Martin, 65, superintendent of the United States mint here and a resident of Nevada for 60 years, is dead.

Miss Annie H. Martin

CARSON CITY, Nev., Feb. 21. (AP) Miss Annie H. Martin, 17, superintendent of the United States mint, and resident of this city for the 65 years, died at her home yesterday.

She entered work in the mint as a clerk, finally being promoted to the position of chief assayer and superintendent of the mint in 1918.

She was a woman of boundless energy.

She was a staunch Republican and her appointment to the position as superintendent of the Carson City mint was a tribute to her ability.

MAN NAMED IN GAMING CHARGE FREED BY JURY

J. K. Roach was acquitted early Tuesday afternoon on a charge of operating a gaming table and bank after about two hours deliberation by a jury in the 89th district court. The trial began Monday and went to the jury about 11 o'clock Tuesday morning.

The charge grew out of a raid by deputy sheriffs last August 15 on a room at a local hotel. The state contended and the defense admitted that a dice game was in progress there at the time and that Roach was a participant. The state charged, however, that Roach was one of the operators and bankers of the game, and was supplied with more than $3700 with which to cover all bets.

Roach denied that allegation, however, testifying that he was a participant in the game in exactly the same manner as 13 or 14 other persons who were arrested and fined on the misdemeanor charge of gaming. Four men who said they were in the room at the time of the raid and who paid fines corborated Roach's testimony. The defense contended that if any charge at all was to be filed against Roach, it should have been one of gaming.

Roach was jointly indicted with E. S. Kuhn, against whom a charge still is pending. When the case was called Monday, a severance was demanded and Roach went to trial alone.

MILITARY HONORS TO MARK FUNERAL OF ELECTRA MAN

ELECTRA, Texas, Feb. 21.—Funeral services are to be held Wednesday afternoon at the First Christian church for Joe Hannah, 29, who was accidentally killed, while cleaning a gun at Brownwood, late Monday afternoon. The services will be conducted by the Rev. W. W. Rivers. Burial will be with military honors, with members of the C. C. McDonald post, of which Hannah was a charter member and the Pat Carrigan post of Wichita Falls in charge.

Hannah was a drilling contractor and had been a resident of Electra for many years before going to Brownwood a couple of years ago. He is the son of Mrs. Ada Hannah of North Electra street and also has two sisters, Mrs. Olera Schlemeyer and Mrs. Mary Jordan of this city. His wife, who is the daughter of Mr. and Mrs. T. J. Storey of this city, and an infant daughter also survive.

Mrs. Ada Hannah, Mmes. Schlemeyer and Jordan, Mrs. H. E. Weller, Mrs. J. T. Storey and Mrs. Walter Baggett left immediately for Brownwood upon receipt of the message stating that Hannah had been killed.

Hannah saw service in the air durin gthe world war.

COURT SETS FREE OHIO POLICE CHIEF IN EDITOR'S DEATH

FORMER CANTON OFFICIAL CLEARED AFTER ONCE BEING CONVICTED

STATE'S CASE FIZZLES WHEN WITNESS BALKS

Convict in Ohio Prison Who Was Convicted in Case Refuses To Testify.

LISBON, Ohio, Feb. 21. (AP)—Seramus A. Lengel, former chief of police at Canton, Ohio, once convicted of the murder of Don R. Mellett, Canton editor, today was freed from the charge by a directed verdict in his second trial here.

Judge W. F. Lones sustained a defense motion for a directed verdict after he had previously upheld the defense in its fight against the admission of testimony of Floyd Streitenberger, former Canton detective, given at Lengel's first trial.

The second trial was ordered by the court of appeals.

The state's case against the white-haired former chief collapsed with dramatic suddenness last Thursday when Streitenberger, brought here from Ohio state penitentiary where he is serving a life sentence for his part in the Mellett killing, refused to testify.

He had been expected to repeat the testimony given at the first trial which was credited with Lengel's conviction.

Defying the efforts of Henry W. Harter Jr., Stark county prosecutor, to make him talk and giving non-committal answers when Judge Lones sought to draw out the reasons for his silence, Streitenberger virtually snuffed the life from the state's case.

Harter sought to recover the loss by introducing the record of Streitenberger's testimony at the first trial. It was admitted tentatively over defense objection, but on Friday Judge Lones definitely refused to accept it, after a day of argument.

Harter made a second effort yesterday to have it included in the record, but failed when Judge Lones declined to reverse his first opinion.

The testimony which Judge Lones excluded was in part the basis of the reversal of Lengel's original conviction by the court of appeals. The appellate court held that parts of Streitenberger's testimony linking Lengel with the plot against Mellett were unsubstantiated and wrongfully admitted in evidence.

VERNON MOTHERS' COUNCIL FAVORS PROPOSAL BONDS

(Special to the Times)

VERNON, Texas, Feb. 21.—The newly organized Mothers' council of Vernon went on record at a meeting Monday favoring the bond issues aggregating $410,000 which will be submitted to the voters of the city March 20. The women especially urged the people to vote for the $250,000 school bond issue which is planned to relieve crowded conditions in Vernon schools.

Production figures from the Seminole pool in Oklahoma for the 24 hours ending Monday, February 20, 1928, showed 309,486 barrels, a decrease of 1008 barrels when compared with the previous 24 hours output.

D. O. Johnson No. B-1, located in northeast corner of block 26, Geraldine townsite, and north of the No. 1 well, which is producing 125 barrels, has spudded in and is drilling at 650 feet.

The Mid-Kansas Oil and Gas company is drilling at 600 feet in its No. 1 G. R. Campbell test, located in southeast corner of block 4, Crawford pasture subdivision, north of the A. J. Lowe pool in south Archer county.

The Texas company is drilling at 1035 feet in its No. G-1, J. H. Turbeville in block 88, Jefferson county school lands, an absolute wildcat, about four miles west of the E. L. Smith pool in block 50, S. M. Cowen land in Archer county.

Carl Lydecker No. 1 First National bank tract, located in the McKenzie survey, and about four miles south of Bryson in Jack county, encountered an entirely new pay depth in a sand at 3296-99 feet and is spraying oil estimated at from 80 to 90 barrels accompanied by a gas flow of 1,500,000 cubic feet.

The Vacuum Oil company No. 1 Beckelmen heirs has finally been abandoned in block 17, Fannin county school lands in Cooke county. At 3588-3610 a good show of oil estimated as a 10-barreler was encountered, but after drilling to a total depth of 3960 feet, the hole was abandoned.

Carter and Rycade finished their No. 5 R. W. Cunningham test in the northwest corner of their 40-acre lease out of Norton survey, Montague county as a 50-barreler pumping from the 901-29 foot sand.

Milham company No. C-3, located in the south half of southwest quarter of southeast quarter of section 57, block 4, H. T. C. R. R. survey, W. T. Waggoner lands, Wilbarger county, is a dry hole at a total depth of 2223 feet.

Fain and McGaha No. 1 L. F. Wilson, located in the southeast corner of block 20, Geraldine townsite, and northwest of the Gohlke discovery well, is in a semi-completed condition, and is swabbing at the rate of 125 barrels, with indications of making a 100-barrel pumper when completed. The sand was topped at 1563 feet.

The Nelson Holding company has abandoned its No. 1 Midkiff location in the northeast corner of Salmon Gann survey, abstract 411, Cooke county.

$10,000 HAUL FOR YEGGS WHO RIFLE OKLAHOMA VAULT

HUGO, Okla., Feb. 21. (AP)—Approximately $10,000 was obtained early today by a gang of yeggmen who looted the American National bank at Fort Towson, 20 miles east of here, George Hall, cashier, announced after a check had been made.

Working methodically with an acetylene torch, the men burned the lock off the bank vault and melted the rear wall from a safe which they turned upside down. The loot consisted of approximately $3000 in cash and $7000 in liberty bonds.

Jack Sharp, a restaurant proprietor, was captured by the robbers as he passed the bank at about 2 o'clock this morning and was bound and gagged. He freed himself at 5 o'clock and gave an alarm. Sharp said at least three men were in the party.

DRIVERLESS AUTOS REGULATED BY NEW ORDINANCE OF CITY

An ordinance for the licensing and regulation of "driverless" automobiles, hired or leased to the public for use on the streets of Wichita Falls, was passed on its first reading at the regular weekly meeting of the city council Monday night.

The ordinance provides for an annual license fee of $25 for each car and states that the operators of such "driverless" cars shall post bond sufficient to cover physical disabilities and property damage caused by the autos.

Funds received from the collection of the licenses will be placed in the city's general fund if the ordinance passes upon its final reading.

The council passed an ordinance on its final reading authorizing the refunding of $61,000 worth of city bonds. These bonds were recently sold by the city at a premium and are now on a four and one-half per cent interest rate. Before refunding they were on a five per cent rate.

The council voted to hold a public hearing on the night of March 5 on an ordinance providing for the closing of the "dead" end of Fifteenth street between the east line of Scott avenue and main line of the Wichita Valley railroad.

City Clerk W. E. McBroom was instructed by the council to give an official notice to all owners and operators of curb gasoline pumps in the city that the pumps must be removed by 90 days after January 1. The original time set for such action was 60 days after January 1 but in order that official notice of such removal might be given an extension of 30 days was granted by the council. This action is in accordance with an ordinance passed some time ago.

Two Dodge touring cars for use by the police department were purchased from McFall Brothers at a cost of $1,035 each. The city was allowed $150 on a Hudson touring car and the oldest Dodge car now used by the police.

The council decided not to accept an offer of N. H. Martin for the trading of Rosemont cemetery for the city's 80-acre tract recently purchased for cemetery purposes. Councilmen expressed the belief that the city should retain the ownership of the 80-acre tract, located near Call field, in order that the future demand for such land may be met.

AT THE THEATERS

Majestic Picture With Barthelmess One of Very Best

Greater than "The Big Parade"—filled with dramatic moments and superb acting—and in a setting of wonderful war scenery—that is "The Patent Leather Kid," now running at the Majestic theater.

Richard Barthelmess, as the slugging, East Side, hard-boiled pugilist, has achieved another height in his stardom with his picturization of a slacker who was afraid of bullets and "wished they'd fight this war with gloves" and with his transformation of the coward into a real hero. It was a difficult thing to do—to make "the Kid" all over from a slacker into a hero without making it look like a Horatio Alger novel—but Dick's acting and Rupert Hughes' story made it a work of real art.

Molly O'Day, new to the screen world, is just exactly the type for a "Bowery queen." As hard-boiled as "the Kid" himself, but with a more courageous spirit, she is the main factor in bringing "the Kid" out of his cowardice into real manhood.

The chief feature of the entire show is the intensely dramatic finale—a bit of acting that would make any show a success, and the patriotic trend of the entire show, which one would suppose was worn out by now, with "Barbed Wire," "What Price Glory," and "The Big Parade," is stronger than ever in "The Patent Leather Kid."

Boy's Mania for Flagging Trains Called Insanity

The disclosure that a youth's mania for flagging trains recently resulted in his being adjudged insane and sent to the state hospital here was made Monday when his mother, a wrinkled little woman, attempted unsuccessfully to win his release.

The complaint leading to his being adjudged insane was filed by representatives of a railroad company, according to Wayne Somerville, county attorney.

Despite a brain which, according to the mother, has never been "quite right," the youth had cherished an ambition since childhood to become a railroad man. He was particularly fascinated by the railroad worker who brought a train to a halt at night by swinging a red lantern.

Although denied the opportunity to become a railroad man, he in some manner procured a red lantern. For the next week, railroad officials complained, few night trains passed through the small town where the youth lived without being brought to a stop by his red lantern. His only reason for his action, he would tell the crews of trains he had stopped, was the rather indefinite explanation that he "just wanted to help the railroad men." He was never entirely clear as to how he expected to help by stopping trains, but at the same time, he seemed to regard trainmen as being unappreciative of his efforts.

POLICEMEN'S BALL HERE THURSDAY EVENING WILL CONTINUE FOR SIX HOURS

The six-hour policemen's ball to be staged Thursday evening in honor of visiting officers attending the annual convention of North Texas and Southern Oklahoma peace officers will be held at the Tokyo dance hall, 705 Travis street, it was announced Tuesday by Police Chief Frank Burns.

The ball will start at 9 o'clock Thursday evening and continue until 3 o'clock Friday morning, Chief Burns said.

Thursday will be the opening day of the two-day conference of peace officers.

THORNBERRY WINS MARCH DISTRICT SINGING MEET

The district singing convention met Sunday in the Southside Baptist church of Wichita Falls. Opening choruses were led by W. R. Harper.

Other leaders included W. B. Swatzell, M. J. Magness, M. E. Cox, C. E. Sturdivant and Mrs. Frank Haley of Wichita Falls, B. B. Shaw from Valley View, Okla. and J. S. Gore from Burkburnett.

The pianist, Mrs. M. J. Magness, was ably assisted by Mrs. Minnie Owens of Burkburnett, Mrs. S. L. Hansard of Thornberry and Mrs. Frank Haley of Wichita Falls.

Specials on the program consisted of a male quartet composed of M. E. Cox, W. R. Harper, J. S. Gore and M. J. Magness and a mixed quartet by J. S. Gore, Mrs. Edith Goodlett, Roy Harper and N. G. Goodlett.

The Thornberry delegates secured the next district singing convention, which will meet March 18 at 2 p. m.

The secretary also announced that the Wichita county singing convention would meet in all day session March 11 at Barwise.

The closing chorus was led by W. R. Harper and benediction given by M. J. Magness.

Baritone With Chicago Opera Co. Tells of His Experience in Russia When Invited to Sing Before Tsar

Six years before the Russian revolution overthrew the last of the tsars, the revolt was predicted by Cesare Formichi, the giant Italian baritone of the Chicago Civic Opera company, which will be in Wichita Falls, February 29 and March 1. Formichi sings with Mary Garden in "Resurrection"; Alfano's opera of Russian life, which is based on Count Tolstoi's famous novel.

FORMICHI

"I was in St. Petersburg in 1911, singing with the opera company," relates Formichi, "when I was invited to the palace to sing before Tsar Nicholas. The crowd was massed outside the palace, and there were angry mutterings in the air. When I reached the palace I was ushered into a large room adjoining the private concert-hall of the tsar, and introduced to some Russian general in full dress uniform, though I no longer remember his name.

"To my amazement he made me put up my hands and he searched me thoroughly for weapons, went through all my pockets and then apologized for taking what he called 'necessary precautions' before I was conducted into the presence of the tsar.

"I knew then that the revolution would not be long delayed. When the officials surrounding the tsar were so suspicious that they even feared an Italian opera singer might be an assassin hired to kill their ruler—then things were indeed at a sorry pass in Russia.

"That was in 1911. Just six years later the tsar was overturned by Kerensky; a few months afterward red Russia passed into the hands of the bolsheviks."

Council Resorts To Hat Drawing To Let Contract

The Wichita Falls city council was forced to resort to a hat drawing at its regular weekly meeting Monday night in order to award a contract for furnishing the city with electric light bulbs for the next year.

Six bids were submitted and all were the same. Names of the bidders were placed in a hat furnished by Roy E. Carter, police and fire commissioner, and a slip bearing the name of the Auto Equipment company was drawn from the hat by Oral Jones, finance commissioner.

The Auto Equipment company was then awarded the contract on a $600 basis, which gives the city a 24 per cent discount on all bulbs purchased under the contract during the year beginning February 19.

SAFETY?
The principles and policies of the building and loan associations are so economically sound and secure that not one single organization has been liquidated by the State Department which supervises every building and loan association in Texas.
Cooperation is the pith of the building and loan association. And its principle of dissolving a debt by small payments is one of the greatest triumphs of extended credit. We offer the home builder an adequate loan upon terms which are often easier to meet than it would be to pay rent.
And to the men and women who can save a dollar or more a month, or who can invest a fixed sum, the North Texas Building & Loan Association offers the generous earning rate of 6% and 7%, while permitting funds, plus earnings credited, to be withdrawn at any time after 30 days' notice. No fees are charged upon our Thrift and Full Paid Certificates.
