## B. L. Thomas Gins First Bale Cotton

B. L. Thomas, 27, who lives two miles east of Redwine, brought in the first bale of 1958 Lynn county cotton Monday at 5:30 p. m., and it was ginned at Farmers Co-op Gin of Tahoka.

The bale will be sold at auction at 3:00 p. m. Saturday, August 30, at the First National Bank corner in Tahoka, and will be eligible for the first bale premium given annually by the winners of the county and by Tahoka Chamber of Commerce.

Earliest first bale on record was ginned one day later, on August 19, 1940. Incidentally, C. C. Donaldson says that bale in 1940 brought 11 cents per pound at auction. The loan price then was 9.59 cents per pound for middling 1-inch cotton as compared with 34.84 today.

Thomas came near to having the first bale this year on the South Plains, but E. E. Stringer, 78, of Lamesa ginned a bale there on Monday at noon.

Curtis Stevens, manager of the gin here, said Thomas brought in 1970 pounds of seed cotton, which produced exactly 500 pounds of ginned cotton and 850 pounds of seed.

Thomas says the bale was picked from 18 acres of the 35 acres he has planted in Paymaster 54-B seed, an early maturing variety, bought from Burl Moore of Draw Gin. It was planted four-in and four-out early in May, and the first bale was picked 103 days after planting. He expects the cotton to grade strict middling or better.

The bale was picked by Sylvester Simes and a crew of about 15 hands.

Billy Loren Thomas is the son of Mr. and Mrs. Claude Thomas of Grassland, and was born and reared here. He attended school at Grassland, graduated from Tahoka High School, and served in the Armed Forces starting to farm for himself in January of 1955. He farms 400 acres of land, of which 169 acres are in cotton.

Thomas is married to the former Miss Helen Barton, daughter of Mr. and Mrs. Clark Barton of Post, and they have one son, Kelvin, nearly two years of age.

The first bale ginned in Lynn county usually brings about the largest premium of any county first bale on the South Plains. Tahoka Chamber of Commerce and gins of the county contribute to the premium fund, and the first bale also usually sells at a premium price at auction.

## Big Crowds At Baptist Revival

Rev. Joe Griffin will speak Saturday night at 8:00 p. m. at the First Baptist Church revival. There will not be any day services on Saturday, but there will be evening services.

A goal of 500 has been set for the Sunday School beginning at 9:30 a. m. Robert Edwards, Sunday School superintendent, has set up a telephone brigade on Saturday, and all members are to call each one and make sure they will be present for Sunday School.

Attendance for the morning service for the men's breakfast has averaged over 50 each morning, and both the morning services and the evening services have been well attended by members and visitors.

Rev. W. A. Brooks, pastor, invites each and every member and all visitors to attend the remaining revival services. Friday night is set for the Young People, and Bro. Griffin will bring a message that will be helpful to all young people.

## Showers Help County Crops

Scattered showers late Wednesday and during the night helped some Lynn county crops and gave some relief from the August heat wave.

Rainfall in Tahoka amounted to .75 inch, but fell was heavier immediately north and northeast of town. Other showers helped some east of town, from Draw south and east, and from West Point west toward Brownfield. Other areas of the south half of the county received showers.

Especially in the south half of the county, much of the cotton is suffering and throwing off fruit. Some farmers declare that without rain quickly they will not make more than a half bale per acre. In fact, some observers say the county's dryland will not average over a half bale without more rain quickly. Much feed is also burning.

Still, the county promises a better than average crop of 150,000 bales or more.

## New Oil Well East of Wilson

A new oil well on the T. E. McGeehee land has extended the Sunland-Glorieta field of north-eastern Lynn county one-half mile further west, or about six and one-half miles east of Wilson.

Concho Petroleum Co. announces its No. 1 T. E. McGeehee on a potential test pumped 44 barrels of 35-gravity oil plus 67 percent water in 24 hours. Production is from casting perforations from 4,329.33 feet, following treatment with 500 gallons of acid.

Total depth is 4,550 feet, and five and one-half inch casing was cemented at 4,454. Top of the San Andres was 3,079 feet and top of the Glorieta was 4,360.

The well is 2,310 feet from the north and 330 feet from the east lines of Section 15, Block J, EL&RR Survey.

Little information is being put out on the Pelmot Oil Corp. No. 1 E. L. Powell deep test on the Howard L. Cowart land northwest of Petty. Drillers are said to be nearing the contract depth of 11,000 feet. The test is a half mile north-east of the three-well Tahoka field, between Petty and Lakeview, 660 feet from the north and west lines of Section 139, Block 12, EL&RR survey.

## Blakney Brought In First Milo

E. R. Blakney of New Home has the honor of marketing the first load of 1958 milo in Tahoka that was grown in Lynn county.

Last week's News stated that E. R. brought in the load on Tuesday. T. Hale of Goodpasture Grain says the load of milo was brought in on the previous Thursday, Aug. 7, which would make this load one day ahead of the load brought in by T. T. McDonald of the G. R. Smith farm at Grassland to Tatum Bros.

Blakney was given a bonus of \$100.00 for the first load at Goodpasture's.

Local elevators this week are receiving some milo, but the tempo of combining is expected to begin increasing for the next several weeks.

## Will Montgomery Is Buried Monday

Will J. Montgomery, 87, one of Lynn county's earliest farmer-settlers, who had lived here 55 years, died at 5:00 a. m. from the infirmity of age after a long and lingering illness.

Funeral services were held Monday at 3:00 p. m. in the First Methodist Church of Tahoka, of which he was long a faithful member and attendant. Officiating were Rev. J. B. Thompson, the pastor, and Rev. Arthur Armstrong of Abilene. Burial followed in Tahoka Cemetery under direction of Stanley Funeral Home.

Mr. Montgomery was born July 1, 1871, in Tarrant county. As a youth he attended old Springtown College, in northeastern Parker county, along with "Alfalfa Bill" Murray, later to become the colorful political figure and Governor of Oklahoma.

In 1903, the year the county was organized, he came up to Lynn county from Rising Star looking for a location to start a farming (Cont'd on Back Page)

## Car Hits Bicycle, Harlan Curry Gets Badly Broken Leg

Harlan Curry, about 12, son of Mr. and Mrs. Thomas Curry, had a narrow escape from death Monday at about 3:45 p. m. when struck by a car while he was riding his bicycle on Main Street, Hwy. 87, in front of the "Hick" Gibson home.

His right leg was broken in two places below the knee, and he is a patient in Tahoka Hospital.

According to Police Chief Jack Miller, who investigated the accident, Harlan apparently rode his bicycle into the path of the 1957 Oldsmobile driven by Mrs. Mary Billington of Upton, Calif., who was en route to Lubbock to visit her mother.

## County 4-H Club Officers Named

New county 4-H officers were elected Monday night for the new year.

Officers elected were Tommy Gardenhire, O'Donnell, president; Robert Bessire, O'Donnell, vice president; Gail Phillips, Tahoka, secretary; Marchetta Wood, O'Donnell, reporter and David Bassire, O'Donnell, recreation director. The recreation committee is composed of Dixie Forsythe, Lester Ford and Barbara Thomas all of Tahoka.

Saturday is election day, with two important races to be decided in Democratic second (or run-off) primary election.

Of local interest is the race between C. W. Roberts and Mrs. "Dude" Holland for county clerk, the two candidates who led the balloting in the first primary in late July. The office is now held by Mrs. Beulah Pridmore, who is retiring voluntarily after serving as county clerk for ten years.

Both candidates are well known to Lynn county voters. Mr. Roberts, who has lived at Grassland many years, has farmed, acted as bookkeeper at a gin, and served Precinct 2 as county commissioner. Mrs. Holland, member of a pioneer Tahoka family, has done secretarial and office work practically all her adult life.

One state race is to be decided in the election, the office of Associate Justice of the Supreme Court, Place 1. The candidates are Robert W. Hamilton of Midland, who has the majority backing of the lawyers of Texas, and J. Edwin Smith of Harris county, who is prominent in legal circles in the Houston area.

Up through Wednesday, 73 absentee ballots had been returned to Mrs. Pridmore's office, and there was a possibility that seven more ballots voted by the deadline Tuesday would be received in time to be counted. In the first primary election, there were 90 absentee ballots cast. Mrs. Pridmore thinks the number of absentee ballots returned may indicate there will be a pretty good turnout of voters on Saturday.

In the July primary, Lynn county cast 2,088 votes.

All good citizens are urged to go to the polls on Saturday.

## Ernest Sanders Dies Suddenly

Ernest H. Sanders, 64, member of a pioneer Lynn county family, died suddenly, presumably of a heart attack, Saturday afternoon at about 6:00 o'clock while talking to some men about two blocks from his home in Wilson.

A Stanley ambulance was called immediately after he was stricken but was dead before the ambulance could get there.

Funeral services were held Sunday at 2:00 p. m. in Stanley Funeral Chapel here with the Rev. James P. Burnett, pastor of St. John's Lutheran Church, and Rev. H. F. Scott, pastor of the First Baptist Church, both of Wilson, officiating. Burial was in Tahoka Cemetery.

Ernest Herman Sanders was born May 15, 1894, in Mason county, and came with the Redwine families to Lynn county in 1903 from Donley county. He had lived here practically all his life, was a veteran of World War I and was member of the Masonic Lodge. He was married at Tahoka on July 12, 1925, to Miss Mary Shamblee, member of another prominent family of the county. For a number of years he has been engaged in the carpenter trade, living at Wilson.

Besides his wife, he is survived by one son, Delbert, also of Wilson. A brother, Ed Sanders, died several years ago. His mother, Mrs. Louella Redwine Sanders Bishop, wife of W. B. Bishop of San Angelo, died a year ago in September and was buried here.

**Everyday Religion**

By  
J. B. Thompson

Religion and religious people often get in a rut. Some one has said that a rut is a grave without any ends. A legend in Van Loon's book, "Intolerance," tells how mankind once lived in a valley surrounded by mountains. Adventurous spirits, who suggested scaling the steep walls of the valley to see what lay beyond, were told by the horrified ancients that destruction awaited those who sought to leave the valley. If one went out and came back with foolish tales of a land of plenty beyond the mountains he was stoned to death. When famine and plague came to the valley and discontent arose the ancients urged patient acceptance, even if it meant death to all. Not until most of the tradition-loving ancients died were the adventurous able to lead the people out of the valley of poverty and hardships to a fuller life.

This is just a legend but it summarizes much of the pathos and tragedy of human history. In all manner of human history. In all manner of ways men have imprisoned themselves in the narrow valleys of prejudice and superstition and have persecuted the pioneers who sought the spacious, sunlit heights of life.

In religion, of all places, man seems amazingly loath to forsake the valleys to venture beyond the hills. The role of the martyrs who dared point upward to the heights is indeed a long but glorious one. Long ago the old prophets pointed out the high ground of Peace, where men would break their swords into ploughshares and their spears into pruning hooks and learn war no more. Angels were singing about "Peace on Earth, good will toward men." The Prince of Peace Himself descended into man's little valley of greed and strife to bring an abundant life to all but, alas, He too, was put to death in the name of tradition and man staggers on in the valley where the bloody ruts of war are heard once on those heights sing-worn ever deeper with the passing years.

G. R. (Bud) Milliken, two sons-in-law and two grandsons, Wilson Edwards and son Craig of Floydada and Olin Renfro and son Danny of Tahoka, returned Saturday morning from a week's fishing trip to the Rio Grande at Langtry. Bud says they caught about 200 pounds of yellow and channel catfish, and the weather was cloudy and relatively cool while they were there.

G. B. McAda and son and Lee Edward Holden of Meadow returned home Friday from a fishing trip to Granite Shoals. McAda says they caught a 29-pound yellow catfish and some channel cats.

Mr. and Mrs. J. L. Tomlinson and family from Durant, Okla., are here this week visiting his mother, Mrs. Nora Tomlinson, and other relatives.

**New Home Gin Plant Complete**

The new gin plant of New Home Cooperative Gin now being completed has some of the most modern features of any plant in the nation, states Bobby Carroll, manager.

Equipment installed manufactured by Murray includes 4-120 saw gin stands, this being one of the first four plants manufactured with 120 saws to the stand. Most other gin plants have four to six stands with 80 or 90 saws each.

This will enable the plant to turn out a bale of cotton much quicker—in fact, a bale every six minutes. Thus, quick ginning, coupled with a second plant, will permit the gin to get its customers cotton ginned before bad weather sets in and while the cotton may be marketed as quality cotton.

Everything in the gin plant is driven by 36 individual motors ranging in size from 3-4 to 60 horsepower, a total of 650 horsepower. The gin is completely automatic and operated from the control board.

The other plant was put on individual motors last year.

Wilmer Smith is president of the gin board, E. R. Blakney is vice president, and L. C. Unfred is secretary. Other directors are A. B. Morrow, Dick Turner, Morris Renfro, and Walter Gasper.

**Mrs. Smith . . .**

(Cont'd. From Front Page) Church. She and her husband have one child, Mrs. Bill (Peggy) Bohner of Edmondson. There are two grandchildren.

Her husband is widely known, also, and at present is director-at-large of the Central Bank, and leaves Friday for Washington, D. C., to attend the meeting of this board; is president of the Plains Cooperative Oil Mill and of New Home Cooperative Gin; and also is vice president of Plains Cotton Growers, Inc.

Mrs. Smith is the third Lynn county citizen to receive a signal honor in agricultural circles within the past two weeks. County Agent Bill Griffin has been named to receive the honor award as one of seven from Texas by the National County Agricultural Agents Association. Denver Ford, 18, of Tahoka, was named president of Texas 4-H Club Council at the state meeting two weeks ago.

Smith will attend the National As president from Texas, Mrs. Home Demonstration convention in Wichita, Kansas, in October.

**BAND BOOSTERS**

Tahoka band boosters will meet Thursday, August 28 at 7:30 p. m. in the Band Hall. All parents of band members are requested to attend to discuss the work of the coming year. Mrs. Emma Halami-cek, president.

career in this new county, and first bought land west of Tahoka Lake northeast of Tahoka. Seeking a permanent location, he rode over the county on a bicycle looking at land and chose a section a mile north and a mile west from the west edge of Tahoka. This he bought, and ever since he has lived there and came to love the soil he farmed until illness and age forced him to rent out the land.

He was married on May 18, 1913, at Lubbock to Miss Essie Bellah. Three daughters were born to the couple, and until his death he took great pride in his wife and these three children. He was a member of the Masonic Lodge.

His survivors include his wife; three daughters, Mrs. Grace Kiser of Roswell, N. M.; Miss Marietta Montgomery, a teacher who spends her summers here; Mrs. Lois Mason, also a teacher at Edison, Neb.; three grandchildren, all children of Mrs. Kiser and husband; and three sisters, Mrs. Lina Baker of Fredrick, Okla., Mrs. Mattie White of Borger, and Mrs. Grace Henderson of Sunnymeade, Calif.

**C. or C. Directors Raising Premium**

Tahoka Chamber of Commerce directors, in a meeting called by President Dean Taylor, on Wednesday morning made plans for auctioning off the first bale of 1958 cotton on the Square Saturday of next week at 3:00 p. m. The C of C gives \$200.00 for the first bale and cooperates with gins of the county in raising an additional premium. Clint Walker will be in charge of the auction.

The body voted to cooperate with the US Highway 87 Improvement Association in its program of work to make this one of the leading north-south highways of the nation.

Drive for funds to pay for the new football scoreboard installed at Kelly Field here will be started at the first home game.

The directors also discussed briefly the proposal to hire a full-time manager of the Chamber of Commerce and to see cooperation of the City of Tahoka in the Proposal.

Mr. and Mrs. W. R. McNeely and little grandson, Mack White, last week made a vacation trip over to Roswell, Ruidoso, Cloudcroft, Alamogordo, and White Sands. On their return home they were tickled to find their granddaughter, Debbie, daughter of Mr. and Mrs. Leland White of New Home, had her cast off. Her doctor had thought the cast would have to stay on 10 weeks, but decided it could come off in five weeks.

Gary Pendleton, little two month old son of Mr. and Mrs. Lloyd Pendleton, is a patient in the hospital.

## Roterians Hear Danny Carrasco

"What We Should Know About Our Latin-American People" was the subject of a very interesting talk made at Tahoka Rotary Club Thursday of last week by Rev. Danny Carrasco, 23, pastor of the Mexican Mission at O'Donnell.

He declared much of the trouble between Latin-Americans and Anglo-Americans stems from misunderstanding between the two races, and he attempted in his talk to give his listeners a better understanding of the Latin's life, mind, and thinking.

Most of our Latin-Americans are not Mexicans, he said, for most of them were born and raised in this country and are just as proud of being American citizens as any Anglo-Americans. Most of them have never been in Mexico. For example, he said the only time he had ever been across the border was on a trip to Nuevo Laredo, and he declared he never wanted to go back. In fact, he said he was afraid to go back to Mexico, as are many others of his race, for fear he may be taken for a Mexican and kept over there.

One misunderstanding is because the average LA does not have sufficient education because he has to quit school at 14 or 15 to help the family make a living. Thinking Latins appreciate the fact that our laws are forcing them to go to school more, but some of them can't understand why they have to go to school.

If the present increase in size of Latin-American families continues, the LAs will soon catch the Anglos, he said, because the average LA family has six to eight

Huey over Joe Harvick 3 and 2, and Spears over Roy Harvick 4 and 3.

Second Flight: Holland over Eldon Carroll 1 up, and Haralson over C. W. Conway 4 and 3. Consolation: Reb. Thomas over A. N. Norman 4 and 3 and Fischer over Chas. Verner 3 and 2.

Third Flight: Griffin over Clint Walker 4 and 3, and Sam Edwards over Dick Wight by forfeit. Consolation: Sonny Roberts over Chas. Holland 6 and 5, and R. M. Thomas over Dub Harvick, 3 and 2.

Fourth Flight: H. L. Short over Tom Bartley 4 and 3, and Clem over Hubert Tankersley 2 up. Consolation: Taylor over Jop Whorton 1 up, and Bill Cathcart over Willis McNeil.

Left-Over Flight: E. L. Short over Frank Hill 2 and 1; McWhirter over Turner Rogers. Consolation: W. C. Wharton over A. M. Bray, forfeit, and Johnny Wells over Mel Leslie 1 up.

**Ladies' Second Round**  
Championship Flight: Irene Spears over Jewell Smith and Peggy Elliott over Jo Belle Robinson. Consolation: Dot White over Lois Fischer and Audie Norman over Anita Billman.

First Flight: Echo Milliken over Mac Edwards and Glenda Dunagan over Aleta Thomas. Consolation: Abbie Whorton over Melba Clem and Jeanette Harvick over Corene Cathcart.

Second Flight: Jerry Applewhite over Eloise Carroll and Euella Rogers over Billie Thuren. Consolation: Wanda Glenn over Eloise Griffin and Lottie Jo Walker over Dot Roberts.

members, while the average Anglo family has only three or four members.

By nature, the Latin-American is happy just making a living because he lives and thinks for right now. But more and more they are trying to have better homes and a better life and are trying to get ahead.

Most LAs do not "stay put" on one job as they should, but in most cases more than one member of the family has to work to make a living and the families like to stay together and work together. For this reason and others, they follow crop harvesting in season all over the country, but they are beginning to see that running

around from job to job is not good.

Latin-Americans are beginning to realize, also that they are wanted by the Anglos and are being given more and more consideration, which they greatly appreciate.

The speaker was educated in San Marcos and Lubbock and is now furthering his education in a Lubbock school. He was introduced by Maurice Bray, who arranged the program.

Among the visitors were Bill Bray of Lubbock, brother of A. M. and Porter Fox, who has 14 years perfect attendance in the Wilcox, Ariz. Rotary Club and who was here visiting his sister, Mrs. Zuella Thomas of Grassland and other relatives.

## Crosbyton Boosters Coming August 28

Crosbyton's Golden Jubilee celebration on Sept. 7-9 will be publicized in Tahoka when a motorcade from that city spends an hour and a half here on Thursday, August 28.

The motorcade will arrive in Tahoka at 11:30 a. m., and following a program the group will have lunch in Tahoka.

Mayor H. B. McCord, Sr., thinks Tahoka should show its hospitality to its South Plains sister city, Crosbyton, by turning out to help make the visitors feel welcome to this city.

Crosbyton is planning "big doings" during its Jubilee, including dedication of the pioneer museum and community building donated by Mrs. Percy Lamar, a home talent production called "Blanco Canyon Cavalcade" depicting the history of the area, and other events.

## Homemaker News . . .

By Laura Bowman  
Home Demonstration Agent  
After a three week absence, due to clothing workshops, 4-H dress revues, camps, etc., this column is once more "on the road."  
Speaking of 4-H clothing workshops and dress revues, I never cease to be amazed at how well our youngsters sew, beginning with the nine-year olds. Often we fail to recognize youths' abilities and potentialities and thus miss wonderful opportunities to help them develop by so doing.

Mrs. Wilmer Smith of New Home is the newly elected president of THDA of which all home demonstration clubs are a member. We of Lynn county know Mrs. Smith's capabilities. Knowing that, statewide, people realize her worth, makes us doubly proud.

Stains from perspiration, fruit juices, grass, oils, grease, etc., are a real problem during summer months. Stains left in garments over a long period of time, or

treated improperly, can ruin valuable clothing.  
Classify the stain before applying the remover. Most stains can be classified as a grease, sugar or syrup, coloring matter, or resinous or gummy substances.

Next, classify the fabric. Textile fabrics are divided into different classes or as blends: Animal fibers such as wool and silk; vegetable fibers such as cotton and linen; synthetic fibers such as rayon, nylon, dacron, etc. These groups react differently to heat, sunlight, moisture and to different cleaning agents.

After the material and the stain have been classified, apply the proper method of removal. Get a copy from my office.

If you made a list of "killers" around your home you'd be amazed. Insecticides and other poisonous chemicals stored within a child's reach can bring tragedy. Statistics prove this point. Two out of every 100 persons die each year from accidental poisoning. Of this number, every fourth person is between the age of 1 and 3 years.

Check your home now to make sure that all "killers" are stored well out of reach of the children. Extension home management specialists suggest some important check points:

Start with the medicine chest. Keep it locked or make certain that it is high enough to keep children out. Label all bottles and material stored there.

Keep cosmetics, soaps, bleaches, polishes and cleaning agents out of reach of small children.

Avoid throwing partially filled containers into wastebaskets or trash barrels where children could test for taste.

Keep matches and all inflammable materials well out of reach.

Do the colors you wear really "do something for you?" Extension clothing specialists say they can, if you will choose them wisely, with a definite purpose in mind.

The colors you wear should do the most for your skin, eyes and hair. They should suit your own particular type of personality.

ELMER BLANKENSHIP

### Man's Obligation To Protect His Soil

by Dr. A. W. Young  
Head, Texas Tech-Agriculture  
Balanced agriculture requires stabilized soil with good fertilizer. Nature has produced some of the world's most productive soil in our West Texas area. As husbandmen of these soils we have an obligation to protect them from useless losses through erosion and wasteful farming practices.

Agriculture is the backbone of America, and our soils are among the greatest of our agricultural assets. Since the soil is the basic tool with which the farmer works, keeping this tool in good condition, capable of full production capacity, should be the goal of a prosperous and balanced agriculture.

World population is increasing rapidly. America is facing a large population to feed each year, and the agriculture surpluses of today are the best insurance we

whether it's vivid or retiring, and be right for your age and size.

Youth has few color problems, and a person of average size with perfect figure can get by with many colors. However, most of us need to study ourselves carefully, pick out our best points, recognize our problems, and make colors work for us in "accentuating the positive."

"COLORS FOR YOU," a colorful leaflet, written by extension clothing specialists, will help you choose becoming colors. Included is a guide for choice of colors, which lists colors to avoid and becoming color for the various color types, figure types and personalities.

It pays to measure ingredients carefully in baking and cooking. For instance, too much soda used in corn bread destroy most or all of the thiamine, one of the important B vitamins, research shows.

There should be just enough soda to act with the acid of the sour milk, according to extension foods and nutrition specialists. A safe amount of soda to use is 1/2 teaspoon to 1 1/2 cups of sour milk. Tested recipes for making corn bread to retain maximum food are found in MP-269, "Corn Meal and Grits—Selection and Use." Copies may be obtained from my office.

2 pounds fillets, steaks, or portion fish; 1 tablespoon salt; 1 cup milk; 1 cup dry bread crumbs; 1/2 cup butter, margarine or other fat, melted.

Cut fillets into serving-size portions. Add salt to milk. Dip fish in milk and roll in crumbs; place in a well-greased baking pan. Sprinkle each piece of fish with fat. Bake at 500 degrees for 10 to 12 minutes or until fish flakes easily when tested with a fork. Serves 6.

permanent agricultural use of for permanent agricultural use of the future.  
This may require a change from row crop farming to grassland farming, from a cash crop economy to a livestock economy.  
We must ask ourselves if we are really ready and willing to go as far as conditions dictate in conserving the soil and water resources of West Texas. If we are convinced that the job should be done, we can and will succeed.
