SENIOR VOLLEY BALL TOURNEY SCHEDULED; GYM TO BE OPEN

The annual Senior Volley Ball Tournament has been scheduled for April 16-20, according to an announcement made this week by Coach Walter Bryan.

Entries should be turned in as soon as possible to Coach Robert Nickerson, tournament director.

Coach Bryan also announced that the school gymnasium will be open each Thursday night during the volleyball season to allow teams to practice.

In addition, persons wishing to workout in other sports such as weightlifting or basketball may do so on Thursday nights, Coach Bryan said.

The gym will be open from 7:30 to 10 p.m. each Thursday.

City To Require Junk Licenses

Wrecking yard owners, referred to in a city ordinance as "junk dealers," are going to be required to hold city licenses in order to operate in the future.

That was the ruling of the city council Tuesday night at a regular meeting.

The ruling came as a result of a complaint lodged in city court against John Ratliff and J. W. Goodman.

The council learned, after the complaint was filed, that Ratliff has no connection with a junk yard operated in the northeast part of town by Goodman. Complaintant was Mrs. Fred Shaw, a resident of that area.

When the matter was brought up at the council meeting, councilmen immediately went to the ordinance files. City law regulating junk yards requires a license.

As a result, the council instructed Police Chief Emmett Burrow to inform all junk dealers in the city that they must apply for a license. The council then will consider the applications and inform the applicants of its decision.

It was not immediately determined by the council how the complaint against the Goodman yard, located in a residential area, would be resolved. It will be considered again at the time applications for licenses are taken up.

In other action at the meeting, the council voted:

1. To delete the south half of block 64 of the city from a primary fire zone, permitting Kenneth Campbell Oil Co. to enlarge a building. Under a primary fire zone, Campbell could not legally undertake the work without tearing down present facilities. The council acted after receiving a ruling from the State Board of Insurance.

2. To deposit $10,000 from the tax interest and sinking fund to a separate savings account at Olton State Bank. In addition, the council okayed deposit of $7,500 from the water and sewer fund to another savings account at the bank.

Tabled a discussion of disposition of several paving liens from the 1961 paving projects.

THREE DEAD--Shown above is the wreckage of two automobiles in which three were killed and two injured in a crash near Floydada Tuesday morning. Mrs. Ruby Smith of Olton was injured in the accident. Her car is shown at left. At right is the Corvair in which three members of an Oklahoma family were killed.

Olton Woman Hurt, 3 Killed In Auto Mishap

Mrs. Ruby Parker Smith, 50, was listed in fair condition at St. Mary's Hospital in Lubbock Wednesday afternoon after she was injured in an automobile accident Tuesday.

The accident occured about 9:30 Tuesday morning 13 and a half miles east of Floydada on US 70.

Killed in the accident were Mrs. Dorothy Moore Roson, 42, her daughter, Mrs. Velma Jane Ingram, 20; and Mrs. Ingram's baby son, all of Garvin, Okla.

Mrs. Ingram's two-year-old son, Charles, was treated and released at People's Hospital in Floydada.

Mrs. Smith was taken to the Floydada hospital and transferred to St. Mary's, Lubbock.

She is reported to have cuts, bruises and possible fractures.

Mrs. Smith left Olton Sunday to attend a funeral at Childress. Mrs. Roson and Mrs. Ingram had attended a funeral at Lubbock over the weekend.

Mrs. Smith was driving west in a 1962 Fairlane 500, according to Highway Patrol Sgt. D. S. Lawson. The Oklahoma family was traveling east in a Corvair.

Sgt. Lawson said the Corvair apparently went out of control, ran into the ditch on the right side of the highway, went back onto the pavement and was struck broadside by the car driven by Mrs. Smith.

The car containing the women and children was cut into, one section coming to rest in one ditch and the other in the opposite ditch.

One woman and the child died at the scene of the accident. The other woman died soon after she was taken to the hospital.

CONTINUED ON PAGE 2

Science Fair Under Way

The fourth annual Olton Science Fair opens at the H.P. Webb Elementary in the all-purpose room today with 120 projects entered. This represents the worth of 200 students.

Students from the Olton Schools will visit the Fair during the day from 9:30 a.m. to 3:30 p.m. The Fair will be open to the public from 3:30 to 9:30 p.m. All Olton and school patrons are invited to attend the Fair, which represents work being done in science in the Olton Schools.

Judges are Dr. M. S. Harvey of Wayland College in Plainview; Bob Pulling of the Littlefield Junior High and Don Spain of Olton. The projects are slated to be judged Thursday night.

Blue, red and white ribbons will be given for first, second and third place winners. Top exhibits in each division will be marked by a gold star and will be entered in the Regional Science Fair April 19-20 at Texas Tech.

Each exhibit entered will receive an award.

Projects should be removed after 9:30 p.m. Friday and between 8 and 12 noon Saturday.

Announcements of awards will be made in the next weeks issue of the Enterprise.

Grain Co-op Discussion Scheduled

A meeting for all area farmers who are interested in forming a grain co-operative will be held Monday March 18 at 8 p.m. in the community room of Plainview Production Credit Association.

Coffee and donuts will be served.

REHEARSALS OVER

Curtain Goes Up On Area Bid For Running Water Draw Dams

Rehearsals are over for Running Water Draw project, a six county gully that snakes its way out of Curry County, N.M., and ends in a sometimes booming flood in Plainview.

Tuesday night representatives of Swisher, Lamb, Castro, Hale, Parmer counties in Texas and Curry County, N.M. in which Running Water Draw long has been a "problem child" held their final dress rehearsal in Muleshoe.

On March 20 they will bundle their hopes into one big asking; they will present their lines to U.S. Army Engineers from Fort Worth in a full dress performance in Plainview starting at 10 a.m.

The Tuesday night dinner meeting in Muleshoe was the final rehearsal for that big March 20 event. F.F. (Flip) Calhoun, Plainview, who has daddied the project from its inception, presided at the Muleshoe meeting which was held there as a "neutral" meeting ground for the Running Water backers.

Plans were laid for the well-prepared six copy presentation to the engineering brass when they come to Plainview.

It was decided at the meeting in Muleshoe that nine different phases of the program, which sponsors hope will end the Running Water rampages, will be presented.

They include: results of the official survey; the conservation phases of the 100-mile long project, financing, New Mexico's interests, benefits which the control program will offer farmers, recreational possibilities, multipurpose storage possibilities, county commissioners views (how the project will eliminate road flooding), and long range benefits which will be derived from the control program.

The Army Engineers are interested in projects as a part of the expansive Brazos River Authority Program which stretches practically throughout Texas and includes a number of streams in its overall program.

Actually, the Running Water Draw which normally is just a peaceful dry gulch that cut its way through the Caprock limestone centuries ago, does its greatest damage in Plainview where it has caused a number of expansive floods, the latest one in 1960. Thus Plainview has been one of the strongest

$460,000 School Bond To Be Voted On At Hart

Plans for a bond election which would provide Hart with a new high school building complete with auditorium and gymnasium were approved by school trustees at a special meeting Tuesday night.

The plans call for:

1. A $375,000 bond election for the erection of the new high school building directly across the street from the present school.

2. An $85,000 bond vote which would provide funds for the building of an auditorium along with the new school.

Trustees set up the bond election to coincide with the annual school board vote, which is scheduled for Saturday, April 6.

On that date, Hart voters will mark two separate ballots, one for the trustee election and the other for the building expansion program.

The three propositions on the building expansion election will be:

1. To authorize the operation of the Hart school system under Senate Bill 116.

2. To authorize the issuance of $375,000 in school building bonds.

3. To authorize the issuance of $85,000 in school auditorium bonds.

Senate Bill 116 allows the school district to issue bonds over and above limits set up under the schools present financial structure.

School officials explained that the passage of Senate Bill 116 by Hart voters is necessary in order for the other two propositions to carry.

"In other words," said Supt. Paul Kennedy, "it would do us no good at all if we voted for the two building propositions and against the Senate Bill proposition.

"Senate Bill 116 gives us the financial structure we need in order to carry out the building program. Futhermore, bond coprogram. Futhermore, bond companies will buy the bonds at a lower rate of interst under SB 116, therby making a substantial savings to the district over a period of years."

Hart school trustees have been working on the overcrowded conditions problem in Hart schools for about 2 1/2 years. Over the past few months, the board has devoted many hours in both regular and special meetings to planning for improvement of the system.

In addition, the trustees traveled hundreds of miles to study new construction and all of its phases in other school systems across the Panhandle.

"The board has found that the school district can build a modern, compact, air-conditioned building as economically or more so, than it could the conventional type building we're accustomed to seeing," Supt. Kennedy said.

"This type building would mean a savings to us in many ways, especially in utility costs," he added.

The general building plans call for an all-masonry structure which will provide for nine general classrooms, two science laboratories, a library-study hall, commercial room, homemaking room, general administration area and gymnasium.

An optional benefit would an auditorium which would seat 600. The auditorium will be listed separately on the ballot.

The new building would house both the high school and junior high.

Honor Roll Announced

Olton Junior High honor roll for the fourth six weeks was announced this week by E. J. McKnight, principal.

Eighth grade students on the honor roll include Dale DeBerry, Jimmy Schreier, Laura Wheeler, Bennie Long, Linda Waldrop, Miriam Walborn, Roger Thompson, Gregory Sweat, Charla Smith, Donna Smith, Charlotte Wells, Vickie Spurlin, Brenda Kirkpatrick, Paulette Bley, Linda Graham, Karen Hipp, Jeanne Hughes, Valda Jones and Donna Roberson.

Seventh grade students are Douglas Armstrong, Lynda Blackwell, Steve Collins, Jane Duncan, Donnie Fancher, Shirley Johnson, Lannie McClain, Wanice Neeley, Steve Spain, Mike Trotter, Janet Chester, Sandy Gregory, Larry Lambright, Jackie Harrod, Kenneth Moss, Connie Brown, Sue Church, Steve Exter, Dale Gabehart, Barbara Galloway, Donice Gullett, David Neinast and Teresa Thomas.

Sixth grade students are Mylinda Morris, Buttons Carlisle, Letha Estes, Leslie Norfleet, Jan Ross Carson, Carol Scribner, Jeanie Gardner, Susan Gordon, Francine Offield, Lynn Campbell, Cheri Dorris, Jobita Garza, Lucy Gunter and Kathy Norfleet.

County Gets 4,316 Bonus Cotton Acres

Lamb County has received a bonus of 4,316 acres of cotton under the 1963 acreage release reapportionment program.

This represents a gain over 1962 when the county received an additional 2,452 acres which were released in other areas and reapportioned in this county.

It will still leave the county 19,088 short of the total acreage, including bonus, available for planting last year.

The 1963 total acreage will be 189,210 acres in the county, compared with 208,298 in the county last year.

Total bonus for the High Plains area this year is 91,684 acres. This brings the area's 1963 acreage to 2,202,553 acres. Last year's total was 2,396,846.

The area's base 1963 cotton allotment is the lowest in the history of federal cotton controls.

County farmers should receive notices of their bonus by early next week. County ASC committees have the responsibility of determining the method to be used in distributing the acres among individual applicants.

The overall bonus total doesn't include small acreages released within this area. These acreages are absorbed within the county.

Only unwanted acreages which were released in other areas and are to be reapportioned among High Plains farmers are included in the bonus total of 91,684 acres.

Castro County's 1963 bonus is set at 4,209 acres compared with 2,445 acres in 1962. Total 1963 acreage in Castro County is 56,229 acres, 3,899 acres behind last year's total acreage of 60,128.

In Hale County, the 1963 bonus is 5,369 acres. Last year it was 3,160. Total acreage in the count this year is 160,996 acres. This is 15,375 acres short of the 1962 total of 176,996 short of the 1962 total of 176,371 acres.

The deadline for requesting additional cotton acres has expired. County bonuses will be distributed only among those who have already filed written requests for more acres.

Tech Prexy Tells College Problems

The problem of how to improve higher education in Texas is something that the people themselves must answer.

"It is up to the people to determine what they want," Dr. R. C. Goodwin, president of Texas Technological College, told members of the Olton Lions Club Tuesday.

Speaking at the invitation of the club, Dr. Goodwin listed causes behind problems among Texas' state supported colleges, then spelled out suggestions for their solution.

One of the big problems was put this way: "We're exporting brains from Texas to other parts of the country."

This was shown, he said, in a survey of students attending college under the National Merit Scholarship program.

"Of the 1,222 students getting these scholarships last year 69 were from Texas. Only 38 of those 1,222 went to Texas state supported colleges."

Harvard, he said, attracted 302 of these scholars. Rice got 100 of them.

"It shows what students themselves think of our state-supported colleges," Dr. Goodwin said.

In general, Dr. Goodwin added, "Texas colleges are good. It may shock some of you when I say, none of them are great."

He told the group that Texas can't make great colleges as long as "we're exporting brains from Texas to other parts of the country."

He also pointed out that salaries for full professors in Texas average $8,630, a full $2,000 a year below the national average.

"Can Texas afford the cost of improving higher education?

"The only answer we can have is : We can't afford not to."

He pointed to the huge NASA project near Houston as a sign of how Texas must grow.

"We can no longer depend solely on agriculture and oil," he said.

He intimated that big industry is going to areas where there are great universities, because "higher education must provide the highly skilled man power for this new industry."

The future of Texas, he said, "depends on bringing this newer type industry to the state."

Before Texas can make great strides in this field, he said, "we must improve higher education."

PTA Refuses National Group Questionaire

Olton PTA voted unanimously at a meeting Thursday night to refuse to fill out a questionaire from National Congress of Parents and Teachers.

Much of the questionaire centered around federal aid to education.

Some of the members apparently felt that the questions were worded in such a way that any answer they might give would be construed to mean they were for the federal aid.

The questionaire is being sent to every member of PTA in the nation.

The Olton PTA declined to answer any questions and returned a statement to that effect.

J. D. Lancaster, pastor of the Main Street Church of Christ, spoke at the meeting.

John Clark, superintendent of schools, led the discussion on the questionaire.

O. L. Williams Services Held Here Saturday

Funeral services for O. L. Williams, 73, were held at 3 p.m. Saturday at the Main Street Church of Christ with the Rev. Bob Poyner of Levelland officiating. Williams was born July 14, 1889. He had been a resident of Olton for 22 years.

Burial was in Olton cemetery under the direction of Parsons Funeral Home.

Williams died at his home at 11:50 a.m. Thursday.

Survivors include his wife, Pearlie; five sons, Jess and Ray, both of Amarillo; Felix of Fort Smith, Ark.; Jim Firebaugh, Calif.; J. E., Estelline; two daughters, Mrs. Bessie Maebery, Clarendon; and Mrs. Lois Rea, Memphis; and a brother, Tom of Lindsay, Okla.

Pallbearers were Bob Starrett, Elvin Berry, Melvin Berry, C. S. Silcott, George Caddell and Dewey Moses.

How To Stir Up A Little Business? Try A Want Ad!

A small mistake on the Enterprise want ad page caused a flurry on the business scene last week.

Real estate man Ezra Whittington advertised some houses for sale. One was described this way:

"Five bedroom home, low down payment, shown by appointment only. Exclusively listed."

Lots of people were interested. Ez' phone kept ringing. Trouble was, the house wasn't five bedrooms. It was five rooms.

Even the man who had listed the five-room house with Ez called up to find out about the five-bedroom house. He was definitely interested.

Ez just kept explaining about the mistake. Eventually he got tired of making excuses for the Enterprise, so he asked for a correction. That we did (we hope).

But it all goes to show that a few cents can go a long, long way if you use the Enterprise want ad page.

Lots of people are interested in what's for sale and plenty of others like to read it just to see how many mistakes we've made.

Why don't you try the want ads yourself next week?

TECH PRESIDENT VISITS----Texas Tech President R. C. Goodwin, center, chats with Lion Boss Don Spain, left and C-CA manager Melvin McReynolds, right, following Dr. Goodwin's talk at the Olton Lions Club meeting Tuesday. Dr. Goodwin spoke to the club on Texas' problems in higher education.

Draw Project

CONTINUED FROM PAGE 1

backers of the project, Mayor M. B. Hood told the members of the steering committee at the dinner in Muleshoe.

Curry County on the other hand has little fear from flooding but it sees great recreational and storage possibilities from the project, Clovis Chamber of Commerce Manager, Bob Spencer told the meeting.

While not all spokesmen for the nine different parts of the Plainview presentation have been selected, Calhoun said several have been picked. For example Guy Nutt, area conservationists for the Soil Conservation Service, Amarillo, will discuss the conservation phase; Jack Driskill, Swisher County Judge, will discuss financing; Spencer will discuss New Mexico's interest, and farmers who live below Plainview will talk about the land protection which a series of detention dams along Running Water Draw would afford. These farmers incidentally, have been severly hit by Running Water Draw rampages of the past, District Highway engineers from Lubbock will be asked to present the benefits the control program will offer roads and bridges. A final summary will be made by Dr. Wayland Bennett of Texas Tech.

The reports are to be brief, Calhoun said, and must be written. Although the actual reports will be made by only a few persons, Calhoun asked that "everyone who can possibly do so be on hand for the hearings." The meeting is slated for the Congress Inn at Plainview's west edge on U.S. 70.

No exact number of detention dams have been decided on, but the number probably will run to 10 or 12 and possibly two or more larger recreational lakes also will be created. In Curry County for example, the City of Clovis already has acquired a large tract for just such a lake. The lake when full would be two and one-half miles in length.

Members of the Steering Committee and others present at the meeting were A. L. Black, SCD, Friona; Ned Hauk, City Commissioner, Clovis; E. C. Kelso, County Commissioner, Clovis; Burnett Brown and Mrs. Brown, County Commissioner, Plainview; H. A. Hysinger, SCD, Olton; A. J. Spain, County Commissioner, Olton; E. J. McLain, County Commissioner, Hart; Wade Mills, SCD, Nazareth; M. B. Hood, Mayor, Plainview; C. B. Cline, Jr., City Council, Plainview; T. R. Davis, committeeman, Hart; L. B. Hall, Publisher, Muleshoe Journal; Raymond Martin, Editor, Muleshoe Journal; Guy Cox, County Commissioner, Farwell; Bob Spencer, Chamber of Commerce, Clovis; A. B. Fleming, SCD, Clovis; L.D. Ballard, SCD, Plainview; Steve Messinger, SCD, Friona; Jimmy D. Smith, SCS, Friona; Jess Jackson, SCS, Plainview; Y. E. McAdams, SCS Engineer, Lubbock, Paul T. Larson, SCS, Littlefield; W. E. Mitchell, SCD, Spade; Woodie Boston, SCS, Kress; and Jim Norman, Plainview.

Bykota Show Held

The Bykota Study Club held its annual spring style show March 8 at 7:30 in the school cafeteria here. The theme was "Easter Parade".

A $100 wardrobe from Ware's Department Store in Littlefield was won by Mrs. M.E. Haddad. Door prizes were won by Doris Witten, who won a golf hat, Bonnie Lunsford a summer straw bag, Linda Amundson a rain net, Mrs. Ernest Jones a black straw bag and Mrs. Bill Yates and Doris McGill both won jewelry.

Models were Mrs. R. V. Allcorn, Mrs. Bobby Copeland, Mrs. Joe Hall, Mrs. Basil Johns, Mrs. Deryl Machen, Mrs. James Martin, Mrs. J. P. Nafzger, Mrs. Billy Smith, Jr., Mrs. Wally Stewart, Mrs. Andy Stroebel, Mrs. B. G. Thomas, Mrs. Charles Tussy, Bobbye Tollett, Mrs. Royce Bearden, Jonelta Moss, Gladys Thomas, Sue Mitchell, Tommy Witten, Kathaleen Carson, Marsha Parker, DeAnna Scruggs, Teresa Thomas, Mrs. Paul Burrus, Connie Hall, D'Lynne Hall, Lisa Johns, Ricky Smith, Nicky Smith, Rhonda Parsons, Bryan Allcorn, Sharon Brigance and Karen Walden.

Olton Short On Red Cross Drive

Olton is approximately $400 short of its $1,500 quota in the Red Cross Drive.

Clovis Poteet, Howard Hall and Truitt Sides are managing the drive here.

News Of Interest To Women

Amy's Adlibs

BY AMY TURNER

DUCK FOR DINNER, anyone? I understand there are several hundred ducks on the lake south of town now.

This is apparently a stopping off place for the weaker species that couldn't fly to the marshlands of Texas and Louisiana.

It's possible that the birds are from the Great Lakes or Canada. Large numbers of them have also been seen in the grainfields of area farmers.

It's quite a sight....especially for a West Texan.

HINT--A teaspoon of cornstarch added to each cup of flour will make your cake lighter.

FOR GOOD FUN, try taking your husband with you when you go shopping for your new spring hat.

Bill and I spent a hilarious hour recently which certainly gave me an insight into the male view of our headgear.

Normally, Bill couldn't care less about going shopping with me, since, being typically male, he always buys the first thing he sees.

And that's fine with me since, being typically feminine, I know that this is no way to do things.

However, we had some time to kill and I don't know of any better way to do that than to shop for a new hat.

There's quite a selection this spring, in every shape, form, style and color you can imagine and more.

Bill decided he liked some of them better backwards and some of them better sideways. One he decided was a copy of "Hoss Cartwright's" famous TV hat. Another he was convinced was a wastebasket which someone had glued and rolled in the grass.

Being a hat lover from way back, I found all of them delightful. I have long since learned to ignore my family in this important matter since around our house "mama's hats" are always good for a few choice remarks and several snickers.

After a lot of fun and laughs,we finally settled on one hat.

I feel very elegant in it and Bill, somewhat sadly, agrees that it is the "lesser of the evils."

INSURANCE SALESMEN seem to be swarming over the town this week. I know nothing of these men or of their product. I do know we have some pretty good insurance men who are permanent residents of Olton.

It makes good sense to me to buy from someone I know is going to be around when I need them.

QUOTE--"A little child on a summer morning stood in a great Cathedral Church. The sunlight streamed through the beautiful stained glass windows and the figures in them of the servants of God were bright with brilliant color. A little later the question was asked,

'What is a saint?'

And the child replied:

'A saint is a person who lets the light shine through.!'

Anonymous.

W.K. Brittons Plan Open House

Mr. and Mrs. W. K. Britton will observe their 50th wedding anniversary with an open house, in their home north of Circle, March 17, from 2 to 5 p.m. Friends of the couple are invited.

ADVERTISE IN THE OLTON ENTERPRISE

WSCS Meet Held March 7

The Womans Society of Christian Service met Wednesday at 9:30 in the First Methodist Church for a regular meeting.

Program subject was prayer. Appearing on the program were Mrs. Bill Collins, Mrs. W. F. Gaede, Mrs. Owen Norfleet and Mrs. W. T. Hall, Jr.

Mmes. present were Don Spain, Douglas Jones, Dwane Wilks, Jim Gregory, Bill Collins, J. C. Brown, A. J. Spain, W. T. Hall, Jr., Percy Parsons, Gilbert Roberson, Bob Coen, Owen Norfleet and W. F. Gaede.

Next meeting Wednesday March 20 at 9:30 in the First Methodist Church. Program subject will be the conclusion of prayer study.

Mrs. Holden To Be Honored At Hart Camp

Mrs. Lee Edward Holden will be honored with a bridal shower Monday March 18 at 9:30 a.m. in the home of Mrs. Edwin Oliver at Hart Camp.

The public is invited.

Domino Party Is Scheduled

A domino and bridge party will be held Thursday night from 7:30 to 11 at the ORC.

Charge will be 50 cents a person. Proceeds are to be used for improvements on the ORC.

IT PAYS TO ADVERTISE

Epsilon Delta Meeting Held

Epsilon Delta Chapter of Delta Kappa Gamma met March 2 in the Homemaking cottage at Muleshoe with 26 members in attendance.

A meeting of the executive board preceeded the business meeting which was conducted by the president, Mary E. Tollett. Roll call was "Women in the News." Evelyn Kisner, who was moderator for the Panel Forum, led a discussion on "Strengthening Respect for Women's Capabilities". She was assisted by Thelma Wiseman and Beulah Tullis.

At noon a buffet luncheon was served in the dining room. Table decorations were carried out in the patriotic theme of Texas Independence Day.

Hostesses were Elizabeth Watson, Owetha Finley, Blanch Johnson, Bee Miller, Joyline Costen, Marquita Collins, Dorothy Beddingfield, Lois Witherspoon, Mary Obehaus, and Oletha Hodges.

Members attending from Olton were Allie Aikma, Helen Bohner, Linnie Campbell, Ethel Gordon and La Nelle Waldrop.

Blanton Martins Entertain

Mr. and Mrs. Blanton Martin, Hart Camp, entertained a group of young people in their home Friday night.

Games were played and refreshments were served to Shirley Leonard, Suzanne Martin, Katy An Hopson, Bobbie and Ronnie Jones, Kerwin Oliver, Freddie Featherston, Preston Leggitt, Gene and Marilyn Loman.

BASKETBALL TOURNEY

Miss Meadows, high school girls coach, will leave today to go to Austin for the girls state basketball tournament.

Springlake Garden Club Meets March 7

The Springlake Garden Club met March 7 at the home of Marie Bibby. She presided over the meeting. An election of officers for the new year was held. They are Marie Bibby, president; Mrs. Lonnie Neinast, vice-president; Mrs. Franklin Starkey, secretary and treasurer; Mrs. Erlene Hachtel, scrapbook; Mrs. Myrtle Clayton, federation chairman; and Mrs. Wayne Davis, reporter. Standing committees are program and yearbook, Mrs. Pickrell; projects, Hugh Watson; and photographer, Erlene Hachtel.

The club voted to meet at 4 p.m. each meeting. Next meeting will be March 21 at the home of Mrs. Edith Crawford. Anyone interested in becoming a member is invited to attend this meeting.

FIRST METHODIST CHURCH

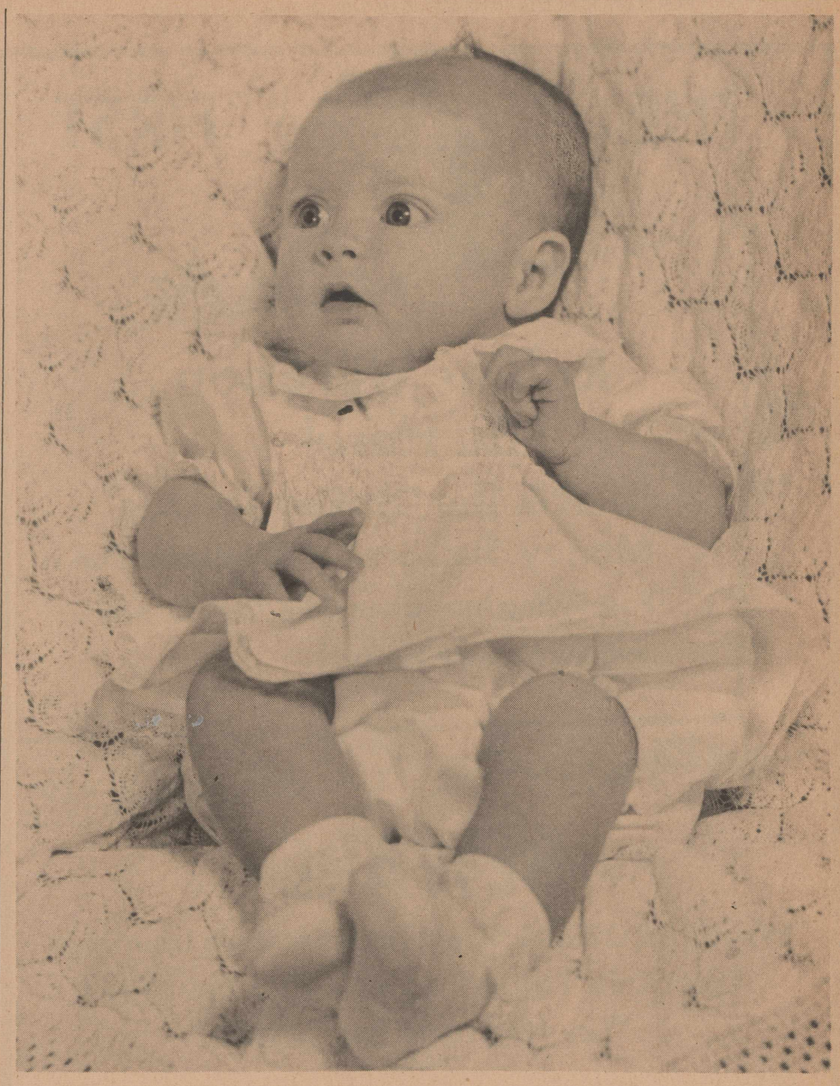

A Missionary Rally will be held in the First Methodist Church March 22 at 2 p.m. The Methodist Churches of Hart, Dimmitt, and Valley View will be guests. Special speaker is the Rev. Edwin LeMaster, one of the Methodist missionaries who was imprisoned in Angola.

ILL

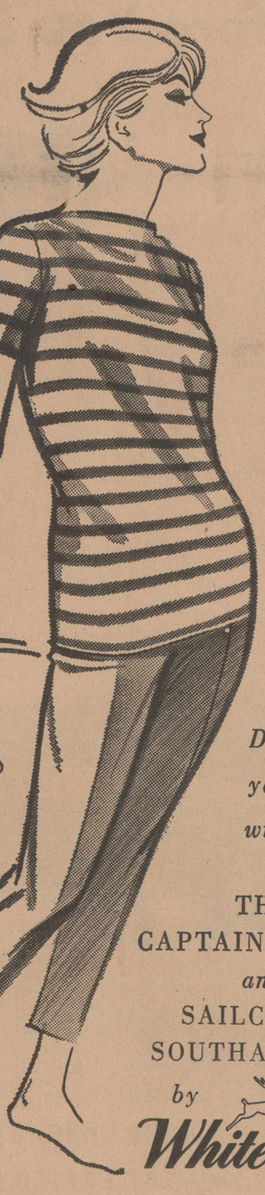

E. W. Walden is in the Plainview Hospital, following a heart attack last Friday.

TRACK MEET

The Olton High School track team will enter a track meet Saturday at Springlake.

OLTON PRESENTS Julie Carolyn Carson, ten-week-old daughter of the Rev. and Mrs. Don Carson. He is pastor of the Memorial Baptist Church in Hot Springs, Ark. Grandparents are Mr. and Mrs. J. L. Carson, Jr. and Mr. and Mrs. Charles Golden.

KELLEY'S

BIG REASON FOR ELECTRIC CLOTHES DRYING

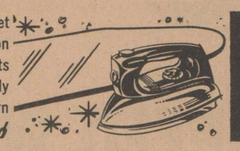

Tiny tots are lots of fun as they take their first steps or say their first words. But, there's a "catch" — just as in all good things — and the catch is hard work. It's hard work to wash and dry diapers and baby's clothes but not if you have an electric clothes washer and dryer. Reddy does the hard work of washing and drying. And baby's clothes and diapers come out of the electric dryer so-o-o-o clean that they're a delight to hold against your skin.

Yes, baby IS a big reason for an electric clothes dryer — a most delightful reason to be sure.

FREE WITH THE PURCHASE OF AN ELECTRIC CLOTHES DRYER

TOASTMASTER STEAM AND DRY IRON PLUS PORTABLE IRONING BOARD

Buy your electric clothes dryer now and get both — the Toastmaster steam and dry iron and the ironing board that folds flat — fits in a suitcase. At your participating Reddy Kilowatt dealer! Available to Southwestern Public Service Company customers.

Robins Will Soon Be Here!

So Will The "Forked Tongue Money Suckers." (This Bird is The Fast Flying Insurance Gyp That Lands in Town Every Spring)

BEWARE

When The Quick-Talking, High Pressure Insurance Agent Calls, Follow This Rule And You Won't "Pay Now And Regret Later."

Never sign anything the first call and ask the salesman to leave a policy for your examination. If he's a gyp agent, this will bring on all kinds of noisy warbling that sound like alibis. The gyp usually strikes once.

ALWAYS check with a local agent. If the insurance plan is legitimate, he can get it for you. If it is not, he will show you why. Senior citizens often are a special target for this gyp agent.

Deal at home. Your local area man pays taxes, contributes to your church and community by giving and serving. And, he'll BE here when you need him!

Hart Camp Happenings

Visitors in the Jack Moore home Friday night were his brother and family, the Rev. Bud Moore, Mrs. Moore and children of near Haskell. The group all visited in Littlefield with Mr. and Mrs. Sherrod Fielden while they were here.

J. T. Weatherly was dismissed from the Medical Arts Hospital Sunday after being hospitalized several days with the flu and other complications.

Willard Loman is in the Littlefield Hospital following a heart attack early Thursday morning while plowing in his field.

Mr. and Mrs. Dewey Parkey and boys made a trip to Anderson, Missouri over the weekend where they visited her sister and family, Mr. and Mrs. Gene Hollums and children. The group also visited relatives in Saloam Springs, Ark. Saturday.

Mr. and Mrs. Blanton Martin visited in Southland Tuesday with his mother, Mrs. Sam Martin.

W. O. Hendricks, Sr. visited recently in Levelland with his son and family, Mr. and Mrs. W. O. Hendrick, Jr. and in Tulia with his daughter and family, Mr. and Mrs. Ivy Thompson and Mikie.

Sunday dinner guests in the J. W. Wells home were Mr. and Mrs. Jerry Wells, Mike and Terry, Mr. and Mrs. E. E. Wells Mr. and Mrs. Victor Neinast and children, Littlefield, and Mr. and Mrs. Bill Nicholas.

Two sisters of Mrs. Lee Holden spent Monday night with her. They were Mrs. R.E. Shultz and daughter, Tracy Ann, Houston and Miss Dorothy Kidwell of Tahoka.

Mrs. Dan Puckett accompanied Mrs. W. J. Aldridge, Fieldton, to Lubbock Wednesday where they visited with Mrs. Aldridge's sister and husband, Mr. and Mrs. J.C. Wright.

Mr. and Mrs. Bill Nicholas visited in Slaton Sunday with his nephew and family, Mr. and Mrs. Hal Gooding and sons.

Blanton Martin and Rev. Jack Moore attended revival services at the Fieldton Baptist Church Friday night.

Visitors in the J. A. Talburt home over the weekend were his neice, Gussie Watson of Iran, Texas and his nephew, Dick Boone of Odessa.

Mr. and Mrs. Lee Edward Holden visited recently in Burns Flatt, Okla. with his cousin and family, Mr. and Mrs. Jimmy Newberry and children.

Mr. and Mrs. M.W. Wheeler left Friday for Center to be with her mother and father, Mr. and Mrs. S.H. Latham who are hospitalized with penumonia. Mr. Wheeler returned home Sunday but his wife will remain in Center for awhile to care for her parents.

Visitors in the Elma Burleson home recently were his parents, Mr. and Mrs. Ivy Burleson, Anton and Mr. and Mrs. Jim Reagan and children, Lubbock.

Mr. and Mrs. Willard Loman and Judy were in San Angelo recently where they visited her sister and family, Mr. and Mrs. Bill Mitchell and children.

There will be a bridal shower for Mrs. Lee Edward Holden Monday morning March 18th at 9:30 a.m. in the home of Mrs. Edwin Oliver. Everyone is invited.

Time For Inspection?

An annual inspection is routinely made for all motor vehicles. It's too bad the human body doesn't get the same consideration.

Most adults go along year after year, never seeing a doctor until they become sick or have an accident.

If regular inspections are important for a car, consider how absolutely vital they are for the human machine.

You may have some early disease and not even know it. Unless this condition is found and treated, chances are it will become more serious and more difficult to control.

A regular check-up by a doctor is a good opportunity to get sound, medical advice on your needs, based on his professional evaluation of your state-of-health. You may need medical advice about the food you eat, the exercise you should take, and other habits which can help or hinder you in your search for good health.

Even if you are already under treatment, perhaps it has been too long since your last visit to the doctor. Your condition may have changed for the better or worse.

Perhaps your regimen needs to be changed or your medicines--if you are taking any--need to be readjusted in dosage or kind. Not all medicines--if you are taking any--need to are to be taken indefinitely.

Also, new diagnostic aids and medicines are now available which the doctor may want to prescribe.

Perhaps you had an illness and overcame it. It is possible the condition could recur.

Perhaps one of the biggest advantages of a complete physical examination at regular intervals is the knowledge that you are in fit physical shape. If you have an illness, it is consoling to know that everything possible is being done to keep it under control.

There is no set schedule of how often you should have a check-up, but it should be regular. Let your doctor set the schedule for you. At the end of the examination he can suggest the time for the next check-up.

(A weekly feature from Public Health Education Division, Texas State Department of Health.)

Congressman Mahon Reports

WASHINGTON, D. C.--Representative George Mahon reports that there has been little legislative progress in Congress to date. This results from the fact that all major legislation is still under study by appropriate Committees of Congress and will not be voted on for weeks.

Mahon made the following statement to the press in regard to a variety of issues:

"I find little enthusiasm for a tax cut. Most Members feel as I do that it is illogical to cut taxes without a marked reduction in spending. As yet there is no guarantee that spending will be sharply cut and the fate of the tax bill will remain unpredictable for some time.

"The House by a resounding vote of 385 to 20 has approved funds for the continuation of the work of the House Committee on Un-American Activities.

"One of the chief subjects of inquiry in Committee hearings is the Cuban situation. I personally have listened to several days of testimony on the subject by such witnesses as Robert McNamara, Secretary of Defense; John McCone, Director of the Central Intelligence Agency; Secretaries of the three services and members of the Joint Chiefs of Staff, who have appeared before the sub-committee on Defense Appropriations, of which I am Chairman.

"Officials insist that they believe the Soviets have removed all ballistic missiles from Cuba. However, the thing that disturbs me is not so much the number of Soviet personnel and weapons in Cuba as the fact that the communists have a base in our hemisphere and near our shores.

"The President, under our Constitution, is our spokesman in foreign affairs and the Commander-in-Chief of our armed forces. I was present at the White House some time ago when the President made a report on the Cuban situation to 17 Members of Congress.

"I have told the President that it was my opinion that the base must be eliminated as soon as reasonably possible. Most Members of Congress feel as I do, that this is a matter of great urgency.

"I have registered a strong protest over the proposed United Nations aid to Cuban agriculture. A Senate Committee is conducting an investigation of the situation.

"There is talk of a reduction in our defense budget. We are exploring the possibility of making cuts whereever they can safely be made, but a reduction in military strength would be completely out of order. We are ahead and if we are to safeguard our security we must stay ahead.

"As to the overal budget, I believe it can be cut by several billion dollars, and I am working toward that objective.

"Chances are good that the exposure of scandalous abuses in Congressional travel will result in corrective legislation and better enforcement of existing rules. The abuses have brought discredit upon Congress and remedial action is long overdue. Congressional travel is in the best interest of the taxpayer when Members of Congress with serious purpose and with responsibility in the area of defense and foreign aid take a firsthand look at how our money is being spent.

"Hopes for early cotton legislation have faded, but some agricultural legislation will be passed at this session."

Hernandez Is Prexy Of OHS Student Council

In a general assembly last Thursday morning, Olton High School students and members of the eighth grade elected officers to the student council for the coming year. Out-going president, Charlie T. Burrus, presided.

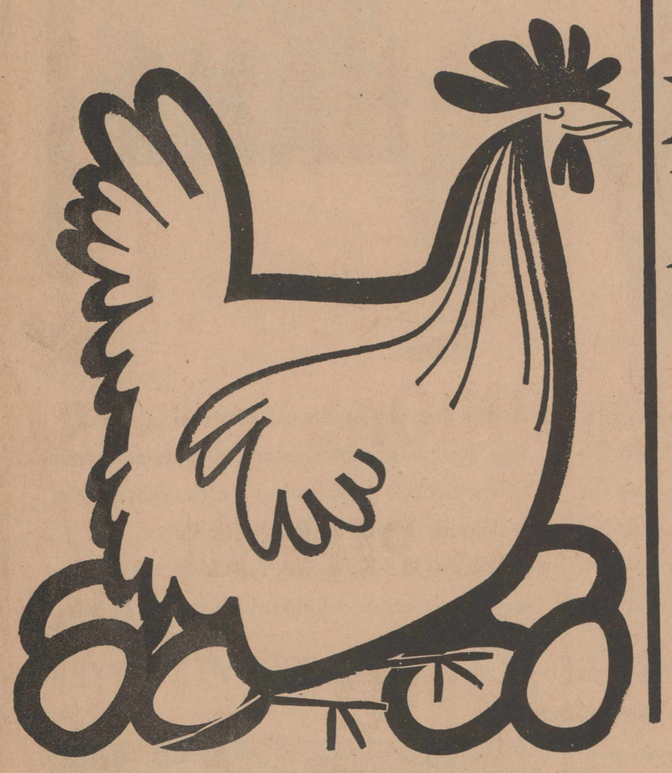

Officers elected were Paul Hernandez, president; Leon Kendall, vice-president; Lindy Ray, treasurer; Suzanne Martin, secretary; Carolyn Carlisle, reporter; and Mike Hipp, parliamentarian.

Campaign speeches and skits were given in behalf of the various candidates. The candidates and their campaign managers were Paul Hernandez, Billy Cox; George Jones, Barry Prestridge; Jan George, Gladys Thomas; Linda Ray, Cheryl Poteet; Leon Kendall, Dana Speer; Rusty Sherman, Taz Speer; Carolyn Carlisle, Sherry Caddell; Neil Burrow, R.C. Arrington; Elaine Lewis, Tanya Bryant; Suzanne Martin, Billie Beasley; Mike Hipp, Raymond Hernandez; and Steve Moss, J. Curtis Hall.

REV. EDWIN LEMASTER

Missionary To Speak To Methodists

One of four Methodist missionaries to Angola who was deported last year by the Portuguese Government, will speak at the First Methodist Church here, March 22 at 2 p.m.

The Rev. Edwin Lemaster, 39, of Lexington, Ky., was deported by the Portuguese Government after being accused of "activities subversive to the government." Although no proof of the charges were ever made, he and the three other missionaries were imprisoned in Lisbon for 90 days before their deportation.

Denial of the charges were made by the missionaries and efforts to get the Portuguese Government to make public their charges and proof of those charges, are being made by the Methodist Board of Missions in New York.

LeMaster has been a high school director (principal) and religious educatiin teacher in the interior of Angola. Commissioned in 1952, his first assignment was at Quessua in the north central part of the country, where he became director of the William Taylor Institute, a boys' elementary school and a co-educational secondary and teacher-training school.

He was also appointed co-director of religious education of the Angola Methodist Conference, sharing his responsibilities with an African pastor.

Married and the father of a son, David Edwin, 6, and a daughter, Katherine Jean, 8, LeMaster, a native of Rush, Ky., spent most of his early life in that state and attended Asbury College and Asbury Theological Seminary in 1947. He was a pastor in the Kentucky Methodist-Conference about three years and returned to school in 1950 to do graduate work.

He received a master of arts degree from Butler University, Indianapolis, Ind., in 1951 and spent a year studying in Portugal before going to Angola.

The public is invited to hear LeMaster.

IN OKLAHOMA

Mr. and Mrs. Loyd Sweatt and family visited over the weekend in the home of her sister, Staff Sergeant and Mrs. William Williams of Altas, Okla.

District PTA Meet Set

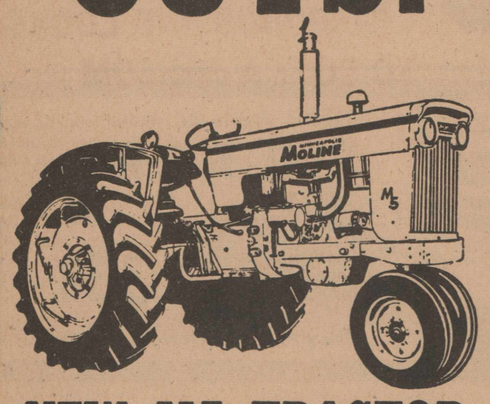

Mrs. J. M. Farmer, president of District XIV, Congress of Parents and Teachers, announces the Annual Spring Conference for the district is at Littlefield High School April 9. The Board of Managers dinner will be April 8. Members are asked to be at the high school auditorium by 8:30 a.m. April 9 for the beginning of the first session.

The theme of the first session, "In Our Hands-Citizenship," is developed by the Rev. Dr. Roy C. McClung, pastor of the First Baptist Church, Plainview, and president-elect of Wayland College, Plainview.

The second session, 2 to 4 p.m. is a series of workshops with Mrs. Marvin Armstrong, Lubbock, area state vice-presidnet, and Mrs. L. L. Ledger, Copperas Cove, state vice-president, serving as special consultants.

The final session begins at 6 p.m. which willhonor all life members. Mrs. Farmer will preside, and Glenn Reeves, superintendent of Littlefield Schools, will be master of ceremonies. Mrs. Kenneth Robertson, District XIV life membership chairman, will present the life memberships.

RETURNS HOME

Mr. and Mrs. Jack Snider and Mr. and Mrs. Travis Bundick recently toured Texas while on their vacation.

IN OKLAHOMA

Mr. and Mrs. Gerald Allcorn and boys were in Oklahome City, Okla. over the weekend. They also visited her grandfather Gentry in Holdenville, Okla.

VISIT OFFIELDS

Visiting in the home of Mr. and Mrs. Denver Offield is her mother, Mrs. Mary L. Hogue of the Knights Rest Home in Littlefield.

GOLF MATCH

The Olton High School Golf team will play Hale Center there Friday.

Fents Attend Iris Meeting

Mr. and Mrs. I. V. Fent attended the meeting of the South Plains Iris Society, which was organized at Municipal Garden Arts Center in Lubbock Monday night. Don Johnson is the chairman.

It is a organization for all Iris growers in the entire South Plains, who are interested in the growing and showing of Iris. It is to be affiliated with the National Iris Society.

Plans are being made for their first Iris show in Lubbock May 4 and 5.

Mrs. Trotter Hosts WSG

Wesleyan Service Guild met Tuesday night March 12 in the home of Mrs. Gene Trotter.

The first session of the study "Today's Children for Tomorrow's World" was brought by Mrs. W.F. Gaede. Mrs. Glen Singleterry gave the devotional.

Present were Mmes. Glen Singleterry, K. Salmon, Bob Daugherty, Billy McAlister, W. F. Gaede, Marshall Stone, and Gene Trotter, hostess.

Next meeting will be March 26 at 7:30 p.m. in the home of Mrs. Raiford Daniel. The study will be continued.

VISIT GOLDENS

Mrs. Don Carson and daughter, Julie Carolyn of Hot Springs, Ark. are visiting in the homes of Mr. and Mrs. Charles Golden and Mr. and Mrs. J. L. Carson, Jr.

SESAME MEETING----Farmers were told how they can plant sesame on diverted feed grain acreage and gain profit-wise at a meeting at Olton Farm Supply last Thursday night. Among those on the program were Robert Parker of Paris, Texas, Texas Sesame Growers' chief, County Agent Bill Kimbrough and ASC manager L. D. Aten.

Ray, Green Have Top Sesame Yield

Top Sesame yield for the entire High Plains went to Olton area farmers Clyde Ray and Roland Green this year. Their Sesame produced 1073 pounds of seed per acre. Average price in 1962 for No. 1 quality Sesame was a record breaking $11.12 per hundred pounds.

The prospect for making bonus profits growing Sesame on diverted feed grain lands has caught the attention and interest of area farmers.

To explain the program and sign up Sesame acreage for 1963, a special meeting was held Thursday night at the Olton Farm Supply Store. Robert L. Parker, executive vice-president of Texas Sesame Growers, Inc., Paris, discussed the program. County Agent Bill Kimbrough was in charge.

Sesame, which is no stranger to Lamb County farmers, is one of the substitute crops that can be grown on diverted feed grain acres without loss of price support or loss of the 29 cent per Cwt. milo incentive payment. In addition, Sesame growers can collect 40 percent of their normal feed grain retirement payment.

In terms of money, this means for example that a farmer with a 4000 pound base yield signing up 20 percent diversion can choose to collect $6.34 per acre and grow a Sesame crop worth probably $85.-$90. per acre, instead of simply collecting $15.84 per acre for leaving his milo land idle. For added insurance, if a farmer should lose his Sesame stand before June 15, the original full milo diversion payment can be reinstated.

Students Attend State FTA Meet

The students attended the first general session, the district meeting and awards night March 8. At the awards program, Olton was awarded a certificate for organizing the Springlake Club.

Carolyn Bley was named president-elect of the Olton club at a meeting held Feb. 27.

Billy Carson, Ilona Tanner, Topper Maxey, Carolyn Bley, Tanya Bryant, Coye McGill, Cherry Langford, Paula Jones and Mrs. John Campbell left March 7 for Dallas to attend the state FTA convention.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

AUSTIN, Tex.---Legislators have received two proposals for spending the state's money during the two years starting September 1.

One came from Gov. John Connally, the other from the House Appropriations Committee.

Governor Connally's suggestions marked the first time a new governor had tried to work out a budget after taking office. In his message he dealt in detail with 19 of the major state departments. These are mainly the ones over which the Legislature has direct control.

Connally trimmed fat out of some agencies to provide new money for others. His stress came on higher education. Here he suggested $14,000,000 worth of salary increases for faculty members and more research and library facilities, as a means of holding good professors and attracting new ones.

To finance his program, Connally suggested that the "temporary" corporation franchise surtax, which has been extended twice before, be retained. It would provide about $11,000,000 a year.

He also suggested that the 1961 sales tax law be revised to begin taxing clothing under $10, farm implements and all sales of food by restaurants, and to raise the sales tax on cars and trucks from 1.5 to 2 per cent.

Clothing tax proposal would bring in $10,000,000 a year. Motor vehicle tax increase would provide $2,500,000. Farm implements tax would run $1,000,000.

Fire quickly developed from rural legislators over the proposed farm implements tax.

Both Connally and the House Appropriations Committee proposed expenditures totaling about $3,100,000,000 during the coming two years.

Before Connally laid out his proposals to the Legislature, he invited Texas newspaper editors to Austin to show them how the state's complicated fiscal structure works. His "illustrated lecture" revealed that the Legislature has actual control over only 15 per cent of the $3,100,000,000. Rest already is earmarked by constitutional and statutory provisions.

WILL FARMERS FOOT EDUCATION BOOST?---When Rep. Don Garrison of Houston spread before the House Revenue and Taxation committee his bill to boost the Available School Fund by $3,000,000 a year, a spokesman for Texas Farmers and ranchers registered a strong protest.

Garrison plans to get the additional $3,000,000 by amending the state law that allows a 98-1/2 per cent exemption refund from the State Motor Fuel Tax for gasoline no consumed on the highways. His bill would cut the refund to 73-1/2 per cent.

That 25 per cent cut then would be credited to the school fund.

Charles H. Huff of the Texas Farm Bureau said almost half of the new school fund money--about $1,500,000 a year----- "would be coming out of the pockets of farmers and ranchers."

They get motor fuel refunds of about $5,700,000 a year--or49.11 per cent of the usual total refunded. Most of their refund comes from motor fuel taxes paid on farm machinery.

Airlines and private plane owners, who get about 30 per cent of the refunds, would be the second biggest contributors to education under Garrison's bill.

Four members of the subcommittee named to study the bill are from ranch or farm country--Reps. George Cook of Odessa, Ben Barnes of DeLeon, William Davis of Midland, and James L. Slider of Naples. Rep. F. Lee Duggan Jr. of Houston is the fifth member.

HOUSE VACANCY ELECTION As soon as government officials began recovering from the shock of the news of the sudden highway death of Rep. James L. Lattimore of Corpus Christi, they bagan studying the election code to see what must be done about filling the seat he left vacant in the House of Representatives.

Customarily, if a vacancy occurs in the legislature when it's not in session, the governor leaves the calling of a special election up to local officials.

But since the 58th Legislature will be in regular session until May 27, Governor Connally is expected to move fast to provide Nueces County with a needed voice in legislation. A late-April election date has been predicted.

Law states that the governor must call an election within 20 days. But it also provides that candidates must file 30 days before the election.

Last time a tragic death crippled the Legislature was on March 23, 1957, when the late Charlie Heitmann, representative from the Nacogdoches area, died. Gov. Price Daniel gave election notice on March 28 of that year. A new representative was elected in May, in time to spend some three weeks with the 55th Legislature.

MINERAL ESTATE TAX PROPOSALS--Proposals to set up tax procedures on mineral estates, severed from the land, been filed by Reps. Emmett Lack of Kountze and Clyde Haynes of Vidor.

Proposals are part of a package that should be favored by small-tract landowners and independent oil and gas producers.

One piece of the package is a constitutional amendment to increase the Railroad Commission from three to five members.

Second would give the Legislature the authority to "establish the duration of any interest in an undeveloped mineral estate."

Texas Landowners and Independent Oil & Gas Operators Association contends that some major oil companies hold onto undeveloped mineral interests for an unreasonable length of time.

Two other bills by Lack and Haynes are aimed at forcing development of mineral interest:

One provides that mineral interests would revert to the owner of surface land if no development attempt is made for 10 years.

Second provides for a county tax assessment of no less than $5 an acre, if the mineral estate isn't developed.

Rep. Bob Bass of DeKalb proposes a 25-cent minimum tax assessment on each acre of undeveloped mineral estates.

STRONG SUPPORT FOR SCREWWORM BILL-----Rep. Jack Crain of Nocona had 50 co-signers lined up when he introduced a bill to provide $2,840,837 as the State's matching share of the $12,000,000 federal-state-private screwworm eradication program.

Since it is backed by Governor Connally's strong recommendation the bill should be off to a good start.

But the House Appropriations Committee didn't include a provision for screwworm eradication in its 300-plus page appropriations bill.

Crain said Legislators would seek a separate appropriation to cover the proposed state contribution.

CARS FOR COMMISSIONERS When county commissioners stopped asking the Legislature to authorize horses and wagons and won the right to drive pickup trucks on their appointed rounds, they thought they were thoroughly mechanized.

As their operations became more streamlined and pickups no longer were necessary, some switched to automobiles. But a pickup is not an automobile, Atty. Gen. Waggoner Carr ruled. So Williamson, Cochran, Hockley, Terry and Yoakum counties are asking authority from the 58th Legislature to buy cars from their commissioners.

Harris, Tarrant and some Panhandle counties discovered the difference for themselves some time ago. They already have authority to decide whether pickups or autos would be best for commissioners' transportation.

BLANKET HOSPITAL BILL--Last November, Texas voters decided to let the Legislature authorize the creation of hospital districts. Already many bills have been filed to create individual districts.

Now Rep. H. G. Wells of Tulia proposes legislation to give every county the right to create a hospital district within its own boundaries.

LICENSE PLATE PRICE HIKE ASKED--Sen. Criss Cole of Houston proposes to increase the annual motor vehicle registration fee by $1 with the income going to our state parks.

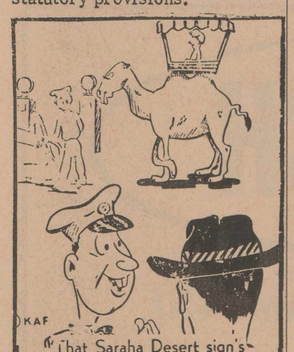

If the Legislature approves Cole's license plate cost increase, the question will be submitted to voters at the general election of November, 1964.

MOTOR EXPRESS SERVICE PROPOSED----Sen. Franklin Spears of San Antonio has introduced a bill to expediate freight shipments in Texas.

Bill permits the creation of a special class of motor vehicle carriers to be known as "Restricted Motor Express Common Carriers."

Service would follow regular routes and schedules, using van-type equipment. Special emphasis would be on small shipments from one to 100 pounds. Rates would be substantially higher than those of existing motor carriers. However, a complete "pick up-and-deliver" service would be provided.

Supervision would be in the hands of the Railroad Commission.

"That Saraha Desert sign's pay'in off.'

Lunch Menu

MARCH 18-22, 1963
(Subject to Change)

MONDAY-Hot dog and mustard, brown beans, lettuce and tomato salad, fruit cocktail, cookie and milk.

TUESDAY-Pork sausage and gravy, rice, green beans, waldorf salad, banana pudding, rolls, and milk.

WEDNESDAY----Ham and cheese on toast, green lima beans, french fries, and catsup, pear salad on lettuce, gingerbread, butter and milk.

THURSDAY--Fried Chicken, and gravy, mashed potatoes, tossed green salad, spiced crabapple, rolls, butter, jelly, and milk.

FRIDAY---Tuna Sandwiches, cream of potato soup, peanut butter, and crackers, carrot and celery sticks, strawberry shortcake, and milk.

Girl Scout Meet Held

The Girl Scout Troop No. 50 met Wednesday March 6 at 4 p.m. at the Girl Scout House for a regular meeting.

Program subject was fixing boxes for the box supper.

Those present were Marlana May, Kathy May, Kathy Peterson, D'Lyle Wilks, Jo Ellen Spain, Beverly Roberts, Marsha Parker, Susan Nicholas, Jacky Mienecke, Kay Howell, Cheryl Gorden, Margaret Gallaway, Sandee Coleman and Judy Carlisle.

Next meeting will be Friday March 15 at 4 p.m. at the Scout House. Program subject will be to go to the lunch room and get ready for the box supper.

FHA GIRLS
The FHA Girls will go to an area meeting Saturday in Lubbock.

IN RUIDOSO
Mr. and Mrs. L. A. Botkin and boys returned home Sunday after spending the weekend in Ruidoso, N.M.

Is Your Crop Hungry?

COLLEGE STATION, March 14--What does a starving plant look like? They, like animals and man, show definite signs of hunger and the farmer who is able to recognize these symptoms can do a better job of feeding his crop.

According to MP-572, "Know Your Fertilizers", published by the Texas Agricultural Extension Service, the absence of each of the valuable elements of the soil produces characteristic signs. These can be used in determining the fertilizer treatment needed.

It says that the signs of nitrogen deficiency are light green vegetation, slow and dwarfed groth, firing of the leaves, and poor root systems. The publication states that the firing of corn begins at the bottom of the plant and proceeds upward and that individual leaves fire down from the tip along the mid-rib.

A shortage of phosphorus causes plants to mature slowly, yield low quantities of grain, fruit and seed, and have purple colored leaves. This important nutrient also causes stunted growth and lack of stooling in small grains, according to the bulletin.

The third of the major nutrients is potassium and a plant hungry for this element usually shows scorching or burning of the outer edges of the leaves on corn, grain sorghum and small grains. However, the publication warns that this symptom may also be caused by a lack of moisture. The premature loss of leaves of cotton and mottling or spotting of the leaves of cotton and soybeans is a sign that the plant is in need of patassium. Corn and grain sorghum may tend to lodge when in need of potassium.

The secondary elements and the micro-elements also cause characteristic hunger signs but these are less often seen and the elements can usually be supplied easily in complete fertilizers, according to the bulletin.

Learn to spot these signs and feed your crops accordingly. County agents have copies of the publication and they are also available from the Agricultural Information Office, College Station, Texas.

RETURNS HOME
Mr. and Mrs. Tom Smith returned home Sunday night after spending two weeks in Arizona and New Mexico. In Arizona they visited their son and family, Mr. and Mrs. Douglas Smith and Dirk, Mr. and Mrs. Bill Stockman and Mr. and Mrs. Carol May and family.

FIRE CALL
A fire call was answered by the Olton Fire Department at the W. K. Britton home Saturday. Cause of the fire was a wire shortage. No damage was reported.

IN QUANAH
Mr. and Mrs. Vernon Britton and family visited in Quanah over the weekend with her parents, Mr. and Mrs. Clarence Davis.

FIRST METHODIST CHURCH
A Leadership School of the First Methodist will be held at Hart March 18,19 and 20. All church school teachers are urged to attend. This is to introduce the new literature that they will be using.

SCOUT BANQUET
A Father and Daughter box supper, which is sponsored by the Girl Scouts, will be held March 16 at 7:30 in the school cafeteria.

IN LITTLEFIELD
Mr. and Mrs. Denver Offield and family visited in Littlefield with his parents, Mr. and Mrs. A. L. Offield.

LUXURY CAR: RIDES, RESPONDS AND LOOKS LIKE IT OUGHT TO COST A RANSOM

You're looking at our Impala Super Sport Convertible which, along with its cousin the Sport Coupe, absolutely embarrasses higher priced cars.

That special trim and those front bucket seats merely hint at the comforts you find built into every Impala Super Sport.

Performance? It's remarkable, an understatement we can afford when there are 7 engines to choose from. One of which is the popular 340-hp Turbo-Fire 409*, a wizard in traffic and a joy on the open road. And others all the way up to 425 hp*.

If you want an extra flourish or two, mull over extra-cost options like floor-shift four-speed manual or Powerglide transmission, Positraction, fade-resistant sintered-metallic brake linings, and a tachometer to relay what's cooking up front.

Just before you rush off to your Chevrolet dealer, may we remind you that both Impala Super Sports offer the new Comfortilt steering wheel*. You adjust it to suit your driving style, flick it out of the way for easy entry and exit.

All three Chevrolet series—Biscayne, Bel Air and Impala—deserve a long look. Super Sports demand it.

Super Sport equipment* available on both Impala Convertible and Sport Coupe.
*Optional at extra cost.

Springlake News

Mr. and Mrs. James Bushy, Cynthia and Steve spent the weekend on a fishing trip.

Mr. and Mrs. Wayne Davis, Dell and Tammy went to Lockney last Sunday to help her mother, Mrs. D. F. Byerly, celebrate her birthday at her home. Others there were Mr. Byerly, and Mr. and Mrs. Lloyd Payne of Lubbock.

Sammy Matlock was admitted Thursday morning to Medical Arts Hospital with complications of the flu. He was released Saturday morning.

Mr. and Mrs. Robert Riley and Shaunnessy and Mr. and Mrs. Price Hamilton left last Friday for Oklahoma and Arkansas where they visited several days with relatives.

Rev. A. R. Stewart visited in Lubbock Friday with his parents, Also with his son, Wes, who is staying with his grandparents.

Danny Byers was admitted to Medical Arts Hospital Saturday morning with bronical penumonia. Myrtle Clayton was admitted Thursday night to the same hospital due to a reaction from pencillin.

Mrs. Joy Avery, Diane and Pam of Muleshoe spent Saturday afternoon visiting her mother, Mrs. Thelma McClanahan and her sister, Mrs. Bill Matlock. They also visited in the home of Mrs. Betty Matlock.

Mrs. Gay Nelle Moree and baby of California are visiting with her parents, Mr. and Mrs. Henry Conner. Mr. Cooner is ill again.

Cretia Washington was hostess to a jewelry party in her home last Saturday. Those present were, Mrs. Louise Bridge, Janis and Mark, Jenna and Jimma Banks, Mrs. Bernice Watson and the dealer, Mrs. A. L. Conner and her children.

Mr. and Mrs. Billy Watson and family of Plainview visited in the Baptist Church last Sunday and also with relatives during the day.

W. O. Watson is a patient in the Littlefield Hospital with the flu.

Mr. and Mrs. James Washington and girls visited in Quitaque last weekend whith her father and mother, Mr. and Mrs. Ed Morrison.

Mr. and Mrs. Billy Clayton Brenda and Tommy of Austin arrived Thursday night to visit his mother, Myrtle Clayton and also other relatives and friends. They left Sunday morning.

Mr. H. T. Ray is a patient in the Littlefield Hospital.

Mrs. Herbert Miller and Noble spent Friday in Littlefield with her daughter, Mrs. Kenneth Heard.

Mrs. Ola Mae Tiffie and children left Thursday for Rockston to visit her father-in-law and mother-in-law. She was accompanied by Mrs. Mac McGowan who visited with her parents, Mr. and Mrs. J. C. Weatheread and also Mr. and Mrs. Herb Roberson went with her. They visited relatives in Dennison and returned home Sunday.

Mr. and Mrs. P. W. Flowers and Mrs. Zella Hubert, all of Altus, Okla. spent the weekend with Mr. and Mrs. Ray Banks. Mrs. Banks is a sister of P.W.'s and Mrs. Hubert's.

Mrs. Johnny Stockley, Teri and Toni of Lubbock spent from Thursday until Sunday visiting her parents, Mr. and Mrs. Ernest Goforth. Johnny joined his family, Saturday.

Mr. and Mrs. J. W. Dear, Mr. and Mrs. Bill Perkins and Mr. and Mrs. Alton Hollingsworth of Hereford left Saturday for Haskell where they attended funeral services Sunday for Mrs. Lillie Pitmann of Indiana. Bro. Pitman was a former pastor of the Church of Christ, here. Mrs. Pittman was killed in a car-wreck earlier.

It's the Law in TEXAS

When property is placed in trust it is turned over to a trustee who will see to it that it is properly managed for the benefit of a person or persons you name as beneficiaries. It is a method of disposing of your property and may be used in conjunction with a will.

Trusts have many advantages. A trust may be used to provide income for persons unable to support themselves, to provide funds for a child's education, as a means of establishing an annuity, or to provide a gift for a charitable institution.

In these days of high taxes, a trust may be utilized to minimize the tax burden. If carefully planned, a trust may decrease income and inheritance taxes.

A trust arrangement works roughly in this manner. A person who desires to create a trust is called a grantor. The grantor chooses a trustee. The trustee may be a bank, an individual, or a trust company. The grantor through a trust instrument tells the trustee how to distribute the trust property or income. The trustee will then manage and distribute the trust proceeds or property in whatever manner the grantor desires.

A very common arrangement is to place the property in trust with directions to pay the income from the property to a wife for her lifetime, and upon her death the trust to end and the property to be distributed to the grantor's children.

An interesting type of trust is that which is sometimes called a spend-thrift trust. This is an arrangement whereby one sets up a certain sum of money to be given out to another at a definite rate per month or per year or under definite restrictions.

This type of trust is generally used in wills where a person desires to leave money to an individual, but feels that the individual is not capable of properly caring for the money and that if left to him in full that the person receiving the money will spend and waste the money and not receive the maximum benefit from it.

Trust property quite often consists of securities. The law regulates the type of property in which trust funds may be invested. However, the grantor may designate the type of investments the trustee may make.

The effectiveness of a trust is dependent largely on its proper creation. To avoid the pitfalls and dangers of lawsuits and ineffective trust operations, a trust instrument should be properly prepared. A poorly planned or carelessly drawn trust instrument can not only defeat the objectives of its creator, but may prove costly as well.

Your lawyer can advise you whether a trust arrangement will be advantageous in your particular situation and is qualified by education and experience to prepare properly the legal papers necessary to set up a trust. If you have in mind some bank or trust company to act as trustee, that firm's trust officer will be glad to discuss the matter in a conference with you and your attorney.

(This newsfeature, prepared by the State Bar of Texas, is written to inform--not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the fact involved, because a slight variance in facts may change the application of the law.)

Springlake Cub Scouts Plan Project

The Cub Scouts of Pack 614 in Springlake plan to participate in the Scout Circus to be held in Lubbock March 29 and 30 at 7:30 p.m. Tickets have been given to the Scout members to sell for 50 cents each. Anyone wishing to buy a ticket may contact a Cub Scout.

The theme for the circus will be "Magic World of Scouting." The Springlake cubs will participate Friday night. A project will be chosen by the den mothers on which the boys will practice until the night of the performance.

ILL

Dwight Coventry is in the hospital at Galveston.

Teams Listed In Tourney At Springlake

The Women's team competing in the Outsider's Volleyball Tournament at the Springlake gym this week are Springlake Faculty, Springlake Beauties, Honeybees, Ralley Rustlers, Lazbuddie teams No. 1 and No. 2, Neal's Oil and Butane, Plainview and Richardson's Cleaners, Olton.

Men's teams are Springlake Faculty, The Three B's, Springlake, Givens Texaco, Olton, Spade Hardware, Spade and Sudan men's outsiders.

Youth Week Planned At Springlake

Youth Week will be observed March 17 through 24 at the First Baptist Church in Springlake. The older youth will take over the various departments in the church during the week. To close youth week, a weekend revival will be held March 22, 23 and 24.

Services will begin each night at 7:30 and fellowship will be held for the Youth each night following services. Benson Phillips will be dong the preaching and Bobby Farrs will lead the singing. Both are students at Wayland Baptist College.

Everyone is invited to attend. The Rev. A. R. Stewart is pastor.

J. B. Britton Services Held

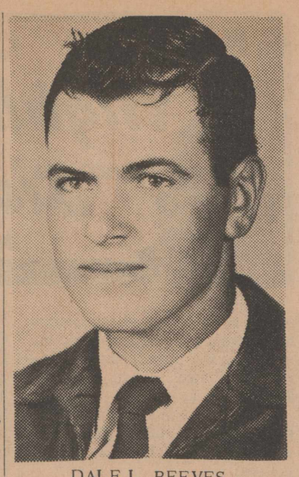

Services were held at 2 p.m. Monday in the Campbell Funeral Home Chapel in Lubbock for J. B. Britton, 79, who died at 7:30 a.m. Saturday at his home. He was the brother of W. K. Britton of Springlake.

The Rev. W. L. Kite, pastor of the First Baptist Church, officiated. Burial was in the Spur Cemetery.

A retired electrician, Britton had lived in Spur since 1923.

Survivors include his wife, Mamie, two sons, John Lester of San Antonio and Wesley B. of Arizona; a brother, W. K., Springlake; and a sister, Mrs. Lela Birdwell, of Ardmore, Okla.

Pallbearers were Leo Day, Gay Williams, Weldon Grimes, Lewis Lee, Jim Bridge and Martin Cope.

DALE L. REEVES

Dale Reeves Employed At Foundation

Dale L. Reeves, formerly of Dill City, Oklahoma, became a field assistant at the High Plains Research Foundation March 1. He will be working with Rueben Corgill, farm foreman, in the Foundation's research program.

Reeves has been honored with the Oklahoma State Farmer F.F.A. Award presented in May, 1953. He received the American Farmer Award in the United States from Oklahoma in May, 1956.

He has extensive experience in diversified farming in raising grain sorghum, cotton, wheat and in handling registered Hereford and Dairy cattle. He worked on the farm with his father from 1949 until 1956 when he started farming on his own. He has been farming until he joined the Foundation staff this month.

"Mr. Reeves practical experience and his outstanding agricultural achievements make him most acceptable as a member of the Staff," Dr. Earl Collister said in announcing his employment.

Reeves has served six years in the military service with the 378th Infantry of the 95th Division.

Reeves and his wife, Wilma, have established residence at Halfway adjacent to the Foundation's Farm.

FIRST METHODIST

A Methodist Mens meeting was held at the church Monday night at 7:30. Sixteen men were present for the regular meeting. J. L. Snider presided. Games were played after the business session.

Soybeans Tested At Foundation

Sixty-four strains and varieties of soybeans were tested in the 1962 performance test at the High Plains Research Foundation. Yield of the commercial varieities ranged from a high of 44.2 bushels per acre to a low of 10 bushels. Seed for all soybeans in the performance test were planted June 4 at a rate of 50 pounds per acre. Harvest dates were Nov. 26 to Nov. 28.

A preplant irrigation of 4.6 inches was applied March 29. Two additional irrigations of 2.69 inches were applied July 10 and Aug. 18. Rainfall which was received between July 1 and Nov. 1 amounted to 17.2 inches.

The yield of the experimental strains ranged from a high of 46.3 bushels to a low of 26 bushels. The experimental strains are identified in the research report by number and letter. They are not available for commercial production.

These tests were conducted as a part of the Foundation's continued efforts to determine the best adapted soybean varieties for the High and South Plains. Entries for two Maturity Groups were received from the Agricultural Research Service of the U.S.D.A., Texas Agricultural Experiment Station No. 8, and Texas Tech.

A report of the soybean breeding program involving hundreds of strains and varieties will be issued by the Foundation later.

The Soybean Performance Tests were conducted by Barry Love and Paul M. Belcher of the Foundation's Staff. Full details of the 1962 Performance Test can be found in Report Number 62, issued by the Foundation in late February, 1963.

Besides the diversion payments available through participation in the feed grain program, participating farmers also qualify for a special price-support payment on the normal production of the acreage planted to feed grains in 1963, and they are also eligible to put their crop under the regular price-support loans or purchase agreements. If the farmer wishes, a part of the diversion payment may be made in advance.

Hill said that participation in the feed grain program not only saves the farmer the costs of planting and harvesting acreages of unneeded feed grains while guaranteeing a substantial income from his diverted acres, but it also increases the conservation of the Nation's cropland, continues the reduction of government feed grain stocks, and saves dollars for taxpayers by reducing the costs of storage, shipping, and handling the government-owned grains.

Drivers Told To Comply Safety Law

AUSTIN----Drivers of publicly-owned vehicles were cautioned today by Col. Homer Garrison Jr., director of the Texas Department of Public Safety, that they must comply with the provisions of the state safety responsibility law.

Garrison said this was confirmed when a ruling by the Waco Court of Civil Appeals became final early this month. The ruling, in a case involving a municipal employee, held that failure to comply with the responsibility law subjected the driver to having his driver's license suspended and denied his claim that he should be permitted to continue driving a publicly-owned vehicle.

"Under this court decision," said Garrison, "the Department of Public Safety will be required to act against all drivers who have accidents if they cannot comply with the provisions of the safety responsibility law, regardless of the ownership of the vehicle.

The Public Safety Director explained that the law requires everyone involved in an accident to show his ability to pay for damages caused to others. This can be done, he said, by depositing with the department cash in the amount of the damages; by holding a liability insurance policy; or by obtaining written releases from all persons damaged in the accident.

Garrison noted that the penalty for failure to comply with the safety responsibility law in such cases is suspension of the driver's license.

Tom Carlisles To Be Honored

A farewell party honoring Mr. and Mrs. Tom Carlisle will be given in the PCA Building Saturday March 16 from 8 to 10 p.m.

The public is invited to attend.

IT PAYS TO ADVERTISE

Remember 'Yellow Jaundice'?

Remember "yellow jaundice"? The skin and the whites of the eyes take on a yellowish hue.

Physicians know that jaundice is not a disease but a symptom of many different conditions in which bile pigment is not being handled properly in the body and is accumulating in excess quantities in the blood.

Bile pigment is a product of red blood cells. Liver cells convert the pigment into bile, which is excreted into the intestinal tract to aid digestion.

Never neglect jaundice. It can be a symptom of a serious condition, such as hepatitis. And hepatitis, by the way, has increased by leaps and bounds in the United States in recent years. It is an infectious disease that causes serious illness and, often, permanent liver damage.

Jaundice can be detected earliest in the whites of the eyes. If the eyes suddenly appear yellowish, consult a physician promptly. Early treatment is very important in treating most of the conditions causing jaundice.

Jaundice of the newborn, while often not serious, can be very dangerous. Rh babies usually are jaundiced and often require exchange transfusions.

A frequent reason for surgical removal of gallstones, even if they're causing no trouble, is to forestall the possibility that the stone will later lodge in the bile duct.

Jaundice, in fact, is not always easy to tract to its cause. Self-diagnosis can be exceedingly dangerous, and a physician should be consulted promptly. Your physician will want to know whether jaundice has occurred before, whether it is occasional or constant, whether pain or fever is present, whether there has been a recent blood transfusion. He probably will want to make tests on blood and urine.

Robert Jr. born March 12 in the Community Hospital and Clinic. He weighed six pounds and seven ounces. His parents are Mr. and Mrs. Robert Renaud. The Renaud's have four other children.

Sylvia Grace, born March 10 in the Community Hospital and Clinic. She weighed six pounds and four ounces. Her parents are Mr. and Mrs. Jose Velasquez of Hart. The Velasquez's have one other child.

William Dennis, born in the Community Hospital and Clinic. He weighed eight pounds. His parents are Mr. and Mrs. William Bert Gallion of Plainview. Grandparents are Mr. and Mrs. L. W. Howard of Olton and Mr. and Mrs. Bill Gallion of Hart. The Gallion's have two other children, Roxanne two years and Tammy 11 months.

Cynthia, born March 7 in the Community Hospital and Clinic. She weighed seven pounds and four ounces. Her parents are Mr. and Mrs. Richard Reyes. The Reyes' have four other children.

TCTA Has Luncheon

The Littlefield classroom teachers sponsored a T.C.T.A. District XIII luncheon held March 8. Theme of the luncheon was Spring.

Presiding at the program was Mrs. Mary Davis of Littlefield. Special music was given by Mr. and Mrs. J. H. Penn, also of Littlefield. Olen Mahaffey of Littlefield gave the welcome. David E. Howton of Olton gave the response. Introduction of speakers was given by Mrs. Dave Tullis of Littlefield. An illustrated talk on "Our Heritage" was given by the Rev. and Mrs. Jack Ellzey of Littlefield. Presentations of pens were given by Noah Lee of Lubbock. Rollie McNutt of Muleshoe gave the benediction.

The menu included chicken fried steak, stuffed baked potatoes, green peas, tossed salad, hot rolls, butter, lime gelating chiffon pie, coffee and tea.

MINISTERS MEET

The Ministerial Alliance met for a breakfast at the Ideal Cafe March 11. Those attending were Revs. Gaede, Lewis, Jennings, and Walborn.

Nazarenes Set Revival

The Rev. Archie Norsworthy of Bethan, Okla. and the Rev. Joe Farrow of Colorado City will be the workers in a revival March 18-24 in the Church of the Nazarene. Services will begin at 7:30 each evening.

The Rev. Norsworthy graduate of Bethan Nazarene College has been an evangelist for the Church of the Nazarene for 8 years and has served as pastor previously in 5 states.

The Rev. Joe Farrow, a baritone soloist, is a graduate of Bethany Nazarene College, Bethany, Okla. and sang in the BNC A-Capella Choir three years. He has been a choir director and has had wide experience in the musical field. At present he is pastoring in Colorado City.

Hart Camp Baptist Has Prayer Week

Hart Camp Baptist Church observed the Week of Prayer for Home Missions Monday through Friday. Theme of the program was "If My People Pray."

Mrs. Edwin Oliver was in charge of Monday's program, "Witness Unto All Nations." Tuesday's program, "Seek Those Gone Astray", was led by Mrs. Dewey Parkey.

Wednesday, the topic was "Go Everywhere Preaching" with Mrs. Jack Moore and Mrs. Harvey Jones directing.

Thursday, Mrs. Elma Burleson led the program, "Arise and Go Into The City." Friday's program, "Enter Open Doors", was directed by Mrs. Blanton Martin.

Student Council Hosts Guests

Olton Student Council was host to more than two hundred guests at an open house held March 5. The event was in conjunction with a program, "Our Heritage in Song", sponsored by the Parent-Teacher Association.

Among exhibits on display was an antique collection, composed of students from the classes of Mrs. Linnie Campbell. Approximately one hundred articles were shown. Other attractions of the evening were posters on patriotism and similar themes. The posters were made by history students.

Rural Accidents Are Reported

The Highway Patrol investigated nine rural accidents in Lamb County during the month of February according to Sergeant D. S. Lawson, patrol supervisor of this area.

These wrecks accounted for three persons killed, twelve persons injured and an estimated property damage of $9,515.00.

The rural traffic accident summary for Lamb county for the two months of 1963 showed a total of 19 crashes resulting in four persons killed, twenty-two persons injured and an estimated property damage of $20,435.00.

The Patrol Supervisor reported that a new hazard has been added to the traffic picture. You may not realize it but the current hiker fad has added an element of danger to driving. The Sergeant added that everyone who decides to make one of these 50 mile hikes, or a 25 mile hike should be aware of the traffic dangers that are involved and also that all Texas drivers should be alerted to the fact that these pedestrians may cause a certain amount of danger. Hiking today is a great deal different than it was 20 years ago. With Spring just around the corner more pedistrians will be seen on our streets and highways and it is important that all drivers recognize this hazard and be prepared to take evasive action if necessary.

Youth Revival Planned At Hart Camp Church

A revival meeting is scheduled April 7 through 14 at the Hart Camp Baptist Church.

Evangelist will be the Rev. Mervin Tennyson, who is pastor of Highland Baptist Church in Eunice, N.M.

Kerwin Oliver will lead the singing with Mrs. Floyd Prentice at the piano. Everyone is welcome.

AHEAD of its time

that's the NEW AERMOTOR SUBMERSIBLE PUMP

- Stronger Than Ever
- Quieter Than Ever
- More Gallons Per Dollar Than Ever

It's as up-to-date as tomorrow's newspaper. Aermotor's new Model "S" Submersible handles deep wells down to 600 feet. Its maximum capacity now ranges to 1900 gallons of water per hour. With new pump parts molded from the miracle plastics of DuPont and Borg-Warner, these 18 models are now running ahead of comparable brass pumps when it comes to lighter weight, quieter operation and economical performance. Fully automatic operation. You sit back and relax. Pump never loses prime, never freezes, never needs oiling. Easy to install on 4-inch diameter and larger wells. Come in and ask us about the new Aermotor sub today . . .
