CROWLEY SET TO DIE IN CHAIR TONIGHT AT SING SING

(By The Associated Press)

OSSINING, N. Y., Jan. 21.—Francis Crowley, scrawny youth who lived all his 20 years in New York and can scarcely write his name, cut out the last of his paper toys today and stole glances at a picture of the electric chair pasted on his cell wall. He will die in the chair at Sing Sing tonight for murdering a policeman.

"I didn't want to forget it," said Crowley, explaining with a leer why he pasted up the picture of the chair when they put him in the death house.

Experts tried to find in his past the reasons why the twisted youth raged through the series of crimes that brought him the nickname "Two-Gun."

He was the son, his attorney said, of Dora Dietz, a servant girl, and a private policeman who never married her. Shortly after birth he was taken to the baby farm of Mrs. Anna Crowley, the lawyer said. Growing into adolescence with a mind retarded, he turned from school to tawdry dance places and shady resorts.

His name was linked with a series

HEX DOCTOR IS SUSPECTED

WEIRD SYMBOLS FOUND CARVED ON HEAD OF SLAYING VICTIM

By The Associated Press)

PHILADELPHIA, Jan. 21—The hand of a Pennsylvania "Hex Doctor" was seen by authorities today in the mysterious slaying of Norman B. Bechtel, Mennonite church worker. Weird symbols were found carved on Bechtel's forehead.

The man found dying early yesterday on a vacant estate in the Germantown section was a native of Boyertown, Pa., and spent his youth in a region where "the Hexes" and other witchcraft cults have held sway.

Police Baffled

For hours after the victim was found police were baffled in their search for a motive for the slaying. It was at first believed the man had been so brutally clubbed as to make his features unrecognizable. He also was stabbed 12 times.

Robbery was considered as a possible reason for the crime but police were not satisfied that was the solution. Bechtel also was thought by some investigators to have been the victim of mistaken identity. Last night, examination of Bechtel's body at the morgue, brought to light the curious markings on his forehead.

Small crescents had been cut on each side of his forehead and a horizontal cut about one inch long was under each crescent. Another cut, starting just below the hairline, ran straight down to the bridge of the nose and two others ran diagonally upward from each eyebrow.

Mexican Cabinet Is Reorganized Today

MEXICO CITY, Jan. 21 (AP)—The Mexican capital awoke today after a week of insistent rumors to find a reorganized cabinet in power—a cabinet containing four new members and four carryovers from the old administration.

The four members who dropped out were Finance Minister Montes de Oca, Foreign Minister Genaro Estrada, Minister of Communications Gustavo P. Serrano and Minister of Industry Aaron Saenz.

PARKER STILL HELD

WICHITA FALLS, Jan. 21 (AP)—James E. Parker, wealthy oil operator and refinery owner, was still in jail here today on a charge of assault to murder while hospital attendants reported that the condition of his estranged wife remained critical.

Ruth Judd Denounces Alienist In Court

TESTIMONY IN MURDER CASE IS STARTED

LEAPS FROM CHAIR TO ORDER PSYCHIATRIST FROM COURTROOM

(By The Associated Press)

PHOENIX, Ariz., Jan. 21.—Winnie Ruth Judd leaped from her chair during her murder trial today to denounce Dr. Joseph Catton of San Francisco, prosecution alienist.

"You get out of here," she cried, rising with tensed muscles and flashing eyes as the tall psychiatrist approached her chair during a brief court recess.

"Make him get out! Make him get out!" she appealed to her attorneys.

"I won't have you near me," she swung again to confront Dr. Catton. "You talked about me. Get out!"

Alienist Amazed

Dr. Catton, nonplussed and amazed, backed away then turned and left the room as defense counsel, the matron and Dr. George W. Stephens, defense alienist, attempted to quiet Mrs. Judd.

The defendant finally was persuaded to return to her chair, muttering "I won't have him near me. He talks about me. He's acted like a little boy."

She sat nervously clasping and unclasping her hands, glaring angrily at the doorway through which Catton had disappeared.

Mrs. Judd is facing trial for the slaying of Agnes Anne Leroi and Hedvig Samuelson, her friends, here last October, and sending their bodies to Los Angeles in trunks. Testimony started today following two days spent in selection of a jury.

Scores of milling spectators stormed the stairway of the county court house today in an effort to reach Judge Howard C. Speakman's court room to hear the first day of testimony.

One woman jammed in the packed corridor outside the court room fainted twice before deputy sheriffs could force their way to her side. She was removed to an ante room and revived.

COTTON PLAN IS OFFERED

LAMESA C. OF C. HAS PROPOSAL TO AID IN PRICE RECOVERY

LAMESA, Jan. 21 (Special)—A plan to reduce cotton acreage and stimulate lint prices for 1932 is being advanced by the agricultural department of the Lamesa Chamber of Commerce, which was outlined before that body by Judge J. E. Garland, local attorney, this week. Copies of this plan have been mailed to all congressmen, U. S. senators, President Hoover, and members of the Federal Farm board, as well as officials of the Cotton Co-operatives of the South. It is believed here that the plan is workable, and if given thought by those who desire to be helpful in reducing cotton acreage and stimulating the price of lint in 1932, the leaders and those in power will have rendered one of the biggest services to the cotton growing sections of the nation possible at this time.

FATHER OF TECH STUDENT KILLED

BIG SPRING, Jan. 21 (AP)—W. J. Flowers, 55, was found shot to death today near a viaduct under the Big Spring railroad yards. Two bullet holes were near his heart.

Officers found a pistol about forty feet from the body. Blood stains were found on the viaduct about fifty feet from the body in another direction.

It was learned Flowers had left his home early this morning to go to work in a meat market where he was employed.

Investigators were unable to explain the shooting. The coroner withheld his verdict until all evidence could be studied.

Jack Flowers, junior liberal arts student at Texas Technological college, was a son of W. J. Flowers, whose body was found today at Big Spring. Jack Boyd, student Y. M. C. A. secretary, took young Flowers to his home at Big Spring this morning by automobile.

BAPTISTS ARE TO GATHER

MORE THAN 200 ARE EXPECTED HERE FOR MEETING FRIDAY

Between 200 and 300 persons are expected at a district meeting beginning at 10 o'clock Friday morning at the First Baptist church here in the interest of Baylor college at Belton and to foster Christian education generally.

It will be the first district meeting of the Baylor college campaign for $750,000, of which $150,000 is to be raised on debt this year. Dr. C. V. Edwards, vice president and general director of the drive, said.

The district No. 9 is composed of 21 counties and representatives are expected from every part of the territory.

Twenty-minute messages will be delivered by Doctor Edwards, Rev. R. E. Day, pastor of the First Baptist church at Big Spring; Dr. G. L. Yates, pastor of the First Baptist church at Amarillo; Miss Pauline Wright, director of young people's work at the First church here, and Dr. J. C. Hardy, for 20 years president of Baylor college, an institution for young women.

Rev. F. C. Rogers, pastor of the First Baptist church at Spur, will have charge of the devotional and song service at 10 o'clock Friday morning. Rev. Mr. Day will follow, speaking on "Reselling Our Baptist Schools to Our Constituency."

Uriburu Regime In Argentine Attacked

BUENOS AIRES, Jan. 21 (AP)—The first Argentine legislative session since the revolution of 1930 established itself in the long-quiet legislative halls today and began by launching a bitter oratorical attack on the defacto government of President Uriburu, which has held the power since the revolution.

At the same time newspapers attacked the president's new income tax decrees of yesterday, declaring he had no authority to make such changes in the taxing system without legislative action and predicting the courts would hold them unconstitutional.

VESUVIUS BECOMES DARK AFTER NEW EXPLOSIONS; SCIENTISTS PUZZLED

(By The Associated Press)

NAPLES, Italy, Jan. 21.—Ancient Vesuvius presented a new problem to scientists today after fresh growlings and explosions last night.

The problem is: Why has Vesuvius' light gone out?

No one was hurt by last night's demonstration which consisted of a light earthquake shock and loud explosive noises and rumblings underground.

As soon as the explosions ceased, the crater, which always has been aglow at night by internal fires, had become cold dark and remained that way. Scientists today began an investigation to determine why.

An observatory, a military police barracks, a convent, a railroad and a hotel on the volcano's side "danced," reports said, during the disturbance but remained upright. Their quake-proof construction saved them, observers said. The motion of the movement was perpendicular and they were actually lifted up and set down again. Many of the occupants were asleep at the time but they vacated the buildings afterward and huddled on the mountain, wondering what the raspy old hill would do next. The rumblings continued two hours.

FIND CLUE IN KIDNAPING

SEARCH BEGUN AFTER WOMAN ASSAULTED

HONOLULU AROUSED BY ANOTHER ATTACK ON A WOMAN TODAY

(By The Associated Press)

HONOLULU, Jan. 21—Honolulu was aroused today to a fresh manhunt after another attack on a woman.

Mrs. Toka Okazaki, 29, mother of two children, complained to police she had been assaulted near John Rodgers airport by a man she identified through a photograph as Daniel Lyman, escaped Portuguese-Hawaiian murderer.

Prepare for Probe.

The assault occurred as authorities were preparing to place before the grand jury evidence in the lynching of Joseph Kahahawai, Hawaiian, alleged attacker of a navy officer's wife, and as the territorial legislature in special session was seeking a formula for better law enforcement to overcome hoodlumism in Honolulu.

It was the third serious assault case reported to authorities since last September when Mrs. Thomas R. Massie, strolling alone early in the morning after leaving a party, was the asserted victim of five youths. The five later were tried, the jury disagreeing. The four still alive are awaiting retrial.

Mrs. Massie's mother, Mrs. Granville Fortescue of New York and Washington; her husband, Lieutenant Massie, U. S. N., and two navy enlisted men, Albert O. Jones and E. J. Lord, have been charged with slaying the fifth man, Kahahawai.

Mrs. Okazaki said she went motoring last evening with Takeo Harimoto driving toward the airport, which is six miles from the center of the city in the direction of Pearl harbor. Returning, they had paused near the entrance of the air field, when a shot was heard.

Harimoto said he looked out of the car and was stunned with a blow from a revolver. Recovering, he said the gunman made him back the automobile about 50 feet, get out and march to the nearby railroad tracks, to which he was bound with a fish line.

Mrs. Okazaki said the gunman then returned toward the car, caught her when she tried to escape, robbed her of $1.25 and assaulted her.

Long's Ticket Is Swept Into Office

NEW ORLEANS, Jan. 21 (AP)—Huey Long's state ticket, from governor to land office register, have been swept into office on a tide of ballots that has reached the unprecedented total of 286,763 with 337 precincts yet to be counted from Tuesday's Democratic primary, the equivalent to a election to office in Louisiana.

Lagging returns from the country parishes added today to the complete vote in New Orleans gave O. K. Allen, Long candidate for governor, a majority of 53,199 over the entire field of gubernatorial aspirants. His vote stood at 169,981 on figures from 1104 precincts out of a total of 1441.

OUT-OF-TOWN VOTERS SEND BALLOTS IN TO KEEP ROOSEVELT AND GARNER IN LEAD; POLL WILL END SATURDAY

With out-of-town ballots more numerous than Lubbock ballots for the first time since the poll began, participants in The Avalanche-Journal's South Plains-wide Presidential 'Straw Vote' ran their total number of votes to 720 up to noon today and continued to give commanding lead to Governor Franklin D. Roosevelt, of New York.

Residents of surrounding counties and in every South Plains city and town, have sent a deluge of ballots into the 'straw vote' during the past two days, but apparently their favorites are similar to those of Lubbock people.

Final Announcement Sunday

The Plainsman, Daily Journal columnist who is conducting the poll at the request of James A. Farley, chairman of the Democratic Executive committee of New York, announced this morning that the poll will close on Saturday afternoon at 6 o'clock. All votes received up to that hour will be tabulated and the final announcement of the standing of candidates will be made in the Sunday Avalanche-Journal. The ballots will be continued in each paper between now and Sunday.

TABULATION MADE AT NOON ON THURSDAY

Tabulation at noon Thursday disclosed the following figures in The Avalanche-Journal's South Plains-wide Presidential "Straw Vote": Franklin D. Roosevelt, New York Democrat, 235; John Garner, Texas Democrat, 162; William H. Murray, Oklahoma Democrat, 104; Norman Thomas, New York Socialist, 57; Herbert Hoover, California Republican, 41; Alfred E. Smith, New York Democrat, 38; Newton D. Baker, Ohio Democrat, 22; Melvin Traylor, Illinois Democrat, 20; Calvin Coolidge, Massachusetts Republicap, 16; Owen D. Young, New York Democrat, and Jim Reed, Missouri Democrat, 6 votes each; Albert C. Ritchie, Maryland Democrat, 4; Clarence Darrow, Illinois, Independent Democrat. Will Rogers, Oklahoma Democrat and Charles G. Dawes, Illinois Republican, 2 votes each; Tom Connally, Texas Democrat, 1 vote.

Will support party nominees regardless of personalities, 360.

Will not support nominees if they do not suit voter: 149.

Those who failed to indicate party loyalty: 209.

Those who will support nominees if dry: 2.

With the exception of Calvin Coolidge, Massachusetts Republican, who moved up and out of a tie with Jim Reed and Albert Ritchie, Democrats, there was no change in the standings as announced Thursday morning. John Garner, Texas Democrat, held second place, followed by William H. Murray, Oklahoma Democrat, and Norman Thomas, New York Socialist.

Hoover Leads Smith

Herbert Hoover, present Republican incumbent, continued to lead his 1928 rival, Alfred E. Smith, New York Democrat, by a few votes and the balance of the candidates trickled along without showing much, if any, new strength.

Clarence Darrow, famous Chicago criminal lawyer, an Independent Democrat, got his name into the poll. He received two votes.

Proponents of party loyalty kept their lead over the group which will not agree to support a party regardless of personalities. Those who will "vote 'er straight" regardless, are

FEAR IS HELD FOR SAFETY OF VICTIM

CAR USED BY KIDNAP BAND FOUND TODAY BY OFFICERS

(By The Associated Press)

DENVER, Jan. 21—Finding of the motor car used by kidnapers of Benjamin J. Bower, 62, held for $50,000 ransom, gave police their first major clue today as relatives of the bakery corporation manager expressed fear he had been slain.

An offer of $500 for information leading to the arrest and conviction of the kidnapers was made by Denver officials after the car was found abandoned on the outskirts of the city. Fingerprints were taken from it.

The wife of the victim appealed through the press to the abductors not to kill her husband because police were called in violation of instructions of the men who took him from their home Tuesday night.

"I cannot pay the ransom," she said. "I haven't the money and the kidnapers haven't communicated with me as they promised."

As the hours passed, her apprehension grew and was reflected in the attitude of officers.

"They must do something soon," said Chief of Police Albert T. Clark. "They can't hold him much longer. They'll either turn him loose or kill him."

Stephen Knight, sr., president of the bakery and the man the gunmen said "could pay to get Bower free," was ill at his home and had not been informed of the kidnaping.

Injunction Affects Utility Companies

AUSTIN, Jan. 21. (AP)—An injunction restraining the San Antonio public service company from engaging in merchandising in gas and electrical appliances likely will affect Texas utility companies generally, attorneys said here today.

Judge C. A. Wheeler of Travis county district court, after a trial lasting two weeks, ruled yesterday that the San Antonio corporation had no authority to engage in merchandising of appliances.

FOUR JAILED ON KIDNAP CHARGES

AMARILLO, Jan. 21 (AP)—Charges of robbery with firearms were filed today against S. R. Carter, Floyd Carter, S. A. Herring and Billy Culwell, former assistant Potter county attorney, in connection with the kidnaping Tuesday night of Warrington Durrance of El Paso.

Officers said Durrance was positive in his identification of the four men, as the group who kidnaped him from a downtown street, kept him under guard three hours, then stripped him of most of his clothing and set him afoot ten miles from town.

The men were held without bond.

Culwell is under $5,000 bond on a burglary charge in connection with the looting of the Booker, Texas, bank Dec. 23. Three other men and a woman were charged in connection with the burglary.

JURY ANSWERS STATUTE NOT REASONABLE

FATE OF LAW WILL BE DETERMINED WHEN JUDGMENT GIVEN

(By The Associated Press)

HOUSTON, Jan. 21.—A district court jury today held the state automobile license tax law discriminatory.

Judge Charles Ashe will render his judgment later, and the fate of the statute will not be settled, of course, until that time.

Injunction Sought

Harris county commissioners brought the suit to test the law, claiming it was discriminatory, in its apportionment of license fees collected as between the various counties and the state. The commissioners sought injunction to restrain County Tax Collector J. W. Hall from remitting to the state any fees collected in this county. Judge Ashe will determine whether the injunction is to be granted or denied.

The jurors answered "no" to this special issue:

Is the classification of the 254 Texas counties into three groups reasonable?

They answered "yes" to the second special issue:

Is the classification by which Harris, Dallas, Bexar, Tarrant and Jefferson counties each receive only $175,000 (from the fee collections) arbitrary as between the five counties?

Counsel for the plaintiffs filed a motion for judgment immediately after the jury had reported.

The classification into three groups allows counties collecting up to $50,000 in license fees to retain all their collections; permits counties collecting more than $50,000 to retain half of all collections in excess of that amount until their respective shares shall have reached $175,000; requires all collections above the $175,000 figure to be remitted to the state highway department.

System Held Unfair

In Harris county annual license tax collections are around $1,000,000 and they are similarly high in the four other "big" counties. The local commissioners contended the statute operated unfairly against this and the other "big" counties in that they were allowed to retain for their own use only a small percentage of their total collections, whereas many small counties were permitted to retain all their collections. The burden of building state highways the commissioners argued, thus was left primarily with the five large counties.

The state highway department was a co-defendant in the suit.

FLOYD OBJECT OF MANHUNT

HUNT FOR OKLAHOMA BANDIT CENTERED IN HILL COUNTRY

(By The Associated Press)

OKLAHOMA CITY, Jan. 21—The hunt for Charles "Pretty Boy" Floyd was concentrated today in the eastern Oklahoma hill country where the young desperado was reputed to have a fortified hideout.

State and county officers, who gathered at Muskogee, were keeping their movements secret as they sought the outlaw chief and his henchmen.

Pottawatomie county officers in the central part of the state were checking a report of C. E. Votaw, a farmer, that he saw Floyd and George Birdwell on his farm near Earlsboro. Votaw said he knew Birdwell. Floyd's lieutenant, and believed the man with him was the elusive bandit on whose head rests a $4,000 "dead or alive" price.

Meanwhile, investigation of a threatening note received by Robert Burns, acting governor, from Altus, in the southwestern corner of the state, continued.

"You will either withdraw the $1,000 reward at once or suffer the consequences—no kidding," the note said.

Burns said he had no intention of withdrawing the reward posted by the state.

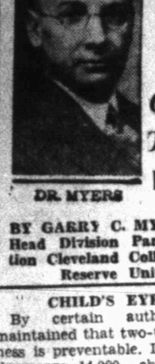

ACREAGE LAW IS CLAIMED INVALID

FRANKLIN, Jan. 21. (AP)—An effort to overthrow the Texas cotton acreage reduction law was based today on claims it violated both federal and state constitutions.

Arguments to that effect were made before District Judge W. C. Davis in the injunction proceedings brought by County Attorney T. L. Tyson against Fred L. Smith, farmer.

Tyson claimed a mortgage executed by Smith showed he intended to plant more cotton than the 30 per cent of last year's acreage allowed by the law enacted at a special session of the legislature.

Miss Mary Allen Is Bride Of Mancil Hall In Early Ceremony Today

DR. MYERS

Doctor Myers' Daily Column On Child Welfare

BY GARRY C. MYERS, PH. D.
Head Division Parental Education Cleveland College, Western Reserve University

CHILD'S EYESIGHT

By certain authorities it is maintained that two-thirds of blindness is preventable. In this country there are 14,000 children totally blind, shut out from the world of light, doomed to continuous darkness for a life-time. (Suppose your child or mine were among them.) In addition, 50,000 are partially blind. How many of these will entirely lose their sight will depend greatly on how intelligently they are treated and guided at home and at school.

Virtually all children of school age today have many times better light by which to read than did children of a hundred years ago; even far better than their parents had when they were children. Also school books are better for the eyes than then; the type is larger and more legible, the paper has less glare and the lighting of the schoolrooms is far better.

But the average child employs his eyes in reading much more now than then, and he reads a great deal of print today other than in school books, which is not very legible. He reads far more in his early school years.

With the better modern ways of teaching children to read at school, rapid reading skill is developed in most school children very early, and they deliberately are encouraged in the primary grades to read many books.

The brighter and more responsive children, and those less social and less interested in out-of-door life, are lured to books. Some ambitious parents teach their children before the age of entering school, to read.

Poor little tots! Why should they have their sight so jeopardized and their tender, inco-ordinated nervous systems so heavily taxed by the strain which reading calls for in these early years?

The education of children would, no doubt, be farther advanced at 16 if the school were to teach no reading at all before the age of 7 or 8. Certainly few people then would be blind, fewer would be wearing glasses, fewer ould be labeled "nervous." But the modern trend of education is for more tax on the eyes of little children, for more blindness.

• • •

What may we parents do about it? We can help protect the child's eyes by cultivating in him more out of door play interest and social pleasures. We can, moreover, lead him in good habits in regard to using his eyes. Many children read at home lying on their stomachs on the floor with their heads cutting off the light from the printed page, reflected from the ceiling. Most children not vigilantly guided will often violate good reading hygiene habits.

Our biggest opportunity to protect the eyes of young children is to read to them as early as the second year and to keep on reading to them for hours and hours long past the time of their entering school. Even though they lag in the mechanics of reading during the first few school years, they will compensate many times for this loss through the increased ability to grasp meaning, and by their gain in breadth of information and good speech. Besides, there is cultivated a wholesome comradship with the parent who reads to the child.

Young Couple Will Reside In Lubbock

In a simple early morning ceremony at First Baptist church, Miss Mary Allen became the bride of Mancil Hall today at 9 o'clock. Rev. R. C. Campbell, pastor, read the ring service. A number of friends of the young couple attended.

After the wedding, Mr. Hall and his bride left for a short honeymoon. Upon their return they will be at home in an apartment at 1919 Broadway.

Mrs. Mamie I. Neal, pianist, and Miss Evelyn Jackson, violinist, played the nuptial music. The bride and groom entered together from the back of the church and were unattended. Ferns were banked about the altar. Three baskets of chrysanthemums completed the simple decorations.

Mrs. Hall wore a dark blue tailored suit with a powder blue blouse, dark blue straw hat and accessories and a shoulder corsage. She is the younger daughter of Mr. and Mrs. E. R. Allen, 2317 10th street, and has been residing here with her parents for several years. She is a former student in Baylor University at Waco and in Texas Technological college. At the latter school she is a member of Sans Souci club.

Mr. Hall, son of Mrs. Christine Hall, 1018 Avenue K, has grown to manhood in Lubbock. He is a graduate of the Lubbock High school and of Texas Technological college. For several years he has been a salesman with the Lubbock Auto company. He has been a member and leader of Tech and church orchestras for several years.

Ushers were the groom's uncle, Harry Morris, Culver Hill and Fred Fairly.

Two Women Have Courtesy At Meet

Two members of the Wolfforth Home Demonstration club were complimented with farewell gifts Tuesday afternoon at a meeting of the club with Mrs. M. T. Daniell. A lesson on cheese making was given by Mrs. Ed Schroeder, also.

Mrs. W. K. Dixon, who has been teaching music and teaching in the Wolfforth Sunday school, was presented with a Bible. Mrs. B. Landers, vice-president of the club, was given a farewell shower of gifts. Refreshments were served.

Those who attended were Mesdames Jim Peeler, D. C. Beebe, Ed Schroeder, Ernest Schroeder, O. F. Corley, A. Rich, H. A. Sullivan, Joe Hoyle, J. C. Hill, M. M. McReynolds, J. D. Fraley, B. COLDS THAT DEVELOP INTO PNEUMONIA

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist. (adv.)

HIGH SCHOOL CAGE TOURNAMENT OPENS FRIDAY

TECH MATADORS OFF ON BASKETBALL TOUR

THIRTY TEAMS TO PLAY AT GYM HERE

FIRST ROUND GAMES ARE TO BEGIN AT 8 A. M. TOMORROW

The first annual Lubbock High school basketball tournament for boys' teams will get under way at 8 o'clock tomorrow morning at the new high school gymnasium. Thirty teams of West Texas have signified intention of being here by remitting entry blanks properly filled.

First round games, determined by drawings, were announced yesterday through the Lubbock Chamber of Commerce, an important factor in the so far success of the tournament. In order to simplify the secondary games, two teams have drawn byes in the first round. They are Wilson and Big Spring.

First round games and the time of day at which each team is asked to report to Coach McMurry at the high school gymnasium are as follows, though the time mentioned here is not the time at which the games will be played:

Abernathy vs. Carlisle, 8 A. M.
McClung vs. Hurlwood, 8 A. M.
Hardy vs. Meadow, 9 A. M.
Lubbock A vs. Hale Center, 9 A. M.
Slaton vs. Bula, 11 A. M.
Levelland vs. Wellman, 11 A. M.
Monroe vs. Dickens, 11 A. M.
Lubbock B vs. Wolfforth, 12 Noon.
Shallowater vs. Littlefield, 12 Noon.
Grovesville vs. Ropesville, 1 P. M.
Sudan vs. Anton, 1 P. M.
Ralls vs. Kress, 2 P. M.
Spring Lake vs. Estacado, 2 P. M.
Friona vs. Morton, 4 P. M.

Wilson and Big Spring are requested to report at the high school gymnasium at 4 o'clock Friday afternoon.

It is especially important that representatives of the teams report at the hour named above. Failure to report at the given time will mean forfeiture of the game, it is announced.

Second and third round games will be played Saturday morning, with the semi-finals and final game scheduled for Saturday afternoon and Saturday night respectively.

Business men of Lubbock have subscribed generously to a fund to be used in purchasing trophies for winners, runners up, individual leaders and performers and a tournament prize. The trophies have been ordered and will be ready to distribute at the close of the tournament.

CAMPUS TEAMS TO COMPETE

INTRAMURAL FOOTBALL SEASON WILL OPEN HERE SATURDAY

The annual Texas Tech intramural football playing season will open Saturday afternoon with the four teams engaging in a double-header.

The first game, starting at 2 o'clock, will feature the Aggies and Engineers, while the Liberal Artists, defending champions, and Army engage in the nightcap.

A list of officials have been approved by the athletic board and will divide time in the intramural games. W. B. Chapman, Burl Huffman, "Mule" Davis, J. H. Goodman, "Dede" Lassiter, Bill McWilliams, Ben Condray, Del Morgan, Clarence Hodges, Tad Tadlock, Ross Ayers, Ed Hambright and H. C. "Gray Eagle" Pender have been approved as officials.

Varsity letter men are coaching the four teams, each team using a different style of offense.

The teams probably will play on each Saturday afternoon for the next five weeks. On January 30 the Liberal Artists will meet the Aggies and the Army will play the Engineers. The following Saturday will find the Army and Aggies playing the first game with the Engineers and Liberal Artists following up. Afterwards, the same schedule will be played over again.

Freddie Lindstrom No Longer Holdout

NEW YORK, Jan. 21 (AP)—The holdout list of the New York Giants, for a time the most virulent in either major league, was further reduced yesterday with the receipt of Freddie Lindstrom's signed contract.

Only three Giants now remain as avowed holdouts. They are Bill Terry, first baseman, Freddie Fitzsimmons, pitcher, and Fred Leach, outfielder.

Paving Bids Will Be Received Here

Bids for paving of about three and a half blocks on Avenue H between the underpass and the beginning of the state highway No. 9 slab will be received by City commission February 5.

The specifications given in the city's advertisement for the bids are: 6,023 square yards of paving and surfacing; 2,592 linear feet of curbing and gutter; 460 linear feet of concrete valley gutter.

Change Made In Tech's Schedule

The department has a big, black crow to pick with certain basketball fans of Lubbock. It was most gratifying to the old maestro's heart, as well as to the hearts of those more personally concerned in the business offices of Tech, to see nice turn outs to the games this week, but it was indeed regrettable that a show of unsportsmanlike conduct appeared in the stands.

• • •

We point, of course, to the boos and jeers that were aimed at the games. Most of the unkind remarks, razzberries and whatnots came, sad to say, from the Tech student section. It was mighty fine to see a large number of students at the game, but it was not typical of sportsmanship to hear them cast jibes at the referee. Oh, it was not so awful bad, but it was unfriendly. Why, oh why can't fans learn that referees and umpires are the high authorities, that razzing is is most futile and unnecessary, that no number of jeers and boos can change the referee's decision. Moreover, it is costly to the home team.

• • •

A less kind hearted official than Mr. Kimbrough, who did a nice job of refereeing the Canyon-Tech series, might have noticed the verbal tomatoes and caused a lot of grief. He could have imposed fouls on the home team and let the other side shoot from the free throw line all night and would have been perfectly within his rights. We've seen it done too many times. And as long as the fans booed the invading team kept shooting at the basket.

• • •

Ed Olle, basketball coach at the University of Texas and honored as one of the most sportsmanlike athletes ever turned out at the Longhorn institution, has definite ideas along the line of fan conduct at basketball games. "Referees have been agreed upon by the coaches of both teams," Olle says. "They are competent, efficient, carefully selected, and above all, are guests of the university. They should be treated with respect due a guest." An official gets paid to call fouls and enforce penalties, and it is a violation of the basketball rules, the basketball code of ethics, when home fans razz the referee.

• • •

Our friend Mack Saxon, athletic director at the Texas College of Mines, offers to his former coach and adviser, Peter Willis Cawthon of Texas Tech, suggestions for a football schedule for 1933. Always the wise cracker, Saxon has seen the humorous side of Tech's heavy schedule for next season and has been kidding the Border Conference coaches about it. Here's is Saxon's suggestion for a schedule Tech might angle for in 1933:

September 10—Texas Miners.
September 17—Southern Methodist.
September 24—Army.
October 1—Southern California.
October 8—Notre Dame.
October 15—Tulane.
October 22—Navy.
October 29—Yale.
November 5—Canyon Buffs.
Nov. 12—Stanford U.
November 24—Tech Freshmen.

• • •

Not a bad schedule at that, even if it does have only eleven games. September 10, before the fall term opens, would be a good time to meet the Miners. At least the El Pasoans would have a chance. Closing the season on Thanksgiving with the Freshmen will be o. k. if the frosh next year compare with the 1931 turnout. But why not substitute Northwestern for Canyon, Pittsburgh for Navy and Harvard for Yale? The Elis were strong last year but Harvard was practically as strong, and the Bulldogs are usually stronger. Otherwise Saxon's suggestion is just pretty good.

• • •

Seriously, Tech has again changed the schedule for 1932. It has been changed three or four times already, and we're not announcing anything definitely until we see the teams lineup on the field. Then we'll get someone with a big megaphone to stand in front of the grandstand and announce the teams who are to play. Right now the Panhandle A. and M. of Goodwell, Okla., are on tap for the coming date, September 17. And Austin College's Kangaroos are supposed, according to announcement made yesterday, to come here on October 7. The Kangaroos, you know, were formerly coached by Professor Cawthon, and the teams of those days were embellished by the presence of such notables as Dutchey Smith, Captain Del Morgan, Henry Frnka and Mack Saxon. That was before their hair turned gray or came out altogether.

PANHANDLE A. AND M. TO COME HERE FOR OPENING GAME

The Texas Tech Matador gridsters will open their 1932 schedule with Panhandle A. and M. of Goodwell, Okla. The game is to be played here on September 17, according to latest advisement from the Tech athletic department.

Another definite announcement was made relative to a date, hitherto unsettled. The Austin College Kangaroos, formerly coached by Pete Cawthon, will play the Matadors on the Tech field October 7. With the exception of Burl Huffman, assistant high school coach every mentor in Lubbock with the college and high school once attended and played football at Austin College, Sherman, Texas.

Efforts to procure a game with the New Mexico Aggies failed when Coach Jerry Hines of the Las Cruces school announced his schedule complete with the exception of one date, and that date conflicts with one of Tech's games already under contract.

It was also necessary to cancel plans for a game with Oklahoma A. and M., since open dates could not be found to correspond.

The Tech schedule is still not complete. November 4 is still open, and it may be that a game with one of the Border Conference schools can be arranged. Tech's membership in the Border Conference becomes effective in September, but the Matadors have only three games scheduled with Border loop teams. Rules of the conference do not stipulate the number of conference games a school must play.

The 1932 schedule, with its revisions, was announced yesterday as follows:

Sept. 17—Panhandle A. and M. at Lubbock.
Sept. 24—Texas A. and M. at Amarillo.
Oct. 1 — Southern Methodist, at Dallas.
Oct. 7—Austin College at Lubbock.
Oct. 15—U. of Arizona at Lubbock.
Oct. 21—Colorado Mines at Denver.
Oct. 28—Notre Dame "B" at Lubbock.
Nov. 4—Open.
Nov. 11—Baylor University at Lubbock.
Nov. 18—U. of New Mexico at Albuquerque.
Nov. 24—Simmons U. at Lubbock. (Possibly a post-season game with Texas School of Mines).

Three-Cornered Tie In Billiards Meet

CHICAGO, Jan. 21 (AP)—The fancy cue of Arthur Thurnblad is still a threat to the challengers of his three-cushion billiard title.

In a thrilling struggle last night he defeated Len Kenney to enter a three-cornered tie for the lead in the 1932 championships.

Johnny Layton, ten times a three-cushion king, and Frank S. Scoville shared the top rung with him, claiming two victories and no defeats.

Thurnblad's victory last night was hard earned and the score was 50 to 41 in 47 innings. In an earlier contest Scoville surprised even his own followers by turning back the veteran Gus Copulos of Eugene, Ore., 50 to 34 in 48 innings.

TEAM TO MEET SIMMONS IN FIRST GO

HORNED FROGS TO BE FOES OF TECHSTERS SATURDAY NIGHT

Coach "Delicate Del" Morgan and ten of his Texas Tech basketeers boarded a bus this morning and headed toward the south on the first leg of a journey that will consume ten days before they return home. Tonight they meet the Simmons University Cowboys, pace setters in the Texas conference, in the first of a two-game series.

Saturday night finds the Matadors in Fort Worth doing battle with the Texas Christian university Horned Frogs, defending champions in the Southwest conference. Next week they invade Oklahoma for games with three Oklahoma Intercollegiate conference teams, including the Ada Teachers, Durant Teachers and Weatherford Teachers, all high rating teams of the conference, and Oklahoma City university of the Big Four conference.

Clarence Hodges, Alvin Crews, Haden Moody and Aud Darr, forwards, Harold Crites and Leon Fisher, centers and Captain Tad Tadlock, Harvey Dunn, "Bulldog" Hale and Emmons, guards, are making the trip.

They have played six games, have the Matadors, and have won half of them. Not such a high winning average but they were not due to win two of the three lost. The West Texas Teachers practically had a pair of victories in the sack before they arrived in Lubbock for games last Monday and Tuesday nights. The Matadors divided a series with A. C. C. and swept a stand with the Wayland College Jackrabbits.

Play Cowboys Two

In Simmons' Cowboys, the Matadors face a band of cagers who are intent upon walloping thunder out of the Matadors and thereby gain a measure of revenge for the football defeat dealt them on Thanksgiving. The Tech lads are just as anxious to keep the winning streak going and they are due to put up a couple of great scraps in Taylor county. On a recent invasion of Central Texas, the Cowboys took victories over Howard Payne and St. Edwards to gain a good lead in the Texas Conference race.

AERIAL HOLDOUT LATEST THREAT

CHICAGO, Jan. 21 (AP)—American association clubs may produce a new kind of baseball holdout next season—the player who refuses to fly.

As Thomas Hickey, president of the class AA loop, studied the proposal to ship the clubs from park to park by air today, he admitted some difficulty would be encountered with those players who think flying is about as safe as a groove ball to Babe Ruth.

"No doubt we will have some aerial holdouts for a time if we go through with our plan to use planes," President Hickey said, "but I don't think we will be troubled very long. When the Columbus team flew last summer two of the players refused to fly. They were sent on by train but flew the next time with the rest of the boys and liked it."

American association club owners at a special meeting yesterday adopted a 168 game schedule to open on the eastern front April 12 and close Sept. 25.

Favorites Leading In Tennis Tourney

MONTREAL, Jan. 21 (AP)—The Canadian covered court tennis championships went into the quarter-final round of both singles and doubles competition today with favorites still in the running.

Led by George M. Lott, jr., of Chicago, who is defending his title for the fourth time, four players from the United States face four from Canada in the singles. Lott faces comparatively easy opposition today in Laird Watt, youthful Montreal player.

J. Gilbert Hall, South Orange, N. J., veteran, plays C. W. Leslie of montreal, second seeded Canadian player. Fritz Mercur of Bethlehem, Pa., faces Marcel Rainville, first of Canada's seeded players, and Berkeley Bell of New York meets Roland Longtin of Montreal.

SCHMELING'S FATE AS HEAVYWEIGHT CHAMPION IN HANDS OF N. B. A. JURY; EXPECTED TO BE DEPRIVED OF TITLE

CHICAGO, Jan. 21 (AP)—Max Schmeling's fate as undisputed king of the world's heavyweight rested in the hands of a National Boxing association jury today.

The jury, consisting of heads of 29 state commissions along with several in Canada and Cuba, was given the case on final instructions by General John V. Clinnin of Chicago, president of the N. B. A., who contended the German champion should be dethroned for failing to protect his title within the specified period of six months.

A poll taken by The Associated Press of several jurors indicated today Schmeling would be deprived of his title. With few exceptions, all the jurors were solidly behind General Clinnin.

Clinnin's decision to send out ballots came after the collapse of the Mickey Walker-Schmeling fight, scheduled for Miami, Fla. Schmeling's time limit to sign for a championship battle under N. B. A. rules expired Jan. 3.

The box industry hummed in Chicago today because of the passage of the state senate of the 15-round boxing bill, which would legalize 15-round matches for heavyweights only. The bill passed the senate and was sent to the house passage was regarded as certain. Chicago stadium officials, still hot after a Schmeling-Walker championship match here this spring, were optimistic over their chances to land the big match.

Although 83.9 per cent of Wisconsin farmers own automobiles, only 26.8 per cent have tractors and 27.6 per cent own motor trucks.

Golf Has More Luck And Skill

FOOTBALL RANKS FIRST IN THE REQUIREMENT OF STRATEGY, SPORTS EXPERTS BELIEVE

BY ALAN GOULD
Associated Press Sports Editor

NEW YORK, Jan. 21 (AP)—It may be difficult to convince the average duffer but golf, in the opinion of the nation's sports experts, simultaneously involves more luck and skill than any other branch of athletic activity.

They agree those two factors are the only ones involved in the pursuit of the royal and ancient game. Football leads all the rest where strategy is concerned and rowing is considered to require more strength and stamina than any other sport.

Those are the principal results of an Associated Press poll of sports editors' and writers' opinions.

The views are widely divergent as to whether golf requires more skill than baseball, or, in fact, whether tennis is not entitled to the call over either. On the basis of votes, golf leads with 24, baseball comes next with 19 and tennis is third with 17.

On the side of baseball the argument is advanced that it takes a greater all-around combination of capbilities to be successful at this sport than is the case of golf. It is pointed out that many ball players can shoot a fine round of golf whereas the golfers who could perform well on the diamond are few and far between.

Although you hear more often of the "breaks" in baseball, the game of golf is considered twice as lucky. The vote on this element of competition shows: golf 34, baseball 18, horse-racing 12, football and basketball 7 each, fishing 3.

"Football ranks first in the requirement of strategy," writes George White of the Dallas News, "the result usually depending about 60 per cent on correct diagnosis of the enemy's strength and weakness, a claim that is fairly well substantiated by results of important games, especially those in which little or unheralded teams beat the big shots. Of course chess or checkers might be given preference if you care to list them as sports."

At Wittenberg college, Springfield, O., self-help students who work from 30 to 40 hours a week get better grades than those working fewer hours.

Thought For Today

But he forsook the counsel of the old men, which they had given him, and consulted with the young men that were grown up with him, and which stood before him.—I Kings 12:8.

Necessity is the only successful adviser.—Charles Reade.

Making Restitution

A man walked into a Kansas City drug store the other day and insisted on giving the manager 50 cents. He explained that the store had given him 50 cents too much change upwards of two years ago, and it had been preying on his mind ever since; so, having given it due thought, he finally came in and made restitution.

Little incidents of this kind aren't uncommon. Almost every storekeeper has experienced them. Public officials are forever getting tiny sums from conscience-stricken citizens who got away with something on their tax bills a decade or more ago. It happens all the time.

But the funny thing is that it's almost always on such picayune littlewrongs that conscience does its most effective work. When a man decides to make restitution for some long-dead misdeed, the total cash involved is generally something under five dollars. We seem better able to live with mortal sins than with venial faults.

And this, very likely, is due to a queer quirk in human natuer; a quirk that enables us to get along with our consciences by picking out for atonement some perfectly trifling peccadillo that our creditor has long since forgotten. Paying an ancient 50-cent debt is a kind of salve that eases the smart of much larger debts which never will be paid.

It may be that that is simply our way of recognizing that we are helpless. For the really damaging mistakes that we make—the bits of folly and blindness that keep us awake nights—are things for which we can never, by any means, make restitution. The friendship that we shattered, years ago, the youth whose ideals we carelessly demolished, the person whose life we helped to make bitter by prejudice or misunderstanding—these things we cannot remedy. To try to turn back the clock is foolish, to try to set right an old wrong is in many cases, equally futile.

So we pick out some little thing, put it right, and hope that conscience will be appeased.

Heartless Sport

An English court the other day dismissed charges of cruelty to animals which had been brought against officials of a hunt club following a stag hunt.

The S. P. C. A. had filed the charges, pointing out that the stag had been carried to the scene of the hunt in a cart, and had peacefully stopped to graze upon being released. Chased away, it had trotted into a flock of sheep and had stopped to graze again. Chased again, it ran back to the spot where it had been liberated, and was induced to give the hunt club a run for its money only after repeated urging. Finally, being imbued with the proper amount of fright, it ran to a river, plunged in and swam through icy water to escape.

One can hardly help feeling that the verdict of acquittal came chiefly because stag hunting is a game played exclusively by the "right sort of people," and not because the S. P. C. A. had failed to prove its case. That kind of hunting is picturesque, glamorous and all of that; but it is also a bit heartless.

Members of the Alimony Club jailed at White Plains, N. Y., have radios in their cells. Which, with all the crooners on the air, is almost reverting to capital punishment.

Bat Battalino forfeited his featherweight title by being too heavy. Which goes to show that while fighters get paid by the wallop, only wrestlers get paid by the pound.

* * *

Yet a writer asks what the sexes think of each other. Well, they probably don't "no!"

That Girl on Broadway says no woman would be two-faced if she had to buy cosmetics and facials for both of them.

* * *

The Literary Digest, quoting a Florida Democratic paper says: "If we Democrats expect the people to put us in charge of the nation's finances we'd better keep it a secret that we paid $100 for that slogan, 'Hee, Haw! We're coming back!'"

* * *

THERE are only eight more days in which Lubbock and South Plains people may pay their poll taxes and thus far only a slim percentage of the otherwise qualified voters of this section have secured the receipt which assures a ballot in two primary elections and a general vote next November.

That's bad business, especially considering the present problems of government, unrest of the time and the fact that West Texas is endeavering to convince the state and the politicians that it has much strength at the polls.

* * *

A prominent local politician, discussing the poll tax situation with The Plainsman yesterday, made this comment:

"If the folks don't pay their poll taxes they ought to padlock their mouths when the campaigns start.

"A man without a vote is no more good to the party or the country from a political standpoint than he was when he was a babe in arms".

* * *

AND that's right. The statutes say you can't vote unless you pay a dollar six-bits for the privilege and although The Plainsman agrees with those who say the poll tax is unjust there's nothing to be done about it right now.

The only thing we can do is pay it and like it—but the big thing is to pay it.

* * *

Nineteen-Thirtytwo bids fair to be the most important political year since the old days of the Klan and Anti-Klan controversies. In many respects, it appears to be more important.

But thus far there are only about 2,500 poll taxes paid in Lubbock county when there should be something more than 8,000—and other South Plains counties are in direct ratio.

* * *

PAY that poll tax tomorrow for sure. It'll be worth a dollar six-bits just to be able to vote against members of the state senate who are running for state-wide office and who discriminated against West Texas when Congressional Re-Districting came up. At least one of those gents is figuring on running as a Congressman-at-large—Mr. George Purl, of Dallas—and it ought to be worth five bucks of any West Texan's dough to vote against him.

* * *

Don't forget this

Poll taxes may usually be paid up to 6 p. m. on January 31 but this year January 31 comes on Sunday so 6 p. m. Saturday, January 30, is the deadline.

And you can pay your poll tax WITHOUT paying your property tax or buying a 1932 car license.

Dig up that dollar six-bits some way or another and put yourself in a position to do some tall voting in July, August and November!

* * *

That Man on Avenue Q says a real man, after climbing to the top doesn't forget those who held the ladder for him.

* * *

"Tolerance" is having the ability to excuse the other fellow for doing the things that you do.

* * *

WINTER cattle feeding projects in Lubbock—and they are more numerous and more important than the average citizen realizes—have given this city another place in the sun.

Only yesterday a half dozen men journied from Midland to Lubbock to find out what's being done along that line here and frankly said that they intended to copy Lubbock's lead in this regard.

* * *

There is no reason why feeding projects cannot react to the benefit of both farmers and stockmen of this area.

We raise the beef here. We raise the feed here. And oftimes a long profit can be made in feeding cheap forage to cattle and taking the 'gravy' from sale of the animals.

The feeding industry, as The Plainsman sees it, is in its infancy in this country and shows promise of becoming a big thing.

It bids fair to augment our straight out-and-out agricultural products as a 'money crop' and we all know this country can use more, bigger and better money crops.

* * *

ONE of these days these petty hijackers, who have been operating in Lubbock and Plainview, are going to make a mistake. They're going to try to hijack some oldtime West Texan and get, for their trouble, a serious case of lead-poison.

If The Plainsman were going to be a hijacker he'd go to Chicago, Boston, New York or some place like that where folks are used to going into a spasm when they look into the barrel of a six-gun.

He wouldn't take a chance on West Texans. There's too many of them who cut their teeth on a .45 and ever since have refused to show the proper respect for the weapon.

He Blazed the Trail!

Cautious Conservatism Was Keynote Of The Democratic Committee Meeting That Picked Chicago For Big Meet

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON, Jan. 21.—Notes on the Democratic committee meeting which picked Chicago for the party convention. . . . Cautious conservatism seemed the keynote in all but Al Smith's speech urging big federal unemployment relief bond issue. . . . Everybody, full of confidence, playing safe. Jackson Day dinner flatter than four years ago, with no recognized candidates speaking and speeches generally inexciting. No public linen-washing as one always expects from Democrats. No liquor in sight at Roosevelt headquarters (considered downright fanaticism at a political meeting). Just copies of his latest legislative message and Ernest Lindley's biography. . . . Chicago got convention because no good reason to go anywhere else. . . . N. C. (National Committeeman) Isidore Dockweiler said newspaper correspondents would vote almost unanimously for San Francisco. Right—but who cared? . . . Indications: Roosevelt of New York still leading for nomination, not gaining but not slipping. Ritchie of Maryland visibly stronger since his announcement of candidacy, but still far from victory. Not much talk about Baker of Ohio, but he remains the inactive dark horse in the picture. No reconciliation of statements by Smith's friends that he: 1. Has no thought of running 2. Would like to be nominated.

* * *

SOME soreness about the tactics of big bald-headed Jim Farley, Roosevelt manager and chairman of New York's boxing commission, who told Kansas City to revise its convention bid let it be known that Roosevelt forces would demonstrate their committee strength by picking Kansas City instead of Chicago, then let the strength vote as it liked, he himself voting for Chicago. One explanation Roosevelt wanted to please southern and western drys who opposed Chicago, but Farley found his southerners demanding relatively nearby Kansas City, his westerners San Francisco, and disliked to take sides. . . . None of the master minds seemed mentally masterful. . . . Best line: Chairman Raskob, after praising the work of Executive Chairman Jouett Shouse. "Of course, Hoover helped us some, too." . . . Best piece of wisdom heard—one experienced leader: "There's no place for a hater in politics."

* * *

THE man you always spot promptly at Democratic meetings—and look at twice—is N. C. Norman Mack of Buffalo, now 73, still deeply respected by everyone. . . . Only 109 committee members, and it's their meeting, but thousands of Democrats from far and wide always pour into the Mayflower Hotel for such sessions. Non-committeemen, for instance: Speaker Jack Garner, the Texas plainsman who abhors society, in a top hat donned to get to the dinner. John W. Davis, arm in arm with his old national chairman, the lovable but unmourned Clem Shaver of West Virginia. Banker Melvin Traylor of Chicago, whom some people will insist is a presidential possibility, with Jesse Jones, once famous Texas capitalist who took the convention to Houston in '28. Senator Jim Ham Lewis, surrounded by ladies in the lobby. Another fair one rushes up, says: "Ooh! Look at all the women!" Jim Ham says: "Well, where else would you expect them to be?"

Lewis is a sartorial curiosity, but the three most distinguished-looking Democrats (perhaps because certain others have aged and fattened) were Ritchie, N. C. Howard Bruce of Maryland, and N. C. Bruce Kremer of Montana. Ritchie in full evening dress is as impressive a spectacle as the Lincoln Memorial or the Capitol lit up at night. . . . Joe Guffey, Pennsylvania boss, says for the first time in 12 years Democrats in and around Pittsburgh are actually eager for nominations.

State Senator Wild Bill Lyons of Colorado says: "Tell the Colorado papers I'm here, noisy as ever." Noisier, perhaps. . . . Tammany Leader John F. Curry, allegedly sore at being seated on the sidelines in the general dinner scramble. Jim Hoey, Smith's '28 pre-convention manager, Edward M. Hurley, rushing grimly from one hotel room to another until he had stopped the Kansas City threat and sewed up the convention for Chicago, as he did the Republican, Joe Tumulty, Wilson's secretary, meeting scores of old friends.

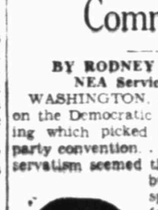

Diet and Health

By LOGAN CLENDENING, M.D., Author of "THE HUMAN BODY"

EDITOR'S NOTE—Six pamphlets and six articles by Dr. Clendening can now be obtained by sending 10 cents in coin for each pamphlet and 2 cents in coin for each article, with a self-addressed, stamped envelope, to Dr. Logan Clendening, in care of this paper, or Central Press Association, 1438 East Twelfth street, Cleveland, O. The pamphlets are "Reducing and Gaining," "Feminine Hygiene," "Normal Diet," "List of Books on the Care of the Hair and Skin," "Infant Feeding" and "Instructions for the Treatment of Diabetes." The articles are: "Indigestion and Constipatio for Mothers," "Bed Wetting," "Diet of the Expectant Mother," "Ear Troubles" and "Tuberculosis."

OLDER CHILD'S DIET

THE BASIC articles of diet for the younger children are also the staples for the child from five to seven.

Dutcher

Dr. Clendening

Milk, cereals, eggs, green vegetables and fruits should predominate in the diet. Sweets and pastries and all starchy and vitaminless foods should be kept in the background.

Meat may be added gradually and slowly to the diet. Meat is rather like sugar in that it spoils the appetite for other and more valuable foods.

Nor is it as complete or economic a food as other things. Bread and milk contain more easily available calcium and other salts and vitamins. But some meat should be added to the growing child's diet. As we grow older, up to 50, meat becomes more and more a desirable element of the diet.

With schooling started and a regular schedule of work each working day, the dietary will have to conform to these necessities.

The time schedule is now the same as the adults—three meals a day. The general plan of the dietary may be the same, allowing the child to partake of what its elders eat. Milk however should still be a staple part of the child's diet. The period of infancy when the digestive tract was easily upset is over. Growth processes have been established and dietary errors are not so rapidly or certainly followed by retribution. A child started well in bone formation, blood formation and growth is half adult. But this does not mean that dietary rules can be broken with impunity. Wholesome food, well balanced as to starches, fats and proteins with fresh vegetables and fruits is still essential to health.

Looking to the economic side, a lunch should contain 800 calories. Such a lunch can be served by a school lunch service for 18 cents this: Split pea soup, 5 cents; veal stew with vegetables, bread and butter, 10 cents; a glass of milk, 3 cents; chopped egg sandwiches, 4 cents; a glass of milk (140 calories), 3 cents; bread pudding with chocolate sauce (275 calories), 4 cents, and an apple (80 calories), 1 cent; 790 calories, 15c.

These are actual quotations from the lunch served at a New York high school, where the pupils are taught to buy adequate lunches at low cost.

One important feature of feeding the older child is to cultivate a taste for a variety of foods. Habits are easy to form at this time, and if your child learns to like all kinds of food you are saving a lot of trouble for somebody in the future. Members of a family who "won't touch this or that" are the bane of the housewife's existence.

A good book, issued by the United States department of agriculture is Farmer's Bulletin No. 717, "Food for Young Children."

NEW YORK, Jan. 21—What New York is talking about: MUSIC—George Gershwin (born Brushkin in Brooklyn) is back in the limelight as he has not yet been since "Rhapsody in Blue" moved him from Tin Pan Alley to Carnegie Hall. And this thanks to the highly humorous and subtle music written for "Of Thee I Sing," already the most discussed music show in town—and a sellout, for months in advance!

Gershwin is 33 and a bachelor. His name has yet to be involved in any of the gossipy scandals so common to Broadway. His penthouse, looking over the Hudson at the Riverside Drive turn, is a model of tasteful modernism. His phonograph record library is filled with sets of the moderns, particularly Stravinsky, Ravel and Debussy. . . . The more popular of his own records have sold as many as 2,500,000. . . . "Rhapsody in Blue" is said to run second to "St. Louis Blues" in the number of orchestral interpretations.

Two rooms of his dwelling place have been rebuilt into a gymnasium, to which he devotes at least an hour a day. . . . Has to be coaxed to sit down to the piano to play his own stuff, but once there will spend hours. . . . Considered his "Americans in Paris" suite the most amusing music he had written up to the present. . . . One of the few celebrities never to hire a press agent, yet always finds his name in the papers.

* * *

Was a song plugger at $15 a week in "the Alley." . . . Graduated to a job in a Fourteenth Street movie house. . . . A vaudeville act came on and never having had anything to do with the mysterious notes and cues on all such "tab revue" scoring, Gershwin got everything mussed up. . . . A ham comedian leaned over the footlights and commented: "You should be driving a truck." . . . The audience was inclined to agree. . . . The young man walked out without collecting his salary.

One year later he collected the salary with interest. . . . The film concern that owned the theater offered him $100,000 for writing certain songs. . . . When it came time to sign the contract, Gershwin added $3,13. . . . The lawyers and domos were puzzled. . . . He explained it was for the one performance, based on $25 week.

* * *

Actors—Lois Moran, once of the movies, is now hailed as "permanently grown up" as the result of her excellent performance as "the love interest" in "Of Thee I Sing." Suspicion that the stage had gained and the films lost was roused when Lois had a sophisticated comedy part in "This Is New York." . . . Theater circles were amazed when news went out that she would have a feature role in a music show. . . . Lois came out of Pittsburgh and hit the Hollywood high spots when Sam Goldwyn cast her as lead in "Stella Dallas." . . . Goldwyn was in the theater on the opening night of her current hit and was first to march up with the "I told you so" line.

Studied dancing in Paris and was the baby of a ballet. . . . Has been studying singing and has a small but charming voice. . . . Expects to go on with voice culture for several years. . . . Yes, even expects to be able to make the concert grade some day and even tackle serious and heavier opera. . . . For she is restless in her ambitions.

Anyway, if that Greek drama was as bad as they say, Denmark wasn't the only place there was something rotten.

A theatrical company was arrested in California for staging an ancient Greek drama. The ancient Greeks were too modern for us.

Move The Kitchen

RUTLAND, Vt.—They're moving the kitchen and pantry in John Seagle's home into the dining room. The kitchen and pantry have been "padlocked," reducing Seagle's quarters to four small rooms. The padlocks were attached after a series of raids for liquor.

The Wrong Name

KNOXVILLE, Tenn.—Hitchhikers is no name for them although that's what they said they were. Susie Hipps, 20, and Lillian Guntert, 18, drew a razor on a motorist and took his automobile. They were sentenced to serve a year and a day in prison.

Religious Golf

SPRINGFIELD, Mass.—The Trinity Methodist Episcopal church here has become golf-conscious. Starting Jan. 26, the first of a series of ten lessons on the fundamentals of the royal and ancient game will be given under the auspices of the physical education department of the church.

Slang Not So Hot

NORTHAMPTON, Mass.—Slang is a natural part of language, said Dean Marjorie Nicholson of Smith college, but college students of this generation lack real red hot slang. "If they can't come across with better than 'ok' and 'ko' they might as well say 'yes,'" the dean said.

Canalization of the Ohio river was urged as early as 1783.

"I want to tell you — that red-blood cells are the very foundation of sturdy health" — worth knowing:

—let's pause a moment to give those vital red cells the consideration they deserve. They mean so much for better health and happiness.

If your blood count is low, why not take steps to overcome it—remembering that a "tired feeling" may be a warning . . . so are pimples, boils and paleness.

For generations S.S.S. as a tonic has been helping people gain New Strength, better health and happiness. Its successful record of over 100 years in restoring strength and vitality to the blood surely warrants your giving it a good trial.

Why not start taking S.S.S. today!—the larger size represents a price saving.

TICKET AGENT IS ROBBED

BANDIT GETS LOOT OF $125 AT HOLDUP AT PLAINVIEW

PLAINVIEW, Jan. 21.—(Special)—R. E. Knowlton, Santa Fe railway ticket agent here, was held up by an unmasked man last night and forced to open the company's safe. The bandit escaped with about $125.

As Knowlton, second trick operator and agent, was locking up the office at 10 o'clock, he was accosted by the armed hijacker. At the point of a gun, he was forced to reenter the building and unlock the safe. The bandit was described as about 25 or 30 years old, weighing 150 pounds and being five feet and ten inches tall.

A new automobile was stolen at about 8 o'clock from downtown and officers believe the two crimes are connected. The way in which the bandit made his escape was not known. Officers in South Plains and Panhandle towns were informed of the robbery.

LAMESA PLAN

(Continued from Page One)

tails where it can sell its surplus, 7,000,000 bales of cotton to the cotton to the cotton grower at a fixed figure—say 5 cents per pound—and require of him to work three acres in 1932 for each bale he purchases, (planting nothing at all on this land) as payment in part at least, for his cotton. This farmer is to make affidavit, and subject himself to government inspection, to show that he has cultivated his three acres in good faith, and he will then be receipted by the Federal Farm board for the difference in price this bale actually brings on the market at time of selling next fall. In the event the bale brings less than eight cents the Federal Farm Board is to charge the producer with the loss.

Judge Garland, in presenting this plan to the local organization, said: "This plan is workable because it will cause at least 21,000,000 acres of lands that would otherwise be planted to cotton to remain idle to no crops in 1932." "This", he points out, "Will reduce the cotton acreage in the South to more than half over last year, there being 40,000,000 acres planted in 1931." "Then," he stated, "there will be no danger of producing a surplus of cotton or any other crops, as no crop will be planted on these idle lands". He further said, "This plan will cause the grower to earn his increase in price, for all will agree if the acreage is cut into half, the price will certainly advance, in that he will have to actually cultivate his land, thereby increasing the fertility of the soils". "Again", Judge Garland points out, "there is nothing compulsory about this plan, as it will be optional with the grower as to whether he cooperates, and this feature will cause the cut in acreage to come about by a highly pursued educational campaign."

"As to the tenant", says Garland, "he can also participate in this plan. If his landlord does not desire to join him, he can require his fourth acre planted to cotton."

Judge Garland is a cotton grower as well as a lawyer, and is enthusiastic over this plan. He say it is practical and needs only the study and initiation of those who are in power and authority to enforce it. Garland says, "I have interviewed dozens of growers, and all are sold to the plan, and will buy cotton from the Farm board if it will agree to sell on this plan."

Abilene Man Heads Highway Patrolmen

The new captain of district No. 3, the West Texas division, of the state highway patrol is Martin N. Koonsman, formerly a lieutenant in the corps, of Abilene.

Eighty three counties comprise the division, from Quanah west to the state line and south through Sanderson and Del Rio. The South Plains and the Panhandle, and all of the territory west as far as El Paso is included in the area.

Captain Koonsman will continue to make his headquarters in Abilene. He will have 18 men in his command.

DAILY MARKETS

Cotton Market

NEW ORLEAN SREPORT

NEW ORLEANS, Jan. 21 (AP)—Cotton had a steady but quiet opening today. As Liverpool cables were stronger than due, the market opened one to three points up. Prices improved a little further after the start. March trading at 6.72, May at 6.88 and July at 7.08, or three points above yesterday's close.

Later in the first hour, prices eased off slightly on a renewal of liquidation, March dropping to 6.68, May to 6.85 and July to 7.00, or 3 to 5 points down from the opening highs.

Near the end of the first hour the market was quiet and steady but at the lows.

The market ruled quiet all morning but prices gradually improved owing to the firmness of stocks, which induced covering by shorts. March traded up to 6.78, May to 6.90 and July to 7.06, or 5 to 6 points up from the early lows and four to five points above yesterday's close.

Near noon, prices eased off two to three points on some realizing but trading continued very quiet.

NEW YORK REPORT

NEW YORK, Jan. 21 (AP)—Cotton opened steady today at an advance of 4 to 5 points on trade buying and covering, promoted by relatively steadier Liverpool cables. March sold at 6.72.

Steadiness of the opening stock market afforded buyers further encouragement but the advance to 6.80 for May and 7.07 for July seemed to encourage selling which caused slight setbacks, but offerings were absorbed by continued covering or trade buying and the market was holding steady at the end of the first half hour with active months showing net advances of 1 to 3 points.

Liverpool cables reported local and continental buying with trade calling in the market and said there was a scarcity of contracts. An improving demand for cotton cloths from the British home trade was reported in the Manchester market.

While there was only a moderate volume of business, cotton held steady later in the morning. Offerings were light and a fair demand, accompanied by reports of a continued firm spot basis in the south, was sufficient to hold the active months about 4 to 7 points above yesterday's closing quotations, with March selling around 6.74 and July 7.06 at midday.

NEW ORLEANS OPEN

NEW ORLEANS, Jan. 21 (AP)—Cotton futures opened steady today: Jan. 6.63, March 6.70, May 6.86, July 7.09; Oct. 7.23; Dec. 7.40.

NEW YORK OPEN

NEW YORK, Jan. 21 (AP)—Cotton futures opened steady today: Jan. 6.69, March 6.73, May 6.87, July 7.06, Oct. 7.20, Dec. 7.45.

Stock Market

WALL STREET REPORT

NEW YORK, Jan. 21 (AP)—The stock market showed moderate gains in quiet trading today.

Early selling of General Electric had little effect on other pivotal industrials and fractional advances were the rule. Rails again firmed, Santa Fe and Union Pacific selling a point higher. Some specialties, including Case, American Tobacco "B," Lambert, International Business Machines and Pullman, improved 1 to 1 1-2. New York tractions rallied. General Electric's recession amounted to nearly a point.

Call money renewed at 2 1-2 per cent.

Grain Market

CHICAGO REPORT

CHICAGO, Jan. 21 (AP)—Grain values took an early upward swing today, influenced by strength of securities and by progress of the reconstruction finance corperation bill at Washington. Relative weakness of wheat quotations at Liverpool failed to act as an offset. Opening 1-8 to 5-8 higher, Chicago wheat futures continued to gain. Corn started 1-8 off to 3-8 up and subsequently rose all around.

CROWLEY

of holdups. Then came an alarm for him in the killing of Virginia Brannen, dime-a-dance girl who was shot and tossed from an automobile into a Yonkers hedge.

One night Patrolman Frederick Hirsch of Nassau county, thinking to stop a petting party, approached a parked automobile. Its occupants were Crowley and his sweetheart, Crowley shot him dead and sped away.

A few days later detectives cornered him, the girl and Rudolph Duringer, fat truckman, in an apartment house on the upper west side. Bullets and tear gas were poured into the place for two hours before Crowley, wounded and his ammunition exhausted, let the police enter. Duringer was executed for killing Miss Brannen.

In his cell Crowley began building paper bridges and apartment houses. Defense alienists said he was a "moral imbecile." The state said he was sane.

A formation of 19 U. S. Army planes attained an altitude of 28,000 feet, which is believed to be the record for formation altitude flying.

BAPTISTS

(Continued from Page One)

Texas Baptist general convention to lead the campaign, will conduct a round-table discussion following his speech on "Organization and Plans for the Baylor College Campaign."

A Woman's Missionary union representative then will speak on "The Women and Baylor College Campaign."

Doctor Yates, a principal speaker on the morning program, will use as his subject "What Baptists of Texas Owe to Baylor College and Themselves In This Campaign."

Baptist district No. 9 is composed of Yoakum, Terry, Lynn, Garza, Cochran, Hockley, Lubbock, Crosby, Dickens, Swisher, Briscoe, Childress, Motley, Floyd, Lamb, Hale, Bailey, Deaf Smith, Randall, Parmer, and Castro counties.

The Baptist general convention of Texas authorized launching the campaign for $750,000 to pay the debts and increase the endowment, at the annual convention in Waco in November. Of this amount only $150,000 above gifts to endowment and annuities, will be raised this year. The remainder is to be raised the following year.

Meetings similar to the one in Lubbock will be held in all of the 17 districts of the Baptist association. The Baptist general convention authorized for the Baylor college campaign the use of the organization recently set up for a stewardship revival and the every-member canvass among Texas Baptists.

Fruit Jar Aids In Robbery Solution

HOUSTON, Jan. 21 (AP)—A fruit jar containing more than $1,000 in gold was credited by officers today with contributing to solution of the robbery of a bank at Tomball.

After it had been found in the home of Harry Morris, 29, he made a statement to officers about the holdup of the bank last December in which approximately $4,000 was taken.

Police said they learned the money obtained in the robbery was split three ways. Morris and another man were charged with robbery by firearms. A search for a third began.

LIBRARIAN SAYS CHILDREN ARE BETTER READERS

Thirty per cent of the juvenile circulation from the Lubbock county library here in December was nonfiction and only 8 per cent of the adult circulation was in that class, Miss Rutillia Eubank, county librarian, reported. Last December was "an average month" at the library here, although it usually is not, she said.

"Children are better readers than adults; they like real things," Miss Eubank commented.

The circulation from the main library last Saturday was 607, the largest for a single day in the local institution's history, the librarian said.

Fourteen per cent of the total circulation was of non-fiction, consisting principally of travel, biography, history and works of instruction and counsel. The interests of children seem to be broader and more heterogeneous in book selection, Miss Eubank said. Adults, however, the librarian has pointed out in the past, are displaying more interest in writings which will help them in liveaday affairs. Forty per cent of the December circulation, she said was juvenile works.

One person in three in Lubbock has a library card, she said. The average for most public libraries is about one in five, according to the librarian.

An increase in borrowers has been evident since the main county library was moved from City hall to the second floor of the courthouse, and the library is crowded all of each Saturday.

RUTH JUDD

lumberman whose name was brought into the case early as that of a friend of Mrs. Judd and her two victims, Agnes Anne LeRoi, and Hedvig Samuelson, was among the many witnesses brought into the courtroom to be sworn.

Halloran's name was given the court clerk but County Attorney Lloyd J. Andrews did not include him when he called the roll of his witnesses in the room.

Defense counsel did not call the roll of its witnesses.

West End Baptists Name New Directors

Two new directors have been appointed in the West End Baptist church and an expansion program has been inaugurated, the pastor, Rev. Boyd P. Milburn, announced this morning. Miss Ruth Collie, Tech student, has been elected B. Y. P. U. director and Fred De Lashaw, another college student, has been elected Boy Scout master.

A new floor has been laid in the church, a row of new pews has been added and the Sunday school has been divided into eight departments. Eight new classes have been formed and additional equipment has been purchased, Mr. Milburn said.

more numerous than the combined total of the independents and those who declined to comment on the proposition.

The 'straw vote' has apparently narrowed down between Roosevelt and Garner, with Murray still holding an outside chance to forge into leadership. Thomas is undoubtedly the 'choice of all Socialists and President Hoover, in spite of his loss of popularity, is still the bell-wether of the GOP's.

Jokesters have sent in a hatful of ballots, various Tech students, Eddie Cantor, The Plainsman, Journal columnist and Amos 'N Andy all coming in for mention. One admirer of Dr. W. A. Jackson, head of the department of government at Texas Tech and probably the best posted man in West Texas on political procedure, voted for the college man. Lubbock Communists either don't care for 'straw votes' or have no candidate to offer. Not a single Communist vote has yet been received.

Any resident of Lubbock county or the South Plains, or any visitor here, whether they be male or female, is permitted and urged to cast a 'straw vote' ballot.

NOTICE TO 'VOTERS'

It is not necessary for any voter to sign his name to any ballot in this 'straw vote', although he may do so if he wishes.

A vote may be cast for any person whom the voter considers worthy of the Presidency whether his name appears on the front page ballot, or not. There is a space on the ballot where the name of a candidate may be written at the volition of the person casting the ballot.

The part of the vote pertaining to supporting the nominee of either party may or may not be included in any ballot, at the volition of the individual voter. That part of the ballot is in no sense a pledge and is included merely for statistical purposes and at the request of Chairman James A. Farley, of the New York State Executive committee.

Merely clip the accompanying coupon on the front page and bring or mail it to "The Straw Vote Editor", care The Avalanche-Journal, Lubbock.

GRANBERY TO PREACH

In the absence of the minister, Rev. Bradner J. Moore, services at Saint Paul's Episcopal church next Sunday morning will be conducted by Edgar Lewis, warden. The sermon will be delivered by Dr. John C. Granbery, head of the department of history, Texas Technological college. Next Sunday is designated in the church calendar as "Social Service Sunday". The order of worship will be built around this theme.

FINANCE BILL

(Continued from Page One)

poration to replace unliquid collateral with cash in loans to the following classes of business:

Federal and state banks, savings banks, trust companies, building and loan associations, mortgage loan companies, insurance companies, credit unions, federal land banks, joint stock land banks, federal intermediate credit banks, agricultural and livestock credit corporations and interstate steam and electric railways, exporters and farmers. All loans are limited to $100,000,000 each.

REPORT ADOPTED

WASHINGTON, Jan. 21 (AP)—The house today adopted the conference report on the bill to add $125,000,000 to the capital of the federal land banks. It now goes to the senate and if approved there the legislation then goes to the president.

Meanwhile, merger of the army and navy into a common department of national defense, planned by congress as a big economy move, advanced today to the stage of committee hearings.

Two bills, by Representative Byrns (D., Tenn.) chairman of the appropriations committee, and Representative Williamson (R., S. D.), came up before the expenditures committee.

The first chance at a prohibition vote this session came to the senate in the attempt of Senator Bingham (R., Conn.), to obtain action on a resolution proposing that governors ask for referendums in their states on repeal or modification.

The resolution was placed on the senate calendar by Bingham yesterday as supporting testimony was concluded in committee on his plan to legalize four per cent beer.

Kiwanis Anniversary Observed In Program

Paying tribute to the leaders of civic club movements throughout the world and especially to the founders of Kiwanis International, W. C. Rylander was the speaker at the luncheon of the Lubbock Kiwanis club today. Rev. R. C. Snodgrass of Amarillo was scheduled to talk but failed to arrive.

Mr. Rylander reviewed briefly the founding of Kiwanis, January 21, 1915 and then paid tribute to the anniversaries of Benjamin Franklin, Stonewall Jackson and Robert E. Lee.

Dwight Hale and J. M. Bennett were received as new members, Dr. Jack M. Lewis delivering a short talk.

Reverends R. C. Campbell, J. O. Haymes, John Smith and Walter P. Jennings made short talks.

W. D. Green of Shiner and A. O. Buckner of Canadian were out-of-town visitors at the luncheon.

Improvement Shown In Karr Condition

Improvement was reported at noon in the condition of Ray Karr, 20-year-old Texas Technological college student, of Spur, who suffered concussion of the brain Wednesday afternoon in an intramural football scrimmage.

The condition of Ira D. Jones, 18, also a student at Technological college, believed to have suffered a fractured skull Friday night, also was reported improved. Both students were at West Texas hospital. Jones, found wandering in confusion near Monroe, his home, was unable to tell how he had been hurt.

Karr, unconscious for about three hours after the accident, was said to be regaining consciousness. He was admitted to the hospital for treatment at about 7 o'clock.

The youth was playing at right tackle on the Aggie team in a scrimmage with the Army eleven. He was injured in a play. Hospital attaches said from 24 to 48 hours would be required to determine the extent of his injuries.

DRIVER ARRESTED

A man accused by peace officers of driving an automobile while intoxicated was arrested at Shallowater last night, after his machine had collided with another and committed to county jail here. A charge of driving an automobile while intoxicated would be filed against him today, authorities here said. None was reported hurt in the collision.

DELEGATION FOR ROAD MEET NAMED

The Lubbock Chamber of Commerce highway committee, of which J. H. Hankins is chairman, met at the chamber offices at 4 o'clock Wednesday afternoon to form a delegation to the Carlsbad Caverns U. S. No. 62 Highway association convention at Quanah, next Monday and to discuss other affairs.

Hankins, president of the Caverns association; A. B. Davis, manager of the Lubbock chamber and secretary of the Caverns association; Joe Bowman, bus operator, and Roy McKinney of the West Texas Gas company will go to the meeting from here. A larger delegation is desired.

A reduced roundtrip fare will be offered by South Plains coaches through Bowman to persons desiring to attend the highway sessions, so that they can leave here Sunday morning, attend Monday's convention, and arrive in Lubbock, Monday night.

Carlsbad Caverns U. S. No. 62 highway extends from El Paso to Niagara Falls, N. Y., 2,355 miles, 60 per cent of which is hard surfaced. The route is via Carlsbad, Lubbock, Oklahoma City, Maysville, Ky., and Buffalo, N. Y., and east-west feeder highways intersect with it virtually throughout its length. Connecting roads go to Chihuahua, Mexico, and Toronto, Canada.

Brownlee Funeral Is This Afternoon

Funeral services for C. R. Brownlee, 54, who died of heart disease in the courthouse here Tuesday afternoon, were to be conducted at 3 o'clock this afternoon at the First Presbyterian church here by Rev. Mr. Rayborn of Slaton. Burial was to be in the Wolfforth cemetery.

Brownlee lived at Hurlwood. He was stricken while testifying in a forcible detainer suit, in which he was the defendant, and was pronounced dead a few momente later. A widow and six children survive him.

A Bible, published in Amsterdam in 1669, is owned by Mrs. E. M. Well of Santa Monica, Cal.

PIE ROUTS BOBBER

PORTLAND, Ore.—As Floyd Bamford was walking home with a pie in his hands, a robber accosted him. "Stick 'em up!" the holdup man ordered. "Wait'll I put this pie down," Bamford returned. As he put the pie on the sidewalk, Bamford had an idea. He brought up a haymaker from the street and drove it into the robber's tummy. With a groan the holdup man fled. Bamford picked up his pie and went home.

AN HONEST THIEF

MILFORD, Pa.—A thief broke into the drug store of William Schmidt and took eleven watches, thirty fountain pens, two cartons of cigarets and 50 cents in pennies. The day after the robbery Schmidt found a package in the store containing the following note. "I never stoled before. Find my commense hurt me. Here is your watchs and pens and cigarets and penies with 2 cents interest."

THOMPSON OUT FOR OFFICE

AMARILLO MAYOR TO RUN FOR CONGRESS FROM TEXAS

AMARILLO, Jan. 21.—(Special)—A former army officer now completing his third year as mayor of Amarillo, his first public office, Col. Ernest O. Thompson, Wednesday, announced his candidacy for congressman-at-large in the Democratic primary.

A student of finance and politics, Colonel Thompson said the paramount need of the country today was a definite policy on international affairs and particularly on its financial phases.

To Aid Farmer

Decrying "gamblers who bet on the want and misery and suffering that comes from depressed prices," he pledged "to fight the cruel concentration of the wealth of our nation in New York City where it has been used for wild and reckless gambling and speculation."

The Amarilloan proposed, if elected, "to assist in working out a better distribution of our farm products," "to insure "a fair price for what we produce," and to work for "a more liberal policy in the issue of currency."

Opposes Moratorium

Declaring "we have been the sucker long enough," Colonel Thompson said he would "stand unalterably against any further meddling in European affairs" and expressed opposition to "any further reduction or moratorium on foreign debts."

Congressional vigilance to protect the interests of the working class was advocated and the Colonel said he would bend his efforts "to take the privilege from the few and restore Democracy" by corrective legislation.

One of the founders of the American Legion, Colonel Thompson was selected by the Legion in 1923 as one of six Americans representing the United States at the inter-allied veterans conference in Brussels to formulate a world program on disarmament and equitable reparations.

Texas Graduate

The Amarillo mayor is a graduate of the University of Texas law school. When Texas Technological college was established at Lubbock, he was appointed as a member of its board of directors.

A machine gun officer in the 90th division, he was the youngest lieutenant-colonel in the service when he left the army in 1919. He now is a colonel in the national guard and reserve officers corps.

As mayor of Amarillo, he was a leader in effecting reductions in utility rates, city taxes, and the cost of city government.

Highway Receives Course Of Caliche

State highway No. 7 between the Mullican caliche pit and the Hockley county line, a distance of three or four miles, has received its first course of caliche, Joe Caldwell, maintenance engineer for the state highway department here, said.

A second course is to be added. Just as soon as the section between the county line and Shallowater has had two courses of caliche traffic will be turned onto the road.

Thirteen and a half inches of caliche, in two courses is being spread. This, when watered and rolled, will make about ten inches of base. Plans call for a nine inch base, but engineers believe that the base will be at least ten inches.

Seven pits are located along the right of way. The caliche found so far has been of a better hardening quality than had been expected.

ST LOUIS—Pictures taken at one-thousandth of a second were taken here by a new X-ray tube in a demonstration before the Radiological Society of North America. With this tube doctors will be able to survey the interior of a human body much more thoroughly, it is said. The tube is known as the electric dam tube.

"Miss Republic"

Yes, she's dressed to a queen's taste and has a royal smile. But "Miss Republic" is the title that 19-year-old Senorita Pilar Bavarro has been given. She has been proclaimed the most beautiful girl in Madrid by popular vote.

LOCAL MEN TO ATTEND MEET

TEXAS FARM BUREAU FEDERATION PLANS ANNUAL CONFAB

An annual meeting of the Texas Farm Bureau federation in Dallas January 27-29, will be attended by several Lubbock delegates. More than a thousand persons from all sections of the state are expected to meet to discuss farm problems.

Among the out-of-the-state speakers are M. S. Winder, Chicago, secretary American Farm Bureau Federation; E. F. Creekmore, New Orleans, general manager American Cotton Cooperative association; Miss Connie Bonslagel, Little Rock, Arkansas Agricultural college; M. C. McCarrell, Springfield, Mo., Farm Bureau organizer and lecturer.

Serving of an All-Texas products dinner will be one feature of the program. This is to be at the Jefferson hotel, convention headquarters.

On January 28 the program will be given over to cooperative efforts with B. C. Pittluck, president of the Texas Cooperative Council presiding.

The closing day will see officers chosen for the next year. J. E. Thompson, Montgomery, is president and E. L. Corbin, secretary-manager.

Special entertainment features for the ladies in attendance are in charge of Mrs. H. L. Peterson of Dallas.

PENN TEST TO BE PLUGGED

ACTIVITIES ORDERED TO CEASE BY OIL, GAS DIVISION

The oil and gas division of the Texas railroad commission has ordered that the Penn No. 1 Slaughter well, the fifth oil test in Cochran county, be plugged. It is on the Carrie B. Slaughter lands three miles south and west of Lehman.

The order to plug was issued after the hole had been bottomed at 5,052 feet, fifty feet below where a "good showing" of oil was found recently and 52 feet below the contract depth.

An inspector of the division was to have given instructions to well employes to plug the hole this week.

Sulphur water was found at 4,917 feet the Saturday before Christmas. Several hours later Robert R. Penn, who with Glenn Black was drilling the test, died at Bledsoe from accidental wounds received when his shotgun was discharged, caused by a car jolt.

Mr. Black continued the drilling to the contract depth of 5,000 feet. He then decided to drill 50 feet further as oil showings were reported good. When these failed to increase below that depth the decision was made to plug the hole. Permission was granted by the oil and gas commission.

Gas estimated at between 50,000 and 100,000 cubic feet was found at below 4,700 feet. Oil showings including a rainbow, also were picked up. Oil men estimated the showings were not enough to indicate satisfactory production quantities.

Inspect Plans For Cochran's Paving

The state engineer's office is inspecting plans for paving and caliche work in Cochran county between Morton, the county seat, and Whiteface, Guy R. Johnston, district construction engineer here, said.

Meantime the attorney general's department has taken up the matter of condemning right-of-way for the road. What action has been taken is not known here.

County commissioners have purchased approximately 40 per cent of the necessary right-of-way, it is understood. Some of the larger land owners are said to be asking higher prices than the commissioner's court is so far willing to pay.

Feeding Projects Inspected By Group

Cattle feeding projects and feed grinding plants were inspected here Wednesday by a group of Midland men headed by M. C. Ulmer, president of the Midland Chamber of Commerce.

The visitors were shown through the Lubbock Cotton Oil mill's plant, the Standard Milling, the McDonald Packing company and the feed pens of W. K. Dickinson, H. W. Stanton and others by A. B. Davis, manager of the local chamber of commerce.

Members of the party were Ulmer, Frank Elkins, Bob Martin, P. J. Mims and J. C. Miles.

OLIVE OIL FOR FLANNELS

If olive oil is added to the water when washing flannels, there will be no danger of those articles becoming hard. Use a tablespoonful of oil to every gallon of water.

THE TINYMITES

STORY by HAL COCHRAN PICTURES by JOE KING

(READ THE STORY, THEN COLOR THE PICTURE)

THE chilling water splashed around and soon the happy Tinies found that they had stopped their shivering. "We're used to it," said one. "By exercising quite a bit we're finally feeling very fit. Gee, running underneath the faucets packs and packs of fun."

"Let's try another stunt! Let's slide across the sink," wee Duncy cried. "'Twill be just like a frozen rink. It's slippery as can be. Although my try may be the worst, I'll step right out and do it first. The rest of you line up and then you can follow me."

The others gathered by his side and shouted, "Sure! You bet we'll slide." "Be careful, though," cried Scouty, "or you'll slide around and 'round. Then, if there's naught to make you stop, out to the floor you'll take a flop." Then Duncy slid and Windy yelled, "Hey! Just where are you bound?"

Poor Duncy! He slipped off his feet and gave the others quite a treat. He sat down in the great big sink. That was enough for all. "It's dangerous," one of them said. "We'd best not slide, but go ahead and scramble back into our clothes. Then we won't take a fall."

When they were dressed, they looked around awhile and, when wee Coppy found a small canary in a cage, he shouted, "Oh, look here! This bird is flying all about. I think we ought to let it out. I'm going to open up the cage. There's not a thing to fear."

But when the door was opened wide, another of the Tinies cried, "Gee! Run! That big canary's mad. He'll peck us with his beak." And that's just what the Tinies did. They ran around the house and hid. Poor little Duncy was so scared that he could hardly speak.

Coughs and Colds Yield To Calotabs

Medical writers agree that the important point in the treatment of a cold or cough due to a cold, is to relieve the congestion in the nose and throat, thereby preventing serious complications which may follow a neglected cold. To stop this congestion calomel was the accepted and standard remedy until Calotabs, the improved calomel compound tablet was introduced.

Now that science has robbed calomel of its nausea and danger, making it pleasant to take and perfectly safe for general use, over forty million Calotabs are consumed in the U. S. yearly with only the most pleasant and satisfactory results. In millions of homes Calotabs have proven their superiority in the prompt relief of colds and coughs due to colds.

One or two Calotabs at bed-time with a glass of sweet milk or water. No salts necessary. No nausea nor the slightest interference with your eating, work or pleasure. Next morning the congestion has subsided, your cold or cough is relieved, your system is thoroughly purified and you are feeling fine with a hearty appetite for breakfast. Eat what you wish—no danger.

Get a family package of Calotabs, containing full directions, only thirty-five cents. Trial size ten cents. At any drug store. (Adv.)
