DONLEY CO. ADAIR HOSPITAL TO CLOSE SEPTEMBER 1st.

The Leader has been informed that the Donley County Commissioners Court has ordered the Donley County Adair Hospital Board to shut the institution down as of Sept. 1, 1950. The court made this decision at their regular meeting August 14th. The reason given for closing was finances.

In the general election in 1948, Donley County residents voted in favor of a 10% tax to support the hospital. The county has been unable to levy this tax as the constitutional limit was already being charged when the tax was voted; therefore the expenses of the hospital has been coming out of the general fund and the commissioners felt that the expense was too great to continue. According to the county records, it has cost the county \$8,434.50 to operate the hospital for the past 18 months. The total expenditures were \$16,800. The following were subtracted from that amount: Expendable properties \$2,700.89, medicine and supplies \$1,316.81, county taxes \$3,347.80. This amount taken from the \$16,800 leaves the total cost to the county at \$8,434.50. Broken down it cost .90 cents per person in the county per annum to keep the hospital going.

The old Adair holding board was asked to take the hospital back Sept. 1st but they refused and the county will have to maintain the building and grounds until January 1, 1951, the end of the contract day.

Clyde Slavin, president of the hospital board has asked the Leader to convey their thanks to Mr. Bob Hudson, manager of the hospital, and the staff for their splendid cooperation during the time the hospital has been in operation.

regrettable that the hospital does not remain open as it has been of unestimable value to the people of this community. When the hospital was opened it had to be stocked throughout and new equipment purchased to keep it in line with the modern type institution.

EDDIE FORREST BUYS BAIN CONOCO STATION

Announcement is being made in this issue of the Leader in regard to the purchase of the Olin Bain Conoco station by Eddie Forrest.

Mr. Forrest has been a resident here for several years and has been connected with the service station business the greater portion of that time.

Mr. Bain has been in the service station business for a number of years and is planning on going into another type of business which will be announced within the near future, he stated.

The business purchased by Mr. Forrest is located one block east of the stop light.

R. I. Blackburn is recovering nicely from his accident.

MORE COLTS INVITED TO DAILY WORKOUTS

Members of the Junior High school football team have been working out this week in preparation for another year of fun and sportsmanship. The boys will be coached this year by Jerry English and Billy Bob Adams.

A number of the boys have not known about the workouts. Anyone interested in playing on the Junior High team is invited to come and work out each day, 7:30 a. m. and 5:30 p. m.

Last year was a successful one for the Colts and the boys are looking forward to another good season. Jerry assisted with the coaching last year and with the help of Billy Bob, this season should be another one worth watching.

LARGE CROWD ENJOYS OLD SETTLERS PICNIC

The annual Old Settlers picnic was held at Tate Grove, near Hedley, Friday, with a good crowd on hand to enjoy a full day of festivities.

Master of ceremony was Charles Rains of Hedley. The program was described as "the best ever". In the absence of J. B. Lynn, who was to have been the principal speaker, talks were presented by Bill Lowe, Clarendon, Claude Wells, publisher of the Memphis Democrat, Frank Finch and others. Good music and singing as well as visiting and eating rounded out the day.

The Hedley Lions Club sponsored the event this year and was on hand to operate a number of concessions.

Officers elected for the coming year were Otis Owens, president, L. D. Messer, vice-president, and Mrs. Clyde Bridges, secretary.

A grand time was had by all who were able to attend, and an even greater "get-together" is to be looked forward to next year.

REVIVAL TO START AT CHAMBERLAIN AUG. 29

The Leader has been asked to announce that a Revival meeting would start August 29th and continue through Sept. 3rd, at the Chamberlain school house. Rev. John W. Reynolds of Tyler, Texas, A Missionary Baptist minister, will do the preaching. Services will be held at 11 a. m. and 8 p. m.

Song services will be conducted by Mr. N. L. McBrayer of Ft. Worth. The public is cordially invited.

PATMAN'S BUY LOCAL CLEANING FIRM

Mr. and Mrs. W. M. Patman announced this week, the purchase of the Smith Cleaners. Mrs. Patman has had several years experience along this line of work. The business was formerly operated by Reed Smith who passed away a few weeks ago. The business is located across the street from the City Gas Co.

Worms Damage Cotton

Cotton farmers all over Donley county are dusting for cotton leaf worms. County agent H. M. Breedlove says that poisons have been very hard to get and now about the only available poison is calcium arsenate. The West Texas gin at Hedley has been the distributing point for poison for the county. Calcium arsenate is poison and should be handled with care in regard to livestock. Agent Breedlove says that best results can be obtained by using eight pounds of calcium arsenate per acre and put on the cotton with dew present and the wind not over five miles per hour, this will call for a lot of night dusting and this is one of the best times to apply the poison. Toxaphene spray is very good for leaf worm control as a spray and should be used at the rate of one pound and a half of the poison per acre regardless of the amount of water used per acre. Toxaphene has been impossible to get due to poisoning in the lower part of the state. Mixture of 3-5-40 has been used in the county and good results have been obtained but we can not get it at this time and calcium arsenate is the only poison available. Be sure to dust when the wind and dew is right and you will sure get the best results, says the county agent.

FAMILY REUNION HELD

The five brothers, their wives and their one sister-bearing the names Leathers and Christal met in a family reunion with their descendants at the TL ranch Friday evening, August 18. All enjoyed the food and fun. Thirty-five names were entered in the guest book.

P. T. A. Starts Activities

Mrs. G. W. Bradshaw, president, presided at a recent meeting of the executive board of the Sims Parent-Teachers Association. First meeting on this year's agenda is scheduled for September 21st in the Junior High auditorium. Following the business session, open house will be held in the school cafeteria. All parents and friends of grade school and junior high school students are urged to attend this get-acquainted affair. The business meeting will convene promptly at 3 p. m.

Work on the play grounds and play ground equipment is under way and is being sponsored by the association. Preparations for the opening of school are in full progress and plans for the entire school year are well under way at this time.

Parents of first year children are again reminded that these first year children must hold a certificate of vaccination before they can be enrolled in the first grade. Those who have not had their children vaccinated can save time by doing so before the opening of school.

Parents and friends of the seventh and eighth graders will this year be invited to take part in all PTA activities and will be considered a part of this organization. Heretofore only parents of children up to the sixth grade were included.

Attention is called to our PTA-sponsored school cafeteria. The cafeteria meets all state requirements and is a place you will be proud to send your children. Mrs. Winnie Stogner will again serve as manager and will be ably assisted by Mrs. Allie Craig, Mrs. Jack Eddings and Mrs. Truett Behrens, as well as a PTA committee headed by Mr. O. D. Lowry and Mrs. Alene Bain.

A well planned series of programs have been worked out for this year. Each meeting has been set up to offer the parent and the teacher an interesting and informative program pertaining to Parent-Teacher work. Plan now to include this organization in your year's activities. PTA needs you - you need PTA.

Celebrate 60th Anniversary

Millie Churchwell and George Grant were married at Forestburg, Texas, August 17, 1890. "Cub" as he is affectionately known to his relatives and friends rode a horse to St. Jo, fifteen miles, to hire a horse and buggy to take his bride to their wedding.

Mr. and Mrs. Grant have lived in several different counties in Texas during their 60 years of married life. They spent twelve years in Goodwell, Okla. and one in California and Washington. In 1916 they moved to Donley county and settled in the Goldston community after buying a farm from Leck Goldston. In 1940, they sold the farm and moved to Clarendon.

Mr. and Mrs. Grant have two sons, Vonnice W. Grant of Kansas City, Mo., and Wayne A. Grant of Amarillo, two daughters, Mrs. Clyde Hudson of Clarendon and Mrs. Warren Bray of Little Rock, Ark., four grand children, Wayne Grant Jr., of New Orleans, La., Mrs. Robert Daniel, Jr. of El Paso, and Wendell and Bill Bray of Little Rock, Ark., two great grandchildren, Wayne Grant III of New Orleans and Robert Daniel III of El Paso.

Several courtesies were extended them last week end. Last Thursday evening Mr. and Mrs. V. W. Grant entertained with a dinner at the Donley Hotel. Places were laid for ten on a square table centered with an arrangement of pink and lavender asters, presented by Mr. and Mrs. W. A. Grant.

Mr. and Mrs. Clyde Hudson entertained the group at a luncheon in their home west of Clarendon Saturday.

Sunday climaxed the week-end of entertaining, when Mr. and Mrs. Grant served a buffet luncheon to forty of their relatives, and held open house at their home from 2 until 6 o'clock for their many friends.

The guests were greeted by their daughter, Mrs. Warren Bray who presented them to the honorees.

The rooms were decorated with yard flowers accented with large platinum bows and beautiful floral arrangements presented by friends.

The serving table was laid with an imported white lace cloth. White Dahlias grown and presented by Dr. B. L. Jenkins were used in the beautiful centerpiece of white carnations and tube roses tied with platinum lace and ribbon streamers, interspersed with platinum bells. The white stair-step wedding cake was served by Mrs. W. A. Grant and Mrs. Glen Berghelm. Mrs. V. W. Grant poured punch. Others assisting were Mrs. Shubert Arnold, Mrs. Greedy Rippy and Mrs. Clyde Hudson.

Mrs. Henry Flanagan registered the guests at a table on which was placed the wedding picture of the honored pair.

Towns outside Donley County represented were Vici, Okla., Norman, Okla., Forestburg, Tex., St. Jo, Childress, Amarillo, Detroit, Mich., Ft. Worth, Goodnight Sweetwater, Pampa, Fordice, Ark., Plainview, Groom, Ragland New Mexico, Kansas City, Mo., and Little Rock, Ark.

All of Mr. and Mrs. Grant's children were present to help them celebrate this happy occasion, also one grandchild and one great-grandchild.

One hundred twenty-five guests called to congratulate Mr. and Mrs. Grant on reaching this 60th milestone in their wedded life, and to wish them many, many more.

QUARTERBACK CLUB TO MEET MONDAY

Members of the Quarterback Club will hold a meeting Monday night, August 28, at the gym. Everyone who is interested in athletics is urged to come. Let's help back our school's athletic program. Free coffee and doughnuts will be served.

Schools To Open Fall Term

Supt. H. T. Burton announced this week that enrollment in the Clarendon Schools will begin Friday, September 1. All high school and grade school pupils are asked to report at 9 a. m. on that date. Actual school work will then be taken up on Monday.

Several changes have been made in regular enrolling. The sixth, seventh and eighth grades will enroll in Junior High. The first, second, third, fourth and fifth in the Elizabeth Stevens building, and the ninth, tenth, eleventh, and twelfth grades in the senior high school.

Registration for College students will begin Monday, Sept. 4. All Junior High and Senior high school students are asked to bring \$1 for Library fee.

The Cafeteria in the Junior High school building will serve their first meal Tuesday noon, September 5.

A complete list of teachers and the grades they will teach is not available at this time but will be published in the next issue of your Leader.

HEDLEY IN CAPROCK LEAGUE PLAY-OFF

In the Caprock League championship play off games Hedley defeated Groom in a hard fought baseball game at Hedley last Sunday by the score of 9 to 6. Bobby Everett started on the mound for Hedley but had to be relieved in the fourth inning by Junior Hill. Don Ritter pitched until the 6th inning for Groom but was taken out in favor of Bill Britton after Hedley made 7 runs in that inning. Hill was the winning pitcher and Ritter the loser. Ritter hit a ball over the right field fence for a home run in the 8th inning.

Washburn defeated Panhandle in the other play off game. Hedley and Washburn will play a three game series for the finals, beginning at Hedley next Sunday at 3 p. m.

ATTEND GRADUATION AT CANYON

Mr. and Mrs. Bill Bromley attended graduation exercises at Canyon Wednesday night. Included in the class was their son Pete Bromley. Pete majored in Physical Education and will take up his coaching duties September 5th at Flomot, Texas.

Services Held For Pioneer Lady

Funeral services were held Saturday afternoon, August 19, for Mrs. Carrie SoRelle, at the Methodist church, with Rev. John English officiating. Burial was in Citizens Cemetery.

Mrs. SoRelle was born at Galveston, Ill. Feb. 24, 1861. After graduating from Knox College she taught in the public schools there for several years. In 1886 she married the late William SoRelle and moved to Waco. They settled in West Texas in 1905 on a ranch near Goodnight, later moving to Clarendon where Mr. SoRelle engaged in the real estate business.

Mrs. SoRelle was a member of the Methodist church, Missionary Society and the Pathfinder club. She passed away at her home here in Clarendon Thursday evening, August 17th following a lengthy illness. She was 89 years old at the time of her death.

Mr. SoRelle preceded Mrs. SoRelle in death in 1925. She is survived by two daughters, Mrs. Meta Jordan, Amarillo, Mrs. Tina Rawlings, Dimmitt, two sons, Jack SoRelle, Amarillo and I. F. SoRelle of Canyon, 14 grandchildren and 14 great-grandchildren.

Pallbearers were Ralph Porter, Walter Clifford, J. T. Patman, C. C. Powell, F. E. Chamberlain, and Melvin Cook.

Funeral arrangements were under the direction of Murphy-Spicer Funeral Home.

DONLEY COUNTY FAIR DATE SET FOR SEPTEMBER 15th & 16th

LOCALS RETURN FROM OLD MEXICO TRIP

Mr. and Mrs. Rufus White returned last week from a two weeks vacation, part of which was spent in San Antonio, the remainder in and around Mexico City.

Mr. and Mrs. White traveled by plane from Laredo to Mexico City and joined auto tours taking them to Cuernavaca and Taxco. They also visited the Floating Gardens at Xochimilco, and the Shrine of Guadalupe.

In Mexico City, on Sunday, they attended a Bull Fight, held in the largest ring in the world. Mrs. White reported both the fight and the crowd to be interesting to watch. She also commented on the "smartness in dress" found among the Spanish peoples.

The above mentioned sights are only a few of the highlights of their vacation. Mr. and Mrs. White report it a most enjoyable trip.

WELLINGTON COUPLE BUYS GROCERY HERE

Mr. and Mrs. Jap Smith of Wellington have purchased Frank's Grocery, located on east 2nd st., from Frank Tyler. The transaction was made effective Aug. 17th. The business will be known in the future as Ruby's Grocery. Mr. and Mrs. Smith are inviting the public to come out and get acquainted. They are members of the First Baptist church and he is a member of the I. O. O. F. Lodge.

Primary Election This Saturday

Donley county voters will go to the polls this Saturday to cast their ballot for their favorite candidate in the second primary runoff election. A small vote is expected as there are so few to be voted upon. The only race which is still creating much interest is the congressional race between Walter Rogers of Pampa and Altavene Clark of Amarillo.

The candidates to appear on the ballot are:

Lt. Governor; Pierce Brooks and Ben Ramsey.

Associate Justice Supreme Court (place 1); Will Wilson and Fagan Dickson. (place 3); Meade F. Griffin and Geo. W. Harwood.

Judge, Criminal Appeals; Robt. L. Lattimore and W. A. Morrison. Commissioner of Agriculture; John C. White and J. E. McDonald.

Congressman 18th District; Walter Rogers and Altavene Clark.

Donley County Leader, \$2.50 year

The Donley County Show Board met in the office of the county agent on Friday night the 18th of August with fifteen members attending. The board set the dates for the Donley County Fair, Horse Show and Races for the 15th and 16th of September. H. M. Breedlove, county agent and secretary of the show board says that committees were appointed for all nine departments of the show and that most of the community committees have been contacted in regard to the community agriculture exhibits. The departments of the show include, Community agriculture exhibits, Home Economics department, Flower Show, Merchants department, Poultry show, Boys swine show, Boys beef calf and sheep departments, dairy show, horse show and races. The fair will be held at the fair grounds at Clarendon. The catalogue has now gone to press and we are advised that it will be ready for the public around the first of September. Remember the dates of your county fair and make plans to attend and bring the entire family.

A VOTE for WALTER ROGERS

Will Be a Vote for

A SOUND FARM PROGRAM and REPRESENTATION FOR ENTIRE PANHANDLE

HERE ARE SOME OF THE THINGS WALTER ROGERS STANDS FOR:

1. ASSISTANCE FOR CROP DAMAGES

Walter Rogers stands for immediate assistance to cotton and wheat farmers who have suffered from catastrophes brought about by the weather. He advocates immediate INCREASE IN ACREAGE ALLOTMENTS to be planted to wheat this fall and cotton next spring. "This is an emergency measure and will not disturb the present allotment schedule, but will help farmers who are in need of immediate assistance in planning their future programs," Rogers has stated.

2. KEEP FARM PROGRAM

Walter Rogers believes economy of Panhandle is based primarily upon agriculture. Farmers of this section are capable, sound-thinking Americans who should have a GREATER VOICE in setting up many features of present farm program. Farmers suggestions and advice should be followed and used in order to retain all good points of present program and at same time eliminate bad points. "We must have a stabilized farm economy!"

3. HOME RULE AND HOME RESPONSIBILITY

Walter Rogers believes future of our country depends upon the homes and small communities. Believes encroachments have been made upon individual rights which must be checked or rights will be lost to people.

4. PRIVATE COMPETITIVE ENTERPRISE

Walter Rogers believes a balanced economy depends upon the American private competitive system, free of Government control except for adjustments of wrongs brought about by bad faith. He recognizes rights of working man as well as that of employer.

5. MORE OLD-AGE ASSISTANCE

Walter Rogers believes the old people are not getting their just dues. Says that too much money set aside for them is going into overhead costs; that they are entitled to more courtesy in their claims and requests.

6. NO TOLERATION OF COMMUNISTS

Walter Rogers believes that soft treatment of Communist traitors should cease; that all Communist in our government should be immediately discharged. He believes laws should be passed immediately to check Communism and the spread of Communist propaganda by false-front organizations.

7. DEFENSE AND PREPAREDNESS

Walter Rogers believes in proper preparedness of this country first; and strict economy where it will not weaken the strength of this nation. He believes in drastic reductions in government costs, abolition of over-lapping bureaus, cleaning out of overstuffed departments, and elimination of red tape. He does not favor playing politics at the expense of our nation's safety.

8. TIDELANDS AND EDUCATION

Walter Rogers believes the Tidelands belong to the State of Texas. He believes federal aid to education is double taxation; that if government will attend to own affairs, leave our Tidelands alone and conduct itself in accordance with Constitution, Texas won't have to worry about federal aid to our schools.

9. AGAINST SOCIALISM IN ANY FORM

Walter Rogers is against Socialized Medicine, Socialized Education, Socialized Housing and Socialized Industry.

Let's Elect Our Own Congressman Because The People Of The Panhandle Need A "Free" Man In Washington!

LET'S VOTE FOR

WALTER ROGERS

of Pampa
FOR CONGRESSMAN

Gabie Betts Burton Library Notes

By May L. Prewitt

The Library was such a busy place last week that our notes were neglected. Several of the larger libraries give reading certificates to children reading 10 books during vacation. The Kemp Library at Wichita Falls did this when I taught in Wichita, but our children are so "reading conscious" that such incentives are far from necessary. Of the 122 books issued Saturday and 135 issued Monday, the greater part of them were for children and teen agers. They will soon be in school, and thru September the book shelves can be made orderly.

Two girl scouts worked two hours each and arranged two sections alphabetically. This was indeed appreciated.

The Burns children, Kenneth Ray, and Eleanor, donated quite

a stock of practically new books to the junior department.

Books from the publishing house this week are: "Team Work" by Curtis Bishop, which is one of a series of books for the young people dedicated to the memory of Mary Frances Word. "The Ben Lilly Legend" by J. Frank Dobie was given in memory of Mr. Mongole. J. Frank Dobie met Mr. Lilly over twenty years ago and was so fascinated by this extraordinary man who had followed the bear and panther westward from Alabama in to Texas, that he collected everything he could find about him. It is classified with his group of writings in "Guide to Life and Literature of the Southwest." Another memorial book is "The Immortal Lovers", Elizabeth Barrett and Robert Browning. A biography by Frances Winwar that is the most complete of any biography of this couple and very charmingly told.

We have added to our popular fiction list "World Enough and Time" by Robert Penn Warren,

who will be remembered for his Pulitzer Prize novel "All the King's Men". "World Enough and Time" is on the best seller list and a "Book of the Month" selection.

The Garden Club gave a donation to the Library this month that was very much needed. This club remembers us each year, in fact, four of the clubs in our town are annual contributors to the Library support.

We have some interesting material for fireside companionship this winter, so come and read with us.

VANDALS OF TRAFFIC SAFETY

The dictionary lists one definition of a vandal as "a wanton or ignorant destroyer or defacer of any building, monument, etc., which should be preserved."

This definition—"wanton or ignorant destroyer or defacer of any building monument, etc., which should be preserved"—well describes a group who are operating on our highways today, the vandals of traffic safety. These vandals of traffic safety are those thoughtless, wanton, ignorant destroyers of monuments to traffic safety—highway traffic signs.

You, the traveling public, the taxpayer, are paying for these acts of destruction: acts of destruction through use of signs for target practice, acts of destruction through defacement of signs with paint and crayons, acts of destruction through knocking signs down, acts of destruction through theft, acts of destruction through bending signs double so their message cannot be read, and acts of destruction through carving of signs with a pocket knife.

And what is the price you pay for these acts of destruction? Each year the Highway Department alone spends an estimated \$20,000 to \$25,000 in measured dollars and cents in repairing and replacing some 7,800 signs damaged or destroyed through acts of vandalism—enough to build four miles of Farm-to-Market roads

and get some farmer out of the mud. And the measured dollars and cents are not the only price you pay. No one will ever know just how many people have paid with their lives; how many people are crippled for life; and how many thousands of dollars in property have been destroyed all because a Curve sign with a Safe Speed sign mounted below it has been destroyed by vandalism. Should we continue paying the price for this thoughtless destruction?

If you know one who has been guilty of destroying or defacing traffic signs, remember he is not only violating a law for which he may be punished, but you or your loved ones may be the next victim of his acts of destruction. Be a good sport, help get him to promote traffic safety, and do your part to make highway traffic signs "Signs of Life" as they are intended to be by helping to stamp out vandalism.

Wanda Lewis visited relatives in Amarillo last week.

Mr. and Mrs. Harold Phelps visited relatives in Lubbock for the week end. They were accompanied by Mrs. A. A. Mayes who also visited relatives there.

Oil Industry Ready Says API President

The American oil industry is better prepared than ever before to meet any national emergency, Frank M. Porter, president of the American Petroleum Institute, said today in an open letter to oil men in all parts of the United States.

Mr. Porter pointed out that the nation's capacity to produce and refine petroleum, as well as its proved reserves of underground oil, have increased by approximately 25 per cent since the peak demand of World War II for oil products. He added that this growth has been due to the fact that, during the past five years, American oil companies plowed back into their business more than eight billion dollars for exploration and development, and to provide new facilities. Mr. Porter's letter follows:

"On every hand, American oil men have been questioned as to the industry's ability to meet the nation's needs. Each of you, of course, knows the possibilities of his own operations, but it may be helpful to appraise the position of the industry as a whole. "The American oil industry is better prepared today than ever before to meet any national emergency. Our domestic capacity to produce and refine petroleum has increased around 25 per cent since the peak demands of World War II—during which the Armed Forces of this nation and its Allies never lacked for oil, and all essential civilian needs were met.

"In the months immediately ahead, with minor dislocations to be expected, we should be able to furnish all of the military demands for oil products and to supply the civilian needs for gasoline and heating oils.

"Based on the assumption that the military need for oil will increase only as greater amounts of equipment are engaged in using it, there should be no demand in the immediate future that the industry cannot readily supply.

"As to the long range view, no one can predict with complete

accuracy what the military needs for oil products may be. The extent to which we will be called upon to supply gasoline, jet and other aviation fuels, fuel oil, Navy special fuels, and other military requirements for petroleum, obviously depends upon the turn of international events.

"Although we cannot know all that is ahead, the record of our industry is reassuring. In the five years since the end of World War II, American oil companies have been rebuilding, improving and expanding their facilities and creating a substantial reserve productive capacity.

"Compared with the peak war year of 1945, total U. S. crude oil production capacity has been increased 27 percent, refining capacity has been increased 21 percent, and proved crude oil reserves have been increased 24 percent.

"In these five years American oil companies plowed back into their business more than eight billion dollars for exploration and development, and to provide these new facilities—the great bulk of this investment coming from operating profits.

"This record, and the traditional skill and ingenuity of the American oil industry, give assurance that supplies and facilities will be expanded and adapted with maximum speed and efficiency to meet whatever needs may develop, provided that necessary steel and other essential material are made available. - - "

Mr. and Mrs. LaVern Goldston and family visited his mother, Mrs. John Goldston here Sunday.

Mrs. Stanfield of McLean and daughter, Mr. and Mrs. Harold Rejopy of Ft. Worth spent Thursday with her brother, Judge and Mrs. Williams.

1950 State Fair of Texas To Feature Bovine Royalty

Among royalty who this fall will visit the State Fair of Texas Mid-Century Exposition, Oct. 7-22, will be one queen who is a great cow—and proud of it.

Even her name suggests the dignity of royalty—Orland Signal Vol. Sable. This is not considered too much of a name for the world's highest producing Jersey who during one year yielded a record-breaking 19,497 pounds of milk.

Sable will be a feature attraction at the All-American Jersey Show, largest cattle breed show in the world, to be presented at the 1950 Fair. She will be on hand to receive the adulation of the populace all 16 days of the Fair.

At the Fair, Sensational Sable, as she is known to the Hangers-on of her court, will be treated like the queen she is. Her stall in the Fair's \$250,000 cattle barn will be richly decorated to the queen's taste. Lackeys-in-waiting will attend her at all times while she chews her royal cud.

However, Sable's success in life is due not merely to her own serious efforts. She is the result of a plan of careful breeding extending back far beyond the turn of the century. Her father is Observer Blonde's Signal, highest tested senior superior sire in the nation. Her mother, too, was a champion.

Her owners are a young Texas couple who are breeders in the best tradition of the cattle country. They are Mr. and Mrs. Ches-

ter Elliff of the Victory Jersey Farm near Tullia, high in the Panhandle.

To help the champ achieve her amazing record, completed in 1949, the Elliff's milked Sable by hand four times every 24 hours for 365 days. During this period they fed her 7,798 pounds of a tasty mixture of oats, wheat bran, alfalfa meal pellets, cottonseed meal, soybean meal and salt.

As a result Sable's output was almost rich enough to whip. Her 19,497 pounds of milk produced 1,223 pounds of butterfat. She was the first Jersey to produce more than 1,200 pounds since 1934.

As a butterfat producer Sable has received the Medal of Merit, and the Gold and Silver Medal—distinguished service orders of her profession. But what are medals compared to quarts of good rich milk—and dairymen who know say that's where Sable's really able!

The seven wonders of the modern world are the airplane, radium, antiseptics, antitoxins, X-ray, radio and the telephone.

When the highest section of steel is placed on a large building during construction, the American flag is displayed.

IT'S TIME for BROOKS! Because...

Something must be done now about the runaway cost of our state government—a cost which has increased more than 500 percent in the period between 1935 and 1950. Aside from the cost of the Federal government did not increase that much during the same period.

With the State plunging wildly towards a financial crisis, the Lt. Governorship is a business rather than a political office. It needs a business man with a business viewpoint.

Only by the election of a business man can the people of Texas be assured of a direct and vigorous attack on this runaway cost, useless waste, and needless extravagance in our State government.

Only a business man who has not been a part of the system which spawned this era of waste and extravagance can give the problem that searching inquiry and impartial analysis needed now. Pierce Brooks is that man.

The next Lt. Governor of Texas should be above any internal friction, beyond all cross currents of politics, and completely judicial when clashes of personalities arise among members of the Senate. He must be in a position to treat them all alike, to be fair to each, and also to be true to his obligations to the people. Pierce Brooks meets these tests.

Pierce Brooks is the only candidate completely free from the entangling alliances, political obligations, cliques, clans and groups which grow up when men stay in office too long.

The Lt. Governor to be elected in 1950 should not come from the confused atmosphere of the State government, but direct from the people with a program for the people. Pierce Brooks is such a man.

In these crucial times the next Lieutenant Governor should be answerable to the people of the State and not to any group of special interests that has made millions of dollars off the taxpayers.

REDDY KILOWATT
 Your Electric Servant

"Here are some basic facts about the electric power industry!"

✓ The business-managed electric power and light companies are the second largest taxpayers in the nation. Last year the West Texas Utilities paid \$2,238,634.00 in taxes—an amount equal to the total electric bill for all residential and farm customers for seven months!

✓ Despite all the "whoop-de-doo" over hydroelectric energy, if all the available water power resources in the United States could be completely developed, this would produce only one-fifth of the total energy the nation will need by 1960. In order to insure ample electric power for West Texas, the West Texas Utilities Company began in 1947 a program to more than double its generating capacity!

✓ Since World War II, the business-managed utilities have invested nearly \$2,000,000,000.00 a year in new plants and equipment to serve the people. This is the largest construction program undertaken by any single industry. The West Texas Utilities is now in the midst of a \$20,000,000.00 program expanding facilities to serve West Texas!

✓ Electric service is the one item in the family budget that costs substantially less than in pre-war days. Since 1939—while the cost of living as a whole has risen nearly 70 per cent—the average cost of a kilowatt hour of electric service for West Texas household use has dropped 18 per cent!

RUPTURE

SHIELD EXPERT HERE

H. M. SHEVNAN, widely known expert of Chicago, will personally be at the Herring Hotel Amarillo Sunday & Monday only Sept. 3rd and 4th. 9 A. M. to 4 P. M.

Mr. Shevnan says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly no matter the size or location but it will increase the circulation, strengthen the weakened parts, and thereby close the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume. A nationally known scientific method. No under straps or cumbersome arrangement and absolutely no medicines or medical treatments. Mr. Shevnan will be glad to demonstrate without charge. 6509 N. Artesian Ave., Chicago 45 Large incisional hernia or rupture following surgical operation especially solicited

Mr. and Mrs. Joe Bosch and children, Michael and Patricia of Los Angeles, Calif. are visiting in the U. T. Fowler home.

Mrs. Roy Beverly, Mrs. J. L. Allison and Miss Naomi Allison attended the Old Settlers picnic at Hedley Friday.

A Common Paper for Common People

Ben Guill Reports To The People

(Congressman 18th District)

The single question that has been asked me more than any other by the people back home recently has been: "Where has all our defense money gone?" I've done a little research on the answer.

(Congressman 18th District)

During the last five years, Uncle Sam has spent \$98 billions on defense. However, \$45 billions of that was spent in 1946 before demobilization was complete and much of the money appropriated that year went into terminal leave and other benefits. I think the more fair figure is \$50 billions spent on defense since 1946. Out of every dollar we have spent for defense during the last four years, 65 cents went for

salaries, clothing, food and housing for our military manpower. Out of every dollar, 20 cents went for research, administrative work and maintenance of the National Guard and Reserve.

And, out of every dollar spent for national defense, only 15 cents went to procure weapons, ships and planes.

The smallness of the last figure shows why we had not bought a single tank since the war ended. This policy was followed despite the fact that we knew by our experience in World War II that Russian tanks were far superior to our own, and we knew from our intelligence sources that Russia was making tanks furiously in preparation for war. Russia now has 40,000 tanks, more than 7 times our total.

The fact that we spent less than 15 per cent of our defense money on equipment and weapons also explains the fact that on Korea Day our airplane production was far less than one-third of what it

was on Pearl Harbor Day nine years ago. And we thought we were caught asleep at the switch then.

As a matter of fact, Washington is still asleep at the switch, because there are too many people here who cannot think and plan without an eye to political advantages. A General in the Pentagon told me earlier in the week that the Army can't plan intelligently for the future or take the measures that should be taken until the powers that be decide that this war is a great deal more important than the November election.

Personally, I think that anybody who can't rise above politics and party loyalties in the face of this crisis should be kicked off Capitol Hill. If ever we needed non-partisan and unselfish co-operation among all Americans, it is now. If we can't be plain, solid Americans together now instead of merely Republicans and Democrats, then

we deserve to be beaten by the Russians.

The Natural Resources Board was set up five years ago to draw the blue-prints for definite plans by which this country could be placed on a full mobilization status at a moment's notice. John Steelman was part-time chairman and, since the job is a full-time job, and then some, nothing constructive was done. Then two precious years were wasted in an unsuccessful political fight to get Mon Wallgren, former Governor of Washington and close friend of President Truman, appointed as Chairman. The Board had no real head during these years. Finally, Stuart Symington was recently appointed Chairman, after he resigned from his position of Under Secretary for Air because of his disagreement with the policies of Defense Secretary Louis Johnson.

At a meeting of representatives of the metal and mining industries last week, officials of the Natural Resources Board admitted that they had no plan, they had very little idea of what was needed, they had almost no conception of what industry would have to do.

Mr. Symington is considered a very able administrator here in Washington. The sorry condition of our defense preparation is due to no fault of his. But Mr. Symington has to start from scratch when the original reason for the Board was to have fool-proof mobilization plans worked out in advance. After five years of planning, all Mr. Symington should have had to do was to push a button. It turns out that he hasn't even got the push-button, let alone the blueprints off action.

And here's how serious it is. It

was Mr. Symington himself who announced to the Texas delegation at luncheon a short while ago that "if Russia were to attack us today we would find ourselves in a desperate situation."

This Dangerous Motor Age?

In 1909, the peak year for travel by horse power, there were some 26 million horses and mules at work, traveling 13 billion miles annually. Thus Dobbin averaged 500 miles per year compared to today's motor vehicle which clocks approximately 9,800 miles each year. In 1909, there were 3,850 persons killed in accidents

involving horses and horsedrawn vehicles — 30 for every 100 million horsedrawn miles. The current fatality rate for gasoline-powered vehicles is seven deaths for each 100 million miles traveled. And some people call the gasoline age dangerous!

PLOWIN' Out the CORNERS

Floyd Wilson says that a reader of our column from a nearby city asked him if Uncle Zeb wasn't a retired preacher... Floyd may be kidding me and I have no idea what he would have answered to such a question, but to clear up the subject for good I will say that I am not anything like a re-

tired preacher; I am not even a tired preacher... I am just tired... Anyway thanks for the compliment... There is no group of folks that I admire more than I do the preachers.

As it is just about time for school to start I will include a professor joke that I heard down in Oklahoma last week. "Now students", said the Prof as he wiped the blackboard clean, "I will demonstrate the things that I know".

Another story from my trip; It seems that back in the thirties this certain large family was having some difficulty getting along. The source of life as far as they were concerned was their black-

eyed pea patch. One day the father came running to the house shouting; "Children, children, run for your lives, a cyclone is coming". According to the story every last one of them headed for the pea-patch.

Some people think that the so-called easy going dole system of feather-bedded politics that is trying to choke out our old style freedom and democracy would have fallen by the way long ago if it had not been for the war and destruction that has happened in the world at about the same time. If that be the case, if it takes that to assure us prosperity let's go back in a hurry to the rough and tumble days of the depressions. Sometimes I think we had more self respect in those days; more ambition and self-reliance; more love for God and our fellowman on an empty stomach and a flat purse than we have now. Surely

man could find a middle of the road solution to his problem somewhere.

Had a nice long letter from our old friend Al Gerner down Lelia Lake way. Mr. Gerner does a lot of reading and a lot of thinking and as a result comes up with some pretty good thoughts and material. He sends me a pamphlet by a Presbyterian minister in Nashville, Tenn. who takes the stand that the churches should take the lead in begging folks to hold on to our democratic way of life, and not throw it away or sit idly by and let it be stolen away as did the churches in some of the European nations. This preacher compares our condition to that of the people of the Old Testament during the reigns of Solomon and Rehoboam. Some of you local ministers let use know what you think of this comparison. Quoting from the same pamphlet is the following parody on the Twenty-third Psalm, the same being taken from the Memphis Commere-

cial Appeal;

"The state is my shepherds, I shall not work; it maketh me to lie down on good jobs; it leadeth me by the still factories. It deadens my soul; it leadeth me in the paths of idleness for politics sake. Yea, though I walk through the valley of slothfulness and economic disaster, I will fear no evil, for it will be with me; it's dole and paternalism, they comfort me. It prepareth a Utopia for me by appropriating the earnings of the frugal; it filleth my head with fool expectations; my mounting inefficiency runneth over. Surely goodness and mercy shall follow me all the days of my life, and I shall live on the bounty of the state forever". Glad to hear from down that way and to have these thoughts to pass on to others. We must keep awake. We must think and act for ourselves and not let ourselves be silenced by promises of security to the point that we would part with one small part of our basic freedoms.

The fish wouldn't bite this time down on the Washita, but Mama's friends and relatives were good to us and fed us fish from the deep freeze... Bless them, anyway...

THE STATE OF TEXAS

TO: Luther H. Haley Defendant, Greeting:

You are hereby commanded to appear before the Honorable District Court of Donley County at the Court House, thereof, in Clarendon, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 25th day of September A. D. 1950, then and there to answer Plaintiff's Petition filed in said Court, on the 31st day of July A. IMPERIAL...is the word for it!

"Imperial," says Webster, means "superior excellence." IMPERIAL, says Chrysler, is this luxurious new car that excels anything on wheels in the sheer exquisiteness of its styling. Come look inside this reigning beauty... look at the lavish wool broadcloth fabrics, tastefully combined with topgrain leathers. Look at the lovely color harmonies, the soft sheen of the butter-finished chrome. Consider the advantages of Fluid Drive... exclusive new automatic transmission... Waterproof Ignition... Full Flow Oil Filter... High Compression Spitfire Engine... electric window lifts... the CLEARBAC rear window for exceptional driver vision... and dozens more. Surely, of all the world's fine automobiles, only the Chrysler CROWN IMPERIAL, this car's running mate, achieves the same aristocratic distinction. Come see the flawless workmanship, the fine materials, the superb Chrysler engineering... and you'll agree that no other car, at any price, compares with the Chrysler IMPERIAL. Inside or out, there is no finer car in America!

ONLY THE CHRYSLER IMPERIAL offers you this absolutely unique system of window control! Each window has its own separate electric motor... each one can be raised and lowered independently from the driver's seat or at the window itself. And that's not all! So many other deluxe features... the kind you think of as being in the "special order, extra cost" category... are STANDARD EQUIPMENT on the Chrysler

PELOWIN' Out the CORNERS

Floyd Wilson says that a reader of our column from a nearby city asked him if Uncle Zeb wasn't a retired preacher... Floyd may be kidding me and I have no idea what he would have answered to such a question, but to clear up the subject for good I will say that I am not anything like a re-

tired preacher; I am not even a tired preacher... I am just tired... Anyway thanks for the compliment... There is no group of folks that I admire more than I do the preachers.

As it is just about time for school to start I will include a professor joke that I heard down in Oklahoma last week. "Now students," said the Prof as he wiped the blackboard clean, "I will demonstrate the things that I know".

Another story from my trip; It seems that back in the thirties this certain large family was having some difficulty getting along. The source of life as far as they were concerned was their black-

eyed pea patch. One day the father came running to the house shouting: "Children, children, run for your lives, a cyclone is coming". According to the story every last one of them headed for the pea-patch.

Some people think that the so-called easy going dole system of feather-bedded politics that is trying to choke out our old style freedom and democracy would have fallen by the way long ago if it had not been for the war and destruction that has happened in the world at about the same time. If that be the case, if it takes that to assure us prosperity let's go back in a hurry to the rough and tumble days of the depressions. Sometimes I think we had more self respect in those days; more ambition and self-reliance; more love for God and our fellowman on an empty stomach and a flat purse than we have now. Surely

man could find a middle of the road solution to his problem somewhere.

Had a nice long letter from our old friend Al Gerner down Lelia Lake way. Mr. Gerner does a lot of reading and a lot of thinking and as a result comes up with some pretty good thoughts and material. He sends me a pamphlet by a Presbyterian minister in Nashville, Tenn. who takes the stand that the churches should take the lead in begging folks to hold on to our democratic way of life, and not throw it away or sit idly by and let it be stolen away as did the churches in some of the European nations. This preacher compares our condition to that of the people of the Old Testament during the reigns of Solomon and Rehoboam. Some of you local ministers let use know what you think of this comparison. Quoting from the same pamphlet is the following parody on the Twenty-third Psalm, the same being taken from the Memphis Commerce-

ial Appeal:
"The state is my shepherds, I shall not work; it maketh me to lie down on good jobs; it leadeth me by the still factories. It deadens my soul; it leadeth me in the paths of idleness for politics sake. Yea, though I walk through the valley of slothfulness and economic disaster, I will fear no evil, for it will be with me; it's dole and paternalism, they comfort me. It prepareth a Utopia for me by appropriating the earnings of the frugal; it filleth my head with fool expectations; my mounting inefficiency runneth over. Surely goodness and mercy shall follow me all the days of my life, and I shall live on the bounty of the state forever". Glad to hear from down that way and to have these thoughts to pass on to others. We must keep awake, We must think and act for ourselves and not let ourselves be silenced by promises of security to the point that we, would part with one small part of our basic freedoms.

The fish wouldn't bite this time down on the Washita, but Mama's friends and relatives were good to us and fed us fish from the deep freeze... Bless them, anyway...

First of the Fine Cars in Value

Tune in HENRY J. TAYLOR, ABC Network, every Monday evening.

It's a *very* satisfying feeling

YES, it's good to slip into a truly fine automobile and sense its richness, its comfort, its room.

And there's a great thrill in touching off the waiting power of a great-hearted straight-eight and feeling its swift response at any speed.

It's fun to count the quick, admiring glances thrown your way.

It's nice to have a car that parks easily, for all its inches. It's very pleasant to do away with gear-shifting and clutch-pedal pushing, and know in its stead the utter smoothness of Dynaflo Drive's silken transmission of power.

And still that doesn't probe the depths of a ROADMASTER owner's secret satisfaction.

For while he knows he has a fine car, by its look, its feel, its appointments—

While he has performance at his command that needs play second fiddle to no other on the road—

While he enjoys a very special measure of creature comfort in the quite matchless gentleness of ROADMASTER'S ever-level ride—

He knows too that he has made

an exceptionally wise investment.

He has spent his money for the things that make a fine car fine—and nothing simply for show.

He has paid the lowest price per pound in the fine-car field—he has the very satisfying feeling of knowing his dollars have given him solid merit, and solid merit alone.

We'd like to have you try ROADMASTER in honest comparison with the highest-priced cars to be found. We'd like to have you try to match it for room, for comfort, for finish, for handling ease and for ability on the road.

Then check the prices—and see if your own sense of value doesn't advise signing up right now with your Buick dealer for a Buick ROADMASTER.

Little Woman Ribs 'He Men'

AUSTIN—The hunting 'wid-
ow's dilemma is adroitly present-
ed by Marian M. Goodrum form-
erly of Denton and now of At-
lanta, Ga., in a satirical article
"Look Before You Leap" in the
June issue of "Texas Game and
Fish." She described the futility
of wives accompanying husbands
on field trips.

Mrs. Goodrum relates how she

participated in "the wonders of
harvesting the wild." Then, after
listing the torture of climbing
fences and struggling through
weeds, Mrs. Goodrum writes:

"Finally toward the end of the
day one poor creature is felled
and the dog brings you a poor
limp thing still warm with life,
whose feathers are rumpled
somewhat by the shot but whose
beauty is still apparent to your
tired eyes. You think of its
mother and father and brothers.
Maybe it had some little ones or
even a wife. You think of the joy
it must have known in the free-
dom of the wild. Then and there
you decide that harvesting such a
thing is definitely in the world of
the outdoorsman and not in
yours."

The next step of preparing the
game for cooking is described:
"I am sure that girls brought up
in the country are well aware of
the fact that even chickens in

their natural state come equip-
ped with feathers and insides,
and that they have had enough
experience with such things to
be able to cope with them. On
the other hand to less fortunate
girls whose poultry comes from
the market, craws and gizzards
come as more or less a shock - -
Do not be discouraged. If you do
a thoroughly bad job of it, your
outdoorsman will soon learn the
necessity of doing it himself."

Public Employment Up 525%
In 1900 about one million per-
sons were employed by the Fed-
eral, state and local governments
combined. The 1950 figure ex-
ceeds 6,250,000, according to the
National Industrial Conference
Board. The nation's government-
al payrolls today total \$22,000,-
000,000.

ital of the United States in 1800.

Business Leader With Great War Record Tells How Hadacol Has Rebuilt Him Physically

Was run-down, weak, after service in South Pacific
due to deficiencies of Vitamins B₁, B₂, Iron and Niacin

Mr. Donald Hedburg, who re-
sides at 1812 Parker in the fash-
ionable Riverside District of
Wichita, Kansas, has been an up-
and-coming executive member of
the staff of the great Wichita
Eagle newspaper for over four
years.

Mr. Hedburg has an enviable
record of combat with the U. S.
Army in the South Pacific in
World War II. He is very active
in civic affairs. And just as he
was anxious to pitch in and do
a job during the war—he now
wants to help his fellow citizens
who (like he was once), are
physically run-down and weak
due to lack of Vitamins B₁, B₂,
Iron, and Niacin in their systems.

Here is Donald W. Hedburg's
witnessed statement: "When I
returned from service, I faced
the problem of rebuilding my-
self physically. I was in a gen-
eral run-down condition.

"In my present capacity of
advertising salesman for Kansas
great newspaper, The Wichita
Eagle, it's absolutely necessary
that I have plenty of vitality—
'get up and go.' I had real cause
to worry. Nothing seemed to re-
build me constitutionally. Then a
friend of mine on the national
staff told me about HADACOL—
he asked me to try at least five
bottles. I'm on my fourth bottle
and already I feel like my old
self. I look forward to a day's
work and go home—play with the
children—work in the yard—fish
until midnight! Thanks again to
HADACOL, energy and vitality
fiber of my body. You bet, I too,
am now a missionary for this
great new HADACOL."

Get That Wonderful HADACOL
Feeling Everyone is Talking
About

HADACOL gives such wonder-
ful results because it not only
supplies deficient, weak run-
down systems with more than
their daily needs of important

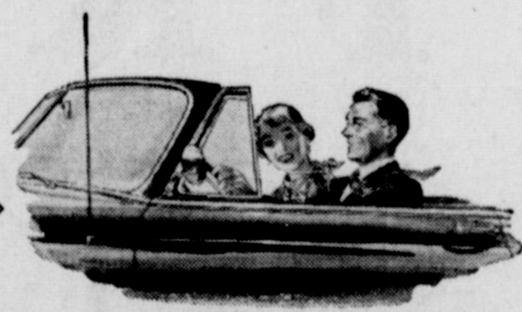

Vitamins B₁, B₂, Iron, and Niacin
—but also helpful amounts of
precious Calcium, Phosphorus and
Manganese — elements so vital
to help maintain good health and
physical fitness.

If you are a victim of neuritis
pains, certain stomach and nerv-
ous disturbances, constipation,
insomnia or a weak, run-down
condition due to such deficien-
cies, HADACOL will start you
on the road to feeling better
often within a few days. Thou-
sands upon thousands of records
of grateful men, women and chil-
dren proved this to be so.

Many Doctors Recommend It
HADACOL is recommended by
many doctors not only to their
patients but to members of their
own families who have such de-
ficiencies. Before giving up hope
—you owe it to yourself to at least
give HADACOL a chance to help
you. Why keep dragging your-
self around feeling "half-alive"
when it's so easy to have that
wonderful HADACOL feeling that
everyone is talking about! Trial-
size bottle, only \$1.25. Large fam-
ily or hospital size, \$3.50. Refuse
substitutes.

REMEMBER WHEN

...there was no escape from summer heat

Remember the old palmetto fan in the
church pew? Or the cardboard fan with an
ad printed on the back? The fans fluttered
furiously, but there was no escape from sum-
mer heat.

Now you can have year-round air condition-
ing—cool in the summer, warm in the winter
—with a single unit using natural gas as
