## ROUSTIN' ABOUT with Ed Todd

WAXAHACHIE — Roxy Smarzik was brought to the forefront recently via a Waxahachie Chamber of Commerce gimmick.

She had — and has — "the works" but just needed a little promoting.

Her fancy blonde hairdo is a wig, although she is a blonde.

But her bosom, personality and "singing voice" give her the general look and aura of Dolly Parton, the country pop singer.

"You know, locally I'm kind of a celebrity," said Ms. Smarzik, who just happened to carry off the Dolly Parton look-alike title at Waxahachie's third annual Cow Creek Championship Cabrito Cook-off the last Saturday in June.

Her showmanship created quite a stir back then.

"It's no big deal," she said in a recent telephone interview from her Richardson home. "I'm just a local nut type."

The big deal — and far less publicized — came months later on a Saturday night at the Waxahachie Chamber of Commerce's other fund- and fun-raising event, the Auction-for-Action sale.

Ms. Smarzik, again decked out like Dolly P., was put on the auction block.

"Roxy is a good sport," said Chloe Chaddick, the Waxahachie chamber manager. Like Ms. Smarzik, Waxahachie is reaping publicity benefits from the Dolly P. and her good-looking-look-alike.

The point of the auction was to get someone to pay a lot for the privilege of pinning a silver "gingerbread man" on Roxy Smarzik's draped bosom.

And U.T. Buckner, at last, sounded out with a $6,000 figure, out-bidding the rest for the unusual honor. He pinned the silver figure on her bosom.

"It was something," Ms. Smarzik said. "I was shocked. It was a fun night. The people down at Waxahachie really have class."

"We were all in shock," Nona Luallen, the chamber secretary, said of Buckner's bid.

"He just wanted to do some good...for the community," she said. "He has Waxahachie at heart."

Buckner, a 71-year-old retired stockbroker, said he had no ulterior motive in his bid.

"I was trying to do something good for the community. That's all I had in

"Not a creature was stirring, not even the moose" could be Midlander Charlie Sprayberry's version of "Twas the Night Before Christmas." Here, he decorates the five-foot-wide rack of his stuffed Alaskan moose head in seasonal fashion.

The animal mount takes up a large section of Sprayberry's apartment wall so he uses it as a more or less logical substitute for a Christmas tree. (Staff Photo by Bruce Partain)

# Watching crowds part of job for Midland police

By MARK VOGLER
R-T Staff Writer

Jammed shoulder to shoulder and packed like sardines in a vacuum container, the crowd may never realize they are being watched — and watched very closely.

Though Midland is known as a relatively quiet place to live, when a well-known or controversial dignitary appears for a short visit, or when an event promises to attract hundreds or thousands of onlookers, the security net then gets drawn as tight here as in any major city in the country.

The Midland Police Department has a crowd-watching squad which swings into action when needed.

Essentially, it is a squad which works best when unnoticed and which hopes never to have to call attention to itself.

As on Tuesday's SST Concorde landing at Midland Regional Airport, squad members are on the look-out for unusual activities of any kind.

While spectators watch with awe and curiosity, there are men in the crowd looking for the unexpected — trying to prevent what some experts consider to be "unpreventable."

The tight security precautions taken for Tuesday's landing of the British Airways Concorde were a necessary expenditure of local law enforcement time and energy.

Similar, if lesser, costs also get passed on to Midland taxpayers every time a V.I.P. or candidate for national political office gets off an airplane at the Midland airport, according to Midland Police Chief Wayne Gideon.

Much of the unspoken impetus for such squads goes back to November 1963 when sniper bullets snuffed out the life of an American president in Dallas.

That one event unquestionably startled every law enforcement agency enough to beef up security measures ever since. Subsequent assassinations and assassination events, along with terroristic developments, had added to the well-founded "paranoia."

In Midland, these security measures are not limited to just well-known persons. The Concorde security was intended to keep the public far enough away from the supersonic jet to deter and avoid any attempts at sabotage.

To make sure no shooting or sabotage attempt is made, or rather to decrease the chances of that occurring, the Midland Police Department has prepared itself for its troublesome task.

Three officers have attended intensive training courses in protective security sponsored by the U.S. Secret Service in Washington, D.C.

Gideon declined Wednesday to elaborate on the nature of the training other than to say it enables his men to deal with situations that may arise.

"We take all kinds of precautions. The men are trained in what to look for and what to do in the event a certain situation comes up. Many of these are sensitive — are in areas we just don't discuss," Gideon said.

"Of course, you hope that it's (the security squad) never tested, and so you'll never know what your preventive measures accomplished. You'll never know whether you were successful."

One thing that Gideon is certain of up until now — there has been an absence of criminal activity related to visits here by distinguished public figures.

"The biggest problem we had so far was when President Gerald Ford was here (in September 1975). There was a drunk who wanted to see his president. We wound up arresting him for public drunkeness or something like that," the chief recalled.

In recent years, the police department has been busy providing "ambassadorial protection." The list of visitors qualifying for special protec-

## Woman held in shooting

A Midland woman was being held by police early today in connection with the alleged shooting death of a man who reportedly lived in the same residential dwelling, according to Midland Police Department officials.

Police said they investigated a shooting incident at 1617 E. Magnolia Ave. shortly after 2:30 a.m. today and found a man dead on the floor.

He had been shot five times with a .22-caliber revolver, said officers. Justice of the Peace Robert Pine declared the man dead at the scene.

The victim's name was being withheld today pending notification of relatives.

The woman was in custody of police. No charges had been filed early today.

Witnesses reportedly told police an argument broke out between a woman and man prior to the shooting. The two persons were not related, police said.

# Vance halts Mideast visit

By ARTHUR MAX

JERUSALEM (AP) — Secretary of State Cyrus Vance is cutting short his Jerusalem-Cairo shuttle on orders from President Carter as a result of Israeli resistance to U.S. pressure to accept new Egyptian peace treaty demands.

Vance had a final meeting today with Prime Minister Menachem Begin. But there was no immediate indication it would bring any change in Israel's opposition to the proposals Vance brought to Jerusalem from Cairo on Wednesday.

The secretary was scheduled to fly to Egypt later today for talks with President Anwar Sadat and to return to Washington Friday. He had been scheduled to remain in Israel until Friday.

After two sessions Wednesday, Vance and Begin both said there were "differences of opinion" between Israel and Egypt. The Israeli state radio said Begin found the Egyptian proposals unacceptable, and other Israeli sources claimed Egypt had hardened its negotiating position.

"I wouldn't call it a crisis," Vance told reporters. But after conferring with President Carter by telephone Wednesday, the secretary announced he would leave Israel a day ahead of schedule. Vance said he had "some very important things to discuss with the president."

Some observers thought Vance's early departure was an attempt to nudge Israel into making concessions. Carter himself appeared to be stepping up pressure on Israel in a speech to a business group in Washington Wednesday night. He praised Sadat for being "very generous" in his concessions in the negotiations but was silent about Begin.

"We pray that both nations will accept the same documents," said the president. "But it is extremely difficult."

Carter said Vance can only spend "a limited amount of time...on the Mideast treaty, as important as it is." He pointed out that th secretary is meeting Soviet Foreign Minister Andrei Groymko in Geneva next Thursday for talks that they hope will put the finishing touches on a new SALT agreement limiting nuclear arms.

The stalemate appeared to rule out any chance Israel and Egypt would sign a peace treaty by Dec. 17, the goal set in the Camp David agreements.

Reliable Israeli sources said Egypt has made three new demands, including some it raised earlier and then dropped:

1. The Egyptians want to delay the exchange of ambassadors between Cairo and Jerusalem until self-governing Palestinian councils are functioning on the West Bank of the Jordan River and in the Gaza Strip. A clause agreed on at Camp David last September calls for an exchange of ambassador nine months after the treaty is signed.

2. Egypt wants an automatic review of the treaty's provisions after a specified period. Israel is opposed to such a review after it returns the Sinai Peninsula to Egypt.

3. Egypt wants to change a treaty provision designed to prevent Egypt from aiding other Arab states if they make war on Israel. The Egyptians reportedly want a letter attached to the treaty saying the provision would become effective only after a settlement between Israel and its other Arab adversaries, Jordan and Syria.

Meanwhile, Palestinian officials in the occupied West Bank town of Beit

# Clements backing down on tax cut?

AUSTIN, Texas (AP) — On Nov. 22, Gov.-elect Bill Clements insisted that "one way or another" he would reduce state taxes by $1 billion in addition to the "Tax Relief Amendment."

But on Wednesday, Clements backed off his rigid stance on the $1 billion figure.

"I said at the time it wasn't definitive, but I'm optimistic," Texas' first Republican governor in a century told an impromptu Capitol news conference. "Certainly I'd say that a billion dollars is a goal. It's still a goal I'll work toward."

Clements talked about possible tax cuts following a meeting with Speaker Bill Clayton.

The governor-elect and Clayton said spending proposals by the Legislative Budget Board can be trimmed in the lawmaking session that begins Jan. 9.

The board recommended over $2.4 billion in new state spending for 1980-1981, leaving only $80 million in new revenue from inflation, higher oil and gas prices and economic growth available for spending or tax cut programs.

Legislators use the LBB recommendations as the starting point for determining the state budget.

"I think there will be, in due course, a meeting of the minds and we'll come out of this with a program that will be good for the people of Texas," said Clements.

Clements and Clayton said they needed state revenue estimates from Comptroller Bob Bullock before deciding what budget areas to cut.

"There will be some areas in the document that can be trimmed," Clayton said. "I don't know that it would be proper to say $1 billion or $2 billion or half a billion dollars."

Clements said he has received "very good reaction" from legislators during recent private meetings.

"I'm extremely pleased. I think everyone's in a high degree of cooperation," he said. "That's not to say we all agree on everything. We don't but that's the way the system works."

# White pleads innocent, bail set at $1 million

SAN FRANCISCO (AP) — Bail was set at $1 million for former city Supervisor Dan White after he pleaded innocent to the slayings of Mayor George Moscone and Supervisor Harvey Milk.

Municipal Court Judge Robert Reynolds set the high bail Wednesday, citing "the enormous proportions of the case."

White's attorney, Douglas Schmidt, said after the hearing that "a million dollar bail is tantamount to no bail."

"The court must consider both the safety of the defendant and the safety of the public at large under all circumstances," the judge said in setting bail after White pleaded innocent to two charges of murder.

A preliminary hearing for the 32-year-old White, a former policeman and firefighter, was scheduled for Jan. 17.

During the 17-minute court session, the judge asked White if he had agreed to the plea. White said, "I do, your honor."

White spoke only one other time: when Reynolds asked if he waived his right to a speedy preliminary hearing. "Yes, I do, your honor," White said.

Moscone and Milk were gunned down Nov. 27 in City Hall. White surrendered to authorities about an hour later.

White was elected to the Board of Supervisors last year, but resigned Nov. 10, saying he could not support his family on the $9,600 salary. He later asked Moscone to reappoint him. Milk had opposed the reappointment.

# *Radar detector may or may not be ideal Yule gift*

By GUY SULLIVAN
R-T Staff Writer

Midlanders who've been considering getting something different this Christmas for a lead-footed brother-in-law or for a much-ticketed aunt may have happened across one of those devices for detecting speed traps.

Ah-hah, some may have reacted, just the thing! Well, maybe and maybe not.

Variously called "Fuzzbusters" or "smokie scopes," the radar detecting contraptions, which usually are mounted on a vehicle's dashboard, have a bad reputation in law enforcement quarters.

Not that they enable speeders to get away unpunished. In fact, say law officials, they don't really.

According to a Texas Department of Public Safety officer in Midland: "They are a waste of money."

So says Sgt. Andrew Eubanks of the Highway Patrol.

As usual, there's another viewpoint, albeit a commercial one in this case.

Midlander Bill Conner, the manager of an electronics outlet here, says radar detectors are products which "I can't keep up with (in terms of) the demand.

"We're out of stock," Conner said in a recent interview.

Radar detectors, although legal to sell in Texas, remain unpopular with lawmen all the same.

As the name implies, those radar detectors which Conner sells — when he has them — for about $100 (prices vary throughout Texas) are designed to detect lawmen's radar operations sufficiently in advance to allow the motorist to slow down.

"I imagine a lot of people will be getting these things," said Sgt. Eubanks. "I've heard that a lot of people use them. They are made to counteract the radar of officers."

Observed Sgt. Eubanks, "They work as long as the officer has his radar on and it's emitting a signal. But if a patrolman is going down the road and he turns the radar signal off, well..."

Sgt. Eubanks added: "When an officer sees a car which he thinks is driving pretty fast, he just turns the signal back on. That's why I personally feel these gadgets are a waste of money. Our radar is equipped to counteract radar detectors."

Asked straight out if people should buy the small electronic boxes, Sgt. Eubanks answered, "I think people ought to spend their money on their kids and wives and buy something their families really need."

But that's obviously not what many Midlanders are doing, according to Conner.

"This doesn't just happen around Christmas time, but all year around we have to order more of these things," the store manager said. He noted the portable detectors are easily installed in motor vehicles.

"We order one or two dozen of them at a time," Conner said. "We order more of them than practically anything else."

He said most citizens band radio and electronic firms in Midland sell the detectors.

"We know why people buy these things. We know what they are capable of being used for," he said. "It's rather obvious why they buy them."

Conner said sometimes prospective customers come in and say, "I just got an $80 ticket and I want to buy a radar detector!"

Asked if he uses one of the apparently hot-selling items, Conner replied, "No. I don't have one personally. I use a CB radio.

"You can't talk on a radar detector," Conner explained.

Mrs. Mary Jo Pine receives plaque awarded by the Downtown Lions Club for long-standing community service performed in her role as "Jo Jo the Clown," presented by Lions Lieut. Gov. C.E. McCain, as President George Weis looks on. (Staff Photo)

# Elementary school honor choir entertains Downtown Lions Club

The Honor Choir from Ben Milam Elementary School presented a special program of Christmas music Wednesday noon at the meeting of the Downtown Lions Club in the Midland Hilton.

The choir is under the direction of Walter Wright.

Their selections included "You're Never Fully Dressed without a Smile;" "A New Deal for Christmas;" "How Far to Bethlehem?" "The Little Drummer Boy;" "Make Room in Your Heart;" "Silent Night;" "Have a Joyous Christmas and a Happy New Year;" "The Baby in the Miracle;" "A Merry, Merry, Merry, Merry Christmas to You;" "Sharing Christmas", and "It's Christmas Time."

Mrs. Robert H. (Mary Jo) Pine was the recipient of a special, engraved plaque presented by the club for her years of distinguished, unselfish public service to the community in the role of "Jo Jo the Clown." Mrs. Pine performed gratis for meetings and groups of all kinds throughout the community for a number of years prior to her retirement due to health reasons.

Deputy District Gov. C. E. McCain, a member of the Southside Lions Club, in presenting the award, praised Mrs. Pine for her public service role and her desire to make others laugh.

Mrs. Carol Hall, the club's sweetheart, received a Christmas present from the club, presented by President George Weis.

## Five counties on disaster list

AUSTIN, Texas (AP) — Gov. Dolph Briscoe asked the federal Small Business Administration on Wednesday to declare Burleson, Coke, Limestone, Nolan and Presidio counties disaster areas because of drought.

Such a declaration would enable the counties to participate in the Disaster Loan Program, the governor said.

**NOTICE**

Texas Tech University and Honeywell, Inc. will hold a bidder's conference on Monday, December 18, 1978 at the Pecos Valley Country Club, 5th and Palm Street, Pecos, Texas. Quotes on a Solar Irrigation Project to be installed in the Pecos, Texas area in May 1979 thru April 1980 time frame will be requested. Request for quotes will be issued for:

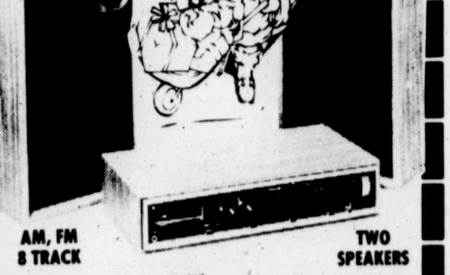

•Electrical •Plumbing •Metal fabrication •Machine and welding requirements •Prefabricated buildings •General construction (includes concrete work, fence installation, assembly and installation of fabricated metal structures)

General contractors may bid on total project work or portions thereof. Bidders' Conference will start promptly at 9:00 a.m. on Monday, December 18, 1978 at the Pecos Valley Country Club, Pecos, Texas.

# Problems of Stacy Reservoir told

Austin Bureau

AUSTIN—Witnesses for the city of Austin have told the Texas Water Commission that the proposed Stacy Reservoir on the upper Colorado River potenmtially could affect the city's water supply, its ability to generate electric power and cause possible water quality problems below the city.

The hearing before the TWC on the Colorado River Municipal Water District's application to construct the Stacy Reservoir in Runnels, Concho and Coleman counties was to continue today.

Austin city attorneys introduced an engineering report prepared by the Lockwood, Andrews and Newman engineering firm which maintains that if the application for the Stacy project is granted without restrictions, the impoundment and diversions from the reservoir possibly "would create a deficiency in the (Austin ) existing water supply."

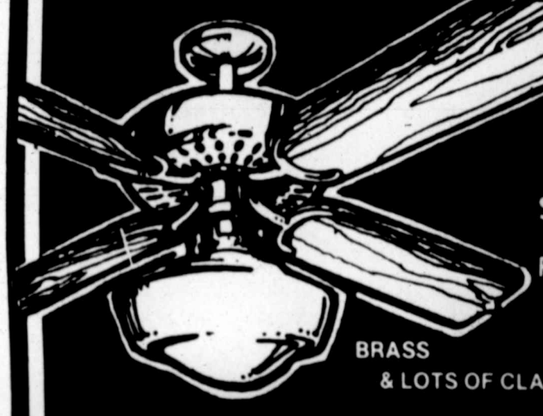

The report compares the city's projected water needs for the year 2010 with the probable effects of historical drought period, concluding that "storage and streamflow values would be insufficient to meet the water needs for the City of Austin."

This, the report said, "could necessitate the implementation of restrictive measures" on the use of city water.

The report also anticipates that a reduction in flows to Austin's Town Lake might be caused by the Stacy Project which would aggravate cooling water temperature problems for two of the city's three power plants.

The maintenance of cooling water discharges below the 96 degree maximum conducted by the city's discharge permit from the estate was exceeded for three consecutive months during a low-flow period in the summer of 1975, the report notes.

# March of Dimes raises over $37,000

The Midland County Chapter of the March of Dimes raised more than $37,000 in contributions for 1978, according to Kathy Atkin, spokesman for the group.

Contributions totaled $37,737.79.

To break that down into categories: the chapter spent $4,390.70 on public health education to educate the community's future parents, she said. Another $16,178.46 was sent to support the nationally conducted research and medical service programs. A sum of $5,374.96 was provided for locally-conducted community service projects and $354.46 was spent to aid families with a member afflicted with a birth defect.

In other areas, $257.62 was spent on professional education, 5 percent of the total fund or $1,384.44, was spent for management and general categories while $2,633.73 was spent on raising funds, according to Mrs. Atkin.

The Midland chapter has received an unqualified opinion on it's report of combined operations as based on standards set by the American Institute of Certified Public Accountants, she added.

Midland's contribution was a small part of the campaign contributions the National Foundation for the March of Dimes reported raising for 1978 which was $62,395,849.

This was nearly 7 million over the 1977 total and the largest amount ever received by the voluntary health organization in a single campaign.

In its 1978 annual report, the national March of Dimes board chairman, Harry Green, reviewed the 40 years of the organization and the work it has accomplished.

The organization's first goal when it was organized was conquest of polio and the present goal is prevention of birth defects.

"As a force for change, we cannot be content to celebrate the past," Green said. "We must re-examine it to abstract what can be most profitably applied to the future.

"One of our first major decisions was to give birth defects prevention, not treatment, the highest priority. Even as we responded to appeals for help from the afflicted, we maintained our committment to research."

Through the campaign, the national board provided $10,841,012 for birth defect research this year, he noted.

The annual report also shows the breakthroughs in 20 years since the birth defects challenge was accepted. Intensive care nurseries that "make their own miracle by creating an environment in which the very sick babies are saved from damage and death" did not exist then.

But while the report noted the advances made in 20 years, it also reflected upon the work to be done. "For the dedicated personnel of ICN are powerless over the forces that bring a high-risk newborn there."

Green said, "It is these forces - societal, economic, educational - which place a mother and baby at high risk that the March of Dimes is launching its first attack."

This attack will be in the form of grants. In addition to the research grant, the Foundation in 1978 spent $9,885,733 on medical service programs.

These brought perinatal assistance including the latest in technological equipment, emergency transport and follow-up clinics to pregnant women and newborns. The organization also provides funds for genetic medicine.

Public health education programs received $11,773,026. The Foundation also introduced its Preparenthood Education Program, prepared by the Bank Street College of Education, for distribution in schools. PEP is one of the Foundation's attempts to reach and educate the record number of pregnant adolescents.

Other areas receiving the national money were community services, $9,656,422, and professional education, $4,719,438.

According to Green, in 1978 birth defects were the nation's major child health problem. Low birthweight is the most common defect of all.

"The March of Dimes stated mission is to reduce the number and magnitude of the hazards potentially standing between every baby and a healthy start in life," Green said.

# Ranger's testimony debunks intruder theory at Swink trial

HASKELL, Texas (AP) — Windows were open but there was no indication anybody ever climbed through them, a Texas Ranger has testified about the scene at a home where he investigated a triple murder last January.

A wrist watch, a billfold with money, and other valuables were left untouched throughout the house, tending to cast in poor light a theory that an intruder broke into the house at night, Ranger Marshall Brown told a jury Wednesday as it sat in the murder trial of a 17-year-old Aspermont, Texas boy.

Roy Glenn Swink stands accused of shooting his father, stepmother and brother in the early hours of last Jan. 24, and then trying to make it appear someone broke in their house and committed the slayings.

Brown said the kitchen window was open when officers answered an emergency call at the home in the West Texas ranching community. But dust on the sill was undisturbed, plants sitting underneath were undisturbed and no footprints were found in the damp ground outside, the Ranger added.

Over defense objections, District Attorney Joseph Thigpen introduced into evidence a large, rectangular gas tank in which Brown said seven spent shotgun shells and 17 live rounds were found. The tank was located near the Swink house in Aspermont.

Brown said Swink told him he went to Stamford, Texas, to visit a girl friend in the hospital the night of Jan. 23 and had told her he thought someone was following him on the trip to the hospital.

Swink told him he got back home after 9 p.m. and later went to bed, got up about 2:30 a.m. for a drink of water, then went to bed again, Brown told the jury.

The Ranger said Swink related that he was later awakened by what sounded like gunshots and that he got up, put on his pants and went into the hallway. He said Swink told of hearing his brother, Royce, say: "I'll call an ambulance."

Swink told officers he then broke out his bedroom window with his hand, climbed through it and went to an uncle's house for help, Brown said.

Brown had testified earlier that officers found no footprints outside the broken bedroom window.

Britain's Queen Elizabeth II chats with actor Christopher Reeve Wednesday evening as she arrives to attend premiere of the film "Superman" in London. It was the European Royal Charity Premiere of the film. Reeve plays starring role in the movie. (AP Laserphoto)

# Bracero program favored

AUSTIN, Texas (AP) — Gov-elect Bill Clements says the return of the bracero program could be the "answer" to the illegal alien problem in the state.

"It worked very well and I want to re-institute such a program," Clements told KGBT-TV of Harlingen in an interview aired in the Rio Grande Valley Wednesday.

The bracero program, which was curtailed in the 1960s, allowed Mexican nationals to obtain permits to work in the United States. Many of the Mexicans worked in Texas fruit and vegetable fields.

"The program, in its most simple form, evolved into a temporary visa work permit where these Mexican nationals could come into Texas and work in our agriculture, our industry and our service functions for three months, six months or even a year and send their money back to the people at home," Clements said.

During the interview, Clements also commented briefly on former President Richard Nixon's return to public life.

" I don't think it serves a good purpose for him to get involved politically," Clements said, adding that he does not mind Nixon talking about his views on foreign policy.

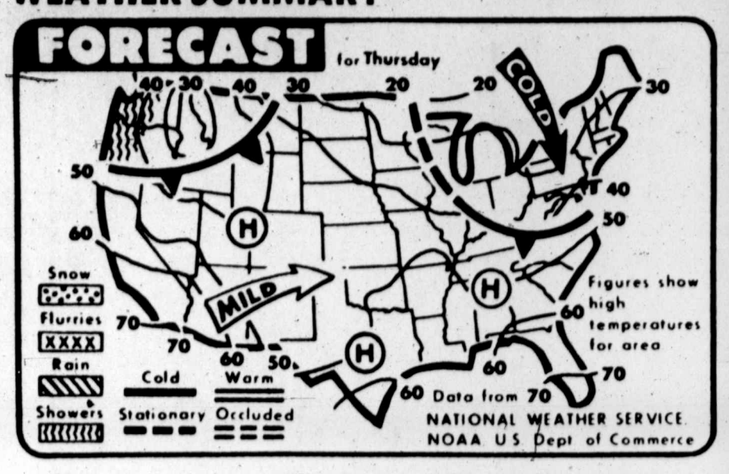

"But I don't want him, and I don't think it's appropriate for him to get involved in domestic politics," Clements said.

### Texas area forecasts

**West Texas:** Fair north partly cloudy south today a little warmer most sections. Fair tonight colder mainly south. Fair and warmer Friday. Highs low 50s north to middle 60s extreme south except middle 40s mountains. Lows middle 20s Panhandle and mountains to low 30s southeast. Highs Friday upper 50s north to near 70 extreme south except near 50 mountains.

**North Texas:** Clear to partly cloudy through Friday. A little warmer west this afternoon and over the area Friday. Highs 55 to 60. Lows 31 to 36. Highs Friday 60 to 65.

**South Texas:** Decreasing cloudiness today. Partly cloudy tonight and Friday. Mild afternoons. Cooler tonight. Highs 50s and 60s. Lows 32 northwest to 48 south. High Friday in the 60s and 70s.

**Port Arthur to Port O'Connor:** Small craft advisory is in effect. Northerly winds 15 to 25 knots and locally gusty. Winds becoming northwest 15 to 20 knots Friday. Seas 6 to 8 feet. Few showers ending today.

**Port O'Connor to Brownsville:** Small craft advisory is in effect. Northerly winds 15 to 25 knots. Winds becoming east to southeast 15 to 20 knots Friday. Seas 6 to 8 feet. Few showers ending today.

### Border state forecasts

**Oklahoma:** Fair to partly cloudy and warmer through Friday. Highs mostly in the 50s. Lows mid 20s to lower 30s. Highs Friday mid 50s to lower 60s.

**New Mexico:** Generally fair through Friday. Occasional high cloudiness south portion today. Warmer most sections Friday. Highs mostly 40s mountains and north to the 50s lower elevations south. Lows zero to 15 above mountains and northwest mostly 15 to 25 elsewhere. Highs Friday 40s and 50s mountains and north to near 60 extremevsouth.

A "Living Nativity" scene is being portrayed from 7 to 8 p.m. daily through Christmas Eve on the grounds of the First Presbyterian Church at Texas Avenue and B Street. A different cast will be re-enacting the homage paid the baby Jesus in Bethlehem almost 2,000 years ago. (Staff Photo)

# Violence marks pro-shah rallies

By PHILIP DOPOULOS

TEHRAN, Iran (AP) — Troops and civilian supporters of Shah Mohammad Reza Pahlavi roamed Isfahan, shooting and beating up his foes, and the reported toll rose to 44 dead and some 700 wounded in three days of violence in the central Iranian city.

Pro-shah rallies also took place in Tehran, the holy cities of Qum and Mashhad and elsewhere.

The exiled Moslem leader of the anti-shah drive warned that if his forces oust the ruler, the United States and others who have supported the 59-year-old monarch will be denied Iranian oil.

The soldiers opened up Wednesday with automatic weapons in the streets of Isfahan, 250 miles south of Tehran. Doctors at Soraya Hospital said among those shot were persons standing in line to give blood for the wounded.

Doctors at Askarieh Hospital charged the army was dragging bodies from the hospital in an attempt to cover up the death toll, which the government claimed was only nine.

The troops led pro-shah mobs of civilians through the streets of Isfahan, seeking out the shah's foes and beating them up with clubs and wooden staves. Armored vehicles festooned with pictures of the shah cruised the streets, as helicopter gunships whirred above the city of a million people, Iran's second largest.

Thousands of pro-shah demonstrators below chanted "Javid Shah!" — "Long Live the Shah!" — as they marched or drove through the city on trucks honking horns. Many were brought in from the countryside.

Soldiers handed out portraits of the ruler to motorists, and any vehicle without one on its windshield was stopped. Troops dragged out drivers they suspected of being anti-shah, and squads of burly men, some with pistols under their jackets, beat them savagely.

The thousands of Americans living in Isfahan stayed off the streets, and one U.S. executive who declined to be identified said: "We're behind the army here. If the troops had not done what they did when they cracked down, we'd all have been out of here."

# Ex-Odessa bail bondsman indicted on charge similar to conviction

ODESSA — An ex-Odessa bail bondsman has been indicted on a similar charge for which he was convicted last week.

John Stringer, owner of the now-defunct A-1 Bonding Co., was named in a sealed indictment returned Monday by the Ector County Grand Jury, charging him with a felony count of tainpering with a governmental record.

Last week, a jury found him guilty on a misdemeanor charge of making a false entry on a governmental record, a crime for which he was formally sentenced Wednesday to 318 days in the county jail and a $2,000 fine.

He was arrested on the new indictment Wednesday just after receiving his sentence. He had previously been indicted on a felony charge on the first offense, though it was reduced by the jury.

The two indictments differ in that they relate to two separate affadavits filed by Stringer.

He was released on $3,000 appeal bond in connection with his appeal and a $5,000 bond for his recent arrest.

The charges against Stringer surround affadavits he filed with the district clerk's office, claiming to own a piece of property which he allegedly actually rented from Odessa attorney Gerald Fuggit. Ector County District Attorney John Green contends Stringer wrote bonds without having adequate surety.

Joe Rey Jr., an El Paso attorney defending Stringer, has argued that the charges for which his client was convicted are common practice among other Odessa bail bondsmen and that Stringer is therefore being selectively prosecuted.

# Police watch crowds for unexpected

(Continued from Page 1A)

tion have included former Vice President Spiro Agnew, former California Gov. Ronald Reagan, Kansas Sen. Robert Dole, former Alabama Gov. George Wallace, former U.S. Interior Secretary Walter J. Hickle, Arkansas Congressman Wilbur Mills and U.S. Army Gen. William Westmoreland.

A U.S. Secret Service detachment in El Paso usually contacts the police department directly in the case of visiting dignitaries. The agency at that time determines how many local officers are needed to carry out the security and also discusses with local authorities the timetable during the visit.

City police officials were not contacted for assisting in security during Gov.-elect William Clements' visit to Midland two weeks ago. State officials usually provide their own security, according to Gideon.

"We don't do it unless it's requested by the front people. When contacted, we provide the service as part of the regular job. It varies from visitor to visitor. It depends upon how popular the particular person is," said Gideon.

"When Ford was here, it tied up our department, the Midland County Sheriff's Department, the Texas Department of Public Safety and the local FBI.

"The last time Reagan was here, it tied up about eight men for a three-hour period. We've worked with Reagan's security people for several years."

Gideon said it is almost impossible to gauge the cost of protective security, but considered it an invisible, yet "expensive cost of doing our job.

"Besides the security, there's a lot of planning that goes into it. If you have anyone who has threatened the life of a president or dignitary or any other popular person, you have to maintain checks on that person," he said.

Has the Midland Police Department ever been asked to maintain surveillance on a potentially dangerous subject during the visit of a dignitary?

Gideon declined to answer that question on the grounds of security.

However, the chief did maintain that there have been "no significant threats" encountered by city police during the course of past security missions.

He also said that demonstrations also have been relatively peaceful in the past.

"I can't remember any real vocal ones. When Gen. Westmoreland was here, there were a few placards and a few hecklers. You always get them. But we haven't really had a problem in Midland so far," he said.

Will the recent assassinations of the mayor and city supervisor in San Francisco have any impact on beefing up security for public figures locally?

"I certainly don't think our efforts will be any less intense. I think it's terrible that we must do this in our country," responded the chief.

"But we've had to rely on more extensive security in the past few years as a result of the violent acts and protests.

"It's one of the most difficult things in the world to try to prevent a well-planned assassination attempt. But the risk can be greatly decreased."

# 15,000 see Concorde at Memphis stopover

MEMPHIS, Tenn. (AP) — The Anglo-French Concorde raises controversy because of high noise level, but when the supersonic airliner dropped in on Memphis like a huge prehistoric bird the biggest problem was a monumental traffic jam.

And many of the curious who came to Memphis International Airport to view the sleek, blue and white jetliner Wednesday were still trying to get through the airport area traffic tie-up when the Concorde was on the ground again in Dallas-Fort Worth, Texas.

Police estimated that 10,000-15,000 people were at the airport when the four-engine, bat-winged airliner roared to a landing.

Most of the visitors were still there two hours later when the Concorde, blue flames shrieking from its giant engines, thundered off the runway and turned into the setting sun.

"I'd sure like to fly it, but I don't think we could use it on the Tupelo (Miss.) run," Bob Matson, a co-pilot for Southern Airways, said.

"No, and I don't think we'll ever trade in our DC9s for one either," Leon Andrews, a Southern captain, said.

The Concorde, wearing the livery of British Airways, was flown to Memphis by a Braniff International Airways crew as part of a 16-city proving flight tour.

Braniff will begin flying the jet between Dallas-Fort Worth and Washington's Dulles International Airport on Jan. 5. The interchange agreement calls for Braniff crews to take over British Airways and Air France Concordes at Washington for non-stop service to Texas three times a week.

Although the Concorde cruises at twice the speed of sound between Washington and London or Paris, it will be restricted to subsonic flight while over the United States.

Before leaving Memphis, the Concorde crew spent about 20 minutes looking at a map of the city, trying to plot the route that would cause the least noise disturbance.

Capt. Tony Meadows, a British Airways check captain, said they wanted to go over the area of least population.

After takeoff, the plane turned sharply to the west and the noise faded.

The departure controller cleared the plane to go to 6,000 feet and Meadows said, "We'd like to stay at 3,000 feet for a little bit as a noise abatement procedure...in a little while, then we'd like to resume our climb."

Even with its restrictions the Concorde will fly about 100 mph faster than airplanes, such as the Boeing 727, currently flown over the route.

## Fire damages Midland home

Fire broke out in a one-story wooden frame home at 401 S. Marshall St. shortly after 5 p.m. Wednesday, causing extensive heat and smoke damage to several rooms inside the dwelling, according to city fire officials.

Six units arrived at the residence of Joseph Brown to find the bathroom ablaze.

Officials suspect a bathroom heater may have been the cause of the fire.

Firemen extinguished the blaze within an hour.

## Theft reported

A commercial vacuum cleaner and a commercial floor polisher, valued at a total of $1,000, were reported taken Wednesday in a burglary of Bethel Baptist Church at 3125 Travis Ave., city police said.

## Roustin' About

(Continued from Page 1A)

mind. I wanted to help the chamber out."

However, he did allow that Dolly Parton's look-alike did have some influence over his bidding.

"It had no relation to her," he said. "But I'll have to say she was an incentive."

It was their first, but not last, meeting just for the fun of it. The two, along with Susan Cotton, who dreamed up the look-alike idea, dined at the town's famed Durham House last Saturday.

Ms. Smarzik and Buckner posed for a photographer at the auction.

"It's funny," she said. "The picture sort of looks like Mae West and W.C. Fields."

Buckner agreed:

"That's about right," he said, even though he shuns cigars. "I have been known to take a drink once in awhile."

Buckner was reached at the town's country club, where he spends much of his free time these days.

The payoff in the gimmick was favorably publicity for the town, which is 29 miles south of Dallas "from courthouse to courthouse," and which boasts about 15,500 people.

Waxahachie is known for the prevalence of gingerbread-type houses and buildings and gets its name from an Indian word meaning "Cow Creek."

Ms. Smarzik revels in the regional fame, which her claim to Dolly Parton's looks has gained her.

"It's amazing! It's amazing!" she said of the reaction to her new fame.

"I've got so many outfits that look so much like her that it's not even funny," she said.

Ms. Smarzik, a 30-year-old teacher-counselor for a branch of the Texas Education Agency, said the reaction to her flaunting her Dolly P. looks has drawn mixed reaction.

"My good friends have really supported me and live vicariously. But my parents are totally appalled. They don't like anything showy," she said.

"They loved it where I work, except for the administration," she said.

Ms. Smarzik, who has yet to meet Dolly Parton, is two years younger than the pop singer. At 5-foot-3 and 115 pounds, she is a bit shorter than the real Dolly, and, at 40-inches at the bust, perhaps rivals Dolly P. in that respect.

It was her doing that got her into the Parton act.

"I started kind of imitating Dolly at a bridge club," she said. "I'm a ham."

And when she heard about the look-alike contest, Ms. Smarzik put in her bid.

But she did have an ulterior motive.

"I was trying to get my old boy friend's attention," she said, "and then I met a new one."

She has gotten attention both good and bad.

"I've got a lot fan mail," she said. "I've got 421 obscene phone calls," though she really didn't count the rings.

And she has had many offers for dates.

"Of course, I didn't go out with any of them."

The attention her looks and frontage bring her pleases her.

"I love that kind of stuff," she said.

## Cold nights, warm days to persist

The weatherman today said daytime temperatures should warm up a bit through Friday, but added that Permian Basin residents are stuck for a while with chilly nights and mornings.

The weather forecast through Friday calls for fair weather. Tonight's low is expected to be in the upper 20s. Friday's high should be in the low 60s.

Winds tonight are expected to be light and variable.

Midland residents experienced a warmer night Wednesday, though the day was a bit cold.

The National Weather Service at Midland Regional Airport recorded a low this morning of 32 degrees.

The record low for today is 18 degrees set in 1958. The high Wednesday was 48 degrees. The record high for Dec. 13 is 82 degrees set in 1933.

Area cities reported overcast skies with temperatures in the 30s early today.

## Vance halts Mideast shuttle, returns home

(Continued from Page 1A)

Sahour protested an order by the Israeli military government banning building on Arab land surrounding an Israeli military base.

The town council of Beit Sahour, a village between Jerusalem and Bethlehem, said the order "contradicts Israel's alleged desire for peace and coexistence."

An Israeli military spokesman said the order was in accordance with a routine policy that prohibwts construction within 500 yards of army camps on the West Bank. He said Arabs "may still get permits" to build in the restricted area, and the order did not prohibit use of the land for agriculture.

## Armed robber hits liquor store

A gunman made off with an undetermined amount of cash Wednesday night during an armed robbery of Pinkies' liquor store at 608 Andrews Highway, according to police reports.

Brent Newby, a clerk at the store, told officers the man had a small caliber, blue steel pistol.

# DEATHS

## Ida M. Heath

Ida M. Heath, 76, of 1407 Rankin Highway died Wednesday at her residence following a long illness.

Services will be at 4 p.m. Friday in Newnie W. Ellis Funeral Home with Alfred Baze, minister of Hughes Street Church of Christ, officiating. Burial will be in Resthaven Memorial Park.

Mrs. Heath was born Aug. 18, 1902, in Grayson County. She moved to Midland in 1946. She was a member of Hughes Street Church of Christ and was formerly employed by a local physician.

Survivors include a daughter, Billie Nix of Midland; a brother, M.L. Redwine of Durant, Okla.; two sisters, Mae Wright and Lizzy Conyers, both of Midland, and a grandchild.

## O.L. Hart

BROWNWOOD — O.L. Hart, 69, brother of F.D. Hart of Midland, died Tuesday at his home in Brownwood following an apparent heart attack.

Services were to be at 2:30 p.m. today in the Davis-Morris Funeral Home in Brownwood. Burial was to be Eastlawn Memorial Park.

Hart was born Jan. 25, 1909, in Zephyr in Brown County. He was married to Bernice Hollingsworth on Dec. 23, 1928, in Brownwood.

Hart, a life insurance agent, had lived in Brownwood for the past 23 years. He was a member of the Central United Methodist Church here.

Other survivors include his wife, three sons, three grandsons, two granddaughters and a great-grandson.

## Walter Dodd

KERMIT — Services for Walter Dodd, 75, of Kermit, father of Walter L. Dodd of Midland, were to be at 2 p.m. today in the Belvue Baptist Church. Burial was to be in Kermit Cemetery under direction of Cooper Funeral Home.

He was born Jan. 4, 1903, in Hill County. Dodd was retired from Amoco in 1960. Dodd was a Baptist. He had been a Winkler County resident for 32 years, moving here from Smackover, Ark.

He was married to Lola Bell French, on July 12, 1920, in Rover, Mo.

Other survivors include five sons, a brother, a sister, 14 grandchildren and six great-grandchildren.

## Thelma Pollum

ODESSA — Services for Thelma H. Pollum, 67, of Odessa, sister of Bill Ray of Midland and of Callie L. Garner of Big Spring, will be at 10:30 a.m. Friday in Hubbard-Kelly Funeral Home. Burial will follow in East Hill Cemetery in Fort Stockton.

She died Wednesday at her home following a lengthy illness.

Mrs. Pollum was born Aug. 17, 1911, in Runnels County. She came to Odessa in 1977 from Breckenridge. She was a member of the Temple Baptist Church.

Other survivors include two sons, two sisters, five grandchildren and a great-grandchild.

## Robert L. Allen

Robert L. Allen, 75, of 2514 W. Hicks Ave. died Tuesday at his home.

Services will be at 2 p.m. Friday in Newnie W. Ellis Funeral Home with the Rev. Jimmy Stovall, pastor of South Memorial Baptist Church, officiating. Burial will be in Fairview Cemetery.

Allen was born Feb. 8, 1903, in DeLeon. He moved to Midland in 1954. He was associated with several insurance companies during his career and was associated with Western Family Insurance Co. when he retired in 1975. He also had operated a grocery store for several years.

Survivors include two sons, Benny Robert Allen with the U.S. Air Force and Eddie Mack Allen of Denver City; a daughter, Nicki Snider of Staton, a brother, Ode Allen, and six grandchildren.

Pallbearers will be Richard Stovall, Jack Hollis, John T. Williams and Tommy Williams.

# Convict to testify in Davis trial

HOUSTON (AP) — The first of three convicts was expected to testify today that he was approached by prosecutors seeking to "cut a deal" for perjured testimony against millionaire Cullen Davis.

Randall Craig, John Florio and his cousin, Sal Florio, appeared in court Wednesday while the jury was out and leveled the charges against representatives of the district attorney's office in Fort Worth.

Trial Judge Wallace Moore said the testimony is relevant to the defense theory that Davis was framed and he would allow them to tell their stories to the jury.

Defense attorney Richard "Racehorse" Haynes indicated he would lead off today with John Florio, 37, who like Sal, has a string of felony convictions dating back to the 1960s.

The state dismissed the trio as "liars."

Davis, 45, a Fort Worth industrialist, is accused of soliciting a hired gunman to kill his divorce judge.

The defense contends he was framed by his estranged wife, Priscilla, FBI informant David McCrory and Fort Worth karate instructor Pat Burleson.

John Florio testified Wednesday that two investigators for the district attorney — Don Evans and Bob Morris — contacted him last May in a unit of the Texas Deparment of Corrections.

He said the investigators told him they had received an anonymous letter indicating he and Sal had been summoned in 1975 by Davis to kill his wife.

The letter, he said, indicated that Florios had pictures and a tape recording of an alleged meeting with Davis in the hotel where the defendant lived after separating from his wife.

Florio insisted he was not the author of the anonymous letter, that it was erroneous and that he did not know Davis.

After a series of meetings in Huntsville and Fort Worth, he said, "I got the impression they were going to indict Mr. Davis for attempted murder on his wife."

Asked what the representatives of the D.A.'s office wanted from him, Florio replied, "They wanted me to give perjured testimony."

'Against whom?" Haynes asked.

"Cullen Davis," John Florio replied.

"What did you tell them?"

"I told them I wouldn't do it."

But both John and Sal Florio said they later agreed to go along with the scheme because of inducements from the investigators and others.

John Florio said he once talked to a Texas Ranger and was told that "if I was cooperative, they could be very helpful."

## FBI halts hijack try

CHARLESTON, S.C. (AP) — A man who said he wanted to go to Cuba tried to hijack a National Airlines flight from New York to Miami early today, the FBI said.

The plane was diverted to Charleston, where FBI agents boarded the plane and arrested the man, tentatively identified as Gerald Edmond Casey.

FBI agent John Lee in Washington said Flight 97 was enroute from Kennedy Airport to Miami with 48 passengers and a crew of six. He said that shortly after 3 a.m. when the flight was about 50 miles south of Wilmington, N.C., a man approached a flight attendant and said "We're going to go to Cuba."

The alleged hijacker was unable to get into the cockpit, and the pilot diverted the flight and notified authorities on the ground.

Lee said no weapons were found.

Casey was charged with "crime aboard an aircraft-interference with a flight crew."

## Steelhaulers may end strike

PITTSBURGH (AP) — Steelhaulers ready to go back to work reportedly planned a meeting today aimed at urging other drivers to put their rigs on the road.

Steelhaulers who asked not to be identified said the meeting was aimed at ending the work stoppage that began with a strike call Nov. 11 and has brought violence to the highways.

The drivers planning to attend the meeting were reported to be both Teaamsters and independent steel haulers.

The strike was called by the Fraternal Association of Steel Haulers.

# Proposal would boost water development fund

**Austin Bureau**

AUSTIN—A device to boost the effective value of the $176 million remaining in the Texas Water Development Fund to almost $2 billion was suggested Tuesday by Austin financial advisor Buck Tinsley, who said this may be the only way to secure funding for water importation projects to the High Plains, which involves the Permian Basin, and the Rio Grande Valley.

Tinsley, who outlined his financing device before the Governor's Water Task Force, said he has talked over his funding plan with House Speaker Bill Clayton and said the speaker is very interested.

Tinsley's proposal basically would involve legislation to allow the Texas Water Development Board to issue revenue bonds for districts wishing to use this financing scheme. Those bonds would be backed up by a double reserve fund, with the first reserve made up of a percentage of the proceeds received by the sale of the revenue bonds and the second reserve of development bond of funds from the Texas Water Development Fund totaling 10 percent of the bonding comittment.

Tinsley maintains development fund monies could be used for this purpose without the passage of a constitutional amendment. Rather, he said a "simple statute" could be passed to allow the use of the money. Elections also could be avoided, he said.

Tinsley said his plan would permit river authorities, municipal utility districts, etc.—but not cities—to use this type of funding, although cities could band together under a district to provide water for their area.

He suggested the statute could be called the "Regional Water Supply Act of 1979."

Under this funding device, a sponsoring district would go to the Texas Water Development Board for an initial water development planning loan to be funded with interim bonds, Tinsley said.

The sponsor would then do a project appraisal, put together a "deal," including financing, then bring it back to the TWDB which would issue the bonds.

Those bonds, Tinsley said, would be TWDB revenue bonds to be paid "solely from proceeds" realized from the water supply project.

The bonds would be packed up with the two reserve funds to enhance the bonds position in the marketplace, he said.

With the development bond fund "kitty" behind the revenue bonds and the first reserve—which Tinsley said would be enough alone to handle one year's debt service—"you can get a double 'A' bond rating and a good interest rate."

"This device multiplies the effectiveness of the remaining $176 million in the water development fund to $1.7 billion," he said.

Tinsley said the device "looks too good. I can't find anything wrong with it," he added. Neither can any others, including Speaker Clayton's staff, who he said has reviewed the proposal.

Water through the projects financed under this device would have to be sold on a "take or pay" basis to customers, Tinsley said. The state will own the water under this "leasepurchase" scheme, with the sponsor gaining ownership of the project only after it is totally paid off.

He added that the Attorney General would have authority under the statute to enforce the bond agreements and other indentures.

The "exposure of the development fund is absolutely minimal," Tinsley maintained, saying the state money will be "insulated by a year's debt service" plus the Attorney General's authority to enforce agreements.

Tinsley dismissed the possibility of the state being held liable in the case of default, saying "it (any loss) can be recovered."

On questioning by task force members, Tinsley stressed the funding device would not require sponsoring district or the state to take revenue bond issues to the voters. Even those cities which require revenue bond issues to be considered by voters under their city charters likely would not have to take this kind of issue to the polls in accordance with recent court rulings.

Asked about possible constitutional problems in the use of development fund monies in this manner, Tinsley insisted that the TWDB has "broad discretion" in the way it offers loans under the program.

The primary criteria, it was suggested, is that it can be a water supply project with a source of revenue to pay off the bonds and debt service.

One of the municipal members of the water task force said he is concerned that a major city such as Houston, which is a major water supplier, could be undercut by several smaller customer cities which might form a district under Tinsley's plan and compromise the larger city's position as a regional water supplier.

"You can enforce your contracts with them," Tinsley said.

"I wouldn't count on it," several individuals said in unison.

## Livestock

FORT WORTH, Texas (AP) — Cattle and calves: 100; 175 less than estimated earlier. Not enough cattle on hand to fully test trends. Few scattered sales steady.
Slaughter cows: Cutter and utility 40.00-46.75; canner 37.00-40.00.
Feeder steers: Good and choice 300-500 lbs. 70.00-80.00.
Feeder heifers: Good and choice 300-450 lbs. 65.00-70.00.
Hogs: 150; 125 less than estimated earlier. Barrows and gilts 1.00 higher in limited test.
Barrows and gilts: US 1-2 200-230 lbs. 47.50-48.00; US 2-3 200-270 lbs. 47.00-47.50.
Sows: Steady. US 1-3 300-600 lbs. 40.00.
Boars: 300-650 lbs. 32.00; 150-250 lbs. 38.00.

AMARILLO, Texas (AP) — Panhandle area carlot meat trade (f.o.b. the plant) as of 11:15 a.m. (beef trade-Texas Panhandle, western Oklahoma and New Mexico)
Not enough early sales fresh beef reported for price trends. Few loads choice heifer beef steady. Packers reported rather limited interest, but available offerings especially steer and heifer beef also limited. Sales reported on 3 loads carcass beef, 3 loads primal cuts, 2 loads trimmings.
Heifer beef: Three loads choice 3 500-700 lbs 82.75, steady.
Choice 3 primal beef cuts (3 loads): Two loads arm chucks 80-120 lbs 77.00; one load steer rounds 70-90 lbs 100.00.
Beef trimmings: Two loads 50 percent lean-fresh 45.50.

SAN ANTONIO, Texas (AP) — Cattle and calves: 2600; slaughter cows and bulls not established at 10:30. Feeder steers and bulls and feeder heifers opening 1.00-2.00 lower; however market not fully established. Supply largely good and choice 300-500 lbs. feeder cattle on opening rounds.
Slaughter cows: Few utility 2-3 41.25-47.25. Few canner and cutter 36.25-41.25.
Feeder steers and bulls: Few mostly choice 225-265 lbs. 90.25-96.00; 300-400 lbs. 81.00-89.00, few near 300 lbs. 92.00; 400-500 lbs. 76.25-81.25; 500-600 lbs. 72.25-76.50. Few good and choice 300-350 lbs. 82.25-86.50; 400-500 lbs. 72.00-78.00; 500-600 lbs. 68.00-72.00. Good 300-400 lbs. 73.50-78.00; 400-500 lbs. 67.00-75.50; 500-600 lbs. 65.00-70.25. Mostly standard 615-815 lbs. 55.00-59.00.
Feeder heifers: Mostly choice 300-400 lbs. 70.50-77.00; 400-500 lbs. 67.75-72.25; 500-550 lbs. 65.25-67.75. Mostly good 250-300 lbs. 68.25-72.00; 300-400 lbs. 63.25-68.25; 400-500 lbs. 60.25-66.25; 500-650 lbs. 55.25-63.25.
Hogs: 100; not enough on offer to test trade.
Sows: About 50 head US 1-3 350-400 lbs. 42.00.

## Gold Futures

Selected world gold prices Wednesday:
London: morning fixing $203.00, up $1.10; afternoon fixing $202.85, up $0.95.
Paris: afternoon fixing $204.63, up $0.10.
Frankfurt: close $203.50, down $0.42.
Zurich: $202.50, bid up $0.75; $203.25 asked.
New York: Handy & Harman base price, $203.10, up $0.95.
New York: Engelhard selling price, $203.15, up $0.95.
New York: Engelhard fabricated gold, $208.43, up $0.97.

## Cotton

NEW YORK (AP) — Cotton futures No.2 were mostly lower in midday dealings today.
The average price for strict low middling 11-16 inch spot cotton declined 128 points to 63.91 cents a pound Monday for the ten leading markets, according to the New York Cotton Exchange.
Midday afternoon prices were 75 cents a bale higher to $1.60 lower than the previous close. Mar 67.66, and May 69.50, Jul 70.40.

# Consumer must share blame

By JOHN CUNNIFF
AP Business Analyst

NEW YORK (AP) — In the final analysis, the consumer isn't always the helpless, hapless victim of inflation. Sometimes he and she must share blame for prolonging the problem of rising prices.

Their power to do so, in fact, can be seen currently in the strength of retail sales, in the amount of credit being extended, in home sales, and in the intentions to buy so-called big ticket items such as cars.

Willingness to buy remains strong, no matter what consumers are telling survey-takers. And so, apparently, does the ability to buy, even if to do so means availing oneself of "easy" credit terms.

November retail sales are now believed to have grown 2 percent to $68.6 billion. Earlier, they had grown in August, September and October. And few analysts expect anything but another gain in December.

All this amid a growing concern that the economy cannot maintain such a rapid pace of expansion, and amid forecasts made months ago that the consumer would have been weary by now and in a mood to cut spending.

For more than a year, in fact, consumers have been telling the well-known surveyers of their lost confidence, that personal finances had to be rebuilt, that they were indignant at rising prices.

But they have bought. They have dug into savings and into lines of credit to do so. Cynically, perhaps, they have adopted the philosophy that if prices are high today they will be higher tomorrow.

There is a second awareness inherent in the atttitude — that in repaying loans they will be using cheaper dollars; and that, besides, interest paid is an income tax deductible.

Throughout the fall, government and private sector economists have been watching to see when interest rates would rise high enough to slow the demand for housing. But what slowdown has occurred is so far minor.

Usury laws limiting home mortgage rates to less than 10 percent exist in 17 states, slowing some commercial mortgage activity. But in many instances sales continue, with the seller granting the buyer the loan.

Eventually, say those who claim to know, high prices and high interest rates will slow buying and selling activity. It's inevitable, they say; it's been demonstrated for centuries; it's the economic law.

The law insists you cannot buy what you can't afford; that gradually, as prices rise, the luxuries (bigger homes, dining out, travel), then the pleasantries (the new rug) and finally even necessities must go.

No matter that it hasn't worked that way, we are still assured that the day is coming when rising prices and borrowing rates will effectively kill off not just the desire but the ability to buy.

While President Carter and G. William Miller, chairman of the Federal Reserve Board, expect the downturn to be soft, some private sector economists are convinced a recession is coming late next year.

And consumers will lead that downturn, the economists say, explaining there is a point beyond which buyers cannot continue to buy, when fear, anger or snapping of credit lines forces them from the marketplace.

They go a step further: The downturn, if it comes, will be worsened by the extent to which it is delayed. And one of the primary reasons for the delay, they say, is the consumer's persistence in buying.

In a sense, the consumer therefore might be admired for persistence, and for the ability to extract credit from sometimes reluctant lenders in order to fuel the persistence, but the effort comes at a price.

Everything, in fact, comes at a price to the consumer, who is all of us, every man, woman and child. It's where the buck eventually stops.

Before that point, however, the consumer can do a lot of things with the buck, including the prolongation of an economic expansion, inflated though it be.

A victim, certainly, but not as helpless and hapless as sometimes pictured.

# Alabama senator not really a liberal

By W. DALE NELSON

WASHINGTON (AP) — Donald Stewart says his former law partner may have summed him up about right at a civic club "roast" honoring the new Alabama senator.

"I wouldn't describe my former junior partner as a flaming liberal," Robert Propst said. "He's more a firefly who shows his tail from time to time."

"That's probably true," Stewart said in an interview in his Senate office.

Stewart, 38, was elected Nov. 7 to the seat held for nearly a decade by Sen. James B. Allen, a leader of Senate conservatives, who died June 1.

His Republican opponent, millionaire James D. Martin, argued that Stewart's record in eight years in the state legislature showed him to be too liberal for Alabama voters, and dissident members of Stewart's own party formed an organization called "Conservative Democrats for Martin."

The national Republican Party put more than $230,000 into the campaign, calculating that Martin had at least an outside chance of victory in the traditionally Democratic state.

But Stewart won with 55 percent of the vote.

"Surely he's more liberal than James Allen, but he is not a guy who has a liberal formula to apply to everything," said H. Brandt Ayers, editor and publisher of the Anniston Star, which supported Stewart editorially.

Stewart was president of the University of Alabama student body when Gov. George Wallace was resisting integration of the state's schools.

"I did not agree with keeping students out and I worked with the administration and other student leaders to keep the situation in proper perspective," he recalled.

After his election to the state House of Representatives in 1970 and to the state Senate in 1974, he says he and Wallace agreed on many issues.

"I would say he's probably one of the best friends I've got today in the political world in Alabama," he said. "I write him and call him from time to time and get along well with him. We just disagreed back then."

In the Legislature, Stewart voted against increased interest rates on consumer loans and intervened twice in Alabama Public Service Commission hearings to oppose rate increases sought by the Alabama Power Co.

Unlike most candidates elected to the Senate in November, Stewart took office immediately, since Allen's widow, Maryon, had been appointed to serve only until the election. Stewart defeated Mrs. Allen in the state primary. He will be up for re-election in 1980, as there were only two years left on Allen's term.

He is seeking appointment to the Banking, Agriculture and Budget committees.

On the issue of the anticipated SALT agreement on nuclear arms limitation, Stewart expressed "a great deal of concern about what position we will be in when we get through. I just do not want us to negotiate away our strengths."

# Operators announced 122 more Basin oil, gas tests

Operators last week filed applications for 122 oil or gas projects in the Permian Basin Empire of West Texas and Southeast New Mexico.

The tally was up 14 from the 108 permits sought two weeks ago, for the two-state area.

Last week's filings were for 32 wildcats, compared with 29 two weeks ago, while development wells projected by operators rose from 79 to 90.

Planned exploration district-wise was for 10 in Texas RRC District 7-C; nine in S-A, and five in District 8.

Thirty-two development projects are scheduled to be drilled in RRC District 8, embracing a 20-county area, supervised from the Midland office.

The county-by-county tabulation:

| County | Wildcat | Field |
|---|---|---|
| **District 8** | | |

**DISTRICT 8**

**ANDREWS COUNTY**

Block 5 (Devonian)—General American Oil Co. of Texas No. 1-22 University, 1,320 feet from north and 660 feet from west lines of section 22, block 5, ULS, 15.3 miles northeast of Andrews, 12,725.

Emma, North (Yates)—Petroleum Exploration & Development Funds, Inc. No. 1 William, 1,880 feet from south ad 1,980 feet from west lines of section 31, block 9, ULS, 12 miles southwest of Andrews, 3,-200.

Fuhrman-Mascho & Wildcat (lower Clear Fork & Wichita-Albany)—Rankin Oil Co. No. 1 Seidel, et al, 467 feet from south and 2,185 feet from east lines of section 6, block A-42, PSL survey, 16 miles west of Andrews, 7,600.

**CRANE COUNTY**

Sand Hills (Judkins & Tubb)—Rule 37—Exxon Corp. No. 1-176 J. B. Tubb, 1,980 feet from north and 660 feet from east lines of section 13, block B-27, PSL survey, 18 miles northwest of Crane, 4,650.

Sand Hills (Judkins & Tubb)—Rule 37—Exxon No. 18-B J. B. Tubb, 2,080 feet from north and east lines of section 19, block 32, PSL survey, 15 miles northwest of Crane, 4,-550.

Sand Hills (Tubb)—Exxon No. 1-178 J. B. Tubb, 1,980 feet from south and 760 feet from west lines of section 13, block B-27, PSL survey, 17 miles northwest of Crane, 4,600.

Sand Hills (Tubb)—replacement-Texas Oil & Gas Corp. No. 2-A Barnsley, 1,980 feet from south and 1,305 feet from east lines of section 27, block B-27, PSL survey, 15 miles west of Crane, 4,-300, (to replace No. 2).

Running W (Wichita-Albany)—OWPB—Rule 37—Gulf Oil Corp. No. 1084 W. N. Waddell, et al, 1,047 feet from north and 900 feet from east lines of section 13, block B-21, PSL survey, 20 miles northwest of Crane, 5,-690.

Sand Hills (McKnight)—amended—Gulf No. 1111 W. N. Waddell, et al, 2,590 feet from north and 1,980 feet from west lines of section 21, block B-26, PSL survey, 17½ miles northwest of Crane, 3,800, (amended location).

Sand Hills (McKnight)—amended—Gulf No. 1112 W. N. Waddell, et al, 1,270 feet from north and 1,930 feet from east lines of section 20, block B-26, PSL survey, 18 miles northwest of Crane, 3,800, (amended location).

**ECTOR COUNTY**

Cowden, North—Continental Oil Co. No. 2-18-7 L. E. Wight, 2,540 feet from south and 660 feet from west lines of section 18, block 43, T-1-S, T&P survey, five miles east of Goldsmith, 4,400.

Cowden, North—Conoco No. 3-18-7 L. E. Wight, on north and 660 feet from west lines of section 18, block 43, T-1-S, T&P survey, five miles east of Goldsmith, 4,400.

TXL (San Andres)—OWWO—Shell Oil Co. No. 8-K TXL Tract 1, 566 feet from south and 654 feet from west lines of section 21, block 45, T-1-S, T&P survey, three miles southeast of Notrees, 5,-920.

Yarbrough & Allen (Devonian)—OWPB—Amerada Hess Corp. No. 1 Carlinville National Bank, 1,980 feet from north and 2,634 feet from west lines of section 18, block 46, Gunter & Munson survey, seven miles southwest of Judkins, 10,-000.

TXL (Devonian)—OWDD—Continental Oil Co. No. 1-41-B Kloh, 660 feet from north and east lines of section 41, block 45, T-1-N, T&P survey, 2½ miles north of Notrees, 9,450.

Wheeler (Silurian)—OWDD—Rule 37—Texas Oil & Gas Corp. No. 1 TXL, 1,650 feet from south and west lines of section 11, block 46, T-1-S, T&P survey, four miles southwest of Notrees, 9,355.

**GLASSCOCK COUNTY**

Clyde Reynolds (Wolfcamp)—amended—Lingen Exploration, Inc. No. 1 Pearl and Joe Cole, 2,-173 feet from north and 517 feet from east lines of section 4, block 32, T-4-S, T&P survey, 10 miles northeast of Garden City, 8,600, (amended proposed depth and location).

Spraberry Trend Area—MWJ Producing Co. No. 1-27 TXL, 1,320 feet from south and west lines of section 27, block 36, T-3-S, T&P survey, 14 miles west of Garden City, 8,600.

**HOWARD COUNTY**

Moore—McCann Corp. No. 1 Patterson, 990 feet from south and 2,310 feet from east lines of section 22, block 33, T-1-S, T&P survey, two miles southwest of Big Spring, 3,-200.

**MIDLAND COUNTY**

Germania (Grayburg)—OWPB—MWJ Producing Co. No. 1-13 Fasken, 2,034 feet from north and 2,010 feet from east lines of section 13, block 37, T-2-S, J. V. Stokes, 14½ miles southeast of Midland, 3,900.

**MITCHELL COUNTY**

Iatan, East (Howard)—Rule 37—Chevron USA, Inc. No. 1-55 W. L. Foster, 1,200 feet from south and 1,770 feet from east lines of section 6, block 29, T-1-S, T&P survey, eight miles east of Coahoma, 3,000.

Wildcat—MGF Oil Corp. No. 1 Shaw, 660 feet from south and west lines of section 3, block 26, T&P survey, four miles north of Colorado City, 7,650.

Iatan, East (Howard)—Mobil Oil Corp. No. 119 Mary Foster, 1,200 feet from south and 330 feet from east lines of section 18, block 29, T-1-S, T&P survey, four miles southwest of Iatan, 3,500.

Sharon Ridge (1700 Clear Fork)—Unity Oil Co. No. 2 J. H. Humphrey, 660 feet from south and 965 feet from east lines of section 11, block 27, T&P survey, seven miles northwest of Colorado City, 1,600.

**PECOS COUNTY**

Wildcat—J. V. Atkinson No. 1 Annie Garner, 1,980 feet from north and 660 feet from west lines of section 122, block 11, H&GN survey, seven miles southwest of Girvin, 1,350.

Wildcat—Costa Resources, Inc. No. 1 Archibald, 3,200 feet from south and 660 feet from west lines of section 48, block 9, H&GN survey, eight miles north of Girvin, 3,500.

Lehn-Apco—C. F. Lawrence & Associates, Inc. No. 1 Queen, 990 feet from south and west lines of section 75, block 10, H&GN survey, 14 miles west of Girvin, 1,-700.

Belding (Yates)—OWWO—Lawrence No. 2-DB University, 1,320 feet from south and 660 feet from west lines of section 28, block 27, ULS, eight miles south of Fort Stockton, 2,700.

Walker—The Levens Corp. No. 1 Baker Estate, 1,650 feet from north and 990 feet from east lines of section 4, block 207, TCRR survey, eight miles east of Bakersfield, 2,400.

Coyanosa, North (Delaware)—Mobil Oil Corp. No. 8 Effie Potts Sibley, 1,980 feet from north and 662 feet from east lines of section 48, block OW, TTRR survey, 22 miles northwest of Fort Stockton, 6,500.

Bakersfield, South (Yates)—amended—Longhorn Exploratio No. 2-A University Lands, 2,203 feet from north and west lines of section 36, block 18, ULS, three miles south of Bakersfield, 1,800.

Wildcat—NAPECO, Inc. No. 1 Stewart, 1,320 feet from north and west lines of secton 6, block 48, T-8, T&P survey, seven miles southwest of Coyanosa, 22,000.

Gomez (upper Wolfcamp)—Tenneco Oil Co. No. 3 Mendel Estate, 1,750 feet from north and 2,500 feet from west lines of section 34, block 48, T-9, T&P survey, 18 miles northwest of Fort Stockton, 11,500.

Hershey (Devonian-Fusselman-Montoya)—C&K Petroleum, Inc. No. 1 White-State, 2,200 feet from north and 1,320 feet from east lines of section 8, block 51, T-10, T&P survey, 29½ miles west of Fort Stockton, 17,000.

**REEVES COUNTY**

Casey Draw (Delaware)—Phillips Petroleum Co. No. 1-A Kent, 1,745 feet from south and 660 feet from west lines of section 23, block C-11, PSL survey, 12 miles southwest of Toyah, 4,-100.

**STERLING COUNTY**

Conger (Pennsylvanian)—Wagner & Brown No. 1-36 Conger, 712 feet from south and 1,840 feet from west lines of section 36, block 22, H&TC survey, eight miles southwest of Sterling City, 8,-400.

Conger (Pennsylvanian)—Wagner & Brown No. 1-34 Foster, 760 feet from south and 660 feet from west lines of section 34, block 13, SPRR survey, five miles southwest of Sterling City, 7,600.

Stringer (San Angelo)—Ventures, Ltd. No. 1-12 L. R. Stringer, 1,677 feet from south and 330 feet from west lines of section 12, block 11, SPRR survey, 11 miles southeast of Sterling City, 1,600, (spots in Coke County on some maps).

Stringer (San Angelo)—Ventures No. 3-11 L. R. Stringer, 2,216 feet from south and 990 feet from east lines of section 11, block 11, SPRR survey, 11 miles southeast of Sterling City, 1,600.

**WARD COUNTY**

Ward, South—O. H. B., Inc. No. 52 D. Olcott, 2,-310 feet from northeast and 990 feet from northwest lines of section 7, block 34, H&TC survey, two miles northwest of Royalty, 2,700.

War-Wink, South (Wolfcamp)—Gulf Oil Corp. No. 1-QN State, 1,-083 feet from south and 933 feet from east lines of section 25, block 18, ULS, 11½ miles northwest of Pyote, 13,300.

**WINKLER COUNTY**

Wildcat—Texaco, Inc. No. 1 B. F. Jenkins Trust, 750 feet from north and 1,520 feet from west lines of section 6, block 77, PSL survey, 13 miles northeast of Kermit, 4,650.

Little Joe (Ellenburger)—Getty Oil Co. No. 1-31-21 University, 1,-320 feet from south and east lines of section 31, block 21, ULS, seven miles southwest of Wink, 21,000.

**DISTRICT 8-A**

## Groups want Christ left in Christmas

By The Associated Press

A move to take Christ out of Christmas in schools and other public places is drawing protests reminiscent of the prayer controversy of another time.

"I am disturbed our country is falling apart from the inside before Russia or anyone else has had a chance to come after us," says one Tulsa, Okla., teen-ager.

He is Pat Calhoun, 16, one of about 400 people who turned out at a meeting of the Tulsa Classroom Teachers Association last week to argue over a recommendation that teachers avoid religious themes in holiday programs.

Nothing was resolved at that meeting, and elsewhere the American Civil Liberties Union has gone to court to try to silence the singing of "Silent Night" and other carols in classrooms.

In Baytown, Texas, the ACLU's actions prompted angry citizens to organize the United Legal Christian Association (ULCA) — that's ACLU spelled backwards — to help fight the lawsuits.

In other cities, the effort to ban religious symbolism has spread beyond the schools.

The city attorney of Des Moines, Iowa, has said city employees cannot depict shepherds and wise men at the annual nativity pageant at the Children's Zoo.

In a seven-page opinion issued after a year-long debate, Philip Riley said the city "may not legally sponsor or endorse such a religious pageant."

The debate began last year when Steven Brown, director of the Iowa Civil Liberties Union, said the pageant violates the U.S. Constitution's guarantee of separation of church and state. He said the pageant was effectively an endorsement of a religious celebration.

The city fathers in Traverse City, Mich., decided not to display the traditional nativity scene in a town park this year after the local Human Rights Commission argued the scene could provoke a lawsuit.

Similarly, the Texas State Board of Control is expected to rule this week on a proposed ban against religious displays or meetings in the state capitol.

The church-state issue also surfaced in Sioux City, S.D., where the ACLU wants a federal judge to ban carols in the schools.

ACLU attorney Stephen Pevar, who filed the suit on behalf of six Sioux City residents, says he agrees that less than one-third of the music sung in the school has a religious content.

"But if even one (religious) song was sung it would be unconstitutional," Pever said. "If the judge finds that singing these songs is a religious exercise, then we win, because religious exercises are prohibited in schools."

Rae Underwood, a music teacher at Salk Elementary School in Tulsa, collected 637 signatures on a petition protesting the recommendation that religious programs be avoided. The petition charged the ban could be psychologically damaging to students of the Christian faith.

"Christian attorneys should be retained to uphold our wishes and letters should be written to our representatives requesting their support," the music teacher said.

But Claude Dyer, president of the Tulsa teachers' association, said he fears court action. "What I'm afraid of...is that what we are heading for is court action and the complete and total censorship of all programs," he said.

For almost two years, a lawsuit against the Goose Creek school district in Baytown, Texas, has been in a federal court. The suit, filed by the ACLU in behalf of a Jewish woman with two children, seks a ban on such practices as reading the Bible over the school's public address system and praying at football games and PTA meetings.

# Industrial plants turn to 100 percent alcohol

By LEIGH WILSON

FORT SMITH, Ark. (AP) — Concern about air pollution and the availability of fuel has led the operators of two industrial plants to turn to alcohol.

Whirlpool Corp. and Gerber Products Co. use forklifts at their Fort Smith plants that have been converted from a propane fuel system to one that uses 100 percent alcohol.

Stanley Barber, a bridge builder, converted the first few forklifts to test his alcohol fuel system. Now, after more than 18 months of experimentation, he is ready to market a conversion kit for forklifts.

The use of alcohol as a motor fuel is not new. Several test projects have been launched using alcohol-gasoline blends, one of which was the Nebraska Gasahol program. In that program, motorists used more than 90,000 gallons of gasoline-alcohol blend with favorable results.

Barber, 48, began his experiments a few years ago with two autos fitted to run either on gasoline or alcohol.

What is different about Barber's fuel systems—patents have been applied for on his auto fuel system and the forklift fuel system—is their success in squeezing reasonable mileage from alcohol.

The inventor's 1974 Pontiac, with a 453-cubic-inch V-8 engine, gets nine to 11 miles per gallon on either gasoline or alcohol, he said.

Barber wrote General Motors Corp. and Ford Motor Co. in 1977, suggesting they explore the use of alcohol as an alternative motor fuel. Both auto manufacturers politely replied that their tests using 100 percent alcohol had shown it to be unviable as an alternative to gasoline, he said, because alcohol would yield roughly half the mileage.

Barber says his fuel systems can obtain mileage comparable to that of gasoline, in part because the fuel is vaporized before it is burned by the engine.

**WHY FORKLIFTS?**

"Whirlpool offered me the opportunity to convert one of theirs on a trial basis a year and a half ago. They wanted to run it a year and see what their operating results were ... and Gerber let us convert one of theirs. Of course it was invaluable to us as research.

"They had an environmental interest in this thing—holding down pollution in their plant, or making an attempt to. And the other was the fact that propane could become short in supply if we had another oil embargo, and they're looking for an alternate route to go.

"And they were very interested in getting a cleaner-burning machine," he said.

Also, marketing alcohol conversion kits for autos would pose fuel distribution problems that do not crop up in industrial applications where fuel can be stored on location, Barber said.

Propane is the standard fuel for forklifts used indoors, where low emission levels are mandatory.

California emission standards call for a four-cylinder engine on a forklift used indoors to emit no more than 300 to 351 parts per million in hydrocarbons. Forklifts using Barber's system emit 51 parts per million in hydrocarbons, the inventor said.

# Dividends declared

MGF Oil Corp. has declared a 2 percent stock and a 5 cent per share cash dividend.

The dividend will be paid Dec. 28 to shareholders of record Dec. 18. The 5 cent cash dividend will be paid on all share, including those issued pursuant to the 2 percent stock dividend.

## DRY HOLES

DAWSON COUNTY

HMH Operators, No. 1 Merrill, wildcat, 1,980 feet from the south and 660 feet from the east lines of section 13, block M, EL&RR survey, 12 miles northwest of Lamesa, td 5,037 feet.

GAINES COUNTY

Forest Oil Corp. No. 1 Blue Quail, wildcat, 1,980 feet from the north and 860 feet from the east lines of section 25, block C-30, Public School Lands survey, 17.5 miles east of Seminole, td 12,925 feet.

KING COUNTY

Daniel F. Secker, No. 1 Anna E. Masterson, wildcat, 1,980 feet from the north and 1,980 feet from the east lines of section 19, Indianola Railroad survey, Abstract-316, 20 miles northeast of Guthrie, td 6,300 feet.

LEA COUNTY

O.H. Berry No. 1 Ashley-State, wildcat, 800 feet from the north and 2,130 feet from the west lines of section 36-24s-35e, eight miles northwest of Jal, td 3,710 feet.

Continental Oil Co. No. 10-E State, Ellenburger Discovery, 660 feet from the south and 1,980 feet from the east lines of section 17-22s-36e, eight miles southwest of Eunice, abandoned location.

Gifford, Mitchell, & Wisenbaker, No. 8 Horseback, Comanche State line, 990 feet from the south and 2,310 feet from the west lines of section 33-26s-26e, 12 miles southwest of Jal, abandoned location.

Gifford, Mitchell & Wisenbaker, No. 3 Quanah Parker, Comanche-State-line, 1,650 feet from the south and 990 feet from the east lines of section 28-26s-36e, 12 miles southwest of Jal, abandoned location.

C.W. Trainer, No. 1 Boyd, wildcat, 830 feet from the south and 2,130 feet from the west lines of section 13-20s-32e, eight miles south of Maljamar, abandoned location.

Union Texas Petroleum Corp. No. 1-2 Allied-State Communitized, La Rica (Morrow), 1,788 feet from the north and 1,650 feet from the west lines of section 2-19s-34e, eight miles southwest of Buckeye, abandoned location.

MENARD COUNTY

Lloyd Patton, No. 1-J Concho Valley Council., Boy Scouts of America, wildcat, 467 feet from the south and 2,233 feet from the east lines of J.H. Gibson survey No. 11, Abstract-340, four miles northeast of Fort McKavitt, td 4,308 feet.

RUNNELS COUNTY

E.B. Fletcher, No. 2-412 Nell Hughes, wildcat, 979 feet from the southeast and 6,900 feet from the northeast lines of Henry L. Bays surveyFNo. 444, four miles South of Wingate, td 4,835 feet.

# Kerosene imported by Iran

TEHRAN, Iran (AP) — Troubled Iran is importing kerosene to offset a shortage caused by increased demand and disruption of national oil production by a 10-day-old oil industry strike, official sources said today.

The sources said three tankers were unloading kerosene at a Persian Gulf port to meet Iran's immediate needs for heating and lighting. Oil officials were reported to be negotiating with major oil companies in London for more of the refined product.

Crude oil production, normally 6 million barrels daily, rose in a 48-hour-period from 1.2 million to 1.7 million barrels a day, officials said.

Demand for kerosene this year has increased 15 percent throughout the country over the normal daily consumpton of 1.2 million gallons in the past two years, sources said. They were unable to give current nationwide daily consumption figures.

The walkout ip the Khuzestan oil fields of southwestern Iran is part of a general strike called by the religious and political foes of Shah Mohammad Reza Pahlavi to force a change in the government leadership.

The sharp reduction in oil production is costing the nation's treasury over $60 million a day. The previous strike which lasted from Oct. 31 to Nov.14, resulted in a $1.5 billion loss in crude oil exports.

Iran earned $22 billion in 1977 from crude oil and refined products, but income was expected to dip well under $20 billion this year because of the strikes.

# NM regions gain projects

A wildcat operation and field area projects have been announced in New Mexico counties.

H&S Oil Co. of Artesia, N. M., No. 1 Reese-Federal is to be drilled as an 11,700-foot wildcat in Eddy County, nine miles south of Loco Hills.

It is four miles northeast of the HG (Morrow gas) field, 1/2 mile south of the Loco Hills (Queen) field and 660 feet from south and 2,180 feet fom east lines of section 33-18s-30e.

**STEPOUT SET**

Texas Oil & Gas Corp. of Midland No. 1 Shugart-State Communitized has been spotted 3/4 mile north and slightly east of production in the Shugart, North (Morrow gas) field of Eddy County, eight miles southeast of Loco Hills.

The drillsite is 714 feet from south and 2,062 feet from west lines of section 16-18s-31e. Ground elevation is 3,665 feet.

It is to drill to 12,000 feet.

**UNDESIGNATED AREA**

Yates Petroleum Corp. of Artesia will drill its No. 1-JY Waldrep as a 3,300-foot project one location south of an undesignated (Yeso) area in Eddy County.

The test is 2,310 feet from south and 330 feet from west lines of section 34-18s-26e and 1.5 miles south of Dayton.

**LEA PROJECT**

Petroleum Development Corp. of Albuquerque, N. M., No. 1 Flying M-McKay-Federal is a new project in Lea County.

Slated on a 12,000-foot contract, it is 1,980 feet from south and east lines of section 26-9s-32e and 3/4 mile east of 10,571-foot Atoka gas production in the Flying M, South field and two miles southeast of an 11,000-foot Devonian well in the SRR pool.

**ROOSEVELT WORK**

Three field projects have been staked in Roosevelt County.

Enserch Exploration, Inc., of Midland spotted a pair of projects in the Peterson, South (Fusselman) area.

No. 6 Lambirth is one location northwest of production and 810 feet from north and 1,980 feet from west lines of section 31-5s-33e. It is 11 miles northwest of Highway.

No. 1 Radar is 2,100 feet from south and 660 feet from west lines of section 32-5s-33e and 3/4 mile east of the field discovery.

Each of the projects will be drilled to 8,000 feet.

Sundance Oil Co. of Denver, Colo., No. 8 Cone-Federal has been staked 5/8 mile southeast of production in the Tomahawk (San Andres) field of Roosevelt County.

The 4,350-foot operation is 660 feet from south and east lines of section 31-7s-32e and 13 miles southeast of Kenna.

# Indonesia will demand 20 percent price hike

JAKARTA, Indonesia (AP) — Indonesia will demand an oil price increase of 10 to 20 percent at the OPEC conference starting this weekend, Vice President Adam Malik said today.

"Indonesia's stand on this is absolute," Malik told reporters after meeting with President Suharto. "As long as the price of oil remains as it is today, we will stand to lose."

The Organization of Petroleum Exporting Countries meets Sunday in Abu Dhabi to discuss raising the price of a 42-gallon barrel of crude from its cuhrent $12.70 benchmark.

Among the reasons cited by Malik for a price increase were decreased oil production in violence-torn Iran, inflation and the unstable condition of the U.S. dollar.

Indonesia has devalued its currency, the rupiah, by over 50 percent against the dollar in a bid to revitalize its sluggish economy, which relies on oil exports for more than 50 percent of national income.

Indonesia produces 1.6 million barrels of oil daily and logged $7 billion in oil sales last year.

The OPEC leaders are expecoed to raise the price between 5 and 10 percent, and an official in Tokyo said today such an increase would have "very little" effect on Japan, and might even have some advantages.

Tsugio Ide, deputy director of the international division of the Ministry of International Trade and Industry, said in an interview that a 10 percent price hike by OPEC will cost Japan, which imports 99.8 percent of the oil it uses, about $2.5 billion.

However, he said that will mean a rise in wholesale and retail prices for gasoline and other related products of less than one percent. Gasoline in Tokyo sells for about $2.12 a gallon.

Ide also said Japan's balance of payments "is very good right now, maybe even too good." Japan is still under fire from the United States and other countries for having too large a balance of payments surplus — estimated at $14 billion for this year. Higher oil prices will bring that down.

"A price increase is not so important for us this year because there was no increase for the past two years. Also, we have been saving by the yen's appreciation," Ide noted.

The yen has increased in value about 20 percent this year, and almost 35 percent in the past two years. Since Japan pays for its oil in dollars, and it takes fewer yen to buy the dollars, the country has saved 20 to 30 percent on its oil bill.

**ENERGY**
**OIL & GAS**

# Producers set records; ease pinch

By MARK POTTS
AP Business Writer

NEW YORK (AP) — Producers say they broke records last week to try to ease the sudden gasoline pinch, a situation derived — according to producers and the Department of Energy — from price regulation that is too stiff.

The refiners produced 7.81 million barrels of gasoline a day last week, beating the previous week's mark of 7.77 million barrels daily, the American Petroleum Institute, a trade group, said Wednesday.

Gasoline demand has been running about 3.3 percent ahead of last year's levels. The oil companies had predicted the increase in 1978 demand would be below the 2.8 percent rise in 1977.

Tight supplies, particularly of unleaded gasoline, have caused Shell Oil Co., the nation's largest gas producer, to ration fuel sold to dealers to 85 percent of previous levels. Standard Oil of Indiana (Amoco) is limiting the amount of unleaded fuel it sells its dealers.

The firms say supplies are tight because of unusually high demand this year and because government price regulations discourage the construction of new refineries.

Department of Energy officials confirm that consumption has been unexpectedly high and agree with the companies' complaints about regulations. "The lack of incentives arise from our regulations," said John O'Leary, deputy secretary of energy. "...The refiners are making a lot of money and they're putting it into things that make money."

Refineries are poor investments, the firms say, because regulations allow wholesale price increases to reflect only increases in refining costs.

The Energy Department is expected to ask Congress early next year to lift price controls on gasoline. But such a request is expected to encounter rough sailing, coming after the current supply problems.

Deregulation is expected to lead to a price increase of about 4 cents per gallon. O'Leary said the increase could be greater if gas is deregulated while supplies are still tight because of supply and demand pressures.

Those pressures have already led to higher retail gasoline prices in the past month. Although the oil companies have not raised their wholesale prices, service stations, faced with shorter supplies, are raising their prices. The stations are restricted in how much money they can make over costs, but most are running below their maximum legal profit level because of competitive pressure.

# Gas pipeline completed

FORT WORTH—American Quasar Petroleum Co. announced that a pipeline has been completed to the Grizzly Valley area of British Columbia where Quasar's 81 percent owned Canadian subsidiary, Quasar Petroleum Ltd., is now selling approximately 43.5 million cubic feet of sweet gas per day.

Construction on the 90-mile pipeline was begun two years ago through the efforts of Canada's Westcoast Transmission Co. Ltd, and British Columbia Petroleum Corp., purchaser of the gas, and became operative Dec. 2.

Gas is being delivered from five Quasar Petroleum Ltd. operated wells which have been shut-in since their discovery.

Quasar Petroleum Ltd. will receive $1.03 (Canadian) per thousand cubic feet as an initial price. Upon completion of a processing plant at Chetwynd in early 1980 QPL expects to deliver approximately 85 million cubic feet per day from the Grizzly, Wolverine and Fearless areas served by the line.

# WT sectors gain sites for wildcat operations

Wildcat operations have been announced in Mitchell. Scurry, Fisher, Stonewall and Runnels counties.

C. F. Qualia of Midland staked No. 1 E. L. Powell as a 4,350-foot wildcat in Mitchell County, 10 miles southwest of Westbrook.

The location is 2,258 feet from south and 990 feet from east lines of section 39, block 29, T-1-S, T&P survey.

The site is one and one-eighth miles east of an 8,501-foot dry hole.

**SCURRY EXPLORER**

Banam Corp. of Midland announced location for a 6,700-foot project in Scurry County. It will attempt to reopen Strawn production in the Hermleigh field.

Slated as No. 1 Howell, it is 1,200 feet west of the depleted discovery and 660 feet from north and 1,980 feet from east lines of section 62, block 3, H&TC survey, abstract 1523.

The drillsite is five miles southwest of Camp Springs.

**FISHER TEST**

A. L. Sauder Jr. of Wichita Falls No. 3 L. B,. Meeks is to be drilled as a 4,750-foot wildcat in Fisher County, two miles northwest of Hamlin.

It is 2,112 feet from north and 2,911 feet from east lines of section 186, block 1, BBB&C survey.

The site is one location northeast of Canyon sand gas production in the Keeler-Wimberly field and one location southeast of the Keeler-Wimberley (Swastika) field.

**STONEWALL WILDCAT**

Hanson Corp. of Midland No. 1 Ward is a new 3,400-foot wildcat in Stonewall County, five miles north of Swenson.

Scheduled to test the Tannehill, it is two miles northwest of the Mullen Ranch (Tannehill) field and 467 feet from south and west lines of section 249, block D, H&TC survey.

It is separated from production by depleted producers

**RUNNELS TRY**

E. B. Fletcher of Dallas No. 1-404.2a Jessie Paschal has been staked as a 4,900-foot wildcat in Runnels County, six miles northeast of Norton.

It is 1,277 feet from south and 467 feet from east lines of section 55, block 63, HT&B survey.

The location is 7/8 mile east of the Winters, West multipay fieldOand separated from that area by dry holes.

# Permian Basin areas gain more field work

A long outpost has been announced in King County, and other field area operations have been staked in Hockley and Reagan counties.

Taubert, Steed, Gunn &Medders of Wichita Falls No. 32-N S. B. Burnertt Estate is to be drilled three miles northwest of the discovery well of the Anne Tandy (lower Strawn) field of King County, 17 miles southeast of Guthrie.

The 6,000-foot operation is 200 feet from south and 2,400 feet from west lines of section 14, block X, R. M. Thompson survey, abstract 652.

**HOCKLEY OFFSET**

Hilliard Oil & Gas, Inc., of Midland No. 1 McIntore is to be drilled one location south and slightly east of the reopener of the Hoblitzelle (lower Canyon) field of Hockley County, seven miles east of Levelland.

The project, slated on a 10,200-foot contract, is 2,446 feet from south and 1,488 feet from east lines of section 4, block A, William Tubbs subdivision, psl survey, abstract 349.

Hilliard No. 1 Vinson recently reopened the field.

**REAGAN PROJECTS**

Energy Reserves Group, Inc., of Midland No. 6-P-KO Rupert-Ricker is to be drilled as an 8,400-foot test in the Calvin (Dean) field of Reagan County, 10 miles northeast of Stiles.

The test is 400 feet from south and 850 feet from east lines of section 6, block O, T. B. Thaxton survey.

**TEST AMENDED**

Houston Oil & Minerals Corp. of Houston No. 7-17 Merchant Estate, has been amended as a wildcat in Reagan County, 12 miles northeast of Stiles.

Surrounded by Spraberry Trend Area production, it will drill to 8,500 feet.

Location is 1,000 feet from northeast and 2,000 feet from southeast lines of section 17, block A, L&SV survey.

**2,700-FOOT TEST**

Petroleum Exploration & Development Funds, Inc., of Midland No. 1-7 University is a new test one location, north of the six-well V-Bar (San Andres oil) pool of Reagan County.

The 2,700-foot operation is 467 feet from south and east lines of section 7, block 48, UniversityLands survey and nine miles southeast of Big Lake.

# DRILLING REPORT

ANDREWS COUNTY

Fasken No. 14-29-Y Fee; td 4,900 feet, logging.

Fasken No. 15-2-Y Fee; td 4,902 feet; swabbed 35.52 barrels of oil and 192 barrels of water in 24 hours, through perforations at 4,772-4,794 feet.

Amoco No. 3-H Fasken; td 13,105 feet; pb 13,103 feet; swabbed four barrels of oil and 135 barrels of water in 10 hours, through perforations at 13,010-13,020 feet, which had been acidized with 1,000 gallons; operator squeezed perforations at 13,014-13,095 feet.

Cola No. 3 Bourg (originally filed as the No. 1-A Bourg); td 7,650 feet; pumping load, through perforations at 1,650-1,700 feet.

Cola No. 1 GAO; td 7,635 feet; pumping back load, through unreported perforations.

Maralo No. 3-A Southland Royalty; td 10,015 feet; recovering load, through unreported perforations.

BORDEN COUNTY

Harvey Yates No. 1-23 Key; drilling 3,880 feet.

CHAVES COUNTY

Maralo No. 1-11 New Mexico; drilling 9,920 feet in lime and shale.

Depco No. 3 Midwest-Federal; drilling 7,572 feet in lime.

Penroc No. 1 Bar C; drilling 1,590 feet.

COCHRAN COUNTY

John H. Hendrix No. 1 Beard; drilling 8,700 feet.

Union Texas No. 78 Slaughter; td 5,100 feet; recovering load, through perforations at 4,923-5,019 feet, which have been acidized with 500 gallons and have had 250 gallons of acid spotted across perforations.

Union Texas No. 79 Slaughter; drilling 2,950 feet in anhydrite and salt.

COKE COUNTY

Energy Reserves No. 5-A Williams; drilling 6,738 feet in lime and shale.

CONCHO COUNTY

Tahoe Oil & Cattle No. 1 Pebble; preparing to spud.

CROCKETT COUNTY

Resources Investment No. 1-18 University; drilling 4,935 feet in shale.

Southland Royalty No. 1-36 Todd; drilling 572 feet in redbed and sand.

Southland Royalty No. 4-67 Todd; drilling 1,113 feet in sand and shale.

Southland Royalty No. 1-70 Todd; drilling 914 feet in sand.

Texaco No. 7-D Kincaid; td 8,200 feet; shut in; acidized with 2,000 gallons.

DAWSON COUNTY

Cola Petroleum No. 1-30 Turner, drilling 3,402 feet in lime.

MGF No. 1-11 Davenport; td 8,530 feet; pumped 30 barrels of oil in 24 hours.

MGF No. 1 Dyer; td 8,480 feet; pumped 33 barrels of oil in 24 hours.

MGF No. 1-9 White; td 8,727 feet; pumped 24 barrels of oil in 24 hours.

ECTOR COUNTY

Hendrix No. 1-41 Johnson; td 4,241 feet; preparing to perforate.

Amoco No. 4-AV Midland; drilling 3,875 feet.

EDDY COUNTY

Harvey Yates No. 1 Depco; td 12,810 feet; shut in for pressure build up; after fracture treating with 20,000 gallons and 19,000 pounds.

Yates No. 4 Travis Deep; td 11,155 feet; shut in.

Amoco No. 1-8 Teledyne; drilling 3,045 feet.

Amoco No. 1 Williams; drilling 11,894 feet in a side track hole.

Amoco No. 1-K Brantley; td 13,129 feet; preparing to perforate.

Texas Oil & Gas No. 2 Indian Hills td 9,560 feet; shut in.

Coquina No. 1 Patterson; drilling 6,530 feet in lime.

Texas Pacific No. 2 Phantom Draw; td 12,820 feet; flowed 680,000 cubic feet of gas per day, plus 72 barrels of water in 22 hours, through a 1/2-inch choke and perforations at 12,278-12,524 feet.

Antwell No. 1 Rios; td 9,865 feet; preparing to log.

J. C. Barnes No. 2 Big Chief; drilling 11,690 feet in lime and shale.

Southland Royalty No. 1-14 State; drilling 1,908 feet in dolomite.

Southland Royalty No. 1-16 State; drilling 7,815 feet.

GARZA COUNTY

Marshall R. Young No. 1-25 Lewis; drilling 3,812 feet.

GLASSCOCK COUNTY

Texaco No. 2-B Glasscock; td 8,254 feet; testing, through unreported perforations.

HOWARD COUNTY

North American No. 1 Williams; drilling 9,331 feet in lime.

IRION COUNTY

Energy Reserves No. 1-61-C Sugg; td 8,012 feet; waiting on cement.

Resources Investment No. 2-18 Cox; td 8,104 feet; recovering load, through perforations at 7,962-7,998 feet, which have been acidized with 3,500 gallons; and operator spotted 126 gallons of acid across perforations before they were acidized.

LEA COUNTY

Union Oil No. 1 Laguna Deep Federal, plugged back to 14,438 feet, waiting on cement.

Union Oil No. 1 Halfway-Federal, td 11,406 feet, tripping.

Amoco No. 1-GH State, drilling 425 feet.

Amoco No. 1-H Federal, td 15,808 feet, drilling cement.

Amoco No. 3-DR State, drilling 6,590 feet in lime.

Britton Management No. 2 Templo, td 9,130 feet, picking up tubing and tag cement.

Marathon Oil No. 1-Y Aetna Eaves, td 8,505 feet, preparing to plug and abandon.

Texas Oil & Gas No. 1 Osudo-State, drilling 11,356 feet in lime and shale.

Gulf No. 3-ED State, td 10,200 feet, circulating and conditioning hole, preparing to take drilistem test, took drillistem test from 9,940 to 10,090 feet, packer failed, recovered 7 feet rate hole mud.

Gulf No. 1-A Strage, td 13,600 feet, still shut in.

Getty No. 1-10 Cinta Roja, drilling 11,910 feet in shale and lime.

Getty No. 1-29-L State, drilling 580 feet in redbeds.

LUBBOCK COUNTY

Samedan No. 1 Doss, td 9,215 feet in lime, circulating and mixing mud.

MARTIN COUNTY

Parker & Parsley No. 1-A Powell, drilling 3,285 feet in anhydrite and shale.

MGF No. 1-8 Anderson, td 8,760 feet, pumped 43 barrels oil in 24 hours.

MGF No. 1-9 Brown, td 8,750 feet, pumped 40 barrels oil in 24 hours.

MGF No. 1-30 Burns, td 8,700 feet, pumped 96 barrels oil in 24 hours.

MGF No. 1-16 Davenport, td 8,700 feet, pumped 84 barrels oi in 24 hours.

MGF No. 1-20 Davis, td 8,687 feet, pumped 155 barrels oil in 24 hours.

MGF No. 1-20-A Davis, td 8,700 feet, pumped 61 barrels oil in 24 hours.

MGF No. 1-19 Dyer, td 8,760 feet, pumped 60 barrels oil in 24 hours.

MGF No. 1 Hernandez, td 9,250 feet, fishing.

MGF No. 1-23 Jeffcoat, td 8,750 feet, pumped 145 barrels oil in 24 hours.

MGF No. 1-24 Langham, td 8,710 feet, pumped 65 barrels oil in 24 hours.

MGF No. 1-19 Nichols, td 8,740 feet, recovering load.

MGF No. 1-8 Perry, td 8,770 feet, pumped 32 barrels oil in 24 hours.

MGF No. 1-15 Snell, td 8,588 feet, pumped 22 barrels oil in 24 hours.

MGF No. 1-21 Stokes, td 8,690 feet, pumped 29 barrels oil in 24 hours.

MGF No. 1-21-A Stokes, td 8,670 feet, pumped 27 barrels oil in 24 hours.

MGF No. 1-30 Wiggins, td 8,730 feet, pumped 42 barrels oil in 24 hours.

RK Petroleum No. 2 Ann, drilling 9,430 feet in lime and shale.

Rial No. 1-A Burns Trustee, td 3,710 feet, laying down drill collars, set 8⅝ inch casing at total depth.

MIDLAND COUNTY

Cola Petroleum No. 1-A Hutchison, td 9,100 feet, pumping on test.

RK Petroleum No. 1-4 Scharbauer Ranch, drilling 10,522 feet.

CITGO No. 4611 Dora Roberts, td 12,668 feet, plugged back depth 12,205 feet, flowed 35 barrels oil and 105 barrels water in 5½ hours on 20/64-inch choke after acidizing perforations from 11,718 to 11,790 feet with 10,000 gallons.

MITCHELL COUNTY

Tahoe Oil & Cattle No. 1 Silver Fox, td 7,229 feet, testing from Ellenburger perforations not yet reported, no guages.

NOLAN COUNTY

Hanson Corp. No. 1-A Beall, td 5,820 feet, recovering load, through overall perforations from 5,800 to 5,819 feet.

PECOS COUNTY

Texas Pacific No. 12 Montgomery, drilling 9,785 feet in lime and shale.

Hunt Energy No. 1 Sabine, drilling 20,789 feet.

Union Texas No. 1-18 Mitchell, td 11,712 feet, preparing to plug and abandon.

Gulf No. 2-1 Emma Lou, drilling 11,133 feet in shale and sand.

Gulf No. 2 Schlosser, drilling 13,515 feet in lime and shale.

Getty No. 1-4 Ashland-Mendel-Caldwell, cleaning out at 627 feet.

REAGAN COUNTY

Tamarack No. 1 Aldwell, td 8,195 feet, recovering load, through perforations from 7,967 to 8,087 feet.

Tamarack No. 2-Aldwell, td 8,180 feet, recovering load, through perforations from 6,499 to 8,054 feet.

Tamarack No. 3 Aldwell, td 8,195 feet, recovering load, through perforations from 6,504 to 7,401 feet.

Tamarack No. 1-A Aldwell, td 8,210 feet, ran tubing, waiting on completion unit.

Tamarack No. 1-B Aldwell, drilling 3,385 feet.

RK Petroleum No. 2 Pan-Am, drilling 6,182 feet in lime and shale.

REEVES COUNTY

Gulf No. 3 Ligon, drilling 7,008 feet in shale, lime and sand, took drillstem test from 6,149 to 6,211 feet, tool open 1 hour and 10 minutes, recovered 150 feet gas cut drilling fluid.

Northern Natural Gas No. 1-15 Maddox, drilling 4,125 feet in lime and anhydrite.

SCURRY COUNTY

Aminoil, No. 1 Evertt, td 8,374 feet running logs.

Mr. and Mrs. Ben Black are shown with "Flora and the Zephyrs," a painting by French artist Antoine Coypel, during a recent preview of the Amodio collection of Old Master paintings at Midland's Museum of the Southwest. Various portions of the Amodio collection will be on view here during the next six months. (Staff Photo)

# 'Old Master' paintings offer nice contrast to museum's fare

Offering striking and dramatic contrast to the bold, colorful abstract-expressionist paintings which were on view during recent weeks at the Museum of the Southwest is the museum's current exhibition of European "Old Master" paintings.

The current show of paintings from the late Renaissance on through the 19th Century is from the collection of the Marquis de Amodio.

The marquis came to the U.S. during World War II for special Air Force training at Dallas. He was much impressed by the hospitalty shown him during his stay in the Southwest and, following the war, decided to show his appreciation by loaning his collection of 32 paintings to Texas museums.

The collection features such famous painters of previous centuries as Sir Joshua Reynolds, J.M.W. Turner, Thomas Gainsborough, Hans Holbein and John Singer Sargent, among numerous others.

The entire collection is not being shown at one time. During the current month, portraits by Gainsborough and a group of early Dutch paintings are in the spotlight at the museum's Turner Memorial Galleries, 1705 W. Missouri Ave. In later months, other paintings from the prestigious and extremely valuable collection will go on view. Paintings not on display will be in storage in the vaults of two Midland banks.

The museum is open to the public from 10 a.m. to 5 p.m. weekdays, and from 2 to 5 p.m. each Sunday. Admission is free at all times. The museum will be closed on Christmas Day.

# *Student Affiliates concluding program, season of recitals*

The Midland Student Affiliate organization of the Texas Music Teachers Association is concluding its fall season, a season that has included a series of special recitals and a music theory testing program.

Student Affiliates is an outreach of the Texas Music Teachers Association which was inaugurated a number of years ago to provide music students with wider musical experiences than are usually available in private music study. The program stresses recognition in various phases of musical education and activity.

There are approximately 250 members of the Midland Student Affiliate unit, with 18 Student Affiliate teachers here.

Among Student Affiliate events here this fall were a boys' piano and vocal recital, a Texas Composers recital and program and a special ensemble recital and program.

Performing on the boys' recital were Barry Freimel, Tommy Nunez, Pat Brotherton, John Latham, James Heath, Michael Seay, Danny Smith, Anthony Vitrano, Mark Edgar, David Johnson, Perry McIntosh and Jimmy O'Neill.

The Texas composer event featured pianists Susan Fry, Amy Franks, Karen Jeffcoat, Kristi Larson, Ginny Graham, Brad Edgar, Sharon Graham, Missy Kibler, Emily George, Janelle Stroebel, Shannon Stone and Jean White.

There were 40 participants in the ensemble recital and program. They were Paula Emerson, Janes Ferguson, Tami Hertel, Amy McFadden, Traci Ballard, Sonja Bostwick, Shellie Branson, Xan Cook, Hilary Johnson, Hollen Johnson, Kathy Nichols, Teri Hailey, Shane Staggs, Vicki Cochrane, Barbara Hunter, Verna Conn, Harvey Lusk, Lexie McLaughlin, Kimberly Seawright, Tanya Bowen, Margaret Matlock, Becky Ross, Jolen Ross.

And Jenny Laengrich, Wendy Sprinkle, Chine Payne, Carol Lloyd, Carol Neal, Sharon Phipps, Doug Daehling, Alecia Thompson, Shelly Pope, Nancy Southerland, Barbara Holmes, Laura Shelton, Marjorie Star, Sharon Van Horn, Robin Black and Jana Housman.

Teachers of the Midland Affiliate students are Mrs. Ray Chappelle, Laura Ellis, Mrs. James Finley, Mrs. C. J. George, Mrs. Benton Howell, Mrs. William H. Maitland, Mrs. Wayne Matthews, Mrs. Tom R. Minihan, Mrs. E.F. Motter, Mrs. Hans Roweck, Mrs. Hermann D. Williams, Mrs. Robert L. Wise, Mrs. Horace Griffin, Mrs. Carl Leonard Jr., and Mrs. Donald K. Thompson.

# Books look at movie lives

By BOB THOMAS

HOLLYWOOD (AP) — The holiday bookshelf:

—**"THE ACTOR'S LIFE"** is a fascinating look into the mind and methods of a movie star. Charlton Heston kept a journal during the years 1956-1976, and it has been edited by Hollis Alpert as a disarming portrait of a decent man. Being a gentlemen, Heston steps on few toes.

Heston remarks that none of Gore Vidal's script efforts were incorporated into "Ben-Hur," adding: "I stress the point because Vidal has gone extravagantly and disdainfully (qualities, I fear, he cannot avoid) on record about his authorship of the 'Ben-Hur' screenplay."

About Sophia Loren: "She sometimes tends to carry her remarkable beauty through a scene as though it were a souffle...very, very gently, lest it break."

—**"GROUCHO"** is the latest and perhaps the most valuable of the many books on Marxiana. The reason is that author Hector Arce worked intimately with the comedian on two previous books and was live-in official biographer of Groucho's late years. Arce witnessed a different Marx in the aging, sometimes victimized but always witty man. The biographer has done his homework on the early history, dating back to the family's arrival in the United States in the 1880s.

Arce tells the less flattering side of Groucho: the estrangement from his children, the emotional crackups of most of the women in his life. But Groucho gave him instructions during his final illness: "Tell it all."

—**THE AGELESS** Anita Loos writes a chatty memoir, "The Talmadge Girls," about the beauties of the silent screen, Norma and Constance; also Natalie, who never made it in films but was noted for marrying Buster Keaton.

Miss Loos wrote scripts between 1916 and 1925 for the two famous sisters and knows their charms and foibles. Constance quit films before talkies. Norma tried three and was criticized for her enunciation.

Her sister called from London: "Quit pressing your luck, baby. The critics can't knock those trust funds Mom set up for us."

Like most female stars of that era, the Talmadges had a hard-driving mother. She saved money for her daughters, who also married well, and often.

—**THE BROTHERS** Mankiewicz are the subjects of two biographies, "Mank; The Wit, World and Life of Herman Mankiewicz" by Richard Meryman, and "Pictures Will Talk; The Life and Films of Joseph L. Mankiewicz" by Kenneth L. Geist. Both made enormous contributions to films as well as Hollywood lore.

Herman wrote 75 screenplays from 1926 to 1952, but his fame rests on "Citizen Kane," which he wrote with Orson Welles, and his rare and biting wit. On his deathbed he asked his nurse if he could get out of the oxygen tent for a smoke. When she advised him that smoking would be the worst thing for him, he snapped, "I'm dying, and she's trying to break me of the cigarette habit!"

Brother Joseph was equally talented but more disciplined. His career has extended from "The Dummy" (1929) to "Slueth" (1972), and it is well covered in Geist's book, but with a trace of bitterness. The book started as an official biography but Joe later disowned it.

—**"THE MOVING** Picture Boys" is a rollicking novel by Max Wilk, who seems to have a knack for predicting events. His plot features a pair of ex-convicts who are hired to advise on a movie and then steal the finished negative and hold it for ransom.

Earlier this year thieves lifted uncut film of "The Brinks Job" and sought ransom for its return. But the real-life filmnappers weren't as clever as Wilk's; they stole prints of the film, not the negative.

ENTERTAINMENT

# Peck shares bill in music hall fest

By TOM JORY

NEW YORK (AP) — He was an aspiring actor from California with $195 in his pocket and an introduction to a family friend on Wall Street. The year was 1939.

"So I breezed into this fellow's office, a skinny kid just out of college, and he sent me out to the World's Fair," Gregory Peck recalled the other day. "I was hired at $25 a week to harangue people as they walked by this thrill ride.

"It was the closest I could get to show business."

Not quite, for a month or two later, Peck hired on — at $40 a week — as a tour guide at Radio City Music Hall. He returned to the famed theater not long ago as host of NBC's "Rockette: A Holiday Tribute to Radio City Music Hall," to be broadcast a 8 p.m. today.

"I couldn't quite recall the spiel we would give tourists," the actor said of rehearsal for the TV program, "but someone found an old handbook for guides, and I read that 'tourist talk' in the show.

"And it was a little eerie," he said, "reading those words I had said so many times nearly 40 years ago."

Radio City Music Hall opened Dec. 27, 1932, and the two-hour television special highlights events from each of the theater's five decades. Sharing top billing with Peck is Ann-Margret, who performs as a Rockette in scenes from the 1930s, '40s, '50s and so on.

The lineup of guest stars includes Diahann Carroll, Greer Garson, Jack Jones, Alan King, Beverly Sills and Ben Vereen.

"It's a combination of good, popular stuff, with a bit of nostalgia harking back to the early days of the Music Hall," the show's host said. "There's a sort of linking character, played by Alan King, who talks about each decade in the vernacular of a New York news vendor. He ages as the years pass, and it's quite effective."

# *Photographs make new lobby display*

Photography by Steve Partlow makes up the special art exhibit inside Theatre Midland during the run of "Send Me No Flowers."

The comedy by Norman Barasch and Carroll Moore opened Dec. 1 as Midland Community Theatre's final major production of its 1978 membership season. Concluding performances are scheduled tonight and Friday and Saturday nights. Theatergoers may telephone the box office, 682-4111, for reservations.

Partlow, the exhibiting artist, is a two-year resident of Midland, coming here from Dallas. He is employed by a non-denominational Christian organization, called Young Life, which works with high school-age youth.

Partlow majored in sociology and minored in art at The University of Texas at Arlington. He currently is engaged in work leading to a master's degree from Fuller Theological Seminary in Pasadena, Calif.

Partlow has been involved in photography for the last five years. His photographs are largely still lifes and outdoor scenes. Many of the photographic studies in the Theatre Midland gallery show are available for purchase.

# Globe to open final play of current season

ODESSA — "Mary of Nazareth," a new play by Agnes Sanford, opens Friday night at the Globe of the Great Southwest as the Globe's final stage offering of the 1978 season.

A second performance is scheduled Saturday night and there will be a matinee presentation Sunday afternoon. The drama will have concluding performances on Dec. 22, 23 and 24. Evening performances will begin at 8, with the Sunday matinees scheduled for 2:30.

Globe season tickets will be valid for all presentations and, in additiion, single tickets may be purchased at the Globe box office in advance of each performance. The box office telephone number is 332-1586.

# Traditional English evenings planned in Midland, Odessa

"Evenings in Olde England," featuring roast beef and Yorkshire pudding, along with music by madrigal singers, are planned Monday and Tuesday.

The Monday event will be in Odessa's Inn of the Golden West, and Tuesday's dinner will be in the Midland Hilton. Tickets are priced $12.50 per person or $25 per couple.

The musical evenings are presented under auspices of the Chorale da Camera, a "chamber chorus" from within the Chorale of the Midland-Odessa Symphony Orchestra. The ensemble is directed by Dr. Frank Varro, a member of the music faculty of The University of Texas of the Permian Basin.

Members of the Chorale da Camera are Cricket Harrison, Jane Hedrick, Carrie Wheeler, Linda Lassiter, Sandy Rode, Janice Archer, Marcia Baird, Carol Schmickrath, Bonnie Hanssen, Mary Johnson, Sue Brubaker, Margo Varro, Gene Greenwood, Brad Webb, Ronald Thomas, Keith Johnson and Bob Welborn.

Reservations for either the Midland or the Odessa dinner may be made by dialing 563-0921 or 367-2233. Seating is limited, and early reservations are advised.

# *Former city resident in Allen's 'Interiors'*

Former Midlander Kristin Griffith is one of the featured performers in a new movie, "Interiors," currently being shown in the city.

Miss Griffith is the daughter of Mr. and Mrs. William W. Griffith of Midland.

She attended Midland public schools and was a member of the Pickwick Players, the young people's performing and producing company of Midland Community Theatre. She also performed in MCT regular productions, including "You Know I Can't Hear You When the Water's Running," presented on MCT's "Poco Mas" series several seasons ago.

Miss Griffith studied at the Juilliard School in New York City. She had a role in Dallas playwright Preston Jones' "Texas Trilogy" when it was presented at the Kennedy Center in Washington, D.C., prior to the opening of the trilogy on Broadway.

"Interiors" is a Woody Allen movie, although Allen himself is not performing in it. The cast is headed by noted stage actress Maurine Stapleton. It was filmed on Long Island.

Miss Griffith is now at work in a new motion picture, "Flesh and Blood," being filmed in Chicago and Los Angeles.
