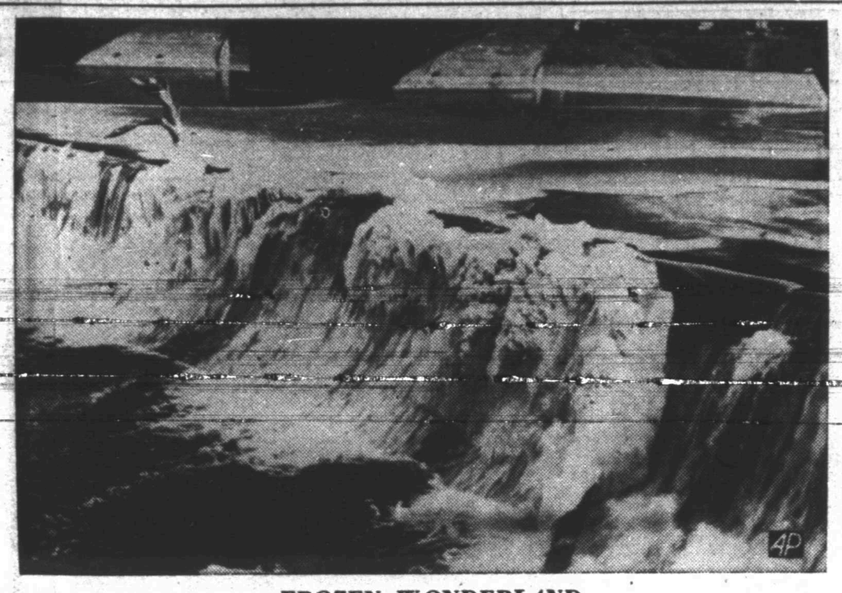
More Social Security Is Sought By Eisenhower



FROZEN WONDERLAND

The bitter cold weather which has struck the North and East turned this Kankakee River dam below a bridge into a winter wonderland. An early morning temperature of one degree above zero Wednesday left the dam ice-encrusted. It is near Kankakee, Ill.

Local Farmers Get Full-Time Loan Man, More Loan Money

Scurry County has been authorized a full-time Farmers Home Administration supervisor and additional funds for production and subsistence loans, according to a report from George Mahon, U. S. Representative for this district.

C. N. von Roeder who yesterday headed a delegation from Snyder that requested those two things, said he called Mahon this morning in Washington. Mahon told Von Roeder that he had talked to the head of FHA and that authorization had been given.

The group yesterday went to Waco to attend a hearing being held by the agriculture committee of the U. S. House of Representatives.

Von Roeder, who was spokesman for the group, said the delegation represented the Scurry County Farm bureau and a committee of Scurry oil and gas distributors and finance agencies. Attending with him were C. H. Stahl, farm bureau president; M. L. Andress, secretary-treasurer; and L. L. Lewis, a member.

Von Roeder said the Scurry group had a conference with the state administrator of FHA prior to appearing before the committee where they were given five minutes to present their case and file their brief. They had another conference with Assistant Secretary of Agriculture Farrington and the FHA head, Robert Deaton. FHA supervisor here, is scheduled to be in the Snyder office only one day each week and in Fisher County the remainder of the week.

The FHA loan known as the "disaster loan" does not fill the needs of farmers here because it is a one-year loan, Von Roeder said. He added that after three years of drouth and short crops, and now with a curtailed and small cotton acreage allotment, nothing less than loans with three to seven years repayment period will help farmers here. He said that Joel Hodges, manager of the Sweetwater Production Credit Association office here, compiled a list from six lending agencies of 160 distressed farmers in the county. Von Roeder said the group termed a distressed farmer one who cannot get further assistance locally because he has already borrowed on two to three years operating expense and his collateral cannot stand any more loans.

Such farmers, Von Roeder said, have reached their credit limits and will be forced out of business if they do not have the type loans requested.

Farmers of this county so far, Von Roeder said, have secured only $105,000 in FHA loans because FHA had only a day-a-week man here. Only two or three loans a day could be processed by this method, he said, adding that it would take more than a year to get around to the 160 loans needed here. He explained that neighboring counties having fulltime representatives of FHA have received from $500,000 to more than $1,500,000 from the federal loan agency.

Two other Snyder men, Bob Crowell, chamber of commerce manager, and Bentley Baize, seed breeder, were to return sometime today from the hearing. They represented the chamber at the hearing in regard to the plan of increasing the cotton acreage allotment slightly so the acreage would not be cut drastically for 1954 here.

Deep Wildcats Are Slated For Nolan, Borden

Deep wildcats have been set for immediate drilling in Borden and Nolan Counties.

The Borden County project will be British American No. 1 H. D. Beal and others. Location is 660 feet from north and 460 feet from east lines of the southwest quarter of section 4-30-t3n-T&P, about 11 miles south-southeast of Gail. Rotary tools will be used to drill to 7,700 feet.

J. D. Wrather of Dallas will drill his No. 1 C. M. Gooch as a 6,300-foot wildcat in Southeast Nolan County. Drillsite will be 467 feet from south and 660 feet from west lines of section 169-64-H&TC, about 10 miles northeast of Blackwell.

The new project will be five miles west of the Hylton-Northwest Multipay field, and two miles southeast of a 6,072-foot Ellenburger failure.

WILDCAT FAILURES

W. F. Newton of Houston No. 1 W. T. Steel has been plugged and abandoned as a wildcat failure nine miles northwest of Snyder. It was drilled to a total depth of 2,470 feet in lime.

Location was 330 feet from north and west lines of section 455-97-H&TC, about nine miles northwest of Snyder and two miles north and west of Dermott.

Russell Maguire has quit his No. 1 Erwin as a failure in Northwest Mitchell County. It was plugged on total depth of 7,820 feet in lime.

Claude E. Heard, Estill S. Heyser, Jr., and Noranda Oil Corp. No. 1 Mattie Key, Northeast Fisher wildcat, was abandoned after an unsuccessful completion attempt in the reef. The project was drilled in section 2-2-H&TC, six miles southeast of Rotan.

BORDEN OILER

The Texas Co. No. 8-A A. M. Clayton, Southwest Borden prospector, has been completed for a 24-hour flow of 515 barrels of 45.2-gravity oil.

The flow was natural through a one-half-inch choke and from perforations at 8,099-114 feet. The five and one-half-inch casing is set at 8,127 feet, with plugged-back total depth 8,122 feet. Gas-oil ratio on the potential test was 738-1.

The new producer is northeast of the Good field and is the second well in the recently designated Good-Northeast field.

DRILLING REPORT

Ohio Oil No. 1 Turner, Scurry prospector, is continuning to test for completion. Operator reported pumping 57 barrels of load oil in 18 hours on a recent gauge.

Cosden Petroleum No. 1 Bilby Wallace, Central Kent wildcat, is drilling in sand below 6,564 feet after a 30-minute drillstem test from 5,490-526 feet. Recovery was 10 feet of mud with flowing pressure zero.

Wellman & Weiner No. 1 Blassingame, Mitchell wildcat, is drilling below 7,159 feet in shale and sand.

Another Cut In Allowable Seen

AUSTIN (AP)—A possible reduction in the Texas oil allowable for February was indicated today. The Railroad Commission reported both purchasers and the Bureau of Mines anticipate smaller demand.

Advance nominations of purchasers for February—merely an estimate of how much they think they will need—totaled 2,907,746 barrels per day, down 5,536 barrels from a month ago.

The Bureau of Mines forecast a demand for 2,830,000 barrels per day of Texas oil, a drop of 40,000 from its prediction last month.

The average daily allowable as of last Saturday was 2,858,668 barrels.

Commission Chairman Ernest O. Thompson also reported on condition of the East Texas field as of Jan. 1. Average bottomhole pressure was 10.25.19 pounds per square inch, a big gain of 6.49 pounds per square inch since Dec. 1.

Texans Want Air Academy In This State

WASHINGTON (AP)—Rep. Paul Kilday of San Antonio, Tex., says he will not press for passage of his bill designating Randolph Air Force Base at San Antonio as the "West Point of the Air."

Instead, Kilday said yesterday he would support a pending Air Force Academy bill that authorizes the Defense Department to pick the site.

Rep. Sam Rayburn of Bonham has been reported as attempting to get the Air Force academy located at a Grayson County site in his 4th Congressional District near Sherman and Denison.

Kilday, a ranking Democrat on the House Armed Services Committee, said in his statement that there are numerous measures to establish the proposed academy at various locations and that it is imperative that the stalemate over sites be ended now.

"For the welfare of the Air Force and the country," he added, "the leaders of the group with whom I have worked for the designation of Randolph Air Force Base as the site for the Air Academy feel that we should not further delay its establishment. x x x"

"We still believe that Randolph is the outstandingly proper place for the location of both the temporary and permanent Air Academy. Therefore we shall continue our efforts with vigor to secure its designation by the Secretary of the Air Force as the Air Academy."

WASHINGTON (AP)—Rep. Durham (D-NC) said today "the administration is trying to put across" an Air Force academy that he estimated would cost half a billion dollars by asking for only 10 million dollars at the outset.

Durham is a member of the House Armed Services Committee which continues hearings today on a bill to authorize an air West Point and permit initial planning to start.

"I am for the academy," Durham said in an interview, "but I am going to demand that the administration bring up a specific estimate of the cost. This has to be put on a businesslike basis."

Durham tried unsuccessfully to get an estimate yesterday from Secretary of the Air Force Harold E. Talbott.

Transfusion Refused And Infant Boy Dies

CHICAGO (AP) — An 8-day-old boy died early today, several hours after his young parents had refused on religious grounds to permit doctors to give him a blood transfusion.

The parents had been summoned into Family Court today on a petition to declare them unfit parents and make their infant a ward of the court.

The parents, Thomas Grzyb, 20, and his wife Barbara, 18, yesterday refused to sign a waiver which would have permitted an immediate Family Court hearing on the question of legally forcing a transfusion. Both are members of the Jehovah's Witnesses religious sect.

The case was brought to the court's attention by Dr. Herman N. Bundesen, Board of Health president, after he was informed of the child's condition by officials at St. Anthony's Hospital and the baby's physician, Dr. Isadore Lerner.

Dr. Lerner said the couple's son, Thomas Jr., had needed a transfusion since birth. He said last night the baby had been in a state of shock since an operation for an abdominal obstruction Tuesday.

"The baby is getting weaker by the minute," Dr. Lerner said last night. "I almost got on my knees begging the parents to allow a blood transfusion. The best we are doing now is with transfusions of glucose."

But the baby died early today at the hospital. The parents were not there, an official said.

"If the baby dies, that is God's will," the young mother had said as she and her husband refused to allow the transfusion. "I have no fear. The blood won't make any difference. I am not going to hand him over to the court until I have to. The judge doesn't care what's in the Bible."

Sister Mary Michael of the hospital's pediatric section said she had told the young couple yesterday their baby's life depended on a blood transfusion. She added:

"But the father told me, 'Our belief won't allow it. It's better to have a dead baby without the blood than a living baby with the transfusion.'"

The parents had contended the injection of blood into the veins is the same as eating blood, which they claim is forbidden by the Bible.

Balky Witness Causes Delay In Reuther Case Prosecution

DETROIT (AP)—The prosecution, admittedly stunned by a key witness's refusal to return to the United States, today obtained a 15-day postponement in the pre-trial examination of one of four persons charged in the shooting of Walter Reuther.

Recorder's Judge John P. Scallen granted the postponement until Jan. 29 in the examination of Carl Renda at the request of prosecutor Gerald K. O'Brien.

O'Brien said he would be unable to present his case without the testimony of the witness, Donald Ritchie, now held in Windsor, Ont., pending international extradition proceedings.

Renda remains free under a $25,000 bond.

O'Brien originally asked for a three-months continuance explaining that the time was needed to complete the complicated extradition proceeding against Ritchie.

Joseph W. Louisell and Samuel L. Travis, attorneys for Renda, protested the adjournment. They said O'Brien had shown no judicial good cause for the delay.

Louisell and Travis objected to the validity of Ritchie's testimony against the four defendants since he also has been named as a defendant.

O'Brien hinted at his future plans when he said:

"Ritchie can plead guilty and we can use him as a witness."

Ritchie, yesterday balked at returning to Detroit to testify as O'Brien's key witness.

He refused to waive extradition after previously stating he would return voluntarily. Ritchie was taken into custody in Preston, Ont., after eluding an international search for five days following his escape from a downtown Detroit hotel, Friday.

Without Ritchie's presence O'Brien said he couldn't carry on his case.

The same would be true, O'Brien indicated, of the extradition proceeding in Windsor involving Clarence Jacobs, uncle of Ritchie and whom the latter also named as a conspirator. The Jacobs case also was scheduled for today.

Held without bond in Windsor on a Canadian "apprehension" warrant. Ritchie is not to get an extradition hearing until Jan. 21. This had the effect of a stymie against the other two cases.

Both apparent stalemates developed within hours after Ritchie and his woman flight companion, Betty White, gave up separately to provincial police at Preston, Ont., 150 miles northeast of Detroit.

When O'Brien first "broke" his case Jan. 6, he said Ritchie's story was the "solution" to the mysterious shotgun attack on Reuther, president of the CIO United Auto Workers, April 20, 1948. He has stuck with this since.

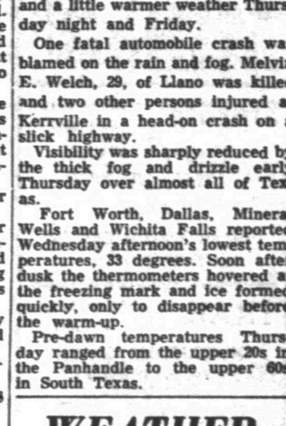
Former Midland Oilman Waives Extradition On Rape Charges In Dallas

DALLAS (AP)—A former Midland oilman wanted here for trial on rape charges has been arrested in Bloomington, Ill., Sheriff Bill Decker said yesterday.

Decker said he was told William T. Reid, about 50, had agreed to waive extradition. Deputy W. R. Milam would return Reid, the sheriff said.

Criminal Dist. Judge Henry King called the case against Reid Nov. 30. Reid failed to appear, and a $3,000 bond was forfeited. Officials said sureties were F. Faskin and Joe Stewart of Midland.

Reid is charged with raping a 13-year-old part-time dime store clerk Dec. 28, 1952, after picking her up as she waited for a bus. Reid has denied it.



Pola Negri, making one of her infrequent Hollywood social appearances, is shown as she attended a party in Hollywood Tuesday night. One of the great film stars of the past, Miss Negri has been in retirement for years.

Lubbock Man Makes Tricky Aid Landing

VIENNA, Austria (AP)—A U.S. Air Force helicopter pilot, aiding in the rescue of sick and injured from Austria's avalanche-stricken "Valley of Death" staged a landing today that may make helicopter history.

Capt. Billy Sayers, of Lubbock, Tex., set his big whirlybird down during a snowstorm on a 30-foot square stamped out on a steep hillside by the boots of rescue workers at the village of Blons. The job was made even more difficult by the fact that the aircraft was equipped with wheels instead of skis.

Sayers and his co-pilot, Lt. Harold Cooley of Pittsburgh, Pa., made one successful trip to Blons last night. They tried again this morning and this is how Sayers described it:

"We flew up the valley with the aid of an Austrian map that cost 20 cents and showed the mountains. It was far better for our purpose than our own flight map.

"We had to come down on the same 30-foot square field. But today, we could not really land. The field has a 20-30 degree angle and is on a hillside. We remained suspended with the two front wheels on the ground and the two back ones in the air.

"The angle was such that we had to watch that the rotor blades did not touch the ground. You cannot practice a landing like that—it's like jumping with a parachute."

Lt. Cooley, just out of helicopter school, said:

"Bill was watching the hover and I had to watch the instruments the entire time. We could not watch to see what was being taken off the plane or who was being put aboard.

"Bill made his takeoff just by falling off the side of the hill and then backing out."

Poll Taxes, Exemptions Increase Little Here

The total of poll tax receipts and exemption certificates issued by noon today had reached 2,298, only 67 above the figure at noon yesterday.

Fourteen days remain in which receipts and certificates may be obtained in the tax assessor-collector's office at the courthouse. Deadline is Jan. 31, a Sunday. The tax office will not be open that day.

Of the total to date, 1,752 are paid taxes, and 546 are exemptions.

Warmer Over Most Of State

By The Associated Press

Messy weather—rain and fog—rolled across Texas Thursday as warm Gulf winds melted ice and temperatures warmed.

The dreary weather was due to hold, with scattered light rain predicted for all except West Texas. The forecast was for cloudy skies and a little warmer weather Thursday night and Friday.

One fatal automobile crash was blamed on the rain and fog. Melvin E. Welch, 29, of Llano was killed and two other persons injured at Kerrville in a head-on crash on a slick highway.

Visibility was sharply reduced by the thick fog and drizzle early Thursday over almost all of Texas.

Fort Worth, Dallas, Mineral Wells and Wichita Falls reported Wednesday afternoon's lowest temperatures, 33 degrees. Soon after dusk the thermometers hovered at the freezing mark and ice formed quickly, only to disappear before the warm-up.

Pre-dawn temperatures Thursday ranged from the upper 20s in the Panhandle to the upper 60s in South Texas.

WEATHER

NORTH CENTRAL TEXAS: Mostly cloudy this afternoon with scattered light rain in east portion. Partly cloudy tonight and Friday, a little warmer.

WEST TEXAS: Partly cloudy this afternoon, tonight and Friday, warmer this afternoon and tonight.

EAST TEXAS: Scattered light rain this afternoon, partly cloudy tonight and Friday, warmer north portion Thursday night. Fresh southeast winds on the coast.

SOUTH CENTRAL TEXAS: Mostly cloudy this afternoon, with scattered light rain north portion. Partly cloudy tonight and Friday, warmer in interior tonight. Fresh southeast winds on the coast.

Coverage For More Persons Is Requested

WASHINGTON (AP)—President Eisenhower proposed bringing 10 million more Americans under social security, increasing benefits all along the line, and raising to $4,200 the amount of income subject to social security taxes.

In a special message to Congress the President said the average benefit payment to retired workers is now $50 a month, with a minimum of $25 and a maximum of $85.

For social security to "fulfill its purpose of helping to combat destitution, these benefits are too low," Eisenhower said.

Both the maximum and minimum should be increased, he said, but proposed no figures. A formula on that will be presented later by Secretary of Welfare Hobby, he told legislators.

Boosting to $4,200 the amount of income subject to social security taxes, as Eisenhower proposed, would mean an immediate $12 a year tax increase for workers earning that much or more.

Employers' payrolls would also be increased that amount for each workers in the $4,200 a year bracket or above.

At present, the first $3,600 of income is taxed. The rate this year went up to 2 per cent. It had been 1½ per cent on worker and employer.

The President set forth a six-point program for "improvement" of the social security system.

1. Expansion of insurance protection to about ten million more people not presently covered—including self employed farmers; many more farm workers and domestic workers; doctors, dentist, lawyers, architects, accountants, and other self employed professional people; members of state and local retirement systems and clergymen, on a voluntary basis; and several smaller groups.

2. Liberalization of the present "retirement test" to permit retired workers to earn more at regular part-time jobs without disqualifying themselves for social security benefits.

At present, a man or woman over 65 years of age, and under 75, cannot draw social security payments if earnings are more than $75 a month. Similarly, a widow of an insured worker loses her payment if she takes a job and earns more than $75 a month.

3. The increase in the monthly benefits which Secretary Hobby is to detail later.

4. Broadening of the current base of the social security tax—that is levying on the first $4,200 of income.

5. Computation of benefits "on a fairer basis." The President said the level of old age benefits now is related to an average of a worker's past earnings, and that under the present law terms of abnormally low earnings or none at all, are averaged in with periods of normal earnings, "thereby reducing the benefits received by the retired worker." He recommended a new formula for computation of benefits to provide what he called a fairer return.

Under this formula, the four lowest years of earnings would be eliminated when calculating the earned payments.

6. Protection of the benefit rates of the disabled. Eisenhower recommended that the benefits of a worker who has a substantial work record in employment covered by social security insurance, and who becomes totally disabled for an extended time, be maintained at the amount he would have received had he become 65 and retired on the date his disability began.

New Directors For Both Snyder Banks

New members to the boards of directors of both Snyder banks were announced by the bank presidents today.

P. W. Cloud, Scurry County rancher-oilman, was elected to the board of directors of the Snyder National Bank by stockholders in a meeting Tuesday to fill the vacancy on the board created by the death of W. G. Williams last year.

C. V. (Whit) Thompson was appointed to the board of directors of the West Texas State Bank by the board members in a meeting last year after the resignation of R. L. Tollett, of Big Spring.

Nolan Watson, president of the West Texas State Bank, said a stockholders meeting of that bank will be held today. Stockholders are expected to affirm Thompson's appointment.

A. C. Alexander, president of the Snyder National Bank, said that business of the bank for 1953 reviewed for stockholders in the Tuesday meeting showed 1953 was one of the bank's best years.

Officers of the Snyder National Bank were reelected.

They are: Alexander, president; Ralph Geisenhoner, executive vice president; Willard Paine, vice president; Mrs. Mildred Stokes, cashier; Cecil Boren, assistant cashier; Mrs. Bonnie Crenshaw, assistant cashier; and C. R. Martin, assistant cashier.

Directors of the Snyder National Bank are: Maurice Brownfield, chairman of the board; Alexander; Hugh Boren, Jr.; G. B. Clark, Jr.; W. M. Fuller; Geisenhoner; Harrie Winston; and Cloud.

Officers of the West Texas State Bank are: Wayne Boren, chairman of the board of directors; Hugh, Taylor, vice chairman; Nolan Watson, president; H. W. Cargile, executive vice president; H. H. Eiland, vice president; Charles L. Duran, cashier; and Riley R. Foster, Jeanelle Glenn, Kenneth Hataway, and Erich R. Arnold, Assistant cashiers.

Directors of the West Texas State Bank are: Boren, Cargile, Herman Doak, B. C. Drinkard, Eiland, Welcon Johnson, George E. Parks, Watson, Wade Pipkin, Hugh Taylor, and Thompson.

THIRD TRY

Film Actor Keenan Wynn and Shariey Jean Hudson are pictured in Hollywood as their marriage was announced. The couple married Friday in Puerto Rico where they were with a film unit entertaining troops. The marriage is Wynn's third. The bride, a Santa Monica, Calif., resident, met Wynn a year ago.

India Says POWs Will Be Returned As Such Wednesday

PANMUNJOM (AP) — Indian Lt. Gen. K. S. Thimayya announced today that India's custodial troops will return unrepatriated Korean War prisoners to their Allied and Communist captors next Wednesday morning—nearly three days before their scheduled release as civilians.

In letters to the Red and Allied commands, Thimayya said India, acting alone, would return the captives—as prisoners, not civilians—"as the only correct and lawful and peaceful course open."

Indian troops hold in Korea's demilitarized zone more than 22,000 North Koreans and Chinese who were captured by the Allies and who have refused to return to their Red-ruled homelands, and 21 Americans, 1 Briton and 325 South Koreans who refused repatriation from Red captivity.

An Indian spokesman said Thimayya's move was the Indian command's "final say" and did not need the approval of the five-nation Neutral Nations Repatriation Commission (NNRC), headed by Thimayya.

Both the Swiss and Swedish delegates to the commission objected to parts of the Indian general's letter but both agreed to returning the prisoners.

Poland and Czechoslovakia, the commission's two Iron Curtain members, presumably stood firm on Red demands that the prisoners be held until a peace conference settles their fate. The Communist Peiping radio called this a "mandatory provision" of the armistice.

The Allies contend that the armistice calls for the POWs to revert automatically to civilian status at midnight Jan. 22, when they must be released.

Thimayya stressed that India was returning the captives as prisoners, not civilians. He warned both commands that if they change their status they will "not be in conformity" with the armistice.

Thimayya said the NNRC interprets the armistice agreement to mean that the two commands cannot free the prisoners, once they are returned, until all have received explanations and the peace conference has discussed the future of the nonrepats—or both commands agree otherwise.

His letter asked the Allies and Reds to accept returned prisoners at 9 a.m. Wednesday at the northern and southern boundaries of the demilitarized zone. Both sides were asked to reply by Saturday.

An Indian spokesman said the two commands were asked whether they are prepared to receive the POWs, not whether they agree with the Indian move to pull out of the dispute over whether the captives should be freed by midnight Jan. 22.

Referring to the fact that come-home explanations to the balking POWs broke down and most captives never were interviewed, Thimayya said the Indian decision was reached because the terms of the armistice for reluctant POWs had not been carried out.

He added that the POWs must be returned to their captors because the Allies and Reds cannot agree on extending the neutral commission's custody over them.

Thimayya, in his letter, told the Allied and Red commands:

"I, as chairman and executive agent of the commission have come to the conclusion that the only correct and lawful and peaceful course open is to restore the prisoners to the custody of the former and respective detaining side immediately prior to Jan. 23, 1954."

Although the Swiss delegate agreed to the prisoner return, a Swiss statement of objection said the captives should be released as civilians instead of prisoners.

Guard Passes Inspection Of Snyder's Unit

The Snyder National Guard unit yesterday received an excellent rating from the Army's inspector general for its annual inspection of records, equipment, and training.

Capt. Weldon Kincaid, commander of the unit here, said the unit's over-all rating was excellent, while it received a superior rating on administration and supply and excellent on training.

The Army inspector general annually sends a representative here for a check on the unit.

The guardsmen next month will begin a series of six week end field trips in this area before attending annual summer encampment. The summer training this year will start May 28 for the Snyder men, who will go to North Fort Hood.

Kincaid said the Snyder unit now has a new radio hookup, on which it checks in twice daily to Battalion headquarters at Pecos. It also maintains contact with other points in its regiment, which reaches to Brownfield, Pecos, and Brownsville. By extensive use of radio, the National Guard avoids much use of the telephone, he said.

Second DWI Arrest Is Made

Luis Rivera, 21, Snyder Latin-American, was in the county jail today on accusation of driving while intoxicated.

Rivera was convicted in county court here on a plea of guilty Sept. 28 to a charge of driving while intoxicated filed Aug. 30. He was fined $123.50, including court cost.

No charge had been filed against Rivera by noon today in connection with his arrest last night, but Renal Rosson, district attorney, said his office was investigating the accusations and would probably file a charge this afternoon.

Driving while under influence of intoxicating liquor after a previous conviction of such can be regarded a felony, punishable by either a fine, a jail or a penitentiary sentence, or by both.

Rivera was arrested both times by city policemen and transferred to the county jail.

Rivera was driver of a 1938 Chevrolet involved in an accident about 7 o'clock last night at Avenue S and Twenty-third Street. Eulaha Ruiz, a passenger in the car driven by Rivera, was taken to Battenfield Hospital by Bell ambulance.

Driver of a 1953 Dodge truck involved in the accident was Abel Rodriques Salivor, 51, of general delivery, Snyder, police said.

BIRTHS

A son, Donald Glenn, was born Tuesday in a Big Spring hospital to Mr. and Mrs. Melvin Montgomery, 3710 Dalton Drive. The baby weighed 7 pounds at birth.

Nolan Watson Named Director Of IPPAA

Nolan Watson, president of the West Texas State Bank, has been appointed a member of the board of directors of the Independent Petroleum Producers Association of America.

Watson was informed of the appointment in a letter this week from W. M. Vaughey, president of the association.

The appointment was made by unanimous vote of the board of directors of the association in a meeting Tuesday and Wednesday in Tulsa, national headquarters of the association.

HOSPITAL NOTES

The following admissions and dismissals at Battenfield Hospital are those whose names were released by the hospital:

Admissions: John R. Selman, Hermleigh; Miss Patsy Land, 2707 Avenue R; Gary Don Barnett, 204 Thirtieth Street, admitted yesterday.

Dismissals: Gary Don Barnett; Mrs. G. W. Compton and baby, 1400 Avenue R; Eulalio Ruiz, Snyder.

Merger Plans To Be Aired Before CAB Later In January

WASHINGTON (AP) — The Civil Aeronautics Board today scheduled a prehearing conference for Jan. 28 on the possible merger of Continental Air Lines, Denver, and either one of two Dallas airlines, Pioneer and Braniff.

At the same time Braniff asked the board to deny motions of Continental and Pioneer for dismissal of the CAB-instituted Continental-Braniff merger investigation. Continental and Pioneer have asked the board for permission to merge.

Braniff said the board recognized that a problem exists concerning Continental, and that a merger with Braniff might be the solution. Braniff added it is ready to adhere to any time schedule which Continental and Pioneer believe they can meet with respect to their merger agreement.

Evidence On Jencks Given

EL PASO (AP)—Martin Brooks, an Arizona mine foreman who testified he heard Clinton Jencks declare, "I am a Communist and and proud of it," takes the stand again today in the federal court trial of the union leader.

Jencks, former international representative of the Mine, Mill and Smelter Workers Union, is on trial charged with falsifying a non-Communist affidavit under the Taft-Hartley law in 1950.

He is accused of swearing he was neither a Communist nor affiliated with the Communist party. At the time he was president of Local 890 of the Mine-Mill in the Silver City, N.M., area.

Brooks said Jencks made the statement when they were neighbors in Hanover, N.M., in 1947.

Earlier, the Rev. Jerry Wilburn Ford, negro minister now of Los Angeles, was brought to the stand by the government.

Ford told of joining the Communist Party in 1946 in Salt Lake City and later becoming an FBI undercover agent. He said that Jencks was a top New Mexico Communist in 1948 and 1949.

Ford testified the defendant was active in the Communist Party in New Mexico and in charge of a party labor board; that Jencks pledged at Communist meetings to recruit Communists from his union to help finance Communist activities; that Jencks' associates stressed that Soviet Russia "represents what the government could be within control of the people," and that Jencks campaigned for Congress as a Progressive party candidate backed by New Mexico Communists.

Ford said he first met Jencks in July, 1948, at a founding convention of the New Party, the name the Progressive Party took in New Mexico. Records show Jencks polled 805 votes in his race for Congress.

Angeloan Must Stand Trial

SAN DIEGO (AP)—A marine from Texas, Pfc. L. C. Kemp of San Angelo, Tex., has been ordered to trial by a general court martial for the slaying of a gardener at the Marine Corps Recruit Depot here.

Maj. Gen. John T. Walker, MCRD commander, yesterday ordered Kemp to stand trial for the Dec. 2 shotgun slaying of Irving V. LeFever, 28, of suburban EML Cajon.

A court of inquiry which investigated the shooting recommended the trial, date of which has not been set. It will be open to the public.

Kemp testified during the inquiry that he shot LeFever in a dispute over respect to the U. S. flag. He said Kemp refused to halt and came at him with closed fists.

The Texan is confined to the depot brig where he has been held since the shooting.

Mrs. Hubert Robinson, 2502 Avenue F, was taken to Root Memorial Hospital in Colorado City by a Bell ambulance early today.

$375 Is Given In Polio Drive

More than $375 had been turned in by this morning in the Scurry-Borden County March of Dimes.

The polio drive here will be highlighted tomorrow night from 7 o'clock to 8:30 o'clock when workers will conduct a porchlight campaign in Snyder.

One group of workers, the American Legion and Veterans of Foreign Wars Auxiliaries, conducted part of the porchlight drive last night. Two groups canvassed Highland Terrace, Highland Park, and Towle Place and raised $211.06.

Members of the auxiliaries said that any persons in those additions who were not home during the drive last night and who wish to contribute to the fund may do so by contacting Mrs. Dillard Pope at 3-5486 or Mrs. Bill Butler at 3-6638.

Forest Sears, campaign chairman for the Dimes drive in the two counties, said that other areas of the city will be covered in the Friday night event. He asked that those wishing to contribute to the fund leave their porchlights on during the designated time.

Contributions are being accepted at the Snyder National Bank and West Texas State Bank.

Bids Opened Today By Court On Polar Road

About 20 persons representing contracting firms were present this morning is session of the commissioners court which opened bids on construction of 10.1 miles of paving on the Polar Road, about eight miles north of here.

Bids were still being opened and read shortly before noon, and deliberation of the court was expected later in the day.

Cullen Has His Say About New Amendment

HOUSTON (AP)—Oilman Hugh Roy Cullen, who picked up the tab for much of the expense of the 1952 Eisenhower presidential campaign, says failure of Congress to pass the Bricker Amendment would wreck the Republican party.

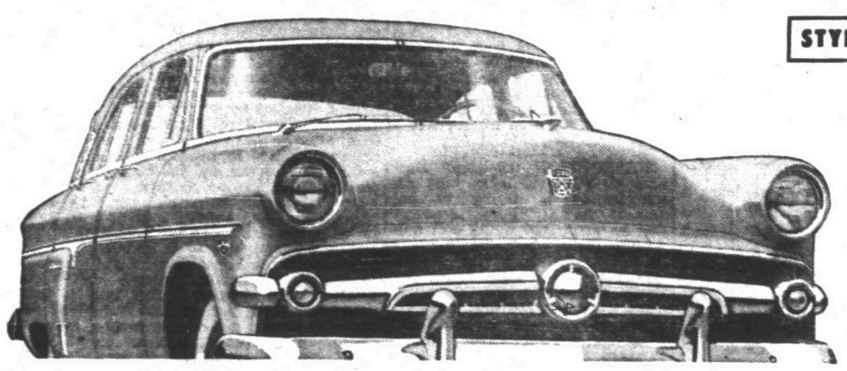
STYLE DIVIDEND



With its trend-setting advances . . . Ford's worth even more for '54

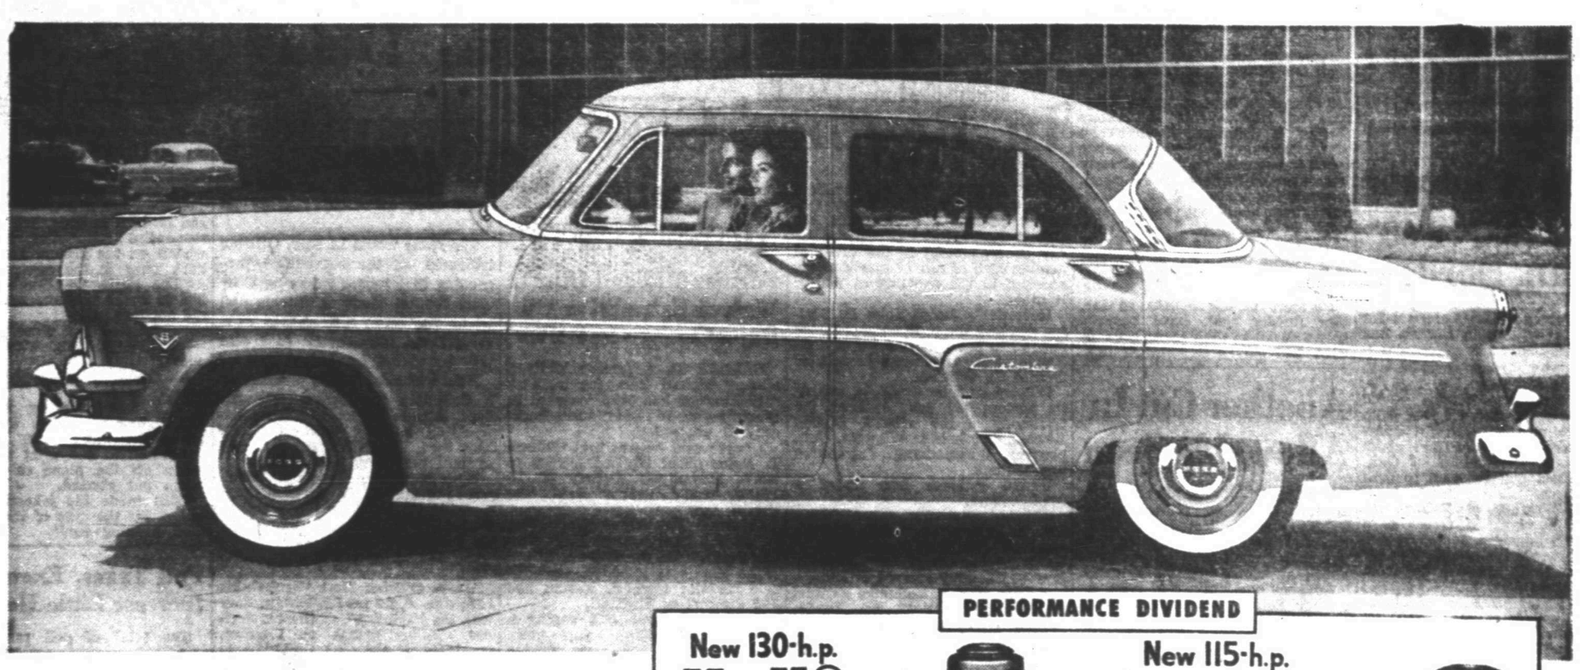
3 New Body Styles . . . 28 models

Ford offers you three brand *new* body styles in its line of newly created models. There's a new transparent-roofed Crestline Skyliner . . . a sparkling new Crestline Fordor . . . and a smart new Customline Ranch Wagon. There are 28 models in all, for each of Ford's 14 body styles is available with the new Y-block V-8 or the new I-block Six engine.

New Astra-Dial Control Panel

It's designed both for beauty and practicality. The speedometer is placed high on the panel where you can quickly spot the figures almost without taking your eyes off the road. Like the '54 Ford's beautiful new upholsteries and trim, the Astra-Dial Control Panel is color-harmonized with the sparkling new outside body color of your choice.

It's the Dividends that make it Worth More

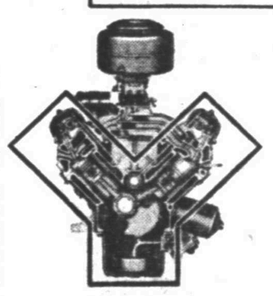


PERFORMANCE DIVIDEND

New 130-h.p. Y-BLOCK V-8

The Y-block V-8 has an extra-deep skirt extending below the crankshaft to give greater rigidity for smoother, quieter operation, longer engine life.

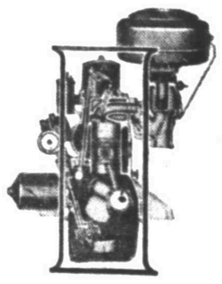
Free-turning overhead valves, Double-Deck Intake Manifold and high-turbulence combustion chambers give brilliant new responsiveness. These, plus low-friction design and Automatic Power Pilot give you 18% more power, greater economy.



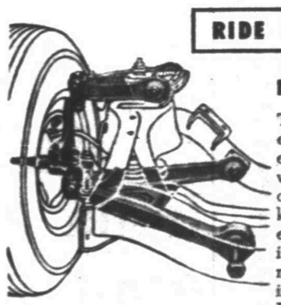
New 115-h.p. I-BLOCK SIX

Like the new V-8, this new Six has an extra-deep block for greater rigidity . . . smoother, quieter performance . . . and longer engine life. It's the industry's most modern Six.

Free-turning overhead valves, high-turbulence combustion chambers, low-friction design and Ford's Automatic Power Pilot help produce 14% more power—with finer performance on even less gas.



RIDE DIVIDEND



New Ball-Joint Front Suspension

This revolutionary new suspension is the greatest chassis advance in 20 years . . . and it's exclusive to Ford in its field. It gives front wheels greater up and down travel to smooth out the going on rough roads. And it helps keep the wheels in true alignment for consistently easy handling. Movement of the wheels is on ball joints whether in up and down motion, as wheels travel over rough spots, or in steering motion as wheels turn right or left. Ball joints are sealed against dirt and water. Lubrication points are cut from sixteen to four.

DIVIDEND IN DRIVING EASE

Ford offers five optional power assists* you might expect to find only in America's costliest cars

Master-Guide power steering does up to 75% of your steering work, yet leaves you with natural steering "feel" on the straightaways. *Swift Sure Power Brakes* do up to one-third of the work in stopping. *Fordomatic Drive* gives torque converter smoothness and the "Go" of automatic mechanical gears. And only Ford in its field offers *Power-Lift Windows*, both front and rear, that open or close at a button's touch . . . and a *4-Way Power Seat* that adjusts up and down, as well as front and back, at a touch of the controls. They're all worthwhile optional extras available in the 1954 Ford!

*At extra cost.

No car in the low-price field has ever offered so many "Worth More" features as the '54 Ford. In addition to *all* the features that have already established Ford as the "Worth More" car, you now get a host of brand new dividends. These include a choice of two new deep-block engines . . . the most modern engines in the industry. You also get Ford's new Ball-Joint Front Suspension . . . beautiful new interiors . . . and styling that will make your heart beat faster.

And, remember, Ford also makes available to you *all* the optional power assists . . . features you might expect to find only in the costliest cars.

If you have not yet seen the new Ford models for 1954, come in and inspect them today. Then Test Drive a '54 Ford . . . and once you do, you'll want to drive it home!

More than ever . . . THE STANDARD for THE AMERICAN ROAD

'54 FORD Come in . . . Test Drive it today! P.G.A.

Care of a diffenbachia picta plant is one of Mrs. Margie Callaway's daily duties at the school administration building. The plant was bought at a dime store soon after the building was completed about two years ago. A small pot plant at the time, it now stands about three and one-half feet high.

SOCIETY SCRIBBLINGS

Temporary Job Has Lasted Long Time For Snyderite

Mrs. MARGIE CALLAWAY, a secretary at the school administration office, accepted several years ago what she considered to be a temporary position. "You know how it is," she laughed. "You think you'll work for about a year, and then you just never find the right time to quit."

In her case, Mrs. Callaway said, she took a job as a secretary in the school superintendent's office at the beginning of the oil boom, intending to work just through that school term. As it turned out, the end of school had no effect on her position. The office work continues right through the summer months which are spent getting ready for the fall term.

Until the new administration building was completed almost two years ago, Mrs. Callaway said she and Miss Thelma Leslie, the other secretary, shared the same desk, "and it wasn't too large a desk," she remembers. She laughed, saying the separate desks and room they have now at the new building could almost be compared with a move from a one room apartment into a large house.

Naturally, as the school system grew it caused an increase in Mrs. Callaway's work. This she doesn't mind, for she thoroughly enjoys office work. The constantly changing work connected with her job she considers most interesting. "Things never get in a groove," she explains. There are quite a few times when she plans to finish some work the next day and finds that it won't be touched again for two or three days.

She enjoys meeting the public but misses the contacts with teachers and students she enjoyed in the old high school.

Mrs. Callaway's home before her marriage to a Texan was in Kansas. She has no fault with her adopted state, and compared our cold spell this week with winters in Kansas. However, it is a more constant cold there, as contrasted to the fluctuating temperatures of winter months here.

Mr. Callaway is district manager of Lone Star Gas Co., and he, their son, John Lee, and Mrs. Callaway's mother complete the household.

Hobbies for the family? Right now they are all enjoying a new television set. Mrs. Callaway said they have the customary trouble most owners have with snow in this fringe area, but usually at least one channel will give clear reception. The chief difficulty they have with their set, she admitted, is that it is so much easier to turn on than off.

Helps For Homemakers

Send your questions to "Helps for Homemakers," Snyder Daily News, or call 3-5488.

I make apple dessert often and would like to have a recipe for apple dumplings. B. L.

APPLE DUMPLINGS

6 all-purpose apples
Syrup
1 cup sugar
2 cups water
2 drops red food coloring
½ teaspoon cinnamon
3 tablespoons butter or margarine
Pastry
2 cups all-purpose flour
¾ teaspoon salt
2-3 cup shortening
1-3 cup cold water
Filling
½ cup sugar
1½ teaspoons cinnamon
1 tablespoon butter or margarine

Make a syrup of the sugar, water, cinnamon, food coloring and butter. Boil together for two to three minutes.

To prepare pastry, sift together flour and salt; cut in shortening; add water to make stiff dough. Roll out and cut in squares.

Pare and core apples; place on pastry squares and fill cavities with mixture of one-half cup sugar and one and one-half teaspoon cinnamon. Dot with butter.

Bring corners of pastry over cavity and seal. Place in baking dish and pour syrup over apples. Bake in 400 degree oven for 45 minutes. Baste with syrup about 10 minutes before removing from oven. Serve hot or chilled, with or without cream.

Dumplings are the kind of dessert most enjoyed with a light dinner or lunch, since they are hearty fare.

Girls Are Picked To Represent Troop 14

Tommie Jean Evans and Jeannette Mowery were elected to represent Girl Scout troop 14 on planning boards at the troop meeting Wednesday afternoon in the home of Mrs. W. L. Mowery, 109 Milburn.

Members present also held a discussion on leatherwork.

Jeanette Mowery and Patsy Martin served cold drinks to Betty Marie Station, Jan Carey, Tommie Jean Evans, Helen Jo Ivison, Claudia Woolsey and Margie Land.

Simple Qualities Are Putting Actress Grace Kelly On Top

By BOB THOMAS

HOLLYWOOD (AP) — It's not hard to see why Grace Kelly is one of the fastest rising young stars in recent Hollywood times.

1. She is blonde and beautiful.
2. She can act.

This unusual combination has brought her a series of choice roles, generally as a wife. She was Gary Cooper's spouse in "High Noon," Ray Milland's in "Dial M for Murder" and will shortly be William Holden's in "The Bridges at Toko-ri." She was also the wavering wife in "Mogambo."

Her present role in "Rear Window" is her only departure. She plays Jimmy Stewart's sweetheart.

"I hope I don't get typed," says Grace, who is unmarried. She has been a pretty cool character in her film roles so far. But things are warming up for her in "Rear Window." She has some smooching scenes with Stewart which Alfred Hitchcock says are the hottest he has directed since the famous love match of Ingrid Bergman and Cary Grant in "Notorious."

BUSTLE RUFFLES . . . New note in a printed pique swim suit designed by Handler.

Elephants often live to be about 70 years old.

"They certainly ought to be the closest love scenes of all time," observed Grace. "The camera has been inches away from our faces. The other day I asked if my hair needed fixing. Hitch told me my hair wasn't in the picture; just my face. Can you imagine how it will look on the wide screen? Immense!"

Grace seems to talk in the tones of an English lady, but she actually is a Philadelphian. She was born there 25 years ago, her father being John Kelly, a well-known building contractor. Show business was in the family, however. Her uncles were playwright George Kelly and Walter C. Kelly, "The Virginia Judge" of vaudeville.

An independent gal, Grace made her way up on her own. She studied two years at the American Academy of Dramatic Arts, then won a role in a New York show, "The Father," with Raymond Massey. Twentieth Century-Fox picked her for a role in "14 Hours."

"Yes, I played a wife in that one too," she recalled. "I was supposed to be getting a divorce, but my husband was caught in the traffic jam of people watching the man who was going to jump off a building. The experience got us back together. The critics couldn't see how this had anything to do with the main plot. The picture lost a million dollars.

"Twentieth offered me a contract, but I didn't think I was ready for it. I though I needed more training in the theater."

So she turned her back on the Hollywood gold and returned to New York. After some stage and TV work, she did "High Noon." That brought forth the offer for "Mogambo," which was accompanied with a term contract. Did she think she was ready for it then?

"No," she admitted. "But the part was good, and I was eager to see Africa. So I signed." Since then all her pictures have been loan-outs, and MGM has announced no plans for her.

Morningside HD Club Adds New Member

Mrs. A. B. Taylor was introduced as a new member of the Morningside Home Demonstration Club at its meeting Tuesday.

All old and new business was completed during the afternoon.

Refreshments of cake and coffee were served by the hostess, Mrs. Joe A. Bourgoyne, 3206 Fortieth Street.

Five members attended.

Tigers Still On Home Court, Meet Vernon In District Tilt

The Snyder Tigers will attempt to move up in the District 1-AAA cage race at 8 o'clock tonight when they host Vernon here in the first of two nights of loop games.

The B teams will open the night's play at 6:30 o'clock.

The Tigers now are tied with Vernon for third place, each team with a 1-1 record. Snyder has defeated Big Spring and lost to Lamesa, while Vernon has beaten Breckenridge and fallen to Plainview. Tied for top place are Plainview and Sweetwater, undefeated in two games. Lamesa is next with a 2-1 record.

Vernon holds a 7-6 season record. Its wins include the 55-42 defeat of Breckenridge, 75-36 over Childress, 39 - 35 over Lawton, Okla., 57-30 over Rotan, 53-25 over Archer City, and 46-34 over Lawton. It has lost to Plainview 57-37, Wichita Falls 43 - 34, Burkburnett 40-39, and Chillicothe 38-28. Snyder has played none of those teams.

Jack Bolton paces the Lions, closely followed by Gene Miller. Vernon is the team that last year won a playoff of this district after five teams, including Snyder, tied for the top at the end of the season. Vernon then won regional and took third place in the state.

The Tigers now have a 7-10 season record and have scored 717 points to opponents' 856. Jimmy Bennett leads scoring with 194 points, while Reagan White is next with 134 and Ray Courtney third with 130. Alan Snead, with 113 points, is the only other player who is close behind.

Steve Blair is still top free thrower of the team with an average of 78.5 per cent, which is two per cent more than he had before the last game. Most of the team members improved on free throws in the Levelland game Tusday night, which the Tigers won 66-55. Bennett now has 68 per cent, compared to 67.7 before that game. Others improving were White from 60.7 to 61.1, Don McNew from 63.1 to 63.3, and Snead from 37.5 to 48.9. Courtney's average fell from 66.6 to 61.1. The team average is now 62.1 per cent.

The Snyder B team now has a 4-5 record and has tallied 401 points to 388. It is still looking for its first win from a district B team.

Billy Sellers and Jerry Taylor are tied for the leadership in point-making for that team with 94 points. Hubert O'Neal follows with 58.

Tomorrow night, the Tigers will be hosting Plainview, while Big Spring will go to Lamesa, and Vernon will be at Sweetwater.

DISTRICT STANDINGS

Team	Won	Lost	Points
Plainview	2	0	134-98
Sweetwater	2	0	103-82
Lamesa	2	1	150-128
Snyder	1	1	76-89

Breckenridge	0	3	98-127

East Texas Coach Takes Longview Job

LONGVIEW, (AP)—The winnin'est coach in college football—Catfish Smith—has decided to go back to high school coaching, here in this East Texas oil center.

Catfish, christened Milburn 41 years ago, piled up a record of 30 victories, 1 tie and 2 losses at East Texas State Teachers College in three years as head coach. He won 29 of those victories in consecutive games and when Arkansas State tied his ETSTC Lions 7-7 in the Tangerine Bowl two weeks ago he had the longest winning streak in the nation.

Smith was named "College Coach of the Year" by the Texas Sportswriters Assn. Soon after the close of the 1953 season he had expressed a desire to move up to a larger college. He said frankly he wanted more money than a state teachers college could pay.

His teams won the Lone Star Conference title each of the three years he coached the Blue and Gold. The Lions became a national power among the smaller colleges and his players gained nationwide renown. Some made the Associated Press Little All-America teams.

The Catfish, who won just as consistently when he coached Mt. Vernon High School, had applied for the job as head coach at Southern Methodist when H. N. "Rusty" Russell resigned. SMU took Woody Woodward. Then recently, soon after resigning at ETSTC, Smith expressed a desire to try his hand at Texas A&M, where coaches have a notoriously rough time. Many thought he had an inside track at Aggieland.

But Longview school Supt. R. E. Layton yesterday announced that Smith had signed a 5-year contract at $7,500 annually plus a $1,500 expense account.

Layton said Longview was also hiring Jim Gray, star quarterback of Smith's championship ETSTC eleven, and ETSTC Guard Jim Pennell, a Sherman product.

Last season, Gray broke the collegiate touchdown pass record formerly held by Vito (Babe) Parilli of Kentucky. He passed for 53 touchdowns during his collegiate career, 51 in regular season play to top Parrilli's record of 50. Gray will coach Smith's backfield. Pennell will coach the line. Two present Longview assistants, Bill Hawkins and Bobby Collier, will stay on.

Smith said yesterday he liked Longview and that his wife and two sons liked it, too. "I felt personally I'd be happier in Longview than anywhere else," he said.

Last season Longview won 3 and lost 7 games in football.

Smith, who coached at Carey, Borger and Mt. Vernon, before going to ETSTC as assistant to the late Bob Berry in 1950, would never enjoy a season like that, his friends say.

He's never had one.

Houston College Is After More Grid Games

HUNTSVILLE (AP)—Sam Houston State Teachers College wants two more football games to complete its 1954 schedule.

Bearkat Coach Paul Pierce said yesterday he had open dates on Sept. 1 and Sept. 18 and would be willing to play at home or away.

Radio-TV Rights To Golf Tourney Sold

HOUSTON (AP)—Radio and television rights for the $30,000 Houston Open Golf Tournament, March 4-7, have been sold to Houston Stations KPRC and KPRC-TV.

Pat Greenwood, president of the sponsoring Houston Golf Assn., said the income would offset the $1,500 the association must pay the city for use of Memorial Golf Course.

Baseball Club Owners Have Holdout Worry

NEW YORK (AP) — Major league baseball club owners were in anything but a happy frame of mind today as they scanned the headlines looking for new holdouts and wondering just what their own stars would do with the contracts they were offered.

Bob Carpenter of the Philadelphia Phillies and Clark Griffith of the Washington Senators already were having their troubles and contracts had been in the mails only a few days. Some clubs hadn't even sent theirs out.

Carpenter had a fourth unsigned contract — this one from Curt Simmons, his ace left-hander — on his desk, while Griffith was wondering how he was going to get Mickey Vernon, the American League's No. 1 hitter last year, into the fold. Vernon returned the first offer.

On the more optimistic side, both the pennant winners — the world champion New York Yankees and Brooklyn Dodgers — announced their first players in the fold.

The Yankees tucked away the signed documents of Harry Byrd, the pitcher they obtained from the Philadelphia Athletics last month.

Byrd is supposed to give the Bronx Bombers the insurance they need for a sixth straight flag. Apparently he was so happy to pull out of a seventh-place club that he sent the contract back posthaste.

The Dodgers reached an agreement with Captain Pee Wee Reese, who turned down the manager's job before it was given to Walt Alston.

No terms were revealed, but Reese was said to have received about $32,000 last season and more this time.

The Cleveland Indians and the Boston Red Sox each announced the signing of one player. The Indians added infielder Bill Glynn to their list of contented toilers, while the Red Sox hired 37-year-old Joe Dobson, who was given his unconditional release by the Chicago White Sox last season.

The Philadelphia A's signed pitchers Bob Trice and Carl Scheib, but catcher Joe Astrogh, who is employed by the club as a ticket seller in the off-season, said he was a holdout, adding that he didn't expect much trouble in coming to an agreement.

Rules Group Won't Give Up One Platoon

SARASOTA, Fla. (AP) — College football must keep its one-platoon system and must get rid of such practices as the faked injury and the sucker shift.

This verdict was handed down yesterday by the Football Rules Committee of the National Collegiate Athletic Assn.

The committee turned down all efforts to liberalize the limited substitution rule which went into effect last season and proved immensely popular with football fans.

The most surprising development of the meeting was the strong condemnation of such "nonethical" practices as injury faking to stop the clock and false starts intended to pull the opposition offside.

In what appeared to be mainly a slap at Notre Dame, the committee unanimously approved a resolution declaring that injury faking is "dishonest, unsportsmanlike and contrary to the rules."

Notre Dame players were accused last season of feigning injuries in the Iowa game to stop the clock and gain time for touchdowns in the closing seconds of each half. These scores enabled the Irish to escape with a 14-14 tie.

During the 1952 season Notre Dame figured most prominently in several sucker shift incidents. Last season, there were reports of such incidents in the Southeastern and Missouri Valley conferences.

The Rules Committee said that, for the present, it would "rely on the integrity of the coaches and players rather than upon further legislation" to wipe out these unethical procedures.

Dayton Not To Hold Its Title Long

NEW YORK (AP)—The University of Dayton basketball team probably will have to give up its lease on the title of "giant killers" after what happened last night.

The Ohio Flyers blew a six-point lead in 80 seconds and bowed to Western Kentucky 79-75 in a triple overtime battle. The victory was No. 15 for Western, longest unbeaten streak in the nation.

Just a year ago Dayton wrecked Seton Hall's string of 27 triumphs, longest ever compiled by a major college in a single season.

The Flyers led the fifth-ranking Hilltoppers until the final three minutes of regulation time. In the first overtime they built a 64-58 advantage with 80 seconds to play. But Western fought back and tied the score on Jack Sallee's driving jump shot with two seconds left.

Tom Marshall collected a field goal and two foul shots early in the third overtime and the Flyers never again caught up.

Oklahoma City University, No. 8, whipped Houston 70-62 in the only other action involving ranking teams. Arnold Short scored 18 points in the first quarter and ended the night with 41 for the Oklahomans.

Bradley, coming fast after three early season setbacks, scored a surprisingly easy 76-59 decision over St. Louis for its eighth straight triumph.

Both the Navy and the Army won. The Middies beat Rutgers 75-61 after trailing at halftime, and the Cadets outclassed Swarthmore 74-41 with Bill Hannon scoring 31 points.

Syracuse, the only team to beat Cornell this season, did it for the second time, 71-69, on a 20-foot set shot by Mel Besdin with six seconds to play.

Penn State defeated West Virginia 74-66 with a rally in the last five minutes after the lead had changed hands 10 times.

Bob Schafer, one of the country's most prolific scorers, collected 37 points as Villanova breezed past Kings College of Pennsylvania.

Many centipedes are luminous.

Dolphins are a form of whale.

A&M May Have New Coach By Tomorrow

COLLEGE STATION (AP)—A meeting of the Texas A&M College Athletic Council today may produce a new head football coach for Aggieland tomorrow.

The college announced last night that the Texas A&M System's board of directors would meet tomorrow to consider, among other things, recommendations of the college's athletic council.

The council was to meet today in a session which Dean W. L. Penberthy, council chairman, said would receive reports on contacts made with various coaches at the NCAA meeting in Cincinnati last week.

Athletic Director Barlow Irvin and Penberthy attended the NCAA meeting and Irvin was expected to make some recommendations today. Earlier both Penberthy and Irvin had said today's session probably would result only in narrowing the field.

It became one narrower yesterday when Milburn "Catfish" Smith, sensationally successful coach for the East Texas State Lions, wired the athletic council that he had decided to coach at Longview, Tex., High School instead of keeping his application before the Aggie board.

The leading candidate for the job is believed to be J. V. (Siki) Sikes, Aggie grid star of the '20s and until recently coach at Kansas University.

Other candidates include H. N. "Rusty" Russell, former Southern Methodist head coach. It is known that Aggie exes also have talked to Army Coach Red Blaik.

The Aggie coaching job was vacated recently by Ray George who quit to enter what he called a non-coaching profession. There had been some grumbling about Aggie ex-students over George's failure to produce a championship eleven.

George succeeded Harry Stiteler three years ago. Stiteler resigned after getting two black eyes from an unknown assailant near Houston's Shamrock Hotel. Details of the affair were never made public. Stiteler, a former A&M pole vault and football star, had been highly successful in the high school coaching field before going to A&M.

A&M's system of one-year contracts to football coaches, reported under fire from some ex-student circles, was started after ex-students bought up the contract of Homer Norton after the 1947 season.

Norton, who had been very successful at little Cenetenary College in Shreveport, La., was followed into football oblivion by Stiteler.

Sikes, who quit at Kansas because of alumni feelings over his failure to produce a 1953 winner, is generally regarded as a top prospect because he is an old Aggie.

Russell, the other chief candidate, quit at SMU because of what he called "pressure from the fans," dissatisfied because he, too, had failed to win. He was paid in full for the three years remaining in his contract and has been coaching at Schreiner Institute, a junior college in Kerrville.

Charles Earns Crack At Title

CHICAGO (AP) — A revitalized Ezzard Charles dropped a bomb on Bob Satterfield in Chicago Stadium last night to touch off a gigantic buildup for a heavyweight title bout with champion Rocky Marciano.

Charles, who gets a chance to become the first fighter in history to regain the heavyweight crown, pole-axed Satterfield in the first minute of the second round with one of the hardest left hooks he ever has thrown.

Satterfield, outweighed 180 to 189 and a 7-2 underdog, was set up for the mighty finishing blow by absorbing a right to the midsection. As he started to bend forward, Charles' pistonlike left caught him flush on the chin.

He went over backwards and hit the canvas so hard resin dust flew. He lay lifelessly until Referee Frank Gilmer tolled out seven. Then he raised his head feebly, but he couldn't get up, and he took the full count flat on his back.

Thirty minutes later, he was still dazed and unable to remember clearly what happened. The fight was scheduled for 10 rounds. A national television audience, and 4,921 ringside customers who contributed to a net gate of $13,949.24, saw one of the cleanest, and most brutal, knockouts in years.

JIGSAW PUZZLE

Most Cities Have Definite Theme, But Not Washington

By HAL BOYLE

WASHINGTON (AP)—What in the world is Washington, D.C.?

Most great cities of earth you can peel like an orange, and get at the heart and pulp of them.

They give even the most casual visitor a definite feeling. New York is a tower. . . . Paris is a beating pulse, and the eyes of a new love telling old lies. . . . Naples is a song in the night and bread crumbs on a tablecloth. . . .

London is stolid courage in a fog. . . . Shanghai is mystery and poverty that smiles at its own misery. . . . Calcutta is a naked beggar pleading for alms beneath the shade of a Victorian monument. . . . Berlin is a question mark, saluting itself. . . . Bombay is a tired mongoose fighting a bored cobra, while each waits for the Point Four program to give it a better way of life. . . . Athens is a blue sky and antique stones and wine with a resin taste, just as it tasted when Socrates drank it long ago. . . .

Yes, most great cities are a definite feeling. But what in the world is Washington, D.C.? I know it is the capital of the United States, and that George Washington was able to sleep better near here than he was at Valley Forge. But what else?

I have come here many times, but all I get from it is a feeling of puzzlement. To me it is a vast jigsaw puzzle made up of thousands of sights and impressions, but I have never been able to fit them into a pattern, and I am beginning to doubt if there is a permanent one. This is a political city, and the only permament thing in American politics is the next election.

Every once in a while I have a feeling I'd like to go out to the Lincoln Memorial and ask, "Mr. Lincoln, tell me about this place." But I'm afraid the only answer would be a sigh. After all, they shot Lincoln here.

What in the world is Washington, D.C.?

Well, it isn't America any more than New York is. . . . It is a mass of officials kneeling with their ear to the ground, and each one whispering nervously to his neighbor, "What are the grass roots saying?" . . . It is a place where most people come to from somewhere else they still call home . . . a camp of transients who have pitched stone tents here for a purpose, then move on.

It is a two-way escalator where politicians pass each other while carrying out the will of the people . . . gladly on the way up . . . wryly on the way down. . . . It is full of the front-page faces of yesterday, the faces of those who mistook what the grass roots were saying and no longer want to go back home . . . and they sit in their clubs and talk with old cronies of forgotten battles the voters no longer care about.

What in the world is Washington, D.C.?

Above all it is to most of those here a job . . . a warm desk out of the rain . . . a reach for prestige . . . the greatest fulcrum of power the universe has ever known. . . . A fellow who comes here and doesn't want anything is a tourist.

It is a government girl saying, "Maybe if I'd stayed in Dubuque, I'd be looking after a husband now instead of looking foward to a pension." . . . It is a lobbyist reaching for the dinner check and saying, "Well, congressman, as I was saying, it is only what the people want." . . .

But he doesn't say whose people. . . . Nothing is done here without invoking the name of that great mystery—"the people."

"Does it never change?" a visitor asks. And a cynic answers, "Sure. It changes from organized chaos to a confused optimism—depending on how you look at it."

What in the world is Washington, D.C.?

I still don't know. But I do know that the only thing that holds it together are the dreams of 161 million Americans—and a small ballot box.

Barbara And Husband Are Honeymooning

PALM BEACH, Fla. (AP) — Mr. and Mrs. Porfirio Rubirosa—she's better known as Barbara Hutton, the heiress—were in this Florida resort city today for a belated honeymoon.

They made the trip from New York yesterday in a chartered 88-passenger Constellation, a wheelchair and a limousine.

The bride of two weeks hobbled off the plane wearing a smart black outfit, a string of pearls and a cast on her left ankle. She broke the ankle after their wedding Dec. 30 and that forced them to delay their trip South.

Babs used her wheelchair to get from the plane to a waiting auto for the drive to Casa del Sur, home of Mr. and Mrs. Alfredo Cernadas. They will be guests there until they continue to the Dominican Republic.

Rubirosa, a Dominican diplomat, said they plan to stay here about five or six weeks.

14-Year-Old Boy Is Held On 21 Charges

BALTIMORE (AP) — A 14-year-old Negro boy who escaped six times from boys village and once from a Baltimore police station was held for the grand jury yesterday in $21,000 bail on 21 burglary charges.

The youth was charged with stealing $2,400 in merchandise and $1,600 in cash between July 8 and Dec. 29 last year. The biggest alleged haul was $1,500 in cash from a pawnship.

Among the other articles he was accused of stealing were 62 watches, 20 pounds of hot dogs, two pistols, four portable radios and an interoffice communications system.

Cost Of High Living Causes Embezzlement

SYRACUSE, N. Y. (AP)—It's not the high cost of living that causes bank embezzlements. It's the cost of high living.

That's the explanation of a Washington, D. C., certified public accountant, who said last night 110 banks in 34 states had been forced to close during the last 20 years because of embezzlements.

Lester A. Pratt told the Central New York Conference, National Assn. of Bankers and Auditors:

"Desire takes on many forms, but for the most part they can be grouped under the heading of 'slow horses and fast women.'"

Soup Deserves To Be A Main Dish, Achieves Party Elegance

Soup — the rich, the beautiful kind of soup that the Mock Turtle sang about to Alice — deserves to be a main dish.

This is the season of the year, too, when soup makes a beautiful entree.

Sing of soup, or speak of it, and we always recall a soup bone simmering four hours in the pot while heaps of graden loot were cubed and sliced on the chopping board, each to be added according to some ritual.

If the soup bone was a large one with a rich heart of sweet marrow, it always seemed like the second pot of soup, the next day's request report was even better than the first.

Just such a soup will make any family of hearty appetites happy.

With less time and with ingenuity as the garnish, soup — right from a can—will make any lunch or dinner a special one. That even goes for the Sunday evening company supper. A satin tomato bisque flecked with bits of crab and flavored with a hint of sweet marjoram will give new elegance to the chafing dish.

POPCORN OAK

As for that matter, vegetable soup takes on a party flavor when steaming pottery bowls of it encircle a lazy susan of cheese and crackers and there's a big bowl of buttery popcorn nearby for garnish.

Tasty vegetable soups come from the grocery shelves, and almost every cook has a way of adding her own touch to these—rich stock left from the turkey or chicken and vegetable juices drained from the cans and cooking are thickly stored in the refrigerator.

But if the vegetable soup is to be homemade, there's either the soup bone method, or a recipe something like this very successful one:

VEGETABLE SOUP

1 pound lean soup meat
1 tablespoon bacon fat
1 large onion, chopped
1 green pepper, chopped
1 cup sliced potatoes
½ turnip chopped
1 cup diced carrots
2 cups water
1-3 cup chopped celery
1 tablespoon chopped parlsey
salt and pepper
2 cups corn, cut from ear
1 cup chopped tomatoes

Choose a piece of beef with no fat. Heat bacon fat in a soup kettle, and in it sear meat, onion and green pepper until onion begins to color. Add potato, turnip and carrots, cook 2 minutes, then add water and remaining ingredients, except corn, celery and tomatoes. Cover and let simmer for 3 to 4 hours, add celery, corn, and cook another hour. Remove meat and skim off all fat. Add tomatoes and simmer 5 minutes before serving.

If there is canned soup on the pantry shelf, there's always a hearty meal on short notice. Combinations like this one, are interesting:

HEARTY LUNCHEON SOUP

3 strips bacon
1 tablespoon butter or margarine
½ teaspoon grated onion
8 crispy crackers
1 can tomato soup
1 can pea soup
1 can water
1 can milk

Fry bacon until crisp, drain on paper toweling, and crumble into pieces. Soften butter or margarine, mix in onion, and spread on crackers.

Mix tomato and pea soup. Gradually stir in the water and milk. Heat, stirring constantly, until soup comes to a boil.

Place crackers under broiler and toast until lightly browned. Pour soup into 4 large bowls, place 2 crackers on top of each bowl, and sprinkle in crumbled bacon.

SHORT ORDER OYSTER STEW

Use cream of celery as the base for oyster stew some busy day. Heat about a dozen or more oysters and ⅓ cup oyster liquor in 2 tablespoons butter, until oyster edges begin to curl. Add a dash of black pepper and paprika. Stir in one can of cream of celery soup blended with 1 soup can measure of milk. Heat well. Serve immediately.

Make up a platter of sandwiches, American cheese and lettuce on whole wheat bread, peanut butter and lettuce on white bread, and serve with Tomato-Roni soup.

TOMATO-RONI SOUP

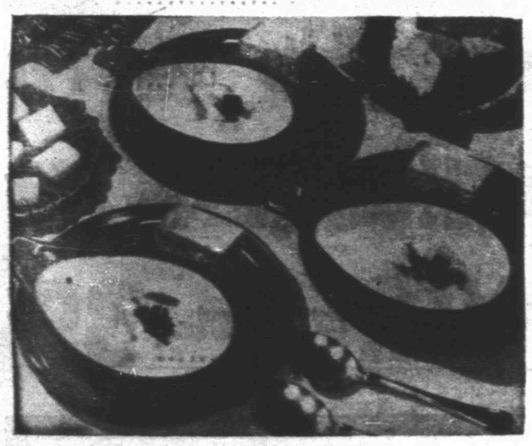
No. 2 can tomato juice
2¼ cups water
2 chicken boullion cubes
¼ cup diced salami
3 ounces elbow macaroni

Combine tomato juice, water in which boullion cubes have been dissolved (use chicken stock if it's on hand), salami and macaroni in saucepan. Simmer 10 minutes. Serve hot. That was quick, wasn't it?

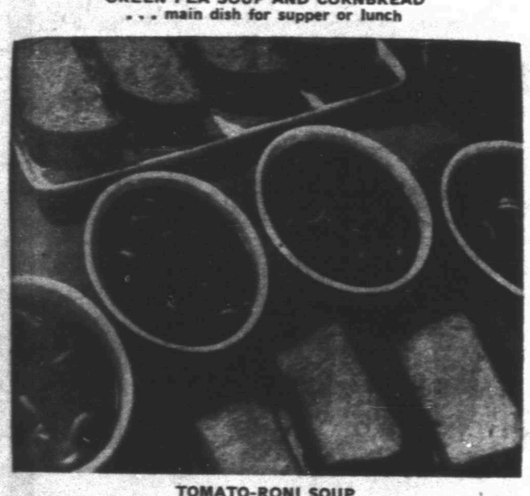
Squares of hot corn bread, plenty of butter, and big bowls of green pea soup makes a meal good for budgets suffering from holiday strain—and for appetites that have been jaded by the same strain.

Thin slivers of ham or sliced wieners may be used as a garnish for this soup, but not even that is necessary.

HEARTY LUNCHEON SOUP
. . . floats bacon bits



GREEN PEA SOUP AND CORNBREAD
. . . main dish for supper or lunch



TOMATO-RONI SOUP
. . . cheese, peanut butter sandwiches

GREEN PEA SOUP

No. 2 can green peas, drained
1 cup liquid from peas, and water
2 boullion cubes
2 cups milk
⅛ cup light cream or top milk
1½ tablespoons quick - cooking tapioca
¼ teaspoon salt
2 teaspoons grated onion
1½ tablespoons butter or margarine.

Combine peas, liquid, boullion cubes in saucepan. Bring to boil, stirring to dissolve boullion cubes. Remove from heat. Force through sieve and discard skins.

Combine puree with milk, light cream, tapioca, salt, and grated onion in saucepan. Cook and stir over medium heat until mixture comes to a boil. Add butter. Makes 4 generous servings.

Supper Elegance

A crimson satin tomato bisque, flecked with bits of delicate crab and flavored with sweet marjoram, is an elegant compliment to guests invited for Sunday evening supper.

Someone has said that bisques —those luscious soups swimming with cream and the riches of the sea—are comforting to the soul, warming to the heart. There was a time when only the accomplished cook would attempt a bisque; now anyone can achieve epicurean excellence with the aid of the condensed cream soups on the market.

SATIN TOMATO BISQUE

2 cans condensed cream of tomato soup
1½ coups milk
1 tablespoons finely grated onion
¼ teaspoon salt
⅛ teaspoon marjoram
1 6½ ounce can crabmeat, flaked
½ pint light cream

Combine the first five ingredients; bring to a boil. Slowly stir in crabmeat and cream. Again bring to a boil. Two to three tablespoons sherry may be added just before serving.

Ordinarily, we'd say please pass the crispy crackers. With tomato crab bisque, let's make it crusty French bread, hot from the oven.

Even the housewife who finds the greatest of joy in the hours spent in the kitchen has to face reality, and shorten those hours. She can make this clam bisque a main dish, in quick time, too, and no apologies will be needed.

CLAM BISQUE

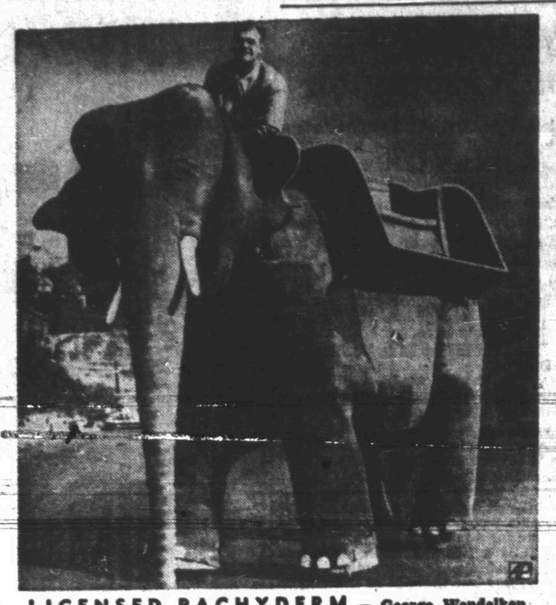
1 can cream of tomato soup
1 can cream of green pea soup
1 can cream of mushroom soup
2 cups milk
1 10-ounce can minced clams

Combine all the ingredients in a large saucepan. Bring to a boil; reduce heat and simmer for 5 minutes, stirring frequently. Makes six large bowls.

We'd like hot French bread with this one, too.

Live TV At Lubbock

LUBBOCK (AP)—Live network programs will be telecast over Lubbock's two television stations beginning about July 1, the stations announced today. KCBD-TV on Channel 11 is affiliated with ABC and NBC, and Station KDUB-TV on Channel 13 is affiliated with CBS and Dumont.



LICENSED PACHYDERM — George Wendelken, one-time "Freckles" of "Our Gang" films, rides mechanical elephant in New York street. He'll use it in the city's political wars.

Pylant Now Corporal

Marshall Pylant, the son of Mr. and Mrs. Raymond Pylant, 1708 Avenue S, has recently been promoted to the rank of corporal while serving with the Marine Corps in Washington, D.C.

Cpl. Pylant, 21, entered the Marine Corps in May, 1952. He is a graduate of Hermleigh High School. He has been stationed in Washington for about a year and is attached to an honor guard there.

Rhinoceroses often live to be about 50 years old.

In the 1950 census Florida had

KIDNEYS MUST REMOVE EXCESS WASTE

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slowdown of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

Reds Are Taking All Funds From Chinese

By FRED HAMPSON

HONG KONG (AP)—The Chinese Communists have almost killed a goose which has been laying golden eggs for a thousand years.

The eggs were the money sent back to China by Chinese living abroad. During the last 15 years the total has been as high annually as one and one third billion dollars. It averaged close to 750 million. After four years of communism it has dwindled to perhaps two million. This is an estimate. Money now is smuggled in both to circumvent the embargo and to avoid direct seizure by the Reds.

The United States embargoed dollar remittances after the Korean War. But the stoppage began before that. Most of the 11 million overseas Chinese live in Southeast Asia, far from U. S. controls. They stopped for their own reasons.

The Reds are trying to change China, to make her independent of foreign trade. So it's hard to tell how serious this loss is. To the old China it would have been ruinous. The nation's traditional unfavorable trade balance was balanced with this money.

Mainly the money stopped because the Communists couldn't keep their hands off it. They grabbed it from the home folks in donations, forced savings, taxes or bonds.

At the start they tried to woo the overseas Chinese. They gave special exchange rates for remittances. They exempted their land from confiscation. They guaranteed big dividends for their investments.

But the policy didn't last. In the second year of the land reform the Reds began to take the property. They arrested overseas Chinese who had come home to finish their lives on the farms they bought or in businesses they started from foreign earnings. These persons were tabbed landlords and despots along with other owners, and got the same treatment. Investments continued to pay dividends but they were blocked in Red banks.

Remittances fell steeply. Then came Korea and the embargo, and they practically disappeared.

The Reds needed the foreign money badly, and resorted to extortion. Some home folks were arrested and tortured. Some were coerced by constant visitations, threats, interference and sometimes sheer sleeplessness. These produced a certain number of desperation remittances but a remittance always brought requests for more and finally the source dried up.

Sesame Makes Money Crop In Parts Of State

PARIS, Tex. (AP)—Texas has just harvested the nation's first commercial sesame crop and its growers believe they have found a new source of superior vegetable oil that will help boost farm income.

One of the oldest known plants—it was grown along the Nile 1,000 B. C., and Greek warriors carried its seeds as an early forerunner of K-rations—sesame has not been grown commercially in this country because its seed pods shattered.

But the Texas Research Foundation at Renner in recent years has perfected a semi-shattering strain of sesame which permits it to be harvested by machinery and the foundation in now attempting to perfect a shatterproof variety.

Last year, 25 Texas farmers harvested 400,000 pounds of sesame seed from test plots scattered over 25 counties in the state. The seed brought the growers 11 cents a pound or a total of $46,800.

"Farmers in 25 Texas counties representing all of our major soil types have demonstrated that in sesame we have a dependable new cash crop, drouth tolerant and relatively free from insects and diseases, and yielding a superior vegetable oil which with the proper development of markets should continue to command premium prices," Roy H. Anderson, executive secretary of the Texas Sesame Feed Growers Assn., reported.

The plant produces a small seed similar to flax, yielding more than 50 per cent high quality oil, which has better keeping quality than any other vegetable oil. In addition to use in oleomargarines, shortenings and cooking oil, it can be used in the manufacture of paints, soaps, cosmetics, perfumes, insecticides and pharmaceutical products.

Sesame cake, the residue left after the oil has been extracted, makes a livestock feed with a higher protein percentage than cotton seed cake.

Navy Beginning To Put Ships Away In Mothballs Once More

WASHINGTON (AP)—The Navy says it is laying up the cruiser Quincy as the first of 50 ships to be put into mothballs.

Almost simultaneously with this announcement yesterday, Secretary of the Navy Robert B. Anderson said Russia is outbuilding the United States and other North Atlantic Treaty Organization nations in cruisers, destroyers and other high seas warships.

The Navy's budget has not been disclosed, but it is expected to take a substantial cut as part of the new look program in military expenditures, featuring more reliance on airpower and economies in other directions.

The Navy said the ships will be laid up during the next 18 months. No others were named, but there was speculation the four 45,000-ton battleships were likely candidates.

The U.S. fleet now numbers about 409 combat ships.

Guided missiles have traveled at four times the speed of sound.

Boy Pedals Bicycle 700 Miles To Home

ATLANTA (AP) — Fifteen-year-old Warren Shuey Jr. was homesick for Dixie and his grandmother's fried chicken—so he pedaled his bicycle about 700 miles from Washington, D. C., to Atlanta.

Warren said he left home on his bicycle Jan. 6 and that his parents thought he was head for school. Instead, he kept on pedaling southward.

He traveled about 100 miles a day and slept in tourist courts at night. His baggage was limited to a couple of extra shirts and his Bible.

"I read my Bible every night and then prayed that I was doing the right thing," Warren said.

Mrs. Beulah Brannon, the grandmother, said the parents have given permission for Warren to remain with her.

The Shuey family formerly lived in Atlanta.

Braniff Board Elects Leaders

DALLAS (AP)—An Oklahoma auto dealer and a veteran air transport executive head Braniff International Airways, following the death of Thomas E. Braniff in a plane crash.

In a special meeting here yesterday the board of directors elected Fred Jones, Oklahoma City, chairman of the board, and Chas. E. Beard, Dallas, president.

Braniff, who founded the airline 25 years ago, held both positions.

He was killed Sunday night with 11 others when a private plane crashed in Louisiana.

Jones, a Braniff director since 1944, is president of Fred Jones, Inc., and the Fred Jones Co., Ford-Lincoln-Mercury dealerships in Oklahoma City and Tulsa. He owns radio station KFMJ in Tulsa, is vice president of Julian Oil Co. and a director of Oklahoma City's First National Bank & Trust Co.

Beard joined Braniff in 1935 as general traffic manager at Oklahoma City and was elected a vice president and director in 1937.

Army Wants 18,000 Men During March

WASHINGTON (AP)—The Army today issued a draft call for 18,000 men in March.

The March quota is the same as that previously announced for February, when the selective service call was reduced from the 23,000 level maintained since last July.

Including the March quota, 1,643,000 men have been drafted or earmarked for involuntary service since the resumption of selective service in September, 1950.

Much Speculation By Texas Congressmen

WASHINGTON (AP)—There was a tinge of political speculation in some of the greetings exchanged by Texas congressmen welcoming each other back on the opening day of the new session.

One such salutation came to Rio Grande Valley Congressman Lloyd Bentsen Jr., who recently announced that for personal reasons he will not seek reelection.

"Hello there, governor," called a colleague, reflecting talk that sprang up with Bentsen's announcement.

A smilingly evasive reply didn't stop speculation that when the dogwood blooms—this spring in Texas, there's good chance that the tall, handsome lawmaker may toss his hat in the ring for the governorship. It's noteworthy he has several speaking engagements in Texas in the next few weeks in widely scattered parts of the state.

The thinking here seems to be that Bentsen's decision will hinge largely on what Gov. Allan Shivers does—that Bentsen probably feels he has as good a chance, or better, as anyone if Shivers does not run again.

Congressman Brady Gentry of Texas also was greeted with questions about the situation in his East Texas district—where former Rep. Lindley Beckworth of Gladewater has announced his candidacy for Gentry's seat.

Two years ago Beckworth, after 14 years in the House, voluntarily withdrew in order to make a nonsuccessful bid against Price Daniel for the Senate vacancy created by retirement of Tom Connally.

Gentry, like Bentsen, made friendly but noncommittal answers and with the new session under way hadn't announced his own plans.

Elected as chairman of the Texas Congressional delegation for the new session was Rep. Clark Fisher of San Angelo. He will preside over the regular Wednesday noon luncheons of the group and speak for them when they act as a body.

In that regard, however, the Texas delegation does not bind itself to vote as a unit as do many state delegations when controversial issues arise in party caucus. Each of the 24 men, including the two senators, is free to vote as he wishes.

As the new session convened at least three new secretarial aides came up to work for Texas members:

Zeno Phillips, who worked for years with former Texas Rep. Ed Gossett, is here with Rep. Omar Burleson of the Abilene district.

Mrs. Ann Leeder, daughter of Mr. and Mrs. Kenneth Sutton of Beaumont, is on the staff of Rep. Jack Brooks of that area. She joined his staff in Texas during the recess.

Miss Maria Suarez of Fort Worth is working with Rep. Wingate Lucas of Grapevine.

John Goldsum, who has been here for years as an aide to Rep. Clark Thompson of the Galveston district, has joined the staff of Sen. Price Daniel. He was a reporter in Victoria before coming to Washington.

Difference Of Lodge And Vishinsky Is Told

DALLAS, Tex. (AP)—Ambassador Henry Cabot Lodge Jr., the United States' chief delegate to the United Nations, in Dallas last night, gave the difference between him and Andrei Vishinsky, the Russian chief delegate.

"Vishinsky is an individual who follows instructions regardless of their nature," Lodge said. "He is very closely held."

"I'm told: 'Now, Lodge, you know what the policy is. Don't be running to Washington all the time.'"

Class Of Rich Makes Problem For Russia

By TOM WHITNEY
AP Foreign Staff

The possession of wealth is creating problems for some members of the growing class of rich persons in the Soviet Union, the Moscow press indicates.

A class of well-to-do citizens exists in Russia mainly as a result of liberal rewards to scientists and military men whose work is highly regarded by the government. The wealth, in turn, has attracted social parasites.

Moscow newspapers in recent weeks have disclosed scandals involving a marriage for money and a society murder case.

Izvestia related the case of an heiress described as Citizeness L. She was the daughter of a scientist who earned large sums during his lifetime, and left her well provided for, by Soviet standards. She had a big apartment on Kaluga Chaussee, a Moscow boulevard where wealthy scientists and generals constitute a sort of Russian "Gold Coast." She also had a country residence, an automobile, a large library and considerable money.

Citizeness L. was dying of an incurable disease. Her situation, according to Izvestia, attracted a "hanger-on on the fringe of science," a certain M. K. Rastsvetayev.

How this character persuaded Citizeness L. to marry him is not clear. It's also not clear whether she knew he had an unregistered and therefore illegal marriage of long standing with the mother of his four children, now aged 16 to 30.

Rastsvetayev married the heiress last May and she died 18 days later. He took over her property with the approval of all legal institutions, since under Soviet law he clearly was the heir.

Izvesti aprotests this whole situation, though it fails to point out the legal loophole through which Rastsvetayev will be deprived of his inheritance. The paper does raise the question of his party membership. It looks as if he will be expelled from the Communist party.

An interesting sidelight is the fact that the old scientist willed his property to his daughter. His son, Izvestia comments, belongs to the class of "the gilded youth who consider it their ideal to lead an empty, playboy type of life."

Komsomol Pravda recently described a sensational case involving such youths. Families of distinguished scientists were involved along with a retired colonel's son.

This began in a den of iniquity on Gorky street known as "Kokteil Goll," or "Cocktail Hall." It's a typical story of easy money, boys from wealthy families with no conscience and light fingers, girls, automobiles, orgies in the country, and the inevitable crime.

Money, rings, books and other things were stolen to obtain funds.

Then an acquaintance of one of the boys found out what was going on. It was feared he would "squeal." There seemed only one thing to do, and the youths did it. The body was discovered in a forest near Moscow.

Two of the youths drew 20-year terms, two others 10 and 15-year terms.

The paper blames the mess on the parents, who spoiled their children even to the point of ignoring their thefts in their own homes.

Crane Driver Speeds

DALLAS, Tex. (AP) — A cabin crane driver got a ticket yesterday for going 15 miles an hour on an expressway—where the minimum speed is 40.

Year's Drilling Activity Down, Sharp Decrease In Final Week

Drilling activity in West Texas for 1953 ended with a sharp decrease in applications over the preceding week.

The 52nd week of 1953 saw 38 applications to drill, including five wildcats, staked in 19 counties of Railroad Commission Districts 7-C and 8. The preceding week had listed 62 tests for oil, including 20 wildcats.

During the 52nd week of 1952, 44 applications to drill, including 12 wildcats, were filed in 22 counties. Totals for the same period of 1951 were 84 applications to drill, including 32 wildcats, in 22 counties.

Totals for 1953 are 3,031 field tests and 962 wildcats, a grand total of 4,026 tests for oil. Totals for 1952 were 3,683 field tests and 854 wildcats, a grand total of 4,537. Noted is the slight decrease in field test and a similar increase in wildcats.

During the 52nd week of 1953, six counties in District 7-C shared 10 tests, including three wildcats, while 13 District 8 counties had 28 tests, including two wildcats.

District 7-C wildcats were: Coke, one, and McCulloch two.

District 7-C field tests were: Coke and Upton, two each; Reagan, Runnels, and Schleicher, one each.

District 8 wildcats were: Gaines and Garza, one each.

District 8 field tests were: Andrews and Howard, five each; Cochran, Loving, Lubbock, Yoakum, and Midland, two each; Ector, Gaines, Garza, Pecos, Terry, and Winkler, one each.

LEGAL NOTICES

NOTICE

TO:

ALL PERSONS INTERESTED in the Ohlenbusch Heights Addition to Snyder, Scurry County, Texas, as shown by Plat of Record in Volume 88, page 395 of the Deed Records of Scurry County, Texas,

GREETING:

YOU ARE HEREBY COMMANDED to appear before the Honorable COMMISSIONERS COURT of Scurry County, Texas, at the Courthouse thereof, in Snyder, Texas, at 10 o'clock A.M. on Monday, February 22, 1954, to protest if desired the application of Fred C. Ohlenbusch for permission to cancel all of such Subdivision so as to thrown the said lands back into acreage, said application having been filed in said Court on the 11th day of January, A.D. 1954, and reading as follows:

"THE STATE OF TEXAS
COUNTY OF SCURRY
TO THE HONORABLE COMMISSIONERS COURT OF SCURRY COUNTY, TEXAS:

Now comes FRED C. OHLENBUSCH, hereinafter referred to as PETITIONER, to show this Commissioners Court of Scurry County, Texas, the following:

That your Petitioner is the owner of certain real property within Scurry County, Texas, which has been heretofore subdivided into lots and blocks and which property is described as follows:

All of the surface rights of Tract or Survey No. 50 of the Subdivision of the Grimes Ranch Lands made by the Dallas Trust And Savings Bank by W. L. Gross, Surveyor, and being a portion of Original Survey No. 39 of the Kirkland & Fields Lands, and being described by field notes as follows:

BEGINNING at a stake in the East line of Section No. 207, in Block No. 97, H&TC Ry. Co. Survey;

THENCE East 530 vrs. to stk. on south line of road in the NW corner of said Subdivision Survey No. 51;

THENCE South 00 deg. 02' West with the West line of said Subdivision Survey No. 51 477 vrs. to stk. for the S. E. Corner of this tract;

THENCE West 534 vrs. to SW corner of this tract in the East line of said Section No. 207;

THENCE North 11 deg. 5' East 477 vrs. to the place of beginning, containing 44.9 acres of land and being All of Blocks 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 and 13 of the Ohlenbusch Heights Addition all of Helen Avenue, Martha Avenue, Janet Avenue all of 33rd Street lying between Doris Avenue and Helen Avenue, all of 32nd Street lying between Martha Avenue and Helen Avenue, and all of 31st Street lying between Martha Avenue and Helen Avenue, as the same appears in a map or plat of such subdivision of record in Volume 88, page 395, Deed Records, Scurry County, Texas.

Your Petitioner would further show that he is the owner of the surface rights of the entire tract above described and of each and every lot therein contained and that no sales of any part of such property have been made since its subdivision into lots and blocks; that the cancellation of such subdivision could not interfere with the established rights of any owner of such land since Petitioner is the only owner thereof, and that such lands are not included in any incorporated city or town.

Your Petitioner respectfully requests, therefore, that after due notice he be granted permission to cancel the entire subdivision above described so as to throw the said lands back into acreage tracts as same existed before such subdivision was made.

FRED C. OHLENBUSCH, Petitioner

Subscribed and Sworn to before me this the 11th day of January, A.D. 1954,

Eza MacQueen
Notary Public, Nolan County, Texas"
(SEAL)

If this citation and notice is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Issued and given under my hand and the seal of said Court at Snyder, Texas, this the 13th day of January, A.D. 1954.

Attest: Edgar Taylor
Judge of Scurry County, Texas, and of Commissioners Court of Scurry County, Texas.

CONTRACTORS' NOTICE OF TEXAS HIGHWAY CONSTRUCTION

Sealed proposals for constructing 2.687 miles of Gr., Strs., Base & Surf. from 3.7 mi. southwest of Snyder to US 180 on Highway No. FM 1607, covered by V 1529-3-1, in Scurry County, will be received at the Highway Department, Austin, until 9:00 A.M., Jan. 21, 1954, and then publicly opened and read.

This is a "Public Works" Project, as defined in House Bill No. 36 of the 43rd Legislature of the State of Texas and House Bill No. 115 of the 44th Legislature of the State of Texas, and as such is subject to the provisions of said House Bills. 30% provisions herein are intended to be in conflict with the provisions of said Acts.

In accordance with the provisions of said House Bills, the State Highway Commission has ascertained and set forth in the proposal the wage rates for each craft or type of workman or mechanic needed to execute the work on above named project now prevailing in the locality in which the work is to be performed and the Contractor shall pay not less than these wage rates as shown in the proposal for each craft or type of laborer, workman or mechanic employed on this project.

Legal holiday work shall be paid for at the regular governing rates.

Plans and specifications available at the office of Homer Ray, Resident Engineer Snyder, Texas, and Texas Highway Department, Austin. Usual rights reserved.

D&H SUPER MARKET
DAVIS & HUMPHRIES, OWNERS & OPERATORS

The 1954 Packard will be introduced tomorrow in the showroom of Western Motor & Implement Co. The 1954 models introduce a new series of cars, the Clipper line. A new Packard engine develops 212 horsepower.

Packard Puts New Model On Display Here

A new series of cars had been added to the 1954 Packard models, which will go on display tomorrow in the showroom of Western Motor & Implement Co.

The series is the Clipper line and expands the company's medium-price field. There is a new and more powerful engine in the more than 200-horsepower class for Packard cars.

The Clippers will be built in three series. A Super series has been added in the Clipper line. It includes the Panama hardtop, club sedan, and four-door sedan. Other Clippers are the DeLuxe and Special series. The DeLuxe includes a four-door sedan, club sedan, and Sportster. A club sedan is designated a Clipper Special.

The new engine being introduced by Packard this year has a horsepower rating of 212 and is in all models except the Cavalier sedan. It has 359 cubic inches of piston displacement and a compression ratio of 8.7 to 1.

Ultramatic, Packard's automatic transmission, is standard equipment on all models except the Cavalier and eight-passenger cars.

There will be four basic engines for Packard, including a Clipper special with 150-horsepower, Clipper DeLuxe with 165, Cavalier engine with 185, and the new Packard engine with 212.

Methodist Leader Is Home From Far East

DALLAS, Tex. (AP) — Methodist Bishop C. Martin of Dallas, president of the National Council of Churches, arrived home yesterday after a 29-day Far Eastern tour. He said he saw little hope for a quick peace in Korea.

Smithsonian Seeks Wildflower Lovers

WASHINGTON Jan. 14 (AP) — The Smithsonian Institution is looking around wistfully for people with most unusual qualifications.

These people must be (a) crazy about wildflowers and (b) so affluent they can spend $500 for the beautiful portfolio, "Wildflowers of North America."

The Smithsonian has good news for those who have the (a) but not so much of the (b). There's a poor man's edition selling for a paltry $100.

This comes up today because a commercial publisher has brought out a similar book, using pictures of some of the same illustrations, in a $10 edition. This is perfectly legal, since government books aren't copyrighted.

Because "Wildflowers of North America" has been available since 1925, and at no time has the Smithsonian had to hire extra guards to control crowds fighting to buy it, there appears to be small chance of a fast sale of the 500 copies or so of the $100 and $500 editions still around.

"I will say this, though," said Paul H. Oehser, who heads the Smithsonian's editorial division. "No one has matched the beauty of the pictures in our book. Fortunately, the commercial publisher mentioned our work in his and we're hoping that will stir up a little interest."

"Wildflowers of North America" is extraordinary not only because of its startling price tag. For one thing, it didn't cost the taxpayers a dime to print, largely because of an extraordinary woman.

That woman was Mary Vaux Walcott. She was an artist, a botanist and was married to Charles D. Walcott, at that time secretary for the Smithsonian. Both have been dead for years.

More important to the present discussion: Mrs. Walcott was rich.

On field trips with her husband, who was a geologist she painted the pictures. Then she subsidized the printing of 2,000 copies. Libraries and some garden clubs have bought the de luxe $500 job while the $100 edition has been more in demand from individual wildflower lovers. . . .

"It's really a four volume portfolio," Oehser said, "with 400 life size illustrations. A remarkable book."

The Smithsonian in general, and Oehser in particular, has a very real interest in its sales. Every time one is sold it means that an additional $100—or maybe even $500—is available to publish other scientific works.

And how had "Wildflowers" been selling before the $19 book came out and presumably slowed down sales?

"Oh, we've been selling them right along," Oehser said.

How many?

"I'd say between four and five a year."

Which leaves the Smithsonian with a 100-year supply on hand. And, of course, that wistful expression.

Contino Will Return From Korea Tuesday

SAN FRANCISCO (AP)—Sgt. Richard J. Contino, $4,000-a-week accordionist in civilian life who entered the Army after a prison term for draft evasion, will return from Korea next Tuesday aboard the transport General Gordon.

And he will soon be back in civilian life and the show business, his family said in Pasadena.

The 23-year-old Contino is one of 375 Army troops and 324 Marines coming back on the Gordon. Fellow soldiers in Korea said they found him a "regular guy."

Announcing The New Packard CLIPPER

The new Packard CLIPPER Panama Hardtop! Sportiest car in the new CLIPPER line.

See the 1954 Packard line at your dealer's beginning Friday, January 15th.

America's Newest Medium-Priced Car!

Luxury at a lot less...because Packard builds it

A year ago the new Packard CLIPPER was introduced as America's newest medium-price car.

■ First, automobile men looked it over. Then reporters looked it over. Columnists looked it over. The motoring public looked it over—*and the news started!* And this was the news: *"That's a lot of car for the money!"*

■ And it was a lot of car for the money. And it is a lot of car for the money. Because Packard builds it. Packard-built quality is traditional in the automobile world.

So the news spread!

■ People all over America saw and drove this newest and most glamorous addition to the medium-price field—and bought it.

■ People who had driven other makes for years switched to the new Packard CLIPPER. It was a fine year.

■ So for 1954 the new CLIPPER brings you fine-car luxuries, fine-car power, fine-car ride . . . (the high-price features everybody wants) . . . and yet *at a popular, medium price!*

■ *We have built a finer car for '54 because experience with the '53 CLIPPER proved that there are many thousands of Americans who want a true luxury car in the medium-price range.*

■ Most cars in the medium-price field are simply big brothers of smaller cars made by the same company. These cars may offer the modern gadgets and the smooth look of the big car, but in most cases their basic engineering and production is still small-car engineering.

"Packard-built" makes the difference

■ No feature or claim will ever give you a more powerful reason for buying a CLIPPER than the name *Packard.*

■ *Packard started building quality into automobiles more than half a century ago. Of the more than fifty cars displayed at the first automobile show in Madison Square Garden in 1903, only Packard survives!*

■ You'll find the reason when you take command of a Packard CLIPPER and put it through its paces over a road of your own choosing. Make that date with *"Packard-built quality at a popular, medium price"* very soon . . . won't you?

■ You'll get luxury for a lot less in a Packard CLIPPER.

Since you can't test the new Packard CLIPPER at the famous Packard Proving Ground, get the story, fact by fact, on the pocket proving ground at your dealer's. But don't stop there! For the real thrill, *drive* a CLIPPER.

N-1213

CLIPPER SPECIAL CLUB SEDAN

If you plan to spend as much as $2500 for a car—be sure to see and drive the '54 Packard CLIPPER—America's newest medium-priced car.
