

New York Firm Buys Notes from Housing Authority

The Wellington Housing Authority has accepted the bid of Salomon Brothers and Hutzler and Associate, 60 Wall Street, New York, on \$39,000 series A Notes, the first to be sold on the Wellington project, N. M. Higdon, Housing Authority manager, said.

Under this bid, the notes carry an interest rate of two and one-fourth per cent per annum, plus a premium of \$221.00.

One of the stipulations of the sale was that the buyer is to accept delivery of and pay for all the notes within 72 hours after notification by the Housing Authority that the notes are ready for delivery. The proposal is subject to the approval by the company's attorneys.

Three other bids were submitted, with one from the First National Bank, the only local bid. Others came from Crutenden Podesta & Co., New York, and Trust Company of Georgia, Atlanta, Ga.

City Requires Vaccination of Dogs for Rabies

The city council in a recent meeting voted to ask all dog owners to have their pets vaccinated for rabies, tagged and registered at the city hall.

In the next move, the council instructed Police Chief Jack Brisbin, after a reasonable time, to begin killing all dogs loose on the streets and alleys if they do not have a vaccination tag.

This action was taken because of the prevalence of rabies among wildlife through the state, and because the disease has been found in dogs of the area.

In Dodson, a mass vaccination was held last month after a rabid dog bit two other dogs.

A farmer living south of Dodson earlier was bitten by a skunk believed to be rabid and has taken the rabies vaccination shots.

Since Wellington is without a veterinarian, the three drug stores are co-operating with the city and will vaccinate dogs. The owner is then asked to take the receipt issued by the druggist to the city hall, where it will be registered and a tag issued.

Each of the patient rooms is finished in a pastel shade, with green predominating. Part of the rooms are furnished with hospital beds, others have regulation beds. Chests of drawers and easy chairs complete the room furnishings.

The sun room is furnished with card and game tables for the residents' amusement.

Dodson Co-op Meeting, Auction Set This Week

The Dodson Farmers Co-op Society will hold its annual stockholders meeting Friday night, April 18, to be followed on Saturday by the all-day 7th annual auction sale, Ed Crowder, gin manager, announced this week.

The stockholders meeting will be held at the school auditorium at 8 p. m., with Pete Nipper, co-op

president, in charge.

Highlight of this meeting will be the distribution of \$23,688 in dividends, Crowder said. The Dodson Gin distributes its dividends by a method unusual in this area, making the payments at the rate of \$1.25 per bale on a five year basis. He explained that because of the varying nature of the soil in the Dodson trade area, it is seldom that farmers on both the sand and tight land make uniformly good or bad crops. Over a five year period, however, this levels itself out and has proved a satisfactory basis for dividend distribution.

New officers and directors will be elected during the business session.

CROSSROADS

REPORT

Dear Editor:
I see where Agriculture Secretary Benson thought better of it after his bureau had printed up 2500 booklets reporting on the farm situation, so he had them all burned.

Newspapers says this operation cost the government \$50.78, and I am writing my congressman about getting me a job as a government book-burner.

Seems like this is very good pay for the light and congenial job of burning 2500 government pamphlets, and I don't know where else a man could find all this plus such a fine opportunity for public service.

I note that the usual cry is going up again for everybody to be sure and vote in this year's elections.

But my partisan neighbor says he has noticed several times when entirely too many people voted. Or, anyhow, too many for the good of the country and his candidate.

Says it's a false doctrine that we would have better government if everybody voted. Claims this is like saying you could make better chicken soup by putting the whole chicken in.

I note that near five million folks are now unemployed, and this is about the same as the number of small-time farmers recently donated to industry's labor force by

the government farm program. So far there is no move by the Labor Secretary to shoo these people back on the farm so as to de-surplus the labor market, but this may come.

My adjusted neighbor says the situation reminds him of when he was a youngster there were 12 in his family and only nine soup bowls. The bigger kids fared all right but the short-legged ones never did get very fat.

I see where a House committee which is busy investigating the market price of influence and the extortion of same, is not going to interview any Senators on this subject.

Figuring, I guess, that Congressmen have a professional license to practice influencing and pulling strings. Sort of like doctors have a license to sell dope.

But my positive-thinking neighbor says it's more likely they have heard the old Crossroads proverb which says if you poke around in the other fellow's business with an unclean nose you are apt to draw back a bloody one.

I guess you noticed the news report about a real nice \$70,000 resthouse has just been built for the King of Libya with U. S. funds.

My caustic neighbor says he recalls back in WPA days the government also built some elaborate resthouses for country citizens around here, but only the big double accommodation type cost the taxpayers more than \$100 or so.

Says the Libyan King's resthouse must be mink lined to have cost \$70,000 and, anyhow, he don't

see how even a King could get that tired.

I note that most newspapers have been running articles here lately on the subject of approved ways to rescue a few nickels from the grabs of the tax collectors.

It has got to be a very popular indoor sport, hunting for loopholes, that let you save a little here and there, while the tax people compete with you by trying to plug up such leaks and get it all.

But even with the newspaper experts high class coaching, you can't hardly win where your opponent makes up the rules and referees the game.

Guests in the home of Mr. and Mrs. Earl Epps Easter were Mr. and Mrs. Herman McCutchen, Genna, Jo Ann, and Roland, of Guymon, Oklahoma; Jimmy McCutchen of Hereford; Miss Glenda Epps of Amarillo; Mr. and Mrs. Bobby McCutchen, Dennis and Desmond, and Mr. and Mrs. Joe McCutchen, Karen, Starla, and Joe Kyle, all of Wellington.

Mr. and Mrs. W. G. Garrison and son, Glen, of Dalhart, visited recently with her brother and family, Mr. and Mrs. A. F. Wischkaemper Jr. and sons.

Clyde Clements, Ford truck.
Farris Wood, Wellington, Chevrolet sport coupe.

Jenkins Reports Work Finished by Road Department

E. W. (Gene) Jenkins, county road administrator, has given the following summary of road and bridge work to April 14:

"We have bladed around 507 miles of roads. Most of the roads north of the river have been bladed the second time due to rain and snow. We have graveled about two miles and put clay on one mile. We have also graded 109 miles," Jenkins said.

"There were 658 hours lost due to breakdowns and the cost of repairs to date has been \$3,969.88. We hope to get a little more work done since we have repaired some of the machines and purchased a good used motor grader.

"There have been 24 bridges repaired, with four of these major jobs. Materials for the 24 bridges cost \$7,836.68 and labor \$2,933.

"We have rebuilt two cattle guards. El Paso Natural Gas Co. gave us two cattle guards that would have cost us \$2,000 and these were put in north and east of Wellington.

"A few words to the nice people of this county being so patient in getting their roads worked. We hope to get them soon, overlooking no one."

Health is as Close As Your Pharmacy

Rulers of great nations, such as Premiers or Presidents, are presumed to be powerful people. Yet Lincoln and Coolidge each lost a son, and Harding and McKinley lost their own lives—all due to infections which the best medical talent of their day was unequipped to handle.

Today, due to the tremendous advances made through pharmaceutical research—you, and the people in your block, may be spared such agony, because there is reliable relief to be found as close as the nearest pharmacy to which you may take your physicians' prescriptions.

The most precious gift you can give a son

From that first wonderful day when he drops your guiding hand to walk alone—unsteady, unsure, but on his own—his goal is independence.

And this is yours to give—even as he falters and clings, then manfully struggles on. You want so much to help him. And your heart nearly bursts with pride one day when you know he's now "his own man." How fervently you pray that no one—ever—will take away this hard-won freedom to be himself.

There's one way you may not have thought of to help him continue to enjoy the independence he's achieved.

Be on the watch for ideas that could deprive him of it—the idea, for example, that "government should run such and such—a business, a service, an institution." You have only to remember the people in socialist nations to know that when government controls more and more things, there is less and less freedom and independence for the individual!

You can use your woman-power to discourage this idea that "the government should run it." When you hear people talk that way, point out that the loss of anybody's independence is a threat to everybody's freedom.

Very much aware of this danger are the independent electric light and power companies, because government already runs part of the electric business, and powerful people are pressing it to take over more.

Dodson Civic Club Observes Twentieth Anniversary with April 9 Meeting

The Dodson Civic Club observed the 20th anniversary of its founding with a regular meeting in the new home of Mrs. Olan Farris Wednesday evening, April 9. Mrs. B. B. Martin was co-hostess.

During the short business session, Mrs. Marvin Wynn, president, announced that the club received three awards in the recent 7th District, Texas Federation of Women's Clubs convention: first place in Texas Heritage division, for work on cattle brands; second prize in the American Home, garden division; and third in the community affairs division.

Refreshments were served from a table laid with a lace cloth and appointed in silver. The club's colors of orchid and gold were carried out in the centerpiece, an arrangement of orchid chrysanthemums and snapdragons, in a gold pedestal bowl.

The program, which made up the latter part of the meeting, was opened with a vocal selection, "Around the World", by Joy Carolyn Smith, accompanied by her mother, Mrs. Frank Smith. The remainder of the program was given over to looking backward through 20 years of accomplishment.

The club history, written by Mrs. Martin, was read by Mrs. J. C. Howell. These two, along with Mrs. B. T. Webb and Mrs. Hugh Painter, are the four charter members remaining in the club.

Each is a former club president. While the club has always been civic in nature, it also has provided many social events for the members and the community as a whole.

Mrs. Howell recalled that the Dodson Civic club was organized April 27, 1938, in the home of the late Mrs. E. J. Smith, with Mrs. Chester Fires of Wellington assisting in the organization.

That year the club adopted a project that has remained one of the major accomplishments, the Dodson City Park. Their first work was to plant trees.

Mrs. Hattie Scott served as president from 1939 through 1941, and during her first year, Mrs. Jack Davis, then a Dodson teacher, asked the club's help in getting books for the library. That, also has remained a project through the years. In 1940, the park was landscaped and in 1941 a fireplace and tables added.

Mrs. B. T. Webb was club president in 1942, and there was further park improvement and a caretaker was hired.

In 1943, with Mrs. Howell as president, the club turned to war work, setting up a red cross room, donating gifts and sewing for Army hospitals, and holding bond drives. Mrs. Martin was president the following two years, when all the members learned to knit. They laughingly recall a rummage sale in which they "bought each other's rummage".

Mrs. H. G. Estes was the first president after the war ended, and in 1946 the club embarked on its Youth Center.

In 1947, members bought concrete blocks from an old building, hoping to erect a club house. These were later given to the school.

Mrs. Dewey Malone was president in 1948, when the club began sponsoring a Girl Scout troop, and again took up improvement of the park.

During Mrs. T. J. Bowling's tenure as president, the club bought dishes for the school lunch room and assisted with the town's 38th birthday celebration.

Mrs. Dolly Whisenant was president two terms, 1950 and 1951. During this period the club issued a cook book, and made substantial contributions to the school such things as curtains, books, dishes and athletic equipment. They also sponsored a clean-up drive.

Mrs. Webb returned in 1952 as president and served two years. The club continued its work of assistance to the school and also had a barbecue pit made for the park and other work done.

Mrs. E. H. Ready was elected president in 1954 and also served the following year. The club extended its program of work with the school and in 1954 sent a delegate to the General Federation of Women's Clubs convention in Denver. Members recall, now with amusement, the waffle supper when electricity went off and guests ate waffles in the dark.

Painting and laying linoleum in the school lunch room, a joint project with the home demonstration club, came in 1956, when Mrs. J. T. Martin was president.

The following year, with Mrs. H. A. Painter as president, the club continued the lunch room im-

provement and adopted as a fund-raising project, serving the alumni banquet.

Mrs. Marvin Wynn is the current president, and during her term, a visit from the president of the state federation of women's clubs has been a high point. In the field of service, the club has done additional work with the school.

Over the period of 20 years, 103 Dodson women have held membership in the Civic Club. The enrollment now is 23.

Attending the anniversary meeting were Mesdames B. T. Webb, J. C. Howell, T. J. Bowling, H. A. Painter, Floyd Tetusch, Fred Brown, Kate Smith, Frank Smith, Muriel Whitfield, and Marvin Wynn; four guests, Mrs. Clyde Wilson, Misses Joy Carolyn Smith, Sherry Farris, Virginia Robey, and the hostess, Mesdames Martin and Farris.

Charter Members of Dodson Civic Club

Four charter members remain in the Dodson Civic Club, which observed its twentieth anniversary in a meeting Wednesday evening, April 9. From left to right are Mrs. B. B. Martin, Mrs. J. C. Howell, Mrs. B. T. Webb and Mrs. H. A. Painter. Each has served as president of the club.

sity of Indiana. He has studied two years in Vienna, Austria, and teaches in the University at Salzburg, where the bride is a student.

With Cruise-O-Matic, '58's answer to the chauffeur shortage. It's the newest, most versatile automatic transmission yet. It's like having a built-in chauffeur to shift gears for you. Try it today!

The Lady was Willing

Recently a service station attendant changed the oil in a car with 23,000 miles on the speedometer. He noticed that a lubrication job was also badly needed, so he politely suggested it to the driver. She replied, willingly enough, "Go ahead if you want to... but I thought all that was done at the factory!"

Of course, this couldn't happen to you, but with cars getting more and more complicated every year, proper and frequent lubrication is more important than ever.

Phillips 66 Dealers specialize in lubrication. They have complete charts and specifications for all makes of cars, and what's more, they use them! Stop in next chance you get and watch how thorough Phillips 66 attendants are when they lubricate a car... it's a pleasant surprise for most motorists!

your order of DEKALB HYBRID SORGHUM is "in the bag" and just waiting for you to drive in and get it!

come in NOW!

We join this couple, whom all of us know well, in inviting you to visit their new rest home Sunday, April 20.

This attractive home and place of comfort for our convalescent and aged citizens is an addition to Wellington that will be measured, not by its monetary value, but by the care, the comfort, and the skilled attention that is given those who must have the help of others each day of their lives.

As this enterprise takes its place in our community life, we will continue to feel with pride the part we have been chosen to play.

First National Bank

Congratulations!
from

. . . a desire to serve in such ways as this . . . a real service to mankind and to the community is performed . . .

The new Smith Rest Home is a new service to which we in Wellington will point with pride. It is an addition to the medical-health facilities which has made Wellington so well known through the area.

The care of the convalescent and the aged in homes where they will receive skilled and professional care, living among others of their own age and interests, is a field to which we have given attention only in recent years.

We extend our sincere congratulations to Mr. and Mrs. Willie Smith and we are proud that we were chosen to do their electrical work.

CITY of WELLINGTON

Traveling Checks buy LESS

Do you habitually take a 25 or 30 per cent discount on the personal checks that you write?

Many people do . . . without realizing it. It's the hidden penalty they pay for the privilege of spending their money in somebody else's town or city.

Take a moment to consider facts: Only about 70 cents of each dollar we spend goes to pay for the actual goods or service that we get. About 30 cents of that dollar has to cover the necessary expenses of the community where the sale is made . . . to pay the people who work there . . . to return something on the capital invested . . . to help support civic facilities such as churches, schools, fire and police protection, road and street maintenance, etc.

Of course, when we spend our money away from home we get no personal benefit whatever from the 30 per

cent of it which goes for community business and social improvement.

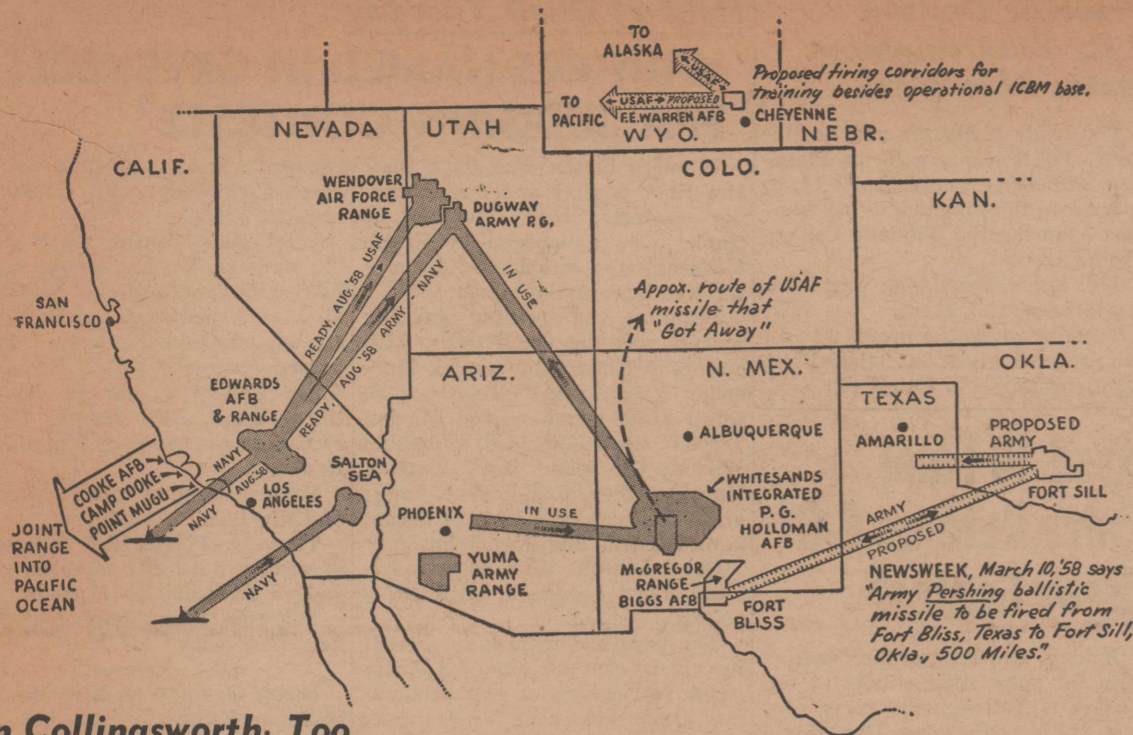

Doesn't it follow, then, that when we give checks or money for out of town purchases, nearly one-third of the amount goes for something we don't get? Isn't that just the same as discounting our checks or money? Is it sound economics?

PLANNED MISSILE ALLEYS INVADE NEARBY POPULATED AREAS

Missiles are already being fired across thinly populated sections of the Southwest, as shown on the map, and the Army and Navy now propose to fire them over more heavily settled areas. To date, the armed forces have only fired aerodynamic missiles (pilotless aircraft) such as the USAF Matador and Mace, and the Navy's Regulus, through these alleys. The Navy now proposes to fire its Polaris from offshore into the Mohave Desert and the Utah impact areas, and the Army plans to fire its new Pershing from Ft. Bliss, Texas, to Ft. Sill, Okla. Polaris and Pershing are ballistic rockets, and strong opposition has developed to both proposals. California aviation interests claim the Polaris firings would endanger all passenger flights between the Los Angeles and San Francisco areas, and cities and farm and ranch groups in Oklahoma and Texas say flatly they don't want meandering missiles overhead. At least one USAF missile strayed from its course en route to Wendover, Utah, and was found eventually where it crashed in Colorado. Guidance problems have plagued Army and Navy ballistic missile systems, and distant airport towers, taxi dispatchers, and ham radio operators are re-

ported to have interfered with test operations at Cape Canaveral, Florida.

Wilson Porter Home Burns

The home of the Wilson Porter family burned completely Friday morning, April 4, at 2 p. m. It was located one mile north and one quarter of a mile west of the northwest corner of the town section. The house which is owned by Sam Hollingsworth was insured, but the Porters did not have any insurance on their furniture and clothing. They had lived there about 2 years and are now living at 1202 Haskell Street.

Improved Cotton and Sorghum Yields With Phillips 66 Ammonia

Martin Schur, Plainview, Tex., says: "I farm 420 acres, and last year I ran 30,000 pounds of Phillips 66 Agricultural Ammonia through my rig. That shows how I depend on this fertilizer to give me high yields of cotton and maize. I put all my Phillips 66 ammonia down pre-plant, in order to get the job out of the way before the busy spring season."

Other Southwestern farmers have discovered that 82% nitrogen from top quality Phillips 66 Agricultural Ammonia helps them get more profit per acre through higher yields. They get more cotton that classes higher at the gin . . . yields of sorghum grain and ensilage are increased . . . more marketable vegetables are harvested . . . and profits on wheat are increased through higher yields of grain and extended grazing periods.

Phillips 66 Agricultural Ammonia contains 82% nitrogen and gives you more nitrogen per dollar than any other form of commercial fertilizer available.

Deck's DIDACTICS

—By Deskins Wells

Sesame was second only to cotton as a cash crop on a per acre basis in Texas last year. Gilroy Rummel planted 23 acres and grossed \$1,027.68. His harvesting cost was about \$10 an acre and his net was \$780.69. This was on dry land. He is going to plant 50 acres this year.

Gilroy told me of Pat Bouchelle who raised 1240 pounds an acre on irrigated land in the Loco community. The seed brought 10c a pound last year and his gross was about \$120 an acre. Ray Null and Henry Rogers also raised Sesame last year, if you are interested in talking with them. I do not have any figures about how they came out. The nearest place to get seed from the Texas Sesame Growers, Inc., is at Vernon.

Sesame has been traded in the world market for centuries and this world market provides a floor price for seed produced in excess of domestic requirements. The price tends to remain fairly stable and has been around 10c a pound for the last four years.

There is a shatterproof variety of sesame; but it is not recommended for irrigated farms. It can be combined direct from the stalk, but it does not produce as high a yield as the semi-shattering varieties. The semi-shattering varieties are cut with a row binder or grain binder and are shocked 15 to 25 bundles to the shock. The seed are threshed by driving the combine from shock to shock. A large tarp is used under the combine and none of the seed are lost as is commonly believed. You can ask the men who grew this ancient plant last year. The cost of harvesting ranges from \$10 to \$20 an acre on dry land and from \$15 to \$30 on irrigated land. It is claimed that Sesame holds its earning power despite bad weather and low prices which beset other cash crops. It makes more money than maize and is a clean growing crop that mellow tight soils.

Wildflowers are coming out in the pastures between here and Childress and by next week they should be in full bloom and the

week after that you can see them on the road to Shamrock and northward. Due to the amount of moisture in the ground they should be beautiful for from four to six weeks. If you are not a fisherman or a golfer it will be worth your time to take an extended drive some day when the sand is not blowing.

My son Henry's garden is literally jumping out of the ground; but so are the weeds. He is a diligent boy in working the ground and doing the planting. Then his enthusiasm begins to wane. Evidently he either thinks that he has the crop made or that I am supposed to take care of the weeds.

The City has issued a warning. Get a current vaccination tag on your dog or it will be killed. Jack Brisbin says that there is quite an epidemic of rabies among wildlife in Texas and that means it will spread to domesticated animals. All of which reminds me that I must get Henry's dog vaccinated. It also brings to mind an old joke.

"Had to shoot my dog this morning."
"Was he mad?"
"Well, he wasn't too well pleased."

White of Dallas, Commissioner of the Federal Mediator and Conciliation Service.
