

Banking Panel Bill Facing Second Delay

By BOB ROOKER
AUSTIN (AP)—The Senate Banking Committee ordered a second delay today on the Gov. John Connally's proposal to re-empower the state banking board.

Sen. Bruce Reagan of Corpus Christi, chairman and sponsor of the bill, said "the governor's office asked for another delay. They're having meetings over there trying to work out a bill," he said.

The first delay was granted when the governor's office said several witnesses to testify for the measure were sick. Later, Reagan told reporters "They have two bills and they haven't decided which one to run with."

The committee also instructed its subcommittee to consider three loan shank bills to produce a measure by next Thursday.

Sen. George Parkhouse of Dallas, chairman of the subcommittee, said his group has been working late on the loan regulation measure every day this week.

Reagan told messengers "We had a long about reaching 90 percent agreement on the basic parts of the bill—the interest, insurance and penalties provisions."

He said the measure probably will regulate loans up to \$5,000. Three measures are before the Senate subcommittee proposing regulation of loans up to \$10,000, \$500 or \$3,000.

Neither house has action scheduled on any major state bill before adjournment next Monday.

The banking measure sponsored by Sen. Bruce Reagan of Corpus Christi, is part of Gov. John Connally's legislative program.

NAZI IN PROTECTIVE CUSTODY — American Nazi David Howard Peterson, 21, of Minneapolis, is carried from a Miami, Fla., office building by police who said they took him in protective custody after he was picketed at the office there would have been violence.

Peterson was questioned and released. (AP Wirephoto)

then understood substantial troop removals would begin early this week. The removals did not occur in any substantial numbers.

It is assumed by authorities here that the four ships now en route are supposed to remove the troops necessary to make good on Moscow's promise.

Officials said that since the evacuation of troops and military technicians in Cuba now is around 17,000, the removal of several thousand soldiers would not provide for withdrawal of the entire force under the present Moscow commitment. But they said the United States expects progressive reduction of the force.

The Times Washington dispatch by Tad Szulc said:

Secretary of State Dean Rusk has said a continued Soviet military presence in Cuba is not acceptable to the United States. Privately officials say the country's aim is to obtain complete withdrawal of Soviet military forces from Cuba.

The Times Washington dispatch by Tad Szulc said:

Secretary of State Dean Rusk has said a continued Soviet military presence in Cuba is not acceptable to the United States.

Reinforced School, Vote Rights Asked

By DOUGLAS B. CORNELL
WASHINGTON (AP)—President Kennedy appealed to a divided Congress today to reinforce the Negro's right to vote and to attend desegregated schools in a nation where he said "the cruel disease of discrimination" still exists nearly everywhere.

For the first time, in a special message, Kennedy outlined a specific civil rights program to Congress. In addition to legislation directed at the ballot and the school house, he asked for an extension of the life of the Civil Rights Commission, with expanded duties.

"The program outlined in this message," Kennedy said, "should not provide the occasion for sectional bitterness."

Yet White House officials told reporters they recognize the built-in possibilities of a filibuster by Southerners in a Senate which has just rejected a bid to clamp down on filibustering. They said, though, that the program was tailored in realistic style, that it ought to be passed and there is a good chance it will.

In the century since Lincoln's Emancipation Proclamation, the President's message said, slavery has been blocked and delayed too often.

"Equality before the law," he said, "has not always meant equal treatment and opportunity. And the harmful, wasteful and wrongful results of racial discrimination and segregation still appear in virtually every aspect of national life, in virtually every part of the nation."

Kennedy evoked his administration with a sparkling two-year record on civil rights. But he said a broad national effort still is needed, an effort embracing state and local governments, private citizens and organizations, and the congressional majority.

His requests for legislation are expected to be submitted within 10 days or so as three separate bills.

They fall into these classifications:

1. Education
2. Civil Rights Commission
3. Brisk Winds Spread Fires

SCANNING THE WORLD

Yemen Issues Threat

DAMASCUS, Syria (AP)—Yemen's republican government has threatened to use force against British troops it claims are aiding diehard supporters of Yemen's deposed monarchy.

Saudi radio broadcast the threat Wednesday night. Earlier Yemeni President Abdullah Salafi charged Britain with aggression, claiming British tanks from the neighboring Aden protectorate had intruded in the town of Harib, in East Yemen, to help besieged royalist forces there.

In Cairo, the British Embassy denied the charge. "No such aggression has taken place," the embassy said. The British said the troops had only driven an invading force out of territory of the protectorate.

VATICAN CITY (AP)—Pope John XXIII called for prayer and Lenten penance to the success of the Vatican Ecumenical Council which resumes here Wednesday night.

In a broadcast Lenten message, the 81-year-old Pontiff said:

"The sublime harmonies of revelation stand out in greater relief during the time of a council, which is, as it were, its open book."

It is, therefore, the council which gives the tone to this year's Lent, by stressing especially the following:

1. Education
The main request here was that Congress authorize a program to provide federal know-how and money to push desegregation in public schools in communities which need and seek financial help.

Telstar Satellite Goes Silent Again

NEW YORK (AP)—The Telstar communications satellite has failed to respond to commands from the earth for the past week, the Bell Telephone Laboratories announced today.

The satellite, sent into space last July, had stopped functioning previously in November but was restored to operation Jan. 3.

Telstar is the space "switchboard" that relays messages, photos and television from continent to continent.

Bell said the present malfunction resembles the earlier trouble. It reported that in both instances the satellite had been in increasing areas of radiation exposure—punctuated as the cause of the earlier difficulty.

The satellite's orbit takes it through three-month cycles of increasing and decreasing exposure to high energy radiation, said a spokesman.

"Both the present and earlier difficulties occurred on this upward, or radiation, cycle," he said. "It is possible that Telstar will recover again during the downturn which it is now enduring."

The spokesman said that as Telstar moved out of the extreme radiation area during its difficult late last year its performance became less sluggish and corrected itself gradually.

He said the present trouble began Feb. 21 when the satellite "apparently misinterpreted and disconnected its storage bank."

Efforts are continuing at Andover, Maine, and Cape Canaveral, Fla., to correct this difficulty but the satellite is now transmitting any signals, he said.

Coastal Area Due Storms

By The Associated Press
A 100-mile wide strip of the upper Texas coastal plains, centered by the densely settled Houston area, was warned Thursday of severe thunderstorms with large hail and damaging winds during the afternoon.

The Weather Bureau's severe thunderstorm forecast was for 2 p.m. to 8 p.m. It extended 50 miles on either side of a line between 20 miles west of Victoria to 30 miles north of Beaumont.

Included in the warned area were Houston and its more than a million people, Beaumont, Port Arthur, Galveston, Victoria, Baytown, Huntsville, Navasota, and Jasper.

Thunderstorms are expected to develop in the early afternoon in the eastern portion of South Central Texas and the south portion of East Texas. The forecast said:

"A few of these thunderstorms are expected to become severe with some large hail and damaging winds."

Near Smithfield, a Fort Worth suburb, lightning swept close to a dynamite-filled shed as fire units from 11 Fort Worth County towns turned out. Two tanks and a compressor were damaged, was destroyed on the L. State farm, where the owner estimated his loss at \$100,000.

Two unattended, homes and a number of barns burned near north Richardson Hills, also outside Fort Worth. Fires, blackened about 1,000 acres in the same vicinity.

Flashed across across thousands of acres in Hopkins County in Northeast Texas. At least two houses were lost.

Two unattended, homes and a number of barns burned near north Richardson Hills, also outside Fort Worth. Fires, blackened about 1,000 acres in the same vicinity.

Russian Ship With Troops Leaves Cuba

WASHINGTON (AP)—One Soviet ship carrying a small number of troops has left Cuba under the new Soviet promise to pull several thousand out of Cuba by March 15.

Reporting this today, officials said four other ships are known to be on the way to Cuba. The ships have a potential capacity to haul 100,000 troops or nine thousand Soviet soldiers.

Presumably the one ship known to have sailed is the luxury liner Ballika, reported Feb. 27, to have set out with a then unidentified number aboard.

Commenting on a New York Times news service report that the Russians had notified the United States that a force would be left on the island, Asst. Secretary of State Robert Manning said:

"We have received no such notification. Nor have we drawn any such inference from any communication or conversation with them."

The Times story said the notice from Moscow was interpreted in Washington as meaning a pull-out of up to 7,000 men, leaving about 10,000.

Bill Would Put 3 Congressmen Out

AUSTIN (AP)—Some Texas congressmen could be put out of jobs by measures presented to a committee Wednesday night.

One bill, referred to the attorney general for an opinion on legality, would have six Texas congressmen run for three present U. S. House seats.

It is by Rep. Bill Walker of Cleveland. The measure would give Dallas County another representative, Harris County its third seat, and in Bexar and Tarrant counties keep their present congressmen plus vote with surrounding counties in a "winner-take-all" district.

Another proposal, won by Dallas Republican Dick Morgan and other Dallas members.

Morgan's question on whether dividing Dallas into east and west districts to give it the new congressman would help Republican Bruce Alger, R-Tex.

"There aren't many ways you can divide Dallas and hurt him," Morgan said.

Morgan's bill would leave other congressional districts as they presently are.

The other proposal, by Republican Ed Foreman of Odessa, in the same district as O. C. Fisher of San Angelo, The Midland and Odessa Chambers of Commerce asked that their two districts not be divided in any redistributing bill.

Walker's proposal would put Reps. Lindley Beckworth of Gladewater, and Wright Patman of Texarkana in the same district, Graham Russell of Wichita Falls and Otha Burleson of Anson together, and Fisher and Foreman in the same district.

Grim Choice Left In Geneva

By MICHAEL GOLDSMITH
GENEVA (AP)—U.S. and British negotiators agreed to face a grim choice today to accept unacceptable Soviet terms for a nuclear test ban or to return after four years of negotiations.

Premier Khrushchev told a Kremlin audience Wednesday, "nothing more can be expected from us."

The U.S. and British governments consider three inspections and three black boxes totally inadequate to provide a foolproof check on the vast territory of the Soviet Union. The Western powers have demanded a minimum of seven of each.

The Soviet Union has not given an inch in this argument since the talks resumed on Feb. 12.

Soviet Ambassador Semyon K. Tsarapkin started the Western delegations Wednesday with a new damper on their hopes for an acceptable treaty to give it the new congressman would help Republican Bruce Alger, R-Tex.

The Soviet Union will not allow the black boxes to form an independent detection network covering all of Soviet territory, he said.

The Soviet Union will not allow the black boxes to form an independent detection network covering all of Soviet territory, he said.

Adventurer Chas. Sweeny Dead At 81

SALT LAKE CITY (AP)—Charles Sweeny, a millionaire's son who turned soldier of fortune to fight in seven wars under five flags, died Wednesday in a hospital bed of infirmities of age. He was 81.

A native of San Francisco, the tall, erect, ruddy-faced adventurer was one of the organizers of the Lafayette Escadrille in which Americans flew for France during World War I. Before America entered World War II, he organized the Royal Air Force's American "Eagle Squadron."

Sweeny's last adventure became apparent at the age of 16, when he enlisted in the U.S. Army and fought in the Spanish-American War.

He returned to graduate from the University of Notre Dame and the U.S. Military Academy at West Point. He rounded out his military education at France's Ecole Militaire.

Sweeny enlisted as a private in the French Foreign Legion in 1914 and rose to the rank of lieutenant within three years. He was transferred to the U.S. Army in 1917 when America entered the war.

Wounded three times, he retired at the end of the war as a colonel. Pursuing adventure, Sweeny fought as a general in the Polish army against the Bolsheviks, then

joined the revolutionary army of Kemal Ataturk of Turkey. In 1923, he was captain of an American squadron which fought for France in Morocco. He served as a military adviser to the Spanish royalists in Spain's civil war.

The French Foreign Legion commissioned him a major general in 1928 after the outbreak of World War II. Sweeny picked out a handful of American adventurers and organized the Eagle Squadron of the French Air Force. When France collapsed, Sweeny and his U.S. flyers crossed the channel to England. Sweeny was given an honorary captaincy in the Royal Air Force as leader of the fledgling American Eagle Squadron.

McMurry Debaters To Appear Tonight

The Methodist Men's group of the Trinity Methodist Church is hosting the McMurry College Debaters tonight.

The public is invited to the fellowship hall of the church tonight at 7 p.m. to hear a symposium type debate on the European Economic Community. The college students will discuss such areas as the EEC structure and functions, and its probable effect on the economics of the United States.

Also to be discussed by the group is the administrator's Trade Expansion Act of 1962, and its effect on the small businessman of the U.S.

The church's nursery will be open during the debates.

Smart Kid Not So Cute

WASHINGTON (AP)—The parents of George Basie were puzzled but proud that someone he had learned to dial the Weather Bureau for the latest forecast.

"We thought it was real cute and smart," said his mother, Mrs. George A. Basie. "It was a Sunday he first did it. George was playing so bad for it to snow so he could play in it, and he went over to the phone and dialed the weather all by himself. He thought he was real big."

My husband was proud, very proud. He was walking around with his chest out. Only 6, and already he can dial the weather. We were amazed he could get it so rapidly all the time, even when the weather was bad."

That first Sunday, George called the weather nine times. By Feb. 19 he had called the weather 42 times. Then the Basies received their telephone bill. Surprise, it came to \$33 for toll calls. Why? George's calls all had been to the Weather Bureau in New York City.

Instead of dialing 9361217 for the recorded Washington weather forecast he had, in each of the 42 calls, pre-dialed the number with 212, the New York City area code for distance dialing.

But everything turned out good for poppa and George. The telephone company cancelled the charges after he explained what had happened.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: I think the parent-planned marriages like they had in the old country years ago should become a custom in this country. Why not let the girls marry at 16 and finish their education in an all-... married... high school? It would save a lot of wear and tear on parents who have a tough time keeping their daughters in line.

MRS. C.: Marriage is for mature people — not children. Granted, some mature people make a poor choice, but the key to keeping daughters in line is not wedlock. When a girl marries she should be mature enough to make a home for her husband and to rear any children that follow. Mixing school books with milk bottles and hills is for the birds.

DEAR ABBY: Just exactly what is an engagement ring supposed to mean, and how long should an engagement last? I got an engagement ring two years ago Christmas and so far my boy friend has made no plans for our future. When I ask him to help me set a wedding date, he finds a hundred excuses. The main one is

that he is in debt. It is no wonder, the way he spends money before he gets it. Should I give him his ring back or wait some more? I am 22 and he is 24.

LONG ENGAGEMENT DEAR LONG: Before you make that decision, collar your boy friend and ask him what his plans for the future are. If he has none — and doesn't want to make any — it means he is not seriously considering marriage. In which case return his ring.

DEAR ABBY: Will you please explain why a girl has to accept a date with the first boy who asks her for a special occasion — or else stay home? The creepiest boys get wise to this and ask unreasonably early. I realize a girl can't refuse on the grounds that she hopes someone more desirable will ask her. But if she tells the early caller that she "might be out of town" and then shows up with a date, she makes the early caller mad at her. It seems there should be a way out for a girl.

ONE GIRL'S MOTHER DEAR MOTHER: If a girl doesn't care to accept a date with a

fellow (no matter when he calls her), she should simply say, "I'm sorry, I'm busy." (She could be "busy" at home, cleaning dresser drawers, etc.) The less fibbing a girl does, the better.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3265, Beverly Hills, Calif.

Make it write letters. Send one letter to ABBY, Box 3265, Beverly Hills, Calif. For Abby's new booklet "HOW TO WRITE LETTERS FOR ALL OCCASIONS."

Population Of 'Rock' Diminishing

ALCATRAZ, Calif. (AP)—The "Rock" was down to 64 convicts today.

Only a year ago, the island prison near San Francisco's Golden Gate bridge swelled to its full capacity. It had held some of the nation's toughest convicts—Al Capone, Alvin Karpis and Basil "The Owl" Bonbrant.

Now it's being phased out. Salt air, wind and time are wearing away Alcatraz, a prison of one sort or another since 1853. It's too costly to restore.

Among 38 convicts moved off the rock Tuesday was Mickey Cohen, Los Angeles racketeer doing time for income tax evasion. They sent him to Atlanta.

The prison is expected to be empty by July 1.

CREATIVE COOKS

Birthday Menu For Kizer Twins

BY LUCY DYBART

There is a wonderful birthday tradition in the Fred Kizer household. Twins Ray and Roy are annually granted their favorite foods as an extra treat on that very important day.

Since they're growing boys and have a lot of favorite foods it would be lengthy to list them all. But proud Mom—Mrs. Bobbie Kizer—selected two very popular requests that over the years have

remained on the permanent list.

RAVIOLI
Mix 1 1/2 pounds ground beef, 1 bell pepper, 1 onion, 2 buttons garlic, 1 can spinach, 1 egg, pinch of chili powder, about 1 teaspoon salt.

DOUGH
5 cups all purpose flour, 2 eggs, Water to mix, making stiff dough. Roll thin and cut in circles with spunch can. Put about 1 teaspoon of meat mixture on pastry. Fold and pinch edges until tightly sealed, then boil in salted water about 10 minutes. Drain.

SALUCE
1/2 onion, 1/2 bell pepper, 1 button garlic, Summer together until onion and pepper are well done. Place meat pies in shallow baking dish. Cover with sauce and grated sharp cheese. Heat until cheese melts. Serve with a green salad and garlic bread. Serves eight.

RED VELVET CAKE
1/2 cup shortening, 1 1/2 cups sugar, 2 eggs, 1 teaspoon vanilla, 1 ounce red food coloring, 2 tablespoons cocoa, 2 1/2 cups flour, 1 cup buttermilk, 1 teaspoon salt, 1 tablespoon vinegar, 1 teaspoon soda. Cream shortening, sugar, then add eggs. Beat well. Sift flour, salt, cocoa and add alternately to mixture with buttermilk. Add vanilla and food coloring. Fold in soda and vinegar which has been pre-mixed. Do not beat. Bake 30 minutes at 350 degrees.

ICING
1 cup milk, 1/2 cup flour, 1/2 cup sugar, 1/2 teaspoon salt, 2 teaspoons vanilla, 1 cup oleo or shortening, 1 cup coconut. Cook milk, flour and salt until thick. Then add cream sugar and shortening until light and fluffy. Combine the two mixtures and beat well. Add vanilla and coconut.

LOVELIER THAN A FLOWER—This attractive young girl twists a plastic-covered wire around one of the branches of this finely espaliered camellia. Camellias were introduced to the United States from the Orient during the mid-nineteenth century and beautiful species have been known to soar as tall as 35 feet. They are a beautiful addition to any garden whether they are pruned to a bush form or espaliered.

Tips On Raising And Training Of Camellias

When the camellia was first introduced to America from the Orient in the mid-nineteenth century, no one dreamed it would become such an important and beautiful addition to the flower gardens throughout the land, but that's exactly what happened. And no wonder, because few other plants are as hardy and yet bear such opulent flowers and lush green foliage as does the camellia.

The camellia is one of a select species of flowers which command an immense following of garden clubs and societies whose members have an unwavering devotion to its propagation.

Under the proper conditions, camellias can soar to a height of 35 feet and still retain their fresh, vibrant beauty. And there is no finer species of plant that can be espaliered with such beauty and control. Cut properly and tied to a trellis with plastic covered wire available at any nursery, the camellia can be espaliered to take round, square, vertical, horizontal, symmetrically crossed and a number of other artistic and geometric shapes.

Just what are these conditions? To begin with, camellias thrive in acid soil which is rich in humus and friable. They like humid atmosphere and 30 degrees freezing weather doesn't particularly affect them. Their tolerance to sun-skin varies, but in general, shade produces heavier foliage while sunshine increases the number of blossoms.

Contrary to common belief, camellias are low maintenance plants, especially if proper soil conditions are created when first planted. This includes spading in liberal amounts of peat moss, oak, pine or redwood leaf mold and especially providing good drainage.

Camellias should never be cultivated near the trunk because cultivation disturbs the fine feeder roots which lie in the top few inches of soil. Because a camellia can suffer if the feeder roots are damaged, care must be taken during the first two years of growth to insure against the plant toppling over from the weight of its extremely heavy blossoms. If a camellia falls over, the tiny root hairs are torn from the root branches.

This can be prevented by pushing a bamboo or redwood stake into the ground near the trunk and twisting a plastic covered wire plant tie around the camellia and the stake at several levels. The ties can easily be re-adjusted as the camellia matures. The stake may be removed after the "cane" or stem of the trunk is heavy enough to support the plant from wind and from its own weight.

Camellia species range from simple to double blossom flowers and from a wide spectrum of delicate colors.

When they are blooming, camellias can be used for anything from a lovely centerpiece to a formal dinner table centerpiece, and they are generally care-

Mr. and Mrs. Raymond Collier and children visited Friday night in the home of his mother, Mr. and Mrs. J. E. Collier at Insdale.

New Uniforms For Trash Collectors

MIAMI, Fla. (AP)—Miami's 300 trash collectors blown out today in \$2,000 worth of green and orange uniforms.

The Department of Sanitation says there has been dissatisfaction with the appearance of the collectors, who dress according to individual taste.

The new green coveralls, emblazoned with orange letters reading "City of Miami" match the city's newly painted trash trucks.

'Respect For Women' Topic Of Zeta Lambda Meeting

The Zeta Lambda Chapter of Delta Kappa Gamma met Monday at 7 p.m. in the home of Mrs. Jack Gorman, 3927 Thirty-second Street. Guestesses were Rita Carter, Esther Boren, Zaida Brown and Joyce Gorman.

Virginia Grove, president, presided at the business session and Ruby Anderson gave the collect.

In observance of scholarship month, which is held throughout Texas during the month of February, the chapter voted to contribute one dollar per member to Alpha State's scholarship fund. A "Book Fair" was also held in connection with the local scholarship program. Members brought books and purchased them. The proceeds to be applied on a grant-in-aid fund for a graduating senior girl. Mrs. Marlene McCollum, chairman of professional affairs committee was in charge of the "Fair". The organization also voted to assemble cook books as a future grant-in-aid project.

Program topic for the evening, "Strengthening Respect for Women" was ably presented by a panel composed of Maurise Scott, Leota Burris and Delia McPherson. Sally O'Rear was panel moderator. High points covered in the discussion, which were related to women in today's world, were intelligence, temperament and influence, physical stamina, and versatility.

It was pointed out that more women are going to college and graduate school than ever before, and their academic successes have been impressive. Moreover, women are entering colleges long thought as being exclusively for men, and are giving their male classmates strong competition. Gifted women are expected to use their talents and education to make intellectual and social advances, and they are not disappointing the American public. Dr. Janet Travell, President Kennedy's appointed White House physician, was cited as one woman intellectual genius.

Since intelligence alone is not enough women must also reveal their temperament and influence. Ashley Montague says that women are more sympathetic than men and are better fitted for jobs requiring cooperation. It is to the advantage of civilization for women to exert their power and influence in the interest of mankind. Because of their tact women are used more and more in diplomatic services. Women influence the political world is being enhanced day by day. Women must exert more influence in home government.

Politics at the present time is a husband and wife partnership. Not only do they discuss politics together, but today's candidate and his wife are a team and are likely to hit the campaign trail together. Even children may be taken along because of their strong voters' appeal. This is a grueling work but both the candidate and the public find satisfaction in the version of family pulling together for a common cause.

Although women have proved they have intelligence, temperament and proper influential powers that is still not enough, they must also have the physical stamina for the grueling, tedious work found in most fields of endeavor. In defining the physical stamina of women, Mrs. McPherson said in part, "She has a built in medicine chest, anthropology discusses her adaptability, Ashley

Montague declares she belongs to a superior race, medicine measures her astonishing strength, and Philip Wyle declares her to be extremely aggressive. With these outstanding qualities it is no wonder that statistics show that women have less fatal accidents than men; that they are less prone to ulcers, alcoholism, gout and heart attacks. Healthier! Yes, by far."

Members attending besides those mentioned above were: Vela Bell, Agnes Kunkel, Lida Rhoades, Lillian Jones, Mary Deavenport, Vestal Manor, Barbara Bigham, Maydell Burns, Carol Miller, Eva Nelson, Bess Johnson and Dorothy Miller.

Battle Lines Being Drawn By Schoolboys

By The Associated Press
Cards for the state basketball tournament in Austin will be set this weekend as the top Texas high school teams battle in regional competition.

Three of the defending state champions have made it back to regional tournaments. They are Dallas Thomas Jefferson in Class AAA, Thomas in Class AAA and Bona in Class AA.

Jefferson faces a tough job in Denton, which won an early season game between the two, at Denton Friday night.

Other Class AAA titles match San Angelo and Haltom at San Angelo Friday night, Victoria at San Antonio Burbank Friday night, and Spring Branch and French Beaumont at Houston Saturday night.

Class B tournaments will be staged at Canyon, Stephenville, Sherman, Kilgore, San Marcos and Odessa.

Regional tournaments in Class AA will be held this weekend at Lubbock, Denton, College Station and Denton.

Between You and Me

The Snyder (Texas) Daily News, Thurs., Feb. 28, 1963 - 5
By Jerry Jackson

Canyon Reef Relays time is fast approaching, with a vast array of talented track prodigies from a wide area of the state scheduled to converge on Tiger Stadium for Saturday's annual runnings.

Preparations will be touched off at 9 a.m., with most of the finals set for the afternoon.

Barring any last-minute additions or pullouts, the Class A field (schools of 4 and 3A designation) will sport some 20 teams. Most will hail from the Panhandle-South Texas area.

The Class B runnings will sport a fine field of area teams, as supporters and advance scouts are currently on sale at the Canyon Reef Sports Center here and in Terrell.

College entrance exams took their toll in the Comanche Meet, so that an adequate appraisal was impossible to come by.

It happened in Lubbock Saturday night when Tech and Rice collided, though, and has evoked a lot of comment from Rice's coach, Johnnie Franklin.

Getting into a fight on a foreign basketball court in front of the home bench isn't the healthiest way to spend an evening, admittedly.

More owl blood was spilled, so far, than in any of the superior Raider weight numbers, but it seemed that Tech came out on the short end of the stick.

The fight in question blew up so fast that it was difficult to determine just who was at fault, but it looked like something of a 50-50 deal from my perch up in that end of the Coliseum.

Rice Tackle Banned From Further Play

HOUSTON (AP)—Rice University authorities ruled Wednesday that junior tackle Lewis Mazzurana, who failed to report a basketball horbe offer, can never again compete in athletics at the Houston school.

The 236-pound San Antonio lineman, who lettered as a member of the second team last year, thus received one of the strongest punishments ever dealt an athlete at Rice, although he can still remain a student.

"I don't know why this was done," Mazzurana said. "I haven't done a thing wrong other than keeping quiet about the bribe."

The big lineman said out hope he still would be able to play at Rice. "I still want to play at Rice and I think I will. We'll just have to wait and see," he said.

A spokesman at the Rice information office said: "Lewis Mazzurana will not be permitted to participate in intercollegiate athletics or to hold any office on the Rice campus during the remainder of his athletic career."

"It should be emphasized that Mazzurana has cooperated completely with the university, federal and state authorities in the basketball bribery investigation. This announcement does not represent an increase in the severity of action in this case."

The university spokesman said the change in Mazzurana's status was due to a misunderstanding between the intention of the university authorities and the athletic department and "it was the information from the beginning that Mazzurana would be barred from intercollegiate athletics at Rice."

Mazzurana roomed with Herb Stenkamp, who along with Dick Cramer, received an offer of \$500 each from a Rice sophomore, since expelled, to fix the result of the Rice-Baylor game Feb. 12.

Rice basketball Coach Johnny Frankie was informed of it by the two basketball players Feb. 5.

Because Mazzurana failed to report the offer, Rice football Coach Jess Neely announced Saturday his scholarship was being suspended. This was followed by the more severe penalty Wednesday.

APACHE JUNCTION, Ariz. (AP)—Bob Appenrogette and Bob Lillis, a pair of former Los Angeles Dodgers, became the first Houston Colt regulars to take part in spring training workouts.

Appenrogette and Lillis, who sealed up the left side of the Houston infield in outstanding fashion last season, engaged in broomfield drills in the first practice Wednesday, two days ahead of the first scheduled drill for outfielders and outfielders Friday.

Colt outfielder Al Spangler, Carl Warwick and Carroll Hardy checked into camp Wednesday and veteran Johnny Temple and rookie outfielder Rod Davis have been in camp several days.

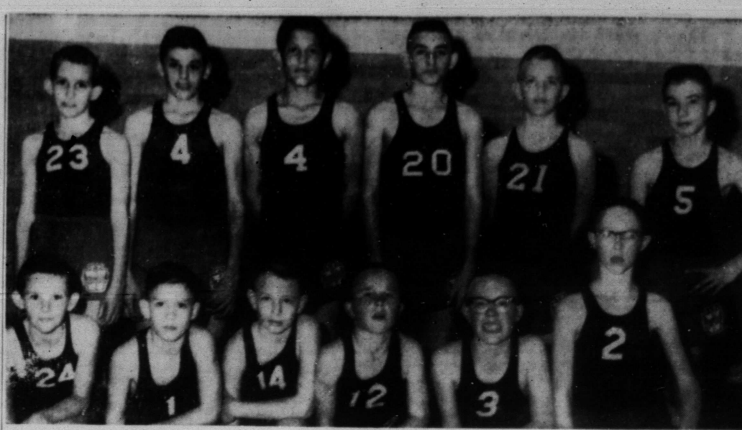

Manager Harry Craft sent his 39-man squad of pitchers and catchers through another routine day for conditioning.

Catcher Merritt Ranew continued as the only unsigned Colt.

CHICAGO (AP)—Light heavyweight Wayne Morris of Fort Worth outpointed Ed Sautler of Buffalo, N.Y., Wednesday night in the quarterfinals of the National Gloves Tournament of Champions.

In the heavyweight division, Claude Devenport of Dallas was outpointed by Wyc Westbrook of Cincinnati.

In the 160-pound division, Gary Barcroft of Fort Worth outpointed Walter Rogers of Springfield, Ill. Eddie Gonzalez of Amarillo, fighting in the 118-pound division, outpointed Duane Mann of Minneapolis.

BOYS' CLUB ALL-STAR'S Bound For State Tournament

Wichita Falls Becons BC Basketball

A delegation of Scurry County Boys' Club all-star cagers are scheduled to appear in the state Boys' Club basketball tournament of Friday and Saturday. Site of the dueling is Wichita Falls, and the Scurry team will face the Fort Worth Panther team in its opener of 7:30 p.m. Friday at the Southeast Branch Boys' Club.

A victory Friday night would place the Scurry Countians in a 10 a.m. Saturday game, while a loss would put them out of contention in the single elimination tournament. Finals in the tourney are set for 1 p.m. Saturday.

Leland Herod and Bill McLaughlin are coaches of the local all-star team. Making up the playing roster are Doyle Gailman, Leland Herod, Steve Holder, Mitch Ramlin, Ricky Thompson, Jodi Williamson, Steve Burnage, Jay Haigwood, Raymond Ross, Randy Rushing, Kenny Sehested, and Benny Ward.

At Smith, now with Baltimore, led the Chicago White Sox in home runs last season with 16.

Colt Twosome Begins Work

APACHE JUNCTION, Ariz. (AP)—Bob Appenrogette and Bob Lillis, a pair of former Los Angeles Dodgers, became the first Houston Colt regulars to take part in spring training workouts.

Appenrogette and Lillis, who sealed up the left side of the Houston infield in outstanding fashion last season, engaged in broomfield drills in the first practice Wednesday, two days ahead of the first scheduled drill for outfielders and outfielders Friday.

M-M Boys Signed To Fat Contracts

FORT LAUDERDALE, Fla. (AP)—They win more than any one else, but otherwise the New York Yankees aren't apt to cause much of a radical stir in major league baseball.

They shook off the cloak of conservatism Wednesday, however, when they:

1. Signed slugger Mickey Mantle for \$100,000.

2. Displayed the contract for all to see.

3. And then lanked slugger Roger Maris for \$72,000 virtually before the ink was dry on Mantle's contract.

96 Keglers On Hand For Charity Classic

HOUSTON (AP)—The \$25,000 Houston Professional Bowling Association Charity Classic gets underway today with a field of 96 players.

The field includes both the previous champions, Dick Weber and Don Carter, both of St. Louis.

Speaking of "cagey" gang fights, the word here is that the Steer-Apple brawl a while back in Austin was mapped out, planned, and a word-of-mouth publicized event among college students over much of the state some time before it ever took place.

Regardless of which school was to blame, the "word" was out.

CHICAGO (AP)—Light heavyweight Wayne Morris of Fort Worth outpointed Ed Sautler of Buffalo, N.Y., Wednesday night in the quarterfinals of the National Gloves Tournament of Champions.

Devenport Decided

CHICAGO (AP)—Light heavyweight Wayne Morris of Fort Worth outpointed Ed Sautler of Buffalo, N.Y., Wednesday night in the quarterfinals of the National Gloves Tournament of Champions.

In the heavyweight division, Claude Devenport of Dallas was outpointed by Wyc Westbrook of Cincinnati.

In the 160-pound division, Gary Barcroft of Fort Worth outpointed Walter Rogers of Springfield, Ill. Eddie Gonzalez of Amarillo, fighting in the 118-pound division, outpointed Duane Mann of Minneapolis.

San Angelo Junior College with a 22-3 record was picked as the top team in the nation.

Herbert Johnson of Jacksonville Baptist Junior College took individual honors with 938 points in 28 games for a 33.5 average. Johnson also had 67 points in a single game this year for a new association record.

San Angelo College Tops In Its Class

BODGE CITY, Kan. (AP)—Texans have captured the top team and individual scoring honors in the final basketball coaches poll of the season, the National College Athletic Association.

San Angelo Junior College with a 22-3 record was picked as the top team in the nation.

Herbert Johnson of Jacksonville Baptist Junior College took individual honors with 938 points in 28 games for a 33.5 average. Johnson also had 67 points in a single game this year for a new association record.

San Angelo Junior College with a 22-3 record was picked as the top team in the nation.

Herbert Johnson of Jacksonville Baptist Junior College took individual honors with 938 points in 28 games for a 33.5 average. Johnson also had 67 points in a single game this year for a new association record.

Why the Yankees exhibited Mantle's signed contract to newsmen was not explained, but probably because the document put the Oklahoma in a small circle of baseball's 100 grandest. Willy Mays signed for that amount last year with the San Francisco Giants and Stan Musial, Ted Williams and Joe DiMaggio have been the only others in the club. DiMaggio, the Yankee Clipper

Who's the best? The Class A field (schools of 4 and 3A designation) will sport some 20 teams. Most will hail from the Panhandle-South Texas area. The Class B runnings will sport a fine field of area teams, as supporters and advance scouts are currently on sale at the Canyon Reef Sports Center here and in Terrell. College entrance exams took their toll in the Comanche Meet, so that an adequate appraisal was impossible to come by. It happened in Lubbock Saturday night when Tech and Rice collided, though, and has evoked a lot of comment from Rice's coach, Johnnie Franklin. Getting into a fight on a foreign basketball court in front of the home bench isn't the healthiest way to spend an evening, admittedly. More owl blood was spilled, so far, than in any of the superior Raider weight numbers, but it seemed that Tech came out on the short end of the stick. The fight in question blew up so fast that it was difficult to determine just who was at fault, but it looked like something of a 50-50 deal from my perch up in that end of the Coliseum. More owl blood was spilled, so far, than in any of the superior Raider weight numbers, but it seemed that Tech came out on the short end of the stick. APACHE JUNCTION, Ariz. (AP)—Bob Appenrogette and Bob Lillis, a pair of former Los Angeles Dodgers, became the first Houston Colt regulars to take part in spring training workouts. Appenrogette and Lillis, who sealed up the left side of the Houston infield in outstanding fashion last season, engaged in broomfield drills in the first practice Wednesday, two days ahead of the first scheduled drill for outfielders and outfielders Friday. Colt outfielder Al Spangler, Carl Warwick and Carroll Hardy checked into camp Wednesday and veteran Johnny Temple and rookie outfielder Rod Davis have been in camp several days. Manager Harry Craft sent his 39-man squad of pitchers and catchers through another routine day for conditioning. Catcher Merritt Ranew continued as the only unsigned Colt. CHICAGO (AP)—Light heavyweight Wayne Morris of Fort Worth outpointed Ed Sautler of Buffalo, N.Y., Wednesday night in the quarterfinals of the National Gloves Tournament of Champions. In the heavyweight division, Claude Devenport of Dallas was outpointed by Wyc Westbrook of Cincinnati. In the 160-pound division, Gary Barcroft of Fort Worth outpointed Walter Rogers of Springfield, Ill. Eddie Gonzalez of Amarillo, fighting in the 118-pound division, outpointed Duane Mann of Minneapolis.

San Angelo Junior College with a 22-3 record was picked as the top team in the nation. Herbert Johnson of Jacksonville Baptist Junior College took individual honors with 938 points in 28 games for a 33.5 average. Johnson also had 67 points in a single game this year for a new association record.

100 YEARS OF MASONIC SERVICE are represented by two brothers as Mrs. Lee T. Stinson, left, and Mrs. Joe C. Stinson, right, attach the 50-year pins their husbands had just received from District Deputy Grand Master Woodrow Pratt, center, in ceremonies Tuesday evening at the Lodge H5.

UNABLE TO ATTEND the 50-year presentation ceremony at the Masonic Lodge, but still receiving a gold pin and recognition certificate was Irby H. Jones. Mrs. Jones and Worshipful Master Lloyd Arnold of the Scurry Lodge also view the certificate which cites his 50-year achievement.

Moore Trial Halted For Half A Day

LONGVIEW (AP)—There was a half-day halt today in the trial of Dist. Judge David Moore, which resumed after vigorous defense attacks on a well-surveyed evidence.

Court was to reconvene at 1 p.m. This permitted one of the jurors to attend the funeral of an uncle.

Moore is being tried in his own court on charges of stealing oil through a well angled under a lease owned by others.

Testimony at a session lasting until 10 p.m. centered on a directional survey made on a well operated by Moore in the East Texas Field.

Questioning centered on nine "dog legs" or abrupt changes in direction reported by the Eastman Oil Well Survey Co. in the final 1,000 feet of the Moore-M. F. Fisher Well.

The defense contended no well with contours like those in the survey could produce oil.

Jimmy Stalon of Houston, a directional survey engineer for Eastman, testified he and Renne Packard leased the well.

Defense lawyer Fred Eriman asked the young Stalon about the effects of minerals, spindles, sewer lines and other metals on compass readings taken in a survey.

John Baker of Fort Worth an independent civil engineer, testified for the state that he had in fact a 29-minute difference in true north from the Eastman report to determine the bottom of the Moore well.

John Mouton of New Orleans, another Eastman employee, said he had made a plotting of the Moore well. He said that the drawings of the "dog legs" were correct "within a degree or two."

Tony Crutchfield of Kilgore, a Railroad Commission engineer, testified he assisted in a directional survey on the Moore well but he merely recorded data called to him by an Eastman employee.

Method Sought To Remove Strontium

LONDON (AP)—Britain will set up a research plant to seek ways of removing strontium, the most dangerous element in radioactive fallout, from milk.

Lord Halsbarn, minister of science, told the House of Lords Wednesday night the plant will be slightly larger than an experimental plant in the United States. He said the two plants will exchange information.

Government sources said the British plant would cost about \$36,000.

F105 Jet Plunges To Bombing Range

TAMPA, Fla. (AP)—A supersonic F105 jet plunged to the Avon Park Bombing Range while making a practice run Wednesday.

The pilot, Lt. Col. Marion C. Peltz, temporarily based at MacDill Air Force Base, was killed. Peltz was from the 4th Organizational Maintenance Squadron of Seymour Johnson Air Force Base, N.C.

Texas Schools Above Par In Some Areas; Low In Others

WASHINGTON (AP)—The National Education Association indicates Texas schools are above average by some yardsticks but fall short of upper national standards in many others.

The statistics disclosed today by the researchers are state averages and fall in line with other cities' schools or another's are excellent. The figures often are estimates.

Some figures for Texas show: For instance, the state ranks fourth in the nation in percentage of elementary teachers with at least a bachelor's degree, and third nationally in percentage of high school teachers with masters degrees or better.

On the other hand, the state ranks a tie with Connecticut for 36th rank in the per cent of elementary teachers with less than standard teaching certificates.

The association cites two other measurements.

One is the number of eighth grade pupils finishing high school. Texas ranks 38th among the states in percentage of students completing high school after finishing the eighth grade. The percentage is 60.6, while the national figure is 70.6 and Wisconsin leads with 82.3 per cent.

Expenditure per pupil in Texas is \$379, ranking the state 33rd, compared with a national average of \$432. New York is No. 1 with \$645.

Texas shows considerable variation as compared with other states in where the money for the schools comes from.

The state ranks 17th in state support but ranks 34th in local financial support of its schools.

Texas ranks 48th in state government costs of all kinds, yet ranks 28th in per capita spent on education, showing the stress laid on that function of government.

Texas ranks above the average in percentage of the state's personal income spent for grammar and secondary school education. The percentage is 4.3 while the national average is 4.6. This gives Texas a tie with four other states for the 17th, through 20th places.

The state falls somewhat below the national average in pay for instruction in primary and secondary schools. The state average is \$5,453, while the national figure is \$5,446. California is No. 1 with \$7,300, excepting Alaska where costs of living make any comparison incorrect, the association reported.

Texas is near the average in teacher load—26 pupils. The national load is 23.6.

The report touched only briefly on college and university matters, but noted that Texas ranks 28th

10 Years Ago
From The Snyder Daily News
Feb. 28, 1952

Nine Scurry County men were called for induction into the Armed Forces March 12.

Of those, two men volunteered for induction. They were Joe Dwan Brown and James William Hark. Called from Snyder were Richard D. Nall, Morris Lon Chandler, Jimmie Dee Halsey, Robert Doyle Newman, Perry Thomas Smith and G. W. Lewis. Also called were Jackie Ames Reames of Wichita Falls, formerly of Snyder, and Don Marvin Drum of Pinyank.

Malver Stevenson, 32-year-old Snyder grocer and city councilman, was named outstanding young man of the year Friday night by the Junior Chamber of Commerce.

5 Years Ago
From The Snyder Daily News
Feb. 28, 1957

Formal opening of Snyder's newest supermarket, the JRB Bazaar No. 2 on the Big Spring Highway has been announced for tomorrow, Thursday, Friday and Saturday.

A committee of citizens who had been circulating petitions for a bond election proposing a recreational center for youth as a part of the county park system yesterday afternoon started in their petitions in a meeting with the county commissioners court.

Protein Is Offered In Many Forms

By The Associated Press

Protein is offered in a host of attractive forms—both meat and Lenten non-meat—at the nation's supermarkets this weekend.

Beef and pork prices continue low or lower, with heavy late winter livestock marketing. There also are several poultry attractions.

Eggs took a drop in most markets, fresh and canned seafood items are plentiful and cottage cheese, other cheeses and dairy products in general are economy-priced.

Among beef offerings, roasts are strongly featured. A sampling of some price tags at a national chain includes rib roasts, at 89 cents a pound, round roasts, 85 and rump roasts 89.

Both cured and fresh pork items are economically priced.

Poultry features include turkey, in the Midwest especially, chicken in fryers, particularly in the Southeast, and roasting chickens.

Fresh vegetable offerings include cabbage, radishes, tomatoes, celery, onions and potatoes. Iceberg lettuce has come down in price at the same time quality has risen.

Fruit buys continue to be bananas, apples, pears and canned cherries. Also, citrus prices are slipping downward, with oranges, lemons and grapefruit becoming more attractive.

Actor Paul Lukas Reported Married

HOLLYWOOD (AP)—Actor Paul Lukas, replying to rumors he is married or is planning to marry a young Mexican girl, said, "I've never known what's going to happen with a crazy man like myself."

Lukas, 58, was questioned Wednesday about a report he was planning to wed Anita Mexena of Mexico.

A friend who declined to be named, quoted Lukas as saying the wedding took place at the American Embassy in Madrid before Lukas came to this country several months ago.

Lukas' wife, Daisy, died about a year ago, after they had been separated for a number of years.

Moore Trial Halted For Half A Day

LONGVIEW (AP)—There was a half-day halt today in the trial and theft trial of Dist. Judge David Moore, which recessed after vigorous defense attacks on a well survey offered in evidence.

Court was to reconvene at 1 p. m. This permitted one of the jurors to attend the funeral of an uncle.

Moore is being tried in his own court on charges of stealing oil through a well assigned under a lease owned by others.

Testimony at a session lasting until 10 p. m. centered on a directional survey made on a well operated by Moore in the East Texas Field.

Questioning centered on nine "dog legs" or abrupt changes in direction reported by the Eastman Oil Well Survey Co. in the final 1,000 feet of the Moore-M. F. Fisher Well.

The defense contended no well was contiguous like those in the survey could produce oil.

Jimmy Station of Houston, a directional survey engineer for Eastman, testified he and Remo Paskard tested the well.

Defense lawyer Fred Ericson asked the young Station about the effects of an error in a pipeline, never lines and other metals on compass readings taken in a survey.

John Baker of Fort Worth, an independent civil engineer, testified for the state that he had to correct a 29-minute difference in true north from the Eastman report to determine the bottom of the Moore well.

John Mouton of New Orleans, another Eastman employee, said he had made a geologist's log of the Moore well. He said defense drawings of the "dog legs" were correct "within a degree or two."

Tony Crutchfield of Kluge, a Railroad Commission engineer, testified he assisted in a directional survey on the Moore well but he merely recorded data called to him by an Eastman employee.

Texas Schools Above Par In Some Areas; Low In Others

WASHINGTON (AP)—The National Education Association indicates Texas schools are above average by some yardsticks but fall short of upper national standards in many others.

The statistics disclosed today by the researchers are state averages and fail to note where one city's schools or another's are excellent. The figures often are estimates.

Some figures for Texas show advantages.

Feb. 28, 1953

Formal opening of Snyder's newest supermarket, the JRB Rainbow No. 2 on the Big Spring Highway, has been announced for tomorrow, Thursday, Friday and Saturday.

A committee of citizens who had been circulating petitions for a bond election proposing a recreational center for youths as a part of the county park system yesterday afternoon turned in their petitions in a meeting with the county commissioners court.

Protein Is Offered In Many Forms

By The Associated Press

Protein is offered in a host of attractive forms—both meat and Lenton non-meat—at the nation's supermarkets this weekend.

Beef and pork prices continue low or lower, with heavy late winter livestock marketing. There also are several poultry attractions.

Eggs took a drop in most markets, fresh and canned seafood items are plentiful and cottage cheese, other cheeses and dairy products in general are economically priced.

Among beef offerings, roasts are strongly featured. A sampling of some price tags at a national chain includes rib roasts at 69 cents a pound, round roasts 85 and rump roasts 89.

Both cured and fresh pork items are economically priced.

Poultry features include turkey, in the Midwest especially, chicken fryers, particularly in the Southeast, and roasting chickens.

Fresh vegetable offerings include cabbage, radishes, tomatoes, celery, onions and potatoes. Iceberg lettuce has come down in price at the same time quality has risen.

Fruit buys continue to be bananas, apples, pears and canned cherries. Also, citrus prices are slipping downward with oranges, lemons and grapefruit becoming more attractive.

Actor Paul Lukas Reported Married

HOLLYWOOD (AP)—Actor Paul Lukas, replying to rumors he is married or is planning to marry a young Majovcan girl, said, "You never know what's going to happen with a crazy man like myself."

Lukas, 62, was questioned Wednesday about a report he was planning to wed Anna Mescina of Majorca.

A friend, who declined use of his name, quoted Lukas as saying the wedding took place at the American Embassy in Madrid before Lukas came to this country several months ago.

Lukas' wife, Hana, died about a year ago after they had been separated for a number of years.
