Rebel Capture Of Juarez Is Expected Early Today Governor Moody Vetoes Emergency Educational Bill

Summer Sessions Appropriations Left Untouched

Reasons For Striking Requests Of Schools Are Listed; Revenue Inadequate For Funds

Bill Up For Today

Action Leaves Tech Without Funds For Equipment; Rural Aid Removed From List Also

(By Associated Press)
AUSTIN, Mar. 7.—Governor Moody late today vetoed all of the items carried in the \$1,447,670.17 emergency educational appropriation bill, except the 1928 summer school provisions, the \$175,000 rural aid and a few other items. Items untouched by the blue pencil aggregate less than \$300,000.

The deplorable condition of the general revenue fund as of next September 1, was given as his reason for whittling the bill.

"There are but two things that can be done, either these appropriations must be cut down, or you must find other sources of revenue to meet the payment of your appropriations," the governor said in his message. "The latter can be done alone by you, but I can undertake, in co-operation with you, to reduce these appropriations."

Bill Considered Today
Senator Pollard, chairman of the senate finance committee and author of the bill, said the bill would be set for consideration as special order tomorrow afternoon.

Governor Moody pointed out that appropriation bills enacted at this session of the legislature, including the educational measure, aggregated \$2,182,539.22.

Quoting figures from the comptroller's office, the governor said the cash balance in the general revenue fund on September 1, if no appropriations are made by the 41st legislature, will be \$1,924,756.43.

"It is my judgement that this estimate is liberal, and that the balance on September 1, omitting from consideration any appropriations of the 41st legislature, may not exceed the sum of \$1,500,000."

Exceed Expectant Revenue
"But assuming the estimate of the

Charges Against McCloskey Ousted

Former Bexar County Judge To Fill Seat In Congress; Judge Moore Dismisses Four Indictments

(By Associated Press)
AUSTIN, Mar. 7.—Congressman-elect Augustus McCloskey of San Antonio today was free of criminal charges, after Judge J. D. Moore of Travis county district court had dismissed four indictments charging him with alteration of election returns.

He was acquitted on February 23 by a jury of having altered election returns from one Bexar county precinct.

McCloskey is in Washington, where he will present a certificate of election to the senate, occupied by Congressman Harry M. Wurzbach, only Texas republican congressman. Wurzbach has filed notice of contest before the house, claiming returns on which the state canvassing board issued McCloskey's certificate of election did not reflect the true results.

GAMBLER IS CHARGED

Ed Wilson Named For Death Of "Fatty" Walsh

MIAMI, Fla., Mar. 7.—A warrant charging first degree murder was issued tonight for Ed Wilson, alleged gambler of New York, Chicago and Miami, charging him with the murder of Thomas "Fatty" Walsh, shot and killed in a suite of rooms in a Coral Gables hotel this morning.

Walsh was body guard for Arnold Rothstein, New York gangster killed mysteriously several months ago.

Hoover Intends To Visit Texas Soon

WASHINGTON, Mar. 7.—(P)—President Hoover told R. B. Creger, republican national committeeman for Texas today, that he intended to visit the Lone Star state but he probably would be unable to get away from Washington for any extended trip during the special session of congress.

Stewart Loses His Fight To Retain Standard Oil Board's Chairmanship

Relatives Declare Fritts As 'Queer' In Trial At Anson

Mother And Sister Of Hamilton Boy Tell Of Details Of Shooting; Plea Of Insanity Made

(By Associated Press)

ANSON, Mar. 7.—Testimony by relatives of Bill Fritts that he had been "irresponsible" at periods in his life, had attempted suicide several times, and had "acted insanely," featured today's hearing of Fritts' trial for the murder of Earl Hamilton, 17, son of a prominent Haskell county family, last fall near Rochester.

Defense efforts to substantiate the insanity plea began only an hour before court adjourned, after the state had spent most of the day introducing witnesses to the shooting and entering statements Fritts was alleged to have made two days after the slaying. Fritts, in the statements, said he shot D. W. Hamilton and his son, Earl, because Earl "had sworn falsely against him."

Testimony was introduced to show that Earl had appeared before a Haskell county grand jury and told of buying whiskey from Fritts.

Mrs. D. W. Hamilton, widow and mother of the slain men, told of the shooting, which took place in the front yard of the Hamilton home. She said the two men were summoned into the yard by Fritts, and that a moment later there was a succession of shots. Her son, Earl, fell inside the door, she said. Fay Hamilton, a sister of Earl, also described the shooting.

Anton Building Bonds Approved

AUSTIN, March 7. (P)—The attorney general's department today approved a school bond issue of \$45,000 for the Anton independent school district in Lamb and Hockley counties.

GETS 5-MONTH TERM

E. S. Pendergrass Pleads Guilty To Thefts

Upon entering a plea of guilty to charge of theft of chickens, before Judge Robert H. Bean, in county court yesterday, E. S. Pendergrass was sentenced to five months in jail and a fine of \$5.

Trial of J. E. Renz, on another chicken theft charge, yesterday, resulted in Judge Bean assessing a fine of \$25 and sentencing Renz to 30 days in jail.

CATTLE ARE ARRIVING

Fat Stock Show To Open In Fort Worth Tomorrow

FORT WORTH, Mar. 7. (P)—First exhibition cattle for the Southwestern Exposition and Fat Stock Show began arriving here today as final touches were being put on the coliseum and buildings in preparation for Saturday opening.

For the first time in airplane exhibit will be shown.

MAKES ROUND TRIP

Army Flier Makes Flight From Capital To Texas

WASHINGTON, March 7. (P)—A round trip flight from Washington, to Kelly Field, Texas, estimated at 3,000 miles, was completed tonight by Captain Ross G. Hoyt, of the army air corps, who piloted one of the refueling planes in the endurance flight of the Question Mark. Captain Hoyt ended his flight at Bolling field here.

FOUR NEGROES BURN

Fire Destroys Small House On Farm Near Ennis

ENNIS, Mar. 7. (P)—Three children of Ike Shaw and his wife, negroes, were burned to death in a fire that destroyed a small house on the J. D. Hunter farm near here today. The parents were working in the field when the fire started. Origin of the fire is unknown.

KITTLELAND TRIAL OPENS

BRYAN, Mar. 7.—(P)—Submission of testimony began here today in the trial of James Kittleland, charged with murder for the death of Henry Walker at Midway, Madison county, last May.

The Winner And Loser In Fight

Position Abandoned By Group; Shower Of Votes Cast

(By Associated Press)

WHITING, Ind., Mar. 7.—Col. Robert W. Stewart lost his long battle with John D. Rockefeller, Jr., to retain his \$125,000 a year position as chairman of the board of the Standard Oil Company of Indiana.

Mr. Stewart went down to a defeat more decisive than had been predicted by the Rockefeller group, which had demanded his resignation because of alleged "moral unfitness," but he left the annual stockholders meeting with the plaudits of the record gathering ringing in his ears.

The position of chairman, from which Stewart was ousted by more than 2,000,000 votes, was abandoned by the new board of directors which met immediately after being elected.

Edward G. Seibert, president of the corporation, was reelected and made chief executive officer. He will take over the duties of Stewart, whose successor on the board is William M. Burton, former president of the concern.

The new board of eleven has three additions, Melvin A. Traylor, president of the First National Bank of Chicago, Gentry Cash, manager of the Whiting Refinery and Thomas S. Cooke, former superintendent of the Whiting plant and now a vice president of the Pan-American Petroleum and Transport Corporation.

Stated presented by the Rockefeller faction and Stewart supporters here identical with the exception of Stewart, Mr. Burton and Mrs. Traylor. Traylor was named to succeed Louis L. Stephens, who, although

See OIL FIGHT, Page 2

Escape From Sub 200 Feet Below

ABOARD U. S. S. MALLARD OFF KEY WEST, Fla., Mar. 7. (P)—From a depth of 200 feet, Lieutenant C. B. Momen, and chief torpedo man, Edward Kalnowski successfully escaped from the submarine S-4 late today. It was the first time a man ever has been submerged to that depth outside a vessel and lived. They escaped by means of the safety device being tested out in these waters.

Sixty-Mile Gale Sweeps East Coast

Large Liner Driven Ashore In Gotham Bay; Three Persons Killed, Many Hurt, Much Property Lost

(By Associated Press)
NEW YORK, Mar. 7.—A dying winter took on new life today and rampaged over some of the northern states and eastern Canada, causing at least three deaths, scores of injuries and serious property damage.

A 60 mile gale drove the In-bound Lamport and Holt liner Van Dyck, sister ship of the lost Vestris, aground on Governor's Island in upper New York bay, but several hours later the vessel was hauled off and docked with her 245 passengers from South America.

Sweeps Through Gotham
The gale swept throughout New York City, blowing a smokestack from the top of a 15 story hotel and ripping sheet iron from the roof of a freight station in Brooklyn.

The storm toppled over a huge crane at the Bethlehem steel plant at Coatesville, Pa., one man was killed and the operator of the crane was badly hurt.

Near London, Ontario, a railroad sectionman was fatally injured when struck by a train as he was patrolling the track in a snow storm. At Goderich a man was blown from a roof and killed.

Buffalo In Grip Of Winter's Worst Storm

BUFFALO, N. Y., Mar. 7.—(P)—Buffalo today was in the grip of the winter's worst blizzard, a 74-mile an hour gale roaring in out of the west this morning, accompanied by blinding snow, lashing the water front into such a fury that steamers and tugs sank or drifted dangerously along the Buffalo river.

The toll of injured in the city had mounted to five, windows were shattered, several roofs blown in, and thousands of dollars worth of damage caused.

H. LASTER THOUGHT HURT

AMARILLO, Mar. 7. (P)—A man, thought to be H. Laster, of Dallas, was injured tonight when his automobile turned over near here to-night.

Mexican Capital Is Undisturbed

MEXICO CITY, Mar. 7. (P)—Bull fights, theaters and cabarets continue to do business in Mexico City in spite of the revolution and even the national custom of taking a siesta every day has not been disturbed by the rebellion.

Crowds go about the city apparently unaware that fighting is in progress and all business houses are going ahead with the projects they were pushing before the revolt. For next Sunday the bull ring is advertising a big spectacle, a fight between a lion and a bull.

About the only signs of the military situation that can be noted are the frequent meetings at Chapultepec Palace, the President's home, where war councils are in progress, and the occasional movement of troops through the streets.

Political Bill Is Passed In House; Goes To Governor

Protests Of Move To Split Party In Texas Ignored Last Night In Voting; Aimed At Bolters

(By Associated Press)
AUSTIN, Mar. 7.—Ignoring protests that the move would split the party, the house tonight gave authority to the democratic executive committee of 31 to prescribe the qualifications of its voters and determine what names should be placed on ballots at primary elections.

In passing the measure 71-50, the house followed the senate. The bill now goes to Governor Moody.

Aimed at Hoover democratic leaders who to the house substituted Johnson of Carrizo Springs effecting a change to provide that funds paid as reimbursements to counties should be used in redeeming highway obligations unless two-thirds of the voters desired to make use of the fund for lateral roads.

Two Trends of Thought Up
Throughout the proceedings, lawmakers furthering the issue con-

PLAN BIG PIPE LINE

Houston Gas Company Begins On 110-Mile Line

NEW YORK, Mar. 7. (P)—United Gas Company, Houston, has started a survey for a 110-mile pipe line to cost \$2,500,000 from its Refugio, Texas, natural gas properties to San Antonio and Austin, it was learned today.

Shooting Claims Lives Of Two Men

SAN ANTONIO, Mar. 8. (P)—Two men are dead as the result of a shooting in the shops of a motor sales company here late today.

A man identified by city detectives as Kirby Edwards, 36, died shortly after the shooting.

Ed O. Moffett, Jr., 22, collector for the company, died three hours later.

Moffett was shot twice by Edwards, who turned his gun on himself, according to O. T. Wilke, an employee of the company, who was a witness to the shooting.

CAMPAIGN PLANNED

Stout Proposes \$250,000 Endowment For T.W.C.

FORT WORTH, Mar. 7. (P)—A decision to conduct a campaign to raise \$250,000 for endowment purposes for Texas Woman's College was announced today by Dr. H. E. Stout, president.

Two Hundred Merchants Of Lubbock And South Plains In Attendance At Annual Banquet; Sulley Is Speaker

Two hundred merchants of Lubbock, guests and visitors from adjacent towns of the South Plains were in attendance at the annual banquet of the Lubbock Retail Merchants association, held at Our Cafeteria last night, the big feature of which was a masterful address on Merchandising, by G. W. Sulley, educational director of the National Cash Register company, Dayton, Ohio.

Six new directors of the association were elected, namely, W. B. Price, Tom A. White, Paul Sherrod, E. L. Robertson, Joe Nislar and G. P. Kuykendall.

President J. D. Hassell, acting as toastmaster, told the gathering that the Lubbock association had a total of 143 members on its roster and that there were now 23,000 cards in the files of the organization, as compared to 18,500 a year ago; that the growth experienced had been phenomenal. He

House Engrosses Bill Calling For Road Program

Engrossment Comes On Vote Of 94 To 41 Last Night; Supporters Of Movement Are Surprised

Passage Possible
Action Taken After Hours Of Debate And Efforts To Make Changes In Program; Big Debt Feared

(By Associated Press)
AUSTIN, Mar. 7.—Sagging hopes of House passage of a constitutional amendment for submission of a \$175,000,000 highway bond issue in September were bolstered tonight through engrossment of the resolution by a 94-41 vote.

The ballot, taken after hours of debate, revealed only six votes needed to reach the two-thirds majority required for final sanction before the amendment can be acted on at the polls.

Even those who had taken the lead in the long fight for the amendment were surprised at the unexpected strength, and the situation resolved itself into an attempt to hold those votes already in the highway bond column and swing still others into line.

Place House Under Call
Proponents made certain that a bare quorum which had answered roll call earlier in the week would be kept by placing the house under call.

In passing the amendment to the reading, the house substituted it by an 88-23 vote for the Woodliff-Williamson proposal passed by the senate and carrying committee room amendments unsuitable to backers of the state-wide highway proposition.

Many proposed changes in the substituted draft were attempted. Johnson of Carrizo Springs effected a change to provide that funds paid as reimbursements to counties should be used in redeeming highway obligations unless two-thirds of the voters desired to make use of the fund for lateral roads.

Two Trends of Thought Up
Throughout the proceedings, lawmakers furthering the issue con-

Jury Given Ruby Case Last Night

Testimony In Trial Is Completed Late Thursday; To Give Verdict Today; Evidence Documentary

Following completion of testimony at noon and arguments by attorneys in the afternoon, the case of the State of Texas versus M. S. Ruby, charged with swindling, was given to the jury in the Ninety-Ninth district court here late last night. The jury will report its findings this morning.

Twelve witnesses testified during the course of the trial, which began before Judge Clark M. Mullican last Monday afternoon. Ruby, who is former city manager of Lubbock, is charged with swindling to the amount of \$147,255. Evidence introduced consisted of considerable documentary testimony.

Attorneys for the state were Lockhart, Garrard and Brown, and District Attorney Durwood Bradley, and for the defense, Schenck and Triplett. The jury is composed of the following: S. W. Jarvis, R. M. Lambert, Clyde McCrummen, Jack Smith, Sam McDonald, W. D. Harris, L. E. Teal, L. M. Phillips, G. E. Key, E. P. Johnson, J. D. Adkisson and C. P. Carlson.

Lindbergh To Open New Airmail Line

NEW YORK, Mar. 7. (P)—J. F. Trippe, president of Pan-American Airways, Inc., announced today that Col. Charles A. Lindbergh will pilot a plane from Mexico City to Brownsville, Texas, Saturday morning to inaugurate the corporation's latest air mail and passenger route.

On Sunday, Mr. Trippe's statement said, Lindbergh will inaugurate the first southbound service over the route, leaving Brownsville at 10 a. m. and arriving at Mexico City at 3:30 p. m.

Officials of the United States and Mexican governments have been invited to participate in the flights and celebratory programs have been arranged in Brownsville and Mexico City.

Fortifications Of City Strengthened As Attack Awaited

Guns Are Placed At Every Vantage Point In Border City; Refugees Make Way Back To Texas Side

U. S. Is Prepared

Two French 75's Are Mounted Near International Bridge; Firing Is Heard In El Paso Thursday

(By Associated Press)
EL PASO, Mar. 7.—Resonant of the rumbling waves of revolt, Juarez, frontier city of the Mexican border, tonight was a battlefield, with the forces of the Porfirio Gil government of Mexico and revolutionary elements fighting from the prize almost within a stone's throw of the Rio Grande.

Under the sinister gaze of two French 75's, mounted near the international bridge in El Paso, merely as a word of warning from the United States government, the city was in a state of confusion as the

Detroit Man Is Head Of Schools

Frank Cody, superintendent of Detroit's schools, has been chosen head of the National Educational Association, convening in Cleveland.

Special Session Of Congress For April 15 Called

Farm Relief And Tariff Revision To Be Considered In Session; General Law Enforcement Talked

(By Associated Press)
WASHINGTON, Mar. 7.—President Hoover cleared the way today for solution of two of the three most pressing government problems by calling the last congress to meet in extraordinary session April 15 to consider further farm relief and limited tariff revision.

He also gave further consideration to appointment of the national commission to take up the third problem—general law enforcement with particular reference to prohibition and abuses around its operation.

While the President mentioned only farm relief and tariff revision in his proclamation, the special session of the new congress cannot be limited to consideration of these subjects. In fact the executive can place no limitation on its action.

Re-Appointment To Be Up
After a talk with Hoover, Senator Vandenberg, republican, Michigan, predicted that the senate would act first upon the resolution authorizing the 1930 census and providing for the re-appointment of the membership of the house of representatives on a basis of three years.

It may be that the national origins provision of the immigration law also may be considered further.

Two Men Killed As Oil Well Blows In

SANTA BARBARA, Cal., March 7. (P)—Two men were dead tonight and several others were in a serious condition when a gas well blew in when the Continental Oil company's Franklin No. 1 wild cat well in Carpinteria, Cal., went out of control through heavy gas pressure.

L. Ivanoff, Russian oil worker, sent to this country by his government to study the industry, and Lynn Watson, 22, another worker, were the dead.

Charles Dupey, 27, and W. Aber, 32, were among the seriously injured.

FIRE FATAL TO THREE

Mother, Two Young Sons Die As Home Burns

DAYTON, March 7. (P)—Mrs. Fred Young, 35, and her two sons, William, 4, and James, 2, were burned to death tonight when fire destroyed their home near here. Fred Young, 36, the woman's husband, and two other children, Virginia, 6, and Robert, an infant, were seriously burned.

LULING MAN KILLED

James R. Wilson Dies After Oil Field Accident

LULING, Mar. 7.—(P)—James R. Wilson, 34, died here today of injuries received Monday when he was struck by a crown block of a derrick in the oil field near here.

AUSTIN, Mar. 7. (P)—Bob Perry, Donley county, serving three years for prohibition violation, was paroled by Governor Moody today.

Excitement Is High

JUAREZ, Mexico, March 7. (P)—Excitement was at fever pitch here late tonight as the city awaited an attack by revolutionaries, reported on by revolutionaries. Revolutionary forces had been within attacking distance of Juarez for hours, but the actual attack had not yet been launched. Federal troops defending the town were at their posts, ready for battle.

result of the battle which has continued intermittently at its southern outskirts since 1 o'clock today, was awaited.

Hospital Is Set Up

Preparations to receive wounded were made late today when General Matias Ramos, chief of federal military operations in Chihuahua, commanded the Hotel Rio Bravo and changed it to a hospital. Medical equipment from other institutions was rushed to the hotel, and there were mobilized the Mexican Blue Cross nurses.

Americans in Juarez streamed over the one road to El Paso in greater numbers. The narrow street became choked before noon by these refugees when a stray shot fired somewhere in the city caused rumors that the city had been attacked. Automobiles by the hundreds crowded the highway, while others made the trip on foot.

No Casualties Reported.
The seriousness of the conflict in the vicinity of Juarez was not readily apparent here tonight, with no reports from the battle areas as to casualties. Occasional stray bullets—apparently rifle shots—fell into Juarez. It was reported that the rebels who approached the city in three troop trains were equipped with heavy artillery, but no cannon was heard.

The battle, heaviest in the vicinity of Samalayuca, occurred directly south of the city. El Paso would be directly in line of fire if the weapons used were of sufficient range.

The American government's attitude was bespoken to the Mexican newspapers by Gen. Van Horn Moseley, commanding officer of Fort Bliss.

He told General Matias Ramos, Mexican commander in Chihuahua, that the position of the United States is one of strict neutrality except in the case of protection of

Prison Relocation Bill Agreed On By Senate Free Group

Holbrook Measure Now To Be Put Before Senate; Passage Is Considered Very Doubtful

(By Associated Press)
AUSTIN, Mar. 7.—A single-house free conference committee late tonight agreed on the Holbrook administration prison relocation bill passed by the senate, as against the Young-Loy-Turner measure which had received house approval.

The Holbrook measure would create a board for determining methods to be pursued in continuing of prison property, but the board could not purchase additional lands for this purpose if as many as 10 senators and 45 representatives objected.

Whether the measure will be passed was doubtful as Rep. Denny Young, co-author of the house bill turned down by the committee, announced he would lead a floor fight against the conference recommendation. Governor Moody, however, believed the house would adopt it.

Highway Bonds

(Continued from Page One)

tending that there existed a demand for better roads which could be met only through state obligations, and that lawmakers should pass the situation to taxpayers for final sanction or defeat at the special election, which would be called for September.

Stevens of Junction characterized the plan as fundamentally wrong, and economically unsound and strikes of Giddings contended that the constitutional amendment would set a precedent which might plunge the state into staggering debt within 10 years.

Back of Fort Worth detailed that a 20 per cent cut in license fees and a three-cent gasoline tax would require a 12 year program, while a four-cent tax would enable the state to complete its road system two years earlier. Back estimated that the present system, approximating 17,960 miles would require \$417,000, 000 to pave.

Ex-Sheriff Charlie A. Holcomb Comes Out With Facts

Prominent Lubbock Man Says Money Couldn't Buy Good Orgatone Has Done Him

"Money could not buy the good Orgatone has done me, and I gladly recommend it for what it has done in my case," said Hon. Charlie A. Holcomb, ex-sheriff of Lubbock county, Texas.

"Mr. Holcomb is unquestionably not only one of the best known, but one of the most popular men that ever held office in Texas. Mr. Holcomb's friends persuaded him to make the race for sheriff, to which he was easily elected. He served the people of Lubbock county in this important office 4 consecutive years. At the expiration of his term Mr. Holcomb returned to private life. He cast his lot among the people of Lubbock, and is now owner of the Ideal Tailors located at 504 Main street and one of the foremost citizens of that place.

"I was in a run-down condition, continued Mr. Holcomb, and had no appetite at all. I could hardly sleep at night, and never felt like getting up in the mornings. I was so tired, I had the worst form of indigestion, suffered all the time with gas on my stomach, and was continually belching up undigested food. I would sometimes bloat and swell up like I was poisoned, and suffered with nervousness and pains in my stomach of the worst sort, and nothing seemed to help me, except in a temporary way. I just can't tell you how I did suffer for the past ten years, and up to the time I began taking Orgatone a few weeks ago.

"When I read the testimonials of some who had been relieved of troubles like mine I just felt like I couldn't make a mistake by taking Orgatone, and it has done even more for me than I expected. I began to feel better after taking the first few doses, and am just finishing my first bottle, and I'm a different man already. I sleep like a log now, and eat just any and everything I want without the slightest discomfort afterward. I am glad to endorse Orgatone, because it does the work and I'm telling all my friends just what I'm telling you. I never felt better in my life than I do since taking Orgatone. I am willing for you to publish my statement and if anyone wants to talk to me personally about this wonderful medicine they can see me either at my place of business 'Ideal Tailors' 504 Main street or my residence 504 Avenue M where I will be glad to tell them my experience with this great medicine."

Genuine Orgatone is not a so-called patent or secret remedy but a new scientific treatment containing no alcohol or other false stimulating drugs and is sold in Lubbock exclusively by Bowens drug store under the personal direction of a special Orgatone representative.

Local People To Attend Conference

Dr. Paul W. Horn, president of Texas Tech, Roy McCullough, "Y" secretary and approximately 25 students of Lubbock high school "H-Y" will go to Childress today to attend the annual Older Boys conference which will be held there tomorrow.

Dr. Horn is scheduled for an address during the conference while Mr. McCullough will direct certain courses in the meetings.

Last night, Raddy and Charles O'Neill were hosts to 65 of the boys in an initiation meeting and party at the O'Neill home on Broadway. Fifteen boys were initiated into the organization.

Extend 1929 Invitation
The group will extend an invitation to meet in Lubbock in 1930.

Richard Rockney is to make the invitation speech for the conference while Morris Holsey has been named as a candidate for the presidency of the conference provided it is brought to Lubbock.

Mrs. Hattie O'Hair, Mrs. Frank Maddox, James R. Robinson, J. C. Hindegar, Sam Lafoote, and R. W. Matting had charge of the decorations and serving for the entertainment last night.

Rev. Walter P. Jennings, M. E. Witt, and Rev. H. L. Munger were guests at the affair.

Merchants

(Continued from Page One)

"We keep it," and also rapped false advertising schemes. He stated the annual loss to merchants in the United States, from credit, amounted to more than the yearly loss from fire.

Jess Mitchell Responds
Jess Mitchell, of Littlefield, editor of the Lamb County News, in responding to the address of welcome, said he was always glad to come to Lubbock. "A finer, more congenial, nor more hospitable class of business men, I have never met anywhere, than you have in Lubbock. We have a wonderful class of people on the South Plains."

Musie during the banquet was furnished by the Bucaneros, an orchestra composed of Tech students, and a mixed octette of Lubbock singers, under the direction of Wallace W. Rix.

Short talks were made by Miss Gladys Williams, office secretary of the Retail Merchants association, who expressed appreciation of co-operation of local merchants and those from other cities; Paul Sherrod, urging the use of credit rating department more; Dr. R. B. Hutchinson, telling the organization's application to dentistry; L. H. Quinn, business manager of the Avalanche-Journal Publishing company, who spoke of the protection given merchants from fake advertising schemes, "designed to separate you from some of your money."

Tom A. White, Garnett Reeves, secretary, telling of watching the association grow from a small stature to its present bigness in past few years, which was made possible by cooperation of business men here; and A. B. Davis manager, saying he was pleased to see so great a crowd and so many visitors from other towns.

G. W. Sully's speech, coming at the end of the program, although lasting for an hour or more, held intense interest and received enthusiastic applause, when completed. Points of his talk are given, as follows:

"This is the century for the improvement of man. Four products, merchandise, location, and all, will not make a business successful, unless you have competent people associated with you in your business enterprise, whatever it be. Through the process that ranges from the raw material to manufacturing, financing, transportation, wholesaler, on down to the distributor of merchandise—the retailer—there is not enough profits being made by the retailer or by the producer.

Planning increases profits and proper advertising is essential. Why plan ahead? Because your profits as a retailer are too small, competition is keener, you will save time, work, worry and money, and get control and have a definite goal set.

Well-lighted, attractive stores, bring customers in and trained sales people are necessary to sell them. Get acquainted with people and know their problems and their conditions. You must spend money to make money.

The successful merchant spends 10 times as much money for advertising as does the unsuccessful merchant—and he does more than that much additional volume in sales.

We speak of advertising costing us so much, yet figures show that 95 per cent of all our advertising has gone to advertise merchandise at special prices.

The following out of town visitors were here: J. E. Shelton, and C. L. Hudson, Brownfield, W. P. Leo, Levelland; Mrs. Les Green and Mrs. A. J. Payne, Slaton; Ray Watson, Levelland; J. F. Wiley, J. T. Carter, George Terry, and L. S. Kennedy, Olton; B. D. Davis, and J. V. Bullock, Ralls; C. I. Holley, Whitney; Norman C. Mabeck, and Chas. W. Roberts, Ropesville; J. W. Rakein, and Jess Mitchell, Littlefield; G. M. Bassinger, and Elmer Crabtree, Southland; Ella Garner, E. F. Lavery, and S. H. Tinsdell, Spur; Fred Fite and L. Hardin, Shallowater; Mrs. Adella N. Drew, secretary of the Plainview Retail Merchants association, and Miss Edna Lockhart, of Plainview.

THREE DIE; 77 HURT
Crossing Accidents Toll In December Listed

AUSTIN, March 7. (AP)—Three persons were killed and 77 injured in railroad accidents at highway grade crossings in Texas during December, the Railroad Commission reported today.

Johnston Version Of Impeachment Told Thursday

Suspended Governor Goes Back To Beginning To Tell Of Problems Of Administration In State

(By Associated Press)
OKLAHOMA CITY, Mar. 7.—As his own defense witness, Governor S. Johnston began the narration today of his version of the hectic two years of administration that culminated in his suspension from office and his present trial before the Senate court of impeachment.

The suspended governor occupied the witness stand throughout the afternoon session, after the court had adopted an amendment to its rules, making any person suspected of attempted improper influence on the court eligible for contempt and punishable by the court.

Starting from the organization period preceding his inauguration, Governor Johnston reviewed and defended his acts, including the employment of Mrs. O. O. Hammond as his confidential secretary. In reply to a lawyer's question Johnston said he would not reemploy Mrs. Hammond if he were reinstated.

Mrs. Hammond has resigned since impeachment charges were voted against Johnston by the House.

Much of Johnston's testimony was in defense of his competency to continue as governor, attacked in a general charge to which most prosecution testimony was directed.

"Contrary to an apparent public belief, I could control what was going on in my office,"

Apparently nervous when he took the stand, the accused governor soon regained his ease and answered the questions of his attorneys clearly, with frequent flashes of humor.

Johnston related that he had defended his personal relations with his women secretary when a delegation of friends urged him to dismiss her, and told the delegation there was nothing to rumors that the relations had been improper.

Mrs. Hammond was described as having a "very remarkable memory" which was peculiarly useful to the governor's purposes.

(Continued from Page 1)

defeated as a director, was retained as general counsel.

Election of officers by the board was done without suggestion from the Rockefeller group. Rockefeller men said, adding that this bore out Rockefeller's statement that he was interested only in ousting Stewart.

The board of election inspectors reported that a total of 8,446,129 votes had been cast. Of these, 817,419 were represented in person and 7,628,710 by proxies.

When Stewart completed reading of the company's annual business statement which showed net earnings for 1928 without allowance for taxes as \$83,437,168, an increase over the preceding year of \$50,239,170, the cheers and applause were deafening. The crowd rose to its feet, continuing for some minutes while the Colonel stood with flushed face.

"It would be idle for me to say that I leave the Standard Oil Company without regret," he said after the balloting. "For years its welfare has been by deepest concern. Its affairs have been my life."

He have seen it grow under the present administration from a \$167,000,000 corporation with 4,620 stockholders to practically a billion dollar corporation with 56,293 stockholders.

Moody Veto

(Continued from Page One)

Statistician of the comptroller's department to be correct, your appropriations exceed the expected revenue of the state for the period for which the appropriations are made available by these bills. If approved, these appropriation measures would place the state on a deficiency before September 1."

Summer school items for John Tarleton Agricultural College, College of Industrial Tech. Arts, Texas Technological College, North Texas State Teachers' College, Sam Houston State Teachers' College, South Texas State Teachers' College, Stephen F. Austin Teachers' College, Southwest Texas State Teachers' College, Sul Ross State Teachers' College, and West Texas State Teachers' College, were approved.

In addition the John Tarleton Agricultural College's \$12,000 item for streets and a draining system for the campus was undisturbed.

Aid Cared For Later
The governor said the \$200,000 rural aid item to pay claims for the year ending August 31, 1929, voted, could be taken care of at the coming special session.

"At the special session there may be some opportunity to more nearly approximate the amount needed in this appropriation," the governor said.

Explaining his veto of the \$300,000 item to guarantee a term of six months to rural schools, the governor said the sum proposed was based upon the theory that the additional schools asking for rural aid will necessitate a 20-per cent increase in the appropriation made by the 40th legislature for this purpose.

"This is purely an approximation, and in my judgement it exceeds the possible need by about \$100,000," he said. "I am willing to approve an appropriation for the purpose for which the \$300,000 appropriation was made, but I believe that \$200,000 is all that will be needed, and is as much as I would be willing to approve for this purpose at this session of the legislature. Should the \$300,000 later prove inadequate, the special session of the legislature can take care of that matter."

Revolution

(Continued From Page 1)

American lives and property. Entire City Is Armed.

All Juarez was like an armed nation. On the tops of buildings, roofs of houses, and in public buildings the military was in control under a state of martial law. Sentries on duty on the buildings are snipers.

A freight car came into Juarez from El Paso carrying 9,000 rounds of ammunition and rifles for Mexican government soldiers. No explanation of whether this shipment was permissible under the law was given to newspapermen. The shipment was packed to pass through the regular customs channels at the border.

Three trains carrying rebel troops from the south toward Juarez were sighted about 30 miles away by federal scouts. The scouts returned and sounded a call for arms, and a force of 200 men left under command of General Ignacio Flores.

The rebel detachment was believed to number about 400. The three rebel trains were preceded by men on foot, and by a caravan of automobiles. The marchers inspected railroad tracks as they went along, apparently looking for bombs.

A federal train which left Juarez to locate the incoming rebel trains had gone about 10 miles when the rebels were sighted. Government soldiers fired a bridge at this point to hinder the invaders.

Vera Cruz Brought Back Under Federal Control
VERA CRUZ, Mexico, March 7. (AP)—This city, a chief prize in the surprise outbreak of the revolution Sunday, was back in the federal fold tonight, reestablishing the shortest route from the capital to the Gulf of Mexico.

Col. Jose W. Cervantes led loyal troops against Gen. Jesus M. Aguirre, former military commander who had declared himself for the revolution and attempted to seize all power under his command.

A day of severe street fighting yesterday was brought to a close by the intervention of foreign consular representatives.

They induced the general to withdraw with the few followers remaining to him and Colonel Cervantes soon was reinforced by additional federal troops which already had retaken Cordoba and Orizaba. The fleeing rebels were reported hard pressed.

Federals Reported Routed In Sonora Thursday
NOGALES, Sonora, Mar. 7. (AP)—Dispatches from the interior of Sonora tonight reported two battalions of rebel troops were in close pursuit of General Armenta and 400 federal soldiers, who deserted the main rebel body at Ortiz, Sonora, when the rebellion broke out Sunday.

General Armenta now is in the Bacatete mountains, where a clash is reported imminent.

Dispatches from Guaymas, Sonora, stated that the captured steamer Bellvar, taken Monday by the rebels at Yavaros, on the Gulf of California, tonight was loaded with troops and supplies at Guaymas harbor. It was reported to have been ordered to proceed south to attack the federal garrison at Mazatlan, Sinaloa, from the sea.

Hundreds of Horsemen Reported Mobilizing
BROWNSVILLE, March 7. (AP)—Hundreds of armed horsemen are moving northward from the interior of Mexico, apparently bound for a mobilization point on the border, Henry A. Roberts of Indianapolis, Ind., said here today when he and a party of hunters reached Matamoros, Mexico, opposite here, after a hasty trip from Guaymas, Sonora, in the mountains 205 miles south.

Roberts said his party encountered numerous bands of horsemen but that their automobile was not stopped. The entire central part of the state of Tamaulipas appears in a ferment, Roberts said.

Newspermen Say 2,000 Will Be In A Week
EL PASO, Mar. 7. (AP)—General Miguel Valle, commanding revolutionary forces of the General Marcelino Caraveo faction, told two El Paso news reporters this afternoon they would attack Juarez tonight.

tonight.
General Valle informed the reporters they would not fire one shot onto American soil but they they would rely on superior numbers in a hand to hand combat.

The interview took place aboard the rebel trains a few miles south of Juarez this afternoon. The newspaper men reported that there are 54 cars in the train and that the rebel force numbers 1,600 men.

These trains, on the Mexican National railway lines, will be pointed near Juarez by a Mexico Northwest train with other revolutionary forces, it is reported. The newspaper men estimated that at least 2,000 rebels will attack Juarez. General Miguel Valle is said to be in supreme command as General Caraveo is not with the rebel troops.

He is dynamiting federal troop trains in other parts of the country, General Valle announced.

HEARING COMPLETED
Argument Begins Today In Suit On Sanitarium

Hearing of evidence was completed late yesterday, in the case of Mrs. Clara McCallan and Mrs. Elmir McCallan, wife and mother, respectively, of Ray McCallan, deceased, against the Lubbock Sanitarium, for \$30,000 damages alleged as due because of the death of McCallan, which they claim was due to negligence following operations for appendicitis.

Arguments of attorneys in the case will begin at 9 o'clock this morning. The case is being tried in the Seventy-Second district court, before a jury and Judge Homer L. Pharr, Vickers and Campbell are attorneys for the plaintiff, the sanitarium being represented by the law firm of Bledsoe, Crenshaw and Dupree.

Mexican Airmail Opened Thursday

Plane Lands At Brownsville Airport With Four Passengers And 500 Pounds Mail; Saw Many Troops

(By Associated Press)
BROWNSVILLE, Mar. 7.—Air-mail service between Brownsville and Mexico was inaugurated unofficially today, two days in advance of schedule, because of the emergency created by the Mexican revolution.

A plane bearing five hundred pounds of mail and four passengers landed at the new airport here late today. The mail bore no airmail stamps, but was sent by plane when the accumulation of mail, due to uncertain transportation in Mexico, became too great in Mexico City.

The passengers included Mrs. Nelvia E. Ritchie, of Pittsburgh, wife of the general passenger agent of the Pennsylvania railroad and

her traveling companion, Mrs. Leiland Hyzer of Miami, Fla. The two women had started for the country by rail Sunday night, before the revolution broke out, but were halted at San Luis Potosi by burned railway bridges. After communicating with their consul there the women went to Tampico where they caught the mail train.

They said they saw large bodies of troops at several points, but noticed no other indications of

Mrs. J. R. Fitzgerald of Lakeview is the guest of her aunt, Mrs. W. P. Dunn, 1812 Avenue D.

Coolidges Glad To Be Back Home

Washington Is Fine But Old Home Seems Good. Mrs. Coolidge Says; Buses Self With Housework

(By Associated Press)
NORTHAMPTON, Mass., Mar. 7.—Back in her own home after almost six years as the first lady of the land, Mrs. Calvin Coolidge looks on her stay in the White House as a "great lark" but a position also involving responsibilities which make her join her husband in a feeling of relief that they are private citizens again.

Mr. Coolidge has been frank in telling how glad he is that the cares no longer his, but it was not until and worries of the presidency are today that his wife revealed her feelings.

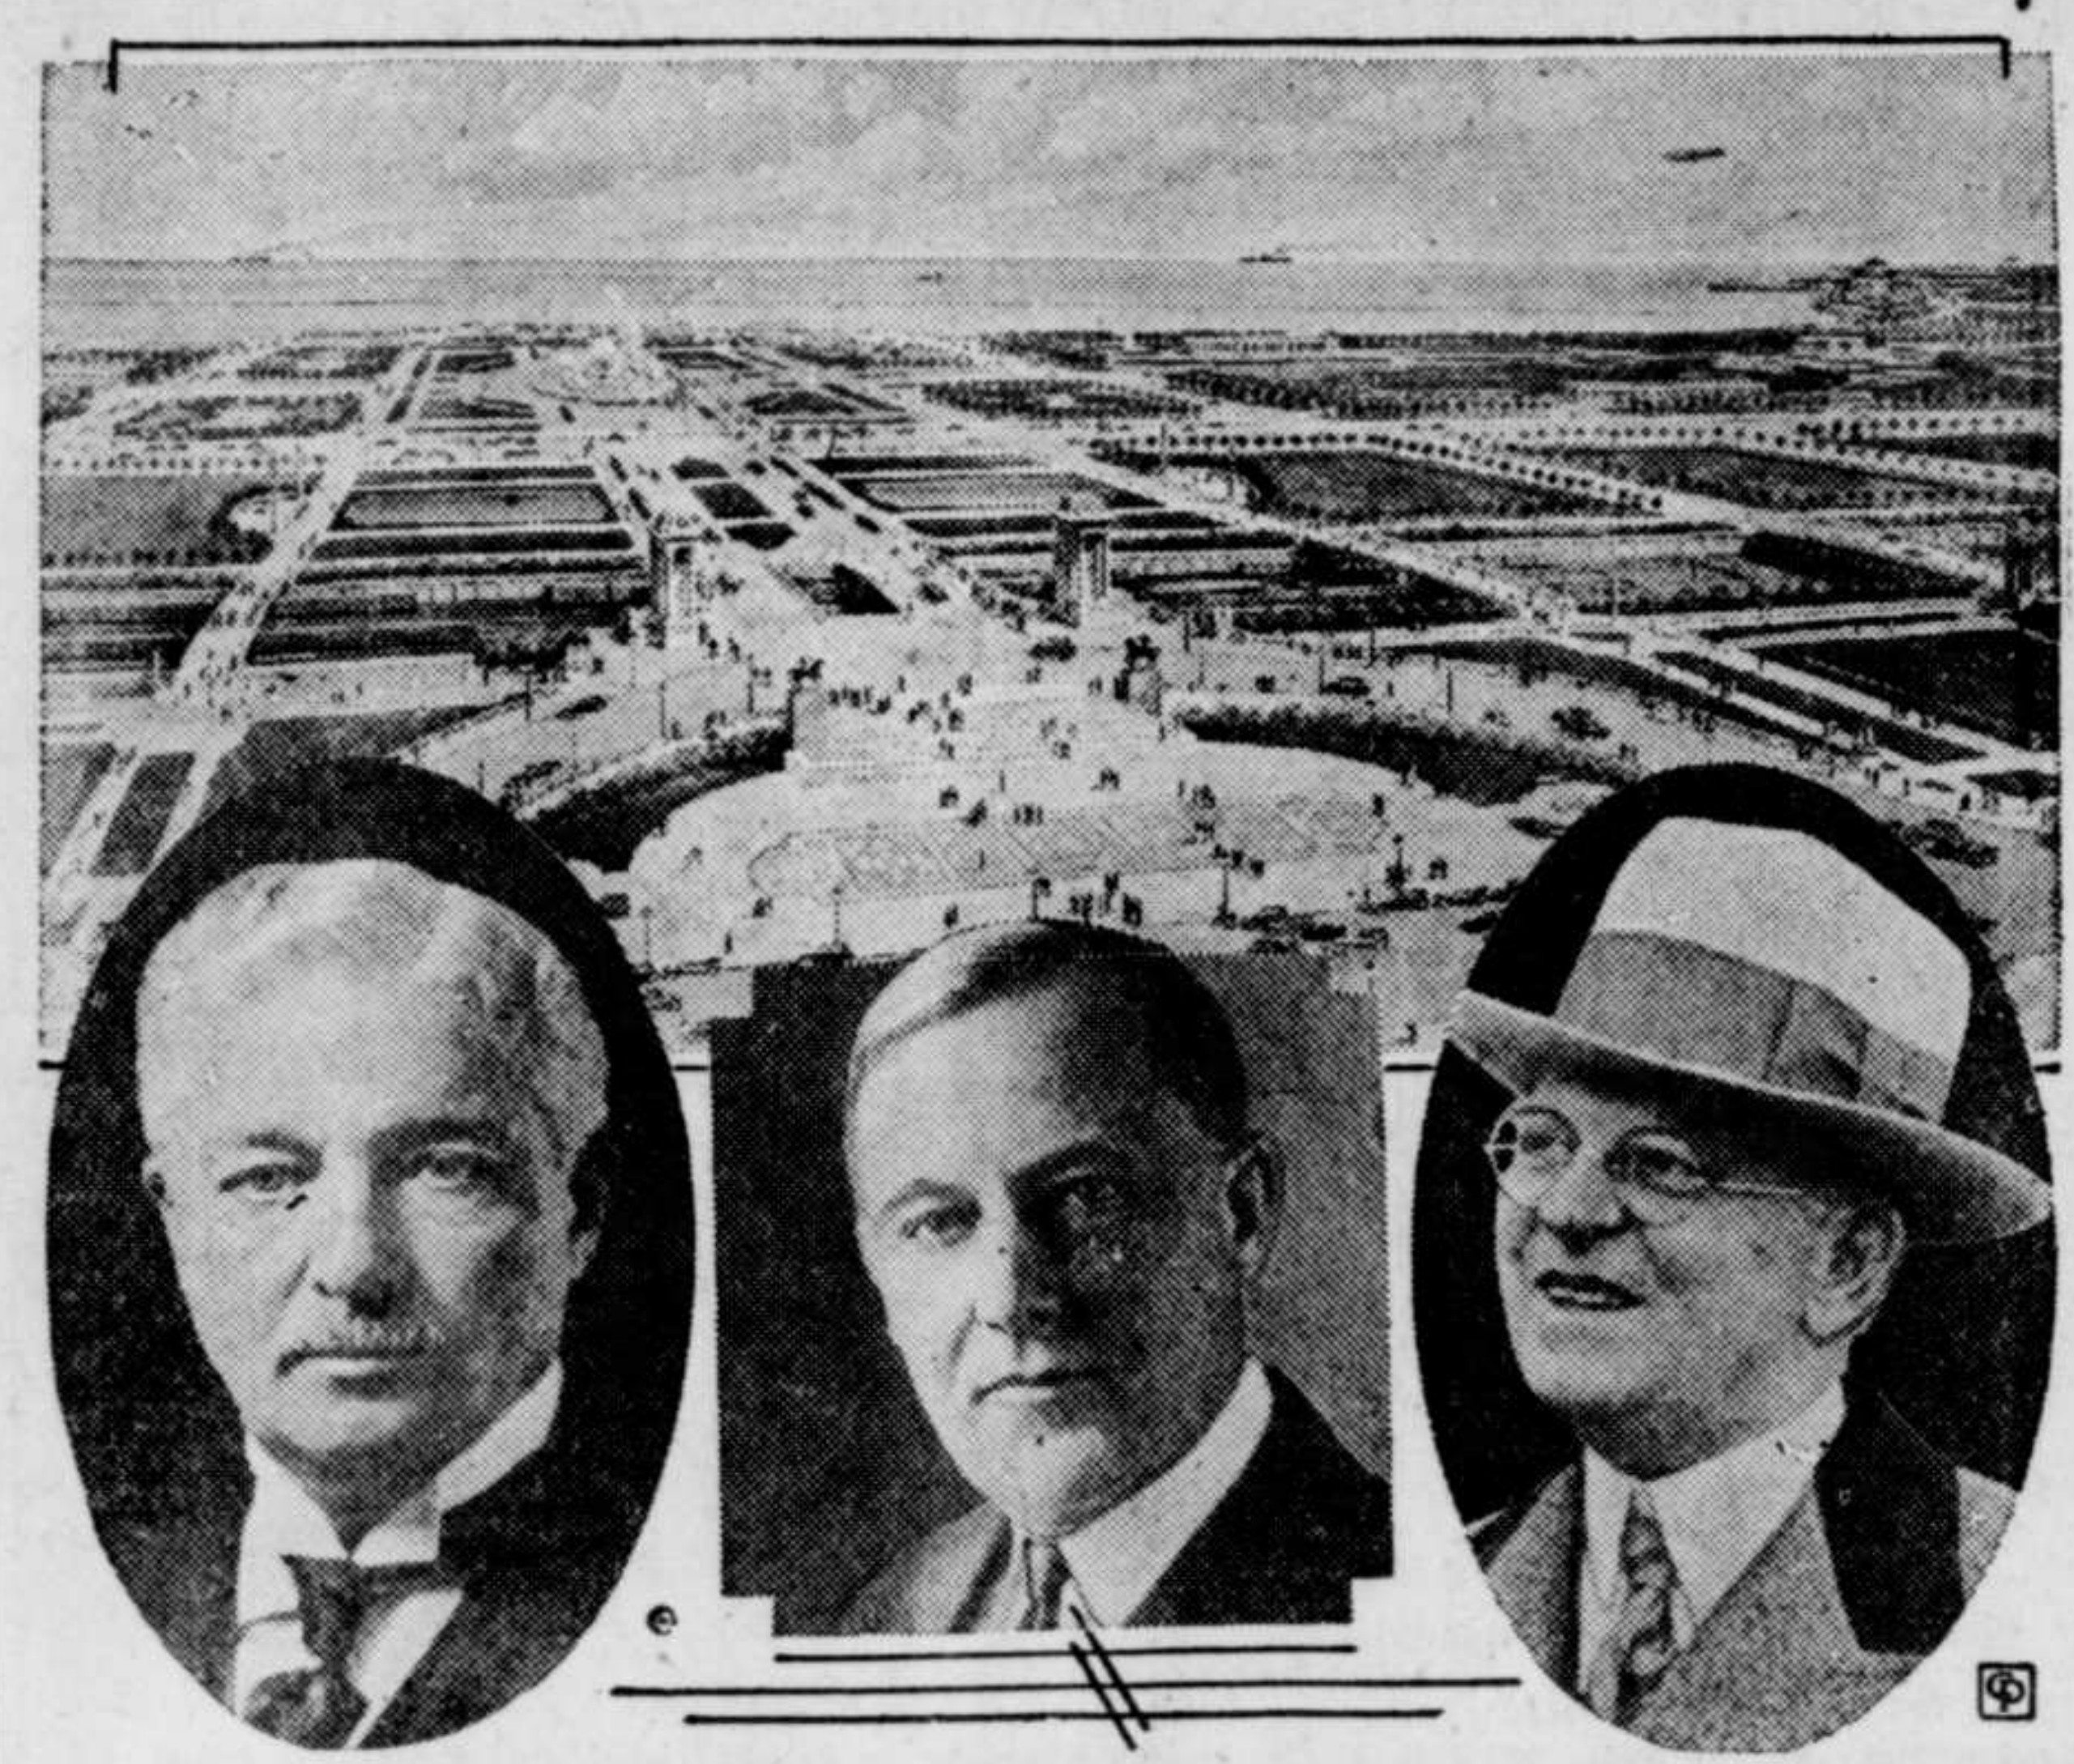

To correspondents she said, "It was hard to leave our old friends in Washington, but it is nice to get back here. It was a great lark, but a great responsibility. It is too bad that more women cannot have the opportunity of living in the White House. It is a great opportunity for service."

Mrs. Coolidge busied herself with dusting, cleaning and other household tasks this morning. Her husband motored in a hired automobile to his old law office.

SUICIDE IS ADJUDGED

MIAMI, Fla., Mar. 7. (P)—After questioning witnesses for nearly three hours today, Richard H. Hunt, assistant state's attorney, announced the state was satisfied the death of Mrs. Nora Wilson, 40, of Lancaster, Pa., who was shot to death in her room at a hotel Sunday, was suicide. No further official inquiry will be made, he added.

Fifteen Priceless Fathoms Of Land Reclaimed From Lake Michigan For Waterfront Park Site

An architect's sketch of Chicago's completed waterfront with insets, left to right, Charles G. Wacker, James Simpson and Edward J. Kelly

By ROY J. GIBBONS
Staff Writer for Central Press and The Avalanche

CHICAGO, Mar. 7.—Fifteen priceless fathoms snatched from Lake

Michigan's depths will provide Chicago with the greatest waterfront development in the world. The project now on its way to completion will be a vista of green-clad parks

and shining boulevard, where but seven years ago steamers piled their way and white-topped waves played fitfully.

It is a waterside paradise, this

worth a king's ransom. In all, the improvement will stretch for nearly six miles along the shore from Twelfth street to Fifty-seventh street. Already 630 acres of land have been reclaimed from the lake and an inner boulevard stretches, with but a slight break, the entire distance along the shore.

Costs \$75,000,000
When the development is completed, at an estimated cost of \$75,000,000, there will be an outer drive, as well, built on five islands, comprising 600 more acres, and enclosing an inner lagoon of 650 acres.

Here will be staked the great Chicago world's fair of 1933, flanked on one side by the towering skyscrapers of Michigan avenue and on the other by the broad expanse of the lake.

The land reclaimed in Grant park, located between Twelfth and Randolph streets, in the last seven years, totals many more acres, in addition to the six miles of reclaimed land south of Twelfth street. Here are located the Art Institute, the famous Buckingham fountain, largest in the world; St. Gaudens' masterpiece, the sitting statue of Abraham Lincoln, and facing it across reflecting water, a wonderful statue of George Washington, as part of the plan.

Land Comes High
Land on Michigan avenue, across the street from Grant park, which is the focal point of the waterfront development, is valued at \$100 a square foot and, according to Edward J. Kelly, president of the South park board, the created land is worth even more. This would bring the value of Grant park alone to close to one and a half billion dollars, and the rest of the artificial development to another billion.

The first of the five islands that will act as the basic foundation of the new outer lake boulevard is already completed and work advancing rapidly on the other four. When finished they will provide bathing and park facilities for the city, three-quarters of a mile out in the lake, as well as a fast traffic artery from the Loop to the South Side. Boats and canoes will ply in the man-made lagoon, and half a dozen clubhouses will line its banks.

Eventually this gigantic development, which is being sponsored by the South park board, will link with a north boulevard system, also being built of reclaimed land, to provide a lakeside highway from the far north side of Chicago to the far south limits.

Much Material Used

Millions of tons of sand and rocks and dump material have already gone into the project. Millions more must be used before it is complete. An army of men and machines have labored seven years to make the dream come true. Gradually it is assuming shape. The Field Museum of Natural History, at Twelfth street the world's largest stadium, known as Soldiers' Field; the John G. Shedd aquarium and the proposed Adler planetarium, where an artificial constellation of all known stars will move in a mechanical heaven with clock-like regularity, are all part of the project. It is a work such as never before has been attempted in modern history, and in it, in one way or another, are engaged almost every civic improvement body in Chicago, including the Chicago plan commission, founded by Charles Wacker and at present headed by James Simpson, president of Marshall Field & Co., and the various park boards and women's clubs.

Chicago, the youngest great city in the world, is making history by building what has been called a seventh wonder of modern civilization—building it of rocks and sand and fifteen priceless fathoms where seven years ago the mariner charts showed deep water and freighters piled their way.

Texas Has 5,848 Students Enrolled

AUSTIN, Mar. 7. (P)—Total enrollment at the University of Texas reached 5,848 at the close of registration for the second term of which 3,743 were men and 2,105 were women students, figures by the registrar show.

Since the beginning of the school year in September, 689 undergraduates have withdrawn or were dropped for various infractions.

The College of Arts and Sciences leads in enrollment with 3,804. Attendance in other divisions of the University includes: School of Business Administration, 286; School of Education, 118; College of Engineering, 747; School of Law, 352; Graduate School, 460; and School of Pharmacy, 81.

Has Storied Escape Man Flees Texas In Wooden Box

SAN ANTONIO, Mar. 7. (P)—Like a storied escape, the flight of Walter Arredondo, charged with slaying his wife, Mrs. Reyes Rocha Arredondo, from San Antonio to Mexico in a wooden box was told today by Miguel Padilla, charged with being an accessory, to investigators.

Three days after Mrs. Arredondo had been killed, Arredondo, concealed in a packing box, was placed on Padilla's truck and the bumpy journey to the border began, Padilla said. That night they reached Bracketville, Texas, where Arredondo was given into the care of a relative.

From Bracketville the relative carried the wooden box containing the fugitive to Del Rio. The crossing into Mexico was made at Del Rio, Padilla said.

Your "lucky number" may be found by adding the day of your birth-month, the number of the month and the year of your birth, and then reducing the sum to a single digit.

The Pennsylvania Hospital, Philadelphia, operates under a charter originally granted to it by George II of England in 1751.

Hemphill-Wells Co

Plans For Annual Citizens' Camps Being Formulated

(Special To The Avalanche)
FORT SAM HOUSTON, Mar. 7. —In the near future, orders will be issued from headquarters Eighth Corps Area, Fort Sam Houston, Texas, prescribing the dates and quotas for the Citizens' Military Training camps to be held in this

Corps Area during the summer of 1925.

The places will be the same and the dates approximately the same as they were in 1924. i. e.—Fort Sam Houston, Texas, June 15 to July 13; Fort Sill, Oklahoma, July 5 to August 3; Fort Logan, Colorado, June 20 to July 19; Fort Bliss, Texas, July 25 to August 23; Camp Stephen D. Little, Arizona, August 1 to August 31; Fort D. A. Russell, Wyoming, June 20 to July 19. The latest information from the War Department indicates instead of 35,000

young men being trained in Citizens' Military Training Camps throughout the United States as was the case in 1924, the number will be increased to 35,700 in 1925. It is expected that the Eighth Corps Area, consisting of the states of Texas, Oklahoma, Colorado, New Mexico and Arizona, will be allotted, as their share of this increase, two hundred additional places, making the quota for the Corps Area in 1925 two thousand and nine hundred.

How To Get HEALTH and How To Keep It

If the reading of this article teaches you only this one lesson about your own body it may be worth more than millions of dollars to you; for of what use is money without health, or after you are dead?

The lesson is this—"Keep your system pure and you will have health and strength to gain and enjoy happiness, success and length of years."

But you may ask—

How Can I Keep My System Pure?

That is not a hard question to answer, for physiology plainly teaches you that your liver, which is larger than any of your other vital organs, has the special work of purifying your blood and thereby your entire system and of keeping it pure and healthy.

How Does the Liver Purify?

Physicians tell us that the liver has several functions, one of which is to manufacture a greenish-yellow, bitter fluid called the bile, which, between meals, is stored up in the gall-bladder, but after each meal is poured out into the intestines. The bile is purgative and antiseptic or prophylactic. In health, it is your bile that makes your bowels act regularly and freely every day—it is Nature's only purgative. It is your bile that keeps your bowels pure, sweet, clean and free from fermentation (gas) putrefaction and decay. Remember that germs do not thrive where there is fresh bile and there can therefore be no fermentation to cause gas, nor putrefaction or decay to produce poisons or toxins. Also, as bile is Nature's purgative, there can be no constipation if the bile is flowing naturally and freely from the gall-bladder into the bowels after each meal.

But when the bile becomes stagnant and stops flowing freely, your bowels stop acting regularly and the contents become a foul, stagnant breeding bed for the germs of fermentation (gas) decay and disease. These poisons, (called toxins) are gradually absorbed into your blood and circulate all over your body, poisoning, irritating or inflaming your brain and nerves, your muscles and joints, your heart, lungs, skin, kidneys, bladder, spleen and every vital organ of your body, including your liver, stomach and bowels. Your doctor calls this "intestinal toxemia."

Functions of Gall-Bladder

In 24 hours your liver secretes about 25 to 30 ounces (5 to 6 teacupful) of bile, which flows through millions of minute canals, or ducts, uniting to make a large tube which empties into the gall-bladder, as creeks and rivulets unite to form a river that flows into a lake. Your gall-bladder is a hollow muscle that serves the double purpose of a reservoir and a pump. Its functions are similar to those of the urinary bladder. About two hours after eating, when the food is passing from the stomach into the intestine, your gall-bladder should begin its peristaltic contractions, thus pumping the bile into the small intestine where it is mixed with your food. Bile is also a very important digestive fluid, aiding in the digestion and absorption of fats and oils. But that is too long a story to relate here.

Nature's Danger Signals

When your car gets out of fix you can tell it. It is the same way with your bile. Nature gives you warning—not by words, but by signals or symptoms. Your doctor recognizes these danger signals and you also should know them and instantly heed them. It may save you much pain, serious illness and perhaps, big repair bills.

When the bile becomes stagnant in your gall-bladder and is dammed back into your liver instead of flowing freely into your bowels you, sooner or later, begin to feel some of the following symptoms:—Your breath may become heavy or foul, your tongue coated, a bad taste in your mouth, your food (and tobacco) lose their natural flavor, your food does not agree with you; you may have heartburn, gas, or fluttering about the heart, dizziness or blind spells; you may be troubled with

belching or frequent passages of gas from the bowels; the gas "balloons" your bowels and presses so hard on the kidneys that it gives you pain, soreness, stiffness in the small of your back over your kidneys, making you think you have kidney trouble; at night the gas in your bowels presses upon your bladder making you get up frequently, thus breaking into your sleep. In the morning you are tired instead of refreshed. Gradually your health is injured. Your complexion becomes sallow, muddy or yellow—your skin may be disfigured with liver spots or pimples; dark rings may appear under your eyes, you may become sleepless, restless and irritable or blue and melancholic. You may have frequent colds or dull headache; your bowels stop their free, full and natural action; you have constipation, fermentation, gas, putrefaction and self-poisoning or "intestinal toxemia," as the doctors call it. High blood pressure, with headache and swooning spells, may result from continued neglect.

How to Make the Bile Flow

But when the bile stops flowing freely, how can we start it up again? The answer is: *Take Calotabs at bedtime and drink water freely the next day.* This formula represents the best thought and experience of the best physicians in every civilized country in the world. No other purgative will do. If you take oils, salts, cascara, or the many other simple-laxative syrups, powders and candy laxatives, you are merely wasting valuable time. They only make you feel better for a day or two. They do not remove the cause, for they do not promote the flow of the bile which is Nature's only purgative and intestinal antiseptic. When you take Calotabs you know that you have taken a real, doctor's medicine. It cleans you out thoroughly. Every inch of your twenty-five foot canal, including your stomach, small intestine and large intestine, is thoroughly cleared and washed clean and pure and your bile is flowing freely. Next morning your system feels purified and refreshed and you are feeling fine, with a hearty appetite for breakfast. Eat what you please and go about your work;—there is no danger, for Calotabs are perfectly safe and create no habit except the habit of healthy bowel actions.

What are Calotabs—How do They Act?

Calotabs are composed of a thoroughly purified and refined calomel combined with assistants and correctives. The calomel increases the flow of the bile from the gall-bladder into the intestines, and also serves as an intestinal antiseptic. Every physician knows that no other medicine can take its place; there is no such thing as a substitute for calomel. The assistants act like salts, washing the calomel out of the system and preventing its accumulation and any possibility of danger. The correctives settle the stomach and bowels, preventing nausea, sickening and griping effects. Calotabs, (and water) therefore, give you the combined effects of calomel and salts without the nauseating, sickening, griping and dangerous effects of either.

The medicine chest of every home should be supplied with Calotabs, one of the most important of all family medicines, for it is needed in many cases of sickness, and, if used promptly, may prevent many cases of serious illness.

Avoid disappointment by refusing imitations and substitutes. Your druggist can supply you with genuine Calotabs if you insist. For your protection, Calotabs are marketed in original packages only, having the copyrighted trademark shown above. Family package, containing full directions, only 35 cents.

Musical Ensemble Will Be Presented At Hotel Lubbock This Evening; Piano Pupils of Miss Mary Dunn Will Play

From One To Ten Pianos To Be In Action At Recital This Evening At Lubbock Hotel

Miss Mary Dunn presented a group of pupils in a piano ensemble recital at Hotel Lubbock last evening. Each one playing issued invitations to their friends and relatives to attend the affair.

Selections played employed from one to ten pianos, the last number on the program being a ten-piano number, "Firefly" (Williams), with the following playing:

Evelyn Doak, Lorraine Richards, Clarice Adcock, Evelyn Beard, Marjorie Scott, Wanda Butler, Ruth Carmichael, Catherine Royalty, Charles Maedgen, Gwendolyn Thompson.

Opens With Drill
The program opened with a rhythm drill participated in by Jack Giles, Sara Starnes, Mary Alice Maedgen, Pauline Barrier, Stella Ethel Doak, Dorothy Allen, Dollene Taylor, Ethelston Providence, Marilyn Riggs and Charlene Whitacre.

The remainder of the program consisted of selections as follows:

One piano, "Follow the Leader," Mary Alice Maedgen and Sara Starnes; three pianos, "Maytime" (Brown), Charlene Whitacre, Marilyn Riggs and Ethelston Providence; six pianos, "Wooden Shoes" (Van der Verve), Sara Starnes, Jack Giles, Stella Ethel Doak, Pauline Barrier, Dorothy Allen and Mary Alice Maedgen; four pianos, "Birds of the Forest" (Bilbro), Mary Evelyn Pickle, Dollene Taylor, Frances Wilson and Betty Joy Evans.

Six Pianos In Play
Six pianos, "The Mill" (Landry), Jewel Pray, Pauline Hawthorne, Elmer Holland, Lorene McCreary, Claire Marie Doak and Eileen Wingo; two pianos, "Melody" (Guritt), Waltrude Rogers and Kathryn Lennon; three pianos, "The Gentle Bee," Elizabeth Providence, Carrel Belle Turner and Montez Snider; four pianos, "Gavotte" (Brown), Sara Sue Stewart, Mary Geniece Heberger, Ruthanna Jackson and Eileen Wingo; five pianos, "Cabaleta" (Lack), Betty Richardson, Eleanor Hodges, Betty Hamilton, Mary Wilson and Doris Shields; two pianos, "Valse in A Major" (Brahms), Edna Brown and Patti Hoppling; two pianos, "Juba Dance" (Dett), Mesdames Gibson and Hughes; four pianos, "Festival March" (Horvath), Carroll Thompson, Mary Kathryn Norman, Freddie Adkins and Alice Claire Teague; two pianos, "Habana de China" (Howe), Dorothy Duncan and Joellera Glem; two pianos, "Spanish Dance" (Moszkowski), Sue Brown and Alice Claire Teague.

Mrs. Al Smith of Slaton, accompanied by Mrs. G. W. Tower, Mrs. Wilbur Jones and Mrs. Walter Smith also of that city, were business visitors in Lubbock Thursday.

Mrs. J. S. Bruton and Mrs. Gaston Patterson of Clinton were Thursday shoppers here.

Suitable For Bridge And Tea

BY LUCIEN LELONG
Special Cable to Central Press and Avalanche

Without doubt one of the real problems of correct clothes today is the costume for the afternoon function. While fashion has revived the formal afternoon frock, many women scattered over the world are slow to change to meet the mandate for greater elegance between two and seven.

At a tea, or a bridge party, one observes certain women wearing frocks of velvet, satin, or other luxurious fabrics. Others, in the same group, will wear the simplest of woolen dresses, and there are still a few who come out in crepe dresses cut on sports lines. There is a lack of harmony in such a group brought about by a lack of general feeling for the correct thing to wear for such functions. Perhaps a few suggestions on this point will be valuable to you.

I advise women to discard their plain, sports-like two-piece dresses for afternoon functions. On the other hand, there is no need for the formality of, let us say, velvet and lace. Quite as much danger lies in the direction of over dressing as in that of under dressing. Formality and elegance may be most beautifully introduced by line—distinctive and beautiful lines. The frock of crepe de chine may very well be suitable for the most exigent of bridge teas, if it has a recherche cut, and the longer, more graceful lines that are inalienable from fashion today.

Subtle Colors
Subtle colors, and color schemes too, are exceedingly important for the afternoon costume. Avoid the strident, and the dull and choose interesting nuances of tone for your afternoon clothes, unless you would adopt such a shade as black. Black too, is made more exquisite in many cases by the addition of some other tone such as gray or white.

Elegance in the bridge tea ensemble depends also, particularly on the correct assembling of every accessory and detail. This is most important. The frock you wear must be played up by your hat, your shoes, your hosiery, bag and gloves. I consider the jewels highly significant. They must not be too elaborate for the afternoon, nor, on the other hand, should they be the sports type. Makeup and perfume also should be chosen and applied with careful thought of the atmosphere. A bit stronger make-up adds to the vivacity of the appearance at an afternoon function, and the perfume may, and should, be more freely used for these occasions, when personal elegance is so necessary.

BLUEBONNET MEETS
Mrs. R. D. Benson Hostess To Club On Wednesday

The Bluebonnet club met Wednesday afternoon with Mrs. R. D. Benson at 2009 Main street and bridge was played. Members and guests attending were Mesdames S. C. Arnett, W. H. Bledsoe, W. H. Meador, R. A. Mills, J. S. Johnson, L. S. Mast, W. A. Bacon and J. T. Hutchinson.

THREE MOTORISTS PAY
One Driver Without License Given One-Day Term

One driver of an automobile, when brought before Judge G. R. Scott, Justice of the peace, yesterday, on a charge of violating the state highway laws, became quite obstreperous, says the judge, and was given a fine of \$5 and sentenced to one day in jail.

Two other motorists paid fines, with costs, totaling \$12.15 each, for driving cars without 1929 license plates.

Mrs. Dewey Campbell and her mother, Mrs. L. C. Denton, have returned from Wink where they took Mrs. Percy Denton to join her husband there.

Mrs. R.W. Crowder Is Bridge Society Hostess Wednesday

London Club Members And Guests Play Bridge On Wednesday Afternoon In Crowder Home

Mrs. R. W. Crowder Jr., 2212 17th street, entertained the London Bridge club and several guests Wednesday afternoon in her home. Mrs. Vernon Brown scored high among club members in games of bridge and Mrs. J. B. Jackson was high among the visiting players. High cut fell to Mrs. Sam J. McFarland.

After the games, lime juice and angel food cake were served and the St. Patrick theme was used in appointments. Members attending were Mesdames M. C. Butler, F. W. Zachary, Victor Payne, Vernon Brown, O. W. English, Oscar Nislar, Earl Moore, G. C. Turner, Horace Hawkins and K. L. Riggs.

SOCIETY IN MEETING

Missionary Circle Program Given On Wednesday

Miss Jerdie Casey was leader of a program Wednesday evening when the Girls' Missionary Circle of the First Christian church met with the sponsor, Mrs. R. A. Mills, in her home. The program was on "Jesus, the Personal Friend" and Miss Casey was assisted by Mrs. Lucile Smith and Miss Eleanor Nelson.

An apron and overall party was planned for March 19 and each member of the circle is to invite a guest. A committee, composed of Miss Grace Johnson, Miss Inez Marshall and Mrs. Smith, is to arrange for the party. Those attending the meeting were Mesdames Eleanor Nelson, Lillian Nelson, Annie Lou Barrier, Inez Marshall, Grace Johnson, Jollene Vannoy, Jerdie Casey, Nada Casey, Letta Alice Cross, Kathryn Scribners, Mervyn McGuire and Mrs. Lucile Smith.

TO STAGE CIRCUS

Girl Reserves Are To Have Annual Affair Tonight

With Mrs. R. T. Groves as director and Homer Hall as ringmaster, the Senior and Junior High School Girl Reserves will stage an annual circus this evening at the high school. There is to be a parade, depicting outstanding features, at noon today and the circus is to start at 7:30 o'clock this evening. Clever features, burlesquing a regular circus, have been prepared.

RECEPTION TONIGHT

New Members Of Methodist Church To Be Honored

There is to be a church-wide reception this evening at the First Methodist church, honoring 200 new members of the institution. The affair is to be attended by all members of the congregation and is to start at 8 p. m.

CHARTERS GRANTED

AUSTIN, Mar. 7.—(AP)—Chartered: State Investment Company, McAllen; capital stock \$10,000. Incorporators: Frank G. Crow, R. E. Horn, O. P. Osborn. Edmund Walker Newspapers, Inc., Commerce; capital stock \$1,000. Incorporators: Edmund Walker, Grayson Walker, W. H. Gibson.

Crosbyton Visitor Honored Thursday

Miss Mary Alice Stanton Is Hostess With Luncheon At Hotel Lubbock For Miss Frances Corn

Miss Mary Alice Stanton was hostess yesterday afternoon with a luncheon at Hotel Lubbock complimenting her house guest, Miss Frances Corn of Crosbyton. With a large bowl of red sweet peas and acacia forming a centerpiece, other table appointments harmonized and vanities marked places for the guests. Covers were laid for Miss Corn.

Mesdames Walker Stanton, Ross A. McWhorter, Carl Roberts, Jr., Lawrence Bacon, Misses Mary Louise Middleton, Geraldine Smith, Anne Snyder, Edna Yonge, Mary Snyder, Maurine Hughes and the hostess. The honoree was presented with a gift from Miss Stanton.

One marriage license was issued yesterday at the county clerk's office, to Thelton Hamilton and Miss Lorene Brewster.

Mr. and Mrs. W. E. Cannon, 1304 Avenue Q, has as guests Thursday Mr. and Mrs. W. Victor Womack of Sweetwater.

Mrs. L. J. McLean and Mrs. B. Spearman have returned from Lamesa where they visited friends and transacted business.

Turkey Banquet To Be Held March 12; Notables To Speak

J. A. Hill, A. M. Bourland, Senator Small, Shepherd, and Others On Program; Many Towns Invited

(Special To The Avalanche)
TURKEY, Mar. 7.—The annual banquet of the Turkey Chamber of Commerce will be held next Tuesday evening, March 12th. Secretary J. M. Edwards and his committee have all details worked out for the occasion. Invitations have been sent to all neighboring towns of the South Plains area and letters of acceptance have been received from most all.

YOUR CHILDREN

by Olive Roberts Barton
©1928 by NEA Service, Inc.

"Mother, I think I'll wear my new red silk dress to school this afternoon, if you don't mind."

Jane's mother looked startled for an instant, but quickly recovered and answered readily enough. "Very well, I don't mind. Is something special going on?"

"No, I just want to wear it."

Jane went upstairs and in ten minutes she came down looking like a Kentucky cardinal.

"You look very nice, dear," said her mother proudly. "That is such a lovely shade of red. You look like a cherry." But she was still perplexed when Jane, without any further comment, put on her gold shoes and slippers, kissed her good-bye and closed the door.

By and by Grandma came downstairs. "Did Jane change her clothes? Her blue serge is lying on her bed. Does it need mending?"

"I don't know. I think not though. She wanted to wear her red dress and I let her. She didn't say why."

"You let her? What for? I declare, Ellen, you are the queerest mother I ever saw! Every time that child takes a notion to do something queer you fall for it. Such a day. She'll be ruined."

"No, you said Mother, I don't pry into every little reason Jane has for doing things. She has some reason. I'm sure, and a good one. She didn't tell me because—well, maybe she didn't know exactly herself. We don't always know."

Jane came home at four, went directly to her room and took off the red dress.

"I was very careful, Mother. It's not hurt a bit. I wiped off my desk and seat before I sat down. I feel lots better. This morning was dreadful—I kept saying over and over to myself, 'I can't come to school this afternoon; I can't come to school this afternoon; I can't. I hate this old place.'"

"Then I thought, if I had something to cheer me up, I'd feel better. And my red dress popped in to my head. I don't think I could have gone to school without it."

Children are like the rest of us, more or less temperamental and sensitive to surroundings. Who doesn't get stale on the daily routine and need a little to make life in the way of something different?

I think that Jane's mother was a very wise woman in more ways than one.

Californian To Talk In Howard

(Special To The Avalanche)
BIG SPRING, Mar. 7.—Howard county farmers will hear Charles Weeks of Owensmouth, California, here on March 12, the last day of the two-day Farmers Short Course on intensive farming. His lecture will be along the lines of the chain poultry idea.

Weeks has lectured up and down the Pacific coast for several years addressing farm bureaus, chambers of commerce, poultry associations, high schools, and agricultural colleges. Mr. Weeks tells how much can be produced from one acre by intensive farming and how quickly a luxurious garden home can be created from soil, water, air, and sunshine when mixed with fertilizer and common sense.

BUILDING INCREASES

Levelland Has Spurt Of Activities For Year

(Special To The Avalanche)
LEVELLED, March 7.—With this city's new ice factory nearing completion and a new feed mill going up, the year's record of building here has a fair start, adding to the fact that five new homes are under construction. The homes are being built by Bob Ford, of Ballinger, J. C. Maupin, of Knox City, J. R. Terry, of Longview, and J. N. Whisenant.

Since the first of September last year there have been 54 homes and 17 brick business buildings erected in this city.

Miss Viola Clements and Mrs. J. C. Turner and their daughters, Sarah Beth and Beulah Grace, were visitors from New Home here Thursday.

Mrs. R. M. Briggs and daughter, Miss Lillian, were shoppers here from Becton Thursday.

How to Achieve Beauty

BY NIMEL HELENA RUBINSTEIN

The Morning Avalanche Menu for the Day

BREAKFAST—Stewed prunes, cereal, cream, soft cooked eggs, crisp toast, milk, coffee.

LUNCHEON—Oyster stew, shredded cabbage and celery, whole wheat bread and butter, cranberry sauce, pudding, sugar cookies, milk, tea.

DINNER—Sautéed steak, French fried potatoes, baked squash, curly endive salad, canned pears, fudge cake, milk, coffee.

Children who have eaten a light supper away from the family table require a hearty breakfast. A good night's sleep in a well-ventilated room should bring a well child to the breakfast table with a healthy appetite.

Orange Meringue Pudding
Two oranges, 2 cups milk, 2 eggs, 1 tablespoon cornstarch, 3/4 cup sugar, 1-3/4 teaspoon salt, 1 teaspoon grated orange rind, 2 tablespoons powdered sugar, 1-1/2 teaspoon almond extract.

Peel oranges and cut across in very thin slices. Sprinkle with 3/4 tablespoon sugar. Separate whites and yolks of eggs. Scald milk. Beat remaining sugar and salt into yolks of eggs. Slowly beat in scalded milk. Dissolve cornstarch in a little cold water and stir into mixture. Cook over hot water stirring constantly until mixture coats the spoon. Let cool and add grated rind and juice drained from oranges. Pour over oranges and chill. Beat whites of eggs until stiff and dry on a platter with a wire whisk. Beat in powdered sugar and almond extract. Pile over top of custard and put in a moderately cool oven for eight minutes to set and color the meringue.

Giant Air Merger Effective Today

Barrett Announces New Air Passenger Lines In State And South; Dallas-El Paso Route To Start Soon

(The Associated Press)
DALLAS, Mar. 7.—A merger of the Texas Air Transport company and the Southern Air Transport company, creating what is said to be the largest single air transportation corporation in America, will be effected here tomorrow, A. P. Barrett, Ford Worth, president of the Texas Air Transport, announced here today.

Barrett said he and his associates had purchased controlling interest in Southern Air Transport, which will be merged with the Texas company and two new lines started this month.

The lines acquired consist of mail and passenger service between Alameda and Birmingham and New Orleans by way of Mobile, and New Orleans and Houston. Barrett said a passenger line would be started between Houston and Dallas and Fort Worth at once. Before the end of the month, a regular passenger service will be inaugurated between El Paso and Los Angeles.

Tommy Phillips has accepted a position with the Boston Store here.

Manell Hall, with the Ford Motor company, is in Dallas attending the Lincoln short course school.

MILK DELIVERY STARTS

San Angelo To Aid Nearby Communities In Work

(Special To The Avalanche)
SAN ANGELO, Mar. 7.—The first milk route transporting the dairy products to San Angelo markets will be started Friday or Saturday morning between the Wall community and this city, according to Cyril Laker, manager of the Board of City Development dairy department, who is working on an extensive improvement program in this territory.

POLES TO CELEBRATE

Panna Maria To Hold Big Diamond Jubilee May 6

KARNES CITY, Mar. 7.—Panna Maria, said to be the oldest Polish settlement in the United States, will hold a diamond jubilee on May 6.

The community in the northern half of Karnes county, was founded by the Rev. Father Leopold Mrozowski, who left Poland in 1851. He established a Polish colony at the present site of Panna Maria in 1854.

TO INSPECT SUL ROSS

Dr. Colby Hall To Visit Alpine College Soon

(Special To The Avalanche)
ALPINE, Mar. 7.—Dr. Colby D. Hall, dean of Texas Christian University at Fort Worth, and for many years prominent in the field of higher education in Texas, will inspect the Sul Ross State Teachers' College here for membership in the association of Texas Colleges during his two-day stay in Alpine on March 11 and 12. Hall is the chairman of the committee on state records in the association, and it is his duty to inspect the applying colleges over the state.

The Woman's Day
By Allene Sumner

It probably is very trying, at the least, to have the public prints notify the world of one's engagement to wed a man who so far as he himself knows is happily wed with wife and bairns awaiting him at home.

But Mrs. Evangeline Lindbergh, famous Charlie's almost-as-famous mother, seemed to find more than trying the discovery that the world had been told, simultaneously with announcement of her son's engagement, that she herself was to wed Captain F. E. Anderson, commander of the liner "President Wilson," on which Mrs. Lindbergh returned from a year's teaching in Turkey a few days ago.

The famous lady is said to have met her son in tears, more concerned at denying her own engagement to the "dipper" who seems to have a happy family in San Francisco, than at tidings of her son's engagement.

She eluded herself with son Charlie's attorney, whom she had advised him to banish, and indicated that something must be done about this "canard."

PLENTY OF FAME
Mrs. Lindbergh is leaving what thousands of celebrities before her have learned—that the world insists on its romance about the great whose names it touches through the marriage, divorce, remarriage and hovering stock, and all the trimmings of romance, are an inevitable quality of fame.

In this particular case, Mrs. Lindbergh was doubtless, very naturally, somewhat of a reluctant guest at a wedding table. She was doubting and considerations which the world could show a woman whom a huge to be held in high esteem in this country.

But the great number of maw of a mobile demanding romance must be fed. A passenger, perhaps, related that romance was in the air; why indulge as to the dinner's presence of a matrimonial status quo? That might spoil a good story.

It is easier to explain how such things come about than explain the lady's complete break-down on the subject. After more than a year and a half of having her every move and word watched and covered for the curious public, she must have suffered enough previous similar ordeals to be rather hardened.

Perhaps, though, a true gentlewoman is never hardened to such conditions as being forced to deny her engagements to every man to whom she so much as speaks, whether he already has one or more wives, as is.

LURE OF FAME
Sometimes, too, it comforts us to see mortals to note the trials which beset the great. Being human, we have its disadvantages. But it is so has its charms. Though, better perfectly honest, most of us have sufficient handicaps for fame even to be excessively annoyed even by tales rumors revolving about it.

Wasn't it delightfully frank Lawrence Trumbull, John Coatsworth, who, when somewhat tired with all the publicity given her very move, remarked that she

South Texas Is Elated Over 3rd Reading Of Bill

(By Associated Press)
CORPUS CHRISTI, Mar. 7.—South Texas Chamber of Commerce officials here are elated over the passage to third reading of an educational measure by the house of representatives at Austin yesterday affecting the South Texas State Teachers college at Kingsville.

The measure provides the institution shall change its name to the "College of Arts and Industries," and that courses in liberal arts, industrial arts and commerce, education and military science, shall be offered.

A separate board of regents would govern the institution, and the Governor would name the members. The South Texas Chamber has worked for the change for two years.

W. L. Wade was a Thursday business visitor in this city from Bismarck.

Mrs. W. B. Montague and Mrs. J. Nichoff and daughter, Miss Ethel, were among the number of business visitors Thursday in this city from Station.

Mr. and Mrs. R. C. Young of Tokio and Mrs. Paul Young of Brownfield, visited the latter's father, J. A. Parks, of Tokio, who is ill at a local hospital.

Liberal Arts School Takes Lead In Intramural Meet

Many Major Leaguers Have Chance This Season To Aton For Past Failures

Knowles Is Star Of Weight Events To Lead Scoring

Winners Of Meet Last Year Take Substantial Lead Over Aggies - Engineers; Ideal Weather Prevails

The Liberal Arts track aggregation were out in front with a big lead at the close of hostilities on Thursday in the first day of the annual track and field meet between the three major schools of Tech. Led by Big Sid Knowles, the Arts thinly clad carried off first place in five events and added a few additional points for a total of 31 1-2 as compared to 19 for the Engineers and 14 1-2 for the Aggies.

Knowles, the Liberal Arts coach, took first place in both weight events without a struggle, thereby accounting for 10 of the 31 points scored by the Arts crew. Red Wilkins, the 200-yard low hurdles to place first in this event but Wilkins came back in the high hurdles to take first place despite a bad leg. James Aldridge annexed the fifth place for the Liberal Arts team in the pole vault.

Ideal track weather prevailed and a fair sized crowd was on hand when first event was called at 4 o'clock. Aldridge took first place in the pole vault, clearing the bar at nine feet, six inches. Curry, Liberal Arts, and Grimes, Aggies, tied for second and third place. Cody, Aggies, placed fourth.

Knowles Takes Javelin.
Sidney Knowles hurled the javelin 131 feet, seven inches to take first place in this event. Terry, Engineers, was second; Kimbrough, Engineers, third and Gee, Aggies, was fourth.

Wilkins was suffering with an injured leg and was huddled pushed to take first in the 120-yard high hurdles. His time was 17.3 seconds. Finney of the Engineers was second; Finney of the Aggies was third and Waller, Liberal Arts, placed fourth.

Waller's time in the 220 low hurdles was 26.9 seconds. Wilkins finished a few strides behind him. Hays of the Engineers took third and Grimes of the Aggies fourth in this event.

Knowles heaved the 16-pound shot 37 feet to take his second first place of the day. Vinzant, one of the Farmer boys, was second with a mark little better than 35. Finney placed third and Hays fourth in this event.

In the 100-yard and 220-yard dash preliminaries, the Engineers placed first in all of the four heats. Cole and Lawrence won their respective heats in the 220 while Higgins and Lawrence finished first in the two century heats. This gives the Tech aggregation the inside track in the finals today in these events.

Others who qualified for the finals in these races are: Chenoweth, Howard, Hill, Grimes, Hodges, Waller and Deltrich.

Women Champs Go Into Semi-finals

ST. AUGUSTINE, Fla., Mar. 7. (AP)—Four of the country's greatest women golfers are competing today in the semi-final of the Florida east coast tournament—Miss Glenna Collett, Virginia Van Wie, Helen Hicks and Bernice Wall.

Miss Collett advanced by eliminating Mrs. Sally Sterrett, Kansas City, 4 and 2, while Miss Van Wie was defeating Mrs. Melvin Jones, Chicago 3 and 2.

Miss Wall beat Mrs. Stewart Hanley, Detroit, 1 up on the 18th hole. The hardest job to Miss Hicks in eliminating Miss Pinkie Vahay, of Boston, 4 and 3.

NIXON HAS GREAT RECORD

Al Nixon, now in the minors after being with the Phillies for a number of years, is said to have dropped only three flies in his baseball career.

NEW RECORD FOR WILSON

Hack Wilson, Chicago outfielder, set a new National League record when he whiffed 94 times in 145 games.

Williams May Start Slowly But He Wins Just The Same

BY NEA SERVICE
WINDSOR, March 7.—It is said of Percy Williams that he is a slow starter. Williams, however, doesn't think so. Neither does Bog Granger, his manager and trainer.

FOXY PHANN

The safest way to pitch to Babe Ruth is to remember to duck.

CRASH!

MODERN MARIYERS

SEND IN MODERN MARIYERS

Price Sets Pace In Track Tryouts

Western Sprint Star Is Sensation Of Lubbock High School Pre-County Tryouts

Finals were run off in five events yesterday in the pre-county tryouts by Coach Pinkie Lowry's Lubbock high school tracksters. The Westerner sprint star, Price, member of the 1928 football eleven, who carried off first place in the 100-yard and 220-yard dashes and placed second in the 220-yard hurdles. Price failed to make what might be considered good time in these events, but was strong enough to show his heels to the rest of the field in both dash events. In the 220, he finished fully 10 yards ahead of Williams, who came up second.

Hurdles Look Good.
Carroll, Williams and Roger Pierce placed second, third and fourth, respectively, in the century. Williams, Woods and Pierce followed Price in the 220.

Running their first flight of the year in the 120 high hurdles, the Westerners made an exceptional showing. Watkins set the pace and was clocked at 18.2. Wilson was close behind to take second place, while Pressly and George Pierce finished third and fourth, respectively.

Watkins also took first place in the 200-yard low hurdles, clearing the barriers in 28.2 seconds. Price, Wilson and Kittrell followed close behind.

Hopper set a pace that he could hold in the half-mile run and finished strong to take first place in this event. He was trailed by Hicks, Regan and Myer. Crawford and Pierce set a terrific pace on the first lap and as a result spent the rest of the afternoon covering the second.

Coach Lowry will wind up the tryouts today with the finals in the pole vault, mile run and 440-yard dash.

Hawley Resigns As Dartmouth's Coach

HANOVER, N. H., March 7. (AP)—Announcement that Jesse B. Hawley had quit as head football coach at Dartmouth and that Jackson L. Cannell, backfield coach, had been appointed his successor, was made today.

MAY BE BETTER BATTER

Manager Wilbert Robinson is spending much time at spring training camp in coaching Del Bissonette, his first baseman, in certain batting weaknesses. He hopes Del will raise his average of 3.20.

Cincinnati Reds Set Fast Pace In Morning Work

Hendricks Applies Ax For First Time; Thevenow Arrives In Philly Camp; Sox Like Dallas

ATLANTA, March 7. (AP)—Baseball, with a touch of gallery golf, was the order today in the camp of the Cincinnati Reds, after a snappy workout in the morning. Hendricks' squad watched Horton Smith and Walter Hagen go through an exhibition golf match at Orlando, Fla.

Manager Hendricks applied the ax for the first time today, releasing Hicks, a Mercer University recruit.

Tommy Thevenow, long awaited infielder of the Phillies, arrived at the Winter Haven, Fla., training camp.

Blue, Manush, O'Rourke and McGowan still were missing in the West Palm Beach quarters of the St. Louis Browns. Dan Howley sent his squad through intensive practice.

Over in Texas, the Giants were elated over the batting against the University of Texas yesterday. Arthur Veltman, former Texas Leaguer made a great showing in the McGraw outfield, hammering out a homer, a triple and two doubles.

Lena Blackburne had praise for the arm weather at Dallas as the White Sox went through a practice game this afternoon.

Ollie Tucker, outfielder, reported to the Cleveland Indians at New Orleans. The battersmen worked out under a warm sun.

Cards Draw First Blood From Macks

AVON PARK, Fla., March 7. (AP)—The St. Louis Cardinals drew first blood in trying off the lid of the 1929 major league baseball season by blanking the Philadelphia Athletics here this afternoon 2 to 0, in an exhibition game.

Philadelphia..... 000 000 000—6 3 0
St. Louis..... 001 000 013—2 7 1
Yerkes, Breckenridge, Waberg and Cochran; Byrco, Heise, Boykin, and Wilson.

Burrus Works Out With Houston Buffs

HOUSTON, March 7. (AP)—Apparently in splendid condition, Dick Burrus, former Boston Braves first sacker, worked out today with the Houston Buffs. A short time ago Burrus underwent an operation which, he says, has removed a handicap that held him back in 1927 and 1928.

With arrival of Burrus and Lynn Griffiths, southpaw from Allen Academy, Bryan, the number of performers in camp was boosted to 45.

The Buff squad has become too large and some of the aspirant players will be released Friday or Saturday.

Rookie Hurls Sox To Win Over Goofs

DALLAS, March 7. (AP)—Elgin Wilson, a tall young semi-pro hurler from Milford, Texas, dropped unheralded into the Chicago White Sox training camp here today and made an impression on Manager Lena Blackburne by pitching his regulars to a 6 to 2 victory over the "Goofs" in a seven inning game.

Wilson, supposed to go the route, but Blackburne never had a chance to take him out.

Johnny Mann Goes To Little Rock Club

DALLAS, March 7. (AP)—Johnny Mann, shortstop, for the Dallas Steers part of last season, has been sold to the Little Rock club of the Southern Association, according to an announcement made here today by Bob Tarleton, business manager of the Steers.

Cubs Leave Island For Angel Series

SAN FRANCISCO, March 7. (AP)—While a detachment of Chicago Cubs left Santa Catalina Island, Cal., for Los Angeles and a three game series with the Angels of the Pacific coast league, two other major league teams training in the far west confined their activities to batting practice today.

Roy Johnson, \$75,000 outfielder bought from San Francisco of the Pacific Coast League, was in uniform for the first time at the Detroit Tigers camp in Phoenix, Ariz.

What Will Dempsey Do Now?

JACK DEMPSEY

With his first venture in the fight promotion field a financial success, what will Jack Dempsey, the popular ex-champion, do now? Shall he fight again—or refuse to don the gloves? Or will he continue in the fight racket as a promoter, either for himself or associated with some organization or person?

The financial success of the Stribling-Sharkey fight at Miami Beach was what those who knew Dempsey expected. He never has been associated with a fight that didn't make money and the fights where he appeared as a principal proved record-makers in receipts.

One of the few failures listed in Dempsey's life, either in or out of the ring, was the show he played in with his pretty wife, Estelle Taylor, as co-star.

It was thought, after Rickard's death, that the gate receipts at Miami Beach would decrease considerably but that was before Dempsey took charge of the fight and ran it in the manner he thought Rickard would have done. And the manner in which Jack successfully ran the show at Miami leads to the belief among experts that he will meet with great success if he continues in the role of promoter of big bouts.

GRIFFITH SIGNS Souix City Battler To Meet Leo Lomski In Chicago

CHICAGO, Mar. 7. (AP)—Jerry "Tuffy" Griffith, Sioux City light heavyweight, signed today for a return engagement with Leo Lomski, Aberdeen, Washington, who awarded a disputed decision over Griffith at Detroit three weeks ago. They will fight ten rounds as an added attraction to the Tommy Loughran-Mickey Walker match for the world's light heavyweight championship here March 23.

Grays Whip Whites In Giants' Tussle

SAN ANTONIO, March 7. (AP)—Eleven hits, two because of too much sun, was the batting output of the New York Giants today with the Grays defeating the Whites 2 to 0. Melvin Ott made the prize drive. After Welch had hit to center for three bases he sent the ball down the first base line and into the southeast corner of true right field fence for a home run, the first chalked up in spring training.

A. B. Haws is reported ill with pneumonia at his home at 1942 Avenue G.

Dempsey Promises To Divulge Plans Within A Few Days

Mauler Promptly Becomes Man-about-town On Return To New York After Successful Promotion

By EDWARD J. NEIL
Associated Press Sports Writer
NEW YORK, Mar. 7. (AP)—Jack Dempsey came back to New York today a big-time promoter and promptly became a man-about-town, so elusive and important that even his old friends of the sport pages could not catch up with him.

There was everything but a band to meet the Old Mauler. Bill Carey, railroad builder who turned promoter for the thrill of the thing, headed the delegation that had but one question in mind: "Will Dempsey fight again?"

As usual Jack didn't know what he was going to do but did declare that public would be quieted by an announcement within a few days.

The general impression is that Carey, a pal of Dempsey's since they joined forces in promoting the struggle of Jack Sharkey and Young Stribling to a financial success in Miami Beach, will make his final attempt on a trip to New England with Dempsey tomorrow to convince Jack that he has at least one more good fight in his system.

Dempsey will not come back to the ring if he has the slightest expectation of defeat.

Things Brighten Up In Steer Camp

CORISCANA, Mar. 7. (AP)—Things looked brighter in the Dallas Steers camp tonight than at any time since spring practice began.

Manager Milton Stock was chirped up considerably by the arrival of Ray Flaskamper, brilliant shortstop, and Jimmy Moore, young outfielder purchased from Kansas City.

Both Flaskamper and Moore are slated for regular berths. The salary dispute between Paul and Lloyd Wagner, star outfielders, and Sam Dreyfuss, secretary of the Pittsburgh club, which looked close to settlement recently when the brothers reduced their demands to \$30,000, still is up in the air as far as the Steers' manager is concerned.

Dreyfuss today said the demands of the Ads. Okla., holdouts still were too high—at least \$40,000 worth—and that they could accept the club offer, reported to be \$24,000, or none at all.

R. C. Holton and T. R. Durham transacted business in Floydada Thursday.

The Nut Cracker

By Joe Williams
Joe Williams

Miller Huggins has been putting his reserve outfielders through hard workouts down south. With Mousell, Coombs and Ruth, the Yankees' reserve outfielders certainly have to be in good condition.

New York scribes are talking up a match between Otto Van Horat and K. O. Christner, the Akron tire puddler. Wouldn't that be the swell socking bee?

Christner is 35 and he has been fighting only a year. They rushed him right up to the big fellows after he put the dream touch on Knute Hansen's whiskers. When he reaches 40 that lad will be dangerous.

Don't see why the A. A. U. should bar Nurmi because he failed to appear for a race. He left a note on the table at home saying, "Unable to run." Isn't that a very good reason?

He might have left a statement like this: "Unable to beat the guys you bring me to run against. Therefore am not running." Would the A. A. U. have understood then?

The idea might be a good one for pitchers to adopt on days when their teams play those bad boys of Colonel Jake's.

Waners' Salaries Still Unsettled

PASO ROBLES, Cal., March 7. (AP)—The salary dispute between Paul and Lloyd Wagner, star outfielders, and Sam Dreyfuss, secretary of the Pittsburgh club, which looked close to settlement recently when the brothers reduced their demands to \$30,000, still is up in the air as far as the Steers' manager is concerned.

Dreyfuss today said the demands of the Ads. Okla., holdouts still were too high—at least \$40,000 worth—and that they could accept the club offer, reported to be \$24,000, or none at all.

Managers Gamble Others Were Off In Losing Stars

Pilots Seem To Be Anxious To Prove Other Fellow Was Wrong In Sending Players Back To Minors

By BOB MATHERNE
NEA Service Sports Writer
NEW YORK, Mar. 7.—One must draw the conclusion, in glancing over the training camp personnel of the major league teams, that no manager takes at face value the judgment of the others managers in regards to a player's ability. They seem to be anxious to prove the other fellow may have been wrong.

At least, that is the way it seems from the number of candidates seeking jobs this spring who, at some time or other in the past, have been sent back to the minors by one or another pilot.

For instance, Uncle Wilbert Robinson has Nick Cullop trying out for an outfield berth with Brooklyn at Clearwater, Fla. And this is the same Nick Cullop who was found wanting in trials with New York, Washington and Cleveland in the American League in years past.

Cullop got his first trial a few years ago with the Yankees on the basis of some healthy hitting in the minors. But what he showed Miller Huggins didn't cause the little man to think of him as another Babe Ruth.

Bucky Harris next tried Cullop but eventually judged him lacking in ability to draw pay in the majors. Cleveland, in need of outfielders when Washington was ready to let Cullop go, grabbed him. He wasn't any worse at Cleveland, trying to fill Speaker's shoes, than others. But Cleveland didn't keep him.

Somewhere or other, Cullop always got back to Atlanta. And each time he heaped that Atlanta uniform around him, he began to spread those base raps all over the lot. He played nicely for Atlanta last year, so nicely that Uncle Bobby decided to see if all these other managers hadn't judged him wrong.

Bucky Harris, the new boss at Detroit, has three fellows with him at Tucson, Ariz., who are old faces to the big towns. They are Dudley Brannom, Emil Yde and Heinie Schube, who were once owned by the Athletics, Pirates and Cards, respectively.

Schube is expected to be Bucky's

Mitchell Declares Pro Law Will Get Attention In U. S.

New Attorney General Says Enforcement To Be Stressed By Department; Will Ask For More Funds

(By Associated Press)
WASHINGTON, March 7. — A slender, smiling man emphasized today that the national prohibition law will be enforced.

"President Hoover's inaugural address should be platform enough for the department of justice," William D. Mitchell, the new attorney general said.

Confidence in himself and his willingness to devote his best to his work, is his outstanding characteristic. Although he has not had time to decide on how best to handle prohibition he said that if he found the work of his department was increased, through the transfer of the prohibition bureau from the treasury to the department of justice, he would ask for more funds to carry on the work.

The prospect of increased work for his department did not seem to worry the new attorney general in the least.

"I think we have interesting work cut out for us," he said. "I have faith that we can improve conditions. I will have to work out the problem to see whether we will need more funds and if the problem means an increase in work or personnel I will have to ask for more money."

More Youths Are Arrested In Case

In addition to the growing array of bicycle frames, wheels and tires, salesman's samples of clothing and dry goods, Chief of Police John Lemond announced yesterday that nine golf clubs, a ring and a pistol, stolen recently in various parts of the city, had been collected by the police department. The thefts are all believed traceable to the activities of a group of Lubbock youths, four of whom are confined to the city jail and eight of whom, in all, have been arrested.

The stolen articles have been recovered in a number of vacant houses, partially burned dwellings, in suitcases on vacant lots, and some in a sack found on a lake near the city.

As soon as investigations now underway are completed the four youths in jail will be transferred to county authorities, Chief Lemond said, should charges be filed against them.

PLAN WATER WORK

Big Spring Purchases 640 Acres Of Land

BIG SPRING, Mar. 7. (AP)—Contract has been signed here for the purchase of 640 acres of land to protect Big Spring's water supply.

With the addition of the 640 acres Big Spring will have a daily potential water supply of 4,000,000 gallons. The new field, experts said, should produce 3,000,000 gallons daily.

Mount Cornelia, on Fort George Island, at the mouth of the "Si" Johns river, is the highest point on the Atlantic coast south of Cape Henry.

S. M. Delaney to Chas. F. O'Neill, lot 33, block 11, Ellwood.

Managers Gamble

(Continued from page 6.)

shortstop, especially since Jackie Tavener was sent to Cleveland for George Uhl. If he does, it will make the St. Louis Cards out a little premature in their judgment. But his worth may have increased with the experience he had in Texas last summer.

Brannon wasn't able to hit American League pitching while with Philadelphia but he may be able to do it at Detroit if he gets a chance to play first instead of Dale Alexander, the Toronto rookie, or Harry Heilmann.

Yde pitched sensationally for Pittsburgh in 1924 and 1925 and then slipped and slipped until he was through and sent to Indianapolis.

The Tigers grabbed him, thinking that Harris might be able to get the results from him that he obtained from Coveleskie. Reuther and Zachary when they were thought through.

Big-mitt Rube Lutzke is with Jack Hendricks at Orlando, Fla., and never having thought he wasn't a major leaguer, Rube is very anxious to prove the Indians made a serious mistake when they got rid of him.

The Indians have Jimmy Zinn with them. He was paid by the Pirates once, and isn't exactly a youngster in any sense. He was picked up from Kansas City after a great season.

John McGraw has Carl Hubbell, Curley Ogden and Harry Kelly, all of whom were turned loose by American League clubs. Harris, who passed judgment once on Ogden and Kelly at Washington, probably wishes the Tigers had kept Hubbell, especially after those nice games the southpaw rookie hurled late last season.

And Earl Sheeley, with the Pirates now, must not be overlooked. Nor Carl Mays, who may do a comeback with the Giants.

Rylander Urges Club Sponsorship

District Lieutenant-Governor Stresses Need Of More Clubs In Section; Present Minstrels

The sponsorship of one or more new Kiwanis clubs in towns of this section during the year was urged by W. C. Rylander, district lieutenant-governor for Kiwanis International, in the regular weekly luncheon program of the Lubbock club in the Lubbock Hotel yesterday.

More active work for the club's advancement in the territory was stressed by Mr. Rylander.

Performing samples of the cast of the American Legion minstrel and musical revue which is to be given at the high school Monday and Tuesday nights were introduced by Mayor Harley D. Woods, Dr. G. H. Ater, director of the show, and two minstrels, Bob Peck, and Lionel Merrill presented a short program of songs, jokes and dances, G. A. Meiser favored the club with a rendition of "Sonny Boy" with Bob Stevens at the piano.

C. J. Meyers announced that the club's Pig Project in which they are to purchase 25 pigs to be distributed among members of the 4-H club boys on farms of the county, was nearing completion. The pigs are expected to be ready for distribution within a few days and are to be given to the club boys. County Agent D. F. Eaton is to work with the club in placing the animals.

Jack M. Lewis presided during the meeting. Dr. G. G. Castleberry was in charge of the day's program.

LONDON—The director of a Port Elizabeth snake farm claims he has found a cure for epilepsy. A blend of various snake venoms, tried out by him and physicians on epilepsy patients, is said to produce a cure.

A ROLLING RECORD
ST. LOUIS—The records record for barrel rolls, an airplane stunt consisting of rolling the plane wing-end over wing-end while going forward, is held by Dale Jackson. His record is 417 rolls, which bettered the former record by more than 130 rolls.

The life insurance investment is undoubtedly safe and offers a surprisingly good return to the holder.

Does your investment schedule for 1929 include enough old line life insurance?

Ranger Plans For Greatest Meet Of Texas Rotarians

Enthusiastic Letters Being Received Tell Of Plans To Attend Coming Conference; Program Prepared

(Special To The Avalanche)
RANGER, Mar. 7.—The greatest conference in the history of Texas Rotarians is forecast for the forty-first district which will be held in Ranger, March 21 and 22, judging from the enthusiastic letters that are pouring into conference headquarters from clubs and individuals throughout the district.

Ralls is planning to send a 100 per cent attendance, writes J. Edd McLaughlin, Mineral Wells, likewise contemplates an attendance of 100 per cent. Due to the nearness of Eastland and Cisco to Ranger—Eastland being 10 miles away and Cisco 20 miles distant—it is assumed that Eastland and Cisco, as well as Ranger, will register a perfect attendance. In fact the conference may witness the shattering of all records for the number of clubs with the entire membership present.

Lubbock To Have 50
Lubbock will have at least 50 on hand, Charles A. Guy, editor of the Lubbock Avalanche-Journal writes. And Fort Worth can be counted on for a big representation, states B. A. Tolbert.

These expressions are typical of the enthusiasm with which the clubs of the district are looking forward to the conference.

While Ranger is the conference city, Eastland and Cisco are joining with Ranger as host clubs. It has for years been the proud boast of Eastland county that it is the only county in Texas with three Rotary clubs. Eastland countians are very proud of their county for they declare that it casts more votes, has a greater mileage of paved highways, has more population and has more land rendered for taxation, than any county west of Fort Worth until El Paso county is reached.

Sight Seeing
Although long noted as a great center of the oil and gas industry, Eastland county has gained new fame as "the egg basket of Texas" and ranks second in the production of peanuts. Plans are being made for the delegates to have an opportunity to see many sights of interest—including the third largest power plant in Texas with a 320-foot smokestack and another stack a hundred feet shorter; the largest hollow type concrete dam and swimming pool in the United States; the steel derrick in the center of Ranger's Main street; and oil wells lining the \$825,000 stretch of brick highway.

But of course the chief magnet will be the splendid program that has been arranged, the notable figures of International Rotary that will attend, the fellowship that will characterize the entire conference and the ideas of greater service to mankind that each Rotarian will carry with him back to his home club.

Baptists To Hold Mission Institute
DALLAS, Mar. 7. (AP)—After a meeting of the Women's Missionary Union executive board, Baptist General convention of Texas, at Fort Worth on March 12-13, a three-day mission study institute, the first of its kind for W. M. U., will be held. It has been announced.

The 350 members of the executive board represent virtually every county in Texas, and a large attendance is expected. Mrs. F. S. Davis, Dallas, is president of the organization.

Mrs. J. H. Weatherly, Hubbard, state mission study chairman, and Mrs. W. B. McGarity, Fort Worth, superintendent of the training school are in charge of arrangements for the institute.

Among teachers at the institute will be Mrs. Taul B. White, Rome, Ga., mission study leader of the Southwide W. M. U., and Mrs. Una Roberts Lawrence, St. Louis, Mo., author of mission study books.

Rib Has New Use No Woman Is Connected With Case

CAMERON, Mar. 7. (AP)—A Cameron hospital patient is minus a rib—but he has a new jaw.

A part of his jaw shot away in an accident, doctors removed a rib to replace the jawbone and covered it with skin from the man's body.

Postal Receipts Increase \$3,000

During January and February of this year Lubbock's postal receipts, as compared to the same two months of last year, show an increase of more than \$3,000. Postmaster John L. Vaughn announced yesterday, in making public the figures on this city's receipts.

Totaling \$8,196 for February, an increase of about \$600 was recorded while January's total of \$9,731 showed an increase of about \$2,500 over last year. For this year, to March 1, the grand total is \$17,927.

Postal receipts for 1929 are anticipated to be in the neighborhood of \$10,000, compared to slightly more than \$100,000 for 1928.

Bacteria taken from a fox's fur and cultivated on feline gave out the characteristic odor of the fox when heated to 99 degrees F.

Islands in a river, unless caused by rock outcrops, are continually traveling downstream, the current cuts at the upstream end of the island and deposits at the other end; thus in time changed the position of the island.

Do you enjoy your food?

If you do not enjoy your food it is a true sign that you are losing your appetite. And when your appetite is "gone" it means you haven't the resistance to ward off disease. Loss of appetite is only a symptom. General weakness pervades the entire body. There is no desire to work or play.

Rich, red, blood builds and sustains
Your physician will tell you that lowered vitality is the result of an insufficient supply of red blood cells—those vitalizing elements in the blood that nourish and sustain the body.

When you get your red blood cells back up to normal, that sluggish, let-down feeling, loss of appetite, rheumatism, boils, pimples, and skin troubles disappear. You get hungry again; sleep soundly; solid flesh takes the place of that which was once flabby. You feel strong; and your nerves become steady.

S.S.S. proven record over 100 years
For more than 100 years S.S.S. has been helping people regain their strength and charm. Thousands of users have testified

Rehearsals For Legion Minstrel Conducted Nightly

The American Legion Minstrel and Musical Review which will be given at the High School auditorium next Monday and Tuesday nights by the Allen Bros. Post of the American Legion under the direction of Dr. G. H. Ater, is fast rounding into shape. Rehearsals are being conducted nightly.

This promises to be one of the best performances of its kind ever offered the people of Lubbock. The Minstrel is in three parts and is well balanced. For those who like modern rag-time music there are a number of popular songs which will be sung by the black face boys. For those who like Ballads, there will be plenty of these sung by the ballad singers. Going into the more classical melodies and music, a group of the best male voices in the city will render these in the minstrel second part.

Littlefield Boy Scout Work Rises
LITTLEFIELD, Mar. 7. — The "Boy Scout Day" observed by the Rotary club of Littlefield Thursday was a great success. Each member present brought a boy as guest. There was present also Rev. L. G. H. Williams, volunteer president of the South Plains area, Mr. K. N. Clapp, district Scout commissioner, Chas. C. Crenshaw and J. M. Kendall, all of Lubbock, and Carl Thorp, Ordiss Forbes and Padgett Maddox, Boy Scouts visitors from Lubbock. The citizens of Littlefield are very much interested in the Scout movement here. Committees for the organization of two new teams were appointed, and are already at work.

March Building Total Increased

Five permits, issued yesterday by City Building Inspector D. J. Schlag, totalled \$10,750, making 15 issued during this month and bringing the March total to \$75,485. The day's record boosted the year's total to \$839,875, 159 permits having been issued since January 1, and Thursday's permits being listed below.

W. S. Masoner, 1909 Twenty-Seventh street, five-room brick veneer residence, \$3,750. George W. Butler, 2215 Eighteenth street, seven room brick veneer residence, \$8,000. F. L. Jones contractor, Dr. S. H. Stewart, 2316 Tenth street, frame garage, \$200. F. L. Jones, contractor, Oscar Lykes, Fourteenth and K, repairing residence, \$500. R. W. Walker, contractor, Shelton Lumber Co., Fourth and L, frame warehouse, \$300. Joe Telford, contractor.

PLAN MUCH WORK
Littlefield Chamber Of Commerce Is Active
(Special To The Avalanche)
LITTLEFIELD, March 7.—At the weekly meeting of the Chamber of Commerce on Tuesday of this week a good roads committee was appointed, and also a committee to work with the ladies' organizations in forming a cemetery association. The farmers of this section are becoming very much interested in the Chamber of Commerce work, as evidenced by the interested attendance.

It is said that small trout transplanted to New Zealand waters grow as large as the salmon.

Grackles habitually fly in flocks and chatter around a newly made nest before the eggs are laid.

The cooperative movement inaugurated in 1844 by 28 flax weavers of Rochdale, England, means relief from existing employment and high prices.

It is said that small trout transplanted to New Zealand waters grow as large as the salmon.

Grackles habitually fly in flocks and chatter around a newly made nest before the eggs are laid.

The cooperative movement inaugurated in 1844 by 28 flax weavers of Rochdale, England, means relief from existing employment and high prices.

NOTICE—It is not the intention of The Avalanche to circulate upon the character of anyone knowingly, and through error we should, the management will appreciate having our attention called to same, and will gladly correct any erroneous statement made.

The Avalanche is an independent Democratic newspaper, supporting in its editorial columns the principles which it believes to be right and opposing those questions which it believes to be wrong, regardless of party politics; publishing the news fairly and impartially at all times.

SCRIPTURE—Let not then your good be evil spoken of.
For the kingdom of God is not meat and drink; but righteousness, and peace, and joy in the Holy Ghost.
For he that in these things serveth Christ is acceptable to God, and approved of men.—Romans xiv, 16, 18.

THE SAME OLD SHIP

It cost something like \$170,000 to inaugurate Herbert Hoover as president on March 4. Parades, grandstands and aerial displays are expensive.

Yet the only ceremony that is legally required is the actual taking of the oath by the incoming president. This, by itself, would take only a minute or so and would not cost a penny.

However, we have a love of ceremony. It is impossible for us to feel that any event is really important unless it is dressed up. When a peace treaty is signed the signatures must be affixed with flourishes. When a great new building is to be built there must be fuss and feathers in connection with the cornerstone. And when a new president is sworn in the thing must be made as impressive as possible.

Perhaps this is because the race is secretly aware that it makes a great many blunders. Any event that can be made to look like a fresh start of any kind is dreamed up accordingly. When we inaugurate a president it is as if we were telling ourselves: "Well, new things are going to be different. We'll begin things over again and do better than we have done in the past—so we'd better parade, and a few bands and set off some sky rockets."

This works very well except that now and then it makes us deceive ourselves.

Change, this world being what it is, never comes abruptly, and it never is imposed from above. Usually it is the result of a long process of evolution. We realize what is happening. We glorify a certain event and a certain man but we fail to see that the "fresh start" that they symbolize for us began a long time ago and that we ourselves had quite as much to do with it as the hero of the hour.

Mr. Hoover, for instance, will probably give us an administration different from any that have preceded it. He frankly takes the position that our whole salvation, spiritual and intellectual as well as material, depends on the proper handling of the new economic and industrial forces that have arisen in the nation. Like all truly competent leaders of men, he wants each American to have a fuller, freer, finer life; but it is his idea that this can be done, not by stressing the intangibles, but by tackling such concrete, material problems as prosperity, poverty and economic well-being.

This, to be sure, sounds very much as if the country were suddenly embarking on a new course. The pomp and ceremony that marked the inauguration testified that we feel that way about it. Yet it all antedates Mr. Hoover.

NEW GLAMOUR

The builders of this country had a number of highly picturesque ways of getting their work done. As we continue to modernize what they left us, we tend, more and more, to pick up again the methods they used—but we leave out the picturesque part.

Nowhere is this more true than in the field of transportation. Until the railway network became established, there were three main forms of commercial transport in America: by river, by canal and by road. All were colorful, romantic and slow.

The railroads took business away from all three, being cheaper and faster. Now we are reverting to these three systems; but, going back to them, we are dropping the very trappings that make the old wood-ruts and the muddy driveways of travelers seem so other-worldly and attractive.

The motor truck has revived highly transportation. Where the old, springless, creaking wagons, drawn by multiple teams of oxen or horses, lumbered over wilderness trails and mountain passes at a pace painfully slow, the modern ten-ton truck goes speeding along over concrete highways. The truck travels in a day farther than the old wagon traveled in a week, and carries five times as much to boot; but somehow it is not so nice to look at. Nobody will treasure old pictures of it in years to come.

It is the same with traffic on the rivers. The Mississippi and its tributaries were almost lifeless for years. Now great fleets of barges are coming into being, and plans are being laid for a comprehensive service extending from Kansas City and St. Paul to New Orleans. The beflagged old packet steamers, brilliant in white and gilt paint, are gone to inefficient. The modern barges are replacing them; more useful, and far uglier.

The story is repeated on the canals. The horse-drawn barges that once plodded up and down the Erie canal, breeding a life and culture of their own, setting a leisurely pace and bringing into being a group that lived apart from the main currents of the day, are gone forever. In retrospect they make a fine picture. Their slow pace seems attractive to our modern feverish haste.

The same canal is coming into its own again—with steel barges that do not need horses and that, like the motor trucks, can outdistance and out-carry their old predecessors. But the new barges, like their river prototypes, are sadly unromantic. No one will ever write novels about them.

And there we are. We have grown so big and busy that we need every form of transportation we can get, and we are going back to the ways of our ancestors and moving goods by river, by canal and by highway as well as by rail. But we have not gone back far enough to pick up the way color that they had.

Or—are we mistaken? Over the heads of the modern bargemen and truck drivers soar silver airplanes—our newest method of transportation. We have discarded the old glamour; perhaps we are in the process of making a new one. It may be that the airman and his allied commercial carriers will yet give us the color and romance that are missing on our canals, our rivers and our roads.

A Washington Bystander

CAPITOL HILL TO BUZZ SOON WITH CONGRESSIONAL STATICS
BY CHARLES P. STEWART
Washington Correspondent for Central Press and The Avalanche

WASHINGTON, March 7.—Capitol Hill, where our national legislature hangs out, will simply sizzle with congressional static for the next six weeks or thereabouts. "Static" is right. Congress will not be in session so there can be nothing coherent about it. Yet nearly all the senators and representatives will remain here, awaiting President Hoover's extra summons, with naught to do but rend the atmosphere in an almost a 531-lawmaker power discord.

The new administration's event will add mightily to the clamor. Ordinarily congressmen pass up the trip and go home right speedily after inauguration day. Its members may continue to broadcast their sentiments as vehemently as in the present instance but the racket dissipates itself instead of the ether like a TNT explosion.

Gathered all together in the senate and house office buildings—and those only a couple of blocks apart—the legislators achieve the effect of one grand chorus but with darn little tunelessness about it.

It goes without saying that no president ever announced a cabinet that satisfied everybody.

In fact, it would be impossible for him to satisfy anybody. If a senator or representative is placed with one appointment he is almost certain to be perfectly horrified at some other one. Assuming him to be the president's party, he usually warmly indorses the whole layout, in his official capacity—on the floor, over at the Capitol building. However, in the event that several of the White House selections really do give him sharp, shooting pains, there is no reason why he shouldn't screech with anguish in the privacy of his own quarters—in whichever of the two office buildings they may happen to be situated.

The interval between sessions—the end of the last regular and the beginning of the extra session—furnishes an opportunity for the average element to get a lot of this anguish out of their systems.

The only thing the majority leaders are anxious about is getting the static tuned out before the Seventy-first congress meets, in response to Mr. Hoover's call, on April 15.

The squawking and squealing and yowling which make hardly any difference during the intermission would be most unpleasant as part of the regular program. Even as it is they hurt the managers' ears somewhat. That is why they would have preferred an earlier special session to have avoided so prolonged etheric disturbance, or a later one, to scatter it over the country and make it less audible. But Mr. Hoover would have his way, which makes some of the older hands wonder if he has yet learned all that they know about the best methods of manipulating the political radio—or even if he has a natural flair for it.

The suggestion is heard on Capitol Hill that Mr. Hoover seems to think that he can get sweet music out of the presidential "set" by main strength and awkwardness.

Many a doubt is expressed by political electricians if he can make such a system work, no matter how hard he tries.

In their opinion he will find he has to conform to mechanical limitations or the White House loud speaker will emit static from the congressional end of Washington until it drives him frantic.

Your Health

THE SEARCH FOR BEAUTY BUILDS HUGE INDUSTRY

BY DR. MORRIS FISHER
Editor of the American Medical Association and of Hygeia, the Health Magazine

The fact is apparent that the cosmetic industry has grown rapidly in recent years. According to Dr. S. Dana Hubbard of the educational division of the New York City department of health, at least half of the men, women and children in the United States visit public beauty parlors and barber shops at one time or another.

There are at least 170,000 persons engaged in the cosmetic trade. There are 135 training schools in which pupils pay an average of \$250 for courses of instruction in this profession.

The cosmetic industry of the United States involves sales of products amounting to \$20,000,000 a year and is estimated that the beauty shops take in \$400,000,000 for their services.

Many of the individual states now have laws regulating practice in beauty shops and provide for regular inspection as to their sanitation but it is doubtful that the majority of the states have amended in any way for the protection of the public.

In some places towels are used repeatedly on different persons; many of them have no arrangements for sterilizing instruments or linens; many of the cosmeticians are grossly ignorant and have not the slightest conception of skin diseases and their transmission or of the chemical contents of the preparations that they use.

From time to time legislation has been proposed to control the inclusion in cosmetics of such poisons as lead, arsenic, mercuric or carbolic acid. The majority of the "make-up" cosmetics, however, do not contain dangerous drugs but are simply a basis of cold cream or other ointment with some perfume or powder added.

No doubt the cosmetic industry is permanently established and does not represent in any sense of the word a passing fad. Make-up is a staple drug store utility.

In view of the extent of the industry regulation is more and more likely to be called in to control its dangerous possibilities. Certainly every woman should be careful not to put on her face a cosmetic preparation of unknown origin or one which unwarranted claims may be made.

A SUGGESTION

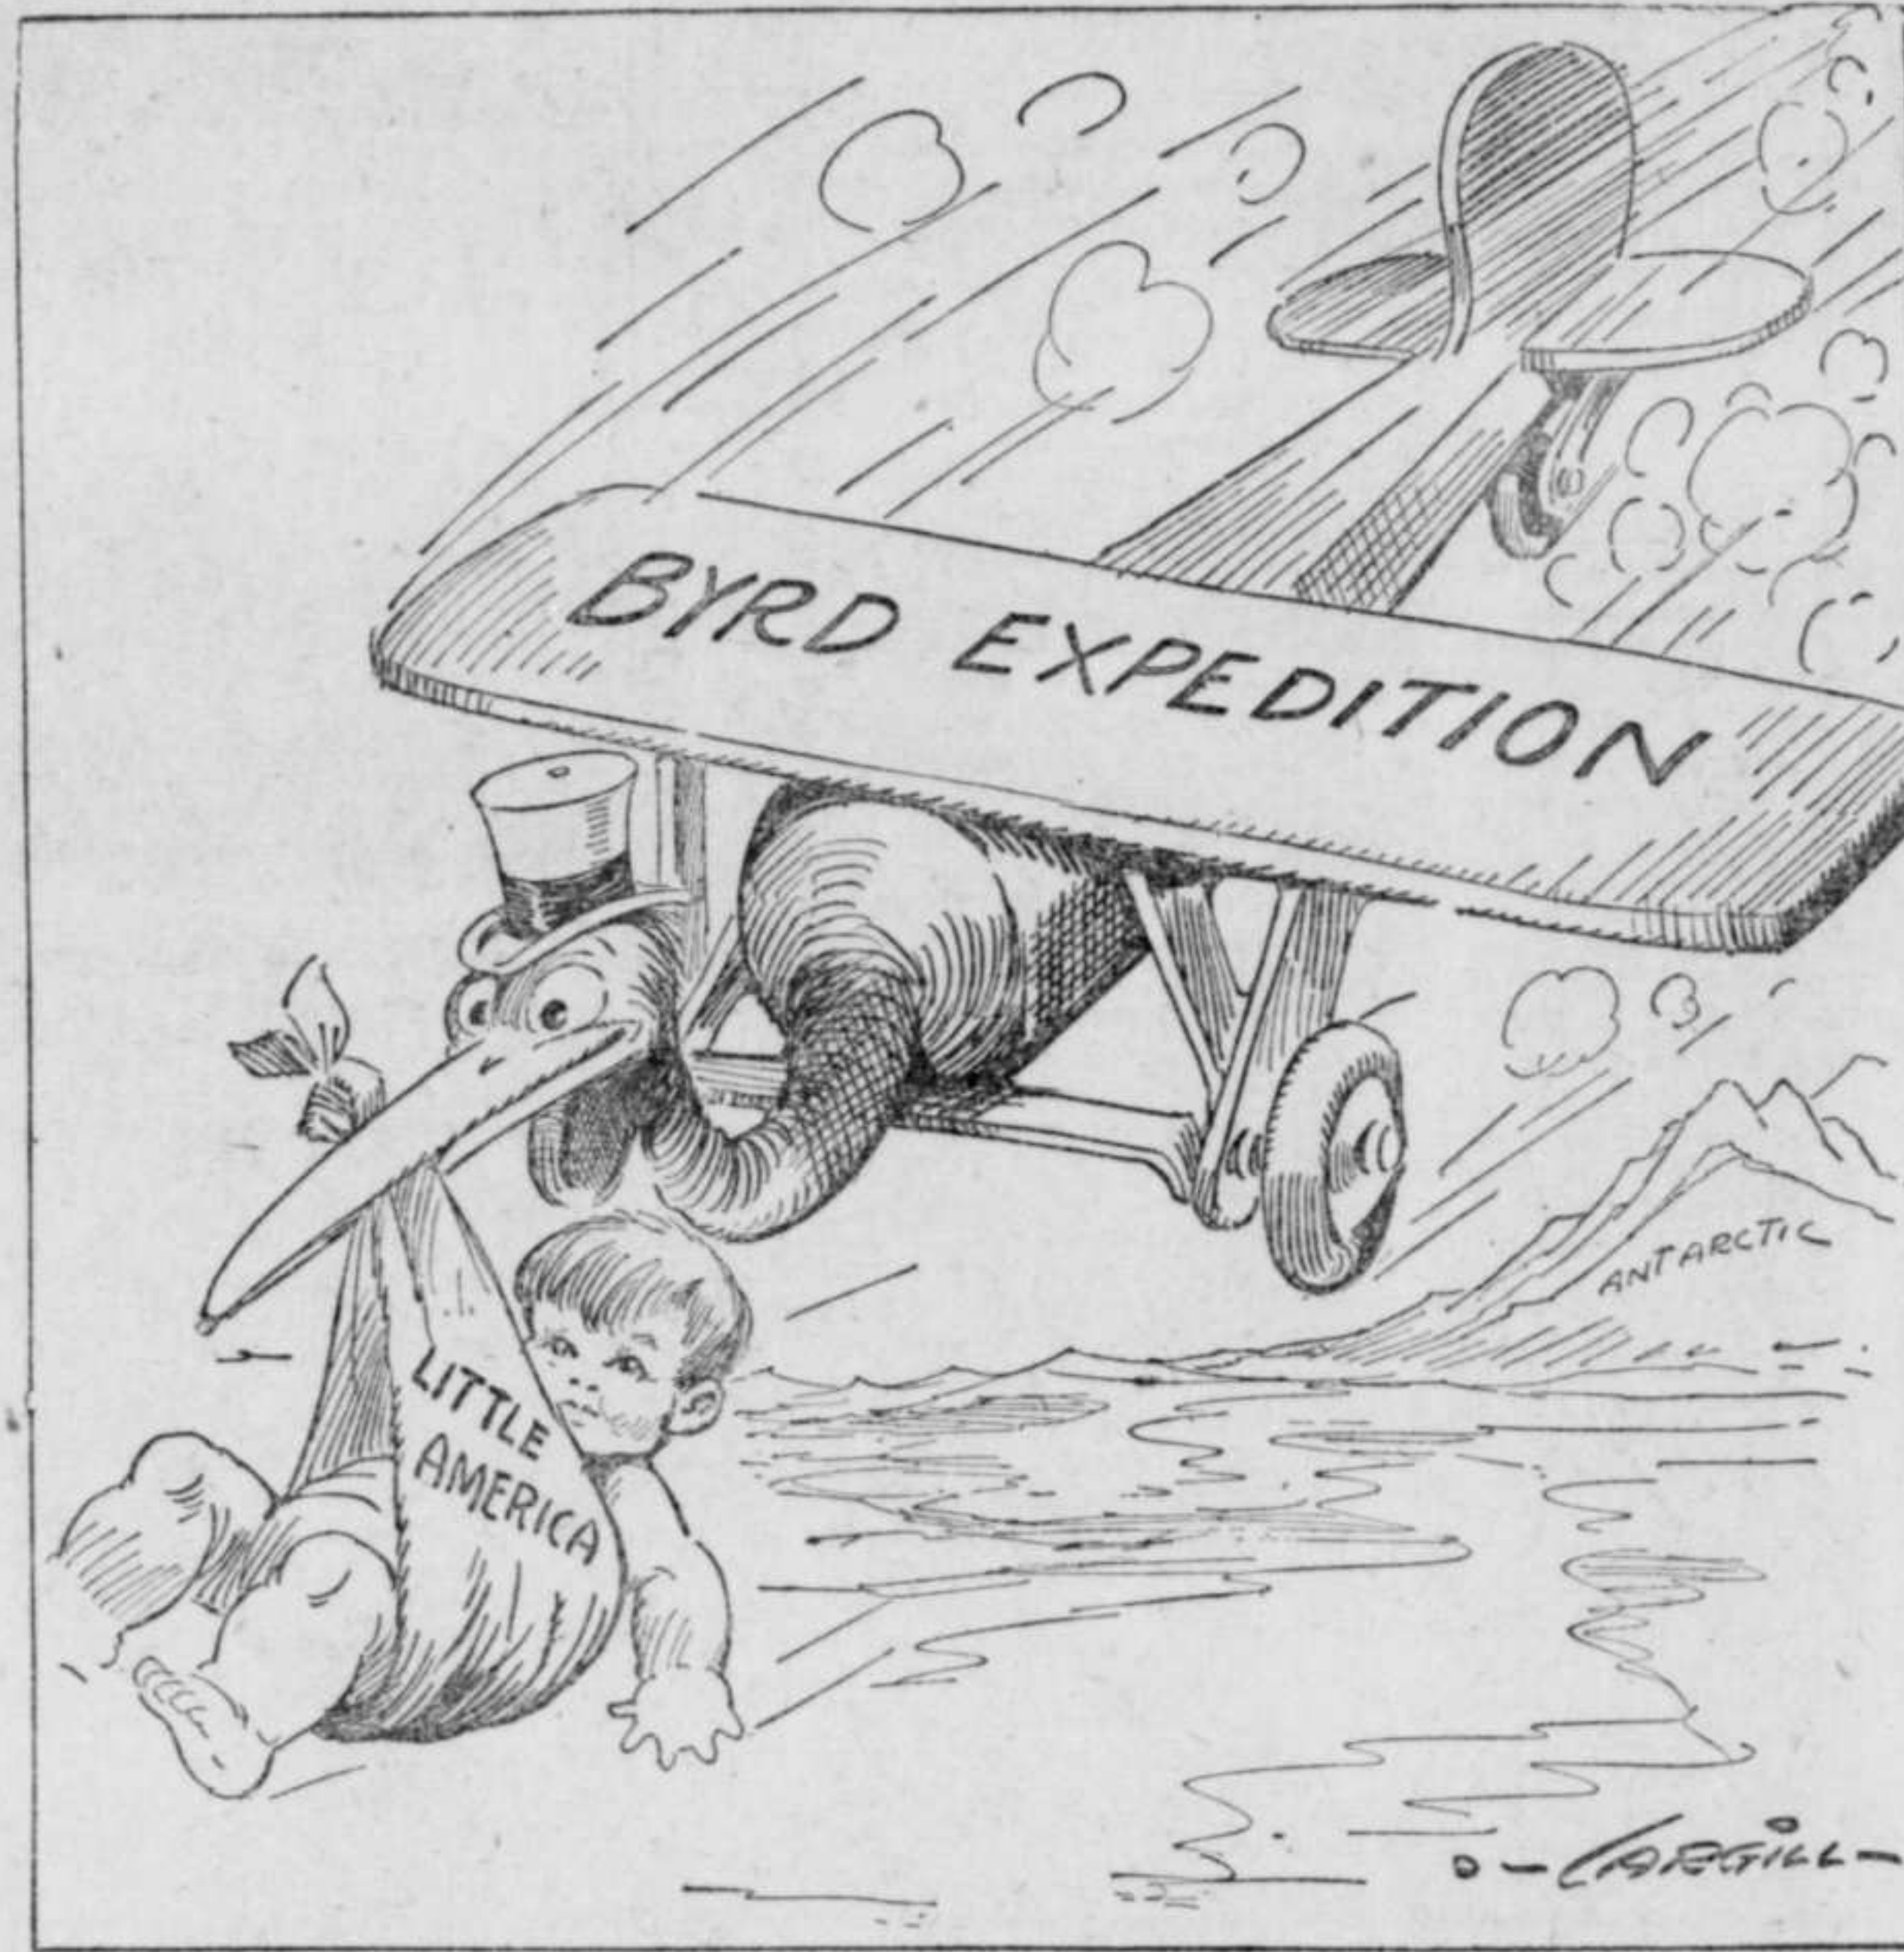

The thing which occurs to us in connection with the proposed presidential commission which will investigate the prohibition situation is that Mr. Hoover cannot possibly overestimate the importance of selecting Americans of the very highest prestige to serve on the commission and that there is no American too big for the job.

One hopes that the recommendations will be of great value toward solving a tremendous national problem. And one can be quite certain that whatever attitude the commission takes will be subject to a great deal of criticism. Obviously, then, it becomes of paramount importance to have on this commission only men of the highest reputation for integrity, of proved and unquestioned competence and of motives concerned only with the future welfare of the country. This commission will be no place for anyone actively engaged in politics, for any second-rater or for any man blinded by prejudice.

With these facts in mind, we suggest the following commission:

Chief Justice William Howard Taft, Justice Louis D. Brandeis, Justice Harlan Fiske Stone, Charles Evans Hughes, Elihu Root, John W. Davis and Owen D. Young.

Another Addition To The Family

SO THINK WE

We think that the report of the citizens' committee which has been looking into the needs of the public school system should prove to us that Superintendent Duncan is right in his statements that Lubbock needs more room for the students here.

We think the report that Anne calls "Augustus" is one of the most unromantic things that could be spread abroad. Imagine calling the "Lone Eagle" "Gus," for short.

We think that the legislature is acting wisely in leaving the matter of Sunday shows up to the individual cities of the state. Under that plan if the majority of the people plan to have 'em and if the majority of the cities prefer not to have them, they can have 'em and if the majority of the cities prefer not to have them, they can have 'em and if the majority of the cities prefer not to have them, they can have 'em.

We think that the Retail Merchants had a fine time at their annual banquet and program last night and judging from reports they also "cleaned good business information from the function."

We think that the merchants of the city can make a better business plan in which they live and work. Get merchants pulling together and everybody prospers. If they pull apart somebody gets hurt.

We think the Longview officer who was fined \$100 for neglecting his duty in not seeing to it that a homicide was either punished too much or not enough. When a 14-year-old boy is shot and killed by an officer in the pursuit of his duty the officer is either wrong or right, depending upon conditions. A \$100 fine, administered by a jury deliberating four hours doesn't make the officer right or wrong, guilty or innocent—and certainly doesn't bring the boy back to life.

We think that even if the rebels do capture Juarez, Mexico, all they will find there will be a flock of saloons and a few adobe houses.

We think that congressmen, ex-congressmen or whatever he is, Wurzback was perfectly right in refusing to pay \$7,500 to get his name placed on the GOP ballot at San Antonio. It's not worth \$7,500 to have your name put on any republican ballot and there are likely some men who would pay that much to have their names kept off.

We think the fire which destroyed the nitroglycerine plant at Amarillo must have been quite a blow-off.

We think Texas made a fine showing in 1928 in the matter of exports. New York was the only state in the union which did any better and New York, we must admit, has a better opportunity than does Texas.

We think that Lindy's being unconcerned over the Mexican revolution is the most natural thing in the world. When a man's in love he just can't think straight on anything.

We think the automobile show which will be held late this month will be a fine thing for prospective buyers as well as for the dealers of Lubbock. Most of the cars displayed here will be displayed, side by side, and everyone will have an opportunity to contrast one with the other.

We think that Slavin is fortunate who the center of talk is to one of its most-n picture theatres and should be congratulated.

We think that Barrier Brothers, in celebrating their twelfth anniversary in Lubbock, give us an example of growth which comes to good business concerns in Lubbock and over the South Plains.

We think that the members of the Simmons University Cowboy

The Way Of The World

BY GROVE PATTERSON

PARANOIDISM

Fanatics may be more dangerous than criminals. Their distorted beliefs, flowing out of an under-nourished, over-wrought mind, affect thousands. They inspire terror. They provoke fear of a monster whom they call God. Fanatics and mental misery to the world. "Revivalists" of this type are fit for institutions of reform or everlasting silence.

WORDS

Don't underestimate the power of words. They may, on occasion, be as important as deeds. Lincoln at Gettysburg said that men would not long remember what was said there, but they would always remember what he did there. And now what he said is remembered because of what Lincoln said there.

REWARD

There is some fun in losing your temper. Letting yourself go, getting something out of your system. But there is a lot more satisfaction in keeping calm, holding your temper, getting finally what you want, and realizing comfortably that you haven't made a fool of yourself.

THE THEORY OF BUSINESS

Veblen, great authority on sociology and the ways of human society, exposed a fallacy of modern business. The idea of almost every manufacturer is first of all to do more business than he did last year. Not many business men ask whether there is a real need for greater production. They are not much concerned with the theory of greater and greater production. There may be a legitimate reason for doing more business this year than last.

BEING "SET RIGHT"

It is good for any of us now and then to go through the humiliating experience of being "set right." We little by little build up a theory of our own importance. There is danger that our convictions in this regard will be largely reflected in our actions. Then somebody comes along who isn't a bit impressed with us and let's us know it. We are humiliated, but it is a wholesome experience. It puts us more nearly where we belong, takes the conceit out of us, and convinces us again that it takes a long time to produce true value.

band are getting a liberal education in their trip to the North and East as Texas' band in the inaugural celebration. They were guests of Florence Ziegfeld, famous "glorifier of the American girl," at "Show Boat" the other night.

We think Lubbock may well follow Lockney's suit. The Floyd county city just voted \$115,000 for the erection of a new school and gave the proposition a majority of five to one.

RATE IS REDUCED

Threemorton Gets Fifteen Per Cent Slash

(Special To Avalanche)

THREEMORTON, March 7.—Threemorton gets another fire rate reduction.

Effective the first of March, Threemorton received a rate reduction of 15 percent from the state fire insurance commission. This is the second year that Threemorton has had this reduction, which is the result of the good fire record of the town.

Wireless rays may be a mile long, while X-rays are smaller than atoms.

PRESS COMMENT

MOTHER JONES

Almost unbelievable story comes out of Dallas county. It is about Mother Jones and her boys and their triumph.

Mother Jones, it seems, became a widow back in 1915, and found herself with nine children and nothing much to eat. But she was strong and healthy, the children were husky youngsters, and the family spirit was tight. Mother Jones and Jones gave a lot for a church, and the young people were selling the produce after school hours. Within a few years two or three of the children got jobs in Dallas and the family continued to prosper.

Soon one of the boys began hauling passengers between Dallas and one of the suburban towns of the country, using a small truck for the purpose. Still later a fleet of light cars was bought and put into service. Now Mother Jones and her family own 11 commodious motor buses and three of them are driven by the eldest of the unmarried daughters. Meanwhile, Mother Jones has a lot for a church, and advanced money to erect the building. One of her daughters is an ordained minister and preaches twice each Sunday. Another daughter leads the choir, and a third plays the piano.

We hasten to add that this is not all. This unbelievable story comes to a climax with the statement that in addition to driving motor buses and attending to all the other commercial and ecclesiastical duties summed by this remarkable family, Mother Jones and her daughter can more than 1,000 quart of fruit and vegetables last year. If Mr. Hoover is looking for a business man for his cabinet he is respectfully urged to consider Mother Jones. She is a business man, no doubt about it.—Brownwood Bulletin.

GARNER A MAN OF THE HOUR

Rep. John N. Garner of Texas by unanimous vote of the minority in the House, won the democratic nomination as speaker of the house. An honor very deserving.

Garner of Texas is perhaps the foremost man on the minority side. He has been an M. C. 26 years. He never loses his head. He is wise to the ways of legislation. He knows how to control his tongue. He is not a political chatter box. When he has a message he shoots it across. Garner thinks rapidly and never talks unless there is something to be said for country and party.—Waco News-Tribune.

Your Income Tax

NO. 26

Bad debts may be deducted from gross income in determining net income and may be treated in one of two ways, either by deduction from gross income in respect to debts ascertained to be worthless in whole or in part, or a reasonable addition to a reserve for bad debts. Permission to adopt the reserve method is limited to taxpayers having a large number of accounts where credit has been ascertained to cover a considerable portion of time. It is not granted for the handling of one specific debt.

Bad debts may be deducted only for the year in which they are ascertained to be worthless and charged off the books of the taxpayer. The taxpayer should attach to his return a statement showing the propriety of any deduction claimed for bad debts. Where the supporting circumstances show that a debt is worthless and uncollectible, and that legal action, in all probability, would not result in the satisfaction of execution on a judgment, proof of these facts is sufficient of their worthlessness.

Unpaid loans made to relatives or friends with little or no expectation of their return are not deductible but are regarded as gifts. If a debt is forgiven it can not be claimed.

THE BLACK PIGEON

© 1929 By NEA Service, Inc. BY ANNE AUSTIN

THIS HAS HAPPENED
RUTH LESTER, beautiful secretary to "HANDSOME HARRY" BORDEN, promoter of dubious stock companies, becomes engaged to JACK HAYWARD, whose office is just across the narrow airshaft from Borden's.

On a Saturday morning in January, Borden has two women callers. The first is RITA DUBOIS, night club entertainer, who is to accompany him for a week-end at Winter Haven. The second caller is MRS. BORDEN, Borden's wife and mother of his two children, who comes for her monthly alimony which the promoter forces her to ask him for in person.

Learning her husband is busy she agrees to return, but before leaving glimpses a pistol in Ruth's desk. It leaves and Borden waves goodbye with a torn bank note, reminding her of her "bargain."

While Ruth takes dictation, Borden makes a pistol call at her and she screams, attracting Jack's attention in the opposite office. Jack is furious and threatens Borden across the airshaft. He is still angry when Ruth meets him for lunch. Ruth forgets her bank book, and rushes back to the office where she brushes her lip. Jack believes Borden hurt her but Ruth insists he is wrong. At the luncheon table Jack says he left their theater tickets on his desk and returns for them. He is gone 20 minutes, returning strangely perturbed. This mood persists throughout the meal and reappears again when he calls Sunday night.

When on Monday morning Ruth finds the body of Borden sprawled on the floor near the window, she reviews Jack's strange behavior and is petrified with fear. She runs to his office and finding him out, looks frantically in his desk for his gun. It is gone. Jack returns immediately and accompanies her to Borden's office where he calls the police. Fearing Jack shot Borden through the open window, she rushes into Borden's office to close his window before the police arrive. The window is already closed. The police arrive.

When DETECTIVE McMANN arrives he learns Ruth is engaged to Jack. She also tells him of Borden's pistol call. The next morning RITA DUBOIS, night club entertainer, and MRS. BORDEN, Borden's wife and mother of his two children, who come for her monthly alimony. While Ruth is being questioned, Mrs. Borden comes in, the screams when McMann shows her the body. He grills her for a few minutes. "You shot him!" he flings mercilessly at her.

As McMann's ruthlessly logical sentences prepared for him, the bullets of Mrs. Borden's shrinking figure, Ruth Lester thanked God that she had not told the detective about the automatic pistol in the bottom drawer of her desk—that fearsome blue-black thing which Mrs. Borden had seen and shuddered away from on Saturday.

Ruth's own small body stiffened with indignation and sympathy as Mrs. Borden pulled herself together to answer McMann's brutal charges. "I did not kill my husband, I fear. He was alive, well and happy when I left him Saturday afternoon. I never saw him again until—"

—a few minutes ago?"

Whatever answer the scowling, obviously skeptical detective might have made was checked by the opening of the outer door and the entrance of three plainclothes men whom McMann greeted curtly, assigning them rapidly to their tasks. "Carson, I want you to take charge of all visitors that Biggers stops at the door. There'll be stock salesmen and other business callers who don't know that Borden is dead. Borden has been in Suite 715 down the hall. It's vacant. Question all comers and send for me if any salesman who reports. Biggers is holding a couple of them now."

"Yeah, that's all, but don't let anything slip through your fingers. . . . Covey, get hold of the superintendent of the building, and tell him to round up every employee that was on the premises Saturday afternoon. Ask him also to make an office to office canvas for every tenant that was in the building after one o'clock—not many of them, I guess."

"Concentrate them one by one as to whether they heard a shot, and when. Keep a complete record, of course. Better get the super to give you another vacant suite for your job, and have that same brought to me by one. I don't want them to have a chance to compare notes. And don't put off anything, see? Just ask for information, don't give it."

Covey, a little, bright-eyed, gleeful-looking detective nodded happily. "And shall I send the elevator boys to you straight off, chief?"

McMann nodded, but his attention was not so engrossed with his subordinates that he did not see Ruth Lester start, grow very pale, and reach instinctively for Jack Hayward's hand.

Ruth did not hear a word of McMann's instructions to Birdwell, the third of the plainclothes men, for she was reliving that scene with Jack Hayward at the elevator, when she had said: "You shot him!"

Today's Poem

VERSE
Past ruined Ilon Helen lives,
Alas! rises from the shades;
Verse calls them forth; 'tis verse
that gives
Immortal youth to mortal maid.
Soon shall Oblivion's deepening veil
Hide all the people hills you see.
The gay, the proud, while lovers hail
These many years you and me.
—Walter S. Lander

See BLACK PIGEON, Page 9

This Anniversary

THE STAMP ACT

One hundred and sixty-four years ago today the British House of Lords passed the Stamp Act, and made war with the American colonists only a matter of time. It gave the colonists their greatest slogan—"Taxation without representation is tyranny."

Practically every business transaction in the colonies was taxed. More than 20 paragraphs of the bill affected various kinds of documents. These all began: "For every skin or piece of vellum or parchment, or sheet or piece of paper, on which shall be engrossed, written or printed . . . a stamp duty of (amount)." A license for retailing of spirituous liquors cost three pounds. Packs of playing cards were taxed a shilling and every pair of dice, ten shillings.

The act brought an era of patriotic self-denial to the colonies. The wearing of mourning for deceased relatives was dispensed with, because the cloth was so heavily taxed. The fact was included on no patriotic motto, because the number of word-producing sheep had to be increased. The time soon came, however, when the opposition to this had to be made.

Black Pigeon

(Continued From Page 8)

eyes narrowed suspiciously. "I did not go near the body or the window, and Mr. Hayward just touched his hand to be sure Mr. Borden was dead. He never touched the window, either."

With a piece of chalk the medical examiner outlined the sprawled body on the polished, rug-free strip of floor. Around the upturned arm, the head half-piloted upon it, the out-thrust right arm, down the torso, around the big, long legs rigidly crooked in death the chalk speeded, lifting only to avoid that dark, drying pool of blood. While the doctor worked a thick, pug-nacious young man, shouldering a camera, pushed his way into the room, saluted McMann, grinned appreciatively at Ruth, then went about his first gruesome task—that of photographing the dead man where he lay.

At the explosion of the flashlight Mrs. Borden, still sitting in a forlorn huddle, in the outer office, screamed, and Ruth turned back to her, to comfort her with an explanation and little murmurs which were scarcely words.

But she could hear McMann's big voice: "I've left everything just as it was till you get here, Ferber. Fingerprints may play a big part in this case. Go over the whole room, especially the desk, doors and windows. Oh, Miss Lester." Then, as Ruth reappeared in the doorway, "Were these windows looking out on the street closed, too?"

"They were kept closed in the winter," Ruth answered. "Ventilation came from the window on the airshaft between the wings, Minnie Cassidy, the cleaning woman, must have closed it when she cleaned Saturday afternoon, although Mr. Borden was still here. It's a rule of the building that no windows are to be left open overnight."

"Think the woman cleaned, do you?" McMann shot at her. "Why yes," Ruth answered surprised at his lack of astuteness. "The wastebaskets have been emptied, as you see, both in my office and in Mr. Borden's. Minnie came down the hall toward this office just as I was getting on the elevator Saturday afternoon. I suppose she cleaned them."

Her lips went dry with fear that her ordeal was upon her—that McMann would question her then and there about her departure, would learn that she had come back for her forgotten bankbook. But the detective merely nodded as he said:

"I'll get Minnie's story when Covey rounds her up."

"The cleaning women don't come on duty week days until four," Ruth volunteered. "Saturdays they work from 12 to five."

McMann thanked her with another curt nod, then, since the fingerprint expert had finished with Borden's desk, he began to pull out drawers. "I don't see any gun here," he remarked, to no one in

particular. "In view of all these hold-ups in the building I'm surprised he didn't keep one."

Because she knew that his search would soon extend to her own desk, Ruth gripped Jack Hayward's hand tight, then volunteered, a little breathlessly: "I have an automatic in my desk, Mr. McMann. A Colt's .38, I believe it is."

"What!" the detective exploded. Then, "bring it to me! No, wait, I'll get it," he corrected himself grimly, with a significant glance at the fingerprint expert, who followed close at his heels as McMann strode into the outer office. "Show me where you keep it."

Obediently Ruth pulled open the bottom drawer of her desk, and pointed, shrinking a little, as she always shrank from sight or touch of that blue-black thing. "Where?" McMann was burrowing among clean towels, cartons of paper cups, bundles of old stationery, with which the bottom drawer was filled. "There's no automatic here, or any other kind of gun."

"Not there?" Ruth repeated stupidly. "Not there!" "Why—" and involuntarily she turned on icy feet and stared at Mrs. Borden. (To Be Continued.)

General Agent
Wanted

A large Old Line Life Insurance Company has an opening in this territory for a General Agent.

While we would prefer a man between the ages of 30 and 45 who has had previously successful life insurance experience, this is not absolutely necessary. A well-organized plan of Home Office instruction together with close personal supervision and cooperation make our proposition especially desirable to some one who has some sales, organizing and executive ability.

The Man We Are Looking For May Be:—

- (1) A successful Life Insurance Salesman, looking for broader opportunity.
- (2) A School Teacher, who feels that his training and standing in the Community can be made to yield larger returns.
- (3) A Salesman, Sales-Manager, or executive who is not advancing with his firm as rapidly as his capabilities warrant.

In order to save time, please give us the following information in your letter: Age, present occupation, average income per year, health, education, family, your former address and connections, together with your reasons for desiring to make change.

A personal interview may be arranged within ten days from date of this advertisement. All communications and negotiations will be treated in a strictly confidential manner.

GOOFEY MOVIES

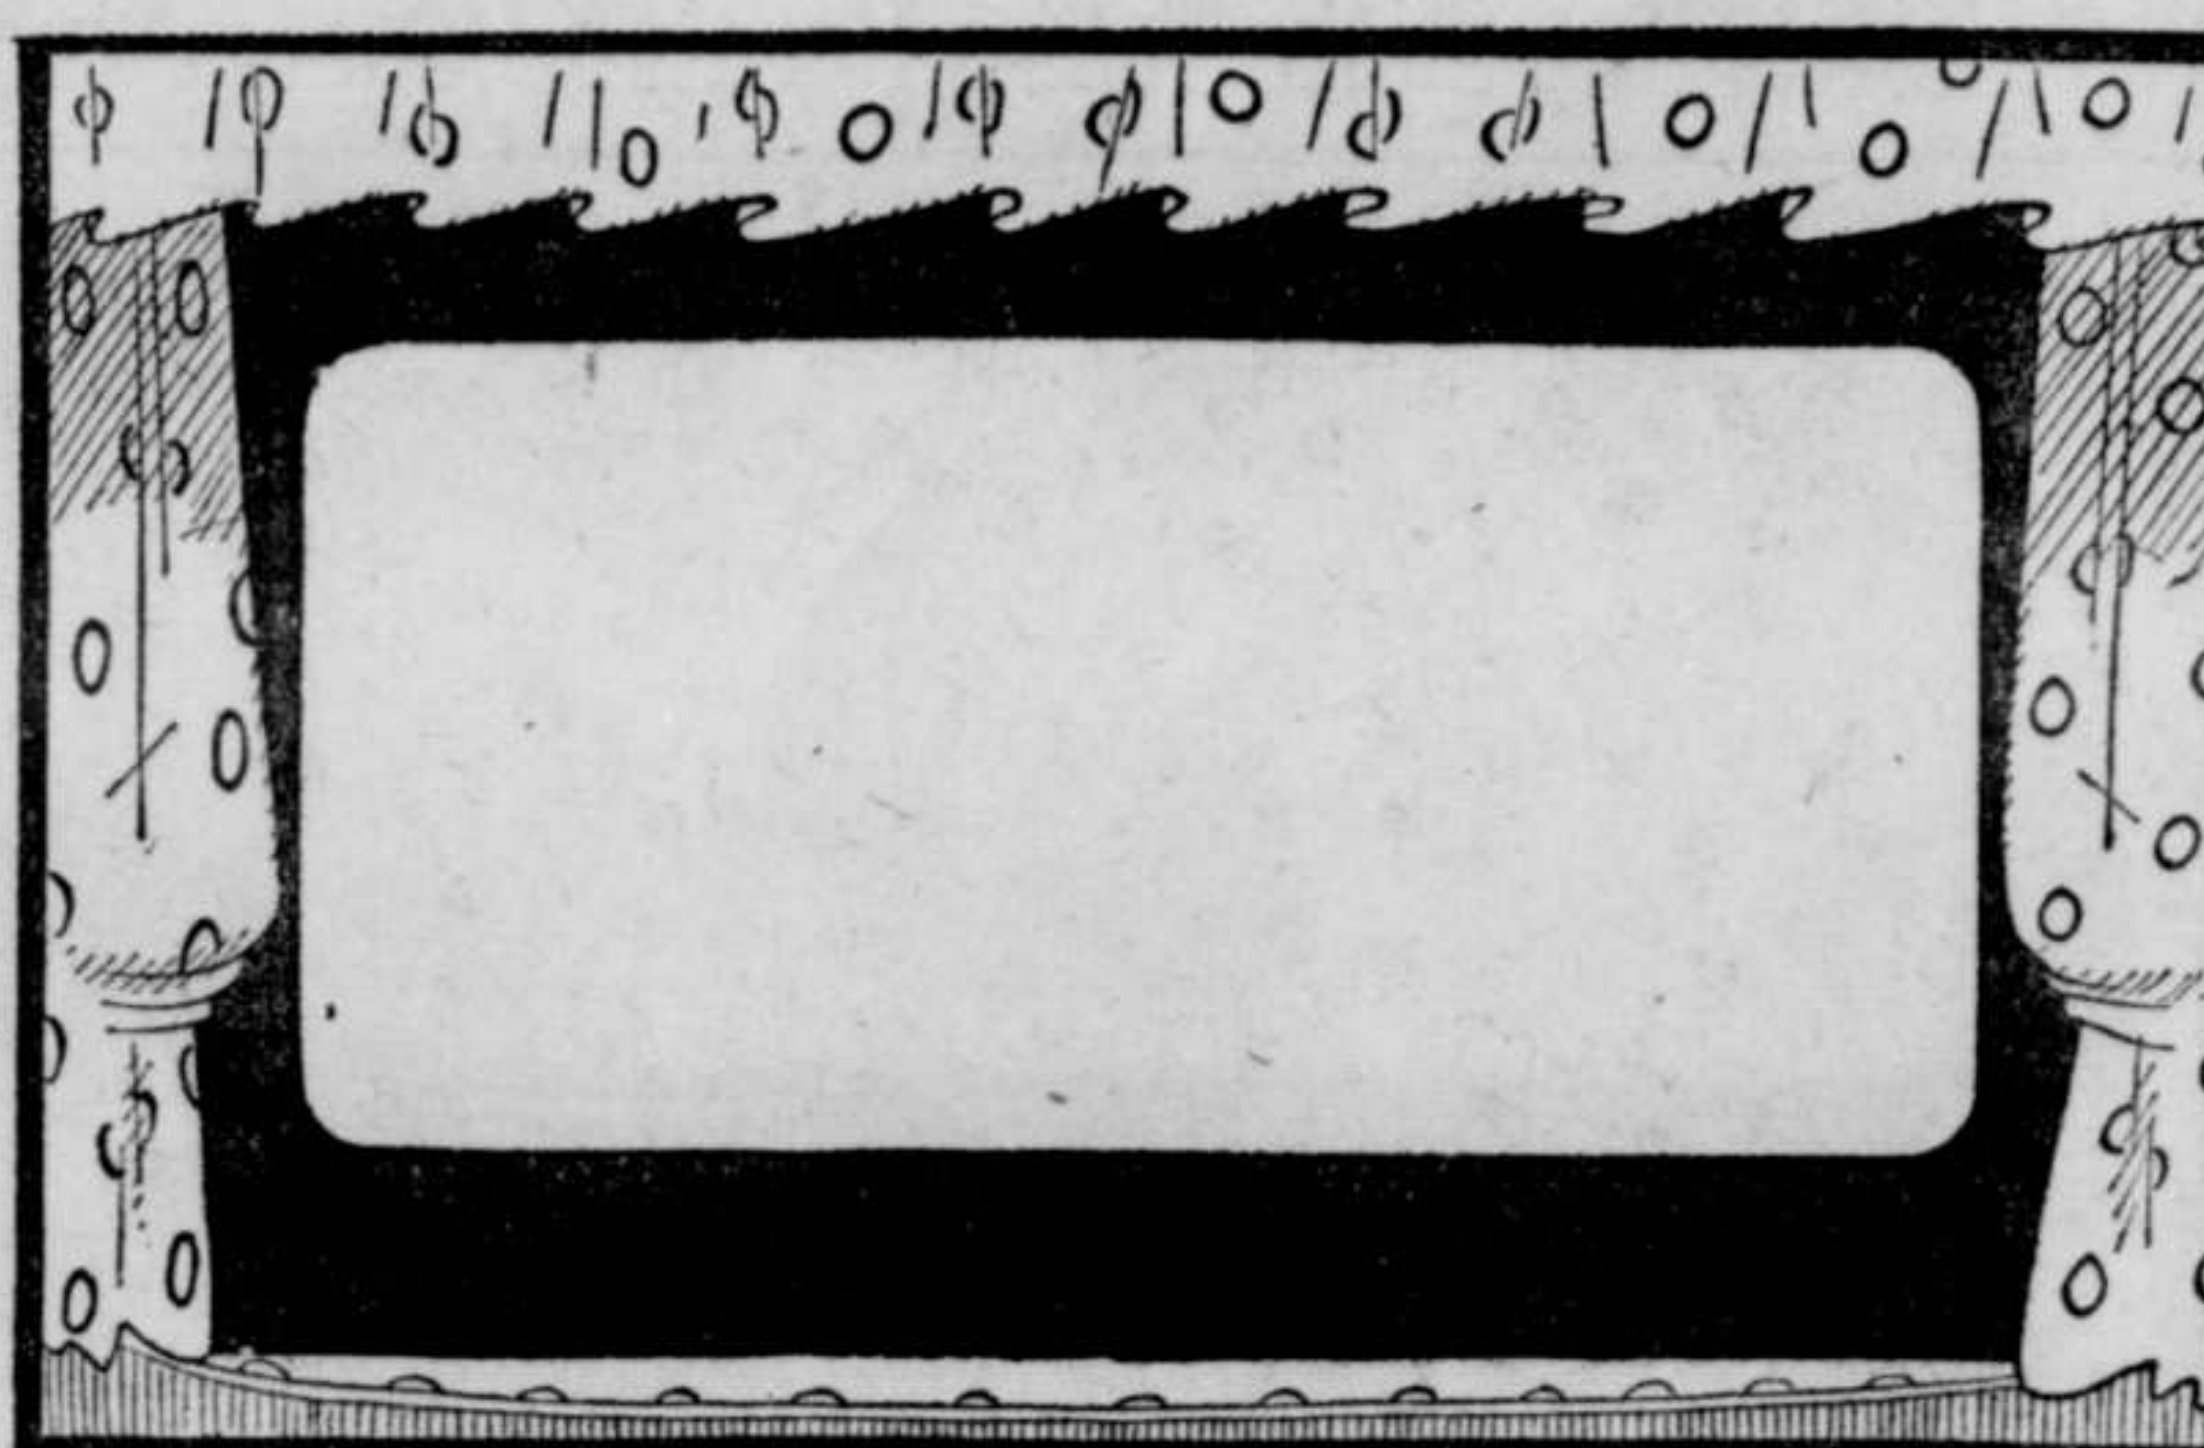

KNOW YOU'VE ALWAYS WANTED TO OWN A MOVIE THEATER OF YOUR OWN.....WELL, HERE'S YOUR CHANCE.....

OF COURSE, YOU KNOW THE FILM IS THE MOST IMPORTANT PART OF A THEATER. SO START TODAY BY CUTTING GOOFEY MOVIES OUT OF THE PAPER—WHEN CUT OUT, IT SHOULD LOOK SOMETHING LIKE THIS:

THEN CUT IT IN HALF AND PASTE PART 'A' TO PART 'B' LIKE THIS:

TAKE TOMORROW'S MOVIE AND PASTE TO THIS ONE.....KEEP PASTING THEM TOGETHER UNTIL YOU HAVE A COMPLETE SHOW—WIND ALL FILMS UPON A LEAD PENCIL—NEXT, COMES THE THEATER.....

Copyright, 1929, by Central Press Association, Inc.

YOU MAY COLOR THE THEATER IF YOU LIKE.....THEN CUT IT OUT AND PASTE UPON A PIECE OF CARDBOARD SHAPED LIKE THIS:

FOLD UPON DOTTED LINES 'E' AND 'F'—SO THEATER WILL STAND UP—

AFTER CUTTING ON LINES 'C' AND 'D' YOU ARE READY FOR THE FIRST PERFORMANCE—

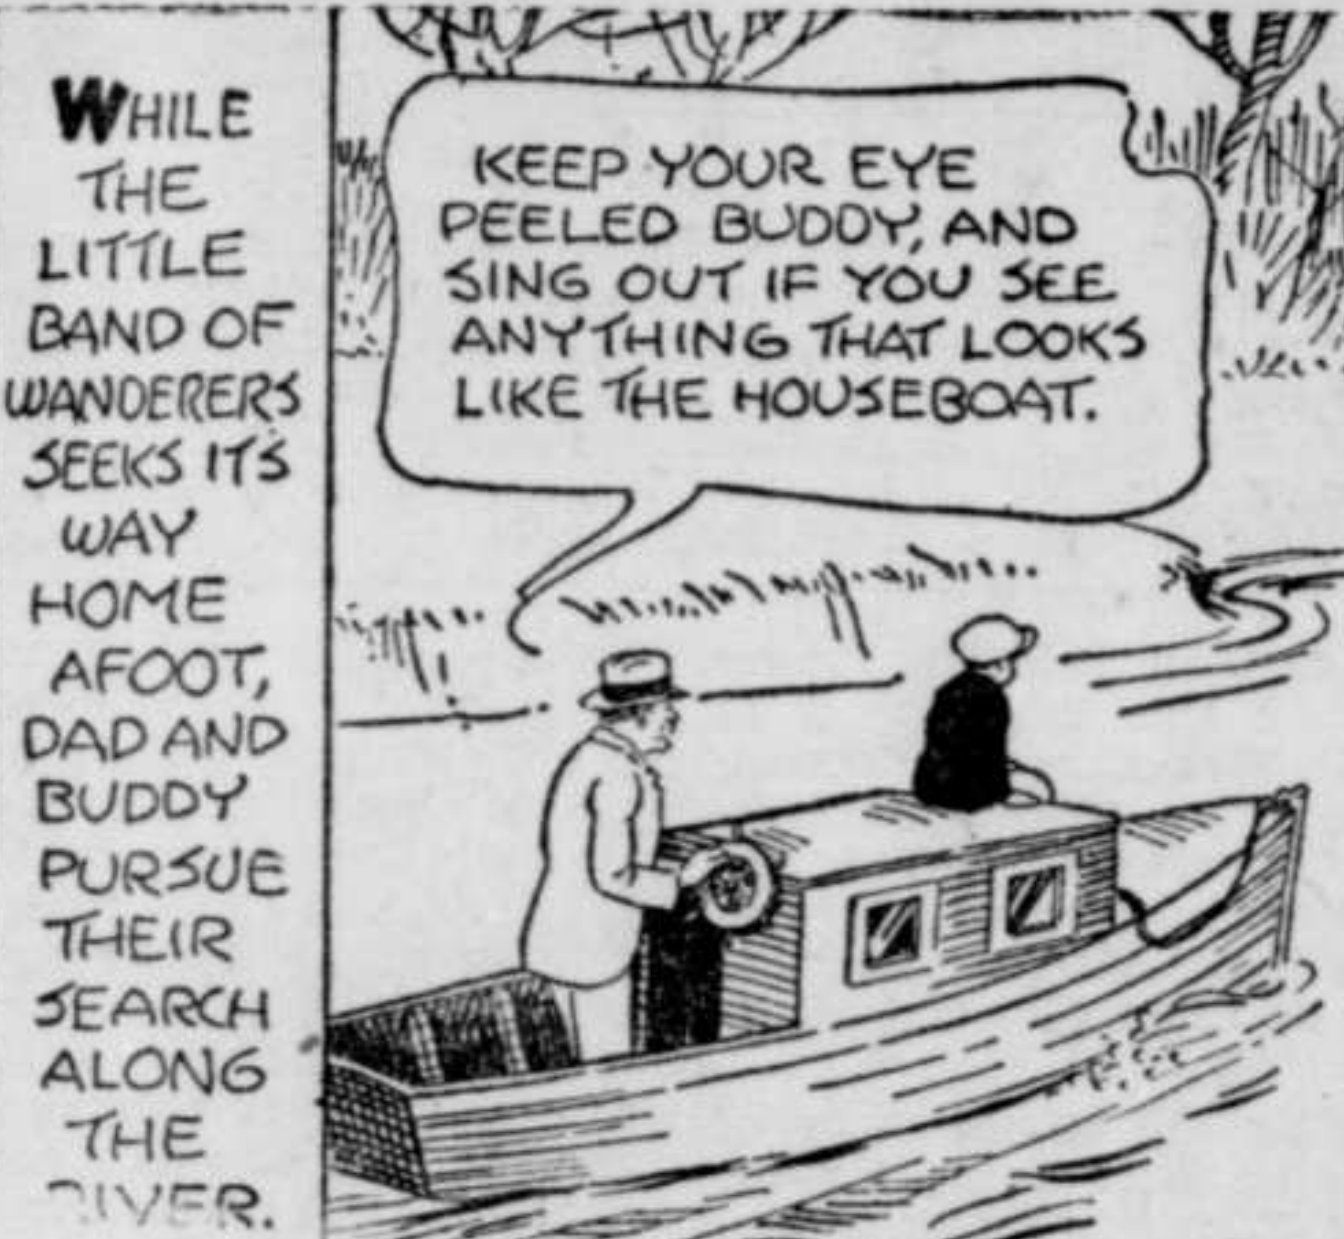

HOLD YOUR FILM BACK OF SCREEN.....THEN PUSH THE FIRST PART OF IT THROUGH SLIT 'D', ACROSS THE FRONT TO SLIT 'C'—START REWINDING FILM UPON ANOTHER PENCIL AND YOUR SHOW IS ON.....

IF YOU HAVE ANY QUESTIONS TO ASK ABOUT THE THEATER, JUST MAIL THEM WITH A TWO CENT STAMP TO GOOFEY MOVIES, 9% THIS PAPER AND THEY WILL BE TAKEN CARE OF.....

New Bank Opened In Idalou; Sale Is Approved Here

Institution To Be Known As Security State Bank, Taking Place Of Defunct First State

Immediately following the approval of Judge Clark M. Mullican, of the Ninety-Ninth district court, yesterday, of the sale of the First State bank of Idalou, by James Shaw, banking commissioner of Texas to J. M. Crews, of Childress, the bank was reopened under the name of the Security State bank of Idalou.

Judge Mullican's decision was in the case of the commissioner versus the First State bank of Idalou, in liquidation. The suit stated that Shaw, as commissioner, had entered into contract of bargain and sale with Crews, for a consideration of \$55,000, which included the bank's loans and discounts, \$80,660, and its furniture, fixtures and real estate. The commissioner stated in his petition to the court that this was the best offer made and gave his opinion that it is fair and reasonable and that the creditors of the bank will be benefitted by the sale more than by a prolonged liquidation of the bank's assets.

The Security State bank of Idalou has as its president, W. L. Bradley, of that city. Crews being named as a vice-president and M. W. Wiley as cashier. Names of other officers were not learned.

On January 30, when a run on the First State bank was made, it was compelled to close its doors and has been in the hands of the state banking commissioner, Bank Examiner Jameson taking charge at the time of closing.

Toothbrushes and handkerchiefs have figured among the tokens of valor presented by Chinese generals to the troops under their command.

Little Snap-Shots Taken Here And There Across The United States With The News Cameramen

1. "Jock" McLean, son of E. B. McLean, Washington millionaire, is one of the cleverest younger tennis players at Palm Beach, Florida. 2. Though only 9 years old, Barbara Leach of Reading, Mass., is a real contortionist and this picture proves it. 3. Abraham Lincoln played a snappy game of marbles, says Wm. C. Stiemmons of Chicago and he ought to know because

they played together as boys. 4. Here are two of the wettest of the wets getting wetter—John J. Raskob and Al Smith on the beach at Palm Beach. 5. Three guesses as to the identity of this gentleman! Yep, it's Babe Ruth enjoying himself in sunny Florida. 6. You never saw a baby galagos before? Neither did we until we ran across this picture of the rare little animals, born

on a voyage from West Africa to London. 7. W. A. Burt of Decatur, Alabama, believes in blowing his own horn—in fact he won first prize for being the best horn blower at the midwinter meet of the National Fox Hunters' Association, at Mobile, Alabama. 8. Evelyn Hyde used to be a mere usher at a New York theatre. Then a stage director saw her—now she is ready to appear on the

other side of the footlights. 9. Evelyn Behning, child star, was one of the featured performers in an operetta presented in New York by the Professional Children's School. 10. Although he has only one leg, Clyde Cobb of Kailash, Montana, climbed unaided to the top of Mt. Wilbur, in Glacier National Park.

Turkey Will Get \$30,000 Hospital

(Special to the Avalanche)

TURKEY, Mar. 7.—Construction of a modern sanitarium here at an estimated cost of \$30,000 has been assured and work on this project will start within the next two weeks. The building is to be erected by Dr. T. E. Sandefer, of Lamesa, on the

corner of Second and Alexander streets.

The plans call for the erection of a modern two-story structure with 23 rooms, designed for use as a sanitarium. The new building will have a frontage of 32 feet on Second street and extend back 80 feet. It will be so constructed that an additional unit of 23 rooms can be added if needed.

Local subscriptions of \$1000 were made by the citizens to assure the location of this sanitarium.

Big Spring Will Be Air Division Point For Lines

Dallas-El Paso And San Antonio-Amarillo Routes To Make City Vital Stop; Service Opens Soon

(Special to the Avalanche)

BIG SPRING, Mar. 7.—Big Spring will be the division point for the two air lines to be operated in West Texas by the Texas Air Transport company operating from Dallas and Fort Worth to Big Spring to El Paso and from Amarillo to Big Spring and San Antonio. At Ft. Worth, lines from the north and east and at El Paso with lines to the Pacific

lines will connect with passenger coast. Lines will also connect at Ft. Worth with lines to Houston, New Orleans, to Mobile, Birmingham and Atlanta and at San Antonio connection will be made with line of the Texas Air Transportation company to Brownsville and Houston.

Big Spring will be the base of operations in West Texas for the Texas Air Transport company and its affiliated companies as well as the West Texas headquarters.

Maintain Complete Set-Up

The Texas Air Transport company will maintain in Big Spring a complete aeronautical set up the largest of its kind in any city of less than 10,000 population in the United States. Machine shops for the servicing of all Wright engines and other aircraft engines will be maintained as well as planes sufficient to operate the West Texas system. Under the schedule which has

been arranged by the Texas Air Transport the planes will leave Dallas, El Paso, Amarillo, and San Antonio at about the same time and will reach Big Spring within five minutes of each other where transfer of passengers will be made and each division will be equipped from the Big Spring hangar. In this service Travelair six passenger cabin planes and Fokker six place cabin monoplanes will be used.

Wood for walking sticks and umbrellas is grown like corn or oats. Forests of small sapling trees are planted and grow to the required size in about four years.

Light rays, X-rays, heat rays and wireless rays all travel at the same speed but vary in length.

It is possible to make lace by putting liquifier cellulose into molds and letting it harden.

Texas Leads In Number of Camps

(Special to the Avalanche)

SAN ANTONIO, March 7. (AP)—Texas has more automobile tourists camps than any other state, according to T. A. Keene, secretary-treasurer of the Texas Camp Owners association.

Of more than 600 such camps in Texas, 150 may be called first class. Mr. Keene said. Among the higher-class camps he includes: Miramar Courts, Galveston; Camp Grande, El Paso; Toolens Camp, Van Horn; Grande Courts, Angelus Courts and Beverly Lodges, San Antonio; Grande Courts, Corpus Christi; Palm Courts, Brownsville; Grande Courts Junction; Grande Courts, Waco; Camp Broadway, Midland; White Cottage Camp, Amarillo; Grande Courts, McAllen, Camp Joy, Sweetwater.

WORK ON CITY LAWNS

(Special to the Avalanche)

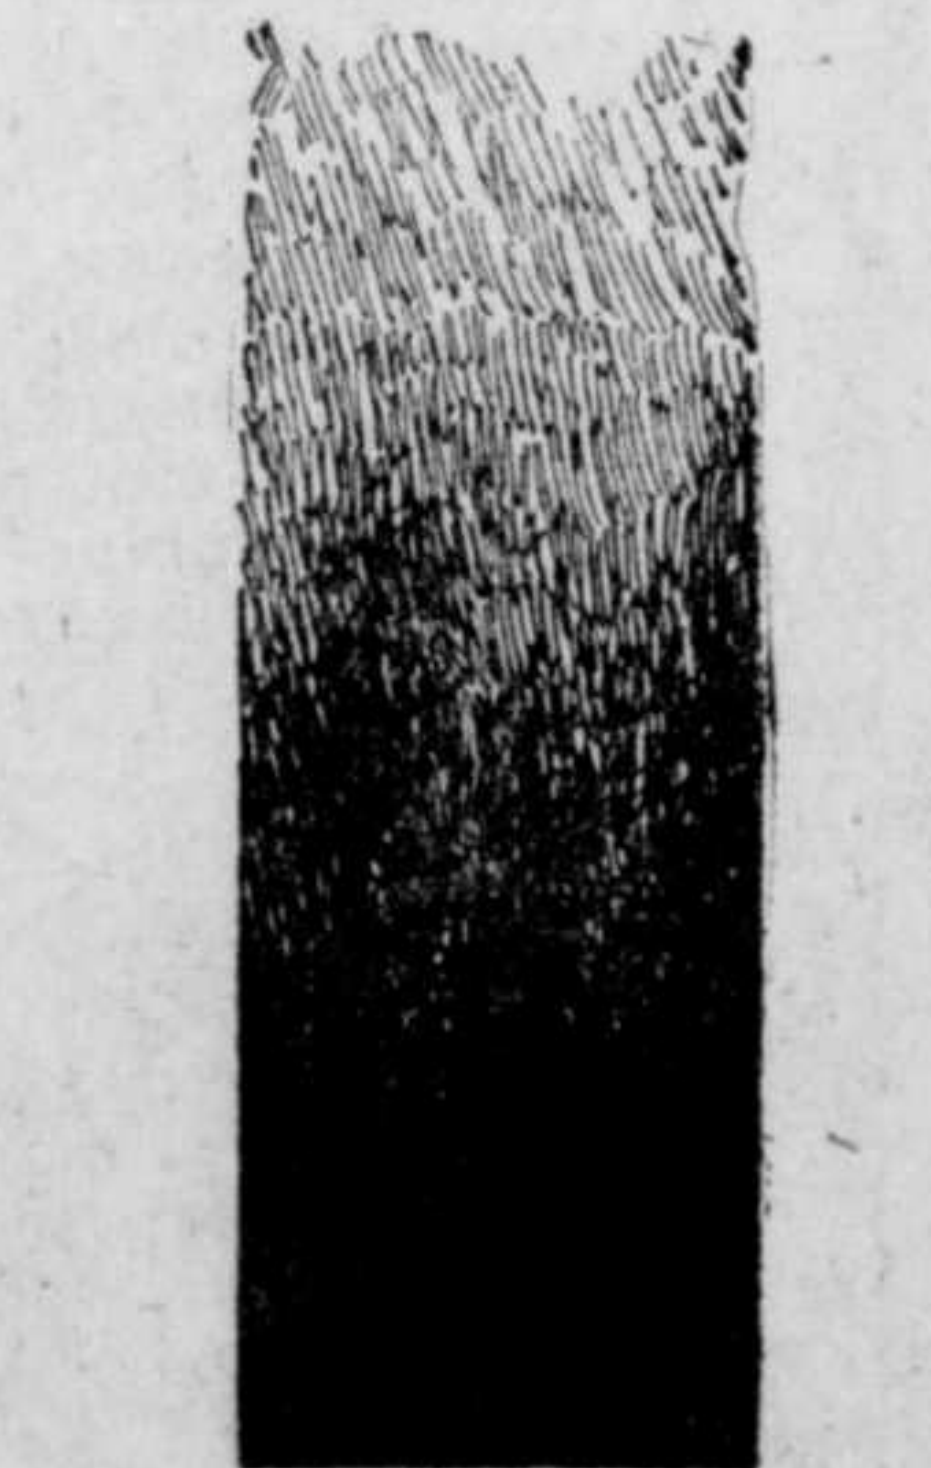

SLATON, Mar. 7.—After gaining for Slaton the reputation of having around the city hall one of the most beautiful municipal lawns in the state, city officials are ambitious to make the same reputation apply to two lawns instead of one. Hence, employees have been placed at work on improving the grounds surrounding the new fire station, recently finished at a cost of \$15,000.

At the city hall, situated in the center of the public square, a well-sodded lawn already has 175 shade trees. The soil here is being fertilized, trees are being pruned and the entire lawn is getting ready for spring.

SIGNALS OF CONFIDENCE

Watch them!... those impatient cars that wait, on their marks, at each traffic signal!... Staccato blasts come from exhausts as nervous feet tap accelerators... Americans hate to wait! Then a battalion leaps ahead with a cannon roar of gasoline explosions... Another red signal looms ahead, this time the form of a triangle... now watch again, for a file of that steel brigade will break as a member speeds into a side drive and comes to rest beside a Marland pump... 390,000 times each week this happens... 390,000 discerning citizens of this hurried age, pausing at the Red Triangle to nourish their steeds of steel with the finest motor fuels and lubricants... 390,000 Marland enthusiasts who underwrite the slogan "Always Better" every seven days!

Mr. and Mrs. J. W. Tinsley of Waco are visiting Mrs. Tinsley's parents, Dr. and Mrs. J. W. Watson, and her brother, J. E. Watson, and family here for a few days.

Gib Gilchrist Gives Views On Highway Plans; Visit Soon

Judge Robert Bean Tells Of Interview With The State Highway Engineer; All Roads Not Concrete

County Judge Robert H. Bean returned Wednesday from Austin, where he had gone with the attorney general's department relative to legal matters confronting the commissioners' court.

While in Austin, Judge Bean also conferred with Gib Gilchrist, state highway engineer. "Gilchrist will be here soon to go over the proposition with reference to the availability of road building materials and to assist in planning the details for the county's next road bond election, if one is to be called," Judge Bean stated.

All Won't Be Concrete. "The state highway engineer said that he did not think the highway department would agree to build all highways of Lubbock county out of concrete. In all probability, No. 9, from Lubbock north, and No. 7, through the county, would be built of concrete, but his opinion was that No. 53 and No. 9, from Lubbock south, would be constructed of some form of treatment of local material."

From Gilchrist's conversation, the judge said he learned that the highway department considered they could build good roads with local materials, roads that would hold up under the traffic and not be as expensive as concrete.

The highway engineer asked that citizens of Lubbock county should bear in mind that any funds voted by this county, to be offered as county aid to the state, rather than that funds be set aside by the state highway department, for state aid, to the county. The state highway department wants to have Lubbock county's cooperation, but they are not willing to pledge more than a proportional amount of road funds to this county.

County Is Helping. "The county is helping the state to build the roads—not the state helping the county," explained Judge Bean. "Therefore, they are the ones to say what type of roads they are to build. He further said that until the legislature adjoins the department could not tell how much money will be available to them for improvement of roads in Texas. Until this is learned, they could not tell how much would be available for Lubbock county, should a road bond election carry here."

The next petition for a Lubbock county bond election should not be so worded as to make the funds available for paying No. 53, south-west from Lubbock; the judge was informed, no highway west from Lubbock to the county line; nor the proposed highway from Idalou, north to the county line, only in the event that both state and federal aid could be secured on, because there is no probability that federal aid will ever be available on any of these roads.

"The reason is this: That the act of the United States congress, which provides for federal aid, provides also that the federal designated highways shall be not more than 7 per cent of the state system. Texas has already nearly reached its limit," said Bean.

ITS A SOFT LIFE. LONDON—A device has been perfected that delivers a lighted cigarette to a driver's hand. The machine holds 20 cigarettes, and the motorist, desiring one, pushes a button, the machine sends a cigarette to a hot electric wire, and hands it to the driver.

AGRICULTURAL COINS. DUBLIN—Being an agricultural country, Ireland has imprinted on one side of its coins an image representing different branches of the industry. Some coins bear the likeness of a horse, a bull, a wolfhound, a hen and chicks, a cow with a calf, and a woodchuck. The reverse side of the coins bears the figure of a harp.

BLINDS, OF COURSE. TOKIO—A house built of cellular glass, held together by thin iron plates, has been constructed in Japan by a native scientist. There are no windows; ventilation is provided by valves on the second floor.

LONDON—Roast whale meat, is being introduced into England. The meat is imported from New Zealand and, when roasted, tastes like salt beef.

Legion Chaplain

Rabbi Lee J. Levinger of Columbus, O., is the newly elected national chaplain of the American Legion, succeeding Rabbi Herman J. Beck, of Potomac, Pa., resigned.

She's Hostess In Diplomatic Set

Here is a new and unusual photograph of Baroness Maria von Prittwitz, wife of the German ambassador to the United States. She has proved a charming hostess at the German embassy at Washington.

TEXAS TOPICS

By Margaret Turner

FRESH DANCE TONIGHT

The most exciting thing on the campus for the past 10 days has been the election of the freshman queen and preparations for the dance to be held tonight at the college gymnasium. Guesses have been forth coming as to whom the lucky person might be ever since the election of the queen. Due to Jimmy Whiteside, Jimmy Broderick and the queen being the only ones who knew her identity the dance is even more eagerly looked forward to than would be otherwise.

STUDENT MIXER TOMORROW

The last student mixer of the term is to be held in the college gymnasium next Saturday night, according to the social committee of the college. It is a general get-together and all students and faculty members are invited to attend.

DISTRICT MEET PLANS MADE

Students from 19 counties will gather at Texas Technological college April 19 and 20 for the district meet of the Intercollegiate League. Faculty and students of the institution for these two days join in entertaining the many visiting students and teachers and in officiating for the hundreds of different scholastic and athletic events. Rooms without cost are furnished all officials contestants while in Lubbock.

Dr. A. W. Evans, director general of this district, is expecting a total attendance of probably 2,000. One day of the meet a typewriter tournament is to be held, according to Dr. Evans.

Among the entertainment features for the visitors will be a carnival put on by the agricultural students of the college. It will be held the afternoon after the regular program is over and will be in the nature of a carnival.

PLAY TOURNEY TO BE HERE

A one-act play contest is to be conducted at Tech on March 29, and the following schools are eligible to enter: Justinburg, Southland, Meadow, Levelland, Olton, Plainview, Florida, Slaton, Lubbock, Littlefield, Sudan, Spring Lake and Seminole.

Miss Annah Jo Pendleton, member of the public speaking department at Tech, has been appointed tournament manager. Schools wishing to enter the tournament are requested to notify her.

BUREAU LEADERS MEET

Farm Bureau leader from 53 counties in the Panhandle and South Plains will gather at the college today for general discussion of problems under consideration by the organization, according to information gathered from Cecil Horne, secretary of the Texas Farm Bureau. The only woman of the executive board of the Texas Farm Bureau, has called the meeting and will preside at its sessions.

LECTURE IS POSTPONED

The lecture which was to have been given Sunday, March 17, by Dr. John C. Granbery, has been indefinitely postponed because of that day coming between terms and so many of the students being out of town. A date for the lecture will be announced later this spring, according to Miss Sylvia Wilson.

Mrs. John C. Granbery is to lecture next Sunday at the engineering building at 4 o'clock on the subject "Greece."

Mrs. E. J. Cooper and daughter, Miss Opal, accompanied by Mrs. Viola Cooper were tobacco business visitors Thursday in this city.

Rev. Morris To Preach In City

Field Representative Of Simmons Here Sunday; To Hold Alumni Meeting In Afternoon

Rev. Sam Morris, recently appointed field representative of Simmons university, will fill the pulpit at the First Baptist church of Lubbock in the absence of Dr. W. R. White, pastor, Sunday, March 10. It was announced yesterday.

An alumni meeting of all Simmons students in the South Plains section will be held at 3 o'clock in the afternoon.

Rev. Morris is well known in and around Lubbock where he lived for several years. He and his brothers improved the Fairview and Sunny Slope farms east of Lubbock.

While in Simmons, where he graduated in 1925, Rev. Morris was better known as "The Fighting Parson." He played four years of football in the Cowboy team and was 2 years all-conference tackle.

Upon his graduation in the fall of 1926 he went to Weatherford as pastor of the First Baptist church which position he held until early this year, when he was made field representative of Simmons.

COCOA STAINS

If chocolate or cocoa stains are hard to get out of linens, try borax water and sunshine and if that fails, use Javelle water.

MAROGANY CAKE

To prevent blisters on mahogany table or dresser tops that are glass-covered, stain little pieces of flat cork and insert under each corner of the glass.

PLAN CHANNEL TUNNEL

LONDON—Plans for a tunnel under the English channel to connect England and France are again being considered. The idea, as originated in 1804, was for two single-track tunnels, each 35 miles long. The cost of construction was estimated at \$145,000,000. It would furnish employment to about 12,000 men for about five years.

Scout Financial Campaign Drive to Get Finish Today

With about \$1,200 lacking, to make even half of the \$10,000 goal set as the financial aim for the Lubbock Boy Scouts organization, reported in pledges up to Thursday night, K. N. Klapp, acting scout executive, reported that approximately \$3,800 in pledges had been turned into headquarters, and that today would see the final windup on the campaign.

Several scores of business men have been soliciting pledges in the city since Tuesday morning, yet the half-way mark has not yet been reached. The Boy Scouts have indebtedness of more than \$5,000 which must be paid before it can do the efficient work desired, and the \$10,000 set for this year's goal was deemed necessary.

The City Drug Store, George Kuykendall and the Lubbock Cotton Oil company are listed as the latest ones to pledge as much as \$50 for the scout work.

LANDERGRIN FUNERAL HELD

AMARILLO, March 7. (AP)—Funeral services were held here today for P. H. Landergrin, pioneer cattleman of the southwest, who died Monday.

BANISH THAT EXTRA FAT

Do it in the easy, pleasant way, in the modern, scientific way. Not by abnormal exercise or diet, but by combating the great cause of excess fat.

That way is embodied in Marmola prescription tablets. People have used them for 20 years—millions of boxes of them. So now you can see, on every hand, the results this method brings. New beauty, new health, new vitality. If you enjoy those results, learn the way to get them.

A book in every box of Marmola tells you the formula, also the reasons for all it does. You will have no fear of harm. Get it today and watch the results. Learn how much it means to you in many ways. Do this for those who wish to admire you. Just ask your druggist for a \$1 box of Marmola.

Shippers To Meet In Orleans In '30

WACO, March 7. (AP)—New Orleans was selected as the site for the next meeting of the Southwest Shippers advisory board held at the convention of the twentieth regular convention here today. A date for the meeting has not been set, but it probably will be the first Thursday in June. W. M. Maddox, assistant traffic manager of the Magnolia Petroleum company, Dallas, general chairman of the board, presided over the convention.

Dr. A. B. Cox of Austin, chairman of the agricultural marketing committee, presented a plan whereby closer co-operation of the agricultural and shipping industries would be promoted.

The suggestion received general endorsement and Dr. Cox will continue work until his aim has been realized.

Made For Beautiful Women

Beauties who guard their complexion use MELLO-GLO Face Powder only. Famous for purity—its coloring matter is approved by the Government. The skin never looks pasty or flaky. It spreads more smoothly and produces a youthful bloom. Made by a new French process. MELLO-GLO Face Powder stays on longer—Wyle-Jarrett Drug.

Constipated?

Take IR—NATURE'S REMEDY—tonight. Your eliminative organs will be functioning properly by morning and your constipation will end with a bowel action as free and easy as nature at her best—no pain, no griping. Try it. Only 25c.

Mild, safe, purely vegetable—**NR TO-NIGHT**—TOMORROW ALRIGHT. Recommended and Sold by ALL 12 DRUGGIST DISPENSARIES.

Beautify your Home WITH WARD'S PAINTS

Guaranteed to Give You Satisfaction

All classified advertising in the Lubbock Morning AvanceLANCHE and the Sunday AvanceLANCHE is printed in the Lubbock Morning AvanceLANCHE first and the Sunday AvanceLANCHE second of the same date, no classified originating in the afternoon paper. Classified for Sunday's issue will appear in the AvanceLANCHE-Journal containing one insertion, as this paper is sent to all subscribers of both the afternoon and morning papers.

AVANCELANCHE-JOURNAL Combined Rates: Minimum, each insertion 30c One insertion, per word 3c Two insertions, per word 5c Three insertions, per word 7c Six insertions, per word 12c Thirty insertions, per word 45c These rates are for consecutive insertions only. Additional consecutive insertions over 30 times, of 15c per word each day.

Our experienced ad clerk will receive your ad and help you to word it, then our collector will call the following day. These accounts are recommended accounts for our patrons and for one day only. No advertisements accepted on an "until filled" order. A specified number of insertions must be given. Notice to discontinue an advertisement must be given in writing, otherwise we will not be responsible. We reserve the right to place all advertisements under the proper classification and reject unclear or objectionable copy. Obituaries and cards of thanks at regular classified advertising rates. The publishers are not responsible for copy omissions, typographical errors, or any unintentional error that may occur further than to direct the issue after it is brought to their attention. All advertising orders are accepted on a cash basis only. Classified advertising accepted until 7 p. m. each day except 9 p. m. Saturday. For classified display advertising information PHONE 13 or 14.

Ask A. H. Martin, Phone 236 or CHAS. F. O'NEALL, Realtor

48. FINANCIAL

RARE OFFER
We wonder if you would be interested in the best purchase of raw land on the Plains. If you will take the pains to go to Morton, then about two miles this side, on the north side of the highway, and by roadside with it, you will see what you yourself will say is the best looking quarter section of land you ever saw. Big statement, you say? Yes it is, but every word true.

49. FINANCIAL

No soil any richer, no table any more level, no sand, no grubs, two miles from fine school, court house and gin, an ideal location for a home.

We are authorized to sell this land for \$25 per acre, and when we say that do not get it confused with blow sand lands at \$20 and \$15, and that are not worth one-half this land.

Its special value is due to the high quality of its soil, its beauty, its location close to Morton, the ease and certainty of getting a bountiful supply of the finest water. As a matter of fact if this land should sell for its value it would not be one cent less than \$35.00 per acre. Let us tell you more about it.

50. FINANCIAL

BARRIER BROS., INC.

12th ANNIVERSARY SALE

BEGINS FRIDAY, MARCH 8, 9 O'CLOCK A. M., SHARP
ENDS SATURDAY, MARCH 23

WE'RE CELEBRATING!

Now Is The Time For You To buy And Save Money!

Barrier Bros., Inc., are celebrating. Twelve years in the service of Lubbock and the South Plains. This will be an event that will live in the memory of the people of this territory for a long time to come. They are talking about it—spreading the news far and wide among families and for our friends. Nothing we have ever done in the past twelve years approaches the vast preparations we have made for our great Twelfth Anniversary Celebration. During the twelve years we have been in business in Lubbock, we have won a victory in making Barrier Bros., Inc., first in the minds of the people in this and the surrounding trade communities when it comes to Style and quality at Reasonable Prices.

GREATEST LOW PRICE SELLING EVENT OF THE YEAR!

THIS IS OUR MOST GIGANTIC MERCHANDISE MOVEMENT

Bargains like these offered at this great Twelfth Anniversary Celebration, will rewrite merchandising history for the entire South Plains. It is the greatest value eruption that has ever taken place in this vicinity. You, the value-wise public of Lubbock and surrounding territory, know that when Barrier Bros. say SALE, there is going to be a SALE. We don't buy a lot of cheap junk just to create a sale atmosphere, but we offer you a liberal discount on every item carried in our up-to-date stock.

IN EVERY DEPARTMENT

We're celebrating this, our Twelfth Anniversary, with a landslide of bargains from start to finish. We are going to put forth every effort to make this the most talked of selling event in the history of Lubbock and the South Plains. Due to our affiliation with Marshall Field & Co., wholesale, we are in a position to offer you more and bigger values now than we have ever been in the past. We are indeed appreciative of the generous patronage we have enjoyed during our twelve years in this city and really enjoy an opportunity to express this appreciation in a material way. It is for this reason that we have gone through our entire stock and slashed prices to the very core just to show you that we do appreciate your business. Anticipate your Spring and Summer needs so you can buy them now and save money.

THE CONFIDENCE OF OUR CUSTOMERS

FRIDAY IS THE OPENING DAY

Be here when the doors swing open at 9 o'clock Friday morning. There will be many added attractions to make this the biggest Sale Barrier Bros. Inc. have ever attempted. Clerks have been busy behind locked doors all day Thursday cutting the prices for the greatest selling drive in our history. Prices are being slashed to the bone—will you be here to get your share of these bargains?

Friday, March 8th
At 9 A. M.
Promptly
Rain or Shine

the the greatest proof of their satisfaction in service we have rendered them for the past twelve years, both as to quality and as to price. Barrier Bros. Inc., have always set the pace in Lubbock in the retail field of department stores. We know it—you know it—everybody knows it—that the biggest values at the lowest prices always prevail at this store. We have not been content to sit back and take things as they were thrust upon us, we have always gone out in search of those values that no one else could offer. As a result we have broadened out till we have a chain of stores now totaling more than ten in number and it is in this capacity that we are able to buy merchandise in larger lots and can sell it cheaper than the merchant that can only dispose of small quantities.

YOU HAVE HELPED US DO IT. NOW WE ARE GOING TO
SHARE OUR GOOD FORTUNE WITH YOU—YOU ARE COR-
DIALY INVITED TO COME IN DURING THIS SALE AND
SEE FOR YOURSELF THE WONDERFUL SAVINGS YOU CAN
EFFECT.

Have You Gotten Your Copy of Our Big Four Page Colored Circular Yet?

If you haven't you should by all means call us or write us and let us send you a copy at once. This is one of our biggest Sales Events and we want you to be well informed as to the unusual values we are offering during these few days of tremendous selling.

Come Early and Get Choice Selections. Come Often, New Goods Arriving Daily!
