## General Motors Grants Another Pay Hike

### EXPECTED TO SET PATTERN FOR SETTLEMENT OF CHRYSLER STRIKE

#### U. S. Air Force Recruiter To Be Here Friday

A representative of the US Air Force recruiting service will be in Ranger at the Chamber of Commerce on Friday, May 28, to interview applicants for duty with the Air Force, both regular and reserve.

Applicants are now being taken for the next Aviation Cadet Training class, Air Force Officer Candidate Schools and for Air Force technical training schools.

Applicants for Aviation Cadet training must be between the ages of 20 and 26 1/2, have two years college credits or pass an equivalent examination. Officers candidates must be high school graduates and between the ages of 20 1/2 and 28.

High school graduates between the ages of 17 and 34 will be accepted for USAF technical schools of their choice if of high moral character and physically fit. Under the Aviation Career Plan high school graduates are enabled to pick their technical or trade school BEFORE enlisting.

Qualified men with prior service who desire enlistment and immediate assignment to active duty may apply for duty through the recruiting service to Carswell Air Force Base, Fort Worth; Hensley Field, Dallas; or Goodfellow Field, San Angelo.

#### Last Rites For Mrs. O. R. Cooper Held In Tyler

Last rites for Mrs. O. R. Cooper were conducted this afternoon at 2 o'clock in Tyler and interment was in the Tyler cemetery.

Mrs. Cooper who is the daughter-in-law of V. V. Cooper Sr. of Ranger, died at her home in Tyler Sunday night. She was born in Breckenridge June 1, 1896, the daughter of Ed Power of Breckenridge, and the late Mrs. Power. She was married to Mr. Cooper in May 1915.

Survivors are her father, her husband, O. R. Cooper of Tyler; two children, Mrs. Max Herring of Kilgore and Dick Cooper, a student at the University of Texas; a sister, Mrs. Arch Cotral of Breckenridge, a brother, John Power, of Breckenridge and two grandchildren, Mickey and Ann Herring of Kilgore.

#### Texas Democrats Convene

Graduation exercises for St. Rita's Catholic school will be held Thursday, May 27 at 8:30 o'clock in the morning at St. Rita's church.

Graduates will be Jeanette Kirkpatrick, daughter of Mr. and Mrs. Sam Kirkpatrick and Bertha Gallagher, daughter of Mr. and Mrs. C. D. Gallagher.

Partly cloudy. Scattered showers. Temperature at 1:30 p.m. today. Maximum 85. Minimum 65. Hour's Reading 86. Temperature for the last 24 hours ending at 8:00 a.m. today. Maximum 95. Minimum 65.

### RANGER DOWNS CISCO TEAM BY 10 TO 0

The Ranger softball team clung to its steady run of victories here Monday night when they defeated the West Texas Utility Company's team of Cisco by a score of 10 to 0.

Heathington and Littlefield pitched for Ranger and Pence for Cisco. Eleven hits were scored off Pence, none on Heathington and two on Littlefield. Pence struck out three, Heathington one and Littlefield none.

Pence allowed eight bases on balls, Heathington three and Littlefield three. Neither Heathington nor Littlefield allowed any runs. King of Cisco scored a three base hit while Junior Arterburn and Poyner both scored two base hits. Heathington pitched two innings and Littlefield five.

Umpire were Lingie, Landroop and Simpson and the game was announced by George Murphy.

The Ranger City League has been completed and the first game of the schedule will be played Thursday night when Lone Star and Premier will meet.

The Ranger Transfer Company has entered a team in the league to fill the vacancy created when Montgomery Ward withdrew. Other teams in the league are Premier, Lone Star and Ranger.

### 512 Children Examined In Health Program

In examinations given recently by Ranger Physicians to the elementary school children, 512 were examined. It was found that 221 had had no smallpox vaccination; 295 indicated no vaccination for diphtheria; 176 had tonsils that were diseased; 133 had enlarged adenoids; 16 showed heart murmurs; 10 showed ear trouble and 21 showed nutritional deficiency.

Not all of the children were given dental examinations but of the ones who were, 38 needed immediate dental care.

Examinations were given by Drs. F. M. Kuykendall, Calvin Harris, W. F. Watkins, A. W. Brazda, Ray C. Ameen and W. L. Downtain. Members of the Parent-Teachers Associations who were cooperating in the health program today expressed their appreciation to the doctors for their interest and services in the program.

Reports will be sent to parents concerning the children who showed the need of medical attention.

### FORT WORTH LIVESTOCK

Cattle 4,200. Steady to strong. Medium and good beef steers and yearlings 26-31. Good cows 22-23. Sausage bulls 16-23. Medium and good stocker cows 16-19.50. Calves 1,400. Steady to weak. Stags 10.15.

### Arabs Bomb Israel

Jewish rescue workers remove victim from bomb-blasted building after Arab air raid on capital of Israel. Water from broke n main soaks street and workers.

NEA Radiophoto via Telephoto by Staff Correspondent David S. Boyer.

### Arabs Framing Answer To UN Cease-Fire Plea

CAIRO, May 25, (UP)—Representatives of five Arab nations met today in Amman, seat of King Abdullah of Trans-Jordan, to frame the Arab answer to the United Nations plea for a cease-fire in the Palestine war.

The fate of Jerusalem hung in the balance, Jews still control the modern city and are fighting desperately to hold it. A cease-fire order now would leave them in possession.

High Arab sources insist the Arab answer will demand that the Jews disarm and accept Arab sovereignty over the Holy Land. It is known the Jews will never accept such terms while they hold all the rich coastal plain and modern Jerusalem.

Dispatches from United Press Correspondent Sam Souki, with the Arab legion in Jerusalem, said there was little inclination among Arab military leaders to grant the temporary cease-fire which Jews already have accepted.

A cease-fire would only give the Jews a breathing spell, which they want to increase supplies and continue the fight, the Arab military men say. Jews now are carrying their ammunition on foot for miles through the hills ringing Jerusalem, to be picked up by armored cars in safe areas.

### British Aid To Arabs Charges To Be Investigated

WASHINGTON, May 25, (UP)—Paul G. Hoffman, chief of the European Recovery Program today promised to investigate and report to Congress on charges that American aid had enabled Britain to arm the Arabs for fighting in Palestine.

He also assured the Senate appropriations committee that no ERP funds would be used directly for purchase of arms for European nations or be channeled into accounts for payment of troops.

### Mrs. J. W. Courtney Dies In Ft. Worth Hospital Today

Mrs. J. W. Courtney of 415 South Dixie Street, Eastland, died this morning in the Harris Memorial Hospital in Fort Worth.

Mrs. Courtney had undergone surgery at the hospital about a week ago and apparently was recovering satisfactorily. She had eaten her breakfast this morning and then died suddenly.

### May Push Draft Bill Action Before Senate

WASHINGTON, May 25, (UP)—Sen. Chan Gurney, R. S. D., said today he may appeal to the Senate to give draft legislation a higher priority if debate on other bills "drags on and on."

Gurney, who is chairman of the Senate armed services committee, set no deadline. But he said he would try to get the Senate to set aside displaced persons legislation temporarily and take up the draft if debate runs beyond a "reasonable" time.

The Senate is already behind in its timetable. It must finish work on agriculture department appropriations and the long debate on displaced persons before the draft bill reaches the floor.

That may not be until next week. Gurney said he thought a committee move yesterday to eliminate compulsory service for 18-year olds from the draft bill removed the "major source of opposition" in the Senate.

### Boilermakers Holiday Keeps Police Busy

JOHNSON, Pa. (UP)—After he had been jailed three times and released twice in one day, police concluded the most appropriate address for Charles Dunn, local boilermaker, was the municipal lock-up.

Dunn was picked up twice for drunkenness within 14 hours and released on bail each time. An hour and 15 minutes after his latest release he was behind bars again for creating a disturbance. That time they kept him there.

### May Lift Arms Embargo

WASHINGTON, May 25, (UP)—Dr. Chaim Weizmann, president of the Provisional Council of the new Jewish state of Israel, said today President Truman had given him "hope" that the United States would lift its embargo on arms to the middle east "in the not too distant future."

Committee chairman, Styles Bridges, R. N. H., told Hoffman that senators had requested an inquiry into the question whether post-war American aid to Britain had enabled Britain, in turn to subsidize Arab military activities against the Jews in Israel.

Inside, about the same time, the public address system failed when R. W. Calvert, chairman of the state executive committee stepped up to bang down the gavel. There was more delay while workers began chasing the trouble.

The repairmen didn't take long, and this convention, probably one of the wettest ever held in a dry county, was underway.

### Exploration Company Opens Ranger Offices

Officers for a crew from the Garret Exploration Company in Dallas have been opened up in the Terrell building in Ranger and members of the crew have moved in.

Nineteen men, seven of whom have moved to Ranger for an indefinite stay.

M. A. Stewart of Dallas heads the Ranger crew which consists of an office force and field crew. Exploration of Eastland county and adjoining areas will be done with a seismograph an instrument that is used to detect area where there is possibility of oil production.

In speaking of the work ahead, Mr. Stewart stated that they will test the areas for both deep and shallow possibilities and that there stay here depends on the outcome of the work. He expressed the belief that there are both deep and shallow possibilities around Ranger and other sections, a belief that is general among oil men.

Mr. Stewart also stated that living quarters for the crew have been secured and most of them are now comfortably situated.

### Alaskan Child Cripples Find Help In Chicago

CHICAGO (UP)—Crippled children of Alaska are receiving a helping hand from Chicago this year.

They are being flown here at the rate of two a month for free specialized care at the home for distitute crippled children.

The 100-bed hospital is a unit of the University of Chicago clinics. Available to the Alaskan children are a swimming pool, whirlpool baths, treatment rooms, a gymnasium, an occupational therapy shop, schoolrooms, a library, a playroom with artificial sunlight, and a roof garden.

### DEMOCRATS GET MEETING UNDERWAY AT BROWNWOOD

MEMORIAL HALL, Brownwood, Tex. May 25, (UP)—Texas Democrats, determined to withhold their support from President Truman, were gavelled to order for their state convention today at 10:48 A. M.—48 minutes later than scheduled.

The confusion which always attends such unwieldy gatherings was multiplied and intensified when both elevators in the Hotel Brownwood, the city's only major hostelry, broke down under the strain of constant use since Sunday.

At 1:40 A. M., wearying of waiting, the galleryites began stamping and clapping. The seemingly ceaseless calls over the public address system for chairmen of county delegations went ahead. The impatient soon gave up their stamping, but an impromptu outburst of song by another group brought the whole house to its feet to join a rendition of "The Eyes of Texas."

Inside, about the same time, the public address system failed when R. W. Calvert, chairman of the state executive committee stepped up to bang down the gavel. There was more delay while workers began chasing the trouble.

The repairmen didn't take long, and this convention, probably one of the wettest ever held in a dry county, was underway.

Well... I Dunno, But...

Through error it was stated in an article appearing in last Thursday's paper that Clara Mae Jacoby who is one of the valedictorians of the eighth grade graduates this year was from Young School, when as a matter of fact, prior to entering the eighth grade of public school this year, she had attended St. Rita's Catholic School.

In the mail a letter from Ray (Sheriff Shorty) Snyder of Big Spring who used to be the manager for Woolworth's in Ranger. Sheriff Shorty, a bustling little fellow, acquired the title when he served as sheriff to see that everybody in Ranger wore western regalia one week before a rodeo years back. He did a good job of it, too.

He writes in part: "Have just had the pleasure of reading your special edition featuring the Ranger Junior College and want to say this was one mighty good SPECIAL."

As a former resident of Ranger an always interested in seeing and hearing nice things about it. Also noticed the Silver Anniversary of the hospital and that our dear friend Miss Kinney is still there and as every one of our four children were born there, was interested in the children's day announcement. In fact, Babe, our oldest child was Miss Kinney's first baby, having been born the day after she arrived and I am sure Miss Kinney will remember her.

I see a lot of my old friends and golf cronies are still around, all of which reminds me that I could enjoy seeing them all.

I also note with much interest that my old friend Arterburn is still represented on the softball field, for in one recent game there were four of them on the team. Am wondering what Ranger would have done if that family had been girls instead of fine husky boys." He also mentioned having seen Jim McLaughlin out there recently.

The weather finally did a landslide dropping temperatures considerably after a blustery spring storm last night. Though we only got .04 of an inch of rain, it was a relief from the heat of the past few days. Sunday's high temperature of 95 matched the high for the season and Monday wasn't much better.

Which reminds us, Mrs. G. D. Chastain who with Mr. Chastain is spending most of her time in San Antonio and who gets the Ranger Daily Times, told us while here this week-end to be sure and let her know through the paper when it rained.

Said she'd been so anxious about the drouth and it's effect on her yard here, that recently when a long distance call came for Mr. Chastain from Ranger, she inquired of the Ranger operator if it had rained yet.

### Acid Treatment Makes Barren Soil Fertile

TULARE, Cal. (UP)—Farmers report excellent results from efforts to purify some 2,500 acres of alkali soil in the San Joaquin Valley.

The land contains salt deposits which made it impossible to grow crops.

Tests were made by first breaking up the land, then watering and finally spraying it with acid and watering again. The acid is washed into the soil, destroying the hard deposits of salts.

Farmers said land had been barren of all vegetation for many years because of salt and porous and for the first time would take water. Now instead of dry white spots covering the ground, cotton, grass and alfalfa are growing.

## WASHINGTON COLUMN

### Reciprocal Trade Amendments Might Cripple Entire Program

BY PETER EDSON  
NEA Washington Correspondent

WASHINGTON—(NEA)—The United States now has "reciprocal trade agreements" with 42 of the 75 nations in the world. The way these trade agreements work is that the U. S. lowers tariffs against the exports of these 42 countries, if they lower tariffs against U. S. exports to them.

HERE are the half-dozen major amendments which have been proposed:

1. A requirement that Congress ratify all trade agreements before they can be put into effect. Agreements are now negotiated by the State Department, after consultation with the Treasury, Commerce and Agriculture Departments, the Tariff Commission and other interested agencies of government. They are then proclaimed by the President. Congress wants the power to ratify these agreements.
2. Another idea is to give Congress veto power over agreements. Under this plan an agreement would automatically go into effect unless it were rejected by a majority of both Houses of Congress within a limited time—say 90 days.
3. The American Tariff League has proposed that any or all sections of a trade agreement be made subject to court review. This would, in effect, kill the act. Some court could always be found to upset some section of an agreement on the grounds that it worked a hardship on some American producer. Court review would also mean that any U. S. court could upset a treaty with a foreign government. No one would negotiate on that basis.
4. Another proposed amendment would give the U. S. Tariff Commission final say over the agreements. Recommendations to the President on tariff rates are now made by an inter-agency group. If responsibility were put with one agency alone, it would be subject to all the lobbying pressures, and so might become ineffective.
5. A modification of this amendment would give the Tariff Commission power to say that rates could not be cut below certain levels if any U. S. industry were thereby put in peril. This "peril" might be hard to define. Would it apply to the weakest producer in any industry? If so, any industry could prove the need for a high protective tariff.
6. Under the present trade agreements act, every country having a trade agreement with the U. S. is unconditionally entitled to the lowest tariff rate granted the most favored nation. This is opposed by some interests on the ground that it gives too many countries a free ride on low tariff benefits given a most favored nation.

## THE SCOREBOARD

### White Sox Need Practical Baseball Man at Their Head

BY HARRY GRAYSON  
NEA Sports Editor

NEW YORK—(NEA)—The White Sox are considerably worse than ever this season. There is grave danger that what should be a great franchise on Chicago's south side will become a second American League headache.

And with St. Louis being what it is on the AL side, that wouldn't be good. The Chicago and St. Louis situations stress the lack of leadership in the junior circuit.

But since Charles A. Comiskey lost his touch, the Chicago American League franchise has been sadly neglected. Right now it is badly in need of a practical baseball man at its head.

With this reverse, the Sox had scored exactly one run in 51 innings, that presented to them in Philadelphia, when Eddie Joost thought three men had been retired, and threw his glove away.

What makes them serious to the league is that they aren't drawing. They had played to no more than 80,000 people when they hit New York, which included five games at Comiskey Park, all of which they lost.

It's a shame to saddle a nice fellow like Ted Lyons with such a hopeless case. And to see the American League let a famous franchise in a population area of 4,500,000 go to pot.

"Can't tell the players without a Congressional Directory," was the cry as the annual Democrat-Republican representatives baseball game was waged in Washington. Rep. James P. Scoblick (R., Pa.)—all 295 pounds of him—demonstrates the Congressional method of effecting a putout, by sitting on 145 pound Rep. Thomas Abernathy (D., Miss.). The score? The Democrats won, by either 23 or 24 to 14. The score-keeper wasn't sure. (NEA Telephoto)

### Timing Important In Choosing Mate Educator Finds

By Betty Bauer  
United Press Staff Correspondent  
ITHACA, N. Y. (UP)—Divorce rates might go down if young people would put as much emphasis on when to marry as on whom to marry, in the opinion of Dr. Lemo Rockwood.

The Cornell University professor of child development and family relationships believes too many marriages go on the rocks because the husbands, wives or both are not ready physiologically.

"A young person will know if he is ready for marriage only if he knows himself," Mrs. Rockwood said.

To do this, she advised, "he should watch himself in his relations with other people. He should form an idea of what kind of a friend he is, what he expects from friendships with others, and what he expects of life."

Dr. Rockwood bases her findings on hundreds of interviews with young people about to marry and with married couples having troubles adjusting themselves to double harness.

One of the big troubles, she said is the "ideal man" and "dream girl" imagined by young people and projected on the person who attracts them most.

"Each sees the loved one through a rosy haze and doesn't give the prospective mate a chance to be himself during the courting period," she observed.

Then, she warned, frequently couples reach the feeling they have been "cheated" in their choice of a mate.

"When things go wrong," Dr. Rockwood said, "the couple must decide whether there is more in the marriage which they wish to salvage or more that they wish to scrap—and make adjustments, or dissolve the marriage, according to their decisions."

She blames the "appalling" number of broken war marriages on either one or both of the persons concerned being either unready or unwilling to accept responsibilities of marriage.

"Too many young people think: 'We'll get married and live happily ever after,' the marriage specialist warned. 'They overlook the fact that they are marrying for 'better or for worse,' that they must be emotionally ready to face every contingency of marriage—arrival of babies, possibility of the husband's losing his job, illness, necessity for helping parents financially, etc.'"

Dr. Rockwood, herself married to an architect, has one ideal family to use for an example for young couples. Her mother and father, married when they were 17 and 19 years old, respectively, recently celebrated their 33rd wedding anniversary. She is the oldest of their three children.

The difference between spiders and insects is in their legs. True spiders have eight legs; insects, six.

## COURTHOUSE NEWS AND RECORDS

Real Estate Transfers, Marriages, Suits Filed, Court Judgements, Orders, Etc.

### INSTRUMENTS FILED

The following instruments were filed for record in the County Clerk's office last week:  
 Alco Oil Company to J. H. Guy, release of oil and gas lease.  
 Mrs. Oma M. Adams to Texas Electric Service Company, right of way.  
 W. J. Adams to T. L. Thompson, quit claim deed.  
 W. J. Adams to T. L. Thompson, warranty deed.  
 Royce L. Boyd to West Texas Utilities Company, right of way.  
 T. L. Brown to C. P. Porter, oil and gas lease.  
 W. F. Bucy to R. D. Barnett, correction deed.  
 W. N. Bourdeau to Callie Lee, bill of sale.  
 Frank D. Blakney to First Federal S & L, deed of trust.  
 R. M. Burns to The Public, affidavit.  
 G. O. Boyd to Texas Electric Service Co., right of way.  
 Jim Blackwell to N. B. Crenshaw oil and gas lease.

E. P. Crawford to West Texas Utilities Co., right of way.  
 Carl Christian to Dorothy Christian, warranty deed.  
 R. L. Coffee to Weidon W. Coffee, warranty deed.  
 City of Ranger to W. O. Caraway, quit claim deed.  
 C. M. Cox to James H. Snowden, oil and gas lease.  
 F. M. Chesum to Texas Electric Service Company, right of way.  
 W. S. Craig to Texas Electric Service Co., right of way.  
 City of Cisco to The Public, resolution.  
 City of Cisco to W. B. Cates, warranty deed.  
 C. C. Cox to A. B. Edwards, oil and gas lease.  
 J. M. Causbie to A. B. Edwards, oil and gas lease.  
 L. H. Choate to Holli-Ann Prod. Company, assignment of oil and gas lease.  
 Commercial State Bank, Ranger to W. P. Grogan, warranty deed.  
 L. H. Coate to Coast Oil Corp., assignment of oil and gas lease.  
 George A. Donnelly v. Harry Brelsford, abstract of judgement.  
 Forrest Dunlap to Joy N. Houck, warranty deed.  
 W. A. Drybread to Ora A. Denning, transfer of vendor's lien.  
 Dallas Credit Corporation v. Emory E. Moad, abstract of judgement.  
 Alice Davenport to Texas Electric Service Company, right of way.  
 Dublin National Bank, Dublin to Otis Sharp, release of vendor's lien.  
 George M. Darnell to George B. Goughly, Trustee, warranty deed.  
 C. S. Daniels to B. C. Daniels, warranty deed.  
 J. Frank Dean to Luling Oil and Gas Company, oil and gas lease.  
 Charles H. Everett, Sr. to Charles L. Langston, warranty deed.  
 Charles H. Everett, Sr. to Lucy E. Arney, quit claim deed.  
 Robert M. Earnest to Strawn National Bank, deed of trust.  
 W. G. Ellis to Johnny S. Moore, warranty deed.  
 Waldon H. Ezell to Roy E. Gaines, assignment of oil and gas lease.  
 Hortense Elkins to W. E. Price, warranty deed.  
 C. S. Eldridge to J. Parker Thompson, MD.  
 Y. G. Elbert to McElroy Ranch Company, oil and gas lease.  
 J. B. Elberhart to McElroy Ranch Company, oil and gas lease.  
 First National Bank, Strawn to W. J. Adams, release of deed of trust.  
 John W. Fields to S. G. Tomlinson, deed of trust.

'Gee, This Picketing's Hard Work'

Stanley Baysell, Jr., is the official mascot of UAW Dodge Local No. 3, in Detroit. When the 75,000 Chrysler Corporation employees struck, the 4-year-old did a trick on the picket lines. But he found that picketing is kind of tough on the feet.

Rich Phosphate Deposit Discovered In Florida May Aid World Crops

By Dale M. Johns  
United Press Staff Correspondent  
BARTOW, Fla. (UP)—The by-product of a 2,000,000-year-old disaster offers new hope to the earth's hungry people today.  
Rich deposits of phosphate, urgently needed to fertilize soil drained of its productive capacity during the war years, lie here beneath the heart of Florida's citrus fruit belts. The deposits are near the resort towns of Winter Haven and Lakeland.  
To help meet the demand for fertilizer, Noralyn, one of the world's largest phosphate mines, expects to begin full-scale production this month.  
The ore, from which Noralyn will produce 1,500,000 tons of phosphate a year, comes from the bones and teeth of countless fish and mammal's destroyed by the convulsions of a planet's growing pains.

Scientists say the rise and fall of the earth's crust and the sudden descent of glaciers caused Florida's phosphate deposits.  
Some 2,000,000 years ago, they explain, myriads of shell fish, sharks, manatee and whales lived in the warm tropical waters which covered Florida. The land emerged from the sea to meet the glacier. Herds of mammals, including the mammoth, the saber-toothed tiger and the three-toed horse, were driven southward to death from freezing and overcrowding.  
Then the ice melted. Once more the Florida peninsula sank into the sea. The bones and teeth that remained were covered by earth, sand and clay. Later the land rose from the sea again and the peninsula of Florida remained.

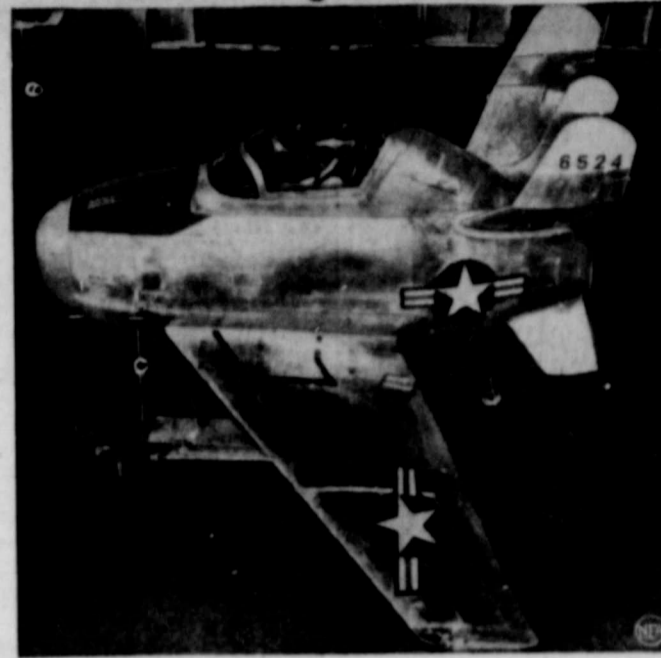

Still to be found in the phosphate deposits are many fossilized remains, including teeth, jawbones and vertebrae of the mammoth, and sharp fish teeth, some larger than a man's hand.  
The phosphate beds average from 10 to 30 feet thick and lie beneath two to 30 feet of earth.  
To recover phosphate, Noralyn, which was named for the mother of Louis Ware, president of International Minerals and Chemical Corp., used one of the world's largest draglines. It has a bucket that takes 30 tons of earth or ore at one bite.  
When uncovered, the ore is flushed by streams of water into pipes which carry it to a "flotation" plant where phosphate is separated from foreign matter, chiefly white sand.  
After the phosphate is recovered, it is dried by giant oil burners and treated with acids so it will be absorbed easily by plant life.

During the war years phosphate production in the United States was about equal to the country's needs. With the end of the war, foreign demand rose sharply. According to the Department of Commerce, fertilizer supplies still are insufficient to maintain maximum crop yields all over the world.  
Noralyn's capacity is described by Franklin Fahey, vice president in charge of International's phosphate division, as double the amount of phosphate needed to supply the minimum needs of a country the size of Italy for one growing season.  
That is equivalent to about one-fifth of the phosphate production in the United States. Florida phosphate accounts for 75 per cent of the domestic supply and nearly half the world production.

Proposes An Atomic War On Pacific Typhoons

MANILA (UP)—A Philippine congressman thinks atom bombs might destroy typhoons.  
Rep. Francisco Perfecto, a provincial coconut planter, has offered a bill which would create an international "anti-typhoon"

'Parasite' Fighter Is Tested

This plane has no landing gear, because it will make all its take-offs and landings in flight. It's the McDonnell XF-85, a "parasite" fighter designed to fit in the bomb bay of a Consolidated Vultee B-36. The 18-foot-long plane is now undergoing ground and wind tunnel tests on a special dolly. The wings fold, and the tail is especially designed for its unique job.

commission to test his theory that atomic explosions could quell the fiercest storm.

"Something must be done," he said. "Typhoons caused \$100,000,000 damage in the Philippines alone last year. In my province half the coconut trees were blown

down and the rest were stripped bare like candles."

Under Perfecto's bill, the Philippines government would put up \$500,000 for typhoon research. Scientists of all nations would be invited to join.

Humming Bird Thriving On Baby Formula

ST. LOUIS (UP)—Mrs. William E. McFarlane proved she knows more about feeding humming birds than the St. Louis zoo.

When one of the tiny creatures knocked itself out against a closed window at the McFarlane home she took it but didn't know what to feed it. The zoo experts prescribed milk and honey—which almost killed the humming bird.  
Mrs. McFarlane finally hit on a vitamin formula intended for babies. The humming bird responded quickly and apparently is going to make the McFarlane residence its permanent home.

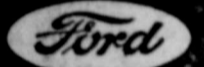

There are 18,851 theatres now showing films in this country. The theatres are in 9,659 communities and their seating capacity is 11,796,072.

## W. S. C. S. Study "We The Peoples", Concluded Monday

Conclusion of the study, "We The Peoples of the United Nations," was given Monday afternoon when the Woman's Society of Christian Service met at the Methodist Church.

After prayer, Mrs. Stanley McAnelly gave the opening remarks in relation to the study. Mrs. G. C. Boswell brought the devotional, using as her subject, "Hindrances and Differences in Prayer." Mrs. Floyd Killingsworth discussed "What's Right With The United Nations," and Mrs. Willis Clark, Jr. spoke on "One Thousand and Ninety-Six Days of Progress of The U. N." Current events were given by Mrs. M. H. Hagaman and Mrs. Boswell.

A standing vote of thanks was given Mrs. McAnelly for such an informative study.

An attractive worship center was arranged by Mrs. Tom Stewart.

The next meetings will be in Circle groups, May 31. The Belle Bennett Circle will meet in the home of Mrs. J. S. McDowell with Mrs. Joe Scott as co-hostess; the Ida Scudder Circle in the home of Mrs. Roscoe Hopper with Mrs. G. O. Strong as co-hostess; and the Susannah Wesley Circle in the home of Mrs. James Ratliff with Mrs. A. J. Ratliff as co-hostess.

## Mrs. Matthews Is Leader Of Study

Mrs. E. T. Matthews gave a review of the Book of Acts when the West Side Bible Study group of the First Christian Church met in the home of Mrs. Earl Bissix Monday afternoon.

At the close of the study refreshments were served to Mes. Dick Jones, Harry Warner, E. T. Matthews, L. N. Bryan, Cecil Faircloth, Glenn Simon, Roy Hargrave, Johnny Bryan, and the hostess, Mrs. Bissix.

## Martha Dorcas Class To Be Entertained

The Martha Dorcas class of the First Methodist Church will be entertained Thursday afternoon at 2:30 in the home of Mrs. J. B. Rayfield. Mes. J. T. Killingsworth, J. Way Harmon, and Fred Wilson will assist the hostess.

All members are invited to attend.

## W. M. U. Monthly Bible Study Held

The Woman's Missionary Union of the First Baptist Church met at the church Monday afternoon at 3 o'clock for Bible study.

The president, Mrs. Arlie Carver, taught the lesson study on tithing. A short business meeting followed the study, and a new circle for young married women was organized. Mrs. Earle Pittman was elected chairman of the circle.

About 20 members were present for the meeting.

## First Christian Circle Meets Mon.

Circle Number One of the Ladies Council of the First Christian Church met Monday afternoon at 2:30 o'clock in the home of Mrs. R. C. Crawford.

Mrs. Raymond Case was leader of the study which was based on the first two chapters of Romans. At the close of the meeting refreshments were served to the following: Mmcee J. C. King, R. H. West Elsie Fraahier, B. E. Patterson, Raymond Case, Ethel Brooks Gilmore and the hostess.

## Personals

Mr. and Mrs. R. H. Hansford had as their guests today, Mrs. Hansford's brother, Henry Reynolds and Mrs. Reynolds of Tyler and Mrs. Reynolds' mother, Mrs. Beason of Stephenville. The party has gone on to Odessa and will return here Thursday.

Mr. and Mrs. Marvin L. Gray and son, Jack, of San Bernardino, California are here for the graduation of their son and brother, Jerry Gray, who is graduating from High School. While here they are visiting Mrs. Gray's parents, Mr. and Mrs. R. B. Patterson, and other relatives and friends.

Miss Frances Ruth Hagaman, who has been attending the University of Texas, is home to spend the summer vacation with her parents, Mr. and Mrs. Leslie Hagaman.

Miss Charlene Cook of Gorman visited her aunt, Miss Effie Butler, here this morning. Miss Cook will receive her degree from Hardin-Simmons University next week.

Miss Doris Perlestein, a student at the University of Texas, has arrived to spend the summer vacation with her parents, Mr. and Mrs. Saule Perlestein.

## Tiny Plane Can Cross Country for \$12

Bill Taylor soars peacefully over Wichita, Kan., in the new Mooney M-18, new fivever plane powered by an automobile engine. The M-18 weighs only 450 pounds but has a retractable landing gear and a single-lever control. It can do better than 100 miles an hour, yet the designer claims it can fly from coast-to-coast on \$12 worth of gasoline.

## To Trieste

Maj.-Gen. William M. Hoge, above, has been named to take command of American troops in the Trieste area. Hoge, now commander of the Engineer School at Fort Belvoir, Va., will succeed Maj.-Gen. Bryant K. Moore in June.

The money goes to the kids as a reward for raising good livestock. It encourages them to continue growing cattle and hogs—which is what we need here.

**Neighbors Fix It**  
TURTLE LAKE, N. D. (UP)—When the Helmut Scham farm home burned to the ground, neighbors bought an abandoned house several miles away, moved it to the Scham farm, remodeled it and had it ready for the family to move in within six days.

## WISE BANKERS FIND IT PAYS TO KEEP KIDS IN FUNDS

By Claude Ramsey  
United Press Staff Correspondent  
MERCER, Tex. (UP)—The bankers support the kids in the Mexican border country of the Lower Rio Grande Valley.

For the bankers know that in a few years the kids, especially those with dollar sense, will be putting money in the banks, thereby supporting the bankers.

The youngsters get a chance to show their stuff at the valley livestock show each year. After the show their hogs, steers and chickens are auctioned off.

That's where the bankers show their greenbacks—at the auction block.

This year the business men of the area headed by bankers, pitched in with an extra \$15,000 for premiums on stock that otherwise would have brought the 4-H club and F. F. A. boys and girls \$35,000.

The business men are formed into unique "beef syndicates" in 15 valley towns and communities. It is a blind to make their contribution painless. Each "syndicate" designates two or three men to

canvass the business people and collect "dues", usually somewhere between \$5 and \$15.

With the money that is raised the syndicate sends "buyers" to the livestock show to bid on calves and chickens grown by the 4-H and F. F. A. boys and girls. The "buyer's" sole mission is to spend the money—and to do it wisely by making other bidders go higher.

After the show is over, each syndicate takes one of its steers and pitches itself a barbecue. Often a syndicate will have four or five barbecues in the process of consuming a steer.

The other animals are resold—at losses—or donated to hospitals or charity institutions.

"We figure we have a lot of fun at the barbecue for our five or ten bucks," on of the bankers explained. "But we're really proud that

**BEING HUMAN**, we like to have good things said about our railroad and its men and women . . . and during the more than 76 years the T. and P. has served the people of the Southwest numerous bouquets have been tossed its way. From every walk of life, during my tenure of three years, have come words of praise (which I have seen and noted) from those who have appreciated some courtesy or service beyond the line of duty rendered by the people who comprise the T. and P. organization.

But also, being human, we have been on the receiving end of complaints from customers who have been dissatisfied over some service on our line. It is the sincere desire of the Texas and Pacific Railway to serve every customer in such a manner that he will want to use our line again and again. But sometimes things don't go according to plan. When this happens, we are genuinely sorry . . . it's not the way we want it.

Unless we are told of these things, we have no way to remedy them. And we want to be told . . . we earnestly solicit your suggestions, complaints or criticisms. Write us a letter—tell us what you do or don't like about Texas and Pacific service and give us any suggestions you may have for improvement. We assure you that we welcome them . . . whether they are brickbats or bouquets!

**W. C. VOLLMER**  
President

**TEXAS AND PACIFIC RY.**
