THE FARM BUREAU talent find and queen contest Tuesday night. I missed the talent part of the contest but to shoot a bunch of Rotarians visiting with their before going to Lockney.

IN HENNETTA Sunday for a family reunion and had between here and there is beautiful and green all I have never seen the Matador country look better. If you'll take time to drive around Floyd County, you'll like the looks of our "row crop ranch land."

VED the rodeo Saturday night. . . I thought, "well, it's a pretty good rodeo for our size town. . . hope we have to have one every year. So, let's all express our love to the men who work and produce one of the best in the country."

AS A NEW BOOK. . . "I'm OK, You're OK", and I share this information from page 241 with you: Truelove says, is not a blind leap into nothing but a walk in the light we have. Part of that light is the rest of the world which "God so loved" is considerably our own personal comprehension of it. If nothing recognition should make us modest and rule out our exclusive truth.

ded of one politician's statement, "When white and black and every other color decide they're going to be Christians, then and only then are we going to be these troubles." That statement may mean something but what does it mean to the 1 1/2 billion persons today who don't know who Christ was and never have seen?

us to a second way in which we can look at people. In a sermon I heard some time ago the following were presented: million people of the world could be represented in a one hundred:

United States citizens; ninety-four would be citizens of other countries.

open one-half of the money in the world; ninety four for the other half; of the ninety-four, twenty would own the remaining half.

have 15 times more material possessions than the other four put together.

percent more than the average daily food requirements of the ninety-four would be below-minimum needs, and many of them would be on a starvation diet.

span of six would be seventy years. The life span of the other thirty-three would be thirty-nine years.

ty-four, thirty-three would come from countries where Christian faith is taught. Of the thirty-three, twenty-two would be Catholic and nine would be Protestant.

RODEO QUEEN is Jamie James, Bouquet is presented to her by G. L. Fawer Tuesday night's rodeo. At left is Connie, last year's rodeo queen, Jamie is daughter of Mr. and Mrs. Raldo James. (Staff Photo)

14-County Singing Convention Scheduled This Weekend

The Floydada High School auditorium will be the site of the 14-County Singing Convention Saturday and Sunday when up to 500 people are expected to gather in Floydada for the two-day gospel singing event. Several well-known area gospel quartets, along with the "Gospel Notes," a trio from Amarillo, will sing at the convention, which is held in different cities in the area every fifth Sunday, according to E. B. Chesnutt, convention chairman for Floydada. The Saturday evening session starts at 7 p.m. and lasts until 10, and the singing starts Sunday at 10 a.m. and lasts until 4 p.m., with dinner on the ground at noon, Chesnutt said. The convention will furnish drinks and several hams, but everyone should bring a sack lunch, Chesnutt noted. Everyone is invited to the non-denominational singing event Saturday and Sunday. LOCKNEY BEACON ALSO

Hesperian Twice Weekly Publication In September

Announcement was made yesterday by Hesperian publisher Wendell Tooley that he has traded the Crosbyton Review newspaper for the Lockney Beacon newspaper and will combine circulation of the Hesperian and Beacon. Tooley said the trade will be effective Monday and at that time Joe Hawkins will take over the editorship of the Beacon and move his family from Floydada to Lockney. "We feel that we can now give our subscribers more county and trade area news, newer news with a Sunday and Thursday edition each week, and we will be able to give the Floydada advertiser full coverage of Floyd County and this trade area with around 4,000 subscriber homes," Tooley added. "Although circulation of the Beacon and Hesperian will be combined, each newspaper will have a different front page each edition, there will be separate sports pages in football season, and we will be careful to see that each town retains its identity in the changeover," Tooley added.

Cogdell Clinic Opens Offices

Two Floydada doctors, Noble Ballard and Jack G. Jordan, moved their offices into the Cogdell Foundation Clinic this week and are accepting patients at the new facility, located north of Caprock Hospital here. The new clinic building was office space for two additional doctors. Hospital officials are reportedly talking to at least one other doctor who might possibly open an office in the Cogdell Clinic. The date for the new building's dedication ceremonies is to be announced late.

Postal Receipts Up

According to Postmaster Ed Wester, total receipts at the Floydada Post Office for the fiscal year ending June 30 were up \$12,396 from the same period ending June 30, 1971, a jump probably due to increased postal rates. The 1972 receipts were \$30,295, compared to \$77,899 in 1971. Postal receipts in 1970 were \$77,940; in 1969, receipts were \$77,137; and in 1968, the total was \$71,943, figures from the Post Office reveal.

Massie Activity Center Soon To Be Open

An inspection team has finished its study of the Massie Activity Center and its recommendations have been turned over to the contractor, Plains Builders Inc. of Lubbock. As soon as some minor changes and corrections have been made in the building, it will be approved and the building can be put in use. It was hoped that the building could be used this weekend by the square dance club and the singing convention, but it will possibly take another week for the contractor to complete requirements of the inspection committee.

Dedication of the building is planned a month or two following opening of the building.

Church Of The Nazarene Sets Weekend Revival

Rev. Ray Fletcher will be the evangelist for a weekend revival meeting at the Nazarene Church of the Nazarene Friday, Saturday and Sunday (July 28-30), pastor Herbert Elsan announced today. Services will be held at 7:30 p.m. each evening at the Church of the Nazarene, Fourth and Tennessee Streets.

4-H Horsemen Best In State

Three of the most prestigious awards offered at the Texas 4-H Club Horse Show came from San Antonio with Lockney cowgirls and cowboys. Champion horseman honors were kept strictly in the Deanie Henderson family. Ginger Henderson and younger sister Mona deadlocked with 16 points each. Ginger was declared the winner on the basis of more places in performance events, and Mona settled for runner-up. Both misses, members of the Lone Star 4-H Club, won saddles. Floyd County also was named high point count in the state 4-H horse show, which unraveled Wednesday through Saturday in Joe Freeman Coliseum. Due largely to efforts of Floyd County horsemen, District II was third high point among 13 districts within the state. In addition, local youngsters earned seven trophies. Ginger Henderson captured second place showmanship and fourth in western pleasure. Her sister placed second in western pleasure. Sam Fortenberry gained the finals in break-away roping. Denice Johnson missed by only two-hundreds of a second qualifying for the barrel racing finals. In halter classes, Fortenberry took fourth in gelding five years and under, Mona Henderson was fourth in aged mares, and Ginger Henderson's young mare was sixth. The Henderson sisters qualified for the Southern Region 4-H Horse Congress August 3-5 in Dallas. Top 30 horsemen in the state advanced to this level.

BLOOMS AND BOLLS on Floyd County cotton . . . Victor Smith inspects some of the blooms and small bolls in a field of cotton planted May 20. Smith, who farms with his father, Billie Jo Smith, nine miles southwest of Floydada, said last week that this year's cotton crop looks to be off to the best start of any in recent years. The Paymaster 111 had not been watered (except naturally) when this picture was taken. (Staff Photo)

More Rain In '72 (So Far)

Through nearly seven months, 1972 has been a wetter year (we're talking about rainfall) in Floydada than last year, which ranked ninth in the all-time recorded rainfall standings with 25.46". The 1971 rainfall was the most measured here since 1957, when the total was over 30". The total rainfall here through July 24 this year was 11.76", which is .99" more than last year's total through July. Again this year, Floydada's rainfall in May totaled over four inches - 4.62", to be exact. Last year in May, the city measured 4.17". Although the first four months of 1972 yielded only .76" of moisture, rainy (for us) weather set in in May and has continued, with 3.27" of rain falling in June and another 3.11" so far this month. Which is fine by local cotton farmers, if it'd just dry up and get hot now for a while. (Courtesy Producers Co-op)

GIRL SCOUTS PREPARE FOR DAY CAMP . . . Front, left to right: Mrs. Carl Armstrong (leader), Jill Probasco, Tolya Hickerson and Ann Campbell. Back, left to right: Robin Roberts, Kathy Green, Tracey Puckett, Nanette Burk, Michael Lee, and Elizabeth Farris. (Staff Photo)

Camp E-Ha-Wee Exciting Event

The annual Girl Scout Day Camp E-HA-WEE will come to a close tomorrow, Friday the 28th, after a week of exciting events, adventure and learning experiences for the 50 girls registered. In addition to the girls, there are seven adult unit leaders, Mrs. Carl Armstrong, camp director, and ten Cadette Girl Scout aides on the scene to see that everything goes well each day.

Girl Scout Day Camp gives an opportunity to girls each summer to work in the outdoors in groups on varied projects and interests. Each unit, composed of from 6 to 12 girls, according to leaders and age-levels, plans what activities it enjoys the most and what learning experiences it needs to develop. The Day Camp program is then built around unit group interests.

There are craft activities for the Brownie Girl Scouts such as making all kinds of

jewelry from wire materials, making nature objects from rocks, and outdoor utensils from cans and twigs and rope. Nature study and hikes are enjoyed by everyone, with the conservation idea being stressed to all groups. Each unit cooks in the outdoors, and one unit taking a bicycle hike will cook with the Buddy Burners at their destination.

One highlight of each camping week is the Water Fun day (Wednesday) when Junior and Cadette Scouts work on water safety and games and swimming at the city pool.

Another daily highlight is the group time each morning following the flag-raising ceremony.

Entertained and instructed in this exciting hour, the girls and leaders have enjoyed cheer-leading sessions conducted by the high school cheer leaders, a Games Rodeo planned and directed by the Cadette Scouts, a discussion hour and crafts-from-bandanans demonstration by Nan McCulley related to her recent trip to Our Cabana in Mexico, a discussion hour di-

ected by Mr. Erwin, Silviculturist from the Texas Forest Service in Lubbock.

At noon Friday, all units will prepare certain parts of the meal to be eaten, and the Day Campers will participate in a progressive luncheon. All types of fires, cooking facilities, and food preparation will be demonstrated through preparing the meal.

Concluding its fourth year in the Floydada City Park east of the high school, Camp E-HA-WEE has become the "week of happy camping" for Floydada Girl Scouts.

Pictured, left to right: Reba Henry, Virginia Taylor, Nancy Marble, Jim Word, Traverso, and Eli Neff. Traverso, State Museum Consultant with the Texas Historical Survey Committee, gave display suggestions to the local museum workers. The Floyd County Museum, located in the old Surginer Building on the north side of the Floydada square, is still in the planning and building stages, according to workers, although several displays are in evidence. Visitors to the museum (some are coming in already) won't get the full picture until the museum opens, probably later this year.

Becky Dunlap Honored With Gift Coffee

Miss Becky Dunlap, bride-elect of Gary Culp, of Happy, was honored with a gift coffee Friday morning, July 21, from 10 to 11 a.m. in the home of Mrs. Cecil Baxter.

Mrs. Baxter welcomed guests and presented them to the honoree, her mother, Mrs. R. G. Dunlap, the groom's mother, Mrs. Everett Culp, and the groom's grandmother, Mrs. Birdie Culp, both of Happy.

Mrs. John Key West presided at the guest register.

Sweet rolls, melon balls, fruit and nuts were served from a table covered with a white hand drawn cloth. Spiced tea and coffee were served from a silver service, presided over by Mrs. Doyle Walls, and assisted by Mrs. Earl Crawford.

A floral arrangement of yellow and orange marigolds and gladiolas in a cutglass bowl and brass stand, accented by yellow lighted tapers in a silver branched candelabra, formed the centerpiece for the ta-

attached to a self fabric bow and her bouffant veil was caught to a ruffled bonnet of organdy and lace. She carried a white orchid surrounded by white daisies.

Miss Carla Bean of South Plains attended her sister as maid of honor. Mr. Kim Hunsley, Floydada, was matron of honor and Misses Brynn Smitherman and Dana Tye, Floydada, were bridesmaids.

Feminine attendants were gowned in teal blue dotted swiss over cotton sateen, accented by white lace. Each carried bouquets of white and yellow daisies.

Cary Claiborne, La Jolla, served his brother as best man, and Berkeley Claiborne, La Jolla, also a brother, was groomsman. Serving as ushers were Mark Smitherman, South Plains, cousin of the bride, Ronnie Graham, Floydada, and Miles Beard.

Lisa and Jonna West, South Plains, both cousins of the bride, were candlelighters.

Organ selections were presented by Mrs. Walter Bean of Silverton, who accompanied soloist, Mrs. David Battey Jr.

Following the wedding, a reception was held in the church parlor. Members of the house-party were Mmes. Don Bean, Philip Smitherman, Johnney West, Dale West, William Stanforth II and Mrs. Joy Smitherman.

The bride attended Floydada High School and Lee Junior College at Baytown. Her husband is a graduate of Brazosport High School in Lake Jackson, Tex., and Lee Junior College at Baytown.

Following their honeymoon the couple will make their home in LaJolla where the groom is employed by a printing company in San Diego.

THINGS are about normal at the homestead. Our daughter arrived home Monday evening and other than a good bouncing in the plane over El Paso from turbulence, she made the trip fine. Don't suppose we should ever under-estimate the courage of our youngsters. When I was 16 I wouldn't have had the "gumption" to ride a plane across California to Texas. I doubt if I would have had the courage to let go of my mom's skirt tail that long! Come to think of it, Orville Wright might not have wanted to fly passengers back then.

WE became acquainted with a couple from Littlefield, who were at the airport to meet their daughter and somehow the conversation got around to the football and last year's game with them, so we re-played the game. They passed along good comments on our players, and fans as well which always makes a person feel good and said Littlefield was looking forward to playing Floydada again.

BACK on the subject of football Joe Namath talks as if he is the best and can't be replaced by anyone as good as he. Not being at full strength due to a series of leg injuries that have bothered him through the eight years of pro football, he might find himself out of a

SOCIAL Security tax seems sure to be jiggered before long so that the poor pay less of their income than today. Higher incomes would take up the slack. Some tax reforms will be made, probably in '73, mainly effecting higher-income people and minimum tax is likely to be raised. An optimistic look for next year seems to call for a sharp speedup in business, jobs will open up, money and credit will be plentiful and hopefully the pressure on North Vietnam will be enough to bring peace.

SOME Lorenzo visitors were up Red River and Taos, New Mexico recently and after seeing a few Indian dances, say they have lost faith in the authentic dances. They said the dancers wore suits made of dacron double knit, moccasins that were made in Tokyo and one boy wore a Jantzen swimsuit under neat his breech cloth. After passing the hat for donations they were said to have driven away in a shiny new Cadillac!

WE often consider the importance of cultivating friendships with others, but it is just as important to learn how to be a good friend to yourself. Learn to live with yourself. If you dislike other people, it may indicate that you dislike yourself. No one is perfect; everyone has quirks. The chances are that you are doing a pretty good job of living your life. You will never have to worry about having friends if you use your intelligence and common sense in making yourself your best friend.

Volunteer Fireman Attends School

COLLEGE STATION - Dale Kincer, volunteer fireman on the Floydada Volunteer Fire Department of Floydada, attended the 43rd annual Texas Firemen's Training School July 16-21. The school, attended by nearly 1,500 men representing about 470 cities from approximately 20 states, was held on the Texas A&M University campus last week.

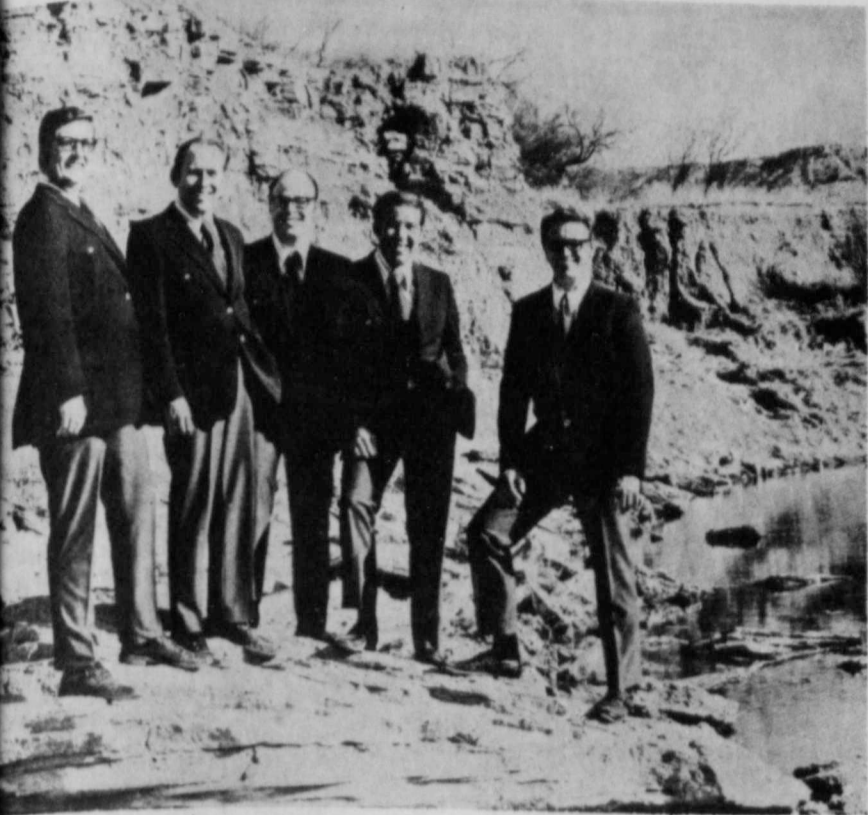

Fireman Kincer was sponsored by Floyd County Farm Bureau and Texas Farm Bureau Insurance Companies by contributing toward their cost of the school. Since volunteer firemen are interested in attending this school to help do a better job of fire fighting and fire prevention, 80 County Farm Bureaus and the Texas Farm Bureau Insurance Companies in the statewide program have sponsored 102 firemen at the school.

"The Farm Bureau Insurance Companies believe volunteer fire departments have been very effective in reducing the amount of loss involved by fire in rural areas," said President J. T. (Red) Woodson of Gober. "It is our hope in sponsoring this program that the fireman will help the Floydada Volunteer Department to better serve the residents of Floyd County."

Drunks Blamed For Increase In Texas Highway Deaths

An insurance industry spokesman has leveled a blast at a few Texas judges for permitting drunk drivers to go free without being punished for their crime after a conviction.

problem is strict legislation which would provide the framework for punishing and treating

the drunk driver in order that he may be rehabilitated," he concluded.

The median age of the Spanish heritage population was 19.3 years, compared with 26.5 years for the population of Texas as a whole.

Persons of Spanish heritage 25 and older averaged 7.2 years of completed schooling, compared with 11.6 years for the total population 25 and older. Among the 600,425 persons of Spanish heritage 16 and older who were employed in 1970, 8 percent held professional, technical, or similar jobs; 14 percent were clerical or kindred workers; 15 percent were in crafts; 16 percent were operatives (mostly machinery); and 14 percent were service workers other than private household.

Median income in 1969 of the 423,780 families of Spanish heritage amounted to \$5,897, as compared with \$6,490 for all families in the State.

Tabulations in the report show that 6 percent of the Spanish heritage families had incomes of \$15,000 or more, while 17 percent of all Texas families were in this income bracket. At the opposite end of the scale, 21 percent of the Spanish heritage families and 13 percent of all families had incomes below \$3,000.

Similar detailed statistics for persons of Spanish language and surname are available in the 1970 census reports for Arizona, California, Colorado, and New Mexico.

Copies of the report, "General Social and Economic Characteristics, Texas," PC(1)-C45, are available for \$6.00 each from the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402, or any Department of Commerce field office.

FLOYD PHILOSOPHER Comes Up, He Thinks, With Solution To Airplane Hijacking Problem

Editor's note: The Floyd Philosopher on his Johnson grass farm claims he has a solution to the airplane hijacking problem. You decide whether he has.

Dear editor:

After some long and hard thinking I have come up with a solution to the airplane hijacking problem, and it's about time.

As you know, the airlines and the government have tried nearly everything to stop the crime, from hiring sky patrolmen to ride shotgun to using all sorts of metal detecting devices to trying to psychoanalyze each passenger as he goes through the turn stile, but people keep on hijacking planes, getting on board with everything from pistols to machine guns, from nitroglycerine to hand grenades, from long-bladed knives to sawed-off shot-guns.

The thing simply can't go on, so I'm offering a solution free of charge and I wonder why nobody else has thought of it.

Although it would be the ultimate in preventing anybody from carrying weapons aboard, the country, at least the part of it I'm familiar with, just isn't ready yet to fly nude, therefore the airlines should do the next best thing.

First, install two dressing rooms at every airport between the ticket window and the gate

leading to the planes, one for the men, one for the women. When a passenger boards in, undresses, hands all his clothing to foot, and is then given a flight attendant to inspect in the case of a hijack, her purse in the case of a hijack, all put in a sack, tagged, and stored in a baggage compartment of the plane.

Landing at his destination, the hijacker goes to the dressing room, puts on his flight suit and into his street clothes a cab for the two hour or so stay.

I guarantee under this system that you can get on a plane carrying a weapon. Everybody may be carrying those flight suits, but I'll bet you'll see or Algeria or sitting in a plane while the airline rounds up \$100,000 in small bills.

But wait a minute. I just read that men hijacking a bus loaded with people for a race track, making the driver around town while they robbed the drivers of several thousand dollars, appeared into a crowd.

This is going to take some thinking in broad daylight has a lot of things will turn this problem over to you. Yours faithfully, J.A.

The Della Plaines area is looking much better. The city has done and is continuing to do a good job for the area. The vacant lots cleared and old houses removed have made a tremendous improvement on part of the area. Needed however, on behalf of the property owners of the area is concern for their own property. A general clean-up of our own property will help to complete the job for the area. Let's assist in this project by cleaning our own property instead of having someone do it for us.

The Washington Park looks good. A campaign for trees and shrubbery that meet the requirements for the park will be started soon. Anyone wanting to donate something from his yard this fall to the park can call the Neighborhood Center at 983-3134. A list of the types of shrubbery and trees needed will be listed during the campaign.

Many thanks to the city for their effort and time given to the area.

Mr. and Mrs. Ira Baker returned home from Navasota, Texas where they attended a family reunion of the Ira Bakers. After leaving there they journeyed on to Houston, Texas to visit the Anderson Coleman family of that city. They also took in a Houston Astros game at the famous Astrodome.

Is now the time to refinance loans?

Additional capital for expansion, more money from your equity, debt consolidation, smaller payments - these might be important reasons for adjusting your loan structure. The Federal Land Bank often can provide refinancing at lower cost and greater convenience than you'll find at other sources of credit.

With a Land Bank loan, your debt will be easier to manage. You'll have just one place to make payments, and a schedule that best fits your income. Repayment ahead of schedule is permitted without penalty.

It's sound business to analyze credit obligations at least once each year to make sure you're using borrowed money to maximum advantage. We would be glad to help you compare loan terms, make financial projections, and determine the amount of credit you should be carrying. Should you decide to rearrange your debt structure now, let us work with you on a plan tailored to your needs.
