School Board Names Irving Teacher As New Principal at Colorado High

Coach, Bandsman Added to Faculty

Last of Colorado City public school administrative posts has been filled with appointment of Charles H. Graham, 42, as High School principal.

Graham, member of the teaching profession 15 years and asssistant principal at Irving High School, was here Friday to confer with Supt. Frank Wilson and to seek housing facilities for his wife and three children.

The High School principalship was one of three key appointments approved Wednesday evening at a special meeting of Colorado Independent School District board of trustees.

The other appointments were: Warren Thaxton, band director at Trent High School, to Junior High band director here and assistant under Dwight Tombs, Colorado High band director.

Larry Morton, formerly head coach at Morton High, as Junior High football coach.

Last month the board had elected Curtis Latimer, prominent Colorado City farmer-rancher and former principal, as principal at Junior High; Homer Gene Jefferson, former Caldwell head coach, as High School basketball coach and football assistant; and Dean King, 1957 graduate of West Texas State, as seventh grade coach in Junior High.

Naming of Graham as High School principal ends a search, so to speak, conducted by Wilson since his appointment last spring as superintendent.

Graham, who fills the position left open by the resignation of J. Frank Jones, is the brother of George Graham, executive vice president of Hardin-Simmons University in Abilene.

He has bachelor and master degrees from West Texas State College in Canyon and an educator's background that includes three years at Dumas, six years at Dalhart and three years at Friona as teacher; principal at Claude High School for the 1954-55 and 1955-56 years; assistant principal at Irving High School for 1956-57, plus principal and director of the current summer school in Irving.

"We have considered the principalship at High School an important position in our public school system," Supt. Wilson said, "and have looked upon it to be filled by a man with a reasonable amount of experience and maturity."

The superintendent emphasized that Graham not only meets measures up to the experience requirements, but also has special qualifications for student discipline.

As assistant principal at Irving, Graham's duties primarily were concerned with discipline and attendance. Enrollment at Irving High was more than 1,100 students.

The new principal, a Baptist, is scheduled to begin his duties here about Aug. 1 after closing of summer school in Irving.

He was one of approximately 20 educators interviewed and investigated by Wilson in his hunt for a high school principal.

Graham is a native of Plainview. He and Mrs. Graham are parents of three children: Bob, 16; Betty, 12, and Charlene 8.

Thaxton, the Junior High band director, will join with Tombs in the development of an expanded band program—not only in Junior High, but also in Hutchinson Elementary and High School.

He is a graduate of Hardin-Simmons University, where he was a member of the famed Cowboy Band. And he has been a trombonist in San Angelo, Abilene and San Antonio symphony orchestras.

Thaxton has been band director at Trent for two years, during which time he originated and developed Trent's entire band program.

During the last school year the Trent High Band included 55 pieces, an accomplishment that gained the praise of band directors in the West Texas area.

Thaxton also is married and an expectant father.

ANOTHER INJURED

Oilfield Accident Claims Man's Life

A 31-year-old Snyder man, Robert C. Parker, was killed at 8 a. m. Friday in an oilfield accident in the Iatan field near here when a cable with which he was working struck an overhead high-tension power line.

Electricity poured through Parker's body.

He was pronounced dead on arrival at Root Memorial Hospital here.

At the time of the accident, Parker was spudding in a well for Dutch's Drilling Company, a Snyder firm. He was raising a part of the drilling rig when the cable made contact with the power line.

Parker, who lived at 1010 32nd St. in Snyder, was brought to Colorado City by Kiker and Son ambulance.

The body was moved to Snyder by a Bell Funeral Home ambulance and was transferred from Snyder to Malvern, Ark., for services.

Parker was a native of Smackover, Ark., and had lived in Snyder for four years. He was married and had one son, Robert Jr., 11, and a daughter, Sharon, 2.

Funeral arrangements were pending Saturday at Malvern.

In another oilfield accident Wednesday afternoon, Bill Gohlke, 19, an employe of the Robinson Drilling Company, was severely injured when a piece of lumber fell 40 feet while he was working on a drilling rig.

Gohlke suffered brain injuries when the piece of lumber pierced his skull and penetrated the brain substance.

He was rushed to Colorado City's Root Memorial Hospital for emergency treatment.

He was transferred late Wednesday to Methodist Hospital in Lubbock where he underwent brain surgery to remove the splinter.

He was reported out of danger Saturday, after the splinter, bone chips and damaged tissues were removed.

Last Rites Held Here Thursday For Mrs. Smith

Last rites were conducted here at 5 p. m. Thursday for Mrs. Mary Lucile Smith, 69, who died Wednesday at Baylor Hospital in Dallas following surgery last Monday.

Burial was in the Colorado City Cemetery under the direction of Kiker and Son Funeral Home.

Mrs. Smith was born Nov. 2, 1887 in Bell County and was married to Burt Smith on Oct. 30, 1904 at Coleman.

The Smiths moved to Mitchell County in 1905, where Mrs. Smith was a member of the First Methodist Church here.

She is survived by her husband, one daughter, Mrs. Jimmy Cawthron of Amarillo; one son, Mike Smith of Colorado City; one sister, Mrs. Ruby Green Smith of Odessa; three grandchildren and five great grandchildren.

Pallbearers were Gene Bassham, Herb Gunn, N. O. Brown, Bill Randle and Otto Jones.

According to Quimby, about 500 spectators witnessed the contests, sponsored by the Colorado City Jaycees.

In the senior boys' competition, Barton Smith swept both the free style and the side stroke contests. Girvin Harkins won the back stroke event and Jay McCollum took the diving award.

Cynthia Aycock swept all three swimming events in the senior girls' contests. Diving was not held in this class, Quimby said.

Jaycee committee members served as judges for the swimming events. They included Johnny Grubbs, George Womack, Bob Williams and Quimby.

In fishing contests held all day Thursday at Lake Colorado City, all prize winners were from out of town.

Mrs. Reval Phillips of Loraine took the award for the largest string of rough fish with a catch which weighed in at 30 pounds, four ounces.

Mrs. G. E. Conner of Silver landed the largest catfish of the day. Her prize-winning catch weighed four pounds and eight ounces.

Mrs. W. E. Gaffney, Snyder, was declared winner of the crappie contests after hauling in a string of fish weighing 13 pounds and four ounces.

Otis Cranfill acted as judge for the contest and weighed all fish at the Sportsmen's Club on the lake.

Attendance at most of the events far exceeded expectations, Taylor said.

"We are looking forward to improving and expanding our annual community celebration next year," the chamber president added.

Joe Smith, racing for Corner Drug, took sixth spot. Howard James, sponsored by Colorado Tire & Supply, won seventh place.

Eleven racers from Colorado City were in the field of 41 entries.

Robert Boney of C-City was one of the casualties of the annual races. Boney lost control of his racer and it smashed into the curb, destroying it. Boney suffered scratches and bruises. He was examined at Big Spring Hospital and released.

Eddie Ross of Colorado City was awarded the hard-luck prize by judges when his racer went out of control and smashed into the curb. Ross repaired the racer and tried again but couldn't properly guide it.

Darrell Mize received a bye in the first round but was beaten by Joe Smith in the second round. Smith had previosuly whipped Mitchell Jones of Big Spring.

Smith lost to Charles Leek of Big Spring in the third round.

LOVERN SAYS

'Thread of Faith' Led to Greatness

Leading off Colorado City's second annual Fourth of July Celebration here Wednesday night, Dr. J. Chess Lovern, pastor of Lubbock's First Methodist Church, spoke to an estimated 250 persons in Ruddick Park amphitheatre.

Illustrating the theme of his talk, "Faith of Our Fathers," Dr. Lovern told the audience that all the great events in our nation's history have found the "right men with the right faith to meet the hour."

"Threaded through every document in our history is the thread of faith," he said.

Dr. Lovern, introduced by Rev. Clarence Collins, pastor of the First Methodist Church here, traced the history of America, giving dates and incidents and he pointed out in each the importance of faith.

"The greatness of our country has been created by the character of the manhood and womanhood of our forefathers," Lovern told the crowd.

"I hope you will evaluate the things you stand for," he said, "and say to yourself, 'Are they worthy to inherit the future?'"

The Lubbock minister complimented the Colorado City Chamber of Commerce on their arrangements for the community-wide religious services.

"I don't know why every community in Texas shouldn't begin its celebration of the Fourth with something like it," he said.

Continuing on his topic of "Faith," Dr. Lovern said, "The important thing that has made men great was that their faith was a faith committed to truth.

"Truth will win out," he said.

Unpopular Program Draws Critics' Fire

By CLINTON DAVIDSON

Current efforts to destroy the farm program reminds us of the story about the farmer who burned his barn to get rid of the rats.

Almost everyone, it seems is "against" the present farm program. Few farmers like it, the Secretary of Agriculture doesn't like it, and many city critics want to do away with it entirely.

There are legitimate complaints against the farm program as now drawn by Congress and operated by the Department of Agriculture. There can be no denying that the program has many faults.

It is costly. Congress since 1950 has appropriated nearly $20 billion to operate a program that includes large payments to farmers and huge subsidies for export of surpluses.

The program has not stopped overproduction and the build-up of surpluses. It has not halted the 7-year decline in farm prices and income.

It has put the government deeply into the business of managing both farming and farmers. There are huhdreds of farm laws and more than 100 thousand government agents supervising farm production and marketings.

But, to repeal all farm program laws to get rid of the faults makes no more sense than burning the barn to destroy the rats. That would be an admission of complete failure.

The farm program has faults, but it hasn't been a complete failure. It helped farmers weather the depression 30s and prepare for the big production increases vitally necessary in World War II and immediately afterward.

The fault is that we haven't made the necessary changes to meet changing conditions since 1952. We have clung blindly to old programs that no longer apply to changes in production methods, and in market demand.

The government, on one hand has forced reduction in crop acres, and on the other has taught farmers how to produce more per acre. It has supported prices of some products, and not others. It has paid farmers for not farming as well as they had been taught how.

The problem now is how to strengthen the farm program and make it apply to modern conditions, not repeal of all farm laws. To do so would bankrupt most farmers without helping city consumers. Merchants who buy from and sell to farmers could not survive.

There seems to be a widespread smear campaign aimed at convincing the country that (1) farmers are getting rich off the government; and that (2) consumers pay twice for their food, once in the market and again on their tax bill.

The facts are: Farmers' income averages less than half of the average city worker's; farm income is down 33 per cent in five years, but city income is up 21 per cent; farm income per hour averages 70c, but factory workers earn an average of $1.95 an hour.

The farm program has benefitted city consumers far more than it has farmers. It has encouraged abundant production, resulting in a 22 per cent decrease in farm selling prices since 1952, despite a 17 per cent increase in farm operating costs. Consumers, according to the Department of Labor, pay less for their food than in 1952. Middlemen have increased their charges by 20 per cent.

Valhalla, in Norse mythology, was the heaven of heroes.

BIBLE COMMENT

Suffering People Live Useful Lives

We are prone to meet problems with vain questions. "Why does God permit war?" men ask. It is things of this sort that emphasize the problem which faced the writer of the Book of Job. Job was tempted to doubt God's goodness.

We should remember that the Book of Job is a poem, a drama, in which questions and answers are brought out through the action and discussions between the personalities.

This problem of Job's confronts every thoughtful individual. If a person is assailed by similar afflictions, he is bound to ask Job's question, and he will be lucky if he doesn't have Job's doubts.

If a person is free from personal affliction, he must surely be blind to the sufferings of his fellow men. He will know nothing of the tragedy involving innocent people. If the person is not moved to consider the problem of evil and the problem of pain.

Job never found any real solution to this problem. But he did attain an attitude of faith that enabled him to say, "Though He slay me, yet will I trust Him." It's doubtful whether there is any solution other than that of faith.

It was in something of Job's spirit that Christ cried in His agony in the garden, "Father, if it be possible, let the cup pass." Yet, His supreme concern was that the will of God should be done. He went to the Cross in the courage of faith, knowing that it was God's way.

The mystery of suffering has never been made plain. The solutions that modern optimists offer those in affliction are hardly more satisfactory than the ones offered Job.

What does help us is the realization that men and women who have suffered greatly have lived lives of great usefulness and helpfulness toward others. Even where nations have suffered and perished, they have given the world a heritage of truth and right and liberty.

Copperheads are the most widely distributed and in many places the most abundant of poisonous snakes in the eastern U. S.

FARM DEATH TOLL CALLED HIGHEST

Daniel Issues Farm Safety Proclamation As Accident-Prevention Program Begins

The death toll from farm work accidents last year in the nation was higher than in any other major industry. "Farm accidents," said Governor Price Daniel when he issued his Farm Safety Week Proclamation, "have become a serious problem which not only causes untold suffering among our rural population, but which affects the economy of the entire Nation."

In proclaiming the week of July 21-27 as Farm Safety Week, Governor Daniel pointed out that the Texas Safety Association, the Texas Farm and Ranch Safety Council and the Texas Agricultural Extension Service would be cooperating with the National Safety Council and the U. S. Department of Agriculture in carrying out a farm accident-prevention educational effort. This campaign is in keeping with a proclamation issued earlier by President Eisenhower on a national basis.

Governor Daniel said, "The effect of accident-prevention programs has indicated that our rural residents, through attention to safety education, can greatly reduce accidents and the resulting loss and suffering. Therefore, as Governor, I urge all farm families to join in a continuing campaign against needless accidents."

The Texas Farm and Ranch Safety Council strongly believes that farm accident prevention efforts should be made a part of every family's plan for improving their farm and home." Until farm families become conscious of the multitude of accident hazards which surround them, little progress can be made in removing the hazards, says the Council. "We would like to see the farmer and every member of his family become as safety conscious as are the people who work in industries where the accident rates have been reduced almost to the zero point. We think it can be done, if as Governor Daniel says, everyone will participate in a continuing educational campaign to wipe out farm accidents."

"Appoint yourself a committee of one to start the ball rolling on your farm," urges the Council.

Adyice to Tourists

Tourists returning to the United States from abroad this summer should resist spur of the moment urges to bring back unprocessed foods, plants and seeds.

Enticing and harmless as they may seem, these materials can be the method of transfer and introduction for insects that are harmful to our agriculture, according to C. F. Garner, extension entomologist.

These insects may be transported inside fruits, vegetables, cuttings and seeds. They may be in the soil attached to plant roots and may even be transported in certain meats, says the entomologist.

Past records indicate that precautionary measures are justified.

The Mediterranean Fruit fly was discovered in Florida in an area straddling the International Airport at Miami. Some entomologists believe it got into this country from infested fruit brought in air passengers' bags.

Meanwhile, this fly has continued to seek entry. A passenger arriving in New York from South America brought along a half-pound of fresh coffee berries to show his family. Five of the berries contained living larvae of the fruit fly. As many as 65 of these larvae have been found in oranges removed as garbage from a plane coming from Southern Europe.

State Capitol NEWS

Inspectors are also alert for free-flying insects, says Garner. Last year they found 48 live Japanese Beetles in aircraft arriving in Hawaii from Japan. About 50 live European Chafers were found on an overseas plane in Paris. Only prompt recognition and action prevented the escape of these pests from the plane.

Permits for bringing back items for special purposes, explains Garner, may be obtained from the Agricultural Research Service, U. S. Department of Agriculture, Washington, D. C.

Safe Home Wiring

Almost everyone has experienced that helplessness which is felt when the electricity goes off, for more and more household chores, from dishwashing to clothesdrying, are being sholdered by electrical servants. And through air conditioners and radio and TV sets, above ready kilowatts are providing a lot in the way of comfort and entertainment, too.

But many homeowners are discovering that their houses are inadequately wired to handle the extra load of appliances, says W. L. Ulich, extension agricultural engineer. Blowing fuses, flickering lights, and shrinking TV pictures when additional electrical appliances are turned on are all signs that circuits are overloaded.

For safety's sake, call in an electrical contractor when this occurs, advises Ulich. Don't play "handy-man" with something that can be as dangerous as electricity. Don't use heavier than 15 ampere fuses unless your circuits are built to handle them. And never use a coin to establish contact after a fuse has blown. Fuses and circuit breakers operate on the basis of flow of electric current. Excess flow of current not broken by a fuse or circuit breaker causes heat greater than insulations on wires can resist. The overheated wires can easily cause a fire.

If your house needs additional wiring, it will pay to take care of this need promptly. All appliances will work more efficiently and satisfactorily and may use less electric current to do the same work. Cost of wiring is small compared to the safety and convenience of a properly wired home, points out Ulich.

Audrey Leaves Mark

Hurricane Audrey left her mark on the Texas coast, but without too much damage to fishing resources, according to the Executive Secretary of the Texas Game and Fish Commission.

"For a while it looked like nature had done a wonderful job of opening some of our passes," he said. "However, these passes have been refilled with sand. They did permit the flow of water from the Gulf into some of the bays and this was beneficial."

Howard Lee, Director of the Marine Laboratory at Rockport, reported that Cedar Bayou, North Pass, Packer Pass and Corpus Christi Pass were temporarily opened.

Rollover Pass was not affected. The bridge remained intact, but there was a washout of the road at one end of the bridge. This has been repaired.

Wardens in the coastal area reported some fish were trapped after they had been washed into the marshes by the high winds. The number was small, however.

In both England and the U. S. the term "convict" refers only to a person found guilty by a jury.

Fountain of Freedoms...a Free Press

THE history of the press, since its development five centuries ago, has been a history of restraint. It is natural for men in authority to resent the sting of criticism. It is human for them to be ambitious, and to seek to entrench themselves. Hence rulers often avoid criticism and disagreement by stifling it. ¶ But the courageous men who founded this new nation sought here *full freedom* for each individual. When they established a constitution, aware of the human frailty even of rulers elected from among them, their First Amendment provided that "Congress shall make no law... abridging the freedom of speech and of the press..." ¶ With the widespread education and enlightenment that resulted, the people here have advanced farther toward all freedoms than the people of any other nation. The beacon of this Western World, marks for all nations the start of the path to Freedoms: Freedom of Speech and of the Press.

DON'T BUY ANY CAR BEFORE YOU DRIVE A CHEVY . . . ITS BEST SHOWROOM IS THE ROAD.

Beauty in motion—Chevrolet Bel Air Sport Sedan with Body by Fisher.

Here's why Chevy's best showroom is the road!

Because Chevrolet's sleek good looks, its advanced features, are only part of the story. The big bonus is its remarkable *roadability*, the crisp precision handling that has posted an entirely new standard for cars in every price class. You can't read about that . . . but you can *feel* it in one minute on the road!

Good drivers know roadability is the single thing that means more driving satisfaction for more thousands of miles than anything else. More *safety*, too, for it grants greater stability on curves, greater traction on wet roads, better "bite" under hard braking, more accurate steering. There are reasons for all this, of course: Chevrolet's balanced weight distribution that takes excessive loads off the front wheels, the wide stance of outrigger rear springs, Ball-Race steering, spherical-joint front suspension. Sure, you can admire the sculptured lines in the showroom. But Chevy's a car specifically designed for beautiful motion—you have to *travel* in this one to know just how terrific it is. Try it, this week!

DO YOU DREAD 1 DAY OUT OF 7?

Some women do. That's the day when all the family's clothes and linens have to be ironed. At the end of a tiring ironing day there's nothing left. No time, no energy for the family. And another ironing day next week to think about.

But you don't have to dread 1 day out of 7. Send your washing and ironing to us each week. Your clothes and linens will come back sparkling white, beautifully ironed. And your family will appreciate the extra time and energy you have for them.

I.J. PIERCE

the 'seniors' at Col-Tex

25 YEARS SERVICE

This is the fourteenth in a new series of special Col-Tex presentations recognizing long and valued service of those employes who have been associated with Col-Tex 25 years or longer. Col-Tex is proud of its workers who have contributed their efforts so many years for the company's success.

Just about any day, during leisure hours, you'll find Mr. and Mrs. I.J. Pierce pampering the lawn and trees at their new home, 1215 Oak. Working in the yard is a principal hobby of the couple who have lived here for 30 years.

The Pierces are another Col-Tex family here in Colorado City. Infact, they have been a member of the Col-Tex family for more than 25 years.

Mr. Pierce reported for his first day of work at Col-Tex Refinery Aug. 7, 1929. He has been on the job there ever since, moving from his first assignment in maintenance to the treating department, where he is now gasoline treater.

A native Texan, Pierce was a bookkeeper for Higgingbotham-Bartlett lumber yards before moving to Colorado City. He married the former Mary Virginia Rhodes of Alexandria, La., in 1927 and the couple moved here the same year.

Mrs. Pierce is a piano instructor, a music career she has continued over a span of 20 years.

The Pierces are proud of their long service and association with Col-Tex. And they are proud, too, of their son, I.J. Pierce III, former Air Force pilot now a geologist with Tidewater Oil Company in Midland. There's a five-month-old grandson, too, that's a favorite in their eyes.

Mr. Pierce is a sports enthusiast no matter whether it is baseball, football or boxing. But even those take a backseat when that yard at 1215 Oak needs attention.

IN DOUBLE RING RITES

Jo Ann Plaster Becomes Bride of Lindy Merket in Home Ceremony

Miss Jo Ann Plaster became the bride of Lindy Merket Friday evening in the home of the bridegroom's brother-in-law and sister, Mr. and Mrs. Paul Hunter, at 1730 Locust Street.

The bride is the daughter of Mr. and Mrs. Irvin Plaster of Route Two. Merket is the son of Mr. and Mrs. Floyd Merket of the China Grove Community.

Rev. W. D. Green of Loraine, great uncle of the bridegroom, read the double ring ceremony at 8:30 p. m.

The wedding party stood before a mantel, which was centered with an arrangement of white gladioli. Mantel candelabra, holding white tapers, flanked each side of the bouquet.

The bride wore a street-length dress of ivory satin, fashioned with a moulded bodice and sheath skirt. The bodice was styled with long fitted sleeves, a rounded neckline and an empire waist. Her costume was completed by matching accessories.

She carried a peach colored glamellia with a white Bible. White satin streamers tied in love knots fell from the flower.

For the traditional something old and borrowed, the bride wore a locket belonging to the bridegroom's mother. Her wedding attire was new and she wore a blue bow on her petticoat. She had a penny in her shoe for good luck.

Recorded wedding music included "Melody of Love", "Because" and "The Wedding March".

Mrs. E. T. Lynch Jr. of Big Spring, the bride's sister, was matron of honor.

She wore a sheath dress of green lace, complimented by beige accessories. Her pink glamellia bouquet was tide with matching streamers.

Eugene (Bo) Merket of China Grove served as his brother's best man.

The couple was honored at a reception in the back yard of the Hunter home following the ceremony.

Bridal table was covered with a white linen cutwork cloth. The wedding cake, topped with a miniature bride and groom, marked one end of the table. The crystal punch service was on the opposite end.

Members of the houseparty were Mrs. Hunter, Mrs. Lynch and Mrs. Eugene Merket.

The bride wore her wedding attire when they left for their honeymoon trip to Colorado.

They will reside at 961 East 14th Street.

The bride was graduated from Colorado High School in 1952. She received her bachelor of arts degree and passed the state board examination in September, 1955, after attending Shannon School of Nursing in San Angelo.

She is now employed as a registered nurse at Root Memorial Hospital.

The bridegroom was graduated from the local high school and attended McMurry College in Abilene. He is a co-owner of Hunter-Merket Pontiac.

Guests for the wedding and reception were Mr. and Mrs. George Plaster, Mr. and Mrs. Irvin Plaster, Mr. and Mrs. Eugene Merket, Lucky Merket, Lt. and Mrs. E. T. Lynch Jr., Mr. and Mrs. Floyd Merket, Mr. and Mrs. Paul Hunter and Rev. Green.

Mrs. Gene Garner was co-hostess for the meeting.

During the business session members reported visits to circle sunshine mothers and 14 visits to shut-ins and prospective members.

Mrs. Ratliff reported on a recent sub-district meeting of Woman's Society of Christian Service in Dunn.

Mrs. Bill Sloan was welcomed as a guest.

Yard Party at Horton Home Fetes Members of Wesley Bible Class

Members of the Wesley Bible class of First Methodist Church were entertained Tuesday evening at a lawn party at the home of Mrs. G. A. Horton.

Class teachers co-hosting the fete were Mrs. Horton, Mrs. Arnel Smith and Mrs. J. T. Pritchett.

Opening prayer was said by Rev. Clarence Collins, a guest and new pastor of the church. Mrs. Roy Dozier, president, conducted the business session.

Mrs. D. H. Davis was devotional leader. She spoke about the celebration of Independance Day.

"On July 4, 1776, our forefathers brought forth upon this continent a new nation conceived in liberty and dedicated to the proposition that all men are created equal," Mrs. Davis began.

They risked all earthly possessions in order that the new country be preserved, she continued. Many of them gave their fortunes to the new country, and yet, how many of these heroic names can we recall?

"To be true to our country," the group heard, "we must first be true to God. We should take time to thank our heavenly father for protecting this great nation and ask him for guidance," Mrs. Davis advised.

"Let's not forget on our national holiday to be thankful for the flag, for this great nation and most of all to our heavenly father who makes it possible for us to be free," the speaker concluded.

Following Mrs. Davis' talk, Mrs. Smith read a poem, "You Love Your Country". Mrs. Ed Williams led the devotional prayer.

Devotion was based on the first four verses in the 13th chapter of Romans.

Games of "42" served as recreation for the evening. Refreshments of homemade cake and ice cream were served.

Refreshment table was laid with a white linen cloth and centered with an arrangement of garden cut flowers.

Guests for the party were Rev. and Mrs. Collins and daughter, Martha, and Mr. Horton.

TWO MINDS WITH BUT A SINGLE THOUGHT...

Meet Jeff and Kim! (Jeff's the one with the curly *ears!*)

They're inseparable pals. They both go around on all fours, and they're generally interested in the same things.

For instance, right now they're both wondering just what Daddy and Mama are talking about.

They seem to be discussing something called "religious education." It is carried on weekly by all the churches. It is the bulwark of America's moral strength and her religious faith.

Daddy is saying that he wants Kim to have the priceless advantage of religious training in Sunday School. And Mother is saying that she has been thinking the same thing.

That's the way it ought to be in every home! Two minds with but a single thought . . . wise parents planning together the moral and spiritual development of their child.

Wag your tail, Jeff! Things look mighty bright for your pal Kim!

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

"I Serve" will be the theme of the program for the week.

A week of worship, fellowship and fun is slated for youngsters attending the activities.

Williams, counselor for men and field representative of the Huston Tillotson Negro College in Austin, will also preach at the 11 o'clock service on Sunday morning, July 28.

The youth program will open each evening at 6 p. m. when the youngsters will have a project in making recreational equipment for the young people.

Pirates Cinch League Crown Friday Night

Pirates are assured of the championship of the Little League.

They whipped the Giants, 7-6, Friday night while the Yankees were losing to the Indians, 14-13, in extra innings.

Yanks were the only club able to give the Pirates a run for the crown, but with only two games remaining, the Yanks will be unable to contest the Pirates.

Both games Friday were close affairs.

Giants and Pirates fought right down to the wire with the Pirates winning in the bottom of the last inning on a Giant error.

Yanks and Indians went into extra innings before the winner was finally determined.

Athletic-Card Duel Looms In Pony Play

With only two games remaining in the Pony League, the Athletics are the only team with a mathematical chance of stopping the Cardinals.

Both the Cards and Athletics won their games Thursday night, Cards whipped the Braves, 5-3, while the Athletics edged the White Sox, 6-5.

If the Cards should lose their contest Tuesday to the White Sox and the Athletics beat the Braves, then the Friday game between the Cards and Athletics would determine if the Athletics could tie the Cards.

But right now, it appears that Mgr. Glenn Thomason's Cards will come out of the fight in first place.
