The insecticide known as DDT has been in the news lately, with restrictions of its use commanding attention. Widely publicized hearings were held on DDT in Wisconsin earlier and copies of the records on these hearings are available, in case anyone is interested. One set of the complete hearing record consists of 44 volumes, 36 volumes of testimony and eight volumes of exhibits, which contain some 45,000 pages. If you want a set you can get it from the Wisconsin Department of Natural Resources at Madison for $675.

Among the migratory and one of the more mysterious flying things to winter in Texas each year is the monarch butterfly, a colorful orange and black in color. The monarch has aroused the curiosity of many, including the Texas Parks and Wildlife Department.

The monarch butterflies leave their summer homes up north in September and fly south at a speed of about 11 miles per hour. Unlike migratory birds, the butterflies have no experienced veterans to guide them on their trip. Their parents and the entire previous generation are dead, since their life-span is only about nine months. But they always seem to know where they are going each autumn when they head south, and in the spring they head back north.

The habits of the monarch butterfly are being studied carefully and tediously. Dr. Fred Urquhart of the University of Toronto in Canada has been tagging mpnarchs since 1951. Anyone who finds a tagged monarch is urged to pack it carefully, note when and how the butterfly was captured, and send it to the address on the tag.

★ ★ ★

Texas' oil production allowable will take another big leap in December. Announcement of this comes almost simultaneously with a forecast that U. S. consumers will need 40 per cent more oil in the seventies than they have used in the sixties. This prediction was advanced by oil industry spokesmen who testified at recent Senate Finance Committee hearings on proposed tax revisions affecting the oil and gas industry. The industry spokesmen estimate that the oil companies will need to spend at least $70 billion during the seventies for domestic exploration and development alone.

Today In History

By THE ASSOCIATED PRESS

Today is Sunday, Nov. 23, the 237th day of 1969. There are 38 days left in the year.

Today's highlight in history:

On this date in 1943, the Pacific war Battle of Tarawa ended in an American victory as U. S. Marines seized the island from the Japanese.

On this date:

In 1774, the Minutemen were organized by an act of the Colonial Provincial Congress.

In 1804, the 14th American president, Franklin Pierce, was born in Hillsborough, N. H.

In 1863, the Civil War battle of Lookout Mountain began in Tennessee.

In 1890, King William III of the Netherlands died. He was succeeded by his daughter, Wilhelmina.

In 1921, President Warren G. Harding signed a bill outlawing beer.

In 1963, the United States was in a state of shock after the assassination of President John F. Kennedy. His body was lying in state at the White House.

Ten years ago— Western Washington State was experiencing its worst floods in more than 25 years.

Five years ago— 45 persons were killed in the crash of an American airliner during takeoff from the Rome, Italy, airport.

One year ago— President Charles de Gaulle refused to devalue the franc despite a severe monetary crisis in France.

THE WEATHER

SNYDER TEMPERATURES: High reading Friday, 68 degrees; low reading 28 degrees; reading at 7 a.m. Saturday, 44 degrees.

Northwest Texas: Fair tonight and Sunday. Cooler in west and north tonight and over area Sunday. Low tonight 30 in northwest to 53 in southeast. High Sunday 57 in northwest to 68 in southeast.

Northeast Texas: Partly cloudy and warmer tonight, low 45 to 53. Sunday mostly cloudy, cooler and slight chance of light rain, high 62 to 72.

SNYDER AN ALL-AMERICA CITY

HEADING FOR MONDAY SPLASHDOWN

Moon Men Homeward Bound

By PAUL RECER
AP Aerospace Writer

SPACE CENTER, Houston (AP) — The Apollo 12 moon explorers streaked homeward today as earth's gravity pulled their Yankee Clipper spaceship faster and faster toward Monday's splashdown.

Charles "Pete" Conrad Jr., Richard F. Gordon Jr. and Alan L. Bean, weary from their successful lunar excurions, were allowed to sleep as long as they liked.

They went to sleep shortly after firing a powerful rocket burst, behind the moon Friday to break the lunar gravitational embrace and plunge earthward.

Mission Control let the Apollo 12 crew sleep for almost 12 hours, the longest rest period so far of the trip. Shortly after 7 a.m. there were signs of activity in the capsule and Mission Control beamed them a taped recording of "wake up music."

Conrad replied by turning on his own recorded music for what the ground communicator called "a little bit of a battle of bands."

About half an hour later the Astronauts fired a two-second rocket burst to change the spacecraft's course slightly. The end effect of the burn was to make the scheduled splashdown one minute later than originally scheduled.

While they slept, the Yankee Clipper came under the dominance of earth's gravity. The spacecraft picked up speed and was to be 200,000 miles from earth by mid-morning today, moving at more than 2,000 miles an hour.

Apollo 12 will continue to gain speed until Monday afternoon when it sears into the earth's atmosphere at 36,000 miles an hour and parachutes to a landing in the Pacific Ocean near American Samoa.

On their 45th orbit of the moon, the astronauts fired their powerful rocket engine. The rocket firing occurred behind the moon and as the spacecraft reappeared it was fleeting homeward at more than 5,000 miles an hour.

Gravitational pull of the moon slowed it until about 10 p.m., EST, when the earth's gravity took hold and Apollo 12 started down hill toward home.

Conrad and Bean described their moon adventures during a final television close-up of the moon after they left its orbit.

Conrad said he landed so near the planned place that "I gave myself quite a thrill."

Bean said that walking in the reduced gravity of the moon's surface was a funny thing. "Your legs never seem to get tired," he said. "You assume some kind of normal pace and you're able to go for long distances without your legs getting tired."

"I found I couldn't walk," said Conrad. "Wherever we went we loped, and it just didn't seem natural not to lope."

Get Oil Out Group Stage Fish-In

By RICHARD E. MEYER
Associated Press Writer

SANTA BARBARA, Calif. (AP) — Sun Oil Co. fished for a 15,000-ton drilling platform today a half-mile from where conservationists were holding a fish-in to protest its installation off their once oil-smeared shores.

The company sent a team of divers down overnight to see if the top of the 230-by-150-foot steel skeleton was damaged when it sank topsy turvy in the Pacific Friday afternoon.

Company spokesman said improper balance caused it to flip when workmen slid it off a barge. Its eight legs were poking from the ocean's surface six miles offshore.

"It's top might have been dented if it hit the bottom," a Sun spokesman said. "Or it might have been hung up on the bottom. It's in 195 feet of water."

Whether the top was damaged will determine how soon workers can place the platform a half-mile east of a similar rig where an oil well blew out last January, polluting the sea and beaches.

Fearing the new platform means increased chances for another blowout, members of a citizens' committee to Get Oil Out (GOO)) began the fish-in Thursday. "We'll hold out," said GOO chairman Al Weingand.

Eight to 10 boats have taken turns anchored around the clock on the proposed drilling site in an effort to impede the company when it tows the platform into position. The boatsmen held fishing poles over the side with lures on the lines. Only one reported catching anything.

The Sun spokesman said his company was "hopeful they (the protesters) will be mature and reasonable and understand that we're working with 15,000 tons of equipment.

Apollo 12 Highlights

SPACE CENTER, Houston (AP) —Here are the highlights of the ninth and tenth days of Apollo 12's moon landing mission, all times Eastern Standard:

Saturday, Nov. 22:

10:22 a.m.—Astronauts Charles Conrad Jr., Richard F. Gordon Jr. and Alan L. Bean start one-hour meal period. Little activity planned remainder of the day as spacemen relax.

2:22 p.m.—Gordon starts navigation experiment, trying to determine Apollo 12's exact location in space by sighting star angles through a sextant.

4 p.m.—Beginning of 1½-hour meal period, followed by 10-hour rest.

Sunday, Nov. 23:

3:30 a.m.—Astronauts awaken and begin 1½-hour meal period.

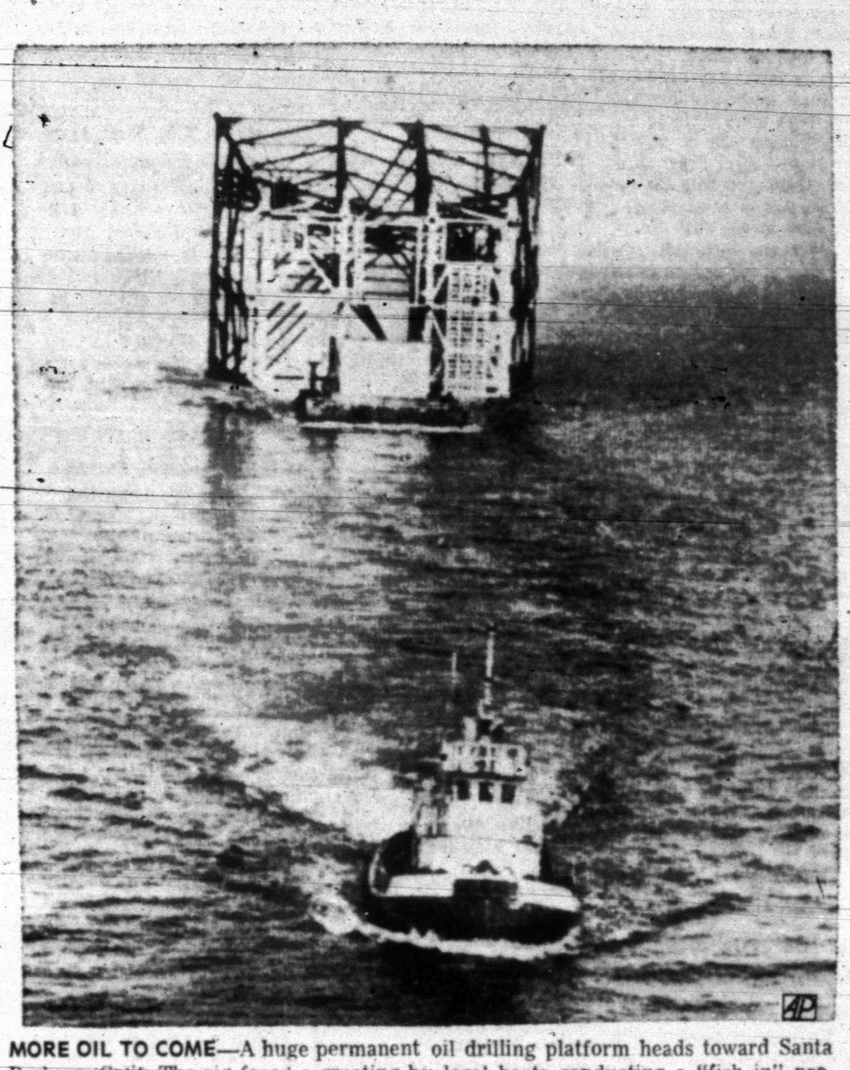

7:22 a.m.—Gordon performs more navigation experiments, measuring star angles with spaceship sextant.

10:22 a.m.—One-hour meal period begins.

12:22 p.m.—Gordon conducts more star-sighting experiments.

5:44 p.m.—Yankee Clipper's main engine triggered to make homeward course more precise.

6 p.m.—Start of 1½-hour meal period.

MORE OIL TO COME—A huge permanent oil drilling platform heads toward Santa Barbara, Calif. The rig faced a greeting by local boats conducting a "fish in" protest to delay setting it in place. (AP Wirephoto)

Nixon Will Press Fight For Balance

By JOHN CHADWICK
Associated Press Writer

WASHINGTON (AP) — President Nixon says he will press his fight "to restore the proper balance" to the Supreme Court despite the Senate's 55-45 rejection of his nomination of Judge Clement F. Haynsworth Jr.

But the President will wait until after Congress opens its new session in January to submit another nomination. Any nomination sent to the Senate this year would automatically lapse when the current session ends next month, unless confirmed before adjournment.

The vote Friday, which climaxed a bitter three-month struggle over judicial ethics and philosophy, was Nixon's most severe congressional defeat since he took office.

It is only the second time this century that the Senate has voted to reject a Supreme Court nomination. The last time was in 1939 when President Herbert Hoover's choice of Judge John J. Parker lost by two votes.

Joining 38 Democrats in voting against confirmation were 17 Republicans, including GOP Leader Hugh Scott of Pennsylvania and Assistant Leader Robert P. Griffin of Michigan.

Twenty-six Republicans voted to confirm Haynsworth's nomination, as did 19 Democrats. All the Democrats were southerners except Mike Gravel of Alaska and West Virginia's two senators, Robert C. Byrd and Jennings Randolph.

From his home in Greenville, S.C., Haynsworth said he would have to consider "whether my usefulness has been so impaired" that he would resign as chief judge of the U.S. 4th Court of Appeals. Haynsworth said he would not decide "in the emotion of the moment."

Nixon telephoned Haynsworth after the vote and told him he hoped he would stay on as chief judge of the appellate court.

Sen. Roman L. Hruska, R-Neb., who directed the floor fight for the nomination, told reporters that in his judgment the 57-year-old jurist would have been confirmed if it had not been for labor opposition.

Moderate Increase Seen In Farm Jobs

AUSTIN (AP) — Almost 3,000 more farm jobs were filled in October than the previous month, the Texas Employment Commission said Saturday.

The commission said the "moderate increase ... was caused by a pickup in vegetable cultivation activity, and by the early citrus fruit harvesting in the Lower Rio Grande Valley."

Non - farm job openings in October declined by 6,727 to 50,039, and non - farm placements in October dropped by 3,604 from September to 38,219. These declines were regarded as normal and seasonal, the TEC said.

Many Vote Early In College Election

Scurry County voters were turning out in substantial numbers during early polling hours Saturday, as balloting was underway on a proposal to establish a public junior college here.

Several polling places, including those in Snyder, had a brisk demand for ballots soon after the polls opened at 8 a.m.

Voters in the county were called upon to make decisions on four issues, all essential to the creation of a junior college district. These included a proposal to create the district itself, name a seven - member board of trustees, establish a maximum tax rate for the district, and authorize a $3¼-million bond issue to finance facilities for the college.

Authority to hold the election was granted last Oct. 20 by the Coordinating Board of the State College and University System. The approval of the Scurry County application for a junior college election came on the fifth attempt in 12 years by local groups.

The application this year, as in the past efforts, was handled by a steering committee organized through the Snyder Chamber of Commerce.

A number of local organizations endorsed the junior college proposal and many had members working to get out the vote for the election Saturday. Jaycees and Jaycee - ettes were taking the lead in these activities, and Jaycees were furnishing transportation to the polls for any voters requesting it Saturday.

CRMWD System Near Completion

Events are moving rapidly toward activation of the Colorado River Municipal Water District's new supply system by Jan. 1.

Construction of a temporary dam across the Colorado River just below the Robert Lee pump station is due to be completed early this week. Meanwhile, order has been placed for a high velocity, low - head pump to boost water from the river into a 10,000 foot canal so that it will be behind the temporary dam. O. H. Ivie, general manager of CRMWD, explained that the lift is being effected because Lake E. V. Spence has not yet impounded sufficient water to submerge the main pumps. The target is to begin this operation by the middle of December.

Although H. B. Zachry Company is engaged in crossing at Red Draw some of the most rugged country in the experience of seasoned pipeliners, prospects are excellent that the contractor will complete laying the remaining six miles of 42-in. supply line to the pump station by the end of the first week in December. About two miles of the job is in country that resembles a toboggan slide, but the remaining four will be relatively smooth sailing.

One pump has been set at the Big Spring station, and others are now enroute from the factory for delivery to the Lake Spence, Spade, Moss Creek and Martin County stations. While some few pumps may not be delivered until late January, the essential ones will be on hand to deliver up to 17,000,000 gallons a day by Jan. 1 said Ivie.

On behalf of CRMWD, Ivie made the final inspection Friday on the Robert Lee dam and its works and accepted them from the contractor, Clement Bros.

South Viets Say Reports Inaccurate

By BILL NEIKIRK
Associated Press Writer

WASHINGTON (AP) — The Army says 24 U.S. soldiers and former servicemen, in addition to an officer and staff sergeant already charged, are being investigated in the alleged murder of approximately 100 Vietnamese civilians in 1968.

But the South Vietnamese Defense Ministry in Saigon said today there was no massacre, that U.S. artillery and air strikers had killed "about 20 civilians" in a batile which claimed 125 Viet Cong.

Referring to me accounts being carried in the U.S. and foreign press, the South Vietnamese agency said: "Reports from newspapers and foreign news agencies recently that said 527 civilians were killed were completely inaccurate."

Pentagon spokesmen here had no comment on the Saigon announcement and indications were it caught them by surprise.

In reference to the March 1968 raid near a hamlet known as My Lai, the Army said: "During the operation a small group of American soldiers reportedly shot many (possibly 100) Vietnamese civilians."

The Army said that Lt. William L. Calley, 26, now stationed at Ft. Benning, Ga., was charged in the incident and a decision would be made etarly next week whether he will face court martial. Calley was leader of a unit involved in the operation.

A staff sergeant, David Mitchell, 29, of St. Francisville, La., has been charged with assault to commit murder.

Robert E. Jordan III, the Army's general counsel, said that another nine men still in the service and 15 others who have been discharged since the raid are under investigation.

"Whether a crime was committed and who did it will be the two big issues if there is a trial," Jordan said.

The Army statement said that after the alleged massacre in Quang-ngai Province, "the area returned to Viet Cong control."

DEAR ABBY: My problem is a young neighbor I'll call Mary. She's a very polite and quiet thing, but not too bright. Mary says I remind her of the mother she "never knew" because she was orphaned as a small child. She is expecting a baby, and I feel sorry for her, so I make her welcome and try to be good company for her, but I keep wishing she would go home so I could get my work done.

There are other neighbors all around us, most of whom are nearer to Mary's age, but Mary comes only to me. Is there some nice way I can tell her not to come so often and stay so long?

BUSY HOUSEWIFE

DEAR BUSY: Probably not. Be glad that you are the one who is able to bring comfort to one who so desperately needs it. There are worse things in life than being kept from one's work, you know. Namely, finding yourself neither wanted, needed, or contributing to the happiness of another. Continue to extend your kindness, and make Mary welcome. When her baby comes, she won't have so much free time.

* * *

DEAR ABBY: I have been married for a little more than a year and a problem came up which has me completely baffled.

Last night my husband told me that I had to make a choice between HIM and my girl friend. Abby, Jenny has been my best friend all thru school. She stood up for me at my wedding, and I stood up for her at hers. We are as close as sisters, and I can't see ending our friendship just because my husband doesn't like her.

He refused to give me any reasons why he doesn't like her. He just says it's a choice between HIM or Jenny!

Knowing that my husband didn't especially care for Jenny, I've never asked him to socialize with Jenny and her husband in the evenings. I see Jenny only during the day time when my husband is at work.

So what is your advice? Don't tell me to try to talk to him. I have, and he walks out of the room.

BAFFLED

DEAR BAFFLED: I don't know how old your husband is, but he has a lot of growing up to do. Tell him that unless he gives you a better reason for insisting that you end your friendship with Jenny, you intend to continue the friendship. And if he would terminate your marriage on such flimsy grounds, either he is looking for an excuse to do so, or something is wrong with him.

* * *

DEAR ABBY: Re "BROKE, HEARTBROKEN, AND ALONE," whose military husband has dumped her:

First, she has free access to the legal office of ANY military installation. Altho these attorneys cannot represent clients in civil court, they can certainly give her sound guidance and counsel.

Also, ANY chaplain of ANY base will help her. The old joke, "Tell it to the chaplain" is more than a joke. It's true.

BEEN THERE

* * *

CONFIDENTIAL TO D.D.L.: One who tells a mentally disturbed person to "snap out of it — you can cure yourself," is as guilty as he who tells someone who is bleeding to death to ignore the bleeding — it will stop itself. Even a psychiatrist cannot be his own psychiatrist.

* * *

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

* * *

Hate to write letters? Send $1 to Abby: Box 69700, Los Angeles, Cal. 90069, for Abby's booklet, "How to Write Letters for All Occasions."

Officers Elected By Inadale 4-H

The Inadale 4-H Club met Nov. 17 and elected new officers for the 1970 year. They are:

Charles Kuss, president; Jimmy Wemken, vice president; Jerry Wemken secretary-treasurer; Steve Riemer, reporter.

Other members present were Mike Kruger, David Riemer, Bruce Hess, Alfred Martinez, Roy Martinez, and the 4-H leaders, Walter Stirl and Doyle Wemken.

The Christmas party was discussed as well as programs for the coming year.

Bruce Hess served refreshments.

Rites Held For Johnston Infant

Graveside services were conducted at 4 p.m. Saturday for the infant son of Mr. and Mrs. Fred Johnston, of San Angelo. The infant died a few hours after birth Friday.

Rev. Robert McArthur, pastor of First Christian Church, officiated. Burial was in the Hillside Memorial Gardens, under direction of Bell - Seale Funeral Home.

Survivors include the parents, maternal grandparents, Mr. and Mrs. Otto W. Longlois of Weslaco and paternal grandparents, Mr. and Mrs. Dale Johnston of Snyder.

Texas Wildcatters Keep Steady Pace

AUSTIN (AP) — Wildcatters kept up a steady pace of success in Texas the past week, reporting seven oil and 14 gas discoveries, the Railroad Commission said Saturday.

Two oil finds each were recorded in San Antonio Dist. 2, Kilgore Dist. 6 and the Wichita Falls District, with one in the Midland District.

Five gas discoveries each were located in San Antonio Dist. 2 and Kilgore Dist. 6, four in the Corpus Christi District and one each in the Houston District and Kilgore Dist. 5.

The exploration activity brought the year's totals to 337 oil finds and 554 gas discoveries, compared with 342 oil and 387 gas wildcats during the same period of 1968. Dry holes by wildcatters also were up, from 1,474 to 1,842.

A total of 96 oil and 64 gas wells were completed, bringing the year's totals to 4,569 oil and 2,128 gas wells, compared with 4,517 oil and 3,974 gas completions last year by this time.

Crews plugged 161 wells, including 56 dry holes.

Hathaway's Cottage Damaged By Fire

STRATFORD-UPON-AVON, England (AP) — Anne Hathaway's cottage, the traditional 16th century farmhouse home of William Shakespeare's wife, was damaged by fire early today.

The blaze began in a ground floor room and spread to the thatched roof before 40 firemen brought it under control.

Dr. Levi Fox, director of the Shakespeare center, said the most historic part of the cottage had been saved. The house was occupied only during the day, when visitors were given tours.

Letters To Editor

To the Daily News:

Last week I was fortunate enough to accompany Mr. J. M. Kayser to New Orleans, La., for the National Convention of the Head-Start and Child Development Programs in our Country.

To be sure, the Conference, as a whole, was enlightening, fruitful and educational. Doctors John McDavid of the University of Miami and Dr. Rachel Weddington of Queen's College, challenged the national reports on the failure and inefficiency of these programs in the Country. It was the general feeling of the conferees that the programs have been in operation for too short period of time and it is impossible to have a sound and scientific judgment about their results.

Nevertheless some of their shortcomings were clear. Too much of the Federal Money is spent for agencies which seem to spend their time in unnecessary competitions hurting the half million children enrolled on these poverty programs from Alaska to Rio Grande and from Puerto Rico to Guam.

And this is the reason why I came back more satisfied and happy when none of these national problems can be noticed in our Head - Start Program of Snyder. Compared with the national average of achievement I would dare to say that Mr. J. M. Kayser and his staff deserve all the admiration and praise of our community for their dedication and service to the culturally deprived children of Snyder who need help desperately.

I am hopeful that if one day the Federal Program of the Head-Start come to fail in our city, the Snyder Independent School District will take the burden of continuing the program as a community project to help the children who need education and school more than bread and shoes and Christmas gifts in our community.

At the moment, as a practical result of my attending the National Convention of the Child Development, I dare to say that our town owes a tribute of respect and admiration to Mr. J. M. Kayser and his staff because only with people like these our communities can be better and America will be great.

Rev. Herman Valladares, B. S., M.A.

Two Ira Students Get Scholarships

LUBBOCK — Two students from Ira were recognized with scholarship awards at the annual Texas Tech Annual Pig Roast.

The four-year Clabber Hill Ranch Scholarship went to Richard A. Sterling and the freshman Clayton Fund Scholarship went to Terry Neal Sterling.

L. D. (Con) Anderson, C. G. (Charlie) Scruggs and John C. White were honored as outstanding leaders in Texas agriculture, as producer, agri-businessman and public servant, respectively.

Suez Canal Site Of Artillery Duel

By THE ASSOCIATED PRESS

Egyptian guerrillas crossed the Suez Canal today, ambushed an Israeli army patrol and touched off an artillery duel across the canal, spokesmen in Tel Aviv reported.

Three guerrillas were killed and one Israeli wounded, the spokesmen said.

The Israelis said the guerrillas landed about eight miles north of Ismailia in the central sector of canal and opened up with bazooka fire on the patrol. When the Israeli soldiers fired back, Egyptian cannon began firing across the canal. The Israelis returned the fire, and the exchange lasted about 3½ hours, Tel Aviv said.

A report from Cairo said 60 Egyptian commandos crossed the northern part of the canal today under cover of an artillery exchange, ambushed an Israeli tank position, and killed a number of Israelis who "attempted to flee."

The Middle East News Agency said the commandos destroyed three antitank guns and damaged two. It said they "successfully accomplished their mission and returned to base minus three members."

In the Israeli city of Haifa, police arrested seven Arabs today in connection with the bazooka shelling of an oil storage depot Friday night. The shells hit two 1,000-ton diesel tanks and exploded, but the oil did not catch fire.

In Beirut, Lebanese President Charles Helou said Lebanon has never relented in its support of Palestinians struggling to regain their rights.

In a speech commemorating the 26th anniversary of Lebanon's independence today, Helou also said Beirut would be represented at the Arab summit meeting scheduled next month in Morocco because "differences in regimes should not obstruct the common defense against a common enemy."

He said Lebanon was observing its independence day in an atmosphere of suffering and anxiety because of "the tragedy which started in Palestine 20 years ago and inevitably hit all Arab countries bordering it with equal violence but in different forms."

Suspension Appeal To Be Considered

AUSTIN (AP) — State senior college regents will consider an appeal Nov. 24 of 10 Southwest Texas State University students who were suspended for refusing to stop an anti-war demonstration last Thursday.

Harold Marburger, the board's executive director, said the meeting was called "on an emergency basis for urgent public necessity."

Marburger said Dr. Billy M. Jones, university president, requested the meeting to consider the students' appeals.

A student - faculty review board upheld the administration's decision to suspend the students Tuesday.

Wednesday, the students sued in federal court here, asking that the administration be restrained from suspending them and claiming $100,000 in damages.

The students were suspended until the fall 1970 term after refusing to disband a moratorium sit-in. The administration had denied a permit for the demonstration.

3 Jailbreakers Still At Large

GALVESTON, Tex. (AP) — State officers warned Central Texas residents today to take all precautions to prevent capture of their homes by three fugitives. The three killed one man, wounded a hostage and still control three persons they kidnaped.

The breakout of the desperate men occurred Friday from the Galveston County jail.

Late reports indicated they were somewhere in Central Texas.

The Department of Public Safety warned citizens that the three stated they planned to hole up in captured homes in daylight and to flee at night.

A deputy they wounded and left for dead thumbed a ride to town and directed searchers to the body of a fourth fugitive who had been slain at the time the deputy was wounded.

The fugitives were believed to be holding three hostages as hundreds of peace officers joined in a manhunt spreading over South Central Texas.

State police identified the dead man as Joseph McMahon, 18, one of five men who overpowered a guard and escaped from the Galveston County jail early Friday. Another of the five surrendered earlier, leaving three still at large.

Sheriff's officers in neighboring Fort Bend County were directed to McMahon's body beside a rural road east of Sugar Land, 65 miles northwest of Galveston, by wounded deputy Bob Williamson, 28, who was taken captive as the escapees fled the jail.

Capt. D. S. Tramonte Jr. of the sheriff's office here quoted Williamson as relating that the fugitives shot him and McMahon and dumped them from a car about midnight, believing both were dead. Williamson walked more than a mile before catching a ride into Richmond, just southwest of Houston.

Williamson, shot in the back and creased on the head by another bullet, was reported in fair condition at a hospital in Richmond, just southwest of Houston.

State police said that before the wounded officer was taken into surgery, he also was able to tell about the latest hostage seized by the jailbreakers, Mrs. Robert L. Nicholls, 38, of Dickinson.

With Williamson and three other captives in tow, the deputy said, the escapees broke into the Nicholls home at Dickinson Friday morning and spent a good part of the day there while peace officers hunted for them in vain.

Sheriff's deputies went to the home early today and found Nicholls and Edward Mueller, 67, a hostage seized in Galveston, both securely tied. Nicholls' mother Clara, 81, was left unbound. All were said to be unharmed.

Williamson was quoted as saying that the fugitives—one a convicted murderer and the other two charged with murder—threatened repeatedly to kill their hostages and any officers they sighted.

Others held captive by the fleeing men were Irene Alexander, 25, a Texas City beautician, and her son Tommy, 12.

Officers identified the men at large as William "Butch" Ainsworth, 25, and Ronald Roper, 20, facing a charge of murder with malice in the fatal beating of a man in Galveston last August; and Carl Bruce Harris, 23, of Bacliff, held while appealing a death sentence for the knife slaying of his foster mother, Mrs. William Norwood, 52, of Houston, and a friend at Bacliff in 1967.

The other prisoner who escaped but later gave himself up is George Earl Howard, 26, who was found at his parents' home in Texas City. He had been in jail on a charge of robbery by firearms.

Kulikov Named As Soviet Commander

MOSCOW (AP) — Tass has disclosed that Col. Gen. V. G. Kulikov has been named commander of Soviet troops in East Germany. He is a former commander of the important Kiev military district in the Soviet Ukraine.

Paintings Stolen From NY Gallery

NEW YORK (AP) — Seven paintings valued at more than $500,000 have been stolen from a Manhattan gallery while the gallery owner was discussing art thefts with other dealers.

Art dealer Stephen Hahn said Friday that the impressionist and post-impressionist paintings were taken Wednesday night from his gallery on Madison Avenue.

Basing his judgment on their failure to take several avant-garde paintings, including one by Picasso, Hahn described the thieves' taste in art as "conservative."

One of the stolen paintings, a narrow oil of water lilies by Claude Monet, was worth "more than $100,000," he said.

The paintings apparently were stolen when Hahn was at a meeting of the board of directors of the Art Dealers Association of America.

"The main subject we discussed was the thievery that has been going on in New York lately," he said.

Hahn said the thieves apparently picked a lock that he had thought was "unpickable" and forced a second lock to open the gallery door.

Course Completed By Airman Davis

WICHITA FALLS — Airman Darrel W. Davis, son of Mr. and Mrs. Melton E. Davis, Star Route, Ira, has graduated at Sheppard AFB, from the U. S. Air Force medical services specialist course.

The airman, who was trained to assist in the care and treatment of patients, is being assigned to Lackland AFB, Tex., for duty with the Air Training Command.

Airman Davis is a 1968 graduate of Borden High School in Gail.

THANKSGIVING

BUFFET TABLE — A delectable turkey dinner with all the trimmings was served buffet style from this impressive table. Partaking of the food are Mrs. Myron Roe, member, Mrs. Floy Smith and Mrs. R. A. Hardee, guests, and Mrs. Ben Thorpe, vice president.

HOLIDAY SCENES such as the one on this table were in array at the Thanksgiving dinner of Art Guild Study Club. Pictured above from left, Mrs. Clarence Moore a guest, Mrs. Charlene Morris a guest, Mrs. Horace Williamson, corresponding secretary and Mrs. Frances Brown, a guest.

The Art Guild Study Club entertained guests at their annual Thanksgiving dinner Tuesday evening, at the Martha Ann Woman's Club. The hostesses, Mrs. Hugh C. Lowry and Mrs. R. V. Williamson had used the seasonal Thanksgiving theme jointly with the patriotic theme in decorating the tables. Thirty-three members and guests enjoyed a traditional turkey dinner.

Mrs. Travis Rhoades spoke on the topic, "Three Freedoms," as it applies to this tense and explosive world in which we live. She said in part: "This is the time for being grateful for one of the greatest possessions mankind can have - FREEDOM. In appraising our position we must express thanks for the infinite variety of blessings that have been showered upon this land and on our generation. But, now, we face the supreme test of whether these things which are ours, this freedom which is ours, can be preserved for ourselves and our children. Today we have deep seated conflicts in our values of freedom, both personal and professional. We are in a period of transition and rapid change. In the light of these facts, the responsibilities transmitted from the home and placed upon the schools and churches of our nation assume frightening proportion. Not only must today's teachers and ministers assume their own roles, but also the roles of doctors, nurses, counselors, police and parents as well. What we need in these United States today as never before is nationalism, patriotism, morality, courage and religion, and these should start in the home."

* * *

Harvest celebrations of Thanksgiving date back to Biblical times. In this century, we can credit the Pilgrims for creating the feast as we know it — from cranberry sauce to roast stuffed turkey and pumpkin pie — and President Lincoln for making Thanksgiving a national holiday.

Despite its "Americanization," our Thanksgiving still includes traditions borrowed from many countries.

Thanksgiving turkeys were roasted in the homes of the pioneers and the colonists in the days when Thanksgiving turkeys were "invented."

After the turkey was dressed it was put on a stick about the size of a ramrod, cut from an oak tree, and the ends of the stick were rested on a pile of rocks at either end of the fireplace. Two young children were usually there, not simply to see the turkey roast, but also to see that it didn't burn. It was their business to turn the bird from time to time, so that it would be done nice and brown.

The Puritans had Thanksgiving because they almost starved.

That is the way one of the boys at Plumfield Farm School, in Miss Alcott's story of "Little Men" accounted for our beautful autumn festival. Everyone laughed and got more turkey. Everybody at the table had grown or raised or gathered something for the dinner. That was just like the first Thanksgiving in Plymouth Colony in 1621. After much suffering and privation the Puritans had their first bountiful harvest in America. So they set aside a day of thanksgiving of solemn prayer and feasting.

While Thanksgiving is a purely American festival, yet it is based on the feast of the ingathering of the ancient Hebrews, and the harvest home supper of Merrie England. For nearly two hundred years the day was kept only in New England, each colony observing any day that was most convenient. Among the strict Puritans who kept Christmas as a day of fasting and prayer, Thanksgiving was the outlet for social pleasure. The custom was spread westward by pioneers from the east, and everyone took kindly to it.

During the Civil War a day of national thanksgiving was first proclaimed. Now the President appoints a day. By custom it has become the last Thursday in November. Thanksgiving Day is a legal holiday by annual proclamation.

All over our country it is observed by church services in the morning, by family reunions and by bountiful dinners.

"Some more turkey, please!"

LITTLE RED SCHOOL HOUSE—Mrs. Hugh C. Lowry, left, parliamentarian of Art Guild Study Club made this authentic little red school house used in the cleverly decorated auditorium Tuesday evening. Others pictured are Mrs. Bill Teaff, club president, Mrs. Travis Rhoades, program chairman, and Mrs. R. V. Williamson, treasurer.

STARS AND STRIPES — In keeping with the patriotic theme this colorful display was seen. Pictured from left, Mrs. Raymond Robinson a guest, Miss Vera Periman, a guest, Mrs. Dell Smith, corresponding secretary, and Mrs. J. P. DeShazo, who participated in the program.

MRS. GARY BOYD CUMMINGS
(Photo by Craft Studio)

Miss Carpenter, Mr. Cummings Wed In Church Of Christ Ceremonies

Double ring vows exchanged in the Thirty-seventh Street Church of Christ November 21 at 8 p.m. united Miss Sylvia Ann Carpenter and Gary Boyd Cummings of Lazear, Colorado in marriage. Mr. Arvid K. McGuire, pastor of North Park Church of Christ, Abilene, officiated.

Brass candle holders holding white tapers accented with greenery and a large brass stand entwined with greenery held the memory candle in the church decor.

The musical program included the ACC Acappella Chorus and solos by Robert Hunter.

Parents of the couple are Capt. and Mrs. Edgar Franklin Carpenter, 2805 Denison, Snyder and Major and Mrs. Marshall Cummings of Fort Worth.

Given in marriage by her father, the bride wore a candlelight peau de soie gown fashioned with lace and pearl accents on the long sleeves and neckline, and short train. Her tulle veil was held in place by a pearl and lace flower headpiece. She carried a cascade arrangement of pink Sweetheart roses and Stephanotis atop a white Bible.

Miss Bonnie Summers of San Antonio, a college roommate, was maid of honor. She wore a light green peau de soie gown. A dark green velvet whimsy adorned her head. She carried pink sweetheart roses and white carnations.

Mr. Bruce Terry of Abilene was best man.

A candlelight reception was held in the home of the bride's parents. The white lace covered table held an arrangement of pink and white mums flanked on either side by tall white tapers. Mrs. Seabourn Eicke presided at the punch and Mrs. Earl Williams served the two-tier wedding cake that was topped by a miniature bridal couple. Mrs. Cynthia Darlin, cousin of the bride, and former Snyder resident, presided at the registry.

For her wedding trip the bride chose a long sleeve blue wool dress with black patent accessories.

The couple will make their home at Route 1, Hotchkiss, Colorado.

The bride attended Abilene Christian College for four years and was co-leader of Campus Christian Women from 1968-69. The groom is a graduate of ACC with a B. A. in Bible. He preaches for the Church of Christ at Lazear, Colorado at the present time.

Out-of-town guests were from Colorado, Fort Worth, Abilene, Lubbock and Cleburne. The occasion was also the birthdate of the bride's father.

WOMEN's CALENDAR

MONDAY

Zeta Lambda Chapter of Delta Kappa Gamma Thanksgiving dinner at American Restaurant. Hostesses Durelle Gorman, Carol Miller, Bobbie Combest and Maribeth Vestal.

Rebekah Lodge meets at IOOF hall at 7:30 p.m.

Mrs. Holladay Hostess To AAUW Meeting

The American Association of University Women held their monthly meeting at the home of Laura Holladay Thursday evening.

Mr. George Lee, superintendent of Snyder Water and Sewage Dept. was guest speaker. Mr. Lee gave an explanation and showed a diagram of the water treatment plant. He said the city sells only service, and urged all to visit the plant. The talk proved to be both interesting and informative.

A short business meeting was held. Ramelle Parsons, a teacher at Northeast Elementary was a guest.

Following the meeting a white elephant auction was held, with proceeds going to the American Field Service.

About 1,700,000 vacationers visit Mount Rushmore annually.

JANUARY WEDDING PLANS — Mr. and Mrs. Gene Thompson, 2803 Thirty-third Street, announce the engagement of their daughter, Jeannine, to Dennis Allen Gorden, son of Mrs. C. D. Gorden of Kathy, Texas. Vows will be exchanged on January 10, 1970 at Colonial Hill Baptist Church. (Photo by Craft Studio)

Robbin Finley, Frank Platt Marriage In Weatherford

Miss Robbin Finley and Frank Don Platt, both of Weatherford, were married in a double ring ceremony Saturday, October 18 at 7:30 p.m. in the Massie House, 411 Palo Pinto, Weatherford Texas.

Parents are Mr. and Mrs. Jack Finley, formerly of Snyder, and Mr. and Mrs. Richard Platt, all of Weatherford.

Mr. Joe Griffin, pastor of the Northside Baptist Church, performed the ceremony before an arch draped in two shades of pink accented with roses and flanked by twin candelabras. Mrs. John Brown accompanied Mrs. Roy Glenn, who sang "Because," "Whither Thou Goest" and "O Perfect Love."

The bride given in marriage by her father, wore an empire gown of peau-de-soie with the bodice accented with Chantilly lace and seed pearls. Lace appliques with seed pearls accented the pointed sleeves of the gown. Hr double veil of illusion fell from a floral headpiece. The floor length veil and elbow length veil were bordered with lace, pearls and lace appliques. The gown was designed and made by the bride's mother.

The bride carried a bouquet of miniature carnations and baby breath surrounding an orchid carried atop a white Bible.

Mrs. Fred Finley of Lubbock, the bride's sister-in-law, was matron of honor. She chose a floor length gown of hot pink peau de-soie in empire styling. She carried a candle surrounded by pink carnations. Miss Penny Hott of Weatherford was bridesmaid. Her dress was of light pink peau de soie with empire styling. She also carried a candle surrounded by carnations.

Acting as best man was Doug Shaw. Groomsman was Randy Mayo, brother-in-law of the groom. Ushers were Ronnie Carter, Joe Gonzales of Fort Worth and Curtis Johnson Jr., cousin of the groom.

A reception followed the ceremony at the Massie House. Members of the houseparty were Debbie Platt, sister of the groom, Cynthia Franklin and Susan Wells at the guest book.

The bride, a graduate of Weatherford High School, attended Weatherford College. She is employed as secretary for Fulgam - Grogan - Vick Law Office. The groom also a Weatherford High School graduate is a reservist at Carswell Air Force Base in Fort Worth. He attended Weatherford College.

For a trip to points in South Texas, the bride wore a navy blue coatdress with red patent accessories.

The couple reside on the Dicey Road, Weatherford, Texas.

The grooms parents hosted the rehearsal dinner October 17 at their home.

THANKSGIVING HOLIDAYS

DECEMBER WEDDING PLANS — Mrs. Anna Lee Moore of Fort Worth announces the engagement of her daughter, Sheryl Ann Moore to Orville Philip Moore of Amarillo, formerly of Snyder. Mrs. Orville Moore, 4000 Kingston, Amarillo, is mother of the prospective groom. Wedding vows will be exchanged December 20 at 8 p.m. in Paramount Baptist Church of Amarillo.

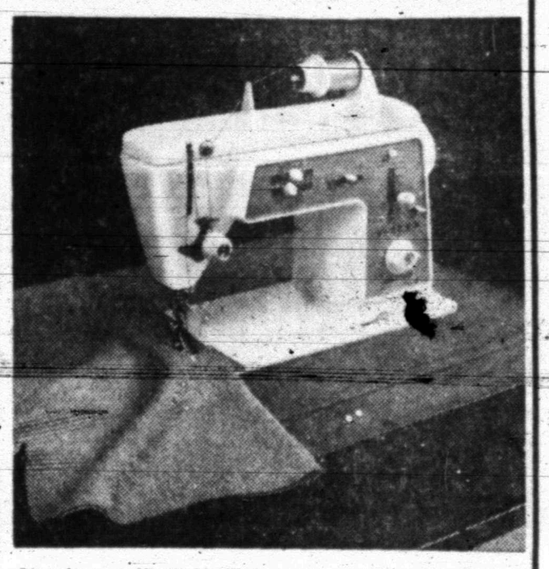

Ladyfinger Cake

1 package (regular size) vanilla pudding
2 cups milk
¼ pound (1 stick) butter or margarine
12 ladyfingers, split
3 tablespoons brandy
1 can (6 ¾ ounces) coctail peanuts, ground
Whipped cream and sliced strawberries

Empty pudding into saucepan. Slowly add milk, stirring to keep smooth. Cook over medium-high heat, stirring constantly, until pudding comes to a full boil. Add butter, stir until melted and well blended. Cover surface with plastic wrap and chill. When pudding is chilled, line a loaf pan (8 ½ by 4 ½ by 2 ⅝ inches) with wax paper. Cover bottom of pan with one layer of split ladyfingers. Sprinkle with 1 tablespoon brandy. Fold ground peanuts into pudding. Place half of mixture in loaf pan. Cover with layer of split ladyfingers and sprinkle with 1 tablespoon brandy. Repeat with remaining filling, ladyfingers and brandy. Refrigerate overnight. When ready to serve, unmold and remove wax paper. Garnish with whipped cream and strawberries. Cut into slices to serve. Makes 8 servings.

ENGAGEMENT ANNOUNCED — Mr. and Mrs. Leaman R. Wilburn, 3717 Sunset, announce the engagement of her daughter, Carolyn Sue Tyree, to Larry C. House, son of Mr. and Mrs. Raymond House, 2806 Thirty-third Street. The wedding date has been set for December 20th at Trinity Methodist Church. (Photo by Craft Studio)

WEDDING PLANS — Mr. and Mrs. J. R. (Wayne) Jones, 3608 Hill Avenue, announce the engagement of their daughter, Vicki Lynn Jones, to Donnie Blacklock of 708 Twenty-fifth Street. Mr. and Mrs. Billy Blacklock of Justiceburg are parents of the prospective groom. The couple will exchange vows December 20th in the home of the bride's parents.

When selecting makeup, be sure that it matches your face. Remember, the coloring of your face is different from your hand or wrist as your face is exposed to air and sun. One hint for removing makeup is to use cotton dipped in milk. It's a great cleanser and skin soother.

FALL FESTIVAL—The Northeast Elementary PTA will hold its annual Fall Festival on Tuesday, Nov. 25 at 7 p.m. in the speech-arts room. A prince and princess have been elected to represent each room, and a king and queen will be crowned at the festival. Pictured above are two teachers, Mrs. Jewel Summers and Mrs. Mary Lou Scott, along with students, Betty Lou Hook; Sammy Ortegon, Lola Alvariz and Mike Harvey admiring the crowns and robes.

Homing pigeons served with distinction in World War II. G.I. Joe, an American bird, delivered a timely dispatch that saved 1,000 British troops from bombardment. He received the Dickin Medal — the pigeon's equivalent of a Victoria Cross — in a Tower of London ceremony after the war.

Formal dedication of the West Texas Girl Scout Council Service Center (3165 South Twenty-seventh Street) in Abilene is set for Sunday, November 23rd, at 1:30 p.m. with Open House from 1-4 p.m.

All registered Girl Scouts and their parents are invited to attend.

* * *

Song & Game Workshop will be held Monday, Nov. 24th, at the Snyder Savings & Loan Community Room, from 9:30 until 12.

Mrs. Coleen Palmer from Colorado City, Mrs. Carol Schneider from Dyess AF Base, and Mrs. Jewel Jennett from Abilene, will give this training.

All leaders and assistants are urged to attend!

* * *

West Texas Girl Scout Council held its Board Meeting on Thursday evening, Nov. 20th, at the Sweetwater Country Club. Mrs. H. P. Redwine represents Snyder on the Board.

* * *

Brownie Troop 248 (Mrs. Carl Voss, Mrs. Joe Pate, Mrs. B. J. Hunter) met Tuesday at the Scout Hut.

Mrs. Hunter conducted the meeting on "Manners." This will be continued next week!

* * *

Brownie Troop 239 (Mrs. Don Head and Mrs. Maurice Scott) met Nov. 17th at the Scout Hut.

The Brownies finished their First Aid Kit they had started the week before. Then they learned a new game and sang some songs.

In their Brownie Ring the girls talked about plans for the weeks left before the Christmas holidays.

Calendars were handed out to be sold by the Brownies.

Refreshments were served by Vinita Dorman.

* * *

On Veterans Day, November 11th, two troops had a joint program at the Scout Hut. These were girls from Junior Troop 327 (Mrs. G. J. Nunley, Jr., Mrs. John Short, Mrs. Foy Nutt) and Brownie Troop 248 (Mrs. Carl Voss, Mrs. Joe Pate, and Mrs. B. J. Hunter).

Girls from the two troops did a Flag Ceremony together and Mrs. Short gave a talk about the meaning of Veterans Day.

* * *

Members of Cadette Troop 266 (Mrs. Franklin Pruitt and Mrs. Wesley Graves) have been doing some work on the grounds of the Scout Hut.

This is good project for our All America City!

Agriculture is still the nation's biggest industry. It employs more people than the steel industry, the auto industry, the utilities and transportation combined.

Gay 20's Set Can Good Drive

The Gay 20 Social Club will be knocking on the doors of Snyder residents Sunday afternoon asking for donations of canned goods for the needy for Thanksgiving. They have asked that persons open their hearts and be generous.

Mrs. McDowell Hostess To Hermleigh HD

The Hermleigh Home Demonstration Club met in the home of Mrs. W. E. McDowell recently. Roll call was answered by nine members.

Sandwiches, cake, coffee and cold drinks were served to Mmes. Frank Nachlinger, O.H. Hooper, Sam Houston, Minta Randle, Donie Anderson, E. E. Brock, Ben Henderson and the hostess.

Minta Randle received the hostess gift. Mrs. Sam Houston will host the next meeting with a Christmas party at her home.

Stuffed Fish

¼ pound (1 stick) butter
1½ cups (2 medium) chopped onion
½ cup dices celery
3 cups herb-seasoned bread stuffing (from an 8-ounce bag)
¼ cup water
¼ cup sliced pimiento-stuffed olives
¼ cup chopped dill pickle
4½ pound whole fish (such as whitefish), boned
Paprika

In a 10-inch skillet saute the onion in the butter. Add remaining ingredients, except the fish, and mix well. Stuff into body of fish; sew up or skewer closed. Rub top of fish with oil and sprinkle with paprika. Bake on oiled foil in shallow roasting pan in a preheated 400-degree oven until flesh is opaque through— 40 to 60 minutes. Makes 6 servings.

A record average of 182.5 pounds of meat (beef, veal, pork and lamb) was consumed by each person in the United States in 1968.

A relatively little-known fact about food nutritients is that some variety meats contain a considerable amount of vitamin C, or ascorbic acid. These meats are cooked liver, sweetbreads and brains.

Lose 10 lbs. in 10 days on Grapefruit Diet

HOLLYWOOD, CALIF. (Special) — This is the revolutionary grapefruit diet that everyone is suddenly talking about. Thousands of copies have been passed from hand to hand in factories, plants and offices throughout the U.S.

Because this diet really works. We have testimonials reporting on its success. If you follow it exactly, you should lose 10 pounds in 10 days. No weight loss in the first four days but you will suddenly drop 5 pounds on the 5th day. Thereafter lose one pound a day until the 10th day. Then you will lose 1½ pounds every two days until you get down to your proper weght. Best of all, there will be no hunger pangs. Revised and enlarged, this diet lets you stuff yourself with formerly "forbidden" foods, such as steaks trimmed with fat, roast or fried chicken, gravies, mayonnaise, lobster swimming in butter, bacon fats, sausages and scrambled eggs and still lose weight. The secret behind this "quick weight loss" diet is simple. Fat does not form fat. And the grapefruit juice in this diet acts as a catalyst (the "trigger"), to start the fat burning process. You stuff yourself on the permitted food listed in the diet plan, and still lose unsightly fat and excess body fluids. A copy of this startling successful diet can be obtained by sending $2 to

Citrus Diet Plan
5211 W. Jefferson
L.A. Calif. 90016

Money-back guarantee. If after trying the diet you have not lost 7 pounds in the first seven days, another 6 pounds in the next 7 days, and 1½ pounds every two days thereafter, simply return the diet plan and your $2 will be refunded promptly and without argument. Tear out this message as a reminder. Decide now to regain the trim attractive figure of your youth.

That's all I know how to say. But I can cry a lot. And gurgle. And even if I can't say things, I can think things. Nice things, like how much I love my fluffy pink blanket. And that corduroy thing they snap me into to play in. And that little dress with the smocking. (Everybody always kisses me a lot when I wear it!) Anyway, Mommy seems to have this one place she goes for everything I like. She calls it her favorite store. I guess I'll go there when I grow up.

OURS TO DECIDE THEIR FATE!

Widespread Rains Have Halted Texas Farm Work

COLLEGE STATION, Tex. (AP) — Rain and cold have halted nearly all outdoor work on Texas farms and ranches.

The widespread rains, after a week of good weather, were heaviest in East and Northeast Texas, said John Hutchison, director of the Texas Agricultural Extension Service.

Clear skies which followed the cold front should see a resumption of crop harvesting in west and northwest sections. The freezing temperatures should complete the cotton defoliation in the Rolling Plains (Vernon), he noted.

Grain growth, statewide, was good and providing increased grazing, he said. The cold may slow growth, however, if warmer temperatures do not return. Some grains are yet to be planted, the director noted.

Livestock conditions range from below average for this season to excellent. Hutchison said the poorest range conditions are in East and Northeast Texas and in limited spots in some other areas.

District agents gave these summaries:

The Panhandle is cold. Except for Hansford and Ochiltree counties, moisture is adequate. The grain sorghum harvest is 75 to 98 per cent complete. Wheat made good growth and many cattle are now on wheat pasture. Livestock and range conditions are good.

Greatly improved weather permitted the South Plains (Lubbock) harvest to swing into fast action. The sorghum harvest was nearly complete. The cotton and soybean harvests are major activities. Some harvesting of cabbage and carrots was noted. Grain pastures are providing excellent grazing. Livestock are in good shape with ranges improving from the abundance of rain and the warmer temperatures.

All the Rolling Plains has adequate moisture and freezes should defoliate cotton. Most cotton harvesting was waiting for a killing freeze. Pecans are being harvested in a few counties. Grain growth was good but greenbug damage was reported in seven counties. Range and livestock conditions are good to excellent. Major tasks are harvesting sorghum and cotton, working cattle, and completing grain planting.

Rains slowed outdoor activities in North Central Texas, including the completion of grain planting. Early grains made good growth and grazing is increasing. The harvest of most major crops is near completion. Peanuts are an exception. The condition of livestock and ranges was listed as fair to good.

Northeast Texas got heavy rains and for the first time in months moisture is now generally adequate with some spots on the surplus side. Rains have started grain growth. All major harvests were practically complete. Pastures were below average; grazing limited; livestock was losing weight; and feeding was heavy. Labor is short.

The cotton harvest in Far West Texas has passed the halfway mark and sorghum harvesting is about complete. The growth of irrigated grain was good with grazing available. Livestock and range conditions were generally good.

In West Central Texas wet fields and cold weather slowed the cotton harvest and increased damage to peanuts. Moisture is fully adequate to surplus. The pecan harvest was in full swing with quantity and quality fair. Good grazing is now available from grains while range conditions were the best in years. All livestock are in above average condition with marketing normal. Hunters are finding deer plentiful and in good condtiion.

The Central Texas peanut harvest is past the halfway mark and about 15 per cent of the short pecan crop has been harvested. Grains are providing some grazing while in most areas dry grass is on the short side. Livestock go into the winter in good condition and pastures look good. Deer hunting was a major activity. Some fertilizer is being applied in the Rio Grande Valley and [illegible] eral.

Spots in East Texas caught some of the state's heaviest rain, resulting in some local flooding. Rains of several days ago had brought dry planted grains to stand and where not excessive, the new moisture will help. Moisture is now generally adequate for the first time in many months in some counties. Most major crops have been harvested. Pastures are below average; winter grazing is limited; livestock are in fair condition; and feeding is necessary.

Mosture in Southeast Texas is generally adequate. Rain and cold slowed outdoor activities. Some second crop rice remains to be harvested. All soybeans have now been picked. Oats need moisture. Ranges were average to below and livestock in fair condition. The market is strong.

Moisture is still a bit spotted in South Central Texas where up to 98 per cent of the peanut crop has been harvested. Most of the flax and grains are planted. The pecan harvest is on and yields are light. Ranges were average; livestock was in good condition, and marketing is normal.

Moisture in South Texas is spotted. Harvesting of Vegetables was active and some increases in the citrus harvest was noted. Oranges and grapefruit have better size than last year. Livestock are in good condition and ranges are average to below.

Texas Retail Sales Drop

AUSTIN (AP) — Retail sales sales turned in a "lackluster" performance in Texas last month, a University of Texas business analyst said Saturday.

"A decisive cooling off has developed in consumer spending," said Constance Cooledge, statistical assistant with the university Bureau of Business Research.

Miss Cooledge said that when adjusted for normal seasonal changes, retail sales dropped 7 per cent in October, with durable goods off 19 per cent.

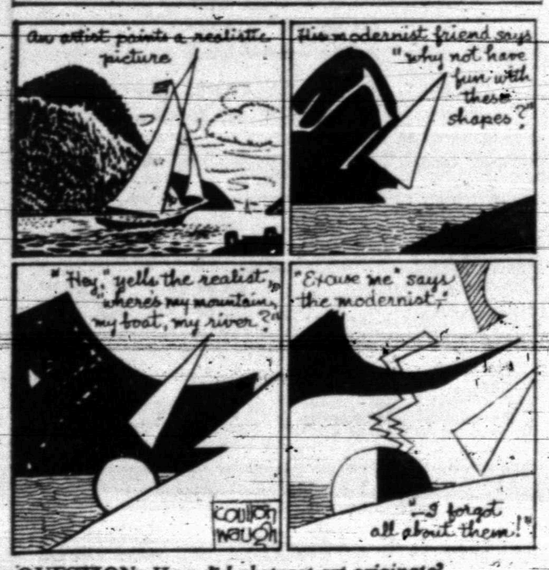

Sales were up 4 per cent over October 1968. For the January-October period, sales increased 5 per cent over 1968.

Texas' retail sales picture was bleaker than that for the nation as a whole, she said. Nationally, total sales made no change in October, and durable goods sales fell by only 2 per cent.

Nondurable goods, such as food and clothing, performed better than durables. In Texas, seasonally adjusted nondurable goods sales dropped 1 per cent. Compared with last October, nondurables were up 5 per cent, and for January-October they also rose 5 per cent.

Among categories of durable goods that undershot expectations, furniture and house hold appliance sales fell 10 per cent, compared with a normal seasonal gain of 15 per cent. Automotive stores reported their sales increased 9 per cent, instead of their normal 44 per cent in October.

Junior Editors Quiz on ABSTRACT ART

QUESTION: *How did abstract art originate?*

* * *

ANSWER: In another article, we have given the point of view of a realistic artist. But there are artists of many kinds; some like splashes of light and color, bold, free shapes; others enjoy getting close to nature. Both are right, if they are honest and true to their own feeling. Abstract art means painting pictures emphasizing shapes and patterns without worrying about what they may mean. Our picture illustrates the contrast between the two viewpoints. Many donot realize it, but abstract art has a very ancient foundation. What are the designs on some ancient pottery and costumes but abstract art? Around 1900, certain painters became dissatisfied with the realism which had been in style. Paul Cezanne began to simplify shapes to get strong patterns. Piet Mondrian carried this so far that his pictures became only a few lines and color blocks. Now, modern art is no longer revolutionary; it is the accepted thing. How do we feel? We believe in fair play — give each side a chance. At present, we think the realists have been pushed too far out of the picture.

11-22

(Pam Rogers of Auburn, N.Y., wins a prize for this question. You can win $10 cash plus AP's handsome World Yearbook if your question, mailed on a postcard to Junior Editors in care of this newspaper, is selected for a prize.)

Strike Could Alter Course Of Meat Packing Industry

By JOHN ARMSTRONG
Associated Press Staff Writer

DAKOTA CITY, Neb. (AP) — A trench four feet deep surrounds the Iowa Beef packing plant here, and a union office in nearby Sioux City is stacked high with canned food—signs of a long siege for both sides in a three—month strike that has triggered dynamitings, firebombings and countless fistfights.

The dispute between Iowa Beef Packers, Inc., the nation's fifth-largest meat processor, and about 1,200 workers at its modernized plant could alter the course of the whole meat-packing industry.

"This company will slowly disappear" if the union wins its demands says Currier Holman, chairman of the board of directors.

Arden C. Walker, vice president for industrial relations for Iowa Beef, said the company was struck because it wants to get out of the traditional "kill and chill" role of packinghouses and prepare meat for the table. This, he said, would lower the cost to the consumer.

Walker said the union wants to continue simply splitting the carcasses and sending them to retail butchers and to abolish the assembly-line process instituted at the Dakota City plant because it allows the company to hire less-skilled workers.

Keith Jensen, local president of the Amalgamated Meat Cutters and Butcher Workmen of North American called such talk "a bunch of hooey."

He said the Dakota City plant was struck because base pay there ranged from $2.12 to $2.43 an hour while the industry average base pay was $3.53. The company had offered a 30-cent raise across the board, but the union is holding out for $3.53.

Dynamite recently ripped up the yard of Dakota County Sheriff Allan Bligh after he had investigated two dynamitings that cut power lines to Iowa Beef plants.

Firebombs have been tossed at the homes of two employes who remained on the job.

A striker has been charged with murder in connection with the fatal shooting of a 16-year-old girl. The victim's sister, who was wounded, was a striker who had been furnishing information on strikers' activities to the company, according to Holman.

Friday night, a picket, 24-year-old Raymone Gonzales of Sioux City, was shot twice in the abdomen as he and five other men approached a car at the main gate of the plant. No immediate arrest was made.

Beside the trench at the Dakota City plant, armed guards with police dogs patrol the grounds.

Iowa Beef has imported Mexican-Americans from California and Texas to keep the Dakota City plant operating at about 50 per cent capacity. It says about 500 persons are on the job but won't say how many of them are imported.

The union has gathered food stocks to tide over needy strikers but by and large, Jensen says, "People have been able to find something to do and they'll continue to get by.

Jensen said about 500 of the strikers are women who were working to supplement family income.

"They get $50 a week for six hours of picket duty," he said. "They're not hurting."

Judge Denies Injunction

LUBBOCK (AP) — A district judge Friday refused to grant a temporary injunction forbidding a Lubbock discount store and Sundaco, Inc., from operating businesses both Saturday and Sunday.

Lubbock County Atty. Tom Purdom asked the injunction against Clark's Discount Store. He charged that Clark's store was sold every weekend to Sundaco, then sold back Monday and that it was a subterfuge to circumvent the state's Sunday closing law.

Lawyers for the two firms testified that Clark's and Sundaco are two separate business firms with no common ownership and with separate sets of employes.

Dist. Judge Robert H. Bean denied the injunction saying the testimony indicated no violation of the state law. The law says that certain items cannot be sold on both Saturday and Sunday.

Texan Named To Water Commission

WASHINGTON (AP) — A Texan, Josiah Wheat of Woodville, Tex., was named Friday to membership on the National Water Commission by President Nixon.

Wheat, 41, is owner of an abstract company and director of a savings and loan association in Woodville. He has served as president of the Texas Water Conservation Association and as a member of the Committee on Municipal Water Use and Pollution Abatement of the National Rivers and Harbors Congress.

ARMED FOR THE FUTURE — Tina Garcia is like any other vain young lady and spends considerable time in front of the mirror prettying herself up. But Tina is special in that managing to comb her hair herself is something fate almost took away. The Denver youngster had her left arm severed at the shoulder in a train-car accident in April of 1965. The arm was reattached by surgeons at Colorado General Hospital and now, four and a half years later, she has almost complete use of her left arm. Tina is six years old. (AP Wirephoto)

Whooping Cranes Return As Exploration Crews Evacuate

By MAX B. SKELTON
AP Oil Writer

HOUSTON (AP) — Whooping cranes are back on Blackjack Peninsula again.

This means oil explorers have left the area for the winter.

The annual evacauation of the exploration crews is one of many precautions wildlife authorities and industry are taking to protect the magnificent white birds that were near extinction less than 20 years ago.

Noises that accompany oil explorations and drilling operations could scare the jittery whoopers from the Aransas National Wildlife Refuge 160 miles southwest of Houston.

The cranes that are 5 feet tall start arriving at the refuge in mid-October after a 2,600-mile flight from the Great Slave Lake regional in northern Canada. By mid-April, most are on their way back to their summer nesting area in the wilderness of northern Alberta and the adjacent northwest territories.

Only since the Aransas refuge was established in 1937 have accurate counts of the Whooping Cranes been possible.

Only 22 adults and six young cranes spent the winter there in 1939-40. The number dropped to 15 in 1941 but the precautionary measures apparently have had amazing results. Wildlife rangers at Aransas have counted 49 Whoopers so far this year and believe the number will grow by early December. Last year's count was 50.

Continental Oil Co. operates the St. Charles Ranch Field on the peninsula. The company also has rather extensive explorations for new natural gas reserves in the area but these operations received anticipated shutdown orders the day before the first cranes arrived in October.

Such temporary shutdowns have been standard procedure since 1949.

"Whatever we can do to encourage survival of the Whooping Cranes, we're going to do," says J. E. Finley, a Continental vice president.

This objective is the only reason a barge canal built by Continental in 1952 is on the west side of the peninsula.

Engineers wanted the canal, along with a loading platform, to be built on the Gulf of Mexico side of the peninsula but the switch to the west was ordered after it was discovered the proposed route ran through the backyard of the winter home of the cranes.

An oil spill of major proportions could affect the Whooper's wintering ground drastically.

The winter food of the big birds that have a 7½ foot wingspan includes blue crabs, shrimp, small fish and other marine life. They also have accepted grains and vegetables that are planted in two 100-acre plots within the 47,261-acre refuge.

Whooping Cranes travel at high altitudes over a migration route that crosses Texas, Oklahoma, Kansas, Nebraska, South Dakota, North Dakota, and Saskatchewan.

They usually travel in family groups and any youngsters making the long trips are kept between two adults.

Continued Rise In Food Prices Seen

By DON KENDALL
AP Farm Writer

WASHINGTON (AP) — Despite some seasonal declines in food prices since mid-year peaks, there is some evidence that the escalator may speed up again over the next few months.

The main qualifying factor seems to be whether the Nixon administration's efforts to cool inflation will be sufficiently felt along the food-production pipeline from the farmer to the housewife.

But for now, according to a series of reports issued by the Agriculture Department during the past 10 days, farm prices for some major raw products may rise further through early 1970 at least.

Taken chronologically, the reports included:

Livestock and Meat—Total red meat output may be up "a little" in 1970 after a slight dip this year. Supplies of red beef, the favorite of consumers, are expected to increase, but pork output is less than a year ago and may continue this way until next July or thereabouts.

Despite more cattle expected for market through winter and next spring, prices to producers probably will continue near the present levels.

Hog prices now are substantially higher than last year and are expected to remain steady or go higher at least until spring.

National Food Situation—Further increases in retail food prices are likely through mid-1970, but the rate of increase is expected to be less than this year's five per cent rise from 1968.

Marketing and Transportation—Farmers this year are expected to receive 41 cents of each consumer food dollar, up two cents from 1968 and the most in more than a decade.

A select list of "market basket" food this year cost $1,174 on an annual basis, compared with $1,118 in 1968 and $983 a decade ago, the report said.

"Strong consumer demand may continue to buoy retail food prices in the first half of 1970," the report added.

Demand and price situation—Net farm income this year was forecast at almost $16 billion, up sharply from last year's $14.8 billion and the most since 1966 when it was $16.3 billion.

"A small rise over 1969 levels in the volume of livestock marketings is likely for the first half of 1970," this report said. "But demand is expected to expand further" and livestock prices "are not expected to drift much below current levels."

What the reports seem to say is that consumers will want at least as much food next year as they did in 1969 but that total supplies are not expected to increase much.

Texas Wives Waiting For An Appointment

PARIS (AP) — North Vietnamese officials left two Texas women waiting in vain hope Friday for word of husbands believed to be prisoners in Vietnam.

The women are Mrs. Bonnie Singleton and Mrs. Paul Hartsell, wives of Air Force officers and both from the Dallas area.

They saw offitials of the Hanoi delegation at the Paris peace talks in September and were told they would be advised if any information about their husbands became available.

The wives returned to Paris Thursday night to make a second approach to the Hanoi delegation. After advising the delegation of their arrival, they waited all day in their hotel rooms without receiving any invitation to a meeting.

Mrs. Singleton told newsmen they still hoped to be given an appointment.

North Vietnam has consistently refused to provide any information about several hundred American airmen held prisoners.

Knicks Tip 76ers 98-94

By THE ASSOCIATED PRESS

The New York Knicks find that Philadelphia isn't such a bad place to visit after all.

The Knicks, who couldn't buy a victory in the Liberty Bell city in 1968, returned for another crack ... and beat the Philadelphia 76ers, 98-94, in National Basketball Association play.

It was the 14th straight victory for the powerhouse Knicks, now three shy of tying the all-time NBA record of 17 victories set by Washington and Boston.

The victory gave the Eastern Division-leading Knicks a 19-1 record. The Knicks suffered their only loss to San Francisco on Oct. 23, the sixth game of their season.

In the night's other NBA games, Atlanta trimmed Detroit 118-106, Cincinnati squashed Chicago 133-119, Baltimore whipped Phoenix 126-116, Los Angeles tripped San Diego 100-98, Milwaukee edged Seattle 117-115 and San Francisco topped Boston 118-115.

In the American Basketball Association, Pittsburgh topped Kentucky 112-108, New York turned back Los Angeles, 94-83, Carolina rolled past Washington, 122-112 and Denver edged Dallas 103-100.

The Knicks put down a last period Philadelphia rally to top the battling 76ers, who lost their fifth straight and 11th in their last 13 games.

Willis Reed with high for New York with 25 points.

Bill Bridges, with 27 points, and Joe Caldwell, 26, led six players in double figures as Atlanta buried Detroit. Howard Komives had 20 points and Eddie Miles 19 for the Pistons, who have won only three of their nine home games this year.

Oscar Robertson drilled in 15 first-quarter points and a total of 44 as the Royals took a lopsided victory over Chicago in a game highlighted by the return to action of former great Bob Cousy. The onetime Boston Celtic star, now coach of the Royals, played ten minutes and scored three points.

Baltimore blew a 15-point lead after sinking 12 of their first 14 shots, but rallied in the second half for the victory over Phoenix. Wes Unseld and Jack Marin pocketed 26 apiece to lead the Bullets' offense. Dick Van Arsdale had 26 for the Suns.

Despite playing with a pulled groin muscle suffered last Wednesday, the Lakers' Jerry West went 44 minutes, scored 37 points, had nine assists and seven rebounds. His 22-foot corner jump shot with 29 seconds remaining broke a 96-all tie. Laker rookie Rick Roberson gave Los Angeles a four-point bulge before Art "Hambone" Williams scored for the Rockets at the buzzer.

Milwaukee held off a late Seattle rally paced by Bob Rule, who made 11 of his 35 points during that span.

Rookie Lou Piniella, 26, led the Kansas City Royals with 68 runs batted in last season in the team's first year in the American League.

Nets Conquer Stars 94-83

By THE ASSOCIATED PRESS

The lowly New York Nets came up with rather a Tart way of slowing Los Angeles' drive to over take New Orleans in the American Basketball Association's Western Division.

Lavern Tart scored 20 of his 21 points in the final half, including 16 in the fourth quarter, to power the Nets to a 94-83 conquest of the Stars Friday night.

That dropped the second-place Stars 1½ games back of idle New Orleans in the tight Western chase.

Pittsburgh knocked off Kentucky 112-108, Carolina coasted past Washington 122-112 and Denver nipped Dallas 103-100 in the night's other games.

In the National Basketball Association, Baltimore trimmed Phoenix 126-116, Cincinnati beat Chicago 133-119, Atlanta turned back Detroit 118-106, New York defeated Philadelphia 98-94, Los Angeles edged San Diego 100-98, Milwaukee slipped past Seattle 117-115 and San Francisco topped Boston 118-115.

Los Angeles rolled to a 41-36 halftime lead, but Tart's shooting helped the Nets to a 63-62 edge heading into the final quarter.

The New Yorkers had only an 84-80 lead with three minutes left, but Tart poured in four points as the Nets outscored Los Angeles 10-3 to put it away.

Kentucky grabbed an 84-79 lead at the start of the final period, but Charlie Johnson scored most of his 25 points in the final session to guide the Pipers from behind to victory.

Carolina rode a 34-point performance by Dave Verga past Washington. The Cougars trailed by four points at the half, but the shooting of Verga and Doug Moe, who had 25 points, shot Carolina into the lead for good in the third quarter.

Ben Warley scored five points in the last 11 seconds to lift Denver from behind and past Dallas. The Chaps had taken a 100-98 lead on John Beasley's two free throws with 26 seconds left.

But, Warley canned a corner jumper with 11 seconds remaining to tie it and put Denver ahead with a pair of free throws with three seconds left. The officials then tagged Dallas Coach Cliff Hagen with two technicals and Warley hit one of two charity tosses for the margin of victory.

Ritger Sets Keg Pace

ROCHESTER, N.Y. (AP) — Dick Ritger of Hartford, Wis., was the leader Friday night at the end of the second round of the $50,000 Bellows-Valvair Professional Bowlers Association Open Tournament.

Ritger fired a nighttime six-game block 1323 to add to his afternoon total of 1371 for a 12-game total of 2694, 16 pins ahead of Richard Peckham of Schenectady, N.Y.

The 128 pros were to resume the tourney this morning with another six-game qualifying block. Later in the day, the field will be cut in half for the evening semi-finals. The top five will vie for the $6,000 first prize in Sunday's finals.

In the 1969 Rose Bowl game, Rex Kern became the third Ohio State player to win the player of the game award. The others were Fred Morrison in 1950 and Dave Leggett in 1955.

SPORTS

Hobbs Sacks Up District Crown

McCAULLEY — Hobbs' Panthers sacked up the District 3-B football title here Friday night with a 58-24 thrashing of McCaulley. Coach John Hale's crew was undefeated in district play and finished the regular season with a 9-1 record.

Their only loss was to Lueders-Avoca, a team they will meet in the Bi-District playoff. Representatives of the two schools were to meet in Anson Saturday afternoon to select a playoff site and date.

The Panthers rolled up 602 yards to total offense after taking a 32-8 halftime lead. Ross Hale was outstanding on offense, completing 10 of 11 passes for 203 yards and three touchdowns. Lorin Pearce and Rudy Martinez netted 141 and 139 yards respectively on running plays. Pearce also connected on seven of 14 aerials for 40 yards. John Ed Martinez netted 22 yards on three runs.

Hale hit Ricky Williams with a 20-yard scoring pass early in the first period. Martinez scored on a 49 yard run, and Pearce tallied one point on a run. Late in the period, Pearce and Williams combined forces on a 32 yard pass and run play for another touchdown.

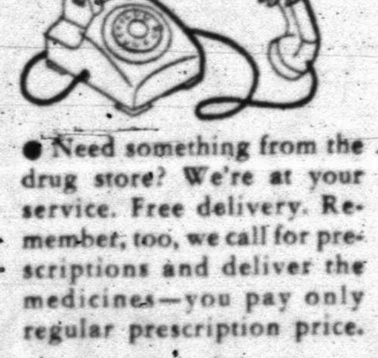

In the second period, Hale hit Rene Martinez from 21 yards out, and Pearce scored on a one yard run.

Hale and Rudy Martinez clicked on a 21-yarder in the third stanza, then Rene Martinez scored on a six yard run. Mike Hull passed to Raul Aguilar for another TD from two yards out and Pearce threw to Rene Martinez for one extra point.

Pearce intercepted a pass in the fourth quarter and returned it 36 yards for a touchdown, then he passed to Rudy Martinez for the extra point.

The hosts tallied eight points each in each of the last three frames, all of them resulting from passes.

SNYDER THREATENS — Snyder threatened to score a touchdown late in the second quarter of the district championship clash at Lubbock Friday night following a 75-yard punt return by Willis Harrison. Here, Steve Pierce (40) runs to the eight as Willis (not shown) blocks Estacado's Avance Green (42) and Lee McNair (11) and an unidentified Tiger block William Hall (74). However, the host Matadors held and ultimately won the title by a 38-3 verdict. (Photo by Eddy Bane)

Matadors Rip Tigers 38-3 Win District Grid Crown

LUBBOCK — After spotting Snyder's Tigers three points, the Estacado Matadors displayed the power and speed that won them the state championship last year as they romped to a 38-3 decision and captured the District 3 - AAA football title here Friday night.

The Matadors were led by senior running back Larry Miller, who netted 129 yards on 18 carries, and senior quarterback Kenneth Wallace who gained 81 paces on 10 runs.

It was a close first half with Snyder trailing only 10-3, but the powerful Matadors turned on the power and the speed in the third quarter to score two more touchdowns and they put the game out of reach in the fourth quarter with their final two TD's.

The Tiger defense was severely hampered when middle linebacker Eddie McClain went out of the affray with an injury in the second period, and it was not until he made his exit that the Matadors really began to move down the turf. The senior 180-pounder is the bone and sinew of the Tiger defense.

Snyder was fired up for the title clash and the Bengals put forth a top team effort, particularly in the first half. Estacado lost two yards in three plays on its first possession, then the Tigers took advantage of a short punt to move within field goal range.

Lee McNair hit Merce Hernandez with a 9-yard pass at the Matador 23. Steve Pierce, who was the leading Tiger runner with 39 yards on 13 carries, gained 10 to the 13 on three runs. Willis Harrison romped to the five to set up first and goal. Pierce lost two and two passes failed to click. On fourth down, McNair kicked perfectly from the 16 yard line for the 3 pointer to put Snyder ahead.

Mike Glasscock and Albert Hernandez came up with timely fumble recoveries to quash two Estacado drives in the first quarter after Miller, Jesse Lethridge and James Mosley benefitted from some sound blocking on the part of tackle William Hall to spring them loose for substantial gains.

But, the Matadors got the strong south breeze at their backs in the second period and Miller booted a 35 yard field goal to knot the count with 8:40 remaining in the period. It came on a fourth down play after the Bengal defense stopped the state champs at the Tiger 19 following a 25-yard punt return by Marvin Turner, playing only his fourth game as a running back.

Estacado drove 78 yards in eight plays for its first touchdown with Wallace rolling out around left end from the six to run cap the drive. He was hit hard near the end zone and fumbled, but Jesse Bozeman recovered for the six points, and Miller kicked extra point with 4:39 remaining in the half. Big play in the drive was a 63 yard run by Wallace with Larry Greene making a touchdown - saving tackle at the 20.

Snyder almost scored on the kickoff. Willis Harrison fielded the ball in the end zone and came out straight up the middle. He cut to the west sidelines as he neared a pile and had four blockers in front of him. As he slowed to allow the blockers to go to work, he was caught from behind at the Estacado 25 after a 75 yard return. Pierce went up the middle for five, and Stewart Sims gained nine in two carries. Pierce added three to the eight, then was thrown for a loss back at the 10 when he tried to go wide left. Walter Hibbler made an outstanding defensive play on the tackle. On fourth down, McNair hit Merce Hernandez at the five with a short pass, but the gain was about two inches short of a first down and Estacado held onto the ball until halftime.

The Matadors took the kickoff opening the third quarter and drove 64 yards for a touchdown in seven plays, Miller slicing over right guard from the one for the six pooints. His kick was wide. Good running by Miller and Turner highlighted the march.

With 3:39 remaining in the quarter, Turner intercepted at the 48 and had a clear field in front of him. Miller bisected the uprights as the margin soared to 23-3.

Miller ran 44 yards around right end for Estacado's first touchdown in the last quarter, and he kicked extra point. Substitute quarterback Daniel Johnson went 27 yards around left end with 5:52 showing on the clock for the last touchdown, and Miller's kick missed.

Although they were down 38-3, Snyder stopped the Lubbock team inside its 10 yard down in the final two minutes with a heroic goal line stand.

The Bengals made three good drives in the third quarter but a fumble recovery by Mosley and Turner's interception stopped two of them. The other drive just ran out of gas.

McNair completed three passes to Hernandez, one to Larry Greene and one to Tony Breedlove during the third period drives. The longest one carried from the Snyder 23 to the Estacado 20, and it included some good running by Harrison and Larry Wall.

It's no disgrace to lose to champions if you play your best, and the Bengals did. They were simply outclassed.

McNair, Hernandez and Joe Hale bore the brunt for Snyder. Stewart Sims punted well for the Tigers. William Hall and all of the running backs looked good for Estacado.

Ortiz Gets Nod On Split Decision

By HAL BOCK
Associated Press Sports Writer

NEW YORK (AP) — Carlos Ortiz brought some help with him for his first fight in 17 months and he needed it.

Many of the 8,731 fans who came to Madison Square Garden Friday night to watch Ortiz battle Brazil's Edmundo Liete, were Carlos' friends and neighbors from the Bronx.

And when they started a chorus of shrill whistles and hoots midway through the fight to indicate their disatisfaction with Ortiz' performance, it seemed to perk Carlos up. He came on the take a 10-round split decision.

Judge Tony Castellano had it 7-3 for Ortiz and judge John Maschio gave Carlos the nod, 4-3 with three rounds even. Referee Barney Phelan had the fight a draw at 4-4-2. The Associated Press' card showed Ortiz ahead, 4-3-3.

Ortiz, 1½ pounds lighter than Liete at 144½, figures next to face Donato Paduano and then wants Jose Napoles for the title. He'd better bring his friends and neighbors along.

The victory ran his career record to 52-6-1. Liete, making only his second appearance in this country, is 36-3-5.

Navy Has New Policy

By TOM SEPPY
Associated Press Writer

WASHINGTON (AP) — In an effort to renew its football fortunes, the Naval Academy will have a civilian as its athletic director beginning next summer—the first time a non-military man has served in the post.

Capt. J. O. Bo Coppedge, a 1947 academy graduate, will retire after 24 years in the Navy to become the first civilian athletic director, a position he has held since June of last year.

Rear Adm. James Calvert, superintendent of the Naval Academy, said the school made the change in policy because the appointment of a civilian "is absolutely essential if the Naval Academy's program is to catch and overtake those on our schedule in football and 20 other sports."

Navy has a record of one victory and eight losses and plays arch rival Army next Saturday. It won only two games last season.

Highland Hits Ira 53-14

HIGHLAND — Ira's Bulldogs held a brief 8-0 lead here Friday night before falling, 53-14, to Highland's Hornets in a District 3-B six-man football game.

Ira's Kirby Sterling returned the opening kickoff 76 yards for a touchdown, and Ricky Cox kicked for a 2-point bonus.

In the third period, Cox plunged over to cap a long drive for Ira's second touchdown.

The Hornets scored two touchdowns in the first quarter on a 48 yard run by Locan Krejci and a 5 yard run by Gary Krejci. Gary also tallied from 10 yards out in the second period.

Two third period touchdowns and a 21-pooint fourth quarter put the game out of reach as Gary Krejci scored twice in the third and kicked for two points. Jerry Muncy passed to Darrell Campbell and Davy Allen scored on a four yard run and a 10 yard run for the final TD's. Muncy caught a pass for one bonus point and Gary Krejci ran for another one.

Gail Wins Second Place

GAIL — The host Borden County Coyotes won second place in District 3-B eight-man football here Friday night with a convincing 40-22 decision over Loop's Longhorns.

Gail built a 22-0 lead in the first half, fought off a Loop rally, and sacked up the verdict with a strong finish.

Joe Harding got the first Coyote touchdown on a 46 yard run, and Rick Hendley passed to Jimmy Hodge for two extra points.

In the second period, Harding scored from two yards out and Randall Crittenden tallied from the one. Hendley collected two bonus points on another run.

Hendley put the hosts ahead 28-0 in the third quarter with a 3-yard plunge, but Loop narrowed the margin to 23-14 on a 40 yard run by Eddie Aldredge and a 28-yard scoring pass from Danny Yocom to Larry Caughron. Yocom ran over for two points.

Gail's Charles Billeck shook loose on a nine yard touchdown run late in the game, and Hendley passed to Crittenden from 15 yards away. Loop got its last score on a 10-yard pass, Yocom to Eoy Tovar.

Sellout Crowd Will See Cowboys, Rams

By BOB MYERS
Associated Press Sports Writer

LOS ANGELES (AP) — The flamboyant Dallas Cowboys and the unbeaten Los Angeles Rams divisional leaders in the National Football League, collide in Memorial Coliseum Sunday in a game that may be more freewheeling than significant.

Los Angeles has a four-game lead over the Baltimore Colts in the NFL Coastal Division and the Cowboys own a more tenuous margin of two games over the ever - threatening Washington Redskins in the Capitol.

This one, to be unreeled before a sellout crowd of 73,000 and via television to most of the country, could be a prelude of the NFL championship Jan. 4.

The Ram official family, however, disassociates itself quite firmly with such a possibility at this stage of the shooting. Ahead are such huge hurdles as the Minnesota Vikings, Washington, Detroit and the faltering Baltimore Colts. And if all went well that far, there would be the Vikings again for the Western Conference championship in usually freezing Minnesota Dec. 28, if indeed the Vikes win the Central Division.

First things first, says coach George Allen of the Rams, who is a firm believer of that badly bent cliche, "We play one game at a time."

Dallas flew in Friday ready for this one. And the Cowboys, with San Francisco, Pittsburgh, Baltimore and the Redskins still ahead, can't afford to let its lead narrow.

Los Angeles is the only unbeaten, untied team in pro football. The Rams were physically beaten up the past few Sundays but will be at near-top strength.

Ironcially, both Dallas and Los Angeles are handicapped by injured absentees in their offensive lines-Ralph Neely of the Cowboys and the Rams' Joe Scibelli.

Coach Tom Landry, whose team's lone loss was to Cleveland a month ago, 42-10, will have Craig Morton at quarterback. He has a dangerous pair of pass receivers in Lance Rentzel and Bob Hayes.

Rookie running back Calvin Hill has a bum toe and is doubtful. The suspicious Rams, with a straight face, said one of their leading pass catchers is also doubtful. Wendell Tucker, they said, has a hangnail on his little finger.

Los Angeles' healthy Warriors are headed by quarterback Roman Gabriel, running backs Les Josephson and rookie Larry Smith and receivers Jack Snow and Billy Truaz — and Tucker.

The defenses show a pair of the game's greatest front fours — notably Bob Lilly and George Andrie for Dallas and Deacon Jones and Merlin Olsen for the Rams.

Pugh Sidelined

DALLAS, Tex. (AP) — Defensive tackle Jethro Pugh won't play with the Dallas Cowboys in Sunday's National Football League game against the Los Angeles Rams.

Ron East will replace Pugh, who has a chipped bone in his shoulder.

Use of running back Calvin Hill is questionable because of an injured toe.

CAREER CORNER
By F. J. LAIN

"My son will be discharged from the Marines soon and return to college. He says he's thinking about becoming a plastics engineer. What is that exactly, and what are the prospects for a plastics engineer?"

A. — Ideally a plastics engineer is a synthesis of chemist, chemical engineer, mechanical engineer and electrical engineer. But there's nothing synthetic about the man - made opportunities on the road paved with plastics.

As research executive Bill McDonald of U. S. Industrial Chemical Co. says: "Today there are 20,000 jobs in the plastics industry looking for people and the demand for manpower is likely to continue for some time. The young engineer or chemist simply couldn't find a better field to enter. This is one where rapid advancement is possible in a still relatively young industry."

SPECTACULAR GROWTH. Plastics is certainly one of the growth meteors of our economy. "Modern Plastics" magazine made a survey last year and reports that this industry has been expanding at an annual rate of between 12 and 14 per cent compared to a rate of about 4.5 per cent for all manufacturing.

That publication also predicted, based on production statistics of a related study, that within the next 20 years more products will be made out of plastics than out of any other material.

U. S. LABOR DEPARTMENT economists and the plastics industry itself also forsee a greater need for plastics scientists, engineers and technicians as more emphasis is placed on new-product development. The trend toward the use of plastics in applications formerly served by such materials as wood, glass and metal is expected to continue. (This is not to suggest that these materials are obsolete, but rather that their uses are shifting. For example, more metal than ever is being consumed, but it goes into different products — molds, tools, machines, etc.)

THE PLASTICS INDUSTRY really cuts across all other industries. The chemical and oil companies supply the basic raw materials and a large portion of the research and manufacture is done by this group. Fabrication of plastics is done by many small and medium-sized companies who do only this, and by divisions of large chemical, paper or steel companies, to name a few. Suppliers of plastics machinery and molds represent another group needing plastics expertise, as do industries consuming plastics, such as automotive and packaging. And many companies produce finished plastics products for the ultimate consumer. Since plastics is so meshed with all industry, a plastics background offers many alternatives.

EARNINGS. I couldn't locate any salary information for plastics engineers alone, but as a yardstick, the latest Engineering Manpower Commission survey shows the hypothetical "Median" engineer makes $14,800.

EDUCATION. The plastics engineer is trained broadly with emphasis on either polymer chemistry or engineering. (A polymer is the result of the chemical bonding of two or more molecules.) Primarily, those on the materials side of the business are chemists and chemical engineers, and those on the machinery side are mechanical and electrical engineers. Most plastics engineers are graduates who have majored in one of the four disciplines just mentioned, although one institution, the Lowell Technological Institute in Lowell, Mass., offers an undergraduate degree in plastics technology.

WHERE TO WRITE — The Society of Plastics Engineers has a free pamphlet, "Plastics As an Engineering Career." You may have a copy by sending a stamped, self-addressed, long white envelope to me at this newspaper. Write PLASTICS ENGINEER on your outside envelope.

SCENE OF REPORTED MASSACRE IN VIETNAM—This is an airview of part of the Tu Cung and My Lai hamlets where on March 16, 1968 American troops allegedly massacred hundreds of Vietnamese civilians and burned the villages. (AP Wirephoto)

Two Charged In Chilton Robbery

CHILTON, Tex. (AP) — Dale Pierce, 26, of Dallas, and Woodrow Benson, 25, of Grand Prairie, were charged Friday afternoon with robbery with firearms, in connection with the robbery of their hometown bank.

The Citizens National Bank in Chilton was robbed of approximately $6,000 by two men shortly before noon Friday, but Pierce and Benson were apprehended in connection with the robbery a short time later.

Charges were filed against the two before Justice of the Peace Watson Derr. They are in the Falls County Jail in Marlin, near Chilton. Bail has not been set.

Both men were born and reared in Chilton.

Mrs. Wilnita Woods, the cashier at the bank, described the robbery to officers saying, "They were real nice about it."

She said the two, one of them armed, demanded the money from her drawer and from the bank vault. She said they took the cash, pulled the telephone from the wall and left warning the employes not to follow.

Witnesses saw the two men get in a red sports car and head towards Waco. Chilton is about 20 miles south of Waco. It has a population of 786.

Highway patrolman Billy Joe DeLoach apprehended Pierce and Benson shortly after the robbery. They were just outside Waco when he stopped them.

Butler Buys Mooney Stock

KERRVILLE, Tex. (AP) — Butler Aviation International, Inc. will acquire 100 per cent stock ownership, management and control of Mooney Aircraft Corp., a subsidiary of American Electronics Laboratories, Inc., company spokesmen said Friday.

Dr. Leon Riebman, president of American, and Paul S. Dopp, chairman and president of Butler, made the announcement.

The agreement calls for the issuance by Butler of 150,000 share of its Series "B" voting participating convertible preferred stocks, each share of which is convertible, now into one share of common stock and has a liquidation value of $20 per share.

Mooney, one of the major manufacturers of General Aviation Aircraft, produces single-engine private aircraft with a range of base prices from $8,995 to $46,570.

In addition Mooney has exclusive distribution for the Japanese-made Mitsubish MU-2 jet proper executive aircraft.

Mooney has facilities in Kerrville and San Angelo.

Mooney will be operated as a separate subsidiary of Butler, a leading aviation service corporation. The boards of both companies have approved the transaction.

The Houston Astros had their best season in history in 1969 when they posted an 81-81 record. It was nine games better than their previous high.

Ranch Headquarters Assn. Set Up As A Corporation

LUBBOCK — The Board of Overseers of the Ranch Headquarters Association met at noon Friday at the Lubbock Club and constituted the association as a corporation — opening the project for public support — and electing D. Burns, long time manager of the Pitchfork Ranch, as temporary chairman of the board.

Other temporary officers were named, and the board agreed to hold its first annual meeting in the fall of 1970.

The formation of the association was announced by Texas Tech University President Grover E. Murray Sept. 20 at a gathering of ranch people in Snyder.

It was formed, Dr. Murray said at that time, at the request of ranchers to "let everyone have a part in the project to establish an authentic Ranch Headquarters on the site of the new Museum at Texas Tech."

In addition to Burns, the board elected as president, Dr. W. C. Holden, ranch historian and author and professor emeritus at Texas Tech; first vice president, Frank H. Chappel Jr. of the Renderbrook - Spade Ranch at Colorado City and the Chappell Spade Ranch at Tucumcari; second vice president, John F. Lott of the Saughter U Lazy S Ranch near Post, and secretary, Mrs. W. C. Holden. Ranch Headquarters Director Jerry L. Rogers was named executive secretary.

Chappell was named to head a new committee on fiscal operations. Working with him will be Lott, Mrs. J. E. Blakey Jr. and Charles E. Maedgen Jr.

The first phase of the Texas Tech Museum is scheduled for completion next year, and the Ranch Headquarters Committee already has announced acquisition of five of the historic buildings which will become a part of the outdoor, living museum commemorating the spirit of the men who built Texas' first industry.

Twelve of the 18 initial overseers were present for the luncheon meeting Friday, voting their approval of the articles of incorporation and of the bylaws as they are to be submitted to the general membership at the first annual meeting.

The membership is open to anyone wanting to join the association, with minimal dues of $1 per year for those under 12 years of age and including $5 memberships for single adults and $10 for couples. Other annual memberships range upward to $100, and permanent memberships range upward from $250.

In explaining why the association is open to non - ranch people as well as ranching families Rogers explained that in the view of the association "a man, like a society, is the sum total of his past." Ranching, so much a part of the history of the Southwest, he said, influenced all the life of the region.

"The tangible reminders of our heritage — the buildings, the objects from the past — give people today a sense of stability, a chronological orientation and a sense of continuity from one generation to the next," he said. "Understanding our historical components helps us to know ourselves."

The corporation was organized, according to its charter, for educational purposes and members will assist Texas Tech University in "developing, interpreting and maintaining an interest in ranching history."

Properties acquired by the association became the property of the state of Texas when turned over to the Ranch Headquarters, according to the bylaws. Care of items accepted is the responsibility of the university. The depository for historical records and documents will be the Southwest Collection, the regional archive located at Texas Tech.

The association's special interest is in the "restoration and preservation of ranch architecture, ranch furnishings, ranch operational equipment and other items associated with ranching."

The Ranch Headquarters Committee — now designated the Ranch Headquarters Advisory Committee, serving the association — was established in 1966 to investigate the availability of buildings and items for the outdoor museum.

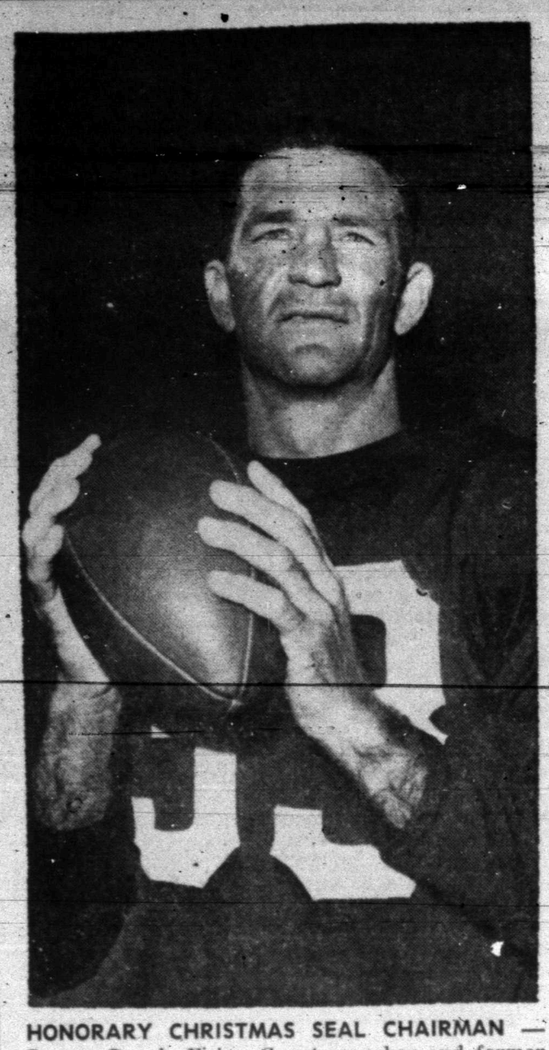

Buildings donted to the project will be moved to the museum site and restored with detailed attention to historical accuracy.

The Board of Overseers eventually will include one member from every area unit of the association. The first area unit, now in the process of being organized, is at Snyder. It grew out of the Sept. 20 gathering, organized under the direction of Mrs. Wilson Connell, a member both of the advisory committee and the Board of Overseers.

Incorporators of the association were Burns, Lott and Dr. Holden.

In addition to the officers, overseers present at the meeting were Miss Christine DeVitt of the Mallet Ranch, Mrs. Blakey, Mrs. Connell, William Holder Jr., Maedgen, and Watt R. Matthews of the Lambshead Ranch in Albany.

Members of the board who were unable to attend were Dr. Murray, Mr. and Mrs. Charles Schreiner III of the YO Ranch, Mountain Home, Mrs. M. Sims Davidson of Dallas, and G. C. Gardner Jr.

HONORARY CHRISTMAS SEAL CHAIRMAN — Sammy Baugh, Fisher County rancher and former football star, has been named honorary Christmas Seal Chairman of the 63rd annual campaign by the West Texas Tuberculosis and Respiratory Disease Association. An All-America player at TCU and All-Pro for the Washington Redskins, Baugh is held by many to be the best passer of all time, and is a member of the Football Hall of Fame. Continuing through the month of December, the Christmas Seal Campaign was officially opened on Nov. 12.

Carmichael Still Composing At 70

By MIKE DOAN
Associated Press Writer

LAS VEGAS, Nev. (AP) — Hoagy Carmichael, whose gift for melody made him a millionaire, is 70 years old today—but he's still composing and says, "I don't feel any different from 12 or 15 years ago."

No sad songs for Hoagy. He's got too much going for him.

Tanned and dapper in a bright sport coat, Carmichael recalled over a late poolside breakfast Friday that it has been 38 years since he wrote "Stardust."

There's a long list of other songs he composed: "Old Buttermilk Sky," "Skylark," "Lazy Bones," "Lazy River," "Rockin Chair," "I Get Along Without You Very Well," "Little Old Lady," and "Georgia on My Mind."

In 1951, he won an Oscar for "In the Cool, Cool, Cool of the Evening," from the movie "Here Comes the Groom." Hoagy also displayed his nasal baritone and piano-plunking in such films as "To Have and Have Not" and "Best Years of Our Lives."

Carmichael divides his time among his Hollywood penthouse, overlooking the Sunset Strip; a $145,000 showplace home at Palm Springs, which fronts on the Thunderbird Country Club golf course; and periodic visits to Las Vegas Strip hotels.

The composer, divorced 14 years ago, has two grown sons, Hoagy Bix and Randy—the latter a talented piano player.

On the younger composers, he said: "I resent the repetition in tune and the inadequate lyrics."

And he does have one regret.

"I could hav writen at least two or three times as many songs if I'd really spent the time at it."

But, even with such partners as Jonny Mercer and Frank Loesser, he said, "We'd just sit and wait for an idea to come. It doesn't. You have to work your tail off."

Fluvanna Airman Gets Decoration

Airman First Class Joe W. Stansell, son of Mr. and Mrs. James H. Stansell of Rt. 1, Fluvanna, has been recognized for helping his unit earn the U. S. Air Force Outstanding Unit Award.

Airman Stansell, a Strategic Air Command (SAC) aircraft equipment repairman at a forward base in the Western Pacific, will wear the destinctive service ribbon as a permanent decoration.

His unit was cited for its successful and sustained aerial accomplishments within the Western Pacific area from March 1968 to March 1969. SAC is the nation's long - range bomber and missile force.

The airman is a 1966 graduate of Fluvanna High School.

His wife, Beverly, is the daughter of Mr. and Mrs. Roy Lanham of 2201 Sayles, Abilene.

NEW WAY TO BE SUDDENLY SLIM

Are you a woman whose figure is on the good side but might look perfect? You'll be thrilled by the new easy way science has discovered for you to become Suddenly Slim and yet completely comfortable. If you're more than 15 pounds overweight, or your waistline is larger than 32 inches, then this idea is not for you. If your weight problem falls within this range, then you can realize a new, smoother figure today, without diet or exercise.

Suddenly Slim is an all-new kind of 4-oz. girdle constructed of science fibers. One startling innovation is the sheer nylon front panel. This is permanently stiffened by a science process and cannot give or sag. It's surrounded by a slimming action border. A feather-stitched panel down each side of this girdle will contour your hips if they are a problem.

The girdle itself is of a "wonder" Lycra spandex blend. It's a new power net consisting of nylon, acetate and spandex. It is so comfortable, but has such slimming strength, it gives your figure everything that's possible with a foundation.

"Suddenly Slim," in both girdle and panty versions, is the peak achievement of the California designer-genius, Olga. They are available

Apollo 12 Hit Twice By Lightning

SPACE CENTER, Houston (AP) — Tentative analysis shows that Apollo 12 was hit twice by lightning after it lifted off last week in a Cape Kennedy rain storm, space officials say.

The 363-foot tall rocket and spacecraft assembly was struck once 36 seconds after it left the ground and a second time 52 seconds after liftoff, Donald D. Arabian of the Manned Spacecraft Center program office told newsmen Friday.

There has been considerable question over whether lightning actually struck the ship at launch.

Space agency officials said after the launch that reports from aircraft had showed there were no lightning-producing elements in the rain clouds, and this assertion was repeated at the Friday news conference. But Arabian added that the presence of the ship with it's rocketfire apparently changed the potential for electrical discharge, or lightning.

He said the ionized startum of fire from the rocket's exhaust brought the electricity down the vehicle and the flame to the ground from a cloud layer 6,000 feet high.

The second lightning bolt, he said, used the rocket's flaming tail to jump from one cloud to another.

Earlier, Dr. Rocco A. Petrone, Apollo program director, said the lightning may cause a change in spacecraft launch rules, but that "no decision has been made yet."

Officials described the Arabian findings as "a very interim kind of report."

Complaints Keeping British Race Relation Board Busy

By DAVID LANCASHIRE
Associated Press Writer

LONDON (AP) — Complaints about Britain's law against racial discrimination from a portrait-loving Scotsman, a Yorkshire cricket team and an Australian insurance company are frivolous and prevent the Race Relations Board from doing its job, board chairman Mark Bonham-Carter said today.

Dr. Alfred Emslie, a Scot, doesn't think so. He advertised for a Scottish maid because he wanted someone who knew how to make oatmeal for breakfast. Someone complained and the board warned him he was breaking the law by specifying nationality.

The Yorkshire County Cricket Club, which advertises for Yorkshire-born players, was warned by the board to watch the wording of its ads to be sure there are no overtones of race, color or religion. When that happened, 67 members of Parliament signed a motion calling for amendment of the act.

The Race Relations Board also acted reluctantly against an Australian insurance company that asked for Australian employes to handle the problems of Australian clients.

These cases, board officials say, are nonsense. Bonham-Carter said that unless Parliament permits the board to act at its own discretion—subject to public scrutiny—it must deal with every complaint.

When the race relations law went into effect a year ago, the board expected about 1,000 complaints annually. It has received nearly double that amount. Most are about employment and have been settled out of court.

The clause causing all the trouble warns against "an intention to do an act of discrimination." It is meant to keep business firms from seeking "white only" help and landlords from offering apartments to "non-coloreds" only.

Coloreds in Britain means Indians and Pakistanis as well as Blacks. The Colored community numbers 1.25 million, about two per cent of the population.

The strangest case wasn't particularly serious. Kenneth White, owner of a restaurant in Chester, was ordered to change his sign because it said "Whites Eating Inn." He had to make it "White's Eating Inn."

"I think someone has gone mad," he said, noting that a neighboring department store is called "Browns" and nobody has complained about that.

October's Water Use About Par

October revenues to the Colorado River Municipal Water District were almost identical with those of a year ago, the monthly revenue report shows.

The $132,824 compared with $132,776 for October 1968. This brought this year's total to $2,416,005, which is $94,000 ahead of the same period a year ago.

The municipal customers increased by nearly $93,000, while rural users took $14,000 more. Revenues from oil companies reached $999,577, or down about $10,000, while recreational facilities produced $26,758, or $6,000 less due to low lake levels.

Operating expenses through October stood at $1,050,548, making a net of $1,365,456 subject to transfer to the debt service and other indentured funds.

Revenues were based on sales of 1,019,160,000 gallons of water (on September billing). This makes 10,865,291,000 for the first 10 months, or 621,000,000 gallons more than for the same period a year ago. Of the total 9,681,278,000 gallons came from Lake J. B. Thomas, 487,374,000 from the Martin County well field (the bulk) of this was recovery of Lake Thomas water injected during the winter), and 573,940,000 gallons from city well fields. The Colorado City diversion works yielded 122,699,000 gallons which went to oil field repressuring.

Unable to grow crops or graze animals on the parched, rocky soil, the El Molo tribesmen of Kenya have lived for centuries exclusively on fish caught in the alkaline waters. Their monotonous diet is sometimes varied with crocodile eggs or turtles.

Snyderite Is In Honors Program

WACO — A Baylor University student from Snyder is among 119 students enrolled in the university's Honors Program.

She is Mary Ellen Carroll, the daughter of Mr. and Mrs. Joe Carroll of 3002 Thirty - third. A 1969 graduate of Snyder High School, she is a freshman Spanish major at Baylor.

The Honors Program, which has been a part of the Baylor campus since 1959, offers superior students in the college of Arts and Sciences an opportunity to broaden their intellectual horizons, to explore their major fields more intensively, to learn techniques or independent research and to share ideas and experiences with other honor students and faculty.

The majority of students who have completed the program go on to graduate or professional schools.

"The program prepares the student for present and future educational pursuits and affords an opportunity for fellowship and dialogue," Dr. Glenn O. Hilburn, associate professor of religion and director of the program, said.

A breakdown of the total enrolment this term shows 71 freshman, 29 sophomores, 12 juniors and seven seniors participating in the program.

Consumer-Protection Law Due Change

LOS ANGELES (AP) — The California attorney general's office covers a wide field in consumer-protection laws it says it plans to recommend to the legislature next year. Some examples:

—Travel agencies would be required to place customer airline fees in trust to make sure clients don't get stranded in foreign countries.

—Stores that advertise Spanish-speaking sales persons would have to print contracts in Spanish.

—A requirement that offers of free gifts make clear they involve a sales presentation.

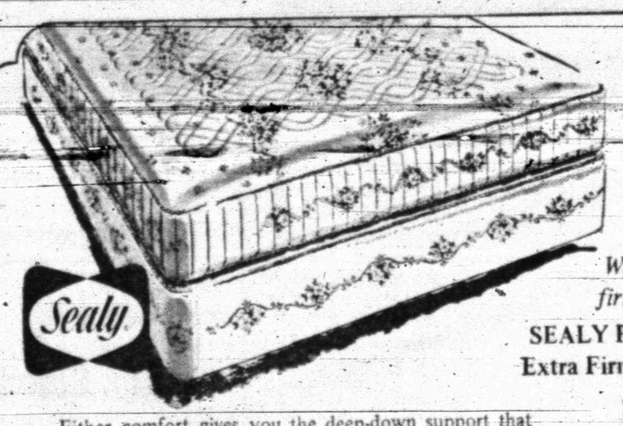

Scale To Aid In Polar Bear Census

SANTA ANA, Calif. (AP) — The State of Alaska has purchased an industrial scale to use in taking a polar bear census.

The Martin-Decker Corp. of Santa, seller of the scale, said the bear is put to sleep for an hour with a dart gun tranquilizer. The census takers then lower a net from a helicopter, hoist the bear onto the scales, yank out a small tooth for age determination—then move out for the next bear before the sleeping bear awakes.
