

Political Announcement

The Snyder Daily News is authorized to announce the following candidates for office, election to be subject to action of the Democratic Primary.

For Congressman, 17th District:
ROY SKAGGS
R. M. BOB WAGSTAFF
OMAR BURLISON

For State Representative, 90th District:
RENAL B. ROSSON

For District Judge:
STERLING WILLIAMS
ARTHUR BLANCHARD

For County Attorney:
WAYLAND O'HAY
ROBERT R. PATTERSON

For Sheriff:
BILL LOVE
HOWARD GIBBONS
FRED BURCROFT
R. P. SEARS
HOWARD MERRITT

For Commissioner, Precinct No. 1:
W. M. MARION DABBS
GRADY WILLIAMS
T. B. KNIGHT
BILL JORDAN
J. ELMO CROWDER

For Commissioner, Precinct No. 3:
JIM STIRLING
J. B. TURNER
KENNETH SMITH
JACKSON W. P. ELLIS
THAYNE W. MEBANE
L. L. "Pat" MOORE
FRED BULLARD
T. P. ALLEN
J. C. (Weenie) MORGAN
JESS EVERETT

Tax Assessor-Collector:
GERALD GREENE

TLE Contests Conducted At Ira School

Results of Interscholastic League competition in literary events for District 15-B have been announced. The contests were held at the Ira High School.

Those qualifying for regional competition were as follows:

HIGH SCHOOL
 Girls Debate—Carole Chorn and Kay Glass, both of Hermaligh.
 Girls Declamation—Glenda Richards, Lorraine, Joyce Blakeney, Westbrook.

Boys Extemporaneous Speech
 Mickey Woster, Hermaligh.
 Girls Extemporaneous Speech—Bannona May and Brenda Hobbs, both of Hermaligh.
 Girls Typewriting—Letitia Hall, Lorraine. Beth Shepherd, Lorraine; Judy Banno, Westbrook; alternate Helen Sturl, Hermaligh.

Northland—Dann Beatz, Lorraine
 Sharron Headman, Westbrook.
 Slide Film—Martha Bacon, Westbrook; Jimmy Tarlton, Hermaligh; alternate, Doris Speart, Westbrook.

Number Sense—Neil Hudgins, Hermaligh; Milton Durnam, Fluvanna; alternate, Ramona May, Hermaligh.

JUNIOR DIVISION
 Boys Declamation—James Mahon, Lorraine; Britt Paty, Hermaligh; David Stuckey, Hermaligh.
 Girls Declamation—Loretta Taitl, Lorraine; Linda Wilson, Ira; Keitha Keever, Fluvanna.
 Story Telling—Kathie Lee, Westbrook; Margie Davis, Hermaligh; Suzanne Taylor, Ira.
 Picture Memory—Hermaligh first, Ira, second; Lorraine, third.
 Spelling and Plain Writing 5 and 6—Hermaligh, first; Ira, second; Lorraine, third.
 8—Fluvanna, first; Ira, second; Lorraine, third.

Number Sense—Kelly Mayes, Hermaligh; Nola Erwin, Ira; Sue Herring, Fluvanna.
 Ready Writing 7 and 8—Beatrice Durnam, Fluvanna; Larry Barfoot, Hermaligh; Joyce Furlow, Lorraine.

WIFE NUMBER ONE PASSES SPOUSE—Mrs. Mary Disch of Lee, Mass., enters courtroom as one of the principals in a love triangle which her schoolteacher husband admitted creating by keeping two wives. Joseph R. Dischino, her husband of 15 years shown in the background, was sentenced to 9 months in the house of correction, but appealed and was released on \$1,500 bail. (AP Wirephoto)

Fires Hit State Forests, Ranges

A rash of forest and grass fires raged over scattered sections of Texas Thursday. The Texas Forest Service said more could be expected unless rains are received.

Hardest hit has been heavily timbered Northeast Texas where six major fires destroyed approximately 4,500 acres of forests in Harrison, Cass and Upshur counties.

The Texas Forest Service District office at Linden said 33 state employees aided by a number of volunteer firefighters were concentrating on the five largest fires.

Smaller forest fires were also reported around Conroe and Henderson.

A brush fire continued to rage Thursday north of Junction in the Hill Country area. More than 25 volunteers were fighting the blaze and Junction High School students were being excused from classes to aid.

The fire, which started Wednesday afternoon, burned over 2,000 acres and officials said that if the wind continued to blow in its present direction, the fire could threaten Junction. So far no homes or cattle have been destroyed.

An uncontrolled fire Wednesday night burned about 3,500 acres of grass and brush near Jargin in Bastrop County. A smaller fire was brought under control after burning about 100 acres on three tranches.

The Texas Forestry Service said that while most of the timber fires were centered in Northeast Texas, there were a flurry of blazes around Conroe Wednesday. A number were reported in the Henderson district and scattered small fires were reported in Woodville, Lufkin and Kirbyville districts.

Tinder-dry conditions—resulting from several weeks of clear weather pose the threat of additional fires, the Forest Service said. Stiff winds in some sections were handicapping firefighters and spreading the blazes.

Floater On Census List

Squads of picked crew leaders and census takers will fan out over the area Friday night in a special 1960 Census drive to contact persons who do not have a fixed address, District Supervisor Max A. Mossholder said today.

The census takers will visit millions of night theaters, and city parks in this special effort to make sure that all residents of the area are counted. Persons who do not have a fixed address are included in the population of the place in which they are located by the census takers.

The district supervisor pointed out that under Census law, all persons 18 years old and over are required to answer official Census questions. The same law specifies that personal information collected by Census takers must be kept confidential. The person who will finally refuse to answer official Census questions is subject to a maximum fine of \$100 or 60 days in jail, or both.

Waterflood Assn. Slates Session

The April meeting of the West Central Texas Waterflood Assn. will be held next Wednesday at the Petroleum Club in Abilene.

The fellowship period, sponsored by Bradford Supply Co., will begin at 6:30 p.m. to be followed by dinner at 7 p.m.

The speaker will be Leonard Villalob, Halliburton Oil Well Cementing Co. of Duncan, Okla. His subject will be "Applications of the Plastic Casing Patch."

Reservations may be made through B. F. Brogdon, 344 Patterson, Building, Abilene. All persons interested in waterflooding are urged to attend.

Youth's Probation Is Revoked Here

A 15-year-old Snyder youth judged to be delinquent in March had his probation revoked by the juvenile court Wednesday. He was turned over to the Texas Youth Council and will be sent to the state boys home at Gatesville.

The probation was revoked when the youth was found to have been connected with a recent series of break-ins in Snyder.

IF WE KNOW ANYTHING ABOUT THE ANIMAL--

Spring Is Blamed For Many Wanderlust Cases Each Year

By INEZ ROBB

...ect. The police of a small town in Montana informed him that they were holding an old gentleman who answered the description. Lieutenant Cronin had circled.

Well, it was the old man all right, living happily in a cheap boarding house with a suitcase full of pictures of Lillian Russell and her competitors in tights. The lieutenant—an astute psychologist—got the old man back home after he extracted a promise from the son and daughter-in-law that the gentleman could keep his art gallery and smoke in the house.

Now this has nothing and everything to do with my running away from home. I don't smoke and I don't have any pictures even of Clark Gable in tights. But when I woke up the other morning and the cold, sleet rain was still lashing the windows, I decided I had had it. The coldest March in history, my history anyway, on top of a cold winter had had enough. But a cold, bitter April to boot!

It was simply too much. I re-embarked the next morning on the corner stand the day before. And a first window filled with daffodils. So I got up and began to tie up a few necessities in an old bandana such as a lipstick, a chocolate bar and an extra pair of inner soles. My husband asked, "I cannot lie," I said, "I am going to run away from home. I love you and my home and my friends, but I cannot stand one more day of cold, dreary, gray weather. I am going South to find spring."

"Would you care for company?" asked my husband, reaching for a spare bandana.

So here we are, probably the only married couple in New York who ever ran away together. But I don't want Lieutenant Cronin to worry. We'll find our way home.

Girl Watching Is Top Sport In Argentina

BUENOS AIRES, Argentina (AP)—It's a good day in Buenos Aires—or better yet if a stiff breeze is blowing—if a good percentage of the male population standing on the corner watching the girls go by.

It's the favorite outdoor sport. Being somewhat of a sport ourselves, we decided to do an on-the-spot street interview.

"Pardon me, sir—I saw you watching the girls and I wonder if you would answer a few questions for the press."

"Si—si—si—I'm delighted. But move over a little please. You're blocking the view. Ah, that's fine."

"Your name please."

"Juan Casanova."

"Mr. Casanova, could you give us an idea of your duties at this corner. I mean a few simple rules for girl-watching."

"Certainly, señor. First you have to find a spot with an unobstructed view. Then you keep your eyes open, swing your head quickly from side to side until you spot a subject. The subject is then kept in observation until its quality is judged. If acceptable the subject is viewed thoroughly, up and down, approaching, if especially worth viewing may continue after the subject has passed. Often back viewing, as it is known in the trade, is very rewarding. However, it is dangerous, especially for an inexperienced watcher; for another subject may be missed. Veterans glance quickly down the street to be sure nothing good is coming. Then and only then they risk back viewing."

"I've been noticing that you come to this corner regularly. Do all of you have favorite spots?"

"Well, some spots are better than others—I like this one because there's always a nice breeze at the corner."

Wisconsin Ballot Proved Nothing

By JAMES MARLOW

Associated Press-News Analysis WASHINGTON (AP)—The Wisconsin primary was a mish-mash.

It proved nothing. Yet all three entries, no matter how they finished, said they felt encouraged. That ought to set some kind of record for American politics.

Take Sen. John F. Kennedy (D-Mass.), who ran first in the state's Democratic presidential primary with more than 478,000 votes.

He was described as elated although, he had been favored to win and could have done better.

Sen. Hubert H. Humphrey (D-Minn.), his rival in the Democratic contest, got about 372,000 votes, or more than 106,000 less than Kennedy.

But he was encouraged because he hadn't done worse.

Vice President Richard M. Nixon, unopposed in the Republican presidential primary part of the election, got only 341,000 votes.

Nixon interpreted his third-place vote as "surprisingly large."

He went even further and told Republicans around the country to look for a Republican victory in the presidential election in Wisconsin in November.

Then guess what? Paul M. Butler, chairman of the Democratic National Committee said:

He said Wisconsin would go Democratic in November.

And his opposite number, Sen. Thruston B. Morton, chairman of the GOP National Committee, said the vote for Nixon was the greatest vote ever given an unopposed candidate in the Wisconsin primary.

The White House said: "No comment."

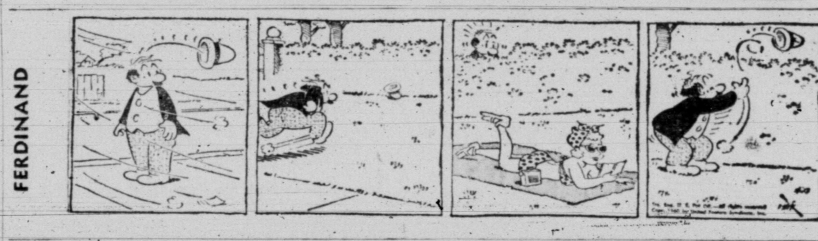

What does it all add up to? Nixon might have done much better if he had gone into Wisconsin to campaign for himself. But he didn't and it was the Democratic contest which got the attention.

Under other conditions in the same state—with just one Democratic entry who, like Nixon, didn't campaign—Nixon might have done far better.

Yet there's a chance the big Democratic vote and the low-mountain-to-the-top spot Nixon landed in may indicate broad Wisconsin discontent with the Republicans and be the forerunner of a nationwide discontent which can't be expressed till November.

On the other hand Kennedy, a Roman Catholic, no doubt owes a big part of his vote to Catholics, both Democrats and Republicans, since Wisconsin is 30 per cent Catholic.

And a heavy vote against Kennedy in Protestant West Virginia might not prove any anti-Catholic sentiment at all—but something unrelated.

Newsman Predicts Trujillo's Regime Likely To Be Toppled

NEW YORK (AP) — The giant wave of political change that has toppled dictatorships throughout Latin America soon will strike again at Dominican strongman Rafael Leonidas Trujillo, says the New York Times.

Times correspondent Edward C. Burks reports after a visit to the Dominican Republic that pressure against Trujillo's 30-year dictatorship "is near the bursting point." Leaders of the anti-Trujillo underground say there soon will be a new and more ambitious attempt to overthrow the dictator.

If Trujillo rides out the crisis, says Burks, "it appears that he can do so only by putting down a new nationwide plot or uprising."

"If he is forced out, the military, the embattled professional class, returning exiles, peasants and workers will all be competing for power," the Times report says, adding that "an invasion from Prime Minister Fidel Castro's Cuba is also a possibility."

Burks in a series of three articles this week gives this picture of the situation in the eastern part of the Caribbean island of Hispaniola.

Before then, the plotters did not realize how numerous they were. Membership in the anti-Trujillo underground is estimated by one businessman exile at between 30,000 and 40,000.

Most of the country's small educated class appears to have turned irrevocably against the dictator. Too many lawyers, physicians and students have been humiliated, defamed or jailed.

Although the 25,000-man armed forces have displayed outward loyalty to the 69-year-old ruler, many of the training cadres probably only come from the same class as the plotters but are related to them. Burks concedes that because of the military's tight grip on the country, Trujillo can be overthrown only if the military decides "that his dictatorship is an anachronism in Latin America and makes common cause with his opponents in the professional class."

The Roman Catholic Church, alternately coddled and pressed

by Gen. Trujillo in the past, spoke out against the "excesses" of the regime, particularly the harsh treatment of hundreds jailed after discovery of the January plot.

Continuing economic ills have added to the unrest. Falling world prices last year cut Dominican revenue for sugar, coffee and cocoa exports from 15 to 25 percent. The country already was in financial difficulties from public works extravaganzas and a top-heavy defense budget.

Businessmen and professionals see their opportunities are limited severely because Gen. Trujillo and associates control many important industries.

The stubborn generalissimo has shown no sign of changing his policies. He still demands complete servility from the 2,900,000 people he rules. He continues to hold the support of the masses of peasants and workers, but the attitude of these classes generally is passive.

Wayward Sea Lion Is Given To Park

OAKLAND, Calif. (AP) — With four escape attempts, Svena Erik today was ordered sent to the more secure facilities of Oakland's Fairyland at Lake Merritt.

The 60-pound sea lion's home had been the wading pool of the Kappa Alpha fraternity house at the University of California in nearby Berkeley although it was the pet of Kappa Tau Gamma, a 19-year-old UC coed.

Tuesday Svena Erik waddled away from the campus and was caught by police.

"This is the fourth time and that's enough," said Miss Toothman, who gave the sea lion to the amusement park.

Spectators View Smoking Ground

PECOS (AP) — White smoke seeping from big cracks in the earth drew sightseers to a natural depression near here in far West Texas today.

Residents of the area reported the smoke, lazily rising up to 200 feet high and smelling faintly of sulphur, first started appearing about a week ago.

Oil company geologists who inspected the site expressed the opinion a big deposit of partly rotted vegetable matter — mainly spruce — had been there — had caught fire. When dried — no explanation how it started.

The spot is about 9 miles south of here in a ranch pasture. Pecos, on cross country U.S. Highway 80, is 208 miles east of El Paso, Tex.

"The smoke is coming from old cracks in the earth — some of them 4 to 5 inches wide and 8 or 10 feet deep," reported Editor Joe Pouns of The Pecos Enterprise.

one of those investigating the phenomenon.

"It's such white smoke you don't see it at a distance. The only fire I saw was in some grass which broke into flame as the peat, or whatever it is, burned in that direction."

The area, known as Irving Springs and not far from usually dry Toyah Lake, is not close to any houses. Pouns said there appeared to be no danger, and it was doubtful the smoke would be noticeable to Pecos residents even if enough wind developed to fan it into town.

Pouns estimated the fire covers about three city blocks.

As the peat slowly turns to ash, he reported, the earth crumbles and leaves treacherous footing.

Mahatma Gandhi's real name was Mohandes Karamchand Gandhi. Mahatma is a Brahmin title meaning "Great Soul" which was given him.

THEY INTEND STAYING—Mr. and Mrs. William Reininger, both 76 years old, pose in front of their stone pre-Revolutionary home near Boyertown, Pa., after half of the front of the house collapsed. "We have lived here for more than 50 years and it will last for us," the couple said. Builders said the stones were laid with a mortar of clay and animal hair. The house has no electricity, central heating or other modern conveniences. (AP Wirephoto)

TV Spectacular Different In Army

By JACK STILLMAN

HUNTSVILLE, Ala. (AP) — Producing a TV spectacular for the Army is little different from turning a television set into a production line, says producer Joe Durand.

Durand, who will be remembered for his 18-month stint as producer of Wide-World World of NBC, is chief of the production crew at OGMSTV. That's the Army Ordnance Guided Missile School station.

The latest Durand special was scheduled today on a closed circuit from Huntsville to West Point, Ft. Lee, Va., and New York City.

Durand says he hopes his former bosses at NBC get a look at the show because it was patterned after Wide-World.

But the particular spectacular, depicting the past, present and future aspects of the Army's missile program, was not together in about 2½ weeks instead of the three months it used to take to make Wide-World World.

And while it formerly took about \$300,000 to make a Wide-World World program, the missile spectacular, if done commercially, would have cost about \$100,000. Those are Durand's estimates.

Of some 75 persons it took to make the show, only 30 were TV professionals. The rest were Army personnel—including three generals.

Durand, whose production crew is employed by the Teleprompter Corp., says the Army is making great strides in its educational television program.

Today's program was to be viewed by about 1,000 cadets at West Point and about 700 troops

at Ft. Lee, Va. The New York screen was for the use of newsmen.

Col. Charles Eifey, commander of the missile school, said such programs actually save the Army money.

He said cost of transmitting the one-hour program to the three points was less than \$2,000. "And we certainly could not have brought the cadets from West Point to Huntsville for that amount."

Worley Early Found Dead

Worley Early, son of Mrs. W. W. Early of Snyder, was found dead at his home near Ballinger Wednesday. Justice of the Peace Earl Coke ruled the death a suicide. Early was found in a room filled with gas.

Born December 18, 1906 in Eastland, Texas, he is survived by his wife, Mrs. Lillian Wadman Early, two sons, Tracy, a student at Union Theological Seminary in New York and Gaston, of the home; his mother; one brother, J. B. Early of Snyder; five sisters, Mrs. A. M. Fox of Snyder, Mrs. Tempy Hooper of Nocona, Mrs. Olive Axtis of Kermit, Mrs. Agnes Drum of Saudi Arabia and Mrs. Vera Britton of Lubbock.

Funeral services will be held at 10 a.m. Friday in the First Baptist Church in Ballinger with J. E. Fowler officiating.

Burial will be in the Snyder Cemetery at 2:30 Friday afternoon under the direction of Bolger Funeral Home.

Young Rhino Dies

CINCINNATI, Ohio (AP) — A normal, 30-pound rhinoceros died during birth Wednesday at the Cincinnati Zoo. Officials said it was only the third rhino ever conceived in captivity in this country.

NAACP Lawyer Says All Backing Sit-Ins

NASHVILLE, Tenn. (AP) — The chief counsel of the National Assn. for the Advancement of Colored People, says the whole force of his organization is behind the Negro sit-in demonstrations.

Thurgood Marshall addressed more than 4,000 white persons and Negroes at Fisk University Wednesday night.

"This is not just a protest to get a hamburger and a cup of coffee and both sides know it," Marshall said. "It is a protest against the whole vicious system of segregation in the South which is aided and abetted by the North and condoned by the federal government."

Fish, Fowl On Week's Bargain List

WEEKLY FOOD REVIEW
BY THE ASSOCIATED PRESS
 Fish and fowl bargains will make fine eating this week for cost-conscious fanciers of the fin and feather flock.

Scallops, shrimp, halibut, lobster tails, rockfish, snapper, swordfish, haddock and cod are featured in many stores with the Lenten season approaching its climax. Seafood supplies are plentiful for the most part.

As usual, frays are the most frequently offered "special" items. The chicken in its various guises at stores in the New England, middle Atlantic and Midwest states. Fryer parts are boosted in the South and roasting chicken in the Far West. Prices vary from region to region. Other stores feature stewing chickens.

A lengthy list of fresh vegetables at bargain prices simplifies menu planning for Jewish families. Far West prices vary from FROM April 11-19. Although peas, corn, beans and rice are not permitted by dietary laws, other vegetables such as carrots, onions, sweet potatoes, potatoes, broccoli, endive, escarole, watercress, cabbage and lettuce are on the outstanding buy list.

Other best buys include asparagus, artichokes and celery, while good buys include snap beans, beets, cauliflower, salad greens, parsley, peppers, radishes, spinach and squash. Fairly expensive tags adorn cucumbers, eggplant, corn peas and most tomatoes. New supplies of California peas and Virginia spinach will help bring those two vegetables down in future weeks.

Oranges, grapefruit, pineapples and bananas continue to head the best buy list among fruits with avocados, Chilean honeydew melons, lemons, rhubarb and apricots rated as good buys. Strawberries and watermelons are fairly expensive.

LEGAL NOTICE
SNYDER PUBLIC SCHOOLS
 The Snyder Consolidated Independent School District Board of Trustees is accepting bids for the construction of West Union Middle School, located on East Main Street, P.O. Box 203 and Avenue M.

Plans, Specifications and Conditions may be obtained at the District Office, School Administration Building, Snyder, Texas, by calling on the District Office, Monday, April 11, 1960, between 8:00 a.m. and 4:00 p.m.

Address: E. D. Flynn, Secretary, Board of Trustees, Snyder Public Schools, Snyder, Texas. (Label) "Proposed" - Return Plans Enclosed.

The Board reserves the right to reject any and all bids and waive formalities therein.

LEGAL NOTICE
 Advertisement for Bids
 The Snyder Consolidated Independent School District Board of Trustees is accepting bids for the purchase of a 1960 model pickup truck, equipped with transmission and heater, to be used by the Vocational Agriculture Department.

8 The Snyder (Texas) Daily News, Thurs., April 7, 1960

Snyder Tries Lobos Today

Snyder today is being shipped to a 9-11 record in four days, though raft of foes take on the Lovell Lobos here at Towle Park today in a 4-15 encounter. The Lobos represent the first foe Snyder has faced in his own class of AAA as all previous Tiger games (with the exception of Tuesday's Tech Freshmen 4-11) have been against 4A outfits. Today's game will mark the final home fray of the local district slate, as their next host-encounter will be the district lifter against Colorado City on April 19. Prior to that time the Tigers will play a pair of road games, the first against the Tech Pioneers at Lubbock April 9, and the other at Levelland April 12. The Lobos will bring to town an impressive 6-2 record to place on the line, their only two losses being to Big Spring over the span of the season they have downed Plain-

Boys' Club Offers Wide Sports Field

A far-reaching and varied sports program constitutes the very backbone of Snyder's Seelye County Boys' Club, which is holding its annual open house here this evening. A great number of the boys who have participated in the program as offered by the Club have gone on from there to stardom in the upper grades of high school and on in to college. They stay at the Club and their taking part in its sports program have aided them in innumerable ways in both their physical and moral development. If it has to do with sports, chances are that the Boys' Club offers it. The current season may boast of such activities as track, baseball, tennis, and boxing, all of which are "in the mill" at the present time. The majority of other recognized major sports, with particular emphasis on football and basketball, are also there for the asking for all local and area boys. Director of the local club is Michie Brown, who has had several years experience at the post and has been instrumental in building up the sports phases as offered by it.

Creaky Ted In Doubt As To Future

SCOTTSDALE, Ariz. (AP)—Ted Williams still is looking for the answer to the question everyone is asking—can a throbbing neck and aging bones carry him through another season as a Boston Red Sox regular. "The neck is neither better nor worse," the 41-year-old slugger said today. "I still don't know what I'm going to do this year." If hard work will prolong the major league career of the colorful Williams, who will mark his 21st season next month, Ted could hang up his "business as usual" shingle in left field right now. Always as sternly dignified as conditioning as he is to have his Williams never has tolled longer or more willfully than this spring. But the neck ailment, which dragged Williams from the lofty heights of American League batting championships in 1957, 1958 and '59, kept him out of last season's season. Ted currently is hitting .324 after appearing in 14 of Boston's 21 exhibition games. And his age is plaguing him in the form of the worst weight problem he's ever faced.

CELTICS ONE GAME AWAY Hawks Down But Not As Yet Out

By JIM VAN VALKENBURG Associated Press Sports Writer ST. LOUIS, Mo. (AP)—The St. Louis Hawks again have their backs to the wall but—maybe because they've been there before—they feel certain that they can square pro basketball's world series with the Boston Celtics tonight. "I didn't panic when Minneapolis had us down 3-2," said Coach Easy Ed Macauley. "We'll have to reach down and come up with another big one. We've done it before." The Celtics by winning tonight can wrap up their third National Basketball Ass'n title in the past four seasons. A St. Louis victory would force a deciding seventh game in Boston Saturday afternoon. The Celtics, of course, are just as confident, although no one would flatly predict a title in six games. Coach Red Auerbach said: "Let's see what happens. Both teams should be up for this one."

Tiger Golf Team Opens 3-AAA Meet

Larry Foust, the Hawks veteran 6-foot-9, 250-pound reserve center, suffered a break in one of the small bones of his left hand in Boston's 127-102 victory Tuesday night in Boston. Foust is wearing a cast and—if he is able to play at all—will be badly handicapped in shooting and rebounding. Rookie Bob Ferry will get a chance in his place. With Boston's great backcourt wizard, Bob Cousy back in top form, Foust injured and Hawk star Bob Pettit still bothered by a back injury, the outlook isn't bright for St. Louis. But there is quiet confidence, something akin to dedication, in

Dallas Slate Is Announced

DALLAS (AP)—The National Football League's Dallas Cowboys will start their home schedule with two night games that do not conflict with Southwest Conference football. The games will be with the Pittsburgh Steelers Saturday, Sept. 24, and the Philadelphia Eagles on Friday, Sept. 29. The conference had objected to the Cowboys' playing weekend games, saying the move was invading their territory. But there is no SWC game Sept. 24. The rest of the Cowboys' home schedule, all Sunday afternoon games, will include Oct. 18 Cleveland, Oct. 30 Baltimore, Nov. 4 Los Angeles, and Nov. 20 San Francisco. **Sundown Star Signs Letter With Buffs** CANYON (AP)—David McCluritt, All-State Class A pitcher from Sundown's state softball team, last season, said today he would sign a letter of intent to enlist West Texas State here.

Between You And Me

By Jerry Jackson Probably the most gratifying performance to come out of Tuesday's Snyder-Tech Picador tilt was the play of one Jerry Guitrie, who was pulled in from left field and given a chance to display his talents at third base. That infield position, aptly dubbed the "hot corner," has traditionally been exactly that for a variety of reasons. Foremost among them is that it takes more than a mere throw from third base to put out the average runner at first, due to the distance involved. Something more on the order of a rifle shot would come closer to being the type of delivery needed to be a top-flight in fielding the position. Roughly, the throw from third as compared to second is double the distance, which can make a lot of difference, especially on a slow roller when speed is all-important. In addition, the third baseman is more vulnerable to getting line drives and hard-to-handle grounders "crammed down his throat" than are the other infielders, as he normally is forced to play in much closer than do the shortstop and second sacker in order to make the long toss. As first and also retain control over his third-base play-making duties. The key-stone combination of second base and shortstop form a dead-end middle nucleus which cannot be carried over to include third so easily, and thus the latter's chores are heightened.

Men's Rifle, Back To The Ranch

He handled the new spot with the aplomb and self-assurance of a trier performer, as he instigated the initial out of the game by hopping on a grounder and erasing the lead runner who was trying to hot-foot it to third. Then in the seventh inning he triggered a double play when he swung to his left, scooped up a hot potato from the stick of ex-Tiger Johnny Drake, tagged out the runner who was tagged from second, and fired to first to nip Drake by three steps.

Sooners Sign Gibson

BRECKENRIDGE (AP)—All State quarterback Jerry Gibson of Class AAA Breckenridge High School said Wednesday he had signed a letter of intent to attend Oklahoma University.

MEN NEEDED NOW!

17 to 40 Years of Age
FOR I.B.M. — ELECTRONIC AND DRAFTING SPECIALISTS

No experience necessary! Work and train NOW for high-paying jobs in the future. Earn \$6,000, \$7,000, \$10,000 a year as you advance.

I.B.M. Specialists, Electronic Engineers and Expert Draftsmen are needed now to operate the automation equipment that is taking the place of ordinary manpower in offices, factories and businesses all over America.

Opportunities and advancements are almost unlimited for trained specialists—the demand will be greater than the supply for years to come.

You actually train on thousands of dollars worth of the latest, most modern I.B.M. equipment under the supervision of I.B.M. trained instructors, Electronic Engineers and Expert Draftsmen.

Only a limited number will be accepted for this training. To determine your qualifications, call Monday through Friday, 9 a.m. - 2 p.m. or 4 p.m. - 8 p.m.

Winter Deals Look To Be Paying Off

By JIM KENSIL Associated Press Sports Writer The Chicago White Sox traded for Gene Fresse and Minnie Minoso in a bid to retain the American League pennant. The New York Yankees acquired Roger Maris in a move to regain the AL title. The Cleveland Indians dealt for Bubba Phillips and bought Bob Hale to try and win that same championship. "I wish those winter deals looked good Wednesday in spring training games. Here's what happened as the White Sox, Indians and Yankees (they finished in that order in 1959) turned in close exhibition victories. Fresse and Minoso had two of the three hits that produced the White Sox runs in a 2-0 victory over the Detroit Tigers at Sarasota. Maris had four hits, including the game-breaker in the Yankees' 10th inning rally that helped the Baltimore Orioles 4-3 at St. Petersburg.

COOL MAN, IT'S THE MOST—Judging from expressions on faces above that Jerry Ross stops a mean boss. The Musical Revue to be presented this coming Tuesday at 8 p.m. in the High School auditorium will be highly spiced with the singing bass of Jerry Ross, along with the Stage Band. For the serious music lovers as well as just lovers of good music there will be the Concert Band and the A Cappella Choir. Admission is only one dollar. Lending an appreciative ear are Gerla Gladson and Peggy Ferguson. (GB)

Farmer To Face Charge In Slaying

NEWTON, 67, was charged by Sheriff J. D. Thomas in the slaying of Hargus, the husband of Newton's step-daughter. The shooting occurred outside the farm home of Newton at Victor, about 6 miles north of this West Central Texas town.

Dist. Atty. Sam Cleveland said that as far as he could determine Newton fired a 12 gauge shotgun at Hargus as he approached the house.

Newton would not discuss the shooting with newsmen and Cleveland refused to make public a statement Newton made.

Cleveland related certain facts following an investigation in which he, Thomas and Texas Ranger George Roach took part.

Cleveland said Mrs. Martine Hargus, wife of the dead man, and her three sons spent the night at Newton's home after accompanying Hargus to the cattle trailer Tuesday at Eastland Tex. Persons who saw the couple there said they appeared friendly. Hargus was a cattle buyer. He and his wife had been married 10 1/2 years and lived about 30 miles northeast of here.

Following the shooting Newton summoned an ambulance from De Leon and called the sheriff's office at Comanche, Tex. Deputies there raided the office of Thomas in Stephenville.

Then Newton, a farmer in this area for more than 40 years, drove his pickup truck to meet the ambulance and led the way back to his home.

Funeral arrangements for Hargus had not been made by late Wednesday night. Survivors other than his wife and sons include his parents and a brother of Stamford, Tex. and a brother believed to be in Odessa.

NEW TB ASSOCIATION OFFICERS are shown above getting a few extra words on the subject of tuberculosis from Dr. J. W. O'Banion at the annual TB Association meeting held at the Village Wednesday afternoon. From left they are M. L. Broman, treasurer, M. L. Andress, vice president; J. Ray Martin, president; Bill Newsome, retiring president who was elected a Director of Large last weekend at a state meeting in Abilene, and Dr. O'Banion who spoke to the group. Missing from the picture is Miss Ruby Butts who was elected secretary. (GB)

Jewels Net Over Million

NEW YORK (AP) — Diamonds by the dozen were among jewels which netted more than a million dollars Wednesday at auction — all from the estate of a wealthy recluse who lived for last years in a debris-littered, 24-room apartment.

A single 23.75-carat diamond ring was knocked down for \$157,500, a world's record.

The jewel collection, auctioned off for charity, was left by Lillian Wald, founder of the Tenement House Settlement, a social worker and roller bearing fortune, who died last October. She was found in her huge Fifth Avenue apartment amid an accumulation of mail, cartons, old newspapers and canned goods.

But the contents of a safe deposited vault yielded what turned out to be the second biggest jewelry auction in this country. When it was over, 120 jewels had gone for \$1,065,470.

Prospective buyers from all parts of the world "bid" and "bid" over the alternating procession of rings, necklaces and bracelets.

The proceeds from the gems, locked in a vault for a decade, go to charitable organizations.

Most Fallout From Nuclear Tests Already On Ground

By FRANK CAREY
AP Science Writer

CLEVELAND, Ohio (AP)—Long hush-hush studies have revealed that all but 10 to 15 percent of the fallout from nuclear bomb tests of the last 15 years has now fallen to the ground, it was reported today.

Clearly indicating that whatever radioactive hazard may exist for man from tests already held, the die is now essentially cast, the report was prepared for the 17th national meeting of the American Chemical Society.

The figures, disclosed as developed principally from Department of Defense studies of the stratosphere, are in sharp variance with recent estimates of some scientists.

The later estimates have figured that as much as one third of all the radioactive debris from bomb tests conducted by the nuclear powers still remains in the stratosphere and that the maximum level on the earth would not be achieved until two to four years from now.

Disclosure of the new figures was made by Dr. J. Laurence Kulp of Columbia University at a news conference.

Kulp told reporters that the new figures result from a Department of Defense study kept secret for more than two years, which ultimately disclosed evidence that there appear to be holes in the tropopause through which radioactive debris can fall more quickly to the earth than previously estimated.

The tropopause is the layer of the atmosphere that lies below the stratosphere.

In another report amplified at the news conference, researcher Ronald G. Menzel of the U.S. Department of Agriculture's research center at Beltsville, Md., said that recent findings show that up to 20 percent of the soil absorbed strontium-90 fallout from atomic explosions is "locked with in the soil" and is not available to plants which enter into man's food chain.

Previously, he said, it had been believed that inasmuch as most of strontium fallout is soluble in water, it was all available to plants.

Strontium-90 is considered as potentially the most hazardous of all the radioactive products because it could cause bone cancer, if absorbed by the human body in sufficient quantities.

TB Assn. Elects Officers

County Judge J. Ray Martin will head the Scurry County Tuberculosis Association for the coming year, replacing Bill Newsome as president. Elections took place at the annual meeting of the association held Wednesday afternoon at the Village Restaurant.

Other officers for the new year include M. L. Andress who will replace Ronald Neighbors as vice president; Ruby Butts who will replace Martin as secretary, and M. L. Broman who will continue as treasurer.

A statement of finances regarding the sale of Christmas seals which was presented by Judge Martin stated that the sale had brought in \$1878.50, only a small part of the potential of an area as large as Snyder, but larger than previous collections.

Dr. J. W. O'Banion gave a factual talk on TB as it confronts people generally, stating that at present the "consumption" of the past that was treated largely with rest and sunshine can now be relieved in early stages by drugs and rest and at times with surgery in its middle stages.

A report by the nominating committee headed by Buford Browning was presented and approved as follows:

Elected to the executive committee were: Mrs. Leon Sterling, Bill Newsome, Mrs. Victor Baze, Dr. Robert Pierce, and Frank Cullum. Elected three-year members of the board of directors were Dr. J. W. O'Banion, Mrs. J. M. Boothe, Harry Vanderpool, Daniel Johnson, Silas Devenport, Mrs. Theodore Soules, Mrs. Opal Koontz, Mrs. Gertrude Barton, Travis Sickle, Carlos Mirares, and Mrs. Bill Pierce.

Two-year holdover directors are J. Ray Martin, Marrionette Baze, Mrs. Leon Sterling, Bill Newsome, M. L. Andress, Frank Cullum, M. L. Broman, Ruby Butts, and Dr. Pierce.

One-year directors include Benjie Funnell, Mrs. H. A. Johnson, Dr. L. M. Dawson, Jack Martin, Roy Salter, Mrs. Eula Williams, Ernest Sears, Bill Lee, and Buford Browning.

A program and budget for the year were approved.

Tomorrow morning at 7:30 has been the time set for the Union Rabbit Drive, and all those wishing to participate are asked to meet at the Union Baptist Church at that time, from which point the drive will begin.

The noon meal a covered dish luncheon will be furnished by the church and possibly lookouts if taken drive.

Shells will be furnished at cost for all participants.

Prominent Texan Dies In Ohio

CINCINNATI—Ohio (AP)—A member of a well known Austin, Tex., family died Wednesday of complications from a fractured hip.

She was Mrs. Clarence Heath Miller, 88, a sister of Judge James C. McClelland of Austin, retired presiding justice of the Texas Court of Civil Appeals.

Her husband, Judge Clarence Miller, was dean of the Law Department of the University of Texas. He died in 1910.

Campaigners Talk Taxes, Finance

By IRWIN FRANK

Texas heard about taxes and state finances from the major political candidates Wednesday.

Gov. Price Daniel, seeking the nomination for governor in the May 7 Democratic Primary, held a press conference in Austin. He told newsmen he firmly believes that an equitable tax program can be developed to meet the needs for the next 20 years without resorting either to a state income tax or to a general sales tax.

Here, a traveler Jack Cox, seeking the governor's office, said that while Daniel opposes a general sales tax, a tax bill was passed under his administration increasing taxes on such things as cigarettes, cars, radios, cosmetics, boats and hotel rooms. Cox said he would support a tax program if it could be worked out by the Legislature.

J. J. Gov. Ben Ramsey also discussed money at a rally in San Antonio. Equitable taxation first requires savings and economies where possible, he said.

Ramsey said he opposed a state income tax or any further taxes on homes and called for a finish of the fight against loan sharks.

Pipeline Due By Next Fall

From near Emerson the Midwesterner gas transmission Co. officials say.

N. W. Freeman, president, after receiving export permit approval from the Canadian government Wednesday, said:

"We will get our project under way soon."

The permit authorizes TransCanada Pipe Line Ltd. to deliver 200 million cubic feet of gas daily to Midwesterner at a border point south of Emerson, Manitoba.

The Federal-Power Commission in Washington had approved the project in October, subject to issuance of the Canadian export permit.

From near Emerson the Midwesterner line of 24-inch pipe will run southwesterly to Marshfield, Wis., where it will be into facilities of Michigan Wisconsin Pipe Line Co.

The bulk of the gas will be delivered to Michigan Wisconsin, a subsidiary of American Natural Gas Co.

If we made Gladiola Flour for Santa Claus, Ind...

the quality wouldn't be so important

...but we make it for you

Gladiola Flour is tailor-made for one special group of homemakers. They live in Texas (or right next door) and they bake the best biscuits, pies and cakes in the U.S.

These ladies are flour experts. They know what they want, and nothing else is good enough. So far (for 47 years) we've kept them satisfied. Today and every day, Gladiola Flour is outselling every other brand.

As for Santa Claus, Ind., women, they've never dreamed there's a flour like snow-white Gladiola. And they'll never know, as you know, that Gladiola quality is your best bargain in flour. Surprisingly, it costs the average family only about 1/2 a day more than the cheapest flour made.

Bake and be Glad—with

GLADIOLA FLOUR

The best-selling flour in the Southwest

(Of course there's a Santa Claus, born in Snyder County, near the Blue River.)

PRICED THE LEAST...

HOLDS THE MOST...

IN A FULL-SIZE WAGON! You'd never know it by looking, but this is America's lowest-priced full-size wagon! Its 97 cubic feet of loadspace is the biggest in its field. Extra-wide rear gates open easily, with one hand, to make loading a cinch. And this Ford Ranch Wagon is built for people. You get a foam-padded front seat, plus leg, hip and head room to spare. And it's built for savings, too. It thrives on low-cost regular gas. A Full-Flow oil filter lets you go 1200 miles without an oil change. The aluminum muffler normally lasts twice as long as conventional types. And its Diamond Lustre Finish never needs waxing.

Based on a comparison of manufacturers' suggested retail delivered prices.

Demo Battle Scene Now Is West Virginia

By HERB LITTE
CHARLESTON, W. Va. (AP)—Those Democrats who are bent on stopping Sen. John F. Kennedy (D-Mass.) or at least slowing him down before the July 11 national convention will get their next big chance in West Virginia.

But the result, either way, will be largely psychological since no delegates will be bound.

Campaigning begins this weekend in a rematch between Kennedy and the man he topped two days ago in the Wisconsin presidential primary. Sen. Hubert H. Humphrey (D-Minn.)

There aren't many known supporters of either Kennedy or Humphrey among those running for delegate. And political observers say they don't expect that situation to change, regardless of the outcome of the May 10 voting.

Humphrey will go on the road first. His campaign bus is due to leave here early Friday morning for a swing through southern West Virginia.

Kennedy will begin stumping Monday, also with a series of appearances in the southern part of the state. But already his two brothers, Robert and Ted, are meeting here with campaign workers. Flying in from Wisconsin Wednesday, Robert Kennedy said his brother would consider "a bare majority" as a major victory in West Virginia.

The nonbinding race here after the Wisconsin verdict would be like having battling practice after the crucial game, except for two things:

1. The prospect that overwhelming Protestant West Virginia will furnish a truer test than Wisconsin of the religious issue which arises because Kennedy is a Roman Catholic.

2. The fact that this is the next-to-last big chance his party toes will have to upset the Kennedy handwagon in a primary. Not until the Oregon voting May 20 will Kennedy again go against serious opposition. Entered in the Democratic primary there along with Kennedy and Humphrey are Sen. Democratic Leader Lyndon B. Johnson of Texas, Sen. Stuart Symington of Missouri, and Sen. Wayne L. Morse of Oregon.

Here as in Wisconsin, both candidates undoubtedly will stick to the position that religion should not be an issue. But they can't keep it from being discussed. Its possible effect already is being discussed wherever people gather to talk politics in West Virginia.

A solid Kennedy victory here might do for him what his Wisconsin victory did not. It might dispel the fear felt by some party professionals that Kennedy, as a Catholic, would not win in November against the Republican nominee, almost certain to be Vice President Richard M. Nixon.

Catholics account for just over 15 per cent of church membership in West Virginia and not quite 5

per cent of the total population. The percentage of Catholics may be higher among Democrats, who will do all the voting in the Kennedy-Humphrey contest. Unlike Wisconsin, West Virginia does not permit cross-over voting in primaries.

The Catholic population is heaviest upstate, especially in the steel towns.

Rural West Virginia is practically all-Protestant, mostly Methodists and Baptists. Southern West Virginia is overwhelmingly Protestant, but there are Catholic parishes in some coal-mining sections there.

Although opinion is not unanimous, many West Virginia politicians think religion will work for Congressionalist Humphrey and against Catholic Kennedy in the areas of almost complete Protestant sway.

If so, another factor could work in the opposite direction in rural West Virginia, where Democrats tend to vote for men of somewhat conservative stamp. This is Humphrey's reputation of being a militant liberal.

As between Kennedy and Humphrey, the state leadership of both the AFL-CIO and the United Mine Workers is officially neutral.

The president of one of the state's three big UMW districts—Raymond O. Lewis of District 17—said that as an individual he favored Humphrey, although as district president his policy would be hands off. A few UMW locals are reported to have taken a stand for Humphrey.

Twelve delegates-at-large to the Democratic National Convention and 12 congress-at-large delegates will be elected in the West Virginia primary. Rounding out the state's 25 convention votes will be one-half vote each for the national committeeman and national committeewoman.

Right now Lyndon B. Johnson appears to hold the strongest chance for support in the West Virginia delegation.

The state's two U.S. senators, Robert C. Byrd and Jennings Randolph, are for Johnson. So is John E. Amos of Charleston, the state's national committeeman.

WIN OR LOSE, A MAN MUST EAT—Digging into food, Sen. Hubert Humphrey stands with smiling Sen. John F. Kennedy while waiting for a television appearance in Milwaukee. At the time their paths crossed, Humphrey had just been told he was trailing 30,000 votes behind Kennedy, the ultimate winner, in Wisconsin's presidential primary between Democrats. (AP Wirephoto)

Say Wilkerson Was In Commie Group

DALLAS (AP)—The Dallas Morning News said today in a copyrighted story that a recently fired Negro college professor at Marshall, Tex., and his wife were active in a Communist-front school in New York.

The fired professor is Dr. Dorey A. Wilkerson, who had been a member of the Communist Party for several years until publicly resigning in 1957. His wife is still employed by Bishop College, a Baptist institution.

Students from Wiley College, a Methodist school, and Bishop both took part in sit-in demonstrations recently at Marshall. Both are Negro schools and each has about 500 students.

Wilkerson a faculty member at Bishop, was fired last week by College President Milton K. Curry Jr. Mrs. Wilkerson was allowed to remain on the faculty.

The Dallas News reported that Wilkerson and his wife, Volanda, were connected with the Jefferson School of Social Science in New York, which was branded as a Communist-front outfit when the New York State Legislature investi-

gated Communist and Communist-front organizations four years ago.

The Jefferson school was found to be a Communist-front organization in June 1955 by the Subversive Activities Control Board in Washington and was ordered to register with the attorney general.

Mrs. Wilkerson was listed in the school's catalogues in 1953 and 1954 as an instructor there. The 1955 catalogue listed her as registrar.

Youth Gets Sight Back

COLUMBUS, Ohio (AP)—Roger Skaggs, blind in his left eye for eight of his 13 years, suddenly regained his sight while in his sixth-grade class.

Rogey said he reached for a textbook the other day and suddenly his eye "popped." The eye had been damaged by an exploding dynamite cap when he lived near Paintsville, Ky.

"Mrs. Meyer, I can see," the boy shouted, interrupting the class.

The teacher, Mary Meyer, quickly asked the boy to turn his back. She wrote his name on the blackboard—without the capital R. She covered Rogey's good eye and asked him to read the word.

"Roger, but the 'R' should be capitalized," he answered.

The boy and his mother, Mrs. Escorn Skaggs, plan to see an eye specialist for a check of his restored sight.

Slide In Stock Market Has Effect On Public Thinking

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP)—The stock market works on the mind as well as the pocketbook—This year's drop in stock prices of 10 per cent and more leads some to see it as signalling a break in economic activity. Others doubt it is that good a barometer.

But the slide in prices does affect public thinking.

Many interpret it as meaning "These guys down there must have the inside dope."

There has been no panic and no hint of a coming depression. The general economy now makes comparisons with the past of considerable less value—8-Corporate affairs are much more a matter of public record now than a generation ago when only the insiders had the dope.

But the debate over how good a barometer the stock market is of coming business activity will go on for some time. Good or bad, it does affect confidence and spending plans, particularly those of businessmen setting inventory and investment policies.

A study of past performances of the stock market by the Investment Company of the Morgan Guaranty Trust Co., New York.

It notes that over the years the curves of stock prices and business activity generally have tended to move in the same direction with the stock curve usually ahead of the business one.

But it warns of two hazards in jumping to conclusions: 1. The relationship of the curves varies widely in specific cases; 2. There have been false signals in the stock market which business ignored.

Even in the big 1929 break, stock prices turned down quite a bit after business activity had peaked. The market then "found" and in 1945 and 1946 stocks turned down and business activity continued to rise.

As an example of false signals, the survey cites the long price decline in the early 1930s which "was punctuated by a series of revivals, one of which continued for five months and was widely interpreted as forerunner of business recovery until it gave way to another price collapse."

A more recent example of the "barometer" came in the period from August 1956 to February 1957. The almost continuous seven months decline in stock prices didn't face business activity. Finally the market reversed itself and climbed back to its previous peak.

These admittedly are exceptions to the general rule of the close affinity of the market and business health.

But even so, the business men hold "Stock prices being a resultant of many diverse forces, are at best a hazardous device for business forecasting, at worst they can be grossly misleading."

The broad-brimmed hat, the sombrero gets its name from the "sombrera" which means shade

of the Communist Party representative at the Jefferson School to make sure that the curriculum and teaching coincided with current thinking and policies of that party was discharged through guidance received from articles in political affairs and by direct liaison with Communist Party national headquarters.

Mrs. Wilkerson was an unopposed witness in the New York legislative investigation of Com-

Woman Convicted Of Slaying Child

ABILENE, Tex. (AP)—A jury Wednesday found a young mother guilty of murdering in the death of her 5-year-old daughter, Beatrice, Nov. 21.

Sentenced to five years in prison was Mrs. Emily Marie Shay, 23, who claimed she only spanked the child. Doctors testified the girl had a broken arm and bruises over the body. The child died 12 hours after being taken to a hospital by the parents.

Mrs. Shay's husband, Alrman 20 Harold C. Shay, is stationed at Dyess Air Force Base here. The couple is from Alpena, Mich. They have two other children, Rickey, 3, and Deborah, 1.
