

**MARCH IS MONTH TO ENROLL
SCHOLASTICS IN KIMBLE CO.;
BLANKS GIVEN ENUMERATORS****Local American
Legion Post Is
Offering Medals**

V. P. Emmons Explains Plans
And Purposes to School
Students

The Burt Fleming Post of the American Legion is offering two medals to the Junction schools to be awarded during the commencement exercises. One medal is to be awarded the pupil in the high school who is graded highest by the faculty in honor, scholarship, service, courage and leadership. The other medal will be awarded to the grammar school pupil who is graded highest by the grammar school faculty on the same points listed for high school students.

At a meeting of the pupils of the grammar grades and high school presided over by Superintendent Guy C. Moses Monday morning, V. P. Emmons of the American Legion explained the purposes and plans of the legion post in awarding these medals to the schools. The committee that visited the school is composed of V. P. Emmons, G. W. Crabb, K. G. Durst, O. H. Floyd, and Jim Carpenter.

**Supt. Guy C. Moses Is
Census Enumerator
For Junction School**

Superintendent Guy C. Moses is taking the scholastic enrollment for the Junction Independent School District, and asks the co-operation of all parents and guardians in getting a full enrollment of all children in the district. Only those children who are six and under eighteen years of age on September 1, 1931 will be enumerated. Children born on or before September 1, 1931, or after September 1, 1925, must not be enumerated.

If the parents will have the ages and birthdays of the children ready for the enumerator, it will save much time.

**Burt Fleming Post
Meets Monday Night**

A meeting of the American Legion post was held in the court house Monday evening with Commander Allen Hull presiding. Several matters of business were discussed including the organization of an auxiliary. A meeting of the women and legionnaires will be held at an early date to consider the matter further.

After the business session, the Post repaired to the O. S. T. Cafe, where Mr. H. H. Lawler served a chicken dinner to the members.

HELP FEED ORPHANS

Everyone interested in the orphan children at the Beuckner's Orphan's Home is requested to contribute to an egg shower for these children Friday and Saturday, March 13 and 14. The eggs are to be brought to the home of Mrs. E. M. Burt on the west side of the square. The home is supported by volunteer contributions and the Baptist women of Junction are sponsoring the shower.

"EAT MORE LAMB"

Renewed energy is being put forth in the "Eat More Lamb" campaign. Reagan and Pecos counties have gone over the top and six other counties have passed fifty per cent. Kimble county remains at a standstill with 19 per cent.

Mrs. J. H. Maxwell of Austin is here visiting Mr. and Mrs. H. P. Rankin.

**Table Submitted To
Aid All Census
Trustees**

County Superintendent R. R. King has distributed the new census blanks to the various school districts in Kimble county for the enumeration of the children within scholastic age. Some time this month the census enumerator will call at the homes to enroll the children. Only those children who will be six years and under 18 years of age on September 1, 1931, and who live in the district on the first day of April, should be enrolled. Children born on or before September 1, 1931 or after September 1, 1925, must not be enumerated. The names of both parents must be written on the blank this year.

School census enumerators will find the table given below very helpful in determining the year in which children were born when the age and birthday are known. From experience the writer has learned that very few mothers and practically no fathers can tell the year in which their children were born. They can tell you (the mothers) can how old their children are, and usually the birthdays, but not always the year.

In order to eliminate errors in getting the correct year in which the children were born and to simplify the work of the census enumerators the manager of the Junction Eagle has worked out this table which makes it easy to get the year of the children's birth when the age and birthday are known. To illustrate: If a mother tells the census enumerator that her daughter was 11 on October 10, a look at the table will show that she was born in 1916. Suppose another mother tells you that her son was ten in February. The table reveals that he was born in 1921. One other illustration ought to make the table clear. Suppose a child is 17 in June. A study of the table will show that he was born in 1914. One 17 in December would be born in 1913.

If census enumerators will study this table carefully it will save much time and many errors. Make you a table like this one or cut this out and paste on a piece of cardboard and see how valuable it will be to you who will take the scholastic census.

WEATHER REPORT

March blustered in "like a lion" last Sunday, leaving a trail of snow across the Panhandle and western Texas. It was cold and threatening to snow in Kimble County. The clouds disappeared Sunday night but some ice and frost were present Monday, Tuesday and Wednesday mornings. It is not known how much damage the frost did here, but it is believed to be light.

The weather has been ideal and farmers and ranchmen are hoping that spring is here and old man winter will not disturb her majesty with any more of his cold blasts.

Mr. and Mrs. I. O. Weldon and Forrest Weldon returned last Tuesday from Temple where Mr. I. O. Weldon had been for an examination and treatment.

**New Buildings
Are Now Under
Construction**

\$80,000.00 New High School
Will Be Ready For Fall
Session

Considerable building is going on in Junction in spite of the depression. The largest building project is the new \$80,000 high school building, being erected by Hill and Combs. The first floor is completed and the forms are going up for the second this week. The building will be completed in time for the fall term of school.

A filling station being built by the Sinclair Oil Company, is now going up on East Main Street. Mr. Glossbrenner will be in charge of this station when it is opened about the first of April.

Mr. and Mrs. Leslie Winslett are building a neat cottage in the Heyman addition. It will soon be ready for occupancy. Mr. N. H. Skaggs is building a small hot house on his property one block east of the fire station. This will be a great convenience for Junction. Mr. and Mrs. Carl Tibbett will operate the new enterprise.

Mr. G. R. Ragland and Mr. C. D. Kindrick have recently completed new homes and have moved into them.

Mr. Wm. R. McKee has rebuilt his new residence and it looks like a new building.

**Rotary Radio Talk
Over KWKH March 12**

Dr. Claybrook Cottingham, President of Louisiana College at Pineville, Louisiana, will deliver an address on "Some Observations on International Trade" over station KWKH at Shreveport, Louisiana at 8:00 o'clock on the evening of March 12.

Dr. Cottingham is an enthusiastic Rotarian and the address is in keeping with the principles advocated by Rotary.

LIVE AT HOME

M. B. Bethel is advocating a "live at home" campaign and conducting an evening school for several weeks. At the close of the school he distributed some instructions for the benefit of those interested.

In these instructions he urges Kimble county to make an effort to produce a living at home by having a home garden, keeping enough hens to produce the eggs for the table and some for sale, enough dairy cows to supply the table and help feed chickens and hogs, raising hogs for meat. He also gave instructions on how to feed the hens, cows and hogs, and urged that vegetables that can not be consumed or sold be canned for winter use.

Mr. Walter Tinsley is on a business trip to Denton, Texas.

"BRACE UP, OLD BOY, YOU'LL PULL THROUGH"**George Robert Pepper Wins First
Place In 4-H Club Livestock Show****Boy Scouts Bicycle
To Kerrville To Pass
A Merit Badge Test**

The local boy scouts held their regular meeting last Friday night at seven thirty o'clock, with Rev. Bolton Boone, pastor of the Junction Methodist Church, as a visitor. Brother Boone delivered an interesting and instructive talk on the life of George Washington and how his life and work applied practically to Boy Scout work.

The Scoutmaster announced that a prize, a cooking set, would be awarded the Scout making the best record in attendance and general scout work.

The Junction boy scout troop has made considerable improvement and progress of late. They now have three first class scouts. There are twenty-two members in all.

Virgil McCoy, Freddie Ramsey, and Keidel Sheppard bicycled to Kerrville last Saturday to pass a merit badge test. They left Junction at 8 o'clock and arrived at Kerrville at 3 o'clock in the afternoon. The trip was made without trouble.

**Fishing Season Closed
On Crappie and Bass**

Closed season on Crappie and Bass in Kimble County became effective on March 1st and will continue in effect through April 30, according to Mr. S. O. Durst, local game warden.

A few local citizens reported good catches on the last day of the season.

The closed season in Kimble county waters does not include catfish which may be taken legally now provided they are nine inches long.

**District Governor Pays
Visit To Local Club**

District Governor Walter Walthall of San Antonio paid the Rotary Club of Junction an official visit today. He met with the board of directors at 11 o'clock and addressed the entire club at the 12:15 luncheon. He brought a good message on Rotary International.

Governor Walthall complimented the local club. He stated that it is not as large as a city club, but wielded a greater influence.

Rev. and Mrs. Bolton Boone are the parents of a fine little daughter, born this (Thursday) morning, March 5.

Mr. and Mrs. H. T. Templeton of San Antonio were guests of Dr. H. E. Wright Sunday.

Howard Listler spent the first of the week in Austin.

**McIntyre Case
Is On Trial In
District Court**

O. D. Sanders Gets One Year
In Penitentiary In Liquor
Case

The case of the State of Texas vs. S. H. McIntyre was called in the district court Monday morning and is on trial at the time we go to press. It will go to the jury today (Thursday). The case was first tried in Ft. Stockton with a hung jury. It was then transferred to Junction and tried in the August term with the same result.

It is a hard fought case with District Attorney Weaver H. Baker, County Attorney J. E. Stevenson, Hon. Coke R. Stevenson and Hon. Dayton Moses of Ft. Worth representing the State and Hon. Will A. Morris and Judge M. E. Blackburn representing the defendant.

The jury is composed of C. W. Atchison, Craft Moos, F. S. Bissett, Herbert Gamel, J. L. Vance, Clyde Brewer, G. W. Landers, M. B. Marr, S. M. McWright, L. R. Hodges, R. N. Davis, and Howard Horn.

Last Saturday the case of the State of Texas vs. O. D. Sanders, charged with the sale of intoxicating liquor was tried and a verdict of guilty rendered and the punishment assessed at one year in the penitentiary.

Several cases have been tried this term of court with a conviction in every case completed thus far.

**S. S. Bundy Gives Fine
Ram to Orphanage**

Mr. S. S. Bundy, grower of the finest sheep to be found, gave the Buckner Orphans Home in Dallas a fine Rambouillet ram Saturday which was auctioned off by District Attorney Weaver H. Baker immediately following the auction sale of the 4-H Club calves.

The ram brought \$127.50 which has been sent to the Orphans Home at Dallas. The local Baptists thank Mr. Bundy for his interest in orphan children and this fine gift.

**CHURCH SERVICES WILL
BE HELD AT IVY SUNDAY**

Morning worship will begin at eleven o'clock next Sunday morning. At noon a basket dinner will be served. At two o'clock there will be another period of worship. Rev. G. W. Crofoot, pastor of the Junction Presbyterian Church, will do the preaching at both services. Every one is cordially invited.

RAINFALL

Ranch and farm conditions are much improved thus far this year over last. Mr. E. Holkamp, weather man for Kimble county, makes the following observations on the rainfall the first two months in 1930 and 1931.

January 1930	.17
February 1930	.75
January 1931	3.17
February 1931	2.42

A good season is in the ground and farmers are encouraged over the range and crop prospects. The greatest discouragement is the low price for all farm and ranch products.

Applications for aid on the bonus bill passed recently by Congress are coming in slowly according to Postmaster Earl Tracy and A. W. Browning who are handling the applications here. Only twenty had been filed Thursday morning.

Mr. H. O. Denman has been confined to his room for several weeks on account of illness.

**Neal Lambert Winner
In 1930 Gets 2nd
Place****CALVES AUCTIONED**

Sale Averages 8.26 For
All Animals In
Contest

George Robert Pepper won first place in the 4-H Club Livestock Show last Saturday, thereby becoming owner of a fine registered Hereford heifer calf, given by Gordon Stewart, well known breeder of fine cattle in this section. The steer calf, fed by George Robert, was also one of the Gordon Stewart herd.

Sixteen calves were entered in the contest and they were all choice feeders. County Agent W. I. Marschall of Tom Green County acted as judge, and he found it no easy matter to pick the winners.

Second place went to Neal Lambert, who had the winning calf in 1930. His prize was a pair of hand made boots made and contributed by E. O. Lowgren of Junction. Mr. Lowgren is interested in the good work the boys are doing and was glad to encourage them by giving a \$30 pair of shop made boots.

Woodrow Kothmann won 3rd place and was awarded a solid gold medal, given by the Kimble County Chamber of Commerce. A 10-K rolled gold medal was presented to George Robert Pepper, who won fourth place with another calf. Neal Lambert placed fifth with another calf and was awarded a sterling silver medal. The sixth prize, a French bronze medal, was awarded Frank Wootan, while Dorothy Jarvis, the only girl feeding a calf, was awarded a bronze medal as winner of 7th place. She was also awarded another medal by the Kimble County Chamber of Commerce as a special recognition of the good work she has done.

All the feeders deserve special mention, but the above were placed at the top of the list by the judge. Woodrow Kothmann was also awarded a beautiful leather show halter for having the best trained calf. Immediately after the show the calves were auctioned off to the highest bidder. The winning calf brought the highest price—104.4 cents a pound. The calf weighed 858 pounds and had gained during the 180 days feeding period 488 pounds. The average price received for all the club calves was 8.26 while the average daily gain during the feeding period was 2.07 pounds.

In later issues of the Eagle more information will be given about this educational feeding contest which closed Saturday. Marketing of home grown feed and other subjects will be treated from week to week. The results of the contest will be given in later issues of the Eagle.

(Continued on last page)

TRAP SHOOTING

Walter Buck, Earl Tracy, Max Riley, Frank Coarsort and Fred Mudge are making a trap for shooting on the aviation field just east of Junction. The building is up and the trap is expected soon. This is not an exclusive club and the privileges will be extended to everyone.

CITY ELECTION

City Secretary John S. Munn posted notices this week calling for the election of a mayor and five aldermen on April 7, 1931. Joe Bissett is appointed presiding officer. Alton Mason and Albert Taylor are the judges and Misses Katie Wilson and Lela Taylor are the clerks.

SENIOR SPECIALS

Lois Goodwin
 One of our noisy, mischievous seniors is Lois Goodwin. Lois is somewhere between five and six feet tall, has brown hair and blue eyes. She was a member of the J. H. C. Club last year. She is on the entertainment committee of the Senior Class and of the Journalism Club. Lois likes all sports and she can not decide what she wants to be after graduating this year. She certainly has the power of making people blush.

Louise King

Who should be the senior flapper but Louise King? Louise joined the Junior Class last year after attending the Segovia School for a number of years. Louise is a ring leader for mischief. She was a member of the J. H. C. Club last year and is on the entertainment committee of the Senior Class. She is also a member of the Journalism Club. Louise is forward on the basketball team. She is five feet one inch tall and is somewhat of a blonde. Her aim in life is to beat Cedar Hill.

Vernelle Tinsley

The singer of the Senior Class is "Red" Tinsley. She gets her name from her auburn hair. Vernelle came here from San Antonio when in the 7th grade. She was a sophomore last year, and by attending made enough credits to graduate this year. She was a member of the Glee Club last year and is reporter for it this year. She is also an enthusiastic member of the Journalism Club and Civics Club this year, and is guard on the basketball team.

In order to have a good school newspaper the students must be interested. An attractive heading is the first essential to have an effective newspaper. The school emblem should be placed next to the title. The Menard paper carries out this feature to an advantage. It is hoped that the Eagle Screams will have an eagle emblem by the side of the title next year. To make a school paper successful, a competent staff is necessary. This staff must know how to secure news from every department in school, such as class work, athletics, and social activities. If these forces are at work, the result is a successful paper.

Can You Feature?

Christine with red hair?
 Veola without Raymon?
 Overby without glasses?
 Louise with brown eyes?
 Harry with small feet?
 Lorena short and fat?
 Harrell with straight hair?
 Doyle without his mustache?
 Katherine not laughing?
 T. M. not talking?

HONOR ROLL

The high school honor roll for the past term is as follows:
 Grade 8—Marquerite King.
 Grade 9—Lucille Williamson, Marie Sheppard.
 Grade 10—Helen Merwin, Mary Elizabeth Merwin.
 Grade 11—Ella Simon.

AMERICAN LEGION WILL PRESENT MEDALS TO HONOR STUDENTS HERE

Monday morning at 8:30 Mr. V. P. Emmons, representing the Junction Post of the American Legion, addressed the high school and sixth grade students, who had assembled in the study hall at the request of Superintendent Guy C. Moses. Mr. Emmons stated that students of good training tried to make the work easier for the teachers. To show the students that the American Legion is eager for them to get the most they can from their school work, the Junction Post of the American Legion is awarding two medals at the Commencement exercise to the grammar grades and high school honor student selected by the faculty. The selection will be based on the following requirements: honor, courage, service, leadership, and scholarship. This is the first year the American Legion has done this in Junction; however the practice is to be kept up each year hereafter. The Rev. G. W. Crabb led the assembly in prayer. Mr. Kittrell directed the song, "America." Other ex-servicemen present were Messrs. Ollie Floyd and Jim Carpenter.

Mr. Moses thanked the committee for the students. Every pupil present expressed a desire to work to win a medal.

JUNCTION GIRLS BEAT SONORA IN BASKETBALL

The Sonora Girls' Basketball team dropped a game to the Junction girls last Friday by the score of 24 to 14 with Maud Boone as high point scorer for Junction. Both teams played a good game and showed excellent sportsmanship. Only the first team of Junction played, but it was necessary for Sonora to put in two substitutes. The girls that made the trip to Sonora were: Margaret Hubbell, Lois Goodwin, Maud Boone, Katherine Johnson, Eunice Northcutt, Louise King, Benita Barnes, Kathryn Hodges, Lorena Couey, and Vernelle Tinsley. Mr. and Mrs. Guy C. Moses accompanied the girls.

PATHE CLUB MEETS

Monday the Pathe Club met with the vice-president presiding at the meeting. Several members of the club were fined for disobeying the club laws. The members gave several interesting reports. The club colors were changed from silver and blue to white and blue.

Kathryn Hodges went to Sonora Friday.

For car washing and greasing take your car to the Powell Motor Company. 38c

HISTORICAL SKETCH OF JUNCTION NEWSPAPERS

(By Lucille Motley)

The first newspaper printed in Junction that we have any knowledge of was the "West Texan" which was established by Mr. N. C. Patterson in 1883. The name of the paper was later changed to "The Junction Citizen." James W. Bowler was the next owner we have any account of. He sold to Herbert Winslet, who was the owner only for a short time. He then sold it to Sam Jeter, who is now a resident of Kimble county. Mr. Jeter bought the paper in 1909 and sold it sometime during the year 1911 to Clarence Nichols.

Another paper, "The Kimble County Light" was started at this time by Horace Wilson. Pickett was the next owner of the "Kimble County Light," and later the two papers consolidated. Nichols owned the paper after December 17, 1917. In 1919 the name was changed to the Junction Eagle with J. D. Motley as editor and manager on April 1. At this time the paper was owned by a stock company.

On April 2, 1920, Mat Bailey of Cameron succeeded Motley as owner. H. G. Perry bought the paper on September 23, 1926. Later Weaver H. Baker became owner. A six column paper was then published. Mr. Baker sold to the present owner and publisher, Mr. E. McLendon, on October 1, 1928. The paper has since been a six column paper. The students agree that Mr. McLendon deserves commendation for the good work he has done on the paper.

Through many years of progress Junction now has an ideal publication for a town of this size. Mr. McLendon stated that he was planning to issue a 50 page paper on the 50th anniversary of the paper. This will be in 1933.

SENIOR PUZZLE

The following statements represent the senior girls. Can you figure them out?
 A man's name combined with a dress material.

One who takes care of the luggage at the depot.

Change the "a" and "o" and we have one who mends shoes.

The first syllable is a part of a wagon or car; the last a summons to church.

Change "n" to "a" and it means attention.

Two of a kind and the name is hard to define.

A royal ruler.

The first syllable is a container of canned products; the last is (v. i. s.).

Jewel Riley visited in Menard Sunday.

JOURNALISM CLUB HAS REGULAR MEETING

Members of the Journalism Club assembled in the study hall last Monday for their regular weekly meeting. In the absence of both president and chairman of the entertainment committee Lorena Couey opened the meeting. The minutes were read and the usual formalities observed. The following program was then rendered:

Song—Catherine Merwin.
 "History of the Junction Paper"—Lucille Motley.

Discussion of high school papers—Mae Delle Lowry.

Reading—Mrs. Olney Patterson.

Sketches of the above listed talks appear in this issue of Eagle Screams. The meeting was adjourned at 12:00.

The low fifth English Class is working on a book entitled, "Home Helpers." This article on the subject of saving money for our fathers was written by S. L. Guthrie:

"SAVING MONEY"

Every boy and girl should learn to be a little more thrifty.

There is nothing any more provoking for a father than for a child to be extravagant.

Some children encourage their mother or father by saving only a nickel.

My opinion is that every child should be thrifty and not get so much candy, gum, and other things.

If you do this you will live a happy life.

Famous Sophomore Excuses

Tommie—I know but I can't explain it.

Lucille T.—I've forgotten.

Mae Delle—I've studied the wrong lesson.

Maxine—I was sick last night and didn't get to study.

Juanita—Did you assign that lesson?

Christine—What was the question?

Leola Hodges was absent several days last week.

COUNTRYSIDE BROADCASTINGS

By Rev. G. W. Crofoot
 Pastor Junction Presbyterian Church

THE SOUTHERN BAPTIST Seminary at Louisville, Ky., is the largest Protestant theological seminary in the world. The annual pastor's Conference this year will be held there March 9-19. The second week will be devoted largely to the interests of the country church. During the week, Dr. Henry W. McLaughlin, Director of Country Church Work, Presbyterian Church, U. S., will deliver six lectures and hold some conferences. The students of the Southern Baptist Theological Seminary report to the institution their activities during the year as a part of their required course. During the year 1930, they preached 14,387 sermons, had 2,987 conversions, held 9,230 religious interviews and contributed from their own resources \$15,395.87 for Kingdom extension. The denominations are waking up to the fact that not only is it necessary that the country ministers of this new day should be men of culture and a liberal education, but it is imperative that they have a definite training for the challenging task which awaits them among the country people.

IN SPITE OF THE weather, there was a good attendance at the Segovia Sunday School last Sunday. Thirty-one pupils and five visitors were present. The writer of this article thinks that the people who are carrying on this work are to be commended and encouraged.

A STEWARDSHIP conference was held in the Episcopal church last Friday afternoon by members of the Presbyterian Church. Rev. L. E. Selfridge and Rev. A. V. Boand of San Antonio, led the conference. Dr. Selfridge explained the financial needs of the work of the church and indicated that if everyone would give according to the scriptural principle, the tithe, that there would be an abundance of funds with which to carry on the work. Mr. Boand said, "Giving is living."

A sympathetic listener soon has us convinced that we are abused.

The New Chevrolet Special Sedan

Performance proves Chevrolet the Great American Value

The new Chevrolet Six is a fine performer. It maintains high road speeds at an easy-working engine speed. Its 50-horsepower engine operates with unsurpassed economy. Six cylinders enable you to do what you want—creep along, accelerate, climb hills, go fast—and do it all smoothly, quietly—with little shifting of gears. Step into a Chevrolet and drive. Let performance, too, prove Chevrolet the Great American Value.

New low prices

Chevrolet's new low prices range from \$475 to \$650. All prices f. o. b. Flint, Mich. Special equipment extra. Low delivered prices and easy terms.

BACKYARD KRONIES-

A STUDENT OF ECONOMY

-BY M. B.

Country Correspondence

LONDON LOCALS

(By G. Lewis)

Becoming tired of reading politics, murder trials, and divorce cases, we turned to the Bible and read what Isaiah had to say about those who would modify or repeal the 18th Amendment and the Volstead Law, in the 5th chapter, 21 to 25 verses inclusive. Isaiah talks very plainly as follows: "Woe unto them that are wise in their own eyes, and prudent in their own sight; woe unto them that are mighty to drink wine, and men of strength, which justify their strong drink; which justify the wicked for rewards, and take away the righteousness of the righteous from him; therefore as the fire devour the stubble, so their root shall be as rottenness, and their blossom shall go up as dust; because they have cast away the law of the Lord of Hosts and despised the word of the Holy One of Israel."

Mr. G. W. Mathews of the Ivy Community was a pleasant caller Tuesday of last week. Mr. Mathews states pasture land is doing fine.

J. A. McCollum and wife were in from the ranch the 24th.

Mr. H. H. Winn, formerly of this place, but now of Lampasas was meeting friends here the 25th.

Mr. and Mrs. Luther Walton were business visitors in town Thursday. They brought in a small check to send to the bank and I am sure they brought in eggs and butter for sale. At the beginning of the hard times they had a nice little bank account, and I will offer the guests they have it now. It can be done and happy are they who do it.

On the 26th our baby beef feeders removed their fat calves to Junction to have them ready for the show and sale on the 28th. It is regrettable that the feeders did not realize more for their beebes, but it can't be otherwise, the conditions are to blame. In normal times there is good money in fattening of calves at home. Mr. Homann has done and is doing a great work for our county and our people are just beginning to appreciate him properly.

Mr. and Mrs. La Place and daughter, June, of San Antonio were guests at the home of Mr. and Mrs. Thomas Hodges last week.

Many of our people attended the Fat Stock Show and sale in Junction Saturday. Quite a few out-of-county cars passed through also. Among them were cars from Brady, Mason and San Antonio. Mr. Roy Kothmann, the livestock dealer of San Antonio was among them.

Mr. and Mrs. August Herbst of Bandera and Mrs. Bettie Reese of San Antonio were week-end visitors to see home folks Friday to Sunday.

Miss Eunice Brewer, who has been in Arizona since last August came in Saturday. We were all glad to see Eunice return home.

Mr. E. H. Kothmann was in town Monday.

Mr. Ben Kensing of the Kothmann ranch near Mt. Home spent the week-end at London.

Mr. R. L. McKinney was in from the farm Monday. Bob said he is expecting a fine lamb crop; says his ewes are fat and fine.

A. S. Adams and son, Stanley, made a trip to San Antonio Sunday returning Sunday night. They were successful in securing the job of delivering the fat stock bought by Mr. Kothmann of San Antonio.

Speaking of the fat stock reminds us we believe that more

money can be made by raising the calves at home, raising the feed at home and doing our own work. I am highly in favor of continuing to encourage the boys in their 4-H Club work according to the rules laid down but I think we could safely offer a substantial premium to the one showing the best development in the home raised calf, fed on the home raised feed, thereby encouraging diversification of feeds raised in order to raise as near a balanced ration as possible in Kimble county. The reason I make this above suggestion is this; commercial feed is always high, feed raised at home does not cost near so much and if we can reach something near the same results the profit would be much greater. Just my reasoning, if it is worthy of your consideration then lets go for all home products, calves, lambs, hogs, and all fed on Kimble county grown feed.

SEGOVIA SIFTINGS

School is progressing nicely, and we are taking our monthly examinations. It will be a busy week at Segovia.

McKinley Liefeste was absent from school Monday.

Mr. and Mrs. Clarence Bier-

schwale were Junction visitors Friday afternoon.

Miss Julia Fairchild spent Sunday night with Mrs. Allen Davis.

Mr. Doug Jobs and son were in Junction Saturday.

Mr. Wm. Fairchild was a Junction visitor Saturday.

Ruby Neal won second place with her chickens in the 4-H Club show. We are proud of her.

A large crowd was present at Sunday school and Church Sunday.

Lois Goodman and mother attended church at the school-house Sunday afternoon.

Mrs. Ruth Holliday visited at the school Monday afternoon.

McKinley Liefeste was absent from school Monday.

We have moved our basketball court and are raring to play. If anyone wants to play just let us know.

We Wonder Why? —

Maxine wants to go over to Harper so much.

Lena wants to play basketball at Ingram.

Lula Belle is always so an-

How One Woman Lost 20 Pounds of Fat

Lost Her Double Chin Lost her prominent Hips Lost Her Sluggishness

Gained Physical Vigor
Gained in Vivaciousness
Gained a Shapely Figure

If you're fat—remove the cause! KRUSCHEN SALTS contain the 3 mineral salts your body organs, glands and nerves should have to function properly.

When your vital organs fail to perform their work correctly—your bowels and kidneys can't throw off that waste material—before you realize

it—you're growing hideously fat!

Take half a teaspoonful of KRUSCHEN SALTS in a glass of hot water every morning—cut out pastry and fatty meats—go light on potatoes, butter, cream and sugar—in 2 weeks get on the scales and note how many pounds of fat have vanished.

Notice also that you have gained in energy—your skin is clearer—your eyes sparkle with glorious health—you feel younger in body—keener in mind. KRUSCHEN will give you fat persons a joyous surprise.

Get an 85c bottle of KRUSCHEN SALTS at Heyman Drug Store (lasts 4 weeks). If this first bottle doesn't convince you this is the easiest, safest and surest way to lose fat—if you don't feel a superb improvement in health—so gloriously energetic—vigorously alive—your money gladly returned.

QUITE RIGHT! NO DOUBT ABOUT IT!—IN AUSTRALIA

Sheep are the product of intense breeding, and are grown in Australia to keep the grazier broke and the buyer crazy. writes an observer from this far-away range. They differ very much in quality and breeding, and the man who can guess nearest to the value of sheep is called a sheep man by the public, a fool by the grazier and a poor man by his creditors. The price of sheep is determined at Newmarket, going up when you have sold, and down when you have purchased.

An agent working for a country stock and station agent was sent to Newmarket to watch the sheep and after a few days deliberation wired his firm to this effect:

"Some think they will go down and some think they will go up. I do too. Whatever you do will be wrong. Act at once."

Sheep are born in the autumn, mortgaged in the winter and are on the roads to die in the summer.

"You can and you can't."

"You will and you won't."

Be damned if you do."

And he damned if you don't."—S. & G. Raisers Magazine.

Don't make principles of your prejudices.

Dear Fatto—
Your letter received and I have not read it yet cause I could not make it out.
Down here on the farm I'm having a good time and lots of fun. We went swimmin' in the swimmin' hole yesterday and while I was under the water listenin' to another boy crack stones a red tied my clothes into knots and I couldn't untie them. So I had to go to the house with nothing on me but a towel and my clothes on my arm. It would have been all right if when I got home if Mom-

and the other ladies hadn't been talkin' to the minister who had called for a visit. Mom turned red as a beet and grabbed a curtain and draped me like a statue.
So I she unveiled me and I wished that I had been a statue—I wouldn't have felt it like I did.
She used the same brush—and she found the same place—with less trouble. Your sore friend,
Pinkie

IVY ECHOES

Mr. and Mrs. Everett Stewart and children, Mr. and Mrs. T. B. Pearl and children, and Aunt Alzada Pearl visited Mr. and Mrs. Will Mathews Sunday.

George Maass and Harry Clark of Bandera, are visiting Mr. and Mrs. Fred Maass on the V. and S. Ranch this week.

Mr. and Mrs. Wallace Brown, and little daughter, and Selma Grobe of San Antonio are visiting Mr. and Mrs. Louie Grobe.

Henry Summers and Paulie and Clara Bessie Herbst visited Ernest Summers Sunday evening.

Selma and Bennie Grobe visited Roy and Lillie Robbins Saturday night.

Mrs. Ray Amberson and Clarence Grobe visited Mr. and Mrs. Louie Grobe Sunday evening.

Our pupils planted some flowers in the school yard Friday. The cool weather of this week is retarding the growth of gardens and vegetation of all kind.

School attendance continues fair, interest continues good and school work moves out each day with a business like hum. Because of these conditions, we are proud.

Nearly all of our ranchmen have their goats shorn. Motto: "Heroes are made, not born."

TONS-COWSERT

The marriage of Miss Lena Cowsert, daughter of Mr. and Mrs. Nat Cowsert, to Mr. Theodore Tons, son of Mr. and Mrs. Henry Tons of Clinton, Oklahoma, came as a surprise to the people of Junction.

The wedding took place at the Junction Methodist Church Saturday evening at seven o'clock. Rev. S. L. Batchelor of San Angelo read the marriage lines, with the assistance of the Rev. Bolton Boone, pastor of the local church.

Miss Nellie Bennett, cousin of the bride and Mr. Thomas Cowsert, the bride's brother, were the attendants of the couple.

The immediate family of the bride were the only ones present at the ceremony.

Mrs. Tons is a Kimble County girl well known and liked throughout the county. Her friends rejoice in her happiness but regret that her home is so far away.

Mr. Tons is the street commissioner at Clinton, Oklahoma. The couple left Sunday morning for their home.

The Eagle joins the many friends of the bride in wishing the young couple all happiness and prosperity.

We send hats away to be cleaned and blocked.

MRS. THEODORE TONS IS GIVEN SHOWER

The Hodges Hotel was the scene of a happy occasion Saturday evening when Mrs. S. P. Bennett and Miss Nellie Bennett complimented Mrs. Theodore Tons, nee Miss Lena Cowsert, with a miscellaneous shower.

Miss Jewel Riley presided at the piano during the evening.

A pianologue, "The Usual Way" was given by Mrs. A. W. Loeffler which was followed with a vocal duet, "Moonlight on the Colorado," sung by Misses Eleanor Highsmith and Vernele Tinsley. The program closed with a reading, "The Old One Made Over," given by Miss Fairalee Linn.

Mrs. Lucy Motley then entered, followed by little Ben Ray Taylor who drew a wagon on which was a basket filled with many handsome and useful gifts, which Mrs. Motley presented the honoree in behalf of her friends.

The room was decorated with pink crepe paper and the lights were shaded with paper of the same hue.

At the close of the evening fruit punch and cake were served to Misses Vernele Tinsley, Jewel Riley, Eleanor Highsmith, Lillian Kindrick, Audrey Blackburn, Lucile Motley, Katherine Randolph, Mesdames U. D. Kindrick, Frank Randolph, Asa Farmer, Bill Hamer, A. L. Mudge, Joe Ramsey, Walter Tinsley, Tommie Cowsert, Vashiti Taylor, Stewart Taylor, Ada Dockery, Howard Blackburn, Astor Wallace, Joe Felps, Hydrie Felps, Albert Taylor, Lucy Motley, Nat Cowsert, De Witt Cowsert, L. E. Standifer, Frank Cowsert, the honoree and the hostesses.

RESOLUTION OF RESPECT

To the Worthy Matron, officers and members of Junction Chapter No. 497, O. E. S.:

"We, your committee appointed to draft resolutions of respect on the death of Sister Marjorie Ragland Watson, beg to submit the following: Whereas, it has pleased our Heavenly Father to call from among us our Sister Marjorie Watson, an esteemed and respected member of our chapter, and

Whereas, Sister Watson had been a resident of our town and community all her life and had so conducted herself as to merit and win the esteem, respect, and friendship of all who knew her and,

Whereas, it is mete and proper that this chapter express its tribute of love and respect to our sister's memory.

Therefore, be it resolved by Junction Chapter No. 497, in regular meeting assembled that while we bow in submission to the will of an all wise Providence we deeply deplore the untimely death of a cherished friend and member, whose loss is mourned by the entire community.

Be it further resolved that we express our deepest sympathy to the sorrowing husband and family, that a copy of these resolutions be spread upon our minutes as a token of our love and affection, a copy be furnished the local paper for publication and a copy be sent to the family of our departed sister.

Fraternally,
Minnie Riley
Edyth Standifer
Walter Buck

Texas stands seventh among the states in lumber production.

MRS. W. R. MCKEE HONORS MRS. PAUL CRAWFORD

Thursday afternoon, Mrs. W. R. McKee complimented the members of the Merry Wives Club and a number of friends with a bridge at Kimble Courts Club, in honor of Mrs. Paul Crawford of San Antonio, a recent bride.

Floor baskets and a huge Mexican pottery bowl filled with blue delphiniums and rose colored stocks were placed about the room.

Mrs. P. Joseph received the Merry Wives prize, a handsome make-up box, a similar trophy went to Mrs. Sam Woodward, who made high guest score. Mrs. Joe Fritz received the cut prize, a box of varicolored bath salts. The prizes were daintily wrapped in pink and tied with blue ribbon.

To her surprise, Mrs. Crawford was presented with the "booby" a huge box, which, when opened yielded a treasure of beautiful linens which were showered on the honoree.

Delicious parafait, coconut cake and coffee were served to Misses Flora Mae Spiller, Eloise Hardeman, Laura Black of Houston, Elizabeth Horner of San Antonio, Mary Phillips, Elizabeth Summers, Elsie Mary, Mesdames Bill Hamer, W. H. Baker, Hugh Spiller, U. D. Kindrick, Roy Spiller, O. D. Nance, Jack Richardson, Guy Wynne, Carl Wolf, A. S. Rieck, R. H. Spiller, S. P. Woodward, John Martin, S. S. Bundy, H. G. Hubert, L. E. Standifer, Irvin Jarvis, Dorothy Westmoreland, P. Joseph, Frank Patterson, Lucy Motley, Vashiti Taylor, Joe Fritz, Vann Martin, J. A. Thompson, Aubrey Hill, John Phillips, Clay Secrest, V. P. Emmons, J. M. Livingston, C. T. Holekamp, Norman Farmer, Sayres Farmer, A. L. Mudge, A. W. Loeffler, C. W. McCarroll and the honoree and hostess.

DINNER PARTY

Miss Mildred Hodges was the honoree at a dinner party given by her mother, Mrs. A. B. Hodges Thursday evening at her home in celebration of her daughter's birthday.

Miss Hodges invited a group of friends to dinner, but as she led her guests to the dining room, she was surprised and delighted to see on the table a pretty birthday cake surmounted with glowing tapers and encircled by dainty gift packages.

After the dinner of fried chicken, gravy, mashed potatoes, congealed salad, hot buttered biscuit, preserves, tea, and cream pie, the birthday cake was cut and served.

Games and music brought the evening to a pleasant close.

Those present were Misses Mary Hubert, Elizabeth Summers, Cristelle Reid, Lucile, Blackie and Brownie Motley and Mrs. Harrell Ramsey.

Mesdames George Wright of Austin and Howard Ragsdill assisted Mrs. Hodges in entertaining.

WHEN The Peddler Has Your MONEY

THE transient peddler who rings at your front door is a stranger to you and you are not even a memory to him after he has unloaded his unknown, unbranded goods on you and left town with your money.

He has no futher interest in your satisfaction, in your good will, in future patronage. His is a one-time transaction.

But your local merchant considers your patronage as a trust. He takes your money subject to your satisfaction. He knows he has to build up a steady, repeat patronage or he cannot continue in business.

He is very exacting in the merchandise he carries. It must come to him guaranteed so he can in turn guarantee it to you. He is jealous of his good reputation as a merchant and as a citizen--both depend upon his fair dealing--in giving good quality, in giving values, in making good on unsatisfactory transactions.

His sole interest is not in your purchase of today but in your continued good will and perpetual patronage.

County Director Urges Interest In Declamation

A copy of the new and revised Constitution and Rules of the University Interscholastic League has been received by Miss Eldon Claire Gough, recently elected Director of Declamation in this county.

"The Declamation Contest," said Miss Gough, "is conducted in eight different divisions, four divisions for high schools and four for rural schools. The junior division is now open to contestants who were more than ten and less than 15 years of age on the first day of last September and who are bona fide students in any member school in this county. The senior division is open to contestants more than 15 years and less than 20 years on the first day of last September. The junior divisions, both boys and girls, use standard poetry for declaiming, and the senior divisions, both boys and girls, use standard prose.

"This contest is designed to train boys and girls in sincere and effective public speaking, at the same time contribute to their mental enrichment by requiring them to memorize prose and poetry by the great literary masters. It is hoped that there will be a large number of entries in this contest in our county meet.

RESOLUTIONS OF RESPECT

Whereas, our Heavenly Father in the exercise of His Divine wisdom has called our loved Worthy Matron, Sister Blanche Weaver from earth to Heaven and

Whereas, she was an earnest christian, a kind and sympathetic neighbor, an exemplary member of the Order of the Eastern Star, performing her duties as Worthy Matron wisely and well and

Whereas, she is above and beyond our praise or censure, her kindly smile, her cheerful disposition, and her wise counsel will be sadly missed in our chapter, but the memory of her cherished by the members of this order.

Therefore, be it resolved by Roosevelt Chapter 623 Order of Eastern Star that in the death of our Worthy Matron, Sister Blanche Weaver, the Order has lost a faithful and efficient member, the community a noble character, and the husband a loving and devoted wife.

Be it further resolved: That this Chapter deeply deprecates her death and extends sympathy to the bereaved husband and relatives.

METHODIST CHURCH

"Taking Religion Seriously," is the subject of the Sunday morning sermon. At the evening hour the subject of "Be Ye Prepared" will be discussed. The Sunday School reached three total of 154 last Sunday and every class is working hard to make the attendance read 200 on Easter morning. The Men's Bible Class with Mr. Joe Bissett as president and Mr. Roy Forden as teacher is gaining ground every Sunday. If the class keeps up its past few week's record we will have to find a larger meeting place. It appears that the men are determined to outnumber the women in Sunday School attendance.
Epworth Leaguers will meet in their regular session at 6:30 p. m. The church member that is honest with himself will not treat lightly his vow to attend the services of the church. What a great community we would have if every church member was loyal to his respective church and was taking his religion seriously.

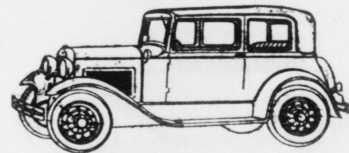

EPISCOPAL CHURCH

Bishop W. T. Capers will be here to hold services Sunday. Communion services will be held at 11 o'clock. After lunch hour Mrs. Tabor, Field Secretary of the National Conference will give a talk on church work. An invitation is extended to everyone to attend these services.

PRESBYTERIAN CHURCH

Sunday School will meet at ten o'clock. There will be no morning worship. Evening worship will begin at 7:30. Chiropactic adds life to years and years to life.

The Ford Victoria

A NEW FORD BODY TYPE OF DISTINCTIVE BEAUTY

The newest, latest addition to the wide variety of Ford body types is the distinguished Victoria. It marks a new degree of beauty and of value in a low-price car.

The striking lines of the Ford Victoria are especially apparent in the graceful sweep of the straighter, lower top, the slanting windshield and the curving bustle back, with the spare wheel set at a conforming angle. There is a suggestion of continental design; sleek in the slope and size of the side windows and the lacinated, four-passenger interior arrangement.

The comfortable, deeply cushioned seats are upholstered in luxurious moleskin or fashionable Bedford cord, optional with the purchase. Appointments and hardware reflect the manner of a custom-built car. Another appreciated feature of the new Ford Victoria is a choice of attractive body colors. They complement its fresh, new lines and contour and help to give it distinctive place on every highway.

Sen. Walter Woodward Discusses Proposed State Road Bond Plan

It is apparent that during this session of the Legislature I will be called upon to express the views of my district in casting a vote in respect to the submission to the people of a proposed constitutional amendment as relates to the method of financing the construction and maintenance of State Highways.

The State Highway Bond Plan heretofore discussed in the public press and on the stump was a plan to bond the State of Texas for several hundred million dollars without what appeared to me the proper safeguards. I was not entirely satisfied with such Bond Plan, although I voted to let the people decide the question for themselves. The original idea was constructed by some requiring all property as well as the credit of the State, to stand behind the bonds. I am opposed to such a plan and have always been, and so stated to the people of my district when I was a candidate for re-election last summer. However, the original advocates of the Bond Plan have agreed and consented to a very radical change. There is now pending before the Legislature a plan to issue \$200,000,000 in bonds for the dual purpose of constructing additional highways and assuming the outstanding bonds of counties and defined road districts and reimbursement to counties and defined road districts of money heretofore expended by them on State designated highways. This proposition of refunding to counties and defined road districts all moneys heretofore put in State Highways, appeals very strongly to me as an equitable proposition, in view of the fact that the counties and these defined districts are not the owners of the highways and for the reason that the poorer and weaker counties are paying an enormous tax—in some instances more than \$2.00 on the hundred—and they would be relieved by the present proposal entirely of such tax. Furthermore, the present plan before the Legislature exempts forever all farms, homes, ranches, real estate and personal property from any taxation in the future for the purpose of paying off and retiring the bond issued, and provides that same shall be paid for solely from the traffic on the roads by the tax on gasoline or other substitutes for gasoline, reserving to the school fund, however, its one-fourth of said revenue. In addition, the present bond plan provides that the money repaid to the counties and defined road districts shall be used to retire bonds for lateral roads now outstanding, and if no lateral bonds are outstanding, then for the use and benefit of the Road and Bridge Fund of the counties to be expended by the counties. Also, the present Bond Plan provides that the bonds shall never bear over four and one-half percent interest and shall never be sold at less than par, and not more than \$25,000,000 per year shall be issued for road construction.

The present plan further provides that only \$200,000,000 may be issued by the state, whereas the old plan was a revolving plan that enabled the Legislature to issue bonds continually, this feature having been particularly objectionable to me.

I am advised that 35 states have already adopted plans similar to the one now pending before the Legislature, except the other states do not have all of the safeguards provided for in the present plan. It has occurred to me that since so many states have adopted State bonds as the proper method for the construction of their highways, I am wondering if their composite judgment is not the proper method of financing, and I would, therefore, like to have the views of as many of my constituents as possible as I feel constrained to vote for the submission of the present amendment in view of the fact that it will cause an enormous reduction of taxes upon the property of the people of my district, amounting to more than the entire State ad valorem taxes in some counties.

As above stated, the proposed amendment to the constitution is somewhat different from the original idea and appears to me to be to the best interest of the

people. If the proposed amendment is adopted by the people and carried out as intended, it will mean that in every county of my district where bonds have been issued to construct State Highways, the Counties will receive back every dollar they have spent in building and maintaining the highways in the counties and the State will then assume and pay off the bonds which have not been retired by the counties. To illustrate the proposition more clearly, I mention the counties of Tom Green, Sterling, Runnels, Coleman, Brown, Mason, and Gillespie. These counties have each and all heretofore issued bonds and by the sale of these bonds have obtained money with which to construct State Highways. The people have been taxed since the issuance of the bonds and from this tax money the bonds have been and are being annually retired. Under the proposed amendment each of these counties and all other counties who might have issued bonds for such purposes, will receive back every dollar they have paid and will be relieved from paying the bonds yet outstanding. This of course, means that the local tax levied by the Commissioners court to retire these bonds, will be taken off of the people. It will save hundreds of thousands of dollars to the people of my district; in fact my home county would receive several hundred thousand dollars and would be relieved of paying the balance due and at the same time the people would be relieved of the payment of the tax in the future which is now being collected as a means of paying off the bonds not due. The proposed plan is not one whereby the roads are to be valued and the counties reimbursed, but the proposed plan is to actually pay to the counties all moneys which have been expended in the construction of the State Highways. Runnels County is a fair illustration where this plan would be of material benefit, to wit: that county has recently voted bonds and is carrying out the highway building program. Whatever money has been spent in building the highways will be refunded; the State would assume all bonds yet unpaid and Runnels County, as well as all other counties, would be permitted to use the money refunded by the State to retire any bonds outstanding which had been issued for the construction of lateral roads or if no lateral bonds are outstanding, then the money would go to the road and bridge fund of the counties to be expended in the development of the lateral roads.

If I understand the proposed amendment, it is properly safeguarded so that there cannot be and never will be any tax imposed upon any property of any citizen of Texas as a means of obtaining money to pay the bonds and that the only method of obtaining money to pay the bonds will be the tax on gasoline or other substitutes for gasoline and at the same time the school fund will receive its one-fourth of the revenue obtained from the tax on gasoline. In other words, no tax or lien whatever can be placed on any farm, home, ranch, real estate, or any personal property whatsoever.

Therefore, I invite the people of my district to write me in respect to their views in order that I may judge to some extent the sentiment of my district for I expect to be governed by what appears to me to be the conservative views of my district in respect to this important matter.

Respectfully,
Walter C. Woodward, State Senator, 25th Senatorial District

MORE USES FOR MOHAIR

A proposal to develop a new use for mohair was advanced when Congressman John N. Garner requested that the Post Office department specify that mohair be used instead of camel hair in the manufacture of conveyor belting for which the department is preparing to place a large order.

Camel hair, an imported commodity, has been used almost exclusively in the manufacture of such belting as the Department requires, but it is the belief of experts that mohair would prove better adapted for the purpose. If this proves true the manufacture of conveyor belting should open an extensive market for mohair.

In a letter to Postmaster General Brown, Congressman Garner stated:

"My attention has been called to report that the Post Office Department is making arrangements to place an order or contract for a large amount of conveyor belting."

"I am informed that principal commodity entering into the manufacture of this belting is camel's hair, an imported product, frequently used in competition with mohair or domestic production. Also I am informed that mohair would be equal to or superior to camel hair for this purpose."

"Consumption of mohair in this country has decreased from approximately 25,000,000 lbs. in 1926 to 11,000,000 in 1930. Consequently the mohair producers are in desperate straits for a market for their production. I am informed by members of the Federal Farm Board that the National Wool Corporation, through which the mohair producers now market, is holding approximately 14,000,000 lbs. of mohair for which it is seeking a market."

"I would suggest that the Postoffice Department make a careful investigation of the relative value of mohair and camel hair in the manufacture of such conveyor belting as the Department requires, and urge that mohair be specified if such investigation proves its utility for the purpose."

Little Fish Live To Tell Of "Operation"

Do infantile fish, jerked out of the water for their first goggle-eyed view of the world from the end of an angler's line, die of the shock after being returned to the water?

This question, which has bothered fishermen ever since many states placed a size limit on game species, has been answered by 600 little fish at the Harietta Hatchery, Michigan, according to the American Game Association.

These piscatorial experimenters bit an assortment of hooks and artificial flies in the cause of science—and all but a small percentage of them were living to tell of their operation two months later.

All save two and a half percent of the young fish caught with flies survived while one tenth of those caught with barbed hooks, the most difficult to remove, paid with their lives.

The fish division of the Michigan Conservation Department, believes its investigations have proved that the percentage of young fish surviving an encounter with the hook justifies a sportsmanly observance of the law. It has urged anglers to remove hooks carefully, wetting the hands before touching the fish.

constipation

"I HAD a stubborn case of constipation after a very severe spell of grip," says Mr. John B. Hutchinson, of Neosho, Mo. "When I would get constipated, I'd feel so sleepy, tired and worn-out."

"When one feels this way, work is much harder to do, especially farm work. I would have dizzy headaches when I could hardly see to work, but after I read of Black-Draught, I began taking it. I did not have the headaches any more."

"When I have the sluggish, tired feeling, I take a few doses of Black-Draught, and it seems to carry off the poison and I feel just fine. I use Black-Draught at regular intervals. It is easy to take and I know it helps me."

This medicine is composed of pure botanical roots and herbs. Contains no chemicals. In 25-cent packages.

Keep your Car young with Flashlike Gasoline & Velvet Motor Oil

Preserve the quietness and smoothness of your car by using a fuel of high anti-knock rating and its compression, by using a motor oil that never leaves a moving part unshielded—whether the motor be cold or hot. Flashlike Gasoline and Velvet Motor Oil form the ideal combination. Flashlike Gasoline makes a motor start easily, develop full power quickly, and run smoothly for thousands of miles of added service-life. Velvet Motor Oil has the body and easy-flowing qualities to protect bearings at all driving speeds and temperatures. It holds compression—and increases power.

Being a vaporish review of words
that pop into print

PENTHOUSE . . . This odd doodad is a lean-to or roof with single slope affixed by its upper edge to wall of building. The small elevator-machinery house on top of high buildings. The word "pent," closely confined, suggests restriction in all space. A henpecked husband is pent up in the house evenings. His style is cramped. We have also the word "ap-pendix," something attached to. Therefore we see how builders arrived at the term "pent-house" for these newfangled roof bungalows slapped atop skyscrapers. According to Luther Hill the penthouse is the last word in the ah modernistic. Next thing we'll be hearing of some skyscraper having its appendix removed.

STYMIE . . . (stie'mi) Golf term. A condition existing when an opponent's ball lies in line of player's putt, balls being more than six inches apart. The player is said to be "stymied."

VOX POP . . . This is not a nickname for Dad. Neither is it a new soda water. It is a popping off of steam, not a blotting up of liquids. Vox pop is an abbreviation of the Latin vox populi, "the voice of the people; public sentiment." A term used in newspapers and magazines referring to the squawks, left-handed compliments and bouquets from readers. (sound the "ps" as "peas" in garden.)

AD LIB . . . No, this is not an abbreviation of "advertising libertine." It is a shortening of the Latin, ad libitum, "at will; at pleasure; as much as one pleases." It has popped into use along with the modern "hell-bent for election." Sometimes applied to the giddy-man-about town. And to the actor who, forgetting his lines, ad libs or fakes them. Also in music to indicate the performer may modify the time and expression.

Take MY WORD for it the latest fashion decrees curves for mi-lady. This will make in the United States some 40,000,000 women in round figures.

News Item: Charles Farrell and his bride, Virginia Valli, immediately booked passage for a three month money-moon to Europe.

PRESERVING LINOLEUM

If you wish to preserve your inlaid linoleum on the kitchen floor, do not scrub it. When it is first laid, wax it two or three times with light coats of wax, well polished. Use a dust mop daily. If anything is spilled, wipe it up at once. When washing is necessary, use only a mild soap and lukewarm water. Then re-wax. The wax will fill the pores and the dirt will not grind in.

"There seems to be a widespread belief that you can restore prosperity from the public treasury. It is not only a false theory, but a vicious theory."—Senator Borah of Idaho.

Milly (in horrified whisper): "Mamma, Willie is an infidel." Mamma: "An infidel?" Milly: "Yes he said he don't believe there's any Santa Claus."

DEATH OF MRS. BLANCHE WEAVER

Mrs. Blanche Weaver nee Dunbar, was born December 17, 1897 in San Saba County; died February 14, 1931, at Junction, Texas, near where she had made her home since girlhood, on her father's ranch. She was married to Nugent Weaver of Junction, who owns a ranch near her home. Blanche was stricken with pneumonia Wednesday and died the following Saturday morning. Everything that loving hands, faithful doctors and untiring nurses could do was done, but God saw fit in His wisdom to take her home.

She was converted and joined the Baptist Church about 18 years ago and lived a devoted Christian life, as was evidenced by her many, many acts of charity and kindness. She was conscious till the last, said she was ready to go, and admonished her loved ones to live true to God and for His cause. Her suffering was intense, but she bore it bravely. The funeral services were conducted at her home by her pastor, Rev. W. P. Cooper, of Junction, which was very impressive and a beautiful tribute to her sweet Christian life. She was laid to rest in the Coppas cemetery near her home. The flowers were a beautiful emblem of love from her many friends and relatives.

The beautiful rites of the Eastern Star of which she was Worthy Matron, were conducted at the grave. She leaves to mourn her loss, besides her grief stricken husband, a mother, father and three brothers and a host of relatives and friends.

Active pallbearers were: Clarence Parker, J. D. Baker, Lott Little, John Lewis Weaver, Tom Strickland and Millard Bennett.

Dear husband, father, mother and brothers, Blanche is resting with the God of all and is now safe from all harm.

We know your hearts are aching for her precious form, But God will guard your treasure.

Till the early dawning morn. You will meet your precious darling

In the bright and pearly sky, Where sorrow all will vanish. There will be no more good-bye.

A mound upon the hill side On which the flowers weep, For another's precious darling Now so fast asleep.

Silent tears are coursing Down a pale wan face, How he misses Blanche From her accustomed place.

Father, mother, weep no longer Over the precious mound, In Heaven shining brightly Your jewel will be found.

Just another angel In that happy land, Just another stranger Christ has called his lamb.

For he wants your treasure That He your hearts may bring From this darkened pathway Of this world of sin.

One precious to our hearts is gone The voice we love is stilled, The place made vacant in our home Can never be filled.

Our Father in His wisdom called Our darling from her home, And tho on earth the body lies The soul is safe at home.

By a friend, H. E. Brown, Hall, Texas—San Saba News.

WALTON'S FARM POLICY IS URGED FOR TEXANS

Seven poignant considerations are contained in a farm policy outlined for and urged upon Texas farmers by Dr. T. O. Walton, president of Texas A. & M. College. This farm policy is deftly explained in an article concerning the purposes and work of county agents, both farm and home, which appears under the title "Our Salt of the Earth" in the Texas Opportunities a magazine published by the Texas Power and Light company devoted entirely to the discussion of subjects pertaining to Texas, its business and economic problems.

Dr. Walton's plan is outlined as follows: 1. Preservation of land as capital stock; 2. Use of adapted crops and livestock; 3. Balancing the farm business; 4. Employing low cost methods; 5. Living at home; 6. Production of quality products; 7. Marketing products on quality basis. The article, embodying Dr. Walton's plan is written by W. H. Darrow who delves into the workings of county agents, particularly their activities that have reflected commendable results on Texas farms. Mr. Darrow declares "If extension work should end today there would be three million of acres protected by terraces; high producing dairy cows from pure bred bulls introduced in bull circles; countless improved pecan trees where once were only natives; modern home steam pressure canning; thousands of beautiful farm homes and living rooms and efficient kitchens—and about a score more of advances that are permanent."

NEED BETTER LAWS

This country is surfeited with laws. There are so many statutes that it is utterly impossible for the average citizen to be conversant with them, even superficially. This superfluity of statutory law tends to lower general respect for law. It should be the purpose of all legislative bodies to keep down to the minimum the number of legislative enactments.

Fewer laws and laws of better quality, is the supreme need of the hour throughout the nation.

Opposition always inflames the enthusiast, but never converts him.

Every production of genius must be the production of enthusiasm.

Sleep, riches, health, and so every blessing are not truly enjoyed till after they have been interrupted.

Boy's Week to Be Observed

Under the chairmanship of Walter W. Head, 70 of the most prominent men in America are co-operating to focus public attention upon the boy and boy problems through the medium of Boy's Week. Programs for the world wide observance of this event have been prepared and the date of this year's observance announced for April 25-May 2.

Boy's Week was first conceived in New York City in 1920, by the late William Lewis Butcher, and promoted that year by the New York Rotary Club. So successful was this experiment that in the brief span of eleven years the idea of Boy's Week has attracted to the active interest of community leaders in all parts of the world. More than 100 national and international service clubs, boys work organizations and educational or social welfare agencies are now co-operating in the concentration of attention upon the boys of the world.

The boy of today is confronted with a much more complex world than the day his father was a boy, and the sense of responsibility for equipping the boy to meet and conquer his coming environment is growing in the minds of his elders.

Beginning with loyalty day on Saturday, April 25, this year's program continues with daily programs outlined for Boys' Day in Churches, Industry and schools, entertainment, and athletics, in health and home activities, in citizenship and concludes with Boys' Day Out-of-doors on Saturday, May 2.

FIRST WOOL AUCTION IN SOUTH AMERICA

The first sale of wool at public auction in the Buenos Aires market was held on January 14, 1931 at the Mercado Central de Frutos in Avellaneda, on the outskirts of the city of Buenos Aires. The auction was confined to Patagonian or southern Territory wools, which are composed chiefly of fine and crossbred wools.

The total quantity of wool offered for sale at auction consisted of 16 lots amounting to 161,650 pounds.

The sale was well attended but the bidding was not very spirited and the prices at which sales of fleeces were made did not greatly exceed the basis prices of 7.5 to 10 cents a pound established by the auctioneers prior to the sale.

Further auctions of Patagonian wools will be held from time to time as conditions warrant, by persons selected from the regular commission trade in Buenos Aires. It is hoped that these auctions will provide the wool growers of Patagonia with a wider market for their product.

Junction Trade Notes

(By G. G. Co.)

The 4-H Club exhibit in Junction measured up to all that was expected of it and the boys and girls so engaged have acquired experience and knowledge of farm problems that will be worth a great deal to them in the future. A. C. Bowman of Main Llano is finding a ready market in Junction for his choice home-grown cabbage and carrots.

A writer on home economics and health subjects, says: "We no longer need make fun of the new bride who owns a can opener, for often canned foods taste better, are cheaper and more wholesome than many fresh foods; that the large canneries maintain kitchens where best methods are worked out for saving the flavor and preserving the food value of canned foods, also conserving Vitamin C which prevents scurvy."

New items in stock: Delicious "Pecan Pie Sundae" for jello, for pie filler, for topping ice cream, manufactured in Texas from Kimble county pecans; Empson raw kraut in tins, "Esquiquet" French salad dressing, Gann Grocery Company, "Satin" makes ironing easier; "La France" recommended for wash day, saves half the woman's washday work.

W. E. Hagood, recently of Mason, is now a resident of Junction and with Mrs. Hagood is occupying the Franz residence. Mr. Hagood is with the State Highway Department. Moved: Mrs. George Hamilton is occupying an apartment at Kimble Courts, while Mr. and Mrs. S. P. Woodward have moved to the Hamilton residence. Ranchman Raymond Allen was in town Tuesday and bought seed corn for his farming operations. Screw worms are starting up early this year, according to A. J. Kinsey, foreman of Paterson-Rieck ranch.

We have in stock "Peerless" and "Martin's" screw worm medicine and flysmear. In stock this week: Seed corn, millet, begira, kaffir, cane seed, fetaria, sudan, to arrive first of week. Gann Grocery Company. Seed potatoes and onion plants in stock.

Ranchmen and farmers report frost damage as negligible, except that fruit in the valley orchards may have suffered. The second month of the year ended with the average price of steaks up about 25 points since January 1 and 35 points above the low average of Dec. While the First National Bank of Rocksprings is reported to have sold Wednesday its accumulation of spring mohair at 23c, which may be an indication of a strengthening market.

The public is assured that nearly all items in the grocers stock are 20 to 30 per cent cheaper than a year ago.

Gann Grocery Company
"Everybody's Store."

"SOUTHERN CINDERELLA"

Friday evening the Copperas School presented "A Southern Cinderella" at the school house. The cast of characters is as follows:
Madame Charteris—Mrs. E. Boise Emery.
Miss Rose Winterbury—Eunice Richardson.
Enid Bellamy—Renzie Weaver.
Miss Johnnie Bell Randolph—Lois Richardson.
Katherine Kawke—Reba Nell Little.
Caroline Kawke—Nettie A. moan.
Mammy Judy Johnson—Mable Fox.
The proceeds went to the girl basket ball fund. Mrs. Eloise Emery sponsored the play.

If you never think big things, you will never do big things.

Texas with 6,000 of the 40,000 miles in the United States leads in gas pipe line mileage and it also leads the 24 gas-producing states in production.

Texas has an Indian population of 2,109 and is the home of one tribe, the Alabamas, who have a reservation in Polk county.

Grand Jury Makes Several Recommendations In Report

LIVESTOCK SHOW PRIZES—

(Continued from page 1)
cent drop in the market is to be regretted, but the lessons learned by the club members are worthwhile.

In the goat division, David and Robert Watters were awarded medals. They had some fine registered billies on display.

Bennie and Eddie Grobe won first and second places for having the best Rambouillet ewes and were given medals.
In the hog division, Chetty Porter won first place; Sloan Davis second and Vernon Kirkpatrick third, and they were awarded medals.

Alton and Dell Ranowsky won first place in the poultry division with their dark Cornish. Ruby Neal won second place with a pen of white Leghorns.

County Agent R. E. Homann and Vocational Agriculturist M. B. Bethel co-operated in staging the show. The weather was ideal and a large crowd of people were present.

Messrs. R. W. Persons, district extension agent, and H. L. Gantz of the Farm and Ranch, were honored guests during the day. Several county agents of adjoining counties were present and rendered valuable service in judging the different shows.

Notice is hereby given that an election will be held in the polling places of the various school districts in Kimble county on the first Saturday in April, 1931, the same being the 4th day, for the purpose of electing one county school trustee at large, and also for the purposes of electing a county trustee in commissioners precincts one, two and three.

Big Specials For Saturday

After being in session three days, the grand jury of the 112th district court made its report to Judge Joe G. Montague showing that twelve felony indictments were returned.

The following excerpts are taken from the report: "In the course of our investigations it has come to our knowledge that there is considerable drinking of liquor among the boys and girls of this county, and we respectfully call attention of our citizenship to the apparent laxity in discipline on the part of some of the parentage, and respectfully suggest that better effort be made to keep in touch with the situation in the social life of our young men and women in this county."

"Quite a number of checks have been referred to our attention that were given by people who carried no accounts with the banks upon which they were drawn, and these matters have been referred to the county attorney for action, as in each instance the amount was less than \$50."

"In this connection we suggest to our commissioners court that they immediately solicit Hon. Walter Woodward and Hon. Coke R. Stevenson, State Senator and State Representative, from this district that civil and criminal jurisdiction be restored to the county court of this county, in order that cases of this kind, together with several others called to our attention, may be handled more expeditiously and economically than has been the case heretofore."

"It has been called to our attention that no regular financial statement for this county and the city of Junction has been published as required by law, and we respectfully suggest that this be done, in order that the tax payers may appraise themselves of the financial condition of the city and county, respectively. This is in no manner to be interpreted as a criticism of a custom which has been followed but due to complaints coming to us from our citizenship pertaining to these matters, we think it advisable this recommendation be made."

"We have been further advised that there is a quantity of contraband liquor now in possession of the officers of the law, and we have suggested to counsel for the State that an application be made to Your Honor for the immediate confiscation of all liquor so held and not necessary for use as evidence in some criminal case now on the criminal docket for the district court."

"We have examined all public buildings and found them in good order except the jail which is in an extremely insanitary condition. We recommend that the county health officer make an immediate inspection and report to the commissioners court steps necessary to place our jail in a safe condition for prisoners, and that sufficient bedding be immediately supplied to make the inmates comfortable."

Our religious ideas ought to still leave us open to understand the good others do.

A man who is always ready with an answer seldom gives the best one.

If you never think big thoughts, you will never do big things.
