Number 24.

FISH HATCHERY FOR KIMBLE CO. ASSURED.

At the barbecue dinner at the Court House last Wednesday night, about fifty business and professional men met for the purpose of formulating plans for securing funds to construct a first class fish hatchery at or near Junction that will be adequate to supply the streams of this county with fish.

After those present had been filled to the limit with fine barbecued chevon, pickles, coffee, etc., which was prepared under the supervision of County Judge Baker, the meeting was called to order by J. A. Heyman, president of the Chamber of Commerce, and a general discussion followed. The Fish Committee of the Chamber of Commerce, gave a report of what efforts they had made to find a suitable location for a hatchery.

A number of interesting and enthusiastic talks were made in favor of the project and several called attention to the fact that a considerable quantity of fish were being destroyed by different irrigation plants along the river, and it was suggested that proper steps be taken to eliminate this waste, by strict enforcement of the law.

A subscription list had been prepared and was circulated among those present, resulting in more than \$500 being subscribed that night. Emil A. Loeffler was the first to sign the subscription, giving \$100 for the Junction Hardware Co.; W. P. Riley subscribed \$100 for the Junction State Bank. The next largest contributions that night were: First National Bank, \$50; Joe P. Fritz, \$50. There were a number of \$25 contributions, while practically every one present subscribed some amount.

Since the meeting the list has been circulated and to date more than \$1,000 has been subscribed. The Eagle took the matter up with Mr. L. A. Schreiner of Kerrville, and the result was a \$200 contribution from Schreiner Brothers.

A full list of contributions will be published at a later date.

Weaver H. Baker, Fred E. Knetech and Oren C. Reid were added to the Fish Committee, heretofore composed of John M. Hankins and H. G. Perry.

Last Sunday J. A. Heyman, Emil A. Loeffler, E. Holskamp, C. K. Stevenson and H. G. Perry, inspected a number of proposed sites, but so far nothing definite has been decided on. Other sites will be inspected and the committee will select the most suitable site that can be secured. There are a number of things to be considered in locating a hatchery, and many places that at first seem very desirable, after further consideration, are not at all suitable.

One thing is certain, the hatchery will be established and work will soon begin on the construction of this project that will mean more to Kimble County than can be estimated.

Every public spirited citizen of the county should contribute money or work. If you have not already contributed, think the matter over and see some member of the committee and do your bit.

It is estimated that some \$500 more will be needed to construct the hatchery that the Chamber of Commerce hopes to see built.

A letter from Abe Landers last week states he is busy harvesting his crop and still enjoying life. T. M. Jones and wife sopped with him recently on their way home from Arkansas, where they have spent the summer.

"QUEEN SHOW" RULES AT THE ST. LOUIS FASHION PAGEANT.

"Queen Show" is shown reigning over the winter carnival of the ninth St. Louis Fashion Pageant, given in the Municipal Open Air Theater, Forest Park

JUNCTION SUFFERS HEAVY FIRE LOSS

About two o'clock Monday afternoon fire was discovered in the roof of the Junction Bakery. A number of men gathered quickly and an effort was made to extinguish the flames that had only gained small headway, but lack of fire fighting apparatus and water prevented any checking of the fire.

The bakery, which is a wood building about 30x40 feet, was quickly consumed and the flames spread to the K. Spencer Garage, and later to the E. O. Lowgren boot and shoe shop, just west of the garage. The garage was a frame building covered with galvanized iron, with a large wooden building adjoining it on the west.

No alarm was given, but a large crowd gathered quickly after the flame was easily noticeable and for three hours fought hard to prevent the fire from spreading to residences near by. It was seen, at first, that nothing could be done to prevent the garage and shoe shop from catching, and hundreds of people carried and hauled water, wet quilts and blankets and removed board fences, to prevent the fire reaching nearby residences. It was feared that, notwithstanding all efforts, that the Albert Bartley house would catch, as there was considerable fencing and out-houses between this house and the ones that were burning; all the furniture was carried out. The Henry Taylor house across the street was also in danger. The Cloud Estate house across the street, west, from the shoe shop caught in the roof by flying embers, but was discovered before it had made any headway, and extinguished.

Practically all the equipment of the bakery, except heavy cooking apparatus, all the cars and trucks in the garage and a good part of the stock, all of E. O. Lowgren's equipment and fixtures, and of N. C. Patterson's stock and fixtures, and most of the fixtures and furniture of the bank were removed and very little damage done to any of it.

After the bakery had been destroyed and the garage had fallen in, a number of men climbed to the roof of the Patterson building and the Junction State Bank, and for more than an hour water was handed up from below and poured on the roofs of these buildings and resulted in saving a good portion

tion of the roofs and preventing them from falling in.

The total loss is estimated at around \$10,000. The Junction State Bank was the only one having insurance to cover their loss.

The bakery building was owned by Clarence Nichols, the garage by Mrs. Horace E. Wilson, and the shoe shop by the Cloud Estate.

Carpenters began work at once on the bank and Patterson building and will have them ready for occupancy in a few days. In the meantime the bank offices have been crowded into the front part of the building, and the bank was open for business at the regular hour on Tuesday morning.

E. O. Lowgren secured the Hamer building from M. C. Reese, temporarily, and is again ready for business.

With very few exceptions, every one did their bit. One special case that came to the attention of this writer, was that of Mrs. Goben. Although she is well up in years and unable to take an active part in fighting the fire, all during the time she stood at a hydrant at the house back of the Hardware Garage and filled tubs that were carried to the burning buildings.

Not even a breeze was blowing, which accounts for the fire not reaching many other houses nearby.

This is probably the most expensive fire that Junction has ever had, and will doubtless be the cause of creating interest that will lead to some method of fire protection.

KIMBLE COUNTY PECANS IN EASTLAND COUNTY.

In the last issue of the Stephenville Tribune appeared a two-column article about a rather unusual pecan orchard in Eastland County. After telling of the success that one Gus Bowden is having with pecans in his orchard that he planted only a few years ago, and of budding experiments he had made, the Tribune article is in part as follows:

"His first planting was made in January, 1913, with a few nuts taken from the chuck box of his father. These nuts were picked up by his father while on a hunting trip in Kimble and Bandera Counties. About forty-five of these nuts were planted in a row 23 feet apart. These young treelets grew so nicely that the following fall Gus or-

dered some seed nuts from his father's friend, S. A. Griffith, Junction, Texas. These nuts completed planting out an orchard of 300 trees 23x23 feet apart. This planting was made in the spring of 1914. Two years later Mr. Bowden became convinced that his trees were too thick, so he took his mattock and dug up one-third of his trees as deep as he could and transplanted them in additional ground. Out of the 100 transplanted, he has a hundred nice healthy trees today. He found out that pecans transplanted better if two feet or more of the roots are dug and one half or more of the top cut back when transplanted.

All these trees when 5 years old were about 7 feet high and bore their first nuts.

OVER SEVEN INCHES OF RAINFALL IN SEPTEMBER

During the past month, seven and one-fourth inches of rain fell at Junction, and approximately the same amount fell in every other section of the County. As a result, the range over this county is in better condition than it has been for years and stockmen are very much encouraged at the prospects of going into the winter with good grass and with all kinds of live stock in good flesh.

The past year has been above an average for producing feed and all farmers and most ranchmen are well supplied with feed for the winter. It is doubtful if any feed stuff will have to be brought from the outside this winter.

Weather report for last September:

Coldest day was the 12, with a minimum of 44 degrees; the warmest day was the 17, with a maximum of 103; the greatest variation was on the 13 with a difference of 50 degrees.

The rainfall for the month was 1.38 inches.

Twenty-two days were cloudy or partly cloudy.

For the same month this year: Coldest day was the 21, with a temperature of 52 degrees.

Warmest day was the 1, with a temperature of 97.

The greatest daily range was the 2, with difference of 30 degrees. Rain fell on ten different day during the month, the heaviest rain being on the 3, when 2.05 inches fell.

W. P. Riley was in Mason on business Wednesday.

PECAN SPECIALIST VISITS JUNCTION.

Frank J. Willman of Mason, recently appointed Assistant Pecan Specialist, and assigned to work in this section of the State was in Junction several days last week, and while here examined a number of pecan groves along the rivers.

Mr. Willman states that throughout this section of the country the pecan crop is very good. In some parts of this county he found that the case bearer had destroyed all or a large part of the crop. He states that most of the places where the destruction by this insect is most noticeable, that the trees were too thick, or were surrounded by large trees of other kinds, that prevented the sunlight from reaching the pecan trees and thus causing the case bearer to do much more damage than would have resulted had the pecan groves been properly looked after and the trees thinned out. He says that owners of pecan groves will encounter no loss by thinning their trees to a proper distance, as the increase on the smaller number of trees will more than make up for the loss in number, and the probabilities of a crop every year will be greatly increased.

A successful method of killing pecan or other timber is by "belting." Cut a ring around the trunk of the tree about two feet from the ground and another about six feet, then remove the bark between the rings. This work should be done about two or three weeks after the sap begins to rise in the spring. By using this method the roots and stump will die and no second growth will result. It will take from one to three years for the tree to die, but on account of precluding any further growth, this method is more desirable than any other.

Mr. Willman is collecting samples of pecans of superior quality and asks that growers having trees that produce nuts of good flavor that will sell 50 percent or better, mark these trees and furnish him with a few pecans from each such tree. This is being done to select a superior grade of pecans for propagation in this section and will ultimately result in an increased price for pecans grown here.

Those who are willing to cooperate with Mr. Willman can bring the pecans to The Eagle office, after marking the trees, and the different packages, and they will be forwarded by this paper to the pecan specialist.

Mr. and Mrs. W. M. Henderson held a family reunion at their Junction home last Monday, in honor of their son and his wife, Mr. and Mrs. Robert Henderson, who are spending several weeks with their parents prior to sailing for France. An old fashioned turkey dinner was served. Eight of Mr. and Mrs. Henderson's children were present and five grand children. In the afternoon a number of friends called.

Mr. and Mrs. Charles W. Henderson entertained last Sunday with a pretty dinner party at their South Llano home, complimenting Mr. and Mrs. Robert Henderson, of Glendale, California. The tables were laid with Mexican drawn work and centered by Indian baskets of ferns and autumn flowers. Covers were laid for twenty-two.

D. O. O'Leary, wife and little daughter of San Antonio were guests of Mr. and Mrs. Alex J. Hamer Tuesday night. They were on their way to Ozona to visit relatives.

SAM BOWERS

Junction, Texas.

A petition was recently circulated in this city asking for donations of money to be used for the purpose of working the public road leading out of Mason towards London. For some time this piece of road has been very bad and much in need of improvement, but it is said a lack of funds in that commissioner's precinct prevents this road from having received much attention. The News is informed this money will be placed in the hands of County Judge Banks and he will have the road built by county road superintendent, Will Land, and his efficient crew of hands.

The exact amount of money donated to the cause by the local business firms is not known, but information is that something like \$800 was contributed.—Mason County News.

Why should State employees complain at discounting their monthly pay checks? Most of them are receiving fairly good salaries and have no business worries to turn their hair gray. The fellow who is trying to pay the bills with cheap cattle and short crops is the fellow who has to do the most worrying. Of course, it is bad business to discount the State's paper, but right now it can't be helped unless we raise more taxes, and that is out of the question at this time.—Marble Falls Messenger.

Sunday morning little Miss Lora Hey, daughter of Mr. and Mrs. Wilson Hey, of this city, awoke to find a portion of her long tresses of hair had been bobbed some time during the night. It seems a mystery surrounds the incident, as whoever the party was that did the bobbing, did not take the hair, but left it laying on the girl's pillow beside her head. The parents are at a loss to know just who did the "bobbing" and what their purpose was in committing the act.—Mason County News.

KLAN COURT BATTLE IS ON IN SAN ANTONIO.

According to last Sunday's Express, the Ku Klux Klan headquarters have filed an injunction against the San Antonio Klan, restraining this order from conferring the Second Degree. The San Antonio Klan has filed an answer to the injunction and the hearing was set for Wednesday. The answer filed by the law firm of Chambers, Watson and Johnson demanded that a correct roster of the San Antonio Klan and the membership in Texas be filed with the papers. The answer also states that the Ku Klux Klan is illegally doing business in Texas, as it is shown upon its face to be a corporation for pecuniary profits and as such has never obtained a per-

mit to do business in the State. The Klan is also alleged to be violating the anti-trust laws as it holds a monopoly upon the sale of regalia, jewels and other paraphernalia of the organization.

It was also reported that a prominent attorney from Fort Worth would be here to assist in the case for the Atlanta head quarters.

This was taken to indicate that the lines of battle between the two factions of the Klan are drawn tight in San Antonio and attorneys predicted that many sensations will result at the hearing.

complete roster of the Klan. In addition to asking for a grounds for receivership are included in the answer upon the grounds that the bulk of the funds of the organization is being diverted to pay big salaries for high officials and little is being used for the benefit of the San Antonio klau. The petition alleges that the salary of M. W. Evans, imperial wizard of the Klan is said to be \$100,000 a year, while that of Ralph Cameron, grand dragon of the Texas realm, is said to be \$50,000 annually. The answer also asks for the names of all officers whose yearly salary is more than \$15,000 a year.

The petition for an injunction to restrain the San Antonio Klan from conferring the Second Degree, is directed at W. J. Simmons, Emperor of the Klan, Atlanta, one man in Travis County and twelve in Bexar County, among whom was P. D. Mathis, well known here as secretary of the Shriners at San Antonio.

O. S. T. IN SUTTON CO. WILL BE IMPROVED.

Considerable work has been done along the road between the Kimble County line and Sonora during the past year, which has greatly improved travel conditions, but the road is still not what the people of this and Sutton County would like.

County Commissioner W. H. Kelley who lives near the road, a few miles over the line, in Sutton County, was in Junction Saturday and said that the commissioners of his county are alive to the needs of improvements along this road, connecting the two county seats, and that they are making every effort to see that a highway is built along this road in Sutton County, but that it will take time to do it and that they have encountered considerable difficulties in the way of securing a right-of-way for the road as surveyed and approved by the Highway Department. The money, according to Mr. Kelley, is, or will be available, and work will be started as soon as necessary obstacles can be removed.

16,000,000,000 CARS IN UNITED STATES IN 1925

Three hundred motor cars were registered in the United States in 1895. In 1925, thirty years later, the number will be in excess of 16,000,000,000.

This is not a prophecy, but a continuation of a table of registrations. In the ten years from 1913 to date, the table of motor car registrations in hundred thousands, reads as follows: 12, 17, 24, 35, 61, 73, 91, 104, 123.

It is hardly prophecy to say that the next two years will show figures of 140 and 160 hundred thousand, or 14,000,000,000 and 16,000,000,000 cars registered.

It is inevitable that these cars have more and more good roads to run upon. If this number of wheeled vehicles congest our few hundred thousand miles of good roads, it is obvious that a greater number will compel more and more hard-surfaced highways.

Notice is hereby given that A. J. Bierschwale has leased the hunting and fishing right on his ranch to the Petmecky Brothers, of Austin, and cannot give anyone permission to hunt or fish therein.

THE BELLS OF RIVERSIDE

It has been said that our everyday life is largely fixed by the sound of bells of one kind or another, but it remained for Mr. Frank Miller of Riverside, Cal., who had a hobby of collecting bells, to assemble the largest collection of bells on earth.

Each bell has a history of interest and romance. Among the noteworthy in this collection of approximately 450 bells are:

A bronze bell of graceful lines, dated 1702, which long hung in the tower of the New Orleans cathedral and later, by a peculiar turn of fate, served on the gall in the same city. A goat bell of pleasing tone, the only one of its kind, found in the Swiss, Italian or French Alps, thought to be more than one hundred years old. A church bell dated 1770, which, no one knows how long, served the master of a castle in Scotland. A specimen of "Big Ben," the largest clock-tower bell in the world, which hangs in the tower of the house of parliament in London. An iron horse bell from Norway--thought to have been made about 1750. A bronze gong, said to be more than eight hundred years old, which came from a temple in China. A bronze bell which belonged to a ship that sailed from Boston in 1755. The ship was wrecked, but, after lying at the bottom of the ocean for almost 100 years, the bell was recovered. The town crier's bell which awakened the good people of Bedford, Mass., the night on which the patriot, Paul Revere, made his famous ride. An ancient, acorn-shaped dog bell from China. A gong from Borneo, used in native war dances. An old-fashioned Roman bell which was unearthed in the ruins of Herod's palace at Axalon. An antiquated, cup-shaped bell from Mecca--that sacred city of Mahomet, in Arabia. An ornamented brass Roman cow bell inscribed in Latin, "Paul, Third, Most Holy Supreme Pontiff," indicating ownership by a pope who died in 1549. A bell, cracked and clapperless, carrying an inscription showing the date of manufacture to have been the year 1247, said to be the oldest dated bell known and to have been made or used in Spain. This bell was in existence 245 years before Columbus discovered America.

And last, but by no means the least, the forefather of the bell family, a "clink stone," which, suspended from a rope and struck with a mallet, gives off a ringing sound. The "clink stone" was the earliest form of bell known. It was used, it is thought, as early as 900 B. C.

CARD OF THANKS

We take this means of expressing our most sincere thanks and appreciation to all of you who so nobly came to our rescue on last Monday afternoon during the fire. Had it not been for the splendid and untiring efforts on the part of so many of our good people, we feel sure that we would have lost our home and most of its contents. For all of this, we are profoundly grateful, and we want you to know that we shall ever remember you for these good deeds.

Fraud Warning!

HOUSE to House solicitors are attempting to sell Phoenix hosiery in various sections of the United States. Sometimes they show credentials in which the word "Phoenix" is prominently displayed. They plan to secure a dollar deposit, promising that the hosiery will be sent by mail, and the balance collected by the postman. And that is the last their victim ever hears of them. They pocket the dollar and disappear. In a few instances, however, they have delivered some make shift hosiery, worth about half the price.

THESE Canvassers are outright frauds, for Phoenix Hosiery is sold only through retail stores. As Phoenix is a leader in sales everywhere, and is probably the best known line of hosiery in the world, these peddlers are trading upon that reputation to defraud the public.

REWARD!--United States Post Office inspectors and the Pinkerton National Detective Agency are now searching for these defrauders, and are working on several such cases.

WE WILL Pay liberally for information that will lead to the arrest of any of these unauthorized solicitors. If you are approached by any person offering Phoenix hosiery and seeking a deposit of money, please notify a Phoenix dealer, or your city's "Better Business Bureau," or if there is a Pinkerton Agency in your city, notify them. Also telegraph us, collect.

WE ISSUE This warning as a protection to the public, as well as ourselves that no one may innocently purchase imitations for genuine Phoenix Hosiery.

Entered in the Post Office at Junction as
second class mail matter.

Notice of church entertainments where
a charge of admission is made, otherwise
of dance, resolutions of respect, and
all matters not news, will be charged for
at the regular rates.

No anonymous communications will be
published in this paper under any conditions.
Persons sending in matter intended for publication
must sign it, but name will not be
used unless requested.

Any erroneous reflection on the character
or standing of any person, will be gladly
corrected if brought to the attention of the
management.

The management will greatly appreciate
the cooperation of the public in helping to
keep this paper with live local news. If you
know a news item, phone 57, or drop your
communication in the mail.

It finally happened! The old
story of the house that was
built on the sand and was de-
stroyed when the rains descend-
ed, is called to mind by the de-
structive fire this week. A few
months ago this paper printed
a list of the things that Junction
needed. Among them were:
an ice plant; a fish hatchery and
adequate fire protection. The
first two seem assured; and the
loss occasioned this week seems
to bring home the idea more
forcefully than ever that ade-
quate fire protection be provid-
ed. Those business houses that
were destroyed this week is only
one section that is an object
of continual fear on the part of
the occupants. There are two
or three other sections of the
business part of town that are
likely to catch fire at any time,
and with the absolute lack of
any protection, we will be help-
less in efforts to prevent untold
damage. What happened this
week is only an example of what
may happen again at any time.
Let's do something, and do
it NOW!

"I would feel that I was tied
hand and foot if I was unable to
tell the people what I had to
sell," said Fred P. Mann, the
nationally known North Dakota
retail merchant, to the San An-
tonio and visiting merchants re-
cently. "The man who thinks
he can prosper without adver-
tising his goods is mistaken and
might as well close his doors.
The newspapers, I believe, are
the greatest advertising me-
dium. The greatest tragedy to
the retailer is that they know so
little of advertising and of ad-
vertising methods. The best
time is advertising is when times
are hard," says Mr. Mann.

Mr. Mann is the most noted
retail man in the United States,
and his statement should have
some careful consideration.

We encounter some one every
few days who doesn't believe in
advertising. We have others
who are going to advertise when
their business gets to be large,
which means that their busi-
ness will never be large and
they will never be advertisers
for more business.

Every successful business
owes a good part of its success
to advertising.

Statistics for last year show-
ed that of the 20,000 business
failures in the United States,
14,000 of them advertised very
little or not at all.

"Oh, people know we are here
and know what we have to sell,"
some tell us. Yes, that's true.
People know who Henry Ford is
and where his products can be
bought, etc., but does this wiz-
ard of the industrial world rest
on his notoriety? No! He is
probably the most extensive ad-
vertiser in the United States.

An unadvertised business,
may not be a dead one, but you
can rest assured that it is a
business that is at a standstill,
and a business that is at a
standstill is not in a very good
position to sell the customer at
bargain, or even reasonable
prices.

In this paper you will find al-
most every line of merchandise

advertised by business houses
of Junction that appreciate
their opportunity to tell about
their goods, and you will find
that these business houses are
alive and can sell you goods at
a saving. A business that is
alive in selling is likewise alive
in buying, and can sell you more
goods for the same money than
the man who, by his non-adver-
tising custom, shows that he is
not seeking your business.
Patronize our advertisers.

The manner in which so many
are subscribing to the fish hatch-
ery fund is most gratifying and
speaks more for our enterpris-
ing citizens than we can express
in words. The day of the tight
wad and the non-progressive is
rapidly passing away in Junction.
There are only a few left
who are willing to look on while
their neighbors bear the burden
of development. It is hard to
conceive the state of mind of
people in business in Junction
who depend to a large extent,
in increased business that will
come as the result of such pro-
gressive moves, but are unwill-
ing to contribute to the upbuild-
ing of the town and county.
Peculiar, too, isn't it, that the
very ones who do the least, are
the ones who find the most
fault with the community? If
a community isn't good enough
to work for it surely isn't good
enough to live in, and the "get
in line or get out" policy would
be a good one to follow. This
isn't said in any specific criti-
cism of those who may not con-
tribute to the building of a fish
hatchery, but it is peculiarly
noticeable that most of those
who refuse to contribute even a
small amount for this enter-
prise are the same ones that re-
fuse to contribute to other wor-
thy enterprises, and that those
who are contributing to this
hatchery are the same ones who
are always supporting the best
interests of the community,
whether it be for better schools,
better churches, better road, or
other enterprises.

ed. Please call early. 24-2tc

The fact that there is hardly
a vacant house in Kerrville
shows the steady growth of the
Gem of the Guadalupe. New
residences are going up con-
stantly, but the demand far ex-
ceeds the supply. With the fine
publicity Kerrville has received
the past summer, together with
completion of good roads, a still
further advance can be expected
next season.—Mountain Sun.

Practically the same condition
prevails here. There are many
houses here in which two, and in
some, three families are living,
because separate houses cannot
be secured. A number of people
are boarding because they
cannot secure houses and every
day we hear of some one want-
ing to rent a house or rooms
for light house-keeping. Rent
houses in a town the size of this
very seldom pay, so the thing
to do is for those needing hous-
es, to buy a small lot and build.
We have advertisers in this pa-
per that will sell you the lumber
on the installment plan, and
buying a home on an install-
ment plan is not bad business.
Junction needs more home own-
ers.

tion before going to Old Mexico.
Mr. Ragland was formerly man-
ager of the Schreiner-Hodges
garage, and expects to go into
the livestock business here. 24-2tc

FIRE PREVENTION WEEK.

President Coolidge, of the
United States, has set apart
October 9th as Fire Prevention
Day, this day being the anni-
versary of the great Chicago
fire. The entire week of Octo-
ber 7 to 13 will be given over
to the teaching of fire preven-
tion in the schools and other
public places.

The proclamation by Presi-
dent Coolidge of October 9 as
national fire prevention day
calls to mind the fact that count-
less columns of newspaper space
tons of printed and illustrated
pamphlets and books, immeas-
urable flow of words from lect-
urers and public officials, school
teachers, fire department chiefs
and insurance men and women
have been devoted to inculcat-
ing into the minds of the young
and old, more especially the
young, the need of caution in
dealing with inflammable mate-
rials. Still the loss of life and
devastation of property due to
preventable fires have been in-
creasing year by year.

In Texas the Governor has
issued a proclamation designat-
ing the week beginning October
7th, as fire prevention week in
this State.

Statistics, carefully gathered
and accurately compiled, show
that more than 150,000 human
lives were sacrificed in the year
1922 in fires, most of which
were preventable, and the value
of property destroyed approxi-
mated to the total cost of oper-
ating the national government
at war time figures. Such a
sacrifice of human life would
make the cannibal portion of
the world green with envy, yet
the holocaust shows little, if
any, signs of giving way to a
rule of reason and intelligence
that will insure caution in deal-
ing with combustibles. Child-
ren are permitted to play with
matches, carry around dynamite
cartridges and handle fireworks
without proper supervision;
grown-ups still "take a chance"
with a gasoline saturated atmo-
sphere and housewives chuck a
copper penny into the place of
a blown-out fuse to keep the
"juice" flowing.

The fire loss in the State of
Texas is approximately \$15-
000,000 annually, with the added
loss of hundreds of lives. Yet
the vast majority of these disas-
trous fires are classed as pre-
ventable. In other words,
the most frequent cause of fire
is carelessness.

With the recent fire in Junc-
tion, fresh on our minds, and
with the easy possibilities of
another such fire, because of
the lack of any protection what-
ever, it seems that in this little
town, perhaps more than any
other, we should observe this
coming week as a real fire pre-
vention week, by carefully ex-
amining all premises and seeing
that any reasonable fire hazard
is removed. Accumulations of
rubbish and trash should be re-
moved, stoves, pipe and flues
properly set up and some united
effort to secure fire protection
should be made that a plan may
be worked out soon that will
prevent such a disaster as hap-
pened this week.

BISHOP VISITS JUNCTION.

"Why I am a Christian."
This is the subject of a se-
ries of sermons that the Rt.
Rev. William T. Capers, D. D.,
Bishop of the Episcopal Dioc-
ese of West Texas, is deliver-
ing in Junction, at the Episco-
pal Church throughout this
week.

Bishop Capers and his Sec-
retary, Mr. Samuel Capers, ar-
rived here from Sonora Monday
afternoon just in time to assist
in fighting the fire that proved
to be so disastrous to the busi-
ness section of the city. The
Bishop and his son are at the
Fritz Hotel as guests of the
Episcopal Church here.

Thus far the Bishop has
preached upon the following
subjects: Tuesday night, "I am
a Christian because Christ only
can satisfy the Spiritual Hun-
ger of Man." Wednesday night,
"I am a Christian because

Christ is the Revelation of the
Fatherhood of God." Thursday
night, "I am a Christian because
I believe in the Fact of Sin." On
Friday night the Bishop
will preach on the subject, "I
am a Christian because Christ
only can Deliver from Sin," and
on Saturday night his subject
will be, "I am a Christian be-
cause Christ is the Master of
the Conscience." The services
for Sunday, the 7th, will be as
follows: Holy Communion and
sermon at 11 o'clock. The sub-
ject of the sermon will be, "The
Need of the Hour." At 8
o'clock the closing service of
these special services will take
place, and Bishop Capers will
preach upon the subject, "Life
After Death." In addition to
these sermons the Bishop is
conducting a devotional service
at 4:15 in the afternoons, his
subject being, "The Develop-
ment of the Spiritual Life."
Bishop Capers and the Rev.
Mr. Mercer, the pastor of the
church here, have extended a
most cordial invitation to the
public to attend these services
and their invitation has been
very generally accepted.

A telephone connection of un-
usual length was made last
Monday night when Coke R.
Stevenson talked to Kansas City.
This is probably the longest
distance talked over the local
exchange, and the person in
Kansas City was clearly heard
here.

FOR SALE—One secondhand
Ford car, delivery body. This
is an old model but in good
condition. Has been overhauled
throughout and all worn parts
replaced at a cost of between
\$60 and \$70. Tires in good

Buy Your Tires from a Firestone DEALER

**At the Latest Prices—The Lowest
in History**

You will find the Firestone Dealer one
of the stable business men of your com-
munity. He offers a clean, fresh stock,
backed by a well organized service. He
wants you as a permanent customer.

That is the reason he sells Firestone
tires. He knows and has plenty of proof
that they are the best tires on the mar-
ket. He can give you the greatest value
and thereby retain your trade for years.

Every day you find new proof of this
unequalled value. On the 15th of this
month, Firestone Tires set two new dirt
track records at Syracuse when Tommy
Milton slid around four turns at every
mile and covered the 100 miles in 75 min-
utes, 33 hundredths seconds. He also
established a new world's record for one
mile by covering it in 42 and 28 hun-
dredths seconds. The next four cars to
finish were also equipped with Firestone
Gun-Dipped Cords. Each one of them

went the entire race without a stop. This
and every other important race this year
was won on Firestone Gun-Dipped
Cords and Steam-Welded Tubes. Such
performance gives you conclusive proof
of their strength and durability.

Not only do race drivers use Firestone
Tires as protection to their lives and the
surest way to victory, but the largest
tire buyers in the world insist on and
buy Firestone Tires for economy and
service. These buyers include the leading
car manufacturers, the biggest com-
mercial car operators and the taxicab and
motorbus operators. 57,639,714 tire
miles were sold to taxicab and motorbus
operators in the month of August.

Think this over. You cannot afford
to accept anything less than Firestone
service and economy. You can buy this
service and economy from any of the
dealers listed below.

HON. JOE BURKETT
Of Eastland.
Candidate for Governor.

A recent letter from Br. Burkett to the Eagle, states that he will formally open his campaign for governor at Llano on January 3, and expects to speak at Junction at 8:30 p. m. the following day. The letter also states that he will speak at Rocksprings at 4:30 p. m. and at Leakey at 7:30 on the same day.

Judge Burkett is evidently not familiar with the roads and distances in this country, or else expects to travel by aeroplane, as it would not be possible to cover these three places in the same day.

Mr. Burkett was formerly District Judge of his district; later served as a member of the House of the 37th Legislature, and is at present a member of the State Senate. He is recognized as a very able lawyer and is an avowed opponent of the Ku Klux Klan, and has been a rather severe critic of the present administration's policy in sending the rangers into towns and counties of the State.

THANKS!

Wish to express my thanks for services rendered to me by fellows who so quickly rushed to the rescue when they saw the flames reaching my roof. In less than 15 minutes, furniture and merchandise was taken care fully out to a safe distance, even to the plate glass front. As soon as the deck was cleared for further action, the noble bunch of men and boys went over the top with buckets of water and fought the flames, finally extinguishing it as it was reaching the ceiling. I noticed a rapid transit crew was operating a line of cars, furnishing water in open barrels from the river. The hose and hydrants came too slow.

And last I want to thank the First National Bank and the Junction Hardware Co., for room on their floor so kindly offered to store my stock until I can rebuild my roof, and windows for business again.

Very truly,
N. C. Patterson.

He who has a thing to sell,
And goes and whispers in a well
Is not as apt to get the dollars
As he who climbs a tree and hollers.

ROBS CALOMEL OF NAUSEA AND DANGER

Medicinal Virtues Retained and Improved. Dangerous and Sickening Qualities Removed. Perfected Tablet Now Called "Calotabs."

The latest triumph of modern science is a "do-nauseated" calomel tablet known to the drug trade as "Calotabs." Calomel, the most generally useful of all medicines this century upon a wider field of popularity, purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant medicine to take. One Calotab at bedtime with a swallow of water, that's all. No taste, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original, sealed packages, price 35 cents for the large family package; ten cents for the small; trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs.—Adv. 10-16

NOTICE OF SALE OF REAL ESTATE UNDER EXECUTION.

STATE OF TEXAS.
County of Kimble.
In the District Court of Kimble County, Texas.

Chas. Schreiner Bank, of Kerrville, Texas, vs. S. L. Jeter and Mrs. Emma Lewellen, Survivors in Community of the estate of H. N. Lewellen, deceased.

Whereas, by virtue of an execution issued out of District Court of Kimble County, Texas, on a judgment rendered in said Court on the 6th day of September, A. D. 1923, in favor of said Chas. Schreiner Bank, and against the said S. L. Jeter and Mrs. Emma Lewellen, No. 765 on the docket of said Court, I did on the 1st day of October, A. D. 1923, at 10 o'clock a. m. levy upon the following described tracts or parcels of land situated in the County of Kimble, State of Texas, and belonging to the said Mrs. Emma Lewellen, survivor in community of the estate of H. N. Lewellen, deceased, to-wit:

Tract No. 1: The south one-half of survey No. 47, abstract No. 2093, Certificate No. 140, original grantee Chas. Lantz, patented to the heirs of Chas. Lantz by patent No. 538, Volume 25, dated September 25th, 1911. Said south one-half being described by metes and bounds as follows: Beginning at the S. W. corner of said survey No. 47, a stone mound on the east line of survey No. 662, in the name of B. B. & C. Ry. Co.; thence north with the east line of survey No. 662 to the N. E. corner same; thence west 69 yards to the east line of survey No. 662, B. B. & C. Ry. Co.; thence north with the east line of said survey No. 662 to a stake as agreed line between the respective subdivisions out of this survey No. 47, as described in a partition deed from G. W. Hodges to William B. Miller; thence east following east line to the place of beginning. Containing 738 acres of land.

Tract No. 2: Two hundred seventeen (217) acres of land out of and being a part of survey No. 661, certificate No. 237, abstract No. 46, original grantee B. B. & C. Ry. Co.; said tract of land having metes and bounds as follows: Beginning at a stone mound for the N. W. corner of this survey; thence east 104 yards to a stone mound for the N. E. corner of survey No. 661, B. B. & C. Ry. Co.; thence south 1810 yards to a stake for the S. E. corner of this survey; thence west 1016 yards to a stone mound for the S. W. corner of this survey; thence north 1610 yards to the place of beginning. The premises commonly known as the Will Miller ranch, situated on Johnson Fork in Kimble County, Texas.

And on the 6th day of November, A. D. 1923, being the first Tuesday of said month, between the hours of 10 o'clock a. m. and 4 o'clock p. m., I did at the court house in said county, Texas, offer for sale and sell at public auction, for cash, all the right title and interest in and to said property.

Witness my hand and the seal of said County, Kimble County, Texas, this 24th day of September, A. D. 1923.

24-26

NOTICE OF APPLICATION FOR PROBATE OF WILL.

THE STATE OF TEXAS.

To the sheriff or any Constable of Kimble County, Texas:

YOU ARE HEREBY COMMANDED to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than ten days preceding the date of the notice in the County of Kimble, State of Texas, and you shall cause said notice to be printed at least once each week for a period of ten days exclusive of the first day of publication before the Court House thereof, in the town of Junction, Kimble County, Texas.

NOTICE OF APPLICATION FOR PROBATE OF WILL.

THE STATE OF TEXAS.

To all Persons interested in the Estate of Adam Murr, Deceased, Mrs. Eliza Murr has died in the County Court of Kimble County, an application for the Probate of the last will and testament of Adam Murr, deceased, filed with said application and her letters testamentary of the Estate of Adam Murr, deceased, which will be heard at the next Term of said Court, commencing the first Monday in November, A. D. 1923, same being the 26th day of said month, at the Court House thereof, in the town of Junction, at which time all persons interested in said Estate may appear and contest said application should they desire to do so.

Herein said not, but have you then and there before said Court this Will, with your return thereon endorsed, showing how you have executed the same.

Given under my hand and the seal of said Court at Junction, Texas, this 26th day of September, A. D. 1923.

N. R. SKAGGS,

Clerk County Court,

Kimble County, Texas.

"Well! Strong!"

Mrs. Anna Clover, of R. F. D. 5, Winfield, Kans., says: "I began to suffer some months ago with womanly troubles, and I was afraid I was going to get in bed. Each month I suffered with my head, back and sides—a weak, aching, nervous feeling. I began to try medicines as I knew I was getting worse. I did not seem to find the right remedy until someone told me of Calotabs."

Calotabs
The Woman's Tonic
I used two boxes before I could see any real change, but after that it was remarkable how much better I got. I am now well and strong. I can recommend Calotabs for it certainly benefited me."

If you have been experimenting on yourself with all kinds of different remedies, better get back to good, old, reliable Calotabs, the medicine for women. About 90% of all women always need it, which has helped many thousands of others, and which should help you, too. Ask your neighbor about it; she has probably used it.

For sale everywhere. E. G.

One Good Turn Deserves Another

Your Druggist has spent years in study to qualify for his position. It cost you no more to buy from a qualified, reliable druggist than to buy elsewhere, and you get the advantage of his study and experience. Hundreds of dollars are tied up in drugs that serve you in cases of emergency. Why not show your appreciation by buying what he has in stock that you need in the every day run of life. It costs no more and helps to maintain the first class service that you need when sickness comes or accidents happen.

Ford
THE UNIVERSAL CAR

New Prices on New Model Fords

The following prices on Ford Cars became effective Oct. 2, 1923:

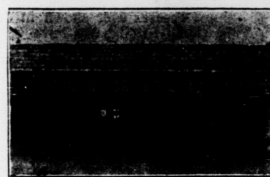

F. O. B. Detroit Delivered in Junction, Filled Ready to Drive Out

Chassis	\$230.00	\$307.24
Runabout, standard	265.00	342.26
Runabout, with starter	350.00	434.96
Tourer, standard	295.00	377.32
Tourer, with starter	380.00	466.12
Truck chassis	370.00	448.24
Coupe	525.00	616.60
Sedan, four door	685.00	784.40
Tractor	420.00	485.88

These are the lowest prices in the history of the Ford Motor Co. The demand has always exceeded the output, and to get your car promptly, you should place your order now.

Bear in mind that your home dealer is always most interested in giving you the best service possible and when you buy your car from us you will not only receive the same value that you receive anywhere else, but we give you after service which is worth many dollars but does not cost you anything. Buy your car from us and let us help you keep it in tune at all times. We want you to get the very best service and pleasure out of the car we sell you and can help you in many ways to do this, free of charge.

If you are thinking of buying a car now or a little later on, come in and give us your order and we will do our very best to make delivery as promptly as possible.

NEW PRICES ON GOODYEAR TIRES

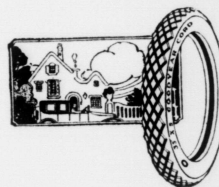

The following new prices apply on Goodyear Tires, f. o. b. Junction:

30x3, plain, old price	\$10.45	New price	\$ 8.85
30x3 All Weather old price	12.50	New price	11.20

LONDON TRIP.

The Eagle Editor and E. Hokekamp were in London last Saturday morning mingling with the citizens of Kimble County's "second largest town," incidentally the editor was looking after the interests of The Eagle, while Mr. Hokekamp was seeing those interested in assisting in the fish hatchery proposition.

We found most of the business men, and citizens generally in full sympathy with the move and they were willing to contribute, and to otherwise help in raising funds that would build the hatchery, which they know will greatly benefit them, as well as people of other sections of the county. The list of contributors that will be published later will show the names of those who were sufficiently public spirited to assist in this proposition. Naturally, there were two or three business houses which derive a good part of their business from tourists, that were not willing to contribute. They thought it a good thing and that it would mean added business for them, but were willing to let the other fellow do the work and contribute the funds.

Two lists of contributors, to date, have been sent to R. L. McKinney and to G. T. May, at the London Mercantile Company. These gentlemen are going to solicit contributions from London citizens that we were unable to see.

We found the town rather a busy place. Although some trouble had been happening at the gin, cotton was coming in fast and the buyers were busy.

London Mercantile Co., R. L. McKinney and E. P. Furr are buying cotton in connection with their other business.

An interesting incident was told to us by Mr. May. Cotton was selling that day around 27 cents. Mr. May said that a few days ago he had come across an old cotton book showing where he had purchased a bale several years ago for 2 1/2 cents, and he had recalled that after bidding on the bale, examined the staple closely and offered the seller \$2.50 if he could be released from the bid, but this offer was refused. He also told us of buying a bale recently that the producer claimed had been planted, worked, picked and ginned without having any rain on it.

Mrs. Weaver is improving the interior of her building.

Mr. Boyce has a market and barbecue stand. Mr. Boyce is one of the old timers in this country and was in the early days a race horse enthusiast, and was also well acquainted with the noted character, John Wesley Hardin. We had an extended conversation with our good friend Dr. France, and it developed that we had a number of mutual friends in East Texas.

Another thing that was done, we secured a regular correspondent for this paper. Each week hereafter, we hope to have a good live news letter from London, and after talking with a number of the merchants about advertising, we are hoping that it will be possible a little later, to give London a full page to be known as the London Section, which will carry all the news of that community as well as the

advertisements of those merchants that see the advantage of advertising. At present, London has no means of telling the outside world that they are on the map and the business houses there will find it more than profitable to advertise and thereby secure for their little town some valuable publicity that they can secure in no other way. Harper has a page in the Fredericksburg Standard and we contemplate a similar arrangement for London.

Mrs. Flossie McDonald was appointed a representative of The Eagle at London and is authorized to accept and receipt for new or renewal subscriptions and solicit advertising for this paper.

CARD OF THANKS

I wish to take this means of thanking those who came to my assistance last Monday and helped remove my machinery and fixtures to a safe distance. Although the building burned, practically everything in the way of fixtures and stock was saved and because of the valuable help given me, I was able to install my machinery in the Hamer building, and am again able to care for your needs in shoe and boot repair work.

E. O. Lowgren.

Ramouillet Lambs to Sell.

They start the market and set the price every year. We have a dozen rams sired by "170", my grand champion ram that weighed 274 pounds. They are eating oats, are in good condition, and ready for sale.

The Cardwell Ranch, 24-3tc Telegraph, Texas.

J. G. Ayala has just completed a large 5-car garage for the accommodation of his Sunset cars. John says that business is good with him but the weather and roads the past few weeks have put them 'hind with the freight business. However, a few days' time will enable him to get caught up again.—Kerrville Mountain Sun.

Eat at the Hodges Hotel; best meals at popular prices adv.

BILL SAM'S DICTIONARY

By J. L. MARTIN

Ruby, Shorty Smith's youngest daughter, who failed to make her grades at the Cross Roads school last year, entered the Taterhill Training school last week. Ruby has already learned to spell it "Reuby Smythe." Shorty says that he is going to buy "Reuby" a diploma at the close of the term, even if he has to sell his Ford.

TRAINING SCHOOL: A large brick building in which girls and boys are trained to do everything except how to make a living. Bill Sam's Dictionary, page 788.

FOR SALE.

100-Acre farm, 4 mules, one cow and calf, small bunch of hogs, some corn and hay. This stuff is located 3 miles S. W. Junction on the Llano River. 21-4tc L. W. CHADWICK, Owner.

A Good Thing - DON'T MISS IT.

CLUB AND SOCIETY NOTES.

WOOD-WILSON.

On last Friday the friends of the contracting couple were agreeably surprised to learn of the marriage of A. J. Wood and Miss Zudie Wilson. Mr. Wood lives in the Bear Creek community and is a son of W. W. Wood an old time resident here, and a brother of County Commissioner A. N. Wood. The bride is a niece of J. R. Pettitt of Junction, and came here recently with Mr. and Mrs. Pettitt from Rocksprings. The ceremony was performed by Elder John S. Durst, at his home in Junction.

Congratulations are extended

On last Monday night a barn some 30x30 feet, filled with feed on the Howard Ragsdill ranch on Cedar Creek, burned with a loss of a considerable amount of feed. The cause is unknown but it is supposed that the fire was the result of spontaneous combustion, as some green feed stuff had recently been placed in the barn. Very little of the contents were saved.

MERRY WIVES CLUB

Last Saturday afternoon the hospitable door of the J. C. Beddingfield home were thrown open when Mrs. Beddingfield and Mrs. Roger S. Parry of Kingsbury, entertained the Merry Wives Club and a number of their friends at bridge.

Twisted streamers of pink and green crepe paper and pink flowers with greenery added a colorful note to the occasion. The tallies and score cards further carried out the color scheme of pink and green.

Mrs. C. T. Holekamp won the club prize and Mrs. Frank McMillan received the guest prize. Both prizes were pretty pieces of ivory.

Fruit salad in tomato cases on lettuce and water, iced tea, ice cream and cake with cunning pink and green candy favors, were served at the close of the afternoon.

FOR SALE—House and ten lots, five rooms with bath room and front and back porch, both screened. Hot and cold water. For price and terms see 24-12tc

Andrew Paterson
Heaters, cook stoves, stove pipe and supplies at Wahl Bros. & Jordan. 24-2tc

The Model Shop is now displaying the most beautiful line of dresses ever shown in Junction. In silks we have Canton crepes, Paulette crepes, Charmeuse and satins. In wool, fine twills and velvets. Up to date coats and suits. New hats every week. The Model Shop, Mrs. Vara James.

ROOSEVELT ROUNDUP

Mrs. S. F. Richardson and daughter, Velma, returned to their home Sunday after a few days' visit with Mr. and Mrs. Leo Richardson, near Sonora.

Mrs. Philip Luthringer and Miss Rachel Simon visited at the Earl Hill ranch Sunday.

Miss Velma Rape left Sunday for Cleo where she is to begin her school Monday.

Miss Cleora Richardson left Sunday for the Jim Chadwick ranch where she has a position as governess.

A singing was enjoyed at the school house last Sunday night by a large crowd.

Miss Tillie Simon spent Saturday night with Miss Tillie Thiers at Cedar Hill.

Mr. and Mrs. Mann and Ben Freidt were in Roosevelt trading Monday.

Claude Lawler's baby was very sick Monday but is better at this writing.

Joe Ragsdale was in Roosevelt Tuesday.

Miss Eunice Goodall has returned home after spending a few days' vacation at San Angelo visiting her sister, Mrs. W. W. Adams.

Wiley Adams was in Roosevelt Tuesday on business.

Ben F. Simons and Roy Fisher spent Sunday at the Chas. Simons ranch.

Mrs. S. S. Bundy and one of her little daughters were in Roosevelt Wednesday on business.

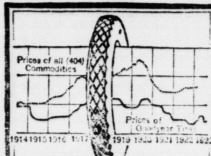

Capt. Rieck was in Roosevelt Wednesday on business.

Thank You--

IT IS With a deep appreciation for the volunteer service rendered this institution last Monday when its building and contents were threatened with destruction, that we write these lines that those who so gallantly assisted us, may know that we fully appreciate their efforts in removing our valuable papers, records, furniture, etc., from the building, with such care that there was only slight loss and damage to the contents.

THEN For the heroic efforts put forth after the contents had been removed, to save the building, and as a result, our loss was much less than it would have been without this valuable assistance.

BECAUSE WE do not know each person who rendered us such valuable service, and because we cannot see each one personally to thank them, we take this method of thanking everyone, most sincerely, for the part they played in the gallant effort to save the building and contents.
